## Bachelor of Science in Recreation Management and Tourism

The Bachelor of Science degree program in the Department of Recreation Management and Tourism centers around the systematic study of leisure-related phenomena, including human behavior and development, resource use, environmental and social issues, and public policy. It is a professional program that features full exposure of students to a multifaceted concept of leisure and the quality preparation of these students for professional-level entry into leisure service occupations. By graduation, the recreation management and tourism student will be equipped with vital academic and professional tools: a complete understanding of the leisure profession through both theoretical and applied perspectives, a specialization or area of concentration within the field, and the practical and academic experience to excel in both professional arenas and academia.

### Admission to Professional Status

Upon admission to the university, recreation students are classified as preprofessional status. The Recreation Management and Tourism Department requires a minimum of 56 semester hours with a minimum of 2.50 cumulative GPA before being officially admitted with professional status. Upper division core courses within the Recreation Management and Tourism programs cannot be taken until professional status is attained. Transfer students who have completed 56 semester hours or more at another institution must remove any scholastic deficiencies before being admitted with professional status.

Students may achieve professional status by completing a minimum of 56 semester hours including the following:
