All colleges, schools, divisions, and departments establish certain academic requirements that must be met before a degree is granted. Advisors, directors, department chairs, and deans are available to help the student understand these requirements, but the student is responsible for fulfilling them. At the end of a student's course of study, if requirements for graduation have not been satisfied, the degree is not granted. For this reason, it is important for all students to acquaint themselves with all regulations, to be informed throughout their college careers, and to be responsible for completing requirements. Courses, programs, and requirements described in the catalog may be suspended, deleted, restricted, supplemented, or changed in any other manner, at any time, at the sole discretion of the university and the Arizona Board of Regents. The catalog does not establish a contractual relationship but summarizes the total requirements the student must currently meet before qualifying for a faculty recommendation to the Arizona Board of Regents to award a degree.

Arizona State University reserves the right to add, amend, or revoke, without notice, any of the materials—information, requirements, regulations—published in this catalog. The catalog is also available on the Web at www.asu.edu/grad/catalogs. Admissions information is available at www.asu.edu/graduate. Address requests for additional information to

GRADUATE ADMISSIONS OFFICE
ARIZONA STATE UNIVERSITY
PO BOX 871003
TEMPE AZ 85287-1003

Arizona Board of Regents' policy states that no employee, agent or institution under the jurisdiction of the Arizona Board of Regents shall discriminate against any student, employee, or other individual because of such individual's religious belief or practice or any absence thereof. Administrators and faculty members are expected to reasonably accommodate individual religious practices. A refusal to accommodate is justified only when undue hardship would result from each available alternative or reasonable accommodation. No administrator or faculty member shall retaliate or otherwise discriminate against any student, employee, or prospective employee because that individual has sought a religious accommodation pursuant to this policy.

The Graduate Catalog is produced, in conjunction with the Graduate College, by Academic and Administrative Documents under the Office of the Senior Vice President and Provost.

**On the Front Cover** / The Music Building, photographed by John Maclsaac, amid glimpses of the ASU Main campus and students. Photos clockwise from bottom right by (1) Doug Crouch; (2) Frank Chuang; (4, 9) John Maclsaac; (5) Michael Martin; and (7) Dave Tevis; all others by H. Val Peterson.

**On the Back Cover** / The Galvin Playhouse and the African aloe, as photographed by H. Val Peterson, are featured in one of a series of limited edition posters available at the ASU Bookstore. Proceeds support the ASU Arboretum.
Dear ASU Students and Prospective Students:

I am pleased to welcome you to Arizona State University, a Research I university in one of the nation’s fastest-growing metropolitan areas.

I am proud of the fact that ASU continues to advance rapidly as a major national research university. This accomplishment is reflected by the talented and diverse students and faculty we have attracted, our ability to deliver quality education, achievements in research and creative activities, and the richness in our cultural diversity. We are committed to excellence in research, teaching, and professional and community service, which are all essential components of a great and engaging university.

Arizona State University is noted for its outstanding resources and environment and for faculty characterized by their creative and scholarly distinction and innovation. As well, we seek ways to create educational partnerships with the community to enrich its intellectual life and enhance the professional tenor of our programs.

We will continue to strive for excellence and to encourage creative individuals to be curious and to think critically and boldly. It is an honor to invite you to be a part of the vigorous academic community at ASU.

Sincerely,

Lattie F. Coor
President
I extend a warm welcome to new and continuing graduate students at Arizona State University. Our prominent leadership in many professional and scholarly areas is a distinct source of pride for our alumni and faculty. We offer 48 doctoral and 91 master's degree programs, supported by 1,600 faculty members, whose innovative teaching and ground-breaking research are recognized nationally and internationally.

The close collaboration of our programs with organizations in the private and public sectors fosters research and professional opportunities for our graduate students in the surrounding greater metropolitan area and beyond. As an integral part of our doctoral education, we emphasize professional development through our Preparing Future Faculty program, one of the first in the nation, and our new Preparing Future Professionals program for students headed toward nonacademic careers.

We are proud of our commitment to graduate education: to prepare our students to become scholarly and professional leaders in a new century marked by constant change, rapid technological advances, and rich traditions. Our partnership with ASU students provides a nurturing environment to enhance their intellectual and personal growth. Please call on us if we may be of assistance.

I wish you every success in the pursuit of your goals at Arizona State University.

Cordially,

Bianca L. Bernstein
Dean of the Graduate College

¹ This major is offered toward more than one degree at the same level.
² Applications are not being accepted at this time.
³ This major has formalized concentration(s); other areas of study are available.
⁴ This collaborative program is offered by the three state universities.
⁵ This major is jointly offered with the University of Arizona.
⁶ Students apply to this degree program through the College of Law, not the Graduate College.

**Doctor of Public Administration (D.P.A.)**

- Public Administration — Main 285

**Juris Doctor**

- — Main 82

---

1. This major is offered toward more than one degree at the same level.
2. Applications are not being accepted at this time.
3. This major has formalized concentration(s); other areas of study are available.
4. This collaborative program is offered by the three state universities.
5. This major is jointly offered with the University of Arizona.
6. Students apply to this degree program through the College of Law, not the Graduate College.

Graduate College Calendar

April 2000

Mon. Jan. 31– Registration and drop/add for first five-week session and eight-week session
Wed., May 31
Mon. Jan. 31– Registration and drop/add for second five-week session
Wed., July 5

Tues., Apr. 25 Final tuition payment deadline for all summer sessions
(For students who register after the deadline, fees are due daily.)

Mon., May 29 Memorial Day Holiday
Tues., May 30 Instruction begins for first five-week session and eight-week session

Wed., June 6
Tues., June 6
Fri., June 16
Fri., June 23

Unrestricted withdrawal deadline for first five-week session
Unrestricted withdrawal deadline for eight-week session
Restricted course withdrawal deadline for first five-week session and eight-week session
Restricted complete withdrawal deadline for first five-week session

Thurs., June 29 First five-week session ends

May 2000

Tues., July 5

Aug. 25
Wed., Apr. 26– Registration
Fri., Aug. 25
Tues., Aug. 1 Early Teaching Assistant Orientation (8 A.M.–5 P.M.)

Tues., Aug. 1 Final tuition payment deadline for fall 2000
(For students who register after the deadline, fees are due daily.)

Mon., Apr. 3– Preregistration
Tues., Apr. 11

Mon., Apr. 24– Fri., Aug. 25
Wed., Apr. 26– Fri., Aug. 25
Tues., Aug. 1 Early Teaching Assistant Orientation (8 A.M.–5 P.M.)
Tues., Aug. 1 Final tuition payment deadline for fall 2000
(For students who register after the deadline, fees are due daily.)
Mon., Aug. 14– New Teaching Assistant Orientation and activities (8 A.M.–5 P.M.)
Tues., Aug. 15
Mon., Aug. 14– International Student Orientation and activities
Sat., Aug. 19
Wed., Aug. 16 Residence halls open
Thurs., Aug. 17 New Faculty and Academic Professional Orientation and Reception
Tues., Aug. 15– Welcoming orientation for all new graduate students, Memorial Union, Arizona Room (7–9 P.M. Tuesday, 10 A.M.–noon Wednesday)
Wed., Aug. 16 Union, Arizona Room (7–9 P.M. Tuesday, 10 A.M.–noon Wednesday)
Thurs., Aug. 17 Workshops for new graduate students, Memorial Union, Arizona Room (8 A.M.–5 P.M.)
Mon., Aug. 21 Instruction begins
Mon., Sept. 4 Classes are excused for Labor Day
Fri., Sept. 15 Unrestricted withdrawal deadline
Mon., Oct. 2 Winter session (College of Extended Education [CEE]) registration begins
Tues., Oct. 3 Thesis/Dissertation Workshop, Memorial Union, Ventana Room (3–5 P.M.)
Fri., Oct. 20 Restricted course withdrawal deadline
Fri., Nov. 10Classes are excused for Veterans Day
Wed., Nov. 22 Last day to submit materials for thesis and dissertation format review and oral defense
Thurs., Nov. 23– Classes are excused for Thanksgiving recess
Fri., Nov. 24
Wed., Nov. 29 Restricted complete withdrawal deadline
Tues., Dec. 5 Instruction ends
Wed., Dec. 6 Reading day
Fri., Dec. 8 Last day to hold oral examination in defense of a thesis or dissertation
Thurs., Dec. 7– Final examinations
Sat., Dec. 9:
Mon., Dec. 11–
Wed., Dec. 13
Tues., Dec. 12 Last day to obtain signature of the Graduate College dean for thesis and dissertation approval
Tues., Dec. 12 Last day to submit to ASU Bookstore binding for thesis and dissertation (due by 3 P.M.)
Thurs., Dec. 14 Commencement (4 P.M.)
Fri., Dec. 15 Some residence halls close for semester break
Sat., Dec. 16 Midyear recess begins
Wed., Dec. 27 Winter Session (CEE) instruction begins

2001

Spring Semester
Check the spring 2001 Schedule of Classes for details and to confirm these dates.
Mon., Oct. 23–
Tues., Oct. 31, 2000
Mon., Nov. 13, 2000–
Sun., Jan. 21, 2001

Preregistration
Drop/add
January 2001

Wed., Nov. 15, 2000– Registration
Sun., Jan. 21, 2001
Tues., Dec. 19, 2000 Final tuition payment deadline for spring 2001
(For students who register after the deadline, fees are due daily.)
Mon., Jan. 1, 2001 Winter session classes are excused for New Year’s Day
Mon., Jan. 8 New Teaching Assistant Orientation
Mon., Jan. 8– International Student Orientation and activities
Sat., Jan. 13
Tues., Jan. 9 New Graduate Student Orientation begins
Wed., Jan. 10 Residence halls open
Fri., Jan. 12 Winter session (CEE) instruction ends
Mon., Jan. 15 Classes are excused for Martin Luther King Jr. Day
Tues., Jan. 16 Instruction begins
Fri., Feb. 9 Unrestricted withdrawal deadline
Tues., Feb. 13 Thesis/Dissertation Workshop, Memorial Union,
Ventana Room (3–5 P.M.)
Sun., Mar. 11– Classes are excused for spring recess
Fri., Mar. 30 May graduation filing deadline (must be met to have name appear in
commencement program)
Fri., Mar. 30 Restricted course withdrawal deadline
Fri., Mar. 30 Mid-semester scholarship reports due in the Office of the Registrar
Fri., Apr. 20 Last day to submit materials for thesis and dissertation format
review and oral defense
Wed., Apr. 25 Restricted complete withdrawal deadline
Tues., May 1 Instruction ends
Wed., May 2 Reading day
Thurs., May 3– Final examinations
Sat., May 5;
Mon., May 7–
Wed., May 9
Fri., May 4 Last day to hold oral examination in defense of a thesis or
dissertation
Tues., May 8 Last day to obtain signature of the Graduate College dean for thesis
and dissertation approval
Tues., May 8 Last day to submit to ASU Bookstore binding for thesis and
dissertation (due by 3 P.M.)
Thurs., May 10 Commencement
Fri., May 11 Residence halls close

2001 Summer Sessions
Check the 2001 Summer Sessions Bulletin for details and to confirm these dates.
Mon., Jan. 29– Registration and drop/add for first five-week session
Wed., May 30 and eight-week session
Mon., Jan. 29– Registration and drop/add for second five-week session
Wed., May 30
Mon., Jan. 29– Final tuition payment deadline for all summer sessions
Tues., July 3 (For students who register after the deadline, fees are due daily.)
Mon., May 28 Memorial Day Holiday
Tues., May 29 Instruction begins for first five-week session and eight-week session

Accreditation and Affiliation

ASU Main and ASU East. Arizona State University Main is accredited by the North Central Association (NCA) Commission on Institutions of Higher Education. Arizona State University East is recognized by the NCA as a full-service campus and is accredited under the ASU Main umbrella. Programs in the various colleges, schools, divisions, and departments are accredited by, affiliated with, or members of national bodies as described in the “Academic Accreditation at ASU Main and East” table below, “Academic Affiliation” table, page 25, and “Academic Membership” table, page 26. Some programs in the College of Education are approved by the State Board of Education (Arizona) and the National Association of School Psychologists.

ASU West. ASU West is separately accredited by the NCA Commission on Institutions of Higher Education. Professional programs in the various academic areas are accredited by national bodies as described in the “Academic Accreditation at ASU West” table, page 25.

Frequently Asked Questions

Admission Information? Requests for applications or information regarding the progress of your file during the admission process should be directed to Graduate Admissions at 480/965-6113 or asugrad@asu.edu. For more information, visit www.asu.edu/graduate/admission on the Web.

Advising? The Graduate College Advising Office is open to prospective and admitted graduate students. For an appointment, call 480/965-3521 or stop by the center lobby, Wilson Hall. Students admitted to degree programs should first seek advising within their programs.

Application Fee Waiver? ASU cannot waive, defer, or refund the fee. Your application is processed and sent to the academic unit to which you are applying only after you have paid the fee.

Campus Map? The Graduate College (Wilson Hall, center lobby) distributes maps of the campus and parking facilities. Maps are also available at the ASU Bookstore, 480/965-3191.

Catalog? Once admitted, you will receive a free copy. This copy is mailed to you if your address is in the United States, or you may present your letter of admission at the Graduate College to receive your free copy. Catalogs are also available in the ASU Bookstore, 480/965-3191, for a fee of $4.

Corresponding with ASU? Address letters to: Department or Office Name (if known), Arizona State University, Tempe, AZ 85287. If you are not sure how to address your letter, send it to Graduate Admissions, and the staff will forward it to the proper office.

Degree Programs and Departments? For specific information about faculty, programs, application requirements, and deadlines, contact the academic unit directly, by mail or by phone. Unsure? Contact the Graduate College Advising Office, 480/965-3521, or asugrad@asu.edu.

Employment on Campus? The Student Employment Office, 480/965-5186, maintains and posts up-to-date employment information for jobs on campus.

First. Your best source of information is the academic unit to which you are applying; its director of graduate study can provide information, guidance, and application forms for scholarships, assistantships, and fellowships specific to that program. Most units set early deadlines and require special forms or procedures.

Second. Information about loans, scholarships, grants, work-study and employment opportunities is available through the Graduate College Financial Assistance Office, Wilson Hall, 480/965-3521, or e-mail gradaid@asu.edu. For more information, visit www.asu.edu/graduate/gradaid on the Web.

Third. At a college or public library, ask a reference librarian for publications to help you find scholarships and fellowships.

Fourth. If you now attend school, ask your advisor for guidance in finding information on financial assistance in your discipline.

Financial Guarantee? International applicants must provide explicit verification from their banks that funds equal to the amount specified on the Financial Guarantee Form are available to them. (A general assurance of good credit is not accepted.) For more information, visit www.asu.edu/graduate/admission on the Web.

Housing? On Campus. Cholla Apartments house graduate students and should be specifically requested for campus housing on applications instead of other facilities; contact Residential Life, 480/965-3515 or reslife@asu.edu. University housing is available for married students or families only at ASU East campus. For more information visit www.asu.edu/reslife on the Web.

Off Campus. Information is available from the ASASU Tenants/Commuter Students Association, 480/965-6246. Tempe, Mesa, Scottsdale, and Phoenix newspapers advertise many rentals.

I-20/IAP-66 Forms? ASU issues visa forms permitting attendance at ASU only. ASU issues the I-20 or IAP-66 only after receiving an acceptable Financial Guarantee Form and admitting the student.

Immunization? Students born after December 31, 1956, must receive a measles immunization or offer proof of measles immunity. Direct questions to Student Health Center, 480/965-1358. For more information, visit www.asu.edu/health on the Web.

International Student Association? Contact the International Student Office, 480/965-7451, after arriving on campus. For more information visit www.asu.edu/vpsa/studentlife/iso/index.html on the Web.

Internet Information? ASU Web: www.asu.edu; ASU Graduate College: www.asu.edu/graduate; e-mail: asugrad@asu.edu.

Letters of Recommendation? Send these letters to the director of graduate study in the academic unit to which you are applying.

Phone Numbers? Call the campus operator Monday through Friday, 8 A.M. to 5 P.M., at 480/965-9011. Unsure about who to call? Contact a Graduate College advisor, 480/965-3521.

Registration? Contact the Office of the Registrar, 480/965-3171, or the academic unit to which you are applying.

Release of Information to Friends? By law, staff members can give personal information only to the applicant. If you want us to release information to another person, you must authorize us to do so. Send a letter to Graduate Admissions naming the person who may represent you. Please sign the letter with your name as it appears on your application form.

Research and Support Facilities? The academic unit to which you are applying is your best source of information.
about library resources, computing facilities, and research laboratories in your field. Contact the program’s director of graduate study.

**Teacher Certification?** Students who select nondegree and degree graduate programs at ASU are eligible for Arizona teacher’s certification. Contact the Office of Student Affairs, College of Education at 480/965-5555.

**TOEFL Scores?** ASU accepts score reports from only the Educational Testing Service, Princeton, New Jersey, or from a sponsor organization such as LASPAU or the Institute of International Education.

**Transcripts?** For a full description of the ASU policy on transcripts, see “Transcripts,” page 47.
MISSION

Arizona State University has emerged as a leading national and international research and teaching institution with a primary focus on Maricopa County, Arizona’s dominant population center. This rapidly growing, multicampus public research university offers programs from the baccalaureate through the doctorate for approximately 49,700 full-time and part-time students through ASU Main in Tempe; ASU West in northwest Phoenix; ASU East, located at the Williams Campus (formerly Williams Air Force Base) in southwest Mesa; and other instructional, research, and public service sites throughout Maricopa County. ASU is a modern university that applies its research capabilities to the rapidly evolving needs of Maricopa County and the state.

Arizona State University’s goal is to become a world-class university in a multicampus setting, one of the very best public universities in the nation. Its mission is to provide outstanding programs in instruction, research, and creative activity, to promote and support economic development, and to provide service appropriate for the nation, the state of Arizona, and the state’s major metropolitan area. To fulfill its mission, ASU places special emphasis on the core disciplines and offers a full range of degree programs—baccalaureate through doctorate. To become competitive with the very best public universities, ASU recognizes that it must offer quality programs at all degree levels in a broad range of fundamental fields of inquiry. ASU will continue to dedicate itself to superior instruction; to excellent student performance; to original research, creative endeavor, and scholarly achievement; and to outstanding public service and economic development activities. As a result of this dedication, ASU was awarded the prestigious Research I university status in 1994, recognizing ASU as a premier research institution.

ORGANIZATION

Arizona State University is part of a university system governed by the Arizona Board of Regents, a body with perpetual succession under the constitution and laws of Arizona. The board consists of eight citizens appointed by the governor of the state for terms of eight years, and one student regent serving for one year with the elected governor and state superintendent of public instruction as members ex officio.

The regents select and appoint the president of the university, who is the liaison between the Arizona Board of Regents and the institution. The president is aided in the administrative work of the institution by the senior vice president and provost, other provosts, vice presidents, deans, directors, department chairs, faculty, and other officers. Refer to “ASU Main Academic Administration,” page 9, and “Administrative Personnel,” page 389.

The academic units develop and implement the teaching, research, and service programs of the university, aided by the university libraries, museums, and other services.

The faculty and students of the university play an important role in educational policy, with an Academic Senate, joint university committees and boards, and the Associated Students serving the needs of a large institution.

EQUAL OPPORTUNITY AND AFFIRMATIVE ACTION

It is the policy of ASU to provide equal opportunity through affirmative action in employment and educational programs and activities. Discrimination is prohibited on the basis of race, color, religion, national origin, citizenship, sex, sexual orientation, age, disability, special disabled veteran, other eligible veteran, or Vietnam-era veteran status. Equal employment opportunity includes but is not limited to recruitment, hiring, promotion, termination, compensation, benefits, transfers, university-sponsored training, education, tuition assistance, and social and recreational programs.

ASU is committed to taking affirmative action in increasing opportunities at all levels of employment and to increasing participation in programs and activities by all faculty, staff, and students. Affirmative action is directed toward minority persons, women, special disabled veterans, other eligible veterans, Vietnam-era veterans, and persons with disabilities.

University Policy Prohibiting Discriminatory Harassment

Harassment Prohibited. Subject to the limiting provisions of “Freedom of Speech and Academic Freedom” specified below, it is a violation of university policy for any university employee or student to subject any person to harassment on university property or at a university-sponsored activity.

Harassment Defined. Actions constitute harassment if (1) they substantially interfere with another’s educational or employment opportunities, peaceful enjoyment of residence, physical security, and (2) they are taken with a general intent to engage in the actions and with the knowledge that the actions are likely to substantially interfere with a protected interest identified above. Such intent and knowledge may be inferred from all the circumstances.

Freedom of Speech and Academic Freedom. Neither this nor any other university policy is violated by actions that amount to expression protected by the state or federal constitutions or by related principles of academic freedom. This limitation is further described in the ASU First Amendment Guidelines, the current version of which supplements this policy and is available in the Office of the General Counsel.

Relationship to the Work of the Campus Environment Team. If harassment is discriminatory, it falls within the education, monitoring, reporting, and referral functions of the Campus Environment Team. Harassment is discriminatory if taken with the purpose or effect of differentiating on the basis of another person’s race, sex, color, national origin, religion, age, sexual orientation, disability, or Vietnam-era veteran status.
INTERGROUP RELATIONS CENTER

The only center of its kind on a college campus, the Intergroup Relations Center (IRC) works with students, staff, and faculty to promote positive intergroup relations, to prepare students for living in a diverse democracy, to create greater understanding between the different groups that exist at ASU, and to provide faculty, staff, and students opportunities to explore the rich diversity that is part of the ASU campus community. Through structured interaction programs, including intergroup dialogues, storycircles, retreats, and institutes and via educational and training workshops, the IRC utilizes diversity as a valuable tool and asset to complete its work. The educational work of the center encompasses gender, race/ethnicity, sexual orientation, age, disability status, nationality, adult-reentry, and other salient social identities found at ASU.

Some of the programs and initiatives offered by the IRC include Voices of Discovery, a six-week student intergroup dialogue program which brings together small groups of African Americans and White/EuroAmericans, males and females, American Indians and White/EuroAmericans, Latinos and White/EuroAmericans; Gay, Lesbian, Bisexual, and Heterosexuals as well as other groups to interact with and learn about each other; Leadership 2000, an annual four-day, off-campus retreat bringing 80 students from many different backgrounds together to explore their own and others’ diversity; Allies in Action, a diverse group of students working together to improve intergroup relations on the campus; and Intergroup Relations Theatre and Music programs, using the arts to interactively involve, entertain, and educate participants about issues of diversity. The Center also offers programs for faculty and staff addressing issues of diversity in the workplace and the classroom.

The IRC also offers custom-designed programs, consultation, and intergroup conflict mediation services for the ASU community and works with a wide range of campus offices, academic departments, and student groups in fulfilling its mission to promote positive intergroup relations.

The Intergroup Relations Center is located in SSV 278 and can be reached at 480/965-1574 and through its Web site www.asu.edu/provost/intergroup.

HISTORY OF ARIZONA STATE UNIVERSITY

On February 26, 1885, House Bill 164, “An Act to Establish a Normal School in the Territory of Arizona,” was introduced in the 13th Legislative Assembly of Arizona Territory by John Samuel Armstrong. The bill, strongly supported by Charles Trumbull Hayden of Tempe, passed the House on March 6 and the Council on March 11 and was signed by Governor F.A. Tritle on March 12, 1885, thereby founding the institution known today as Arizona State University.

Under the supervision of Principal Hiram Bradford Farmer, instruction was instituted on February 8, 1886, when 33 students met in a single room on land donated by George and Martha Wilson of Tempe.

The institution began with the broad obligation to provide “instruction of persons...in the art of teaching and in all the various branches that pertain to good common school education; also, to give instruction in the mechanical arts and in husbandry and agricultural chemistry, the fundamental law of the United States, and in what regards the rights and duties of citizens.”

With the growth of the state, especially the surrounding Phoenix metropolitan area, the school has carried forward this charter, accompanied by successive changes in scope, name, and governance.

The Early Years. For the first 14 years, the school was governed by six principals. At the turn of the century and with another new name, Normal School of Arizona, President Arthur John Matthews brought a 30-year tenure of progress to the school.

He assisted in changing the school to an all-college student status; the Normal School had enlisted high school students who had no other secondary educational facilities in Arizona. He embarked on a building schedule that included the state’s first dormitories. Of the 18 buildings constructed while Matthews was president, six are still in use. His legacy of an “evergreen campus,” with the import of many shrubs and trees and the planting of Palm Walk, continues to this day: the main campus is a nationally recognized arboretum.

Matthews also saw to it that the Normal School was accredited outside the state. His service on national education organization boards was conducive to this recognition. The school remained a teacher’s college in fact and theory during Matthews’ tenure, although the struggle to attain status as a university was ongoing.

An extraordinary event occurred March 20, 1911, when former President Theodore Roosevelt visited the Tempe school and spoke from the steps of Old Main. He had dedicated the Roosevelt Dam the day before and was impressed with Arizona. He noted that construction of the dam would benefit central Arizona’s growth and that of the Normal School. It would be another year before the territory became a state.

During the Great Depression, Ralph W. Swetman was hired as president for a three-year term. This was a time of uncertainty for educational institutions. Although enrollment increased due to the depression, many faculty were terminated and faculty salaries were cut. The North Central Association became the accrediting agency for Arizona State Teachers College.

The Gammage Years. In 1933, Grady Gammage, then president of Arizona State Teachers College at Flagstaff, became president of Arizona State Teachers College at Tempe, a tenure that would last for nearly 28 years.

The Graduate Division was created in 1937 and the first master’s program was established the same year.

On March 8, 1945, the three state institutions of higher learning came under the authority of one Arizona Board of Regents, which oversees ASU today.

The phenomenal growth of the college began after the end of World War II. Dr. Gammage had foreseen that the G.I. Bill of Rights would flood campuses everywhere with returning veterans. Many of the veterans who had received military training in Arizona had fallen in love with the state and vowed to return after the war. The numbers within one year were staggering: in the fall semester of 1945, 553 students were enrolled; over the weekend semester break in January 1946, enrollment increased 110 percent to 1,163 students. Successive semesters saw continuing increased enrollment.

Like his predecessor, Dr. Gammage oversaw the construction of a number of buildings. His greatest dream, that
of a great auditorium, came to fruition after his death. He laid the groundwork for it with Frank Lloyd Wright, who designed what is now the university’s hallmark building, Grady Gammage Memorial Auditorium, built in 1964.

**Years of Growth and Stature.** During the 1960s, with the presidency of Dr. G. Homer Durham, Arizona State University began its academic rise with the establishment of several new colleges (the College of Fine Arts, the College of Law, the College of Nursing, and the School of Social Work) and the reorganization of what became the College of Liberal Arts and Sciences and the College of Engineering and Applied Sciences. Perhaps most important, the university gained the authority to award the Doctor of Philosophy and other doctoral degrees.

The next three presidents—Harry K. Newburn, 1969–71, John W. Schwada, 1971–81, and J. Russell Nelson, 1981–89—and Interim President Richard Peck, 1989, led the university to increased academic stature, expansion of the campuses, and rising enrollment. With approximately 49,000 students, ASU is the fourth largest university in the nation.

On January 1, 1990, Dr. Lattie F. Coor, a native Arizonan, became 15th in the institution’s succession of principals and presidents. He has highlighted undergraduate education, research, cultural diversity, and economic development as the “four pillars” of the university’s agenda. He has taken steps in these areas by further defining the role of ASU West and by initiating the establishment of ASU East.

In 1996, “The University for the Next Century” initiative, involving campus and community members, developed a set of general goals to guide the university at the turn of the millennium. By making selective investments in people, programs, and new practices, ASU will be a prototype of the major metropolitan research university of the future that is technologically sophisticated in linking its students, faculty, staff, and alumni to the larger issues of society.

**Research I Status.** ASU was named a Research I university by the Carnegie Foundation for the Advancement of Teaching in early 1994. Nationally, 88 universities have been granted this status, indicating successful garnering of support for research projects and educating future scientists.

**Athletics.** The original nickname for the Normal School of Arizona athletic teams was the Owls. Athletics other than Sunday hikes and lawn tennis were not part of the early curriculum.

During President Matthews’ tenure, some team competition began. The Tempe Bulldogs saw some interesting and rough competition with the University of Arizona Wildcats. In the 1940s, the college’s teams became the Sun Devils.

In 1979, the university joined the Pacific-10 Conference. In 1987, ASU became the first Arizona football team to play in the Rose Bowl, defeating the University of Michigan Wolverines 22-15. ASU made its second appearance in 1997 against Ohio State.

In 1999 ASU finished 12th nationally in the Sears Directors’ Cup, which recognizes the top athletic programs in the country. Eight teams finished in the top 20 nationally with three teams posting top five finishes. Men’s golf finished fifth, gymnastics took fourth, while women’s golf placed second nationally.

**Graduate College.** Graduate education at ASU began with the creation of the Graduate Division in 1937 and the establishment of the first master’s program the same year. For the first 20 years, graduate education focused exclusively on professional programs in education. During the 1950s as the campus grew and broadened its mission, a number of new degree programs appeared, significantly enhancing the role of graduate studies on the campus. By the early 1960s, graduate programs were established in many disciplines; humanities, social science, and science fields were well represented, as were professional programs in business, engineering, fine arts, and public administration. With this expansion of the mission of the campus came new facilities and the development of a wider range of research interests and activities.

Major changes in the nature and role of graduate education came in the early 1960s when the first Ph.D. programs were established in chemistry, education, engineering, English, physics, and psychology. The research focus of campus programs grew at a rapid pace. Master’s programs matured as doctoral programs were added. From the late 1960s to the present, campus facilities for instruction, research, and advanced study significantly expanded to support university programs with the construction of new laboratories, classroom structures, and two large libraries— including a new main library and a separate science and engineering library.

**UNIVERSITY CAMPUSES AND SITES**

**ASU Main.** ASU Main is located near the heart of metropolitan Phoenix in the city of Tempe (population 160,000). Nearby are the municipalities that make up the fast-growing Valley of the Sun: Chandler, Gilbert, Glendale, Mesa, Scottsdale, and other communities.

ASU Main comprises more than 700 acres and offers outstanding physical facilities to support the university’s educational programs. Buildings are modern and attractively designed.

Broad pedestrian malls laid out in an easy-to-follow grid plan, bicycle lanes connecting all parts of the university, and spacious lawns and subtropical landscaping characterize a campus serving the physical, aesthetic, and educational needs of students, faculty, and staff.

**ASU East.** The university’s third campus, ASU East, opened at the Williams Campus in the fall of 1996. More than 1,500 students are enrolled in degree programs offered by the College of Technology and Applied Sciences, the Morrison School of Agribusiness and Resource Management, and East College.

ASU East has joined with Chandler-Gilbert Community College (CGCC) in the Partnership in Baccalaureate Education that allows students to graduate in four years with an ASU baccalaureate degree earned entirely at the Williams Campus, at some savings in tuition.

The campus includes excellent educational facilities and unique residential opportunities, including a choice of traditional residence halls or two- to five-bedroom homes.

ASU East is a student-centered campus that offers many of the features of a small college in a rural area while providing access to the resources of a major research university and the amenities of a large metropolitan area. A shuttle service provides transportation between ASU East and ASU Main. The 600-acre ASU East campus is easily accessible.
ASU West. ASU West, an upper-division, nonresidential campus of ASU, was established by the Arizona Legislature in 1984 to provide greater access to higher education for residents of the rapidly growing northwestern area of metropolitan Maricopa County. ASU West offers 29 baccalaureate degree programs and six master’s degree programs, plus specialized minors and programs leading to professional certificates in the Colleges of Arts and Sciences, Education and Human Services, the School of Management, and the Division of Collaborative Programs.

Completed in 1991, the ASU West campus occupies more than 300 acres between 43rd and 51st Avenues on West Thunderbird Road in Phoenix. Easily accessed via the interstate routes of I-10 and I-17, facilities are state-of-the-art and consist of seven principle buildings (600,000 square feet) surrounded by a beautifully landscaped, natural environment.

For more information, see “ASU West,” page 407. For complete information and course listings, see the ASU West 2000–2001 Catalog.

ASU Extended Campus. The ASU Extended Campus (www.asu.edu/xed) goes beyond the boundaries of the university’s three physical campuses to provide access to academic credit and degree programs for working adults through flexible schedules; a vast network of off-campus sites; classes scheduled days, evenings, and weekends; plus innovative delivery technologies, including television, the Internet, and independent learning. The ASU Extended Campus offers programs in partnership with the campuses and colleges of ASU, including a variety of professional continuing education programs. The ASU Downtown Center is the anchor location of the Extended Campus. Lifelong learning opportunities are offered to students of all ages throughout Maricopa County and Arizona through the Extended Campus.

ASU Downtown Center. Located in downtown Phoenix, 502 E. Monroe, the ASU Downtown Center offers a variety of daytime and evening courses of interest to employees in private businesses and government agencies and to individuals seeking personal growth and enrichment. These courses are scheduled at a variety of convenient times and offered through various modes of delivery. In addition, computer technology classes are taught during daytime, evening, and weekend hours, and computer certificates are offered. Professional continuing education, certificate programs, and lecture series are also available. Access to ASU library information and resources, the ASU mainframe, and the Internet is available through the center’s computer lab.

ASU Research Park. The mission of the ASU Research Park (researchpark.asu.edu) is to enhance Arizona’s high value research-based economic development and to build the university’s capacity to educate and advance knowledge. To this end, the Research Park serves to attract new corporate and regional headquarters and research and development firms to Arizona—headquarters and firms that broaden the base for potential research among ASU departments, interact with graduate students, consult with university faculty, co-sponsor seminars on research topics, and provide employment opportunities for ASU graduates.

The Research Park has numerous major tenants, including ASM Lithography, Avnet CMG, Bright Horizons Family Solutions, Inc., Cytec Fiberite, Iridium, Lakeside Technology Center, Motorola Flat Panel Display, Motorola University, National Association for Purchasing Management, PKS Information Services, Transamerica Research Center, VLSI Technology, and Walgreens Healthcare Plus. There is also a 50,000-square-foot multitenant building developed by Transamerica Corporation, and the Lakeside Technology Center, a 44,000-square-foot multitenant building developed by the park itself. The Research Park contributes to ASU’s standing as a major research university.

Camp Tontozona. Located in the famed Mogollon Rim country near Kohl’s Ranch, northeast of Payson, this continuing education facility of the university serves the needs of academic departments conducting teaching and research in mountain terrain. The camp is also available to faculty, staff, graduate students, and alumni for family use. For more information, call 480/965–6851.

Deer Valley Rock Art Center. Deer Valley Rock Art Center, located two miles west of the Black Canyon Freeway on Deer Valley Road, is operated by the ASU Department of Anthropology in consultation with the Hopi, Yavapai, and Gila River Indian tribes. It includes more than 1,500 petroglyphs that cover the eastern slope of Hedgpeth Hills. For more information, call 623/582–8007.

The Arboretum. The Arboretum at Arizona State University is a flourishing oasis of plants from around the world. This virtual outdoor classroom includes 329 species/varieties of trees and other woody ornamental and herbaceous plants from diverse geographic regions as well as the Sonoran Desert. It contains one of the best collections of palms and conifers in the desert Southwest and a growing collection of native Southwestern plants. The Arboretum’s date palm collection has received international recognition.

The Arboretum began with Arthur J. Matthews. By the time Matthews’ 30-year presidency was finished, nearly 1,500 trees of 57 varieties and more than 5,700 feet of hedges were planted. One of his most enduring landscape projects was the planting of Mexican Fan Palms along Palm Walk in 1916, which extends from University Drive south to the Student Recreation Complex.

Several Arboretum walking tours are designated by types of plant collections throughout the campus, as well as a tour of the campus historical district.

UNIVERSITY LIBRARIES AND COLLECTIONS

The collections of the university’s libraries comprise more than 3 million volumes, approximately 6.8 million microform units, and more than 36,000 periodical and serial subscriptions. Computer access to commercially and locally produced databases and the ability to borrow research materials from other libraries enhance local resources. ASU is a member of the Association of Research Libraries and the Center for Research Libraries.

For telephone numbers, see “Who to Contact at ASU Main,” page 8. For more information, access the Web site at www.asu.edu/lib.

Charles Trumbull Hayden Library. The Charles Trumbull Hayden Library, designed by Weaver and Drover in 1966, houses the largest multidisciplinary collection. In
addition to the open stack areas, separate collections and service areas include Access for Disability Accommodations; Current Periodicals and Microforms; Government Documents; Interlibrary Loan and Document Delivery Services; Labriola National American Indian Data Center; Library Instruction, Systems, and Technology (L.I.S.T.); Reference; Reserve; Special Collections; and Archives and Manuscripts, which includes the Arizona Collection, the Chicano Research Collection, and the Visual Literacy Collection.

The Special Collections department includes the Child Drama Collection, and collections of materials by and about William S. Burroughs, the Press of Thomas Bird Mosher, and the Patten Herbal Collection. Archives and Manuscripts holds the papers of several major Arizona political figures, including Senator Carl Hayden, with historic materials about Arizona, Chicano, and Indian affairs. For more information, access the Web site at www.asu.edu/lib/hayden.

**Architecture and Environmental Design Library.** A branch of the University Libraries, located in the College of Architecture and Environmental Design/North building, contains collections pertinent to areas of study within the college, the Materials Resource Center, and the Architectural Drawings Collection. For more information, access the Web site at www.asu.edu/caed/AEDlibrary.

**Arizona Historical Foundation.** Under a cooperative agreement with ASU, the Arizona Historical Foundation houses a library of several thousand volumes, manuscript collections, maps, and photographs, and a large collection of audio/visual materials. Housed in the Charles Trumbull Hayden Library, the collection’s focus is on the history of Arizona and the Southwest. For more information, access the Web site at www.asu.edu/lib/ahf.

**Fletcher Library.** Located at the ASU West campus, Fletcher Library utilizes a range of electronic systems, from compact discs to telecommunications networks, to provide access to resources and delivery of materials. Its holdings include more than 310,000 volumes, 3,000 serial subscriptions, and 1.4 million microforms selected to complement ASU West course offerings.

**Law Library.** The John J. Ross-William C. Blakley Law Library is located on McAllister Avenue. See “Organizations,” page 82 for more information.

**Music Library.** A large collection of music scores, recordings, books, music reference materials, and listening facilities for individuals and groups are located on the third floor of the Music Building, West Wing. For more information, access the Web site at www.asu.edu/lib/music.

**Daniel E. Noble Science and Engineering Library.** The Daniel E. Noble Science and Engineering Library houses books, journals, and microforms in the sciences, engineering, and nursing; the Map Collection; and the U.S. Patent and Trademark Depository. For more information, access the Web site at www.asu.edu/lib/noble.

**University Archives.** The University Archives collection (1885–present) of university theses and dissertations, administrative records of the university, historical photographs and personal papers of faculty, staff, and alumni as well as student, faculty, and official university publications are available for use at the Luhrs Reading Room in Hayden Library. The historic University Archives Building on Tyler Mall is the home of the 1907 Gallery, which hosts exhibits of historical photographs from the collections of the Department of Archives and Manuscripts. For more information, access the Web site at www.asu.edu/lib/archives/archives.htm.

**Video Resources.** Located in ECA 100, Video Resources supports a variety of educational media services, including reserve videotapes of all ASU courses broadcast on cable television and ITFS, video viewing/study carrels, and a studio facility for students and faculty. In addition, Video Resources houses thousands of video titles in the ASU Media circulating collection that may be checked out for three days. Special Collections include the WorldFest Video Archive, Horizon, C-SPAN Booknotes, and C-SPAN I and II. Patrons with a current university ID may check out any available videotape for three days. Interlibrary loans and video booking may be scheduled by calling 480/965-7564. For more information, call 480/965-5046, or access the Web site at www.asu.edu/lib/video.

**PERFORMING AND FINE ARTS FACILITIES**

**ASU Art Museum.** The ASU Art Museum serves students and scholars within and beyond the university and as a cultural resource for the Phoenix Metropolitan area. Additionally, the museum serves a public beyond the immediate area through traveling exhibitions and publications that not only document the exhibitions but also offer critical insight into the museum’s areas of concentration.

Exhibitions, education programs, and publications are both interdisciplinary and educational and designed to engage viewers with art that is relevant to their lives. New technologies in the content of art and in the approaches to reaching new audiences are eagerly and openly adopted.

Collections and exhibitions focus on contemporary art, particularly new media and new methods of presentation; art by Latin American artists; art from the Southwest; prints, both historic and contemporary; and crafts, emphasizing American ceramics. The museum was founded by a gift of historic American paintings, which are on continuous display, including works by Gilbert Stuart, Albert Pinkham Ryder, Winslow Homer, Georgia O’Keeffe, and Romare Bearden. The contemporary art holdings include works by Nam June Paik, Lorna Simpson, Vernon Fisher, Sue Coe, and Enrique Chagoya. Exhibitions and collections are housed in galleries and study rooms in two facilities: the international award-winning Nelson Fine Arts Center and Matthews Center in the middle of campus.

Educational programs include artist residencies and dialogues with classes, student docent program, internships and research assistantships, lectures and symposia, in-gallery materials, special curricula-based school programs, school and public tours. For information on upcoming exhibitions and programs, call 480/965-2787.

**ASU Downtown Center Gallery and The Galleria.** The Gallery, located on the first floor of the ASU Downtown Center, is a partnership with the Joint Urban Design Program from the College of Architecture and Environmental Design. The Gallery features special rotating exhibits, including architectural models, computer imaging projects, and other unique exhibits accessible for public view. For
information on upcoming exhibitions and programs, call 480/965-3046.

The Galleria, located on the second floor of the ASU Downtown Center, features work by ASU faculty, staff, students, and local artists. The Galleria is a member of Artlink First Friday’s and the Phoenix Art Detour. Open Monday through Saturday, 8 A.M.–5 P.M., the Galleria features new and different works each month. For information on current or upcoming exhibitions, call 480/965-3046.

**Computing Commons Gallery.** One of the unique features of the Computing Commons building is the gallery located off the main lobby in the northwest corner of the building. This unique gallery is designed for showcasing technology-based artwork, supporting display of online computer art and holograms, as well as more traditional two-dimensional graphic presentations. The millennium is an exciting time for the arts, as technology-based tools and techniques open new avenues for creativity, exemplified by the exhibits in the Computing Commons Gallery.

**Dance Studio Theatre.** Located in the Physical Education Building East, the Dance Studio Theatre is a 6,000-square-foot dance studio that also serves as a proscenium-style performance space. The 300-seat theatre is devoted to informal and formal showcases of student and faculty choreographic work.

**Drama City.** Housed in a 50-year-old former church, Drama City is the primary performance venue for the Institute for Studies in the Arts. The space is a black box, 60 by 30 feet with fixed lighting positions and flexible control stations. The area can seat up to 100 and is equipped for performance or installation pieces. The facility also houses a wide range of technology for performance and presentation including video projection, automated luminaires, and a unique computerized control system for integrated media usage.

**Gallery of Design.** Housed in the College of Architecture and Environmental Design, the Gallery of Design features traveling exhibitions on design and urban issues.

**Paul V. Galvin Playhouse.** Built to stage the largest productions of the ASU Theatre, the Paul V. Galvin Playhouse is a 496-seat proscenium-stage theatre set at the east end of the Nelson Fine Arts Center. The Department of Theatre’s annual season of 12 to 15 plays also includes productions in the Lyceum and Prism theatres and the Fine Arts Center Studios.

**Grady Gammage Memorial Auditorium.** A versatile center for the performing arts designed by Frank Lloyd Wright and named for the late President Grady Gammage, Grady Gammage Memorial Auditorium seats 3,000 and has won wide acclaim for its design and acoustics. In addition to the great hall and related facilities—including the Aeolian-Skinner organ contributed by Hugh W. and Barbara V. Long—the building contains classrooms and workshops for the College of Fine Arts.

**The Intelligent Stage.** The Intelligent Stage is a production and performance facility designed to explore the possibilities of interactive stage performance. The facility includes a sprung floor; 30 dimmers and a four channel sound system; a composer workstation; workstations for designing interactive MIDI performances; and a movement sensing, image-processing workstation. All are networked together for multi-machine performance and production. Resident artists and technologists provide design and logistical support for projects in the facility.

**Katzin Concert Hall.** Located in the new music building expansion, the Katzin Concert Hall seats 350 people. Primarily used for solo and chamber music recitals, the hall houses a nine-foot Hamburg concert Steinway piano. The acoustics are enhanced by the maple-paneled stage and the multifaceted walls and ceiling.

**Louise Lincoln Kerr Cultural Center.** Located in Scottsdale, the Louise Lincoln Kerr Cultural Center offers cultural events, especially in the performing arts, to the community.

**Lyceum Theatre.** A small but technically sophisticated 164-seat proscenium-theatre, the Lyceum Theatre is a theatre laboratory devoted to the work of student playwrights, directors, and actors.

**Music Theatre.** As part of the music complex, the Music Theatre, modeled after the Wagnerian Theatre in Bayreuth, Germany, rises five stories and seats an audience of 500. This theatre is the home of many opera and musical productions.

**J. Russell and Bonita Nelson Fine Arts Center.** Designed by Albuquerque architect Antoine Predock, the J. Russell and Bonita Nelson Fine Arts Center is a spectacular, 119,000-square-foot village-like aggregate of buildings that includes five galleries of the ASU Art Museum, the Paul V. Galvin Playhouse, the University Dance Laboratory, seven specialized theatre and dance studios, a video studio, and a variety of scenic outdoor features, including courtyards, fountains, pools, and a 50-by-100-foot projection wall designed for outdoor video.

**Northlight Gallery.** The Northlight Gallery is dedicated to museum-quality exhibitions of historical and contemporary photography. Located in Matthews Hall, it is open during the academic year.

**Organ Hall.** Located in the new music building expansion, the Organ Hall houses the Fritts Organ. This tracker-action pipe organ is designed to capture the qualities of baroque European organs. The hall is designed to complement the organ with a barrel-vaulted ceiling and wooden benches to seat 175 persons.

**Prism Theatre.** The Prism Theatre is an alternative black box space devoted to multiethnic, experimental works and second stage productions.

**Recital Hall.** Located on the fifth floor of the music building, the Recital Hall is an intimate 125-seat facility that opens onto a rooftop courtyard.

**Sundome Center for the Performing Arts.** As America’s largest single-level theatre, the Sundome Center for the Performing Arts in Sun City West has 7,169 seats. The theatre is equipped with sophisticated and state-of-the-art lighting systems, and a single-span roof affords each seat a clear view. As one of Arizona’s premier entertainment venues, the Sundome provides a varied array of top entertainment from Las Vegas concerts to classical ballets to celebrity lectures.
Television Station KAET. KAET, Channel 8, is the university’s PBS station. Studios of the award-winning station are located in the Stauffer Communication Arts Building. To operate 24 hours a day, KAET employs more than 50 ASU students and interns. To learn more about KAET-TV, access its Web site at www.kaet.asu.edu or call 480/965-3506.

University Dance Laboratory. A flexible performance space within the Nelson Fine Arts Center, the University Dance Laboratory is designed specifically for experimental dance productions. Along with the Dance Studio Theatre in the Physical Education Building East, the University Dance Laboratory is used by the Department of Dance for experimental performances.

Harry Wood Gallery. Housed in the Art Building (ART 120), the Harry Wood Gallery provides temporary exhibitions of the visual arts during the academic year.

Computing Facilities and Services

Computers are fundamental tools for learning, instruction, and research in every college and department at ASU. The Information Technology (IT) department provides a variety of computing equipment and services available for use by students, faculty, and staff. IT also provides programming, statistical, graphics, and other applications for microcomputers and mainframe computing systems. University-wide electronic mail and the library’s online catalog are accessible through a high-speed campus network and from off campus via the Internet.

A wide range of information on campus activities and related topics is available online at the ASU Web site www.asu.edu. This site contains a wide variety of information from various colleges, departments, and organizations, including currently approved courses, the Schedule of Classes, the General Catalog, the Graduate Catalog, a telephone and electronic mail directory, the athletic calendar of events, application forms, and financial aid information.

IT provides several service centers, described below, for the ASU academic community.

Computing Commons. The Computing Commons building (CPCOM) provides a “technology hub” that draws together students, faculty, and staff from all disciplines on campus in an environment conducive to maximum creative interaction. The building and its facilities have drawn national recognition and acclaim as a model for the support of instruction and research in a technology-based environment. The Computing Commons houses a 225-workstation computing site, nine electronic classrooms, a Visualization Center, the Customer Assistance Center, a computer store, and the technology-based gallery described under Performing and Fine Arts Facilities.

Computing Sites. In addition to the Computing Commons Atrium, there are four additional computing sites located on the ASU Main Campus, available for ASU faculty, staff and students with an ASURITE UserID. Site configurations and hours of operation vary; current information is available on the Web at www.asu.edu/it/fyi/sites.

ASU Downtown Center Computer Lab. The ASU Downtown Center offers an alternative to the computer labs at ASU Main. This facility features four Pentium II-400s, 12 Pentium-120s, and four Macintosh 636CDs—all loaded with Microsoft Office, Netscape, and other software. A high-speed laser printer and a color flatbed scanner are available, and faculty may use the ceiling-mounted computer projection system. The ASU Downtown Center is located in downtown Phoenix. It is a unique educational, applied-research, and community-service facility designed to address the multifaceted urban opportunities of the central Phoenix community. For more information, call 480/965-3046, or access the Web site at www.asu.edu/xed/dtcplab.

Computer Accounts. Computer Accounts, located on the first floor of the Computing Commons in room 105, assists users with account access issues (including lost passwords), disk space quotas, accounts for non-ASURITE services (including mainframe computer access), and other account related services. Most computing services are accessible through the standard ASURITE UserID and password, available from self-subscription workstations located in a variety of on-campus locations or online (accessible from ASU addresses only) at www.asu.edu/selfsub. More information about Computer Accounts is available on the Web at www.asu.edu/computeraccounts.

Customer Assistance Center. The Customer Assistance Center, located in CPCOM 202, offers a library of reference manuals, computing periodicals, and other information concerning computing systems and software. Self-paced training is available for various software applications running under the Windows, Macintosh, or Unix operating systems. The Customer Assistance Center also distributes communication, virus protection, and other site-licensed software as well as site-specific documentation in a “print-on-demand” format. Print on demand is also available on the Web at www.asu.edu/quicklook. More information about the Customer Assistance Center is available from the Web site at www.asu.edu/cacenter.

Help Desk/Consulting. The IT Help Desk provides ASU students, faculty, and staff with centralized systems information and first-level assistance in resolving computing problems. Services are available by telephone at 480/965-6500, on the Web at www.asu.edu/helpdesk, and by walk-in to the Customer Assistance Center, CPCOM 202. The IT Help Desk assists with data recovery and repair; AFS filespace and permissions for Web sites; communication, e-mail, and virus protection software; and computing and equipment problem referral.

Instructional Support (IS). Instruction Support serves as a development center for the use of technology in the design and delivery of instruction. Staffed with students, faculty, and researchers skilled in the areas of system design, graphics, interactive software, networked delivery, and digital video, the innovation-driven group pushes the development of instruction to the limits of currently available technology. From this perspective, IT/IS fosters technological innovation by serving as a research and development unit, a production group, and a training facility.

IT/IS collaborates with faculty in the coordination of cross-disciplinary research and production projects relating to the integration of technology with education. Through partnerships with faculty and groups outside ASU, grant-writing teams are able to leverage support not otherwise available to a single academic unit or faculty member.
Central to effective support services is the establishment of a partnership among the various support units within the university. IT/IS coordinates the efforts of these groups, which include the College of Extended Education, University Libraries, Disability Resources for Students, and the Office of Research and Creative Activities, to provide faculty with a wide array of instruction support services.

IT/IS offers consultation sessions tailored toward enhancing the instructional use of technology by the university teaching community. Sessions range from an introduction to technology in education through advanced and customized approaches for instructors in specific programs.

More information about IT/IS is available from the Web site at is.asu.edu.

**Instruction Support (IS) Lab.** The IS Lab provides an environment in which faculty may seek and receive one-on-one, guided, or independent support for course development and delivery. Expert staff work closely with faculty to refine and develop their skills and confidence in the design and delivery of instruction through a variety of technology-supported means, both synchronous and asynchronous. Located in CPCOM 213, the IS Lab provides faculty, university professionals, and graduate students with a unique opportunity to integrate technology with instruction. The IS Lab sponsors workshops and demonstrations and serves as a dynamic clearinghouse of information and referrals for effective integration of technology with education.

**Research Support.** Research Support provides processing and operations assistance to faculty, staff, and student researchers engaged in scientific and creative endeavors. Processing support involves consulting in the use of software tools and program coding directly related to projects or specific research; operations activities support the overall workflow in university computing facilities, include consulting for computation, statistics, visualization and GIS platforms in conjunction with software package installation and use, media conversion, and product evaluation.

A variety of computation facilities are provided in support of research and creative endeavors within the ASU community, ranging from individual workstations to SMP/MPP servers and mainframes. Extended computer capabilities are available through access to national computing centers. More information is available at www.asu.edu/it/isyi/research on the Web.

**Geographic Information Systems (GIS) Lab and Visualization Center.** The GIS Lab and Visualization Center both seek to establish partnerships with faculty, staff, and students to acquire, create, and enhance research and creative endeavors through the effective use of visualization and GIS technologies.

The GIS Lab is located in CPCOM 235. Its staff assist researchers with hardware, software, and data to facilitate the creation of geographic information systems for spatial analysis, query, and display. The lab supports research from various disciplines and provides additional resources to students who are enrolled in classes for GIS instruction, serving as a focal point for GIS users to meet and share information and technical expertise.

The Visualization Center, also located in CPCOM 235, offers faculty, staff, and graduate students the hardware and application software resources and services for the high-level graphics and visualization used in research. Researchers receive assistance ranging from interactive viewing of scientific data to visualization in the liberal and performing arts and other endeavors. The center serves as a focal point for developing technologies in software, hardware, and communications.

More information on the GIS Lab and Visualization Center is available on the Internet at www.asu.edu/gislab and www.asu.edu/it/isyi/vis/vc.

**ALUMNI ASSOCIATION**

Founded in 1894, the Alumni Association is a volunteer-led organization committed to serve and unite alumni for the purpose of advancing the interests of ASU and its alumni. The association provides a variety of services for ASU alumni as well as a series of events scheduled around the country.

With more than 200,000 alumni living in the United States and throughout the world, the association plays an important role as the university’s primary support organization. Comprising more than 40 groups, the campus, college, club, and chapter organizations (4Cs) of the association provide opportunities for all alumni to stay involved with the part of ASU that interests them most.

Members of the ASU Alumni Association Board of Directors are elected each spring. The association’s professional staff is led by Executive Director Susan Clouse Dolbert.

For information about the association or its board of directors, call 1-800-ALUMNUS or 480/965-ALUM.

**PROGRAM ASSESSMENT AND THE OFFICE OF UNIVERSITY EVALUATION**

The Office of University Evaluation is a research and service facility that focuses on assessing and improving the effectiveness of the university’s academic and support programs. The office conducts, coordinates, and manages research designed to measure the degree to which courses, curricula, and academic programs impart knowledge and skills to students as well as the quality of support provided to students. The results of these studies, or assessments, are used to enhance both the support provided to students and the intellectual integrity of an ASU education.

In order for the university to assess and improve its programs, periodic measurement of student experiences, perceptions, and intellectual growth must be obtained. When asked by the university, students are expected to participate in one or more evaluative procedures, such as the ASU Report Card. These evaluative procedures are designed to assess the efficacy of the total university experience, including teaching and learning and support programs and are not used in individual grading. The information obtained is one of the means used to improve the quality of the educational experience for this and future generations of ASU students.

For more information, call the office at 480/965-9291, or contact them via e-mail at oue@asu.edu. The Office of University Evaluation’s Web site is www.asu.edu/oue.

**RESEARCH CENTERS, INSTITUTES, AND LABORATORIES**

These units serve the university’s mission in research. They are overseen by eight of the colleges, the vice provost for Research, and ASU East.
Center for Research on Education in Science, Mathematics, Engineering, and Technology. The Center for Research on Education in Science, Mathematics, Engineering, and Technology (CRESMET), an alliance of the ASU Colleges of Education, Engineering and Applied Sciences, and Liberal Arts and Sciences, was initiated in 1999, growing out of what was previously the Center for Innovation in Engineering Education. The mission of the center is to bring together individuals, programs, and organizations interested in improving K–20 science, mathematics, engineering, and technology education to research, develop, and assess educational theories, curricula, courses, and administrative policies that impact science, mathematics, engineering, and technology education. The center also encourages and supports wide-scale sharing and implementation of effective approaches to producing a more scientifically and technologically literate populace and more capable science, mathematics, engineering, and technology majors.

Research. CRESMET pursues research and development that demonstrates coherent, consistent, and conceptual powerful mathematics, science, engineering, and technology education from kindergarten through college (K–20).

Partnering. CRESMET supports collaborations across the traditional boundaries of university, community, business, and local education agencies.

Sharing. CRESMET establishes communication avenues for intellectual and material products proven effective in supporting powerful learning in science, mathematics, engineering, and technology fields.

For more information, contact the director, Center for Research on Education in Science, Mathematics, Engineering, and Technology, ECG 303, 480/965-5350, or access the center’s Web site at www.asu.edu/~cresmet.

College of Architecture and Environmental Design

Herberger Center for Design Excellence. The Herberger Center for Design Excellence is the research, outreach, and publication arm of the College of Architecture and Environmental Design. The center facilitates and promotes research, scholarship, and creative activity among the faculty and students of the college in the fields of architecture, interior design, industrial design, graphic design, landscape architecture, and urban design, and environmental planning.

The center works closely with the faculty to publish books, working papers, and conference proceedings that promote scholarship in the planning and design disciplines. In keeping with its outreach mission, the Herberger Center also publishes reports, newsletters, and books that help to inform debate on key design and planning issues in the desert southwest.

The Joint Urban Design Program (JUDP), based in downtown Phoenix, is the center’s outreach arm. It facilitates interaction among college faculty, students, and the broader community, and offers design as a way to further dialogue and to address urban issues. The JUDP conducts intensive workshops, community-based charrettes that help neighborhoods, groups, and other city stakeholders focus on concerns and strategies to respond to critical needs. Student groups and faculty work with the JUDP to identify real world problems that they address in studio projects. For more information, contact 480/965-6693, or access the Web site at www.asu.edu/caed.

College of Business

Arizona Real Estate Center. The Arizona Real Estate Center (AREC), established in 1980, serves a multifunction research and educational role to foster better understanding of the real estate sector of the Arizona economy. Housing, commercial real estate, and construction activity data for Arizona and Maricopa County are collected by the center and are utilized for a variety of ongoing projects, including the calculation of affordability indexes and the computation of housing appreciation figures for the metropolitan Phoenix area. The center’s annual outlook series provides a public forum for prominent members of the real estate industry to present their perceptions of market conditions.

For more information, call 480/965-5440 or write

ARIZONA REAL ESTATE CENTER
660 S MILL AVE, SUITE 300
PO BOX 22160
TEMPE AZ 85281-3656

The center’s Web site is www.cob.asu.edu/seid/arec.

Bank One Economic Outlook Center. The Bank One Economic Outlook Center (EOC), established in 1985, specializes in economic forecasts of Arizona and the Western states. The center publishes the Bank One Arizona Blue Chip Economic Forecast (monthly), Greater Phoenix Blue Chip Economic Forecast (quarterly), Western Blue Chip Economic Forecast (10 issues per year), and Blue Chip Job Growth Update (monthly), an update of current job growth in the United States. The center also publishes Mexico Consensus Economic Forecast (quarterly), a forecast and historical data on the Mexican economy.

For more information, call 480/965-5543 or write

BANK ONE ECONOMIC OUTLOOK CENTER
660 S MILL AVE, SUITE 300
PO BOX 22160
TEMPE AZ 85281-3656

The center’s Web site is www.cob.asu.edu/seid/eoc.

Center for the Advancement of Small Business. The Center for the Advancement of Small Business (CASB) is the 21st-century leader in business education, practice, and research that provides high-quality, relevant programs, and information services focused on small business since 1994. The center enables students and existing small and medium-sized businesses to participate, contribute, and compete in the global economy.

The center provides students from all disciplines with programs and resources that prepare them for positions of leadership in small and medium-size businesses, and aids small and medium-size businesses in the continuous improvement of their human resources and business practices. CASB also engages in applied research on entrepreneurship and the emerging changes and trends in small business.

For more information, contact the director, Center for the Advancement of Small Business, BAC 111, 480/965-3962. The center’s Web site is www.cob.asu.edu/seid/casb.

Center for Advanced Purchasing Studies. The Center for Advanced Purchasing Studies (CAPS) was established in November 1986 by a national affiliation agreement between the ASU College of Business and the National Association of Purchasing Management (NAPM). It is the first and only
program of its kind in the nation and is located in the Arizona State University Research Park, about eight miles south of the main ASU campus. CAPS conducts in-depth research into the problems facing the purchasing profession today and, through its studies, seeks to improve purchasing effectiveness and efficiency and the overall state of purchasing readiness.

For more information, call 480/752-2277, or write

CENTER FOR ADVANCED PURCHASING STUDIES
ASU RESEARCH PARK
2055 E CENTENNIAL CIRCLE
PO BOX 22160
TEMPE AZ 85285-2160

Center for Business Research. The Center for Business Research (CBR) has been a consistent source of information on the Arizona and metropolitan Phoenix economies since 1951. Both the business community and the public have had access to the economic indicators produced by the ongoing projects of the center, including quarterly net migration estimates for Arizona and Maricopa County. The center also conducts projects under the sponsorship of private and public agencies. Recent examples include the economic impact of Super Bowl XXX, a study of seasonal migration to Arizona, and an analysis of the state’s hospital industry. A monthly publication of the center, AZB/Arizona Business, plays a major role in disseminating to the public the economic information compiled by the research centers of the Seidman Institute. The staff within the center is available to respond to inquiries and to provide available data.

For more information, call 480/965-3961 or write
center's Web site is www.cob.asu.edu/seid/cbr.

Center for Services Marketing and Management. The Center for Services Marketing and Management (SMM Center) is a leading university-based hub devoted to the study of services marketing and management since 1985. The SMM Center addresses how any company can improve internal service processes and use service and customer satisfaction as a competitive advantage. The center is cross-industry in nature, encouraging firms to share the best ideas and practices for adaptation across industries. Though grounded in marketing, the center’s work is also cross-functional, integrating concepts and techniques from marketing, operations, human resources, and management.

The center's areas of expertise include customer retention and loyalty; service quality; service delivery; professional services such as healthcare, accounting and consulting services; customer satisfaction; services strategy; service culture; and service recovery. A leader in the business and academic communities, the SMM Center’s work advances the knowledge base in the field and provides applicable frameworks, concepts, and tools.

The center offers its partner firms top-flight executive education in services through the annual “Activating Your Firm’s Service Culture” symposium, the annual “Services Marketing and Management” institute program, the annual “Information Technology Services Marketing” course, and provides customized executive education programs and research projects which are tailored to and conducted for charter member firms.

The center also actively supports the College of Business’ M.B.A. program that offers a certification in Services Marketing and Management. The services track infuses strong company-based experience and encourages summer internships.

For more information, contact the director, Center for Services Marketing and Management, BAC 440, 480/965-6201.

Center for the Study of Finance. The Center for the Study of Finance (CSF), established in 1986, serves the national financial, policy-making, and academic communities through research, publications, conferences, and educational programs. The focus of such activities is on the changing nature of the domestic and international financial system with such specific areas as the interaction between financial markets, deposit insurance reform, the deregulation of financial institutions, the financing of mergers and acquisitions, and the effect of government policy on financial markets receiving recent attention.

For more information, call 480/965-5362 or write
center's Web site is www.cob.asu.edu/seid.

L. William Seidman Research Institute. The mission of the L. William Seidman Research Institute is to encourage and support applied business research by serving as a public access point to the College of Business. Specific goals include transferring new knowledge to the public; supporting faculty and student research; encouraging the development of educational programs grounded in business research; and conducting high-quality, applied business research.

The institute encourages research activity by providing research support services to the faculty, staff, and students of the college. This includes facilitating grant preparation and assistance in grant administration. Its research centers act as the focal point for involving faculty and students in applied research on important issues identified by the business community.

The institute also serves an important role in the broader educational mission of the College of Business by disseminating the findings of research conducted by the faculty, students, and research center staff, as well as the results of business research from other sources around the world. This is accomplished through a variety of mechanisms: newsletters and research reports; seminars and conferences; internet Web pages; media interviews and press releases; and by responding to inquiries from businesses, public officials, and the community. For more information, call 480/965-5362 or write

L. WILLIAM SEIDMAN RESEARCH INSTITUTE

Manufacturing Institute. See “Manufacturing Institute,” page 42, for information about this joint venture of the Col-
College of Business and the College of Engineering and Applied Sciences.

**College of Education**

**Center for Bilingual Education and Research.** The Center for Bilingual Education and Research (CBER) was created in 1980 to conduct policy-relevant research in bilingualism, bilingual education, and language policy in education. The center’s scope of work is driven by a need to merge several related topics into a single articulated conversation: English/Spanish biliteracy; promoting the role of public education to strengthen communities; and enabling binational collaboration among educators on both sides of the U.S.-Mexico border. The long-term vision is to help develop a new pedagogy tailored to the needs of the bicultural region the center serves. The integration of these themes shapes the scope of work for CBER in these areas:

1. **Within the broad scope of educational policy research, CBER focuses on scholarly inquiry that contributes to informed and enlightened discourse on language policy for schools and society, especially on the harmonious coexistence of English, the national language; and Spanish, the second most used language in our society.**

2. **Life in the American Southwest is bicultural and increasingly binational. In this Pan-American context, bilingualism will gain in importance. Equally important will be the collective ability of residents on both sides of the border to work harmoniously in pursuit of a common destiny that will be ever more intertwined. Schools must help children and youth develop skills and predispositions to face this challenge.**

3. **Mexico and the United States are becoming more interdependent. In this context, Mexican educators should have opportunities to contribute to improving education for Mexican immigrant children in U.S. schools. To enable this, schools must create pilot projects and an infrastructure for collaboration among institutions and individuals on both sides of the U.S.-Mexico border.**

For more information, contact the director, Center for Bilingual Education and Research, ED 440, 480/965-7134, or access the Web site at www.asu.edu/educ/cber.

**Center for Indian Education.** The Center for Indian Education is an interdisciplinary research and service center established in 1959. It promotes studies in American Indian policy and administration that contribute to scholarship and effective practices in education, professional training, and tribal capacity building. It is structured to foster relations between the university and sovereign tribes and to provide training and technical assistance for community programs. The center publishes the *Journal of American Indian Education* and sponsors workshops and colloquia that bring together scholars and tribal community leaders.

The center provides leadership through a group of American Indian faculty and is organized on the basis of scholarly expertise of the faculty. In addition to College of Education faculty, responsibilities are shared by faculty from the School of Social Work, the School of Justice Studies, the College of Liberal Arts and Sciences, and the College of Law. Areas currently studied include administrative leadership, policy analysis, bilingual education, health and welfare policy, justice studies, and program development in professional studies.

For more information, contact the director, Center for Indian Education, ED 444, 480/965-6292, or access the Web site at www.asu.edu/educ/cie.

**CRESMET.** See “Center for Research on Education in Science, Mathematics, Engineering, and Technology,” page 39, for information about this joint venture of the Colleges of Education, Engineering and Applied Sciences, and Liberal Arts and Sciences.

**College of Engineering and Applied Sciences**

**Center for Low-Power Electronics.** The technical areas of focus include

1. basic materials, alternative materials, and their fabrication;
2. device design optimization;
3. design of digital, analog, and hybrid low power circuits; and
4. power-based physical design for single- and multi-chip VLSI systems.

For more information, contact the director, Center for Low-Power Electronics, ENGR C 115, 480/965-8654.

**Center for Research in Engineering and Applied Sciences.** The Center for Research in Engineering and Applied Sciences supports the faculty and students in the knowledge creation and discovery mission of the university. The center provides research support services for all research in the college as well as interfacing with the research offices of the university and other colleges. The center also supports the state’s economic development through collaborative research partnerships with, and technology transfer to, industry. Specialized and interdisciplinary efforts are in place in such areas as acoustics, air pollution, applied mechanics, artificial intelligence, automated manufacturing, bioengineering, communications, computational microelectronics, computer-aided design and manufacturing, computer-integrated manufacturing, computer science, control systems, data and information systems, electrical characterization, environmental resources and control, environmentally benign manufacturing, expert systems, fluid mechanics, fuels and combustion, materials, mass transfer, metallurgy, photovoltaics, plasma, plastics, power systems, analyses, robotics, semiconductor materials and fabrication, semiconductor processing, signal processing, soil mechanics, solar thermal energy, solid-state electronics and systems design and analysis, telecommunications, thermodynamics, transportation infrastructure, turbines, very-large-scale integrated circuits, waste management, and water resources.

For more information, contact the director, Center for Research in Engineering and Applied Sciences, ECG 136, 480/965-1725, or access the center’s Web site at www.eas.asu.edu/research.

**Center for Solid-State Electronics Research.** CSSER focuses on research in the areas of semiconductors crystal growth, both by bulk and epitaxial techniques; device characterization and modeling; defect behavior in semiconductors material characterization; processing; fine line lithography; surface analysis; and transport. Major programs
address semiconductor device modeling, transport theory, optoelectronics, ferroelectrics, semiconductor processing, microwave devices, and ultra-submicron devices. New programs address synthetic neural systems and their impact on VLSI design. Research in the specially designed facilities includes various aspects of submicron dimension devices.

For more information, contact the director, Center for Solid-State Electronics Research, ENGRG 115, 480/965-3708, or access at the center’s Web site ceas-pub.eas.asu.edu/csser.

Manufacturing Institute. The Manufacturing Institute is a joint venture of the College of Business and the College of Engineering and Applied Sciences, established to enhance manufacturing research and industrial collaboration at the interface between the two colleges. The mission of the institute involves integrating aspects of manufacturing in both the business and engineering areas, and helping to fulfill the university’s goal of becoming one of the leading educational and research institutions in both manufacturing enterprise and manufacturing process technology issues. The institute has two academic codirectors, one each from the College of Business and the College of Engineering and Applied Sciences, and has active industry involvement.

For more information, contact one of the directors, Manufacturing Institute, GWC 402, 480/965-3709, or access the institute’s Web site at mi.asu.edu/mi.

Center for System Science and Engineering Research. The Center for System Science and Engineering Research has established four focus areas: nonlinear dynamical systems, control theory and its applications, mathematical neuroscience, and scientific computing and interdisciplinary systems engineering. The center is jointly sponsored by the College of Engineering and Applied Sciences and the College of Liberal Arts and Sciences. Its main goals are the creation and enhancement of interdisciplinary and cooperative research, graduate education, and public service programs in the areas of systems science, applied mathematics, and computation.

For more information, contact the SSERC director, GWC 606, 480/965-8382, or access the center’s Web site at www.eas.asu.edu/~sserc.

Telecommunications Research Center. Telecommunications play a vital role in home, commercial, entertainment, educational, scientific, and military systems. The Telecommunications Research Center focuses its interests and activities in research and educational programs. The approach is to conduct basic and applied research, develop technologies, and provide education programs in all major areas of telecommunications, from signal generation to reception. The targeted areas of excellence are antennas, propagation, and scattering; microwave circuits, devices, and measurements; optical communications; signal processing; broadband switching; and communication systems. Ultramodern laboratories and computational facilities are associated with the center.

For more information, contact the director, Telecommunications Research Center, GWC 411, 480/965-5311, or access the center’s Web site at trc.eas.asu.edu.

College of Fine Arts

Institute for Studies in the Arts. The Institute for Studies in the Arts (ISA) in the College of Fine Arts serves as a research laboratory for the development of new art forms, new ideas and concepts, and innovative technologies for artistic expression; a network for communication among creative scholars both within and outside the arts; and a resource base for the documentation, evaluation, and dissemination of research in the arts. ISA addresses the needs of a variety of populations through technical and monetary support and sponsorship for research projects, performances, exhibitions, and symposia.

ISA facilities include an experimental media performance space with an adjacent technology prototyping and applications studio in Drama City; the “Intelligent Stage,” an interactive and tele-performance studio with state-of-the-art digital audio and video production and post-production facilities in Matthews Center; a Technology Development Studio for the development of prototype technologies and their application to aesthetic research; and comprehensive archives that document the history of research initiatives supported by the ISA.

ISA is open to a wide range of proposals from faculty, graduate and undergraduate students, and visiting artists, provided such proposals address the ISA mission of experimentation and innovation in the arts. For more information, contact the Institute for Studies in the Arts, MCENT 224, 480/965-9438, or visit the ISA Web site at isa.asu.edu.

College of Law

Center for the Study of Law, Science, and Technology. Located in the College of Law, the center conducts research, edits Jurimetrics: The Journal of Law, Science and Technology in cooperation with the American Bar Association Section on Science and Technology, and sponsors seminars, workshops, and conferences. Through these activities, the center seeks to contribute to the formulation and improvement of law and public policy affecting science and technology and to the wise application of science and technology in the legal system. Current areas of research include communications and telecommunications law, computer-related law, forensic science and statistics, legal issues and biotechnology, law and medicine, and law and social science.

For more information, contact the director, Center for the Study of Law, Science, and Technology, LAW 201, 480/965-2124.

College of Liberal Arts and Sciences

Arizona Center for Medieval and Renaissance Studies (ACMRS). The Arizona Center is a research unit serving affiliate scholars from ASU, Northern Arizona University, and the University of Arizona. It represents a variety of disciplines, including history, literature, philosophy, religion, language, music, art, and science. ACMRS enriches academic offerings in medieval and renaissance studies by sponsoring one or two visiting professors each year. Graduate research assistantships are also available through the center.
Significant opportunities for the study of the Middle Ages and the Renaissance exist at ASU. Hayden Library has an extensive microfilm collection and many rare books in medieval and renaissance studies. ACMRS also sponsors a lecture series each semester covering a variety of topics.

Other programs include an annual conference, a public symposium, a summer study abroad program at the University of Cambridge (United Kingdom), and student exchange programs with the University of Copenhagen (Denmark) and the University of Kalmar (Sweden).

Since 1996, ACMRS has published Medieval and Renaissance Texts and Studies (MRTS), a major series of editions, translations, and reference works. In collaboration with the University of Massachusetts at Dartmouth and the Medieval and Renaissance Committee of the University of Michigan, ACMRS sponsors and co-edits Mediterranean Studies, an annual interdisciplinary journal publishing articles on all aspects of the Mediterranean region. ACMRS also sponsors a book series titled “Arizona Studies in the Middle Ages and the Renaissance,” published by Brepols (Belgium).

ACMRS also partners with the Renaissance Society of America and the University of Toronto in “Iter,” a massive, retrospective, online medieval and renaissance bibliography covering all languages and disciplines, and is the official site of the Medieval Academy of America’s online data project offering information on medieval centers, programs, committees, and regional associations in North America.

For more information, contact the director, Arizona Center for Medieval and Renaissance Studies, SS 224, 480/965-5900, or access the Web site at www.asu.edu/clas/acmrs.

Cancer Research Institute. Significant advances in the treatment of human cancer and other serious medical problems depend upon scientists well trained in organic chemistry, biochemistry, and biology. The Cancer Research Institute provides graduate students with the specialized training necessary for research in the discovery and development of effective anticancer drugs. Among various activities, laboratory personnel are pursuing a unique program concerned with isolation, structural identification, and synthesis of naturally occurring anticancer agents from marine animals, plants, and marine microorganisms.

For more information, contact the director, Cancer Research Institute, CRI 209, 480/965-3351.

Center for Asian Studies. Through its East Asian and Southeast Asian studies programs, the center serves as research coordinator for Asian studies’ faculty and graduate students in a variety of disciplines. The center sponsors colloquia and research conferences. It also publishes two scholarly Monograph Series and a newsletter on Southeast Asian studies, Savannahb communion, which have an international readership. Graduate students may apply for research assistantships in the center and its program.

The center administers student exchange programs with a number of universities in Asia. The center also sponsors a graduate student colloquium and film series on Asian topics. A reading room is located in the center office suite offering a variety of Asian and English language publications and newspapers from and about Asia.

For more information, contact the director, Center for Asian Studies, WHALL 105, 480/965-7184.

Center for Meteorite Studies. The nation’s largest university collection of extraterrestrial materials is available for research in the Center for Meteorite Studies. Teaching and research on meteorites, meteorite craters, and related areas of space and planetary science are accomplished through the regular academic units in cooperation with the center.

For more information, contact the director, Center for Meteorite Studies, PS C151, 480/965-6511.

Center for Solid-State Science. The Center for Solid-State Science is a research unit within the College of Liberal Arts and Sciences.

The membership comprises faculty and academic professional researchers and research support personnel, most of whom hold simultaneous appointments in affiliated academic units. The Center for Solid-State Science is the ASU focal point for interdisciplinary research on the properties and structures of condensed phases of matter at the interfaces between solid-state chemistry and physics, earth and planetary science, and materials science and engineering. It also supports interdisciplinary approaches to science and engineering educational outreach activities.

The center provides an administrative home for large, multidisciplinary, block-funded research projects. These include the NSF-supported Materials Research Science and Engineering Center (MRSEC) and the Interactive Visualization for Science and Engineering Education (I-VSEE) project. To support these activities, members of the center operate modern and sophisticated research facilities and organize regular research colloquia and symposia.

Principal topical areas of research in the center include studies of structure and reactivity of surfaces and interfaces, electronic materials, advanced ceramics and glasses, synthesis of new materials, high-pressure research, development of techniques in high-resolution electron microscopy and micro-structural and chemical analysis, development of visualization techniques at different scales of magnification for science education and community outreach.

The research facilities of the center include the Center for High-Resolution Electron Microscopy (CHREM) and the Goldwater Materials Science Laboratories (GMSL).

CHREM. The center operates several ultra high-resolution and ultra high-vacuum electron microscopes and supports microscopy methods, and instrumentation development, including holography, position- and time-resolved nano-spectroscopy and energy-filtered imaging and diffraction. The center provides high-resolution capability for a large external group from other universities and industry.

GMSL. These facilities include

1. the Materials Facility (MF), which provides a wide range of synthesis and processing capabilities for preparation of specimen materials. MF also provides thermal analysis for study of solid-state reactions and Auger and X-ray photoelectron spectroscopy for analysis of surface compositions and electronic structure of surfaces;

2. the Materials Science Electron Microscopy Laboratory (MSEML), which provides state-of-the-art electron microscopes for analysis of microstructures, including imaging and diffraction, and high spatial resolution chemical analysis using energy dispersive X-ray and electron energy loss micro-spectroscopy;
3. the Ion Beam Analysis of Materials (IBeAM) facility, which provides compositional and structural determination of the surface and near-surface regions (0–2mm) of solids by ion beam analysis where elemental composition and depth distribution information are needed. Channeling experiments are used to determine crystal perfection and site occupancy;

4. the Secondary Ion Mass Spectrometry (SIMS) laboratory, which provides depth profile and point composition analysis with very high chemical sensitivity, on the order of one part per billion, including isotopic analysis for many materials. SIMS is also used as a chemical microscope, to image elemental distributions on specimen surfaces;

5. the Scanning Probe Microscopy Laboratory (SPM), which provides facilities for nanoscale viewing of solid surfaces using scanning tunneling microscopy (STM), atomic force microscopy (AFM) and related techniques. The SPM laboratory serves as a focus for undergraduate research training programs, and educational and outreach activities;

6. the Facility for High-Pressure Research, which provides facilities for synthesis of new materials and for geochemistry/geophysics studies at up to 25 GPa (250,000 atmospheres) and temperatures greater than 2000º C. These facilities are complemented by diamond anvil cells capable of in situ studies at up to one million atmospheres. This laboratory provides a focus for core research projects within the MRSEC;

7. the Goldwater Materials Visualization Facility (GMVF), which consists of a battery of linked workstations for remote operation of instruments and data collection, capture of images in real time, and advanced computing and simulation of materials. The GMVF is used in research and in undergraduate and graduate education, as well as in educational and community outreach; and

8. other specialized laboratories under development include high-resolution X-ray diffraction for thin film characterization, optical spectroscopy, and nuclear magnetic resonance spectroscopy for solid-state studies and research on materials under extreme conditions.

These facilities provide the primary teaching and research resources used by students in the Science and Engineering of Materials interdiscipli

Center for the Study of Early Events in Photosynthesis. The ASU Center for the Study of Early Events in Photosynthesis was established in 1988 as part of a joint grant program of the Department of Energy, the National Science Foundation, and the Department of Agriculture. In 1990 it was designated a Regents Center of the University. Since September of 1995, it has been funded by the Office of the Vice President for Research and Creative Activities and the Dean of the College of Liberal Arts and Sciences. The center consists of about 90 students, postdoctoral associates, and research scientists led by 12 faculty members in the Department of Chemistry and Biochemistry and the Department of Plant Science. These research groups share a common goal: understanding the process of photosynthesis, which is responsible for producing all of our food and filling the vast majority of our energy and fiber needs. The impetus for development of the center was the premise that photosynthesis is a complex problem that will only yield to an investigation using a wide variety of approaches and techniques. Thus, the center serves as an infrastructure supporting individual ASU scientists and fostering multidisciplinary cooperative research projects.

The ultimate objective of the research is the elucidation of the basic principles governing the biochemical and biophysical processes of photosynthetic energy storage. This goal is being realized via investigation of the early events of photosynthesis, including: light absorption and excitation transfer in photosynthetic antennas; the mechanism of primary photochemistry in plant and bacterial systems; secondary electron transfer processes; structure and assembly of photosynthetic antennas, reaction centers, and electron transfer proteins; pigment-protein interactions; artificial and biomimetic photosynthetic solar energy conversion systems; and mechanisms of biological electron transfer reactions.

The center is equipped with state-of-the-art instrumentation which allows students to do frontier research in a broad range of disciplines. Equipment includes a variety of pulsed lasers for measurements with time resolution ranging from sub-picoseconds to seconds; a 500 MHz NMR instrument; an EPR spectrometer; a protein X-ray facility; spectrophotometers; fluorometers; a protein sequencer; and an amino acid analyzer.

The center sponsors a weekly Photosynthesis Seminar Series and brings in visiting scientists from around the world to carry out collaborative research. Undergraduate, graduate, and postdoctoral training programs in the Department of Chemistry and Biochemistry and the Department of Plant Biology are central components of the activities of the center.

For more information, contact the director, Center for the Study of Early Events in Photosynthesis, PS D207, 480/965-1963.

Exercise and Sport Research Institute. The Exercise and Sport Research Institute (ESRI) is an interdisciplinary research unit located in the Department of Exercise Science and Physical Education and serves, in part, as a research facility for the interdisciplinary doctoral program in exercise science. Faculty and graduate students within ESRI investigate a wide range of topics concerning physical activity, including different age cohorts, levels of health, levels of ability and fitness; and levels and types of training, and physical and emotional stresses, nutrition, and genetic backgrounds. Where applicable, these aspects are studied using an interdisciplinary approach. ESRI is affiliated with a number of clinical and research institutions in the Phoenix area. ESRI houses numerous specialized research laboratories. Biomechanics applies the laws of mechanics to the study of human movement. Current research examines kinematic
and kinetic determinants of locomotion patterns in walking, running, cycling, and swimming; neuromusculoskeletal modeling and computer simulation of locomotion in clinical and sport applications; ergonomic; and mechanisms underlying upper extremity repetitive strain injuries. Exercise physiology is the study of physiologic systems (cardiovascular, respiratory, muscular, endocrine, metabolic) under conditions of stress, particularly exercise stress. Both acute (vascular, respiratory, muscular, endocrine, metabolic) under physiology and sport applications; ergonomics; and mechanisms under-modeling and computer simulation of locomotion in clinical and kinetic determinants of locomotion patterns in walking, running, cycling, and swimming.

Motor development studies how human movement is generated and evolves throughout the lifespan. Current research focuses on learning and development of bimanual coordination. Timing and coordination of perceptual-motor skills are measured in normal developing children, persons with Down syndrome, and adults to investigate cerebral asymmetries and specificity of learning. The Sport and Exercise Psychology Lab examines the relationship between psychological constructs and physical activity, and the influence of participation in physical activity on psychological phenomena. Current research is designed to examine the influence of physical activity, fitness, and particular sport practices on psychophysiological mechanisms and cognitive functioning; the effect of psychological skills for performance enhancement; motivational aspects of physical activity across the lifespan; and the effects of exercise on mental health.

For more information, contact the director, Exercise and Sport Research Institute, PEBE 159, 480/965-3913.

Hispanic Research Center. The Hispanic Research Center (HRC) at ASU is an interdisciplinary unit, dedicated to research and creative activities, that is university-wide but administered through the College of Liberal Arts and Sciences. The HRC performs basic and applied research on a broad range of topics related to Hispanic populations, disseminates research findings to the academic community and the public, engages in creative activities and makes them available generally, and provides public service in areas of importance to Hispanics.

Faculty, staff, and advanced graduate students organize into working groups to develop a broad range of specific projects and lines of inquiry within the general categories of Hispanic entrepreneurship, science and technology, information and data compilation and dissemination, the Hispanic polity, and the arts. Ongoing activities of the HRC, primarily funded by external grants, include the Arizona Hispanic Business Survey, the Bilingual Review Press, the Coalition to Increase Minority Degrees, the Community Art and Research Outreach (CARO), Chicana and Chicano Space: Art Education Web site, Project 1000, and the Western Alliance to Expand Student Opportunities.

CARO sponsors creative activities and research in collaboration with community-based organizations and ASU faculty.

For more information, contact the director, Hispanic Research Center, CFS 104, 480/965-3990, or access the Web site at www.asu.edu/clas/hrc.

Institute of Human Origins. The Institute of Human Origins (IHO), founded in 1981 by Donald Johanson, became part of the College of Liberal Arts and Sciences in 1997. IHO is a multidisciplinary research organization dedicated to the recovery and analysis of the fossil evidence for human evolution and the establishment of a chronological framework for human evolutionary events. IHO’s scientists carry out field research at sites in Africa, the Middle East, and Asia. IHO houses the largest collection of Australopithecus afarensis casts (including “Lucy,” a 3.2 million-year-old human ancestor) in the world as well as an extensive collection of other fossil hominid casts. IHO’s library contains more than 3,000 volumes, numerous journals, videotapes, audiotapes, and slides related to human evolution and fossil sites. IHO produces periodic newsletters, offers lecture series, conducts tours and workshops, and supports numerous informal science education outreach projects.

For more information, contact the director, Institute of Human Origins, SS 103, 480/727-6580, or access the Web site at www.asu.edu/clas/ihо.

Joan and David Lincoln Center for Applied Ethics. The Joan and David Lincoln Center for Applied Ethics (LCAE) is a university-wide center for applied ethics that administratively housed in the College of Liberal Arts and Sciences. Its mission is

1. to develop and coordinate a strong focus on theoretical and applied ethics across intellectual disciplines and professional programs within the university,
2. to support teaching and creative research in ethics, and
3. to foster collaboration between the university and its varied publics to address major ethical challenges facing contemporary society.

For more information, contact the director, Joan and David Lincoln Center for Applied Ethics, SS109, 480/965-3391.

Latin American Studies Center. Arizona maintains an ever-growing interest in Latin America that draws upon an extensive experience of historical and geographical ties. The Latin American Studies Center is the focal point for these interests at ASU. Through its program, the center serves the university community and maintains strong ties with various Latin American organizations in the state and the nation. Principal activities are coordinating Latin American studies at the undergraduate and graduate levels; sponsoring student exchange programs, organizing events featuring Latin American arts and culture, numerous seminars, and research conferences; publishing a wide range of professional materials; and undertaking and facilitating research about the region.

The center administers student exchange programs with the Catholic University of Bolivia and three Mexican universities—the Autonomous University of Guadalajara, the
Autonomous University of Nuevo Leon, and the University of Sonora. Each spring several ASU students are selected to attend courses at the Latin American universities while Bolivian and Mexican students attend ASU.

The center directly encourages research, not only through its research conferences, but also through close coordination with the Latin American collection of Hayden Library and networking with Latin American universities.

For more information, contact the director, Latin American Studies Center, SS 213, 480/965-5127.

College of Public Programs

Center for Nonprofit Leadership and Management. The mission of the Center for Nonprofit Leadership and Management (CNLM) is “to improve the quality of life in communities by enhancing the performance of nonprofit organizations.” Varied strategies accomplish this mission and include coordination of educational offerings, selected technical assistance to nonprofits, support for research projects for faculty and students, and the convening of nonprofit leaders and managers through a variety of training opportunities. The center supports the activities of three complementary nonprofit management education programs: the ASU American Humanics program (undergraduate certificate), the Nonprofit Management Institute (extended education certificate), and a graduate certificate in nonprofit leadership and management currently under consideration for approval. For more information call 480/965-0607.

Center for Urban Inquiry. The Center for Urban Inquiry focuses on civic involvement. The center’s mission is to examine the unique features of the new urban West in the United States, particularly intersections of growth and development with citizen activism and community building. By harnessing the unique resources of the university, the center engages in partnerships with urban citizens, including youths, to increase awareness, promote inclusion, and address needs. Center programs include seed grants to students working in teams in pursuit of urban research and community service; service learning that involves students in community building; technical assistance to neighborhood organizations, schools, and hospitals; and the production of works that appeal broadly to urban audiences, including performances, exhibits, and videos.

Morrison Institute for Public Policy. Established in 1981 by the Morrison family of Gilbert, Arizona, as a unit within the School of Public Affairs, the Institute conducts research on public policy matters, informs policy makers and the public about issues of importance, and advises leaders on choices and actions. Morrison Institute offers a variety of services to public and private sector clients and pursues its own research agenda. Services include policy research, program evaluation, and public outreach. The institute’s interests, research, and publications span such areas as education, urban growth, human services, workforce development, economic development, and arts and culture.

For more information, call 480/965-4525, visit the Web site at www.asu.edu/copp/morrison, or write

MORRISON INSTITUTE FOR PUBLIC POLICY
ARIZONA STATE UNIVERSITY

TEMPE AZ 85287-4405

Vice Provost for Research

Center for Environmental Studies. Established in 1974, the primary mission of the center is to facilitate collaborations among faculty researchers and to aid decision making about environmental issues. Through its collaborations, both with ASU faculty and partners from government, business, and the educational community, the center advances the identification of key local and global environmental issues and collects reliable information to be used by scholars, policy makers, and the general public.

The center is also home to the Central Arizona–Phoenix Long-Term Ecological Research (CAP LTER) project, one of only two urban sites in the NSF-funded LTER network. The CAP LTER project focuses on an arid-land ecosystem profoundly influenced, even defined, by the presence and activities of humans, and involves more than 50 associated faculty from biology, ecology, engineering, geography, geology, sociology, urban planning, and anthropology.

The center also facilitates applied environmental research projects undertaken by the Southwest Center for Environmental Research and Policy (SCERP), a consortium of five U.S. and four Mexican universities. SCERP develops a research agenda for the study of air and water quality, hazardous waste problems, environmental health issues, and growth management questions in the border region.

The center manages the Sierra Ancha Research Station, located at an elevation of 5,000 feet in the desert-pine forest transition. The station offers research potential in biology, geology, anthropology, physical geography, and resource management. Research space and living accommodations are also available for academic, research, and community organizations. For more information, contact the director, Center for Environmental Studies, Tempe Center (University and Mill), 480/965-2975, or access the center’s Web site at www.asu.edu/ces.

ASU East

Center for Agribusiness Policy Studies. The Center for Agribusiness Policy Studies carries out research and development relating to agribusiness, rural development, multiple use of scarce resources, and public policy. The center addresses regional, national, and international development in the context of global and competitive markets for agricultural products and inputs. For more information, contact the director of the Center for Agribusiness Policy Studies at 480/727-1249.
Fees, Deposits, and Other Charges

The Arizona Board of Regents reserves the right to change fees and charges without notice. The current semester Schedule of Classes generally reflects up-to-date fee amounts.

The following fees apply to both credit and noncredit (audit) registrations and are subject to change.

DEFINITIONS

Resident tuition refers to the charge assessed to all resident students who register for classes at ASU. Nonresident tuition refers to the charge assessed to nonresident students, as established in Arizona Board of Regents’ Policy 4-102.

ACADEMIC YEAR TUITION

The resident and nonresident tuition for fall and spring semesters is shown in the “1999–2000 Resident and Nonresident Tuition” table, on this page. The amounts listed are per semester hour each academic term. For more information on classification for fee status, see “Residency Classification Procedures and Policies,” page 50.

Students registered for seven or more hours are considered full-time for tuition payment purposes. See “Enrollment Verification Guidelines,” page 95.

Note: The rate for one hour is charged if the student is registered for only a zero-hour class.

Graduate College Differential Fees. Certain graduate programs assess an additional differential fee. These fees differ according to college and/or program. Contact your program advisor for details on these fees.

Summer Sessions Fees. The 2000 registration fee per semester hour is $115 except for law students. The registration fee per semester hour for law students is $259. For more information, see the Summer Sessions Bulletin.

OTHER FEES, DEPOSITS, AND CHARGES

Special Class Fees and Deposits. Certain university classes require payment of fees or deposits for materials, breakage, and rentals. These fees and deposits are listed in the Schedule of Classes for each semester. See the “Special Class Fees and Deposits for ASU Main and ASU East” table, page 52.

Student Recreation Complex Fee. All students (except university employees) who take at least one class at ASU Main must pay a mandatory Student Recreation Complex fee. Full-time (seven or more hours) students are charged $25 per semester. Part-time students pay $12 per semester, and summer students pay $2 per semester hour. See the current semester Schedule of Classes for more information.

Financial Aid Trust Fee. All students must pay a financial aid trust fee. Full-time students (enrolled for seven or more hours) are charged no more than 1 percent of the current tuition. The fee for students enrolled six or fewer hours is half of that charged full-time students. The total summer sessions fee does not exceed the amount for a full-time student. Fees collected from students are matched by the State of Arizona and used to create a Financial Aid Trust Fund, from which student grants are awarded under the usual financial aid eligibility criteria used by the ASU Student Financial Assistance office.

Arizona Students’ Association (ASA) Fee. The ASA is a nonprofit lobbying organization that represents Arizona’s public university students to the Arizona Board of Regents, State Legislature, and U.S. Congress. During 1997, students at the state universities voted to change the mechanism for funding the ASA. A $1 fee is charged to each student each semester. Any refunds for this fee are provided through the ASA Central Office.

Late Registration. The fee assessed on registrations on or after the first day of each session is $35. A $35 late fee is also assessed on registration payments received after the fee payment deadline but processed before the class enrollment purge.

Admission Application. The nonrefundable fee for nonresident graduate degree applications is $45. The nonrefundable fee for nondegree or readmission applications is $15.

Transcripts. The Office of the Registrar releases official transcripts only upon the written request of the student. The request must include the following information:

1. the student’s name and former name(s);
2. the student ID number;
3. the date of birth;
4. the dates of attendance;
5. a return address;
6. specific address to mail transcript;
7. student’s signature; and
8. fees.

* Tuition is subject to change for 2000–2001. In addition to tuition, students are charged other fees (e.g., the Student Recreation Complex fee and financial aid trust fee).
The Request for Official Transcript form is available online at www.asu.edu/registrar/forms.

The Office of the Registrar does not issue a transcript if the student has a financial records hold. The student must supply a specific address if the transcript is to be mailed.

The fee for an official transcript for a student not enrolled is $5 for the first copy. Additional copies ordered at the same time are $1 each. The fee is $1 per copy for a student enrolled for a current or future semester.

Unofficial transcripts may be requested in person at the Office of the Registrar, any registrar site, or by mail or fax (480/965-2295) if a signed release is enclosed. There is no charge for an unofficial transcript.

Copies of Education Records Other Than ASU Transcripts. For fewer than six pages, there is no charge. For six to 10 pages, the total charge is $2. For 11 to 15 pages, the total charge is $3. Copies of additional pages cost $1 per each five pages copied.

Comprehensive Examination. This fee is paid by all students seeking to establish credit by examination and is $50 per semester hour.

Private Music Instruction. The fee for one-half hour of instruction weekly is $40. The fee for one hour of instruction weekly is $60. The fee for more than one hour of instruction weekly—for music majors only—is $60.

Musical Instrument Rental Charge. The charge for use of university-owned musical instruments is $25. Consult the School of Music for specific information.

Binding and Microfilm Fees. The binding fee for a thesis or dissertation is $17 per copy. This fee is subject to change. Additional charges may be required depending on the size and nature of the document. The dissertation microfilming fee is $50, and is subject to change.

Sun Card/ID Card. The replacement fee is $10.

Parking Decals. A parking decal must be purchased, in person or by using the Park Smart touch-tone telephone system 480/921-PARK (7275), for motor vehicles parked on campus except in areas where metered parking or visitor lots are available. Photo identification is required. Annual decals range from $50 to $129 for controlled access parking. Decals are sold on a first come, first served basis. For more decal sales information, call 480/965-6124 or visit the Web site at www.asu.edu/dps/pts.

Each vehicle registered at ASU Parking and Transit Services must comply with Arizona emission standards (A.R.S. § 15–1627G) during the entire registration period. The fee for this emission inspection is $25 to $35 per vehicle.

Everyone is encouraged to support travel reduction measures by using mass transit, the university shuttle bus, carpooling, bicycling, or walking whenever possible.

Parking Violations. Due to a high demand for parking, regulations are strictly enforced. Fines range from $10 to $100. Appeals to parking citations may be filed within 14 calendar days to Parking and Transit Services and, after payment, may be further appealed to the Parking Citation Appeals Board. Unpaid parking citations are delinquent financial obligations subject to the provisions of the “Delinquent Financial Obligations” section, page 50. The vehicle of any person owing three or more unpaid parking citations or $100 in unpaid parking citations is subject to impoundment. An $85 minimum fee is assessed if impoundment is required. For more information, call 480/965-4527.

Returned Checks. Checks returned by a bank are assessed a $15 service charge with repayment needed within five business days of notification. A second $12 service charge is made if the returned check is not repaid within this five-day period. Repayment of a returned check must typically be in cash.

The university may have arrangements with its bank to redeposit automatically for a second time checks for which there are insufficient funds. No service charge is assessed by ASU until a check is returned to ASU; however, the payer may be assessed a service charge by the payer’s financial institution.

Students paying registration fees and tuition with a check that is subsequently not honored by a financial institution are subject to involuntary withdrawal from the university if repayment is not made. All students involuntarily withdrawn are charged tuition and/or registration fees according to the standard refund schedule as of the involuntary withdrawal date, as determined by the university.

On-Campus Housing. The cost of ASU Main housing varies. In 1999–2000 the typical cost was $2,780 per academic year. Meal plans are purchased separately.

TRANSPORTATION

To reduce air pollution and traffic congestion, students are encouraged to travel to and from campus by means other than automobile. Nearby on-campus parking is limited and tightly controlled.

Alternative transportation modes are used by thousands of ASU students. ASU is served by a Phoenix-area regional transit service; monthly and reduced-fare semester passes are available on campus. In addition, an inexpensive express shuttle runs between ASU Main in Tempe and ASU West in northwest Phoenix; another shuttle runs among ASU Main, Mesa Community College, and ASU East in Mesa; and a Free Local Area Shuttle (FLASH) is available around the periphery of ASU Main.

Bicycle ridership at ASU is estimated to be more than 15,000 students daily. Ample racks in many locations enable the parking and securing of bicycles. Bicycle use is restricted only in those areas of campus where pedestrian traffic is sufficiently heavy to make such use a hazard. The Bike Co-op Repair Service provides assistance with bicycle maintenance.

Also, careful class scheduling, when possible, can reduce a student’s transportation needs. For more information on commute alternatives, call 480/965-1072.

PAYMENT METHODS AND DEADLINES

InTouch. The InTouch system, at 480/350-1500, allows students to register for classes, to drop/add, and to make fee payment from any touch-tone phone. Students paying fees with available financial aid, debit cards, Visa, or MasterCard must use the InTouch system. Refer to the Schedule of Classes for available dates and times and more information about the InTouch system.
Debit/Credit Cards. ASU accepts debit cards, Visa, and MasterCard. Debit/credit card payments through InTouch are processed online with the bank. See the Schedule of Classes for information about using debit/credit cards by mail or campus payment boxes.

Checks. Checks payable for the exact amount of charges and without a restrictive endorsement are generally acceptable, except for students on check use suspension due to a previously returned check.

Financial Aid. Students receiving financial aid may use their expected aid, except Federal Work-Study, to pay university charges, including tuition and fees. Students who wish to do so must follow specified procedures. See the current semester Schedule of Classes for more information.

Veterans Deferred Payment. The Veterans Readjustment Assistance Act allows veterans to apply for deferred payment of registration fees, books, materials and supplies required for courses. To assist eligible students, a Veteran Promissory Note may be issued deferring payment during their first semester of benefits. Contact the Veterans Services Section at SSV 148 or call 480/965-7723 for information on meeting the necessary requirements. The university may deny this privilege with previous delinquent obligations.

Payment Deadlines. Fees must be paid by the deadline dates and times indicated or the registration is voided. A fee payment deadline is printed on all Schedule/Billing Statements and in the Schedule of Classes.

REFUNDS

Academic Year Resident and Nonresident Tuition. Students withdrawing from school or individual classes receive a refund as described in the “Fall and Spring Withdrawal Refunds” table:

<table>
<thead>
<tr>
<th>Fall and Spring Withdrawal Refunds</th>
</tr>
</thead>
<tbody>
<tr>
<td>Withdrawal Date</td>
</tr>
<tr>
<td>Before first day of the semester</td>
</tr>
<tr>
<td>One through 7 calendar days</td>
</tr>
<tr>
<td>8 through 14 calendar days</td>
</tr>
<tr>
<td>15 through 21 calendar days</td>
</tr>
<tr>
<td>22 through 28 calendar days</td>
</tr>
<tr>
<td>After the 28th calendar day</td>
</tr>
</tbody>
</table>

* A $35 processing fee is subtracted per session.

The university provides a prorated refund for first-time students receiving financial aid; therefore, the refund schedule is the minimum amount refundable to these students.

Withdrawal occurs on the calendar day that withdrawal is requested, either in person at a registrar site or by phone using InTouch, the ASU touch-tone telephone system for registration and fee payment. Students withdrawing for medical or other extenuating circumstances must contact their college for refunds that may be available under these circumstances.

Summer Sessions Fees. Students withdrawing from any summer session or individual classes receive a refund as described in the “Summer Sessions Withdrawal Refunds” table. Refunds are based on the session days and not the class meeting dates for any particular class.

<table>
<thead>
<tr>
<th>Summer Sessions Withdrawal Refunds</th>
</tr>
</thead>
<tbody>
<tr>
<td>Withdrawal Date</td>
</tr>
<tr>
<td>Before first day of session</td>
</tr>
<tr>
<td>First and second days of session</td>
</tr>
<tr>
<td>Third day of session</td>
</tr>
<tr>
<td>Fourth day of session</td>
</tr>
<tr>
<td>Fifth day of session</td>
</tr>
<tr>
<td>After fifth day of session</td>
</tr>
</tbody>
</table>

* A $35 processing fee is subtracted per session.

Special Class Fees and Deposits. After the first week of classes, refunds, if any, are determined only by the department or school offering the course. Refund determination is based on withdrawal date, type of activity, and costs already assessed by the department or school.

Private Music Instruction. If a student must drop a music course because of illness or other emergency beyond the student’s control, not more than half of the instruction charge may be refunded, as determined by the School of Music.

Late Registration. This fee is not refundable.

Student Recreation Complex Fee. This fee is refundable only upon complete withdrawal in percentage increments per the refund schedule.

Financial Aid Trust Fee. This fee is not refundable.

Official Transcripts. Overpayments by mail of $5 or less are only refunded by specific request.

Graduation Fee. Overpayments by mail of $5 or less are refunded only by specific request.

Residence Halls. Refunds to students departing from ASU Main residence halls before the end of the academic year are computed on the following basis.

Charges and Deposits. Housing payments and deposits are refunded as prescribed by the Residential Life License Agreement that students sign when they apply for residence hall accommodations. Students should refer to this document and the Schedule of Charges and Deadlines for specific information on refunds.

Other University Charges. Other university charges are normally not refundable, except for individual circumstances.

Payment of Refunds. Refunds require student identification and are made payable only to the student for the net amounts due the university. When the last day of a refund period falls on a weekend or holiday, a withdrawal form must be submitted to one of the registrar sites during operating hours on the workday preceding the weekend or holiday. Refunds are normally paid by check, payable to the student, and are mailed to the student’s local address.

Parking Decal Refunds. Prorated refunds are available through the last business day in April.
Forfeiture of Refunds. Refunds are subject to forfeiture unless obtained within 90 days of the last class day of the semester for which the fees were originally paid.

DELINQUENT FINANCIAL OBLIGATIONS

Arizona Board of Regents’ Policy 4-103B, which applies to ASU, states the following:

1. Each university shall establish procedures to collect outstanding obligations owed by students and former students.
2. Each university shall maintain a system to record all delinquent financial obligations owed to that university by students and former students.
3. Students with delinquent obligations shall not be allowed to register for classes, purchase parking decals, receive cash refunds, or obtain transcripts, diplomas, or certificates of program completion. The university may allow students to register for classes, obtain transcripts, diplomas, or certificates of program completion if the delinquent obligation is $25 or less.
4. Unpaid obligations shall remain a matter of record until students and former students satisfy their financial obligations or until satisfactory arrangements for repayment are made with the university.
5. The university may write off delinquent financial obligations of students according to accepted accounting principles and after appropriate collection efforts. No such write-off shall operate to relieve the student of liability for the obligation nor shall such write-off entitle the student to release of any transcripts, diplomas, certificates of program completion, or to register for further university classes until such obligation is actually paid.
6. Each university shall include this policy in its bulletin or catalog.

A late charge of $12 is assessed for any balances due the university not paid within 30 days of the initial due date, with a second $12 late charge assessed if these amounts are not paid within 30 days of the first late charge, and a third $12 late charge is assessed if these charges are not paid within 60 days of the first late charge. Procedures to be followed for disputed charges are available from the Accounts Receivable Section of the Business Services Office, located in ADM A109.

RESIDENCY CLASSIFICATION PROCEDURES AND POLICIES

The Arizona Board of Regents is required by law to establish uniform guidelines and criteria for classifying students’ residency to determine those students who must pay nonresident tuition. The following is a summary of the general guidelines used to determine residency for tuition purposes. All of the evidence is weighed under the presumption that a nonresident student’s presence in Arizona is primarily for the purpose of education and not to establish domicile and that decisions of an individual about the intent to establish domicile are generally made after the completion of an education and not before.

To obtain resident status for tuition purposes, independent students must establish their residence in Arizona at least one year immediately before the last day of regular registration for the semester in which they propose to attend ASU. Arizona residence is generally established when individuals are physically present in the state with the intention of making Arizona their permanent home.

Mere physical presence in Arizona for one year does not automatically establish residency for tuition purposes. Adult students and emancipated minors must combine physical presence in Arizona for one year with objective evidence of their intent to make Arizona their permanent home. If these steps are delayed, the one-year period is extended until both presence and intent have been demonstrated for one full year. In addition to physical presence and intent, the student must demonstrate financial independence for the two tax years immediately preceding the request for resident classification. The student must demonstrate objective evidence of self-support and that he or she was not claimed as an income tax deduction by his or her parents or any other individual for two years. An adult student is defined as being at least 18 years of age at the beginning of the domicile year. For a complete definition of an emancipated minor, refer to the Arizona Board of Regents’ residency classification policies, available in the Residency Classification Section, SSV 146.

No person is considered to have gained or lost resident status merely by attending an out-of-state educational institution.

Aliens. Students who are aliens are subject to the same requirements for resident status as are U.S. citizens. In establishing domicile, aliens must not hold a visa that prohibits establishing domicile in Arizona.

Refugees. Refugees may qualify as resident students by virtue of having been granted refugee status in accordance with all applicable laws of the United States and having met all other requirements for residence in Arizona.

Exceptions to the General Residency Rule

Students may be eligible for resident status for tuition purposes if they can meet one of the following criteria on or before the last day of regular registration.

Legal Dependents. If a student and his or her parents are domiciled in Arizona and have not met the one-year residency requirement but the parents are entitled to claim the student as a dependent for federal and state tax purposes, the student may be eligible for resident status for tuition purposes.

Transferred Employees. If students are domiciled in Arizona but are members of the U.S. Armed Forces stationed in Arizona or are the spouses or dependent children of a member (as defined in A.R.S. § 43-1001), the students may be eligible for resident status for tuition purposes. If military service is concluded while they are enrolled, students do not lose resident status while they are continuously enrolled in a degree program. If individuals are domiciled in Arizona immediately before becoming members of the U.S.
Armed Forces, they do not lose resident status because of their absence while on active duty with the military as long as they maintain Arizona affiliations and file Arizona state tax.

A student who is a member of an Arizona National Guard or Arizona Reserve unit may be eligible for resident status for tuition purposes. A student may also be eligible if he or she has been honorably discharged from the armed forces of the United States, has declared Arizona as his or her legal residence one year before discharge, and has taken the other appropriate actions, including filing an Arizona income tax return. A student who is the spouse or dependent of a member of the armed forces who has claimed Arizona as his or her legal residence and filed Arizona income tax for one year before enrollment may be eligible for resident status for tuition purposes.

Native Americans. Students who are members of a Native American tribe whose reservation lies both in Arizona and an adjacent state and who are residents of that reservation may be eligible for resident status for tuition purposes.

Procedures for Establishing Residency Status

All students are responsible for obtaining residency classification for tuition purposes before registering and paying their fees. This procedure requires students to complete and file a domicile affidavit form. This form is required of all new and returning students as part of the admission or readmission process. Students classified as nonresidents who believe they may qualify for resident status must file a petition with the Residency Classification Section. This petition must be filed by the last day of regular registration. A student seeking resident status must also file supporting documentation necessary to provide a basis for resident classification (source[s] of support, driver’s license, voter’s registration, vehicle registration, etc.). Students whose residency petitions are in process at the fee payment deadline are responsible for paying nonresident tuition and fees. However, an appropriate refund is issued if residency is later granted for that semester.

Any student found to have made a false or misleading statement concerning residency or tuition status is subject to dismissal from the university.

Failure to file a timely written petition for reclassification of residency status for tuition purposes constitutes a waiver of the student’s right to apply for the given semester. Petition deadlines are published each semester in the Schedule of Classes. Extensions to the deadlines are not permitted.

Residency classification is an extremely complex issue. The information presented here is a summary and does not address each individual’s situation; therefore, students are encouraged to make a personal visit to the Residency Classification Section to discuss their individual circumstances as soon as possible. Guidelines for determination of residency for tuition purposes are subject to review and change without notice. For more information, call the Residency Classification Section at 480/965-7712 or refer to www.asu.edu/registrar/residency on the Web.

1. For information on refunds, see “Refunds,” page 49. For ASU West classes, see the ASU West Catalog.

2. Fees are variable and paid directly to contractor for rental of aircraft.
Financial assistance for graduate study consists of scholarships, fellowships, assistantships, student loans, and work-study. Assistance can come from the university, private sources, and/or the federal government. The Graduate College Financial Assistance Office provides information and assistance to graduate and professional students. Students can also access the Web site for more information at www.asu.edu/graduate/gradaid or send e-mail to gradaid@asu.edu. For more information, see “Assistantships and Associateships,” page 99.

UNIVERSITY SCHOLARSHIP AND FELLOWSHIP PROGRAMS

ASU offers several university-sponsored awards and scholarships for which both the Graduate College and the academic units conduct nominations and selections. To be considered for any of these award programs, students must apply directly to their academic department.

Regents Graduate Academic Scholarships. These scholarships are available on a competitive basis to graduate students with outstanding academic records. This scholarship covers the resident tuition only (not nonresident tuition) and is granted for the academic year or one semester only (not including summer sessions). Students must reapply to the academic unit every year.

Applicants must be regularly admitted to a graduate degree program; continuing students must also be in good standing (3.00 postbaccalaureate GPA at ASU). A graduate student may be nominated for this scholarship by the head of the student’s academic unit. Application forms and further information are available on the Web at www.asu.edu/graduate. Forms are also available from the Graduate College. Applications should be completed and returned to the academic unit. The Graduate College does not accept direct applications. Applicants must meet deadlines established by the academic units and the Graduate College.

Regents Graduate Tuition Scholarships. These scholarships are available on a competitive basis to nonresident graduate students with outstanding academic records. This scholarship is granted for the academic year or one semester only (not including summer sessions). Graduate students awarded with this scholarship pay the resident tuition. Applicants must be regularly admitted to a graduate degree program; continuing students must also be in good standing (3.00 postbaccalaureate GPA at ASU). Application forms and further information are available on the Web at www.asu.edu/graduate. Forms are also available from the Graduate College. Applications should be completed and returned to the academic unit. The Graduate College does not accept direct applications. Applicants must meet deadlines established by their academic unit and the Graduate College.

University Graduate Scholars Program. This program offers competitive three-year merit packages that include scholarships ranging from $1,000 to $5,000, an annual stipend, plus waiver of resident and nonresident tuition. This fellowship program is for outstanding new graduate students with high credentials such as GRE scores, GPA, publications, and prestigious awards. Applicants should contact the academic unit for information.

Herman E. DeMund Memorial Scholarship. This scholarship is an annual award of $2,000 for a deserving graduate student at ASU. Students who are regularly admitted to a graduate degree program are eligible to be nominated for this award. Nominations are made by the heads of the individual academic units to the Graduate College, and the recipient is chosen from these nominees. The selection for this award is made on the basis of scholastic ability.

Phelps Dodge Scholarships. Two graduate scholarships of $5,000 are awarded to regularly admitted graduate students who are residents of Arizona and graduates of ASU. Awards for any academic year are limited to (1) a student chosen from the engineering student body for advanced study in mining, geology, metallurgy, or other fields allied with or pertaining to the mineral industry, or, if no suitable candidate is available for postgraduate study in these fields, for advanced study in any engineering field, and (2) a student chosen from the student body for advanced study in any field that the student may select and for which he or she may be qualified. Nominations are made by the head of the individual academic unit to the Graduate College and the recipients are chosen from those nominees. The selection for these awards is made on the basis of academic achievement.

James J. Sweitzer Memorial Scholarship. This scholarship provides a stipend of $1,200 to $1,500 to a graduate student in Agribusiness. Regularly admitted graduate students planning a career in agribusiness are eligible to apply as first- or second-year students. The selection committee considers financial needs but gives preference to high scholarship and potential in the field.

Reiganji Graduate Scholarship Fund. This scholarship fund offers $1,400 annual scholarships plus waiver of resident and nonresident tuition to students majoring in East Asian history and philosophy.

Travel and Research Grants. The Graduate College collaborates with the Graduate Student Research Office to fund small grants to support graduate student research. These grants usually are made to defray expenses incurred by students completing their theses or dissertations. The Graduate College funds travel grants for masters and doctoral students who wish to present their research results at regional and national conferences. Meeting scholars in their fields and participating with faculty in professional organizations presents opportunities for students to get involved in activities that will become central to their professional lives.

PRIVATE FELLOWSHIPS AND AWARDS

ASU attracts a large number of graduate students who are honored with external sources of assistance such as national research fellowships and prestigious, private scholarships. In addition, the Graduate College assists in nominating graduate students for national competitions and provides
support services to the recipients. These awards are targeted by academic discipline and/or student category.

**Achievement Rewards for College Scientists.** Scholarships are given to gifted and needy scholars in the natural sciences, medicine, and engineering to complete their career preparation. The annual award is $6,000 in addition to resident and nonresident tuition waivers. Students must be nominated through their major department.

**Philanthropic Educational Organization National Scholarship Award.** This award is offered to outstanding women doctoral students. The successful applicant receives a cash stipend of $7,000, matched by tuition remission. The award is renewable for a second year. Students must be nominated through their major department.

**Ford Foundation Predoctoral Fellowship.** This fellowship provides an annual stipend of $15,000 for three years with tuition scholarships from ASU. The program supports fellows in research-based doctoral programs.

**Jacob K. Javits Fellowship Program.** This fellowship program offers an annual stipend of $14,400 based on a fellow’s need with tuition scholarships from ASU. This program is designed to assist students of superior ability to pursue studies leading to a doctoral or master’s degree in fine arts.

**National Science Foundation Graduate Fellowships and Minority Graduate Fellowships.** These fellowships provide a stipend of $15,000 for 12-month tenures. ASU provides additional tuition scholarships to fellows beginning their graduate study in science, mathematics, and engineering.

**National Consortium for Graduate Degrees for Minorities in Engineering and Science, Inc. (GEM).** This fellowship program offers opportunities for underrepresented ethnic minority students to obtain master’s degrees in engineering, through a program of paid summer internships and graduate financial assistance. Fellowships consist of a stipend of $6,000 per academic year; when combined with the summer internship, the total value is between $20,000 and $40,000. ASU provides additional support to GEM fellows with tuition scholarships for both resident and nonresident tuition.

**Other Forms of Scholarship Support.** Students are encouraged to contact the academic unit in which they intend to study and the Graduate College Financial Assistance Office to determine if other sources of support are available.

The Graduate College publishes *Grad News*, a newsletter listing current grant and scholarship information. Reference books on national and regional scholarships for which students may be eligible are on reserve at Hayden Library. Announcements are available for review in the center lobby, Wilson Hall, and the Web at www.asu.edu/graduate/gradnews.htm.

**NEED-BASED FINANCIAL AID**

To be considered for need-based support, applicants must complete the Free Application for Federal Student Aid (FAFSA) or the Renewal FAFSA each year. U.S. citizens and permanent residents are eligible.

The FAFSA is available in a variety of formats.

1. The paper FAFSA is available after January 1 at any U.S. college or university, and the Graduate College Financial Assistance Office. The paper Renewal FAFSA is automatically mailed to the student from the federal processor if the student has applied for aid in the previous year. Both processes take about four to six weeks.

2. The electronic FAFSA is available through FAFSA Express and FAFSA on the Web. Both versions require that the student has access to a computer, modem and printer. A copy of the FAFSA Express software is available by calling 1-800-801-0576. *FAFSA on the Web* (www.fafsa.ed.gov) allows the student to complete the application on the Web site. Both processes take approximately two weeks.

**Federal Perkins Loan.** This low-interest, long-term, federal, campus-based loan is administered by ASU. Awards for 1999–2000 ranged from $1,000 to $4,000. Graduate students who apply by the February 15 priority filing date and demonstrate need are considered.

**William D. Ford Federal Direct Student Loans (Subsidized and Unsubsidized).** These long-term loans are available through the federal government. Students may borrow up to $8,500 per academic year in a subsidized Federal Direct Loan. An additional unsubsidized Federal Direct Loan of up to $10,000 per academic year may also be borrowed. Students applying for financial aid are automatically considered for this program.

**HIGHER EDUCATION TAX INCENTIVES**

The Taxpayer Relief Act of 1997 provides assistance (Lifetime Learning Tax Credit) to graduate and professional students in meeting college expenses. For more information, visit the U.S. Department of Education Web site at www.ed.gov.

**TAXABILITY OF FINANCIAL AID PROGRAMS**

Scholarships, grants, fellowships, and stipends (but not loan funds) are taxable income to the recipient, except for the portion of these funds used for tuition and other university fees, or books, supplies, and equipment required for the courses being taken. Special tax regulations also apply to nonresident alien students and may require withholding of taxes at the time of aid disbursements to these individuals. Information on the taxability of scholarships can be obtained from the following Internal Revenue Service (IRS) publications and forms: *Publication 4—Student’s Guide to Federal Income Tax; Publication 519—U.S. Tax Guide for Aliens; Publication 520—Scholarships and Fellowships; Form 1040EZ and Instructions—Income Tax Return for Single and Joint Filers with no dependents; and Form 1040NR and Instructions—U.S. Nonresident Alien Income Tax Return.*
These publications and forms can be obtained from the IRS at its toll-free number 1-800-829-FORM (3676). These publications and forms can also be accessed online at www.irs.ustreas.gov/prod/forms_pubs.

FINANCIAL AID FOR INTERNATIONAL STUDENTS

International students are not eligible for Federal Financial Aid but can contact their academic department about Graduate Academic Scholarships and Graduate Tuition Scholarships. Each department or college has different deadline/eligibility requirements for these scholarships. Students may also contact their academic department about teaching or research assistantships. Academic departments provide the appropriate forms to apply for these positions.

CAMPUS SERVICES AND ONLINE SERVICES

Students can access personal information regarding financial aid by using FASTT Web at www.asu.edu/fastt or FASTT Phone at 480/968-4400. Students can check on
1. documents still needed to complete the financial aid file;
2. award information; and
3. financial aid forms in versions that can be printed and mailed or completed and sent across the Web.

For more information about financial assistance, visit the Graduate College Financial Assistance Office, located in the center lobby, Wilson Hall, or phone 480/965-3521.
Classification of Courses

COURSE INFORMATION

Information about all lower- and upper-division courses offered at ASU Main and ASU East appears in the General Catalog, available on the Web at www.asu.edu/aad/catalogs. Classes scheduled for the current or upcoming fall or spring semester are listed in the Schedule of Classes. Classes scheduled for the summer sessions are listed in the Summer Sessions Bulletin. The Schedule of Classes and Summer Sessions Bulletin are also available online at www.asu.edu/registrar/schedule. Information about all courses that apply toward graduate programs appears in the Graduate Catalog. Information about lower- and upper-division courses offered at ASU West appears in the ASU West Catalog.

See the “Course Prefix Index,” page 10, for the location of all ASU courses by prefix.

COURSE NUMBERING SYSTEM

100–299 (Lower-Division) Courses. Lower-division courses are designed primarily for freshmen and sophomores. Certain classes are closed to freshmen who lack the designated prerequisites or whose majors are outside the unit offering the course. This information is available in the General Catalog, in the Schedule of Classes, or from the student’s academic advisor.

300–499 (Upper-Division) Courses. Upper-division courses are designed primarily for juniors, seniors, and other advanced students. Prerequisites and other restrictions should be noted before registration. Courses at the 400 level apply to graduate degree requirements for individual programs of graduate study when approved by the Graduate College. See “Reserving of Course Credit by Undergraduates,” page 97.

500–799 (Graduate-Level) Courses. Graduate-level courses are designed for graduate students. However, an upper-division undergraduate student may enroll in these courses with the approval of the student’s advisor, the course instructor, the department chair, and the dean of the college in which the course is offered. If the course does not meet an undergraduate graduation requirement, it may be eligible for use in a future graduate program on the same basis as work taken by a nondegree graduate student. See “Reserving of Course Credit by Undergraduates,” page 97.

Continuing Registration. Courses numbered 595, 695, and 795, Continuing Registration, carry one semester hour of credit; however, the student receives neither credit nor grade for the course.

Omnibus Courses. The omnibus numbers are used for courses offered on an experimental or tutorial basis or for courses in which the content is new or periodically changes. Academic units use their own prefixes before omnibus course numbers. The general nature of the work required for a particular omnibus course is consistent from unit to unit, but subject matter varies. Omnibus courses are often offered for a variable number of semester hours. See the appropriate academic unit in the General Catalog or major in the Graduate Catalog for the omnibus course listing under a subject area.

OMNIBUS GRADUATE COURSE DESCRIPTIONS

500, 600, 700 Research Methods. (1–12)
Course on research methods in a specific discipline.

580, 680, 780 Practicum. (1–12)
Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.

583, 683, 783 Field Work. (1–12)
Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.

584, 684, 784 Internship. (1–12)
Structured practical experience following a contract or plan, supervised by faculty and practitioners.

590, 690, 790 Reading and Conference. (1–12)
Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing synthesis of literature on a specified topic, writing literature review of a topic.

591, 691, 791 Seminar. (1–12)
A small class emphasizing discussion, presentations by students, and written research papers.

592, 692 Research. (1–12)
Independent study in which a student, under supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.

593, 693, 793 Applied Project. (1–12)
Preparation of a supervised applied project that is a graduation requirement in some professional majors.

594 Conference and Workshop. (1–12)
Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.

595, 695, 795 Continuing Registration. (1)
Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending thesis or dissertation, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.

598 Special Topics. (1–4)
Topical courses not offered in regular course rotation—e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.

599 Thesis. (1–12)
Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.

792 Research. (1–15)
Independent study in which a student, under supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.

799 Dissertation. (1–15)
Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.

The preceding courses are described in announcements of the Graduate College and are also available in the respective departments. Under special circumstances, arrangements may be made at the dean’s request, through the approval of the senior vice president and provost, to increase the standard semester hours of credit.
LAW 597, 697, and 797. The numbers 597, 697, and 797 have been reserved for the Visiting Student Program in the College of Law.

Prerequisites and Corequisites. Some requirements, known as prerequisites, must be met before registering for a course. Other requirements, called corequisites, must be met while taking a course. A student registering for a course should be able to show that prerequisites have been met and that corequisites will be met as stated in the catalog or Schedule of Classes or must otherwise satisfy the instructor that equivalent preparation has been completed.

International Program Courses. Courses with the prefix IPO numbered 495 and 595 are reserved for International Programs study abroad and exchange programs. For most programs, participating students register for 18 semester hours. Following completion of an international program, undergraduate students receive credit for the study completed, with a minimum of 12 semester hours and a maximum of 18 semester hours. IPO courses numbered 495 and 595 are converted to ASU credit for recording courses taken abroad.

IPO courses numbered 494 and 598 may be taken for one semester hour. Students register for these courses under the title “Study Abroad.” At the conclusion of the program and the transfer of overseas courses to the students’ ASU records, a grade of “Y” is entered for the course.

For some special international programs, students register and receive credit for fewer semester hours.

* Campus codes are not used in the catalogs but appear in the Schedule of Classes and the Summer Sessions Bulletin.
Through the faculty, Arizona State University’s Graduate College offers programs to meet the educational needs of those who already hold baccalaureate and master’s degrees. While many students prepare for careers in research, the professions, and the arts, others study for personal enrichment. Both part-time and full-time students are enrolled in 91 master’s and 48 doctoral majors encompassing hundreds of concentrations and specialties. Other students explore new areas of interest or prepare for career advancements apart from formal degree programs. The Graduate College partners with academic programs to assist in attracting and retaining talented graduate students with diverse career goals.

The size, strength, and diversity of the graduate community reflect the university’s commitment to high quality education. As a major center for graduate education, ASU supports cultural and intellectual activity as well as research in a broad range of arts and sciences and professional disciplines; in addition, the university conducts research addressing the social, cultural, and economic growth and development of Arizona and the Southwest.

One distinctive project that magnifies our dedication to graduate students is our Preparing Future Faculty program, funded by the Pew Charitable Trusts and ASU. The program is designed to educate students about faculty roles and prepare doctoral students specifically for faculty positions in our nation’s colleges and universities.

This past year, about 2,000 ASU graduate students were awarded prestigious fellowships and scholarships, exceeding $3.5 million. These awards were funded by the National Science Foundation, NASA, the Ford Foundation, Fulbright, and other public agencies and private foundations.

ASU assisted more than 2,800 outstanding graduate students through academic and tuition scholarship and other financial support programs—the total financial support amounted to $15.5 million, exemplifying the university’s commitment to enabling student success.

Our funded programs, together with our more than 30 research centers and institutes, provide assistantships and training for many of our graduate students; further, the centers coordinate conferences, colloquia, and special seminars to heighten the learning experience. The Office of the Vice Provost for Research provides seed money to enable our faculty and students to work at the frontiers of knowledge. Such activities continually encourage the creative embrace of change and experimentation.

ASU provides numerous choices in student life, for personal enrichment as well as cultural interaction. Many internationally known speakers present lectures here, bringing together faculty, graduate students, and the community to engage in stimulating dialogue.

**Intellectual Environment.** More than 10,000 students from all 50 states and more than 100 nations are enrolled in graduate study at the university. The size and diversity contribute to a cosmopolitan setting that is ideal for intellectual discourse and stimulation. As a balance to this large grouping of students, individual graduate programs conduct small colloquia and seminars where students and faculty discuss their work in an intimate, intellectual environment supportive of student development. The result is a spirited, lively atmosphere in which students and faculty members get to know each other through collaborative research and intellectual exchange.

**GRADUATE PROGRAMS**

**Degree Programs**

Although graduate degree programs differ in many ways, they all share two important characteristics. First, in comparison to baccalaureate programs, they demand a deeper and broader understanding of a body of knowledge in a recognized discipline or profession. Second, in master’s and especially in doctoral programs, graduate students prepare to make original contributions to their fields through research and other creative activities of a high order. In contrast, then, to the broad-based baccalaureate degree, graduate degrees are specialized. ASU offers several types and levels of graduate degrees.

For admission information and procedures, access the Web site at www.asu.edu/graduate/admission or refer to the Application for Graduate Admission booklet.

**Master’s and Doctoral Work.** Many students pursue a master’s degree to satisfy their own quest for learning. In some disciplines, such as dance or architecture, the master’s degree is normally the terminal or final degree. In other fields, students enter master’s programs as the first step toward more advanced work, such as doctoral studies, which prepare students for a lifetime of intellectual inquiry and creativity or for the application of knowledge to professional practice.

**Research Degrees.** Students at ASU may pursue research-oriented or practice-oriented degrees. Research-oriented degree programs—the Master of Arts (M.A.), Master of Science (M.S.), and Doctor of Philosophy (Ph.D.)—prepare students for careers of research and scholarship in governmental, business, and industrial organizations, or in university or college teaching. Students in these programs develop abilities to evaluate existing knowledge critically and extend it into fresh areas of inquiry and scholarship.

**Professional Degrees.** The professional or practice-oriented degree programs have slightly different names and distinct academic missions. The names of the degrees are commonly tied to the academic unit offering the program, for example, Master of Business Administration (M.B.A.), Master of Music (M.M.), Master of Social Work (M.S.W.), and Doctor of Public Administration (D.P.A.). With the objective of preparing students for professional practice,

such programs require rigorous preparation in the fundamental literature and scholarship of the field. Some degrees require demonstrated expertise through an internship, an exhibition (art), a performance (dance), or a recital (music). Examples of ASU fields in which academic units offer professional programs include architecture and design, business, education, engineering, health services administration, law, nursing, public administration, and social work.

**Nondegree Graduate Study**

Many serious students enter graduate studies not intending to obtain a new degree but rather to enhance personal knowledge. They may want to advance in their present career, acquire the background to make a career change, or make up academic deficiencies before entering a degree program. All graduate students, degree or nondegree, enjoy the benefits of cultural and intellectual activities at the university, such as colloquia, seminars, and conferences focusing on the latest scholarship in the field. By consulting with appropriate academic units, students can learn which courses are suitable to their needs.

For admission information and procedures, access the Web site at www.asu.edu/graduate/admission or refer to the *Application for Graduate Admission* booklet.

**Student Services for Nondegree Students.** The Graduate College maintains an advising office open year-round. See “Graduate Student Support Services,” page 61, for more information.

**Graduate Studies and University Environment**

The Graduate College spans the university in supervising graduate studies and offering all postbaccalaureate degrees except the Juris Doctor, which is administered by the College of Law. Since more than 1,600 ASU faculty members teach graduate students in more than 115 instructional units, the Graduate College works closely with the other colleges and academic units. In most cases, graduate instruction is offered by units that also provide related undergraduate programs.

**Interdisciplinary Study.** Although most graduate programs are offered by academic units, diverse interdisciplinary programs cross academic disciplines and come under the supervision of the Graduate College. Many majors are in fields that are still emerging as recognized academic disciplines and, therefore, do not customarily form the academic basis for departments. Other fields of study are inherently interdisciplinary and do not fit well with conventional disciplines around which departments are formed. Curricula must reflect intrinsically broad disciplinary affinities, and faculty must be drawn from more than one academic unit.

Currently, the Graduate College oversees nine interdisciplinary programs and has joint responsibility with the College of Education for another; several others are planned. Existing programs include the Gerontology Program (Certificate in Gerontology jointly offered by ASU Main and ASU West), Creative Writing (M.F.A.), Curriculum and Instruction (Ph.D.) (jointly administered with the College of Education), Exercise Science (Ph.D.), Justice Studies (Ph.D.), Science and Engineering of Materials (Ph.D.), Speech and Hearing Science (Ph.D.), Statistics (M.S.), and Transportation Systems (Certificate in Transportation Systems).

Other interdisciplinary degree programs include Communication (Ph.D.) (administered by the College of Public Programs), History and Theory of Art (Ph.D.) (jointly offered with the University of Arizona (administered by the School of Art), Humanities (M.A.) (administered by the College of Liberal Arts and Sciences), and Molecular and Cellular Biology (M.S., Ph.D.) (administered by the College of Liberal Arts and Sciences).

Each of these programs utilizes resources and faculty from several disciplines. They promote cooperative research and instruction among faculty who share common interests but are housed in different academic units. They allow stu-
Students to pursue degrees that are intellectually coherent but that bring together diverse strengths of the university. See the “Interdisciplinary Graduate Degrees and Majors Overseen by the Graduate College” table, page 60.

**Interdisciplinary Committee on Linguistics.** Linguistics at ASU is interdisciplinary in nature. The linguistics faculty come from the Departments of Anthropology, Communication, Computer Science and Engineering, English, Languages and Literatures, Philosophy, Psychology, and Speech and Hearing Science and from the College of Education.

The Interdisciplinary Committee on Linguistics coordinates linguistics courses and programs, provides advising, and hosts conferences and lectures.

Faculty from three departments (Anthropology, English, Languages and Literatures) offer programs with concentrations in linguistics: the M.A. in Anthropology, M.A. in English, M.A. in Spanish, and Master of Teaching English as a Second Language.

**Certificate Programs.** A number of certificate programs are offered by various academic units or programs on campus (see “ASU Graduate Degrees,” page 12).

**Research Programs.** ASU continues to advance as a major research institution. The Office of the Vice Provost for Research provides leadership in obtaining external funding and in coordinating and administering sponsored projects. Many graduate students receive financial support and gain first-hand experience as they participate with faculty members in carrying out these research projects.

Much of this work is associated with campus research centers that help to develop proposals, coordinate activities, and bring together in colloquia and conferences students and faculty with common intellectual interests. Such centers include the Center for Solid-State Science, the Manufacturing Institute, the Institute of Human Origins, the Hispanic Research Center, the Joan and David Lincoln Center for Applied Ethics, and the Prevention Intervention Research Center. For more information, see “Research Centers, Institutes, and Laboratories,” page 38.

**Research Facilities.** The university lends support to research in diverse ways, including extensive facilities for research and instructional programs. Recently built facilities include an architecture building, a fine arts complex, the Goldwater Center for Science and Engineering, an addition to the Life Sciences Center, and the Computing Commons. The Engineering Research Center, built as part of the Engineering Excellence Program, houses advanced facilities such as the Molecular Beam Epitaxy laboratory and a clean room for microelectronic device fabrication. Among other facilities supporting research on campus are the Institute for Studies in the Arts, in the College of Fine Arts; the Facility for High Resolution Electron Microscopy, in the College of Liberal Arts and Sciences; and the Southwest Archaeological Collection, in the Department of Anthropology.

**Library System.** The ASU library system is a major research facility (see “University Libraries and Collections,” page 34). It contains more than 3 million volumes of books and approximately 6.6 million pieces of microforms and subscribes to more than 36,000 journals and serials. Among the nation’s research libraries, it is in the top quarter in annual volume acquisition. It is especially strong in amassing current monographs and serials to support graduate programs. Some of the most important research collections include manuscripts and rare photographs on Arizona and Southwest topics and an excellent collection of social science materials on Southwestern and border studies topics, including materials on northwestern Mexico. In the humanities, the main library has a fine collection of literary works and literary criticism from small and major presses in American and English literature. The Child Drama Collection is also outstanding. A growing rare book and manuscript collection supports the research interests of academic units. The Arthur Young Tax Library emphasizes accounting and law. The Noble Science and Engineering Library is a designated U.S. Patent Depository and as such is one of fewer than 30 U.S. academic libraries to receive copies of all new patents. The entire collection of U.S. patents in microfilm is housed in the Noble Library.

The libraries contain extensive U.S. and Arizona government documents and selected international documents.

Branch libraries provide important specialized collections. The Music Library contains scores and sound recordings. The Architecture and Environmental Design Library houses a nationally recognized set of materials on solar energy and research collections on the work of Frank Lloyd Wright and Paolo Soleri as well as other Arizona architects.

The libraries offer excellent support to researchers interested in electronic information sources. The online library system incorporates the usual catalog to ASU library holdings as well as several other important electronic reference databases and gateways. Bibliographic information on the library holdings can be accessed from any location in the world via a modem-equipped microcomputer.

The library system belongs to the Center for Research Libraries, permitting access to the center’s vast collections of materials for extended loan periods.

**Graduate Student Support Services**

Providing academic and professional development support to graduate students is an important part of the Graduate College mission. Services include advising, individual mentoring, financial support, orientation sessions, workshops, career seminars, and research conferences.

The Graduate College Student Programs/Services maintains a variety of programs specifically for graduate and nondegree students.

**Graduate College Financial Assistance Office.** The Graduate College Financial Assistance Office meets the needs of graduate and professional students. Students may receive financial services at Wilson Hall, without having to visit other offices on campus. Students are offered general information about graduate financial assistance at ASU, may turn in documents, or receive status information on their student loans. Students can also apply for emergency short-term loans or pick up forms to report special circumstances. Staff members are available to help students with financial assistance concerns. Refer to “Financing Graduate Studies,” page 54, for a full description of graduate financial support and services or visit the Web site at www.asu.edu/graduate/gradaid.

**Advising and Career/Professional Development.** Many graduate students have questions and concerns about which
degree to pursue, how to combine their student roles with parenting, partnering and worker roles, and what to do with their degrees upon graduation. The Graduate College provides the following resources.

Advising. The Graduate College’s Advising Office offers general information about policies, procedures, requirements, and support services. Appointments are available throughout the year.

Students with regular admission status should contact their academic unit for degree program advising and program of study planning.

Career/Professional Development Seminars. The Graduate College, in conjunction with Counseling & Consultation, offers seminars to groups of graduate students interested in exploring career-related subject matters. Examples of seminar topics are dual career issues, the impact of values on career decision making, and transferable skills.

Career Planning Services for Graduate Students. In conjunction with Career Services and Counseling & Consultation, the Graduate College provides a brochure listing numerous career planning services for graduate student needs. This publication is also available at www.asu.edu/career.

Preparing Future Faculty (PFF). PFF is a national program designed to develop new approaches to preparing doctoral students who are seeking careers in the professoriate. A national initiative under the Council of Graduate Schools and the Association of American Colleges and Universities, PFF encourages fresh thinking and planning in faculty preparation, and identifies strategies to improve the quality of teaching and learning.

Preparing Future Professionals (PFP). The PFP program administered by the Graduate College, assists doctoral students interested in pursuing nonacademic professions. PFP parallels the well established and successful PFF program.

Through a series of activities, PFP familiarizes doctoral students with various nonacademic career tracks to help them develop skills to successfully pursue a wide range of career opportunities. For more information, contact the Graduate College at 480/965-6942.

Graduate College Support Program (GCSP). GCSP is designed to increase the number of graduate students from groups underrepresented in their chosen field of study. Students interested in these programs must first go to their respective departments for nomination.

The purpose of the program is to support research and creative activities related to a student’s field of study. Nominations are made by departments, and recipients are supervised by a faculty member.

For students who demonstrate financial need through a FAFSA, the Graduate College offers financial assistance and peer mentoring. GCSP is available primarily to first-year students. However, departments are asked to provide a student’s subsequent funding. The program is based on financial need and the nominations of students by departments. Financial support is provided in the form of a federal work-study to support field-related research that is supervised by a faculty member. For additional academic support, a student meets weekly with an assigned peer mentor who is two or more years advanced in the academic program.

The Social and Academic Mentor Program. The Graduate College Social and Academic Mentor (SAM) program is designed to recruit top graduate students from domestic, international, and underrepresented populations. Academic units submit applications to the Graduate College to nominate a first-year student (mentee) and peer mentor match. The mentor, two or more years advanced in the program, promotes the mentee’s social and academic integration into graduate school using a structured format. The mentor meets weekly with the mentee and schedules regular monthly meetings with the faculty advisor to discuss the mentee’s concerns, progress, accomplishments, or department-related matters.

 Orientations. Each semester, the Graduate College hosts orientations for new graduate students and teaching assistants (TAs).

In addition to the general orientation, teaching assistants have the opportunity to enrich and enhance their teaching through seminars offered each semester. At least two seminars are mandatory for first-time TAs. Among other topics, TAs can attend sessions on teaching lab sciences, human diversity, critical thinking, classroom management, ethical issues, and multimedia applications in the classroom.

Workshops for Undergraduate Students Considering Graduate Education. The Graduate College holds workshops to address the issues that students contemplating graduate study should consider. The purpose of graduate study, the choices among research and professional degrees, the selection of schools to apply to, and the types and sources of financial support are among the topics discussed.

Student Organizations. The Graduate Student Council is part of the Associated Students of Arizona State University (ASASU), the student government for the university. The Graduate Research Support Office represents graduate student interests within ASASU and the Office of Student Life. It assists the Graduate College in planning orientations and other student-related activities and funds with the Graduate College small research grants to support graduate students’ projects. In addition to the council, many other special interest organizations are open to graduate students.

Format Office. The thesis, dissertation, or equivalent is the culmination of an important stage of graduate studies. By researching and writing the final work, graduate students are able to show that they have acquired skills essential to a discipline. The Graduate College publishes a Format Manual as a guide in preparing the master’s or doctoral document. For more information, visit www.asu.edu/graduate/formatmanual on the Web.

Publications Program. The Graduate College publishes a number of brochures, fliers, and other items during the year.

Graduate Council

The Graduate Council establishes general policies for graduate programs and serves as an advisory board to the dean. As part of its duties, the council reviews proposals for new degree programs and concentrations, regularly conducts reviews of established academic programs, and sets policies and general standards for graduate admissions. Sixteen faculty members and one student serve on the council, representing a wide variety of degree programs, with at least one member representing each college in the university. An
Academic Senate representative is also elected to serve. Council members are appointed by the president of the university.

**Offices of the Graduate College**

The general offices of the college, including those of the dean, admissions, advising, financial assistance, and postadmissions are located on the first floor of Wilson Hall in the center of campus. College offices are open from 8:00 A.M. to 6:00 P.M. Monday through Thursday; 8:00 A.M. to 5:00 P.M. on Friday. The Graduate College may also be contacted by e-mail at asugrad@asu.edu or telephone 480/965-3521. The Web address is www.asu.edu/graduate.
PURPOSE

The college provides graduate education for professional, research, and academic careers in architecture, design, landscape architecture, and environmental and urban planning. Students in the master’s programs benefit from small classes, seminars, and studios, from close, individual contact and faculty mentorship, and from an interdisciplinary curriculum. Students and faculty make full use of the Phoenix metropolitan area and the Sonoran region as research bases, and they also profit from strong interaction with the professional communities. The faculty have earned national reputations in energy-efficient design, computer-assisted design, corporate interior design, design for special populations, urban design, and environmental policy. Programs of study, including internships and trainee opportunities, give graduates the best possible start on academic, research, and professional careers.

ORGANIZATION

The college has three academic units: the School of Architecture, the School of Design, and the School of Planning and Landscape Architecture. The units and their faculty have strong ties with programs and faculty in business, computer science, construction, engineering, fine arts, geography, biological sciences, environmental resources, and public affairs.

GRADUATE PROGRAMS

The new Ph.D. degree program in Environmental Design and Planning is a collegewide interdisciplinary degree offered by faculty representing the different disciplines comprising the Schools of Architecture, Design, and Planning and Landscape Architecture. Environmental Resource faculty from the Morrison School of Agribusiness and Resource Management at ASU East also participate in offering this degree. Three areas of concentration are available: design; planning; and history, theory and criticism.

Faculty in the College of Architecture and Environmental Design offer the Master of Architecture and the M.S. degree in Building Design. Faculty in the School of Planning and Landscape Architecture offer the Master of Environmental Planning.

ADMISSION REQUIREMENTS

Applicants to each of the five graduate degree programs must meet Graduate College admission requirements, in addition to requirements of the academic unit offering the program. For application requirements and deadlines of the Graduate College, see “Admission to the Graduate College,” page 92. For application requirements and deadlines of each program, refer to the specific program section within “Graduate Programs and Courses,” page 106.

**Doctor of Philosophy Degree in Environmental Design and Planning.** Applicants to the Ph.D. program must have completed a master’s degree in architecture, environmental resources, graphic design, industrial design, interior design, landscape architecture, or planning, or must be able to demonstrate equivalent standing. The degree is structured as a five- or six-year program. Applicants to this program must hold a professional degree in architecture (five or six years) and wish to pursue advanced study and research. Applicants to the program must have completed a four-year baccalaureate degree in any discipline. International applicants whose native language is not English must achieve a TOEFL score of 550 or above.

**Master of Architecture.** Applicants to the two-year program must have completed a four-year baccalaureate degree with a major in architectural studies or a similar preprofessional degree in architecture. The degree should be from an institution offering a National Architectural Accreditation Board-accredited degree in architecture. Applicants to the program must have completed a four-year baccalaureate degree in any discipline. International applicants whose native language is not English must achieve a TOEFL score of 550 or above. The Master of Environmental Planning program has special ties with the professional planning community and offers students considerable interaction with practitioners in the field, as well as experience in local planning offices and agencies.

**Master of Science Degree in Building Design.** Students who have completed a professional baccalaureate degree in architecture (five or six years) and wish to pursue advanced study and research may apply for admission to this program. Applicants to the program must hold a baccalaureate degree. International applicants whose native language is not English must achieve a TOEFL score of 550 or above.

**Master of Environmental Planning.** Applicants must hold a baccalaureate degree. International applicants whose native language is not English must achieve a TOEFL score of 550 or above. All of the master’s programs are interdisciplinary in focus and require or strongly recommend course work in other programs, departments, and colleges. Each program works with affiliated and associated faculty from other units within the college. Also, faculty from such areas as geography, engineering, public affairs, business, transportation, environmental studies, and fine arts collaborate with the faculty and graduate students of the college.

**COLLEGE FACILITIES**

With the opening of the award-winning expansion to the Architecture building in spring of 1989, the college consolidated its facilities into a single complex and more than doubled the space available for instruction, research, and service activities. Expanded facilities include the library, the shop, studios, faculty and administrative offices, and research facilities. Research and special project rooms include a high-bay research laboratory, a lighting laboratory, community outreach and design excellence studios, a materials resource center, as well as a solar instrumentation laboratory and a rooftop outdoor solar and day lighting testing area. The college is especially proud of its computer facilities and the faculty-graduate student computer research laboratory. There is a local area network that ties together faculty, studio, and library resources. Emphasis is on mini- and microcomputer modeling, simulation, and design applications (see “Computing Facilities and Services,” page 37). Teaching and research activities are also supported by a media center with photography and video services and a slide and media library. Individual studio work space is available to graduate students and the expansion features extensive jury, review, and display space.

As a branch of the university library, the college library is located in the expansion and provides easy access to books, periodicals, and reference materials for students and faculty. The collection includes approximately 30,000 volumes. Special research collections on the work of Paolo Soleri and Frank Lloyd Wright are located in an archival quality special collections suite.

**SPECIAL PROGRAMS**

A concurrent Master of Architecture/Master of Business Administration degree program is available. The School of Architecture offers a foreign study abroad program. Also, a selective summer internship program places highly qualified students in nationally known American firms.
The Gallery of Design is one of eight university galleries and museums. It provides premium space for traveling exhibitions and exhibitions of student and faculty work.

Housed in the College of Architecture and Environmental Design, the Architecture and Environmental Design Library has a spacious and welcoming interior, with cherry furnishings and a collection of more than 30,000 volumes of books and bound periodicals. There are also 150 current periodical titles; more than 1,000 books in microform; video and audio tapes; CD-ROMs (such as “Drawings of Frank Lloyd Wright”); and electronic resources, such as the Avery Architecture Index Online.

In its Special Collections suite, the library provides rare and unusual materials, with some books dating back to the 1700s. Notable are the extensive collections of books and ephemera on Paolo Soleri and Frank Lloyd Wright. This area also contains the Solar Energy Collection (ASU was a pioneer in reviving an interest in this area around 1970) of ephemeral materials and research papers of several solar researchers.

Archival Drawings Collection
Also within Special Collections, this rapidly growing section has material ranging from architectural drawings and papers for such prominent architects as Will Bruder, Calvin Straub, Blaine Drake, and Paul Schweicker, to documentation of the origins of the company town of Litchfield Park, AZ, and of the Rio Salado Project in Tempe, and includes the Phoenix Municipal Competition for a Civic Center.

ADVISING

Architecture. Students should contact the academic advisor for general information about the school’s programs and procedures. In addition, a graduate coordinator is available for preadmission and general advising. Call 480/965-3536 or e-mail arch.grad@asu.edu for more information.

Design. Preadmission information, advising, and continued support are provided by the director of the school and the graduate program coordinator. Call 480/965-4135 or 480/965-2507 for more information.

Planning. The school director provides preadmission information and general advising. Each admitted student is initially assigned a faculty advisor but may later select a supervisory chair. This faculty member later serves as a chair of the committee. Call 480/965-7167 for more information.

ACCREDITATION

In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes two types of degrees: the Bachelor of Architecture and the Master of Architecture. (A program may be granted a five-year, three-year, or two-year term of accreditation, depending on its degree of conformance with established educational standards.)

Master degree programs may consist of a preprofessional undergraduate degree and a professional graduate degree, which, when earned sequentially, comprise an accredited professional education. However, the preprofessional degree is not, by itself, recognized as an accredited degree.

The Master of Architecture program at ASU is fully accredited by the NAAB. The Master of Architecture requires a minimum of three years of study following an unrelated bachelor’s degree or two years following a related preprofessional bachelor’s degree. This professional degree is structured to educate those who aspire to registration/licensure as architects.

The School of Architecture is a full member of the Association of Collegiate Schools of Architecture, the Environmental Design Research Association, and the Architectural Research Centers Consortium.

The programs in the School of Planning and Landscape Architecture are affiliated with the Association of Collegiate Schools of Planning and the Council of Educators in Landscape Architecture.

The Master of Environmental Planning program is accredited by the Planning Accreditation Board while the Bachelor of Science in Landscape Architecture program is accredited by the Landscape Architecture Accreditation Board.
PURPOSE

The College of Business is a professional school that pursues excellence in instruction and research. The pursuit of excellence in programs of instruction implies that the college admits only students who are especially well qualified for the study of business and who will, upon graduation, compete successfully for highly desirable positions, both nationally and internationally.

The mission of the College of Business is to expand the knowledge of business and to educate men and women for managerial leadership through research activities and professional educational programs that address issues of importance to future managers in a world characterized by racial, cultural, and gender diversity in the work force; demands for continuous improvements in quality; growing technological sophistication; and globalized markets.

The College of Business is a comprehensive research school of business that selects and retains faculty based on their ability to use their teaching and research skills to fulfill its mission.

The College of Business—through its research support, its Seidman Institute programs and centers, and its doctoral programs—develops knowledge that is important to managers and the management of organizations. It endorses joint research projects that are not only supported by business but include managers as partners in the research objectives, process, and outcomes.

The College of Business anticipates that its mission will lead to research and professional degree programs that will result in its being recognized among the top schools of business in the U.S. Strategies to achieve its mission include an emphasis on the M.B.A. degree: increasing its quality such that it is competitive with the best 25 programs found at other large public schools of business, and developing a curriculum that incorporates the knowledge, skills, and abilities identified in the mission of the college.

Strategies relative to the doctoral program also include raising admission standards, increasing stipends, assuring that students possess the teaching and research skills necessary for placement at peer schools of business. Consistent with the mission, an additional strategy is to improve retention and graduation rates of minority students through programs at the M.B.A. and doctoral levels.

Finally, the college will, through its Seidman Institute, increase the level of funded research by adding support services to facilitate grant preparation and by clarifying the mission of research centers as liaisons between faculty and businesses.

ORGANIZATION

The college’s seven academic units and several centers serve more than 1,400 graduate students enrolled in eight graduate degree programs. Academic units contributing to graduate offerings include the School of Accountancy and Information Management, the School of Health Administration and Policy, and the Departments of Economics, Finance, Management, Marketing, and Supply Chain Management. The Seidman Institute serves as the college’s focal point for applied research, and several centers are organized in conjunction with the Seidman Institute: the Arizona Real Estate Center, the Bank One Economic Outlook Center, the Center for Advanced Purchasing Studies, the Center for Business Research, and the Center for Services Marketing and Management.

GRADUATE PROGRAMS

The M.B.A. program is the premier professional degree in the College of Business. The college offers the traditional full-time program, an Executive M.B.A. program, an evening program for working managers, and a program for high technology professionals at the ASU Research Park. The faculty also offer the Ph.D. degree in Economics and in Business Administration, with concentrations in accountancy, finance, health services research, information management, management, marketing, and supply chain management. Other master’s offerings include the Master of Accountancy and Information Systems, Master of Health Services Administration, and M.S. degrees in Information Management and in Economics, an interdisciplinary program leading to a M.S. degree in Statistics, and the Master of Taxation.

ADMISSION REQUIREMENTS

Applicants to all degree programs must meet the minimum Graduate College academic requirements. Admission is highly competitive and selective. Acceptance is based on the applicant’s previous college record, all relevant data provided with the application, and scores from the Graduate Management Admission Test or the Graduate Record Examination (GRE). (GRE scores are required for the Economics programs only.) Certain degree programs require applicants to submit a statement of purpose and letters of recommendation. In addition, the Test of English as a Foreign Language is required of international applicants whose native language is not English.

SPECIAL PROGRAMS

Dual/Concurrent Degree Programs. The College of Business and the American Graduate School of International Management (Thunderbird) have developed a dual degree and cross-registration graduate program for students interested in both business administration and international management. Thunderbird is an internationally recognized private graduate school, located in the Phoenix metropolitan area, offering course work in international studies, modern languages and world business. The dual degree program is designed to allow a limited number of qualified graduate students to pursue an M.B.A. degree at ASU and a Master of
International Management (M.I.M.) degree at Thunderbird, allowing students to earn two degrees in less time than if done separately. Applicants must be regularly admitted to both programs and may begin at either location. Dual degree program participants and regularly admitted full-time students in the M.B.A. program may petition to take selected course work at Thunderbird at no additional tuition fees after completion of one year and prerequisites for Thunderbird are complete.

The College of Business also offers dual degree programs with Groupe Ecole Supérieure de Commerce Toulouse in Toulouse, France; Universidad Carlos III de Madrid in Spain; and Instituto Tecnologico y de Estudios Superiores de Monterrey in Mexico City, Mexico. Call 480/965-3332 for more information.

The college also offers the following concurrent degrees:

1. Master of Science (M.S.) in Economics/Juris Doctor (J.D.);
2. M.B.A./J.D.;
3. M.B.A./Master of Accountancy and Information Systems;
4. M.B.A./Master of Architecture;
5. M.B.A./Master of Health Services Administration (M.H.S.A.);
6. M.B.A./M.S. in Economics;
7. M.B.A./M.S. in Information Management;
8. M.H.S.A./J.D.; and

Separate applications are required for each degree and each application is reviewed independently. It is recommended that the student apply simultaneously to both of the dual/concurrent degree programs. The M.B.A./J.D. is best completed by attending one year in the law school, then attending the M.B.A. program after the first or second year, and finally returning to the law school to complete the third year. Students are not admitted from the law school after the third year.

### INSTITUTES/RESEARCH CENTERS

**L. William Seidman Research Institute.** The L. William Seidman Research Institute encourages, promotes, and supports multidisciplinary, cross-disciplinary, and applied research on a wide range of business topics. The institute serves as the “port-of-entry” for applied business research in the College of Business as well as an incubator to transfer knowledge to the business community. The institute also acts as a facilitator for postdoctoral, continuing, and executive business education that is taught by ASU faculty. In addition, the institute contributes funding for operations.

**Arizona Real Estate Center.** The Arizona Real Estate Center collects and analyzes data concerning the multifaceted real estate market to provide insight into solutions for problems confronting the real estate industry.

**Bank One Economic Outlook Center.** The Bank One Economic Outlook Center serves as the economic forecasting unit of the college and is responsible for the publication of the Arizona Blue Chip, Western Blue Chip, and Blue Chip Job Growth Update. The center sponsors seminars and workshops on the national and regional economies.

**Center for Advanced Purchasing Studies.** The Center for Advanced Purchasing Studies is a national affiliation agreement between the College of Business at ASU and the National Association of Purchasing Management. The center conducts in-depth research into the problems facing the purchasing profession today and the requirements of the future.

**Center for the Advancement of Small Business.** Endowed with private funding, the center’s mission is to enhance the formation and management of small- and medium-size companies to enable them to compete in the global economy of the 21st century. The primary goal is to ensure that ASU students from all disciplines are provided with programs that prepare them for positions of leadership in small- and medium-size businesses.

1 Applications are not being accepted at this time.
2 This program is administered by the Graduate College. See “Graduate College,” page 59.
Center for Business Research. The Center for Business Research collects, analyzes, and disseminates information on the economy and business climate of Arizona. Analyses of Gross State Product, prices, income, employment, and demographic data for Arizona are made available to business and the general public. The center coordinates interdisciplinary sponsored-research efforts to provide useful information to business and a learning experience for students and faculty researchers.

Center for Services Marketing and Management. The Center for Services Marketing and Management is North America’s leading university-based center for the study of services marketing and management. The center conducts extensive research in the field; offers specialized education and training to services executives; and provides the latest services information to organizations engaged in banking, insurance, health care, tourism, transportation, and other service industries. Its charter members include some of America’s foremost services firms and nonservices firms.

Manufacturing Institute. The Manufacturing Institute is a joint venture of the College of Business and the College of Engineering and Applied Sciences. The institute was established to enhance manufacturing research and industrial collaboration between the two colleges. The mission of the institute involves integrating aspects of manufacturing in both the business and engineering areas, helping to fulfill ASU’s goal of becoming one of the leading educational and research institutions in both manufacturing enterprise and manufacturing process technology issues.

Dean’s Council of 100. The Dean’s Council of 100, a prestigious group of area business leaders, represents the college’s innovative partnership between business and education. A major goal of the council is the development of private support for the priority needs of the College of Business. Membership is by invitation only.

Economic Club of Phoenix. The Economic Club of Phoenix is composed of business, labor, government, and academic leaders who recognize that, as frontrunners in one of the nation’s fastest-growing metropolitan areas, they need information and access to expertise to deal effectively with rapid economic changes. Its programs bring current and future leaders together and provide them with the opportunity to meet and hear influential speakers.

Council of Emeritus Advisers. The Council of Emeritus Advisers founded by the College of Business and Dean’s Council of 100, is a select group of retired executives who advise the dean and invite nationally known experts to Arizona as visiting scholars, lecturers, and speakers.

Dean’s Board of Excellence. The Dean’s Board of Excellence is composed of young business and community leaders committed to promoting excellence by awarding outstanding student and faculty performance. The Dean’s Board of Excellence also enhances relations between the college and the business community through a discussion forum and communications with the dean.

M.B.A. Council. The M.B.A. Council plays an active role in linking students with alumni to enhance the M.B.A. student experience. The M.B.A. Council also assists to unite alumni and promote the national reputation of the M.B.A. program.

Washington Campus. The Washington Campus program at Georgetown University provides graduate business students with an in-depth understanding of the federal government and its relationship to the business community. ASU is one of 17 select universities that offer this unique opportunity. Participants earn graduate credit, observe the intricacies of national politics, and enjoy the excitement of the nation’s capital.

COLLEGE FACILITIES

The College of Business offers one of the most modern and sophisticated environments available for professional graduate study. The college facilities provide attractive and comfortable classrooms, computer systems, study areas, a television studio, modern auditoriums, and a graduate student reading room and lounge. Both mainframe interactive and networked microcomputer facilities are available to graduate students throughout the two business buildings. Refer to “Computing Facilities and Services,” page 37.

ORGANIZATIONS

Black Student M.B.A. Association

The Black M.B.A. Association is an organization of ASU M.B.A. students dedicated to enhancing the educational experience of its members; promoting attributes of the M.B.A. program to the local business community; promoting awareness within the African American community of business, education, and economic development; and assisting the development of career opportunities for its members.

Collegiate Volunteer Council

The Collegiate Volunteer Council (CVC) was created to foster volunteerism, incorporating the assistance of students, faculty, and staff. Its goal is to provide value-added contributions to the community by assisting those in need. Traditional projects have included volunteering at the Special Olympics, the Papago Park Clean-up, the Jingle Bell Run for Arthritis, and holiday food and toy drives.

Graduate Women in Business

The purpose of the Graduate Women in Business (GWB) is to promote the professional and personal development of women graduate students. As part of the National Network of Graduate Business School Women, GWB provides a link among women graduates in accredited business programs nationwide. The ASU chapter is open to men as well as women and offers activities and seminars in professional development and gender issues.

Hispanic M.B.A. Student Association

The Hispanic M.B.A. Student Association (HMBASA) was created to meet the needs of Hispanic M.B.A. students. Members participate in a wide range of community services, coordinate a variety of professional development programs, and are offered the opportunity to become members of HMBASA’s professional affiliated organization, the National Society of Hispanic MBAs. All M.B.A. students are encouraged to join and participate in HMBASA activities.
International Business Association—IBA

The primary mission of the International Business Association (IBA) is to assist M.B.A. students in acquiring the substantive knowledge, job-search skills, and personal contacts necessary to enter and prosper in the international business field. IBA conducts seminars and panel discussions on important international business topics. These events—which generally are open to students, faculty, and others—address topics such as global or regional economic issues, cultural conflicts in cross-border activities, and job hunting strategies.

Masters Consulting Group

The Masters Consulting Group (MCG) is a fully incorporated, nonprofit organization run solely by M.B.A. students. MCG provides opportunities for M.B.A. students to work as professional consultants to complement their course work with real world experience.

M.B.A. Asia Student Association—MBAsia

The MBAsia is a professional and social organization focused on promoting Pacific Rim opportunities for graduate business students. It strives to offer an exchange of learning through seminars, panel discussions, and conferences open to the whole community. MBAsia is also a forum for global, cultural, and social interaction at events such as the monthly Asian Lunches and the semiannual Asian Dinner. Membership is open to any graduate business student with an interest in the Pacific Rim.

M.B.A. Association

The M.B.A. Association at ASU is an independent, professional organization whose purpose is to provide a fully recognized, formally structured representative body through which M.B.A. students may act or communicate in concert on items of interest. The M.B.A. Association sponsors an intensive agenda of experiences outside the classroom which include leadership development activities, executive presentations, career enhancement seminars, and social events.

M.B.A. Student Ambassadors

The ASU M.B.A. Student Ambassadors are dedicated to promoting, developing, and participating in the community relations and recruitment activities of the M.B.A. Program. The ambassadors interact with many different groups including students, alumni, faculty, and administrative staff.

ADVISING

Information sessions are held daily (Monday, Wednesday, and Friday at 10:00 A.M. and Tuesday and Thursday at 2:00 P.M.) in the M.B.A. Program Office, BA 140. M.B.A. brochures may be obtained at the office; call 480/965-3332, or send e-mail to asu.mba@asu.edu.

ACCREDITATION

The College of Business and its School of Accountancy and Information Management are accredited by the American Assembly of Collegiate Schools of Business (AACSB). The AACSB is the recognized accrediting agency in the field of business education. The School of Health Administration and Policy is accredited by the Accrediting Commission on Education for Health Services Administration.
PURPOSE

The College of Education is committed to the development of innovative programs that prepare graduate students for leadership roles in solving educational problems. The college provides a stimulating, challenging forum in which research and practice are viewed as essential and complementary. Faculty members are dedicated to producing quality scholarship and research that lead to excellence in teaching, professional practice, and administration of educational institutions.

ORGANIZATION

The College of Education is organized into three divisions.

Division of Curriculum and Instruction
Nicholas R. Appleton, Director
(ED 409) 480/965-1644
karen.schultz@asu.edu
coe.asu.edu/candi

Research Clusters
Early Childhood Education
Secondary Education
Special Education

Degrees: M.A., M.Ed., Ed.D., Ph.D.

Graduate programs offered by faculty of the Division of Curriculum and Instruction, through the Graduate College, prepare students for positions in schools, colleges, universities, government agencies, and public or private organizations. Graduates work as educational leaders, researchers, media and computer specialists, and librarians. This division offers programs that prepare students for Arizona State teacher certification in the following areas: special, elementary, or secondary education. It is designed for students who have graduated from accredited colleges or universities with majors other than education. If desired, a master’s degree may be pursued concurrently with teacher certification.

The division is committed to research. Members of the faculty edit several national, scholarly journals; publish and present research papers; and direct funded research. Faculty members encourage and assist graduate students in conducting research, writing for publication, and making presentations at professional conferences. Particular research interests of the faculty are noted under each degree major.

Division of Educational Leadership and Policy Studies
Mary Lee Smith, Interim Director
(ED 108) 480/965-6357
delps@asu.edu
coe.asu.edu/elps

Program Areas
Education Policy Studies
Educational Administration and Supervision
Higher and Postsecondary Education

Degrees: M.A., M.Ed., Ed.D., Ph.D.

Graduate programs in this division are designed to develop leaders, researchers, and policy analysts for careers in schools, colleges, and private and government agencies. Graduates will be able to examine educational institutions, theories, and practices within broad economic, historic, political, social, and intellectual contexts in this country and abroad.

Two basic emphases exist within the division’s programs. One strand focuses on the administration and policies of educational practices from preschool through secondary education. The other strand focuses on the administration and policies of postsecondary education. Specific details of these strands are given under the headings of the degree offerings in Educational Administration and Supervision, Educational Leadership and Policy Studies, Higher and Postsecondary Education, and Social and Philosophical Foundations.

Faculty within the division are involved in both data-based and theoretical research. Qualitative and quantitative paradigms are employed. Students have the opportunity to work on research projects in the College of Education and in school districts and educational agencies throughout the country.

Division of Psychology in Education
Elsie Moore, Director
(EDB 301) 480/965-3384
dpe@asu.edu
coe.asu.edu/psyched

Program Areas
Counseling Psychology
Counselor Education
Learning and Instructional Technology
Lifespan Developmental Psychology
Measurement, Statistics, and Methodological Studies
School Psychology

Degrees: M.A., M.Ed., M.C., Ph.D.

All program areas within this division strongly emphasize research activities. Areas of concentration within Educational Psychology include lifespan developmental psychology; measurement, statistics, and methodological studies;
and school psychology. The Ph.D. program in Counseling Psychology and Educational Psychology concentration in school psychology are accredited by the American Psychological Association and are based upon the scientist-practitioner model. The Master of Counseling program in community counseling is accredited by the Council for the Accreditation of Counseling and Related Educational programs (CACREP).

Members of the faculty are actively involved in a variety of research and other scholarly activities, including basic and applied educational research, editing and reviewing for a number of refereed journals, publishing and presenting research papers, and seeking external funding for research projects. The faculty encourage and assist graduate students' research, publications, and presentations at professional conferences. Particular research interests of the faculty are noted under each degree major.

**GRADUATE PROGRAMS**

The College of Education offers degrees for the practitioner and for the academic researcher. The Master of Education and the Doctor of Education are designed for teachers and other practitioners working directly with students and schools. The Master of Counseling is designed to prepare helping professionals for work in a variety of counseling settings. The M.A. and Ph.D. degrees are designed for persons interested in careers in universities and other research settings. The M.A. and Ph.D. programs emphasize theory development, research methods, and acquisition of a broad base of knowledge about education, as well as in-depth knowledge of a chosen field of specialization.

The Interdisciplinary Committee on Curriculum and Instruction offers an interdisciplinary graduate program leading to the Ph.D. degree in Curriculum and Instruction. Areas of concentration are as follows: curriculum studies, early childhood education, educational media and computers, elementary education, English education, exercise and wellness education, music education, physical education, reading education, science education, and special education. The interdisciplinary committee sets guidelines and supervises programs of study, while an executive committee, appointed by the dean of the College of Education and the dean of the Graduate College, has primary responsibility for the operation of the program. It is composed of faculty representing the various concentrations.

Most graduate programs of the College of Education include a core of courses designed to give students an understanding of the context of American education and of the methods of scholarship by which the understanding of the educational system is deepened.

Core course requirements along with specific requirements for the various types of degrees are given under the appropriate majors. The table presents a summary of those degrees authorized by the Arizona Board of Regents. Contact the division offices for further information about degrees offered through each faculty group. Several of the degrees have various concentrations.

**ADMISSION REQUIREMENTS**

Applicants must meet the general admission requirements established by the Graduate College. For the M.Ed. and M.C. degrees, test scores from the Miller Analogies Test or the Graduate Record Exammination are required. Individual divisions or programs may have admission standards higher than these minimums. Also, some units are limited by the number of faculty members or resources they have, and in keeping with the college’s goals of providing a high-quality education for all enrolled students, only a small proportion of the qualified students who apply are admitted. Students should consult the division director or program coordinator for specific admission requirements.

**SPECIAL PROGRAMS**

Research and services to students and the community are provided through two centers authorized by the Arizona Board of Regents: the Center for Bilingual Education and Research and the Center for Indian Education. The College of Education offers graduate coursework pertaining to the development and education of children and youth from diverse cultural, linguistic, and racial/ethnic populations. Faculty affiliated with multicultural education are actively involved in research related to effective schooling for children of Hispanic American and American Indian heritage, parents as partners in education, bilingual education, and English as a second language.

The college’s Technology Based Learning and Research Facility conducts research activity related to software evaluation and the use of microcomputers in schools.

**CERTIFICATION AND ENDORSEMENT**

Postbaccalaureate programs that lead to initial teaching certification are designed for people who hold bachelor’s degrees in areas other than education. Postbaccalaureate programs are available in one of the following areas: elementary education, principalship, secondary education, special education, superintendent, and supervisor. Programs to earn endorsements, which are added to teaching certificates, include bilingual education, educating the gifted, library science, middle school education, reading, and teaching English as a second language. Programs that prepare students for certification by the State as a school counselor are offered by the Counselor Education Program.

**COLLEGE FACILITIES**

In addition to the special programs mentioned earlier, other administrative units and centers provide services to students and the community. These include the College of Education Preschool, which provides young children a variety of learning experiences designed to encourage the development of thinking skills, intellectual curiosity, creative expression, and the foundation upon which academic skills will later be built. The preschool provides on-site observation opportunities for students preparing to become early childhood teachers.

The Arizona Educational Information System (AEIS) offers member school districts a computerized information retrieval system with access to thousands of educational topics. The Center for Academic Precocity provides academic services to intellectually advanced students in grades pre-K–12. These services include individual assessment, talent identification, and a variety of courses.

¹ Applications are not being accepted at this time.

² This program is administered jointly by the College of Education and the Graduate College. See “Graduate College,” page 59.
The Counselor Training Center provides counseling for ASU students, faculty, staff, and the community at large in personal and career development, stress management, and marriage and family issues. Counseling is conducted by graduate students in Counseling and Counseling Psychology under the supervision of licensed psychologists.

Other units within the college offering specialized research and educational services include the Office of Professional Experiences; instructional resource libraries; and collections in a number of curricular areas.

ADVISING

General career advising in a program can be obtained by contacting the director of the division or the coordinator of the program in which a degree is offered. After admission to a degree program, specific advice related to degree activities is provided by supervisory committees.

ACCREDITATION AND AFFILIATION

The Ph.D. programs in Counseling Psychology and the Educational Psychology concentration in school psychology are accredited by the American Psychological Association. The school psychology program is also approved by the National Association of School Psychologists. The Master of Counseling is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). The College of Education is approved by the State Board of Education (Arizona). The college is affiliated with the University Council for Educational Administration, and is a member of the American Association of Colleges for Teacher Education (AACTE).
PURPOSE
Faculty in the College of Engineering and Applied Sciences offer opportunities for graduate study through the Del E. Webb School of Construction and the School of Engineering. Degrees offered include the Master of Science in Engineering, the M.S. in the fields of engineering and computer science, the Master of Computer Science, the M.S. degree in Construction, and the Ph.D. in the fields of engineering and computer science.

The primary purpose of a graduate education is to provide the student with advanced training for a professional, teaching, or research career. The graduate program in the School of Engineering is designed to bridge the gap between knowledge of engineering sciences and creative engineering practice, while at the same time increasing the student’s depth and breadth of knowledge in an area of emphasis. The performance of scholarly research and the acceptance of professional responsibility for the documented results are considered essential requirements for graduate degrees and entrance into professional careers.

Information about the College of Engineering and Applied Sciences can be accessed via the World Wide Web at www.eas.asu.edu. The individual department and research program Web pages may also be accessed through this main address.

ORGANIZATION
The College of Engineering and Applied Sciences is organized as follows:

Del E. Webb School of Construction
School of Engineering
Department of Bioengineering
Department of Chemical and Materials Engineering
Department of Civil and Environmental Engineering
Department of Computer Science and Engineering
Department of Electrical Engineering
Department of Industrial Engineering
Department of Mechanical and Aerospace Engineering

Each academic unit, headed by a chair or director, offers various undergraduate and graduate degree programs. Faculty from these academic units participate in the research programs offered through the college research centers as well as individual laboratories and facilities. Drawing on the interests, strengths, and resources of academic units in the College of Engineering and Applied Sciences and other schools and colleges within the university, interdisciplinary research centers coordinate research, sponsor conferences and continuing education courses, and serve as liaison between the academic and industrial or technical communities.

ADMISSION REQUIREMENTS
Applicants must meet the general admission requirements established by the Graduate College. Additional supporting materials may be required by individual academic units. These materials may include test scores from the Graduate Record Examination, letters of recommendation, and statements of educational and professional goals. International applicants whose native language is not English must also submit Test of English as a Foreign Language (TOEFL) scores. See the requirements listed under each major in this catalog for specific TOEFL information.

General information on admission, expenses, and other such topics may be obtained from the Office of the Associate Dean for Academic Affairs via the college’s Web site at www.eas.asu.edu or by e-mail at asuengr@asu.edu. Specific questions on a program should be addressed to the academic unit.

GRADUATE PROGRAMS
Through the Graduate College, faculty in the College of Engineering and Applied Sciences offer various graduate programs leading to the M.S., Master of Engineering, Master of Computer Science, and Ph.D.

The college is committed to becoming a nationally prominent center for graduate research. Faculty members conduct research on government or industry-sponsored programs in such areas as aerodynamics, biomedical engineering, biotechnology, computer design, computer-integrated manufacturing, construction management, environmental fluid dynamics, innovative engineering education, microelectronics manufacturing, power systems, semiconductor materials and devices, signal processing, solar energy, solid-state electronic devices, structural dynamics, telecommunications, thermosciences, and transportation infrastructure. The research activities of the academic units within the college are complemented and supported by the work of centers for research and development.

Research in the Center for Low Power Electronics focuses on the following technical areas:
1. basic materials, alternative materials, and their fabrication;
2. device design optimization;
3. design of digital, analog, and hybrid low power circuits; and
4. power-based physical design for single and multi-chip VLSI systems.
Faculty and graduate students in the college participate in programs of the Center for Solid-State Electronics Research, coordinating the work of researchers from various units. The center emphasizes the development of solid-state electronics research and teaching and facilitates interaction with the electronics industry. The center operates modern, sophisticated research facilities, organizes colloquia and symposia, collaborates with external researchers, and sponsors visiting professorships.

The college’s Telecommunications Research Center focuses, plans, and promotes the research activities of the faculty with interests in antennas, propagation, and scattering; microwave circuits, devices, and measurements; optical communications; signal processing; and switching and data communications. The center conducts research, develops technologies, and provides educational programs. Industrial and multidisciplinary programs are encouraged. The center operates modern research laboratories, including an excellent, spacious electromagnetic anechoic chamber.

The Manufacturing Institute was established to broaden the scope of manufacturing research in the university to include research at the interface between the College of Business and the College of Engineering and Applied Sciences as well as research in manufacturing processes. The institute has codirectors from both colleges and also enjoys active industry involvement.

The Center for Systems Science and Engineering is jointly sponsored by the College of Engineering and Applied Sciences and the College of Liberal Arts and Sciences. Its main goals are the creation and enhancement of interdisciplinary and cooperative research, graduate education, and public service programs in the areas of systems science, applied mathematics, and computation. The center’s focal areas include nonlinear and adaptive systems, large scale systems, and scientific computing and simulation.

The Center for Research on Education in Science, Mathematics, Engineering, and Technology (CRESMET) is a collaborative effort between CEAS, the College of Liberal Arts and Sciences, and the College of Education. The mission of this center is to research, develop, and assess educational theories, curricula, and administrative policies that impact science, mathematics, engineering, and technology education, and to encourage and support wide-scale sharing and implementation of effective approaches to producing a more scientifically and technologically literate populace, and

¹ This collaborative program is offered by the three state universities.
² This program is administered by the Graduate College. See “Graduate College,” page 59.
more capable science, math, engineering, and technology graduates. Partnership-building with individuals, programs, and organizations throughout the K-12 education system is an important role for this center, which is ideally positioned to exploit the synergism that can result from linking all educational levels in these disciplines together to foster improvements.

The Center for Professional Development coordinates continuing education services for the local, national, and international technical community, sponsoring conferences, seminars, institutes, and short courses for professionals in the rapidly changing fields of science and technology. The center also coordinates distance-learning and media-delivered programs via television, satellite, and Web connections.

The College of Engineering and Applied Sciences serves the high technology community through the Interactive Instructional Television Program. The system allows employees of participating companies to attend graduate-level courses, special interest seminars, and video teleconferences without leaving their place of employment. In cooperation with the National Technological University, the college also provides instruction via satellite.

The College of Engineering and Applied Sciences and the industrial and business communities of Arizona interact regularly through the Dean’s Advisory Council. The council’s primary purpose is to assist the college in its threefold mission:

1. to provide undergraduate and graduate students with a variety of high-quality educational opportunities that will serve their professional interests into the 21st century,
2. to enhance the economic well-being of Arizona and the nation, and
3. to meet the rapidly expanding need for research and educational support of the high-technology industry of Arizona.

The Engineering Excellence 2000 program sponsored by the college and the Arizona industrial and business communities has been instrumental in dramatically increasing state, federal, and private funding of undergraduate and graduate instruction and the college’s research programs. Currently, the School of Engineering, which houses the college’s six engineering departments, is emphasizing research in the areas of electronics/materials, manufacturing, communications and information systems, environmental engineering, biotechnology, and software engineering. The college’s Del E. Webb School of Construction enjoys great community support for its active graduate program in construction sciences and facilities management.

Arizona’s three state universities—Arizona State University, Northern Arizona University, and the University of Arizona—are cooperating in the offering of a new tri-university degree program: the Master of Engineering. The Master of Engineering is a graduate degree program that is intended to meet the educational needs of Arizona’s practicing engineers. With input from industry professionals, the three universities expect to develop courses that address the enhancement and development of skills, knowledge, and understanding that are critical to today’s practicing engineer. These courses will be offered through a variety of distance-delivery methods and in flexible formats. Students enrolled in the program will be able to take advantage of course offerings at any of the three universities. These offerings reflect the diversity of strengths across the state. The Master of Engineering offers the practicing engineer the opportunity to design, in conjunction with an advisory committee, a program of study that can reflect the increasingly interdisciplinary nature of engineering practice.

For more information on this degree program, see “Master of Engineering,” page 191, visit the program’s Web site at triuniv.engr.arizona.edu, contact the College of Engineering and Applied Sciences at 480/965-1726, or send e-mail to m.eng@asu.edu.

COLLEGE FACILITIES

Numerous well-equipped laboratories, extensive library holdings, and widely available computer services encourage the best in research and graduate training. Laboratories include facilities for environmental fluid dynamics, interactive nonvisualization via scanning probe microscopy, materials and surface characterization, mechanical testing, molecular beam epitaxy, neuromechanical control, rapid manufacturing processes, transmission microscopy, and surface research, to name only a few of the diverse capabilities of the college’s physical resources. Supporting the work of researchers, a well-equipped and well-staffed machine and structures fabrication shop makes special-purpose equipment for student and faculty projects. For more information about laboratories, consult the descriptions of individual programs and centers for research in this catalog.

The College of Engineering and Applied Sciences offers extensive computing facilities to its faculty and graduate students. The college centrally maintains computing resources for general engineering use, including a large Sun SPARCcenter 2000 superserver, Hewlett Packard 9000 superserver, and an IBM Netfinity Quad M7000 NT Server. Also available are specialty computers for World Wide Web services, electronic mail, Internet collaboration, and special applications. Distributed throughout the college are several thousands of networked UNIX workstations and PCs accessing UNIX or NT servers available for research and instruction. UNIX workstations are provided by manufacturers such as Sun Microsystems, Hewlett Packard, Silicon Graphics, and Digital Equipment Corporation. All college computing resources are interconnected via the Internet standard TCP/IP on 10Mb or 100Mb dedicated ethernet.

ACADEMIC STANDARDS

Retention. A student who has been admitted to a graduate program of study in the College of Engineering and Applied Sciences, on either a regular or provisional basis, must maintain a 3.00 or higher GPA in all work taken for graduate credit as well as an overall 3.00 GPA in all studies at ASU.

A student is placed on academic probation if

1. the student’s GPA falls below 3.00 in the approved program of study;
2. the student’s overall GPA for all postbaccalaureate courses taken at ASU falls below 3.00;
3. the student receives a “D” or “E” in a required deficiency or in a course at the 400 level or above; or
4. for reasons other than above, the student fails to make satisfactory progress toward a degree.
A student is recommended for withdrawal from a graduate program if

1. the student is on academic probation because his or her GPA has fallen below 3.00 in the approved program of study or for all postbaccalaureate courses taken at ASU and fails to bring the GPA to 3.00 or above by the time the next nine semester hours are completed;

2. the student receives a “D” or lower grade while on academic probation for any reason;

3. the student fails to obtain at least a 3.00 GPA in all courses cited as deficiencies upon admission to a graduate program;

4. the student fails to meet any other conditions imposed as part of the probation; or

5. for reasons other than above, the student fails to make satisfactory progress toward a degree.

A student may appeal any action concerning academic probation and withdrawal by petitioning the graduate affairs committee within the student’s academic unit.
PURPOSE

The College of Fine Arts offers preprofessional and professional education in the arts disciplines and opportunities for nonmajors to become culturally literate through participation and involvement in the creative and performing arts.

At the graduate level, the college provides students the opportunity to participate with faculty mentors in research, performance and performance practices, and other creative activities.

As the largest and most diverse fine arts academic unit in the Southwest, and one of the largest in North America, the College of Fine Arts has an implicit responsibility to maintain quality and leadership in all aspects of its activities. Through its programs in art, dance, music, and theatre, the college reflects a wide range of challenges facing the artist and scholar into the 21st century.

ORGANIZATION

The College of Fine Arts houses the School of Art, the Department of Dance, the School of Music, the Department of Theatre, the University Art Museum, and the Institute for Studies in the Arts. An average of 2,000 students per semester enroll as majors in various degree programs offered through these units. Approximately one third of these are graduate students.

GRADUATE PROGRAMS

Faculty in the School of Art, Department of Dance, School of Music, and Department of Theatre offer both research and professional degrees through the Graduate College: the M.A., Master of Fine Arts, Master of Music, Doctor of Musical Arts, and Ph.D. degrees. A full range of majors and concentrations is available.

ADMISSION REQUIREMENTS

Admission requirements vary according to degree programs. However, applicants must first meet all admission requirements of the Graduate College. Most programs require a bachelor’s degree with a major in the selected area; many of them also require an audition. See the specific degree program for pertinent admission requirements.

SPECIAL PROGRAMS

Together with faculty, visiting scholars, and artists-in-residence, graduate students in all fields of the College of Fine Arts participate in dynamic, innovative programs. The creative energy that infuses the visual and performing arts finds expression in research and study.

The School of Art offers opportunities to explore and refine a new artistic medium: computer graphics. Students may work with software for “painting,” solid modeling, animated solid modeling, and live video mapping. While computer graphics makes use of the latest technology, other areas preserve and revitalize established media. The neon studio contributes to the revival of interest in neon as an artistic medium and trains students in this difficult craft. The Northlight Gallery has also become known internationally for photographic exhibitions. Graduate students gain valuable experience in the gallery.

In addition, the School of Art has three traveling fellowships that allow students to study or conduct research abroad. The Anthony Gully Travel Fellowship and the Rabiner Memorial Fellowship are for Art History students. The Nathan Cummings Travel Fellowship is for M.F.A. students.

Recognized as one of the top programs in the country, the Department of Dance emphasizes the choreography, performance, and history of modern dance. Nationally prominent faculty and visiting artists create repertory for dance majors and for the Dance Arizona Repertory Theatre (DART), a student touring outreach company. An ambitious performance program offers to the public several concerts each year with additional works created and performed by graduate and undergraduate students. Students work closely with major artists and companies who visit campus annually, and with researchers in the areas of dance science, dance in relation to technology, dance music composition, labanotation, and sound and video production. ASU students and faculty have consistently taken top honors at the regional and national festivals of the American College Dance Festival Association. The department recently was selected to host the National Festival, which produced seven concerts and more than 50 master’s classes in four days.

As the research center for the College of Fine Arts, the Institute for Studies in the Arts serves as a laboratory for the development and funding of creative ideas and for the exploration of new tools and technologies for artistic expression, a network for communication among creative scholars both within and outside the arts, and a resource base for the documentation, evaluation, and dissemination of research in the arts. Through technical and monetary support, the institute sponsors a wide variety of projects that address its mission of experimentation and innovation.

Faculty in the School of Music include a wide range of performers, teachers, conductors, composers, and scholars, whose knowledge and guidance support the training of students in the Doctor of Musical Arts and master’s degree programs. Individuals who hold graduate degrees from ASU’s School of Music hold prestigious performing and university teaching positions throughout the nation. The graduate programs are indeed comprehensive and provide for wide and diverse opportunities in performance, course work, and research.

Three concentrations are available in the M.F.A. in Theatre program: performance, scenography, and theatre for youth. The concentration in performance challenges performing artists to reinvigorate the classics, develop new works, explore new theatrical forms, and discover changing...
relationships between art and technology. The Ph.D. in Theatre program offers a concentration in theatre for youth.

The Department of Theatre, with its strong playwriting program, has a special interest in new scripts that bring a wealth of professional productions and workshops to campus for the benefit of all students. The Department of Theatre takes special pride in its nationally and internationally acclaimed theatre for youth program, which provides comprehensive graduate training and attracts students, scholars, and artists from around the world. Graduate students are challenged to excel in every aspect of theatrical training. They are offered acting, directing, and other production opportunities for mainstage, studio, and touring shows, as well as research and teaching opportunities on and off campus. Students also help organize a biennial Youth Arts Festival that brings many multitalented artists and thousands of young people to campus. The program has developed Hayden Library’s Child Drama Collection, which includes rare books, plays, memorabilia and personal and national association archives. It is the most complete and comprehensive child drama collection in the English-speaking world.

Students in the scenography program are actively involved in all aspects of design and technology for mainstage and studio productions and receive regional and national awards on a regular basis for their work. A multiethnic theatre program provides opportunities for students to view and work with professional and semiprofessional multiethnic productions on campus.

The playwriting program enriches graduate study and brings together talented students with those who practice the theatrical arts.

The M.F.A. in Creative Writing encourages graduate students to work closely with writers of drama, fiction, and poetry, and with directors and producers from the Departments of English and Theatre. This interdisciplinary program, involving the artistic, research, and teaching interests of faculty in these departments, offers students a unique opportunity to tailor a course of study to fit individual needs, talents, and goals.

**COLLEGE FACILITIES**

The arts programs are housed in the following buildings: Art Building; Dixie Gammage Hall; Physical Education Building East; Gammage Center for the Performing Arts; Matthews Center; Matthews Hall; the J. Russell and Bonita Nelson Fine Arts Center, which includes the University Art Museum; the 496-seat Paul V. Galvin Playhouse; six theatre studios; a 7,000-square-foot Experimental Dance Lab; and a video lab. The Music Building and expansion wing house four performance halls ranging in size from the 125-seat Recital Hall to the 500-seat Music Theatre and the 350-seat Katzin Concert Hall, which is used primarily for solo and chamber music recitals. The Katzin Concert Hall contains a nine-foot Hamburg Concert Steinway piano. The new 175-seat Organ Hall was designed to house the Paul Fritts Tracker Organ, an instrument reflecting the aesthetics and style of North German organ building in the 17th century. The Theatre Department also stages productions in the renovated Lyceum Theatre and Prism Theatre. Many of these facilities are equipped with studios and laboratories, where needed.

The University Art Museum’s collections are housed in a large complex of galleries and art study rooms in two locations: the Nelson Fine Arts Center and the second floor of the Matthews Center. The Oliver B. James Collection of American Art ranges from the early 18th century to the con-
temporary and includes major works by Stuart, Ryder, Homer, and the Ash Can School painters. Master works by great print-makers such as Durer, Rembrandt, Whistler, and Hogarth are often featured in special exhibitions selected from the university’s extensive print collection.

The gallery devoted to Latin American art features folk art as well as paintings by celebrated 20th-century artists Rivera, Siquieros, and Tamayo. The museum also displays many fine examples of 19th- and 20th-century crafts, paintings, and sculpture.

The contemporary art holdings include works by Vernon Fisher, Leon Golub, Sue Coe, Luis Jimenez, and Robert Colescott. Exhibitions curated by the museum emphasize contemporary art and new media, crafts, and Mexican art.

All units have developed computer facilities for graduate student training. Also refer to “Computing Facilities and Services,” page 37.

ADVISING

Advising is handled as a decentralized activity within the college. To offer personalized attention, each academic unit establishes its own graduate advising procedures. Students are encouraged to make appointments through the central office of their major discipline.

ACCREDITATION

While all of the arts programs in the college meet or exceed standards established by various arts accrediting agencies, the School of Music and the Department of Theatre hold formal memberships; the School of Music by the National Association of Schools of Music, and the Department of Theatre by the National Association of Schools of Theatre.

Walkway to the upper story of Gammage Memorial Auditorium

Judith Pearson photo
College of Law

Patricia D. White, J.D., Dean
www.law.asu.edu

PURPOSE

The College of Law educates students to assume various societal roles in government, legal aid and public defender offices, law enforcement, business, education, and the many other avenues opened by legal training. Some students, while still in school, develop programs of study that involve fields and disciplines outside the law in its conventional sense.

Students of the College of Law develop an understanding, through formal course work and clinical experience, of the tremendous responsibilities of the legal profession to society, and experience the satisfaction that comes from discharging, at a high standard, the duties of counselor and advocate. In addition, the college has a responsibility to contribute to the quality of justice administered in society through research and service to the community.

ORGANIZATION

The College of Law offers a broad general curriculum supported by three leadership programs and an outstanding faculty of scholar-teachers with expertise in areas ranging from jurisprudence to advances in scientific evidence. Law school faculty maintain one of the most productive records of scholarship, research, and publication of any public law program in the nation.

The uniquely designed John S. Armstrong Hall building includes: classrooms and seminar rooms; the Clinical Programs offices; Student Services offices; a Career Planning Resource Center; the Willard H. Pedrick Great Hall, a full-bench setting that seats 400; a classroom equipped with a computer projection unit, broadband capability, VCR, sound system, and infrared system for the hearing impaired; a trial courtroom; and informal student lounges. The mezzanine level houses faculty, staff, and administrative offices.

The award-winning John J. Ross-William C. Blakley Law Library, named in memory of two prominent Phoenix attorneys, is one of the finest law libraries in the Southwest with a collection of more than 310,000 volumes and microform volume equivalents. The collection includes a broad selection of Anglo-American case reports and statutes as well as legal treatises, periodicals, encyclopedias, digests, citators, and administrative materials. The collection also includes growing special collections in the areas of international law, Indian law, Mexican law, and law and technology. In addition, the library has a 20-station computer lab as well as LEXIS and WESTLAW rooms, each containing 10 stations, 27 meeting and study rooms, a microforms facility and a classroom. The library is also a selective U.S. government depository.

Students have ready access to the other campus libraries, including the Charles Trumbell Hayden Library, the Daniel E. Noble Science and Engineering Library, the Architecture and Environmental Design Library, and the Music Library.

The collections of the university’s libraries comprise more than 3 million volumes.

GRADUATE PROGRAMS

Juris Doctor Degree

The College of Law offers a three-year program of professional study at the graduate level leading to the degree of Juris Doctor (J.D.).

Dual/Concurrent Degree Programs

Law students wishing to pursue a joint degree program at ASU must have a joint degree application and program of study approved by the associate dean of the College of Law before pursuing the joint degree.

ADMISSION REQUIREMENTS

Each applicant for admission to the Juris Doctor (J.D.) program must have earned an undergraduate degree from an accredited four-year college or university (B.A., B.S., or other equivalent). The College of Law Admissions Office considers an applicant’s file complete only if it includes each of the following:

1. a completed Application for Admission form;
2. a completed Domicile Affidavit if claiming Arizona residency;
3. a $45 application fee;
4. a personal statement that does not exceed three typed pages in length; and
5. a Law School Data Assembly Service (LSDAS) report with all transcripts and the Law School Admissions Test (LSAT) score(s) from the Law School Admission Services (LSAS).

To be assured consideration, all application materials must be complete by March 1.

SPECIAL PROGRAMS

Center for the Study of Law, Science, and Technology

The Center for the Study of Law, Science, and Technology is a multidisciplinary research center created by the Arizona Board of Regents in 1984. The center publishes research studies, sponsors seminars and symposia, and houses visiting scholars and teachers. Through these programs, the center seeks to contribute to the formulation and improvement of law and public policy affecting science and technology and to the wise application of science and technology in the legal system.

The College of Law offers a substantial number of courses in the law, science, and technology area, including bioethics law and psychiatry, environmental law, health care law, intellectual property, land use regulation, law and evolutionary biology, law and medicine, law and social science,
mass communication, natural resources law, patent law, regulatory problems in law, science and technology, and water law. Each semester, the center publishes a student guide to other less obvious courses that contain science and technology issues. In recent semesters, this guide has listed courses in AIDS and the law, commercial law, employment law, law and the handicapped, antitrust, statistical proof in employment discrimination litigation, and several courses offered by other departments on campus available for registration by law students. In addition to regular course offerings, students can arrange independent studies with supervising faculty on topics of special interest to them. The center also invites guest speakers from legal or scientific fields to visit with interested law students, generally during the noon hour.

In cooperation with the American Bar Association Section on Science and Technology and under the leadership of a faculty editor, second- and third-year students edit Jurimetrics: The Journal of Law, Science and Technology. Student editors do both editorial work on submitted articles and original writing for publication in the journal.

Indian Legal Program
The College of Law offers an Indian Legal Program whose missions are to assist tribal courts and governments in improving justice in Indian country and to develop education and scholarship in Indian law. Students have the opportunity to participate in all phases of the Indian Legal Program and gain in-depth understanding of the legal issues affecting Indian tribes and peoples. Courses on Federal Indian law and seminars on advanced Indian law topics such as Tribal Court dispute resolution, economic development, American Indian cultural resources protection, and tribal environmental law are part of the curriculum. Students may also participate in externships with the local tribal courts or spend a semester in Washington, D.C., working with the Senate Select Committee on Indian Affairs. This variety of academic and work experience provides the students an outstanding legal education with a firm grounding in both the theoretical and practical aspects of Indian law.

Law Journal
The College of Law publishes a professional law review, the Arizona State Law Journal, edited by students of the second- and third-year classes. Membership on the law journal is determined by grade performance in the first year and by submitting written work in a writing competition. Participation on law review is hard but rewarding work. For those eligible, the review provides one of the finest avenues for legal education thus far developed. Its work contributes to the student’s intellectual advancement, to the development of law and the legal profession, and to the stature of the law school.

ADVISING
Preadmission information, advising, and continued support for the J.D. is provided by the College of Law Admissions Office, 480/965-1474.

ACCREDITATION
The college is fully accredited by the American Bar Association and is a member of the Association of American Law Schools.
PURPOSE

The graduate programs in the College of Liberal Arts and Sciences are characterized by both a diversity of disciplines and a commonality of purpose. The disciplinary diversity of the college is broad by intent, embracing those branches of learning most central to the foundations of society in the humanities and the sciences. Unity of purpose is achieved through a common commitment to intellectual integrity, to research, and to the preservation of freedom of academic inquiry, as well as through informal exchanges and cross-disciplinary centers.

The College of Liberal Arts and Sciences has active research programs in all units offering advanced degrees. In recent years, the rapid addition of excellent faculty has enhanced the cadre of senior scholars and scientists with whom graduate students work.

ORGANIZATION

The College of Liberal Arts and Sciences, which offers graduate study in the humanities, the mathematical and the natural sciences, and the social sciences, brings together highly qualified faculty and advanced students to share learning and discovery in 20 academic units and in a number of interdisciplinary centers. In lectures and seminars, in laboratories and libraries, in creative endeavors, field experiences, and research projects, faculty and students cooperate in preserving, evaluating, and expanding knowledge.

GRADUATE PROGRAMS

In cooperation with the Graduate College, faculty affiliated with various departments and units within the College of Liberal Arts and Sciences offer three research-oriented degrees: the M.A., the M.S., and the Ph.D. In addition, four professional degrees are offered: the Master of Natural Science, the Master of Teaching English as a Second Language, the Master of Physical Education, and the Master of Fine Arts, an interdisciplinary creative writing program offered in cooperation with the College of Fine Arts. The interdisciplinary master’s program in Humanities draws faculty expertise from the Departments of Anthropology, Dance, English, History, Languages and Literatures, Philosophy, Religious Studies, and the School of Art. Interdisciplinary programs leading to the Ph.D. degree are offered in Exercise Science, Molecular and Cellular Biology, Science and Engineering of Materials, and Speech and Hearing Science. Many departments within the college participate in the Master of Education, Doctor of Education, and Doctor of Philosophy degrees offered and administered through the College of Education. Members of the Department of Mathematics faculty participate in the interdisciplinary M.S. degree in Statistics (with College of Business faculty); members of the Departments of Biology, Chemistry and Biochemistry, Microbiology, and Plant Biology participate in the interdisciplinary M.S. and Ph.D. in Molecular and Cellular Biology; members of the faculty in the Departments of Anthropology, History, Languages and Literatures, Philosophy, Political Science, Psychology, Religious Studies, and Sociology participate in the interdisciplinary Ph.D. in Justice Studies program; members of the Departments of Geography, Political Science, and Sociology faculty contribute to the interdisciplinary Doctor of Public Administration program; and members of the Departments of English, Family Resources and Human Development, Sociology, and Speech and Hearing Science faculty participate in the interdisciplinary Ph.D. degree in Communication.

One of the unique features of an interdisciplinary program is that it draws upon faculty research and teaching interests from a number of academic units; thus a student may tailor a course of study to fit individual needs and goals.

ADMISSION REQUIREMENTS

Applicants to graduate programs within the College of Liberal Arts and Sciences must meet general requirements for admission established by the Graduate College (see “Admission to the Graduate College,” page 92). In addition, academic units usually require test scores from the Graduate Record Examination and Miller Analogies Test, letters of recommendation, and a statement of purpose. Consult the individual degree programs for particular requirements.

International applicants must also submit Test of English as a Foreign Language (TOEFL) scores and are advised to submit application materials well in advance of deadlines.

SPECIAL PROGRAMS

The college is characterized by the development of program thrusts in new areas, many of which are interdisciplinary in content. There is special strength, for example, in planetary geology, as well as in more traditional geological subdisciplines; in geochemistry, as well as in biochemistry and solid-state and materials science; and in magnetic properties of materials, as well as nuclear physics and surface physics. In psychology, traditional social, developmental, and clinical research is augmented by a new interest in preventive mental health. Flexibility and forward-looking program development pervade all college programs. The interdisciplinary degree in Exercise Science is internationally recognized. The graduate Creative Writing program brings talented students together with distinguished poets, playwrights, and novelists. The Teaching English as a Second Language program attracts students from all over the world.

¹ Graduate students in the School of Justice Studies and the Department of Anthropology are able to receive a concurrent M.S. degree in Justice Studies and M.A. degree in Anthropology.

² This major has formalized concentration(s); other areas of study are available.

³ This program is administered by the Graduate College. See “Graduate College,” page 59.
The Southwest environment has favorably affected program development in several ways, ranging from research activities in water resources, archaeology, and fluvial geomorphology to distinguished programs in Hispanic language, literature, culture, and history.

In addition to traditional and innovative programs within departments, there are multidisciplinary research centers within the college, bringing together faculty from various departments. These include the Centers for Asian Studies, Exercise and Sport Research, Hispanic Research, Latin American Studies, Medieval and Renaissance Studies, Meteorite Studies, and Solid-State Science. Centers sponsor colloquia, workshops, conferences, and visiting scholars. They administer international exchange programs, enhance library holdings and other collections, publish papers and monographs, maintain archives, and employ graduate research assistants.

**COLLEGE FACILITIES**

Strong and nationally funded research facilities, like the Facility for High Resolution Electron Microscopy and the Planetary Geology Laboratory have attained national and international prominence. Important research collections include one of the largest meteorite collections in the world, the holdings of the anthropology archives and museum, the space photography collection, the Herbarium, and extensive library holdings, including important manuscript collections in late 19th-century British literature and historical documents of the Southwest.

Graduate students in all disciplines have access to outstanding computer facilities. Mainframe computing for

1 Graduate students in the School of Justice Studies and the Department of Anthropology are able to receive a concurrent M.S. degree in Justice Studies and M.A. degree in Anthropology.

2 This major has formalized concentration(s); other areas of study are available.

3 This program is administered by the Graduate College. See “Graduate College,” page 59.
research is provided free of charge. There are substantial microcomputer facilities within individual academic units as well as clusters serving the humanities and social sciences. Minicomputer capabilities are found in various academic units. Also refer to “Computing Facilities and Services,” page 37.

FINANCIAL ASSISTANCE AND SUPPORT

In addition to the usual support for graduate students in the form of stipends and teaching and research assistantships, there is a vigorous funding program to support graduate student research. Not only do graduate students obtain grants from external sources to support their research projects, they also receive support from the college and university to present papers at professional meetings.

ADVISING

Faculty advisors in each academic unit provide guidance to graduate students from admission through completion of the program. Consult the director of graduate studies in the appropriate academic unit. Graduate students must follow an approved program of study filed with the Graduate College. The calendar for enrollment activities is published in the schedule of classes for each semester. Teaching and research assistants, who are required to be enrolled in at least six hours, as well as those enrolled for individual project, thesis and dissertation credit, are subject to the same calendar deadlines as students enrolled in regularly scheduled classes.
College of Nursing

Barbara A. Durand, Ed.D., Dean
www.asu.edu/nursing

PURPOSE

The faculty of the College of Nursing acknowledges its responsibility to health care consumers for the preparation of individuals who will provide nursing care of professional quality through teaching, research, and service. The College of Nursing provides educational programs that prepare professional nurses to meet the nursing care needs of individuals, groups, and communities. To achieve this purpose, the college offers the baccalaureate, the graduate, and the continuing education programs. Within the context of a liberal education, the degree programs prepare professional nurses who

1. understand and respond to changing health and social needs and services,
2. influence nursing practice and health care through leadership and participation in professional and sociopolitical activities, and
3. utilize scientific knowledge to advance professional nursing practice.

The continuing education program provides opportunities for nurses to improve and expand their nursing practice, to meet the health care needs of various populations, and to further their own professional development.

ORGANIZATION

The College of Nursing recognizes the three major missions of the university, i.e., teaching, research, and service. The responsibility of the associate dean for graduate programs and research is twofold: to oversee the master’s program, including the progression of students through the program; and to work with faculty and students to facilitate research activities, such as research development. The associate dean for undergraduate programs and extended education is responsible for undergraduate degree programs, progression of students through the program, and extended and continuing education.

The faculty are grouped under two major clinical divisions within nursing: adult health/parent-child nursing and community health/psychosocial nursing systems. Each division has a chair, and each faculty member belongs to a division.

GRADUATE PROGRAM

The graduate curriculum leads to the M.S. degree in Nursing. The graduate program provides an academic environment that fosters scholarship, critical thinking, and creativity, while preparing nurses for leadership as nurse specialists and beginning researchers. The program offers advanced-level courses that can be used as a base for doctoral study and for functional role development in teaching, management, or practice as a nurse practitioner.

Students may select one area of concentration from the following offerings:

- Adult health nursing
- Community health nursing
- Community mental health/psychiatric nursing
- Family health nursing
- Nursing administration
- Parent-child nursing (options include childbearing family and nursing of children)

The curriculum also provides elective study in teaching, management, and practitioner roles, including adult, child, family, psychiatric, and women’s health nurse practitioner roles.

A post-master’s Family Nurse Practitioner Certificate is available. The certificate program is offered periodically based on community need and college resources.

A student may concurrently pursue the M.S. degree in Nursing (nursing administration concentration) and the Master of Health Services Administration (College of Business).

SPECIAL PROGRAMS AND SERVICES

Continuing Education Program. This program presents a variety of noncredit offerings on the main campus, west campus, and off-campus locations. These offerings are designed to assist practicing professional nurses in maintaining and enhancing their competencies, broadening their scientific knowledge base, and further developing their skills in the changing health care environment. Workshops, conferences, institutes, short evening courses, and special programs are offered at times convenient to the working professional. Some offerings are multidisciplinary and are also open to individuals in professions outside of nursing.

Student Services. The Student Services Office in the College of Nursing provides academic advising, general advising, and referral to university resources. Prospective students with academic questions relating to the College of Nursing should contact the College of Nursing Student Services Office.

Scholarships and Financial Assistance. Information about scholarships and loan funds for nursing students may be obtained from the Student Financial Assistance Office, College of Nursing Office of Student Services, or the associate dean for graduate programs and research.

College Council of Nursing Students. The council is a member of ASASU (Associated Students of Arizona State University) and serves as the governing body of all student activities in the college. The College Council of Nursing Students provides for communication, cooperation, and understanding among undergraduate students, graduate students, and faculty, and represents the college in university and nonuniversity affairs.
Graduate Nurse Organization. The Graduate Nurse Organization (GNO) is the coordinating body for nursing students in the graduate program. It provides programs, information, and orientation services for graduate students and complements their academic experiences.

Sigma Theta Tau. Beta Upsilon Chapter of Sigma Theta Tau was chartered at the ASU College of Nursing in 1976. Membership in Sigma Theta Tau is an honor conferred on students in baccalaureate and graduate programs who have demonstrated outstanding academic and professional achievement.

COLLEGE FACILITIES

Learning experiences with patients and their families are provided under the supervision of qualified faculty with the cooperation of a variety of federal, state, county, and private health agencies. The College of Nursing has contracts with more than 240 agencies in the Phoenix metropolitan area. The college also operates a unique nurse-managed clinic in a community setting, as well as several other community or school-based outreach programs.

ADVISING

Students are advised by the Student Services Office before admission to the graduate program. Upon admission, each student is assigned a faculty advisor within the area of concentration. Questions may also be directed to the associate dean for graduate programs and research.

ACCREDITATION

The baccalaureate and master’s programs of the College of Nursing are accredited by the Arizona State Board of Nursing and the National League for Nursing. The continuing education program is accredited by the Western Regional Accrediting Committee of the American Nurses’ Association as a provider of Continuing Education for Nursing. The college is a member of the Council of Member Agencies for the Baccalaureate and Higher Degree Programs of the National League for Nursing, the Western Institute of Nursing, and the American Association of Colleges of Nurses.

Graduate nursing student Mia Kilmartin Smitt (left), listens to the heartbeat of a child at the Community Services Health Clinic, under the supervision of Collette Toronto (right), a nurse practitioner.

Dave Tevis photo
College of Public Programs

Anne L. Schneider, Ph.D., Dean
www.asu.edu/copp

PurPose
The College of Public Programs offers a wide range of course work, in both on-campus and off-campus settings, to full-time and part-time students. Through the Graduate College, faculty offer various programs leading to graduate degrees. Each academic unit of the College of Public Programs not only assumes responsibility in preparing its own majors, but also provides a variety of service courses for the rest of the university. The college is committed to excellence in teaching, research, and public service. College units work closely with numerous public and private agencies at the national, state, and local levels.

Organization
The College of Public Programs consists of six academic units: the Hugh Downs School of Human Communication, the Walter Cronkite School of Journalism and Telecommunication, the Department of Recreation Management and Tourism, the School of Public Affairs, the School of Justice Studies, and the School of Social Work. Each academic unit is administered by a chair or director.

Hugh Downs School of Human Communication. The faculty in the Hugh Downs School of Human Communication advance the understanding of message-related human behavior in part through the M.A. degree in Communication. The focus of the M.A. degree program is research in one of five areas: intercultural communication, interpersonal communication, organizational communication, performance studies, and rhetoric/public address.

Faculty in the Hugh Downs School of Human Communication participate in offering the interdisciplinary Ph.D. degree in Communication. The program is designed to prepare scholars for research-oriented careers in universities and in the public and private sectors and offers areas of study in critical/cultural studies, information technology, intercultural communication, interpersonal communication, organizational communication, performance studies, relational communication, and rhetoric.

Walter Cronkite School of Journalism and Telecommunication. The faculty in the Walter Cronkite School of Journalism and Telecommunication offer the Master of Mass Communication degree (M.M.C.). The M.M.C. is designed to accommodate students who wish to study in the fields of journalism, broadcasting, or public relations. The program provides broader training for professionals employed in the media and for those who wish to enter media fields.

Department of Recreation Management and Tourism. The faculty in the Department of Recreation Management and Tourism offer a graduate program leading to the M.S. degree in Recreation. The program focuses both on building professional knowledge and developing the ability to critically analyze topics and issues related to the recreation and tourism fields. Students choose between pursuing a more academic, focused thesis option or the more professionally applied nonthesis option. Each student takes graduate core courses in the department and then can pursue individual interests with related course work and a research project.

School of Public Affairs. The faculty in the School of Public Affairs offer a professional graduate program leading to the Master of Public Administration degree. Courses are offered in the evenings to fit the scheduling needs of working students. The diversity of the school’s program offerings accommodates both preservice students and midcareer public administrators. State and local government internships are available to those with no previous public sector experience. Students work with faculty on the school’s active research and publications program, including public policy reports and other community service projects for state and local governments in Arizona.

The school also administers the interdisciplinary Doctor of Public Administration program. Faculty of the School of Public Affairs participate in offering this degree program.

School of Justice Studies. The School of Justice Studies provides an interdisciplinary social science perspective for studying law and justice, crime and delinquency, dispute resolution, gender justice, racial and ethnic minorities and the law, and social and economic justice. Its faculty have academic backgrounds in anthropology, criminology, history, law, philosophy, political science, psychology, and sociology.

Faculty in the School of Justice Studies also participate in offering the Doctor of Public Administration degree. The school administers the interdisciplinary Ph.D. program in Justice Studies under the auspices of the Graduate College.

School of Social Work. The School of Social Work offers the full complement of social work academic programs (B.S.W., M.S.W., and PH.D.). The mission and goals of the school are consistent with the university’s mission and overall objectives, as can be seen in the school’s focus on excellence in professional instruction; the advancement of social work research and the understanding of social issues; and public/community service. Central to the mission of the school is the emphasis on an understanding of and respect for the unique cultural diversity of the Southwest and the promotion of social and economic justice.

Graduate Programs
Graduate degree programs as shown in the “College of Public Programs Graduate Degrees and Majors” table, page 91, are offered by the faculty within the college.

One of the unique features of an interdisciplinary program is that it uses faculty research and teaching interests from a large number of academic units. Students may tailor a course of study to fit individual needs and goals.
ADMISSION REQUIREMENTS

Admission requirements of all advanced degree programs within the college are connected with those required by the Graduate College. In addition, individual units may require further supporting materials such as letters of recommendation, scores on the Graduate Record Examination, statements of educational and career goals, and writing samples. Applicants should refer to requirements specified by the academic unit under each degree program in this catalog.

SPECIAL PROGRAMS

Concurrent M.A. in Anthropology and M.S. in Justice Studies. Graduate students in the School of Justice Studies and the Department of Anthropology may pursue a concurrent M.S. degree in Justice Studies and M.A. degree in Anthropology with a concentration in social-cultural anthropology. The purpose of the program is to prepare individuals with combined, complementary knowledge and skills for basic and applied research, and administrative and educational activities related to both disciplines. Students must be admitted separately to each program, following the guidelines established by the Graduate College, Department of Anthropology, and School of Justice Studies. Additional information on concurrent degrees may be obtained from the respective academic units.

Concurrent Ph.D. in Justice Studies/J.D. The purpose of the Ph.D. in Justice Studies/J.D. is to provide a rigorous education for highly qualified students interested in pursuing academic careers in law, law and the social sciences, or law and philosophy.

COLLEGE FACILITIES

Microcomputer training and remote site terminal access are available to students in all programs within the College of Public Programs. Academic units provide facilities, equipment, and support for student research, including laboratory space, computer terminals connected to the mainframe computer, and personal computers for individual student use. See “Computing Facilities and Services,” page 37.

Broadcast laboratories within the School of Journalism and Telecommunication have the latest in-studio and ENG-EERP equipment, and provide facilities for performance, writing, and the other necessary broadcast skills.

ADVISING

Advising of graduate students is usually handled by graduate faculty or a committee. Once admitted, students are typically assigned a temporary faculty advisor in the potential areas of specialization who will assist in planning a course of study. For those degree programs requiring the completion of a thesis, a chair and thesis supervisory committee are selected by the director of graduate studies, in consultation with the student, and appointed by the dean of the Graduate College.

ACCREDITATION

The Walter Cronkite School of Journalism and Telecommunication is accredited by the Accrediting Council on Education in Journalism and Mass Communication (ACEJMC). The Master of Public Administration program is accredited by the National Association of Schools of Public Affairs and Administration. The School of Social Work is fully accredited by the council on Social Work Education.

Graduate Studies at ASU Main and ASU East

GRADUATE DEGREES AND MAJORS

The Graduate College at ASU provides students with opportunities to study beyond the bachelor’s degree. The college enrolls students in programs leading to both professional and research-oriented advanced degrees. The M.A., M.S., and Ph.D. degrees are awarded to students completing programs that culminate in research and creative endeavors. The Ph.D. degree is the highest university award, conferred on candidates who have proven their ability as scholars and original researchers.

Professional graduate programs emphasize training that leads to professional practice. In these degree programs, students develop a mastery of a comprehensive body of knowledge and the ability to organize and carry out significant investigations in their professional field. Professional degrees usually are named Master of (Professional Field) and Doctor of (Professional Field), although some Master of Arts and Master of Science degree programs have professional tracks. The professional doctoral degree is the highest university award to candidates completing academic preparation for professional practice. The following professional degrees are offered through the Graduate College:

- Master of Accountancy and Information Systems
- Master of Architecture
- Master of Business Administration
- Master of Computer Science
- Master of Counseling
- Master of Education
- Master of Engineering
- Master of Environmental Planning
- Master of Fine Arts
- Master of Health Services Administration
- Master of Mass Communication
- Master of Music
- Master of Natural Science
- Master of Physical Education
- Master of Public Administration
- Master of Science in Design
- Master of Science in Engineering
- Master of Science in Technology
- Master of Social Work
- Master of Taxation
- Master of Teaching English as a Second Language
- Doctor of Education
- Doctor of Musical Arts
- Doctor of Public Administration

Faculty members offering a specific graduate degree program may be members of a single academic unit (such as a department, school, or college), or they may form an interdisciplinary committee consisting of faculty from various academic units. The Graduate College awards degrees upon the recommendation of the faculty offering the graduate degree programs.

Interdisciplinary Study

Although most graduate programs are administered by academic units, a diverse group of interdisciplinary programs falls directly under the supervision of the Graduate College. Many majors are in fields that are still emerging as recognized academic disciplines and, therefore, do not customarily form the academic basis for departments. Other fields of study are inherently interdisciplinary and do not fit well with conventional disciplines around which departments are formed. Curricula must reflect intrinsically broad disciplinary affinities, and faculty must be drawn from more than one department.

The Graduate College oversees nine interdisciplinary programs and has joint responsibility with the College of Education for another; several others are planned. Existing interdisciplinary programs are as follows:

- Creative Writing (M.F.A.)
- Curriculum and Instruction (Ph.D.) (jointly administered with the College of Education)
- Exercise Science (Ph.D.)
- Gerontology Program (Certificate in Gerontology)
- Justice Studies (Ph.D.)
- Science and Engineering of Materials (Ph.D.)
- Speech and Hearing Science (Ph.D.)
- Statistics (M.S.)
- Transportation Systems (Certificate in Transportation Systems)

Other interdisciplinary programs include Communication (Ph.D.), administered by the College of Public Programs; History and Theory of Art (Ph.D.), jointly offered with the University of Arizona, administered by the School of Art; Humanities (M.A.), administered by the College of Liberal Arts and Sciences; Molecular and Cellular Biology (M.S., Ph.D.), administered by the College of Liberal Arts and Sciences; and Public Administration (D.P.A.), administered by the School of Public Affairs.

Each of these programs uses resources and faculty from several disciplines. The programs promote cooperative research and instruction among faculty who share common interests but are housed in different academic units. Interdisciplinary programs allow students to pursue degrees that are intellectually coherent while bringing together diverse strengths of the university.

Certificate Programs

A number of certificate programs are offered by various academic units or programs on campus, see “ASU Graduate Certificates,” page 19.

ADMISSION TO THE GRADUATE COLLEGE

Eligibility

Anyone who holds a bachelor’s (or equivalent) or graduate degree from a college or university of recognized standing is eligible to apply for admission to the Graduate Col-
lege. Remedies for undergraduate deficiencies may be assigned if the undergraduate degree is based on credits not accepted by ASU, such as life experience or noncredit workshops and seminars.

**Graduate College Requirements**

Generally, an applicant must have a GPA of 3.00 (scale is 4.00 = A), or the equivalent, in the last two years of work leading to the bachelor’s degree. A student who enters a graduate degree program is expected to have undergraduate educational experiences, including general education studies, that are similar to those required for the baccalaureate degree at ASU.

**Requirements of the Academic Unit**

Academic units, departments, or colleges, may have admission requirements in addition to those of the Graduate College. Many graduate programs require scores from a national admissions test such as the Graduate Record Examination, Graduate Management Admission Test, or the Miller Analogies Test. Some programs require a portfolio, letters of recommendation, or a statement of goals. Applicants should contact the academic unit regarding specific requirements.

**Submission of an Application**

For admission information and procedures, access the Web site at www.asu.edu/graduate/admission or refer to the Application for Graduate Admission booklet. Students may apply via the Web, by mail, or by fax.

**Application Fee**

Each application for entry to ASU graduate programs must be accompanied by a nonrefundable application fee. The fee is $45 to apply for admission to a degree program and $15 to apply for nondegree studies. For admission information and procedures, access the Web site at www.asu.edu/graduate/admission, or refer to the Application for Graduate Admission booklet.

**International Applicants**

Applicants who will attend the university while holding F-1 or J-1 visas must meet the regulations of the Immigration and Naturalization Services in addition to the requirements of the Graduate College and the academic units to which they apply.

International applicants must meet the requirements of the Graduate College as well as those of the degree program to which they apply. Applicants from outside the United States are also required to submit additional materials and should follow the procedures described in the Application for Graduate Admission booklet, or access the Web site at www.asu.edu/graduate/admission. International applicants should read this information carefully to become familiar with all the requirements they must meet and should consult it often for the instructions they must follow in submitting materials. The Graduate Catalog provides essential information about ASU and its graduate programs, but applicants can also consult the ASU listings in Peter- son’s Graduate Education Directory and in the Directory of Graduate Programs (published by the Educational Testing Service).

**TOEFL Requirement.** Among the additional materials required of international students are scores from English language examinations. All applicants whose native language is not English must submit a score from the Test of English as a Foreign Language (TOEFL). The TOEFL can be waived if the undergraduate degree is earned from an English-speaking institution. For a complete list of TOEFL requirements, see page 7 of the Graduate Admissions booklet or refer to the Web site at www.asu.edu/graduate/admission.

Among the additional materials required of international students are scores from English language examinations. All applicants whose native language is not English must submit a score from the Test of English as a Foreign Language (TOEFL). All international applicants who do not speak English as a primary language and who wish to apply for teaching assistantships must pass an examination that certifies their skill in speaking English—either the Test of Spoken English (TSE), which may be taken in the student’s home country, or the Speaking Proficiency English Assessment Kit (SPEAK) test, which is administered at ASU. Some degree programs also require TSE or SPEAK scores of applicants whose native language is not English. For specific information about TSE requirements, contact the head of the academic unit.

As required by the U.S. Immigration and Naturalization Service, international applicants must also verify that they have the financial resources to cover their expenses during graduate study at ASU. The Financial Guarantee form is available in the Application for Graduate Admission booklet. It can also be accessed through the Graduate College Web site at www.asu.edu/graduate/admission. International applicants must submit the form with a verification from a bank or sponsoring organization to Graduate Admissions. The I–20 or the IAP66 (documents needed to obtain a student visa) are issued only after the completed, properly verified Financial Guarantee form has arrived. International students may enroll at ASU only if they have been admitted to a degree program, a certificate program, or the postbaccalaureate teacher education program. They must meet all appropriate immigration standards and requirements.

Applications are processed when they are received. However, international applicants should submit all materials in December or January in order to begin study the following fall semester and in August or September in order to begin study the following spring semester. An application fee of $45 (in U.S. funds) must accompany the formal application, which otherwise is not processed.

All F-1 or J-1 visa students must have insurance coverage against illness and accident before being permitted to register. Insurance must be maintained throughout the student’s enrollment in the university and may be obtained at the time of registration.

Upon arrival on campus, students must report to the advisor in the International Student Office.

**Additional Information**

The Graduate College does not have deadlines. Applications are processed as they are received. However, many academic units have specific and early deadlines; many units review applications once a year, usually in January or February for fall admission. Applicants are urged to contact the academic units regarding deadlines.

Academic units, which must indicate their willingness to admit applicants, frequently set higher standards than those established by the Graduate College. Many qualified
applicants are denied because of limits on the number of students admitted each year.

Notice of Admission Decisions
Only the dean of the Graduate College can make formal offers of admission. The Graduate College notifies all applicants in writing of the admission decision.

All academic credentials and supporting materials received by the university in connection with an application for admission become the property of ASU. If the applicant does not enroll in the university within one year, the admission documents may be destroyed.

The date (month/day/year) on the Graduate College dean’s letter of admission is the actual date of admission. If the student is enrolled in courses on the admission date, those courses—if applicable—may be considered part of a program of study. Courses taken the semester before this date are nondegree hours.

Admission Classifications

Regular Admission. Applicants who fulfill all requirements for admission and are acceptable to both the academic unit and the Graduate College are granted regular admission.

Regular Admission with Deficiencies. A student whose grades and test scores are at an acceptable level but who does not have the undergraduate background expected by the academic unit and the university may be required to complete courses to remedy deficiencies. The letter of admission specifies the deficiencies that must be completed before the student is awarded a graduate degree. Deficiency courses may not be applied toward the minimum hours required for the degree program.

Provisional Admission. A student who does not meet minimum academic standards but has counterbalancing evidence to suggest the potential for success may be admitted on a provisional basis. Provisional admission provides an academic unit with more evidence on which to base its decision. Normally the academic unit reviews the student’s status following completion of 12 semester hours of approved graduate study. At that time, the academic unit recommends to the Graduate College a change in status to either regular admission or withdrawal from the program. When students have completed their provisional requirements, they should check with their advisors to make sure that the change of status has been recommended. A provisional student may also be assigned deficiencies.

Nondegree Admission. A student not interested in earning a degree or not yet ready to apply to a particular degree program may enroll as a nondegree student. The application process is streamlined and does not require submission of transcripts or test scores. For nondegree admission information and procedures, access the Web site at www.asu.edu/graduate/admission or refer to the Application for Graduate Admission booklet. Students may apply electronically. A maximum of nine hours taken at ASU while in this category may be applied toward a master’s degree if appropriate for the student’s program of study.

The six-year maximum time limit applies to nondegree semester hours appearing on a master’s program of study. In addition, because of limited class size and resources, certain academic units may limit the enrollment of nondegree students.

Recognition of a Degree
Recognition of a degree is acknowledgment that the program leading to the degree is equivalent to a program offered by ASU or is an acceptable program for the proposed graduate major at ASU. A student who enters a graduate degree program at ASU is expected to have undergraduate educational experiences, including general education studies, that are appropriate for the program.

Definition of a Unit of Credit
The Arizona Board of Regents has defined (May 26, 1979) a unit of credit for the institutions under its jurisdiction. A minimum of 45 hours of work by each student is required for each unit of credit. An hour of work is the equivalent of 50 minutes of class time (often called a “contact hour”) or 60 minutes of independent study work. For lecture-discussion courses, this requirement equates to at least 15 contact hours and a minimum of 30 hours of work outside of the classroom for each unit of credit. Even though the values of 15 and 30 may vary for different modes of instruction, the minimum total of 45 hours of work for each unit of credit is a constant. Since the unit of credit as defined by the Arizona Board of Regents is the cornerstone of academic degree programs at ASU, degrees granted by other institutions that are recognized by ASU should be based on a similar unit of credit.

GRADUATE COLLEGE PROCEDURES

Change in Graduate Degree Program
A change from one graduate degree program to another requires a new application to the Graduate College. The usual admission procedures are followed. For details on matters relating to the application fee, see “Admission Application,” page 47.

Readmission to the Graduate College
Any graduate student who has not been in attendance at the university for one or more semesters must submit an application for readmission to the Graduate College. The application should be submitted at least one month before the beginning of the semester in which the student plans to reenter. For details on readmission and other matters relating to the application fee, access the Web site at www.asu.edu/graduate/admission or refer to the Application for Graduate Admission booklet.

Determination of Catalog Requirements
The Graduate Catalog is published annually. Requirements for an academic unit or college, campus, or the university as a whole, may change and are often upgraded.

A student graduates under the curriculum, course requirements, and regulations for graduation in effect at the time of admission to a graduate degree program at ASU. A student may also choose to graduate under any subsequent catalog issued. In determining graduation requirements, a student may use only one catalog.

Some changes in policies and procedures affect all students regardless of the catalog used by the student. These policies and procedures may appear in the catalog or in other university publications.
Registration

Graduate students, like all university students, register during the intervals indicated in the Schedule of Classes issued by the Office of the Registrar. Details regarding registration and course drop-add procedures are also provided in the Schedule of Classes. Day and evening graduate classes, offered on or off campus, during the two regular semesters and the summer sessions, are considered part of the regular program.

InTouch, the ASU touch-tone telephone system for registration and fee payment, and the online registration system, accessed at any registrar site, ease the enrollment process.

Audit Enrollment

Graduate students may register as auditors in one or more courses with the approval of the supervisory committee chair and the consent of the instructor involved. The student must be registered properly and pay the fees for the course. An audited course is counted in the student’s maximum course load. It does not count for students who must take a minimum number of credits, e.g., teaching assistants or students receiving financial assistance. The mark of “X” is recorded for completion of an audited course, unless the instructor determines that the student’s participation or attendance has been inadequate, in which case a “W” may be recorded.

Withdrawal Policies and Procedures

Students who find it necessary to withdraw from the university should obtain and complete an official withdrawal form from any registrar site. Until officially withdrawn, the student is registered in all courses and, at the end of the semester, receives grades appropriate for the performance in each course. A student who officially withdraws from the university during the first four weeks of a semester receives the mark of “W” in all courses registered. A student who officially withdraws from the university later than the fourth week receives a mark of “W” or “E,” depending upon the quality of work at the time of official withdrawal. No student is permitted to withdraw during or after the last two weeks of the semester (the last week of classes and final examination week).

Failure to withdraw officially from a course results in a grade of “E,” which is used in the computation of the GPA. The Schedule of Classes lists the procedures for withdrawal.

An instructor may withdraw a student from a class with a mark of “W” or a grade of “E” for disruptive classroom behavior. A student may appeal an instructor-initiated withdrawal to the standards committee of the college in which the course is offered. The decision of the committee is final.

A graduate student who does not enroll for three calendar years is considered withdrawn and must reapply for admission to a degree program.

Unrestricted Withdrawal. During the first four weeks of a semester or the first six days of a summer session, a student may withdraw from any course with a mark of “W.” See the Schedule of Classes or the Summer Sessions Bulletin for the dates of the unrestricted withdrawal period.

Restricted Withdrawal. From the fifth week to the end of the 10th week of a semester and from the seventh day to the end of the third week of a summer session, students may withdraw with a mark of “W” from courses only in which the instructor certifies that they are passing at the time of the withdrawal. See the Schedule of Classes or the Summer Sessions Bulletin for dates of the restricted withdrawal period.

Medical Withdrawal. Normally, a medical withdrawal request is made in cases where serious illness or injury prevents a student from continuing courses and incompletes or when other arrangements with the instructor are not possible. Consideration is usually given for complete withdrawal. An application for less than a complete withdrawal must be well documented to justify the selective nature of the medical withdrawal request. This policy applies both to cases involving physical health problems and those involving mental or emotional difficulties.

To receive permission for a medical withdrawal from courses, a student must present a Request for Documented Medical Withdrawal form and proper documentation (usually a letter from a physician) of the medical condition to the medical withdrawal designee of the college of the student’s major. For complete procedural information, contact the appropriate medical withdrawal designee.

Course Load

The course load is determined by the supervisory committee but is not to exceed 15 semester hours of credit during each of the two semesters. Refer to the current Summer Sessions Bulletin for course load limit for five-week and eight-week sessions. An audited course is counted in the student’s maximum load.

All teaching and research assistants and associates must enroll for a minimum of six semester hours during each semester (fall and spring) of their appointment. The six hours cannot include audit enrollment. Enrollment in continuing registration (595, 695, or 795) does not fulfill the six-hour requirement. A half-time (50 percent) teaching and research assistant or associate working 20 clock hours per week may not register for more than 12 hours of course work each semester; a third-time (33 percent) assistant or associate for more than 13 hours; and a quarter-time (25 percent) assistant or associate for more than 15 hours.

All graduate students doing research, working on theses or dissertations, taking comprehensive or final examinations, or using university facilities or faculty time must be registered for a minimum of one semester hour of credit, not audit, that appears on the program of study or is an appropriate graduate-level course, such as 595, 695, or 795. Continuing Registration.

Doctoral students fulfilling residence requirements for the Doctor of Philosophy and Doctor of Musical Arts degrees must be enrolled full time (nine semester hours minimum or six semester hours for research assistants or teaching assistants) during the specified period. See “Residency Classification Procedures and Policies,” page 50, and specific degree requirements for fulfilling residence requirements for other doctoral degree programs.

Summer Course Loads. Refer to the current Summer Sessions Bulletin for course load limit for five-week and eight-week sessions.

Enrollment Verification Guidelines. The registrar is responsible for verifying enrollment according to the general guidelines in the “Enrollment Verification Guidelines” table, page 96.

\(^1\) This grade is given whenever a student officially withdraws.
\(^2\) This grade is usually given pending completion of courses.

University Policy for Student Appeal Procedures on Grades

Informal. The steps outlined below, beginning with step A, must be followed by any student seeking to appeal a grade.

Graduate student appeals must be processed in the regular semester immediately following the issuance of the grade in dispute (by commencement for fall or spring), regardless of whether the student is enrolled at the university. It is university policy that students filing grievances and those who are witnesses will be protected from retaliation. Before beginning an appeal, students should speak to the appropriate, designated administrator in the academic dean’s office of the college in which the course is offered.

A. The aggrieved student must first undergo the informal procedure of conferring with the instructor, stating the evidence (if any) and reasons for questioning that the grade received was not given in good faith. The instructor is obliged to review the matter, explain the grading procedure utilized, and show how the grade in question was determined. If the instructor is a graduate assistant and this interview does not resolve the difficulty, the student may then go to the faculty member in charge of the course (regular faculty member or director of the course sequence) with the problem.

B. If the grading dispute is not resolved in step A, the student may appeal to the department chair or other appropriate chair of the area within the department (if any). The department chair may confer with the instructor to
handle the problem. Step B applies only in departmentalized colleges.

C. If these discussions are not adequate to settle the matter to the complainant’s satisfaction, the student may then confer with the dean of the college concerned (or the dean-designate), who will review the case. If unresolved, the dean or designee may refer the case to the college academic grievance hearing committee to review the case formally. In most instances, however, the grievance procedure does not go beyond this level.

Formal. The following procedure takes place after steps A, B, and C (or A and C) have been completed.

D. Each college has on file in the office of the dean (and in each department of the college) the procedures and composition of the undergraduate or graduate academic grievance hearing committee for student grievances. Each college committee shall operate under grievance procedures as stated, which satisfy due process requirements. The committee shall always meet with the student and the instructor in an attempt to resolve the differences. At the conclusion of the hearing, the committee shall send its recommendations to the dean.

E. Final action in each case is taken by the dean after full consideration of the committee’s recommendation. Grade changes, if any are recommended, may be made by the dean. The dean shall inform the student, instructor, department chair (if any), the registrar, and the grievance committee of any action taken.

Scholarship
To be eligible for a degree in the Graduate College, a student must achieve two GPAs of “B” (3.00) or higher. The first GPA is based on all courses numbered 500 or higher that appear on the transcript. (Courses noted as deficiencies in the original letter of admission are not included.) The second GPA is based on all courses that appear on the program of study.

Graduate students (degree or nondegree) may retake any courses at any level at ASU, but all grades remain on the student transcript as well as in GPA calculations.

Academic excellence is expected of students doing graduate work. Upon recommendation from the head of the academic unit, the dean of the Graduate College can withdraw a student who is not progressing satisfactorily.

The designation of honors (summa cum laude, magna cum laude, and cum laude) is reserved for undergraduates. The Graduate College does not use these academic distinctions.

Graduate Credit Courses
Courses at the 500, 600, and 700 levels are graduate credit courses. Courses at the 400 level apply to graduate degree requirements when appearing on an approved program of study. However, 400-level courses are not graduate courses by definition and cannot be certified as such for purposes of employment or transferring to other institutions.

Reserving of Course Credit by Undergraduates. Seniors at ASU within 12 semester hours of graduation may enroll in a 400-level or graduate course and reserve the credit for possible use in a future graduate program. The course cannot be used to meet a baccalaureate graduation requirement. Before registration in the class, the student must submit a Graduate College Petition form requesting credit reservation; the form must be signed by the student’s advisor, the head of the academic unit offering the class, and the dean of the Graduate College.

Permission to reserve a course does not guarantee admission to a graduate degree program or that the course may be used toward graduate degree requirements. A maximum of nine hours of credit may be reserved, and only courses with an “A” or “B” grade are applicable. Reserved credit earned before admission to a graduate degree program is classified as nondegree credit. The maximum course load for a student enrolled in a reserved course is 15 semester hours during a regular semester and six hours during a summer session.

Transfer Credit. Transfer of credit is the acceptance of credit from another institution for inclusion in a program of study leading to a degree awarded by ASU. The number of hours transferred from other institutions may not exceed 20 percent of the total minimum semester hours required for a master’s degree unless stated otherwise for a specific degree program.

Transfer credit taken before admission to a graduate degree program at ASU Main or East is nondegree credit. Nondegree credit taken at ASU Main or East combined with nondegree credit taken at another institution may not exceed nine hours on the master’s program of study. The nine-hour limit does not apply to doctoral programs.

The date (month/day/year) on the Graduate College dean’s letter of admission is the actual date of admission. If the student is enrolled in courses on the admission date, those courses—if applicable—may be considered part of a program of study. Courses taken the semester before this date are nondegree hours. Courses taken at ASU West are considered transferred credit.

Transfer credits must be acceptable toward graduate degrees at the institution where the courses were completed. Certain types of graduate credits cannot be transferred to ASU, including the following:

1. credits awarded by postsecondary institutions in the United States that lack candidate status or accreditation by a regional accrediting association;
2. credits awarded by postsecondary institutions for life experience;
3. credits awarded by postsecondary institutions for courses taken at noncollegiate institutions (e.g., government agencies, corporations, and industrial firms);
4. credits awarded by postsecondary institutions for noncredit courses, workshops, and seminars offered by other postsecondary institutions as part of continuing education programs; and
5. credits given for extension courses.

Acceptable academic credits earned at other institutions that are based on a different unit of credit than the ones prescribed by the Arizona Board of Regents are subject to conversion before being transferred to ASU.

Only resident graduate courses with an “A” or “B” grade may be transferred. A course with the grade of pass, credit, or satisfactory may not be transferred.

Official transcripts of any transfer credit to be used on a program of study must be sent directly to the Graduate
Admissions Office from the Office of the Registrar at the institution where the credit was earned.

**Graduate Supervisory Committees**

When the program of study is filed, upon the recommendation of the head of the academic unit, the dean of the Graduate College appoints a graduate student's supervisory committee, consisting of a chair and other resident faculty members. The number of members serving on this committee depends on the degree program.

Academic professionals (e.g., research scientists, research engineers), nontenure-track faculty (e.g., adjunct professors, research professors), and individuals granted affiliated faculty status through established university procedures may serve as cochairs, members, or extra members of thesis and dissertation committees upon approval by the Graduate College. Individuals who are recommended by an academic unit as eligible to serve as a cochair must meet the criteria established by the academic unit and be approved by the Graduate College.

Upon the recommendation of the committee chair and head of the academic unit, ASU West tenured (or tenure-track) faculty may serve on master's and doctoral committees at ASU Main. ASU West tenured (or tenure-track) faculty may serve as cochairs for theses and dissertations at ASU Main upon the recommendation of the head of the academic unit and approval of the dean of the Graduate College. Cochairs must meet the academic unit's criteria for chairing theses and dissertations.

Qualified individuals outside the university, upon the recommendation of the head of the academic unit and approval of the Graduate College, may serve as members of thesis and dissertation committees; however, such individuals may not serve as chairs or cochairs (unless they have affiliated faculty status). With the approval of the academic unit and the dean of the Graduate College, former ASU faculty with students completing their degrees may continue to serve as cochairs. At least 50 percent of the committee must be faculty from ASU Main.

**Foreign Language Requirements**

A graduate degree program may require proficiency in a foreign language. If a foreign language is required, students must demonstrate at least a reading knowledge in the area of study required by the supervisory committee and consistent with the requirements for the graduate degree program. Normally, the language is selected from French, German, Russian, or Spanish, although other languages may be recommended when there is adequate justification.

Students who are required to demonstrate proficiency in a foreign language must pass a foreign language examination specific to their particular graduate program. The examinations are administered three times each year by the Department of Languages and Literatures, which certifies language competency. Students planning to take the examination must register in the Graduate College at least one month in advance of the examination date. The chair of the student's supervisory committee is responsible for providing the Department of Languages and Literatures with materials from which the examination is then prepared. The chair should submit or recommend relevant books or journals of approximately 200 pages in length in the desired foreign language.

A student may petition the Graduate College for a reexamination but must pass the examination in no more than three attempts.

**Theses and Dissertations**

The master's thesis or equivalent is an introduction to research writing. All doctoral degree candidates must submit a dissertation, with the exception of the Doctor of Musical Arts degree in Music (concentrations in choral conducting and solo performance), which requires three recitals and a research paper. The Ph.D. dissertation should be a valuable educational experience that demonstrates the candidate's mastery of research methods, theory, and tools of the discipline. It should demonstrate the candidate's ability to address a major intellectual problem and to propose meaningful questions and hypotheses. The dissertation should be a contribution to knowledge that is worthy of publication by an established press as a book or monograph or as one or more articles in a reputable journal.

For format, the Graduate College must review the final copy of the master's thesis, doctoral dissertation, and other final documents that are required to be placed in the library. Copies of the *Format Manual* are available on the Web at www.asu.edu/graduate/formatmanual and in the Graduate College. The student is required to submit appropriate signed forms and a complete copy of the thesis or dissertation for format review at least 10 working days (two weeks if there are no holidays during the time period) before the oral defense. Doctoral students must also submit a completed Survey of Earned Doctorates Awarded in the United States, conducted by the National Research Council.

Graduate students and their supervisory committee chairs jointly select a style guide or journal format representative of the field of study. The Graduate College allows certain flexibility in the format of the manuscript, but Graduate College and library guidelines must be followed.

The student must submit two final copies of a thesis or dissertation to the ASU Bookstore for binding. The student is responsible for the binding fees. Bound copies are placed in the Hayden Library and Archives. Doctoral students must submit one copy of the title page, approval page, and abstract (which must not exceed 350 words); the original signature of the doctoral student must appear on the University Microfilms International (UMI) Dissertation Agreement Form. The student is responsible for the UMI microfilming fee, which covers the expense of having the document sent to UMI, where it is microfilmed and catalogued. Information on the dissertation will appear in *Dissertation Abstracts International*.

**Application for Graduation**

Students should apply for graduation no later than the date specified in the “Graduate College Calendar,” page 20. All fees are payable at that time. Students applying for graduation after the deadline listed in the “Graduate College Calendar” are required to pay a late fee. At the end of the semester in which they apply for graduation, students are officially notified of any requirements for their degree that they have not yet completed.

Students are requested to complete a questionnaire that serves as a graduate student exit survey.

Students who do not complete all degree requirements by their anticipated graduation date are required to pay a refiling fee.
Summer Sessions
Work taken during the summer sessions carries the same scholastic recognition as that taken during the regular semester. A complete schedule of offerings is available in the Summer Sessions Bulletin, which may be obtained from the Office of Summer Sessions.

Dates and Deadlines
The "Graduate College Calendar," page 20, lists deadlines for the submission of theses and dissertations to the Graduate College, the last day to apply for graduation, the last day to hold an oral defense of a thesis or dissertation, and the last day to submit theses and dissertations to the ASU Bookstore for binding.

Student Responsibility
It is the responsibility of the graduate student to know and observe all procedures and requirements of the Graduate College as defined in the Graduate Catalog, Schedule of Classes, and the Format Manual. Each student should also be informed about the requirements concerning the student’s degree program and any special requirements within the academic unit.

ACADEMIC INTEGRITY
The highest standards of academic integrity are expected of all students. The failure of any student to meet these standards may result in suspension or expulsion from the university and/or other sanctions as specified in the academic integrity policies of the individual colleges.

Violations of academic integrity include, but are not limited to, cheating, fabrication, tampering, plagiarism, or facilitating such activities.

The university academic integrity policy is available in the Office of the Senior Vice President and Provost and in the Student Affairs Policies and Procedures Manual STA 104-01, on the Web at www.asu.edu/aad/manuals/sta/sta104-01.html.

MISCONDUCT IN SCHOLARLY RESEARCH AND CREATIVE ACTIVITIES
Students are expected to maintain the highest standards of integrity and truthfulness in scholarly research and creative activities. Misconduct in scholarly research and creative activities includes, but is not limited to, fabrication, falsification or misrepresentation of data, and plagiarism. Misconduct by any student may result in suspension or expulsion from the university and other sanctions as specified by the individual colleges. Policies on misconduct are available in the Office of the Vice Provost for Research and on the Web at www.asu.edu/aad/manuals/rsp/rsp111.html.

ASSISTANTSHIPS AND ASSOCIATESHIPS
Application Procedure. Since it is necessary for all applicants to be admitted to degree programs before awards are made, students should apply for admission through the Graduate Admissions Office at the same time they apply for financial assistance.

Teaching and Research Assistantships and Associate-
ships. Appointments as teaching or research assistants and associates are available in most academic units offering graduate work to students admitted with regular status. Students who have completed a master’s degree or the equiva-

ent may be considered for graduate associateships when available. All teaching and research assistants and associates must enroll for a minimum of six semester hours during each semester of their appointment. The six hours cannot include audit enrollment. A half-time (50 percent) teaching and research assistant or associate working 20 clock hours per week may not register for more than 12 hours of course work each semester; a third-time (33 percent) assistant or associate for more than 13 hours; and a quarter-time (25 percent) assistant or associate for more than 15 hours.

During the summer sessions, teaching or research assistants and associates employed 25 percent time may enroll for a maximum of six semester hours during a five-week session or nine hours during the eight-week session; those employed 50 percent time may enroll for a maximum of five hours during a five-week session or seven hours during the eight-week session; and those employed 100 percent time may enroll for a maximum of three hours during a five-week session or four hours during the eight-week session.

Teaching and research assistantships and associateships allow nonresident graduate students to pay tuition at the resident tuition rate. Eligibility applies to teaching and research assistants and associates working 25 percent or more time if their first working day occurs before the end of the first five days of instruction during the semester in question. Only under exceptional circumstances are exceptions granted by the Dean’s Office.

A number of academic units administer assistantships and associateships under research programs sponsored and supported by government, industry, and foundations. Inquiries concerning requirements and deadlines as well as applications should be sent to the head of the appropriate academic unit.

Assistantships, Associateships, and Commercial Services. All graduate students who are hired for class/course support or who hold assistantships or associateships for a specific course—including teaching assistants and research assistants—may not take or provide notes for that course to commercial notetaking services or students. An exception may be made by the course instructor(s) on a case-by-case basis as an authorized support service for a disabled student. This policy covers all commercial activities (e.g., notetaking and paid review sessions) that might be associated with a course for which the assistant or associate has assigned responsibilities.

STUDENT RECORDS
Family Educational Rights and Privacy Act of 1974
This act, known as the Buckley Amendment, sets forth the requirements governing the protection of the privacy of the educational records of students who are or have been in attendance at ASU.

Definitions
Eligible Student. For the purpose of this act, an eligible student is defined as any individual formally admitted to and enrolled at ASU or the parents of a dependent eligible student. Dependency is defined by Section 152 of the Internal Revenue Code of 1954.
Record. Any information or data recorded in any medium, including, but not limited to, handwriting, print, tapes, film, microfilm, microfiche, and electronic means.

Types of Information

Educational Record. The educational record refers to those records that are directly related to a student and are maintained by an educational institution. Two types of educational records are subject to the provisions of this act, (1) directory information and (2) personally identifiable information. The term does not include those records specifically excluded by Section 99.3 of the Privacy Act.

Directory Information. Directory information includes the following student information: name, local and permanent address, local telephone number, date and place of birth, citizenship, residency status, academic level, major field of study, college of enrollment, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended by the student.

Personally Identifiable Information. Personally identifiable information includes the name of a student, the student’s parent or other family member(s), a personal identifier such as the student’s Social Security number, a list of personal characteristics, or other information that would make the student’s identity easily traceable and any information, including directory information, that the student has indicated not to be released.

Access to Records

Eligible students, or parents of a dependent eligible student, may inspect and review their educational records. Some form of photo identification must be displayed before access to educational records is allowed.

Directory information may be released to anyone without consent of the student, unless the student indicates otherwise. Students may request that this information not be released by completing a form in the Office of the Registrar. Request to withhold this information will exclude the student from being listed in the annual Directory.

All other educational records that contain personally identifiable information may not be released without the written consent of the student. Parents of a dependent student may challenge denial of such access by producing the most current copy of Internal Revenue Form 1040. If that form lists the student in question as a dependent, the parents will be required to sign an affidavit that affirms that the student is their dependent. The affidavit will be retained by the Office of the Registrar. Upon receipt of the affidavit, the university will make student records available to parents for the rest of that calendar year as specified under the Privacy Act.

Students may grant access to parents or agencies by completing a form in the Office of the Registrar.

Location of Policy and Records

The Custodian of Educational Records at ASU is the Office of the Registrar. Copies of this policy are available in the following offices: the Reserve Section of Hayden Library and the Noble Science and Engineering Library, the Office of the Registrar, the Offices of Undergraduate and Graduate Admissions, and the Student Life Office. The Office of the Registrar also maintains a directory that lists all education records maintained on students by ASU.

POLICIES AND PROCEDURES OF THE GRADUATE COUNCIL APPEALS BOARD

The Graduate Council Appeals Board (GCAB) acts as the appeals body for graduate students seeking redress on academic decisions regarding their graduate program. Before filing an appeal, the graduate student should discuss the situation with the associate dean of the Graduate College to explore resolution of the matter at the unit or college level.

GCAB. The purpose of the board is to review written appeals of graduate students. (On occasion a faculty member may be appealing the decision about a graduate student made by a program, an academic unit, the Graduate College, or another college.) Such appeals concern

1. retention in graduate programs;
2. other academic issues (except grade appeals, which are handled in academic colleges); and
3. procedural matters in graduate student programs (e.g., programs of study, thesis/dissertation, exams).

The GCAB consists of three or more members of the Graduate Council appointed by the dean of the Graduate College at the beginning of each academic year. In specific cases the GCAB may ask for additional members from the faculty or one or more graduate students to be appointed by the dean of the Graduate College. The GCAB is chaired by one of the members as designated by the dean or associate dean. The GCAB is assisted by the assistant dean, who oversees the hearing but does not serve as a member of the GCAB. Membership is on an annual basis, but members of the Graduate Council may serve for a maximum of three consecutive years. To the extent possible, GCAB membership does not change during a student appeal. A member continues to serve on the GCAB into the next academic year if an appeal is continued during that time.

Meetings. The board meets when notified by the assistant dean that an appeal is pending. The GCAB requires two-thirds of the committee present for a quorum. A GCAB member must disqualify herself or himself if a case involves a student in her or his academic unit or the member has some direct tie to the student who is appealing. The dean of the Graduate College replaces the individual with a current or past Graduate Council member. A recording secretary is selected before each appeal. This person keeps notes of the hearing. Secretarial support for typing notes is provided by the assistant dean. A tape is made of the hearing.

Jurisdiction. The GCAB has the authority to receive written appeals from graduate students on the review of any action or decision by any university faculty member, staff member, or administrator. However, any appeal must first be reviewed at the level of the academic unit from which the graduate student is making an appeal.

The GCAB has the right to decide not to hear an appeal. In this case, the decision of the academic unit is final. The GCAB may hear appeals on program dismissal, other academic issues, or procedural issues. In addition, the GCAB hears any appeal referred to it by the dean of the Graduate College.
The GCAB does not review
1. appeals of course grades, including omnibus courses such as independent research, thesis, or dissertation, which are handled through the academic colleges;
2. appeals concerning academic dishonesty, which are handled by the academic unit with appeals to the University Hearing Board;
3. appeals concerning scientific misconduct, which are handled by the academic unit with appeals to the Council of Research and Creative Activity through the Office of the Vice Provost for Research;
4. appeals for which the graduate student has not fully used all other appeal and review processes (e.g., the academic unit);
5. appeals filed more than 30 calendar days after receiving notification of the action taken at an appeal by the academic unit (or, if appropriate, another university committee);
6. allegations of discrimination; and
7. other appeals or grievances under the jurisdiction of other university boards and committees.

Appeals are not heard during the summer. The calendar stops on the last day of exams for the spring semester and begins on the first day of classes for the fall semester.

Mediation. Mediation between the graduate student and any university official is always a preferred option to a hearing. If mediation appears beneficial when the initial appeal is filed with the GCAB, the GCAB may recommend that mediation occur and select a mediator. If mediation is successful and both parties agree to the decision, a written record of the outcome is filed by the mediator with the GCAB, all parties involved, and the dean of the Graduate College. If mediation is not successful, the graduate student has 30 days from the end of the mediation process to request in writing a formal appeal hearing.

Authority. The GCAB may affirm or reverse the original decision being appealed and make such recommendations for further actions as appropriate. In the course of any hearing, the GCAB is authorized to request additional evidence or testimony by any student, faculty or staff member, administrator, other university employee, or other individual as a witness. The GCAB has final authority in procedural matters. The decision of the GCAB is final. The chair of the GCAB notifies all parties of the decision.

Filing an Appeal. Before an appeal comes to the GCAB, the normal channels for resolving disputes must have been consulted. The appellant should consult with the major professor to resolve the issue at that level. If the issue cannot be resolved with the major professor, the appellant should seek out the department chair or designated individual for resolution. In some cases, if the major professor and department chair have not been able to resolve the issue or the outcome still needs to be pursued, it may be appropriate to pursue the issue with the academic college dean. If the issue has not been resolved at one of these levels, an appeal to the GCAB may be pursued.

Before initiating an appeal, the graduate student should speak to the associate dean of the Graduate College to see if the issue can be resolved informally. Should negotiation, through the associate dean of the Graduate College, not succeed, the graduate student may submit a written appeal.

All appeals must be submitted in writing to the associate or assistant dean of the Graduate College. Witnesses and any other pertinent evidence must be listed in the appeal. The written appeal must specify the grounds for the appeal as listed in the document “Guidelines for Appeals,” available in the Graduate College. Only documents that follow the guidelines are considered, although university regulations pertinent to the case may be used as supporting grounds. It is incumbent upon the student to demonstrate to the GCAB that grounds for the appeal exist. The written appeal may not exceed 10 pages.

The associate or assistant dean notifies the appellee and requests, in writing, information from the appellee related to the case. The initial written response by the appellee is submitted within 15 days of receiving notice of the appeal.

Master’s Degrees

Faculty at ASU offer programs leading to the Master of Arts (M.A.) degree, the Master of Science (M.S.) degree, and various professional master’s degrees. The M.A. and M.S. programs serve primarily as an introduction to research; the professional master’s programs are intended primarily as a preparation for a career in professional practice.

For more information, refer to the appropriate section within “Graduate Programs and Courses,” page 106.

Admission to all Master’s Degree Programs. Students wishing to enroll in a master’s program at ASU are admitted according to the procedure described under “Admission to the Graduate College,” page 92. Since graduate work presupposes adequate preparation in a selected field at the undergraduate level, deficiencies are specified at the time of admission by the academic unit involved.

Credit Requirements. A minimum of 30 semester hours of graduate work approved by a student’s supervisory committee and the Graduate College is required. More than 30 semester hours are required in certain programs.

Supervisory Committee. The supervisory committee is responsible for the guidance and direction of the student’s graduate program. The committee is composed of a minimum of three members, including a chair, for students writing a thesis or equivalent.

Program of Study. After regular status has been granted, it is in the student’s best interest to have an official program of study filed with the Graduate College at the earliest possible date. When the program of study is filed, a supervisory committee is appointed by the dean of the Graduate College upon the recommendation of the head of the academic unit (verified by the signature on the program of study). Changes in the planned program may be made by the student’s supervisory committee, with the approval of the head of the academic unit and the dean of the Graduate College. Forms for the submission of the program of study are available in the Graduate College, in the Graduation section of the Office of the Registrar (located in the Student Services Building), or on the Web at www.asu.edu/registrar/forms/pos.html. A student is not eligible to apply for the comprehensive or final
examination until a program of study has been approved and any foreign language requirement completed.

**Credit Completed Before Admission.** With the approval of the student’s supervisory committee, the head of the academic unit, and the dean of the Graduate College, a maximum of nine semester hours of ASU (Main and East) graduate course work completed before admission to a graduate degree program may be included in the program of study for a master’s degree. The date (month/day/year) on the Graduate College dean’s letter of admission is the actual date of admission. If the student is enrolled in courses on the admission date, those courses—if applicable—may be considered part of a program of study. Courses taken the semester before this date are nondegree hours. Individual academic units may have a policy of accepting fewer than nine semester hours attained before admission. For details, refer to the specific degree program.

Graduate credit earned at another institution before admission to a graduate degree program at ASU is nondegree credit. Nondegree credit earned at ASU Main and East combined with nondegree credit earned at another institution may not exceed nine semester hours in the program of study. For example, if six semester hours earned before admission to ASU are transferred from another institution, only three nondegree semester hours may be from ASU Main or East for a master’s degree program. (See “Transfer Credit,” page 97.)

The six-year maximum time limit applies to nondegree/ transferred semester hours appearing on a program of study. (See “Maximum Time Limit,” page 103.) Certain degree programs may have different maximum time limits. The student should refer to the specific degree program.

**College of Law Credit.** The Graduate College accepts a numerical grade of 70 or above for courses taken in the College of Law at ASU as part of an approved program of study for a master’s degree program. These grades are not used in the two GPAs calculated for graduation: the courses on the program of study and all courses numbered 500 and above. A maximum of six semester hours taken in the College of Law may be included in a 30-hour program of study for a master’s degree. For a 36- to 45-hour program, the number of hours is limited to a maximum of nine semester hours of course work in the College of Law.

**Foreign Language Requirements.** A graduate degree program may have a foreign language requirement. This requirement must be fulfilled before the student is eligible to apply for the final written comprehensive examination or the defense of the thesis or equivalent. For certification of proficiency, see “Foreign Language Requirements,” page 98.

**Comprehensive Examinations.** A comprehensive examination, written, oral, or both, administered by the academic unit, is required in all professional master’s programs that do not have a thesis or equivalent requirement. A comprehensive examination is optional in other programs. Students are not eligible to apply for the comprehensives or for the oral defense of the thesis or equivalent until they have been regularly admitted, have filed an approved program of study, removed any deficiencies, and fulfilled any foreign language requirements. Students are required to register for at least one semester hour of credit that appears on the program of study or one hour of appropriate graduate-level credit (such as 595, 695, and 795 Continuing Registration) during the semester or summer session in which they take their comprehensive examinations. Failure in the comprehensive examination is considered final unless the supervisory committee and the head of the academic unit recommend, and the dean of the Graduate College approves, a reexamination. Only one reexamination is permitted. A reexamination may be administered no sooner than three months and no later than one year from the date of the original examination.

**Thesis or Equivalent Requirements.** To satisfy the research requirement for most M.A. or M.S. degrees, a student is expected to present a thesis or equivalent, which is defended in an oral examination. Some professional master’s programs may also require a thesis, research project, performance, or exhibition. The requirement varies with each major. Each student writing a thesis or equivalent must register for a minimum of six semester hours of thesis or for a combination of research and thesis totaling six hours, which are directed toward a common research problem.

Credit taken to fulfill the thesis or equivalent enrollment requirement must appear on the program of study. A student writing a thesis must include on the program of study six hours of 592 Research and 599 Thesis, at least three of which must be 599 Thesis. Although additional 592 Research hours may be included on a program of study, a maximum of six hours of 599 Thesis may be used.

A thesis or equivalent should be of high quality, giving evidence that the program provided an introduction to research. Format evaluation of the thesis or equivalent, described under “Theses and Dissertations,” page 98, must be obtained before its submission to the Graduate College for the oral defense. The final approved copy is bound and placed in Hayden Library. Copies of the *Format Manual* are available in the Graduate College or you may access the Web site at www.asu.edu/graduate/formatmanual/index.html.

The final copy of the thesis or equivalent must be reviewed by the student’s supervisory committee and submitted to the Graduate College for format evaluation at least 10 working days before the defense date. The final oral examination in defense of the thesis or equivalent must be conducted at least one week before the degree conferral date. The examination is conducted by the supervisory committee. Applications for the examination are available at the Graduate College.

Each student must be enrolled for at least one semester hour of credit that appears on the program of study or one hour of appropriate graduate-level credit (such as 595, 695, or 795 Continuing Registration) during the semester or summer session in which the student defends the thesis or equivalent.

**Open Thesis Defenses.** Master’s thesis defenses are open to all members of the university community. The oral defense engages the supervisory committee and the candidate in a critical, analytical discussion of the research and findings of the study as well as a review of the relation of the thesis to the major field. The presentation of a thesis defense in an open forum fosters a broader awareness of the state of graduate research at the university, promotes a wider scholarly dialogue among disciplines, and recognizes publicly the scholarly contributions of thesis candidates. Announce-
ments are posted in prominent places in the student’s department. Members of the university community are invited to thesis defenses through announcements published in ASU Insight, the university’s weekly news bulletin. The supervisory committee may conduct the final part of its questioning in closed session. Committee deliberations and final vote are conducted in closed session.

**Graduation.** The student is eligible for graduation when all course work is successfully completed, the Graduate College scholarship requirements have been met, any required comprehensive examinations have been passed, and the thesis or equivalent, if applicable, has been approved by the supervisory committee and accepted by the head of the academic unit and the dean of the Graduate College. See “Application for Graduation,” page 98.

**Maximum Time Limit.** Unless stated otherwise for a specific degree program, all work offered toward a master’s degree must be completed within six consecutive years. The six years begin with the first course included on a student’s approved program of study. For example, if the first course listed was taken fall semester 1999, the student must complete all requirements by August 2005. The six-year maximum time limit applies to nondegree transferred semester hours appearing on a program of study. (See “Credit Completed Before Admission,” page 102.)

**Programs Leading to Two Master’s Degrees.** A student may pursue concurrent master’s degrees provided that a maximum of one-sixth of the minimum total semester hours required for the completion of both degrees is common to the two programs of study. The total number of hours common to both degree programs may vary from this maximum value only when the Graduate Council has formally approved coordinated degree programs.

In all cases, these guidelines must be followed:

1. course work common to both programs must constitute a well-planned and meaningful part of each of the programs;
2. the course work common to both programs may not include 599 Thesis or 592 Research credits leading to the thesis or equivalent in either degree;
3. graduate credit transferred from another institution may be applied toward only one degree program; and
4. when the two degree programs are pursued at the same time, they must have the approval of the deans of both academic units involved.

**Doctoral Degrees**

Faculty at ASU offer programs leading to the Doctor of Philosophy (Ph.D.) degree and various professional doctoral degrees. For more information, refer to the appropriate section within “Graduate Programs and Courses,” page 106.

**DOCTORAL DISSERTATIONS**

The doctoral dissertation is based on a substantial and sustained research project and constitutes a significant contribution to knowledge in the student’s discipline. Accordingly, it is presumed that the results should be published in scholarly journals, books, or other appropriate forms, either before or following completion of the doctoral degree. The research on which the dissertation is based should have been conducted during the time of the student’s doctoral studies at ASU, under guidance of ASU faculty, and in accord with Graduate College policies and procedures.

The pedagogical function of the dissertation is twofold. On the one hand, students learn to conduct a major, independent research project and to present the results, all under the guidance of an experienced doctoral mentor. On the other hand, the dissertation is a demonstration of the student’s ability to conduct a major research project at the highest level of professional competence. The research experience culminates in a final oral exam, commonly known as the “dissertation defense.” At ASU, defenses are public; students and faculty from the candidate’s unit especially are encouraged to attend. In the successful dissertation defense, doctoral study culminates in a public affirmation of the student’s scholarly competence and of his or her new status in the community of scholars.

The doctoral student must submit two final copies of the dissertation or research paper (research papers are for certain D.M.A. concentrations only) to the ASU Bookstore for binding. The student is responsible for the binding fees. Bound copies are placed in Hayden Library and Archives. See “Theses and Dissertations,” page 98, for more information.

**Open Dissertation Defenses**

Doctoral dissertation defenses are open to all members of the university community. The oral defense engages the supervisory committee and the candidate in a critical, analytical discussion of the research and findings of the study as well as a review of the relation of the dissertation to the specialized field in which it lies. The presentation of dissertation defenses in an open forum fosters a broader awareness of the state of graduate research at the university, promotes a wider scholarly dialogue among disciplines, and recognizes publicly the scholarly contributions of doctoral candidates. Announcements are posted in prominent places in the student’s department. Members of the university community are invited to dissertation defenses through announcements published in ASU Insight, the university’s weekly news bulletin. If circumstances warrant, the supervisory committee may conduct the final part of its questioning in closed session. Committee deliberations and the final vote are conducted in closed session.

**Coauthored Work in Doctoral Dissertations**

The Graduate Council recognizes the necessity of collaborative research by graduate students with their mentors and with other graduate students. These efforts often result in coauthored works such as journal articles and presentations at meetings. When data or information contained in coauthored works or the actual coauthored works themselves appear in a doctoral dissertation, the graduate author should obtain necessary permission from involved parties (such as written consent from coauthors and the journal that holds the copyright), credit the sources and inspiration of the research, and properly acknowledge the coauthors. For more information, see the Research and Sponsored Projects Policies and Procedures Manual —RSP 106 at www.asu.edu/aad/manuals/rsp/rsp106.html.
Course Work After Admission to Doctoral Program

A student with an appropriate master’s degree must complete at ASU a minimum of 54 to 60 semester hours of approved graduate work, including 24 hours of dissertation and research (or recital for Music majors), after admission to the doctoral degree program. A student without an appropriate master’s degree usually must complete 84 to 90 semester hours of work at ASU.

Research and Dissertation Credits on Programs of Study

The doctoral program of study generally consists of appropriate graduate course work and 24 hours of 792 Research and 799 Dissertation. No more than 24 hours of 799 Dissertation may be included on the doctoral program of study.

Thesis Credit on Doctoral Programs of Study

A maximum of six hours of thesis credit may be included in a doctoral program of study. The thesis credit must be recorded, the thesis successfully defended, and the degree conferred.

College of Law Credit

The Graduate College accepts a numerical grade of 70 or above for courses taken in the College of Law at ASU as part of an approved program of study for a doctoral degree program, if the ASU law courses are deemed appropriate. These grades are not used in the two GPAs calculated for graduation, i.e., the courses on the program of study and all courses numbered 500 and above.

Withdrawal Policy

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy degree is granted upon evidence of excellence in research and the demonstration of independent, creative scholarship culminating in a dissertation.

Admission. See “Admission to the Graduate College,” page 92, for general requirements. Graduate students may apply for admission to the Ph.D. program by filing a written application with the Graduate Admissions Office.

Program Committee. Upon the recommendation of the head of the academic unit, the dean of the Graduate College appoints the program committee, consisting of a chair and at least two other members. The program committee advises the student in planning the program of study. The recommendation for the program committee is reviewed simultaneously with the recommendation for the program of study. The chair of the program committee may serve as the chair of the dissertation committee.

A student with an appropriate master’s degree or higher must have been used as part of a completed master’s degree. In some cases, the same members serve on both committees. However, the two different committees may have memberships with overlapping functions.

If the head of the academic unit recommends changes in membership for either committee after the committee has been appointed, the student must submit a change of committee form to the Graduate College and receive the approval of the dean of the Graduate College.

Program of Study. The program of study should be submitted as early as possible and must have the approval of the student’s supervisory committee, head of the academic unit, and the dean of the Graduate College. The program of study is reviewed simultaneously with the recommendation for the program committee. In general, Ph.D. degree students should expect to devote to the program of study the equivalent of at least three academic years (84 semester hours) beyond the bachelor’s degree. A minimum of 84 semester hours is required; 24 of these hours must be a combination of 792 Research and 799 Dissertation. If an additional 24 dissertation hours are needed, a maximum of 24 dissertation hours is permitted on the program of study. In addition, on the Ph.D. program of study, a student may use up to six hours (maximum) of thesis credit from the completed master’s degree. The master’s thesis must have been defended and the hours must have been used as part of a completed master’s program.

Continuous Enrollment. Once admitted to a Ph.D. degree program, the student is expected to be enrolled continuously, excluding summer sessions, until all requirements for the degree have been fulfilled. Continuous enrollment promotes steady progress toward the completion of the degree and an ongoing relationship between the student and faculty offering the program. If additional credit is not required toward the Ph.D. degree, the student may enroll for 595, 695, or 795 Continuing Registration. Continuing Registration does not carry credit; no grade is given. If a program of study must be interrupted for one or more semesters, the student may apply for leave status, not to exceed one calendar year. A student on leave is not required to pay fees, but is not permitted to place any demands on university faculty or use any university facilities. A student who interrupts a program without obtaining leave status may be removed automatically by the Graduate College, under the assumption that the student has decided to discontinue the program. A student removed by the Graduate College for this reason may reapply for admission; the application is considered along with all other new applications to the degree program.

An application for leave status, endorsed by the members of the student’s supervisory committee and the head of the academic unit, must be approved by the dean of the Graduate College. This request must be filed and approved no later than the last day of registration in the semester of anticipated absence.

Residency. In general, Ph.D. degree students should expect to devote to their program of study the equivalent of at least
three academic years (84 semester hours) beyond the bachelor’s degree. At least two consecutive semesters subsequent to admission to the Ph.D. program must be spent in full-time residence at ASU. At least 30 hours of the approved Ph.D. program in which they are enrolled, in addition to the 24 hours of research and dissertation credit, must be completed after admission to the Ph.D. program at ASU. These courses must appear on an approved program of study.

It is expected that, during the period spent in residence, full time (nine semester hours minimum or six semester hours for research assistants or teaching assistants) is devoted to graduate studies. This period is designed to provide an opportunity for students to avail themselves of university resources and to interact fully with faculty and fellow graduate students. This time represents total involvement in the academic major of the program in which they are enrolled.

**Foreign Language Requirements.** Language requirements are determined by the academic unit concerned. For information concerning certification of proficiency, see “Foreign Language Requirements,” page 98.

**Comprehensive Examinations.** When students have essentially completed the course work in an approved program of study, they should request permission from the Graduate College to take the comprehensive examinations. Some academic units may require that the foreign language requirements be fulfilled before taking the comprehensive examinations. These written and oral examinations are designed to test the student’s mastery of the field of specialization. Ph.D. comprehensive examinations are administered by a committee consisting of three to five members, depending on the requirements of the academic unit. Failure in the comprehensive examinations is considered final unless the supervisory committee and the head of the academic unit recommend, and the dean of the Graduate College approves, a reexamination. A reexamination may be administered no sooner than three months and no later than one year from the date of the original examination. Only one reexamination is permitted.

**Candidacy.** Ph.D. students will achieve candidacy status in a letter from the Graduate College dean upon:

1. passing the foreign language examination, if applicable;
2. passing the comprehensive examinations; and
3. successfully defending the dissertation prospectus.

Students must enroll for a minimum of 12 hours of 792 Research and 799 Dissertation credit (combined) in subsequent semesters, following the semester in which they are advanced to candidacy.

**Research and Dissertation Requirements.** Each candidate must register for a combined total of 24 semester hours of credit for 792 Research and 799 Dissertation. No more than 24 hours of 799 Dissertation may be included on the 84-hour program of study. Courses or semester hours taken beyond the listed requirements should not be included on the program of study. The final copy of the dissertation must be reviewed by the supervisory committee and the Graduate College at least three weeks before the degree conferral date. Copies of the Format Manual are available in the Graduate College and on the Web at www.asu.edu/graduate/formatmanual.

**Final Examinations.** The final oral examination in defense of the dissertation is mandatory and must be held on the main campus. The oral defense is scheduled by the supervisory committee with the approval of the dean of the Graduate College.

**Graduation.** The student is eligible for graduation when the Graduate College scholarship requirements have been met, the final oral examination has been passed, and the dissertation has been approved by the supervisory committee and accepted by the head of the academic unit and the dean of the Graduate College.

**Maximum Time Limit.** The candidate must take the final oral examination in defense of the dissertation within five years after passing the comprehensive examinations. Any exception must be approved by the supervisory committee and the dean of the Graduate College and ordinarily involves repetition of the comprehensive examinations.
All graduate degree programs and certificate programs are organized alphabetically by the name of the major or certificate. One of the few exceptions is that French, German, and Spanish are found under “Languages and Literatures,” page 237.

The faculty in the School of Accountancy and Information Management, College of Business, offer specialized professional programs leading to the Master of Accountancy and Information Systems (M.A.I.S.), Master of Science in Information Management (see “Information Management,” page 231), and Master of Taxation (see “Taxation,” page 305) degrees.

The faculty participate in offering the program leading to the Master of Business Administration degree. See “Master of Business Administration,” page 134, for information on the Master of Business Administration degree.

The faculty also participate in offering the program leading to the Ph.D. in Business Administration degree. See “Doctor of Philosophy,” page 135, for information on this degree program.

**MASTER OF ACCOUNTANCY AND INFORMATION SYSTEMS**

The M.A.I.S. degree provides specialized preparation for careers in professional accounting in accounting and computer information systems/management, corporate accounting/finance, and management consulting.

**Admission.** Applicants must submit scores from the Graduate Management Admissions Test (GMAT) exam. All applicants are also required to submit the supplemental application materials required from the school. International applicants whose native language is not English must submit scores from the Test of English as a Foreign Language (TOEFL) and Test of Spoken English (TSE) exams. Preference in admission is given to those with degrees in accounting and business, although other exceptional candidates are considered. A complete advising guide and application packet may be obtained from the school’s Web site.

**Prerequisites.** Applicants must complete the program prerequisites. Refer to the School of Accountancy and Information Management Web site for a current listing of required course prerequisites for the program.

**Program of Study.** The program of study consists of a minimum of 30 semester hours and is continually updated. A representative program might include the following courses:

- **ACC 541** Strategic Innovations in Information and Cost Management
- **ACC 586** Shareholder Value Creation and Financial Statement Analysis
- **ACC 587** Business Process Integrity Controls
- **ACC 591** Seminar: Computer Security
- **ACC 591** Seminar: Electronic Commerce
- **CIS 505** Object-Oriented Modeling and Programming
- **CIS 506** Business Database Systems
- **CIS 512** Intelligent Decision Systems and Knowledge Management

Visit the school’s Web site for a current program of study.

**Course Load.** Students are limited to 12 hours per semester.

**Foreign Language Requirements.** None.

**Thesis Requirements.** None.

**Final Examinations.** A final comprehensive, written examination is required of all candidates.

**RESEARCH ACTIVITY**

The research interests of the School of Accountancy and Information Management faculty and graduate students cover most areas of accounting and computer information systems, broadly defined. The following list of project areas is intended to be illustrative—but not all-inclusive—of the work being done: processing of information by decision makers at the individual and group level, behavior decision theory, information systems, modeling of internal control systems, database management systems architecture, design of computer networks, minicomputer security, analytical reviews in auditing, managerial influence on internal auditors’ professional judgments, heuristics for audit sampling, adequacy of financial statement disclosures, accounting policy formulation, risk analysis, social and psychological...
influences related to tax, audit and general accounting issues, tax planning models, partnership taxation, tax policy and practice, microeconomic aspects of tax law changes, and behavioral research in taxation.

ACCOUNTANCY (ACC)

ACC 502 Financial Accounting. (3) A
Financial accounting concepts and procedures for external reporting. Prerequisite: M.B.A. degree program student.
ACC 503 Managerial Accounting. (3) A
Managerial accounting concepts and procedures for internal reporting. Prerequisite: M.B.A. degree program student.
ACC 511 Taxes and Business Strategy. (3) A
Economic implications of selected management decisions involving application of federal income tax laws. Recognition of tax hazards and tax savings. Prerequisite: ACC 502 or equivalent.
ACC 515 Professional Practice Seminar. (3) A
History, structure, environment, regulation, and emerging issues of the accounting profession.
ACC 521 Tax Research. (3) A
Tax research source materials and techniques. Application to business and investment decisions. Prerequisite: ACC 430.
ACC 533 Application Solutions in the Connected Economy. (3) N
Analysis of software solutions and evaluation methods. Emphasis on current topics such as enterprise modeling, ERP software, and interorganizational solutions. Prerequisite: M.S. in Information Management degree program student or Master of Accountancy and Information Systems degree program student.
ACC 541 Strategic Innovations in Information and Cost Management. (3) A
Strategic cost management emphasizing contemporary topics, including activity-based costing and strategic uses of information technology systems. Cooperative learning, lecture. Prerequisite: ACC 503 or M.S. in Information Management degree program student or Master of Accountancy and Information Systems degree program student.
ACC 567 Financial Models in Accounting Systems. (3) A
Development and application of financial models by accountants. Analysis of decision support systems as financial modeling environments. Prerequisite: ACC 330.
ACC 571 Taxation of Corporations and Shareholders. (3) A
Tax aspects of the formation, operation, reorganization, and liquidation of corporations and the impact on shareholders. Prerequisite: ACC 430.
ACC 573 Taxation of Partners and Partnerships. (3) A
Tax aspects of the definition, formation, operation, liquidation, and termination of a partnership. Tax planning is emphasized. Prerequisite: ACC 430.
ACC 575 Estate and Gift Taxation. (3) A
Tax treatment of wealth transfers at death and during life time, with emphasis on tax planning. Prerequisite: ACC 430.
ACC 577 Taxation of Real Estate Transactions. (3) A
Income tax aspects of acquisition, operation, and disposal of real estate; syndications; installment sales; exchanges; dealer-investor issues; alternative financing; and planning. Prerequisite: ACC 521 or instructor approval.
ACC 582 Information Security of Interorganizational Systems. (3) N
Function and responsibility of the information security officer. Advanced topics in security methods and technology. Prerequisite: M.S. in Information Management degree program student or Master of Accountancy and Information Systems degree program student.
ACC 585 Performance Measurement of Emerging Business Models. (3) A
Application of quantitative techniques to accounting problems. Prerequisite: ACC 503 or M.S. in Information Management degree program student or Master of Accountancy and Information Systems degree program student.
ACC 586 Shareholder Value Creation and Financial Statement Analysis. (3) N
Develop skills necessary to exploit financial reporting information in a business environment and appreciation of reporting issues faced by management.

ACCOUNTANCY AND INFORMATION SYSTEMS  107

ACC 587 Business Process Integrity Controls. (3) A
Design and evaluation of computer-based accounting information system. Development of computer-based business models for planning and control. Prerequisite: Master of Accountancy and Information Systems degree program student.
ACC 591 Seminar on Selected ACC Topics. (3) A
Topics such as the following are offered:
(a) Computer Security
(b) Data Warehouse and Data Mining
(c) Electronic Commerce
(d) Enterprise Modelling
Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

COMPUTER INFORMATION SYSTEMS (CIS)

CIS 502 Management Information and Decision Support Systems. (3) A
Fundamentals of computer-based management information and decision support systems. Prerequisite: M.B.A. degree program student.
CIS 505 Object-Oriented Modeling and Programming. (3) A
Object-oriented modeling of business information systems, abstract data types and object-oriented programming using a visual language. Prerequisite: M.S. in Information Management degree program student or Master of Accountancy and Information Systems degree program student.
CIS 506 Business Database Systems. (3) A
Hierarchical, network, relational, and other recent data models for database systems. Processing issues such as concurrency control, query optimization, and distributed processing. Prerequisite: M.S. in Information Management degree program student or Master of Accountancy and Information Systems degree program student.
CIS 512 Intelligent Decision Systems and Knowledge Management. (3) A
Definition, description, construction, and evaluation of computer-based decision systems. Prerequisite: M.S. in Information Management degree program student or Master of Accountancy and Information Systems degree program student.
CIS 515 Management Information Systems. (3) N
Systems theory concepts applied to the collection, retention, and dissemination of information for management decision making. Prerequisite: M.S. in Information Management degree program student or Master of Accountancy and Information Systems degree program student.
CIS 520 Systems Design and Evaluation. (3) N
Methodologies of systems analysis and design. Issues include project management, interface, organizational requirements, constraints, documentation, implementation, control, and performance evaluation. Prerequisite: M.S. in Information Management degree program student or Master of Accountancy and Information Systems degree program student.
CIS 530 Information Systems Development. (3) A
Object-oriented and interprocess communication and control concepts for information systems; applications based on languages such as C++ and platforms such as networked UNIX. Prerequisite: M.S. in Information Management degree program student or Master of Accountancy and Information Systems degree program student.
CIS 535 Distributed Information Systems. (3) A
Distributed systems and their impact on information systems in business. Prerequisite: M.S. in Information Management degree program student or Master of Accountancy and Information Systems degree program student.
CIS 591 Seminar on Selected CIS Topics. (1–12) A
Topics such as the following are offered:
(a) Computer Security
(b) Computing Architectures
(c) Data Warehouse and Data Mining
(d) Electronic Commerce
(e) Enterprise Modelling
Prerequisite: M.S. in Information Management degree program student or Master of Accountancy and Information Systems degree program student.
CIS 593 Applied Project. (1–12) N
Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.
Aerospace Engineering

Don L. Boyer  
Chair  
(ECG 346) 480/965-3291  
mae@asu.edu  
www.eas.asu.edu/~mae

PROFESSORS
BOYER, CHATTOPADHYAY, LAANANEN, LIU, REED, SARIC, WIE

ASSOCIATE PROFESSORS
KOURIS, LEE, MIGNOLET, RANKIN, WELLS

The faculty in the Department of Mechanical and Aerospace Engineering offer graduate programs leading to the M.S., Master of Science in Engineering, and Ph.D. degrees in Aerospace Engineering. A number of areas of study may be pursued, including aerodynamics, design, dynamics and control, propulsion, and structures. The faculty also offer graduate degree programs in Mechanical Engineering. All of the department’s graduate programs stress a sound foundation leading to a specialized area of study.

The application deadline for admission in the fall semester is April 15. Applications received after that date and before November 15 are considered for admission in the spring semester. Applicants are strongly encouraged to apply by mid-February to increase their chances for official university funding.

Graduate Record Examination. All applicants are required to take the Graduate Record Examination; the subject test in Engineering is highly recommended but not required.

MASTER OF SCIENCE

See “Master’s Degrees,” page 101, for general requirements.

MASTER OF SCIENCE IN ENGINEERING

See “Master of Science in Engineering,” page 187, for information on the Master of Science in Engineering degree.

DOCTOR OF PHILOSOPHY

The Ph.D. degree is conferred upon evidence of excellence in research leading to a scholarly dissertation that is an original contribution to knowledge in the field of aerospace engineering. See “Doctor of Philosophy,” page 104, for general requirements.

Program of Study. The program of study must be established no later than the first semester after successfully completing the qualifying examination.

Qualifying Examinations. The purposes of the qualifying criteria are to assess if the student is prepared to continue in the doctoral program and to detect deficiencies in the student’s background that can be corrected by appropriate course work and individual study. Within the first year of graduate studies at ASU, a graduate student pursuing a Ph.D. program of study in Aerospace Engineering must complete three 500-level core courses, preferably in the major area of interest, and one 500-level mathematics course, both with an average GPA of 3.25 or higher.

Foreign Language Requirements. None.

Comprehensive Examinations. Written and oral comprehensive examinations are required. The examinations are administered by the program committee.

Dissertation Requirements. A dissertation based on original work demonstrating creativity in research and scholarly proficiency in the subject area is required.

Final Examinations. A final oral examination in defense of the dissertation is required.

RESEARCH ACTIVITY

The department has established a wide variety of theoretical and experimental research programs in Aerospace Engineering to prepare graduate students for careers with industry, universities, and government agencies. The faculty are organized into groups pursuing research topics directly related to general improvement of knowledge in engineering fields or to the application of engineering principles to problems of high national priority.

A student in the materials facility prepares to heat treat an aluminum alloy for aerospace research with a high-temperature refractory-metal furnace. Tim Trumble photo
Some recent and current examples of faculty and student research projects include studies in: acoustic fatigue; aeroelasticity; aerospace vehicle dynamics, guidance, and control; aerospace structures; aerospace vehicle design and performance optimization; aircraft crashworthiness; applied computational methods; atmospheric dynamics and surface layers; biomechanics; boundary-layer transition; combustor modeling; composite materials; concurrent engineering; convection heat transfer in complex flows; finite element techniques; flow-induced vibrations; fracture mechanics; fluid-structure interactions; heat transfer in airbreathing and space propulsion systems; high speed aerodynamics; hydrodynamic stability; hypersonics; laminar flow control; laser diagnostics in combustion and flows; micromechanics; modal analysis; modeling and optimal design of rotor-bearing systems; noise control; nonlinear vibrations and structural dynamics; nonlinear waves and dynamics; perturbation methods; rotorcraft aerodynamics and acoustics; separated and transitional flows; spray combustion; structural optimization; supersonic flows; thermonics; three-dimensional boundary layers; transonic aerodynamics; turbulent flow modeling; turbine cooling; and unsteady aerodynamics.

Experimental investigations are carried out in a number of specialized laboratories and facilities: computer-aided engineering and expert systems laboratory; computer-aided design/computer-aided manufacturing laboratory; combustion laboratory; composite materials laboratory; direct energy conversion laboratory; dynamics and controls laboratory; heat transfer laboratory; laser diagnostics laboratory; hydrodynamic stability laboratory; stratified flow laboratory; supersonic wind tunnel laboratory; robotics laboratory; thermoscientific laboratory; turbulent fluid mechanics laboratory; unsteady wind tunnel facility; and vibrations and dynamics laboratory. Equipment fabrication is supported by the college’s well-equipped development shop with a staff of machinists and electronic technicians.

Computer Resources and Facilities
Aerospace Engineering graduate education and research is supported by an extensive array of college- and university-supported computer hardware and software, in addition to laboratory minicomputers and microcomputers.

ASU operates an IBM ES9900-732, an IBM 3090-300E, a VAX 6000-634, a MASPAR-MP-2, and a cluster of four IBM RISC-6000 substations, which are available to support graduate research. The College of Engineering and Applied Sciences supports a Convex C220, one Motorola 8640, one DEC VAX, a SPARC 2000, and many minicomputers and microcomputers. These machines are available for use by engineering faculty and students for classroom and research work.

The ASU Computing Commons is equipped with three IBM RS/6000-590s, one MASPAR, several DEC VAX 5000s, numerous Sun Sparc servers, and many other platforms. Access to these computers is via the ASU Advanced Communications Support System (ACSS) broadband network as well as via dial-in lines. The university also operates microcomputer sites with more than 400 IBM and Apple Macintosh systems.

COURSES
For courses, see “Mechanical and Aerospace Engineering (MAE)," page 252.
Thesis Option. For students choosing to write a thesis, an oral examination in defense of the thesis is required.

Nonthesis Option. The nonthesis M.S. in Agribusiness option provides an opportunity for students who wish to pursue a professional career that is not specifically research-oriented to obtain a rigorous and comprehensive graduate degree. The nonthesis option allows for the selection of six semester hours of electives to be taken in a specific area of emphasis. In lieu of a thesis, a nonthesis option student completes a case-oriented capstone course, which allows the student an opportunity to pursue a course-based project that integrates all of the core business skills acquired during the course work sequence. The MSABR standard comprehensive exam ensures that all students bring the same set of skills to the upper-level classes, so these courses reflect the level of rigor developed in the first-year theory sequence.

Program of Study. All M.S. candidates must complete a minimum of 36 hours of approved graduate-level course work, excluding courses taken to address deficiencies. Of these 36 hours, 21 must be taken to satisfy core requirements in basic business, statistics, and computer proficiency. For students selecting the nonthesis option, fulfilling the requirements for an area of emphasis consists of the successful completion of six hours of elective courses from within that area chosen from graduate agribusiness courses. The specific courses are determined by the student and his or her academic advisor. Thesis students are required to complete three semester hours of research and three hours of writing in addition to six hours of general 500-level agribusiness electives. All students must successfully complete a comprehensive exam following their first year of study before the thesis is started.

Cooperative Degree Program. The Morrison School of Agribusiness and Resource Management and the American Graduate School of International Management (Thunderbird) have a cooperative agreement for students interested in both agribusiness and international management. Thunderbird is an internationally recognized private graduate school, located in the Phoenix metropolitan area, offering course work in international studies, modern languages, and world business. This agreement enables students of ASU to take up to nine semester hours of course work at Thunderbird. To participate, the ASU student must be enrolled full-time (nine semester hours) and may only take three semester hours per semester at Thunderbird. The goal of this agreement is to enhance the educational opportunities available to qualified students of both institutions while making optimal use of the resources and facilities of both institutions.

Foreign Language Requirements. None.

Comprehensive Examinations. Each student must pass a written comprehensive examination covering materials presented in the Agribusiness program of study. This examination is administered by the MSABR graduate committee to students who have completed the core areas of the program.

Peace Corps’ Master’s International Program. MSABR has an agreement with the United States Peace Corps that makes combining graduate studies with Peace Corps service even more appealing. Participants can receive up to six hours of credit for their independent field work while in Peace Corps service. Graduate course work precedes departure to foreign countries. Interested individuals make separate application to ASU and the Peace Corps, and prepare plans of study with their faculty committees regarding studies in the field.

RESEARCH ACTIVITY

The research projects in agribusiness reflect the varied interests of the faculty. Marketing studies involving agricultural products are conducted to determine consumer desires or the attitudes of institutional personnel toward foods. Management studies designed to improve the efficiency of agribusiness or to identify the job stress factors of the employees represent another sector. Finance studies examine the capacity of financial institutions to provide capital for agribusiness firms or the ability of managers to optimize the returns to financial resources under their control. In addition, the research conducted by the food industry faculty is directed toward the safety and wholesomeness of food, both at the institutional and consumer levels. Studies in rural development examine the role of agribusiness in improving standards of living, while trade research considers the successful performance of agribusiness in the global marketplace. Research in the area of resource management examines the policies and practices that improve our use of the natural resource base.
AGRIBUSINESS (AGB)

AGB 410 Agribusiness Management II. (3) S Principles of human resource management in agribusiness firms. Prerequisite: AGB 310.

AGB 411 Agricultural Cooperatives. (3) S Organization, operation, and management of agricultural cooperatives.

AGB 414 Agribusiness Analysis. (3) S Analysis of agribusiness firm decisions in the ecological, economic, social, and political environments. Special emphasis on ethical issues surrounding food production and consumption. General Studies: L.

AGB 420 Food Marketing. (3) S Food processing, packaging, distribution, market research, new food research and development, and social implications. Prerequisite: AGB 320.

AGB 422 Consumer Behavior. (3) F Application of behavioral concepts in analyzing consumer food purchases and their implications for marketing strategies. Prerequisite: completion of Agribusiness core or equivalent.

AGB 424 Sales and Merchandising in Agribusiness. (3) SS The principles and techniques of selling and merchandising in the agricultural and food industries.

AGB 425 Agricultural Marketing Channels. (3) F Operational stages of agricultural commodities in normal distribution systems and implementation of marketing strategies. Prerequisite: AGB 320.

AGB 428 Marketing Research. (3) F Examines the marketing research process and its role in facilitating agribusiness decisions. Emphasizes problem identification, survey design, and data analysis. Prerequisite: completion of Agribusiness core or equivalent.

AGB 433 Intermediate Agribusiness Financial Markets. (3) S Role and function of agribusiness in U.S. financial system. Topics include rural banking, farm credit system, monetary policy, and federal reserve. Prerequisite: completion of Agribusiness core or equivalent.

AGB 434 Agricultural Risk Management and Insurance. (3) F Strategies to manage agricultural price and business risk: derivatives, insurance, self-insurance, and public policy. Prerequisite: completion of Agribusiness core or equivalent.

AGB 440 Food Safety. (3) S Control, prevention, and prediction of microbial and chemical food-borne diseases. Prerequisite: AGB 442 or instructor approval.

AGB 441 Food Chemistry. (4) N The biochemical and chemical interactions that occur in raw and processed foods. Lecture, lab. Prerequisites: CHM 115, 231.

AGB 442 Food and Industrial Microbiology. (3) N Food- and industrial-related microorganisms; deterioration and preservation of industrial commodities. Lecture, lab. Prerequisite: microbiology course with lecture and lab.

AGB 443 Food and Industrial Fermentations. (4) N Management, manipulation, and metabolic activities of industrial microbial cultures and their processes. Lecture, lab. Prerequisite: AGB 442 or instructor approval.

AGB 445 Food Retailing. (3) F Food retail management. Discusses trends, problems, and functions of food retail managers within various retail institutions. Lecture, case studies.

AGB 450 International Agricultural Development. (3) S Transition of developing countries from subsistence to modern agriculture. Emphasis is placed on implications for U.S. agribusiness working abroad. General Studies: G.

AGB 452 International Agricultural Policy. (3) F Use of international trade theory to analyze the effects of government policies, trade agreements, and exchange rates on agribusiness. Prerequisite: ECN 112.

AGB 454 International Trade. (3) S International practices in trading of agribusiness, technology, and resource products and services.

AGB 455 Resource Management. (3) S Explores differences between societal and individual valuations of natural resources and considers public policy versus market-based solutions to environmental concerns. Prerequisite: ECN 112. General Studies: SB.

AGB 456 World Agricultural Resources. (3) F World production and consumption of agricultural products, international relationships, and agencies concerned with world agricultural development problems. General Studies: G.

AGB 457 Resource Policy and Sustainability. (3) F Considers the evolution of policy design, focusing on how resource and environmental concerns have affected agricultural development and trade policies. Prerequisite: ECN 112.

AGB 458 Bioremediation. (3) S Technical-regulatory and policy issues emanating from minetailing and animal waste. Lecture, case studies.

AGB 460 Agribusiness Management Systems. (4) S The development and use of decision support systems for agribusiness management and marketing. Lecture, lab.

AGB 470 Comparative Nutrition. (3) N Effects of nutrition on animal systems and metabolic functions. Prerequisite: CHM 231.

AGB 471 Diseases of Domestic Animals. (3) S Control and prevention of infectious and noninfectious diseases of domestic animals. Prerequisite: AGB 442 or microbiology course with lecture and lab.

AGB 473 Animal Physiology I. (3) N Control and function of the nervous, muscular, cardiovascular, respiratory, and renal systems of domestic animals. Prerequisites: BIO 181; CHM 113.

AGB 479 Veterinary Practices. (3) F, S Observation and participation in veterinary medicine and surgery supervised by local veterinarians. Prerequisite: advanced pre-veterinary student.

AGB 480 Agribusiness Policy and Government Regulations. (3) S The development and implementation of government food, drug, pesticide, and farm policies and regulations that affect the management of agribusiness.

AGB 484 Internships. (2) F, S

AGB 490 Recent Advances in Agribusiness. (1) F, S Reports and discussions of current topics and problems associated with agribusiness. May be repeated for credit.

AGB 510 Advanced Agribusiness Management I. (3) F Managing and financing agribusiness, emphasizing environmental and economic sustainability in a global economy undergoing radical change. Prerequisite: AGB 310.

AGB 511 Advanced Agribusiness Management II. (3) S Analysis of organization behavior, change, and resource requirements within agribusiness systems. Prerequisite: AGB 310.

AGB 512 Food Industry Management. (3) S Operations and management of food-processing factories, food distribution centers, and retail food-handling firms.

AGB 513 Advanced Cooperatives. (3) F Advanced study of cooperatives and other nongovernmental organizations (NGO) focusing on management and proposal preparation for international agencies.

AGB 514 Advanced Agribusiness Analysis I. (3) S Vertical integration and differentiation in food and agricultural industries. Prerequisite: AGB 510 or 528.

AGB 515 Agribusiness Coordination. (3) S Organizational alternatives for agribusiness with emphasis on cooperatives and trading companies. Prerequisite: AGB 510 or 528.

AGB 528 Advanced Agribusiness Marketing. (3) F Theory and analysis of marketing farm commodities, risks, and the effect of future trading on cash prices.

AGB 529 Advanced Agribusiness Marketing Channels. (3) S Analysis of agribusiness market channels systems. Formulation of marketing strategies.

AGB 532 Advanced Agribusiness Finance. (3) F Financial management of agribusiness firms; agribusiness financial analysis, investment analysis, agricultural risk management, and introduction to agricultural financial intermediaries. Prerequisites: computer literacy and 1 finance course or instructor approval.

AGB 535 Commodity Analysis. (3) F Analysis of commodity markets.
AGB 540 Advanced Food Science. (3) N
Chemical and physical nature of processed foods. Emphasis on food product development.

AGB 550 International Agricultural Development. (3) F
Transition of developing countries from subsistence to modern agriculture. Emphasis is placed on implications for U.S. agribusiness working abroad.

AGB 551 Agribusiness in Developing Countries. (3) S
Factors influencing successful development of agribusiness enterprises in developing countries, including poverty, access to capital and technology, and trade opportunities.

AGB 552 International Agricultural Policy. (3) F
Use of international trade theory to analyze the effects of government policies, trade agreements, and exchange rates on agribusiness.

AGB 554 Advanced International Trade. (3) F
Advanced international practices in trading of agribusiness, technology, and resource products and services.

AGB 557 Resource Policy and Sustainability. (3) F
Considers the evolution of policy design, focusing on how resource and environmental concerns have affected agricultural development and trade policies.

AGB 558 Advanced Bio remediation. (3) S
Management and policy issues related to bioremediation of mining and animal waste and replacement of chemical control with biological methods. Lecture, case studies.

AGB 560 Advanced Agribusiness Management Systems. (3) N
Development and use of decision support systems for agribusiness management decision making. Prerequisite: AGB 510.

AGB 561 Agribusiness Research Methods. (3) F
The use of model building, hypothesis testing, and empirical analysis in solving agribusiness problems.

AGB 570 Managerial Economics for Agribusiness. (3) F
Concepts in micro- and macroeconomics applied to agribusiness management environments: price formation, market structure, information economics, fiscal and monetary policy. Prerequisites: introductory micro- and macroeconomics.

AGB 580 Advanced Agribusiness Policy. (3) F
Policy-making history, structure, and process.

AGB 581 Advanced Agribusiness Policy. (3) N
Policy-making history, structure, and process.

AGB 587 Resource Policy and Sustainability. (3) F
Considers the evolution of policy design, focusing on how resource and environmental concerns have affected agricultural development and trade policies.

AGB 592 Research. (1–12) N
AGB 599 Thesis. (1–12) N
Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

**SENIOR LECTURER**

WINKELMAN

The faculty in the Department of Anthropology offer graduate programs leading to the M.A. and Ph.D. degrees in Anthropology.

**Admission.** In addition to the general requirements for admission to the Graduate College, the Department of Anthropology requires applicants to provide a statement of their interests and professional goals and three letters of recommendation. Applicants who received their B.A. during the past ten years must also submit scores on the Graduate Record Examination. Undergraduate course work in anthropology is not a prerequisite for admission to the M.A. program. Admission to the Ph.D. program normally presumes an M.A. in Anthropology; students may be admitted without such a background on the condition that they acquire a knowledge of general anthropology in a manner to be specified at the time of admission.

**Program of Study.** Special training programs designed to terminate with a master’s degree are possible at the discretion of the student and faculty advisors. For example, the concentrations in linguistics, museum studies, medical anthropology, and bioarchaeology are at the master’s level. The primary purpose and scope of the graduate program in anthropology, however, is intended to lead to the Ph.D. degree.

The doctoral program is divided into three phases. The first consists of 24 semester hours of course work and readings, usually within a subdiscipline and closely allied areas, followed by six semester hours for the M.A. thesis (or publishable paper). The faculty may require additional hours of course work or other preparation for entering students who are unfamiliar with the concepts of general anthropology at a level equivalent to that of the Arizona State undergraduate anthropology core. Mastery of the phase I course material is
Anthropology and related fields consists of 30 semester hours of course work, reading in foundations, and other relevant information. The second phase of M.A. research, prior course work, faculty recommendations, and other relevant information. The second phase consists of 30 semester hours of course work, reading in anthropology and related fields, and directed research designed to prepare the student for the dissertation project. Proficiency in one foreign language or quantitative methods may be required by the supervisory committee. The second phase is completed when the following have been met: (1) passing a written comprehensive examination, and (2) passing the oral defense of the dissertation proposal. The successful student is then advanced to candidacy.

The final phase consists of 24 semester hours of research and dissertation.

Certificate in Museum Studies. The certificate is awarded to nondegree or graduate students who are accepted into the certificate program and who complete 12 hours of required courses and a six-semester hour internship at an approved museum. The certificate may be taken independently or in conjunction with the M.A. degree in Anthropology with a concentration in museum studies.

Master of Public Health. The faculty in the department participate in offering a Master of Public Health (M.P.H.) with a concentration in cultural and behavioral dimensions of public health as a part of the Arizona Graduate Program in Public Health on the University of Arizona campus. This program concentration offers theoretical and practical learning experiences to enable the student to develop competencies in understanding and planning health programs for culturally diverse clients and communities in the United States and across the world. The central objective of the concentration is understanding and evaluating cultural influences on health and illness, health promotion, and disease prevention.

For more information, see “Master of Public Health,” page 219.

MASTER OF ARTS

Concentrations are available at the master’s level in archaeology, bioarchaeology, linguistics, medical anthropology, museum studies, physical anthropology, and social-cultural anthropology.

The new medical anthropology concentration emphasizes biocultural perspectives on the study of health and illness behavior. The faculty has a range of teaching and research activities that span biological, physical, ecological, sociocultural, and applied areas of medical anthropology. The program combines theoretical approaches with an applied problem-solving focus to prepare students for careers both in academia and in health care delivery and public health.

See “Master’s Degrees,” page 101, for general requirements. A concurrent M.A. degree in Anthropology and M.S. degree in Justice Studies is also available. See “Concurrent Degrees,” page 232.

DOCTOR OF PHILOSOPHY

Concentrations are available at the doctoral level in archaeology, physical anthropology, and social-cultural anthropology.

See “Doctor of Philosophy,” page 104, for more information on the Ph.D. degree.

RESEARCH AND TEACHING ACTIVITIES

Faculty in the Department of Anthropology are actively engaged in research on a wide range of problems and in a variety of geographical settings, with special strength in the American Southwest, Southeast Asia, Mesoamerica, the Near East, and the Arctic. Individual faculty conduct research in Arizona, New Mexico, Ohio, Alaska, Canada, Guatemala, Mexico, England, Spain, Jordan, Morocco, Kenya, Madagascar, New Guinea, Thailand, Indonesia, and the Philippines.

While most research and teaching center on problems associated with one of the traditional subfields of anthropology, many departmental programs include faculty from various branches of anthropology. Research and teaching in archaeology center on archaeological theory, research methods, quantitative methods, computer and statistical applications, paleoecology of hunter-gatherers, and the archaeology of social complexity. The program in social-cultural anthropology emphasizes social organization, religion, ecology and demography, research methods, human biology and social behavior, and anthropological linguistics. The physical anthropology program stresses osteology, dental anthropology, primatology, functional morphology, growth and development, paleoanthropology, human biological variation, disease ecology, and human origins. The program in museum studies includes emphases in curation, exhibition, educational programming, and administration. The medical anthropology program emphasizes biocultural perspectives on the study of health and illness behavior. The bioarchaeology program applies a holistic, ecological perspective in considering biological, environmental, demographic, and cultural processes at regional and local scales. The program in linguistics is interdisciplinary and has strengths in American Indian and Southeast Asian languages, bilingualism, language renewal, language and education, and ethnopoetics.

Among the research resources of the department are large archaeological, ethnographic, dental, and osteological collections; a majority of available fossil hominid casts; numerous archaeology and physical anthropology laboratories; departmental computers; radiographic, serologic, and pollen facilities; ethnographic and linguistic archives. The department publishes a monograph series, *Anthropological Research Papers*, and two series of field reports, *Anthropological Field Studies* and *OCRM Reports*. The department also maintains the Office of Cultural Resource Management and the Arizona State University Museum of Anthropology. The department operates the Deer Valley Rock Art Center in north Phoenix, a research and interpretive center situated at the largest concentration of petroglyphs in the Phoenix area. The Museum of Anthropology, which is housed in the Anthropology Building, works closely with the Heard Museum of Native American Cultures and Art, the Desert Botanical Gardens, the Pueblo Grande Museum, the Tempe Historical Society, and other museums in the area.
ANTHROPOLOGY (ASB)

ASB 400 Cultural Factors in International Business. (3) S
Anthropological perspectives on international business relations; applied principles of cross-cultural communication and management; regional approaches to culture and business. General Studies: G.

ASB 411 Kinship and Social Organization. (3) S
Meanings and uses of concepts referring to kinship, consanguinity, affinity, descent, alliance, and residence in the context of a survey of the varieties of social groups, marriage, rules, and kinship terminological systems. Prerequisite: 6 hours of anthropology or instructor approval.

ASB 412 History of Anthropology. (3) F
Historical treatment of the development of the culture concept and its expression in the chief theoretical trends in anthropology between 1860 and 1950. Prerequisite: ASB 102 or instructor approval. General Studies: L/SB.

ASB 416 Economic Anthropology. (3) F
Economic behavior and the economy in preindustrial societies; description and classification of exchange systems; relations between production, exchange systems, and other societal subsystems. Prerequisite: ASB 102 or instructor approval.

ASB 417 Political Anthropology. (3) A
Comparative examination of the forms and processes of political organization and activity in primitive, peasant, and complex societies. Prerequisite: ASB 102 or instructor approval.

ASB 462 Medical Anthropology: Culture and Health. (3) F
Role of culture in health, illness, and curing; health status, provider relations, and indigenous healing practices in United States ethnic groups. Lecture, discussion. General Studies: C.

ASB 471 Introduction to Museums. (3) F
History, philosophy, and current status of museums. Exploration of collecting, preservation, exhibition, education, and research activities in different types of museums. Prerequisites: ASB 102 and ASM 101 or instructor approval. General Studies: L.

ASB 480 Introduction to Linguistics. (3) F
Descriptive and historical linguistics. Survey of theories of human language, emphasizing synchronic linguistics. General Studies: SB.

ASB 481 Language and Culture. (3) S
Application of linguistic theories and findings to nonlinguistic aspects of culture: language change; psycholinguistics. Prerequisite: ASB 102 or instructor approval. General Studies: SB.

ASB 483 Sociolinguistics and the Ethnography of Communication. (3) N
Relationships between linguistic and social categories: functional analysis of language use, maintenance, and diversity; interaction between verbal and nonverbal communication. Prerequisites: ASB 480 and ENG 213 (or FLA 400) or instructor approval. General Studies: SB.

ASB 485 U.S.-Mexico Border in Comparative Perspective. (3) S 2001
Explores the multicultural and social dimensions of communities along the U.S.-Mexico border, emphasizing social organization, migration, culture, and frontier ideology. Prerequisite: 6 hours of anthropology or instructor approval.

ASB 501 Applied Medical Anthropology. (3) F
Overview of anthropology’s applications in medicine and its adaptations to U.S. ethnic populations. Requires research project in medical setting. Lecture, seminar. Prerequisite: graduate standing or instructor approval.

ASB 502 Health of Ethnic Minorities. (3) S
Prevalence of illness, risk factors, health ecology, and medical and indigenous treatments. Lecture, seminar. Prerequisite: graduate standing or instructor approval.

ASB 503 Advanced Medical Anthropology. (3) F
Theory in Medical Anthropology and cross-cultural studies that illustrate particular theories. Lecture, seminar. Prerequisite: graduate standing or instructor approval.

ASB 504 Ethnic Relations. (3) F
Structural processes of intergroup relations, methods for investigating psychocultural dimensions of ethnicity with focus upon U.S. ethnic groups. Lecture, seminar. Prerequisite: graduate standing or instructor approval.

ASB 505 Culture and Psychiatry. (3) F
Psychiatry as a cultural phenomenon and indigenous definitions and treatments of mental disorders across cultures. Lecture, seminar. Prerequisite: graduate standing or instructor approval.

ASB 506 Gender, Emotions, and Culture. (3) S
Relationships among gender and emotion across cultures. Lecture, seminar. Prerequisite: graduate standing or instructor approval.

ASB 529 Culture and Political Economy. (3) N
Origin and spread of Western capitalism and its impact on non-Western societies. Ethnographic and historical case studies are utilized. Prerequisite: graduate standing.

ASB 530 Ecological Anthropology. (3) A
Independent research on a specific ecological problem to be selected by the student in consultation with the staff. May be repeated for credit. Prerequisites: ASM 338 or equivalent; instructor approval.

ASB 532 Graduate Field Anthropology. (2–8) S
Overview of anthropology’s applications in medicine and its adaptations to U.S. ethnic populations, with special emphasis on hunter-gatherers and extensive agriculturalists.

ASB 533 Ethnohistory of Mesoamerica. (3) N
Development of society and culture in the Old World during the Pleistocene epoch, emphasizing technological change through time and the relationship of people to their environment. Prerequisite: ASB 361 or equivalent.

ASB 534 Settlement Patterns. (3) N
Spatial arrangement of residences, activity sites, and communities over landscape. Emphasis on natural and cultural factors influencing settlement patterns. Prerequisite: instructor approval.

ASB 540 Method and Theory of Sociocultural Anthropology and Archaeology I. (3) F
Basic issues concerning concepts of social and ethnic groups, cultural and sociological theory, and the nature of anthropological research. Prerequisite: instructor approval.

ASB 541 Method and Theory of Social and Cultural Anthropology. (3) S
Covers concepts of social complexity along with economy, demography, and social dynamics, followed by anthropological research design. Prerequisite: instructor approval.

ASB 542 Method and Theory of Archaeology I. (3) S
Prehistoric economies in hunter-gatherer and tribal societies, ceramic, lithic, and faunal materials. Prerequisite: ASB 102 or instructor approval.

ASB 543 Method and Theory of Archaeology II. (3) F
Prehistoric economies in hunter-gatherer and tribal societies, ceramic, lithic, and faunal materials. Prerequisite: instructor approval.

ASB 544 Ecological Anthropology. (3) A
Comparative examination of the forms and processes of political organization and activity in primitive, peasant, and complex societies. Prerequisite: ASB 102 or instructor approval.

ASB 546 Pleistocene Prehistory. (3) F
Human evolution, culture change, and interpretation of pre-Columbian civilizations in Mesoamerica explored through interpretive issues, such as regional analysis, chieftains, urbanism, and exchange. Prerequisite: instructor approval.

ASB 547 Issues in Old World Domestication Economies. (3) S
Archaeological evidence for transitions in Old World subsistence economies from hunting and gathering to dependence on domesticated plants and animals. Prerequisite: ASB 362 or equivalent.

ASB 548 Prehistoric Diet. (3) N
Archaeological evidence for transitions in Old World subsistence economies from hunting and gathering to dependence on domesticated plants and animals. Prerequisite: ASB 362 or equivalent.

ASB 550 Complex Societies. (3) S
Prehistoric economies in hunter-gatherer, tribal, and complex societies. Subsistence strategies, craft production and specialization, and exchange covered. Prerequisite: instructor approval.

ASB 552 Complex Societies. (3) S
Prehistoric societies in the Americas. Prerequisite: ASB 102 or instructor approval.

ASB 553 Complex Societies. (3) S
Prehistoric societies in the Americas. Prerequisite: ASB 102 or instructor approval.

ASB 554 Complex Societies. (3) S
Prehistoric societies in the Americas. Prerequisite: ASB 102 or instructor approval.

ASB 555 Complex Societies. (3) S
Prehistoric societies in the Americas. Prerequisite: ASB 102 or instructor approval.

ASB 556 Complex Societies. (3) S
Prehistoric societies in the Americas. Prerequisite: ASB 102 or instructor approval.

ASB 557 Complex Societies. (3) S
Prehistoric societies in the Americas. Prerequisite: ASB 102 or instructor approval.

ASB 559 Archaeology and the Ideational Realm. (3) N
“Postprocessual” and other views concerning relevance of mental phenomena for understanding sociocultural change. Various approaches to inferring prehistoric meanings.
ASB 563 Hunter-Gatherer Adaptations. (3) N
Evolution of prehistoric hunter-gatherer societies in the Old and New Worlds from the most ancient times through protohistoric chiefdoms. Prerequisite: instructor approval.

ASB 567 Southwestern Archaeology. (3) S
Broad coverage of Southwestern cultural developments focusing on current debates and rigorous use of archaeological data in making cultural inferences.

ASB 568 Intrasite Research Strategies. (3) F
Research issues within a single site context. Topics include quantitative spatial analysis, site definition, sampling, distributional analysis, and substantive interpretation.

ASB 571 Museum Principles. (3) F
History, philosophy, and current status of museums. Exploration of collecting, preservation, exhibition, education, and research activities in different types of museums. Prerequisites: ASB 102 and ASM 101 or instructor approval.

ASB 572 Museum Collection Management. (3) S
Principles and practices of acquisition, documentation, care, and use of museum collections; registration, cataloging, and preservation methods; legal and ethical issues. Prerequisite: ASB 571 or instructor approval.

ASB 573 Museum Administration. (3) S
Formal organization and management of museums; governance; personnel matters; fund raising and grantsmanship; legal and ethical issues. Prerequisite: ASB 571 or instructor approval.

ASB 574 Exhibition Planning and Design. (3) S
Exhibition philosophies and development; processes of planning, designing, staging, installing, evaluating, and disassembling temporary and long-term exhibits. Prerequisites: ASB 571 and 572 or instructor approval.

ASB 575 Computers and Museums. (3) F
Basics of museum computer application; hardware and software; fundamentals of database management; issues of research, collections management, and administration.

ASB 576 Museum Interpretation. (3) F
Processes of planning, implementing, documenting, and evaluating educational programs in museums for varied audiences—children, adults, and special interest groups. Lecture, discussion. Prerequisite: ASB 571.

ASB 577 Principles of Conservation. (3) S
Preservation of museum objects: nature of materials, environmental controls, and causes of degradation; recognizing problems, damage, and solutions; proper care of objects. Prerequisites: ASB 571 and 572 or instructor approval.

ASB 579 Critical Issues in Museum Studies. (3) F
Current debates of museum practice from an anthropological perspective. Issues of collection, presentation, authenticity, and authority are addressed. Seminar. Prerequisite: ASB 571 or instructor approval.

ASB 591 Seminar. (3) N
Selected topics in archaeology, linguistics, and social-cultural anthropology.
(a) Archaeological Ceramics
(b) Archaeology of North America
(c) Cultural Anthropology
(d) Culture and Personality
(e) Evolution and Culture
(f) Historical Archaeology
(g) Interdepartmental Seminar
(h) Language and Culture
(i) Linguistics
(j) Museum Studies
(k) Problems in Southwestern Archaeology
(l) Problems in Southwestern Ethnology
(m) Social Anthropology

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

ANTHROPOLOGY (ASM)

ASM 435 Archaeological Pollen Analysis. (3) F
Theory, methodology, and practice of pollen analytic techniques. Compares uses in botany, geology, and archaeology. 2 hours lecture, 3 hours lab, possible field trips. Prerequisite: instructor approval.

ASM 452 Dental Anthropology. (4) F
Human and primate dental morphology, growth, evolution, and genetics. Within- and between-group variation. Dental pathology and behavioral-cultural-dietary factors. 3 hours lecture, 3 hours lab. Prerequisite: instructor approval. General Studies: SG.

ASM 454 Comparative Primate Anatomy. (4) S
Functional anatomy of the cranial, dental, and locomotor apparatus of primates, including humans, emphasizing the relation of morphology to behavior and environment. 3 hours lecture, 3 hours lab, dissections, demonstrations. Prerequisite: instructor approval.

ASM 455 Primate Behavior Laboratory. (3) N
Instruction and practice in methods of observation and analysis of primate behavior. Discussion of the relationship between class work on captive animals and field techniques for studying free-ranging groups. Directed readings, 6 hours lab. Prerequisites: ASM 454; instructor approval. General Studies: L.

ASM 465 Quantification and Analysis for Anthropologists. (3) S
Statistical, quantitative, and geometric strategies for envisioning and exploring archaeological, physical anthropological, bioarchaeological, and sociocultural data. Univariate and multivariate methods. Prerequisites: introductory statistical course; instructor approval.

ASM 507 Anthropological Study of Disease. (3) A
In-depth introduction to the study of disease processes from an anthropological perspective. Lecture, seminar. Prerequisite: graduate standing or instructor approval.

ASM 548 Geoarchaeology. (3) F
Geologic context relevant to archaeological research. Topics include sediments, deposition environments, soils, anthropogenic and biogenic deposits, and quaternary chronology. Prerequisite: instructor approval.

ASM 555 Advanced Human Osteology. (3) N
Laboratory and field techniques in dealing with the human skeleton. Emphasis on preparation, identification, radiography, sectioning, microscopy, and data processing. 1 hour lecture, 6 hours lab. Prerequisite: ASM 544 or instructor approval.

ASM 556 Quantitative Archaeology. (3) S
Formal methods of structuring, codifying, and analyzing data for archaeological problems. Designing research to yield data amenable to productive analysis.

ASM 557 Lithic Analysis. (3) N
Analysis and interpretation of chipped stone artifacts. Focus on both techniques and underlying concepts and their application to real collections. Prerequisite: instructor approval.

ASM 591 Seminar. (3) N
Selected topics in archaeology and physical anthropology.
(a) Bioarchaeology
(b) Evolution and Culture
(c) Interdepartmental Seminar
(d) Physical Anthropology
(e) Primates and Behavior

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.
The faculty in the School of Architecture offer a professional program leading to the Master of Architecture degree. The faculty in the school also offer a research-based graduate program leading to the M.S. degree in Building Design. See “Building Design,” page 132, for information on this degree program.

The faculty in the school also participate in offering a Ph.D. in Environmental Design and Planning. See “Environmental Design and Planning,” page 198, for information on this degree program.

MASTER OF ARCHITECTURE

The Master of Architecture is the accredited professional degree program at ASU. There are two typical programs of study available: (1) a two-year program for applicants who have completed the four-year Bachelor of Science in Design (with a major in Architectural Studies) at ASU or an equivalent degree from another school that offers an accredited professional degree in architecture, and (2) a three-plus-year program for applicants with an undergraduate degree in a discipline or field other than architecture. Both programs promote broad areas of knowledge, professional skill, and a social awareness that the architect must command if architecture is to enhance contemporary life and remain an enduring and valid expression of society.

The program represents an attempt to develop the knowledge and skills necessary for graduates to achieve future leadership roles in the professional practice of architecture and related environmental design fields.

It is the intention of the faculty that the programs also

1. ensure a basic level of educational experience sufficient to enter the practice of architecture after successfully completing state licensing requirements and examination,
2. encourage the student to develop proficiencies in specific areas compatible with individual interests and university instructional capabilities,
3. provide a breadth of understanding that will encourage and motivate the student to continue learning throughout a professional career, and
4. develop opportunities that combine instruction and research directed toward adding value to the built environment.

Elective foci currently offered in the program include energy-conscious design, computer applications, urban design, architectural history and theory, and architectural administration and management.

In the first year of the two-year program, graduate design studio projects focus on advanced comprehensive problems that require integration of the full range of knowledge and skills from students’ undergraduate education. In the second year, students select design studios and undertake final design projects that complement their areas of interest. Courses in technology, history and theory, and architectural management are structured alongside the studio sequence.

The three-plus-year program begins with an intensive 10-week summer session introducing architecture and design fundamentals and continues with a preparatory year of architectural history, technology, and design. The final two years are similar to the two-year program described above. Students with no work experience in architecture must also complete a summer internship between the first and second years.

Application Requirements. An applicant to the M.Arch. program must hold a baccalaureate or graduate degree from a college or university recognized by ASU and must meet the minimum GPA requirements as established by the Graduate College.

In addition, all applicants are required to submit for review a design portfolio, GRE scores (except for international students), a statement of intent, and letters of reference. Applicants are accepted on a space-available basis only. Students may be admitted to the two-year program with deficiencies if their previous course work is not equivalent to the ASU undergraduate requirements and standards.

Students intending to apply for admission to the professional program in architecture at the graduate level should write to the graduate program coordinator well in advance of the application deadline.

International applicants whose native language is not English must submit a TOEFL score of 550 or above. International students should write the Graduate Admissions Office at least one year before the date they plan to begin study.

Application Procedures. Applicants must submit separate application materials to the Graduate College and the School of Architecture.

School of Architecture. In addition to the Graduate College admission requirements, applicants must file all of the following admission materials with

ACADEMIC ADVISOR,
MASTER OF ARCHITECTURE PROGRAM
SCHOOL OF ARCHITECTURE
ARIZONA STATE UNIVERSITY
PO BOX 871605
TEMPE AZ 85287-1605
Applicants are encouraged to contact the academic advisor to be sure that all materials have been received (480/965-2507 or arch.grad@asu.edu).

1. Statement of Intent. A personal narrative (maximum 600 words or two pages typed) indicating the applicant’s interest, previous academic and practical background, and personal and professional educational objectives must be submitted.

2. Letters of Recommendation. A minimum of three letters of recommendation in support of the applicant must be mailed directly to the Graduate Admissions Committee, School of Architecture. The references should be from professionals or educators familiar with the applicant’s experience and capability for graduate work.

3. Portfolio. Candidates applying for the two-year Master of Architecture program are required to submit a portfolio. The portfolio must be no larger than 8 1/2” x 11” (image size). The admissions committee is interested in the quality of work submitted in the portfolio, and applicants are advised not to lavish expense on special or unusual packaging. Slides, original drawings, and loose (unbound) materials should not be submitted. The portfolio should include at least five projects with a range of complexity and with concise, explanatory statements for each project. Include the dates of execution; course, professor, or firm; objective or program summary; and most importantly, a brief self-analysis of the results. When any work is not completely original, the relevant sources must be given. When work is of a team nature, the applicant’s role and contribution to the project should be clearly indicated. Applicants who have professional experience and wish to submit examples of professional work may do so. Of particular interest are projects in which the applicant has played a principal role in design. The portfolio is returned after final admission procedures, provided the applicant encloses a self-addressed return mailer with sufficient prepaid postage or if the applicant appears in person to claim the materials within one year of submission. Unclaimed portfolios are retained for one year only. The School of Architecture assumes no liability for materials lost or damaged during shipment or handling.

4. Creative Work. Candidates applying for the three plus year Master of Architecture program must also provide a portfolio of work as described in paragraph three above. It is recognized that candidates to this program may not have work related to architecture. Therefore, the portfolio should include other forms of creative work such as drawings, designs, paintings, photography, writing, craft, and construction. The work presented may be from vocational, avocational, or academic sources.

Because of space limitations, not all qualified applicants can be accommodated and the admission process is necessarily selective.

Students should indicate for which program of study they are applying. Those with a four-year degree equivalent to the B.S.D. in Architectural Studies should apply for the two-year program. Those with an undergraduate degree not in architecture should apply for the three-plus-year program. Students who are uncertain about which program suits them should write to the graduate program coordinator for determination of appropriate application. Students must have their name clearly visible on all parts of application; portfolio, statement of intent, etc.

Students with a previous professional degree in architecture (five or six years) who wish to pursue advanced study in climate responsive architecture, building energy performance, computer-aided design, energy simulation and analysis, and facilities development and management should apply to the Master of Science in Building Design program. See “Building Design,” page 132.

Application Deadline. Priority consideration is given to completed applications received on or before January 15. Students are not admitted to the two-year Master of Architecture program at any time other than the beginning of the fall semester. Students are not admitted to the three-plus-year Master of Architecture program at any time other than the beginning of the first summer session.

Personal Interview. A personal interview is not required. However, a candidate wishing to visit the school is welcome and should make arrangements by contacting the Graduate Programs Coordinator in the School of Architecture.

Requirements for the Two-Year Program. The two-year graduate program requires a minimum of 56 semester hours of approved courses and electives and a comprehensive examination. For most students, this program involves an average of 14 semester hours per semester. An internship may be offered as an elective to be taken in the summer before the final year of study. The internship is an honors program individually arranged and approved by the Master of Architecture Committee.

Students who can adequately demonstrate competence through experience or previous academic course work for any of the specific requirements outlined below are encouraged to petition the graduate advisor for a course substitution.

Requirements for the Three-Plus-Year Program. The three-plus-year graduate program requires a minimum of 99 semester hours of approved courses and electives and a comprehensive examination. For most students, this program involves 12 semester hours in the first summer and 14–15 semester hours in each of the subsequent six semesters. A summer internship is required after the first full year of study. A second internship may be offered as an elective to be taken in the summer before the final year of study. The second internship is an honors program individually arranged and approved by the Master of Architecture Committee.

Students who can adequately demonstrate competence through experience or previous academic course work for any of the specific requirements outlined below are encouraged to petition the graduate advisor for a course substitution.

Total .................................................................................. 14

* At least one professional elective must be a CAD course or be taken in the area of computers, if the student can demonstrate CAD skills.

Comprehensive Examinations. The faculty require that all students pass an oral comprehensive examination based, in part, on a defense of their final design project in ADE 622. Each student is required to undertake an independent design project in ADE 622, based on an approved proposal completed the previous semester in ANP 681. Examiners typically include members of the Architecture faculty and may include distinguished practitioners not on the faculty.

M.Arch./M.B.A. Concurrent Degree Program. A Master of Architecture/Master of Business Administration concurrent degree program is offered through cooperative arrangement between the faculty of the College of Business and the College of Architecture and Environmental Design. Students may obtain both degrees in approximately three years of study by concurrently meeting the requirements for each degree program. Separate applications are required by the respective units.

This program requires a minimum of 88 semester hours for those in the two-year M. Arch program. Once admitted, in consultation with their respective advisors, students develop programs of study that meet degree requirements of both programs and their particular interests. Students interested in this offering should request further information from the School of Architecture graduate advisor.

RESEARCH ACTIVITY

Faculty and students in the graduate programs of the School of Architecture are involved in the following areas of research: energy-conscious design, computer graphics, architectural computing, housing, urban design, building technology, environmental analysis, arid region design, and architectural history and theory.

The School of Architecture maintains laboratories for solar, structural, and materials testing, including a 1,500-square-foot rooftop testing laboratory for solar research.
Facilities for basic research activities and community service oriented programs in energy technology, design, real estate development, and planning are also provided by the College of Architecture and Environmental Design through the Herberger Center for Design Excellence and the joint urban design program.

## Architecture Courses

Courses offered by the faculty of the School of Architecture are categorized in the instructional areas described below.

**Architectural Administration and Management (AAD)**

AAD courses investigate the organization and managerial aspects of contemporary architectural practice. These studies examine the overall processes related to management, coordination, administration procedures, ethics, legal constraints, and the financial controls and measures of contemporary architectural practice.

**Architectural Design and Technology Studios (ADE)**

ADE encourages synthesis of the knowledge and understanding the student has gained from previous and parallel coursework, and from other sources, toward the comprehensive design of architectural projects. The laboratories integrate the needs, limitations, and determinants of design problems while applying analytical methods and technical skills in seeking and comparing alternative solutions for assigned problems.

**Architectural Philosophy and History (APH)**

APH develops an understanding of architecture as both a determinant and a consequence of man’s culture, technology, human needs, and behavior in the past and present. These studies are concerned with the rationale for the methods and results of design and construction.

**Architectural Technology (ATE)**

ATE develops knowledge of the technical determinants, resources, and processes of architecture. These studies are concerned primarily with the science and technology of design and construction, including materials, structural systems, construction systems, environmental control systems, active and passive solar systems, acoustics, and lighting.

**Architecture Professional Studies (ARP)**

ARP provides students with residency and off-campus opportunities and educational experience in group and individual studies relative to specific student interests and faculty expertise.

The program also offers several opportunities to study abroad. In addition, various required and optional field trips are undertaken in course work. (Supplemental fees are assessed for these offerings.)

**Environmental Analysis and Programming (ANP)**

ANP develops capabilities to analyze and program environmental and human factors as preconditions for architectural design. These studies are concerned with the existing and emerging methods used by the profession to evaluate and analyze a variety of courses on computer utilization is included in this area.

ANP 530 Computer Graphics in Architecture. (3) A
Fundamentals of computer graphics programming in architecture, including graphics hardware, device independent packages, 2- and 3-dimensional transformations, and data structures. 2 hours lecture, 3 hours lab. Prerequisite: ANP 475 or instructor approval.

ANP 561 Architectural Information Processing Systems. (3) A
Applications of information processing systems to architectural problems. Analysis of computing tools with respect to assumptions and theories. Lecture, lab. Prerequisites: graduate standing; instructor approval.

ANP 563 Methods in Architectural Design Computation. (3) S
Concepts and models for research in computer-aided architectural design with an emphasis on computational methods and a system framework. Discussion, lab. Prerequisite: ANP 500 or instructor approval.

ANP 590 RC: Computer Programming and Architecture. (1–12) N
ANP 598 Special Topics. (1–4) N
(a) Computer-Aided Design Methods
ANP 599 Thesis. (1–12) N

ANP 681 Project Development. (3) F 2000

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

ARCHITECTURAL PHILOSOPHY AND HISTORY (APH)

APH 505 Foundation Theory Seminar. (3) F
Foundation of conceptual architectural inquiry, stressing the reciprocal and interdependent relationship between design and theory. Lecture, seminar.

APH 509 Foundation Seminar. (3) SS
Historical, technical, theoretical, environmental, and professional issues in architecture. Lecture, seminar, field trips. Prerequisite: ADE 510.

APH 511 Energy Environment Theory. (3) F
Solar and other energy sources in designed and natural environments; architectural, urban, and regional implications of strategies using other renewable resources.

APH 515 Current Issues and Topics. (3) S
Critical examination of current architectural issues, topics, and discourse. Prerequisite: APH 505.

APH 581 Contemporary Urban Design. (3) S
Exploration of the contemporary city and urban design issues related to contemporary cities. Seminar, lecture, discussion. Prerequisite: APH 505.

APH 581 Architectural Theory. (3) S
Examination of architectural theory. Emphasis on application of theory to practice. Seminar. Prerequisite: instructor approval.

APH 582 Architectural Criticism. (3) F
Examination of architectural criticism, emphasizing specific methods of criticism and their application for aesthetic judgment. Seminar, Prerequisite: instructor approval.

APH 583 Critical Regionalism. (3) N
Critical inquiry in cultural grounding the definition of place in architectural theory and practice. Lecture, field studies. Prerequisite: APH 446 or 447.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

ARCHITECTURE PROFESSIONAL STUDIES (ARP)

ARP 584 Clinical Internship. (1–12) SS
Structured practical experience following a contract or plan, supervised by faculty and practitioners.

ARP 684 Professional Internship. (2–6) S
Field experience in an architectural firm specializing in an area directly related to the student's advanced study. Integration of theory and state-of-the-art practices. Credit/no credit. Prerequisite: instructor approval.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

ARCHITECTURAL TECHNOLOGY (ATE)

ATE 521 Building Environmental Science. (3) F
Scientific principles relating to comfort and environmental control. Heat and moisture transfer, Solar/natural energies for heating, cooling, and lighting. Lecture, lab. Prerequisite: MAT 290 or equivalent.

ATE 530 Daylighting Design. (3) S
Daylight analysis, availability, design sky measurements, modeling and simulation. Integration with passive heating, cooling, building design, and energy considerations. Lecture, lab.

ATE 550 Passive Cooling and Heating I. (3) S
Theory, analysis, and application of passive and low-energy systems for thermal comfort in buildings emphasizing heating. Prerequisite: ATE 521.

ATE 551 Passive Cooling and Heating II. (3) F
Theory, analysis, and application of passive and low-energy heating systems for thermal comfort in buildings emphasizing cooling. Prerequisite: ATE 550.

ATE 552 Energy Parameters in Buildings. (3) N
Advanced modeling. Transient and multidimensional analysis of thermal and daylight performance using variable weather data. Prerequisite: ATE 551 or instructor approval.

ATE 553 Building Systems III. (3) F
Design and integration of building systems, including mechanical, electrical, plumbing, security, communications, fire protection, and transportation. Prerequisite: admission to upper division or instructor approval.

ATE 554 Building Energy Efficiency. (3) S
Impact of building design on energy performance. Climate responsive-ness, operations dynamics, and subsystems integration in thermal comfort and efficiency. Prerequisite: ATE 452.

ATE 556 Building Development. (3) F
Comprehensive design development through the understanding and integration of building materials and systems. Lecture, seminar, Prerequisites: AAD 551; ATE 462, 553; level AutoCAD proficiency.

ATE 557 Construction Documents I. (3) S
Production of architectural working drawings: legal status, organization, layout, site survey plans, sections, elevations, details, schedules, and coordination. Lecture, lab. Prerequisite: admission to upper division.

ATE 558 Bioclimatic Parameters. (3) S
Theory, analysis, and application of energy-related parameters of site, climate, human comfort, and building program for design synthesis.

ATE 560 Building Energy Analysis. (3) F
Computer simulation of building thermal behavior. Software review. Detailed study of selected simulation models using case study projects. Lab. Prerequisites: ANP 475 (or 477); ATE 582.

ATE 561 Energy Analysis Techniques. (3) F
Mathematical models of building envelope and comfort conditioning systems as bases for optimization techniques. Prerequisite: ATE 560.

ATE 562 Experimental Evaluation. (3) A
Instrumentation, measurement and computational techniques for analysis of building components, and assessment of thermal and luminous performance. Prerequisite: ATE 521.

ATE 563 Building Structures III. (3) F
Analysis, design, and detailing of steel buildings and frames. Lateral analysis of small rigid and braced frame systems. Lecture, lab. Prerequisite: ATE 462 or equivalent.

ATE 564 Advanced Structures: Concrete. (3) A
Analysis, design, and detailing of concrete systems, considering conti-nuity, multistory frames and shear walls, and lateral analysis. Computer application. Prerequisite: ATE 563 or instructor approval.

ATE 565 Advanced Structures: High Rise. (3) A
Developments in high-rise construction. Effects of wind and seismic forces. Preliminary analysis, design, and detailing considering code requirements. Lecture, lab. Prerequisite: ATE 563 or instructor approval.

ATE 582 Environmental Control Systems. (3) A
Heating, ventilation, and air-conditioning systems. Loads, psychrometrics, refrigeration cycle, air/water distribution, controls, energy performance standards, and utility rates. 2 hours lecture, 3 hours lab, field trips. Prerequisite: ATE 451 or 521.

ATE 599 Thesis. (1–12) N
Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

The faculty in the School of Art offer a program with a major in Art leading to the M.A. degree with concentrations in art education and art history.

Students admitted to the Master of Education degree program with a major in Secondary Education may also elect a major in Art leading to the M.A. degree with concentrations in art education and art history.

A Doctor of Education degree program option, with a concentration in art education, is available. The Ed.D. is offered and administered through the College of Education. See “Doctor of Education,” page 180, for program description.

A Ph.D. degree in History and Theory of Art is offered jointly with the University of Arizona. For more information, contact the School of Art at 480/965-3468.

MASTER OF ARTS

Art Education

Admission. An applicant must have a bachelor’s degree from an accredited college or university with a major or minor in art history, and criticism or aesthetics, and six hours of research and thesis.

To meet the core requirements, students must take the following core courses:

- ARE 510 Art Education Colloquium ........................................3
- ARE 520 Issues in Teaching Inquiry in Art .................................3
- ARE 525 Research on Teaching Art History ...............................3
- ARE 530 Issues in Teaching Studio Art .....................................3
- ARE 535 Research on Teaching Studio Art .................................3
- ARE 540 Teaching Art in Cultural Contexts ...............................3

Before the end of the first semester of course work (six or more semester hours), a program of study must be submitted to the Graduate College. Additional program requirements are indicated in the M.A. in Art Education Guidelines.

Qualifying Research Paper. A qualifying research paper must be submitted at the end of the semester in which the student completes the first 15 hours of course work. This paper must be judged satisfactory by the art education faculty before the start of the following semester, or the student is put on probation. During the semester following the qualifying research paper review, the student on probation may not enroll in more than nine semester hours of course work (these may not be thesis hours). To continue in the program, the student must submit a satisfactory research paper before the end of that semester.

Thesis Requirements. A written thesis is required.

Final Examinations. A final oral examination in defense of the thesis is required.

Art History

Admission. An applicant must have a bachelor’s degree with an undergraduate major or minor in art history, or at least four upper-division art history courses, in which an average GPA of 3.00 was maintained. Graduate Record Examination (aptitude test) scores must be submitted in support of the application, along with three letters of recommendation. Applicants should submit one formal research paper for review and a one-page statement of intent indicating their objectives for graduate study. The application deadline is January 15.

Program of Study. The degree program requires 33 semester hours of credit including a minimum of 21 hours in art history, with at least 12 of these earned in 500-level seminars. At least one course must be taken in each of the four core areas: non-Western, ancient/medieval, renaissance/baroque, and modern. Satisfactory completion of ARS 501 Methodologies and Art History is required during the first semester of residence. The remaining hours include ARS 599 Thesis, approved electives, and other courses specified by the faculty.

For more information, a student should request a copy of the M.A. in Art History Guidelines from the School of Art.

Foreign Language Requirements. Demonstration of a reading knowledge of one foreign language (French, German, or with faculty approval, another language appropriate to the field of study) is required. Depending upon the student’s chosen area of study, reading knowledge of an additional language may be required.
Qualifying Research Paper. In order for the student to continue graduate study, a qualifying research paper, submitted in the semester in which 15 hours will be completed, must be judged satisfactory by the faculty.

Thesis Requirements. A written thesis is required.

Final Examinations. A final oral examination in defense of the thesis is required.

MASTER OF FINE ARTS

Art

The Master of Fine Arts degree in Art requires a minimum of 60 semester hours of graduate work beyond the bachelor’s degree. The objective of this degree is to provide advanced study in one or more of the following concentrations: ceramics, drawing, fibers, intermedia, metals, painting, photographic studies, photography, printmaking, sculpture, or wood.

Admission. A bachelor’s degree from a college or university recognized by ASU is required. All students applying for the M.F.A. degree must submit to the chair of the Graduate Studio Committee a portfolio of 20 slides of their work with a return envelope and postage. Three letters of recommendation and a statement of intent pertaining to the student’s educational objectives are also required. Because each area of specialization may have unique requirements, students are advised to contact the School of Art for additional information.

Selection Procedures. Faculty review committees appointed by the Graduate Studio Committee make the recommendations for admission. All aspects of the application are evaluated with the purpose of selecting for the available openings those students who have the most reasonable prospect for success in the proposed programs of study. The application deadline is January 15 for the following fall semester. Each student whose application is complete by the deadline date should be advised of admission status within six weeks of the deadline.

Review Sequence

All students are reviewed after completing 15 semester hours of graduate studio work. A progress review may be called at any time during the course of the graduate program. Following the review (after 15 semester hours), the student must form a supervisory committee to direct the program through the completion of the M.F.A. exhibition and final oral examination. For more information, a student should request a copy of the M.F.A. Guidelines from the School of Art.

Program of Study. A total of 60 semester hours of graduate credit subject to committee approval is required, including:

1. 27–32 graduate studio hours in the major area(s) of concentration;
2. nine hours of graduate-level art history;
3. nine hours of graduate work outside the area of concentration. These hours may be taken in art history, art auxiliary, art education, or outside the school or college. At least three hours are recommended in a studio discipline; and
4. 10–15 hours of ART 680 Practicum, resulting in an M.F.A. exhibition.

Credit Before Admission. Subject to the recommendation of the review committee, students with a completed M.A. degree in Studio Art may have up to 24 hours (exclusive of thesis or project) applied to the M.F.A. program. In other cases a maximum of 12 semester hours of transfer credit may be applied to the degree program. However, only nine hours of nondegree graduate credit taken before admission at ASU or another institution may be used to fill degree requirements (see “Credit Completed Before Admission,” page 102).

Foreign Language Requirements. None.

Final Examination. An oral defense of the M.F.A. exhibition (ART 680) is required.

Time Limit. The total program and all requirements for the degree, including transferred course work, must be completed within seven calendar years.

RESEARCH ACTIVITY

Faculty and student research is conducted in the following areas:

Art History. Ancient, American, Asian, baroque, Latin American, medieval, modern, Native American, pre-Columbian, and renaissance art; as well as art criticism, critical theory, and history of photography.

Art Education. Teaching and learning in studio art and art history with an emphasis on elementary, secondary, and higher education settings; multicultural and cross-cultural art; curriculum and instruction; development of instructional resources; developmental studies; assessment in art; theoretical issues; historical, philosophical, and qualitative/quantitative research in art education.

Studio Art. Painting and drawing, intermedia, fine art printing and bookmaking, papermaking, sculpture, lithography, screenprinting, intaglio and monoprinting, computer graphics and animation, video art, fine art photography, ceramics, metalworking, wood, and fibers. Studio faculty and graduate students pursue ongoing research in various materials and techniques and investigate images and concepts in contemporary and historical art forms.

Resources for studio art research include the Pyracantha Press (typography and limited edition books). Research activities are also enhanced greatly by active programs utilizing visiting artists/scholars, guest lecturers and by the ASU Art Museum and Hayden Library, the Phoenix Art Museum, and the Heard Museum of Native American Cultures and Art.

In addition, the School of Art has three traveling fellowships that allow students to study or conduct research abroad. The Anthony Gully Travel Fellowship and the Rabiner Memorial Fellowship are for Art History students. The Nathan Cummings Travel Fellowship is for M.F.A. students.

ART AUXILIARY (ARA)

ARA 460 Gallery Exhibitions. (3) F, S
Practical experience in all phases of department gallery operations and preparation of gallery publications. May be repeated for credit. Prerequisite: instructor approval.
ARA 488 Understanding Art. (3) F, S
Understanding art as an emergent cultural phenomenon with an emphasis on a critical examination of conceptual issues in art. Writing required. Prerequisites: ARE 101 and 102 or instructor approval. General Studies: L; HU.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

ART EDUCATION (ARE)

ARE 440 Disciplines of Art Education. (3) A
Explorations in art education's disciplines, history, and people's art-making development at diverse age levels and abilities. Lecture, discussion. Prerequisites: ARE 101 and 102 and ART 113 and 115 or instructor approval.

ARE 450 Studio Art: Art History I. (3) F, S
Art traditions before the 20th century as a basis for studio and art history instruction. 2 hours lecture, 2 hours studio. Meets art postbaccalaureate certification requirement. Pre- or corequisite: ARE 440.

ARE 470 Art Criticism: Aesthetics. (3) F
Traditions of aesthetics and art criticism; conceptual issues in contemporary art; education in the visual arts. 2 hours studio. Prerequisite: ARE 440 or instructor approval.

ARE 482 Studio Art: Art History II. (3) S
Art traditions of the 20th century as a basis for studio and art history instruction. 2 hours lecture, 2 hours studio. Meets art postbaccalaureate certification requirement. Pre- or corequisites: ARE 450 and 470 recommended.

ARE 486 Art Education: Strategies and Applications. (3) F
The implementation and evaluation of art instruction for K–12 population. Includes teaching of Saturday classes in the Children's Art Workshop. Meets art postbaccalaureate certification requirement. Prerequisite: ARE 482.

ARE 496 Methods and Assessment of Learning in Art. (3) A
Individual or group research on the assessment of art learning incorporating theory and practice. Meets art postbaccalaureate certification requirement. Prerequisites: ARE 470 and 486 or instructor approval.

ARE 510 Art Education Colloquium. (3) N
Historical foundations of art education and faculty presentations regarding teaching and research related to the visual arts.

ARE 520 Issues in Teaching Inquiry in Art. (3) A
Issues in teaching and learning through inquiry about artworks using print and electronic reproductions and information. Recommended to be taken before ARE 525.

ARE 525 Research on Teaching Art History. (3) A
Review of empirical and historical research, research methods, learning theory, and assessment of learning in art history. Pilot studies on the effects of instruction upon learning. Recommended to be taken after ARE 520.

ARE 530 Issues in Teaching Studio Art. (3) A
Critical examination of issues concerning teaching multicultural art to different populations of students. Historical and philosophical foundations reviewed. Recommended to be taken before ARE 535. Lecture, discussion.

ARE 535 Research on Teaching Studio Art. (3) A
Review of empirical and historical research methods, learning theory, and assessment of learning in studio art, including developmental studies and their limitations. Pilot studies on the effects of instruction upon learning. Recommended to be taken after ARE 530.

ARE 540 Teaching Art in Cultural Contexts. (3) A
A relationship of multicultural perspectives to teaching/learning art criticism, aesthetics, studio art, and art history.

ARE 610 Issues and Trends in Art Education. (3) N
Doctoral-level investigation of historical and contemporary issues related to teaching and research in art education.

ARE 611 Curriculum Development in Art Education. (3) N
Doctoral-level inquiry into the philosophical, psychological, and sociological foundations of curriculum development.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

ART HISTORY (ARS)

ARS 400 History of Printmaking. (3) A
History of the print as an art form and its relation to other modes and forms of artistic expression. Prerequisites: ARE 101 and 102 or instructor approval. General Studies: H; HU.

ARS 410 Early Christian and Byzantine Art. (3) A
Art and architecture of the early church and the Byzantine Empire from the 4th to the 15th century. Prerequisites: ARE 101 and 102 or instructor approval. General Studies: H.

ARS 454 Research and Writing in Photography. (3) A
Principles and practice of research and writing in the history and criticism of photography. Papers required. Prerequisites: ARE 450 and 451 or instructor approval; ENG 101 and 102 or equivalents.

ARS 457 History of Art Criticism. (3) N
Theories of criticism of the visual arts from late 18th century to present. Prerequisites: ARE 101 and 102 or instructor approval. General Studies: H.

ARS 458 Critical Theories in the Visual Arts. (3) N
Examines current critical theories through their application to all visual arts. May include new historicism, Marxism, deconstruction, poststructuralism, semiotics, Lacanian psychoanalysis, feminism, postmodernism. Lecture, discussion, student presentations. Prerequisites: ARE 101 and 102 or instructor approval. General Studies: H.

ARS 469 Mexican Art. (3) A
Art of Mexico and related Central American cultures from the prehistoric to the contemporary schools. Meets non-Western art history requirement. Prerequisites: ARE 101 and 102 or instructor approval. General Studies: H.

ARS 473 Art of Japan. (3) A
Japanese art from the Jomon period to the present. Satisfies non-Western art history requirement. Prerequisites: ARE 101 and 102 or instructor approval. General Studies: H.

ARS 485 Women in the Visual Arts. (3) S
Historical study of art by women in various media; related social, political, educational issues; representation of women in art. Lecture, discussion. Prerequisite: ARE 101 or 102 or instructor approval. General Studies: L.

ARS 501 Methodologies and Art History. (3) F
The history of the discipline and an exploration of various methodologies, critical theory, and bibliographies used by art historians. Seminar.

ARS 502 Critical Studies in Egyptian Art. (3) N
Egyptian art from pre-Dynastic to New Kingdom periods. Focus on aesthetic, philosophical, and cultural context. Research paper and readings required.

ARS 504 Critical Approaches to Greek Art. (3) A
Art and architecture of Aegean civilizations (Cycladic, Minoan, Mycenaean) and of Greece to end of Hellenistic period. Research paper and readings required.

ARS 506 Critical Studies in Roman Art. (3) A
Art and architecture of Etruria, the Roman Republic, and the Roman Empire. Research paper and/or supplemental readings required.

ARS 514 Critical Approaches to Romanesque Art. (3) N
Sculpture, painting, architecture, and the minor arts in western Europe, ca. 1030–1200, considered within religious, economic, and social contexts. Research paper required.

ARS 516 Critical Approaches to Gothic Art. (3) N
Architecture, sculpture, painting, and the minor arts in western Europe, ca. 1150–1350, considered within religious, social, and economic contexts. Research paper required.

ARS 517 Critical Approaches to Late Gothic Art. (3) N
Art of the late-Gothic style (ca. 1350–1525) considered within religious, social, economic, and political contexts. Research or reading project required.

ARS 522 Sixteenth-Century Italian Art. (3) A
Critical study of painting, sculpture, and architecture in 16th-century Italy in its religious and historical context.

ARS 528 Eighteenth-Century Art in Europe. (3) A
Critical study of European art from the late Baroque to the early years of Neoclassicism.

ARS 530 Art of Spain and New Spain. (3) A
Critical study of architecture, painting, and sculpture from 1500 to 1800. Lecture, conference.
ARS 532 Art, Politics, and Patronage, 1770–1850. (3) F
Critical analyses of political events in Europe. Issues of patronage, art
as propaganda examined. Impact of war and revolution on visual arts.

ARS 534 Studies in Modern European Art, 1850–1914. (3) A
A critical study of visual arts using primary source material from mid-
19th century to WWI within philosophical, socioeconomic, and eco-
nomic contexts. Lecture, tutorial. Prerequisite: instructor approval.

ARS 542 Critical Issues in American Painting I. (3) A
Explores themes and social issues in American art with a critical study
of American painting from the 18th century to 1850. Lecture, discus-
sion. Prerequisites: ARS 101, 102.

ARS 543 Critical Issues in American Painting II. (3) A
Explores themes and social issues in American art with a critical study
of American painting from 1850 to 1900. Lecture, lab. Prerequisite:
instructor approval.

ARS 544 American Modernism and Realism, 1900–1945. (3) A
A critical study of the social, political, and artistic changes in American
art during the first half of the 20th century. Prerequisites: ARS 101 and
102 or 340.

ARS 562 Art of Ancient Mesoamerica. (3) F
Critical study of art and architecture of Mexico and Maya area before
Spanish contact. Lecture, conference.

ARS 565 Native Art of North America. (3) A
A critical examination of Native American art within culture, prehistory
to the present. Prerequisites: ARS 101 and 102 or instructor approval.

ARS 574 Studies in Japanese Art. (3) A
A critical examination of the nature and history of Japanese art, its rich
heritage and its indebtedness to foreign sources. Lecture, discussion.
Prerequisites: ARS 101 and 102 or instructor approval.

ARS 575 Approaches to Chinese Painting. (3) F
A critical history of Chinese painting from Eastern Chou to 1111.
Emphasis on masters, regional developments, and conceptual under-
pinnings. Lecture, discussion. Prerequisites: ARS 101 and 102 or
instructor approval.

ARS 591 Seminar. (3–6) A
Graduate seminar in topics selected from the following. Problems or
criticism in:
(a) American Art
(b) American Indian Art
(c) Ancient Art
(d) Baroque Art
(e) Chinese Art
(f) Critical Theories in the Visual Arts
(g) Medieval Art
(h) Modern Art
(i) Native American Art
(j) Photographic History
(k) Pre-Columbian Art
(l) Renaissance Art
Prerequisite: instructor approval.

ARS 599 Thesis. (1–12) N
Omnibus Graduate Courses. See page 57 for omnibus graduate
courses that may be offered.

CERAMICS (ART)

ART 460 Ceramic Clay. (3) S
Research into various clay body formulations, local natural materials,
slip glazes, and engobes. Lecture, lab, studio. Prerequisites: ART 360
and 364 or instructor approval.

ART 463 Ceramic Glaze. (3) F
Glaze calculation and formulation using various glaze colors and sur-
faces. Lecture, lab, studio. Prerequisite: ART 460 or instructor
approval.

ART 466 Special Problems in Ceramics. (3) F, S, SS
Emphasis on personal expression within structure of seminars, crit-
tiques, and studio work. Professional methods of presentation/document-
ation of work. 6 hours a week. May be repeated for credit.
Prerequisite: ART 364 or instructor approval.

ART 494 Special Topics. (1–4) N
(a) Ceramics Printmaking
(b) Turning
(c) Vapor Glazes

ART 594 Conference and Workshop. (1–12) N
(a) Turning
ART 449 Computer Animation II. (3) F, S
Advanced principles and applications of 3D animation for fine arts.
Studio. Prerequisite: ART 448 or instructor approval.

ART 450 Computer Animation III. (3) F, S
Special effects in fine arts 3D animation. Studio. May be repeated for credit.
Prerequisites: ART 449; instructor approval.

ART 530 Two-Dimensional and Three-Dimensional Computer Art. (3) A
Integration of 2D and 3D computer imaging for art. Emphasis on new
directions for computer imaging which accounts for media characteristics.
Studio.

ART 540 Advanced Computer Art. (3) A
Study of motion for 3D models, light sources, and surface effects.
Course assumes students have a comprehension of complex modeling,
mapping, and lighting. Studio. Prerequisite: ART 446 or instructor
approval.

ART 598 Special Topics. (1–4) N
(a) Dimensional Animation
(b) Landscape Painting
(c) Figure Painting
(d) Jewelry Metalworking
(e) Experimental Paper
(f) Fine Printing and Bookmaking I
(g) Fine Printing and Bookmaking II
(h) Photo Processes for Printmaking I
(i) Relief Printmaking
(j) Screen Printing
(k) Advanced Color Photography
(l) Nonsilver Photography
(m) Portraiture Photography
(n) View Camera
(o) Experimental Paper
(p) Fine Printing and Bookmaking I
(q) Fine Printing and Bookmaking II
(r) Photo Processes for Printmaking I
(s) Relief Printmaking
(t) Screen Printing

ART 472 Advanced Jewelry. (3) F, S
Jewelry making with emphasis on developing personal statements
and craftsmanship. 6 hours a week. May be repeated for credit.
Prerequisites: ART 372; instructor approval.

ART 473 Advanced Metalworking. (3) A
Forging and forming techniques in individualized directions. 6 hours a week.
May be repeated for credit. Prerequisites: ART 372; instructor
approval.

ART 598 Special Topics. (1–4) N
(a) Jewelry Metalworking

ART 423 Advanced Painting. (3) F, S
Continuation of ART 324. 6 hours a week. May be repeated for credit.
Prerequisite: ART 324.

ART 425 Advanced Figure Painting. (3) F, S
Continuation of ART 325. 6 hours a week. May be repeated for credit.
Prerequisites: ART 315, 324, 325.

ART 427 Advanced Watermedia. (3) F, S
Continuation of ART 327. Advanced techniques, concepts, and methods
with watercolor and other water-based media on paper. 6 hours a week.
May be repeated for credit. Prerequisite: ART 327 or instructor
approval.

ART 598 Special Topics. (1–4) N
(a) Figure Painting
(b) Watercolor

ART 401 Nonsilver Photography. (3) F, S
Recognition of the inherent characteristics of nonsilver processes and
their use in communicating ideas. 6 hours a week. May be repeated for credit.
Prerequisite: ART 304 or instructor approval.

ART 403 Senior Photographic Projects. (3) F, S
Technical and philosophical refinement of personal aesthetic with various
photographic media. 6 hours a week. May be repeated for credit.
Prerequisite: ART 304 or instructor approval.

ART 404 Portraiture Photography. (3) F, S
Photographing people. Critical discussions and slide lectures on
issues in portraiture. 6 hours a week. May be repeated for credit.
Prerequisite: ART 304 or instructor approval.

ART 405 Advanced Color Photography. (3) F, S
Intensive use of subtractive color process in photographic printing. 6
hours a week. May be repeated for credit. Prerequisite: ART 305 or
instructor approval.

ART 406 Photo Techniques. (3) F, S
Camera and darkroom techniques with emphasis on creative control
of the black and white print. 6 hours a week. Prerequisite: ART 301 or
instructor approval.

ART 407 View Camera. (3) F, S
View camera and darkroom techniques. Studio, lab. Prerequisite: ART
301 or instructor approval.

ART 409 Photographic Exhibition. (3) A
Care of photographic prints, print presentation, and exhibition. Practical
experience in gallery operations. 6 hours a week. May be repeated
for credit. Prerequisite: ART 304 or instructor approval.

ART 498 Pro-Seminar. (1–7) N
(a) Landscape Photography: Theory
(b) Advanced Color Photography
(c) Nonsilver Photography
(d) Portraiture Photography
(e) View Camera

ART 598 Special Topics. (1–4) N
(a) Advanced Color Photography
(b) Nonsilver Photography
(c) Portraiture Photography
(d) View Camera

PRINTMAKING (ART)

ART 452 Advanced Lithography. (3) F, S
Continuation of ART 352. 6 hours a week. May be repeated for credit.
Prerequisite: ART 352 or instructor approval.

ART 454 Advanced Screen Printing. (3) A
Continuation of ART 354. 6 hours a week. May be repeated for credit.
Prerequisite: ART 354 or instructor approval.

ART 455 Advanced Photo Processes for Printmaking. (3) A
A continued study of photomechanical techniques and applications to
printmaking or photographic processes. Prerequisite: ART 355 or
instructor approval.

ART 456 Fine Printing and Bookmaking I. (3) A
Letterpress printing and typography as fine art. Study of history,
alphabets, mechanics of hand typesetting, presswork, and various
forms of printed matter. Prerequisite: instructor approval.

ART 457 Fine Printing and Bookmaking II. (3) A
Continuation of ART 456. Bookbinding, book design and printing,
advanced typography, theory, and presswork. May be repeated for
credit. Prerequisites: ART 456; instructor approval.

ART 458 Papermaking. (3) F, S
History, theory, demonstrations, sheet forming, collage treatments,
and 3-dimensional approaches. 6 hours a week. May be repeated for
credit. Prerequisite: instructor approval.

ART 459 Monoprinting. (3) F, S
The nonmultiple printed image using a variety of technical
approaches. 6 hours a week. May be repeated for credit. Prerequi-
tites: ART 311, 323 (or any 300-level printmaking class); instructor
approval.

ART 494 Special Topics. (1–4) N
(a) Experimental Paper
(b) Experimental Printmaking
(c) Relief Printmaking

ART 511 Intaglio Projects. (3) F, S
The materials and methods of Intaglio as a matrix for exploring various
contemporary issues. Specifically structured to accommodate the
graduate-level drawing student with no printmaking background.
Studio.

ART 598 Special Topics. (1–4) N
(a) Advanced Photo Process for Printmaking
(b) Experimental Paper
(c) Fine Printing and Bookmaking I
(d) Fine Printing and Bookmaking II
(e) Lithography
(f) Monoprinting
(g) Papermaking
(h) Photo Processes for Printmaking I
(i) Relief Printmaking
(j) Screen Printing

SCULPTURE (ART)

ART 431 Special Problems in Sculpture. (3) F, S
Development of a personal approach to sculpture, emphasis on form,
individual problems, and related color technology. Professional prac-
tices and presentation. 6 hours a week. May be repeated for credit.
Prerequisites: ART 392; instructor approval.
ART 432 Neon Sculpture. (3) F
Techniques for creating neon in an art context. Glass tube bending and fabrication. Construction of artworks utilizing light generating gases. 6 hours a week. May be repeated for credit. Prerequisite: instructor approval.

ART 433 Foundry Research Methods. (3) F, S
Research in foundry techniques. Studio. Pre- or corequisite: ART 333 or instructor approval.

ART 436 Architectural Sculpture. (3) N
Sculptural concepts as related to architecture and other man-made environments. Scale drawing, models, and relief sculpture. 6 hours a week. May be repeated for credit. Prerequisite: ART 332 or instructor approval.

ART 437 Film Animation. (3) F
Production of short 16mm films that feature articulated sculptural objects, models, dolls, puppets, and graphics through the use of single frame filming techniques. 6 hours a week. May be repeated for credit. Prerequisite: instructor approval.

ART 438 Experimental Systems in Sculpture. (3) S
Simple electrical and mechanical systems that can be utilized in the context of studio art and installations. Active production of studio art works required. 6 hours a week. May be repeated for credit. Prerequisite: instructor approval.

ART 474 Advanced Wood. (3) F, S
Extended experience and advanced techniques in the use of wood to create functional works of art. 6 hours a week. May be repeated for credit. Prerequisites: ART 374; instructor approval.

ART 476 Special Topics. (1–12) N
(a) Advanced Sculpture
(b) Carving
(c) Film Post-Production
(d) Foundry Casting Methods

ART 582 Art Research. (1–12) F, S, SS
Independent study research using classroom facilities and supplies. Studio.

ART 621 Studio Problems. (3) F, S, SS
Advanced study in the following areas:
(a) Ceramics
(b) Drawing
(c) Fiber Art
(d) Jewelry Metalworking
(e) Metals
(f) Painting
(g) Photography
(h) Printmaking
(i) Sculpture
(j) Studio Art
(k) Wood
6 hours a week each section. May be repeated for credit. Prerequisite: instructor approval.

Studio work in preparation for required M.F.A. exhibition. Public exhibit to be approved by the student’s supervisory committee and accompanied by a final oral examination. Photographic documentation and written statement of problem. Prerequisite: approval of the student’s supervisory committee.

ART 682 M.F.A. Exhibition Research. (1–12) F, S, SS
M.F.A. exhibition practicum using classroom facilities and supplies. Can be used in place of ART 680. Prerequisite: approval of the student’s supervisory committee.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Bioengineering

Eric J. Guilbeau
Chair

cbmercs@enpop2.eas.asu.edu
www.eas.asu.edu/~cbme/biomedical

PROFESSORS
GILBEAU, TOWE

ASSOCIATE PROFESSORS
GARCIA, HE, KIPKE, MASSIA, PIZZICONI,
SWEENEY, YAMAGUCHI

ASSISTANT PROFESSOR
PANITCH

The Bioengineering faculty within the Department of Bioengineering offer graduate programs leading to the M.S. and Ph.D. degrees in Bioengineering. Areas of study include biochemical engineering, bioelectrical engineering, biomechanical engineering, biosystems/biortransport engineering, bioinstrumentation, biomaterial engineering, and biocontrol engineering. Research topics include artificial organs, biocontrol systems, biomechanics, bioinstrumentation, biomaterials, biosystems engineering, biotechnology, cardiovascular engineering, cellular and tissue bioengineering, neural bioengineering, noninvasive imaging, and rehabilitation engineering.

Graduate Record Examination. Graduate Record Examination scores are required from all students.

Transition Program. Students applying to the Bioengineering M.S. or Ph.D. degree programs may have an undergraduate B.S. degree in a major field other than Bioengineering. The qualifications of transition students are reviewed by the department graduate committee and a special program of transition course work is designed for successful applicants. In general, transition students should have had, or be prepared to take, calculus through ordinary differential equations, physics, inorganic chemistry, and a number of undergraduate engineering courses in order to be prepared for graduate bioengineering courses. Other course work from the undergraduate program may be required depending upon the research topic selected by the student. Transition students should contact the graduate coordinator to evaluate the undergraduate transcript.

MASTER OF SCIENCE

See “Master’s Degrees,” page 101, for general requirements.

Program of Study. All candidates pursuing a M.S. degree in Bioengineering are required to complete an approved program of study consisting of the minimum required semester hours, including research and thesis. Special course requirements for the different areas of study are established by the faculty and are available from the Department of Bioengineering. Part-time students must successfully complete a research seminar course for at least three
semesters during the course of study. Candidates whose undergraduate degree was in a field other than bioengineering may be required to complete more than 30 semester hours of credit on the program of study.

**Research Seminar Requirements.** In addition to the course work and thesis requirements, all full-time master’s degree students must successfully complete a research seminar course during each semester of attendance.

**Thesis Requirements.** A written thesis is required.

**Final Examinations.** A final oral examination in defense of the thesis is required.

**DOCTOR OF PHILOSOPHY**

The Ph.D. degree in Bioengineering is conferred upon evidence of excellence in research resulting in a scholarly dissertation that is a contribution to knowledge.

See “Doctor of Philosophy,” page 104, for general requirements.

**Program of Study.** Upon admission of the applicant with regular or provisional status, a supervisory committee (program committee) is appointed. This committee is responsible for the guidance and direction of the student’s graduate program of study. The program committee is composed of a minimum of three faculty members, including a chair. Generally, the student’s graduate advisor serves as chair of the program committee. The program committee advises the student in developing a program of study and assumes primary responsibility in assessing the student’s progress in the program.

**Research Seminar Requirements.** In addition to the course work and dissertation requirements, all full-time doctoral students must successfully complete a research seminar course during each semester of attendance.

**Qualifying Examination.** A qualifying exam is administered to test the student’s mastery of basic engineering fundamentals. The examination is usually taken early in the student’s program of study (after two semesters of residence at ASU, and no later than three semesters). A student must express in writing the intention to take the exam to the department graduate committee through the graduate coordinator.

**Foreign Language Requirements.** None.

**Comprehensive Examinations.** When the Ph.D. student has essentially completed the course work in the approved program of study, the student is given a written comprehensive examination covering the field of study. The written examination is followed by an oral examination.

**Admission to Candidacy and Appointment of Dissertation Committee.** After the student passes the comprehensive examinations, a dissertation committee composed of at least five faculty members is appointed. The dissertation committee meets to approve the student’s dissertation prospectus. Generally, the prospectus should include a pertinent review of the literature, a statement of the proposed study, the hypothesis to be tested, a description of the research design, a discussion of the specific data to be collected, and a description of the means by which the data is to be analyzed. After the dissertation committee has approved the prospectus, the student applies to the Graduate College for admission to candidacy.

**Dissertation Requirements.** A dissertation based on original work demonstrating creativity in research and scholarly proficiency in the subject area is required. The dissertation is expected to reflect and contribute significantly to knowledge. It must clearly indicate mastery of research methods.

**Final Examinations.** A final oral examination in defense of the dissertation is required.

**RESEARCH ACTIVITY**

**Bioinstrumentation.** Medical diagnostic and therapeutic instrumentation, noninvasive medical imaging, biosensors, bioelectric signal processing, cardiac electrophysiology, bioelectronic device design, bioelectronics, and neurostimulation.

**Biomaterials.** Hard tissue fixation, development of biocompatibility indices, blood/material interactions, tissue/material interactions, bipolar synthesis, and molecular engineering. Scanning probe characterizations.

ASU West Assistant Professor Kimberly Hughes examines a specimen in a Life Sciences laboratory.
Biosystems Engineering/Biotransport. Medical device design and development, physiological transport phenomena, mathematical simulation of physiological processes, cardiac assistance, cardiovascular engineering, and immunomodulation.

Biotechnology. Hybrid biosensors, biological separations, tissue engineering, membrane separation processes, cell-biomaterial interactions, tissue engineered cardiovascular implants, controlled drug release, bioactive surface modifications, and optical biomolecular devices.

Neuroengineering. Neuromuscular stimulation, neuroprosthesis development, neurocontrol, and neurophysiology.

BIOENGINEERING (BME)

BME 411 Biomedical Engineering I. (3) A
Review of diagnostic and prosthetic methods using engineering methodology. Introduction to transport, metabolic, and autoregulatory processes in the human body. Prerequisite with a grade of “C” or higher: BME 334.

BME 412 Biomedical Engineering II. (3) A
Review of electrophysiology and nerve pacing applications, introduction to biomechanics and joint/limb replacement technology, cardiovascular and pulmonary fluid mechanics, and the application of mathematical modeling. Prerequisite: instructor approval.

BME 415 Biomedical Transport Processes. (3) A
Principles of momentum, heat, and mass transport with applications to medical and biological systems and medical device design. Prerequisites: MAT 274; PHY 131.

BME 416 Biomechanics. (3) F
Mechanical properties of bone, muscle, and soft tissue. Static and dynamic analysis of human movement tasks such as locomotion. Prerequisite with a grade of “C” or higher: BME 318.

BME 417 Biomedical Engineering Capstone Design I. (3) F
Technical, regulatory, economic, legal, social, and ethical aspects of medical device systems engineering design. Lecture, field trips. Prerequisite: ECE 300. Prerequisites with a grade of “C” or higher: BME 318, 334.

BME 419 Biocatalysis Systems. (3) F
Application of linear and nonlinear control systems techniques toward analysis of neuromusculoskeletal, cardiovascular, thermal, and mass transfer systems of the body. Prerequisites: ECE 301, MAT 274.

BME 435 Physiology for Engineers. (4) F
Physiology of the nervous, muscular, cardiovascular, endocrine, renal, and respiratory systems. Emphasizes use of quantitative methods in understanding physiological systems. Lecture, lab. Prerequisites: BIO 181 and CHM 118 or PHY 131 or instructor approval.

BME 470 Microcomputer Applications in Bioengineering. (4) S
Use of microcomputers for real-time data collection, analysis, and control of experiments involving actual and simulated physiological systems. Lecture, lab. Prerequisites: ECE 100, 334. Prerequisite with a grade of “C” or higher: BME 435.

BME 511 Biomedical Engineering. (3) A
Diagnostic and prosthetic methods using engineering methodology. Transport, metabolic, and autoregulatory processes in the body.

BME 512 Biomedical Engineering II. (3) A
Electrophysiology and nerve pacing applications, introduction to biomechanics and joint/limb replacement technology, cardiovascular and pulmonary fluid mechanics, and mathematical modeling.

BME 513 Biomedical Instrumentation I. (3) F
Principles of medical instrumentation. Studies of medical diagnostic instruments and techniques for the measurement of physiologic variables in living systems.

BME 514 Advanced Biomedical Instrumentation. (3) N
Principles of applied biophysical measurements using bioelectric and radiological approach. Prerequisites: ECE 334; MAT 274 (or equivalent).

BME 515 Biomedical Transport Processes. (3) N
Principles of momentum, heat, and mass transport with applications to medical and biological systems and medical device design. Prerequisite: instructor approval.

BME 516 Topics in Biomechanics. (3) F
Mechanical properties of bone, muscle, and soft tissue. Static and dynamic analysis of human movement tasks, including in-depth project. Prerequisite: instructor approval.

BME 518 Introduction to Biomaterials. (3) S
Topics include structure property relationships for synthetic and natural biomaterials, biocompatibility, and uses of materials to replace body parts. Prerequisite: ECE 350 or equivalent or instructor approval.

BME 519 Topics in Biocontrol Systems. (3) F
Linear and nonlinear control systems analysis of neuromusculoskeletal, cardiovascular, thermal, and mass transfer systems of the body, including in-depth project. Prerequisites: ECE 301 and MAT 274 or instructor approval.

BME 520 Bioelectric Phenomena. (3) N
Study of the origin, propagation, and interactions of bioelectricity in living things: volume conductor problem, mathematical analysis of bioelectric interactions, and uses in medical diagnostics.

BME 521 Neuromuscular Control Systems. (3) S
Overview of sensorimotor brain structures. Application of nonlinear, adaptive, optimal, and supervisory control theory to eye-hand-head coordination and locomotion.

BME 522 Biosensor Design and Application. (3) A
Theory and principles of biosensor design and application in medicine and biology. Principles of measurements with biosensors. Prerequisite: instructor approval.

BME 523 Physiological Instrumentation Lab. (1) F
Laboratory experience with problems, concepts, and techniques of biomedical instrumentation in static and dynamic environments. Lab. Pre- or corequisites: BME 413, 435; ECE 394.

BME 524 Fundamentals of Applied Neural Control. (3) A
Fundamental concepts of electrical stimulation and recording in the nervous system with the goal of functional control restoration. Pre- or corequisite: BME 435 or instructor approval.

BME 525 Surgical Techniques. (2) S
Principles of surgical techniques, standard operative procedures, federal regulations, guidelines, and state-of-the-art methods. Lecture, lab.

BME 532 Prosthetic and Rehabilitation Engineering. (3) A
Analysis and critical assessment of design and control strategies for state-of-the-art medical devices used in rehabilitation engineering. Pre- or corequisite: BME 416 or 516 or EPE 610.

BME 533 Transport Processes I. (3) F
Unified treatment of momentum, heat, and mass transfer from molecular theory, and continuum points of view. Continuum equations of microscopic and macroscopic systems and multiphase systems. Cross-listed as CHE 533. Credit is allowed for only BME 533 or CHE 533.

BME 534 Transport Processes II. (3) S
Continuation of BME/CHE 533, emphasizing mass transfer. Cross-listed as CHE 534. Credit is allowed for only BME 534 or CHE 534. Prerequisite: BME/CHE 533.

BME 535 Thermodynamics of Chemical Systems. (3) F
Classical and statistical thermodynamics of nonideal physicochemical systems and processes; prediction of optimum operating conditions. Cross-listed as CHE 543. Credit is allowed for only BME 543 or CHE 543.

BME 544 Chemical Reactor Engineering. (3) S
Reaction rates, thermodynamics, and transport principles applied to the design and operation of chemical reactors. Cross-listed as CHE 544. Credit is allowed for only BME 544 or CHE 544. Prerequisite: BME/CHE 543.

BME 551 Movement Biomechanics. (3) S
Mechanics applied to the analysis and modeling of physiological movements. Computational modeling of muscles, tendons, joints, and the skeletal system with application to sports and rehabilitation. Prerequisite: BME 416 or 516 or instructor approval.

BME 556 Medical Imaging Instrumentation. (3) N
Design and analysis of imaging systems and nuclear devices for medical diagnosis, therapy, and research. Laboratory experiments using diagnostic radiology, fluoroscopy, ultrasound, and CAT scanning. Lecture, lab. Prerequisite: instructor approval.
BME 568 Medical Imaging. (3) N
CT, SPECT, PET, and MRI. 3-dimensional in vivo measurements.
Instrument design, physiological modeling, clinical protocols, reconstruction algorithms, and quantitation issues. Prerequisite: instructor approval.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

DOUGLAS

The faculty in the Department of Biology offer programs leading to the M.S. and Ph.D. degrees in Biology. A concentration in ecology is available, among other areas of study.

The faculty collaborate with the Departments of Microbiology and Plant Biology in offering the program leading to the Master of Natural Science degree when one of the concentrations is biology (see “Natural Science,” page 263).

Students admitted to the Master of Education degree program with a major in Secondary Education may also elect biology as the subject matter field.

These programs are designed to prepare students for careers in teaching and research in educational, medical, industrial, and governmental institutions.

**Graduate Record Examination.** Submission of scores on the verbal, quantitative, analytical, and advanced sections of the Graduate Record Examination is required for admission to the M.S. and Ph.D. degree programs.

**Application Deadline.** Completed college and departmental application materials should be received by December 15 for admission in the fall semester.

**MASTER OF SCIENCE**

The program of each student is prepared in consultation with the supervisory committee, consisting of a major professor and two additional faculty members. A minimum of 30 semester hours is required. The program must include six hours of thesis, one hour of seminar, and may include a maximum of eight additional hours in various special graduate courses such as research and reading and conference. A final oral examination covering the thesis and related subject matter is administered by the supervisory committee.

**DOCTOR OF PHILOSOPHY**

The Ph.D. program in the Department of Biology allows the student to acquire high research competency in one or more specialized areas while receiving a broad, solid grounding in biological sciences.

See “Doctor of Philosophy,” page 104, for general requirements.

**Program of Study.** The program of study is planned by the student and the supervisory committee, consisting of a major professor and four additional faculty members. The program is tailored to the needs of the individual student.

**Foreign Language Requirements.** None are required by the department. However, each student’s supervisory committee may specify a reading proficiency in one or more foreign languages if appropriate to the student’s educational objectives.

**Comprehensive Examinations.** The comprehensive examination consists of a written and oral component. To advance to candidacy for the Ph.D., the student must successfully complete three graduate seminars in areas different from the major area of emphasis; one of these must be a two-semester-hour writing seminar completed by the end of the third semester (see topics outlines under “Research Activity”). The seminars include evaluation of synthetic writing skills. A synthetic, detailed research proposal must be completed by the fourth semester. The student must defend the proposal orally to the supervisory committee within three weeks after successful completion of the written research proposal.

**Dissertation Requirements.** A dissertation based on original research is required. (See “Doctoral Dissertations,” page 103.)

**Final Examinations.** A final defense of the dissertation is required. (See “Open Dissertation Defenses,” page 103.)

**RESEARCH ACTIVITY**

Research of faculty and graduate students includes a wide range of biological topics. Current research interests within the department include:

*Behavior:* Reproductive behavior; sexual selection; communication; neural and hormonal mechanisms of behavior; behavioral ecology; behavioral genetics.

*Biology Education:* Student reasoning patterns and alternative conceptual frameworks; the nature of scientific
reasoning; learning styles, instructional techniques, and issues in curriculum development.

**Cell and Molecular Biology.** Cytoskeleton assembly; localization of RNA in oocytes and embryos; regulation of exocytosis and endocytosis; cell-division; cell-cell interaction; recombinant DNA; gene mapping; regulation of gene expression in eukaryotes; mechanisms of interferon action; signal transduction; confocal and electron microscopy; cellular bases of vertebrate photoperiodic responses.

**Computational, Statistical, and Mathematical Biology.** Functional genomics; population and statistical genetics; genome computing; computational molecular evolution; population and community ecology, including extinction risk, spatial dynamics, and the evolution and assembly of communities; spatial modeling of species richness; environmental monitoring and assessment; environmental statistics.

**Conservation Biology.** Conservation genetics; fragmentation effects; extinction dynamics; patterns and consequences of rarity; design and operation of reserves; urban ecology; conserving desert fishes and aquatic habitats; desert to rain-forest biodiversity; international dimensions; sustainable development.

**Developmental Biology.** Cell and organ differentiation; regulation; development of synapses; developmental genetics; control of oogenesis; in vitro fertilization; regulation of pattern formation; myogenesis; morphogens; intercellular signaling pathways.

**Ecology.** Life histories, dispersal, and foraging; plant-animal interactions; community structure; biogeography; physiological ecology; ecosystems structure and functioning; wildlife fisheries management. Research in terrestrial and aquatic desert habitats reflects the unique location of ASU, metapopulation dynamics.

**Evolution.** Population genetics, molecular evolution, systematics, speciation, evolution of behavior, morphological diversification.

**Genetics.** Molecular and developmental genetics; genetic regulatory mechanisms of cellular differentiation; behavioral genetics; variation in natural populations; molecular evolutionary genetics; functional genomics.

**History and Philosophy of Biology.** The nature of biological science and the way science changes; who does biology and why; what assumptions biologists make and how they influence the research done; questions about funding, institutions, and the social context for biology; history of ideas about the origin of life; how scientists decide what kinds of ideas are acceptable about nature and which ones are unbelievable; how the relationship between science and religion has changed over the centuries.

**Neuroscience.** Behavioral neuroendocrinology; invertebrate and vertebrate neurobiology; control of locomotion; actions of stress on the brain; mechanisms of hormone action in the brain; action of neuropeptides, neural basis of behavior; neuroanatomical correlates of behavior; hormonal control of neural plasticity.

**Physiology.** Membrane metabolism and function, thermal adaptation, regulation, and ion transport; tissue, epithelial, and cuticular function; comparative and reproductive endocrinology; neurophysiology; environmental physiology especially related to desert adaptations; parasites and reproduction; comparative biochemistry; the physiology of temperature; environmental regulation of gene expression; renal and respiratory physiology; energetics and physiology of flight.

**Facilities.** The modern Life Science Center houses well-equipped research laboratories and teaching facilities. The W. M. Keck Bioimaging Laboratory includes a laser-equipped scanning confocal microscope and an LFO high resolution scanning electronic microscope. The Life Sciences Electron Microscopy Laboratory includes both scanning and transmission electron microscopes as well as a freeze-fracture unit. Housing of laboratory animals and maintenance of breeding colonies are provided by the Animal Research Center. Arizona fauna is well represented in departmental collections. Desert, montane, riparian, and lacustrine habitats are within driving distance; species diversity is high.

### BIOLOGY (BIO)

**BIO 406 Computer Applications in Biology.** (3) F
Computer analysis techniques in biology emphasizing data entry, management and analysis, and graphic portrayal. Employs mainframe and microcomputers, 2 hours lecture, 3 hours lab. Cross-listed as PLB 432. Credit is allowed for only BIO 406 or PLB 432. Prerequisites: BIO 182 and MAT 117 (or 210) or instructor approval. General Studies: CS.

**BIO 410 Techniques in Wildlife Conservation Biology.** (3) F
Field and analytical techniques used in evaluating population structure, viability and environmental impacts. Lecture, lab. Prerequisites: BIO 317 and 320 or instructor approval. General Studies: L.

**BIO 411 Advanced Conservation Biology I.** (3) F
Principles of conservation science; biology of threatened species; management principles that meet conservation goals; emphasizing North American ecosystems. Prerequisites: BIO 317, 320.

**BIO 412 Advanced Conservation Biology II.** (3) S
Global biodiversity patterns, processes and conservation; global environmental change; sustainable use of natural resources; emphasizing international approaches to conservation biology. Prerequisites: BIO 317, 320.

**BIO 415 Biometry.** (4) F
Statistical methods applied to biological problems, design of experiments, estimation, significance, analysis of variance, regression, correlation, chi square, and bioassay; the use of computers. Does not satisfy laboratory requirements for the liberal arts general studies program. 3 hours lecture, 3 hours lab. Prerequisite: MAT 210 or equivalent. General Studies: CS.

**BIO 416 Professional Values in Science.** (2–3) A
Considers issues related to values in science such as collaboration, finances, legal issues, media, mentoring, ownership of ideas, scientific integrity. Discussion, student projects. Cross-listed as HPS 410. Credit is allowed for only BIO 416 or HPS 410. General Studies: L.

**BIO 423 Population and Community Ecology.** (3) N
Organization and dynamics of population and communities, emphasizing animals. Theoretical and empirical approaches. Prerequisite: BIO 320 or instructor approval.

**BIO 424 Mathematical Models in Ecology.** (4) S
Mathematical modeling of populations, communities, and ecosystems, including case studies and student-designed projects. 3 hours lecture, 3 hours lab. Prerequisites: BIO 320; any calculus course.

**BIO 425 Animal Ecology.** (3) N
Physiological and behavioral adaptations of individual animals to both abiotic and biotic environments. Prerequisite: BIO 320.

**BIO 426 Limnology.** (4) S
Structure and function of aquatic ecosystems, with emphasis on freshwater lakes and streams. 3 hours lecture, 3 hours lab or field trip. Prerequisite: BIO 320 or instructor approval. General Studies: L.

**BIO 428 Biogeography.** (3) F
Environmental and historical processes determining distributional patterns of animals and plants, emphasizing terrestrial life. Prerequisites: BIO 182 (or equivalent); junior standing. General Studies: L.
BIO 435 Research Techniques in Animal Behavior. (3) N
Experimental and field studies of animal behavior; description and
quantification of animal behavior and interpretation of behavior within
an evolutionary framework. 1 hour lecture, 6 hours lab. Prerequisite:
BIO 351. General Studies: L.

BIO 441 Cytogenetics. (3) F
Chromosomal basis of inheritance. Cross-listed as PLB 412. Credit is
allowed for only BIO 441 or PLB 412. Prerequisite: BIO 340.

BIO 442 Cytogenetics Laboratory. (2) F
Microscopic analysis of meiosis, mitosis, and aberrant cell division. 6
hours lab. Cross-listed as PLB 413. Credit is allowed for only BIO 442
or PLB 413. Pre- or corequisite: BIO 441 or PLB 412.

BIO 445 Organic Evolution. (3) F
Processes of adaptive change and speciation in sexual populations.
Prerequisite: BIO 241 or 340.

BIO 446 Principles of Human Genetics. (3) A
Molecular and cellular analysis of the human genome. Prerequisite:
BIO 340. General Studies: L.

BIO 450 Advanced Developmental Biology. (3) S
Current concepts and experimental methods involving differentiation
and biosynthetic activities of cells and organisms, with examples from
microorganisms, plants, and animals. Prerequisite: BIO 351.

BIO 453 Animal Histology. (4) S
Microscopic study of animal tissues. 3 hours lecture, 3 hours lab. Pre-
requisite: BIO 182 or instructor approval.

BIO 454 Aquatic Insects. (3) N
Systematics and ecology of aquatic insects. Prerequisite: BIO 386.

BIO 464 Photobiology. (3) F
Principles underlying the effects of light on growth, development, and
behavior of plants, animals, and microorganisms. Cross-listed as PLB
440. Credit is allowed for only BIO 464 or PLB 440. Prerequisites:
CHM 231 (or 331); 12 hours of courses in life sciences.

BIO 465 Neurophysiology. (3) N
Detailed treatment of cellular and organismal neurophysiology and
nervous system function. Prerequisite: BIO 360.

BIO 466 Neurophysiology Laboratory. (2) N
Intracellular and extracellular electrophysiological recording tech-
niques, histological preparations, and dye-filling techniques. 6 hours
lab. Pre- or corequisite: BIO 465.

BIO 470 Systematic Zoology. (4) S 2001
Philosophy, theory, practice of interpreting animal diversity, including
species concepts, speciation, nomenclature, and evolutionary and
phylogenetic classification emphasizing phylogenetics. 3 hours lec-
ture, 3 hours lab. Prerequisites: junior standing; 18 hours in life sci-
ences. General Studies: L.

BIO 471 Ornithology. (3) S 2001
The biology of birds. 2 hours lecture, 3 hours lab, weekend field trips.
Prerequisite: BIO 370 or instructor approval.

BIO 472 Mammalogy. (4) F
Classification, structure, habits, ecology, and distribution of mammals,
emphasizing North American forms. 3 hours lecture, 3 hours lab or
field trip, weekend field trips. Prerequisite: BIO 370 or instructor approval.

BIO 473 Ichthyology. (3) S 2001
Systematics and biology of recent and extinct fishes. 2 hours lecture,
3 hours lab or field trip, weekend field trips required. Prerequisites:
BIO 370 and 425 or instructor approval.

BIO 474 Herpetology. (3) S
Systematics and biology of recent and extinct reptiles and amphib-
ians. 2 hours lecture, 3 hours lab or field trip. Prerequisite: BIO 370.

BIO 480 Methods of Teaching Biology. (3) F
Methods of instruction, experimentation, organization, and presenta-
tion of appropriate content in biology. Prerequisite: 20 hours in the
biological sciences.

BIO 495 Undergraduate Thesis. (3) F, S, SS
Guided research culminating in the preparation of an undergraduate
thesis based on supervised research done in this and previous
semesters. Prerequisites: at least 3 hours of BIO 310 (or 499); formal
conference with instructor; instructor and department chair approval.

BIO 502 Transmission Electron Microscopy. (3) F
Theory, use, and methods of preparing biological materials for trans-
mission electron microscopy. Materials fee. Lecture, lab. Prerequisite:
instructor approval.

BIO 505 Scanning Electron Microscopy. (3) S
Theory, use, and methods of preparing biological materials for scan-
nining electron microscopy. Materials fee. 2 hours lecture, 3 hours lab.
Prerequisite: instructor approval.

BIO 508 Scientific Data Preparation. (2) S
Techniques necessary for presentation of scientific data used in jour-
nal publications, grant proposals, and visual presentations. Lecture,
lab. Prerequisite: instructor approval.

BIO 520 Biology of the Desert. (2) N
Factors affecting plant and animal life in the desert regions and adap-
tations of the organisms to these factors. Prerequisite: 10 hours of bio-
logical sciences or instructor approval.

BIO 522 Populations: Evolutionary Ecology. (3) N
Principles of population biology and community ecology within an ev-
olutionary framework. 2 hours lecture, 2 hours recitation. Prerequisites:
BIO 320, 415 (or MAT 210), 545.

BIO 524 Ecosystems. (3) F 2001
Structure and function of terrestrial and aquatic ecosystems, with
emphasis on productivity, energetics, biogeochemical cycling, and
systems integration. Prerequisite: BIO 320 or equivalent.

BIO 526 Quantitative Ecology. (3) N
Sampling strategies, spatial pattern analysis, species diversity, classi-
fication, and applications of multivariate techniques to ecology. 2
hours lecture, 3 hours lab. Prerequisites: BIO 415 (or equivalent); a
course in ecology.

BIO 529 Advanced Limnology. (3) N
Recent literature, developments, methods, and limnological theory;
field and lab application to some particular topic in limnology. Prereq-
utio: BIO 426.

BIO 534 Molecular Genetics. (3) F
Nature and function of the gene; emphasis on the molecular basis of
inheritance and gene expression in procaroyotes and eucaryotes. Pre-
rerequisites: BIO 340; a course in organic chemistry.

BIO 546 Principles of Human Genetics. (3) N
Mathematical models in the description and analysis of the genetics of
populations. Prerequisites: BIO 320 and 415 and 445 or instructor
approval.

BIO 547 Techniques in Evolutionary Genetics. (4) N
Practical experience in modern techniques for the study of evolution.
Lecture, lab. Prerequisites: BIO 340, 445; instructor approval.

BIO 550 Advanced Cell Biology. (3) S
Applications of contemporary electron microscopic and biochemical/
molecular techniques for studying eukaryotic cell functions. Mecha-
nisms of intracellular protein trafficking. Prerequisites: BIO 353 (or 360
or equivalent or PLB 360); CHM 231 (or 331 or equivalent).

BIO 551 Biophysics. (3) N
Structure and function of biological membranes, emphasizing synthe-
sis, fluidity, exocytosis, endocytosis, and cell responses to hormones
and neurotransmitters. Prerequisites: BIO 353 (or equivalent); CHM
231 (or 331 or equivalent).

BIO 552 Developmental Genetics. (3) S
Genetic approaches to the analysis of development during the life
and long cycle of eukaryotic organisms, and the role of genes in the
proof of the differentiated phenotype. Prerequisite: BIO 340.

BIO 560 Comparative Physiology. (3) N
The analysis of function in invertebrates and vertebrates, emphasizing
evolutionary trends in physiological systems. Prerequisite: BIO 360 or
equivalent.

BIO 566 Environmental Physiology. (3) N
Physiological responses and adaptations of animals to various
aspects of the physical environment. Prerequisites: BIO 320, 360.

BIO 568 Mammalian Physiology. (3) N
Detailed treatment of mammalian organ system functions emphasizing
integrative mechanisms. Prerequisite: BIO 360 or equivalent.

BIO 569 Cellular Physiology. (3) N
Emphasizing the molecular basis for cell structure and function. Pre-
rerequisites: BIO 360; organic chemistry.

BIO 584 Internship. (1–12) F, S
BIO 591 Seminar. (1–3) F, S
Topics such as the following are offered:
   (a) Adaptations
   (b) Behavior
   (c) Cell Biology
   (d) Ecology
   (e) Evolution
   (f) Genetic Engineering
   (g) Genetics
   (h) Physiology
May be repeated for credit.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

MOLECULAR BIOSCIENCES/BIOTECHNOLOGY

MBB 445 Techniques in Molecular Biology/Genetics. (2) F, S
Molecular genetic principles: plasmid construction, purification, and characterization; PCR; mutagenesis; hybridization and sequence analysis; protein quantitation, immunologic detection, and electrophoresis. Cross-listed as MIC 445. Credit is allowed for only MBB 445 or MIC 445. Prerequisites: BIO 340 and MIC 302 or instructor approval.

MBB 446 Techniques in Molecular Biology/Genetics Lab. (2) F, S
Molecular genetic techniques: plasmid construction, purification, and characterization; PCR; mutagenesis; hybridization and sequence analysis; protein quantitation; immunologic detection and electrophoresis. Cross-listed as MIC 446. Credit is allowed for only MBB 446 or MIC 446. Pre- or corequisite: MBB 445 or MIC 445.

MBB 484 Internship. (3) N
MBB 490 Capstone: Issues in Biotechnology. (2) F, S
Integration of science and humanities within problem-solving exercises dealing with intellectual property, ethics, regulatory issues, business practices, and commercialization. Prerequisite: MBB major or instructor approval.

MBB 499 Individualized Instruction. (3) N
Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Building Design

PETRUCCI, SOROKA, SPELLMAN

The faculty in the School of Architecture offer a graduate program leading to the M.S. degree in Building Design.

Concentrations are available in computer-aided design, energy performance and climate-responsive architecture, and facilities development and management. The program provides advanced study at the postprofessional level for architects, and at the specialist level for nonarchitects who have a degree in a related area such as engineering, business, computer science, and the physical and environmental sciences. The purpose of the program is the development of knowledge useful to the arts and sciences of building design and the integration of that knowledge in the design process. Within this context, the program emphasizes (1) the ecological importance of energy-conscious design and construction, as well as the high social value placed on buildings in which natural forces and systems are utilized rather than suppressed, and (2) the development of research, information systems, and management processes suited to the planning and design of complex buildings in urban settings.

The faculty in the school also participate in offering the Ph.D. in Environmental Design and Planning. See “Environmental Design and Planning,” page 198, for information on the Ph.D. degree program.

Applicants considered for admission to the program must hold a baccalaureate or graduate degree from a college or university recognized by ASU and meet the minimum GPA requirements for admission as established by the Graduate College.

It is preferred that applicants have at least one year of professional employment or comparable field/research experience in building design in addition to their academic experiences. Applicants are accepted on a space-availability basis, and must specify an area of research concentration upon application. International applicants whose native language is not English must submit a Test of English as a Foreign Language score of 550 or higher. International students should write the Graduate Admissions Office at least one year prior to the date they plan to begin study.

Application Procedures. Applicants must submit separate application materials to the Graduate College and the School of Architecture.

Application Deadline. Priority consideration is given to completed applications received on or before February 15. All fellowships and scholarship allocations for entering students are normally made from applicants in this group. Applications for admission received after February 15 can be considered only for remaining vacancies and “alternate” placement.

School of Architecture. In addition to the Graduate College admission requirements, applicants must file all of the following admission materials with

ACADEMIC ADVISOR,
MASTER OF SCIENCE IN BUILDING DESIGN
SCHOOL OF ARCHITECTURE
ARIZONA STATE UNIVERSITY
PO BOX 871605
TEMPE, AZ 85287-1605
Applicants are encouraged to contact an academic advisor to ascertain that all materials have been received, at 480/965-2507.

Statement of Intent. A personal narrative (maximum 600 words or two pages typed) indicating the applicant’s interest, previous academic and professional background, and personal and professional educational objectives must be submitted.

Letters of Recommendation. A minimum of three letters of recommendation in support of the applicant must be mailed directly to the Graduate Admissions Committee, School of Architecture. The references should be from professionals or educators familiar with the applicant’s experience and capability for graduate work.

Portfolio. Applicants must submit a folio documenting projects, papers, creative endeavors, and, if appropriate, work experience (maximum size 9” x 12”).

The portfolio is returned after final admission procedures, provided the applicant encloses a self-addressed return mailer with sufficient prepaid postage, or if the applicant appears in person to claim the materials within one year of submission. Unclaimed portfolios are retained for only one year. The School of Architecture assumes no liability for lost or damaged materials. Students must have their name clearly visible on all parts of application, portfolio, statement of intent, etc.

Research/Teaching Statement. Students wishing to be considered for teaching or research assistantships should include an additional statement outlining areas in which they feel competent to serve as a teaching or research assistant. International students who wish to be considered for a teaching assistantship and whose native language is not English are required to pass the Test of Spoken English administered by the American English and Culture Program at ASU.

Program of Study. The program requires a minimum of 30 semester hours of approved course work at the advanced level, including six hours of thesis credit.

The M.S. degree in Building Design is based on concepts of research and decision-making emphasized by the College of Architecture and Environmental Design.

Students admitted to the program are required to take a research methods core, certain courses in their area of concentration, additional elective course work as approved and directed by the supervisory committee, and write and defend a thesis. While the minimum requirement is 30 semester hours, most students require at least four semesters of course work and work on their thesis to successfully complete this degree program.

The concentrations include the following: computer-aided design, energy performance and climate-responsive architecture, and facilities development and management.

**Computer-Aided Design Concentration**

</table>

The computer-aided design concentration focuses on investigations of computer-aided design methods and techniques and their application to problem-solving issues in the built environment. The goal of the program is to provide a fundamental understanding of computer-aided design methods and to explore critically the application and potential of these techniques in practice. Topics studied include computer graphics, geometric modeling, design databases, interactive graphic environments for design, comprehensive computer-aided design systems, databases for facilities planning, and computer applications in urban design and building construction. The computer-aided design requirements (12 semester hours) consist of APH 511 Energy Environmental Theory, ATE 521 Building Environmental Science, ATE 582 Environmental Control Systems, ATE 550 Passive Cooling and Heating I, and ATE 551 Passive Cooling and Heating II.

**Energy Performance and Climate-Responsive Architecture Concentration**

The energy performance and climate-responsive architecture concentration is concerned with the relationships among climate and site, thermal and visual comfort, and energy demand and consumption. Courses in this concentration establish a basic core of knowledge on the principles of the natural energies available at the building boundary due to climate and site; thermal and optical behavior of building materials and components; passive and low-energy architectural systems for heating, cooling, and lighting; and appropriate integration with mechanical systems. Additional courses are available to support advanced study and research in a variety of related specialties.

Examples of the areas of advanced study that are available are climate-responsive architecture and analysis of building energy performance. In climate-responsive architecture, a student applies the principles of “bioclimatic” building design in a studio setting to maximize the use of renewable energy resources in particular locations and building programs. In analysis of building energy performance, a student applies physical and economic analysis, computer simulation, and/or measurement as tools in determining component or whole-building performance relative to energy, climate, and cost-efficiency. The student is concerned with climate responsive, low-energy building design through resource-efficient building concepts, materials, components, and systems such as daylighting, passive solar heating, passive cooling, and earth sheltering.

Most students address these problems with an emphasis on either a design-oriented approach in a studio setting or with an emphasis on an analysis-oriented approach through the application of the most current building energy simulation and analysis tools. Some students want to combine these approaches in their thesis problem. The energy performance and climate responsive architecture requirements include APH 511 Energy Environmental Theory, ATE 521 Building Environmental Science, ATE 582 Environmental Control Systems, ATE 550 Passive Cooling and Heating I, and ATE 551 Passive Cooling and Heating II.

**Facilities, Development, and Management Concentration**

Approved electives ................................................................. 12
Minimum total ............................................................................. 30

The 
facilities development and management 
centration is concerned with the decision-making processes in 
building development and design firm management. The 
goal of the program is the advancement of knowledge about 
the interactions between design and managerial processes. 
This concentration addresses the following topics: spatial 
decision models, building development processes and 
financing, market structure and strategy, pricing and cost 
control, design automation and group decision-making, 
architectural programming and post-occupancy evaluation, 
and professional ethics. The program benefits from ties to 
various professional groups and other academic units con-
cerned with business and facilities management. The facili-
ties development and management requirements (six semes-
ter hours) consist of AAD 552 Architectural Management II 
and AAD 555 Architect as Developer.

Foreign Language Requirements. None.

Thesis Requirements. A thesis is required. Each candidate 
devotes research effort of six semester hours of thesis/ 
research credit in preparation of a thesis. The thesis must 
conform to school policies and meet Graduate College for-
mat requirements.

Final Examinations. A final oral examination in defense of 
the thesis is required.

RESEARCH ACTIVITY

Faculty and students in the graduate programs of the 
School of Architecture may be involved in the following 
areas of research: solar architecture design, energy perfor-
mance in buildings, computer-aided design and graphics, 
facilities development and management, environments for 
aging, housing, urban design, building technology, environ-
mental analysis and programming, passive cooling and heat-
ing, ecotechniques, arid region building and systems design, 
and architectural history.

The College of Architecture and Environmental Design 
maintains 1,500 square feet of rooftop testing laboratory for 
solar research.

The college’s Research and Service Foundation provides 
facilities for basic research and community service activities in 
ergy technology, design, and planning.

COURSES

For courses, see “Architecture,” page 119.

Business Administration

The faculty in the College of Business offer a Ph.D. 
degree in Business Administration and a Master of Business 
Administration (M.B.A.) degree. The faculty in the College 
of Business offer a Ph.D. degree in Business Administration 
and a Master of Business Administration (M.B.A.) degree 
offered in day (full-time), evening, and executive programs.

Other professional master’s degrees offered through the 
College of Business are described in this catalog under their 
respective degree program headings.

MASTER OF BUSINESS ADMINISTRATION

The central theme of the program is to build and 
strengthen capabilities in knowledge and analysis of the 
functional areas of business, basic skills, and managerial 
abilities. Knowledge involves textbook and case materials. 
Basic skills include computing, writing and critical thinking, 
presentation and speaking, team and group work, inter-
personal relations, and time management. There is a strong 
team emphasis throughout the ASU curriculum.

The M.B.A. program is supported by each of the eight 
aademic units within the College of Business.

Admission. See “Admission to the Graduate College,” 
page 92. All students applying to graduate business admin-
istration programs (except those applying to the M.S. degree 
in Economics) are required to take the GMAT. The TOEFL 
is required of all international applicants whose native lan-
guage is not English or who are not graduates of an institu-
tion located in the United States. These applicants are also 
required to submit scores from the TSE. For more informa-
tion on testing, call 609/771-7330 or write

EDUCATIONAL TESTING SERVICE
PO BOX CN 6103
PRINCETON NJ 08541-6103

Students applying to the M.B.A. program are required to 
have at least two years of full-time work experience and to 
submit a statement of personal objectives for the degree pro-
gram addressing commitment, goals, qualifications, and rea-
sons for interest in the program. Applicants are to provide 
letters of recommendation commenting on the student’s 
motivation, commitment, achievements, work experience, 
and opportunity for success in the program. In addition to 
the above data, students are to communicate their interest 
for either the day, evening, or executive program.

Registration. Registration in courses numbered 502 and 
above is limited to students who have been admitted to a 
graduate degree program, have the approval of the M.B.A. 
program office, and have the prerequisites of calculus and 
computer literacy.

Structure of the M.B.A. Program. M.B.A. courses are 
open only to students admitted to the M.B.A. program.

Program Requirements. While there are no business 
course prerequisites, ASU M.B.A. Program applicants must 
have computer proficiency and expertise in using a spread-
sheet package, a word-processing package, and a presenta-
tion software package. Potential students must also demon-
strate strong quantitative ability. This is accomplished 
through an above average performance (65th percentile or 
above) on the GMAT quantitative section or a college math 
course in calculus or advanced statistics.

At least 48 hours are required to complete the evening 
and executive programs. The day program has additional 
requirements that vary by area of study. Students are admit-
ted to the fall semester only and, generally, enter and gradu-
ate as a class in two years.

The core courses are designed to provide a foundation in 
business knowledge and skills and must be taken in the pre-
scribed sequence.

Elective courses build upon the business core and focus o
the further development of an area of study.
The College of Business does not accept credits earned while students are in nondegree status; moreover, graduate business courses are not open to nondegree students.

**Foreign Language Requirements.** None.

**Thesis Requirements.** None.

**Comprehensive Examinations.** All students must successfully complete the comprehensive requirement established by the College of Business and Graduate College for the M.B.A. degree. The comprehensive exam is integrated with MGT 589 Strategic Management. Students passing this course with a grade of “A” or “B” satisfy the comprehensive exam requirement.

**Dual/Concurrent Degree Programs.** See “Dual/Concurrent Degree Programs,” page 67.

**DOCTOR OF PHILOSOPHY**

The Ph.D. degree in Business Administration prepares candidates for scholarly careers at leading educational institutions and for positions in business and government organizations where advanced research and analytical capabilities are required. Major emphasis is placed upon the development of expertise in a chosen subject area, a disciplined and inquiring mind, competence in research methodology, and skill in effectively communicating advanced business concepts.

Students are encouraged to work closely with the faculty from the beginning of their programs. A ratio of resident doctoral students to faculty of less than one to one ensures that faculty may serve effectively as mentors for doctoral students.

**Admission.** A completed application for admission to the Ph.D. in Business Administration degree program includes

1. application for admission to the Graduate College,
2. undergraduate and postgraduate transcripts,
3. Graduate Management Admission Test score or scores from the Graduate Record Examination,
4. applicant’s letter of personal career objectives and rationale for pursuing the Ph.D. program,
5. three letters of recommendation,
6. Test of Spoken English score for applicants whose native language is not English, and
7. Test of English as a Foreign Language score for applicants whose native language is not English and who have not completed a degree from a U.S. college or university.

