One goal of these programs is to prepare students for careers in the helping professions. Another goal is to provide a variety of service courses for the entire university, enabling students of all majors to explore the life quality challenges of contemporary society. The programs provide opportunities for involvement with public and private human service organizations throughout the West Valley, the state, and the nation. The faculty of the College of Human Services is committed to excellence as it strives to empower students with abilities to respond to the needs of increasingly complex social systems. As such, the college seeks to be an inclusive unit where students from various cultures and backgrounds can meet and learn about our diverse community, country, and world.

The Department of Communication Studies offers Bachelor of Arts and Bachelor of Science Degrees in Communication Studies, undergraduate Minors in Communication Studies and Public Relations and Strategic

Communication, the Master of Arts Degree in Communication Studies, and a Postbaccalaureate Certificate in Communication and Human Relations.

Bachelor of Arts and Bachelor of Science Degrees in Communication Studies

Nature of program

The Department of Communication Studies prepares students to enter the global age with competencies necessary to become active participants in democratic life. Because few phenomena are as central to society as communication, students in our program have the opportunity to achieve critical understanding of their increasingly international, multicultural, gendered worlds. Using scientific, interpretive, rhetorical, and critical research approaches, graduates learn to produce, analyze, and critique social and cultural information created by the practices of communication. Understanding communication's centrality in human experience brings a rich variety of material into the student's view. Contexts for studying communication include diversity, media, public influence, critical/rhetorical inquiry, personal relationships, and social organizations.

Career outlook

Our academic and scholarly focus on the criticism of communicative practices across various conditions prepares students well for a multitude of vocations in an increasingly complex world. Conceptualizing the world as one overflowing with meanings related to diverse social groups, identities, and relation-

ships, students of communication are able to think critically about how meaning is made, how meaning can be made to change, and how communication fosters democratic ideals for the workplace and the world. Thus, the successful graduate will be able to work productively with other people, assimilate, organize, and analyze information, solve problems, make effective presentations, and show potential for leadership. The program prepares students for advanced education, advancement toward careers in teaching, counseling, law, and medicine, and various careers and professions, including:

- training and development
- public relations
- public administration
- public office
- public advocacy
- speech writer
- lobbyist

Postbaccalaureate Certificate in Communication and Human Relations

Nature of program

The contemporary workplace increasingly requires employees to develop advanced knowledge and skill in the processes of communication. This observation is based on several long-term trends. First, the increasing popularity of team-based organizational structures requires employees to develop competencies in group communication, nego-

tiation, and conflict management. Second, the tendency toward decentralization of decision-making in contemporary organizations requires leaders and followers to rely more heavily on persuasion and communication and less heavily on traditional structures and position power. Third, the need for organizations and governments to be more responsive to an increasingly diverse set of citizens and cus-

tomers requires competencies in cross-cultural communication, audience analysis, and message development. Fourth, rapidly developing communication technologies can be exploited only when employees are knowledgeable about the capabilities, limitations, and ethical implications of traditional and emerging media. Fifth, modern organizations are increasingly required to be responsive to the social, ethical, and environmental concerns of local communities. The program in Communication and Human Relations provides an individualized program of coursework for advanced students and employees seeking to stay abreast of these trends.

The certificate program is designed for working professionals in communication-intensive fields such as public affairs, employee relations, mediation, organizational development, public relations, training and development, community relations, customer relations, media relations, change management, sales and sales management, marketing, public administration, event planning, and health communication.

Admission requirements

To be admitted to the Postbaccalaureate Certificate in Communication and Human Relations, an individual must:

1. possess a four-year baccalaureate degree from a regionally accredited college or university;
2. be admitted to ASU West as a nondegree graduate student; and

 - a. Quantitative, qualitative, or critical research methods (three semester hours)

- b. Oral communication performance (200 level or above) (three semester hours)

Program requirements

The certificate requires completion of 18 semester hours of upper division coursework in Communication Studies and related disciplines.

Focused Coursework. In consultation with a faculty advisor, students will design a program of study comprised of five courses (15 semester hours) focused in an area of human relations, such as employee communications, interpersonal relations, community relations. Capstone Project. Students are required to complete an independent research project (supervised by a faculty member) on a communication topic related to their professional or research interests. The project should reflect the integration and application of coursework to a social or organizational problem. The scope and quality of the written report will be appropriate for post-baccalaureate students. A minimum of three semester hours of COM 499 Individualized Instruction is required.

Nature of program

The Master of Arts Degree in Communication Studies provides students with advanced analytical, oral, and written communication skills applicable in today's technological and information-based society. The program blends theoretical and practical perspectives concerning communication and advocacy in public and private communication settings.

Career outlook

In today's technological and information-based society, advanced degrees that educate and train individuals in analytical, oral, and written communication skills make graduates suitable for a variety of occupations. National statistics indicate that the average American will experience at least four different occupations during his or her lifetime.

Graduate degrees in communication studies are among few degrees that blend the best attributes of a professional degree (training in specific areas and skills for particular vocations) with the best attributes of a liberal arts degree (ability to think critically, conceptualize new theories, and apply skills across a variety of occupational situations and challenges). This blend of intellectual skills is of great social and community consequence with respect to advocacy and social justice.

Admission

Admission to the program is competitive, based on applicant's undergraduate scholarly activities and research abilities, and professional experience. All applicants must submit the following:

1. a completed application and official transcripts of all undergraduate and graduate work;
2. a 500-word personal statement indicating professional goals and addressing how the program will aid in the achievement of those goals;
3. official Graduate Record Examination (GRE) scores;
4. three letters of recommendation, up to two of which may come from appropriate professional, non-academic sources.
5. a writing sample of scholarly work or an example of professional activities (i.e., technical reports, grants, creative campaign); and
6. a minimum test score of 450 on the Test of English as a Foreign Language and a minimum score of 220 on the Test of Spoken English for all applicants who are non-native English speakers.

Research activity Faculty in the Department of Communication Studies investigate the various ways in which communication shapes social contexts, constructs people's realities, and constitutes human relationships. Collectively our work explores the connection between communication and advocacy in diverse social settings. To achieve this aim departmental scholars call upon rhetorical, philosophical, critical, cultural, postcolonial, feminist, and social scientific approaches to address issues related to justice and community. The Criminal Justice and Criminology Department offers the Bachelor of Science Degree in Criminal Justice and Criminology and the Master of Arts Degree in Criminal

Justice to accommodate the needs of one of the most rapidly growing academic and professional fields in the United States.

Bachelor of Science Degree in Criminal Justice and Criminology

Nature of program

The program provides a social science, interdisciplinary perspective to the study of the administration of justice. The focus is on the policies and practices of criminal justice system components including law enforcement, corrections, and the courts. Students are exposed to the criminal law and its origins, patterns and theories of crime and crime analysis, and the body of research based literature that examines and evaluates contemporary criminal justice practice.

The Criminal Justice and Criminology curriculum offers students a solid foundation of courses that provide the content, analytical, and communication skills required for working in complex criminal justice occupations. The program also prepares students to enter into graduate studies and exposes students considering law school to substantive and procedural criminal law.

During their senior year, students are encouraged to complete an internship in a justice-related placement. CRJ 484 Internship in Criminal Justice and Criminology has been designed to provide the student with a well-rounded learning experience in an experiential setting. It involves a three-way partnership among students, ASU West, and cooperating

institutions. It is guided by a set of goals and objectives that are based on the needs and resources of those involved. The intern's goals and objectives are developed with the assistance of the internship coordinator and the cooperating agency supervisor. They represent skills and competencies that can be reasonably accomplished during the internship period.

Career outlook

The Criminal Justice and Criminology Department provides an interdisciplinary approach to understanding issues related to the field of criminal justice. Societal concern about issues of crime, crime prevention, and victimization necessitate that state and federal monies be devoted to the field of criminal justice. Consequently, this field is one of the fastest growing areas of employment.

