

# Undergraduate Programs

## Undergraduate Degrees (Program Descriptions)

### Business, W. P. Carey School of

#### Accountancy, BS (BAACCBS)

**Campus:** Tempe, West, Online

**Program Description:** The W. P. Carey School of Accountancy works closely with its Professional Advisory Board to create a learning environment that emulates the real world by exploring applied processes and strategies. The BS program in accountancy prepares students by equipping them with critical thinking, team-building, communication and information technology skills along with accounting theories and procedures.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus

**Program Math Intensity:** Moderate

#### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

#### **Accelerated Program Options:**

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Accountancy and Data Analytics, MACC

Taxation and Data Analytics, MTax

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements: 1230 SAT Reasoning OR 25 ACT score, OR graduated in the top 8% of high school class, OR have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

First-year applicants should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice will be placed in a business BA program in W. P. Carey School of Business.

Readmission requirements: Students must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer admission requirements (30 or more credit hours after high school): transfer GPA of 3.00 and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score OR must have graduated in the top 8% of their high school class OR have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer students should select an additional major when applying for admission. Additional choices may include any of the school's BA programs or any other business or other degree program outside W. P. Carey School of Business.

Students who are admissible to the university but do not meet admission requirements for this program and who did not select a second major or are not admissible to their second major choice are placed in a Bachelor of Arts program in W. P. Carey School of Business. Students not interested in the program or campus location may reach out to [wpcareyug@asu.edu](mailto:wpcareyug@asu.edu) (<mailto:wpcareyug@asu.edu>) for assistance in selecting another degree program.

**Change of Major Requirements:** Students should visit the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major should submit their request through the school's Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/accounting-degree/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BAACCBS~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to accountancy students. Through international study and internships, students can gain valuable skills employers are looking for: communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide. Understanding international accounting methods helps students become more well-rounded and competitive in the accounting field. Accountancy students in particular benefit from thinking about participating in a Global Education program (<https://goglobal.asu.edu/>) early in their program. Students can leverage global opportunities and learning, great assets in the preparing for internships and provides unique experiences that they can share with recruiters.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/accountancy>) for students majoring in accountancy.

**Career Opportunities:** Accounting is a dynamic field, with diverse career opportunities in the private sector and in government agencies worldwide.

Graduates have the essential academic preparation and competitive edge they need for:

- a position in consulting or are planning to operate a business
- a position in personal financial planning and portfolio analysis
- a professional career in public, corporate and governmental accounting

The U.S. Bureau of Labor Statistics' Occupational Outlook Handbook (2018) states, "Employment of accountants and auditors is projected to grow 10% between 2016 and 2026, faster than the average for all occupations."

Graduates are also well-positioned to pursue a graduate degree or attend law school.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Applied Business and Technology Solutions, BA (BAAPBTSBA)

**Campus:** Polytechnic, West, Online

**Program Description:** The BA program in applied business and technology solutions is designed to meet the needs of workforce learners who wish to complete an undergraduate degree in business. In this degree program, students can quickly access accounting, business analytics, computer information systems, economics, finance, management, marketing, process management and business ethics courses and directly connect what is taught in the classroom to their working environment. Applied internship courses in the program enable students to put what they are learning into practice, and emphasis areas allow students to further customize the degree to their working environments.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra

**Program Math Intensity:** Moderate

### Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors. Students ready to change their major should submit their request through the Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/applied-business-technology-solutions/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BAAPBTSBA-null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### Global Opportunities:

Global Experience: As globalization continues to impact the way business functions, study abroad programs provide students valuable skills employers are looking for, including communication and interpersonal skills, flexibility, motivation, and a global perspective on business applications worldwide.

Business students can participate in Global Education programs (<https://go.global.asu.edu>) nearly anywhere in the world and gain valuable internship experience in many global business hubs, like Australia, Germany, England, Singapore, China and the United Arab Emirates.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/>) for students majoring in applied business and technology solutions.

**Career Opportunities:** The strong academic foundation in core business functions and customizability of this applied business and technology solutions program allows graduates to explore a variety of different fields.

## Business, BA (BABUSBA)

**Campus:** Polytechnic, Tempe, West

**Program Description:** The BA program in business provides an innovative, transdisciplinary approach to learning, which broadens career options upon graduation. Not only do students acquire a strong grounding in the principles of business, they also immerse themselves in coursework outside the business school, supplementing the business degree.

Students in the program learn how to apply core business knowledge in one of the following disciplines:

- agribusiness (global agribusiness)
- business administration
- communication
- corporate accounting
- food industry management
- global leadership
- global logistics management
- global politics
- health care
- human resources
- information security
- law
- language and cultures
- public service and public policy
- retail management
- sports business
- statistics
- sustainability
- technology
- tourism

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 117 College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for

admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are placed in the exploratory social and behavioral sciences program in University College.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are prompted in My ASU to select a new major.

**Change of Major Requirements:** Students cannot change their major to this degree program. Students should submit a request through the business school's Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform to declare a business concentration. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSBA~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: As globalization continues to impact the way business functions, study abroad programs (<https://goglobal.asu.edu/>) provide students valuable skills employers are looking for, including communication and interpersonal skills, flexibility, motivation and a global perspective on business applications worldwide. Business students can study abroad nearly anywhere in the world and participate in real-world case studies in global business hubs.

**Career Opportunities:** Students in this bachelor's degree program graduate from one of many concentrations in the W. P. Carey School of Business, and they should see those concentrations for career opportunities.

## Business (Business Administration), BA (BABUSBABA)

**Campus:** Polytechnic, West, ASU at Lake Havasu, ASU at The Gila Valley, Online

**Program Description:** In the BA program in business with a concentration in business administration, students gain a breadth of knowledge and the skills needed for managing business operations.

The program provides the full business core plus a concentration with 18 credit hours of coursework focused on skills such as forecasting demand; planning inventory; purchasing services; conducting skillful negotiations; building strategies for the future; and managing people, finances and risk.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 117 College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management (Creative Industries and Design Thinking), MGM

Global Management (Digital Audience Strategy), MGM

Global Management (Global Affairs), MGM  
Global Management (Global Business), MGM  
Global Management (Global Development and Innovation), MGM  
Global Management (Global Digital Transformation), MGM  
Global Management (Global Entrepreneurship), MGM  
Global Management (Global Health Care Delivery), MGM  
Global Management (Global Legal Studies), MGM  
Global Management (Integrated Health Care), MGM  
Global Management (Nonprofit Leadership and Management), MGM  
Global Management (Public Administration), MGM  
Global Management (Public Policy), MGM  
Global Management (Sustainability Solutions), MGM  
Global Management (Sustainable Tourism), MGM  
Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are placed in the exploratory social and behavioral sciences program in University College.

Students with more than 45 transfer hours who are not admissible to the W. P. Carey School of Business will be contacted to select an appropriate major.

**Change of Major Requirements:** Students should visit the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website, to determine if they meet change of major requirements. Students ready to change their major should submit their request through the Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-business-concentration-business/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSBABA-null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to success in business administration. Through international study and internships, students can gain valuable skills employers are looking for: communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide. Immersion in a foreign culture will help students gain a new perspective on how to effectively manage people, finances and risk for organizations of all sizes. Participating in a Global Education program (<https://goglobal.asu.edu/>) contributes to this by allowing students to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/business-administration>) for students majoring in business administration.

**Career Opportunities:** Graduates are prepared to manage processes and people in a wide range of industries. Career opportunities include:

- administrative services manager
- business manager
- general and operations management
- sales manager
- training and development manager

## Business (Chinese Language and Culture), BA (BABUSCLBA)

**Campus:** Tempe

ASU is no longer accepting new students to this program. Students interested in pursuing a Chinese language track should apply to the language and culture concentration (<https://degrees.apps.asu.edu/bachelors/major/ASU00/BABSLACUBA/business-language-and-culture>) of the BA in business.

**Program Description:** The mission of the concentration in Chinese language and culture within the BA program in business is to create global business professionals who can function well culturally and linguistically in the business environment in China and domestically. As China becomes an increasingly important participant in the global economy, and as the manufacturing and financial sectors become more globalized, the need for business professionals skilled in communicating in the Chinese language is growing.

With a network of 26 flagship programs at 22 institutions of higher education across the U.S., the language flagship program graduates are prepared to take their place among the next generation of global professionals, commanding a superior level of proficiency in languages critical to U.S. national security and economic competitiveness. This program prepares participants to function professionally in Chinese within diverse business fields.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** MAT 210 - Brief Calculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for

admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are placed in the exploratory social and behavioral sciences program in University College.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are prompted in My ASU to select a new major.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSCLBA~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

**Global Experience:** As globalization continues to impact the way business functions, study abroad programs provide vital experiences to students. Study abroad programs allow students in the Chinese language and culture concentration to practice language and cultural competency-building for global business success. Students gain valuable skills employers are looking for, including communication skills, flexibility, motivation and a global perspective on business applications worldwide. Successful graduates of this program are familiar with cultural customs and nuances of conducting business in China.

The W. P. Carey School of Business recommends these study abroad programs (<https://goglobal.asu.edu/students/major/wp-carey/chinese-language-culture>) for students majoring in business with a concentration in Chinese language and culture.

**Career Opportunities:** This degree program provides students with the fundamental business skills, linguistic training, critical thinking and intercultural competencies required to work in the increasingly globalized world markets that now rely on trade and commerce with China.

Graduates of this program are equipped to play a key role in companies and organizations seeking new markets or dealing with international interests in the U.S. and are suited to the demands of small-business enterprises as well as multinational companies.

Currently, there is a demand for Mandarin-speaking business professionals in the hotel and tourism industry and in the consulting, banking and finance, international trade, sports management and media fields.

## **Business (Communication), BA (BABUSCBA)**

**Campus:** Polytechnic, Tempe, West, ASU at Lake Havasu, Online

**Program Description:** The BA in business with a concentration in communication is an innovative, transdisciplinary program that prepares students for positions in a variety of professions in which business and communication play an important role in ensuring success.

Students complete rigorous courses within the communication concentration in addition to the skill and core courses required of all W. P. Carey School of Business majors.

Graduates have specific knowledge of business practices and the capacity to effectively communicate complex business information.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 117 College Algebra

**Program Math Intensity:** Moderate

#### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Communication, MA
- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Integrated Health Care), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are placed in the exploratory social and behavioral sciences program in University College.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are prompted in My ASU to select a new major.

**Change of Major Requirements:** Students should visit the following W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major should submit their request through the Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-business-concentration-communication/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSCBA~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to business communication majors. Through international study and internships, students can gain valuable skills employers are looking for: communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide. Understanding how to collaborate with diverse peers, persuade and negotiate, manage and work in a variety of teams, and connect with real-life customers will help students influence business success through effective communication. Participating in a Global Education program (<https://goglobal.asu.edu/>) contributes to this by allowing students to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/business-communication>) for students majoring in business communication.

**Career Opportunities:** Business communication has exploded as a distinct professional field as companies require rapid and considered responses, from conveying ordinary information to crisis communications. Historically, these positions have been staffed with people trained in communication, English, journalism or other fields but who lack specific business knowledge. Graduates of this program are qualified to enter these positions with knowledge that is useful immediately to potential employers and can quickly advance graduates' careers.

## **Business (Corporate Accounting), BA (BABUSCABA)**

**Campus:** Online

**Program Description:** The BA program in business with a concentration in corporate accounting addresses the educational needs of many students who have an interest in accounting but no plans to enter public accounting.

The emphasis of this program is managerial accounting. The six major courses in the concentration prepare students for corporate accounting positions by helping them develop skills in strategic financial planning, control, corporate compliance and decision-making.

Upon completion of the program, students may take the Certified Management Accountant exam.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 117 College Algebra

**Program Math Intensity:** Moderate

#### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

This program is not available to students with BA, BS or MS degrees in accountancy.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer credit hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are placed in the exploratory social and behavioral sciences program in University College.

Students with more than 45 transfer credit hours who are not admissible to University College are contacted to select an appropriate major.

**Change of Major Requirements:** Students should visit the following W. P. Carey School of Business website (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>), to determine if they meet change of major requirements. Students ready to change their major should submit their request through the Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform. This program is not available to students who already hold a BA, BS or MS degree in accountancy.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-business-corporate-accounting/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSCABA~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to success in corporate accounting. Through international study and internships, students can gain valuable skills employers are looking for: communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide. International experiences helps students understand international accounting methods and grow their portfolio of marketable business skills that make them a competitive candidate in the corporate accounting industry. Participating in a Global Education program (<https://goglobal.asu.edu/>) contributes to this by allowing students to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/corporate-accounting>) for students majoring in corporate accounting.

**Career Opportunities:** Career opportunities are generally substantive and in high demand. Senior management roles for corporate accountants include chief financial officer positions. Currently, more than half the CFOs at larger corporations have formal accounting training. Projecting into the future, the longer term trend is for CFOs to have extensive corporate accounting training, particularly since CFOs at public U.S. corporations personally sign the financial statements.

Typical early- to mid-career positions held by corporate accountants include controllers, treasurers and vice presidents in areas like financial planning, divisional controlling, cost accounting directing, senior financial analysis and senior accounting. These positions typically report to the CFO.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential

licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

**Contact Information:**

## Business (Financial Planning), BA (BABUSFPBA)

**Campus:** Tempe, Online

**Program Description:** The BA program in business with a concentration in financial planning provides students with knowledge and experience in personal financial planning.

Students learn from leading faculty the necessary skills in finance, taxes, portfolio management, insurance and estate planning.

This program delivers to the next generation of financial planning professionals the knowledge and skills needed for developing solutions to clients' personal financial needs.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 117 College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer credit hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are placed in an exploratory program.

Students with more than 45 transfer credit hours who are not admissible to an exploratory program will be contacted and asked to select an appropriate major.

**Change of Major Requirements:** Students should refer to the following W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major should submit their request through the W. P. Carey School of Business Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/financial-planning-business/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSFPBA-null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire global skills and knowledge in preparation for a career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/financial-planning>) for students majoring in financial planning.

**Career Opportunities:** Financial planners are in high demand in the dynamic field of financial services and planning. Aging populations are paying closer attention to their finances as they approach retirement, and the rising need for financial planning services and advisors translates into huge opportunities for careers in this growing market. Employment of personal financial advisors is projected to grow 15% between 2016 and 2026, much faster than the average for all occupations.

Graduates of the Bachelor of Arts in financial planning can secure employment in the growing field of financial services and planning.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Business (Food Industry Management), BA (BABUSFIMBA)

**Campus:** Polytechnic, Online

**Program Description:** The BA program in business with a concentration in food industry management provides students with the knowledge and skills needed for leadership roles in the global food industry.

The program has been developed in close coordination with partners in the food industry and provides the full business core plus 21 credit hours of food industry coursework.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 117 College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management (Creative Industries and Design Thinking), MGM  
Global Management (Data Science), MGM  
Global Management (Digital Audience Strategy), MGM  
Global Management (Global Affairs), MGM  
Global Management (Global Business), MGM  
Global Management (Global Development and Innovation), MGM  
Global Management (Global Digital Transformation), MGM  
Global Management (Global Entrepreneurship), MGM  
Global Management (Global Health Care Delivery), MGM  
Global Management (Global Legal Studies), MGM  
Global Management (Integrated Health Care), MGM  
Global Management (Nonprofit Leadership and Management), MGM  
Global Management (Public Administration), MGM  
Global Management (Public Policy), MGM  
Global Management (Sustainability Solutions), MGM  
Global Management (Sustainable Tourism), MGM  
Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are placed in the exploratory social and behavioral sciences program in University College.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are prompted in My ASU to select a new major.

**Change of Major Requirements:** Students should visit the following W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major should submit their request through the Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-food-industry-management/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSFIMBA~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

**Global Experience:** As globalization and growing populations continue to impact the way the world lives and works, international experiences have become vital to success in food industry management. Through international study and internships, students can gain valuable skills employers are looking for: communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide.

Understanding global trends as consumer tastes and needs change will help students be a more prepared and competitive leader in a variety of food industry firms and organizations. Participating in a Global Education program (<https://goglobal.asu.edu/>) contributes to this by allowing students to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/food-industry-management>) for students majoring in food industry management.

**Career Opportunities:** This concentration in food industry management prepares students for business careers in the food industry, which is defined as the group of firms and organizations involved with manufacturing, marketing and distributing food beyond the farm to retail stores, restaurants and to institutions such as schools and hospitals. The industry is becoming increasingly competitive, sophisticated and global, and it shows a growing demand for professional management as one in six people are employed in the food industry nationwide, with 100,000 in Arizona.

## **Business (Global Agribusiness), BA (BABUSGAGBA)**

**Campus:** Polytechnic

**Program Description:** The agribusiness industry is increasingly competitive, sophisticated and global, driving demand for innovative leaders who understand the industry's unique challenges and practices. The BA program in business with a concentration in global agribusiness teaches students the business of agricultural production, finance, marketing and distribution.

Through a technology-rich, applied, industry-oriented curriculum that focuses on real-world projects, students explore global agribusiness issues such as international trade, food safety and sustainability. It is specifically designed to meet the needs of students interested in studying the business aspects of agriculture in the domestic and global economy. Students learn to analyze and manage issues involved in food manufacturing, input and output supply activities, commodity trading and food distribution.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 117 College Algebra

**Program Math Intensity:** Moderate

#### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

#### **Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Environmental and Resource Management, MS
- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Data Science), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM

Global Management (Global Health Care Delivery), MGM

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to success, especially in global leadership. Through international study and internships, students can gain valuable skills employers are looking for: communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide. Through their courses, students become versed in cultural sensitivity and awareness, understanding and bridging cultural divides, and leveraging diversity for business gains. Students can apply these lessons through international experiences so that they will become a more competitive and prepared global leader. Participating in a Global Education program (<https://goglobal.asu.edu/>) contributes to this by allowing them to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/global-leadership>) for students majoring in global leadership.

**Career Opportunities:** A degree that incorporates solid business skills and global studies helps prepare students for employment in the global business world. Opportunities exist for qualified students to work either domestically or internationally in an international organization. This degree program augments business and leadership skills necessary in most corporations.

## Business (Global Logistics Management), BA (BABUSGLBA)

**Campus:** West, Online

**Program Description:** Logistics management focuses on the integration and partnerships necessary for meeting customer needs on a timely basis, with relevant and high-quality products produced and delivered in a service-effective manner.

This BA program in business with a concentration in global logistics management trains students to be strategic thinkers, excellent analysts, effective communicators and team leaders who are focused on efficiency, effectiveness and increasing revenue.

An efficient logistics management system is critical to the success of global corporations, ensuring the supply of goods and services flowing through the system closely matches the demand. Logistics management professionals manage, coordinate and transport products from raw materials to the finished goods that sit on a local store shelf or are offered by an online retailer. Efficient logistics is a key reason consumers can buy an ever-increasing variety of goods and services at remarkably low prices. Not surprisingly, logistics also plays a major role in the health care industry where efficient, effective delivery systems are gaining significant traction.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 117 College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Integrated Health Care), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer credit hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are placed in the exploratory social and behavioral sciences program in University College.

Students with more than 45 transfer credit hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are prompted in My ASU to select a new major.

**Change of Major Requirements:** Students should refer to the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major should submit their request through the business school's Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-business-global-logistics-management/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use

MyPath2ASU® (<https://webapp4.asu.edu/transferecreditguide/app/transfermap?major=BABUSGLBA-null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Through international study and internships, students can gain valuable skills employers are looking for: communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide. Participation in a Global Education program (<https://goglobal.asu.edu/>) allows students to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/global-logistics-management>) for students majoring in global logistics management.

**Career Opportunities:** Logistics management professionals hold a range of job titles and engage in a wide variety of activities in the private, nonprofit and governmental sectors. Apple and Walmart CEOs previously held logistics-related positions at those organizations. This demonstrates the high value of leaders who understand the importance of logistics for enterprise success.

## Business (Global Politics), BA (BABUSGPBA)

**Campus:** Tempe

**Program Description:** The BA program in business with a concentration in global politics teaches students solid business skills with a global perspective, enabling them to realize and analyze the relationship between business and social science.

Students in this program complete the rigorous courses within the global politics concentration in addition to the skill and core courses required of all W. P. Carey School of Business majors.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 117 College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Integrated Health Care), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM

Global Management (Sustainability Solutions), MGM  
Global Management (Sustainable Tourism), MGM  
Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are placed in the exploratory social and behavioral sciences program in University College.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are prompted in My ASU to select a new major.

**Change of Major Requirements:** Students should refer to the following W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major should submit their request through the Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: As globalization continues to impact the way business functions, study abroad programs (<https://goglobal.asu.edu/>) provide vital experiences, allowing business students opportunities to practice cultural competency building for global business success.

Students gain valuable skills employers are looking for, including communication skills, flexibility, motivation and a global perspective on business applications worldwide.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/global-politics>) for students majoring in business with a concentration in global politics.

**Career Opportunities:** Graduates of the global politics concentration think critically about global problems and integrate inquiry and action in order to become responsible leaders. Successful graduates have a firm understanding of how the relationship between a local marketplace and politics can impact global decisions. They are prepared to successfully launch careers in many fields including:

- campaign and issue management
- information analysis
- public relations

## Business (Health Care), BA (BABUSHCBA)

**Campus:** West

**Program Description:** The BA program in business with a concentration in health care prepares students to operate within the challenging and dynamic health care industry by helping them develop skills and acquire knowledge through one of its five specialized tracks: health care analytics, communication, coordination, innovation and delivery.

This program provides students with core business skills such as computer information systems, accounting, basic economic theory, finance, management, marketing and supply chain management as well as in-depth knowledge in relation to the business of health care.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 117 College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Integrated Health Care), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer coursework and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer credit hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are placed in the exploratory social and behavioral sciences program in University College.

Students with more than 45 transfer credit hours who are not admissible to University College are contacted to select an appropriate major.

**Change of Major Requirements:** Students should refer to the following W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major should submit their request through the Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to our health care communities across the world. Through international study and internships, students can gain valuable skills employers are looking for: communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide. Immersion in a foreign culture will help students gain a new perspective on how to provide critical health care for diverse populations of various backgrounds. Participating in a Global Education program (<https://goglobal.asu.edu/>) contributes to this by allowing students to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/business-health-care>) for students majoring in business health care.

**Career Opportunities:** Graduates possess the ability to understand different stakeholders in complex environments, and they are prepared for careers in the public or private health care setting related to health care management, administration, access, analytics and policy setting.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/human-resources>) for students majoring in human resources.

**Career Opportunities:** The bachelor's degree program in business with a concentration in human resources provides students with the knowledge, abilities, and comprehensive set of skills that allow them to move into any business, industry or governmental organization and perform necessary human resource tasks.

There is growing demand for human resources professionals to handle issues like corporate social responsibility and ethics, sustainability, workplace diversity and inclusion and labor relations.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential

licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Business (Information Security), BA (BABUSISBA)

**Campus:** West, Online

**Program Description:** Data security has become an everyday part of business operations. Protecting key stakeholders and clients is an essential aspect for businesses of all sizes and types.

The BA program in business with a concentration in information security provides students with core business skills as well as the basic critical and technical skills necessary to understand cyber threats, risks and security in the business setting. Students discover why data security and risk management are critical parts of daily business operations, and they learn about cyber infrastructure and information security in the context of startups and enterprises across industries.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 117 College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. ## **Business (Language and Culture), BA (BABSLACUBA)**

**Campus:** Tempe, West

**Program Description:** The BA in business with a concentration in language and culture is an innovative, transdisciplinary program that prepares students for positions in a variety of professions in which business and communication play an important role in ensuring success.

Students complete rigorous courses in Chinese, French, Italian or Spanish languages in addition to the skill and core courses required of all W. P. Carey School of Business students, enabling them to become business professionals who can function well culturally and linguistically in the business environments of both international and domestic markets.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 117 College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Data Science), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Integrated Health Care), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer credit hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are placed in the exploratory social and behavioral sciences program in University College.

Students with more than 45 transfer credit hours who are not admissible to University College are contacted to select an appropriate major.

**Change of Major Requirements:** Students should refer to the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major

should submit their request through the Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABSLACUBA-null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

**Global Experience:** As globalization continues to impact the way the world lives and works, international experiences have become vital to language and culture majors and provide vital experiences to students, allowing them opportunities to build critical skills in navigating cultural customs and understanding the nuances of conducting international business. Through international study and internships, students can gain valuable skills employers are looking for: communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide.

Nearly 90% of surveyed executive recruiters believe bilingualism is critical to global business success, according to the Korn/Ferry International Executive Recruiter Index. Participation in a Global Education program (<https://goglobal.asu.edu/>) contributes to this by enabling students to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends the language and culture administration global education program (<https://goglobal.asu.edu/students/major/wp-carey/language-culture>), the Chinese language and culture administration global education program (<https://goglobal.asu.edu/students/major/wp-carey/chinese-language-culture>) and the Spanish language and culture administration global education program (<https://goglobal.asu.edu/students/major/wp-carey/spanish-language-culture>) for students majoring in language and culture.

**Career Opportunities:** Graduates of this program are equipped to play a key role in companies and organizations seeking new markets or dealing with international interests domestically. The demand for multilingual business professionals is strong in the hotel and tourism industry and in consulting, banking and finance, international trade, sports management and media companies.

## **Business (Law), BA (BABUSLBA)**

**Campus:** Tempe, Online

**Program Description:** The BA in business with a concentration in law is an innovative, transdisciplinary program intended to prepare students for positions in a variety of professions in which business and law play an important role in ensuring success.

The law concentration, with its strong business background, gives students a systematic framework for analyzing real-world legal regulation and corresponding business risks and liabilities. Students in this program complete rigorous courses within the law concentration in addition to the skill and core courses required of all W. P. Carey School of Business majors.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 117 College Algebra

**Program Math Intensity:** Moderate

#### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

#### **Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management (Creative Industries and Design Thinking), MGM  
Global Management (Digital Audience Strategy), MGM  
Global Management (Global Affairs), MGM  
Global Management (Global Business), MGM  
Global Management (Global Development and Innovation), MGM  
Global Management (Global Digital Transformation), MGM  
Global Management (Global Entrepreneurship), MGM  
Global Management (Global Health Care Delivery), MGM  
Global Management (Global Legal Studies), MGM  
Global Management (Integrated Health Care), MGM  
Global Management (Nonprofit Leadership and Management), MGM  
Global Management (Public Administration), MGM  
Global Management (Public Policy), MGM  
Global Management (Sustainability Solutions), MGM  
Global Management (Sustainable Tourism), MGM  
Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are placed in the exploratory social and behavioral sciences program in University College.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are prompted in My ASU to select a new major.

**Change of Major Requirements:** Students should refer to the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major should submit their request through the Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/business-law-major/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSLBA-null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

**Global Experience:** As globalization continues to impact the way business functions, study abroad programs provide vital experiences to students, allowing them opportunities to practice cultural competency building for global business success. Students gain valuable skills employers seek, including communication skills, flexibility, motivation and a global perspective on business applications worldwide. Successful graduates of the law concentration have a firm understanding of how the relationship between a local marketplace and local laws can impact global decisions.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/business-law>) for students majoring in business.

**Career Opportunities:** Graduates of the law concentration pursue careers in the business world, and exposure in the program to aspects of law and legal issues assists their career goals. Graduates are prepared to use their skills in a variety of industries ranging from new business ventures to corporate or agency compliance.

## **Business (Public Service and Public Policy), BA (BABUSPBA)**

**Campus:** Tempe

**Program Description:** The BA program in business with a concentration in public service and public policy combines strong business skills with topics in public policy and public administration. Students become familiar with leading a public organization and the process of policy development. They also examine the public sector through multiple lenses and address its challenges in a practical way.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 117 College Algebra

**Program Math Intensity:** Moderate

#### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

#### **Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: As globalization continues to impact the way business functions, study abroad programs provide vital experiences to students, who gain valuable skills employers are seeking, including communication skills, flexibility, motivation and a real-life perspective on business applications worldwide. Successful graduates of the public service and public policy concentration have a firm understanding of how the relationship between a local marketplace and public policy can impact global decisions.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/public-service-public-policy>) for students majoring in business with a concentration in public service and public policy.

**Career Opportunities:** There is an increase in job opportunities in the public sector for graduates due to retiring workers and an increasing demand for public services. Through comprehensive coverage of topics in public policy and public administration, the degree program prepares students for work in public, nonprofit and private sectors.

The program also offers preparation for students who wish to pursue graduate degrees in:

- law
- nonprofit administration or other public service
- policy-oriented areas
- public administration
- public policy

## Business (Retail Management), BA (BABUSRBA)

**Campus:** Online

**Program Description:** The BA program in business with a concentration in retail management provides a business curriculum focused on the knowledge and skills needed for leadership roles in the retail industry.

The degree program has been developed in collaboration with faculty and industry professionals to provide a curriculum responsive to industry needs. Drawing on coursework from four areas in the concentration, the program offers the full business core plus 18 credit hours of retail-specific coursework, providing students with the broad preparation and leadership skills required today.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 117 College Algebra

**Program Math Intensity:** Moderate

### Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements.

Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are placed in the exploratory social and behavioral sciences program in University College.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are prompted in My ASU to select a new major.

**Change of Major Requirements:** Students should refer to the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. ## Business (Sports Business), BA (BABUSMSBA)

**Campus:** Tempe, West, Online

**Program Description:** The BA program in business with a concentration in sports business is attractive to students with an interest in the sports industry.

Students acquire the skills necessary to build knowledge and understanding of the development of the strategic business process in sports organizations and its relationship to media. The program offers a strong focus on applied elements of the sports industry, especially as it relates to media and its impact on the industry.

The proliferation of mass communication, including television, game systems and social networks, has transformed sports into a highly commercialized industry and, in turn, sports continue to generate revenues for these businesses. The interaction between sports and media has led to a multitude of applications of business knowledge to these fields.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 117 College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management (Creative Industries and Design Thinking), MGM

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in

their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for their career. Through global experiences provided by the Global Education Office (<https://goglobal.asu.edu>), students gain valuable skills employers seek, such as communication skills, flexibility, motivation and a global perspective on business applications worldwide.

Business students can study abroad nearly anywhere in the world, including in global business hubs. The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/sports-business>) for students with a concentration in sports business.

**Career Opportunities:** Graduates of this concentration find opportunities in mass communication, including television, game systems and social networks. Career opportunities for graduates could include jobs with titles such as:

- administrative service manager
- advertising and sponsorship salesperson
- agent
- business manager
- event planner
- management analyst
- operations specialist
- purchasing or buying manager
- wholesale and manufacturing representative

## Business (Statistics), BA (BABUSTABA)

**Campus:** West

**Program Description:** The BA program in business with a concentration in statistics is designed for students interested in a curriculum that helps them develop solid business skills with an emphasis in mathematics and statistics. The program involves theoretical and applied statistics with a focus on practical and applied aspects of statistics.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 117 College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Students ready to change their major should submit their request through the Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® ([https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSTABA-null + &college=CBA](https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSTABA-null+%&college=CBA)) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to success in every field of business. Through a Global Education program (<https://goglobal.asu.edu/>), students can gain valuable skills employers are looking for: communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide. Understanding statistical methods used internationally helps students become more well-rounded and competitive in their chosen field. Participating in a Global Education program contributes to this by allowing them to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/statistics>) for students majoring in statistics.

**Career Opportunities:** Graduates of this program are prepared to move into business or governmental positions, using statistics to help make

decisions and solve problems. They find positions such as:

- financial analysts
- market and survey researchers
- personal financial advisors
- statisticians

## Business (Sustainability), BA (BABUSSBA)

**Campus:** Polytechnic, Tempe, West, Online

**Program Description:** The BA in business with a concentration in sustainability is an innovative, transdisciplinary program that combines the latest trends in business with cutting-edge knowledge of sustainability.

Students in this program complete rigorous courses within the sustainability concentration in addition to the skill and core courses required of all W. P. Carey School of Business majors. Graduates are prepared for positions in a variety of professions in which both business and sustainability play important roles.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 117 College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Integrated Health Care), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)  
International (<https://admission.asu.edu/international/undergrad-apply>)  
Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are placed in the exploratory social and behavioral sciences program in University College.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are prompted in My ASU to select a new major.

**Change of Major Requirements:** Students should refer to the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major should submit their request through the Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-business-sustainability/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSSBA~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to business sustainability majors. Through a Global Education program (<https://goglobal.asu.edu/>), students can gain valuable skills employers are looking for: communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide. Understanding global sustainability perspectives will help students rethink the nature of business and allow them to gain the knowledge necessary to influence growth, improve returns on capital and improve risk management through sustainability. Participating in a Global Education program contributes to this by allowing them to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/business-sustainability>) for students majoring in sustainability.

**Career Opportunities:** Finding ways to grow and prosper while reducing the stress on the global environment is a critical issue facing today's society. Interest in sustainability issues is growing and most likely will be increasingly important to business in the next few years.

People around the world are asking serious questions about how they can understand, evaluate and act on issues related to sustainability while making sensible business decisions for both the now and the future. Qualified individuals are needed, those who understand that ensuring success involves the societal, scientific and business aspects of the issues. Graduates from this degree program fill these needs.

## **Business (Tourism), BA (BABUSTBA)**

**Campus:** Tempe, Online

**Program Description:** The BA in business with a concentration in tourism is an innovative, transdisciplinary program that prepares students for positions in a variety of professions in which business and tourism play important roles in ensuring success.

Students in this program complete rigorous courses within the tourism concentration in addition to the skill and core courses required of all W. P. Carey School of Business majors.

Developing tourism and recreation opportunities requires an understanding of effective marketing techniques and the ability to interact with many different types of businesses that support those efforts. With a solid academic preparation in business, graduates are positioned for success in the tourism industry and affiliated professions.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 117 College Algebra

**Program Math Intensity:** Moderate

#### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap

in curriculum.

### **Accelerated Program Options:**

## Business Data Analytics, BS (BABDABS)

**Campus:** Tempe, Online

**Program Description:** The BS program in business data analytics prepares business students with the requisite knowledge, skills and experience to create and manage big data initiatives and associated business processes in order to facilitate large-scale business data analytics in organizations.

Students learn organizational and technical competencies to implement data gathering, cleansing, integration and modeling tasks as well as data asset analysis for business applications. The program covers data warehousing, dimensional modeling, big data analytics methods and visualization tools and techniques, and it introduces topics such as data mining and predictive analytics.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Business Analytics, MS  
Global Management (Creative Industries and Design Thinking), MGM  
Global Management (Data Science), MGM  
Global Management (Digital Audience Strategy), MGM  
Global Management (Global Affairs), MGM  
Global Management (Global Business), MGM  
Global Management (Global Development and Innovation), MGM  
Global Management (Global Digital Transformation), MGM  
Global Management (Global Entrepreneurship), MGM  
Global Management (Global Health Care Delivery), MGM  
Global Management (Global Legal Studies), MGM  
Global Management (Integrated Health Care), MGM  
Global Management (Nonprofit Leadership and Management), MGM  
Global Management (Public Administration), MGM  
Global Management (Public Policy), MGM  
Global Management (Sustainability Solutions), MGM  
Global Management (Sustainable Tourism), MGM  
Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements: 1230 SAT Reasoning OR 25 ACT score, OR graduated in the top 8% of high school class, OR an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

First-year applicants should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice will be placed in a business BA program in the W. P. Carey School of Business.

Readmission requirements: must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer admission requirements (30 or more credit hours after high school): transfer GPA of 3.00 and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score OR the student must have graduated in the top 8% of their high school class OR have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer students should select an additional major when applying for admission. Additional choices may include any of the school's BA programs or any other business or other degree program outside W. P. Carey School of Business.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice will be placed in a Bachelor of Arts program in W. P. Carey School of Business. Students not interested in the degree or campus location may reach out to [wpcareyug@asu.edu](mailto:wpcareyug@asu.edu) (<mailto:wpcareyug@asu.edu>) for assistance selecting another degree program.

**Change of Major Requirements:** Students should review W. P. Carey School of Business minimum requirements (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) to determine if they meet change of major requirements. Students ready to change their major should submit their request through the school's Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-business-data-analytics/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABDABS~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to business data analytics students. Through international study and internships, students can gain valuable skills employers are looking for: communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide. International experiences can help students understand new perspectives in the usage of data at an international scale. Business data analytics students in particular benefit from thinking about participating in a Global Education program (<https://goglobal.asu.edu/>) early in their program. Students can leverage global opportunities and learning, great assets in the preparing for internships and provides unique experiences that they can share with recruiters.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/business-data-analytics>) for students majoring in business data analytics.

**Career Opportunities:** The demand for employees with business analytics skills is strong, with close to 89% of employers indicating their needs for new recruits skilled in business data analytics will increase in the future source: Occupational Information Network.

Graduates can become data analysts, data architects, data visualization developers, data change agents and data operators. Many graduates serve as architects, change agents and analytics tool suite operators for business and government.

## Business Entrepreneurship, BS (BABUENTBS)

**Campus:** Tempe

**Program Description:** The BS program in business entrepreneurship prepares students to identify, evaluate and develop entrepreneurial opportunities in existing companies or through new ventures.

The program emphasizes collaboration, leadership, communication and team-building as well as development of refined analytical, managerial and leadership skills appropriate for people who want to change the world through innovation. Students in the program frequently collaborate with students from across the university, for a breadth of understanding in all business disciplines and a depth of understanding in opportunity recognition, feasibility, management of resources and strategy.

Students completing the program understand the unique requirements of an entrepreneur and have learned how to effectively identify market opportunities, innovative solutions and execution strategies.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Data Science), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Integrated Health Care), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements: 1230 SAT Reasoning OR 25 ACT score, OR graduated in the top 8% of high school class, OR have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

First-year applicants should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside of the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice are placed in a business BA program in the W. P. Carey School of Business.

Readmission requirements: Students must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer admission requirements (30 or more credit hours after high school): Students must have a transfer GPA of 3.00 and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score OR the student must have graduated in the top 8% of their high school class OR have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer students should select an additional major when applying for admission. Additional choices may include any of the school's BA programs or any other business or other degree program outside W. P. Carey School of Business.

Students who are admissible to the university but do not meet admission requirements for this degree and did not select a second major or are not admissible to their second major choice will be placed in a Bachelor of Arts program in W. P. Carey School of Business. Students not interested in the degree or campus location may reach out to [wpcareyug@asu.edu](mailto:wpcareyug@asu.edu) (<mailto:wpcareyug@asu.edu>) for assistance selecting another degree program.

**Change of Major Requirements:** Students should refer to the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major should submit their request through the school's Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUENTBS-null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

**Global Experience:** As globalization continues to impact the way the world lives and works, international experiences have become vital to success in every field of business, especially business entrepreneurship.

Global Education programs (<https://goglobal.asu.edu/>) can provide exposure to global startups and how different countries approach entrepreneurship. Through international study and internships, students can gain valuable skills employers are looking for: communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide. International experience will help students learn to identify global market trends and opportunities and strategically execute innovative entrepreneurial solutions that will ignite change and make an impact. Participation in a Global Education program contributes to this by enabling students to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/business-entrepreneurship>) for students majoring in business entrepreneurship.

**Career Opportunities:** Graduates may follow multiple self-directed paths such as starting a new venture or nonprofit organization, working for a new venture or a small business, or working as an innovative leader within an existing organization.

## Business Exploratory, (BABUSEXP)

**Campus:** Tempe

**Program Description:** Virtually every profession and organization uses business in some way. Business exploratory program students have an opportunity to explore a variety of areas in business prior to selecting one of these nine majors:

- accountancy
- business data analytics
- business entrepreneurship
- computer information systems
- economics
- finance
- management
- marketing
- supply chain management

Students have an opportunity to work with world-class faculty in an environment that values high-quality teaching. Majors in the W. P. Carey School of Business provide students with the skills and knowledge needed in today's companies --- whether they are starting their own businesses or working in large multinational corporations. Additionally, many graduates attend some of the other top-tier graduate schools in the country in a variety of disciplines.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap

in curriculum.

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Additional Requirements:** This major has higher admission standards. First-year admission requirements: Students must have achieved a 1230 SAT Reasoning or 25 ACT score, OR the student must have graduated in the top 8% of their high school class OR have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

**Transfer Admission Requirements:** For students who hold 30 or more transfer credit hours after high school: Students must have a transfer GPA of 3.00 and a score of 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score, OR the student must have graduated in the top 8% of their high school class OR have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

**Change of Major Requirements:** Students are not permitted to change their major to this degree program. Students admitted to this exploratory program who are ready to declare their major should submit their request through the Advising SOS

(<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSEXP~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

**Global Experience:** As globalization continues to impact the way the world lives and works, international experiences have become vital to success in every field of business. Through any of the more than 300 available Global Education programs (<https://goglobal.asu.edu/>), students can gain valuable skills employers are looking for: communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide.

**Career Opportunities:** Students in business exploratory have the opportunity to graduate from one of many BS degree programs in the W. P. Carey School of Business. For career opportunities, students should see the options highlighted in those specific programs.

## **Computer Information Systems, BS (BACISBS)**

**Campus:** Tempe, Online

**Program Description:** Computer information systems are part of every business and organization. In this degree program, students learn about the exciting and innovative ways that information technology is used to help organizations succeed.

Dedicated faculty members teach students how to design, build and maintain information systems that support business operations and managerial decision-making. In particular, students learn about business intelligence for competitive advantage, business process for workflow redesign, data management for decision-making, distributed systems for collaboration and globalization, enterprise integration for synergy, project management and solution development for value creation.

#### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website.

The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Information Systems Management, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements: Students must have a score of 1230 SAT Reasoning OR 25 ACT score, OR graduated in the top 8% of high school class, OR have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

First-year applicants should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside of W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice are placed in a business BA program in the W. P. Carey School of Business.

Readmission requirements: Students must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer admission requirements (30 or more credit hours after high school): Students must have a transfer GPA of 3.00 and a score of 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score, OR the student must have graduated in the top 8% of their high school class OR have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer students should select an additional major when applying for admission. Additional choices may include any of the school's BA programs or any other business or other degree program outside W. P. Carey School of Business.

Students who are admissible to the university but do not meet admission requirements for this degree and did not select a second major or are not admissible to their second major choice will be placed in a Bachelor of Arts program in W. P. Carey School of Business. Students not interested in the degree or campus location may reach out to [wpcareyug@asu.edu](mailto:wpcareyug@asu.edu) ([wpcareyug@asu.edu](mailto:wpcareyug@asu.edu)) for assistance selecting another degree program.

**Change of Major Requirements:** Students should visit the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major should submit their request through the school's Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/computer-information-systems-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students

take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BACISBS~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: As globalization continues to impact the way people live and work, international experiences have become vital to success in every field of business. Through international study and internships, students gain valuable skills employers are looking for, including communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/computer-information-systems>) for students majoring in computer information systems.

**Career Opportunities:** Currently, there is a shortage of information systems professionals, with many more jobs than qualified applicants. With a degree in computer information systems, career choices are limitless. A computer information systems degree offers job opportunities in a variety of industries, including:

- education
- entertainment
- finance
- health care
- national defense
- transportation

Information systems are key components in the success of other functional business areas such as accounting, supply chain management, finance and marketing. Entry-level information systems positions include:

- computer forensics analyst
- database administrator
- information systems consultant
- information technology security manager
- network administrator
- project manager
- software or systems developer
- systems administrator
- systems analyst

Long-term career aspirations for a graduate with a computer information systems degree could include:

- chief executive officer
- chief information officer
- chief knowledge officer
- chief security officer
- chief technology officer

## **Economics, BS (BAECNBS)**

**Campus:** Tempe, Online

**Program Description:** Students in this W. P. Carey School of Business BS program in economics choose from a variety of electives offered by the  
2023-24 Academic Catalog Archive

Department of Economics and many other ASU departments. All students are encouraged to develop programs of study tailored to individual needs and interests.

The undergraduate program provides students with the critical thinking and communication skills needed to succeed in business or graduate school. The program of study can also be tailored to prepare students for graduate programs in economics, business or law. Students interested in pursuing a doctorate in economics are strongly encouraged to minor or major in mathematics as well.

The department's mission is to provide the highest quality instruction to students, conduct cutting-edge research in economics and provide leadership and service to professional communities.

As a STEM-designated program, this degree offers eligible graduates on student visas access to an Optional Practical Training extension for up to 36 months. This longer work authorization term may help international students gain additional skills and experience in the U.S.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 270 Calculus with Analytic Geometry I

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Data Science), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Integrated Health Care), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements: 1230 SAT Reasoning OR 25 ACT score, OR graduated in the top 8% of high school class, OR an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

First-year applicants should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside of the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice are placed in a business BA program in the W. P. Carey School of Business.

Readmission requirements: Students must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer admission requirements (30 or more credit hours after high school): transfer GPA of 3.00 and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score OR the student must have graduated in the top 8% of their high school class or an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer students should select an additional major when applying for admission. Additional choices may include any of the school's BA programs or any other business or other degree program outside W. P. Carey School of Business.

Students who are admissible to the university but do not meet admission requirements for this degree and did not select a second major or are not admissible to their second major choice will be placed in a Bachelor of Arts program in W. P. Carey School of Business. Students not interested in the degree or campus location may reach out to [wpcareyug@asu.edu](mailto:wpcareyug@asu.edu) (<mailto:wpcareyug@asu.edu>) for assistance selecting another degree program.

**Change of Major Requirements:** Students should visit the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major should submit their request through the school's Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/economics-bs-wpc/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BAECNBS~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: As globalization continues to impact the way people live and work, international experiences have become vital to success in every field of business. Through international study and internships, students can see different economic systems play out in real time and gain valuable skills employers seek, including communication and interpersonal skills, flexibility, motivation and a global perspective on business applications worldwide.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/economics>) for students majoring in economics.

**Career Opportunities:** A major in economics provides students with the analytical and quantitative skills needed in careers in business, government and public policy.

Graduates have taken positions such as:

- consultants who serve as advisers to state and federal governments and private corporations
- corporate economists who collect data and make forecasts relevant to the firm's business
- employees in banking and financial services firms

Each year, many graduates pursue additional studies at other prestigious universities.

## Entrepreneurial Leadership, BA (BAENTLBA)

**Campus:** West

**Program Description:** The BA program in entrepreneurial leadership prepares students to start, lead and manage entrepreneurial organizations for long-term success.

This program develops entrepreneurial-minded leaders who can effectively manage the value-creation process of existing small and medium-sized businesses, as well as manage new ventures. Students, through their coursework and internship opportunities, become leaders by developing a broad entrepreneurial mindset and leadership style that enables them to seize entrepreneurial opportunities. They can also develop and nurture those entrepreneurial opportunities within their organizations through the effective communication, team building, critical thinking and problem-solving skills learned in this program.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors. Students ready to change their major should submit their request through the Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BAENTLBA~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

**Global Experience:** As globalization continues to impact the way business functions, study abroad programs (<https://goglobal.asu.edu>) provide students valuable skills employers are looking for, including communication and interpersonal skills, flexibility, motivation and a global perspective on business applications worldwide.

Business students can study abroad nearly anywhere in the world and gain valuable internship experience in many global business hubs, like Australia, Germany, England, Singapore, China, and the United Arab Emirates.

The W. P. Carey School of Business recommends these study abroad programs (<https://goglobal.asu.edu/students/major/wp-carey/>) for students

majoring in entrepreneurial leadership.

**Career Opportunities:** Graduates possess a broad foundation in business as well as a focus on starting, leading and managing entrepreneurial organizations. This suggests multiple career paths, including working in entrepreneurial-minded roles in already existing organizations as well as starting or joining new ventures and small businesses of all types.

## Finance, BS (BAFINBS)

**Campus:** Tempe

**Program Description:** The finance department has a rich tradition of educating leaders who excel in all aspects of the discipline of finance. Whether ascending to the top ranks of the venture capital industry, executing multimillion dollar real estate deals or becoming successful entrepreneurs with their own ideas and drive, graduates of the BS program in finance from the W. P. Carey School of Business are equipped to succeed.

In particular, the Investment Banking Industry Scholars program mentors students interested in going to Wall Street. The student investment management fund provides undergraduates with the opportunity to manage a real-world investment portfolio worth hundreds of thousands of dollars.

Finance department faculty members are considered among the top in the world. The professional advisory board, comprised of leading professionals from the financial services, manufacturing, energy, investment banking and real estate sectors, provides a sounding board for new ideas and is a resource of jobs for top graduates.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements: 1230 SAT Reasoning OR 25 ACT score, OR graduated in the top 8% of high school class, OR an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

First-year applicants should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside of the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice are placed in a business BA program in the W. P. Carey School of Business.

Readmission requirements: must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer admission requirements (30 or more credit hours after high school): transfer GPA of 3.00 and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score OR the student must have graduated in the top 8% of their high school class OR an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer students should select an additional major when applying for admission. Additional choices may include any of the school's BA programs or any other business or other degree program outside of the W. P. Carey School of Business.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice will be placed in a Bachelor of Arts program in W. P. Carey School of Business. Students not interested in the program or campus location may reach out to [wpcareyug@asu.edu](mailto:wpcareyug@asu.edu) (<mailto:wpcareyug@asu.edu>) for assistance selecting another degree program.

**Change of Major Requirements:** Students should visit the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major should submit their request through the school's Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BAFINBS~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: As globalization continues to impact the way people live and work, international experiences have become vital to success in every field of business. Through international study and internships, students gain valuable skills employers are looking for, including communication and interpersonal skills, flexibility, motivation and a global perspective on business applications worldwide.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/finance>) for students majoring in finance.

**Career Opportunities:** Graduates are prepared for careers in:

- consulting
- corporate financial management
- depository institutions
- financial services
- investment banking

- investment management
- portfolio analysis

**Contact Information:**

**Management, BS (BAMGTBS)**

**Campus:** Polytechnic, Tempe, West, Online

**Program Description:** The W. P. Carey BS program in management prepares students to become effective managers and team leaders. Students gain theoretical and conceptual knowledge and build critical skills such as:

- analytical research and problem-solving
- communication
- critical thinking
- global awareness
- leadership
- personal ethics and integrity
- teamwork

The curriculum includes the fundamentals of the global economy, the world of e-business, ethics, human resource and strategic management and collaborative team skills. Throughout the program, theories and concepts of management and ethical leadership are enhanced by experiencing and testing them in skill-based exercises, case discussions and real-world, team-based project work.

The management major prepares students to face:

- corporate accountability
- cross-functional management
- demands for continuous process improvements to enhance the value chain
- ethical decision-making
- growing technological sophistication
- racial, cultural and gender diversity in the workforce
- the fast pace of e-business
- the need for skills in communicating and working with people, directing projects and managing change

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM

Global Management (Global Entrepreneurship), MGM  
Global Management (Global Health Care Delivery), MGM  
Global Management (Global Legal Studies), MGM  
Global Management (Integrated Health Care), MGM  
Global Management (Nonprofit Leadership and Management), MGM  
Global Management (Public Administration), MGM  
Global Management (Public Policy), MGM  
Global Management (Sustainability Solutions), MGM  
Global Management (Sustainable Tourism), MGM  
Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements: 1230 SAT Reasoning OR 25 ACT score, OR graduated in the top 8% of high school class, OR an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

First-year applicants should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside of the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice are placed in a business BA program in the W. P. Carey School of Business.

Readmission requirements: must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer admission requirements (30 or more credit hours after high school): transfer GPA of 3.00 and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score OR the student must have graduated in the top 8% of their high school class OR an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer students should select an additional major when applying for admission. Additional choices may include any of the school's BA programs or any other business or other degree program outside W. P. Carey School of Business.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice will be placed in a Bachelor of Arts program in W. P. Carey School of Business. Students not interested in the program or campus location may reach out to [wpcareyug@asu.edu](mailto:wpcareyug@asu.edu) (<mailto:wpcareyug@asu.edu>) for assistance selecting another degree program.

**Change of Major Requirements:** Students should refer to the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major should submit their request through the school's Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-management/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BAMGTBS~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. ## Marketing, BS (BAMKTBS)

**Campus:** Tempe, Online

**Program Description:** Students pursuing the BS in marketing gain an understanding of the science behind consumer behavior and the critical role that marketing plays in all organizations. In addition, students develop marketing skills that provide a competitive advantage in their careers.

The nationally ranked and award-winning marketing faculty share a passion for teaching and mentoring undergraduate students. Faculty members provide many productive ways for students to get involved in the life of the department and work with business partners.

The department is home to the Center for Services Leadership, the premier international center for the study of the science of services, and offers distinctive coursework in professional sales, relationship management and sports business.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. ## **Marketing (Digital and Integrated Marketing Communications), BS (BAMKDIMCBS)**

**Campus:** Tempe

**Program Description:** Designed specifically for the marketing major, this digital and integrated marketing communications concentration builds on the knowledge provided in the major and prepares marketing students with specialized knowledge and training in the areas of advertising, brand management and digital marketing.

The purpose of the concentration within the BS program in marketing is to equip students with cutting-edge knowledge in the marketing communications area so they are well prepared to assume jobs in the areas of advertising, brand management and digital marketing. This concentration provides specialized expertise in an area that is growing in importance in the marketplace.

**Additional Program Fee:** Y

## Supply Chain Management, BS (BASCMBBS)

**Campus:** Tempe, Online

**Program Description:** Supply chain managers coordinate the production flow of goods and services, enabling the transformation of raw materials into the final products made available to consumers, whether on local store shelves or through online retailers. Supply chain management, involving multiple vendors in different countries, is a key reason that people can buy an ever-increasing variety of goods and services at remarkably low prices.

The BS program in supply chain management provides W. P. Carey School of Business students with an in-depth knowledge of integrated supply chain management. The curriculum focuses on:

- execution systems
- logistics
- negotiations
- operations
- planning
- procurement
- strategy development

Classes are small and use projects and case studies to bring the material to life.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Business Analytics, MS
- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Integrated Health Care), MGM
- Global Management (Nonprofit Leadership and Management), MGM

Global Management (Public Administration), MGM  
Global Management (Public Policy), MGM  
Global Management (Sustainability Solutions), MGM  
Global Management (Sustainable Tourism), MGM  
Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements: Students must have a score of 1230 SAT Reasoning OR 25 ACT score, OR graduated in the top 8% of high school class, OR an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

First-year applicants should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside of the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice are placed in a business BA program in the W. P. Carey School of Business.

Readmission requirements: Students must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer admission requirements (30 or more credit hours after high school): transfer GPA of 3.00 and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score OR must have graduated in the top 8% of their high school class OR an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer students should select an additional major when applying for admission. Additional choices may include any of the school's BA programs or any other business or other degree program outside W. P. Carey School of Business.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice will be placed in a Bachelor of Arts program in W. P. Carey School of Business. Students not interested in the program or campus location may reach out to [wpcareyug@asu.edu](mailto:wpcareyug@asu.edu) (<mailto:wpcareyug@asu.edu>) for assistance selecting another degree program.

**Change of Major Requirements:** Students should visit the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major should submit their request through the Advising SOS (<https://apps.wpcarey.asu.edu/apps/advising/index.cfm>) platform.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/supply-chain-management-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BASCMBS~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: As globalization continues to impact the way people live and work, international experience has become vital to success in every field of business. Through international study and internships, students gain valuable skills employers are looking for, including communication and interpersonal skills, flexibility, motivation and a global perspective on business applications worldwide.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/supply-chain-management>) for students majoring in supply chain management.

**Career Opportunities:** Career track progression could lead to the vice president level in supply chain-related areas. ASU supply chain management graduates are recruited by firms from around the world and in all sectors of the economy, including:

- health care
- manufacturing
- public and private
- retail
- service

Graduates of the supply chain management program are highly sought-after and have excellent placements. The following are some positions that supply chain management graduates have obtained:

- buyer or planner
- distribution manager
- internet marketing analyst
- inventory specialist
- logistics planner
- materials manager
- operations planner or analyst
- planner or analyst
- production coordinator
- supply management analyst

## Design and the Arts, Herberger Institute for

### Architectural Studies, BSD (ARSTDBSD)

**Campus:** Tempe

**Program Description:** The preprofessional BSD program in architectural studies offered by The Design School helps students understand architecture as both a cultural expression and technical achievement, and it offers an interdisciplinary approach to architecture.

Students are prepared for alternative practices with architecture firms and in related fields such as landscape architecture, engineering, art, construction, urban planning, urban design and historic preservation, or for graduate studies in the professional Master of Architecture, in business fields or in law.

There are two possible paths for this program: cross-disciplinary focus and professional focus. For the first three years, all students take two project-topic courses yearly, together with other classes, to develop their skills. In the third year, students intending to pursue professional licensure as a registered architect must declare their interest in pursuing the professional focus to their advisor.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap

in curriculum.

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ARSTDBSD~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: International experiences supplement a major in architectural studies while also introducing students to new cultures, skills and perspectives. Whether in a foreign country, in the U.S. or online, students in architectural studies are able to learn about the complex differences between societies, to foster a sense of empathy and understanding of the many ways people live in this world.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their experience to their unique interests and skill sets. The Herberger Institute for Design and the Arts recommends these programs (<https://goglobal.asu.edu/students/major/architectural-studies>) for students majoring in architectural studies.

**Career Opportunities:** Graduates of the bachelor's degree program are prepared for graduate school as well as a range of design-related careers.

Those who wish to become licensed can complete their professional studies by attending an accredited professional master's degree program. The Design School offers a two-year professional MArch degree for graduates of the undergraduate program.

## **Art (Animation), BFA (HIARTANBFA)**

**Campus:** Tempe

**Program Description:** The BFA program in art with a concentration in animation prepares students to excel in this field. Animation students are provided an education that simultaneously sustains tradition and fosters innovation through embracing new visualization methodologies and tools with the potential to advance discoveries and insights across disciplines.

Upon completion of the program, graduates are able to demonstrate the technical and artistic abilities to create animations for exhibition in arts venues (galleries, museums, festivals, etc.) and in entertainment media-arts industries. They also are prepared to pursue advanced research in graduate animation programs.

The mission of the Herberger Institute for Design and the Arts is to create works of art, explore the history and traditions of art production, understand more about art's function in society and promote national and international recognition for research and creative activities while fostering cultural development in the community.

Students declare their Bachelor of Fine Arts concentration at the time of their ASU admission. Following admission, if students wish to change their Bachelor of Fine Arts concentration, they may meet with their School of Art academic advisor.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIARTANBFA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Create artwork for exhibitions in galleries, museums and other commercial venues demonstrating technical artistic abilities and conceptual development.
- Demonstrate professional preparedness by developing a comprehensive toolkit for self-promotion that will position them for success in the field of art and design.
- Create a cohesive body of artwork organized and shared in a professional digital portfolio.

**Global Opportunities:**

Global Experience: With over 300 Global Education programs (<https://goglobal.asu.edu/>) in more than 65 countries (programs vary in length, from one week to one year), study abroad is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for a career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Animators work within the realms of fine arts, design, cinema, television, video games, online media, augmented and virtual reality, scientific and data visualization, medical illustration, robotics and a range of other emerging fields.

Top job titles for those with an education in animation include:

- animator
- art director
- artist
- creative director
- designer
- graphic artist
- graphic designer
- multimedia designer

For the last several years, jobs for multimedia artists, animators, film and video editors have continued to trend upward nationally.

## Art (Art Education), BFA (FAARTEBFA)

**Campus:** Tempe

**Program Description:** The BFA program in art with a concentration in art education involves creative teaching and learning processes and strategies, first-hand experience teaching art for a range of ages, the study of art history and global cultures, and practice in a variety of studio areas.

The program focuses on engaging with artistic inquiry and education in K-12, community and museum settings. Students investigate issues related to teaching art from multiple perspectives, including:

- creativity and critical thinking
- ecological connections
- inquiry-based learning
- interdisciplinary curriculum development
- multicultural contexts
- studio and conceptual art practices

In addition to their art education coursework, students are required to take coursework in the various studio areas offered in the School of Art.

Students declare their Bachelor of Fine Arts concentration at the time of their ASU admission. Following admission, if students wish to change their concentration, they may meet with their School of Art academic advisor.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Additional Requirements:** Students are admitted directly to the art education concentration upon admittance to the BFA program in art.

**Transfer Admission Requirements:** Transfer students who have completed the foundational core and pre-art requirements are admitted directly to the art education concentration upon admittance to the BFA program in art. To complete an undergraduate degree in four years, it is recommended that community college transfer students who are completing a two-year degree and have completed the foundational core and pre-art requirements apply and submit a declaration form in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAARTEBFA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will understand historical and contemporary practices within the field of art education through the development of curriculum incorporating fine arts techniques for a range of settings and populations.
- Upon completion of this program, students will demonstrate professional preparedness, including writing an articulate statement of their teaching philosophy and assembling a documented cohesive body of pedagogical materials and creative work.
- Upon completion of this program, students will demonstrate effective teaching dispositions in the classroom through successful first-hand engagements with learners that meet established pedagogical standards with culturally responsive techniques and methods.

#### **Global Opportunities:**

Global Experience: Creativity and inspiration find fuel during a study abroad program. Global experiences (<https://goglobal.asu.edu/>) provide a platform on which aspiring art educators develop and broaden the intercultural sensitivity, communication skills and leadership ability they then take into the classroom. Study abroad can prove to be a vital accompaniment to a concentration in art education.

**Career Opportunities:** Graduates who also complete the state certification requirements for an art specialist certificate may teach in public and private elementary schools, middle schools and high schools.

Graduates who do not seek state certification may find opportunities for jobs with some charter schools, art museums, nonprofit art spaces and recreational or community-oriented service groups that offer art instruction.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## **Art (Art History), BA (FAARTHBA)**

**Campus:** Tempe, Online

**Program Description:** The BA in art history is a dynamic program that investigates visual culture and engages students in a rich and diverse curriculum. Inherently interdisciplinary, art history intersects with a variety of fields including history, literature and economics.

Faculty members emphasize critical concepts in their teaching, including the close study of artists, objects and technologies. Students explore art's history in economic, social and political contexts and the relationship of visual art to other disciplines such as literature, science, anthropology, media and performance studies. In addition to art history courses, the program includes interdisciplinary coursework from disciplines across the university.

Internships are available at a wide range of arts organizations. The program is enriched by partnerships with the ASU Art Museum and museums throughout the Phoenix metropolitan area and beyond, including an affiliation with the Los Angeles County Museum of Art.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Creative Enterprise and Cultural Leadership, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students meeting the university requirements for admission may matriculate in the Herberger Institute for Design and the Arts. Separate admission procedures and approvals are required for some programs within the college. Students must contact specific departments or schools for details.

Freshmen students applying to the Herberger Institute School of Art enter ASU as art exploratory majors in the School of Art. There is no portfolio review process for freshmen at the time of admission to ASU.

Typically, students in their second year who are interested in studio art and art education will submit a portfolio for review once they have completed their core requirements and are completing the last of the 12 hours of 200-level art requirements, or if they are interested in art history or museum studies they will submit a declaration form in the semester in which they complete 30 hours.

Transfer Admission Requirements: Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

**Change of Major Requirements:** An ASU student who would like to change a major to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-art-history/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAARTHBA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Recall, summarize, examine, and recognize significant works of art from different periods and cultures of Western and non-Western Art History.
- Think critically and practically about their professional research practice and develop writing samples or research plans, essential for success in the field of art history.
- Learn the basic methodologies of the field and how to apply them to specific works of art and visual culture and art historical theory and criticism.

**Global Opportunities:**

Global Experience: Global Education programs (<https://goglobal.asu.edu>) provide an opportunity for students to explore their creative side with an intercultural lens and deepen their understanding of art history by experiencing the places that gave rise to specific artistic styles. Study abroad provides students with valuable insight into the cultures and minds of some of the world's most notable artists, and exposure to multicultural environments enhances communication skills and fosters valuable career-building experiences.

A global experience encourages students to build communication skills and challenges them, as artists, to think differently. With more than 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Whether in a foreign country, in the U.S. or online, students learn to adapt and persevere, and they are provided with a chance to look inside themselves in a way they haven't done before, growing their personal and artistic self-confidence along the way.

**Career Opportunities:** Graduates of art history programs at the bachelor's degree level find employment opportunities in commercial art galleries, art museums and historical societies and archives. Other options include arts agencies and public art programs or admission to prestigious graduate programs across the nation.

A graduate degree is essential for professional positions, as a master's degree prepares individuals to teach at the community college level; to practice and publish as an art critic or writer; to enhance one's own practice as an artist; or gain entry into museums, archives, historical societies, auction houses, publishing companies and academic presses as well as to art libraries. The doctorate is a necessity for employment as a university or college teacher and for responsible administrative and curatorial positions in the museum and publishing world.

## Art (Art Studies), BA (FAARTSTDBA)

**Campus:** Tempe, Online

**Program Description:** The BA in art with a concentration in art studies is a multidisciplinary program with a broad educational foundation in the arts and General Studies with a curriculum unparalleled in its scope of course offerings from across the university.

This concentration offers students a great deal of flexibility in planning coursework. Students, in consultation with faculty advisors, can design a course of study focused on their individual aspirations. This uniquely open degree program features coursework in art history, studio art, and a range of arts-related topics, including performing arts and the history of performance, and fields such as African and African American studies, American Indian studies, history, languages and literature, and women's studies.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR MAT 117 College Algebra OR MAT 119 Finite Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students meeting the university requirements for admission may matriculate in the Herberger Institute for Design and the Arts. Separate admission procedures and approvals are required for some programs within the college. Students must contact specific departments or schools for details.

First-year applicants may apply directly to the art studies program; there is no portfolio review for this major.

Transfer Admission Requirements: Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/art-studies-bachelors/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAARTSTDBA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Participate in the process of making art and through this process will effectively visualize their ideas and build their creative thinking and problem-solving skills.
- Develop a comprehensive toolkit for self-promotion that positions them for success in the field of art and design.
- Articulate their place as artists in the contemporary field of art.

#### **Global Opportunities:**

Global Experience: Global Education programs (<https://goglobal.asu.edu>) provide an opportunity for students to explore their creative side with an intercultural lens and allow them to enhance their knowledge of the sculpting arts while applying what they learn in an international setting. Students can explore famous works of art firsthand and experience the environments they were created in, and the hands-on experience gained from a semester abroad is a great way to bolster portfolios and to gain multicultural insight into the world of art.

A global experience encourages students to build communication skills and challenges them, as artists, to think differently. With over 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Whether in a foreign country, in the U.S. or online, students learn to adapt and persevere, and they are provided with a chance to look inside themselves in a way they haven't done before, growing their personal and artistic self-confidence along the way.

**Career Opportunities:** This program prepares students to initiate creative careers as visual artists or as professionals in the public and private spheres. Among many others, the wide range of options include:

- art dealer
- college professor
- commission artist
- community-based artist (in health care settings, nonprofit agencies, and local and national public arts)
- creative art director

- independent artist
- museum or gallery professional
- private school teacher

Career opportunities are also available with employers who seek graduates with a well-rounded humanities education.

## Art (Ceramics), BFA (FAARTCBFA)

**Campus:** Tempe

**Program Description:** The BFA program in art with a concentration in ceramics provides a stimulating and challenging environment for artistic and intellectual growth. With the realization that discipline, familiarity with historical precedents, and freedom go hand in hand with creative activities, the ceramics program strikes a balance between the acquisition of traditional skills and the promotion of independence and innovation. Responsibility is placed on the individual student to find personally meaningful content and an effective means to express that content within the ceramic arts.

The ceramics program features a complete and varied line of kilns, wheels and other equipment. Faculty members ensure that students learn the techniques and concepts that enable them to take their work in any direction they wish. A guest artist schedule enhances the program as does the Ceramics Research Center at the ASU Art Museum, which has a collection of more than 4,000 pieces and provides unparalleled opportunities to study and research the ceramic arts.

Students declare their Bachelor of Fine Arts concentration at the time of their ASU admission. Following admission, if students wish to change their concentration, they may meet with their School of Art academic advisor.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Additional Requirements:** Students are admitted directly to the ceramics concentration upon admittance to the BFA program in art.

**Transfer Admission Requirements:** Transfer students who have completed the foundational core and pre-art requirements are admitted directly to the ceramics concentration upon admittance to the BFA program in art. To complete an undergraduate degree in four years, it is recommended that community college transfer students who are completing a two-year degree and have completed the foundational core and pre-art requirements apply and submit a declaration form in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAARTCBFA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will learn studio fine art techniques and contemporary practices within ceramics and gain the skills for critical writing and verbal analysis. Upon completion of the program, students will be able to demonstrate the technical artistic abilities and conceptual development necessary to create artworks for exhibitions in galleries, museums, festivals, etc. and to pursue advanced research in graduate ceramics programs.
- Students will learn to think critically and practically about their professional practice and develop a comprehensive toolkit for self-promotion positioning them for success in the field of art and design. This program prepares students to apply to selected graduate programs and pursue professional art opportunities, including exhibitions, residencies and grants. Graduates demonstrate academic awareness and professional preparedness.
- Upon completion of the program, students of the BFA program in art will be able to articulate how their work fits within the context of the art world holistically and within the ceramics program. Students will participate in a group BFA capstone exhibition with a professionally installed body of cohesive artwork, along with an artist statement that supports their work, and assemble a professional digital portfolio.

**Global Opportunities:**

Global Experience: Since prehistoric times, engineered and artistic ceramics have played an important role in cultures around the world. With more than 300 programs available in more than 65 countries, Global Education opportunities (<https://goglobal.asu.edu/>) allow for in-depth study of contemporary artist practices while also allowing for broad historical and archaeological explorations.

**Career Opportunities:** Graduates of the undergraduate and graduate programs work as artists in the field, selling their works through commercial galleries, commissions and to private collectors. Some artists work as designers and consultants to the commercial ceramic industry; others set up their own businesses, producing handcrafted functional ware, architectural tiles and one-of-a-kind works.

## Art (Digital Photography), BFA (HIARTDPBFA)

**Campus:** Online

**Program Description:** Arizona State University's online BFA program in digital photography emphasizes contemporary, creative and expressive forms of photography.

In this program, students learn about the relationships between technique, concept and aesthetics and how each element contributes to meaning in the photographic image. Through learning the tools of photography; reflecting on contemporary practitioners; and studying the history and theories of photography along with extensive critique with peers, professors and mentors, students are encouraged to rigorously probe their interests and passions as they develop a deep understanding of their own creative process and potential. The program culminates with a capstone class where students are able to apply what they have learned to create a self-designed final project and portfolio.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their

academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/art-digital-photography-bfa/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIARTDPBFA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Create artwork for exhibitions in galleries, museums and other venues demonstrating technical artistic abilities and conceptual development.
- Demonstrate professional preparedness by developing a comprehensive toolkit for self-promotion that will position them for success in the field of art and design.
- Create a cohesive body of artwork organized and shared in a professional digital portfolio.

**Global Opportunities:**

Global Experience: Global Education programs provide an opportunity for students to explore their creative side with an intercultural lens and refine students' own creative vision and comprehensive knowledge of the theory, practice and history of photography. The international practice of photography allows students to expand their portfolio and pursue onsite locations similar to those found only in the professional field.

Not only do global experience programs encourage students to build communication skills, they challenge them, as an artist, to think differently. With over 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Whether it's in a foreign country, in the U.S. or online, Global Education programs (<https://goglobal.asu.edu/>) challenge students to adapt and persevere, and provide them with a chance to look inside themselves in a way they haven't done before, growing their personal and artistic self-confidence along the way.

**Career Opportunities:** Career possibilities for students with a degree in this concentration program include:

- client-based and editorial photography
- documentary photography
- fine art photography
- journalism
- photo book publishing
- photo criticism
- photo editing for web
- photo web design

- photographic post-production (retouching)
- video and photo production.
- visual literacy education

## Art (Drawing), BFA (FAARTDBFA)

**Campus:** Tempe

ASU is no longer accepting new students to this program. Students interested in drawing should apply to the painting and drawing concentration (<https://degrees.apps.asu.edu/bachelors/major/ASU00/HAARTPDBFA/art-painting-and-drawing>).

**Program Description:** The BFA program in art with a concentration in drawing offers a dynamic environment for creative, intellectual and technical growth that leads to quality art practice and professionalism.

The program encourages a wide spectrum of innovative approaches to contemporary drawing. Working from a variety of sources and subjects, students develop technical proficiency experimenting with a wide range of materials and processes. In addition, students develop the ability to critically assess imagery through written and verbal analysis. In the program's final year, students create a body of work with an individualized approach to form and content, culminating in a senior exhibition.

Students declare their Bachelor of Fine Arts concentration at the time of their ASU admission. Following admission, if students wish to change their concentration, they may meet with their School of Art academic advisor.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics or MAT 119 Finite Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Currently, all art students are admitted to ASU into the Bachelor of Arts (art studies) program. They must complete a series of requirements that include foundational coursework to be eligible for study in one of the school's Bachelor of Fine Arts degree programs, which include upper-division coursework in the studio. There is no portfolio review process for admission to the School of Art.

Students in their second year who are interested in studio art and art education obtain a signed BFA declaration form after completing the core requirements and during completion of the last of the 12 hours of 200-level art requirements. Students interested in art history or museum studies submit a major declaration form in the semester in which they complete 30 credit hours. The student's major is changed upon successful completion of the major declaration form. Students may choose to remain in and complete the Bachelor of Arts (art studies).

Beginning Fall 2019, students are admitted directly to the drawing concentration upon admittance to the BFA program in art.

Transfer Admission Requirements: Transfer students who have completed the foundational core and pre-art requirements may submit a major declaration form before they have been admitted to ASU. To complete an undergraduate degree in four years, it is recommended that community college transfer students, who are completing a two-year degree and have completed the foundational core and pre-art requirements, apply and submit a declaration form in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Beginning Fall 2019, transfer students are admitted directly to the drawing concentration upon admittance to the BFA program in art.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAARTDBFA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students can explore famous works of art firsthand and experience the environments they were created in during study abroad programs. The hands-on experience gained from a semester abroad is a great way to bolster portfolios and to gain multicultural insight into the world of art. More information is available on the Global Education (<https://goglobal.asu.edu/>) website.

**Career Opportunities:** The Bachelor of Fine Arts program prepares students to initiate creative careers as visual artists and as professionals in the public and private sphere. Career opportunities depend on focused concentrations within the area and additional education or training per industry standards.

Professions are varied; some examples include independent artist, illustrator, mural painter, commission artist, museum or gallery professional, art dealer, creative art director, private school teacher, college professor, and community-based artist (venues might include health care settings, nonprofit agencies, and local and national public arts).

## Art (Expanded Arts), BFA (FAARTIBFA)

**Campus:** Tempe

This program's name has changed effective Fall 2023. The previous name was Art (Intermedia).

**Program Description:** The BFA program in art with a concentration in expanded arts educates students in traditional and emerging forms and orientations, including performance, installation, 3D fabrication, digital sculpture, public and place-based art, and experimental and documentary video.

Faculty also teach special topics, including the recent studio seminars on walking as art practice and the engagement of women in the field of art and technology. Expanded arts faculty nurture students' talents and provide them with the skills they need to acquire creative and professional opportunities, exhibitions, grants, commissions, residencies and employment as educators, curators and media and arts professionals across an array of established and emerging fields.

Students declare their Bachelor of Fine Arts concentration at the time of their ASU admission. Following admission, if students wish to change their concentration, they may meet with their School of Art academic advisor.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap

in curriculum.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Create artwork for exhibitions in galleries, museums and other venues demonstrating technical artistic abilities and conceptual development.
- Demonstrate professional preparedness by developing a comprehensive toolkit for self-promotion that will position them for success in the field of art and design.
- Create a cohesive body of artwork organized and shared in a professional digital portfolio.

**Global Opportunities:**

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to explore their creative side with an intercultural lens and to enhance their understanding of expanded arts while engaging in an intercultural study abroad setting. Students are encouraged to build communication skills, and they are challenged, as artists, to think differently.

With more than 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own and allow them to apply a global scope to their practices, furthering the depth of their portfolios. Whether in a foreign country, in the U.S. or online, students learn to adapt and persevere, and they are provided with the chance to look inside themselves in a way they haven't done before, growing their self-confidence along the way.

**Career Opportunities:** Career opportunities depend on the emphasis selected. Possibilities include:

- computer graphics and animation
- community-based art (in schools, health care settings, nonprofit agencies)
- event production and cultural production
- positions in the music or entertainment industry
- video production and post-production
- web-based entertainment, education and communication

Professions may include:

- animator
- art director and set designer
- audio and video equipment technician
- commercial and industrial designer
- elementary or secondary school teacher
- independent artist
- marketing and public relations director
- media consultant
- museum and gallery curator, staff, director or art dealer
- performer
- professor
- video and media producer or designer
- video game designer

## Art (Museum Studies), BA (FAARTMSBA)

**Campus:** Tempe, Online

**Program Description:** The BA program in art with a concentration in museum studies focuses on the most prescient international themes and issues at the forefront of contemporary museum and heritage studies. These include various ethical and institutional issues, such as decolonization and repatriation claims, activist curating, and the role that institutions can play in promoting inclusiveness and cultural diversity, among other current topics.

To reflect the breadth of the sector, students pursuing museum studies select, from a large pool of approved subjects and in consultation with their advisor, their own focus areas, areas such as art history, anthropology, history, liberal studies, education, global studies, justice studies, parks and recreation. These courses offer a range of learning opportunities led by scholars and museum practitioners from across the ASU campus and around the globe. Optional internships enable students to work directly with working arts professionals in their field of interest.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Creative Enterprise and Cultural Leadership, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Additional Requirements:** Students meeting the university requirements for admission may matriculate in the Herberger Institute for Design and the Arts. Separate admission procedures and approvals are required for some programs within the college. Students must contact specific departments or schools for details.

**Transfer Admission Requirements:** Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Attend Online:**

**ASU Online:** ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/art-museum-studies-ba/>) for program descriptions and to request more information.

**ASU Local:** It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAARTMSBA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will recall the general history and function of museums and heritage sites domestically and globally.
- Students will comparatively analyze elements of potential careers within the museums and heritage site sectors utilizing evidence-based research.
- Students will write at an academic level suitable for further graduate study.

#### **Global Opportunities:**

**Global Experience:** Global Education programs (<https://goglobal.asu.edu/>) allow students to engage with the environment where history and art collide. The programs provide an immersive experience in the field of art history, enabling students to obtain a better understanding of their field of study. Students also further their communication skills and explore their creative side with an intercultural lens, and they are challenged, as an artist, to think differently.

With more than 300 options available in a foreign country, in the U.S. or online, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Students are challenged to adapt and persevere and to look inside themselves in a way they haven't done before, growing their self-confidence along the way.

**Career Opportunities:** Upon completion, graduates find employment opportunities in museums, galleries, archives, historical societies, national parks and other nonprofit organizations. They also can matriculate in a Master of Arts program in museum and heritage studies.

#### **Contact Information:**

## **Art (Painting and Drawing), BFA (HIARTPDBFA)**

**Campus:** Tempe

**Program Description:** The BFA program in art with a concentration in painting and drawing offers a dynamic environment for creative and conceptual growth that promotes students to a successful studio art practice and engages them in the larger global art community.

The program's curriculum encourages a wide spectrum of innovative approaches to painting and drawing. Working from a variety of sources and subjects, students develop technical proficiency through experimentation with a wide range of materials and processes. In addition, students develop the ability to critically assess imagery through growing their visual intelligence and the development of written and verbal communication.

In concentration courses, students develop unique creative problem-solving skills, examine contemporary artists' paths, and expand their ability to engage intellectually and reflect deeply regarding broader contexts of the art community. In their capstone and research studio courses, students develop a distinctive body of work with an individualized approach to concept and content. The senior thesis exhibition gives students practical experience in presenting their work in a professional gallery setting. Students graduate from the program prepared for the future with a portfolio of completed works and experience in professional practice.

Students declare their Bachelor of Fine Arts concentration at the time of ASU admission. Following admission, if students wish to change their concentration, they may meet with their School of Art academic advisor.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIARTPDBFA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** This program prepares students to initiate creative careers as visual artists and as professionals in the public and private sphere. Career opportunities depend on focus areas and additional education or training per industry standards.

Professions are varied; some examples include independent artist, illustrator, mural painter, commission artist, museum or gallery professional, art dealer, creative art director, private school teacher, college instructor, and community-based artist (venues might include health care settings, nonprofit agencies, local or national public arts).

## Art (Painting), BFA (FAARTPABFA)

**Campus:** Tempe

ASU is no longer accepting new students to this program. Students interested in painting should apply to the painting and drawing concentration (<https://degrees.apps.asu.edu/bachelors/major/ASU00/HAARTPDBFA/art-painting-and-drawing>).

**Program Description:** The BFA program in art with a concentration in painting offers a dynamic environment for creative, intellectual and technical growth that leads to quality art practice and professionalism.

The program encourages a wide spectrum of innovative approaches to contemporary painting. Working from a variety of sources and subjects, students develop technical proficiency experimenting with a wide range of materials and processes. In addition, students develop the ability to critically assess imagery through written and verbal analysis. In the program's final year, students create a body of work with an individualized approach to form and content, culminating in a senior exhibition.

Students declare their Bachelor of Fine Arts concentration at the time of their ASU admission. Following admission, if a student wishes to change their concentration, they may meet with their School of Art academic advisor.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics or MAT 117 College Algebra or MAT 119 Finite Mathematics

**Program Math Intensity:** General

### Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Currently, all art students are admitted to ASU into the Bachelor of Arts (art studies) program. They must complete a series of requirements that include foundational coursework to be eligible for study in one of the school's Bachelor of Fine Arts degree programs, which include upper-division coursework in the studio. There is no portfolio review process for admission to the School of Art.

Students in their second year who are interested in studio art and art education obtain a signed BFA declaration form after completing the core requirements and during completion of the last of the 12 hours of 200-level art requirements. Students interested in art history or museum studies submit a major declaration form in the semester in which they complete 30 credit hours. The student's major is changed upon successful completion of the major declaration form. Students may choose to remain in and complete the Bachelor of Arts (art studies).

Beginning Fall 2019, students are admitted directly to the painting concentration upon admittance to the BFA program in art.

Transfer Admission Requirements: Transfer students who have completed the foundational core and pre-art requirements may submit a major declaration form before they have been admitted to ASU. To complete an undergraduate degree in four years, it is recommended that community college transfer students, who are completing a two-year degree and have completed the foundational core and pre-art requirements, apply and submit a declaration form in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Beginning Fall 2019, transfer students are admitted directly to the painting concentration upon admittance to the BFA program in art.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAARTPABFA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students can explore famous works of art firsthand and experience the environments they were created in during study abroad programs. The hands-on experience gained from a semester abroad is a great way to bolster portfolios and to gain multicultural insight into the world of art. More information is available on the Global Education (<https://goglobal.asu.edu/>) website.

**Career Opportunities:** The Bachelor of Fine Arts program prepares students to initiate creative careers as visual artists and as professionals in the public and private sphere. Career opportunities depend on focused concentrations within the area and additional education or training per industry standards. Professions could include independent artist, illustrator, mural painter, commission artist, museum or gallery professional, art dealer, creative art director, private school teacher, college professor, or community-based artist in health care settings, nonprofit agencies, and local and national public arts organizations, among others.

## Art (Photography), BFA (FAARTPHBFA)

**Campus:** Tempe

**Program Description:** Students in the BFA program in art with a concentration in photography are offered an education in the production and analysis of photographs as a form of creative expression. Students work in a wide range of photographic media, including state-of-the-art digital output, analog and 19th-century processes.

The internationally recognized photography faculty at ASU are diverse, representing and encouraging a wide range of approaches to the production of photo-based art. Students learn to be self-disciplined and self-directed, to understand complex ideas around how images function in their work, and to develop a strong sense of themselves and their place in the world.

Students declare their Bachelor of Fine Arts concentration at the time of their ASU admission. Following admission, if a student wishes to change their concentration, they may meet with their School of Art academic advisor.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: There is no portfolio review process for admission to the School of Art.

Transfer Admission Requirements: To complete an undergraduate degree in four years, it is recommended that community college transfer students complete the foundational core and pre-art requirements.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAARTPHBFA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Create artwork for exhibitions in galleries, museums and other venues demonstrating technical artistic abilities and conceptual development.
- Demonstrate professional preparedness by developing a comprehensive toolkit for self-promotion that will position them for success in the field of art and design.
- Create a cohesive body of artwork organized and shared in a professional digital portfolio.

#### **Global Opportunities:**

Global Experience: The international practice of photography allows students to expand their portfolio and to pursue onsite locations similar to those found only in the professional field. Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to explore their creative side with an intercultural lens. Not only do Global Experience programs encourage students to build communication skills, they challenge them, as an artist, to think differently. With over 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Whether it's in a foreign country, in the U.S. or online, Global Education programs challenge students to adapt and persevere, and provide them with a chance to look inside yourself in a way they haven't done before, growing their self-confidence along the way.

**Career Opportunities:** A degree in the arts offers students a pathway to a rich and varied choice of careers. Students with a photography degree may work as independent studio photographers or contract for commercial work for firms, museums, galleries, individuals and other artists. Though this is not a commercial degree program, some students apply their skills post-graduation by doing product photography, portraits or event photography. Students have also started their own successful art galleries.

Photo skills hone a particular sensitivity to issues of representation and a heightened sense of time, among many other life-enhancing attributes. These critical and creative sensitivities can be brought to bear in life after graduation whatever career path a student chooses. The bachelor's degree is essential for advanced study leading to the terminal MFA. This advanced degree offers opportunities in:

- curatorial work in galleries, museums and historical collections
- history or studio areas
- nonprofit arts organization management
- university teaching

ART 102

[herbergeradvising@asu.edu](mailto:herbergeradvising@asu.edu)

## Art (Printmaking), BFA (FAARTPMBFA)

**Campus:** Tempe

**Program Description:** The BFA in art with a concentration in printmaking develops students' skills in technical processes, conceptual development and creative problem-solving to address the important questions in creative, social and community practices. The printmaking area provides a strong foundational understanding of the many traditional and contemporary processes while fostering experimentation and the development of unique approaches.

Collaboration, one of the historical underpinnings of printmaking, is encouraged; students often work with other areas such as photography, intermedia, social arts practice, textiles, painting and drawing, sculpture and projects within the larger community. Program faculty teach in well-equipped studios for intaglio, lithography, relief, screen printing, book arts, papermaking, a digital lab and a dedicated graduate studio. The program also offers specialties such as traditional dust grain copper photogravure, post digital production, letterpress, zines and papermaking classes.

Students can declare a major in printmaking upon acceptance to the School of Art or after successfully completing ART 253 Intro to Printmaking. Following admission, if students wish to change their concentration, they may meet with their School of Art academic advisor.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

### Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAARTPMBFA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Create artwork for exhibitions in galleries, museums and other venues demonstrating technical artistic abilities and conceptual development.
- Demonstrate professional preparedness by developing a comprehensive toolkit for self-promotion that will position them for success in the field of art and design.
- Create a cohesive body of artwork organized and shared in a professional digital portfolio.

**Global Opportunities:**

Global Experience: Students can enhance their understanding of printmaking while immersed in an intercultural setting. Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to explore their creative side with an intercultural lens and offer them a deeper look into the world of the art of printmaking, allowing them to apply a global scope to their practices, furthering the depth of their portfolios. Students build communication skills and are challenged, as artists, to think differently.

With over 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Whether in a foreign country, in the U.S. or online, students learn to adapt and persevere, and are provided with a chance to look inside themselves in a way they haven't done before, growing their self-confidence along the way.

**Career Opportunities:** Trained printmakers are working artists, practicing the expression of a personal understanding of their place in the world. They may find employment as artists or printmakers in schools of all levels teaching the execution and appreciation of visual art. They also work in fine art print studios, executing original prints for other artists.

Printmaking skills such as screenprinting or photomechanical and digital techniques, acquired for the production of art, also have commercial, non-art applications that may afford skilled employment. Artists with printmaking skills may also work in graphic design, illustration and signage or may work in museums, conservation, publishing, galleries and in other art-related activities.

## Art (Sculpture), BFA (FAARTSBFA)

**Campus:** Tempe

**Program Description:** The BFA in art with a concentration in sculpture recognizes the broad, transdisciplinary nature of sculpture today. A wide range of media now falls within an expanded definition of sculpture.

Coursework covers public and site-specific sculpture, foundry, interactive and electronic sculpture, neon, small metals, wood, and video and sound installation. Students learn to put today's creations in the context of the history of sculpture and the larger field of contemporary art. Critical inquiry is augmented by courses in the art history program. Visiting artists, curators and critics share their experience directly with students.

Students declare their Bachelor of Fine Arts concentration at the time of their ASU admission. Following admission, if students wish to change their concentration, they may meet with their School of Art academic advisor.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

- Demonstrate professional preparedness by developing a comprehensive toolkit for self-promotion that will position them for success in the field of art and design.
- Create a cohesive body of artwork organized and shared in a professional digital portfolio.

#### **Global Opportunities:**

**Global Experience:** Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to explore their creative side with an intercultural lens and allow them to enhance their knowledge of the sculpting arts while applying what they learn in an international setting. Not only do Global Experience programs encourage students to build communication skills, they challenge them, as an artist, to think differently. With over 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Whether it's in a foreign country, in the U.S. or online, Global Education programs challenge students to adapt and persevere, and provide them with a chance to look inside themselves in a way they haven't done before, growing their self-confidence along the way.

**Career Opportunities:** Graduates are prepared to embark on a lifetime exploration of the many aspects of 3D art. Positions are available in:

- fabrication and design of exhibitions
- set design
- teaching
- the motion picture industry
- 3D design
- welding and foundry technician work

Through one-on-one mentoring, students learn to win commissions and awards, hold exhibitions, and obtain residencies and jobs as studio artists, public artists, fabricators, project managers, teachers and arts administrators.

Many students also prefer to establish their own studios after graduation.

## Art (Textiles), BFA (FAARTFBFA)

**Campus:** Tempe

**Program Description:** The BFA program in art with a concentration in textiles is committed to the exploration and advancement of innovative textile practices. Working from fundamental techniques such as weaving, dyeing, textile printing and fiber sculpture, students gain mastery of skill along with an immersion in related critical theory.

An emphasis is placed on how investigations into the material and the political and social histories of textiles can inform contemporary art practice. The professional activity of the faculty provides students with a network of outside opportunities such as assistantships, internships, scholarships, residencies and exhibitions.

Students declare their Bachelor of Fine Arts concentration at the time of their ASU admission. Following admission, if students wish to change their concentration, they may meet with their School of Art academic advisor.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

### Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year students are admitted directly to the textiles concentration upon admittance to the BFA program in art.

Transfer Admission Requirements: Transfer students must have completed the foundational core and pre-art requirements before admittance to the textiles concentration. To complete an undergraduate degree in four years, it is recommended that community college transfer students who are completing a two-year degree and have completed the foundational core and pre-art requirements apply and submit a declaration form in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAARTFBFA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer

experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Create artwork for exhibitions in galleries, museums and other venues demonstrating technical artistic abilities and conceptual development.
- Demonstrate professional preparedness by developing a comprehensive toolkit for self-promotion that will position them for success in the field of art and design.
- Create a cohesive body of artwork organized and shared in a professional digital portfolio.

#### **Global Opportunities:**

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to explore their creative side with an intercultural lens and allow them to further their understanding of textile art forms. While abroad, students gain insight into the processes of the textile industry and learn more about the field firsthand all while reinforcing their portfolio work. Not only do Global Experience programs encourage students to build communication skills, they challenge them, as an artist, to think differently. With over 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Whether it's in a foreign country, in the U.S. or online, Global Education programs challenge students to adapt and persevere, and provide them with a chance to look inside yourself in a way they haven't done before, growing their self-confidence along the way.

**Career Opportunities:** Graduates are prepared with the technical skills they need to pursue a professional career within a diverse range of options that reflect the breadth of the textiles field. Some have established careers in design, in settings as varied as working in industry creating commercial items to setting up boutique studios for the creation of one-of-a-kind fabrics for garments and interiors. Others have chosen to pursue graduate degrees in art or design or in fields adjacent to textiles such as business or technology. Graduates continue to develop their art practice once leaving ASU, with outcomes that range from continued personal explorations to professional gallery exhibitions.

## **Arts (BA in the Arts), BA (FAATSBA)**

**Campus:** Tempe

**Program Description:** The BA in the arts is an interdisciplinary degree program designed for students who are passionate about the arts and design and interested in exploring multiple arts disciplines rather than specializing in one.

Students gain an increased understanding of the theoretical, historical and cultural forces that shape the cultural expression of arts and design. Students pursue open-ended paths to explore and develop a range of skills suitable for advanced study in multiple areas.

The major includes a common core for all students, and students may choose a focus from arts administration or entertainment design or they may design an individualized focus that is subject to approval by the institute's standards committee and the dean's office.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation

**Program Math Intensity:** General

#### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

#### **Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Creative Enterprise and Cultural Leadership, MA

the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAATSBA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: Students whose program of study is in the arts have the ability to further their studies around the world (<https://goglobal.asu.edu/>). Equipped with the knowledge obtained in classes, students can explore cultural aesthetic practices while studying abroad, furthering their understanding and enhancing their portfolios.

**Career Opportunities:** As the population in the state of Arizona grows, numerous arts organizations are being developed to provide cultural and artistic experiences for the state's residents. These organizations need and demand individuals who understand the impact the arts have on society and who can be passionate employees committed to the arts. This program provides the necessary skill sets, including critical thinking, for such careers as:

- arts administrators
- arts critics
- entertainment designers
- media arts authors and publishers
- museum curators and directors
- public art specialists

## **Dance, BFA (FADANBFA)**

**Campus:** Tempe

**Program Description:** The School of Music, Dance and Theatre provides an inclusive, dynamic and culturally diverse learning environment in which students develop as creative artists, scholars and educators. The BFA program in dance offers an engaging curriculum that emphasizes collaboration and a holistic approach to movement and education. The program encourages today's artists to develop multiple skills for success in the arts and its related fields.

The core values of the program include creativity, inquiry and humanity. To bridge knowledge and community and to gain understanding of dance as inquiry, these values are embedded in a broad range of academic experiences and exploratory processes. The dance program includes coursework in creative practices (the study of the creative process and dance-making using improvisation, choreography and interdisciplinary approaches); dance and digital arts; dance history, ethnography and philosophy; movement practices (the study of the theory, history and technique of a range of dance forms and mind-body practices, including Afro-Latin, contemporary ballet, hip hop, contemporary modern and somatic practices); and seminars.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Admission to the BFA in dance is selective and based on an interview process. Students are admitted to ASU as dance interview students and must successfully complete an interview and audition before enrolling in the dance major. If a student passes the interview, the School of Music, Dance and Theatre will change the student's major to the BFA in dance. In the event the student is admitted to ASU but not selected as a dance major or misses the interview application deadline, the student enters ASU as a dance interview student and must successfully pass the dance interview and audition milestone in the first semester in order to gain admission into the program.

Interview days (<https://musicdancetheatre.asu.edu/degree-programs/dance/undergraduate>) take place in November and February of each year. To ensure a smooth curricular progression, all prospective dance students, including transfer students, are strongly encouraged to participate in the interview day during the semester prior to their intended date of enrollment.

Application Deadlines: Students should review the Dance Interview Day requirements and deadlines (<https://musicdancetheatre.asu.edu/admissions/dance/undergraduate-steps-to-apply>) for more details.

Transfer Admission Requirements: Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

Application Deadlines: Students should review the Dance Interview Day requirements and deadlines (<https://musicdancetheatre.asu.edu/admissions/dance/undergraduate-steps-to-apply>) for more details.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FADANBFA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply creative perspectives and skills in their art-making that reflect broad understandings of current dance and digital media practices.
- Implement culturally sensitive, moral, and socially grounded teaching, facilitation and community building practices.
- Apply knowledge of the diversity and significance of past and current dance practices, traditions and trends as they are situated within human cultures to the creation and assessment of new work.

Global Experience: Dance transcends language, so students can explore their art in various countries, no matter the language. When studying abroad (<https://goglobal.asu.edu/>), students expand their view of dance through an international lens while exploring various dance forms at their origins.

**Career Opportunities:** The comprehensive academic foundation of the Bachelor of Fine Arts program in dance prepares students to be leading dance professionals. Graduates of the program have the expertise to pursue professions as choreographers, performers, educators, community artists, scholars and much more. After leaving ASU, many graduates participate in activities like:

- conducting academic research
- curating or producing dance festivals and events
- directing or managing performing art companies, studios or dance-related organizations
- facilitating community partnerships and projects
- producing dance media for performance or instruction
- pursuing certification in somatic practices (Laban Movement Analysis, Feldenkrais Method, Alexander Technique, body-mind centering, etc.)
- teaching and designing curriculum
- working as a dance critic
- working in technical theatre and dance production
- working in the areas of health and wellness (fitness, yoga, massage therapy, etc.)
- working in the field of arts management and administration
- writing for scholarly publications

## Dance (Dance Education), BFA (FADANEBFA)

**Campus:** Tempe

**Program Description:** The BFA in dance with a concentration in dance education prepares students for certification to teach dance in K-12 schools in the state of Arizona as well as for certification in other states through a multistate reciprocity agreement.

The School of Music, Dance and Theatre provides a dynamic and culturally diverse learning environment in which students develop as creative artists, scholars and educators. Studies in dance cultures, music, digital media, dance history, philosophy and criticism, movement science, somatics, and stage and screen production enhance the rich educational setting. Creativity and research, the core program values, help to bridge knowledge and community and are embedded in a broad range of academic experiences emphasizing movement and creative practices, artistic process, leadership and pedagogy. The dance program also includes coursework in technique of a range of dance forms and mind-body practices, including Afro-Latin, contemporary ballet, hip hop, contemporary modern and somatic movement practice, and seminars.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Admission to the BFA in dance is selective and based on an interview process. Students are admitted to ASU as dance interview students and must successfully complete an interview and audition before enrolling in the dance major. If a student passes the interview, the School of Music, Dance and Theatre changes the student's major to the BFA in dance. In the event that the student is admitted to ASU but not selected as a dance major or misses the interview application deadline, the student enters ASU as a dance interview student and must successfully

pass the dance interview and audition milestone in the first semester in order to gain admission into the program.

Interview days (<https://musicdancetheatre.asu.edu/degree-programs/dance/undergraduate>) take place in November and February of each year. To ensure a smooth curricular progression, all prospective dance students, including transfer students, are strongly encouraged to participate in the interview day during the semester prior to their intended date of enrollment.

**Application Deadlines:** Students should review Dance Interview Day requirements and deadlines (<https://musicdancetheatre.asu.edu/admissions/dance/undergraduate-steps-to-apply>) for more details.

**Transfer Admission Requirements:** Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

**Application Deadlines:** Students should review Dance Interview Day requirements and deadlines (<https://musicdancetheatre.asu.edu/admissions/dance/undergraduate-steps-to-apply>) for more details.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FADANEBFA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply creative perspectives and skills in their art-making that reflect broad understandings of current dance and digital media practices.
- Develop pedagogical approaches and curricular content for PreK-12 and community dance education settings.
- Apply knowledge of past and current dance practices, traditions and trends in one or more global or historical dance forms.

#### **Global Opportunities:**

**Global Experience:** Dance transcends language, so students can explore their art in various countries, no matter the language. When studying abroad (<https://goglobal.asu.edu/>), students expand their view of dance through an international lens while exploring various dance forms at their origins, gaining knowledge that will help them become educators of the art.

**Career Opportunities:** The concentration in dance education lays the foundation for a career in teaching in public and private settings. Students earn an Arizona teaching certification while pursuing the dance education degree and they can expect to find employment in one of many thriving middle school and high school dance programs throughout the state, community settings or dance studios.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## **Design Studies, BA (ARDSNBA)**

**Campus:** Tempe

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.  
2023-24 Academic Catalog Archive

**Program Description:** The BA program in design studies is a four-year, nonstudio program of study in design that focuses on the design disciplines offered in the ASU Herberger Institute:

- architectural studies
- graphic design
- industrial design
- interior design
- landscape architecture

This is a highly flexible program of study, much like a liberal arts degree, in which students select design and design-related courses offered in the institute and throughout the university. Students acquire a breadth of design knowledge via courses taken from three categories: communication for design, design history and general design.

The program provides a design education, general and specific, for students who seek opportunities in the broader design sector or in graduate education.

Students may undertake the program in one of two specific concentrations: design studies, which allows students to discover myriad possibilities of design as a subject area as well as the flexibility that it provides for further exploration; or design management, which offers a selection of courses in management and human communication that complement design.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ARDSNBA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Although a specific career path is not the principal intention, some graduates of the program have become involved in sales and marketing in the design sector; others have gone on to graduate studies in architecture and planning. Other possible career paths include journalism and education.

## Digital Culture (Media Processing), BA (HIDGCMPPBA)

**Campus:** Tempe

ASU is no longer accepting new students to this program. Students interested in a media processing concentration should apply to the BS in digital culture (media processing) (<https://degrees.apps.asu.edu/bachelors/major/ASU00/HIDGCMPPBS/digital-culture-media-processing>).

**Program Description:** The BA program in digital culture equips students with the technical skills to create computational media and the cultural skills to know when or why to apply them.

Students learn to create computational media, which is computation combined with objects, sound, video, time, space, culture and bodies; breathe behavior into media, objects or systems by programming; think critically about how computation impacts lives and how culture makes a difference in how people experience computational media, a critical skill in this dynamic age.

All students gain techniques to change the world and communicate using contemporary computational media, a vital power in today's world. Some go on to invent fresh techniques. Armed with skills and sound judgment, graduates work in cultural communication, marketing, design, social media, health, education, entertainment and creative arts, and all areas in which culture is shaped by technology and computational media.

This digital culture program with a concentration in media processing is offered in partnership with the Ira A. Fulton Schools of Engineering. The program is designed for students who desire to specialize in media processing aspects of new media. Students complement their knowledge with a more advanced understanding of programming, data structures, signals processing and system architecture aspects of new media.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus

**Program Math Intensity:** Moderate

### Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® ([https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIDGCMPPBA-null + &college=CHI](https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIDGCMPPBA-null+%26college=CHI)) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### Global Opportunities:

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students wishing to gain a global perspective and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates of the digital culture program have a wide array of career opportunities in new media involving the fields of:

- communications (CISCO, Google, Facebook)
- computing (Apple, Microsoft)
- gaming and entertainment (Industrial Light and Magic, Electronic Arts, Pixar)
- media arts (engineering multimedia shows, video and sound production)

The digital culture curriculum also prepares students for roles in the development of modern media systems that address complex sociotechnical problems, such as:

- diagnostic, monitoring and assistive cyber-physical tools and systems that can be used by health care providers
- new systems for collaborative, participatory content creation and sharing
- social networking and reflection tools for promoting sustainability
- systems for interactive, adaptive learning and computational assessment in educational organizations

Graduates who are interested in continuing their higher education are well prepared to apply for admission to the top interdisciplinary new media programs in the nation, including the graduate programs through the School of Arts, Media and Engineering at ASU.

Digital culture alumni have received job opportunities in:

- 3D modeling and fabrication
- audio and video
- engineering
- graphic design
- illustration
- iOS development
- journalism
- programming
- software engineering
- special effects
- visual media

## Environmental Design, BS (HIEDSBS)

**Campus:** Tempe, ASU at Los Angeles

**Program Description:** The BS program in environmental design at The Design School has an integrated curriculum designed to create a deep awareness and knowledge of issues that influence the design of built environments.

The program of study emphasizes general knowledge and design research as well as offering focus areas. Focus areas include innovation, technology and design strategies; and sustainability in environmental design. The curriculum provides special understanding of theories, technologies, social issues and management aspects related to the student's chosen focus area.

This program provides a broad base of skills and knowledge drawing from natural science, social science, arts and engineering and integrated into environmental design.

Los Angeles location

In Los Angeles, this program is not currently eligible for federal financial aid. Students seeking federal financial aid assistance or veterans interested in using GI Bill® benefits should consider the program on the ASU Tempe campus.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

The Los Angeles location is not available for international students seeking an F-1 or J-1 visa. Visa-eligible students should consider the program on the ASU Tempe campus.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their

academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

#### **Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Creative Enterprise and Cultural Leadership, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIEDSBS~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: Students can complement their ASU coursework with study abroad programs. Programs that focus on topics such as sustainability, design and ecotourism increase a student's multicultural engagement and expose them to the design of built environments in other parts of the world. More information on available programs can be found on the Global Education Office website (<https://goglobal.asu.edu/>).

**Career Opportunities:** Graduates of this program may take on roles in offices, businesses, public institutions and industries that require an awareness of issues that affect environmental design. Additionally, graduates may choose to apply to graduate programs in related disciplines to pursue professional or other graduate degrees.

## **Fashion, BA (HIFSHBA)**

**Campus:** Downtown Phoenix, ASU at Los Angeles

**Program Description:** The BA in fashion at ASU is a transdisciplinary program that provides students with a foundation that enables them to work across many segments in the fashion industry.

The fashion program combines history, business practices and hands-on studio experience to prepare students for a variety of roles in this global industry. Gaining a proficiency in illustration skills and fluency with materials, traditional techniques and digital technologies, students are prepared for interdisciplinary collaborations through coursework across marketing and merchandising, wearable technology, sustainability, management and leadership, international experience, and fashion and culture. In the capstone experience, students develop a substantial project within an area of focus. Opportunities for internships and study abroad further advance students' professional goals.

Through the leadership of well-known industry professionals, students with this bachelor's degree in fashion are connected globally to leaders in the industry.

#### Los Angeles location

In Los Angeles, this program is not currently eligible for federal financial aid. Students seeking federal financial aid assistance or veterans interested in using GI Bill® benefits should consider the program on the ASU Downtown Phoenix campus.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

The Los Angeles location is not available for international students seeking an F-1 or J-1 visa. Visa-eligible students should consider the program on the ASU Downtown Phoenix campus.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics or any math course that meets the MA designation

**Program Math Intensity:** General

#### Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

#### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIFSHBA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Learn design and commercial production techniques.
- Demonstrate ability to successfully utilize industry-based information.
- Produce projects relevant to fashion industry practices.

#### Global Opportunities:

Global Experience: Fashion varies from country to country, city to city and culture to culture. Studying abroad (<https://goglobal.asu.edu>) exposes students to unique cultural environments and allows students to expand their fashion knowledge in diverse settings. Students are challenged to adapt and persevere under unfamiliar social and cultural circumstances, which allows them to grow and prosper in their professional and personal lives. Students have the opportunity to enhance their resume and portfolio with a global perspective gained by studying abroad.

The Herberger Institute for Design and the Arts recommends these programs (<https://goglobal.asu.edu/students/major/herberger/fashion>) for students majoring in fashion.

**Career Opportunities:** Graduates are prepared to enter the fashion industry in any of a number of roles. Some examples are:

- curator
- fabric designer
- fashion business analyst
- fashion designer
- marketing researcher
- merchandise display and window designer
- supply chain manager
- textile and apparel production manager

## Film (Film and Media Production), BA (FAFLMBA)

**Campus:** Tempe

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options, such as the BFA in Film and Media Production.

**Program Description:** Students pursuing the BA in film with a concentration in film and media production develop a comprehensive and practical knowledge of digital media production, an awareness of the impact of media and entertainment on audiences and culture, and an understanding of the role of the artist in society.

Students in this program have access to digital cameras, lighting and sound equipment, post-production software and facilities, and other resources --- including talented and dedicated peer and faculty colleagues who will give them multiple opportunities to produce projects of exceptional quality.

Students choose one of three upper-division tracks of study: directing; producing and screenwriting; or media technology, including cinematography, post-production and sound. Each course of study is supported by the degree-wide emphasis on ethical filmmaking practices, innovative creative expression, and preparation for a career as an industry professional.

The program is offered by The Sidney Poitier New American Film School.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Creative Enterprise and Cultural Leadership, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: All film students are admitted to ASU into the Bachelor of Arts in film, filmmaking practices concentration. Students who wish to pursue the highly selective, studio-based Bachelor of Arts in film with a concentration in film and media production must complete the 15

hour film core and successfully pass an interview and review of their creative work to enter the concentration. This interview and creative work review generally takes place in the third or fourth term at ASU.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAFLMBA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

**Global Experience:** Study abroad provides students a once-in-a-lifetime opportunity to explore the globe while developing unique skills that can make them stand out in the competitive field of film and media. Students can observe international media culture firsthand. Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to explore their creative side with an intercultural lens. Not only do the programs encourage students to build communication skills, they challenge them, as artists, to think differently. Besides acquiring intercultural, communication and leadership skills, students have the chance to learn languages and expand their international network.

With more than 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Whether in a foreign country, in the U.S. or online, students are challenged to adapt and persevere and to look inside themselves in a way they haven't done before, growing their self-confidence along the way.

**Career Opportunities:** Graduates possess the knowledge and experience they need to enter the media and entertainment field in careers as:

- cinematographers and camera operators
- directors for motion pictures, television and documentaries
- editors and post-production specialists
- producers and production executives
- screenwriters for motion pictures and television
- videographers and digital media content creators

The bachelor's degree program is an excellent broad-based foundation for work in the profession, and it prepares students for further training at graduate schools or conservatories.

## **Film (Filmmaking Practices), BA (FAFPRBA)**

**Campus:** Tempe, ASU at Los Angeles

**Program Description:** Students who pursue the BA in film with a concentration in filmmaking practices learn foundational production skills; entertainment and media ethics; feature, short and episodic screenwriting; and general film and media industry history and practices.

Course offerings focus on key professional skills such as screenwriting for feature films, television and new media, and producing practices, including on-set production and production management; business and legal matters; professional and technical writing; and production for feature films, television and internet content.

Production experience is regularly available through lower-division courses that provide creative coursework options, the upper-division course FMP 300, and credited opportunities to work on projects produced by students and faculty at The Sidney Poitier New American Film School. All students complete a year-long senior project, initiated and developed by the students and supported through dedicated faculty mentorship. There is also a unique Semester in L.A. program available to sophomores, juniors, and seniors, as well as industry intensives and internship opportunities.

Los Angeles location

The Los Angeles location for the BA in film with a concentration in filmmaking practices is accepting transfer students with an associate degree in film or media production from Arizona and California community colleges.

In Los Angeles, this program is not currently eligible for federal financial aid. Students seeking federal financial aid assistance or veterans interested in using GI Bill® benefits should consider the program on the ASU Tempe campus.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

The Los Angeles location is not available for international students seeking an F-1 or J-1 visa. Visa-eligible students should consider the program on the ASU Tempe campus.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Creative Enterprise and Cultural Leadership, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Admission Requirements: The Los Angeles location for the BA in film with a concentration in filmmaking practices accepts transfer students with an associate degree in film or media production from California community colleges, beginning fall 2022.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAFPRBA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply technical, creative, and project management skills when undertaking the collaborative process of filmmaking.
- Produce a comprehensive, coherent literature review by synthesizing relevant professional and scholarly literature regarding the artistic value and cultural impact of film, television, and digital media making.
- Generate a media-based project following all of the stages required for successful completion.

**Global Opportunities:**

Global Experience: Study abroad provides students a once in a lifetime opportunity to explore the globe while developing unique skills that can help them stand out in the competitive field of film.

With more than 300 Global Education programs (<https://goglobal.asu.edu>) available, students have an opportunity to explore their creative side with an intercultural lens and acquire a breadth of knowledge in arts and culture uniquely different from their own. Not only do the programs encourage students to build communication skills, they challenge them, as an artist, to think differently. Besides acquiring intercultural, communication and leadership skills, students have the chance to learn languages and expand their international network.

Whether in a foreign country, in the U.S., or online, Global Education programs challenge students to adapt and persevere and provide them with a chance to look inside themselves in a way they haven't done before, growing their self-confidence along the way.

**Career Opportunities:** The filmmaking practices concentration provides pre-professional students with the knowledge and experience that prepare them for entry-level positions in media and entertainment production; producing; public relations, marketing and management; and advanced graduate-level education.

Screenwriting allows students to develop a diverse and unique writing portfolio and an understanding of the creative and professional skills required to establish and maintain a successful career as a writer.

## Film and Media Production, BFA (HIFMPBFA)

**Campus:** Tempe

**Program Description:** The BFA in film and media production provides creative experiences and preprofessional training to students with a focus on ethical practices, cutting-edge technical skills and interdisciplinary collaboration. Students are equipped to master digital technologies and create stories that reflect their unique vision and voice.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student must have an overall GPA of 2.50 in order to transfer into this program.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIFMPBFA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Present a digital portfolio that represents and reflects the student's unique creative voice, advanced technical skills, successful production experience, and professional vision.
- Apply technical, creative, and project management skills when undertaking the collaborative process of filmmaking.
- Demonstrate understanding of cultural institutions through a synthesis of research, critical thinking, and communication skills from multiple disciplines, drawn from American cultural institutions and storytelling traditions, as applied to the making, viewing, and study of film/media

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates are prepared for success in the growing media industry; to pursue a graduate degree; and to pioneer new careers that will require advanced media production skills, a professional work ethic, and a strong creative voice.

Graduates who earn this degree are prepared to pursue a wide array of skilled professional careers, including:

- animation and visual effects artist
- film, television, documentary and new media director
- film and media teacher
- media editor
- producer
- production, studio or network executive
- professional videographer
- public relations specialist for arts and entertainment
- sound designer
- sound recording engineer
- talent manager

**Graphic Design, BSD (ARGRABSD)**

**Campus:** Tempe, Online

**Program Description:** The graphic design program in The Design School is committed to excellence in traditional and contemporary graphic design education, professionalism, research and service for the community at large. Faculty, alumni, students and visiting designers and educators constantly reinforce the link between society and nature and vigorously advocate quality in developing communication strategies.

The BSD curriculum acknowledges the need for creative environments that address ecological concerns and encourages students to develop sustainable, transdisciplinary work sensitive to cultural aesthetic. Students develop a strong foundation of design principles through lower-division studio and lecture courses, using this to build an overall understanding of how design can shape perception and meaning using visual media. Upper-division studio courses provide opportunities for students to work in collaborative teams addressing professional projects in information design, interaction design, exhibition design, animation, motion graphics, branding, publication design, web design, interface design and the multiple contemporary facets of sensorial design.

Graphic designers are responsible for designing how information is communicated. Forms of communication include print, video, film and electronic (web). Graphic designers are concerned with appearance, choosing the appropriate mechanism for communication, clarity of information and its effectiveness and how communication is transferred and received.

The BSD program in graphic design places an emphasis on strategic communication developed through a design process that includes research, analysis, conceptualization, planning and realization. The process leads to innovative visual communication design solutions for contemporary design problems that are local to global in scope.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/graphic-design-major/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ARGRABSD~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Study abroad provides graphic design students with a chance to explore their creative side through an intercultural lens, challenging them to think differently as an artist and to explore different ways of communicating information visually across cultures, and it encourages students to build communication skills.

With more than 300 options available, whether in a foreign country, in the U.S. or online, Global Education programs (<https://goglobal.asu.edu>) give students a breadth of knowledge in arts and culture. Students can gain a global perspective and knowledge while earning ASU credit. Students learn to adapt and persevere, and to look inside themselves in a way they haven't done before, growing their self-confidence along the way.

**Career Opportunities:** Based on a diversified portfolio upon graduation, those who opt for the graphic design profession gain employment in:

- advertising and marketing design
- brand and corporate identity design
- broadcast design (TV graphics)
- interaction and interface design
- museum or exhibition design
- publication design
- visual communication design
- web design

Specific examples of graphic designers' work include:

- annual reports
- books
- environmental graphics
- information design
- motion graphics

- multimedia presentations
- publications
- websites

Graduates also may pursue graduate studies leading to careers in design education and other fields of professional endeavor in design.

## Industrial Design, BSD (ARINDBSD)

**Campus:** Tempe

**Program Description:** The BSD in industrial design at The Design School prepares students to envision the future by following the process of ideating, iterating, developing, testing and prototyping new products, services and strategies. Students use interdisciplinary learning to turn creative ideas into successful projects for society.

The program's students have a strong commitment to the environment and the human being; they center their approaches on delivering solutions that are beneficial for society, with a strong sense of humanity, empowered by the latest trends and technologies, always looking to get a positive impact on every scale.

The curriculum of lower-division studio and lecture courses helps students develop a strong foundation of design skills. Upper-division studio courses allow students to collaborate and address design challenges, professional projects and case scenarios. To balance the classroom theory and to add periods of practical, hands-on experience before graduation, industrial design students also follow an internship program.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 170 - Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Data Science), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Integrated Health Care), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ARINDBSD-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Through study abroad programs (<https://goglobal.asu.edu/>), industrial design students learn flexible ways of thinking that contribute to their ability to meet the program goal of creating products and service systems that benefit society. They gain a global perspective and knowledge in preparation for a future-focused career, all while in an international setting. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** After completing the program successfully, graduates can work as designers in several capacities or develop startup ventures.

Some career examples include:

- accessory designer
- automotive designer
- consumer goods designer
- design strategist
- furniture and homeware designer
- industrial or product designer
- toy designer
- trade show exhibit designer
- user experience designer
- user interface designer

Graduates obtain employment with consulting firms that design products, services and experiences for various clients, such as corporate industries, nonprofit institutions and nongovernmental organizations. They keep an entrepreneurial conscience, addressing specific social or environmental problems and providing successful market innovations.

Some pursue teaching courses in art and design schools, colleges or universities. Others have also established successful design and manufacturing ventures or led product development teams and innovations at renowned organizations.

## Interior Design, BSD (ARINTBSD)

**Campus:** Tempe

**Program Description:** The BSD program in interior design at The Design School explores how people inhabit, interact with, and transform interior

environments. Interior designers create environments within buildings that meet the physical and psychological needs of individuals and institutions, providing a useful, rich and rewarding environment for users. Interior design involves the design of space, equipment and furniture. It requires substantial technical and organizational understanding; sensibility to form, lighting, color and texture; and an awareness of design history and theory.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 170 - Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ARINTBSD-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Interior design students have the chance to see many different design styles across cultures when studying abroad. With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), international experiences are possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs. Students can find more information on available programs on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** Graduates find employment opportunities with interior design firms, architecture firms or corporations and governmental entities of any size. Firms may specialize in interior design for residential, commercial, retail, hospitality, institutional and health care spaces. Career specialties include historic restoration, branding, sustainability, new product innovation and incorporation of new technology.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Landscape Architecture, BSLA (ARPLABSLA)

**Campus:** Tempe

**Program Description:** The BSLA program at The Design School is an accredited undergraduate professional degree  
2023-24 Academic Catalog Archive

(<https://design.asu.edu/about/accreditation>) that provides the knowledge and skills necessary to become a professional landscape architect. The program leverages the Phoenix metro area as a learning laboratory and offers students the opportunity to engage with the community in applied projects that focus on designing socially and environmentally sustainable outdoor environments to improve the ecological and social health of the urban environment.

Undergraduate landscape architecture projects can range from large-scale work encompassing urban design, landscape restoration, open space preservation planning, community planning and landscape ecological design to projects at the more intimate scale of a neighborhood park or residential backyard. Emerging areas of focus include creative placemaking; environmental equity, green roofs and living walls; restorative environments; sustainable design; and urban climate design.

Graduates have the qualifications to sit for the Landscape Architect in Training examination leading to registration as a professional landscape architect.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 170 - Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ARPLABSLA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Study abroad provides the opportunity to view marvels of landscape architecture up close and in person. With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their experience to their unique interests and skill sets. Whether it's in a foreign country, in the U.S. or online, students in landscape architecture are exposed to unique and diverse cultural environments and expand their knowledge and skills in design and related disciplines. Students gain a global perspective and knowledge in preparation for a future-focused career while earning ASU credit for completed courses and staying on track for graduation.

The Herberger Institute for Design and the Arts recommends these programs (<https://goglobal.asu.edu/students/major/herberger/landscape-architecture>) for students majoring in landscape architecture.

**Career Opportunities:** The bachelor's degree program is designed to prepare students for landscape architecture professional practice and advanced study at the graduate level. Graduates have found employment in nationally recognized firms working with notable landscape architects in large multinational firms or in public agencies. Alumni have also gone on to pursue advanced study at universities with distinguished graduate programs in landscape architecture and allied design fields.

The U.S. Bureau of Labor Statistics projects employment for landscape architects to grow 4% between 2018 and 2028, about as fast as the average for all occupations. The bureau also notes employers prefer hiring entry-level landscape architects with internship experience to significantly reduce the amount of on-the-job training. The bachelor's degree program has an internship requirement meant to address this preference and better prepare graduates for employment.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

The Bachelor of Science in Landscape Architecture is accredited by the Landscape Architectural Accreditation Board. Graduates have the qualifications to sit for the Landscape Architect in Training examination leading to registration as a professional landscape architect. For detailed information on licensure requirements, students should contact the Council of Landscape Architectural Registration Boards at <https://www.clarb.org/> (<https://www.clarb.org/>).

## Media Arts and Sciences, BA (HIDGCBA)

**Campus:** Tempe, Online

This program's name has changed effective Fall 2023. The previous name was Digital Culture.

**Program Description:** The BA program in media arts and sciences equips students with the technical skills to create computational media and the cultural skills to know when or why to apply them.

Students learn to create computational media, which is computation combined with objects, sound, video, time, space, culture and bodies; breathe behavior into media, objects or systems by programming; and think critically about how computation impacts lives and how culture makes a difference in how people experience computational media, a critical skill in this dynamic age.

This program is also offered as an accelerated degree with the MA in creative enterprise and cultural leadership. More information can be found on the Creative Enterprise and Cultural Leadership website (<https://herbergerinstitute.asu.edu/degree-programs/creative-enterprise-and-cultural-leadership/about?dept=1400&id=1>).

The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application, and implications. The School of Arts, Media and Engineering prepares students to be socially aware, critically thinking global citizens who strive to bring about positive change in a society that will be increasingly shaped by new technologies.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Creative Enterprise and Cultural Leadership, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply

(<https://acceleratedmasters.asu.edu/how-apply>).

### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/media-arts-sciences/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIDGCBA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### **Global Opportunities:**

Global Experience: Exploring programs around the globe furthers students' ability to apply their studies to a global spectrum. With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students wishing to gain a global perspective and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and may apply financial aid and scholarships toward program costs.

The Herberger Institute for Design and the Arts recommends these programs (<https://goglobal.asu.edu/students/major/herberger/digital-culture>) for students majoring in media arts and sciences.

**Career Opportunities:** Armed with skills and sound judgment, graduates work in cultural communication, marketing, design, social media, health, education, entertainment and creative arts, and all areas in which culture is shaped by technology and computational media. All know techniques to change the world through communication using contemporary computational media, a vital power in the today's world. Some graduates go on to invent fresh techniques.

Career opportunities include the following fields:

- audio
- comparative literature
- computing
- creative writing
- technical writing
- technology
- visual media

Digital culture alumni have obtained careers as:

- designers
- engineers
- graphic designers
- programmers
- software specialists

- special effects artists
- 3D modelers
- visual media artists

## Media Arts and Sciences (Art), BA (HIDGCABA)

**Campus:** Tempe

This program's name has changed effective Fall 2023. The previous name was Digital Culture (Art).

**Program Description:** The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application and implications. The School of Arts, Media and Engineering prepares students to be socially aware, critically thinking global citizens who strive to bring about positive change in a society that will be increasingly shaped by new technologies.

The BA program in media arts and sciences equips students with the knowledge, abilities and technical skills they need for creating computational media. Students learn to create computational media, which is computation combined with objects, sound, video, time, space, culture and bodies; breathe behavior into media, objects or systems by programming; and think critically about how computation impacts lives and how culture makes a difference in how people experience computational media, a critical skill in this dynamic age.

The program is for students wishing to specialize in visual composition aspects of new media. Students complement their knowledge of media arts and sciences with discipline-specific courses in the School of Art focused on the historical and theoretical aspects of visual arts, foundational visual arts skills, and hands-on knowledge of visual composition through digital means.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIDGCABA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Exploring programs around the globe furthers students' ability to apply their studies to a global spectrum. With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students wishing to gain a global perspective and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and may apply financial aid and scholarships toward program costs.

The Herberger Institute for Design and the Arts recommends these programs (<https://goglobal.asu.edu/students/major/herberger/digital-culture>) for students majoring in media arts and sciences.

**Career Opportunities:** Armed with skills and sound judgment, graduates work in cultural communication, marketing, design, social media, health, education, entertainment and creative arts, and all areas in which culture is shaped by technology and computational media. All graduates know techniques to change the world and communicate using contemporary computational media, a vital power in the today's world. Some go on to invent fresh techniques.

Graduates of the media arts and sciences program have a wide array of career opportunities in new media involving the fields of:

- communications (CISCO, Google, Facebook)
- computing (Apple, Microsoft)
- gaming and entertainment (Industrial Light and Magic, Electronic Arts, Pixar)
- media arts (engineering multimedia shows, video and sound production)

The media arts and sciences curriculum also prepares students for roles in the development of modern media systems that address complex socio-technical problems, such as:

- diagnostic, monitoring and assistive cyber-physical tools and systems that can be used by health care providers
- new systems for collaborative, participatory content creation and sharing
- social networking and reflection tools for promoting sustainability
- systems for interactive, adaptive learning and computational assessment in educational organizations

Graduates of the media arts and sciences program who are interested in continuing their higher education are well prepared to apply for admission to the graduate programs through the School of Arts, Media and Engineering at ASU and other top interdisciplinary new media programs in the nation.

Media arts and sciences alumni have received job opportunities in:

- 3D modeling and fabrication
- audio and video
- engineering
- graphic design
- illustration
- iOS development
- journalism
- programming
- software engineering
- special effects
- visual media

## Media Arts and Sciences (Design), BA (HIDGCDBA)

**Campus:** Tempe

This program's name has changed effective Fall 2023. The previous name was Digital Culture (Design).

**Program Description:** The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application and implications. The School of Arts, Media and Engineering prepares students to be socially aware, critically thinking global citizens who strive to bring about positive change in a society that will be increasingly shaped by new technologies.

The BA program in media arts and sciences equips students with the knowledge, abilities and technical skills they need for creating computational

media.

Students learn to create computational media, which is computation combined with objects, sound, video, time, space, culture and bodies; breathe behavior into media, objects or systems by programming; and think critically about how computation impacts lives and how culture makes a difference in how people experience computational media, a critical skill in this dynamic age.

#### Media Arts and Sciences -- Design concentration

The media arts and sciences program with a concentration in design allows students to specialize in hybrid (physical and digital) product and space design. Students complement their knowledge with an understanding of the principles of space and product design as well as the historical and theoretical aspects of design, and they develop integrative design approaches to the digital and physical elements of hybrid products and spaces.

#### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. ## Media Arts and Sciences (English), BA (HIDGCENBA)

**Campus:** Tempe

This program's name has changed effective Fall 2023. The previous name was Digital Culture (English).

**Program Description:** The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application and implications. The School of Arts, Media and Engineering prepares students to be socially aware, critically thinking global citizens who strive to bring about positive change in a society that will be increasingly shaped by new technologies.

The BA program in media arts and sciences equips students with the knowledge, abilities and technical skills they need for creating computational media.

Students learn to create computational media, which is computation combined with objects, sound, video, time, space, culture and bodies; breathe behavior into media, objects or systems by programming; and think critically about how computation impacts lives and how culture makes a difference in how people experience computational media, a critical skill in this dynamic age.

The media arts and sciences program with a concentration in English is designed for students who wish to explore the historical, scientific and theoretical intersections of art, media and technology. Sharing of stories and media through electronic communities, participatory art-making and creativity forums on the web, gaming, digital movies and effects, mediated public spaces and electronic design are only a few of the new activities that are defining and evolving culture. Students in the concentration assist in the establishment, evolution and proliferation of such culture at the state, national and international level. Students use tools of inquiry to examine, analyze and create works of art through a hands-on approach to communication, writing, rhetoric and literacies in collaboration with the English department.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y  
**Second Language Requirement:** N  
**First Required Math Course:** MAT 117 - College Algebra  
**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:  
All students are required to meet general university admission requirements.  
Freshman (<https://admission.asu.edu/freshman/apply>)  
Transfer (<https://admission.asu.edu/transfer/apply>)  
International (<https://admission.asu.edu/international/undergrad-apply>)  
Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIDGCENBA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Exploring programs around the globe furthers students' ability to apply their studies to a global spectrum. With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and may apply financial aid and scholarships toward program costs.

The Herberger Institute for Design and the Arts recommends these programs (<https://goglobal.asu.edu/students/major/herberger/digital-culture>) for students majoring in media arts and sciences.

**Career Opportunities:** Armed with skills and sound judgment, graduates work in cultural communication, marketing, design, social media, health, education, entertainment and creative arts, and all areas in which culture is shaped by technology and computational media. All know techniques to change the world through communication using contemporary computational media, a vital power in today's world. Some graduates go on to invent fresh techniques.

Career opportunities include fields in which the following are sought: technology commentary, future studies, design fiction, technical writing, creative writing, comparative literature and fields in which collaboration is needed.

## Media Arts and Sciences (Film), BA (HIDGCFBA)

**Campus:** Tempe

This program's name has changed effective Fall 2023. The previous name was Digital Culture (Film).

**Program Description:** The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application and implications. The school prepares students to be socially aware, critically thinking global citizens who strive to bring about positive change in a society that will be increasingly shaped by new technologies.

The BA program in media arts and sciences equips students with the knowledge, abilities and technical skills they need for creating computational media.

Students learn to create computational media, which is computation combined with objects, sound, video, time, space, culture and bodies; breathe behavior into media, objects or systems by programming, and they learn to think critically about how computation impacts lives and how culture makes a difference in how people experience computational media, a critical skill in this dynamic age.

Armed with skills and reasoned judgment, graduates work in cultural communication, marketing, design, social media, health, education, entertainment and creative arts, and all areas in which culture is shaped by technology and computational media. All students gain techniques to change the world and communicate using contemporary computational media, a vital power in today's world. Some go on to invent fresh techniques.

#### Media Arts and Sciences -- Film concentration

The media arts and sciences program with a concentration in film is for students wishing to integrate digital aspects of film into new media. Students complement their knowledge of media arts and sciences with discipline-specific courses in the Sidney Poitier New American Film School that focus on the foundations of filmmaking practices, historical and theoretical aspects of film, knowledge of the film industry and hands-on knowledge of digital processes in filmmaking.

#### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. ## Media Arts and Sciences (Graphic Information Technology), BA (HIDGCTEBA)

**Campus:** Tempe

This program's name has changed effective Fall 2023. The previous name was Digital Culture (Graphic Information Technology).

**Program Description:** The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application and implications. The school prepares students to be socially aware, critically thinking global citizens who strive to bring about positive change in a society that will be increasingly shaped by new technologies.

The BA program in media arts and sciences equips students with the knowledge, abilities and technical skills they need for creating computational media.

Students learn to create computational media, computation combined with objects, sound, video, time, space, culture and bodies; to breathe behavior into media, objects or systems by programming; and to think critically about how computation impacts lives and how culture makes a difference in how people experience computational media, a critical skill in this dynamic age.

Media Arts and Sciences -- Graphic Information Technology concentration

This concentration program is offered in partnership with the Ira A. Fulton Schools of Engineering. Students complement their knowledge of new media with technology and new media entrepreneurship skills, knowledge of legal and ethical issues for technology, and additional skills in graphic communication, digital illustration and design methodology.

Students should be advised that while most requirements can be completed at the Tempe campus, courses specific to this concentration take place on the Polytechnic campus.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help

international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIDGCTEBA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Exploring programs around the globe furthers students' ability to apply their studies to a global spectrum. With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

The Herberger Institute for Design and the Arts recommends these programs (<https://goglobal.asu.edu/students/major/herberger/digital-culture>) for students majoring in media arts and sciences.

**Career Opportunities:** Armed with skills and sound judgment, graduates work in cultural communication, marketing, design, social media, health, education, entertainment and creative arts, and all areas in which culture is shaped by technology and computational media. All students gain techniques to change the world and communicate using contemporary computational media, a vital power in today's world. Some go on to invent fresh techniques.

Graduates of the media arts and sciences program have a wide array of career opportunities in new media involving the fields of:

- communications (CISCO, Google, Facebook)
- computing (Apple, Microsoft)
- gaming and entertainment (Industrial Light and Magic, Electronic Arts, Pixar)
- media arts (engineering multimedia shows, video and sound production)

The media arts and sciences curriculum also prepares students for roles in the development of modern media systems that address complex sociotechnical problems, such as:

- diagnostic, monitoring and assistive cyber-physical tools and systems that can be used by health care providers
- new systems for collaborative, participatory content creation and sharing
- social networking and reflection tools for promoting sustainability
- systems for interactive, adaptive learning and computational assessment in educational organizations

Graduates who are interested in continuing their higher education are well prepared to apply for admission to the top transdisciplinary new media programs in the nation, including the graduate programs through the School of Arts, Media and Engineering at ASU.

Media Arts and Sciences alumni have received job opportunities in:

- 3D modeling and fabrication
- audio and video
- engineering
- graphic design
- illustration
- iOS development
- journalism
- programming
- software engineering
- special effects
- visual media

## Media Arts and Sciences (Interdisciplinary Arts and Performance), BA (HIDCIAPBA)

**Campus:** Tempe

This program's name has changed effective Fall 2023. The previous name was Digital Culture (Interdisciplinary Arts and Performance).

**Program Description:** The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application and implications. The School of Arts, Media and Engineering prepares students to be socially aware, critically thinking global citizens who strive to bring about positive change in a society that will be increasingly shaped by new technologies.

The BA program in media arts and sciences equips students with the knowledge, abilities and technical skills they need for creating computational media.

Students learn to create computational media, which is computation combined with objects, sound, video, time, space, culture and bodies; breathe behavior into media, objects or systems by programming; think critically about how computation impacts lives and how culture makes a difference in how people experience computational media, a critical skill in this dynamic era.

Armed with skills and sound judgment, graduates work in cultural communication, marketing, design, social media, health, education, entertainment and creative arts, and all areas in which culture is shaped by technology and computational media. All students gain techniques to change the world and communicate using contemporary computational media, a vital power in the modern world. Some go on to invent fresh techniques.

Media Arts and Sciences -- Interdisciplinary Arts and Performance concentration

This concentration in interdisciplinary arts and performance is offered in partnership with the New College of Interdisciplinary Arts and Sciences. The program focuses on a transdisciplinary and collaborative approach to the arts, technology and performance. It emphasizes the traditions of transdisciplinary, avant-garde and experimental arts and on contemporary art and performance. Courses include digital media arts, music and electronic sound art, performance studies, theatre and performance practice and digital graphics.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap

in curriculum.

### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

## Media Arts and Sciences (Media Processing), BS (HIDGCMPBS)

**Campus:** Tempe

This program's name has changed effective Fall 2023. The previous name was Digital Culture (Media Processing).

**Program Description:** The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application and implications. The School of Arts, Media and Engineering prepares students to be socially aware, critically thinking global citizens who strive to bring about positive change in a society that will be increasingly shaped by new technologies.

The BS program in media arts and sciences with a concentration in media processing is for students wishing to specialize in media processing aspects of new media.

This program teaches students to understand the transformative role of digital technology in cultural practice, society and day-to-day life, emphasizing the strongest emerging trends in cultural media: systems and processes that integrate digital technology with the everyday physical human experience. Students in the Bachelor of Science program complement the knowledge acquired through media arts and sciences coursework with a more advanced understanding of the programming, data structures, signals processing and system architecture aspects of new media.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y**Second Language Requirement:** N**First Required Math Course:** MAT 210 - Brief Calculus**Program Math Intensity:** Substantial**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** Students must have a GPA of 3.00 to transfer into the media arts and sciences program.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIDGCMPBS~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) allow digital culture students to think critically about how computation impacts lives and how culture makes a difference in how people experience computational media, critical skills in this dynamic age. With over 300

options available, Global Education programs allow students to tailor their experience to their unique interests and skill sets. Whether it's in a foreign country, in the U.S. or online, students in media arts and sciences are able to be exposed to diverse cultural environments and differences worldwide and take in the broad uses of technology and its uses on a global scale.

Herberger Institute for Design and the Arts recommends these programs (<https://goglobal.asu.edu/students/major/herberger/digital-culture>) for students majoring in media arts and sciences.

**Career Opportunities:** Career opportunities include positions in the following fields: graphic design, design, audio, visual media, computer science, technology, technical writing, creative writing and comparative literature.

Media arts and sciences alumni have obtained careers as graphic designers, 3D modelers, special effects artists, visual media artists, programmers, engineers and software specialists with Apple, Microsoft, CISCO, Industrial Light and Sound, PIXAR and other techno-centric companies.

## Music, BA (FAMUSBA)

**Campus:** Tempe

**Program Description:** The BA in music provides students with a broadly based liberal arts degree.

Students receive a strong foundation in music theory and music history while completing lessons on their major instrument. The curricular core provides students with the opportunity to explore music as human history, cultural artifact and social behavior.

Students may combine the degree with another major or minor within ASU.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Creative Enterprise and Cultural Leadership, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music, Dance and Theatre application (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-steps-to-apply>). Admission to the School of Music, Dance and Theatre is based on an audition (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-auditions>). Auditions take place in November (spring admission) and in January and February (fall admission) of each year.

Admission to the music program is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, Dance and Theatre, the applicant's major is changed to music. In the event a student is admitted to ASU but not to the School of Music, Dance and Theatre or misses the audition deadline, the student will remain as a music audition major and will need to successfully pass the music audition milestone in the first semester in order to gain admission into the program.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-deadlines-fees>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

Transfer Admission Requirements: Transfer Applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-deadlines-fees>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAMUSBA~null + &college=CHI>) to outline a list of

recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze key creative and artistic processes from at least two musical styles and historical periods.
- Analyze specific musical products within the context of a specific historic or cultural tradition.
- Write research papers applying the conventions of scholarly discourse in music.

#### **Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire global skills and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates are prepared to work in various professional or entrepreneurial capacities, including:

- music criticism and research, ethnomusicology and musicology
- music entrepreneurship, concert management and promotion
- music publishing
- performing in community and professional ensembles in a variety of styles and traditions
- teaching in a private studio or community program

Many graduates pursue a master's degree or a doctorate in music or another professional field.

## **Music (Music and Culture), BA (HIMUSMCBA)**

**Campus:** Tempe

**Program Description:** The BA in music with a concentration in music and culture is a broadly based liberal arts degree program offering the most elective flexibility of any ASU music major.

Students acquire skills applicable to careers in music and many other fields (e.g., librarianship, arts festival management or production, criticism, audience education, recruitment, artist representation, publishing, creative writing). They may develop mainstream competencies such as performing or writing about Western European music, conducting, and teaching about music. They may also pursue coursework in popular music, acoustics, advocacy of wellness through music, dance as musical embodiment and selected musical competencies of Asia, Latin America and other areas.

Students explore music as human history, cultural artifact and social behavior, and engage in interdisciplinary thinking and academic research and writing. Because of the high percentage of elective courses, students may tailor both the General Studies courses and the music electives to suit their career goals.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

#### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music, Dance and Theatre application (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-steps-to-apply>). Admission to the School of Music, Dance and Theatre is based on an audition. Auditions (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-auditions>) take place in November (spring admission) and in January and February (fall admission) of each year.

Admission to the music program is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, Dance and Theatre, the applicant's major will be changed to music. In the event a student is admitted to ASU but not to the School of Music, Dance and Theatre or misses the audition deadline, the student will remain as a music audition major and will need to successfully pass the music audition milestone in the first semester in order to gain admission into the program.

The following comprise the audition process for admittance to the music and culture concentration:

- Students must submit a writing sample, which will be evaluated by all musicology faculty members.

Students must submit evidence of musicianship broadly defined (basic notational literacy plus live audition on, for example, didgeridoo or gospel-style composition, or documented transdisciplinary installation including music), which will be evaluated by all musicology faculty.

- Students must attend an interview with at least three musicology faculty members.
- Each student will be matched with a musicology advisor at the time of acceptance. The advisor will assist them in the choice of ensembles (as qualified) and electives to support their programs of study. Students must audition and be accepted into large ensembles following established procedures.
- Students who wish to take studio lessons as part of the degree must audition for the appropriate performance faculty members. Students should follow the audition requirements for the BA in music.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-deadlines-fees>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

Transfer Admission Requirements: Transfer Applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum and to departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-deadlines-fees>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIMUSMCBA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze key creative and artistic processes from at least two musical styles and historical periods.
- Analyze specific musical products within the context of new musical fields, cultures, or practices.
- Write research papers applying the conventions of scholarly discourse in music.

#### **Global Opportunities:**

Global Experience: With over 300 programs (<https://goglobal.asu.edu/>) in more than 65 countries (programs vary in length, from one week to one year), music and culture students have the opportunity to experience music of their area of focus in the music capitals of the world. Students gain a global perspective and knowledge in preparation for their career while earning ASU credit for completed courses and staying on track for graduation.

**Career Opportunities:** The program prepares students for potential careers in fields that require skilled written communication, the ability to conduct research both in electronic and print media, critical and logical thinking, the dissection of an argument and careful time management.

In addition to the careers listed below, graduates may pursue jobs in music and medical humanities or copyright and entertainment law. Graduates are prepared to work in various professional capacities, including:

- community and professional ensemble performance in a variety of styles and traditions
- music criticism and research, ethnomusicology and musicology
- music entrepreneurship, concert management and promotion music in culture, music blogging
- music librarianship
- music publishing, program annotation
- private studio or community program teaching

MUSIC E167

[mdtadmissions@asu.edu](mailto:mdtadmissions@asu.edu)

480-965-5069

## **Music (Popular Music), BA (HIMUSPMBA)**

**Campus:** Downtown Phoenix

**Program Description:** The popular music concentration within the BA program in music at Arizona State University welcomes and accommodates musicians interested in popular music, music industry studies and entrepreneurship. This includes singers and songwriters, laptop performers, producers, composers, instrumentalists, vocalists and musicians whose practices and playing styles are representative of varied popular music idioms. Students can elect to choose either the performer or non-performer track, following the flexible major map to cater to their desired experience.

All students in the popular music program develop general musicianship and foundational skills that prepare them to specialize in areas of study which include songwriting, production, composition, performance, engineering, sound design, live sound and event production, music business, popular music education and advocacy work. Students participate in both group and individual applied study in chosen specializations, complemented by yearly special programming and opportunities such as visiting artists and professionals, exposure to industry partners, master classes, and professional development and career opportunities. All students gain a working knowledge of the music industry and music business and the entrepreneurial skills necessary to gain meaningful employment and career building skills upon graduation.

Internship courses provide opportunities for students to apply their learning in a real-life context and begin building relationships. A capstone senior year allows students to work more intimately with faculty on perfecting their craft as well as preparing for the shift from ASU to the industry.

Students are required to have a personal laptop capable of running a digital audio workstation, and they may need to purchase music software applications depending on their specialization.

Students attend classes at the Downtown Phoenix campus.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Audition Process for admittance to BA in Music (Popular Music) concentration:

**Artist Statement:**

All auditioning students must submit an artist statement explaining both their current work and vision of their future work in popular music. A minimum of 250 words is required.

**Audition:**

Live auditions or recorded auditions are required for admission to the BA program in popular music and for placement in MUP 111 Studio Instruction in popular music. A live audition consists of a 15-minute performance or presentation consisting of three to five selections of live or digital music performance. The selections may be original works or selections from popular music repertoire. The audition also includes scales, improvisation and aural skills. Students may also provide a recorded sample of their creative popular music work if they so choose.

For students seeking to pursue popular music performance, a live or recorded performance video is required for at least part of the audition. For other disciplines in which a video is not possible (studio recording, music creation and composition), students are required to submit a digital audio sound recording of three to five selections.

The audition also includes a live or remote interview. A live audition is preferred. Applicants who are unable to visit the campus for a live audition may upload a recorded audition to the School of Music, Dance and Theatre application. These students will be contacted by faculty to arrange a remote interview.

Students interested in pursuing classical music lessons are required to follow the classical repertoire audition requirements for MUP 111 Studio Instruction in addition to auditioning for MUP 111 Studio Instruction in popular music.

Transfer Admission Requirements: Students transferring from community colleges, other universities or other ASU programs engage in the same audition process as first-year students.

Transfer students are encouraged to audition during the semester before they wish to enroll at ASU. They will also take piano and music theory diagnostic exams at that time to ensure placement in appropriate coursework.

Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A") and may change their major to the BA in music with a concentration in popular music if they successfully complete the audition process required for admittance and are accepted into the degree program.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIMUSPMBA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze key creative and artistic processes from a range of musical styles and historical periods.
- Apply music industry studies as it pertains to popular and contemporary music industry starting from the late 19th century to modern day.
- Execute professional level techniques in their chosen specializations.

#### **Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates are prepared for careers in the popular music industry that involve creativity and creating new work, being a flexible musician, collaborating with others in the community and having knowledge of music business and music marketing. Possible jobs include:

- contemporary composer for film, TV and games
- concert or artist manager and promotor
- entrepreneur and music marketer
- live event production and experience designer
- label or music executive
- musical director, arranger and publisher
- music performer in the popular music sector
- nonprofit arts-related worker
- sound designer or studio engineer
- songwriter, producer or teacher in a private studio

## **Music Learning and Teaching, BMUS (FAMUSEBM)**

**Campus:** Tempe

**Program Description:** In the BMUS program in music learning and teaching, students develop skills to become a music educator in a variety of K-12 school and community settings.

Through coursework and lab participation, students develop strong pedagogical skills and flexible musicianship, to deepen and broaden music making in varied styles and contexts including contemporary digital music making. They also develop the abilities to facilitate people's music engagement and learning in varied settings. Students learn how to design and facilitate supportive, generative and equitable music programs that support all music students, helping them to grow and thrive.

Upon completion, students can earn a K-12 teaching certification with multistate reciprocity.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

#### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply skills needed for teaching music in K-12 classrooms, such as organized instructional plans, clear delivery, effective pacing and assessment techniques.
- Develop a repertoire of teaching strategies appropriate to the developmental characteristics and learning styles of children and adolescents through observation and teaching experience.
- Write research papers applying the conventions of scholarly discourse in music.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates are prepared to teach in public and private school music programs that offer a variety of music classes, including general music, choir, band, orchestra, strings, guitar, jazz, music production, music technology and popular music.

Graduates work in various professional or entrepreneurial capacities, including:

- performing in community and professional ensembles in a variety of styles and traditions or as a freelance musician in venues, such as art galleries, churches, clubs, cruise ships, resorts, restaurants and theme parks
- presenting school and community programs as artist-in-residence
- teaching and directing in a private studio or community programs
- working in music-related fields such as media production, music business, publishing, marketing and education.

Many graduates pursue a master's degree or a doctorate in music learning and teaching, in music or the arts, or in another professional field.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Music Therapy, BMUS (FAMUSTHBM)

**Campus:** Tempe

**Program Description:** The BMus program in music therapy prepares students for a career in health care, community-based and special education settings. Music therapy majors learn to use carefully planned music interventions to achieve desired changes in a client's individualized behavior and functioning.

Music therapy is a profession in which engagement and receptive or active music-making help a client achieve individual therapeutic goals. Music therapy students develop a wide range of musical, verbal and nonverbal skills, through the programs' many opportunities to work in clinical settings. Students also study:

- human anatomy
- musical improvisation
- popular music styles
- psychology
- songwriting
- special education
- world music

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

Transfer Admission Requirements: Transfer Applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-deadlines-fees>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAMUSTHBM~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply competent music foundation skills across their secondary instruments of voice, piano, and guitar.
- Apply basic knowledge of the causes, symptoms of, and basic terminology used in medical, mental health, and educational settings to the implementation of therapeutic interventions.
- Write research papers applying the conventions of scholarly discourse in music.

#### **Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire global skills and knowledge in preparation for career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates are eligible to sit for the music therapy certification examination given by the Certification Board for Music Therapists.

Positions are available regionally and nationally in hospitals, schools, rehabilitation centers, nursing homes and other health care facilities. Graduates are prepared to work in the fields of community music therapy and wellness, geriatric care, mental health, physical rehabilitation, special education, or within veteran and military populations.

A music therapy career may also provide an opportunity for private practice with flexible hours.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Performance (Collaborative Piano), BMUS (FAMUSPPBM)

**Campus:** Tempe

**Program Description:** The BMus program in performance with a concentration in collaborative piano offers private instruction in solo and collaborative piano; coaching with faculty on chamber music, song, operatic and musical theatre repertoire; and opportunities with large ensemble and choral programs. This diverse training leads directly to vibrant collaborative performance experiences in all areas, including collaboration with colleagues in dance and theatre.

Collaborative piano students regularly perform with their vocal and instrumental colleagues in concerts at ASU and throughout the valley, including at the Scottsdale Center, the Kerr Cultural Center, Tempe Center for the Arts, and the renowned Musical Instrument Museum.

The program focuses on the core repertoire of song, piano chamber music, opera and musical theater. Collaboration within the School of Music, Dance and Theatre involves all performance areas, including classes and opportunities with the music theatre and opera programs, concerts with large ensembles and choirs, duo recitals with instrumental and voice colleagues, and performances of chamber music literature as part of the Visiting Quartet Residency program.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music, Dance and Theatre application (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-steps-to-apply>). Admission to the School of Music, Dance and Theatre is based on an audition. Auditions (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-auditions>) take place in November (spring admission) and in January and February (fall admission) of each year.

Admission to the music program is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, Dance and

Theatre, the applicant's major is changed to music. In the event a student admitted to ASU but not to the School of Music, Dance and Theatre or misses the audition deadline, the student will remain as a music audition major and will need to successfully pass the music audition milestone in the first semester in order to gain admission into the program.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-deadlines-fees>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

Transfer Admission Requirements: Transfer Applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-deadlines-fees>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAMUSPPBM~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Develop performance practices in the context of diverse musical settings and genres, demonstrating familiarity with the literature of one's instrument, as well as an overview of vocal and instrumental literature.
- Evaluate piano and related repertoire and pedagogy to develop a unique musical style.
- Produce a research study focusing on musical elements, social uses of music, and interplay among performers, composers, and institutions.

#### **Global Opportunities:**

Global Experience: Students who experience music in different countries expand their understanding of musical performance. Many ASU faculty are involved in summer music festivals throughout the world and often bring their ASU students to experience this global environment of collaboration.

With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), Global Education programs (<https://goglobal.asu.edu/>) are possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for a career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates are prepared to work in various professional or entrepreneurial capacities, including:

- performing as a collaborative pianist with singers and instrumentalists
- performing as a pianist with large instrumental ensembles
- performing as a pianist for music recording and studio work
- rehearsing and performing as a pianist with choral ensembles

- rehearsing and performing as a pianist for musical theatre or opera productions
- teaching in a private studio or community music program
- working as a vocal coach
- working collaboratively in music-related fields such as media production, music business, publishing and marketing

Many graduates pursue a master's degree or a doctorate in music or in another professional field.

## **Performance (Jazz), BMUS (FAMUSPJBM)**

**Campus:** Tempe

**Program Description:** The BMus in performance with a concentration in jazz prepares students for professional careers and leadership roles in

jazz and related fields of contemporary music by promoting flexible musicianship and an understanding of the jazz tradition.

The curriculum includes course offerings in jazz performance, composition, arranging, history, theory, aural skills and pedagogy and is designed to incentivize artistic expression, innovation, and the exploration of blues-based improvisation, bebop, Latin jazz, swing and soul music.

Students in the ASU jazz studies program find an abundance of performance opportunities in the many university ensembles and professional groups that perform in the greater Phoenix metropolitan area.

**Additional Program Fee:** Y

## Performance (Music Theatre), BMUS (FAMUSPMBM)

**Campus:** Tempe

**Program Description:** The BMus in performance with a concentration in music theatre is an intensive, performance-oriented program.

Training includes private voice lessons every semester of study as well as specialized instruction in acting, dance, audition techniques, technical production, repertoire classes, scene study and performance.

A unique feature of this program includes an innovative sequence of musical theatre performance courses designed to synthesize all the abilities necessary to succeed as a professional musical theatre performer.

ASU is unique in that students may receive professional training in both opera and musical theatre in a broad variety of musical theatre styles, from traditional to contemporary. Two musicals and two operas are produced each year, plus new works and student-led productions. The annual showcase in New York City and Phoenix as well as formal collaborations with Arizona Opera and The Phoenix Theatre Company provide additional performance opportunities and valuable career immersion experiences for all students.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Performance (Orchestral Instrument), BMUS (FAMUSPOBM)**

**Campus:** Tempe

**Program Description:** The BMus program in performance with a concentration in an orchestral instrument focuses on the study of music literature and techniques on a specific orchestral instrument.

Students receive coaching from world-renowned faculty and visiting guest artists, attend master classes, and receive extensive performance experience in large ensembles, as a chamber musician and as a soloist. Students study a specific orchestral instrument intensively with a faculty member for eight semesters including major repertoire, solo literature and chamber music.

Additionally, students learn skills that are required of highly successful working musicians, including audition preparation, networking, learning organizational strategies, opportunity creation and developing an entrepreneurial mindset.

**Additional Program Fee:** Y

 2023-24 Academic Catalog Archive 2002

and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-deadlines-fees>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAMUSPOBM~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Develop performance practices in the context of diverse musical settings and genres, demonstrating familiarity with the literature of their instrument.
- Evaluate an instrument's repertoire and pedagogy to develop a unique musical style.
- Produce a research study focusing on musical elements, social uses of music, and interplay among performers, composers, and institutions.

#### **Global Opportunities:**

Global Experience: Students who experience music in different countries can expand their understanding of musical performance. They are exposed to unique and diverse cultural environments which enable them to develop an understanding of other forms of artistic expression. Global Education opportunities (<https://goglobal.asu.edu/>) can shape the student musically while offering the global perspective and knowledge they will need when pursuing a career as an international professional musician.

With over 300 Global Education options available, whether in a foreign country, in the U.S. or online, students are able to tailor their experience to their unique interests and skill sets. Students earn ASU credit for completed courses, while staying on track for graduation, and may apply financial aid and scholarships toward program costs.

The Herberger Institute for Design and the Arts recommends these programs (<https://goglobal.asu.edu/students/major/music-performance>) for students majoring in performance.

**Career Opportunities:** Graduates are prepared to work in various professional or entrepreneurial capacities, including:

- performing as a concert soloist; as a freelance musician in venues such as art galleries, churches, clubs, cruise ships, resorts, restaurants and theme parks; or performing in orchestras, chamber music ensembles, music theatre and opera pit ensembles
- presenting school and community programs
- recording and studio work
- teaching privately or as part of a college or university program
- working in music-related fields such as media production, music business, publishing and marketing

Many graduates pursue a master's degree or a doctorate in music or in another professional field.

## Performance (Voice), BMUS (FAMUSPVBM)

**Campus:** Tempe

**Program Description:** The BMus program in performance with a concentration in voice focuses on the study of vocal technique, repertoire and performance while emphasizing the skills necessary for a career as a classical singer. The program provides extensive performance experience as well as an inclusive and supportive environment with opportunities to explore many different singing styles.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

### Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music, Dance and Theatre application (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-steps-to-apply>). Admission to the School of Music, Dance and Theatre is based on an audition. Auditions (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-auditions>) take place on campus in November (spring admission) and in January and February (fall admission) of each year.

Admission to the music program is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, Dance and Theatre, the applicant's major will be changed to music. In the event an applicant is admitted to ASU but not to the School of Music, Dance and Theatre or misses the audition deadline, the student will remain as a music audition major and will need to successfully pass the music audition milestone in the first semester in order to gain admission into the program.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-deadlines-fees>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

Transfer Admission Requirements: Transfer Applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-deadlines-fees>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAMUSPVBM~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will develop vocal performance practices and techniques in the context of diverse musical settings and genres, demonstrating familiarity with voice-specific literature and different singing styles.
- Students will be able to critically evaluate vocal repertoire and pedagogy to develop a unique musical style.
- Graduates of the voice concentration of the BMus in performance will be able to produce a research study focusing on musical elements, social uses of music, and interplay among performers, composers and institutions.

**Global Opportunities:**

Global Experience: Students who experience music in different countries can expand their understanding of musical performance. With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire global skills and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates are prepared to work in various professional and entrepreneurial capacities, including:

- performing as a soloist, stage performer, choral singer or freelance musician in venues such as opera houses, theatres, concert halls, churches, clubs, cruise ships, resorts, restaurants and theme parks
- recording and studio work
- teaching in a private studio or community program
- working in music-related fields such as media production, music business, publishing, marketing or arts administration

Many graduates pursue a master's degree or a doctorate in music or another professional field.

## Performance and Movement, BA (HIPERMVBA)

**Campus:** Tempe

**Program Description:** The BA program in performance and movement is an inclusive, transdisciplinary degree program that encourages students to develop both collaborative approaches to learning and professional industry skills in the performing arts. This program is grounded in cultivating community practice through theatre and dance.

The bachelor's degree program is located within the ecosystem of Phoenix and enables students to understand, deconstruct and uplift diverse artistic modes across media and encourages the student to create a flexible degree program that intersects and engages these areas of interest. This degree program offers a number of focus areas: dance and theatre, social and partnership dance and Hip Hop arts.

**Dance and theatre ---** The dance and theatre focus area is designed for dancers who seek experience working with theatrical performance and acting, actors and performers who seek to balance text and voice work with movement exploration, and writers and directors who want to explore a wide range of approaches to live performance.

**Social and partnership dance ---** The social and partnership dance focus area is an innovative program that allows students to explore multiple styles and approaches in social and partnership dance both in formal classroom study and informal student-centered community events. The focus area seeks to prepare future Afro-Latin social and ballroom dance leaders with pedagogical, performance and community-building strategies to support the need for serving local and national community engagement in social dance as a means to create social transformation and change.

Hip Hop arts --- The Hip Hop focus area is designed for the student interested in melding intersectional embodied practice, social justice and Hip Hop culture by offering a critical look at the historical, social and practical application of Hip Hop scholarship and culture. The program focus spans various forms of Hip Hop artistry and expression through thought-provoking, in-studio courses and hands-on practical application and connects students with scholars and hip hop practitioners to embrace the interdisciplinary nature of Hip Hop arts: dance, music, visual and voice.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIPERMVBA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students graduating with a BA in performance and movement will be able to apply creative processes in their art-making that reflect contemporary understandings of dance and theatre practices.
- Graduates will be able to execute the stages of long-range creative projects.
- Students graduating from the BA in performance and movement will be able to implement culturally sensitive, ethical and socially grounded teaching, facilitation, and community-building practices.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire global skills and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** The bachelor's degree in performance and movement provides an excellent broad-based foundation for work in the arts or entertainment professions and readies students for further training at graduate schools or conservatories. The program's liberal arts emphasis combined with a focus on physical presence prepares graduates for a variety of occupations in both performance and nonperformance fields.

Opportunities may include work with:

- arts entrepreneurship
- professional performing
- studio ownership and management
- themed entertainment

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential

licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Theatre, BA (FATHEBA)

**Campus:** Tempe

**Program Description:** The BA program in theatre provides students with a hands-on theatre education within a broad range of academic opportunities. Every student is encouraged to develop their own creative skills through collaboration and to pursue a variety of areas of theatre and performance.

The program offers specialty coursework in the following areas:

- acting
- community engagement
- design and production
- directing
- dramatic literature and dramaturgy
- educational certification
- new work development
- theatre history
- theatre for youth
- voice and movement

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Creative Enterprise and Cultural Leadership, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Admission Requirements: Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the college

must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FATHEBA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply key creative and artistic processes relevant to one's area of focus in theatre (design processes, historical research for production, development of performer skills with an eye toward production, etcetera)
- Execute the stages of long-range creative projects.
- Explain how theatre shapes the cultural and political landscapes of societies.

#### **Global Opportunities:**

Global Experience: Students studying theatre can find inspiration and deepen their understanding of theater through a study abroad program. Study abroad provides an opportunity for students to explore their creative side with an intercultural lens. Not only do the programs encourage students to build communication skills, they challenge them, as artists, to think differently.

With over 300 options available, Global Education (<https://goglobal.asu.edu>) programs give students a breadth of knowledge in arts and culture uniquely different from their own. Whether in a foreign country, in the U.S. or online, students are challenged to adapt and persevere and to look inside themselves in a way they haven't done before, growing their self-confidence along the way.

Vital qualities in the field of theater such as leadership, teamwork and communication can be developed and honed abroad. Students earn ASU credit for completed courses, while staying on track for graduation, and may apply financial aid and scholarships toward program costs.

**Career Opportunities:** The bachelor's degree program in theatre provides an excellent foundation for work in the arts and entertainment and prepares students for further training at graduate schools or conservatories.

The program's broad-range of academic opportunities prepares graduates for a variety of occupations in the entertainment industry. Opportunities may include work with:

- arts entrepreneurship
- concert venues
- corporate events
- literary agencies
- schools and training programs
- theatre and arts festivals
- theme parks

## **Theatre (Acting), BA (FATHEABA)**

**Campus:** Tempe

**Program Description:** The BA program in theatre with a concentration in acting provides students with a hands-on education that emphasizes performance in both live theatre and recorded media. Within the context of a comprehensive liberal arts education, the program prepares students for advanced graduate study in the field and for entry-level careers in acting and performance. The program offers specialty coursework in the

following areas:

- acting for film, television and new media
- accent work
- devising
- intimacy direction/coordination
- movement
- new work development
- stage combat
- voice-over

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

## Theatre (Design and Production), BA (FADSNPRBA)

**Campus:** Tempe

**Program Description:** This BA program in theatre with a concentration in design and production provides students with opportunities to hone their craft while creating exciting work onstage and in the classroom. The concentration provides each student the unique opportunity to explore their own creative process and ability to collaborate with others.

The program offers specialty coursework in the following areas:

- costume construction
- costume design and technology
- digital fabrication
- lighting design and stage electrics
- media design and technology
- properties construction
- scenic art and construction
- scenic design
- sound and media systems design
- sound design and technology
- stage management
- technical direction

In addition to building knowledge and skills, concentration students are mentored by professional designers and technicians to successfully transition from college to their future careers in entertainment design and production, or to graduate programs for additional training.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FADSNPRBA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply individual creative and artistic processes relevant to their area of focus within theatre (production techniques, design processes, historical research for production, etc.)
- Use collaborative practices to solve complex problems; preparing, planning and communicating across areas of the theatre to successfully complete long-range creative projects.
- Explain how theatre shapes the cultural and political landscapes of societies.
- Develop a comprehensive toolkit for self-promotion and to showcase their production experiences.

#### **Global Opportunities:**

Global Experience: Study abroad can prepare a future professional in the arts not only with cultural experiences but also with professional skills like collaboration and problem-solving. Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to explore their creative side with an intercultural lens, encouraging them to build communication skills and challenging them, as artists, to think differently.

With over 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Whether in a foreign country, in the U.S. or online, students learn to adapt and persevere through a program that provides them with a chance to look inside themselves in a way they haven't done before, growing their self-confidence along the way.

**Career Opportunities:** The bachelor's degree program in theatre with a concentration in design and production provides an excellent foundation and specialized training for those who want to work as designers or technicians in the performing art and entertainment industries. Additionally, the program's liberal arts emphasis prepares graduates for further training in graduate schools.

## **Theory and Composition (Composition), BMUS (FAMUSTCBM)**

**Campus:** Tempe

**Program Description:** Students pursuing the BMus in theory and composition must choose a concentration in either theory or composition.

In the concentration in composition, students focus on developing varied techniques for writing music for assorted genres and media including chamber, orchestra, electronic music, and film and video scoring.

The School of Music, Dance and Theatre offers students the opportunity to study with composers who have established national and international reputations.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music, Dance and Theatre application (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-steps-to-apply>). Admission to the School of Music, Dance and Theatre is based on a composition interview (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-auditions>). Interviews take place in November (spring admission) and in February (fall admission) of each year.

Admission to the music program is highly selective and based on an interview process. Students are admitted as music audition students and must successfully complete the composition interview before enrolling in music major courses. Upon admission to both ASU and the School of Music, Dance and Theatre, the applicant's major will be changed to music. In the event a student is admitted to ASU but not to the School of Music, Dance and Theatre or misses the audition deadline, the student will remain as a music audition major and will need to successfully pass the interview milestone in the first semester in order to gain admission into the program.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-deadlines-fees>) information.

Spring admission: The deadline to apply for admission to this program is October 1.

Fall admission: The deadline to apply for admission to this program is December 1.

Transfer Admission Requirements: Transfer Applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-deadlines-fees>) information.

Spring admission: The deadline to apply for admission to this program is October 1.

Fall admission: The deadline to apply for admission to this program is December 1.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAMUSTCBM~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze key creative and artistic processes from at least two musical styles and historical periods.

- Critique specific musical products within the context of a specific historic or cultural tradition.
- Apply theoretical understanding of musical techniques to composing music in varied styles.

#### **Global Opportunities:**

Global Experience: Music transcends language and cultural boundaries, and students deepen their understanding of composition through unique study abroad (<https://goglobal.asu.edu/>) experiences. Students gain an enhanced understanding of how music affects culture and how they can communicate globally through their compositions.

With more than 300 programs around the world, students can build the experience most suited to their personal goals and skill sets. More information on available programs can be found on the Global Education website.

**Career Opportunities:** Graduates are prepared to work in various professional or entrepreneurial capacities, including:

- arranging
- composing
- performing in community and professional ensembles in a variety of styles and traditions
- serving as an artist-in-residence in school programs
- teaching in a private studio and community program
- teaching theory and composition
- working in music-related fields such as media production, music business, publishing and marketing

Many graduates pursue a master's degree or a doctorate in music or in another professional field.

#### **Contact Information:**

Design and the Arts, Herberger Institute for

School of Music, Dance and Theatre

<https://musicdancetheatre.asu.edu/degree-programs/theory-and-composition-composition-bmus>

MUSIC E167

MDTAdmissions@asu.edu

480-965-5069

## **Theory and Composition (Theory), BMUS (FAMUSTTBM)**

**Campus:** Tempe

**Program Description:** Students pursuing the BMus in theory and composition must choose a concentration in either theory or composition.

Theory students take courses that explore various facets of the discipline. These include tonal harmony, music perception, formal analysis, counterpoint, topics in 20th and 21st century music, popular music and jazz analysis.

Students work with theory faculty whose research encompasses music cognition, tonal music, timbre, embodiment, popular music and computational analysis.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

#### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music, Dance and Theatre application (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-steps-to-apply>). Admission to the School of Music, Dance and Theatre is based on an audition. Auditions (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-2023-24>)

auditions) take place in November (spring admission) and in January and February (fall admission) of each year.

Admission to the music program is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, Dance and Theatre, the applicant's major will be changed to music. In the event a student is admitted to ASU but not to the School of Music, Dance and Theatre or misses the audition deadline, the student will remain as a music audition major and will need to successfully pass the music audition milestone in the first semester in order to gain admission into the program.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-deadlines-fees>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

Transfer Admission Requirements: Transfer Applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-deadlines-fees>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

**Change of Major Requirements:** An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAMUSTTBM~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze key creative and artistic processes from at least two musical styles and historical periods.
- Critique specific musical products within the context of a specific historic or cultural tradition.
- Conduct scholarly research on topics in music theory resulting in scholarly papers and/or presentations.

#### **Global Opportunities:**

Global Experience: Music transcends language and cultural boundaries; students deepen their understanding of music theory through unique study abroad experiences (<https://goglobal.asu.edu/>). They gain an enhanced understanding of how music affects culture and how they can communicate globally through music.

With more than 300 programs around the world, students can build the experience most suited to their personal goals and skill sets.

**Career Opportunities:** Graduates are prepared to work in various professional capacities, including:

- arts administration
- arranging
- composing

- performing in community and professional ensembles in a variety of styles and traditions
- working in music-related fields such as media production, music business, publishing and marketing
- teaching theory and composition
- teaching in a private studio or community program

Many graduates pursue a master's degree or a doctorate in music or in another professional field.

## Engineering, Ira A. Fulton Schools of

### Aeronautical Management Technology (Air Traffic Management), BS (ESAMTATBS)

**Campus:** Polytechnic

**Program Description:** The BS program in aeronautical management technology with a concentration in air traffic management provides a technical foundation in the air traffic control procedures used by air traffic controllers in control towers and radar facilities.

Students gain a strong background in aircraft operations, management skills and business principles through coursework specific to air traffic control and aviation. As part of the degree program, students are required to take courses that will qualify them to earn their airline dispatcher certificate.

This is an intensive program of classroom study and laboratory practice using state-of-the-art air traffic control simulators to enhance and reinforce classroom study. Students receive training in the methodologies and technologies that are currently being developed for the next generation of air traffic control systems. Students develop the skills of analytical thinking, clear and concise communication, problem-solving and teamwork.

ASU is a partner in the FAA Air Traffic Collegiate Training Initiative and is accredited by the Aviation Accreditation Board International.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 170 - Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Technology (Aviation Management and Human Factors), MSTech

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Additional Requirements:** To be considered for employment by the Federal Aviation Administration, graduates of the program need to be aware of minimum requirements for employment. Students should see [https://www.faa.gov/jobs/career\\_fields/aviation\\_careers](https://www.faa.gov/jobs/career_fields/aviation_careers) ([https://www.faa.gov/jobs/career\\_fields/aviation\\_careers/](https://www.faa.gov/jobs/career_fields/aviation_careers/)) for more information. Graduates of the program are not guaranteed employment by the Federal Aviation Administration. Students who do not have U.S. citizenship may be admitted to the program but are not eligible for employment by the Federal Aviation Administration.

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESAMTATBS-null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

**Global Experience:** With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs. More information on available programs can be found on the Global Education Office website (<https://goglobal.asu.edu/>).

**Career Opportunities:** The Federal Aviation Administration's 2020 Controller Workforce Plan projects that the agency plans to hire more than 8,500 new controllers by 2029 to keep pace with the expected attrition rate and traffic growth. The total number of planned hires for the period 2019 to 2029 is 9,596 new controllers. The increase in the volume of air traffic requires more controllers to handle the additional work. New computerized systems assist controllers by automatically making many of the routine decisions, allowing controllers to handle more traffic and thus increasing their productivity.

Despite the obvious demand for new controllers in the immediate future, competition to get into the FAA-approved training programs is expected to remain intense as there generally are many more applicants than there are openings. Graduates who have met all the FAA requirements are eligible for consideration for employment.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## **Aeronautical Management Technology (Air Transportation Management), BS (TSAMTMBS)**

**Campus:** Polytechnic

**Program Description:** The air transportation management concentration of the BS program in aeronautical management technology provides students with a strong foundation of aviation concepts, including airline administration, airport planning, aviation law, policy and human factors as well as technical knowledge focusing on power plants, structures and aerodynamics. Students progress into courses on the business and management and operational aspects of aviation such as airline administration and airport planning. All students finish the program by participating in an internship within industry and completing a capstone project.

This program prepares students for leadership positions within airlines, airports, government, consulting and entrepreneurial enterprises.

The Aviation Accreditation Board International accredits this program.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 170 - Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Technology (Aviation Management and Human Factors), MSTech

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSAMTMB5--null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

**Global Experience:** The aviation industry is a global one, and understanding intercultural communication is vital to succeeding in it. Through the rich educational and interpersonal experiences inherent in study abroad, students learn to thrive in a global environment.

With over 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

A resume enhanced by the valuable study abroad experience will impress prospective employers, and it also will help the student stand out should they decide to pursue advanced study.

**Career Opportunities:** Graduates with a degree in air transportation management are prepared for these careers:

- airline management
- airline operations management
- airport management
- aviation consulting
- entrepreneurial ventures
- fixed based operations
- general aviation operations management
- governmental positions with the Federal Aviation Administration, Department of Transportation and National Transportation Safety Board

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## Aeronautical Management Technology (Professional Flight), BS (TSAMTFBS)

**Campus:** Polytechnic

**Program Description:** Students in the professional flight concentration of the BS program in aeronautical management technology learn to fly in an academic environment that prepares graduates for careers as professional pilots.

Flight training is offered by an ASU-approved flight provider in late-model aircraft equipped with state-of-the-art avionics.

Students may take advantage of pathway agreements for guaranteed interviews with regional air carriers.

This program is for students who are seriously interested in becoming professional airline pilots. Graduates are prepared to assume responsibilities in a wide variety of technically related areas within professional aviation flight operations.

The Aviation Accreditation Board International accredits this program and the Federal Aviation Administration certifies flight and ground instruction.

Additional course-related fees apply; students should see the program website for more information.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 170 - Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Technology (Aviation Management and Human Factors), MSTech

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply

(<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Additional Requirements:** This major has additional admission requirements (<https://poly.engineering.asu.edu/aviation/professional-flight-bs/secondary-application-process>) including Federal Aviation Administration requirements. Students are admitted to the preprofessional status and must complete additional requirements for admission to the professional program.

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® ([https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSAMTFBS-null + &college=CES](https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSAMTFBS-null+%&college=CES)) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

**Global Experience:** Aviation is a global industry, and understanding intercultural communication is vital to succeeding in it. Study abroad programs (<https://goglobal.asu.edu/>), offered around the globe, give insight toward the study of professional flight. Students can further their skills in communication and administration and gain commercial experience while in an international setting.

**Career Opportunities:** The professional flight concentration offers students private pilot, commercial pilot and flight instructor certificates as well as instrument pilot, instrument instructor and multiengine pilot ratings. With these flight qualifications and the technically based bachelor's degree, the graduate has a wide variety of career opportunities, including flight crew service on commercial and business aircraft as an airline or corporate pilot.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## **Aeronautical Management Technology (Unmanned Aerial Systems), BS (TSAMTUASBS)**

**Campus:** Polytechnic

**Program Description:** The unmanned aerial systems concentration of the BS program in aeronautical management technology prepares students for careers in the rapidly growing area of unmanned aerial systems, including operations, remote sensing, data collection and analysis.

The concentration incorporates all aviation management technology core courses and unmanned aerial systems concentration courses. This provides an overview of unmanned aerial systems operations followed by detailed knowledge of unmanned aerial systems-specific systems and technology (ground control stations; data links; flight planning and operations; search, detect and avoid technologies; and payloads) and unmanned aerial systems sensor operations. A critical aspect of this academic area of study is the data capture and transfer of the sensor information collected from the unmanned aerial vehicle.

This innovative concentration brings together the most up-to-date and relevant aspects facing multiple industries today by addressing flight system planning and operations and the employment of the systems in the congested National Airspace System.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSAMTUASBS-null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Use of unmanned aerial systems is happening all across the globe. Students participating in a study abroad experience learn a great deal about global practices, laws, and emerging technologies within the aviation field.

Study abroad programs (<https://goglobal.asu.edu/>), offered by ASU in more than 65 countries, further students' global thinking and increases their communication and problem-solving skills, to prepare them for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Students graduating from this program are ready to find various employment opportunities as unmanned aerial vehicle pilots and sensor operators in the U.S. and throughout the world. This concentration prepares students to operate small to mid-range platforms that are used by emergency responders, forestry, agriculture, energy and oil, and other similar industries. Entry-level pay is competitive for this highly specialized field.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Aerospace Engineering (Aeronautics), BSE (ESAEROBSE)

**Campus:** Tempe

**Program Description:** The aerospace engineering curriculum provides students with an education in technological areas critical to the design and development of aerospace vehicles and systems. The aeronautics concentration under the BSE program in aerospace engineering emphasizes engineering and the design of aircraft, helicopters, missiles and other vehicles that fly through the atmosphere.

Topics in required courses cover aerodynamics, aerospace materials, aircraft structures, flight mechanics, propulsion, and stability and control. Required aeronautics topics include altitude control and orbital mechanics.

Students in the aerospace engineering program are expected to attain the following outcomes:

- an ability to identify, formulate and solve complex engineering problems by applying principles of engineering, science and mathematics
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors
- an ability to communicate effectively with a range of audiences
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks and meet objectives
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org/>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Aerospace Engineering, MS
- Mechanical Engineering, MS
- Robotics and Autonomous Systems (Mechanical and Aerospace Engineering), MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, or a minimum Duolingo English score of 105.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary or the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer credit hours, and
- minimum GPA of 2.75 in all critical courses: MAE 201, MAE 202, MAE 213 and MAE 242

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESAEROBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students. Study abroad programs offer students a global perspective and knowledge, skills that prepare them to lead in their chosen career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

The Ira A. Fulton Schools of Engineering recommends these programs (<https://goglobal.asu.edu/students/major/SEMTE/aerospace-engineering>) for students majoring in aerospace engineering.

**Career Opportunities:** The majority of students entering the field of aerospace engineering desire to work on the design and analysis of aerospace vehicles. Most graduates are employed in the aerospace industry or in government positions related to aerospace. Specific careers in aerospace engineering include:

- aeronautical and space systems integration
- configuration development
- material and structural design
- propulsion engineering
- space mission design and analysis
- vehicle and component analysis using computer-aided tools
- vehicle design and performance

- wind tunnel and flight testing

The aerospace engineering program has the following educational objectives:

Through activities such as volunteering, entrepreneurial endeavors, community service, and their employment, graduates of the aerospace engineering program will demonstrate commitment to the Sun Devil ideals of global engagement, social embeddedness, social transformation and sustainability.

Graduates of the aerospace engineering program should have attained one or more of the following objectives within a few years after earning their degree:

- employment in aerospace or other field in a position that capitalizes on the skills and abilities gained through the degree in aerospace engineering, in positions of increasing responsibility and leadership within the organization
- admission into a graduate degree program in aerospace engineering or other technical field
- admission into a professional degree program, such as law or business, in accordance with the specific interests and abilities of the graduate

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## Aerospace Engineering (Astronautics), BSE (ESAEASBSE)

**Campus:** Tempe

**Program Description:** The BSE program in aerospace engineering provides students with an education in technological areas critical to the design and development of aerospace vehicles and systems.

The astronautics concentration curriculum covers:

- attitude determination and control
- elective topics in aeronautics
- gas dynamics
- orbital mechanics
- rocket propulsion
- space environment
- space structures
- telecommunications

Students in the astronautics concentration culminate their major study with a capstone design project that incorporates the multiple disciplines involved in the creation of a space-going vehicle.

Students in the aerospace engineering program are expected to attain the following outcomes:

- an ability to identify, formulate and solve complex engineering problems by applying principles of engineering, science and mathematics
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors
- an ability to communicate effectively with a range of audiences
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks and meet objectives
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Aerospace Engineering, MS

Mechanical Engineering, MS

Robotics and Autonomous Systems (Mechanical and Aerospace Engineering), MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, or a minimum Duolingo English score of 105.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or a minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary or the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer credit hours, and

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESAEASBSE-null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply principles of mathematics and science to solve complex engineering problems (ABET Outcome)
- Apply engineering design to a student project with consideration of public welfare/other factors (ABET Outcome)
- Develop and conduct engineering experiments, and analyze and interpret data (ABET Outcome).

#### **Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in duration, from one week to one year), participation in Global Education programs (<https://goglobal.asu.edu/>) is possible for all ASU students. Study abroad helps students gain a global perspective and knowledge, preparing them for leading in a forward-thinking career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

The Ira A. Fulton Schools of Engineering recommends these programs (<https://goglobal.asu.edu/students/major/SEMTE/aerospace-engineering>) for students majoring in aerospace engineering.

**Career Opportunities:** The majority of students entering the field of aerospace engineering desire to work on the design and analysis of aerospace vehicles. Most graduates are employed in the aerospace industry or in government positions related to aerospace. Specific careers in aerospace engineering include:

- aeronautical and space systems integration
- configuration development
- material and structural design
- propulsion engineering
- space mission design and analysis
- vehicle and component analysis using computer-aided tools
- vehicle design and performance
- wind tunnel and flight testing

The aerospace engineering program has the following educational objectives:

Through volunteering, entrepreneurial endeavors, community service, their employment, etc., graduates of the aerospace engineering program demonstrate commitment to the Sun Devil ideals of global engagement, social embeddedness, social transformation and sustainability.

Graduates of the aerospace engineering program should have attained one or more of the following objectives within a few years after completing their degrees:

- employment in aerospace or other field in a position that capitalizes on the skills and abilities gained through the degree in aerospace engineering, in positions of increasing responsibility and leadership within their organization
- admission into a graduate degree program in aerospace engineering or other technical field
- admission into a professional degree program, such as law or business, in accordance with the specific interests and abilities of the graduate

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Aerospace Engineering (Autonomous Vehicle Systems), BSE (ESAEAVSBSE)

**Campus:** Tempe

**Program Description:** Emerging emphasis on autonomous aircraft technology and operations in military and civilian sectors signals a new era within the aeronautical community focused on autonomous vehicles and systems.

The BSE program in aerospace engineering with a concentration in autonomous vehicle systems provides graduates with knowledge and skills required for any career in aerospace engineering plus those specific to unmanned aerial vehicles and systems.

The curriculum is structured so students have general exposure to the engineering of autonomous aircrafts.

Students in the aerospace engineering program are expected to attain the following outcomes:

- an ability to identify, formulate and solve complex engineering problems by applying principles of engineering, science and mathematics
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors
- an ability to communicate effectively with a range of audiences
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks and meet objectives
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

All paths through this concentration satisfy accreditation criteria for aerospace engineering.

Accredited by the Engineering Accreditation Commission of ABET; <http://www.abet.org> (<http://www.abet.org>).

### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. ## Applied Science (Aviation), BAS (TSAMTABAS)

**Campus:** Polytechnic

**Program Description:** The concentration in aviation within the BAS in applied science is for students who have received training and education in some aspect of the air transportation industry, such as air transportation management, flight, or aviation maintenance, as part of their associate degree. Students receive an orientation in management practices.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course with the MA general studies designation will satisfy the math requirement.

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Additional Requirements:** Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution. This program is not available to freshmen.

**Transfer Admission Requirements:** This BAS program in applied science allows students who have an applicable AAS from an accredited institution to transfer 60 credit hours toward a Bachelor of Applied Science at ASU. Students pursuing this degree may have more than 60 credit hours to complete in order to obtain their BAS upon transfer to ASU. Students who have earned an Associate of Applied Science degree from a regionally accredited Arizona community college may be eligible to transfer up to 75 credits toward the BAS degree. Students should work with their academic advisor to ensure their courses meet degree requirements.

**Change of Major Requirements:** Students interested in changing to this Bachelor of Applied Science program must have completed a related Associate of Applied Science degree at a regionally accredited college.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use

MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSAMTABAS--null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Aviation is a global industry, and understanding intercultural communication is vital to succeeding in it. Study abroad programs (<https://goglobal.asu.edu/>), offered around the globe, give students insight toward the study of aviation. Students can further their skills in communication and administration and gain commercial experience while in an international setting. Students earn ASU credit for completed courses, while staying on track for graduation, and may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates are prepared for advanced positions in the aviation management field including:

- airline manager
- airline operations manager
- airport manager
- aviation consulting
- entrepreneurial ventures
- fixed based operations
- general aviation operations manager
- governmental positions with the Federal Aviation Administration, Department of Transportation and National Transportation Safety Board

## Applied Science (Graphic Information Technology), BAS (TSGITBAS)

**Campus:** Polytechnic, Online

**Program Description:** The cross-media nature of the graphics industry requires tomorrow's graduates to understand the full spectrum of visual design and production as well as current business practices.

The BAS program with a concentration in graphic information technology prepares students to become visual design technologists with skills in front-end web design and development, printing and digital publishing, commercial photography and video production, and motion graphics and visual effects. This is an intensive program of study emphasizing theory and hands-on laboratory practice.

The graphic information technology program allows students who have an applicable AAS from an accredited institution to transfer 60 credit hours toward a Bachelor of Applied Science degree at ASU. Students pursuing this degree may have more than 60 credit hours to complete in order to obtain their Bachelor of Applied Science upon transfer to ASU. Students who have earned an Associate of Applied Science degree from a regionally accredited Arizona community college may be eligible to transfer up to 75 credits toward the Bachelor of Applied Science degree. Students should work with their academic advisor to ensure their courses will meet degree requirements.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap

in curriculum.

### **Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Graphic Information Technology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree in a similar field such as animation, desktop publishing, digital arts, digital photography, eLearning design, game technology, graphic design, video production technology or web design..

**Change of Major Requirements:** Students interested in changing to this Bachelor of Applied Science degree must have completed a related Associate of Applied Science degree at a regionally accredited university in a similar program, such as graphic design, animation, visual communication, web design and development, commercial photography and video.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/graphic-information-technology-bas/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSGITBAS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Synthesize technical information into written and visual documentation for cross-media projects.
- Sketch solutions to cross-media problems utilizing industry-standard workflows.
- Implement appropriate industry-standard tools and techniques for managing complex cross-media projects.

### **Global Opportunities:**

Global Experience: Students learn intercultural applications of design and technology skills through hands-on learning and cultural engagement opportunities in an international setting. Through the rich educational and interpersonal experiences inherent in study abroad, students learn to thrive in a global environment.

With over 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Students earn ASU credit for completed courses, while staying on track for graduation, and may apply financial aid and scholarships toward program costs.

A resume enhanced by the valuable study abroad experience will impress prospective employers and it will also help the student stand out should they decide to pursue advanced study.

**Career Opportunities:** The graphic information technology program prepares graduates for technical and management positions in visual design in such diverse areas as:

- art direction
- commercial photography and video production
- front-end web design and development
- graphic design
- motion graphics, animation and game art
- premedia, digital printing and publishing
- production management
- quality assurance of graphic and visual design products
- technical and digital media production
- user experience design
- user interface design
- video editing
- visual design

## Applied Science (Internet and Web Development), BAS (TSIWDBAS)

**Campus:** Polytechnic, Online

**Program Description:** The BAS program with a concentration in internet and web development is an intensive program of study emphasizing hands-on laboratory practice. Students develop skills in front-end web design and development, including advanced web markup and scripting, user experience design, usability, multimedia design and emerging web technologies.

Students who have an applicable AAS from an accredited institution may transfer 60 credit hours toward a bachelor's degree at ASU, and students who have earned an AAS degree from a regionally accredited Arizona community college may be eligible to transfer up to 75 credits toward this program. Upon transfer to ASU in pursuit of this Bachelor of Applied Science, students may have more than 60 credit hours to complete. Students should work with their academic advisor to ensure their courses will meet degree requirements.

All courses for this program are available on campus and through ASU Online.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Graphic Information Technology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree in digital animation, graphic design, media arts, and web design or development.

**Change of Major Requirements:** Students interested in changing to this Bachelor of Applied Science degree must have completed a related Associate of Applied Science degree at a regionally accredited university.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-applied-science-internet-and-web-development/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSIWDBAS-null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply industry-level knowledge of web design and development key concepts and best practices to provide web-based solutions
- Propose solutions to complex web design and development projects utilizing industry-standard tools and techniques
- Construct effective user interactions and system functionalities in web-based systems

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire global skills and knowledge in preparation for their choice of career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates are prepared for careers in front-end website design and development, usability and user experience design, user interface design and visual design.

## Applied Science (Operations Management), BAS (TSIMCOBAS)

**Campus:** Polytechnic, Online

**Program Description:** Graduates of the BAS program with a concentration in operations management are able to provide strategic focus and meet organizational objectives by implementing best practices, managing people and creating value.

Students who have an applicable AAS from an accredited institution to transfer 60 credit hours toward a bachelor's degree at ASU, and students who have earned an AAS degree from a regionally accredited Arizona community college may be eligible to transfer up to 75 credits toward this program. Upon transfer to ASU in pursuit of this Bachelor of Applied Science, students may have more than 60 credit hours to complete. Students should work with their academic advisor to ensure their courses will meet degree requirements.

### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course with the MA general studies designation will satisfy the math requirement.

**Program Math Intensity:** General

### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution. This program is not available for first-year students.

**Change of Major Requirements:** Students interested in changing to this Bachelor of Applied Science degree must have completed a related Associate of Applied Science degree at a regionally accredited institution.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-applied-science-operations-management-technology/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSIMCOBAS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Implement industrial management of technology, management of processes, and management of human capital.
- Demonstrate proficiency in collaborating with diverse team members through a professional team presentation that conveys innovation improvements for businesses or organizations.
- Apply systems thinking, data-driven decision making, and research to optimize decision(s) to solve complex problems for a variety of industries/organizations.
- Demonstrate proficiency in critical thinking by developing a strategic management plan that includes analysis of issues, assumptions, evidence, and implications.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for their chosen career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs. More information is available on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** The bachelor's degree program in operations management technology prepares undergraduate students for supervisory and management functions in industry, manufacturing, public service and other service organizations.

## Biomedical Engineering, BSE (ESBMEBSE)

**Campus:** Tempe, Online

**Program Description:** The BSE program in biomedical engineering provides in-depth knowledge to translate an idea for a health solution into a viable prototype of a biomedical device.

With knowledge gained from courses that cover engineering, life sciences, and that tie the two together, graduates are able to apply their skills in an ethical and a sustainable manner to make contributions that address societal and individual needs.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, or a minimum Duolingo English score of 105.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or a minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 3.00 in all critical courses for Terms 1 and 2 (see major map for critical courses)

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/biomedical-engineering/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESBMEBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### **Global Opportunities:**

Global Experience: Students studying biomedical engineering gain valuable hands-on experience when studying abroad, experience that enhances

their resumes. With over 300 programs available in a variety of countries around the world, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their experience to their unique interests and skill sets. In a competitive field, they stand out with the heightened cultural competency and leadership and critical thinking skills they achieved from studying abroad.

**Career Opportunities:** Biomedical engineers are primarily employed in:

- governmental regulatory agencies
- hospital and research facilities
- medical and educational institutions
- medical device, biotechnology and pharmaceutical industries

In industry, they may work in all aspects of product development including:

- business development
- manufacturing
- marketing
- quality
- regulatory
- research and design
- sales

Because of their background in both the engineering and medical fields, they often serve a coordinating or interfacing function and provide a key role for transdisciplinary teams. Government positions may involve evaluating new technologies, testing product quality and safety and setting standards.

In the hospital, biomedical engineers serving in a clinical engineering function may provide advice on the selection and use of medical equipment and supervise performance testing and maintenance. Biomedical engineers may also build customized devices for special health care, rehabilitation or research needs.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## Biomedical Engineering (Biological Devices), BSE (ESBMEBDBSE)

**Campus:** Tempe

**Program Description:** The BSE program in biomedical engineering with a concentration in biological devices provides in-depth knowledge of cell biology and helps students learn to apply that knowledge to solve engineering problems pertinent to medicine and other fields, including synthetic biology.

The biomedical industry has many branches that require depth of understanding of cell biology and its techniques, including immunohistochemical diagnostics, blood-contacting materials, controlled-release therapeutics and local delivery of therapeutics.

With courses that cover engineering, life sciences and that tie the two together, graduates are able to apply their skills in an ethical and a sustainable manner to make contributions that address societal and individual needs.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Biomedical Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or minimum high school GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for fewer than 24 transfer hours, and
- no high school math or science competency deficiencies, and

- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

#### Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

#### Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 3.00 in all critical courses for Terms 1 and 2 (see major map for critical courses)

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESBMEMDBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### Global Opportunities:

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), participating in a Global Education program (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire global skills and knowledge in preparation for a forward-thinking career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates are well-qualified for entry level positions in the biomedical industry, including areas such as quality assurance, regulatory affairs and project management. Graduates also are highly qualified to seek advanced degrees if they wish to pursue research and design positions.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## Chemical Engineering, BSE (ESCHEBSE)

**Campus:** Tempe

**Program Description:** Chemical engineering deals with the application of chemistry, physics and mathematics to the process of converting raw materials or chemicals into more useful or valuable forms. Chemical engineering also involves the design of valuable new materials and chemical products. The modern discipline of chemical engineering is intertwined with biology and biomedical engineering.

The BSE program offered in chemical engineering builds on a broad base of knowledge within the basic and mathematical sciences and engineering.

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org/> (<https://www.abet.org/>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Chemical Engineering, MS

Materials Science and Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, or a minimum Duolingo English score of 105.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or a minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary or the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer credit hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer credit hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (students should refer to the major map for critical courses)

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements>) for many majors in the Ira A.

Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESCEBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) provide students an important opportunity to develop valuable skills and have valuable experiences which help to grow their self-confidence, develop their communication skills, and give them an advantage that they may not have had before.

Students learn intercultural applications of design and technology skills through hands-on learning and cultural engagement opportunities in an international setting. Participation in a Global Education program exposes students to unique environments and cultures, challenges them to adapt and persevere, helps them increase their professional and educational networks, and enhances their portfolio of experience through the kinds of hands-on research and community-based opportunities they will need in order to compete and succeed in today's challenging and quickly changing STEM fields.

The Ira A. Fulton Schools of Engineering recommend these programs (<https://goglobal.asu.edu/students/major/SEMTE/chemical-engineering>) for students majoring in chemical engineering.

**Career Opportunities:** Graduates are prepared for excellent career opportunities. Chemical engineers are engaged in the development and production of a diverse range of products, including high-performance materials needed for aerospace, automotive, biomedical, electronic and environmental applications. They have traditionally played a key role in industries as varied as:

- artificial fibers
- biotechnology
- ceramics
- food
- glass
- petrochemicals
- petroleum
- plastics
- primary metals
- semiconductors
- specialty chemicals

There are also many newer fields with great demand for chemical engineering graduates, such as biomedical engineering, modern materials science (composites, superconductors) and the solution of environmental problems.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## **Civil Engineering, BSE (ESCEEBSE)**

**Campus:** Tempe

**Program Description:** Civil engineering majors in the Ira A. Fulton Schools of Engineering have two choices within the accredited BSE program: civil engineering and civil engineering with the sustainable engineering concentration. Regardless of choice, the Bachelor of Science in Engineering

in civil engineering is accredited by ABET.\*

Civil engineering involves the analysis, planning, design, construction, maintenance and application of sustainable practices in all areas of urban infrastructure for government, commerce, industry and the public domain. These include airports, bridges, canals, dams, factories, office towers, roadway systems, schools, tunnels and subway systems and water purification facilities. Civil engineers are concerned with the impact their projects have on the public and the environment; they coordinate the needs of society with technical and economic feasibility.

