AAS Requirements

ASU does not regard the AAS-to-BAS as a traditional transfer degree, so special provisions apply:

1) The AAS degree holder (the student) will be admitted only to the BAS program specified. Only those students with a regionally accredited AAS from an approved health-related program are eligible for this degree.

2) The institution from which the student received an AAS degree must be regionally accredited. A foreign institution must be approved and recognized as a post-secondary institution by the Ministry of Education or other governmental authorities.

3) All courses applied toward completion of the AAS must have been completed with a grade of C or higher. ASU will not accept courses with a grade of D.

4) This program allows students who have earned an Associate of Applied Science from institution to transfer 60 or 75 credit hours toward a Bachelor of Applied Science at ASU. Students transferring from a regionally accredited Arizona public community college can transfer up to 15 additional credit hours of general studies courses (75 credit hours total). Students pursuing the 75 credit option may have more than 45 credit hours to complete their BAS upon transfer to ASU. Students should work with their academic advisor to ensure their courses will meet degree requirements.

5) If the AAS degree is earned with fewer than 60 credit hours, the student must complete additional credit hours at ASU, so that the total credit hours of the AAS and BAS degrees are at least 120.

6) After admission to ASU, if a student wishes to transfer out of the BAS program into another program at ASU, the agreement to accept a block of up to 60 transfer credit hours from the AAS degree shall be void and no longer in effect. The student’s transcript will be evaluated course-by-course and only transferrable courses will be accepted.

7) To be eligible for the 60/60 degree completion pathway for AAS to BAS, the AAS degree program must include following general studies requirements completed with a C or better:
   - First Year Composition (6 hours)
   - Humanities (3 hours)
   - Social & Behavioral Sciences (3 hours)
   - Natural Sciences (4 hours)

All courses used for General Studies within the AAS must satisfy AGEC (Arizona General Education Curriculum) criteria (or an equivalent articulated general studies transfer pattern) with the exception of mathematics.