Admission is granted for fall semesters only. The deadline for receipt of all required application materials is February 1.

**Areas of Concentration.** The Ph.D. student may choose from among six areas of concentration: accountancy, finance, information management, management, marketing, and supply chain management. The accountancy specialization area includes financial accounting, managerial accounting, tax policy, auditing, and information systems. Research activities in information management encompass areas of theory and application in computer information systems. Research interests of the finance faculty offering the finance concentration focus on corporate finance, investments, financial markets, and banking. The management concentration requires three core courses: organizational theory, organizational behavior, and research methodology. In addition to these core courses, students choose one of two specialty tracks: strategic management or human resource management. Research conducted by the marketing faculty offering the marketing concentration is focused in several areas: advertising, buyer behavior, distribution channels, services marketing, and other dimensions of marketing, including sales management, industrial marketing, and public-policy implications of marketing. The supply chain management faculty in the Department of Business Administration offer the supply chain management concentration and are actively involved in the input-conversion-output process.

**Program of Study.** See “Doctor of Philosophy,” page 104, for general requirements. The Ph.D. degree program requires mathematical competence through linear algebra and calculus and computer skills. The program of study includes graduate study in economics, behavioral sciences, and quantitative/statistical analysis. The advanced program is composed of an area of concentration and supporting course work that best prepares students for conducting scholarly work in their areas of interest.

**Comprehensive Examinations.** A written comprehensive examination, designed to ascertain the candidate’s knowledge and orientation in the major field of study and fitness to proceed to the completion of a dissertation, is required at the end of course work. An additional written comprehensive examination on a candidate’s supporting course work is a departmental option. An oral examination after completion of written examinations is also a departmental option.

**Dissertation Requirements.** The candidate must present an acceptable dissertation based on original investigation. The dissertation must represent a significant contribution to knowledge, be written in a scholarly manner, and demonstrate the ability of the candidate to do independent research of high quality.

**Final Examinations.** A final oral examination in defense of the dissertation is required. The examination covers the subject matter of the dissertation and the field most nearly corresponding with that of the dissertation.
by equity carve-outs, spin-offs, and asset sell-offs; is there news in the prime rate?; seasoned common stock issues following an IPO.

These studies use a number of databases including Compustat, CRSP, Citibank, Extel, DRI and TAQ. The databases are available for research by faculty and students. The studies represent the strong commitment to research and the generation of new knowledge by the Department of Finance, indicative of the department’s goal of becoming an outstanding research department.

FINANCE (FIN)

FIN 502 Managerial Finance. (3) A
Theory and practice of financial decision making, including risk analysis, capital budgeting, cost of capital and working capital management. Prerequisites: ACC 502; ECN 502; QBA 502.

FIN 521 Investment Management. (3) A
Valuation of equities, fixed incomes, and options/financial futures in an individual security and portfolio context; mathematical asset allocation approaches. Lecture, discussion. Prerequisite: FIN 502.

FIN 527 Derivative Financial Securities. (3) A
Analysis of forwards, futures, and option contracts on bonds, commodities, equities, and foreign exchange. Design of speculative and hedging strategies. Lecture, discussion. Prerequisites: FIN 502, 521.

FIN 531 Capital Markets and Institutions. (3) A
Recent theoretical and operational developments in economic sectors affecting capital markets and institutions. Lecture, discussion. Prerequisite: FIN 502.

FIN 551 Financial Statement Analysis. (3) A
Analysis of corporations’ financial statements to ascertain their financial strength and default risk. Emphasis is on studying cash flows. Lecture, cases. Prerequisites: ACC 502; FIN 502.

FIN 556 International Financial Management. (3) A
Financial theory pertaining to capital structure, dividend policy, and capital budgeting. Prerequisite: FIN 502.

FIN 561 Financial Management Cases. (3) A
Case-oriented course in applications of finance theory to management issues. Acquisition, allocation, and management of funds within the business enterprise. Working capital management, capital budgeting, capital structure, and financial strategy. Lecture, discussion, presentation. Prerequisite: FIN 502.

FIN 581 Applied Corporate Finance. (3) A

FIN 781 Theory of Finance. (3) A
Fundamental tools of financial economics; asset pricing, arbitrage, option pricing, capital structure, dividend policy, asymmetric information, and transaction-cost economics. Prerequisites: FIN 502, 521, 531.

FIN 791 Doctoral Seminar in Finance. (3) A
(a) Financial Institutions and Markets.
   Economic and monetary theory applied to financial markets and institutions; implications of financial structure for market performance and efficiency. Prerequisite: FIN 781.

(b) Financial Management.
   Financial theory pertaining to capital structure, dividend policy, valuation, cost of capital, and capital budgeting. Prerequisite: FIN 781.

(c) Investments.
   Investments and market theory; efficient markets hypothesis; option and commodity markets. Prerequisite: FIN 781.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.
School of Health Administration and Policy

MASTER’S DEGREE PROGRAM

The faculty in the Department of Management participate in offering the High Technology M.B.A., Executive M.B.A., Evening M.B.A., and Day M.B.A. programs. These programs are administered by the College of Business. For more information see “College of Business,” page 67. Areas of study offered to high technology, evening, and executive M.B.A. students include process management in high technology organizations; globalization and diversity management; entrepreneurship and small business development; and management consulting.

PH.D. DEGREE PROGRAM

The faculty in the department offer students the opportunity to obtain a Ph.D. degree in Business Administration with a concentration in management. The doctoral program places primary emphasis on the development of research competence and emphasizes teaching as a vehicle to academic professionalism. The mission of the program is to provide an environment that is conducive to the development of scholars who are prepared to assume the diverse responsibilities of positions at leading research universities.

The goal is to prepare students for research careers in the academic community.

Doctoral students are encouraged to design an individually meaningful course of study within the larger context of the management field. Opportunities for doing this are available through course work, individual work with faculty members, and independent research and study. The faculty’s research and teaching emphasizes high tech management, quality, process and project management, decision analysis, globalization, diversity, small business and entrepreneurship, change management, stress, job loss, organizational identity, corporate governance, and human resource management practices. The faculty has distinguished itself with research and publications in premier journals. The department ranks 12th internationally for its rate of publication in premier academic journals. The department also

ASU provides students a nurturing environment in which to enhance their intellectual and personal growth. Tim Trumble photo
ranks sixth internationally in premier journal articles that impact practice in operations and management science.

Further information, links to courses, current faculty, and updates on the Department of Management areas of study for the M.B.A. programs can be found at the Web site above.

General information on the M.B.A. programs can be found at www.cob.asu.edu/mba.

Further information, application procedures, links to current faculty, and updates on the Ph.D. program in Business with a concentration in management can be found at www.cob.asu.edu/mgt/degree/PhDMaintPg.htm.

MANAGEMENT (MGT)

MGT 413 Compensation Management. (3) F, S
Establishing base and incentive pay with job analysis, job evaluation, and wage surveys; performance appraisal; conformance to compensation laws. Prerequisites: MGT 311; professional program business student.

MGT 422 Training and Development. (3) F, S
Learning theory, orientation and basic level training, management development, resource materials and methods. Prerequisites: MGT 311; professional program business student.

MGT 423 Employee-Management Relations. (3) F, S
Employee-management relationship in union/nonunion setting. Employee-management rights/responsibilities, complaint administration, negotiations, union structure, and mock government negotiations.

MGT 424 Employee Selection and Appraisal. (3) F, S

MGT 433 Management Decision Analysis. (3) F, S
Decision-making concepts and methods in the private and public sectors and their application to organizational problems. Understanding of individual and group decision making. Prerequisites: MGT 301; professional program business student.

MGT 434 Social Responsibility of Management. (3) F, S, SS
Relationship of business to the social system and its environment. Criteria for appraising management decisions. Managers as change agents. Prerequisites: MGT 301; professional program business student.

MGT 440 Small Business and Entrepreneurship. (3) F, S, SS
Opportunities, risks, and problems associated with small business development and operation.

MGT 441 Venture Design and Development. (3) N
Analysis, design, and development of a business plan for a new venture. Prerequisite: ACC 240.

MGT 442 Small Business Management. (3) N
Students, acting as management consultants, apply business principles and make recommendations to small businesses while learning to manage small firms. Prerequisite: business core except MGT 463.

MGT 445 Business Plan Development. (3) F, S
Develops a complete strategic business plan emphasizing the planning process undertaken by successful small business owners and entrepreneurs. Lecture, experiential exercise. Prerequisite: MGT 440.

MGT 459 International Management. (3) F, S, SS
Concepts and practices of multinational and foreign firms. Objectives, strategies, policies, and organizational structures for operating in various environments. Students taking MGT 459 may not get additional credit for either IBS 494 ST: Multinational Management or IBS 494 ST: International Management. Prerequisite: IBS 300 or MGT 301.

MGT 463 Strategic Management. (3) F, S, SS
Strategic formulation and administration of the total organization, including integrative analysis and strategic planning. To be taken last semester of senior year. Prerequisites: completion of 108 hours, including all other business administration core requirements; professional program business student; General Studies: L.

MGT 468 Management Systems. (3) F, S
Systems theory and practice applied to organization process and research. Organizations seen as open systems interacting with changing environments. Prerequisite: MGT 301.

MGT 480 Team Management Skills. (3) F, S
A cooperative education class teaching team skills in active listening, conflict resolution, decision making, effective meetings, norming, and team roles. Cooperative learning.

MGT 494 Special Topics. (3) N
Current topics in management, primarily designed for business majors. See the Schedule of Classes for current offerings. Some of the following may be offered:
(a) Applied International Management
(b) Cultural Factors in International Business
(c) Small Business Planning
(d) Quality and Human Resource Management

Note that students may not get credit for both Small Business Planning and MGT 445 Business Plan Development.

MGT 502 Organization Theory and Behavior. (3) A
Important concepts and applications in management, including communication, decision making, group dynamics, leadership, motivation, organization change, and organization design. Prerequisites: computer literacy; graduate degree program student.

MGT 522 Human Resource Activity and the Management of Diversity. (3) A
Managerial approach to HR/ethnicity.

MGT 570 Management Consulting. (3) A
Developing an understanding of how internal and external consultants add value. Prerequisites: ability to use common business software, including Microsoft Office; familiarity with spreadsheets.

MGT 589 Strategic Management. (3) F, S
Formulation of strategy and policy in the organization, emphasizing the integration of decisions in the functional areas. Prerequisite: completion or concurrent enrollment in all other core courses in the M.B.A. program.

MGT 591 Seminar. (3) N
Topics such as the following are offered:
(a) Business Plan Competition
(b) Entrepreneurship
(c) Human Resource Activity and the Management of Diversity
(d) Human Resource Management and Service Delivery
(e) Human Resources and High-Technology Management
(f) International Management
(g) Management Consulting
(h) Organizational Change and Business Process Consulting

MGT 593 Applied Projects. (3) A
Cross-functional teams initiate (possibly implement) organizational change within a local firm. Lecture, discussion, experiential learning. Prerequisite: completion or concurrent enrollment in all core courses in the M.B.A. program.

MGT 598 Special Topics. (3) N
Graduate special topics chosen from human resources, strategic management, and international management including special topics in international management in Asia or Europe. Prerequisite: instructor approval.

MGT 791 Seminar: Doctoral Seminar in Management. (1) A
Short module seminars such as:
(a) Causal Modeling
(b) Change and Coping
(c) Cognition: Micro and Macro Perspectives
(d) Dysfunction in Workplace
(e) Economic Theories of the Firm
(f) Levels of Analysis
(g) Motivation and Attitudes
(h) Organizational Identity and Identification
(i) Organizational Learning and Organizational Identity
(j) Organizational Performance and Reward Systems
(k) Organizational Strategy and Culture
(l) Organizational Structure, Technology, and Information Systems
(m) Organizational Withdrawal
(n) Performance Appraisal
(o) Power and Organizational Change
(p) Selection
(q) Strategy Overview
(r) Teams, Groups, and Leadership
(s) The Craft of Research

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.
QUANTITATIVE BUSINESS ANALYSIS (QBA)
Department of Management

QBA 450 Operations and Process Analysis. (3) A
Implementation of quantitative techniques for the analysis of quality problems related to operations and process analysis. Prerequisites: OPM 301; QBA 221. General Studies: L.

QBA 502 Managerial Decision Analysis. (3) F, S
Fundamentals of quantitative analysis to aid management decision making under uncertainty. Prerequisites: MAT 210; computer literacy; graduate degree program student.

QBA 505 Management Science. (3) N
Quantitative approaches to decision making, including linear programming and simulation, with an emphasis on business applications. Prerequisites: MAT 210; QBA 502.

QBA 508 Product and Service Innovation. (3) F, S
Developing strategies for innovation in products and services. Prerequisites: basic algebra; basic probability concepts; elementary knowledge of Windows.

QBA 550 Intermediate Decision Analysis. (3) N
Quantitative decision analysis methods for business decision making under uncertainty, including decision diagrams, subjective probabilities, and preference assessment. Prerequisites: MAT 210; QBA 502.

QBA 591 Seminar. (3) F, S
Current topics in Quantitative Business Analysis primarily designed for technology, evening, and executive M.B.A. students. Elective courses for these programs may include:
(a) Decision Models
(b) Decision Models for Consulting
(c) Management Problem Solving
(d) Strategic Decision Analysis

QBA 593 Applied Project. (1–12) N
QBA 599 Thesis. (1–12) N

QBA 791 Doctoral Seminars in Quantitative Business Analysis. (1) N
The Department of Management has adopted a modular approach to Ph.D. education. Topics such as the following may be offered:
(a) Chaos Theory
(b) Risk Analysis
(c) Strategic Decision Making
(d) Systems Dynamics

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

OPERATIONS AND PRODUCTION MANAGEMENT (OPM)

OPM 502 Operations Management. (3) A
Contemporary management issues, including environmental, project, and supply chain management; new product development; quality control; TQM. Prerequisites: computer literacy; graduate degree program student.

OPM 540 Quality and Productivity Management. (3) N
Organizational factors influencing quality and productivity in the production of goods and services. Quality and productivity strategies, improvement programs, and measurement systems. Prerequisite: OPM 502 or instructor approval.

OPM 585 Facilities Design and Management of Technology. (3) A
Decisions regarding management of facilities and technology for manufacturing and service firms. Facilities location, layout, process design, and selection.

OPM 587 Project Management. (3) A
Planning, scheduling and controlling of projects in R & D, manufacturing, construction and services. Project selection, financial considerations, and resource management. Prerequisite: QBA 502.

OPM 591 Seminar. (3) A
Topics such as the following offered:
(a) High-Performance Management Processes
(b) Management of Technology
(c) Manufacturing Management in High Technology
(d) Manufacturing Strategy
(e) New Product and Process Development
(f) Technology/Project Management

OPM 593 Applied Projects. (3) A
Cross-functional teams initiate (possibly implement) organizational change within a local firm. Lecture, discussion, experiential learning. Prerequisite: completion or concurrent enrollment in all core courses in the M.B.A. program.

OPM 791 Doctoral Seminars in Operations and Production Management. (1) N
Short module seminars such as:
(a) Management of Technology
(b) Manufacturing Strategy
(c) Operations Management
(d) Project Management

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Department of Marketing

Michael P. Mokwa
Chair
(BAC 400) 480/965-3621
www.cob.asu.edu/mkt

PROFESSORS
BITNER, BROWN, HUDDLESTON, KUMAR, LASTOVIČKA, MOKWA, L. OSTM, REINGEN, SCHLACTER, WARD

ASSOCIATE PROFESSORS
BLASKO, SINHA, STEPHENS, WALKER

ASSISTANT PROFESSORS
NOWLIS, A. OSTM, ROUNDTREE

RESEARCH ACTIVITY

The Department of Marketing has a significant research orientation that spans a broad scope of topics, including strategic marketing management, consumer behavior, selling and sales management, advertising, channels management, international marketing, business to business marketing, product development, and services marketing. Many research projects involve faculty and doctoral student collaboration. Some recently published projects have focused on evaluation of service encounters, relationship quality in selling, channel responsiveness, salesperson motivation, influence patterns in strategic decision making, consumption symbolism, marketing competencies and organizational performance, social network influences on consumer behavior, innovation in industrial markets, the effects of relationship marketing, and effective cross-functional relationships.

MARKETING (MKT)

MKT 411 Sales Management. (3) N, F, S
Application of management concepts to the administration of the sales operation. Prerequisite: MKT 262.

MKT 412 Promotion Management. (3) A
Integration of the promotional activities of the firm including advertising, personal selling, public relations, and sales promotion. Prerequisite: MKT 302.

MKT 424 Retail Management. (3) A
Role of retailing in marketing. Problems and functions of retail managers within various retail institutions. Prerequisite: MKT 300.
MKT 430 Marketing For Service Industries. (3) A
Concepts and strategies for addressing distinctive marketing problems and opportunities in service industries. Current issues and trends in the service sector. Prerequisites: MKT 300, professional program business student.

MKT 434 Industrial Marketing. (3) A
Strategies for marketing products and services to industrial, commercial, and governmental markets. Changing industry and market structures. Prerequisite: MKT 302 or instructor approval.

MKT 435 International Marketing. (3) A
Analysis of marketing strategies developed by international firms to enter foreign markets and to adapt to changing international environments. Prerequisites: MKT 302 or instructor approval; professional program business student.

MKT 451 Marketing Research. (3) F, S
Integrated treatment of methods of market research and analysis of market factors affecting decisions in the organization. Prerequisites with a grade of “C” or higher: MKT 302 and QBA 221.

MKT 460 Strategic Marketing. (3) F, S
Policy formulation and decision making by the marketing executive. Integration of marketing programs and consideration of contemporary marketing issues. Prerequisite: professional program business student. Prerequisites with a grade of “C” or higher: MKT 302, 304, 451. General Studies: L.

MKT 494 Special Topics. (1–4) F, S, SS
Chosen from topics in the marketing and international marketing arenas to include seminars in international marketing in Europe and Asia. (a) Applied International Marketing

MKT 499 Individualized Instruction. (1–3) F, S, SS
Topics of special interest chosen by students and agreed to by the departments to do independent studies with a professor acting as a guide.

MKT 502 Marketing Management. (3) F, S, SS
Managing the marketing function; market and environmental analysis; marketing planning, strategy, and control concepts. Development and management of marketing programs. Prerequisite: ECN 502.

MKT 524 Services Marketing. (3) A
Strategies for marketing services emphasizing the distinctive challenges and approaches that make marketing of services different from marketing manufactured goods. Prerequisite: MKT 502 or equivalent.

MKT 563 Marketing Strategy. (3) A
Planning and control concepts and methods for developing and evaluating strategic policy from a marketing perspective. Prerequisite: MKT 502.

MKT 584 Internship. (3) F, S, SS

MKT 591 Seminar. (3) A
Topics such as the following are offered in conjunction with the M.B.A. concentration in services marketing and management (see M.B.A. program section):
(a) Business-to-Business Marketing
(b) Competitive Strategy for Services
(c) Consumer Behavior and Market Strategy
(d) Customer Satisfaction/Service Quality Measurement
(e) International Marketing
(f) Marketing in the Information Age
(g) New Product and Service Development

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Department of Supply Chain Management
Joseph R. Carter
Chair
(BA 318) 480/965-6044
business.admin.phd@asu.edu
www.cob.asu.edu/scm

PROFESSORS
J. CARTER, P. CARTER, GUNTERMANN, HENDRICK, JENNINGS, METCALF, PEARSON, SMELTZER

ASSOCIATE PROFESSORS
ARANDA, BOHLMAN, BUTLER, CHOI, DAVIS, DUNDAS, ELLRAM, LEONARD, LOCK, LYNCH, MURRANKA, SIFERD

ASSISTANT PROFESSORS
AMUNDSON, MALTZ

SENIOR LECTURER
FLYNN

RESEARCH ACTIVITY
The faculty in the Department of Supply Chain Management have a strong commitment to scholarly research in a wide variety of areas. Although the faculty have published in a number of business and interdisciplinary journals, the research can generally be divided into four areas: business law, management communication, supply chain management, and real estate.

The business law faculty have been conducting research on antitrust and labor disputes in the sports industry, standards of disclosure, strategic legal planning, and commercial contract negotiations. The relationship between business law and business ethics is a major focus of this group. Collaborative writing, negotiations, and patterns of strategies for communicating organizational change are some of the areas in which management communication faculty are conducting research.

The research conducted by supply chain management faculty includes purchasing performance, forecasting, vendor evaluation, contract negotiation, materials management and acquisition, and transportation regulation and policy in addition to other related areas. In the area of real estate, research topics include the impact of discount points on housing value, a rational expectations model of housing price, the time on the market, inflation, interest rates, and cost of housing.

BUSINESS ADMINISTRATION (BUS)

BUS 451 Business Research Methods. (3) N
Methods of collecting information pertinent to business problem solving, including design, collection, analysis, interpretation, and presentation of primary and secondary data. General Studies: L.

BUS 502 Managerial Communication. (1–3) F, S
Analysis of various business problems, situations, and development of appropriate communication strategies. Prerequisite: MGT 502.

BUS 504 Professional Report Writing. (3) A
Preparation and presentation of professional reports.
BUS 507 Business Research Methods. (3) N
Techniques for gathering information for business decision making. Selection, design, and completion of a business-oriented research project.

BUS 591 Seminar. (3) N
Selected managerial communication topics.

BUS 594 Study Conference or Workshop. (3) N

BUS 700 Research Methods. (3) N

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

LEGAL AND ETHICAL STUDIES (LES)

LES 411 Real Estate Law. (3) A
Legal and ethical aspects of land ownerships, interests, transfer, finance development and regulations of the real estate industry.

LES 532 Negotiation Agreements. (3) F, S
Course develops negotiation competencies to build partnerships and create lasting agreements with internal/external customers, suppliers, work teams, and external constituencies. Lecture and substantial student interaction through team exercises.

LES 579 Legal and Ethical Issues for Business. (3) F, S
Study of legal and ethical components of business decisions; self-regulation and social responsibility as strategies. Prerequisites: ACC 503; FIN 502; MGT 502; MKT 502.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

REAL ESTATE (REA)

REA 401 Real Estate Appraisal. (3) A
Factors affecting the value of real estate. Theory and practice of appraising and preparation of the appraisal report. Appraisal techniques. Prerequisites: REA 300; professional program business student.

REA 441 Real Estate Land Development. (3) A
Neighborhood and city growth. Municipal planning and zoning. Development of residential, commercial, industrial, and special purpose properties. Prerequisites: REA 300; professional program business student.

REA 456 Real Estate Investments. (3) A
Analysis of investment decisions for various property types. Cash flow and rate of return analysis. Prerequisites: FIN 300; professional program business student.

REA 461 Current Real Estate Topics. (3) N
Current real estate topics of interest are discussed and analyzed. Prerequisites: REA 300; professional program business student.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

SUPPLY CHAIN MANAGEMENT (SCM)

SCM 405 Urban Transportation. (3) N
Economic, social, political, and business aspects of passenger transportation. Public policy and government aid to urban transportation development. Prerequisite: upper-division standing or instructor approval.

SCM 432 Materials Management. (3) F, S
Study of managing the productive flow of materials in organizations, including MRPII, JIT, quality, facility planning, and job design. Prerequisites: OPM 301; professional program business student.

SCM 440 Productivity and Quality Management. (3) F, S
Productivity concepts at the national, organizational, and individual levels. Quality management and its relationship to productivity in all organizations. Prerequisite: professional program business student.

SCM 455 Research and Negotiation. (3) F, S
Current philosophy, methods, and techniques used to conduct both strategic and operations supply chain management research and negotiation. Includes negotiation simulations. Prerequisites: SCM 355; professional program business student. General Studies: L.

SCM 460 Carrier Management. (3) N
Analysis of carrier economics, regulation, management, and rate-making practice; evaluation of public policy issues related to carrier transportation. Prerequisite: upper-division standing or instructor approval.

SCM 463 Global Supply Chain Management. (3) A
Supply chain activities in international business with special emphasis on management of transportation, global sourcing, customs issues, and facility location in a global environment. Prerequisite: SCM 345 or instructor approval.

SCM 479 Supply Chain Strategy. (3) F, S
Synthesis of purchasing, production, transportation, and distribution systems to provide an integrated perspective of supply chain management. Prerequisites: SCM 345, 432; professional program business student. Prerequisite with a grade of “C” or higher: SCM 355.

SCM 532 Supply Chain Design and Development Strategies. (3) F
A strategic orientation toward the design and development of the supply chain for purchasing, materials, and logistics systems.

SCM 541 Supply Chain Management and Control. (3) S

SCM 545 Supply Chain Continuous Improvement Strategies. (3) S
Leading edge strategies such as reengineering high-performance teams and expert systems for continuous improvement of the supply chain. Seminar.

SCM 591 Seminar. (3) N
Topics such as the following are offered:
(a) Global Supply Chain Management
(b) New Product Development
(c) Quality and Productivity Management
(d) Services Operations Management

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Chemical Engineering

Eric J. Guilbeau
Chair
(ECG 202) 480/965-3313
cbmerrec@enpop2.eas.asu.edu

PROFESSORS
BERMAN, GUILBEAU, RAUPP, SATER

ASSOCIATE PROFESSORS
BECKMAN, BURROWS, RIVERA, TORREST

ASSISTANT PROFESSOR
BEAUDOIN

The faculty in the Department of Chemical and Materials Engineering offer graduate programs leading to the M.S., Master of Science in Engineering, and the Ph.D. degrees in Chemical Engineering. Areas of concentration include chemical process engineering, chemical reactor engineering, energy and materials conversion, environmental control, and transport phenomena. For students interested in the Bioengineering major, see “Bioengineering,” page 126, for program description. Within the Engineering Science major, students may select materials science and engineering as the area of study (see “Engineering Science,” page 192, for program description).

The faculty also participate in offering the interdisciplinary program leading to the Doctor of Philosophy degree with a major in Science and Engineering of Materials (see
“Science and Engineering of Materials,” page 290, for program description. A Graduate Student Handbook, detailing information on graduate studies in Chemical Engineering, is available to admitted students. Students should contact the department.

Graduate Record Examination. Graduate Record Examination scores are required from all students.

MASTER OF SCIENCE

See “Master’s Degrees,” page 101, for general requirements.

Transition Program. Students applying for the program leading to a master’s degree with a major in Chemical Engineering, or in the area of study of materials science and engineering under the Engineering Science major, may have an undergraduate B.S. degree in a major field other than chemical engineering or materials science. The qualifications of transition students are reviewed by the department graduate committee, and a special program is designed for successful applicants. In general, applicants should have had, or should be prepared to take, calculus through differential equations and physics. Transition students are expected to complete the essential courses in their area of study from the undergraduate program in order to be prepared for the graduate courses. Other course work from the undergraduate program may be required depending upon the area of study selected by the student.

Transition students should contact the graduate coordinator for an evaluation of the undergraduate transcript.

Program of Study. All candidates for the Master of Science in Engineering or M.S. degree in Chemical Engineering, or in the area of study of materials science and engineering under the Engineering Science major, are required to complete an approved program of study consisting of the minimum required semester hours, including research report (M.S.E.) or thesis (M.S.). Special course requirements for the different areas of study are established by the faculty and are available from the departmental graduate coordinator. In addition to the course/thesis requirements, all full-time graduate students must successfully complete a seminar course during each semester of attendance; part-time students must enroll in a seminar course at least three times during the course of study. Candidates whose undergraduate degree was in a field other than chemical engineering or materials science may be required to complete more than 30 semester hours.

Thesis Requirements. A thesis or equivalent is required.

Final Examinations. A final oral examination is required in defense of the thesis or equivalent.

MASTER OF SCIENCE IN ENGINEERING

See “Master of Science in Engineering,” page 191, for information on the Master of Science in Engineering degree.

DOCTOR OF PHILOSOPHY

The Ph.D. degree in Chemical Engineering, or in the area of study of materials science and engineering under the Engineering Science major, is conferred upon evidence of excellence in research resulting in a scholarly dissertation that is a contribution to existing knowledge.

See “Doctor of Philosophy,” page 104, for general requirements.

Doctoral Program. Upon successful completion of the qualifying examination, a research supervisory committee is formed and the doctoral student is required to submit a research proposal. Following the acceptance of the research proposal, the student is given a comprehensive examination to determine initiative, originality, breadth, and high level of professional commitment to the problem selected for investigation. Upon successful completion of the comprehensive examination, the student applies for admission to candidacy.

Master’s Degree in Passing. Students who are enrolled in the Ph.D. degree program in Chemical Engineering, but who do not hold a previously earned master’s degree in chemical engineering, can obtain the M.S.E. degree (the “Master’s in Passing”) upon completion of course requirements, the Ph.D. qualifying examination, prospectus, and the comprehensive examination.

As this degree is only available to students who are enrolled as regular students in the Ph.D. program in Chemical Engineering, all of the above requirements (including course work) can be applied toward the Ph.D. requirements.

Foreign Language Requirements. Candidates in the program leading to the Ph.D. degree in Chemical Engineering, or in the area of study materials science and engineering under the Engineering Science major, normally are not required to pass an examination showing reading competency of a foreign language. However, the supervisory committee may establish such a requirement in special cases depending upon the research interests of the candidate. If the foreign language is required, the student must successfully fulfill the requirement before taking the comprehensive examination.

Dissertation Requirements. A dissertation based on original work demonstrating creativity in research and scholarly proficiency in the subject area is required.

Final Examinations. A final oral examination in defense of the dissertation is required.

RESEARCH ACTIVITY

Biochemical Engineering. Biochemical separations, biomaterials engineering, scanning probe microscopy, and affinity chromatography.

Biomedical Engineering. Body processes, wearable artificial kidneys, improved blood oxygenators, noninvasive techniques, biophysical property correlations, cardiovascular prosthesis and biomaterials, computer analysis of clinical data, optimization of health delivery systems, biomechanics, biocontrol, analysis of human motion, bioelectronics, medical imaging, and development of physiological sensors.

Chemical Process Control. Advanced process identification and control, continuous process diagnostics, batch supervisory control, statistical process control, expert systems, neural networks, and artificial intelligence. Applications to industrial processes.

Chemical Process Engineering. Chemical process design fundamentals, chemical instrumentation for process control,
CHE 458 Semiconductor Material Processing. (3) N
Introduction to the processing and characterization of electronic materials for semiconductor applications. Prerequisites: CHE 333, 342.

CHE 475 Biochemical Engineering. (3) N
Application of chemical engineering methods, mass transfer, thermodynamics, and transport phenomena to industrial biotechnology. Prerequisite: instructor approval.

CHE 476 Bioreaction Engineering. (3) N
Principles of analysis and design of reactors for processing with cells and other biologically active materials; applications of reaction engineering in biotechnology. Prerequisite: instructor approval.

CHE 477 Bioseparation Processes. (3) N
Principles of separation of biologically active chemicals; the application, scale-up, and design of separation processes in biotechnology. Prerequisite: instructor approval.

CHE 501 Introduction to Transport Phenomena. (3) F, S
Transport phenomena, with emphasis on fluid systems. Prerequisite: transition student with instructor approval.

CHE 502 Introduction to Energy Transport. (3) F, S
Continuation of transport principles, with emphasis on energy transport in stationary and fluid systems. Prerequisite: transition student with instructor approval.

CHE 503 Introduction to Mass Transport. (3) F, S
The application of transport phenomena to mass transfer. The design of mass transfer equipment, including staged processes. Prerequisite: transition student with instructor approval.

CHE 504 Introduction to Chemical Thermodynamics. (3) F, S
Energy relations and equilibrium conversions based on chemical potentials and phase equilibria. Prerequisite: transition student with instructor approval.

CHE 505 Introduction to Chemical Reactor Design. (3) F, S
Application of kinetics to chemical reactor design. Prerequisite: transition student with instructor approval.

CHE 527 Advanced Applied Mathematical Analysis in Chemical Engineering. (3) F
Formulation and solution of complex mathematical relationships resulting from the description of physical problems in mass, energy, and momentum transfer and chemical kinetics.

CHE 528 Process Optimization Techniques. (3) S
Method for optimizing engineering processes. Experimental design and analysis; linear and nonlinear regression methods; classical, search, and dynamic programming algorithms.

CHE 533 Transport Processes I. (3) F
Unified treatment of momentum, heat, and mass transfer from molecular theory, and continuum points of view. Continuum equations of microscopic and macroscopic systems and multicomponent and multiphase systems. Cross-listed as BME 533. Credit is allowed for only BME 533 or CHE 533.

CHE 534 Transport Processes II. (3) S
Continuation of CHE/BME 533, emphasizing mass transfer. Cross-listed as BME 534. Credit is allowed for only BME 534 or CHE 534. Prerequisite: BME/CHE 533.

CHE 536 Convective Mass Transfer. (3) N
Turbulent flow for multicomponent systems, including chemical reactions with applications in separations and air pollution. Prerequisite: CHE 533 or MSA 571.

CHE 543 Thermodynamics of Chemical Systems. (3) F
Classical and statistical thermodynamics of nonideal physicochemical systems and processes; prediction of optimum operating conditions. Cross-listed as BME 543. Credit is allowed for only BME 543 or CHE 543.

CHE 544 Chemical Reactor Engineering. (3) S
Reaction rates, thermodynamics, and transport principles applied to the design and operation of chemical reactors. Cross-listed as BME 544. Credit is allowed for only BME 544 or CHE 544. Prerequisite: BME/CHE 543.

CHE 548 Topics in Catalysis. (3) N
Engineering catalysis, emphasizing adsorption, kinetics, characterization, diffusional considerations, and reactor design. Other topics include mechanisms, surface analyses, and electronic structure.

CHE 552 Industrial Water Quality Engineering. (3) N
Water pollutants, quality criteria and control, chemical treatment processing, and system design. Case studies. Prerequisite: CHE 331 or equivalent.

CHE 553 Air Quality Control. (3) N
Air pollutant origins, effects, and control. Physical and chemical processes, including dispersion, combustion, sampling, control equipment design, and special topics. Prerequisite: CHE 331 or equivalent.

CHE 554 New Energy Technology. (3) N

CHE 556 Separation Processes. (3) N
Topics in binary/multicomponent separation, rate governed and equilibrium processes, mass transfer criteria, energy requirements, separating agents and devices, and staged operations.

CHE 558 Electronic Materials. (3) N
Processing and characterization of electronic materials for semiconductor type uses. Thermodynamics and transport phenomena, phase equilibria and structure, mass transfer, and diffusion and thermal properties.

CHE 561 Advanced Process Control. (3) S
Dynamic process representation, linear optimal control, optimal state reconstruction, and parameter and state estimation techniques for continuous and discrete time systems.

CHE 563 Chemical Engineering Design. (3) N
Computational methods; the design of chemical plants and processes.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

MATERIALS SCIENCE AND ENGINEERING (MSE)

MSE 421 Physical Metallurgy Laboratory. (1) S
Focuses on analysis of microstructure of metals and alloys and includes correlation with mechanical properties to some extent. Lab. Pre- or corequisite: MSE 420.
MSE 453 Experiments in Materials Synthesis and Processing II.  
(2) F  
A continuation of MSE 354, with emphasis on characterization. Small groups complete three experiments supervised by selected faculty members. Lab. Prerequisites: MSE 353 and 354 or equivalents.

MSE 454 Advanced Materials Processing and Synthesis. (3) S  
Case studies from published literature of current techniques in materials processing and synthesis. Student participation in classroom presentations. Lecture, recitation. Prerequisites: MSE 353 and 354 or equivalents.

MSE 510 X-ray and Electron Diffraction. (3) F  
Fundamentals of X-ray diffraction, transmission electron microscopy, and scanning electron microscopy. Techniques for studying surfaces, internal microstructures, and fluorescence. Lecture, demonstrations. Prerequisite: transition student with instructor approval.

MSE 511 Corrosion and Corrosion Control. (3) S  
Introduction to corrosion mechanisms and methods of preventing corrosion. Topics include the following: electrochemistry, polarization, corrosion rates, oxidation, coatings, and cathodic protection. Prerequisite: transition student with instructor approval.

MSE 512 Analysis of Material Failures. (3) S  
Identification of types of failures. Analytical techniques. Fractography, SEM, nondestructive inspection, and metallography. Mechanical and electronic components. Prerequisite: transition student with instructor approval.

MSE 513 Polymers and Composites. (3) F  
Relationship between chemistry, structure, and properties of engineering polymers. Design, properties, and behavior of fiber composite systems.

MSE 514 Physical Metallurgy. (3) S  
Crystal structure and defects. Phase diagrams, metallography, solidification and casting, and deformation and annealing. Prerequisite: transition student with instructor approval.

MSE 515 Thermodynamics of Materials. (3) N  
Principles of statistical mechanics, statistical thermodynamics of single crystals, solutions, phase equilibrium, free energy of reactions, free electron theory, and thermodynamics of defects. Prerequisite: transition student with instructor approval.

MSE 516 Mechanical Properties of Solids. (3) S  
Effects of environmental and microstructural variables of mechanical properties, including plastic deformation, fatigue, creep, brittle fracture, and internal friction. Prerequisite: transition student with instructor approval.

MSE 517 Introduction to Ceramics. (3) F  
Principles of structure, property relations in ceramic materials. Processing techniques. Applications in mechanical, electronic, and superconducting systems. Prerequisite: transition student with instructor approval.

MSE 518 Integrated Circuits Materials Science. (3) N  
Principles of materials science applied to semiconductor processing and fabrication in metals, ceramics, polymers, and semiconductors. Prerequisite: transition student with instructor approval.

MSE 519 Physical Metallurgy Laboratory. (1) S  
Analysis of microstructure of metals and alloys and includes some correlation with mechanical properties. Lab. Pre- or corequisite: MSE 514.

MSE 520 Theory of Crystalline Solids. (3) F  
Anisotropic properties of crystals; tensor treatment of elastic, magnetic, electric and thermal properties, and crystallography of Martensitic transformations.

MSE 521 Defects in Crystalline Solids. (3) S  
Introduction to the geometry, interaction, and equilibrium between dislocations and point defects. Relations between defects and properties will be discussed. Prerequisite: ECE 350 or instructor approval.

MSE 530 Materials Thermodynamics and Kinetics. (3) S  
Thermodynamics of alloy systems, diffusion in solids, kinetics of precipitation, and phase transformations in solids. Prerequisites: ECE 340, 350.

MSE 540 Fracture, Fatigue, and Creep. (3) F  
Relationship between microstructure and fracture; fatigue and creep properties of materials. Environmental effects and recent developments. Current theories and experimental results. Prerequisite: MSE 440 or equivalent.

MSE 550 Advanced Materials Characterization. (3) N  
Analytical instrumentation for characterization of materials; SEM, SIMS, Auger, analytical TEM, and other advanced research techniques.

MSE 556 Electron Microscopy Laboratory. (3) F  
Lab support for MSE 558. Cross-listed as SEM 556. Credit is allowed for only MSE 556 or SEM 556. Pre- or corequisite: MSE/SEM 558.

MSE 557 Electron Microscopy Laboratory. (3) S  
Lab support for MSE 559. Cross-listed as SEM 557. Credit is allowed for only MSE 557 or SEM 557. Pre- or corequisite: MSE/SEM 559.

MSE 558 Electron Microscopy I. (3) F  
Microanalysis of the structure and composition of materials using images, diffraction and X-ray, and energy loss spectroscopy. Knowledge of elementary crystallography, reciprocal lattice, stereographic projections, and complex variables is required. Cross-listed as SEM 558. Credit is allowed for only MSE 558 or SEM 558. Prerequisite: instructor approval.

MSE 559 Electron Microscopy II. (3) S  
Microanalysis of the structure and composition of materials using images, diffraction and X-ray, and energy loss spectroscopy. Knowledge of elementary crystallography, reciprocal lattice, stereographic projections, and complex variables is required. Cross-listed as SEM 559. Credit is allowed for only MSE 559 or SEM 559. Prerequisite: instructor approval.

MSE 560 Strengthening Mechanisms. (3) S  
Deformation of crystalline materials. Properties of dislocations. Theories of strain hardening, solid solution, precipitation, and transformation strengthening. Prerequisite: ECE 350 or equivalent.

MSE 562 Ion Implantation. (3) S  
Includes defect production and annealing. Generalized treatment, including ion implantation, neutron irradiation damage, and the interaction of other incident beams. Prerequisite: MSE 450.

MSE 570 Polymer Structure and Properties. (3) F  
Relationships between structure and properties of synthetic polymers, including glass transition, molecular relaxations, crystalline state viscoelasticity, morphological characterization, and processing.

MSE 571 Ceramics. (3) A  
Includes ceramic processing, casting, molding, firing, sintering, crystal defects, and mechanical, electronic, and physical properties. Prerequisites: MSE 521, 561.

MSE 573 Magnetic Materials. (3) A  
Emphasis on ferromagnetic and ferrimagnetic phenomena. Domains, magnetic anisotropy, and magnetostriction. Study of commercial magnetic materials. Prerequisite: MSE 520 or equivalent.

MSE 598 Special Topics. (3) A  
(a) Growth and Processing of Semiconductor Devices

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

The faculty in the Department of Chemistry and Biochemistry offer programs leading to the M.S. and the Ph.D. degrees in Chemistry. Areas of concentration include analytical chemistry, biochemistry, geochemistry, inorganic chemistry, organic chemistry, physical chemistry, and solid-state chemistry.

The faculty also participate in offering programs leading to the Master of Natural Science degree when one of the concentrations is chemistry (see “Natural Science,” page 263), and the interdisciplinary programs, leading to the Ph.D. degrees with majors in Exercise Science (see “Master of Physical Education,” page 270) and the Science and Engineering of Materials (see “Science and Engineering of Materials,” page 290).

Students admitted to the Master of Education degree program with a major in Secondary Education may also elect chemistry as the subject matter field.

The graduate programs offered by the faculty in the Department of Chemistry and Biochemistry prepare students for professional careers in chemistry and related fields in industry, government, and educational institutions. All students applying for admission to one of these programs must submit scores for the Graduate Record Examination.

MASTER OF SCIENCE

See “Master’s Degrees,” page 101, for general requirements.

Program of Study. A minimum of 30 semester hours of credit is required. A thesis carrying six semester hours is also included in the total. The remaining courses are selected by the student in consultation with the supervisory committee.

Thesis Requirements. A thesis is required.

Final Examinations. A general oral examination is required of all candidates for the master’s degree. A written examination may also be required.

DOCTOR OF PHILOSOPHY

See “Doctor of Philosophy,” page 104, for general requirements.

Program of Study. A minimum of 84 semester hours, including dissertation, is required. Approximately 20–30 hours of this total is formal course work. Courses, including research and dissertation, are selected by the student in consultation with the supervisory committee.

Cumulative Examinations. Written examinations are required. In addition, an oral examination is required which includes material of a general nature, and the presentation and defense of current research and an original research proposal prepared by the student.

Foreign Language Requirements. There is no departmental foreign language requirement, but the student’s supervisory committee may specify a reading proficiency in one or more foreign languages.

Dissertation Requirements. A dissertation based on original work of high quality and demonstrating proficiency in the student’s special field is required. (See “Research and Dissertation Requirements,” page 105.)

Final Examinations. The final oral examination is a defense of the dissertation, during which the candidate presents a summary of the dissertation research. Evidence of a publishable contribution of original research must be presented.

RESEARCH ACTIVITY

Current research in the department is reflected in the following list of subjects: chemical bonding; atomic spectroscopy; transition elements; organometallic chemistry; meteorite chemistry; electrical properties of titanium oxides; X-ray and neutron crystallography; X-ray crystallography of membrane proteins; photobiology; electronic structure and mechanisms involved in pigment systems; artificial photosynthesis; bacterial photosynthesis; chemical applications of nuclear magnetic resonance spectroscopy; organic mass spectrometry including field ionization kinetics; biochemical pharmacology; structure of biopolymers; metalloproteins; molecular biology; site-directed mutagenesis; quantitative analysis with electron beam instruments; enzymes of purine metabolism; toxic proteins from Mojave rattlesnake venom; purine and pyrimidine chemistry; design of potential antitumor agents; design and synthesis of imaging agents of malignant tissues; redox chemistry of quinones;
rate processes and molecular spectroscopy; nature and origin of organic compounds in carbonaceous meteorites; computer-assisted structure elucidation; cycloaddition and cycloreversion reactions; magnetic; chemisorption; and catalytic behavior of small metallic particles; structure and properties of metal-ammonia systems; solid-state geochemistry; nucleic acid chemistry and electron microscopy; separations and chromatographic detectors; electron microprobe analysis of air-pollutants; metal complexes of macrocyclic chelating agents; structure analysis of metal complexes having a high coordination number; molecular orbital calculations; infrared and Raman spectroscopy; ceramics; laser spectroscopy; ultrafast kinetics; microwave spectroscopy.

In addition, interdisciplinary research is actively pursued in several areas, e.g., biochemistry, geochemistry, solid-state science, and materials science. Magnetic and magnetic resonance studies involve faculty and students from the Departments of Physics and Astronomy and Chemistry and Biochemistry in a well-equipped magnetism facility. Approximately 35 faculty members from the Departments of Chemistry and Biochemistry, Physics and Astronomy, Geology and the College of Engineering and Applied Sciences are associated with the Center for Solid-State Science. The center includes a number of specialized facilities such as electron microscopy and crystal-growing laboratories. Eleven faculty members from the Departments of Chemistry and Biochemistry and Plant Biology are associated with the Center for the Study of Early Events in Photosynthesis. This center has unique instrumentation for studying the earliest energy storing reactions of photosynthesis. The Center for Meteorite Studies and the Cancer Research Institute also foster interdisciplinary research efforts. Faculty in the Department of Chemistry and Biochemistry also participate in collaborative programs in the science and engineering of materials and in molecular and cellular biology.

**BIOCHEMISTRY (BCH)**

**BCH 461 General Biochemistry.** (3) F
Structure, chemistry, and metabolism of biomolecules and their role in the biochemical processes of living organisms. Credit is allowed for only BCH 361 or 461. Prerequisites: CHM 318 (or 332) and 341 (or 346) or instructor approval.

**BCH 462 General Biochemistry.** (3) S
Continuation of BCH 461. Prerequisite: BCH 461 or instructor approval.

**BCH 463 Biophysical Chemistry.** (3) S
Principles of physical chemistry as applied to biological systems. Prerequisite: CHM 341 or 346.

**BCH 467 Analytical Biochemistry Laboratory.** (3) S
Quantitative analysis, separation and purification of biological molecules. Application of chemical and physical methods to the characterization of biological macromolecules. 1 conference, 1 hour lecture, 5 hours lab. Prerequisite: BCH 461. Corequisite: BCH 462. General Studies: L.

**BCH 563 Biophysical Chemistry.** (3) N
Physical chemistry of macromolecules, especially proteins, nucleic acids, and polysaccharides. Thermodynamics, hydrodynamics, and spectroscopy of and their relation to structure. Prerequisites: BCH 462; CHM 346.

**BCH 568 Molecular Mechanisms of Photosynthesis.** (3) S
Structure and function of photosynthetic complexes; mechanism of energy conversion in plants, bacteria, and model systems. Cross-listed as PLB 558. Credit is allowed for only BCH 568 or PLB 558. Prerequisite: instructor approval.

**Omnibus Graduate Courses.** See page 57 for omnibus graduate courses that may be offered.

**CHEMISTRY (CHM)**

**CHM 424 Separation Science.** (3) N
Basic theory and practical aspects of gas, liquid, ion-exchange, and gel-permeation chromatographies, and other important industrial and research techniques. 2 hours lecture, 4 hours lab. Prerequisite: CHM 318 or 332 or 345 or instructor approval.

**CHM 431 Qualitative Organic Analysis.** (3) S
Systematic identification of organic compounds. 1 hour lecture, 6 hours lab. Prerequisites: CHM 118 (or 326) and 320 (or 336) or instructor approval.

**CHM 452 Inorganic Chemistry Laboratory.** (1–2) S
Preparation and characterization of typical inorganic substances, emphasizing methods and techniques. 1 conference, 5 hours lab. Prerequisite: instructor approval. General Studies: L (if credit also earned in CHM 348 and 349).

**CHM 453 Inorganic Chemistry.** (3) S
Principles and applications of inorganic chemistry. Prerequisite: CHM 341 or 346.

**CHM 460 Biological Chemistry.** (3) S
Physical chemistry of macromolecules and their involvement in the processing of energy and information by living cells. Prerequisites: CHM 318, 346, 453.

**CHM 471 Solid-State Chemistry.** (3) F
Crystal chemistry, thermodynamics and electrochemistry of solids, nonstoichiometric compounds, diffusion and solid-state reactions, crystal growth, and selected topics. Prerequisites: CHM 341. Pre- or corequisite: CHM 346 or instructor approval.

**CHM 480 Methods of Teaching Chemistry.** (3) S
Organization and presentation of appropriate content of chemistry; preparation of reagents, experiments, and demonstrations; organization of stock rooms and laboratories; experience in problem solving. Prerequisite: instructor approval.

**CHM 481 Geochemistry.** (3) F
Origin and distribution of the chemical elements. Geochemical cycles operating in the earth's atmosphere, hydrosphere, and lithosphere. Cross-listed as GLG 481. Credit is allowed for only CHM 481 or GLG 481. Prerequisite: CHM 341 (or 346) or GLG 321.

**CHM 485 Meteorites and Cosmochemistry.** (3) N
Chemistry of meteorites and their relationship to the origin of the earth, solar system, and universe. Cross-listed as GLG 485. Credit is allowed for only CHM 485 or GLG 485.

**CHM 494 Special Topics.** (1–4) N
(a) Chemistry of Global Climate Change. (3) S

**CHM 501 Current Topics in Chemistry.** (1) F, S
May be repeated for credit. Prerequisite: instructor approval.

**CHM 521 Computer Enhanced Analytical Chemistry.** (3) N
Overview of chemometric tools in analytical chemistry, including multivariate calibration, spectral deconvolution, and experimental design. 2 hours lecture, 4 hours lab.

**CHM 523 Advanced Analytical Chemistry.** (3) A
Theoretical principles of analytical instrumentation and measurements. Prerequisites: CHM 325 and 346 or instructor approval.

**CHM 525 Spectrochemical Methods of Analysis.** (4) N
Theoretical and practical considerations involving the use of optical instruments for chemical analyses. Emphasis on state of the art trends. 3 hours lecture, 3 hours lab. Prerequisite: CHM 346 or instructor approval.

**CHM 526 X-ray Methods of Analysis.** (4) N
Theoretical and practical considerations involving the use of X-ray diffraction and spectroscopy for chemical and structural analyses. 3 hours lecture, 3 hours lab. Prerequisite: CHM 346.

**CHM 527 Electrical Methods of Chemical Analysis.** (4) N
Theoretical and practical considerations of polarographic, potentiometric, amperometric techniques, including modern electrochemical methods, 2 hours lecture, 6 hours lab. Prerequisite: CHM 346.

**CHM 531 Advanced Organic Chemistry I.** (3) F
Reaction mechanisms, reaction kinetics, linear free energy relationships, transition state theory, molecular orbital theory, and Woodward-Hoffmann rules. Prerequisites: CHM 318 (or 332), 346.

**CHM 532 Advanced Organic Chemistry II.** (2) S
Continuation of CHM 531. Prerequisite: CHM 531.
CHM 537 Organic Reactions. (3) S
Important synthetic reactions of organic chemistry emphasizing recently discovered reactions of preparative value. Prerequisite: CHM 531.

CHM 541 Advanced Thermodynamics. (3) F
Equilibrium thermodynamics, chemical reactions, and phase equilibria. Introduction to statistical thermodynamics, critical phenomena, and kinetics. Prerequisite: CHM 346.

CHM 545 Quantum Chemistry I. (3) F
Basic quantum theory, chemical bonding, and molecular structure. Prerequisite: CHM 346.

CHM 546 Quantum Chemistry II. (3) S
Quantum theory of rate processes. Principles of spectroscopy and nonlinear optics. Prerequisite: CHM 545.

CHM 548 Chemical Kinetics. (2) N
Kinetic theory and rate processes. Prerequisite: CHM 545.

CHM 553 Advanced Inorganic Chemistry. (3) S
Principles of modern inorganic chemistry and their applications over the entire periodic system. Prerequisites: CHM 346 and 453 or equivalents.

CHM 556 Topics in Inorganic Chemistry. (3) N
May be repeated for credit. Prerequisites: CHM 553; instructor approval.

CHM 579 Topics in Solid-State Chemistry. (3) N
May be repeated for credit. Prerequisite: instructor approval.

CHM 582 Topics in Geochemistry and Cosmochemistry. (3) N
Topics of current interest for students in chemistry and other fields. Sampling of data and thought concerning phase equilibria, element distribution, meteorites, the Earth, and other planets. May be repeated for credit. Prerequisite: instructor approval.

CHM 583 Phase Equilibria and Geochemical Systems. (3) N
Natural reactions at high temperatures and pressures: silicate, sulfide, and oxide equilibria. Cross-listed as GLG 583. Credit is allowed for only CHM 583 or GLG 583.

CHM 593 Applied Project. (1–12) N
(a) Glass Blowing

The faculty in the Department of Civil and Environmental Engineering offer graduate programs leading to the M.S., the Master of Science in Engineering, and the Ph.D. degrees in Civil Engineering.

Graduate Record Examination. Submission of Graduate Record Examination (GRE) scores, general test, is required for all degree-seeking applicants.

TOEFL Examination. International applicants, whose native language is not English, are required to have taken the Test of English as a Foreign Language (TOEFL), and achieved a minimum score of 550.

MASTER OF SCIENCE
See “Master’s Degrees,” page 101, for general requirements.

MASTER OF SCIENCE IN ENGINEERING
See “Master of Science in Engineering,” page 191.

DOCTOR OF PHILOSOPHY
The Ph.D. degree is conferred upon students based on evidence of excellence in research leading to a scholarly dissertation that is a contribution to knowledge in the field of civil engineering.

See “Doctor of Philosophy,” page 104, for general requirements.

Letters of Recommendation. Submission of three letters of recommendation is required for those applying for admission to the Ph.D. degree program. One letter must be from the chair or advisor of the applicant’s previous degree program.

Program of Study. The program of study must be prepared soon after a student has been admitted to the program, a supervisory committee has been formed, and a preliminary examination (if required by the supervisory committee) has been taken.

Foreign Language Requirements. None.

Comprehensive Examinations. Written and oral comprehensive examinations are required. The examinations are administered by the supervisory committee. Students should request permission from the Graduate College to take the comprehensive examinations when they have essentially completed the course work in their approved program of study.

Dissertation Requirements. A dissertation based on original work demonstrating creativity in research and scholarly proficiency in the subject area is required.

Final Examinations. A final oral examination in defense of the dissertation is required.

RESEARCH ACTIVITY
A broad range of theoretical and experimental research programs have been established in civil and environmental engineering to prepare graduate students for careers in professional practice and research. The faculty pursue research topics related to the advancement of knowledge in civil and environmental engineering.

Experimental and theoretical investigations by civil and environmental engineering faculty and students are carried out in the specialized areas of environmental engineering, geotechnical/geoenvironmental engineering, structures/materials engineering, transportation/materials engineering, and water resources engineering.
Areas of Study

Areas of study in the civil and environmental engineering curriculum are described below.

Environmental Engineering. This area of study includes the quality of air, water, and land resources; transport, use, and disposal of hazardous wastes; water and wastewater treatment; and water reuse.

Geotechnical/Geoenviromental Engineering. This area of study includes the analysis and design of foundation systems, seepage control, earthdams and water resource structures, earthwork operations, fluid flow through porous media, response of foundations and embankments to earthquakes, and solutions to environmental problems.

Structures/Materials Engineering. This area of study considers the planning, analysis, and design of steel and concrete bridges, buildings, dams; special offshore and space structures; Portland cement concrete; composite materials; and structural retrofit of existing bridges.

Transportation/Materials Engineering. This area of study includes (1) transportation planning, design, and operation and (2) pavements and materials. Transportation planning, design, and operation covers urban transportation planning, geometric design of facilities, traffic operations, evaluation of highway capacity and safety, and intelligent vehicle/highway systems. Pavements and materials focus on pavement analysis and design; pavement maintenance and rehabilitation; pavement evaluation and management; characterization of highway materials and durability of highway structures.

Water Resources Engineering. This area of study is concerned with surface and groundwater flow, planning and management of water supply, and water distribution system modeling.

CIVIL AND ENVIRONMENTAL ENGINEERING (CEE)

CEE 423 Structural Design. (3) F Analysis and design of reinforced concrete steel, masonry, and timber structures. Lecture, lab. Prerequisite: CEE 323. Pre- or corequisite: CEE 322.

CEE 432 Matrix and Computer Applications in Structural Engineering. (3) S Matrix and computer applications to structural engineering and structural mechanics. Stiffness and flexibility methods, finite elements, and differences. Prerequisite: CEE 321.

CEE 441 Water Resources Engineering. (3) S Application of the principles of hydraulics and hydrology to the engineering of water resources projects: design and operation of water resources systems; water quality. Prerequisite: CEE 341.

CEE 452 Foundations. (3) F Application of soil mechanics to foundation systems, bearing capacity, lateral earth pressure, and slope stability. Prerequisite: CEE 351.

CEE 466 Sanitary Systems Design. (3) F Capacity, planning and design of water supply, domestic and storm drainage, and solid waste systems. Prerequisite: CEE 361.

CEE 471 Intelligent Transportation Systems. (3) N Application of advanced technology to the vehicle and the roadway to solve traffic congestion, safety, and air quality problems. Prerequisite: CEE 372 or instructor approval.

CEE 475 Highway Geometric Design. (3) S Design of the visible elements of the roadway. Fundamental design controls with application to rural roads, at-grade intersections, freeways, and interchanges. Lecture, recitation. Prerequisite: CEE 372.

CEE 486 Integrated Civil Engineering Design. (3) F, S Students are required to complete a civil engineering design in a simulated practicing engineering environment. Lecture, team learning. Limited to undergraduates in their final semester. Prerequisites: CEE 321, 341, 351, 361, 372. General Studies: L.

CEE 512 Pavement Performance and Management. (3) S Pavement management systems, including data collection, evaluation, optimization, economic analysis, and computer applications for highway and airport design. Prerequisite: instructor approval.

CEE 514 Bituminous Materials and Mixture. (3) F Types of bituminous materials used in pavement mixtures. Chemical composition, physical properties, desirable aggregate characteristics, optimum asphalt contents, superfine asphalt binder, mixture design. Lecture, lab. Prerequisite: ECE 351.

CEE 521 Stress Analysis. (3) F Advanced topics in the analytical determination of stress and strain. Prerequisite: CEE 321.

CEE 526 Finite Element Methods in Civil Engineering. (3) F Finite element formulation for solutions of structural, geotechnical, and hydraulic problems. Prerequisite: CEE 432.

CEE 533 Structural Optimization. (3) N Linear and nonlinear programming. Problem formulation. Constrained and unconstrained optimization. Sensitivity analysis. Approximate techniques. FEM-based optimal design of mechanical and aerospace structures. Cross-listed as MAE 521. Credit is allowed for only CEE 533 or MAE 521. Prerequisite: instructor approval.

CEE 536 Structural Dynamics. (3) N Structures and structural members subjected to dynamic loadings, response spectra theory applications to bridges and power plants, investigations of the responses of multidegree of freedom structures, and matrix and numerical methods of analysis. Lecture, recitation. Prerequisites: CEE 321; instructor approval.

CEE 537 Topics in Structural Engineering. (1–3) N Advanced topics, including nonlinear structural analysis, experimental stress analysis, advanced finite elements, plasticity and viscoelasticity, composites, and damage mechanics. Prerequisite: instructor approval.

CEE 540 Groundwater Hydrology. (3) F Physical properties of aquifers, well pumping, subsurface flow modeling, unsaturated flow, numerical methods, land subsidence, and groundwater pollution. Prerequisite: CEE 440 or instructor approval.

CEE 541 Surface Water Hydrology. (3) S Hydrologic cycle and mechanisms, including precipitation, evaporation, and transpiration; hydrograph analysis; flood routing; statistical methods in hydrology and hydrologic design. Prerequisite: CEE 440 or instructor approval.
CEE 543 Water Resources Systems. (3) F
Theory and application of quantitative planning methodologies for the
design and operation of water resources systems; class projects using a
computer; case studies. Pre- or corequisite: instructor approval.

CEE 546 Free Surface Hydraulics. (3) S
Derivation of 1-dimensional equations used in open channel flow anal-
ysis; computations for uniform and nonuniform flows, unsteady flow,
and flood routing. Mathematical and physical models. Prerequisite:
CEE 341.

CEE 547 Principles of River Engineering. (3) N
Uses of rivers, study of watershed, and channel processes. Sediment
sources, yield, and control; hydrologic analysis. Case studies. Prereq-
usite: CEE 341 or instructor approval.

CEE 548 Sedimentation Engineering. (3) N
Introduction to the transportation of granular sedimentary materials by
moving fluids. Degradation, aggregation, and local scour in alluvial
channels. Mathematical and physical models. Prerequisite: CEE 547
or instructor approval.

CEE 550 Soil Behavior. (3) N
Physicochemical aspects of soil behavior, stabilization of soils, and
engineering properties of soils. Prerequisite: CEE 351.

CEE 551 Advanced Geotechnical Testing. (3) N
Oblender, triaxial (static and cyclic) back pressure saturated and
unsaturated samples, pore pressure measurements, closed-loop
computer-controlled testing, in-situ testing, and sampling. Lecture, lab.
Prerequisite: CEE 351.

CEE 552 Geological Engineering. (3) N
Geological investigations for engineering purposes, case histories,
geologic structure, weathering, remote sensing, geophysics, and air
photo interpretation for engineering site locations. Lecture, field trips.
Prerequisite: CEE 351.

CEE 553 Advanced Soil Mechanics. (3) N
Application of theories of elasticity and plasticity to soils, theories of
consolidation, failure theories, and response to static and dynamic
loading. Prerequisite: CEE 351.

CEE 554 Shear Strength and Slope Stability. (3) N
Shear strength of saturated and unsaturated soils strength-deforma-
tion relationships, time-dependent strength parameters, effects of
sampling, and advanced slope stability. Prerequisite: CEE 351.

CEE 555 Advanced Foundations. (3) N
Deep foundations, braced excavations, anchored bulkheads, rein-
forced earth, and underpinning. Prerequisite: CEE 351.

CEE 557 Hazardous Waste: Site Assessment and Mitigation Mea-
sures. (3) N
Techniques for hazardous waste site assessment and mitigation.
Case histories presented by instructor and guest speakers. Prerequi-
tes; graduate standing; instructor approval.

CEE 559 Earthquake Engineering. (3) N
Characteristics of earthquake motions, selection of design earth-
quakes, response analyses, seismic slope stability, and liquefac-
tion. Prerequisite: CEE 351.

CEE 560 Soil and Groundwater Remediation. (3) F
Techniques for remediation of contaminated soils and groundwaters
are presented with basic engineering principles. Prerequisite: instruc-
tor approval.

CEE 561 Physical-Chemical Treatment of Water and Waste. (3) F
Theory and design of physical and chemical processes for the treat-
ment of water and waste waters. Prerequisite: CEE 361.

CEE 562 Environmental Biochemistry and Waste Treatment. (3) S
Theory and design of biological waste treatment systems. Pollution
and environmental assimilation of wastes. Prerequisite: CEE 362.

CEE 563 Environmental Chemistry Laboratory. (3) F
Analysis of water, domestic and industrial wastes, laboratory proce-
dures for pollution evaluation, and the control of water and waste treat-
ment processes. Lecture, lab. Prerequisite: CEE 361.

CEE 565 Modeling and Assessment of Aquatic Systems. (3) N
Development of predictive models of water quality; methods to assess
environmental impacts; applications to water quality management.
Prerequisite: CEE 361 or instructor approval.

CEE 566 Industrial/Hazardous Waste Treatment. (3) N
Emphasis on treatment of local industrial/hazardous waste problems,
including solvent recovery and metals. Lecture, project. Prerequisites:
CEE 561, 563.

CEE 573 Traffic Engineering. (3) N
Driver, vehicle, and roadway characteristics, laws and ordinances,
traffic control devices, traffic engineering studies, and Transportation
System Management measures. Prerequisite: CEE 372.

CEE 574 Highway Capacity. (3) N
Highway capacity for all functional classes of highways. Traffic signal-
ization, including traffic studies, warrants, cycle length, timing, phas-
ing, and coordination. Prerequisite: CEE 372.

CEE 575 Traffic Flow Theory and Safety Analysis. (3) N
Traffic flow theory; distributions, queueing, delay models, and car-fol-
lowing. Highway safety; accident records system, accident analysis,
identifying problem locations, and accident countermeasures. Prereq-
usite: CEE 573 or 574.

CEE 577 Urban Transportation Planning. (3) N
Application of land use parameters traffic generation theory, traffic dis-
tribution and assignment models, transit analysis, and economic fac-
tors to the solution of the urban transportation problem. Prerequisite:
CEE 372.

CEE 580 Practicum. (1–12) N

CEE 590 Reading and Conference. (1–12) N

CEE 592 Research. (1–12) N

CEE 599 Thesis. (1–12) N

CEE 792 Research. (1–15) N

CEE 799 Dissertation. (1–15) N

Students enrolled in CEE 580, 590, 592, 599, 792, and 799 are
required to attend graduate student seminars at the times shown in
the Schedule of Classes. Each semester, every graduate student
enrolled for more than eight semester hours is to enroll for at least one
semester hour of CEE 592, 599, 792, or 799.

Omnibus Graduate Courses. See page 57 for omnibus graduate
courses that may be offered.

The Hugh Downs School of Human Communication
strives to advance the understanding of message-related
human behavior, for the purpose of improving communica-
tive interactions. Teaching, research, and service are
directed to the continued development of knowledge and
application of the principles of communication. Courses of
study are designed to provide students with relevant
programs adapted to individual academic and professional goals.

MASTER OF ARTS

Faculty in the Hugh Downs School of Human Communication offer a program leading to the M.A. degree in Communication. Current areas of study within the major are intercultural communication, interpersonal communication, performance studies, organizational communication, and rhetoric.

Admission Requirements. Admission is competitive, based upon evidence of the applicant’s scholarly and research abilities. All applicants must submit the following:

1. a Graduate College application, completed either online or on paper, along with official undergraduate and graduate transcripts;
2. a statement of professional goals (approximately 500 words);
3. Graduate Record Examination scores (verbal, quantitative, and analytical) taken within the past five years, plus other relevant test data provided by the applicant;
4. three letters of recommendation prepared within the preceding 12 months;
5. an optional writing sample; and
6. all applicants whose native language is not English must submit scores from the Test of English as a Foreign Language (TOEFL). Minimum scores are 550 on the paper and pencil version of this test or 213 on the computer version of this test. The Hugh Downs School of Human Communication also requires a minimum score of 230 on the Test of Spoken English.

A completed application for admission and two transcripts of all undergraduate and graduate work must be submitted to the Graduate Admissions Office. See “Admission to the Graduate College,” page 92, for Graduate College general requirements. All application materials must be received by February 1.

Program of Study. The program consists of a minimum of 30 semester hours of graduate course work, which includes six semester hours of thesis credit. All students must successfully complete the following:

1. COM 501 Research Methods in Communication with a minimum grade of “B”;
2. COM 504 Theories and Models in Communication with a minimum grade of “B”;
3. at least one of the following three courses: COM 508 Quantitative Research Methods in Communication, COM 509 Qualitative Research Methods in Communication, or COM 521 Rhetorical Criticism of Public Discourse with a minimum grade of “B”;
4. at least three content seminars;
5. a written comprehensive examination on theory and methodology, and an area of study (an oral examination may be required); and
6. a thesis, which is an account of original research, and an oral examination in defense of the thesis.

Applicants with undergraduate deficiencies must remove such deficiencies, and these courses do not count toward the master’s degree. The student’s program of study is the mutual responsibility of the student and the supervisory committee. A foreign language is not required, but is encouraged as appropriate. Descriptions of current program options and requirements are available from the Hugh Downs School of Human Communication, STAUF A412.

RESEARCH ACTIVITY

Faculty members in the Hugh Downs School of Human Communication are dedicated to conducting and reporting quality research. The Communication Research Consortium assists faculty and graduate students in planning and conducting independent and interdisciplinary research. Typical research topics studied by members of the faculty include the following: communication and culture, messages as organizational products, privacy rules in interpersonal communication, the role of attitude and cultural similarity in the development of interpersonal relationships, the role of communication in intimate relationships, the performance of culture, the communication of oral traditions, the development of critical theory, the development of communication networks, intercultural communication competence, communication in small groups, communication with aging populations, discourse in organizational settings, and the influence of rhetorical discourse upon social issues.

COMMUNICATION (COM)

COM 400 CIP: Communication in Professions. (3) F, S, SS
Specialized study of communication processes in professional and organizational settings. May be repeated for credit.
   (a) Asian Pacific American Arts and Cultures. (3) F, S
   Exploration of Asian Pacific American cultural expression in art, literature, film, theatre, dance, and music. Lecture, discussion. Cross-listed as APA 310. Credit is allowed for only APA 310 or COM 400.
   (b) Asian Pacific Americans and Media. (3) F
   Analysis of social construction of Asian Pacific American media images and resistance to those images in various historical contexts. Lecture, discussion. Cross-listed as APA 340. Credit is allowed for only APA 340 or COM 400.
   Prerequisites: COM 100 and 225 or COM 259; 2.25 GPA.

COM 404 Research Apprenticeship. (3) S
Direct research experience on faculty projects. Student/faculty match based on interests. Lecture, apprenticeship. Prerequisites: COM 308 (or instructor approval); application required.

COM 407 Advanced Critical Methods in Communication. (3) S
Examination of critical approaches relevant to communication, including textuality, social theory, cultural studies, and ethnography. Lecture, discussion. Prerequisite: COM 308.

COM 408 Quantitative Research Methods in Communication. (3) F, S
Advanced designs, measurement techniques, and methods of data analysis of communication research. Prerequisites: COM 308 and a generic statistics course (EDP 454 or POS 401 or PSY 230 or QBA 221 or SOC 390 or STP 226) or instructor approval.

COM 410 Interpersonal Communication Theory and Research. (3) F, S, SS
Survey and analysis of major research topics, paradigms, and theories dealing with message exchanges between and among social peers. Prerequisites: COM 110 (or 310) and 308 or instructor approval. General Studies: SB.

COM 411 Communication in the Family. (3) A
A broad overview of communication issues found in marriage and family life, focusing on current topics concerning communication in the family. Prerequisites: COM 110 (or 310) and 207 or instructor approval. General Studies: SB.

COM 414 Crisis Communication. (3) N
Role of communication in crisis development and intervention.
COM 417 Communication and Aging. (3) N
Critical study of changes in human communicative patterns through the later adult years, with attention on intergenerational relationships and self-concept functions.

COM 421 Rhetoric of Social Issues. (3) F, S
Critical rhetorical study of significant speakers and speeches on social issues of the past and present. Prerequisites: COM 308 and 321 or instructor approval. General Studies: HU.

COM 422 Advanced Argumentation. (3) N
Advanced study of argumentation theories and research as applied to public forum, adversary, scholarly, and legal settings. Prerequisite: COM 222 or instructor approval.

COM 426 Political Communication. (3) F
Theories and criticism of political communication, including campaigns, mass persuasion, propaganda, and speeches. Emphasis on rhetorical approaches. General Studies: SB.

COM 430 Leadership in Group Communication. (3) N
Theory and process of leadership in group communication, emphasizing philosophical foundations, contemporary research, and applications to groups situations. Prerequisite: COM 230 or instructor approval.

COM 441 Performance Studies. (3) F, S, SS
Theorv, practice, and criticism of texts in performance. Emphasis on the interaction between performer, text, audience, and context. Prerequisites: COM 241 and 308 or instructor approval. General Studies: HU.

COM 445 Narrative Performance. (3) N
Theory and practice of performing narrative texts (e.g., prose fiction, oral histories, diaries, essays, letters). Includes scripting, directing, and the rhetorical analysis of story telling. Prerequisite: COM 241 or instructor approval. General Studies: HU.

COM 446 Interpretation of Literature Written by Women. (3) N
Students explore, through performance and critical writing, literature written by women. General Studies: HU, C.

COM 450 Theory and Research in Organizational Communication. (3) F, S, SS
Critical review and analysis of the dominant theories of organizational communication and their corollary research strategies. Prerequisites: COM 250 and 308 or instructor approval. General Studies: SB.

COM 453 Communication Training and Development. (3) A
Examination of the procedures and types of communication training and development in business, industry, and government. Prerequisite: COM 250 or instructor approval.

COM 463 Intercultural Communication Theory and Research. (3) F, S, SS
Survey and analysis of major theories and research dealing with communication between people of different cultural backgrounds, primarily in international settings. Lecture, discussion, small group work. Prerequisites: COM 263 and 308 or instructor approval. General Studies: SB, G.

COM 465 Intercultural Communication Workshop. (3) N
Experientially based study of communication between members of different cultures designed to help students improve their intercultural communication skills. Prerequisite: instructor approval.

COM 480 Methods of Teaching Communication. (3) N
Analysis, organization, and presentation of textual and other classroom materials. Prerequisite: instructor approval.

COM 494 Special Topics. (1–3) F, S, SS
COM 501 Research Methods in Communication. (3) F
Critical analysis of systems of inquiry in communication, focusing on the identification of variables and approaches to conducting research in communication. Prerequisite: instructor approval.

COM 504 Theories and Models in Communication. (3) F
Theory construction, metatheoretical concerns, models, construct definition, and comparative analysis of current theories in communication. Prerequisite: instructor approval.

COM 508 Quantitative Research Methods in Communication. (3) F
Empirical research designs, measurements, and statistical strategies and techniques in analyzing and evaluating experimental and descriptive research in communication. Prerequisites: COM 501 and 504 or instructor approval.

COM 509 Qualitative Research Methods in Communication. (3) S
Qualitative research methods, including interviewing, field methods, and other nonquantitative techniques for analyzing communication. Prerequisites: COM 501 and 504 or instructor approval.

COM 510 Interpersonal Communication Theory and Research. (3) A
Contemporary theories and research in interpersonal communication. Prerequisites: COM 501 and 504 or instructor approval.

COM 512 Death, Society, and Human Experience. (3) N
Examines dying, death, bereavement, and suicide from both individual and sociocultural perspectives in terms of options for communication and action in death-related situations. Prerequisite: instructor approval.

COM 521 Rhetorical Criticism of Public Discourse. (3) N
History and significance of rhetorical theory and criticism in the analysis of public discourse. Prerequisites: COM 501 and 504 or instructor approval.

COM 584 Communication Internship. (1–12) F, S, SS
COM 596 Pro-Seminar in Communication. (0) F
Discussion of research projects with the faculty. Prerequisite: admission to the graduate program.

COM 604 Theory Construction in Communication. (3) F
Review and analysis of philosophical problems inherent in communi cative research and of metatheories designed to deal with these problems. Prerequisite: COM 504 or instructor approval.

COM 607 Contemporary Rhetorical Methods. (3) S
Analysis of issues in the practice of rhetorical communication research, including criticism and scholarship. Seminar.

COM 608 Multivariate Statistical Analysis of Data in Communication. (3) S
Statistical analysis of communication research data. Multivariate procedures used in communication research and methods of causal analysis. Prerequisites: COM 501 and 508 or equivalents.

COM 609 Advanced Qualitative Research Methods in Communication. (3) F
Analysis of issues in the practice of qualitative communication research, including data gathering, fieldwork issues, analysis strategies, and reporting results. Prerequisite: COM 509 or instructor approval.

COM 680 Practicum: Research in Communication. (3) S
Guided practice in the conduct of communication research. Topic identification, procedures, formats, and ethics of publishing. Prerequisite: COM 604.

COM 691 Seminar. (3) F, S, SS
Seminar topics such as the following may be offered:
(a) Current Organizational Approaches to Communication
(b) Examination of Privacy and Disclosure
(c) Intercultural Aspects of Communication
(d) Interpersonal and Relational Communication
(e) Research in Performance Studies
(f) Rhetorical Issues
(g) Social Influence
Lecture, discussion. Prerequisite: instructor approval.

COM 792 Research. (1–12) N
COM 799 Dissertation. (1–15) N
Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

DOCTOR OF PHILOSOPHY

The Committee of Faculty offers an interdisciplinary graduate program leading to the Ph.D. degree in Communication. Concentrations are available in communicative development, intercultural communication, and organizational communication.

The program is designed to prepare scholars for research-oriented careers in universities and in the public or private sectors. Students are provided training in communication theory, research methodology, and a specialization in one or more areas of concentration. The goal of the program is to meet the needs of students whose interests transcend traditional disciplinary boundaries.

See “Doctor of Philosophy,” page 104, for general requirements.

Admission Requirements. Admission to the program is competitive. Applications are considered once a year for fall admission. Applicants must have earned either a bachelor’s or master’s degree and must present evidence of scholarly writing (e.g., an undergraduate honors thesis, a master’s thesis, or their equivalent). All applicants should be knowledgeable in the basic principles of both qualitative and quantitative methods of research, social statistics, and communication theory. If course work in these areas has not been completed, admitted students are required to successfully complete COM 501 Research Methods in Communication and COM 504 Theories and Models in Communication (plus any other courses stipulated by the admissions committee) before enrolling in the required theory and methodology sequence. Knowledge in statistics must be demonstrated either by completion of a graduate-level statistics course within two years before admission to the program, by completion of COM 508 within the first two years of course work, or by some other option approved by the director of the doctoral program. In addition to meeting the minimum Graduate College admission requirements, the applicant’s scholastic and professional record must indicate special interest in and aptitude for systematic research in communication. All applicants must submit the following:

1. a completed Graduate College application and official undergraduate and graduate transcripts;
2. a formal curriculum vitae, including a statement of career goals and the relevance of this degree program to those goals;
3. Graduate Record Examination (GRE) scores (verbal, quantitative, and analytical) taken within the past five years, plus other relevant test data volunteered by the applicant;
4. three letters of recommendation written within the preceding 12 months, including at least one letter from a previous faculty member;
5. a sample of writing (e.g., master’s thesis, course paper); and
6. A minimum score of 600 on the Test of English as a Foreign Language and a minimum score of 230 on the Test of Spoken English for all applicants whose native language is not English.

All application materials must be in the program office by January 15 to be considered. Late applications are not processed.

Supervisory/Dissertation Committee. This committee consists of a chair and at least two other members appointed by the dean of the Graduate College based upon the director’s recommendation. At least two-thirds of the committee must be full-time faculty at the ASU Main Campus and at least two-thirds of the committee must be from the communication faculty. At least one member must be from an academic discipline outside of communication. The chair of the supervisory committee, who serves as the student’s advisor, must be knowledgeable in the student’s area of concentration, have an active research agenda, publish regularly in appropriate refereed academic journals, and be experienced in graduate education. Members of the committee must represent more than one academic discipline. The purpose of the committee is to guide the student through the completion of the program of study, the comprehensive examinations, and the dissertation research.

Areas of Concentration. Students admitted to the program select a formal area of concentration in any of the three broad areas of communicative development, intercultural
communication, and organizational communication. However, the interdisciplinary nature of the program and breadth of its faculty allow students to design individual programs of study geared toward more specialized topics in human communication. As a rule, these cut across the formal areas of concentration and generally follow the areas of expertise of program faculty. Program graduates study areas such as interpersonal communication, organizational communication, performance studies, rhetoric, critical/cultural studies, relational communication, and information technology. Contact the director for an up-to-date list of program faculty and their areas of interest.

**Communicative Development.** This area of concentration includes the study of communicative behaviors and functions as they evolve and change over time. Students in this area study the role of communication in interpersonal processes, performance studies, and rhetoric.

**Intercultural Communication.** The theoretical relationship between culture and communication is the focus of this area of concentration. Students in this area study the effects of cultural/ethnic differences and similarities on a wide range of communication processes. Students may also explore the communication of culture and ethnicity.

**Interpersonal Communication.** This area of concentration examines the role of communication in the development, maintenance, and termination of interpersonal relationships. Students in this area study relationship development, the role of emotions in communication and relationships, social influence, conflict, and marital and family communication, among other topics.

**Organizational Communication.** This area of concentration examines the role of communicative processes and systems in public and private organizations with an emphasis on the interaction between organizational participants and organizational structures, practices, informational channels, networks, and message forms.

Because of the interdisciplinary nature of the Ph.D. program, students may explore relevant course work in disciplines such as communication, social and development psychology, family studies, educational psychology, cultural anthropology, comparative sociology, linguistics, justice studies, industrial psychology, management, and public administration, among others.

**Program of Study.** If the student has completed an appropriate master’s degree, the Ph.D. requires a minimum of 60 hours beyond the master’s degree. Course work for a typical program of study is distributed as follows: required core courses (19 semester hours), area of concentration (27 semester hours), dissertation (COM 799) and research (COM 792) (24 semester hours) for a total of 60 hours (minimum). Four interdisciplinary theory and methodology courses, taken in sequence, are required of all students entering the program. The required theory course is COM 604 Theory Construction in Communication. Students are also required to take COM 792 Practicum: Research in Communication. In addition, students must take two of the three methods courses, which consist of COM 607 Contemporary Rhetorical Methods, COM 608 Multivariate Statistical Analysis of Data in Communication, and COM 609 Advanced Qualitative Research Methods in Communication.

In addition to the three-hour section of COM 792 described above, students are required to complete at least three additional hours of 792. Products of at least one 792 course are presented in a public colloquium. The student is also required to demonstrate proficiency in research methods (statistics, computer languages, content analysis methods, participant observation, etc.) which, in the judgment of the supervisory committee, is needed for the student’s dissertation research. Evidence of required proficiency may be demonstrated by established university examination procedures or by successful completion of a sequence of courses designated by the student’s program committee.

For students who have completed only the bachelor’s degree before admission to the Ph.D. program, a minimum of 84 hours of interdisciplinary graduate work is required for the program, with the same 60-hour requirement for students with the master’s degree. The initial course work for students admitted with only a bachelor’s degree is similar to the M.A. degree requirements in Communication except that no thesis is required. These requirements include a general overview of research in communication (COM 501), an overview of theories and models of communication (COM 504), a statistics course (COM 508), and electives from communication or other disciplines to total 24 hours of course work. The methods, theory, and statistics courses must be completed before beginning the required theory and methodology sequence for the Ph.D. (i.e., they are prerequisites for the required courses).

**Foreign Language Requirements.** None.

**Comprehensive Examinations.** Upon completion of course work and before the formal approval of the dissertation proposal, the student is examined in the relevant area of concentration and research methods. The examination consists of written and oral components designed to test the student’s interdisciplinary knowledge in the field and chosen area of concentration and the student’s readiness to undertake interdisciplinary dissertation research. The examination is conducted by the student’s supervisory committee.

**Admission to Candidacy.** After the student has passed both the written and oral portions of the comprehensive examination and the student’s dissertation topic has been approved, the student may apply to the Graduate College for admission to candidacy. Before admission to candidacy, it is expected that the student have completed a mixture of academic experiences, including formal course work, participation in doctoral seminars, research with faculty, and independent research that are related to the topic of the dissertation and lead up to the dissertation. It is also expected that students have been exposed to both quantitative and qualitative methods of research before candidacy. No dissertation hours (COM 799) may be taken before admission to candidacy, but six hours of research (COM 792) may be taken before admission to candidacy. Students must enroll for 12 hours of research (COM 792)/dissertation (COM 799) credit following the semester in which they are advanced to candidacy.

**Dissertation Proposal.** Before conducting the research for the dissertation, each student must submit a dissertation proposal that is defended orally and approved by the student’s dissertation committee.
Research and Dissertation. The dissertation consists of a fully documented written analysis of a problem that extends the knowledge and/or theoretical framework of the field and reflects the student’s creativity and competence in independent, interdisciplinary research using an appropriate research methodology.

Final Examinations. An oral examination in defense of the dissertation, conducted by the dissertation committee, is required.

RESEARCH ACTIVITY

Members of the Committee of Faculty are engaged in a variety of research activities. Among others, the following represent research interests of the faculty approved to direct dissertations: the role of communication in creating organizational cultures, the process of social influence, explaining communication in interpersonal and intergroup encounters, the development of interpersonal relationships, the role of subjective culture in the attribution of meaning, the development of communication competencies, privacy regulation, cross-cultural variations in interpersonal communication, identity-validation in intergroup encounters, communication networks, the impact of newer information technologies in organizations, the role of communication in response to disasters, and communication in multinational corporations.

MASTER OF SCIENCE

The faculty in the Department of Speech and Hearing Science offer a program leading to the M.S. degree in Communication Disorders. Thesis and nonthesis degree options are available, and students may study either speech-language pathology or audiology. The program is accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association.

Admission Requirements. Students applying for admission to this program should have their undergraduate transcripts mailed to the Graduate Admissions Office. In addition, candidates should have their Graduate Record Examination scores, a statement of professional and academic goals not to exceed 200 words, and three letters of recommendation sent to the Department of Speech and Hearing Science. All materials must be received in the department by January 15 for fall admission which is the only term in which students may begin their program of study. Candidates who have undergraduate deficiencies may need to take required prerequisite courses.

Academic Requirements. A student must complete a minimum of 30 or 33 semester hours of graduate course work, exclusive of credit for practicum, approved by the supervisory committee.

Statistical Proficiency Requirements. A student pursuing the M.S. degree must provide satisfactory evidence of competency in statistical methods appropriate to the behavioral sciences.

Clinical Requirements. A student in the M.S. program must complete at least 375 clock hours of supervised clinical practicum experience, of which a minimum of 250 clock hours must be obtained at the graduate level.

Thesis Option. Students wishing to pursue the thesis option will complete 30 semester hours of course work, six hours of which must be thesis credit, excluding practicum and internship hours. The thesis must meet requirements established by the Graduate College.

Nonthesis Option. Students choosing the nonthesis option will complete 33 semester hours of course work, excluding practicum and internship hours.

Final Examinations. For a candidate for the M.S. degree (thesis option), two final examinations are required: (1) the National Teacher Examination in speech pathology, or the National Teacher Examination in audiology, administered by Educational Testing Service and available at ASU through the University Testing Service, and (2) an oral defense of the thesis. For a candidate for the M.S. degree (nonthesis option), two final examinations are required: (1) the National Teacher Examination in speech pathology, or the National Teacher Examination in audiology, administered as described above, and (2) a four-hour comprehensive written examination administered in October and March of each year by the departmental graduate faculty.

Students should expect to spend two years completing the academic, practicum and research requirements for either degree option.

RESEARCH ACTIVITY

The faculty and students in the Department of Speech and Hearing Science maintain active research programs. Students are encouraged to conduct research during their entire graduate program.

The department maintains the equipment and facilities for a full range of research in both speech pathology and audiology. Areas in which active research programs are under way include: oral sensory physiology; aphasia and neurogenic communication disorders; speech perception in
normal and hearing-impaired populations; speech synthesis; pediatric and adult aural rehabilitation; voice disorders; phonological development and disorders; childhood language acquisition; stuttering; central auditory dysfunction; electrophysiological assessment of auditory function in infants and neurologically impaired individuals; psychoacoustics; and language disorders in infants, preschool, and school-age children.

SPEECH AND HEARING SCIENCE (SHS)

SHS 401 Introduction to Audiologic Evaluation. (3) F Measurement of the basic audiologic test battery, including audiograms, immittance, masking, and speech recognition. Prerequisites: SHS 311 and 376 and 384 or equivalents.

SHS 402 Modifying Communicative Behavior. (3) S Principles and techniques of modifying speech and language behavior. Prerequisite: SHS 250 or equivalent.

SHS 465 Speech and Language Acquisition. (3) S, SS Speech and language development in the normal child. Prerequisite: SHS 367 or equivalent. General Studies: SB.

SHS 485 Acquired Speech and Language Disorders. (3) S Introduction to acquired speech and language disorders across the lifespan. Prerequisites: SHS 250, 310.

SHS 495 Aural Rehabilitation. (3) S Approaches to aural rehabilitation of children and adults. Introduction to educational audiology and assistive listening devices. Prerequisites: SHS 375 and 376 or 401 or equivalents.

SHS 501 Introduction to Audiologic Evaluation. (3) F Measurement of the basic audiologic test battery, including audiograms, immittance, masking, and speech recognition. Prerequisites: SHS 311 and 376 and 384 or equivalents.

SHS 502 Differential Diagnosis for Audiology. (4) F Differential diagnosis of cochlear and retrocochlear disorders, and assessment of vestibular system. 3 hours lecture, 2 hours lab. Prerequisite: SHS 401 or 501 or equivalent.

SHS 504 Hearing Aids. (4) S Operation, application and fitting of amplification devices for the hearing impaired. 3 hours lecture, 2 hours lab. Prerequisite: SHS 401 or 501 or equivalent.

SHS 508 Pediatric Audiology. (3) F Audiologic assessment, screening, and development considerations for infants and young children. Prerequisite: SHS 401 or 501 or equivalent.

SHS 511 Auditory Perception by the Hearing Impaired. (3) F A study of how and why sensorineural hearing loss alters the perception of sound. Prerequisite: SHS 376 or instructor approval.

SHS 512 Medical Aspects of Speech and Hearing. (3) F Correlation of history and physical findings with pathologic physiology and test results in speech and hearing abnormalities.

SHS 515 Audiologic Instrumentation and Calibration. (3) S Electronic instruments used to produce, modify, and measure characteristics of sound. Measurement standards and methods for calibration of audioligic equipment. Lecture, lab. Prerequisite: SHS 401 or 501 or equivalent.

SHS 516 Auditory Evoked Potentials. (4) S Continuation of SHS 502, including electrophysiologic assessment of peripheral and central auditory nervous system. Lecture, lab, Prerequisite: SHS 502.

SHS 545 Speech Perception by the Hearing Impaired. (3) F Speech perceptual problems of the hearing impaired including those who have cochlear implants. Prerequisite: SHS 375 or instructor approval.

SHS 552 Otoacoustic Emissions as a Diagnostic Tool. (3) F Study of the types of otoacoustic emissions, their theoretical implications and application to clinical diagnostics. Lecture, discussion, lab. Prerequisite: SHS 376 or instructor approval.

SHS 555 Cochlear Implants. (3) S Current status of cochlear implant research and development. Prerequisites: SHS 504 and 545 or instructor approval.

SHS 565 Speech and Language Acquisition. (3) S Speech and language development in the normal child. Prerequisite: SHS 367 or equivalent.

The faculty in the Department of Computer Science and Engineering offer a professional program leading to the Master of Computer Science (M.C.S.) degree. The M.C.S. program provides a professionally oriented, graduate-level education in computer science and engineering. The program reflects the dual nature of computer science as both a scientific and engineering discipline by allowing emphasis on theory as well as practical applications. Students can study topics such as artificial intelligence, computer-aided geometric design, computer architecture, computer graphics, computer science theory, database concepts, digital systems design, distributed systems, language processing, networking, operating systems, and software engineering.

Admission. An applicant for the M.C.S. program should normally have a baccalaureate degree in computer science, computer engineering, or a closely related area. The applicant’s undergraduate GPA, GRE (verbal, quantitative, and analytical) score, and depth of preparation in computer science and engineering are the primary factors affecting admission. The GRE subject test in computer science is optional. An international student must also submit the results of the TOEFL. The application deadline for admission in the fall semester is January 15, and September 1 for the spring semester. See “Admission to the Graduate College,” page 92.

Program of Study. Each student defines a potentially unique program of study in conjunction with an advisor, subject to approval of the department and the Graduate College. The program of study must include courses in four focus areas, at least nine credit hours in a research area, and a minimum of 30 semester hours of approved graduate-level course work (including a thesis). At least 21 semester hours must be formal course work, and at least 18 hours must be CSE 500-level credits (excluding CSE 598). The department may prescribe additional courses based on the background of the candidate. No foreign language is required.

Final Examinations. The student must pass a final oral examination in defense of the thesis and over the course work taken for the degree and the appropriate undergraduate prerequisites.

MASTER OF COMPUTER SCIENCE

The faculty in the Department of Computer Science and Engineering offer a professional program leading to the Master of Computer Science (M.C.S.) degree. The M.C.S. program provides a professionally oriented, graduate-level education in computer science and engineering. The program reflects the dual nature of computer science as both a scientific and engineering discipline by allowing emphasis on theory as well as practical applications. Students can study topics such as artificial intelligence, computer-aided geometric design, computer architecture, computer graphics, computer science theory, database concepts, digital systems design, distributed systems, language processing, networking, operating systems, and software engineering.

Admission. An applicant for the M.C.S. program should normally have a baccalaureate degree in computer science, computer engineering, or a closely related area. The applicant’s undergraduate GPA, GRE (verbal, quantitative, and analytical) score, and depth of preparation in computer science and engineering are the primary factors affecting admission. The GRE subject test in computer science is optional. An international student must also submit the results of the TOEFL. The application deadline for admission in the fall semester is January 15, and September 1 for the spring semester. See “Admission to the Graduate College,” page 92.

Program of Study. Each student defines a potentially unique program of study subject to approval by the department and the Graduate College. The program of study must include courses in four focus areas, at least nine credit hours in a research area, and a minimum of 30 semester hours of approved graduate-level course work. At least 18 hours must be CSE 500-level credits (excluding CSE 598), and at least 27 hours must be for formal course work. A three-semester hour course, CSE 593 Applied Project, is also required. The department may prescribe additional courses based on the background of the candidate.

Foreign Language Requirements. None.

Thesis Requirements. None.

Final Examinations. M.C.S. students must complete a graded final project (CSE 593) and submit a report on the project.
DOCTOR OF PHILOSOPHY

The Ph.D. degree in Computer Science is available for students of high ability who show promise for original research.

Admission. An applicant for the Ph.D. program should have the equivalent of a baccalaureate major in computer science, computer engineering, or a closely related area. Most applicants should have earned the master’s degree, but applicants with exceptional attainments in their baccalaureate are admitted directly into the Ph.D. program. The primary factors affecting admission include the applicant’s GPA, depth of preparation in computer science and engineering, GRE (verbal, quantitative, analytical, and computer science) scores, a statement of purpose and three letters of recommendation. An international student must submit TOEFL scores. The application deadline for admission in the fall semester is March 15, and the deadline for admission in the spring semester is October 15. See “Doctor of Philosophy,” page 104, for general requirements.

Residency. In addition to the Graduate College’s requirement for one year of full-time residency, the Department of Computer Science and Engineering stipulates one additional year of full-time residency for dissertation research.

Program of Study. Each student must file a program of study for approval by the supervisory committee, the department, and the Graduate College.

Foreign Language Requirements. None. The program committee, however, may establish a requirement depending upon the research interests of the candidate.

Comprehensive Examinations. A student must pass a comprehensive examination, which has a mandatory written component, before being admitted to candidacy. The exam will have both oral and written components, testing the student’s general knowledge in the dissertation area as well as closely related areas. International students must achieve a passing score on the TSE/SPEAK exam prior to comprehensive examinations.

Dissertation Requirements. A student must complete a dissertation based on original work to demonstrate creativity in research and scholarly proficiency in the subject area.

Final Examinations. The student must pass a final oral examination in defense of the dissertation.

RESEARCH ACTIVITY

The faculty of the Computer Science and Engineering Department participate in a wide variety of both theoretical and applied research projects involving many aspects of both software and hardware. Current research topics include software engineering, graphics, computer-aided geometric design, microprocessor applications, digital system design, real-time embedded systems, declarative languages, computational linguistics, compilers, operating systems, distributed operating systems, database concepts, distributed architectures, parallel architectures, data structures, artificial intelligence, strategic decision systems, algorithms, networking and network security.

The Department of Computer Science and Engineering maintains various instructional laboratories with UNIX workstations (Sun, Silicon Graphics, DEC, etc.), Pentium PCs, and Macintosh computers. These laboratories support special applications required for various computer science courses not available elsewhere on the ASU campus. The department has a VLSI design laboratory and two microprocessor laboratories for both Intel and Motorola processors. The department has various research laboratories with equipment directed to specific applications in addition to regular computer facilities. All computers in the department are networked, with some of the research laboratories equipped with ATM and 100 Mb/s fast Ethernet. The College of Engineering and Applied Sciences provides various servers to support client/server applications and development in the department. All computers in the department are connected through networking to Information Technology at ASU. See “Computing Facilities and Services,” page 37, for information concerning equipment and services provided by IT.

COMPUTER SCIENCE AND ENGINEERING (CSE)

CSE 408 Multimedia Information Systems. (3) F
Design, use, and applications of multimedia systems. An introduction to acquisition, compression, storage, retrieval, and presentation of data from different media such as images, text, voice, and alphanumeric. Prerequisite: CSE 310.

CSE 412 Database Management. (3) F, S
Introduction to DBMS concepts. Data models and languages. Relational database theory. Database security/integrity and concurrency. Prerequisite: CSE 310.

CSE 420 Computer Architecture I. (3) S

CSE 421 Microprocessor System Design I. (4) F, S
Assembly-language programming and logical hardware design of systems using 8-bit microprocessors and microcontrollers. Fundamental concepts of digital system design. Reliability and social, legal implications. Lecture, lab. Prerequisite: CSE/EEE 225.

CSE 422 Microprocessor System Design II. (4) F, S
Design of microcomputer systems using contemporary logic and microcomputer system components. Requires assembly language programming. Prerequisite: CSE 421.

CSE 423 Microcomputer System Hardware. (3) S
Information and techniques presented in CSE 422 are used to develop the hardware design of a multiprocessor, multiprogramming, microprocessor-based system. Prerequisite: CSE 422. General Studies: L.

CSE 426 Computer-Aided Processes. (3) A
Hardware and software considerations for computerized manufacturing systems. Specific concentration on automatic inspection, numerical control, robotics, and integrated manufacturing systems. Prerequisite: CSE 330.

CSE 430 Operating Systems. (3) F, S
Operating system structure and services, processor scheduling, concurrent processes, synchronization techniques, memory management, virtual memory, input/output, storage management, and file systems. Prerequisites: CSE 330, 340.

CSE 434 Computer Networks. (3) F, S
Cryptography fundamentals; data compression; error handling; flow control; multipath routing; network protocol algorithms; network reliability, timing, security; physical layer basics. Prerequisite: CSE 330.

CSE 438 Systems Programming. (3) A
Design and implementation of systems programs, including text editors, file utilities, monitors, assemblers, relocating linking loaders, I/O handlers, and schedulers. Prerequisite: CSE 421 or instructor approval. General Studies: L.

CSE 440 Compiler Construction I. (3) F
Introduction to programming language implementation. Implementation strategies such as compilation, interpretation, and translation. Major compilation phases such as lexical analysis, semantic analysis, optimization, and code generation. Prerequisites: CSE 340, 355.
CSE 445 Distributed Computing with Java and CORBA. (3) F, S Technologies for developing software components. Client-server computing with sockets and distributed objects. Dynamic interface discovery and invocation. Lecture, projects. Prerequisite: CSE 310 or instructor approval.

CSE 446 Client-Server User Interfaces. (3) S Client-server model and its use in creating and managing window interfaces. Toolkits and libraries including X11, Microsoft Foundation Classes, and Java Abstract Window Toolkit. Lecture, projects. Prerequisite: CSE 310 or instructor approval.

CSE 450 Design and Analysis of Algorithms. (3) F, S Design and analysis of computer algorithms using analytical and empirical methods; complexity measures, design methodologies, and survey of important algorithms. Prerequisite: CSE 310.

CSE 459 Logic for Computing Scientists. (3) F Propositional logic, syntax and semantics, proof theory versus model theory, soundness, consistency and completeness, first order logic, logical theories, automated theorem proving, ground resolution, pattern matching unification and resolution, Dijkstra's logic, proof obligations, and program proving. Prerequisite: CSE 355.

CSE 460 Software Analysis and Design. (3) F, S Requirements analysis and design; architecture and patterns; representations of software; formal methods; component-based development. Lecture, projects. Prerequisite: CSE 360.

CSE 461 Software Engineering Project I. (3) F, S First of two-course software team-development sequence. Planning, management, design, and implementation using object-oriented technology, CASE tools, CMM-level-5 guidelines. Lecture, lab, oral and written communications. Prerequisite: CSE 460.

CSE 462 Software Engineering Project II. (3) F, S Second of two-course software team-development sequence. Software evolution, maintenance, reengineering, reverse engineering, component-based development, and outsourcing. Lecture, lab, oral and written communications. Prerequisite: CSE 461.

CSE 470 Computer Graphics. (3) F, S Display devices, data structures, transformations, interactive graphics, 3-dimensional graphics, and hidden line problem. Prerequisites: CSE 310; MAT 342.

CSE 471 Introduction to Artificial Intelligence. (3) F, S State space search, heuristic search, games, knowledge representation techniques, expert systems, and automated reasoning. Prerequisites: CSE 240, 310.

CSE 473 Nonprocedural Programming Languages. (3) A Functional and logic programming using languages like LISP and Prolog. Typical applications would be a Screen Editor and an Expert System. Prerequisite: CSE 355.

CSE 476 Introduction to Natural Language Processing. (3) A Principles of computational linguistics, formal syntax, and semantics, as applied to the design of software with natural (human) language input. Prerequisite: CSE 310 or instructor approval.

CSE 477 Introduction to Computer-Aided Geometric Design. (3) S Introduction to parametric curves and surfaces, Bezier and B-spline interpolation, and approximation techniques. Prerequisites: CSE 210, 470; MAT 342.

CSE 507 Virtual Reality Systems. (3) S Computer generated 3D environments, simulation of reality, spatial presence of virtual objects, technologies of immersion, tracking systems. Lecture, lab. Prerequisite: CSE 408 or 470 or 508 or instructor approval.

CSE 508 Digital Image Processing. (3) A Digital Image fundamentals, image transforms, image enhancement and restoration techniques, image encoding, and segmentation methods. Prerequisite: EEE 303 or instructor approval.

CSE 510 Advanced Database Management. (3) F, S Advanced data modeling, deductive databases, object-oriented databases, distributed and multidatabase systems; emerging database technologies. Prerequisite: CSE 412.

CSE 512 Distributed Databases. (3) A Fragmentation design, query optimization. Distributed joins, concurrency control. Distributed deadlock detection. Prerequisite: CSE 510.

CSE 513 Deductive Databases. (3) A Logic as a data model. Query optimization emphasizing the top-down and bottom-up evaluation of declarative rules. Prerequisite: CSE 510.

CSE 514 Object-Oriented Database Systems. (3) A Object-oriented data modeling, database and language integration, object algebra, extensibility, transactions, object managers, versioning/configuration, active data, nonstandard applications. Research seminar. Prerequisite: CSE 510.

CSE 517 Hardware Design Languages. (3) A Introduction to hardware design languages. Modeling concepts for specification, simulation, and synthesis. Prerequisite: CSE 423 or EEE 425 or instructor approval.

CSE 518 Synthesis with Hardware Design Languages. (3) N Modeling VLSI design in hardware design languages for synthesis. Transformation of language-based design to physical layout. Application of synthesis tools. Prerequisite: CSE 517.

CSE 520 Computer Architecture II. (3) F Computer architecture description languages, computer arithmetic, memory-hierarchy design, parallel, vector, multiprocessors, and input/output. Prerequisites: CSE 420, 430.

CSE 521 Microprocessor Applications. (4) A Microprocessor technology and its application to the design of practical digital systems. Hardware, assembly language programming, and interfacing of microprocessor-based systems. Lecture, lab. Prerequisite: CSE 421.

CSE 523 Microcomputer Systems Software. (3) A Developing system software for a multiprocessor, multiprogramming, microprocessor-based system using information and techniques presented in CSE 421, 422. Prerequisite: CSE 422.

CSE 526 Parallel Processing. (3) N Real and apparent concurrency. Hardware organization of multiprocessors, multiple computer systems, scientific attached processors, and other parallel systems. Prerequisite: CSE 330 or 423.

CSE 530 Operating System Internals. (3) A Implementation of process management and synchronization, system call and interrupt handling, memory management, device drivers and file systems in UNIX. Prerequisites: CSE 430; knowledge of C language.

CSE 531 Distributed and Multiprocessor Operating Systems. (3) A Distributed systems architecture, remote file access, message-based systems, object-based systems, client/server paradigms, distributed operating systems. Prerequisite: CSE 530 or instructor approval.

CSE 532 Advanced Operating System Internals. (3) N Memory, processor, process and communication management, and concurrency control in the Windows NT multiprocessor and distributed operating system kernels and servers. Prerequisites: CSE 530; 531 (or 536).

CSE 534 Advanced Computer Networks. (3) F, S Advanced network protocols and infrastructure, applications of high-performance networks to distributed systems, high-performance computing and multimedia domains, special features of networks. Prerequisite: CSE 434.

CSE 537 ATM Network Design. (3) S Principles of ATM networks, switch architecture, traffic management, call and connection control, routing, internetworking with ATM networks, signaling, and OAM. Prerequisite: CSE 434.

CSE 540 Compiler Construction II. (3) S Formal parsing strategies, optimization techniques, code generation, extensibility and transportability considerations, and recent developments. Prerequisite: CSE 440.

CSE 545 Programming Language Design. (3) N Language constructs, extensibility and abstractions, and runtime support. Language design process. Prerequisite: CSE 440.

CSE 550 Combinatorial Algorithms and Intractability. (3) N Combinatorial algorithms, nondeterministic algorithms, classes P and NP, NP-hard and NP-complete problems, and intractability. Design techniques for fast combinatorial algorithms. Prerequisite: CSE 450.

**MASTER OF SCIENCE**

The faculty in the Del E. Webb School of Construction offer a graduate program leading to the M.S. degree in Construction. Concentrations are available in construction science, facilities management, and construction management. The interdisciplinary nature of the program allows a candidate’s program of study to reflect both individual interests and career goals.

The primary objective of the program is to allow students with a baccalaureate degree in construction or a related field such as architecture, business, or engineering to broaden and improve their professional capabilities in construction. The program is designed to meet the growing need for professionals with advanced technical, management, and applied research skills in the construction industry.

The *construction science* concentration allows students with an interest in field engineering or supervision of heavy and industrial construction projects to pursue a more technically oriented course of study. The *facilities management* concentration supports the needs of the student desiring a career in the maintenance, operation, renovation, or decommissioning of existing facilities. The *construction management* concentration allows students seeking upper-level management positions in various sectors of the construction industry to improve their competency in project, program, and company management areas.

**Admission Requirements.** Applicants are expected to satisfy all requirements for admission to the Graduate College. In addition, applicants are expected to be competent in basic construction topics. Admission is based upon an evaluation of the student’s academic background and potential for success. Students whose native language is not English must also submit a Test of English as a Foreign Language (TOEFL) score of at least 550.

**Graduate Record Examination (GRE).** Applicants must submit scores on the verbal, quantitative, analytical, and advanced sections of the GRE for admission.
Application Deadline. Completed college and departmental application materials should be received by February 1 for admission in the fall semester.

Program of Study. As soon as possible after selecting the student’s supervisory committee, the student must file a program of study with the Graduate College.

The program of study consists of the following: thesis option—30 semester hours of graduate study culminating in a thesis and an oral defense; or nonthesis option—36 semester hours of graduate study culminating in an oral and written comprehensive examination.

RESEARCH ACTIVITY

Applied research is an integral part of the M.S. degree in Construction. School faculty and current facilities are adequate for a wide range of research activities related to the construction industry. Students and their supervisory committee select research topics of mutual interest.

CONSTRUCTION (CON)

CON 424 Structural Design. (3) F
Economic use of concrete, steel, and wood in building and engineered structures. Design of beams, columns, concrete formwork, and connections. Lecture, field trips. Prerequisite: CEE 310.

CON 453 Construction Labor Management. (3) F, S
Labor and management history, union, and open shop organization of building and construction workers; applicable laws and government regulations; goals, economic power, jurisdictional disputes, and grievance procedures. Lecture, lab. Prerequisites: CON 371; ECN 112.

CON 455 Construction Project Management. (3) F, S
Study of methods for coordinating people, equipment, materials, money, and schedule to complete a project on time and within approved cost. Lecture, class projects. Pre- or corequisite: CON 495.

CON 463 Foundations. (3) S
Subsurface construction theory and practice for description, excavations, exploration, foundations, pavements, and slopes. Evaluation of specifications and plans of work. Lecture, recitation, field trips. Prerequisites: CEE 190; CON 424.

CON 468 Mechanical and Electrical Estimating. (3) F
Analysis and organization of performing a cost estimate for both mechanical and electrical construction projects. Computer usage. Prerequisites: CON 273 and 345 and 383 or instructor approval.

CON 472 Development Feasibility Reports. (3) F, S
Integration of economic location theory, development cost data, market research data, and financial analysis into a feasibility report. Computer orientation. Prerequisite: REA 380. General Studies: L.

CON 477 Residential Construction Business Practices. (3) F
Topics addressed will include development, marketing, financing, legal issues, and sales. Prerequisite: CON 377 or instructor approval.

CON 483 Advanced Building Estimating. (3) F, S
Concepts of pricing and markup, development of historic costs, life cycle costing, change order and conceptual estimating, and emphasizing microcomputer methods. Prerequisite: CON 383.

CON 486 Heavy Construction Estimating. (3) F
Methods analysis and cost estimation for construction of highways, bridges, tunnels, dams, and other engineering works. Lecture, field trips. Prerequisites: CON 344, 383.

CON 495 Construction Planning and Scheduling. (3) F, S
Various network methods of project scheduling, such as AOA, AON Pert, bar-charting, line-of-balance, and VPM techniques. Microcomputers used for scheduling, resource allocation, and time/cost analysis. Lecture, lab. Prerequisites: CON 383; STP 226. Pre- or corequisite: CON 389. General Studies: CS.

CON 496 Construction Contract Administration. (3) F, S
Survey administrative procedures of general and subcontractors. Study documentation, claims, arbitration, litigation, bonding, insurance, and indemnification. Discuss ethical practices. Lecture, field trips. Prerequisites: COM 225 or ECE 300; senior standing. General Studies: L.

CON 533 Strategies of Estimating and Bidding. (3) F
Course will explore advanced concepts of the estimating process, such as modeling and statistical analysis, to improve bid accuracies. Prerequisite: CON 483 or 486 or instructor approval.

CON 540 Construction Productivity. (3) F
Productivity concepts. Data collection. Analysis of productivity data and factors affecting productivity. Means for improving production and study of productivity improvement programs. Pre- or corequisite: CON 495.

CON 543 Construction Equipment Engineering. (3) S
Analysis of heavy construction equipment productivity using case studies. Applies engineering fundamentals to the planning, selection, and utilization of equipment. Lecture, case studies.

CON 545 Construction Project Management. (3) S
Theory and practice of construction project management. Roles of designer, owner, general contractor, and construction manager. Lecture, field trips. Pre- or corequisite: CON 495.

CON 547 Strategic Planning. (3) F
The business planning process of the construction enterprise. Differences between publicly held and closely held businesses and their exposure.

CON 561 International Construction. (3) S
An investigation of the cultural, social, economic, political, and management issues related to construction in foreign countries and remote regions.

CON 565 Performance-Based Systems. (3) F
Identifying the multicriteria methodology in the procurement of facilities contractual work. Prerequisite: instructor approval.

CON 567 Advanced Procurement Systems. (3) S
Development of multicriteria decision procurement model for selecting the performing contractor. Prerequisite: instructor approval.

CON 570 Cleanroom Construction I. (3) F
Design issues for cleanroom facilities, the construction's viewpoint including planning, structures, mechanical, and tool installation. Lecture, site visits. Prerequisite: instructor approval.

CON 571 Cleanroom Construction II. (3) S
Construction issues for cleanroom facilities including scheduling, cost estimating, project management, mechanical, safety certification, and tool hook-up. Lecture, site visits. Prerequisite: CON 570 or instructor approval.

CON 589 Construction Company Financial Control. (3) F

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Counseling

coe.asu.edu/psyched

MASTER OF COUNSELING

The Master of Counseling (M.C.) degree is a two-year, 60-semester-hour professional degree that prepares counselors for a number of settings, including schools, colleges, and universities, organizational settings, and a variety of mental health agencies. The M.C. program, which focuses on community counseling, is accredited by CACREP (Council for the Accreditation of Counseling and Related Educational Programs).

Applicants to the M.C. degree must submit all application materials by January 15 to be considered for admission for the following academic year.

Purpose. The two-year (60-semester-hour minimum) program leads to the professional degree Master of Counseling
(M.C.). This program is designed to prepare students for counseling as a profession, and it includes a set of required professional studies supported by elective subjects in related disciplines. Both practitioner and research options are available.

The M.C. degree identifies the recipient as a professional counselor and prepares individuals to work in a variety of human service fields. Certified teachers who complete this degree are eligible for school counselor certification in Arizona and most other states.

Admission. A student initiates application for admission to the M.C. degree program with the Graduate College. Admission is determined by a variety of criteria in addition to GPAs. Applications are accepted any time but must be completed before January 15 for admission for the following fall semester. The number of students admitted to the M.C. degree program is limited by the size of the faculty and the facilities available for practica. For more information, applicants should consult the Division of Psychology in Education.

Supervisory Committee. Following admission to the M.C. program, a supervisory committee consisting of a chair and two other faculty members are appointed to plan a program of study with the student and to prepare, administer, and evaluate the final examination(s).

Program of Study. The program of study should be planned in consultation with the supervisory committee. Candidates for the M.C. degree must complete COE 501 Introduction to Research and Evaluation in Education. In addition to course work, the program may include supervised practica in consultation, individual and group counseling, marriage and family counseling, and stress management. These experiences involve a variety of client populations. The program of study must be approved by the supervisory committee, the division director, and the dean of the Graduate College.

Credit Before Admission. A maximum of 32 semester hours of graduate course work earned in a completed master’s degree from an accredited institution may be applied to the program. In all other circumstances, a maximum of nine semester hours of prior course work may be applied to the M.C. degree program.

Final Examinations. Students in the practitioner option are required to take a final written comprehensive examination or prepare a final written paper.

Students in the research option are required to complete a thesis. An oral examination in defense of the thesis is also required.
RESEARCH ACTIVITY

In addition to conducting research in career development and self-efficacy, faculty and students are involved in a variety of other projects, including school-based drug abuse prevention, adolescent suicide prevention, problem-solving and decision making, interpersonal and counselor skill development, professional ethics, small group process, consultation, the counseling process, counseling the gifted and talented, health psychology, and specialized problems of women and minorities. Behavioral health topics, including smoking, eating disorders, cancer, arthritis, pain control, cognitive, and stress and burnout are also studied.

COUNSELING PSYCHOLOGY (CPY)

CPY 613 Child Counseling. (3) N
Applications of counseling theory in working with children in clinics and elementary schools. Integrated practicum available with instructor approval. Prerequisite: CED 577 or equivalent.

CPY 622 Group Counseling. (3) F, S
Theories and methodologies used in group counseling. Prerequisites: CED 567 and 577 or equivalents.

CPY 634 Organizational Development and Planned Change. (3) N
Organizational/individual dynamics, including theory, analysis, techniques, and consultation/intervention strategies used in organizational development. Field consultation projects. Prerequisites: CED 567 and 577 or equivalents.

CPY 644 Psychology of Careers. (3) S
Advanced career counseling, including theory, research, and practice. Prerequisite: CED 577 or equivalent.

CPY 645 Professional Issues and Ethics. (3) F, S
Ethical, legal, and professional issues of concern to practitioners and researchers functioning in a variety of settings. Prerequisites: CED 512 and 523 or equivalents.

CPY 667 Patterns of Behavior Disorders. (3) A
Etiology and treatment of a variety of psychological problems, particularly those represented in DSM III-R. Prerequisite: CED 577 or equivalent.

CPY 671 Multicultural Counseling. (3) F
Provides awareness of the influence of sociocultural variables on human development and explores implications for counseling minority populations.

CPY 672 Human Diversity: Social Psychological Perspectives. (3) A
Implications for psychological practice of social, psychological, and biological factors in the development of behavioral differences.

CPY 674 Counseling Women. (3) F
Explores women’s development and its implications for counseling. Sexism in mental health, sex differences in diagnosis and psychopathology, and women’s particular treatment needs.

CPY 675 Health and Wellness Counseling. (3) N
Theory, research, and practice in health and wellness counseling. Prerequisite: CED 577.

CPY 677 Advanced Counseling. (3) N
Advanced topics in counseling theory, research, and practice. Prerequisite: CED 577.

CPY 679 History and Systems of Psychology. (3) A
Examination of the development and differentiation of the discipline of psychology from its origins in philosophy to the present.

CPY 701 Science and Practice of Counseling Psychology. (3) F
Directed experiences involving the integration of theory, research, and practice in counseling psychology. Prerequisite: Instructor approval.

CPY 702 Research Methods in Counseling Psychology. (3) A
The application of experimental and/or quasi-experimental methods to theory construction and treatment evaluation in counseling psychology. Prerequisite: COE 502 or equivalent.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

The faculty in the Division of Psychology in Education offer graduate programs leading to the Master of Counseling and Master of Education degrees in Counselor Education.

MASTER OF EDUCATION

The M.Ed. degree in Counselor Education is designed for teachers seeking a greater understanding of student behavior and information regarding pupil personnel services. This program requires 30 semester hours of graduate coursework. Candidates for the M.Ed. degree must complete the College of Education core for master’s students, which amounts to nine semester hours. The core courses are COE 501, 504, and 505. See “Courses,” page 184. All applicants must submit scores of the Graduate Record Examination or the Miller Analogies Test.

Applicants to the M.Ed. degree must submit all application materials by October 15 or April 15 to be considered for the following semester. Students who complete the M.Ed. degree in Counselor Education and who wish to be certified as school counselors may apply to the program for admission to an additional sequence of 18 semester hours.

See “Master of Education,” page 180, for more information.

RESEARCH ACTIVITY

Counselor Education faculty are engaged in the study of various topics, including counselor training, student development, gerontological counseling, ethics and professional issues, marriage and family counseling, the counseling process, counseling the gifted and talented, career development, and at-risk youth.

COUNSELOR EDUCATION (CED)

CED 512 Introduction to Helping Relationships and Community Counseling. (3) F, S
Introduction to the helping professions and an examination of the settings in which they occur.
Creative Writing
Interdisciplinary Master's Program

Beckian Fritz Goldberg
Director, Executive Committee
(3) F, S, SS

Master of Fine Arts

One of the unique features of this interdisciplinary program is that, because it utilizes faculty research, creative activity, and teaching interests of two academic units, a student may tailor a course of study to fit individual needs, talents, and goals. The Department of English administers the program and reviews the applications for admission. In the English Department, the studio/academic program requires poets and prose writers to divide work equally between writing workshops and literature courses. This flexible curriculum allows candidates time to study with several gifted writers and scholars in a stimulating atmosphere, time to get quality advice on writing, and time to explore and develop their talents. In the Department of Theatre, the studio/academic program emphasizes the collaborative process of playwriting. Working with actors and directors, playwrights' workshops include informal readings, staged readings and workshop production of students' plays.

Admission. In addition to meeting the general requirements of the Graduate College, applicants must have an undergraduate major in English or Theatre, with a GPA of 3.00 or above. Applicants who do not have an undergraduate major in English or Theatre may be admitted provisionally, on the condition that they make up deficiencies in course work. Deficiencies in undergraduate preparation may be removed while pursuing the M.F.A. degree; courses taken to remove deficiencies may not be counted toward the degree. Applicants must also submit the following:

1. an acceptable score on the Miller Analogies Test or the Graduate Record Examination (GRE);
2. three letters of recommendation;
3. a professional résumé; and
4. a statement of career goals, including the designation of an area of specialization (options include fiction, poetry, and playwriting) and a manuscript sample of one of the following: 30 pages of drama; 20 pages of poetry; 30 pages of prose fiction or creative nonfiction; or 40 total pages of work in two of these literary forms.

Selection Procedures. Completed application forms should be sent directly to the Graduate College. All other materials and manuscripts, including the teaching assistant application form, should be submitted to the Department of English by February 1. The Creative Writing Committee reviews the materials and manuscripts and makes recommendations for admission by March 15. Guidelines for admission recommendations used by the committee include the following: applicant's academic record and capabilities for successful graduate study; talent and promise demonstrated in the manuscript sample; strength of letters of recommendation; quality of applicant’s undergraduate background; and compatibility of the applicant’s career goals with the purpose of the degree program.

Program of Study. In poetry and fiction, the program of study requires a minimum of 48 semester hours of graduate credit approved by the student’s supervisory committee, the director of the Creative Writing Committee, and the dean of the Graduate College. Of these, 24 semester hours must be creative writing courses and must include nine hours of ENG 580, nine hours of ENG 455, 594, or 598. The course
594 Conference and Workshop may be taken twice to varied offerings. The literature component of 24 hours must include ENG 591 and two of the following courses: ENG 441, 443, 454, 457, and 458. In playwriting, the program of study requires a minimum of 60 hours of graduate credit approved by the student’s supervisory committee, the director of the Creative Writing Committee, and the dean of the Graduate College. The program of study must include the following: THP 519 (6 hours), 560 (15 hours), 561 (3 hours), 598 (3 hours), and 693 (9 hours). The literature component of 24 hours must include THE 500, 504, 505, 520, and 521.

Credit Before Admission. Subject to the recommendation of the supervisory committee, students with a completed M.A. or Ph.D. degree in English or Theatre may have up to 15 hours of literature credit applied to the M.F.A. program of study. A maximum of nine hours taken before admission and not as part of a completed degree at ASU and/or another institution may be used to fulfill degree requirements. All course work for the degree must be completed within the six-year time limit.

Comprehensive Examinations. A final written comprehensive examination is required and is scheduled once each semester and once during the summer. Upon completion of course work, the student is required to take the written examination. Official application is made through the Graduate College. The student is also required to notify the Creative Writing Committee of intent to take the examination at least 30 days in advance. A student is not eligible to apply for the written examination until a program of study has been filed. If the candidate fails the examination, a reexamination may be administered no sooner than three months and no later than one year from the date of the original examination. Permission for reexamination must be obtained from the student’s supervisory committee, the director of the Creative Writing Committee, and the dean of the Graduate College. Only one reexamination is permitted. Students are examined in the following areas:
1. 20th-Century American Writers: Modern Period;
2. 20th-Century Writers: Contemporary Period; and
3. 20th-Century Critical Theory.

Playwrights are examined in the following areas: (1) European and American Drama and (2) Dramatic Theory and Criticism. The examination is constructed and graded by members of the Creative Writing Examination Committee.

Practicum and Performance Requirements. ENG 580 or THP 693 Practicum is required of all students in the program. For nine semester hours of credit, the student creates a book-length volume of poetry, short stories, novel, drama, translation, or creative nonfiction (except literary criticism). This project must be approved in advance by the student’s supervisory committee on the basis of sample pages and a summary of the proposal. The supervisory committee must evaluate and approve the final project. As the last requirement for the degree, the candidate must read or perform from the practicum project before students and members of the faculty.

RESEARCH AND SCHOLARLY ACTIVITY
Research and scholarly endeavors inform the creative work of the faculty, which includes publication of poetry, fiction, and drama; collaborative production with musicians, fine printers, and visual artists. Special research courses are offered on contemporary perspectives emphasizing such topics as “Magical Realism,” “The Long Poem,” “Pedagogy Forum for Creative Writers,” “The Literature of Obsession,” “Sexting the Modern,” “Internship for Community Outreach,” “Literary Management for Theatre,” and other multigenre literature and writing courses.

Research and creative activity is enhanced by vigorous faculty and student involvement in producing a national literary magazine, Hayden’s Ferry Review, an ASU student publication. Creative writing faculty and graduate students participate in public outreach programs, including workshops at ASU for adults and high school students in rural and metropolitan areas of the region. Public lectures and readings by faculty members, original play productions and reader’s theatre, and a regular series of public readings, lectures and conferences featuring writers of national renown provide a forum for exchange among artist, audience, scholar, and student. Recent conferences, with support from the National Endowment for the Arts and other agencies, have brought together writers, editors, and publishers, focusing attention on issues in publishing creative work.

COURSES
Applicants who have junior-senior GPAs of 3.00 or higher, have an acceptable application package, and have proof of teacher certification are not required to take the Graduate Record Examination or Miller Analogies Test. Applicants who do not meet this minimum GPA requirement should contact the Division of Curriculum and Instruction graduate programs office for more information.

For admission to the Ed.D. degree program, contact the Division of Curriculum and Instruction graduate programs secretary for information regarding specific test scores and materials that need to be submitted with applications.

Applicants should note that meeting minimal admissions requirements does not guarantee admission. In addition, international students are required to submit Test of English as a Foreign Language scores.

**Programs of Study.** The M.Ed. degree requires 30 semester hours of graduate course work and completion of a culminating activity. Students have two options for a culminating activity: either an applied project and an oral defense or a written comprehensive exam. Students should meet with their advisor early in their program to discuss the culminating activity.

The M.A. degree requires a minimum of 30 semester hours of graduate course work, including a thesis. An oral examination in defense of the thesis is required.

Candidates for the Ed.D. degree are required to complete at least 90 hours of graduate course work and research and dissertation credit.

**Endorsements.** The Arizona Reading endorsement requires 18 semester hours of upper-division or graduate-level course work in reading. The teaching endorsements in bilingual education and English as a second language require 21 semester hours. Middle school endorsement requirements include six semester hours of upper-division or graduate course work in middle-level education along with student teaching within fifth through ninth grades or one year of verifiable, full-time teaching experience within fifth through ninth grades. A valid Arizona teaching certificate is required to secure each of the above endorsements. Those interested in qualifying for one of these endorsements should seek advising from a faculty member in the program area.

**Postbaccalaureate Program for Teacher Certification.** The postbaccalaureate initial teacher certification program offers, to those who have completed baccalaureate degrees outside the College of Education, course work needed to qualify for Arizona teacher certification. Postbaccalaureate programs are offered in bilingual education, early childhood education, elementary education, secondary education, and special education. Concurrent postbaccalaureate teacher certification and admission to the M.Ed. program in special education is required for those seeking certification by the State of Arizona. This requirement is waived for Postbaccalaureate Program for Teacher Certification applicants in special education who have already completed a master’s degree.

A maximum of nine semester hours completed after receiving a bachelor’s degree and before formal admission to a graduate program may be applied to an M.Ed. or M.A. degree. The maximum time limit for the program of study is six years.
Prospective Postbaccalaureate Program for Teacher Certification students should contact the Office of Student Affairs (EDB 7) for information about specific admission requirements. Those interested in combining preparation for initial teacher certification with pursuing a master’s degree should also contact the Curriculum and Instruction Graduate Programs Office (ED 412).

MASTER OF ARTS

See “Master’s Degrees,” page 101, for general requirements.

MASTER OF EDUCATION

Those seeking a master’s degree and initial certification by the State of Arizona are admitted concurrently to the respective M.Ed. degree and corresponding Postbaccalaureate Program for Teacher Certification option.

M.Ed. students in the secondary education concentration who are certified teachers may select a general or academic specialization option. Those selecting the academic specialization option complete 15 semester hours of core and secondary education course work and 15 hours in their academic specialization. The 15 hours of course work in the academic area must be selected in consultation with a faculty member involved in the area of study. This person serves as cochair of the student’s supervisory committee.

DOCTOR OF EDUCATION

The Doctor of Education program is designed to provide an opportunity for practitioner-scholars to expand their skills and knowledge related to curriculum and instruction. The program produces practitioner-scholars for leadership roles in curriculum, program evaluation, or teacher education and professional development in school. Students will choose one of the curriculum and instruction concentration areas. The program prepares students for comprehending, interpreting, and applying theories, models, and research methods that have application to curriculum and instruction.

RESEARCH ACTIVITY

The research activity of faculty and graduate students emphasizes the following areas of study.

Bilingual/Multicultural Education. Identification, assessment and evaluation of minority language populations; Native American education; parent and community involvement; second language acquisition; literacy/biliteracy development in school settings; sociolinguistics; development and education of children and youth from diverse cultural, linguistic, and racial/ethnic populations; professional preparation in bilingual and English as a second language.

Early Childhood Education. Cross-cultural differences in child-rearing expectations and parent-child relations; professional preparation of early childhood education personnel; teacher preparation practices; infant and toddler development; constructivist approaches to content area learning and play education.

Elementary Education. Pedagogical practices in elementary education; policy and sociological concerns; mathematics discourse and instructional methods; outdoor education; school, technology, and society education (STS); science education methods and materials; language learning; sociolinguistics; school-university collaboration; cognition; social studies pedagogy; middle school teaching practices.

Reading Education. Development of literacy; children and adolescent literature; discourse analysis; psycholinguistic and sociolinguistic aspects of reading; content area reading; developmental reading; assessment and remediation of reading problems; children’s play and literacy development.

Secondary Education. Critical theory; curriculum development; equity and diversity; pedagogical practices in the sciences; social studies education; learning theory; issues and trends in secondary education; business education; essential elements of effective instruction; teacher-student interactions; collaborative instructional techniques.

Special Education. Faculty and student research and development activities focus on (1) improving instructional opportunities for exceptional individuals and those at risk for school failure, and (2) increasing the effectiveness of teachers of exceptional and at-risk individuals. Recent research has included the following: academic precocity; and the cognitive development, linguistic proficiency, and academic achievement of minority students. Research focused on improving the preparation of teachers has included projects on field-based instruction, violence prevention, academic and behavioral interventions for students with disabilities and those at risk of school failure, and evaluation of alternative forms of technology integration. Program research efforts receive support from federal, state, and private sources.

BILINGUAL EDUCATION (BLE)

BLE 511 Introduction to Language Minority Education. (3) A Historical, philosophical, theoretical, and pedagogical foundations of language minority education in the United States.

BLE 514 Bilingual/Multicultural Aspects of Special Education. (3) S Theories and issues related to the education of bilingual and culturally diverse exceptional children.

BLE 515 Instructional Methods for Bilingual Students. (3) F An introduction to general dual language teaching approaches and assessment strategies. Focuses on the effective teaching of limited-English-proficient populations. Prerequisite: BLE 511.

BLE 520 ESL For Children. (3) S Examines approaches to second language development and assessment for children congruent with recent research in second language acquisition in children. Prerequisite: BLE 511.

BLE 521 Primary/Elementary Communication Arts in Bilingual Education. (3) S Examination of bilingual/biliterate development of elementary school children, bringing together native and second language, oral language, and literacy development findings with educational practices. Prerequisite: BLE 511.

BLE 522 Literacy/Biliteracy Development. (3) F Acquaints teachers with first and second language literacy research, practice, and assessment in elementary school settings (Spanish-English emphasis). Lecture, discussion. Cross-listed as RDG 522. Credit is allowed for only BLE 522 or RDG 522. Prerequisite: BLE 511.

BLE 524 Secondary Sheltered ESL Content Teaching. (3) F Teaching and assessing ESL adolescents in the content areas with an emphasis on integrating language acquisition principles with content learning. Lecture, small group work. Corequisite: BLE 541.

BLE 528 Social Studies for Bilingual/ESL Teachers. (3) S Provides language and instructional methodologies and assessment strategies relevant to bilingual/multicultural students in social studies content delivered in Spanish and English. Prerequisite: BLE 511.
BLE 533 Literacy in Secondary BLE/ESL Settings. (3) S
Examines first and second language literacy research, practice, and
assessment across content areas in secondary school settings. Lecture,
discussion. Cross-listed as RDG 533. Credit is allowed for only
BLE 533 or RDG 533. Prerequisite: BLE 511.
BLE 535 Sociolinguistic Issues in Bilingual Education. (3) F
Survey of major theoretical issues (e.g., language situations, communicative competence, language attitudes) interrelating language,
social processes, and bilingual education. Prerequisite: BLE 511.
BLE 541 Nature of Bilingualism/Second Language Acquisition.
(3) A
Bilingual and second language acquisition, with emphasis on children
and adolescents. Cognitive, social, and cultural aspects are stressed.
Prerequisite: BLE 511.
BLE 543 Bilingual Education Models. (3) A
Bilingual education programs in other countries; analysis of political,
social, economic, and educational implications; practice in planning
bilingual education curricula. See also offerings under MCE, SED,
SPE, and SPF. Prerequisite: BLE 511.
BLE 561 Parent Involvement in Language Minority Education Pro-grams. (3) F, S
Examines issues, approaches, and strategies for improving parental
and community involvement in the schooling of language minority chil-
dren and youth. Prerequisite: BLE 511.
BLE 565 Literature for Hispanic Youth/Literatura para Jóvenes
Hispanoparlantes. (3) S
Selecting, analyzing, and utilizing literature for Hispanic and Spanish
speaking children and adolescents. Cross-listed as LIS 565. Credit is
allowed for only BLE 565 or LIS 565.
BLE 580 Practicum. (1–6) F, S
Provides for practical application in school settings of principles of
bilingual education or English as a Second Language. Special permis-
sion required.
Omnibus Graduate Courses. See page 57 for omnibus graduate
courses that may be offered.

CURRICULUM AND INSTRUCTION (DCI)
DCI 510 Teacher as Researcher. (3) F, S, SS
Introduces teacher research as a new research genre; offers teachers
guidance on planning and conducting research on their practice. Lecture,
workshop.
DCI 591 Seminar. (1–12) N
DCI 701 Curriculum Theory and Practice. (3) F, S
Curriculum theory and practice as a field of study. Its current orienta-
tions and applications, modes of inquiry, and community of scholars
and practitioners. Seminar. Corequisite: master's-level curriculum
course.
Omnibus Graduate Courses. See page 57 for omnibus graduate
courses that may be offered.

BUSINESS EDUCATION (BUE)
BUE 480 Teaching Business Subjects. (3) S
Organization and presentation of appropriate content for business
subjects in the secondary school.
BUE 481 Technology in Business and Vocational Education. (3) S
2002 Emerging curricula and instructional technology in business and voca-
tional education. Lecture, hands-on computer instruction.
BUE 501 Principles of Business Education. (3) F
History, philosophy, principles, and objectives of business and distribu-
tive education.
BUE 502 Organization and Management of Cooperative Pro-
grams. (3) F
Work-study programs for business occupations in high schools and
community colleges.
BUE 503 Competency-Based Business and Vocational Education. 
(3) S
Development and administration of competency-based individualized
programs in business and vocational education.
BUE 505 Current Literature in Business and Vocational Educa-
tion. (3) S
Critical analyses, generalizations, and trends in business and voca-
tional education.
BUE 506 Information Processing for Business and Vocational
Teachers. (3) SS
Development of curriculum and strategies for teaching information
processing; hardware/software evaluation and equipment acquisition
techniques in business and vocational education.

Omnibus Graduate Courses. See page 57 for omnibus graduate
courses that may be offered.

EARLY CHILDHOOD EDUCATION (ECD)
ECD 501 Interprofessional Collaboration. (3) F
Dispositions, knowledge, experiences, and skills necessary for inter-
professional collaboration required of professionals who work with
multinested families with young children. Prerequisite: BLE 511.
ECD 521 Primary/Elementary Communication Arts in Bilingual
Education. (3) S
Examination of bilingual/biliterate development of elementary school
children, bringing together native and second language, oral lan-
guage, and literacy development findings with educational practices.
Prerequisite: BLE 511.
ECD 522 Developmental Social Experiences in Early Childhood
Education. (3) F
Materials, techniques, aesthetic expression, creative activities, and
values in the integrated curriculum.
ECD 525 Communication Arts in Early Childhood Education. (3) S
Problems and trends of current programs and oral language develop-
ment. Effort to bring together language acquisition findings with edu-
ECD 527 Mathematics in Early Childhood Education. (3) F
Theory and practice in the use of manipulative materials for teaching
mathematics to preschool and primary grade children. Prerequisite:
ECD 402 or equivalent.
ECD 544 Play Education. (3) S, SS
Theories of play and the educational implications of each. Practical
applications at the early childhood level.
ECD 555 Modern Practices in Early Childhood Education. (3) F, SS
Trends and practices, instructional and resource materials, and meth-
ods and techniques in early childhood education.
ECD 601 Theories and Issues in Early Childhood Education. (3) F, SS
Current theories and issues in early childhood education. Presents
issues of early childhood best practices, policy, theory, research, and
evaluation that are of significance to the early childhood professional.
Highlights building on the child development conceptual framework as
related to theory and practice.
ECD 733 Social and Emotional Development. (3) A
A critical analysis of the social and emotional development dynamics in chil-
dren, such as peer relationships, self-concept, and parenting pro-
cesses, with implications for teachers.
ECD 744 Evaluative Procedures: Young Children. (3) S
Omnibus Graduate Courses. See page 57 for omnibus graduate
courses that may be offered.

ELEMENTARY EDUCATION (EED)
EED 511 Principles of Curriculum Development. (3) F, S, SS
Contemporary curriculum theories. Curriculum as an interrelated
entity. Principles of conceiving and effecting change.
EED 526 Communication Arts in the Elementary School. (3) S, SS
A critical examination of school language arts teaching, focusing on
theoretical assumptions regarding oral- and written-language develop-
ment.
EED 528 Social Studies in the Elementary School. (3) F, SS
Problems and trends of current programs. Development of a balanced
and articulated program of social studies.
EED 529 Science in the Elementary School. (3) S
Problems and trends of current programs. Development of a balanced
and articulated science program.
EED 530 Outdoor/Environmental Education. (3) SS
Use of various outdoor settings as laboratories for classroom-related experience, study, observation, inquiry, research, and recreation. Includes strategies and materials for developing environmental literacy.
EED 537 Mathematics in the Elementary School. (3) F, SS
Contemporary mathematics teaching. Content, materials, and approaches to instruction.
EED 538 Teaching Social Studies with Literature. (3) F, SS
Develops the rationale, resources, and strategies for adopting a literature-based approach to social studies teaching in grades K–8. Lecture, discussion, cooperative learning. Prerequisite: EED 455 or equivalent.
EED 578 Student Teaching in the Elementary School. (9–15) F, S
Supervised teaching for postbaccalaureate students, synthesized experience in curriculum, instruction, and classroom management. Prerequisites: completion of 21 hours of identified course work from an approved program of study; a GPA of 2.50 (postbaccalaureate non-degree) or 3.00 (postbaccalaureate degree); approval of the Office of Professional Field Experiences.
EED 581 Diagnostic Practices in Mathematics. (3) F, S
Specific skills in diagnosing/treating children's learning difficulties in mathematics. Includes practicum experiences, both on and off campus, in identifying strengths/weaknesses and initial remediation.
EED 598 Special Topics. (1–4) N
(a) Using Math Manipulatives/Elementary Schools
(b) Using Math Manipulatives/Middle Schools
EED 720 Language in Education. (3) A
Sociolinguistic seminar on language issues in education, including language acquisition, classroom interaction, language attitudes, relation language, and class-gender ethnicity.
Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

INDIAN EDUCATION (IED)
IED 430 Issues in Language and Literacy of Indigenous Peoples. (3) S
Examines issues, policies, theoretical foundations, and practices of indigenous peoples and other language minority communities from a sociolinguistics and language reclamation perspective. General Studies: SB, H.
IED 460 Yaqui History and Culture. (3) F
Yaqui history and culture ranging from precontact to the present. Larger themes of Yaqui identity, belief systems, family, traditions, community, resistance, dispersion, and survival. General Studies: SB, H.
IED 500 Administration and Management of Indian Education Programs. (3) F
Emphasis on educational leadership research and practice in the schooling of American Indian students. Effective practices will be examined.
IED 510 History of American Indian Education. (3) F, S
Philosophical and historical review of the development of American Indian education policies in both traditional and contemporary society.
IED 530 Issues in Language and Literacy of Indigenous Peoples. (3) S
Examines issues, policies, theoretical foundations, and practices of indigenous peoples and other language minority communities from a sociolinguistics and language reclamation perspective.
IED 560 Yaqui History and Culture. (3) F
Yaqui history and culture ranging from precontact to the present. Larger themes of Yaqui identity, belief systems, family, traditions, community, resistance, dispersion, and survival.
IED 594 Workshop in Indian Education. (6) SS
Curriculum, pedagogy, community involvement, current issues, and research will be examined.
Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

LIBRARY SCIENCE (LIS)
LIS 410 Children's Literature. (3) F, S, SS
Selecting, analyzing, and using modern and classic literature with young readers.
LIS 510 Computers and Technology in the School Library. (3) F
Library uses of technology and computers. Fundamental concepts and issues in library media centers. Prerequisites: LIS 571 and 581 or instructor approval.
LIS 533 Current Library Problems. (3) F
Critical analysis of current practices and problems in school librarian-ship. Prerequisites: LIS 540 and 561 and 571 and 581 or instructor approval.
LIS 540 Classification and Cataloging. (3) F
Descriptive cataloging and Dewey Decimal Classification of print and nonprint library materials.
LIS 561 Selection of Library Materials. (3) F
Principles and procedures used in the selection of materials for the school library.
LIS 563 Children's Literature. (3) F, SS
Selecting and using children's literature and related nonprint media to support the elementary school curriculum. Cross-listed as RDG 563. Credit is allowed for only LIS 563 or RDG 563.
LIS 565 Literature for Hispanic Youth/Literatura para Jóvenes Hispanoparantes. (3) S
Selecting, analyzing, and utilizing literature for Hispanic and Spanish speaking children and adolescents. Cross-listed as BLE 565. Credit is allowed for only BLE 565 or LIS 565.
LIS 571 Basic Reference Resources. (3) S
Providing reference service in the school library. Content and use of basic resources.
LIS 581 School Library Administration. (3) S
Administration of K–12 libraries and media centers.
LIS 584 School Library Internship. (1–6) F, S
Prerequisites: LIS 410, 540, 561, 571, 581; instructor approval.
Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

READING EDUCATION (RDG)
RDG 481 Reading Practicum. (3) F, S, SS
RDG 505 Developmental Reading. (3) F, S, SS
For classroom and special reading teachers. Specific professional skills in decoding, comprehension, and evaluation. Required for Special Reading Endorsement. Prerequisite: teaching certificate.
RDG 507 Content Area Literacy. (3) F, S, SS
Theory, teaching strategies, and practical application concerning learning from text across subject matter disciplines.
RDG 522 Literacy/Biliteracy Development. (3) F
Acquaints teachers with first and second language literacy research, practice, and assessment in elementary school settings (Spanish-English emphasis). Lecture, discussion. Cross-listed as BLE 522. Credit is allowed for only BLE 522 or RDG 522. Prerequisite: BLE 511.
RDG 533 Literacy in Secondary BLE/ESL Settings. (3) S
Examines first and second language literacy research, practice, and assessment across content areas in secondary school settings. Lecture, discussion. Cross-listed as BLE 533. Credit is allowed for only BLE 533 or RDG 533. Prerequisite: BLE 511.
RDG 544 Secondary Reading Programs. (3) S
Examines rationale for secondary reading programs (grades 7–12), teaching strategies, research, and program assessment. Prerequisite: RDG 507.
RDG 550 Practicum Experiences in Reading. (3) F, S, SS
Practicum experience utilizing assessment and instructional techniques for classroom settings. (See RDG 557 for State of Arizona reading endorsement.) Prerequisite: RDG 505 or equivalent.
RDG 556 Assessment Procedures in Reading. (3) F, S
RDG 557 Advanced Reading Practicum. (3) F, S
Advanced practicum experience utilizing specialized reading and
other assessment and instruction techniques for classroom and clinic
settings. Lab sections. Recommended for State of Arizona reading
degree. May be taken concurrently with RDG 556. Prerequisites:
RDG 505; instructor approval.
RDG 563 Children’s Literature. (3) F, S, SS
Selecting and using children’s literature and related nonprint media to
support the elementary school curriculum. Cross-listed as LIS 563.
Credit is allowed only for LIS 563 or RDG 563.
RDG 581 Literature-Based Reading Programs. (3) F, S, SS
For classroom and special reading teachers. The role of literature in
the acquisition and development of literacy. Specific suggestions for
helping students learn to read and/or expand their reading ability with
literature. Introduction to literature studies. Prerequisite: teaching cer-
tificate.
RDG 582 Practicum: Literature Studies. (3) S
Practical application of literature study group principles in field sites or
through on-campus simulations. Lecture, discussion. Prerequisite:
RDG 581 or instructor approval.
RDG 596 Gender, Culture, and Literacies. (3) S
Influence of gender and culture on written, oral, and post-typographical
texts. Seminar.
RDG 630 Research in Reading. (3) F
For advanced graduate students interested in applied research prob-
lems, literature of reading instruction, and major issues related to
reading research. Prerequisite: instructor approval.
Omnibus Graduate Courses. See page 57 for omnibus graduate
courses that may be offered.

SECONDARY EDUCATION (SED)

SED 400 Principles of Effective Instruction in Secondary Educa-
tion. (3) F, S, SS
Different models of education are examined. Appropriate teaching
practices for each model are developed and applied to secondary
school classrooms. Lecture, discussion. Prerequisite: PTPP admis-
sion.
SED 480 Special Methods of Teaching Social Studies. (3) F, S
Interdisciplinary approaches; production and collection of materials.
SED 501 Introduction to Effective Instruction. (6) F, S, SS
Introductory course for postbaccalaureate certification program in sec-
condary education. Emphasis upon developing basic classroom man-
agement, instruction, and evaluation. Includes a field assignment of at
least 120 hours. Prerequisite: admission to postbaccalaureate certifi-
cation program.
SED 522 Secondary School Curriculum Development. (3) F, S, SS
Social processes, issues, principles, patterns, and procedures in cur-
riculum development.
SED 533 Improving Instruction in Secondary Schools. (3) F, S, SS
Analyses of procedures, methods, techniques, and experiments in
Teaching in secondary schools. Prerequisites: SED 478, 578.
SED 577 Issues and Trends in Secondary Education. (3) N
Analyses of lay and professional reports; problems and issues in
American secondary education. Prerequisites: SED 478, 578.
SED 578 Student Teaching in the Secondary Schools. (3–12) F, S
The practice of teaching. The relationship of theory and practice in
Teaching postbaccalaureate students only. Prerequisites: completion of
approved postbaccalaureate program; a minimum 2.50 GPA;
approval of the Office of Professional Field Experiences.
SED 588 Human Relations in the Secondary Schools. (3) A
Problems in human relations inherent in the interaction of pupils,
teachers, administrators, nonprofessional staff, and laymen. Prerequisites:
SED 478, 578.
SED 598 Special Topics. (1–4) N
(a) Using Math Manipulatives/Middle Schools
SED 711 Secondary Curriculum Development. (3) S, SS
Theories and processes of developing curriculum; evaluation of
research. Prerequisites: SED 478, 522 (or equivalent), 578.

SED 722 Improvement of Instruction in the Secondary School. (3)
F
Evaluation of the research; issues and theories related to the improve-
ment of instruction. Prerequisite: SED 533.
Omnibus Graduate Courses. See page 57 for omnibus graduate
courses that may be offered.

Curriculum and Instruction

Interdisciplinary Doctoral Program

Robert B. Rutherford Jr.
Program Director
(ED 305) 480/965-4602
rutherford@asu.edu
tikkun.ed.asu.edu/coe/candi

Biology
Professor: Lawson
Chemistry and Biochemistry
Professor: Birk
Communication
Professor: Arnold
Curriculum and Instruction
Professors: Baker, Barone, Bitter, Christie, Edelsky, Faltis,
Flores, Greathouse, Guzzetti, Hudelson, McGowan, McIsaac,
Piburn, Rutherford, Staley, Zucker;
Associate Professors: Arias, Blumenthal-Jones, Cohn,
Di Gangi, Gomez, McCoy, Middleton, Nelson, Surbeck;
Assistant Professors: Anijar, Lamorey, MacSwan

Educational Leadership and Policy Studies
Regents’ Professor: Berliner;
Professor: Richardson;
Assistant Professor: Margolis

English
Professors: Donelson, Nilsen

Exercise and Physical Education
Professors: Burkett, Corbin, Darst, Pangrazi, Stone;
Assistant Professors: Chen, Phillips, Swan

Family Resources and Human Development
Professor: Manore;
Associate Professor: Vaughan

Mathematics
Professor: Leonard;
Assistant Professor: Carlson

Music
Professor: Humphreys;
Associate Professor: Stauf

Physics and Astronomy
Professor: Hestenes

Psychology in Education
Associate Professor: Cohn

The Interdisciplinary Committee on Curriculum and
Instruction offers an interdisciplinary graduate program
leading to the Ph.D. degree in Curriculum and Instruction.
The interdisciplinary committee sets guidelines and supervises programs of study.
Areas of concentration are available in:
1. curriculum studies;
2. early childhood education;
3. educational media and computers (applications for this program are not being accepted at this time);
4. elementary education;
5. english education;
6. exercise and wellness education;
7. language and literacy;
8. mathematics education;
9. music education;
10. physical education;
11. science education; and
12. special education.

One of the unique features of this interdisciplinary program is that, because it utilizes faculty research and teaching interests from a number of academic units, students may work in concert with their program committee to tailor a course of study to fit individual needs and goals.

The interdisciplinary Ph.D. committee mentors set guidelines and supervise programs of study, while an executive committee, appointed by the dean of the College of Education and the dean of the Graduate College, has primary responsibility for the operation of the program. It is composed of faculty representing the various concentrations.

**DOCTOR OF PHILOSOPHY**

The Ph.D. degree in Curriculum and Instruction is an individualized interdisciplinary degree that integrates graduate courses from a variety of academic units. This course work provides a substantive knowledge base in the concentration area and a sound foundation for research leading to a dissertation.

See “Doctor of Philosophy,” page 104, for general requirements.

**Admission.** In addition to meeting minimum Graduate College admission requirements, each applicant must provide the following:
1. a letter of career goals and statement of reasons for seeking the interdisciplinary Ph.D. in Curriculum and Instruction,
2. Graduate Record Examination (GRE) verbal and quantitative test scores,
3. a sample of written work, and
4. three academic letters of recommendation.

One year of full-time teaching experience at the appropriate level, or its equivalent, is strongly recommended. In the absence of prior teaching experience, a teaching internship is required but may not be counted toward the Ph.D. degree.

Admission decisions are based upon the compatibility of the applicant’s career goals with the purpose of the degree program, previous academic training and performance, GRE scores, letters of recommendation, and the availability of a potential mentor in the candidate’s concentration area. It should be noted that, because of enrollment limits, applicants who meet minimum requirements are not automatically admitted.

**Program Committee.** The student’s program committee, consisting of a chair and at least two other members, oversees the preparation of the initial program of study and the preparation and evaluation of the comprehensive examination. Though the program committee may consist of only three members for early advising, it must have at least five members for the administration and evaluation of the comprehensive examination, three of whom must be members of the interdisciplinary committee and two of whom must be experts in the student’s area of concentration. At least one member of the program committee must be a faculty member of the Division of Curriculum and Instruction. The committee must be approved by the dean of the Graduate College.

The program committee and the student must decide on the area of concentration and cognate area to be included in the student’s comprehensive examination. They also must develop a program of study to establish a professional knowledge base and methods of inquiry and analytical tools for research.

**Dissertation Committee.** After passing the comprehensive examination, a dissertation committee is formed, upon the approval of the dean of the Graduate College. The basic functions of the dissertation committee are as follows:
1. overseeing the development and approval of a dissertation proposal,
2. providing guidance while the candidate conducts the dissertation study/analysis,
3. reviewing the dissertation manuscript, and
4. conducting an oral defense of the dissertation.

Members of the program committee may also serve as members of the dissertation committee; however, the committees may have different memberships. At least one member of the dissertation committee must be a faculty member of the Division of Curriculum and Instruction. The dissertation committee chair must be a faculty member designated eligible to serve in this capacity by the interdisciplinary committee and the dean of the Graduate College.

**Program of Study.** The program requires at least 93 semester hours, or the equivalent of four academic years of full-time study, beyond the bachelor’s degree. Students with a master’s degree directly related to the anticipated course of study must complete a minimum of 54 semester hours beyond the master’s degree. At least 30 semester hours in the approved program of study, exclusive of research and dissertation, must be taken at ASU. Each candidate must also register for a minimum of 24 semester hours of research and dissertation credit, with the dissertation directed by a dissertation chair approved by the interdisciplinary committee and the dean of the Graduate College.

The program of study is divided into four general areas:
1. Ph.D. core course requirements;
2. professional focus;
3. cognate study; and
4. independent research and dissertation.

**Core Course Requirements.** All doctoral students are required to complete two designated core courses: DCI 591 Interdisciplinary Research Seminar and DCI 701 Curriculum Theory and Practice.
Professional Focus. With the advice and approval of the student’s program committee, a student must select a sequence of courses and experiences designed to focus subsequent efforts on a particular aspect of curriculum and instruction, culminating in a dissertation. The professional focus is divided into three areas:

1. methods of inquiry and analytical tools associated with empirical study of curriculum and instruction;
2. a substantive knowledge base in the area of concentration; and
3. internships in research and college teaching.

Semester hours counted under one category may not be counted under another. Courses (42 semester hours) are drawn from program courses in the student’s area of concentration.

Cognate Study. Students are expected to choose interrelated courses (12 semester hours minimum) outside their declared area of concentration that have a clear link to their dissertation efforts. Cognate studies can be drawn from a broad range of offerings, both within and outside the College of Education.

Foreign Language Requirements. None.

Annual Report for Ph.D. Candidates. At the end of each school year (before the last day of final exams), the student’s Ph.D. mentor prepares a report to be reviewed by the director of the interdisciplinary Ph.D. degree program. Copies of the report are distributed to the members of the student’s program or dissertation committee. The report from the mentor, which is accompanied by the student’s transcript and an up-to-date curriculum vitae, includes the following:

1. a statement concerning the status of the student’s program of study (with a copy);
2. a statement of the status of preparation toward the student’s comprehensive examination (including a projected date for completion);
3. a statement about the student’s performance in course work; and
4. a statement about the student’s accomplishments during the academic year (and summer, if appropriate), including research activity, writings, presentations, and professional accomplishments.

Comprehensive Examinations. Upon completion of course work in the Ph.D. program of study and before admission to candidacy and the start of the dissertation research, the student completes an examination in the areas of concentration, cognate study, and methods of inquiry and analytical tools. The examination is designed to test the student’s accumulation of interdisciplinary knowledge and ability to communicate across disciplines. The comprehensive examination is developed and administered by the student’s five-member program committee.

Dissertation Proposal. The proposal prospectus typically constitutes a draft of the first three chapters of the dissertation, but may vary with the dissertation committee’s approval. Following approval of the proposal by the dissertation committee chair, a proposal meeting is scheduled. Approval of the proposal at that meeting indicates that the faculty agree that the rationale, review of the literature, method, and proposed analyses are appropriate and that the study may proceed as planned. If problems are identified in the proposal meeting, the dissertation committee may meet again to hear a revised proposal or arrange a more relevant way to reexamine the proposal.

Research and Dissertation. Twenty-four semester hours of research and dissertation credit are required. Twelve dissertation credits must be reserved for postcandidacy registration. The dissertation is designed to be the student’s culminating experience. The dissertation must consist of a fully documented written study demonstrating a high level of expertise in research and scholarship in the student’s area of concentration. The dissertation should make an original contribution to inquiry in the area of curriculum and instruction and be worthy of publication by an established press as a book or monograph or as one or more articles in a refereed, scholarly journal. The dissertation should not only demonstrate that the student is able to conduct quality research, but also should be conceived and carried out in such a way that it should make a contribution to advancing scholarship in the field of curriculum and instruction.

Final Examinations. The final oral examination in defense of the dissertation is scheduled and conducted by the student’s dissertation committee. A candidate must pass the final examination within five years after completing the comprehensive examination.

RESEARCH ACTIVITY

Faculty in the Interdisciplinary Ph.D. Degree Program in Curriculum and Instruction are engaged in a variety of research activities. Representative examples may be found under the program descriptions that correspond to the areas of concentration of this degree program.

ASSOCIATE RESEARCH PROFESSIONAL
MITCHELL

MASTER OF FINE ARTS
The M.F.A. degree in Dance is a 60-semester-hour program. The program is designed to provide opportunities for the student to continue to develop in the areas of dance technique, choreography, performance and production; to gain further understanding of the philosophy, history, theory, and science of dance; and to begin to chart the directions of the future through technology and media opportunities.

Admission. A bachelor’s degree with a major in dance or its equivalent is required. Three letters of reference and a résumé must be filed with the Department of Dance for the purpose of assessing the qualifications of the candidate. All applicants must audition for admission to the program. The audition consists of performance of technical phrases in modern dance and ballet as well as the presentation of a solo work of no longer than five minutes, choreographed by the candidate. Videotaped documentation of a group work choreographed by the applicant must also be submitted. For more information, contact the Department of Dance.

Program of Study. A total of 60 semester hours of graduate credit is required, including:
1. 30 hours of dance studio;
2. 12 hours of dance theory;
3. nine hours of electives; and
4. nine hours of individual project (choreography, performance, or other approved project).

In consultation with the graduate director and the student’s supervisory committee a program of study may be tailored to meet specific interests, needs, and abilities.

Credit Before Admission. Upon approval of the supervisory committee, a maximum of 24 semester hours of graduate credit completed before admission may be applied to the program if these courses were part of a completed master’s degree in Dance. All course work appearing on the program of study must meet the seven-year time limit requirement.

Foreign Language Requirements. None.

M.F.A. Project. Each candidate submits a prospectus to his or her supervisory committee outlining the nature of the M.F.A. project. This project may be choreography and/or performance, and may be designed to incorporate technology or other approved research components. Supporting documentation of the project may be written and bound, realized with CD-ROM, or completed through other means, which meet format approval from both the student’s supervisory committee and the Graduate College.

Final Examinations. An oral defense of the M.F.A. project is required.

RESEARCH AND CREATIVE ACTIVITY
Research and creative activities in the Department of Dance include the following: the creation and performance of new works; theory and teaching of technique, improvisation, and choreography; and concentrated studies in dance education, ideokinesis, kinesiology, dance history, philosophy, ethnology, music for dance, and dance and technology. Cross-disciplinary and cross-cultural work, along with community outreach, are encouraged through course work, internships, and individual projects. Support facilities available within the department include two experimental theaters, the multi-media learning center, and complete production shops staffed by professional designers/technicians.

DANCE HISTORY (DAH)

DAH 501 Philosophy of Dance. (3) A
Analysis of traditional and contemporary theories of dance with regard to issues of expression, form, and meaning.
DAH 502 Cultural Concepts of Dance. (3) A
Examines the close connection between culture, dance, and movement through writings in cultural theory, dance ethnology, and philosophy.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

DANCE (DAN)

DAN 510 Dance Stagecraft and Production. (1–3) F, S
Theory of costuming, lighting, makeup, scenery, and sound as related to dance performance. May be repeated once for credit. Lecture, studio. Prerequisite: DAN 211 or equivalent.

DAN 521 Sound Lab I. (2) F
Audio mixing for analog/digital recording and editing. Lecture, lab. Prerequisite: instructor approval.

DAN 522 Sound Lab II. (2) S
Continuation of DAN 521. Focus on digital recording/editing of audio compositions for choreographic projects. Lecture, lab. Prerequisite: DAN 423 or 521.

DAN 523 Dance, Computers, and Multimedia. (3) F, S
Introduction to desktop multimedia as it relates to dance creation, production, education, and research. Lecture, lab.

DAN 534 Technique and Theory of Modern Dance. (3) F, S
Preparation in the performance and comprehension of professional-level modern dance for first-year graduate students. 6 hours weekly. May be repeated for credit. Placement audition required.

DAN 535 Technique and Theory of Ballet. (2) F, S
Graduate study of ballet technique. May be repeated for credit. Studio. Placement audition required.

DAN 542 Ideokinesis. (2) F
A theoretical examination of ideokinetic methods of facilitating postural change and movement efficiency.

DAN 550 Graduate Dance Pedagogy: Modern. (3) S
Overview of the role of modern dance technique and theory in the university curriculum including current pedagogical theory, diversity, gender. May follow or precede internship in practical teaching.

DAN 551 Graduate Dance Pedagogy: Ballet. (3) F
Advanced analysis of teaching techniques for ballet. Prerequisite: instructor approval.

DAN 561 Choreographer/Composer Workshop. (1–3) N
Analysis of, experimentation with, and practice in working with composers of music for choreography. Open to experienced choreographers and composers. Lecture, studio. Prerequisite: instructor approval.

DAN 564 Solo and Group Choreography I. (3) F
Original choreography created for solo and group performance. Studio. Prerequisites: DAN 364 and 365 or equivalent.

DAN 565 Solo and Group Choreography II. (3) S
Continuation of DAN 564. Studio. Prerequisite: DAN 564.

DAN 571 Dance Theatre. (1–3) F, S
Performance in specially choreographed dance productions. May be repeated for credit. Prerequisite: instructor approval.

DAN 580 Performance Studies Practicum. (1–3) S
Focus on developing rehearsal skills and achieving performance excellence through the preparation of three completed works. Studio, lab.

DAN 591 Seminar. (1–3) F, S
Seminar focusing on enrichment topics, production aspects of thesis projects, teaching concerns, special lectures, films, or critiques.

DAN 634 Technique and Theory of Modern Dance. (3) F, S
Preparation in the performance and comprehension of professional-level modern dance for second-year graduate students. 6 hours weekly. May be repeated for credit. Placement audition required.

DAN 640 Advanced Problems in Analysis of Dance Technique. (3) S
Theories and principles of human anatomy, kinesiology, and the psychology of learning applied to analysis of dance movement. Prerequisites: DAN 340 and 342 or instructor approval.

DAN 664 Choreography Workshop. (1–3) F
Choreographic study in a seminar context with faculty and guest artists. Studio. May be repeated for credit. Prerequisites: DAN 564, 565.

DAN 671 Dance Arizona Repertory Theatre. (3) F, S
Professional modern dance company experience and community outreach. Opportunity to work with choreographers, faculty, and guest performers. Lecture, studio.

DAN 693 M.F.A. Project. (1–9) F, S, SS
Preparation for required M.F.A. project approved by the student's supervisory committee. Work is followed by a final oral examination and documentation appropriate to the project. Prerequisite: committee approval.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

ASSOCIATE PROFESSORS
BERNARDI, BRANDT, CUTLER, DETRIE, JOHNSON, McDERMOTT, NIELSEN, PATEL, RATNER, SANFT, WITT

ASSISTANT PROFESSORS
HARMON-VAUGHAN, HERRING, MCCOY, NICKERSON, NIEDERHELMAN, RANDALL, ROTHSTEIN, WEED

The faculty in the School of Design, College of Architecture and Environmental Design, offer a postprofessional research degree program leading to the Master of Science in Design degree in Design with concentrations in graphic design, industrial design, and interior design. Course offerings focus on such areas as facilities planning and management, human factors, and methodology, theory and criticism.

The faculty in the school also participate in offering the Ph.D. in Environmental Design and Planning program. See “Environmental Design and Planning,” page 198, for information on this interdisciplinary, college-wide Ph.D. degree program.

MASTER OF SCIENCE IN DESIGN

The Master of Science in Design (M.S.D.) degree with a major in Design has three concentrations: graphic design, industrial design, and interior design. There are also two tracks within these concentrations: research and studio.

Graphic Design Concentration

The research track in graphic design is for individuals interested in advanced studies in visual language; history; theory; criticism; and methodology, design processes, and technology. This track develops an understanding of contemporary graphic design issues through specialized research and design skills. It also prepares the graduate student for a career in graphic design education. The studio track educates students in specific graphic design skills and knowledge in a studio environment. It offers the opportunity
to pursue applied projects in a special area of graphic design such as brand identity, corporate identity, environmental design, information design, interactive design, museum and exhibition design, new media design, publication design, and typography.

Industrial Design Concentration

The research track in industrial design is for individuals interested in advanced studies in human factors, history, theory, criticism and methodology, design processes, and technology. This track develops an understanding of contemporary industrial design issues through specialized research and design skills. It also prepares the graduate student for a career in industrial design education. The studio track educates students in specific industrial design skills and knowledge in a studio environment. It offers the opportunity to pursue applied projects in a special area of industrial design such as exhibit design, furniture, appliances, electronic equipment, consumer products, and user interface.

Interior Design Concentration

The research track in interior design is for individuals interested in advanced studies in facilities planning and management, or history, theory, criticism and methodology. This track develops an understanding of contemporary interior design issues through specialized research and design skills. It also prepares the graduate student for a career in interior design education. The studio track educates students in specific interior design skills and knowledge in a studio environment. It offers the opportunity to pursue applied projects in a special area of interior design such as contract market, retail environments, healthcare facilities, personal spaces, dwelling interiors, educational environments, and transportation environments.

Research Track

The Master of Science in Design (M.S.D.) degree with a major in Design and concentrations in graphic design, industrial design, and interior design prepares students for leadership positions in industry, research, and teaching. The program as four goals:

1. to provide graduate education for students who have a baccalaureate degree in Graphic Design, Industrial Design, Interior Design, or a related design discipline;
2. to provide the opportunity for the development of specialized research and design skills to support the graphic design, industrial design, and interior design professions;
3. to provide the opportunity for professionals to gain the necessary research and design skills for academic careers; and
4. to develop critical skills which enable the graduate to contribute to the literature of design through articles, essays, and books, or to participate in conferences related to their concentration.

There are three areas of emphasis.

Areas of Emphasis

Design Methodology, Theory and Criticism in Design. This area of study is available to majors with backgrounds in art, architecture, design history, graphic design, industrial design, interior design, sociology, environmental psychology, or research methods. Students choosing this area of study may focus upon methodology, or theory, or criticism, or they may choose to combine any or all of these three. Courses in this area of study address: selected design methodologies that stimulate creativity; methodologies for critical analysis; methodologies that lead to development of or application of theories and philosophies; the historical origins of theories and philosophies that form the basis of contemporary design; the implication of theory in design knowledge and its discourse; strategies for recognizing and interpreting emerging design issues and trends; the evolution of the literature of design criticism; definition of design criticism; the qualifications of design critics’ application of theories or philosophies in making judgments; and qualities constituting effective critical writing. Applications include design research, design education, design marketing and production decision, and design criticism.

Facilities Planning and Management in Design. This area of study focuses on the coordination of the work place, equipment, and visual (graphic) environment with the people and organizational structure of the institution. The intent is to combine programming and management practices with current professional and technical expertise to provide humane and effective work environments. Facility-related responsibilities to support this concentration cluster into seven functional units: programming; facilities analysis; space management; interior planning and design; human factors; interior codes; public welfare and safety; and interior installation.

Human Factors in Design. This area of study identifies the problems, establishes the strategies, and develops the design solutions needed for issues surrounding the human/product interface. The human/product interface is the focus although the principles have wider application to other systems (such as interactive design) and environments (such as museum and exhibition design). Special emphasis is placed on the relationship between human and test performance factors. Emphases include quality of function; methods of forming organizational relationships; factors of environmental control systems (acoustics and illumination, wayfinding, etc.); and human factors in graphic, product, and interior design. Subject matter also includes the design of equipment, machines, and spaces; ergonomics and forms of ergonomic documentation; and analysis of relationships between spaces, objects, and people as simulated through computer animation, imaging, and traditional modeling techniques.

Program of Study for the Research Track. The program of study consists of 36 semester hours of course work at the 500-level or above with the following distribution:

STUDIO TRACK

The Studio Track of the Masters of Science in Design (M.S.D.) degree with a major in Design and a concentration in graphic design, industrial design, and interior design,
advances education for individuals coming from diverse backgrounds, by providing experiential opportunities to explore the three represented disciplines by providing discipline specific skills and knowledge in an interdisciplinary studio setting. The program has three goals:

1. to provide graduate education both for students who hold a degree in an area that is not traditionally related to design, and for those who hold a related degree and who desire specialized exposure to one of the program’s concentration areas;
2. to provide discipline specific skills and knowledge in an interdisciplinary studio setting;
3. to provide the opportunity for in-depth applied research in a special area of interest.

The studio track program is neither intended to prepare graduates for licensure in the design disciplines, nor for university level teaching, nor as a substitute for a professional degree program in graphic design, industrial design, or interior design.

**Program of Study for the Studio Track.** The program of study consists of 36 hours of work at the 500-level or above with the following distribution:

- **DSC 520 Contemporary Design Issues** ........................................ 3
- Approved courses in the studio .................................................. 10
- Applied elective to support the applied project .............................. 3
- Professional electives .................................................................. 6

Total .................................................................................................. 33

**Admission Requirements.** Applicants for the research track program of study must hold a baccalaureate degree in Graphic Design, Industrial Design, Interior Design, or a related design discipline to participate in this terminal degree program. Applicants for the studio-based program of study may hold a degree not directly related to the design professions. When applying for admission, applicants must declare one of three concentrations: graphic design, industrial design, or interior design. Additionally, for students in the research-track, the areas of interest must be identified from the following: design methodology, facility planning and management, human factors in design, or theory and criticism. Admission to the M.S.D. program is selective on a space-available basis.

**Application Procedures.** Applicants must file separate application materials to both the Graduate College and the School of Design.

**School of Design Requirements.** The following materials should be submitted to

SCHOOL OF DESIGN  
COLLEGE OF ARCHITECTURE AND  
ENVIRONMENTAL DESIGN  
ARIZONA STATE UNIVERSITY  
PO BOX 872105  
TEMPE AZ 85287-2105

1. a statement of intent (maximum 600 words) explaining the applicant’s interest in pursuing a post-professional research or studio track degree program with a concentration in graphic design, industrial design, or interior design and the basis for selecting an area of interest (Research track candidates select facilities planning and management; human factors in design; or design methodology, theory and criticism. Studio track candidates identify target interests with their identified discipline.), the applicant’s academic background, and, if appropriate, additional preparation for the selected concentration/area of interest;
2. TOEFL scores from international students whose native language is not English;
3. three letters of recommendation from persons who are qualified to comment on the applicant’s potential in the selected concentration;
4. an additional statement from applicants wishing to be considered for teaching or research assistantships outlining areas in which they feel competent to serve as a teaching or research assistant and inexpensive copies of samples of work that will not be returned (international students who wish to be considered for a teaching assistantship and whose first language is not English are required to pass the Test of Spoken English [TSE] administered by the American English and Culture Center at ASU); and
5. an 8.5” x 11” folio documenting papers and imaginative projects that support the intended concentration and demonstrate drawing, rendering, and modeling skills.

The portfolio is returned after final admission procedures, provided sufficient prepaid postage is enclosed, or if the materials are claimed in person within one year of submission. Unclaimed portfolios are retained for only one year. The School of Design assumes no liability for lost or damaged materials.

**Application Deadlines.** Primary consideration is given to completed applications received by the deadlines. Applications for assistantships and scholarships normally are considered at the same time.

All materials must be received by the Graduate College and the school by March 1 for fall semester. Late applications are accepted until all positions are filled.

**Selection Procedures and Notifications.** The faculty evaluate the applications and supporting materials and recommend to the Graduate College whether the applicant should be granted regular or provisional admission or if admission should be denied. If admission is provisional, the Graduate College specifies in its letter of admission the provisions to be met to gain regular status. The school informs successful applicants of the procedures for enrollment.

**Foreign Language Requirements.** None.

**Practicum.** All students in the research track program must enroll in a three-hour teaching practicum that focuses on the problems and issues surrounding studio, lecture, and seminar instruction. Emphasis is on the techniques of criticism and individual and group studio teaching.

**Thesis or Applied Project.** For students in the research track program choosing the thesis option, six semester hours of 599 Thesis and 592 Research apply toward the thesis. Guidelines in the Format Manual must be followed. For stu-
students choosing the applied project option, six hours of 593 Applied Project apply.

**Final Examinations.** An oral examination in defense of the thesis or applied project is required for all students in the M.S.D. program.

**E-Mail and Web Addresses**  
E-mail inquiries or requests should be addressed to jacques.giard@asu.edu. Information about the program in Design, and the College of Architecture and Environmental Design in general, may be found on the Web site at www.asu.edu/caed/design/index.html

**RESOURCES**

**Faculty**  
Faculty in graphic design, industrial design, and interior design are involved in the following areas of research: human factors, material design, computer-assisted design, lighting and acoustical design, design history, material culture studies, exhibit design, furniture design, environmental design, facilities planning and management, methodology, theory and criticism, creative thinking, design evaluation, and wayfinding.

**Facilities**  
The College of Architecture and Environmental Design maintains a high-bay research facility, a lighting laboratory, a human factors laboratory, an extensive shop facility, as well as a state-of-the-art material resource center. The college’s Research and Service Foundation provides facilities for basic research and community service activities in energy technology, design, and planning.

**DESIGN (DSC)**

DSC 500 Research Methods. (1–12) N  
Projected applications in design production, planning, and decision-making processes. Lecture, seminar. Prerequisites: INT 310 and 311 or equivalents.

DSC 520 Contemporary Design Issues. (3) F, S  
Research and laboratory investigation of advanced illumination and acoustics issues of facility design. Emphasis on human factors and performance aspects. Prerequisites: INT 457 and 458 or equivalents.

DSC 524 Illumination and Acoustics. (3) N  
Research and laboratory investigation of advanced illumination and acoustics issues of facility design. Emphasis on human factors and performance aspects. Prerequisites: INT 457 and 458 or equivalents.

DSC 525 Design Methodologies. (3) F  
Practical exercises and studies in problem-solving strategies; problem definition and supporting theory for the designer. Lectures, seminars, lab. Prerequisite: senior or graduate standing.

DSC 527 Modern Design Theory. (3) S  
Aesthetic, political, economic, and social theories that have shaped modern design; theory as the basis for design philosophies. Lectures, seminars. Prerequisite: DSC 525 or equivalent.

DSC 529 Design Criticism. (3) F  
Critical methods applied to design as material culture and human expression; evaluation of achievement versus intention. Lecture, seminar. Prerequisite: DSC 527 or equivalent.

DSC 544 Human Factors Systems and Documentation. (3) F  
Advanced topics associated with theory and methods of human factors in design. Individual projects stressing problem organization, evaluation, and documentation. Lectures, seminars, lab. Prerequisite: DSC 344 or equivalent.

DSC 552 Computer Simulation in Design. (3) F  
The use of computer graphics as a medium to develop and present images of the environment for analysis and perception. Lecture, lab. Prerequisite: senior or graduate standing.

DSC 553 Computer Imaging and Visual Perception. (3) S  
Issues and applications of computer simulation as a tool for describing and testing human interface with the environment. Lecture, lab. Prerequisite: senior or graduate standing.

DSC 558 Daylighting. (3) N  
Daylighting as a design determinant; concepts, techniques, methodology, experiments, and case studies. Lecture, studio. Prerequisite: senior or graduate standing.

DSC 580 Practicum: Methods of Teaching Design. (3) F  
Background and development of design education theories. Concepts of studio teaching methods. Comprehensive student project development and evaluation methods. Prerequisite: graduate standing.

DSC 593 Applied Project. (1–12) N  
DSC 598 Special Topics. (1–4) N  
(a) Facilities Planning II
(b) Daylighting

**GRAPHIC DESIGN (GRA)**

GRA 481 Visual Communication V. (3) F  
Studio problems with an emphasis on analysis, problem solving, and professional portfolio preparation. 6 hours a week. Prerequisites: GRA 385, 387.

GRA 482 Visual Communication VI. (3) S  
Individual and group projects with outside clients. All projects culminate in an exhibit. 6 hours a week. Prerequisite: GRA 481.

GRA 483 Graphic Design Workshop. (3) F, S, SS  
Preprofessional client/designer situations from concept to printed work. Studio workshop and internships for selected students. 6 hours a week. May be repeated once for credit. Prerequisite: instructor approval.

**INTERIOR DESIGN (INT)**

INT 460 Design Project I. (5) F  
Complete analysis of the product unit as an element of mass production, featuring marketing, technology, human factors, and visual design. Emphasis on professional standards. 10 hours studio. Prerequisites: INT 457 and 458, or equivalents.

INT 461 Design Project II. (5) S  
Product design, with emphasis in systems interaction. Culmination of design process and technique. Individual project direction is encouraged. 10 hours studio. Prerequisite: INT 461.

INT 474 Design Seminar. (3) S  
Manufacturer’s liability, statutes, regulations, and common law rules; role of expert witnesses; insurance and product safety programs. Seminar. Prerequisite: senior standing.

INT 494 Special Topics. (3) N  
Application of mechanical drafting knowledge and skills. Manual drafting principles and techniques with transition to computer-aided industrial design.

**INDUSTRIAL DESIGN (IND)**

IND 460 Design Project I. (5) F  
Complete analysis of the product unit as an element of mass production, featuring marketing, technology, human factors, and visual design. Emphasis on professional standards. 10 hours studio. Prerequisites: IND 484, IND 361.

IND 461 Design Project II. (5) S  
Product design, with emphasis in systems interaction. Culmination of design process and technique. Individual project direction is encouraged. 10 hours studio. Prerequisite: IND 361.

IND 474 Design Seminar. (3) S  
Manufacturer’s liability, statutes, regulations, and common law rules; role of expert witnesses; insurance and product safety programs. Seminar. Prerequisite: senior standing.

IND 494 Special Topics. (3) N  
Application of mechanical drafting knowledge and skills. Manual drafting principles and techniques with transition to computer-aided industrial design.

**Omnibus Graduate Courses.** See page 57 for omnibus graduate courses that may be offered.
ECONOMICS 177

INT 442 Specifications and Documents for Interiors. (3) F
Contract specifications, documents, schedules, and bidding procedures for interior design. Prerequisites: INT 341, 365. General Studies: L.

INT 457 Acoustics for Interior Design. (3) F
Physical properties of sound. Studies pertaining to sound-absorbing materials, constructions, and room acoustics. Prerequisites: MAT 170; PHY 111, 113.

INT 458 Lighting for Interior Design. (3) S
Light as an aspect of interior design. Evaluation of light sources for distribution, color, and cost.

INT 466 Interior Design Studio V. (5) F
Advanced interior design problem solving, design theory, and criticism. Thesis project development based upon the major's concentration. 10 hours studio. Prerequisite: school approval.

INT 467 Interior Design Studio VI. (5) S
Advanced series of specialized projects or continuation of thesis project based upon the major's concentration. 10 hours studio. Prerequisite: school approval.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

ASSISTANT PROFESSORS
CHADE, DATTA, HENDRICKS

SENIOR LECTURER
ROBERTS

The faculty in the Department of Economics, College of Business, offer programs leading to the M.S. and the Ph.D. degrees in Economics.

The faculty also participate in offering the professional program leading to the Master of Business Administration (see “Master of Business Administration,” page 134), the program leading to the M.S. in Statistics (see “Master of Science,” page 303) and the program leading to the Ph.D. degree in Business Administration (see “Master of Business Administration,” page 134). Further information concerning the degree programs in Economics can be obtained from the Director of Graduate Programs, Department of Economics.

Admission. See “Admission to the Graduate College,” page 92. In addition, each applicant to either graduate program must submit three letters of recommendation from academic sources and test scores for the general aptitude portion of the Graduate Record Examination (GRE). Submission of scores from the GRE advanced test in economics is recommended. Applications should be received at the Department of Economics by March 1 if the student is seeking a graduate assistantship.

Students are expected to have demonstrated competency in economics at a minimum level through ECN 313 and 314 and in mathematics through MAT 271. Passing grades in the equivalents of these courses taken at other colleges are accepted as a demonstration of competency. Additional courses in calculus, linear algebra, and statistics are recommended before the first semester in the program.

Students with inadequate undergraduate preparation in economics or mathematics may be required to remove deficiencies before enrolling in graduate courses.

FIELDS OF STUDY

Graduate students may choose from several fields of study: econometrics, health economics, industrial organization, international economics, labor economics, macroeconomics, and public economics. The goal of the econometrics field is to provide students with the tools needed to empirically assess economic models using data obtained from observation of real world phenomena. Course work emphasizes applications as well as theory. The intent of the health economics field is to provide students with the tools needed to assess and critique the concepts, structures, functions, and values that characterize contemporary health care systems. Course work focuses on the economics of production and distribution of health care services, with special emphasis on the impact of regulation, competition, and economic incentives. Work in biostatistics can be included. The field of industrial organization is concerned with the theory and empirical evidence concerning the organization of firms and industries. Topics include the “law and economics” of monopoly, collusion, business pricing and marketing practices, corporate control, mergers, and acquisitions. The international economics field examines both the theoretical and empirical literature associated with the determinants of comparative advantage, trade patterns and commercial policy effects on such patterns, the determinants of exchange rates and international financial flows, and effects of international linkages on the domestic economy. The labor economics field includes the study of labor force participation, unemployment, the role and effect of education and other personal variables on earnings, geographical and interfirm earning differentials, the demand for labor, discrimination, the role and economic effects of unions, personnel practices and policies, and similar topics. The intent of the macroeconomics field is to provide the student with tools needed to assess both theoretically and empirically modern macroeconomic models. Public economics is concerned with the positive and normative study of government’s effect on the economy. Course work focuses on evaluating the economic consequences of government policies and on the application of economics to political science. See the Department of Economics Graduate Student Handbook for specific field requirements.

MASTER OF SCIENCE

The M.S. in Economics program is designed to give students a broad base understanding of critical analysis of business problems and the quantitative skills necessary for their analysis. Graduates of the program will have distinctive capabilities in quantitative skills and business data analysis.
applied to markets and firm behavior, customer behavior, business strategies and processes, and global impacts on business.

Program of Study. See “Master’s Degrees,” page 101, for general requirements. See the Department of Economics Graduate Student Handbook for specific requirements.

Course Load. Students are limited to 15 semester hours per semester.

Foreign Language Requirements. None.

Thesis Requirements. Students have the option of a nonthesis or thesis track. For the nonthesis track, students are required to conduct an applied research project under the supervision of a faculty member. The applied research project often is conducted in conjunction with an internship, and three hours of credit is granted for the project. For the thesis option, six semester hours of credit is granted for completion of the thesis.

Final Examinations. A final oral examination in defense of the thesis or applied research project is required.

DOCTOR OF PHILOSOPHY

The Ph.D. degree program is designed to provide the student with a more fundamental command of basic economic analysis and of the subject matter in several specialized fields. It is designed to qualify students for teaching at higher education institutions and for research positions in public agencies and private business organizations.

Program of Study. See “Doctor of Philosophy,” page 104, for general requirements. In addition to completing 60 hours of credit beyond the bachelor’s degree (30 hours beyond the master’s degree) and 24 hours research dissertation credit, the Ph.D. student must accomplish five tasks:

1. meet qualification requirement,
2. present at least two fields of study,
3. pass the comprehensive examination,
4. pass the dissertation proposal defense, and
5. complete a dissertation with an oral defense.

See the Department of Economics Graduate Student Handbook for details concerning these tasks.

Qualifying Examinations. The student must demonstrate proficiency in economic theory and application by passing both the microeconomic and macroeconomic qualifying examinations. These examinations are given at the beginning of the fall semester of the second year of graduate study. The student must demonstrate proficiency in statistical and econometric analysis by passing ECN 525 and 526.

Fields of Study. Students are required to present at least one primary field and one secondary field for the Ph.D. The primary field must be the one in which the comprehensive examination is taken; usually this is the field in which dissertation work is contemplated.

Comprehensive Examination. The comprehensive examination consists of a written and oral test. The written examination consists of questions designed to test the student’s knowledge of the proposed research area. Examination questions are designed to cause the student to examine the research topic in considerable depth and breadth. The oral examination consists of questions designed to test the student’s knowledge of the proposed research area. Examination questions are designed to expand on the written examination as well as to provide guidance on the dissertation research.

Dissertation Proposal Defense. Students prepare a preliminary draft of the dissertation proposal before taking the comprehensive examination. Upon passing the comprehensive examination, students submit a revised dissertation proposal to their supervisory committee that formalizes the research agenda and incorporates the supervisory committee’s suggestions. The dissertation proposal must be defended orally.

Admission to Candidacy. The student should apply promptly for admission to candidacy after passing the comprehensive field examination, oral examination, and the dissertation proposal defense.

Dissertation Requirements. A dissertation representing original research work of high quality, demonstrating the student’s proficiency in the field, is required.

Foreign Language Requirements. None.

Final Examinations. An oral examination in defense of the dissertation is required.

RESEARCH ACTIVITY

There is a strong commitment to professional research in the Department of Economics. Faculty are actively engaged in both applied and theoretical research in a variety of areas. Topics of recently published research include: optimal labor contracts and involuntary unemployment; efficient estimation with dynamic panel data; the effects of restructuring and privatization in Central and Eastern Europe; unemployment insurance programs; the economics of mob goods; the stability of long-run money demand; an empirical methodology for cointegrated systems; job search; labor market consequences of U.S. immigration; volatility in foreign exchange markets; equity control of multinational firms by less developed countries; optimal portfolios; the demand for insurance and insurable assets; wage uncertainty and competitive equilibrium in labor markets; exchange rate dynamics; real business cycle analysis; strategic information manipulation in duopolies; non-expected utility theory; comparative statics under uncertainty; the value of information in alternative economic environments; and an empirical examination of organization structure.

Research tools at ASU are excellent. The Hayden Library holds an extensive collection of works in economics and related areas. The Noble Science and Engineering Library is a designated U.S. Patent Depository. ASU has computer facilities that provide exceptional support for processing empirical research. A remote site terminal for both batch processing and time sharing is located in the College of Business.

ECONOMICS (ECN)

ECN 436 International Trade Theory. (3) A
The comparative-advantage doctrine, including practices under varying commercial policy approaches. The economic impact of international disequilibrium. Prerequisite: ECN 314 or instructor approval.

General Studies: SB, G.
ECN 438 International Monetary Economics. (3) A
Behavior, historical theory, and policy of international monetary economics. Balance of payments and exchange rates. International financial markets including Eurocurrency markets. Prerequisite: ECN 313 or instructor approval. General Studies: SB, G.

ECN 441 Public Finance. (3) A
Public goods, externalities, voting models, public expenditures, taxation, and budget formation with emphasis on the federal government. Prerequisite: ECN 314 or instructor approval. General Studies: LS/ SB.

ECN 453 Government and Business. (3) A
Development of public policies toward business, Antitrust activity. Economic effects of government policies. Prerequisite: ECN 314 or instructor approval.

ECN 480 Introduction to Econometrics. (3) A
Elements of regression analysis: estimation, hypothesis tests, prediction. Emphasis on use of econometric results in assessment of economic theories. Prerequisite: instructor approval. General Studies: CS.

ECN 485 Mathematical Economics. (3) A
Integration of economic analysis and mathematical methods into a comprehensive body of knowledge within contemporary economic theory. Prerequisite: instructor approval.

ECN 496 Pro-Seminar. (3) A
Topic chosen from current area of interest. Prerequisites: ECN 313 and 314 or instructor approval.

ECN 502 Managerial Economics. (3) F, S
Application of microeconomic analysis to managerial decision-making in areas of demand, production, cost, and pricing. Evaluation of competitive strategies. Prerequisite: MBA degree program student.

ECN 503 Global Economics for Managers. (3) F, S
Macroeconomic analysis of issues related to economic growth, inflation, interest rates behavior, unemployment, exchange rate determinations, and global competitiveness.

ECN 504 History of Economic Thought. (3) S
Historical development of economic thought. Emphasis on the development of economic analysis from preclassical economics through Keynes. Prerequisite: ECN 510 or instructor approval.

ECN 509 Macroeconomic Theory and Applications. (3) F
Theory of income, output, employment, and price level. Influence on business and economic environment. Prerequisites: ECN 111 and calculus or instructor approval.

ECN 510 Microeconomic Theory and Applications. (3) F, S
Application of economic theory to production, consumer demand, exchange, and pricing in a market economy. Prerequisites: ECN 112 and calculus or instructor approval.

ECN 511 Macroeconomic Analysis I. (3) F
Current theories of output, employment, inflation, and asset prices as well as major aggregates. Introduction to dynamic optimization techniques. Prerequisites: ECN 313 and calculus or instructor approval.

ECN 512 Microeconomic Analysis I. (3) F
Theory of production, consumer demand, resource use, and pricing in a market economy. Prerequisites: ECN 314 and calculus or instructor approval.

ECN 513 Macroeconomic Analysis II. (3) F
Focus on growth theory, dynamic general equilibrium models, monetary theory, open economy issues. Prerequisite: ECN 511 or instructor approval.

ECN 514 Microeconomic Analysis II. (3) S
General equilibrium, welfare economics, production, and capital theory. Prerequisite: ECN 512 or instructor approval.

ECN 515 Advanced Macroeconomic Analysis. (3) F
Focus on current research areas in macroeconomics and monetary theory with emphasis on methods in economic dynamics and numerical techniques. Prerequisite: ECN 511 or instructor approval.

ECN 516 Economics of Uncertainty, Information, and Strategic Behavior. (3) F
Economic behavior under uncertainty; markets and contracts under asymmetric information; the theory of games with incomplete information and applications. Prerequisite: ECN 512 or instructor approval.

ECN 517 Monetary Theory. (3) F
Traditional and post-Keynesian monetary theory, interest rate determination, the demand and supply of money. Prerequisite: ECN 511 or instructor approval.

ECN 521 Labor Economics I. (3) F
Development of basic theoretical models for analyzing labor market issues. Prerequisite: ECN 510 or instructor approval.

ECN 522 Labor Economics II. (3) N
Extensions/criticisms of labor market theories. Applications to a variety of policy issues. Prerequisite: ECN 521.

ECN 525 Econometrics I. (3) S
Problems in the formulation of econometric models. Emphasis on estimation, hypothesis testing, and forecast of general linear models. Prerequisite: 6 hours of statistics or instructor approval.

ECN 526 Econometrics II. (3) F
Estimation and inference of qualitative and limited dependent variable models as well as general multiple equation models. Prerequisite: ECN 525 or instructor approval.

ECN 527 Econometrics III. (3) F
Generalized method of moment estimation, estimation with censored and truncated samples, nonlinear models, panel-data models, econometrics of nonstationarities. Prerequisite: ECN 526 or instructor approval.

ECN 531 Comparative Economic Systems. (3) F
Philosophical foundations of major economic systems and of properties of principal system models. Comparison of alternative institutions and system components of contemporary economies. Prerequisites: ECN 509 and 510 or instructor approval.

ECN 536 International Trade Theory. (3) S
Theories of comparative advantage and their empirical verification. Theory and political economy of commercial policy. Resource transfers and the role of the multinational corporation. Prerequisites: ECN 509 and 510 or instructor approval.

ECN 538 International Monetary Theory and Policy. (3) F
The foreign exchange market, balance of payments, and international financial institutions and arrangements; theory and applications. Prerequisites: ECN 509 and 510 or instructor approval.

ECN 541 Public Economics. (3) S
Economics of collective action, public spending, taxation, and politics. Impact of central governmental activity on resource allocation and income distribution. Prerequisite: ECN 510 or instructor approval.

ECN 550 Industrial Organization. (3) S
Analysis of structure, conduct, and performance in industrial markets: the economics of organizations. Prerequisite: ECN 510 or instructor approval.

ECN 560 Economics of Growth and Development. (3) F
Economic problems, issues, and policy decisions facing the developing nations of the world. Prerequisites: ECN 509 and 510 or instructor approval.

ECN 584 Economics Internship. (1–3) SS
Academic credit for professional work organized through the Internship Program. Prerequisites: ECN 510 and 511 or instructor approval.

ECN 585 Mathematics for Economists. (3) F
Survey of mathematical ideas encountered in economics and econometrics: nonlinear programming, the Kuhn-Tucker theorem, concave programming, optimization over time. Prerequisite: calculus or instructor approval.

ECN 589 Economics Seminar. (1–3) F, S, SS
Presentations by outside speakers, department faculty, and graduate students of work in progress. Prerequisite: instructor approval.

ECN 593 Applied Projects. (3) F
Preparation of a supervised applied project typically in conjunction with an internship. Prerequisites: ECN 510, 511.

ECN 594 Conference and Workshop in Economics. (1–12) F, S, SS
Topics such as the following are offered:
(a) Economic Analysis Workshop.
(b) Introduction to Economic Analysis. Prerequisite: Ph.D. degree program student.
(c) Macroeconomic Topics Workshop.
(d) Issues in macroeconomic theory. Prerequisite: ECN 513 or instructor approval.
(e) Microeconomic Topics Workshop.
(f) Issues in microeconomic theory. Prerequisite: ECN 514 or instructor approval.

ECN 598 Special Topics. (3) N
Advanced topics in economics. Consult the Schedule of Classes for offerings. Prerequisite: instructor approval.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.
QUANTITATIVE BUSINESS ANALYSIS (QBA)
Department of Economics

QBA 410 Applied Business Forecasting. (3) N
Application of forecasting techniques in business and institutional environments. Prerequisite: QBA 321.

QBA 421 Applied Quality Analysis II. (3) A
Applications of statistical tools employed in manufacturing and experimental research. Applications focus on design and improvement of processes. Prerequisite: QBA 321.

QBA 525 Applied Regression Models. (3) A
Simple linear regression, multiple regression, indicator variables, and logistic regression. Emphasis on business and economic applications. Prerequisite: MAT 210.

QBA 527 Categorical Data Analysis. (3) A
Discrete data analysis in business research. Multidimensional contingency tables and other discrete models. Prerequisite: QBA 525.

QBA 530 Experimental Design. (3) A
Experimental designs used in business research. Balanced and unbalanced factorial designs, repeated measures designs, and multivariate analysis of variance. Prerequisite: QBA 525 or equivalent.

QBA 531 Multivariate Methods. (3) A
Advanced statistical methods used in business research. Multivariate analysis of association and interdependence. Prerequisite: QBA 525.

QBA 540 Forecasting. (3) N
Foundation of statistical forecasts and forecast intervals; application of classical and computer-assisted forecasting methods to business forecasting problems. Prerequisites: MAT 210; QBA 502.

QBA 593 Applied Project. (1–12) N
QBA 599 Thesis. (1–12) N

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Education

MASTER OF EDUCATION

Master of Education (M.Ed.) programs in the College of Education prepare scholarly professionals. Programs are available in Counselor Education, Curriculum and Instruction, Educational Administration and Supervision, Educational Psychology, Higher and Postsecondary Education, Learning and Instructional Technology, and Special Education. Concentrations within the M.Ed. in Curriculum and Instruction include bilingual education, communication arts, early childhood education, elementary education, English as a second language, Indian education, mathematics education, multicultural education, reading education, science education, secondary education, and social studies education. Within Special Education, M.Ed. areas of concentration are education of the gifted, the mildly handicapped, the multicultural exceptional, and severely and multiply handicapped children.

Admission. The College of Education requires above-average performance on the verbal scale of the GRE in addition to the general requirements for admission to the Graduate College. (For some programs the Miller Analogies Test may be substituted for the GRE.) Individual divisions or programs, however, may require superior test scores or GPA for admission. Division admission committees review a variety of evidence presented by applicants for admission consideration. Applicants with lower test scores or grades below minimum levels may be considered for admission recommendation if counterbalancing evidence suggesting the potential for outstanding performance in a master’s program is available to division admission committees.

Program of Study. A minimum of 30 to 36 semester hours of course work approved by the student’s supervisory committee, division director, and the Graduate College is required for the Master of Education degree. Candidates for the Master of Education degree should contact the division offering the graduate degree they are seeking for specific core requirements. A program of study should be filed as early as possible and not later than upon completion of nine semester hours of graduate course work.

Examinations. All M.Ed. programs require successful completion of written comprehensive examinations. These examinations focus on the specialized content of the specific M.Ed. program of study. Comprehensive examinations are written and evaluated by program faculty. If the student should fail the written comprehensive examination, a reexamination may be administered no sooner than three months and no later than one year from the date of the original examination. Approval of the reexamination must be obtained from the supervisory committee, division director, and the dean of the Graduate College.

DOCTOR OF EDUCATION

The Doctor of Education (Ed.D.) degree is primarily a professional degree, designed for persons who wish to pursue careers as leaders in education or as applied researchers. Emphasis is on application of research and theory in education, and on acquisition of professional skills. Prospective students must demonstrate superior scholarship and leadership in professional education. Each student is expected to acquire broad knowledge in the major field and to produce a dissertation addressing a significant educational issue or problem.

Admission. Applicants must meet the general requirements established by the Graduate College as well as College of Education requirements. Satisfaction of these requirements does not guarantee admission. All divisions require submission of a two-page formal letter of application describing the applicant’s prior relevant experience and accomplishments and specifying areas of greatest interest as well as career goals. Individual divisions or programs may have standards higher than these minimums or may require submission of additional materials. Applicants should consult the division director or program coordinator for specific admission requirements.

Program of Study. The program requires a minimum of 60 semester hours beyond the master’s degree. Of these, at least six hours must be in internship. College of Education core courses must also be completed. These vary according to the degree sought. See “Courses,” below for a listing. The recommendation for the program committee is reviewed simultaneously with the program of study.

The quality of student work is evaluated through written comprehensive examinations, formal oral and written presentation of the dissertation proposal, and a final oral examination in defense of the dissertation. Students must demonstrate competence both in the application of research findings and in conducting research. The dean of the Graduate College, upon recommendation of the division director, appoints the dissertation committee for each Ed.D. student.
This committee reviews and evaluates the student’s dissertation proposal and conducts the final oral examination.

**Residency.** The minimum residence requirement for the Ed.D. degree is completion of 30 semester hours within a period of 18 consecutive months after admission to the doctoral program at ASU. Not more than 10 semester hours of Research (792), Applied Project (793), and Dissertation (799) credit may be included in the course work used to meet the 30-hour residence requirement.

**Continuous Enrollment and Reentry.** Graduate students in the College of Education who have not been in attendance at ASU for one or more semesters must apply to the Graduate College for reentry and, following approval of the reentry application, must register for a minimum of one semester hour of graduate credit in the degree area during each of the following semesters. Applications for reentry are considered along with all other new applications to the degree program.

Reentry is not an issue for students who maintain continuous enrollment and make satisfactory progress toward their degrees. If a program of study must be interrupted for one or more semesters, the student must apply to the supervisory committee and the division director for leave status, not to exceed one calendar year.

**Foreign Language Requirements.** None.

**Comprehensive Examinations.** When students have essentially completed the course work in an approved program of study, they should request permission from the Graduate College to take the comprehensive examinations. The written and oral examinations are designed to assess the student’s mastery of the field of specialization. Failure in the comprehensive examinations is considered final unless the supervisory committee and the director of the division recommend, and the dean of the Graduate College approves, a reexamination. A reexamination may be administered no sooner than three months and no later than one year from the date of the original examination. Only one reexamination is permitted.

**Candidacy.** Doctoral students should apply for admission to candidacy immediately after they have met all requirements for the degree, except the dissertation. These requirements include passing the comprehensive examinations and other requirements specified by the division.

**Research and Dissertation Requirements.** The dissertation should demonstrate advanced analytic competence and contribute to the understanding and improvement of professional practice. Each candidate must register for a combined total of 24 semester hours credit for 792 Research and 799 Dissertation. The final copy of the dissertation must be reviewed by the supervisory committee and the staff of the Graduate College at least three weeks before the degree conferral date. Copies of the Format Manual are available in the Graduate College.

**Final Examinations.** The final oral examination in defense of the dissertation is mandatory and must be held on the campus of ASU. The oral defense is scheduled by the supervisory committee with the approval of the dean of the Graduate College.

**Graduation.** The student is eligible for graduation when the Graduate College scholarship requirements have been met, the final oral examination has been passed, and the dissertation has been approved by the supervisory committee and accepted by the director of the division and the dean of the Graduate College.

Applications for graduation should be made no later than the date specified in the Graduate College calendar.

**Maximum Time Limit.** The candidate must take the final oral examination in defense of the dissertation within five years after passing the comprehensive examinations. Any exception must be approved by the supervisory committee and the dean of the Graduate College and ordinarily involves repetition of the comprehensive examinations.

**Courses.** The core courses for the College of Education graduate programs carry the prefix “COE.” These courses are no longer required for all graduate majors in the College of Education. Contact the appropriate division to obtain specific core requirements.

**COLEGE OF EDUCATION (COE)**

**COE 501 Introduction to Research and Evaluation in Education.** (3) F, S, SS
Overview of educational inquiry from controlled, quantitative to qualitative, naturalistic. Emphasis on locating and critically interpreting published research.

**COE 502 Introduction to Quantitative Methods.** (3) F, S, SS
Topics in statistical analysis, measurement, and research design. Exploratory data analysis, estimation theory, and statistical inference. Use of computers for data analysis. Cross-listed as EDP 502. Credit is allowed for only COE 502 or EDP 502.

**COE 503 Introduction to Qualitative Research.** (3) F, S, SS
Terminology, historical development, approaches (including ethnography, ethnomethodology, critical theory, grounded theory, and hermeneutics), and qualitative versus quantitative social sciences; methods of inquiry. Cross-listed as EDP 503. Credit is allowed for only COE 503 or EDP 503.

**COE 504 Learning and Instruction.** (3) F, S, SS
Introduction to psychology of learning and instruction. Includes the foundations of learning theories and their application to educational practice. Cross-listed as EDP 504. Credit is allowed for only COE 504 or EDP 504.

**COE 505 American Education System.** (3) F, S, SS
Political, social, historical, and philosophical analyses of American education at all levels. Examination of primary sources, legal findings, and case studies.

**Omnibus Graduate Courses.** See page 57 for omnibus graduate courses that may be offered.

The faculty in the Division of Educational Leadership and Policy Studies offer graduate programs leading to the Master of Education and Doctor of Education degrees in Educational Administration and Supervision.

Students interested in the Ph.D. degree with a field of study encompassing educational administration should refer to “Educational Leadership and Policy Studies,” page 183. See also “Doctor of Philosophy,” page 104, for general information on the Ph.D. degree.

For admission to the M.Ed. degree program applicants must submit scores on either the Graduate Record Examination (GRE) or the Miller Analogies Test (MAT); scores on the GRE are preferred. A minimum of 36 hours is required for the M.Ed. degree. Applicants for admission to the doctoral degree programs must submit scores on the GRE.

Candidates for all degrees must pass a written comprehensive examination. An oral examination over the written portion of the comprehensive examination may be required of Ed.D. candidates at the discretion of the student’s program committee. In addition, candidates for the Ed.D. must pass a final oral examination in defense of the dissertation. Candidates for the M.Ed. and Ed.D. programs may be required to take certain College of Education core courses depending upon previous experience and education. Preapproval by an advisor is required. The core courses are COE 501, 502, 503, 504, and 505. A set of research courses is required for the Ed.D. degree.

MASTER OF EDUCATION

See “Master of Education,” page 180, for information on the Master of Education degree.

DOCTOR OF EDUCATION

RESEARCH ACTIVITY

Faculty research includes the study of economics and financing of education, competency performance, administrator preparation, roles and characteristics of school administrators, educational demographics, equity in leadership, administrative decision processes, evaluation of teaching performance, evaluation of administrative performance, community education, effects of legislative budget limitations, personnel administration communications, alternative school programs, policy formation, and planning and school board problems. Students have the opportunity to work on research projects in the College of Education and in school districts and educational agencies throughout the state. The division is a member of the University Council for Educational Administration.

EDUCATIONAL ADMINISTRATION AND SUPERVISION (EDA)

EDA 501 Competency/Performance in Educational Administration. (3) F, SS
The nature of educational administration and the concept of competency as it applies to educational administration.

EDA 507 Computers in Educational Administration. (3) F
Survey of computer use and applications in educational administration. Lecture, lab.

EDA 510 Introduction to Organization and Administration of American Public Schools. (3) F, S
Organizational structure and administration of public education are explored through the application of legal and ethical concepts and relevant information of the social sciences. Cross-listed as SPF 510. Credit is allowed for only EDA 510 or SPF 510.

EDA 511 School Law. (3) S
Constitutional, statutory, and case law that relates to all school personnel, pupils, the school district, and other governmental units. Contracts, dismissals, tenure, retirement, pupil injuries, liability of personnel and district, school district boundary changes, and bonding.

EDA 521 Evaluation of Teaching Performance. (3) F
In-depth analysis of legal basis of teacher appraisal, teacher competency, measurement of teacher performance, and application of performance appraisal systems. Prerequisite: COE 504.

EDA 524 Theory and Application of Educational Administration. (3) F, SS
History and development of public school administration in the United States; current organizational patterns for public education at local, intermediate, state, and national levels; current theoretical positions in educational administration.

EDA 525 Human Relations and Societal Factors in Education. (3) N
Interrelations between problems of educational administration and interdisciplinary social sciences. Communications skills, morale, authority, and perception. Concepts from political science, economics, and social-psychology useful to the administrator.

EDA 526 Instructional Supervision. (3) F, S, SS
Administering curriculum improvement, in-service education, evaluating, and improving teaching competence; administrative instructional responsibilities.

EDA 527 Managerial Functions in School Administration. (3) N
Relates to the work of the central district office staff and the school principal. Use of human resources, educational planning, and organization and management of time.

EDA 544 Public School Finance. (3) F
Measures of ability, efforts, and educational need; capital outlay funding; tax revenues; federal, state, and local financing alternatives; major issues and trends in the financing of public education.

EDA 548 Community Relations in Education. (3) N
Administrative factors of primary importance in developing community involvement in public schools. Emphasis on theory and skill of school system and individual communication.
EDA 555 Educational Facility Planning. (3) N
School building needs, educational planning for facilities, responsibilities of architects, duties of contractors, and equipping and furnishing of school buildings.

EDA 571 School Business Management. (3) F, S, SS
Purchasing, budgeting, accounting, payroll management, auditing, financial reporting, insurance, and administration of nonteaching personnel and services.

EDA 573 School Personnel Administration. (3) S
Organization for personnel services; development of policy to govern selection, orientation, placement, remuneration, transfers, separations, and development of morale among instructional and noninstructional personnel.

EDA 576 The School Principalship. (3) F
Problem and laboratory approaches used to provide application of administrative activities of elementary and secondary schools. Prerequisites: EDA 501, 526.

EDA 634 Instructional Leadership. (3) N
Curricular practices and processes used by instructional leaders who plan, organize, and coordinate the professional activities in elementary and secondary schools. Prerequisite: EDA 526.

EDA 675 Politics of Education. (3) S
Social science theory and research are used to consider the political context of educational policy making. Prerequisite: COE 505.

EDA 676 The School Superintendency. (3) S
Critical examination of the school superintendency and the primary functions of this educational position. The duties, responsibilities, activities, and problems of the school superintendent are included. The unique leadership role of the school superintendent is examined. Prerequisite: instructor approval.

EDA 679 Administration of Special Programs in Education. (1–3) N
For personnel administering special educational services; responsibilities of superintendents, principals, supervisors, and directors for special education, student personnel, audiovisual, library science, and others.

EDA 711 Administrative Leadership. (3) F
Emphasis on research in leadership; application of research findings to administrative and supervisory functions in educational endeavors. Prerequisites: EDA 524; 30 semester hours in educational administration; admission to doctoral program.

EDA 722 Administration of Instructional Improvement. (3) S
Recent research relating to administrative and supervisory responsibilities for the improvement of the educational program. Effective processes by administrators, supervisors, consultants, and coordinators. Prerequisites: 30 semester hours in educational administration; admission to doctoral program.

EDA 733 Administrative Management. (3) S
Recent research relating to school management. School finance, law, buildings, transportation, food services, and supply management. Prerequisites: EDA 527, 544, 571; 30 semester hours in educational administration; admission to doctoral program.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.
Program Committee. The program committee (chair and at least two other members) advises in the preparation of the program of study and administers the comprehensive examinations. The committee must be approved by the dean of the Graduate College.

Dissertation Committee. After passing the comprehensive examination, a dissertation committee is formed upon the approval of the dean of the Graduate College. The dissertation committee approves the subject and title of the dissertation. Members of the program committee may also serve as members of the dissertation committee; however, the committees may have different memberships. The dissertation chair must be a faculty member designated eligible to serve in this capacity by the dean of the Graduate College.

Program of Study. Students entering the Ph.D. program are expected to meet the requirement of an 84-semester-hour program of study (including the semester hours transferred from the master’s degree in a related discipline). The following represents components of a program of study.

Policy Studies Foundation. At the heart of the Ph.D. program are 27 semester hours of course work on the foundations of policy studies. During the students’ first year in the program, they take a two-semester sequence, Proseminar I and II (six hours). In addition, they take Evaluation Theory (three hours). In the second year, students enroll for Theoretical Issues in Policy Studies (three hours). Other required courses in this category are Foundations of American Education, Politics of Education, Policy Issues in Learning and Instruction, Theory of Educational Organization, and Social and Historical (three hours each). To understand the economic and financial aspects of educational policy, students take one of the following three courses (three hours each): Higher Education Finance and Budgeting, Political Economy, or Public School Finance.

Advanced Research Methods. Students must complete a minimum of nine semester hours of research methods plus Introduction to Qualitative Research. Advanced Quantitative Research is required of all students and presumes an introductory course in statistics has been taken successfully. If the student has not taken such a course COE 502 must be taken for no credit. Courses satisfying this requirement can be taken outside the College of Education curricula with the committee chair’s approval. The courses taken deepen the student’s research emphasis, whether it is qualitative or quantitative.

Specialty Studies. Each student completes 12 semester hours of course work in an area of special interest. This course work represents added depth in the specialty in which the student plans to practice as a scholar, administrator, or policy analyst. The specialty areas are policy analysis, economics, finance, K–12 education, social and philosophical foundations, and research and evaluation methodology.

Practicum. Students must earn three semester hours of credit for a supervised practicum. This work is planned in conjunction with the student’s committee chair and involves applied work in a practical setting relating to the student’s intended postdoctoral position.

Research and Dissertation. Each Ph.D. candidate is required to complete a minimum of 24 semester hours of research and dissertation.

Foreign Language Requirements. None.

Comprehensive Examinations. The examination centers on the professional focus and the cognate study and must be passed before admission to candidacy. A written examination is required; an oral examination over the written portion may be required at the discretion of the student’s program committee.

Dissertation Precis and Proposal. The precis is a 15-page summary of the dissertation research proposed by the student. Upon approval of the precis by the dissertation committee, the student proceeds with developing a dissertation proposal.

Research and Dissertation. Twenty-four semester hours of research and dissertation credit are required. The dissertation must consist of a fully documented written study demonstrating a high level of research competence and scholarship in the student’s area of professional focus. The dissertation should make an original contribution to knowledge in the area of educational leadership and policy studies and be worthy of publication by an established press as a book or monograph or as one or more articles in a refereed scholarly journal.

Final Examinations. A final oral examination in defense of the dissertation is required.

RESEARCH ACTIVITY

Faculty research focuses on issues in education from preschool to higher education, such as: culture, language, and the schools; access to education by women and ethnic minorities; financing public education; the role of educational leaders; the schools’ use of technology. The approach is interdisciplinary since problems in education are illuminated by all of the social and behavioral sciences as well as the humanities. Research techniques include both quantitative and qualitative methods.

COURSES

For courses, see “Educational Administration and Supervision (EDA),” page 182, “Higher and Postsecondary Education (HED),” page 221, and “Social and Philosophical Foundations (SPF),” page 293.

Educational Media and Computers

Gary G. Bitter
Program Coordinator
(EDB 146) 480/965-7192
eavilez@asu.edu

The faculty in the Division of Curriculum and Instruction offer a graduate program leading to the Master of Education degree in Educational Media and Computers. However, applications are not currently being accepted for this program.
EDUCATIONAL MEDIA AND COMPUTERS (EMC)

EMC 455 Animation and Special Effects. (3) S
Examination of the art, science, and impact of animation and other special effects used in film.

EMC 503 Current Issues and Problems in Media/Computer Education. (3) F
Introduction to current theory and practice in instructional media and computers. Overview of production areas.

EMC 505 Presentation Technology for Multimedia. (3) F, S
Exploration of multimedia hardware and software used in creating presentations for educational, corporate, and commercial applications. Lecture, lab.

EMC 521 Instructional Media Design. (3) F, S
Use and evaluation of computers for word processing, information management, graphics, and authoring instruction in educational settings.

EMC 513 Introduction to Multimedia. (3) F, S
Introduction to multimedia, emphasizing applications for business, industry, and public and higher education.

EMC 521 Instructional Media Design. (3) F, S, SS
Solve problems using technology; specify solutions to instructional design challenges. Prerequisite: EMC 511 or instructor approval.

EMC 522 Evaluating Computer Materials. (3) F
Selection, utilization, design, and evaluation of instructional computer material. Focus on learning theory, criteria for evaluating educational software.

EMC 523 Distance Education Systems for Instruction. (3) F
Introduction to Internet resources for educators. Instructional applications of distance-learning technologies.

EMC 524 Imaging Technology. (3) F, S, SS
Use of optical scanning and digital data manipulation of photographs for use in educational presentations and publications.

EMC 525 Presentation Graphics. (3) S
Design, production, and display of computer graphics for group presentations. Prerequisite: EMC 521 or instructor approval.

EMC 528 Photomedia Production. (3) S
Design and production of multimedia programs. Emphasis on slide/tape format. Prerequisites: EMC 521 and 524 and 525 or instructor approval.

EMC 530 Development of Computer-Based Instruction. (3) S
Systematic design, development, and formative evaluation of computer-based instruction. Prerequisite: EMC 511 or instructor approval.

EMC 531 Hypermedia. (3) F, S
Explores the design, development, and production of computer-based instruction for education and industry. Lecture, lab.

EMC 532 Desktop Publishing. (3) F, SS
Design and production of educational materials using computer-based word processing, graphics, and page layout programs. Lecture, lab.

EMC 535 Interactive Video. (3) S
Use of various authoring systems and support programs to assist in the design and production of regular and repurposed interactive video. Lecture, lab.

EMC 584 Educational Media Internship. (1–6) F, S, SS
Prerequisites: EMC 521; LNT 502; instructor approval.

EMC 637 Computers in Elementary School Curriculum, (3) SS
Experiences with educational uses of computers; computer awareness, family/societal impact, classroom applications/software, and curriculum development.

EMC 701 Advanced Technologies in Education. (3) S
Examining the role and impact of artificial intelligence, expert systems, and related advanced technologies in education.

EMC 702 Research in Technology-Based Education. (3) F
Critical exposure to theories, research, and methods in technology-based education.

EMC 703 Research in Distance Education. (3) S
Seminar with emphasis on research in telecommunications and distance education. Prerequisite: EMC 523 or instructor approval.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.
academic and professional areas through course work, research, practica, and internship. Graduates are employed in school districts, behavioral health settings serving children and adolescents, and universities. All application materials, including test scores, must be received by January 15 to be considered for admission the following academic year. For more information on the faculty, the programs of study, and admission requirements, applicants should contact the Division of Psychology in Education and request the School Psychology Program brochure.

See “Doctor of Philosophy,” page 104, for general information on the Ph.D. degree.

RESEARCH ACTIVITY

Research in methodology includes the development and assessment of theory and techniques of design, statistics, psychometrics, and evaluation. Specific topics include multivariate analysis, personnel and program evaluation, qualitative methodology, and use of computers in instruction and testing.

Research in human development includes studies of critical thinking, moral development and honesty, prejudice, belief systems, authority, social environments of schools, and cultural influences on development.

School psychology research involves assessment of cognitive and academic skills, classroom processes and school cultures, and assessment of minority individuals. Additional research topics in school psychology include cognitive-emotional processes in achievement motivation, cognitive behavioral interventions, and social-cognitive development.

EDUCATIONAL PSYCHOLOGY (EDP)

EDP 502 Introduction to Quantitative Methods. (3) F, S, SS
Topics in statistical analysis, measurement, and research design. Exploratory data analysis, estimation theory, and statistical inference. Use of computers for data analysis. Cross-listed as COE 502. Credit is allowed for only COE 502 or EDP 502.

EDP 503 Introduction to Qualitative Research. (3) F, S, SS
Terminology, historical development, approaches (including ethnography, ethnomethodology, critical theory, grounded theory, and hermeneutics), and qualitative versus quantitative social sciences; methods of inquiry. Cross-listed as COE 503. Credit is allowed for only COE 503 or EDP 503.

EDP 504 Learning and Instruction. (3) F, S, SS
Introduction to psychology of learning and instruction. Includes the foundations of learning theories and their application to educational practice. Cross-listed as COE 504. Credit is allowed for only COE 504 or EDP 504.

EDP 510 Essentials of Classroom Learning. (3) F, S, SS
Theoretical and empirical foundations of learning in the classroom milieu. Critical exposure to research and method in instructional psychology. Cross-listed as LNT 510. Credit is allowed for only EDP 510 or LNT 510.

EDP 513 Child Development. (3) F, S, SS
Examination of problems and achievements experienced by children growing up in a technological society. Emphasis on discovering the child’s perspective.

EDP 514 Psychology of the Adolescent. (3) F, S, SS
Cognitive, physical, and social development of adolescents in contemporary society. Impact of family, school, and workplace on adolescent development. Prerequisite: EDP 510 or PGS 101 or equivalent.

EDP 530 Theoretical Issues and Research in Human Development. (3) F
Psychological theories, research, and methods relevant to human development, emphasizing the relations between early development and later performance.

EDP 535 Applied Behavior Analysis. (3) F
Principles of conditioning as applied to behavior. Current research on the experimental analysis of behavior in educational psychology.

EDP 536 Physiology of Behavioral Disorders. (3) F
Critical study of nervous system, brain function for fundamental behaviors, and system dysfunctions in mental/neurological disorders. Prerequisite: instructor approval.

EDP 540 Theoretical Views of Learning. (3) F, S
Classical and cognitive theories of learning, plus recent orientations. Illustrative experimental and rational foundations; implications for educational practice. Cross-listed as LNT 540. Credit is allowed for only EDP 540 or LNT 540.

EDP 542 The Psychology of Learning and Instruction. (3) S
Critical review and evaluation of research on learning variables relevant to acquisition and retention of instructional materials. Lab. Cross-listed as LNT 542. Credit is allowed for only EDP 542 or LNT 542.

EDP 544 Psychology of Reading. (3) F
Alternate analyses of the reading process; designs and procedures for investigating instructional and noninstructional variables related to reading achievement.

EDP 550 Introduction to Measurement in Education. (3) F, S
Nature and types of educational measures. Critiquing and selecting appropriate measuring devices. Constructing measuring devices. Social controversies about tests. Lecture, lab. Prerequisite: EDP 502 or instructor approval.

EDP 552 Quantitative Data Analysis in Education I. (3) F, S, SS
Continued treatment of statistical estimation, testing, and research synthesis. Inferential techniques including ANOVA and multiple regression with computers. Lecture, lab. Prerequisite: EDP 502 or instructor approval.

EDP 554 Quantitative Data Analysis in Education II. (3) F, S, SS
Advanced issues in applied multiple regression and ANOVA. Introduction to ANCOVA. Use of computers for data analysis. Lecture, lab. Prerequisite: EDP 552 or instructor approval.

EDP 556 Data Processing Techniques in Measurement and Research. (3) A
Use of statistical packages for data analysis. Emphasis on data management, data structures, and related statistical procedures. Lecture, lab. Prerequisite: EDP 552. Pre- or corequisite: EDP 554 or instructor approval.

EDP 560 Individual Intellectual Assessment. (3) F, S
Issues in administration and interpretation of individual intelligence tests. Theoretical basis, ethical considerations, and diagnostic use of test results. Prerequisite: admission to a program in professional psychology or instructor approval.

EDP 561 Lab in Psychological Assessment. (3) S
Lab experience in administration, scoring, and interpretation of individual intelligence tests. Lab. Prerequisite: admission to a program in professional psychology or instructor approval. Corequisite: EDP 560.

EDP 562 School Psychology: Theory and Practice. (3) F
Development and present status of school psychology, including an overview of assessment and intervention strategies and professional issues.

EDP 563 Interventions in School Psychology. (3) F
Examination of case-based consultation and consultation research relevant to school psychology practice. Field experience. Prerequisite: school psychology program or instructor approval.

EDP 564 Curriculum-Based Assessment and Academic Interventions. (3) S
Conducting, administering, and scoring outcome-based measures. Use of measures for using the various educational decisions.

EDP 566 Diagnosis of Learning Difficulties. (3) S
Clinical diagnosis of learning difficulties, emphasizing specific academic problems. Use and interpretation of diagnostic instruments in practical school situations. Prerequisites: EDP 560 and 562 or equivalents; instructor approval.

EDP 567 School Psychological Services to Minority Students. (3) S
Historical perspectives and major issues in psychological and academic assessment and interventions with minority school children.

EDP 568 Diagnosis and Interventions for Children and Adolescents with Emotional Handicaps. (3) F
Clinical diagnosis of emotional handicaps in children and adolescents with emphasis on interpretation of diagnostic instruments and designing appropriate interventions in school settings. Lecture, lab. Prerequisites: EDP 566; PSY 578 or equivalent.
EDP 651 Methods and Practices of Qualitative Research. (3) S Advanced course for students familiar with theory and extant work. Topics include data collection, analysis, reporting, and an extensive fieldwork project. Prerequisite: COE 503.
EDP 652 Multivariate Procedures in Data Analysis I. (3) F Introduction to matrix algebra. Application of MANOVA, MANCOVA, power analysis, effect size, discriminant and repeated measures analysis with computers. Lecture, lab. Prerequisite: EDP 554 or instructor approval.
EDP 654 Multivariate Procedures in Data Analysis II. (3) S Treatment of applied multivariate multiple regression, canonical correlation, factor analysis, log-linear models, and structural equation models with computers. Lecture, lab. Prerequisite: EDP 652 or instructor approval.
Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Electrical Engineering
Joseph C. Palais
Director of Graduate Studies
(ENGRC 555) 480/965-3590
einfo@asu.edu
www.eas.asu.edu/~eee

REGENTS’ PROFESSORS
BALANIS, FERRY

PROFESSORS
CROUCH, EL-GHAZALY, GOODNICK, GORUR, HEYDT, HIGGINS, KARADY, KOZICKI, PALAIS, PAN, ROEDEL, SCHRODER, SPANIAS, THORNTON

ASSOCIATE PROFESSORS
ABERLE, ALLEE, BIRD, CHAKRABARTI, COCHRAN, EL-SHARAWY, GREENEICH, GRONDIN, HOLBERT, MORRELL, RODRIGUEZ, SHEN, SI, SKROMME, TSAKALIS, TYLAWSKY, ZHANG

ASSISTANT PROFESSORS
CAPONE, DUMAN, KARAM, VASILESKA-KAFEDZISKA, YAZDI

The faculty in the Department of Electrical Engineering offer graduate programs leading to the M.S., the Master of Engineering, the Master of Science in Engineering, and the Ph.D. degrees in Electrical Engineering.

The faculty also participate in offering the interdisciplinary program leading to the Ph.D. degree in the Science and Engineering of Materials. See “Science and Engineering of Materials,” page 290, for program description.

Admission. See “Admission to the Graduate College,” page 92. In addition, a student whose undergraduate degree is not based on an ABET-accredited program must submit scores on the Graduate Record Exam and must have earned the equivalent of a 3.50 GPA in the last two years of study. All applicants must submit a statement of purpose to the department. This statement must include the desired area of study within electrical engineering. Refer to the department’s Web site cited above for further information on programs, faculty, financial aid, and for admission and statement of purpose forms.

Internship. An internship program is available to full-time, on-campus, graduate students. Students spend a semester or a summer session at an engineering company. Up to three hours of credit are allowed under courses EEE 584, 684, or 784.

MASTER OF SCIENCE

See “Master’s Degrees,” page 101, for general information.

MASTER OF ENGINEERING

The Master of Engineering requires 30 hours of course work. It is a practice-oriented degree. Included in the 30 hours are three hours of applied mathematics and three hours of engineering management. Up to six hours of credit can be obtained for a practice-oriented project. A final examination is also required. Courses may be taken at any of Arizona’s three state universities. Courses are offered by distance delivery whenever practical. For more information access the Web site at www.TriUniv.engr.arizona.edu.

MASTER OF SCIENCE IN ENGINEERING

See “Master of Science in Engineering,” page 191, for information on the Master of Science in Engineering degree.

A final written comprehensive exam is required for Option two in this program. Most master’s degree students are admitted to the M.S.E. program, Option two. Those who are offered financial support or who are outstanding students showing research potential are admitted to the M.S. program.

DOCTOR OF PHILOSOPHY

The Ph.D. degree in Electrical Engineering is awarded based upon evidence of excellence in research leading to a scholarly dissertation that is a contribution to knowledge. See “Doctor of Philosophy,” page 104, for general requirements.

Program of Study. The program of study should be filed soon after the student has been admitted to the program and the supervisory committee has been formed.

Foreign Language Requirements. None.

Qualifying Examinations. Every student must pass a qualifying examination consisting of a short research paper and an oral presentation of the research. The exam must take place before the end of the second semester in attendance at ASU.

Comprehensive Examinations. Written and oral comprehensive examinations are required before the student is admitted to candidacy. The examinations are administered by the supervisory committee.

Dissertation Requirements. A dissertation based on original work demonstrating creativity in research and scholarly proficiency in the subject area is required.

Final Examinations. A final oral examination in defense of the dissertation is required.
RESEARCH ACTIVITY

Opportunities at the level of the master’s or doctoral degree are offered to students whose goals are research, development, design, manufacturing, systems, engineering management, teaching, or other professional activities in electrical engineering or related disciplines.

Research opportunities in the Department of Electrical Engineering are available in a broad spectrum of subjects encompassing traditional as well as new specialties. Significant research activity exists in coherent optics, communications, control systems, electromagnetics, power systems, signal processing, and solid-state electronics, reflecting the continuing strong interest and cooperation of local industry in these disciplines. Engineering education, low-power electronics, power systems, solid-state electronics, telecommunications, and system science and engineering have been selected for support as part of a program establishing excellence centers at ASU.

The list that follows provides an indication of the breadth of subjects available for research in the department. A research project may embrace more than one of the topics listed and may involve cooperative activity with local industry. The list is not meant to be exhaustive; topics other than those shown may also be suitable.

Antennas, Microwaves, Computational Electromagnetics, and Radar. Antennas: antenna analysis, design, and measurements; electromagnetic wave radiation, propagation, scattering, and reception; slotted waveguides; patch antennas; antenna broadening techniques. Microwaves: microwave circuits, devices, and systems; microwave, millimeter wave, and optical integrated circuits and transmission lines; transient analysis of striplines and microstrips; printed lines on anisotropy substrates; microwave solid-state circuits and devices and measurement techniques. Packaging of microwave integrated circuits. Computational electromagnetics: Geometrical and physical theories of diffraction; moment method; finite-difference time-domain; finite element. Radar: wideband radar techniques, radar cross section, radar multipath, and tracking.

Communications. Digital communications: modulation, coding, equalization, wireless communications, multiple access; communications networks: wireless networks, quality of service, and integrated services.

Control Systems. Nonlinear systems analysis and control; adaptive control; robust control; sampled-data and real-time digital control, virtual instrumentation in control; neural networks; system identification and model validation; control of distributed parameter systems; modeling, simulation, and graphical visualization of dynamical systems. Applications to aerospace, robotics, semiconductor processes, manufacturing systems, and power systems.

Signal Processing. Digital signal processing (DSP) algorithms; signal processing architectures; DSP Chips; detection and estimation; nonlinear signal analysis; statistical decision theory; spectral estimation; array signal processing; time-frequency representations; sonar and radar applications; signal processing in communication systems; image processing and compression; speech coding and recognition; multimedia signal processing; audio coding algorithms; adaptive signal processing; adaptive noise cancellation.

In addition, students are encouraged to undertake interdisciplinary research projects encompassing several technical areas in electrical engineering, as well as other areas of engineering, science and mathematics.

ELECTRICAL ENGINEERING (EEE)

EEE 405 Filter Design. (3) F
Principles of active and passive analog filter design, frequency domain approximations, sensitivity and synthesis of filters. Prerequisite: EEE 303.

EEE 407 Digital Signal Processing. (4) F
Time and frequency domain analysis, difference equations, z-transform, FIR and IIR Digital Filter Design, Discrete Fourier Transform, FFT, and random sequences. Lecture, lab. Prerequisites: EEE 303; MAT 342.

EEE 425 Digital Systems and Circuits. (4) F, S
Digital logic gate analysis and design. Propagation delay times, fan out, power dissipation, noise margins. Design of MOS and bipolar logic families, including NMOS, CMOS, standard and advanced TTL, ECL, and BiCMOS. Inverter, combinational and sequential logic circuit design, MOS memories, VLSI circuits. Computer simulations using PSPICE. Lecture, lab. Prerequisite: EEE 334.

EEE 433 Analog Integrated Circuits. (3) S
Analysis, design, and applications of modern analog circuits using integrated bipolar and field effect transistor technologies. Prerequisite: EEC 334.
EEE 434 Quantum Mechanics for Engineers. (3) F
Angular momentum, wave packets, Schroedinger wave equation, probability, problems in one dimension, principles of wave mechanics, scattering, tunneling, central forces, angular momentum, hydrogen atom, perturbation theory, variational techniques. Prerequisites: ECE 352; EEE 340.

EEE 435 Microelectronics. (3) S
Practice of solid-state device fabrication techniques, including thin film and integrated circuit fabrication principles. Lecture, lab. Prerequisites: EEE 436.

EEE 436 Fundamentals of Solid-State Devices. (3) F, S
Semiconductor fundamentals, pn junctions, metal-semiconductor contacts, metal-oxide-semiconductor capacitors and field-effect transistors, bipolar junction transistors. Prerequisite: ECE 352.

EEE 437 Optoelectronics. (3) N
Basic operating principles of various types of optoelectronic devices which play important roles in commercial and communication electronics; light emitting diodes, injection lasers, and photodetectors. Prerequisite: EEE 436.

EEE 439 Semiconductor Facilities and Cleanroom Practices. (3) F, S
Microcontamination, controlled environments, cleanroom layout and systems, modeling, codes and legislation, ultrapure water, production materials, personnel and operations, hazard management, advanced concepts. Prerequisite: EEE 439 or instructor approval.

EEE 440 Electromagnetic Engineering II. (4) F, S
Second half of an introductory course in electromagnetic theory and its application in electrical engineering. Analytical and numerical solutions of boundary value problems. Advanced transmission lines; waveguides; antennas; radiation and scattering. Lecture, lab. Prerequisite: EEE 340 or equivalent.

EEE 443 Antennas. (3) S
Fundamental parameters; engineering principles and radiation integrals; linear wire antennas; loops and arrays; numerical computations; measurements. Prerequisite: EEE 340 or equivalent.

EEE 445 Microwaves. (4) F
Waveguides; circuit theory for waveguiding systems; microwave devices, systems, and energy sources; striplines and microstrips; impedance matching transformers; measurements. Lecture, lab. Prerequisite: EEE 340 or equivalent.

EEE 448 Fiber Optics. (4) F
Principles of fiber-optic communications. Lecture, lab. Prerequisites: EEE 303, 340.

EEE 455 Communication Systems. (4) F, S
Signal analysis techniques applied to the operation of electrical communication systems. An introduction to and overview of modern digital and analog communications. Lecture, lab. Prerequisite: EEE 350.

EEE 459 Communication Networks. (3) S

EEE 460 Nuclear Concepts for the 21st Century. (3) N
Radiation interactions, damage, dose, and instrumentation. Cosmic rays, satellite effects; soft errors; transmutation doping. Fission reactors, nuclear power. TMI, Chernobyl. Radioactive waste. Prerequisite: PHY 241 or 361.

EEE 463 Electrical Power Plant. (3) F
Nuclear, fossil, and solar energy sources. Analysis and design of steam supply systems, electrical generating systems, and auxiliary systems. Power plant efficiency and operation. Prerequisites: ECE 301, 340 (or PHY 241).

EEE 470 Electric Power Devices. (3) F
Analysis of devices used for short circuit protection, including circuit breakers, relays, and current and voltage transducers. Protection against switching and lightning over voltages. Insulation coordination. Prerequisite: EEE 360.

EEE 471 Power System Analysis. (3) S
Review of transmission line parameter calculation. Zero sequence impedance, symmetrical components for fault analysis, short circuit calculation, review of power flow analysis, power system stability, and power system control concepts. Prerequisite: EEE 360.

EEE 473 Electrical Machinery. (3) F
Operating principles, constructional details, and design aspects of conventional DC and AC machines, transformers and machines used in computer disc drives, printers, wrist watches, and automobiles. Prerequisite: EEE 360.

EEE 480 Feedback Systems. (4) F, S
Analysis and design of linear feedback systems. Frequency response and root locus techniques, series compensation, and state variable feedback. Lecture, lab. Prerequisite: EEE 303.

EEE 482 Introduction to State Space Methods. (3) F

EEE 490 Senior Design Laboratory. (3) F, S
Project-oriented laboratory. Each student must complete one or more design projects during the semester. Lecture, lab. Prerequisites: ECE 330, 334; EEE 303; senior status. General Studies: L.

EEE 506 Digital Spectral Analysis. (3) S
Principles and applications of digital spectral analysis, least squares, random sequences, parametric, and nonparametric methods for spectral estimation. Prerequisites: EEE 407, 554.

EEE 507 Multidimensional Signal Processing. (3) F
Processing and representation of multidimensional signals. Design of systems for processing multidimensional data. Introduction to image and array processing issues. Prerequisite: EEE 407 or instructor approval.

EEE 508 Digital Image Processing and Compression. (3) S
Fundamentals of digital image perception, representation, processing, and compression. Emphasis on image coding techniques. Signals include still pictures and motion video. Prerequisites: EEE 350 and 407 or equivalents.

EEE 511 Artificial Neural Computation Systems. (3) F
Networks for computation, learning function representations from data, learning algorithms and analysis, function approximation and information representation by networks, applications in control systems and signal analysis. Prerequisite: instructor approval.

EEE 523 Advanced Analog Integrated Circuits. (3) F
Analysis and design of analog integrated circuits: analog circuit blocks, reference circuits, operational-amplifier circuits, feedback, and nonlinear circuits. Prerequisite: EEE 433 or equivalent.

EEE 525 VLSI Design. (3) F, S
Analysis and design of Very Large Scale Integrated (VLSI) Circuits. Physics of small devices, fabrication, regular structures, and system timing. Open only to graduate students.

EEE 526 VLSI Architectures. (3) F
Special-purpose architectures for signal processing. Design of array processor systems at the system level and processor level. High-level synthesis. Prerequisite: CSE 330 or EEE 407 or instructor approval.

EEE 527 Analog to Digital Converters. (3) F
A detailed introduction to the design of Nyquist rate, CMOS analog to digital converters. Prerequisite: EEE 523.

EEE 530 Advanced Silicon Processing. (3) S
Thin films, CVD, oxidation, diffusion, ion-implantation for VLSI, metallization, silicides, advanced lithography, dry etching, rapid thermal processing. Pre- or corequisite: EEE 435.

EEE 531 Semiconductor Device Theory I. (3) F
Transport and recombination theory, pn and Schottky barrier diodes, bipolar and junction field-effect transistors, and MOS capacitors and transistors. Prerequisite: EEE 436 or equivalent.

EEE 532 Semiconductor Device Theory II. (3) S
Advanced MOSFETs, charge-coupled devices, solar cells, photodetectors, light-emitting diodes, microwave devices, and modulation-doped structures. Prerequisite: EEE 531.

EEE 533 Semiconductor Process/Device Simulation. (3) F
Process simulation concepts, oxidation, ion implantation, diffusion, device simulation concepts, pn junctions, MOS devices, bipolar transistors. Prerequisite: EEE 436 or equivalent.

EEE 534 Semiconductor Transport. (3) S
Carrier transport in semiconductors. Hall effect, high electric field, Boltzmann equation, correlation functions, and carrier-carrier interactions. Prerequisites: EEE 434, 436 (or 531).

EEE 536 Semiconductor Characterization. (3) S
Measurement techniques for semiconductor materials and devices. Electrical, optical, physical, and chemical characterization methods. Prerequisite: EEE 436 or equivalent.

EEE 537 Semiconductor Optoelectronics I. (3) F
Electronic states in semiconductors, quantum theory of radiation, absorption processes, radiative processes, nonradiative processes, photoluminescence, and photonic devices. Prerequisites: EEE 434, 436 (or 531).
EEE 538 Semiconductor Optoelectronics II. (3) S
Material and device physics of semiconductor lasers, light-emitting
diodes, and photodetectors. Emerging material and device technology
in III-V semiconductors. Prerequisite: EEE 537.

EEE 539 Introduction to Solid-State Electronics. (3) F
Crystal lattices, reciprocal lattices, quantum statistics, lattice dynamics,
equilibrium, and nonequilibrium processes in semiconductors.
Prerequisite: EEE 434.

EEE 541 Electromagnetic Fields and Guided Waves. (3) N
Polarization and magnetization; dielectric, conducting, anisotropic,
and semiconducting media; duality, uniqueness, and image theory;
plane wave functions, waveguides, resonators, and surface guided
waves. Prerequisite: EEE 440 or equivalent.

EEE 543 Antenna Analysis and Design. (3) F
Impedances, broadband antennas, frequency independent antennas,
miniaturization, aperture antennas, horns, reflectors, lens antennas,
and continuous sources design techniques. Prerequisite: EEE 443 or
equivalent.

EEE 544 High Resolution Radar. (3) N
Fundamentals: wideband coherent design, waveforms, and processing;
stepped frequency; synthetic aperture radar (SAR); inverse synthetic
aperture radar (ISAR); imaging. Prerequisites: EEE 303 and
340 or equivalents.

EEE 545 Microwave Circuit Design. (3) S
Analysis and design of microwave attenuators, in-phase and quadrature-
phase power dividers, magic tee’s, directional couplers, phase
shifters, DC blocks, and equalizers. Prerequisite: EEE 445 or instruc-
tor approval.

EEE 546 Advanced Fiber-Optics. (3) N
Theory of propagation in fibers, connectors and couplers, distribution
networks, modulation, noise and detection, system design, and fiber
sensors. Prerequisite: EEE 448 or instructor approval.

EEE 547 Microwave Solid-State Circuit Design I. (3) S
Application of semiconductor characteristics to practical design of
microwave mixers, detectors, limiters, switches, attenuators, multipli-
ers, phase shifters, and amplifiers. Prerequisite: EEE 545 or instructor
approval.

EEE 548 Coherent Optics. (3) N
Diffraction, lenses, optical processing, holography, electro-optics,
and lasers. Prerequisite: EEE 440 or equivalent.

EEE 549 Lasers. (3) N
Theory and design of gas, solid, and semiconductor lasers. Prerequi-
site: EEE 448 or instructor approval.

EEE 550 Transform Theory and Applications. (3) N
Introduction to abstract integration, function spaces, and complex
analysis in the context of integral transform theory. Applications to sig-
nal analysis, communication theory, and system theory. Prerequisite:
EEE 303.

EEE 551 Information and Coding Theory. (3) N
Fundamental theorems of information theory for sources and chan-
nels; convolutional and burst codes. Prerequisites: EEE 553, 554.

EEE 552 Digital Communications I. (3) S
Fundamentals of digital communications: complex signal theory; mod-
ulation; optimal coherent and incoherent receivers; coded modulation
and the Viterbi algorithm. Prerequisites: EEE 455, 554.

EEE 553 Error-Correcting Codes. (3) S
Application of modern algebra to the design of random error-detecting
and error-correcting block codes. Prerequisite: EEE 455.

EEE 554 Random Signal Theory I. (3) F
Application of statistical techniques to the representation and analysis of
electrical signals and to communications systems analysis. Prereq-
suire: EEE 350 or instructor approval.

EEE 555 Random Signal Theory II. (3) N
Processing of signals in the presence of noise. Random signals, correla-
tion, frequency spectra, estimation, filtering, noise, prediction, and
transients. Prerequisite: EEE 554.

EEE 556 Detection and Estimation Theory. (3) S
Combination of the classical techniques of statistical inference and the
random process characterization of communication, radar, and other
modern data processing systems. Prerequisites: EEE 455, 554.

EEE 558 Digital Communications II. (3) F
Continuation of EEE 552. Advanced topics in digital communications:
synchronization; multipath and fading; equalization; miscellaneous
topics. Prerequisite: EEE 552.

EEE 571 Power System Transients. (3) N
Simple switching transients. Transient analysis by deduction. Damping
of transients. Capacitor and reactor switching. Transient recovery vol-
tage. Travelling waves on transmission lines. Lightning. Protection of
equipment against transient overvoltages. Introduction to computer
analysis of transients. Prerequisite: EEE 471.

EEE 572 Advanced Power Electronics. (3) N
Analysis of device operation, including thyristors, gate-turn-off thyris-
tors, and transistors. Design of rectifier and inverter circuits. Applica-
tions such as variable speed drives, HVDC, motor control, and
uninterruptable power supplies. Prerequisite: EEE 470.

EEE 573 Electric Power Quality. (3) S
Sinusoidal wave shape maintenance; study of momentary events,
power system harmonics, instrumentation, filters, power conditioners,
and other power quality enhancement methods. Prerequisite: EEE 360 or equivalent.

EEE 574 Computer Solution of Power Systems. (3) N
Algorithms for digital computation for power flow, fault, and stability
analysis. Sparse matrix and vector programming methods, numerical
integration techniques, stochastic methods, solution of the least
squares problem. Prerequisite: EEE 471.

EEE 577 Power Engineering Operations and Planning. (3) F
Economic dispatch, unit commitment, dynamic programming, power
system planning and operation, control, generation modeling, AGC,
and power production. Prerequisite: EEE 471 or graduate standing.

EEE 579 Power Transmission and Distribution. (3) S
High-voltage transmission line electric design; conductors, corona, RI
and TV noise, insulators, clearances. DC characteristics, feeders volt-
age drop, and capacitors. Prerequisite: EEE 470.

EEE 581 Filtering of Stochastic Processes. (3) N
Modeling, estimation, and filtering of stochastic processes, with
emphasis on the Kalman filter and its applications in signal processing
and control. Prerequisites: EEE 482, 550, 554.

EEE 582 Linear System Theory. (3) S
Controllability, observability, and realization theory for multivariable
continuous time systems. Stabilization and asymptotic state estima-
tion. Disturbance decoupling, noninteracting control. Prerequisite:
EEE 482.

EEE 584 Internship. (3) F, S, SS
Work performed in an industrial setting that provides practical experi-
ence and adds value to the classroom and research learning pro-
cesses.

EEE 585 Digital Control Systems. (3) F
Analysis and design of digital and sampled data control systems,
including sampling theory, z-transforms, the state transition method,
stability, design, and synthesis. Prerequisites: EEE 482, 550.

EEE 586 Nonlinear Control Systems. (3) N
Stability theory, including phase-plane, describing function, Liapunov’s
method, and frequency domain criteria for continuous and discrete,
nonlinear, and time-varying systems. Prerequisite: EEE 482.

EEE 587 Optimal Control. (3) F
Optimal control of systems. Calculus of variations, dynamic program-
ing, linear quadratic regulator, numerical methods, and Pontryagin’s
principle. Cross-listed as MAE 507. Credit is allowed for only EEE 587
or MAE 507. Prerequisite: EEE 482 or MAE 506.

EEE 588 Design of Multivariable Control Systems. (3) S
Practical tools for designing robust MIMO controllers. State feedback
and estimation, model-based compensators, MIMO design methodol-
gies, CAD, real-world applications. Prerequisite: EEE 480 or equiva-
 lent.

EEE 606 Adaptive Signal Processing. (3) F
Principles/applications of adaptive signal processing, adaptive linear
combiner, Wiener least-squares solution, gradient search, perfor-
mance surfaces, LMS/RLS algorithms, block time/frequency domain
LMS. Prerequisites: EEE 506, 554.

EEE 607 Speech Coding for Multimedia Communications. (3) S
Speech and audio coding algorithms for applications in wireless
communications and multimedia computing. Prerequisite: EEE 407. Pre-
requisite or corequisite: EEE 506.

EEE 631 Heterojunctions and Superlattices. (3) F
Principles of heterojunctions and quantum well structures, band line-
ups, optical, and electrical properties. Introduction to heterojunction
deVICES. Prerequisites: EEE 436, 531.
EEE 632 Heterojunction Devices. (3) N
Applications of heterostructures, quantum wells, and superlattice to modulation-doped FETs, heterostructure bipolar transistors, lasers, detectors, and modulators. Prerequisites: EEE 434 and 631 (or 537).

EEE 641 Advanced Electromagnetic Field Theory. (3) N
Cylindrical wave functions, waveguides, and resonators; spherical wave functions and resonators; scattering from planar, cylindrical, and spherical surfaces; Green's functions. Prerequisite: EEE 541 or equivalent.

EEE 643 Advanced Topics in Electromagnetic Radiation. (3) S
High-frequency asymptotic techniques, geometrical and physical theories of diffraction (GTD and PTD), moment method (MM), radar cross section (RCS) prediction, Fourier transforms in radiation, and synthesis methods. Prerequisite: EEE 543.

EEE 647 Microwave Solid-State Circuit Design II. (3) F
Practical design of microwave free-running and voltage-controlled oscillators using Gunn and Impatt diodes and transistors; analysis of noise characteristics of the oscillator. Prerequisites: EEE 545, 547.

EEE 684 Internship. (1–2) F, S, SS
Work performed in an industrial setting that provides practical experience and adds value to the classroom and research learning processes.

EEE 686 Adaptive Control. (3) N
Main topics covered: adaptive identification, convergence, parametric models, performance and robustness properties of adaptive controllers, persistence of excitation, and stability. Prerequisites: EEE 582 and 586 or instructor approval.

EEE 731 Advanced MOS Devices. (3) S
Threshold voltage, subthreshold current, scaling, small geometry effects, hot electrons, and alternative structures. Prerequisite: EEE 531.

EEE 770 Advanced Topics in Power Systems. (3) N
Power system problems of current interest, approached at an advanced technical level, for mature students. Prerequisites: EEE 577 and 579 or equivalents; instructor approval.

EEE 784 Internship. (3) F, S, SS
Work performed in an industrial setting that provides practical experience and adds value to the classroom and research learning processes.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Engineering

MASTER OF ENGINEERING

Arizona's three state universities—Arizona State University, Northern Arizona University, and the University of Arizona—are cooperating in offering a new tri-university degree program: the Master of Engineering.

The Master of Engineering is a graduate-degree program intended to meet the educational needs of Arizona's practicing engineers. With input from industry professionals, the three universities are developing courses that address the enhancement and development of skills, knowledge, and understanding that are critical to today's practicing engineer. These courses are offered through a variety of distance-delivery methods and in flexible formats. Students enrolled in the program will be able to take advantage of course offerings at any of the three universities. These offerings reflect the diversity of strengths across the state.

The Master of Engineering program offers the practicing engineer the opportunity to design, in conjunction with an advisory committee, a program of study that can reflect the increasingly interdisciplinary nature of engineering practice.

Admission. For application materials, students may visit the program's Web site at TriUniv.engr.arizona.edu, contact the College of Engineering and Applied Sciences at 480/965-1726, or address e-mail to m.eng@asu.edu.

Applicants who have graduated from accredited U.S. institutions and who have a suitable background for the desired field of study must have a minimum grade point average of 3.00 (on a 4.00 scale) for the last 60 units of the undergraduate transcript (or for the last 12 units of the post-baccalaureate transcript). The Graduate Record Exam (GRE) may be required for a particular area of study or concentration by the tri-university coordinating board for the program. Graduates of non-U.S. institutions will have to satisfy admission requirements, in addition to those specified above.

Individuals not meeting the above conditions may be recommended for either provisional admission or admission to a non-degree status at the discretion of the campus director. After completing suitable undergraduate deficiencies or recommended graduate courses with a minimum grade point average of 3.00 (on a 4.00 scale), the individual may apply again for admission to the Master of Engineering program.

Program of Study. Graduate College requirements of the home institution must be followed. All programs of study will require the completion of at least 30 hours of graduate credit. Each program of study will require three semester hours of course work in each of the following subject areas: engineering management/business and applied engineering mathematics.

At the discretion of an academic unit or academic working group, a practice-oriented project may constitute a limited part of the program of study not to exceed six semester hours. Students must maintain a minimum GPA of 3.00 in courses taken as part of their program of study and maintain a 3.00 or higher for all graduate courses (500-level or above).

Foreign Language Requirements. None.

Thesis Requirements. None.

Final Examination. A final examination (or its equivalent demonstrating mastery of the program of study) is required. The structure of the examination will be determined by the student’s advisory committee. The inclusion of practicing engineers from outside academia in the examination process is desirable.

Time Limit. The time limit for completing the Master of Engineering degree is six years from the time of admission.

MASTER OF SCIENCE IN ENGINEERING

The faculty in the College of Engineering and Applied Sciences offers professional programs leading to the Master of Science in Engineering (M.S.E.) degree with majors in Aerospace Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, Engineering Science, Industrial Engineering, and Mechanical Engineering. The programs are designed to bridge the gap between knowledge of engineering sciences and creative engineering practice while at the same time increasing the depth and breadth of knowledge in selected areas of emphasis. The pattern of course work applicable to the degree is potentially unique for each student, although it must conform to the general
guidelines for subject matter content for the degree as authorized in the Graduate Catalog.

Two options are available within the M.S.E. degree program. Option one requires a thesis and is designed primarily for full-time students. Option two is designed for full-time students not intending to write a thesis and for students who hold full-time jobs and must attend university classes on a part-time basis. A thesis or equivalent is not required of students who elect this option.

Admission. Applicants are expected to satisfy all requirements for admission to the Graduate College. Entry into this program normally requires a bachelor’s degree with a major in engineering or in a closely related bachelor’s degree program.

Deficiencies for admission to the graduate degree programs are specified at the time of admission. The verbal, quantitative, and analytical components of the Graduate Record Examination (GRE) are recommended but not required unless specified by the respective academic unit in which the major is offered. TOEFL scores must be submitted by international applicants before admission is considered. Applicants with TOEFL scores of 550 or higher may be regularly admitted without requiring further language study. Applicants with scores below 550 may be regularly admitted but must complete study in ASU’s American English and Culture Program (AECP) before enrolling in course work in the academic program.

Program of Study. In general, all candidates for the M.S.E. degree program are required to complete 30 semester hours. Additional courses may be assigned by the supervisory committee depending on the background of the candidate.

Option 1. A minimum of six semester hours of research and thesis credit must be included in the 30 hours.

Option 2. A minimum of 30 semester hours and a comprehensive examination are required.

Foreign Language Requirements. None.

Thesis Requirements. Only students who elect Option one are required to write a thesis.

Final Examinations. A final oral examination in defense of the thesis is required for students who choose Option one. A final comprehensive examination is required for students in Option two. Examination format and times should be obtained from the academic unit.

COURSES

For courses, refer to the catalog section for the major.

Engineering Science

The faculty of the School of Engineering offer graduate programs leading to the M.S., the Master of Science in Engineering, and the Ph.D. degrees in Engineering Science. Faculty offer programs of a special and interdisciplinary nature. An area of study also is available in materials science and engineering. Contact the Department of Chemical and Materials Engineering.

Graduate Record Examination. A student whose undergraduate degree program is not ABET accredited must submit scores on the Graduate Record Examination (GRE) General Test as part of the admission process. Certain disciplines also require GRE scores for application to the M.S., M.S.E., and Ph.D. programs in Engineering Science.

MATERIALS SCIENCE AND ENGINEERING

Faculty members who advise students in this area of study are located within the Department of Chemical and Materials Engineering. Courses offered carry the MSE prefix and are listed beginning on page 143.

For more information contact Professor Stephen L. Krause by phone at 480/965-3313, by e-mail at skrause@asu.edu, or in person at ECG 202.

Each student admitted as a regular degree candidate is required to complete an approved program of study. Students who have an undergraduate degree in an area other than materials science, or a similarly named program, may qualify for admission to a transition program and may be required to take one or more undergraduate courses in preparation for enrollment in graduate courses in materials science and engineering. The program of study for transition students is determined by the student’s supervisory committee after review of the student’s academic record.

Research activities in materials science and engineering include programs in semiconductor processing and characterization, polymeric and ceramic composites, cuprates for high critical temperature superconductor applications, ferritic thin films for capacitor and memory applications, high temperature materials for space applications, mechanical behavior of high strength Al-Li alloys, environmentally influenced mechanical effects, and microbiologically influenced corrosion reactions.

Courses

Graduate courses offered by the College of Engineering and Applied Sciences that apply to degree requirements are listed under degree majors in this catalog. Basic courses that may be required, or taken as electives, are shown below.

ANALYSIS AND SYSTEMS (ASE)

ASE 485 Engineering Statistics. (3) F, S, SS
Designing statistical studies for solutions to engineering problems. Methods include regression, design and analysis of experiments, and other statistical topics. Prerequisite: ECE 380. General Studies: CS.

ASE 496 Professional Seminar. (0) F, S
Topics of interest to students in the engineering special and interdisciplinary studies.

ASE 500 Research Methods: Engineering Statistics. (3) F, S, SS
Designing statistical studies for solutions to engineering problems. Methods include regression, design and analysis of experiments, and other statistical topics. Prerequisite: ECE 380.

ASE 582 Linear Algebra in Engineering. (3) F
Development and solution of systems of linear algebraic equations. Applications from mechanical, structural, and electrical fields of engineering. Prerequisite: MAT 242 or equivalent.

ASE 586 Partial Differential Equations in Engineering. (3) S
Development and solution of partial differential equations in engineering. Applications in solid mechanics, vibrations, and heat transfer. Prerequisites: ECE 380; MAT 242, 274.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

ACADEMIC PROFESSIONALS
GLAU, McNEIL, PARKER

The faculty in the Department of English offer the M.A. degree in English, the Master of Teaching English as a Second Language degree, and the Ph.D. degree in English.

Students admitted to the Master of Education degree program with a major in Secondary Education may also elect a major in Secondary Education and a nondegree option while they take courses in areas of deficiency as identified by the advisor.

Admission Requirements. The department requires that applicants have an undergraduate major in English and a 3.00 GPA in courses taken in the major field. Those who do not have a major in English are encouraged to register as nondegree students while they take courses in areas of deficiency as identified by the advisor.

Deadline for admission applications and requests for financial assistance, including teaching assistantships, is February 1. Incomplete files are not considered.

Applicants for the M.A. program in English with concentrations in literature and language and rhetoric and composition are required to submit Graduate Record Examination (GRE) General Test scores, three letters of recommendation, a personal statement of aims and purposes, and an academic writing sample.

Applicants for the M.A. program with a concentration in English linguistics must show completion of one upper-division course in a linguistics-related field, and must submit a personal statement of aims and purposes and three letters of recommendation. GRE scores are not required.

Applicants for the M.A. program in English with a concentration in comparative literature must prove fluency in a foreign language to a level sufficient for graduate study.

Program of Study. A student may pursue a concentration in English linguistics, literature and language, or rhetoric and composition.

For the concentration in literature and language, a candidate must complete 36 semester hours of graduate courses, with a minimum of 12 hours being taken in the Department of Languages and Literatures. Included in the 36 hours must be ENG 500 Research Methods, ENG 501 Introduction to Comparative Literature, and ENG 599 Thesis.

For the concentration in English linguistics, a candidate must complete a minimum of 30 hours of graduate courses. The 30 hour must include LIN 500 Research Methods, 511, 514, one LIN 591 Seminar, or their equivalents chosen in consultation with the advisor, and ENG 599 Thesis. Electives are chosen in consultation with the advisor.

For the concentration in comparative literature, a candidate must complete a minimum of 30 semester hours of graduate courses. The 30 semester hours must include LIN 500 Research Methods, 511, 514, one LIN 591 Seminar, or their equivalents chosen in consultation with the advisor, and ENG 599 Thesis. Electives are chosen in consultation with the advisor.

For the concentration in rhetoric and composition, a candidate must complete a minimum of 30 hours of graduate courses, including a 12-hour core, a six-hour thesis, and 12 elective hours that must include six hours of ENG 591 Seminar and may include nine hours of appropriate graduate courses outside the English department.

Foreign Language Requirements. A reading knowledge of French, German, Spanish, or other suitable language is required. The choice of language must be approved by the student’s supervisory committee.

Comprehensive Examinations. A comprehensive examination is required for students in the comparative literature concentration. (A detailed description of its scope is available in the Department of English.)

Thesis Requirements. A thesis is required.

Final Examinations. A final oral examination in defense of the thesis is required.
M.TESL
The Master of Teaching English as a Second Language degree is designed for students who seek a professionally oriented graduate education. For information, see “Teaching English as a Second Language,” page 305.

DOCTOR OF PHILOSOPHY
See “Doctor of Philosophy,” page 104, for general requirements.

Admission Requirements. Applicants for the Ph.D. degree in English are required to submit scores on the GRE (verbal and advanced literature sections), three letters of recommendation, a personal statement of aims and purposes, and an academic writing sample. Deadline for admission applications and requests for financial aid, including teaching assistantships, is February 1. Incomplete files are not considered.

Areas of Concentration. The Ph.D. degree in English offers concentrations in the following areas:

Literature. A minimum of 60 hours of graduate courses (exclusive of dissertation) beyond the bachelor’s degree constitutes the formal course preparation. Specifically required are three hours in history of the English language (for example, ENG 507 Old English, ENG 508 Old English Literature, ENG 509 Middle English, LIN 505 American English, and LIN 548 Studies in English Language); six hours in theory courses; and the following distribution requirement: English literature before 1660 (including one course in each of the following: Chaucer, Shakespeare, and Milton); English literature 1660–1900; British literature since 1900; American literature before 1900; and American literature since 1900. Students must take a minimum of five graduate seminars en route to the Ph.D. degree, at least three of which must be taken in the doctoral program at ASU. Up to 12 hours of course work taken outside the department may be counted toward the degree.

Rhetoric/Composition and Linguistics. A minimum of 60 hours of graduate courses (exclusive of dissertation) beyond the bachelor’s degree constitutes the formal course preparation. Specifically required are three hours of language (for example, ENG 507 Old English, ENG 508 Old English Literature, ENG 509 Middle English, LIN 505 American English, LIN 548 Studies in English Language); six hours in theory courses; and the following distribution requirements: Syntax/Semantics; Rhetorical Theory; Composition Theory and Method; Philosophy and Theories of Pedagogy; Pragmatics/Sociolinguistics. Students must take a minimum of five graduate seminars en route to the Ph.D. degree, at least three of which must be taken in the doctoral program at ASU. Up to 12 hours of course work taken outside the department may be counted toward the degree.

Foreign Language Requirements. A competent reading knowledge of a language other than modern English is required. The requirement can be met by

1. earning a grade of “B” or higher in a 400- or 500-level course in an appropriate language;
2. demonstrating proficiency by taking a language examination approved by the supervisory committee; and
3. showing native speaker proficiency in a language approved by the supervisory committee.

Ph.D. Examinations. The Ph.D. examination consists of three parts. Part I is a portfolio of three essays, representing different historical periods or fields of concentration and employing more than one critical approach. After successful completion of Part I, the student may advance to Part II, a three-hour written exam in the student’s area of specialization based on a bibliography compiled by the student and approved by the student’s supervisory committee. Part III is a colloquy, based on a written prospectus, defining the topic, scope, and significance of the dissertation.

Dissertation Requirements. (See “Research and Dissertation Requirements,” page 105.) The subject of the dissertation is decided in consultation with the chair of the student’s supervisory committee, subject to approval of the director of the Ph.D. program.

Final Examinations. A final examination in defense of the dissertation, arguing for its method and conclusions, is required.
Recent and current research by the Department of English faculty includes the following titles and areas:
Anglo and Euro-American Modernism; critical biography; language change; Old English poetry; Arthurian romance; Renaissance literature; the Elizabethan masque; Shakespeare’s plays in performance; Spenser biography; wordplay in Milton; literature of the age of discovery and encounter; literature of the Restoration; textual edition of Smollett (nine volumes) and Johnson (three volumes); letters of William Michael Rossetti; Victorian poetry; American sea fiction; Melville; reception of Dickinson's poetry; bibliography of Dickinson criticism; 19th-century American literary periodicals; American writers’ responses to Darwin (from Howells to Hemingway); Kate Chopin; Sehnsucht in 20th-century American literature; Faulkner; biblical backgrounds for literature; Chicano/o literature; film history; film making in Arizona; science fiction and fantasy; literature and aging; gender studies; contemporary literary theory; translation theory; censorship in American schools; young adult literature; classical, 18th-century and modern rhetoric; stylistics; Latin American literature; composition theory; history of the English curriculum; literary language and the type-token ratio; sociolinguistics; pragmatics and discourse analysis; language and politics; language and gender; iconicity in syntax, phonology; language typology; language acquisition; English morphological structure; performance and contemporary theater; literatures of the Americas; gender studies in comparative contexts; science and literature; history of secondary English teaching; Irish literature; gay and lesbian studies; post colonialism; Native American literature; Afro-Caribbean literature; Black women writers; modern and contemporary drama; African American literature and popular culture; the representation of fasting women in early modern discourse; early modern prose fiction; contemporary multicultural literature; colonialism and culture; travel literature; William Blake.

Among recent books published by the faculty are Trumpeyr; The History and Anatomy of Auctorial Self-Criticism in the European Middle Ages; William Faulkner’s Vision in Spring; Ancient Rhetorics for Contemporary Students; Rhetorical Bodies; Composition in the University; The Methodical Memory: Arroyos to the Heart; Women Poets of the Americas: Toward a Panamerica Gathering; American Indian Women Telling Their Lives; Gospel Fictions; As Far Away as China; Perspectives on Official English; On the Rim of the Mandala; Body Betrayal; Snow Water Cove; Writing Arguments; Groom Falconer; The Lime Orchard Woman; News of the World; The Old English Verse Saints’ Lives; The Origins of Faulkner’s Art; Richard Brautigan; Screenwriting: A Method; Thematic Relations; Traunts; Worlds Within Women: Myth and Mythmaking in Fantastic English Literature by Women; Faulkner’s Poetry; Emily Dickinson’s Critical Reception in the 1890s: A Documentary History; Studies in American Indian Literature; American Indian Women: A Guide to Research; Sacrificial Smoke (trans.); Expedition of Humphry Clinker (ed.); Playing With Gender: A Renaissance Pursuit (ed.); Dryden’s Aeneid: The English Virgil; Radio Sky; Victorian Sages and Cultural Discourse: Renegotiating Gender and Power (ed.); Teodoro Luna’s Two Kisses; Teaching and Learning English Worldwide (ed.); Only a Mother (trans.); The Adventures of Ferdinand Count Fathom (ed.); The History and Adventures of an Atom (ed.); The Clouds of Magellan; Voice of Deliverance: The Language of Martin Luther King, Jr., and Its Sources; American College Life in English Communication; Your Reading; Humor in American Literature: A Selected Annotated Bibliography; Writing Arguments; Voodoo Dreams; The Instinct for Bliss; Inspiring Literacy: Literature for Children and Young Adults (ed.); Men Writing the Feminine: Literature, Theory, and the Question of Genders; Lushootseed Dictionary (ed.); Writing and Being; Sea Brothers: The Tradition of American Sea Fiction from Moby Dick to Present; Elizabeth Bishop: Her Poetics of Loss; Ismael Reed; Sidney Lumet; Charreria Mexicana An Equestrian Folk Tradition; Gabriela Mistral: An Artist and Her People; Cynwulf: Basic Readings (ed.); Magic City; Presenting M.E. Ker; A Beowulf Handbook; Bob Rafelson; Humor in Irish Literature; Humor in British Literature from the Middle Ages to the Restoration; Major Women Writers of Seventeenth-Century England (ed.); Pig Cookies; The Hotel Eden; Fortress of the Sun; The Descent of Love; Darwin and the Theory of Sexual Selection in American Fiction; Desire and Contradiction: Imperial Visions and Domestic Debates in Victorian Literature; British Imperial Literature, 1870–1940: Writing and the Administration of the Empire; The Rise of Functional Categories; Verbal Agreement and the Grammar behind its Breakdown; Romantic Dynamics; The Poetics of Physicality; Who Wrote the Gospels; Women Shapeshifters: Transforming the Contemporary Novel; Perils of the Night: A Feminist Study of Nineteenth-Century Gothic; Women Imagine Change: A Global Anthology of Women’s Resistance from 600 B.C to Present; Framing Silence: Revolutionary Novels by Haitian Women; Searching for Safe Spaces: Afro-Caribbean Women Writers in Exile; Happiness (trans. and ed.); The Writer’s Toolbox; Living Rhetoric and Composition: Stories of the Discipline; Thinking and Writing by Design; Nizyake Shange: A Critical Study of the Plays; Anne Conway; The Principles of the Most Ancient and Modern Philosophy (trans. and ed.).

English faculty currently serve as editors of BWe: Basic Writing e-Journal; American Journal of Germicentric Linguistics; Explorations in Ethnic Studies; Modern Scandinavian Literature in Translation; Rocky Mountain Review of Language and Literature; Centennial Review; Manoa: New Chicano Writing. Other faculty serve on the editorial boards of Age of Johnson, English Literature in Transition, MELUS, Metaphor and Symbolic Activity; An Interdisciplinary Journal of Empirical Inquiry, Modern Language Journal, Revista Argentina de Linguistic; Rhetoric Review; Resources for American Literary Study; Dickinson Studies, and 18th Century: A Current Bibliography; Victorian Poetry; WPA: Writing Program Administration; English Journal of Education.

English majors and minors are expected to have completed ENG 200 before taking 400-level literature courses.

ENG 400 History of Literary Criticism. (3) N
Major critics and critical traditions in the western world. Prerequisite: 6 hours of literature or instructor approval. General Studies: HU.

ENG 405 Style and Stylistics. (3) N
Linguistic, rhetorical, and literary approaches to the analysis of style in poetry, fiction, and other forms of written discourse.

ENG 409 Advanced Screenwriting II. (3) N
Application of the principles taught in a complete feature-length screenplay.
ENG 411 Advanced Creative Writing. (3) F, S
Separate poetry and fiction workshops for experienced writers, emphasizing individual style. May be taken once for poetry, once for fiction. Prerequisite: ENG 310 or instructor approval.

ENG 412 Professional Writing. (3) N
Lectures and conferences concerning techniques of writing for publication. Prerequisite: ENG 310 or instructor approval.

ENG 413 History of the English Language. (3) A
Development of English from the earliest times to the modern period. Prerequisite: junior standing or instructor approval. General Studies: HU.

ENG 415 Medieval Literature. (3) N
Medieval English literature in translation, from Beowulf to Malory (excluding Chaucer), emphasizing cultural and intellectual backgrounds; includes continental works. Prerequisite: ENG 221 or instructor approval. General Studies: HU.

ENG 416 Chaucer: Canterbury Tales. (3) A
Chaucer's language, his last work, and its relationship to continental and insular traditions. Prerequisite: ENG 221 or instructor approval. General Studies: HU.

ENG 417 Chaucer: Troilus and Criseyde and the Minor Works. (3) N
Chaucer's language, his major poem, and his early works in their medieval context. Prerequisite: ENG 221 or instructor approval. General Studies: HU.

ENG 418 Renaissance Literature. (3) F
Topics, authors, and themes in English literature, 1485–1603. Prerequisite: ENG 221 or instructor approval. General Studies: L/HU.

ENG 419 English Literature in the Early 17th Century. (3) F
Topics, authors, and themes in English literature, 1603–1660. Prerequisite: ENG 221 or instructor approval. General Studies: L/HU.

ENG 423 Renaissance Drama. (3) S
Topics, authors, and themes in the drama of the Tudor and early Stuart periods. Prerequisite: ENG 221 or instructor approval. General Studies: L/HU.

ENG 424 Milton. (3) A
Selected prose and poetry, emphasizing Paradise Lost, Paradise Regained, and Samson Agonistes. Prerequisite: ENG 221 or instructor approval. General Studies: HU.

ENG 425 Studies in English Romanticism. (3) F
All genres of Romantic literature in cultural contexts, Blake to the death of Wordsworth. May be repeated for credit. General Studies: HU.

ENG 426 Victorian Poetry. (3) F
Poetry of the second half of the 19th century. May include such poets as Tennyson, Browning, and Arnold. Prerequisite: ENG 222 or instructor approval. General Studies: L/HU.

ENG 427 Restoration and Early 18th Century. (3) N
Writers and movements in the nondramatic literature of the Restoration and early 18th century. Prerequisite: ENG 221 or instructor approval. General Studies: HU.

ENG 428 The Later 18th Century. (3) N
Writers, movements, and books during the second half of the 18th century. Prerequisite: ENG 221 or instructor approval. General Studies: HU.

ENG 430 Victorian Cultural Backgrounds. (3) N
Social, religious, and other cultural issues of the period. May include Carlyle, Ruskin, Darwin, Arnold, Peter, and Morris. Prerequisite: ENG 222 or instructor approval. General Studies: L/HU.

ENG 435 19th-Century American Poetry. (3) N
Themes and developments in American poetry to 1900, including Poe, Whitman, and Dickinson. General Studies: HU.

ENG 439 Restoration and 18th-Century Drama. (3) S
English drama 1600–1800. Prerequisite: ENG 221 or instructor approval. General Studies: HU.

ENG 440 Studies in American Literature to 1815. (3) N
Thought and expression from the time of first contact to 1815. May be repeated for credit. Prerequisite: ENG 241 or instructor approval. General Studies: HU.

ENG 441 20th-Century American Drama. (3) N
American drama since World War I, especially experimental techniques. Prerequisite: ENG 241 or 242 or instructor approval. General Studies: HU.

ENG 442 20th-Century British and Irish Poetry. (3) N
Theory and practice of poetry since 1900. Prerequisite: ENG 222 or instructor approval.

ENG 443 American Poetry, 1900–1945. (3) N
Developments in theory and practice of major poets. Prerequisite: ENG 241 or 242 or instructor approval. General Studies: HU.

ENG 444 Studies in American Romanticism, 1830–1860. (3) F
Cultural expression in works of representative writers. May be repeated for credit. Prerequisite: ENG 241 or instructor approval. General Studies: HU.

ENG 445 Studies in American Realism, 1870–1910. (3) S
Writers and influences that shaped the development of literary realism. May be repeated for credit. Prerequisite: ENG 242 or instructor approval. General Studies: L/HU.

ENG 446 20th-Century British and Irish Novel. (3) N
Theory and practice of the novel since 1900. Prerequisite: ENG 222 or instructor approval. General Studies: HU.

ENG 451 The Novel to Jane Austen. (3) N
From origins of prose fiction through the 18th century. General Studies: HU.

ENG 452 The 19th-Century Novel. (3) S
May include such novelists as Austen, Dickens, Eliot, and Conrad. General Studies: HU.

ENG 453 The American Novel to 1900. (3) N
The rise and development of the novel to Dreiser. Prerequisite: ENG 241 or instructor approval. General Studies: HU.

ENG 454 The American Novel, 1900–1945. (3) N
Developments in theory and practice of major novelists. Prerequisite: ENG 241 or 242 or instructor approval. General Studies: HU.

ENG 455 The Form of Verse: Theory and Practice. (3) N
Types, history, criticism, and schools of theory of metrical form. Analysis of lyric, narrative, and dramatic poetry.

ENG 457 American Poetry Since 1945. (3) A
Major American poets of the period. Developments in theory and practice. Prerequisite: ENG 241 or instructor approval. General Studies: HU.

ENG 458 American Novel Since 1945. (3) N
Major novelists of the period. Developments in theory and practice. Prerequisite: ENG 242 or instructor approval. General Studies: L/HU.

ENG 460 Western American Literature. (3) A
Critical examination of ideas and traditions of the literature of the western United States, including the novel. General Studies: L/HU.

ENG 461 Women and Literature. (3) N
Selected topics in literature by or about women. May be repeated for credit when topics vary. General Studies: HU.

ENG 462 20th-Century Women Authors. (3) N
Critical examination of literary by 20th-century women writers. May be repeated for credit when topics vary. General Studies: HU.

ENG 463 European Drama from Ibsen to 1914. (3) N
Chief continental and British dramatists of the period, emphasizing the beginnings and development of realism. General Studies: HU.

ENG 464 European Drama from 1914 to the Present. (3) N
Chief continental and British dramatists of the period, emphasizing experimental techniques. General Studies: HU.

ENG 471 Literature for Adolescents. (3) F, S
Prose and poetry that meet the interests and capabilities of junior high and high school students. Recent literature stressed. A passing grade of a least "C" required before students are permitted to student teach in English. General Studies: HU.

ENG 480 Methods of Teaching English: Composition. (3) F, SS
Methods of instruction, organization, and presentation of appropriate content in the teaching of composition and other writing skills.

ENG 482 Methods of Teaching English: Language. (3) S
Methods of instruction, organization, and presentation of appropriate content in language and usage for junior and senior high schools. Lecture, discussion, lab.

ENG 500 Research Methods. (3) A
Methodology and resource materials for research. Analysis of criticism and scholarship, including evaluation of sources.

ENG 501 Introduction to Comparative Literature. (3) N
Problems, methods, and principles, illustrated by selected critical essays and literary texts.
ENG 502 Contemporary Critical Theory. (3) A
An advanced survey of major schools of 20th-century literary and critical theory. Lecture, discussion. Cross-listed as HUM 549. Credit is allowed for only ENG 502 or HUM 549.

ENG 507 Old English. (3) N
Elements of Old English grammar, with selected readings.

ENG 508 Old English Literature. (3) N
Intensive literary, linguistic, and cultural study of Old English literature. May be repeated for credit when topics vary. Prerequisite: ENG 507.

ENG 509 Middle English. (3) N
A study of the principal dialects of the language, with selected readings. Prerequisite: graduate standing.

ENG 512 The Teaching of Composition. (3) N
The theory and practice of teaching writing at all levels. Emphasis on current research. Prerequisites: teaching experience; instructor approval.

ENG 515 Middle English Literature. (3) N
English literature from the 12th through the 15th centuries, exclusive of Chaucer. Prerequisite: ENG 509 or instructor approval.

ENG 517 Contemporary Rhetorical Theory. (3) A
Investigation of the work of such important rhetorical theorists as Burke, Toulmin, Perelman, Gates, and Cixous.

ENG 520 Renaissance Literature. (3) N
Poetry and prose of the English Renaissance, excluding drama.

ENG 521 Shakespeare. (3) A
A selection of comedies, histories, and tragedies presented in the context of literary history and critical theories, with an emphasis on classical and medieval backgrounds.

ENG 525 American Literary Criticism. (3) N
Analysis and discussion of leading historical and critical interpretations of American literature from the beginnings to the present.

ENG 530 Classical Rhetoric and Written Composition. (3) F
Relationship of major texts in classical rhetoric to developments in composition theory, literary theory, and practice through the 19th century.

ENG 531 Rhetorical Theory and Literary Criticism. (3) S
Intensive study of major rhetorical theorists of the 20th century in such areas as literary criticism, discourse theory, and composition theory.

ENG 532 Composition Theory. (3) N
Intensive study in the rhetorical categories of invention, arrangement, style, aims, modes, and forms of written discourse.

ENG 547 Studies in American Literature. (3) N
This course offers selected authors or issues and may be repeated for credit.

ENG 548 Studies in English Language. (3) N
This course offers selected authors or issues and may be repeated for credit.

ENG 549 Studies in Comparative Literature. (3) N
This course offers selected authors or issues and may be repeated for credit.

ENG 550 Contemporary Comparative Literature. (3) N
Comparative studies in modern literature in English and other literatures in translation. May be repeated for credit when content varies.

ENG 550 Studies in Dramatic Forms. (3) F, N
Selected topics in dramatic and cinematic literature, history, criticism, theory, and cross-disciplinary study. May be repeated for credit when topics vary. Lecture, studio.

ENG 571 Advanced Study in Literature for Adolescents. (3) N
History and criticism of adolescent literature. Prerequisite: ENG 471 or instructor approval.

ENG 573 Censorship and Literature. (3) N
The history of censorship, primarily in the United States, and significant court decisions that affected writers and books.

ENG 580 Practicum. (1–12) N
ENG 591 Seminar. (3) F, S
Selected topics regularly offered in the various areas of English studies.

ENG 594 Conference and Workshop. (1–12) N
ENG 598 Special Topics. (1–4) N
ENG 599 Thesis. (1–12) N

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

LINGUISTICS (LIN)

LIN 500 Research Methods. (3) F
Methodology and resource materials for research. Analysis of criticism and scholarship, including evaluation of sources.

LIN 505 American English. (3) S
Development of the English language in America, including a survey of geographical and social dialects.

LIN 510 English Linguistics. (3) F
Current approaches to the study of the English language.

LIN 511 Phonetics and Phonology. (3) S
Current trends in phonological theory and its basis in acoustic and articulatory phonetics. Prerequisite: LIN 510 or equivalent or instructor approval.

LIN 513 Semantics. (3) F 2000
Current approaches to linguistic meaning with particular attention to English. Prerequisite: LIN 510 or equivalent or instructor approval.

LIN 514 Syntax. (3) S
The analysis of syntactic structure by contemporary theoretical models with a focus on English. Prerequisite: LIN 510 or equivalent or instructor approval.

LIN 516 Pragmatics and Discourse Theory. (3) F 2001
The study of language use in context and of language structures in conversation and written text. Lecture, discussion. Prerequisite: LIN 510 or equivalent or instructor approval.

LIN 546 Studies in English Language. (3) N
This course offers selected authors or issues and may be repeated for credit.

LIN 572 Theories Underlying the Acquisition of English as a Second Language. (3) F
Theories of second language acquisition including the linguistic, cognitive, affective, and sociocultural aspects.

LIN 574 The Teaching of English as a Second Language. (3) S
Methods of teaching English as a second language, language teaching trends, practical applications, and the teaching of different skills. Prerequisite: LIN 572 or instructor approval.

LIN 575 Advanced Studies in the Teaching of English as a Second Language. (3) A
Current research issues in the teaching and learning of English as a second language. Prerequisite: LIN 572 or instructor approval.

LIN 576 Sociolinguistic Aspects of Second Language Acquisition. (3) N
A survey of studies in second language acquisition in the context of recent sociolinguistic theory.

LIN 577 Grammar for TESL. (3) N
A survey of major grammatical structures in English and how they can be taught to ESL speakers. Lecture, discussion. Prerequisite: LIN 510.

LIN 591 Seminar. (3) F, S
Selected topics.

LIN 593 Applied Project. (3) F, S
Preparation of a supervised applied project that is a graduation requirement in the TESL professional major. Independent study with consultation.

Morrison School of Agribusiness  
and Resource Management
Professors: Brady, Brock;  
Associate Professors: Green, Miller, Whysong

The Committee on Environmental Design and Planning offers a collegewide interdisciplinary program leading to the Ph.D. degree in Environmental Design and Planning. Three areas of concentration are available: design; history, theory, and criticism; and planning. The faculty of the Schools of Architecture, Design, and Planning and Landscape Architecture participate in offering the degree. Faculty from disciplines outside of the College of Architecture and Environmental Design may participate in offering the program if appropriate to the interdisciplinary nature of the student’s research interest.

DOCTOR OF PHILOSOPHY

The Ph.D. degree in Environmental Design and Planning is an individualized collegewide interdisciplinary degree that integrates graduate courses and faculty research expertise from a variety of academic areas: architecture, building design, environmental planning, environmental resources, graphic design, industrial design, and interior design. The program is at the cutting edge of creating new knowledge in environmental design and planning. It complements interdisciplinary research in other disciplines within the university. Broad in scope, the program involves multidisciplinary research interests at both micro- and macro-scale levels of design and planning. The program provides research experience for students wishing to pursue careers in academe and in industry as members of interdisciplinary design and planning teams on environmental and energy issues, as well as for those wishing to teach in the architecture, design, or planning fields.

Areas of Concentration

The Ph.D. degree in Environmental Design and Planning offers concentrations in the following areas based on the research and teaching expertise of participating faculty.

Design. Design—microscale issues in the designed environment—includes the study of architecture, building science, graphic design, industrial design, interior design, and landscape architecture. Research fields include acoustics, affordable housing, climate-responsive building, computer-aided design, energy modeling, exhibit design, human factors in design, facilities planning and management, fire protection, industrialized housing, landscape architecture, lighting, passive solar energy and conservation, and site planning and wayfinding.

History, Theory, and Criticism. History, theory, and criticism—cultural and theoretical issues in the history of the environment—includes the study of architecture, environmental planning, industrial design, interior design, landscape architecture, and urbanism. Research fields include study of the arts and crafts movement, contemporary criticism and analysis, design theories and methods, history of building science, history of city planning, landscape theory and criticism, and the history of architecture and design.

Planning. Planning—macroscale issues in the planned environment—includes the study of environmental resource management, landscape architecture, planning, and urban design. Research fields include contemporary urban design, economic development, environmental assessment, environmental planning, ethics in planning, housing and urban development, international development planning, landscape ecology, legal aspects of planning, planning for ethnically diverse populations, the protection of environmentally sensitive areas, public participation, social dimensions of planning, urban design policy, urban planning, and urban and regional development.

Admission Requirements. Students are admitted to the Ph.D. program only upon completion of a master’s degree in architecture, environmental resources, design, landscape architecture, or planning or upon the demonstration of equivalent standing.

In addition to meeting Graduate College admission requirements, applicants must submit the following to:

PH.D. PROGRAM IN ENVIRONMENTAL DESIGN AND PLANNING  
COLLEGE OF ARCHITECTURE AND ENVIRONMENTAL DESIGN  
ARIZONA STATE UNIVERSITY  
PO BOX 871905  
TEMPE AZ 85287-1905

1. a minimum of three letters of reference;  
2. a sample of written work and any other evidence relevant to admission to the program;  
3. a statement of purpose (summarizing career objectives, the reasons for pursuing a doctoral education, an indication of the proposed area of concentration, and a potential mentor in the College of Architecture and Environmental Design); and  
4. Graduate Record Examination (GRE) scores.
A Test of English as a Foreign Language score of at least 600 is required of all applicants whose native language is not English. Submitted materials are returned after final admission procedures, provided sufficient prepaid postage is enclosed, or if the materials are claimed in person within one year of submission. Unclaimed materials are retained for only one year. The Ph.D. program assumes no liability for lost or damaged materials.

Application Deadlines. All application materials should be received on or before February 15 for fall semester admissions. Applications for associateships and scholarships normally are considered at the same time.

Selection Procedures. The Ph.D. Executive Committee evaluates the applications and supporting materials and recommends to the Graduate College whether the applicant should be granted admission or if admission should be denied. Admission decisions are based on the compatibility of the applicant’s career goals with the purpose of the degree program and research interests of faculty, previous academic training and performance, GRE scores, reference letters, and the ability of the potential mentor to devote time to the student.

If admission is provisional, the Graduate College specifies in its letter of admission the provisions to be met to gain regular status. The Ph.D. program informs successful applicants of the procedures for enrollment.

Program of Study. The Ph.D. degree in Environmental Design and Planning is structured as a 54-semester-hour post-master’s program, not as an 84-semester-hour postbaccalaureate program. Students must be thoroughly familiar with design and planning and are expected to demonstrate a high level of academic maturity before being admitted to the program.

Of the 54 semester hours, 24 must be research and dissertation credit. At least 30 semester hours of the remainder, exclusive of dissertation and research hours, must be completed after admission to the Ph.D. program at ASU. No transfer credits are allowed to fulfill the 54-semester-hour minimum requirement for the program.

The student is required to take 15 semester hours in the area of concentration and a minimum of nine semester hours of specialized course work outside the area of concentration; a minimum of six semester hours in current research methods is required.

Each student entering the Ph.D. program is required to submit a program of study during the first year. The director of the Ph.D. program appoints a program committee composed of a minimum of three faculty from the areas of concentration. This committee includes a prospective mentor and is responsible for approving the student’s program of study and monitoring the student’s progress in the program.

Preliminary Candidate Evaluation. Before the end of the first academic semester of course work, the student’s mentor and the program director conduct a preliminary evaluation of the student. The evaluation is based on the student’s program check sheet, a progress evaluation by the mentor, and an informal meeting with the program director. It is directed at the student’s selected area of concentration at the time of their admission to the program.

Performance on the preliminary evaluation candidate serves as a guide to the student’s program committee as the committee members counsel the student and formulate a program of study.

Academic Standard and Evaluation. Each student in the program receives an annual evaluation. Students submit, to their mentor and the program director, a two-page summation of the academic year. The summation must include proposed research, including progress toward dissertation; a list of goals accomplished during the past academic year; and projected goals for the upcoming academic year. In addition, students present their summation to the CAED core faculty.

Students must meet the minimum Graduate College requirements, but program standards may exceed these requirements. For example, students are expected to

1. have all grades in graduate courses 3.00 GPA or higher,
2. have made sufficient progress in their research projects,
3. have attended or presented papers at seminars/meetings,
4. have accomplished their goals from the previous year, and
5. set realistic goals for the upcoming academic year.

Foreign Language Requirements. None.

Comprehensive Examinations. Upon completion of course work in the Ph.D. program of study and before admission to candidacy and the start of dissertation research, the student must take a written examination on his or her knowledge of the chosen area of concentration and interdisciplinary knowledge, including the ability to communicate across disciplines. The student’s program committee conducts an oral examination following the review of the written examination.

Dissertation Requirements. The dissertation must consist of a fully documented written analysis of a problem that is original in nature and extends the knowledge and/or theoretical framework of the field. The research must demonstrate the student’s creativity and competence in independent research.

Final Examinations. A final oral examination in defense of the dissertation is required. A candidate must pass the final examination within five years after completing the comprehensive examination.

RESEARCH ACTIVITY

The College of Architecture and Environmental Design maintains a rooftop testing laboratory for solar research, a high-bay research facility, a lighting simulation laboratory, a human factors laboratory, an urban design laboratory, an extensive shop facility, computing resources and laboratories, a material resource center. These facilities are augmented by the CAED library, media center, and the Gallery of Design. In addition, a general rangeland ecology laboratory, a soils and riparian research laboratory, GIS laboratory, and a range wildlife nutrition ecology laboratory are located within the Morrison School of Agribusiness and Resource Management at ASU East.
Facilities for basic research activities and community service oriented programs in energy technology, design, real estate development, and planning are also provided by the college through the Herberger Center for Design Excellence and the Joint Urban Design Program.

Faculty from the three schools participate in research in the following broadly defined areas.

School of Architecture. Architectural design methodology, solar architecture design, energy performance in buildings, architectural computing and graphics, facilities development and management, environments for aging, housing, urban design, building technology, environmental analysis and programming, passive cooling and heating, ecotechniques, arid region building and systems design, and architectural history.

School of Design. Problem-solving strategies; problem definition; aesthetic, political, economic, and social theories; design history, methodology, theory, and criticism; methods as applied to materials culture and human expression; theories and methods of human factors and ergonomics; design production, planning, and marketing; acoustics and lighting design; perception and visual performance; computer imaging, visualization, analysis, and perception; human-machine interface design; product semantics, appropriate technology, and environmental issues; environmental graphics; environmental psychology; corporate, institutional, and healthcare design; postoccupancy evaluation; aging and design; public welfare and safety; rehabilitation, restoration, and preservation design; facility management methodology; design education theory; design forecasting; and collaborative learning and design journalism.

School of Planning and Landscape Architecture—Environmental Resources. Research is primarily conducted in the following four areas.

Urban and Regional Development. Housing, economic and community development, citizen participation, policy analysis, transportation, and the politics of planning.

Urban Design. Urban landscape design, planning and land-use law, urban design theory, development controls, and design guidelines.

Landscape Ecological Planning. Public land management, the conservation of renewable and nonrenewable resources, sustainable development, hazards planning, environmental impact assessment, riparian and wetlands protection, and land-use planning.

International Planning. Housing, economic and community development, urban design, landscape ecology, and agroforestry.

Environmental Resources. Through faculty from the Morrison School of Agribusiness and Resource Management, research programs include applications of geographic information systems to resource management, monitoring of ecological change, wildlife habitat ecology, vegetation dynamics, fire ecology, soil ecology and ecosystem restoration.

Range ecology studies investigate various problems, from shrub control and hydrologic research in Arizona chaparral to the use of microcomputers in field data acquisition and the effects of power plant emission on vegetation. Other research has considered the relationships between both livestock and wildlife and their environments.

Environmental Design and Planning

In addition to the EPD 700-level courses, refer to the course listing under the following majors for courses that are available to support the collegewide interdisciplinary degree program in Environmental Design and Planning: architecture, building design, environmental planning, environmental resources, industrial design, interior design, and landscape architecture.

ENVIRONMENTAL DESIGN AND PLANNING (EPD)

EPD 700 Interdisciplinary Research Methods. (3) F
Introduction to the philosophy and methodology of interdisciplinary research in environmental design and planning. Seminar.

EPD 710 Current Research in Design. (3) S
Review and critical evaluation of contemporary literature and method in architecture, building science, interior design, industrial design, and landscape architecture. Seminar.

EPD 712 Current Research in Planning. (3) S
Review and critical evaluation of contemporary literature and method in environmental planning, landscape ecology, urban design, and urban and regional planning. Seminar.

EPD 714 Current Research in History, Theory, and Criticism. (3) S
Review and critical evaluation of contemporary literature and method in the theory and history of architecture, design, and planning. Seminar.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

ASSOCIATE PROFESSORS
COOK, KIM, McSHERRY, SAN MARTIN, YABES

ASSISTANT PROFESSORS
CAMERON, CREWE, EWAN, FISH EWAN, GUHATHAKURTA, MUSACCHIO

The faculty in the School of Planning and Landscape Architecture offer a graduate program leading to the professional Master of Environmental Planning degree in Environmental Planning. Three areas of specialty are offered: urban and regional development, urban design, and landscape ecological planning.

The faculty in the school also participate in offering the Ph.D. degree in Environmental Design and Planning program. See “Doctor of Philosophy,” page 104, for general information on the Ph.D. degree.

MASTER OF ENVIRONMENTAL PLANNING

The faculty in the School of Planning and Landscape Architecture offer a program leading to the professional
degree Master of Environmental Planning (M.E.P.). Three areas of specialty are offered: urban and regional development; urban design; and landscape ecological planning. Graduates acquire the knowledge and skills necessary for leadership roles in the planning profession. Students take a core and select additional courses from the area of specialty. Urban and regional development prepares students for employment in areas such as housing, economic and community development, policy analysis, transportation, and the politics of planning. Urban design provides a link between the School of Planning and Landscape Architecture and the other disciplines in the College of Architecture and Environmental Design—architecture, graphic design, interior design, and industrial design. Students selecting this area of specialty should have a degree in design or planning or be prepared to take basic design courses as a prerequisite. Students are prepared to work in land-use planning, the design of specific parcels of land, the preparation of development controls, and the drafting of guidelines for development controls and design. Landscape ecological planning prepares students for careers in public land management, conservation of renewable and nonrenewable resources, the management of solid and hazardous wastes, environmental impact assessment, and land-use planning. All areas of specialty emphasize environmental and urban planning in rapidly developing metropolitan areas, preparing graduates for advanced careers in either the public or private sector.

A common core of required lecture, seminar, and studio courses provides knowledge of urban and environmental planning issues and fundamental theories, practices, and skills in planning. The areas of specialty in urban design and landscape ecological planning offer a series of fundamental and advanced design studios that enhance knowledge of urban form and land planning.

Individual practical experience in planning is provided through an internship program and independent work on a required final thesis. In addition to the planning faculty, the program is enriched by the interdisciplinary participation of faculty from other academic units of the university as well as leading planning and landscape architecture practitioners from the Phoenix area.

**Admission Requirements and Procedures.** To be considered for the program, the applicant must fulfill all admission requirements of the Graduate College, in addition to meeting admission requirements of the School of Planning and Landscape Architecture. Separate application materials must be submitted.

**School of Planning and Landscape Architecture.** The following materials should be submitted to

SCHOOL OF PLANNING AND LANDSCAPE ARCHITECTURE
COLLEGE OF ARCHITECTURE AND ENVIRONMENTAL DESIGN
ARIZONA STATE UNIVERSITY
PO BOX 872005
TEMPE AZ 85287-2005

1. a statement of intent (maximum 600 words) explaining (a) the applicant’s interest in planning; (b) the applicant’s academic background, and if appropriate, preparation for the selected area of specialty: urban and regional development, urban design, or landscape ecological planning (these may include written samples or a portfolio); and (c) the applicant’s educational objectives;
2. test scores: TOEFL scores from international students whose native language is not English;
3. three letters of recommendation from references who are qualified to comment on the applicant’s potential in the selected area of study; and
4. a résumé.

International students who wish to be considered for a teaching assistantship and whose first language is not English are required to pass the TSE administered by the American English and Culture Center at ASU.

**Application Deadlines.** For full enrollment, application materials are due in the School of Planning and Landscape Architecture and the Graduate College on March 15.

For spring enrollment, application materials are due in the School of Planning and Landscape Architecture and the Graduate College on October 15.

**Selection Procedures and Notifications.** School faculty evaluate the applications and supporting materials and recommend to the Graduate College whether the applicant should be granted regular or provisional admission or if admission should be denied. If admission is provisional, the Graduate College specifies in its letter of admission the provisions to be met to gain regular status. The school informs successful applicants of the procedures for enrollment.

**Program of Study.** An approved program of study is 47 semester hours or 50 with an optional internship. The program has the typical distribution as follows:

```
| Required core courses, including two four-hour studios | 28 |
| Specialization courses | 15 |
| Optional internship | 3 |
| Thesis | 4 |
```

Total without internship .................................................................47
Total with internship ...................................................................50

Students are encouraged to take the required core courses and then to select an area of specialization. The program of study must be approved by the student’s supervisory committee and be completed as specified for graduation. Requests for changes in the program must be made in writing. Some graduate courses may require undergraduate-level prerequisites; specifically, all students are expected to have taken introductory courses in planning and statistics. Inquiries regarding the M.E.P. program should be directed to the School of Planning and Landscape Architecture.

**Foreign Language Requirements.** None.

**Thesis Requirements.** A thesis is required.

**Final Examinations.** A comprehensive oral examination based on the student’s thesis is required. The oral examination is administered by the supervisory committee.

**RESEARCH ACTIVITY**

Faculty and students in this graduate program are involved in the following areas of research.
International Planning. Economic and community development, housing, landscape ecology, sustainable development, and urban design.
Landscape Ecological Planning. Conservation of renewable and nonrenewable resources, environmental impact assessment, growth management, hazards planning, land-use planning, public land management, riparian and wetlands protection, and sustainable development.
Urban and Regional Development. Housing, economic and community development, citizen participation, policy analysis, transportation, and the politics of planning.
Urban Design. Development controls, design guidelines, planning and land-use law, smart growth, urban design theory, and urban landscape design.

LANDSCAPE ARCHITECTURE (PLA)
PLA 411 Landscape Architecture Theory and Criticism. (3) S
Landscape architecture theories and projects are critically analyzed to evaluate validity of design and contribution to society. Prerequisites: PLA 310, 361, 362, 420, 461
PLA 461 Landscape Architecture V. (4) F
Landscape ecological planning; collection and application of ecological data relevant to planning and design at landscape scale. Studio. Prerequisite: PLA 362.
PLA 485 International Field Studies in Planning and Landscape Architecture. (1–12) F, S, SS
Organized field study of planning and landscape architecture in specified international locations. May be repeated for credit with school approval. Study abroad. Cross-listed as PUP 485. Credit is allowed for only PLA 485 or PUP 485.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

URBAN AND ENVIRONMENTAL PLANNING (PUP)
PUP 412 History of the City. (3) F
The city from its ancient origins to the present day. Emphasis on European and American cities during the last five centuries. Cross-listed as APH 414. Credit is allowed for only APH 414 or PUP 412. General Studies: H.
PUP 420 Theory of Urban Design. (3) S
Analysis of the visual and cultural aspects of urban design. Theories and techniques applied to selected study models. Prerequisite: junior standing. General Studies: HU.
PUP 433 Zoning Ordinances, Subdivision Regulations, and Building Codes. (3) F, S
Analysis of zoning ordinances, subdivision regulations, building codes, and other planning implementation techniques relative to local development.
PUP 442 Environmental Planning. (3) F
Environmental planning problems, including floodplains, water quality and quantity, solid and hazardous waste, air quality, landslides, and noise. Field trips. Prerequisite: PUP 301 or instructor approval.
PUP 444 Preservation Planning. (3) S
History, theory, and principles of historic preservation. Emphasis on legal framework and methods practiced. Lecture, off-campus field study. Prerequisite: instructor approval.
PUP 445 Women and Environments. (3) F
Examines the role women play in shaping the built environment; ways built/natural forms affect women’s lives. Focus on contemporary U.S. examples. Prerequisite: upper division or graduate status. General Studies: C.
PUP 452 Ethics and Professional Practice. (3) F
Ethical problems and issues in planning, professional practice, and decision making. Prerequisite: school major or instructor approval. General Studies: L.
PUP 485 International Field Studies in Planning and Landscape Architecture. (1–12) F, S, SS
Organized field study of planning and landscape architecture in specified international locations. May be repeated for credit with school approval. Study abroad. Cross-listed as PUP 485. Credit is allowed for only PLA 485 or PUP 485.
PUP 498 Pro-Seminar. (1) F
(a) Senior Pro-Seminar
PUP 501 The Idea of Planning. (3) F
Comprehensive review of planning profession within a political, governmental, multicultural, and gender framework.
PUP 510 Citizen Participation. (3) S
Theory and practice of citizen participation in planning. Examines and critiques participation techniques and roles of planners. Prerequisite: instructor approval.
PUP 520 Planning Theories and Processes. (3) F
Review of past and current theoretical developments related to social change perspectives, the role and ethics of planners. Prerequisite: instructor approval.
PUP 524 Planning Methods I: Planning Research Methods. (3) F
Tools useful for urban planning research; emphasis on research design and survey methods. Prerequisite: PUP 301 or instructor approval.
PUP 525 Urban Housing Analysis. (3) F
Nature, dimensions, and problems of urban housing; government policy environment, and underlying economics of the housing market.
PUP 531 Planning and Development Control Law. (3) S
Case studies on police power, eminent domain, zoning, subdivision controls, exclusion, preservation, urban redevelopment, and aesthetic and design regulation.
PUP 532 Advanced Urban Planning Law. (3) S
Advanced study on selected issues in planning law, such as urban design controls, exclusionary practices, compensable regulation, and tax policy. Prerequisite: PUP 432 or instructor approval.
PUP 544 Urban Land Use Planning. (3) S
Theory and methods of urban land use planning, including the rational planning process, comprehensive, functional, and neighborhood plans. Prerequisite: PUP 301 or instructor approval.
PUP 546 Urban Design Policy. (3) N
Advanced study of local, state, and federal urban design policy. Prerequisite: PLA 420 or PUP 420.
PUP 561 Urban Design Studio. (4) N
Current urban form and urban landscape design problems within the Phoenix-centered region. Studio. Prerequisite: PLA 420 or PUP 420 or instructor approval.
PUP 572 Planning Studio I: Data Inventory and Analysis. (4) F
Comprehensive planning workshop dealing with real community problems. Focus on the data gathering and analysis steps of the planning process. Prerequisite: Master of Environmental Planning major or instructor approval.
PUP 574 Planning Studio II: Options and Implementation. (4) S
Comprehensive planning workshop dealing with real community problems. Focus on the development of options, plan making, and plan implementation. Studio. Prerequisite: PUP 572 or instructor approval.
PUP 575 Environmental Impact Assessment. (3) S
Criteria and methods for compliance with environmental laws; development of skills and techniques needed to prepare environmental impact statements/assessments.
PUP 584 Internship. (3) F, S, SS (SS1 only)
Internship under the supervision of practitioners in the Phoenix area or other locales. Credit/no credit.
PUP 599 Thesis. (1–12) N
PUP 622 Planning Methods II: Quantitative Planning Analysis. (3) S
Methods and models used as the basic quantitative techniques of urban, regional, and environmental planning and policy analysis. Prerequisites: PUP 424; statistics; instructor approval.
PUP 642 Land Economics. (3) F
Land use and locational impact of economic activity and the urban real property market. Prerequisite: instructor approval.
Environmental Resources

Raymond Marquardt
Dean
Morrison School of Agribusiness and Resource Management

PROFESSORS
BRADY, BROCK
ASSOCIATE PROFESSORS
GREEN, MILLER, WHYSONG

The faculty in the Environmental Resources program of the Morrison School of Agribusiness and Resource Management offer a program leading to the M.S. degree in Environmental Resources. Areas of study are offered in natural resource management, GIS/remote sensing, and applied ecology. The faculty in this program also participate in offering the Ph.D. in Environmental Design and Planning program. See “Doctor of Philosophy,” page 104, for general information on the Ph.D. degree.

MASTER OF SCIENCE

Admission. Applicants to the program are expected to meet the minimum requirements for admission to the Graduate College. In addition, scores from the Graduate Record Examination or Miller Analogies Test are required. Applicants are expected to have completed 18 semester hours in environmental sciences or closely related courses. Applicants not meeting these requirements may be considered for admission with deficiencies.

Submit the following separate application materials to:
ENVIRONMENTAL RESOURCES PROGRAM
MORRISON SCHOOL OF AGRIBUSINESS
AND RESOURCE MANAGEMENT
ARIZONA STATE UNIVERSITY EAST
7001 E WILLIAMS FIELD ROAD
MESA AZ 85212-6032

1. a statement of intent (maximum 600 words) explaining
   (a) the applicant’s interest in environmental resources,
   (b) the applicant’s academic background, and
   (c) the applicant’s educational objectives;
2. three letters of recommendation from references who are qualified to comment on the applicant’s potential in the selected area of study; and
3. a résumé.

Application Deadlines. For fall enrollment, application materials are due in the Morrison School of Agribusiness and Resource Management and the Graduate College on March 15.

For spring enrollment, application materials are due in the Morrison School of Agribusiness and Resource Management and the Graduate College on October 15.

Selection Procedures and Notifications. School faculty evaluate the applications and supporting materials and recommend to the Graduate College whether the applicant should be granted regular or provisional admission or if admission should be denied. If admission is provisional, the Graduate College specifies in its letter of admission the provisions to be met to gain regular status. The school informs successful applicants of the procedures for enrollment.

Program of Study. A minimum of 30 semester hours of approved graduate course work is required. All students are required to complete a 13-semester-hour core curriculum. A minimum grade of “B” is required in all core courses. First-year students are expected to complete ERS 550 Vegetation Dynamics, ERS 591 Environmental Resources Seminar, and ERS 551 Advanced Environmental Statistics Studio. Second-year students are required to complete ERS 691 in the fall semester. Students can complete ERS 485 GIS in Natural Resources or ERS 486 Remote Sensing in Environmental Resources (or an approved substitute if the student has previously taken both ERS 485 and 486) at any time during their residence. All students are also expected to complete a minimum of three semester hours of research and three semester hours of thesis. The remaining hours (11 semester hours) are chosen to support the student’s educational objectives.

Foreign Language Requirements. None.

Comprehensive Examinations. None.

Thesis Requirements. A thesis is required.

Final Examinations. A final oral examination covering the thesis and related subject matter is required.

RESEARCH ACTIVITY

Faculty and graduate students in Environmental Resources are active in a number of research programs, including applications of geographic information systems and remote sensing to resource management, ecosystem restoration, fire ecology, monitoring of ecological change, riparian ecology, soils ecology, vegetation dynamics, and wildlife habitat ecology.

ENVIRONMENTAL RESOURCES (ERS)

ERS 402 Vegetation Measurement. (4) S
Vegetation sampling and inventory as related to animal-habitat relations. Lecture, lab, 1 weekend field trip. Prerequisites: ERS 301 and 307 and 350 and program major or instructor approval.

ERS 415 Wildlife Life Histories. (4) S
Life histories of the major mammal, reptile/amphibian, and avian species found in the Southwest, with emphasis on management. Lecture, lab. Prerequisites: BIO 370 or 385 and ERS 360.

ERS 420 Ecological Restoration. (3) S
Techniques of ecological restoration applied for the improvement of arid and semiarid land and sensitive habitats. Weekend field trips. Prerequisite: ERS 360.

ERS 425 Soil Classification and Management. (3) N
Principles of soil genesis, morphology, and classification. Management and conservation practices will be presented. Prerequisite: ERS 225.
ERS 433 Riparian Ecosystem Management. (3) N
Examination of the functions and components that make up riparian ecosystems and the management of these ecosystems. Lecture, field trip. Prerequisite: ERS 225 or instructor approval.

ERS 434 Wetland Ecosystems and Soils. (3) N
Wetland ecosystems structure and function including hydrology and biogeochemistry with special emphasis on soils. Lecture, weekend field trip. Prerequisite: ERS 225 or instructor approval.

ERS 448 Soil Ecology. (3) N
Soils viewed in an ecosystem context, soil-plant relationships, nutrient budgets, and abiotic factors that influence soil processes. Prerequisites: BIO 320 and ERS 225 and 226 or instructor approval.

ERS 449 Landscape Ecology. (3) N
Causes and ecological consequences of spatial and temporal patterns in the environment. Prerequisite: ERS 301.

ERS 460 Applied Systems Ecology. (3) N
The systems approach applied to analysis and management of natural resource ecosystems. Use of simulation models. 2 hours lecture, 3 hours lab. Prerequisites: ERS 350 or equivalent; 1 course in ecology.

ERS 465 Surface Water Quality. (3) S 2001
Examination of factors that impact water quality. Surface water sampling and analysis with interpretation for wildlife, humans, and other users. Prerequisites: ERS 364, 365.

ERS 474 Wildlife Ecology. (3) N
Integration of ecological concepts as applied to wildlife populations and their interaction with the habitat and other species. Lecture, lab, 1 weekend field trip. Prerequisite: ERS 360.

ERS 475 Wildlife Management. (4) S
Principles and techniques of applied ecology for the management and wildlife populations. Lecture, lab. Prerequisites: ERS 311 and 474 or equivalent.

ERS 480 Ecosystem Management and Planning. (3) S
Planning for management and conservation of wildland ecosystems. Ecological, economic, and social constraints on long-term sustainable resource development. Computer tools for resource planning. Lecture, 1 weekend field trip. Prerequisites: ERS 402 or equivalent; senior standing. General Studies: L.

ERS 485 GIS in Natural Resources. (3) F
Principles of Geographic Information Systems (GIS) utilized in natural resource management. Use of computers for spatial analysis of natural resources. Lecture, lab. Prerequisite: CSE 180 or equivalent.

ERS 486 Remote Sensing in Environmental Resources. (4) S
Principles and application of remote sensing technologies in natural resource management. Integration of computerized data from aerial photography and LanSat imagery in resource management. Lecture, lab. Prerequisite: ERS 485 or equivalent.

ERS 490 Recent Advances in Environmental Resources. (1–4) F, S
Current literature and significant developments involving environmental resources. May be repeated for credit.

ERS 533 Riparian Ecology. (3) N
Review of recent literature, developments, and methods related to riparian ecology. Applications of soil and landscape ecology to riparian systems. Lecture, discussion, field trips.

ERS 540 Plant Responses to Environmental Stresses. (3) N
Reaction of plants to environmental stresses; aerial pollutants, fire, herbivores, mechanical treatments, pesticides, and soil amendments. 1 weekend field trip. Prerequisite: ERS 360 or instructor approval.

ERS 550 Vegetation Dynamics. (4) F
Dynamics of vegetation emphasizing ecological succession, applications of landscape ecology and GIS, and analysis of vegetation data. Field trips, studio. Prerequisite: introductory statistics course.

ERS 551 Advanced Environmental Statistics. (4) S
Advanced statistical procedures for environmental resources. Techniques for analyzing research data that do not meet assumptions. Studio. Prerequisite: ERS 350 or equivalent.

ERS 553 Advanced Animal Nutrition. (4) N
Metabolic and physiological interactions of nutrients in wild and domesticated animals consuming natural feeds. Lecture, lab.

ERS 560 Systems Ecology. (3) N
Quantitative description and mathematical modeling of ecosystem structure and function. Techniques for model construction and simulation. Lecture, lab. Prerequisites: ERS 350 or equivalent; computer programming; 6 hours in ecological studies.

ERS 561 Spatial Statistics and GIS. (3) F
Dependent spatial data, analysis and description, semivariograms, variograms, kriging, and GIS analysis. Lecture, lab. Prerequisites: ERS 350 and 485 or equivalents.

ERS 585 Spatial Modeling with GIS. (3) F
GIS technology for spatial modeling of natural resources. Practical application of GIS technology for problem solving. Lecture, lab. Prerequisite: ERS 485 or equivalent or instructor approval.

ERS 591 Environmental Resources Seminar. (1–12) N
ERS 691 Seminar. (1–12) N

The Committee on Exercise Science offers an interdisciplinary graduate program leading to the Ph.D. degree in Exercise Science. The committee functions in setting guidelines and supervising programs of study. One of the unique features of this interdisciplinary program is that, because it utilizes faculty research and teaching interests from a number of academic units, a student may tailor a course of study to fit individual needs and goals. The present committee is composed of members from the following academic units: Anthropology, Bioengineering, Biology, Exercise Science and Physical Education, Family Resources and Human Development, Psychology, and Psychology in Education. Courses, however, are not limited to these academic units. Concentrations are available in biomechanics, motor behavior, physiology of exercise, and sport psychology.
DOCTOR OF PHILOSOPHY

The Ph.D. degree in Exercise Science is an individualized interdisciplinary degree that integrates graduate courses from a variety of academic units to provide a sound foundation for research leading to a dissertation in Exercise Science. Topics for these dissertations come from one of four research areas: biomechanics, motor behavior, physiology of exercise, and sport psychology.

Admission. In addition to meeting Graduate College requirements, students must submit a letter designating a potential area of interest, the name of a potential mentor (from the list of faculty above), and a statement of career goals to the director of the Committee on Exercise Science. Graduate Record Examination (GRE) scores (verbal, quantitative, and analytical), a professional résumé, and three letters of recommendation must also be submitted. All applicants whose native language is not English must submit a Test of English as a Foreign Language score. Preference is given to applicants already holding a master’s degree, although exceptional students possessing only a baccalaureate degree may apply. Admission decisions are based on the compatibility of the applicant’s career goals with the purpose of the degree program, previous academic training and performance, GRE scores, recommendations, and match of research interests with those of available mentors. To be considered for research or teaching assistantships, all application materials should be received before January 15.

Program of Study. The program of study consists of a minimum of 54 semester hours of graduate work beyond the master’s degree (84 hours of graduate credit for applicants holding only the baccalaureate degree). Of the 84 semester hours, at least 30 hours (which may include research credit) of the approved Ph.D. program, and 24 research and dissertation hours must be completed after admission to a Ph.D. program at ASU. An individual program of study is selected in consultation with the student’s supervisory committee. The program of study reflects the interdisciplinary nature of the degree program. Students are expected to have fulfilled a majority of the foundational course work before admission. Prerequisites that have not been completed must be taken as remedial work in addition to the program of study.

Foreign Language Requirements. None.

Comprehensive Examinations. Upon completion of course work and before commencing dissertation research, the student is given written and oral examinations. After the student has passed the comprehensive examinations, a dissertation committee is appointed by the dean of the Graduate College. After the dissertation committee has approved the dissertation prospectus, the student is eligible to apply for admission to candidacy.

Dissertation Requirements. The dissertation must consist of a fully documented written analysis of a problem that extends the knowledge and/or theoretical framework of the field. The research should demonstrate the student’s creativity and competence for independent research.

Final Examinations. A final oral examination in defense of the dissertation is required. The candidate must take the final oral examination in defense of the dissertation within five years after passing the comprehensive examinations. Any exception must be approved by the supervisory committee, the director of the Committee on Exercise Science, and the dean of the Graduate College and ordinarily involves repetition of the comprehensive examinations.

RESEARCH ACTIVITY

Faculty composing the Committee on Exercise Science are engaged in a variety of research activities. The following list includes some of the most recent research interests.

Biomechanics. Decrements in the mechanics and economy of walking in the elderly, kinematic and kinetic determinants of walking and running patterns in below knee amputees, anatomical and mechanical determinants of carpal tunnel syndrome; factors affecting throwing and vertical jumping performance; hydrodynamics of swimming propulsion and resistance, cycling biomechanics and physiology—factors influencing pedaling rates; computer simulation of locomotion in clinical and sport applications; and neuromusculoskeletal modeling.

Motor Behavior. Automatic and central nervous system mediators of behavior: aging and motor coordination; control and coordination of movement; coordination; development of gender differences in sport and motor behavior; feedback; force production; motor learning; neuromotor impairments.

Physiology of Exercise. Thermal adaptation; oxygen consumption; body composition; endocrine responses to exercise; cell membrane lipid metabolism; mitochondrial and cellular bioenergetics; muscle physiology; hepatic exercise metabolism; free radical production during exercise; exercise and aging; physiological, biochemical, and hormonal aspects of stress; physiological aspects of the exercising female; athletic amenorrhea; effects of exercise on osteoporosis and arthritis; and nutrition in sport and exercise.

Sport Psychology. Affective state as a function of exercise; arousal and attention in skilled performance; attention; cognitive factors and motor skill, performance; coping and adaptation; exercise and mental health; imagery, self-evaluation, self-talk, and other processes related to competitive performance; mental preparation strategies; perceptual factors associated with sport; psychophysiological/cognitive/motor processes; social physique anxiety.

COURSES

For courses, refer to the course listings under the following majors: Anthropology, Bioengineering, Biology, Chemical Engineering, Chemistry, Educational Psychology, Family Resources and Human Development, Exercise Science/Physical Education, and Psychology. A limited number of applicable courses are also available through other departments.

The faculty in the Department of Exercise Science and Physical Education offer graduate programs leading to the M.S. degree in Exercise Science/Physical Education, and the Master of Physical Education. Faculty also participate in two interdisciplinary Ph.D. programs: (1) Exercise Science with concentrations in biomechanics, motor behavior/sport psychology, and physiology of exercise, and (2) Curriculum and Instruction with concentrations in exercise and wellness, and physical education.

The Committee on Exercise Science offers an interdisciplinary graduate program leading to the Ph.D. degree in Exercise Science. The present committee is composed of members from several academic units. For more information about this program, see “Exercise Science,” page 204.

The Committee on Curriculum and Instruction offers an interdisciplinary graduate program leading to the Ph.D. degree in Curriculum and Instruction. For more information, see “Curriculum and Instruction,” page 169.

MASTER OF SCIENCE
Applicants for the M.S. degree program in Exercise Science/Physical Education may choose from five areas of study: biomechanics, exercise physiology, exercise and wellness, physical education (elementary, secondary, and adapted), and motor behavior/sport psychology (motor learning and control, motor development, and sport psychology). All applicants are required to submit scores from the Graduate Record Examination (GRE). Admission decisions are based upon previous academic training and performance, GRE scores, recommendations, and the ability of potential mentors to devote time to an additional student. International applicants whose native language is not English must also submit a Test of English as a Foreign Language score. Applications are reviewed by department faculty only once a year. To be considered for admission in the fall semester, all application materials must be received by the department by February 1. The program requires a minimum of 30 semester hours, at least 21 of which must be EPE courses. Required courses with corresponding semester hours include EPE 500 (three), 501 (three), and 599 (six). Remaining course work is selected by the student in consultation with an advisor and supervisory committee.

Deficiencies. All applicants recommended for admission are evaluated for deficiencies in their academic preparation. Deficiencies are divided into two areas: (1) those associated with the discipline of exercise science and physical education (human anatomy and physiology, biomechanics, exercise physiology, motor learning and development, and psychosocial aspects of physical activity) and (2) those associated with the area of study (a maximum of six deficiency semester hours pertinent to study in the area may be specified).

Foreign Language Requirements. None.
Thesis Requirements. A thesis is required.
Final Examinations. A final oral examination in defense of the thesis is required.

MASTER OF PHYSICAL EDUCATION
The faculty in the Department of Exercise Science and Physical Education offer a program leading to the Master of Physical Education (M.P.E.) degree. The M.P.E. degree is designed to prepare scholarly professionals (i.e., teachers of physical education). Emphasis is placed on improving instructional effectiveness and developing a quality physical education curriculum in a school setting. Three areas of study are available: elementary, secondary, and adapted physical education.

Admission. Applicants who hold a bachelor’s degree in education and who are certified to teach may apply to the M.P.E. degree directly. Applicants with a bachelor’s degree in physical education but who are not certified to teach will apply to the postbaccalaureate/M.P.E. degree. Deficiencies will be assessed where applicable.

Program of Study. A minimum of 33 semester hours of course work is required for the M.P.E. program, with 18 hours of required core courses, six hours of cognate area, and nine hours of recommended electives. A total of 38 semester hours is required of students completing both the postbaccalaureate program and the M.P.E.

Foreign Language Requirements. None.
Final Examinations. A final written comprehensive examination is required.

RESEARCH ACTIVITY
Laboratory research has been enhanced by the development of a 13,500-square-foot laboratory, the Exercise and Sport Research Institute, which is considered internationally as one of the finest facilities of its kind. The institute includes laboratories dedicated to exercise physiology, biomechanics, sport psychology, motor learning and control, and motor development. Another well-equipped facility is the Physical Education Research Laboratory. This 1,114-square-foot laboratory is dedicated to research on teaching and coaching as well as physical fitness education and programming. The nature and scope of research activities in the various areas of study follow.
Biomechanics. Mechanical determinants of economical gait, gait impairments, and postural control of the aged; repetitive strain syndrome in computer keyboard operators; upper extremity contributions during walking and running; estimation of segment inertial properties; mechanics of swimming techniques; and mechanics of overhand throwing.

Exercise Physiology. Exercise and cardiovascular disease, thermal adaptation, exercise prescription, oxygen consumption, body composition, endocrine responses to exercise, cell membrane lipid metabolism, epithelial transport of ions, cellular enzyme activity, exercise and aging, physiological and biochemical aspects of stress, physiological aspects of the exercising female, cardiovascular and metabolic aspects of wheelchair training, and optimization of physical training programs.

Exercise and Wellness. Methods of effective exercise and health promotion, effectiveness of fitness programs, fitness testing, exercise adherence, motivation and fitness, physical self-perception, and fitness/exercise knowledge and attitudes.

Physical Education. Analysis and measurement of teaching in the environments of elementary schools, secondary schools, and athletic coaching; attitudes and values of children and youth; curriculum models for secondary schools; effectiveness of adapted programs; preschool physical education programs; and analysis of motor patterns in young children.

EXERCISE SCIENCE/PHYSICAL EDUCATION (EPE)

A $5.00 towel and locker fee is required each semester by students using towel and locker facilities for physical education classes and intramural activities.

EPE 413 Qualitative Analysis in Sport Biomechanics. (3) S Developing systematic approach for detecting and correcting errors in human performance using anatomical and mechanical principles. Lecture, lab. Prerequisite: EPE 335.

EPE 414 Electromyographic Kinesiology. (3) F Muscle contributions to human movement, muscle mechanics, electrophysiological basis, and practical application of electromyography. Lecture, discussion. Prerequisites: EPE 335, 340; instructor approval. General Studies: L.

EPE 442 Physical Activity in Health and Disease. (3) F The role of physical activity and physical fitness in the development of morbidity and mortality throughout the human life span. Prerequisites: BIO 201, 202; EPE 340. General Studies: L.

EPE 444 Metabolic Adaptations to Exercise Training. (3) F, S SS Examination of physiologic adaptations to exercise training as they relate to metabolism and tissue functions. Prerequisite: EPE 340.

EPE 452 Exercise Psychology. (3) S Contemporary research and theory as related to human behavior and health in an exercise setting. Prerequisite: EPE 352. General Studies: S.

EPE 460 Theory of Strength Training. (3) S Research and theories on developing muscular strength; programs for developing muscular strength. Lecture, discussion. Prerequisites: EPE 335, 340. General Studies: L.

EPE 500 Research Methods. (3) F An introduction to the basic aspects of research, including problem selection, literature review, instrumentation, data handling, methodology, and the writing of research reports and articles.

EPE 501 Research Statistics. (3) S Statistical procedures; sampling techniques; exercise testing, exercise prescription, hypothesis testing, and experimental designs as they relate to research publications.

EPE 505 Applied Exercise Physiology Techniques. (3) F Investigative techniques used in the applied exercise physiology laboratory. Emphasis on pulmonary function, body composition, and cardiorespiratory assessment. Lecture, lab. Prerequisite: EPE 340.

EPE 510 Introduction to Biomechanics Research Methods. (3) F Application of mechanics to human movement analysis. Includes consideration of two-dimensional imaging techniques, force measurement, electromyography, and data processing methods. Lecture, discussion, some labs. Prerequisite: EPE 335 or instructor approval.

EPE 520 Sport Psychology. (4) F Current research in sport psychology. Includes questionnaire, psychophysiological, and behavioral research techniques. Lecture, discussion. Prerequisites: EPE 448, 500.

EPE 521 Motor Development, Control, and Learning. (4) S Theory and research on motor skill acquisition, including learning/control and development (i.e., growth, children and exercise, and development learning). Lecture, discussion, some labs. Prerequisites: EPE 345, 500, 501.

EPE 522 Exercise Psychology. (3) S Contemporary research and theory as related to human behavior and health in an exercise setting. Lecture, discussion. Prerequisite: EPE 500.

EPE 530 Exercise Physiology. (3) F Immediate and long-term adaptations to exercise with special reference to training and the role of exercise in cardiovascular health. Prerequisite: EPE 340.

EPE 531 Physiology of Women in Sport. (3) S Physiological aspects of women engaging in physical activity. Factors affecting performance and health throughout life are emphasized. Prerequisite: EPE 340.

EPE 534 Sports Conditioning. (3) F Bases of sports conditioning, including aerobic and anaerobic power, strength, flexibility, and analysis of conditioning components for sports.

EPE 536 Physiology of Physical Activity, Exercise and Chronic Disease. (3) F, S Role of physiological mechanisms associated with acute and long-term physical exercise and its influence on chronic disease and wellness.

EPE 542 Health Promotions. (3) S Theory and research concerning fitness and wellness programs in nutrition, physical activity, smoking cessation, and stress management.

EPE 544 Fitness/Wellness Management. (3) F Development of the fitness/wellness industry. Planning, organizing, promoting, and managing fitness/wellness programs.

EPE 561 Administration of Athletics. (3) N Managing an athletic program, including financing, budget policies, staging, and promotion of athletic contests, schedules, travel insurance, and current athletic trends.

EPE 570 Programs and Special Topics in Adapted Physical Education. (3) F Contemporary adapted, developmental, remedial, and corrective physical education programs; understanding of principles, problems, and recent developments in this area.

EPE 572 Trends and Issues in Physical Education. (3) S Literature, research, and practices in contemporary physical education, including finances, Title IX, teaching and coaching philosophies, school organization, and nonteaching physical education programs.

EPE 573 Curriculum and Instruction in Secondary Physical Education. (3) F Current curriculum and instruction practices and research in secondary school physical education. Prerequisite: ESPE major or teaching experience.
EPE 574 Analysis of Teaching Behavior in Sport and Physical Education. (3) N
Use of systematic, direct observation techniques in analyzing and evaluating instruction in sport and physical education. Lecture, lab.

EPE 575 Teaching Lifet ime Fitness. (2) S
Organizing and implementing physical fitness programs in the schools with emphasis on individual problem solving.

EPE 576 Physical Education for Elementary School Children. (3) F
Current practices and research pertaining to elementary school physical education programs.

EPE 578 Student Teaching in Secondary Schools. (6–12) F, S
The practice of teaching. Relationship of theory and practice in teaching. Prerequisite: completion of all required course work or equivalent prior to student teaching.

EPE 599 Thesis. (1–12) N

EPE 610 Advanced Topics in Biomechanics. (3) S
Three-dimensional imaging techniques, data analysis theory, and integration of biomechanics research tools; includes original research project. Lecture, discussion, some labs. Prerequisite: EPE 510 or instructor approval.

EPE 620 Developmental Motor Skill Acquisition. (3) S 2001

EPE 621 Motor Learning/Control. (3) F
Discussion of contemporary research issues in motor learning and control. Includes behavioral and neurophysiological issues. Lecture, discussion. Prerequisite: EPE 521.

EPE 642 Exercise Epidemiology. (3) S
Physical activity, exercise, and physical fitness and the development of chronic disease. Not open to students who have taken EPE 442. Prerequisites: EPE 340, 500, 501.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

MASTER OF SCIENCE

Admission. Applications for admission, teaching assistantships, and Cowden Fellowships are accepted until January 15 preceding the fall semester to which the applicant is seeking admission.

Program of Study. Courses are selected by the student along guidelines of the specific areas, after consultation with the supervisory committee. The program of study should be completed and approved by the supervisory committee by the end of the second semester of full-time graduate study upon completion of 12 semester hours. A program of study may include more than 30 semester hours, and the exact number will be determined by program requirements and the student’s supervisory committee. Acceptance of the proposed program of study must be verified by signature of the student and committee members. After approval within the department or college, the program of study is submitted to the Graduate College for final approval. The following requirements must be met for the concentration.

Family Studies. Within the family relationships area, students may take courses in marriage and family therapy (MFT) sufficient to meet MFT certification requirements for the State of Arizona.

The required courses are CDE 531, FAS 500, and FAS 531; two statistics courses, one basic and one advanced, selected with the approval of the student’s advisor; and six semester hours of thesis/research. A minimum of 34 semester hours is required for this degree program; however, 37 hours are recommended.

Additional requirements must be fulfilled in the chosen area of study.

Child Development. The required courses are CDE 533, six semester hours of CDE electives, and one FAS course selected in consultation with the advisor.

Family Relationships. The required courses are FAS 539, six semester hours of FAS electives, and one CDE course selected in consultation with the advisor.

Within the family relationships area of study, students may take courses in marriage and family therapy to meet certification requirements for the state of Arizona. A separate application and acceptance is required for admission to the MFT specialization, which includes clinical practica and supervision. Typically, the MFT specialization is a three-year program.

Thesis Requirements. A thesis is required.

Final Examinations. A final oral examination in defense of the thesis is required.

RESEARCH ACTIVITY

Recent faculty and student research include the following subjects: nutrition and public health problems of Hispanics, ethnic families; police family-work stress; gender issues, social support; premarital sexual influence strategies, sexual expression, and relationship development; prevention programs for families, process in MFT, client expectancies, sexual enhancement; social-emotional development, peer relationships, temperament; behavioral observation of marital and family interaction; women’s role as caregivers to elderly mothers; cross-cultural perspectives; family relations of mid- and later life; postdivorce relationships between

Students may pursue the M.S. degree in Family Resources and Human Development with a concentration in family studies. Areas of study are available in child development and family relationships.

Students applying to this program are required to submit scores on the Graduate Record Examination (verbal and quantitative sections).
former spouses; coparental relationships after divorce; development of stereotypes, gender roles; parent-adolescent relationships, adolescent social competence, adolescent risk-taking; adolescent sexuality, pregnancy, parenting; parental influences; child development and mental health; prevention program development and evaluation; adolescent educational aspirations; infant mental health, early intervention and assessment, transition to school.

**CHILD DEVELOPMENT (CDE)**

**CDE 430 Infant/Toddler Development in the Family.** (3) F
An examination of the development of infants/toddlers, the socialization processes of families, and the interactions of these processes. Prerequisite: CDE 232 or equivalent. General Studies: SB.

**CDE 437 Observational and Naturalistic Methods of Studying Children.** (3) N
In-depth examination of implementing observational and naturalistic studies of children in a variety of settings. 2 hours lecture, 3 hours lab. Prerequisites: CDE 430; 6 hours of psychology. General Studies: L/SB.

**CDE 444 Children and Poverty.** (3) F
The impact that poverty has on children and their families. 2 hours lecture, 3 hours lab. Prerequisites: CDE 232 (or equivalent); 6 hours of upper-division social science credits.

**CDE 531 Theoretical Issues in Child Development.** (3) S
Major developmental theories, related research, and their application to family interaction. Prerequisites: CDE 430 and 437 (or equivalent) or instructor approval.

**CDE 533 Research Issues in Child Development.** (3) S
An in-depth exploration and critique of research focusing on child development in a family setting. Prerequisites: CDE 531; FAS 500.

**CDE 534 Applied Child Development.** (3) S
Integration of research and theory on child development, risk, and resilience to understand developmental problems and provide a foundation for intervention strategies. Prerequisites: CDE 531; FAS 500.

**CDE 634 Advanced Applied Child Development.** (3) S
Advanced training in research and theory-based approaches to developing and evaluating prevention programs for children at risk. Prerequisite: CDE 534 or instructor approval.

**Omnibus Graduate Courses.** See page 57 for omnibus graduate courses that may be offered.

**FAMILY STUDIES (FAS)**

**FAS 431 Parent-Adolescent Relationships.** (3) F
Dynamics of the relationships between parents and adolescents. Developmental characteristics of adolescence and the corresponding adult stage. Prerequisites: CDE 232; FAS 331. General Studies: SB.

**FAS 432 Family Development.** (3) N
Normative changes in families over time from formation until dissolution. Emphasis on the marital subsystem in middle and later years. Prerequisites: CDE 232 and FAS 331 or instructor approval.

**FAS 435 Advanced Marriage and Family Relationships.** (3) F
Recent research, issues, and trends relating to marriage and family interaction. Influence of family composition, physical environment, family patterns, and values on family dynamics. Prerequisites: FAS 331, 361. General Studies: L/SB.

**FAS 436 Conceptual Frameworks in Family Studies.** (3) S
Approaches to study families focusing on systems, interactional, exchange, conflict, and developmental frameworks. Applications to diverse individual and family situations. Prerequisites: CDE 232; FAS 331, 361.

**FAS 440 Fundamentals of Marriage and Family Therapy.** (3) S
Introduction to the fundamental orientations of marriage and family therapy.

**FAS 457 Third-World Women.** (3) F
Economic, sociopolitical, and demographic context for understanding the roles of third-world women in health, family, work, education, and community. Prerequisite: 6 hours of social science credit or instructor approval.

**FAS 500 Research Methods.** (4) F
Uses of research. Experimental design, methods of data collection, and thesis proposal development. Includes practical application research laboratory. 3 hours lecture, 3 hours lab.

**FAS 530 Introduction to Marriage and Family Therapy.** (3) F
Introduction to major marriage and family therapy orientations. Review history, theory, application, and outcome research for each orientation. Prerequisite: admission to graduate program in FRHD with a concentration in family studies or instructor approval.

**FAS 531 Family Theory Development.** (3) S
Historical and current approaches to theory development, evaluation, and application in family studies. Prerequisite: FAS 435 or instructor approval.

**FAS 536 Dysfunctional Marriage and Family Relationships.** (3) N
A critical review of current theory and empirical evidence connecting marital and family interaction patterns with aberrant behavior. Prerequisite: PGS 466 or PSY 573 (or equivalent) or instructor approval.

**FAS 537 Interpersonal Relationships.** (3) F
Critical examination of current theoretical and research developments in the area of interpersonal relationships. Applications for research and intervention emphasized. Prerequisite: FAS 435 (or equivalent) or instructor approval.

**FAS 538 Advanced Techniques in Marriage and Family Therapy.** (3) N
An in-depth review of assumptions and advanced techniques associated with contemporary marriage and family therapy approaches. Prerequisite: a graduate-level course in marriage and family therapy or instructor approval.

**FAS 539 Research Issues in Family Interaction.** (3) F
Critical review of current and past research in the area of family dynamics. Emphasizes interactive processes within the family. Prerequisite: FAS 435 (or equivalent) or instructor approval.

**FAS 540 Assessment in Marriage and Family Therapy.** (3) S
Instruction in the assessment and outcome evaluation of couples and families involved in marital and family therapy. Lecture, lab. Prerequisites: FAS 500 (or equivalent); PSY 530; instructor approval.

**FAS 580 Marriage and Family Therapy Practicum.** (3) F, S
Supervised clinical experience in marriage and family therapy; includes development of assessment and outcome evaluation skills. Lecture, lab.
(a) First semester (3)
(b) Second semester (3)
(c) Third semester (3)
Prerequisite: Instructor approval.

**Omnibus Graduate Courses.** See page 57 for omnibus graduate courses that may be offered.

**FAMILY RESOURCES AND HUMAN DEVELOPMENT (FRD)**

**FRD 451 Field Experience.** (1–12) N
Supervised field placement in the area of student’s concentration with a community business or agency. Students must make arrangements with instructor 1 semester in advance of enrollment. Prerequisite: completion of 60 hours; instructor approval.

**Omnibus Graduate Courses.** See page 57 for omnibus graduate courses that may be offered.

The faculty in the Department of Family Resources and Human Development offer a degree program leading to the Ph.D. degree in Family Science. An area of concentration is available in marriage and family therapy (MFT), with additional programs of study available in the nonclinical aspects of family studies.

DOCTOR OF PHILOSOPHY

The Ph.D. degree in Family Science prepares clinicians and researchers in marriage and family therapy, family processes, family relationships, and human development within the context of families. Students receive advanced training in theory, clinical strategies (MFT), research methodology, and several substantive fields that are part of family science.

The program is designed for graduates to assume leadership roles as directors or clinicians in public or privately funded mental health agencies, private practice, or government, or as researchers and academicians in universities. The MFT concentration also prepares students for state certification to practice as certified marriage and family therapists.

A description of the program, along with opportunities for assistantships and fellowships, may be obtained from the director of the program.

Admission. Admission to the Ph.D. in Family Science is determined by the following criteria:

1. official transcripts of all undergraduate and graduate course work;
2. verbal, quantitative, and analytical Graduate Record Examination scores;
3. statement of goals relevant to the Ph.D. program;
4. three letters of recommendation; and
5. an application for admission to the Graduate College.

A Test of English as a Foreign Language score of at least 600 is required of all applicants whose native language is not English.

Program of Study. Each student must prepare and submit a program of study in conjunction with the chair and members of his or her supervisory committee during the first year in the program. The program of study consists of a minimum of 105 semester hours for students entering after the bachelor’s degree and 63 semester hours for students entering after the master’s degree. Of the 105 semester hours for a postbaccalaureate program, six are thesis credit and 24 are research and dissertation credit. Correspondingly, the 63 semester hours of the postmaster’s program include 24 semester hours of research and dissertation credit. The additional hours in both the postbaccalaureate and postmaster’s tracks involve

1. family science courses,
2. clinical approaches and clinical supervision courses (MFT),
3. statistics and research methods, and
4. a collateral area of study relating to family science taken outside the Department of Family Resources and Human Development.

Foreign Language Requirements. None.

Evaluation and Comprehensive Examinations. Progress through the program involves (1) annual evaluations of the student’s performance and (2) comprehensive written examinations at the end of the student’s course work.

Practicum and Internship Requirements. For the MFT concentration, a total of 14 hours (postbaccalaureate) is required in clinical supervision, practicum, and internship. Practicum is for one year, and the internship lasts nine months.

Dissertation Requirements. The doctoral dissertation must be a work of original scholarship, make a significant contribution to knowledge about families, and reflect a mastery of systemic research methods.

Final Examinations. A final oral examination in defense of the dissertation is required.

RESEARCH ACTIVITY

The Department of Family Resources and Human Development provides advanced graduate training in marital and family therapy, family science, and child development. Specific areas of faculty research include marital and family therapy approaches, evaluation of marital therapy, marital and family relationships, marital interaction, parent-child relationships, parent-adolescent relationships, prevention research on children and families, children’s social and emotional development, children’s gender-role development, sexuality, dating relationships, and ethnic and socioeconomic diversity in marital and family relationships.

Strong emphasis is placed on the acquisition of sophisticated theoretical, methodological, and statistical skills necessary to acquire research funding, publish in professional journals, and make significant contributions to existing knowledge.

Research and Clinical Facilities. The department’s clinical and research facilities include a marriage and family clinic, marital interaction laboratory, children’s social development laboratory, child development laboratory, and collaborative arrangements with the ASU Prevention Intervention Research Center. The Department of Family Resources and Human Development also provides access to sophisti-
cated microcomputing technology within the department as well as to centralized computing services at ASU. The department offers several fellowships that provide students with collaborative research experiences under the supervision of faculty members.

**COURSES**

For courses, see listings under “Family Resources and Human Development,” page 208.

**Fine Arts**

COLLEGE OF FINE ARTS (CFA)

CFA 484 Internship. (1–12) F, S
CFA 494 Special Topics. (3) F, S
(a) Intellectual Property and the Fine Arts
CFA 498 Pro-Seminar. (1–7) F, S
CFA 584 Internship. (1–12) F, S
CFA 594 Special Topics. (3) F, S
(a) Intellectual Property and the Fine Arts
CFA 684 Internship. (1–12) F, S
CFA 784 Internship. (1–12) F, S
Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

**French**

See “Languages and Literatures,” page 237.

**Geography**

**ASSISTANT PROFESSORS**

ELLIS, SIERRA-MALDONADO, WENTZ

**LECTURER**

HUMBECK

The faculty in the Department of Geography offer graduate programs leading to the M.A. and Ph.D. degrees in Geography. Departmental research and graduate education focuses upon seven areas of study: climatology, earth-surface processes, natural resources and environment, urban-economic geography, population, Latin America and the Southwestern United States, and spatial analysis methods.

Students admitted to the Master of Education degree program with a major in Secondary Education may also elect geography as the subject matter field. See “Master of Education,” page 180, for information on the Master of Education degree.

**MASTER OF ARTS**

The M.A. program is designed to offer a specialized program of academic and professional training in geography so that the student may secure a sound graduate background for further specialization or for immediate employment. The program has sufficient flexibility to allow for individual needs and interests of the student. A minimum of 30 semester hours beyond the bachelor’s degree is required. At least 24 hours must be in geography.

**Admission.** Applications for the M.A. program must be accompanied by the applicant’s scores on the Graduate Record Examination (verbal and quantitative) and three letters of recommendation from professors. All applications are reviewed by the Graduate Committee and the chair of the Department of Geography. To be considered for financial assistance for the next academic year, students must be admitted by February 15.

It is presumed that all students entering the master’s program have an adequate background in geography, including course work that is the equivalent of GPH 371 Cartography and GCU 495 Quantitative Methods in Geography. Additional prerequisite course work is required of students insufficiently prepared in geography. The program of study consists of the following elements:

- GCU 529 Contemporary Geographic Thought ..................3
- or GCU 596 History of Geographic Thought (3)
- GCU 585 Advanced Research Methods in Geography ........3
- GCU 591 Seminar .........................................................3
- or GPH 591 Seminar (3)
- GCU 599 Thesis ..........................................................6
- or GPH 599 Thesis (6)

Total ................................................................................15

The remaining 15 hours are composed of a suitable combination of course work and/or research.

A student in the M.A. program is required to pass an oral and a written examination administered by the student’s supervisory committee. The written examination consists of questions from the area of interest. The oral examination serves as a defense of the thesis.

**DOCTOR OF PHILOSOPHY**

Admission to the Ph.D. program requires a completed master’s degree in Geography or equivalent preparation. At a minimum this preparation should include competence in cartography and quantitative methods and basic course work in human and physical geography. Students who have not already acquired these basic skills or taken these basic courses must do so during the first year of their graduate program. These courses are considered prerequisites.
To be considered for financial assistance for the next academic year, students must be admitted by February 15.

The specific academic program is carefully planned by the student in consultation with a supervisory committee. Special efforts are taken to plan a course of study compatible with the student's career objectives.

See “Doctor of Philosophy,” page 104, for general requirements.

Program of Study. A minimum of 30 semester hours of course work at ASU beyond the master’s degree is required, plus a minimum of 24 semester hours of credit in research and dissertation. All Ph.D. students are required to take
1. GCU 585 and
2. GCU 529 or 596;
3. and two three-semester-hour seminars (GCU/GPH 591) or graduate courses (300-level) in geography.

Foreign Language Requirements. At the discretion of the student’s supervisory committee, a reading proficiency in a foreign language may be required.

Field Examination. The Department of Geography requires Ph.D. students to pass a two-week field problem examination before taking the comprehensive examination.

Comprehensive Examinations. Written and oral comprehensive examinations are required. These are taken at the completion of all course work. After students have passed the comprehensive examinations and satisfied the other requirements, they are eligible to apply for candidacy.

Dissertation Requirements. A dissertation based on original work demonstrating creativity in research and scholarly proficiency in the subject area is required.

Final Examinations. A final oral examination in defense of the dissertation is required.

RESEARCH ACTIVITY

The university’s location in the arid Southwest provides an ideal setting for research into arid land processes and fluvial geomorphology. In conjunction with the department’s Office of Climatology, activities pursued include past climate reconstruction, climate monitoring, climate theories and models, and environmental studies from local to global scales. The Phoenix metropolitan area, populated by 2.8 million people, is an excellent setting for the investigation of land use and transportation conflicts, diverse communities, migration patterns, and other issues associated with urban development in rapidly growing sunbelt cities. The region also offers the opportunity to study historical and cultural geography associated with, for example, Hispanic populations and Native American communities. Northern Mexico is within easy reach for those interested in field studies in Latin America.

CULTURAL GEOGRAPHY (GCU)

GCU 421 Geography of Arizona and Southwestern United States. (3) F, S
Geography of the Southwest with an emphasis on Arizona. Divided into physical geography, history, people, and economy. General Studies: SB, C.

GCU 423 Geography of South America. (3) S
Prerequisite: GCU 323 or instructor approval. General Studies: SB, G.

GCU 424 Geography of Mexico and Middle America. (3) A
Central America and Mexico. Prerequisite: GCU 323 or instructor approval. General Studies: SB, G.

GCU 425 Geography of the Mexican American Borderland. (3) S
Geography of a binational and bicultural region. Examination of settlement, boundary issues, ethnic subregions, population change, industrial development, and urban growth. General Studies: L/SB, G.

GCU 426 Geography of Russia and Surroundings. (3) N
Examines the geography of Russia and other post-Soviet states. Prerequisite: GCU 121 or instructor approval. General Studies: SB, G.

GCU 433 Geography of Southeast Asia. (3) S
Examines the biophysical and social features of Southeast Asian nations and peoples. Prerequisite: GCU 326 or instructor approval.

GCU 441 Economic Geography. (3) A
Spatial distribution of primary, secondary, and tertiary economic and production activities. Prerequisite: GCU 141 or instructor approval. General Studies: SB.

GCU 442 Geographical Analysis of Transportation. (3) S
Networks, modes, economics, and flows at the urban, national, and international scales. Prerequisite: GCU 141 or 441. General Studies: SB.

GCU 444 Geographic Studies in Urban Transportation. (3) S
Current urban transportation issues in metropolitan Phoenix. Lecture, team project. Prerequisite: GCU 361. General Studies: SB.

GCU 453 Recreational Geography. (3) N
Examination of problems surrounding the organization and use of space for recreation. Introducing geographic field survey methods of data collection and analysis. Saturday field trips may be required.

GCU 455 Historical Geography of U.S. and Canada. (3) N
Geographical perspective on the evolution of the United States and Canada from pre-Columbian times to early 20th Century. General Studies: SB, H.

GCU 474 Public Land Policy. (3) F
Geographic aspects of federal public lands, policy, management, and issues. Emphasis on western wilderness and resource development problems. General Studies: SB.

GCU 495 Quantitative Methods in Geography. (3) F, S
Statistical techniques applied to the analysis of spatial distributions and relationships. Introduction to models and theory in geography. Prerequisite: MAT 119. General Studies: CS.

GCU 496 Geographic Research Methods. (3) F, S
Scientific techniques used in geographic research. Prerequisites: GCU 495; GPH 371, 491. General Studies: L.

GCU 515 Human Migration. (3) F
Economic, political, social, and geographic factors underlying population movements. Migration selectivity, streams and counter-streams, labor migration, and migration decision making. Lecture, seminar. Prerequisite: GCU 351 or instructor approval.

GCU 526 Spatial Land-Use Analysis. (3) N
Determination, classification, and analysis of spatial variations in land-use patterns. Examination of the processes affecting land-use change. Prerequisite: 15 hours of geography or instructor approval.

GCU 529 Contemporary Geographic Thought. (3) F
Comparative evaluation of current philosophy concerning the nature and trends of geography. Prerequisites: 15 hours of geography; instructor approval.

GCU 585 Advanced Research Methods in Geography. (3) S
Specialized research techniques and methodologies in economic, political, or cultural geography.

GCU 591 Seminar. (1–3) F, S, SS
Selected topics in economic, political, or cultural geography. Field trips may be required.

GCU 596 History of Geographic Thought. (3) F
Historical development of geographic thought from pre-Greek days to the early 20th century.

GCU 599 Thesis. (6) N
Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

PHYSICAL GEOGRAPHY (GPH)

GPH 401 Topics in Physical Geography. (1–3) A
Open to students qualified to pursue independent studies. Field trips may be required. Prerequisite: instructor approval.
GPH 405 Energy and Environment. (3) S
Sources, regulatory and technical controls, distribution, and consequences of the supply and human use of energy. Prerequisite: courses in the physical or life sciences or instructor approval.

GPH 409 Synoptic Meteorology I. (4) F 2001
Diagnostic techniques and synoptic forecasting. Includes techniques of weather analysis, map interpretation, and satellite and radar analysis. Prerequisites: MAT 270; PHY 131, 132.

GPH 410 Synoptic Meteorology II. (4) S
Diagnostic techniques and synoptic forecasting. Includes techniques of weather analysis, map interpretation, and satellite and radar analysis. Prerequisite: GPH 409.

GPH 411 Physical Geography. (3) A
Introduction to physiography and the physical elements of the environment. Open only to students who have not taken GPH 111. Field trips.

GPH 412 Physical Climatology. (3) A
Physical processes in the earth-atmosphere system on regional and global scales; concepts and analysis of energy, momentum, and mass balances. Prerequisites: GPH 212 and 213 or instructor approval.

GPH 413 Meteorological Instruments and Measurement. (3) A
Design and operation of ground-base and aerological weather measurement systems. Collection, reduction, storage, retrieval, and analysis of data. Field trips are required. Prerequisites: GPH 212 and 213 or instructor approval.

GPH 414 Climate Change. (3) S
Survey of three climate research areas: paleoclimatology, theories (e.g., greenhouse warming), numerical modeling. Prerequisite: GPH 212 or instructor approval. General Studies: G.

GPH 418 Landforms of the Western United States. (3) A
Study landforms and geomorphic processes in the western United States, including lecture, topographical maps, aerial photographs, satellite imagery, and field trips. Lecture, critical inquiry, laboratory, field work. Prerequisites: GPH 211 (or equivalent); completion of L class. General Studies: L.

GPH 422 Plant Geography. (3) N
Plant communities of the world and their interpretation, emphasizing North American plant associations. Cross-listed as PLB 422. Credit is allowed for only GPH 422 or PLB 422. Prerequisite: BIO 182 or GPH 111.

GPH 433 Alpine and Arctic Environments. (3) N
Regional study of advantages and limitations of the natural environment upon present and future problems involving resource distribution, human activities, and regional and interregional adjustments. Field trips are required. Prerequisite: GPH 111 or instructor approval. General Studies: G.

GPH 471 Cartographic Design. (3) F
Advanced design using desktop mapping. Cartographic decision making, qualitative and quantitative symbol design, projections, color. Prerequisites: GPH 371 or instructor approval. General Studies: CS.

GPH 473 Geographic Information Science II. (3) F
GIS as a basis for microcomputer spatial analysis and synthesis. Includes digitizing, database organization, spatial retrieval, and graphics. Prerequisite: GPH 373. General Studies: CS.

GPH 474 Dynamic Meteorology I. (3) F
Large-scale atmospheric motion, kinematics, Newton's laws, wind equation, baroclinics, vorticity, and the midlatitude depression. Prerequisites: GPH 213, MAT 271; PHY 131, 132.

GPH 475 Dynamic Meteorology II. (3) S
Topics in climate dynamics. General circulation, numerical modeling, teleconnection phenomena, and surface-atmosphere interaction. Prerequisite: GPH 474 or instructor approval.

GPH 481 Environmental Geography. (3) A
Problems of environmental quality, including uses of spatial analysis, research design, and field work in urban and rural systems. Field trips are required. Prerequisite: instructor approval.

GPH 491 Geographic Field Methods. (3) SS
Field techniques, including use of aerial photos, large-scale maps, and fractional code system of mapping; urban and rural field analysis to be done off campus. Travel fees required. Prerequisites: GCU 102, 121; GPH 111.

GPH 511 Fluvial Processes. (3) A
Geographical aspects of processes of river erosion, transportation, sedimentation: emphasizing spatial characteristics of forces, resistance, landforms, sediment; includes computer applications. Prerequisites: GPH 111 (or GLG 101) and 211 (or GLG 382) or instructor approval.

GPH 533 Snow and Ice. (3) S
Processes, distribution, climatic interactions of snow/ice emphasizing mass balance, snow stratigraphy/metamorphism and glacier/snow-pack climatology. Lecture, field work. Prerequisite: instructor approval.

GPH 573 Computer Mapping and Graphics. (3) A
Utilization of the digital computer in analysis and mapping of geographic data. Includes plotting, surficial display, compositing, and graphics. Field trips. Prerequisites: GPH 371; instructor approval.

GPH 575 Geographic Applications of Remote Sensing. (3) N
Use of imaging and nonimaging methods of remote acquisition of data, including satellite sensors, airborne radar, multiband scanning, conventional photographic sensors, and ground-based equipment. Field trips are required. Prerequisites: GGU 585 (or GPH 491); GPH 372.

GPH 591 Seminar. (1–3) F, S
Selected topics in physical geography. Field trips may be required.

GPH 596 Advanced Spatial Statistics. (3) S
Multivariate and advanced statistical techniques including Box-Jenkins modeling and spectral analysis. Project papers and presentations required. Seminar. Prerequisite: GGU 495 or equivalent.

GPH 599 Thesis. (6) N
Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

The faculty in the Department of Geology offer graduate programs leading to the M.S. and Ph.D. degrees in Geology. Students admitted to the Master of Education degree program in Secondary Education may also elect geology as the subject matter field. See “Master of Education,” page 180, for information on the Master of Education degree.

The faculty also participate in the programs leading to the Master of Natural Science degree when one of the concentrations is geology. See “Natural Science,” page 263, for information on the Master of Natural Science degree.

Students applying for admission to the M.S., M.N.S., or Ph.D. degree program must submit scores on the Graduate Record Examination (GRE) Aptitude Test. Submission of Advanced Geology GRE scores is encouraged. The deadline for applications for the fall term is February 15.
FIELD CAMP REQUIREMENT FOR M.S. AND PH.D. STUDENTS

All Geology graduate students must have completed the equivalent of the department’s six semester hours of Geology Field Camp (GLG 450). A summer field mapping course completed as part of the student’s undergraduate course work may fulfill this requirement. Upon the student’s admission to the graduate program, the graduate committee will evaluate previous field course work and will determine whether the student must take a field course while a graduate student at ASU. The purpose of this requirement is to ensure that all geology graduate students possess basic geological mapping skills, whatever their ultimate specialty.

MASTER OF SCIENCE

The M.S. degree consists of a minimum of 30 semester hours of work beyond the bachelor’s degree; 20 or more semester hours consist of course work other than research and thesis. The program is designed to provide fundamental graduate training in geology and to prepare the student for certain careers in geology or for further graduate study.

Breadth Requirement. All students must demonstrate breadth in Geology by achieving a minimum score on the Advanced Geology GRE or by taking graduate courses covering a range of subdisciplines.

Program of Study. The student, with the approval of the advisor, selects courses that make a coherent program of study. Each M.S. candidate must include on the program of study one hour of GLG 500 Geology Colloquium and six hours of GLG 592 Research and GLG 599 Thesis, at least three of which must be GLG 599 Thesis. A maximum of six hours of thesis may appear on a program of study. One-half of the credits applicable toward the degree must be in geology courses; the remainder may include work either in geology or related fields.

Thesis Requirements. A thesis based on field, laboratory, and library study is required.

Final Examinations. A final oral examination in defense of the thesis is required.

DOCTOR OF PHILOSOPHY

The Ph.D. degree consists of a minimum of 54 semester hours of work beyond the master’s degree. At least 25 hours must consist of course work other than research and dissertation. The program is designed to develop creative scholarship and to prepare the student for a professional career in geology.

See “Doctor of Philosophy,” page 104, for general requirements.

Breadth Requirement. All students must demonstrate breadth in Geology by achieving a minimum score on the Advanced Geology GRE or by taking graduate courses covering a range of subdisciplines.

Program of Study. The program of study is selected with the recommendation of the student’s supervisory committee. Each Ph.D. candidate must include on the program of study one hour of GLG 500 Geology Colloquium and at least 24 hours of a combination of GLG 792 Research and GLG 799 Dissertation.

Foreign Language Requirements. None.

Comprehensive Examinations. The student’s supervisory committee must determine the content of the comprehensive examination, consisting of a written and an oral examination. Students are required to take the comprehensive examination during their third semester in residence in the Ph.D. program.

Dissertation Requirements. A dissertation based on original work demonstrating creativity in research and scholarly proficiency in the subject area is required.

Final Examinations. A final oral examination in defense of the dissertation is required.

RESEARCH ACTIVITY

Recent faculty and student research topics include the following.

Geochemistry. Isotope geochemistry and the geology of authigenic silica; environmental and aqueous geochemistry; geochemistry and microbiology of hydrothermal systems; paleoclimate records; thermodynamics of fluid-mineral interfaces; synchrotron-based X-ray spectroscopies; analytical and theoretical chemical studies of meteorites with application to Mars and early solar system evolution; geochemical exploration for ore deposits; trace element partitioning between minerals, fluids, and magmas; atmospheric geochemistry; paleoceanography; and stable isotopic applications in geobiology.

Geomorphology. Fault zone landforms and structure; earthquake surface rupture and paleoseismology; theoretical studies of faulting and hillslope development; engineering geologic field methods.

Geophysics. Earthquake surface rupture and paleoseismology; environmental geophysics; high pressure experimental geophysics; mantle structure; physics and chemistry of earth and planetary interiors; thermal modeling of subduction zones.

Mineral Physics. Electrical properties of silicate minerals, melts, and partial melts; effects of shock on hydrous minerals; shock-induced metamorphism and phase transitions in meteorites; grain boundary diffusion; kinetic processes and reaction mechanisms; mineral deformation and deformation microstructures; high temperature, high pressure studies of mantle materials.

Mineralogy. High-resolution transmission electron microscopy; order/disorder in clays and related minerals; amorphous to crystalline transitions; graphitic carbon and the structures of poorly crystalline materials; polytypism and stacking sequences in sheet silicates (micas, chlorites, clays); mechanisms of phase transitions; surface studies: scanning tunneling and atomic force microscopy of mineral surfaces; determination of oxidation states and specific site environments through electron energy-loss spectroscopy (EELS); TEM cathodoluminescence studies of defects; airborne minerals: small airborne particles, air quality, air pollution; mineral thermodynamics and spectroscopy; high pressure mineralogy; phase transformation studies.

Paleontology/Paleoecology. Geobiology and the role of organisms in sedimentary processes; early biosphere evolution and the fossil record of early multicellular life; invertebrate paleontology; evolutionary paleoecology; stable isoto-
pic and geochemical techniques; biological response to global change; ichnology; exopaleontology and the exploration for fossil records of extraterrestrial life.

**Petroleum.** High-temperature, high-pressure phase equilibrium experiments, and models for the origin of major igneous rock types; volatile diffusion in silicate melts; experimental determination of mantle minerals and melts; field and analytical studies of temperature, pressure, and fluids during metamorphism; computer modeling of heat and mass transfer at convergent plate margins; subduction zones; continental extension; mineral equilibria in ore deposits.

**Planetary Studies.** Compositional and physical properties of the terrestrial planets; comparative geomorphology of the moon, Earth, Mars, Mercury, Venus, and the outer planet satellites; Venus tectonics; thermal infrared spectroscopy of planetary materials; planetary volcanic processes; laboratory simulation of eolian processes on Venus, Mars, and Earth; impact cratering experiments; meteorite studies.

**Remote Sensing.** Geologic mapping based on integrated field and remote sensing studies; multispectral mineralogical investigations; urban environmental studies.

**Structure and Tectonics.** Structural and tectonic evolution of Arizona and the North American Cordillera; regional geology of the Transantarctic Mountains; Cordilleran tectonics; relation between fluid and tectonic processes; active tectonic processes.

**Volcanology.** Explosive eruption processes; mechanisms of dike intrusion; structures in lava flows; multiphase flow in volcanic and geothermal systems; textures and volatile contents of volcanic domes; mineralization related to rhyolite domes; laboratory simulation of lava flow processes; field studies throughout the western United States, Hawaii, and Central and South America.

**Astrobiology Institute.** Astrobiology is broadly defined as “the study of the origin, evolution, and distribution of life in the universe.” ASU is one of 11 partnering institutions in the United States composing the NASA Astrobiology Institute (NAI). In addition to supporting basic research in astrobiology, the NAI seeks to enhance opportunities for graduate students desiring cross-disciplinary training in such areas as the organic chemistry of extraterrestrial materials, origin of life studies, early biosphere evolution, and the exploration for life elsewhere in our solar system and beyond. The ASU Astrobiology Program is made up of a distributed faculty drawn from the Departments of Geology, Chemistry and Biochemistry, Biology, and Physics and Astronomy. The ASU Astrobiology Program also provides opportunities for regular interactions with other institute partners around the country through the use of advanced telecommunications and the next generation Internet.

**Center for Solid-State Science, Materials Research Science and Engineering Center, and Affiliated Departments.** Analytical equipment routinely used by Geology students includes: a JEOL JSX–8600 electron microprobe analyzer/SEM equipped with an image analysis system; 10 transmission electron microscopes specialized for high-resolution imaging (≤1.7 Å resolution); EELS and EDS chemical analysis; surface analytical microscopes (XPS, Auger and probe microscopes). Automated X-ray diffraction and fluorescence facilities are available, as is an ion microprobe. The high-pressure laboratory for experimental petrology is equipped with a complete range of vessels for investigations ranging from hydrothermal alteration to partial melting of planetary mantles.

**Space Photography Laboratory.** The Space Photography Laboratory contains an extensive research collection of photographs of the moon, Mars, Mercury, and outer planet satellites. A dedicated image processing facility with interactive and hardcopy capabilities is available for research utilizing spacecraft images.

**Center for Meteorite Studies.** The Department of Geology houses one of the largest collections of meteorites in the world. Geochemical and cosmochemical research is being undertaken in the Center for Meteorite Studies, including the following topics: trace element geochemistry, nature of asteroidal interiors, computer models of condensation in the nebula, meteorite mineralogy, organic compound investigations, chemical fractionation in meteorites, elemental partitioning in meteoritic minerals, transmission electron microscopy of chondritic meteorites, and fluid-rock interactions on asteroids and Mars.

**GEOLOGY (GLG)**

GLG 405 Geology of the Moon. (3) N
Current theories of the origin and evolution of the moon through photogeological analyses and consideration of geochemical and geophysical constraints. Possible weekend field trip. Prerequisite: GLG 105 or instructor approval.

GLG 406 Geology of Mars. (3) N
Geological evolution of Mars through analyses of spacecraft data, theoretical modeling, and study of terrestrial analogs; emphasis on current work. Possible weekend field trip to Northern Arizona. Prerequisite: GLG 105 or instructor approval.

GLG 410 Computers in Geology. (3) F
Geological computer skills including data processing, visualization, presentation, numerical analysis, software and hardware applications. 2 hours lecture, 3 hours lab. Prerequisites: GLG 101 and one upper-division geology course or instructor approval.

GLG 412 Geotechnics. (3) F
Earthquakes, earth’s interior, formation of oceanic and continental crust, and plate tectonics. Emphasis on current work. Prerequisite: GLG 310.

GLG 416 Field Geophysics. (3) S
Methods of applied geophysical exploration; seismic refraction, gravity, electrical resistivity, geomagnetics. Includes survey planning, data acquisition, processing, analysis, and interpretation. Lecture, field exercises. Prerequisite: one course in geology or instructor approval.

GLG 418 Geophysics. (3) F
Solid earth geophysics; geomagnetism, gravity, seismology, heat flow. Emphasis on crust and upper mantle. Prerequisites: GLG 310 and MAT 272 and PHY 131 or instructor approval.

GLG 419 Thermal-Mechanical Processes in the Earth. (3) F
Emphasis on applied mathematical techniques, heat conduction problems in geology, thermal convection, stresses in the lithosphere, and viscoelastic processes in the Earth. Prerequisite: PHY 131.

GLG 420 Volcanology. (3) A
Distribution of past and present volcanism, types of volcanic activity, mechanism of eruption, form and structure of volcanoes, and geochemistry of volcanic activity. Possible weekend field trips. Prerequisite: GLG 424.

GLG 424 Petrology. (3) F
Origin of igneous and metamorphic rocks. Optical mineralogy, hand specimen identification, and thin-section analysis. 2 hours lecture, 3 hours lab, possible weekend field trips. Prerequisite: GLG 321.

GLG 435 Sedimentology. (3) S
Origin, transport, deposition, and diagenesis of sediments and sedimentary rocks. Physical analysis, hand specimen examination, and interpretation of rocks and sediments. 2 hours lecture, 3 hours lab, possible weekend field trips. Prerequisites: GLG 102, 321.
GLG 441 Ore Deposits. (3) N
Origin, occurrence, structure, and mineralogy of ore deposits. Possible weekend field trips. Prerequisite: GLG 424 or instructor approval.

GLG 450 Geology Field Camp. (6) SS
Geological mapping techniques on aerial photos and topographic maps. Field based with excursions. Prerequisites: GLG 310, 321. General Studies: L.

GLG 455 Advanced Field Geology. (3–4) F, S
Geologic mapping in igneous, sedimentary, and metamorphic terrains of the Basin and Range province of Arizona. Weekend field trips. May be repeated for credit. Prerequisite: GLG 450 or instructor approval.

GLG 456 Cordilleran Regional Geology. (3) F
Systematic coverage through space and time of the geological development of western North America, emphasizing the western United States. Prerequisite: senior major or graduate student in Geology or instructor approval.

GLG 470 Hydrogeology. (3) S
Geology of groundwater occurrence, aquifer and well hydraulics, water chemistry and quality, contaminant transport, remediation. Emphasis on quantitative methods. Prerequisites: GLG 101 (or 103); MAT 270; PHY 121.

GLG 481 Geochemistry. (3) F
Origin and distribution of the chemical elements. Geochemical cycles operating in the earth's atmosphere, hydrosphere, and lithosphere. Cross-listed as CHM 481. Credit is allowed for only CHM 481 or GLG 485. Prerequisite: CHM 341 (or 346) or GLG 321.

GLG 485 Meteorites and Cosmochemistry. (3) N
Chemistry of meteorites and their relationship to the origin of the earth, solar system, and universe. Cross-listed as CHM 485. Credit is allowed for only CHM 485 or GLG 485.

GLG 490 Topics in Geology. (1–3) F, S, SS
Special topics in a range of fields in geology. May be repeated for credit. Prerequisite: instructor approval.

GLG 500 Geology Colloquium. (1) F, S
Presentation of recent research by faculty and invited guests. 1 semester required for all geology graduate students. May be repeated for total of 2 semesters. Research paper required. Prerequisite: instructor approval.

GLG 501 Geology of Arizona. (3) A
Basic and historical geology, fossils, mining, energy resources, environmental problems, landscape development, and meteorites, cast in examples from Arizona. Research paper required.

GLG 504 Geology of the Grand Canyon. (2) S
Review of the discovery, history, origin, and geology of the Grand Canyon of the Colorado River in Arizona. 6-day field trip down the river (first 6 days after commencement in May) required at student's expense. Field research and term paper on trip also required.

GLG 510 Advanced Structural Geology. (3) N
Mechanics of rock deformation, emphasizing relationship between field observation, theory, and experiment. Stress, strain, simple constitutive relationships, failure criteria, and the basis of continuum methods. Possible field trips. Prerequisites: GLG 310 and 424 or instructor approval.

GLG 520 Advanced Physical Volcanology. (2–3) A
Selected volcanologic topics, including explosive eruption processes, lava flow mechanics, and intrusive mechanisms. Field trips possible. Prerequisite: GLG 420 or instructor approval.

GLG 524 Advanced Igneous Petrology. (3) N
Theoretical and practical aspects of the genesis of igneous rocks. Study of selected sites. Modern laboratory techniques. 2 hours lecture, 3 hours lab, possible weekend field trips. Prerequisite: GLG 424.

GLG 581 Isotope Geochemistry. (3) N
Geochemistry and cosmochemistry of stable and radioactive isotopes; geochronology; isotopic equilibria. Prerequisite: instructor approval.

GLG 582 Physical Geochemistry. (3) N
Application of thermodynamic and kinetic principles to geochemical processes. Prerequisite: CHM 336 (or 341) or GLG 321.

GLG 583 Phase Equilibria and Geochemical Systems. (3) N
Natural reactions at high temperatures and pressures: silicate, sulfide, and oxide equilibria. Cross-listed as CHM 583. Credit is allowed for only CHM 583 or GLG 583. Prerequisites: GLG 582; instructor approval.

GLG 591 Seminar. (1–3) F, S, SS
Topics in a range of fields in geology. May be repeated for credit. Prerequisite: instructor approval.

Geology Professor Stephen J. Reynolds, recipient of the Faculty Achievement Award for Teaching, uses learning-centered education to inspire students. Tim Trumble photo

GLG 592 Research. (1–12) N

GLG 598 Special Topics. (1–3) F, S, SS
Special topics in geology. May be repeated for credit.
(a) Advanced Field Geology
(b) Clastic Sedimentology and Petrology
(c) Cordilleran Regional Geology
(d) Geology of Mars
(e) Ore Deposits
(f) Petrology-Petrography
(g) Principles of Stratigraphy
(h) Sedimentology
(i) Volcanology
Prerequisite: instructor approval.

GLG 599 Thesis. (1–12) N

GLG 792 Research. (1–12) N

GLG 799 Dissertation. (1–15) N

An interdisciplinary, 21-semester-hour Certificate in Gerontol-
ogy may be earned by graduate students who wish to
study the psychological, sociological, biological, and pol-
icy-related aspects of aging and the health, economic, and
social concerns of older people. Graduate students enrolled
in the certificate program simultaneously pursue a major in
an academic unit offering an advanced degree, whereas non-
degree students, typically, are either working with
or seeking to work with older people. The Certificate in
Gerontology provides a broad academic foundation for stu-
dents who wish to apply the knowledge and skills acquired
in their major and/or work experience to a variety of aging-
related pursuits. Course work is evenly divided between
required and elective courses. For their electives, students
choose courses from the gerontology-related offerings of
several departments. For more information, contact the ASU
director, Gerontology Program, ASU Main, 480/965-3225,
or ASU West, 602/543-6600.
GERONTOLOGY (GRN)

GRN 430 Multidisciplinary Approaches to Gerontology, (3) A
Examines literature that each discipline brings to the study of gerontology. Covers both theory and practice. Lecture, discussion.
GRN 431 Caregiving, (3) A
Examines theory and practice of caregiving for the senior population. Lecture, discussion.
GRN 440 Aging and Wellness, (3) F, S
One-on-one service/experiential learning with seniors from the community. May be repeated for credit. Lecture, lab.
GRN 450 Biology of Aging, (3) S
Examines normal biological aging and changes in the functional capabilities in the elderly. Lecture, lab.
GRN 460 Alzheimer’s and Related Dementias, (3) F, S
Familiarizes students with Alzheimer’s disease and related dementias from a caregiver's perspective. Lecture, lab.
GRN 484 Undergraduate Internship, (3–6) F, S, SS
GRN 494 ST: Undergraduate Special Topics, (3) F, S

MASTER OF HEALTH SERVICES ADMINISTRATION

The ASU M.B.A./M.H.S.A. is a concurrent degree program structured to prepare students to become managers and leaders in contemporary health-related industries and systems. The curriculum is designed to equip graduates with knowledge of the broad continuum of healthcare products and services, advanced managerial knowledge and analytical skills, as well as in-depth preparation in one of the four ASU M.B.A. concentration areas: financial management and markets, information management, services marketing and management, and supply chain management. Students graduate from this program prepared to assume advanced leadership roles in a wide range of settings, including biotechnology corporations, consulting firms, delivery systems, health financing, health information organizations, and pharmaceutical industry. This preparation consists of the core ASU M.B.A. curriculum, a series of eight M.H.S.A. courses, a summer internship, and one of the ASU M.B.A. concentrations.

Admission. For the general requirements, see “Admission to the Graduate College,” page 92. Applicants are required to submit evidence of their ability to pursue a graduate degree program in health services administration successfully. All students must take the GMAT. For more information, call 609/771-7330 or write

EDUCATIONAL TESTING SERVICE
PO BOX CN 6108
PRINCETON NJ 08541-6108

Students must apply separately to the ASU M.B.A. and M.H.S.A. degree programs. Applicants must submit two applications for admission and two copies of all transcripts directly to the Graduate College. Two recommendations commenting on the student’s motivation, commitment, achievements, work experience, and opportunity for success in the program are required. The application package includes the M.B.A. supplemental application, which contains a box that must be checked, indicating your interest in the M.H.S.A. degree program. In addition, applicants are required to submit a statement of personal objectives and professional interest statement that reflects your interest in health-related industries and systems. Students should identify their preliminary interest in one of the four M.B.A. specialization areas. Application deadlines are December 15, March 1, and May 1. Because the ASU M.B.A./M.H.S.A. program begins in early June, preference for admission and financial assistance will be given to applicants applying by the March 1 deadline. It is recommended that students visit the campus for a personal interview. In cases where this creates a hardship, a student may ask for a telephone interview with an M.H.S.A. faculty member when the application file is complete. Materials describing the Master of Health Services Administration are available by calling 480/965-7778, accessing the Web site at www.cob.asu.edu/mba/mhsa.htm, sending e-mail to asuhap@asu.edu, or writing

PROFESSORS
FORSYTH, JOHNSON, KIRKMAN-LIFF, SCHNELLER, WESBURY, WILLIAMS

ASSISTANT PROFESSOR
RIVERS

The faculty in the School of Health Administration and Policy, College of Business, offer a graduate program leading to the Master of Health Services Administration degree. This degree is offered only in conjunction with the ASU M.B.A.
Program of Study. The program of study for the concurrent ASU M.B.A./M.H.S.A. consists of a minimum of 72 semester hours. The total amount of hours a student is required to take is dependent upon his or her choice of ASU M.B.A. specialization area. The program of study for the ASU M.B.A./M.H.S.A. is a 23-month program consisting of the following components:

M.H.S.A. component ............................. 24
M.B.A. core ........................................... 36
M.B.A. concentration ............................. 27–30

Additional semester hours (prerequisites) may be required to strengthen preparation in a given specialty. Subject to availability, students may complete an optional residency/fellowship for a period of up to one year (following completion of the degree program).

Prerequisites. Students lacking sufficient background in business fundamentals are encouraged to take a basic financial accounting course. Those without a basic course in computer skills are required to complete CIS 200. Students must demonstrate strong quantitative ability. This may be accomplished by taking a calculus course (MAT 210).

Foreign Language Requirements. None.

Comprehensive Examinations. All students must successfully complete the integrative seminar, which meets the comprehensive requirement established by the College of Business and Graduate College for the M.H.S.A. degree.

Thesis Requirements. None.

Other Concurrent Degree Programs
The College of Law and the School of Health Administration and Policy offer graduate students a program in Law and Health Services Administration that leads concurrently to the degrees of Juris Doctor/Master of Health Services Administration. Students in the concurrent degree program must be regularly admitted to both the J.D. and the M.H.S.A. degree programs. It is recommended that application to the concurrent degree program be made no later than the end of the first year of law school or first year of enrollment in the M.H.S.A. program. All applicants must comply with the minimum requirements and admission procedures of the Graduate College. Full-time students can expect to complete the concurrent J.D./M.H.S.A. program in four years.

MASTER OF PUBLIC HEALTH
The School of Health Administration and Policy and the College of Nursing, at ASU, in conjunction with the University of Arizona and Northern Arizona University, offer courses leading to the Master of Public Health degree. Two concentrations are offered at ASU: (1) Community health practice is coordinated by the College of Nursing, and (2) health administration and policy is coordinated by the School of Health Administration and Policy. For general information see “Nursing,” page 263, or contact the M.P.H. program coordinator at ASU at 480/965-6633.

Admission. Applicants must hold a bachelor’s degree or equivalent from an accredited college or university, provide three letters of recommendation, and submit an official Graduate Record Examination (GRE) or Medical College Admissions Test (MCAT) score or the GMAT, if the applicant is applying to the M.H.S.A. For applicants with a doctoral degree, test scores are recommended but not required. A minimum of two years of full-time, 40-hour workweek, postbaccalaureate work experience is required.

The GRE or MCAT must be taken within five years of the application date. Applicants whose native language is not English are required to submit a score on the Test of English as a Foreign Language. Students should submit their application to the University of Arizona by February 1 for fall admission. Applications are accepted only for fall admission.

Program of Study. The program of study for both concentrations requires 39 semester hours: 15 semester hours of core courses, and 12 semester hours of concentration courses, and six hours of electives. Both concentrations require the student to successfully complete an internship; the semester hours required for the internship may vary by concentration. In addition, each student is required to produce a comprehensive, analytical, problem-solving report integrating the in-class learning into the internship experience. The student is also required to make an oral presentation before a student and faculty colloquium, reporting on activities during the internship and relating those activities to broader public health issues.

RESEARCH ACTIVITY
The School of Health Administration and Policy is a major teaching and research component of the College of Business at ASU. The school is committed to an active program in research and development, promoting a deeper understanding of the delivery of health services at the local, state, and national level. Faculty at the school are frequent contributors to health services research and disciplinary journals. It is the goal of the school to serve as a focal point for addressing the problems confronting practitioners in the health care field. Faculty frequently advise policy makers in major health care organizations, state and federal governments, and corporations.

Current faculty research endeavors include assessment of Arizona’s Health Care Cost Containment System, enhancing care of the elderly, assessment of organizational modeling for multi-hospital systems, the changes facing physicians in American society, the public policy implications of AIDS, analysis of causes and consequences of medical malpractice, discrimination against persons with disabilities, the health care costs of work injuries, and studies of behavioral factors in health care and health services utilization.
HEALTH SERVICES ADMINISTRATION (HSA)

HSA 502 Health Care Organization. (3) A
Concepts, structures, functions, and values which characterize contemporary health care systems in the United States.

HSA 505 Community Health Care Perspectives. (3) A
Epidemiological, sociological and political perspectives, and techniques for analyzing health problems and responding to health care needs in communities. Prerequisite: HSA 502.

HSA 512 Health Care Economics. (3) A
Economics of production and distribution of health care services, with special emphasis on the impact of regulation, competition, and economic incentives. Prerequisite: HSA 502.

HSA 520 Health Care Organizational Structure and Policy. (3) A
Functional relationships among managerial elements of health care institutions with major focus on hospital governance and policy dynamics. Prerequisite: HSA 502.

HSA 522 Health Care Management Systems. (3) A
Systems concepts, quantitative methods, and information systems applied to management problems in health institutions and community health planning. Prerequisites: HSA 505; QBA 502.

HSA 532 Financial Management of Health Services. (3) A
Acquisition, allocation, and management of financial resources within the health care enterprise. Budgeting, cost analysis, financial planning, and internal controls. Prerequisites: ACC 503; FIN 502; HSA 502.

HSA 542 Health Care Jurisprudence. (3) A
Legal aspects of health care delivery for hospital and health services administration. Legal responsibilities of the hospital administrator and staff. Prerequisites: HSA 505, 520.

HSA 560 Health Services Administration and Policy. (3) F
Introduction to organizational theory and management of complex organization within the historical and contemporary contexts of the U.S. public health.

HSA 561 Biostatistics. (3) F
Aspects of descriptive statistics and statistical inference most relevant to health issues, including data, rates, and confidence intervals.

HSA 562 Health Care Organization and Systems. (3) F
Functional relationships among managerial elements of health care institutions with major focus on hospital governance and policy dynamics.

HSA 563 Health Care Economics. (3) S
Introduction to concepts and methods used to direct and understand production and distribution of health care services.

HSA 564 Health Care Finance. (3) S
Overview of the acquisition, allocation, and management of financial resources by health care providers. Focuses on economic, financial, and accounting principles.

HSA 565 Policy Issues in Health Care. (3) F
Current policy issues in health through concepts of access, cost, and quality; issues relating to disease trends and policy formulation.

HSA 571 Managed Care. (3) N
Trends in managed care/integrated systems, complexities of balancing objectives (e.g., financial and quality). A two-semester-long marketplace simulation. Prerequisite: HSA 502.

HSA 573 Comparative Health Systems. (3) A
Comparison of health care financing and delivery in industrialized countries; covers insurance, hospital management and physician payment. Lecture, discussion.

HSA 575 Chronic Care Administration. (3) A
Management of long-term care services and facilities, including behavioral health and rehabilitation programs.

HSA 589 Integrative Seminar. (3) A
Capstone assessment of current policies, problems, and controversies across the broad spectrum of health services administration. Prerequisites: HSA 505, 520, 522, 532.

HSA 591 Seminar. (3) A
Seminar topics such as the following may be offered:
(a) Behavioral Health
(b) Cost Containment and Quality Assurance
(c) Health Care Economic Outcomes
(d) Health Care Policy
(e) Managing Physicians
(f) Topics in Health Services Research

HSA 593 Applied Project. (3) F, S, SS
Optional on-site experience in advanced development of managerial skills in health services administration and policy. Minimum of 10 weeks. Prerequisites: 18 hours of credit toward program of study; director approval.

HSA 598 Special Topics. (3) A
Special topics such as the following may be offered:
(a) Epidemiology
Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Higher and Postsecondary Education

PROFESSORS
FENSKE, HANSON, RENDÓN, SIMMONS, TURNER, VALVERDE, WEBB

ASSOCIATE PROFESSORS
HARTWELL-HUNNICUTT, WILKINSON

The faculty in the Division of Educational Leadership and Policy Studies offer graduate programs leading to the Master of Education and Doctor of Education degrees in Higher and Postsecondary Education.

Candidates for the M.Ed. and Ed.D. programs may be required to take certain College of Education core courses depending upon previous experience and education. Pre-approval by an advisor is required. The M.Ed. program requires 33 semester hours of course work, including a practicum. Candidates for all degrees must pass a written comprehensive examination, and candidates for the Ed.D. must also pass a final oral examination in defense of the dissertation.

Students interested in the Ph.D. degree with a field of study encompassing higher education should refer to the major in “Educational Leadership and Policy Studies,” page 183. See “Doctor of Philosophy,” page 104, for information on the Ph.D. degree.

MASTER OF EDUCATION

Applicants for admission to the M.Ed. degree program must submit scores on either the Graduate Record Examination (GRE) or the Miller Analogies Test; scores on the GRE are preferred.

For more information, see “Master of Education,” page 180.

DOCTOR OF EDUCATION

Applicants for admission to the Doctor of Education program must submit scores on the GRE.

RESEARCH ACTIVITY

Faculty members in higher education are conducting research on a variety of significant topics according to their areas of special research interest. These include student access and retention (especially of underrepresented students), student financial assistance, marketing/institutional advancement in higher education, faculty development of women of color, organizational influences on community college faculty teaching practices, Hispanic studies, legal aspects of higher education, and policy analysis.

The program has access to all of the current longitudinal data produced by the federal Center for Educational Statistics. Several databases created for a national study of state and institutional influences on baccalaureate attainment by underrepresented minorities support a number of dissertations and faculty research projects.

HIGHER AND POSTSECONDARY EDUCATION (HED)

HED 510 Introduction to Higher Education. (3) F
An overview of American higher education, including philosophical, political, and social aspects.

HED 515 Student Diversity in Higher Education. (3) S
Orients students to the demographic profile of college students and addresses diverse students’ access, retention, and graduation. Lecture, collaborative learning.

HED 527 Seminar: Student Affairs Administration. (3) F
Organizational models, administrative competencies and skills, and emerging challenges of student affairs administration. Lecture, discussion, group projects, written assignments.

HED 533 The Community-Junior College. (3) F, S
History, functions, organization, and current issues. Meets Arizona community college course requirement for certification.

HED 602 Institutional Research/Strategic Planning. (3) F
Provides an overview of policy research and planning in higher education at the campus system and governing/coordinating agency levels. Lecture, group discussion, research projects. Prerequisite: HED 510.

HED 603 Computer-Assisted Qualitative Data Analysis. (3) S
Emphasizes the applied and computing aspects of qualitative research design, data analysis, and reporting of results. Lecture, lab, demonstrations. Prerequisite: COE 503 or equivalent.

HED 611 Curriculum and Instruction. (3) S
Curriculum development, instructional organization, and improvement of instruction in higher education. Prerequisite: HED 510.

HED 644 Higher Education Finance and Budgeting. (3) S
Financial planning and budgeting in higher education institutions. Issues related to financing public and private colleges and universities. Prerequisite: HED 510.

HED 649 Law of Higher Education. (3) F
Analysis of legal issues related to higher education; examination of key court decisions. Prerequisite: HED 510.

HED 679 The American College Student. (3) S
Provides overview of American college student from demographic, background characteristics and values/attitudes/perspectives. Includes access, persistence, and degree completion. Lecture, group discussion, research projects. Cross-listed as CED 656. Credit is allowed for only CED 656 or HED 679.

HED 687 Governance, Coordination, and External Influences in Higher Education. (3) S 2001
Study of governance and coordination in higher education systems and the impact of external forces on them. Lecture, discussion.

HED 688 Organizational Theory. (3) S
Major views of organizations and their influence on role definition and participant behaviors in educational organization. Seminar, discussion. Cross-listed as SPF 622. Credit is allowed for only HED 688 or SPF 622.

HED 689 Leadership in Higher Education. (3) F
Theory and practice of leadership and administration in higher education institutions.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

ESCObAR

The faculty in the Department of History offer graduate programs leading to the M.A. and Ph.D. degrees in History. M.A. candidates are offered an opportunity to develop knowledge of a specific historical field, to study comparative history, and to learn research techniques. Students with various goals benefit from this degree program, including those planning to advance to Ph.D. study, those seeking positions in the public sector, or in business, and those now holding or looking for educational posts in elementary and secondary schools or community colleges.

Students admitted to the Master of Education degree program with a major in Secondary Education may elect history as the subject matter field.

MASTER OF ARTS

See “Master’s Degrees,” page 101, for general requirements.

Admission. Applications for the master’s program must be accompanied by the applicant’s scores on the Graduate Record Examination (GRE) (Master of Education applicants must report scores from both the GRE aptitude and advanced history tests). Examination scores more than five years old are not accepted. Three letters of recommendation from faculty members or others who are qualified to judge the applicant’s potential for advanced study in history, a writing sample, and a statement of purpose must be forwarded to the department. Forms and instructions are available from the departmental secretary, or on the Internet at the Graduate College Web site.

All applications and supporting materials are reviewed by the graduate committee of the department which then
requires to the Graduate College that the student be granted regular or provisional admission or be denied admission.

Areas of Concentration. In consultation with the supervisory committee, the candidate may select a field of history from the following: Asian, British, European, Latin American, United States, and U.S. Western. Under the United States concentration, students may choose from the following five areas of study: African-American, American Indian, Chicana/Chicano, U.S. Western, or women. Candidates in any field may apply for admission to the public history concentration.

Program of Study. The candidate must complete a minimum of 30 semester hours of graduate courses, including the following program requirements:

1. A minimum of 24 hours of history courses is required. With the approval of the supervisory committee, the candidate may include within the minimum 30-hour program six semester hours of closely related graduate course work taken in another academic unit.

2. A minimum of 18 hours selected from graduate courses at the 500 level is required. If 400-level courses are included in the program of study, documented proof must be provided that they were taken for graduate credit. Please contact the department for specific details.

3. Two comparative courses are required. The comparative courses are not required of students in the public history concentration.

4. At least one research seminar (HIS 591), normally in the major field of study, is required.

Degree candidates in the public history concentration must complete HIS 502 and at least two short courses. Other core requirements specific to each emphasis are listed in the department’s graduate handbook. The various emphases require the completion of a differing minimum number of hours for each program: business, 41 semester hours; community history, 40; historic preservation, 40; historical administration, 37; historical editing and publishing, up to 44; public sector, 39. Course work taken outside the department for inclusion in a program of study must be approved in advance by the appropriate program director.

Candidates for the Master of Education degree must take 15 hours of HIS courses, of which three hours must be in HIS 512 or 515 and three hours in HIS 591 or in a comparative course (HIS 551 to 555); 12 of the 15 hours must be graduate courses at the 500 level. If 400-level courses are included in the program of study, documented proof must be provided that they were taken for graduate credit. Contact the department for specific details. The candidate must maintain at least a 3.00 GPA in HIS courses.

Foreign Language Requirements. The student is expected to have a reading knowledge of one foreign language, but some other research skills may be substituted for this requirement by the supervisory committee.

Thesis Requirements. A thesis or equivalent is required. Students must enroll in six hours of HIS 599 to prepare a thesis based on original research. The M.A. thesis must be approximately 100 pages long, prepared according to Graduate College requirements, defended and approved, bound, and placed in the university library. A copy is also kept in the history department.

In lieu of preparing a traditional thesis under HIS 599, a student may elect a two-part thesis equivalent: (1) two three-hour seminars (HIS 591) on a broad topic and (2) two three-hour research courses (HIS 592) on a topic derived from the first research course. Courses leading to the thesis equivalent give the student experience with historical research and writing in the form of historiographical essays similar to those published in a journal. The two papers must meet Graduate College thesis requirements and be bound as a single volume and placed in the University Library.

Final Examinations. A final oral examination in defense of the thesis or equivalent is required.

DOCTOR OF PHILOSOPHY

The Ph.D. degree in History offers candidates the opportunity to study past and contemporary civilizations and to learn research and writing techniques that may be used in scholarly careers at leading academic institutions, in historical societies and agencies, in the public sector, and in business.

Major emphasis is placed upon developing a disciplined and inquiring mind, expertise in a chosen subject area, and competence in research methodology. The program is composed of small classes that bring students into a close working relationship with faculty and other students and offers flexibility in designing degree programs.

The five areas of concentration are Asian history, British history, European history, Latin American history, and United States history. Students must select a minimum of three historical fields for examination.

See “Doctor of Philosophy,” page 104, for general requirements.

Admission. Applications for the Ph.D. in History program must be accompanied by the applicant’s scores on the Graduate Record Examination, three letters of recommendation from faculty members or others who are qualified to judge the applicant’s potential for doctoral study, a writing sample, and a statement of purpose. GRE scores may not be more than five years old. All applications and supporting materials are reviewed by the graduate committee of the Department of History, which then recommends to the Graduate College that the student be granted regular or provisional admission or be denied admission.

Program of Study. After admission to the program, the student, in consultation with the graduate director, selects a faculty advisor in the student’s area of concentration. Together, the faculty advisor and student select a Ph.D. committee consisting of at least three faculty members. The committee draws up a program of study that normally includes at least 60 graduate semester hours of history, 36 of which must be in 500-level or above courses, and 24 semester hours of dissertation. If 400-level courses are included in the program of study, documented proof must be provided they were taken for graduate credit. Contact the department for specific details. Two courses selected from the graduate offerings in historiography are required. The student must
take at least three research seminars, two of which must be in the primary area of study, and one comparative course.

**Foreign Language Requirements.** Demonstration of a satisfactory reading knowledge of two foreign languages is required before the student may take the comprehensive examinations. For the second language, the student’s program committee may approve substituting the demonstration of other research capabilities, such as quantitative or statistical analysis, archival research, historical preservation, or computer skills.

**Preliminary Reviews.** During the first academic year of residence the student is required to schedule the department’s preliminary review. Students who fail this review must withdraw from the program. It is recommended that the student have demonstrated a satisfactory reading knowledge of at least one foreign language before scheduling the review.

**Comprehensive Examinations.** The program committee examines the student’s competence in the fields chosen. Normally these oral and written examinations are taken after the student has completed at least 60 graduate semester hours of credit.

**Dissertation Committee.** Upon satisfactory completion of the comprehensive examination, the supervisory committee for the dissertation is selected. In consultation with the candidate, the director of graduate study recommends a chair; the recommended chair, after consultation with the candidate (and with approval of the director), then recommends at least two other members to the chair of the department. The dissertation committee is appointed by the dean of the Graduate College upon the recommendation of the department chair. The role of this committee is to approve the subject and title of the dissertation and advise the candidate during the completion of the research and the dissertation.

**Dissertation Prospectus.** Each doctoral candidate will prepare a prospectus of four to seven pages for the dissertation. The format and design of the prospectus will be determined by the candidate and committee chair. The topic will be in one of the candidate’s fields of study and should include the following:

1. a thesis statement,
2. a discussion of relevant literature,
3. a discussion of possible research material and availability of sources,
4. a secondary bibliography, and
5. a historiographical statement.

This prospectus must be presented to the committee for its review by the end of the semester following the comprehensive examination. The committee must approve the proposal before the candidate may be admitted to candidacy and proceed with the research.

**Dissertation Requirements.** The dissertation must be an original contribution to knowledge and demonstrate the student’s proficiency in independent research.

**Final Examinations.** A final oral defense of the dissertation is required.

**Graduate Preparation in Public History**

The department offers several public history emphases preparing students to apply the skills of the historian in careers beyond the classroom. Public historians focus their historical insight, expertise, and critical abilities in the broad—that is, public—community. Six areas of emphasis are offered within public history: business, community history, scholarly publishing, historic preservation, historical administration, and the public sector. Graduate course work in public history may be included in both master’s and doctoral programs of study.

The public history core combines specially designed course work and specific program requirements with traditional degree requirements. The public history area imposes additional admission requirements and includes periodic evaluations of its students’ progress. (The business emphasis requires prerequisites in the business field.) Enrollment is limited to provide careful preparation and advisement. The curriculum integrates required course work in a public history component with courses in a geographic area concentration. As a special feature of the program, short courses are taught each year by visiting public historians. Each emphasis requires completion of two short courses. Courses from other disciplines, such as anthropology, business, public administration, fine arts, geography, political science, and architecture (architectural history and preservation planning) may be included in a program of study when students have the necessary prerequisites and if the courses meet particular student needs or are required within the various emphases of the concentration. Students who select the scholarly publishing option must be admitted to the Scholarly Publishing Certificate program and complete all certificate requirements. (See “Scholarly Publishing,” page 289, for a description of the certificate program.)

Course work for all areas of the program begins each fall semester with a required special workshop during the fall orientation week before classes start. Students are admitted for the fall semester, though some class work outside the public history field may be started earlier. With concentrated full-time study, the master’s public history component may be completed in four semesters, depending on the public history area selected for emphasis. In some instances, the mandatory internship or other program requirements must be completed during the summer months.

Each student in the program completes a core of courses appropriate to an area of emphasis. Basic to each core is the completion of HIS 502 Public History Methodology during the first semester of study. The work introduced in this methodology class is continued in the public history research seminar (HIS 591), required or optional, depending on the area of emphasis.

At the satisfactory completion of the training work and upon the recommendation of the appropriate director and the department, a certificate of completion is issued by the Department of History. Assistance is provided in job placement.

Students interested in this curriculum should consult the department’s graduate handbook, which provides detail about public history work.
**RESEARCH ACTIVITY**

Recent faculty research includes the following subjects. *Women’s History*. African American women in slavery; African American women in the 20th-century; feminism in modern Cuba; Mexican American women in the 20th-century; women, feminism, and social change in Argentina, Chile, and Uruguay; women of the English Renaissance and Reformation; women in medieval Japan; women in modern France; women in the 19th- and 20th-century U.S.; Southwestern U.S. women.

*Sociology and Cultural History*. African Indians in the 20th-century; history of sexuality; history of welfare states; cultural history of the Space Age; Confucianist thought; social and cultural history of Tudor England; business culture in Europe; migration in the U.S.; U.S. labor history; community formation in medieval Japan; race and gender in the 19th-century U.S.; fiction and travelers’ accounts in Southeast Asia; religious identity in Russia, the Ukraine, and Georgia; European Jewish history; religion in Latin America; the family in Europe; European intellectual cultural history; women, witchcraft, and heresy in early modern Europe.

*Western United States*. The history of Phoenix; 20th-century Arizona; urban growth in Texas and Oklahoma; the Mexican American civil rights movement; Latino demographic history; the Navajos; American Indian ranching and rodeo; frontier and region; race relations and reform movements in 20th-century California; cultural history of the Grand Canyon.

*Political and Legal History*. U.S. constitutional history; the history of the legal profession in America; the political and military history of 20th-century China; modern German political history; the presidency during the U.S. Civil War and Reconstruction; U.S. politics during the Progressive Era; U.S. political biography; the newly independent states of Eurasia.

*International Relations*. U.S./China Japan relations; Britain and the Middle East in the 20th-century; U.S. perceptions of the Soviet Union; U.S./Latin American relations; colonialism and nationalism in Southeast Asia; Europe since 1945.

*Public History*. History of the book and the publishing industry; community development in Arizona and the West; historical interpretation; environmental and cultural resources; organizational history; public practice.

**HISTORY (HIS)**

**HIS 401 American Colonial History.** (3) F
Political, economic, social, and cultural history of the colonial era. Concentrates on English colonies, with some consideration of Spanish, French, and other colonial regions in North America. General Studies: SB, H.

**HIS 403 Revolution and Constitution.** (3) N
The causes, course, and consequences of the American Revolution culminating in the ratification of the Constitution. Prerequisite: HIS 103 or instructor approval.

**HIS 404 The Early Republic, 1789–1850.** (3) A
Political, social, economic, and cultural development of the United States from the Revolution to 1850. Prerequisite: HIS 103 or instructor approval. General Studies: L/SB, H.

**HIS 406 Civil War and Reconstruction.** (3) A
Explores the causes, conduct, and consequences of the American Civil War, concentrating on the years 1848 to 1877. Prerequisite: HIS 103 or instructor approval. General Studies: L/SB, H.

**HIS 407 The Emergence of the Modern United States, 1877 to 1918.** (3) A
The triumph of modern political, social, and economic structures and values, 1877–1918; role of region, religion, race, and ethnicity. General Studies: SB, H.

**HIS 408 The Modern United States, 1918 to 1945.** (3) A
1920’s boom and the crash, the Depression and the New Deal response. The Second World War at home and abroad. Prerequisite: HIS 104 or equivalent. General Studies: SB, H.

**HIS 409 The Postwar United States.** (3) A
The United States from 1945 to 1973. General Studies: SB, H.

**HIS 410 The Contemporary United States.** (3) A
The United States from 1973 to the present. General Studies: SB, H.

**HIS 414 The Modern American Economy.** (3) N
Origins of 19th-century slavery and industrialization; 20th-century crisis and regulation; political economy of an advanced capitalist democracy. Prerequisite: ECN 111 (or 112) or HIS 103 (or 104). General Studies: SB, H.

**HIS 416 American Diplomatic History.** (3) S
American relations with foreign powers from 1898 to the present. Prerequisite: HIS 104 or instructor approval. General Studies: SB, G, H.

**HIS 417 Constitutional History of the United States.** (3) F
Origin and development of the American constitutional system from Colonial origins through Reconstruction. Prerequisite: HIS 103 or instructor approval. General Studies: SB, H.

**HIS 418 Constitutional History of the United States.** (3) S
Origin and development of the American constitutional system, from Reconstruction to the present. Prerequisite: HIS 104 or instructor approval. General Studies: SB, H.

**HIS 419 American Urban History.** (3) F
The history of the city in American life from colonial times to the late 19th century. General Studies: SB, H.

**HIS 420 American Urban History.** (3) S
The history of the city in American life from the 19th century to the present. General Studies: SB, H.

**HIS 421 History of American Labor.** (3) N
American workers, from the colonial period to the present, including farmers, slaves, housewives, the skilled and unskilled, unionized and nonunionized. Prerequisite: HIS 103 (or 104) or MGT 301. General Studies: SB, H.

**HIS 422 Rebellious Women.** (3) F, S
Examination of the roles of rebellious women in history through the study of autobiography, biography, and theory. General Studies: L/SB, C, H.

**HIS 424 The Hispanic Southwest.** (3) N
Development of the Southwest in the Spanish and Mexican periods to 1848. General Studies: SB, H.

**HIS 425 The American Southwest.** (3) F
Development of the Southwest from 1848 to the present. General Studies: L/SB, H.

**HIS 426 Indian History of the Southwest.** (3) F, S
Comprehensive review of historical events from prehistoric peoples, the Spanish and Mexican periods, and the American period after 1846 to the present. Prerequisite: upper-division standing or instructor approval. General Studies: SB, C, H.

**HIS 428 Arizona.** (3) F, S
Emergence of the state from early times to the present. Prerequisite: upper-division standing or instructor approval. General Studies: SB, C, H.

**HIS 430 20th-Century Chicano History.** (3) S
Historical development of the Chicano community in the 20th century. General Studies: SB, C, H.

**HIS 431 The French Revolution and the Napoleonic Era.** (3) N
Conditions in France before 1789, the Revolutionary decade from 1789 to 1799, the organization of France under Napoleon, and the impact of changes in France on European society. Prerequisite: upper-division standing or instructor approval. General Studies: SB, H.

**HIS 433 Modern France.** (3) N
Social, political, economic, and cultural transformations of French society, 1815–present. Impact of industrialization, war and revolution on people’s lives. Prerequisite: upper-division standing or instructor approval. General Studies: SB, G, H.
HIS 434 Hitler: Man and Legend. (3) F
A biographical approach to the German Third Reich emphasizing nature of Nazi regime, World War II, and historiography. General Studies: SB, H.

HIS 435 Modern Germany. (3) S
Germany since 1840. General Studies: SB, G, H.

HIS 437 Eastern Europe and the Balkans. (3) N
Peoples and countries of eastern and southeastern Europe in the 19th and 20th centuries from 1800 to 1914, emphasizing the Hapsburg and Ottoman Empires. General Studies: SB, H.

HIS 438 Eastern Europe and the Balkans. (3) N
Peoples and countries of eastern and southeastern Europe in the 19th and 20th centuries, emphasizing the successor states from 1914 to the present. General Studies: SB, G, H.

HIS 441 The Russian Empire. (3) F
Development of modern Eurasia from the late seventeenth century to 1917, including analysis of Russian society, institutions and cultural traditions. Lecture, discussion. General Studies: SB, H.

HIS 442 The Soviet Union. (3) S
An examination of Soviet and post-Soviet politics, economic development, and foreign relations from the 1917 Revolution to the present. General Studies: SB, G, H.

HIS 443 Russia and the United States. (3) S
Official and unofficial relations between Russia and the United States, from the late 18th century to the present, emphasizing period following the Bolshevik Revolution. General Studies: SB, G, H.

HIS 445 Tudor England. (3) A
Political, social, economic, and cultural developments in 16th-century England. General Studies: SB, H.

HIS 446 Stuart England. (3) A
Political, social, economic, and cultural developments in 17th-century England. General Studies: SB, H.

HIS 449 Modern Britain. (3) N
Factors contributing to Britain’s position as the world’s leading power in the 19th century and its decline from that position in the 20th century. General Studies: SB, G, H.

HIS 450 British Constitutional History. (3) N
Historical development of the constitutional system of Great Britain from the Middle Ages to the present, emphasizing the growth of democracy. General Studies: SB, H.

HIS 451 The British Empire. (3) A
British imperialism and colonialism in Africa, the Americas, Asia, and the South Pacific. Prerequisite: upper-division standing or instructor approval. General Studies: SB, H.

HIS 455 Intellectual History of Modern Europe. (3) A
Major developments in European thought from Karl Marx to the present. Prerequisite: upper-division standing or instructor approval. General Studies: HU, H.

HIS 456 History of Spain. (3) F
Cultural, economic, political, and social development of Spain from earliest days to 1700. General Studies: HU/SB, H.

HIS 457 History of Spain. (3) S
Cultural, economic, political, and social development of Spain from 1700 to the present. General Studies: HU/SB, G, H.

HIS 460 Spanish South America. (3) N
Political, economic, and social development of the Spanish-speaking nations of South America since independence. 19th-century developments. General Studies: SB, H.

HIS 461 Spanish South America. (3) A
Political, economic, and social development of the Spanish-speaking nations of South America, 20th-century developments. General Studies: SB, H.

HIS 463 Intellectual and Cultural History of Latin America. (3) A
Main currents of thought, the outstanding thinkers, and their impact on 19th- and 20th-century Latin America. Cultural and institutional basis of Latin American life. General Studies: SB, H.

HIS 464 The United States and Latin America. (3) A
The Latin American struggle for diplomatic recognition, attempts at political union, participation in international organizations since 1810, and relations between the United States and Latin America. General Studies: SB, G, H.

HIS 466 Mexico. (3) F
Political, economic, social, and cultural developments from earliest times to 1810. General Studies: SB, H.

HIS 467 Mexico. (3) S
Political, economic, social, and cultural developments from 1810 to the present. General Studies: SB, H.

HIS 468 Brazil. (3) N
Discovery, conquest, and settlement by the Portuguese; achievement of independence; rise and fall of the empire; problems and growth of the republic to the present. General Studies: SB, H.

HIS 469 Chinese Thought and Way. (3) F
China’s classics in translation studied both for their intrinsic ideas and for the origins of Chinese thought. General Studies: SB, H.

HIS 470 Chinese Thought and Way. (3) S
Evolution of Confucian Tao (Way), its synthesis of Taoism and Buddhism, and 20th-century reactions to that Tao. General Studies: SB, G, H.

HIS 471 The United States and Japan. (3) F
Cultural, political, and economic relations in the 19th and 20th centuries. Emphasis on post-World War II period. General Studies: SB, G, H.

HIS 473 China. (3) F
Political, economic, social, and cultural history of the Chinese people from early times to the late 17th century. General Studies: SB, H.

HIS 474 China. (3) S
Political, economic, social, and cultural history of the Chinese people from mid-17th century to the present. General Studies: SB, G, H.

Intersection of American and Asian histories in Vietnam, viewed from as many sides as possible. General Studies: SB, G, H.