The curriculum exposes students to the following areas of civil engineering, with a strong emphasis on sustainability:

- construction engineering
- environmental engineering
- geotechnical engineering
- hydrosystems engineering
- structures
- transportation

\*Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Civil, Environmental and Sustainable Engineering, MS

Construction Engineering, MSE

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, or a minimum Duolingo English score of 105.

First-year admission:

- minimum SAT score of 1210 for Evidence-based Reading and Writing and Math or minimum ACT composite score of 24 or a minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum SAT score of 1210 for Evidence-based Reading and Writing and math (or 1140 if taken prior to March 5, 2016) or minimum ACT composite score of 24 or minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

#### Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies if Admission Services requires submission of a high school transcript

#### Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 3.00 in all critical courses for Terms 1 and 2 (see major map for critical courses)

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESCEEBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### Global Opportunities:

**Global Experience:** Study abroad allows students in civil engineering to learn intercultural applications of design and technology skills through hands-on learning and cultural engagement opportunities in an international setting.

Whether in a foreign country, in the U.S. or online, students build communication skills and learn to adapt and persevere, and they are exposed to research and internships across the world, which increases their professional network. Students earn ASU credit for completed courses, while staying on track for graduation, and may apply financial aid and scholarships toward program costs.

The expanded education students acquire while participating in a Global Education program (<https://goglobal.asu.edu/>) demonstrates to employers their ability to thrive in a global environment, helping them stand out when pursuing their choice of careers in a competitive industry.

**Career Opportunities:** ASU graduates with a bachelor's degree in civil engineering readily find employment. Civil engineers work in many different types of companies: large corporations; small, private consulting firms; and governmental agencies. A civil engineering background is an excellent foundation for jobs in management and public service.

Civil engineering is one of the best engineering professions from the viewpoint of international travel opportunities or for eventually establishing one's own consulting business.

The bachelor's degree program prepares graduates for the fundamentals of engineering examination, the professional engineering examination and for graduate degree programs.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## Civil Engineering (Sustainable Engineering), BSE (ESCEESUBSE)

**Campus:** Tempe

**Program Description:** Civil engineering majors have two options within the accredited BSE program: civil engineering and civil engineering with sustainable engineering concentration. Regardless of choice, the Bachelor of Science in Engineering in civil engineering is accredited by ABET.\*

The bachelor's degree in civil engineering with a concentration in sustainable engineering incorporates systems modeling and life cycle approaches to assessing the resiliency and material selection across all areas of urban infrastructure or built environment currently addressed within the civil engineering degree. The program is designed to provide students with exposure to material from several disciplines that comply with the principles of economic, social and ecological sustainability and apply them to traditional civil engineering areas.

\*Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. ## Computer Science, BS (ESCSEBS)

**Campus:** Tempe, Online

**Program Description:** The BS program in computer science aims at producing graduates who are well prepared for pursuing careers in a wide variety of computing-related fields or to embark on further graduate studies.

The program is anchored with core courses that provide a solid foundation in theoretical and practical aspects of computer science and ensure students have the requisite critical thinking, effective programming and problem solving skills in a variety of modern programming languages with an emphasis on understanding security and systems issues.

The program caters to a variety of interests in subfields of computer science and related disciplines through a flexible set of electives that allow

students to develop, as part of their programs of study, in-depth knowledge and skills in artificial intelligence, machine learning, robotics, database systems, informatics, or other engineering and science disciplines. Students can also pursue concentrations in software engineering or cybersecurity as part of their degree program.

Computer science professionals design, analyze and improve the quality of computer software and systems for a variety of applications, including:

- artificial intelligence
- computer vision
- cybersecurity
- graphics
- information management
- multimedia
- networking

Accredited by the Computing Accreditation Commission of ABET, <https://www.abet.org/> (<https://www.abet.org/>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Computer Science (Art, Media and Engineering), MS
- Computer Science (Big Data Systems), MCS
- Computer Science (Big Data Systems), MS
- Computer Science (Biomedical Informatics), MS
- Computer Science (Cybersecurity), MCS
- Computer Science (Cybersecurity), MS
- Computer Science, MCS
- Computer Science, MS
- Robotics and Autonomous Systems (Artificial Intelligence), MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, or a minimum Duolingo English score of 105.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or a minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in CSE 110 Principles of Programming, CSE 205 Object-oriented Programming and Data Structures, MAT 265 Calculus for Engineers I, and 266 Calculus for Engineers II

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-computer-science/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESCSEBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students learn to thrive in a global environment through the rich educational and interpersonal experiences inherent in study abroad. A resume enhanced by the valuable study abroad experience will impress prospective employers and it will also help the student stand out should they decide to pursue advanced study.

With over 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

**Career Opportunities:** Computer science graduates secure employment in a variety of capacities, such as in computer and software design or development of information technologies. Their jobs are often distinguished by the high level of theoretical expertise applied to solving complex problems and to the creation and application of new computing technologies. Some computer science-related jobs may include:

- creating computer games and graphics systems
- designing artificial intelligence systems
- developing mobile computing applications
- developing network security applications
- discovering data management and mining solutions for large-scale data analytics
- inventing and implementing more efficient computing systems for managing data and information, including information retrieval and search on the Internet

With the theoretical foundation built into the program, computer science graduates can excel in system and software development as well as in designing effective computing solutions for emerging and challenging problems in modern society. Skills in system development and research can lead to entrepreneurial activity that produces innovative computing products and services.

## Computer Science (Cybersecurity), BS (ESCSEIBS)

**Campus:** Tempe

**Program Description:** The BS program in computer science with a concentration in cybersecurity provides students with the knowledge and skills they need to build dependable and secure information systems and networks and to ensure the integrity and quality of information being stored, processed and transmitted.

ASU has been certified as a National Center of Academic Excellence in Information Assurance Education and a National Center of Academic Excellence in Information Assurance - Research by the National Security Agency and the Department of Homeland Security. Information assurance courseware at ASU has been certified by the Information Assurance Courseware Evaluation Program to satisfy the standards for Information Systems Security Professionals (NSTISSI 4011) and Senior Systems Managers (CNSSI 4012).

Domestic students enrolled in the cybersecurity concentration are eligible for federal fellowships, such as the Department of Defense Information Assurance Scholarship Program and the Federal Cyber Service Scholarship for Service Program.

Accredited by the Computing Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Computer Science (Art, Media and Engineering), MS
- Computer Science (Big Data Systems), MCS
- Computer Science (Big Data Systems), MS
- Computer Science (Biomedical Informatics), MS
- Computer Science (Cybersecurity), MCS
- Computer Science (Cybersecurity), MS
- Computer Science, MCS
- Computer Science, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)  
Transfer (<https://admission.asu.edu/transfer/apply>)  
International (<https://admission.asu.edu/international/undergrad-apply>)  
Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, or a minimum Duolingo English score of 105.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or a minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in CSE 110 Principles of Programming, CSE 205 Object-oriented Programming and Data Structures, MAT 265 Calculus for Engineers I, and 266 Calculus for Engineers II

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESCSEIBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students learn to thrive in a global environment through the rich educational and interpersonal experiences inherent in study abroad. A resume enhanced by the valuable study abroad experience will impress prospective employers and it will also help the student stand out should they decide to pursue advanced study.

With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

**Career Opportunities:** Computer scientists are highly sought after in multiple areas of industry ranging from education, logistics, tech, government and security.

Graduates of the Bachelor of Science in cybersecurity find employment in a variety of capacities, including computer system and software development and research on information assurance technologies. Some related jobs may include:

- analyzing computer forensic data
- designing secure information systems and databases
- developing secure software

- information security consulting
- secure computer and network applications

## Computer Science (Software Engineering), BS (ESCSESBS)

**Campus:** Tempe

**Program Description:** The software engineering concentration of the BS program in computer science is appropriate for computer science students seeking careers as software engineers. Students learn advanced processes, methodologies and tools for developing and testing large and small software applications in emerging areas such as:

- databases
- enterprise systems
- interoperable systems
- mobile computing
- service-orientated computing

They also learn cybersecurity concepts and techniques and principles of human-computer interaction and methods for developing these applications. The curriculum prepares students to assume leadership roles in software development organizations and to practice professional standards and emerging software technology to the software engineering life-cycle activities.

Accredited by the Computing Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

**Career Opportunities:** Career opportunities are plentiful for software engineers.

Graduates of the software engineering concentration possess the knowledge and skills to work across the spectrum of software development process activities, including:

- architecture
- coding
- project management

- quality assurance
- requirements engineering
- testing

Careers include:

- software analyst
- software architect
- software engineer
- software task leader
- software tester

Graduates find employment in large and small organizations that develop, deploy and manage software systems. They work on all types of projects that include large, complex engineering systems, distributed banking, financial and government software and gaming.

## Computer Systems Engineering, BSE (ESCSEBSE)

**Campus:** Tempe

**Program Description:** The BSE program in computer systems engineering focuses on the analysis, design, testing, integration and evaluation of hardware and software systems. The curriculum is grounded in many engineering disciplines, including the applications of science and technology to the design of:

- computer architecture
- cybersecurity
- digital circuits
- distributed and embedded systems
- networking
- operating systems

Students engage in the design of integrated hardware and software solutions for computing, communication and control applications. They practice many aspects of engineering activities, such as the development of:

- computer networks
- embedded and ubiquitous systems
- high-performance computer systems
- individual digital components

Students become skilled at interfacing different pieces of hardware and software components and integrating systems and products with new capabilities and improved quality and performance.

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org/>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. **Global Opportunities:**

Global Experience: Students learn to thrive in a global environment through the rich educational and interpersonal experiences inherent in study abroad. A resume enhanced by the valuable study abroad experience will impress prospective employers and it will also help the student stand out should they decide to pursue advanced study.

With over 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

**Career Opportunities:** Computer systems engineers are employed in industry, government, education and consulting firms where they engage in the design, development and operation of hardware and software systems of computer and networking equipment.

Computer systems engineers often find themselves focusing on engineering problems or challenges of emerging computer systems, including chips, device controllers, embedded systems and high-performance computing servers. Their jobs usually involve the research, design and development of computer hardware and software for practical applications. Their work can result in innovative, state-of-the-art products that integrate computing and communication capabilities, such as those in:

- avionics and space vehicles
- digital television and photography
- intelligent highways and control systems for vehicles
- mobile devices and smart applications
- new apparatuses for health care and for the sight-impaired or others with physical disabilities
- security and defense systems

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## **Construction Engineering, BSE (ESCONBSE)**

**Campus:** Tempe

**Program Description:** The BSE program in construction engineering is designed for students who wish to gain a professional engineering license while working at the interface of design and construction, and it is attractive for students interested in a career that emphasizes the construction of infrastructure.

The degree program includes engineering design and construction management courses with a focus on sustainability and building information modeling topics. Construction management content includes construction methods, contract management, cost and schedule control, people management and project estimating.

The curriculum's design content includes structures, geotechnical engineering and transportation. Students are further prepared with the computer, management, technical and people skills they need to succeed.

This degree is the third in the southwestern U.S. and one of about 20 worldwide.

Accredited by the Engineering Accreditation Commission of ABET; <https://www.abet.org/> (<https://www.abet.org/>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Civil, Environmental and Sustainable Engineering, MS  
Construction Engineering, MSE

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, or a minimum Duolingo English score of 105.

First-year admission:

- minimum SAT score of 1210 for evidence-based reading and writing plus math or minimum ACT composite score of 24 or a minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum SAT score of 1210 for evidence-based reading and writing plus math (or 1140 if taken prior to March 5, 2016) or minimum ACT composite score of 24 or a minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria, not both:

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies if Admission Services requires submission of a high school transcript

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESCONBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: Students gain valuable experience through study abroad (<https://goglobal.asu.edu/>), experience which enhances their resumes. With over 300 programs available, study abroad allows students to tailor their experience to their unique interests and skill sets. Students in construction engineering are able to gain hands-on experience in a variety of countries. In a competitive field, students stand out with the heightened cultural competency and leadership and critical thinking skills they acquired from studying abroad.

**Career Opportunities:** The construction engineering graduate, with this strong background in design and management, is prepared to enter a career in the engineering and construction industry as a field engineer, project engineer or project designer working for:

- construction companies
- design firms
- facility owners
- material suppliers
- specialty subcontractors

Graduates have the unique skills needed to take on the role of integrator in the delivery of design-build projects or development activities. As the graduate's career progresses, they should be able to take on leadership roles in the delivery of sustainable facilities in the built environment and then progress through successively higher levels of management responsibility. The graduate should be particularly attuned to the design and construction of heavy civil and industrial facilities, meeting the infrastructure needs of society.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## **Construction Management and Technology, BS (ESCONMGTB)**

**Campus:** Tempe

**Program Description:** The BS program in construction management and technology allows students to specialize in construction and facility management. Students learn to organize, lead and manage the building construction business processes related to real estate, facility and infrastructure projects.

Construction management is the most vital function on a job site. Construction managers represent the interests of the building owner or the contractor and interact with architects, engineers, subcontractors, vendors and suppliers to ensure the success of construction projects in the built environment.

This program focuses on the business of construction and technology, such as building information modeling.

Students learn the basics of design; the construction methods specific to each type of construction (heavy, residential, commercial, specialty); and the process of sustainable or green construction. They learn how to estimate, schedule and control the costs of a project and what it takes to manage the people involved and the various types of contracts. Graduates possess the computer, management, technical and people skills they need to succeed.

This is one of two construction programs in the state of Arizona and one of approximately 80 accredited programs in the nation.  
2023-24 Academic Catalog Archive

This program is accredited by the American Council for Construction Education: <https://www.acce-hq.org/> (<https://www.acce-hq.org/>).

Accredited by the Applied and Natural Science Commission of ABET; <https://www.abet.org> (<https://www.abet.org>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 170 - Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Construction Management and Technology, MS  
Public Administration, MPA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, or a minimum Duolingo English score of 105.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or a minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria, not both:

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies, if Admission Services requires submission of a high school transcript

Secondary Criteria

- minimum transfer GPA of 2.50 for 24 or more transfer hours, and

- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESCONMGTBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

**Global Experience:** Students enhance their resumes with the valuable experience they gain through study abroad (<https://goglobal.asu.edu/>). With over 300 programs available, study abroad allows students to tailor their experience to their unique interests and skill sets. Students in construction management and technology are able to gain hands-on experience, heightened cultural competency, and leadership and critical thinking skills while studying abroad. They earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** The construction management and technology program provides a foundation for those who wish to pursue careers as project managers, project engineers, estimators or schedulers and eventually to become principals of firms engaged in the construction of industrial, commercial or residential projects.

Graduates of the heavy construction emphasis area are prepared for careers related to public works such as highways, airports, bridges, utility systems and water or waste treatment facilities.

Graduates of the commercial and residential emphasis areas are prepared for careers in real estate development, home production systems, commercial construction, health care and special industrial building projects. They are also prepared to enter the sustainable or green construction market.

Graduates of the specialty construction emphasis are prepared to organize, lead and manage the building process at the subcontractor level and for careers as contractors working with mechanical and electrical systems. They are also prepared for careers in management at specialty contracting firms, such as those with expertise in control systems, electrical distribution or heating, and ventilation and air conditioning systems for large and complex facilities like data centers, health care organizations, semiconductor manufacturing plants, and commercial facilities.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## **Electrical Engineering, BSE (ESEEEBSE)**

**Campus:** Tempe, Online

**Program Description:** The BSE program in electrical engineering prepares students for positions as electrical engineers.

Following initial coursework in mathematics and sciences, the foundation classes build a solid base of engineering knowledge. The electrical engineering curriculum includes a number of required upper-division electrical engineering and technical elective courses in such areas as circuits; communication, signal processing and control systems; computer engineering; electromagnetics; power; and solid-state devices.

Approved technical elective courses provide students with an opportunity either to broaden their background in electrical engineering or to study in greater depth the technical subjects in which they have special interest.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Astrophysics and Astronomy, MS
- Computer Engineering (Electrical Engineering), MS
- Electrical Engineering, MS
- Electrical Engineering, MSE
- Exploration Systems Design (Instrumentation), MS
- Exploration Systems Design (Sensor Networks), MS
- Exploration Systems Design (Systems Engineering), MS
- Exploration Systems Design, MS
- Robotics and Autonomous Systems (Electrical Engineering), MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, or a minimum Duolingo English score of 105.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or a minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

#### Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

#### Secondary Criteria

- minimum transfer GPA of 2.50 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (MAT 265, MAT 266, PHY 121 and PHY 122)

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-engineering-electrical-engineering/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESEEBSE-null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts; ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives

#### Global Opportunities:

Global Experience: Students gain valuable experience when studying abroad (<https://goglobal.asu.edu/>), experience that enhances their resumes. With over 300 programs available, study abroad allows students to tailor their experience to their unique interests and skill sets. Students in electrical engineering are able to gain hands-on experience in a variety of international locations. In a competitive field, students stand out with the heightened cultural competency and leadership and critical thinking skills they achieved when studying abroad. More information on available programs can be found on the Global Education website.

**Career Opportunities:** Graduates with the bachelor's degree in electrical engineering find many exciting opportunities in industry. These include:

- communication equipment and network providers
- computer and peripheral device manufacturers and defense organizations
- consulting companies
- electric power utilities
- semiconductor chip designers and manufacturers

Graduates are also prepared for continued learning experiences, either in a formal graduate program or in continuing education applications.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another

state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## Electrical Engineering (Electric Power and Energy Systems), BSE (ESEEEPBSE)

**Campus:** Tempe, Online

**Program Description:** The electric power and energy systems concentration in the BSE program in electrical engineering prepares students for positions after graduation in industries dealing with the generation, transmission and utilization of electric power. Generation includes conventional power generation (fossil fuel and nuclear) and alternative energy systems, including solar, wind and fuel cells.

Students in this program complete the foundation courses in math, science and engineering and then are required to take the pathway course in electric power and complete nine of the 15 technical elective credit hours with power classes. The senior design capstone project focuses on the area of electric power and energy systems.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org/>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Astrophysics and Astronomy, MS
- Electrical Engineering, MS
- Electrical Engineering, MSE
- Exploration Systems Design (Instrumentation), MS
- Exploration Systems Design (Sensor Networks), MS
- Exploration Systems Design (Systems Engineering), MS
- Exploration Systems Design, MS
- Robotics and Autonomous Systems (Electrical Engineering), MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Additional Requirements:** The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, or a minimum Duolingo English score of 105.

**First-year admission:**

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or a minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

**Transfer Admission Requirements:** Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

**Primary Criteria**

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

**Secondary Criteria**

- minimum transfer GPA of 2.50 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (MAT 265, MAT 266, PHY 121 and PHY 122)

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

**ASU Online:** ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/electrical-engineering-electric-power-and-energy-systems-bse/>) for program descriptions and to request more information.

**ASU Local:** It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESEEEPBASE-null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- Apply knowledge of mathematics, science, and engineering, with focus on electrical power systems.

**Global Opportunities:**

**Global Experience:** Students gain valuable experience when studying abroad, experience that enhances their resumes. With over 300 programs available, study abroad (<https://goglobal.asu.edu/>) allows students to tailor their experience to their unique interests and skill sets. Students in electrical engineering are able to gain hands-on experience in a variety of international locations. In a competitive field, students stand out with the

heightened cultural competency and leadership and critical thinking skills they achieved when studying abroad. More information on available programs can be found on the Global Education website.

**Career Opportunities:** Career opportunities for graduates with a concentration in electric power and energy systems include:

- consulting engineering firms
- employment in utility companies
- entrepreneurial opportunities
- power equipment manufacturers
- research and design organizations
- state, federal and municipal agencies

This concentration also prepares students to pursue graduate degrees in the areas of:

- power generation
- power systems
- power transmission and distribution
- renewable and sustainable energy sources

The program also prepares graduates for continued learning experiences, either in a formal graduate program or in continuing education applications.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## Engineering, BSE (TSEGRBSE)

**Campus:** Polytechnic

**Program Description:** The BSE program in engineering prepares graduates to collaborate across disciplines in order to design and build solutions to real-world problems.

In the Bachelor of Science in Engineering program, students apply engineering fundamental knowledge and design thinking to real projects every semester. They choose a disciplinary concentration that enables them to develop in-depth knowledge in a specific area, and they choose a secondary focus area. This flexibility allows students to tailor their degree in a way that will help them to achieve their individual career and life goals. The program enables students to develop sophisticated technical skills in tandem with the professional skills of communication, teamwork, collaboration, self-motivation and adaptability, and the program's emphasis on open-ended design and project-based learning supports the development of entrepreneurial skills and attitudes.

Students can choose from the following concentrations: automotive systems, electrical systems, mechanical engineering systems and robotics.

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSEGRBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Design engineering systems including components, and processes to meet needs within realistic constraints including social, political, economic, ethical, health and safety, manufacturing and/or sustainability.
- Communicate engineering findings to colleagues, clients, other stakeholders and the public in written, oral and graphical form.
- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics. (ABET).

**Global Opportunities:**

Global Experience: Study abroad enables students to gain valuable, resume-building experience. Participation in a Global Education program (<https://goglobal.asu.edu/>) provides students with the heightened cultural competency and leadership and critical thinking skills that will help them stand out in a competitive industry.

Whether in a foreign country, in the U.S. or online, students build communication skills, are challenged to adapt and persevere, are exposed to research and internships across the world, and increase their professional network.

**Career Opportunities:** Engineers on transdisciplinary teams collaborate to design, manufacture and deliver innovative technological products and services.

Graduates are prepared to work in large corporations, government agencies and small businesses as well as to go on to graduate school to pursue advanced degrees. Some graduates start companies of their own.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## Engineering (Automotive Systems), BSE (TSEGRASBSE)

**Campus:** Polytechnic

**Program Description:** The BSE program in engineering prepares graduates who are able to collaborate across disciplines to design and build solutions to real-world problems.

In the program, students apply fundamental engineering knowledge and design thinking to real projects every semester. Students in the automotive systems concentration first build a broad engineering foundation to which they add the skills and knowledge necessary for vehicle design and testing. The curriculum focuses on automotive engineering fundamentals, including powertrain engineering and chassis system design, as well as hands-on projects that involve designing, analyzing and building actual automotive systems.

Graduates of this concentration of the Bachelor of Science in Engineering are able to provide leadership in automotive engineering settings, especially in automotive testing and hybrid propulsion systems, which are intrinsically transdisciplinary in nature.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### **Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Engineering, MS
- Global Management, MGM
- Manufacturing Engineering, MS
- Robotics and Autonomous Systems (Systems Engineering), MS
- Secondary Education (Teacher Certification), MEd
- Technology (Management of Technology), MSTech

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.  
2023-24 Academic Catalog Archive

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSEGRASBSE-null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Design engineering systems including components, and processes to meet needs within realistic constraints including social, political, economic, ethical, health and safety, manufacturing and/or sustainability.
- Communicate engineering findings to colleagues, clients, other stakeholders and the public in written, oral and graphical form.
- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics. (ABET).

#### **Global Opportunities:**

Global Experience: Students learn to thrive in a global environment through the rich educational and interpersonal experiences inherent in study abroad. A resume enhanced by the valuable study abroad experience will impress prospective employers and it also will help students stand out when pursuing advanced study.

With over 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

**Career Opportunities:** Engineers collaborate on transdisciplinary teams to design, manufacture and deliver innovative technological products and services. The program enables students to develop sophisticated technical skills in tandem with the professional skills of communication, teamwork and collaboration, and self-motivation and adaptability that many employers seek.

Graduates of the automotive concentration are prepared for employment in companies related to the automotive industry, from large original equipment manufacturing companies and their testing grounds to smaller specialty or aftermarket companies. The program's emphasis on open-ended design and project-based learning supports the development of entrepreneurial skills and attitudes, and some students start companies of their own.

Because of the transdisciplinary nature of the Bachelor of Science in Engineering, graduates also have opportunities to perform functions that traditionally have been done by mechanical, manufacturing, automation and development engineers.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## **Engineering (Electrical Systems), BSE (TSEGRESBSE)**

**Campus:** Polytechnic

**Program Description:** The BSE program in engineering prepares graduates to collaborate across disciplines to design and build solutions to real-world problems.

Bachelor of Science in Engineering students apply fundamental engineering knowledge and design thinking to real projects every semester. Students in the electrical systems concentration of the program build a broad engineering foundation to which they add the skills and knowledge they will need in order to contribute electrical subject matter expertise in transdisciplinary engineering teams. This expertise includes theory and

application of sensors, actuators, microcontrollers and microprocessors as well as the integration of these components into electrical and mechatronic systems. The electrical systems curriculum also provides significant hands-on experience designing and implementing electrical and mechatronic systems to meet the needs of users.

The program enables students to develop sophisticated technical skills in tandem with the professional skills of communication, teamwork, collaboration, self-motivation and adaptability, and the program's emphasis on open-ended design and project-based learning supports the development of entrepreneurial skills and attitudes.

Accredited by the Engineering Accreditation Commission of ABET; <http://www.abet.org> (<http://www.abet.org>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. ## Engineering Management, BSE (ESEMGBSE)

**Campus:** Tempe, Online

**Program Description:** The BSE program in engineering management is designed to provide students with skills required for effective management and leadership of engineering-driven enterprises.

The curriculum provides a breadth of engineering science and design with depth in one specific area suitable for practice. This knowledge is augmented with an understanding of business practices and organizational behavior and with the development of management skills, enabling the graduate to succeed in the management of a scientific or engineering enterprise. Topics covered include project and resource management, financial engineering, risk management, configuration management, service plans, product liability, entrepreneurship and operations management, in addition to product design and process development.

Graduates have a deep understanding of at least one industry sector based upon the focus area courses.

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org/>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Global Management (Creative Industries and Design Thinking), MGM

Global Management (Data Science), MGM

Global Management (Digital Audience Strategy), MGM  
 Global Management (Global Affairs), MGM  
 Global Management (Global Business), MGM  
 Global Management (Global Development and Innovation), MGM  
 Global Management (Global Digital Transformation), MGM  
 Global Management (Global Entrepreneurship), MGM  
 Global Management (Global Health Care Delivery), MGM  
 Global Management (Global Legal Studies), MGM  
 Global Management (Integrated Health Care), MGM  
 Global Management (Nonprofit Leadership and Management), MGM  
 Global Management (Public Administration), MGM  
 Global Management (Public Policy), MGM  
 Global Management (Sustainability Solutions), MGM  
 Global Management (Sustainable Tourism), MGM  
 Global Management, MGM  
 Industrial Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, or a minimum Duolingo English score of 105.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or a minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- Admission may be granted with one deficiency in no more than two competency areas (<https://admission.asu.edu/first-year/competency-requirements>). Deficiencies in both math and laboratory science are not acceptable.

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 2.75 for less than 24 transfer hours, and
- satisfy the freshmen admission requirements

Transfer students with more than 24 transferable college credit hours:

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- if Admission Services requires submission of a high school transcript, admission may be granted with one deficiency in no more than two competency areas (<https://admission.asu.edu/first-year/competency-requirements>). Deficiencies in both math and laboratory science are not acceptable.

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/engineering-engineering-management-bse/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESEMGBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will have an ability to function effectively as a member or leader of a team. Graduates will successfully perform work related tasks including establishing goals, work plans, tasks, meets deadlines in order to create a collaborative and inclusive environment that establishes goals, plans, tasks, meets deadlines, and creates a collaborative and inclusive environment. (ABET)
- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics. (ABET)
- Communicate effectively with a range of audiences.(ABET)

**Global Opportunities:**

Global Experience: Students gain valuable experience through study abroad, and with more than 300 Global Education programs (<https://goglobal.asu.edu/>) available they can tailor their experience to their unique interests and skills.

As students learn to thrive in a global environment, they build communications skills, are challenged to adapt and persevere, are exposed to research and internships across the world, and they can increase their professional networks.

Participation in a Global Education program, whether in a foreign country, in the U.S., or online, provides students with heightened cultural competency, which will enhance their resumes and help them stand out in a competitive field.

**Career Opportunities:** An engineering management graduate is prepared to begin a career as a:

- production supervisor
- project management team member or lead
- supply logistics engineer
- system specification and customer relationship management specialist or a similar role

Graduates are ready to progress through successively higher levels of management responsibility.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## Environmental Engineering, BSE (ESEVEBSE)

**Campus:** Tempe

**Program Description:** The BSE program in environmental engineering educates students to become tomorrow's engineers who solve complex environmental problems and design systems at the human, urban and planetary scales.

Environmental engineers are actively involved with the following topics and activities: air quality monitoring and air pollution control technology; analysis of the fate and transport of pollutants; application of sustainable design principles; design and operation of water and wastewater treatment systems; design of hazardous waste containment systems; design of solid waste management systems; remediation of contaminated soil, sediment and water; and water quality, water conservation and water reuse.

In recognition of the interdisciplinary nature of environmental engineering challenges, the degree program incorporates courses from humanities,  
2023-24 Academic Catalog Archive 2076

social sciences, natural sciences, mathematics and engineering. Environmental engineering courses build on strong foundations in chemistry, microbiology, geology, physics and mathematics. Courses cover fundamental engineering concepts applied to environmental processes and environmental engineering design as well as applied learning experiences, including a required internship or research experience and a capstone design course.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Civil, Environmental and Sustainable Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year Admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with more than 24 transferable college credit hours:

Primary

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admissions Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESEVEBSE-null + &college=CES>) to outline a list of

recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) allow students with an open mind to further their understanding of the impact the industrial world has on the environment around the world, and with more than 300 programs available, students can tailor their experience to their unique interests and skill sets.

Whether in a foreign country, in the U.S., or online, students broaden their educational experience, build communication skills, are challenged to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network. Their participation in study abroad demonstrates to employers they can thrive in a global environment, helping them stand out in a competitive industry.

Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates from the environmental engineering program have career opportunities in both the private and public sectors.

Opportunities exist in the private sector in both the consulting and manufacturing industries. The consulting industry is growing as greater environmental awareness and emerging novel pollutants require continual refinement of regulations and environmental system design standards, and the manufacturing industry employs environmental engineers to aid in environmental compliance and eco-efficiency.

In the public sector, municipalities and regulatory agencies require a knowledgeable workforce that understands how public policy can improve human health and ecosystem services through environmental engineering processes.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## **Environmental and Resource Management, BS (TSETMBS)**

**Campus:** Polytechnic

**Program Description:** The BS program in environmental and resource management provides critical scientific, engineering, regulatory and management skills for students who plan to pursue careers in industry, government or nongovernmental organizations, focusing on ensuring the health of engineered and natural ecosystems and mitigating the environmental impact of the industrial world.

The curriculum combines a strong foundation in chemistry, physics, biology and mathematics with a solid grounding in environmental law and policy, engineering and management principles. Students learn to apply environmental technologies to manage engineered environmental operations such as drinking water and wastewater treatment, management of hazardous and solid wastes, and the control of industrial and mobile sources of air pollution. They study OSHA, EPA and DOT regulations on health and safety, as well as strategies to protect workers in hazardous environments. International environmental issues and legal frameworks are included along with U.S. environmental laws.

An accelerated BS/MS degree option is available in which up to 12 credit hours of the bachelor's degree may be applied toward the 30 credit hours required for the master's degree in environmental and resource management. A special application is required for this option.

#### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Environmental and Resource Management (Water Management), MS

Environmental and Resource Management, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSETMBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Evaluate environmental policies and regulations that apply to environmental and resource management.
- Apply management, scientific, and technical solutions to natural and anthropogenic environmental problems.
- Apply sustainable development practices and trends to environmental systems.

**Global Opportunities:**

Global Experience: Study abroad allows students of environmental resource management to further their understanding of the impact the industrial world has on the environment. With an open mind, students further their studies and understanding of the various environmental conditions around the globe.

Students learn to thrive in a global environment through the rich educational and interpersonal experiences inherent in study abroad, and with over 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

A resume enhanced by the valuable study abroad experience will impress prospective employers and it will also help the student stand out should they decide to pursue advanced study.

**Career Opportunities:** Graduates with the skills gained in this program are in high demand and can find work in industry, governmental management and regulatory agencies or in policymaking organizations.

Graduates are firmly grounded in the scientific, technical, and legal problems facing environmental managers in today's business climate. They are prepared to be environmental, health and safety professionals in industrial settings such as manufacturing, mining, oil and gas or environmental engineering consulting firms. They also assure compliance with OSHA and EPA requirements in laboratories at pharmaceutical companies, water and wastewater treatment facilities or academic labs. On the regulatory side, graduates work for agencies such as the U.S. Environmental Protection Agency or state and county departments of environmental quality.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## Graphic Information Technology, BS (TSGITBS)

**Campus:** Polytechnic, Online

**Program Description:** The cross-media nature of the graphics industry requires tomorrow's graduates to understand the full spectrum of visual design and production as well as current business practices.

The BS program in graphic information technology prepares students to become visual design technologists with skills in front-end web design and development, print and digital publishing, commercial photography and video production, and motion graphics and visual effects.

This is an intensive program of study emphasizing theory and hands-on laboratory practice.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Graphic Information Technology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-graphic-information-technology-concentration/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSGITBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Sketch solutions to graphic communications problems utilizing industry-standard workflows.
- Apply individual and collaborative skills to engineer solutions to cross-media challenges.
- Compose written and visual documentation for complex cross-media processes.
- Synthesize content into digital collateral for cross-media output.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire global skills and knowledge in preparation for their chosen career. Students earn ASU credit for completed courses, while staying on track for graduation, and may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graphic information technology prepares graduates for technical and management positions in visual design in such diverse areas as:

- art direction
- commercial photography and video production
- front-end web design and development
- graphic design
- motion graphics and visual effects
- premedia, digital printing and publishing
- print technology
- production management
- quality assurance of graphic and visual design products
- technical and digital media production
- user experience design
- user interface design
- visual design

## Graphic Information Technology (Full-Stack Web Development), BS (ESGITFSWBS)

**Campus:** Polytechnic, Online

**Program Description:** The BS program in graphic information technology with a concentration in full-stack web development focuses on front-end and back-end website and application development. This cross-disciplinary program has a foundation in user-centered design and client-side scripting (HTML, CSS, JS) and extends to server-side programming (PHP, Python, SQL, etc.).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Graphic Information Technology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/web-development-degree/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESGITFSWBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze accepted coding and design techniques to apply the most appropriate to web design and development solutions.
- Demonstrate ability to guide a project through a development cycle using industry-standard tools and techniques.
- Implement individually- and collaboratively-built components into cohesive solutions for web design and development challenges.
- Display ability to build and evaluate effective user interactions in web-based systems.

#### **Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad is possible for all ASU students who wish to acquire global skills and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs. More information on available programs can be found on the Global Education Office website (<https://goglobal.asu.edu/>).

**Career Opportunities:** The future is bright for those with full-stack developer skills. According to the LinkedIn 2020 Emerging Jobs Report, full-stack engineer is number four of the top 15 emerging jobs in 2020 ([https://business.linkedin.com/content/dam/me/business/en-us/talent-solutions/emerging-jobs-report/Emerging\\_Jobs\\_Report\\_U.S.\\_FINAL.pdf](https://business.linkedin.com/content/dam/me/business/en-us/talent-solutions/emerging-jobs-report/Emerging_Jobs_Report_U.S._FINAL.pdf) ([https://business.linkedin.com/content/dam/me/business/en-us/talent-solutions/emerging-jobs-report/Emerging\\_Jobs\\_Report\\_U.S.\\_FINAL.pdf](https://business.linkedin.com/content/dam/me/business/en-us/talent-solutions/emerging-jobs-report/Emerging_Jobs_Report_U.S._FINAL.pdf))).

Since 2015, hiring growth for the full-stack engineer profession has been 35% every year. Indeed ranked full-stack developer as the second best job for 2020, with the percentage of growth from 2018 to 2019 at more than 161% (<https://www.indeed.com/lead/best-jobs-2020> (<https://www.indeed.com/lead/best-jobs-2020>)).

Indeed also listed the top 10 skills for a full-stack developer, nine of which are taught within the full-stack web development concentration curriculum. The program goes beyond these as well, giving students opportunities to learn additional technologies, further preparing them for jobs upon graduation.

Top industries where graduates land include computer software, IT, financial services and higher education. Google, eBay, Verizon, IBM and Capital One are among the top companies hiring full-stack developers (according to Glassdoor at [https://www.glassdoor.com/Explore/browse-companies.htm?overall\\_rating\\_low=3.5&page=1&isHiringSurge=0&occ=Full%20Stack%20Developer](https://www.glassdoor.com/Explore/browse-companies.htm?overall_rating_low=3.5&page=1&isHiringSurge=0&occ=Full%20Stack%20Developer) ([https://www.glassdoor.com/Explore/browse-companies.htm?overall\\_rating\\_low=3.5&page=1&isHiringSurge=0&occ=Full%20Stack%20Developer](https://www.glassdoor.com/Explore/browse-companies.htm?overall_rating_low=3.5&page=1&isHiringSurge=0&occ=Full%20Stack%20Developer))).

## **Graphic Information Technology (User Experience), BS (ESGITUEBS)**

**Campus:** Polytechnic, Online

**Program Description:** The BS program in graphic information technology with a concentration in user experience is designed to provide students with an interdisciplinary foundation in design, research and communication, to prepare them for the rapidly growing area of user experience.

The concentration provides students with a conceptual understanding of methods for gathering user information, applied skills in those methods, analyzing data and communicating through visual design technologies.

Although its disciplinary home and primary focus is graphic information technology, the concentration includes courses from the fields of human systems engineering and technical communication in order to provide students with the multiple perspectives and complementary skills needed for user experience work.

#### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Graphic Information Technology, MS

User Experience, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/graphic-information-technology-user-experience-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESGITUEBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), participation in a Global Education program (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire global skills and knowledge in preparation for their chosen career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graphic information technology graduates who have some expertise in user experience have numerous career opportunities in areas such as user experience research, user-centered design, information design, interaction design, information architecture, content strategy and usability analysis.

**Contact Information:**

## Human Systems Engineering, BS (ESHSEBS)

**Campus:** Polytechnic, Online

**Program Description:** The BS program in human systems engineering provides students with an understanding of the science of human performance and with experience using methods and tools to apply this understanding to design and problem-solving in a wide variety of domains, such as product usability, learning design, sports performance and workplace and hospital safety.

A large array of professions need experts in human factors to work on problems that involve an understanding of human performance, in areas that include user experience, aviation human factors, cognitive performance, consumer psychology, transportation human factors, patient safety, effective teamwork, health psychology, learning optimization, social cognition, threat detection and sports psychology.

The program is offered by the Ira A. Fulton Schools of Engineering.

### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 170 - Precalculus

**Program Math Intensity:** Moderate

### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### **Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Human Systems Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

### **Admission Requirements:**

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad is possible for all ASU students who wish to acquire global skills and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs. More information on available programs can be found on the Global Education Office website (<https://goglobal.asu.edu/>).

**Career Opportunities:** The human systems engineering program prepares students for industry and government careers. Graduates may work as a member of a design team for a product or system in positions such as:

- game designer
- human factors engineer
- human systems integrator
- interface designer
- user experience designer
- usability engineer

**Contact Information:**

## Human Systems Engineering (User Experience), BS (ESHSEUEBS)

**Campus:** Polytechnic, Online

**Program Description:** The user experience skills increasingly valued by industry are not typically covered in traditional psychology or engineering programs. The BS degree program in human systems engineering with a concentration in user experience combines topics in psychology, the web, human factors, visual displays and technical communications to make products and services useful, usable and desirable.

User experience focuses on the design, development and evaluation of products and services that are useful, usable and desirable. The user experience program addresses UX research, design, content development, communication, tone of voice and evaluation of all components and products with which end users interact.

Students learn how to research customer needs, identify criteria for successful products and services, prototype those products and services, and refine them through usability testing and other user-centered methods.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

## Industrial Engineering, BSE (ESIEEBSE)

**Campus:** Tempe

**Program Description:** Industrial engineering pertains to the design, improvement, installation and operation of integrated systems of people, materials, information, equipment and energy with the purpose of determining efficient ways to make a product or provide a service. Industrial engineering draws upon specialized knowledge and skills in the mathematical, physical and social sciences and the principles and methods of engineering analysis and design.

The underlying concepts for the BSE program in industrial engineering include certain business principles but emphasize the use of mathematics and information technology to build models to describe, understand and optimize system performance. Depending on the subspecialties involved and the intended application, industrial engineering may also be known as operations management, management science, operations research, systems engineering or manufacturing engineering.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Data Science), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Integrated Health Care), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM
- Industrial Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, or a minimum Duolingo English score of 105.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or a minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in CSE 110 Principles of Programming, MAT 265 Calculus for Engineers I and MAT 266 Calculus for Engineers II

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESIEEBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- ABET 1: Will demonstrate the ability to identify, formulate and solve complex engineering problems by applying principles of engineering, science and mathematics
- ABET 6: Will demonstrate an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- ABET 7: Will demonstrate the ability to acquire and apply new knowledge as needed, using appropriate learning strategies

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire global skills and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates in industrial engineering are prepared to design and manage systems for a wide range of organizations. They find exciting career opportunities in all types of manufacturing and service industries, including:

- banking and finance
- defense and government
- health care
- hospitality, sports and entertainment
- management consulting
- manufacturing (e.g., aerospace, automotive, semiconductor)
- software industry
- telecommunication
- transportation and logistics

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another

state. For more information, students should visit the ASU professional licensure webpage (<https://admission.asu.edu/academics/licensure>).

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## Informatics, BS (ESCPIBS)

**Campus:** Tempe

**Program Description:** Informatics is about discovering, developing and understanding computer applications that improve people's lives. The BS program in informatics prepares students to become skilled professionals who take a transdisciplinary, user-oriented perspective toward information and computing systems, apply current informatics methods to address society's needs and contribute to the next generation of such systems.

The informatics bachelor's degree program provides an option for students interested in a flexible program in applied information and computing technologies. The program provides skills in design and implementation of computer systems while offering opportunities for building applications used by people in many fields. Students learn to develop software for devices of all sizes, from supercomputers to cell phones and even smaller. The challenges of informatics include designing, developing and applying tools that model, aid or automate activities within science, engineering, business, geography, education and entertainment.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 265 Calculus for Engineers I

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Data Science), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Integrated Health Care), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM
- Robotics and Autonomous Systems (Artificial Intelligence), MS

the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, or a minimum Duolingo English score of 105.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or a minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed.

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class.

Transfer students with more than 24 transferable college credit hours:

Primary Criteria

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed (if Admission Services requires submission of a high school transcript).

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in CPI 101 Introduction to Informatics, CSE 110 Principles of Programming, CSE 205 Object-oriented Programming and Data Structures, and MAT 242 Elementary Linear Algebra

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESCPIBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Master the principles for the usage, design, construction, and evaluation of Informatics systems (ABET target)
- Demonstrate an in-depth understanding and development skill of the Informatics knowledge of the chosen focal area.
- Apply principles of computing and other relevant disciplines to analysis of practical problems and development of solutions.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire global skills and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Informatics careers center on solving problems through the design and creation of information systems, user interfaces, mobile technologies and social media.

Graduates have the ability to develop future information technology solutions that place a strong emphasis on user needs and provide the ability to adapt and change dynamically with society's needs. This makes the informatician a strong candidate for jobs in:

- data analytics
- management consulting firms
- technology research centers
- technology startups

Additionally, they are prepared for graduate programs that offer an emphasis in emerging technologies.

## Information Technology, BS (TSIFTBS)

**Campus:** Polytechnic, Online

**Program Description:** Technology continues to evolve each day. Every organization needs IT professionals to protect their networks, troubleshoot computer systems, develop applications and manage IT projects.

The BS program in information technology covers key disciplines that incorporate emerging technologies, including agile software development, data management and analytics, network administration, cloud computing and cybersecurity.

Students have the opportunity to select technical electives in different interdisciplinary areas. Students learn in a project-driven curriculum with a learn-by-doing approach so they are prepared for careers in information technology.

Accredited by the Computing Accreditation Commission of ABET, <https://www.abet.org/> (<https://www.abet.org/>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus

master's degree with::

Information Technology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-information-technology/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSIFTBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Ability to analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions (ABET)
- Ability to design, implement and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline (ABET)
- Ability to communicate effectively in a variety of professional contexts (ABET)
- Ability to recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles (ABET)
- Ability to function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline (ABET)
- Ability to use systemic approaches to select, develop, apply, integrate and administer secure computing technologies to accomplish user goals (ABET)
- Ability to demonstrate an ability to assist in the creation of an effective project plan (ABET)

#### **Global Opportunities:**

Global Experience: With over 300 programs Global Education program opportunities (<https://goglobal.asu.edu/>) in more than 65 countries available (programs vary in length, from one week to one year), engineering students are able to tailor their experience to their unique interests and skill sets. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** IT careers are growing fast according to the Bureau of Labor Statistics: <https://www.bls.gov/ooh/computer-and-information-technology/home.htm> (<https://www.bls.gov/ooh/computer-and-information-technology/home.htm>). The exciting career path of an IT professional can place graduates in positions around the world, in any industry. Such industries include:

- biomedical
- construction

- defense
- education
- entertainment
- geospatial
- informatics
- sports
- sustainable environments

## Manufacturing Engineering, BS (TSMEGRBS)

**Campus:** Polytechnic

**Program Description:** Successful manufacturing enterprises prosper in the global marketplace through a balance of design, sustainability, quality and production. Manufacturing engineering combines manufacturing processes (e.g., how materials are altered in either shape or properties) and the processes of manufacturing (e.g., design and management of manufacturing systems).

The BS program in manufacturing engineering prepares students to analyze, synthesize and control manufacturing operations using statistical methods; to collaborate across disciplines to design and build automated manufacturing systems for factory operation; to design innovative products and the equipment, tooling and environments necessary for their manufacture; to model, simulate and analyze manufacturing production processes for both small- and large-scale environments; and to provide technological leadership.

The curriculum is project-based, hands-on, teamwork-oriented and delivered in outstanding fabrication facilities. Graduates of this program become key team members who create and implement processes for making such varied products as airplanes, surgical instruments, toys and foodstuffs.

Accredited by the Engineering Accreditation Commission of ABET; <https://www.abet.org> (<https://www.abet.org>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Engineering, MS
- Manufacturing Engineering, MS
- Robotics and Autonomous Systems (Systems Engineering), MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSMEGRBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students learn to thrive in a global environment through the rich educational and interpersonal experiences inherent in study abroad. A resume enhanced by the valuable study abroad experience will impress prospective employers and it will also help the student stand out should they decide to pursue advanced study.

With over 300 Global Education program opportunities (<https://goglobal.asu.edu>) available, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

**Career Opportunities:** Engineers collaborate on transdisciplinary teams to design, manufacture and deliver innovative technological products and services.

Graduates possess the technical skills in tandem with the professional skills of communication, teamwork and collaboration and the self-motivation and adaptability that many employers seek. Graduates are prepared to work in large corporations, government agencies and small businesses as well as to go on to graduate school in pursue advanced degrees. The program's emphasis on open-ended design and project-based learning supports the development of entrepreneurial skills and attitudes, and some students start companies of their own.

Graduates typically work as manufacturing engineers in a variety of companies, large and small. They are often members of design and development teams, cooperating with other people within and outside of their company. Career employment opportunities include direct manufacturing support, manufacturing management, and quality control and assurance. Small and new startup companies value the strong, broad and practical engineering skill set of program graduates. Program graduates are well-placed and command top salaries.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## Materials Science and Engineering, BSE (ESMSEBSE)

**Campus:** Tempe

**Program Description:** Novel materials are tailored to meet the needs of targeted applications and become the foundation for all engineering disciplines. Such materials enable many new technologies and are commonly used in bioengineering and medicine, pharmaceuticals, electronics, optics, architecture and transportation, aviation and aerospace, energy conversion, environmental engineering and numerous industrial systems.

Materials science and engineering is concerned with the discovery, synthesis, processing, manufacturing and characterization of substances within these general classes of materials: sustainable materials, polymers, metals, semiconductors, ceramics and composites. An understanding of the molecular structure and well-designed processing are the keys to engineering materials with outstanding properties for next-generation applications.

Courses in the undergraduate program in materials science and engineering prepare students to discover and design new and better materials that make an impact on and improve people's lives and keep America on the cutting edge of technology.

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org>)

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Materials Science and Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, or a minimum Duolingo English score of 105.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or a minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and

- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

#### Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESMSEBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate integration of relationships of structure-property-performance-processing and apply them to modern engineering problems involving electronic, sustainability, polymeric, ceramic, and other material systems using materials science characterization, computational and statistical methods.
- Solve complex engineering problems by identifying, formulating and applying principles of material science and engineering.
- Develop and conduct appropriate experimentation, by analyzing and interpreting materials characterization or computational datasets, and conduct appropriate experimentation and use engineering judgment to draw scientific and engineering conclusions applicable to modern engineering questions.

#### Global Opportunities:

Global Experience: A study abroad (<https://goglobal.asu.edu/>) experience can equip students with the skills they need to effectively and efficiently work with people anywhere in the world. It grants them the chance to gain an international viewpoint on not only engineering itself, but on being a human in this increasingly global world.

Participation in a Global Education program helps students broaden their own horizons and open up possibilities they may have not known existed. Students gain valuable, resume-enhancing experience when studying abroad, and students stand out in a competitive field with the heightened cultural competency and leadership and critical thinking skills they acquired when studying abroad.

The Ira A. Fulton Schools of Engineering recommends these programs (<https://goglobal.asu.edu/students/major/SEMTE/materials-science-engineering>) for student majoring in materials science and engineering.

**Career Opportunities:** Since materials science and engineering has such wide-scale applications, graduates find jobs in virtually every field, such as aerospace, defense, auto industry, telecommunications, microelectronics, computers, bioengineering, sports, renewable energy, academia and national research labs. They are among the highest paid scientists and engineers.

#### Program education objectives

The materials science and engineering program has the following educational objectives:

- Graduates can solve real-world materials engineering challenges within their organizations by applying the required technical knowledge, skills and critical thinking.
- Graduates will have made demonstrable progress toward a graduate degree or be considered for a technical promotion potentially within three to five years of graduation.
- Graduates can demonstrate professionalism, leadership, lifelong learning, professional development and ability to work in teams, and hold positions of increasing responsibility within their organizations.
- Graduates can demonstrate an ethical approach to their profession including consideration of economic, societal, cultural and environmental impact.

#### Student outcomes

Graduates of materials science and engineering program are expected to have attained the following outcomes:

- an ability to identify, formulate and solve complex engineering problems by applying principles of engineering, science and mathematics

- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety and welfare, as well as global, cultural, social, environmental and economic factors
- an ability to communicate effectively with a range of audiences
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

An additional outcome for ASU materials science and engineering graduates is to demonstrate integration of relationships of structure, properties, processing and performance related to material systems using experimental, computational and statistical methods.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## Mechanical Engineering, BSE (ESMAEMBSE)

**Campus:** Tempe, Online

**Program Description:** Mechanical engineering is a creative, diverse discipline. Mechanical engineers design, build and control the devices, machines, processes and systems that are the mainstay of modern industrialized society.

Students prepare for a career in mechanical engineering through a curriculum that includes the study of the principles governing energy transfer, mechanical design, sensors and control devices and the application of these principles to the creative solution of practical modern problems.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Aerospace Engineering, MS
- Materials Science and Engineering, MS
- Mechanical Engineering, MS
- Modern Energy Production and Sustainable Use, MS
- Robotics and Autonomous Systems (Mechanical and Aerospace Engineering), MS

the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, or a minimum Duolingo English score of 105.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or a minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary or the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer credit hours, and
- minimum GPA of 2.75 in all critical courses: MAE 201, MAE 202, MAE 213 and MAE 241

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-mechanical-engineering/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESMAEMBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply principles of mathematics and science to solve complex engineering problems.

- Apply engineering design to a student project with consideration of public welfare/other factors.
- Develop and conduct engineering experiments, and analyze and interpret data.

### Global Opportunities:

Global Experience: Students gain valuable, resume-enhancing experience when studying abroad (<https://goglobal.asu.edu/>). With over 300 programs available, study abroad allows students to tailor their experience to their unique interests and skill sets. Students in mechanical engineering are able to gain hands-on experience in a variety of countries around the world. In a competitive field, students stand out with the heightened cultural competency and leadership and critical thinking skills they acquired when studying abroad.

The Ira A. Fulton Schools of Engineering recommends these programs (<https://goglobal.asu.edu/students/major/SEMTE/mechanical-engineering>) for student majoring in mechanical engineering.

**Career Opportunities:** Mechanical engineers are employed in virtually every kind of industry. They are involved in seeking new knowledge through research; generating creative design and development; and in the production, control, management and sales of the devices and systems needed by society. Therefore, a major strength of a mechanical engineering education is the flexibility it provides in future employment opportunities for its graduates.

The BSE program in mechanical engineering has the following program educational objectives:

Through activities such as volunteering, entrepreneurial endeavors, community service, and their employment, graduates of the mechanical engineering program demonstrate commitment to the Sun Devil ideals of global engagement, social embeddedness, social transformation and sustainability.

Graduates of the mechanical engineering program should have attained one or more of the following objectives within a few years after earning their degree:

- employment in engineering or other fields in a position that capitalizes on the skills and abilities gained through the degree program in mechanical engineering (holding positions of increasing responsibility and leadership within their organizations)
- admission into a graduate degree program in mechanical engineering or other technical field
- admission into a professional degree program, such as law, business or medicine, in accordance with the specific interests and abilities of the graduate

Graduates of the mechanical engineering program are expected to attain the following outcomes:

- an ability to identify, formulate and solve complex engineering problems by applying principles of engineering, science and mathematics
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors
- an ability to communicate effectively with a range of audiences
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks and meet objectives
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

## Mechanical Engineering (Computational Mechanics), BSE (ESMAECBSE)

**Campus:** Tempe

**Program Description:** The concentration in computational mechanics under the BSE program in mechanical engineering teaches students the modern computational tools available for solving large-scale and complex technical problems. The curriculum focuses on high-performance

computing and the accurate modeling of large and small scale systems.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Aerospace Engineering, MS
- Materials Science and Engineering, MS
- Mechanical Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, or a minimum Duolingo English score of 105.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or a minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary or the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer credit hours, and

- minimum GPA of 2.75 in all critical courses: MAE 201, MAE 202, MAE 213 and MAE 241.

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESMAECBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply principles of mathematics and science to solve complex engineering problems.
- Apply engineering design to student project with consideration of public welfare/other factors.
- Develop and conduct engineering experiments, and analyze and interpret data.

#### **Global Opportunities:**

Global Experience: Students gain valuable, resume-enhancing experience when studying abroad (<https://goglobal.asu.edu/>). With over 300 programs available, study abroad allows students to tailor their experience to their unique interests and skill sets. Students focusing on computational mechanics are able to gain hands-on experience in a variety of countries around the world. In a competitive field, students stand out with the heightened cultural competency and leadership and critical thinking skills they acquired through their study abroad opportunity.

Ira A. Fulton Schools of Engineering recommends these programs (<https://goglobal.asu.edu/students/major/SEMTE/mechanical-engineering>) for student majoring in mechanical engineering with a concentration in computational mechanics.

**Career Opportunities:** As mathematical and numerical modeling takes on a much larger role in product development, graduates who are highly skilled in computational and mathematical engineering will be in high demand.

Mechanical engineers are employed in virtually every kind of industry. They are involved in seeking new knowledge through research; generating creative design and development; and in the production, control, management and sales of the devices and systems needed by society. Therefore, a major strength of a mechanical engineering education is the flexibility it provides in future employment opportunities for its graduates.

The mechanical engineering program has the following program educational objectives:

Through activities such as volunteering, entrepreneurial endeavors, community service, and their employment, graduates of the mechanical engineering program will demonstrate commitment to the Sun Devil ideals of global engagement, social embeddedness, social transformation and sustainability.

Graduates of the mechanical engineering program should have attained one or more of the following objectives within a few years after earning their degree:

- employment in engineering or other fields in a position that capitalizes on the skills and abilities gained through the degree program in mechanical engineering (holding positions of increasing responsibility and leadership within their organizations)
- admission into a graduate degree program in mechanical engineering or other technical field
- admission into a professional degree program, such as law, business or medicine, in accordance with the specific interests and abilities of the graduate

Graduates of the mechanical engineering program are expected to attain the following outcomes:

- an ability to identify, formulate and solve complex engineering problems by applying principles of engineering, science and mathematics
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors
- an ability to communicate effectively with a range of audiences
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks and meet objectives
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions

- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

**Contact Information:**

## Mechanical Engineering (Energy and Environment), BSE (ESMAEEBSE)

**Campus:** Tempe

**Program Description:** The concentration in energy and environment within the BSE program in mechanical engineering is designed to prepare students to analyze technical problems in:

- air pollution
- climate change
- energy efficiency
- environmental sustainability
- renewable energy
- timely issues facing the global community

Although the primary focus of this program is technical, the general education courses in the areas of the humanities and social and behavioral sciences introduce students to the global, political and societal issues relating to energy and the environment.

By focusing on issues such as air pollution, water scarcity and the lack of alternative transportation, graduates from the program are attractive to employers in the greater Phoenix area as well as nationwide.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Aerospace Engineering, MS  
Materials Science and Engineering, MS  
Mechanical Engineering, MS  
Modern Energy Production and Sustainable Use, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, or a minimum Duolingo English score of 105.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or a minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary or the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer credit hours, and
- minimum GPA of 2.75 in all critical courses: MAE 201, MAE 202, MAE 213 and MAE 241.

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. ## Software Engineering, BS (TSSERBS)

**Campus:** Polytechnic, Online

**Program Description:** The BS program in software engineering blends engineering, computing, project leadership and software construction.

Students learn how to make creative software solutions to today's problems. Software systems are complex, often including millions of lines of code. Graduates of the bachelor's degree program in software engineering possess the knowledge and skills of a defined engineering approach to complex systems analysis, planning, design and construction.

The program has a unique, project-driven curriculum, establishing a new model for software engineering education. The program is built around the concepts of engaged learning, discovery-based education and learn-by-doing. Students learn by solving engaging projects, commonly as a member of a development team. In every semester of the program, students complete projects that provide emphasis in communication, teamwork, critical thinking and professionalism. They have flexibility in designing their course of study, selecting technical electives from a pool of courses in different

software engineering application areas such as web and mobile applications, embedded systems and other interdisciplinary areas.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Computer Science (Big Data Systems), MCS
- Computer Science (Cybersecurity), MCS
- Computer Science, MCS
- Robotics and Autonomous Systems (Artificial Intelligence), MS
- Software Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, or a minimum Duolingo English score of 105.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or a minimum high school cumulative GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- Admission may be granted with one deficiency in no more than two competency areas (<https://admission.asu.edu/first-year/competency-requirements>). Deficiencies in both math and laboratory science are not acceptable.

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 2.75 for less than 24 transfer hours, and
- satisfy the freshmen admission requirements

Transfer students with more than 24 transferable college credit hours:

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and

- If Admission Services requires submission of a high school transcript, admission may be granted with one deficiency in no more than two competency areas (<https://admission.asu.edu/first-year/competency-requirements>). Deficiencies in both math and laboratory science are not acceptable.

**Change of Major Requirements:** Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-software-engineering/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSSERBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics (ABET 1)
- Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors. (ABET 2)
- Use the techniques, skills, and modern engineering tools and processes necessary for software engineering practice. (ABET-SER1)

**Global Opportunities:**

Global Experience: Students in software engineering gain valuable hands-on experience when studying abroad, experience which enhances their resumes. With more than 300 programs available in a variety of countries around the world, study abroad allows students to tailor their experience to their unique interests and skill sets. In a competitive field, students stand out with the heightened cultural competency and the leadership and critical thinking skills they achieved when studying abroad. More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** Software engineers solve a broad set of transdisciplinary problems and apply new technologies to improve the quality of life.

Graduates are prepared for advanced study in computing or an allied field or to enter the computing profession, most commonly as application software engineers. They design and engineer innovative systems that may include mechanical and electrical components that interact with software.

According to the Bureau of Labor Statistics, software engineers are highly paid, and there is significant growth in the number of employment opportunities. Some software engineering jobs may include:

- creating applications for mobile devices
- creating web applications
- designing, creating and validating software for avionics, robotics and similar systems fields

## Technological Entrepreneurship and Management, BS (TSTEMBS)

**Campus:** Polytechnic, Online

**Program Description:** The BS program in technological entrepreneurship and management brings a STEAM (science, technology, engineering, arts and mathematics) focus to coursework in order to prepare students to address social and corporate issues that can impact and change the world. Students learn to create, launch and improve technology-based products, services and ventures, and identify and solve open-ended problems using engineering and technological approaches.

After completing this program, students should be able to demonstrate the ability to identify, analyze and synthesize information to address and solve use-inspired, open-ended problems, assessing their impact on social, cultural and economic environments; formulate methodologies to advance the knowledge of entrepreneurship and innovation; launch technology-based products and services from idea generation through actualization; use quantitative and qualitative methods to demonstrate continuous improvement of products, services and processes; and utilize a systems approach for the effective design and improvement of entrepreneurial and innovation ventures.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus

**Program Math Intensity:** Moderate

### Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Applied Leadership and Management, MALM
- Global Management, MGM
- Global Technology and Development, MS
- Leadership and Management, MLM
- Technology (Management of Technology), MSTech

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSTEMBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Implement venture management of technology, management of processes, and management of human capital.
- Demonstrate proficiency in collaborating with diverse team members through a professional team presentation that conveys innovation improvements for businesses or organizations.
- Apply systems thinking, data-driven decision making, and research to optimize decision(s) to solve complex problems for a variety of industries/organizations.
- Demonstrate proficiency in critical thinking by developing a strategic management plan that includes analysis of issues, assumptions, evidence, and implications.
- Demonstrate proficiency in navigating the intersection of technology management and engineering through management of a creative engineering solution to innovate a new product or process.

#### **Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad is possible for all ASU students who wish to acquire global skills and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs. More information on available programs can be found on the Global Education Office website (<https://goglobal.asu.edu/>).

**Career Opportunities:** Graduates of the technological entrepreneurship and management program possess a range of skills that are needed in order to develop and innovate products and services that meet corporate and social demands.

Graduates are prepared for a wide variety of career possibilities, including technology-based entrepreneurship, product development, consulting, venture capital analysis, business development, market analysis and technology marketing.

## **Global Futures, College of**

### **Applied Mathematics for the Life and Social Sciences, BS (LAAMLBS)**

**Campus:** Tempe

**Program Description:** The BS in applied mathematics for the life and social sciences is unlike any other math program. It offers a novel approach to investigating, integrating and solving problems in the physical, life and social sciences in such topics as mass violence, contagion, wildlife-human interactions and the transmission of behaviors through influence.

Degree seekers in this program are immersed in the use of mathematical theory, modeling and computational methods while collaborating with and contributing to diverse fields such as anthropology, global health and environmental social science.

The insights and skills gained allow graduates to confidently create accurate, versatile and practical answers desperately needed in order to improve or remedy real-life issues.

#### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 270 - Calculus w/Analytic Geometry I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAAMLBS~null + &college=CGF>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students studying applied mathematics can gain valuable experience through study abroad opportunities (<https://goglobal.asu.edu/>) that enhance their overall college experience and prepare them for careers upon graduation. The wide range of faculty-directed study abroad programs are designed to connect students with real life issues that impact local communities yet transect borders.

Graduates who possess the heightened cultural competency and leadership and critical thinking skills acquired through study abroad may stand out in a competitive field.

**Career Opportunities:** Graduates of the program possess the quantitative, scientific and analytical skills that are critical for professionals working in the environmental, life, health, mathematical and social science fields. Nationally recognized experts ensure graduates are well equipped for prestigious career paths in government, medicine, technology, security or other fields requiring rigorous data analysis, with an insight into human behavior.

The need for scientists and professionals quantitatively trained in the life and social sciences is strong in Arizona and the nation. This program's applied use of mathematics, modeling, statistics and simulation methodologies are in high demand and provide excellent training for future academics and professionals in industries including:

- bioinformatics
- computational sciences
- ecology
- genomics
- data mining
- mathematical analysis
- mathematical epidemiology
- nonlinear dynamics
- population dynamics
- social science

WCPH 4th floor

## Innovation in Society, BA (FIFISBA)

**Campus:** Tempe, Online

**Program Description:** The BA program in innovation in society is designed to help students cultivate the critical thinking skills needed for developing creative strategies that steer innovations toward the needs and values of society.

Students are trained to synthesize research and theory from the social sciences, humanities, natural sciences and engineering so they can develop proposals for how to build better futures for people and communities around the globe.

No single discipline is able to solve the complex problems society faces today. Science and engineering can help to further values such as health, economic prosperity, security, justice, peace, sustainability, privacy and happiness. But innovations need to be developed and deployed carefully and with an understanding of a global context that includes corporations, governments, infrastructure and people.

Students in this major learn to consider the implications of technology before it is deployed and to understand the big picture so that they can bring together the pieces needed to form a successful strategy. Classes include extensive use of interactive activities and projects.

The program is specifically tailored for students with a background or interest in the humanities and the artistic side of innovation who want to play a pivotal role in bringing different disciplines together to solve the world's most difficult problems.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** MAT 142 - College Mathematics or any math course that meets the MA designation.

**Program Math Intensity:** General

### Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Technology and Development, MS

Public Interest Technology, MS

Science and Technology Policy, MSTP

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/innovation-in-society-bachelor-of-arts/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FIFISBA-null + &college=CGF>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze and deconstruct complex social, technological, legal, ethical and social justice issues using multiple strategies.
- Apply foresight methods to assess emerging trends and plausible futures.
- Design creative strategies to address current societal and technological challenges.

**Global Opportunities:**

Global Experience: New innovations impact lives around the world. Global Education (<https://goglobal.asu.edu/>) expands students' knowledge of different places, cultures and people; enhances research experience; and challenges students to persevere in unfamiliar circumstances. With more than 300 options available, students can tailor their experience to their unique interests and skill sets. Whether it's in a foreign country, in the U.S. or online, students studying innovation in society are able to expand their knowledge of different places and gain important perspectives from different peoples and cultures.

The School for the Future of Innovation in Society recommends these programs (<https://goglobal.asu.edu/students/major/innovation-society>) for students majoring in innovation in society.

**Career Opportunities:** The rapid advances in science and technology are providing opportunities and challenges for employers around the world. Corporations, government agencies and nonprofits need people who are equipped to understand what those changes mean for the organization's goals and operations. There is a need for people who understand how innovation happens, who have the analytical skills to deal with complex challenges, and who can develop effective strategies and policies that will guide change.

Graduates of this program have the skills that enable them to work collaboratively with experts from a variety of backgrounds in a variety of sectors to provide problem-solving, analysis, quality assurance, future planning, technology assessment, and communication and facilitation on issues related to innovation in science and technology.

Graduates are well prepared for careers in the tech sector, nonprofits, government and the arts. They are also prepared for advanced education (e.g., law, MBA, policy, social work, global development) and graduate research across a variety of disciplines.

From the School for the Future of Innovation in Society's 2021 alumni employment survey, 83% of undergraduate alumni that responded are either employed or pursuing continuing education. Of those respondents employed, 60% have jobs directly related to their degree. Students can seek additional employment data from our alumni by visiting the College of Global Futures careers site (<https://collegeofglobalfutures.asu.edu/careers/employment-data/>).

## Sustainability, BA (SUSUSTBA)

**Campus:** Tempe, Online

**Program Description:** Students in ASU's School of Sustainability are rethinking and reinventing the future of a world at risk. The school's programs encourage experiential learning, study abroad, research with faculty, community engagement and leadership development. The knowledge and solutions created today will shape the social and environmental quality of life for future generations.

The School of Sustainability offers two degrees in sustainability: a BA and a BS. Both programs introduce students to the concept of sustainability in the context of real-world challenges and focus on developing practical solutions and interventions to some of the most pressing environmental, economic and social challenges of sustainability. Students learn to approach challenges with consideration of complex adaptive systems and resilience, interconnections and cascading effects across scales, management of trade-offs, ethics and values, stakeholder engagement, future visioning and scenario typologies for transitioning systems, and other cutting-edge frameworks.

The Bachelor of Arts is geared toward students interested in the social and human aspects of sustainability in global, regional and local contexts such as international development and sustainability, policy and governance in sustainable systems, society and sustainability, and sustainable urban dynamics.

Students may find more information about opportunities within the School of Sustainability at these sites:

Study abroad (<https://collegeofglobalfutures.asu.edu/student-life/study-abroad/>)

Research (<https://schoolofsustainability.asu.edu/student-life/student-research/>)

Student clubs and organizations (<https://schoolofsustainability.asu.edu/student-life/campus-experience/student-sustainability-clubs-organizations>)

Internships (<https://schoolofsustainability.asu.edu/student-life/sustainability-internships-opportunities>)

Mentorship (<https://schoolofsustainability.asu.edu/student-life/mentorship-opportunities>)

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website.

The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** SOS 101 - Intro Appl Math Life & Soc Sci

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Global Management, MGM

Sustainability Solutions, MSUS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Transfer Admission Requirements: Transfer students, those with 12 or more transfer credit hours after high school graduation, are required to have a cumulative transfer GPA of 3.00 or higher. The School of Sustainability reviews transfer applications that fall below this GPA level on an individual basis.

**Change of Major Requirements:** ASU students who would like to change their major to sustainability are required to have a minimum cumulative ASU GPA of 3.00, based on at least 12 credit hours of ASU coursework.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-sustainability/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=SUSUSTBA~null + &college=CGF>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), participation in a Global Education program (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

The College of Global Futures recommends these programs (<https://goglobal.asu.edu/students/major/sustainability>) for students majoring in

sustainability.

**Career Opportunities:** Recent interest in sustainability within business and government has created new employment opportunities (e.g., sustainability coordinators, directors and managers). Of undergraduate alumni who have shared their experiences with the school, 92% are either employed in sectors such as those listed above or have gone on to a graduate program. Of those employed, 66% have jobs directly related to sustainability. Students can seek additional employment data from program alumni by visiting the College of Global Futures careers site (<https://collegeofglobalfutures.asu.edu/careers/employment-data/>).

Those with a Bachelor of Arts in sustainability offer employers and graduate programs an integrated approach to developing solutions to sustainability challenges. They understand the complexity of systems, have engaged in a range of knowledge and experience from different disciplinary perspectives, and understand the importance of planning for the future and how to engage stakeholders in that process. Graduates of the program are adaptable and prepared for a changing world.

In addition to going on to graduate school, graduates of the program are qualified for well-paying positions in:

- consultancy
- government
- intergovernmental organizations
- international development
- management
- municipalities
- nongovernmental organizations
- nonprofits
- policymaking enterprises
- regulatory agencies
- utilities

The College of Global Futures recommends these programs (<https://goglobal.asu.edu/students/major/sustainability>) for students majoring in sustainability.

**Career Opportunities:** Recent interest in sustainability within business and government has created new employment opportunities (e.g., sustainability coordinators, directors and managers). Students can seek additional employment data from our alumni by visiting the College of Global Futures careers site (<https://collegeofglobalfutures.asu.edu/careers/employment-data/>). Of undergraduate alumni who have shared their experiences with the school, 92% are either employed in sectors such as those listed above or have gone on to a graduate program. Of those employed, 66% have jobs directly related to sustainability.

Those with a Bachelor of Science in sustainability offer employers and graduate programs an integrated approach to developing solutions to sustainability challenges. They understand the complexity of systems, have engaged in a range of knowledge and experience from different disciplinary perspectives, and understand the importance of planning for the future and how to engage stakeholders in that process. Graduates of the program are adaptable and prepared for a changing world.

In addition to going on to graduate school, graduates of the program are qualified for well paying positions in:

- business
- consultancy
- government and intergovernmental organizations
- international development
- natural resource management (including land, energy, waste and water management)
- nongovernmental organizations and nonprofits
- policymaking enterprises
- regulatory agencies and utilities

## Sustainable Food Systems, BS (SUSFOSYSBS)

**Campus:** Downtown Phoenix, Polytechnic, Tempe, Online

**Program Description:** The BS program in sustainable food systems trains students to understand food-related challenges using a food systems lens which encompasses the many aspects of food and agriculture within an integrated social and environmental context and empowers them to grapple with real-life complexities. Students become effective agents of change.

Coursework covers a wide range of topics, such as nutrition science, agricultural production, economics and social justice. Students are encouraged to select electives that build upon core sustainable food systems coursework.

Students are engaged in an active community collectively working to achieve the 2030 United Nations Sustainable Development Goals. Beyond the core subject matter and skills courses, the degree requirements include an internship, a chosen focus area and a culminating project-based course, all of which provide students in-depth knowledge of a food-related subfield and ample preparation for exciting careers.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** SOS 101 - Intro Appl Math Life & Soc Sci

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Admission Requirements: Transfer students, those with 12 or more transfer credit hours after high school graduation, are required to have a cumulative transfer GPA of 3.00 or higher. The School of Sustainability reviews transfer applications that fall below this GPA level on an individual basis.

Students with more than 45 transfer credit hours who are not admissible to the School of Sustainability or the second major choice will be contacted to select an appropriate major.

**Change of Major Requirements:** ASU students who would like to change their major to sustainable food systems are required to have a minimum cumulative ASU GPA of 3.00, based on at least 12 credit hours of ASU coursework.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/sustainable-food-systems/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=SUSFOSYSBS-null + &college=CGF>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

The School of Sustainability recommends these programs (<https://goglobal.asu.edu/students/major/sustainability>) for students majoring in sustainable food systems.

**Career Opportunities:** Graduates have a broad understanding of sustainable food systems and are prepared for pursuing careers in areas such as:

- agricultural development, poverty alleviation and emerging markets
- food entrepreneurship and innovation, marketing and agribusiness
- food literacy
- improved public health through food
- managing natural resources for food production
- public policy, governance and grassroots organizing
- sustainable food procurement

continuing education. Of those employed, 66% have jobs directly related to sustainability. Students can seek additional employment data from program alumni by visiting the College of Global Futures careers site (<https://collegeofglobalfutures.asu.edu/careers/employment-data/>). Because the sustainable food systems program just launched in Fall 2019, the school currently does not have alumni employment data for this specific degree.

## Global Management, Thunderbird School of

### Global Management, BGM (TBTGMBGM)

**Campus:** West, Online

**Program Description:** The BGM program prepares students to take on leadership roles in multinational corporations, government agencies or nongovernmental organizations. Thunderbird's elite faculty and strong relationships with global enterprises allow students to develop and hone the skills needed to thrive as leaders in today's globally interconnected economy. Students gain experience and develop skills that international companies, governments and nonprofit entities value highly in employees.

The program offers two tracks: the international business, language and culture track in which two years of foreign language is required; and the international business and culture track in which there is no foreign language requirement and more emphasis on management-related courses. Students who select the foreign language track may complete coursework in a variety of languages. The international business, language and culture track is offered to on-campus students only. Online students may pursue only the international business and culture track.

Everyone in the program has the opportunity to explore the politics, cultures and economics of different countries around the world while putting the skills they have learned into practice in real-world settings through a required international internship. Although students are strongly encouraged to pursue internships outside their home country, they may also satisfy this requirement by doing a local internship with an international component.

Students often choose to apply their electives toward a minor or certificate offered by another department. This allows the student to specialize in a second area of interest that complements their major. These could include areas such as communications, cyber security, data analytics, digital media, languages, nonprofit leadership, political science, psychology, public relations, risk management, sales and marketing, and sustainability. The minor and certificate search can be found in the online catalog (<https://catalog.asu.edu/minors>).

Bachelor of Global Management students also complete a senior capstone project that draws on the unique skills they have developed throughout the program. In the capstone project, students work together in consulting teams to provide recommendations for a global organization on a challenge it faces internationally. The internship and the capstone project allow students to demonstrate their skills and work experience for potential employers as part of their professional development plan.

This truly global program provides global career opportunities around the world, global courses taught by outstanding Thunderbird graduate school faculty, and preparation for graduates to thrive in today's complex and dynamic global job market. Thunderbird School of Global Management has produced unique leaders for 75 years, agents of change in every sector who are capable of tackling the world's greatest challenges. The network of alumni, known as T-birds, comprises 45,000 graduates and 170 chapters around the globe.

Thunderbird's Bachelor of Global Management is also offered in a flexible online format. Students should visit the ASU Online website (<https://asuonline.asu.edu/online-degree-programs/undergraduate/global-management-bgm/>) for more information.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** MAT 117 - College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus

master's degree with::

Applied Leadership and Management, MALM  
Communication Studies, MA  
Global Management (Creative Industries and Design Thinking), MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** Current ASU students who would like to change their major to global management must have a minimum cumulative GPA of 2.00.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/global-management-bgm/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TBTGMBGM-null + &college=CTB>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate the ability to explain complex global issues concisely.
- Demonstrate in-depth knowledge of at least one region of the world.
- Demonstrate enhanced ability in Global Entrepreneurship.

**Global Opportunities:**

Global Experience: As globalization continues to impact the way people live and work, international experiences have become vital to success in every field of business, especially global management.

Through international study and internships, students gain skills employers value highly, including communication and interpersonal skills, flexibility, motivation and a global perspective on business applications worldwide. Completing their required Thunderbird internship abroad positions students to thrive in leadership roles globally upon graduation.

More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** The global economy continues to face volatility and disruption as it expands, contracts and interconnects. Due in part to this, demand for specialists with a global mindset is rapidly increasing.

Graduates of the Bachelor of Global Management program can thrive in leadership roles in the following fields:

- consulting
- entrepreneurship
- foreign service
- global marketing
- human resources

Career opportunities include:

- chief sustainability officer
- compliance manager
- country manager
- foreign service officer
- general manager
- global entrepreneur
- international marketing manager
- international sales manager
- manager of a nonprofit organization
- regulatory affairs manager

## International Trade, BS (TBINTRABS)

**Campus:** West, Online

**Program Description:** Thunderbird's STEM-designated BS program in international trade provides rigorous training for a career in global commerce.\*

The Bachelor of Science in international trade provides talented, driven students with the exposure to the global business environment that will distinguish them in the workforce. Students learn the functional disciplines of international business while gaining an in-depth understanding of the political, cultural and economic aspects of doing business on a global scale and in international markets in which government regulations vary widely from country to country.

Supported by Thunderbird's training that builds a global mindset, students gain tools for managing supply chains, systematically assessing risk, exporting and importing goods and services, and using economic agreements to develop effective strategies for conducting international trade.

This program is unique in allowing students to learn new skills needed for a career in international trade through comprehensive, hands-on training and in applying these skills during a local, national or international internship. Along with real-world learning experiences that open up global career opportunities, students attend courses taught by outstanding Thunderbird graduate school faculty and enjoy unique opportunities to learn from fellow students from around the world.

Graduates of this program possess the intercultural skills and global mindset needed to do business or take on a leadership role in any part of the

world. Employers hire Bachelor of Science in international trade graduates for their proven ability to develop effective strategies for international trade and exporting goods and services.

Thunderbird graduates join a renowned global network of Thunderbird alumni working in all parts of the world, in all industries and sectors. T-birds make a difference everywhere they go, and their careers can take them anywhere.

Thunderbird's Bachelor of Science in International Trade is also offered in a flexible online format. Students should see the ASU Online website (<https://asuonline.asu.edu/online-degree-programs/undergraduate/international-trade-bs/>) for more information.

\*As a bonus for international students, this program meets special F-1 international student status requirements. This means that international students who graduate with the Bachelor of Science in international trade degree qualify for a 24-month extension to their Optional Practical Training in the United States beyond the 12 months already provided to international students in non-STEM degrees.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

- Demonstrate the ability to explain complex global issues concisely.
  
- Demonstrate in-depth knowledge of at least one region of the world.
- Demonstrate enhanced knowledge of International Trade.

**Global Opportunities:**

Global Experience: As globalization continues to impact the way people live and work, international experiences have become vital to success in every field of business, especially international trade. Through international study and internships, students gain valuable skills employers are looking for, including communication and interpersonal skills, flexibility, motivation and a global perspective on how international trade functions worldwide. More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** In the increasingly globalized economy, the dramatic expansion of international trade has created tremendous opportunities for global business, and Thunderbird's Bachelor of Science in international trade prepares students for a career in this growing field in which skilled managers are in demand all over the world. Trained negotiators with a strong grasp of economics and politics on an international level are more valuable than ever to employers operating across borders.

Thunderbird's rigorous curriculum and renowned faculty prepare students for a leadership position in a wide range of career fields. Students in this program master a repertoire of globally transferable skills that open doors to an abundance of opportunities such as:

- commodities broker
- compliance manager
- financial risk specialist
- import and export agent
- international business development manager
- international market analyst
- international product or brand manager
- regional manager

## Health Solutions, College of

### Applied Science (Food and Nutrition Entrepreneurship), BAS (ECNTRBAS)

**Campus:** Downtown Phoenix, Online

**Program Description:** The BAS degree program with a concentration in food and nutrition entrepreneurship complements and enhances the educational preparation of students holding an AAS degree in culinary or hospitality science, diet technology or sustainable food systems.

The program encompasses important areas of knowledge and skills for future nutrition entrepreneurs and for those continuing in the food industry, whether they intend to innovate within an organization, launch a food- or nutrition-related business or continue into a management role. Key topics include how to develop an online presence supported by evidence-based principles through social media, blogging, podcasting and video; how to launch nutritionally sound startups and businesses; and how to market and manage a business.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Additional Requirements:** Students applying to this program must have completed an Associate of Applied Science degree. This program is not available to first-year students.

**Change of Major Requirements:** Only students who have completed an Associate of Applied Science degree are eligible to declare Bachelor of Applied Science majors at ASU.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/applied-science-nutrition/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ECNTRBAS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Communicate evidence-based food and nutrition information and basic food science information in oral and written form.
- Develop a menu applying knowledge of food and nutrition and utilize leadership and communication skills working in the field.
- Apply the principles of food management and systems in the provision of food and nutrition services to individuals and organizations.
- Identify and explain improvements in a culinary workplace using the tenets of food safety.

#### **Global Opportunities:**

Global Experience: Food is at the center of culture. Studying abroad (<https://goglobal.asu.edu/>) helps students gain a deeper understanding of how food and culture intertwine, and they learn how to communicate nutritional and sanitary standards to a diverse audience.

Students' resumes are enhanced with the heightened communication, cultural competency and critical thinking skills they acquired through study abroad.

The College of Health Solutions recommends these study abroad programs (<https://goglobal.asu.edu/students/major/chs/nutrition>) for students majoring in nutrition.

**Career Opportunities:** Graduates are prepared for careers in food production, service, management and marketing. With additional education or professional training, they may also become credentialed as:

- certified dietary managers
- registered sanitarians
- school food service and nutrition specialists

## **Applied Science (Health Sciences), BAS (NUHSCBAS)**

**Campus:** Downtown Phoenix, Polytechnic, West, ASU at Yavapai, Online

**Program Description:** The BAS degree program allows students who have an applicable AAS degree from an accredited institution to transfer 60 credit hours toward a bachelor's degree at ASU. The Bachelor of Applied Science program with a concentration in health sciences is for students entering the health and health care workforce at a variety of levels.

Students in the program learn about health care systems and how these systems are financed and structured. Leadership and professionalism are highlighted, along with the role of providers in delivering evidence-based care. Students develop ethical and effective communication skills, analyze today's challenges and develop innovative solutions that prepare them for careers in the health care workforce.

#### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website.

The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

#### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Additional Requirements:** Students applying to this program must have completed an AAS degree. This program is not available to first-year students.

**Transfer Admission Requirements:** The BAS program is specifically for those who have earned an Associate of Applied Science degree from a regionally accredited institution. Students pursuing this degree may have more than 60 credit hours to complete in order to obtain their Bachelor of Applied Science upon transfer to ASU. In completing the bachelor's degree program, students fulfill all ASU graduation requirements.

**Change of Major Requirements:** Only students who have earned an Associate of Applied Science are eligible to change their majors to this degree program.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Attend Online:**

**ASU Online:** ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-applied-science-health-sciences/>) for program descriptions and to request more information.

**ASU Local:** It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NUHSCBAS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

**Global Experience:** With more than 300 programs available, study abroad allows students to tailor their experience to their unique interests and skill sets. Students in health sciences are able to expand their knowledge of how health care impacts society in a variety of cultures and experience new and unique health environments across the globe. The valuable experience they acquire while studying abroad enhances students' resumes.

More information on available programs can be found on the Global Education Office website (<https://goglobal.asu.edu/>).

**Career Opportunities:** Graduates can return to their original area of expertise in allied health (i.e., radiology, nuclear imaging) and qualify for a managerial position, be an educator or instructor within their field of expertise, or qualify for a higher-grade position within their current place of employment.

Other career options include positions such as:

- elder services program coordinator
- health and patient educator
- health maintenance organization or insurance company client coach
- Healthy Start coordinator
- home health care coordinator
- long-term care health and wellness coordinator
- school health and program specialist
- Women, Infants, and Children (WIC) and community nutrition aide

## **Applied Science (Medical Laboratory Science), BAS (NUMLSBAS)**

**Campus:** Downtown Phoenix

**Program Description:** The BAS program with a concentration in medical laboratory sciences provides the academic knowledge and professional skills that enable students to perform analytical tests on blood, tissue and body fluids in order to provide laboratory information for the detection, diagnosis and treatment of human diseases. Students learn to work independently using skills and knowledge that are greater in depth and breadth compared to those of medical laboratory technicians, who typically are graduates of a two-year or community college program.

The program is accredited by the National Accrediting Agency for Clinical Laboratory Science, 5600 N. River Rd, Suite 720, Rosemont, IL 60018, <https://www.naacls.org/> (<https://www.naacls.org/>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Only students who have been admitted through Phoenix College and who have completed the prerequisite coursework, verified by the program director or program advisor, are eligible to apply to this program. The following requirements are a part of the application process and are included in the separate program application, released to those who are considered eligible during a specified application cycle:

- Gain admission to Phoenix College.

Complete the program application, which should include:

- student information
- coursework
- immunizations
- proof of basic life support or CPR certification
- fingerprint clearance card
- health declaration
- experience in medical laboratory sciences
- employment observation verification
- references
- Review and sign the checklist.

Submit the materials to:

CHS Student Services

Mail Code 9020 ATTN: MDL Program

Arizona State University

500 N 3rd St

Phoenix AZ 85004

- Apply to Arizona State University.

**Change of Major Requirements:** Only students who have completed an Associate of Applied Science degree are eligible to declare a Bachelor of Applied Science major at ASU.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NUMLSBAS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs. More information on available programs can be found on the Global Education Office (<https://goglobal.asu.edu/>) website.

**Career Opportunities:** The graduate with a Bachelor of Applied Science degree in medical laboratory sciences is able to advance their employment opportunities within the fields of medical technology, cytology, clinical laboratory science and related areas.

The Bureau of Labor Statistics reports that overall employment of medical laboratory scientists is projected to grow 11% between 2018 and 2028. This is much faster than the average for most occupations. As the overall population ages, there will be more demand for trained laboratory personnel to aid in the diagnosis of disease and to help manage medical conditions.

The majority of medical laboratory scientists and technologists work in hospital laboratories and major reference laboratories. In addition, there is a growing trend for medical laboratory scientists to perform wellness laboratory testing aimed at preventing disease.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Biomedical Informatics, BS (ESBMIBS)

**Campus:** Downtown Phoenix

**Program Description:** Biomedical informatics is a multidisciplinary field that involves the generation, acquisition, management and analysis of biomedical and health data and the translation of that data into information and knowledge that can be applied toward improving individual and population health.

The BS program in biomedical informatics curriculum includes biomedical informatics, computer science, biology, chemistry, mathematics and statistics. Students learn approaches to acquiring data, learn data management and knowledge representation, learn modeling and machine learning, and they learn to use these capabilities to address problems in the biomedical and health domains. Students have the opportunity to do research alongside faculty who are experts in bioinformatics, imaging informatics, clinical informatics and population health informatics.

Graduates of the program have a broad set of biomedical informatics knowledge and skills, enabling them to contribute to many areas of health and biomedicine in their future work.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website.

The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 251 - Calculus for Life Sciences

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Biomedical Informatics, MS

the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESBMIBS-null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Articulate informatics solutions to improve patient care.
- Implement existing informatics solutions to improve patient care.
- Analyze large data sets to improve decisions for patient care or population health.
- Implement informatics solutions to represent and manage biomedical data

#### **Global Opportunities:**

Global Experience: Students gain valuable experience when studying abroad (<https://goglobal.asu.edu/>), experience which enhances their resumes. With more than 300 programs available, Global Education programs allow students to tailor their experience to their unique interests and skill sets. Students in biomedical informatics are able to expand their knowledge of how health care systems impact society in a variety of cultures, and they experience new and unique information science and technology environments across the globe.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/SEMTE/aerospace-engineering>) for students majoring in biomedical informatics.

**Career Opportunities:** Graduates with a degree in the rapidly expanding field of biomedical informatics are prepared for careers in a wide range of settings. They are employed in positions such as data science analysts, bioinformaticians, software engineers, and public health informatics scientists, among others. Those with interests in life sciences and technology may see this program as a unique way to combine the two. Others may find this degree the first step toward medical school or advanced medical research or to continued graduate-level study in biomedical informatics.

## **Clinical Exercise Science, BS (ECXERBS)**

**Campus:** Downtown Phoenix

**Program Description:** In the BS in clinical exercise science program, students develop an understanding of how the human body responds to, changes with, and benefits from exercise.

Hands-on laboratory courses with innovative exercise, metabolic and cardiopulmonary equipment provide students with the necessary skills and experience they need to be hired as exercise physiologists in health care settings upon graduation. Students have opportunities to work one-on-one

with faculty.

Upper-division and special topics courses allow students to gain an even deeper understanding in an area of interest such as exercise for chronic and neurological conditions or nutrition for health and performance.

Students gain the knowledge necessary for passing the exercise physiologist certification exam from the American College of Sports Medicine and for pursuing Level 2 Exercise Is Medicine credentialing from the American College of Sports Medicine.

This program is accredited through the Commission on Accreditation of Allied Health Education Programs endorsed by the American College of Sports Medicine.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra or MAT 170 Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Clinical Exercise Physiology, MS

Physical Activity and Health, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ECEXERBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply concepts of basic human anatomy and physiology as they relate exercise.
- Apply mathematical skills related to bioenergetics and exercise intensities.
- Apply the principles guiding evidence-based practice learned through the appraisal of scientific literature.
- Create exercise prescriptions for healthy clients and clients with chronic conditions.
- Apply professional competencies (i.e., job-related skills) commonly required in the fitness industries.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), participation in a Global Education program (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs/exercise-wellness>) for students majoring in clinical exercise science.

**Career Opportunities:** This degree program prepares students to become exercise physiologists, an occupation with a faster than average growth rate, according to the U.S. Bureau of Labor Statistics.

In addition to exercise physiologists, graduates may work as clinical exercise specialists, exercise scientists or weight management consultants, in locations such as:

- cardiac rehabilitation facilities
- corporate wellness firms
- health care agencies and medical centers
- hospitals
- lifestyle and weight management consulting firms
- medical fitness centers
- nonprofit disease prevention agencies (e.g., American Heart Association)
- outpatient fitness centers
- university fitness and wellness centers

Specialty areas may include:

- bariatric weight loss (counseling and pre- or post-surgery fitness training)
- cancer patient exercise specialist
- cardiac rehabilitation
- corporate fitness and worksite wellness
- exercise and weight counseling and management

Graduates are well prepared for admission into graduate programs in clinical exercise physiology, obesity prevention and management, rehabilitative fields (e.g., physical therapy, occupational therapy) and medicine.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Dietetics, BS (NHDIETCSBS)

**Campus:** Downtown Phoenix

**Program Description:** The BS program in dietetics is a required initial step in the education and training of the dietetics professional.

Coursework prepares students to apply for a dietetic internship, which is required in order to sit for the registration exam to become a registered dietitian. In addition to nutrition courses, students complete a broad range of science, management and communication classes.

Beginning Jan. 1, 2024, prior to sitting for the registration exam, students will be required to have a master's degree in addition to completing a dietetic internship. This is a change implemented by the credentialing body for registered dietitians, the Commission on Dietetic Registration, and will be a nationwide requirement. More information can be found on the Academy of Nutrition and Dietetics website at <https://www.eatright.org/become-an-rdn-or-ndtr> (<https://www.eatright.org/become-an-rdn-or-ndtr>).

ASU's bachelor's degree program in dietetics is accredited as a Didactic Program in Dietetics by the Accreditation Council for Education in Nutrition and Dietetics, 120 S. Riverside Plz., Ste. 2190, Chicago IL 60606-6995; phone: 800-877-1600, ext. 5400.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Nutritional Science, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHDIETCSBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Locate, interpret, evaluate and use professional literature to make ethical, evidence-based practice decisions.
- Demonstrate effective and professional oral and written communication and documentation
- Use the Nutrition Care Process to make decisions, identify nutrition-related problems and determine and evaluate nutrition interventions.
- Apply management theories to the development of programs or services.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs/nutrition-dietetics>) for students majoring in dietetics.

**Career Opportunities:** The nutrition and dietetics field provides employment opportunities in a variety of areas:

- client consultation, including for diabetes management or weight loss education
- food and nutrition industry
- food and nutrition marketing and sales
- nutrition and health promotion
- school food service

Graduates may find opportunities in environments such as hospitals and other health care facilities or public health agencies.

Most with this degree pursue further education and careers such as:

- dietetic technician, registered
- registered dietitian or nutritionist
- school nutrition specialist

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Exercise and Wellness (Fitness and Wellness Specialist), BS (ECEXWBS)

**Campus:** Downtown Phoenix

ASU is no longer accepting new students to this program. Interested students should apply to the BS program in clinical exercise science (<https://degrees.apps.asu.edu/bachelors/major/ASU00/ECEXERBS/clinical-exercise-science>).

**Program Description:** The BS program in exercise and wellness provides students with the knowledge and practical skills necessary for assisting individuals in reaching optimal health.

The program consists of a carefully designed curriculum emphasizing:

- competency in the instruction of basic and advanced techniques related to flexibility, resistance training and cardiovascular exercise
- competencies required to attain advanced-level certifications from professional associations in the field
- foundational knowledge of exercise physiology and applied kinesiology
- methods to understand and help improve individuals with regard to their health behavior choices
- skills in assessing and interviewing clients in preparation for fitness and wellness programming
- skills in designing and manipulating program variables to work with apparently healthy or symptomatic individuals

Students in the exercise and wellness degree program also have the option to enroll in courses that will enhance their abilities to work with high performance athletes, obese individuals or those at risk for suffering from other hypokinetic diseases.

Those who complete the program are prepared for pursuing nationally recognized and credentialed certifications provided by professional organizations in fields of study related to physical activity, strength and conditioning, or exercise physiology. With the addition of the prerequisite courses, they also are well prepared for continuing into graduate programs that are required for careers in physical therapy, occupational therapy, athletic training or other medical fields.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra or MAT 170 Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ECEXWBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### Global Opportunities:

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Employment of fitness and wellness professionals is expected to grow by up to 39% from 2020 to 2030 --- much faster than other occupations --- driven by efforts to reduce health care costs by teaching people about healthy behaviors. The need for exercise and wellness programming and facilities increases the need for workers in these areas.

Those who have earned the exercise and wellness degree have enhanced opportunities in fitness and wellness employment settings because clients and employers prefer to work with people who are more highly prepared and qualified.

Graduates of this concentration often pursue careers in such fields as:

- clinical exercise
- corporate fitness
- fitness management
- personal training
- sports performance
- wellness center management

Graduates may also pursue further graduate study in such fields as:

- athletic training\*
- cardiac rehabilitation\*
- occupational therapy\*
- physical therapy\*
- physician assistant\*

\*Advanced degrees or certifications may be required for academic or clinical positions.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Exercise and Wellness (Strength and Conditioning Specialist), BS (NHXWSCBS)

**Campus:** Downtown Phoenix

ASU is no longer accepting new students to this program. Interested students should apply to the BS in clinical exercise science

(<https://degrees.apps.asu.edu/bachelors/major/ASU00/ECXERBS/clinical-exercise-science>).

**Program Description:** The strength and conditioning specialist concentration is designed for students who want to work with active or athletic populations, including sport and tactical occupations. These students may work with high school, college or professional sports organizations in scholastic or private sports performance training facilities, with tactical sports performance clients (e.g., military, police, firefighters, EMT) in municipal or government-run facilities or with individual clients participating in more active, higher intensity-based fitness programs.

Students in this concentration are exposed to applied assessment labs and practical fieldwork to gain the knowledge they will need to be competent coaches in this field.

Graduates are prepared to sit for the Certified Strength and Conditioning Specialist or the Tactical Strength and Conditioning-Facilitator examinations offered by the National Strength and Conditioning Association (<https://www.nasca.com>) at the completion of their coursework. Students interested in careers in the field of sports medicine (athletic trainers, sports physical therapists, orthopedic surgeons, etc.) may also benefit from the coursework to provide an understanding of the training programs that accompany sports participation.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra or MAT 170 Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHEXWSCBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Many graduates of this program go onto careers which include:

- athletic trainer\*
- fitness center director
- group exercise specialist
- personal trainer
- physical therapist\*
- physical therapy technician
- sports performance coach
- sports performance director
- sports scout
- tactical performance coach

\*Additional prerequisites and postgraduate degrees are required.

## Food and Nutrition Entrepreneurship, BS (NHFNUENBS)

**Campus:** Downtown Phoenix, Online

**Program Description:** The BS program in food and nutrition entrepreneurship provides students with the knowledge and skills that allow them to move into a range of employment opportunities in community nutrition or food service industries or continue their education in a dietetics-focused graduate program.

Students first learn about the body and chemistry, then progress into food chemistry and how food fuels our body. At a community and global level, students also can explore food access and sustainability. Once the basics are understood, students develop skills in evidence-based research, recipe development, communication in multiple formats, marketing, nutrition counseling and leadership. With these skills, students can develop innovative solutions to the health concerns across our population.

Students choose focus area courses in community nutrition, food service operations or pre-dietetics.

Students focusing on pre-dietetics will be eligible to apply to a graduate program in dietetics that will prepare them to take the registered dietitian exam.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics Any math course that meets the MA designation.

**Program Math Intensity:** General

### Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/food-and-nutrition-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHFNUENBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Communicate evidence-based food and nutrition information and basic food science information in oral and written form.
- Identify and explain improvements in a culinary workplace using the tenets of food safety.
- Apply the principles of food management and systems in the provision of food and nutrition services to individuals and organizations.
- Develop a menu applying knowledge of food and nutrition and utilize leadership and communication skills working in the field.

**Global Opportunities:**

Global Experience: With more than 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire global skills and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates are prepared for careers in the delivery of products and services, research and development, management of food service and sustainable food systems, and in nutrition and health communication and promotion. They also have capabilities to launch startups and businesses focused on individual practice, consulting and new product and service development.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Health Care Administration and Policy, BS (NHHCDBS)

**Campus:** Downtown Phoenix, Online

**Program Description:** The health care administration and policy bachelor's program studies the design of health care systems, processes, leadership and management. This knowledge can be used to optimize how health care is delivered to improve health for all.

The BS in health care administration and policy provides undergraduate students foundational knowledge of health care administration and health policy grounded in concepts of leadership, social determinants of health, informatics, systems engineering and economics. Faculty are multidisciplinary tenure-track and clinically trained professionals who work together to create, teach and share knowledge.

Graduates of this program are academically prepared, well-rounded and adept in skills necessary for a number of exciting careers in health care administration, policy making and management.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

#### General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-health-care-admin-policy/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHHCDDBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### Global Opportunities:

Global Experience: Studying health care administration and policy abroad (<https://goglobal.asu.edu/>) provides students the opportunity to develop valuable skill sets. Being exposed to unique health environments, learning culturally specific health approaches, and improving intercultural communication skills help prepare students to lead, giving them an advantage in their professional career.

The College of Health Solutions recommends these study abroad programs (<https://goglobal.asu.edu/students/major/chs/science-health-care-delivery>) for students majoring in health care administration and policy.

**Career Opportunities:** Job areas may include entry-level positions in health care administration, hospital administration, program management, policy, advocacy, system design, quality improvement and health services research. Opportunities may include positions in hospital systems, physician practices and clinics, patient navigation, the pharmaceutical industry, insurance companies, government and regulatory agencies, and health research organizations.

Graduates may pursue further education through graduate programs in areas such as health care delivery, administration and management.

## Health Education and Health Promotion, BS (NHHEHPBS)

**Campus:** Downtown Phoenix, Online

**Program Description:** In the BS in health education and health promotion program, students learn how to improve health outcomes and prevent chronic and infectious disease. They develop understanding in how to help communities advocate for healthier environments and champion health equity. Students learn to plan, implement, manage and evaluate health promotion programs.

Students can specialize their knowledge in areas like diabetes prevention, sexual health, climate and health, HIV and substance abuse prevention, emergency preparedness, social media and health, body image and wellness, school health and violence prevention.

Once students graduate, they are eligible to sit for the certified health education specialist exam through the National Commission for Health Education Credentialing (<https://www.nchec.org/> (<https://www.nchec.org/>)). This is a globally recognized credential for health professionals. The

health education and health promotion program rigorously prepares students for the CHES exam.

Graduates become catalysts for improving community and individual well-being through health education and promotion.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-health-education-and-health-promotion/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHHEHPBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs. More information on available programs can be found on the Global Education Office website (<https://goglobal.asu.edu/>).

**Career Opportunities:** Employment of health educators is expected to grow much faster than the average for all professions, with the U.S.

Department of Labor predicting a 17% increase in the field between 2020 and 2030. The need for health education specialists, or health educators, has never been more critical than it is today.

Health education specialists can work with non-profit organizations, tribal nations, schools, hospitals, clinics, businesses and government agencies.

Common job titles include:

- community health educator
- community outreach coordinator
- wellness coordinator
- prevention specialist

Graduates can hold an assortment of roles, such as lactation consultants, diabetes educators, cancer information specialists and grant writers.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. ## Health Sciences, BS (NHHSCBS)

**Campus:** Downtown Phoenix, Polytechnic, West, Online

**Program Description:** In the BS program in health sciences, students learn about health care systems and how systems are financed and structured. Leadership and professionalism are highlighted along with the role of providers in delivering evidence-based care. Ethical and effective communication skills are also developed. Today's challenges are analyzed, leading graduates to develop innovative solutions.

Students choose focus areas in community-based health outcomes; health legislation and regulation; integrated care; or language, speech and communication.

A limited number of students each year may apply to pursue the echocardiography certificate through Mayo Clinic after taking prerequisite courses. Once the certificate is completed, students may transfer the credits to ASU and apply credits toward their Bachelor of Science program in health sciences. Interested students should seek advising before starting coursework.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: Study abroad (<https://goglobal.asu.edu/>) provides health sciences students the opportunity to develop a valuable skill set such as flexibility and communication skills that can give them an advantage in their professional career. Personal enrichment can be gained through exposure to unique health environments, learning culturally specific health approaches, and much more.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs/exercise-wellness>) for students majoring in health science.

**Career Opportunities:** Graduates are prepared to continue their education in graduate or professional school or to enter the health field or health care workforce, in any of a variety of capacities including indirect and direct patient and community care roles.

The range of career opportunities include:

- elder services program coordinator
- health and patient educator
- health maintenance organization or insurance company client coach
- Healthy Start coordinator
- home health care coordinator
- long-term care health and wellness coordinator
- school health and program specialist
- Women, Infants and Children (WIC) and community nutrition aide

Graduates also may choose to pursue advanced degree programs in various discipline-specific medical fields.

## **Health Sciences (Health Policy), BS (NUHSCHPBS)**

**Campus:** Downtown Phoenix

ASU is no longer accepting new students to this program. Interested students should apply to the BS in health care administration and policy (<https://degrees.apps.asu.edu/bachelors/major/ASU00/NHHSCBS/health-care-administration-and-policy>) or the BS in health sciences (<https://degrees.apps.asu.edu/bachelors/major/ASU00/NHHSCBS/health-sciences>).

**Program Description:** The BS program in health sciences is designed to provide the academic knowledge and skills that allow students to move directly into a range of employment opportunities within the health field or to continue their education in discipline-specific programs.

Students complete a complement of core courses that emphasize ethics, communication skills, critical thinking and cultural awareness.

The health policy program is designed for students interested in the community policy aspects of disease prevention and health promotion. The continuum of health care now spans a diverse array of health providers ranging from private practitioner offices and outpatient care centers to residential care facilities and acute care hospitals. Key to the enhancement of health care within the U.S. is the development and implementation of innovative, cost-effective and universally accessible programs.

Students in this concentration are required to complete a supervised practicum, providing hands-on experience within their field of interest. Students may also wish to consider using their electives to complete a minor in nonprofit administration, which requires 15 credit hours.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The Downtown campus is available to all students who meet university admission standards.

The West campus is only available to students who will be first-time freshmen, defined as those who have earned 12 college credit hours or fewer at the time of admission.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NUHSCHPBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), participation in a Global Education program (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire global skills and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Career opportunities are available in city, county and state departments of health, with additional employment opportunities in the health insurance industry, nonprofit sector and within various corporate entities providing health care.

## Health Sciences (Healthy Lifestyles and Fitness Science), BS (NUHSCHLCBS)

**Campus:** Downtown Phoenix, Online

**Program Description:** The BS program in health sciences with a concentration in healthy lifestyles and fitness science provides students with skills for employment in health, wellness and fitness fields or for continuing their education in graduate and professional school.

Students study disciplines such as nutrition, fitness, stress management, substance abuse, behavior change and coaching psychology and train for work in preventive health care. They learn how to use lifestyle coaching, physical activity and health care education to improve community health and how to address the challenges reflected by socio-economic determinants of health.

This program supports successful completion for nationally accredited certification in health and fitness, such as American College of Sports Medicine's certification for personal trainers: <https://www.acsm.org/> (<https://www.acsm.org/>). Students who complete this degree and one additional course are eligible for national certification for health and wellness coaches offered by the National Board for Health and Wellness Coaches: <https://nbhwc.org/> (<https://nbhwc.org/>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-health-sciences-healthy-lifestyles-coaching/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NUHSCHLCBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Develop a comprehensive health and wellness coaching plan.
- Apply evidence-based health and wellness coaching competencies to build a coaching relationship, and guide clients through enriched support for self-awareness and self-discovery.
- Implement health and wellness evidence-based interventions and strategies to elicit positive changes in individuals within the general population.
- Utilize their health coaching skills within the coaching scope of practice following ethical and legal requirements.
- Utilize evidence-based physical activity programs with appropriate volume and intensity of exercise to elicit positive health changes in individuals within the general population.

**Global Opportunities:**

Global Experience: Studying abroad (<https://goglobal.asu.edu/>) provides students majoring in health sciences the opportunity to develop valuable skill sets that can give them an advantage in their professional career, like flexibility and communication skills. Personal enrichment can be gained through exposure to unique health environments, learning culturally specific healthy lifestyle approaches and much more.

**Career Opportunities:** According to the U.S. Bureau of Labor Statistics, employment for health coaches and health educators is projected to grow 17% between 2020 and 2030, faster than the average for all occupations. Growth is driven by efforts to improve health outcomes and reduce health

care costs by teaching people about healthy habits and behaviors and utilization of available health care services.

Health, wellness and fitness coaches work in hospitals and health care facilities, schools, public health departments, nonprofit organizations, prevention agencies (e.g., American Heart Association), lifestyle and weight management consulting firms, outpatient fitness centers, university fitness and wellness centers, and private businesses.

Specialty areas may include:

- bariatric weight loss clinic counseling and management
- corporate fitness and worksite wellness

Career options include positions such as:

- corporate wellness coordinator
- fitness center director
- group exercise specialist
- health and patient educator
- personal trainer
- school health and nutrition program specialist
- Women, Infants, and Children program and community nutrition aide
- worksite wellness coach or coordinator

Graduates are also well prepared for admission into graduate programs in health promotion, population health, lifestyle management, integrative health, health administration, psychology and medicine.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Health Sciences (Pre-professional), BS (NUHSCPREBS)

**Campus:** Downtown Phoenix

ASU is no longer accepting new students to this program. Interested students should apply to the BS in medical studies

(<https://degrees.apps.asu.edu/bachelors/major/ASU00/NHMEDBS/medical-studies>).

**Program Description:** The BS program in health sciences is designed to provide students the academic knowledge and skills they need to move directly into a range of employment opportunities within the health field or to continue their education in discipline-specific programs.

The preprofessional program is designed for students planning to enter medical, dental, osteopathic, physical therapy, veterinary, pharmacy and similar professional schools. In addition to a comprehensive core of basic science courses, the concentration is unique in that it provides a solid base in ethics; communication; the evaluation of research (the cornerstone of evidence-based practice); and healthy lifestyles (the foundation of health promotion and chronic disease risk reduction avenues of health care), including the role of complementary and alternative care within the U.S. health care system. Students have the ability to incorporate electives that contribute to their knowledge of and sensitivity to the needs of populations impacted by health disparities.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 251 - Calculus for Life Sciences

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NUHSCPREBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### **Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), participation in a Global Education program (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire global skills and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates are prepared for entrance into an advanced degree program in the medical field. Their immediate employment opportunities include:

- clinical research coordinator
- health officer
- sales and marketing representative (pharmaceutical or medical device companies)

## **International Public Health, BIPH (NHIPHBIPH)**

**Campus:** Online

**Program Description:** The BIPH builds and strengthens the international public health workforce using coursework from two leading universities: ASU and the University of New South Wales in Sydney, Australia.

Aligned with U.S. accreditation standards in public health, the Bachelor of International Public Health program teaches new approaches to public health issues, including health promotion, communicable disease prevention, environmental health, public health surveillance and global health management. Students develop a holistic, equitable, ethical and sustainable approach to public health practice, collaborating with diverse stakeholders to develop and implement strategies to ensure health for all.

In their final year, students complete a research-based capstone experience in their area of interest, which prepares them for their career of choice. Students use this opportunity to develop and implement public health research and interventions with community-based organizations throughout the world.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra

**Program Math Intensity:** Moderate

### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)  
Transfer (<https://admission.asu.edu/transfer/apply>)  
International (<https://admission.asu.edu/international/undergrad-apply>)  
Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-international-public-health/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHIPHBIPH~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

PLuS Alliance: The PLuS Alliance partnership combines the strengths of three leading research universities from three continents to create and share knowledge that will solve pressing educational and societal challenges.

Students have the opportunity to engage with peers and specialists across the globe through PLuS-partner courses offered online. Through this PLuS Alliance collaborative degree program, students develop transferable global competencies and gain exposure to international teaching and academic content. <https://www.plusalliance.org/> (<http://www.plusalliance.org/>)

Global Experience: International public health students have the opportunity to gain exposure to culturally specific health approaches and community-based opportunities and to learn about unique health environments and differences in human condition worldwide through study abroad.

With more than 300 options available, whether in a foreign country, in the U.S. or online, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their experience to their unique interests and skill sets.

The College of Health Solutions recommends these study abroad programs (<https://chs.asu.edu/student-life/study-abroad>) for students majoring in international public health.

**Career Opportunities:** The most recent report of the United Nations High-Level Commission on Health Employment and Economic Growth described the importance of a global workforce that will support the creation of 40 million new jobs by 2030, particularly in low- and middle-income countries. Critical needs include global health policy, data and informatics, quality and process improvement, ethics, economics and community-based care.

Specific career titles include:

- education coordinator
- health coach
- program coordinator
- program manager
- program officer
- project analyst
- research associate
- public health scientist

Commonly cited hiring organizations include the Peace Corps, the United States Agency for International Development, the Centers for Disease Control and Prevention, the United Nations Children's Fund, other nongovernmental organizations, and state and federal agencies.

## Kinesiology, BS (NUKINBS)

**Campus:** Downtown Phoenix, ASU at Lake Havasu

**Program Description:** A BS in kinesiology provides students with a deep understanding of how the human body works.

In kinesiology, all aspects of human function are studied from the perspective of human movement. The rigorous curriculum provides a scientifically inclusive approach to human movement; students study mechanical, anatomical, neural, developmental, physiological and psychological mechanisms. This gives students a well-rounded understanding of all aspects of human function as it pertains to movement and exercise.

Students have opportunities to work one-on-one with faculty on research projects, in labs, as teaching assistants, or other independent study experiences.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 170 - Precalculus

**Program Math Intensity:** Moderate

### Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Clinical Exercise Physiology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NUKINBS-null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply biomechanical principles to the understanding and explanation of human movement.
- Demonstrate the ability to synthesize data to make evidence based practice decisions.

- Apply psychological principles to the understanding and explanation of human movement
- Apply principles of motor behavior to the understanding and explanation of human movement.
- Apply physiological principles to the understanding and explanation of human movement

#### **Global Opportunities:**

Global Experience: Professional health education is competitive. Less than 50% of the students who apply to medical schools are admitted. There are four applicants for every one seat in physician assistant programs. Medical and professional school admissions increasingly focus on students with dedication to community service, so engaging in community activities and research abroad will help any student who plans a career in a health field to create a diverse, accomplished portfolio.

Kinesiology students gain cultural competency, language skills and vital leadership experience while studying abroad. Global Education programs (<https://goglobal.asu.edu/>) provide the chance to experience unique health environments, practice alternative approaches to health care, and witness the human condition in a global context. Opportunities also exist for hands-on research and community-based service, which can prepare students' to lead in a future-focused career.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs/kinesiology>) for students majoring in kinesiology.

**Career Opportunities:** An undergraduate degree in kinesiology prepares students for graduate study that can lead to a variety of clinical and research occupations including:

- allopathic, osteopathic or naturopathic physician
- athletic trainer
- biomechanist
- chiropractor
- clinical exercise physiologist
- occupational therapist
- orthopedic surgeon
- physical therapist
- physician assistant
- prosthetist or orthotist

The program prepares students for graduate study in physical or occupational therapy, physician assistant programs, medicine and other health-related professional programs.

## **Medical Studies, BS (NHMEDBS)**

**Campus:** Downtown Phoenix, Polytechnic, West, Online

**Program Description:** The BS program in medical studies provides students with the opportunity to meet the prerequisites for medical and professional school, including medicine (MD, DO and naturopathic), dentistry, physician assistant programs, pharmacy, occupational therapy, optometry and others, and prepares the student for required postgraduate entrance exams, including the revised MCAT.

Students can customize the medical studies degree to meet the prerequisites of the health professions programs for which they intend to apply. Students have the opportunity to learn directly from health care providers who are currently practicing in the field, and they can select clinically related internships or electives during their junior year.

This degree program integrates communication, ethics, critical thinking, teamwork and leadership, all of which are essential competencies for members of today's health care teams.

Due to the high volume of overlap in curriculum, students enrolled in this degree are not permitted to declare a concurrent degree combination with the BS in biological sciences, including the following concentrations: biomedical sciences; genetics, cell and developmental biology; and neurobiology, physiology and behavior. Students should speak with their academic advisor for any further questions.

**Additional Program Fee:** Y

**Second Language Requirement:** N**First Required Math Course:** MAT 170 - Precalculus**Program Math Intensity:** Moderate**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)Transfer (<https://admission.asu.edu/transfer/apply>)International (<https://admission.asu.edu/international/undergrad-apply>)Readmission (<https://admission.asu.edu/undergrad/readmission>)**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/medical-studies-bs-premed/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHMEDBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Professional health education is competitive. Fewer than half of students who apply to medical schools are admitted. There are four applicants for every one seat in physician assistant programs. Medical and professional school admissions increasingly focus on students with dedication to community service, so engaging in community activities and research abroad will help any student attempting a health career to create a diverse, accomplished portfolio.

Students pursuing medical studies who study abroad can advance their cultural awareness, medical experience and global health understanding. Global Education programs (<https://goglobal.asu.edu/>) expand a student's knowledge of culturally specific health approaches while helping them develop strategies to adapt to unique social circumstances. Study abroad is a chance to fine-tune communication, critical thinking and leadership capabilities while taking advantage of opportunities for research, internships and service.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs/medical-studies>) for students majoring in medical studies.

**Career Opportunities:** Graduates are academically prepared, well rounded, and adept in skills for a number of exciting careers in the allied health fields, dentistry, medicine, education, government, health care industries, and nonprofit organizations.

Positions could include:

- community health worker
- project coordinator
- research assistant
- sales or marketing representative (e.g., medical device or pharmaceutical industry)

They also are well prepared to pursue postgraduate health degrees, resulting in a career as a:

- chiropractor
- dentist
- naturopathic physician
- optometrist
- pharmacist
- physician
- physician assistant
- podiatrist
- public health professional

**Nutrition, BS (NHNTRBS)**

**Campus:** Downtown Phoenix, Online

ASU is no longer accepting new students to this program. Students interested in nutrition should apply to the Food and Nutrition Entrepreneurship BS (<https://degrees.apps.asu.edu/bachelors/major/ASU00/NHFNUENBS/food-and-nutrition-entrepreneurship>) program.

**Program Description:** The BS in nutrition program includes exploration of important emerging topics, including developing an evidence-based online presence through social media, blogging and podcasting; creating stand-alone businesses in nutrition, such as individual practices and consulting programs; and entrepreneurship in the food industry through development of new products and services.

Experiential learning is integrated into the program's curriculum; students have opportunities to work with external stakeholders and community partners specializing in food and nutrition entrepreneurship to gain real-world experience, develop professional relationships and establish a foundation and direction for their future careers.

This program prepares students to work in the expanding field of food and nutrition related entrepreneurial ventures and program initiatives. Graduates are poised to meet within food and nutrition industries the demand for the application of valid nutritional concepts.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:  
 All students are required to meet general university admission requirements.  
 Freshman (<https://admission.asu.edu/freshman/apply>)  
 Transfer (<https://admission.asu.edu/transfer/apply>)  
 International (<https://admission.asu.edu/international/undergrad-apply>)  
 Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-nutrition/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use

MyPath2ASU® (<https://webapp4.asu.edu/transferecreditguide/app/transfermap?major=NHNTRBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: In the field of nutrition, study abroad (<https://goglobal.asu.edu/>) can expose students to unique health environments and expand students' knowledge of culturally specific health approaches. Students gain a deeper understanding of how food and culture intertwine and how to communicate nutritional and sanitary standards to a diverse audience. Students' resumes are enhanced with the heightened communication, cultural competency and critical thinking skills they acquired through study abroad.

The College of Health Solutions recommends these study abroad programs (<https://goglobal.asu.edu/students/major/chs/nutrition>) for students majoring in nutrition.

**Career Opportunities:** Nutrition graduates are prepared for careers within companies looking to innovate, in the delivery of products and services, in research and development, in management of food service and sustainable food systems, and in nutrition and health communication and promotion. They have the capabilities to launch startups and businesses focused on individual practice, consulting, and new product and service development. There are a wide array of career opportunities available for graduates of this program.

## **Nutrition (Dietetics), BS (ECNTRDBS)**

**Campus:** Downtown Phoenix

ASU is no longer accepting new students to this program. Interested students should apply to the BS in dietetics (<https://degrees.apps.asu.edu/bachelors/major/ASU00/NHDIETCSBS/dietetics>).

**Program Description:** The BS in nutrition with a concentration in dietetics prepares students with the required coursework and skills they need in order to apply for a dietetic internship, which is required before they can sit for the registration exam to become a registered dietitian, which is a food and nutrition expert. In addition to a core of professional nutrition courses, students complete a broad range of science, management and communication classes. The program emphasizes the application of nutrition within clinical, community, food production and wellness areas.

More information about this credential and the requirements for this credential can be found at <https://www.eatrightpro.org/acend> (<https://www.eatrightpro.org/acend>).

ASU's bachelor's degree program in nutrition with a concentration in dietetics is accredited as a Didactic Program in Dietetics by the Accreditation Council for Education in Nutrition and Dietetics, 120 S. Riverside Plz., Ste. 2190, Chicago IL 60606-6995, phone: 800-877-1600, ext. 5400.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

#### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ECNTRDBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Study abroad (<https://goglobal.asu.edu/>) can expose students in the field of nutrition to unique health environments and expand their knowledge of culturally specific health approaches. Students gain a deeper understanding of how food and culture intertwine, and they learn how to communicate nutritional and sanitary standards to a diverse audience. Students enhance their resumes with the heightened communication, cultural competency and critical thinking skills they acquired through study abroad.

The College of Health Solutions recommends the following study abroad programs (<https://goglobal.asu.edu/students/major/chs/nutrition-dietetics>) for students majoring in nutrition with a concentration in dietetics.

**Career Opportunities:** The nutrition and dietetics field provides employment opportunities in fields such as:

- consulting
- education
- food and nutrition marketing and sales
- nutrition and health promotion
- school food service

Graduates may find opportunities in environments such as:

- hospitals and other health care facilities
- public health agencies

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Nutrition (Food and Nutrition Management), BS (ECNTRMBS)

**Campus:** Downtown Phoenix, Online

ASU is no longer accepting new students to this program. Students interested in this program should apply to the BS in food and nutrition entrepreneurship (<https://degrees.apps.asu.edu/bachelors/major/ASU00/NHFNUENBS/food-and-nutrition-entrepreneurship>).

**Program Description:** The BS program in nutrition with a concentration in food and nutrition management provides students with the ability to apply nutrition principles to food production. This concentration is designed to provide students with an understanding of the food industry and teach them how to manage and market food and develop a food or menu that meets a specific nutritional guideline.

Coursework focuses on a strong foundation in food purchasing, production and planning. Additional coursework in management, marketing and nutrition prepares students for a variety of food service positions. Graduates can also pursue the credentials of certified dietary manager, school nutrition specialist or registered sanitarian.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ECNTRMBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

The College of Health Solutions recommends these study abroad programs (<https://goglobal.asu.edu/students/major/chs/nutrition>) for students majoring in nutrition.

**Career Opportunities:** According to the Bureau of Labor Statistics, the number of food service managers is projected to increase by 15% between 2020 and 2030, faster than the average for all occupations.

Graduates are prepared to become food service directors at schools, health care facilities, and corporate food service operations and to own restaurants or nutrition-related businesses, work in supplement or pharmaceutical sales, or work in food marketing and distribution.

## Nutrition (Human Nutrition), BS (ECNTRHBS)

**Campus:** Downtown Phoenix

ASU is no longer accepting new students to this program. Students interested in this program should apply to the Nutritional Science, BS (<https://degrees-qa.apps.asu.edu/bachelors/major/ASU00/NHNU SCIBS/nutritional-science>).

**Program Description:** The BS program in nutrition with a concentration in human nutrition provides students with a strong foundation in nutrition and science that prepares them for careers in public or community health programs and clinical or graduate research programs.

In addition to providing a strong foundation in medical nutrition therapy, the coursework includes anatomy, physiology, chemistry and microbiology. Students gain knowledge of nutritional concepts that health care professionals sometimes lack.

Students from this program have gone on to study:

- dentistry
- medicine
- naturopathic medicine
- optometry and podiatry
- osteopathic medicine
- pharmacy

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 170 - Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ECNTRHBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: In the field of nutrition, study abroad can expose students to unique health environments and expand their knowledge of culturally specific health approaches. Students gain a deeper understanding of how food and culture intertwine and how to communicate nutritional and sanitary standards to a diverse audience.

Students enhance their resumes with the heightened communication, cultural competency and critical thinking skills they acquired through study abroad (<https://goglobal.asu.edu/>).

The College of Health Solutions recommends these study abroad programs (<https://goglobal.asu.edu/students/major/chs/nutrition>) for students majoring in nutrition.

**Career Opportunities:** The nutrition field provides employment opportunities in:

- education
- food and nutrition marketing and sales
- food service
- health care
- nutrition and health promotion and consulting
- public health

Graduates of the human nutrition program often go on to apply to medical school or another health profession. The area of nutrition research is also a good fit for human nutrition majors.

## Nutrition (Nutrition Communication), BS (ECNTRCBS)

**Campus:** Downtown Phoenix, Online

ASU is no longer accepting new students to this program. Students interested in this program should apply to the BS in food and nutrition entrepreneurship (<https://degrees.apps.asu.edu/bachelors/major/ASU00/NHFNUENBS/food-and-nutrition-entrepreneurship>).

**Program Description:** The BS in nutrition with a concentration in nutrition communication is designed to help students become experts in communicating health and nutrition content. This concentration was originally developed in collaboration with the Walter Cronkite School of Journalism and Mass Communication.

Nutrition courses provide the content for articles students write in their communication-related classes. This degree program provides students with

a strong understanding of the scientific method, statistics, nutrition, health care and wellness that many traditional journalists lack. Faculty members teach students how to avoid sensationalism and how to avoid sacrificing reality to get a better story.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ECNTRCBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

The College of Health Solutions recommends these study abroad programs (<https://goglobal.asu.edu/students/major/chs/nutrition>) for students majoring in nutrition.

**Career Opportunities:** The nutrition communication field offers employment opportunities with:

- community and health care agencies
- magazines
- newspapers
- private corporations (public relations firms)
- web-based companies

With this degree, graduates can pursue careers as:

- authors
- consultants in program or product development
- freelance writers for newspapers and magazines
- public relations representatives for food and beverage companies

## Nutritional Science, BS (NHNUSCIBS)

**Campus:** Downtown Phoenix

**Program Description:** The BS program in nutritional science provides students with a strong foundation in nutrition, biological sciences, research methods, and prevention and treatment of health conditions. With two different tracks, nutrition research or integrative nutrition, this program prepares students for careers in a variety of fields.

The integrative nutrition track establishes a strong basis in evidence-based nutrition practices, nutritional interventions across the human lifespan, and both individualized and community approaches to improving human health. The track prepares students for careers in a variety of health care settings including naturopathic medicine.

With the nutrition research track, students can expect to engage in coursework that integrates evidence-based nutrition with anatomy, physiology, chemistry and microbiology to prepare them for clinical or graduate research programs and careers in research. This track allows students to work alongside faculty while gaining hands-on experience in nutrition research.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra OR MAT 170 Precalculus

**Program Math Intensity:** Moderate

### Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHNUSCIBS-null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will be able to interpret scientific literature to make evidence-based conclusions for the general public.
- Students will be able to assess clinical and scientific data to make individual and community intervention or research implementation decisions.
- Students will communicate food and nutrition information by reflecting on information and evaluating ethics of different approaches.

### Global Opportunities:

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for their career.

Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs/nutrition>) for students majoring in nutritional science

**Career Opportunities:** Students from this program can find job opportunities in clinical and life sciences research, allopathic, osteopathic and naturopathic medicine, molecular and cellular biology, industry research and development, dentistry and pharmacy.

## Population Health, BS (NHPOPHLBS)

**Campus:** Downtown Phoenix, West

ASU is not accepting applications for this program, effective Spring 2024. Interested students should apply to the Public Health BS (<https://degrees.apps.asu.edu/bachelors/major/ASU00/NHPBHBS/public-health>) program.

**Program Description:** In the BS in population health program, students learn how social determinants of health, access to care, and infrastructure influence the health of defined groups. They also gain understanding of how community and professional stakeholders work across systems to improve health.

The multidisciplinary program features many modes of learning to enable and empower students. One is experiential learning, including student engagement as citizen scientists, to better understand population health. The program provides training in biomedical informatics, economics, social determinants of health, program and community assessment, program planning and health care delivery. This education leaves graduates well equipped to enter a growing field.

In the program, students can choose a track tailored to their professional interests. This allows them to customize their learning by focusing on health care compliance, health education, environmental systems, health systems design and improvement, or health informatics.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHPOPHLBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students wishing to gain a global perspective and knowledge in preparation for their career.

Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Multiple career opportunities exist for graduates with a degree in population health, depending on the areas of expertise that they developed via core training in population health and the track that they pursued. Those who pursued the biomedical information track, for example, are most qualified for positions that require working with a variety of datasets, while those who chose the health education specialist track are trained to work at the interface of health care and public health.

Specific job titles that currently exist for those trained in population health include:

- community health worker
- health care data analyst
- program coordinator
- population health analyst, coordinator or specialist
- population health practice liaison for population outreach
- research assistant

## Public Health, BS (NHPBHBS)

**Campus:** Downtown Phoenix

**Program Description:** Public health is the practice of preventing disease and promoting good health within groups of people in communities or countries. The BS program in public health educates students through courses that focus on the five pillars of the field: epidemiology, environmental health, health administration, biostatistics, and health promotion and education.

While in the program, students undertake an internship that gives them practical experience in the public health workforce.

The Bachelor of Science in public health pairs well with the health education specialist certificate, the health care policy and delivery certificate, and the hospice and palliative care certificate, each offered by the College of Health Solutions.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR MAT 117 College Algebra

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHPBHBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: Study abroad is important for future success in the public health field. Exposure to unique health environments expands students' cultural competencies and worldviews and eliminates bias, and students can enhance their portfolio of experience through hands-on research, all of which gives them an advantage in their field.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their experience to their unique interests and skill sets. Whether in a foreign country, the U.S. or online, students in public health are able to learn about unique health environments and differences in human condition worldwide. The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs/public-health>) for students majoring in public health.

**Career Opportunities:** Graduates of this program qualify for entry-level positions in public health education, sanitation and environmental control, public health administration, health promotion, and similar areas. Employment opportunities are available within national, state and local health departments and in community clinics, community and private advocacy groups, health education programs and nonprofit organizations.

Popular positions include:

- community health workers --- liaise with officials to improve the quality and cultural competence of health care service delivery to the community or to vulnerable groups
- environmental specialists --- investigate environmental health and food risks, advise the community on risk reduction and implement public health projects
- occupational health and safety specialists --- inspect workplaces for adherence to regulations and design programs for injury and illness prevention
- public health educators --- develop and implement strategies to improve the health of individuals and communities
- sanitarians --- observe facilities to ensure minimal disease spread, develop protocols for hygiene and monitor the handling of waste

The program also provides graduates with the knowledge and skills that allow them to continue their education in graduate programs in public health or community health.

## **Speech and Hearing Science, BS (LASHSBS)**

**Campus:** Tempe, Online

The BS/MS accelerated option for this program is not currently available to ASU Online students.

**Program Description:** Students in the BS program in speech and hearing science study the normal aspects of the communication process. Emphasis is placed on the human communication system, including anatomy and physiology of the hearing and speech mechanisms; speech, language and hearing science; and normal development of speech and language production and perception. Upper-division coursework introduces clinical methods and disorders of speech, language and hearing.

Students attain broad-based knowledge in the basic aspects of speech, language and hearing sciences, which prepares them for graduate study in audiology or speech-language pathology or for employment opportunities in related health and behavioral fields.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra or MAT 170 Precalculus

**Program Math Intensity:** Moderate

#### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

#### **Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

## Auditory and Language Neuroscience, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/speech-and-hearing-science-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LASHSBS-null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply knowledge of typical adult speech and language profiles to evaluate speech and language deficits.
- Apply knowledge of typical speech and language development to evaluate developmental speech and language disorders.
- Evaluate the results of audiograms applying knowledge of normal hearing to determine hearing loss and auditory pathologies.

### Global Opportunities:

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs/speech-hearing-science>) for students majoring in speech and hearing science.

**Career Opportunities:** Positions in speech-language pathology and audiology are in high demand, rated as careers with bright outlooks by the U.S. Department of Labor's Occupational Information Network. Employment opportunities for program graduates may include positions as:

- audiology assistants
- hearing aid or cochlear implant company representatives
- research assistants or associates in behavioral disciplines
- speech-language pathology assistants
- support personnel in rehabilitation or health facilities

Many graduates of speech and hearing sciences gain entrance into a graduate-level program in speech-language pathology or audiology. In both fields, a graduate degree is required for employment.

The undergraduate degree in speech and hearing science is also excellent preparation for those who wish to enter professional or graduate programs in fields such as:

- counseling
- education
- medicine
- rehabilitation
- social work
- special education
- teaching for the deaf

Graduates work with a variety of populations, including people on the autism spectrum; bilingual language learners; those with delayed or disordered speech and language or those experiencing hearing impairment or stuttering; patients recovering from strokes; or patients with degenerative or neurological disease. Graduates work with patients and clients across the lifespan, from infants to geriatrics, in a variety of settings, including:

- clinics
- hospitals
- private practice
- schools, all levels of preschool through secondary

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Sports Science and Performance Programming, BS (NHSPTSPPBS)

**Campus:** Downtown Phoenix, West

**Program Description:** Supporting individuals at close to maximal effort requires specialized knowledge and skills. The BS program in sports science and performance programming prepares students to work with participants in sports, occupational and tactical environments in order to maximize their potential. Students learn the complexities of performance assessment and programming which can enable careers in sport science, sports medicine or biomechanics.

The National Strength and Conditioning Association has identified a need for sports performance and tactical performance specialists to be more knowledgeable about human physiology, movement mechanics and the technologies used to provide feedback. Graduates understand how to push the limits of performance as well as recognize the stress the body undergoes during training, enabling them to plan successful exercise and recovery programs.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra or MAT 170 Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHSPTSPPBS-null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply coaching strategies to maximize efficiency and performance of individuals and reduce the risk of injury under high stress during performance training.
- Understand the scientific foundations that govern adaptation and movement optimization identified as foundational competencies for the Certified Strength and Conditioning Specialist examination and necessary to properly construct advanced performance programs.
- Create evidence-based sports performance programs designed to improve individual and/or team performance and reduce the risk of injury potential during their participation in their activities.

#### **Global Opportunities:**

Global Experience: Students studying sports science and performance programming work to push the limits of peak sports performance. When studying abroad, they gain valuable skills in leadership, communication and critical thinking which they can use to push the limits of their personal knowledge and experience.

Study abroad experience allows students to stand out in a competitive field and leads to cultural enrichment and competency. For more information, students can visit the Global Education Office website (<https://goglobal.asu.edu/>).

**Career Opportunities:** Degree coursework prepares students to sit for certification testing through the National Strength and Conditioning Association for certified strength and conditioning specialist or tactical strength and conditioning facilitator credentials. Graduates are also prepared to work in the sports performance field or pursue graduate study in sports science, athletic training or other exercise science-related disciplines.

Career options for this degree include opportunities in sports performance training in high school, collegiate, professional and private sector markets. In addition, students are prepared for careers in tactical performance training with local, state and national governmental agencies including work with police, firefighters and military personnel. Graduates are also prepared to work in the emerging sports science field or to consult on athlete talent or potential.

A few potential career options from this degree or with some additional education include:

- athletic trainer
- fitness center director
- gait analyst
- performance center director
- sports data technician
- sports engineer
- sports performance coach
- sports scientist
- tactical performance coach

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Honors - Barrett, The Honors College

### Honors College, (9HOHONALL)

**Campus:** Downtown Phoenix, Polytechnic, Tempe, West

**Program Description:** Barrett, The Honors College is a community of scholars committed to an honors education, whether at any of the four of ASU campuses in metropolitan Phoenix or through ASU Online. The unique honors curriculum and honors-only benefits provide opportunities for students to enhance their Sun Devil experience.

The honors college is designed to complement the overall ASU experience by providing additional opportunities within any major and the university at large.

Barrett students earn the same 120 college credits that any other ASU student needs in order to graduate with a bachelor's degree, but a portion of them are earned as honors credits. There are a variety of ways to earn honors credits, from major-specific classes to internships, research, service learning and travel programs.

Barrett students participate in two different college experiences simultaneously. Not only are all Barrett students part of a premier Research I university (<https://www.asu.edu/rankings>), with considerable resources in the sheer number and variety of degree programs, they are also part of the nation's top honors college (<https://barretthonors.asu.edu/rankings>) with benefits more typical of a small, private college. Students leverage their status in honors to dive deeper into their interests through faculty mentorship, access to unique research and internship opportunities, specialized projects in classes, domestic and international travel programs, co-curricular opportunities, and student led engagement activities.

The residential and academic community of Barrett allows students to feel at home at ASU. Through the comprehensive residential communities at each Barrett campus, honors students enjoy community spaces, special events and student organizations right where they live. Barrett students are also supported by more than 43 full-time professors, 70 full-time staff members, a dean, vice dean, and an associate dean at each campus. Additionally, Barrett students have access to the T.W. Lewis Center for Personal Development (<https://barretthonors.asu.edu/academics/tw-lewis-center>), which provides programs and services that help prepare students for the challenges and opportunities of life. To accomplish this objective, the Lewis Center provides innovative courses, workshops and an engaging speaker series focused on self-awareness (behaviors, values, strengths), personal values and character development, leadership and entrepreneurship, decision-making and risk-taking, career planning, success, and happiness.

Barrett students are focused on excellence beyond their college experience and take advantage of the Lorraine Frank Office of National Scholarship and Advisement (<https://onsa.asu.edu/>), which serves all of ASU, and is located in the Barrett Complex on the ASU Tempe campus. There, Barrett faculty and staff mentor students as they apply for national and international fellowships. Each year, ASU students are selected for prestigious recognitions and awards, including from the Rhodes Scholarship, Gates Cambridge Scholarship, Thomas R. Pickering Foreign Affairs Fellowship, Goldwater Scholarship, Boren Awards for International Study and Killam Fellowship Program. ASU students also have been awarded the Benjamin A. Gilman International Scholarship, the National Science Foundation Graduate Research Fellowship Program and from the Fulbright U.S. Student Program, placing ASU among the nation's top producers of fellowship winners.

**Additional Program Fee:** Y

**Second Language Requirement:** N

#### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Additional Requirements:** Students must complete an application to Arizona State University before submitting a separate application to Barrett, The Honors College (<https://barretthonors.asu.edu>).

Students who have demonstrated high levels of academic achievement in high school or college may apply for admission to Barrett. Each

candidate must file an application to the college separate from the ASU application, in accordance with the appropriate Barrett deadlines.

Applicants are evaluated on the basis of their academic records and their ranking within the graduating class. For fall 2023, ACT and SAT scores are not required. The college also values students who have special talents and aptitudes, exhibit exceptional leadership qualities, have had unusual life experiences or display significant community involvement.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=9HOHONALL-null + &college=CHO>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Barrett, the Honors College highly encourages its students to enhance their educational experience by traveling. With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad is possible for all ASU students who wish to gain global skills and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs. Students can find more information on the Global Barrett (<https://students.barretthonors.asu.edu/enhance-your-experience/global-initiatives-overview>) website.

**Career Opportunities:** Participation in Barrett sets graduates apart from other applicants for jobs, graduate programs, medical school, law school, or any other next step after undergraduate graduation. Barrett graduates showcase an ability to go beyond the minimum requirements to earn a bachelor's degree and a willingness to embrace intellectual curiosity and exploration. Students can explore the alumni page (<https://barretthonors.asu.edu/alumni-success>) to see what Barrett graduates are doing now.

**Contact Information:**

## Integrative Sciences and Arts, College of

### Applied Biological Sciences (Applied Biological Sciences), BS (TSABSABS)

**Campus:** Polytechnic

**Program Description:** The BS program in applied biological sciences offers students solid foundations in biology and related sciences while allowing them to focus on an area of special interest.

Students learn about fundamental principles such as movement of energy and matter, exchange of genetic information, as well as the structure and function relationships that govern life processes. They also learn about ethical and policy challenges that can arise when applying biological principles to social issues.

In this program, students contextualize knowledge through experience-based learning activities, including:

- case studies
- faculty-guided research and service-learning projects
- field trips
- hands-on laboratories and field experience
- internships

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help

international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 251 - Calculus for Life Sciences

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Applied Biological Sciences, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSABSABS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs available in more than 65 countries, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Those in applied biological sciences are able to expand their knowledge of how science impacts society in a variety of cultures, and they can acquire a global perspective, preparing them to lead in a future-focused career. Students earn ASU credit for completed courses while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates may pursue entry-level careers in wildlife and restoration ecology, urban horticulture and secondary education. The general program in applied biological sciences prepares graduates to succeed in graduate and professional schools in disciplines such as:

- biological research
- dentistry
- environmental biotechnology
- human health

- medicine
- physical therapy
- secondary education

## Applied Biological Sciences (Applied Ecology and Preveterinary Medicine), BS (TSABSRBS)

**Campus:** Polytechnic

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

**Program Description:** The applied ecology and preveterinary medicine concentration in the BS program in applied biological sciences is designed for students who want a strong scientific foundation in animal biology and health.

It is especially appropriate for students who plan to enter graduate or professional programs in veterinary medicine, animal health, wildlife biology and ecology or who plan to start careers related to wildlife biology, ecology, restoration and rangeland management.

Public and private career options are diverse and include small- and large-animal veterinary medicine, wildlife veterinary medicine, domestic and wild animal care, animal biology, habitat research and secondary education.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Applied Biological Sciences, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSABSRBS~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), participating in a Global Education program (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates can pursue numerous entry-level careers in animal health and nutrition. The program in applied biological sciences also prepares graduates to succeed in graduate or professional schools in disciplines such as:

- animal biology
- animal health
- veterinary medicine

## Applied Biological Sciences (Natural Resource Ecology), BS (LSABSNRBS)

**Campus:** Polytechnic

**Program Description:** The concentration in natural resource ecology in the BS program in applied biological sciences offers students the broad base of knowledge they need to sustainably manage natural resources in a variety of ecosystems.

Students learn about fundamental components of natural systems such as soils and water and the plant and wildlife communities they support. Students also learn to measure and assess plant and animal populations through a variety of field techniques and computer tools, including geographic information systems and remote sensing. Knowledge and techniques are applied to case studies in the classroom and laboratory projects.

Students in this program contextualize knowledge through experience-based learning activities, including:

- case studies
- faculty-guided research and service-learning projects
- field trips
- internships
- laboratories and field experiences

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 251 - Calculus for Life Sciences

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Applied Biological Sciences, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSABSNRBS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: The natural world is complex and diverse, providing different resources from one biome to the next. Not only are natural resources varied across the globe, so are their uses. Students who participate in Global Education programs (<https://goglobal.asu.edu/>) gain a deeper understanding of global resources, how different cultures use the resources, and how best to communicate sustainable use to a diverse audience.

**Career Opportunities:** Career opportunities include employment with public agencies and private consulting firms and in positions such as:

- environmental consultant
- environmental researcher and educator
- natural resource manager
- park manager
- watershed manager
- wildlife biologist or ecologist

## Applied Biological Sciences (Pre-Dental), BS (LSABSPDBS)

**Campus:** Polytechnic, Online

**Program Description:** The purpose of the concentration in pre-dental medicine in the BS program in applied biological sciences is to prepare undergraduate students to successfully complete the admission requirements for the pursuit of an advanced degree in dental medicine.

The concentration curriculum emphasizes a solid foundation in biology, chemistry, physics and mathematics while offering specialized courses related to dental medicine as well as opportunities for placement in internships in the field.

Students in this program contextualize knowledge through experience-based learning activities, including:

- case studies
- faculty-guided research and service-learning projects
- field trips
- internships
- laboratory activities

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 251 - Calculus for Life Sciences

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/biological-sciences-pre-dental/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSABSPDBS--null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), participation in a Global Education program (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire global skills and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Career opportunities for graduates of this program may include entry into professional programs in dental medicine. In addition, this program can lead to dental-focused careers outside of dental medicine.

The pre-dental program in applied biological sciences prepares graduates to succeed in graduate and professional schools in disciplines such as:

- biological research
- dental school
- environmental biotechnology
- human health
- medicine

- physical therapy
- secondary education

## Applied Biological Sciences (Secondary Education in Biology), BS (TSABSSBS)

**Campus:** Polytechnic

**Program Description:** The secondary education in biology concentration in the BS program in applied biological sciences is designed for students who want to teach biology at the middle school to high school levels.

In addition to the standard curriculum, students receive hands-on experience in laboratory instruction. The goal of the program is to prepare students to become teachers who excel both in biology and the related sciences.

Students in this program contextualize knowledge through experience-based learning activities, including:

- case studies
- faculty-guided research and service-learning projects
- hands on laboratories
- secondary education clinical experience

Students enrolling in this concentration should also contact the Mary Lou Fulton Teachers College for information on teacher preparation coursework.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the 2023-24 Academic Catalog Archive

STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 251 - Calculus for Life Sciences

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Applied Biological Sciences, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSABSSBS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Those wishing to pursue a future in education must understand how classrooms are shaped by the students' diverse experiences, backgrounds and cultures. Global Education programs (<https://goglobal.asu.edu/>) offer firsthand experience in a wide range of cultures and communities, which can enhance a degree program. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs. Programs can be found in a variety of countries around the world.

**Career Opportunities:** Graduates of this concentration are prepared to teach biology in high schools as well as pursue numerous entry-level careers in biology. Employment opportunities exist in private and public sectors. Graduates of the general program in applied biological sciences are also prepared to succeed in graduate or professional schools in disciplines such as:

- animal health
- dentistry
- medicine
- nonprofit educator

- physical therapy
- teaching

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Applied Biological Sciences (Sustainable Horticulture), BS (TSABSUBS)

**Campus:** Polytechnic

**Program Description:** The sustainable horticulture concentration within the BS program in applied biological sciences is designed for students who want theory and practical experiences in unique aspects of plant culture in an urban desert environment.

Students acquire the skills to produce, design and care for ornamental and edible plantscapes. Students interested in sustainable practices have the opportunity to specialize in vertical farming and other plant-related technologies. Students in this program contextualize knowledge through experience-based learning activities, including:

- case studies
- faculty-guided research and service-learning projects
- field trips
- greenhouse experiences
- internships

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 251 - Calculus for Life Sciences

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Applied Biological Sciences, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSABSUBS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: Students can explore habitats and ecosystems around the world in one of several Global Education programs (<https://goglobal.asu.edu/>); opportunities include working with scientists and conducting independent research. Students can stay on track for graduation by earning ASU credit while becoming immersed in other cultures. Studying abroad builds professional skills that employers demand, such as collaboration and critical thinking.

**Career Opportunities:** Horticulture is a multibillion dollar national and international enterprise that offers a diverse and exciting choice of professional careers. Graduates can pursue numerous entry-level careers in horticulture. Employment opportunities exist in private and public sectors. The general program in sustainable horticulture also prepares graduates to succeed in roles such as:

- arboretum or botanical garden manager
- city horticulturist
- horticultural consultant, plant researcher or educator
- horticulture supply sales representative
- integrated pest management specialist
- interior plant specialist or plant propagator
- landscape designer or contractor
- nursery plant broker or cultivator and plant salesperson
- organic urban farmer or permaculturist
- urban plant ecologist, forester, tree specialist or arborist

Career opportunities for urban horticulture graduates are not limited to any one geographic location; graduates can embark on careers throughout the United States, Canada, Mexico and overseas.

## **Applied Mathematics, BS (LSMATBS)**

**Campus:** Polytechnic

**Program Description:** The BS in applied mathematics offered by the College of Integrative Sciences and Arts is a transdisciplinary program focused on developing flexible problem-solvers who can apply mathematical techniques and skills to a wide range of problems in the sciences, such as biology, social sciences, chemistry, physics and engineering.

The coursework builds a foundation in mathematical modeling, data analysis and the interpretation of mathematical results in real-world settings. Students choose electives in the sciences, technology, engineering or other areas of interest to complement and provide context for their mathematical training.

#### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website.

The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 270 - Calculus w/Analytic Geometry Ior MAT 265 Calculus for Engineers

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSMATBS~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students gain valuable experience when studying abroad, experience which will enhance their resumes. Students often cite participating in Global Education programs (<https://goglobal.asu.edu/>) as the highlight of their academic career and a crucial moment in helping them gain a clearer view of the world, its peoples and the complex challenges facing us all.

The Global Education office offers a suite of faculty-directed global experience programs designed to connect students with real-life issues that impact local communities yet transect borders. Through any of the more than 300 programs available, students can see the world as they never have before and come away with memories to last a lifetime. Graduates who possess the heightened cultural competency and leadership and critical thinking skills they acquired through study abroad may stand out in a competitive field.

The College of Integrative Sciences and Arts recommends these programs (<https://goglobal.asu.edu/students/major/applied-mathematics>) for students majoring in applied mathematics.

**Career Opportunities:** Graduates are prepared to apply their analytic skills and technical knowledge to problems in a range of careers in industry, government, education or nonprofit organizations. They also pursue advanced degrees in the mathematical sciences (e.g., mathematics, statistics and applied mathematics such as mathematical biology).

## Applied Physics, BS (LSAPHYBS)

**Campus:** Polytechnic

**Program Description:** The acceleration of advances at the frontier where physics, engineering and technology meet creates a need for interdisciplinary training and research that is not readily accommodated by traditional single-focus programs in physics.

Pairing fundamental physics with immediate applications, the BS program in applied physics is attractive to students whose interests span new physical technologies in industry and engineering. The degree program combines physics, computer science and applied mathematics to tackle complex real-life problems in physics, material sciences, engineering, chemistry and others.

This bachelor's degree program brings together the expertise of physics faculty, particularly in the modeling of physical systems, which relies heavily on both modern numerical techniques and fundamental physics.

The growing presence of Intel and other high-tech companies in the east valley and metropolitan Phoenix presents a unique opportunity to enhance the students' interaction with industry. Given the importance of hands-on experience, the degree program offers a series of unique courses allowing students interactive involvement in a project-based environment.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 265 - Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSAPHYBS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) students majoring in applied physics are able to gain valuable hands-on experience tailored to their unique interests and skill sets as well as personal enrichment plus the heightened cultural competency and leadership and critical thinking skills that will be an advantage in their career.

With more than 300 Global Education programs available, whether in a foreign country, in the U.S., or online, students build communication skills, are challenged to adapt and persevere, are exposed to differences across the world, and increase their ability to work with diverse groups of people.

**Career Opportunities:** Graduates apply their knowledge in high-performance and scientific computing, biophysics, condensed matter physics, chemistry, material science, electrodynamics and radar physics. This knowledge is vital for employment in chemical and pharmaceutical companies, environmental management agencies and firms specializing in scientific software. Graduates are also prepared to continue their studies in graduate programs in physics and chemistry.

## Applied Quantitative Science, BS (LSAQSBS)

**Campus:** Polytechnic

**Program Description:** Students in the BS program in applied quantitative science learn to integrate and apply STEM-supported skills that are increasingly in demand for future focused careers. Students acquire six habits of mind, a mental practice that becomes increasingly automatic with progress through the curriculum and after, extending into career development.

Students learn to:

- apply and project quantitative reasoning to unfamiliar contexts
- communicate well within and without the expert domain
- critically and adaptably think about complex problems
- effectively search through and evaluate information
- experiment creatively and in an informed manner in search of new insights
- use sophisticated insight involving statistical inference and quantitative reasoning

### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSAQSBS~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### **Global Opportunities:**

Global Experience: With more than 300 programs available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their experience to their unique interests and skill sets. Students in applied quantitative science are able to gain hands-on experience in a variety of countries around the world. Graduates who possess the heightened cultural competency and leadership and critical thinking skills they acquired through study abroad may stand out in a competitive field.

**Career Opportunities:** Increasingly, employers are hiring people who know how to use quantitative information. Graduates of this degree program

are equipped with the skills and knowledge sought by today's employers. People who work in any business or industry need to use quantitative skills to solve problems.

## Applied Science (Animal Biology), BAS (LSANBIOBAS)

**Campus:** Polytechnic

**Program Description:** The BAS program with a concentration in animal biology provides a direct pathway from an AAS degree to a Bachelor of Applied Science degree for students who want to prepare for careers in management, scientific and medical fields relevant to animals.

Students learn the underlying principles of animal health --- grounded in knowledge of cells, biological systems and behavior --- in order to solve problems in animal health and care. The curriculum emphasizes a solid foundation in biology, animal science and mathematics while offering specialized courses and opportunities for placement in internships in the field.

Students have access to a variety of career resources and opportunities to explore professions and engage with established professionals in a variety of fields.

**Additional Program Fee:** N

**Second Language Requirement:** N

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Admission Requirements: Transfer students must complete BIO 181 General Biology I and 182 General Biology II (or equivalent) and Chemistry 101 or CHM 113 General Chemistry I (or equivalent).

**Change of Major Requirements:** Only students who have completed an Associate of Applied Science degree are eligible to declare Bachelor of Applied Science majors at ASU.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSANBIOBAS~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs available in more than 65 countries, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Students are able to expand their knowledge of animal biology science and how it impacts society in a variety of cultures, and they can acquire a global perspective which will prepare them to lead in their career.

Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates may have numerous entry-level careers in animal health and nutrition, and they are also prepared to succeed in graduate or professional schools in disciplines such as:

- animal biology
- animal health
- biological research
- veterinary medicine

**Contact Information:**

## Applied Science (Applied Leadership), BAS (LSALSBAS)

**Campus:** Polytechnic, Tempe, ASU at Cochise, ASU at Pima, ASU at Pinal, ASU at The Gila Valley, ASU at Yavapai, Online

**Program Description:** This BAS program prepares students for leadership positions in a wide variety of organizations and career fields.

The concentration in applied leadership focuses on the practice of innovative and effective leadership and helps students develop the skills and knowledge that leaders need to solve problems, communicate effectively, resolve conflicts, assess program effectiveness, lead projects and manage resources. It provides a valuable degree pathway for students with AAS degrees in fields such as fire science, environmental technology, machine shop technology and welding technology.

Students learn leadership skills that prepare them to become effective leaders in diverse environments --- applying those skills as team leaders, floor managers and shift captains.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students applying to this program must have completed an AAS degree from a regionally accredited institution. For students with an Associate of Applied Science from an Arizona community college, the AGECE is recommended but not required. This program is not available for freshmen.

**Change of Major Requirements:** Only students who have completed an Associate of Applied Science degree are eligible to declare Bachelor of Applied Science majors at ASU.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/applied-leadership-bas/>) for program descriptions and to

request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSALSBAS~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students studying applied leadership can become influential and innovative leaders in the world. Through unique study abroad experiences across the globe, students gain valuable leadership and communication skills. Whether in a foreign country, in the U.S. or online, by participating in one of the over 300 available Global Education programs (<https://goglobal.asu.edu/>), students expand their scope of learning beyond the classroom and gain hands-on experience in different and exciting cultures.

**Career Opportunities:** Graduates possess skills and knowledge needed for leadership positions in a wide range of organizations, including business, government, nonprofit agencies and the service industry.

## Applied Science (Project Management), BAS (LSAPSPMBAS)

**Campus:** Polytechnic, Tempe, Online

**Program Description:** The BAS program in project management offers a skills-driven curriculum that prepares students to be excellent project managers.

Students acquire the skills they need to ensure the progress and successful completion of complex projects: project leadership, project quality management, project risk management, project schedule management, project cost management and project resource management.

Students also explore the skills and knowledge that leaders employ when they organize diverse teams, evaluate ethical situations, innovate, solve problems, communicate effectively, assess leadership and organizational effectiveness, manage resources and use emerging technologies in organizations.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)  
International (<https://admission.asu.edu/international/undergrad-apply>)  
Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: This program is not available for first-year students.

Transfer Admission Requirements: Students applying to this program must have completed an AAS degree from a regionally accredited institution. For students with an Associate of Applied Science from an Arizona community college, the AGEC is recommended but not required.

**Change of Major Requirements:** Students changing their major to this program must have completed an AAS degree from a regionally accredited institution.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/project-management-transfer-degree/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSAPSPMBAS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), participating in a Global Education program (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for a career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates possess the skills and knowledge needed for project management and leadership positions in a wide range of organizations, including business, government, nonprofit agencies and the service industry. Project managers can be housed within many specific industries, such as health care, information technology and construction management.

#### **Contact Information:**

## **Applied Science (Technical Communication), BAS (LSTECBAS)**

**Campus:** Polytechnic

**Program Description:** The BAS in applied science with a concentration in technical communication is a flexible degree program designed specifically for students who have earned an AAS degree from a regionally accredited institution. This major combines the technical experience gained in the student's associate degree program with a broader education of skills in management, leadership, critical thinking and communication.

Technical communication is applied workplace communication that makes technical information understandable and available to many audiences. In the technical communication concentration, students learn how to produce, design and manage information using both traditional and developing technologies.

#### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution. This program is not available to first-year students.

**Change of Major Requirements:** Only students who have completed an Associate of Applied Science degree are eligible to declare Bachelor of Applied Science majors at ASU.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSTECBAS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Technology is connecting the world, and future technical communication professionals must be proficient in cross-cultural communication --- a skill well-developed through study abroad. Students earn ASU credit for completed courses while staying on track for graduation, and may apply financial aid and scholarships toward program costs. Global Education programs (<https://goglobal.asu.edu/>) can include research and volunteer experiences, all while students are being immersed in another culture.

**Career Opportunities:** The Bureau of Labor Statistics estimates the need for writers and editors will increase by 25% during the next five years. Software and electronics companies, media corporations, financial institutions, government agencies, nonprofits and other areas will see an increased demand for writers.

Students in the program prepare for careers as:

- advertising and promotions managers
- communications professors
- copy writers
- correspondence clerks
- court clerks
- desktop publishers
- editors
- media and communication workers
- proofreaders and copy markers
- public relations specialists
- technical writers

**Contact Information:**

## Communication, BA (LSCOMBA)

**Campus:** Downtown Phoenix, Polytechnic

**Program Description:** The BA program in communication in the College of Integrative Sciences and Arts explores how communication processes create, maintain and transform identities, relationships, workplaces and communities.

Through the exploration, analysis and application of human communication, students gain the knowledge, creativity and skills they need to facilitate healthy relationships and workplaces, civil and sustainable communities and constructive intercultural interactions. With an integrative and applied emphasis on culture and communication, community advocacy and communication technologies, the program allows for a concerted focus on the rapidly changing modalities of communication occurring today. Students learn to speak effectively, communicate across cultures, and critically analyze public controversy.

**Additional Program Fee:** N

**Second Language Requirement:** Yes

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation

**Program Math Intensity:** General

### Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Communication Studies, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSCOMBA~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### Global Opportunities:

Global Experience: Students may engage in a unique and exciting opportunity to gain intercultural experience through tailored, international programs of study. Study abroad can help students improve language and cross-cultural skills for effective communication. They can also develop critical teamwork and problem-solving skills and expand their knowledge of the liberal arts through lenses of different cultures.

Participation in one of the more than 300 Global Education (<https://goglobal.asu.edu/>) programs available, whether in a foreign country, in the U.S. or online, provides students personal enrichment and an opportunity to develop valuable skill sets that can give them an advantage in their career. Students build communication skills, are challenged to adapt and persevere, are exposed to differences across the world, and they increase their ability to work with diverse groups of people.

**Career Opportunities:** Communication graduates are prepared for many different career fields, including public relations, marketing, community organizing and human resources.

Graduates often attend other top tier graduate schools, law schools and business schools, or find gainful employment as:

- advertising and promotion managers
- brand managers
- community care builders
- community organizers
- content creators
- human resource specialists
- influencers
- labor relations specialists
- lawyers
- marketing managers
- media and communication workers
- public officials
- public relations and fundraising managers
- public relations specialists
- social media managers
- survey researchers
- training and development managers

## Counseling and Applied Psychological Science, BS (LSCAPSBS)

**Campus:** Polytechnic, Online

**Program Description:** Counseling and applied psychological science is a specialty in promoting psychological well-being. Counselors and applied psychologists provide the tools and resources necessary for individuals, families and organizations to cope with everyday problems.

The BS program in counseling and applied psychological science provides foundational training in counseling theories, addictions, trauma, lifespan development, group counseling and professional ethics. A unique aspect of the program is its attention to cultural diversity, focusing on age, gender, race, ethnicity, sexual orientation, religion and socioeconomic status. As part of the program, students also participate in a hands-on internship in which they shadow a licensed therapist and apply counseling theory.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 119 - Finite Mathematics or MAT 170 Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/counseling-psychological-science/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSCAPSPBS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: In order to make a positive impact in the lives of others, students must understand the diverse set of experiences, backgrounds and cultures that shape the people with whom they wish to work. When studying abroad, students gain firsthand experience of a wide range of cultures and communities. Global Education programs (<https://goglobal.asu.edu/>) provides students with a unique global perspective with which they can impact the world.

**Career Opportunities:** Graduates with a degree in counseling and applied psychological sciences are prepared for careers in various settings:

- community centers
- government (sales and marketing, human resources management)
- mental health professions (youth counselor, substance abuse counselor, behavioral health technician)
- social services (high school psychology teacher, occupational analyst)
- schools and colleges (school psychologists, educators, professors)
- substance abuse treatment clinics

Graduates may qualify for employment in behavioral health care delivery settings such as community agencies, hospitals and rehabilitation centers to support counselors and other mental health professionals, and they are prepared for a variety of careers, such as vocational rehabilitation assistants, human service workers and life-skills instructors. The Bureau of Labor Statistics shows the outlook for job growth (2019 to 2029) for substance abuse, behavioral disorder and mental health counselors is 25%, which is much faster than average.

Graduates of this program are not license-eligible as professional counselors but are well prepared with an excellent foundation for entering graduate degree programs in disciplines such as counselor education, counseling psychology, clinical psychology, social work and family studies, counseling and related fields.

## Counseling and Applied Psychological Science (Sports and Performance Counseling), BS (LSCAPSSPBS)

**Campus:** Polytechnic, Online

**Program Description:** Counseling and applied psychological science is a practical specialty that promotes psychological well-being.

The sports performance counseling concentration of the BS program in counseling and applied psychological science provides foundational training

in the psychology of performance and related counseling theories and skills that is geared toward professionals in a wide range of fields.

This program prepares graduates to support licensed professionals in counseling and counseling psychology; it also readies them for graduate study in counseling psychology, sport psychology, counselor education and other fields. Additional education is required for students who wish to become licensed professionals, teachers or professors.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 119 - Finite Mathematics

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/counseling-psychological-science-sports-performance-counseling>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSCAPSSPBS~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: In order to make a positive impact in the lives of others, students must understand the diverse set of experiences, backgrounds and cultures that shape the people with whom they wish to work. When studying abroad, students gain firsthand experience of a wide range of cultures and communities. Global Education programs (<https://goglobal.asu.edu/>) provide students with a unique global perspective with which they can impact the world.

**Career Opportunities:** Graduates are able to assist licensed mental health counselors and psychologists in providing services that focus on mental health and optimal performance.

Such employment is found in a variety of settings, including community centers, the corporate world, educational institutions, independent consulting, social service agencies, and sports, and in behavioral health care delivery settings such as community agencies, hospitals and rehabilitation centers.

Career examples include:

- athletic coach
- behavioral health technician
- educator

- human resources manager
- human service worker
- life skills instructor
- mental health professional
- mental performance coach or consultant for athletes, first responders and military personnel
- occupational analyst
- performance consultant for the arts, industry and the services sector
- school psychologist
- substance abuse counselor
- trainer for human resources, sales and marketing, and career transition
- vocational rehabilitation assistant
- youth counselor

The U.S. Bureau of Labor Statistics shows a much faster than average increase (23%) in the job outlook for mental health counselors and as fast as an average increase (8%) for psychologists for the period 2020 to 2030.

## Counseling and Applied Psychological Science (Substance Abuse and Addictions), BS (LSCAPSAABS)

**Campus:** Polytechnic, Online

**Program Description:** Counseling and applied psychological science is a specialty promoting psychological well-being.

The substance abuse and addictions concentration of the BS program in counseling and applied psychological science provides coursework in counseling skills and techniques as they relate to substance abuse and addictions. Students acquire the necessary skills in screening, assessing, diagnosing and planning treatment of patients afflicted with substance abuse, addictions and related disorders.

While this program does not make students license-eligible counselors, the coursework meets the requirements for the Licensed Substance Abuse Technician credential through the Arizona Board of Behavioral Health Examiners (<https://www.azbbhe.us/node/553>) (<https://www.azbbhe.us/node/553>)).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 119 - Finite Mathematics or MAT 170 Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/counseling-psychological-sciences/>) for program descriptions

and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSCAPSAABS~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: To make a positive impact in the lives of others, students must understand the diverse set of experiences, backgrounds and cultures that shape the people with whom they wish to work. Through Global Education programs (<https://goglobal.asu.edu/>), students gain firsthand understanding of a wide range of cultures and communities, and they acquire a unique global perspective with which they can impact the world.

**Career Opportunities:** The projected job outlook for substance abuse and behavioral disorder counselors is estimated to increase by 25% between 2014 and 2024. A licensed substance abuse technician is at the entry level of serving clients who struggle with substance use and addictions. The LSAT assists substance abuse counselors in prevention and intervention efforts to individuals, groups and organizations. The LSAT credential prepares students for careers in substance abuse treatment clinics, community centers, social services and education settings under the supervision of licensed mental health professionals.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## English, BA (LSENGBA)

**Campus:** Polytechnic

**Program Description:** The BA program in English is focused on literature, writing, film and culture.

Courses address a wide variety of genres, traditions and time periods. Students engage in close reading and critical thinking as they work with powerful, multilayered texts. They build communication skills as they compose for multiple purposes and audiences. The program ends with a degree capstone that allows students to use their skills and knowledge in a personalized academic or creative project.

Students are encouraged to pursue internship opportunities such as working in online publishing with Superstition Review (<https://superstitionreview.asu.edu/>) or mentoring youth writers in Young Authors' Studio.

Students must complete a minimum of 12 upper-division credit hours of ENG courses offered by the College of Integrative Sciences and Arts.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

#### **Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Liberal Studies (Film and Media Studies), MLSt
- Liberal Studies, MLSt
- Organizational Leadership, MS
- Project Management, MPM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSENGBA~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: English students can explore the hometowns of famous authors and visit locations that have inspired masterpieces of both fiction and nonfiction. Study abroad programs (<https://goglobal.asu.edu/>) offer students the chance to build a global perspective and knowledge in unique environments as preparation for leadership in a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and may apply financial aid and scholarships toward program costs.

The College of Integrative Sciences and Arts recommends these study abroad programs (<https://goglobal.asu.edu/students/major/english>) for students majoring in English.

**Career Opportunities:** The bachelor's degree program in English prepares scholars and teachers for graduate or professional study and for careers in education, writing and other related fields. Career prospects for secondary language-arts teachers in Arizona are particularly strong. More importantly, students in the program develop skills that employers value, such as analyzing ideas and problems, finding and evaluating information, communicating effectively and presenting clear and logical arguments. With these skills, graduates of the program can find jobs such as these:

- advertising and promotions managers
- copy writers
- editors
- lawyers
- media and communication workers
- paralegals and legal assistants
- public relations specialists
- teachers and instructors
- technical writers
- writers and authors

## General Studies, BA (LSGNSBGS)

**Campus:** Downtown Phoenix, Polytechnic, ASU at Lake Havasu

**Program Description:** The BA program in general studies offers students a flexible, innovative path to degree completion. Graduates of the program are informed and effective members of society who are well prepared for a changing global marketplace with its diverse cultures.

The theme of this degree is professional preparedness and integrating the needs of society and the individual. Students explore the tensions between individualism and collectivism, the public and private selves, service and community, domestic and global, and the interplay of culture and identity constructions.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSGNSBGS~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire global skills and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Those who have majored in general studies have the option of working in almost any field that requires effective interaction with others, fields as diverse as sales, social services, organizational management, and government administration. Graduates are equipped with transferable skills highly desired by many employers; therefore, a wide array of job choices are available. The bachelor's degree creates great flexibility in career choice because of the versatility within the program.

Graduates may choose occupations for which their cluster prepares them, including:

- administrative services manager
- curator
- medical and health service
- military and veteran's services
- property, real estate and community association managers
- public relations specialist
- purchasing manager
- real estate sales agent
- sales manager
- writer and author

## History, BA (LSHISBA)

**Campus:** Polytechnic

**Program Description:** The BA program in history focuses on American history, with coursework in European, Latin American and global historical perspectives. Faculty expertise includes the history of technology and science, biography, war and its effect on society, public history, aviation, environmental history and related fields.

Students are trained in methods of historical research and study the development of human society from social, cultural and political perspectives. The capstone course and other research courses allow students to apply research and writing skills as practitioners of history and creators of analytical narratives.

Students must complete a minimum of 12 upper-division credit hours of HST courses offered by the College of Integrative Sciences and Arts.

Students who would like to combine this degree with teaching certification should contact the Mary Lou Fulton Teachers College.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Liberal Studies (Film and Media Studies), MLSt
- Liberal Studies, MLSt
- Organizational Leadership, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSHISBA~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: History transcends a city, state, province, country and even a continent. Study abroad (<https://goglobal.asu.edu/>) helps students dive deeper into their studies by providing the opportunity to experience firsthand the cultures and places where history has taken place. Students are able to use these encounters to discover the interconnections of ideas and places at primary source sites.

**Career Opportunities:** Graduates are well prepared for careers in education, writing and other related fields. Career prospects for secondary history and social studies teachers in Arizona are particularly strong. Students in the program develop skills in:

- analyzing and assessing ideas and problems
- communicating effectively orally and in prose
- finding and evaluating information
- presenting clear and logical arguments

With these skills, graduates of this program may find jobs in:

Public History

- archivists
- museum curators
- museum technicians and conservators

Legal Professions

- court reporters
- law clerks
- lawyer
- paralegal and legal assistants

Education

- college and university faculty
- middle school teachers
- secondary school teachers

Media and Communication

- broadcast news analysts
- historians
- media and communication workers
- news columnists
- reporters and correspondents
- writers

The bachelor's degree program in history also prepares scholars and teachers for graduate and professional studies.

## History (Veterans, Society and Service), BA (LSHISVSSBA)

**Campus:** Polytechnic

**Program Description:** Students in the veterans, society and service concentration of the BA program in history explore war, military service and veterans as a means to investigate how violence, conflict, military service and other trauma-bearing experiences have shaped political, social and cultural formations in the past and present.

Along with military history, students take courses that place veterans as their subject for critical interdisciplinary investigation that focuses on exploring scholarship and other narratives about military service, war-making and social change (e.g., changes in territorial integrity, sovereignty, national belonging, citizenship, gender and race); the impact of armed conflict and military service on individuals, communities, culture, politics and governments; and how societies remember and think about these things. The curriculum situates the veteran and military subject from a historical perspective, while examining and explaining veteran identities and cultures as a sequence of sociocultural events influenced by a variety of factors. In addition, a robust variety of elective coursework provides a systematic examination of veterans and military institutions as they evolve over time.

This bachelor's degree in history with a concentration in veterans, society and service also provides students with critical thinking and analysis skills needed throughout their career. Students in the program develop skills in:

- analyzing and assessing ideas and problems
- communicating effectively orally and in prose
- finding and evaluating information
- presenting clear and logical arguments

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSHISVSSBA~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: History transcends a city, state, province, country, and even a continent. Study abroad (<https://goglobal.asu.edu/>) helps students dive deeper into their studies by providing the opportunity to experience firsthand the cultures and places where history has taken place.

Students are able to use these encounters to discover the interconnections of ideas and places at primary source sites.

**Career Opportunities:** Graduates are well prepared for careers in education, writing and other related fields. Prospects for careers as high school history and social studies teachers in Arizona are particularly strong.

With the skills gained in the program, graduates may find jobs in:

education

- college and university faculty
- middle school teachers
- high school teachers

legal professions

- court reporters
- law clerks
- lawyers
- paralegals and legal assistants

media and communication

- broadcast news analysts
- historians
- media and communication workers
- news columnists
- reporters and correspondents
- writers

public history

- archivists
- museum curators
- museum technicians and conservators

public service

- community advocates
- managers in veterans affairs organizations
- managers in veterans services and support organizations
- nonprofit administrators

The bachelor's degree also prepares scholars and teachers for graduate and professional studies.

## History of Science, Technology and Innovation, BA (LSHSIIBA)

**Campus:** Polytechnic

**Program Description:** The BA program in the history of science, technology and innovation provides students with a grounding in the social and intellectual issues central to understanding the role of science, technology and ideas from past to present.

This transdisciplinary degree program encourages students to combine coursework in the natural and applied sciences with historical and philosophical approaches to social knowledge.

Students majoring or minoring in the history of science, technology and innovation program graduate with a foundation for advanced work either in the humanities, the sciences or in transdisciplinary fields bridging written and technical work.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSHSIIBA-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad is possible for all ASU students who wish to acquire global skills and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs. More information on programs is available on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** Graduates are prepared for successful careers in a wide range of fields, including science and technical writing, consulting, museum studies, the digital humanities and other fields that benefit from transdisciplinary exchange. Graduates are also prepared to enter advanced programs in history and science as well as law and medical schools.

## Integrative Social Science, BS (LSISSBS)

**Campus:** Polytechnic

**Program Description:** The BS program in integrative social science is designed to cross-educate students in the disciplines of the social sciences to meet the complex issues that confront human society in today's world. Modern social problems require a combination of policies, sociological interventions and economic infrastructure planning.

Theories from multiple social science disciplines provide the basis for effective decision-making and problem-solving. The emphasis of the program is the integration of theories and methodologies. In order to sharpen their skills for practical problem-solving, students need to understand how different disciplines develop solutions.

Graduates of the program are prepared with theory and research skill sets that allow them to draw from the best of the multiple disciplines in the social sciences as they confront a technically sophisticated world.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Integrative Social Science, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSISSBS~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students are able to enhance their understanding of societal structure and human interaction through unique cultural experiences found in study abroad (<https://goglobal.asu.edu/>). They gain heightened cultural competency, communication, and critical thinking skills while exploring a new and exciting part of the world.

**Career Opportunities:** Because of their mastery of the multiple methodologies of the social sciences, graduates of the program have many more professional opportunities available to them than their peers with single-discipline training.

Professionals with expertise in analyzing complex social and global issues are in high demand across sectors and industries, including business, public administration, politics and community organizations. Those who possess skills in the analysis of social phenomena and complex social problems are valuable to businesses and institutions relying on data-driven strategies for engagement and growth.

Career examples include:

- administrator
- government agent
- public relation specialist
- social and community service manager
- social science research analyst
- social scientist
- solutions resource specialist

## Interdisciplinary Studies, BA (LSBISBIS)

**Campus:** Downtown Phoenix, Polytechnic, Tempe, Online

**Program Description:** The Arizona State University BA program in interdisciplinary studies, one of the top five in the country, offers students the freedom to select two areas of study, referred to as concentration areas, from a rich menu of more than 170 options. Students may explore concentration areas by interest area (<https://cisa.asu.edu/ids-concentrations>).

The core curriculum provides students with the intellectual tools to integrate their concentration areas, engage in transdisciplinary problem-solving, and prepare for careers and graduate programs that increasingly cross disciplinary boundaries. An interdisciplinary studies student could choose to integrate concentrations like business and project management, psychology and social welfare, communication and justice studies, public administration and ethics, digital culture and computer gaming, or many other unique combinations.

Interdisciplinary studies is an approach to answering questions, solving problems and addressing contemporary social issues from multiple perspectives. Interdisciplinary studies students take an active role in designing their educational plans and defining their career goals. The degree program emphasizes written communication, versatility, self-assessment and critical thinking --- essential skills for today's dynamic world.

Those interested in the online program for interdisciplinary studies may visit the ASU Online website for more information.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation

**Program Math Intensity:** General

### Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Liberal Studies (Film and Media Studies), MLSt
- Liberal Studies, MLSt
- Organizational Leadership, MS
- Project Management, MPM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The program is available to all students in good academic standing who have achieved sophomore, junior or senior standing. Students should meet with an advisor to declare their major as interdisciplinary studies.

**Change of Major Requirements:** There are no additional requirements for current ASU students to change majors into this program; however, students interested in the interdisciplinary studies major are highly encouraged to meet with an advisor. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-interdisciplinary-studies/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSBISBIS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Studying and interning abroad can be one of the most valuable tools for interdisciplinary studies students. Study abroad programs (<https://goglobal.asu.edu/>) provide students the opportunity to develop a valuable intercultural communication skill set that can give them an advantage in a future focused workforce.

The College of Integrative Sciences and Arts recommends these programs (<https://goglobal.asu.edu/students/major/interdisciplinary-studies>) for students majoring in interdisciplinary studies.

**Career Opportunities:** The flexibility of the interdisciplinary studies program allows graduates to take many exciting career paths after leaving ASU. While some complete graduate or professional degrees, others immediately enter the job market. For example, one graduate combined business and communication and now owns a small business; another integrated sociology and family studies to further a career in law enforcement; another studied philosophy and economics to prepare for law school; another combined biology and chemistry in preparation to pursue a master of pharmacy degree; and yet another studied Spanish and religious studies and now works as an employee trainer for a major company.

Possible career opportunities include:

- archivist or curator
- climate change analyst
- compliance manager
- computer network support specialist
- editor or web developer
- environmental restoration planner
- general and operations manager
- regulatory affairs manager
- higher education professional
- wholesale and retail buyer (except farm products)

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Interdisciplinary Studies (Organizational Studies), BA (LSORGBIS)

**Campus:** Online

**Program Description:** Interdisciplinary studies is an approach to answering questions, solving problems and addressing contemporary social issues from multiple perspectives. Interdisciplinary students develop the intellectual tools needed to build bridges between academic disciplines and apply their skills, innovations and knowledge in various academic and practical settings.

The BA program in interdisciplinary studies with a concentration in organizational studies is intended for students seeking an interdisciplinary degree and who possess a desire to learn about the dynamics of contemporary organizations. Organizational studies students gain valuable knowledge of management styles, communication strategies, technologies, diversity, ethics and politics.

All coursework for organizational studies is offered online, giving students freedom and flexibility in completing their requirements.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation

**Program Math Intensity:** General

### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### **Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Liberal Studies (Film and Media Studies), MLSt

Liberal Studies, MLSt

Organizational Leadership, MS

Project Management, MPM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSORGBIS~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer

experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Studying and interning abroad can be one of the most valuable options available for interdisciplinary studies students. Global Education programs (<https://goglobal.asu.edu/>) provide students in the organizational studies concentration with the opportunity to develop a valuable intercultural communication skill set that can give them an advantage in a future focused workforce.

The College of Integrative Sciences and Arts recommends these programs (<https://goglobal.asu.edu/students/major/interdisciplinary-studies>) for students majoring in interdisciplinary studies.

**Career Opportunities:** By engaging in a breadth of knowledge and experience, and by acquiring the skills to integrate various domains of knowledge, students prepare themselves for a range of professions, including:

- human resources specialists
- industrial organizational psychologists
- investment fund managers
- loss prevention managers
- management analysts
- regulatory affairs managers
- supply chain managers
- urban and regional planners

Many students majoring in organizational studies already have a chosen career field yet desire a degree that is versatile, flexible, meaningful and affords the opportunity for continued career development and advancement. Because of the flexibility of the program, graduates take many different career paths after finishing their degree. Recent graduates have found opportunities in many exciting fields, such as:

- business
- education
- health care administration
- nonprofit administration
- tourism

## Liberal Studies, BA (LABLSBLS)

**Campus:** Polytechnic, Online

**Program Description:** For students whose interests are too big for any one major, or degree-completion students looking for the best way to finish a bachelor's degree with earned credits, the BA program in liberal studies opens up the academic world for exploration.

The liberal studies major offers a course of study emphasizing the humanities and social sciences and gives students great flexibility in constructing their own educational path. Courses engage students in diverse ideas and perspectives, and students develop habits of mind beneficial in all areas of life. Liberal studies prepares students to meet the challenges of a complex world. It offers a path that enables students to prepare for a career or to change careers, to increase self-understanding, and to develop thoughtful engagement with other people and diverse cultures.

Liberal studies are the oldest form of higher education in the Western tradition, with roots going back to ancient Greece. It was realized early on that democracy depends on a population of educated people who can make and follow arguments, who can communicate clearly in a public forum, and who can learn how to learn about the important subjects affecting people's lives.

A liberal education is not the same thing as being politically liberal in the modern sense, as throughout history people from all political perspectives have made significant contributions to and drawn from the knowledge and skills that define a liberal education.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Data Science), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Integrated Health Care), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM
- Liberal Studies (Film and Media Studies), MLSt
- Liberal Studies, MLSt
- Organizational Leadership, MS
- Project Management, MPM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Admission Requirements: The MyPath2ASU® pathway allows Arizona transfer students to complete a prescribed sequence of courses that meet the requirements for the community college's Associate of Arts degree along with the lower-division requirements for the ASU major.

Students completing their ASU degree at Yuma: Once the MyPath2ASU® pathway requirements are complete, students complete the remaining requirements for the ASU bachelor's degree at the community college.

Students should visit Admission Services (<https://admission.asu.edu/transfer>) for more information about ASU degrees offered at local community colleges.

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-liberal-studies/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

## Military Studies, AA (LSMILSTAA)

**Campus:** Online

**Program Description:** The AA in military studies is designed for a partnership with the U.S. Naval Community College to provide training to enlisted personnel sailors, marines and coast guards. The degree is a rigorous program that provides a comprehensive foundation of study in the history of war and warfare, history of regions identified in the National Defense Strategy, the U.S. foreign policymaking process, international relations theories, and U.S. political and military systems. Through the interdisciplinary curriculum, students gain the tools to use historical analysis, demonstrate critical thinking, and develop strong written and verbal communication skills. The program includes capstone research or an applied project in which students explore the role of the U.S. Navy in advancing the goals of the nation in the past, present or future.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

## Organizational Leadership, AA (LSORGLAA)

**Campus:** Online

**Program Description:** This AA program in organizational leadership is designed to provide leadership training to active duty Navy, Marine Corps and Coast Guard enlisted personnel. This program uses transdisciplinary methods to prepare students to build a leadership foundation. Students learn useful skills applicable to any work or environment, regardless of assigned role, in organizations across all sectors: private, nonprofit, government and military. Students develop the skills that leaders need to solve problems, communicate effectively, assess programs, manage resources, and evaluate emerging technologies.

Students who complete the Associate of Arts can continue in an established transfer path to the BA program in organizational leadership and other ASU degree programs. The flexible Associate of Arts degree allows students to complete general education coursework and concentrated coursework in a second, disciplinary field to prepare for leadership in a specific industry or sector.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students must be accepted to the U.S. Naval Community College to be admitted to this program.

**Change of Major Requirements: NO-DEGREE**

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSORGLAA~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Career Opportunities:** Graduates may pursue a variety of careers, such as:

- account manager
- deputy sheriff trainee
- executive assistant
- facilities manager
- housing assistant
- knowledge manager
- organization development consultant
- sales executive
- sales manager
- service manager
- supervisor

## Organizational Leadership, BA (LSORGLBA)

**Campus:** Polytechnic, ASU at Cochise, ASU at Lake Havasu, ASU at Pima, ASU at Pinal, ASU at The Gila Valley, ASU at Yuma, ASU at Yavapai, Online

**Program Description:** The BA program in organizational leadership program uses transdisciplinary methods that prepare students to become leaders in organizations. Students develop the skills and knowledge that leaders need in order to solve problems, communicate effectively, assess programs, manage resources, and use emerging technologies in organizations.

Students who complete the program in Lake Havasu City choose from three focus areas: organizational behavior, organizational leadership and project management.

Students interested in completing the Bachelor of Arts program in the Gila Valley, Pinal County, Cochise County, Pima County, Yavapai County or Yuma are encouraged to complete a MyPath2ASU® program. Students should see admission requirements below.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap

in curriculum.

### **Accelerated Program Options:**

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Liberal Studies (Film and Media Studies), MLSt
- Liberal Studies, MLSt
- Organizational Leadership, MS
- Project Management, MPM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Admission Requirements: The MyPath2ASU® pathway allows Arizona transfer students to complete a prescribed sequence of courses that meet the requirements for the community college's Associate of Arts degree along with the lower-division requirements for the ASU major.

Students completing their ASU degree at Yuma: Once the MyPath2ASU® pathway requirements are complete, students complete the remaining requirements for the ASU bachelor's degree at the community college.

Students should visit Admission Services (<https://admission.asu.edu/transfer>) for more information about ASU degrees offered at local community colleges.

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-organizational-leadership/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSORGLBA~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### **Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs

The College of Integrative Sciences and Arts recommends these programs (<https://goglobal.asu.edu/students/major/organizational-leadership>) for

students majoring in organizational leadership.

**Career Opportunities:** Graduates possess skills and knowledge they need for a wide range of leadership positions in business, government, health care administration, nonprofit agencies, and the service industry.

Graduates may pursue a variety of careers, such as:

- account manager
- community relations manager
- director of employee services
- director of training
- diversity specialist
- knowledge manager
- organization development consultant
- service manager
- supervisor
- talent manager

## Organizational Leadership (Project Management), BA (LSORGLPMBA)

**Campus:** Polytechnic, Tempe, ASU at Cochise, ASU at Pima, ASU at Pinal, ASU at The Gila Valley, ASU at Yavapai, Online

**Program Description:** The BA program in organizational leadership with a concentration in project management offers a theoretical and skills-driven curriculum to prepare students to be excellent project managers and project management leaders.

Students learn to integrate leadership theory and practice in organizational leadership courses. They learn the skills and knowledge that leaders need to lead diverse teams, innovate, solve problems, communicate effectively, assess leadership and organizational effectiveness, manage resources and use emerging technologies in organizations. Students also acquire the skills necessary to manage complex projects: project leadership, project quality management, project risk management, project schedule management, project cost management and project resource management.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Liberal Studies (Film and Media Studies), MLSt
- Liberal Studies, MLSt
- Organizational Leadership, MS
- Project Management, MPM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/organizational-leadership-project-management-ba/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSORGLPMB~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: The organizational leadership program uses transdisciplinary methods that prepare students to become world-class leaders in the contemporary and fast-paced global workplace. Through study abroad experiences, students develop the skills and knowledge that leaders need to solve problems, communicate effectively, manage complex projects and resources, and use emerging technologies in their organizations. Students can find more information on available programs on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** Graduates are prepared for a range of positions in the public and private sectors, including government, information technology, nonprofit agencies, businesses of many kinds and in the service industry. Graduates are prepared for jobs as technical project managers, project managers versed in the Agile methodology and others, senior project managers, portfolio or project managers or directors of project management. In addition, students may seek advanced study in the form of the Project Management Professional credential, graduate and postbaccalaureate degrees.

According to the U.S. Bureau of Labor Statistics, project manager salaries range anywhere from \$74,000 to \$100,000. The bureau also indicates that the average project manager receives a little more than \$42 per hour in wages.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Organizational Leadership (Veterans, Society and Service), BA (LSORGLVSBA)

**Campus:** Tempe

**Program Description:** The BA program in organizational leadership with a concentration in veterans, society and service offers a skill-driven curriculum to prepare students to be excellent leaders and better serve veterans and those who serve the veteran community. Students learn to integrate leadership theory and practice in organizational leadership courses. They learn the skills and knowledge that leaders need to lead diverse teams, innovate, solve problems, communicate effectively, assess leadership and organizational effectiveness, manage resources, and use emerging technologies in organizations. Students also acquire the skills necessary to engage with veteran and military communities: being sensitive to others, counseling, facilitating group discussion, identifying appropriate resources, and providing support to others.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. ## Political Science, BS (LSPOLBS)

**Campus:** Polytechnic

**Program Description:** The BS program in political science emphasizes broad capabilities valued in a highly skilled workforce, such as data analysis and effective communication as they apply to governance, policy and political theory, as well as the ability to critically review and analyze policy.

The curriculum allows students to explore how political science concepts can be applied within government and society while they develop research skills used across the social sciences. Students enjoy individual and group experiences and opportunities to work with skilled and experienced faculty on concrete intellectual and policy issues.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Integrative Social Science, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSPOLBS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Studying abroad while learning political science adds a global component to students' education, increasing their ability to analyze complex socio-political issues and affording them skills and knowledge that prepare them to lead in their chosen career.

Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs. More information is available on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** The program serves as good preparation for staff, manager or policy analyst positions in local, state and federal government. This degree is recognized by employers as qualification for many careers in business (for-profit and nonprofit) and industry. Opportunities may include positions that involve binational, cross-border positions linking U.S. and Mexican businesses, Arizona-Sonora local government or local community groups on both sides of the border.

Many students use the degree as a gateway to law school or as a basis for further study in such applied fields as:

- community development
- political science
- public administration
- public policy
- social science
- urban affairs
- urban and regional planning

## Psychology, BA (LSPGSBA)

**Campus:** Polytechnic

**Program Description:** Psychology is the scientific study of mind and behavior.

The BA program in psychology emphasizes critical thinking, empirical research methods and writing and adds practical experience through internships, service-learning and faculty-supervised research. The Bachelor of Arts program provides a broad foundation in psychology and affords students the flexibility to choose from a variety of courses outside the major.

Students have the opportunity to participate in faculty-led research labs on a wide range of topics, including:

- PLENA Research Lab (<https://www.plenaresearch.org/> (<https://www.plenaresearch.org/>))
- Couples Coping with Stress Lab (<https://ashleykrandall.wixsite.com/asucouplescoping> (<https://ashleykrandall.wixsite.com/asucouplescoping>))
- Tran Ethnic and Minority Psychology and Experiences (TEMPE) Lab (<https://sites.google.com/site/tempelab/about> (<https://sites.google.com/site/tempelab/about>))

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 119 - Finite Mathematics or MAT 170 Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSPGSBA~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Study abroad students are exposed to unique differences in the human condition worldwide, are able to improve language and cross-cultural skills for effective communication, and are challenged to adapt under new social and cultural circumstances. Participating in one of the more than 300 Global Education programs (<https://goglobal.asu.edu/>) provides an opportunity for students to develop a valuable skill set that can give them an advantage in their career and personal enrichment. Whether in a foreign country, in the U.S. or online, Global Education programs encourage students to build communication skills, challenge them to adapt and persevere, expose them to differences across the world and increase their ability to work with diverse groups of people.

The College of Integrative Sciences and Arts recommends these programs (<https://goglobal.asu.edu/students/major/psychology>) for students

majoring in psychology.

**Career Opportunities:** The Bureau of Labor Statistics shows that the outlook for job growth (2016 to 2026) for psychologists is 14%, which is faster than average.

A degree in psychology prepares students for a career in a variety of settings:

- consulting firms
- government (sales and marketing, human resources, research, administration, management)
- hospitals
- industries and organizations
- mental health agencies
- social services (high school psychology teacher, occupational analyst)

The degree also provides an excellent foundation for graduate study in fields such as public administration, law, family studies, communication and the various graduate program fields in psychology:

- clinical and counseling
- cognitive neuroscience
- developmental
- environmental
- health
- physiological
- social

## Science, Technology and Society, BS (ECSTSBS)

**Campus:** Polytechnic

**Program Description:** The BS program in science, technology and society considers the impacts of science and technology on global and social issues. Information and communication technologies have changed the world in ways no one could have imagined 50 years ago. Everything from the way humans are born to how they die is driven by rapidly changing technologies. As these changes occur, it is important for organization managers and policymakers to understand the implications and respond accordingly.

The questions surrounding how science and technology are changing society are highly transdisciplinary and cultural. Students learn to understand the intricate interrelationships of science, technology and society and become prepared with technical skills and knowledge to promote change. This

extremely flexible program encourages students to focus on real-world social problems, with current and engaging topics such as:

- health and economic disparities
- housing and food insecurities
- identity politics
- social and political unrest
- social change
- technological divide

Problems of the world are complex and multidisciplinary and require a multifaceted approach. Addressing modern social problems often requires a combination of policies, sociological interventions and economic infrastructure planning. Theories from social science disciplines provide the basis for effective decision-making and problem-solving. Graduates of the program are prepared with theory and research skill sets that allow them to draw from the best of the multiple disciplines in the social sciences as they confront a technically sophisticated world.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Integrative Social Science, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ECSTSB~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), participation in a Global Education program (<https://goglobal.asu.edu/>) is possible for all science, technology and society students. Students can benefit from a study abroad experience as it helps students increase their global knowledge and intercultural communication skills which can prepare them for graduate

and professional study as well as for leadership in careers, both domestic and international.

**Career Opportunities:** Graduates are prepared for graduate or professional study or professional careers in the public, nonprofit and governmental spheres and in roles such as:

- academics
- e-commerce analysts
- entrepreneurs
- political scientists
- public relations specialists
- science and technology directors
- social media coordinators

## Technical Communication, BS (LSTECBS)

**Campus:** Polytechnic, Online

**Program Description:** Technical communication is applied workplace communication that makes technical or specialized information understandable and available to many different users. It involves using a range of technologies to craft an ever-expanding array of print and digital information products: websites, social media sites, help files, training materials, grants and proposals, and data visualizations, to name just a few.

Technical communicators work in many professional roles, such as information developers, grant writers, web interface designers or user experience specialists. What all of these roles have in common is the focus on creating accessible and appealing communication that has a practical purpose and is intended for a particular audience.

In the technical communication program, students learn how to analyze, write, design, produce and manage print and digital information using traditional and developing technologies.

The BS degree program in technical communication in the College of Integrative Sciences and Arts is the only undergraduate technical communication degree program available in the state of Arizona.

Those interested in the technical communication online program may visit the ASU Online website for more information.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-technical-communication/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSTECBS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Those who study abroad while learning technical communication will have an advantage in many workplaces. Understanding the global view of applied workplace communication, students become well-rounded communicators, able to utilize various print and digital information products to relate technical and specialized information. More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** The Bureau of Labor Statistics estimates that job growth in technical writing and related areas will continue to be significantly higher than average during the next five years. Software and electronics companies, media corporations, financial institutions, government agencies, nonprofits and other areas will see an increased demand for writers.

Students in the program prepare for careers such as these:

- communication manager
- content strategist
- data visualization specialist
- engineering support specialist
- information architect
- new media or social media specialist
- public relations specialist
- technical writer
- user experience specialist
- web content creator

## Technical Communication (Data Visualization), BS (LSTECDVBS)

**Campus:** Polytechnic, Online

**Program Description:** The data visualization concentration in the BS program in technical communication prepares students for the innovative work of collecting, processing and visualizing data in clear, accurate and dynamic ways to a range of audiences.