Graduates of the Criminal Justice and Criminology program find employment in both the public and private sector. Employment opportunities exist in the areas of law enforcement, probation, parole, corrections, private security, court personnel, legal offices, and victim witness advocate agencies. Graduates may also pursue advanced degrees in law and in social science disciplines.

Major requirements

The 51 semester hour Bachelor of Science degree program in Criminal Justice and Criminology consists of 24 hours of major core courses, 21 hours of major elective courses, and 6 hours in a related field. A student must attain a grade of “C” (2.00) or higher in all courses credited toward the major, including courses in the related area. A minimum of 24 upper division semester hours of coursework toward the major must be completed at ASU West.

the Course Equivalency in effect when the course was taken. This information is maintained in the Course Applicability System (CAS) - CEG function at az.transfer.org/cas. Community college courses which are equivalent to ASU West upper division courses will apply to the program, if completed with a grade of “C” (2.00) or better, and should *not* be repeated at ASU West; however, these courses will not count toward the required upper division credit hours.

The following ASU West courses may have ASU Main or Community College transfer equivalents and should not be repeated at ASU West.

Students will also be required to complete a major policy analysis, agency data analysis, or agency planning project.

The master's program is offered to both full-time and part-time students. Full-time students can earn the degree in as few as 12 months. Part-time students may complete the degree on a longer schedule, but may not exceed six years.

Admission

Admission to the master's program is open to:

1. holders of baccalaureate degrees from institutions with regional accreditation;
2. those who show promise of success as demonstrated by scores on the Graduate Record Examination (GRE), previous schooling, and experience; and

Nature of program

The Gerontology Program is a university-wide, multidisciplinary program designed so that students may take course work at any of the four ASU campuses and apply it toward the graduate Certificate in Gerontology or the Minor. The program has an affiliated faculty of more than 25 members housed in 15 different departments throughout the university. Courses related to aging are taught by faculty who are active contributors to research, theory, and public policy and practice.

Program activities are designed for students who wish to study the psychological, sociological, biological, and policy-related aspects of aging as well as for those interested in the health, economic, and social concerns of older people. Students study the aging process from multiple perspectives and develop knowledge and skills to prepare them for careers in an aging society. Students

may gain practical experience in working with older adults through field-based experience and internships. The faculty also help students find rewarding volunteer positions in community programs and agencies for older adults.

Career outlook

Since older Americans are becoming an increasing percentage of the population, there is a growing need for professionals with gerontological expertise. This is especially the case in Arizona due to the large number of retirement communities located here. Careers will be available in a broad range of fields including recreation, social work, nursing, counseling, public policy, and long term care administration. Career outlook for those with gerontological expertise is bright in not-for-profit, governmental and non-governmental settings as well as for-profit entrepreneurial settings.

Certificate in Gerontology

Admission to the program is open to individuals with a baccalaureate degree. The Certificate may be earned by nondegree seeking graduate students as well as graduate students enrolled in master's or doctoral programs. Undergraduate students may reserve up to nine semester hours earned toward the Certificate in Gerontology. (See the policy on Reserving of Course Credit by Undergraduates, [page 115](#).)

The 21 semester-hour Certificate in Gerontology consists of seven courses distributed as follows. Students must earn

a 3.00 GPA in coursework completed for the certificate.

	Semester Hours
Core classes (9)	
GRN 400 Perspectives on Aging	3

GRN 584 Internship	
GRN 590 Reading and Conference	
GRN 592 Applied Research	
<i>Electives - 500 level required</i>	12

Additional major requirement. The program requires 150 hours of practical experience, working in a setting that is directly providing services to older adults. The site must be approved by a director or advisor of the Gerontology Program. Practical experience must be completed and documented prior to enrollment in the capstone experience.