HIS 477 Japan. (3) F
Political, economic, social, and cultural history of the Japanese people from early times to the 19th century. General Studies: L/SB, H.

HIS 478 Japan. (3) S
Political, economic, social, and cultural history of the Japanese people from 19th century to the present. General Studies: SB, G, H.

HIS 481 The People’s Republic of China. (3) N
Analysis of major political, social, economic, and intellectual trends in China since the founding of the People’s Republic in 1949. General Studies: SB, G, H.

HIS 486 History of Fire. (3) F
A global survey of the natural and cultural history of fire. Lecture, discussion. General Studies: L, H.

HIS 493 Honors Thesis. (3) N
General Studies: L.

HIS 495 Methods of Teaching History: Classroom Resources. (3) F
Methods in instruction, organization, and presentation of the subject matter of history and closely allied fields. Prerequisites: HIS 300; admission to PTPP.

HIS 496 Methods of Teaching History: Community Resources. (3) S
Identify community-based resources for teaching history, work with resources, and learn how to integrate them into the secondary classroom. Lecture, lab. Prerequisites: HIS 300; admission to PTPP.

HIS 498 PS: History Pro-Seminar. (3) F, S
Required course for majors on topic selected by instructor; writing-intensive course related to the development of research skills and writing tools used by historians. Prerequisites: HIS 300; History major. General Studies: L.

HIS 502 Public History Methodology. (3) F
Introduction to historical research methodologies, techniques, and strategies used by public historians. Readings, short papers, and guest speakers. Required for students in the public history concentration.

HIS 512 Historians of Early Europe. (3) N
A study of the history of European historical writing from the Greeks to the 18th century.

HIS 513 Historians of Modern Europe. (3) N
A study of 19th- and 20th-century European historical writing.

HIS 514 Historians of the United States. (3) N
A study of the history of American historical writing from the early colonial days to the 20th century.

HIS 515 Studies in Historiography. (3) F, S
Methods and theories of writers of history. May be repeated for credit.
HIS 525 Historical Resource Management. (3) F
Identification, documentation, and interpretation of historic period
buildings, sites, and districts. Emphasis on interdisciplinary efforts
among historians, architects, and anthropologists.

HIS 526 Historians and Preservation. (3) S
Preparation of historians for public and private historic preservation
programs. Prerequisite: HIS 525 or instructor approval.

HIS 527 Historical Administration. (3) F
Preparation of historians in administration of archives, historical sites,
historical museums, historical societies, and historical offices in gov-
ernment agencies.

HIS 532 Community History. (3) N
Techniques and methods of community history emphasizing local
resources. Required for community history option. Seminar.

HIS 551 Comparative Histories of War and Revolution. (3) A
A comparative field course of the themes of war and revolution.

HIS 552 Comparative History of Family and Community. (3) N
A comparative course with a focus on family, including minority and
ethnic groups, in society.

HIS 553 Comparative History of State and Institutions. (3) N
A comparative course that explores the changing nature of central
institutions and government.

HIS 554 Comparative Historical Population Studies: Ethnicity,
Economy, and Migration. (3) N
A comparative course that explores the impact of social, cultural, or
economic changes in the population.

HIS 555 Comparative Historical Topics. (3) N
This course analyzes a variety of specific social, political, cultural, and
intellectual topics.

HIS 591 Seminar. (3) N
May be repeated for credit.

HIS 592 Research. (1–12) N

HIS 598 Special Topics. (3) N
Reading courses designed to increase students' familiarity with a par-
ticular topic and the important writing concerning it. The following
areas may be included:
(a) Asian History
(b) English and British History
(c) European History
(d) Latin American History
(e) U.S. History
May be repeated for credit.

HIS 599 Thesis. (1–12) N

Omnibus Graduate Courses. See page 57 for omnibus graduate
courses that may be offered.

History and Theory of Art

A Ph.D. degree in History and Theory of Art is offered
jointly with the University of Arizona. For more informa-
tion, contact the School of Art at 480/965-3468.
Humanities
Interdisciplinary Master’s Program
Charles Dellheim
Director
(LL 641) 480/965-6747
humanities@asu.edu
www.asu.edu/clas/humanities

CORE FACULTY
Humanities
Professors: Dellheim, Foster, Kugelmass, Lehman;
Associate Professor: Privateer;
Assistant Professors: Baker, Ballew, Lund, Morales,
Romeyn, Taylor, Wright
Languages and Literatures
Professor: Foster

The Graduate Committee on Humanities offers an interdisciplinary program leading to the M.A. degree in Humanities. One of the unique features of this interdisciplinary program is that, because it uses faculty research/teaching interests from a number of disciplines, a student may tailor a course of study to fit individual needs and goals. The committee is chaired by Humanities core faculty and may include members from several departments. At the same time, the individualized program is balanced by a required core of several courses emphasizing interdisciplinary methodology and theory. Faculty and courses are not limited, however, to the departments and schools listed, since it is understood that many fields may be approached from a humanistic perspective.

MASTER OF ARTS

Among the small number of humanities M.A. programs in the U.S., the ASU program stands out in terms of its substance and breadth. The core of the curriculum, a sequence of three required courses, provides students with an introduction to an extremely wide range of classical and contemporary cultural theory. At the same time, the large number of elective classes at their disposal permits students to fashion a specialized field for themselves, typically combining work in two or more of the traditional humanities disciplines. The thesis—the capstone of the requirements for the degree—gives students the opportunity to make an original and substantial contribution to scholarship in their chosen field. This combination—a solid grounding in cultural theory, interdisciplinary specialization, and advanced research and writing—makes this M.A. program unique among its peers.

Admission. Students who fulfill the general requirements of the Graduate College and who have a B.A. in any of the humanities disciplines listed by the National Endowment for the Humanities are invited to apply. This invitation, however, does not preclude students who have bachelor’s degrees in the social and natural sciences. In addition to meeting Graduate College requirements, students must submit Graduate Record Examination scores; three letters of academic recommendation; and a brief letter of intent, outlining their academic career to date and suggesting plans for the future, at ASU and beyond. Prospective students should apply by March 1 for admission into the program the following fall. Students whose applications are complete by the March 1 deadline will be notified of their admission status by April 15. Qualified students applying after March 1 will be admitted depending on the availability of space.

Program of Study. M.A. students must complete a minimum of 30 hours of course work, including six hours of thesis preparation. In most cases, this involves a two-year program of study, focused on the following requirements:

Core Courses. Students take a sequence of three core courses, one in each of their first three semesters. Contact an advisor for details.

Area of Study. Beyond the core courses, students use their remaining electives to develop a specific area of study, whose ultimate expression is the thesis, but which is also grounded in course work. The areas of study sponsored by the faculty include, but are not limited to: American studies; art and society; comparative literatures and cultures; film and media studies; gender and sexuality; intellectual history and philosophy; Jewish studies; performance studies; postcolonial studies; science, technology, and culture.

Foreign Language Exam. M.A. students are required to pass a foreign language reading examination, typically at some point during their first three semesters.

Master’s Thesis. The centerpiece of the master’s degree is a written thesis that makes an original and substantial contribution to scholarship in the humanities. Most students are expected to work toward a thesis proposal and the formation of a thesis committee (consisting of a chair drawn from the Humanities faculty and two other members) during their first two semesters; to finalize their committee and receive its approval of their proposal in their third semester; and to complete the thesis in the fourth semester. A final oral defense of the thesis is required.

RESEARCH ACTIVITY

A sample of recent thesis topics includes the following: The Enigma of Nikola Tesla: A Cultural Studies Analysis of His Legacy; Hot and Cold Media with New Messages: A Review and a Revision of (Herbert) Marshall McLuhan; The Boy’s Room Revisited: Masculinities in Pulp Fiction; “I Am Marlene-Marlene Is Me”: Marlene Dietrich as Model for Social Empowerment; Anthropological Field Rites: Uncovering the Ethnographic Self in Feminist Self-Ethnography; Unreality As Condition of Life: A Postmodern View on Andrei Bitov’s Pushkin House; The Four-Seven Debate between Yi T’oegye and Ki Kobong; The Study of an Epidemic: Science, Society, and the (Re)Presentation of AIDS; Reading Space: A Question of Resistance; Social Peace, Unconstrained Consent, Social Justice, and the So-Called Liberal Tradition: Getting Around the Body: The Matter of Race and Gender in Faulkner’s Light in August; Healing Patterns in Three Ethnic American Novels; Sorcery in Colonial Peru: The Cases Held by the Spanish Inquisition at the Tribunal of Lima; The Problem of the Artist in the South; William Faulkner’s Resistance to Southern Colonization; Red Scares and Witch Hunts: Unlikely American Heroes and Identities in Angels in America; Imperial Propaganda...

Faculty Research Interests. Social and intellectual history; British history; the Enlightenment; media studies; cultural studies; Latin America; queer theory; gender studies; subaltern studies; ideological approaches to literature; comparative literature; postcolonial studies; Chinese culture; East European and American Jews; Israel; urban studies; humor; technology and culture; intercultural perceptions; colonial Latin American identity construction; law and society in European and modern periods; narratives of European colonialism/exploitation; American studies; science and the humanities; Southeast Asian art history; critical theory; cultural anthropology; culture and organizational theory.

HUMANITIES (HUM)

HUM 420 Interpreting Latin America. (3) S
Introduction to protocols and methodologies for cultural interpretation of Latin America, with emphasis on four principal cities as cultural space. General Studies: HU, G, H.

HUM 440 Los Angeles and Cultural Theory. (3) S
Analysis of representations of Los Angeles in literary, film, and musical texts and broader implications for contemporary American society. General Studies: L/HU, C.

HUM 450 Technology and Culture. (3) S
Explores sociocultural, ideological, and postmodern implications of technology and the role technology plays in social constructions as well as the spaces it creates. Seminar discussion. General Studies: L/HU.

HUM 460 Postmodern Culture and Interpretation. (3) N
Currents and interpretations of postmodern culture; international, comparative perspective on the culture and traditions of contemporary “Europe” and “America.” Seminar discussion. General Studies: L.

HUM 462 Psychoanalysis and Culture. (3) F
Introduction to intellectual history of psychoanalytic movement of the 20th century and its contribution to humanities disciplines. General Studies: L/HU/SC.

HUM 465 Narrative in the Human Sciences. (3) F
Theories of narrative and narrativity in the humanities, concentrating on the problems of specific disciplines and interdisciplinary solutions. General Studies: L/HU.

HUM 501 Introduction to Cultural Theory. (3) F
Selective history of cultural theory. Major figures and topics include Marx, Nietzsche, Freud, Phenomenology, Western Marxism, Structuralism, and Post-Structuralism. Seminar.

HUM 503 Research and Writing in the Humanities. (3) F
Systematic training in humanistic research and writing with particular attention to the interdisciplinary study of culture. Seminar.

HUM 511 Structures of Knowledge. (3) F
Theories and examples of structures of knowledge, including such topics as metaphor, semiotics, and knowledge of the “other.”

HUM 512 Writing Cultures. (3) S
Theories and methods of representing Western and non-Western cultures in literature, history, ethnography, and pictorial media.

HUM 513 Interpretation of Cultures. (3) A
Methodologies and comparative theories for the study of relationships between various aspects of culture, the history of ideas, and the arts. May be repeated for a total of 6 semester hours, when topics vary.

HUM 549 Contemporary Critical Theory. (3) A
An advanced survey of major schools of 20th-century literary and critical theory. Lecture, discussion. Cross-listed as ENG 502. Credit is allowed for only ENG 502 or HUM 549.

HUM 591 Seminar. (3) A
Topics include:
(a) Cultural Productions
(b) Theory and Culture
(c) Tragedy: Meaning and Form

HUM 598 ST: Special Topics in the Humanities. (3) N
Open to all students. Topics include:
(a) Comparative Fine and Performing Arts
(b) Cultures of Ethnic Minorities
(c) Film and Media Studies
(d) Non-Western Cultures
(e) Western Historical or Contemporary Cultures

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Industrial Engineering

Gary L. Hogg
Chair
(GWC 502) 480/965-3185
ie@asu.edu
www.eas.asu.edu/~imse

PROFESSORS
DOOLEY, HENDERSON, HOGG, HUBELE, KEATS, MONTGOMERY, WOLFE

ASSOCIATE PROFESSORS
ANDERSON-ROWLAND, COCHRAN, MacKULAK, MOOR, ROBERTS, ROLLIER, RUNGER, SHUNK, VILLALOBOS, YE

ASSISTANT PROFESSORS
CARLYLE, FOWLER, MOU

The faculty in the Department of Industrial and Management Systems Engineering offer graduate programs leading to the M.S., the Master of Science in Engineering, and the Ph.D. degrees in Industrial Engineering.

The overall educational objective of graduate study in industrial engineering is to improve each student’s ability to understand, analyze, and resolve problems within complex organizations. Industrial engineers must develop qualitative and quantitative abilities to assist management in such diverse organizations as banks, government, hospitals, military, and manufacturing operations.

It is required that all students applying for one of the master’s or doctoral degree programs submit scores (verbal, quantitative, analytical) on the Graduate Record Examination, a statement of purpose, and three letters of recommendation.

MASTER OF SCIENCE

See “Master’s Degrees,” page 101, for general requirements.

MASTER OF SCIENCE IN ENGINEERING

Students applying for the program leading to the Master of Science in Engineering degree in Industrial Engineering may have a baccalaureate degree in a major or field other than industrial engineering, although engineering, mathematics, or science is recommended. The student’s qualifications are reviewed by the faculty.

A dual degree is available. It is designed to enable qualified graduate students to pursue the Master of Science in Engineering (M.S.E.) at ASU and a Master of International Management of Technology (M.I.M.O.T.) at the American Graduate School of International Management (Thunder-
bird). Thunderbird is an internationally recognized private graduate school located in the Phoenix metropolitan area, offering course work in international studies, modern languages, and world business. Details are available from the departmental office.

See “Master of Science in Engineering,” page 187, for more information on the Master of Science in Engineering degree.

DOCTOR OF PHILOSOPHY

The Ph.D. degree in Industrial Engineering is conferred upon evidence of excellence in research that culminates in a dissertation representing a significant contribution to the field of industrial engineering.

See “Doctor of Philosophy,” page 104, for general requirements.

Program of Study. The program of study should be developed early in the second semester of Ph.D. study or when the student has completed nine semester hours of courses at ASU. Specific requirements may be obtained from the department.

Early Evaluation. Early in the second regular semester in residence, the student’s program of study and academic accomplishment to date serve as a basis for evaluation by the supervisory committee. The results of this evaluation are used to assist the student in improving or modifying the program of study, to encourage the continuance of Ph.D. studies or, if necessary, to discourage the student from continuing in the program.

Foreign Language Requirements. None.

Comprehensive Examinations. When the Ph.D. student has essentially completed the course work in the approved program of study and submitted a research proposal to the advisory committee, the student is given a written comprehensive examination relating to the research area. The written examination is followed by an oral exam.

Dissertation Committee. Upon successful completion of the comprehensive examinations, the student is admitted to candidacy. At this time a dissertation committee is selected to assist in and evaluate the research project and dissertation.

Dissertation Requirements. A dissertation based on original work demonstrating creativity in research and scholarly proficiency in the subject area is required.

Final Examinations. A final oral examination in defense of the dissertation is required.

RESEARCH ACTIVITY

The Industrial and Management Systems Engineering faculty are involved in a wide variety of research projects. Current research includes the following topics:

Operations Research and Production Systems. Emergent Behavior Microscopic Representation of Intersection Interactions; Capacity Modeling in Semiconductor Manufacturing; Modeling and Simulation for Productivity Improvement of a Semiconductor Production Line; Cost/Product Analysis for IC Packaging; Cross Training Engineers/Technicians for Semiconductor Manufacturing; Modeling and Analysis of Semiconductor Manufacturing; QS9000 Quality System Implementation; Modeling and Analysis of 300mm Wafer Fabrication Operations; Wafer Fab Operations; Modelings, Analysis, and Design; Introduction to Manufacturing Engineering; Modeling Data Standards; Overall Equipment Effectiveness in Semiconductor Manufacturing; The Role of the Industrial Engineer in Semiconductor Manufacturing; Modeling and Simulation for Productivity Improvement of a Semiconductor Production Line; Support for the Real-Time Product Flow Control in Semiconductor; Manufacturing Project; Productivity Issues in A/P/T Operations; Estimation of the AutoMod Development Drivers in Semiconductor Material Handling Simulations; DMAPS-Business Process Reengineering; A Methodology for Recording the Model Build Cycle; Dynamic Scheduling; Object-Oriented Simulation and Control; Benefit/Cost Analysis for High Technology Man-Machined Systems; Cellular Automata for Traffic Flow Modeling; Methodology for Assessing System Availability with Finite Queues; Component Redundancy and Spare Components.

Information Systems/Management of Technology. Client
Server Relational Database Interface for a Hierarchical
Generic Discrete Manufacturing Simulation Model; Taxon-
omy and a Multiple Criteria Decision Model for the Evalua-
tion of Sourcing Strategies for the Make or Buy Problem;
Methodology for the Management of Multi-Facility Virtual
Factory Environments; Understanding Corporate Informa-
tion and Knowledge Supply Chains; Best Practices, Matura-
ity, and Diffusion in New Product Development; Team Net-
work Characterization in Integrated Product Development;
Programmer Performance Measurement in a Software
Reuse Context; Push and Pull Technologies in New Product
Development; Process Knowledge Bases: Facilitating the
Application of Deep Knowledge; Using Software Process
Simulation for Making “Good Enough Quality” Decisions;
Diagnosing Dynamic Organizational Processes; The Mea-
sure of Consumer Attitudes Concerning Software
Quality; Legitimate Roles and Enacted Practices in Cross-
Functional Product Development Teams; Perceptions of
Success and Failure in Total Quality Management Initi-
atives; Successful Implementation of QFD; Methods for
Studying Organizational Change and Development; The
Dynamics of Learning to Automaticity; Autonomous
Agents and Hospital Room Scheduling; The Nonlinear
Dynamics of Innovation; Modeling and Experimentation for
Multi-Response Optimization; NLOCKS: A National Labo-
ratory for Organization Communication and Knowledge
Studies; Design a Knowledge Management System for a
Product Platform Organization; Supplier Involvement in
New Product Development; The Behavior of Purchasing
Agents when Dealing with Products of Unknown Quality;
Convergence and Divergence in the Innovation Process;
Hypermanufacturing: The Next Phase; The Stability of
Work Routines in Self-Managed Work Teams.

Human Factors/Ergonomics. Fundamentals of Psychologi-
cal Science. Computer Vision. The Design and Utilization
of Audio Menus in Relation to Worker Productivity. Ergo-
nomics Applied to Workplace Simulation and Design, Impact
of Graphics on User’s Performance Within the
Human Computer Interaction Environment.

Education. The Design, Assessment and Evaluation of an
Undergraduate Industrial Engineering Curriculum, Design
and Creation of an Industrial Engineering Design Labora-

INDUSTRIAL ENGINEERING (IEE)

IEE 505 Applications Engineering. (3) F
Develop working knowledge of application systems development tools
needed for computer integrated enterprise. Includes techniques for
application generation in fourth and fifth generation software environ-
ments. Topics include client server network systems, decision support
systems, and transaction systems in distributed environment.

IEE 511 Analysis of Decision Processes. (3) S
Methods of making decisions in complex environments and statistical
decision theory; effects of risk, uncertainty, and strategy on engineer-
ing and managerial decisions. Prerequisite: ECE 380.

IEE 520 Ergonomics Design. (3) S
Human physiological and psychological factors in the design of work
environments and in the employment of people in man-machine sys-
tems. Open-shop lab assignments in addition to class work. Prerequi-
site: IEE 437 or 547.

IEE 530 Enterprise Modeling. (3) S
Focus on social, economic, and technical models of the enterprise
with emphasis on the management of technological resources.
Included are organization, econometric, financial, and large-scale
mathematical models.

IEE 531 Topics in Engineering Administration. (3) S 2002
Consideration given to philosophical, psychological, political, and
social implications of administrative decisions. Prerequisite: IEE 532
or instructor approval.

IEE 532 Management of Technology. (3) F
Topics include designing a technical strategy; technological forecast-
ing; interfacing marketing engineering and manufacturing; designing
and managing innovation systems; creativity; application of basic
management principles to technology management. Prerequisite: IEE
431 or 541 or instructor approval.

IEE 533 Scheduling and Network Analysis Models. (3) S
Application of scheduling and sequencing algorithms, deterministic
and stochastic network analysis, and flow algorithms. Prerequisites:
IEE 380; IEE 476 (or 546).

IEE 541 Engineering Administration. (3) F
Introducing quantitative and qualitative approaches to management
functions, engineering administration, organizational analysis, decision
making, and communication. IEE 431 students ineligible.

IEE 543 Computer-Aided Manufacturing and Control. (3) S
Computer control in manufacturing, CIM. NC, logic controllers, group
technology, process planning and robotics. IEE 463 students ineligi-
ble. Prerequisite: C programming capability.

IEE 545 Simulating Stochastic Systems. (3) F, S
Analysis of stochastic systems using basic queuing networks and dis-
crete event simulation. Basic network modeling, shared resources,
routing, assembly logic. Not open to students with credit in IEE 475.
Prerequisites: ASE 485; CSE 100 (or equivalent); IEE 476 (or 546).

IEE 546 Operations Research Techniques/Applications. (4) F, S
Students model and analyze industrial systems applications with oper-
ations research techniques. Resource allocation, product mix, production,
shipping, task assignment, market share, machine repair,
customer service. Not open to students with credit in IEE 476. Prereq-
quisites: ASE 485; CSE 100.

IEE 547 Human Factors Engineering. (3) F
Study of people at work; designing for human performance effective-
ness and productivity. Considerations of human physiological and psy-
chological factors. Open only to students without previous credit for
IEE 437.

IEE 552 Strategic Technological Planning. (3) S
Study of concept of strategy, strategy formulation process, and strate-
gic planning methodologies with emphasis on engineering design and
manufacturing strategy, complemented with case studies. An analyti-
cal executive planning decision support system is presented and used
throughout course. Pre-requisite: IEE 545 or 566 or 567 or 574
or 575.

IEE 560 Object-Oriented Information Systems. (3) S
Application of object-oriented technology concepts to manufacturing
and enterprise systems. Topics include Java, object management sys-
tems, and application design. Prerequisites: CSE 100; IEE 305 or 505;
or equivalents.

IEE 561 Production Systems. (3) F, S
Understanding how factories operate; how performance is measured,
and how operational changes impact performance metrics. Opera-
tional philosophies, increasing production efficiency through quantita-
tive methods. Prerequisites: ASE 485 (or equivalent); IEE 475, 476.

IEE 562 Computer-Aided Manufacturing (CAM) Tools. (3) F
Current topics in automation, distributed control, control code genera-
tion, control logic validation, CAM integration, CAD/CAM data struc-
tures, planning for control systems. Topics vary by semester.
Prerequisite: IEE 463 or 543 or equivalent.

IEE 563 Systems Analysis for Distributed Systems. (3) S
Analysis and design of distributed groupware applications for manu-
facturing and enterprise systems. Prerequisite: ECE 380.

IEE 564 Planning for Computer-Integrated Manufacturing. (3) F
Theory and use of IDEF methodology in planning for flexible manuf-
acting, robotics, and real-time control. Simulation concepts applied to
computer-integrated manufacturing planning. Prerequisite: IEE 463 or
543.

IEE 565 Computer-Integrated Manufacturing Research. (3) S
Determination and evaluation of research areas in computer-inte-
grated manufacturing, including real-time software, manufacturing
information systems, flexible and integrated manufacturing systems,
robotics, and computer graphics. Prerequisite: IEE 564.
IEE 566 Simulation in Manufacturing. (3) S
Use of simulation in computer-integrated manufacturing with an emphasis on modeling material handling systems, Programming, declarative, and intelligence-based simulation environments. Prerequisite: IEE 545.

IEE 567 Simulation System Analysis. (3) F
Simulation modeling of processes involving discrete and continuous system components. Topics include random number generators, output analysis, variance reduction, and statistical issues related to simulation. Prerequisite: IEE 545.

IEE 569 Advanced Statistical Methods. (3) F 2000
Application of statistical inference procedures, based on ranks, to engineering problems. Efficient alternatives to classical statistical inference constrained by normality assumptions. Prerequisite: IEE 465 or 500.

IEE 570 Advanced Quality Control. (3) S
Economic-based acceptance sampling, multiattribute acceptance sampling, narrow limit gauging in inspector error and attributes acceptance sampling, principles of quality management, and selected topics from current literature. Prerequisite: ASE 485 or 500.

IEE 571 Quality Management. (3) F
Total quality concepts, quality strategies, quality and competitive position, quality costs, vendor relations, the quality manual, and quality in the services. Prerequisite: IEE 431 or 541.

IEE 572 Design of Engineering Experiments. (3) F, S
Analysis of variance and experimental design. Topics include general design methodology, incomplete blocks, confounding, fractional replication, and response surface methodology. Prerequisite: IEE 485 or 500.

IEE 573 Reliability Engineering. (3) S
Nature of reliability, time to failure densities, series/parallel/standby systems, complex system reliability, Bayesian reliability, and sequential reliability tests. Prerequisite: ECE 380.

IEE 574 Applied Deterministic Operations Research Models. (3) F, S
Advanced techniques in operations research are developed for the solution of complex industrial systems problems. Goal programming, integer programming, heuristic methods, dynamic and nonlinear programming. Prerequisites: IEE 476 (or 546); MAT 242.

IEE 575 Applied Stochastic Operations Research Models. (3) S
Students formulate and solve industrial systems problems with stochastic components using analytical techniques. Convolution, continuous-time Markov chains, queues with batching, priorities, balking, open/closed queuing networks. Prerequisites: ASE 485; IEE 476 (or 546).

IEE 577 Decision and Expert Systems Methodologies. (3) F
Application of artificial intelligence methodologies in decision support systems. Topics include neural networks, fuzzy logic systems, and expert systems. Prerequisite: CSE 100 or equivalent.

IEE 578 Regression Analysis. (3) F
A course in regression model building oriented toward engineers/physical scientists. Topics include linear regression, diagnostics biased and robust fitting, nonlinear regression. Prerequisite: IEE 485 or 500.

IEE 579 Time Series Analysis and Forecasting. (3) F 2001
Forecasting time series by the Box-Jenkins and exponential smoothing techniques; existing digital computer programs are utilized to augment the theory. Prerequisites: ASE 485 (or 500); IEE 461.

IEE 582 Response Surfaces and Process Optimization. (3) S
An introduction to response surface method and its applications. Topics include steepest ascent, canonical analysis, designs, and optimality criteria. Prerequisite: IEE 572.

IEE 591 Seminar. (1–12) N
(a) Effects of Economics/New Products Market
(b) Manufacturing Strategy
(c) New Product Strategy
(d) Strategic Product Development

IEE 672 Advanced Topics in Experimental Design. (3) S 2002
Engineering applications of factorial and fractional factorial designs with randomization restrictions, analysis techniques in parameter comparison, missing data, unbalanced designs. Prerequisite: IEE 572 or instructor approval.

IEE 677 Regression and Linear Models. (3) S 2001
General linear models, applications, theory, including least squares, maximum likelihood estimation, properties of estimators, likelihood ratio tests and computational procedures. Prerequisite: IEE 578 or instructor approval.

IEE 679 Time Series Analysis and Control. (3) F 2000
Identification, estimation, diagnostic checking techniques for ARIMA models, transfer functions, multiple time series models for feedback and feedforward control schemes. Prerequisite: IEE 579 or instructor approval.

IEE 681 Reliability, Availability, and Serviceability. (3) F 2000
Organizing hardware and software, integrity and fault-tolerant design, maintenance design and strategy, Markov models, fault-free analysis, and military standards. Prerequisite: ECE 380.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Information Management

Philip M.J. Reckers

ASSISTANT PROFESSORS
BHATTACHERJEE, CHEN, CHENOWETH, DAVID, DOWLING, HWANG, IYER, MISHRA, O’DONnelL, SANTANAM, SHAO, WHITECOTTON

SENIOR LECTURERS
MacCracken, SHREDNICK

LECTURERS
BALOGH, J.L. BOATSMAN, GEIGER, HAYES, TAYLOR

The faculty in the School of Accountancy and Information Management, College of Business, offer specialized professional programs leading to the Master of Science in Information Management, Master of Accountancy and Information Systems (see “Accountancy and Information Systems,” page 106), and Master of Taxation (see “Taxation,” page 305) degrees.

The faculty also participate in the programs leading to the Master of Business Administration (see “Master of Business Administration,” page 134) and Ph.D. degree in Business Administration (see “Doctor of Philosophy,” page 135) degrees.

For more information, visit the school’s Web site at www.cob.asu.edu/acct.

MASTER OF SCIENCE

The program leading to the M.S. degree in Information Management educates specialists to develop and apply
quantitative and computer methods to support business decision making. The program prepares students for careers in professional accounting, accounting and computer information systems/management, business consulting and corporate accounting/finance.

**Admission.** All applicants are required to submit the supplemental application materials required from the school. A complete advising guide and application packet may be obtained from the school’s Web site.

Applicants must also submit scores from either the Graduate Management Admission Test (GMAT) or the Graduate Record Examination (GRE). International applicants whose native language is not English must submit scores from the Test of English as a Foreign Language (TOEFL) and Test of Spoken English (TSE) exams. Preference in admission is given to those with degrees in accounting and business, although other exceptional candidates are considered.

**Prerequisites.** Applicants must complete the program prerequisites. Refer to the School of Accountancy and Information Management Web site for a current listing of required course prerequisites for the program.

**Program of Study.** The program of study consists of a minimum of 30 semester hours and is continually updated. A sample program of study might include:

- ACC 541 Strategic Innovations in Information and Cost Management..........................3
- CIS 505 Object-Oriented Modeling and Programming...........................................3
- CIS 506 Business Database Systems.................................................................3
- CIS 512 Intelligent Decision Systems and Knowledge Management..........................3
- CIS 530 Information Systems Development......................................................3
- CIS 535 Distributed Information Systems.........................................................3
- CIS 593 Applied Project..........................................................3

**Course Load.** Students are limited to 12 hours per semester.

**Foreign Language Requirements.** None.

**Thesis Requirements.** An applied project is required.

**Final Examinations.** A final written examination is required of all candidates and is integrated with the applied project.

**RESEARCH ACTIVITY**

Research activities of the School of Accountancy and Information Management faculty encompass theory and applications in computer information systems and management science. The faculty are actively engaged in research in the following areas: database systems, artificial intelligence, management information systems, decision support systems, model management systems, decision analysis, panel models, forecasting, productivity and quality management, project management, health care operations, and service operations.

**COURSES**

For courses, see “Accountancy (ACC),” page 107, and “Computer Information Systems (CIS),” page 107.

**REGENTS’ PROFESSOR**

ALTHEIDE

**PROFESSORS**

CAVENDER, FIGUEIRA-McDONOUGH, GOLDBERG, HAYNES, HEPBURN, JOHNSON, JURIK, LAUDERDALE, MUSHENO, ROMERO, SCHNEIDER, ZATZ

**ASSOCIATE PROFESSORS**

BORTNER, LUJAN, RIDING IN, SCHADE

**ASSISTANT PROFESSORS**

ADELMAN, BERNSTEIN, HANSON, MENJIVAR

The faculty in the School of Justice Studies offer a program leading to the M.S. degree in Justice Studies. Information about the interdisciplinary Ph.D. degree in Justice Studies may be obtained from the graduate coordinator’s office. See “Justice Studies,” page 234.

**CONCURRENT DEGREES**

Graduate students in the School of Justice Studies and the Department of Anthropology are able to receive a concurrent M.S. degree in Justice Studies and M.A. degree in Anthropology with a concentration in social-cultural anthropology. The purpose of the program is to prepare individuals with complementary knowledge and skills for basic and applied research and to provide administrative and educational activities related to justice studies and anthropology. Students must be admitted separately to each program, following the guidelines of the Graduate College, Department of Anthropology, and School of Justice Studies. Additional information on the M.A. degree in Anthropology and the M.S. degree in Justice Studies may be obtained from each academic unit.

**MASTER OF SCIENCE**

The faculty in the School of Justice Studies offer a program leading to the M.S. degree in Justice Studies. The study of justice is an interdisciplinary field of scholarship, research, and teaching, embracing those aspects of social and behavioral sciences relevant to an understanding of law, justice, crime, and social deviance. It includes a critical examination of the policies and organizational processes that have evolved for handling attendant problems. The M.S. degree has been designed to prepare students for professional positions in justice-related agencies, for teaching in community colleges, and for further study and research in the justice field.

**Admission.** In addition to meeting Graduate College requirements, the applicant must submit Graduate Record Examination (GRE) scores, a one- or two-page statement
outlining the applicant’s educational and career goals related to Justice Studies, areas of interest, and three letters of recommendation, preferably from academic referees. Because of enrollment limits, candidates who meet minimum requirements are not automatically admitted into the program.

Selection Criteria. In selecting promising candidates, the admissions committee evaluates past academic performance, scores from the GRE, and potential for success as indicated by recommendations and personal statements. Applications to the program may be made at any time; however, complete files must be submitted to the Graduate College by January 1 for fall admission.

International Applicants. In addition to admission material, international applicants whose native language is not English must submit scores from the Test of English as a Foreign Language. Evidence that sufficient funds are available for financing the student’s academic program also must be submitted. See “Admission to the Graduate College,” page 92, for more information.

Advisory Committee. Upon admission of the applicant, a temporary advisor is appointed. The temporary advisor is a faculty member who assists students in the selection of courses for the first semester until an advisory committee is formed. Typically, by the end of the first year, students form an advisory committee consisting of a chair and two members. The chair and at least one member must be faculty of the School of Justice Studies.

The committee members must be appointed by the dean of the Graduate College upon the recommendation of the director of the School of Justice Studies. The advisory committee works with the student to establish a program of study, to direct the thesis or applied project, and to administer the oral examination.

Program of Study. The M.S. degree in Justice Studies has two options: a thesis or an applied project. The thesis option requires the completion of 36 semester hours, of which six are thesis hours. The applied project option requires the completion of 42 semester hours, of which three are JUS 593 Applied Project. Each student’s program is developed in concert with the advisory committee, in accord with the student’s background of preparation and educational and career objectives. The program of study has three major categories: foundation courses, elective courses, and thesis or applied project requirements.

Foundation Courses. The required foundation courses provide students with a fundamental understanding of the theories, methods, and analytic techniques associated with the study of justice. Foundation courses include:

- JUS 500 Justice Research Methods ........................................3
- JUS 501 Justice Theory .........................................................3
- JUS 509 Statistical Problems in Justice Research ......................3
- JUS 521 Qualitative Data Analysis and Evaluation ....................3

Elective Courses. Offered by the School of Justice Studies and other academic units, elective courses develop a unique research area in justice studies. Students may choose these courses in consultation with their advisory committees. Alternatively, students may choose one of the following areas within justice studies:

1. adolescence and justice;
2. American Indian justice;
3. comparative justice;
4. crime and justice;
5. dispute resolution;
6. gender and justice;
7. law, ecology, and society;
8. law, policy, and evaluation;
9. race, ethnicity, and justice;
10. social and economic justice.

Thesis Requirements. To satisfy the research requirement for the Master of Science degree, candidates must write a thesis and defend it in an oral examination.

Applied Project Requirements. Candidates pursuing the applied project option must present their applied project and defend it in an oral examination conducted by the faculty member who supervises the project. The project should be an analytical report.

Concurrent M.A. Anthropology/M.S. Justice Studies. Graduate students in the School of Justice Studies and the Department of Anthropology are able to receive a concurrent Master of Science degree in Justice Studies and Master of Arts degree in Anthropology with a concentration in sociocultural anthropology. The program is designed for individuals with combined and complementary knowledge and skills. It prepares them for basic and applied research and administrative and educational activities related to justice studies and anthropology. Students must apply and be admitted separately to each program in accordance with the guidelines of the Graduate College, the Department of Anthropology, and the School of Justice Studies.

Foreign Language Requirements. None.

Financial Assistance. A limited number of assistantships are available on a competitive basis for well-qualified students at the master’s level. To be eligible for an assistantship, students must be admitted to a graduate degree program with regular admission status. Application should be made directly to the School of Justice Studies.

RESEARCH ACTIVITY

The School of Justice Studies has a strong commitment to ongoing research programs. Graduate students have ample opportunities to participate in these pursuits through paid research assistantships as well as research apprenticeships and independent studies at the graduate level.

Areas of faculty research include the following: administration and management in justice-related agencies; adolescence and justice; American Indians and justice; analyses of criminal justice reforms; community crime prevention; community risk assessment; comparative justice; corrections; criminological theory; critical race theory; deviant behavior; dispute resolution; distributive justice; domestic violence; ethical theory; female criminality; feminist sociological theories; gangs; gender, justice and inequality; grievance processes; immigration and migration; justice and the media; juvenile justice; law and society; legal studies; organizational theory and behavior; police; political deviance; program evaluation; race, gender and class; social control and conflict; social movements; social policy;
victimization; white collar and corporate deviance; workplace inequality; and world systems.

JUSTICE STUDIES (JUS)

JUS 500 Justice Research Methods. (3) A
Theories and methods of research with emphasis on development of designs most relevant to justice data and problems.

JUS 501 Justice Theory. (3) A
Theories and philosophies of social, economic, political and criminal justice. Applications of theories to contemporary justice issues. Lecture, discussion.

JUS 503 Crime and Social Causation. (3) A
Theories of deviance and crime as they relate to social policies and specific response of the justice complex.

JUS 509 Statistical Problems in Justice Research. (3) A
Methodological problems of research design and statistical methods specific to justice studies.

JUS 510 Understanding the Offender. (3) A
Survey of learning, personality, and biological theories of causation and their relevance to understanding criminal and delinquent behavior.

JUS 514 Justice Policy. (3) A
Assessment of the politics of justice policy as well as an understanding of the basic tools available to social scientists for analyzing the formulation, implementation, and evaluation of justice policy.

JUS 515 Comparative Justice. (3) A
Focuses on justice, legality, and human rights cross-culturally, examining both theoretical and methodological issues. Seminar.

JUS 520 Qualitative Theory and Data Collection. (3) A
The basic theoretical rationale and perspectives for justice related qualitative research, e.g., symbolic interactionism. Techniques for data collection, e.g., ethnography and depth interviewing.

JUS 521 Qualitative Data Analysis and Evaluation. (3) A
Analysis of qualitative data, e.g., field notes, depth interview transcripts, document analysis, coding, and retrieval with a microcomputer; qualitative evaluation.

JUS 542 American Indian Justice. (3) A
Designed to provide a broad overview of American Indian and Alaskan Native issues of justice and injustice in contemporary society.

JUS 547 Program Evaluation. (3) A
Nature/role of program evaluation: types, program monitoring, impact and process assessment, evaluability assessment, methods, utilization, and politics of evaluation. Lecture, lab. Pre- or corequisite: JUS 500 recommended.

JUS 550 Alternatives to Incarceration. (3) A
Investigation of various alternatives to incarceration; advantages/disadvantages; major issues including net widening, cost effectiveness, risk assessment, community crime prevention. Lecture, research.

JUS 560 Women, Law, and Social Control. (3) A
Gender issues in the exercise of formal and informal mechanisms of social control, including economic, social, legal factors, both violent and nonviolent.

JUS 570 Juvenile Delinquency. (3) A
Study of delinquency, including causation theories. Alternative definitions of delinquency, official statistics, and the critique and analysis of the interaction between social institutions and youth.

JUS 571 Juvenile Justice System. (3) A
Graduate-level introduction to juvenile justice system, including historical development, philosophical orientation, organizational structure, and contemporary controversies.

JUS 579 Political Deviance. (3) A
The seminar examines the politics of deviance by integrating the study of conflict with aspects of social organization, especially state formation.

JUS 584 Internship. (3 or 6) F, S, SS
Assignments in a justice agency designed to further the student’s integration of theory and practice. Placements are arranged through consultation with students and agencies.

JUS 586 Justice and the Mass Media. (3) A
An analysis of the nature and impact of mass media messages about justice concerns for social order. Lecture, discussion.

JUS 591 Seminar. (1–3) A
Topics chosen from various fields of justice studies. May be repeated for credit.

JUS 593 Applied Project. (1–12) N

JUS 610 Law and the Social Sciences. (3) A
Analysis of the theoretical grounds underlying diverse studies of law and society; creation and administration of law, and jurisprudence and politics.

JUS 620 Justice Research and Methods. (3) A
Concept development, research design, data collection strategies, legal research, and building computer databases relevant to the study of justice.

JUS 630 Data Analysis for Justice Research. (3) A
Bivariate and multivariate techniques of data analysis and hypothesis testing for justice-related research and use of information and statistical programs.

JUS 640 Theoretical Perspectives on Justice. (3) A
Analysis of philosophical perspectives of justice; linkages between social science theory and justice constructs; application of justice to social issues.

JUS 650 Advanced Qualitative Data Analysis. (3) S
Advanced qualitative data collection and analysis techniques, including ethnography, in-depth interviews, field notes, coding, transcribing, content analysis, textual analysis. Seminar.

JUS 669 Political Trials and Indigenous Justice. (3) A
Focuses upon research on political trials, deviance, and conceptions of indigenous and contemporary justice. Lecture, discussion.

JUS 691 Seminar. (1–3) F, S, SS
Topics chosen from various fields of justice studies. May be repeated for credit.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

The Committee on Law and the Social Sciences (COLASS) offers an interdisciplinary graduate program leading to the Ph.D. degree in Justice Studies. Faculty are from a large number of academic units and provide the students with an opportunity to tailor their courses of study to fit individual needs and goals. COLASS committee members represent the following departments: Anthropology, Communication, Economics, Languages and Literatures, History, Management, Philosophy, Political Science, Psychology, Recreation Management and Tourism, Religious Studies, Sociology, the College of Law, and the Schools of Justice Studies and Social Work. An executive committee, appointed by the dean of the Graduate College from this larger body of faculty, has the primary responsibility for the operation of the Ph.D. program.

DOCTOR OF PHILOSOPHY

The Ph.D. degree in Justice Studies integrates philosophical, legal, historical, and social science approaches to the study of law and justice in society.

This interdisciplinary program aims to produce scholars whose research activities contribute to the knowledge and understanding of conflicts and dilemmas surrounding social change. Courses on the study of justice are a part of the curriculum of many academic disciplines, and academic books and journals increasingly stress issues of justice and injustice. In addition to the interdisciplinary programs featuring justice, students may enter academic programs that focus on gender, race, ecology, class, law, and public and business administration. Justice Studies graduates from the interdisciplinary Ph.D. program have a strong theoretical background, interdisciplinary training in law, humanities, and the social sciences, and possess the technical skills associated with both qualitative and quantitative research methodologies. These qualifications can provide graduates with the opportunity to successfully compete for a variety of positions in academic and justice-related fields.

Admission. Applications are reviewed on an annual basis by an admissions committee representing COLASS. Recommendations for admission are made by the director of the Executive Committee to the dean of the Graduate College. In addition to meeting minimum Graduate College admission requirements, each applicant must provide a statement of educational and career goals and the reasons for seeking the interdisciplinary Ph.D. in Justice Studies, a Graduate Record Examination test score or the Law School Admission Test score, a sample of written work, and three letters of recommendation, preferably from academic referees. Application to the program may be made at anytime. However, complete files must be submitted to the Graduate College by January 1 for the following fall semester. Because of enrollment limits, candidates who meet minimum requirements cannot automatically be admitted.

Advisory Committee. An advisory committee consisting of the committee chairperson and at least two other members, must represent a minimum of two disciplines and be from two different academic units. The dean of the Graduate College, upon the recommendation of the director of COLASS, appoints this committee. The advisory committee assists the students in developing programs of study, assumes primary responsibility for assessing the students’ academic progress, and prepares and evaluates the comprehensive examination.

Core Courses. Five core courses are required of all students in the program. The core courses are taken within the first three semesters of the student’s program of study. Each core course is interdisciplinary in nature. The core courses are as follows:

Areas of Concentration. Students use elective courses to develop a specialization in an area relevant to justice studies from a law and social sciences perspective. The specialization is developed through consultation with the student’s advisory committee. Five areas of concentration have been established, based on the research and teaching expertise of participating faculty. These formalized concentrations are:

1. criminal and juvenile justice;
2. dispute resolution;
3. law, justice, and minority populations;
4. law, policy, and evaluation; and
5. women, law, and justice.

From these broad concentrations, students can develop areas of study emphasizing:
1. adolescence and justice;
2. American Indian justice;
3. comparative justice;
4. crime and justice;
5. dispute resolution;
6. gender and justice;
7. law, ecology, and society;
8. law, policy, and evaluation;
9. race, ethnicity, and justice; and
10. social and economic justice.

Students may develop other areas of study in consultation with their advisory committee. Courses are not limited to those departments and schools participating in the Committee on Law and Social Sciences.

Program of Study. Students entering the program with a master’s degree in the social sciences, philosophy, a relevant interdisciplinary field, or a Juris Doctorate (J.D.), must complete a minimum of 54 semester hours of study beyond the master’s or J.D. degree, including 24 semester hours of dissertation and research. Applicants holding only the baccalaureate degree are required to complete a total of 84 semester hours. At least 30 hours of the 84 semester hours on the approved Ph.D. program of study must be completed after admission into the program. The Graduate College also requires that two consecutive semesters, subsequent to admission to the program, must be spent in full-time residence at ASU.

Foreign Language Requirements. None.

Comprehensive Examinations. Upon completion of course work and before the start of dissertation research, the student is given a written examination. The examination evaluates the student’s accumulation of interdisciplinary knowledge and ability to communicate across disciplines. The exam is developed and administered by the student’s advisory committee.

Dissertation Committee. After passing the comprehensive examination, a dissertation committee is formed and approved by the dean of the Graduate College upon the recommendation of the director of the executive committee. The dissertation committee must consist of at least three faculty members, including the dissertation committee chairperson. The committee must represent an interdisciplinary faculty, with demonstrated interdisciplinary knowledge and skills to advise the student during the formulation of the research topic and during the completion of the research and dissertation. The three-membered committee must represent at least two disciplines and two different academic units. The dissertation and advisory committees may have different memberships.

Advancement to Candidacy. Ph.D. students will achieve candidacy status in a letter from the Graduate College dean upon (1) passing the comprehensive examination, and (2) successfully defending the dissertation prospectus.

Dissertation Requirements. The dissertation consists of a fully documented written analysis demonstrating an appropriate level of interdisciplinary skills and competence associated with a justice issue. Each student must register for a minimum of 24 semester hours of dissertation and research; 12 of these semester hours must be completed after candidacy.

Final Examinations. The dissertation must be defended in an oral examination. A candidate must pass the final examination within five years after completing the comprehensive examination.

 Concurrent Ph.D. in Justice Studies/J.D. Degree. The purpose of the concurrent Ph.D. in Justice Studies/J.D. degrees is to provide a rigorous education for highly qualified students interested in pursuing academic careers in law, law and the social sciences, or law and philosophy. In order to seek concurrent degrees, the prospective student must first gain separate admission to the College of Law and the interdisciplinary Ph.D. program in Justice Studies. The student must then obtain special approval to pursue concurrently the J.D. and Ph.D. degrees. No more than three students per year are admitted into the concurrent degree program.

RESEARCH ACTIVITY

The Committee on Law and Social Sciences (COLASS) faculty are engaged in a variety of research activities. Faculty research interests are as follows: alternative organizations and social services; American and European women’s history; American and European women’s history; American Indian repatriation; bureaucratic power; comparative legal studies; corporate crime; corrections, including privatization and alternatives; domestic violence; ecological justice; economic models of crime; educational reforms for inner city schools; environmental law; environmental racism; ethics theory; European social institutions; feminist theories; gender and sexuality; gender and justice; indigenous law; informal justice and dispute resolution; international law; judicial administration; judicial behavior; jurisprudence; justice for the physically challenged; justice and minority populations; juvenile justice and law; juveniles and status offenses; law and ecology; law and social control; law and society; logic of policy inquiry; migration and immigration; nature and law; official information and deviance; organizational ethics; philosophy and the law; political deviance; psychology, law, and public policy; race, class, and gender; racism; religion and moral issues; rights of AIDS victims and AIDS educational strategies; rights of older adults; services equity; social inequality and ethnicity; social theory; women and crime; women and work; and world system’s theory.

The faculty in the Department of Languages and Literatures offer graduate programs leading to the M.A. degree in French, German, and Spanish. Concentrations are available in the following areas:

1. comparative literature (in cooperation with the faculty in the Department of English),
2. language and culture,
3. linguistics (in Spanish only), and
4. literature.

Students admitted to the Master of Education degree program in Secondary Education may elect foreign languages as the subject matter field. See “Master of Education,” page 180, for information on the Master of Education degree.

The faculty also offer a graduate program leading to the Ph.D. degree in Spanish. See “Doctor of Philosophy,” page 104, for general requirements.

It is recommended, but not required, that students applying for admission to the M.A., M.Ed., or Ph.D. program submit scores on the Graduate Record Examination.

The department also offers a certificate in Translation. For more information, see the General Catalog or contact the department for a brochure.

MASTER OF ARTS

Candidates for the M.A. degree should, upon entrance, present the equivalent of an undergraduate major in the language in which the degree is sought. Those who lack this background, but who show strong potential and meet Graduate College admissions requirements, may be admitted to a graduate program on a provisional basis, pending removal of specified deficiencies. These deficiencies must be completed in addition to the regular program of study for the master’s degree.

Students in all graduate programs are expected to maintain a high level of linguistic fluency acceptable to a native speaker. Before acceptance in the program, applicants may be requested to furnish evidence of their proficiency.

The program of study for the M.A. degree includes a minimum of 30 semester hours of graduate-level work, as approved by the candidate’s supervisory committee. The program must include a 500-level Bibliography and Research Methods course offered by the department. It is recommended that the course be taken, if possible, in the first semester of the candidate’s graduate career. (Students in the Spanish program [literature concentration] also are required to enroll in SPA 545 Concepts of Literary Criticism.) When approved by the candidate’s supervisory committee, nine hours in another language or in closely related courses may be included in the program.

Students pursuing their graduate studies in a program with a concentration in literature, comparative literature, or linguistics present an acceptable thesis for which six hours of credit are granted.

Students who are primarily interested in teaching on the secondary or community college levels may select, with the approval of the supervisory committee, a program of study with a concentration in language and culture. Students in this program present a thesis for which six hours of credit are granted.

Comprehensive Examinations. All candidates are required to pass a comprehensive written or oral examination designed to evaluate the candidate’s knowledge in the area of specialization. A reading list is provided as a guide to preparation for this examination.

Thesis Requirements. A thesis is required.

Final Examinations. A final oral examination in defense of the thesis is required.

DOCTOR OF PHILOSOPHY

The Ph.D. degree is offered with a major in Spanish.

Program of Study. The student’s individual program of courses covering the various periods of Spanish and Latin American literature, as well as the historical and political background of both areas, is determined in consultation with the supervisory committee. Specifically required are SPA 500 Bibliography and Research Methods, SPA 540
History of the Spanish Language, and SPA 545 Concepts of Literary Criticism.

At least 15 graduate credits must be earned in the subfield, and the candidate’s program of study in the subfield must be approved by the subfield department. Normally the comprehensive examination on the subfield, administered by the subfield department, must be satisfied before the comprehensive in Spanish. Students are urged to consult the *Handbook for Spanish Graduate Students*.

**Foreign Language Requirements.** Each candidate is expected to demonstrate a reading knowledge of two languages other than Spanish. The language requirements must be satisfied before the candidate is eligible to take the comprehensive examination.

**Comprehensive Examinations.** A written and oral comprehensive examination, designed to ascertain the candidate’s knowledge and orientation in the field of study and competency to proceed with the dissertation, is required at or near the end of course work.

**Dissertation Requirements.** The candidate must present an acceptable dissertation based on original investigation. The dissertation must represent a significant contribution to knowledge and demonstrate the candidate’s ability to do independent, scholarly research.

**Final Examinations.** A final oral examination is required. This examination covers the subject matter of the dissertation and appropriate field.

This Hispanic Research Center mural, located in the Center for Family Studies building, depicts the myth surrounding the founding of what is now Mexico City.

Tim Trumble photo
RESEARCH ACTIVITY

Commitment to professional research in the Department of Languages and Literatures is evidenced by the large number of faculty publications and conference papers. Faculty members are engaged in editorial work for scholarly presses and journals. The Bilingual Press is now based at the university. The ASU Library collection has extensive holdings in all the fields of foreign languages. Both faculty and students have access to computer aids for research. In addition, the Latin American Studies Center coordinates Latin American research programs for faculty and students involved in Latin American research. The Hispanic Research Center focuses on the Spanish-speaking population of the U.S. Faculty in American research. The Hispanic Research Center focuses on the Spanish-speaking population of the U.S. Faculty in all Romance languages are active in the Arizona Center for Medieval and Renaissance Studies, the Interdisciplinary Humanities Program, and the Interdisciplinary Committee on Linguistics.

Specific topics of faculty research are described below.

French. In addition to the presentation of the general range of French and Francophone civilization, language, and literature, faculty members are engaged in research projects on the following topics: interpretation; literary translation; stylistics; critical text and textbook preparation; the chanson de geste; medieval lyric poetry; Renaissance narrative (Rabelais, Marguerite de Navarre); classical aesthetics; the Philosophical Tale; the relationship of 19th-century literature, art, music, and criticism; the contemporary novel; Roman authors in France; French African and French Canadian narrative; sociolinguistics and French syntax; 18th-century literature; philosophical approaches to literature and autobiography; French women in literature and art; French and Francophone film.

German. In addition to general coverage of German literary topics, faculty members are engaged in research on the following topics: literary theory and stylistics, Old Norse, the Baroque novel and drama, the epoch of Goethe and Schiller, Romanticism, Austrian literature, individual figures such as Kleist and Kafka, and women’s role in German literature.

Spanish. In addition to broad coverage of Spanish and Spanish-American literary topics, particular regional emphases include topics in Chicano literature, literary translation, Hispanic literary bibliography, literary theory, Argentine narrative, contemporary Spanish poetry, Hispanic women writers, Latin American popular culture, prose narrative of the Golden Age, contemporary Spanish and Spanish-American theatre, Hispanic linguistics and bilingualism/sociolinguistics, and various topics in Brazilian literature.

FOREIGN LANGUAGES (FLA)

FLA 515 Second Language Acquisition. (3) S Discussion and application of theories of second language acquisition. Prerequisite: FLA 400 or equivalent.

FLA 525 Trends and Issues in Foreign Language Teaching. (3) N Advanced methods seminar, designed for experienced teachers.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

FRENCH (FRE)

FRE 416 French Civilization II. (3) S Political, intellectual, social, economic, and artistic development of France from the 18th century to present. Prerequisite: 6 hours of upper-division French. General Studies: HU, G.

FRE 421 Structure of French. (3) F Phonology, morphology, syntax, semantics, and varieties of French. Prerequisites: FRE 311 and 312 or instructor approval.

FRE 422 Applied French Linguistics. (3) S Application of linguistic theory and second language acquisition theory to teaching of French. Prerequisite: ASB 480 or ENGL 213 or FLA 400.

FRE 423 French Syntax. (3) F The analysis of French syntactic structure by contemporary theoretical models. Prerequisite: ASB 480 or ENGL 213 or FLA 400.

FRE 424 French Phonology. (3) S Introduction to phonological theory and its application to French. Prerequisites: FRE 311 and 312 or instructor approval.

FRE 441 French Literature of the 17th Century. (3) N From 1660 to 1680. Prerequisite: 9 hours of 300-level French, including FRE 321 or instructor approval. General Studies: HU.

FRE 442 French Literature of the 17th Century. (3) N From 1660 to 1700. Prerequisite: 9 hours of 300-level French, including FRE 321 or instructor approval. General Studies: HU, H.

FRE 444 French Literature of the 18th Century. (3) N Contributions of the philosophers and the development of the novel and drama. Prerequisite: 9 hours of 300-level French, including FRE 321 or instructor approval. General Studies: L/HU.

FRE 451 French Poetry of the 19th Century. (3) N From Romanticism to Parnassian poetry to Symbolism. Prerequisite: 9 hours of 300-level French, including FRE 322 or instructor approval.

FRE 452 French Novel of the 19th Century. (3) N From Constant, Hugo, Balzac, Stendhal, and Sand to Flaubert and Zola, with emphasis on major literary movements. Prerequisite: 9 hours of 300-level French, including FRE 322 or instructor approval. General Studies: HU.

FRE 453 Theater of the 19th Century. (3) N From Romantic drama to the Symbolist Theater. Representative plays of Hugo, Musset, Vigny, Dumas, Becque, Rostand, Feydeau, and Mirabeau. Prerequisite: 9 hours of 300-level French, including FRE 322 or instructor approval. General Studies: L/HU.

FRE 455 Preatomic Literature. (3) F Representative authors from Proust and Maupassant to Sartre from 1900 to 1945. Prerequisite: 9 hours of 300-level French, including FRE 322 or instructor approval. General Studies: HU.

FRE 456 Postatomic Literature. (3) S Representative authors including Camus, Duras, and Robbe-Grillet from 1945 to present. Prerequisite: 9 hours of 300-level French, including FRE 322 or instructor approval. General Studies: HU.

FRE 471 The Literature of Francophone Africa and the Caribbean. (3) N Selected prose, poetry, and drama of black authors from Africa and the Caribbean. Prerequisite: 9 hours of 300-level French, including FRE 322 or instructor approval. General Studies: HU.

FRE 472 Franco-Canadian Civilization. (3) S A study of the civilization of Quebec in particular through its history, language, literature, music, and customs. Prerequisite: 9 hours of 300-level French or instructor approval.

FRE 500 Bibliography and Research Methods. (3) F Required of all graduate students.

FRE 510 Explication de Textes. (3) N Detailed analysis of literary texts.

FRE 515 Intellectual Currents in France, from the Middle Ages to the 18th Century. (3) N Significant social, aesthetic, philosophic, and scientific ideas as presented by major writers of fiction and nonfiction.

FRE 516 Intellectual Currents in France, from the 19th Century to the 20th Century. (3) N See FRE 515.

FRE 521 History of the French Language. (3) N Principal phonological, morphological, and semantic developments of French from Latin to present, with emphasis on old and middle French. Some familiarity with Latin is recommended.
GER 521 History of German Language. (3) F
Readings in the epics, early drama, roman courtios, and other representative literary genres of the Middle Ages.

GER 535 French Literature of the 16th Century. (3) S
Readings in French Renaissance literature with special attention to the humanist movement and to Rabelais, Montaigne, and the Pleiade.

GER 591 Seminar. (3) N
Topics may be selected from the following:
(a) Advanced Problems in French Literature
(b) Balzac
(c) Corneille, Molière, and Racine
(d) Diderot, Voltaire, and Rousseau
(e) Flaubert
(f) French Existentialist Literature
(g) French Literary Criticism
(h) Proust
(i) Realism and Naturalism
(j) Romanticism
(k) Stendhal and Zola

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

GERMAN (GER)

GER 421 German Literature. (3) F
From the beginning to classicism. Prerequisite: 6 hours of 300-level German. General Studies: HU.

GER 422 German Literature. (3) S
From Romanticism to the present. Prerequisite: 6 hours of 300-level German. General Studies: LI/HU.

GER 453 German Literary Masterpieces on Film. (3) F, S, SS
Film and literature in their correlation to each other and to cultural, political, and social trends in German-speaking countries. Special arrangements for graduate students and those without a knowledge of German. Lecture, discussion. General Studies: HU, G, H.

GER 500 Bibliography and Research Methods. (3) N
Required of all graduate students.

GER 511 German Stylistics. (3) N
Art of writing literary German, comparative stylistics.

GER 521 History of German Language. (3) N
Linguistic development of German from the earliest records to the present.

GER 523 German Drama. (3) N
Drama of the 19th and 20th centuries.

GER 525 German Novel. (3) N
Special studies in the German novel.

GER 527 The Novel. (3) N
Special studies in the German short story.

GER 531 Middle High German Language and Literature. (3) N
Reading and discussion of specimens of the Middle High German epics, romances, and other literary genres.

GER 551 Romanticism. (3) N
Treatment of early and late Romanticism.

GER 555 Modern German Literature. (3) N
Major works from the period of Expressionism to 1945.

GER 591 Seminar. (3) N
Special topics are concerned with a figure, theme, or work in German literature or Germanic studies. Topics may be selected from the following:
(a) Faust
(b) Germanic Studies
(c) Goethe
(d) Grass and Bbll
(e) Hesse
(f) Kafka
(g) Kleist
(h) Schiller

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

SPANISH (SPA)

SPA 500 Bibliography and Research Methods. (3) F
Required of all graduate students.

SPA 536 Generation of 1898. (3) N
Works of Unamuno, Baroja, Azorin, and their contemporaries, studied against the ideological background of the turn of century in Spain. Prerequisite: SPA 325.

SPA 540 History of the Spanish Language. (3) S
Analysis and discussion of the development of Spanish from Vulgar Latin to the present day. Prerequisite: FLA 400 or equivalent.

SPA 541 Spanish Language in America. (3) F
Discussion and analysis of various regional and social varieties of Spanish in the Americas. Prerequisite: FLA 400 or equivalent.

SPA 542 Studies in the Spanish of the Southwest. (3) S
Examination of bilingualism and the social and regional dialects of Spanish in the Southwest. Prerequisite: FLA 400 or equivalent.

SPA 543 Structure of Spanish. (3) S
Analysis and discussion of data on selected topics in Spanish morphology, semantics, and syntax. Prerequisite: FLA 400 or equivalent.

SPA 545 Concepts of Literary Criticism. (3) S
Aims and methods of modern literary scholarship. Discussion of major theories of literary analysis.

SPA 555 Spanish American Modernism. (3) N
Principal works and figures of literary Modernism, 1860–1920, with emphasis on international literary context of the movement. Prerequisite: SPA 325.

SPA 557 Contemporary Spanish American Poetry. (3) N
Major works and problems in contemporary poetry and poetics, with emphasis on Paz, Parra, Cardenal, and new poetry since 1960. Prerequisite: SPA 325.

SPA 560 Medieval Spanish Literature. (3) N
Major figures and works of the Middle Ages in Spain.

SPA 561 Golden Age Spanish Prose Fiction. (3) N
Major figures and works of the 16th and 17th centuries, with emphasis on the picaresque novel.

SPA 562 Golden Age Spanish Poetry. (3) N
Major figures and works of the 16th and 17th centuries, with emphasis on lyric poetry.

SPA 563 Spanish Romanticism. (3) N
Principal figures and works of the Spanish Romanticism, with emphasis on international literary context of the movement.

SPA 564 19th-Century Spanish Prose Fiction. (3) N
Principal figures and works of Realism in the 19th-century novel, with emphasis on Galdós.

SPA 565 20th-Century Spanish Drama. (3) N
Principal figures and works of Spanish dramatic literature from the Generation of 1898 to the present.

SPA 566 Generation of 1927. (3) N
Major poets of the Generation of 1927, with emphasis on works of Lorca, Guíllen, Salinas, and Aleixandre.

SPA 567 Contemporary Spanish Novel. (3) N
Major works of post-Civil War Spanish fiction.

SPA 568 Cervantes. (3) N
An extensive analysis of the prose and theater of Cervantes as a key figure of the Spanish Golden Age. Lecture, seminar.

SPA 570 Indigenous Literatures of Spanish America. (3) N
The indigenous literary traditions, with emphasis on Nahuatl, Mayan, and Quechua literatures through readings in Spanish translations.

SPA 571 Colonial Spanish American Literature. (3) N
The major figures and works from Conquest to Independence.

SPA 572 Spanish American Drama. (3) N
Major contributions of Spanish American drama, with emphasis on contemporary dramatists.

SPA 573 Spanish American Essay. (3) N
Major works of the essay, within the framework of intellectual history and literary movements.

SPA 574 Spanish American Vanguard Poetry. (3) N
Examination of poetic developments, 1920–1940, with emphasis on Huidobro, Vallejo, Neruda, and the international context of their works.

SPA 575 Contemporary Spanish American Novel. (3) N
Principal novels of the Nueva Narrativa Hispanoamericana, within the context of contemporary theories of the narrative.

SPA 576 Contemporary Spanish American Short Story. (3) N
Principal short stories of the Nueva Narrativa Hispanoamericana, within the context of contemporary theories of the narrative.
SPA 577 Regional Spanish American Literature, (3) N
The figures and works of major national (Peru, Argentina, Chile, and Mexico) and regional (Caribbean) literatures. Topics offered on a rotating basis. May be repeated for different topics.

SPA 578 Novel of the Mexican Revolution, (3) N
Representative works and authors of this genre (Guzmán, Azuela, Urquizo, Muñoz, and Romero), including related or peripheral offshoots in indigenous novels.

SPA 581 Latin American Popular Culture, (3) N
Studies in selected topics of Latin American popular culture, with emphasis on appropriate academic models for the critical analysis of these materials.

SPA 582 Studies in Latin American Film, (3) N
Examination of the role of film in contemporary Latin American culture; films viewed and analyzed as casebook examples. Seminar.

SPA 591 Seminar, (3) N
Spanish and Spanish American literary, cultural, and linguistic topics.

SPA 691 Figures and Works Seminar, (3) N
Topics may be selected from Spanish and Spanish American literatures.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

For more information about the College of Law programs, see “College of Law,” page 82.

LAW 515 Contracts I, (3) F
Exploration of common law legal method and the structure of Article 2 of the U.C.C. in the context of issues of contract formation.

LAW 516 Criminal Law, (3) F
The substantive law of crimes.

LAW 517 Torts I, (3) F
Legal protections of personality, property, and relational interests against physical, economic, and emotional harms.

LAW 518 Civil Procedure I, (3) F
Exploration of the structure of a lawsuit and techniques of alternative dispute resolution. Specific topics include commencement of suit, joinder of parties, discovery, pretrial motions, and subject matter jurisdiction.

LAW 519 Legal Method and Writing, (2) F
Examination of methods used to analyze legal problems. Review of precedent statutory construction and basic res judicata problems. Use of basic legal writing formats.

LAW 520 Contracts II, (2) S
Continuation of Contracts I focusing on contract interpretation.

LAW 522 Constitutional Law I, (3) S
Role of courts in the federal system, distribution of powers between state and federal governments, and the role of procedure in litigation of constitutional questions.

LAW 523 Property I, (2) F
Indicia of ownership, found property, estates in land, landlord tenant.

LAW 524 Legal Research and Writing, (2) S
Continuation of LAW 519.

LAW 525 Torts II, (2) S
Continuation of Torts I with emphasis on strict and products liability.

LAW 526 Property II, (3) S
Nonpossessory interests in property (easements, covenants, servitudes), nuisance, land use planning, and transfers of interests in property.

LAW 527 Civil Procedure II, (3) S
Continuation of LAW 518; subjects in LAW 518 are addressed in greater depth as well as personal jurisdiction, res judicata, collateral estoppel, and choice of law under the Erie doctrine.

LAW 600 Administrative Law, (3) A
Administrative process, emphasizing nature of powers exercised by administrative agencies of government, problems of procedure, and scope of judicial review.

LAW 601 Antitrust Law, (3) A
Legislation and its implementation to prevent monopoly and business practices in restraint of trade, including restrictive agreements involving price-fixing, trade association activities, and resale price maintenance.

LAW 602 Partnership Taxation, (2–3) N
Federal tax consequences of forming, operating, terminating, or transferring partnerships.

LAW 603 Conflict of Laws, (3) N
Problems arising when the operative facts of a case are connected with more than one state or nation. Choice of law, bases of jurisdiction, effect of foreign judgments, and underlying federal and constitutional issues.

LAW 604 Criminal Procedure, (3) F, S
The nature of the criminal procedural system with special focus on constitutional protections for the accused.

LAW 605 Evidence, (3) A
Principles and practice governing the competency of witnesses and presentation of evidence, including the rules of exclusion and roles of lawyer, judge, and jury under the adversary system.

LAW 606 Federal Income Taxation, (3–4) F, S
Federal income tax in relation to concepts of income, property arrangement, business activity, and current tax problems, with focus on the process of tax legislation and administration.

LAW 607 Advanced Civil Procedure, (3) F, S
LAW 608 Business Associations I. (3) A
Partnerships, limited partnerships, and small business corporations.
Includes a brief introduction to accounting. Detailed analysis of the problems of forming a close corporation, state law duties of care and loyalty, management, dividends and redemptions, issuance of stock, internal dispute resolution, dissolution, and the general law of derivative actions.

LAW 609 Business Associations II. (3) A
Interrelationship of federal and state law and a brief introduction to corporate finance (1933 Act). A broad overview of large company regulations including reporting rules, proxy regulation, insider trading, sale of control, tender offers and takeovers, and going private. Prerequisite: LAW 608.

LAW 610 Advanced Criminal Procedure. (2–3) A
Topics in criminal procedure, with emphasis on legal constraints on grand jury investigations, police practices, pretrial release, preliminary hearings, prosecutorial discretion, and plea bargaining.

LAW 611 Estate Planning I. (2–3) N
Tax laws relating to transfer of wealth both at death and during lifetime, including federal estate tax, gift tax, and income taxation of estates and trusts.

LAW 612 Family Law. (3) A
Legal and nonlegal problems that an individual may encounter because of a situation as a family member.

LAW 613 Federal Courts. (3) N
Federal judicial system; relationship of federal and state law; jurisdiction of federal courts and their relation to state courts.

LAW 614 Labor Relations. (3) N
Collective bargaining, including the right of employees to organize and to engage in concerted activities; resolution of questions concerning the representation of employees; duty of employers and unions to bargain; administration and enforcement of collective bargaining agreements.

LAW 615 Public International Law. (3) A
Role of law in international disputes. Drafting and interpretation of treaties and multilateral conventions are considered.

LAW 616 Jurisprudence. (3) A
Introduction to legal philosophy, with readings on the nature of law and legal reasoning, the relationship between law and morality and equality and social justice.

LAW 618 Trusts and Estates I. (3) A
Substantive concepts involved in transmitting wealth, including inter vivos succession, wills and will substitutes, the modern trust as a family protective device, creation of future interests in a planned estate, social restrictions of a nontax nature, and methods of devoting property to charitable purposes.

LAW 619 Commercial Law: Payment and Credit Systems. (3) F, S
The law of credit obligations and payment devices. Focuses on Articles 3, 4, and 4A of the Uniform Commercial Code.

LAW 620 Civil Rights Legislation. (2–3) N
Coverage of the rights and remedies provided by federal civil rights legislation, principally, the key provisions of the Reconstruction Era Civil Rights Acts, portions of the employment discrimination legislation, and voting rights legislation.

LAW 621 Commercial Law: Sales and Leases of Goods. (3) S
Advanced issues involving the formation and interpretation of sales and lease contracts. Focuses primarily on Articles 2 and 2A of the Uniform Commercial Code.

LAW 622 Commercial Law: Secured Transactions. (3) A
Secured transactions under Article 9 of the Uniform Commercial Code and other relevant sections. An overview of the creation, perfection, and priority effects of security interests. Financing of business enterprise and consumer credit.

LAW 623 Commercial Torts. (3) A
Involves an analysis of actionable wrongs against a business entity or against proprietary rights held by that entity, covering the entire spectrum of private remedies for competitive wrongs.

LAW 624 Community Property. (1–2) F, S
Property rights of husband and wife; the Arizona community property system; homestead.

LAW 625 Constitutional Law II. (3) F, S
Fundamental protection for person, property, political, and social rights.

LAW 627 Corporate Taxation. (2–3) A
Problems in taxability of the corporation, corporate distributions, and corporate reorganizations.

LAW 628 Creditor-Debtor Relations. (3) A
Creditors’ remedies in satisfaction of claims and debtors’ protection and relief under bankruptcy, other laws.

LAW 629 Employment Law. (3) A
Employment law topics including testing, privacy, OSHA, FLSA, benefits, worker’s compensation, rights to compensation, workplace emotional injuries, termination, and sexual harassment.

LAW 630 Employment Discrimination. (2–3) N
Focuses primarily on Title VII of the Civil Rights Act of 1964, the Age Discrimination in Employment Act, and the Americans with Disabilities Act.

LAW 631 Environmental Law. (3) A
Loyalty, administrative law, and legislation relating to problems of environmental quality. Topics covered may include air and water pollution, toxic substances, pesticides, and radiation.

LAW 632 Indian Law. (3) A
Inquiry into legal problems special to American Indians and tribes.

LAW 634 Judicial Remedies. (3) A
The nature and limits of injunctive, restitutionary, and compensatory remedies for the protection of personal, property, political, and civil rights.

LAW 635 Juvenile Justice System. (3) N
Special problems in the juvenile system.

LAW 636 Land Use Regulation. (2–3) A
Legal problems in the regulation and control of land development by state and local governments. Administration of zoning, subdivision, and other planning controls; issues of fairness and procedure in the utilization of such controls.

LAW 637 Lawyering Theory and Practice. (4) F, S
Issues of competency and professionalism in the practice of law.

LAW 638 Law and Ethics of Lawyering. (3) F, S
Emphasis on the Model Rules and Model Code that govern the professional responsibility of lawyers and their interpretation and application.

LAW 639 Natural Resource Law. (3) A
Examines the constitutional basis for federal land management and the different kinds of public lands management schemes (e.g., parks, forests, wildlife refuges), emphasizing acquisition of right to, and regulation of, the different uses of public lands and resources (e.g., mining, grazing, timber, wildlife habitat, recreation).

LAW 640 Securities Regulation. (2) A
Selected problems arising under the major statutes concerned with regulating the securities market.

LAW 641 State and Local Government. (2–3) N
Legal problems involved in the organization and administration of governmental units including the city, county, town, village, school district, and special district.

LAW 643 Water Law. (3) A
Acquisition of water rights; water use controls; interstate conflicts.

LAW 644 Intellectual Property. (3) A
The protection of intellectual property and encouragement of creativity—trade values, trade secrets, patents, copyrights, performing arts, and visual arts.

LAW 645 Patent Law. (3) A
In-depth examination of substantive patent law as it applies to the commercialization and enforcement of patent rights.

LAW 646 Copyright Law. (3) A
Legal rights in original forms of human expression.

LAW 702 Alternative Dispute Resolution. (2–3) A
A broad exposure to methods of settling disputes in our society such as mediation, arbitration/conciliation, and negotiation, including examination of the current litigation model.

LAW 703 Law, Science, and Technology. (2–3) A
The legal mechanisms used in dealing with various issues raised by contemporary science and technology. Current legal responses to science and technology are explored.

LAW 705 Media Law. (2–3) A
Examines First Amendment principles and statutory and regulatory requirements with respect to the conventional print and broadcast media, as well as recent technologies such as cable.
LAW 706 Immigration Law. (2–3) N
Exploration of political, economic, social, and legal issues concerning immigration. Specific topics covered include citizenship and naturalization, denaturalization, deportation, and refugee rights and asylum.

LAW 707 Elder Law. (2–3) A
looks at legal and policy questions related to aging individuals and an older society. Seminar.

LAW 708 Gender, Sexuality, and the Law. (2–3) A
Examines assumptions made in the law about gender and sexuality and the impact of those assumptions on the application of the law. Seminar.

LAW 709 International Human Rights. (2–3) N
International rules and procedures governing the protection of human rights.

LAW 710 Real Estate Tax Planning. (2–3) A
Discussion of topics, including but not limited to real estate investments as tax shelters, alternative acquisition finance devices, refinancing techniques, and nontaxable exchanges.

LAW 711 Real Estate Transfer. (2–3) A
An examination of the legal aspects of the sale and purchase of real property encompassing three areas: the role of the lawyer and broker in the transaction, the sales contract, and issues relating to title protection.

LAW 712 Religion and the Constitution. (2–3) A
An in-depth study of the “establishment” and “free exercise” clauses of the First Amendment to the U.S. Constitution.

LAW 714 Law and Social Science. (2–3) N
Investigation of the use of social science research and methods in the legal system. Topics include psychology of eyewitness identification, social-psychological studies of decision making, statistical evidence of discrimination, econometric studies of the deterrent effects of capital punishment, and clinical predictions of violent behavior.

LAW 715 Professional Sports. (2–3) N
Unique legal problems relating to professional sports, including their relationship to antitrust laws, the nature of player contracts, and associated tax problems.

LAW 716 Timber and Range. (2–3) A
Explores legal aspects of environmental controversies surrounding timber cutting and livestock grazing on public lands. Seminar. Prerequisite: LAW 639.

LAW 717 Legislative Process. (2–3) N
Explore both the legal and the practical context within which the legislative process operates with a major component of the course being a legislative drafting project.

LAW 721 Education and the Law. (2–3) N
Current legal problems affecting institutions of higher education, faculty, students, and governing boards.

LAW 722 Mexican Law. (2–3) F
Comparative overview of Mexican law. Poses questions regarding the proper role and function of a legal system. Seminar.

LAW 733 Negotiation, Mediation, and Counseling. (3) A
Explores alternative models of negotiated dispute resolution, as well as the roles of lawyer and client in the negotiation process. Extensive use of simulation exercises.

LAW 734 Products Liability. (2–3) A
Traces the development of products liability law; analyzes the major issues currently confronting the courts in this area. Seminar.

LAW 735 Estate Planning II. (2–3) N
Preparation of actual estate plans and implementing legal documents for a variety of typical private clients. Both tax and nontax elements in preparation of the plans are considered. Prerequisite: LAW 611.

LAW 736 Planning for the Business Client. (2–3) N
Planning transactions involving business organizations with special emphasis on income tax and corporate considerations.

LAW 738 Trial Advocacy. (2–3) F, S
Students confront issues of trial advocacy through simulation of a variety of aspects of trial practice in a mock court setting. Prerequisite: LAW 605.

LAW 745 The Supreme Court. (2–3) A
Intensive examination of selected current decisions of the U.S. Supreme Court.

LAW 766 International Business Transactions. (2–3) N
Problems and policy considerations involved in international trade; tariffs, international monetary controls, and development loans.

LAW 770 Law Journal. (1–3) F, S
Academic credit for successful completion of editorial work by a member of the staff of Arizona State Law Journal; maximum of 5 semester hours.

LAW 771 Jurimetrics Journal. (1–3) F, S
Academic credit for successful completion of editorial work by a member of the staff of the Jurimetrics Journal of Law, Science, and Technology. Studio.

LAW 772 Public Defender Clinic. (1–6) F, S, SS
Placement in the Public Defender Clinic and related classroom component. Prerequisite: LAW 605.

LAW 773 Law School Clinic. (1–6) F, S, SS
Placement in the Law School Clinic and related classroom component. Prerequisite: LAW 605.

LAW 774 Prosecutor Clinic. (1–6) F, S, SS
Placement in Prosecutor Clinic and related classroom component. Prerequisite: LAW 605.

LAW 775 Mediation Clinic. (4) F, S
Study of the mediation process and experience as mediators in cases pending before the justice courts and administrative agencies.

LAW 780 Moot Court. (1–3) F, S
Academic credit for successful completion of work as a member of the Moot Court Board of Directors; maximum of 3 semester hours.

LAW 781 Individual Study. (1–6) F, S, SS
With the approval of a faculty member, a student may research a legal subject of special interest and prepare a paper suitable for publication.

LAW 782 Individual Study. (2) F, S, SS
See LAW 781.

LAW 783 Individual Study. (3) F, S, SS
See LAW 781.

LAW 784 Moot Court Competition. (1–4) F, S
Successful participation and completion of a national moot court competition.

LAW 785 Externship. (1–12) F, S, SS
Supervised practical lawyering in an external placement proposed by the student or established by a sponsoring agency and approved by the College of Law. In addition, an associated academic component is established by the student with a member of the faculty.

LAW 791 Seminar in Law. (1–12) F, S

The faculty in the Division of Psychology in Education offer graduate programs leading to the M.A., Master of Education, and Ph.D. degrees in Learning and Instructional Technology.

The graduate programs leading to a degree in Learning and Instructional Technology prepare students for a variety of positions consistent with their professional goals. Most doctoral graduates of the program accept appointments as university faculty members, training managers in business, industry, and government, or instructional designers in universities and community colleges. Potential employment opportunities for master’s degree graduates include positions as training specialists in business, industry, and government, as educational designers in educational agencies, or as classroom teachers.

Applicants for admission to M.A. and Ph.D. degree programs in Learning and Instructional Technology must submit scores for the Graduate Record Examination (GRE). Master of Education program applicants must submit scores for either the GRE or the Miller Analogies Test.

MASTER OF ARTS

At the master’s level, students may specialize in instructional design and development or training and development. A minimum of 30 semester hours is required for the master’s degree programs.

See “Master’s Degrees,” page 101, for general requirements.

MASTER OF EDUCATION

For information on the Master of Education degree, see “Master of Education,” page 180.

DOCTOR OF PHILOSOPHY

At the doctoral level, students may specialize in one of two concentrations: learning or instructional technology. All application materials should be received at least three months prior to the semester in which the applicant wishes to begin study.

See “Doctor of Philosophy,” page 104, for information on the Ph.D. degree.

RESEARCH ACTIVITY

Faculty maintain an active program of research and development that has been supported with funds from federal agencies and the university. General research areas include investigations dealing with instructional effectiveness and educational motivation. Doctoral students participate actively in research and development activities as an integral part of their degree programs. Learning research includes studies of spatial cognition, organization and memory for prose materials, knowledge structures, the effects of extra-linguistics factors on learning and memory, and training research and evaluation.

LEARNING AND INSTRUCTIONAL TECHNOLOGY (LNT)

LNT 501 Foundations of Educational Technology, (3) F, S  
Introduction to instructional development. An examination of accomplishments and problems in the field.

LNT 502 Design and Development of Instruction, (3) F, S  
Design, development, and formative evaluation of objectives-based instructional materials.

LNT 503 Research Techniques for Instructional Development, (3) F  
Courses for analyzing the effects of alternative instructional practices.

LNT 504 Educational Evaluation, (3) S  
Evaluation procedures in instruction and training.

LNT 510 Essentials of Classroom Learning, (3) F, S, SS  
Theoretical and empirical foundations of learning in the classroom milieu. Critical exposure to research and method in instructional psychology. Cross-listed as EDP 510. Credit is allowed for only EDP 510 or LNT 510.

LNT 520 Development of Technology-Based Interactive Instruction, (3) S  
Procedures for developing effective instructional and training programs for delivery by computer. Lecture, lab. Prerequisite: LNT 502.

LNT 530 Educational Technology and Training, (3) S  
Applications of educational technology to training and performance systems in business and industry. Lecture, lab. Prerequisites: LNT 501, 502, 540.

LNT 540 Theoretical Views of Learning, (3) F, S  
Illustrative experimental and rational foundations; implications for educational practice. Cross-listed as EDP 540. Credit is allowed for only EDP 540 or LNT 540.

LNT 542 The Psychology of Learning and Instruction, (3) S  
Critical review and evaluation of research on learning variables relevant to acquisition and retention of instructional materials. Lab. Cross-listed as EDP 542. Credit is allowed for only EDP 542 or LNT 542.

LNT 545 Foundational Studies in Language and Learning, (3) S  
Historical developments in research relating cognitive models to the instructional process in language learning. Prerequisites: EDP 552; LNT 540 or instructor approval.

LNT 584 Educational Technology Internship, (1-6) F, S, SS  
Prerequisites: LNT 501, 502; instructor approval. Pre- or corequisite: EMC 521.

LNT 780 Advanced Instructional Development, (1-3) S  
Conducting and documenting selected instructional development activities. Prerequisites: LNT 502; instructor approval.

LNT 792 Advanced Instructional Research, (3) F  
Design and execution of instructional research on selected topics. Prerequisites: LNT 503; instructor approval.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.
Admission.

In addition to the general requirements for admission to the Graduate College, the M.M.C. program requires applicants to provide three letters of recommendation (including two from professors in the last unit of study from degree-granting institutions), scores on either the GRE (verbal and quantitative) or the MAT, a biographical sketch that includes all professional media experience, and a 250–500 word statement outlining career aspirations that could be enhanced by admission to the program (the statement is also used as a writing sample). The applicant’s undergraduate GPA, letters of recommendation, test scores, and professional media experience are all considered in the admission process. A TOEFL score of 600 or higher is required of all applicants whose native language is not English. Applicants wishing to enroll for fall semester must have all their application materials submitted by March 1.

Admission Classification.

Applicants who have an undergraduate degree in an area of mass communication, who meet all other requirements, and who receive regular admission may begin in the program in either the fall or spring semester. A two-year program is designed for applicants who have an undergraduate degree in a discipline other than mass communication. The program consists of 45 semester hours. The first-year courses are designed to provide a foundation in journalism and skills and must be taken in prescribed sequence. Some first-semester courses are prerequisites for courses to be taken in subsequent semesters.

Registration.

Registration in courses numbered 500 is limited to students who have been admitted to the M.M.C. program or have approval from the instructor of the class. Non-degree graduate students may not register for 500-level courses in the School of Journalism and Telecommunication during early registration. Undergraduate students wishing to reserve graduate course credit must follow Graduate College guidelines and obtain approval from the director of graduate studies.

Program of Study.

The program consists of 36 semester hours of graduate credit for students with undergraduate degrees in the areas of mass communication. Requirements are as follows:

1. 12 hours of core course work,
2. six to 12 hours of specialization courses,
3. nine to 15 hours of a related area outside the school, and
4. three hours of supervised applied project (MCO 593).

The program consists of 45 semester hours of credit for students with undergraduate degrees in areas other than mass communication. Requirements are as follows:

1. 15 hours of core course work,
2. 12 hours of specialization courses,
3. six hours of mass communication writing skills courses,
4. nine hours of a related area outside the school, and
5. three hours of supervised applied project (MCO 593).

Foreign Language Requirements.

None.

Thesis Requirements.

None.

Final Examinations.

An oral examination in defense of the supervised research or creative project is required.

RESEARCH AND CREATIVE ACTIVITY.

Research activities in the School of Journalism and Telecommunication complement its teaching and service missions. Research interests of faculty are varied. The school encourages inquiry into mass communication problems and issues by drawing upon diverse approaches, including legal, historical, and quantitative methods. Faculty are involved in creative activity and research for both academic and professional publication. Recent and current projects include technological effects on the mass media, effects of U.S. Supreme Court decisions on the mass media, media portrayal of the elderly, perceptions of good news and bad news on television, and media and minorities.

In addition to publications in journals on varied research projects, the following titles of faculty-written books represent a diversity of interest areas: Business Management of Consumer Magazines; Contemporary Sports Reporting; Photojournalism: The Visual Approach; Target: Cancer; The Practice of Newspaper Management: The Gene Age; A “Washington Merry-Go-Round” of Libel Actions; News Writing and Reporting for Today’s Media (editor); Contemporary News Reporting; Visual Editing: A Graphic Guide for Journalists; Symbols, the News Magazines, and Martin
Luther King; Eisenhower and the Mass Media: Run on File: A Guide to Electronic Media Archives; Press Law in South Korea; and The Healing Blade: A Tale of Neurosurgery.

JOURNALISM (JRN)

JRN 401 Public Relations Techniques. (3) F, S
Theory and practice of publicity, public relations, and related techniques and procedures. Prerequisites: JRN 301 (or TCM 315); major.

JRN 412 Editorial Interpretation. (3) N
The press as an influence on public opinion. The role of the editorial in analyzing and interpreting current events. Prerequisite: JRN 301.

JRN 413 Advanced Editing. (3) F, S
Theory and practice of newspaper editing, layout and design, picture, and story selection. Prerequisite: JRN 313.

JRN 414 Electronic Publication Design. (3) F, S
Theory, organization, and practice of layout, typography, and design in traditional and multimedia publishing. Prerequisite: JRN 401.

JRN 415 Writing for Public Relations. (3) F, S
Development of specific writing techniques for the practitioner in public relations agencies and divisions of major organizations. Prerequisite: JRN 401.

JRN 417 Public Relations Campaigns. (3) F
Theory, principles, and literature of public relations and how they relate to audiences, campaigns, and ethics. Prerequisites: JRN 401, 415; instructor approval.

JRN 420 Reporting Public Affairs. (3) F, S
Instruction and assignments in reporting the courts, schools, government, city hall, social problems, and other areas involving public issues. Prerequisite: JRN 301.

JRN 440 Magazine Writing. (3) F, S
Writing and marketing magazine articles for publication. Prerequisite: JRN 301 or instructor approval.

JRN 451 Photojournalism I. (3) F, S
Theory and practice of photojournalism with emphasis on shooting, lighting, and layout for the media. Prerequisite: JRN 351.

JRN 452 Photojournalism II. (3) F, S
Advanced theory and practice of photojournalism with emphasis on the photo essay and illustrations in black and white and color. 2 hours lecture, 2 hours lab. Prerequisite: JRN 451.

JRN 465 Precision Journalism. (3) S
An advanced writing course with focus on reporting polls and surveys and other numerically-based stories as well as on understanding the concepts that underlie polls and surveys. Lecture, lab. Prerequisite: JRN 301 or instructor approval.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

MASS COMMUNICATION (MCO)

MCO 402 Mass Communication Law. (3) F, S, SS
Legal aspects of the rights, privileges, and obligations of the press, radio, and television. Prerequisites: 70 hours; JRN/TCO; professional program status. General Studies: L.

MCO 418 History of Mass Communication. (3) F, S
American journalism from its English and colonial origins to the present day. Development and influence of newspapers, magazines, radio, television, and news gathering agencies. General Studies: SB, H.

MCO 421 News Problems. (3) S
Trends and problems of the news media, emphasizing editorial decisions in the processing of news. Prerequisite: 9 hours of mass communication/journalism/telecommunication courses or instructor approval.

MCO 430 International Mass Communication. (3) F, S
Comparative study of communication and media systems. Information gathering and dissemination under different political and cultural systems. General Studies: G.

MCO 450 Visual Communication. (3) F, S, SS
Theory and tradition of communication through the visual media with emphasis on the continuity of traditions common to modern visual media. General Studies: HU.

MCO 456 Political Communication. (3) F, S
Theory and research related to political campaign communication. The persuasive process of political campaigning, the role of the media, the candidate, and image creation. General Studies: SB.

MCO 460 Race, Gender, and Media. (3) S
Readings seminar designed to give students a probing examination of the interface between AHANA Americans and the mass media in the United States. General Studies: C.

MCO 463 Introduction to Media Statistics. (3) F, S
An introduction to statistical analysis as applied to the mass media. Prerequisite: professional status in Broadcasting or Journalism.

MCO 501 Newswriting and Reporting. (3) F
Designed for graduate students in the MMC program who have undergraduate degrees in nonjournalism areas. Objective is to teach fundamentals of writing and reporting. Lecture, lab. Prerequisite: acceptance into M.M.C. graduate program.

MCO 503 Press Freedom Theory. (3) S
Examination of philosophical and legal aspects of press freedom. Emphasis on First Amendment theory evolution from 1791 to present.

MCO 510 Research Methodology in Mass Communication. (3) F, S
Identification of research problems in mass communication. Overview of questionnaire construction. Attention to survey, historical, content analysis, experimental, and legal research methods.

MCO 520 Mass Communication Theories and Process. (3) F
Analysis of various theoretic models of mass communication with emphasis on the applications of these theories to various professional communication needs.

MCO 522 Mass Media and Society. (3) S
Mass media as social institutions, particularly interaction with government and public. Emphasis on criticism and normative statements.

MCO 530 Media Ethics. (3) F
Ethical conventions and practices of print and electronic media as they relate to the government and private sectors of the society.

MCO 531 Broadcast Journalism. (3) S
News and information practices of networks, stations, and industry. Practice in writing, reporting, and editing with emphasis on video. Lecture, lab. Prerequisite: MCO 501.

MCO 540 Historical/Legal Methods. (3) S
Introduction to legal and historical methods necessary to conduct qualitative mass communication research. Prerequisite: MMC graduate student.

MCO 560 Arizona Media Law. (3) F
Case study approach of first amendment issues, media access, libel, confidentiality, and invasion of privacy as applied to media organizations in Arizona. Lecture, seminar.

MCO 593 Applied Project. (1–12) N
Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

TELECOMMUNICATION (TCM)

TCM 433 Broadcast Sales and Promotion. (3) F, S
Basics of electronic media marketing practices, including commercial time sales techniques and radio/TV promotion fundamentals. Prerequisite: TCM 200.

TCM 435 Cable TV and Emerging Telecommunication Systems. (3) F, S
Structures and utilization of cable, industrial, and instructional television, satellite, and videocassettes. Prerequisite: TCM 200.

TCM 437 Advanced TV Production. (3) F, S
Emphasis on individual production projects of the student’s own conception and design utilizing studio, field, and postproduction techniques. Prerequisite: TCM 235.

TCM 472 Broadcast Station Management. (3) F, S, SS
Management principles and practices, including organization, procedures, policies, personnel problems, and financial aspects of station management. Prerequisite: TCM 332.

TCM 475 Television Newscast Production. (3) F, S
Writing, reporting, and production of the television newscast. The course serves as the capstone of the broadcast journalism emphasis. Prerequisite: instructor approval.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

The faculty in the Department of Mathematics offer graduate programs leading to the M.A. and Ph.D. degrees in Mathematics.

The faculty also participate in the program leading to the Master of Natural Science (M.N.S.) degree when one of the concentrations is mathematics. In collaboration with the College of Education, the Department of Mathematics offers an option for the M.N.S. degree that leads to high school certification.

In addition, the faculty participate in the interdisciplinary program leading to the M.S. degree in Statistics (see “Statistics,” page 303).

It is required that students applying to one of these programs submit scores on the Graduate Record Examination.

Students in the College of Education admitted to the Master of Education (see “Master of Education,” page 180) or Doctor of Education (see “Doctor of Education,” page 180) degree program in Secondary Education may elect mathematics as the subject matter field. These programs are offered and administered through the College of Education.

MASTER OF ARTS

This degree is designed for students who wish to extend their knowledge of mathematics or prepare for certain careers related to mathematics. In order to be admitted without deficiencies, the student’s background should include an undergraduate mathematics major or an equivalent preparation such as may be obtained in certain undergraduate programs in engineering or the sciences. In particular, it is required that the student’s preparation include courses in linear algebra and foundations of analysis. A certain degree of familiarity with computer languages may also be required for some areas of study.

Students pursuing the M.A. degree in Mathematics may choose one of the following areas: general mathematics, applied mathematics, statistics and probability, and computational mathematics. Information concerning the requirements for each area may be obtained from the Department of Mathematics.

See “Master’s Degrees,” page 101, for general requirements.

Program of Study. The program of study, including courses in mathematics and related subjects, is selected with the recommendation of the student’s supervisory committee. Ordinarily, a program of study consists of a minimum of 30 semester hours.

Foreign Language Requirements. None.

Comprehensive Examinations. Written examinations are required. For details, contact the Department of Mathematics.

Thesis Requirements. A thesis is required.

Final Examinations. A final oral examination in defense of the thesis is required.

MASTER OF NATURAL SCIENCE

The faculty of the Department of Mathematics participate in programs leading to the M.N.S. degree (see “Master of Natural Science,” page 263). This degree is intended for the student who is interested in an interdisciplinary program with a major emphasis in mathematics and a minor emphasis in a related subject outside mathematics. The student’s supervisory committee consists of two faculty members of the Department of Mathematics and one faculty member of the department in the related area. The supervisory committee designs a program of study of at least 36 semester hours that is appropriate for the type of interdisciplinary work the student wishes to pursue. A special option of the M.N.S. degree leads to high school certification. The intention is to
develop high school teachers with an excellent subject knowledge in mathematics. For more information, contact the Department of Mathematics.

**DOCTOR OF PHILOSOPHY**

This Ph.D. is intended for the student with superior mathematical ability, emphasizing the development of creative scholarship and breadth and depth in background knowledge. Admission to the degree program is normally granted after completion of the master’s degree. See “Doctoral Degrees,” page 103, for general requirements.

**Program of Study.** The program of study is selected with the recommendation of the student’s supervisory committee.

**Qualifying Examinations.** Qualifying examinations are required. They test a student’s mastery of basic material in two of the following five areas: algebra, differential equations, mathematical statistics, numerical methods, and real analysis. Normally, students entering the graduate program with a bachelor’s degree take these qualifying examinations at the beginning of the third semester, and those entering with a master’s degree at the beginning of the second semester. These examinations are given once each semester.

**Foreign Language Requirements.** None.

**Comprehensive Examinations.** Written and oral comprehensive examinations are required.

**Dissertation Requirements.** A dissertation reporting significant, original research suitable for publication in a professional research journal is required. (See “Doctoral Dissertations,” page 103.)

**Final Examinations.** A final oral examination in defense of the dissertation is required.

**RESEARCH ACTIVITY**

Department members are actively engaged in research in the following areas: applied mathematics; mathematical physics; mathematical modeling; mathematical biology; mathematical neurobiology; bifurcation analysis; dynamical systems; control theory; nonlinear analysis; ordinary and partial differential equations; integral equations; computational mathematics; real, complex, and functional analysis; operator algebras; operator theory; algebra; number theory; topology; discrete mathematics; probability; theoretical and applied statistics; and mathematical education.

The department has several clusters of high-end UNIX workstations both for number-crunching and for graphics. Most students do both class projects and their research computing on these computers. A number of PC and Macintosh computers are also available to students. All students have access to central computing facilities, which include IBM mainframes, UNIX clusters, and multiprocessor computers.

**MATHMATICS (MAT)**

**MAT 410 Introduction to General Topology.** (3) A

Topological spaces, metric spaces, compactness, connectedness, and product spaces. Prerequisite: MAT 300 or 371 or instructor approval.

**MAT 415 Introduction to Combinatorics.** (3) S

Topics include proof techniques, permutations, combinations; counting techniques including recurrence relaxations, generating functions, inclusion-exclusion; Ramsey theory and combinatorial designs. Prerequisites: MAT 300 (or 243) and 342 (or 242) or instructor approval.

**MAT 416 Introduction to Graph Theory.** (3) S

Topics include trees, cycles, matchings, planarity, connectivity, hamiltonicity, coloring, graph algorithms, and other advanced topics. Prerequisites: MAT 300 (or 243) and 342 (or 242) or instructor approval.

**MAT 419 Introduction to Linear Programming.** (3) S

Simplex method, duality, and network flows. Applications to game theory, geometry, combinatorics, graph theory, and posets. Prerequisites: CSE 100 (or 200 or 210); MAT 300 (or 243), 342 (or 242) or instructor approval. General Studies: CS.

**MAT 420 Scientific Computing.** (3) F

Survey and application of programming languages, libraries, and scientific visualization tools. Programming assignments emphasize software development skills. Lecture, lab. Prerequisites: CSE 200 and MAT 274 and 342 or equivalents or instructor approval.

**MAT 421 Applied Computational Methods.** (3) F, S

Numerical methods for quadrature, differential equations, roots of nonlinear equations, interpolation, approximation, linear equations, floating-point arithmetic, and roundoff error. Prerequisites: MAT 271 (or equivalent) and fluency in computer programming (preferably FORTRAN) or instructor approval. General Studies: CS.

**MAT 423 Numerical Analysis I.** (3) F, S

Analysis and algorithms for numerical solutions linear/nonlinear equations, direct solvers, iterative procedures, optimization. Determination of eigenvalues. Elementary computer arithmetic. Prerequisites: MAT 342 and 371 and fluency in computer programming or instructor approval. General Studies: CS.

**MAT 425 Numerical Analysis II.** (3) F, S

Analysis of and algorithms for numerical interpolation, integration, and differentiation. Numerical solution of ordinary differential equations, and method of lines. Those seeking a methods survey course should take MAT 421. Prerequisites: MAT 342 and 371 and fluency in computer programming or instructor approval. General Studies: CS.

**MAT 427 Computer Arithmetic.** (3) S

Number systems, hardware/software arithmetic, overflow, significance, rounding, multiple precision, and automatic error control; impact on languages, architectures, robust programming, and software development. Prerequisite: CSE 100 (or 200) or MAT 421 and 423 (or MAT 425) or instructor approval. General Studies: CS.

**MAT 442 Advanced Linear Algebra.** (3) F

Fundamentals of linear algebra, dual spaces, invariant subspaces, canonical forms, bilinear and quadratic forms, and multilinear algebra. Prerequisites: MAT 300 and 342 or instructor approval.

**MAT 443 Introduction to Abstract Algebra.** (3) F

Introduction to concepts of abstract algebra. Not open to students with credit in MAT 444. Prerequisites: MAT 300 and 342 or instructor approval.

**MAT 444 Intermediate Abstract Algebra.** (3) S

Basic theory of groups, rings, and fields, including an introduction to Galois theory. Appropriate as preparation for MAT 543. Prerequisite: MAT 443 or graduate standing or instructor approval.

**MAT 445 Theory of Numbers.** (3) S

Prime numbers, unique factorization theorem, congruences, Diophantine equations, primitive roots, and quadratic reciprocity theorem. Prerequisites: MAT 300 and 342 or instructor approval.

**MAT 451 Mathematical Modeling.** (3) S

A detailed study of 1 or more mathematical models that occur in the physical or biological sciences. May be repeated for credit with instructor approval. Prerequisites: MAT 242 (or 342) and 274 or instructor approval. General Studies: CS.

**MAT 452 Introduction to Chaos and Nonlinear Dynamics.** (3) F

Properties of nonlinear dynamical systems; dependence on initial conditions; strange attractors; period doubling; bifurcations; symbolic dynamics; Smale-Birkhoff theorem; and applications. MAT 371 is recommended. Prerequisites: MAT 274, 342 (or 242).

**MAT 455 Introduction to Fractals and Applications.** (3) S

Fractals; self-similar structures, fractals with iterated function systems of maps, computing fractals, fractal dimensions, chaotic dynamics on fractals, applications. MAT 371 is recommended. Prerequisites: MAT 274, 342 (or 242).

**MAT 460 Applied Real Analysis.** (3) S

Vectors, curvilinear coordinates, Jacobians, implicit function theorem, line and surface integrals, Green’s, Stokes’, and divergence theorems.
MAT 461 Applied Complex Analysis. (3) F, SS
Analytic functions, complex integration, Taylor and Laurent series, res-idue theorem, conformal mapping, and harmonic functions. Prerequisites: MAT 272 or equivalent.

MAT 462 Applied Partial Differential Equations. (3) S
Second order partial differential equations, emphasizing Laplace, wave, and diffusion equations. Solutions by the methods of characteristics, separation of variables, and integral transforms. Prerequisites: MAT 242 (or 342), 274.

MAT 472 Intermediate Real Analysis. (3) F
Introduction to analysis in metric spaces with emphasis on the real line. Appropriate as preparation for MAT 570. Prerequisites: MAT 300, 342.

MAT 475 Differential Equations. (3) F
Asymptotic behavior of solutions of linear and nonlinear ordinary differential equations, stability. Sturm-Liouville problems, boundary value problems, and singular point behavior of autonomous systems. Prerequisites: MAT 242 (or 342), 274.

MAT 476 Partial Differential Equations. (3) S
First order quasilinear, second order linear (wave, Laplace, heat). Characteristics, harmonic functions, maximum principles, Fourier series, separation of variables. Prerequisites: MAT 274 (or 475), 372 (or 472).

MAT 484 Internship. (1–12) N

MAT 485 History of Mathematics. (3) N
Topics from the history of the origin and development of mathematical ideas. Prerequisite: MAT 272 or equivalent.

MAT 505 Perturbation Methods. (3) N
Nonlinear oscillations, strained coordinates, renormalization, multiple scales, boundary layers, matched asymptotic expansions, turning point problems, and WKB method. Cross-listed as MAE 505. Credit is allowed for only MAE 505 or MAT 505.

MAT 514 Enumerative Combinatorics I. (3) F
First semester of a systematic development of enumerative combinatorics including: elementary counting techniques, sieve methods, and partially ordered sets. Prerequisite: graduate standing or instructor approval.

MAT 515 Enumerative Combinatorics II. (3) S
Second semester of a systematic development of enumerative combinatorics including: lattices, exponential structures, symmetric functions, and selected special topics. Prerequisite: MAT 514 or instructor approval.

MAT 516 Graph Theory I. (3) F
First semester of a systematic development of graph theory including: matchings, connectivity, arboricity, planarity, coloring, network flows. Prerequisite: graduate standing or instructor approval.

MAT 517 Graph Theory II. (3) S
Second semester of a systematic development of graph theory including: dense and sparse graphs, Ramsey theory, hamiltonicity, random graphs, minors. Prerequisite: MAT 516 or instructor approval.

MAT 518 Combinatorial Optimization I. (3) F
First semester of a systematic development of combinatorial optimization including: linear programming, duality, primal-dual algorithms, network flow algorithms, weighted matchings. Prerequisite: graduate standing or instructor approval.

MAT 519 Combinatorial Optimization II. (3) S
Second semester of a systematic development of combinatorial optimization including: matroid algorithms, theory of NP-completeness, polynomial time approximation, dynamic programming. Prerequisite: MAT 518 or instructor approval.

MAT 520 Numerical Linear Algebra. (3) F
Direct solution of linear systems, iterative methods, eigenvalues and eigenvectors, singular value decomposition, the QR algorithm, error propagation, arithmetic, and stability. Prerequisites: MAT 342 and 423 (or 421) or instructor approval.

MAT 521 Iterative Methods. (3) S
Numerical methods for solving linear/nonlinear systems of equations (symmetric, nonsymmetric), iterative methods for linear systems, conjugate gradients, multigrid methods, preconditioning, Krylov methods. Prerequisites: MAT 371 and 423 (or 421) or instructor approval.

MAT 523 Numerical Optimization. (3) N
Linear programming, unconstrained nonlinear minimization, line search algorithms, conjugate gradients, quasi-Newton methods, constrained nonlinear optimization, gradient projection, and penalty methods. Prerequisites: MAT 342 or 371 or 460 or 520 (or equivalent) or instructor approval.

MAT 524 Parallel Numerical Algorithms. (3) N
Algorithms for massively parallel, hypercube architectures; “parallel” FORTRAN: solution of linear, nonlinear systems; partial differential equations; iterative methods; multigrid; domain decomposition. Prerequisites: MAT 371 and 423 (or 421) or instructor approval.

MAT 530 Numerical Solution of Ordinary Differential Equations. (3) F
One step, linear multistep methods; consistency, order, stability, convergence; discretization, roundoff errors, error estimation, adaptive strategy; implementation, software for nonstiff equations. Prerequisites: MAT 371 and 423 (or 421) or instructor approval.

MAT 531 Numerical Solution of Stiff Differential Systems. (3) S
Runge-Kutta methods, order conditions, construction of highly stable methods, order stars, error estimation, stepsize selection, contractivity properties, linear multistep methods. Prerequisites: MAT 371 and 423 (or 421) or instructor approval.

MAT 533 Computational Elliptic and Parabolic Partial Differential Equations. (3) F
Parabolic and elliptic equations, finite difference, finite element methods, stability, consistency, convergence, practical aspects, applications, software. Prerequisites: MAT 371 and 423 (or 421) or instructor approval.

MAT 534 Computational Hyperbolic Partial Differential Equations. (3) S
Numerical solutions of hyperbolic PDEs, finite difference methods, well-posedness, stability, consistency, convergence, adaptive grids; Maxwell’s equations, elastic wave propagation; Navier-Stokes. Prerequisites: MAT 371 and 423 (or 421) or instructor approval.

MAT 535 Spectral Methods for Partial Differential Equations. (3) N
Spectral, pseudo-spectral theory; Galerkin, collocation methods; Tau-methods, global approximation properties, stability; convergence; solutions for linear, nonlinear systems. Prerequisites: MAT 371 and 423 (or 421) or instructor approval.

MAT 543 Abstract Algebra. (3) F
Groups, modules, rings and fields, Galois theory, homological algebra, and the representation theory. Prerequisite: MAT 444 or instructor approval.

MAT 544 Abstract Algebra. (3) S
Continuation of MAT 543. Prerequisite: MAT 543 or instructor approval.

MAT 551 Linear Operators and Integral Equations. (3) S
Bounded linear and compact operators on Hilbert spaces. Linear integral equations, Fredholm and Hilbert-Schmidt theory, and approximate methods. Distributions. Prerequisites: MAT 242 and 462 or equivalents.

MAT 555 Fractal Geometry. (3) N
Geometry and analysis of fractal sets; definitions of dimensions; calculating dimensions; projections, products of fractals; random fractals; multifractal measures; and applications. Prerequisites: MAT 371, 455. MAT 472 is recommended.

MAT 570 Real Analysis. (3) S
Lebesgue integration, selected function spaces, differentiation, abstract measure theory, and elements of functional analysis. Prerequisite: MAT 372 or instructor approval.

MAT 571 Real Analysis. (3) F
Continuation of MAT 570. Prerequisite: MAT 570 or instructor approval.

MAT 572 Complex Analysis. (3) F
Analytic functions, series and product representations, entire and meromorphic functions, normal families, Riemann mapping theorem, harmonic functions, and Riemann surfaces. Prerequisite: MAT 371 or instructor approval.

MAT 573 Complex Analysis. (3) S
Continuation of MAT 572. Prerequisite: MAT 572 or instructor approval.

MAT 574 Theory of Ordinary Differential Equations. (3) N
Systems, existence proofs, singularities, asymptotic behavior of solutions, boundedness of solutions, eigenvalues and eigenfunctions, and perturbation theory. Prerequisite: MAT 372 or instructor approval.

MAT 575 Theory of Ordinary Differential Equations and Dynamical Systems. (3) N
Geometric approach to ODEs and dynamical systems; (un)stable, center manifolds; structural stability; normal forms; averaging; chaos; persistence. May be repeated for credit with instructor approval. Prerequisites: MAT 452 and 475 or MAT 574 or instructor approval.
MAT 576 Theory of Partial Differential Equations. (3) N
Existence and uniqueness theorems, boundary value and initial value problems, characteristics, Green’s functions, maximum principle, distributions, and weak solutions. Prerequisite: knowledge of Lebesgue integration or instructor approval.

MAT 577 Theory of Partial Differential Equations. (3) N
Continuation of MAT 576. Prerequisite: MAT 576 or instructor approval.

MAT 578 Functional Analysis. (3) N
Locally convex, normed, and Hilbert spaces. Linear operators, spectral theory, and application to classical analysis. Prerequisite: MAT 472 or 571 or instructor approval.

MAT 579 Functional Analysis. (3) N
Continuation of MAT 578. Prerequisite: MAT 578 or instructor approval.

MAT 591 Seminar. (1–3) N
Topics may be selected from the following:
(a) Algebra
(b) Analysis
(c) Applied Mathematics
(d) Combinatorial Mathematics
(e) Mathematical Logic
(f) Numerical Analysis
(g) Topology

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

MATHEMATICS EDUCATION (MTE)

MTE 482 Methods of Teaching Mathematics in Secondary School. (3) F, SS
Examination of secondary school curricular material and analysis of instructional devices, teaching strategies, evaluative techniques, diagnosis, and remediation and problem solving. Prerequisite: instructor approval.

MTE 483 Mathematics in the Secondary School. (3) S, SS
Topics in geometry, number theory, algebra, and analysis. Emphasis on unifying principles. Prerequisite: MAT 310 or instructor approval.

MTE 585 Modern Geometry for Teachers. (3) A
Euclidean, projective, and non-Euclidean geometries. Prerequisite: instructor approval.

MTE 587 Analysis for Teachers. (3) N
Subject matter in mathematics appropriate for accelerated programs in secondary schools, including analytic geometry and calculus. Prerequisite: instructor approval.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

STATISTICS AND PROBABILITY (STP)

STP 420 Introductory Applied Statistics. (3) F, SS
Introductory probability, descriptive statistics, sampling distributions, parameter estimation, tests of hypotheses, chi-square tests, regression analysis, analysis of variance, and nonparametric tests. Prerequisite: MAT 117 or equivalent. General Studies: CS.

STP 421 Probability. (3) F
Laws of probability, combinatorial analysis, random variables, probability distributions, expectations, moment generating functions, transformations of random variables, and central limit theorem. Prerequisites: MAT 272 and 300 and STP 420 or equivalents.

STP 425 Stochastic Processes. (3) S
Markov chains, stationary distributions, pure jump processes, 2D order processes, and other topics in stochastic processes. Prerequisites: MAT 342; STP 421.

STP 427 Mathematical Statistics. (3) S
Limiting distributions, interval estimation, point estimation, sufficient statistics, and tests of hypotheses. Prerequisites: STP 420, 421.

STP 429 Experimental Statistics. (3) S
Statistical inference for controlled experimentation. Multiple regression, correlation, analysis of variance, multiple comparisons, and nonparametric procedures. Prerequisite: STP 420 or equivalent. General Studies: CS.

STP 525 Advanced Probability. (3) N
Measure-theoretic foundations of probability, distribution functions and characteristic functions, laws of large numbers and central limit theorems, conditional probabilities, martingales, and topics in stochastic processes. Prerequisites: MAT 571 and STP 421 or instructor approval.

STP 526 Theory of Statistical Linear Models. (3) F
Multinormal distribution, distribution of quadratic forms, full and nonfull rank models, generalized inverses, unbalanced data, variance components, and the large sample theory. Prerequisites: STP 427; knowledge of matrix algebra.

STP 530 Applied Regression Analysis. (3) F
Method of least squares, simple and multiple linear regression, polynomial regression, analysis of residuals, dummy variables, and model building. Prerequisite: STP 420 or equivalent.

STP 531 Applied Analysis of Variance. (3) S
Factorial designs, balanced and unbalanced data, fixed and random effects, randomized blocks, Latin squares, analysis of covariance, and multiple comparisons. Prerequisite: STP 420 or equivalent.

STP 532 Applied Nonparametric Statistics. (3) F
One sample test, tests of 2 or more related or independent samples, measures of correlation, and tests of trend and dependence. Prerequisite: STP 420 or equivalent.

STP 533 Applied Multivariate Analysis. (3) S
Discriminant analysis, principal components, factor analysis, cluster analysis, and canonical correlation. Prerequisite: STP 420 or equivalent.

STP 534 Applied Discrete Data Analysis. (3) N
Models for discrete and count data, measures of association, and log-linear and regression models for contingency tables. Prerequisite: STP 420 or equivalent.

STP 535 Applied Sampling Methodology. (3) S
Simple random, stratified, cluster sampling; variance estimation in complex surveys; nonparametric superpopulation approaches; nonresponse models; computational methods. Prerequisite: STP 420 or equivalent.

STP 591 Seminar. (1–3) N
Topics may be selected from the following:
(a) Probability
(b) Statistics

STP 593 Applied Project. (1–12) N

STP 599 Thesis. (1–12) N

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Mechanical Engineering

The faculty in the Department of Mechanical and Aerospace Engineering offer graduate programs leading to the degrees of M.S., M.S.E., and Ph.D. in Mechanical Engi-
engineering. A number of areas of study may be pursued, including design and manufacturing, dynamics and control, energy systems, engineering mechanics, and thermosciences.

The faculty also offer graduate degree programs in Aerospace Engineering.

All of the department’s graduate programs stress a sound foundation in fundamentals leading to a specialized area of study.

**Graduate Record Examination.** All applicants are required to take the Graduate Record Examination; the subject test in engineering is highly recommended but not required.

**MASTER OF SCIENCE**

See “Master’s Degrees,” page 101, for general requirements.

**MASTER OF SCIENCE IN ENGINEERING**

See “Master of Science in Engineering,” page 191, for information on the Master of Science in Engineering degree.

**DOCTOR OF PHILOSOPHY**

The Ph.D. degree is conferred upon evidence of excellence in research leading to a scholarly dissertation that is an original contribution to knowledge in the field of mechanical engineering.

See “Doctoral Dissertations,” page 103, for general requirements.

**Program of Study.** The program of study must be established no later than the first semester after successfully completing the qualifying examination.

**Qualifying Examinations.** The purposes of the qualifying criteria are to assess if the student is qualified to continue in the doctoral program and to detect deficiencies in the student’s background that can be corrected by appropriate course work and individual study. Within the first year of graduate studies at ASU, a graduate student pursuing a Ph.D. program of study in Mechanical Engineering must complete three 500-level core courses, preferably in the major area of interest, and one 500-level mathematics course, both with an average GPA of 3.25 or higher. Specific qualifying course requirements for each major area are available from the department.

**Foreign Language Requirements.** None.

**Comprehensive Examinations.** Written and oral comprehensive examinations are required. The examinations are administered by the program committee.

**Dissertation Requirements.** A dissertation based on original work demonstrating creativity in research and scholarly proficiency in the subject area is required.

**Final Examinations.** A final oral examination in defense of the dissertation is required.

**RESEARCH ACTIVITY**

The department has established a wide variety of theoretical and experimental research programs in mechanical engineering to prepare graduate students for careers with industry, universities, and government agencies. The faculty are informally organized into groups pursuing research topics directly related to the general improvement of knowledge in engineering fields or to the application of engineering principles to problems with high national priorities.

Some recent and current examples of faculty and student research projects include studies in aerospace vehicle dynamics, guidance, and control; modeling and optimal design of rotor-bearing systems; feature-based modeling; design automation; expert systems for manufacturing; concurrent engineering; kinematic geometry of mechanisms and robots; modeling and control of robots for manufacturing; infrared detection of surface defects; development of finite element models; acoustic fatigue; fatigue crack growth at metal/metal and metal/ceramic interfaces; fatigue damage of thin films and nanolayered composites; texture effects on cyclic behavior of polycrystalline metals; mechanical properties of structural silicides; noise control; failure analysis and life predictions; crystal growth; transonic airfoil design; hydrodynamic stability; turbulence modeling; robotics; magnetic bearing development; thermionics; experimental and analytical studies in two-phase flow; convective heat transfer in complex flows and turbine cooling; unsteady aerodynamics; nonlinear waves; perturbation methods; turbulent mixing in stratified flows; double diffusive instabilities; internal waves and internal gravity currents; topography effects in rotating and stratified flows; thermal contact resistance; combustion-generated air pollution; turbulent/spray combustion; combustion in process media.

Experimental investigations are carried out in a number of specialized facilities: computer-aided engineering and expert systems laboratory, computer-aided design/computer-aided manufacturing laboratory, combustion laboratory, composite materials laboratory, dynamics and controls laboratory, energy management laboratory, environmental fluid dynamics laboratory, heat transfer laboratory, robotics laboratory, supersonic wind tunnel laboratory, unsteady wind tunnel facility, STM mechanics and thin film growth laboratory, and vibrations laboratory. Equipment fabrication is supported by the college’s well-equipped Development Shop, which has a staff of machinists and electronic technicians.

**Computer Resources and Facilities**

Mechanical Engineering graduate education and research is supported by an extensive array of college- and university-supported computer hardware and software, in addition to laboratory workstations.

CEAS Engineering Technical Services (ETS) provides a significant amount of computer equipment, hardware engineering staff, and system staff dedicated to supporting research activities within the college. The central computers, PCs, and distributed workstations in offices and laboratories in the Engineering Research Center (ERC), Barry Goldwater Center (GWC), and many adjoining engineering buildings all link together to form the Engineering Network Support System (ENSS). ENSS utilizes the standard TCP/IP protocol on an ethernet local area network. Faculty and labs connect their PCs directly to ENSS via ethernet. Ethernet is offered in two speeds: 10 mbs and 100 mbs. Central computers accessible via ENSS include these distributed systems:
1. 300 to 400 Unix workstations (Sun, Silicon Graphics, DEC, HP, IBM, Intel);
2. 2500 to 3000 PCs running mostly Windows NT;
3. 13 to 15 Novell PC LANs ultimately being converted to Windows NT LANs or re-centralized; and
4. 8 to 10 Windows NT LANs, many of which are being re-centralized.

MECHANICAL AND AEROSPACE ENGINEERING (MAE)
MAE 402 Introduction to Continuum Mechanics. (3) A
Application of the principles of continuum mechanics to such fields as fluid-in porous media, biomechanics, electromagnetic continua, and magneto-fluid mechanics. Prerequisites: ECE 313; MAE 361 (or 371); MAT 242 (or 342).

MAE 404 Finite Elements in Engineering. (3) A
Introduction to ideas and methodology of finite element analysis. Applications to solid mechanics, heat transfer, fluid mechanics, and vibrations. Prerequisites: ECE 313; MAT 242 (or 342).

MAE 406 CAD/CAM Applications in MAE. (4) A
Solution of engineering problems with the aid of state-of-the-art software tools in solid modeling, engineering analysis, and manufacturing; selection of modeling parameters; reliability tests on software. 3 hours lecture, 3 hours lab. Prerequisites: MAE 441; instructor approval.

MAE 415 Vibration Analysis. (4) F, S
Free and forced response of single and multiple degree of freedom systems, continuous systems; applications in mechanical and aerospace systems numerical methods. Lecture, lab. Prerequisites: ECE 312; MAE 422 (or 425); MAT 242 (or 342).

MAE 417 Control System Design. (3) A
Tools and methods of control system design and compensation, including simulation, response optimization, frequency domain techniques, state variable feedback, and sensitivity analysis. Introduction to nonlinear and discrete time systems. Prerequisite: MAE 317.

MAE 433 Air Conditioning and Refrigeration. (3) A
Air conditioning processes; environmental control; heating and cooling loads; psychrometry; refrigeration cycles. Prerequisite: MAE 388 or MET 432 or instructor approval.

MAE 434 Internal Combustion Engines. (3) A

MAE 435 Turbomachinery. (3) A
Design and performance of turbomachines, including steam, gas and hydraulic turbines, centrifugal pumps, compressors, fans, and blowers. Pre- or corequisite: MAE 361 or 371.

MAE 436 Combustion. (3) A
Thermochemical and reaction rate processes; combustion of gaseous and condensed-phase fuels. Applications to propulsion and heating systems. Pollutant formation. Prerequisite: MAE 388.

MAE 442 Mechanical Systems Design. (3) A
Application of design principles and techniques to the synthesis, modeling, and optimization of mechanical, electromechanical, and hydraulic systems. Prerequisites: MAE 422 (or 425), 441.

MAE 446 Thermal Systems Design. (3) A
Application of engineering principles and techniques to the modeling and analysis of thermal systems and components. Optimization techniques are presented and their use demonstrated. Prerequisite: ECE 300; MAE 388.

MAE 447 Robotics and Its Influence on Design. (3) A
Robot applications, configurations, singular positions, and workspace; modes of control; vision; programming exercises; design of parts for assembly. Prerequisite: MAE 317.

MAE 455 Polymers and Composites. (3) F
Relationship between chemistry, structure, and properties of engineering polymers. Design, properties, and behavior of fiber composite systems. Cross-listed as MSE 470. Credit is allowed for only MAE 455 or MSE 470. Prerequisite: ECE 390.

MAE 460 Gas Dynamics. (3) A
Compressible flow at subsonic and supersonic speeds; duct flow; normal and oblique shocks, perturbation theory, and wind tunnel design. Prerequisites: ECE 386; MAE 361 (or 371).

MAE 462 Space Vehicle Dynamics and Control. (3) F
Attitude dynamics and control, launch vehicles, orbital mechanics, orbital transfer/rendezvous, space mission design, space structures, spacecraft control systems design. Prerequisite: MAE 317.

MAE 463 Propulsion. (3) A
Fundamentals of gas-turbine engines and design of components. Principles and design of rocket propulsion and alternative devices. Lecture, design projects. Prerequisite: ECE 386. Pre- or corequisite: MAE 361 (or 371).

MAE 465 Rocket Propulsion. (3) A
Rocket flight performance; nozzle design; combustion of liquid and solid propellants; component design; advanced propulsion systems; interplanetary missions; testing. Prerequisite: MAE 361 or 371.

MAE 466 Rotary Wing Aerodynamics and Performance. (3) A
Introduction to helicopter and propeller analysis techniques. Momentum, blade-element, and vortex methods. Hover and forward flight. Ground effect, autorotation, and compressibility effects. Prerequisites: ECE 386 and MAE 361 or instructor approval.

MAE 467 Aircraft Performance. (3) A

MAE 469 Projects in Astronautics or Aeronautics. (3) F, S
Various multidisciplinary team projects available each semester. Projects include design of high-speed rotorcraft autonomous vehicles, liquid-fueled rockets, microaerial vehicles, satellites. Prerequisite: instructor approval.

MAE 471 Computational Fluid Dynamics. (3) A
Numerical solutions for selected problems in fluid mechanics. Prerequisites: ECE 384; MAE 361 (or 371).

MAE 504 Laser Diagnostics. (3) S

MAE 505 Perturbation Methods. (3) N
Nonlinear oscillations, strained coordinates, renormalization, multiple scales, boundary layers, matched asymptotic expansions, turning point problems, and WKBJ method. Cross-listed as MAT 505. Credit is allowed for only MAE 505 or MAT 505.

MAE 506 Advanced System Modeling, Dynamics, and Control. (3) S
Lumped-parameter modeling of physical systems with examples. State variable representations and dynamic response. Introduction to modern control. Prerequisite: ASE 582 or MAT 442.

MAE 507 Optimal Control. (3) F
Optimal control of systems. Calculus of variations, dynamic programming, linear quadratic regulator, numerical methods, and Pontryagin's principle. Cross-listed as EEE 587. Credit is allowed for only EEE 587 or MAE 507. Prerequisite: EEE 482 or MAE 506.

MAE 509 Robust Multivariable Control. (3) S
Characterization of uncertainty in feedback systems, robustness analysis, synthesis techniques, multivariable Nyquist criteria, computer-aided analysis and design. Prerequisites: MAE 417, 506.

MAE 510 Dynamics and Vibrations. (3) F
Lagrange's and Hamilton's equations, rigid body dynamics, gyroscopic motion, and small oscillation theory.

MAE 511 Acoustics. (3) F
Principles underlying the generation, transmission, and reception of acoustic waves. Applications to noise control, architectural acoustics, random vibrations, and acoustic fatigue.

MAE 512 Random Vibrations. (3) S
Review of probability theory, random processes, stationarity, power spectrum, white noise process, random response of single and multiple DOF systems, and Markov processes simulation. Prerequisite: MAE 510 or instructor approval.

MAE 515 Structural Dynamics. (3) S
Free vibration and forced response of discrete and continuous systems, exact and approximate methods of solution, finite element modeling, and computational techniques. Prerequisite: MAE 510 or instructor approval.

MAE 518 Dynamics of Rotor-Bearing Systems. (3) S
MAE 520 Solid Mechanics. (3) F
Introduction to tensors: kinematics, kinetics, and constitutive assumptions leading to elastic, plastic, and viscoelastic behavior. Applications.

MAE 521 Structural Optimization. (3) N
Linear and nonlinear programming. Problem formulation. Constrained and unconstrained optimization. Sensitivity analysis. Approximate techniques. FEM-based optimal design of mechanical and aerospace structures. Cross-listed as CEE 533. Credit is allowed for only CEE 520 or MAE 521. Prerequisite: instructor approval.

MAE 523 Theory of Plates and Shells. (3) F
Linear and nonlinear theories of plates. Membrane and bending theories of shells. Shells of revolution. Prerequisite: MAE 520.

MAE 524 Theory of Elasticity. (3) S
Formulation and solution of 2- and 3-dimensional boundary value problems. Prerequisite: MAE 520.

MAE 527 Finite Element Methods in Engineering Science. (3) F
Discretization, interpolation, elemental matrices, assembly, and computer implementation. Application to solid and fluid mechanics, heat transfer, and time dependent problems. Prerequisite: ASE 582.

MAE 536 Combustion. (3) N
Thermodynamics; chemical kinetics of combustion. Reactive gas dynamics. Structure, propagation, and stability of flames. Experimental methods. Prerequisite: MAE 436 or instructor approval.

MAE 540 Advances in Engineering Design Theory. (3) F
Survey of research in engineering design process, artifact and design, knowledge, formal and informal logic, heuristic and numerical searches, theory of structure and complexity. Prerequisite: graduate standing.

MAE 541 CAD Tools for Engineers. (3) F
Elements of computer techniques required to develop CAD software. Data structures, including lists, trees, and graphs. Computer graphics, including 2- and 3-dimensional algorithms and user interface techniques.

MAE 542 Geometric Modeling in CAD/CAM. (3) S
Geometric and solid modeling, curve and surface design, CAD database architectures, and integration of solid modeling into engineering processes. Prerequisite: MAE 541 or instructor approval.

MAE 544 Mechanical Design and Failure Prevention. (3) F
Modes of mechanical failure; application of principles of elasticity and plasticity in multiaxial state of stress to design synthesis; failure theories; fatigue; creep; impact. Prerequisite: MAE 443.

MAE 546 CAD/CAM Applications in MAE. (4) F
Solution of engineering problems with the aid of state-of-the-art software tools in solid modeling, engineering analysis, and manufacturing; selection of modeling parameters; reliability tests on software. Open only to students without previous credit for MAE 406. 3 hours lecture, 3 hours lab. Prerequisite: instructor approval.

MAE 547 Mechanical Design and Control of Robots. (3) N
Homogeneous transformations, 3-dimensional kinematics, geometry of motion, forward and inverse kinematics, workspace and motion trajectories, dynamics, control, and static forces.

MAE 548 Mechanism Synthesis and Analysis. (3) S
Algebraic and graphical methods for exact and approximate synthesis of cam, gear, and linkage mechanisms; design optimization; methods of planar motion analysis; characteristics of plane motion; spatial kinematics.

MAE 557 Mechanics of Composite Materials. (3) S
Analysis of composite materials and applications. Micromechanical and macromechanical behavior. Classical lamination theory developed with investigation of bending-extension coupling.

MAE 560 Propulsion Systems. (3) N
Design of air-breathing gas turbine engines for aircraft propulsion; mission analysis; cycle analysis; engine sizing; component design.

MAE 561 Computational Fluid Dynamics. (3) S
Finite-difference and finite-volume techniques for solving the subsonic, transonic, and supersonic flow equations. The method of characteristics. Numerical grid-generation techniques. Prerequisite: MAE 571 or instructor approval.

MAE 563 Unsteady Aerodynamics. (3) S
Unsteady incompressible and compressible flow. Wings and bodies in oscillatory and transient motions. Kernel function approach and panel methods. Aeroelastic applications. Prerequisite: MAE 460 or 461.

MAE 564 Advanced Aerodynamics. (3) F

MAE 566 Rotary-Wing Aerodynamics. (3) F
Introduction to helicopter and propeller analysis techniques. Momentum, blade-element, and vortex methods. Hover and forward flight. Ground effect, autorotation, and compressibility effects. Prerequisite: MAE 561.

MAE 571 Fluid Mechanics. (3) F
Basic kinematic, dynamic, and thermodynamic equations of the fluid continuum and their application to basic fluid models.

MAE 572 Inviscid Fluid Flow. (3) S
Mechanics of fluids for flows in which the effects of viscosity may be ignored. Potential flow theory, waves, and inviscid compressible flows. Prerequisite: MAE 571.

MAE 573 Viscous Fluid Flow. (3) F
Mechanics of fluids for flows in which the effects of viscosity are significant. Exact and approximate solutions of the Navier-Stokes system, laminar flow at low and high Reynolds number. Prerequisite: MAE 571.

MAE 575 Turbulent Shear Flows. (3) F
Homogeneous, isotropic, and wall turbulence. Experimental results. Introduction to turbulent-flow calculations. Prerequisite: MAE 571.

MAE 577 Turbulent Flow Modeling. (3) S
Reynolds equations and their closure. Modeling of simple and complex turbulent flows, calculations of internal and external flows, and application to engineering problems. Prerequisite: MAE 571.

MAE 581 Thermodynamics. (3) F
Basic concepts and laws of classical equilibrium thermodynamics: applications to engineering systems. Introduction to statistical thermodynamics.

MAE 582 Statistical Thermodynamics. (3) A

MAE 585 Conduction Heat Transfer. (3) F
Basic equations and concepts of conduction heat transfer. Mathematical formulation and solution (analytical and numerical) of steady and unsteady, one- and multidimensional heat conduction and phase change problems. Prerequisites: ECE 386; MAE 388.

MAE 586 Convection Heat Transfer. (3) S
Basic concepts and governing equations, analysis of laminar and turbulent heat transfer for internal and external flows. Natural and mixed convection. Prerequisite: MAE 388.

MAE 587 Radiation Heat Transfer. (3) F
Advanced concepts and solution methodologies for radiation heat transfer, including exchange of thermal radiation between surfaces, radiation in absorbing, emitting, and scattering media and radiation combined with conduction and convection. Prerequisite: MAE 388.

MAE 588 Two-Phase Flows and Boiling Heat Transfer. (3) S
Pool and flow boiling heat transfer, condensation heat transfer, various models of vapor-liquid mixture flows, gas-solid mixture flows, and experimental measurement techniques.

MAE 589 Heat Transfer. (3) F
Basic concepts; physical and mathematical models for heat transfer. Applications to conduction, convective, radiative, and combined mode heat transfer. Prerequisite: MAE 388.

MAE 594 Graduate Research Conference. (1–3) F, S
Topics in contemporary research. Required every semester of all departmental graduate students registered for 9 or more semester hours. Not for degree credit.

MAE 598 Special Topics. (1–3) F, S
Special topics courses, including the following, which are regularly offered, are open to qualified students:
(a) Advanced Spacecraft Control
(b) Aeroelasticity
(c) Aerospace Vehicle Guidance and Control
(d) Boundary Layer Stability
(e) Hydrodynamic Stability
(f) Plasticity
(g) Polymers and Composites

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.
The core of the program has two components: (1) Latin, the international language for both the Middle Ages and Renaissance, and (2) paleography, the study of the physical medium through which Latin and other languages were transmitted.

The certificate program prepares students for advanced study or for academic positions by augmenting their skills and knowledge, thereby making them more equipped to handle the demands of their fields. For more information, contact the Arizona Center for Medieval and Renaissance Studies.

PROFESSORS
BURKE, JACOBS, MOSSMAN, SCHMIDT

ASSOCIATE PROFESSORS
BIRGE, HOFFMAN, MISRA, STOUT

ASSISTANT PROFESSORS
CHANG, GARCIA-PICHEL

The faculty in the Department of Microbiology offer programs leading to the M.S. and the Ph.D. degrees in Microbiology.

The faculty also participate in the program leading to the Master of Natural Science degree when one of the concentrations is microbiology (see “Natural Science,” page 263).

The Graduate Record Examination (GRE) is required for all applicants. Three letters of recommendation and a statement of personal goals must be submitted for admission to the graduate programs. Applicants are expected to have completed the requirements for an undergraduate major in Biology, Chemistry, or Microbiology or have an adequate background in related courses in biology, chemistry, mathematics, physics, and plant biology. Applicants without this background may be asked to take the GRE subject test.

Applications are accepted throughout the year. To be considered for assistantships and fellowships, completed applications must be received by February 15 for the fall semester and by October 15 for the spring semester.

The graduate programs are designed to prepare students for careers in teaching and in research on various aspects of microbiology in educational institutions, industry, or government agencies. To ensure proper course selection, new students must have the department’s approval for all course registrations.
**MASTER OF SCIENCE**

See “Master’s Degrees,” page 101, for general requirements.

**Program of Study.** A minimum of 30 semester hours of graduate credit are required, of which at least six hours must be thesis and research credit. The program is planned by the student in consultation with the supervisory committee.

**Foreign Language Requirements.** None.

**Comprehensive Examinations.** Students are expected to achieve, through course work, a fundamental understanding of the following subdisciplines: bacterial genetics, immunology, molecular biology, physiology and metabolism, and virology. Alternatively, the student may demonstrate this fundamental understanding by a comprehensive examination prepared by the student’s supervisory committee.

**Thesis Requirements.** A thesis is required.

**Final Examinations.** A final oral examination covering the thesis and related subject matter is required.

**DOCTOR OF PHILOSOPHY**

See “Doctor of Philosophy,” page 104, for general requirements.

**Program of Study.** At least 60 semester hours of graduate credit, in addition to 24 hours of dissertation and research, are required; a minimum of 24 hours of this total is in formal course work. The program is planned in consultation with the supervisory committee.

**Foreign Language Requirements.** None.

**Comprehensive Examinations.** Written and oral comprehensive examinations are required.

**Dissertation Requirements.** A dissertation based on original work of high quality, demonstrating proficiency in the student’s area of interest, is required. (See “Doctoral Dissertations,” page 103.)

**Final Examinations.** A final oral examination in defense of the dissertation is required.

**RESEARCH ACTIVITY**

The following represent major areas of research emphasis by faculty and graduate students in microbiology: bacterial genetics, immunology, host-parasite relationships, medical molecular biology, neuroimmunology, physiology, systematics, geomicrobiology, and virology.

Recent studies include the following: structure and function of the outer membrane of *Escherichia coli*; genetics of outer membrane proteins; control and regulation of metabolic pathways; regulation of environmentally responsive genes in bacteria; genetics of *E. coli* isocitrate dehydrogenase; site-specific conjugal recombination in *E. coli*; genetic studies of entomocidal Bacilli; biology of budding and appended bacteria; biology of the genus *Salibera*; molecular mechanism of interferon action; translational control of gene expression in reovirus; immune system-nervous system interactions; CNS involvement in autoimmune disease; mechanisms of stress effects on chronic immunologic diseases; microbial communities in extreme environments; regulation of VDJ recombination in B lymphocyte development.

**MICROBIOLOGY (MIC)**

**MIC 420 Immunology: Molecular and Cellular Foundations.** (3) F
Molecular and cellular foundations of immunology. Antibody/antigen interactions, cellular response, cytokines, immunogenetics, immunoregulation, autoimmunity, psychoneuroimmunology research/medical perspectives. Prerequisites: CHM 231 (or 331) and MIC 205 (or 220) or instructor approval.

**MIC 421 Experimental Immunology.** (2) F, S
An introduction to the basic techniques, methods, and assays used in immunology. 6 hours lab. Prerequisites: CHM 231 and 331 and MIC 302 or instructor approval.

**MIC 425 Advanced Immunology.** (3) S 2001
A survey of recent advances in immunology, including lymphocyte membranes, lymphokines/biochemistry, molecular genetics, theoretical immunology, immunoregulation, neuroimmunology, and immunologic diseases. Prerequisite: MIC 420 or instructor approval.

**MIC 441 Bacterial Genetics.** (3) S
Survey of genetic exchange and regulatory processes in bacteria and their viruses. Bacteria and viruses as tools in genetic engineering. Prerequisites: BIO 340 and MIC 205 (or 220) or instructor approval.

**MIC 442 Bacterial Genetics Laboratory.** (1) N
Techniques of mutagenesis, mapping, and strain and genetic library construction. 4 hours lab. Prerequisites: MIC 206, 302. Pre- or corequisite: MIC 441.

**MIC 445 Techniques in Molecular Biology/Genetics.** (2) F, S
Molecular genetic principles: plasmid construction, purification, and characterization; PCR; mutageneses; hybridization and sequence analysis; protein quantitation; immunologic detection and electrophoresis. Cross-listed as MBB 446. Credit is allowed for only MBB 445 or MIC 445. Prerequisites: BIO 340 and MIC 302 or instructor approval.

**MIC 446 Techniques in Molecular Biology/Genetics Lab.** (2) F, S
Molecular genetic techniques: plasmid construction, purification, and characterization; PCR; mutageneses; hybridization and sequence analysis; protein quantitation; immunologic detection and electrophoresis. Cross-listed as MBB 446. Credit is allowed for only MBB 446 or MIC 446. Pre- or corequisite: MBB 445 or MIC 445.

**MIC 470 Bacterial Diversity and Systematics.** (4) F
Biology, classification, and enrichment culture of the nonpathogenic bacteria. 2 hours lecture, 6 hours lab. Prerequisite: MIC 302.

**MIC 485 General Virology.** (3) F
Fundamental nature of viruses, their replication, pathogenesis, and ecology. Prerequisites: BIO 340 and CHM 331 or instructor approval.

**MIC 486 General Virology Laboratory.** (2) N
Fundamentals of virus detection, isolation and assay; propagation of virus in mammalian cell culture; recombinant virus and vector construction. 6 hours lab. Prerequisite: MIC 302. Pre- or corequisite: MIC 485.

**MIC 527 Neuroimmunology.** (3) S 2003
Studying mind’s influence on immunity and the immune system’s influence on the mind, neuroimmunologic diseases, and the neuroimmunological circuitry involved. Seminar. Prerequisite: MIC 420 or instructor approval.

**MIC 581 Molecular Mechanism of Pathogenesis.** (3) N
Pathogenic mechanisms and host responses in viral and/or bacterial diseases. Prerequisites: MIC 381 and 420 or instructor approval.
MIC 585 Molecular Virology. (3) N
Selected topics concerning molecular aspects of eukaryotic virus replication and pathogenesis. Prerequisite: instructor approval.

MIC 591 Seminar. (1–3) F, S
Topics may be selected from the following:
(a) Bacterial Ecology
(b) Current Research in Microbiology
(c) Enzymology
(d) Genetic Engineering
(e) Genetics
(f) Immunology
(g) Molecular Virology
(h) Neuroimmunology
(i) Pathogenic Bacteriology

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Molecular and Cellular Biology

Interdisciplinary Master’s and Doctoral Programs

Bertram L. Jacobs
Director
(LSE 411) 480/965-0743
mcbprgm@asu.edu
lsv1.la.asu.edu/mcb

Biological Science
Professors: Capco, Chandler, Hazel, McGaughey, Satterlie;
Associate Professors: Goldstein, Smith;
Assistant Professors: Kumar, Newfield, Rawls

Chemistry and Biochemistry
Professors: Allen, Bieber, Blankenship, Lohr,
Rose, Woodbury

Microbiology
Professors: Jacobs, Schmidt;
Associate Professors: Hoffman, Misra, Stout;
Assistant Professor: Chang

Plant Biology
Professors: Backhaus, Hoober, Trelease, Vermaas;
Associate Professors: Frasch, Roberson, Stutz, Webber

The interdisciplinary M.S. and Ph.D. degrees in Molecular and Cellular Biology are administered by the Interdisciplinary Committee on Molecular and Cellular Biology. The participating faculty are drawn primarily from four core departments (the Departments of Biology, Chemistry and Biochemistry, Microbiology, and Plant Biology), with additional faculty from the Department of Anthropology and the Department of Physics and Astronomy. One striking aspect of studies in this broad area of biological science is the interdisciplinary nature of the field. Similar approaches and techniques are used for studies of biological systems whether they are viral, bacterial, plant, or animal.

The graduate degrees offered by the faculty through this program prepare students for careers that span traditional disciplinary boundaries. The broad-based training provides the necessary skills for professional careers in academic institutions, governmental institutions, and industry, particularly those related to health and chemical sciences.

Graduate Record Examination. All applicants are required to take the Graduate Record Examination (GRE).

Submission of scores on the verbal, quantitative, and analytical sections of the GRE is required for admission to the M.S. and Ph.D. degree programs. The subject test in the sciences is highly recommended.

TOEFL and SPEAK Test. Students whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL). A TOEFL score of 630 (paper) or 267 (computer) is required for admission to the MCB program. Students whose native language is not English must pass the Speaking Proficiency English Assessment Kit (SPEAK) test with a score of at least 55 if they wish to be considered for teaching assistantship support.

MASTER OF SCIENCE

See “Master’s Degrees,” page 101, for general requirements.

Program of Study. Thirty semester hours are required. A minimum of 10 designated semester hours of MCB courses and six hours of Research and Thesis are required. The remaining courses are selected by the student in consultation with the supervisory committee.

Thesis Requirements. A written thesis based on original research is required.

Final Examinations. A final oral examination in defense of the thesis is required.

DOCTOR OF PHILOSOPHY

See “Doctor of Philosophy,” page 104, for general requirements.

Program of Study. Eighty-four semester hours are required. A minimum of 12 designated semester hours of MCB courses, six semester hours of elective course work, and 24 semester hours of Research and Dissertation are required. The remaining courses are selected by the student in consultation with the supervisory committee.

Comprehensive Examinations. Written and oral comprehensive examinations are required.

Dissertation Requirements. A written dissertation based on original research of high quality that demonstrates proficiency in the area of specialization is required.

Final Examinations. The final oral examination in defense of the dissertation is required. Evidence must be presented that the research contribution is publishable in the primary literature.

RESEARCH ACTIVITY

Refer to individual programs (Biology, Chemistry and Biochemistry, Microbiology, and Plant Biology) for descriptions of research activities.

MOLECULAR AND CELLULAR BIOLOGY (MCB)

MCB 500 Research Methods in Molecular and Cellular Biology. (2) F, S
Rotation laboratory experiences in which students participate in research under the direction of an MCB faculty member. May be repeated for credit.
MCB 501 Seminar: Molecular and Cellular Biology Colloquium. (1) F, S Presentation of current research by noted researchers in the field. May be repeated for credit.

MCB 555 Advanced Molecular and Cellular Biology I. (3) F Study of structural and functional organization of biomolecules and cells, based on current literature. 3 hours lecture, discussion. May be repeated once for credit. Pre- or corequisites: BIO 543 (or equivalent); CHM 461.

MCB 556 Advanced Molecular and Cellular Biology II. (3) S Continuation of MCB 555. 3 hours lecture, discussion. May be repeated once for credit. Pre- or corequisites: BIO 543 (or equivalent); CHM 462.

MCB 591 Seminar: Current Literature in Molecular and Cellular Biology. (1) F, S Presentation and discussion of current research in the areas of molecular and cellular biology. May be repeated for credit.

MCB 598 Special Topics. (1–4) N MCB 555 and 556 may be taken as one-semester-hour sections listed by the instructor.

MCB 700 Research Methods in Molecular and Cellular Biology. (2) F, S Rotation laboratory experiences in which students participate in research under the direction of an MCB faculty member. May be repeated for credit.

MCB 701 Seminar: Molecular and Cellular Biology Colloquium. (1) F, S Presentation of current research by noted researchers in the field. May be repeated for credit.

MCB 791 Seminar: Current Literature in Molecular and Cellular Biology. (1) F, S Presentation and discussion of current research in the areas of molecular and cellular biology. May be repeated for credit.

The faculty in the School of Music offer graduate programs leading to the M.A. degree in Music with concentrations in ethnomusicology, music history and literature, and music theory.

The faculty also offer a graduate program leading to the professional Master of Music degree in Composition, Music Education, and Performance and the professional Doctor of Musical Arts degree in Music with concentrations in choral conducting, composition, music education, and solo performance.

Graduate Diagnostic Examinations. All students admitted to graduate degree programs must satisfactorily complete these examinations before any comprehensive examinations may be scheduled. In music theory, the areas are as follows:

1. aural skills;
2. form;
3. analytical skills: 19th-century music; and
4. analytical skills: contemporary music.

In music history, the areas are (1) medieval, renaissance, and baroque and (2) classical, romantic, and contemporary.

Undergraduate Deficiencies. Deficiencies are determined by the school. Removal of all deficiencies is the responsibility of the student and is considered additional to the minimum hours for graduation.

Graduate Assistantships. The deadline is February 15 for teaching assistantship applications.

MASTER OF ARTS

See “Master’s Degrees,” page 101, for general requirements.

Prerequisites. Applicants are expected to have a B.A. degree in Music or its equivalent from an accredited institution.

Admission. Application must be accompanied by evidence of scholarly achievement or potential (e.g., a term paper), letters of recommendation from two persons qualified in the field, and a one- to two-page personal statement of the applicant’s professional goals.

Program of Study

Ethnomusicology. A minimum of 30 semester hours of graduate credit is required, of which at least 20 semester
hours must be in the field of ethnomusicology or related fields, including six semester hours of thesis, and at least six semester hours in music theory.

Music History and Literature. A minimum of 30 semester hours of graduate credit is required, of which at least two-thirds must be in the field of music history and literature and at least six semester hours in music theory.

Music Theory. A minimum of 32 semester hours of graduate credit is required, of which at least 18 must be in the field of music theory and at least 10 must be selected from the fields of music theory, music composition, and music history.

Course Requirements

Ethnomusicology. MUP 587 (two semesters), MHL 568, 591, 592, 599 (Thesis), and six semester hours of music theory.

Music History and Literature. MUP 582 (two semesters), MHL 532, 591 (two semesters), 599 (Thesis), and six hours of music theory.

Music Theory. MTC 520, 525, 527, 528, 599 (Thesis); six semester hours of music history.

Foreign Language Requirements. A passing grade on the foreign language reading examination in French or German is required.

Final Examinations. A final examination (written, oral, or both) is required. An oral examination in defense of the thesis is also required.

MASTER OF MUSIC

The faculty in the School of Music offer a graduate program leading to the professional degree Master of Music (M.M.). Three majors are available: Composition, Music Education, and Performance. For the Music Education major, concentrations are available in

1. choral music,
2. general music,
3. instrumental music, and
4. jazz studies.

For the Performance major, concentrations are available in

1. music theatre musical direction,
2. music theatre performance,
3. performance pedagogy,
4. piano accompanying, and
5. solo performance (voice, keyboard, instrumental).

Prerequisites. A Bachelor of Music degree or its equivalent from an accredited institution is required for admission to the M.M. program.

Admission. Admission to all concentrations under the major in Performance is dependent on a successful audition, either in person or by taped performance. For admission to the major in Composition, the applicant must submit three original works showing technical facility in composition, letters of recommendation from two qualified persons in the field, and a one to two-page personal statement of the applicant’s professional goals. For admission to the M.M. in Music Education degrees, the applicant must have completed all requirements for music teacher certification. Post-baccalaureate certification is available and may be completed concurrently with master’s degree work.

Letters of recommendation from three qualified persons in the field are also required. For the jazz studies concentration, a video or audio tape of a recent jazz performance (solo or ensemble) by the applicant must be submitted, and a video or audio tape of a jazz ensemble directed by the applicant should also be submitted if available.

Students majoring in Performance with a concentration in solo performance (voice) and performance pedagogy (voice) are required to take a diction examination in French, German, and Italian during registration week of their first semester. Students who do not pass this examination are required to take the appropriate semester(s) of MUP 250.

For admission to the concentration in performance pedagogy (piano), a minimum of one semester of prior piano pedagogy study including significant intern teaching experience is required. In addition, the student must demonstrate evidence of teaching ability, either in person or by videotape.

Program of Study. The student must complete a minimum of 32 semester hours of graduate courses, of which at least one-third must be in the area of concentration.

Foreign Language Requirements. Solo performance (voice only) and performance pedagogy (voice only) require a total of 16 semester hours of college-level credit in more than one language chosen from French, German, or Italian. The concentration in piano accompanying requires two semesters of college-level study in French, German, or Italian and two semesters of diction (or the equivalent) in the remaining languages in that group. These requirements may be fulfilled in whole or in part through language instruction in secondary and/or undergraduate school or by other means (for more information, see the General Catalog). These language requirements are not part of the 32-hour program of study. However, hours toward the requirements may be taken concurrently with the program of study if a deficiency exists.

Final Examination. A final examination (written, oral, or both) is required. An oral examination in defense of the thesis is required for the major in composition.

COURSE REQUIREMENTS

Composition

Composition. MTC 523 (six semester hours), 525, 599; six hours of music history, three hours of music theory.

Music Education

Choral Music. MUE 548, 549, 550 (or 579), 568, 570; two semester hours of ensemble; six semester hours of music history (including MHL 575); five hours of music theory. One MHL or MTC course must be in contemporary music.

General Music. MUE 548, 549, 550 (or 579), 551, 552; six semester hours of music history; five hours of music theory. One MHL or MTC course must be in contemporary music, and one MHL course or one ensemble must be in ethnomusicology.
Instrumental Music. MUE 548, 549, 550 (or 579), 564, 566; six semester hours of music history; five hours of music theory. One MHL or MTC course must be in contemporary music.

Jazz Studies. MUE 548, 549, 550 (or 579), 560, 562 (two semesters); MUP 509, 510, 517, 518, three semester hours of jazz ensemble; six semester hours of music history; five hours of music theory. One MHL or MTC course must be in contemporary music.

Performance

Solo Performance (Voice). MUP 527 (eight semester hours), 541, 551, 596, 597; performing ensembles (two hours); six hours of music history; five hours of music theory.

Solo Performance (Keyboard). MUP 527 (eight semester hours), 551 (or 581), 596, 597; performing ensembles (two hours); six hours of music history and literature; five hours of music theory.

Solo Performance (Instrumental). MUP 527 (eight semester hours), 551, 581, 596, 597; performing ensembles (two hours); six hours of music history; five hours of music theory.

Piano Accompanying. MUP 527 Studio Instruction (eight semester hours), 511 (or 521 Studio Instruction [four hours]), 588 (four hours), 596, 597; six hours of music history; five hours in music theory.

Performance Pedagogy. MUP 527 (eight semester hours), 541 (voice only), 551 and/or 581, 596, 597; performing ensembles (two hours), piano only; MUP 440 (or proficiency), 507, 508, 581 (four hours); six hours in music history; five hours of music theory.

Music Theatre Musical Direction. MUP 511 Studio Instruction: Piano (four semester hours), 551, 571 (two semester hours), 573, 574 (two semester hours), 591 (six semester hours), 596, 597; performance on stage in one production; musical direction of two productions; six hours of music history; five hours of music theory.

Music Theatre Performance. MUP 511 Studio Instruction (eight semester hours), 551, 570 (two semester hours), 571 (three semester hours), 596, 597; a three-hour graduate THP course designed for actors (as approved by supervisory committee); leading roles in two musical theatre productions; six hours of music history; five hours of music theory.

DOCTOR OF MUSICAL ARTS

The Doctor of Musical Arts (D.M.A.) is a professional degree program designed for students desiring high levels of performance, academic proficiency, and preparation for teaching positions at the university level. The major is Music with four concentrations: choral conducting, composition, music education, and solo performance.

Admission. Students seeking admission normally hold the Master of Music degree. Applicants with other degrees are considered if they have received graduate training similar to that normally expected in a Master of Music degree program. The application for admission must be accompanied by an applicant’s statement relating to goals, preparation, and educational background. The applicant must submit scores for the GRE (quantitative, verbal, and analytical) or the MAT. Three letters of recommendation are required. Applicants must perform a satisfactory audition or submit a tape recording of performances or compositions as appropriate to the concentration. The deadline is February 15 for teaching assistantship applications.

Supervisory Committee. When the program of study is filed, the supervisory committee is appointed by the dean of the Graduate College upon recommendation of the director and the graduate committee of the School of Music. The committee consists of five members; at least three should be from the major field.

Program of Study. A total of 90 semester hours beyond the bachelor’s degree is required. Only 36 hours from a master’s degree or other postgraduate work will be counted toward the 90 hour requirement.

Continuous Enrollment. Once admitted to a D.M.A. degree program, the student is expected to be enrolled continuously, excluding summer sessions, until all requirements for the degree have been fulfilled. This requirement applies to students admitted fall 1994 and thereafter. Continuous enrollment promotes steady progress toward the completion of the degree and an ongoing relationship between the student and faculty offering the program. If additional credit is not required toward the D.M.A. degree, the student may enroll for Continuing Registration 795. Continuing Registration does not carry credit; no grade is given. If a program of study must be interrupted for one or more semesters, the student may apply for leave status, not to exceed one calendar year. A student on leave is not required to pay fees, but is not permitted to place any demands on university faculty or use any university facilities. A student who interrupts a program without obtaining leave status may be removed automatically from the Graduate College, under the assumption that the student has decided to discontinue the program. A student removed from the Graduate College for this reason may reapply for admission; the application is considered along with all other new applications to the degree program.

An application for leave status, endorsed by the members of the student’s supervisory committee and the head of the academic unit, must be approved by the dean of the Graduate College. This request must be filed and approved no later than the last day of registration in the semester of anticipated absence.

Residency. In general, the D.M.A. degree student should expect to spend at least the equivalent of three academic years beyond the bachelor’s degree in the program. At least two semesters following the first year (30–32 semester hours) of graduate study must be spent in continuous full-time residence at ASU. After the first year (30–32 semester hours), at least 54 hours must be completed in residence at ASU.

Foreign Language Requirements. Competency in at least one foreign language is required for solo performance and music composition concentrations. Some concentrations require two foreign languages.

Comprehensive Examinations. Near the completion of course work, the student must apply to the Graduate College, through the supervisory committee and the school director, for permission to take the comprehensive examinations. These written and oral examinations are designed to assess the student’s competency in the major and supportive
Program of Study. The Post-Bachelor’s Artist Diploma program is a two-year course of study requiring at least two consecutive semesters of residence. A total of 32 semester hours, including four public recitals, is required. Three of the recitals must be presented on the ASU campus, and one at a venue outside of the metropolitan Phoenix area.

Course Requirements. MUP 527 (sixteen semester hours), 551 (four semester hours), and 581, performing ensembles (two semester hours) and four recitals (eight semester hours).

Related Requirements. The School of Music graduate diagnostic examinations in music theory and music history must be taken during the first semester of study, and all must be passed before the awarding of the Post-Bachelor’s Artist Diploma. Students in voice must pass the graduate-level foreign language diction examination before completing the program. Concurrent enrollment in other degree programs during the course of study is not permitted. Transfer credits from other institutions and/or other degree programs within the ASU School of Music do not count toward the 32 required semester hours.

MUSIC HISTORY/LITERATURE (MHL)

MHL 532 Music Bibliography. (3) F
Major historical and analytical writings; systematic and historical collections of music. Reading knowledge of a foreign language recommended.

MHL 535 Medieval Music. (3) S 2001
Music of Europe in the Middle Ages, Gregorian chant, religious and secular monophony and polyphony to 1400.

MHL 536 Music of the Renaissance. (3) S 2002
Music in Europe, with emphasis on stylistic concepts and changes, c. 1400–1580.

MHL 544 Notation of Polyphonic Music. (3) F 2001
Music notation from the 15th through 17th centuries, including problems of transcription into modern notation.

MHL 557 History of Choral Music. (3) S 2002
Major choral works.

MHL 564 History of Music Instruments. (3) F 2000
Survey of the history and development of music instruments in traditional, folk, and art cultures.

MHL 566 Area Studies in Ethnomusicology. (3) S
Study of the music of a particular culture, country, or area (e.g., music of Mexico, Latin America, China, Africa). May be repeated for credit.

MHL 568 Introduction to Ethnomusicology. (3) F 2001
Introduction to the theory and methodology of the discipline, including bibliography, fieldwork, transcription, analysis, and organology.

MHL 575 History of Choral Music. (3) F
Major choral works.

MHL 591 Seminar. (1–12) N

MHL 592 Research. (1–12) N

MHL 599 Thesis. (1–12) N

MHL 644 Notation of Polyphonic Music. (3) S 2002
Music notation from the 15th through 17th centuries, including problems of transcription into modern notation.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.
MUSIC THEORY AND COMPOSITION (MTC)

MTC 516 Baroque Music. (3) S 2002
Detailed analysis of selected examples of music from the Baroque period.

MTC 517 Classic Music. (3) S 2001
Detailed analysis of selected examples of music from the Classic period.

MTC 518 Romantic Music. (3) F 2000
Detailed analysis of selected examples of music from the Romantic period.

MTC 519 Late 19th- Early 20th-Century Music. (3) F 2001
Detailed analysis of selected examples of music from the late 19th and early 20th centuries.

MTC 520 Analytical Techniques. (3) S, SS
Analytical techniques systematically applied to music. Concentration on structural and compositional procedures.

MTC 523 Advanced Composition. (2–3) F, S
Advanced music composition, including complex techniques and larger structure. May be repeated for credit. Prerequisite: instructor approval.

MTC 525 Pedagogy of Theory. (3) F 2000
Practices and principles of teaching music theory. Emphasizes most desirable and practical offerings possible. Comparative studies of existing practices.

MTC 527 History of Music Theory. (3) N
Theory from Pythagoras to the 16th century. Need not be taken in sequence with MTC 528.

MTC 528 History of Music Theory. (3) N
Theory from the 17th century to the present. Need not be taken in sequence with MTC 527.

MTC 555 Computer Music Notation. (2) N
Instruction in preparing score and parts of music compositions using various music notation software packages. Credit cannot be applied toward the graduate theory requirement. Lecture, lab. Prerequisite: instructor approval.

MTC 591 Seminar. (1–12) N

MTC 592 Research. (1–12) N

MTC 599 Thesis. (1–12) N

MTC 647 Directions in New Music. (3) N
Studies in contemporary idioms and aesthetics drawn from recent works of visiting composers; involves analytical discourse, critical writing, and applied concepts in composition. Lecture, discussion, exercise. Prerequisite: instructor approval.

MTC 723 Advanced Composition. (3) F, S
Special problems in writing in complex forms and textures. May be repeated for credit. Studio.

MTC 755 Music Composition Technology. (3) N
Advanced study in digital sampling, synthesis, sequencing, computer-generated sound, and computer/performer interfaces. May be repeated for credit. Lecture, lab. Prerequisites: MTC 436 and 437 or equivalents.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

MUSIC EDUCATION (MUE)

MUE 540 Introduction to Research in Music Education. (3) F, SS
Survey of research methods and literature in music education. Focus on interpretation and evaluation.

MUE 549 Foundations of Music Education. (3) A
A treatment of historical perspectives, philosophy-aesthetics identified with music education, and learning theories applied to music teaching/learning. Basic research and writing skills appropriate to graduate studies in music education.

MUE 550 Studies in Music Curricula. (3) A
Scope and sequence of musical experiences. Development of criteria for the evaluation of music curricula.

MUE 551 Advanced Studies in Elementary School Music. (3) A
For experienced teachers; organization and content of the general music classes in kindergarten and the first 6 grades of elementary school. Emphasis on teaching music reading and ear training to young children.

MUE 552 Advanced Studies in Secondary General Music. (3) A
Organization and content of school music classes that are not performance oriented.

MUE 553 Contemporary Elementary Music. (3) N
Identification and development of materials and techniques for teaching special units of music study to elementary (K–8) children.

MUE 560 Jazz Pedagogy. (3) S 2001
Study of pedagogy, repertoire, and technique of instruction in jazz styles, ensemble techniques, and performance practice for school ensembles. Lecture, lab, discussion, observation. Prerequisite: M.M., Music Education major.

MUE 562 Jazz Ensemble Rehearsal Techniques. (1) F, S
Conducting and rehearsal techniques for school jazz ensembles. Lab. Prerequisite: M.M., Music Education major.

MUE 564 Instrumental Music, Advanced Rehearsal Techniques. (3) A
An in-depth analysis of instrumental techniques in preparation for a thorough discussion of band tuning problems and solutions. Discussion of productive conducting and rehearsal techniques for school music teachers.

MUE 566 Instrumental Literature for Schools. (3) A
Comprehensive study and analysis of all types of instrumental music.

MUE 568 Choral Music, Advanced Rehearsal Techniques. (3) A
Musical and vocal techniques necessary for presentation of choral literature. Analysis and experimentation with psychological, acoustical, and other problems of rehearsal and performance.

MUE 570 Choral Literature for Schools. (3) A
Comprehensive study and analysis of choral music for the high school with special emphasis on octavo literature.

MUE 579 Psychology of Music. (3) A
The nature of musically and its evaluation. A review of recent research.

MUE 585 Vocal Acoustics and Production. (3) A
An in-depth approach to the psychological/physiological workings of the vocal mechanism.

MUE 733 Contemporary Issues and Research in Music Education. (3) A
Emphasis upon recent research relating to music instruction at all levels; current and historical issues in choral, general, and instrumental music.

MUE 744 Higher Education Instruction. (3) A
Philosophical and psychological principles of college/university teaching. Patterns of music teacher education and a projection of course outlines.

MUE 755 Philosophy and Aesthetics in Music Education. (3) SS
Philosophy and aesthetics as they influence curriculum content and teaching procedures.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

MUSIC PERFORMANCE (MUP)

MUP 507 Group Piano Practicum. (2) F
Curricula, materials, and teaching techniques for group teaching at the university and community college levels. Observation/supervised teaching in group piano.

MUP 508 Studio Observation. (1) F, S
Weekly observation of studio teaching by various piano faculty. Paper as final requirement. Prerequisite: M.M., performance/pedagogy piano student.

MUP 509 Jazz Keyboard Harmony. (1) F
Emphasis on jazz chords and chord progressions, harmonization, voicing, and analysis of transcriptions. Lab. Prerequisite: M.M., Music Education student.

MUP 510 Jazz Keyboard Harmony. (1) S
Continuation of MUP 509. Lab. Prerequisite: MUP 509.

MUP 511 Studio Instruction. (2) F, S
For majors in Music degree program. Bassoon, cello, clarinet, contrabass, cornet, euphonium, flute, guitar, harp, harpsichord, horn, oboe, organ, percussion, piano, saxophone, trombone, trumpet, tuba, viola, violin, voice. Minimum contact of 1 hour plus studio class weekly. May be repeated for credit. May not be taken for audit. Prerequisites: placement examination and audition.
MUP 517 Advanced Improvisation. (1) F
Improvisation techniques within the context of advanced jazz literature. Must be taken in sequence with MUP 518. Lab. Prerequisites: placement examination and audition.

MUP 518 Advanced Improvisation. (1) S
Continuation of MUP 517. Lab. Prerequisite: MUP 517.

MUP 521 Studio Instruction. (1) F, S, SS
For secondary or minor instrument instruction and nonmajors in the university. Bassoon, cello, clarinet, contrabass, cornet, euphonium, flute, guitar, harp, harpsichord, horn, oboe, organ, percussion, piano, saxophone, trombone, trumpet, tuba, viola, violin, voice. Minimum contact of 1/2 hour per week. May be repeated for credit. May not be taken for audit. Prerequisites: placement examination and audition.

MUP 527 Studio Instruction. (2 or 4) F, S
For Performance majors in Master of Music degree program only. Bassoon, cello, clarinet, contrabass, cornet, euphonium, flute, guitar, harp, harpsichord, horn, oboe, organ, percussion, piano, saxophone, trombone, trumpet, tuba, viola, violin, voice. Minimum contact of 1/2 hour per week. May be repeated for credit. May not be taken for audit. Prerequisites: placement examination and audition.

MUP 540 Advanced Conducting. (3) F

MUP 541 The Art Song. (3) N
Seminar on solo song from its beginning to the present day.

MUP 544 Chamber Orchestra. (1) F, S
Important masterpieces from all periods of music will be performed throughout the year. May be repeated for credit. Prerequisite: instructor approval.

MUP 545 Symphony Orchestra. (1) F, S
Open on the basis of audition with the director. Masterpieces of symphony orchestra literature. Three times per week. May be repeated for credit.

MUP 546 Sinfonietta. (1) F, S
Symphonic orchestra that presents approximately six concerts annually, performing masterpieces of the classical repertoire. 3 times per week. May be repeated for credit. Prerequisite: audition with director.

MUP 550 Choral Union. (1) F, S
Open to all students in the university and to interested singers in the community by audition. Preparation and performance of the larger choral works. 2 hours per week. May be repeated for credit.

MUP 551 Repertoire. (2) N
Literature available for performance in all performing media. May be repeated for credit.

MUP 552 Concert Choir. (1) F, S
Important masterpieces from all periods of music will be performed. May be repeated for credit. Prerequisite: instructor approval.

MUP 553 University Choir. (1) F, S
4 hours per week. May be repeated for credit. Prerequisite: instructor approval.

MUP 555 Men's Chorus. (1) F, S
Open to all male students in the university who can qualify on the basis of auditions. Rehearsal and performance of music for male voices. 3 hours per week. May be repeated for credit. Prerequisite: instructor approval.

MUP 557 Women's Chorus. (1) F, S
2 hours per week. May be repeated for credit. Prerequisite: instructor approval.

MUP 561 Marching and Concert Bands. (1) F, S
Open by audition only. Staging of formations and drills for football games and other events (fall); masterpieces of symphonic band literature (spring). Meets daily. May be repeated for credit.

MUP 570 Music Theatre: Techniques. (1) F, S
Exercises and improvisations for the singing actor emphasizing body awareness, isolations, and freedom of the vocal and breath mechanisms. Section 1 (interpretation); Section 2 (expression); Section 3 (Movement for Singers). Each section: 3 hours per week. May be repeated for credit.

MUP 571 Music Theatre: Workshops. (1) F, S
Development of specific skills for the musical-dramatic interpretation. Section 1 (role preparation); Section 2 (styles); Section 3 (opera scene); Section 4 (musical comedy); Section 5 (revue ensembles). Each section: 1 hour lecture, demonstration, 1 lab per week. May be repeated for credit.

MUP 572 Music Theatre: Orchestras. (1) F, S
Open to all students who can qualify on the basis of auditions with the instructor. Participation in Lyric Opera Theatre productions. Section 1 (Orchestra); Section 2 (Chamber Orchestra); Section 3 (Chamber Ensembles). May be repeated for credit. Prerequisite: instructor approval.

MUP 573 Music Theatre: Performance. (1) F, S
Open to all students who can qualify on the basis of auditions with the instructor. Participation in Lyric Opera Theatre productions. Section 1 (Principal Roles); Section 2 (Chorus). May be repeated for credit. Prerequisite: instructor approval.

MUP 574 Music Theatre: Production. (1) F, S
Participation in Lyric Opera Theatre productions. Section 1 (Vocal Performance); Section 2 (Technical Music Theatre); Section 3 (Problems in Production) to be taken concurrently with MUP 373, Section 2. May be repeated for credit.

MUP 576 New Music Ensemble. (1) F, S
Rehearsal and performance of music written in the last 20 years. May be repeated for credit. Prerequisite: instructor approval.

MUP 579 Chamber Music Ensembles. (1) F, S
String, brass, woodwind, percussion, keyboard, vocal, and mixed ensembles. 2 hours per week. May be repeated for credit. Prerequisite: instructor approval.

MUP 581 Performance Pedagogy and Materials. (2) N
Principles and methods of performance techniques for each performance field. May be repeated for credit.

MUP 585 Percussion Ensemble. (1) F, S
Rehearsal and performance of standard and original repertoire for the percussion ensemble and related instruments. 2 hours per week. May be repeated for credit. Prerequisite: instructor approval.

MUP 586 Stage Band. (1) F, S
Rehearsal and performance of literature for the stage band. 4 hours per week. May be repeated for credit. Prerequisite: instructor approval.

MUP 587 Ethnomusicology Ensembles. (1) F, S
Performance learning experience for the music of various cultures of the world. May be repeated for credit. Prerequisite: knowledge of instrument or instructor approval.

MUP 588 Piano Accompanying. (1) F, S
Performance majors with a concentration in piano accompanying (others at the discretion of the instructor). Piano accompaniments found in vocal and instrumental literature; discussion of styles and performance practices; experience in public performance. 2 hours per week. May be repeated for credit.

MUP 591 Seminar. (1–12) N
MUP 595 Continuing Registration. (1) N
MUP 596 Solo Performance. (1) F, S
For Master of Music candidates in applied music only. May be full recital, major operatic role, solo performance with orchestra, ensemble, or lecture recital.

MUP 597 Solo Performance. (1) F, S
See MUP 596.

MUP 671 Choral Repertoire. (3) N
Examination of large choral/orchestral works to determine their musical and textual characteristics from a conductor’s point of view.

MUP 727 Studio Instruction. (2 or 4) F, S
For D.M.A. candidates only. Minimum contact of 1 hour per week. May be repeated for credit.

MUP 792 Research. (1–12) N
MUP 796 Solo Performance. (1–15) F, S
For D.M.A. candidates only. May be repeated for credit.

MUP 799 Dissertation. (1–15) N
Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.
Natural Science

The Master of Natural Science (M.N.S.) degree offers the opportunity for interdisciplinary graduate training in the natural sciences (biological sciences, mathematics, and physical sciences) and cognate areas. The degree program is especially suited for individuals who desire professional training rather than research training. Because of designed flexibility, the degree also offers the opportunity for individualized professional graduate programs depending upon the backgrounds and goals of the students. The major is Natural Science and the student is expected to emphasize course work in two or more areas of concentration. The program must be interdisciplinary. More information can be found under the various majors in the natural sciences and by contacting faculty offering these concentrations:

1. biology,
2. chemistry,
3. geology,
4. mathematics,
5. microbiology,
6. physics, and
7. plant biology.

Admission. See “Admission to the Graduate College,” page 92. A prerequisite for admission is the availability of resources for the proposed program and a faculty member in one of the departments to serve as graduate advisor. The submission of scores on the GRE (verbal, quantitative, and analytical) is required of all applicants.

Supervisory Committee. The supervisory committee, consisting of three faculty members, is appointed by the dean of the Graduate College upon the recommendation of the chair of the academic unit in which the graduate advisor serves as a faculty member. The supervisory committee is formed soon after the student has been admitted to the degree program. The graduate advisor and student suggest names of persons to serve on the supervisory committee. The composition of the supervisory committee must reflect the interdisciplinary nature of the program.

Program of Study. A program of study is recommended by the supervisory committee after conferring with the student. The minimum number of semester hours required for the degree is 30. More may be required by the supervisory committee depending upon the background of the student and the nature of the proposed program. In some cases undergraduate courses may be required to remove deficiencies.

Foreign Language Requirements. None.

Final Examinations. A final written or oral examination, or both, is required. Each examination is administered by the supervisory committee.

COURSES

For course information, refer to the catalog sections of the majors corresponding to the M.N.S.

Nursing

Pamela Kidd
Associate Dean for Graduate Programs and Research
(NUR 448) 480/965-3948

INSTRUCTOR
ROSDAHL

The faculty in the College of Nursing offer a graduate program leading to the M.S. degree in Nursing. Concentrations are available in one of the following areas:

1. adult health nursing,
2. community health nursing,
3. community mental health/psychiatric nursing,
4. family health nursing,
5. nursing administration, and
6. parent-child nursing with the tracks of the childbearing family and nursing of children.

The purpose of the graduate program is to provide an academic environment that fosters scholarship, critical thinking, creativity, and prepares nurses for leadership as nurse specialists and beginning researchers. The graduate program offers advanced level courses that can be used as a base for doctoral study and for functional role development in teaching, management, or practice as a nurse practitioner.

The master’s program is designed to prepare graduates to

1. synthesize advanced knowledge using concepts, theories, principles, and research from nursing, humanities, and sciences to develop advanced nursing practice knowledge which emphasizes the holistic approach;
2. demonstrate leadership, management, and teaching abilities in advanced nursing practice;
3. assume leadership, responsibility, and accountability for holistic therapeutic interventions within or across levels of care for diverse clients including individuals, families, groups, or communities;
4. participate in professional nursing organizations and political arenas;
5. participate in research and utilize research findings;
6. communicate scholarly ideas and professional knowledge to colleagues, other disciplines, and the public;
7. provide leadership in collaboration with clients and other health care professionals in the planning and delivery of holistic health care that is responsive to changing needs and societal trends;
8. examine critically the health of populations and related health care issues; and
9. demonstrate lifelong personal and professional learning.

Functional Areas. The curriculum also provides creative study in teaching, management, and clinical nurse practitioner role, including adult, pediatrics, women’s health, psychiatric, and family. In addition, students may pursue special interests, such as health problems of selected groups, or unique aspects of the student’s area of concentration.

A post-master’s Family Nurse Practitioner certificate program is available. The College of Nursing and the School of Health Administration and Policy also offer a concurrent M.H.S.A./M.S. in Nursing (with a concentration in nursing administration) degree program enabling students to pursue concurrent work in health services administration and nursing administration. For more information, see “Master of Health Services Administration,” page 218.

MASTER OF SCIENCE

See “Master’s Degrees,” page 101, for general requirements.

Admission. See “Admission to the Graduate College,” page 92.

Admission to graduate status in the College of Nursing is based upon meeting the following requirements:
1. junior or senior status or a cumulative GPA equal to 3.00 (4.00 = A);
2. a baccalaureate degree in nursing accredited by a nationally recognized accrediting agency;
3. current Arizona license to practice as a registered nurse and/or to enroll in some nursing practicum courses;
4. satisfactory completion of the Graduate Record Examination in the past five years with scores of 500 or higher in each of the three areas preferred;
5. one year of work experience in a relevant area of professional nursing (additional years may be required for nurse practitioner roles);
6. a descriptive statistics course in a college or university with a grade of “C” or higher, and an inferential statistics course with a grade of “B” or higher;
7. recommendations from three professional persons knowledgeable about the applicant’s academic and nursing leadership potential;
8. an interview with a representative of the specialty area;
9. eligibility for admission to the Graduate College;
10. completion of the TOEFL with a score of 550 or higher and of all requirements for the Commission on Foreign Graduate Nursing Schools (CFGNS) if considered an international student; and
11. completion of a baccalaureate level health assessment course within the preceding five years for all nurse practitioner programs.

Applicants who reside and work, or plan to reside and work, in rural or medically underserved areas are encouraged to apply for admission. Applications to the program are due February 1.

Supervisory Committee. The dean of the Graduate College, upon recommendation of the College of Nursing associate dean for Graduate Programs and Research, appoints the supervisory committee. The supervisory committee recommends the program of study, administers any special qualifying examinations, administers the final oral examination, and approves the thesis or the nonthesis project option.

Program of Study. The program of study for the M.S. degree consists of a minimum of 40 semester hours for the nursing administration and community health areas and 47–53 hours for nurse practitioner role specialty areas.

The program of study for the M.S. degree in Nursing requires the completion of a strong research component. This requirement can be accomplished by either of two pathways: (1) completion of the required research course and six hours of thesis or (2) completion of the nonthesis option that includes the required research course (three hours), the research utilization course (three hours), the applied project course (one hour), and a presentation of the completed requirements. The completed project and presentation are evaluated by the student’s supervisory committee.

Foreign Language Requirements. None.

Degree Requirements. The student must successfully complete the following as defined by the supervisory committee and as approved by the dean of the Graduate College:
1. the program of study,
2. a comprehensive written examination as required,
3. a thesis and final oral examination in defense of the thesis or nonthesis option project.

RESEARCH ACTIVITY

The faculty and student research projects of the College of Nursing reflect a wide array of research interests. Studies have focused on the nursing profession, the nursing process, and the broad spectrum of health promotion, health maintenance, and developmental processes pertinent to nursing and health care.

Examples of faculty research include research in the area of minorities, such as studies on the utilization of health care by Latino mothers and their children; Latino and non-Latino caregivers of the elderly; African American women and cardiovascular disease; health care of Native Americans; and battering in pregnant Latino women. Additional research focuses on the special health needs of homeless children; care of the elderly, including home health care; sociocultural influences on functional health in women; chronic illness in children and adults; family violence; various women’s health issues; pediatric infectious diseases and
family communication; children’s temperament; and biomedical ethics, clinical decision making, and community health nursing.

COMMUNITY HEALTH PRACTICE (CHP)

CHP 598 Special Topics, (2–4) N
(a) Community Assessment and Analysis, (3) S
Provides training and experience in community assessment and analysis applicable to public health practice. Lecture, discussion, student exercises, presentations.
(b) Foundations for Community Health Practice, (3) F
The organization, core functions, and services of public health. Presentation, discussion, cooperative learning strategies, student presentations.
Prerequisite: admission to the Nursing graduate program or admission to the community health practice concentration of the Arizona graduate program in Public Health or instructor approval.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

NURSING (NUR)

NUR 500 Research Methods, (3) F, S
Research methods including research conceptualization and design in nursing. Prerequisites: admission to graduate Nursing program; graduate-level inferential statistics course.

NUR 501 Advanced Adult Health Assessment/Promotion: Advanced Theory I, (4) F
Designed to expand adult health assessment/promotion skills through knowledge/strategies essential for developing and interpreting data. Lecture, demonstration. Prerequisite: all core and flexible core courses except thesis/project. Corequisite: NUR 580.

NUR 502 Management and Maintenance of Adults with Chronic Health Alterations: Advanced Theory II, (4) S
Includes theory/research that guides the management/maintenance of adults with chronic health alterations. Psychophysiological interrelationships of illnesses emphasized. Lecture, seminar. Prerequisites: NUR 501; all core and flexible core courses except thesis/project. Pre- or corequisite: NUR 580.

NUR 503 Management and Maintenance of Adults with Acute Health Alterations: Advanced Theory II, (3) S

NUR 521 Community Mental Health/Psychiatric Nursing: Advanced Mental Health Assessment, (3) F
Students gain knowledge of theories related to holistic health assessment for the promotion of physical/psychological health and development of mental health assessments. Lecture, seminar, lab. Prerequisite: all core and flexible core courses except thesis/project.

NUR 522 Community Mental Health/Psychiatric Nursing: Advanced Theory I, (3) F
Analysis of issues, theories, and research in restoration and promotion of mental health. Emphasizes development of conceptual framework for psychiatric nursing. Prerequisites: NUR 521; all core and flexible core courses except thesis/project. Corequisite: NUR 580.

NUR 523 Community Mental Health/Psychiatric Nursing: Advanced Theory II, (3) S
Focus of this course is development of theoretical basis for intervention and knowledge base for collaboration and consultation in the mental health area. Prerequisites: NUR 522; all core and flexible core courses except thesis/project. Corequisite: NUR 580.

NUR 524 Psychoneuroimmunology Approaches to Practice, (3) SS
Overview of theories, concepts, and research in psychoneuroimmunology including physiological aspects and application to a holistic nursing model. Seminar. Prerequisite: admission to graduate Nursing program.

NUR 531 Nursing of Children: Advanced Theory I, (3) F
Focus on current practices, research, and issues related to health promotion and disease prevention for children and adolescents. Lecture, seminar. Prerequisite: all core and flexible core courses except thesis/project. Corequisite: NUR 580.

NUR 532 Nursing of Children: Advanced Theory II, (3) S
Focus on concepts, theories, and research as basis for strategies related to management of illness and health maintenance for children. Lecture, seminar. Prerequisites: NUR 531; all core and flexible core courses except thesis/project. Corequisite: NUR 580.

NUR 533 Nursing of Children with Special Needs: Advanced Theory II, (3) S
Focus on concepts, theories, and research related to acute and chronic health deviations of children. Lecture, seminar. Prerequisite: NUR 531 or instructor approval. Prerequisites: NUR 531 (or instructor approval); all core and flexible core courses except thesis/project. Corequisite: NUR 580.

NUR 534 Women’s Health: Advanced Theory I, (4) F
Focuses on theories, principles, and research related to managing the health of normal perinatal women and families. Cooperative learning strategies. Prerequisite: all core and flexible core courses except thesis/project. Corequisite: NUR 580.

NUR 535 Women’s Health: Advanced Theory II, (4) S
Focuses on management of nursing care for high-risk perinatal women and women with common health problems. Cooperative learning strategies. Prerequisites: NUR 534; all core and flexible core courses except thesis/project. Corequisite: NUR 580.

NUR 551 Theoretical Foundations of Advanced Practice Nursing, (3) F, S
Designed to facilitate student exploration and examination of the foundations of advanced nursing practice. Lecture, seminar. Prerequisite: admission to graduate Nursing program.

NUR 552 Health Care Issues and Systems, (3) F, S
Analysis of organization, financing, service delivery and outcomes of the health system. Emphasizes policy issues, roles, and challenges for nurses. Lecture, seminar. Prerequisite: admission to graduate Nursing program.

NUR 553 Life Span Development, (3) F
Critical examination of concepts, theories, issues, and research related to developmental periods throughout the life span. Biological and health, cognitive, psychological, and sociocultural influences are analyzed. Lecture, discussion. Prerequisite: admission to graduate Nursing program.

NUR 554 Population-Based Health Care, (3) F, S
Identification and assessment of specific community health needs and health care patterns of target populations. Promotion, protection, and improvement of health is addressed when planning health care services. Lecture, seminar. Prerequisite: admission to graduate Nursing program.

NUR 555 Advanced Pediatric Health Assessment, (2) S
Expansion of basic health assessment skills and development of clinical problem-solving skills for advanced practice nurses. Assessments of infants, children, and adolescents included. Lecture, lab. Prerequisites: admission to graduate Nursing program; undergraduate health assessment within the last five years.

NUR 556 Advanced Health Assessment, (3) S
Expansion of basic health assessment skills and development of clinical problem-solving skills for advanced practice nurses. Assessments of infants, children, adolescents, and adults included. Lecture, lab. Prerequisites: admission to graduate Nursing program; undergraduate health assessment within the last five years.

NUR 561 Advanced Practice Nursing Role, (2) SS
Focuses on the examination and implementation of the role of the advanced practice nurse, emphasizing major components and subcomponents of the role. Lecture, seminar. Prerequisite: admission to graduate Nursing program or instructor approval.

NUR 562 Family Nurse Practitioner Advanced Theory I: Health Promotion, Management, and Maintenance, (4) F
First didactic role specialty course. Focus on concepts and strategies to promote, manage, and maintain health of child, adult, and family. Prerequisite: all core and flexible core courses except thesis/project. Corequisite: NUR 580.

NUR 563 Family Nurse Practitioner Advanced Theory II: Health Promotion, Management, and Maintenance, (4) S
Second didactic role specialty course utilizing knowledge from previous courses to formulate therapeutic promotion, management, and maintenance for individuals across the life span. Prerequisites: NUR 562; all core and flexible core courses except thesis/project. Corequisite: NUR 580.
NUR 564 Applied Pharmacotherapeutics for Advanced Practice. (3) S
Lifespan course for advanced nurse practitioners to expand knowledge of pharmacotherapeutic concepts and principles. Lecture, discussion, case studies. Prerequisite: admission to graduate Nursing program.

NUR 565 Applied Physiology/Pathophysiology in Advanced Practice. (3) S
Advanced nurse practitioner course designed to expand previously acquired anatomy and physiology knowledge and discern pathological alterations across the lifespan. Lecture, seminar, case studies. Prerequisite: admission to graduate Nursing program; undergraduate anatomy and physiology.

NUR 566 Pediatric Physiology/Pathophysiology. (3) S
Analysis of the patterns of heredity, cellular differentiation, and the development of systems in the infant to adolescent. Prerequisite: admission to graduate Nursing program.

NUR 571 Teaching in Nursing Programs. (3) N
Analysis of theories, issues, and research related to teaching in nursing. Focus on the process of teaching/learning. Seminar, cooperative learning. Prerequisite: graduate standing.

NUR 578 Gestalt Therapy I. (3) F
An introduction to theory and methodology of Gestalt therapy and its uses for mental health promotion and restoration.

NUR 579 Gestalt Therapy II. (3) S
Focus is on further development of Gestalt therapy and its application in working with various client populations. Prerequisite: NUR 578.

NUR 580 Practicum (Electives). (1–4) N
Clinical application of theories, concepts, and principles such as health promotion, health management, health maintenance, teaching, management, and special clinical studies.

NUR 580 Advanced Nursing Practicum I, II. (2–6) F, S
Clinical application of theories, concepts, and principles. The areas of concentration include the following:
(a) Adult Health Nursing
(b) Community Health Nursing
(c) Community Mental Health/Psychiatric Nursing
(d) Family Health Nursing
(e) Nursing Administration
(f) Parent-Child Nursing with the Tracks of the Childbearing Family and Nursing of Children
Prerequisite: admission to graduate Nursing program. Corequisite: NUR 501 or 502 or 503 or 522 or 531 or 532 or 533 or 534 or 535 or 562 or 563.

NUR 582 Advanced Human Physiology. (3) F
Analyzes major theories and concepts of human physiology. Interrelationship of physiology and health is explored. Prerequisite: admission to graduate Nursing program.

NUR 584 Community Health Nursing Internship. (3) S
Students operationalize community health nursing/public health content in leadership roles in a variety of community agencies. Clinical internship. Prerequisite: NUR 580.

NUR 585 Stress Reduction. (3) N
Theory, application, and evaluation of mind/body relaxation methods, including physiological effects. Research findings emphasized. Graduate student practice. Prerequisite: graduate standing or instructor approval.

NUR 586 Advanced Pathophysiology. (3) S
Manifestation of altered human physiology and disease. Systems theory is used to analyze the relationships of disease and physiology. Prerequisites: NUR 582; admission to graduate Nursing program.

NUR 589 Research Utilization. (3) F, S
Emphasis on the synthesis and application of research to an identified clinical nursing problem. Prerequisite: all core and flexible core courses except thesis/project. Corequisite: NUR 593.

NUR 591 Seminar. (2–4) N
Advanced topics, including curriculum development and health promotion. Prerequisite: instructor approval in selected courses.

NUR 593 Applied Project. (1) F, S
Preparation of a supervised applied project that is a graduation requirement in some professional majors. Prerequisite: all core and flexible core courses. Corequisite: NUR 589.

NUR 598 Special Topics. (2–4) N
Special study, including issues in health care and organizations, management in nursing, ethical issues, and clinical nurse specialist role.
(a) Community/Public Health Nursing Theory and Role. (3) S
Students analyze/synthesize the theoretical and conceptual basis of community/public health nursing applicable to current and future nursing roles. Lecture, discussion, cooperative learning strategies. Prerequisite: admission to the graduate Nursing program or admission to the community health practice concentration of the Arizona graduate program in Public Health or instructor approval.

NUR 599 Thesis. (1–6) F, S, SS
Research proposal development, data collection and analysis, thesis writing, and thesis oral defense. Six hours required. Prerequisite: all core and flexible core courses.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Nutrition
(CNTR 92) 480/727-1515
www.east.asu.edu/nutrition

PROFESSORS
MANORE, VAUGHAN
ASSOCIATE PROFESSORS
BALCAZAR, JOHNSTON, MONTE
ASSISTANT PROFESSOR
HAMPL
SENIOR LECTURER
MARTIN

The faculty in the Department of Nutrition, at ASU East, offer a graduate program leading to a M.S. degree in Nutrition. The department also offers a combined M.S./Dietetic Internship program, which is currently granted Developmental Accreditation by the Commission on Accreditation for Dietetics Education of the American Dietetic Association (ADA).

Admission. Applications for admission and graduate assistantships are accepted until February 1 preceding the fall semester to which the applicant is seeking admission. In addition to meeting Graduate College requirements, students must submit an official record of their scores on the Graduate Record Examination (verbal, quantitative, and analytical), three letters of recommendation, a resume of employment and academic experiences, and the completed departmental Supplementary Information Form. Students wishing to be considered for graduate assistantships must also complete the Graduate College and departmental forms. The prerequisites for graduate work in Nutrition are as follows: anatomy and physiology with laboratory, biochemistry with laboratory, general chemistry with laboratory, general nutrition, introductory statistics, and organic chemistry with laboratory. Admission procedures for the Dietetic Internship are explained below.

Program of Study. The program of study consists of a minimum of 31 semester hours. Required courses are FON 598 ST: Research Methods in Nutrition (or an equivalent course, with advisor approval), three to six semester hours of 500-
level statistics courses approved by an advisor, six semester hours of thesis/research credit, a one semester-hour departmental seminar (FON 591 ST: Recent Developments in Food and Nutrition), and six semester hours of Nutrition seminars selected from FON 531, 532, and/or 598. Students completing the Dietetic Internship must also complete six semester hours of FON 580 Dietetics Practicum; only three semester hours of FON 580 may be applied toward the M.S. degree. Additional courses may be selected upon consultation with an advisor.

**Foreign Language Requirements.** None.

**Thesis Requirements.** A thesis is required.

**Final Examination.** A final oral examination in defense of the thesis is required.

### RESEARCH ACTIVITY

Recent faculty research includes the following subjects: dietary patterns of U.S. subpopulations such as smokers, young children, and free-living elderly; family and community nutrition; nutrition and public health problems of Hispanics; women’s health/nutrition issues; nutrition assessment of the elderly; nutrition assessment of physically active adults; Vitamin C metabolism; vegetarian nutrition; energy balance and obesity; nutrition and exercise; breast milk/infant formula composition; food additive safety; development of nutritionally sound food products.

**Dietetic Internship.** Admission to the Dietetic Internship requires regular or unconditional admission to the Department of Nutrition’s graduate program and submission of an official Verification Statement documenting successful completion of a Didactic Program in Dietetics (DPD). If DPD requirements have not been met at the time application to the Dietetic Internship is made, students must submit an Intent to Complete form and all DDP courses must be completed prior to entering the program. Students must provide documentation that a minimum of 150 hours of clinical experience has been completed within the past five years. The Dietetic Internship does not participate in computer matching. Students must complete both the M.S. degree requirements and the Internship practicum requirements to satisfy the Dietetic Internship requirements and establish eligibility to sit for the Registration Examination for Dietitians.

**FOOD AND NUTRITION (FON)**

**FON 440 Advanced Human Nutrition I.** (3) F

Metabolic reactions and interrelationships of vitamins, minerals, and water. CHM 332 recommended. Prerequisites: BCH 361; BIO 202; FON 241 (or equivalent).

**FON 441 Advanced Human Nutrition II.** (3) S

Metabolic reactions and interrelationships of carbohydrate, lipid, and protein. CHM 331 and 332 recommended. Prerequisites: BCH 361; BIO 202; FON 241 (or equivalent).

**FON 442 Experimental Foods.** (3) F

Food product development techniques, food evaluation and testing, and investigation of current research into food composition. 2 hours lecture, 3 hours lab. Prerequisites: CHM 231; FON 142.

**FON 444 Diet Therapy.** (3) S

Principles of nutritional support for prevention and treatment of disease. Prerequisites: BIO 202; FON 241 (or equivalent).

**FON 445 Quantity Food Production.** (3) S

Standard methods of food production in quantity; operation of institutional equipment and menu planning for institutions. Experience in quantity food service. 1 hour lecture, 6 hours lab. May require field trips. Prerequisites: FON 241 (or equivalent) and 344 or instructor approval.

**FON 446 Human Nutrition Assessment Lecture/Laboratory.** (3) S

Clinical and biochemical evaluation of nutritional status. 2 hours lecture, 3 hours lab. Prerequisites: BCH 367, FON 440 (or 441).

**FON 448 Community Nutrition.** (3) F

Food-related behaviors; community organization and delivery of nutrition services; program design, implementation, and evaluation strategies; nutritional assessment of population groups. PGS 101 and SOC 101 are recommended. Prerequisite: FON 241 or equivalent. General Studies: L.

**FON 450 Nutrition in the Life Cycle I.** (3) F

Emphasis on nutritional needs and problems during pregnancy, lactation, infancy, and childhood. Prerequisite: FON 241 or equivalent.

**FON 451 Nutrition in the Life Cycle II.** (3) S

The nutritional requirements and nutrition-related disorders of adolescence, middle adulthood, and later life. Prerequisite: FON 241 or equivalent.

**FON 531 Recent Developments in Nutrition.** (3) N

Survey of research. Prerequisites: 1 course each in advanced nutrition and biochemistry.

**FON 532 Current Research in Nutrition.** (3) S

Vitamins and minerals. Prerequisites: 1 course each in advanced nutrition and biochemistry.

**FON 540 Advanced Micronutrient Metabolism.** (3) F

The metabolism of vitamins and minerals, primarily as applied to humans, with research literature emphasized. Prerequisites: 1 course each in basic nutrition and biochemistry.

**FON 541 Advanced Macronutrient Metabolism.** (3) S

The metabolism of protein, fat, and carbohydrate, primarily as applied to humans, with research literature emphasized. Prerequisites: 1 course each in basic nutrition and biochemistry.

**FON 542 Experimental Foods.** (3) F

Food product development techniques, food evaluation and testing, and investigation of current research into food composition. 2 hours lecture, 3 hours lab. Prerequisites: CHM 231; FON 142.

**FON 544 Therapeutic Nutrition.** (3) S

Current theories of the nutritional prevention or treatment of various diseases. Prerequisites: 1 course each in basic nutrition and physiology.

**FON 545 Recent Developments in Institutional Feeding.** (3) S

Current practices in institutional feeding, including supervised practicum with local quantity food operation. 1 hour lecture, 6 hours lab. Prerequisites: FON 142 and 344 or instructor approval.

**FON 548 Nutrition Program Development.** (3) F

The planning, development, implementation, and evaluation of community nutrition programs, including the process of grant applications. Prerequisites: 1 course each in basic nutrition and sociology.

**FON 550 Advanced Maternal and Child Nutrition.** (3) F

Metabolic characteristics and nutritional needs of the pregnant woman, lactating woman, infant, and child are reviewed in-depth. Prerequisites: 1 course each in basic nutrition, physiology, and biochemistry.

**FON 551 Advanced Geriatric Nutrition.** (3) S

Metabolic characteristics and nutritional requirements of the elderly are reviewed in depth. Prerequisites: 1 course each in basic nutrition and physiology and biochemistry or instructor approval.

**FON 580 Dietetics Practicum.** (3–9) F, S, SS

Structured practical experience in the Dietetic Internship, supervised by practitioners with whom the student works closely. Practicum. Prerequisite: acceptance into the Dietetic Internship.

**FON 598 Special Topics.** (1–4) N
(a) Research Methods in Nutrition

**Omnibus Graduate Courses.** See page 57 for omnibus graduate courses that may be offered.
Performance

ASSISTANT PROFESSORS
DEVLIN, MASON

The faculty in the Department of Philosophy offer a graduate program leading to the M.A. or Ph.D. degree in Philosophy. For the specific requirements of the Ph.D., contact the department.

MASTER OF ARTS

See “Master’s Degrees,” page 101, for general requirements.

Prerequisites. At least 15 semester hours of upper-division course work in philosophy, including history of philosophy, epistemology, metaphysics, and the equivalent of PHI 333 Introduction to Symbolic Logic are required. No course credits in which a grade of less than “B” has been earned may count toward meeting this 15-semester-hour requirement. Persons otherwise qualified for admission but lacking the above prerequisites may make up this deficiency by enrolling as a nondegree graduate student and taking those philosophy courses necessary to complete the prerequisite. If some or most of the prerequisites have already been met, the student may be admitted into the program under “provisional status” or under “regular status with deficiencies.” All applicants for admission to the program must submit scores for the general section of the Graduate Record Examination.

Program of Study. The M.A. degree program in Philosophy is designed to prepare students either to teach philosophy at the community college level, to enter doctoral programs in philosophy at other institutions, or to be employed in any areas that require critical, analytical thinking (such as medicine, law, government, or publishing). The program seeks to maintain a balance between a breadth of course offerings in the traditional areas of philosophy—metaphysics, ethics, epistemology, logic, and history of philosophy—and opportunities for study in current philosophical developments, such as the philosophy of science, philosophy of language, and philosophical psychology. The program of study includes at least 30 semester hours of approved graduate-level courses, not including PHI 599 Thesis. An additional six hours of PHI 599 Thesis is required. The details of each student’s program are worked out with the director of graduate studies.

Course Requirements. Each student is required to take an approved graduate-level course of three semester hours or more in each of the following areas and to obtain at least a “B” in each course: metaphysics/epistemology, value theory and logic; and any two of the following: history of early philosophy, history of modern philosophy, and history of contemporary philosophy.

Foreign Language Requirements. None.

Thesis Requirements. A thesis is required. This written work must demonstrate the ability to carry out independent research in philosophy.

Final Examinations. A final oral examination in defense of the thesis is required.

DOCTOR OF PHILOSOPHY

Prerequisites. At least 15 semester hours of upper-division course work in philosophy, including history of philosophy, epistemology, metaphysics, and the equivalent of PHI 333 Introduction to Symbolic Logic are required. No course credits in which a grade of less than “B” has been earned may count toward meeting this 15-semester-hour requirement. If some or most of the prerequisites have already been met, the student may be admitted into the program under “provisional status” or under “regular status with deficiencies.”

Admission. All applications for admission to the Ph.D. degree program in Philosophy must be accompanied by complete transcripts, the applicant’s scores in the GRE aptitude exam, three letters of recommendation from persons qualified to judge the applicant’s potential for graduate work in philosophy, a sample of philosophical writing, and a statement of purpose.

Program of Study. The Ph.D. degree program in Philosophy is designed to prepare students for careers as philosophers and teachers of philosophy, and in areas that may benefit from advanced training in philosophy, such as law, civil service, and publishing. The program of study includes 60 hours (30 beyond the M.A.) of graduate credit plus 24 hours of research and dissertation. The student’s program of study is selected by the student in consultation with the graduate director and the supervisory committee and is approved by the supervisory committee.

Course Requirements. To ensure breadth in the traditional areas of philosophy, students are required to pass these courses with a grade of “B” or higher:

1. Two graduate courses in history of philosophy. These courses must be in two different areas chosen from ancient, modern, and contemporary.
2. Two graduate courses in value theory.
3. Four graduate courses in metaphysics and epistemology (including areas such as philosophy of language, philosophy of science, and philosophy of mind).
4. One advanced course in symbolic logic (at the 400 or 500 level). Students may satisfy the logic requirement by examination.

Foreign Language Requirement. None.

Comprehensive Examination. A comprehensive examination is required. A student advances to candidacy on successfully completing the comprehensive examination.

Dissertation. A dissertation based on original research is required. Research for the dissertation is supervised by a committee of at least three faculty members, appointed by the graduate director in consultation with the student. Students must enroll for a minimum of 12 hours of Research or Dissertation credit after admission to candidacy.

Final Examination. An oral examination in defense of the dissertation is required.