Students learn how to structure, model, clean and correlate data. They learn myriad types of data visualizations, how to develop and refine visualizations using a range of software, how to read and develop analytics dashboards, and how to communicate data-driven recommendations and findings. Students gain experience visualizing proportions, patterns over time, complex relationships and spatial data through graphics. They also learn about data visualization ethics, including how to spot misleading graphs and how to ensure the production of responsible and accurate visualizations.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/technical-communication-data-visualization-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSTECDVBS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Studying abroad while learning about data visualization in the world of technical communication gives students an advantage in many workplaces. Understanding the global view of applied workplace communication, students become well-rounded communicators, able to utilize various print and digital information products to relate technical and specialized information. Students can find more information on available programs on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** The field of data visualization continues to grow at a rapid pace. According to Market Watch, the global data visualization industry was valued at 8.8 billion dollars in 2019, and is expected to reach 19.2 billion by 2027. 43% of the market share is held in North America. Students in the program prepare for careers such as:

- communication managers
- computer and information systems managers
- data specialists or analysts
- data visualization developers
- digital designers
- big data engineers
- information architects
- market research analysts

## Technical Communication (Social Media Management), BS (LSTECMMBS)

**Campus:** Polytechnic, Online

**Program Description:** Technical communication concerns communicating about, with and on technology. Social media is a rapidly developing aspect of the technology landscape. Thus, this social media management concentration in the BA program in technical communication concerns the management, history, theory, culture, practice and ethics of social media.

While the technical communication major gives students a wide look at how professional technical communicators do many types of work inside and outside of organizations, this concentration hones in on social media creation as a specific type of technical communication work. Students learn the practical aspects of social media creation alongside the history, legal concepts, ethical ideas and current concerns that shape and inform that practice. Students also learn how to understand existent and emerging social media in ways that will allow them to adapt and thrive in the constantly changing social media environment.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra

**Program Math Intensity:** Moderate

### Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/technical-communication-social-media-management/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSTECMMBS~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### Global Opportunities:

Global Experience: Those who study abroad (<https://goglobal.asu.edu/>) while learning technical communication will have an advantage in many workplaces. Understanding the global view of applied workplace communication, students become well-rounded communicators, able to utilize various print and digital information products to relate technical and specialized information.

**Career Opportunities:** The Bureau of Labor Statistics estimates that job growth in technical communication and related areas will continue to be significantly higher than average during the next five years. Software and electronics companies, media corporations, financial institutions, government agencies, nonprofits and other areas will see an increased demand for technical communicators.

Graduates of the program are prepared for careers such as:

- communication manager
- content strategist
- data visualization specialist
- public relations specialist
- social media manager
- social media specialist
- technical writer
- user experience specialist
- web content creator

## Technical Communication (User Experience), BS (LSTECUBS)

**Campus:** Polytechnic, Online

**Program Description:** The user experience concentration of the BS degree in technical communication provides technical communication majors with an interdisciplinary foundation in communication, research and design that is central to the rapidly growing area of user experience.

The program provides students with a conceptual understanding and applied skills in methods of gathering user information, analyzing data and communicating research findings to stakeholders. Although its disciplinary home and primary focus is technical communication, the concentration includes courses from human systems engineering and graphic information technology in order to provide students with the multiple perspectives and complementary skills needed for user experience work.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College MathematicsAny math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

User Experience, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/technical-communication-user-experience-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® ([https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSTECUBS-null + &college=CLS](https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSTECUBS-null+%&college=CLS)) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students who have studied abroad (<https://goglobal.asu.edu/>) while learning technical communication have an advantage in many workplaces. Understanding the global view of applied workplace communication, students become well-rounded communicators, able to utilize various print and digital information products to relate technical and specialized information. Students also gain an understanding of who users may be and of cultural differences that may affect user needs.

**Career Opportunities:** Technical communicators with expertise in user experience have numerous career opportunities in growth areas such as user experience research, user-centered design, information design, interaction design, information architecture, content strategy and usability analysis.

## Interdisciplinary Arts and Sciences, New College of

### Aging, BS (ASALDBS)

**Campus:** West

**Program Description:** The world's population is rapidly aging as older adults now compose the largest-ever demographic segment. While longer life spans are an enormous gain for human welfare, this rapid shift presents tremendous challenges including health care costs, labor-force shortages, and long-term care demands.

ASU's BS program in aging offers students the opportunity to develop skills in identifying challenges and developing solutions critical to managing these profound demographic trends. Completing courses like Communication and Aging, Aging and the Life Course, and Supporting the Health of Older Adults gives students the skills and mindset to contribute solutions as the proportion of retired adults increases faster than that of persons in the workforce. Completion of the degree includes a culminating experience such as a capstone project or internship experience for experiential learning opportunities beyond the classroom.

This Bachelor of Science program prepares students to be leaders in this burgeoning field. Students learn to develop solutions in areas of personal finance, transportation, increased demands for health care, assisted-living options and recreation needs for an aging population.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap

in curriculum.

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASALDBS~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: With over 300 Global Education programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu>) is possible for all ASU students who wish to acquire global skills and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Career opportunities for graduates of the degree program in aging include advising organizations to better serve older adults, researching service delivery modalities, developing policies for public and private organizations or providing services directly to older populations. Employment in associated career fields is expected to increase commensurately with the needs of a growing and diverse population. People working with aging populations are employed in public and private agencies dealing with a wide variety of social issues, including:

- access to primary and specialized health care
- assisted-living facility management
- disabilities
- discrimination
- elder abuse and family support
- health, mental health and end-of-life decisions
- housing
- recreational opportunities
- transportation

## **Applied Computing, BS (ASACOBS)**

**Campus:** West

**Program Description:** Students in the BS program in applied computing learn a computer science foundation and then explore the established knowledge and emerging developments in the high-demand areas of database systems, computer networks and cybersecurity. The program also provides the opportunity to investigate interdisciplinary connections, including the combination of computing with its real-world application in other disciplines through concurrent degrees and minors.

Hands-on class projects, internships, industry partnerships and authentic and impactful research conducted with faculty provide numerous opportunities for students to apply their knowledge before they graduate. Students use their programming expertise, systems knowledge and critical thinking skills to effectively problem-solve and articulate their experience through presentations, scientific posters and professional papers.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 251 Calculus for Life Sciences

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Biological Data Science, MS

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASACOB&college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students learn to thrive in a global environment through the rich educational and interpersonal experiences inherent in study abroad. A resume enhanced by the valuable study abroad experience will impress prospective employers and it will also help the student stand out should they decide to pursue advanced study.

With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

**Career Opportunities:** Graduates are prepared to integrate technology with human activities, respond to global changes, solve problems, and create and manage the technological production of information and creative products.

Core information technology industries are among the fastest growing sectors in the U.S. economy. Graduates find employment opportunities with corporations and businesses, nonprofit and government agencies, digital arts media industries and in the academic world.

With a depth of knowledge and experience in information technology best practices, graduates have a strong foundation in systems with established interconnections among these fields that prepares them for graduate study and for careers that include cybersecurity analysts, database architects and network engineers.

## Applied Computing (Cybersecurity), BS (ASACOCBS)

**Campus:** West

**Program Description:** The innovative cybersecurity concentration builds upon the BS degree program in applied computing.

Students acquire the technical knowledge of how to secure networks and applications; an understanding of cybersecurity governance models and risk management fundamentals; methods of communicating complex risk issues; and solutions for the challenges of implementing cybersecurity controls within various organizational models. Leadership, critical thinking and effective communication also are emphasized.

Students gain experience with real-world cybersecurity organizations, protecting digital assets against compromise or theft.

The cybersecurity concentration prepares students for a continuing and progressive career in cybersecurity.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 251 Calculus for Life Sciences

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASACOCBS~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students gain valuable experience when studying abroad, experience which enhances their resumes. With more than 300 programs available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their experience to their unique interests and skill sets. Students focusing on cybersecurity are able to gain hands-on experience in programs in a variety of countries around the world. In a competitive field, graduates stand out with the heightened cultural competency, leadership and critical thinking skills they acquired when studying abroad.

**Career Opportunities:** This is an ideal degree for students interested in careers in cybersecurity. Opportunities are available both in the private sector and within governmental agencies (e.g., the FBI, U.S. Department of Homeland Security, the National Security Agency and the Department of Defense).

Graduates of the applied computing program with a concentration in cybersecurity are well prepared for graduate study as well as entry-level employment with businesses, nonprofits, government agencies and academic institutions. Cybersecurity-focused positions include:

- chief information security officer
- cyber risk analyst
- information security engineer
- network security engineer
- security operations center analyst

## Applied Mathematics, BS (ASMATBS)

**Campus:** West

**Program Description:** The BS program in applied mathematics emphasizes quantitative problem-solving and critical thinking through courses that expose students to a variety of mathematical theories, techniques and applications currently used by analysts and researchers in government, industry and nonprofit organizations.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 270 - Calculus w/Analytic Geometry I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Biological Data Science, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASMATBS~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

**Global Experience:** Study abroad enables students in applied mathematics to gain valuable hands-on experience in another part of the world. With more than 300 programs available, they can tailor their experience to their unique interests and skill sets.

Participation in study abroad provides students with the heightened cultural competency and leadership and critical thinking skills that will enhance their resumes and help them stand out in a competitive career field.

More information on available programs can be found on the Global Education Office (<https://goglobal.asu.edu/>) website.

**Career Opportunities:** Graduates are prepared for entry-level positions in industry, finance, government, nonprofit organizations and education. They also may pursue advanced degrees in the mathematical sciences (e.g., mathematics, statistics and computer science), and their career opportunities may involve:

- applied mathematical networks
- financial mathematics
- general applied mathematics
- mathematical biology
- operations research

## Applied Science, BAS (ASBASBAS)

**Campus:** West

**Program Description:** The BAS program is for students who have already earned a community college AAS degree. The program allows students to apply the technical knowledge gained from their associate degree and significantly broaden their education through completion of a concentration of their design that expands on the coursework completed in their AAS or by creating a new concentration in a different area of study.

The program includes a unique, personalized area of concentration tailored to the student's individual interests and career goals. The possibilities include applied computing, applied ethics, biology, biomedical research, business, conflict resolution, communication, creative writing, cybersecurity, English, environmental science, film and video studies, forensic psychology, forensic science, interdisciplinary arts and performance, risk communication, peace studies, political science, psychology, Spanish and statistics.

The program also includes an internship experience.

Students who have earned an Associate of Applied Science degree from a regionally accredited Arizona community college may be eligible to transfer up to 75 credits toward the Bachelor of Applied Science degree. Students who have earned an Associate of Applied Science from an accredited institution may transfer 60 credit hours toward the Bachelor of Applied Science degree.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Communication Studies, MA

English, MA

Interdisciplinary Studies, MA

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree. This program is not available for freshmen.

**Change of Major Requirements:** A current ASU student must hold an Associate of Applied Science degree in order to change the major to this program.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASBASBAS-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all applied science students. Students can tailor their educational experience abroad to their unique interests and skill sets. Students are able to gain hands-on experience in programs in a variety of countries around the world and gain cultural competency, leadership and critical thinking skills that prepare them to lead in their chosen career.

**Career Opportunities:** Because the program allows students to tailor their concentration, graduates are prepared for a wide range of career opportunities as well as graduate programs in fields such as law, business, social sciences and education.

**Contact Information:**

602-543-3000

**Campus:** West

**Program Description:** The BA program in biology with an emphasis in the natural sciences examines the interdisciplinary nature of the life and physical sciences, focusing on the ways in which these disciplines intersect. The program's organization and flexibility allows students to simultaneously study another subject outside their major. Students are encouraged to add a minor or concurrent degree in another subject area.

Students gain hands-on experience as they work both in small groups and one-on-one with individual faculty members. Students may participate in cutting-edge scientific research by assisting in faculty research laboratories and even publish in top journals and present their results at regional and national scientific meetings.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 170 - Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Biological Data Science, MS

Communication Studies, MA

Social Justice and Human Rights, MA

Social Technologies, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASLSCBA-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: In a competitive field, unique experiences and community engagement help students stand out. With opportunities to intern, research, and learn internationally, study abroad provides cultural immersion that can challenge students and enable them to improve their language skills.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

**Career Opportunities:** Graduates are prepared for entry-level jobs in research, nonprofit, education and outreach organizations and for other roles in the life sciences.

Graduates have a wide variety of options, including pursuing graduate studies or seeking careers in areas that include:

- environmental management and conservation
- health professions
- laboratory research
- primary and secondary school teaching
- science advisement to businesses and government
- science writing

## Biology, BS (ASLSCBS)

**Campus:** West, ASU at Lake Havasu

**Program Description:** The BS program in biology with an emphasis in the natural sciences examines these disciplines through experiential learning. By learning in an integrative environment that emphasizes the connectedness of the life sciences, students gain a better understanding of larger scientific concepts and can view these concepts from multiple perspectives.

All the program's core courses include laboratories.

Students are encouraged to conduct independent research under the mentorship of faculty members or during internships. Some even publish in top journals and present their results at scientific meetings.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website.

The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees.

Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 251 Calculus for Life Sciences or STP 226 Elements of Statistics

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASLSCBS-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: Students studying biology have a wide range of opportunities they can pursue. With more than 300 programs available, study abroad allows students to tailor their educational experience to their unique interests and skill sets. Students can expand their knowledge of how science impacts society through a variety of cultures and can develop global skills and knowledge to prepare them to lead in their career.

More information on available can be found on the Global Education Office (<https://goglobal.asu.edu/>) website.

**Career Opportunities:** This program prepares graduates for a wide range of careers by offering course and laboratory work and quantitative research opportunities that develop fundamental problem-solving, critical thinking, writing and communication skills. Graduates may enter careers in:

- business
- laboratory or field research
- medicine
- publishing
- scientific journalism
- teaching

Undergraduate laboratory experience, both on and off campus, enhances employability as a laboratory technician or research associate in university and government research laboratories; in hospital and diagnostic laboratories; and in pharmaceutical, biotechnology, agricultural and food processing companies.

Students engaged in field studies are prepared for entry-level positions in private companies and state and federal agencies, such as wildlife biologist, environmental consultant or conservation officer. They are also prepared for graduate or doctoral programs in human or veterinary medicine, pharmacy, dentistry or scientific research.

## **Biology (Pharmacology/Toxicology), BS (ASLSCPBS)**

**Campus:** West

**Program Description:** The pharmacology and toxicology concentration of the BS program in biology provides an emphasis in the biochemical,

molecular and physiological components of chemical and body interactions.

The degree program emphasizes experiential learning, and all required core courses have laboratories. By learning in an integrative environment that emphasizes the connectedness of the disciplines, students gain a better understanding of larger scientific concepts and they can view these concepts from multiple perspectives. To have a thorough understanding of the interactions of chemicals in the biological system, students study both biology and chemistry and become familiar with chemical interactions at physiological, molecular and cellular levels.

Undergraduates have the opportunity to conduct independent research under the mentorship of faculty members or in internships outside the school.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 251 Calculus for Life Sciences

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASLSCPBS-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students gain valuable, resume-building experience by studying abroad. With more than 300 programs available, study abroad (<https://goglobal.asu.edu/>) allows students to tailor their educational experience to their unique interests and skill sets. Students pursuing the pharmacology and toxicology concentration can expand their knowledge of how science impacts society in a variety of cultures and gain the global skills and knowledge they need to be able to lead in their career.

**Career Opportunities:** Graduates are prepared for occupations such as:

- risk assessor
- laboratory researcher
- pharmacist
- physician
- physician's assistant
- veterinarian

They may work in governmental agencies or private companies in areas such as:

- clinical trials
- product safety evaluation
- regulatory affairs
- teaching

Graduates are also prepared for entry-level employment in the growing field of environmental toxicology as well as for graduate and professional programs in pharmacology and toxicology.

## Biotechnology and Bioenterprise, BS (ASBITEBS)

**Campus:** West

**Program Description:** The BS program in biotechnology and bioenterprise provides students with essential transdisciplinary and practical experience in biotechnology research. Students acquire the associated business and entrepreneurship skills needed for developing and marketing biotechnological innovations and solutions to problems that face the biotechnology and health sciences communities in Arizona, the nation and beyond.

The program emphasizes coursework in the biological, biomolecular and biotechnological sciences, which are key components that underpin biotechnology. Students may tailor the degree to their specific interests and aspirations through focus areas in biotechnology, bioentrepreneurship and biostatistics.

The program is unique due to its focus on blending biotechnology and entrepreneurship.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** First math varies depending on the focus area chosen.

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASBITEBS~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

**Global Experience:** When studying abroad (<https://goglobal.asu.edu/>), students gain valuable experience in diverse settings. Students deepen their understanding of biotechnology and bioenterprise by enhancing their knowledge of research methods across the globe and through exposure to global startups and how countries approach entrepreneurship. Those who study abroad gain heightened skills in communication, critical thinking and leadership that enhance their resumes and give them a competitive edge in their chosen career field.

**Career Opportunities:** Graduates of this program are prepared for such careers as:

- bioentrepreneur
- cell biologist
- clinical trials manager
- educator
- laboratory researcher
- microbiologist
- patent agent
- portfolio manager
- project manager
- regulatory affairs manager

## **Communication, BA (ASCOMMBA)**

**Campus:** West, ASU at Lake Havasu

**Program Description:** The BA program in communication is a broad-based program that trains individuals to speak and write competently, manage relationships well, solve problems effectively, and understand the role and function of communication in public forums, organizational settings, relational exchanges and intercultural situations.

The curriculum provides an extensive understanding of the practical, theoretical and professional distinctions of today's field of communication. Utilizing the nationally recognized CommLabASU, students perform in-depth study of what contributes to and detracts from effective human communication, recognizing that the art of communication is far more nuanced than simple speaking and writing prowess.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

## **Program Math Intensity:** General

### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### **Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Communication Studies, MA
- English, MA
- Global Management, MGM
- Interdisciplinary Studies, MA
- Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASCOMMBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### **Global Opportunities:**

Global Experience: Communication students gain intercultural experience through tailored study abroad programs. Students improve language and cross-cultural skills for effective communication, develop critical teamwork and problem-solving skills, and expand their knowledge of the liberal arts through lenses of different cultures.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

**Career Opportunities:** The Bachelor of Arts in communication prepares students for careers in social media and technology, global communication, public relations and strategic communications, risk and crisis communication, communication training and mentoring, sport communication and communication philosophy. Because communication skills are crucial to many professions, graduates work in a variety of fields, including:

- customer service and customer relations
- health and human services
- human resources
- lobbying
- management
- marketing
- media and public relations
- mediation

- social media design and implementation
- training and development

## Communication, BS (ASCOMMBS)

**Campus:** West, ASU at Lake Havasu

**Program Description:** The communication program prepares students to do far more than give a speech or two in front of their peers. It provides an extensive understanding of the practical, theoretical and professional distinctions of today's field of communication and equips students with the skills they need to convey complex ideas clearly and effectively through both the spoken and written word.

In the nationally recognized CommLabASU, this program trains and prepares students for in-depth study into what contributes to and detracts from effective human communication, recognizing that the art of communication is far more nuanced than simple speaking and writing prowess.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Communication Studies, MA  
English, MA  
Interdisciplinary Studies, MA  
Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASCOMMBS~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Communication students gain intercultural experience through tailored study abroad programs. Students improve language and cross-cultural skills for effective communication, develop critical teamwork and problem-solving skills, and expand their knowledge of the liberal arts through lenses of different cultures.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

**Career Opportunities:** Graduates are trained in effective communication skills; are able to speak and write well; can convey complex ideas effectively; and are able to perform various forms of data analysis, communication assessment and technical reporting. They are prepared for employment in communication-intensive fields and for further graduate study in the social sciences, law, humanities and management. Graduates work in communications-intensive fields such as:

- advertising
- community education
- corporate communications
- crisis management
- customer service and customer relations
- health communication
- human resources management
- media and public relations
- new media
- social media
- training and development

## Computational Forensics, BS (ASCPFBS)

**Campus:** West

**Program Description:** The BS degree program in computational forensics is a multidisciplinary degree program that encompasses areas of physical, biological and social sciences with an additional focus on statistics and computation.

In this program, students develop the quantitative and computational methods that assist basic and applied research efforts in forensic science, establish or prove scientific basis in investigative procedures, and support forensic examiner casework. Through modeling, computer simulations and computer-based analysis and recognition, students gain an in-depth understanding of the forensic science discipline, the scientific method and the systematic approach to forensic science.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 270 - Calculus w/Analytic Geometry I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASCPFBS~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Computational forensic students can study abroad and gain skills employers demand, like leadership, communication and critical thinking skills. When immersed in another culture, students can earn credits in their major while broadening their horizons.

With over 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

**Career Opportunities:** The demand for forensic scientists is increasing according to the U.S. Bureau of Labor Statistics. With computation and statistics driving many technological advances, this interdisciplinary degree program prepares students for employment in a range of jobs or to continue on to advanced study of quantitative programs in graduate school.

## Conflict Resolution, BA (ASCNRBA)

**Campus:** West

**Program Description:** The BA program in conflict resolution introduces students to theories and practices that enable them to understand, address and transform conflict while dealing with challenges both at the micro and macro levels in professional and cross-cultural contexts and in individual and collective interactions.

Taking an interdisciplinary approach while being grounded in communication, graduates of the program are ready to pursue further education or careers in several diverse areas.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASCNRBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students who study conflict resolution abroad gain cultural competency and an expanded worldview, enabling them to resolve issues not only within the work place but also within international partnerships. This enhanced education and skill set can help with job acquisition.

With over 300 programs in more than 65 countries, opportunities exist for study abroad nearly anywhere students want to go.

<https://goglobal.asu.edu/> (<https://goglobal.asu.edu/>)

**Career Opportunities:** Graduates have great career prospects in business, education, government, nongovernmental agencies, law, health care advocacy, public and government administration, mediation and advocacy.

## Disability Studies, BA (ASDISASBA)

**Campus:** West, Online

**Program Description:** Disability is a basic feature of human diversity. In fact, people with disabilities form the largest minority group in the United States, making up approximately a quarter of the population. Disability studies has become an increasingly prominent academic field, providing students with a multifaceted understanding of the social, cultural, political and economic dimensions of disability.

The BA degree program in disability studies prepares students to make a positive impact on society. Students learn to confront the marginalization of people with disabilities and to acquire skills in research, advocacy and policymaking that are increasingly important in a range of professions.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

English, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-disability-studies/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASDISASBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students deepen their understanding of the diversity and complexity of the world when studying abroad. Study abroad provides a unique opportunity for students to add cultural knowledge to their studies on disability. When studying abroad, students expand their scope of learning and gain personal and professional experience beyond the comfort zone of their home country.

With over 300 programs in more than 65 countries, opportunities exist nearly anywhere students want to go. More information on available programs can be found on the Global Education Office (<https://goglobal.asu.edu/>) website.

**Career Opportunities:** Graduates from this program find career opportunities in many fields, such as the arts, business, civil service, counseling, education, government, health care, law and social work as well as with community and nonprofit organizations.

## English, BA (ASENGBA)

**Campus:** West

**Program Description:** The BA program in English utilizes literature to explore the social, environmental and political challenges of the day while teaching students in-demand skills for future focused jobs. Courses in writing, literature, rhetoric, film and culture recreate traditional approaches to the study of English by engaging today's central issues and questions.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### **Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

English, MA

Global Management, MGM

Interdisciplinary Studies, MA

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASENGBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### **Global Opportunities:**

Global Experience: Study abroad (<https://goglobal.asu.edu>) broadens students' perspectives by exposing them to new and unique cultures, communities and people. Students can explore the English language at a deeper level through an expanded lens of dialects, literature and terminology in one of more than 300 Global Education programs. Students who study abroad gain heightened cultural competency and communication and critical thinking skills, which enhance their educational experience and their resumes.

**Career Opportunities:** Graduates are prepared for graduate study programs including in education, creative writing, literary history, rhetoric, composition, and public policy; for professional training in law, business, teaching and public policy; and for careers in marketing, public relations, government, diplomacy and community work, among others. Majors, minors and those enrolled in the writing certificate program prepare for the

many professions in which problem-solving, creativity, research strengths, writing, interpersonal and digital skills are necessary and valued.

## English (Secondary Education), BA (ASENGSEBA)

**Campus:** West

**Program Description:** The BA program in English with a concentration in secondary education provides rigorous content in literature, composition, linguistics and secondary teaching, extensively preparing students to meet the needs of all student populations, including attention to levels of student academic performance and cultural and linguistic diversity.

The demand for teachers in Arizona is high. Students complete their teaching internship in school districts in the greater Phoenix area or for one of the 22 Native American nations in Arizona.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:  
All students are required to meet general university admission requirements.  
Freshman (<https://admission.asu.edu/freshman/apply>)  
Transfer (<https://admission.asu.edu/transfer/apply>)  
International (<https://admission.asu.edu/international/undergrad-apply>)  
Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASENGSEBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

**Global Experience:** Students wishing to pursue a future in education must understand the diverse set of experiences, backgrounds and cultures that shape the students in their classrooms. Secondary education concentration students can enhance their English degree with a study abroad program, in which they can gain firsthand experience within a wide range of cultures and communities.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

**Career Opportunities:** Graduates of the program earn Arizona Department of Education certification for middle and high school English language arts and are prepared for careers as secondary school teachers.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Environmental Science, BA (ASENVBA)

**Campus:** West, ASU at Lake Havasu

**Program Description:** The study of human impact on the earth's ecosystems and resources has become increasingly important over the past 20 years. The BA degree program in environmental science is dedicated to preparing students to become graduates who will be able to find solutions to today's critical environmental challenges posed by pollution and climate change.

This degree program is founded on established environmental basics, ensuring that students are well-versed in biological study, including molecular, organismal and ecosystem biology. Students gain competency in chemistry, statistics and geographic information systems.

The world-renowned faculty conduct research across the globe, and they engage students in the process of creating new scientific knowledge that, in turn, impacts a rapidly changing world.

Rounding out student preparation, the program includes a focus on the management and communication skills necessary in various environmentally specific careers.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 170 - Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Biological Data Science, MS
- Communication Studies, MA
- Environmental and Resource Management (Water Management), MS
- Environmental and Resource Management, MS
- Social Justice and Human Rights, MA
- Social Technologies, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASENVBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

**Global Experience:** The natural world is complex and diverse, changing quickly from one biome to the next. Not only is the physical environment varied across the globe, so is the human treatment of it. Students who study abroad gain a deeper understanding of the global environment, how culture affects the environment and how to best communicate environmental research to a diverse audience.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

**Career Opportunities:** Career opportunities for graduates of this program include employment in environmental policy, management or leadership positions in federal and state agencies, local municipality planning offices, private consulting firms, and nongovernmental and nonprofit organizations. Graduates of the program are also well qualified to pursue graduate studies in relevant areas of the natural sciences.

## Exploratory Applied Computing, Mathematics and Technology, (ASACMTEXPL)

**Campus:** West

**Program Description:** Many students are not ready to choose a specific academic program of study when first entering the university. Exploratory programs provide students the opportunity to discover the options available at ASU, and they are provided the time, resources and guidance needed to assess their skills, interests and aptitudes.

Declaring exploratory status permits students to begin meeting General Studies requirements that all ASU graduates must fulfill. The exploratory applied computing, mathematics and technology program also allows students to take some time to explore a variety of academic courses that may lead to a potential major interest in these fields.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra or MAT 170 Precalculus or MAT 210 Brief Calculus or MAT 251 Calculus for Life Sciences or MAT 270 Calculus with Analytic Geometry 1

**Program Math Intensity:** Moderate

### Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** Students with fewer than 45 credit hours may declare this exploratory program. Students may not accrue more than 45 hours while they are an exploratory student.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASACMTEXPL-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### Global Opportunities:

Global Experience: Exploring applied computing, mathematics and technology on the global scale can be beneficial to students when narrowing their focus of study. While taking various general education courses through study abroad (<https://goglobal.asu.edu/>), students are able learn more about themselves and what career path they want to pursue. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Career opportunities are specific to the ultimate major of choice.

## Exploratory Health and Life Sciences, (ASHSCIEXPL)

**Campus:** West

**Program Description:** Many students are not ready to choose a specific academic program of study when first entering the university. Exploratory programs provide students an opportunity to discover the options available at ASU, and they are provided the time, resources and guidance needed to assess their skills, interests and aptitudes.

Declaring exploratory status permits students to begin meeting General Studies requirements that all ASU graduates must fulfill. It also allows students to take some time to explore a variety of academic courses that may lead to a potential major interest.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 117 - College Algebra or MAT 170 Precalculus or MAT 210 Brief Calculus or MAT 251 Calculus for Life Sciences or MAT 270 Calculus w/Analytic Geometry I

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** Students with fewer than 45 credit hours may declare this exploratory program. Students may not accrue more than 45 hours while they are an exploratory student.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASHSCIEXPL~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. ## Forensic Science, BS (ASFOREBS)

**Campus:** West, Online

**Program Description:** Forensic science is the study and application of scientific methods to matters of law.

The BS degree program in forensic science at ASU is built on a solid foundation in both biology and chemistry, which develop students' basic and upper-level laboratory skills. Students complete holistic, rigorous coursework in the natural and mathematical sciences to adequately prepare for entering a competitive workforce. The interdisciplinary nature of the program is uniquely positioned to train students in forensic techniques ranging from crime scene collection, evidence analysis and mock courtroom testimony.

Along with completing coursework and gaining the necessary scientific skills to succeed in this field, students have the opportunity to gain practical experience in a laboratory setting by being involved in research or an internship. Students can conduct research under experts of varying forensic fields, including biology, entomology and anthropology. Students also may seek to apply for and participate in forensic science internships sponsored by crime labs around the country. Internships are highly competitive.

Job applicants and students seeking a volunteer or internship position within a crime lab are required to undergo an extensive background check that includes a polygraph exam, fingerprinting and drug testing. Actions that can disqualify an applicant include recent or past illicit drug use (including marijuana), felony convictions and drunk driving convictions.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 251 Calculus for Life Sciences

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/forensic-science-degree/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASFOREBS~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students can learn about science and law enforcement in other countries through study abroad. Being immersed in another culture broadens horizons and develops professional skills such as cross-cultural communication and critical thinking.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

**Career Opportunities:** Scientific and technological advances in the field of forensic science as well as continually increasing caseloads in law enforcement are projected to increase the number of forensic science technicians needed over the next decade. The U.S. Bureau of Labor Statistics estimates that between 2016 and 2026 employment of forensic science technicians will increase 17%, an average increase much greater than in most occupations.

Graduates of the forensic science program are prepared to enter the workforce in crime labs and private forensic science labs at the local, state and federal levels. Graduates also are prepared for graduate programs in forensic science, law school, medical school and related fields.

## Gender, Women and Sexuality Studies, BS (ASWSTBS)

**Campus:** West

**Program Description:** The BS degree program in gender, women and sexuality studies is an interdisciplinary academic program. Students examine the cultural and social construction of gender; explore the history, experiences and contributions of women to society; and study the influences of gender at a micro and macro level.

Consistent with the university's design imperatives of social embeddedness and use-inspired research, the program's course offerings, research initiatives and cocurricular programs further the understanding of women and gender and promote social justice. Students gain a solid knowledge base and educational foundation as well as the critical thinking skills necessary for dealing with changing gender roles in society.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Communication Studies, MA
- English, MA
- Interdisciplinary Studies, MA
- Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASWSTBS~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students can explore the impact of culture, race, religion and law on gender norms and equality through one of more than 300 unique study abroad experiences. Study abroad programs offer students a global perspective and knowledge in preparation for their future-focused career.

Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs. More information is available on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** Graduates are prepared for further study in graduate or professional programs as well as for careers in a variety of settings, including health care services, human resources development, public and business administration and social services.

## History, BA (ASHISBA)

**Campus:** West

**Program Description:** The BA degree program in history introduces students to a broad span of history that covers the ancient world through the modern period and extends from Europe to Latin America and the United States.

In addition to learning about the origins and development of various peoples, ideas and institutions of the past, students engage in the practice of history by learning to conduct research, analyze historical evidence and formulate arguments using historiographical perspectives and methodological approaches.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Study abroad (<https://goglobal.asu.edu/>) provides students studying history a great opportunity for visiting historical sites elsewhere in the world. Students gain a better understanding of the history of other regions when living in them and seeing the marks the past has left behind. History students can pursue opportunities that enable them to hear firsthand from locals living in different regions and to experience different perspectives on the past.

**Career Opportunities:** Graduates of this program are prepared for graduate study, for professional degree programs and for careers in which critical thinking, research and writing skills are highly valued, such as journalism, editing, law and civil service.

## History (Secondary Education), BA (ASHISSEBA)

**Campus:** West

**Program Description:** The flexible BA degree program in history with a concentration in secondary education fully prepares students considering a career in education for teaching and certification and provides all the disciplinary knowledge of a traditional history degree. Students understand history in all its depth while developing strong critical reading, writing and research skills as well as skills in oral presentation.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** Yes

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:  
All students are required to meet general university admission requirements.  
Freshman (<https://admission.asu.edu/freshman/apply>)  
Transfer (<https://admission.asu.edu/transfer/apply>)  
International (<https://admission.asu.edu/international/undergrad-apply>)  
Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASHISSEBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Study abroad (<https://goglobal.asu.edu/>) is a great opportunity for students studying history who wish to eventually become educators of the subject. Students can gain a better understanding of the past by studying the history of a place while living there. History students can hear narratives from locals in different regions of the world and experience a different perspective of the past, both of which can be present when educating their own students in their future classrooms.

**Career Opportunities:** Graduates possess the strong, practical teaching tools necessary to successfully teach middle or high school students. With the ability to find and evaluate evidence, form arguments and present analysis, graduates also are well suited for careers in a wide range of industries and fields of work, and they have a solid foundation for graduate work in teaching, law, business and many other fields.

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## Interdisciplinary Arts and Performance, BA (ASIAPBA)

**Campus:** West, Online

Accelerated options for this program are not currently available to ASU Online students.

**Program Description:** The BA program in interdisciplinary arts and performance is leading the way in interdisciplinary arts nationally, breaking traditional boundaries and allowing students to take their talents to new heights. Throughout the curriculum, the emphasis on interdisciplinary arts is continually inclusive, expanding, evolving and innovative, allowing students the ability to shape their own unique creative pathways.

Students in both the online and immersion programs engage with nationally and internationally known faculty in collaborative investigation of many artistic disciplines in preparation for the complex and changing world through current approaches to aesthetic innovation.

Students in this major engage in practical and theoretical studies of visual, sonic, performance, game and interactive arts to become versatile artists.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Communication Studies, MA  
English, MA  
Interdisciplinary Studies (Interdisciplinary Arts and Performance), MA  
Interdisciplinary Studies, MA  
Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASIAPBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Performance and art transcend the boundaries of language and culture. Through unique study abroad experiences, interdisciplinary arts and performance students are able to deepen their understanding of their field and acquire a global lens on the influence of culture on their art.

Students can achieve heightened cultural competency and communication and critical thinking skills in any of the more than 300 study abroad programs available. More information is available on the Global Education Office website (<https://goglobal.asu.edu/>).

**Career Opportunities:** Graduates of the interdisciplinary arts and performance program have received extensive preparation for advanced education or careers as artists, performers and creative professionals. They have a solid foundation on which to pursue their dream in their chosen creative field. With skill sets that prepare them for professional and entrepreneurial opportunities, graduates tap into evolving professions and the expanding field of art practice.

Since 1992, graduates of the Bachelor of Arts program in interdisciplinary arts and performance have gone on to many different occupations, such as:

- art administrator
- arts writer, scholar and critic
- composer and sound artist
- digital designer
- film and video editor
- recording artist
- theatre artist
- video and board game designer

- videographer
- visual artist in multiple mediums

## Interdisciplinary Arts and Sciences, BA (ASIASBA)

**Campus:** West

**Program Description:** The BA program in interdisciplinary arts and sciences allows students to build a flexible, customized degree that is unique to their specific career goals.

Students tailor their programs emphasizing interdisciplinary study combined with a specific area of concentration (e.g., business, communication studies, English, gerontology, history, psychology or preprofessional studies). For example, a business degree with an emphasis in communications can lead to employment opportunities that aren't as easily accessed by a traditional business degree alone. By providing the opportunity to combine disciplines, New College equips students with the specialized education they need to reach their individual career goals.

This degree program culminates in a capstone internship experience that provides a real-world perspective, skills and connections, creating versatile graduates and attractive job applicants for the corporate world.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Communication Studies, MA  
English, MA  
Global Management, MGM  
Interdisciplinary Studies, MA  
Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASIASBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Study abroad (<https://goglobal.asu.edu/>) allows students to gain valuable, unforgettable experiences that will enhance their resumes. With more than 300 study abroad programs, students are able to tailor their experience to their personal goals and skill sets. Students in the interdisciplinary arts and sciences program gain heightened cultural competency, communication and critical thinking skills when studying abroad --- skills that prepare them to lead in a future-focused career.

**Career Opportunities:** Graduates are prepared to make the transition smoothly to graduate school or postbaccalaureate employment in:

- business settings
- community settings
- cultural settings
- educational settings
- social sciences and human service settings

Those who plan to pursue graduate or professional degrees in law, business, helping professions or in traditional disciplines benefit from the flexibility of this program that prepares them for a broad range of future academic and career pursuits.

## Latin American Studies, BA (ASLASBA)

**Campus:** West

**Program Description:** The BA program in Latin American studies offers a learner-driven model in which the student's specific interests are deepened through the study of Latin America cultures, histories, politics and linguistic expressions. It is interdisciplinary and allows for flexibility in course selection while also instilling a breadth and depth of knowledge about issues surrounding Latin America.

This degree program encourages cross-cultural exploration, preparing students for a global-minded career path.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** Yes

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Communication Studies, MA  
English, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASLASBA-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: Studying abroad (<https://goglobal.asu.edu/>) is a great way for Latin American studies students to learn firsthand about the culture, language and food of their area of study. When studying in a Latin American country, students are able to immerse themselves in the culture to gain a greater understanding of that country and its people. They also acquire heightened cultural competency, communication, and critical thinking skills that will be valuable assets for their future careers.

**Career Opportunities:** Graduates are prepared for further study in graduate or professional schools and in dual-language environments, including:

- arts and arts administration
- business and finance
- counseling
- diplomacy
- education
- journalism
- ministry
- nonprofit organizations and advocacy
- public policy
- technology

## **Pharmacology and Toxicology, BS (ASPTXBS)**

**Campus:** West, Online

**Program Description:** Students in the BS degree program in pharmacology and toxicology study how foreign materials react with human bodies. To have a thorough understanding of the interactions of chemicals in the biological system, students in the program study both biology and chemistry, and they become familiar with chemical interactions at physiological, molecular and cellular levels.

#### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the

STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or MAT 251 Calculus for Life Sciences

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Biological Data Science, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/pharmacology-toxicology-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASPTXBS-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students gain valuable experience when they study abroad (<https://goglobal.asu.edu/>), experience that enhances their resume. With more than 300 programs available, students can tailor their educational experience to their unique interests and skill sets. Pharmacology and toxicology students are able to expand their knowledge of how science impacts society in a variety of cultures.

**Career Opportunities:** With a heavy focus on experiential learning within the laboratory, graduates of the pharmacology and toxicology degree program are better prepared for careers in diverse areas such as government, industry, health care and business and for a number of career paths,

including:

- environmental risk assessor or consultant
- laboratory researcher
- pharmacist
- physician
- physician's assistant
- toxicologist
- veterinarian

Graduates also may work at governmental agencies or at private companies in areas such as:

- Arizona Department of Environmental Quality
- city government
- clinical trials
- Environmental Protection Agency
- product safety evaluation
- regulatory affairs
- teaching

## Philosophy, Religion and Society, BA (ASRELBA)

**Campus:** West

**Program Description:** The BA degree program in philosophy, religion and society comprises historical, theoretical and practical perspectives on philosophy, religion and social ethics, and it emphasizes social and political concerns by putting the studies of philosophy and religion into action.

This interdisciplinary degree program offers three areas of concentration: applied ethics, continental philosophy and religious studies.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

## Political Science, BA (ASPOLBA)

**Campus:** West, ASU at Lake Havasu

**Program Description:** Political science is the study of governmental practices, politics and theories. Coursework in the BA program in political science covers American institutions, international relations, political theory and world affairs.

The program helps students gain a basic understanding of the assumptions underlying political science, conduct meaningful research and formulate arguments. In addition to coursework, students learn through internships, service-learning and research opportunities.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students can experience firsthand, through study abroad, the diverse political and social powers affecting communities around the globe. Students in political science can enhance their learning by gaining a global perspective on political theory and world affairs.

With more than 300 programs available, students can tailor their experience to their unique interests and skill sets. Programs exist in diverse countries, such as those ruled by communist and monarchical regimes. More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** The political science program serves as a good precursor to staff, manager or policy analyst positions in local, state and federal government. This degree is recognized as qualification for many careers in business (for-profit and nonprofit) and industry. Work may include binational, cross-border positions linking U.S. and Mexican businesses, Arizona-Sonora local government or local community groups on both sides of the border.

Many students use the degree as a gateway to law school or other professional schools or as basis for further study in such fields as:

- community development
- political science
- public administration
- public policy
- social sciences
- urban affairs and urban and regional planning

## Political Science, BS (ASPOLBS)

**Campus:** West

**Program Description:** The School of Social and Behavioral Sciences offers a BS in political science in the New College of Interdisciplinary Arts and Sciences.

Political science is the study of governmental practices, politics and theories. Coursework in the political science program covers American institutions, international relations, political theory and world affairs. This program helps students gain a basic understanding of the assumptions underlying political science and to develop the necessary research skills for analyzing complex sociopolitical issues. In addition to coursework, students learn through internships, service-learning and research opportunities.

The Bachelor of Science degree differs from the BA degree in that it requires an additional statistics course and a methods course.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

## Psychology, BA (ASPGSBA)

**Campus:** West, ASU at Lake Havasu, Online

Available accelerated bachelor's/master's degree program options may vary by modality (online vs. on-campus). Students should contact their academic advisor for more information.

**Program Description:** Psychology is the scientific study of human behavior. This diverse field includes mental health and counseling as well as child development, neuroscience and brain function, memory and decision-making, behavior analysis, statistics and more. It also crosses over into other disciplines such as medicine, law, business and economics.

This BA program in psychology --- emphasizing critical thinking and reasoning, quantitative research methods and writing --- goes beyond the classroom, adding practical experiences through internships, service-learning and faculty-supervised research. (Some opportunities are not available to students enrolled in the degree offered through ASU Online.)

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 119 - Finite Mathematics or MAT 170 Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Communication Studies, MA  
Global Management, MGM

Interdisciplinary Studies, MA  
Psychology, MS  
Social Justice and Human Rights, MA  
Social Technologies, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-psychology/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASPGSBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Through study abroad, students gain valuable experience that would enhance many career options.

Whether in a foreign country, in the U.S. or online, study abroad exposes students to unique differences in the human condition worldwide, challenges them to adapt to new social and cultural circumstances, and enables them to improve language and cross-cultural skills for effective communication.

With more than 300 Global Education programs (<https://goglobal.asu.edu>) available, students in the New College of Interdisciplinary Arts and Sciences can tailor their educational experience to their unique interests and skill sets and explore how their varied fields and interests interact in different settings around the world.

**Career Opportunities:** A degree in psychology prepares graduates for a career in:

- government (sales and marketing, human resources management)
- industry
- mental health professions (youth counselor, substance abuse counselor)
- social services (high school psychology teacher, occupational analyst)

The degree also provides an excellent foundation for graduate study in fields such as public administration, law, family studies, communication and the various graduate program fields in psychology:

- clinical and counseling
- cognitive neuroscience
- developmental
- environmental

- experimental
- health
- legal
- physiological
- social

**Psychology, BS (ASPGSBS)**

**Campus:** West, ASU at Lake Havasu, Online

Available accelerated bachelor's/master's degree program options may vary by modality (online vs. on-campus). Students should contact their academic advisor for more information.

**Program Description:** Psychology is the scientific study of human behavior. This diverse field includes mental health and counseling as well as child development, neuroscience and brain function, memory and decision-making, behavior analysis, and statistics and crosses into other disciplines such as medicine, law, business and economics.

Emphasizing critical thinking and reasoning and quantitative research methods and writing, this BS program in psychology goes beyond the classroom with practical experiences, through internships, service-learning and faculty-supervised research. (Some opportunities are not available to students enrolled in the degree offered through ASU Online.)

The Bachelor of Science degree differs from the Bachelor of Arts degree in that it requires additional lab coursework and advanced statistical training, providing a greater depth of knowledge in the biological and neuroscientific aspects of psychology that are increasingly important both for research and for clinical practice.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 170 - Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Communication Studies, MA
- Global Management, MGM
- Interdisciplinary Studies, MA
- Psychology, MS
- Social Justice and Human Rights, MA
- Social Technologies, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-psychology/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASPGSBS~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Study abroad experience enables students in the psychology program to stand out in many career fields. Students gain exposure to unique differences in the human condition worldwide, are able to improve their language and cross-cultural skills for effective communication, and are challenged to adapt to new social and cultural circumstances.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

**Career Opportunities:** Graduates are prepared for careers in:

## Psychology (Forensic Psychology), BA (ASPGSFPBA)

**Campus:** West, Online

Accelerated options for this program are not currently available to ASU Online students.

**Program Description:** Forensic psychology is the application of psychology to the law. The concentration in forensic psychology within the BA program in psychology combines general training in psychology with specialized coursework in criminal law, criminal behavior, the diagnosis and

treatment of mental disorders, and legal decision-making.

When courts are faced with cases in which a psychology related question arises, they may turn to psychologists for help with the case. For example, psychologists might assist the court in understanding a criminal's mental state at the time of a crime or in determining whether a particular jury might have been biased against a defendant based on his or her race. This is the realm of forensic psychology.

This program teaches students about the various roles for psychologists in the legal system and helps them discover which roles they might like to pursue through careers in mental health, criminal justice or through graduate training.

The Bachelor of Arts degree differs from the BS degree in that it does not require two additional lab science courses.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 119 - Finite Mathematics or MAT 170 Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. ## Psychology (Positive Psychology), BA (ASPGSPBA)

**Campus:** West, Online

**Program Description:** Positive psychology is the scientific study of strengths and behaviors that enable individuals and communities to thrive. There is a rapidly growing body of research in the field of positive psychology with many applications to individual well-being, relationships, the workplace and every other life domain. Students in the BA program in psychology with a concentration in positive psychology gain the foundational knowledge and skills of a traditional psychology program, while focusing their studies on topics central to the field of positive psychology such as optimism, gratitude, coping mechanisms, resilience and mindfulness. Graduates of this program are prepared to apply evidence-based approaches to transform their own lives and the lives of others.

All New College psychology programs, including this positive psychology program, have a quantitative research focus, equipping students with skills in critical thinking, statistical analysis, and academic writing. The Bachelor of Science degree differs from the Bachelor of Arts degree in that it

requires additional lab science coursework and advanced statistical training, both of which are increasingly important for destinations in research or clinical practice. The Bachelor of Arts degree allows for exposure to a wider breadth of psychological and related topics through additional elective coursework. Both pathways provide a strong foundation for future graduate studies.

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 119 - Finite Mathematics or MAT 170 Precalculus

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

With more than 300 options available, whether in a foreign country, in the U.S. or online, Global Education programs give students a global perspective and knowledge in preparation for their career.

**Career Opportunities:** Individuals with psychology degrees can go on to secure jobs across a wide range of fields including human resources, research, business and economics, law, health and mental health, and education.

Graduates are prepared for careers in:

- consumer relations and research
- employee training
- family support
- individual life coaching
- occupational analysis
- positive coaching in sports or organizations
- prevention education
- public or mental health program coordination
- youth development

The degree also provides an excellent foundation for graduate study in fields such as public administration, law, family studies, communication, social work and the various graduate program fields in psychology:

- clinical and counseling
- cognitive neuroscience
- developmental
- environmental
- experimental
- physiological

## **Social Justice and Human Rights, BA (ASJHRBA)**

**Campus:** West, Online

**Program Description:** The BA program in social justice and human rights at ASU's New College of Interdisciplinary Arts and Sciences spans both the social sciences and the humanities to prepare students to meet the challenges of social justice and protection of human rights in local, national, international and global contexts.

Coursework prepares students to serve as advocates for alleviating political, economic and social inequality. The degree program introduces students to principles and practices of everyday humanitarianism, multimedia advocacy, and theories and practices of social justice and human rights.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who

select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Communication Studies, MA

Global Management, MGM

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/social-justice-and-human-rights-ba/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASJHRBA-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students are able to deepen their understanding of global human rights through study abroad. With more than 300 programs available, students can tailor their educational experience to their unique interests and skill sets. Students can explore the influence of culture, law, race and religion on a global scale in order to prepare them to make an impact for social justice and human rights.

More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** Graduates with this degree are employable in a variety of settings, including refugee resettlement agencies; agencies and shelters supporting survivors of domestic abuse; shelters for migrants, especially for unaccompanied minors; disaster relief agencies; organizations

assisting survivors of sex trafficking and human labor trafficking; and agencies assisting veterans. Career opportunities include:

- charitable fundraiser (e.g., Nina M. Pulliam Charitable Trust staff)
- grant writer
- humanitarian aid worker (e.g., U.N. High Commissioner for Human Rights aid worker, Oxfam aid worker)
- human rights lawyer
- international governmental organization professional (e.g., United Nations staff)
- investigative journalist
- lobbyist for human rights and social justice causes
- nongovernmental organization professional (e.g., Amnesty International professional)
- nonprofit agency manager (e.g., Special Olympics Arizona, international manager)
- public policy researcher

## Social and Behavioral Sciences, BA (ASSBSBA)

**Campus:** West

**Program Description:** The BA degree program in social and behavioral sciences provides an understanding of assumptions underlying the social and behavioral sciences, develops students' research skills for analysis of complex social issues, offers a flexible program tailored to the career goals of the individual student, and offers individual and group experiences in working with faculty on concrete intellectual and policy issues.

The core courses provide students with the requisite background that enables them to better understand psychological and social principles related to the behavior of individuals across multiple social contexts and institutions.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Communication Studies, MA
- Global Management, MGM
- Interdisciplinary Studies, MA
- Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASSBSBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Exploring social and behavioral sciences on the global scale can be beneficial to students in providing understanding of assumptions made about individuals and society. Students studying abroad can develop research skills from firsthand experiences inside and outside of the classroom, using them to analyze complex social issues that affect themselves and those around them domestically and internationally.

More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** This interdisciplinary degree is an excellent option, meshing with the individual's interests and fulfilling many employers' expectations of a bachelor's degree, by exposing the student to a variety of outlooks and challenges. Such a degree is competitive in most situations in which the disciplinary social and behavioral degrees are accepted, and it is advantageous when seeking entry to broad professional programs such as regional planning or urban studies.

Graduates of this degree program have a solid background in social sciences and methodologies that prepares them for graduate work in community development, counseling, criminal justice, professional schools (e.g., law, public administration, social work), public policy, social science disciplines and urban studies or planning.

Careers include:

- advocate (e.g., immigration, children's, victim's)
- community developer
- human relations officer
- lawyer
- lobbyist
- mediator
- nonprofit manager
- social services case worker
- statistical analyst
- urban planner

## Social and Behavioral Sciences, BS (ASSBSBS)

**Campus:** West

**Program Description:** The curriculum of the BS degree program in social and behavioral sciences provides an understanding of assumptions underlying the social and behavioral sciences, enables students to develop research skills necessary for analysis of complex social issues, offers a flexible program tailored to the career goals of the individual student, and offers individual and group experiences in working with faculty on concrete intellectual and policy issues.

The core courses provide students with the requisite background that enables them to better understand psychological and social principles related to the behavior of individuals across multiple social contexts and institutions (e.g., community, culture, family and society).

The Bachelor of Science degree differs from the BA degree in that it has a stronger focus on the use of statistics.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** Any math course that meets the MA designation.

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Communication Studies, MA

Global Management, MGM

Interdisciplinary Studies, MA

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASSBSBS~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Exploring social and behavioral sciences on the global scale can be beneficial to students; they gain an understanding of assumptions made about individuals and society. Students studying abroad can develop research skills from firsthand experiences inside and outside of the classroom and use those skills to analyze complex social issues that affect them and others elsewhere. More information about study abroad programs is available on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** The interdisciplinary degree is an excellent option that matches the individual's interests and fulfills many employers' expectations of a bachelor's degree, namely that it should expose the student to a variety of outlooks and challenges.

Such a degree is competitive in most situations in which the disciplinary social and behavioral degrees are accepted, and it is advantageous when seeking entry to a breadth of professional programs such as regional planning or urban studies.

The degree program also provides a solid background in social sciences and methodologies, preparing students for graduate work in community development, counseling, criminal justice, professional schools (e.g., law, public administration, social work), public policy, social science

disciplines, and urban studies or planning.

Possible careers include:

- advocate (e.g., immigration, children's, victim's)
- community developer
- human relations officer
- lawyer
- lobbyist
- mediator
- nonprofit manager
- social services case worker
- statistical analyst
- urban planner

## Social and Cultural Analysis (American Studies), BA (ASSCAASBA)

**Campus:** West

**Program Description:** The BA program in social and cultural analysis with a concentration in American studies engages in the transdisciplinary and comparative study of the United States as a cultural and political site of ongoing change and conflict.

Students learn diverse methods of analyzing nationalist politics, public and private cultural practices, transnationalism and the nation making processes of migration, in keeping with the creative and critical scholarship of the discipline. The curriculum also brings attention to identity formations around gender, sexuality, race and ethnicity.

As a transdisciplinary field, American studies unites the social sciences, the humanities and the arts to stimulate students into engaging in rigorous and adventurous conversations about American culture, politics and history. Students explore knowledge beyond disciplinary boundaries by bringing differing perspectives and understandings into dialogue with one another and generating a unique level of intellectual rigor and excitement.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

English, MA

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASSCAASBA-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: Students can learn to put the United States in a global context through a faculty-directed study abroad program (<https://goglobal.asu.edu/>) that explores culture, borders and politics. Executing cross-cultural communication develops career skills that are in demand by employers. Students can stay on track academically by earning ASU credit for completed courses in one of more than 300 programs available.

**Career Opportunities:** Due to the emphasis on culture and identity, students develop respect for and sensitivity to diverse populations. Graduates of this program are prepared for graduate work as well as for careers in government, education, business and nonprofit organizations, with skills and knowledge that enable them to flourish in areas as varied as:

- civil rights organizations
- colleges and universities
- corporations
- government agencies
- law firms
- libraries
- museums
- nonprofit organizations
- Peace Corps
- political action groups
- public relation firms
- research organizations
- social service agencies

## **Social and Cultural Analysis (Ethnicity, Race and Indigenous Studies), BA (ASSCAERBA)**

**Campus:** West

**Program Description:** The BA program in social and cultural analysis with a concentration in ethnicity, race and Indigenous studies combines transdisciplinary topics and methods for critical analysis of relationships among individuals, groups, institutions, governments, economies and environments.

The program enriches the study of individual racialized and Indigenous groups by drawing upon theories, methods and pedagogies in ethnicity, race and Indigenous studies while engaging complementary fields of literature, history, sociology, oral history, sexuality, queer studies, social justice, and transnational and cultural studies. Coursework grounds the students in a deep understanding of the particular historical, social, economic, cultural and political experiences of individual racialized groups as well as in an analysis of the relationships among them.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who

select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

English, MA

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASSCAERBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Ethnicity and race are at the core of culture, impacting everything from societal structure to religious norms. Studying abroad allows students to deepen their understanding of global ethnicities through firsthand experience. Students can explore the impact of culture, religion and law in the world's diverse ethnic environments.

With over 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

**Career Opportunities:** Due to the program's emphasis on culture and identity, students develop respect for and sensitivity to diverse populations, enabling them as graduates to flourish in areas as varied as:

- civil rights organizations
- colleges and universities
- government agencies
- libraries
- museums
- nonprofit organizations
- Peace Corps

- political action groups
- research organizations
- social service agencies

Graduates of this program are prepared with the skills and knowledge necessary for graduate work as well as for careers in government, education, business and nonprofit organizations.

## Social and Cultural Analysis (Latin American Studies), BA (ASSCALABA)

**Campus:** West

**Program Description:** The BA degree program in social and cultural analysis with a concentration in Latin American studies provides a broad and vibrant framework for studying the diverse societies of Latin America, including diasporic communities. The program provides opportunities for cross-cultural study and takes a robust, transdisciplinary approach to the literature, film, history, politics and culture of both Latin America and Latinas and Latinos living in the United States.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** Yes

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

English, MA

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASSCALABA-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With programs across Latin America, study abroad students have the opportunity to immerse themselves in the very cultures they are studying. Students deepen their understanding of Latin American cultures and can gain a greater appreciation for them when studying abroad, all while enhancing their resumes with heightened cultural competency, critical thinking and communication skills. More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** Due to the program's emphasis on culture and identity, students develop respect for and sensitivity to diverse populations, enabling them as graduates to flourish in areas as varied as:

- civil rights organizations
- colleges and universities
- government agencies
- libraries
- museums
- nonprofit organizations
- Peace Corps
- political action groups
- research organizations
- social service agencies

Graduates of this program are prepared with the skills and knowledge necessary for graduate work as well as for careers in public service, education, business, humanitarian work, law or health care.

## Social and Cultural Analysis (Peace Studies), BA (ASSCAPSBA)

**Campus:** West

**Program Description:** The BA degree program in social and cultural analysis with a concentration in peace studies is a unique, transdisciplinary offering that fosters a critical investigation of peace. It does so primarily through a humanities lens, but not exclusively, and it provides an analysis of peace in connection with issues such as gender, ethnicity, race and religion.

Students learn many perspectives on peace and approaches to it, including theories and practices of peace building, nonviolence, and conflict avoidance and resolution. The program builds on the expertise of faculty in the humanities and social sciences in fields such as history, linguistics, literature, ethics, philosophy, sociology, ethnic studies, and women and gender studies.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

English, MA  
Social Justice and Human Rights, MA

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASSCAPSBA-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students can observe the impacts of peace and war on cultures and communities across the globe. Study abroad, with more than 300 unique experiences, allows students of peace studies to deepen their understanding of global peace through exploration of the impact of culture, race, religion and law on peace-building. More information is available on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** There is a growing concern for peace building within social and political institutions. As a consequence, numerous jobs now exist in peace-related sectors. The program's emphasis on the social aspects of peace, diversity and identity provides graduates with an awareness of the needs of diverse populations and the discourses that help create a culture of peace.

Graduates possess the skills and knowledge necessary for graduate work as well as for professional and personal advancement in education, writing, policy, law, cross-cultural communication, and ethics. Their knowledge can be applied in careers in government, education, business and nonprofit organizations and in areas as diverse as the following:

- civil rights organizations
- colleges and universities
- government agencies
- libraries
- museums
- nonprofit organizations
- the Peace Corps
- political action groups
- research organizations
- social service agencies

## Social and Cultural Analysis (Queer and Sexuality Studies), BA (ASSCAQSBA)

**Campus:** West

**Program Description:** The BA degree program in social and cultural analysis with a concentration in queer and sexuality studies combines

transdisciplinary topics and methods to critically analyze the function of ideologies of sexuality, the history and present conditions of sexual identity formation, structural inequalities and queer resistance to those same inequalities and the diversity of LGBTQ communities.

Drawing from the premise that sex, gender and sexual orientation are both private experiences as well as profoundly political and public issues with important legal, social and cultural implications, the intellectual core of this program draws from theories, methods and pedagogies in queer theory and sexuality studies while engaging complementary fields of social justice, cultural studies, women's studies, gender studies, literature, history, sociology, psychology and transnational studies. Areas of emphasis include sexuality in culture, transnational queer studies, queer social movements and resistance, sexual fluidity, trans studies and critical heterosexualities.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

English, MA

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASSCAQSBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Stigmas against sexualities are being broken down and challenged in societies across the globe, and study abroad allows students to deepen their understanding of LGBTQ treatment through firsthand experience.

Students can explore the impact of culture, race, religion and law on equality all over the world. With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore their varied fields and interests in different settings around the world.

**Career Opportunities:** Due to the emphasis on culture and identity, the program cultivates respect for and sensitivity to diverse populations, and its graduates are prepared with the skills and knowledge necessary for graduate work as well as for careers in areas as varied as:

- civil rights organizations
- colleges and universities
- government agencies
- libraries
- museums
- nonprofit organizations
- Peace Corps
- political action groups
- research organizations
- social service agencies

## Social and Cultural Analysis (Women and Gender Studies), BA (ASSCAWSBA)

**Campus:** West

**Program Description:** The BA degree program in social and cultural analysis with a concentration in women and gender studies offers students a transdisciplinary curriculum that focuses on the diverse experiences of women in both national and international contexts. The program also examines the meaning of gender as a socially constructed category that shapes personal identities, beliefs, opportunities and behaviors.

The wide range of classes explores the intersections of gender, race, class and sexuality; the institutional structures that have an impact on women's and men's lives; and the broad range of feminist theories that seek to explain and influence women's status in society. Areas of emphasis include gender and sexuality, critical race feminisms, gender and the borderlands, transnational feminisms, social activism and social movements, histories of feminism and critical embodiment studies.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

English, MA

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASSCAWSBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

**Global Experience:** Students can explore the impact of culture, race, religion and law on gender norms and equality through one of over 300 unique study abroad experiences. Study abroad programs offer a global perspective and knowledge, excellent preparation for a future-focused career.

Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs. More information is available on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** Due to the program's emphasis on culture and identity, students develop respect for and sensitivity to diverse populations, enabling them as graduates to flourish in careers in areas as varied as:

- civil rights organizations
- colleges and universities
- government agencies
- libraries
- museums
- nonprofit organizations
- peace corps
- political action groups
- research organizations
- social service agencies

Graduates are prepared for careers in advocacy, politics and community-facing corporate roles as well as for graduate studies programs.

## **Sociology, BA (ASSOCBA)**

**Campus:** West, ASU at Lake Havasu

**Program Description:** Sociology is the study of the organization and development of societies and the institutions within them. The sociology program helps students better understand the development, structure, interaction and collective behavior of organized groups.

The program explores the theories, practices and policies underlying the issues of social change, inequality and diversity. This BA degree program in sociology provides students with training in important research skills used to describe, interpret and evaluate evidence across diverse settings important in the economy.

This is a flexible program that provides opportunities for students to work collaboratively with faculty on intellectual and policy issues and helps them develop the research skills necessary for the analysis of complex social issues.

The Bachelor of Arts differs from the BS in that it does not require an additional methods course.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees.

Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Communication Studies, MA

Global Management, MGM

Interdisciplinary Studies, MA

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASSOCBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students are able to enhance their understanding of societal structure and human interaction through a global lens by studying abroad (<https://goglobal.asu.edu/>), and programs with unique cultural experiences can be found around the world. Students can gain heightened cultural competency and communication and critical thinking skills while exploring a new and exciting part of the world.

**Career Opportunities:** Graduates are prepared for employment in corporate or governmental organizations or to continue their studies in graduate programs in sociology, social science or professional schools. They are able to apply the sociological perspective to a wide variety of jobs in:

- business and management
- government
- health professions
- social services
- the criminal justice system

Coursework in sociology provides graduates with valuable preparation for careers in:

- journalism
- law

- nonprofit sector
- politics
- public administration
- public relations

These are all fields that involve investigative skills and an ability to work with diverse groups.

Graduates with an advanced degree in sociology may become:

- community activists
- community developers
- criminologists
- demographers
- gerontologists
- organizational advocate
- research analysts
- statisticians
- survey researchers
- urban planners

## Spanish, BA (ASSPABA)

**Campus:** West

**Program Description:** The BA degree program in Spanish emphasizes language studies and examines the cultural production of Spanish-speaking communities, in Spanish.

This program provides students with the skills to confidently communicate in writing and orally. Students learn the history, arts, literature and cultures of Spanish-speaking countries.

Graduates are prepared for graduate study, specialized professional training, government careers and commercial and international careers.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** N

**Second Language Requirement:** Yes

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

### Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

English, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

### Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASSPABA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### Global Opportunities:

Global Experience: Study abroad enhances students' understanding of the diversity of the world and the way in which knowledge of such diversity

makes each person a better human being and citizen. Students are able to study in programs that provide immersion into Spanish-speaking cultures with a diverse array of individual and group experiences.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu>) allow students to tailor their educational experience to their unique interests and skills sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore their varied fields and interests in different settings.

**Career Opportunities:** The Spanish program offers excellent preparation for graduate school or for employment as a teacher in the elementary or secondary school system, especially in those districts where bilingual programs are integral to the curricula. Outside the education system, students majoring in Spanish find employment as translators and interpreters in:

- diplomatic corps
- federal and state courts
- law enforcement agencies
- law firms
- social agencies

The business world also provides employment for those fluent in Spanish. This is especially true in the American Southwest, with its proximity to Mexico and through outlets opened by multinational trade agreements.

## Statistics, BS (ASSTABS)

**Campus:** West

**Program Description:** Almost every industry in the modern economy relies on the collection and analysis of data. The BS degree program in statistics prepares students to meet the demands of the ever-growing data analysis field and is a launching pad for a statistics-driven career.

Through innovative research opportunities and internships with Arizona corporations, including PING, students build a solid foundation of mathematics and computing, helping them grasp a thorough understanding of both theoretical and practical statistics.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website.

The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/wue>).

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 270 - Calculus w/Analytic Geometry I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Biological Data Science, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply

(<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASSTABS~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

**Global Experience:** Students gain valuable experience when studying abroad. With more than 300 programs available, study abroad allows students to tailor their experience to their unique interests and skill sets. Statistics majors are able to gain hands-on experience in programs in a variety of countries around the world.

Graduates with the heightened cultural competency and the leadership and critical thinking skills they achieved through study abroad may stand out in any competitive field.

More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** In the era of big data, there is great demand for individuals with all levels of statistical training. Graduates of this program have an understanding of the transdisciplinary nature of statistics and are prepared for graduate study in statistics and related areas or for entry-level positions in a variety of fields, including business, government, the natural and social sciences, engineering, health care and more.

Statisticians are in high demand in many areas of industry, government and academia. Some areas with particularly high demand include:

- finance
- manufacturing
- research
- marketing
- media
- medical
- pharmaceutical
- government policy

## **Journalism and Mass Communication, Walter Cronkite School of**

### **Digital Audiences, BS (CSDIGABS)**

**Campus:** Downtown Phoenix, Online

**Program Description:** Virtually all companies and organizations are looking for professionals who know how to grow and engage audiences

online. The BS program in digital audiences prepares students to reach audiences strategically with digital content and demonstrate measurable growth. The program features unique, high-value courses covering paid social media campaigns, search engine optimization, audience engagement and digital analytics.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/digital-audiences-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=CSDIGABS~null + &college=CCS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Create an audience growth strategy using digital platforms.
- Use professional tools, technology, and techniques to measure audiences, content and behavior, and be prepared for analytics tasks in media careers.
- Use professional tools, technology, and techniques to evaluate effective, strategic social media campaigns and be prepared for paid and organic social media work in media careers.
- Use professional tools, technology, and techniques to evaluate effective, optimized content and campaigns for search engines, and be prepared for paid and organic search engine work in media careers.

**Global Opportunities:**

Global Experience: Study abroad exposes students to unique perspectives, opinions and audiences that consume digital content. Students should consider programs that utilize experiential learning with organizations like social media companies or PR firms in countries like Japan and the UK where millions consume digital content every day. More information on available programs can be found on the Global Education website.

**Career Opportunities:** Professionals with expertise in digital content strategy are in high demand across sectors and industries. Among the many career opportunities available are positions such as digital strategists, social media managers, public relations specialists, engagement managers, digital news editors, political campaign strategists, digital marketers, community organizers and corporate branding specialists.

## Digital Media Literacy, BA (CSDMLBA)

**Campus:** Online

**Program Description:** Organizations of all sizes, public and private, are learning to cope with unprecedented change in how people interact with and use information. The BA program in digital media literacy prepares students to be at the forefront of the important strategic and ethical issues related to digital media, including automation, verification, security and privacy.

Graduates of the program are able to use cutting-edge tools and tactics to analyze the context of the media people consume. They are able to verify and interpret information to make decisions that improve their own lives and that benefit the larger society.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/digital-media-literacy/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=CSDMLBA~null + &college=CCS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Evaluate the accuracy and credibility of digital media sources and information.
  
- Participate in digital media networks actively, safely, and ethically.
  
- Evaluate the potential global impacts of future developments within information ecosystems.
- Evaluate the role of communication in a free society.

#### **Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for their career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

**Career Opportunities:** Graduates of this program pursue a variety of professional and educational opportunities. The program's liberal arts foundation --- including critical thinking, communication, research and problem solving --- gives students the intellectual agility to thrive in many fields. Specialization in the technical, ethical, legal, social and economic aspects of digital media is especially valuable, as employers of all sizes try to leverage digital media in serving consumers.

As organizations try to keep up with digital transformation and plan for the future, having a deep understanding of how digital ecosystems work is critical. Demand for graduates of digital media literacy in fields such as health care communication, public service and sustainability is anticipated to rise, and the U.S. Department of Labor categorizes many jobs in these areas as having a bright outlook in the job market.

Given increasing emphasis on teaching media literacy at every age level, graduates can expect to find employment opportunities in a variety of educational settings, and some students may pursue graduate school in disciplines such as education, library science, law, public policy, business, public relations, digital strategy and journalism.

## **Journalism and Mass Communication, BA (CSJMCBA)**

**Campus:** Downtown Phoenix

**Program Description:** The BA program in journalism and mass communication at ASU's Walter Cronkite School of Journalism and Mass Communication, widely regarded as one of the nation's premier media schools, is a highly professional, hands-on degree program that prepares students for careers in mass communications.

Through access to a world-class faculty of journalists, communicators and scholars, and with prestigious internships and immersive learning opportunities, undergraduate students learn the values and principles at the core of the media professions, and they master the highly specialized, practical skills needed for success in today's digital world.

Topics of study can include digital media, broadcast news, innovation and entrepreneurship, audience engagement, social media, public relations and Spanish-language media. The Cronkite School's full-immersion professional programs afford students the opportunity to gain experience in activities like reporting the evening news on Arizona PBS and creating digital advertising campaigns.

High-performing students can apply to the school's accelerated bachelor's degree and master's degree program  
2023-24 Academic Catalog Archive

(<https://cronkite.asu.edu/accelerated-masters-degrees/>), which allows for the completion of both degrees in as few as four years. They also can become part of ASU's Barrett, The Honors College (<https://barretthonors.asu.edu/>).

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** Any MAT course that satisfies the math requirement

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Digital Audience Strategy, MS

Master of Mass Communication, MMC

Sports Journalism, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: English proficiency requirements (<https://admission.asu.edu/international/undergrad/english-proficiency>) for international student admission:

- TOEFL iBT: minimum score of 100 (internet-based test, taken in a testing center) or
- IELTS: minimum score of 7.0 or
- Pearson Test of English: minimum score of 73 or
- Duolingo English test: minimum score of 120

Transfer Admission Requirements: Transfer students (classified as those with 12 or more transfer credit hours after high school graduation) are required to have a cumulative transfer GPA of 3.00 or higher and no English competency deficiencies.

Transfer students with 24 or more transferable credit hours after high school graduation are required to have a cumulative transfer GPA of 3.00 or higher.

Transfer students should contact the school for additional steps after admission to ASU.

**Change of Major Requirements:** ASU students who would like to change their major to journalism and mass communication must have a minimum cumulative GPA of 3.00 in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's nonelective General Studies requirements. The course MCO 120 Media and Society, an introductory course for nonmajors, may count in place of JMC 110 Principles and History of Journalism.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=CSJMCBA~null + &college=CCS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply the principles of journalism, such as accuracy, fairness, timeliness, diversity and privacy, to their course requirements.
- Use the tools, technology, and techniques for content creation that adheres to accepted journalistic standards and practices, and prepares them for careers in media and communication.
- Create portfolios, which measure their integration of knowledge through tangible products in digital, social, audio, and video stories to demonstrate to potential employers their professional readiness.
- Understand and apply ethical, diversity, and legal standards relevant to the journalism industry and create culturally proficient communication.

#### **Global Opportunities:**

Global Experience: As the world grows more connected, an understanding of other cultures and places is imperative. Study abroad (<https://goglobal.asu.edu/>) exposes students to diverse opinions, new and challenging situations, and opportunities to explore a new country.

Journalism students are offered highly specialized programs that provide the classes and experiences they need, whether covering the Olympics or spending an entire semester abroad. An international experience on a resume can help a candidate stand out in a competitive field.

**Career Opportunities:** Graduates are prepared for a wide assortment of careers with the hands-on training they received in the program as well as in real, professional newsroom experiences.

Popular industries include:

- digital media content creation
- local, national or international news reporting
- radio and podcasting
- corporate and business communication
- social media
- videography and photography
- digital marketing
- public relations
- brand storytelling

Graduates are competitive candidates for many roles, including these:

- audience engagement specialist
- copy editor
- director
- magazine writer
- news anchor
- news reporter
- producer
- radio and podcast host
- videographer

## **Mass Communication and Media Studies, BA (CSMCMSTBA)**

**Campus:** Downtown Phoenix, Online

**Program Description:** The BA in mass communication and media studies gives students a deep and nuanced understanding of the growing importance, power and influence of media around the world.

The program explores global mass communication issues from all dimensions: societal, cultural, historical, political, economic, technological and legal. Students learn how to critically analyze media, from news to sports to pop culture, and apply that understanding to the world around them.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-mass-communication-and-media-studies/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=CSMCMSTBA~null + &college=CCS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Evaluate the changing nature of media in the world from societal, cultural, historical, political, economic, technological, and legal dimensions.
- Evaluate the accuracy and credibility of media sources and information and media's impact on society.
- Evaluate media products, tools, digital platforms, and social networks and the digital audiences that comprise these platforms and networks.

**Global Opportunities:**

Global Experience: As the world grows more connected, an understanding of other cultures and places is imperative. Study abroad (<https://goglobal.asu.edu/>) helps students to understand how different cultures and the media actors that originate from those cultures interact and influence. Real-world experience in programs that observe and analyze international media, news culture and journalism prepare students for careers in which they will need to articulate well and utilize knowledge of multicultural communication styles.

**Career Opportunities:** A sophisticated understanding of mass communication is a critical asset for careers in business, government, community and the nonprofit sectors. Graduates have varied career opportunities, such as with:

- communications firms
- education institutions
- government entities
- political parties
- professional organizations
- publishing companies

Graduates also are prepared to pursue graduate studies in fields such as law, medicine, the arts, education and journalism.

## Sports Journalism, BA (CSSPJBA)

**Campus:** Downtown Phoenix

**Program Description:** Sports media is one of the fastest-growing sectors of the media industry, with continued growth across multimedia outlets; broadcast and cable channels and networks; radio and podcasting; and team, league and conferences websites and social media platforms.

The Walter Cronkite School of Journalism and Mass Communication's BA program in sports journalism gives students unparalleled preparation for careers in sports media and communications through courses such as sports writing, sports photography, sports strategic communications, broadcast sports reporting, live sports production, play-by-play, and ethics and diversity in sports.

During the sports journalism degree program, students complete a variety of professional experiences. Internship partners include professional sports teams from the Diamondbacks to the Suns; Arizona State University athletics; local, regional and national sports media outlets like ESPN, Bally Sports, Fox Sports, the Pac-12 Networks; and more. Sports journalism students also participate in the school's semester-long immersive learning experiences, working with sports clients in the Cronkite Agency, or report from sports bureaus in Phoenix and Los Angeles, where they cover teams and events in the NFL, MLB, NBA, WNBA, NHL, NASCAR, PGA, LPGA and Division I athletics.

High-performing students can apply to the school's accelerated bachelor's degree and master's degree program (<https://cronkite.asu.edu/accelerated-masters-degrees/>), which allows for the completion of both degrees in as few as four years. They also can become part of ASU's Barrett, The Honors College (<https://barretthonors.asu.edu/>).

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** Any MAT course that satisfies the math requirement

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Master of Mass Communication, MMC

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: English proficiency requirements (<https://admission.asu.edu/international/undergrad/english-proficiency>) for international student admission:

- TOEFL iBT: minimum score of 100 (internet-based test, taken in a testing center) or
- IELTS: minimum score of 7.0 or
- Pearson Test of English: minimum score of 73 or
- Duolingo English test: minimum score of 120

Transfer Admission Requirements: Transfer students with 12 or more transfer credit hours after high school graduation are required to have a cumulative transfer GPA of 3.00 or higher and no English competency deficiencies. Transfer students should contact the school for additional steps after admission to ASU.

Transfer students with 24 or more transferable credit hours after high school graduation are required to have a cumulative transfer GPA of 3.00 or higher. Transfer students should contact the school for additional steps after admission to ASU.

**Change of Major Requirements:** ASU students who would like to change their majors to sports journalism must have at least a cumulative GPA of 3.00 in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's nonelective General Studies requirements. MCO 120, an introductory course for nonmajors, may count in place of JMC 110.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=CSSPJBA-null + &college=CCS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply the principles of journalism, such as accuracy, fairness, timeliness, diversity and privacy, to their course requirements. (Shared)
- Create portfolios, which measure their integration of knowledge through tangible products in digital, social, audio, and video stories to demonstrate to potential employers their professional readiness. (Shared)
- Understand and apply ethical, diversity, and legal standards relevant to the journalism industry and create culturally proficient communication. (Shared)
- Use the tools, technology, and techniques for content creation that adheres to accepted journalistic standards and practices, and prepares them for careers in sports media and communication. (BA Sports Journalism program only)

#### **Global Opportunities:**

Global Experience: Sports and sports fans create one of the most globalized industries that unite cultures through passion for a favorite team, athlete or game. Study abroad programs (<https://goglobal.asu.edu/>) shed light on how amazing stories of sport, triumph and defeat connect us all. Students apply real-world skills and learn about international sports firsthand by covering regional teams or large-scale sporting events like the Olympics.

**Career Opportunities:** Graduates of the sports journalism degree program are prepared for careers across media (including digital, print, video and audio) and athletics (teams, leagues, agencies and sports news organizations). They go on to pursue positions including sports writers, reporters, team content creators, producers, marketers, television anchors, multimedia specialists, social media managers, and strategic communications and public relations project coordinators.

## Liberal Arts and Sciences, The College of

### Actuarial Science, BS (LAACTBS)

**Campus:** Tempe

**Program Description:** Actuarial science students learn to use tools from mathematics, statistics and finance to measure the impact of risk in order to improve forecasting and decision-making.

The BS degree program in actuarial science provides students with the preparation necessary for the required professional actuarial credentialing exams offered by the Society of Actuaries and the Casualty Actuarial Society.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 270 - Calculus w/Analytic Geometry I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Actuarial Science, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** Current ASU students wishing to change their major to actuarial science should have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A"), have completed at least MAT 265 Calculus for Engineers I or MAT 270 Calculus with Analytic Geometry I and CIS 105 Computer Applications and Information Technology (or CSE 100 or CSE 110), and have earned a "B" grade or better in all critical classes they have already completed.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAACTBS-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer

experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Study abroad students are able to enhance their resumes with the heightened cultural competency and leadership and critical thinking skills they acquire through the valuable experience.

Each of the more than 300 Global Education program options (<https://goglobal.asu.edu/>), whether in a foreign country, in the U.S. or online, provide an opportunity for students to develop a valuable skill set that can give them an advantage in their career and personal enrichment. Global Education programs encourage students to build communication skills, challenge them to adapt and persevere, expose them to differences around the world and increase their ability to work with diverse groups of people.

**Career Opportunities:** Risk is a part of daily life and wherever there is risk, there are opportunities for actuarial intervention. Many actuaries work with insurance companies to calculate premiums, determine reserves needed to ensure an organization's financial health and to ensure organizations conform to stringent, complex legal mandates. Others help companies to establish retirement plans or are employed as consultants.

Graduates with a BS in actuarial science possess skills that are transferable to any industry and any organization that requires risk modeling and management, including:

- colleges and universities
- consulting firms
- energy, such as utilities, oil and gas
- environment (on issues such as climate change and the financial impact or risk of extreme events)
- financial services, such as banking and investment management
- government agencies such as Social Security, the Department of Labor and Medicare (to manage social programs and to develop regulations and legislation)
- insurance companies
- retirement and pensions
- transportation, such as shipping and air travel

They can also apply the advanced problem-solving skills learned in the actuarial science undergraduate program to a variety of other professional careers, including:

- analysts
- business operations specialists
- consultants
- teachers

**Professional Licensure:** ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

## African and African American Studies, BA (LAAFRBA)

**Campus:** Tempe, Online

**Program Description:** The African and African American studies program at ASU has assembled a dynamic faculty engaged in investigating the riveting complexities of Africa.

Trained in a variety of disciplines that include anthropology, health, history, journalism, literature, sociology, political science and women's studies, the faculty guide students as they examine a wide array of critical issues facing African-descended peoples across the stages of life at various times and places in history.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Science and Technology Policy, MSTP

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/african-studies/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAAFRBA-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Conduct independent research exploring critical issues in and to the African diaspora.

**Global Opportunities:**

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) allow students to experience a very different cultural environment, and learning to adapt can be challenging at first, but rewarding by the end of the adventure. Students learn to grow outside of their comfort zone as they learn more about the world, and they may even change the way they think about and perceive others.

The College of Liberal Arts and Sciences recommends specific study abroad programs (<https://goglobal.asu.edu/students/major/sst/african-african-american-studies>) for students majoring in African and African American studies.

**Career Opportunities:** Because of its emphasis on various social aspects and groups, the African and African American studies program provides students with practical applications useful for various workplaces. This program helps students develop cultural sensitivity and prepares them for careers in:

- administration
- advertising
- business
- counseling
- education
- health care
- human resources
- international relations
- journalism
- justice
- law

Graduates are prepared for work in many arenas; some examples:

- business --- corporations, hotel chains, public relations firms, sales departments, the insurance industry, travel agencies
- civic --- civil rights organizations, nonprofit organizations, social service agencies, the Peace Corps
- education --- colleges and universities, museums, research organizations
- government --- law firms, political action groups

## American Indian Studies, BS (LAAISBS)

**Campus:** Tempe

**Program Description:** The BS program in American Indian studies provides students with unique opportunities to evaluate issues of American Indian nations within domestic and international contexts.

The American Indian studies program is committed to broadening the knowledge of students interested in the histories, languages, cultures, arts and contemporary situations of American Indian nations and peoples; and it encompasses legal, policy, community and economic development as well as arts, languages and culture.

The program is designed to protect the integrity and identity of the Indigenous populations of North America and to create a learning environment conducive to critical and creative thought.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

American Indian Studies (Indigenous Rights and Social Justice), MS

American Indian Studies (Tribal Leadership and Governance), MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAAISBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Through study abroad, students can connect with Indigenous cultures around the world and expand the lens through which they view North American Indigenous populations. They can learn alongside peers from other countries and develop professional skills that include teamwork and cross-cultural communication. Students can stay on track academically by completing courses while they are in one of over 300 Global Education programs (<https://goglobal.asu.edu/>).

**Career Opportunities:** Graduates of the American Indian studies program are qualified to fill positions at the tribal, state and federal government levels and in the private sector. They can pursue professional careers in fields such as government service or public service. For example, federally and tribally operated schools located in remote areas within Indian Country have high turnover rates for both teachers and staff. American Indian studies graduates should be available to help fill these positions. Furthermore, the federal government, a major employer on many reservations across the country, is in need of qualified people who are knowledgeable in Indian cultures, laws and policies. Additionally, many American Indian nations' economies and infrastructures are developing at a rapid pace, and they are in continuous need to fill mid-management and management-level positions.

Graduates find positions in many areas, such as:

- community action work
- public administration (tribal or state relations, nonprofit management, education administration, planner)
- public health
- the arts
- tribal employment (political office, tribal management, cultural resource programming, grant writer, cultural specialist, youth services)

This program also provides suitable preparation for the advancement to graduate study or law school.

## American Studies, BA (LAAMRSTBA)

**Campus:** Tempe

**Program Description:** The BA program in American studies bridges multiple disciplinary approaches to explore the diverse cultures, global impact, social systems, gendered experiences, socioeconomic realities and political thought of the United States. The field of American studies centers an understanding of diversity in U.S. society; understanding of how the U.S. national community represents and imagines itself; understanding of how

this resonates globally; and understanding the role of social movements seeking to achieve political, legal and economic change.

The program trains students in the history and trajectory of the field of American studies; explorations of racial literacy, gender, sexuality and socioeconomic experiences grounded in historical contexts that help in understanding contemporary U.S. populations; critical methodologies, including how alternative voices are key in research, politics and policy, and social justice work; applied research methods, particularly those that involve community involvement and engagement; and the use of storytelling and narratives to represent diverse communities and facilitate broader understanding across groups.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

#### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAAMRSTBA-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for a career. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs. More information is available on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** Graduates are prepared for careers in policy, education and teaching, urban planning, sustainability, socio-political movements, environmental impacts, advocacy, nonprofit organizations, government, journalism, law and justice, public safety and health. This degree program is also well suited for pairing with other professional degrees that prepare students for these careers.

## **Anthropology, BA (LAASBBA)**

**Campus:** Tempe, Online

**Program Description:** Anthropology is the study of what it means to be human, in the broadest possible terms.

The program helps students recognize and solve problems facing the contemporary world through a broad understanding of humanity. Working alongside leading faculty, students gain experience as apprentices on research projects. Students also have opportunities for hands-on learning through study abroad programs and field schools.

The interdisciplinary program offers training in the main areas of anthropology, including archaeology, bioarchaeology, sociocultural anthropology and evolutionary anthropology.

Students enrolled in this program may not pursue a concurrent degree with the Bachelor of Science in anthropology or the Bachelor of Arts in global health, but they may add a minor in global health to complement the core curriculum. The BA in anthropology is primarily for those whose interests lie in society, culture and archaeology, while the BS is primarily taken by students interested in science and mathematics-based courses.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Health, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-anthropology/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAASBBA-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer

experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Study abroad students often cite participation in Global Education programs (<https://goglobal.asu.edu/>) as the highlight of their academic career and a crucial moment in helping them gain a clearer view of the world, its peoples and the complex challenges facing everyone.

The School of Human Evolution and Social Change offers a suite of faculty-directed Global Education programs designed to connect students with real-life issues that impact local communities yet transect borders. Through any of the more than 300 programs available, students can see the world as they never have before and come away with memories to last a lifetime.

The College of Liberal Arts and Sciences recommends these programs (<https://goglobal.asu.edu/students/major/anthropology>) for students majoring in anthropology.

**Career Opportunities:** Graduates have the knowledge and skills they need to find jobs in fields where understanding complex human behavior is important. Anthropologists work in government agencies, the corporate world, nonprofit organizations, and in consulting roles and in private business where their knowledge of human interactions is critical for finding solutions to today's most complex issues.

The demand in the job market for people with an anthropology background is stimulated by a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret complex problems and work effectively across cultures and languages. As the many spheres of human interaction expand globally, people trained in anthropology are increasingly sought for their broad, holistic knowledge and perspectives, the hallmarks of anthropology.

Career opportunities include:

- acting as legal advocates for displaced communities like refugees in international cases
- analyzing and proposing policies
- conducting postgraduate academic research or teaching
- consulting for private and public organizations
- curating cultural resources
- health system administration or health care professionals
- directing nonprofit organizations
- directing programs in the private or public sector
- managing culture or heritage resources in private or public sectors
- planning pandemic and other disaster response

## Anthropology, BS (LAASBBS)

**Campus:** Tempe, Online

**Program Description:** This BS program in anthropology provides training in data collection, analysis and research design within the scientific approaches to anthropology.

Students learn how to use the scientific method to formulate and test hypotheses and how to gather data through such methods as field surveys, excavation and measurement. They also learn how to employ statistics to analyze and extract meaning from data. Through broad anthropological coursework, students learn to ask important questions about the human species and gain the tools to answer them.

The interdisciplinary program offers training in the main areas of anthropology, including archaeology, bioarcheology, sociocultural anthropology and evolutionary anthropology. In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 251 - Calculus for Life Sciences

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Global Health, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bs-anthropology/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAASBBS-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Through study abroad, students can see the world and gain hands-on experience that prepares them for a future-focused career. Students often cite participating in Global Education programs (<https://goglobal.asu.edu/>) as the highlight of their academic career and a crucial moment in helping them gain a clearer view of the world, its peoples and the complex challenges facing everyone.

The School of Human Evolution and Social Change offers a suite of faculty-directed Global Education programs designed to connect students with real-life issues that impact local communities yet transect borders. Through any of the more than 300 programs available, students can see the world as they never have before and come away with memories to last a lifetime.

The College of Liberal Arts and Sciences recommends these programs (<https://goglobal.asu.edu/students/major/anthropology>) for students majoring in anthropology.

**Career Opportunities:** The demand in the job market for people with an anthropology background is stimulated by a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret large amounts of data. As the many spheres of human interaction expand globally, people trained in scientific modes of anthropology increasingly are sought-after for the combination of their broad, holistic knowledge and perspective and their technical skills.

Some career opportunities include:

- analyzing and proposing policies
- conducting postgraduate academic research
- consulting for large and small private and public organizations
- curating cultural resources
- directing nonprofit organizations
- directing programs in the private or public sector
- forensics
- genetics and other laboratory-based positions
- managing cultural resources in public and private sectors
- modeling infectious diseases
- providing health care as nurses, doctors, or public health professionals
- teaching

## Asia Studies, BA (LAASIABA)

**Campus:** Tempe

**Program Description:** The BA program in Asia studies offers students an in-depth and comprehensive study of Asia --- China, Japan, Korea, Indonesia, India and other countries --- through a number of different disciplines wrapped up into a coherent plan of academic study. The program provides students with a variety of intellectual tools that enable them to address languages, religions and cultures, artistic traditions, political and social issues, and global networks of Asia as well as diasporic experiences of Asians, and to apply that knowledge in many academic and professional settings.

**Additional Program Fee:** N

**Second Language Requirement:** Y

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAASIABA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students have the opportunity to immerse themselves in the cultures they are studying, through study abroad programs (<https://goglobal.asu.edu/>) available throughout Asia. Students can deepen their understanding of Asian history and culture, and the heightened

cultural competency, critical thinking and communication skills they acquire will enhance their resumes.

The College of Liberal Arts and Sciences recommends these study abroad programs (<https://goglobal.asu.edu/students/major/shprs/asia-studies>) for students majoring in Asia studies.

**Career Opportunities:** People knowledgeable about Asia are required in virtually every arena in which the U.S. interacts with the rest of the world, including:

- communication and journalism
- environmental studies
- government services and diplomacy
- higher education
- international business
- natural resource management
- popular art and culture
- supply chain management
- transportation and tourism
- translation and editing

- Global Management (Sustainable Tourism), MGM
- Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAHSTSEABA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students have the opportunity to immerse themselves in the very cultures they are studying through Global Education programs (<https://goglobal.asu.edu/>) available throughout Southeast Asia. They can deepen their understanding of Southeast Asian history, philosophy and culture, and the heightened cultural competency, adaptability, critical thinking and communication skills they acquire through study abroad will enhance their resumes.

The College of Liberal Arts and Sciences recommends these study abroad programs (<https://goglobal.asu.edu/students/major/shprs/asia-studies>) for students majoring in Asia studies with a concentration in Southeast Asia.

**Career Opportunities:** People knowledgeable about Asia are required in virtually every arena in which the U.S. interacts with the rest of the world, including:

- communication and journalism
- diplomacy, trade, and international organizations

- food security
- higher education
- humanitarian service and philanthropy
- intelligence
- law and law enforcement
- military studies
- technology transfer
- transportation and tourism

## Asian Languages (Chinese), BA (LACHIBA)

**Campus:** Tempe

**Program Description:** The BA program in Asian languages with a concentration in Chinese emphasizes proficiency in reading, writing and speaking Mandarin and in reading classical Chinese.

Students gain an in-depth understanding of the fundamentals of the rich Chinese cultural tradition, centered on primary Chinese texts (these are in Chinese and in English translation) from the literary, intellectual and religious cultures of Chinese-speaking societies. These texts include visual and written materials on a variety of topics, including:

- history
- linguistics
- literary theory
- media
- philosophy
- religion
- urban culture

Highly motivated students interested in learning Chinese to professional level of proficiency are encouraged to inquire about the Chinese Language Flagship Program (<https://silc.asu.edu/chineseflagship>). All students with higher levels of linguistic competency may enroll in targeted courses (they are conducted in Chinese) offered as part of the Chinese flagship track.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent degrees or a second baccalaureate in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

#### General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LACHIBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### Global Opportunities:

Global Experience: Study abroad (<https://goglobal.asu.edu/>) is vital when learning the Chinese language. Immersing oneself in the second most spoken language in the world adds value to the degree, and having a thorough understanding of Chinese cultural elements prepares graduates to take off in an exciting, multicultural career with valuable skills employers seek, like heightened cultural competency, adaptability, critical thinking and communication skills.

**Career Opportunities:** Knowledge of multiple languages and intercultural competencies enhance any occupation and offer graduates many career opportunities. Language-intensive professions include:

- foreign correspondent or media professional
- foreign service officer
- international banking and finance professional
- language teacher
- law and immigration professional
- multilingual administrative professional
- nongovernmental organization professional
- professor of language, literature and culture
- translator or interpreter
- travel professional

Career fields in which speaking multiple languages is a benefit include:

- advertising, marketing and communications
- airline industry
- film, television or multimedia
- foreign correspondence and journalism
- hospitality industry
- intelligence
- international education and study abroad administration
- international law
- public relations
- technology industries

## Asian Languages (Japanese), BA (LAJPNBA)

**Campus:** Tempe

**Program Description:** Students in the BA program in Asian languages with a concentration in Japanese study the language, literature and culture of Japan and gain a respectable measure of competence in reading, writing, and oral and aural skills in the Japanese language. Students also gain linguistic and cultural competence through the required study of classical Japanese.

In addition, ASU offers summer or yearlong programs to study abroad (<https://goglobal.asu.edu/>) in Japan.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAJPNBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Study abroad (<https://goglobal.asu.edu/>) is vital when learning the Japanese language. Immersing oneself in the language and culture adds value to the degree and prepares students to take off in an exciting, multicultural career with valuable skills employers seek, like heightened cultural competency, adaptability, critical thinking and communication skills.

The College of Liberal Arts and Sciences recommends these programs (<https://goglobal.asu.edu/students/major/SILC/japanese>) to students majoring in Japanese.

**Career Opportunities:** Knowledge of multiple languages and intercultural competencies enhance any occupation and offer graduates many career opportunities. Language-intensive careers include:

- foreign correspondent or media professional
- foreign service officer
- intelligence officer
- international banking and finance professional
- language teacher
- law and immigration professional

- multilingual administrative professional
- professor of language, literature and culture
- translator or interpreter
- travel professional

Career fields and occupations using languages include:

- advertising, marketing or communications
- airline industry
- film, television or multimedia
- hospitality industry
- intelligence
- international education and study abroad administration
- international law
- lifestyle management
- public relations
- technology industries

## Asian Pacific American Studies, BA (LAAPABA)

**Campus:** Tempe

**Program Description:** The BA program in Asian Pacific American studies prepares students to engage and transform their communities.

Asian American, Native Hawaiian and Pacific Islander communities include multiracial and multiethnic coalition building and resistance, colonization and military occupation, exploited labor, Indigenous sovereignty, environmental justice, migration, multiracial identities, activism, creative resistance, and diverse genders and sexualities. These diverse AAPI experiences provide key insights about global processes that inform current issues and how AAPI communities have responded within local contexts.

Students may apply the interdisciplinary knowledge and skills they learn in this program to an optional internship working with local communities in culturally relevant ways that are productive and empowering.

Asian Pacific American studies emphasizes community-engaged research methods, local community collaboration and independent research for the development of transferrable skills applicable to professional careers, civic engagement and world-making. The program applies a pedagogy of care and creative options that promote student learning and success.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- American Studies, MA
- Social and Cultural Pedagogy, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAAPABA-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Program Learning Outcomes:**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze a historical or contemporary issue affecting the AAPI community.
- Ability to critically discuss and analyze Asian American and Pacific Islander experiences and communities within local, national and global contexts.
- Demonstrate an understanding of the history of Asian American and Pacific Islander communities in the U.S. through an internship or a research project under the supervision of an ASU faculty member.

**Global Opportunities:**

Global Experience: Students in the Asian Pacific American studies program are able enhance their education by studying abroad.

With more than 300 Global Education programs (<https://goglobal.asu.edu/>) available in more than 65 countries, including many countries in Asia, students can improve their language skills, gain firsthand experience in their field of study, and experience new and unique cultures. Students gain a new perspective on international affairs, dispel stereotypes, and improve their cultural competency.

The College of Liberal Arts and Sciences recommends these programs (<https://goglobal.asu.edu/students/major/sst/asian-pacific-american-studies>) for students majoring in Asian Pacific American studies.

**Career Opportunities:** Graduates who complete the bachelor's degree program in Asian Pacific American studies possess skills relevant for any career, professional degree or graduate school. Training from this program also complements work in positions involving:

- business
- community organizations
- creative arts
- education
- health
- immigration
- journalism
- law
- social work

## Astronomical and Planetary Sciences, BS (LAASTPLSBS)

**Campus:** Online

**Program Description:** The online BS program in astronomical and planetary sciences provides broad training in the scientific foundations required to understand and communicate the fundamentals of space exploration and ongoing advances in the field.

The degree program includes groundwork in mathematics and physical sciences, topical courses focused on diverse fields within astronomy and planetary science, and exposure to the engineering and computational tools and techniques used to carry out research.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 210 - Brief Calculus or higher

**Program Math Intensity:** Moderate

### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/astronomy-bachelors/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAASTPLSBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

### **Global Opportunities:**

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), Global Education is possible for all ASU students who wish to acquire global skills and knowledge in preparation for a career.

Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward

program costs.

**Career Opportunities:** Graduates pursue careers in fields that value the quantitative, technical skills taught as part of an astronomy education. These include K-12 STEM teaching positions, science and technology journalism and writing careers, and technical careers involving statistical data analysis or computer programming or technical positions supporting space and research industry and policy.

**Contact Information:**

## Biochemistry, BA (LABCHBA)

**Campus:** Tempe, Online

**Program Description:** The BA program in biochemistry provides students with a wide array of courses such as basic chemistry, the chemistry of biomolecules, cellular function, and liberal arts and languages.

This program is a flexible option for students interested in a liberal arts degree with a strong grounding in physical science. It is ideal for students seeking to complete two degrees. Students wishing to pursue a scientific graduate degree should consider the BS in biochemistry.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** MAT 251 - Calculus for Life Sciences Students may complete MAT 270 Calculus with Analytic Geometry I or MAT 265 Calculus for Engineers I in lieu of MAT 251 Calculus for Life Sciences.

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/biochemistry-ba/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LABCHBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: When studying abroad (<https://goglobal.asu.edu/>), students gain valuable experience in a diverse set of programs. Students earn ASU credit for completed courses, while staying on track for graduation.

With their resumes enhanced by the heightened skills in communication, critical thinking and leadership they acquired through the study abroad experiences, graduates stand out competitively in their chosen fields.

**Career Opportunities:** Graduates of this program are prepared for careers in a variety of fields, such as medicine and health, chemical and biotechnology industry, pharmaceuticals, environmental and food science, food production, environmental protection, scientific sales and marketing, and other forms of public service such as policymaking and teaching, patent law and many other technical areas.

Those with a Bachelor of Arts in biochemistry also are well prepared for application to graduate schools, such as medical, dental and pharmacy.

## Biochemistry, BS (LABCHBS)

**Campus:** Tempe, Online

**Program Description:** Students in the BS program in biochemistry take courses in a wide array of subjects, such as basic chemistry, the properties and function of biomolecules, and the mechanisms of cellular function and living organisms.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 270 - Calculus w/Analytic Geometry I or MAT 265 Calculus for Engineers I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Biochemistry (Medicinal Chemistry), MS  
Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-biochemistry/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LABCHBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students participating in Global Education programs (<https://goglobal.asu.edu/>) gain valuable experience in a diverse set of programs in other countries. The study abroad experience helps students deepen their understanding of biochemical processes and enhance their knowledge of research methods used across the globe. With their resumes enhanced by the heightened skills in communication, critical thinking and leadership they acquired through the study abroad experience, graduates stand out in their competitive fields.

**Career Opportunities:** A BS degree in biochemistry is an excellent choice for careers in medicine and health, chemical and biotechnology industries, drug design and pharmaceuticals, new sources of energy and materials, research, government laboratories, environmental and food science, teaching and many other technical areas.

The Bachelor of Science program in biochemistry provides the necessary training for competitive applications to medical, dental, pharmacy and other health-related graduate schools, and to advanced graduate research degree programs in biochemistry.

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/medicinal-chemistry/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LABCHMBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Each of the more than 300 Global Education program (<https://goglobal.asu.edu/>) options provide an opportunity for students to develop a valuable skill set that can give them an advantage in career and personal enrichment. Studying abroad helps students build cultural competency skills as well as heightened skills in communication, critical thinking and leadership that allow them to stand out on their graduate school applications.

Whether in a foreign country, in the U.S. or online, Global Education programs encourage students to build communication skills, challenge them to adapt and persevere, expose them to differences across the world and increase their ability to work with diverse groups of people. Students earn ASU credit for completed courses, while staying on track for graduation.

**Career Opportunities:** A solid undergraduate education in biochemistry with an emphasis in medicinal chemistry provides the necessary background for career paths in chemical, medical, pharmaceutical and biotechnology industries and for careers in governmental regulation, health care, research and other areas. It also confers critical skills for pharmacy and medical school.

Many students who intend to apply to medical school take biochemistry with a medicinal chemistry emphasis in order to make their applications more competitive, and this degree program is ideal for such students. The program provides excellent preparation for advanced graduate study in biochemistry, pharmaceuticals, pharmacology, toxicology and for careers in drug design and pharmaceuticals, medicine and health, research, food production, environmental protection and several other technical fields.

Students planning careers in medicine, dentistry, pharmacy, veterinary medicine or research in these or related fields also often pursue the medicinal chemistry concentration, with supporting work in biology and chemistry, as the route for pre-professional training.

## Biological Sciences, BS (LABSCBS)

**Campus:** Tempe, Online

**Program Description:** The life sciences involve the study of the basic organization and processes of life (microbes, plants and animals) at scales ranging from molecules to ecosystems and in time from picoseconds to millennia. This includes investigations into how hereditary information is transferred and organisms evolve, the interplay of organisms and their environments, and how these factors interact in health and disease.

Students interested in a degree in life sciences can opt for a BS in biological sciences or choose one of five concentrations:

- biology and society
- biomedical sciences
- conservation biology and ecology
- genetics, cell and developmental biology
- neurobiology, physiology and behavior

The biological sciences major with no concentration is designed for students who are committed to studying and training in multiple disciplines in biology and for students who want to get more exposure to the life sciences before deciding whether they want to declare a concentration as an undergraduate. Therefore, students in this major take core courses from several concentrations. Students in this major have more flexibility to customize their program of study so they can focus on their own area of interest that may not have a concentration, such as plant biology or genomics.

This program is available as an accelerated degree program (<https://sols.asu.edu/degree-programs/accelerated-bachelors-masters-science>).

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N**First Required Math Course:** MAT 251 - Calculus for Life Sciences**Program Math Intensity:** Moderate**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Biology (Biology and Society), MS  
Biology, MS  
Global Management (Creative Industries and Design Thinking), MGM  
Global Management (Digital Audience Strategy), MGM  
Global Management (Global Affairs), MGM  
Global Management (Global Business), MGM  
Global Management (Global Development and Innovation), MGM  
Global Management (Global Digital Transformation), MGM  
Global Management (Global Entrepreneurship), MGM  
Global Management (Global Health Care Delivery), MGM  
Global Management (Global Legal Studies), MGM  
Global Management (Integrated Health Care), MGM  
Global Management (Nonprofit Leadership and Management), MGM  
Global Management (Public Administration), MGM  
Global Management (Public Policy), MGM  
Global Management (Sustainability Solutions), MGM  
Global Management (Sustainable Tourism), MGM  
Global Management, MGM  
Microbiology, MS  
Molecular and Cellular Biology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)Transfer (<https://admission.asu.edu/transfer/apply>)International (<https://admission.asu.edu/international/undergrad-apply>)Readmission (<https://admission.asu.edu/undergrad/readmission>)**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/biological-sciences-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LABSCBS-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Professional health education is competitive. Less than 50% of students who apply to medical schools are admitted; the numbers vary for other health-related fields. Medical and professional school admission officers increasingly focus on students with dedication to community service, so engaging in community activities and research abroad will help any student who intends to pursue a health career to create a diverse, accomplished portfolio that can give them an advantage over the competition.

Study abroad students experience unique biological environments and gain an understanding of worldwide differences in the human condition.

Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to develop a valuable skill set by exposing them to different health environments and expanding their knowledge of culturally specific health approaches.

The College of Liberal Arts and Sciences recommends these programs (<https://goglobal.asu.edu/students/major/biological-sciences>) for students majoring in biological sciences.

**Career Opportunities:** The biological science major provides an excellent foundation for graduate study as well as preparation for professional schooling in:

- dentistry
- medicine
- pharmacy
- veterinary medicine

Graduates may enter positions in:

- biotechnology
- education
- government
- industry

## Biological Sciences (Biology and Society), BS (LABSCSBS)

**Campus:** Tempe, Online

**Program Description:** The BS program in biological sciences with a concentration in biology and society focuses on training biology students to understand the social context of their science and to ask how and why a biological problem has been and should be studied. Students explore the ways in which policy decisions shape and are shaped by biological research and they investigate the meaning and significance of the life sciences in understanding a complex world.

The biology and society curriculum is highly individualized. This unique degree is home to world-class researchers and teachers in diverse fields, including bioscience ethics, history and philosophy of science, science communication, science education and science policy, all brought together under one program. Students have the option to work with many renowned scholars in independent study and research projects.

This program is available as an accelerated degree program (<https://sols.asu.edu/degree-programs/accelerated-bachelor-masters-sciences>).

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N**First Required Math Course:** MAT 251 - Calculus for Life Sciences**Program Math Intensity:** Moderate**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)Transfer (<https://admission.asu.edu/transfer/apply>)International (<https://admission.asu.edu/international/undergrad-apply>)Readmission (<https://admission.asu.edu/undergrad/readmission>)**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/biology-and-society/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LABSCSBS-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: Through study abroad, whether in a foreign country, in the U.S. or online, students studying biological sciences are able to experience unique biological environments and gain an understanding of worldwide differences in the human condition. They are able to be exposed to a variety of laws, policies and practices in biology-centric environments worldwide and expand their knowledge of how science impacts society. Students also are able to engage in community service and outreach all around the world, which can help their graduate and professional program applications stand out.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their experience to their unique interests and skill sets. The College of Liberal Arts and Sciences recommends these programs (<https://goglobal.asu.edu/students/major/sls/biological-sciences-biology-society>) for students majoring in biological sciences with a concentration in biological and society.

**Career Opportunities:** Biology and society students gain the historical, philosophical, political and ethical perspectives needed to explore interactions between the life sciences and related, complex human issues. As a result, the program contributes to better informed and more effective teachers, writers, policymakers, clinicians and researchers in areas related to biology, medicine and society.

Graduates of the individualized, skill-based curriculum are eligible for a broad range of career options. Most have chosen to pursue professional degrees in medicine, law, public health or public policy, or to pursue graduate study in biology, ethics, education or history and philosophy of science. Graduates enter the workforce, whether in academia, industry, government or clinical practice, with a deep sensitivity to the complexity of biology in society and the skill to navigate that complexity throughout their careers.

## **Biological Sciences (Biomedical Sciences), BS (LABSCMBS)**

**Campus:** Tempe, Online

**Program Description:** The biomedical sciences concentration serves students in the BS program in biological sciences who wish to pursue careers in medicine, other health professions or biomedical research in academic, clinical or industry settings.

The curriculum aligns with the broad scientific competencies recommended for premedical students as stated in a report of the American Medical Colleges and the Howard Hughes Medical Committee and reflected in the 2015 changes to the Medical College Admission Test. Coursework draws from the school's concentration in genetics, cell and developmental biology and the concentration in neurobiology, physiology and behavior, with the addition of courses in biology and in medicine and society. The concentration focuses on chemistry, biochemistry, math and physics coursework that students need in preparation the MCAT and for medical school admission, and it emphasizes core concepts, competencies and critical intellectual skills necessary for success in medical school or biomedical research.

This program is available as an accelerated degree program (<https://sols.asu.edu/degree-programs/accelerated-bachelors-masters-science>).

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

#### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 251 - Calculus for Life Sciences

**Program Math Intensity:** Moderate

#### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their

academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

#### **Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Biology (Biology and Society), MS
- Biology, MS
- Global Management, MGM
- Microbiology, MS
- Molecular and Cellular Biology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/biological-sciences-biomedical-sciences-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LABSCMBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: Through study abroad, whether in a foreign country, in the U.S. or online, students studying biological sciences are able to experience unique biological environments and gain an understanding of worldwide differences in the human condition. They are able to be exposed to a variety of laws, policies and practices in biology-centric environments worldwide and expand their knowledge of how science impacts society. Students also are able to engage in community service and outreach all around the world, which can help their graduate and professional program applications stand out.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their experience to their unique interests and skill sets. The College of Liberal Arts and Sciences recommends these programs (<https://goglobal.asu.edu/students/major/sls/biological-sciences-biomedical-sciences>) for students majoring in biological sciences with a concentration in biomedical sciences.

**Career Opportunities:** Graduates are well equipped to enter careers as research scientists or as scientists in the health professions, having met the majority of prerequisite requirements and mastered many of the competencies valued by graduate programs in medical, dental and optometry fields or programs which prepare students to be physician assistants or physical therapists.

Additionally, graduates have an understanding of the process of science, preparing them for a career in research. They have knowledge of

foundational concepts in biological sciences, chemistry, physics and statistics and the ability to understand and apply core biomedical concepts. This prepares them for entry into biology research in a vast number of areas, some of which include genetics, genomics, evolution, physiology and immunology.

## Biological Sciences (Conservation Biology and Ecology), BS (LABSCCBS)

**Campus:** Tempe, Online

**Program Description:** Ecology is the study of the distribution and abundance of organisms, the interactions among organisms, and the interactions between organisms and the physical environment. Conservation biology is an applied science based on ecological principles that focuses on conserving biological diversity and on restoring degraded ecosystems.

Arizona State University is committed to a more sustainable world and sharing knowledge of conservation biology and ecology. The BS program in biological sciences with a concentration in conservation biology and ecology is one critical component to help meet this global challenge.

Conservation biologists at ASU investigate the impact of humans on Earth's biodiversity and develop practical approaches to prevent the extinction of species and promote the sustainable use of biological resources. Some investigate the causes of ecosystem degradation and use ecological principles to reestablish desired conditions in a variety of ecosystems, including rivers, wetlands, grasslands, urban landscapes and forests.

This program is available as an accelerated degree program (<https://sols.asu.edu/degree-programs/accelerated-bachelors-masters-science>).

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 251 - Calculus for Life Sciences

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Biology (Biology and Society), MS
- Biology, MS
- Global Management, MGM
- Microbiology, MS
- Molecular and Cellular Biology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/conservation-biology-degree/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LABSCCBS-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: Through study abroad, students studying biological sciences are able to experience unique biological environments and gain an understanding of conservation biology practices worldwide. They are able to be exposed to a variety of laws, policies and practices in biology-centric environments and expand their knowledge of how science impacts society. Students also are able to engage in community service and outreach, which can help them stand out in graduate study or a professional career.

With more than 300 programs available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their experience to their unique interests and skill sets. The College of Liberal Arts and Sciences recommends these programs (<https://goglobal.asu.edu/students/major/sls/biological-sciences-conservation-biology-ecology>) for students majoring in biological sciences with a concentration in conservation biology and ecology.

**Career Opportunities:** The curriculum prepares students with skills and concepts for employment and provides a solid platform for those who wish to attend graduate school. Graduates are prepared for careers with:

- governmental agencies such as the Environmental Protection Agency and state game and fish departments
- K-12 education, colleges and universities
- nongovernmental organizations such as The Nature Conservancy and Conservation International
- private companies focused on environmental resources, environmental law or environmental economics

The concentration can provide training in specific skills that might be needed in these areas:

- animal and plant physiology, identification and ecology
- behavioral ecology and population biology
- community, ecosystem and landscape ecology
- conservation of endangered species
- ecology of different habitats, including cities, lakes, rivers and grasslands
- restoration of degraded ecosystems

[sols.advising@asu.edu](mailto:sols.advising@asu.edu)

480-727-6277

**Campus:** Tempe, Online

**Program Description:** The BS program in biological sciences with a concentration in genetics, cell and developmental biology integrates the study of three exciting, closely related areas of life science research.

Genetics examines the blueprints of life, such as DNA sequence and gene expression, while cell biology studies the machinery of life enclosed within the boundaries of cells. Developmental biology uses both genetics and cell biology to understand how genes and the environment interact to produce a whole new individual from a single cell as well as to understand the various developmental changes that organisms undergo throughout life.

The combined study of genetics, cell biology and development has resulted in a better understanding of many diseases and promises to prove even more important in the future.

Students are encouraged to engage in independent research projects or internship opportunities to develop a better sense of how science is done.

This program is available as an accelerated degree program (<https://sols.asu.edu/degree-programs/accelerated-bachelors-masters-science>).

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 251 - Calculus for Life Sciences

**Program Math Intensity:** Moderate

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Biology (Biology and Society), MS
- Biology, MS
- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Integrated Health Care), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM
- Microbiology, MS
- Molecular and Cellular Biology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bs-genetics-cell-and-developmental-biology/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LABSCGBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Through study abroad, students studying biological sciences are able to experience unique biological environments and gain an understanding of worldwide differences in the human condition. They are able to be exposed to a variety of laws, policies and practices in biology-centric environments worldwide and expand their knowledge of how science impacts society. Students also are able to engage in community service and outreach all around the world, which can help them stand out in graduate study or a professional career.

With more than 300 programs available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their experience to their unique interests and skill sets. The College of Liberal Arts and Sciences recommends these programs (<http://goglobal.asu.edu/students/major/sls/biological-sciences-genetics-cell-developmental-biology>) for students majoring in biological sciences with a concentration in genetics, cell and developmental biology.

**Career Opportunities:** Graduates of this concentration have learned critical thinking skills that can be applied to many scientific problems and professions as well as to the challenges of daily life, and they have a variety of career options.

This degree provides the fundamental coursework necessary for admission into medical, dental, veterinary, pharmacy or graduate schools or any of the health professions. There also are many employment opportunities that can be pursued upon receipt of the Bachelor of Science with this concentration, such as:

- animal breeder technician
- bioinformaticist or biotechnologist
- crime lab technician
- cytotechnologist
- drug or vaccine design technician
- genetic counselor
- histologist
- in-vitro fertilization technician
- teacher
- technical writer

## Biological Sciences (Neurobiology, Physiology and Behavior), BS (LABSCABS)

**Campus:** Tempe

**Program Description:** The neurobiology, physiology and behavior concentration serves students in the BS program in biological sciences with a broad yet rigorous education.

While it might seem that neurobiology, physiology and behavior are quite separate fields, the three interact extensively in living organisms to achieve common goals. By studying neurobiology, behavior and physiology from the perspectives of molecular and cellular biology, evolution, organ systems (neural, endocrine, cardiovascular, respiratory, immune and more), and the environment, students gain insight into how these aspects work together in a variety of ways.

Students in this concentration also learn to apply principles from mathematics, chemistry and physics. Discoveries are made at the laboratory bench and in the field, and students in the concentration are encouraged to participate in research projects in the labs of faculty members.

This program is available as an accelerated degree program (<https://sols.asu.edu/degree-programs/accelerated-bachelors-masters-science>).

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 251 - Calculus for Life Sciences

**Program Math Intensity:** Moderate

### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### **Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Biology (Biology and Society), MS  
Biology, MS  
Global Management (Creative Industries and Design Thinking), MGM

Global Management (Global Affairs), MGM  
Global Management (Global Business), MGM  
Global Management (Global Development and Innovation), MGM  
Global Management (Global Digital Transformation), MGM  
Global Management (Global Entrepreneurship), MGM  
Global Management (Global Health Care Delivery), MGM  
Global Management (Global Legal Studies), MGM  
Global Management (Integrated Health Care), MGM  
Global Management (Nonprofit Leadership and Management), MGM  
Global Management (Public Administration), MGM  
Global Management (Public Policy), MGM  
Global Management (Sustainability Solutions), MGM  
Global Management (Sustainable Tourism), MGM  
Global Management, MGM  
Microbiology, MS  
Molecular and Cellular Biology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LABSCABS-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: Through study abroad, whether in a foreign country, in the U.S. or online, students studying biological sciences experience unique biological environments and gain an understanding of worldwide differences in the human condition. They are able to be exposed to a variety of laws, policies and practices in biology-centric environments worldwide and expand their knowledge of how science impacts society.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their experience to their unique interests and skill sets, and they are able to engage in community service and outreach, which can help their graduate and professional program applications stand out.

The College of Liberal Arts and Sciences recommends these programs (<http://goglobal.asu.edu/students/major/sls/neurobiology-physiology-behavior>) for students majoring in neurobiology, physiology and behavior.

**Career Opportunities:** The broad education and critical-thinking skills students receive in this concentration are applicable to a variety of rewarding careers. Premedical, preveterinary and pre dental students get the background and courses needed for professional school application and beyond. Many students go on to graduate school for academic, teaching or research careers in areas such as:

- endocrinology
- environmental or behavioral physiology
- human physiology
- metabolism
- neurobiology
- social behavior

With a Bachelor of Science degree in this concentration, graduates have opportunities for technical positions in hospitals, research institutes and industry (food, dairy, chemical, pharmaceutical and biotechnology) as well as in government laboratories and agencies. The most important skills students learn in the concentration are critical thinking and problem-solving skills that can be applied to many scientific problems and professions as well as to the challenges of daily life.

## **Biophysics, BS (LABIPHBS)**

**Campus:** Tempe, Online

**Program Description:** The BS program in biophysics uses the methods and theories of physics to study biological systems. This includes gaining a working understanding of principles governing all scales of biological organization, from molecular processes of life to organisms and ecosystems.

Students are exposed to novel learning methods and laboratory experiences, with additional opportunities to conduct independent research and work directly with faculty in the field. This strong foundation prepares students to seek roles within academia, medicine, renewable energy, research and technology.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 270 - Calculus w/Analytic Geometry I

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** Current ASU students wishing to change their major to physics should have a minimum cumulative GPA of 2.50 (scale is 4.00= "A") for all critical classes they have completed.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/biophysics-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LABIPHBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Study abroad affords students the opportunity to gain valuable experience in a diverse set of programs available in a variety of countries around the world. Students are able to study biophysics abroad through a wide set of opportunities related to physics, chemistry and biology.

Graduates who possess the heightened skills in communication, critical thinking and leadership they acquired through study abroad may stand out in a competitive field. More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

**Career Opportunities:** The broad range of applicability of the principles of biophysics gives great flexibility in a choice of career or further education including:

- chemical industries
- engineering
- government
- medicine
- physics research
- teaching

## Chemistry, BA (LACHMBA)

**Campus:** Tempe, Online

**Program Description:** Students in the BA program in chemistry take a wide range of courses that prepare them to take on important problems using atomic and molecular level thinking in areas as diverse as energy and sustainability, new materials, medicine and health, nanoscience, environmental science, forensics, cosmetics and food chemistry, patent law, sales and marketing.

The Bachelor of Arts program in chemistry is a flexible option for students interested in a liberal arts degree with a strong grounding in physical science. It is ideal for students seeking to complete two degrees. Students pursuing a bachelor's degree in chemistry have opportunities to explore a variety of interests, from laboratory science to working in the public sector in regulation or law.

Students wishing to pursue a scientific graduate degree should consider the BS in chemistry.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** MAT 270 - Calculus w/Analytic Geometry I or MAT 265 Calculus for Engineers

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LACHMBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: When studying abroad (<https://goglobal.asu.edu/>), chemistry students can gain valuable experience in a diverse set of programs. Students earn ASU credit for completed courses, while staying on track for graduation. Students who study abroad acquire heightened skills in communication, critical thinking and leadership.

**Career Opportunities:** A degree in chemistry provides the background for careers in chemical and electronics industries, in national research labs, environmental labs and forensic labs. Chemistry can be combined with law for patent work, with economics for sales and marketing careers, and with computer science for careers in information technology. Students with a strong liberal arts background are also prepared for careers in scientific sales, marketing, human development and training. Students often take chemistry degree programs to be competitive applicants for admission to medical, dental or pharmacy schools.

## **Chemistry, BS (LACHMBS)**

**Campus:** Tempe

**Program Description:** In the BS program in chemistry, students take courses that give them the knowledge and skills to solve problems at the atomic and molecular levels in areas as diverse as energy and sustainability, new materials for technology, medicine and health, nanoscience, environmental science, forensics, cosmetics and food chemistry.

The Bachelor of Science degree in chemistry is accredited by the American Chemical Society, and it prepares students for advanced study of chemistry and material science in competitive graduate degree programs. More information about the American Chemistry Society accreditation can be found on their website: <https://www.acs.org/> (<https://www.acs.org/>).

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

#### **STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 270 - Calculus w/Analytic Geometry I or MAT 265 Calculus for Engineers

**Program Math Intensity:** Substantial

#### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Biochemistry (Medicinal Chemistry), MS  
Materials Science and Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LACHMBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: When studying abroad (<https://goglobal.asu.edu/>), chemistry students can gain valuable experience in a diverse set of programs, and they acquire heightened skills in communication, critical thinking and leadership which will enable them to stand out competitively in their chosen field. Students earn ASU credit for completed courses while staying on track for graduation.

**Career Opportunities:** A degree in chemistry provides the background for careers in chemical and electronics industries, in national research labs, environmental labs and forensic labs. Chemistry can be combined with law for patent work, with economics for sales and marketing careers, and with computer science for careers in information technology. Students often take Bachelor of Science in chemistry degree programs to become competitive applicants for admission to medical, dental or pharmacy schools.

Chemists conduct both research and routine work in laboratories; they study the environment; they work in manufacturing, sales and marketing; they work in the public sector deciding policy and regulation; and they teach.

## Chemistry (Environmental Chemistry), BS (LACHMEBS)

**Campus:** Tempe

**Program Description:** The BS in chemistry with an environmental chemistry concentration is an interdisciplinary degree program that combines chemistry with environmental sciences courses in geology, mathematics and physics. Students learn to understand the world around them from a molecular perspective and to tackle problems in pollution control, energy and climate change.

This program prepares students to become scientists and leaders in solving environmental problems and for careers in environmental science, policy and regulation, and it serves as excellent preparation for advanced level study of chemical and environmental sciences in graduate school.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**STEM-OPT for International Students on F-1 Visas:**

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 270 - Calculus w/Analytic Geometry I or MAT 265 Calculus for Engineers

**Program Math Intensity:** Substantial

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LACHMEBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: Students who participate in Global Education programs (<https://goglobal.asu.edu/>) can strengthen their understanding of environmental chemistry through hands-on experience in new and exciting environments. Programs provide students with a global perspective and knowledge in preparation for a forward-thinking career.

**Career Opportunities:** A solid undergraduate program of education in chemistry that is obtained with this degree provides the necessary background for many career paths in chemical industries, government and other areas. This degree can be combined with law for patent work or government work, economics for sales and marketing careers, and computer science for careers in information storage and retrieval related to our planet.

Students planning to work in areas related to the environment will find the environmental chemistry concentration especially appropriate; they are also prepared for careers in environmental science, environmental monitoring, policy and regulation.

## Civic and Economic Thought and Leadership, BA (LACELBA)

**Campus:** Tempe

**Program Description:** The BA program in civic and economic thought and leadership incorporates the study of political philosophy, economic thought, history and American politics.

Faculty engage students through the Socratic method, which challenges students to analyze the complex topics impacting lives today. Students refine their ability to read closely, think analytically, write carefully and speak effectively.

The curriculum, combined with outside-the-classroom leadership experiences, provides students with the broad, academic foundation they will use throughout their careers. Students have the opportunity to intern on Capitol Hill, in congressional offices in their district, with nonprofits around the country or in an opportunity of their academic interest. They engage with world-renowned scholars and experts who visit ASU for large lectures and small seminars through the school's public programs and civic outreach initiatives, and they are able to apply for one of the school's Global Intensive Experiences, which study service and leadership in places such as Israel and the West Bank, India and South Africa.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

#### **Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

#### **Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Classical Liberal Education and Leadership, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

#### **Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

#### **Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LACELBA-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

#### **Global Opportunities:**

Global Experience: Students studying civic and economic thought and leadership gain valuable leadership and communication skills through unique study abroad experiences (<https://goglobal.asu.edu/>) across the globe. Programs can be found in a variety of countries around the world. By studying abroad, students expand their scope of learning beyond the classroom and gain hands-on experience in different and exciting cultures.

**Career Opportunities:** Graduates are inspired and prepared to lead and serve in civil society, public affairs or government, and the internship provides the professional experience that employers look for on a resume.

Some career paths graduates might pursue include business, education, foreign service, government, law, politics, national security affairs and public office.

## Civic and Economic Thought and Leadership, BS (LACETLBS)

**Campus:** Tempe

**Program Description:** The BS program in civic and economic thought and leadership incorporates the study of political philosophy, economic thought, history and American politics.

Faculty engage students through the Socratic method, which challenges students to analyze the complex topics impacting lives today. Students refine their ability to read closely, think analytically, write carefully and speak effectively. The curriculum, combined with outside-the-classroom leadership experiences, prepares students with the broad, academic foundation they will use throughout their careers.

Students have the opportunity to intern on Capitol Hill, in congressional offices in their district, with nonprofits around the country or in an opportunity of their academic interest. They engage with world-renowned scholars and experts who visit ASU for large lectures and intimate seminars through the school's public programs and civic outreach initiatives, and they are able to apply for one of the school's Global Intensive Experiences, which study service and leadership in places such as Israel and the West Bank, India, and South Africa.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Classical Liberal Education and Leadership, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

**Change of Major Requirements:** A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LACETLBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. ## Communication, BA (LACOMBA)

**Campus:** Tempe, Online

**Program Description:** The BA program in communication focuses on how message processes create, maintain and transform identities, relationships, workplaces and communities.

This program provides a culturally based liberal arts focus with a second language requirement. Such courses and activities allow students to explore many fascinating questions, such as how messages can optimally advocate for a cause, sports team or organization; how people can communicate creatively in a variety of settings and styles; how valid messages differ from invalid messages; how and why cultural differences make communication difficult; and why some topics are difficult to discuss and consistently lead to conflict.

Through rigorous coursework and rewarding applied experiences, students gain effective communication skills that are highly sought by employers. Students learn to write and speak effectively and are able to convey complex ideas simply. They are prepared for employment in communication-intensive fields or for graduate study.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**Additional Program Fee:** Y

**Second Language Requirement:** Yes

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation

**Program Math Intensity:** General

**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options:**

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Communication, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students who have attended previously ASU and are returning to the university with transfer credit must have a minimum ASU cumulative GPA of 2.00 in order to be admitted into the Hugh Downs School of Human Communication.

Transfer Admission Requirements: Students who are transferring into ASU must meet current university admission requirements.

**Change of Major Requirements:** Current ASU students who would like to change their major to the BA in communication must have a minimum cumulative GPA of 2.00.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

**Attend Online:**

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/communication-degree-ba/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

**Transfer Options:**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LACOMBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

**Global Opportunities:**

Global Experience: With more than 300 Global Education programs options available, students may engage in a unique and exciting opportunity to gain intercultural experience through international programs of study which they are able to tailor according to their experience and their unique interests and skills.

Whether in a foreign country, in the U.S. or online, students in communication develop critical teamwork and problem-solving skills, expand their knowledge of the liberal arts through lenses of different cultures, and are able to improve their language and cross-cultural skills for effective communication across populations.

The College of Liberal Arts and Sciences recommends these study abroad programs (<https://goglobal.asu.edu/students/major/communication>) for students majoring in communication.

**Career Opportunities:** Graduates often attend leading graduate schools in communication, law or business or find gainful employment in careers in the areas of:

- campaign management
- counseling
- event planning
- health care management
- human resource management
- intercultural relations
- marketing
- nonprofit management
- public relations
- sales

## Communication, BS (LACOMBS)

**Campus:** Tempe, Online

**Program Description:** The BS program in communication focuses on how message processes create, maintain and transform identities, relationships, workplaces and communities. This degree program provides a liberal arts grounding and a social science focus. The courses and activities allow students to explore many fascinating questions, such as:

- In what ways can messages convince people to eliminate negative health behaviors?
- When, how and why do cultural differences make it difficult to communicate?
- Why are some topics difficult to discuss and consistently lead to conflict?
- Why do people differ in how committed they are to their work?
- Why do some relationships flourish while others fade away?

Through rigorous coursework and rewarding applied experiences, students gain effective communication skills that are highly sought by employers. Students learn to write and speak effectively and to convey complex ideas simply, preparing them for employment in a variety of career fields as well as for graduate study.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit the college's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

**Additional Program Fee:** Y

**Second Language Requirement:** N

**First Required Math Course:** MAT 142 - College Mathematics OR any math course that meets the MA designation

**Program Math Intensity:** General

### Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

### Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Communication, MA  
Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).