For their electives, students choose courses from the gerontology-related offerings of several departments as well as those offered

by the Gerontology Program. Of the 21 hours required for the Certificate, 15 hours must be completed at the 500 level.

Students may elect to take the Certificate in conjunction with the M.A. in Interdisciplinary Studies (see [page 157](#)), with the 21 hours of study for the former constituting the core of the program of study for the M.A. Contact either program for details.

Minor in Gerontology

The Minor in Gerontology requires 18 semester hours of course work. The Gerontology minor is designed to explore the study of aging from an interdisciplinary perspective. Students select two of the three gerontology core courses and four additional aging-related courses that are approved as electives. The Gerontology Program allows double counting of courses from the student's major in the minor; however, students should consult with their major department to determine if it has more stringent requirements. A 2.50 grade point average must be obtained in the six courses.

Undergraduate students may begin taking courses for the minor upon completion of 56 semester hours with a minimum cumulative grade point average of 2.00.

PGS 427 Psychology of Aging

Electives. All courses carrying a GRN prefix can be counted as elective courses in the program. A list of elective courses carrying other disciplinary prefixes which may be used towards completion of the minor and certificate in gerontology is available from the Gerontology Program Office.

For specific information on the Certificate in Gerontology and the undergraduate Minor in Gerontology, call the Gerontology Program at (602) 543-6642.

ASU West hosts the ASU Main College of Nursing Bachelor of Science in Nursing program. Junior and senior level nursing courses are hosted at ASU West and taught by ASU College of Nursing faculty. Beyond admission requirements, all upper division requirements for a nursing degree are offered at ASU West.

The Nursing faculty acknowledge their responsibility to health care consumers for the preparation of individuals who provide nursing care of professional quality through teaching, research, and service. Within the context of a liberal education, the undergraduate degree program prepares professional nurses who:

1. understand and respond to changing health and social needs and services;

The Recreation and Tourism Management Department offers the Bachelor of Science degree in Recreation and Tourism Management and minors in Special Events

Management and Tourism Management for majors outside the department.

Bachelor of Science Degree in Recreation and Tourism Management

Nature of program

The Recreation and Tourism Management program prepares students for leadership roles in the recreation, park, tourism, and travel management fields. Its primary purpose is to help students acquire the knowledge and perspective they will need to lead these fields through the social, economic, and environmental challenges of the next century.

The program offers a curriculum that places the study of recreation and tourism in a broad, multi-disciplinary context. Students will integrate perspectives from such diverse arenas as human development and behavior, law, marketing, strategic planning, urban and regional planning, financing, economic development, social justice, environmental management, human resource management, organizational behavior, and public policy. At the same time, the curriculum emphasizes experiential learning in professional settings to develop the core competencies required for professional-level entry into the recreation and tourism fields.

Students graduating from this program are eligible to sit for the examination to become a Certified Park and Recreation Professional (CPRP) and thereby acquire this valuable credential for professional advancement.

Career outlook

Recreation and Tourism combined is the second-largest industry in the United States. While no university degree automatically ensures employment, Recreation and Tourism Management graduates who have

tailored their programs and work experience to market opportunities have done very well in securing relevant career positions.

Public sector and for-profit recreation operations, resorts, employee recreation, special events, and non-profit agency recreation services have continued to grow to meet recreation demands. Employment for recreation professionals working with youth, older adults, and other special populations has grown significantly. Strong citizen and government emphasis has recently been placed on how to best use natural resources and how to best plan, design, operate, and maintain these resources.

Employment opportunities are expanding in areas such as resorts, outdoor recreation programs, fitness facilities, private membership clubs, military recreation, camps, and commercial recreation businesses. Federal, state, and local recreation agencies are contracting for many recreation services to handle increased demands they cannot presently meet. There are opportunities for assertive, highly motivated, competent, and innovative graduates to create their own nontraditional jobs. Career opportunities for minority students are good, especially in parks and natural resources where there is significant underrepresentation of minorities. In terms of career opportunities, it is the Recreation and Tourism Management Department's goal to provide the best professional training possible to help our students be leading candidates for jobs upon graduation.

Admission requirements

Admission to the degree program is based upon the applicant's educational and career goals. The applicant must meet the university and College of Human Services admission requirements.

Application forms are available in the Recreation and Tourism Management department office (FAB S115-A; (602) 543-6603). The application must be completed and accepted for the student to be considered a Recreation and Tourism Management major.

Major requirements

The 66 semester hour Bachelor of Science degree program in Recreation and Tourism Management consists of 42 hours of major core courses, 15 hours of major elective courses, and nine hours of nonmajor elective courses from related areas.

*Majors only.

Electives. Students are required to take courses in areas related to Social Work, such as Psychology, Sociology, Political Science, and Economics. It is necessary to consult with a faculty advisor in selecting electives.

Field instruction. Field instruction for the B.S.W. program is offered concurrently with classroom study. Students are assigned to a social service agency and work under the supervision of an experienced and certified social work professional. Field instruction permits testing theory in practice and gives a base of experience to class discussions. Qualified agencies in several Arizona communities are utilized for field instruction.

B.S.W. students work in one placement for 16 hours a week, usually two full days each week, for a total of 480 hours over two semesters. In assigning the placement, the program takes into account the student's educational needs and career goals. Generalist social workers need to be familiar with the methods of working with individuals, families, and groups, as well as in organizations

and communities and with all ages and ethnic groups. The faculty are committed to establishing the capabilities necessary for high-quality, social work generalist practice.

B.S.W. field instruction agencies are located primarily in the Phoenix metropolitan area. Personal transportation is strongly recommended while in field placement.

Graduation requirements

Social Work majors must file a Declaration of Graduation within the semester that they earn their 81st credit. A minimum of 120 semester hours, a minimum of 50 semester hours in upper division courses, a minimum of 480 hours in field education, and a minimum GPA of 2.00 are required for graduation with a B.S.W. degree. To be acceptable as graduation credit, all course and field work in the major must show an earned grade of "C" (2.00) or higher.

Academic policies

In order to remain in good academic standing, students must maintain a minimum overall GPA of 2.00 (B.S.W.) at the end of each semester. Most courses in the program are sequential; successful completion of each course in the sequence is required to enroll in the following course. Students may not enroll in any second-year required courses until all foundation courses have been completed successfully.

Retention and disqualification. Students must maintain a minimum overall cumulative GPA of 2.00 (B.S.W.). A student is placed on probationary status automatically when (1) the GPA is less than the minimum at the end of any semester or (2) a grade less than "C" (2.00) is received for any major core requirement, regardless of the GPA. Students may also be put on probation for reasons other than grades. See the *Policies and Procedures Manual of the Department of Social Work* for information on the resolution of probationary status.

Termination from the program. A student may be terminated from the program under any one of the following circumstances:

1. a student fails to carry out the plan developed during a probationary semester.
2. the student receives an “E” (0.00) grade (failure) in field practicum.
3. the student does not accept or is not accepted by three or more field agencies if, in the judgment of faculty and field staff, the placements can provide appropriate field experiences without undue inconvenience to the student.
4. the student does not adhere to professional expectations and standards (see the *Code of Conduct*, *NASW Code of Ethics*, and *CSWE Curriculum Policy Statement*).
5. a student does not demonstrate physical and/or emotional capabilities congruent with the functioning of a professional social worker.

Master of Social Work Degree

Director, Graduate Studies: Melissa Lavitt, Ph.D.
Location: FAB S126
 (602) 543-6602

Nature of program

The Master of Social Work (M.S.W.) program requires 60 semester hours of course work with 900 hours of fieldwork. The M.S.W. program is practice-oriented and prepares Advanced Generalist practitioners – social workers who are able to work with individuals, families, groups, organizations and communities. Students will also gain expertise in a particular aspect of diversity such as ethnic minorities of the southwest, physical disability, religious diversity, immigrants, or gender.