RESEARCH ACTIVITY

The department offers a solid program in traditional and contemporary philosophy. Areas of recent and current faculty research include the following: belief ascription, the nature of singular propositions, time and time travel, modality and belief, philosophical problems of cognitive psychology, reference and attribution, God and modality, God and evil, divine freedom, theories of punishment and criminal law, freedom and coercion, mercy and legal justice, evolution and morality, Kantian autonomy, liberalism, social justice and basic rights, growth and character of experimenta-
tion, the rise of American biology, the roles of research traditions and working hypotheses in science, the character of theoretical entities, observation and justification, coherence theories of knowledge, foundational theories of knowledge, theories of rational choice, knowledge of oneself, the riddles of induction, skepticism, analyticity, the notion of following rules, Plato, Aristotle, ancient theories of freedom and determination, critical theory, 19th-century idealism, actualism, causality, space, time and continuity, Kant, Carnap, Quine, and Rawls.

A selection of books and forthcoming books of the faculty include the following: Perception, Reason, and Knowledge (editor); Fundamentals of Logic (co-author); Introduction to Symbolic Logic: Dear Carnap, Dear Van: The Quine-Carnap Correspondence and Related Work (editor); Analyticity: The Carnap-Quine Debate; Naming and Believing; Welches sind die wirklichen Fortschritte, die Metaphysik seit Leibniz und Wolfs Zeiten in Deutschland gemacht hat? (translator, editor); Perpetual Peace and Other Essays (translator); Transforming Traditions in American Biology, 1880–1915; Defining Biology: Lectures From the 1890’s (editor); The Coming of Age of American Biology; The Emergence of Biology in America (co-editor); Kant: The Philosophy of Right; Retribution, Justice and Therapy: Essays in the Philosophy of Law; Evolution, Morality and the Meaning of Life; The Philosophy of Law: An Introduction to Jurisprudence (co-author); Character, Liberty, and Law: Kantian Essays in Theory and Practice; Agency and Integrality: Philosophical Themes in the Ancient Discussions of Determinism and Responsibility; Retribution Reconsidered; The Continuous and the Discrete: Ancient Physical Theories from a Contemporary Perspective; Inquiry, Forms, and Substances: A Study in Plato’s Metaphysics and Epistemology; Partisan or Neutral? The Futility of Public Political Theory.

The department has also developed interdisciplinary programs linking philosophy with other disciplines, e.g., philosophy of law and history and philosophy of science and technology.

PHILOSOPHY (PHI)

PHI 401 Rationalism. (3) N
Examination of classical philosophical rationalism, as in Descartes, Spinoza, Malebranche, or Leibniz. Contemporary rationalist thought may also be examined. Prerequisites: PHI 302; 1 course from among PHI 305, 309, 312, 316, 317.

PHI 402 Empiricism. (3) N
Examination of representatives of either classical or contemporary philosophical empiricism, e.g., Bacon, Hobbes, Locke, Butler, Berkeley, Reid, Hume, Mill, Carnap, and Ayer. Prerequisites: PHI 302 and 305 (or 309 or 312 or 316 or 317). General Studies: HU.

PHI 403 Contemporary Analytic Philosophy. (3) A
Aims and methods of such 20th-century philosophers as Frege, Moore, Russell, Wittgenstein, Carnap, Ayer, Wisdom, Ryle, Austin, Strawson, Quine, and Sellars, with application to metaphysics and epistemology. Prerequisites: PHI 302; 1 course from among PHI 312, 314, 315, 316, 317, 401, 402. General Studies: HU.

PHI 413 Advanced Symbolic Logic. (3) N
Properties of formal systems axiomatizing propositional and 1st-order predicate logic. May also include modal logic, number theory, and limits of logicism. Prerequisite: PHI 333.
PHI 420 Topics in Philosophy. (3) A Course descriptions on file in department. Topics may be selected from the following:
(a) History of Philosophy
(b) Metaphysics/Epistemology
(c) Philosophy of Language/Logic
(d) Philosophy of Science
(e) Value Theory
Courses may be repeated for credit. Prerequisite: one relevant upper-division PHI course or instructor approval.

PHI 591 Seminar. (1–3) A Topics may be selected from the following:
(a) Aesthetics
(b) Epistemology
(c) Ethics
(d) History of Philosophy
(e) Logic
(f) Metaphysics
(g) Philosophy of Language
(h) Philosophy of Law
(i) Philosophy of Science
(j) Social and Political Philosophy

PHI 599 Thesis. (1–12) N

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Physical Education

MASTER OF PHYSICAL EDUCATION

The faculty in the Department of Exercise Science and Physical Education offer a program leading to the Master of Physical Education (M.P.E.) degree. The M.P.E. degree is designed to prepare scholarly professionals (i.e., teachers of physical education). Emphasis is placed on improving instructional effectiveness and developing a quality physical education curriculum in a school setting. Three areas of study are available: elementary, secondary, and adapted physical education.

Admission. Applicants who hold a bachelor’s degree in education and who are certified to teach may apply to the M.P.E. degree directly. Applicants with a bachelor’s degree in physical education but who are not certified to teach apply to the postbaccalaureate/M.P.E. degree. Deficiencies are assessed where applicable.

Program of Study. A minimum of 33 semester hours of course work is required for the M.P.E. program, with 18 hours of required core courses, six hours of cognate area, and nine hours of recommended electives. A total of 58 semester hours is required of students completing both the postbaccalaureate program and the M.P.E.

Foreign Language Requirements. None.

Final Examinations. A final written comprehensive examination is required.

COURSES
For courses, see “Exercise Science/Physical Education (EPE),” page 207.
Courses can include up to six hours of 400-level courses (see “Graduate Credit Courses,” page 97). Timely attempts at examination are also required.

Teaching experience in undergraduate physics and astronomy laboratories and recitations is valuable training for graduate students and is considered part of the graduate program.

Departmental colloquia are an integral part of the graduate program. Regular attendance at colloquia is expected of all graduate students intending to earn graduate degrees.

**MASTER OF SCIENCE**

See “Master’s Degrees,” page 101, for general requirements.

**Admission.** To be admitted without deficiencies, entering graduate students should have adequate undergraduate preparation equivalent to an undergraduate major of 30 semester hours in physics and 20 semester hours in mathematics. Courses in analytic mechanics, electromagnetism, and modern physics, including quantum mechanics, are particularly important. Students applying for admission must submit scores for the verbal, quantitative, and analytical sections of the Graduate Record Examination (GRE).

Applicants for financial support must submit a score on the physics advanced examination of the GRE. Subsequent financial support in the form of teaching or research assistantships is contingent upon satisfactory performance in course work, timely completion of the final examination for the M.S. degree as described below, and need and availability of such support. Students on probation are offered financial support only under exceptional circumstances.

**Program of Study.** The faculty in the Department of Physics and Astronomy offer the M.S. degree under two options: Track I—emphasizing physics, and Track II—emphasizing one of the following related fields:

1. astronomy and astrophysics,
2. interdisciplinary physics (e.g., with chemistry),
3. technical physics, or
4. physics teaching.

A supervisory committee is formed for each student, usually during the first year of study. In each case an appropriate program of study is selected with the approval of the supervisory committee. A research project resulting in a thesis is required of all students enrolled in the M.S. program.

**Track I**

*Physics.* An individual program of study, including courses in physics, astronomy, mathematics, or related subjects, is selected with the approval of the supervisory committee to make up a coherent program of graduate study. The courses and research project are to be conducted primarily within the Department of Physics and Astronomy.

**Track II**

*Astronomy and Astrophysics.* The AST graduate courses are taken in addition to the required graduate physics courses for the Track II M.S. program. The research project must be in the area of astronomy and astrophysics, conducted under the supervision of one or more faculty members of the Department of Physics and Astronomy who specialize in this subject.

**Interdisciplinary Physics.** The courses taken are approximately half in physics and half in some other subject area. The research project must be in an interdisciplinary area and conducted under the joint supervision of one faculty member from the Department of Physics and Astronomy and one faculty member from another department.

**Technical Physics.** The research project involves active collaboration with some industrial or government laboratory under the supervision of a faculty member from the Department of Physics and Astronomy and may be conducted either in the Department of Physics and Astronomy or in the outside laboratory. At least half the courses taken must be in physics.

**Physics Teaching.** The course of study and research are designed to prepare for a career in physics teaching, with appropriate modifications for teaching at the high school or community college level. At least half the courses taken must be in physics. Students participate in directed, evaluated teaching experiences.

**Foreign Language Requirements.** None.

**Thesis Requirements.** A thesis is required of all students obtaining the M.S. degree. Every student must obtain at least six semester hours in PHY 592 or PHY 599. However, no more than nine semester hours in these courses can be counted toward the 30 semester hours required for the M.S. degree.

**Final Examinations.** The final examination for the M.S. degree is an oral examination on the subject of the student’s thesis and on graduate course work taken.

**DOCTOR OF PHILOSOPHY**

See “Doctor of Philosophy,” page 104, for general requirements.

**Admission.** This program is designed for students of high ability who show promise for independent research. An applicant holding a baccalaureate degree should have the same undergraduate preparation as for admission to the master’s program. An applicant presenting acceptable graduate credit, earned at this or another institution must demonstrate mastery of this material on the “Written Comprehensive Examination,” and the “Oral Comprehensive Examination,” page 273.

Students applying for admission must submit scores for the verbal, quantitative, and analytical sections of the GRE.

Applicants for financial support must submit a score on the physics advanced examination of the GRE. Subsequent financial support in the form of teaching or research assistantships is contingent upon satisfactory performance in
course work, timely completion of examinations, including the written and oral Ph.D. comprehensive examinations as described below, and need and availability of such support. Students on probation are offered support only under exceptional circumstances. The period for which a Ph.D. candidate may receive financial support through the Department of Physics and Astronomy will not normally exceed six years.

Program of Study. In order to accommodate the needs for training in preparation for the wide variety of occupations of professional physicists and astrophysicists, in areas ranging from academic faculty to industrial research to administrative positions, doctoral degree programs are offered under two tracks: physics (Track I) and astrophysics, applied physics, or interdisciplinary physics (Track II). The goal is to provide, through course work and independent study, competence at advanced levels in fundamental, applied and interdisciplinary branches of physics and astronomy, and demonstrated ability in independent research.

Students enrolled in the Ph.D. program may obtain an “M.S. degree in passing” by satisfactorily filing and completing an M.S. Program of Study, obtaining a GPA of at least 3.00 in a set of core courses which total 24 semester hours, and passing a written comprehensive examination. The core courses shall be those designated for one of the tracks in the Ph.D. program. Graduate core courses satisfactorily completed at other institutions may be waived upon petition by the Graduate Program Committee. Up to nine semester hours of classroom-based courses may be substituted for core courses that are waived by the Graduate Program Committee.

Each student’s progress is overseen by a supervisory committee appointed for the student usually during the first year of study. This committee also approves the student’s program of study.

Track I

Physics. The student’s individual program includes courses selected, with the approval of the supervisory committee, to make up a coherent program for the achievement of these goals. The program may be directed toward either theoretical or experimental aspects, and frequently includes courses in cognate fields, particularly mathematics, depending on the student’s selected field.

Track II

Applied Physics. Under advisement by the supervisory committee, a program of study is selected with a major portion in physics and a minor portion (nine semester hours or more to be passed with at least a “B” average) in another area. The supervisory committee should include appropriate representation from the minor area.

Astronomy and Astrophysics. The following six AST 598 graduate courses are required for all students enrolled in the astronomy and astrophysics graduate program:

- AST 598 ST: Astronomical Data Taking and Data Reduction
- AST 598 ST: Cosmology and High-Energy Astrophysics
- AST 598 ST: Extragalactic Astronomy
- AST 598 ST: Galactic Structure
- AST 598 ST: Interstellar Medium and Gaseous Astrophysics
- AST 598 ST: Stellar Interiors and Stellar Evolution

Course Requirements. The following basic core of courses, or their equivalents, is required of both Track I and Track II students:

<table>
<thead>
<tr>

</table>

Additional course work in both tracks is selected with the advisement and approval of the supervisory committee.

Foreign Language Requirements. None.

Comprehensive Examinations. The following examinations are required of all students intending to earn the Ph.D. degree.

Master of Science Degree in Passing. Students enrolled in the Ph.D. degree may be awarded an M.S. degree in passing.

Written Comprehensive Examination

Track I. The subject matter of this examination is classical and quantum mechanics, statistical mechanics, and electricity and magnetism, as represented by the courses PHY 521, 531, 532, 541, 576, and 577. The examination is given in two four-hour sessions on separate days, but there is no division of subject matter for the separate sessions.

Track II. This examination consists of parts A and B.

Part A emphasizes quantum mechanics, classical mechanics, and electricity and magnetism, as represented by the courses PHY 416, 521, and 531, and is written in a four-hour examination period.

For all Track II students except astronomy and astrophysics students, Part B is a written examination prepared by the student’s supervisory committee and approved by the graduate examination committee. The Part B Track II examination for astronomy and astrophysics students is prepared by the astrophysics subcommittee of the graduate examination committee, and is based mostly on the course material presented in the AST courses. Part B of the Track II exam is given within three days after the Part A exam. The Part B exam for astronomy and astrophysics students is graded by the astrophysics faculty; Part B for all other Track II students is graded by their supervisory committee, under the supervision of the graduate examination committee.

The written comprehensive examination is normally given twice yearly, approximately during registration weeks of the fall and spring semesters. Ph.D. candidates must attempt the examination before the beginning of their fifth semester as full-time students in the physics graduate program and must pass the examination before the beginning of the sixth semester.
Oral Comprehensive Examination

Ph.D. candidates are required to pass the oral comprehensive examination by the end of their sixth semester as full-time students in the physics graduate program. The examination is administered and graded by the student’s supervisory committee. It tests the student’s general knowledge of one of the following four broad areas of current activity in physics:

1. astronomy and astrophysics,
2. atomic and molecular physics,
3. nuclear and particle physics, and
4. solid-state and many-body physics.

The area tested is to be chosen by the student at the time of scheduling of the examination. The student may request to be examined on specific subjects in addition to one of the above areas. In all cases, a student’s specific dissertation topic, should it exist at the time of the examination, is to be excluded from the material covered by the examination.

Dissertation Requirements. A dissertation representing an original contribution to the field, as a result of independent work suitable for publication in a refereed physics or astronomy journal, is required.

Final Examinations. A final oral examination that covers, but is not necessarily limited to, the subject of the dissertation is required.

RESEARCH ACTIVITY

The Department of Physics and Astronomy is engaged in a large number and a broad spectrum of research activities. The following is a list of current and recent research interests of the faculty.

Applied Physics. Mechanisms of inelastic effects of particle-solid interactions; surface characterization and depth-profiling by secondary ion mass spectrometry and sputter-induced photon spectroscopy; surface structure determination by low-energy ion-scattering spectrometry; and scanning tunneling microscopy.

Astronomy and Astrophysics. Comets, hydrodynamic studies of compact stellar objects and of novae outbursts; ultraviolet observations of novae in eruption; stellar atmosphere studies of supernovae, novae, and cool stars; pulsating white dwarfs and hot, evolved stars; studies of the interstellar medium, ionized regions and dust in our galaxy; normal galaxies; 21 cm HI studies of galaxies; stellar populations; dynamics and kinematics of galaxies; classification of spiral galaxies; clusters of galaxies; galaxy formation and evolution; distribution of matter in space; quasars and active galaxies.

Experimental Condensed Matter Physics. Lattice dynamics of crystals near the covalent-ionic boundary; superionic conductors; optical studies at high pressures; NMR and related magnetic measurements in small particles and metal ammonia compounds; resonance Raman spectroscopic studies of electron-phonon interactions and Raman and Brillouin scattering studies of phonon-phonon interactions; picosecond and frequency domain Raman studies of semiconductors; dielectric measurements of various polymer systems; scattering by transverse waves in polymers; tandem interferometer studies of polymer dynamics; EXAFS studies of local environments in solids; magnetic and structural properties of compositionally layered materials; magnetic properties of metallic thin films; organic low-dimensional conductors; and spin glasses.

Theoretical Condensed Matter Physics. Resonance Raman scattering; development of techniques for photoacoustic measurement of the photophysical properties of biological molecules; electronic structure of solids; band gap levels in semiconductors due to defects and surfaces; dynamics and transport properties of perfect and imperfect crystals; electron-phonon interaction, phonons in superfluid He; and ab initio calculations of the structural and electronic properties of semiconductor surfaces.

Diffraction Physics. Development of techniques and the theoretical basis for electron microscopy and electron diffraction; the design and construction of electron optical instruments and attachments; determination of the structures of crystals and of their defects and disorder by the scattering of electrons and the generation of secondary radiation using ultra high-resolution microscopy; scanning transmission electron microscopy; microdiffraction, and micro-analysis; the structure and reactions of solid surfaces studied by high resolution imaging, diffraction, and spectroscopies; channeling phenomena and their application in the analysis of crystals; the electronic states of surfaces and defects in solids; scanning Auger spectroscopy; growth of overlayers on surfaces.

Theoretical High Energy and Particle Physics. Dispersion relation phenomenology; pion-nucleon scattering and associated reactions; current algebra; models of chiral symmetry breaking; electromagnetic interactions of hadrons; gauge field theories; and unified gauge field theories.

Experimental Nuclear Physics. Meson physics, including pion-induced reactions (such as pion-nucleon and pion-nucleus scattering, charge exchange, and absorption), pion decay and meson photoproduction; proton-nucleus scattering and reactions at medium energies; polarization measurements, including observables for polarized targets; electron scattering and electro-nuclear reactions in few-body systems; studies of nucleon resonances with real and virtual photons; studies of subnuclear degrees of freedom.

Theoretical Nuclear Physics. Charge exchange reactions of pions with light nuclei; three-body problems; kaonic and antiprotonic atoms; electron-nucleus interactions; and nuclear form factors.

Science Education. Theoretical and experimental work related to the development of advanced logical and analogical reasoning, and problem solving heuristics and concepts through science instruction; attitudes towards science; role of peer interaction; evaluation of preservice and in-service teacher education programs; role of cultural influences.

Theoretical Physics. Local observables in quantum theory; electron theory; and applications of the WKB method.

ASTRONOMY (AST)

AST 421 Astrophysics I. (3) F
Selected astrophysical topics, including: stellar evolution, star formation, interstellar medium, galactic structure, extragalactic astronomy, high-energy astrophysics, and cosmology. Prerequisites: AST 321, 322; PHY 311, 314.

AST 422 Astrophysics II. (3) S
Same range of astrophysical topics as for AST 421 but different specific topics are emphasized in a given year. Prerequisites: AST 321, 322; PHY 311, 314.
PHYSICS (PHY)

PHY 412 Classical Particles, Fields, and Matter III. (3) F
Electromagnetic fields of moving charges, Maxwell's equations, harmonic phenomena, oscillations, waves, electromagnetic radiation, covariant electromagnetism, introduction to general relativity. Prerequisites: PHY 311, 315. Corequisite: PHY 416 or instructor approval.

PHY 415 Quantum Physics III. (3) F
Introduction to the quantum theory of atoms, molecules, solids and nuclei, Dirac's equation. Prerequisites: PHY 311, 315. Corequisite: PHY 412 or instructor approval.

PHY 420 Research Paper. (1) F, S
Scientific report writing. Culminates in a paper based on library or laboratory research or both. Taken in conjunction with other courses as approved. Conference. Prerequisite: instructor approval. General Studies: L.

PHY 441 Statistical and Thermal Physics I. (3) F

PHY 442 Statistical and Thermal Physics II. (3) S

PHY 452 Physical Optics. (3) F
Principles of reflection, refraction, diffraction. Additional topics from contemporary optics may include Fourier transform spectroscopy, linear systems theory, holography. 2 hours lecture, 2 hours lab. Prerequisites: PHY 302, 311, 315. Corequisite: PHY 412.

PHY 462 Nuclear and Particle Physics. (3) S
Static properties of nuclei, natural and induced radioactivity, nuclear reactions, nuclear models and energy levels, mesons and hyperons, and interaction of photons and electrons with matter. Prerequisites: PHY 311, 315.

PHY 465 Advanced Laboratory II. (2) F, S
Continuation of PHY 334. Students are encouraged to substitute laboratory research project in consultation with faculty sponsor. Prerequisite: PHY 334.

PHY 466 Advanced Laboratory III. (1–3) F, S
Continuation of PHY 465. Prerequisite: PHY 465.

PHY 480 Methods of Teaching Physics. (3) S
Evaluation of various approaches to the teaching of high school physics. Preparation of demonstrations and experiments. Organization of a laboratory. Designed for secondary school physics teachers. Prerequisite: instructor approval.

PHY 481 Solid-State Physics. (3) S
Structure, elastic properties, and dynamics of crystals; electron motions in crystals under applied fields. Prerequisites: PHY 311, 315.

PHY 501 Methods of Theoretical Physics. (3) F, S
Provides mathematical foundations for graduate students in basic and applied physics. Complex variables, vector spaces, operators, matrices, ordinary differential equations, integral equations and transforms, and special functions. May include additional topics.

PHY 502 Methods of Theoretical Physics. (3) F, S
Continuation of PHY 501. Prerequisite: PHY 501.

PHY 521 Classical Mechanics. (3) F
Variational principles, Lagrange's and Hamilton's equations, rigid body motion, canonical transformations, Hamilton-Jacobi theory.

PHY 523 Relativity. (3) N
Special and general theories of relativity. Prerequisite: PHY 532 or instructor approval.

PHY 531 Advanced Electricity and Magnetism. (3) F
Electrostatics and magnetostatics; potential theory and theory of constitutive relations; Maxwell's equations; the wave equation, plane electromagnetic waves, cavities, and wave guides.

PHY 532 Electrodynamics. (3) S
Special theory of relativity, covariant formulation of electromagnetic interactions; inhomogeneous wave equations, Lienard-Wiechert potentials, and radiation fields; interactions of charged particles and electromagnetic waves, scattering, dispersion. Prerequisites: PHY 412 and 531 or instructor approval.

PHY 541 Statistical Physics. (3) F
Probability theory and principles of statistical inference; evaluating experimental data; foundations of statistical mechanics; general laws of thermodynamics from microscopic theories; calculation of specific properties of bulk matter.

PHY 551 X-ray and Electron Diffraction. (3) S
Fresnel and Fraunhofer diffraction in integral formulation; diffraction of X-rays and neutrons by crystal lattices; structures of solids, including crystal structure analysis; theory and techniques of electron microscopy/diffraction of crystalline/noncrystalline specimens. Prerequisite: PHY 481 or instructor approval.

PHY 561 Nuclear Physics. (3) F, S
Two nucleon interaction, Clebsch-Gordon coefficients, inter-nucleon forces, meson theory and high energy scattering, nuclear binding energy, nuclear models, transition probability estimates, nuclear reactions, and beta decay. Prerequisite: PHY 576 or instructor approval.

PHY 562 Nuclear Physics. (3) F, S
Continuation of PHY 561. Prerequisite: PHY 561 or instructor approval.

PHY 568 Elementary Particle Physics. (3) N
Classification of particles; phenomenology of strong, electromagnetic and weak interactions, cross sections, and decay rates; isotopic spin and higher symmetries; structure of reaction amplitudes. Prerequisite: PHY 577.

PHY 569 Elementary Particle Theory. (3) N
Continuation of PHY 568. Prerequisite: PHY 568.

PHY 574 Quantum Theory. (3) F, S
Abstract approach to quantum mechanics in Hilbert space; observables and their corresponding operators, eigenstates, and eigenvalues; quantum dynamics; approximation methods; systems of identical particles; angular momentum and group representation theory; collision processes; relativistic quantum theory. Prerequisite: PHY 521. Continuation of PHY 577 Quantum Theory. (3) F, S
Continuation of PHY 576. Prerequisite: PHY 576.

PHY 575 Quantum Theory. (3) F, S
Relativistic quantum theory. (3) F, S
Relativistic 1-particle equations, Klein-Gordon equation, Dirac equation, 2d quantization, theory of scattering, S-matrix, Feynman diagrams, quantum electrodynamics, and renormalization procedures. Prerequisite: PHY 577.

PHY 576 Quantum Theory. (3) F, S
Continuation of PHY 575. Prerequisite: PHY 576.

PHY 581 Solid-State Physics. (3) F
Quantum theory of solids, including phonons, lattice specific heats, band structure models, Fermi surfaces, thermal expansion, plasmons, electron-phonon interactions, and scattering by lattice defects. Pre- or corequisite: PHY 576.

PHY 582 Solid-State Physics. (3) S
Elements of transport theory, thermal conduction, electronic conduction in metals, mobility in semiconductors, Hall effect, magnetoresistance, and selected topics of current research. Prerequisite: PHY 581.

PHY 587 Quantum Optics. (3) F, S
Quantization of the electromagnetic field. Quantum theory of coherence, photon counting, photon states, lasers, density operators, and atomic Raman scattering. Prerequisite: PHY 576.

PHY 588 Quantum Optics. (3) F, S
Continuation of PHY 587. Prerequisite: PHY 587.

PHY 592 Research. (1–12) N

PHY 598 Special Topics. (1–4) F, S
(a) Quantum Mechanics (3) S
(b) Quantum Physics (3) S

PHY 599 Thesis. (1–12) N

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.
The faculty in the Department of Plant Biology offer programs leading to the M.S. and Ph.D. degrees in Plant Biology. Among seven different research activity areas, two academic concentrations are available: ecology and photosynthesis.

Select faculty collaborate in the interdisciplinary program for the M.S. and Ph.D. degrees in Molecular and Cellular Biology (see “Molecular and Cellular Biology,” page 256).

The faculty participate in the programs leading to the Master of Natural Science degree (see “Natural Science,” page 263) when the primary or secondary area of concentration is in plant biology. Students interested in pursuing the M.N.S. degree through an interdisciplinary program emphasizing any of these areas should contact the Department of Plant Biology for additional information.

Applicants for these degree programs must submit scores on the Graduate Record Examination (GRE) (aptitude). GRE scores in the advanced subject area are recommended.

The graduate programs are designed to prepare students for careers in research and in teaching. Students learn various aspects of plant biology of use in educational institutions, industry, or government agencies.

**MASTER OF SCIENCE**

**Prerequisites.** Completion of the requirements for an undergraduate major in the plant sciences, biology, or related discipline, and an adequate background in related courses in chemistry, mathematical, and physical sciences.

**Program of Study.** A minimum of 30 semester hours of graduate credit is required. The program must include at least three semester hours of research, three semester hours of thesis, one semester of the core course PLB 502 Perspectives in Plant Biology and one hour of participatory seminar (PLB 591). The program is planned by the student in consultation with the supervisory committee.

**Foreign Language Requirements.** None.

**Comprehensive Examinations.** Not required.

**Thesis Requirements.** A thesis is required.

**Final Examinations.** A final research seminar and an oral examination covering the thesis and related subject matter are required.

**DOCTOR OF PHILOSOPHY**

See “Doctor of Philosophy,” page 104, for general requirements.

**Program of Study.** A minimum of 84 semester hours of graduate credit is required. The program must include at least 24 hours of research and dissertation credit and at least 30 hours of formal graduate course work. One semester of the core course PLB 502 Perspectives in Plant Biology and two hours of participatory seminar (PLB 591) are also required. Courses numbered 590 or 790 (Reading and Conference) are not considered formal courses. The program is planned by the student in consultation with a program committee that also administers and evaluates the comprehensive examinations.

**Foreign Language Requirements.** Completion at the undergraduate level of a one-year course with a grade of “C” or higher is required. Additional study may be required by the student’s supervisory committee.

**Comprehensive Examinations.** Written and oral comprehensive examinations administered and evaluated by the student’s program committee are required.

**Dissertation Requirements.** A dissertation based on original work of high quality, demonstrating proficiency in the student’s area of interest, is required. (See “Doctoral Degrees,” page 103.)

**Final Examinations.** A final oral examination in defense of the dissertation is required. It is administered by a dissertation committee consisting of three to five members who previously served on the student’s program committee.

**RESEARCH ACTIVITY**

Major areas of research by the faculty, professional staff, and graduate students in Plant Biology include emphasis in the following subject areas:

**Biochemistry/Cell Biology/Physiology.** Cell fractionation and protein biochemistry, organelle biogenesis and metabolism in oil seeds, enzyme cytochemistry, structures and mechanisms of enzymes in photosynthetic light reactions using magnetic resonance spectroscopy and X-ray crystallography, photobiology of vascular and nonvascular plants, physiology of the fern haplophase.

**Ecology/Environmental Science.** Environmental studies spanning organismic to regional levels of organization, including effects of enhanced UV-B radiation upon plants, leaf optics, leaf gas exchange and photosynthesis, adaptations to environmental stresses (life cycle, physiology, reproduction, and structure), evolutionary biology of cacti and leaf succulents, lichenology, quantitative ecology, effects of air pollution on plants and ecosystems, dendroecology, mineral cycling and restoration, landscape ecology, human impacts on ecosystems and ecosystem response to
perturbation, and interdisciplinary studies of riparian ecosystems.

**Molecular Genetics/Molecular Biology.** Targeted mutagenesis of photosynthesis genes in cyanobacteria and plants, functional and structural analysis of genetically engineered mutants, transformation of green algae, chloroplast gene expression, and biogenesis of thylakoid membrane-protein complexes.

**Nonvascular Plants/Fungi.** Fungal and algal cell wall chemistry, ultrastructure and storage products, developmental morphology and life cycles of algae and fungi, phytoplankton ecology and water quality, and apical growth in fungi.

**Organismic Research.** Paleobotany, paleopalynology, particularly of Cretaceous and Tertiary horizons, and anatomically preserved plants from Carboniferous coal swamps and from the Permian and Triassic of Gondwana, and origin and diversification of seed plants.

**Systematics/Taxonomy.** Cytogenetics and hybridization studies in the Cactaceae, floristics of the southwestern U.S. and northern Mexico, chemosystematics of plants, particularly the Compositae, and chemical ecology.

**Urban Horticulture.** Tissue-culture of drought-tolerant plants, molecular basis for rubber formation, plant pathology, particularly of the physiology of plant-fungal pathogen interactions, landscape horticulture, environmental stress physiology, computer simulation modeling, and nursery production and marketing.

The research mission of the department is supported by well-equipped research laboratories, greenhouses, environmental and radioisotope rooms, computer laboratory and personal computers, photographic and darkroom facilities, herbarium, the electron microscopy laboratory, and the electron paramagnetic resonance spectroscopy facility.

**PLANT BIOLOGY (PLB)**

**PLB 400 Lichenology.** (3) S 2001
Chemistry, ecology, physiology, and taxonomy of lichens. 2 hours lecture, 3 hours lab. Prerequisite: BIO 182 or equivalent.

**PLB 402 Mycology.** (3) S
Fungal morphology and systematics with an introduction to fungal cell biology, ecology, economic significance, and growth and development. 2 hours lecture, 3 hours lab. Prerequisite: BIO 182 or MIC 206 or equivalent.

**PLB 404 Phycology.** (4) S
The algae (both fresh water and marine forms), emphasizing field collection and identification of local representatives. Morphological, ecological, and economic aspects of the algae. 3 hours lecture, 3 hours lab. Prerequisite: BIO 182 or instructor approval.

**PLB 407 Plant Fossils and Evolution.** (4) S 2001
A broad survey of plant life of the past, including the structure of plant fossils, their geologic ranges, geographic distribution, and paleoenvironment. 3 hours lecture, 3 hours lab or field trip. Prerequisite: BIO 182 or equivalent.

**PLB 410 Angiosperm Taxonomy.** (3) S
Principles underlying angiosperm phylogeny. 2 hours lecture, 3 hours lab. Prerequisite: PLB 310 or instructor approval.

**PLB 411 Trees and Shrubs of Arizona.** (3) F
Identification of woody plants from desert, chaparral, and forest habitats in Arizona. 1 hour lecture, 3 hours lab, field trips. Prerequisite: BIO 182 or equivalent or instructor approval.

**PLB 412 Cytotaxonomy.** (3) F
Chromosomal basis of inheritance. Cross-listed as BIO 441. Credit is allowed for only BIO 441 or PLB 412. Prerequisite: BIO 440.

**PLB 440 Phytochemistry.** (3) S
General plant metabolism and typical plant products, emphasizing biosynthesis and functions of storage products, cell wall constituents, plant acids, pigments, hormones, and numerous secondary products. Prerequisite: PLB 340 or CHM 231 or instructor approval.
PLB 550 Plant Molecular Biology. (2) S 2001
Biochemistry and molecular biology of plant organelles, including protein targeting, plant viruses, and molecular designs for plant improvements. Prerequisite: instructor approval.

PLB 552 Plant Genetic Engineering. (3) S
Plant transformation utilization of transgenic plants, transient gene expression assays, and applications of plant genetic engineering. Prerequisite: instructor approval.

PLB 553 Plant Genetic Engineering Laboratory. (2) S
Plant transformation, utilization of transgenic plants, transient gene expression assays, and applications of plant genetic engineering. 6 hours lab. Prerequisite: instructor approval.

PLB 554 Plant Biotechnology. (3) N
Aseptic, clonal propagation of plants and in vitro culture of cells, organs, and tissues. 2 hours lecture, 3 hours lab. Prerequisite: PLB 308 or 340 or 370.

PLB 558 Molecular Mechanisms of Photosynthesis. (3) S
Structure and function of photosynthetic complexes; mechanism of energy conversion in plants, bacteria, and model systems. Cross-listed as BCH 568. Credit is allowed for only BCH 568 or PLB 558. Prerequisite: instructor approval.

**URBAN HORTICULTURE**

PLB 472 Greenhouse/Nursery Management. (3) S 2002
Greenhouse structures, environment, and nursery operation. Includes irrigation, nutrition, and other principles relative to container-grown species. Prerequisites: ERS 130 (or 225 or 226); PLB 260.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

**ASSOCIATE INSTRUCTIONAL PROFESSIONAL**

KEATING

The faculty in the Department of Political Science offer graduate programs leading to the M.A. and Ph.D. degrees in Political Science. Concentrations are available in American politics, comparative politics, international relations, and political theory.

Students admitted to the Master of Education degree with a major in Secondary Education may also elect political science as the subject matter field.

**MASTER OF ARTS**

See “Master’s Degrees,” page 101, for general requirements.

**Admission.** The M.A. degree provides advanced education for those students preparing for teaching, research, or applied careers in political science. It may be taken as a terminal program or as a step toward eventual fulfillment of the requirements for the Ph.D. Students may apply directly to the doctoral program or master’s program.

In addition to the materials sent to the Graduate College, the following items should be submitted to the director of graduate studies of the Department of Political Science by April 15 in order to ensure recommendations for admission to the M.A. program beginning the following fall:

1. scores from the verbal, quantitative, and analytical sections of the Graduate Record Examination (GRE);
2. three letters of recommendation from persons who can evaluate the applicant’s academic performance and potential;
3. a career overview statement which describes the applicant’s educational objectives; and
4. a writing sample that best represents the applicant’s thinking and writing skills.

Applicants for financial aid should submit these items and complete the application form for graduate assistantships by February 15. The department also has an early admission deadline of November 19. Candidates who have submitted a complete application by that date will be notified of their status by December 24.

Undergraduate course work in political science is not a prerequisite for admission.

It is assumed, however, that M.A. students have a basic understanding of elementary statistics and the undergraduate content of the political science fields of concentration that they wish to study. Students without such a background should allow sufficient time to acquire it.

**Program of Study.** A minimum of 30 semester hours is required for the Master of Arts degree. All candidates must take POS 503 and the core course in each subfield. The core courses (POS 502, 530, 550, and 560) must be taken prior to enrolling in upper-level courses in the subfield. Six additional hours must be taken in graduate-level courses and seminars. Each student is expected to take seminars each semester in his/her major field, minor field, and an elective until course work is completed. If the thesis option is followed, the program must include a combination of at least six semester hours of research (POS 592) and thesis (POS 599) credit. A maximum of six semester hours in approved courses taken outside the department or six hours of reading and conference (POS 590) courses may count towards the 30-hour requirement.

**Foreign Language Requirement.** None.

**Thesis Option Requirements.** M.A. students seeking admission to the Ph.D. program are expected to complete the thesis early in their fourth semester. A copy of the Format Manual is available in the Graduate College. A careful review of this document well in advance of preparation for the final copy of the thesis is recommended. An oral examination in defense of the thesis is required.

**Non-Thesis Option Requirements.** The program of study must include 27-hours of approved course work and at least one three-hour reading and conference course (POS 590) in
the fourth semester to enhance the student's research capabilities. A research paper must be defended by the end of the third semester before a faculty committee appointed by the Director of Graduate Studies.

**DOCTOR OF PHILOSOPHY**

See “Doctor of Philosophy,” page 104, for general requirements.

**Admission.** In addition to meeting Graduate College requirements, an applicant for the Ph.D. program must take the verbal, quantitative, and analytical sections of the GRE; supply a career overview statement that describes the applicant's educational objectives; submit three letters of recommendation from persons who can evaluate the applicant's undergraduate and graduate work; and provide a sample of writing. These items should be submitted to the director of graduate studies of the Department of Political Science by February 15. Applicants for financial aid should also complete and submit the application form for graduate assistantships by February 15. The department also has an early admission deadline of November 19. Candidates who have submitted a complete application by that date will be notified of their status by December 24.

It is assumed that Ph.D. students have a basic understanding of elementary statistics and the content of the areas of concentration that they wish to study. Students without such a background should allow sufficient time to acquire it.

**Program of Study.** A minimum of 60 semester hours of graduate courses beyond the baccalaureate degree and approved by the student's supervisory committee shall constitute the formal course preparation, followed by a minimum of 24 semester hours of research and dissertation work. The supervisory committee has three members, including the committee chair from the student's major field, and two members from a minor field. As part of the 60 semester hours, the student must take POS 503 and 603. A maximum of 12 semester hours of approved course work outside the department and 12 semester hours of approved reading and conference courses (POS 590 and 790) may count toward the 60 semester hours. Grades of “A,” “B,” or “Y,” must be obtained in all course work counted for the Ph.D. degree.

**Master's in Passing.** For students without an M.A. who are admitted directly into the Ph.D. program, the department offers a Master's in Passing. Students opting for the Master's in Passing must, in the third semester of residence, pass an oral examination of their work. The examination will be conducted by a committee composed of members of the Graduate Committee who represent each student's primary and secondary subfields. Students who pass the oral examination and have completed 30 hours of course work toward the Ph.D. are then awarded the M.A.

**Foreign Language and Research Requirements.** Each Ph.D. student must show proficiency in a foreign language. The supervisory committee may also require up to six additional semester hours to build the student's research skills.

**Comprehensive Examination.** The student is required to take three examinations from the fields and subfields of American politics, international relations, comparative politics, and political theory. In the major field, the student takes a written general examination. Additionally, the student takes a written field or subfield examination in one of the remaining fields of political science. An oral examination over the dissertation proposal follows the written examinations.

**Dissertation Requirements.** The dissertation must be an original contribution to knowledge and demonstrate the student's proficiency as an independent investigator. The dissertation proposal is approved by the chair of the department upon the recommendation of the student's dissertation committee. The department chair also approves the dissertation committee. This committee must have a minimum of three members from the department of political science, including a chair from the student's major field.

**Final Examinations.** A final oral examination is required. This examination is the occasion for the student to defend the dissertation, both as to methods and conclusions, and to demonstrate general competence in the area of concentration.

**RESEARCH ACTIVITY**

The political science faculty and curriculum are organized into four areas of concentration. The faculty in each area offer courses and conduct research from a variety of methodological orientations, all with a common thread of theoretically-oriented scholarship.

**American Politics.** Faculty emphasize political behavior and use survey research, experimental designs, and content analysis to collect data and conduct statistical analyses of mass voting patterns, campaign strategies, party politics, the role of the media in political communication, agenda-setting, and policy development in Congress, and elite-mass linkages. Other faculty emphasize public law and policy while some conduct research at the state and local levels of government. They analyze aggregate and interview data, archival materials and legal texts with a focus on campaign finance regulations, intergovernmental relations, gender issues, electoral reform, third parties, and interest groups.

**International Relations.** One group of faculty focus upon foreign policy theory and international security, using event chronologies, institutional differences, archival materials, and public records to guide comparative analyses of foreign policy decision-making by different types of regimes, case studies of leaders and their decision-making strategies, state and nation building, nationalism, and policy analyses of issues in the Asia-Pacific region. Another cluster of faculty emphasize critical theory and international political economy, employing archival sources, statistical data, and texts of legal norms and state practices to conduct analyses of global inequalities in wealth and income, the evolution of statecraft, and the impact of hierarchically-ordered gender and race categories in North-South relations.

**Political Theory.** Faculty research interests in the area of political theory cover a range of topics in the history of political thought and contemporary political theory. Historical topics include Rousseau, conceptual history, and positive idealisms of the 19th and 20th centuries. Research in contemporary political theory includes autonomy and freedom, rights and obligations, citizenship, civic virtues, and the idea of the common good; various issues in democratic political theory (with particular attention to education);
aspects of political and legal theory regarding corporate personality; conceptions of self in various cultures; analysis of myths in aboriginal societies (particularly Native Americans); punishment; justice; community; language and politics; social ecology; and peace and nonviolence.

Comparative Politics. Faculty in the area of comparative politics investigate a variety of topics in several regions of the globe. Research interests include the political economy of uneven development in Africa, democratization processes within formerly authoritarian regimes in Europe, Latin America, and East Asia, church and state relations in the Philippines, ethnic minority problems in Brazil, problems of federalism in India, and party leadership in France and Italy.

Many of these research interests have recently been the basis for graduate seminars (POS 691) and for special topics courses (POS 598). Moreover, students have the opportunity to do advanced work in these areas through reading and conference courses (POS 590 and 790) and independent research (POS 592 and 792).

Research Facilities. The department has its own political data laboratory for research and teaching purposes. Both faculty and students have access to data processing equipment and machine-readable data collections. The ASU Library collection has extensive holdings in all of the fields of political science. The facilities of the ASU School of Public Affairs, School of Justice Studies, Latin American Studies Center, and the Center for Asian Studies are accessible to graduate students in political science.

POLITICAL SCIENCE (POS)

POS 501 Methods of Political Science. (3) N
Problems of method and knowledge in political science, strategies of political inquiry, and issues in philosophy of social science.

POS 502 Philosophy of Political Inquiry. (3) A
Problems of knowledge and method in political science, with attention to both empirical and evaluative analysis.

POS 503 Empirical Political Inquiry. (3) A
Research methods and techniques of the discipline, emphasizing empirical foundations and analytic methods employed in subfields. Prerequisites: POS 401 (or equivalent); instructor approval.

POS 530 American Politics. (3) A
Examines major debates in the study of American political processes and institutions. Covers parties, media, elections, public opinion, interest groups, and the three branches of government. Seminar.

POS 545 Themes in Political Thought. (3) N
Examination of a particular theme or problem in political thought from both a historical and contemporary perspective. Seminar. Course may be repeated with approval of the director of graduate studies. Prerequisite: instructor approval.

POS 550 Comparative Politics. (3) A
Surveys major approaches across topical areas such as revolutions, authoritarianism, policy processes, interest groups, and electoral politics. Focus varies with instructor. Seminar.

POS 560 International Relations. (3) A
Surveys major theoretical approaches and debates in international relations. Seminar.

POS 563 Comparative Asian Security Policies. (3) N
Analyzes domestic and international constraints, belief systems, and economic components in security decisions by major powers and Asian nations. Seminar. Prerequisite: instructor approval.

POS 590 Reading and Conference. (1–12) N
POS 591 Seminar. (3) A
(a) American Politics
(b) Comparative Politics
(c) Global Politics
(d) Political Theory
POS 592 Research. (1–12) N

POS 598 Special Topics. (3) A
(a) American Politics
(b) Comparative Politics
(c) Global Politics
(d) Political Theory

POS 599 Thesis. (1–12) N
POS 601 Advanced Experimental Research. (3) N
Introduces experimental and quasi-experimental research designs in political research, including laboratory techniques and topics in the analysis of variance. Prerequisite: POS 503 or equivalent.

POS 602 Advanced Survey Research. (3) N
Presents design and conduct of political surveys, including sampling, instrument design, scaling, and statistical and graphical analysis of survey data. Prerequisite: POS 503 or equivalent.

POS 603 Polimetrics I. (3) A
Introduces theory and practice of linear regression analysis. Provides skills to read, understand, and evaluate professional literature using regression analysis. Prerequisites: POS 401 and 503 or instructor approval.

POS 604 Polimetrics II. (3) A
Apply quantitative techniques to research topics producing publishable papers through exposure to time-series, logit and probit, and simultaneous equations. Prerequisites: POS 401 and 503 or instructor approval.

POS 606 Qualitative and Textual Analysis. (3) S 2001
Method and theory for the analysis of qualitative materials, systematic approaches for case studies, content analysis, critical analysis of texts. Discussion, seminar.

POS 635 State Politics and Public Policy. (3) N
Introduction to comparative state policy emphasizing policy or performance differences among the states and the reasons for these differences. Seminar. Prerequisites: POS 530 and 603 or instructor approval.

POS 636 Electoral Behavior. (3) N
Introduces fundamental concepts of electoral behavior. Emphasizes presidential elections and examines why people vote and how their votes are determined. Seminar. Prerequisites: POS 530 and 603 or instructor approval.

POS 638 Law and Politics. (3) N
Emphasizes research into such topics as constitutional law, women and the law, American legal system, judicial process, and judicial selection. Seminar. Prerequisite: instructor approval.

POS 651 Politics of Change and Development. (3) N
Examines contending approaches to national, social, and political change. Seminar. Prerequisite: instructor approval.

POS 660 The Modern World System. (3) N
Theoretically driven, historical analysis of the organization and operation of the international political economy since the 16th century. Seminar. Prerequisite: instructor approval.

POS 661 The State. (3) N
Examines theories of state, state-society relations, and interstate politics emphasizing questions of sovereignty, territoriality, violence, representation, democracy, and change. Seminar. Prerequisite: instructor approval.

POS 662 International Organization. (3) N
History, practical political significance, and future of international institutions, transnational regimes, and other approaches to international organization. Seminar. Prerequisite: instructor approval.

POS 664 War, Peace, and Conflict Processes. (3) N
The systematic analysis of the causes of war, the preconditions for peace, and approaches to the resolution of conflict. Seminar. Prerequisite: instructor approval.

POS 665 Foreign Policy Theory. (3) N
Examines foreign policy theory and methods. Development and critique of research designs analyzing foreign policy processes within and among nations. Seminar. Prerequisite: instructor approval.

POS 691 Seminar. (1–12) N
POS 790 Reading and Conference. (1–12) N
POS 792 Research. (3) F, S
Projects in various areas of political science. Prerequisite: doctoral student.

The faculty in the Department of Psychology offer graduate programs leading to the Ph.D. degree in Psychology. Concentrations are available in clinical, developmental, environmental, quantitative, and social psychology, as well as in cognitive/behavioral systems and behavioral neuroscience.

Although there is no formal M.A. program as such, doctoral students are required to complete an M.A. degree as part of their doctoral training.

All applicants are required to submit scores on the Graduate Record Examination (verbal, quantitative, and analytical sections; advanced section is required for clinical psychology), transcripts, three letters of reference, and a statement of purpose.

Program of Study. A minimum of 30 semester hours is required for the master’s degree.

Foreign Language Requirements. None.

Thesis Requirements. A thesis is required.

Final Examinations. A final oral examination in defense of the thesis is required.

DOCTOR OF PHILOSOPHY

See “Doctor of Philosophy,” page 104, for general requirements.

Application Deadline. Completed applications for admission in the fall semester, including all letters and supporting documents, should be received by January 1.

The Department of Psychology requires all applicants to provide scores from the aptitude sections of the GRE for clinical psychology. A score from the advanced test in psychology is required. These scores are not used exclusively to determine admission but are viewed in the context of other supporting materials, such as GPAs and letters of recommendation.

Program of Study. At present the Department of Psychology offers the Ph.D. degree in the following research areas: clinical, developmental, environmental, cognitive/behavioral systems, behavioral neuroscience, quantitative, and social psychology. A minimum of 60 semester hours of course credit beyond the bachelor’s degree is required, plus 24 semester hours of credit in research and dissertation.

In addition to a core curriculum, students take courses related to their area of interest as determined in consultation with their supervisory committees.

First-Year Evaluation. At the end of the first year of study, each student receives a comprehensive evaluation by the faculty based upon performance in courses and in professional or laboratory assignments and upon the evidence of professional responsibility and ethical behavior.

Foreign Language Requirements. None.

Comprehensive Examinations. Written and oral examinations are required near the end of or upon completion of all course work. After passing the comprehensive examinations and meeting other requirements (e.g., dissertation prospectus), the student is eligible to apply for candidacy.

Dissertation Requirements. The dissertation must be an original contribution to knowledge, demonstrating the student’s proficiency as an independent investigator. (See “Doctoral Degrees,” page 103.)

Final Examinations. A final oral examination in defense of the dissertation is required.

RESEARCH ACTIVITY

Clinical. Three areas of emphasis: child-clinical, community/prevention, and health psychology. Topics include risk factors for mental health and substance abuse problems of children and adolescents and families; the development and testing of preventative interventions for children and families under stress as a result of economic hardship, family bereavement, and divorce; mental health of minority groups; stress and coping processes, quality of life, affect, and chronic illness, quality of life and illness in older adults, women’s health, cardiovascular reactivity, health promotion in Hispanic populations, self-regulation and goal systems, social support, forensic psychology, and measurement of self-deception.

Developmental. Prosocial behavior, empathy, and moral development; emotional development, regulation of emotion, social competence and problem behavior; sex roles; spatial cognition; child language and drawing; cooperation and competition; inference and reasoning; child and adolescent health psychology; development of ethnic identity; children’s theory of mind; infant cognition and problem solving; social psychology of aging; volunteering; positive and negative social ties; early academic skills and social competence.

Environmental. Psychology of resource conservation, memory for architectural form, information storage and spatial

**Social.** Persuasion and influence, attraction and relationships, prejudice and stereotyping, altruism, evolutionary psychology, impression formation and social cognition, ethnic and gender identity, social dilemmas and social traps, self-presentation, individual differences and personality, family relationships, behavioral genetics, perceptions of control, social development.  

**Applied Social Psychology.** Health psychology, family relationships, alcohol and drug use, social psychology of sport and exercise, aging, prevention research and evaluation, gender roles and mental health, environmental psychology, criminal justice. Students interested in this area may choose it as a subspecialization in social psychology.  

**Quantitative.** Field research methods: design innovations in intervention research, self-selection biases, treatment non-compliance, mediation of intervention effects. Applied statistics: categorical data analysis, latent growth modeling, multilevel modeling, structural equation modeling, missing data, multiple regression analysis, time series, meta-analysis, graphics and exploratory data analysis, statistical methods applied to health promotion and disease prevention research. Measurement: psychometric theory, factor analysis, item response theory, group differences in test performance, cognitive models in test performance, measurement invariance and bias, cross-ethnic, cross-race, and cross-gender measurement equivalence, longitudinal measurement.  

**PSYCHOLOGY (PGS)**  
**PGS 414 History of Psychology.** (3) F, S  
Historical development of psychology from its philosophical beginnings to the present. Prerequisites: PGS 101; PSY 230, 290. General Studies: L/SB.  
**PGS 461 Interpersonal Influence.** (3) N  
Principles and procedures that affect the process of social influence, consideration of attitudinal, compliance inducing, and perceptual influences. Prerequisite: PGS 350. General Studies: SB.  

**Omnibus Graduate Courses.** See page 57 for omnibus graduate courses that may be offered.  

**PSYCHOLOGY (PSY)**  
**PSY 420 Analysis of Behavior.** (3) N  
Research, applications, and philosophy of the analysis and control of human behavior. Prerequisite: PSY 290. General Studies: L.  
**PSY 424 Genetic Psychology.** (3) S  
Introduction to the concepts, methodologies, and findings of behavioral genetics for Psychology majors. Prerequisites: PGS 101; PSY 230, 290. General Studies: L.  
**PSY 425 Biological Bases of Behavior.** (3) N  
Critical study of physiological psychology; brain mechanisms underlying motivation, and learning. Prerequisite: PSY 325. General Studies: L.  

**PSY 426 Neuroanatomy.** (4) N  
Structure and function of mammalian brain, including sheep brain dissection. 3 hours lecture, 3 hours lab. Prerequisite: PSY 325 or equivalent. General Studies: L.  

**PSY 434 Cognitive Psychology.** (3) S  
The human organism as a processor of information, from perception to cognition. Abstract concepts, semantic memory, attention, and mental imagery. Prerequisite: PGS 101; PSY 325 or 324 or instructor approval. General Studies: L.  

**PSY 437 Human Factors.** (3) F  
Emphasis on human factors in high technology systems. Specific topics include systems development, systems analysis techniques, displays, and controls. Prerequisites: PSY 290 and upper-division standing or instructor approval. General Studies: L.  

**PSY 470 Psychopharmacology.** (3) F, S  
Basis of drug action at physiological and behavioral levels. Psychological and medical applications and limitations of drugs used in the treatment of mental illness. Prerequisites: PSY 325; 1 semester each of biology and chemistry.  

**PSY 501 Supervised Teaching.** (4) F  
Experience in and examination of perspectives on teaching undergraduate psychology. Prerequisites: graduate standing in psychology; instructor approval.  

**PSY 506 Survey of Research in Environmental Psychology.** (3) F  
Major topics and paradigms in the study of person-environment relationships. Prerequisite: instructor approval.  

**PSY 512 Advanced Learning.** (3) N  
Principles and theories of learning, emphasizing research literature. Prerequisite: instructor approval.  

**PSY 524 Advanced Physiological Psychology.** (3) N  
Contributions of physiological processes and brain function to fundamental behavioral processes. Prerequisite: instructor approval.  

**PSY 528 Sensation and Perception.** (3) N  
Principles of sensory and perceptual processes, emphasizing research literature. Prerequisite: instructor approval.  

**PSY 530 Analysis of Variance in Psychological Research.** (3) F  
One-way and factorial designs, contrasts, post-hoc tests, probing of interactions, mixed designs, power, computer applications. Prerequisite: undergraduate statistics or instructor approval.  

**PSY 531 Multiple Regression in Psychological Research.** (3) S  
Multiple regression and correlation, hierarchical regression, interactions, curvilinear relationships, categorical predictors, ANOVA in regression, regression diagnostics, regression graphics. Prerequisite: PSY 530 or instructor approval.  

**PSY 532 Analysis of Multivariate Data.** (3) F  
Matrix algebra for multivariate procedures, component and factor analysis, canonical and discriminant analysis, classification, MANOVA, logistic regression, hierarchical linear model. Prerequisites: PSY 530 and 531 or instructor approval.  

**PSY 533 Structural Equation Modeling.** (3) S  
Path analysis; exploratory and confirmatory factor analysis; recursive and nonrecursive latent variable models; mean and covariance structures; latent growth models. Prerequisite: PSY 532 or instructor approval.  

**PSY 534 Psychometric Methods.** (3) F, S  
Theory and practice of psychological measurement using classical and modern test theories. Reliability assessment, test validation, test construction, test usage. Prerequisites: PSY 530 and 531 or instructor approval.  

**PSY 535 Cognitive Processes.** (3) N  
Theoretical/empirical treatment of the human organism as a processor of information, including abstraction, memory structure, problem solving, and thinking. Prerequisite: instructor approval.  

**PSY 536 Statistical Methods in Prevention Research.** (3) F, S  
Statistical methods used in prevention research including epidemiological methods, logistic regression, program effect estimation, estimation, and mediation analysis. Prerequisites: PSY 530 and 531 or instructor approval.  

**PSY 537 Longitudinal Growth Modeling.** (3) N  
Growth modeling methodology to describe individual variation in development over time. Multilevel and structural equation modeling frameworks are employed. Prerequisite: PSY 533 or instructor approval.
PSY 538 Advanced Structural Equation Modeling. (3) N
Mean and covariance structure analysis. Includes multiple-group modeling, two-level hierarchical modeling, longitudinal growth modeling, analysis with categorical outcomes. Prerequisite: PSY 533 or instructor approval.

PSY 539 Meta-Analysis I. (1) F
Meta-analysis; searching the literature, coding study characteristics, computing effect sizes. Must be followed by PSY 540. Seminar. Prerequisite: PSY 530 and 531 or instructor approval.

PSY 540 Meta-Analysis II. (2) S
Continuation of PSY 539. Meta-analysis; computing effect sizes and analyzing the heterogeneity of effect sizes. Seminar. Prerequisite: PSY 539.

PSY 541 Research in Cognitive Development. (3) N
Theoretical and empirical issues in the study of children’s knowledge and cognitive processes. Comparison of research in Piagetian and other traditions. Prerequisite: admission to Psychology Ph.D. program or instructor approval.

PSY 542 Social Development. (3) N
Major issues in the area of social development are topics for review and critique. Theory, research, and content are covered. Prerequisite: instructor approval.

PSY 550 Advanced Social Psychology. (3) F, S
Theory and research concerning interpersonal perception, decision making, attitude formation and change, group processes, social motivation, and interaction processes. Prerequisite: instructor approval.

PSY 551 Advanced Social Psychology. (3) F, S
Continuation of PSY 550. Prerequisite: PSY 550 or instructor approval.

PSY 552 Social Psychology. (3) N
Research literature relevant, for example, to attitude formation and change, conformity, obedience, power, compliance, and altruism. Prerequisite: PSY 551 or instructor approval.

PSY 555 Experimental and Quasi-Experimental Designs for Research. (3) N
Review of research techniques. Laboratory and field research analyzed; applications to specific topics. Prerequisite: instructor approval.

PSY 559 Advanced Study of Personality. (3) N
Personality as a theoretical concept in psychology, including definitional problems, behavioral and traditional approaches, the measurement of personality, and current research issues. Prerequisite: instructor approval.

PSY 572 Psychological Assessment. (3) F
Theory and research on assessment of personality, psychopathology, and intelligence, and construction of psychological assessment instruments. Prerequisite: admission to clinical Ph.D. program or instructor approval.

PSY 573 Psychopathology. (3) F
Theory and research relating to the contribution of psychological, social, physiological, and genetic factors to the development and persistence of abnormal behavior. Prerequisite: admission to Psychology Ph.D. program or instructor approval.

PSY 574 Psychotherapy. (3) S
A detailed survey of the theoretical and empirical literature relating to verbal psychotherapy and interviewing methods. Structured role-playing practice in the major procedures. Prerequisite: admission to the clinical Ph.D. program or instructor approval.

PSY 578 Child Psychopathology. (3) N
Major theories and research related to the development of deviant behaviors in children, including some supervised experience in child assessment. Prerequisite: PSY 572 or instructor approval.

PSY 582 Community Psychology. (3) SS
Community systems, intervention techniques, consultation models, history and current status of community mental health movement, and conceptualization of the roles of community psychologists in social system intervention. Prerequisite: advanced standing in Psychology Ph.D. program or instructor approval.

PSY 588 Consultation Methods. (3) N
Several theories and strategies of organizational consultation. The development of consultative skills through simulation and practical experience. Prerequisite: advanced standing in Psychology Ph.D. program or instructor approval.

PSY 624 Clinical Neuroscience. (3) S
An examination of the biological underpinnings of psychological disorders at the molecular, cellular, and system levels (schizophrenia, depression, anxiety, etc.). Lecture, pro-seminar. Prerequisites: graduate standing; instructor approval.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Public Administration

Master’s Program

DISTINGUISHED RESEARCH FELLOW
PFISTER

The faculty in the School of Public Affairs prepare students and practitioners for leadership in public service. Faculty also engage in research and service programs that advance understanding of public affairs and serve the public’s policymaking needs.

The School of Public Affairs offers a 42-semester-hour professional Master of Public Administration (M.P.A.) degree and participates in an interdisciplinary degree leading to the Doctor of Public Administration (D.P.A.) degree.

MASTER OF PUBLIC ADMINISTRATION

The M.P.A. is an interdisciplinary, professional degree designed to prepare students for public service, public management, and policy analysis at the local, state, and national levels of government. The M.P.A. degree is accredited by the National Association of Schools of Public Affairs and Administration (NASPAA).

Admission. Applicants to the M.P.A. program are considered for admission irrespective of undergraduate major, although students may be required to complete additional courses and/or workshops to prepare themselves for the core courses.

The applicant’s undergraduate GPA, GRE scores (verbal, quantitative, and analytical), letters of recommendation, statement of educational and career goals, and professional experience are all considered in the admissions process. In addition, TOEFL scores (550 or higher) are required for international students. Admission may be limited by space availability.
Applications for admission can be sent at any time. Students requesting graduate assistantships and tuition scholarships should have their application files completed by March 1.

All applicants must submit the following materials to the Graduate College:

1. an official application;
2. official transcripts of all undergraduate and graduate work;
3. scores on the GRE (verbal, quantitative, and analytical; special subject tests not required); and
4. TOEFL scores for international students.

All applicants must submit the following materials to the School of Public Affairs:

1. three letters of recommendation, at least two of which should be written by faculty who can evaluate the applicant’s academic performance;
2. a written statement of applicant’s educational and career goals, which also is used as a sample of the applicant’s writing abilities; and
3. resume or additional documents as the applicant sees fit.

Program of Study. The M.P.A. program consists of 42 hours of graduate credit. Students take 27 of these hours in nine core classes in the School of Public Affairs, and 15 additional hours in elective courses.

No more than nine semester hours of ASU graduate courses taken before admission to the school and approved by the M.P.A. Committee can be included in the Program of Study.

Students enrolling in core courses must demonstrate minimum competency in statistics, American government, and computer applications. Courses taken to fulfill the competency do not count toward the 42-hour degree program. Competency in statistics or American government is met with a grade of “B” or higher in approved courses, passing a diagnostic test approved by the M.P.A. Committee, or earning a grade of “B” or higher in such approved courses as PAF 401, POS 401, PSY 230, QBA 221, and SOC 390 for statistics and POS 310 for American government. Competency in computer applications is met by enrollment in university short courses and training seminars.

Internship. A public service internship is recommended for M.P.A. students without previous administrative experience in government. The purpose of the internship is to provide students with practical and professional experience in a specific career area. Students work in and for public organizations applying the knowledge, skills, and abilities acquired in their program of study. During the internship experience, students can develop a professional network that will aid them in their pursuit of a career in government or non-profit organizations. Students can apply three hours of internship credit to the degree program. To receive course credit for an internship, students are required to attend class sessions and submit a paper to the internship coordinator.

Foreign Language Requirements. None.

Comprehensive Examination. None.

Thesis Requirements. None.

Capstone Requirement. The M.P.A. degree requires students to demonstrate competency for public service by synthesizing and applying core course knowledge, skills, and abilities to public service problems. Students demonstrate their public service competency by earning an “A” or a “B” in the M.P.A. capstone course, PAF 509 Public Service.

Morrison Institute for Public Policy

As an integral part of the School of Public Affairs, the Morrison Institute is an applied public policy research center that conducts research on public policy, informs policymakers and citizens about issues, and advises leaders on choices and actions. In partnership with government officials, university faculty, and the private sector, the Morrison Institute conducts research, policy forums, program evaluations, and strategic planning for public, private, and non-profit clients. The Institute produces publications on a wide range of topics, including urban growth, education, natural resources, governmental systems and relations, health care, social services, quality of life, and economic development.

Advanced Public Executive Program (APEG)

APEG is a continuing education program designed to provide public-sector executives with analytical approaches and skills in leadership, policy analysis, total quality management, media relations, organizational development, team-building, and communication. Located at the ASU Downtown Center, APEG sponsors the Certified Manager Program (CPM), the Institute for Public Executives, Total Quality Management in the Public Sector, the County Elected Officials’ Certification Program, and presents custom-tailored professional development programs for public-sector managers.

PUBLIC AFFAIRS (PAF)

PAF 401 Statistics. (3) F, S

PAF 501 Public Service Research. (3) F, S
Philosophy, scope, and methods; public service research design, values, and ethics. Prerequisite: an approved course in statistics.

PAF 502 Computer Applications. (3) F, S
Computer applications in public affairs; software packages for data analysis, decision making, information dissemination, and problem solving. Prerequisite: PAF 501.

PAF 503 Public Affairs. (3) F, S
The development and context of American public administration and policy, the role of administration in governance, and values and ethics in administration.

PAF 504 Public Affairs Economics. (3) F, S
The basics of public sector economics, microeconomic and macroeconomic concepts applied to public sector decisions and policies.

PAF 505 Public Policy Analysis. (3) F, S
Institutional and formal analysis of policy processes, decision making, and problem solving; values, ethics, and the uses of policy analysis. Prerequisites: PAF 504; satisfaction of the statistics requirement.

PAF 506 Public Budgeting and Finance. (3) F, S
The legal, social, economic, political, institutional, and ethical foundations of governmental finance, budgets, and budgeting. Prerequisites: PAF 502, 504.

PAF 507 Public Human Resource Management. (3) F, S
Personnel systems, behavior and management of people in public organizations, collective behavior, unionism, conflict management, motivation, productivity, and ethics.

PAF 508 Organization Behavior. (3) F, S
Theory and application in the management of organizational behavior with emphasis on leadership and the public service.
PAF 509 Public Service. (3) F, S
Capstone application of core course knowledge, skills, and abilities required for public service. Prerequisites: PAF 501, 502, 503, 504, 505, 506, 507, 508.

PAF 510 Governmental Budgeting. (3) N
Theories, applications, and consequences of budget decision making. Prerequisite: PAF 504.

PAF 511 Governmental Finance. (3) N
Sources of funding, management of funds and debts, and general pattern of expenditures in states, counties, cities, and districts. Prerequisite: PAF 504.

PAF 520 Public Management. (3) N
The management process in government and public agencies, with emphasis on the executive leadership within the public sector.

PAF 521 Organization Theory. (3) N
Organization theory and current research emphasis with application to public administrative organizations.

PAF 522 Public Labor Relations. (3) N
Rise of public unionism, managerial policy toward unionism, conflict resolution, impact of unionism on budgets, personnel policies, and public policy.

PAF 523 The City and County Manager. (3) A
The manager’s role and resources in the differing forms of administrative, legislative, and community sectors.

PAF 525 Public Program Management. (3) N
Governmental service programming: formulating, financing, operating, evaluating, and reporting. Analysis of interagency relationships and the role and conduct of research in the programming process.

PAF 526 Public Sector Human Resource Development. (3) N
Concepts and techniques of organizational development in the public sector, including staffing, supervisor training, executive development, resource planning, and employee training.

PAF 529 Organization Change and Development. (3) N
Exploring the nature and management of change and development as a tool to achieve organizational goals: effecting planned change.

PAF 530 Management of Urban Government. (3) N
Administrative practices and behavior within the urban political administrative environment. Functional areas such as citizen participation, urban planning, urban transportation, and the conflicts between urban politics and administrative efficiency.

PAF 531 Community Conflict Resolution. (3) N
Interdisciplinary approach to understanding the dynamics of community conflict. Strategic considerations in policy design and advocacy; potential reaction to conflict. Relevant models and research findings generated by both case studies and comparative methods.

PAF 532 Urban Planning Administration. (3) N
Historical and present day uses of urban planning and procedures for its implementation. Basic principles and practices.

PAF 533 Urban Growth Administration. (3) N
Examines the process of urban growth and change. Partnership roles played by public and private sectors in management are emphasized.

PAF 535 Urban Housing Policy. (3) N
Comprehensive consideration of the revitalization of American cities with major emphasis upon the housing process and related institutions and services.

PAF 536 Urban Policy Making. (3) N
Analysis of the opportunities and costs of influencing public policy and the roles of officials and bureaucracies in decision making.

PAF 540 Advanced Policy Analysis. (3) A
Emphasizes the structure of policy problems, forecasting policy alternatives, optimizing resources, and reducing uncertainty in policy making. Prerequisite: PAF 505 or instructor approval.

PAF 541 Program Evaluation. (3) N
Various methodologies available for the evaluation of public policies and programs. Prerequisite: PAF 501 or instructor approval.

PAF 546 Environmental Policy and Management. (3) N
Analysis of environmental policy and planning issues and principles related to the analysis and management of natural and urban/regional resources.

PAF 547 Science, Technology, and Public Affairs. (3) N
The influence of science and technology on governmental policy making, scientists as administrators and advisors, governmental policy making for science and technology; government as a sponsor of research and development.

PAF 548 Women, Politics, and Public Policy. (3) N
Explores how political philosophy, politics, and public policy affect and are affected by women.

PAF 549 Diversity Issues and Public Policy. (3) N
Examination of public policy issues concerning or affecting women, black, Latino, Asian, and American Indian communities, as well as those groups’ impact on the policy process.

PAF 550 Information Management. (3) N
Concepts and theory of information and information technology in public sector organizations.

PAF 551 Computers in Administration. (3) N
Experience in use of computer technology for public administration problem solving.

PAF 552 Public Information Systems. (3) N
Systems analysis concepts and theory as applied to administration. Alternative models of information organization and their impact on public decision making.

PAF 555 Research Data Management. (3) N
Techniques and problems associated with data management in a research environment. Database management systems, security and integrity, accessibility, and cost.

PAF 556 Database Management Systems. (3) N
Concept and use of modern database management systems in an administrative organization. Advantages and disadvantages of this approach.

PAF 561 Comparative Administration. (3) N
Literature on comparative public administration theory. Bureaucracies and their impact on the political development process. Selected nations are studied.

PAF 562 Intergovernmental Relations. (3) A
Evolution, growth, present status, and characteristics of the U.S. federal system of government. Federal-state relations, state-local relations, regionalism, councils of government, interstate cooperation, grants-in-aid, and revenue sharing.

PAF 563 Report Preparation. (3) N
Intensive practice in written and oral presentation of reports to conferences with problems in public administration. Visual aid techniques.

PAF 564 Political Economy. (3) A
Classical and contemporary literature and historical development of governmental and economic arrangements, with special emphasis on the role of the state.

PAF 591 Seminar. (1–12) F, S
Topics may include but are not limited to the following:
(a) Business and Government
(b) Emergency Management
(c) General Public Administration
(d) Information Management
(e) Public Finance Administration
(f) Public Management
(g) Public Policy Analysis
(h) Urban Affairs and Urban Planning

PAF 600 Research Design and Methods. (3) A
Advanced methods of research design and data collection. Prerequisites: formal graduate-level course work in statistics and in research methods.

PAF 601 Seminar: Policy Analysis and Evaluation. (3) A
Normative and conceptual issues of policy formulation, implementation, and evaluation; methods of policy analysis and evaluation.

PAF 602 Seminar: Foundations of Public Administration. (3) A
Ethical, social, legal, and philosophical foundations of public administration.

PAF 603 Seminar: Organization and Behavior in the Public Sector. (3) A
Structure, organization, conduct, and performance of public sector institutions in the administration of public policy. Prerequisite: PAF 602.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Associate Professor: Benin

DOCTOR OF PUBLIC ADMINISTRATION

The School of Public Affairs offers an interdisciplinary graduate program leading to the Doctor of Public Administration degree.

The purpose of the Doctor of Public Administration (D.P.A.) degree program is to prepare skilled professional public administrators for high-level positions in the public sector, and to foster the next generation of public administration scholars in research and university teaching. The program is designed to emphasize both normative and con-ceptual content pertaining to value assessments, theoretical assumptions, ethics, and modes of decision making, as well as practitioner problem-solving skills in budgeting, public personnel management, public finance, planning, program evaluation, and policy analysis.

The D.P.A. degree program is interdisciplinary in nature and is offered by faculty from various colleges. One of the unique features of this interdisciplinary program is that, because it utilizes faculty research and teaching interests from a number of academic units, a student may tailor a course of study to fit individual needs and goals.

Admission. Applications are reviewed by an admissions committee appointed by the director of the executive committee. Recommendations for admission are made by the director of the executive committee to the dean of the Graduate College. Minimum Graduate College admission requirements must be met. See “Admission to the Graduate College,” page 92, for requirements. Additionally, each applicant must provide a letter of career goals and statement of reasons for seeking the D.P.A. degree, a GRE test score, a professional résumé, and six letters of recommendation (three from faculty and three from professional public administrators). International students must submit both TOEFL and TSE scores. Admissions recommendations are made only once each year, with admitted students beginning their studies in the fall semester. To assure consideration for the ensuing fall semester, submit applications for admission, graduate assistantship, and tuition waiver by February 15. Only applicants already holding a master’s degree are considered. If deficiencies exist in public administration course work at the master’s level, appropriate classes are prescribed.

Program of Study. When the program of study is filed, a supervisory committee consisting of at least three persons is appointed by the dean of the Graduate College upon the recommendation of the director of the executive committee. The chair of the supervisory committee serves as the student’s graduate advisor. The supervisory committee advises the student in developing a program of study and assumes primary responsibility in assessing the student’s progress in the program. The program consists of a minimum of 66 semester hours of graduate work beyond the master’s degree. Of the 66 semester hours, at least 24 must be dissertation and research credit. A minimum of 30 semester hours of approved course work, exclusive of dissertation and research, must be taken at ASU after admission to the program. A sequence of four core courses is required of all students, followed by a screening examination. In addition to the four core courses, an approved program of study must have a course listed in each of the following areas: quantitative research methods, qualitative research methods, political economy, and democratic theory and governance.

Residency. The minimum residency requirement for the D.P.A. degree consists of 30 semester hours of doctoral program credit within a period of 24 consecutive months.

Comprehensive Examinations. Upon completion of course work, and before dissertation research, the student is given a written examination in each of the areas of specialization. The written examinations are followed by a single oral examination. If the student should fail one or more components of the examination, a reexamination may be...
administered no sooner than three months and no later than one year from the date of the original examination. Approval for this reexamination must be obtained from the supervisory committee, the director of the executive committee, and the dean of the Graduate College. A second failure is considered final and dismissal from the program is recommended to the Graduate College.

Candidacy. Doctoral students should apply for admission to candidacy immediately after they have met all requirements for the degree, except the dissertation. These requirements include passing the comprehensive examinations and other requirements specified by the executive committee.

Dissertation Requirements. A dissertation is required of each student. The dissertation must consist of a fully documented written analysis demonstrating a high level of skill and competence. Each student must register for a minimum of 24 hours of dissertation and research. The dissertation is supervised by a committee of at least three faculty members appointed by the dean of the Graduate College. (Each student is required to complete at least two colloquium hours of 799 as part of the dissertation proposal.)

Final Examinations. The final oral examination in defense of the dissertation is scheduled by the dean of the Graduate College and conducted by the student’s dissertation committee. A candidate must pass the final examination within five years after completing the comprehensive examination. Any exception must be approved by the dissertation committee, the director of the executive committee, and the dean of the Graduate College.

Graduation. The student is eligible for graduation when the Graduate College scholarship requirements have been met, the final oral examination has been passed, and the dissertation has been approved by the supervisory committee and accepted by the director of the executive committee and the dean of the Graduate College.

Applications for graduation should be made no later than the date specified in the Graduate College calendar.

COURSES
For courses, see “Public Affairs (PAF);” page 283.
six hours of thesis (REC 599), which must be defended in an oral examination before a supervisory committee of at least three faculty members, one of which resides in another department.

REC 500 Research Methods I .................................................. 3
REC 501 Program Evaluation and Information Management ............... 3
REC 552 Foundation of the Recreation and Tourism Professions ............. 3
REC 555 Social and Psychological Aspects of Recreation and Tourism Behavior ................................................................. 3
REC electives (within the major) .................................................. 12
Electives (outside the major) ...................................................... 12
Thesis ..................................................................................... 6
Minimum total ........................................................................ 39

Program Requirements: Nonthesis Option. The nonthesis option consists of 39 semester hours of which 12 semester hours may be taken outside the department. This option includes three hours of applied project (REC 593). The applied project reflects a substantive analysis of a professionally oriented topic related to the student’s area of concentration. Before final approval, the student’s project must be defended in an oral examination and receive the written approval of two department faculty members who serve on the supervisory committee.

REC 500 Research Methods I .................................................. 3
REC 552 Foundation of the Recreation and Tourism Professions ............. 3
REC 555 Social and Psychological Aspects of Recreation and Tourism Behavior ................................................................. 3
REC 593 Applied Project ............................................................ 3
REC 598 Special Topics .............................................................. 3
REC electives (within the major) .................................................. 12
Electives (outside the major) ...................................................... 12
Minimum total ........................................................................ 30

Foreign Language Requirements. None.

Thesis Requirements. A thesis is an option.

Final Examinations. A final oral examination in defense of the thesis or an applied project is required.

RESEARCH ACTIVITY

The study of leisure, recreation, and tourism is a multidisciplinary field of research, scholarship, and program development. Recent scholarly activity of departmental faculty and students reflect this approach. Major research areas include the following: international travel and tourism; philosophy of leisure; recreation resource planning; social and psychological analyses of leisure behavior; leisure and youth development; travel and tourism policy and planning; urban recreation administration; outdoor recreation and wilderness management; cross-cultural analysis of play and leisure; gender differences in leisure behavior patterns; non-profit agency leadership/management.

RECREATION (REC)

REC 500 Research Methods I. (3) A Introduction to recreation research methods, with emphasis on methodological questions, research issues, and techniques relevant to contemporary social research. Prerequisite: 500-level or higher approved statistics course.

REC 501 Program Evaluation and Information Management. (3) N Development of skills in several professional areas, including: evaluation, needs assessment, information and data collection, data management/analysis, computer applications, and report writing.

REC 530 Recreation and Tourism Service Management. (3) S 2002 Examination and application of organizational behavior, leadership, human resources, and development; planning and risk management to profession.

REC 552 Foundation of the Recreation and Tourism Professions. (3) A Examination of the philosophical and conceptual foundations of play, leisure, recreation and tourism; history of the profession; professional and research issues.

REC 555 Social and Psychological Aspects of Recreation and Tourism Behavior. (3) A Theoretical review and empirical analysis of social, cultural, and psychological foundations of leisure behavior with practical implications.

REC 558 Integrative Seminar. (3) A Advanced exploration and assessment of current trends within the leisure studies profession. This course has variable topics, including, but not limited to: cross-cultural analysis of leisure, urban recreation, planning and resources, sociocultural dimensions of tourism development, wilderness management. Prerequisite: REC 552.

REC 569 Current Issues in Tourism. (3) A General survey of tourism literature with an emphasis on relevant theories, concepts, and current research.

REC 570 Social Aspects of Outdoor Recreation Management. (3) A An analysis of the social aspects of natural resource recreation management and planning. Prerequisite: REC 370 or equivalent.

REC 580 Practicum. (1–12) N
REC 593 Applied Project. (1–12) N
REC 598 Special Topics. (1–12) N
REC 599 Thesis. (1–12) N

LECTURER
Damrell

The faculty of the Department of Religious Studies offer a graduate program leading to the M.A. degree in Religious Studies. This program is designed to serve three main purposes. It offers intensive training in research methods and in select special fields for students who seek to qualify for doctoral programs at leading universities. It serves as specialized training for those who plan to teach religious studies subject matters in colleges and high schools or who wish to
bring cultural and cross-cultural analytical tools to professions such as business, social work, government, and journalism. It allows qualified persons in nonacademic occupations the opportunity to acquire competence in the study of religions, broadly defined, and in areas of special interest.

Course offerings and faculty appointments reflect the commitment of the department to a balance of Western and Asian, historical and conceptual, methodological, and subject-oriented areas of study. This programmatic diversity is maintained in a context of scholarly collegiality involving both faculty and graduate students.

**MASTER OF ARTS**

See “Master’s Degrees,” page 101, for general requirements.

The graduate program leading to the M.A. degree provides two options: (1) a thesis option and (2) a portfolio option. While admission requirements and procedures are identical for both options, requirements for degree completion vary as indicated.

**Admission.** In order to be eligible for admission to the graduate program in Religious Studies, an applicant must meet Graduate College requirements. See “Admission to the Graduate College,” page 92, and provide the following:

1. The student must submit test scores from the Graduate Record Exam (older returning students may petition the department to have this requirement waived).
2. The student must have completed the equivalent of 15 hours of undergraduate work in the study of religions, including advanced courses in both Western and Asian or other non-Western religions. Students without the necessary background in religious studies may remove deficiencies by taking additional specified courses (which may or may not count toward the fulfillment of degree requirements) at the beginning of their program of study.
3. The student must request three academic letters of reference to be sent to the graduate coordinator of the department.
4. The student must submit an essay of approximately 1,000 words outlining the academic background, career goals, and specific area of interest in religious studies in relation to fields offered by the faculty.

Complete applications are due by February 1. Students will receive notification from the department by April 1. Graduate assistantship awards are also announced on or about April 1. Late applications and applications for spring semester are reviewed on an individual basis.

**GRADUATE PROGRAM REQUIREMENTS**

**Thesis Option.** This option is recommended for students intending to seek admission to a doctoral program upon completion of the M.A. degree or planning to teach in the discipline at community colleges. For the thesis option the student must satisfy the following requirements:

1. reading knowledge of French, German, or another language relevant to the proposed thesis topic is normally required. At the discretion of the student’s supervisory committee, the requirement may be waived for students who either are not planning to enter a doctoral program or are planning to pursue doctoral work that does not require proficiency in foreign languages;
2. 24 hours of course work, including six hours in methods and theory (REL 501, 502); three hours of research (REL 592) in the field of the thesis topic; and six hours of graduate seminar (REL 591), offered each semester on varying topics within the academic study of religion;
3. a thesis that earns six semester hours of Thesis 599 credit; and
4. an oral defense of the thesis.

**Portfolio Option.** This option is recommended for students intending to augment their primary area of expertise and professional training in fields such as journalism, law, teaching K–12, counseling, social work, the ministry, and others. For the portfolio option, the student must satisfy the following requirements:

1. reading knowledge of a foreign language relevant to the proposed area of concentration. At the discretion of the student’s supervisory committee, the requirement may be waived;
2. 30 hours of course work, including six hours in methods and theory (REL 501, 502); six hours of graduate seminar (REL 591); four courses in a major area of concentration; and two courses in a minor area;
3. a portfolio consisting of three papers: one on theory and method, one on the student’s minor area of study, and one on the major area of study. Although portfolio papers may germinate from ideas generated in graduate seminars, they will be of publishable quality and make substantive contributions to the scholarship of the field. Credit towards completing the portfolio may be earned as part of the required credit hours outlined in (2); and
4. an oral defense of the portfolio.

**RESEARCH ACTIVITY**

Areas of faculty research include the following: African American religions (Moore); Islam (Woodward, Damrel, Umar); medieval and folk Hinduism (Feldhaus); popular religion and culture in Japan from medieval times to present (Foard); Rabbinic Judaism and religion and ethics (Gerbolff); Jewish philosophy and theology (Samuelson); North and South Native American religions, including issues in cross-cultural contact (Morrison, Swanson); Religion and Science (Samuelson, Coudert); Russian and East European religions (Clay); modern religious thought and religion and the public/private boundary (Cady); religion and gender (Fessenden); the religions of Southeast Asia, including issues of modernization (Schober, Woodward); and religion and nationalism (Damrel, Clay, Woodward, Umar); American Southwest religions, U.S. andMexico Borderland studies, Religion in the Latino Americas (Leon).

**RELIGIOUS STUDIES (REL)**

**REL 410 Judaism in Modern Times.** (3) N Variety of expressions of Judaism and Jewishness in the modern period. Topics may include American Judaism or religious responses to the Holocaust. General Studies: HU, H.
REL 415 The Jewish Mystical Tradition. (3) A
Examination of some of the esoteric lore of Judaism. Movements and literature such as Hasidism and Kabalah are studied. General Studies: HU.

REL 420 Religion in American Life and Thought. (3) A
The influence of religion on American society, culture, and ideas; the distinctive character of religion in America. Prerequisite: REL 320 or 321 or equivalent. General Studies: L/HU.

REL 426 American Preachers and Preaching: The Sermon in America. (3) N
The life and work of notable American preachers. The emergence of the preacher as representative of American religion. Prerequisite: REL 320 or 321 or equivalent. General Studies: L/HU.

REL 427 American Religious Thought. (3) N
The thought of representative American religious thinkers, i.e., Jonathan Edwards, William Ellery Channing, Horace Bushnell, and Reinhold Niebuhr. Prerequisite: REL 320 or 321 or equivalent. General Studies: HU, H.

REL 444 Religion in Japan. (3) F
Religion in Japanese history, especially the development of Japanese Buddhism, and religion in modern transformation of Japan. Prerequisite: instructor approval. General Studies: HU, G, H.

REL 460 Studies in Islamic Religion. (3) A
Issues in the interpretation and understanding of Islamic texts, history, society, culture, and rituals. Prerequisites: REL 365 and Religious Studies major or instructor approval. General Studies: HU, G.

REL 470 Religion in the Middle Ages. (3) A
Religious aspects of medieval life and thought; variety of forms of dissent, heresy, and reform movements from the 4th to 13th centuries. General Studies: HU, H.

REL 471 Reformation and Modern Christianity. (3) A
Protestant Reformation to contemporary Christian movements; includes factors in the dissolution of the Medieval Christian synthesis, variety of reform movements and reformation patterns, Catholic counter-reform measures, formation of liberal theology, ecumenical movement, and the World Council of Churches. General Studies: HU, H.

REL 486 Modern Critics of Religion. (3) A
Major theories and critiques of religion among modern social, philosophical, and religious thinkers. General Studies: HU.

REL 494 Special Topics in Religious Studies. (3) N
Open to all students, freshmen by instructor approval only. Topics may be selected from various areas.

REL 498 PS: Pro-Seminar in Religious Studies. (3) A
For students with a major or minor emphasis in Religious Studies.

REL 501 Research Methods in Religious Studies. (3) F
An exploration of the major themes and methods in the study of religion, with primary focus on classical texts. Lecture, discussion.

REL 502 Research Methods in Religious Studies. (3) F S
An exploration of the major themes and methods in the study of religion, with primary focus on contemporary texts. Lecture, discussion.

REL 591 Seminar. (3) N
Topics on methodological issues in the study of religion. Prerequisite: Religious Studies graduate student or instructor approval.

REL 592 Research. (1–12) N

REL 598 Special Topics. (3) F S
Topics are selected from the following areas:
(a) Christianity
(b) Islam
(c) Judaism
(d) Native American Religion
(e) Problems in Religious Studies
(f) Religion in America
(g) Religion in East Asia
(h) Religion in South and Southeast Asia
(i) Study of Religion, Comparative Religion
(j) Western Religious Thought, Ethics

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Scholarly Publishing

Certificate Program

Beth Luey
Director

(SS 225H) 480/965-5775
www.asu.edu/clas/history/graduate/scholarlypub.html

SENIOR INSTRUCTIONAL PROFESSIONAL
LUEY

Graduate students in any discipline may pursue a Certificate in Scholarly Publishing in conjunction with their degree programs. The program is also open to students who already hold graduate degrees. Students gain an understanding of the structure of scholarly publishing (scholarly books, journals, reference books, college textbooks, and scholarly electronic media), its role and responsibility in society, the legal and ethical issues that impinge upon it, and its economics. They also learn to perform the responsibilities of editors, designers, or producers of scholarly publications. Course work includes a required core, required courses in editing or design, and electives from a variety of disciplines. The certificate requires 28 hours of course work, including six internship hours. Some courses may be applied to both the certificate and the student’s degree program. Applicants are strongly urged to submit Graduate Record Examination aptitude scores; a writing sample is required. Application deadline is February 1. For more information, contact the director, Scholarly Publishing Program, SS 225H, 480/965-5775.

SCHOLARLY PUBLISHING (PUB)

PUB 501 Introduction to Scholarly Publishing. (3) F
An introduction to the purpose, organization, and operation of scholarly publishing, including its history, societal role, and current issues. Lecture, discussion. Prerequisite: graduate standing.

PUB 502 Scholarly Editing. (3) F
Publishing procedures, proofreading, and manuscript editing of scholarly books, textbooks and scholarly journals. Lecture, discussion. Prerequisite: admission to scholarly publishing certificate program. Pre- or corequisite: PUB 501.

PUB 503 Advanced Scholarly Editing. (3) S
Advanced manuscript editing, acquisitions, developmental editing, and indexing of scholarly books, textbooks, and scholarly journals. Lecture, discussion. Prerequisites: PUB 501, 502.

PUB 510 Research in Scholarly Publishing. (3) S
Individual or group research projects on issues in scholarly publishing, including legal, economic, design, technological, and related topics. Directed research. Discussion. Prerequisites: PUB 501; admission to scholarly publishing certificate program.

PUB 584 Scholarly Publishing Internship. (1–6) A
Structured, supervised, practical experience with a scholarly publisher or other appropriate publishing enterprise. Internship. Prerequisites: PUB 501; 9 hours in scholarly publishing core; instructor approval.
PUB 598 ST: Special Topics in Scholarly Publishing. (1) S
One-week short courses covering special topics in scholarly publishing, to be taught by visiting publishing professionals. Lecture, discussion. Prerequisites: PUB 501; admission to scholarly publishing certificate program.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Science and Engineering of Materials
Interdisciplinary Doctoral Program

James Adams
William Petuskey
Codirectors
(PS A323) 480/965-2460
sem@asu.edu

Associate Professors: Bird, Zhang

Mechanical and Aerospace Engineering
Professor: Sieradzki

Physics and Astronomy
Professors: Bennett, Ponce, Rez, Sankey,
Smith, Tsong, Venables;
Associate Professors: Culbertson, Herbots, Marzke

The Committee on the Science and Engineering of Materials offers an interdisciplinary graduate program leading to the Ph.D. degree in Science and Engineering of Materials, with concentrations in high-resolution nanostructure analysis and solid-state device materials design. The members of the faculty comprising the program are from several academic research units in the College of Liberal Arts and Sciences and the College of Engineering and Applied Sciences: the Center for Solid-State Science; the Departments of Chemical, Bio, and Materials Engineering; Chemistry and Biochemistry; Electrical Engineering; Mechanical and Aerospace Engineering; Physics and Astronomy.

DOCTOR OF PHILOSOPHY

The Ph.D. degree in the Science and Engineering of Materials is an interdisciplinary program of study that integrates courses offered by faculty representing various disciplines noted above, along with courses in mathematics, to provide a sound foundation for research leading to a dissertation. Emphasis is placed upon applications of the core fundamentals for investigation of the relationships between microstructure and properties and performance of solids, and the dependence of microstructure on processing.

Admission. Admission to the SEM Program is a two-step process. First, all prospective students must satisfy the general admission requirements of the Graduate College. International students must submit a Test of English as a Foreign Language (TOEFL) score. The minimum TOEFL score required by the SEM Program is 600. Second, students must satisfy the requirements of the SEM Program. These requirements are: a GRE (verbal, quantitative, analytical), a professional resume, a statement of purpose, and three letters of recommendation. International students who wish to be considered for teaching assistantships must provide the program with a Test of Spoken English (TSE) score. Application materials must be received by the SEM Program Office by the following established deadlines: for fall, documents must be received (postmarked) by February 1; for spring, by October 1.

Program of Study. The program consists of a minimum 84 semester hours beyond the bachelor’s degree, at least 24 of which are research and dissertation credit. Programs of study for individual students are defined during discussions between the student and the faculty supervisory committee. At least 30 semester hours of the approved program of study, including the core, exclusive of research and dissertation, must be completed after admission to the Ph.D. at ASU. A minimum of 10 graduate-level courses beyond the bachelor’s degree is required.

The curriculum includes core courses that define the essential course work for all students, involving 21 semester hours of selected courses in materials, chemistry, and physics. Students who previously have taken courses fulfilling some of the core requirements may select electives.

Interdisciplinary Core Courses
CHM 471 Solid-State Chemistry ........................................3
CHM 541 Advanced Thermodynamics .................................3
CHM 545 Quantum Chemistry I .......................................3
MSE 514 Physical Metallurgy .............................................3
MSE 550 Advanced Materials Characterization ..................3
PHYS 481 Solid-State Physics ............................................3
SEM 598 ST: Graduate Student Seminar ..........................3
Total ...............................................................................21

Students may choose one of the following concentrations in their program of study: (1) high-resolution nanostructure analysis and (2) solid-state device materials design, or may tailor a program of study in the science and engineering of materials to meet their professional and academic needs. Students achieve the desired concentration by completing three or more of the courses in the appropriate concentration group of courses. The courses in these concentrations are a part of the elective portion of the degree course requirements.

High-Resolution Nanostructure Analysis. The courses comprising the high-resolution nanostructure analysis concentration are the most comprehensive education in the the-
ory and application of transmission electron microscopy in the U.S. This group of courses is highly interdisciplinary. Because of the strict and important correspondence between the properties of materials and their nanostructure, transmission electron microscopy plays a central role in modern materials science, far beyond its role in other fields of natural science and engineering. Nanostructure analysis is fully one-third the field of materials research and is often the critical knowledge necessary to understand the behavior of materials. The development and applications of high-resolution nanostructure analysis methods is one of ASU’s strongest materials research and education specialities and is an important part of the SEM program. Required courses are as follows:

- SEM 556 Electron Microscopy Laboratory ............................................ 3
- SEM 557 Electron Microscopy Laboratory ............................................ 3
- SEM 558 Electron Microscopy I .......................................................... 3
- SEM 559 Electron Microscopy II ........................................................ 3
- Total ......................................................................................................... 12

**Solid-State Device Materials Design.** The courses specified for the solid-state device materials design concentration are materials applications and characterization courses that introduce SEM students to the culture of device engineering. Students apply their knowledge of basic materials science to contemporary problems of the solid-state electronics industry. Required courses are as follows:

- EEE 435 Microelectronics ...................................................................... 3
- EEE 436 Fundamentals of Solid-State Devices ........................................ 3
- EEE 536 Semiconductor Characterization ............................................ 3
- MSE 598 ST: Growth and Processing of Semiconductor Devices .......... 3
- Total ......................................................................................................... 15

**Foreign Language Requirements.** None.

**Comprehensive Examinations.** Near completion of course work and no later than three years after admission to the program, the student is given a comprehensive examination with oral and written components. The written component is a test that examines the student’s knowledge in the core course subjects.

The examination is administered by the Curriculum and Examination Committee. The oral component requires the presentation of a research proposition to the student’s faculty supervisory committee. The student must define a research problem of current relevance to the materials science field. The problem may be experimental, theoretical, or a combination of both. The presentation should be based on the study of literature and discussions with members of the supervisory committee and materials researchers. The student will define the problem, describe its significance in the field, propose a method of investigation leading to a solution of the problem, and defend the problem and proposed solution before the faculty supervisory committee. The proposed problem may be from any area of materials research but it may not be part of the student’s dissertation topic. The student must prepare and deliver to the members of the supervisory committee the written proposal describing the research proposition not less than seven business days prior to the scheduled examination date. The comprehensive exams may be taken no more than twice upon formal application to, and under conditions specified by, the student’s faculty committee, the director of the supervisory program, and the dean of the Graduate College. Upon successful completion of this examination, the student is advanced to candidacy for the degree by the Graduate College.

**Dissertation Requirements.** The dissertation, which is the final and most important product of the student’s effort in this program, must report original research in the field and demonstrate the student’s ability to conduct creative, independent research. Each candidate must register for 24 semester hours of research and dissertation as part of the degree requirements: specifically 12 semester hours of SEM 792 Research and 12 semester hours of SEM 799 Dissertation. Dissertation credits should be taken in the semester(s) following the student’s advancement to candidacy.

After the student passes the comprehensive examinations, and every semester up to the time the student defends the dissertation, the student must submit a one-page report on the dissertation proposal to his or her dissertation committee at the end of the semester.

**Final Examinations.** The final oral examination in defense of the dissertation is conducted by the student’s dissertation committee and others appointed by the dean of the Graduate College.

**RESEARCH ACTIVITY**

The faculty in the Science and Engineering of Materials Program have established vigorous research programs in the field. Current results are discussed regularly by faculty, research staff, graduate students, and external invited speakers in several regular seminar series. Students in the program have the opportunity to participate and interact directly with speakers.

Areas of current research include the structure and properties of semiconductors such as the following: silicon and gallium arsenide; fabrication of ultrasmall solid-state electronic devices; the structure of the free surfaces of crystalline solids; the structure and properties of intercalated layered compounds; the effects of ion implantation on solids (lattice defect formation, mixing, phase transformations); environmental effects on spectral emissivity of solids; the effects of high pressure on solids; study of phase transformation mechanisms in many different types of solids; atomic structure of interfaces in metal matrix/ceramic and crystal/polymer composites. Several different laboratories containing specialized equipment and computing facilities are available to students conducting research in the program. These include the following: the Facility for High Resolution Electron Microscopy; the Center for Solid-State Electronics Research; electron spin and nuclear magnetic resonance spectroscopy laboratories; several materials preparation laboratories; a Raman spectroscopy laboratory; atomic absorption, X-ray fluorescence, and mass spectroscopic laboratories; X-ray diffraction laboratories; optical microscopy laboratories; computer-controlled high temperature mechanical deformation facilities for constant or variable strain rate plasticity and fracture research; creep research; high temperature electron emission and thermionic energy conversion research.

Courses applicable to the Science and Engineering of Materials interdisciplinary program are taught by faculty in related departments such as chemistry and biochemistry.
physics and astronomy, electrical engineering, chemical, bio and materials engineering, mechanical and aerospace engineering, and mathematics. For descriptions of these courses, see the listings under appropriate headings in this catalog.

**SCIENCE AND ENGINEERING OF MATERIALS (SEM)**

SEM 556 Electron Microscopy Laboratory. (3) F
Lab support for SEM 558. Cross-listed as MSE 556. Credit is allowed for only MSE 556 or SEM 556. Prerequisite: MSE/SEM 558.

SEM 557 Electron Microscopy Laboratory. (3) S
Lab support for SEM 559. Cross-listed as MSE 557. Credit is allowed for only MSE 557 or SEM 557. Prerequisite: MSE/SEM 559.

SEM 558 Electron Microscopy I. (3) F
Microanalysis of the structure and composition of materials using images, diffraction, and X-ray and energy loss spectroscopy. Knowledge of elementary crystallography, reciprocal lattice, stereographic projections, and complex variables is required. Cross-listed as MSE 558. Credit is allowed for only MSE 558 or SEM 558. Prerequisite: instructor approval.

SEM 559 Electron Microscopy II. (3) S
Microanalysis of the structure and composition of materials using images, diffraction, X-ray, and energy loss spectroscopy. Knowledge of elementary crystallography, reciprocal lattice, stereographic projections, and complex variables is required. Cross-listed as MSE 559. Credit is allowed for only MSE 559 or SEM 559. Prerequisite: instructor approval.

SEM 594 Vacuum System Science and Engineering. (3)
Vacuum concepts, equipment, and systems are studied to give the student an operational knowledge of modern vacuum technology. Equal emphasis will be placed on theoretical and practical instruction. Class time is equally distributed between lecture and laboratory sessions. Lab sessions will consist of exercises and tours to provide hands-on experience with and a working perspective of the vacuum techniques and systems principally used in industry, academia and government laboratories. Undergraduates take two written exams; graduate students take two written exams and complete a vacuum system design project. Prerequisite: college algebra.

SEM 596 Special Topics. (1–12) N
(a) Graduate Student Seminar
(b) Research Methods. (1–6)
(c) Reading and Conference. (1–6)
(d) Graduate Seminar. (1)
Sem 792 Research. (1–12)
Sem 799 Dissertation. (1–12)

**MASTER OF ARTS**

The faculty in the Division of Educational Leadership and Policy Studies offer a graduate program leading to the M.A. degree in Social and Philosophical Foundations of Education. Students may also select policy analysis as an area of study. Students may seek the foundation’s emphasis. The program offers students a thorough grounding in historical, social, and philosophical literature. The program is geared toward students seeking relevant and advanced preparation for doctoral-level study in one of the fields of education. The program is also appropriate for educational practitioners seeking terminal master’s degrees and advanced intellectual development that will make them more thoughtful teachers and better informed decision makers. Students study both classic and leading contemporary thought taken from educational, social, and philosophical literature. The program draws on intellectual sources and scholarly disciplines, including anthropology, curriculum theory, history, law, philosophy, sociology, and comparative international and multicultural perspectives.
Applicants for admission to the M.A. degree program must submit scores on the Graduate Record Examination. Candidates for the M.A. degree must pass a written comprehensive examination, in addition to writing a thesis or equivalent. An oral examination in defense of the thesis or equivalent is required.

**RESEARCH ACTIVITY**

Faculty research incorporates both qualitative and quantitative methodologies. Studies are being conducted on minority education, including cultural pluralism, multicultural and bilingual education, and education of women. Philosophical, sociological, historic, economic, and comparative approaches are employed. Research also focuses on the theory of evaluation and educational policy. In addition to the social and philosophical foundations of education faculty, students have the opportunity to collaborate on research projects with the faculty in higher education, educational administration and supervision, and policy studies.

**SOCIAL AND PHILOSOPHICAL FOUNDATIONS (SPF)**

**SPF 501 Culture and Schooling.** (3) F, S
Introduction to social science concepts of culture and the cultural milieu in which schooling takes place in the United States. Lecture, recitation.

**SPF 510 Introduction to Organization and Administration of American Public Schools.** (3) F, S
Organizational structure and administration of public education are explored through the application of legal and ethical concepts and relevant information of the social sciences. Cross-listed as EDA 510. Credit is allowed for only EDA 510 or SPF 510.

**SPF 511 School and Society.** (3) F, S, SS
Interrelationship of school and society and the role of education in social change.

**SPF 520 Cultural Diversity in Education.** (3) S
Philosophical and sociological investigation of cultural diversity in the United States and how it relates to education.

**SPF 530 Sociology of Education.** (3) F
Explorations in the history of sociological thought, especially theories of the relations between educational systems and the social/cultural world.

**SPF 533 Comparative Education in the Western World.** (3) N
Educational practices and traditions in the leading nations of Europe and the Soviet Union.

**SPF 544 Philosophical Foundations of Education.** (3) F
Theories of education in ancient, medieval, and modern classical and contemporary philosophies.

**SPF 566 History of Education.** (3) S
Development of educational institutions and ideas in the Western World, from ancient times to the 20th century.

**SPF 603 Visual Ethnography in Education.** (3) S
Advanced qualitative methods class combining ethnography with the use of video and still photography in data gathering and presentation. Seminar. Corequisite: COE 503.

**SPF 612 Evaluation Theory.** (3) F
Explores the major theories of evaluation (inquiry leading to value judgments) in educational policy through examination of cases.

**SPF 622 Organizational Theory.** (3) S
Major views of organizations and their influence on role definition and participant behaviors in educational organization. Seminar, discussion. Cross-listed as HED 688. Credit is allowed for only HED 688 or SPF 622.

**SPF 711 Social and Historical Foundations of Education.** (3) N
Problems of American education and their sociohistorical context.

**Omnibus Graduate Courses.** See page 57 for omnibus graduate courses that may be offered.

The faculty in the School of Social Work offer programs leading to the Master of Social Work degree and the Ph.D. degree in Social Work.

**MASTER OF SOCIAL WORK**

The professional program leading to the Master of Social Work degree prepares social workers for advanced direct practice or planning, administration, and community practice. The program is designed to prepare social workers capable of responding effectively to the needs of special populations in the Southwest—the ethnic groups of the region; the aged; urban and rural poor; children at risk; the disabled; and women who are victims of poverty, discrimination, and violence—in its curriculum and its practicum assignments. The Master of Social Work degree program is accredited by the Council on Social Work Education.

**Application Procedures.** Students applying to the graduate program in Social Work must follow the procedures for admission to the Graduate College (see “Admission to the Graduate College,” page 92). In addition the applicant must submit the following to

**ACADEMIC SERVICES**

**SCHOOL OF SOCIAL WORK**

**ARIZONA STATE UNIVERSITY**

**PO BOX 871802**

**TEMPE AZ 85287-1802**

1. application to the graduate Social Work program,
2. statement of educational and career goals in sufficient detail to indicate compatibility with the educational objectives and capabilities of the School of Social Work,
3. three letters of reference using the reference letter forms provided by the School of Social Work, and
4. test scores from either the GRE or the MAT.
Admission

Regular Admission. In addition to the requirements listed above, the school also requires one of the following:

1. a liberal arts undergraduate degree;
2. a B.S.W. from a Council on Social Work Education accredited school of social work; or
3. another undergraduate degree, with 30 semester hours in liberal arts courses at the undergraduate or graduate level.

The 30 semester hours described in item three above must include course work from the social/behavioral sciences, natural sciences, and humanities. The distribution should approximate the current policy for the B.S.W. program: 18 hours in social and behavioral sciences, six hours in natural sciences with at least one course in human biology, and six hours in humanities.

All students are required to successfully complete a course in human biology prior to enrollment in the graduate program. Additionally, all students must have successfully completed a course in statistics before admission. If the statistics requirement has not been met, then an equivalent course must either be successfully completed by December 31 or prior to registering for SWG 519.

Provisional Admission. Applicants with lower test scores or grades below minimum levels may be considered for provisional admission if there is countering evidence suggesting the potential of outstanding performance in the M.S.W. program. Normally, final determination of removal of provisional status is made by the time the student has completed 12 hours of approved graduate study. The provisional student does not begin field work until this status has been changed. However, the student carries the same academic load as a regularly admitted student and is expected to meet the same standards for continuation in the program.

All students are required to successfully complete a course in human biology before enrollment in the graduate program. Additionally, all students must have successfully completed a course in statistics either prior to admission or by the end of the first year in the M.S.W. program.

Applications to the M.S.W. program are accepted from November 1 to March 1 preceding the fall semester to which the applicant is seeking admission, with priority given to completed applications received on or before February 1. All applicants are reviewed for admission for the fall semester only.

Program of Study. The standard program consists of 60 hours including both classroom instruction and field practicum. It is divided into a foundation year (core curriculum) and a concentration year. During both years, students spend two days a week in a practicum setting. The foundation curriculum is the same for all students and must be completed before entering the concentration year. The following are the required foundation courses:

- SWG 501 Human Behavior in the Social Environment I ..........3
- SWG 502 Human Behavior in the Social Environment II ..........3
- SWG 510 Foundation Practice I .............................................3
- SWG 511 Foundation Practice II .............................................3
- SWG 519 Research Methods in Social Work ..........................3
- SWG 531 Social Policy and Services I ....................................3
- SWG 533 Diversity and Oppression in Social Work Context ......3

In the second year, students concentrate in either (1) advanced direct practice or (2) planning, administration, and community practice. Six to nine hours of electives are available for students either to take additional course work in their concentration or to increase knowledge and skill in such areas as health and mental health, family and child welfare, or aging.

The following are required concentration courses:

Direct Practice (DP)

- SWG 606 Assessment of Mental Disorders ................................3
- SWG 611 Social Work with Families ....................................3
- SWG 619 Practice-Oriented Research ....................................3
- SWG 621 Integrative Seminar ..............................................3
- SWG 632 Social Policy and Services II ..................................3
- SWG 641 Advanced Practicum: Direct Practice I ....................3
- SWG 642 Advanced Practicum: Direct Practice II ....................3
- One of the following five approved advanced courses ............3
- SWG 613 Social Work with Individuals (3)
- SWG 614 Social Work with Families in Transition (3)
- SWG 616 Social Work with Chemically Dependent Families (3)
- SWG 617 Social Work Practice with Children and Adolescents (3)
- SWG 618 Family Violence (3)

Electives .................................................................................6

Total .....................................................................................30

Planning, Administration, and Community Practice (PAC)

- SWG 623 Agency and Community-Based Research in Social Work ......3
- SWG 632 Social Policy and Services II ...................................3
- SWG 643 Advanced Practicum: Planning, Social Work Administration, and Community Practice I ............3
- SWG 644 Advanced Practicum: Planning, Social Work Administration, and Community Practice II ................3
- SWG 680 Program Planning in Social Services .........................3
- SWG 681 Social Work Administration ....................................3
- or SWG 682 Community Participation Strategies (3)

Electives .................................................................................12

Total .....................................................................................30

Electives may be selected from offerings at the School of Social Work or courses offered through other departments with the approval of the M.S.W. program coordinator. The total semester hours for each concentration equals 30.

Transfer Credit. Upon recommendation of the admissions committee, the first year of graduate study (up to 30 graduate semester hours) earned at another CSWE accredited school of social work may be transferred and applied toward the M.S.W. degree at ASU. Under these circumstances, the student must complete the second full year of graduate study (at least 30 semester hours of graduate work) at ASU, resulting in a 60-hour program composed of the work from both schools. A full report from the school at which the intended transfer credit was obtained is required.

In other cases, with the approval of the M.S.W. program coordinator, up to six semester hours of graduate work completed at another university may be transferred as elective credit.
Consideration for acceptance of prior graduate credits must be applied for at the time of admission. The grades of all transfer credit must be a “B” or higher.

Nondegree Course Work. A maximum of nine graduate semester hours earned as a nondegree student in the ASU School of Social Work or six semester hours earned at another graduate degree program at ASU may be applied toward the program of study as elective credit. A combination of credit earned as a nondegree student—at ASU or transferred from another university—may not exceed nine hours.

Course work toward a master’s degree must be completed within six consecutive years. The six-year period begins with the first course included on the student’s approved program of study.

Consideration for acceptance of nondegree work must be applied for at the time of admission.

Exemptions and Waiver Examinations. The number of hours required to complete the M.S.W. degree ranges from 36 to 60 semester hours, with 60 hours representing the standard program. In addition to transferring credit (see policy on transfer credit), admitted students may meet requirements of up to 20 hours of credit towards the degree by (1) exempting up to nine hours of foundation course work without examination or (2) successfully completing examinations in any of the foundation courses except field practice.

Exemptions. Only students from B.S.W. programs accredited by the Council on Social Work Education can be considered for exemptions. In order to be eligible for an exemption from any course, students must have received their B.S.W. degree no more than five years prior to the date of admission or must demonstrate current continuing education credits. Admitted B.S.W. students from ASU are exempted from the courses listed below without examination if they meet the stated GPA requirements. B.S.W. students from other accredited programs may also be exempted from the same courses, but must submit their course content material (course description, syllabus, and outline) for review by the M.S.W. program coordinator for an equivalency review to determine exemption. B.S.W. students may be exempted from the following courses:

1. SWG 519, if the student has at least a “B” in SWU 320 or an equivalent social work course;
2. SWG 531, if the student has at least a “B” in SWU 432 or equivalent social work courses; and/or
3. SWG 533, if the student has at least a “B” in SWU 374 or an equivalent social work course.

Waiver Examinations. Students who believe they have successfully completed equivalent undergraduate courses or have related work experience covering content taught in the courses listed below can request to take a written waiver examination.

SWG 501 Human Behavior in the Social Environment I ..........3
SWG 502 Human Behavior in the Social Environment II .........3
SWG 510 Foundation Practice I .................................................3
SWG 511 Foundation Practice II .................................................3
SWG 519 Research Methods in Social Work ................................3
SWG 531 Social Policy and Services I .................................3

* Only students who successfully pass the waiver exam for SWG 510 Foundation Practice I are allowed to take the waiver exam for SWG 511 Foundation Practice II.

Comprehensive Examinations. ASU requires a comprehensive examination for graduation in all professional master’s programs that do not have a thesis requirement. All Social Work students must pass a comprehensive examination, administered by the school, before graduation.

Academic Standing and Curriculum Sequencing. In order to remain in good academic standing, the student must maintain an overall GPA of 3.00 at the end of each semester. Most courses in the program are sequential; successful completion of the prior course in the sequence is required to enroll in the following course. Students may not enroll in any second-year required courses until all foundation courses have been successfully completed.

Tucson Component. The School of Social Work offers the full foundation year (30 semester hours of credit) and some concentration-year course work in Tucson. Students may be required to commute to Tempe during both semesters of their concentration year. Courses are scheduled, however, so that the minimum of travel time is required of students. For information about or application to the Tucson component, call 520/884-5507.

Part-Time Program. A limited number of students are admitted each year to a planned part-time program. Students interested in this option must specifically apply to the part-time program. A maximum of one year of field work may be completed at the agency where the student is employed.

Financial Assistance. Recent federal reductions in support of human services and educational programs have severely limited the resources available for stipends. Therefore, it is important that applicants have a sound financial plan to cover expenses for the duration of the degree program.

Financial assistance information is available from Student Financial Assistance Office, Student Services Building, second floor, 480/965-3355.

DOCTOR OF PHILOSOPHY

The program seeks to prepare future social work scholars who are cognizant of the importance of practice-oriented and evaluative research in applied agency and community settings, who are involved in the development and application of theories in social work practice, and who plan to enhance social work knowledge through its communication and translation in the classroom and field settings.

The program introduces students to the complex range of roles and responsibilities of faculty leadership, to the challenging expectations of critical thinking and creativity in research and teaching, and to the multiple ways of integrating the tripartite demands of research, teaching, and service in the social work profession.

The Social Work faculty advocate for and support the human potential in the distinct experiences and perspectives of the Southwest region. The cultural and economic diversity of the Southwest makes it possible for faculty and students to engage in many issues in their community-based
research and practice. Social Work graduates play key roles in creatively and ethically integrating their professional applied activities with local, state, tribal, and regional interests in the realm of social welfare.

**Admission.** Applicants must hold an M.S.W. degree from an accredited school of social work, preferably have a minimum of two years of post-M.S.W. professional social work paid employment, and apply to both the ASU Graduate College and the School of Social Work. Admission to the Ph.D. program requires completion of all admission requirements and procedures set forth by the Graduate College and test scores from the Graduate Record Examination (GRE) (verbal, quantitative, and analytical). Applications are accepted up to March 1 preceding the fall semester to which the applicant is seeking admission.

**Application Procedure.** The following should be submitted to

ADMISSIONS OFFICE
GRADUATE COLLEGE
ARIZONA STATE UNIVERSITY
PO BOX 871003
TEMPE AZ 85287-1003

1. the application for admission to the Graduate College;
2. two official transcripts from each institution the applicant has attended previously; and
3. test scores from the GRE.

The following should be submitted to

ACADEMIC SERVICES
SCHOOL OF SOCIAL WORK
ARIZONA STATE UNIVERSITY
PO BOX 871802
TEMPE AZ 85287-1802

1. application to the Ph.D. program in Social Work;
2. completed essay questions; and
3. four letters of reference that must use the reference letter forms provided by the School of Social Work.

**Program of Study.** Students must demonstrate scholarly competencies in several broad areas identified during the mentoring and advising process. These areas must include: micro/macro theories and perspectives on critical issues in social work and social welfare (24 semester hours), quantitative/qualitative research methodologies (12 semester hours), and professoriate training and mentoring in research, teaching, and service. The program requires a minimum of 36 semester hours beyond the M.S.W. degree and 84 semester hours beyond the baccalaureate degree. Because students must achieve competency requirements, they may need to take additional course work to achieve these competencies.

The program emphasizes enhancement of scholarship through:

1. applied social work research in diverse community settings and populations of the Southwest;
2. teaching, from syllabus development to classroom teaching across the professional continuum;
3. participation in collegial decision making; and
4. participation in field education and community services.

Students are expected to participate fully in research, teaching, and field liaison activities during their course of studies.

**Advisement.** The individualized plan for becoming a social work scholar and for learning associated faculty roles is developed by students and their faculty advisors over time.

**Residency.** Students should expect to complete the equivalent of four semesters of course work. The minimum residency requirement for the Ph.D. program is 18 semester hours in courses relating to the program of study, exclusive of dissertation. The residency must be completed in two consecutive semesters, not including summer sessions.

**Foreign Language Requirements.** None.

**Qualifying Examination.** Students are given a qualifying examination in the semester following the completion of 18 semester hours of approved Ph.D. course work. Students who fail the examination must retake it the following semester.

**Comprehensive Examinations.** Upon completion of course work and the substantive paper, but before beginning dissertation research, the student is given a written examination covering research, theory, and methods in the substantive area. If the student should fail one or more components of the examination, a reexamination may be administered no sooner than three months and no later than one year from the date of the original examination. Approval of the reexamination must be obtained from the supervisory committee and the dean of the Graduate College.

**Dissertation Requirements.** Each candidate must register for a minimum of 24 semester hours of credit for research and dissertation. The final copy of the dissertation must be received by the supervisory committee and the dean of the Graduate College at least three weeks before the degree conferral date.

**Final Examinations.** The final oral examination in defense of the dissertation is scheduled and conducted by the student’s dissertation committee. A candidate must pass the final examination within five years after completing the comprehensive examination.

**SPECIAL PROGRAMS**

**Tucson Component.** The School of Social Work offers a part-time, cohort driven M.S.W. Program in Tucson in conjunction with the College of Extended Education. See “Tucson Component,” page 295, for more information.

**RESEARCH ACTIVITY**

The School of Social Work offers excellent opportunities for empirical research on social, community, and individual problems and issues. Computer facilities and research support are available to faculty and students. Research is carried out in diverse community settings in conjunction with social agencies, as well as with public and private institutions. The faculty and students are engaged in a number of projects of local, regional, and national significance.
The areas of study for typical faculty research in any given year might include such topics as child abuse, adoption, foster care, reconstituted families, minority aging, chemical dependency, mental health, social welfare planning, social service agency administration, and community practice.

**SOCIAL WORK (SWG)**

SWG 501 Human Behavior in the Social Environment I. (3) F
Analyzes theories of personality and life-span development from methodological, ecological, and systems perspectives up to adolescence.

SWG 502 Human Behavior in the Social Environment II. (3) S
Life span development from middle childhood to maturity. Prerequisite: SWG 501.

SWG 510 Foundation Practice I. (3) F
Basic social work methods with an emphasis on the problem-solving process as it pertains to individuals, families, and small groups. Prerequisite: Social Work major.

SWG 511 Foundation Practice II. (3) S
Theory and methods of direct practice with groups and selected practice models. Lecture, lab. Prerequisite: SWG 510.

SWG 519 Research Methods in Social Work. (3) S
Conceptual foundations and methods of nomothetic research in social work. Includes problem identification, hypothesis formulation, measurement, sampling, and experimental design. Prerequisites: Social Work major; an approved course in statistics.

SWG 531 Social Policy and Services I. (3) F

SWG 533 Diversity and Oppression in a Social Work Context. (3) F, S
Explores issues of social inequality related to disability, ethnicity, gender, race, and sexual orientation. Emphasis on populations of the Southwest.

SWG 541 Field Practicum I. (3) F, S
With SWG 542, two consecutive semesters (480 hours) of supervised social work practice in an approved placement. Prerequisite: SWG 510.

SWG 542 Field Practicum II. (3) F, S
See SWG 541, Pre- or corequisite: SWG 511.

SWG 580 Community and Organizational Change. (3) F, S
Examines communities and human service organizations as social systems. Introduces strategies for initiating planned change.

SWG 605 Substance Abuse. (3) N
Psychological and sociocultural determinants of substance abuse. Overview of social policies and treatment approaches. Prerequisite: SWG 502 or instructor approval.

SWG 606 Assessment of Mental Disorders. (3) F
Theories and concepts of mental health and illness. Attention to classification systems and nomenclature used in assessing mental disorders. Prerequisite: SWG 502.

SWG 611 Social Work with Families. (3) F
Theory, concepts, and skills for working with diverse family populations. Emphasis on a systems and integrative approach. Prerequisites: SWG 511, 542.

SWG 612 Social Work with Groups. (3) N
Practice applications of knowledge and skill to social work with groups.

SWG 613 Social Work with Individuals. (3) S
Treatment of prevalent disorders encountered by social workers, selected from the following: anxiety disorders, personality disorders, depression, and schizophrenia. Lecture, seminar. Prerequisite: SWG 611.

SWG 614 Social Work with Families in Transition. (3) S
Analyzes the psychosocial dynamics of families disrupted by divorce, separation, or death of a parent. Offers differential social work interventions. Prerequisite: SWG 611.

SWG 616 Social Work with Chemically Dependent Families. (3) S
The dynamics of the chemically dependent family are examined and clinical approaches for intervening in the family system and subsystems are presented. Prerequisite: SWG 611.

SWG 617 Social Work Practice with Children and Adolescents. (3) S
Theory, research, intervention that focus on children and adolescents. Prerequisite: SWG 611.

SWG 618 Family Violence. (3) S
Theory, research, intervention, and prevention strategies relevant to child maltreatment, partner abuse, and elder abuse. Prerequisite: SWG 611.

SWG 619 Practice-Oriented Research. (3) F
Accelerated course in application of scholarly and scientific principles to field practice, problem formulation, interventional procedures, and impact assessment. Prerequisite: SWG 519.

SWG 621 Integrative Seminar. (3) S
Explores the fit between theoretical frameworks and practice with clients. Requires presentation of empirical studies with clients. Prerequisite: SWG 611. Pre- or corequisite: SWG 613 or 614 or 616 or 617 or 618.

SWG 623 Agency and Community-Based Research in Social Work. (3) S

SWG 633 Child Welfare Services. (3) F
Examines, using ecological and system theories, services which supplement, support, and substitute for parental care of children. Prerequisite: SWG 542.

SWG 641 Advanced Practicum: Direct Practice I. (3) F, S
With SWG 642, two consecutive semesters (480 hours) of supervised social work practice in an approved placement related to the student's career goal. Prerequisites: SWG 541, 542. Pre- or corequisite: SWG 611.

SWG 642 Advanced Practicum: Direct Practice II. (3) F, S
See SWG 641. Prerequisites: SWG 541, 542, 611. Pre- or corequisite: SWG 614 or 616 or 617 or 618.

SWG 643 Advanced Practicum: Planning, Social Work Administration, and Community Practice I. (3) F, S
With SWG 644, two consecutive semesters (480 hours) in social work practice in an approved placement related to the student's career goal. Prerequisites: SWG 541, 542. Pre- or corequisite: SWG 680.

SWG 644 Advanced Practicum: Planning, Social Work Administration, and Community Practice II. (3) F, S
See SWG 643. Prerequisite: SWG 643. Pre- or corequisite: SWG 681 or 682.

SWG 680 Program Planning in Social Services. (3) S
The social services planning process includes needs assessment, goals and objectives, program design, budgeting, management information systems, and program evaluation. Prerequisites: SWG 681, 682. Corequisite: SWG 623.

SWG 681 Social Work Administration. (3) F
Administrative skill building and theory application within human service nonprofit social work settings. Prerequisites: SWG 542, 580.

SWG 682 Community Participation Strategies. (3) F
Course reviews strategies to involve citizens and the consumers of social and human services in community decision making systems. Participation is viewed as means to facilitate the empowerment of oppressed peoples. Prerequisites: SWG 542, 580.

SWG 683 Developing Grants and Fund Raising. (3) N
Identification of potential funding sources, technical and interpersonal/political aspects of proposal development and fund raising.

SWG 720 Philosophy of Science Issues in Social Work. (3) F
Critical examination of social science, social work practice and policy in terms of philosophical assumptions and varying frames of reference.

SWG 721 Empirical Social Work Practice. (3) S
Application of scientific principles to problem formulation, assessment, and intervention procedures with an emphasis on the direct use of scientific tools in the conduct and evaluation of practice at all levels.

SWG 730 Families Across the Life-Span. (3) F
Policy and practice analysis of issues which affect families with a focus on the development of interventive strategies.
SWG 731 Social Welfare Policy Analysis and Development. (3) F Methods of policy analysis, critique of social welfare policies against proposed models, and case studies of policy development emphasizing southwestern populations. Prerequisite: SWG 730.

SWG 732 Social Work Administration in a Systems Context. (3) F Case studies of social work administration from initial conceptualization of policy through implementation at national, state, and local levels.

SWG 740 Community Research in Social Work. (3) F Substantive, value, and methodological issues in community-based research as applied to social work topics.

SWG 741 Integrative Research Seminar. (3) F Integration of theory, research methods, and statistics in community social work topics of specific interest to students.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

The faculty in the Department of Sociology offer graduate programs leading to the M.A. and Ph.D. degrees in Sociology.

**MASTER OF ARTS**

This degree program provides advanced training for those preparing for teaching, research, or applied careers in sociology, and may be taken either as a terminal program or as a step toward eventual fulfillment of requirements for the Ph.D. A detailed description of the graduate program (including opportunities in teaching and research assistantships) may be obtained from the department chair.

**Admission.** Admission to the program is determined by the following criteria: Graduate Record Examination (GRE) scores (verbal, quantitative, and analytical), three letters of appraisal from persons familiar with the applicant’s academic background, valid transcripts of the student’s academic record, and a biographical narrative provided by the applicant. Application deadline is February 15.

**Program of Study.** A master’s degree in Sociology requires the successful completion of a minimum of 30 semester hours, including a 12-hour core curriculum, six hours of theory (SOC 585 and 586), and six hours of research methods (SOC 500 and 505), two hours of Sociology as a Profession (SOC 503, 504), with the balance to be drawn from substantive courses and six hours earned through the M.A. thesis (SOC 599).

**Foreign Language Requirements.** None.

**Thesis Requirements.** A thesis is required.

**Final Examinations.** A final oral examination in defense of the thesis is required. This oral examination also tests the student’s comprehension of the area of sociology exemplified by the thesis.

**DOCTOR OF PHILOSOPHY**

This degree provides advanced training in theory, research methodology, and substantive fields to prepare sociologists for teaching and research with special emphasis on urbanism, urbanization, and related issues. A detailed description of this program (including opportunities in teaching and research assistantships) may be obtained from the department chair.

See “Doctor of Philosophy,” page 104, for general requirements.

**Admission.** Admission to the program is determined by the following criteria: GRE scores (verbal, quantitative, and analytical), three letters of appraisal from persons familiar with the applicant’s academic background, valid transcripts of the student’s academic record, and a biographical narrative provided by each applicant. Applicants should have an M.A. or its equivalent in Sociology or a related field. Application deadline is February 15.

**Program of Study.** The Ph.D. requires 54 semester hours beyond the master’s degree. Three hours each of theory, methods, and statistics are required, and 24 hours are earned through dissertation and research. The remaining 21 hours are in substantive courses reflecting the student’s specialization. First-year Ph.D. students are required to take Sociology as a Profession (503, 504). A minimum of 30 semester hours of the approved Ph.D. program, exclusive of dissertation and research hours, must be completed after admission to the Ph.D. at ASU.

**Foreign Language Requirements.** None.

**Comprehensive Examinations.** Written comprehensive examinations focusing on two areas chosen by the student, and an oral defense of the dissertation proposal are required. After passing the comprehensive examinations and obtaining a formal approval of the dissertation proposal, the student is eligible to apply for candidacy.

**Dissertation Requirements.** A dissertation based on original work demonstrating creativity in research and scholarly proficiency in the subject area is required.

**Final Examinations.** A final oral examination in defense of the dissertation is required.
RESEARCH ACTIVITY

The Department of Sociology is committed to teaching and research in the following four areas reflecting faculty expertise. Recent research is listed under each area heading. Family and the Life course. The faculty in this area use demographic, other quantitative, and qualitative methods to study family structures, organization, relationships, and life course transitions. Recent research includes adolescence; courtship processes; division of household labor; family/work conflicts; intergenerational relationships; interracial marriage; low income families; mate selection; marital quality; minority and immigrant families, parent-child relations. Health. The sociology of physical and mental health focuses on social and environmental determinants of health and health-related behaviors, policy issues, and the social construction of health illness and the body. Recent research includes: acculturation and health care outcomes; changes in health care delivery systems; definition of problems as health care problems; gender roles and health; health care policy; physical environment and health; race/ethnicity effects on health care access; reproductive control; stress and mental health; and traditional health care practices. Global political and cultural processes. This area focuses on world-level processes that involve governance, authority, identities, and human issues of peace, justice, democracy, and development. Current research includes immigration and changing borders effects on sovereignty, citizenship, and ethnicity; consequences of changing conceptions of territory; world culture and its effects on nation-state policies and institutions; international nongovernmental organizations; the cultural-religious aspects of globalization; cultural-historical studies of identity movements; and international adoption programs. Work. This concentration focuses on the social implications of the transformation of work in the 21st century, encompassing research in work, organization, occupations, and economic sociology. Current research includes new industries, technologies, work arrangements, and relations between multinational corporations and nation-states; knowledge workers and new forms of work; sources and consequences of workplace inequality by gender, race, ethnicity, immigrant status, disability, and social class; and relationships among education, job training, and mobility over the life course. Other research. Gender and race/ethnicity are crosscutting concerns of many faculty and research in each of the four areas listed above often reflects those concerns. Other research with an emphasis on race/ethnicity include race and ethnic relations in schools, minority educational attainments, substance abuse among minority youth populations, and politics and race identity. Another area for research is political ecology with an emphasis on environmental risk and social vulnerability to hazards.

Research Facilities. Research facilities in the department consist of a survey research laboratory, small groups research laboratory, computer terminals and linkages to mainframe and the supercomputer, computational laboratory, and Gould Memorial Research Archive. The survey research laboratory conducts campus and community sur-veys. Among the topics studied are transportation, citizen attitudes, recreation, judicial evaluation, occupational destinies of graduate students, academic advisement, student, staff and faculty attitudes, student living arrangements, changing sex roles, and student activism and political involvement.

SOCIOLOGY (SOC)

SOC 500 Research Methods. (1–12) N
SOC 501 Practicum in Survey Research. (3) F, S
A research practicum in survey field work, analysis, and reporting in the Phoenix Area Study. Prerequisite: SOC 391 or equivalent.

SOC 502 Practicum in Survey Research. (3) F, S
Continuation of SOC 501. Prerequisite: SOC 501.

SOC 503 Sociology as a Profession I. (1) F
Becoming and working as a sociologist, including how to write a vita, choose a thesis topic, or find dissertation data. Prerequisite: graduate Sociology major.

SOC 504 Sociology as a Profession II. (1) S
Becoming and working as a sociologist, including how to write a vita, choose a thesis topic, or find dissertation data. Prerequisite: graduate Sociology major.

SOC 505 Applied Regression Analysis. (3) F, SS
Multiple linear regression topics relevant to sociological data analysis. Computer applications. Prerequisites: SOC 390 (or equivalent); a proficiency examination.

SOC 507 Social Statistics IIIA: Categorical Data Analysis. (3) F
Logistic regression and related topics relevant to categorical data analysis in sociology. Computer applications. Prerequisite: SOC 505 or instructor approval.

SOC 508 Social Statistics IIIB: Structural Equation Analysis. (3) S
Structural equation models are taught using LISREL and other computer packages. Topics include multiple group analyses and ordinal endogenous variable models. Prerequisite: SOC 505 or instructor approval.

SOC 509 Social Statistics IIIC: Event History Analysis. (3) F, S
Proportional hazards models and other methods for analyzing longitudinal data and estimating hazard rates of events for exploratory variables. Prerequisite: SOC 505 or equivalent.

SOC 515 Studies of the Family. (3) S
Current developments in the study of marriage and the family. Prerequisite: instructor approval.

SOC 585 Development of Sociology. (3) F
Major sociological theorists, including Durkheim, Weber, Marx, Parsons, Merton, Dahrendorf, Homans, and Mead. Prerequisite: instructor approval.

SOC 586 Contemporary Sociological Theory. (3) S
Analysis of major theories, including structural-functional, conflict, social exchange, symbolic interaction, and role theory. Prerequisite: instructor approval.

SOC 587 Contemporary Issues in Sociology. (3) S
Philosophy of social science. Contemporary issues in sociological theory and methods. Prerequisite: instructor approval.

SOC 588 Methodological Issues in Sociology. (3) S
Basic methodological issues in the application of scientific methods to the study of human social life. Emphasis on limited number of major works, with contrasting approaches to issues.

SOC 599 Thesis. (1–12) N
Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Special Education
(ED 305C) 480/965-6156
karen.schultz@asu.edu
tikkun.ed.asu.edu/coe/candi

PROFESSORS
RUTHERFORD, ZUCKER
ASSOCIATE PROFESSORS
COHN, DI GANGI, McCOY, J. NELSON, R. NELSON
ASSISTANT PROFESSOR
ROBERTS

The faculty in the Division of Curriculum and Instruction Special Education Program offer graduate programs leading to the M.A. and Master of Education degrees. M.Ed. degree concentrations are available in the education of gifted, mildly handicapped, the multicultural exceptional, and severely/multiply handicapped.

At the Ph.D. level, a concentration in special education is offered through the interdisciplinary Ph.D. degree program in Curriculum and Instruction. See “Curriculum and Instruction,” page 169, for more information on the interdisciplinary Ph.D. in Curriculum and Instruction.

To be considered for admission, applicants must meet all Graduate College requirements. The applicant for master’s degree program admission is required to provide the following:

1. Graduate Record Examination test scores or Miller Analogies Test scores, or a 3.00 or higher junior/senior GPA;
2. three letters of recommendation;
3. a summary of professional experiences; and
4. evidence of certification in special education for applicants to the M.Ed. program. (The M.Ed. Initial Teacher Certification sequence must be pursued concurrently with the M.Ed. degree by applicants not meeting this requirement.)

MASTER OF ARTS

The M.A. program in Special Education requires at least 36 hours of course work. A thesis is required for the M.A. degree. Candidates are required to take an oral examination in defense of the thesis. For students in the M.Ed. or M.A. program lacking prerequisite courses, additional course work is required.

MASTER OF EDUCATION

The M.Ed. degree in Special Education requires a minimum of 36 hours of course work and a written comprehensive examination paper. The program structure includes a 12-hour methods core, a 12-hour knowledge core, and a 12-hour elective block which includes four content/theme areas: learning and instruction, diversity, foundations and values, and research and technology.

M.Ed. Initial Teacher Certification sequences leading to standard certificates by the state of Arizona in mental retardation, learning and emotional disabilities, as well as endorsement in gifted education, are available.

Concurrent admission to the M.Ed. initial certification sequence and the M.Ed. degree is required. Students seeking initial certification by the state of Arizona in Special Education who have already completed a master’s degree in another area may enroll for the M.Ed. initial certification sequence without enrolling in a second master’s degree program. Contact the Office of Student Affairs for more information about specific admission requirements for the initial certification option. Further information is available in the Special Education Program Office.

RESEARCH ACTIVITY

Faculty and student research and development activities focus on (1) improving instructional opportunities for exceptional individuals and those at risk for school failure and (2) increasing the effectiveness of teachers of exceptional and at-risk individuals. Recent research has included the following: academic precocity; instructional alternatives for preschool children; the cognitive development, linguistic proficiency, and academic achievement of minority students. Research focused on improving the preparation of teachers has included projects on field-based instruction, violence prevention, academic and behavioral interventions for students with disabilities and those at risk of school failure, and evaluation of alternative forms of technology integration. Program research efforts receive support from federal, state, and private sources.

SPECIAL EDUCATION (SPE)

SPE 411 Parent Involvement and Regulatory Issues. (3) F, S Emphasis on parent and school relations through effective communication and state and federal regulations impacting services for the handicapped. Prerequisites: SPE 311; majors only.

SPE 455 Early Childhood and the Handicapped. (3) F Early childhood education as it applies to the handicapped child.

SPE 510 Inclusionary Curriculum for Special Education Teachers. (3) F, SS Curricular practices used in inclusion classrooms.

SPE 511 The Exceptional Child. (3) F, S, SS Educational needs of exceptional children and adults. Not recommended for students who have completed SPE 311.

SPE 512 Individuals with Mental Retardation. (3) F, S, SS Etiology, diagnosis, and management of individuals with mental retardation. Current trends in prevention, programming, and teacher preparation. Not recommended for students who have completed SPE 312.

SPE 514 Bilingual/Multicultural Aspects of Special Education. (3) F, S, SS Theories and issues related to the education of bilingual and culturally diverse exceptional children.

SPE 515 Methods for the Remediation of Learning Problems of Exceptional Children. (3) S Methods and materials for remediating the basic academic problems of exceptional children. Prerequisites: SPE 511; a methods course in the teaching of reading and mathematics.

SPE 522 Academic Assessment of Exceptional Children. (3) F Normative and criterion referenced assessment of learning problems in exceptional children. Formative evaluation included. Practicum required. Lecture, practicum. Prerequisites: SPE 311 or 511; elementary methods courses; program approval.

SPE 523 Prescriptive Teaching with Exceptional Children. (3) F Language, reading, and arithmetic methods, techniques, and materials used in individualized instruction. Practicum required. Lecture, practicum. Prerequisites: elementary methods courses; SPE 311 (or 511), 522 (or concurrent and program approval).
SPE 524 Effective Classroom Behavior Management. (3) S
Organization and delivery of instruction including formative evaluation and techniques of academic behavior management for exceptional children. Practicum required. Lecture, practicum. Prerequisites: SPE 311 or 511, 522, 523; program approval.

SPE 525 Social Behavior Interventions. (3) S
Analysis and intervention into social behavior problems of exceptional students. Focus on strategies to change maladaptive social behavior. Practicum required. Prerequisites: SPE 311 or 511 or 522 or 523; program approval.

SPE 531 Behavior Management Approaches with Exceptional Children. (3) F, SS
Behavior management approaches for classroom behavior of exceptional children. Prerequisite: SPE 511 or equivalent.

SPE 536 Characteristics of Children with Behavioral Disorders. (3) F, S, SS
Variables contributing to behavior patterns of behaviorally disordered children.

SPE 551 Teaching Young Children with Special Needs. (3) S
Methods, materials, and curriculum for preschool and primary-aged children. Prerequisites: SPE 455 and 511 or equivalents.

SPE 552 Management of Individuals with Severe Handicaps. (3) S
Instruction and management of school-aged and adult individuals with severe, physical, or multiple handicaps. Prerequisites: SPE 511 or equivalent; instructor approval.

SPE 553 Developmental/Functional Assessment. (3) F
Teacher-focused developmental/functional assessment of preschool and severely, physically, and multiply handicapped individuals. Field experience required. Prerequisites: SPE 511, 512, 574 or equivalents.

SPE 554 The Parent/School Partnership. (3) S
Includes knowledge and procedures for involvement and training of parents and caregivers of preschool and severely handicapped individuals. Field experience required. Prerequisites: SPE 455 and 511 or equivalents.

SPE 561 Characteristics/Diagnosis of Learning Disabilities. (3) F, S, SS
Theories related to learning disabilities, including identification and characteristics.

SPE 562 Methods of Teaching Students with Learning Disabilities. (3) N
Various methods and intervention strategies for remediating learning disabilities of children and youth. Prerequisite: SPE 361 or 561.

SPE 574 Educational Evaluation of Exceptional Children. (3) F
Design and statistical considerations of normative and criterion-referenced tests. Collection, recording, and analysis of data from formative evaluation. Prerequisites: SPE 511 or equivalent; a methods course in the teaching of reading and mathematics.

SPE 575 Current Issues in the Education of Exceptional Children. (3) F
Mainstreaming, noncategorical, financing, legal diagnostic, labeling, legislative, and other critical and controversial issues related to the education of exceptional children.

SPE 577 Mainstreaming Methods. (3) S
Successful mainstreaming methods, practical problem-solving sessions related to teacher’s classroom needs, and individual contracts focusing on mainstreaming issues are addressed. General educators encouraged.

SPE 582 Classroom Research with Exceptional Children. (3) SS
Introduction to interpreting research. Specific research techniques with primary emphasis on classroom research, including applied behavior analysis.

SPE 585 Creativity: Research and Development. (3) S
Nature of creativity explored in terms of philosophical underpinnings, empirical evidence, human development, self-actualization, and the ecology surrounding the creative event.

SPE 586 Advising the Gifted Child. (3) A
Focus on educational planning and guidance, social and emotional development, and family problem solving regarding needs of gifted children.

SPE 587 Controversies in Educating the Gifted. (3) F
In-depth analysis of major controversies in educating the gifted, including nature/nurture, the role of mental tests, and sex differences.

SPE 588 The Gifted Child. (3) F, SS
Gifted children’s characteristics, identification, needs, school and home environments, definitions, and misunderstandings. Research by Pressley, Stanley, Terman, and others.

SPE 589 Methods in Teaching the Gifted. (3) S, SS
Methods in teaching elementary and secondary school gifted children, including individualized and computer-assisted instruction, team teaching. Prerequisite: SPE 588.

SPE 774 Characteristics and Causation of Exceptionality. (3) F
In-depth analysis of literature pertaining to causes of exceptionality and learning, educational, personal-social, and cognitive characteristics. Lecture, discussion.

SPE 775 Evaluation and Intervention in Special Education. (3) S
In-depth analysis of research and literature on evaluation procedures and intervention approaches for exceptional individuals at all age levels. Lecture, discussion.

SPE 781 Research and Evaluation in Special Education. (3) S
Issues and problems in conducting research and/or evaluation programs involving exceptional children.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

Speech and Hearing Science
Interdisciplinary Doctoral Program
Don Sinex
Director, Executive Committee

Professor: Roosa

Psychology
Professors: Braun, Killeen, Somerville;
Associate Professor: Goldinger

Speech and Hearing Science
Professors: Bacon, Case, Dorman, Ingram, LaPointe, Wilcox;
Associate Professors: Liss, Sinex;
Assistant Professors: Azuma, Sharma

The Committee on Speech and Hearing Science offers an interdisciplinary graduate program leading to the Ph.D. degree in Speech and Hearing Science. The program is designed to prepare scholars for careers of basic and applied research in educational, industrial, or health care delivery environments. The student pursues a program with the unifying theme of the influence of the neurologic system on human communication and its disorders. After a core curriculum, which may include aspects of neuroscience, methodology, or speech and hearing science, the student completes a program of study under the guidance of the program committee. As part of the interdisciplinary doctoral program, a programmatic research experience
prepares the student for basic or applied research leading to the dissertation.

DOCTOR OF PHILOSOPHY

See “Doctor of Philosophy,” page 104, for general requirements.

Admission Requirements. Admission to the program is competitive; therefore, applications are considered only for fall admission. Applicants typically have completed a master’s degree or equivalent in speech and hearing sciences, psychology, linguistics, or a related discipline. Applicants with a bachelor’s degree and a strong research background are also considered.

Applicants must submit the following materials for admission review:

1. application for Admission to the Graduate College and official transcripts of undergraduate and graduate study;
2. verbal, quantitative, and analytical scores of the Graduate Record Examination (GRE);
3. professional résumé;
4. a statement describing academic and professional goals, specifying the focus of study desired in the Ph.D. program; and
5. three letters of recommendation.

All applicants whose native language is not English must submit a score from the Test of English as a Foreign Language (TOEFL) and the Test of Spoken English (TSE). Expected minimum scores are 600 on the TOEFL and 230 on the TSE.

Application materials are reviewed beginning February 1. Applications are reviewed by a three-member interdisciplinary admissions committee. Recommendations for admission or denial are forwarded to the dean of the Graduate College. Criteria for admission include the following:

1. evidence of high scholarship and research potential from GRE scores and previous academic record;
2. professional goals compatible with the degree program; and
3. scholarly interests compatible with one or more of the faculty active in the interdisciplinary degree program.

Areas of Concentration. Eighteen semester hours are taken in an area of concentration that focuses on some aspect of human communication. The student’s program committee guides selection of these courses.

Program Committee. The purpose of the program committee is to guide the student through the completion of the program of study, the initiation of programmatic research, and the comprehensive examination. The program committee consists of a chair and at least two other members appointed by the dean of the Graduate College upon recommendation of the director of the Committee on Speech and Hearing Science. The committee must consist of members from more than one academic discipline. Upon completion of the comprehensive examination, the student may initiate forming a dissertation committee.

Dissertation Committee. Upon completion of the comprehensive examination and based on the recommendation of the director of the Committee on Speech and Hearing Science, the dean of the Graduate College appoints the student’s dissertation committee consisting of a chair and at least two other members. The dissertation committee must consist of members from more than one academic discipline. This committee approves the design and implementation of the dissertation. Members of the program committee also may serve as members of the dissertation committee.

Preliminary Examination. The preliminary examination is composed minimally of the first-year research project. This project, to be completed by the end of the second semester of the first year, consists of an oral presentation and defense of the research, as well as a written manuscript. The program committee decides whether an optional written examination is necessary. The format of that examination is determined by the program committee and depends, in part, upon the background of the student. Results of the preliminary examination are used to determine shortcomings that should be offset by course electives, the level at which the student is capable of pursuing various topic areas, and whether deficiencies are of sufficient magnitude to preclude recommendation for continued doctoral study.

Research Methods and Statistics. The student is required to demonstrate proficiency in research methods (research design, statistics, computer languages). Evidence of required proficiency may be demonstrated by examination or by successful completion of a sequence of courses designated by the program committee.

Program of Study. The program consists of a minimum of 54 semester hours of graduate work beyond the master’s degree or 84 semester hours of graduate work beyond the bachelor’s degree. Of the required semester hours, at least 24 must be research (SHS 792) and dissertation (SHS 799) credit completed at ASU. A minimum of 30 hours of the approved Ph.D. program, exclusive of dissertation and research hours, must be completed after admission to the Ph.D. at ASU.

Comprehensive Examinations. Near the completion of course work and before commencing dissertation research, the student is given a written examination covering the field of study. The written examination, when passed, may be followed by an oral examination.

Programmatic Research. Twelve semester hours of programmatic research (SHS 792) are required before the dissertation prospectus meeting. The student must conduct several studies, each representing a facet of a research problem or a step toward a progressive solution. Each component study must be reviewed by the program committee and conducted in collaboration with a faculty member of the interdisciplinary degree program. This research program allows the doctoral student to use different methodologies in various component studies, to exercise progressively tighter experimental controls as determined by serial investigations, or to pursue significant or unexpected outcomes of a study.

This systematic or serial research program engages the student and faculty in an ongoing research activity, the components of which allow increasing discretion and
independence of the student investigator. The program is designed to prepare students for careers in basic or applied research and enhance the quality of the dissertation research.

Research and Dissertation Proposals. (1) Before conducting the programmatic research, the student is advised by the program committee on the appropriateness of the planned research. (2) Before conducting the research for the dissertation, each student must submit a dissertation proposal that is defended orally and approved by the dissertation committee.

Dissertation Requirements. The dissertation must consist of a fully documented written product of mature and original scholarship. It must be a significant contribution to knowledge that reflects the student’s creativity and competence in independent research.

Final Examinations. A final oral examination in defense of the dissertation, conducted by the dissertation committee, is required.

RESEARCH ACTIVITY

Members of the Committee on Speech and Hearing Science are engaged in a variety of research activities. Current activity is in the following areas.

Hearing. Psychoacoustics; neurophysiology; physiological correlates of psychoacoustic phenomena; complex signal processing; effects of hearing loss on auditory perception and physiology; relationship between psychoacoustics and speech perception; speech perception in the normal and impaired auditory system; speech and auditory processing in persons with cochlear implants; auditory electrophysiology.

Speech. Phonetics and phonological theory; speech motor control; neuromotor disorders of speech; voice disorders; voice and speech characteristics associated with craniofacial anomalies; phonological development and disorders.

Language Science. First language acquisition; pragmatics; discourse analysis; psycholinguistics; semantics; lexical ambiguity; word and sentence processing.

Language Disorders. Language assessment and intervention in early childhood; characteristics of language in children with specific language impairment; language disorders in school-age children; prelinguistic interventions; social consequences of language disorders; aphasia and related neurogenic communication disorders; language and memory in dementia.

Basic and Applied Neurobehavioral Science. Neurophysiology; applied neural control; central sensory processes; neural prosthetics design and development; neural modeling; cortical mechanisms of learning and memory; brain mechanisms involved in chemical and mechanical senses; information processing.

Developmental and Neurogenic Disabilities. Behavioral recovery following brain damage; adaptive technology; augmentative communication programming; developmental outcomes of high-risk children; pediatric neurogenic disabilities; cognitive-linguistic interactions; human memory processes and disorders; adult neurogenic disabilities; communication intervention for infants and toddlers who are at-risk for or have disabilities; swallowing disorders.

Gerontology. Aging and short-term memory; communication changes accompanying aging; geriatric communication disorders; psychosocial effects of aging.

COURSES

For courses, see “Speech and Hearing Science (SHS),” page 155.

Statistics

Interdisciplinary Master’s Program

Dennis L. Young

Professor: Young;
Associate Professors: Driscoll, Lohr;
Assistant Professors: Prewitt, Zuo

Statistics
Professor: Mayer

The Committee on Statistics offers a program leading to the M.S. degree in Statistics. The program is interdisciplinary in the sense that it draws upon faculty research and teaching interests from a number of academic units so that programs of study can be tailored to reflect individual needs and goals. The committee, which sets program requirements and supervises programs of study, is composed of faculty from several departments in the College of Business and the College of Liberal Arts and Sciences.

MASTER OF SCIENCE

The program for the M.S. degree in Statistics provides preparation for either a research-oriented or a practice-oriented career. Requirements specific to this program (see “Master’s Degrees,” page 101, for general requirements) ensure balanced attention to the theoretical and applied aspects of the discipline of statistics. Flexibility in the program reflects the fact that statistical analysis is one of the most widely used tools of modern scientific reasoning.

Admission. Applicants must satisfy the general requirements for admission to the Graduate College (see “Admission to the Graduate College,” page 92) and must, in addition, have three letters of academic recommendation submitted to the admissions subcommittee of the Committee on Statistics. Although most applicants earn the bachelor’s
degree in a quantitative area (such as statistics, quantitative business analysis, mathematics, engineering, or computer science), this is not required for admission to the program.

Applicants should have completed the following courses (equivalents at ASU are given in parentheses): calculus (MAT 270, 271, and 272), advanced calculus (MAT 371), linear algebra (MAT 342), computer programming (CSE 100 or 183), and introductory applied statistics (QBA 221 or STP 420). Applicants who lack more than two of these seven prerequisite courses should expect to be admitted with deficiencies or provisionally. The submission of the Graduate Management Admission Test or Graduate Record Examination test scores is strongly recommended.

Supervisory Committee. Upon entering the program, the student should contact the program director for assistance in selecting a three-member supervisory committee. (Typically, the student progress subcommittee of the Committee on Statistics serves as the student’s initial supervisory committee.) The faculty member who directs the student’s work on the thesis or applied project must be a member of the Committee on Statistics and serves as the chair of the student’s final supervisory committee.

Program of Study. The student’s program of study must contain at least 30 semester hours of credit, none of which may be from the prerequisites and at least 18 of which must be at or above the 500 level. The program must include the nine hours from three required theory courses: theory of probability (STP 421), mathematical statistics (STP 427), and theory of statistical linear models (STP 526). The program must also include either three hours of applied project (QBA 593 or STP 593) or six hours of thesis (QBA 599 or STP 599).

The remaining 15 or 18 hours may come from elective courses chosen by the student with the approval of supervising faculty. A maximum of six hours may be chosen from a related field on which statistics relies (such as computer science) or in which statistics is an essential tool (e.g., biostatistics, quality control).

The required theory courses are fundamental to the education of statisticians and are necessary for more advanced graduate study. The elective courses allow the student to emphasize a particular area of statistical inference, culminating in an applied project report or a thesis on a topic in that area. The student has considerable flexibility in selecting an area of specialty. Possible areas of specialty include, among others, mathematical statistics, biostatistics, applied data analysis, statistical modeling, time series analysis, statistical process control, variance components analysis, statistical computing, and survey research. Sample programs of study for such areas of specialty may be obtained from the director of the program.

Foreign Language Requirements. None.

Comprehensive Examinations. None.

Thesis Requirements. Either an applied project or a thesis is required.

Final Examinations. An oral examination in defense of the applied project or thesis is required. The content of the applied project report or thesis must, in its final form, be suitable for submission to an academic journal or conference proceedings. The thesis must conform to Graduate College format requirements.

RESEARCH ACTIVITY

Research interests of the current members of the Committee on Statistics include the following: regression, variance components, generalized linear models; multivariate analysis, latent structure models, categorical data analysis; biostatistics, biomedical research; time series analysis, econometrics, statistical process control, statistical decision support systems; statistical computing, statistical graphics; panel data analysis, complex sampling designs; decision-theoretic methods, risk assessment, robust statistical methods. Students and faculty have access to excellent computing facilities, including servers, work stations, and personal computers running a broad selection of statistical software.

COURSES

For courses, see “Quantitative Business Analysis (QBA),” page 139, and “Statistics and Probability (STP),” page 250.
Teaching English as a Second Language

Roy C. Major

PROFESSORS
ADAMS, MAJOR, NILSEN

ASSOCIATE PROFESSORS
BATES, VAN GELDEREN

ASSISTANT PROFESSOR
JOHNSON

The faculty in the Department of English offer a professional program leading to the Master of Teaching English as a Second Language degree (M.TESL). The M.TESL degree is a specialized program training students for the knowledge and the skills necessary to teach English as a second language.

Admission Requirements. All applicants must meet the general requirements for admission to the Graduate College (see “Admission to the Graduate College,” page 92). International students must submit a TOEFL score of at least 580.

Program of Study. The program requires a minimum of 30 hours of approved graduate course work and must include LIN 500 Research Methods: Linguistics, 510 English Linguistics, 572 Theories Underlying the Acquisition of
Technology

The Master of Science in Technology degree program is offered by the faculty in four departments of the College of Technology and Applied Sciences: Aeronautical Management Technology, Electronics and Computer Engineering Technology, Information and Management Technology, and Manufacturing and Aeronautical Engineering Technology. Courses are offered at ASU East. Both a thesis and applied project option are available. Contact the college for available concentrations.

The professional programs leading to the Master of Science in Technology degree are intended as preparation for a career in a selected branch of technology or as the foundation for further advanced study. Graduates of this program are provided with technical and professional skills for use in leadership positions in industry and education.

Faculty members administering the program have been selected because of relevant backgrounds in industry and business along with their academic training and teaching experience.

Admission. Admission to the degree program requires the completion of all general admission requirements and procedures set forth by the Graduate College. The College of Technology and Applied Sciences also requires an appropriate baccalaureate degree from an accredited college or university, with a minimum of 30 semester hours in technology or equivalent and 16 hours of physical science and mathematics appropriate to the program pursued. The specific requirements vary within each department.

Graduate work presupposes an adequate technical preparation in a selected technology at the undergraduate level. Deficiencies for admission to the graduate program, if any, are specified at the time of admission. The applicant’s past work and professional experience is also evaluated and taken into consideration when determining admission classification.

To be considered for regular admission, a 3.00 GPA is required.

Program of Study. The program of study is designed to promote greater depth of understanding and preparation in technology as it can be applied to industry and education. The program of study is planned in consultation with an appointed supervisory committee. It is designed for flexibility, permitting the student to select a combination of courses in a technological area and a supporting area to meet individual career goals.

A minimum of 33 semester hours is required for the degree program. Of these, a minimum of 15 semester hours must be 500-level courses and part of the approved program. Specific credit requirements vary within each department. The minimum requirements are as follows:

Thesis Option

Technical area of emphasis .........................................................15–18
Supporting area ........................................................................ 6–9
Research course ........................................................................ 3
Research ..................................................................................... 3
Total ..........................................................................................33

Applied Project Option

Technical area of emphasis .........................................................15–18
Supporting area ........................................................................ 9–12
Research course ........................................................................ 3
Research .....................................................................................3
Total ..........................................................................................33

A maximum of nine semester hours of appropriate course work completed before admission may be included in the program of study for the degree program.

A master’s degree candidate forms a supervisory committee, the chair of which is from one of the three technology departments within the College of Technology and Applied Sciences. The chair and the committee members assist the student in selecting appropriate courses to meet the degree requirements and the student's goals. Specific program patterns are approved by the committee.

The Department of Aeronautical Management Technology provides students the opportunity to select courses, to be included in the technical area of their program of study, in aeronautical management technology, and aviation human factors.

The Department of Electronics and Computer Engineering Technology offers concentrations in computer systems engineering technology, electronics systems engineering technology, microelectronics engineering technology, and instrumentation and measurement technology.

The Department of Information and Management Technology provides students the opportunity to study environmental technology management, information technology, and management of technology.

The Department of Manufacturing and Aeronautical Engineering Technology offers concentrations in aeronautical engineering technology, instrumentation and measurement technology, manufacturing engineering technology, mechanical engineering technology, and security technology.

COURSES

For courses, refer to the departmental listings that follow.
Department of Aeronautical Management Technology

William K. McCurry
Chair
(SIM 205) 480/727-1998
AeroTech@asu.edu
www.asu.edu/east/tech/amt/grad.html

Admission. Applicants are expected to satisfy all requirements for admission to the Graduate College. Industrial experience beyond completion of a baccalaureate degree is strongly recommended. Applicants having deficiencies or not meeting the prerequisites may be required to complete them before being admitted to the Master of Science in Technology degree program.

Program of Study. All candidates for the degree program are required to complete 33 semester hours. Additional courses may be assigned by the supervisory committee depending on the background of the candidate. Students must complete a minimum of 33 semester hours of approved courses. An applied project or thesis is required. Upon completion of the approved course of study or during the last semester, an oral defense of the applied project or thesis is required.

Final Examinations. A final oral examination in defense of the applied or research project is required.

RESEARCH ACTIVITY

Aeronautical Management Technology faculty interests and facilities support applied research in fixed wing and helicopter performance, reciprocating and gas turbine engines, aviation safety, aviation human factors, and aviation management. Research support facilities consist of materials and fabrication laboratories, and a nondestructive inspection laboratory. The research activities complement course work supporting Master of Science in Technology degree program emphasis in aeronautical management technology. The emphasis is individualized to accommodate each student’s background and interests.
AMT 529 Fixed-Base Operations Management. (3) N
Examination of FBO role in the national aviation system. Organization of flight line operations, aircraft maintenance, and administration for multiple aircraft types. Prerequisite: AMT 444 or 489 or equivalent.

AMT 541 Aviation Physiology. (3) N
Survey of human physiology and human performance principles related to modern aircraft and aircraft systems operating in multiple environments. Prerequisite: AMT 410 or equivalent.

AMT 543 Ergonomics in High-Technology Environments. (3) N
Examination of ergonomic design principles regarding man-machine interface requirements of high-technology workstations. Emphasis on computer workstation design issues. Prerequisite: AMT 410 or equivalent.

AMT 545 Human Factors in Aviation. (3) N
Overview of human role in aviation. Issues, problems of unsafe acts and attitudes in human behavior. Human engineering capabilities and limitations. Prerequisite: AMT 410 or equivalent.

AMT 546 Crew Resource Management - Line-Oriented Flight Training. (3) N
Evaluation of in-depth, multicrow coordination issues for commercial aviation pilots. Stresses importance of critical thinking, decision making, integrated resource utilization. Prerequisite: AMT 410 or equivalent.

AMT 547 Modern Human Factors Design Issues. (3) N
Research and discussion of current human factors issues. State-of-the-art analyses of information regarding rapidly evolving designs and applications. Prerequisite: AMT 410 or equivalent.

AMT 549 Human Factors Research. (3) N
Aviation human factors research research principles applied and tested in operational settings. Group projects assigned in conjunction with industry partners. Prerequisite: AMT 410 or equivalent.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

The faculty in the Department of Electronics and Computer Engineering Technology, College of Technology and Applied Sciences, offer a graduate program leading to the Master of Science in Technology professional degree in Engineering Technology. Four concentrations are available: computer systems engineering technology, electronics systems engineering technology, instrumentation and measurement technology, and microelectronics engineering technology. The instrumentation and measurement technology concentration is offered in conjunction with the Department of Manufacturing and Aeronautical Engineering Technology.

Admission and Proficiency Requirements. For general admission requirements, see “Admission to the Graduate College.” page 92, and “Technology,” page 306. Admission and proficiency requirements and course work may be obtained from the department.

Program of Study. The minimum requirements for the Master of Science in Technology degree offered by the Department of Electronics and Computer Engineering Technology are as follows:

**Thesis Option**

<table>
<thead>
<tr>
<th>Concentration</th>
<th>15–17</th>
</tr>
</thead>
<tbody>
<tr>
<td>Supporting area</td>
<td>9–12</td>
</tr>
</tbody>
</table>

**Research Methods Courses**

<table>
<thead>
<tr>
<th>EET 500 Research/Write</th>
<th>2</th>
</tr>
</thead>
<tbody>
<tr>
<td>EET 592 Research</td>
<td>3</td>
</tr>
<tr>
<td>EET 599 Thesis</td>
<td>3</td>
</tr>
</tbody>
</table>

**Total minimum semester hours** 33

A minimum of 20 semester hours must be 500-level courses. At least nine hours of 500-level course work must be included in the concentration. Students may take up to 12 semester hours of 400-level course work to broaden their technical knowledge within the technical concentration or the supporting area. Students are required to complete EET 592 (three semester hours) and EET 599 (three semester hours), write a thesis, and present an oral defense.

**Applied Project Option**

<table>
<thead>
<tr>
<th>Concentration</th>
<th>15–18</th>
</tr>
</thead>
<tbody>
<tr>
<td>Supporting area</td>
<td>9–12</td>
</tr>
</tbody>

<tbody>
<tr>
<td>EET 591 Graduate Seminar</td>
<td>1</td>
</tr>
<tr>
<td>EET 593 Applied Project</td>
<td>3</td>
</tr>
</tbody>
</table>

**Total minimum semester hours** 33

A minimum of 20 semester hours must be 500-level courses. At least nine hours of 500-level course work must be included in the technical concentration. A maximum of three semester hours of Applied Project (EET 593) may be applied toward the 20 semester hour 500-level minimum. The applied project requires a supporting report; the project and report are defended in a final oral examination. All course work applied toward the minimum 33 semester hour total must be at the 400-level or higher.

All course work outside the Department of Electronics and Computer Engineering Technology must be pre-approved. Completion of deficiencies or prerequisites may be required before admission to the Master of Science in Technology degree program.

For more information concerning the Master of Science in Technology degree, see “Technology,” page 306.

**RESEARCH ACTIVITY**

Research activities in the Department of Electronics and Computer Engineering Technology emphasize, but are not limited to, computer systems, electronic systems, fabrication and manufacturing, hardware design, microelectronics, software administration, systems and circuit applications, and telecommunications.

Master of Science in Technology degree candidates find a broad range of activities that can lead to an applied project or thesis. Faculty research interests are concentrated in, but not limited to, the general areas and topics listed below.
Computers and Digital Systems. Digital systems design and applications; microcontroller design and applications; computer software administration; microcomputer hardware; programming, interfacing and software systems applications; computer-aided design and applications; automatic digital testing; computer process control hardware, techniques and applications; computer networks, digital switching circuits; and reconfigurable computers.

Engineering Technology Education. Studies emphasizing curriculum and laboratory design and development in electronics, computers, telecommunications, and microelectronics engineering technology at the bachelor’s and master’s level; studies involving faculty, student, administrative, and graduate characteristics; industry unification, manpower needs; program curriculum, math science articulation requirements and characteristics; characteristics of excellence in engineering technology education; computerized educational design.

Microelectronics. Solid-state device fabrication, testing and design; monolithic bipolar and MOS, and thin-film/thick-film hybrid circuit fabrication and manufacturing techniques; vacuum vapor deposition and sputtering techniques and applications; new photolithography processes; device and system packaging; new hybrid materials and processing techniques.

Systems Control and Instrumentation. Electrical power equipment and systems, instrument testing, control and distribution; direct solar energy conversion; analog and digital process control components, instrumentation, systems and process applications; electronic measurements and instrumentation circuits, systems and applications; automatic test systems, test programming, and failure tolerant design; computer-aided design; analog and digital simulation.

COMPUTER ENGINEERING TECHNOLOGY (CET)

CET 400 Software Engineering Technology. (3) S
Software life-cycle models; project management; team development environments; software specification, design, implementation techniques and tools, validation, and maintenance; user documentation. Prerequisite: senior standing in Technology.

CET 401 Digital Signal Processing for Multimedia. (3) F
Application of DSP techniques to multimedia. Digital filter analysis and design. Time and frequency techniques. Computer applications. Cross-listed as EET 401. Credit is allowed for only CET 401 or EET 401. Prerequisites: EET 301; MAT 262.

CET 425 Systems Programming. (3) F
Design and implementation of systems programs, including text editors, file utilities, monitors, assemblers, relocating linking loaders, I/O handlers, and schedulers. Prerequisite: CET 300.

CET 426 Software Tools for the Semiconductor Industry. (3) S
Introduction to software tools commonly used in the semiconductor industry, such as SUPREM IV, PSPICE, VIEWLOGIC, and ICED. Cross-listed as UET 426. Credit is allowed for only CET 426 or UET 426. Prerequisite: UET 331.

CET 433 Database Technology. (3) F
Introduction to database technologies and DBMS, data models, and languages. Prerequisites: CET 230, 300.

CET 438 Applications of Visual Basic. (3) F
Applications of visual basic to graphics, graphical user interfaces, error handling, file processing, OOP programming, DBMS, networking, and multimedia. Prerequisite: CET 236.

CET 450 Advanced Internetworking Technologies. (3) S
Effects and benefits, design and functions of internetworking protocols. Prepares students for the Cisco certification examination. Prerequisite: CET 250.

CET 452 Digital Logic Applications. (4) S
Design of sequential machines using system design techniques and complex MSI/LSI devices with lab. Prerequisite: CET 350.

CET 454 Microcontrollers. (3) S
Microcontroller input/output ports and advanced features. Microcontrollers as an embedded system and their interfacing considerations. Prerequisites: CET 350, 354.

CET 456 Assembly Language Applications. (3) F

CET 457 Microcomputer Systems Interfacing. (4) S
Applications of microcomputer hardware and software. Special-purpose controllers, interface design. Lecture, lab. Prerequisites: CET 354, 356; EET 310.

CET 458 Digital Computer Networks. (3) A
Network technology, topologies, protocols, control techniques, reliability, and security. Prerequisite: CET 354.

CET 473 Digital/Data Communications. (4) F
Signals, distortion, noise, and error detection/correction. Transmission and systems design. Interface techniques and standards. Lecture, lab. Prerequisites: CET 354; EET 372.

CET 483 UNIX with C Applications. (3) F
Generate user proficiency in the use of the UNIX operating system, its shells, environment, and 4th generation language and tools. Prerequisite: senior standing in the ECET department or equivalent.

CET 485 Digital Testing Techniques I. (3) A
Hardware/software aspects of digital testing technology; systems, board, and logic testing and equipment. Lecture, lab. Cross-listed as UET 485. Credit is allowed for only CET 485 or UET 485. Prerequisites: CET 350; EET 310.

CET 486 Hardware Description Languages: VHDL. (3) S
Introduction to hardware description languages using VHDL. Techniques for modeling and simulating small digital systems using a VHDL simulator. Prerequisites: CET 350, 485.

CET 487 Hardware Description Languages: VERILOG. (3) F
Introduction to hardware description languages, digital modeling, and simulation techniques using the VERILOG HDL. Prerequisites: CET 350, 354.

CET 488 UNIX Systems Administration. (3) F
Generate user proficiency in administration of UNIX operating system, its processes, system calls, kernel, file structure, and interprocess communication tools. Prerequisites: CET 483 (or equivalent); C or C++ language.

CET 489 Network Programming. (3) F
Generate user proficiency in writing C programs and scripts to control and administer a UNIX operating system network. Prerequisites: CET 473 and 488 or equivalents; C or C++ language.

CET 494 Special Topics. (1–4) N
(a) Computer Project

CET 501 Digital Signal Processing Applications. (3) F
Application of DSP techniques to the design and analysis of digital filters. Solution of filtering problems using computer techniques. Cross-listed as EET 501. Credit is allowed for only CET 501 or EET 501. Prerequisite: CET 401 or instructor approval.

CET 520 Computer Architecture. (3) F
The basics of computer architecture. RTN, RISC, CISC concepts; computer arithmetic; ALUs; memory systems; I/O. Prerequisite: CET 354.

CET 533 Database Management Systems. (3) F
Systems aspects of relational databases: relational database design, index and access structures, implementation and performance evaluation, query processing and optimization. Prerequisite: CET 433.

CET 546 Computer Vision. (3) S
Image segmentation and enhancement. Object recognition and modeling. Morphological operation for object recognition and measurement. Prerequisite: CET 300.

CET 552 Digital Systems Design. (3) S
Digital system design techniques and applications. Prerequisite: CET 452 or instructor approval.

CET 554 Distributed Computing. (3) S
Topics in distributed systems, including communications, distributed operating systems, fault-tolerance, and performance issues. Prerequisites: CET 354, 386.
CET 566 Principles and Practices of Operating Systems, (3) S
Principles and practices of operating systems: virtual memory systems, I/O devices and systems, file systems and organization, and other topics. Prerequisite: CET 365.

CET 576 Embedded Real-Time Programming, (3) F
Topics in real-time embedded operating systems such as synchronization, communications, file systems, and memory sharing. Prerequisites: CET 360, 366.

CET 578 Self-Discovery, (3) F

CET 583 Network Programming, (3) F
Generate user proficiency in writing C programs and scripts to control and administer a UNIX operating system network. Prerequisites: CET 473 and 486 or equivalents; C or C++ language.

CET 585 Digital Testing Techniques II, (3) F
Testing technology as applied to digital systems, boards, and chips. Lecture, lab. Prerequisite: CET 354.

CET 586 Digital Modeling Techniques, (3) S
Digital system modeling and simulation using hardware description languages. Prerequisites: CET 350, 354.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

EET 401 Digital Signal Processing for Multimedia, (3) F
Application of DSP techniques to multimedia. Digital filter analysis and design. Time and frequency techniques. Computer applications. Cross-listed as CET 401. Credit is allowed for only CET 401 or EET 401. Prerequisites: EET 301; MAT 262.

EET 406 Control System Technology, (4) S
Control system components, analysis of feedback control systems, stability, performance, and application. Lecture, lab, computer simulations. Prerequisites: EET 301; MAT 262.

EET 407 Energy Conversion and Applications, (4) F
Electricity, magnetism, mechanics, heat and units, and three-phase circuits. Electrical machines, transformers, generation, transmission, and distribution of electrical energy. Lecture, lab. Prerequisite: EET 208.

EET 410 Electronic Circuits II, (3) F, S
Analysis and design of OP-amps, power amplifiers, and digital logic families. Feedback design using frequency response. Computer analysis and design. Prerequisites: EET 301, 310.

EET 422 Electronic Switching Circuits, (4) A
Analysis and design of electronic circuits operating in a switching mode. Wave shaping, timing, and logic. Computer simulation. Lecture, lab. Prerequisites: CET 350; EET 301, 310.

EET 430 Instrumentation Systems, (4) F
Measurement principles and instrumentation techniques. Signal and error analysis. Lecture, lab. Prerequisites: EET 301, 310.

EET 460 Power Electronics, (4) S
Analysis of circuits for control and conversion of electrical power and energy. Lecture, lab. Prerequisites: EET 301, 310.

EET 470 Communication Circuits, (4) S

EET 478 Fiber Optic Communications, (3) S
Fiber optic communication systems analysis and design. Study of fiber optic waveguides, light sources, light detectors, noise, and light signal detection. Prerequisites: EET 372; MAT 262.

EET 500 Research/Writing, (2) F, S
Designed to help master’s students develop their projects and write the first three chapters of their projects. Lecture, seminar. Prerequisite: instructor approval.

EET 501 Digital Signal Processing Applications, (3) F
Application of DSP techniques to the design and analysis of digital filters. Solution of filtering problems using computer techniques. Cross-listed as CET 501. Credit is allowed for only CET 501 or EET 501. Prerequisite: CET 401 or instructor approval.

EET 506 System Dynamics and Control, (3) S
Time, frequency, and transform domain analysis of physical systems. Transfer function analysis of feedback control systems performance and stability. Compensation. Prerequisite: EET 301 or MAT 262.

EET 508 Digital Real-Time Control, (3) A
Sample data control techniques and applications to process control. Prerequisites: CET 354; EET 406.

EET 510 Linear Integrated Circuits and Applications, (3) F
Analysis, design, and application of linear integrated circuits and systems. Prerequisites: CET 350; EET 301, 310.

EET 522 Digital Integrated Circuits and Applications, (3) S
Analysis, design, and application of digital integrated circuits and systems. Prerequisites: CET 350; EET 301, 310.

EET 530 Electronic Test Systems and Applications, (3) F
Analysis, design, and application of electronic test equipment, test systems, specifications, and documentation. Prerequisites: CET 354; EET 301, 310.

EET 550 Electronic Test Systems and Applications, (3) S
Analysis, design, and application of special electronic devices and systems to industrial control, power, communications, and processes. Prerequisites: CET 350; EET 301, 310, 407.

EET 574 Microwave Amplifier-Circuits Design, (3) F
Analysis and design of microwave amplifier-circuits using s-parameter theory and computer-aided design. Prerequisites: EET 304, 470.

EET 578 Digital Filter Hardware Design, (3) S
Hardware design of FIR and IIR filters, including adaptive filters, based on DSP chips. Develop new applications using DSP microprocessor systems. Prerequisites: CET 354; EET 401.

EET 579 Digital Image Communication, (3) S
Image capture, transform, compression, storage, and transmission. Computer environment (software and hardware) is provided to emphasize the practical aspect. Prerequisite: EET 401 or instructor approval.

EET 591 Graduate Seminar, (1–12) N
EET 592 Research, (1–12) N
EET 593 Applied Project, (3) N
EET 599 Thesis, (1–12) N

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

MICROELECTRONICS ENGINEERING TECHNOLOGY (UET)

UET 411 Applied Vacuum Technology, (3) S
Fundamentals, applications, and practical aspects of vacuum systems and their use in semiconductor fabrication. Prerequisite: UET 331.

UET 416 Monolithic Integrated Circuit Devices, (3) F
Physics and electronics of bipolar and MOS devices used in integrated circuits. Prerequisite: UET 354. Corequisite: UET 416.

UET 417 Monolithic Integrated Circuit Laboratory, (2) F
Laboratory practice in the fabrication of integrated circuits. Lab. Prerequisite: UET 331. Corequisite: UET 416.

UET 418 Hybrid Integrated Circuit Technology, (4) S
Layout, fabrication, design, and manufacture of thin and thick film hybrid circuits. Lecture, lab. Prerequisites: EET 310; UET 331.

UET 421 Applied Device Physics, (3) F
Band structures of solids, physics of current carriers in solids, pn junctions, MOS and bipolar transistors. Prerequisite: senior standing in the department.

UET 424 Integrated Circuit Mask Making Technology, (3) F
Fundamentals, applications, and techniques for the fabrication of integrated circuit masks. Prerequisite: UET 331.

UET 426 Software Tools for the Semiconductor Industry, (3) S
Introduction to software tools commonly used in the semiconductor industry, such as SUPREM IV, PSPICE, VIEWLOGIC, and ICED. Cross-listed as CET 426. Credit is allowed for only CET 426 or UET 426. Prerequisite: UET 331.
UET 432 Semiconductor Packaging and Heat Transfer. (3) S
Packaging theory and techniques; hermetic and plastic assembly;
thermal management; electrical characteristics and reliability. Prerequi-
sites: ETC 340 and UET 331 or equivalents.

UET 437 Integrated Circuit Testing. (3) S
Principles, techniques, and strategies employed at wafer level and
final product testing, both destructive and nondestructive. Prerequi-
site: UET 416.

UET 485 Digital Testing Techniques I. (3) A
Hardware/software aspects of digital testing technology; systems,
board, and logic testing and equipment. Lecture, lab. Cross-listed as
CET 485. Credit is allowed for only CET 485 or UET 485. Prerequi-
sites: CET 350; EET 310.

UET 513 VLSI Circuit Design and Layout. (3) F
Techniques and practice for the design and layout of very large-scale
integrated (VLSI) circuits. Emphasis on "system on silicon" using tools
for computer-aided design layout. Seminar. Prerequisite: UET 416.

UET 516 Semiconductor Process Simulation and Integration. (3) S
Modern IC processes and process integration; design of modern IC
processes using SUPREM. Lecture, lab. Prerequisite: UET 416.

UET 518 Hybrid IC Technology and Applications. (3) S
Theory, processing, fabrication, and manufacturing of hybrid micro-
electronics devices and products. Applications. Prerequisite: UET 331
or equivalent or instructor approval.

UET 521 Device Physics. (3) F
Band structure of solids, electron hole-pairs, mobility, lifetime, fermi-
level, pn junctions, diodes, and bipolar MOSFET devices. Prerequi-
site: graduate standing in the department.

UET 532 IC Packaging. (3) S
IC packaging theory and techniques; assembly techniques, material
issues; thermal management; electrical performance and reliability.
Lecture, lab. Prerequisites: ETC 340 and UET 331 or equivalents.

Omnibus Graduate Courses. See page 57 for omnibus graduate
courses that may be offered.

Department of Information and
Management Technology

Thomas Schildgen
Chair
(TECH 102) 480/727-1781
cas@asu.edu

PROFESSORS
DANEKE, DUFF, HILD, SADOWSKI, SCHILDGEN

ASSOCIATE PROFESSORS
GROSSMAN, HIRATA, HUMBLE, MATSON, OLSON

LECTURERS
DOLIN, WILSON

The faculty in the Department of Information and Management Technology through the College of Technology and Applied Sciences, ASU East, offer a Master of Science in Technology degree. The student may select one of three technical concentrations: environmental technology management, information technology, or management of technology.

Information Technology. The information technology concentration provides students with a seamless graphic user interface from traditional printing and publishing applications to digital/multimedia, 3-D modeling, animation, database management, and Internet/Intranet web development.

Computer hardware/software configurations, information protocols, and networks provide students with an applications-level working knowledge of the different facets of the information industry.

Environmental Technology Management. The environmental technology management concentration for the Master of Science in Technology degree provides three areas of study: environmental management, hazardous materials and waste management, and international environmental management. Classes are scheduled to minimize disruption of work schedules by meeting six times a semester on alternating Fridays and Saturdays.

Management of Technology. The management of technology concentration provides the necessary content and technical knowledge to improve management functions in industry, manufacturing, and public service organizations. The curriculum addresses topics to include data analysis, ethical issues, project management, organizational effectiveness, personnel development, project management, quality assurance, and technological advancements that impact a global marketplace.

Admission. Applicants are expected to satisfy all requirements for admission to the Graduate College. Industrial experience beyond completion of a baccalaureate degree is strongly recommended. Applicants with deficiencies or not meeting the prerequisites may be required to complete them before being admitted to the degree program.

Program of Study. All candidates for the Master of Science in Technology degree program are required to complete a minimum of 33 semester hours of graduate credit. Additional courses may be assigned by the faculty supervisory committee depending on the background of the candidate.

Final Examinations. An applied project or thesis is required. Upon completion of the approved course of study or during the last semester, an oral defense of the applied project or thesis is required.

For more information concerning the Master of Science in Technology degree, see “Technology,” page 306.

Research interests of the faculty in the Department of Information and Management Technology include computer-assisted design (CAD), graphic communications, Internet/Web development, multimedia, animation, 3-D modeling, hazardous materials and waste management, environmental regulations, remediation processes, interactive computer graphics, simulation and modeling of industrial process, operations management, manufacturing processes, motivation, quality control, production supervision, decision making, technical communications, industrial training, and database applications.

RESEARCH ACTIVITY

Master’s degree candidates are required to complete a research block that includes two courses (ITM 549 Research Techniques and Applications, and ITM 593 Applied Project).

The program is designed for flexibility, permitting the student to select a combination of courses in a technical area and supporting area to meet individual goals.
CGC 411 Computer Animation and Special Effects (F/X). (3) F 2D and 3D computer animation principles and methods: project planning, scripting; character generation; storyboards; and modeling, lighting, rendering, special effects, and plug-in techniques. Lecture, lab. Prerequisites: CGC 310 or instructor approval.

CGC 412 Multimedia Authoring, Scripting, and Production. (3) F Production of multimedia projects using authoring software applications, including project management, client considerations, interactive navigation, cross-platforming, testing, and documentation issues. Lecture, lab. Prerequisites: CGC 314 and 411 or instructor approval.

CGC 413 Professional Portfolio Design and Presentation. (3) S Digital media portfolio: planning, targeted audience(s), design appearance, authoring, packaged media formats, media presentation formats, production, marketing, and copyright considerations. Lecture, lab, field trips. Prerequisites: CGC 411 and 412 or instructor approval.

CGC 414 Web Site Design and Internet/Web Technologies. (3) S Web site design, authoring, standards, protocols, tools, and development techniques; HTML, CGI and Perl coding; Web servers, browsers, interfaces and URLs. Lecture, lab. Prerequisites: CGC 311 and 314 or instructor approval.

CGC 415 Computer Graphics: Business Planning and Management Issues. (3) S Implementation planning: feasibility and application studies; needs assessment and operational analysis techniques; organization, managerial and technology considerations; business plan development. Lecture, lab, field trips. Prerequisite: CGC 412 or instructor approval.

CGC 417 JavaScript, VBScript, HTML, and ActiveX Programming. (3) S Use of JavaScript, VBScript, HTML, and ActiveX software programs and standards to create customized, interactive, Internet/Web site applications. Lecture, lab. Prerequisites: CGC 410 and 412 or instructor approval.

CGC 433 Graphic Production Processes. (3) N Systematic production planning experience involving a mock enterprise and defined management responsibilities. Lecture, lab. Prerequisites: CGC 333, 334.

CGC 436 Gravure Technology. (3) S In-depth study of the market profile and production sequences related to the gravure method of printing. Prerequisite: CGC 135 or instructor approval.

CGC 437 Color Reproduction Systems. (3) F Scientific analysis for the engineering of color reproduction systems and color models used in the graphics industry. Prerequisite: CGC 334 or instructor approval.

CGC 441 Graphic Information Systems. (3) N Graphical information systems common to the workplace. Includes graphic user interfaces for online databases, geographic, and management information systems. Lecture, lab. Prerequisites: ETC 100; IMC 232.

CGC 510 Computer Graphics Programming: Design, Customization, and Development. (3) N Advanced design, development, and documentation of Windows application programs, including GUIs, OOP, RAD, API, DLLs, and GDI in C++ and Java. Lecture, lab. Prerequisites: CGC 310 and 410 (or equivalent GUI/OOP course) or instructor approval.

CGC 511 Procedural and Physically Based Character Animation. (3) N Creative and aesthetic design, storyboarding, planning, development, and documentation of constraint-based, procedural, and interactive character, avatar-actor, and product animations/simulations. Lecture, lab. Prerequisites: CGC 411 and 510 (or equivalents) or instructor approval.

CGC 512 Multimedia-Based Education and Training. (3) F, SS Creative design, planning, development, documentation, and production of technology-based learning and multimedia-based education and training materials and programs. Lecture, lab. Prerequisites: CGC 412 and 413 (or equivalents) or instructor approval.

CGC 514 Interactive Virtual Reality Environments and Technologies. (3) N Research and development of passive, exploratory, and interactive VR environments in education and training, infotainment, Internet/Web, and VRML programming and simulation arenas. Lecture, lab, field trips. Prerequisites: CGC 510 and 511 (or equivalents) or instructor approval.

CGC 537 Current Issues in Quality Assurance. (3) N Directed group study of selected issues relating to quality assurance in the printing, publishing, and information industry.

CGC 538 Personnel Development for the Graphics Industry. (3) N Employee training and development specific to production and management in the graphics industry.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

ENVIRONMENTAL TECHNOLOGY MANAGEMENT (ETM)

ETM 401 Hazardous Waste Management. (3) F, S Definition of hazardous waste, RCRA classification, and OSHA criteria. Overview of requirements and methods of waste management. Prerequisite: ETM 301.

ETM 402 Unit Treatment Technologies. (3) S Addresses various treatment technologies for contaminated air, water, and soil. Emphasizes design based upon medium, type of contamination, and concentration. Prerequisite: ETM 302.

ETM 406 Environmental Chemistry. (3) F, S Examination of reactions, transport, and fate of hazardous chemicals in water, soil, air, and living organisms. Prerequisites: CHM 113 and 115 or CHM 114; MAT 170.

ETM 407 Occupational Hygiene. (3) S Overview of occupational health hazards, including recognition, evaluation, and control. Includes regulatory and health standards. Prerequisites: CHM 101 (or 113 or 114); MAT 170.

ETM 424 Comprehensive Emergency Management. (3) SS Addresses theory and management techniques for emergency preparedness, including mitigation, preparedness, response, and recovery. Pre- or corequisite: ETM 301.

ETM 426 Environmental Issues. (3) S Exploration of the science and policy implications of contemporary problems that threaten the environment. Pre- or corequisites: CHM 113; MAT 170.

ETM 428 International Environmental Management. (3) SS Emphasis on technological and economic pressures experienced by developing countries. Prerequisite: ETM 301.

ETM 501 Principles of Hazardous Materials and Waste Management. (3) F Foundation for courses in curriculum. Topics include definitions of toxic and hazardous substances and wastes, RCRA classification, and OSHA criteria. Pre- or corequisites: CHM 113 and 115 or CHM 114.

ETM 502 Regulatory Framework for Toxic and Hazardous Substances. (3) SS Examination of federal, state, and local regulations for hazardous materials and wastes. Includes history and trends in regulatory development. Prerequisite: ETM 501.

ETM 503 Principles of Toxicology. (3) S Interaction of chemicals with life and environment. Mechanisms of toxic action, dose-response relationships, toxicity testing models, predictive toxicology, and epidemiology. Prerequisites: CHM 113 and 115 or CHM 114.

ETM 504 Technology for Storage, Treatment, and Disposal of Hazardous Materials. (3) F Current and state-of-the-art technologies and future trends for storage, treatment, and disposal of hazardous materials and waste. Prerequisites: CHM 113 and 115 or CHM 114; ETM 501.
ETM 505 Quantitative Analysis and Practical Laboratory Techniques. (3) F, S
EPA methodologies for sampling and analysis of soils and water. Includes quality assurance and regulatory requirements. Lab will be arranged off site. Prerequisites: CHM 113 and 115 (or CHM 114); 231; MAT 170.

ETM 506 Chemistry of Hazardous Materials. (3) F
Chemistry and toxicology of hazardous chemicals. Topics include proper handling, storage, transportation, and disposal. Prerequisites: CHM 113 and 115 (or CHM 114); MAT 170. Corequisite: CHM 231.

ETM 507 Industrial Hygiene. (3) N
Emphasis on chemical hazards in industrial settings. Topics include recognizing and measuring hazards, control techniques, and regulatory standards. Prerequisites: CHM 113 and 115 (or CHM 114); MAT 170.

ETM 522 Air Pollution and Toxic Chemicals. (3) F
Examines issues in the measurement analysis and control of toxic chemicals in air pollution. Prerequisites: CHM 113 and 115 (or CHM 114); ETM 501; MAT 170.

ETM 523 Soils and Groundwater Contamination. (3) F
Theoretical and practical hydrogeology as it applies to cleaning up contamination. Investigative techniques, monitoring, risk assumptions, and assessment methodology. Prerequisites: CHM 113 and 115 (or CHM 114); ETM 501; MAT 170. Corequisite: CHM 231.

ETM 524 Emergency Preparedness, Response, and Planning for Hazardous Materials. (3) SS
In-house or on-site emergency response contingency planning. Preemergency assessment, resources for cooperation, equipment requirements, and coordination with other agencies. Prerequisites: CHM 113 and 115 (or CHM 114); ETM 501; MAT 170.

ETM 525 Risk Assessment for Hazardous Materials. (3) S
Application of the risk assessment process in situations ranging from hazardous facilities regulation to toxic substances in the environment. Prerequisites: CHM 113 and 115 (or CHM 114); ETM 501; MAT 170.

ETM 526 Current Environmental Technology Issues. (3) F
In-depth study of current issues in environmental technology facing both the private and public sectors.

ETM 527 Environmental/Resources Regulations Concepts. (3) S
Development of environmental regulations from common law to statutory requirements. Emphasis on Superfund, hazardous materials, toxics, and liability contracts. Pre- or corequisite: ETM 501.

ETM 591 Graduate Seminar. (1) N

ETM 592 Research. (1–12) N

ETM 596 Special Topics. (3) S
(a) Advanced Bioremediation.
Management and policy issues related to bioremediation of mine-tailing and animal waste and replacement of chemical control with biological methods. Lecture, case studies.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

INDUSTRIAL TECHNOLOGY MANAGEMENT (ITM)

ITM 402 Industrial Laws, Contracts, and Regulations. (3) F
Review of city, state, county, and federal laws that affect industrial and construction operations, materials, supplies, and acquisition procedures. Prerequisite: IMC 346.

ITM 430 Ethical Issues in Technology. (3) S
Topics in social responsibility for industrial technology and engineering. Prerequisite: IMC 346.

ITM 440 Introduction to International Business. (3) S
International business principles and operations, including partnerships, trade agreements, currency issues, international sales, and cultural differences between countries. Prerequisite: IMC 346. General Studies: G.

ITM 445 Industrial Internship. (1–10) F, S, SS
Work experience assignment in industry commensurate with student's program. Specialized instruction by industry with supervision. Pass/fail. Prerequisites: advisor approval; junior standing; 2.50 GPA.

ITM 451 Materials Control. (3) N
Activities of material handling, including purchasing, receiving, warehousing, traffic, plant layout, inventory, and production control and shipping relating to technical procedures. Prerequisites: IMC 346; ITM 343.

ITM 452 Industrial Human Resource Management. (3) F
Concepts and practices of human resource management in a global industrial environment. Prerequisite: IMC 346.

ITM 453 Safety Management. (3) N
Development and management of safety programs, education and training, and relationships within an organization. Prerequisite: ITM 343 or instructor approval.

ITM 455 Industrial Marketing Concepts. (3) N
Customer and sales strategies for industrial organizations, including current practice and future planning. Prerequisites: ECN 111; IMC 346; junior standing.

ITM 456 Introduction to Organized Labor. (3) S
Introduction to labor relations, unions, federations, collective bargaining, grievances, and labor legislation. Prerequisites: IMC 346; ITM 344.

ITM 461 Operations Management. (3) F
Introduction to supervisory principles as applied to production of goods and services. Prerequisites: IMC 346; ITM 344.

ITM 480 Organizational Effectiveness. (3) S
Human aspects of supervisory behavior in the industrial setting and how they influence efficiency, morale, and organizational practices. Prerequisite: IMC 346.

ITM 501 Managerial Economics. (3) N
Basic managerial economic tools and techniques applied to unique concerns of scientifically intensive firms operating in rapidly evolving industrial sectors.

ITM 502 Financial Management. (3) N
Examination of corporate financial and managerial accounting systems, budgeting, and financial policy, using microcomputers to analyze, forecast, and report information.

ITM 503 Marketing Management. (3) N
Modern methods and industrial case studies of planning, pricing, promoting and distributing, goods and services in the global marketplace. Prerequisites: ITM 480 (or equivalent); instructor approval.

ITM 504 Law and Ethics for Technical Professionals. (3) N
Analysis of legal and ethical framework for making managerial decisions in the corporate environment of engineering and technology-related industries.

ITM 520 Strategic Management of Technology. (3) N
Analysis of entrepreneurial dynamics and technology development, methods of research and development management, new technology implementation, and start-up organization. Prerequisites: ITM 480 (or equivalent); instructor approval.

ITM 540 International Management. (3) N
Practices and procedures for effective management of multinational business organizations, including partnerships, joint ownerships, and global subsidiaries.

ITM 549 Research Techniques and Applications. (3) F, S
Selection of research problems, analysis of literature, individual investigations, preparing reports, and proposal writing. Prerequisite: STP 420 or equivalent.

ITM 550 Industrial Training and Development. (3) N
Training techniques and learning processes. Planning, developing, evaluating, and managing industrial and governmental programs. Prerequisite: ITM 480.

ITM 552 Global Management Philosophies. (3) N
Analysis and comparison of significant supervision philosophies developed in various industrial nations and their potential application in the United States.

ITM 560 Managerial Decision Making. (3) F
Analysis of common decision-making bias and techniques to overcome them. Uses both subjective quantitative decision tools and computerized decision aids.

ITM 570 Advanced Project Management. (3) S
Planning, organizing, coordinating, and controlling staff and project groups to accomplish the project objective.

ITM 593 Applied Project. (1–12) N

ITM 596 Special Topics. (1–4) N
(a) Quantitative Research Analysis

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.
Department of Manufacturing and Aeronautical Engineering Technology

Scott G. Danielson
Chair
(SIM 425) 480/727-1185
Fax 480/727-1549
ctas@asu.edu

The faculty in the Department of Manufacturing and Aeronautical Engineering Technology (MAET) in the College of Technology and Applied Sciences, ASU East, offer the Master of Science in Technology degree. A minimum of 33 semester hours of approved courses is required. Both a thesis and applied project option are available. The flexible program permits the student to select a combination of courses in the relevant concentration and supporting areas to meet individual career goals in technology or to provide the foundation for further advanced study.

The department provides the student with a number of programs of study that presuppose a sound technical undergraduate degree. The programs are designed to provide the graduates with technical and professional skills that will facilitate preparation for and advancement in leadership positions in industry, education, government, and military. Laboratories and classrooms are well equipped, and the faculty members administering the classes have the relevant teaching, research, industry and training experience and background. Areas of concentrations include aeronautical engineering technology, instrumentation and measurement technology, manufacturing engineering technology, mechanical engineering technology, and security engineering technology. The instrumentation and measurement technology concentration is offered jointly by the Department of Electronics and Computer Engineering Technology.

The student may select one of the above areas to meet the requirement of 15–18 semester hours. Careful program selection in coordination with a faculty advisor and/or advisory committee is an essential aspect of this process resulting in a focused program for the student. The selection process also facilitates the potential for expanding the depth and breadth of the training the student may receive in related areas. The supporting area (six to nine semester hours) may be selected from outside the department upon approval from the supervisory committee. The thesis option includes six hours of research credits spread over at least two semesters.

Admission. Applicants are expected to satisfy all requirements for admission to the Graduate College. Industrial experience beyond completion of a baccalaureate degree is strongly recommended. Applicants with deficiencies or those not meeting the prerequisites may be required to complete them before being admitted to the degree program.

Program of Study. All candidates for the Master of Science in Technology degree program are required to complete a minimum of 33 semester hours of graduate credit as follows:

**Thesis Option**
- Technical area of emphasis ................................................. 18
- Supporting area ................................................................. 6
- Research course ............................................................... 3
- Research ................................................................. 6
- Total .................................................................................. 33

**Applied Project Option**
- Technical area of emphasis ................................................. 18
- Supporting area ................................................................. 9
- Research course ............................................................... 3
- Applied project ............................................................... 3
- Total .................................................................................. 33

Additional courses may be assigned by the supervisory committee depending on the background of the candidate. The program is designed for flexibility, permitting the student to select a combination of courses in a technical area and supporting area to meet individual goals.

Final Examinations. An applied project or thesis is required, upon completion of the approved course of study or during the last semester. An oral defense of the applied project or thesis is required.

RESEARCH ACTIVITY

Research interests of the faculty include computer-assisted design (CAD), computer-assisted manufacturing (CAM), computer-integrated manufacturing (CIM), decision making, energy conversion system design and analysis, energy management, simulation and modeling of industrial processes, machinability, manufacturing processes, motivation, numerical control (N/C), quality control, robotics and automation, supervision, weld-ability of metals, and welding-related metallurgy.

The aeronautical engineering technology faculty interests and facilities support applied research in testing aerodynamics, fixed wing and helicopter performance, and reciprocating and gas turbine engine development. Research support facilities consist of reciprocating engine and jet propulsion laboratories, materials and fabrication laboratories, and a subsonic wind tunnel.

AERONAUTICAL ENGINEERING TECHNOLOGY (AET)

**AET 409 Nondestructive Testing and Quality Assurance. (1) N**
- Purpose of inspection and quality assurance.
- Theory and application of nondestructive inspection methods.
- Application of pertinent standards, specifications, and codes.
- Lecture, lab. Cross-listed as AMT 409.
- Credit is allowed for only AET 409 or AMT 409.
- Prerequisite: AMT 280 or MET 230.

**AET 415 Gas Dynamics and Propulsion. (3) S**
- Introduction to compressible flow, internal and external flow, and aero-thermodynamic analysis of propulsion systems.
- Prerequisites: ETC 340; MAT 262.
AET 417 Aerospace Structures. (3) F
Analysis and design of aircraft and aerospace structures. Shear flow. Semimonocoque structures. Effects of dynamic loading. Prerequisites: AET 300; 312; 420; MAT 262; MET 313.

AET 420 Applied Aerodynamics and Wind Tunnel Testing. (4) F
Introduction to viscous and inviscid flow and their relationship to aircraft lift and drag. Wind tunnel design and testing. Lecture, lab. Prerequisites: AET 300; MAT 262.

AET 432 Applied Heat Transfer. (3) F
Steady-state and transient conduction, heat transfer by convection and radiation. Applications of heat transfer. Prerequisite: MET 434 or instructor approval.

AET 487 Aircraft Design II. (3) S
Basic aerodynamics and airplane performance analysis methods applied to practical design project. Prerequisite: AET 300.

AET 490 Advanced Applied Aerodynamics. (3) N
Study of fluid motion and aerodynamics. Essentials of incompressible aerodynamics and computational fluid dynamics. Elements of laminar and turbulent flows. Prerequisites: AET 312; ETC 100; MAT 262.

AET 524 Application of Heat Transfer. (3) F
Energy conservation, steady-state and transient conduction, convection transfer, free and forced convection Reynolds analogy, blackbody and environmental radiation. Prerequisite: MET 434 or instructor approval.

AET 552 Advanced Propulsion. (3) S
Mechanics and thermodynamics of propulsion systems. Solid, liquid propellant rocket design performance. Electrical nuclear propulsion systems. Space missions. Prerequisites: AET 420 (or MET 434) and 415 or instructor approval.

AET 560 Numerical Methods in Engineering Technology. (3) N
Analyzing problems in physical sciences, modeling of physical problems, perturbation techniques, curve fitting, data analysis, numerical solutions, ordinary and partial differential equations.

**Omnibus Graduate Courses.** See page 57 for omnibus graduate courses that may be offered.

**MANUFACTURING ENGINEERING TECHNOLOGY (MET)**

MET 401 Quality Assurance. (3) F
Introduction to statistical quality control methods design of experiments, sampling, gage requirements, specifications, quality assurance tools emphasizing CNC-CMM programming. Lecture, lab. Prerequisite: junior standing.

MET 432 Thermodynamics II. (3) S

MET 433 Thermal Power Systems. (4) N
Analysis of gas power, vapor power, and refrigeration cycles. Components of air conditioning systems. Direct energy conversion. Psychrometry. Analysis of internal combustion engines and fluid machines. Lecture, lab. Prerequisite: MET 432 or instructor approval.

MET 434 Applied Fluid Mechanics. (3) N

MET 435 Alternate Energy Sources. (3) F
Alternate energy systems, energy use and its impact on the environment, and demonstrating practical alternative energy sources to fossil fuels. Prerequisite: instructor approval.

MET 436 Turbomachinery Design. (3) N
The application of thermodynamics and fluid mechanics to the analysis of machinery design and power cycle performance predictions. Prerequisite: MET 432 or instructor approval.

MET 438 Design for Manufacturing II. (4) F
Application of mechanics in design of machine elements and structures. Use of experimental stress analysis in design evaluation. Lecture, lab. Prerequisite: AET 312 or MET 331 or instructor approval.

MET 442 Specialized Production Processes. (3) F
Nontraditional manufacturing processes, emphasizing EDM, ECM, ECG, CM, PM, HERF, EBW, and LBW. Prerequisite: MET 231.

MET 444 Production Tooling. (3) F
Fabrication and design of jigs, fixtures, and special industrial tooling related to manufacturing methods. Lecture, lab. Prerequisite: MET 345.

MET 448 Expert Systems in Manufacturing. (3) F
Introduction to expert systems through conceptual analysis, with an emphasis on manufacturing applications. Prerequisite: MET 231.

MET 452 Implementation of Robots in Manufacturing. (3) N
Robotic workcell design, including end effectors, parts preservers, and optimum material flow. Prerequisite: MET 451 or instructor approval.

MET 453 Robotic Applications. (3) S
Lab course utilizing robots and other automated manufacturing equipment to produce a part. Students are required to program robots, as well as interface the robots with other equipment. Prerequisite: instructor approval.

MET 461 Manufacturing Capstone Project II. (3) S
Small-group projects applying manufacturing techniques, with an emphasis on demonstrating state-of-the-art technology. Lecture, lab. Prerequisite: MET 460 or instructor approval.

MET 501 Statistical Quality Control Applications. (3) S
SPC problem-solving techniques for implementation in industrial setting, design and analysis of experiments. Prerequisite: instructor approval.

MET 502 Specialized Production Processes. (3) F
Specialized production processes including lasers, electronic beam, abrasive and water jet, and chemical and thermal processes. Prerequisite: instructor approval.

MET 504 Applications of Production Tooling. (3) F
Design and fabrication of fixtures, jigs, templates, and specialized industrial tooling for manufacturing. Lecture, lab. Prerequisite: instructor approval.

MET 507 Manufacturing Enterprise. (3) F, S
Organization and project management of cellular manufacturing methods, including JIT and lean manufacturing. Prerequisite: instructor approval.

MET 512 Introduction to Robotics. (3) N
Introduction to industrial robots. Topics include: robot workspace, trajectory generation, robot actuators and sensors, design of end effectors, and economic justification. Application case studies. Prerequisite: instructor approval.

MET 513 Advanced Automation. (3) F
Analysis and design of hard and flexible automation systems. Particular attention to material handling technology. Prerequisite: instructor approval.

MET 514 N/C Computer Programming. (3) S
Point-to-point and continuous path control system programming emphasizing metal removal procedures and processes. Lecture, lab. Prerequisite: instructor approval.

MET 517 Applied Computer-Integrated Manufacturing. (3) F
Techniques and practices of computer-integrated manufacturing, with an emphasis on computer-aided design and computer-aided manufacturing. Prerequisite: MET 346 or instructor approval.

MET 560 Fundamentals of Security Engineering. (3) F
Definitions of threats, fundamentals of design of physical protection systems, computer modeling and analysis of security systems.

MET 571 Waste Minimization and Waste Prevention. (3) S
Life cycle analysis, selection of environmentally compatible materials, design of waste minimization equipment and operation, economics of waste minimization and prevention. Prerequisite: ETC 340 or instructor approval.

MET 592 Research. (1–12) N
MET 593 Applied Project. (1–12) N

**Omnibus Graduate Courses.** See page 57 for omnibus graduate courses that may be offered.

**SECURITY ENGINEERING TECHNOLOGY (SET)**

SET 540 Explosives Surety. (3) F
Physical and chemical nature of explosives; detonation models; initiating systems; commercial, military, and improvised explosives; investigations; and counter measures. Lecture, lab. Prerequisite: graduate standing.

SET 550 Physical Security I. (3) S
Systems engineering principles and concepts to guide the design, analysis, and implementation of protection systems. Lecture, lab. Prerequisite: graduate standing.
SET 561 Physical Security II. (3) F
Scientific theory behind analysis of physical protection systems. Includes probability and statistics, data collection techniques, algorithm processing. Lecture, lab. Prerequisite: SET 560.

SET 570 Security System Instrumentation. (3) F
Operating principles, limitations, and test procedures of security instrumentation and sensors. Lecture, lab. Prerequisite: SET 560.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

FINE ARTS SPECIALIST
TAYLOR

LECTURERS
IRVINE, SMITH-DAWSON

The faculty in the Department of Theatre offer graduate programs leading to the M.A., the Master of Fine Arts, and the Ph.D. degrees in Theatre. Areas of concentration are performance, scenography and theatre for youth at the M.F.A. level and theatre for youth at the Ph.D. level. Students may also pursue an interdisciplinary program leading to the M.F.A. degree in Creative Writing. This program is offered by the faculties in the Departments of English and Theatre (see “English,” page 193).

MASTER ARTS

The M.A. degree in Theatre is a flexible program of advanced theatre studies that provides preparation for teaching in secondary schools and colleges and for graduate study beyond the master’s level. The program primarily emphasizes theoretical studies.

See “Master’s Degrees,” page 101, for general requirements.

Admission. Applicants must meet all admission requirements of the Graduate College. In addition, the Department of Theatre requires comprehensive undergraduate preparation in theatre (at least a Theatre minor or its equivalent), acceptable scores on either the Graduate Record Examination (GRE) or Miller Analogies Test, three letters of recommendation, and an undergraduate GPA of 3.00.

Application Deadline. The first deadline for receipt of applications and test scores is March 1 (February 1 for Creative Writing). After that date, admission is subject to space availability.

Deficiencies. Deficiencies in undergraduate preparation (not to exceed 12 hours) may be removed while pursuing the M.A. degree; courses taken to remove deficiencies may not be counted toward the degree.

Program of Study. The required courses are THE 500, 504, 505, 520, and 521. Additional course work to complete the degree is selected by the student with the approval of the supervisory committee. Theatre courses must be completed with a grade of “B” or higher. A thesis or equivalent is required.

Foreign Language Requirements. Optional, depending upon research area, and with the approval of the supervisory committee.

Thesis or Equivalent Requirements. For students electing to prepare a thesis, the program consists of a minimum of 24 semester hours of graduate work and three hours each of thesis (599) and research (592) credit. A research thesis is especially recommended for students planning to continue graduate study beyond the master’s degree and may be elected with the approval of the supervisory committee.

In consultation with their supervisory committee, students may elect to prepare a thesis equivalent. This option consists of 36 semester hours of graduate work, of which six hours are research (592) credit, and three hours of THP 593 Applied Project. Each student develops an approved project and supports this project with a written document. In addition, at least 18 semester hours of course work on the program of study must be 500-level courses and 20 semester hours must be in the major field.

Final Examinations. Both final written and oral examinations are required of all candidates. The written examination is based on the required courses; the oral examination is a defense of the thesis or equivalent.

MASTER OF FINE ARTS

The M.F.A. degree in Theatre is a 60-semester-hour professional program with concentrations in performance, scenography, and theatre for youth. It is a terminal degree for students interested in pursuing professional and educational careers. The concentration in performance is focused on developing performers as creative artists. It emphasizes skills for approaching and creating new work and developing entrepreneurship, performance applications in multimedia, interdisciplinary collaboration, artistic integrity, and social responsibility.

In the scenography concentration, students learn skills and methodologies to create and execute designs in costumes, lighting, and scenery.

The concentration in theatre for youth is designed to prepare candidates for work as drama specialists; for college and university teaching in the field of theatre for youth; for professional careers in children’s theatre; and for work in community theatres, recreational programs, and various social agencies.

Admission. Applicants must meet all admission requirements of the Graduate College. In addition, the Department of Theatre requires a minimum of 30 semester hours of course work in theatre, a minimum GPA of 3.20 for all course work in theatre, and acceptable scores on either the GRE or MAT.
For the concentration in performance, requirements include:

1. an interview and audition consisting of two performed selections, not to exceed four minutes total;
2. three letters of recommendation; and
3. a detailed statement of purpose.

Dates and sites for interviews may be obtained from the Department of Theatre.

For the concentration in scenography, three letters of recommendation are required from leaders in the field of theatre, education, or art. In addition, applicants must provide a portfolio of 12 slides or photographs of their work with a return envelope and postage, as well as a statement of educational and artistic objectives. An interview is recommended; dates and sites may be obtained from the Department of Theatre.

For the concentration in theatre for youth, three letters of recommendation are required from leaders in the field of theatre for youth, theatre education, or recreation, as well as a statement of educational and career goals. Submission of a current resume is also necessary. An interview is suggested but not required.

More detailed information regarding admission requirements for the concentration may be obtained from the Department of Theatre.

**Application Deadline.** The first deadline for receipt of applications and test scores is March 1. After that date, admission is subject to space availability.

**Program of Study.** Each student works closely with a supervisory committee to develop a program of study in required and elective course work. All M.F.A. candidates majoring in Theatre are evaluated at the end of each semester by their supervisory committee, with the responsibility resting on each student for documenting professional development. The advancement of each student through each of the three years in the M.F.A. program is dependent upon a positive recommendation of the supervisory committee.

The program for the performance concentration consists of a minimum of 60 semester hours, distributed as follows: 48 hours of course work in the major (THE 500, 504, 505, 520, 521; THP 501, 502, 503, 504, 598); six hours of THE 692 Research; and six hours of THP 693 Applied Project.

The program for the scenography concentration consists of 60 semester hours distributed as follows: 43 hours of required course work in the major (THE 500 [one hour], 504, 505, 520, 521; THP 506, 530, 540, 545, 649 [three hours], 691, six hours each of THP 684 Internship and THP 693 Applied Project); 12 hours of additional design and/or technical theatre classes which may be selected from THE 430, 431; THP 431, 435, 441, 442, 444, 445, 494; and five additional hours of electives subject to the approval of the supervisory committee.

The program for theatre for youth consists of 60 semester hours, distributed as follows: 39 hours of required course work in the major (THE 500, 504, 505, 520, 521, 524; THP 411, 511, and 611 or 618, six hours each of THP 684 Internship and THP 693 Applied Project); and 21 hours of approved electives in the major and related areas.

**Credit Before Admission.** Subject to approval by the supervisory committee, a maximum of 24 semester hours of graduate work from a completed master’s degree program earned at ASU or another accredited institution may be applied to the program of study. In other cases, a maximum of nine semester hours of nondegree graduate work from ASU or another institution may be applied (see “Credit Completed Before Admission,” page 102). All course work for the degree must be completed within the six-year time limit.

**Foreign Language Requirements.** Optional.

**Final Examinations.** A comprehensive examination or comprehensive review in the area of concentration is required. In addition, students failing to receive a grade of “B” or higher in THE 504, 505, 520, and 521 must pass a written comprehensive examination on the subject matter of those courses. A final project THP 693 Applied Project (six hours), supported by written documentation and defended in an oral defense, is required.

**Deficiencies.** Deficiencies in undergraduate preparation of no more than 12 hours may be removed while pursuing the M.F.A. degree; courses taken to remove deficiencies may not be counted toward the degree.

**DOCTOR OF PHILOSOPHY**

The Ph.D. degree is designed to give students a broad knowledge of theatre as well as special research, production, and teaching skills in theatre for youth. A detailed description of the program may be obtained from the Department of Theatre.

See “Doctor of Philosophy,” page 104, for general requirements.

**Admission.** Applicants must meet all admission requirements of the Graduate College. In addition, the Department of Theatre requires a master’s degree in theatre or education; a minimum of 36 hours of undergraduate and graduate course work in theatre (to include courses in dramatic literature, acting, directing, stagecraft, improvisation with youth, theatre for children, children’s literature, research methods, theatre history, and theatre theory/criticism); acceptable scores on the GRE, and on the Test of English as a Foreign Language (where applicable); and three letters of recommendation.

**Application Deadline.** The first deadline for receipt of applications and test scores is March 1. After that date admission is subject to space availability.

**Program of Study.** A total of 90 semester hours is required for this degree, consisting of (1) a minimum of 66 semester hours of graduate course work (including a maximum of 30 semester hours accepted from the first year of graduate study, a core of 15 semester hours of required courses, and 21 semester hours of elective and research credits); and (2) 24 semester hours of research and dissertation preparation.

A minimum of 30 semester hours of the approved Ph.D. program, exclusive of dissertation and research hours, must be completed after admission to the Ph.D. at ASU.

In meeting these requirements, students, with the advice of the supervisory committee, may select theatre courses in areas such as theatre education, directing, acting, design, playwriting, theatre history, and theatre theory/criticism, in addition to tutorial courses, as well as courses offered by
other departments in areas such as pertinent research methodologies, educational theory and methodology, aesthetic theory, the arts and arts education, and children’s literature. Students are encouraged to be involved in on- and off-campus production and teaching. All activities are selected to help students meet the goals of the program and develop the capability of becoming leaders in the field.

**Research Technique Requirement.** Students must successfully complete an additional graduate level course in qualitative or quantitative research, or they must successfully pass an examination in a foreign language approved by their committee.

**Preliminary Reviews.** Reviews of a student’s performance in courses and development of research skills, artistic skills, and teaching competencies are conducted by the supervisory committee at the end of each semester.

**Comprehensive Examinations.** These examinations are composed of written and oral components centering upon: theatre history, literature, and criticism; theatre for youth and theatre in education; and the research area.

**Dissertation Requirements.** A dissertation based on original research work of high quality, demonstrating proficiency in the student’s special field, is required. (See “Doctoral Dissertations,” page 103.)

**Financial Assistance.** University scholarships, fellowships, grants, and other forms of financial assistance are available. See “Financing Graduate Studies,” page 54, and “Assistantships and Associateships,” page 99. Graduate assistantships are granted by the Department of Theatre; application forms and information concerning graduate assistantships are available through the graduate secretary, Department of Theatre. A current résumé and a minimum of three letters of recommendation must accompany applications for graduate assistantships.

**RESEARCH ACTIVITY**

Recent and continued research by members of the Department of Theatre includes the following: workshops and production of new scripts for audiences of all ages and cultural backgrounds; voice production; study and performance of Shakespeare; history of American theatre; new production utilization in lighting, scene design, and production; aesthetic education; implementation of national standards and assessment for theatre education K–12; teacher training; history; criticism; and theory of theatre for youth.

An actress applies makeup before the performance of “Theatre to Go! Scenes from Shakespeare’s Henry IV,” during a presentation promoting cultural studies at ASU. Tim Trumble photo
THEATRE (THE)

THE 400 Focus on Film. (3) F, S, SS
Specialized study of prominent film artists, techniques, and genres. Emphasis is on the creative process. May be repeated for credit. Prerequisite: ENG 101 or 105.

THE 402 Gender Identity in Film. (3) F, S, SS
Examination of the representation of gender in Hollywood cinema with particular focus on films from 1970 to the present. Prerequisite: THE 300.

THE 404 Foreign Films and Filmmakers. (3) A
Films and filmmakers from Europe, Asia, Australia, Far East, South America, and Caribbean. Emphasis on cultural content and filmmaking philosophies.

THE 405 Film: Great Performers and Directors. (3) F, S
Examination of processes and influences of one or more great film performers and/or directors. May be repeated for credit. Prerequisite: THE 300.

THE 420 History of the American Theatre. (3) F
History of the plays, artists, and events in the development of American theatre from colonial to modern times. General Studies: HU, H.

THE 421 History of the English Theatre. (3) S
History of the artists, events, and plays in the development of English theatre from medieval times to the present. Lecture, group and independent work. Prerequisite: THE 100 or 220. General Studies: L/HU.

THE 424 Trends in Theatre for Youth. (3) N
A survey of the history, literature, and contemporary practices in theatre for youth.

THE 425 History of Asian Theatre. (3) N
History and production techniques of theatre forms in India, China, and Japan. Prerequisite: 6 hours of theatre history or written instructor approval. General Studies: L/HU.

THE 430 History of Costume: Western Tradition. (3) F
Study of major costume styles throughout history of Western civilization and how these fashions reflected society. Exploration of how styles can be used by theatrical costumers.

THE 431 History of Costume: Non-Western Tradition. (3) N
Study of major costume styles of India, Asia, Eastern Europe, and the Middle East and how these fashions reflected society. Exploration of how styles can be used by theatrical costumers.

THE 440 Theatre Forms and Contexts. (3) F
Exploration of 20th-century modernist theatrical forms and movements and development of alternative strategies for analyzing contemporary theatre and performance. Prerequisites: THE 220, 320, 321; Theatre major.

THE 445 Methods of Teaching Theatre. (4) F
Application of materials, techniques, and theories for theatre with ninth- through twelfth-grade students. Emphasis on curriculum development and praxis. Prerequisite: theatre education concentration or written instructor approval.

THE 500 Research Methods. (1–3) F
Introduction to graduate study in theatre.

THE 504 Special Topics. (1–4) N
Selected topics in child drama, community theatre, and theatre history. Prerequisite: written instructor approval.

THE 591 Seminar. (3) A
Selected topics in child drama, community theatre, and theatre history. Prerequisite: written instructor approval.

THE 598 Special Topics. (1–4) N
(a) College Teaching
(b) Dramatic Analysis
(c) Theatre Forms and Contexts

THE 692 Research. (1–12) N

THE 700 Advanced Research Methods. (3) F
Critical review of research, development, and design of research in theatre and theatre for youth.

THE 791 Seminar. (3) N
Selected topics offered on a revolving basis. May be repeated for credit when topic changes.

Omnibus Graduate Courses. See page 57 for omnibus graduate courses that may be offered.

THEATRE PERFORMANCE AND PRODUCTION (THP)

THP 401 Theatre Practicum. (1–3) F, S, SS
Production assignments for advanced students of technical production, stage and business management, and design. May be repeated for credit. Prerequisite: written instructor approval.

THP 406 Scenography. (3) F
The process of production collaboration. Taught in conjunction with THP 519. Prerequisites: THP 214 and 340 or instructor approval.

THP 411 Methods of Teaching Drama. (3) F
Application of materials, techniques, and theories with grades K–8 youth. Regular participation with children. Prerequisite: THP 311 or written instructor approval.

THP 418 Directing the Actor. (3) F
Practical applications of directing for the stage. Rehearsal and presentation of scenes and short plays. Prerequisites: THP 318; instructor approval.

THP 430 Costume Design. (3) N
Principles of costume design with projects in both modern and period styles. Includes budgets and fabric/pattern estimates. Lecture, studio. Prerequisite: THP 214.

THP 431 Advanced Costume Construction. (3) A
Specialized training in costume construction problems and crafts with projects in tailoring, millinery, and period accessories. Prerequisites: THP 214 and 331 or instructor approval.

THP 435 Advanced Technical Theatre. (3) A
Selection of materials, drafting of working drawings, tool operation, and construction techniques. 2 hours lecture, 2 hours lab. Prerequisites: THP 340 and 345 or written instructor approval.

THP 440 Advanced Scene Design. (3) A
Advanced studio projects in designing scenery for a variety of stage forms. Prerequisite: THP 340 or written instructor approval.

THP 441 Scene Painting. (3) N
Studio projects in painting stage scenery. Prerequisite: THP 340 or written instructor approval.

THP 442 Drawing. (3) N
Techniques in drawing and rendering for scenic, costume, and lighting design. Prerequisite: written instructor approval.

THP 444 Drafting for the Stage. (3) N
Fundamentals of and practice in graphic techniques for the stage. Introduction to computer-aided design for the stage. 2 hours lecture, 3 hours studio. Prerequisites: THP 213; written instructor approval.

THP 445 Advanced Lighting Design. (3) N
Specialized techniques in stage lighting. Advanced application of design process, graphic techniques of design presentation, and use of qualities of light. Lecture, class workshops. Prerequisite: THP 345 or written instructor approval.

THP 450 Theatre Organization and Management. (3) N
Overview of nonprofit arts: organizational design, strategic planning, financial management, and leadership. Prerequisite: THE 220.
THP 460 Playwrights Workshop. (3) F, S
Practice and study of creating characters, dialogue, scenes, plays, and monologues for the stage. May be repeated for credit. Studio, lecture. Prerequisite: written instructor approval.

THP 461 Scripts in Progress. (3) F, S
Studio work with the instructor, centered on revisions of original plays. May be repeated for credit. Studio. Prerequisite: THP 460 or written instructor approval.

THP 472 Advanced Movement for the Stage. (3) A
Movement techniques for the classical and nonrealistic theatre; stage combat and special skills. Prerequisite: THP 272 or instructor approval.

THP 477 Advanced Speech for the Stage. (3) A
Exercises to develop vocal flexibility and power; mastery of elevated American diction and language skills applied to classical and nonrealistic drama; stage dialects. Prerequisite: THP 377.

THP 481 Secondary School Play Production. (3) F
Methods of directing, designing, and coordinating play production experiences at the secondary school level. Off-campus practicum. Prerequisites: THP 318 and theatre education concentration or instructor approval.

THP 484 Internship. (1–4) A
THP 485 Acting: Advanced Classical Scene Study. (3) A
Rehearsal and performance of period, classical, and nonrealistic plays. Emphasis on understanding poetic language and strong vocal and physical skills. Prerequisite: THP 385 or instructor approval.

THP 486 The Meisner Approach to Acting. (3) A
Improvizations and exercises developed by Sanford Meisner applied to scene work from selected texts. Studio. Prerequisite: introductory acting classes.

THP 487 Acting for TV and Film. (3) A
Professional television and film acting techniques, terminology, and on-camera experience. Studio. Prerequisite: THP 207 or 285.

THP 488 Audition Techniques. (3) A
Techniques and preparation for stage, commercial, and TV/film auditions utilizing monologues, cold readings, and personal style. Studio. Prerequisite: introductory acting classes.

THP 489 Actor Career Development. (3) A
Familiarization with the business of acting: self-promotional tools and techniques, marketing strategies, finances, interview skills, and actor unions. Studio. Prerequisite: introductory acting classes.

THP 494 Special Topics. (1–4) A
Topics may be selected from the following:
(a) Advanced Acting Techniques
(b) Advanced Scene Painting
(c) Advanced Screenwriting
(d) Advanced Stage Management
(e) Performance and Technology
(f) Problems in Directing
(g) Properties and Dressing Design and Construction
(h) Solo and Collaborative Performance
(i) Solo Performance
(j) Stage Dialects
(k) Standards in the School K–12
(l) Storytelling
(m) Technical Theatre III
(n) Theatre of the Oppressed
(o) Theory and Practice of Performance
(p) Video and Industrial Scene Design

THP 498 Pro-Seminar. (1–6) A
Topics may be selected from the following:
(a) Directing
(b) Projects:
   Costume Design
   Lighting Design
   Properties Design
   Scenery Design
   Technical Direction
(c) Stage Management
(d) Theatre for Youth Tour
(e) Theatre in Education
Prerequisite: written instructor approval.

THP 501 Performance: Solo Performance. (8) A
Students begin to define their mission in art. Emphasis on the actor as a solo storyteller, speaking as herself or himself. Studio. Prerequisite: instructor approval.

THP 502 Performance: Aesthetics of Theatre Art. (8) A
Understanding and analyzing scripts and performance in order to be an effective actor/storyteller who speaks as a character. Focus on solo, duet performances. Studio. Prerequisite: instructor approval.

THP 503 Performance: The Ensemble. (8) A
The ensemble, working with a playwright, creates a play that addresses social issues through improvisation and community input. Studio. Prerequisite: instructor approval.

THP 504 Performance: Revisioning the Classics. (8) A
An ensemble celebrates and confronts our classics for contemporary audiences. Class includes actors, scenographers, directors, and dramaturgs. Studio. Prerequisite: instructor approval.

THP 506 Scenography. (3) N
The process of production collaboration. Taught in conjunction with THP 519. Prerequisite: theatre graduate standing or written instructor approval.

THP 507 Acting: Advanced Research and Performance. (1–3) A
Acting in advanced theatre projects, productions, or collaborative performance in directing classes. May be repeated for credit. Studio. Prerequisite: instructor approval.

THP 508 Multiethnic Workshop. (3) F, S
Advanced workshop for development and presentation of works originating out of American ethnic cultures. Lecture, lab.

THP 508 Singing for Actors. (1) S
Introduction of the basics of singing technique. Breath control, resonance, articulation, exploration, and expansion of singing range. May be repeated for credit. Studio. Prerequisite: admission to M.F.A. performance program or written instructor approval.

THP 511 Improvisation with Youth Workshop. (3) S
Theories and techniques of drama with various populations of youth. Emphasis on how research informs practice. Prerequisites: THP 411 or graduate standing and written instructor approval.

THP 512 Puppetry Workshop. (3) F, S
Survey of puppetry in education, puppetry as an art form in design and performance. Lab fee required. Prerequisite: graduate standing or written instructor approval.

THP 517 Stage Management Practicum. (3) F
Readings and research in stage management and participation as a stage manager in a University Theatre production. Prerequisite: written instructor approval.

THP 518 Advanced Directing Lab. (3) F, S
Active discovery of directing concepts through practical exercises and collaboration; deconstruction of contemporary/classic literature. Explores director as primary artist. Lab. Prerequisite: written instructor approval.

THP 519 Directing: Works in Progress. (3) S
Advanced projects in directing concentrating on a collaborative process between director, playwright, actors, and designers. Focus is primarily on new scripts or adaptations of literature. May be repeated for credit. Studio, on-site practicum. Prerequisites: THP 418; instructor approval.

THP 530 Advanced Costume Design. (3) N
Advanced studio projects in costume design for a variety of production forms. Prerequisite: written instructor approval.

THP 540 Production Design. (3) A
Design for film, television, and business theatre. Prerequisite: written instructor approval.

THP 545 Lighting Design Applications. (3) N
Advanced studio projects in stage lighting design. Prerequisite: written instructor approval.

THP 550 Playwright's Workshop. (3) F, S
Practice and study of creating characters, dialogue, scenes, plays, and monologues for the stage. May be repeated for credit. Studio. Prerequisite: written instructor approval.

THP 561 Scripts in Progress. (3) F, S
Studio work with the instructor centered on revisions of original plays. May be repeated for credit. Studio. Prerequisite: THP 560 or written instructor approval.

THP 562 Literary Management Workshop. (3) F
Advanced literary management for the contemporary theatre, including trends in new play development, festivals, and productions throughout the United States. Participation in Arizona Playwriting Competition. Prerequisite: THP 560 or written instructor approval.

The faculty and academic professionals listed are involved in undergraduate and graduate instruction and research. The year of first appointment follows the name. Emeriti are included.

**ASU Main Faculty and Academic Professionals**

**A**

Aarnes, Per (1975), Associate Professor of Physics and Astronomy; B.S., University of Oslo (Norway); Ph.D., University of California, Berkeley

Abbaszadegan, Morteza (1999), Associate Professor of Civil and Environmental Engineering; B.S., University of Montana; M.S., Northern Arizona University; Ph.D., University of Arizona

Abele, Deborah (1990), Faculty Associate of Planning and Landscape Architecture; B.A., Vassar College

Abernathy, Thomas E. (1989), Associate Professor of Electrical Engineering; B.S., M.S., Polytechnic Institute of New York; Ph.D., University of Massachusetts, Boston

Abrams, Jay (1999), Lecturer of Mathematics; B.S., University of New Mexico; M.S., University of New Hampshire

Abston, Deborah (1990), Associate Librarian, Access Services, Hayden Reference Services; B.S., M.S.L.S., Wayne State University

Acevedo, Roberto M. (1996), Assistant Professor of Chicana and Chicano Studies; B.A., Evergreen State University; M.A., Ph.D., University of Washington

Acharya, Raghunath (1976), Associate Professor of Physics and Astronomy; B.Sc., M.Sc., University of Delhi (India); Ph.D., University of Rochester

Acker, Barbara (1991), Associate Professor of Theatre; B.F.A., University of Texas, Austin; M.A., Case Western Reserve University; Ph.D., Wayne State University

Adams, Donna (1983), Associate Professor of Nursing; B.S.N., University of Missouri, Columbia; M.S., Arizona State University; D.N.Sc., University of San Diego

Adams, James B. (1996), Professor of Materials Engineering; Interim Codirector, Science and Engineering of Materials; B.S., Duke University; M.S., Ph.D., University of Wisconsin, Madison

Adams, Karen L. (1984), Professor of English; Director, Program for Southeast Asian Studies; B.A., M.A., Ph.D., University of Michigan

Adelman, Madelaine (1998), Assistant Professor of Justice Studies; A.B., Ph.D., Duke University

Adelson, Roger D. (1974), Professor of History; B.A., George Washington University; B.Litt., University of Oxford (United Kingdom); M.A., Ph.D., Washington University

Aerni, Wayne (1991), Faculty Associate of Public Affairs; B.A., University of Oregon; M.P.A., D.P.A., Arizona State University

Agadian, Victor (1995), Assistant Professor of Sociology; B.A., Moscow State University (Russia); M.S., Ph.D., University of Southern California

Aguilar, John L. (1976), Professor Emeritus of Anthropology; B.A., University of California, Los Angeles; M.A., California State University, Los Angeles; Ph.D., University of California, San Diego

Ahn, Seung C. (1990), Associate Professor of Economics; B.A., Sogang University (Korea); M.A., Ph.D., Michigan State University

Aiken, Leona S. (1985), Professor of Psychology; B.S., Virginia Commonwealth University; M.S., Ph.D., Purdue University

Akins, William H. (1975), Professor Emeritus of Theatre; B.A., Duke University; M.A., Ph.D., University of Denver

Alarcon, Ricardo O. (1989), Associate Professor of Physics and Astronomy; B.S., M.S., University of Chile (Chile); Ph.D., Ohio University

Alberty, Jess K. (1989), Associate Professor of Communication; Director, Hugh Downs School of Human Communication; B.S.Ed., M.A., Abilene Christian University; Ph.D., University of Texas, Austin

Acock, John (1972), Regents’ Professor of Biology; B.A., Amherst College; Ph.D., Harvard University

Alcorn, Marianne (1981), Law Librarian, Reference; B.A., University of Washington; M.L.S., University of Southern California

Aldama, Arturo (1996), Assistant Professor of Chicana and Chicano Studies; B.A., Evergreen State University; M.A., Ph.D., University of California, Berkeley

Aldrich, Frank T. (1969), Associate Professor of Geography; B.A., University of Texas, Austin; M.S., Ph.D., Oregon State University

Alexander, Robert J. (1975), Professor of German; B.A., Macalester College; M.A., Ph.D., University of Wisconsin, Madison

Alford, Terry L. (1993), Associate Professor of Materials Engineering; B.S., M.S., North Carolina State University, Raleigh; Ph.D., Cornell University

Alisky, Marvin (1957), Professor Emeritus of Political Science; B.A., M.A., Ph.D., University of Texas, Austin

Allee, David R. (1991), Associate Professor of Electrical Engineering; B.S., University of Cincinnati; M.S., Ph.D., Stanford University

Allen, Craig M. (1991), Associate Professor of Journalism and Telecommunication; B.A., Linfield College; M.S., University of Oregon; Ph.D., Ohio University

Allen, James P. (1989), Professor of Chemistry and Biochemistry; B.S., Saint Joseph’s University; M.S., Ph.D., University of Illinois
Allison, Maria T. (1984), Professor of Recreation Management and Tourism; B.S., M.S., University of New Mexico; Ph.D., University of Illinois

Allot, David J. (1998), Adjunct Professor of Electrical Engineering; B.S.E.E., University of Portland; M.S.E.E., Oregon State University; Ph.D., University of California, Berkeley

Alozie, Nicholas O. (1991), Associate Professor of Public Affairs; B.A., M.P.A., Texas Southern University; M.A., Ph.D., University of Texas, Dallas

Alpers, Rojann (1995), Assistant Professor of Nursing; B.S.N., M.S., Arizona State University; Ph.D., University of Iowa

Alquist, Lewis R. (1984), Professor of Art; B.F.A., Florida Atlantic University; M.F.A., Cranbrook Academy of Art

Altheide, David L. (1973), Regents’ Professor of Justice Studies; B.A., Central Washington State College; M.A., University of Washington; Ph.D., University of California, San Diego

Alvarado, Ronald H. (1974), Professor Emeritus of Biology; B.A., University of California, Riverside; M.S., Ph.D., Washington State University

Alvarez, Robert R., Jr. (1989), Professor of Anthropology; B.A., Northern Arizona University; M.A., San Diego State University; M.A., Ph.D., Stanford University

Amazeen, Eric P. (1999), Assistant Professor of Psychology; B.A., Franklin and Marshall College; M.A., Ph.D., University of Connecticut

Amazeen, Polemnia G. (1999), Assistant Professor of Psychology; B.A., Franklin and Marshall College; M.A., Ph.D., University of Connecticut

Ames, James G. (1985), Senior Research Associate, Manufacturing Institute; B.S., San Diego State University

Amundson, Susan (1995), Assistant Professor of Supply Chain Management; B.S., Moorhead State University; M.B.A., College of St. Thomas; Ph.D., University of Minnesota

Anderson, Edward F. (1993), Adjunct Professor of Plant Biology; B.A., Pomona College; M.A., Ph.D., Claremont Graduate School and Rancho Santa Ana Botanic Garden

Anderson, Gary (1975), Associate Professor of Reading and Library Science; B.S., M.Ed., Edinboro State College; Ph.D., University of Pittsburgh

Anderson, Karen (1987), Faculty Associate of Nursing; B.S., M.S., Arizona State University

Anderson, Marcia L. (1986), Librarian, Collection Development; B.A., University of Michigan; M.L.S., Wayne State University

Anderson, Melvin S. (1967), Professor Emeritus of Finance; B.S., M.S., Oklahoma State University; Ed.D., University of Arkansas

Anderson-Rowland, Mary R. (1974), Associate Professor of Industrial Engineering; Associate Dean, Student Affairs and Special Programs; B.A., Hope College; M.S., Ph.D., University of Iowa

Andress, Barbara L. (1972), Professor Emeritus of Music; B.A., M.A., Arizona State University

Angell, C. Austen (1989), Regents’ Professor of Chemistry and Biochemistry; B.S., M.S., Melbourne University (Australia); Ph.D., University of London (United Kingdom)

Anijar, Karen Z. (1998), Assistant Professor of Curriculum and Instruction; B.A., Florida State University; M.A., Ph.D., University of North Carolina, Greensboro

Appleton, Nicholas R. (1972), Professor of Educational Leadership and Policy Studies; Director, Division of Curriculum and Instruction; Associate Dean, Teacher Education; B.A., San Francisco State University; M.A., California State University, Northridge; Ed.D., University of Massachusetts, Amherst

Aranda, Luis (1975), Associate Professor of Legal and Ethical Studies; B.M., M.Ed., University of Arizona; J.D., Arizona State University

Arciniega, G. Miguel (1979), Associate Professor of Counselor Education; B.S., M.A., New Mexico State University; Ph.D., University of Arizona

Arias, M. Beatriz (1989), Associate Professor of Multicultural Education; B.A., M.A., Occidental College; Ph.D., Stanford University

Armbuster, Charlotte (1997), Faculty Associate of Nursing; B.S.N., M.S., Arizona State University

Armbuster, Dieter (1989), Professor of Mathematics; Associate Chair, Graduate Studies; Abitib, Zeppelin, Gymnasium (Germany); Diplom, Ph.D., University of Tübingen (Germany)

Armendt, Brad (1989), Associate Professor of Philosophy; Chair, Department of Philosophy; B.A., Rice University; Ph.D., University of Illinois, Chicago

Armstrong, Robert L. (1967), Professor Emeritus of Secondary Education; B.A., State Teachers College of Iowa; M.S., University of Iowa; Ed.D., University of Arizona

Arner, Douglas G. (1959), Professor Emeritus of Philosophy; B.S., Creighton University; M.A., Ph.D., University of Michigan

Arnold, William E. (1973), Professor of Communication; Director, Gerontology Program; B.S., M.A., Northern Illinois University; Ph.D., Pennsylvania State University

Arntzen, Charles J. (1997), Adjunct Professor of Plant Biology; B.S., M.S., University of Minnesota; Ph.D., Purdue University

Arson, Jerome M. (1966), Professor Emeritus of Plant Biology; B.A., Ph.D., University of California, Berkeley

Arvedondo, Patricia (1999), Associate Professor of Psychology in Education; B.S., Kent State University; Ed.M., Boston College; Ed.D., Boston University

Arreola, Daniel (1990), Professor of Geography; B.A., University of California, Los Angeles; M.A., California State University, Hayward; Ph.D., University of California, Los Angeles

Arrowsmith, Ramon (1995), Assistant Professor of Geology; B.A., Whittier College; Ph.D., Stanford University

Arterian, Hannah (1979), Professor of Law; Associate Dean, College of Law; B.A., Elmira College; J.D., University of Iowa

Ashcroft, Robert F. (1995), Assistant Professor of Recreation Management and Tourism; Director, Center for Nonprofit Leadership and Management Program; B.A., University of Arizona; M.A., Northern Arizona University; Ph.D., Arizona State University

Ashcroft, Edward A. (1988), Professor of Computer Science and Engineering; B.A., Cantab (United Kingdom); Ph.D., Imperial College of London (United Kingdom)

Ashe, Robert W. (1955), Professor Emeritus of Education; A.B., M.A., Arizona State University; Ed.D., University of Southern California

Ashford, Jose B. (1984), Professor of Social Work; B.A., Loyola University, New Orleans; M.S.W., Ohio State University; Ph.D., Bowling Green State University
Ashforth, Blake (1996), Professor of Management; B.Comm., Ph.D., University of Toronto (Canada)
Ashley, Richard (1981), Associate Professor of Political Science; B.A., University of California, Santa Barbara; M.A., Ph.D., Massachusetts Institute of Technology
Atsumi, Takayori P. (1968), Professor of Music; B.F.A., Kunitachi Music College (Japan); M.M., New England Conservatory of Music
Augsburg, Tanya (1997), Lecturer, Division of Undergraduate Academic Services; B.A., New York University; M.A., Ph.D., Emory University
Aulerich, Christopher E. (1989), Faculty Associate, Del E. Webb School of Construction
Axelrod, Morris (1972), Professor Emeritus of Sociology; B.A., Ph.D., University of Michigan
Axford, Roger W. (1975), Professor Emeritus of Secondary Education; B.A., Nebraska Wesleyan University; M.A., Ph.D., University of Chicago
Azuma, Tamiko (1998), Assistant Professor of Speech and Hearing Science; B.A., University of California, Santa Cruz; M.A., Ph.D., Arizona State University

B
Backer, Linda R. (1997), Assistant Instructional Professional, College of Extended Education; Manager, Interdisciplinary Programs, Academic and Professional Programs, College of Extended Education; B.A., University of Colorado; M.S., Colorado State University
Backhaus, Ralph A. (1977), Professor of Plant Biology; B.S., Rutgers, The State University of New Jersey; M.S., Ph.D., University of California, Davis
Backus, Charles E. (1968), Professor of Electrical Engineering; Provost, Arizona State University East; B.S.M.E., Ohio University; M.S., Ph.D., University of Arizona
Bacon, Catherine K. (1990), Clinical Associate Professor of Speech and Hearing Science; B.A., University of California, Santa Barbara; M.A., University of Minnesota
Bacon, Sid P. (1988), Professor of Speech and Hearing Science; B.G.S., M.A., University of Kansas; Ph.D., University of Minnesota, Twin Cities
Bacon, Thomas (1993), Professor of Music; B.S., Oakland University
Badger, William W. (1985), Professor of Construction; Director, Del E. Webb School of Construction; B.S.M.E., Auburn University; M.S.C.E., Oklahoma State University; Ph.D., Iowa State University
Baer, Steven M. (1988), Associate Professor of Mathematics; B.S., M.S., Ph.D., University of Illinois
Bagwell, Marilyn (1972), Associate Professor of Nursing; B.S.N., University of California, Los Angeles; M.A., Arizona State University; Ph.D., Texas Woman’s University
Bahr, Donald M. (1967), Professor of Anthropology; A.B., M.A., Ph.D., Harvard University
Bailey, James E. (1974), Professor Emeritus of Industrial Engineering; B.S.I.E., M.S.I.E., Ph.D., Wayne State University
Baker, Aaron (1992), Assistant Professor of Interdisciplinary Humanities; B.A., Hobart College; M.A., Ph.D., Indiana University
Baker, Brenda J. (1998), Assistant Professor of Anthropology; B.A., Northwestern University; M.A., Ph.D., University of Massachusetts, Amherst
Baker, Dale R. (1989), Professor of Curriculum and Instruction; B.A., University of Oklahoma; M.A.T., Trenton State College; Ed.D., Rutgers, The State University
Baker, Dwayne A. (1997), Assistant Professor of Recreation Management and Tourism; B.S., University of Saskatchewan (Canada); M.S., University of Illinois; Ph.D., Texas A&M University
Baker, Marc A. (1988), Adjunct Faculty of Plant Biology; B.A., San Jose State University; M.A., Humboldt State University; Ph.D., Arizona State University
Balans, Constantine A. (1983), Regents’ Professor of Electrical Engineering; B.S.E.E., Virginia Polytechnic Institute and State University; M.E.E., University of Virginia; Ph.D., Ohio State University
Balasubramanian, Krishnan (1983), Professor of Chemistry and Biochemistry; M.Sc., Birla Institute of Technology Science (India); M.A., Ph.D., Johns Hopkins University
Baldini, Pier Raimondo (1978), Professor of Italian; B.A., San Francisco State University; M.A., University of British Columbia (Canada); Ph.D., University of California, Los Angeles
Ball, Terence (1998), Professor of Political Science; B.A., University of California, Santa Cruz; M.A., Ph.D., University of California, Berkeley
Ballew, Tad (1998), Assistant Professor of Interdisciplinary Humanities; B.A., University of California, Santa Barbara; M.A., City University of New York
Balling, Robert C. (1987), Professor of Geography; Director, Climatology Laboratory; A.B., Wittenberg University; M.A., Bowling Green State University; Ph.D., University of Oklahoma
Ballon-Aguirre, Enrique (1992), Professor of Spanish; Bachiller en Letras, Bachiller en Derecho, University of Arequipa (Peru); Doctor en Literatura, National University of San Marcos (Peru); Doctorat en Etudes Iberiques, University of Paris III (France)
Balogh, Stephen (1998), Lecturer of Computer Information Systems; B.S., M.A., Ph.D., Ohio State University
Bantz, Charles R. (1986), Professor of Communication; Vice Provost, Office of the Senior Vice President and Provost; B.S., M.A., University of Minnesota, Twin Cities; Ph.D., Ohio State University
Baral, Chitta (1999), Associate Professor of Computer Science and Engineering; B.Tech., Indian Institute of Technology (India); M.S., Ph.D., University of Maryland, College Park
Barcelo, Helene (1990), Associate Professor of Mathematics; Ms.C., University of Quebec (Canada); Ph.D., University of California, San Diego
Bardrick, Richard A. (1956), Professor Emeritus of Psychology; A.B., Ph.D., University of California, Los Angeles
Barker, David (1983), Professor of Theatre; B.S.E., Duquesne University; M.F.A., Rutgers, The State University
Barkley, Margaret V. (1963), Professor Emeritus of Family Resources and Human Development; B.S., Millikin University; M.S., Ed.D., University of Illinois
Barlow, Richard B. (1964), Professor Emeritus of History; B.A., M.A., Ph.D., University of Pennsylvania
Barnard, John P. (1991), Associate Learning Resources Specialist, Library Instruction, Systems, and Technology; B.S., State University of New York; M.Ed., Arizona State University

Barnes, Andrew (1996), Associate Professor of History; B.A., Wesleyan University; M.A., Ph.D., Princeton University

Baron, André (1986), Professor of Education; B.S., M.Ed., Texas A&M University; Ph.D., University of Texas, Austin

Barone, Thomas (1990), Professor of Curriculum and Instruction and Educational Leadership and Policy Studies; B.A., Loyola University, New Orleans; M.A., University of New Orleans; Ed.D., Stanford University

Barrera, Manuel (1977), Professor of Psychology; B.S., University of Wisconsin, Eau Claire; M.A., Ph.D., University of Oregon

Barnett, Marianne (1994), Associate Professor of Journalism and Telecommunication; B.S., Kutztown University; M.P.S., Syracuse University; Ph.D., Michigan State University

Barroll-Aschaffenburg, Rayna (1980), Associate Professor of Music; B.M., University of Texas; D.M.A., University of Maryland, College Park

Bartels, Robert D. (1981), Professor of Law; B.A., University of Michigan; J.D., Stanford University

Basso, Michelle (1999), Lecturer of Speech and Hearing Science; B.A., M.Ed., Arizona State University

Barton, C. Michael (1987), Associate Professor of Anthropology; Collections Administrator; B.A., University of Kansas; M.A., Ph.D., University of Arizona

Barton, John L. (1994), Senior Lecturer of Psychology; B.A., University of Nebraska, Lincoln; M.A., Ph.D., Arizona State University

Bart, Donna R. (1968), Professor of Theatre; B.F.A., M.A., University of Colorado

Bashford, Howard H. (1997), Associate Professor of Construction; B.S., M.S., University of Wyoming; Ph.D., Brigham Young University

Batalden, Stephen K. (1976), Professor of History; Coordinator of Russian, East European Studies Consortium; B.A., Augsburg College; M.A., Ph.D., University of Minnesota

Bates, Dawn W. (1989), Associate Professor of English; B.A., Ph.D., University of Washington

Bates, Mary (1996), Professor of Art; B.F.A., Colorado State University; M.F.A., Indiana University

By, Wayne M. (1962), Professor Emeritus of General Business; B.S., Southwest Missouri State College; M.A., Northwestern University; Ph.D., University of Southern California

Bauer, Ernst (1990), Distinguished Research Professor of Physics and Astronomy; Diplom., Dr. rer. nat., University of Munich (Germany)

Bazzi, Rida (1996), Assistant Professor of Computer Science and Engineering; B.E., American University of Beirut (Lebanon); M.S., Ph.D., Georgia Institute of Technology

Beals, Stephen P. (1996), Adjunct Professor of Speech and Hearing Science; B.S., Calvin College; M.D., Wayne State University College of Medicine

Beardo, Gary D. (1979), Associate Research Technologist of Geology; B.A., Arizona State University

Bearup, Wylie K., Lt. Col. (1997), Professor Emeritus of Military Science; B.S., M.S., University of Arizona; Ph.D., University of Illinois

Beaudoin, Diane L. (1996), Lecturer of Chemical Engineering; B.S., University of Texas, Austin; Ph.D., North Carolina State University

Beaudoin, Stephen P. (1995), Assistant Professor of Chemical Engineering; B.S., Massachusetts Institute of Technology; M.S., University of Texas, Austin; Ph.D., North Carolina State University

Beck, Lasca (1984), Clinical Associate Professor of Nursing; B.S.N., Texas Woman’s University; M.S., Texas A&M University, Commerce

Becker, R. James (1965), Professor Emeritus of Public Affairs; B.S., M.A., Bradley University; Ph.D., University of Illinois

Beckman, James R. (1980), Associate Professor of Chemical Engineering; B.S., M.S., University of Wisconsin; Ph.D., University of Arizona

Bedard, Roger L. (1990), Professor of Theatre; B.A., University of Northern Iowa; M.F.A., University of Oregon; Ph.D., University of Kansas

Bedgood, Dan (1997), Lecturer of Chemistry and Biochemistry; B.S., George Mason University; Ph.D., Montana State University

Bedient, Jack D. (1963), Professor Emeritus of Mathematics; A.B., Albion College; M.B.S., Ed.D., University of Colorado

Bedworth, David D. (1963), Professor Emeritus of Industrial Engineering; B.S.I.E., Lamar College of Technology; M.S.I.E., Ph.D., Purdue University

Beegs, Donald (1999), Lecturer, Craig and Barbara Barrett Honors College; A.B., University of California, Berkeley; Ph.D., University of California, Santa Cruz

Behrens, John T. (1994), Associate Professor of Psychology in Education; B.A., University of Notre Dame; M.A., Ph.D., Arizona State University

Bell, George H. (1976–82; 1989), Librarian, Noble Science Reference Services; B.A., William Paterson College; M.L.S., Pratt Institute

Bell, James W. (1966), Professor Emeritus of Secondary Education; A.B., Washburn University of Topeka; M.Ed., Ed.D., University of Kansas

Bell, Janet L. (1994), Assistant Professor of Social Work; B.A., Queens College, City University of New York; M.S.W., Arizona State University; Ph.D., Case Western Reserve University

Bell, John E. (1965), Professor Emeritus of Secondary Education; B.S., University of Nebraska, Lincoln; M.A., Ed.D., University of Wyoming

Bell, Mary E. (1970), Professor Emeritus of Education; B.S., Indiana State Teachers College; M.S., Butler University; Ed.D., Indiana University, Bloomington

Bell, Shirley (1988), Clinical Associate Professor of Nursing; B.S.N., University of Cincinnati; M.S.N., Wayne State University; Ed.D., West Virginia University

Bellamy, Lynn (1976), Professor Emeritus of Engineering; B.S., Texas A&M University; M.S., Ph.D., Tulane University
Belok, Michael V. (1959), Professor Emeritus of Education; B.S., Indiana University, Bloomington; M.A., Arizona State University; Ph.D., University of Southern California
Benavides, Alfredo H. (1988), Associate Professor of Multicultural Education; B.A., Texas A&M University; M.A., Ph.D., Michigan State University
Bender, Bert A. (1971), Professor of English; B.A., University of Washington; Ph.D., University of California, Irvine
Bender, Gordon L. (1953), Professor Emeritus of Biology; B.S., Iowa State College; M.S., University of Wisconsin; Ph.D., University of Illinois
Bender, Paul (1984), Professor of Law; A.B., LL.B., Harvard University
Benedict, Joel A. (1946), Professor Emeritus of Education; B.A., M.A., Arizona State University; Ed.D., Stanford University
Benin, David B. (1970), Associate Professor of Physics and Astronomy; A.B., Cornell University; M.A., Ph.D., University of Rochester
Benin, Mary B. (1979), Associate Professor of Sociology; B.A., Vanderbilt University; M.A., Ph.D., University of Nebraska, Lincoln
Bennett, Eldean (1970), Professor Emeritus of Journalism and Telecommunication; B.A., Brigham Young University; M.A., Ph.D., Michigan State University
Bennett, Peter A. (1984), Professor of Physics and Astronomy; B.A., University of Minnesota, Duluth; Ph.D., University of Wisconsin, Madison
Benzinger, Robert P. (1970), Professor Emeritus of Design; B.S.M.E., University of Wisconsin, Madison; M.A.E., Chrysler Institute of Engineering
Berch, Michael A. (1969), Professor of Law; B.A., J.D., Columbia University
Berens, Michael E. (1995), Adjunct Faculty of Biology; B.S., Arizona State University; Ph.D., University of Arizona
Berliner, David C. (1987), Regents’ Professor of Educational Leadership and Policy Studies and Psychology in Education; Dean, College of Education; B.A., University of California, Los Angeles; M.A., California State University, Los Angeles; Ph.D., Stanford University
Berman, David R. (1966), Professor of Political Science; B.A., Rockford College; M.A., Ph.D., American University
Berman, Neil S. (1964), Professor of Chemical Engineering; B.S., University of Wisconsin; M.S., Ph.D., University of Texas
Bernal, Martha E. (1986), Professor Emeritus of Psychology; B.A., University of Texas, El Paso; M.A., Syracuse University; Ph.D., Indiana University, Bloomington
Bernard, Stephen Z. (1994), Faculty Associate of Construction; B.S., Arizona State University
Bernardi, Jose (1995), Associate Professor of Design; B.Arch., National University of Cordoba; M.S., University of Cincinnati
Bernier, Allen (1995), Lecturer of Spanish; B.A., University of Wisconsin, Oshkosh; M.A., Arizona State University
Bernstein, Bianca L. (1987), Professor of Counseling Psychology and Counselor Education; Dean, Graduate College; B.A., University of California, Berkeley; M.Ed., Ph.D., University of California, Santa Barbara
Bernstein, Mary (1997), Assistant Professor of Justice Studies; B.A., Middlebury College; M.A., Ph.D., New York University
Bertelsen, Wendie R. (1964), Professor Emeritus of Architecture; B.Arch., University of Michigan; M.Arch., University of Arizona
Bertrand, Cheryl (1996), Administrative Assistant of Military Science; B.A.E., Arizona State University
Bessom, Richard M. (1968), Professor Emeritus of Marketing; A.B., Cornell University; M.B.A., Stanford University; Ph.D., University of Washington
Betz, M. Austin (1974), Professor Emeritus of Education; B.S., Lock Haven State College; M.Ed., Pennsylvania State University; M.A.T., Brown University; M.A., Ph.D., University of Illinois
Betz, Mathew J. III (1961), Professor Emeritus of Engineering; B.S., M.S., Ph.D., Northwestern University
Bhattacharya, Sourav (1996), Associate Professor of Computer Science and Engineering; B.E., Jadavpur University (India); M.Tech., Indian Institute of Technology (India); M.S., University of Southwestern Louisiana; Ph.D., University of Minnesota
Bhattacharjee, Anol (1999), Assistant Professor of Computer Information Systems; B.S., Indian Institute of Technology (India); M.B.A., Ph.D., University of Houston
Biblarz, Dora (1980), Librarian; Associate Dean, Continuous Improvement/Total Quality Service; Acting Associate Dean, Video Resources; B.A., M.L.S., University of California, Los Angeles; M.A., University of California, Davis
Bickford, William B. (1966), Professor Emeritus of Engineering; B.S., M.S., Kansas State University; Ph.D., University of Illinois
Bieber, Allan L. (1963), Professor of Chemistry and Biochemistry; Director, Interdisciplinary Committee on Molecular and Cellular Biology; B.S., M.S., North Dakota State University; Ph.D., Oregon State University
Bingham, Scott (1989), Associate Research Scientist of Plant Biology; B.S., Brown University; Ph.D., Brandeis University
Bird, Jonathan Paul (1997), Associate Professor of Electrical Engineering; B.Sc., D.Phil., University of Sussex (United Kingdom)
Birge, Edward A. (1972), Associate Professor of Microbiology; Chair, Department of Microbiology; Codirector, Molecular Biosciences/Biotechnology; B.A., Ph.D., University of Wisconsin, Madison
Birk, James P. (1973), Professor of Chemistry and Biochemistry; B.A., Saint John’s University; Ph.D., Iowa State University
Birther, Craig R. (1987), Assistant Research Specialist, Electrical Engineering; B.S.E., M.S., Arizona State University
Bitner, Mary Jo (1987), Professor of Marketing; B.A., M.B.A., Ph.D., University of Washington
Bitter, Gary G. (1970), Professor of Curriculum and Instruction and Psychology in Education; B.S., Kansas State University; M.A., Kansas State Teachers College; Ph.D., University of Denver
Bivona, Daniel (1996), Associate Professor of English; Chair, Department of English; B.A., University of Connecticut; M.A., Northwestern University; Ph.D., Brown University
Bjork, Robert E. (1983), Professor of English; Director, Arizona Center for Medieval and Renaissance Studies; B.A., Pomona College; M.A., Ph.D., University of California, Los Angeles
Blackham, Garth J. (1962), Professor Emeritus of Counselor of Education; B.S., M.S., Utah State University; Ph.D., Cornell University

Blackledge, Vernon O. (1969), Professor Emeritus of Computer Science and Engineering; B.S.E.E., University of Illinois; M.S.E.E., University of Santa Clara; Ph.D., Arizona State University

Blackson, Thomas (1995), Associate Professor of Philosophy; B.A., DePauw University; Ph.D., University of Massachusetts

Blair, Sampson Lee (1995), Associate Professor of Sociology; B.S., M.S., Virginia Polytechnic Institute; Ph.D., Pennsylvania State University

Blakemore, Arthur E. (1979), Professor of Economics; Chair, Department of Economics; B.S., M.A., University of Detroit; Ph.D., Southern Illinois University, Carbondale

Blancero, Donna (1993), Assistant Professor of Management; B.S., College of Old Westbury; M.S., New York Institute of Technology; Ph.D., Cornell University

Blanchard, Jay S. (1988), Professor of Education; M.S.T., Drake University; Ph.D., University of Georgia

Blankenship, Robert E. (1985), Professor of Chemistry and Biochemistry; B.S., Nebraska Wesleyan College; Ph.D., University of California, Berkeley

Blasko, Vincent J. (1980), Associate Professor of Marketing; B.S., M.B.A., Arizona State University; Ph.D., University of Texas, Austin

Bloom, Irene (1997), Lecturer of Mathematics; B.A., M.S., University of Miami

Blouin, Deborah K. (1971), Associate Librarian, Hayden Reference Services; B.A., Cedar Crest College; M.L.S., State University of New York, Albany

Blount, Douglas J. (1990), Associate Professor of Mathematics; B.S., M.S., Ph.D., University of Wisconsin, Madison

Blumenfeld-Jones, Donald (1990), Associate Professor of Curriculum and Instruction; B.A., Rutgers, The State University; M.F.A., Ed.D., University of North Carolina, Greensboro

Boatsman, James R. (1986), Peat Marwick Professor of Accountancy; B.S., M.S., Oklahoma State University; Ph.D., University of Texas, Austin

Boatsman, Joyce L. (1996), Lecturer of Accountancy; B.S., Oklahoma State University; M.Tax., Arizona State University

Bodell, Leonard S. (1992), Adjunct Professor of Anthropology; B.A., Hobart and William Smith Colleges; M.D., New York Upstate Medical Center

Bodman, Denise (1996), Lecturer of Family Resources and Human Development; B.S., M.S., Arizona State University

Boetto, Laurel B. (1956), Professor Emeritus of Education; B.A., M.A., Arizona State University

Bogardus, Clifton (1992), Adjunct Professor of Biology; M.D., University of Rochester

Bogart, Quentin J. (1970), Professor Emeritus of Educational Leadership and Policy Studies; B.A., M.S., Fort Hayes State College; Ph.D., University of Texas, Austin

Boggs, Lohnie J. (1959–65, 1966), Professor Emeritus of General Business; B.S., M.S., Ph.D., Ohio State University

Bohlander, George W. (1977), Professor of Management; B.A., San Francisco State College; M.B.A., University of Southern California; Ph.D., University of California, Los Angeles

Bohman, Herbert M. (1964), Associate Professor of Legal and Ethical Studies; B.A., B.S., Drake University; M.B.A., I.D., Indiana University

Bolin, Robert (1997), Professor of Sociology; B.A., Ph.D., University of Colorado

Bolton, Cynthia J. (1997), Lecturer of Philosophy; B.G.S., University of Michigan; M.A., Ph.D., Michigan State University

Bonanni, Domenico (1997), Assistant Librarian, Hayden Reference Services; B.A., University of Alberta (Canada); B.A., Arizona State University; M.L.S., Dalhousie University (Canada)

Booksh, Karl S. (1996), Assistant Professor of Chemistry and Biochemistry; B.S., University of Alaska; Ph.D., University of Washington

Booth, James R. (1980), Professor of Finance; B.S., M.A., Ph.D., University of Alabama

Borgo, Philip E. (1967), Professor Emeritus of Engineering; B.S.C.E., University of Cincinnati; M.S., Ohio State University

Borovansky, Vladimir R. (1968), Librarian, Collection Development; M.L.S., Ph.D., Charles University, Prague (Czechoslovakia)

Bortner, M.A. (1979), Associate Professor of Justice Studies; B.A., Edinboro State College; M.A., Ohio University; Ph.D., Washington University

Bosen, Karen (1997), Assistant Instructional Professional of Recreation Management and Tourism; B.A., Washington State University

Boswell, Jacquelyn (1982), Professor Emeritus of Music; B.M.E., Murray State University; M.M.E., Louisiana State University; Ed.D., University of Illinois

Boulin Johnson, Leanor (1987), Associate Professor of Family Resources and Human Development; Director, African American Studies; B.S., East Tennessee State University; M.S., Ph.D., Purdue University

Boye, Frederick J. (1998), Adjunct Professor of Anthropology; B.S., University of Notre Dame; M.A., Ph.D., University of California, Los Angeles

Bowers, Charles O. (1948), Professor Emeritus of Music; B.S., Southeast Missouri State College; M.M., D.M.A., University of Rochester

Boyd, Brian (1996), Associate Professor of Management; Director, M.B.A. High Technology Program; B.S., Suffolk University; M.A., University of Connecticut; Ph.D., University of Southern California

Boyd, James H. (1976), Professor of Accountancy; B.B.A., Texas Christian University; M.S., Northeastern University; Ph.D., University of Texas, Austin; C.P.A., Texas

Boyer, Don L. (1988), Professor of Mechanical and Aerospace Engineering; Chair, Department of Mechanical and Aerospace Engineering; B.S., Renssealaer Polytechnic Institute; Ph.D., Johns Hopkins University

Boyer, Jay M. (1976), Professor of English; B.A., Saint Louis University; M.A., Ph.D., State University of New York, Buffalo

Boyes, William J. (1974), Professor of Economics; B.S., Idaho State University; Ph.D., Claremont Graduate School
Boyle, Bernard M. (1969), Professor Emeritus of Architecture; B.Arch., University of Sydney (Australia); M.Arch., M.A., Ph.D., Yale University

Brack, O M Jr. (1973), Professor of English; B.A., M.A., Baylor University; Ph.D., University of Texas, Austin

Brada, Josef C. (1978), Professor of Economics; Director, International Business Studies; B.S., M.A., Tufts University; Ph.D., University of Minnesota, Twin Cities

Bramlett-Solomon, Sharon (1986), Associate Professor of Journalism and Telecommunication; B.A., M.A., Memphis State University; Ph.D., Indiana University, Bloomington

Brandon, Todd A. (1981), Senior Research Professional, Bioengineering; Director, Animal Care Facility; B.S., University of California, Davis

Brandt, Beverly K. (1987), Associate Professor of Design; B.F.A., University of Michigan; M.A., Michigan State University; Ph.D., Boston University

Brandt, Elizabeth A. (1974), Professor of Anthropology; B.A., Florida State University; M.A., Ph.D., Southern Methodist University

Brannon, J. Jay (1973), Professor of Psychology; B.A., University of Oregon; M.A., Ph.D., Ohio State University

Braver, Sanford L. (1970), Professor of Psychology; B.A., Wayne State University; Ph.D., University of Michigan

Bray, Sandra (1987), Associate Librarian, Acquisitions/Bibliographic Records Department; B.A., Ottawa University; M.L.S., Indiana University, Bloomington

Brazel, Anthony J. (1974), Professor of Geography; B.A., M.A., Rutgers, The State University; Ph.D., University of Michigan

Breckenridge, Jack D. (1962), Professor Emeritus of Art; B.S., University of Wisconsin, Milwaukee; M.F.A., University of Iowa

Brem, Sarah Kate (1999), Assistant Professor of Psychology in Education; A.B., University of Chicago; M.S., Ph.D., Northwestern University

Bremner, Andrew (1984), Professor of Mathematics; B.A., M.A., University of Oxford (United Kingdom); Ph.D., University of Cambridge (United Kingdom)

Brezenstuhl, Daniel C. (1978), Associate Professor of Management; B.S., M.B.A., Ohio University; M.S., St. Bonaventure University; D.B.A., Indiana University

Brennan, Patrick (1996), Associate Professor of Law; B.A., Yale University; M.A., University of Toronto; J.D., University of California, Berkeley

Briggs, John M. (1999), Associate Professor of Plant Biology; B.S., M.Sc., Pittsburgh State University; Ph.D., University of Arkansas

Briley, Lane D. (1970), Associate Research Professional of Chemistry and Biochemistry; B.A., Arizona State University

Brilleslyper, Michael A. (1994), Senior Lecturer of Mathematics; First Year Mathematics Coordinator; B.S., M.A., Arizona State University; Ph.D., University of Arizona

Brillhart, Barbara (1996), Associate Professor of Nursing; B.S.N., M.S.N., California State University, Los Angeles; Ph.D., Texas Woman’s University

Brink, Jean R. (1974), Professor of English; B.A., Northwestern University; M.A., Harvard University; Ph.D., University of Wisconsin, Madison

Brink, Jean R. (1976), Professor of Art; B.F.A., M.F.A., University of Colorado

Britton, Daniel R. (1976), Professor of Art; B.F.A., M.F.A., University of Colorado

Britton, David (1987), Professor of Music; B.M., North Texas State University

Broadley, Hugh T. (1969), Professor Emeritus of Art; A.B., Park College; M.A., Yale University; Ph.D., New York University

Brooks, Daniel G. (1981), Associate Professor of Decision Analysis; Director, Executive M.B.A. Program; B.S., M.S., Colorado School of Mines; M.B.A., Ph.D., Indiana University, Bloomington

Broome, Benjamin J. (1999), Professor of Communication; B.A., University of Georgia; M.A., Ph.D., University of Kansas

Brose, Marianna F. (1963), Professor Emeritus of English; B.A., College of William and Mary; Diploma, Royal Academy of Dramatic Art (United Kingdom); M.A., Arizona State University

Brown, Alan R. (1968), Associate Professor of Education; B.A., M.A., California State University, Los Angeles; Ph.D., University of Texas, Austin

Brown, Brent W. (1972), Associate Professor of Public Affairs; B.A., Brigham Young University; M.A., Arizona State University; Ph.D., University of Illinois

Brown, Claudia (1998), Assistant Professor of Art; B.A., M.A., M.Phil., Ph.D., University of Kansas

Brown, David E. (1993), Adjunct Professor of Biology; B.A., San Jose State College

Brown, Duane (1950), Professor Emeritus of Chemistry and Biochemistry; B.S., Brigham Young University; Ph.D., Cornell University

Brown, Jean C. (1991), Clinical Associate Professor of Speech and Hearing Science; B.S., University of Montevallo; M.A., University of Tennessee; M.S.W., Arizona State University

Brown, Stephen W. (1974), Professor of Marketing; Edward M. Carson Chair of Services Marketing; Director, Center for Services Marketing and Management; B.S., M.B.A., Ph.D., Arizona State University

Brown, Theodore M. (1963), Professor Emeritus of Chemistry and Biochemistry; B.S., M.S., University of Toledo; Ph.D., Iowa State University

Brown, William A. (1999), Assistant Professor of Recreation Management and Tourism; B.S., Northeastern University; M.A., Ph.D., Claremont Graduate University

Broyles, Susan M. (1984), Librarian; B.A., Florida State University; M.L.S., Louisiana State University

Bruhn, Karen (1998), Lecturer, Craig and Barbara Barrett Honors College; Faculty Chair, Craig and Barbara Barrett Honors College; B.A., City University of New York; M.A., Ph.D., University of North Carolina, Chapel Hill

Brune, Daniel C. (1986), Associate Research Professional of Chemistry and Biochemistry; B.A., University of Kansas; Ph.D., Indiana University, Bloomington

Brunning, Dennis R. (1984), Librarian, Collection Development; B.A., University of Iowa; M.A., M.L.S., University of Illinois

Brungs, Gilbert H. (1974), Professor Emeritus of Justice Studies; B.S., M.Ed., South Dakota State University; Ed.D., Arizona State University

Brunson-Hadley, Judy L. (1998), Adjunct Professor of Anthropology; B.A., M.A., Ph.D., Arizona State University
Bash, Thomas A. (1998), Assistant Professor of Educational Technology; B.A., M.S., Potsdam College of SUNY; Ph.D., Indiana University
Bryan, Harvey (1999), Associate Professor of Architecture; B.Arch., Arizona State University; M.Arch., M.Sc., Ph.D., University of California Berkeley
Bryan, Karen M. (1997), Assistant Professor of Music; Coordinator of Undergraduate Academic Advisement; B.M., Georgia State University, Atlanta; M.A., University of Georgia, Atlanta; Ph.D., Indiana University, Bloomington
Bryan, Tanis (1992), Adjunct Professor of Speech and Hearing Science; B.S., M.A., Ph.D., Northwestern University
Bryan, Fred O. (1999), Associate Professor of Exercise Science and Physical Education; B.S., Springfiel College; M.S., University of Illinois; Ed.D., Arizona State University
Bruzzy, Stephanie (1995), Assistant Professor of Social Work; B.S.W., Indiana University, Bloomington; M.S.W., University of Illinois, Urbana-Champaign; Ph.D., Ohio State University
Buckingham, Willis J. (1969), Professor Emeritus of English; A.B., Harvard University; M.S., University of Wisconsin, Madison; Ph.D., Indiana University
Buley, Jerry L. (1973), Associate Professor of Communication; B.A., University of Colorado; M.A., Michigan State University; Ph.D., Florida State University
Burdick, Richard K. (1976), Professor of Statistics; B.S., University of Wyoming; M.S., Ph.D., Texas A&M University
Burg, B. Richard (1967), Professor of History; B.A., University of Colorado; M.A., Western State College of Colorado; Ph.D., University of Colorado
Burgess, Paul L. (1969), Professor of Economics; B.A., Ph.D., University of Colorado
Burgoyne, Edward E. (1951), Professor Emeritus of Chemistry and Biochemistry; B.S., Utah State University; M.S., Ph.D., University of Wisconsin, Madison
Burke, Janet M. (1996), Lecturer, Craig and Barbara Barrett Honors College; Associate Dean, Craig and Barbara Barrett Honors College; B.A., Wells College; M.A., Syracuse University; Ph.D., Arizona State University
Burke, Rebecca J. (1981), Librarian; Head, Government Documents/Map Collection; B.A., San Jose State University; M.L.S., University of Arizona
Burkett, Lee N. (1974), Professor of Exercise Science and Physical Education; B.A., M.A., San Diego State University; Ph.D., Washington State University
Burnham, Maralou E. (1988), Assistant Research Scientist, Center for Advanced Research in Transportation; B.A., University of Southern California; M.A., Ph.D., Arizona State University
Burns, Elizabeth K. (1983), Professor of Geography; Director, Center for Advanced Transportation Research; B.A., Smith College; M.A., Ph.D., University of California, Berkeley
Burrows, Veronica (1986), Associate Professor of Chemical Engineering; B.S., Drexel University; Ph.D., Princeton University
Burstein, David (1982), Professor of Physics and Astronomy; B.A., Wesleyan University; Ph.D., University of California, Santa Cruz
Burstein, Karen (1998), Lecturer of Curriculum and Instruction; B.A.E., M.A., Ph.D., Arizona State University
Burt, Donald M. (1974), Professor of Geology; A.B., Princeton University; A.M., Ph.D., Harvard University
Burtch, Mark (1997), Lecturer of Mathematics; B.S., Angelo State University; M.S., University of North Texas; Denton
Burton, Dora (1976), Assistant Professor of Russian; M.D., First Leningrad and Kazan Medical Institute (Russia); M.A., Ph.D., University of Washington
Burton, Foster M. (1969), Professor Emeritus of Construction; B.S.C.E., B.S., Carnegie Institute of Technology; M.B.A., New York University; Ph.D., University of Pittsburgh
Butseck, Peter R. (1963), Regents’ Professor of Chemistry and Biochemistry and Geology; B.A., Antioch College; M.A., Ph.D., Columbia University
Bush, Jeffrey E. (1997), Assistant Professor of Music Education; B.M., M.M., Northern Illinois University, De Kalb; Ph.D., University of Arizona
Bustoz, Joaquin (1973), Associate Professor of Speech and Hearing Science; B.S., M.A., Ph.D., University of Wisconsin, Madison
Cabby, William A. (1967), Professor Emeritus of Counselor Education; B.Ed., Gonzaga University; M.Ed., Ph.D., Washington State University
Cady, Linell E. (1983), Professor of Religious Studies; Associate Dean, Administration and Personnel, College of Liberal Arts and Sciences; B.A., Newton College; M.T.S., Th.D., Harvard University
Cafarella, Robert J. (1991), Faculty Associate of Planning and Landscape Architecture; B.S., Northeastern University; M.U.P., New York University
Cage, Gary (1998), Faculty Associate of Microbiology; B.S., M.S., Arizona State University
Calkins, Jerry M. (1992), Adjunct Professor of Bioengineering; B.S.Ch.E., M.S.Ch.E., University of Wyoming; Ph.D., University of Maryland, College Park; M.D., University of Arizona
Callarman, Thomas E. (1980), Associate Professor of Management; Associate Dean, Student Support Services, Graduate College; B.B.A., West Texas State University; M.B.A., Arizona State University; Ph.D., Purdue University
Calleros, Charles R. (1980), Professor of Law; B.A., University of California, Santa Cruz; J.D., University of California, Davis
Cameron, Theresa (1997), Assistant Professor of Planning and Landscape Architecture; B.A., State University of New York, Buffalo; M.U.P., University of Michigan; D.Des., Harvard University
Campbell, Ashley (1990), Faculty Associate of Planning and Landscape Architecture; B.A., Trinity College; M.P.A., Arizona State University
Campbell, Gary L. (1997), Fine Arts Specialist; B.A., M.F.A., University of Southern California
Campbell, Heather E. (1991), Associate Professor of Public Affairs; B.A., University of California, San Diego; M.Phil., Ph.D., Carnegie-Mellon University
Carrington, Jane M. (1995), Faculty Associate of Nursing; B.S.N., Arizona State University; M.S.N., University of Pennsylvania

Carroll, Kevin K. (1975), Associate Professor of History; B.A., Canisius College; M.A., Ph.D., Harvard University

Carroll, Steven (1985), Associate Professor of Biology; B.S., Tulane University; M.S., Oregon State University; Ph.D., University of Oregon

Carter, Joseph R. (1991), Professor of Supply Chain Management; Chair, Department of Supply Chain Management; National Association of Purchasing Management Professor; B.S., M.B.A., Northeastern University; Ph.D., Boston University

Carter, Phillip L. (1995), Professor of Supply Chain Management; Harold E. Fearon Chair, Purchasing Management; Director, Center for Advanced Purchasing Studies; B.S.E.E., Rose-Hulman Institute of Technology; M.B.A., D.B.A., Indiana University

Carver, George L. (1965), Professor Emeritus of Classical Languages; B.A., M.A., University of Texas, Austin; S.T.B., Saint Mary’s Seminary; Ph.D., Saint Louis University

Casanova, Ursula (1987), Associate Professor of Educational Leadership and Policy Studies; B.A., Hunter College; M.S., State University of New York, Brockport; Ph.D., Arizona State University

Casavantes, Michael D. (1990), Lecturer of Journalism and Telecommunication; B.A., University of Texas, El Paso; M.A., New Mexico State University

Case, James L. (1969), Professor of Speech and Hearing Science; Director of Clinical Services; B.S., Weber State College; M.S., Ph.D., University of Utah

Cassidy, Virginia L. (1988), Librarian Emeritus; A.B., Oberlin College; M.L.S., Pratt Institute

Castaneda, Eddie (1990), Associate Professor of Psychology; B.S., University of Texas, El Paso; Ph.D., University of Michigan

Castle, Gregory (1992), Associate Professor of English; B.A., California State University, Fresno; M.A., Ph.D., University of California, Los Angeles

Castro, Felipe G. (1991), Professor of Psychology; B.A., University of California, Santa Barbara; M.S.W., University of California, Los Angeles; Ph.D., University of Washington

Caudle, M. Tyler (1997), Assistant Professor of Chemistry and Biochemistry; B.S., University of North Carolina, Charlotte; Ph.D., Duke University

Cavanaugh, Ellen May (1995), Faculty Associate of Nursing; B.S.N., University of Phoenix; M.S., University of Arizona

Cavender, Gray (1977), Professor of Justice Studies; B.S., University of Tennessee; M.S., Middle Tennessee State University; Ph.D., Florida State University; J.D., University of Tennessee, Knoxville

Cavinato, Joseph L. (2000), Adjunct Professor of Supply Chain Management; B.S., B.A., M.B.A., American University; Ph.D., Pennsylvania State University

Cayer, N. Joseph (1980), Professor of Public Affairs; B.A., M.P.A., University of Colorado; Ph.D., University of Massachusetts, Amherst

Cerveny, Randall S. (1986), Associate Professor of Geography; B.S., M.A., Ph.D., University of Nebraska, Lincoln

Cesarotti, Evelyn L. (1992), Assistant Professor of Nursing; B.S.N., University of West Florida; M.S., Ph.D., University of Arizona

Costa, John R. (1975), Associate Professor of Finance; B.S., Capital University; M.B.A., Ph.D., Florida State University
Chavez, John K. (1985), Associate Professor of Biology; B.S., University of Arizona; M.A., University of Connecticut; Ph.D., University of California, Los Angeles

Chen, Kang Ping (1991), Associate Professor of Engineering; B.S., Peking University (China); Ph.D., University of Minnesota, Twin Cities

Chen, Nai-Kuang (1998), Assistant Professor of Computer Information Systems; B.B.A., Soochow University (Taiwan); M.S., George Washington University; Ph.D., University of Connecticut

Chen, Stanley S. (1967), Professor Emeritus of Engineering; Diploma, Taipei Institute of Technology (Taiwan); M.S., Ohio University; Ph.D., University of Wisconsin, Madison

Chenoweth, Timothy (1996), Assistant Professor of Computer Information Systems; B.S., U.S. Coast Guard Academy; M.B.A., Ph.D., Washington State University

Childress, Nancy (1991), Associate Professor of Mathematics; B.S., B.S.Ed., M.S., Ph.D., Ohio State University

Chilton, Leslie Anne (1998), Academic Associate, Division of Undergraduate Academic Services; Coordinator, Student Success Curriculum; B.A., M.A., Ph.D., Arizona State University

Chistowa, Xenia (1980), Professor Emeritus of Dance

Choi, Hyeana (1998), Assistant Professor of Korean; B.A., M.A., Yonsei University (Korea); Ph.D., State University of New York, Buffalo

Choi, JuHoong (1989), Assistant Research Engineer, Telecommunication Research Center; B.S., Han-Yang University (South Korea); M.S., Ph.D., Ohio State University

Choi, Kwan-Yiu (1987), Assistant Research Scientist, Center for Solid-State Electronics Research; B.S., The Chinese University of Hong Kong (Hong Kong); M.S., Rutgers, The State University; Ph.D., Arizona State University

Choi, Thomas (1998), Associate Professor of Management and Supply Chain Management; A.B., University of California, Berkeley; Ph.D., University of Michigan

Chou, Ju-Hsi (1975), Professor Emeritus of Art; B.A., University of Kentucky; M.A., Ph.D., Princeton University

Christensen, George (1975), Professor Emeritus of Architecture; B.Arch., Illinois Institute of Technology

Christensen, Philip R. (1987), Professor of Geology; B.S., M.S., Ph.D., University of California, Los Angeles

Christian, Charles W. (1985), Associate Professor of Accountancy; B.B.A., University of Georgia; J.D., University of Virginia; Ph.D., University of Georgia

Christie, James F. (1988), Professor of Reading Education; B.A., University of California, Berkeley; M.A., Syracuse University; Ph.D., Claremont Graduate School

Christine, Carol J. (1998), Clinical Assistant Professor of Curriculum and Instruction; B.A.; M.A., Arizona State University; Ph.D. University of Arizona

Christine, Ray O. (1958), Professor Emeritus of Elementary Education; A.B., A.M., Northern Colorado University; Ed.D., Arizona State University
Christopher, F. Scott (1986), Professor of Family Resources and Human Development; B.S., M.S., University of Nebraska; Ph.D., Oregon State University

Chubrich, Robert E. (1971), Professor Emeritus of Speech and Hearing Science; B.A., Grinnell College; M.A., Indiana University, Bloomington; Ph.D., State University of New York, Buffalo

Church, Kathleen K. (1969), Professor of Biology; Vice Provost, Office of the Senior Vice President and Provost; B.S., M.A., University of Utah; Ph.D., University of California, Berkeley

Cialdini, Robert B. (1971), Regents’ Professor of Psychology; B.S., University of Wisconsin, Milwaukee; M.A., Ph.D., University of North Carolina, Chapel Hill

Ciaiborn, Charles D. (1990), Professor of Counseling Psychology and Counselor Education; A.B., University of Missouri; M.A., Ohio State University; Ph.D., University of Missouri

Clark, Geoffrey A. (1971), Professor of Anthropology; B.A., M.A., University of Arizona; Ph.D., University of Chicago

Clark, James C. (1978), Associate Research Professional of Chemistry and Biochemistry

Clark, Robert C. (1981), Professor Emeritus of Music; B.Mus., Central Methodist College; S.M.M., Union Theological Seminary

Clark, William Dennis (1976), Associate Professor of Plant Biology; B.A., Sacramento State College; Ph.D., University of Texas, Austin

Clarke-Steffen, Laura (1994), Assistant Professor of Nursing; B.S.N., M.S., University of Missouri, Columbia; Ph.D., Oregon Health Sciences University

Clay, J. Eugene (1993), Associate Professor of Religious Studies; A.B., A.M., Ph.D., University of Chicago

Clewlow, Paul J. (1988), Faculty Research Associate, Cancer Research Institute; B.S., University of Leicester (United Kingdom); Ph.D., University College (United Kingdom)

Clinton, Steven R. (1999), Assistant Professor of Supply Chain Management; B.A., University of Wisconsin, Madison; M.A., University of South Carolina; M.S., University of Wisconsin, Milwaukee; Ph.D., Michigan State University

Clothier, Ronald R. (1955), Professor Emeritus of Biology; A.B., Fresno State College; M.A., Montana State University; Ph.D., University of New Mexico

Cluff, Gordon L. (1963), Professor Emeritus of Speech and Hearing Science; B.A., Arizona State University; M.S., Ph.D., Southern Illinois University

Cobas, José A. (1975), Professor of Sociology; B.A., Maryville College; M.A., University of Tennessee, Knoxville; Ph.D., University of Texas, Austin

Cocchiarella, Martha (1998), Lecturer of Curriculum and Instruction; B.A., M.Ed., Ph.D., Arizona State University

Cochran, Douglas (1989), Associate Professor of Electrical Engineering; M.A., University of California, San Diego; Ph.D., Harvard University

Cochran, Jeffery K. (1984), Associate Professor of Industrial Engineering; B.S.E., M.S.N.E., M.S.I.E., Ph.D., Purdue University

Cochran, John A. (1962), Professor Emeritus of Economics; A.B., Drake University; A.M., Ph.D., Harvard University

Cocke, Robert D. (1983), Associate Professor of Art; B.F.A., University of Arizona; M.A., M.F.A., University of Iowa

Codell, Julie F. (1991), Professor of Art; Director, School of Art; A.B., Vassar College; M.A., University of Michigan; M.A., Ph.D., Indiana University, Bloomington

Coughlan, William A. (1990), Adjunct Associate Professor of Engineering; B.S., Montana College of Mineral Science and Technology; M.S., Ph.D., Stanford University

Cogley, Timothy (1999), Associate Professor of Economics; A.B., Ph.D., University of California, Berkeley

Cohen, Herbert G. (1978), Associate Professor of Curriculum and Instruction; B.S., Muhlenberg College; M.A., Hofstra University; Ph.D., University of Iowa

Cohen, Stewart M. (1989), Professor of Philosophy; B.A., Wayne State University; M.A., University of California, Santa Barbara; Ph.D., University of Arizona

Cohn, Sanford J. (1979), Associate Professor of Special Education and Psychology in Education; B.A., M.Ed., Ph.D., Johns Hopkins University

Cokar-Molani, Tanseela (1997), Faculty Associate of Design; M.E.D., University of Calgary (Canada)

Colby, Arthur L. (1965), Professor Emeritus of English; B.A., University of Massachusetts, Amherst; M.A., Ph.D., University of North Carolina, Chapel Hill

Cole, V. Scott (1995), Faculty Associate of Construction; B.S., Arizona State University; M.S., Central Michigan University

Coles, Jeffrey L. (1994), Professor of Finance; B.A. Pomona College; Ph.D., Stanford University

Colina, Sonia (1997), Assistant Professor of Spanish; B.A., University of Compostela (Spain); M.A., Southern Illinois University, Carbondale; M.A., State University of New York, Binghamton; Ph.D., University of Illinois, Urbana-Champaign

Collins, Daniel L. (1989), Associate Professor of Art; B.A., University of California, Davis; M.A., Stanford University; M.F.A., University of California, Los Angeles

Collins, James P. (1975), Professor of Biology; Chair, Department of Biology; B.S., Manhattan College; M.S., Ph.D., University of Michigan

Collins, Michael (1996), Faculty Associate of Planning and Landscape Architecture; B.S., University of Southern California; M.E.P., Arizona State University

Collofello, James S. (1979), Professor of Computer Science and Engineering; B.S., M.S., Northern Illinois University; Ph.D., Northwestern University

Comeaux, Malcolm L. (1969), Professor of Geography; B.A., University of Southwestern Louisiana; M.A., Southern Illinois University, Carbondale; Ph.D., Louisiana State University, Baton Rouge

Comfort, Joseph R. (1981), Professor of Physics and Astronomy; A.B., Ripon College; M.S., Ph.D., Yale University

Conrad, Cheryl D. (1997), Assistant Professor of Psychology; B.S., University of California, Irvine; Ph.D., University of Illinois, Urbana-Champaign

Conrow, Jane A. (1968), Associate Dean, Library Services; B.A., M.L.S., Indiana University, Bloomington

Cook, Edward A. (1985), Associate Professor of Planning and Landscape Architecture; B.S.L.A., Washington State University; M.L.A., Utah State University

D’Angelo, Frank J. (1970), Professor Emeritus of English; B.S., Loyola University; New Orleans; M.A., Tulane University; Ph.D., University of Nebraska, Lincoln
Daane, Calvin J. (1963), Professor Emeritus of Counselor Education; B.S., University of Wisconsin, Madison; M.A., Columbia University; Ed.D., Indiana University, Bloomington
Dagge, Richard K. (1976), Professor of Political Science; B.A., University of Missouri, St. Louis; Ph.D., University of Minnesota, Twin Cities
Dahl, Richard C. (1966), Professor Emeritus of Law; B.A., B.L.S., University of California, Berkeley; J.D., Catholic University of America
Daley, Michael (1978), Professor of Social Work; B.S., Spring Hill College; M.S.W., Saint Louis University; M.S., University of Pittsburgh; D.S.W., Tulane University
Dalgleish, Donald D. (1962), Professor of Military Science; B.A., Carleton College; M.A., Columbia University; Ph.D., University of Colorado
Dallyn, Selwyn L. (1983), Clinical Professor of Law; B.A., Graceland College; J.D., University of Iowa
Dalton, Kevin Andrew (1994), Lecturer, Craig and Barbara Barrett Honors College; B.A., Columbia University; M.Phil., University of Oxford (United Kingdom); Ph.D., University of Virginia
Danrel, David W. (1997), Lecturer of Religious Studies; B.A., B.J., M.A., University of Texas, Austin; Ph.D., Duke University
Daniel, Norman E. (1970), Professor Emeritus of Supply Chain Management; B.S., M.S., University of Tennessee, Knoxville; Ph.D., Indiana University
Dannenfeldt, Karl H. (1956), Professor Emeritus of History; Dean Emeritus, College of Liberal Arts and Sciences; A.B., Valparaiso University; M.A., Indiana University; Ph.D., University of Chicago
Dantico, Marilyn (1981), Associate Professor of Political Science; B.A., University of Illinois; M.A., Ph.D., Florida State University
Darst, Paul W. (1976), Professor of Exercise Science and Physical Education; B.S., M.S., University of Akron; Ph.D., Ohio State University
Dasgupta, Partha (1991), Associate Professor of Computer Science and Engineering; B.Tech., M.Tech., Indian Institute of Technology (India); Ph.D., State University of New York, Stony Brook
Datta, Manjira (1995), Assistant Professor of Economics; B.A., M.A., Jadavpur University (India); Ph.D., Cornell University
Daufer, M. Robert (1990), Associate Clinical Professor of Law; Director of Mediation Clinic; B.A., University of California, Berkeley; J.D., Arizona State University
David, Julia Smith (1995), Assistant Professor of Accountancy; B.A., M.B.A., Ph.D., Michigan State University
Davidson, Elizabeth T. (1986), Research Associate Professor of Biology; B.S., Mount Union College; M.S., Ph.D., Ohio State University
Davidson, Joseph K. (1973), Professor of Engineering; B.M.E., M.Sc., Ph.D., Ohio State University
Davila, Eduardo (1998), Lecturer of Management; B.S., University of Illinois, Urbana-Champaign; M.B.A., Arizona State University
Davis, Frank S. (1978), Associate Research Professional of Chemistry and Biochemistry; B.S.E., Arizona State University
Davis, George R. (1980), Professor Emeritus of Electrical Engineering; B.S.E.E., M.S., University of Illinois; Ph.D., University of Arizona
Davis, Joseph M. (1975), Associate Professor of Real Estate; B.S., University of South Carolina; M.B.A., Texas A&I University; Ph.D., University of Georgia
Davis, Keith (1958), Professor Emeritus of Management; B.B.A., M.B.A., University of Texas; Ph.D., Ohio State University
Davis, Mary C. (1994), Assistant Professor of Psychology; B.S., University of Idaho; Ph.D., University of Pittsburgh
Davis, Olga Idriss (1998), Assistant Professor of Communication; B.S., University of Redlands; M.A., Ph.D., University of Colorado
Davis, Robert E. (1959), Professor Emeritus of Communication; B.A., M.A., Ph.D., University of Illinois
Davis, Thomas J. (1996), Professor of History; A.B., Fordham University; M.A., Ph.D., Columbia University; J.D., University of Buffalo, New York
Day, Thomas (1995), Associate Professor of Plant Biology; B.S., Colorado State University; M.S., University of Idaho; Ph.D., Colorado State University
De Jesús, Melinda (1999), Assistant Professor of Asian Pacific American Studies Program; B.A., Lehigh University; M.A., University of York (United Kingdom); Ph.D., University of California, Santa Cruz
de Marneffe, Peter (1989), Associate Professor of Philosophy; B.A., University of Massachusetts, Amherst; Ph.D., Harvard University

de Matties, Nicholas (1974), Associate Professor of Art; B.A., California State University, Long Beach; M.S., Illinois Institute of Technology

Deach, Dorothy F. (1967), Professor Emeritus of Physical Education; B.S., M.S., University of Illinois; Ph.D., University of Michigan

Deal, Clarice (1996), Instructor of Portuguese; B.A., Organização Santa Marense de Educação e Cultura, São Paulo (Brazil); M.Ed., Arizona State University

Dean, Arthur G. (1971), Professor Emeritus of Industrial Engineering; B.A., M.S., Texas Tech University; Ph.D., Texas A&M University

DeBano, Leonard F. (1983), Adjunct Associate Professor of Environmental Resources; B.S., Colorado State University; M.S., Utah State University; Ph.D., University of California, Berkeley

Debenport, Sylvia (1975), Professor Emeritus of Music; B.M.E., B.M., M.M., Indiana University, Bloomington

DeFato, Rosalinda (1990), Senior Research Administrator, Center for Advanced Research in Transportation; Manager, Technical Transportation Program; B.S.C.E., New Mexico State University

DeGraw, Bette F. (1986), Administrative Professional, College of Extended Education; Associate Professor of Public Affairs; Dean, College of Extended Education; Director, Downtown Center, College of Extended Education; B.A., Thiel College; M.S.W., Rutgers, The State University; D.P.A., Arizona State University

DeLamotte, Eugenia (1997), Associate Professor of English; A.B., Duke University; B.A., M.A., University of Oxford (United Kingdom); M.A., Ph.D., Harvard University

DeLibero, Joseph (1996), Lecturer of Computer Science and Engineering; B.S., Iona College; M.S., Purdue University

Dellheim, Charles J. (1980), Professor of History; Director, Interdisciplinary Humanities Program; B.A., State University of New York, Binghamton; M.A., Ph.D., Yale University

DeLorenzo, Lisa C. (1998), Assistant Professor of Public Affairs; B.A., M.A.U.A., Saint Louis University; M.A., M.P.P.A., Ph.D., University of Missouri, St. Louis

DeMars, James R. (1981), Professor of Music; B.A., Macalester College; M.A., Ph.D., University of Minnesota, Twin Cities

DeMassa, Thomas A. (1966), Professor Emeritus of Electrical Engineering; B.S.E.E., M.S.E.E., Ph.D., University of Michigan

Demeke, Howard J. (1962), Professor Emeritus of Education; A.B., San Francisco State College; M.S., Ed.D., University of Southern California

DeNardo, Dale (1998), Assistant Professor of Biology; B.S., D.V.M., University of California, Davis; Ph.D., University of California, Berkeley

Denhardt, Janet (1995), Professor of Public Affairs; B.A., Washington State University; M.P.A., Ph.D., University of Southern California

Denhardt, Robert (1999), Professor of Public Affairs; B.A., Western Kentucky University; M.A., Ph.D., University of Kentucky

DeSerpa, Allan C. (1975), Professor of Economics; B.A., University of Santa Clara; Ph.D., University of California, Santa Barbara

Dettie, Thomas (1984), Associate Professor of Design; B.F.A., M.F.A., Louisiana Tech University

Deviche, Pierre (1999), Associate Professor of Biology; B.S., Ph.D., University of Liege (Belgium)

Devlin, John (1998), Assistant Professor of Philosophy; B.A., University of Toronto (Canada); Ph.D., University of Michigan

Dey, Sandwip (1987), Professor of Materials Engineering; B.Tech., Banaras Hindu University (India); M.S., Ph.D., Alfred University

Dezelsky, Thomas L. (1968), Professor Emeritus of Exercise Science and Physical Education; B.S., Central Michigan University; M.A., University of Michigan; H.S.D., Indiana University, Bloomington

Di Gangi, Samuel (1990), Associate Professor of Special Education; B.A., University of Pittsburgh; M.Ed., Ph.D., Arizona State University

Dickerson, Sherry S. (1986), Faculty Associate of Public Affairs; B.S., Lamar University; M.P.A., Arizona State University

Dierig, David A. (1996), Adjunct Faculty of Plant Biology; B.S., M.S., Arizona State University; Ph.D., University of Arizona

Dietrich, Suzanne Wagner (1988), Associate Professor of Computer Science and Engineering; B.S., M.S., Ph.D., State University of New York, Stony Brook

Dirksen, Shannon Ruff (1996), Associate Professor of Nursing; B.S.N., Arizona State University; M.S., Ph.D., University of Arizona

Ditsworth, Richard L. (1959), Professor Emeritus of Engineering; B.S., M.S., Iowa State College; Ph.D., Michigan State University

Dittert, Alfred E. Jr. (1967), Professor Emeritus of Anthropology; B.A., M.A., University of New Mexico; Ph.D., University of Arizona

Doak, R. Bruce (1991), Professor of Physics and Astronomy; B.S., Cornell University; M.S., Ph.D., Massachusetts Institute of Technology

Doan, Jerry (1979), Professor of Music; B.M.E., M.M., North Texas State University; D.M.A., University of Michigan

Doane, Winifred W. (1979), Professor Emeritus of Biology; B.S., Hunter College; M.S., University of Wisconsin; Ph.D., Yale University

Doebler, Betty Anne (1971), Professor Emeritus of English; B.A., M.A., Duke University; Ph.D., University of Wisconsin

Doig, Stephen (1996), Professor of Journalism and Telecommunication; B.A., Dartmouth

Dollin, Michael (1989), Faculty Associate of Planning and Landscape Architecture; Coordinator, Joint Urban Design Program; Urban Designer, Joint Urban Design Studio; B.S.L.A., University of Arizona

Donelson, Kenneth L. (1965), Professor of English; B.A., M.A., Ph.D., University of Iowa

Dooley, Kevin (1997), Professor of Industrial Engineering and Management; B.S., M.S., Ph.D., University of Illinois, Urbana-Champaign
Edwards, John L. (1964), Professor Emeritus of Reading and Library Science; B.S., Ball State University; M.A., Ed.D., Arizona State University

Eeds, Maryann H. (1975), Professor Emeritus of Reading and Library Science; B.S., California State University, Sacramento; Ph.D., University of Oregon

Eisenberg, Nancy H. (1976), Regents’ Professor of Psychology; B.A., University of Michigan; M.A., Ph.D., University of California, Berkeley

Ekmanis, Rolfs (1963), Professor of Russian; B.A., M.A., University of Wisconsin, Madison; Ph.D., Indiana University, Bloomington

El-Ghazaly, Samir M. (1988), Professor of Electrical Engineering; B.S.E.E., M.S., Cairo University (Egypt); Ph.D., University of Texas, Austin

El-Sharawy, El-Badawy (1989), Associate Professor of Electrical Engineering; B.S.E., M.S.E., Mansoura University (Egypt); Ph.D., University of Massachusetts, Amherst

Ellin, Nan (1998), Assistant Professor of Architecture; B.A., Bryn Mawr College; M.A., Ph.D., Columbia University

Elliot, Charles S. (1989), Director, Center for Professional Development; B.M.E., General Motors Institute; M.S., Indiana University, Bloomington; Ph.D., Michigan State University

Ellis, Andrew W. (1998), Assistant Professor of Geography; B.A., M.S., Ph.D., University of Delaware

Ellis, Robert H. (1962), Professor Emeritus of Journalism and Telecommunication; B.A., Arizona State University; M.A., Case Western Reserve University

Ellman, Ira Mark (1978), Professor of Law; B.A., Reed College; M.A., University of Illinois; J.D., University of California, Berkeley

Ellram, Lisa M. (1990), Associate Professor of Supply Chain Management; B.S.B., M.B.A., University of Minnesota, Twin Cities; Ph.D., Ohio State University

Ellsworth, Lola M. (1938), Professor Emeritus of Family Resources and Human Development; B.S., Brigham Young University; M.A., Columbia University

Elman, Colin (1998), Assistant Professor of Political Science; B.A., Nottingham University (United Kingdom); M.A., Ph.D., Columbia University

Elman, Miriam Fendius (1995), Assistant Professor of Political Science; B.A., M.A., Hebrew University; Ph.D., Columbia University

Elmore, James W. (1949), Professor Emeritus of Planning and Landscape Architecture; A.B., University of Nebraska; M.S., Columbia University

Elser, James J. (1990), Associate Professor of Biology; B.S., University of Notre Dame; M.S., University of Tennessee, Knoxville; Ph.D., University of California, Davis

Elser, Monica M. (1996), Academic Associate, Education Liaison; B.S., University of Notre Dame; M.S., University of Tennessee, Knoxville; M.Ed., Arizona State University

Engel, Glorianne (1982), Associate Professor of Theatre; B.F.A., University of Arizona; M.A., Ph.D., University of Pittsburgh

Engelhardt, Florence P. (1965), Professor Emeritus of Social Work; B.A., College of Mount Saint Vincent; M.S.S., Fordham University

Enz, Billie J. (1990), Director, Professional Field Experience; Director, Initial Teacher Certification and Induction Programs; M.A., Ph.D., Arizona State University

Erickson, Mary L. (1990), Professor of Art; B.F.A., University of Illinois; M.A., Ph.D., Ohio State University

Erno, Richard B. (1957–62; 1963), Professor Emeritus of English; B.A., Michigan State University; M.A., University of Denver; Ph.D., University of Minnesota, Twin Cities

Ernzen, James J. (1996), Associate Professor of Construction; B.S., M.S., University of Notre Dame; Ph.D., University of Texas, Austin

Escoachar, Edward J. (1993), Associate Professor of Chicana and Chicano Studies and History; B.A., California State University, Dominguez Hills; M.A., Ph.D., University of California, Riverside

Estrada, Ana (1996), Assistant Professor of Family Resources and Human Development; B.A., University of the Pacific; M.S., Ph.D., University of Utah

Ettinger, Jennifer L. (1998), Assistant Professor of Exercise Science and Physical Education; B.S., University of Tennessee, Knoxville; M.A., University of North Carolina, Chapel Hill; Ph.D., Arizona State University

Etter, Patricia A. (1988), Associate Archivist, Archives and Manuscripts; B.A., California State University, Long Beach; M.L.S., University of Arizona

Evanco, Dustin (1999), Assistant Professor of Aerospace Studies; B.S., University of Arizona

Evans, Donovan L. (1966), Professor of Engineering; Director, Center for Research on Education in Science, Mathematics, Engineering, and Technology; B.S.M.E., University of Cincinnati; Ph.D., Northwestern University

Evans, John X. (1964), Professor Emeritus of English; B.A., Holy Cross College; M.A., Ph.D., Yale University

Eveland, Charles (1974), Professor Emeritus of Health Administration and Policy; B.S., University of Maryland; M.S., Baylor University; Ph.D., University of Michigan

Ewan, Joseph (1994), Assistant Professor of Planning and Landscape Architecture; B.S.D., Arizona State University; M.L.A., University of California, Berkeley

Ewing, Alison (1993), Law Librarian, Circulation/Reference; B.A., M.L.S., University of Michigan

Eyering, LeRoy (1961), Regents’ Professor Emeritus of Chemistry and Biochemistry; B.S., University of Arizona; Ph.D., University of California, Berkeley

F

Faas, Larry A. (1967), Professor Emeritus of Special Education; B.S., Iowa State University; M.A., Colorado State College; Ed.D., Utah State University

Fabes, Richard A. (1983), Professor of Family Resources and Human Development; Chair, Department of Family Resources and Human Development; B.A., University of Colorado; M.S., Ph.D., Oklahoma State University

Fabricius, William (1990), Associate Professor of Psychology; B.A., Boston College; M.S., Wheelock College; Ph.D., University of Michigan

Facinelli, Diane A. (1993), Senior Lecturer, Craig and Barbara Barrett Honors College; B.A., M.A., Ph.D., Arizona State University
Faeth, Stanley H. (1980), Professor of Biology; B.S., M.S., University of Cincinnati; Ph.D., Florida State University

Fafitis, Apostolos (1984), Associate Professor of Civil and Environmental Engineering; B.S.E., Aristotle University of Thessaloniki (Greece); M.Eng., South Dakota School of Mines and Technology; Ph.D., Northwestern University

Fagan, William (1996), Assistant Professor of Biology; B.A., University of Delaware; Ph.D., University of Washington

Fahlman, Betsy (1988), Professor of Art; B.A., Mount Holyoke College; M.A., Ph.D., University of Delaware

Faith, Roger L. (1981), Professor of Economics; B.A., St. Mary’s College of California; M.A., Ph.D., University of California, Los Angeles

Falconer, Steven E. (1989), Associate Professor of Anthropology; B.A., Washington State University; M.A., Ph.D., University of Arizona

Fall, Patricia L. (1989), Associate Professor of Geography; B.A., Prescott College; M.S., Ph.D., University of Arizona

Faltis, Christian J. (1991), Professor of Multicultural Education; B.A., San Francisco State University; M.A., San Jose State University; M.A., Ph.D., Stanford University

Faltz, Leonard M. (1979), Associate Professor of Computer Science and Engineering; B.S., City University of New York; M.S., Harvard University; Ph.D., University of California, Berkeley

Fan, Genghua (1990), Associate Professor of Mathematics; Masters, Institute of Systems Science (China); M.A., Chinese Academy of Science (China); Ph.D., University of Waterloo (Canada)

Farber, Bernard (1974), Professor Emeritus of Sociology; A.B., Roosevelt University; A.M., Ph.D., University of Chicago

Fargotstein, Barbara P. (1988), Clinical Associate Professor of Nursing; B.S., B.S.N., Arizona State University; M.N., University of California, Los Angeles

Farin, Gerald (1987), Professor of Computer Science and Engineering; B.A., M.A., Ph.D., University of Braunschweig (Germany)

Farmer, Frank D. (1970), Associate Professor of Mathematics; B.A., M.A., University of California, Riverside; Ph.D., University of Washington

Farmer, Jack D. (1998), Professor of Geology; B.A., California State University, Chico; M.S., University of Kansas; Ph.D., University of California, Davis

Farnsworth, Bill (1999), Faculty Associate of Nursing; B.S.N., University of Massachusetts; M.S.N., University of Evansville

Fausel, Donald F. (1969), Professor Emeritus of Social Work; A.B., S.T.B., S.T.L., Saint Mary’s University; M.S.W., Fordham University; D.S.W., Columbia University

Fearon, Harold E. (1961), Professor Emeritus of Purchasing Management; National Association of Purchasing Management Professor; B.S., M.B.A., Indiana University; Ph.D., Michigan State University

Fehr, Fred S. (1971), Associate Professor of Psychology; B.S., University of Wisconsin, Madison; M.A., Ph.D., Washington University

Feldhaus, Anne (1981), Professor of Religious Studies; B.A., Manhattanville College; Ph.D., University of Pennsylvania

Feldman, Patricia A. (1990), Associate Administrative Professional, College of Extended Education; Director, Academic and Professional Programs, College of Extended Education; B.S., M.Ed., Colorado State University

Feldstein, Alan (1970), Professor of Mathematics; B.A., Arizona State University; Ph.D., University of California, Los Angeles

Feller, Joseph M. (1987), Professor of Law; B.A., Harvard University; Ph.D., University of California, Berkeley; J.D., Harvard University

Fenske, Robert H. (1974), Professor of Higher and Post-Secondary Education; Academic Program Coordinator, Higher and Post-Secondary Education; B.S., M.S., Ph.D., University of Wisconsin, Madison

Fernando, Harindra (1984), Professor of Mechanical and Aerospace Engineering; Director, Center for Environmental Fluid Dynamics; B.Sc., University of Sri Lanka (Sri Lanka); M.A., Ph.D., Johns Hopkins University

Ferrall, J. Eleanor (1969), Librarian Emeritus, Reference Service; A.B., Heidelberg College; M.A., Arizona State University

Ferraro, Kathleen (1982), Associate Professor of Women’s Studies; B.A., Case Western Reserve University; M.A., Ph.D., Arizona State University

Ferris, Jean (1985), Professor Emeritus of Music; B.M., University of Michigan; M.A., Arizona State University

Ferry, David K. (1983), Regents’ Professor of Electrical Engineering; B.S.E.E., M.S.E.E., Texas Technological College; Ph.D., University of Texas, Austin

Fessenden, Tracy (1994), Assistant Professor of Religious Studies; B.A., Yale University; Ph.D., University of Virginia

Fewell, Jennifer H. (1993), Assistant Professor of Biology; B.A., Cornell University; M.A., Ph.D., University of Colorado

Figueira-McDonough, Josephina (1990), Professor of Justice Studies; B.S., University of Lisbon (Portugal); M.S.W., Ph.D., University of Michigan

Filley, Richard D. (1985), Associate Administrative Professional; Director, Arizona State University Industrial Fellows Program; B.S., University of Washington

Findler, Nicholas V. (1982), Professor Emeritus of Computer Science and Engineering; B.Eng., Ph.D., Budapest University for Technical Sciences (Hungary)

Fine, Robert (1997), Senior Lecturer of Sociology; B.A., Boston University; M.A., University of Chicago; Ph.D., New York University

Finner, Neal (1977), Professor Emeritus of Secondary Education; B.A., University of Houston; M.A., University of the Americas (Mexico); Ph.D., University of Texas, Austin

Fink, Jonathan (1982), Professor of Geology; Vice Provost for Research; B.A., Colby College; Ph.D., Stanford University

Firestone, Melvin M. (1968), Professor Emeritus of Anthropology; B.A., University of New Mexico; M.A., Ph.D., University of Washington

Firestone, Sharon A. (1977), Law Librarian, Acquisitions and Serials; B.A., M.L.S., University of Washington; M.A., Arizona State University

Fischman, Gustavo E. (1999), Assistant Professor of Curriculum and Instruction; B.A., University of Buenos Aires (Argentina); M.A., Ph.D., University of California, Los Angeles
Fish-Ewan, Rebecca (1994), Assistant Professor of Planning and Landscape Architecture; B.A., M.L.A., University of California, Berkeley

Fisher, Marvin M. (1958), Professor Emeritus of English; A.B., A.M., Wayne University; Ph.D., University of Minnesota, Twin Cities

Fisher, Stuart G. (1976), Professor of Biology; B.S., M.A., Wake Forest College; Ph.D., Dartmouth College

Fisher, Teresa (1995), Assistant Professor of Counselor Education; B.A., M.A., Ph.D., University of Illinois, Urbana-Champaign

Fisk, R. Leighton (1979), Adjunct Professor of Bioengineering; B.S., M.S., Ph.D., University of Alberta (Canada)

Fitch, Frank W. (1997), Adjunct Faculty of Microbiology; M.S., M.D., Ph.D., University of Chicago

Fitch, Gregory W. (1974), Professor of Philosophy; B.A., Western Washington State College; M.A., Ph.D., University of Massachusetts, Amherst

Fitzgerald, Mary (1998), Senior Lecturer of Dance; B.A., University of Maine; M.F.A., Arizona State University

Flaherty, Richard E. (1978), Professor Emeritus of Accountancy; B.S., M.S., Ph.D., University of Kansas; C.P.A., Kansas

Fleming, Robert C. (1974), Professor of Music; Assistant Director of Bands; B.S., Indiana University of Pennsylvania; M.F.A., Carnegie-Mellon University; Ph.D., Southern Illinois University, Carbondale

Fletcher, Grant (1956), Professor Emeritus of Music; B.M., Illinois Wesleyan University; M.M., University of Michigan; Ph.D., University of Rochester

Flores, Allinio (1992), Professor of Mathematics Education; B.Sc., M.Sc., National University of Mexico (Mexico); Ph.D., Ohio State University

Forsyth, Ben R. (1992), Professor of Health Administration and Policy; Vice President and Provost, Arizona State University West; Senior Executive Assistant to the President; M.D., New York University College of Medicine

Foster, David William (1964), Regents' Professor of Spanish; Chair, Department of Languages and Literatures; B.A., M.A., Ph.D., University of Washington

Fotsch, Paul Mason (1999), Lecturer, Division of Undergraduate Academic Services; B.A., M.A., University of Chicago; Ph.D., University of California, San Diego

Fouchette, Martin J. Jr. (1965), Associate Professor of Biology; B.A., M.A., Ph.D., University of Texas, Austin

Fowler, John W. (1995), Assistant Professor of Industrial Engineering; B.S., M.S., Ph.D., Texas A&M University

Fox, Peter (1990), Associate Professor of Civil and Environmental Engineering; B.S., M.S, Ph.D., University of Illinois

Francis, Karl E. (1993), Adjunct Professor of Geography; B.S., Pennsylvania State University; M.S., Oregon State University; Ph.D., University of Wisconsin, Madison

Francisco, Wilson A. (1999), Assistant Professor of Chemistry and Biochemistry; B.S., University of Puerto Rico (Puerto Rico); Ph.D., Texas A&M University

Fraser, Wayne D. (1989), Associate Professor of Plant Biology; B.A., Hope College; Ph.D., University of Kentucky

Fraser, James E. (1963), Professor Emeritus of Education; B.A., University of Northern Colorado; M.A., University of Michigan; Ed.D., University of Northern Colorado

Freeman, Donald J. (1989), Professor of Education; B.A., Grinnell College; M.A., Ph.D., Michigan State University

Freund, John E. (1957), Professor Emeritus of Mathematics; B.A., M.A., University of California, Los Angeles; Ph.D., University of Pittsburgh

Fritze, Joseph R. (1973), Professor Emeritus of Accountancy; B.B.A., Baylor University; M.B.A., D.B.A., Indiana University; C.P.A., Texas

Frosch, Cynthia (1999), Assistant Professor of Family Resources and Human Development; B.A., University of Maryland, Baltimore; M.A., Ph.D., University of Illinois, Champaign

Frost, Melvin Jesse (1965), Professor Emeritus of Geography; B.S., Arizona State University; M.S., Brigham Young University; Ph.D., University of Florida

Frost, Michael D. (1995), Faculty Associate of Construction; B.S., M.S., Arizona State University

Fry, Harold (1958), Professor Emeritus of Engineering; B.S., Colorado State University; M.E., University of Wyoming; M.S., University of Colorado

Fry, Jana (1995), Faculty Associate of Planning and Landscape Architecture, University Geographic Information Systems Coordinator; B.A., University of Denver; M.E.P., Arizona State University

Fry, Warren D. (1974), Learning Resources Specialist Emeritus; B.A., University of Northern Iowa; M.A., Arizona State University

Fuchs, Jacob (1951), Professor of Chemistry and Biochemistry; B.A., New York University; M.S., Ph.D., University of Illinois

Fuchs, Rachel G. (1983), Professor of History; B.A., M.A., Boston University; Ph.D., Indiana University

Fugeni, Laura C. (1998), Adjunct Professor of Anthropology; B.A., The Colorado College; M.A., Ph.D., University of Arizona

Fullerton, Bill J. (1958), Professor Emeritus of Education; B.S., Northwestern Oklahoma State College; M.A., Ed.D., University of Oklahoma

Fulminwider, S. Pendleton (1967), Professor Emeritus of History; B.S., United States Naval Academy; M.S., Ph.D., University of Wisconsin, Madison

Furnish, Dale Beck (1970), Professor of Law; A.B., Grinnell College; J.D., University of Iowa; LL.M., University of Michigan
Furuta, Kenneth (1990), Associate Librarian, Government Documents; A.B., University of California, Riverside; M.A., University of North Carolina, Chapel Hill; M.Admin., University of California, Riverside; M.L.S., University of Arizona
 Fuse, Montye (1997), Assistant Professor of English; B.A., California State University, Long Beach; M.A., Ph.D., University of California, Berkeley
 Fusse, Paul S. (1999), Assistant Professor of Mechanical and Aerospace Engineering; B.S., Montana State University; M.E., Ph.D., Carnegie Mellon University

G
 Gaffney, Philip D. (1957), Professor Emeritus of Education; B.S., Northern Illinois State University; M.A., Ph.D., State University of Iowa
 Gage, Leo (1999), Assistant Professor of Aerospace Studies; B.S., United States Air Force Academy, Colorado Springs
 Gaines, Sylvia W. (1972), Professor Emeritus of Anthropology; B.A., M.A., Ph.D., Arizona State University
 Gale, Betty J. (1982), Associate Professor of Nursing; B.S.N., M.S., Arizona State University; D.N.Sc., University of San Diego
 Galician, Mary-Lou (1983), Associate Professor of Journalism and Telecommunication; B.A., Long Island University, Brooklyn; M.S., Syracuse University; Ed.D., Memphis State University
 Gallinger, George W. (1977), Associate Professor of Finance; B.A., Waterloo Lutheran University (Canada); M.B.A., York University (Canada); Ph.D., Purdue University
 Gammage, Grady Jr. (1990), Faculty Associate of Planning and Landscape Architecture; B.A., Occidental College; J.D., Stanford University
 Gannod, Barbara D. Birchler (1998), Lecturer of Computer Science and Engineering; B.Sc., Calvin College; M.Sc., Ph.D., Michigan State University
 Gannod, Gerald C. (1998), Assistant Professor of Computer Science and Engineering; B.Sc., M.Sc., Ph.D., Michigan State University
 Garcia, Antonio A. (1989), Associate Professor of Bioengineering; B.S., Rutgers, The State University; Ph.D., University of California, Berkeley
 Garcia, Nelda C. (1973–75; 1986), Professor Emeritus of Management Communication; B.S., M.A., Texas Woman’s University; Ph.D., Michigan State University
 Garcia, Phyllis M. (1992), Clinical Associate Professor of Multicultural Education; B.A., University of Southern Colorado; M.A., Adams State College; Ed.D., University of Northern Colorado
 Garcia-Fernandez, Carlos (1990), Associate Professor of Spanish; M.A., University Pontificia of Salamanca (Spain); M.A., Ph.D., University of California, Davis
 Garcia-Pichel, Ferran (1999), Assistant Research Professor of Microbiology; B.S., M.S., Autonomous University of Barcelona, Bellaterra (Spain); Ph.D., University of Oregon
 Gardner, Carl L. (1994), Professor of Mathematics; B.A., Duke University; Ph.D., Massachusetts Institute of Technology
 Garnero, Edward (1999), Assistant Professor of Geology; A.B., University of California, Berkeley; Ph.D., California Institute of Technology
 Garrity, Marjorie L. (1975), Professor Emeritus of Nursing; B.S., University of Bridgeport; M.S., Case Western Reserve University
 Gasowski, Ronald E. (1971), Professor of Art; B.S.D., University of Michigan; M.F.A., University of Washington
 Geiger, Karen (1996), Lecturer of Accountancy; B.S., University of Nevada; M.S., Arizona State University
 Gelb, Anne (1998), Assistant Professor of Mathematics; B.S., University of California, Los Angeles; Sc.M., Ph.D., Brown University
 Gentrup, William F. (1991), Associate Research Administrator, Arizona Center for Medieval and Renaissance Studies; B.A., M.A., Ph.D., Arizona State University
 George, Lisa (1999), Assistant Professor of Classics; B.A., Vassar College; M.A., Bryn Mawr College; M.A., San Francisco State University; Ph.D., Bryn Mawr College
 Gerdes, Karen E. (1995), Associate Professor of Social Work; B.S., Florida State University; M.S.W., Brigham Young University; Ph.D., Florida State University
 Gereboff, Joel D. (1978), Associate Professor of Religious Studies; Chair, Department of Religious Studies; B.A., New York University; Ph.D., Brown University
 Gerlach, Vernon S. (1963), Professor Emeritus of Education; B.A., Wayne State University; M.A., University of Minnesota, Twin Cities; Ed.D., Arizona State University
 Gerritsen, Karin (1998), Assistant Professor of Exercise Science and Physical Education; B.Sc., M.Sc., Vrije University, Amsterdam (Netherlands); Ph.D., University of Calgary, Alberta (Canada)
 Gest, Scott D. (1997), Assistant Professor of Psychology; B.A., University of North Carolina, Chapel Hill; Ph.D., University of Minnesota, Minneapolis
 Ghosh, Sumit (1995), Associate Professor of Computer Science and Engineering; B.Tech., Indian Institute of Technology (India); M.S., Ph.D., Stanford University
 Giard, Jacques (1998), Professor of Design; Director, School of Design; Dip.Des., IAA, Montreal (Canada); H.Dip.Des., Birmingham Polytechnic (United Kingdom); Ph.D., Concordia University (Canada)
 Gibbs, W.R. (1987), Adjunct Professor of Physics and Astronomy; B.S., M.A., University of Texas; Ph.D., Rice University
 Gibney, John (1992), Adjunct Professor of Bioengineering; B.S., St. Peter’s College; M.D., New Jersey College of Medicine
 Gieschen, Donald W. (1959), Professor Emeritus of Philosophy; B.S., Northwestern University; M.A., Ph.D., University of Minnesota, Twin Cities
 Giffin, Frederick C. (1967), Professor of History; B.A., Denison University; M.A., Ph.D., Emory University
 Gill, George A. (1966), Professor Emeritus of Education; B.S., M.A., Arizona State University
 Gillingwater, Denis (1973), Professor of Art; B.F.A., M.F.A., University of Cincinnati
 Giner, Oscar (1998), Professor of Theatre; Director of Performance Program; B.A., M.F.A., D.F.A., Yale University
 Gisolo, Margaret (1954), Professor Emeritus of Dance; B.S., Indiana State University, Terre Haute; M.A., New York University
Glass, Gene V. (1986), Professor of Educational Leadership and Policy Studies and Psychology in Education; Associate Dean for Research; B.A., University of Nebraska; M.S., Ph.D., University of Wisconsin
Glass, Margaret F. (1992), Adjunct Professor of Anthropology; B.A., M.A., University of Arizona; Ph.D., University of Calgary, (Canada)
Glass, Sandra R. (1998), Lecturer of Curriculum and Instruction; B.A., National College of Education; M.A., Northeastern Illinois University; Ph.D., Arizona State University
Glau, Gregory R. (1994), Instructional Professional of English; B.A., University of Arizona; M.A., Northern Arizona University; Ph.D., University of Arizona
Glaunsinger, William S. (1972), Professor of Chemistry and Biochemistry; B.S., Miami University; Ph.D., Cornell University
Glenn, Steven P. (1984), Associate Professor of Accountancy; B.S., M.A., Western Kentucky University; Ph.D., Arizona State University
Goldstein, Kenneth (1996), Assistant Professor of Political Science; B.A., Haverford College; Ph.D., University of Michigan
Goldstein, Elliott S. (1974), Associate Professor of Biology; B.S., University of Hartford; M.S., Ph.D., University of Minnesota, Twin Cities
Goldstein, Kenneth (1996), Assistant Professor of Political Science; B.A., Haverford College; Ph.D., University of Michigan
Goldstein, Kenneth (1996), Assistant Professor of Political Science; B.A., Haverford College; Ph.D., University of Michigan
Goldstein, Margery F. (1994), Professor of Anthropology; B.A., M.A., University of Arizona; Ph.D., University of Calgary, (Canada)
Goldstein, Kenneth (1996), Assistant Professor of Political Science; B.A., Haverford College; Ph.D., University of Michigan
Goldstein, Kenneth (1996), Assistant Professor of Political Science; B.A., Haverford College; Ph.D., University of Michigan
Golen, Steven P. (1984), Associate Professor of Accountancy; B.S., M.A., Western Kentucky University; Ph.D., Arizona State University
Golen, Steven P. (1984), Associate Professor of Accountancy; B.S., M.A., Western Kentucky University; Ph.D., Arizona State University
Golshani, Forouzan (1984), Professor of Computer Science and Engineering; B.S., Arya Mehr University of Technology (Iran); M.S., Ph.D., University of Warwick (United Kingdom)
Gomez, Reynaldo A. (1980), Associate Professor of Early Childhood Education; B.A., Southwest Texas State University; M.Ed., Stephen F. Austin State University; Ph.D., Pennsylvania State University
Gomez-Mejia, Luis R. (1989), Professor of Management; B.A., M.A., Ph.D., University of Minnesota, Twin Cities
Gonzales, Nancy A. (1992), Associate Professor of Psychology; B.S., Arizona State University; M.S., Ph.D., University of Washington
González, Josué M. (1998), Professor of Educational Leadership and Policy Studies; Director, Center for Bilingual Education and Research; B.A., M.A., Texas A&M University, Kingsville; Ed.D., University of Massachusetts, Amherst
Gonzalez-Santin, Edwin (1979), Senior Instructional Professional of Social Work; B.A., Cameron State College; M.S.W., Arizona State University
Goo, Benjamin (1955), Professor Emeritus of Art; B.F.A., University of Iowa; M.F.A., Cranbrook Academy of Art
Gooding, Elmer R. (1967), Professor of Economics; B.S., McPherson College; M.A., Ph.D., University of Kansas
Goodnick, M. Stephen (1996), Professor of Electrical Engineering; Chair, Department of Electrical Engineering; B.S., Trinity University; M.S., Ph.D., Colorado State University
Gordon, Leonard (1967), Professor of Sociology; Associate Dean, Academic Programs, College of Liberal Arts and Sciences; B.A., Wayne State University; M.A., University of Michigan; Ph.D., Wayne State University
Gorman, John J. Jr. (1997), Professor of Aerospace Studies; Chair, Department of Aerospace Studies; B.S., Air Force Academy; M.A., Central Michigan University
Gormly, Eric K. (1994), Assistant Professor of Journalism and Telecommunication; B.Journ., University of Texas, Austin; M.A., University of Texas, Austin
Gourley, Brian J. (1987), Professor of Electrical Engineering; B.S., Bangalore University (India); M.S., Indian Institute of Science (India); Ph.D., University of Windsor (Canada)
Goul, K. Michael (1985), Associate Professor of Computer Information Systems; Director, Information Technology; B.S., M.B.A., Ph.D., Oregon State University
Gould, Ian R. (1998), Assistant Professor of Chemistry and Biochemistry; B.S., Ph.D., University of Manchester (United Kingdom)
Gourley, David R. (1967), Professor Emeritus of Marketing; B.S., Miami University; M.B.A., University of Toledo; D.B.A., Indiana University
Goyer, Robert S. (1981), Professor Emeritus of Communication; B.A., DePauw University; M.A., Miami University; Ph.D., Ohio State University
Grace, Edward E. (1963), Professor Emeritus of Mathematics; B.S., Ph.D., University of North Carolina
Graf, William L. (1978), Regents’ Professor of Geography; B.A., M.S., Ph.D., University of Wisconsin, Madison
Gratton, Brian J. (1983), Professor of History; B.A., University of New Mexico; Ph.D., Boston University
Gray, Susan E. (1991), Associate Professor of History; A.B., Earlham College; M.A., Ph.D., University of Chicago

Greathouse, Betty M. (1997), Professor of Early Childhood Education; B.A., M.A., Ph.D., Arizona State University

Greeley, Ronald (1977), Regents’ Professor of Geology; B.S., M.S., Mississippi State University; Ph.D., University of Missouri, Rolla

Green, Douglas M. (1990), Associate Professor of Environmental Resources; B.S., Oregon State University; M.S.; North Dakota State University; Ph.D., Oregon State University

Green, James L. (1967), Professor Emeritus of English; B.A., M.A., University of Kansas; Ph.D., University of Nevada, Reno

Green, Jennifer L. (1991), Adjunct Professor of Chemistry and Biochemistry; B.S., Ph.D., University of Sydney (Australia)

Green, Mary E. (1967), Professor Emeritus of English; B.A., Queens College; M.A., Saint John’s University; Ph.D., University of Chicago

Greenberg, Edward A. (1996), Associate Research Scientist for Nursing; B.A., University of California, Los Angeles; Ph.D., Arizona State University

Greeneich, Edwin W. (1982), Associate Professor of Electrical Engineering; B.S.E.E., M.S.E.E., Ph.D., University of California, Berkeley

Greenspan, Ruth L. (1997), Adjunct Professor of Anthropology; B.A., Carleton College; M.A., Ph.D., University of Oregon

Greives, Thomas L. (1997), Assistant Librarian, Hayden Reference Services; B.A., Purdue University; M.A., University of Southern California; M.S., Indiana University; A.B.D., University of Chicago

Grey, Betsy J. (1987), Professor of Law; B.A., Barnard College; J.D., Georgetown University

Grier, Marvin (1957), Professor Emeritus of Exercise Science and Physical Education; B.A., Wisconsin State College, La Crosse; M.A., New York University

Griffin, Carl E., SFC (1997), Instructor of Military Science

Griffin, John M. (1997), Assistant Professor of Finance; B.A., Baylor University; M.S., Texas A&M University; Ph.D., Ohio State University

Griffin, William A. (1988), Professor of Family Resources and Human Development; B.A., Auburn University; M.S., Virginia Polytechnic and State University; Ph.D., Texas Tech University

Griffith, LeRoy H. (1958), Professor Emeritus of Education; B.S., M.S., Drake University; Ph.D., University of Iowa

Griffiths, Nagy, Sandra L. (1982), Academic Associate, Division of Undergraduate Academic Services; Coordinator, Writing Across the Curriculum Program; B.Ed., M.A., Ph.D., Arizona State University.

Grigsby, J. Eugene (1966), Professor Emeritus of Art; A.B., Morehouse College; M.A., Ohio State University; Ph.D., New York University

Grimm, Nancy B. (1990), Professor of Biology; B.A., Hampshire College; M.S., Ph.D., Arizona State University

Grinder, Robert E. (1973), Professor Emeritus of Education; B.S., University of California, Berkeley; Ed.D., Harvard University

Grohe, Edwin P. (1957), Professor Emeritus of French; A.B., William Jewell College; M.A., Ph.D., Indiana University, Bloomington

Grondin, Robert O. (1983), Associate Professor of Electrical Engineering; B.S., M.S., Ph.D., University of Michigan

Gross, Douglas R. (1968), Professor Emeritus of Counselor Education; B.A., M.A., Western Michigan University; Ph.D., University of Wisconsin, Madison

Grossman, Louis H. (1966), Professor Emeritus of Management; B.A., University of Michigan; M.B.A., Ph.D., Michigan State University

Groy, Thomas L. (1983), Associate Research Professional of Chemistry and Biochemistry; B.S., Adams State College; Ph.D., Arizona State University

Gruen, David J. (1997), Professor of Geography; B.A., State University of New York, Buffalo; Ph.D., Pennsylvania State University

Gruen, John M. (1984), Professor of Music; B.A., Boston University; J.D., University of San Francisco; LL.M., New York University

Guerrero, Laura (1996), Associate Professor of Communication; B.A., M.A., San Diego State University; Ph.D., University of Arizona

Guhathakurta, Subhrajit (1994), Assistant Professor of Planning and Landscape Architecture; B.Arch., Jadavpur University (India); M.C.R.P., Iowa State University; Ph.D., University of California, Berkeley

Guilbeau, Eric J. (1977), Professor of Bioengineering; Chair, Department of Bioengineering and Chemical and Materials Engineering; B.S., M.S., Ph.D., Louisiana Tech University

Guinouard, Donald E. (1996), Professor Emeritus of Counselor Education; B.S., M.S., Montana State College; Ed.D., Washington State University

Guleserian, Theodore (1971), Associate Professor of Philosophy; B.A., University of California, Riverside; Ph.D., Yale University

Guillet, Gayle (1993), Associate Professor of History; B.A., M.A., Loma Linda University; Ph.D., University of California, Riverside

Gully, Anthony Lacy (1972), Associate Professor of Art; B.A., University of California, Riverside; M.A., University of California, Berkeley; Ph.D., Stanford University

Guntemann, Gail (1977), Professor of Spanish; B.S., University of Montana; M.A., University of New Mexico; Ph.D., Ohio State University

Guntemann, Karl L. (1982), Fred E. Taylor Professor of Real Estate; A.B., Knox College; M.B.A., D.B.A., Indiana University

Gupta, Sanjay (1999), Assistant Professor of Chicana and Chicano Studies; B.S., California State University, Northridge; M.A., Ph.D., University of Michigan, Ann Arbor

Gustavsson, Nora S. (1994), Associate Professor of Social Work; A.B., M.S.W., City University of New York; Ph.D., University of Southern California

Gutiérrez, Guadalupe (1999), Assistant Professor of Chicana and Chicano Studies; B.S., California State University, Northridge; M.A., Ph.D., University of Michigan, Ann Arbor
Haberman, Donald C. (1967), Professor Emeritus of English; B.A., Rutgers, The State University; M.A., Ph.D., Yale University

Haberman, Lidia W. (1967), Assistant Professor of Latin; B.A., Bryn Mawr College; M.A., Yale University

Hackett, Glenn A. (1976), Professor of Music; B.M., University of Wisconsin; Madison; M.M., D.M.A., University of Illinois

Hackett, Edward J. (1998), Professor of Sociology; B.A., Colgate University; M.A., Ph.D., Cornell University

Hackett, Gill (1988), Professor of Counseling Psychology and Counselor Education; Associate Dean, Academic Programs and Personnel; B.A., M.Ed., Ph.D., Pennsylvania State University

Hadley, Neil E. (1966), Professor Emeritus of Biology; B.A., Eastern Michigan University; Ph.D., University of Colorado

Haefer, J. Richard (1976), Associate Professor of Music; B.M., Ohio State University; M.M., University of Arizona; Ph.D., University of Illinois

Haenn, Nora M. (1999), Assistant Professor of Anthropology; B.A., Fordham University; M.A., Ph.D., Indiana University, Bloomington

Haeussler, Alice M. (1997), Adjunct Professor of Anthropology; B.A., University of Pennsylvania; M.A., Ph.D., Arizona State University

Haggerson, Nelson L. (1961–63; 1964), Professor Emeritus of Secondary Education; B.A., Vanderbilt University; M.S., New Mexico Western College, Silver City; Ph.D., Claremont Graduate School

Hagler, Debra (1996), Clinical Associate Professor of Nursing; B.S.N., New Mexico State University; M.S., University of Arizona

Hahn, Arthur W. (1962), Professor Emeritus of Art; B.F.A., San Francisco Art Institute; M.A., California State University, San Francisco

Hahn, Thomas (1998), Assistant Professor of Architecture; B.A., University of Washington; M.Arch., Arizona State University

Hajicek, James (1976), Associate Professor of Art; B.F.A., Kansas City Art Institute; M.F.A., University of New Mexico

Hakac, John (1966), Professor Emeritus of English; A.B., Centre College; M.A., Ph.D., University of Texas, Austin

Haley, Arthur J. (1976), Professor of Recreation Management and Tourism; B.A., Stonehill College; M.Ed., Springfield College; Ph.D., Texas A&M University

Hall, Geri (1999), Faculty Associate of Nursing; B.S., Temple University; M.A., Ph.D., University of Iowa

Hall, James A. (1990), Adjunct Professor of Engineering; B.S., M.S., University of California, Berkeley; Ph.D., Ohio State University

Hall, John S. (1973), Professor of Public Affairs; B.A., M.A., San Diego State University; Ph.D., University of Oregon

Halverson, Roy K. (1988), Professor of Journalism and Telecommunication; B.S., M.S., University of Wisconsin, Madison; Ph.D., University of Illinois

Hamilton, Robert (1980), Professor of Music; B.M., Indiana University, Bloomington; M.M., Catholic University of America

Hammond, Philip C. (1996), Adjunct Professor of Anthropology; B.A., Drew University; M.A., Ph.D., Yale University

Hanish, Laura (1997), Assistant Professor of Family Resources and Human Development; B.S., Arizona State University; M.A., Ph.D., University of Illinois, Chicago

Hanna, Albert Lyle (1967), Professor Emeritus of Music; B.M., University of Cincinnati; Ph.D., Indiana University, Bloomington

Hannah, Michelle M. (1999), Adjunct Professor of Chemistry and Biochemistry; B.S., Arizona State University; Ph.D., University of California, Davis

Hanson, Gary (1999), Professor of Educational Leadership and Policy Studies; B.A., M.A., Ph.D., University of Minnesota

Hanson, Randel D. (1999), Assistant Professor of Justice Studies; B.A., Ph.D., University of Minnesota

Hanson, Roland C. (1966), Professor Emeritus of Physics and Astronomy; B.S., Michigan College of Mining and Technology; M.S., Ph.D., University of Illinois

Happel, Stephen K. (1975), Professor of Economics; B.A., University of Missouri; M.A., Ph.D., Duke University

Hardt, Annanelle (1968), Professor Emeritus of Multicultural Education; B.A., Southwestern University; A.M., Cornell University; Ph.D., University of Texas, Austin

Harlan, Sharon L. (1998), Associate Professor of Sociology; B.A., Northeastern University; M.A., Ph.D, Cornell University

Harmon-Vaughan, Beth (1995), Assistant Professor of Design; B.A., University of Missouri; M.A., University of Georgia

Harrigan, Carol Ann (1998), Faculty Associate of Nursing; B.S.N., Rhode Island College; M.S.N., Indiana University

Harrington, Rodney E. (1992), Research Professor of Microbiology; A.B., University of South Dakota; Ph.D., University of Washington

Harris, Clifford (1998), Faculty Associate of Nursing; B.S., M.D., University of Illinois

Harris, Jerry D. (1972), Professor of Education; Training Director, School of Psychology; B.S., Illinois State University; Ph.D., University of Minnesota, Twin Cities

Harris, Joseph (1963), Professor Emeritus of Chemistry and Biochemistry; B.S., University of Maryland; M.A., Ph.D., Johns Hopkins University

Harris, Kathryn M. (1965), Assistant Professor of English; B.A., M.A., Arizona State University

Harris, Mark (1980), Professor Emeritus of English; B.A., M.A., University of Denver; Ph.D., University of Minnesota, Twin Cities

Harris, Walter Jr. (1980), Professor of Music; Vice Provost, Office of the Senior Vice President and Provost; B.S., Knoxville College; M.M., Ph.D., Michigan State University
Hartman, Thomas S. (1990), Associate Professor of Architecture; D.P.L.G., Paris School of Beaux Arts (France)

Hartwell-Hunnicutt, L. Kay (1975), Associate Professor of Educational Leadership and Policy Studies; B.S., M.A., Murray State University; Ph.D., Southern Illinois University, Carbondale; J.D., Arizona State University

Hassett, Matthew J. (1966), Professor Emeritus of Mathematics; B.S., Fordham University; M.S., Ph.D., Rutgers, The State University

Hastings, Vernon L. (1973), Professor Emeritus of Construction; B.S.M.E., University of Nebraska; M.S.I.E., Oklahoma A&M University

Hatfield, Mary M. (1988), Professor Emeritus of Elementary Education; B.S., M.S., Ph.D., University of Kansas

Hawes, Samuel L., Col. (1999), Professor of Military Science; Chair, Department of Military Science; B.A., Texas A&M University; M.A., Kansas State University

Hawkos, Lise J. (1981), Associate Museum Professional, Slide Collection, School of Art; B.A., United States International University; M.A., University of Wisconsin, Madison

Hayes, Colleen (1998), Lecturer of Computer Information Systems; B.S., M.B.A., Arizona State University

Hayes, Mark (1996), Assistant Professor of Chemistry and Biochemistry; B.A., Humboldt State University; Ph.D., Pennsylvania State University

Haygood, Robert C. (1970), Professor Emeritus of Psychology; B.S., University of Illinois; M.S., Ph.D., University of Utah

Haynes, Peter (1975), Professor of Justice Studies; B.S., University of Southampton (United Kingdom); M.A., Ph.D., University of Toronto (Canada)

Haynes, Richard J. (1990), Adjunct Professor of Engineering; B.A., Miami University; M.D., University of California, San Francisco

Hazel, Jeffrey R. (1975), Professor of Biology; B.A., College of Wooster; M.S., Ph.D., University of Illinois

He, Jiping (1994), Associate Professor of Bioengineering; B.S., Huazhong University of Science and Technology, Wuhan (China); M.S., Ph.D., University of Maryland

Hedlund, Ann L. (1976), Adjunct Professor of Anthropology; B.A., University of Colorado; M.A., Texas Technical University; Ph.D., University of Colorado

Hedrick, Philip W. (1992), Professor of Biology; B.A., Hanover College; M.S., Ph.D., University of Minnesota

Heenan, Katherine L. (1998), Lecturer of English; B.A., California State University, Chico; M.A., Ph.D., University of Connecticut, Storrs

Hegmon, Michelle (1995), Associate Professor of Anthropology; B.A., University of Virginia; M.A., Ph.D., University of Michigan

Heindl, Jennifer (1999), Lecturer, Craig and Barbara Barrett Honors College; B.A., M.A., Ph.D., University of California, Berkeley

Hejduk, Renata (1999), Assistant Professor of Architecture; B.A., Barnard College; M.A., Tufts University

Heller, Jules (1976), Professor Emeritus of Art; Dean Emeritus, College of Fine Arts; B.A., Arizona State University; M.A., Columbia University; Ph.D., University of Southern California

Helms, Loyce Randel (1976), Professor of English; B.A., University of California, Riverside; Ph.D., University of Washington

Helton, Jon C. (1973), Professor of Mathematics; B.S., Southwest Texas State College; M.A., Ph.D., University of Texas, Austin

Hembree, Gary G. (1986), Senior Research Scientist of Physics and Astronomy; B.A., University of California, San Diego; Ph.D., Arizona State University

Henderson, Mark (1984), Professor of Industrial Engineering; B.S.M.E., M.S.M.E., Ph.D., Purdue University

Hendrick, Thomas E. (1984), Professor of Supply Chain Management; B.S., M.B.A., University of Washington; Ph.D., University of Oregon

Hendricks, Lutz (1996), Assistant Professor of Economics; M.A., American University; Ph.D., University of Pennsylvania

Hendricks, Wanda A. (1992), Associate Professor of History; B.A., Limestone College; M.A., Wake Forest University; Ph.D., Purdue University

Hendrickson, Lester E. (1968), Professor Emeritus of Materials Science and Engineering; B.S., M.S., Michigan Technological University; Ph.D., University of Illinois

Hendrickson, Suzanne B. (1990), Lecturer of French; B.S., M.A., Louisiana State University, Baton Rouge; Ph.D., Washington University, St. Louis

Hendrickson, William L. (1976), Associate Professor of French; B.A., Arizona State University; M.A., University of Kansas; Ph.D., Princeton University

Hendrix, Donald Louis (1981), Adjunct Associate Professor of Plant Biology; Plant Physiologist, U.S.D.A. Agricultural Research Service; B.A., Central Washington University; M.S., University of Washington; Ph.D., Washington State University

Henkel, Ray (1966), Professor Emeritus of Geography; B.S., Arizona State University; M.S., Ph.D., University of Wisconsin, Madison

Hennington, Jo Ann (1975), Professor Emeritus of Management Communication; B.A., M.B.A., Ed.D., Arizona State University

Hepburn, John R. (1984), Professor of Justice Studies; B.A., Butler University; M.S., University of Kentucky; Ph.D., University of Iowa

Hepworth, Dean H. (1990), Professor Emeritus of Social Work; B.S., M.S.W., Ph.D., University of Utah

Herald, Cherry L. (1973), Research Professor, Cancer Research Institute; B.A., University of Colorado; Ph.D., Arizona State University

Herald, Delbert L. (1973), Research Associate Professor, Cancer Research Institute; B.A., University of Colorado; Ph.D., Arizona State University

Herbots, Nicole (1991), Associate Professor of Physics and Astronomy; Engineering Degree, Ph.D., Catholic University of Louvain (Belgium)

Herman, George R. (1956), Professor Emeritus of English; M.A., University of Kansas
Hershauer, James C. (1992), Adjunct Professor of Bioengineering; B.S., Case Western Reserve University; M.B., B.Ch., B.A.O., Queen’s University Faculty of Medicine (United Kingdom)

Hernandez, Armand P. (1974), Professor Emeritus of Justice Studies; B.A., M.A., San Jose State University; Ed.D., University of Southern California

Hernández-G., Manuel de Jesús (1992), Associate Professor of Spanish; B.A., University of California, San Diego; M.A., Ph.D., Stanford University

Herrington, Scott S. (1999), Professor of Business Information Systems; B.S., M.S.D., Arizona State University

3/22/1999

Graduate Catalog Checking Draft

Date

Hertzel, Michael G. (1988), Associate Professor of Political Science; Director, Graduate Studies; B.A., M.A., Saint Mary’s University; Ph.D., University of California, Santa Barbara

Herring, Donald E. (1991), Associate Professor of Finance; B.A., M.B.A., University of California, Santa Barbara; M.S., Ph.D., University of Oregon

Herrera, Richard (1989), Associate Professor of Political Science; Director, Graduate Studies; B.A., M.A., Saint Mary’s University; Ph.D., University of California, Santa Barbara

Herrington, Scott S. (1981), Associate Professor of Design; B.A., American University; B.S.D., M.S.D., Arizona State University

Heydt, Gerald T. (1981), Associate Professor of Finance; B.A., M.B.A., University of California, Santa Barbara; Ph.D., University of Oregon

Hester, John J. “Jeff” (1981), Associate Professor of Design; B.A., American University; B.S.D., M.S.D., Arizona State University

Hetherington, Scott S. (1981), Associate Librarian; Head, Library Instruction, Systems, and Technology; B.A., State University of New York, Plattsburgh; M.L.S., University of Tennessee; Ph.D., Arizona State University

Herschauer, James C. (1969), Professor of Management; B.S., Purdue University; M.B.A., D.B.A., Indiana University, Bloomington

Hertz, Michael G. (1987), Associate Professor of Finance; B.A., M.B.A., M.S., University of Rochester; Ph.D. University of Oregon

Hervig, Richard L. (1981), Senior Research Scientist, Center for Solid-State Science; B.S., University of Iowa; Ph.D., University of Chicago

Hestenes, David O. (1966), Professor of Physics and Astronomy; B.A., Pacific Lutheran College; M.A., Ph.D., University of California, Los Angeles

Heydt, Gerald T. (1995), Professor of Electrical Engineering; Director, Center for Advanced Control of Energy and Power Systems; B.S.E.E., Cooper Union University; M.S.E.E., Ph.D., Purdue University

Hibner Koblitz, Ann (1988), Associate Professor of Women’s Studies; A.B., Princeton University; Ph.D., Boston University

Hickman, David R. (1982), Regents’ Professor of Music; B.M., University of Oregon; M.M., Wichita State University

Higgins, Norman C. (1968), Professor Emeritus of Educational Media and Computers; B.S., Central Missouri State College; M.S., Ph.D., Syracuse University

Higgins, Walter T. Jr. (1967), Professor of Electrical Engineering; B.E.E., Manhattan College; M.S., Ph.D., University of Arizona

Higgs, Allen A. (1980), Senior Research Specialist, Center for Solid-State Science; B.S., Arizona State University

Hill, Gary W. (1999), Professor of Music; Director of Bands; B.M.E., M.M., University of Michigan

Hill, Leslie (1997), Senior Lecturer in Theatre; Artist-in-Residence, Institute for Studies in the Arts; B.A., University of New Mexico; M.A., The Shakespeare Institute, University of Birmingham (United Kingdom); Ph.D., University of Glasgow (United Kingdom)

Hinks, Robert W. (1981), Associate Professor of Civil and Environmental Engineering; B.S., University of Wales (United Kingdom); M.S.E., M.A., Ph.D., Princeton University

Hinrichs, Richard N. (1987), Associate Professor of Exercise Science and Physical Education; A.B., Oberlin College; M.A., University of Iowa; Ph.D., Pennsylvania State University

Hipple, Walter J. (1977), Professor Emeritus of Mechanical and Aerospace Engineering; B.S.M.E., M.S.M.E., Ph.D., Purdue University

Hoffer, Warren W. (1972), Professor of Music; B.M., M.M., University of Wisconsin, Madison

Hoffman, Dan (1999), Professor of Architecture; B.Arch., Cooper Union

Hoffman, Dennis L. (1979), Professor of Economics; Associate Dean, Graduate Programs, College of Business; B.S., Grand Valley State University; M.A., Ph.D., Michigan State University

Hoffman, Steven A. (1985), Associate Professor of Microbiology; B.A., Clark University; M.A., Ph.D., University of Colorado

Hoffmeister, J. Ronald (1983), Associate Professor of Finance; B.S., Millikin University; M.S., Ph.D., University of Illinois

Hofmann, Gretchen E. (1999), Assistant Professor of Biology; B.S., University of Wyoming; M.S., Ph.D., University of Colorado, Boulder

Hogan, Timothy D. (1970), Professor of Economics; Director, Center for Business Research; Director, L. William Seidman Research Institute; A.B., University of California, Berkeley; M.A., University of California, Davis; Ph.D., Virginia Polytechnic Institute and State University

Hogg, Gary L. (1995), Professor of Industrial Engineering; Chair, Department of Industrial Engineering; B.S., Texas A&M University; M.S., Ph.D., University of Texas, Austin

Hokin, Jeanne (1997), Lecturer of Art; B.A., Ph.D., University of California, Santa Barbara

Holbert, Keith E. (1989), Associate Professor of Electrical Engineering; B.S., M.S., Ph.D., University of Tennessee

Holbrook, Amy K. (1975), Associate Professor of Music; Associate Director, School of Music; B.A., M.A., Mills College; Ph.D., University of Washington

Holloway, Allen Jr. (1992), Adjunct Professor of Bioengineering; B.A., Yale University; M.D., Harvard University

Holloway, John R. (1969), Professor of Chemistry and Biochemistry and Geology; B.S., University of Oregon; Ph.D., Pennsylvania State University

Holloway, Victoria (1995), Associate Professor of Theatre; B.A., Boise State University

Holloway, James (1993), Faculty Associate of Planning and Landscape Architecture; B.A., Cornell University; M.R.P., Ph.D., University of North Carolina, Chapel Hill

Hom, Peter W. (1984), Professor of Management; B.A., New York University; M.A., University of California, Berkeley; Ph.D., University of Illinois

Homa, Donald L. (1975), Professor of Psychology; B.S., University of Iowa; M.S., Ph.D., University of Wisconsin, Madison

Homer, Judith (1998), Clinical Associate Professor of Counseling Psychology and Counselor Education; Director, Counselor Training Center; B.A., M.S., Ph.D., University of Oklahoma

Hoober, J. Kenneth (1991), Professor of Plant Biology; Chair, Department of Plant Biology; B.A., Goshen College; M.S., Ph.D., University of Michigan
Hood, Stafford (1992), Associate Professor of Counselor Education; B.A., M.S., University of Wisconsin, Whitewater; Ph.D., University of Illinois

Hoover, Helene M. (1957), Professor of Family Resources and Human Development; B.S., M.S., Louisiana State University; Ed.D., Oklahoma State University

Hoppensteadt, Frank C. (1995), Professor of Mathematics and Electrical Engineering; Director, Center for System Science and Engineering Research; B.A., Butler University; M.S., Ph.D., University of Wisconsin, Madison

Horan, Elizabeth R. (1989), Associate Professor of English; A.B., Columbia University; Ph.D., University of California, Santa Cruz

Horan, John J. (1985), Professor of Counseling Psychology and Counselor Education; A.B., M.A., University of Detroit; Ph.D., Michigan State University

Horvath, Peter (1973), Professor of German; Abitur, Realschule, Landshut (Germany); B.A., M.A., Indiana University, Bloomington; Ph.D., University of Michigan

Hotelling, Katsuko T. (1991), Associate Librarian, Original Cataloging; B.A., M.A., University of North Carolina, Chapel Hill; M.A., University of Oregon

Hout, Thomas Ford (1964), Professor Emeritus of Sociology; B.A., University of Illinois; M.A., Whittier College; Ph.D., University of Southern California

Houston, Robert (1996), Lecturer of Computer Science and Engineering; B.S., University of Toledo; M.S., Bowling Green State University

Houston, Sandra L. (1984), Professor of Civil and Environmental Engineering; Chair, Department of Civil and Environmental Engineering; B.S., University of Oklahoma; M.S.C.E., University of New Mexico; Ph.D., University of California, Berkeley

Houston, William N. (1984), Professor of Civil and Environmental Engineering; Professional Degree in Geological Engineering, Colorado School of Mines; M.S.C.E., Ph.D., University of California, Berkeley

Howard, Pamela (1996), Lecturer of Speech and Hearing Science; B.A., M.A., California State University, Fresno

Howells, Edmund G. (1960), Professor Emeritus of Philosophy; B.A., University of Utah; M.A., University of Michigan; M.A., Middlebury College; Ph.D., Stanford University

Hoy, Frank P. (1978), Associate Professor of Journalism and Telecommunication; B.A., George Washington University; M.A., American University

Hubbard, Paul G. (1950), Professor Emeritus of History; A.B., Wabash College; M.A., Ph.D., University of Illinois

Hubele, Norma F. (1984), Professor of Industrial Engineering; B.S., University of Massachusetts; M.S., Ph.D., Rensselaer Polytechnic Institute

Hudak, Thomas (1988), Professor of Anthropology; B.A., M.A., University of Wisconsin, Madison; Ph.D., University of Michigan

Hudelson, Sarah J. (1989), Professor of Curriculum and Instruction; B.A., College of Wooster; M.A., Ph.D., University of Texas, Austin

Huey, Ben M. (1979), Associate Professor of Computer Science and Engineering; Associate Dean for Planning and Administration; B.S., Harding College; M.S., Ph.D., University of Arizona

Huff, Robert A. (1985), Professor Emeritus of Education; B.A., University of Kansas; M.A., University of Missouri, Kansas City; Ed.D., University of Oregon

Hui, Joseph Y. (1999), Professor of Electrical Engineering; Chair, International Switching Symposium; Interim Director, Telecommunications Research Center; B.S., M.S., Ph.D., Massachusetts Institute of Technology

Huizingh, William (1959), Professor Emeritus of Accountancy; B.S., M.B.A., University of Deere; Ph.D., University of Michigan; C.P.A., Arizona, Colorado

Humbeck, Eva (1997), Lecturer of Geography; M.A., Rheinische Friedrich Wilhelm University (Germany); Ph.D., Arizona State University

Humphrey, Ted (1966), Professor of Philosophy; Dean, Craig and Barbara Barrett Honors College; A.B., M.A., University of California, Riverside; Ph.D., University of California, San Diego

Humphreys, Jere T. (1987), Professor of Music; B.M., University of Mississippi; M.M., Florida State University; Ph.D., University of Michigan

Hunter, Betty A. (1966), Professor Emeritus of Family Resources and Human Development; B.S., M.Ed., University of North Carolina, Greensboro

Hunter, Sue (1999), Assistant Librarian, Hayden Reference Services; B.A., McMaster University (Canada); M.L.S., Dalhousie University (Canada)

Huntington, Virginia R. (1962), Professor Emeritus of Accountancy; B.A., M.B.A., University of Kansas; Ph.D., University of Texas; C.P.A., Arizona, Missouri

Hurdle, Donna E. (1997), Assistant Professor of Social Work; B.A., Susquehanna University; M.S.W., University of Maryland, Baltimore; Ph.D., University of South Carolina, Columbia

Hurlbert, Glenn (1990), Associate Professor of Mathematics; B.S., Wake Forest University; M.Sc., State University of New York, Stony Brook; Ph.D., Rutgers, The State University

Huss, Gary (1998), Senior Research Scientist of Geology; B.A., Rice University; M.S., University of New Mexico; Ph.D., University of Minnesota

Hussman, Stephen J. (1999), Assistant Archivist; B.A., Wilmington College of Ohio; M.A., Wright State University

Huston, Gerald D. (1962), Professor Emeritus of Accountancy; B.S.C., M.A., Ph.D., University of Iowa

Hutt, Michael D. (1982), Davis Distinguished Professor of Marketing; B.B.A., M.B.A., Ohio University; Ph.D., Michigan State University

Hwang, Yuhchang (1995), Assistant Professor of Accountancy; B.A., Fu-Jen Catholic University (Taiwan); M.S., National Cheng-Chi University (Taiwan); Ph.D., University of California, Berkeley

Idso, Sherwood J.B. (1984), Adjunct Professor of Geography and Plant Biology; Research Physicist, U.S.D.A. Agricultural Research Service; B.S., M.S., Ph.D., University of Minnesota

Igoe, Ann Reid (1999), Clinical Assistant Professor of Psychology in Education; B.S., Grand Canyon University; M.A., Ph.D., Arizona State University

Ihrig, Edwin (1979), Professor of Mathematics; B.S., M.A., University of Maryland; Ph.D., University of Toronto (Canada)
Imdieke, LeRoy (1968), Professor Emeritus of Accounting; B.S.,
Valley City State College; M.A., University of North Dakota;
Ph.D., University of Illinois; C.P.A., Illinois
Ingram, Leonard W. (1973), Lecturer Emeritus of Education;
B.S., City College of City University; M.A., Ed.D., Columbia
University
Ingram, David (1998), Professor of Speech and Hearing Science;
Chair, Department of Speech and Hearing Science; B.S.,
Georgetown University; Ph.D., Stanford University
Ingram, Kelly D. (1998), Clinical Assistant Professor of Speech
and Hearing Science; B.A., University of British Columbia
(Canada); M.S., Purdue University
Inskeep, Gordon C. (1968), Professor Emeritus of Management;
B.Ch.E., Ohio State University; Ph.D., Columbia University
Irvine, Daniel E. (1995), Lecturer of Theatre; M.F.A., University
of North Carolina, Chapel Hill
Ismeurt, Robert L. (1989), Associate Professor of Nursing;
B.S.N., Florida State University; M.S., Arizona State University;
Ph.D., University of Texas, Austin
Isom, Matthew (1996), Senior Lecturer of Mathematics;
Mathematics Liaison; B.A., Humbolt State University; M.A.,
Ph.D., University of Northern Colorado
Itule, Bruce D. (1985), Clinical Professor of Journalism and
Telecommunication; Director of Student Media; B.A., University
of Arizona; M.A., University of Colorado
Iverson, Peter (1986), Regents’ Professor of History; B.A.,
Carleton College; M.A., Ph.D., University of Wisconsin, Madison
Iyer, Govind (1998), Assistant Professor of Accountancy; B.S.,
University of Bombay (India); M.Tx., Ph.D., Georgia State
University
J
Jackiewicz, Elzbieta (1994), Lecturer of Mathematics; M.Sc.,
University of Gdansk (Poland)
Jackiewicz, Zdzislaw (1987), Professor of Mathematics; M.S.,
Technical University of Gdansk (Poland); M.S., Ph.D., University
of Gdansk (Poland)
Jacks, Mary L. (1955), Professor Emeritus of Business
Administration; B.A., M.A., Arizona State University; C.P.S.,
Arizona
Jackson, Donald W. Jr. (1972), Professor of Marketing; B.A.,
Albion College; M.B.A., Ph.D., Michigan State University
Jackson, Naomi M. (1995), Assistant Professor of Dance; B.A.,
McGill University (Canada); M.A., University of Surrey (United
Kingdom); Ph.D., New York University
Jacob, Richard J. (1963), Professor of Physics and Astronomy;
B.S., Ph.D., University of Utah
Jacobowitz, Ronald (1970), Professor Emeritus of Mathematics;
B.A., City College of New York; M.S., University of Chicago;
Ph.D., Princeton University
Jacobs, Bertram L. (1985), Professor of Microbiology; Director,
Interdisciplinary Committee for Molecular and Cellular Biology;
B.S., Rutgers, The State University; Ph.D., University of California,
Berkeley
Jacobs, H. Donald (1972), Professor Emeritus of Reading and
Library Science; Director, Reading Clinic; B.A.Ed., M.A.Ed.,
Central Washington State College; D.Ed., University of Oregon
Jacobson, Arthur (1956), Professor Emeritus of Art; B.S., M.S.,
University of Wisconsin, Madison; Ph.D., University of Minnesota,
Twin Cities
Jacobson, David (1992), Associate Professor of Sociology; B.A.,
Hebrew University of Jerusalem, (Israel); M.S., London School of
Economics, (United Kingdom); Ph.D., Princeton University
Jacobson, Dean L. (1974), Professor Emeritus of Materials
Science and Engineering; B.S., M.S., University of Notre Dame;
Ph.D., University of California, Los Angeles
Jacobson, Diana L. (1996), Faculty Associate of Nursing; B.S.N.,
University of Arizona; M.S., Arizona State University
Jain, Nemi C. (1976), Professor of Communication; B.S., M.S.,
Agra University (India); Ph.D., Michigan State University
James, Steven R. (1995), Adjunct Professor of Anthropology; B.A.
University of California, Berkeley; M.A., University of Utah;
Ph.D., Arizona State University
Jankowski, Daniel F. (1964), Professor of Mechanical and
Aerospace Engineering; Director, Engineering Core and Special
Studies; Director, School of Engineering; Associate Dean,
Academic Affairs, College of Engineering and Applied Sciences;
B.S.E., M.S.E., Ph.D., University of Michigan
Janssen, James G. (1968), Professor Emeritus of English; B.A.,
M.A., Marquette University; Ph.D., University of Wisconsin,
Madison
Jasper, Marcia A. (1976–86; 1993), Clinical Associate Professor
of Nursing; B.S.N., Saint Olaf College; M.S., Arizona State
University
Jay, Bill (1974), Professor of Art; Diploma, Institute of
Incorporated Photographers, Berkshire College of Art (United
Kingdom); Final Diploma, City and Guildes of The London
Institute, Berkshire College of Art (United Kingdom); M.A.,
M.F.A., University of New Mexico
Jelinek, James (1953), Professor Emeritus of Education; B.S.,
University of Illinois; M.A., Northwestern University; Ed.D.,
Indiana University, Bloomington
Jenkins, William (1979), Associate Professor of Art; B.A., Saint
Lawrence University; M.F.A., State University of New York,
Buffalo
Jennings, Marianne M. (1977), Professor of Legal and Ethical
Studies; B.S., J.D., Brigham Young University
Joehnk, Michael D. (1982), Professor of Finance; B.S.,
University of Arizona; M.B.A., Arizona State University; Ph.D.,
University of Arizona
Joganic, Edward F. (1996), Adjunct Professor of Speech and
Hearing Science; B.S., M.D., M.S., University of Arizona
Johnson, Donald C. (1997), Professor of Anthropology; Director,
Institute of Human Origins; B.A., University of Illinois, Urbana-
Champaign; M.A., Ph.D., University of Chicago
Johnson, Alan P. (1967), Professor Emeritus of English; B.A.,
Amherst College; M.A., University of Michigan; Ph.D., University
of Minnesota, Twin Cities
Johnson, Douglas A. (1974), Professor of Accountancy; B.B.A.,
Ph.D., University of Texas; C.P.A., Texas
Johnson, John M. (1972), Professor of Justice Studies; B.A.,
Indiana University, Bloomington; M.A., San Diego State College;
Ph.D., University of California, San Diego
Johnson, Linda Nelson (1985), Associate Professor of Design;
B.A., M.A., Iowa State University
Johnson, Marysia (1997), Assistant Professor of English; B.A., Saint Francis College, Brooklyn; M.A., Monterey Institute of International Studies; Ph.D., Georgetown University

Johnson, Paul C. (1994), Associate Professor of Civil and Environmental Engineering; B.S., University of California, Davis; M.A., Ph.D., Princeton University

Johnson, Penelope M. (1995), Clinical Assistant Professor of Nursing; B.S., University of Colorado; M.S., Arizona State University

Johnson, Randall A. (1984), Adjunct Associate Professor of Environmental Resources; B.S., California State Polytechnic University, Pomona; M.S., Ph.D., University of Missouri, Columbia

Johnson, Robert A. (1999), Adjunct Professor of Biology; B.S., M.S., University of Illinois, Urbana-Champaign; Ph.D., Arizona State University

Johnson, Roy M. (1952–53; 1955), Professor Emeritus of Microbiology; A.B., M.S., University of Chicago; Ph.D., University of New Mexico

Johnson, Wendee (1990), Clinical Assistant Professor of Nursing; B.S.N., Gustavus Adolphus College; M.S.N., University of Pennsylvania

Johnson, William G. (1990), Professor of Health Administration and Policy; B.S., University of Pennsylvania; M.A., Temple University; Ph.D., Rutgers, The State University

Johnson, William S. (1990), Executive Director, Division of Undergraduate Academic Services; B.A., Washington State University; M.S., Iowa State University; Ph.D., University of Southern California

Johnston, Hubert (1986), Clinical Associate Professional of Social Work; B.S., Cheyney State College; M.A., Central Michigan University; Ph.D., Cornell University

Jones, Austin E. (1968), Professor Emeritus of Psychology; B.A., University of Illinois; M.S., Purdue University; Ph.D., University of Rochester

Jones, Daisy (1963), Professor Emeritus of Education; B.S., M.S., Indiana State University; Ed.D., Indiana University, Bloomington

Jones, Don (1996), Assistant Professor of Mathematics; B.S., M.S., Georgia Institute of Technology; Ph.D., University of California, Irvine

Jones, Elizabeth E. K. (1996), Lecturer of Mathematics; B.S., M.A., University of Texas; Ph.D., Arizona State University

Jones, Jennifer (1999), Adjunct Professor of Anthropology; B.A., State University of New York, Binghamton; Ph.D., Arizona State University

Jones, John (1990), Associate Professor of Mathematics; Associate Chair, Undergraduate Studies; A.B., University of California, Berkeley; Ph.D., Harvard University

Jones, Kathy (1996), Lecturer of Exercise Science and Physical Education; B.A., University of California, Berkeley; M.S., Ph.D., Arizona State University

Jones, Owen D. (1994), Professor of Law; B.A., Amherst College; J.D., Yale University

Jones, Ruth (1981), Professor of Political Science; Executive Assistant for University Programs; B.S., Indiana State University; M.A., Ph.D., Georgetown University

Jonsson, Hjorleifur (1999), Assistant Professor of Anthropology; B.A., University of Iceland (Iceland); M.A., University of Iowa; M.A., Ph.D., Cornell University

Jordan, K. Forbis (1987), Professor Emeritus of Educational Administration and Supervision; A.B., M.A., Western Kentucky State College; Ed.D., Indiana University

Joyal, Elaine (1998), Adjunct Professor of Anthropology; B.A., Antioch College; M.S., Oregon State University; Ph.D., Arizona State University

Jurik, Nancy (1981), Professor of Justice Studies; B.A., M.A., Southern Methodist University; Ph.D., University of California, Santa Barbara

Justus, Jerry T. (1968), Professor Emeritus of Biology; B.A., Franklin College; M.A., Ph.D., Indiana University, Bloomington

Juvet, Richard S. Jr. (1970), Professor Emeritus of Chemistry and Biochemistry; B.S., Ph.D., University of California, Los Angeles

K

Kadell, Kevin (1981), Professor of Mathematics; B.A., California State University, Sacramento; M.A., University of Maryland; Ph.D., Pennsylvania State University

Kader, David (1979), Professor of Law; B.A., California State University, Fresno; J.D., University of Washington; LL.M., University of London (United Kingdom)

Kagy, Virginia L. (1947), Professor Emeritus of Family Resources and Human Development; B.A., Drake University; M.S., Iowa State University; Ph.D., Johns Hopkins University

Kahn, B. Winston (1966), Associate Professor of History; B.A., National Taiwan University (Taiwan); M.A., University of Minnesota, Twin Cities; Ph.D., University of Pennsylvania

Kahn, Kim F. (1989), Associate Professor of Political Science; A.B., M.A., Ph.D., University of Michigan

Kaida, Tamarra (1980), Professor of Art; B.A., Goddard College; M.F.A., State University of New York, Buffalo

Kajikawa, William M. (1937), Professor Emeritus of Physical Education; B.A., M.A., Arizona State University

Kaliszewski, Steven (1998), Assistant Professor of Mathematics; B.A., Saint Olaf College; M.A., Ph.D., Dartmouth College

Kambhampati, Subbarao (1991), Associate Professor of Computer Science and Engineering; B.Tech, Indian Institute of Technology (India); M.S., Ph.D., University of Maryland, College Park

Kamins, Martin P. (1970), Professor Emeritus of Elementary Education; B.Ed., University of Miami; M.S., Florida State University; Ed.D., Wayne State University

Kaminsky, Elijah Ben-Zion (1962), Professor Emeritus of Political Science; A.B., A.M., Ph.D., Harvard University

Kaminsky, Selina K. (1988), Assistant Librarian Emeritus; B.Ed., University of Miami; M.A.L.S., University of Denver

Kaplan, Robert G. (1984), Professor of Dance; B.M.E., University of Hartford; M.M., Arizona State University

Kaplan, Steven (1981), Professor of Accountancy; B.S., Arizona State University; M.A.S., Ph.D., University of Illinois

Karady, George (1986), Professor of Electrical Engineering; Salt River Project Chair; Diploma, Technical University, Budapest (Hungary); Candidate of Technical Sciences, Hungarian Academy of Science (Hungary); Ph.D., Budapest University for Technical Sciences (Hungary)
Karam, Lina (1995), Assistant Professor of Electrical Engineering; B.E., American University of Beirut (Lebanon); M.S., Ph.D., Georgia Institute of Technology
Karjala, Dennis S. (1978), Professor of Law; B.S.E., Princeton University; M.S., Ph.D., University of Illinois; J.D., University of California, Berkeley
Karnes, Thomas L. (1968), Professor Emeritus of History; A.B., Colorado University; A.M., Ph.D., Stanford University
Karoly, Paul (1982), Professor of Psychology; B.A., City College of New York; Ph.D., University of Rochester
Karpman, Robert R. (1990), Adjunct Professor of Engineering; B.A., LaSalle College; M.B.A., University of Phoenix; M.D., University of Pennsylvania
Kashiwagi, Dean T. (1982), Associate Professor of Construction; B.S., University of Hawaii, Manoa; M.S., Ph.D., Arizona State University
Kastenbaum, Beatrice (1982), Clinical Associate Professor of Nursing; B.S.N., University of Michigan; M.S.N., Wayne State University
Kastenbaum, Robert J. (1981), Professor Emeritus of Gerontology and Communication; B.A., Long Beach State College; Ph.D., University of Southern California
Katz, Richard C. (1990), Adjunct Professor of Speech and Hearing Science; B.A., M.A., University of Massachusetts; Ph.D., University of Florida
Kaufman, Herbert M. (1973), Professor of Finance; Chair, Department of Finance; B.A., State University of New York, Binghamton; Ph.D., Pennsylvania State University
Kaufman, Irving (1965), Professor Emeritus of Electrical Engineering; B.E., Vanderbilt University; M.S., Ph.D., University of Illinois
Kaufman, William B. (1968), Professor of Physics and Astronomy; A.B., M.A., Ph.D., University of California, Berkeley
Kawski, Matthias (1988), Professor of Mathematics; Ph.D., University of Colorado
Kaye, David H. (1976), Regents’ Professor of Law; B.S., Massachusetts Institute of Technology; M.A., Harvard University; J.D., Yale University
Kazilek, Charles J. (1985), Senior Research Professional of Biology; B.F.A., M.N.S., Arizona State University
Kazmier, Leonard J. (1965), Professor Emeritus of Statistics; B.A., M.A., Wayne State University; Ph.D., Ohio State University
Kearney, James R. III (1968), Professor Emeritus of History; B.A., Pomona College; M.A., Washington University; Ph.D., University of Wisconsin, Madison
Keating, Thomas (1972), Associate Instructional Professional of Political Science; B.A., M.A., California State University, Sacramento; M.P.A., Ph.D., Indiana University
Keats, Barbara W. (1984), Associate Professor of Management; B.A., Louisiana Technical University; M.S., Northeast Louisiana University; Ph.D., Oklahoma State University
Keats, J. Bert (1984), Professor of Industrial Engineering; B.S.I.E., Lehigh University; M.S., Ph.D., Florida State University; Ph.D., Oklahoma State University
Keefer, Donald L. (1987), Associate Professor of Management Science; B.S., Carnegie-Mellon University; M.S., Stanford University; M.S., Ph.D., University of Michigan
Kehl, Delmar G. (1965), Professor of English; B.A., Bob Jones University; M.S., University of Wisconsin, Madison; Ph.D., University of Southern California
Kell, M. Lorraine (1999), Faculty Associate of Nursing; B.S.N., Spalding University; M.S., University of Louisville
Kellin, Robert T. (1979), Associate Professor of Computer Information Systems; B.S., M.B.A., Ph.D., University of Pittsburgh
Keith, Verna M. (1990), Associate Professor of Sociology; B.S., University of Central Arkansas; M.A., Ph.D., University of Kentucky
Keller, Gary D. (1986), Regents’ Professor of Spanish; Interim Director, Hispanic Research Center; B.A., University of the Americas (Mexico); M.A., New School for Social Research; M.A., Ph.D., Columbia University
Keller, Thomas (1980), Associate Professor of Management; B.Ed., M.Ed., Ed.Spec., Ed.D., University of Toledo
Kelly, John B. (1962), Professor Emeritus of Mathematics; B.A., Columbia University; Ph.D., Massachusetts Institute of Technology
Kelly, Richard W. (1965), Professor Emeritus of Electrical Engineering; B.S.E., M.S.E., Ph.D., University of Iowa
Kelly, Rob Roy (1983), Professor Emeritus of Art; B.F.A., Minneapolis School of Art; M.F.A., Yale University
Kennedy, Thomas D. (1974), Professor Emeritus of Justice Studies; B.A., Tulane University; M.A., Ph.D., Louisiana State University, Baton Rouge
Kenny, Janet W. (1988), Professor Emeritus of Nursing; B.S., Alfred University; M.S., Boston University; Ph.D., State University of New York, Buffalo
Kenney, Patrick J. (1986), Associate Professor of Political Science; B.A., M.A.P.A., Ph.D., University of Iowa
Kenrick, Douglas T. (1980), Professor of Psychology; B.A., Dowling College; M.A., Ph.D., Arizona State University
Kerr, Barbara A. (1990), Professor of Counselor Education and Counseling Psychology; A.B., University of Missouri; M.A., Ohio State University; Ph.D., University of Missouri
Kerr, Nancy J. (1967), Professor Emeritus of Education; B.S., University of Illinois; M.A., Ph.D., University of Houston
Kester, Grant (1999), Assistant Professor of Art; B.F.A., Maryland Institute, College of Art; Ph.D., University of Rochester
Kettner, Peter M. (1979), Professor of Social Work; B.A., Valparaiso University; M.S.W., Washington University; D.S.W., University of Southern California
Keuter, Clifford D. (1988), Professor of Dance
Kevane, Clement J. (1956), Professor Emeritus of Physics and Astronomy; B.S., Ph.D., Iowa State University
Khoo, Sick-Toon (1997), Assistant Professor of Psychology; B.Sc., University of Canterbury (New Zealand); M.Ed.St., Monash University (Australia); Ph.D., University of California, Los Angeles
Kidd, Pamela (2000), Professor of Nursing; Associate Dean for Graduate Programs and Research; B.S., University of Kentucky; M.S., University of Cincinnati; Ph.D., University of Arizona
Kierstead, Henry A. (1988), Professor of Mathematics; B.A., M.A., Ph.D., University of California, San Diego
Kiesow, Milton A. (1957), Professor Emeritus of Education; B.S., University of Wisconsin; M.A., Ph.D., University of Nebraska, Lincoln
Kihl, Mary (1996), Professor of Planning and Landscape Architecture; Associate Dean, College of Architecture and Environmental Design; Director, Herberger Center for Design Excellence; A.B., Juniata College; M.U.R.P., University of Pittsburgh; M.A., University of Michigan; Ph.D., Pennsylvania State University

Killeen, Mary (1982–84; 1986), Associate Professor of Nursing; Associate Dean for Undergraduate Programs and Extended Education, College of Nursing; B.S.N., M.S., Arizona State University; Ph.D., University of Texas, Austin

Killeen, Peter R. (1968), Professor of Psychology; B.S., Michigan State University; Ph.D., Harvard University

Kim, Joochul (1980), Associate Professor of Planning and Landscape Architecture; B.A., University of California, Berkeley; M.U.P., Ph.D., University of Michigan

Kim, Moon J. (1990), Associate Research Scientist, Center for Solid-State Science; M.S., Ph.D., Arizona State University

Kimball, Bruce A. (1988), Adjunct Professor of Plant Biology; B.S., University of Minnesota; M.S., Iowa State University; Ph.D., Cornell University

Kimbel, William H. (1997), Associate Professor of Anthropology; Science Director, Institute of Human Origins; B.A., Case Western Reserve University; Ph.D., Kent State University

Kimler, Stephen J. (1967), Professor Emeritus of Education; B.Ed., Milwaukee State Teachers College; M.Ed., Marquette University; Ed.D., Arizona State University

Kingsbury, Warren T. (1964), Professor Emeritus of Education; A.B., Central College; A.M., University of Missouri; Ed.D., New York University

Kingston, Jerry L. (1969), Professor of Economics; ICA Faculty Representative; B.A.E., Wayne State College; M.S., Colorado State University; Ph.D., Pennsylvania State University

Knapp, Margaret M. (1990), Professor of Theatre; B.A., LeMoyne College; M.A., Ph.D., City University of New York

Knapp, Jeffrey M. (1981), Professor of Plant Biology; B.S., M.S., University of Wisconsin, Milwaukee; Ph.D., Cornell University

Knapp, Jonathan E. (1970), Associate Professor of Elementary Education; B.S., Oregon State University; M.A., Ph.D., University of Illinois

Knaupp, Jonathan E. (1964), Professor Emeritus of Spanish; B.A., University of Oregon

Knauth, L. Paul (1979), Professor Emeritus of Engineering; B.E.E., Marquette University; M.S.E., Ph.D., Arizona State University

Knight, Donald O. (1981), Professor Emeritus of Engineering; B.E.E., Marquette University; M.S.E., Ph.D., Arizona State University

Knight, George P. (1986), Professor of Psychology; B.A., Macalester College; M.A., Ph.D., University of California, Riverside

Knight, Leland W. (1978), Professor Emeritus of Design; B.P.A., Art Center College of Design; M.F.A., Stanford University

Knipping, Uwe Fred (1988), Associate Research Professor of Physics and Astronomy; B.Sc., University of Cologne (Germany)

Koeneman, James B. (1984), Adjunct Professor of Bioengineering; B.S., University of Minnesota; M.S., Ph.D., Case Western Reserve University

Koerner, Kurt J. (1993), Faculty Associate of Construction; B.S., U.S. Air Force Academy; M.S., Golden Gate University

Kleinfeld, Gerald R. (1962), Professor of History; B.A., New York University; M.A., University of Michigan; Ph.D., New York University

Klett, Mark C. (1982), Associate Professor of Art; B.S., Saint Lawrence University; M.F.A., State University of New York, Buffalo

Kliwer-Britton, Darleen (1975), Professor of Music; B.M.E., Bethany College; M.M., Wichita State University

Kling, Alisa M. (1997), Assistant Professor of Women’s Studies; B.A., University of Toronto (Canada); M.A., Queen’s University, Kingston (Canada); Ph.D., University of California, Berkeley

Klock, John W. (1960), Professor Emeritus of Engineering; B.E., University of Southern California; M.S., Ph.D., University of California, Berkeley

Klopatek, Carole Coe (1992), Assistant Research Professor of Microbiology; B.S., Ph.D., Arizona State University

Klopatek, Jeffrey M. (1981), Professor of Plant Biology; B.S., M.S., University of Wisconsin, Milwaukee; Ph.D., Cornell University

Knowlton, John F. (1980), Professor Emeritus of Engineering; B.E., Marquette University; M.S.E., Ph.D., Arizona State University

Knapp, Margaret J. (1998), Assistant Professor of Biology; B.S., University of Illinois, Urbana-Champaign; M.S., Ph.D., University of California, Berkeley

Kipke, Daryl R. (1992), Associate Professor of Bioengineering; B.S.E., M.S., M.S.E., Ph.D., University of Michigan, Ann Arbor

Kirkman-Liff, Bradford L. (1981), Professor of Health Administration and Policy; B.S., M.S., Carnegie-Mellon University; Dr.P.H., University of North Carolina, Chapel Hill

Kirkwood, Craig W. (1983), Professor of Management Science; S.B., S.M., E.E., Ph.D., Massachusetts Institute of Technology

Klann, Margaret L. (1945), Professor Emeritus of Physical Education; B.S., University of Illinois; M.A., University of Northern Colorado

Klein, James D. (1988), Professor of Education; Transition Training Director, Learning and Instructional Technology; B.A., Florida Atlantic University; M.S., Ph.D., Florida State University

Kliewer-Britton, Darleen (1975), Professor of Music; B.M.E., Bethany College; M.M., Wichita State University

Koll, Alisa M. (1997), Assistant Professor of Women’s Studies; B.A., University of Toronto (Canada); M.A., Queen’s University, Kingston (Canada); Ph.D., University of California, Berkeley

Klock, John W. (1960), Professor Emeritus of Engineering; B.E., University of Southern California; M.S., Ph.D., University of California, Berkeley

Klopatek, Carole Coe (1992), Assistant Research Professor of Microbiology; B.S., Ph.D., Arizona State University

Klopatek, Jeffrey M. (1981), Professor of Plant Biology; B.S., M.S., University of Wisconsin, Milwaukee; Ph.D., Cornell University

Knapp, Margaret M. (1990), Professor of Theatre; B.A., LeMoyne College; M.A., Ph.D., City University of New York

Knaupp, Jonathan E. (1970), Associate Professor of Elementary Education; B.S., Oregon State University; M.A., Ph.D., University of Illinois

Knaupp, Jonathan E. (1964), Professor Emeritus of Spanish; B.A., University of Oregon

Knox, Robert L. (1963), Professor Emeritus of Economics; B.S., M.S., Oklahoma State University; Ph.D., University of North Carolina

Knutson, Klok (1997), Assistant Professor of Construction; B.S., M.S., Ph.D., Arizona State University

Knutson-Woods, Teri (1997), Academic Professional of Social Work; B.A., Grand Canyon University; M.S.W., Arizona State University

Kobes, Bernard W. (1986), Associate Professor of Philosophy; B.A., Calvin College; M.A., Ph.D., University of California, Los Angeles

Kobitz, Ann Hibner (1988), Associate Professor of Women’s Studies; A.B., Princeton University; Ph.D., Boston University

Koeneman, James B. (1984), Adjunct Professor of Bioengineering; B.S., University of Minnesota; M.S., Ph.D., Case Western Reserve University
Koka, Balaji (1999), Assistant Professor of Management; B.E., Madurai Kamaraj University (India); M.B.A., Indian Institute of Management, Calcutta (India); Ph.D., University of Pittsburgh
Kolossa, Katalin (1994), Senior Lecturer of Mathematics; B.A., Eotvos University (Hungary); M.A., Ph.D., Arizona State University
Komnenich, Pauline (1984), Associate Professor of Nursing; Chair, Division of Community Health/Psychosocial Nursing Systems; B.S., Stanford University; M.N., University of Washington; M.A., Ph.D., University of Arizona
Konomos, Philip J. (1991), Associate Learning Research Specialist, Library Instruction, Systems, and Technology; B.S., M.Ed., Arizona State University
Koonce, Frank W. (1978), Professor of Music; B.M., North Carolina School of the Arts; M.M., Southern Methodist University
Kop, Anne Elgar (1999), Associate Professor of Music
Korbas, Crystal L. (1998), Assistant Professor of Aerospace Studies; B.S., California State University, Hayward; M.B.A., University of South Carolina, Columbia
Kore, Peter (1995), Instructor of Thai; B.A., Bard College; Ph.D., University of London (United Kingdom)
Koos-Chioino, Joan D. (1992), Professor of Anthropology; B.F.A., Temple University; M.A., Ph.D., University of Pennsylvania
Kostelich, Eric (1989), Professor of Mathematics; B.S., University of North Carolina; M.S., Ph.D., University of Maryland, College Park
Kouris, Demetris A. (1987), Associate Professor of Engineering; Diploma in Civil Engineering, National Technical University of Athens (Greece); M.S., Illinois Institute of Technology; Ph.D., Northwestern University
Kouvetsakis, John (1992), Associate Professor of Chemistry and Biochemistry; B.S., Ph.D., University of California, Berkeley
Kozel, Dorothy Piercey (1968), Professor Emeritus of Education; B.A., College of St. Francis; M.A., Arizona State University; Ph.D., University of Arizona
Kozicki, Michael (1986), Professor of Electrical Engineering; Director, Center for Solid-State Electronics Research; B.S., Ph.D., University of Edinburgh (United Kingdom)
Krahenbuhl, Gary S. (1973), Professor of Exercise Science and Physical Education; Dean, College of Liberal Arts and Sciences; B.S., M.S., Northern Illinois University; Ed.D. University of Northern Colorado
Krajcinovic, Dusan (1989), Professor of Engineering; B.Sc., M.Sc., University of Belgrade (Yugoslavia); Ph.D., Northwestern University
Krause, Stephen J. (1981), Professor of Materials Science and Engineering; B.S., Northwestern University; M.S., Illinois Institute of Technology; Ph.D., University of Michigan
Kreitner, Robert J. III (1975), Senior Lecturer of Management; B.S., M.B.A., University of Nebraska, Omaha; Ph.D., University of Nebraska, Lincoln
Kriensley, David (1976), Professor Emeritus of Geology; Ph.B., S.B., S.M., Ph.D., University of Chicago
Kroeger, Michael (1997), Faculty Associate of Design; M.F.A., Rhode Island School of Design
Kroelinger, Michael D. (1980), Professor of Design; Director, Ph.D. program in Environmental Planning in Design; B.S., University of Alabama; M.S., Ph.D., University of Tennessee, Knoxville
Kroloff, Reed A. (1987), Associate Professor of Architecture; Undergraduate Coordinator, School of Architecture; B.A., Yale University; M.Arch., University of Texas, Austin
Kronengold, Jennie J. (1990), Professor of Sociology; B.A., University of North Carolina, Chapel Hill; M.A., Ph.D., Brown University
Kronengold, Eric A. (1970), Associate Professor of Art; B.A., M.A., San Francisco State University
Krus, David J. (1975), Professor of Psychology in Education; B.A., M.A., Charles University; Ph.D., University of Minnesota, Twin Cities
Krush, Glenn (1999), Assistant Professor of Political Science; B.A., M.A., University of Nevada; Ph.D., Texas A&M University
Krusz, Katherine J. (1990), Associate Archivist, Special Collections; B.A., California State University, Hayward; M.F.A., Arizona State University
Kuang, Yang (1988), Professor of Mathematics; B.S., University of Science and Technology (China); Ph.D., University of Alberta (Canada)
Kuby, Lauren H. (1995), Academic Associate, Community Liaison; B.A., University of Chicago; M.A., Arizona State University
Kuby, Michael (1988), Associate Professor of Geography; B.A., University of Chicago; Ph.D., Boston University
Kruglak, Jack (1998), Professor of Interdisciplinary Humanities; B.A., McGill University (Canada); M.A., Ph.D., New School for Social Research
Kuijper, Hendrik J. (1971), Professor of Mathematics; B.S., University of Wisconsin, Milwaukee; M.S., M.A., Ph.D., University of Wisconsin, Madison
Kulhavy, Raymond W. (1971), Regents’ Professor of Psychology in Education; Academic Program Coordinator and Training Director, School of Psychology; A.B., M.A., California State College, San Diego; Ph.D., University of Illinois
Kulik, Carol (1997), Professor of Management; B.S., Ph.D., University of Illinois, Urbana-Champaign
Kulis, Stephen (1984), Professor of Sociology; B.A., George Washington University; M.A., Ph.D., Columbia University
Kulkarni, Uday R. (1988), Associate Professor of Computer Information Systems; B.Tech., Indian Institute of Technology (India); M.B.A., Indian Institute of Management, Calcutta (India); Ph.D., University of Wisconsin, Milwaukee
Kumar, Ajith (1991), Professor of Marketing; B.S., Indian Institute of Technology (India); Postgraduate Diploma, Indian Institute of Management (India); Ph.D., University of Massachusetts
Kumar, Sudhir (1998), Assistant Professor of Biology; B.S., M.S., Birla Institute of Technology and Science (India); Ph.D., Pennsylvania State University
Kuo, Chen-Yuan (1986), Associate Professor of Engineering; B.S., National Taiwan University (Taiwan); M.S., Northwestern University; Ph.D., University of California, Berkeley
Kupper, Eugene (1996), Associate Professor of Architecture; B.Arch., University of California, Berkeley; M.Arch., Yale University

Kurtz, Lynn C. (1967), Associate Professor of Mathematics; B.S., South Dakota School of Mines and Technology; M.S., Ph.D., University of Utah

Kyselka, Christine K. (1990), Associate Administrative Professional, College of Extended Education; Assistant Director, Distance Learning Technology, College of Extended Education; B.S., M.P.A., Arizona State University

L

Laananen, David (1983), Professor of Mechanical and Aerospace Engineering; B.S., Worcester Polytechnic Institute; M.S., Ph.D., Northeastern University

Laetz, Hans G. (1964), Professor Emeritus of German; B.A., University of California, Berkeley; M.A., Ph.D., Stanford University

LaFaro, Lydia E. (1988), Librarian; Team Leader, Hayden Reference Services; B.S., Georgetown University; M.L.S., Emory University

Lafford, Barbara (1980), Associate Professor of Spanish; Associate Dean, College of Extended Education; B.A., Middlebury College; M.A., Ph.D., Cornell University

Lafford, Peter A. (1989), Associate Research Professional of Languages and Literatures; Director, Language Computing Laboratory; B.A., Cornell University; M.A., Arizona State University; M.A., Middlebury College

Lage, Chiara (1998), Lecturer of Italian; G.A. Farina, Teacher’s College, Vicenza (Italy); Laurea, University of Study of Urbino (Italy)

Lai, Richard T. (1973), Professor of Planning and Landscape Architecture; B.A., M.F.A., Princeton University; Ph.D., University of Pennsylvania

Lai, Ying-Cheng (1999), Associate Professor of Mathematics and Electrical Engineering; B.S., M.S., Zhejiang University (China); Ph.D., University of Maryland, College Park

Lake, Robert L. (1958), Professor Emeritus of Mathematics; B.S., South Dakota School of Mines and Technology; M.A., Arizona State University

Lamorey, Suzanne G. (1998), Assistant Professor of Early Childhood/Special Education; B.A., University of California, Berkeley; M.S., Arizona State University; Ph.D., University of Oregon

Lan, Zhiyong (1991), Associate Professor of Public Affairs; B.A., Nanjing University (China); M.P.A., North Carolina State University, Raleigh; Ph.D., Syracuse University

Landeira, Ricardo L. (1962), Professor Emeritus of Spanish; Bachiller Universitario, University of Santiago (Spain); Maestro Nacional, Normal School of Santiago (Spain); Ph.D., University of Colorado

Landers, Daniel M. (1981), Regents’ Professor of Exercise Science and Physical Education; Undergraduate Advisor; B.S., State University of New York, Brockport; M.S., University of Washington

Landrum, Leslie R. (1986), Herbarium Curator of Plant Biology; B.S., Syracuse University; M.S., Ph.D., University of Michigan

Lane, Peter (1998), Assistant Professor of Management; B.S., University of New Hampshire; M.B.A., University of Massachusetts; Ph.D., University of Connecticut

Laner, Mary R. (1976), Professor of Sociology; A.B., University of Chicago; M.A., University of New Mexico; Ph.D., Virginia Polytechnic Institute and State University

Langland, Jeff (1995), Assistant Research Professor of Microbiology; B.S., Ph.D., Arizona State University

Lanyon, Richard L. (1975), Professor of Psychology; B.E., University of Adelaide (Australia); M.A., Ph.D., University of Iowa

LaPointe, Leonard L. (1984), Professor of Speech and Hearing Science; Chair, Department of Speech and Hearing Science; B.A., Michigan State University; M.A., Ph.D., University of Colorado

Larimer, John W. (1969), Professor of Geology; B.A., M.S., Ph.D., Lehigh University

Larson, Nancy C. (1999), Assistant Professor of Social Work; B.A. Human Services, Western Washington University; M.S.W., Ph.D., University of Washington

Lastovicka, John L. (1992), Professor of Marketing; B.S., M.S., Ph.D., University of Illinois

Lauderdale, Pat (1981), Professor of Justice Studies; B.A., University of Oklahoma; M.A., University of Texas, Austin; M.A., Ph.D., Stanford University

Lavrin, Asuncion (1995), Professor of History; B.A., University of Havana; M.A., Radcliffe College; Ph.D., Harvard University

Lawson, Anton E. (1977), Professor of Biology; B.S., University of Arizona; M.A., University of Oregon; Ph.D., University of Oklahoma

Le, Thuy-Kim Pham (1997), Instructor of Vietnamese; B.A., Saigon University (Vietnam); B.A., M.Ed., Arizona State University

Lea, John H. (1980), Senior Lecturer of Management; B.S., M.B.A., Arizona State University

Leathers, Chester R. (1957), Professor Emeritus of Microbiology; B.S., Eastern Illinois University; M.S., Ph.D., University of Michigan

LeCroy, Craig (1992), Professor of Social Work; B.S.W., San Jose State University; M.S.W., Western Michigan University; Ph.D., University of Wisconsin

Lee, James J. (1995), Adjunct Faculty of Microbiology; B.S., State University of New York, Stony Brook; Ph.D., California Institute of Technology

Lee, Nancy A. (1995), Adjunct Faculty of Microbiology; B.S., Memphis State University; Ph.D., Cornell University

Lee, Tae-woo (1993), Associate Professor of Mechanical and Aerospace Engineering; B.S., Ohio State University; M.S.E., Ph.D., University of Michigan

Lefevre, Mary Anne (1990), Clinical Assistant Professor of Clinical Laboratory Sciences; B.S., Arizona State University; M.A., Central Michigan University

Lehman, James P. (1985), Associate Research Professional of Chemistry and Biochemistry; B.S., M.S., Miami University; Ph.D., University of Cincinnati

Lehman, Peter (1999), Professor of Interdisciplinary Humanities; B.S., M.A., Ph.D., University of Wisconsin, Madison
Leibold, Anne M. (1977), Librarian Emeritus; M.A., University of Paris (France)

Leigh, Frederic A. (1979), Senior Administrative Professional and Clinical Professor of Journalism and Telecommunication; B.A., University of South Dakota; M.A., University of Iowa; Ed.D., Arizona State University

Leinenweber, Kurt (1994), Assistant Research Professional of Chemistry and Biochemistry; B.S., Brown University; Ph.D., Princeton University

Lemmon, Michael L. (1995), Assistant Professor of Finance; B.S., M.S., Ph.D., University of Utah

Lenz, Richard G. (1985), Associate Professor of Journalism and Telecommunication; A.B., University of North Alabama; M.A., Southern Illinois University, Carbondale; Ph.D., University of Iowa

Leon, Luis Daniel (1999), Assistant Professor of Religious Studies; A.B., University of California, Berkeley; M.T.S., Harvard University; Ph.D., University of California, Santa Barbara

Leonard, Donald J. (1974), Associate Professor of Management Communication; B.S., M.B.A., Nicholls State University; Ph.D., Louisiana State University

Leonard, Philip A. (1968), Professor of Mathematics; A.B., Boston College; M.A., Ph.D., Pennsylvania State University

Leong, Karen (1999), Assistant Professor of Women’s Studies; A.B., M.A., Ph.D., University of California, Berkeley

Lersch, Judy (1999), Faculty Associate of Nursing; B.S.N., University of Arizona; M.Ed., Northern Arizona University; M.S., Arizona State University

Leshin, Laurie (1998), Assistant Professor of Geology; B.S., Arizona State University; M.S., Ph.D., California Institute of Technology

Leshowitz, Barry H. (1970), Associate Professor of Psychology; B.S., M.A., Brooklyn College; Ph.D., City University of New York

Lesky, John D. (1980), Professor of Law; A.B., J.D., Harvard University

Lessard, Elizabeth C. (1969), Professor Emeritus of Dance; B.S., Georgia College; M.A., Ph.D., Texas Woman’s University

Lester, Neal (1997), Professor of English; B.A., West Georgia College; M.A., Ph.D., Vanderbilt University

Levan, Frederick D. (1965), Professor Emeritus of Educational Administration and Supervision; B.S., M.Ed., Pennsylvania State University; Ed.D., Oklahoma State University

Levine, Gustav (1967), Professor Emeritus of Psychology; B.A., M.A., College of the City of New York; Ph.D., Columbia University

Lewis, Charles F. (1963), Research Specialist Emeritus, Center for Meteorite Studies; B.A., Adams State College

Lewis, Joseph Perley (1972), Professor Emeritus of General Business; B.A., University of Arizona; J.D., University of Colorado

Lewis, William E. (1965), Professor of Computer Science and Engineering; Vice Provost for Information Technology; B.S.E., Johns Hopkins University; M.S., Ph.D., Northwestern University

Leyba, Raul L. (1970), Professor Emeritus of Social Work; B.A., Western New Mexico University; M.S.W., University of Denver

Liddell, Paul A. (1990), Assistant Research Professional of Chemistry and Biochemistry; B.Sc., Massey University (New Zealand); Ph.D., Arizona State University

Lightfoot, Marjorie J. (1964), Professor of English; B.A., Brown University; M.A., Ph.D., Northwestern University

Lin, Sheng H. (1965), Regents’ Professor Emeritus of Chemistry and Biochemistry; B.S., M.S., National Taiwan University (Taiwan); Ph.D., University of Utah

Lin, Su (1997), Assistant Research Professional of Chemistry and Biochemistry; B.A., Beijing Normal University, (China); Ph.D., University of Rochester

Lind, Amy (1997), Assistant Professor of Women’s Studies; B.A., University of California, Santa Cruz; M.R.P., Ph.D., Cornell University

Lindauer, Owen (1989), Adjunct Professor of Anthropology; B.A., State University of New York, Binghamton; M.A., Ph.D., Arizona State University

Linder, Darwyn E. (1972), Professor of Psychology; Chair, Department of Psychology; B.A., Macalester College; Ph.D., University of Minnesota, Twin Cities

Linderman, Earl W. (1966), Professor Emeritus of Art; B.S., State University of New York, Buffalo; M.Ed., Ed.D., Pennsylvania State University

Lindly, John M. (1998), Adjunct Professor of Anthropology; B.A., M.A., Ph.D., Arizona State University

Lindquist, Timothy (1985), Associate Professor of Computer Science and Engineering; B.S., Purdue University; M.S., Ph.D., Iowa State University

Lindsay, Stuart M. (1978), Professor of Physics and Astronomy; B.Sc., Ph.D., University of Manchester (United Kingdom)

Lineberry, Heather S. (1990), Senior Curator, University Art Museum; Associate Museum Professional; B.A., M.A., University of Texas, Austin

Liontas, John I. (1998), Lecturer of German; B.A., University of Siegen (Germany); M.Ed., University of South Carolina

Liskovec, Richard F. (1958), Professor Emeritus of Mathematics; B.S., M.A., Kent State University

Liss, Julie M. (1994), Associate Professor of Speech and Hearing Science; B.A., University of Wisconsin, Madison; M.A., University of Denver; Ph.D., University of Wisconsin, Madison

Liu, C.H. (1965), Professor Emeritus of Chemistry and Biochemistry; B.A., Ph.D., University of Illinois

Liu, Danny D. (1982), Professor of Engineering; B.S., National Taiwan University (Taiwan); M.S., Georgia Institute of Technology; Ph.D., University of Southampton (United Kingdom)

Liu, Huan (2000), Associate Professor of Computer Science and Engineering; B.Eng., Shanghai Jiao Tong University (China); M.Sc., Ph.D., University of Southern California

Liu, Jingyue (1990), Assistant Research Scientist, Center for Solid-State Science; B.Sc., Beijing University of Science and Technology (China); Ph.D., Arizona State University

Liu, Marjory Bon-Ray (1973), Professor Emeritus of Philosophy; B.M., Alverno College; M.M., University of Southern California; C.Phil., Ph.D., University of California, Los Angeles

Lo, Edisanter (1990), Associate Research Professor of Geology; B.S., Louisiana Technology Institute; M.S., University of Arkansas, Ph.D., Arizona State University

LoBrutto, Russell (1991), Associate Research Scientist of Plant Biology; B.A., Cornell University; Ph.D., State University of New York, Buffalo
Lock, Ethan (1981), Associate Professor of Legal and Ethical Studies; B.A., University of California, Berkeley; M.B.A., Arizona State University; J.D., University of North Carolina, Chapel Hill

Lockwood, Charles (2000), Assistant Professor of Anthropology; B.S., Duke University; Ph.D., University of Witwatersrand, Johannesburg (South Africa)

Lockwood, Ralph G. (1972), Professor of Music; B.M., Baldwin-Wallace College; M.M., New England Conservatory of Music

Logan, Earl Jr. (1963), Professor Emeritus of Mechanical and Aerospace Engineering; B.S., M.A., Arizona State University; B.S.M.E., M.S.M.E., Texas A&M University; Ph.D., Purdue University

Lohr, Dennis E. (1979), Professor of Chemistry and Biochemistry; B.S., Beloit College; Ph.D., University of North Carolina, Chapel Hill

Lohr, Sharon (1990), Associate Professor of Mathematics; B.S., Calvin College; Ph.D., University of Wisconsin, Madison

Long, Carol O. (1989), Assistant Professor of Nursing; B.S.N., Marquette University; M.S., University of Michigan; Ph.D., Arizona State University

Longley, Kyle (1995), Associate Professor of History; B.A., Angelo State University; M.A., Texas Technological; Ph.D., University of Kentucky

Loope, R. Nicholas (1990), Associate Professor of Architecture; B.Arch., University of Maryland, College Park; M.Arch., Yale University; P.M.D., Harvard University

Lopez, Juan (1998), Associate Professor of Mathematics; B.S., Ph.D., Monash University (Australia)

Losse, Deborah N. (1973), Professor of French; Associate Dean, Academic Programs, Graduate College; B.A., Connecticut College; M.A., Ph.D., University of North Carolina, Chapel Hill

Lougeay, Ray (1993), Adjunct Professor of Geography; B.A., Rutgers, The State University; M.S., Ph.D., University of Michigan

Lounsbury, John F. (1969), Professor Emeritus of Geography; B.S., M.S., University of Illinois; Ph.D., Northwestern University

Loveless, Richard L. (1991), Professor of Art; M.Ed., Pennsylvania State University

Low, Stuart A. (1979), Professor of Economics; B.S., M.S., Ph.D., University of Illinois

Low, John W. (1956), Professor Emeritus of Economics; B.S., Arizona State University; M.S., University of Wisconsin, Madison; Ph.D., University of Florida

Lowe, Robert W. (1966), Professor Emeritus of Romance Languages; M.A., Columbia University; Doctorat, University of Paris (France)

Lowenthal, Gary T. (1976), Professor of Law; A.B., Harvard College; J.D., University of Chicago

Lu, Pao (1964), Professor Emeritus of Physics and Astronomy; B.S., National Taiwan University (Taiwan); M.S., National Tsing Hua University (Taiwan); Ph.D., Iowa State University

Luchsinger, Wayne W. (1966), Professor Emeritus of Chemistry and Biochemistry; B.S., M.S., Ph.D., University of Minnesota, Twin Cities

Luckingham, Bradford F. (1971), Professor of History; B.S., Northern Arizona University; M.A., University of Missouri, Columbia; Ph.D., University of California, Davis

Luderer, Gottfried W.R. (1990), Professor Emeritus of Electrical Engineering; M.S.E.E., Ph.D., Technical University Braunschweig (Germany)

Ludwig, Ann (1979), Professor of Dance; B.S., North Dakota State University; M.S., University of Kansas

Lukenow, Paul F. Jr. (1958), Professor Emeritus of Foreign Languages; B.A., M.A., University of Washington; Ph.D., University of New Mexico

Lucy, Beth (1980), Senior Instructional Professional of History; Director, Scholarly Publishing; B.A., Radcliffe College; A.M., Harvard University

Lujan, Carol C. (1987), Associate Professor of Justice Studies; Director, American Indian Studies Program; B.A., M.A.P.A., Ph.D., University of New Mexico

Lukas, Ronald J. (1999), Adjunct Professor of Chemistry and Biochemistry; B.S., State University of New York, College of Cortland; Ph.D., State University of New York, Downstate Medical Center

Lund, Giuliana (1997), Assistant Professor of Interdisciplinary Humanities; B.A., Stanford University; M.A., Ph.D., University of Pennsylvania

Lundberg, Horace W. (1962), Professor Emeritus of Social Work; Dean Emeritus, School of Social Work; B.S., M.S., University of Utah; M.S.W., University of California, Berkeley; Ph.D., University of Minnesota, Twin Cities

Lundgren, Harry R. (1962), Professor Emeritus of Civil and Environmental Engineering; B.S.C.E., Purdue University; M.S., Arizona State University; Ph.D., Oklahoma State University

Lundin, Robert F. (1962), Professor Emeritus of Geology; B.A., Augustana College; M.S., Ph.D., University of Illinois

Lussier, Mark S. (1994), Associate Professor of English; B.A., University of Saint Thomas; M.A.P.A., Ph.D., Texas A&M University

Lyman, Jeffrey (1996), Assistant Professor of Music; B.Mus., Temple University; M.Mus., D.Mus., University of Michigan

Lynch, David H. (1976), Associate Professor of Management Communication; B.S., University of Illinois; M.S., Ed.D., Northern Illinois University

Lynch, John M. (1994), Academic Associate of Interdisciplinary Humanities; B.Sc., Ph.D., University College, Dublin, (Ireland)

Lyons, Lucy (1999), Assistant Librarian; B.A., San Diego State University, San Diego; M.A., Ohio State University; M.S., Pratt Institute

Lyubchenko, Yuri L. (1992), Research Professor of Microbiology; D.Sc., Institute of Molecular Genetics (Russia); M.S., Ph.D., Moscow Physical Technical Institute (Russia)

M

Maas, Gerald M. (1991), Adjunct Professor of Recreation Management and Tourism; Director, Recreational Sports and Student Activities; B.S., University of Wisconsin, Superior; M.A., Ph.D., University of Minnesota, Twin Cities