An Advanced Standing program is designed for applicants who have completed a B.S.W. from an accredited undergraduate social work program. Preference will be given to applicants who completed the B.S.W. within the past six years. The successful applicant has social work

The responsibility for reviewing and determining the qualification of students whose behavior and/or performance are in question is vested in the Status Review Committee.

Appeal procedures. Students who feel they have been unjustly treated in academic or other matters relating to their career as students may appeal by following the guidelines set forth in the “ASU West Academic Policies” section of the *B.S.W. Student Handbook*.

Student responsibilities. Students are expected to support and maintain the highest professional standards as spelled out in the *Code of Conduct* and the *National Association of Social Workers Code of Ethics*.

Regular attendance is expected in all classes and in field education and is a critical factor in evaluation of performance.

experience that demonstrates competence in generalist practice skills. Advanced Standing requires 34 semester hours, beginning with a summer preparatory “bridge” class.

Career outlook

There is currently a shortage of master’s level social workers in the United States. Considering Arizona’s rapidly growing population, the need for more social services and social service providers is greater than in other parts of the country. Locally, the need for professional social workers is expected to increase faster than average in comparison to all occupations. There is a significant shortage of social workers in behavioral health and services for children and their families. Furthermore, services for aging adults continue to expand.

Admission

Admission to the M.S.W. program is open to:

1. holders of baccalaureate degrees from institutions with regional accreditation;
2. those who show promise of success as demonstrated by scores on the Graduate Record Examination (GRE), Miller Analogies Test (MAT), previous schooling, and experience; and
3. those who have career goals that are compatible with the educational objectives of the program.

Application. An official transcript from every university or institution attended must be received by the Office of Graduate Studies at ASU West before an application can be considered. Three letters of recommendation, a resume, and a personal statement must be sent to the M.S.W. program office. The suggested application deadline is May 1 for fall semester. The application deadline for the Advanced Standing Program is March 1.

The application, application fee, transcripts, and official GRE or MAT scores (sent by the testing service to ASU) should be sent to:

Prelaw Minor

Minor in Prelaw

Chair, Prelaw Advising Committee: Nancy Rodriguez, Ph.D.
Location: FAB S272 A
 (602) 543-6601

Nature of program

The Prelaw minor is designed to explore the study of law from an interdisciplinary perspective. Students will take a core of classes which are reflective of courses taken by first year law students and will enhance a student's critical thinking skills. In addition, students will select elective courses for the minor with assistance from the College's Human Services Advising Office and from a faculty member on the College's Prelaw Advising Committee. In general, the courses selected as Prelaw minor electives are those which:

1. enhance the student's critical thinking and writing skills;
2. develop the student's knowledge of the law; and
3. enhance the student's understanding of the social, cultural, historical, economic and political development of the law in our society or world.

The minor is designed for students who plan to attend law school or who contemplate careers in fields closely related to the legal profession. Students who exhibit exceptional critical thinking and writing skills are highly successful in their legal studies. It is expected that students in the minor will be able to think both logically and creatively about the law and its philosophical basis. In addition, students will be able to effectively apply legal principles

to various factual problems, a rudimentary part of the case book method of legal study.

Minor requirements

The 18 semester hour Minor in Prelaw consists of nine hours of required courses and nine hours of elective courses to be selected with advisement. Students may not count classes towards both completion of their major and the Prelaw minor.

	Semester Hours

Electives	9
Students must select nine hours of courses with advisement to complete the minor.	

Electives. The nine hours of electives must be strategically assembled from courses which are either reflective of the different types of law they are interested in studying (e.g.: business law, civil liberties, criminal law, environmental law, family law, international law, legal history and jurisprudence, and mental health law), or which enable them to develop critical thinking and writing skills. A list of elective courses which may be used towards completion of the minor is available from the College of Human Services' Advising Office or from a member of the Prelaw Advising Committee.