MacCracken, Harriet (1995), Senior Lecturer of Accountancy; B.S., Ohio State University; M.A., Arizona State University
MacEachron, Ann (1984), Professor of Social Work; B.A., Cornell University; M.S.W., University of Pittsburgh; Ph.D., Cornell University

Macey, Donna J. (1994), Clinical Associate Professor of Educational Administration and Supervision; Academic Program Coordinator, Educational Administration and Supervision; B.A., DePaul University; M.A., St. John’s College; M.A., M.S.T., University of Chicago; Ph.D., Northwestern University

MacKinnon, David (1990), Associate Professor of Psychology; B.A., Harvard University; M.A., Ph.D., University of California, Los Angeles

MacKinnon, Stephen R. (1971), Professor of History; B.A., M.A., Yale University; Ph.D., University of California, Davis

Mackulak, Gerald T. (1980), Associate Professor of Industrial Engineering; B.S.I.E., M.S.I.E., Ph.D., Purdue University

MacSwan, Jeff (1998), Assistant Professor of Language Arts/ Bilingual Education; B.A., M.A., California State University, Long Beach; Ph.D., University of California, Los Angeles

Madden, Dennis D. (1990), Associate Archivist, Architecture Library; B.A., Wright State University; M.A., Colorado State University

Madden-Derdich, Debra (1994), Assistant Professor of Family Resources and Human Development; B.A., Washington and Jefferson College; M.A., Hollins College; Ph.D., Virginia Polytechnic Institute and State University

Maddox, Robert A. (1993), Adjunct Professor of Geography; B.S., Texas A&M University; M.S., Ph.D., Colorado State University

Magaña, Lisa (1997), Assistant Professor of Chicana and Chicano Studies; B.A., California Polytechnic University; M.A., Ph.D., Claremont Graduate School

Magenta, Muriel (1969), Professor of Art; B.A., Queens College; M.A., M.F.A., Ph.D., Arizona State University

Magers, William D. (1971), Professor Emeritus of Music; B.A., University of California, Santa Barbara; M.M., D.M.A., University of Southern California

Magill, Harry (1984), Professor Emeritus of Accountancy; B.S., Miami University; M.S., University of Illinois

Mahajan, Subhash (1997), Professor of Materials Engineering; B.S., Punjab University (India); B.E., Metallurgy Indian Institute of Science (India); Ph.D., University of California, Berkeley

Mahalov, Alex S. (1991), Associate Professor of Mathematics; M.S., Leningrad University (Russia); Ph.D., Cornell University

Mahoney, Deirdre M. (1997), Senior Lecturer of English; B.A., M.A., Ph.D., Northern Arizona University

Mahoney, Dhira B. (1989), Associate Professor of English; B.A., M.A., University of Oxford (United Kingdom); Ph.D., University of California, Santa Barbara

Maïenschein, Jane (1981), Professor of Philosophy and Biology; B.A., Yale University; M.A., Ph.D., Indiana University, Bloomington

Major, Roy C. (1992), Professor of English; B.A., University of Akron; M.A., University of Arizona; M.A., Ph.D., Ohio State University

Malloch, Kathy (1999), Faculty Associate of Nursing; B.S.N., Wayne State University; M.B.A., Oakland University; Ph.D., University of Colorado

Malone, Charles F. (1966), Professor Emeritus of Elementary Education; B.S., Emporia State University; M.Ed., Ed.D., University of Kansas

Maltz, Arnold B. (1997), Assistant Professor of Supply Chain Management; B.S., Trinity College, Hartford; M.A., University of California, Santa Barbara; M.S., Northwestern University; Ph.D., Ohio State University

Mamlouk, Michael S. (1984), Professor of Civil and Environmental Engineering; B.S.C.E., Cairo University (Egypt); M.S.C.E., Ph.D., Purdue University

Manelli, Alejandro (1997), Professor of Economics; Licenciatura, National University of Buenos Aires (Argentina); M.A., Ph.D., University of California, Berkeley

Manera, Elizabeth S. (1967), Professor Emeritus of Secondary Education; B.S., M.A., Towson State College; Ed.D., Arizona State University

Mangini, Margaret A. (1990), Director, Bureau of Educational Research and Services (BERS); Director, Arizona Educational Information Systems (AEIS); B.S., M.Ed., Edinboro State College; Ed.D., Arizona State University

Mankin, Lawrence D. (1973), Professor of Public Affairs; B.B.A., City College; M.A., Ph.D., University of Illinois

Marc, Stephen Smith (1998), Associate Professor of Art; B.A., Pomona College; M.F.A., Temple University

Marchant, Gary E. (1999), Associate Professor of Law; B.S., University of British Columbia; M.P.P., J.D., Harvard University; Ph.D., University of British Columbia

Margolis, Eric (1995), Assistant Professor of Educational Leadership and Policy Studies; Academic Program Coordinator, Social and Philosophical Foundations of Education; B.A., State University of New York at New Paltz; Ph.D., University of Colorado, Boulder

Marin, Christine N. (1985), Associate Archivist, Archives and Manuscripts; B.A., M.A., Arizona State University

Markiw, Michael (1990), Associate Librarian, Original Cataloging; B.A., University of Alberta; M.L.S., University of Western Ontario

Marohnic, Charles S. (1981), Professor of Music; Director, Jazz Studies; B.A., M.M., University of Miami

Marshall, Kimberly (1998), Associate Professor of Music; B.A., University of North Carolina, Chapel Hill; D.Phil., University College, Oxford (United Kingdom)

Marsiglia, Flavio F. (1994), Assistant Professor of Social Work; B.Law, S.S., M.S.W., University of the Republic (Uruguay); Ph.D., Case Western Reserve University

Martin, Carol L. (1988), Professor of Family Resources and Human Development; B.A., University of Georgia; M.S., Rutgers, The State University; Ph.D., University of Georgia

Martin, Chris A. (1990), Associate Professor of Plant Biology; B.S., California Polytechnic State University and University of Southern California; M.S., Auburn University; Ph.D., University of Florida

Martin, John F. Jr. (1966), Professor of Anthropology; B.A., Beloit College; M.A., Ph.D., University of Chicago

Martin, Judith N. (1990), Professor of Communication; B.A., Eastern Mennonite College; M.A., Ph.D., Pennsylvania State University
Martin, Linda J. (1980), Associate Professor of Finance; B.A.,
University of Louisville; M.S., University of Kansas; M.B.A.,
DU, Louisiana Technological University
Martin, Philip E. (1983), Professor of Exercise Science and
Physical Education; B.S., M.S., University of Illinois; Ph.D.,
Pennsylvania State University
Martínez, Cathy L. (1998), Assistant Professor of Recreation
Management and Tourism; B.S., Arizona State University; M.S.,
Ph.D., Ohio State University
Martinez, Quino E. (1957), Professor Emeritus of Foreign
Languages; B.S., New Mexico Western College; M.A., George

Metcalf, V. Alonzo (1971), Professor Emeritus of International Studies; B.S., M.S., University of Arkansas; Ph.D., University of Missouri, Columbia
Metha, Arlene (1971), Professor Emeritus of Counseling Psychology; B.A., Arizona State University; M.A., Ohio State University; Ph.D., University of Southern California
Metos, Thomas H. (1965), Professor Emeritus of Educational Administration and Supervision; B.S., M.S., Ph.D., University of Utah
Metz, John (1980), Professor of Music; B.A., M.M., Syracuse University; D.M.A., The Juilliard School
Meunier, John (1987), Professor of Architecture; Dean, College of Architecture and Environmental Design; B.Arch., University of Liverpool (United Kingdom); M.Arch., Harvard University; M.A., University of Cambridge (United Kingdom)
Meyerson, Lee (1962), Regents’ Professor Emeritus of Psychology; A.B., Lafayette College; A.M., University of California, Los Angeles; Ph.D., Stanford University
Middleton, Bruce (1990), Research Specialist, Electrical Engineering
Middleton, James Arthur (1998), Associate Professor of Curriculum and Instruction; B.A., California State University, Chico; M.S., Ph.D., University of Wisconsin, Madison
Mignolet, Marc P. (1987), Associate Professor of Mechanical and Aerospace Engineering; B.S., University of Liege (Belgium); Ph.D., Rice University
Miller, Donald S. (1981), Associate Professor of Computer Science and Engineering; B.S., Syracuse University; M.S., Ph.D., University of Southern California
Miller, Keith D. (1987), Associate Professor of English; B.A., Texas Christian University; M.A., State University of New York, Albany; Ph.D., Texas Christian University
Miller, Kevin (1998), Faculty Associate of Construction; B.S., Brigham Young University; M.S., University of Phoenix
Miller, Robert J. (1994), Adjunct Professor of Anthropology; B.A., M.A., Western Michigan University; Ph.D., Arizona State University
Miller, Rosanna (1974), Librarian Emeritus; B.A., M.A., Arizona State University; M.L.S., University of Arizona
Miller, Terri (1997), Lecturer of Mathematics; B.S., M.A., Arizona State University
Miller-Loessi, Karen A. (1984), Associate Professor of Sociology; B.A., University of California, Berkeley; M.A., Ph.D., Stanford University
Mills, Douglas T. (1993), Faculty Associate of Construction; B.S., Arizona State University
Millspaugh, Roger E. (1997), Associate Professor of Psychology; B.S., University of Washington; M.A., Ph.D., University of California, Berkeley
Milner, Joe W. (1967), Professor Emeritus of Journalism and Telecommunication; B.A., East Texas State University; M.A., University of Oklahoma; Ed.D., University of Wyoming
Milton, Doris (1994), Faculty Associate of Nursing; B.S., Fairleigh Dickinson University; M.A., Ph.D., New York University
Minckley, Wendell L. (1963), Professor of Biology; B.S., Kansas State University; M.A., University of Kansas; Ph.D., University of Louisville
Minett, John (1991), Faculty Associate of Planning and Landscape Architecture; Diploma Arch., Diploma Town Planning, University of Manchester (United Kingdom); M.Litt, University of Oxford (United Kingdom)
Mings, Robert C. (1971), Professor Emeritus of Geography; B.S., M.A.T., Indiana University, Bloomington; Ph.D., Ohio State University
Mintz, Sandra L. (1986), Clinical Associate Professor of Speech and Hearing Science; B.A., Indiana University; M.S., University of Arizona
Mishra, Birendra (1996), Assistant Professor of Accountancy; B.S., Regional Engineering College, Rourkela; M.S., Ph.D., University of Texas, Austin
Misra, Rajeev (1991), Associate Professor of Microbiology; B.S., Kanpur University (India); M.S., G.B. Pant University (India); Ph.D., Adelaide University (Australia)
Mitchell, Frederic F. (1961), Professor Emeritus of Education; B.A., M.A., University of Arizona; Ph.D., Columbia University
Mitchell, John (1990), Associate Research Professional of Dance; Director, Dance Multimedia Learning Center; B.M., Webster University, St. Louis; M.M., University of South Florida

Mitchell, Michael J. (1990), Associate Professor of Political Science; B.A., Fordham University; M.A., Ph.D., Indiana University, Bloomington

Mittelmann, Hans Detlef (1982), Professor of Mathematics; M.A., University of Mainz (Germany); Ph.D., Habilitation, University of Darmstadt (Germany)

Mobashir, Barzin (1991), Associate Professor of Civil and Environmental Engineering; B.S., University of Wisconsin, Platteville; M.S., Northeastern University; Ph.D., Northwestern University

Moeckel, Cindy L. (1987), Associate Professor of Accountancy; B.A., M.B.A., Miami University; Ph.D., University of North Carolina, Chapel Hill

Mogey, John M. (1987), Adjunct Professor of Sociology; B.A., M.A., D.Sc., Queen's University (United Kingdom)

Mohler, Kate (1994), Academic Associate, Division of Undergraduate Academic Services; Coordinator, Writing Center; B.A., Bemidji State University, Bemidji, MN; M.F.A., Arizona State University

Mokwa, Michael P. (1979), Professor of Marketing; Chair, Department of Marketing; B.B.A., M.B.A., Ph.D., University of Houston

Montenegro, Leonard Jose (1986), Associate Research Technologist of Mechanical and Aerospace Engineering; B.S., State University of New York, Albany

Montero, Darrel (1979), Associate Professor of Social Work; B.A., California State University, Sacramento; M.A., Ph.D., University of California, Los Angeles

Montgomery, Douglas C. (1988), Professor of Industrial Engineering; B.S.I.E., M.S., Ph.D., Virginia Polytechnic Institute and State University

Montiel, Miguel (1974), Professor of Chicana and Chicano Studies; Motorola Presidential Professor in Community Revitalization; B.S., University of Arizona; M.S.W., Arizona State University; D.S.W., University of California, Berkeley

Montoya, Janet (1999), Adjunct Professor of Anthropology; B.A., M.A., University of Houston, Clear Lake

Mooney, Elina (1988), Associate Professor of Dance

Moore, William C. (1968), Associate Professor of Industrial Engineering; B.S., M.S., Washington University; Ph.D., Northwestern University

Moore, Ana L. (1989), Professor of Chemistry and Biochemistry; B. of Pharmacy, National University of La Plata (Argentina); M.Sc., Federal University of Rio de Janeiro (Brazil); Ph.D., Texas Tech University

Moore, Byron C. (1968), Professor Emeritus of Special Education; A.B., Monmouth College; M.Ed., Ed.D., University of Arizona

Moore, Carleton B. (1961), Regents' Professor of Chemistry and Biochemistry and Geology; Director, Center for Meteorite Studies; B.S., Alfred University; Ph.D., California Institute of Technology

Moore, Elsie Gloria Jean (1981), Associate Professor of Psychology in Education; Director, Division of Psychology in Education; B.A., Elmhurst College; M.A., Ph.D., University of Chicago

Moore, J. Douglas (1969), Associate Professor of Mathematics; B.S., M.S., Idaho State University; Ph.D., Syracuse University

Moore, Michael (1982), Professor of Biology; B.A., Indiana University; M.S., Ph.D., University of Washington

Moore, Moses N. (1989), Associate Professor of Religious Studies; B.A., Eckerd College; M.Div., Yale University; M.Phil., Ph.D., Union Theological Seminary

Moore, Patricia (1984), Professor Emeritus of Nursing; B.S.N., Loyola University, Chicago; M.S., Catholic University of America; M.P.H., Dr.P.H., Johns Hopkins University

Moore, Thomas A. (1976), Professor of Chemistry and Biochemistry; B.A., Ph.D., Texas Tech University

Moorhead, Gregory (1978), Associate Professor of Management; B.S.I.E., M.B.A., Ph.D., University of Houston

Moppett, Samantha A. (1999), Legal Writing Instructor; B.A., Bucknell University; J.D., Suffolk University Law School

Morales, Helen (1999), Assistant Professor of Interdisciplinary Humanities; First Class Honours, University of Cambridge, New Hall (United Kingdom); Ph.D., University of Cambridge, Newham College (United Kingdom)

Morgan, Don (2000), Associate Professor of Exercise Science and Physical Education; B.M.E., Northwestern University; M.S., University of Tennessee, Knoxville; Ph.D., Arizona State University

Morgan, Miriam J. (1965), Instructor Emeritus of French; Licence-ès-Lettres, University of Paris (France); M.A., Arizona State University

Morgan, Owen W. (1968), Professor Emeritus of Family Resources and Human Development; B.A., Grinnell College; M.A., University of Nebraska, Omaha; Ph.D., University of Nebraska, Lincoln

Morgan, Thais E. (1985), Associate Professor of English; B.A., Smith College; M.A., Ph.D., Brown University

Moroney, Robert M. (1981), Professor of Social Work; A.B., M.S.W., Boston College; M.P.H., Harvard University; Ph.D., Brandeis University

Morrell, Darryl (1988), Associate Professor of Electrical Engineering; B.S., M.S., Ph.D., Brigham Young University

Morrell, Michael E. (1992), Lecturer, Division of Undergraduate Academic Services; B.A., Point Loma Nazarene College; M.A., Ph.D., Arizona State University

Morris, Brenda C. (1994), Clinical Assistant Professor of Nursing; B.S.N., M.S., University of Arizona

Morris, Donald H. (1962), Professor Emeritus of Anthropology; B.A., Arizona State University; M.A., Ph.D., University of Arizona

Morrison, Kenneth M. (1983), Associate Professor of Religious Studies; B.A., Saint Dunstan's University; M.A., Ph.D., University of Maine

Moses, Michele (2000), Assistant Professor of Educational Leadership and Policy Studies; B.A., University of Virginia; M.Ed., University of Vermont; M.A., University of Colorado

Mossman, Kenneth L. (1990), Professor of Microbiology; Director, Radiation Protection Facility; B.S., Wayne State University; M.Ed., University of Maryland, College Park; M.S., Ph.D., University of Tennessee, Knoxville
Mou, Jong-I (1994), Assistant Professor of Industrial Engineering; B.S., M.S., University of Wisconsin, Madison; Ph.D., Purdue University

Moulton, Gerald L. (1967), Professor Emeritus of Counselor Education; B.A., Hamline University; M.Ed., Ed.D., University of Oregon

Mower, Donald E. (1965), Professor Emeritus of Speech and Hearing Science; B.A., M.A., Florida State University; Ph.D., Arizona State University

Moyer, Joan E. (1971), Professor Emeritus of Early Childhood Education; B.S., Kutztown State University; M.Ed., Pennsylvania State University; Ph.D., University of Maryland, College Park

Muccino, Julia Catherine (1997), Assistant Professor of Civil and Environmental Engineering; B.C.E., Villanova University; M.S., Ph.D., University of Notre Dame

Mueller-Alexander, Jeanette M. (1989), Librarian, Hayden Reference Services; B.A., Moorhead State University; M.L.S., Indiana University, Bloomington

Mulligan, Donald E. (1985), Professor of Construction; B.S.E., M.S.M.E., Arizona State University

Mulvihill, Josephine Anne (1983), Associate Librarian, Hayden Reference Services; B.S., University of Kansas; M.L.S., Emporia State University

Munk, Morton E. (1961), Professor of Chemistry and Biochemistry; B.S., Northwestern University; M.S., University of Miami; Ph.D., Wayne State University

Murdough, John M. (1993), Faculty Associate of Construction; B.S., M.B.A., Arizona State University

Murf, Scott (1998), Assistant Professor of Architecture; B.S.D., Clemson University; B.Arch., The Cooper Union

Murphey, Claudia (1996), Professor of Dance; Chair, Department of Dance; B.A., Western College; M.A., George Washington University

Murphy, Jeffrie G. (1981), Regents’ Professor of Law and Philosophy; B.A., Johns Hopkins University; Ph.D., University of Rochester

Murphy, Kurt R. (1986), Associate Librarian; Assistant Dean, University Libraries Personnel; B.S., M.L.S., University of Illinois; M.B.A., Arizona State University

Murphy, Nina L. (1924), Professor Emeritus of Physical Education; B.S., University of Arizona; M.A., University of Southern California

Murphy-Watson, Elaine T. (1999), Faculty Associate of Nursing; B.S., Mars Hill College; M.S.N., University of North Carolina, Greensboro

Murranka, Patricia A. (1977), Associate Professor of Management Communication; B.A., Trenton State College; M.A., Rider College; Ed.D., Utah State University

Murray, Roger N. (1968), Professor Emeritus of English; B.A., B.S., Moorhead State Teachers College; M.A., Stanford University; Ph.D., University of Iowa

Musacchio, Laura (1999), Assistant Professor of Planning and Landscape Architecture; B.L.A., M.L.A., State University of New York; Ph.D., Texas A&M University

Musheen, Michael C. (1977), Professor of Justice Studies and Public Affairs; B.A., Lycoming College; M.A., Ph.D., American University

Mushkatel, Alvin H. (1980), Professor of Planning and Landscape Architecture; B.A., Ohio State University; M.S., Ph.D., University of Oregon

Myers, Quin (1985), Academic Associate, Division of Undergraduate Academic Services; Coordinator, Writing Across the Curriculum; B.S.Ed., Chadron State College; M.A., Arizona State University

Myhajlenko, Stefan (1986), Associate Research Scientist and Associate Director, Center for Solid-State Electronics Research; Ph.D., University of Manchester, Victoria (United Kingdom)

Myler, Charles E. Jr. (1968), Professor Emeritus of Real Estate; B.B.A., Loyola University; M.B.A., Harvard University; Ph.D., University of Florida

N

Nagakawa, Kathryn (1996), Assistant Professor of Psychology in Education; B.A., M.A., University of Notre Dame; Ph.D., Northwestern University

Nakayama, Thomas K. (1991), Associate Professor of Communication; Director, Asian Pacifi c American Studies Program; A.B., Georgia State University; M.A., Ph.D., University of Iowa

Nagoshi, Craig (1989), Associate Professor of Psychology; B.A., M.A., Ph.D., University of Hawaii, Manoa

Nagrin, Daniel (1982), Professor Emeritus of Dance; B.S., City College of New York

Nagy, John D. (1999), Adjunct Professor of Biology; B.S., Eastern Michigan University; B.S., University of Michigan, Ann Arbor; Ph.D., Arizona State University

Nakagawa, Kathryn (1996), Assistant Professor of Psychology in Education; B.A., M.A., University of Notre Dame; Ph.D., Northwestern University

Nayar, Maria (1996), Assistant Professor of Social Work; B.A., H.H. Lehman College; M.S.W., Ph.D., New York University

Nardari, Federico (1999), Assistant Professor of Finance; B.S., University of Bergamo (Italy); M.S.B.A., Ph.D., Washington University, St. Louis

Nardella, Francis A. (1992), Adjunct Professor of Bioengineering; A.B., West Virginia University; M.D., West Virginia University, School of Medicine

Nash, Leanne T. (1971), Professor of Anthropology; B.A., University of California, Davis; M.A., Ph.D., University of California, Berkeley

Nash, Thomas H. III (1971), Professor of Plant Biology; B.S., Duke University; M.S., Ph.D., Rutgers, The State University

Navabi, Faye (1997), Lecturer of Computer Science and Engineering; B.S., M.S., University of Southwestern Louisiana

Neal, Berna E. (1988), Librarian Emeritus; B.A., M.L.S., Syracuse University

Nebeker, Helen E. (1958), Professor Emeritus of English; B.A., M.A., Arizona State University

Neisewander, Janet L. (1991), Associate Professor of Psychology; B.S., Rockford College; M.S., Ph.D., University of Kentucky

Nelsen, Edward A. (1975), Professor of Education; Academic Program Leader, Educational Psychology; B.S., University of Wisconsin, Madison; Ph.D., Stanford University
Nelson, Ben (1995), Associate Professor of Anthropology; B.A., M.A., Florida State University; Ph.D., Southern Illinois University

Nelson, G. Lynn (1973), Associate Professor of English; B.A., Kearney State College; Ph.D., University of Nebraska, Lincoln

Nelson, J. Ron (1997), Associate Professor of Special Education; B.S., University of Wisconsin, Riverfall and Madison; M.S., Eastern Montana College; Ph.D., Utah State University

Nelson, J. Russell (1981–1989), Professor Emeritus of Finance; President Emeritus of the University; B.A., Pacific Union College; M.B.A., Ph.D., University of California, Los Angeles

Nelson, John C. (1967), Associate Professor of Special Education; B.S., M.A., Arizona State University; Ph.D., Vanderbilt University

Nelson, Kelly (1999), Lecturer, Division of Undergraduate Academic Services; B.A., Michigan State University; M.S., University of Southern Maine; Ph.D., Brandeis University

Nelson, Margaret (1995), Associate Professor of Anthropology; B.A., Occidental College, Los Angeles; Ph.D., University of California, Santa Barbara

Nemeroff, Carol (1988), Associate Professor of Psychology; B.A., McGill University (Canada); M.A., Ph.D., University of Pennsylvania

Nemiro, Jay S. (1995), Adjunct Professor of Biology; B.A., Temple University; M.D., George Washington University School of Medicine

Nering, Evar D. (1960), Professor Emeritus of Mathematics; B.A., Indiana University, Fort Wayne; M.A., Ph.D., Princeton University

Neuberg, Steven L. (1988), Professor of Psychology; A.B., Cornell University; M.S., Ph.D., Carnegie Mellon University

Neumann, Tina M. (1996), Lecturer of Speech and Hearing Science; B.A., M.A., Gallaudet University

Nevitt, Christopher (1997), Assistant Professor of Political Science; B.A., Haverford College; M.A., Ph.D., University of California, San Diego

New, Frances Y. (1986), Librarian Emeritus; B.S., Seattle Pacific University; M.L.S., University of Arizona

Newfeld, Stuart J. (1997), Assistant Professor of Biology; B.S., Hobart College; M.A., M.S., University of Hawaii; Ph.D., Emory University

Nichols, Ann W. (1970), Associate Professor of Social Work; A.B., Stanford University; M.S.W., D.S.W., Columbia University

Nichols, Renea D. (1995), Lecturer of Journalism and Telecommunication; B.A., Central Michigan University; M.M.C., Arizona State University

Nickerson, Hilarie (1997), Assistant Professor of Design; B.S., Yale University; M.S., Georgia Institute of Technology; M.I.D., North Carolina State University

Nicolaenko, Basil (1989), Professor of Mathematics; M.S., University of Paris (France); Ph.D., University of Michigan

Niederhelman, Melissa (1998), Assistant Professor of Design; B.F.A., University of Massachusetts, Dartmouth; M.F.A., Allgemeine Gewerbeschule Basel (Switzerland)

Nielsen, Michael J. (1969), Associate Professor of Design; B.P.D., North Carolina State University, Raleigh; M.A., Stanford University

Nielsen, Gregory M. (1970), Professor of Computer Science and Engineering; B.S., M.S., Ph.D., University of Utah

Niemir, Wilma M. (1959), Professor Emeritus of Mathematics; B.A., New Mexico Highlands University; M.S., University of Wyoming

Nigam, Bishan Perkash (1964), Professor of Physics and Astronomy; B.S., M.S., University of Delhi (India); Ph.D., University of Rochester

Nikitin, Sergey (1994), Assistant Professor of Mathematics; M.S., Moscow State University; Ph.D., Academy of Science of Russia, Research Institute of System Studies

Nilsen, Alleen P. (1975), Professor of English; B.A., Brigham Young University; M.Ed., American University; Ph.D., University of Iowa

Nilsen, Don L.F. (1973), Professor of English; B.A., Brigham Young University; M.A., American University; Ph.D., University of Michigan

Northey, William T. (1959), Professor Emeritus of Microbiology; B.A., University of Minnesota, Twin Cities; M.A., Ph.D., University of Kansas

Norton, Janice (1998), Lecturer of English; B.A., M.A., University of Tennessee, Knoxville; Ph.D., University of Iowa

Norton, Kay (1999), Senior Lecturer of Music; B.M.E., M.F.A., University of Georgia; Ph.D., University of Colorado

Norton, M. Scott (1973), Professor of Educational Administration and Supervision; B.S., M.Ed., Ed.D., University of Nebraska, Lincoln

Nowlis, Stephen (1996), Assistant Professor of Marketing; B.A., Stanford University; M.B.A., University of California, Berkeley; Ph.D., University of California, San Diego

Nunez, Diane E. (1995), Clinical Assistant Professor of Nursing; B.S.N., M.S., Arizona State University

O

O'Bannon, Charles E. (1964), Professor Emeritus of Civil and Environmental Engineering; B.S.C.E., University of New Mexico; M.S., Harvard University; Ph.D., Oklahoma State University

O'Beirne, Donald E. (1959), Professor Emeritus of Education; B.E., Whitewater State Teachers College; M.A., Ed.D., Northwestern University

O'Brien, Carmen A. (1959), Professor Emeritus of Education; B.A., M.A., Arizona State University

O'Brien, Robin K. (1995), Lecturer of Speech and Hearing Science; B.A., Gallaudet University

O'Connor, Michael P. (1999), Legal Writing Instructor; B.A., Pennsylvania State University; J.D., Yale University

O'Day, Peggy A. (1994), Assistant Professor of Geology; B.S., University of California, Davis; M.S., Cornell University; Ph.D., Stanford University

O'Dell, Michael A. (1980), Associate Professor of Accountancy; B.S., M.B.A., University of California, Los Angeles; Ph.D., University of Texas, Austin; C.P.A., Colorado

O'Donnell, Ed (1999), Assistant Professor of Accountancy; B.B.A., Texas A&M University; Ph.D., University of North Texas, Kingsville
O’Grady, Catherine (1991), Professor of Law; Director, Clinical Programs; B.A., University of Michigan; J.D., Arizona State University

O’Grady, E.P. (1977), Associate Professor of Computer Science and Engineering; B.S., St. Louis University; M.S., Ph.D., University of Arizona

O’Haver, Judy (1999), Faculty Associate of Nursing; B.S.N., Niagara University; M.S., Arizona State University

Ó hUallacháin, Breandán (1987), Professor of Geography; Chair, Department of Geography; B.A., National University of Ireland (Ireland); M.A., Indiana University, Bloomington; Ph.D., University of Illinois

O’Keeffe, Michael (1963), Regents’ Professor of Chemistry and Biochemistry; B.S., Ph.D., University of Bristol (United Kingdom)

O’Leary, Timothy J. (1978), Associate Professor of Computer Information Systems; B.S., Westminster College; M.B.A., D.B.A., Kent State University

Obermeier, Anita (1993), Senior Lecturer of English; B.A., Ludwig-Maximilian University (Germany); M.A., Eastern Illinois University; Ph.D., Arizona State University

Odenkirk, James E. (1967), Professor Emeritus of Exercise Science and Physical Education; B.S., M.A., Ohio State University; Ed.D., Columbia University

Odewahn, Stephen C. (1999), Assistant Research Scientist of Physics and Astronomy; B.S., University of Alabama; M.S., Ph.D., University of Texas, Austin

Odish, Faris (1997), Lecturer of Mathematics; B.S., University of Baghdad; M.A., Wayne State University

Oetting, Edward (1983), Librarian, Hayden Reference Services; B.A., University of Michigan; M.A., University of Illinois; M.S.L.S., Wayne State University

Oh, Young Kyun (1999), Instructor of Korean; B.A., Sogang University Graduate School (Korea); M.A., University of Wisconsin, Madison

Ohmart, Robert D. (1970), Professor of Biology; B.S., M.S., New Mexico State University; Ph.D., University of Arizona

Ojalde, William T. (1971), Professor Emeritus of English; B.S., M.A., University of Minnesota, Twin Cities; Ph.D., Florida State University

Okun, Morris A. (1976), Professor of Psychology; Director, Gerontology Program; B.A., Brooklyn College; M.S., Ph.D., Pennsylvania State University

Olas, Louis (1979), Associate Professor of Management; Assistant Vice President for Academic Affairs; B.A., M.A., Ed.D., Arizona State University

Oliver, Robert S. (1963), Professor Emeritus of Architecture; B.A., M.A., University of California, Berkeley; M.F.A., Allende Institute (Mexico)

Olson, Clark D. (1984), Full Instructional Professional of Communication; B.A., Iowa State University; M.S., University of Utah; Ph.D., University of Minnesota, Twin Cities

Olson, James K. (1996), Assistant Professor of Aerospace Studies; B.S., Arizona State University; M.A., Webster University

Orchini, Miles (1995), Assistant Professor of Biology; B.A., San Francisco State University; Ph.D., Oregon State University

Orlich, Ileana (1996), Assistant Research Professional of Languages and Literatures; Diploma de Licenta, University of Bucharest (Romania); M.A., Ph.D., Arizona State University

Ormiston, Michael B. (1984), Professor of Economics; B.S., Michigan State University; M.A., Ph.D., Johns Hopkins University

Ossipov, Helene ((1987), Associate Professor of French; B.A., City University of New York; M.A. (French Linguistics), M.A. (Russian Area Studies), Ph.D., Indiana University, Bloomington

Osterhoudt, Robert G. (1976), Professor Emeritus of Exercise Science and Physical Education; B.S., M.S., Pennsylvania State University; Ph.D., University of Illinois

Ostroff, Cheri (1995), Associate Professor of Management; B.A., University of Texas; M.A., Ph.D., Michigan State University

Ostrom, Amy (1996), Assistant Professor of Marketing; B.A., Arizona State University; Ph.D., Northwestern University

Ostrom, Lonnie L. (1973), Professor of Marketing; Director, Development, Institutional Advancement; Vice Chair, Arizona State University Foundation; B.B.A., University of Wisconsin; M.S., Southern Illinois University, Carbondale; Ph.D., University of Alabama

Ota Wang, Vivian (1998), Assistant Professor of Counseling Psychology and Counselor Education; B.A., Colorado College; M.S., University of Colorado; Ph.D, Columbia University

Otis, Jeanne (1975), Professor of Art; B.A., DePauw University; B.F.A., Denison University; M.F.A., Ohio State University

Overman, Glenn D. (1956), Professor Emeritus of Marketing; Dean Emeritus, College of Business; B.S., Central State College; M.S., Oklahoma State University; D.B.A., Indiana University

Owusu-Antwi, Emmanuel B. (1997), Assistant Professor of Civil and Environmental Engineering; B.S., University of Science and Technology (Ghana); M.S., University of Alberta (Canada); Ph.D., University of Texas, Austin

Ozel, Filiz (1995), Professor of Architecture; B.Arch., M.Arch., Middle East Technical University (Turkey); D.Arch., University of Michigan

P

Packer, Merle A. (1959), Professor Emeritus of Physical Education; B.A., M.A., Arizona State University; Ed.D., University of Northern Colorado

Padilla, Peter A. (1997), Assistant Professor of Sociology; B.A., M.A., University of Northern Colorado; Ph.D., Arizona State University

Padilla, Raymond V. (1982), Professor of Chicana and Chicano Studies; B.A., University of Michigan; M.A., Ph.D., University of California, Berkeley

Pagano, Caio (1986), Regents’ Professor of Music; B.Laws, University of Sao Paulo (Brazil); D.M.A., Catholic University of America

Page, John B. (1969), Professor of Physics and Astronomy; B.S., Ph.D., University of Utah

Pagliasotti, Michael J. (1998), Associate Professor of Exercise Science and Physical Education; B.A., M.A., California State University, Northridge; Ph.D., University of Southern California

Palais, Elliot S. (1959-62; 1966), Librarian Emeritus; B.A., Bowdoin College; A.M.L.S., University of Michigan
Palais, Joseph C. (1964), Professor of Electrical Engineering; B.S.E.E., University of Arizona; M.S.E., Ph.D., University of Michigan

Palmer, Michael B. (1998), Lecturer of Psychology; B.A., Arizona State University; M.A., Michigan State University; Ph.D., Arizona State University

Palumbo, Dennis J. (1983), Regents’ Professor Emeritus of Justice Studies; M.A. (Social Science), M.A. (Political Science), Ph.D., University of Chicago

Pan, George (1995), Professor of Electrical Engineering; B.E., Peking Institute of Petroleum Technology (China); M.S., Ph.D., University of Kansas

Panchanathan, Senthuraman (1997), Associate Professor of Computer Science and Engineering; B.Sc., University of Madras (India); M.Tech., Indian Institute of Technology, Madras (India); Ph.D., University of Ottawa (Canada)

Panchmatia, Bella (1998), Faculty Associate of Nursing; B.S.N., University of Alberta (Canada); M.S.N., University of Wisconsin, Madison

Pang, Patty (1999), Instructor of Chinese; B.A., Tamkang University (Taiwan); M.A., Arizona State University

Pangrazi, Robert P. (1973), Professor of Exercise Science and Physical Education; B.A., M.S., Ph.D., Washington State University

Panitch, Alyssa (1999), Assistant Professor of Bioengineering; B.S., Ph.D., University of Massachusetts

Pany, Kurt J. (1978), Professor of Accountancy; B.S.B.A., University of Arizona; M.B.A., University of Minnesota, Twin Cities; Ph.D., University of Illinois; C.P.A., Arizona

Papandreou-Suppappola, Antonia (1999), Assistant Professor of Electrical Engineering; B.S., M.S., Ph.D., University of Rhode Island

Park, Young-Ae (1995), Assistant Professor of Dance; B.A., University of California, Irvine; M.A., University of California, Los Angeles

Parke, Mary (1989), Faculty Associate of Civil Engineering; B.Sc., Black Hill State College; M.S., South Dakota School of Mines and Technology; Ph.D., Northwestern University

Parker, Harold E. (1987), Senior Research Technologist, Engineering Computer Services

Parkinson, Stanley R. (1971), Professor of Psychology; A.B., University of California, Berkeley; M.A., Ph.D., University of California, Davis

Parrish, H. Wayne (1967), Professor Emeritus of Curriculum and Instruction; A.B., San Diego State College; M.Ed., Ed.D., University of Oregon

Pasqualetti, Martin J. (1977), Professor of Geography; B.A., University of California, Berkeley; M.A., University of Michigan; Ph.D., University of California, Riverside

Pastin, H. Mark (1980), Professor Emeritus of Management; B.A., University of Pittsburgh; A.M., Ph.D., Harvard University

Patel, Mookesh (1990), Associate Professor of Design; B.F.A., National Institute of Design (India); M.F.A., Rhode Island School of Design

Patten, Duncan T. (1965), Professor Emeritus of Plant Biology; A.B., Amherst College; M.S., University of Massachusetts; Amherst; Ph.D., Duke University

Patterson, Donald A. (1999), Lecturer of Supply Chain Management; Assistant Department Chair; Undergraduate Supply Chain Management Academic Advisor; B.A., Lawrence University; M.A., Tennessee Technological University; Ph.D., Arizona State University

Patterson, Robert A. (1957), Professor Emeritus of Biology; B.S., University of Michigan; Ph.D., Ohio State University

Patterson, Shirley L. (1994), Professor Emeritus of Social Work; B.A., North Texas State University; M.A., McCormick Theological Seminary; M.S.W., University of Kansas; Ph.D., University of Wisconsin, Madison

Paulsen, George E. (1959), Professor Emeritus of History; B.A., Hobart College; M.A., Rutgers, The State University; Ph.D., Ohio State University

Paz, Juan J. Jr. (1988), Associate Professor of Social Work; B.A., University of Texas, El Paso; M.S., University of Houston; D.S.W., Howard University

Peacock, Simon M. (1985), Professor of Geology; Chair, Department of Geology; B.S., M.S., Massachusetts Institute of Technology; Ph.D., University of California, Los Angeles

Pearson, David L. (1988), Research Professor of Biology; B.S., Pacific Lutheran University; M.S., Louisiana State University, Baton Rouge; Ph.D., University of Washington

Pearson, John N. (1981), Professor of Supply Chain Management; B.S., M.B.A., Florida Atlantic University; Ph.D., Georgia State University

Pearson, Nancy B. (1989), Research Specialist of Microbiology; B.A., Earlham College; M.S., Louisiana State University, Baton Rouge

Peck, Robert E. (1984), Professor of Engineering; Vice Chair for Mechanical Engineering; B.S., University of California, Berkeley; M.S., Ph.D., University of California, Irvine

Pei, Ker-Wei (1986), Associate Professor of Accountancy; B.A., National Chung-Hsing University (Taiwan); M.A., Southern Illinois University, Carbondale; Ph.D., North Texas State University

Peña, Robert (1995), Assistant Professor of Educational Leadership and Policy Studies; B.S., M.A., State University of New York, Buffalo; Ph.D., University of Wisconsin, Madison

Penley, Larry E. (1985), Professor of Management; Dean, College of Business; B.A., M.A., Wake Forest University; Ph.D., University of Georgia

Peralta, Pedro D. (1998), Assistant Professor of Engineering; B.S., Simón Bolívar University (Venezuela); M.S., Ph.D., University of Pennsylvania

Perrill, Norman K. (1966), Professor Emeritus of Communication; B.S., M.A., Northwestern University; Ph.D., University of Southern California

Perry, Curtis (1995), Assistant Professor of English; B.A., Cornell University; M.A., Ph.D., Harvard University

Perry, Paty (1985), Professor of Nursing; B.S., Columbia Union College; M.S., University of Colorado; Ph.D., University of Michigan

Perry, R. Tod (1998), Assistant Professor of Finance; B.B.A., University of Notre Dame; J.D., University of Virginia; Ph.D., University of North Carolina, Chapel Hill

Perry, Ronald W. (1983), Professor of Public Affairs; B.Sc., M.A., Arizona State University; Ph.D., University of Washington
Pessler, Anthony J. (1994), Assistant Professor of Art; B.F.A., M.A., St. Cloud State University; M.F.A., University of Wisconsin, Madison

Peterson, Michelle C. (1997), Lecturer of Spanish; B.A., Western Illinois University; M.A., University of Iowa

Peterson, Gary W. (1987), Professor of Sociology; Chair, Department of Sociology; B.S., M.S., University of Nebraska, Lincoln; Ph.D., Brigham Young University

Peterson, John R. (1963), Professor Emeritus of Architecture; Graduate Coordinator of School of Architecture; B.A., Saint Olaf College; B.Arch., University of Minnesota, Twin Cities; M.Arch., Harvard University

Peterson, Ralph (1976), Associate Professor Emeritus of Elementary Education; B.A., Eastern Washington State College; M.A., Ed.D., Columbia University

Petrucci, Darren (1998), Assistant Professor of Architecture; B.S.D., Arizona State University; M.Arch., Harvard University

Petit, G. Robert (1964), Regents' Professor of Chemistry and Biochemistry; Director, Cancer Research Institute; B.S., Washington State University; M.S., Ph.D., Wayne State University

Petit, Robin (1996), Adjunct Faculty of Microbiology; B.S., University of Arizona; M.S., Washington State University; Ph.D., University of Montana

Petruskey, William T. (1983), Professor of Chemistry and Biochemistry; B.S., University of Utah; Sc.D., Massachusetts Institute of Technology

Plfahren, Anthony J. (1991), Distinguished Research Fellow of Public Affairs; B.S., J.D., University of Arizona

Pfeifer, Janice (1987), Faculty Associate of Nursing; B.S., St. Joseph College; M.S., Arizona State University

Pfuhl, Erwin H. Jr. (1968), Professor Emeritus of Sociology; A.B., Whitman College; A.M., University of Idaho; Ph.D., Washington State University

Pfeinz, David C. (1975), Associate Professor of Computer Science and Engineering; B.S., Case Institute of Technology; M.S., Ph.D., Arizona State University

Pheanis, Patrick E. (1996), Associate Professor of Mechanical and Aerospace Engineering; B.S., Tulane University; M.S., Massachusetts Institute of Technology in the College of Business; Ph.D., University of California, Berkeley

Philippakis, Andrew S. (1967), Professor of Computer Information Systems; B.S., Gannon College; M.B.A., Ph.D., University of Wisconsin, Madison

Phillips, Wayne T. (1997), Assistant Professor of Exercise Science and Physical Education; Cert. Ed., Cardiff College of Education, Cardiff (United Kingdom); M.S., Loughborough University of Technology (United Kingdom); Ph.D., Arizona State University

Phillips, William W. (1958), Professor Emeritus of History; B.S., M.A., University of North Dakota; Ph.D., University of Missouri

Pian, Richard H.J. (1959), Professor Emeritus of Engineering; B.S.C.E., Kung Shang University (China); M.S.E., Ph.D., Cornell University

Pilburn, Michael D. (1989), Professor of Curriculum and Instruction; B.S., University of California, Davis; Ph.D., Princeton University

Pickus, David (1999), Lecturer, Craig and Barbara Barrett Honors College; B.A., Lawrence University; M.A., Ph.D., University of Chicago

Pigg, Kathleen B. (1988), Associate Professor of Plant Biology; B.S., M.S., Ohio University; Ph.D., Ohio State University

Pike, James (1971), Professor of Art; B.F.A., M.F.A., University of Nebraska, Lincoln

Pimentel, David (1973), Professor of Art; B.A., University of Michigan; M.F.A., Rochester Institute of Technology

Pinckard, Mary-Margaret (1982), Librarian Emeritus; B.S., University of New Hampshire; M.L.S., University of Arizona

Pinkava, Donald J. (1964), Professor of Plant Biology; Director, Arizona State University Herbarium; B.S., M.S., Ph.D., Ohio State University

Pittman, Anne M. (1952), Professor Emeritus of Exercise Science and Physical Education; B.S., University of Texas, Austin; M.A., New York University; Ed.D., Stanford University

Pittsley, Janice M. (1987), Associate Professor of Art; B.F.A., University of North Carolina, Chapel Hill; M.F.A., University of Georgia

Pizzaroni, Vincent B. (1987), Associate Professor of Bioengineering; B.S., University of Lowell; M.S.E., Ph.D., Arizona State University

Plaff, Anne M. (1997), Assistant Librarian, Library Instruction, Systems, and Technology; B.A., Kansas State University; M.A., University of Houston, Clear Lake; M.S., University of North Texas

Podlich, William F. (1949), Professor Emeritus of Education; B.S., Maryland State Teachers College; Ph.D., University of Maryland

Poe, Jerry B. (1974), Professor of Finance; B.A., Drake College; M.B.A., Washington University; D.B.A., Harvard University

Polez, G. Donald (1967), Professor Emeritus of Social Work; B.A., Wartburg College; M.A., University of Iowa; D.S.W., University of Southern California

Polk, Janet C. (1993), Faculty Associate of Nursing; B.S.N., M.S., Arizona State University

Ponce, Fernando A. (1999), Professor of Physics and Astronomy; B.S., National University of Engineering (Peru); M.S., University of Maryland, College Park; Ph.D., Stanford University

Pope, Donna (1999), Assistant Instructional Professional, College of Extended Education; Manager, Nonprofit Management Program, Academic and Professional Programs, College of Extended Education; B.S.W., Texas Women’s University; M.S.S.W., University of Texas, Arlington
Potenza, Bruce M. (1988), Adjoint Associate Professor of Engineering; B.A., B.S., Northwestern University; M.D., Loyola University
Powell, Christian D. (1995), Assistant Research Professional of Physics and Astronomy; B.A., Thomas Moore College; M.A., Purdue University, West Lafayette; Ph.D., University of Cincinnati
Powers, Doris C. (1960), Professor Emeritus of English; B.A., Wellesley College; M.A., Occidental College; Ph.D., University of California, Berkeley
Prather, Elizabeth M. (1978), Professor Emeritus of Speech and Hearing Science; B.S., University of Nebraska, Lincoln; M.A., Ph.D., University of Iowa
Pratt, Melvin W. (1987), Senior Research Technologist, Center for Solid-State Electronics Research;
Presson, Clark C. (1980), Professor of Psychology; B.A., Pomona College; M.S., Ph.D., Columbia University
Prewitt, Kathryn A. (1992), Assistant Professor of Mathematics; B.A., University of Kansas; M.S., Ph.D., University of California, Davis
Pride, Bill E. (1997), Lecturer of Exercise Science and Physical Education; B.A., M.A., Arizona State University
Prigatano, George P. (1993), Adjunct Professor of Speech and Hearing Science; B.S., Loyola University, Los Angeles; M.A., California State University, Long Beach; Ph.D., Bowling Green State University
Primas, Phyllis J. Krause (1987), Associate Professor of Nursing; B.S.N., University of Pennsylvania; M.P.H., Ph.D., University of Pittsburgh
Pritchard, Mark P. (1998), Assistant Professor of Recreation Management and Tourism; B.S., M.S., Ph.D., University of Oregon
Pritchard, Melissa (1994), Assistant Professor of English; B.A., University of California, Santa Barbara; M.A., Western Washington University
Privateer, Paul (1991), Associate Professor of Interdisciplinary Humanities; B.A., M.A., California State University, Stanislaus; Ph.D., University of California, Davis
Provorse, Chet (1998), Assistant Instructional Professional, College of Extended Education; Manager, Computer Technology Programs, Academic and Professional Programs, College of Extended Education; B.A., State University of New York, Buffalo
Putman, Margaret (1995), Faculty Associate of Nursing; B.S.N., University of Arizona; M.S., Arizona State University
Pyne, Stephen J. (1986), Professor of Biology and History; B.A., Stanford University; M.A., Ph.D., University of Texas, Austin
Quain, Zhenchao (1994), Associate Professor of Sociology; B.S., Shanghai Institute of Education (China); M.A., Ph.D., University of Pennsylvania
Quay, Ray (1990), Adjunct Associate Professor of Planning and Landscape Architecture; B.S., Baylor University; M.S.C.R.P., University of Texas, Austin
Queen, Joni (1996), Lecturer of Mathematics; B.S., M.S., Indiana University
Quesada, Eugene R. (1973), Professor Emeritus of Design; B.A., Arizona State University
Quigg, John C. (1981), Professor of Mathematics; B.S., M.S., Ph.D., Drexel University
Quinn, Paul M. (1995), Lecturer of Speech and Hearing Science; B.A., California State University, Northridge
Rausch, Jack D. (1965), Professor Emeritus of Music; B.S., M.A., Ohio State University
Rave, Wallace J. (1967), Associate Professor of Music; B.S., Illinois State University; M.M., Ph.D., University of Illinois
Ravesloot, John C. (1993), Adjunct Professor of Anthropology; B.A., M.A., Ph.D., Southern Illinois University, Carbondale
Rawls, J. Alan (1997), Assistant Professor of Biology; B.S., University of Western Ontario (Canada); Ph.D., Saint Louis University
Ray, Timothy E. (1998), Lecturer of English; B.A., M.A., University of Central Oklahoma; Ph.D., Bowling Green State University
Ray, William J. (1968), Professor Emeritus of Curriculum and Instruction; B.S., M.S., State University of New York, Buffalo; Ed.D., Wayne State University
Razatos, Annetta (1994), Assistant Professor of Chemical Engineering; B.S., University of Colorado, Boulder; Ph.D., University of Texas, Austin
Reader, Mark (1967), Professor Emeritus of Political Science; A.B., A.M., Ph.D., University of Michigan
Reber, William (1991), Professor of Music; Director, Music Theatre Program; B.M., M.M. University of Utah; D.M.A., University of Texas, Austin
Reckers, Philip M.J. (1980), Professor of Accountancy; Director, School of Accountancy and Information Management; B.S., Quincy College; M.B.A., Washington University; Ph.D., University of Illinois
Reddick, Anna Malia (1998), Assistant Professor of Political Science; B.S., Harding University; M.A., Ph.D., Michigan State University
Redman, Betsy J. (1988), Associate Librarian, Acquisitions/Bibliographic Records Department; B.S., M.L.S., University of Arizona
Redman, Charles L. (1983), Professor of Anthropology; Director, Center for Environmental Studies; B.A., Harvard University; M.A., Ph.D., University of Chicago
Reed, Helen (1985), Professor of Mechanical and Aerospace Engineering; A.B., Goucher College; M.S., Ph.D., Virginia Polytechnic Institute and State University
Reed, Kaye E. (1997), Assistant Research Professor of Anthropology; Research Associate, Institute of Human Origins; B.S., Portland State University; M.A., Ph.D., State University of New York, Stony Brook
Rees, Ellen (1996), Assistant Professor of Languages and Literatures; B.A., Evergreen State College; M.A., Ph.D., University of Washington
Reeves, Henry C. (1969), Professor Emeritus of Microbiology; B.S., Franklin and Marshall College; M.A., Ph.D., Vanderbilt University
Reffett, Kevin L. (1995), Associate Professor of Economics; B.B.A., M.A., University of Iowa; Ph.D., Purdue University
Regier, Philip R. (1987), Associate Professor of Accountancy; Director, College of Business Honors Program; Associate Dean of Undergraduate Programs, College of Business; B.A., St. John’s College; Ph.D., University of Illinois
Reich, John W. (1965), Professor of Psychology; B.A., M.S., University of Oklahoma; Ph.D., University of Colorado
Reif, William E. (1970), Professor of Management; B.B.A., M.A., Ph.D., University of Iowa
Reiman, Etsuko Obata (1978), Associate Professor of Japanese; B.A., Keio University (Japan); M.A., Seton Hall University; M.A., Ph.D., University of Wisconsin, Madison
Reingen, Peter H. (1982), Davis Distinguished Research Professor of Marketing; B.B.A., Cologne College (Germany); M.B.A., Ph.D., University of Cincinnati
Reinshagen-Joho, Liane (1999), Assistant Professor of Latin American Literature; B.A., M.A., National Autonomous University of Mexico (Mexico); Ph.D., University of Washington
Reiser, Castle O. (1958), Professor Emeritus of Engineering; B.S., Colorado State University; Pet.E., Colorado School of Mines; Ph.D., University of Wisconsin, Madison
Reiser, Mark R. (1988), Associate Professor of Statistics; B.S., University of Michigan; Ph.D., University of Chicago
Reiss, Peter W. (1976), Professor Emeritus of Business Administration; B.S., Marquette University; M.A., Arizona State University; J.D., Marquette University
Remson, Lynne Hebert (1992), Clinical Associate Professor of Speech and Hearing Science; B.A., M.S., University of Southwestern Louisiana
Renalt, Rosemary A. (1987), Professor of Mathematics; Chair, Department of Mathematics; B.S., Durham University; Ph.D., University of Cambridge (United Kingdom)
Rendón, Laura I. (1991), Professor of Educational Leadership and Policy Studies; B.A., University of Houston; M.A., Texas A&I University; Ph.D., University of Michigan
Reneau, H. Hal (1975), Professor of Accountancy; B.B.A., M.S., Texas Tech University; Ph.D., University of Missouri, Columbia
Reuter, Vincent G. (1961), Professor Emeritus of Operations Management; B.S.C., M.A., Ph.D., University of Iowa
Reyes, Guillermo (1996), Assistant Professor of Theatre; B.A., University of California, Los Angeles; M.F.A., University of California, San Diego
Reynolds, Robert D. (1970), Associate Professor of Music; B.M., Texas Christian University; M.M., University of Texas, Austin; Ph.D., Ohio State University
Reynolds, Stephen J. (1991), Professor of Geology; B.S., University of Texas, El Paso; M.S., Ph.D., University of Arizona
Reynolds, Steven L. (1988), Associate Professor of Philosophy; B.A., University of Chicago; M.A., Ph.D., University of California, Los Angeles
Rez, Peter (1985), Professor of Physics and Astronomy; B.A., University of Cambridge (United Kingdom); M.S., D.Phil., University of Oxford (United Kingdom)
Reznikoff, Sivon C. (1973), Professor of Design; Certificate, New York School of Interior Design; B.A., University of Southwestern Louisiana; M.A., Louisiana State University, Baton Rouge
Rhea, Joseph T. (1997), Assistant Professor of Sociology; B.A., University of North Carolina; M.A., Ph.D., Harvard University
Rhoads, David M. (2000), Assistant Professor of Plant Biology; B.S., Pennsylvania State University; Ph.D., Michigan State University
Rhodes, Diane B. (1980), Librarian, Noble Science Reference Services; B.S., College of William and Mary; M.L.S., University of Wisconsin, Madison
Rhodes, Jewell Parker (1997), Professor of English; B.A., M.A., D.A., Carnegie Mellon University

Rice, Glen E. (1986), Associate Professor of Anthropology; Director, Office of Cultural Resource Management; B.A., Reed College; M.A., Ph.D., University of Washington

Rice, Ross R. (1950), Professor Emeritus of Political Science; M.A., Ph.D., University of Chicago

Rice, Warren (1958), Professor Emeritus of Engineering; B.S., M.S., Ph.D., Texas A&M University

Rich, Stephen K. (1976), Assistant Librarian, Library Administration; B.A., Amherst College; M.L.S., Indiana University, South Bend

Richa, Andrea W. (1998), Assistant Professor of Computer Science and Engineering; B.Sc., M.Sc., Federal University of Rio de Janeiro (Brazil); M.Sc., Ph.D., Carnegie Mellon University

Richard, Thelma Shinn (1975), Professor of English; B.A., Central Connecticut State College; M.A., Ph.D., Purdue University

Richards, Gale L. (1965), Professor Emeritus of Communication; B.A., University of Akron; M.A., University of Iowa

Richardson, Deane E. (1970), Professor Emeritus of Exercise Science and Physical Education; B.S., Bradley University; M.A., Ed.D., Stanford University

Richardson, Jeanne M. (1985), Associate Librarian; Team Leader, Collection Development; B.A., Lawrence University; M.S., M.L.S., Columbia University

Richardson, Richard C. Jr. (1977), Professor Emeritus of Higher Education; B.S., Castleton State College; M.S., Michigan State University; Ph.D., University of Texas, Austin

Richert, Ranko (1999), Assistant Professor of Chemistry and Biochemistry; Ph.D., Philipps University, Marburg (Germany)

Ridenour, Ronda L. (1970), Acting Head, Original Cataloging; B.A., Arizona State University; M.S.L.S., University of Southern California

Riding, James (1990), Associate Professor of Justice Studies; B.A., Fort Lewis College; M.A., Ph.D., University of California, Los Angeles

Riggs, Thomas (1998), Lecturer of Speech and Hearing Science; B.S., Metropolitan State College, Denver; M.S., University of Colorado, Boulder

Ringenoldus, Garrit M. (1989), Instructor of Military Science; B.S., Illinois State University

Ringhofer, Christian (1983), Professor of Mathematics; M.A., Ph.D., University of Vienna (Austria)

Rio, Robin (1998), Assistant Professor of Music; B.M., East Carolina University; M.A., New York University

Rios, Alberto Alvaro (1982), Regents’ Professor of English; B.A., M.F.A., University of Arizona

Rippon, Stephen (1989), Academic Associate, Division of Undergraduate Academic Services; Assistant Director, Student Success Programs; B.A., M.A., Arizona State University

Riske, Marc C. (1985), Associate Professor of Theatre; B.F.A., North Dakota State University; M.F.A., Ph.D., Wayne State University

Risley-Curtiss, Christina (1992), Associate Professor of Social Work; B.A., University of Connecticut; M.S.S.W., University of Tennessee; Ph.D., University of Maryland, Baltimore

Risseeuw, John L. (1980), Professor of Art; B.S., M.A., M.F.A., University of Wisconsin, Madison

Ritchie, Barry G. (1984), Professor of Physics and Astronomy; Associate Chair, Department of Physics and Astronomy; B.S., Appalachian State University; M.S., Ph.D., University of South Carolina

Rivera, Daniel E. (1990), Associate Professor of Chemical Engineering; B.S., University of Rochester; M.S., University of Wisconsin, Madison; Ph.D., California Institute of Technology

Rivers, Patrick (1998), Assistant Professor of Health Administration and Policy; B.A., University of Ghana (Ghana); M.B.A., University of Wisconsin, Madison; Ph.D., University of Minnesota

Rizza, Robert J. (1996), Assistant Professor of Aerospace Studies; B.S., University of Central Florida; M.A., Air Force Institute of Technology

Robbins, Earl R. (1961), Professor Emeritus of Computer Science; B.S.E.E., Texas Technological College; M.S.E., Ph.D., Arizona State University

Roberson, Lorian (1992), Associate Professor of Management; B.A., Ph.D., University of Minnesota, Twin Cities

Roberson, Robert W. (1989), Associate Professor of Plant Biology; B.S., M.S., Stephen F. Austin State University; Ph.D., University of Georgia

Roberts, Chell A. (1989), Associate Professor of Industrial Engineering; B.A., M.S., University of Utah; Ph.D., Virginia Polytechnic Institute and State University

Roberts, Lauren C. (1984), Clinical Associate Professor of Clinical Laboratory Sciences; B.S., Saint Norbert College; M.S., University of Illinois

Roberts, Maura L. (1994), Assistant Professor of Psychology in Education and Special Education; B.A., Moravian College; M.A., Ph.D., Lehigh University

Roberts, Nancy H. (1980), Senior Lecturer of Economics; B.A., University of Texas, Arlington; M.S., Ph.D., Arizona State University

Roberts, Robert P. (1988), Associate Research Specialist, Center for Solid-State Science; A.D., DeVry Institute of Technology

Roberts, Thomas G. (1970), Professor Emeritus of Curriculum and Instruction; B.A., Wake Forest University; M.A., Ph.D., University of North Carolina, Chapel Hill

Robertson, Shannon D. (1998), Assistant Professor of Exercise Science and Physical Education; B.P., M.S., McMaster University (Canada); Ph.D., Purdue University

Robinson, Helene M. (1967), Professor Emeritus of Music; B.A., University of Oregon; M.M., Northwestern University

Robinson Kurpus, Sharon E. (1978), Professor of Counseling Psychology and Counselor Education; B.S., M.S., University of Wisconsin, LaCrosse; Ph.D., Indiana University, Bloomington

Rockmaker, Jody (1997), Associate Professor of Music; B.M., New England Conservatory, Boston; M.F.A., Ph.D., Princeton University

Rodriguez, Armando (1990), Associate Professor of Electrical Engineering; B.S., Polytechnic Institute of New York, Brooklyn; M.S., Ph.D., Massachusetts Institute of Technology

Rodriguez, Ester (1986), Assistant Professor of Nursing; B.S.N., M.S., Ph.D., Arizona State University
Rody, Joseph (1994), Senior Lecturer of Mathematics; B.S., M.S., University of Akron
Roeder, Ronald J. (1981), Professor of Electrical Engineering; B.S.E.E., Princeton University; M.S., Ph.D., University of California, Los Angeles
Roen, Duane (1995), Professor of English; Interim Director, Center for Learning and Teaching Excellence; B.S., M.S., University of Wisconsin, River Falls; Ph.D., University of Minnesota, Minneapolis
Rogers, Joseph (1988), Adjunct Professor of Biology; B.A., Emory University; Ph.D., University of California, San Diego
Rogers, Rodney (1987), Professor of Music; B.M., University of Iowa; M.M., Arizona State University; Ph.D., University of Iowa
Roher, Alex E. (1997), Adjunct Professor of Biology; M.D., National University of Mexico School of Medicine; Ph.D., University of Cambridge (United Kingdom)
Rolle, Dwayne A. (1971), Associate Professor of Industrial Engineering; Associate Chair, Department of Industrial Engineering; B.S., M.S., Oklahoma State University; Ph.D., Florida State University
Rolstad, Kellie (1999), Assistant Professor of Curriculum and Instruction; B.A., M.A., Ph.D., University of California, Los Angeles
Romero, Mary (1995), Professor of Justice Studies; B.A., Regis College; Ph.D., University of Colorado
Romesburg, Charles E., Capt. (1999), Assistant Professor of Military Science; B.S., University of Pittsburgh
Romeyn, Esther (1998), Assistant Professor of Interdisciplinary Humanities; B.A., M.A., University of Amsterdam (Netherlands)
Roosa, Mark W. (1980), Professor of Family Resources and Human Development; B.S., Ohio State University; M.A., Ph.D., Michigan State University
Root, Sylvia M. (1994), Professor Emeritus of Nursing; B.S., Old Dominion University; M.S., Virginia Commonwealth University; Ed.D., Virginia Polytechnic Institute and State University
Rosales, F. Arturo (1980), Professor of History; B.A., Arizona State University; M.A., Stanford University; Ph.D., Indiana University, Bloomington
Rosdahl, Dana (1994), Instructor of Nursing; B.S.N., Montana State University; M.S., Arizona State University
Rose, Jonathan (1968), Professor of Law; B.A., University of Pennsylvania; LL.B., University of Minnesota, Twin Cities
Rose, Seth D. (1976), Professor of Chemistry and Biochemistry; B.S., University of California, Berkeley; Ph.D., University of California, San Diego
Rosen, Bernice M. (1986), Associate Instructional Professional Emeritus; B.A., Brooklyn College; M.A., New York University
Rosen, Seymour L. (1986), Professor Emeritus of Music; Dean Emeritus, College of Fine Arts; B.S., The Juilliard School
Rossi, Patrick J. (1967), Professor Emeritus of Psychology; B.S., Saint Mary’s College; M.A., San Fernando Valley State College; Ph.D., University of California, Riverside
Rothschild, Mary L. (1975), Professor of History and Women’s Studies; Director, Women’s Studies; B.A., M.A., Ph.D., University of Washington
Rothstein, Paul (1998), Assistant Professor of Design; B.F.A., University of Wisconsin-Stout, Menomonie; M.D., Illinois Institute of Technology
Rotondi, Michael (1999), Professor of Architecture; Dipl. Arch., Southern California Institute of Architecture
Roundtree, Robert (1996), Assistant Professor of Marketing; B.B.A., Pace University; M.B.A., University of Pennsylvania; Ph.D., University of Illinois, Urbana-Champaign
Rowe, Kenneth L. (1962), Professor Emeritus of Marketing; B.A., M.A., Northern Iowa University; Ph.D., Michigan State University
Roy, Asim (1983), Professor of Computer Information Systems; B.E., Calcutta University (India); M.S., Case Western Reserve University; Ph.D., University of Texas, Austin
Roy, Ramendra P. (1981), Professor of Engineering; B.Sc., University of Calcutta (India); M.S., University of Washington; M.Sc., Ph.D., University of California, Berkeley
Ruch, William A. (1968), Professor of Management; B.S., M.B.A., D.B.A., Indiana University, Bloomington
Rudolph, Robert A., Maj. (1999), Assistant Professor of Military Science; B.A., Arizona State University
Ruedemann, Richard (1997), Lecturer of Mathematics; B.S., M.A., Arizona State University; Ph.D., University of South Florida
Ruiz, Vicki L. (1995), Professor of History and Chicana and Chicano Studies; Chair, Department of Chicana and Chicano Studies; B.S., Florida State University; M.A., Ph.D., Stanford University
Runger, George (1996), Associate Professor of Industrial Engineering; B.S., Cornell University; Ph.D., University of Minnesota
Rungtusanatham, Manus (Johnny) (1998), Assistant Professor of Management; B.S., Birmingham-Southern College; Ph.D., University of Minnesota
Ruppé, Carol V. (1962), Librarian Emeritus; B.A., University of New Mexico; M.A., University of Denver
Ruppert, K.D. (1976), Research Specialist Emeritus of Geography; B.S.E.E., University of Iowa
Rush, James (1990), Associate Professor of History; Director, Southeast Asian Studies; B.A., Gettysburg College; M.A., Ph.D., Yale University
Russell, Dennis E. (1991), Associate Professor of Journalism and Telecommunication; B.S., M.M.C., Arizona State University; Ph.D., University of Utah
Russell, Paul E. (1967), Professor Emeritus of Engineering; B.S.E.E., B.S.M.E., New Mexico A&M University; M.S.E.E., Ph.D., University of Wisconsin, Madison; P.E.
Russell, Scott C. (1990), Adjunct Professor of Anthropology; B.A., University of New Mexico; M.A., Ph.D., Arizona State University
Russell, Timothy (1993), Professor of Music; B.M.Ed., Northwestern University; M.A., Ph.D., Ohio State University
Russo, Nancy Felipe (1985), Regents’ Professor of Psychology; B.A., University of California, Davis; Ph.D., Cornell University
Russomanno, Joseph A. (1994), Associate Professor of Journalism and Telecommunication; B.A., University of Colorado, Denver; M.A., University of Missouri, Columbia; Ph.D., University of Colorado
Rutherford, Robert B., Jr. (1976), Professor of Special Education; Director, Interdisciplinary Ph.D. Program in Curriculum and Instruction; B.S., M.Ed., University of Virginia; Ed.S., Ph.D., Vanderbilt University

Rutowski, Ronald L. (1976), Professor of Biology; B.A., University of California, Santa Cruz; Ph.D., Cornell University

S

Sack, John (1995), Lecturer of Management; B.B.A., M.B.A., University of Toledo; Ph.D., Arizona State University

Sacks, Benjamin (1963), Professor Emeritus of History; B.A., University of New Mexico; M.A., McGill University (Canada); Ph.D., Stanford University

Sackton, Frank J. (1976), Professor Emeritus of Public Affairs; B.S., University of Maryland, College Park; M.P.A., Doctor of Humane Letters, Arizona State University

Sadalla, Edward K. (1974), Professor of Psychology; B.A., University of California, Berkeley; Ph.D., Stanford University

Sadler, William E. (1975), Professor Emeritus of Design; B.S., M.S., Kent State University; Ph.D., Ohio State University

Saenz, Delia S. (1989), Associate Professor of Psychology; B.A., Pan American University; M.A., Ph.D., Princeton University

Sager, Harvey M. (1977), Librarian, Hayden Reference Services; B.A., San Francisco State College; M.A., California State University, Chico; M.A., University of Denver

Saldaña, Johnny (1981), Professor of Theatre; B.F.A., M.F.A., University of Texas, Austin

Sale, Gregory (1997), Curator of Education, University Art Museum; Assistant Museum Professional; B.A., B.F.A., Virginia Commonwealth University; M.F.A., University of Arizona

Salerno, Nicholas A. (1961), Professor Emeritus of English; B.A., M.A., Arizona State University; Ph.D., Stanford University

Salvucci, Michael E. (1995), Adjunct Faculty of Plant Biology; B.S., Pennsylvania State University; M.S., Ph.D., University of Florida

Samuelson, Hava Tirosh (1999), Associate Professor of History; B.A., State University of New York, Stony Brook; Ph.D., Hebrew University of Jerusalem (Israel)

Samuelson, Norbert M. (1998), Professor of Religious Studies; Harold and Jean Grossman Chair in Jewish Studies; B.A., Northwestern University; B.H.L., M.H.L., Hebrew Union College Jewish Institute of Religion; Ph.D., Indiana University

San Martín, Ignacio (1990), Associate Professor of Planning and Landscape Architecture; B.S., Portland State University; Dipl. Arch., Design, Bilbao Technical Institute (Spain); M.C.P., M.L.A., University of California, Berkeley

Sanchez, Angel (1990), Associate Professor of Languages and Literatures; Licenciatura, University Complutense (Spain); M.A., University of Minnesota, Twin Cities; Ph.D., University of Minnesota, Minneapolis

Sanders, Bevie T. (1957), Professor Emeritus of Accountancy; B.B.A., North Texas State University; M.S., Texas A&M University; Ph.D., University of Texas; C.P.A., Arizona, Texas

Sandler, Irwin (1970), Professor of Psychology; B.A., Brooklyn College; Ph.D., University of Rochester

Sands, Kathleen M. (1977), Professor of English; B.A., Fort Wright College of the Holy Names; M.A., Ph.D., University of Arizona

Sanft, Alfred C. (1990), Associate Professor of Design; B.F.A., Brigham Young University; M.F.A., Basel School of Design (Switzerland)

Sankey, Otto F. (1982), Professor of Physics and Astronomy; B.S., University of Missouri, St. Louis; M.S., Ph.D., Washington University

Sansone, Benjamin (1965), Professor Emeritus of Mathematics; B.S.E., M.S.E., University of Michigan; M.S., Ph.D., Rutgers, The State University

Santannam, Raghu (1998), Assistant Professor of Computer Information Systems; B.E., National Institute of Engineering (India); M.S., Indian Institute of Technology (India); M.S., Ph.D., State University of New York, Buffalo

Santello, Marco (1999), Assistant Professor of Exercise Science and Physical Education; B.Sc., Higher Institute of Physical Education (Italy); M.Phil., Ph.D., University of Birmingham (United Kingdom)

Santos, Manuel (1999), Professor of Economics; Licenciatura, Autonomous University of Madrid (Spain); M.A., Ph.D., University of Chicago

Santos de Barona, Maryann (1989), Professor of Psychology in Education; B.S., City University of New York; M.A., Ph.D., University of Texas, Austin

Sardi, Virginia (1999), Lecturer of Art; B.A., M.F.A., Arizona State University

Sargent, Charles S., Jr. (1971), Professor Emeritus of Geography; B.A., University of Wyoming; M.A., Ph.D., University of California, Berkeley

Savic, William (1984), Professor of Engineering; B.S., Illinois Institute of Technology; M.S., University of New Mexico; Ph.D., Illinois Institute of Technology

Sater, Vernon E. (1962), Professor of Chemical Engineering; Associate Chair, Department of Chemical and Materials Engineering; B.S.Ch.E., M.S.Ch.E., Ph.D., Illinois Institute of Technology

Satter, Richard A. (1980), Professor of Biology; B.A., Sonoma State University; Ph.D., University of California, Santa Barbara

Satterthwaite, Lester L., Jr. (1968), Professor Emeritus of Educational Media and Computers; B.S., M.S., Ed.D., Indiana University, Bloomington

Sattler, Howard E. (1967), Professor Emeritus of Education; B.S., M.S., Ph.D., Arizona State University

Saubolle, Michael (1995), Adjunct Faculty of Microbiology; B.S., Ph.D., University of California, Davis

Savage, Nevin W. (1959), Professor Emeritus of Mathematics; B.S., M.A., Pennsylvania State University; Ph.D., University of California, Los Angeles

Savage, Stephen H. (1998), Adjunct Professor of Anthropology; B.A., Cincinnati Bible Seminary; M.A., University of South Carolina; Ph.D., Arizona State University

Savard, Jeannine A. (1990), Associate Professor of English; B.S., State University of New York, Plattsburg; M.A., University of New Hampshire
Savenye, Wilhelmina C. (1991), Associate Professor of Education; B.A., University of Washington; M.Ed., Ph.D., Arizona State University

Sawhney, Anil (1999), Associate Professor of Construction; B.S.E., Inistitotion of Engineers (India); M.S., School of Planning and Architecture (India); Ph.D., University of Alberta (Canada)

Sayles, Judi (1997), Faculty Associate of Nursing; B.S.N., University of Michigan; M.S., Arizona State University

Schabacker, Joseph C. (1963), Professor Emeritus of Management; B.S., Temple University; M.B.A., Ph.D., University of California, Los Angeles

Schade, Thomas V. (1974), Professor Emeritus of Justice Studies; B.A., Hope College; M.A., Ph.D., Western Michigan University

Schall, Merri H. (1960-66, 1967), Professor Emeritus of Elementary Education; B.A., Albion College; M.S., Ed.D., Arizona State University

Schaumburg, Donald R. (1953), Professor Emeritus of Art; B.A., College of Arts and Crafts; M.F.A., Claremont Graduate College

Schaezle, David G. (1979), Professor of Architecture; Associate Dean, College of Architecture and Environmental Design; B.S., Kent State University; M.S.E., Arizona State University; Arch.D., University of Michigan

Scheck, Adrienne C. (1997), Adjunct Professor of Biology; B.A., University of Rochester; Ph.D., Rensselaer Polytechnic Institute

Scheiner, Georganne (1983), Assistant Professor of Women's Studies; B.A., Ithaca College; M.A., University Western Ontario (Canada); Ph.D., Arizona State University

Scheiner, Samuel (1995), Affiliated Faculty of Plant Biology; B.A., M.S., Ph.D., University of Chicago

Scheinfein, Michael R. (1990), Professor of Physics and Astronomy; B.S., Massachusetts Institute of Technology; M.S., Ph.D., Purdue University

Schenxayder, Clifford J. (1994), Visiting Eminent Scholar of Construction; B.C.E., M.S.C.E., Georgia Institute of Technology; Ph.D., Purdue University

Schneller, Fred (1995), Lecturer of Mathematics; B.S., University of California, Santa Barbara; M.S., Arizona State University

Schlager, John L. (1969), Professor of Marketing; B.B.A., Case Western Reserve University; M.B.A., Ph.D., Ohio State University

Schlee, Jerry (1980), Professor of Economics; B.A., North Texas State University; M.S., Ph.D., University of Illinois

Schleif, Corine (1988), Associate Professor of Art; B.A., Concordia College; M.A., Washington University; Ph.D., University of Bamberg (Germany)

Schmid, Maureen (1990), Associate Research Scientist; Director, Tandem Translation Project; B.A., Saint Mary’s College of Notre Dame; M.A., University of Notre Dame; Ph.D., State University of New York, Buffalo

Schmidt, Jean M. (1966), Professor of Microbiology; B.A., M.S., University of Iowa; Ph.D., University of California, Berkeley

Schmidt, Kevin E. (1989), Professor of Physics and Astronomy; A.B., Washington University; M.S., Ph.D., University of Illinois

Schmidt, Randall B. (1968), Professor of Art; B.A., Hamline University; M.A., University of New Mexico

Schmidt, Sherrie (1990), Librarian; Dean, University Libraries; B.A., Ohio State University; M.L.S., Emory University

Schneberger, Lois L. (1969), Librarian; Head, Preservation; B.A., Viterbo College; M.L.S., Emporia State University

Schneider, Anne L. (1989), Professor of Justice Studies; Dean, College of Public Programs; B.A., M.A., Oklahoma State University; Ph.D., Indiana University; Bloomington

Schneider, Ingrid E. (1995), Assistant Professor of Recreation Management and Tourism; B.S., M.S., University of Minnesota; Ph.D., Clemson University

Schneider, Eugene S. (1985), Professor of Health Administration and Policy; Director, School of Health Administration and Policy; B.A., Post College; Ph.D., New York University

Schober, Juliane (1991), Associate Professor of Religious Studies; B.A., University of Northern Colorado; M.A., Ph.D., University of Illinois

Schoebel, Henry L. (1990), Associate Professor of Art; B.F.A., Syracuse University; M.F.A., University of Maryland, College Park

Schoenwetter, James (1967), Professor Emeritus of Anthropology; A.B., University of Chicago; M.S., University of Arizona; Ph.D., Southern Illinois University

Schroeder, Dieter K. (1981), Professor of Electrical Engineering; Codirector, Center for Low Power Electronics; B.S.E.E., M.S.E.E., McGill University (Canada); Ph.D., University of Illinois

Schroeder, Milton R. (1969), Professor of Law; B.A., Wesleyan University; J.D., University of Chicago

Schuhaback, Gertrud B. (1966), Professor Emeritus of German; B.A., M.A., Arizona State University

Schultz, Joseph J. (1983), Professor of Accountancy; B.S., M.B.A., Mississippi State University; Ph.D., University of Texas, Austin; C.P.A., Mississippi

Schultz, Mary E. (1999), Faculty Associate of Nursing; B.S.N., M.S.N., University of Phoenix

Schuring, Martin (1992), Assistant Professor of Music; B.M., Curtis Institute of Music; M.A., Arizona State University

Schutte, Jerry (1988), Associate Professor of Art; B.A., Fort Hays State University; M.F.A., Arizona State University

Schwalm, David E. (1986), Associate Professor of English; Dean of East College; Vice Provost of Arizona State University East; B.A., Carleton College; M.A., Ph.D., University of Chicago

Schwartz, Andrew B. (1993), Faculty Research Associate of Bioengineering; B.A., Ph.D., University of Minnesota

Scoggin, Janet (1989), Professor Emeritus of Nursing; B.S.N., University of Portland; M.S., Ph.D., Arizona State University

Scott, Gladys Vega (1998), Visiting Assistant Professor of Spanish; B.A., Higher Education Institute for Modern Languages (Argentina); M.A., M.S., Ph.D., Purdue University

Scott, Richard (1997), Adjunct Professor of Anthropology; B.A., Ph.D., Arizona State University

Scott, Ronald Jr., Col. (1999), Professor of Aerospace Studies; Chair, Department of Aerospace Studies; B.S., United States Air Force Academy, Colorado Springs; M.A., University of North Texas, Denton

Scowen, Paul A. (1992), Assistant Research Professor of Physics and Astronomy; B.S., University of Birmingham (United Kingdom); M.S., Ph.D., Rice University

Searfoss, Lyndon W. (1973), Professor of Reading and Library Science; B.S., West Chester State College; M.A., Ph.D., Syracuse University
Seaton, Helen J. (1987), Librarian, Noble Science Reference Services; B.A., Rutgers University; M.L.S., University of Missouri, Columbia

Sebald, Hans (1963), Professor Emeritus of Sociology; B.A., Manchester College; M.S., Ph.D., Ohio State University

Segal, Elizabeth A. (1995), Professor of Social Work; B.A., Brandeis University; M.S.W., Boston University; Ph.D., University of Illinois, Chicago

Segura, Joseph M. (1979), Associate Professor of Art; B.A., M.F.A., Southern Illinois University, Carbondale

Sechsted, Colene R. (1967), Assistant Professor of Nursing; B.S.N., University of Arkansas, Fayetteville; M.S.N., University of Maryland, Baltimore

Seipp, Kenneth F. (1963), Professor Emeritus of Music; B.S., Hartwick College; M.M., University of Kansas; Mus.Ed.D., Indiana University, Bloomington

Selkirk, Susan (1977), Associate Research Professional of Geology; B.A., M.A., Arizona State University

Sell, Susan (1995), Adjunct Faculty of Microbiology; A.B., University of California, Berkeley; Ph.D., University of Utah Medical Center

Sellheim, Eckart (1989), Professor of Music; Concert Diploma, Academy of Music (Germany)

Sen, Arunabha (1986), Associate Professor of Computer Science and Engineering; B.E., Jadavpur University (India); Ph.D., University of South Carolina

Senner, Wayne M. (1973), Associate Professor of German; B.A., Portland State University; M.A., University of Washington; Ph.D., University of Illinois

Sensibar, Judith L. (1985), Professor of English; B.A., Vassar College; M.A., Ph.D., University of Chicago

Sentinery, Robert (1994), Faculty Associate of Design; B.S.D., Arizona State University

Senturk, Esma G. (2000), Assistant Professor of Industrial Engineering; B.S., Orta Dogu Technical University (Turkey); M.S., Ph.D., Northwestern University

Servint, Nancy J. (1988), Associate Professor of Art; B.A., University of Illinois; M.A., University of Chicago; M.A., Ph.D., Princeton University

Shackle, Linda A. (1984), Librarian, Noble Science Reference Services; B.A., State University of New York, Oswego; M.L.S., State University of New York, Albany

Shah, Jami (1984), Professor of Engineering; B.S.M.E., University of Karachi (Pakistan); M.S., University of Pittsburgh; Ph.D., Ohio State University

Shao, Benjamin (1999), Assistant Professor of Computer Information Systems; B.S., M.S., National Chiao Tung University (Taiwan); Ph.D., State University of New York, Buffalo

Shapiro, Joan Rankin (1997), Adjunct Professor of Biology; B.S., Westminster College; M.A., Hofstra University; Ph.D., Cornell University Medical College

Sharer, Jon W. (1975), Professor of Art; Assistant Director, School of Art; B.A., Roosevelt University; M.S., Illinois Institute of Technology; Ph.D., Ohio State University

Sharma, Anu (1995), Assistant Professor of Speech and Hearing Science; B.S., University of Bombay (India); M.A., Ph.D., Northwestern University

Sharma, Renu (1985), Associate Research Scientist, Center for Solid-State Science; B.S, B.Ed., Punjab University (India); M.S., Ph.D., University of Stockholm (Sweden)

Sharp, Thomas (1996), Assistant Professor of Geology; B.S., University of Minnesota; M.S., Ph.D., Arizona State University

Sharp, William P. (1979), Senior Research Specialist of Plant Biology; B.A., University of Northern Iowa; M.S., Arizona State University

Shaw, Milton C. (1978), Professor Emeritus of Engineering; B.S.M.E., Drexel University; M.E.Sc., Sc.D., University of Cincinnati; Dr.H.C., University of Louvain (Belgium)

Shearer, Nelma (1993), Faculty Associate of Nursing; B.S.N., University of Iowa; M.S., Boston University

Shears, Brenda L. (1987), Assistant Research Administrator; Research Coordinator, Center for Environmental Studies; B.A., Arizona State University; M.A., Hunter College

Shell, Leon G. (1967), Associate Professor of Counselor Education; Associate Vice President, Student Affairs; B.A., University of Colorado; A.M., Ed.D., University of Northern Colorado

Shellsan, Michael J. (1992), Lecturer of Music; B.M., University of Arizona; M.M., Arizona State University

Shen, Jun (1996), Associate Professor of Electrical Engineering; B.S., South China University of Science and Technology (China); M.S., Texas Tech University; Ph.D., University of Notre Dame

Sheppard, Douglas C. (1971), Professor Emeritus of Spanish; B.A., Montana State University; M.A., Ph.D., University of Wisconsin, Madison

Sherman, Thomas L. (1964), Professor Emeritus of Mathematics; B.A., University of California, Los Angeles; M.S., Ph.D., University of Utah

Sherry, E. Yury (1973), Associate Professor of Architecture; B.S.C.E., University of Arizona; M.S.C.E., Arizona State University

Shinn, Randall A. (1978), Professor of Music; B.A., Southwestern Oklahoma State University; M.M., University of Colorado; D.M.A., University of Illinois

Shipp, Vernon E. (1966), Professor Emeritus of Art; B.S., Grand Canyon College; M.A., Arizona State University

Shrader, Tina (1999), Assistant Librarian; B.A., Bethany College, Bethany; M.S.L.I.S., University of Kentucky

Shrednick, Harvey R. (1995), Senior Lecturer of Computer Information Systems; B.S., City College of New York; M.B.A., Baruch College

Shriver, Keith A. (1982), Professor of Accountancy; B.S., Linfield College; M.S., Arizona State University; Ph.D., University of Texas, Austin; C.P.A., Arizona
Shuman, I. Gayle (1974), Professor Emeritus of Justice Studies; B.S., M.A., Ed.D., Arizona State University
Shunk, Dan L. (1984), Associate Professor of Industrial Engineering; B.S.I.E., M.S.I.E., Ph.D., Purdue University
Si, Jennie (1991), Associate Professor of Electrical Engineering; B.S., M.S., Tsinghua University (China); Ph.D., University of Notre Dame
Sieradzki, Karl (1994), Professor of Mechanical and Aerospace Engineering; B.S., Utica College of Syracuse University; M.S., Ph.D., Syracuse University
Sierra-Maldonado, Rodrigo (1995), Assistant Professor of Geography; B.S., M.S., Catholic University of Ecuador; M.S., Ph.D., Ohio State University
Sif, Jennie
Silver, Benjamin (1971), Professor Emeritus of Journalism and Telecommunication; B.A., M.A., University of Iowa
Simhony, Avital (1994), Associate Professor of Political Science; B.A., M.A., University of Haifa (Israel); D.Phil., University of Oxford (United Kingdom)
Simmons, Douglas J. (1963), Professor Emeritus of French; A.B., Wabash College; M.A.T., Harvard University; Certificat de français usuel, degré supérieur, Certificat de prononciation française, Sorbonne University (France)
Simmons, Howard L. (1996), Professor of Educational Leadership and Policy Studies; B.S., Spring Hill College; M.A.T., Indiana University; Ph.D., Florida State University
Simon, Arleyn W. (1989), Associate Research Professor of Anthropology; B.A., Montana State University; M.A., Oregon State University; Ph.D., Arizona State University
Simon, Sheldon (1999), Assistant Professor of Mathematics; B.A., University of California, Berkeley; Ph.D., University of California, Los Angeles
Simon, Andrew T. (1978), Professor of Biology; A.B., University of California, San Francisco; Ph.D., University of California, Los Angeles
Skibov, Edward B. (1982), Professor of Chemistry and Biochemistry; B.S., M.S., Drexel University; Ph.D., University of California, San Francisco
Skildov, Jonathan A. (1993), Adjunct Professor of Geography; B.A., Saint Olaf College; M.A., Ohio University; Ph.D., University of Delaware
Skoldberg, Phyllis (1977), Professor of Music; B.M., M.M., New England Conservatory of Music; M.M.E., D.M., Indiana University, Bloomington
Skromme, Brian J. (1989), Associate Professor of Electrical Engineering; B.S., University of Wisconsin, Madison; M.S., Ph.D., University of Illinois
Smeltzer, Larry R. (1986), Professor of Supply Chain Management; B.S., University of Montana; M.A., University of Nebraska; Ed.D., Northern Illinois University
Smith, Andrew T. (1978), Professor of Biology; A.B., University of California, Berkeley; Ph.D., University of California, Los Angeles
Smith, Arthur B., Jr. (1967), Professor Emeritus of General Business; B.S., Hardin-Simmons University; M.B.A., Ed.D., University of Houston
Smith, Charles B. (1964), Professor Emeritus of General Business; B.S., Drake University; M.S., New Mexico Highlands University; Ed.D., University of Northern Colorado
Smith, Cheryl Aubin (1996), Faculty Associate of Nursing; B.S.N., University of Arizona; M.S., Arizona State University
Smith, David J. (1984), Regents' Professor of Physics and Astronomy and Center for Solid-State Science; B.Sc., Ph.D., D.Sc., University of Melbourne (Australia)
Smith, Georgia A.F. (1985), Associate Professor of Biology; B.A., University of California, Santa Barbara; M.P.H., University of Michigan; Ph.D., University of California, Riverside
Smith, Gregory D. (1999), Assistant Professor of Mathematics; B.S., Massachusetts Institute of Technology; Ph.D., University of California, Davis
Smith, Hal L. (1979), Professor of Mathematics; B.A., Ph.D., University of Iowa
Smith, Harvey A. (1977), Professor of Mathematics; B.S., Lehigh University; M.S., A.M., Ph.D., University of Pennsylvania
Smith, Henry Charles (1989), Professor Emeritus of Music; B.A., University of Pennsylvania; Artist Diploma, Curtis Institute of Music
Smith, Jeffrey B. (1990), Associate Professor of Music; M.M., University of Illinois; D.M.A., University of North Carolina
Smith, Karen Ann (1999), Associate Professor of Curriculum and Instruction; B.A., University of the Americas (Mexico); M.A., Ph.D., Arizona State University
Smith, L. Christian (1971), Associate Professor of History; B.A., Union College; M.A., Ph.D., University of Illinois
Smith, Marion W. (1952), Professor Emeritus of Music; B.S., Capital University; M.M., American Conservatory of Music
Smith, Mary Lee (1986), Professor of Educational Policy Studies and Psychology in Education; Interim Director, Division of Educational Leadership and Policy Studies; B.A., M.P.S., Ph.D., University of Colorado
Smith, Ralph E. (1970), Professor of Accountancy; B.B.A., Washburn University of Topeka; M.S., Ph.D., University of Kansas; C.P.A., Kansas

Smith, Richard L. (1967), Professor Emeritus of Industrial Engineering; B.S., Washington University; M.S., Ohio State University; Ph.D., Arizona State University

Smith, Ronald D. (1962), Associate Professor of History; A.B., San Diego State College; Ph.D., University of Southern California

Smith, Stanley E. (1977), Professor Emeritus of Journalism and Telecommunication; B.A., Colgate University; M.A., Purdue University

Smith-Daniels, Dwight E. (1987), Associate Professor of Management; B.B.A., University of Michigan; Ph.D., University of Arizona

Smith-Daniels, Vicki L. (1987), Associate Professor of Operations Management; Codirector, Manufacturing Institute; B.B.A., University of San Diego; Ph.D., Ohio State University

Smith-Dawson, Beverly (1998), Lecturer of Theatre; B.S., M.H.S.A., Arizona State University; M.F.A., Yale University

Smith, Stanley E. (1997), Professor Emeritus of Journalism and Telecommunication; B.A., Colgate University; M.A., Purdue University

Snow, Robert (1970), Professor Emeritus of Sociology; B.S., M.A., Ph.D., University of Minnesota, Twin Cities

Sonntag, Volker K.H. (1990), Adjunct Professor of Engineering; B.A., Arizona State University; M.D., University of Arizona

Spruyt, Hendrik (1999), Associate Professor of Political Science; B.A., Leiden University (Netherlands); M.A., Ohio State University; Ph.D. University of California, San Diego

Spinosa, Frank (1965), Professor of Music; B.M., M.A., Boston University; D.M.A., University of Illinois

Spinrad, Tracy (1999), Assistant Professor of Family Resources and Human Development; B.A., University of California, Irvine; M.S., Ph.D., Pennsylvania State University

Spritzer, Ralph S. (1986), Visiting Professor of Law; B.S., LL.B., Columbia University

Spruill, Christopher (1997), Associate Professor of Political Science; B.A., University of Texas, Austin; M.Ed., University of Houston, Victoria; Ph.D., University of Texas, Austin

Stage, Christina (1992), Lecturer, Division of Undergraduate Academic Services; Assistant Director, Bachelor of Interdisciplinary Studies; B.I., University of Nebraska, Lincoln; M.A., Ohio University; Ph.D., Arizona State University

Stahl, Robert (1978), Professor of Curriculum and Instruction; B.A., M.Ed., Ed.D., University of Florida

Staley, Frederick A. (1970), Professor of Curriculum and Instruction; B.A., M.A., Western Michigan University; Ph.D., Michigan State University

Stalzer, Frank S. (1955), Professor Emeritus of Music; B.M.Ed., University of Kansas; M.M., Eastman School of Music

Stamm, Jill (1998), Clinical Assistant Professor of Psychology in Education; B.A., DePauw University; M.A., Ph.D., Arizona State University
Stanford, Michael (1992), Senior Lecturer, Craig and Barbara Barrett Honors College; B.A., Duke University; M.A., Ph.D., University of Virginia

Stange, Jean B. (1970), Professor Emeritus of Family Resources and Human Development; B.S., Iowa State University; M.S., University of Minnesota, Twin Cities

Stanley, James T. (1968), Professor Emeritus of Materials Science and Engineering; B.S., M.S., Ph.D., University of Illinois

Stanton, Ann M. (1980), Professor of Law; B.A., University of Minnesota, Twin Cities; Ph.D., J.D., Stanford University

Stark, Barbara L. (1980), Adjunct Professor of Anthropology; B.A., Rice University; M.Phil., Ph.D., Yale University

Stark, Louisa R. (1999), Adjunct Professor of Anthropology; B.A., Barnard College; M.A., Columbia University; Ph.D., New York University

Starrfield, Sumner G. (1972), Professor of Physics and Astronomy; B.A., University of California, Berkeley; M.A., Ph.D., University of California, Los Angeles

Stauffer, Sandra L. (1990), Associate Professor of Music; B.S., West Chester University; M.M., Ph.D., University of Michigan

Steadman, Lyle B. (1971), Assistant Professor of Anthropology; B.A., Occidental College; M.A., University of California, Los Angeles; Ph.D., Australian National University (Australia)

Stearns, Mary Beth (1981), Regents' Professor Emeritus of Physics and Astronomy; B.S., University of Minnesota, Twin Cities; Ph.D., Cornell University

Steere, Caryl J. (1960), Professor Emeritus of Education; B.A., Albion College; M.A., Arizona State University

Stein, Bernita M. (1961), Professor Emeritus of Nursing; B.S.N., M.P.H., University of Minnesota, Twin Cities

Steinle, Timothy C. (1985), Professor of Chemistry and Biochemistry; B.S., Michigan State University; Ph.D., University of California, Santa Barbara

Steinbart, Paul (1997), Professor of Accountancy; B.A., University of Illinois; M.B.A., Southern Illinois University; Ph.D., Michigan State University

Steiner, Frederick (1989), Professor of Planning and Landscape Architecture; Director, School of Planning and Landscape Architecture; B.S., M.C.P., University of Cincinnati; M.R.P., M.A., Ph.D., University of Pennsylvania

Steiner, Sue (1996), Associate Professor of Social Work; B.A., Brandeis University; M.S.W., San Francisco State University; Ph.D., University of Washington

Stelmach, George E. (1990), Professor of Exercise Science and Physical Education; B.S., University of Illinois; M.A., Ed.D., University of California, Berkeley

Stephens, Nancy J. (1979), Associate Professor of Marketing; B.S., M.S., University of Illinois; Ph.D., University of Texas, Austin

Stephenson, Christine F. (1995), Adjunct Professor of Biology; B.S., University of Ulster (United Kingdom); Ph.D., The Queen's University of Belfast (United Kingdom)

Stephenson, Larry K. (1986), Adjunct Professor of Geography; B.S., M.A., Arizona State University; Ph.D., University of Cincinnati

Sterling, Pamela (1999), Assistant Professor of Theatre; B.F.A., M.F.A., University of Washington

Stevens, Scott M. (1995), Assistant Professor of English; B.A., Dartmouth; M.A., Ph.D., Harvard University

Stevenson, Harold W. (1967), Professor Emeritus of Finance; B.S., University of Minnesota, Twin Cities; M.B.A., Ph.D., University of Michigan; C.F.A.

Stevenson, Norris J. (1932), Professor Emeritus of Physical Education; B.A., Arizona State University; M.S., University of Southern California

Stewart, Barry D. (1982), Associate Senior Research Specialist of Electrical Engineering; B.S., West Virginia University

Stewart, Donald G. (1964), Professor Emeritus of Mathematics; B.A., M.S., Utah State University; Ph.D., University of Tennessee, Knoxville

Stewart, Kenneth M. (1947), Professor Emeritus of Anthropology; A.B., M.A., Ph.D., University of California, Berkeley

Stewart, Robert R. (1997), Faculty Associate of Construction; B.A., Ottawa University

Still, Ruth Z. (1997), Lecturer of Hebrew; B.A., The Hebrew University of Jerusalem (Israel); M.A., Ohio State University

Stillwell, Susan B. (1997), Clinical Associate Professor of Nursing; B.S., College of Saint Teresa; M.S.N., University of Florida

Stinson, Judith M. (1997), Director, Legal Research and Writing and Academic Success Program; B.S., J.D., University of Arizona

Stites, William H. (1954), Professor Emeritus of Communication; B.A., Louisiana Polytechnic Institute; M.A., Ph.D., University of Denver

Stok, William A. (1984), Professor Emeritus of Exercise Science and Physical Education; B.A., Blackburn College; M.S., Ph.D., Iowa State University

Stock, David Allen (1978), Professor of Music; B.S., Concordia Teachers College; M.M., Ph.D., Northwestern University

Stokrocki, Mary L. (1990), Professor of Art; B.S., State University of New York, New Paltz; M.S., Massachusetts College of Art; D.Ed., Pennsylvania State University

Stone, Gregory O. (1986), Associate Professor of Psychology; B.A., Harvard University; Ph.D., University of California, San Diego

Stone, William J. (1967), Professor of Exercise Science and Physical Education; Chair, Department of Exercise Science and Physical Education; B.S., Boston University; M.S., Florida State University; Ed.D., University of California, Berkeley

Stoner, K. Lynn (1985), Associate Professor of History; B.S., George Peabody College for Teachers; M.A., Ph.D., Indiana University

Stout, Robert (1978), Professor Emeritus of Educational Administration and Supervision; B.A., Carleton College; Ph.D., University of Chicago

Stout, Valerie (1991), Associate Professor of Microbiology; B.S., University of Wisconsin, Madison; Ph.D., Kansas State University

Stowe, Noel J. (1967), Professor of History; Chair, Department of History; B.A., Ph.D., University of Southern California

Strange, Richard E. (1974), Professor Emeritus of Music; B.M.E., Wichita State University; M.M.E., University of Colorado; D.M.A., Boston University
Strawn, Roland S. (1967), Professor Emeritus of Engineering; B.S.E.E., M.S.E.E., University of Illinois; Ph.D., Arizona State University

Strick, James E. (1999), Assistant Professor of Biology; B.S., State University of New York, College at Cortland; M.S., State University of New York, Syracuse; M.A., Ph.D., Princeton University

Strom, Robert (1969), Professor of Education; B.S., Macalester College; M.S., University of Minnesota, Twin Cities; Ph.D., University of Michigan

Stromberg, Juliet C. (1988), Associate Professor of Plant Biology; B.S., M.S., University of Wisconsin, Madison; Ph.D., Arizona State University

Stromwall, Layne (1996), Assistant Professor of Social Work; B.A., M.S.S.W., University of Wisconsin, Madison; Ph.D., Case Western Reserve University

Stroupe, Daniel (1990), Professor of Law; Director, Center for the Study of Law, Science, and Technology; A.B., S.M., Harvard University; J.D., University of Wisconsin, Madison

Stump, Edmund (1976), Professor of Geology; A.B., Harvard University; M.S., Yale University; Ph.D., Ohio State University

Stutz, Jean C. (1981), Associate Professor of Plant Biology; B.S., Ursinus College; M.S., University of Delaware; Ph.D., Pennsylvania State University

Sudol, David E. (1996), Senior Lecturer of English; B.A., Simpson College; M.A., Drake University; Ph.D., University of Arizona

Sugar, Thomas G. (1999), Assistant Professor of Mechanical and Aerospace Engineering; B.S.E., M.S.E., Ph.D., University of Pennsylvania

Sugiyama, Saburo (1999), Adjunct Professor of Anthropology; B.S., Tokyo-Keizai University (Japan); Ph.D., Arizona State University

Sullivan, Deborah A. (1976), Associate Professor of Sociology; B.S., University of Massachusetts, Amherst; M.A., University of California, Irvine; Ph.D., Duke University

Sullivan, Howard (1971), Professor of Education; B.S., Oregon College of Education; M.Ed., Ph.D., University of Oregon

Sunkett, Mark E. (1976), Professor of Music; B.M., Curtis Institute of Music; M.M., Temple University; Ph.D., University of Pittsburgh

Surbeck, Elaine (1988), Associate Professor of Early Childhood Education; B.A., University of Washington; M.Ed., Ed.D., University of Georgia

Surgent, Scott (1997), Lecturer of Mathematics; B.S., M.S., University of California, Riverside

Sushka, Marie E. (1984), Professor of Finance; B.A., Sweet Briar College; M.A., Ph.D., Georgetown University

Suslov, Sergei K. (1997), Assistant Professor of Mathematics; M.Sc., Moscow Institute of Physics and Technology (Russia); Ph.D., Kurchatov Institute of Atomic Energy (Russia)

Susser, Eric (1997), Lecturer, Craig and Barbara Barrett Honors College; B.A., University of Michigan; M.A., Ph.D., University of Virginia

Suwarno, Peter (1993), Assistant Professor of Indonesian; B.A., Satya Wacana Christian University (Indonesia); M.A., Ph.D., Ohio University

Swaim, S. Daniel (1975), Professor of Music; B.M., Cincinnati College Conservatory of Music; M.M.E., Indiana University, Bloomington; D.M.A., North Texas University

Swan, Pamela (1994), Assistant Professor of Exercise Science and Physical Education; B.A., University of California, Santa Barbara; M.S., University of North Carolina, Greensboro; Ph.D., University of Tennessee

Swanson, Tod D. (1988), Associate Professor of Religious Studies; Director, Latin American Studies Center; B.A., University of Minnesota, Twin Cities; M.Div., Luther Theological Seminary; Ph.D., University of Chicago

Swaty, Mary A. (1968), Associate Librarian, Original Cataloging; B.A., University of Missouri, Columbia; M.L.S., Indiana University, Bloomington

Sweeney, J. Gray (1986), Professor of Art; B.A., University of New Mexico; M.A., Ph.D., Indiana University, Bloomington

Sweeney, James D. (1989), Associate Professor of Bioengineering; Sc.B., Brown University; Ph.D., Case Western Reserve University

Swimmer, Alvin (1963), Associate Professor of Mathematics; B.S., Pennsylvania State University; M.S., New York University; Ph.D., University of California, Berkeley

Sylvester, Edward J. (1982), Professor of Journalism and Telecommunication; A.B., Princeton University; M.A., City College

Sylvester, Virginia R. (1981), Associate Librarian; Head, Access Services; B.A., Hobart and William Smith Colleges; M.L.S., Rutgers, The State University

Szarek, Stanley R. (1974), Associate Professor of Plant Biology; Associate Chair of Plant Biology; B.S., California Polytechnic State University, Pomona; Ph.D., University of California, Riverside

T

Tambs, Lewis A. (1969), Professor of History; B.S., University of California, Berkeley; M.A., Ph.D., University of California, Santa Barbara

Tang, Carol M. (1997), Assistant Professor of Geology; B.A., University of California, Berkeley; M.S., Ph.D., University of Southern California

Tatro, B. J. (1990), Faculty Associate of Public Affairs; B.A., M.S.S.W., University of Louisville; D.P.A., Arizona State University

Taylor, Dan (1996), Lecturer of Accountancy; B.A., University of Nebraska; M.A., M.Tax., Arizona State University

Taylor, Janet R. (1977), Professor of Art; B.F.A., Cleveland Institute of Art; M.F.A., Syracuse University

Taylor, Nora (1998), Assistant Professor of Interdisciplinary Humanities; B.A., Brown University; M.A., Ph.D., Cornell University

Taylor, Steve (1998), Fine Arts Specialist; B.F.A., Virginia Commonwealth University; M.F.A., University of Texas, Austin

Taylor, Thomas (1983), Associate Professor of Mathematics; B.S., California State University; Ph.D., Harvard University

Tesón, Fernando R. (1984), Professor of Law; J.D., University of Buenos Aires (Argentina); L.L.M., Free University of Brussels (Belgium); S.J.D., Northwestern University
Teye, Victor B. (1984), Associate Professor of Recreation Management and Tourism; B.A., University of Ghana (Ghana); M.A., Ph.D., University of Manitoba (Canada)

Tharp, Julie (1991), Assistant Librarian, Hayden Reference Services; B.A., University of Hawaii; M.L.S., University of Arizona

Thieme, Horst R. (1988), Professor of Mathematics; M.S., Ph.D., University of Münster (Germany)

Thomas, David A. (1999), Lecturer, Division of Undergraduate Academic Services and Bachelor of Interdisciplinary Studies Program; B.S., California State Polytechnic University; M.B.A., Ph.D., University of Southern California

Thomas, George M. (1981), Professor of Sociology; B.A., Arizona State University; M.A., Ph.D., Stanford University

Thompson, Barton A. (1999), Lecturer, Division of Undergraduate Academic Services and Bachelor of Interdisciplinary Studies Program; B.A., Colorado College; M.A., University of California, Santa Barbara; M.S., Stanford University; Ph.D., University of California, Santa Barbara

Thompson, D. Bruce (1991), Adjunct Professor of Biology; B.S., Kennesaw College; Ph.D., University of Illinois

Thompson, Helen F. (1998), Assistant Professor of English; B.A., Amherst College; M.A., Johns Hopkins University; M.A., Ph.D., Duke University

Thompson, Janice Catherine (1977), Professor of Music; B.M.E., M.M.E., University of Wisconsin; M.M., Western Michigan University; D.M., Northwestern University

Thompson, Marilyn S. (1999), Assistant Professor of Educational Psychology; B.A., Carleton College; M.A., Ph.D., University of Kansas

Thompson, Victoria E. (1999), Assistant Professor of History; B.A., University of California, Berkeley; Ph.D., University of Pennsylvania

Thomsen-Youel, Jean (1995), Assistant Professor of Theatre; B.A., Macalester College; M.A., Arizona State University; M.F.A., University of Arizona

Thomson, Jeffrey (1981), Professor of Theatre; B.A., Ripon College; M.A., University of Washington; M.F.A., Wayne State University

Thorne, Anita (1984), Professor Emeritus of Nursing; Diploma, Allegheny General Hospital; B.S.N.Ed., M.A., University of Pittsburgh

Thornton, Sybil (1994), Assistant Professor of History; B.A., University of California, Berkeley; B.A., University of Cambridge (United Kingdom); M.A., San Francisco State University; M.A., Ph.D., University of Cambridge (United Kingdom)

Thornton, Trevor John (1998), Professor of Electrical Engineering; B.S., Saint Catherine’s College (United Kingdom); M.A., Ph.D., Cambridge University (United Kingdom)

Thurber, Frances (1991), Professor of Nursing; Chair, Division of Adult Health/Parent-Child Nursing; B.S.N., Saint Anselm College; M.S.N., University of Pennsylvania; Ph.D., University of Michigan

Thurman, Andree A. (1999), Lecturer of Computer Science and Engineering; B.S., Montclair State College; M.S., Purdue University

Tice, Thomas E. (1967), Professor Emeritus of Electrical Engineering; B.S.E.E., M.S.E.E., Ph.D., Ohio State University

Tillery, Bill W. (1973), Professor of Physics and Astronomy and Science Education; B.S., Northeastern State College; M.A., Ed.D., University of Northern Colorado

Tillman, Hoyt C. (1976), Professor of History; B.A., Belhaven College; M.A., University of Virginia; A.M., Ph.D., Harvard University

Tipton, Gary P. (1969), Assistant Professor of Chinese; B.A., Brigham Young University; Ph.D., Indiana University; Bloomington

Tobiason, Sarah J. (1963–76; 1974), Professor Emeritus of Nursing; B.S.N., Vanderbilt University; M.A., Columbia University

Tohe, Laura (1997), Assistant Professor of English; B.A., University of New Mexico; M.A., Ph.D., University of Nebraska

Tompkins, Cynthia M. (1992), Associate Professor of Spanish; Licenciada en Letras Modernas, National University of Cordoba (Argentina); M.A., Ph.D., Pennsylvania State University

Torest, Robert S. (1980), Associate Professor of Chemical Engineering; B.S., Polytechnic Institute of Brooklyn; Ph.D., University of Minnesota, Twin Cities

Towe, Bruce C. (1984), Professor of Bioengineering; B.S., M.S., Ph.D., Pennsylvania State University

Towill, Leslie R. (1975), Associate Professor of Plant Biology; B.S., M.S., University of Wisconsin, Milwaukee; Ph.D., University of Michigan

Traen, Teresa (1993), Faculty Associate of Public Affairs; B.A., Northern Arizona University; M.A., Wheaton College; Ed.D., D.P.A., Arizona State University

Tracey, Terence (1999), Professor of Counseling Psychology; Training Director and Program Coordinator, Counseling Psychology; Academic Program Leader, Counselor Education; B.A., Cornell University; M.S.Ed., University of Kansas, Lawrence; Ph.D., University of Maryland, College Park

Trapido-Lurie, Barbara (1987), Associate Research Specialist of Geography; B.A., Pomona College; M.A., University of Hawaii

Trapuzzano, Michael (1989), Lecturer of Mathematics; B.S., United States Air Force Academy, Colorado; M.B.A., University of Utah

Treasure, Darren C. (1998), Assistant Professor of Exercise Science and Physical Education; B.A., West London Institute of Higher Education (United Kingdom); M.S., Ph.D., University of Illinois, Urbana-Champaign

Trelease, Richard N. (1971), Professor of Plant Biology; B.S., M.S., University of Nevada, Reno; Ph.D., University of Texas, Austin

Trennert, Robert A. (1974), Professor of History; B.A., Occidental College; M.A., Los Angeles State College; Ph.D., University of California, Santa Barbara

Tretewey, Angela (1996), Assistant Professor of Communication; B.A., M.A., California State University; Ph.D., Purdue University

Troost, Melanie R. (1991), Associate Professor of Communication; B.S., Montana State University; M.A., Ph.D., Arizona State University

Trotta, Victoria K. (1996), Associate Dean and Director, Law Library; B.A., Occidental College; M.L.S., University of California, Los Angeles; J.D., University of Southern California
Trotter, William T. (1987), Regents' Professor of Mathematics; B.S., The Citadel; M.A., Ph.D., University of Alabama

Trujillo, Octaviana Valenzuela (1995), Assistant Professor of Multicultural Education; Director, Center for Indian Education; B.A., M.A., Ph.D., Arizona State University

Trujillo, Rosanne E. (1999), Assistant Librarian, Hayden Reference Services; B.A., Utah State University; M.A., University of Arizona; M.B.A., University of Phoenix

Tsai, Wei-Tek (1999), Professor of Computer Science and Engineering; S.B., Massachusetts Institute of Technology; M.S., Ph.D., University of California, Berkeley

Tsakalis, Konstantinos S. (1988), Associate Professor of Electrical Engineering; B.S., National Technical University of Athens (Greece); M.S.E.E., Ph.D., University of Southern California

Tse, Lucy (1999), Assistant Professor of Computer Science and Engineering; B.S., M.A., University of Southern California

Tseng, Ampere A. (1995), Professor of Mechanical and Aerospace Engineering; Codirector, Manufacturing Institute; M.S., University of Illinois, Urbana-Champaign; Ph.D., Georgia Institute of Technology

Tsong, Ignatius S. T. (1981), Professor of Physics and Astronomy; B.Sc., M.Sc., University of Leeds (United Kingdom); Ph.D., University of London (United Kingdom); D.Sc., University of Leeds (United Kingdom)

Tsosie, Rebecca A. (1993), Professor of Law; Director, Indian Legal Program; B.A., J.D., University of California, Los Angeles

Tuku, Eugenia Y. (1973), Professor Emeritus of Chinese; B.Ed., Taiwan Normal University (Taiwan); B.A., University of Mary Hardin-Baylor; M.S., University of Arizona

Tucker, Bonnie P. (1987), Professor of Law; B.S., Syracuse University; J.D., University of Colorado

Turkcon, David (1997), Adjunct Professor of Anthropology; B.S., Canisius College, Buffalo; M.A., Ph.D., State University of New York, Buffalo

Turnbow, James W. (1959), Professor Emeritus of Engineering; B.S.M.E., Texas Technological College; M.S.E.M., Ph.D., University of Texas

Turner, Caroline (1999), Professor of Educational Leadership and Policy Studies; B.A., M.A., University of California, Davis; Ed.S., Ph.D., Stanford University

Turner, Christy G. II (1966), Regents' Professor of Anthropology; B.A., M.A., University of Arizona; Ph.D., University of Wisconsin, Madison

Turner, James C., Jr. (1997), Associate Professor of Mathematics; B.S., University of New Orleans; M.S., University of Michigan; Ph.D., Carnegie Mellon University

Turner, Katherine C. (1946), Professor Emeritus of English; B.Ed., Illinois Normal School; M.A., Ph.D., University of Michigan

Turner, Tom (1996), Assistant Librarian, Noble Science Reference Services; B.S., M.L.S., Louisiana State University

Tutunjian, Vatche (1992), Faculty Research Associate of Physics and Astronomy

Tyburczy, James A. (1985), Professor of Geology; B.A., Whitman College; Ph.D., University of Oregon

Tylavsky, Daniel J. (1982), Associate Professor of Electrical Engineering; B.S.E., M.S.E., Ph.D., Pennsylvania State University

U

Uhl, Rebecca S. (1989), Associate Librarian, Original Cataloging; B.S., M.A., Colorado State University; M.S.L.I.S., University of Illinois

Umar, Muhammad Sani (1996), Assistant Professor of Religious Studies; B.A., University of Jos (Nigeria); M.A., Bayero University (Nigeria); Ph.D., Northwestern University

Umberger, Emily (1982), Associate Professor of Art; B.A., University of Pennsylvania; M.A., University of Texas, Austin; Ph.D., Columbia University

Underhill, Michael J. (1990), Professor of Architecture; B.Arch., Massachusetts Institute of Technology; M.C.P.U.D., Harvard University

Underwood, Max (1985), Professor of Architecture; B.S., University of Southern California; M.Arch., Princeton University

Upchurc, Jonathan E. (1982), Professor Emeritus of Civil and Environmental Engineering; B.S., M.S., University of Illinois; Ph.D., University of Maryland

Updegraff, Kimberly (1997), Assistant Professor of Family Resources and Human Development; B.S., M.S., Ph.D., Pennsylvania State University

Upton, Mark Roy (1995), Faculty Associate of Construction; B.S., Michigan State University

Urban, Joseph E. (1989), Professor of Computer Science and Engineering; B.S., Florida State of Technology; M.S., University of Iowa; Ph.D., University of Southwestern Louisiana

Urban, Susan D. (1989), Associate Professor of Computer Science and Engineering; B.S., M.S., Ph.D., University of Southwestern Louisiana

Urioste-Azcorra, Carmen (1995), Assistant Professor of Spanish; Licenciatura, University of Seville (Spain); Ph.D., Arizona State University

Usman, Aribidesi (1999), Adjunct Professor of Anthropology; B.A., M.S., University of Ibadan (Nigeria); Ph.D., Arizona State University

Uttal, William R. (1988), Professor Emeritus of Industrial Engineering; B.S., University of Cincinnati; Ph.D., Ohio State University

V

Valdivieso, L. Teresa (1971), Professor of Spanish; B.A., M.A.E., Ph.D., Arizona State University

Valentine, Kristin B. (1976), Professor of Communication; B.S., University of Wisconsin, Madison; M.A., University of Washington; Ph.D., University of Utah
Valverde, Leonard A. (1976), Associate Professor of Multicultural Education; B.S., Chadron State College; M.A., Ed.D., University of Nebraska, Lincoln

Valverde, Leonard A. (1992), Professor of Educational Leadership and Policy Studies; B.A., California State University, Los Angeles; Ph.D., Claremont Graduate School

van der Leeuw, Sander (1999), Adjunct Professor of Anthropology; B.A., Ph.D., University of Amsterdam (Netherlands)

Van Duzer, Leslie (1996), Associate Professor of Architecture; B.Arch., M.Arch., University of California, Berkeley

van Gelderen, Elly (1995), Associate Professor of English; B.S., Utrecht University; M.A., Ph.D., McGill University

Van Hook, Barry L. (1976), Associate Professor of Management; B.S., Illinois State University; M.S., Ed.D., Northern Illinois University

Van Orden, Guy C. (1987), Professor of Psychology; B.S., University of Oregon; M.A., Ph.D., University of California, San Diego

Van Wagener, R. Keith (1963), Professor Emeritus of Education; B.A., Pacific Union College; M.A., Arizona State University; Ph.D., University of Utah

Vancour, Martin (1987), Faculty Associate of Public Affairs; B.A., State University of New York, Buffalo; M.P.A., New York University; D.P.A., Arizona State University

Vandenberg, Edwin J. (1983), Research Professor of Chemistry and Biochemistry; M.E., Stevens Institute of Technology

Vanderhoff, Barbara A. (1968), Associate Librarian, Acquisitions/Bibliographic Records Department; B.A., Fort Hays State University; M.A., University of Denver

VanderMeer, Philip R. (1985), Associate Professor of History; B.A., Calvin College; M.A., Ph.D., University of Illinois

Vasileksa-Kafedziska, Dragica (1997), Assistant Professor of Electrical Engineering; B.S., M.S., University Cyril and Methodius (Republic of Macedonia); Ph.D., Arizona State University

Vaz, Paul (1997), Senior Lecturer of Mathematics; B.S., M.S., Ph.D., Bombay University (India); Ph.D., Arizona State University

Veatch, Jeannette (1968), Professor Emeritus of Education; A.B., Western Michigan University; M.A., Ph.D., New York University

Vega, Santos C. (1989), Senior Research Specialist, Hispanic Research Center; B.A., M.Ed., University of Arizona; Ph.D., Arizona State University

Venables, John A. (1986), Professor of Physics and Astronomy; B.A., Ph.D., University of Cambridge (United Kingdom)

Verch, Todd (1994), Faculty Associate of Design; B.S.D., Arizona State University

Verdini, William A. (1976), Associate Professor of Management; Associate Dean, College of Extended Education; B.S., Case Western Reserve University; M.B.A., D.B.A., Kent State University

Vermaas, Willem F. J. (1986), Professor of Plant Biology; Director, Center for the Study of Early Events in Photosynthesis; Ph.D., Agricultural University (Netherlands)

Verstegen, Clare M. (1989), Associate Professor of Art; B.S., University of Wisconsin, Stevens Point; M.F.A., Cranbrook Academy of Art

Vestre, Norris D. (1972), Professor Emeritus of Psychology; B.A., Ph.D., University of Minnesota, Twin Cities

Vestre, Norris D. (1968), Professor of Political Science; B.A., M.A., University of Wisconsin, Madison; Ph.D., University of Southern California

Vigli, Lynne A. (1997), Faculty Associate of Nursing; B.S., State University of New York, Albany; M.S., Arizona State University

Villalobos, J. Rene (1999), Associate Professor of Industrial Engineering; B.S., Institute of Technology of Chihuahua (Mexico); M.S., University of Texas, El Paso; Ph.D., Texas A&M University

Villanueva, Virginia (1995), Faculty Associate of Nursing; B.S.N., M.S., Arizona State University

Vining, David C. (1975), Associate Professor of Theatre; B.A., University of Redlands; M.F.A., University of Minnesota, Twin Cities

Vincent, Janet (1995), Professor of Public Affairs; B.A., Washington State University; M.P.A., Ph.D., University of Southern California

Vinson, Ajay (1998), Associate Professor of Computer Information Systems; B.Com., University of Delhi (India); M.B.A., University of Connecticut; Ph.D., University of Arizona

Virgen, Randy J. (1984), Associate Professor of Recreation Management and Tourism; B.S., M.S., Arizona State University; Ph.D., Utah State University

Virgilo, Carmelo (1965), Professor Emeritus of Romance Languages; A.B., State University of New York, Albany; A.M., Ph.D., Indiana University

Vissicaro, Pegge Harper (1983), Assistant Professor of Dance; B.F.A., University of Michigan; M.F.A., University of North Carolina, Greensboro

Vitullo, Juliann (1990), Associate Professor of Italian; B.A., University of Illinois; M.A., Ph.D., Indiana University, Bloomington

Vouden, Rosalynn (1998), Assistant Professor of English; B.A., B.Ed., Queen’s University, Kingston; M.A., University of Victoria, British Columbia, (Canada); Ph.D., University of York (United Kingdom)

Vogus, Brad T. (1999), Assistant Librarian; B.A., Indiana University, Bloomington; M.L.S., University of Michigan, Ann Arbor

Volek, Emil (1975), Professor of Spanish; Prom.Phil., Ph.D., Charles University, Prague (Czechoslovakia)

Vose, Russel S. (1995), Assistant Research Specialist of Geography; B.S., Pennsylvania State University; M.S., University of Delaware

Voss, Howard G. (1964), Professor of Physics and Astronomy; Chair, Department of Physics and Astronomy; A.B., Hope College; M.N.S., Arizona State University; M.S., Purdue University

Voth, Annette (1978), Librarian, Music Library; B.Mus., University of Kansas; M.L.S., M.A., University of California, Berkeley

Votchenko, T. Alexander (1956), Professor Emeritus of Philosophy; A.B., Princeton University; M.A., Columbia University

Wagner, J. Bruce Jr. (1977), Regents’ Professor Emeritus, Center for Solid-State Science and Chemistry and Biochemistry; B.S., Ph.D., University of Virginia

Wagner, Michael G. (1997), Assistant Professor of Computer Science and Engineering; B.S., M.S., Ph.D., Technical University of Vienna (Austria)
Wagner, Ronald F. (1962), Professor Emeritus of Art; B.S., University of Wisconsin, Madison; M.F.A., University of Iowa

Walker, Beth A. (1988), Associate Professor of Marketing; B.S., Virginia Polytechnic Institute and State University; M.S., Ph.D., Pennsylvania State University

Walker, John E. (1970), Professor Emeritus of Educational Administration and Supervision; B.A., Albion College; M.A., Michigan State University; Ed.D., Utah State University

Walker, Mark R. (1991), Faculty Associate of Electrical Engineering; M.S., Ph.D., Arizona State University

Walker, Sharon (1996), Lecturer of Mathematics; B.A., B.S., M.N.S., Arizona State University

Walker, Stephen G. (1969), Professor of Political Science; B.A., Creighton University; M.A., Ph.D., University of Florida

Wallace, Charles E. (1958), Professor Emeritus of Mechanical and Aerospace Engineering; B.S., Lewis and Clark College; M.S., Oregon State University; Ph.D., Stanford University

Wallen, Carl J. (1973), Professor Emeritus of Elementary Education; B.A., University of California, Santa Barbara; M.A., San Francisco State College; Ed.D., Stanford University

Wall, Margaret Ann (1997), Associate Professor of Social Work; B.A., DePaul University; M.S.W., Ph.D., University of Chicago

Wall, Sam, Capt. (1999), Professor of Military Science; B.A., Mercer University

Walsberg, Glenn E. (1978), Professor of Biology; B.S., California State University, Long Beach; Ph.D., University of California, Los Angeles

Wallsh, Kenneth D. (1994), Assistant Professor of Construction; B.S.E., M.S., Ph.D., Arizona State University

Walters, Sheila A. (1971), Librarian Emeritus; B.A., University of Oklahoma; M.L.S., Louisiana State University

Walton-Ramirez, Anne (1999), Lecturer of Spanish; B.A., University of South Alabama; M.A., Arizona State University

Wang, Alan P. (1979), Professor Emeritus of Mechanical and Aerospace Engineering; B.S., M.S., Ph.D., Arizona State University

Wang, Edward Y. (1979), Professor Emeritus of Electrical Engineering; B.S., Morningside College; M.S., Purdue University; Ph.D., Tufts University

Ward, Jack W. (1964), Professor Emeritus of Construction; B.S.C.E., University of Idaho

Ward, James C. (1986), Professor of Marketing; B.A., M.B.A., Ph.D., University of Minnesota, Twin Cities

Ward, Lance (1997), Lecturer of Mathematics; B.S., M.S., Brigham Young University

Warden, Herbert N. (1995), Assistant Professor of Aerospace Studies; B.S., U.S. Air Force Academy; M.B.A., Embry-Riddle Aeronautical University

Warner, Carolyn (1994), Assistant Professor of Political Science; B.A., University of California, San Diego; M.A., Ph.D., Harvard University

Warnick, Retha M. (1972), Professor of History; A.B., Indiana University; M.A., Ph.D., Harvard University

Warren-Findley, Jannelle (1992), Associate Professor of History; B.A., Texas Woman’s University; M.Phil., Ph.D., George Washington University

Watson, Clyde W. (1971), Professor Emeritus of Art; B.F.A., Bethany College; M.A., Kansas State University

Watson, Emma Jane (1999), Lecturer and Curriculum Coordinator of Small Business; Academic Director, Small Business Programs; B.A., Sonoma State University; M.Ed., Western Washington University

Watson, George L. (1969), Professor of Journalism and Telecommunication; B.A., Phillips University; M.A., Ph.D., Duke University

Webb, L. Dean (1978), Professor of Educational Leadership and Policy Studies; B.A., M.A.T., Ph.D., University of Florida

Weber, Sandra L. (1985), Associate Professor of Construction; B.S.C.E., M.S.C.E., University of California, Berkeley; Ph.D., Arizona State University

Weed, Andrew (1999), Assistant Professor of Design; B.F.A., Arizona State University; M.F.A., Basel School of Design (Switzerland)

Webgen, Artnell L. (1957), Professor Emeritus of Physical Education; B.S., Wisconsin State College; M.S., University of Wisconsin, Madison; P.E.D., Indiana University

Weidemaier, William (1977), Professor Emeritus of Craig and Barbara Barrett Honors College; B.A., Northern Arizona University; M.A., Ph.D., Arizona State University

Weierstall, Uwe (1994), Assistant Research Scientist of Physics and Astronomy; B.S., University of Tübingen (Germany); M.S., Ph.D., Institute of Applied Physics in Tübingen (Germany)

Weigand, Robert F. Jr. (1990), Senior Lecturer of Family Resources and Human Development and Psychology; Director, Child Laboratory Programs; B.S., University of Scranton; M.S., Purdue University

Weigand, Guido G. (1976), Professor Emeritus of Geography; Dean Emeritus, College of Liberal Arts and Sciences; B.S., M.S., Ph.D., University of Chicago

Weiner, Gordon M. (1968), Professor Emeritus of History; B.A., Ph.D., University of Pennsylvania

Weinstein, James (1986), Professor of Law; B.A., J.D., University of Pennsylvania

Weiser, Kurt (1989), Regents' Professor of Art; B.F.A., Kansas City Art Institute; M.F.A., University of Michigan

Weiss, Karl H. (1984), Research Specialist, Center for Solid-State Science; B.S., Ursinus College; M.S., University of Arizona

Weiss, Neil A. (1970), Professor of Mathematics; B.A., M.A., Ph.D., University of California, Los Angeles

Weitz, Rose (1978), Professor of Sociology; B.A., City University of New York; M.A., Ph.D., Yale University
Welch, H. William (1967), Professor Emeritus of Electrical Engineering; B.A., DePauw University; M.S., Ph.D., University of Michigan; P.E.

Welch, Nancy (1995), Associate Research Specialist, Public Programs

Weldon, William L. (1998), Lecturer of Curriculum and Instruction; B.S., Rollins College; M.Ed., Ph.D., Arizona State University

Welfert, Bruno (1990), Associate Professor of Mathematics; M.A., University of Paris VI (France); Ph.D., University of California, San Diego

Welch, Nancy (1986), Assistant Professor of Anthropology; B.A., Edgecliff College, Cincinnati; M.A., Ph.D., Arizona State University

Welch, H. William (1981), Professor Emeritus of Music; B.M., M.M., University of the Pacific; D.M.A., University of Oregon

Wells, Christine L. (1976), Professor Emeritus of Exercise Science and Physical Education; B.S., University of Michigan; M.S., Smith College; Ph.D., Pennsylvania State University

Wells, David (1998), Lecturer, Division of Undergraduate Academic Services; B.A., Bucknell University; Ph.D., University of Southern California

Wells, Valana L. (1987), Associate Professor of Engineering; A.B., M.S., Ph.D., Stanford University

Welsh, Peter H. (1986), Assistant Professor of Anthropology; B.A., Northern Arizona University; M.A., Ph.D., University of Pennsylvania

Wentz, Elizabeth A. (1997), Assistant Professor of Geography; B.A., M.A., Ohio State University; Ph.D., Pennsylvania State University

Wentz, Richard E. (1972), Professor Emeritus of Religious Studies; A.B., Ursinus College; B.D., Lancaster Theological Seminary; M.Phil., Ph.D., George Washington University

Wesbury, Stuart A. Jr. (1994), Professor of Health Administration and Policy; B.S., Temple University; M.H.A., University of Michigan; Ph.D., University of Florida

Weschler, Louis F. (1980), Professor of Public Affairs; B.A., California State University, Long Beach; M.A., Ph.D., University of California, Los Angeles

West, Stephen G. (1981), Professor of Psychology; B.A., Cornell University; M.A., Ph.D., University of Texas

Westerhoff, Paul (1995), Assistant Professor of Civil and Environmental Engineering; B.S., Lehigh University; M.S., University of Massachusetts, Amhurst; Ph.D., University of Colorado, Boulder

Westie, Frank R. (1983), Adjunct Professor of Sociology; B.S., Central Michigan University; Ph.D., Ohio State University

Wetsel, W. David (1989), Professor of French; B.A., University of Texas, Austin; M.A., University of Chicago; M.A., Ph.D., Brandeis University

Wexler, Kathryn (1992), Clinical Assistant Professor of Speech and Hearing Science; B.A., University of Michigan; M.S., Tulane University

Whiffen, Marcus (1960), Professor Emeritus of Architecture; B.A., M.A., University of Cambridge (United Kingdom)

Whitam, Frederick L. (1966), Professor Emeritus of Sociology; B.A., Millsaps College; A.M., Ph.D., Indiana University, Bloomington

White, Barbara G. (1990), Clinical Associate Professor of Nursing; B.S., M.S., Virginia Commonwealth University

White, Harold C. (1966), Professor Emeritus of Management; B.S., M.S., University of Oregon; Ph.D., University of Florida

White, James J. (1991), Lecturer of Chemistry and Biochemistry; B.A., Idaho State University; M.S., Ph.D., University of Arizona

White, James R. (1981), Professor of Art; B.F.A., M.F.A., Ohio University

White, Joann (1997), Faculty Associate of Design; B.S., Northwestern University

White, John P. (1963), Professor Emeritus of Political Science; A.B., University of Cincinnati; A.M., Ph.D., University of Chicago

White, Michael J. (1974), Professor of Philosophy; B.A., Arizona State University; M.A., Ph.D., University of California, San Diego

White, Patricia D. (1999), Professor of Law; Dean, College of Law; B.A., M.A., J.D., University of Michigan

Whitcotton, Stacey (1997), Assistant Professor of Accountancy; B.A., Texas Tech University; Master of Accountancy, Ph.D., University of Oklahoma

Whitehouse, Richard (1997), Lecturer of Computer Science and Engineering; B.S., Worcester State College; M.S., University of Tennessee

Whitehurst, Harry B. (1958), Professor Emeritus of Chemistry and Biochemistry; B.A., M.A., Ph.D., Rice University

Wie, Bong (1989), Professor of Engineering; B.S., Seoul National University (South Korea); M.S., Ph.D., Stanford University

Wiezel, Avi (1995), Assistant Professor of Construction; B.Sc.C.E., Polytechnic Institute of Timisoara (Romania); M.Sc.C.E., Ph.D., Technion-Israel Institute of Technology (Israel)

Wiggins, Harry B. (1987), Senior Lecturer Emeritus of Supply Chain Management; B.S., U.S. Merchant Marine Academy; B.S., University of Vermont; M.B.A., Harvard University

Wilcox, M. Jeanne (1990), Professor of Speech and Hearing Science; B.A., Kansas State; M.A., Ph.D., Memphis State University

Wilkins, Barry J. (1992), Research Specialist, Center for Solid-State Science; B.A., Columbia Union College; M.S., Rutgers, The State University

Wilkinson, Christine K. (1970), Associate Professor of Higher Education; Vice President, Student Affairs; B.A., Arizona State University; M.A., University of California, Berkeley; Ph.D., Arizona State University

Wilkinson, Joseph W. (1964), Professor Emeritus of Accountancy; B.S., Carnegie Institute of Technology; M.B.A., Stanford University; D.B.A., University of Oregon

Williams, Carol E. (1984), Academic Associate, Division of Undergraduate Academic Services; Coordinator, Campus Match and Supplemental Instruction; B.A., Trinity University, San Antonio; M.A., Arizona State University
Williams, David P. III (1978), Instructor of Sociology; B.A., B.S., M.A., University of Pennsylvania; Ph.D., Arizona State University

Williams, Frank G. (1975), Professor of Health Administration and Policy; B.S., M.A., Oregon State University; M.A., Ph.D., University of Iowa

Williams, Jenny L. (1967), Associate Librarian, Original Cataloging; B.A., M.I.S., Indiana University

Williams, Peter (1981), Professor of Chemistry and Biochemistry; B.S., Ph.D., University of London (United Kingdom)

Williams, Philip E.C. (1986), Associate Professor of Chinese; B.A., University of Arkansas; M.A., Ph.D., University of California, Los Angeles

Williams, Robert C. (1978), Professor of Anthropology; B.A., M.A., University of Cambridge (United Kingdom); B.A., M.A., Ph.D., University of Michigan

Williams, Stanley N. (1991), Professor of Geology; B.S., Beloit College; M.A., Ph.D., Dartmouth College

Williams, Susan L. (1996), Academic Associate, Education Liaison; B.A., East Tennessee State University; M.A., University of Tennessee, Knoxville

Williamson, Madeline J. (1976), Professor of Music; B.A., Ohio Wesleyan University; M.M., Western Michigan University; Ph.D., Arizona State University

Willis, Wayne T. (1989), Associate Professor of Exercise Science and Physical Education; A.B., University of California, Berkeley; M.A., San Francisco State University; Ph.D., University of California, Berkeley

Wills, J. Robert (1994), Professor of Theatre; Dean, College of Fine Arts; B.A., College of Wooster; M.A., University of Illinois; Ph.D., Case Western Reserve University

Willson, Loretta L. (1947), Professor Emeritus of Communication; B.A., University of South Dakota; M.A., Northwestern University

Wilson, Dennis (1996), Assistant Research Professor of Microbiology; B.S., University of Durham (United Kingdom); Ph.D., University of Oregon

Wilson, Gail Eugene (1972), Associate Professor of Music; B.S., Ohio State University; M.M., Arizona State University

Wilson, Gloria N. (1961), Associate Professor of Educational Media and Computers; B.A., Montclair State College; M.A., Ed.D., Columbia University

Wilson, Jeffrey R. (1985), Associate Professor of Statistics; B.A., University of the West Indies (Trinidad and Tobago); M.S., Ph.D., Iowa State University

Wilson, Lorna A. (1968), Professor Emeritus of French; B.Ed., University of Saskatchewan (Canada); M.A., Arizona State University

Wilson, Patricia M. (1987), Associate Professor of Family Resources and Human Development; B.S., M.Ed., Iowa State University; Ph.D., Oklahoma State University

Wilson-Rawls, N. Jeanne (1997), Assistant Research Professor; B.S., McMaster University; Ph.D., Saint Louis University School of Medicine

Wilt, Glenn A. Jr. (1963), Associate Professor of Finance; A.B., Occidental College; M.B.A., Miami University; Ph.D., University of Michigan; C.F.A.

Windhorst, Rogier A. (1987), Professor of Physics and Astronomy; Associate Chair, Department of Physics and Astronomy; B.Sc., M.Sc., Ph.D., University of Leiden (Netherlands)

Winer, Laurence H. (1983), Professor of Law; B.A., M.A., Ph.D., Boston University; J.D., Yale University

Winicov, Ilga B. (1999), Research Professor of Plant Biology; A.B., University of Pennsylvania; M.S., University of Wisconsin, Madison; Ph.D., University of Pennsylvania

Winkelmann, Michael (1988), Senior Lecturer of Anthropology; B.A., Rice University; Ph.D., University of California, Irvine

Winkelmann, Richard D. (1965), Associate Professor of Economics; B.A., Southern Illinois University; M.A., Ph.D., University of Illinois

Wirtz, Dorothy (1959), Professor Emeritus of French; B.A., University of Iowa; M.A., Ph.D., University of Wisconsin

Wiseman, Douglas E. (1976), Professor Emeritus of Special Education; B.S., M.A., Eastern Michigan University; Ph.D., University of Illinois

Wiseman, Greta (1984), Faculty Associate of Nursing; B.S.N., Hamline University; M.S., Arizona State University

Witczak, Matthew W. (1999), Professor of Civil and Environmental Engineering; B.S.C.E., M.S.C.E., Ph.D., Purdue University

Witt, Tom (1975), Associate Professor of Design; B.A., M.A., M.F.A., University of California, Los Angeles

Wixted, J. Timothy (1978), Professor of Asian Languages; B.A., University of Toronto (Canada); A.M., Stanford University; D.Phil., University of Oxford (United Kingdom)

Wochner, Raymond E. (1952), Professor Emeritus of Education; B.S., York College; M.A., University of Nebraska, Lincoln; Ph.D., University of Wyoming

Wolchik, Sharlene (1980), Professor of Psychology; B.A., Vassar College; M.S., Ph.D., Rutgers, The State University

Wolf, Donald J. (1969), Professor Emeritus of Political Science; B.A., M.A., Gonzaga University; S.T.M., University of Santa Clara; Ph.D., Georgetown University

Wolf, George H. (1986), Associate Professor of Chemistry and Biochemistry; B.A., University of California, San Diego; M.S., Ph.D., University of California, Berkeley

Wolf, Robert (1985), Professor Emeritus of Design; Director, School of Design; B.S., Southern Illinois University, Carbondale; M.A., University of Missouri; Certificate, Konstindustriskolan (Sweden)

Wolf, W. Shapard Jr. (1983), Associate Research Administrator, Sociology; Director, Survey Research Laboratory, Sociology; B.F.A., Florida State University; M.Ed., University of Georgia

Wolfe, Philip M. (1988), Professor of Industrial Engineering; B.S., University of Missouri; M.S.E., Ph.D., Arizona State University

Wolffthal, Diane (1995), Associate Professor of Art; Assistant Professor of Anthropology; B.A., M.A., City University of New York; Ph.D., Institute of Fine Arts, New York University

Wollam, Owen A. (1964), Professor Emeritus of French; B.A., M.A., Montana State University; Ph.D., University of Washington
Wong, Elizabeth (1996), Lecturer of Japanese; B.A., William Smith College; M.A., Washington University, St. Louis; Ph.D., Stanford University

Wong, Timothy (1995), Professor of Chinese; Director, Center for Asian Studies; B.A., Saint Mary’s College; M.A., University of Hawaii; Ph.D., Stanford University

Wood, Byard D. (1970), Professor Emeritus of Mechanical and Aerospace Engineering; B.S.M.E., M.S.M.E., Utah State University; Ph.D., University of Minnesota, Twin Cities

Woodbury, Neal W. (1987), Professor of Chemistry and Biochemistry; B.S., University of California, Davis; Ph.D., University of Washington

Woodfill, Marvin C. (1966), Professor Emeritus of Computer Science and Engineering; B.S., M.S., Ph.D., Iowa State University

Wooding, Robert R. (1971), Professor Emeritus of Construction; B.S., United States Naval Academy; B.C.E., M.C.E., Rensselaer Polytechnic Institute

Woodman, Natalie J. (1969), Professor Emeritus of Social Work; B.A., New York University; M.S.S., Smith College

Woodruff, Larry (1998), Lecturer of Exercise Science and Physical Education; B.S., University of Oregon; M.S., Western Oregon University

Woods, Roosevelt Jr. (1965), Professor Emeritus of Art; B.S., M.A., Arizona State University

Woodward, Mark R. (1985), Associate Professor of Religious Studies; B.A., M.A., Ph.D., University of Illinois

Woodruff, Charles B. (1959), Professor Emeritus of Engineering; A.B., B.S., University of Kentucky; M.S., Ph.D., Purdue University

Wood, Charles M. (1961–63, 1964), Professor Emeritus of Biology; Dean Emeritus, College of Liberal Arts and Sciences and Graduate College; B.S., M.S., University of Utah; Ph.D., University of California, Berkeley

Wooten, William W. (1959), Professor Emeritus of History; B.A., University of Chicago; M.A., University of Iowa; Ph.D., University of Minnesota, Twin Cities

Wootton, Richard T. (1964), Professor Emeritus of Education; B.S., M.S., Ed.D., University of Utah

Wosinski, Marek (1995), Senior Lecturer of Psychology; B.A., M.A., Ph.D., University of Warsaw (Poland)

Wotring, Roxena A. (1994), Clinical Assistant Professor of Nursing; B.S.N., M.S., Arizona State University

Wrenn, C. Gilbert (1965), Professor Emeritus of Counselor Education; A.B., Willamette University; M.A., Ph.D., Stanford University; LL.D., Willamette University

Wright, Johnson Kent (1994), Assistant Professor of Interdisciplinary Humanities; Director, Graduate Studies; B.A., Kalamazoo College; M.A., Ph.D., University of Chicago

Wright, M. Lin (1973), Professor Emeritus of Theatre; B.A., M.A., Ph.D., University of Minnesota, Twin Cities

Wu, Ai-Hwa (1964), Librarian, Original Cataloging; B.A., National Taiwan University (Taiwan); M.L.S., University of Washington

Wu, Jianguo (1995), Affiliated Faculty of Plant Biology; B.S., University of Inner Mongolia (China); M.S., Ph.D., Miami University

Wulk, Ned W. (1957), Professor Emeritus of Physical Education; B.S., Wisconsin State University; M.Ed., Xavier University

Wurzburger, Marilyn J. (1960), Librarian; Head, Special Collections; B.A., MacMurray College

Wyckoff, Susan (1979), Professor of Physics and Astronomy; B.A., Mount Holyoke College; Ph.D., Case Western Reserve University

Wyndels, Robert W. (1974), Professor of Accountancy; B.B.A., M.P.A., Georgia State University; Ph.D., University of Georgia; C.P.A., Arizona, Georgia

Wytko, Joseph R. (1975), Professor of Music; B.M.E., West Virginia University; M.M., D.M., Northwestern University

Yabes, Ruth Ammerman (1990), Associate Professor of Planning and Landscape Architecture; B.S. (Planning), B.A. (Economics), University of California, Davis; M.C.P., University of Pennsylvania; Ph.D., Cornell University

Yaghi, Omar M. (1992), Assistant Professor of Chemistry and Biochemistry; B.S., State University of New York, Albany; Ph.D., University of Illinois

Yamaguchi, Gary T. (1989), Associate Professor of Bioengineering; A.B., Occidental College; B.S., California Institute of Technology; S.M.M.E., Massachusetts Institute of Technology; Ph.D., Stanford University

Yamamori, Tetsunao (1989), Adjunct Professor of Sociology; B.A., Northwest Christian College; B.D., Texas Christian University; Ph.D., Duke University

Yancy, Margaret Lee (1997), Faculty Associate of Nursing; B.S.N., M.S., Arizona State University

Yao, Lun-Shin (1981), Professor of Engineering; B.S.E., Cheng Kung University; M.S., University of Texas; Ph.D., University of California, Berkeley

Yau, Winberta M. (1975), Associate Librarian Emeritus; B.A., University of California, Berkeley; M.S., Columbia University

Yau, Stephen S. (1994), Professor of Computer Science and Engineering; Chair, Department of Computer Science and Engineering; B.S., National Taiwan University (Taiwan); M.S., Ph.D., University of Illinois, Urbana-Champaign

Yazdi, Navid (1998), Assistant Professor of Electrical Engineering; B.Sc., University of Tehran (Iran); M.A.Sc., University of Windsor (Canada); Ph.D., University of Michigan, Ann Arbor

Ye, Nong (1998), Associate Professor of Industrial Engineering; B.S., Peking University (China); M.S., Chinese Academy of Sciences (China); Ph.D., Purdue University

Yeater, James W. (1958), Professor Emeritus of Theatre; B.A., Baker University; M.A., University of Washington; Ph.D., University of Illinois

Yepez, Eleanor (1984), Academic Professional of Social Work; B.A., Michigan State University; M.A., Western Michigan University; M.S.W., University of Michigan
Yoshioka, Carlton F. (1988), Professor of Recreation Management and Tourism; Chair, Department of Recreation Management and Tourism; B.A., University of California, Santa Barbara; M.A., California State University, Chico; Ph.D., University of Oregon

Youm, Kyu Ho (1991), Professor of Journalism and Telecommunication; B.A., Konkuk University (South Korea); M.A., Ph.D., Southern Illinois University, Carbondale

Young, Bernard (1988), Professor of Art; B.F.A., Temple University; M.F.A., Cornell University

Young, Dennis L. (1975), Professor of Mathematics; B.S., Saint Louis University; M.S., Ph.D., Purdue University

Young, Hewitt H. (1967), Professor Emeritus of Industrial Engineering; B.S.M.E., M.S.I.E., Case Institute of Technology; Ph.D., Arizona State University

Young, Joseph E. (1979), Professor Emeritus of Art; B.A., California State University at Los Angeles; M.A., University of California, Los Angeles

Young, Josephine Peyton (1998), Assistant Professor of Reading Education; M.A., University of West Florida; Ph.D., University of Georgia

Young, Michael Cochise (1990), Associate Administrative Professional, Craig and Barbara Barrett Honors College; Director, Office of National Scholarship Advisement; B.A., St. Joseph’s University; M.A., Ph.D, University of Pennsylvania

Young, Otis E. Jr. (1963), Professor Emeritus of History; A.B., A.M., Ph.D., Indiana University

Youngblood, Robert L. (1973), Professor of Political Science; Chair, Department of Political Science; B.A., Willamette University; M.A., University of Hawaii, Manoa; Ph.D., University of Michigan

Z

Zandieh, Michelle (1997), Assistant Professor of Mathematics; B.A., Northwestern University; M.S., Ph.D., Oregon State University

Zaslow, Bertram (1956), Professor Emeritus of Chemistry and Biochemistry; B.A., Cornell University; M.S., University of Minnesota, Twin Cities; Ph.D., Iowa State University

Zatz, Marjorie S. (1982), Professor of Justice Studies; Director, Interdisciplinary Ph.D. Program in Justice Studies; B.A., University of Massachusetts, Amherst; M.A., Ph.D., Indiana University, Bloomington

Zautra, Alex (1976), Professor of Psychology; Director, Clinical Program in Psychology; B.A., Antioch College; M.S., Ph.D., University of Utah

Zeitlin, Marilyn A. (1992), Director, ASU Art Museum; A.B., M.A., Harvard University

Zellmer, Linda R. (1997), Assistant Librarian, Map Collection; B.S., University of Wisconsin, Oshkosh; M.A., College of William and Mary; M.L.S., University of Wisconsin, Milwaukee

Zhang, Yong-Hang (1997), Associate Professor of Electrical Engineering; Nanjing Normal University (China); M.Sc., Institute of Semiconductors, Chinese Science and Technology University (China); Ph.D., Max-Planck-Institut fur Festkorperforschung University of Stuttgart (Germany)

Zhu, Anmin (1997), Senior Lecturer of Mathematics; B.S., Anhui University (China); M.S., Milin University (China); Ph.D., Arizona State University

Zhu, Han (1997), Assistant Professor of Civil and Environmental Engineering; B.S., M.S., Fudan University (China); Ph.D., Northwestern University

Zhu, Yingxian (1996), Lecturer of Mathematics; B.S., Anhui University (China); M.S., Dalian University of Science and Technology (China); Ph.D., Arizona State University

Zygas, K. Paul (1984), Associate Professor of Architecture; A.B., M.Arch., Harvard University; Ph.D., Cornell University
The title “regents’ professor” is conferred on selected members of the ASU tenured faculty who have achieved and are sustaining the highest level of distinction by their exceptional contributions to the mission of the university in research or other creative activity and in teaching or professional service.

JOHN ALCOCK
Regents’ Professor of Biology

DAVID L. ALTHEIDE
Regents’ Professor of Justice Studies

C. AUSTEN ANGELL
Regents’ Professor of Chemistry and Biochemistry

CONSTANTINE A. BALANIS
Regents’ Professor of Chemistry and Biochemistry

DAVID C. BERLINER
Regents’ Professor of Electrical Engineering and Policy Studies and Psychology in Education

PETER R. BUSSECK
Regents’ Professor of Chemistry and Biochemistry and Geology

ROBERT B. CIA LDINI
Regents’ Professor of Psychology

JEFFREY COOK
Regents’ Professor of Architecture

JOHN M. COWLEY
Regents’ and Galvin Professor Emeritus of Physics and Astronomy

NORMAN DUBIE
Regents’ Professor of English

NANCY H. EISENBERG
Regents’ Professor of Psychology

LER OY EYRING
Regents’ Professor Emeritus of Chemistry and Biochemistry

DAVID K. FERRY
Regents’ Professor of Electrical Engineering

DAVID WILLIAM FOSTER
Regents’ Professor of Spanish

WILLIAM L. GRAF
Regents’ Professor of Geography

RONALD GREELEY
Regents’ Professor of Geology

DAVID R. HICKMAN
Regents’ Professor of Music

PETER IV E RSON
Regents’ Professor of History

DAVID H. KAYE
Regents’ Professor of Law

GARY D. KELLER
Regents’ Professor of Spanish

RAYMOND W. KULHAVY
Regents’ Professor of Psychology in Education

DANIEL M. LANDERS
Regents’ Professor of Exercise Science and Physical Education

SHENG H. LIN
Regents’ Professor Emeritus of Chemistry and Biochemistry

JAMES W. MAYER
Regents’ Professor of Chemical and Materials Engineering

LEE MEYERSON
Regents’ Professor Emeritus of Psychology

CARLETON B. MOORE
Regents’ Professor of Chemistry and Biochemistry and Geology

JEFFRIE G. MURPHY
Regents’ Professor of Law and Philosophy

MICHAEL O’KEEFFE
Regents’ Professor of Chemistry and Biochemistry

CAIO PAGANO
Regents’ Professor of Music

DENNIS J. PALUMBO
Regents’ Professor of Justice Studies

GEORGE R. PETTIT
Regents’ Professor of Chemistry and Biochemistry

ALB ERTOS ALVARO RIOS
Regents’ Professor of English

NANCY FELIPE RUSSO
Regents’ Professor of Psychology

DAVID J. SMITH
Regents’ Professor of Physics and Astronomy and Center for Solid-State Science

JOHN C.H. SPENCE
Regents’ Professor of Physics and Astronomy

MARY BETH STEARNS
Regents’ Professor Emeritus of Physics and Astronomy

WILLIAM T. TROTTER
Regents’ Professor of Mathematics

CHRISTY G. TURNER II
Regents’ Professor of Anthropology

J. BRU CE WAGNER JR.
Regents’ Professor Emeritus, Center for Solid-State Science and Chemistry and Biochemistry

KURT WEISER
Regents’ Professor of Art
Administrative Personnel

Arizona Board of Regents

Governor of Arizona, Ex Officio ................................. Jane Dee Hull
Superintendent of Public Instruction, Ex Officio ..................... Lisa Graham Keegan
Student Regent, appointed to June 2000; Assistant Treasurer .......... Christine Thompson
Regent, appointed to January 2002; President, to June 2000 ............... George H. Amos III
Regent, appointed to January 2002 .................................. Judith Gignac
Regent, appointed to January 2004; Treasurer, to June 2000 .............. Kay McKay
Regent, appointed to January 2004; President Elect, to June 2000 ....... Donald J. Ulrich
Regent, appointed to January 2006; Assistant Secretary, to June 2000 .. Chris Herstam
Regent, appointed to January 2006; Secretary, to June 2000 .............. Jack Jewett
Regent, appointed to January 2008 .................................. Christina Palacios
Regent, appointed to January 2008 .................................. Gary Stuart
Executive Director ....................................................... Linda Blessing
Advisor to the President on American Indian Affairs .................... Peterson Zah
Director, Athletics ..................................................... Kevin White
Director, Equal Opportunity/Affirmative Action ......................... Barbara A. Mawhiney
Director, Institutional Analysis ...................................... Lisa Graham Keegan
Director, Fiscal Planning and Analysis ................................ Alan Carroll
Executive Director, ICA Faculty Representative ......................... Jerry L. Kingston

President’s Office

President ................................................................. Lattie F. Coor
Senior Executive Assistant to the President ............................... Ben R. Forsyth
Executive Assistant for University Programs ......................... Ruth S. Jones
Advisor to the President on American Indian Affairs .................... Peterson Zah
Director, Athletics ..................................................... Kevin White
Director, Equal Opportunity/Affirmative Action ......................... Barbara A. Mawhiney
General Counsel ....................................................... Paul J. Ward
ICA Faculty Representative .............................................. Jerry L. Kingston

ASU Main

Academic Affairs
Senior Vice President and Provost .................................. Milton D. Glick
Vice Provost .............................................................. Charles R. Bantz
Vice Provost .............................................................. Kathleen Church
Vice Provost .............................................................. Walter Harris Jr.
Vice Provost for Information Technology ................................ William E. Lewis
Vice Provost for Research ............................................. Jonathan Fink
Assistant Vice President for Academic Affairs ......................... Louis Olivas
Assistant to the Senior Vice President and Provost ..................... Linda Van Scoy
Fiscal Operations Administrator ..................................... Lynn Carpenter
Director, Academic and Administrative Documents ................... Tabb Carpenter
Director, Academic Articulation ...................................... Zolia Gamero de Tovar
Director, Academic Facilities ......................................... David Teach
Interim Director, Center for Learning and Teaching Excellence .... Duane Roen
Director, Fiscal Planning and Analysis ................................ Alan Carroll
Director, Institutional Analysis ........................................ John Porter
Director, International Programs ..................................... William G. Davey
Director, Office of Research Development ......................... Patrick Burkart
Director, Strategic Planning and Policy Analysis ....................... Douglas Vinzant
Director, Summer Sessions .......................................... Carol Switzer
Executive Director, Undergraduate Academic Services ................. William S. Johnson
Director, University Evaluation ...................................... Patricia Green

College of Architecture and Environmental Design
Dean, College of Architecture and Environmental Design ............. John Meunier
Associate Dean, College of Architecture and Environmental Design .... David G. Scheatzle
Associate Dean, College of Architecture and Environmental Design .... Mary Kihl
Director, Ph.D. Program in Environmental Planning in Design ...... Michael D. Kroelinger
Director, School of Architecture ..................................... Ron McCoy
Director, School of Design .......................................... Jacques Giard
Director, School of Planning and Landscape Architecture ............. Frederick Steiner
Director, Herberger Center for Design Excellence .................................................. Mary Kihl
Coordinator, Joint Urban Design Program ............................................................... John McIntosh
Coordinator, Joint Urban Design Studio ............................................................... Michael Dollin

College of Business
Dean, College of Business ............................................................... Larry E. Penley
Associate Dean, Executive and Professional Programs ........................................ Lee R. McPeters
Associate Dean, Graduate Programs ................................................................. Dennis L. Hoffman
Associate Dean, Undergraduate Programs ......................................................... Philip R. Regier
Director, School of Accountancy and Information Management .......................... Philip M.J. Reckers
Chair, Department of Economics .......................................................................... Arthur E. Blakemore
Chair, Department of Finance .............................................................................. Herbert M. Kaufman
Director, School of Health Administration and Policy ........................................ Eugene S. Schneller
Chair, Department of Management ..................................................................... William H. Glick
Chair, Department of Marketing ......................................................................... Michael P. Mokwa
Chair, Department of Supply Chain Management .............................................. Joseph R. Carter
Director, Center for Advanced Purchasing Studies ............................................. Phillip L. Carter
Director, Center for the Advancement of Small Business ..................................... Mary Lou Bessette
Director, Arizona Real Estate Center ................................................................. Jay Q. Butler
Director, Center for Business Research ............................................................... Timothy D. Hogan
Director, Center for Services Marketing and Management ................................... Stephen W. Brown
Director, Bank One Economic Outlook Center .................................................. Lee R. McPeters
Director, L. William Seidman Research Institute ................................................ Timothy D. Hogan

College of Education
Dean, College of Education ............................................................... David C. Berliner
Associate Dean, Teacher Education ..................................................................... Nicholas R. Appleton
Associate Dean, Academic Programs and Personnel ........................................... Gail Hackett
Associate Dean, Research .................................................................................. Gene V. Glass
Director, Division of Curriculum and Instruction ................................................ Nicholas R. Appleton
Interim Director, Division of Educational Leadership and Policy Studies ............. Mary Lee Smith
Academic Program Coordinator, Educational Administration and Supervision .......... Donna Macey
Academic Program Coordinator, Education Policy Studies .................................... To Be Announced
Academic Program Coordinator, Social and Philosophical Foundations ............... Eric Margolis
Academic Program Coordinator, Higher and Post-Secondary Education ............ Robert Fenske
Director, Division of Psychology in Education ...................................................... Elsie G. J. Moore
Training Director and Program Coordinator, Counseling Psychology .......... Terence Tracey
Academic Program Leader, Counselor Education ................................................ Terence Tracey
Transition Training Director, Learning and Instructional Technology ............... James Klein
Academic Program Leader, Educational Psychology .......................................... Ed Nelsen
Training Director, School Psychology .................................................................. Jerry D. Harris
Director, Center for Bilingual Education and Research ....................................... Josué González
Director, Bureau of Educational Research and Services ....................................... Margaret Mangini
Director, Center for Indian Education ................................................................. Octaviana Trujillo
Director, Counseling Training Center ................................................................. Judith Homer
Director, Initial Teacher Certification and Induction Programs ............................ Billie Enz
Director, Professional Field Experience ............................................................... Billie Enz
Director, Student Affairs ..................................................................................... Richard Daniel

College of Engineering and Applied Sciences
Dean, College of Engineering and Applied Sciences .......................................... Peter E. Crouch
Associate Dean, Academic Affairs ..................................................................... Daniel F. Jankowski
Associate Dean, Planning and Administration ..................................................... Ben M. Huey
Interim Associate Dean, Research ...................................................................... Gregory B. Raupp
Associate Dean, Student Affairs and Special Programs ..................................... Mary R. Anderson-Rowland
Director, Del E. Webb School of Construction .................................................. William W. Badger
Director, School of Engineering ......................................................................... Daniel F. Jankowski
Chair, Department of Chemical, Bio, and Materials Engineering ...................... Eric J. Guilbeau
Chair, Department of Civil and Environmental Engineering ............................... Sandra L. Houston
Chair, Department of Computer Science and Engineering .............................. Stephen S. Yau
Chair, Department of Electrical Engineering ...................................................... Stephen M. Goodnick
Chair, Department of Industrial Engineering ....................................................... Gary L. Hogg
Chair, Department of Mechanical and Aerospace Engineering ....................... Don L. Boyer
Director, Engineering Core and Special Studies ................................................ Daniel F. Jankowski
Director, Center for Research on Education in Science, Mathematics, Engineering, and Technology ........................................................... Donovan L. Evans
College of Extended Education
Dean, College of Extended Education ........................................ Bette F. DeGraw
Associate Dean ................................................................. William Verdini
Director, American English and Culture Program ...................... Mark D. Rentz
Director, Communications and Marketing ................................ Randy Bailey
Director, Development and Outreach ...................................... Scott Sheldon
Director, Distance Learning Technology ................................... Elizabeth H. Craft
Director, Downtown Center .................................................. Bette F. DeGraw
Director, Extended Campus Programs ..................................... Jim Patzer
Director, Academic and Professional Programs ......................... Patricia A. Feldman
Director, Operations and Finance .......................................... Cathie M. Fox

College of Fine Arts
Dean, College of Fine Arts ..................................................... J. Robert Wills
Director, School of Art .......................................................... Julie F. Codell
Chair, Department of Dance .................................................. Claudia Murphy
Director, School of Music ..................................................... To Be Appointed
Chair, Department of Theatre ................................................ Bonnie J. Eckard
Director, Institute for Studies in the Arts .................................. To Be Appointed
Director, Undergraduate Student Academic Services ................. Gina Stephens
Director, ASU Art Museum .................................................... Marilyn Zeitlin

Graduate College
Dean, Graduate College ....................................................... Bianca L. Bernstein
Associate Dean, Student Support Services ............................... Thomas E. Callarman
Associate Dean, Academic Programs ...................................... Deborah N. Losse
Assistant Dean, Academic Programs ....................................... Sarah B. Lindquist
Senior Manager, Administrative Services and Information Systems .. Kent D. Blaylock

Craig and Barbara Barrett Honors College
Dean, Craig and Barbara Barrett Honors College ....................... Ted Humphrey
Associate Dean ................................................................. Janet Burke
Director, Office of National Scholarship Advisement ................. Michael Cochise Young

College of Law
Dean, College of Law ............................................................ Patricia D. White
Associate Dean ................................................................. Hannah Arterian
Associate Dean and Director, Law Library ................................. Victoria K. Trotta
Assistant Dean, Administration ............................................... Rhonda Sandler
Assistant Dean, Admissions .................................................... Brenda Brock
Assistant Dean, Student Services ............................................ Leslie Mamaghani
Director, Center for the Study of Law, Science, and Technology ... Daniel S. Strouse
Director, Clinical Programs .................................................. Catherine O’Grady
Director, Legal Research and Writing and Academic Success Program .. Judith M. Stinson
Executive Director, Indian Legal Program ............................... Rebecca A. Tsosie

College of Liberal Arts and Sciences
Dean, College of Liberal Arts and Sciences .............................. Gary S. Krahenbuhl
Associate Dean ................................................................. Milt Sommerfeld
Associate Dean, Academic Programs ...................................... Leonard Gordon
Associate Dean, Administration and Personnel ........................ Linell E. Cady
Chair, Department of Aerospace Studies ................................. Col. Ronald Scott, Jr.
Chair, Department of Anthropology ....................................... John K. Chance
Chair, Department of Biology ............................................... James P. Collins
Chair, Department of Chemistry and Biochemistry ..................... J. Devens Gust
Chair, Chicana and Chicano Studies ...................................... Vicki L. Ruiz
Chair, Department of English ............................................... Daniel Bivona
Chair, Department of Exercise Science and Physical Education .... William J. Stone
Chair, Department of Family Resources and Human Development ... Richard Fabes
Chair, Department of Geography ...........................................Breandán Ó hUallacháin
Chair, Department of Geology ..................................................Simon Peacock
Chair, Department of History ....................................................Noel J. Stowe
Chair, Department of Languages and Literatures .....................David William Foster
Chair, Department of Mathematics .............................................Rosemary A. Renaut
Chair, Department of Microbiology .........................................Edward A. Birge
Chair, Department of Military Science ...................................Lt. Col. Samuel Hawes
Chair, Department of Philosophy ..............................................Brad Armendt
Chair, Department of Physics and Astronomy .........................Howard G. Voss
Chair, Department of Plant Biology .........................................J. Kenneth Hoober
Chair, Department of Political Science ..................................Robert L. Youngblood
Chair, Department of Psychology .............................................Darwyn E. Linder
Chair, Department of Religious Studies ..................................Joel Gereboff
Chair, Department of Sociology ..............................................Gary W. Peterson
Chair, Department of Religious Studies ..................................Gary W. Peterson
Director, African American Studies ........................................Leanor Boulin Johnson
Director, Center for Asian Studies ..........................................Timothy Wong
Director, Cancer Research Institute .......................................G. Robert Petit
Director, Center for the Study of Early Events in Photosynthesis ....Willem Vermaas
Director, Climatology Laboratory ............................................Robert C. Balling
Interim Director, Hispanic Research Center ...........................Gary Keller
Director, Interdisciplinary Humanities Program ....................Charles Dellheim
Director, Interdisciplinary Committee for Molecular and Cellular Biology .Bertram L. Jacobs

ASU East

Charles E. Backus, Ph.D., Provost
www.east.asu.edu

ASU East was established in 1996 at the former Williams Air Force Base, 23 miles southeast of ASU Main. There, ASU East and its educational partners have created the Williams Campus—a residential, academic community focused on meeting the needs of students and of business, industry, and the larger community. The 600-acre Williams Campus offers a small college environment, yet students have ready access to the amenities of a major metropolitan area and the resources of a major research university.

ASU East offers degree programs to give students the knowledge and skills needed for success in professional, civic, and personal lives in the 21st century. Thirteen baccalaureate degree programs, four master’s degree programs, and one certificate program can now be completed at ASU East, with additional programs in the planning stages.

The College of Technology and Applied Sciences offers a master’s degree and a range of bachelor’s programs in high demand areas of technology, the only programs of their kind in Arizona. The unique bachelor’s and master’s degrees in agribusiness in the Morrison School of Agribusiness and Resource Management prepare students for careers in one of the fastest growing sectors of global business. The Environmental Resources degrees offered through the Morrison School provide opportunities to study wilderness areas and urban habitats and how people’s activities affect the regenerative ability of natural resources.

East College offers a range of supporting courses for all ASU East programs and bachelor’s degrees in Applied Psychology, Business Administration, Elementary Education, and Family Resources and Human Development. A Master of Science degree in Family Resources and Human Development is also offered through the Department of Nutrition in East College.

New facilities, new programs, and new opportunities are constantly emerging at ASU East. The campus is easily accessible via major interstate routes. Please see “ASU East Campus Map” map, page 400. For the latest information, call 480/727-EAST (3278) or access the Web site at www.east.asu.edu.

CAMPUS AND STUDENT SERVICES

ASU East is a student-centered campus that offers many of the features of a small college in a rural area while providing access to the resources of a major research university and the amenities of a large metropolitan area. The campus includes excellent educational facilities: a 21st-century electronic library, modern classrooms and laboratories, and state-of-the-art computer equipment. Other amenities include the bookstore, campus union, child care services, copy center, free parking, and a learning center. A shuttle service provides transportation between ASU East and ASU Main. An additional shuttle is available for transportation from ASU Main to ASU West.

Enrollment Services—OASIS

The OASIS provides one-stop services for admission, financial aid, business services, and registration. Conveniently located in the Academic Center Building, students find personnel ready to assist them with registration processes, tuition payment, financial assistance information, student employment, photo IDs, and parking information.

Student Support Services

Staff provide academic advising for undeclared majors, new student advisement orientation programs, and workshops. Additional staff members strive to support clubs and organizations, international and multicultural students, students with disabilities and tutoring services and referrals. Staff also provide career advising and assessment, career exploration software programs, career planning workshops, and internship information.

Williams Campus Housing and Residential Life

Campus housing is located in several academic villages designed to support and promote student academic success. Family resident assistants live and work in the homes and resident assistants live and work in the residence halls. There are many opportunities for students to be involved in leadership positions and residential life programs.

Residence Halls. Residence halls offer 160 large private rooms with amenities. Students may elect to share a room with another student if they prefer this option.

Homes. More than 600 homes with two to five bedrooms are located on campus. Single and married students, as well as faculty and staff living with their families, make their home at the Williams Campus. For further information, call 480/727-1700.

Library Services

Strong resources and personal service define the ASU East Library. As a primarily electronic research library, it is designed to take maximum advantage of new technology. Electronic indexes, catalogs, and journals support study and research in many fields, with an emphasis on the majors offered at ASU East. While the library acquires materials in all formats, by intention it prefers electronic text. Thousands of periodicals are available digitally in a variety of subjects, while those that remain in print form can quickly be obtained by the library. Documents in electronic form can be delivered directly to students’ desks by e-mail or fax. Most publications not available on campus may be obtained overnight. While most come from the other campuses of ASU, the library can obtain publications from anywhere in the world. Visit the library’s Web site at www.eastlib.east.asu.edu.

Computing Services

With more than 75 workstations, the Computing Commons at ASU East provides general computing access
through the campus network to the Internet and ASU Main computer services, including e-mail and general purpose computing. The IT East department provides specialized software and systems to meet the particular needs of the ASU East programs. In addition, IT East provides computer classrooms and audiovisual material to support the campus academic programs. IT East has a staff of support personnel to aid the campus community’s computing needs, including Web development.

**Williams Campus Union**

The Campus Union (CU) is the center of the campus community serving students, faculty, staff, and guests. CU facilities include meeting and study rooms, a ballroom, TV lounge, coffee bar, and a game room. Programs and services such as movie nights, ice cream socials, dances, and holiday parties complement the educational mission of the Williams Campus and enhance the quality of campus life. The CU is staffed primarily by students, providing them the opportunity to develop leadership skills and a customer service orientation. For more information, call 480/727-1116 or 480/727-1098.

**Recreational Facilities and Services**

The Williams Campus Fitness Center is equipped with state-of-the-art weight training and cardiovascular machines, racquetball courts, and a gymnasium. Trained exercise professionals are on hand daily to provide personal training assistance. A variety of health, fitness, and sports classes are also offered at the Fitness Center. For students who prefer outdoor sports activities, the campus has basketball and tennis courts, soccer/football fields, baseball fields, a running track, and swimming pool. For more information, call 480/988-8400.

**Student Health Services**

Health services for ASU East students are provided by the Veteran’s Administration Medical Center located at the Williams Campus. Services include a full range of assessment and treatment, physical examinations and immunizations, women’s health care, diagnostic tests, laboratory tests/x-rays, and pharmacy. Health education and counseling, and wellness and health assessments are also available. Student registration fees cover the cost of office visits for full-time ASU East students. Part-time students pay a nominal fee. Some office procedures and laboratory tests require additional charges. Health insurance is not required to use Health Services, however, it is strongly advised for all students and is required for international students. For more information, call 480/222-6568.

**Accreditation**

The North Central Association of Colleges and Schools accreditation of ASU Main includes ASU East. In addition, ASU East programs in Aeronautical Engineering Technology, Electronics Engineering Technology, and Manufacturing Engineering Technology are accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology, Inc. (TAC of ABET).

**Academic Organization and Administration**

The chief operating and academic officer of ASU East is the provost. There are two colleges and one school at ASU East administered by deans. These academic units develop and implement the teaching, research, and service programs of the institution. Additional support for the academic mission of the campus is provided by Library Services and Information Technology, each administered by a director. See “ASU East Administrative Personnel,” page 406.

**Advising**

Students are encouraged to take advantage of the skill and knowledge of the advising professionals available to them in the academic units and to seek academic advising early. For more information or to schedule an advising session, contact an academic advisor.

ASU West currently offers nine master’s degree programs plus specialized programs leading to professional certificates. Graduate degree programs are offered through four academic units:

1. College of Arts and Sciences
2. College of Education
3. College of Human Services
4. School of Management

Established in 1984 as a nonresidential campus, ASU West serves the diverse needs of approximately 5,000 working adults, returning students, and continuing students, many of whom balance academic demands with work and family. Students enjoy a small college atmosphere on a conveniently located, full-service neighborhood campus, while having access to the resources of a Research I, PAC-10 university.

Academic programs, classes, and support services (including child care) are innovative and provide students with a high quality education. Classes are offered in the day and evening, as well as on weekends, through television (cable), on the Internet, and at off-campus locations.

The ASU West campus occupies more than 300 acres and is easily accessed via the interstate routes of I-10 and I-17. Facilities are state-of-the-art and consist of seven major buildings (600,000 square feet) surrounded by a beautifully landscaped, natural environment.

Accreditation
ASU West is accredited by the Commission on Institutions of Higher Education of the North Central Association of Colleges and Schools. Professional programs in various academic areas are also accredited by the following agencies:

All Business and Accountancy degree programs in the School of Management are accredited by AACSB—The International Association for Management Education, the official accrediting agency in the field of business administration.

Academic Organization and Administration
As chief operating and academic officer of ASU West, the vice president and provost for ASU West provides executive leadership for the continuing development and management of the campus and reports directly to the president of Arizona State University. The vice president and provost is aided in the administration of the campus by vice provosts, deans, directors, department chairs, faculty, and other officers. There are four schools and colleges at ASU West administered by deans. These academic units develop and implement the teaching, research, and service programs of the institution, aided by the ASU West Library, Division of Collaborative Programs, and other services.

Degree and Certificate Programs
ASU West offers degree and certificate programs as shown in the “ASU West Graduate Degrees and Majors” table, page 408.

ASU West also offers postbaccalaureate programs for teacher certification in Elementary Education and Secondary Education.

At the graduate or postbaccalaureate level, four certificates are available: the Postbaccalaureate Certificate in Communication and Human Relations and the Certificate in Gerontology, administered by the College of Human Services; and Postbaccalaureate Certificates in Accountancy and Professional Accountancy, administered by the School of Management.

Admission
Students applying for admission to an ASU West degree or certificate program must complete an application and have transcripts sent directly to the following addresses.

Degree program and readmission applicants: call 602/543-4567 or write

Campus Facilities and Services
The campus of ASU West is located between 43rd and 51st Avenues on West Thunderbird Road in Phoenix. Immediately west of the campus is the city of Glendale. The core campus was completed in March 1991 and includes the following facilities: the Fletcher Library, Sands Classroom Building, Classroom Laboratory/Computer Building, Faculty and Administration Building, Kiva Lecture Hall, and University Center Building.

Fletcher Library. With a seating capacity of 900 and space for 310,000 volumes, the 106,000-square-foot facility is a state-of-the-art information access center designed to take full advantage of electronic technology.

Sands Classroom Building. Containing 38 rooms for classes and seminars, the building provides an intimate atmosphere in which to exchange ideas.

Kiva Lecture Hall. The Kiva seats 200 and serves as an auditorium for a variety of programs, faculty lectures, and public forums.
**Classroom Laboratory/Computer Building.** This building contains science laboratories; studios for art, dance, and music; computer classrooms; and an astronomy platform located on the roof.

**Faculty and Administration Building.** Most faculty and administrative offices are located in this building. Classrooms are located in the basement of the east wing.

**University Center.** This facility houses admissions and records, an array of student assistance programs, health services, a preschool, and student activities. Other building facilities include food service, a bookstore, cashier and fee payment services, student lounges, an art gallery, a wellness/fitness facility, a black box theater, meeting rooms, a branch office of the Arizona State Savings and Credit Union, and a divisible, multipurpose auditorium.

**Library Services.** The Fletcher Library collection includes 310,000 volumes, 1.4 million microforms, and more than 3,000 serial titles. Additionally, students have access to the 3 million-volume collection on the main campus, which is provided through the ASU Library Online System and a document delivery service.

The library is open seven days a week. Library staff members are on duty when the library is open to provide instruction in using the online catalog, the full-text databases, and other library resources. For library hours, call 602/543-8500. For information and reference services, call 602/543-8501.

**Computing Facilities and Services.** Information Technology at ASU West offers a full range of computing facilities for use by students, faculty, and staff through a combination of local microcomputer facilities and a pervasive high-speed communications network that provides access to server computer facilities located at ASU Main and to the Internet. Students may access ASU servers from home through their Internet service provider connections.

Technopolis, a student computing access center located on the lower level of Fletcher Library, contains networked IBM-compatible and Macintosh microcomputers, and high-quality peripherals such as laser printers and scanners. Software needed by ASU West students is provided on Technopolis computers and servers. Information and help for computer users, computer accounts services, adaptive technology for students with disabilities, and manuals for equipment and software are available at the center.

ASU West also has several classrooms and a multimedia presentation facility that facilitate the use of computers and audiovisual equipment during instruction. They are located in the Classroom Laboratory/Computer Classroom Building.

**Student Affairs**

Student Affairs is responsible for the delivery of a variety of services and developmental programs in support of students’ extracurricular needs and educational pursuits. Special attention is given to the recruitment and retention of a culturally diverse student population. Student Affairs’ stated purpose is to identify and respond to the support and student development needs of ASU West’s diverse student population for the purpose of enhancing each student’s social, cultural, personal, intellectual, and professional growth. The offices of Student Affairs are located in the University Center Building and currently offer programs for

1. admissions information and services,
2. career services and personal counseling,
3. disability support services,
4. financial aid,
5. learning enrichment/tutorial,
6. multicultural student services,
7. registration services,
8. student employment,
9. student health services,
10. student life, and
11. veterans services.

ASU West Faculty and Academic Professionals

A

Abramson, Marianne (1999), Visiting Assistant Professor of Psychology; B.A., Northern Arizona University; M.A., Ph.D., Arizona State University

Achilles, Elayne R. (1986), Associate Professor of Education; B.M.Ed., Temple University; M.M., Ed.D., Arizona State University

Aguiñaga, Jose (1999), Assistant Librarian; B.A., University of San Diego; M.L.S., University of Arizona

Aleshire, Peter (1993), Senior Lecturer of Professional Writing; B.A., M.A., Stanford University

Allison, Jeanette (1994), Associate Professor of Early Childhood Education; B.S., Warner Pacific College; M.A., California State University, Fresno; Ph.D., University of Illinois

Andereck, Kathleen L. (1993), Associate Professor of Recreation and Tourism Management; B.S., University of Wisconsin, Stevens Point; M.S., Texas A&M University; Ph.D., Clemson University

Anders, Gary C. (1989), Professor of Economics; Director, Institute for International Business, School of Management; B.S., West Texas State University; M.A., Ph.D., University of Notre Dame

Anderson, Laurel A. (1989), Associate Professor of Marketing; B.S.N., University of Minnesota, Twin Cities; M.N., University of Washington; Ph.D., Arizona State University

Anokye, Akua Duku (1999), Visiting Associate Professor of American Studies; B.A., Michigan State University; M.A., Federal City College, District of Columbia; M.A., Ph.D., City University of New York Graduate School and University Center

Armstrong, Todd A. (1999), Assistant Professor of Administration of Justice; B.A., M.A., Ph.D., University of Maryland, College Park

Atwater, Leanne E. (1993), Associate Professor of Management; Director, Faculty Development and School of Management; B.A., M.A., San Diego State University; Ph.D., Claremont Graduate School

Ávalos, Manuel (1990), Associate Professor of Political Science; B.A., M.A., University of Arizona; Ph.D., University of New Mexico

Avender, Michael A. (2000), Professor of Education; Dean, College of Education; B.A., M.A., University of Windsor (Canada); M.Ed., University of Toronto (Canada); Ph.D., Claremont Graduate School

B

Baldwin, Bruce A. (1989), Professor of Accountancy; B.A., M.B.A., Michigan State University; Ph.D., Arizona State University

Balthazard, Pierre A. (1999), Associate Professor of Information Management Systems; B.S., McGill University (Canada); M.S., Ph.D., University of Arizona

Beckett, E. Carol (1996), Assistant Professor of Bilingual Education; B.A., M.Ed., Ed.D., Arizona State University

Bellizzi, Joseph A. (1988), Professor of Marketing; B.S., M.A., Ph.D., University of Nebraska, Lincoln

Berman, Tressa (1995), Assistant Professor of Anthropology; B.A., San Francisco State University; M.A., University of Colorado, Boulder; Ph.D., University of California, Los Angeles

Bernat, Frances P. (1993), Associate Professor of Administration of Justice; B.S., M.A., J.D., State University of New York, Buffalo; Ph.D., Washington State University

Bonakdarian, Mansour (1999), Visiting Assistant Professor of American Studies; B.A., M.A., Ph.D., University of Iowa

Brawley, E. Allan (1992), Professor of Social Work; Vice Provost for Academic Personnel; Certificate of Social Work, University of Strathclyde (United Kingdom); D.S.W., University of Pennsylvania

Bredbenner, Candice D. (1990), Associate Professor of American History; B.A., Russell Sage College; M.A., Ph.D., University of Virginia

Brett, Joan F. (1999), Associate Professor of Marketing; B.A., B.S., Ohio State University; Ph.D., New York University

Britt, Chester L. III (1999), Associate Professor of Administration of Justice; B.A., University of Iowa; M.A., Washington State University; Ph.D., University of Arizona

Broadus, Dorothy C. (1990), Associate Professor of English; Chair, Department of American Studies; B.A., Eastern Kentucky University; M.Ed., Ph.D., University of Louisville

Brodar, Valerie A. (1999), Visiting Assistant Professor of Interdisciplinary Arts and Performance; B.A., Carnegie Mellon University; M.A., School of the Art Institute of Chicago; M.A., Ohio State University

Bryn, Saundra L. (1994), Assistant Professor of Curriculum and Instruction; B.S., Minot State College; M.A., Ed.D., Northern Arizona University

Burleson, Mary H. (1997), Assistant Professor of Psychology; B.A., M.S., New Mexico State University; Ph.D., Arizona State University

Buss, Ray R. (1990), Associate Professor of Educational Psychology; Assistant Dean, College of Education; B.S., M.S., Ph.D., University of Wisconsin, Madison

Byam, L. Dale (1999), Visiting Assistant Professor of Interdisciplinary Arts and Performance; B.A., Concordia University (Canada); M.A., Ph.D., New York University

C

Cardelle-Elawar, Maria (1987), Associate Professor of Educational Psychology; B.A., Universidad Experimental Libertador (Venezuela); M.S., University of Southern California; Ph.D., Stanford University

Cárdenas, Lupe (1986), Associate Professor of Spanish; B.A., M.A., Ph.D., Arizona State University
Carey, James (1998), Lecturer, School of Management; B.S., M.B.A., Ph.D., Arizona State University
Carey, Jane M. (1988), Associate Professor of Management Information Systems; B.S., M.B.A., Eastern Illinois University; Ph.D., University of Mississippi
Carlibe, Barbara J. (1993), Lecturer of Education; Coordinator, Field Placement for Education; B.A., Immaculate Heart College; M.Ed., Arizona State University; Ed.D., Northern Arizona University
Carter, Wendy (1997), Assistant Professor of Sociology; B.A., Stanford University; M.S., Carnegie Mellon University; M.S., Ph.D., University of Wisconsin, Madison
Cerveris, Michael E. (1990), Professor of Music; B.S., The Juilliard School; M.A., Catholic University; D.M.A., West Virginia University
Chaffin, Nancy (1994), Assistant Librarian; B.A., M.L.S., University of Arizona
Chang, Stanley Y. (1992), Associate Professor of Accountancy; B.B.A., National Taiwan University (Taiwan); M.A., University of Missouri; Ph.D., Texas Tech University
Chisholm, Inés M. (1991), Associate Professor of Bilingual Education; B.A., M.Ed., University of Puerto Rico; Ph.D., University of Florida
Christie, Alice A. (1995), Assistant Professor of Technology and Education; B.A., Denison University; M.Ed., Boston University; Ph.D., Arizona State University
Cleland, Jo Ann V. (1991), Associate Professor of Reading/Language Arts; B.A., Saint Olaf College; M.A., Ed.D., Northern Arizona University
Cohen, Charlotte (1999), Assistant Librarian; B.A., M.L.S., University of Arizona
Coles, Jerilyn W. (1994), Assistant Professor of Management; B.S., Brigham Young University; Ph.D., University of Utah
Collins, Kathleen (1997), Assistant Librarian; B.A., University of Maine, Farmington; M.L.I.S., Dalhousie University (Canada)
Collins-Chobanian, Shari C. (1994), Assistant Professor of Philosophy; B.A., Colorado State University; M.A., Ph.D., Washington University
Corrigan, John A. (1992), Professor of Religion; B.A., University of Dayton; M.A., Miami University; Ph.D., University of Chicago
Costantino, James (1998), Lecturer of Accountancy; B.S., M.Acc., Arizona State University; M.A., University of Southern California
Craig, Timothy P. (1990), Associate Professor of Ecology; B.S., Kansas State University; M.S., Ph.D., Northern Arizona University
Cuádriz, Gloria H. (1994), Assistant Professor of American Studies; B.A., University of California, Santa Cruz; M.A., Ph.D., University of California, Berkeley
Cutrer, Emily F. (1990), Associate Professor of American Studies; Dean, Division of Collaborative Programs; Interim Dean of Students and Associate Vice Provost for Student Affairs; B.A., M.A., Ph.D., University of Texas, Austin
Cutrer, Thomas W. (1992), Professor of American Studies; B.A., M.A., Louisiana State University; Ph.D., University of Texas, Austin

D
D’Angelo, Barbara (1999), Assistant Librarian; B.A., Emmanuel College; M.S., University of Illinois, Urbana-Champaign
Davidson, Ronald (1997), Associate Professor of Accountancy; Director, Accountancy Program; B.Comm., University of Manitoba (Canada); M.B.A., York University (Canada); Ph.D., University of Arizona
De La Cruz, Yolanda (1991), Assistant Professor of Mathematics Education; B.A., M.A., California State University, Northridge; Ed.D., University of California, Berkeley
Delgado, Fernando (1994), Associate Professor of Communication Studies; B.A., San Jose State University; M.A., Ph.D., University of Iowa
Di Mare, Lesley (1992), Associate Professor of Communication Studies; Chair, Department of Communication Studies; B.A., California State University, Chico; M.A., California State University, Hayward; Ph.D., Indiana University, Bloomington
Dix, Clarence L. (1979), Senior Lecturer of Social Work; B.A., Buena Vista College; M.S.W., University of Chicago
Duncan, William A. (1991), Associate Professor of Accountancy; B.S., Portland State University; Ph.D., University of Texas, Austin

E
Elenes, C. Alejandra (1992), Assistant Professor of Women’s Studies; Licenciada en Ciencias de la Información, University of Monterrey (Mexico); M.A., Ph.D., University of Wisconsin, Madison
Erfani, Julie A. Murphy (1989), Associate Professor of Political Science; B.A., Knox College; M.A., Ph.D., University of Minnesota, Twin Cities

F
Farest, Cynthia A. (1994), Assistant Professor of Reading Education; B.S., University of Texas, Austin; M.Ed., Houston Baptist University; Ph.D., University of Texas, Austin
Fareelly, deg (1991), Associate Librarian; B.A., University of Wisconsin, Madison
Fedock, Patricia (1993), Assistant Professor of Science Education; B.A., M.A., Ph.D., Arizona State University
Feezor-Buttes, Barbara (1995), Assistant Professor of American Studies; B.A., University of California, Berkeley; M.A., Ph.D., University of California, Los Angeles
Firat, A. Fuat (1990), Professor of Marketing; Licencié en Economie, Istanbul University (Turkey); Ph.D., Northwestern University
Flint, G. David (1998), Lecturer of Management; B.A., Grand Canyon University; M.M., American Graduate School of International Management; Ph.D., Texas A&M University

G
Gallegos, Bee (1984), Associate Librarian; B.S., University of North Alabama; M.L.S., George Peabody College for Teachers
Garcia, Mildred (1997), Associate Professor of Social and Behavioral Sciences; Associate Director, Hispanic Research Center; B.S., Bernard M. Baruch College; M.A., New York University; M.A., Ed.D., Columbia University
Garrett, Judith N. (1996), Assistant Professor of Early Childhood Education/Special Education; B.S., State University of New York, Fredonia; M.A., University of Tennessee, Knoxville; Ph.D., George Mason University

Gate, Helen L. (1970), Associate Librarian; Dean, ASU West Library; B.A., Fort Hays State University; M.A., University of Denver

Georges-Abeyie, Daniel (1992), Professor of Administration of Justice; B.A., Hope College; M.A., University of Connecticut; Ph.D., Syracuse University

Gilkeson, John S. (1991), Associate Professor of History; A.B., Amherst College; M.A., University of Oklahoma; Ph.D., Brown University

Gitelson, Richard (1994), Associate Professor of Recreation and Tourism Management; Chair, Department of Recreation and Tourism Management; B.A., M.A.T., M.S., University of North Carolina, Chapel Hill; Ph.D., Texas A&M University

Glass, Ronald D. (1996), Assistant Professor of Professional Core; B.A., Harvard College; M.A., Ph.D., Stanford University; Ed.M., Harvard University; C.Phil., University of California, Berkeley

Gonzalez-Jensen, Margaret (1994), Associate Professor of Bilingual Education; B.A., Our Lady of the Lake University; M.A., Ed.D., Texas A&M University

Gopalakrishnan, Mohan (1998), Associate Professor of Operations Production Management; B.E., College of Engineering (India); M.S., Ph.D., University of Alabama, Tuscaloosa

Graves, Joseph L. (1994), Associate Professor of Evolutionary Biology; A.B., Oberlin College; Ph.D., Wayne State University

Greenhut, John G. (1989), Associate Professor of Finance; B.A., Ph.D., Texas A&M University

Griffin, Marie (1997), Assistant Professor of Administration of Justice; B.S., Santa Clara University; Ph.D., Arizona State University

Grober, Matthew S. (1995), Associate Professor of Endocrinology; B.S., California State, Long Beach; Ph.D., University of California, Los Angeles

Grunder, Diane (1995), Lecturer of Communication Studies; B.A., Rutgers, The State University; M.A., Ph.D., Arizona State University

Gutierrez, Sara E. (1990), Associate Professor of Psychology; B.S., M.A., Ph.D., Arizona State University

H

Haarr, Robin N. (1994), Assistant Professor of Administration of Justice; B.S., State University of New York, Brockport; M.S., Ph.D., Michigan State University

Haas, Nancy S. (1986), Associate Professor of Curriculum and Instruction; B.A., M.Ed., Ph.D., Arizona State University

Haladyna, Thomas M. (1986), Professor of Educational Psychology; B.S., Illinois State University; M.A., San Jose State University; Ph.D., Arizona State University

Harken, Henry R., Jr. (1986), Associate Librarian; B.A., Hofstra University; M.S.L.S., Long Island University

Harris, Kathleen C. (1990), Professor of Special Education; B.A., M.Ed., Rutgers, The State University; Ph.D., Temple University

Hattenhauer, Darryl (1988), Associate Professor of American Literature; B.A., M.A., California State University; Ph.D., University of Minnesota, Twin Cities

Hay, Victoria (1993), Senior Lecturer of Writing; B.A., University of Arizona; M.A., Ph.D., Arizona State University

Hayden, Mary (1998), Lecturer of Management; B.A., M.B.A., Arizona State University

Hayne, Stephen C. (1994), Associate Professor of Management Information Systems; B.Com., University of Alberta (Canada); Ph.D., University of Arizona

Hernández, Anthony C.R. (1992), Associate Professor of Psychology; B.A., University of California, Riverside; M.A., Ph.D., University of California, Los Angeles

Hess, Robert K. (1990), Associate Professor of Measurement and Evaluation; B.A., M.Ed., University of Georgia; Ph.D., University of South Carolina

Howard, Elizabeth C. (1994), Assistant Professor of Curriculum and Instruction; B.A., University of Texas, Austin; M.A.T., New Mexico State University; Ph.D., University of Texas, Austin

Hughes, Kimberly (1994), Assistant Professor of Genetics; B.A., Rice University; M.S., Ph.D., University of Chicago

Hultsman, John (1990), Professor of Recreation and Tourism Management; Director, Partnership for Community Development, College of Human Services; B.G.S., University of Kansas; M.S., University of Missouri; Re.D., Indiana University, Bloomington

Hultsman, Wendy Z. (1990), Associate Professor of Recreation and Tourism Management; B.S.E., State University of New York, Cortland; M.S., Indiana University, Bloomington; Ph.D., Pennsylvania State University

Hutt, Roger W. (1975), Associate Professor of Management; Director, Undergraduate Global Business Program, School of Management; B.S., M.B.A., Ohio State University; Ph.D., Michigan State University

Hyman, Batya (1995), Assistant Professor of Social Work; B.A., Barnard College; M.S.W., Boston University; Ph.D., Brandeis University

Hyndman, Jennifer (1997), Assistant Professor of Geography; B.A., University of Alberta (Canada); M.A., Lancaster University (United Kingdom)

I

Irvin, Glenn W. (1997), Professor of English; Vice Provost for Academic Affairs; B.A., M.A., Ph.D., Arizona State University

Irwin, Leslie H. (1995), Assistant Professor of Professional Core; B.S., University of Wisconsin, Superior; B.Ed., M.Ed., University of Ottawa (Canada); Ed.D., Brigham Young University

Isbell, Dennis (1991), Associate Librarian; B.S., M.A., Northern Arizona University; M.L.S., University of Arizona

J

Jacquette, Barbara L. (1990), Senior Lecturer of Curriculum and Instruction; B.S., Cornell University; M.A., Adelphi University; Ph.D., Arizona State University

James, Edward L. (1998), Instructor of Social Work; B.S.W., Saint Augustine’s College; M.A., Carnegie Mellon University; M.S.W., University of Wisconsin, Madison

Johnson, Carolyn R. (1995), Associate Librarian; B.A., Montclair State College; M.S.L.S., University of Illinois; M.B.A., University of Minnesota
Jones, Robert W. (1994), Associate Professor of Collaborative Programs; Director, Center for Writing Across the Curriculum; B.S., M.A., Middle Tennessee State University; Ph.D., Miami University

K

Kammerlocher, Lisa (1988), Associate Librarian; B.S., M.L.S., University of Oklahoma

Kang, Eun (1998), Visiting Assistant Professor of Finance; B.LAWS, Sungkyunkwan University (Korea); M.B.A., University of Michigan; Ph.D., University of Pennsylvania

Kassing, Jeffrey W. (1998), Assistant Professor of Communication Studies; B.A., William Jewell College; M.A., Murray State University; Ph.D., Kent State University

Katz, Charles (1997), Assistant Professor of Administration of Justice; B.S., Northeast Missouri State University; M.A., Ph.D., University of Nebraska, Omaha

Keil, Thomas J. (1999), Professor of Sociology; Dean, College of Arts and Sciences; B.A., King’s College; M.A., Ph.D., Temple University

Kelley, Douglas L. (1994), Assistant Professor of Communication Studies; B.A., Westmont College; M.C., Arizona State University; Ph.D., University of Arizona

Kelley, Michael F. (1990), Associate Professor of Early Childhood Education; B.S., M.S., Arizona State University; Ed.D., University of Georgia

Kirby, Andrew (1995), Professor of Social and Behavioral Sciences and Geography; B.A., Ph.D., University of Newcastle (United Kingdom)

Kline, Elliot (1993), Lecturer of Management; B.A., M.B.A., Ph.D., University of Colorado

Knopf, Richard C. (1986), Professor of Recreation and Tourism Management; B.S., M.S., Ph.D., University of Michigan

Koptiuch, Kristin (1992), Associate Professor of Anthropology; B.A., State University of New York, Binghamton; M.A., Ph.D., University of Texas, Austin

Kostelnik, Joyce (1997), Assistant Professor of Reading; B.S., M.Ed., Ph.D., University of North Texas

Kumar, T. Krishna (1999), Visiting Professor of Economics; B.S., Andhra University (India); M.A., Indian Statistical Institute (India); Ph.D., Iowa State University

L

Lavitt, Melissa R. (1991), Associate Professor of Social Work; Chair, Department of Social Work; B.A., University of Chicago; M.S.W., D.S.W., Tulane University

Lee, Cheryl D. (1997), Assistant Professor of Social Work; B.A., George Washington University; M.S.W., Ph.D., Arizona State University

Lentz, Daniel (1991), Associate Professor of Music Theory and Composition; B.A., Saint Vincent College; M.F.A., Ohio University, Athens

Lerman, Richard (1995), Associate Professor of Media Arts; Chair, Department of Interdisciplinary Arts and Performance; B.A., M.F.A., Brandeis University

Levy, Emanuel (1990), Professor of Sociology; B.A., M.A., Tel Aviv University (Israel); M.Ph., Ph.D., Columbia University

Luken, Paul C. (1993), Senior Lecturer of Sociology; B.A., Quincy College; M.A., Ph.D., Ohio State University

M

Maimon, Elaine P. (1996), Professor of English; Vice President and Provost; B.A., M.A., Ph.D., University of Pennsylvania

Malian, Ida M. (1990), Associate Professor of Special Education; B.A., Oakland University; M.A., Ph.D., University of Michigan

McGovern, Thomas V. (1990), Professor of Psychology; A.B., Fordham University; M.A., Ph.D., Southern Illinois University, Carbondale

McLean, S. Vianne (1992), Associate Professor of Early Childhood Education; Associate Vice Provost for Academic Programs and Graduate Studies; B.Ed., University of Queensland (Australia); M.Ed., Ph.D., Arizona State University

McWilliams, Abigail (1993), Associate Professor of Management; Director, Master of Business Administration Program, School of Management; B.S., M.A., Ph.D., Ohio State University

Medville, Karen K. (1995), Assistant Research Scientist in Life Sciences; B.A., Colorado College; M.S., Colorado State University

Mengesha, Astair Gebre Mariam (1991), Associate Professor of Women’s Studies; Chair, Women’s Studies Program; B.A., Purdue University; M.A., Michigan State University; Ph.D., Iowa State University

Meznar, Martin (1994), Associate Professor of International Business; B.A., B.S., Bryan College; M.S., University of Texas, Dallas; Ph.D., University of South Carolina

Midobuche, Eva (1996), Assistant Professor of Bilingual Education; B.S., M.A., Ed.D., Texas A&M University

Miller, Paul A. (1988), Associate Professor of Psychology; Chair, Department of Social and Behavioral Sciences; B.S., Saint Vincent College; M.S., North Carolina State University; Raleigh; M.A., Ph.D., University of Texas, Austin

Mizzi, Philip J. (1988), Associate Professor of Economics; B.A., Rockford College; Ph.D., Texas A&M University

Mohan, Srimathy (1999), Visiting Assistant Professor of Operations Production Management; B.S., M.S., University of Alabama, Tuscaloosa; M.S., Massachusetts Institute of Technology; Ph.D., University of Montreal (Canada)

Moore, David W. (1989), Professor of Reading; B.A., M.Ed., University of Arizona; Ph.D., University of Georgia

Moore, Harold E. Jr. (1993), Lecturer of Administration of Justice; B.A., J.D., University of Denver

Morris, Maureen (1999), Assistant Librarian; B.A., M.L.I.S., University of Western Ontario (Canada)

Morris, Richard (1999), Associate Professor of Communication Studies; B.A., San Jose State University; M.A., Ph.D., University of Wisconsin, Madison

Moulton, Ian F. (1993), Assistant Professor of British Literature; B.A., University of Manitoba, Winnipeg (Canada); M.A., University of Western Ontario (Canada); Ph.D., Columbia University

Mueller, Carol M. (1988), Associate Professor of Sociology; B.A., University of California, Berkeley; M.A., Rutgers, The State University; Ph.D., Cornell University

Muller, Barbara J. (1991), Senior Lecturer of Accountancy; B.S., M.B.A., Arizona State University
ASU WEST FACULTY AND ACADEMIC PROFESSIONALS

N

Nadesan, Majia H. (1994), Assistant Professor of Communication Studies; B.A., M.A., San Diego State University; Ph.D., Purdue University

Nadir, P. Aneesah (1994), Lecturer of Social Work; B.S.W., Adelphi University; M.S.W., Arizona State University

Nahavandi, AfSaneh (1989), Professor of Management; B.A., University of Denver; M.A., Ph.D., University of Utah

Náñez, José E., Sr. (1988), Associate Professor of Psychology; B.A., M.A., California State University; Ph.D., University of Minnesota, Twin Cities

Nevin, Ann (1991), Professor of Special Education; B.A., Westminster College; M.Ed., University of Vermont; Ph.D., University of Minnesota, Twin Cities

Nayar, Kathleen M. (1994), Assistant Professor of History; B.A., Yale University; M.A., Sarah Lawrence College; M.A., M.Phil., Ph.D., Yale University

Noronha, Gregory M. (1995), Associate Professor of Finance; B.S., University of Michigan; M.B.A., Ph.D., Virginia Polytechnic Institute and State University

Nucci, Christine (1998), Assistant Professor of Early Childhood Education; B.A., Hunter College, City University of New York; M.S., Brooklyn College, City University of New York; Ph.D., City University of New York

P

Painter, Suzanne R. (1995), Assistant Professor of Educational Administration; B.S., Eastern Oregon State College; M.Ed., Ph.D., University of Oregon

Pambuccian, Victor V. (1994), Associate Professor of Mathematics; Baccalaureat, German Lyceum (Romania); M.S., University of Bucharest (Romania); Ph.D., University of Michigan

Pecuch-Herrero, Marta (1994), Assistant Professor of Mathematics; M.S., Ph.D., University of Chicago

Perry, Eleanor A. (1996), Assistant Professor of Educational Administration; B.A., Douglas College; M.Ed., Rutgers, The State University; Ph.D., University of Oregon

Persu, Linda (1999), Lecturer of Integrative Studies; B.A., University of California, Davis; M.A., Ottawa University

Portillo, Gregory R. (1995), Assistant Professor of Political Science; B.A., California State University, Hayward; M.A., University of California, Los Angeles; Ph.D., University of California, Berkeley

Pough, F. Harvey (1993), Professor of Systems Ecology; Chair, Department of Life Sciences; B.A., Amherst College; M.A., Ph.D., University of California, Los Angeles

Pulido, Alberto L. (1993), Associate Professor of American Studies; Director, Ethnic Studies Program; B.A., University of California, San Diego; M.A., Ph.D., University of Notre Dame

R

Ragle, Gael L. (1988), Senior Lecturer of Educational Psychology; B.S.Ed., M.A.Ed., Northern Arizona University; Ed.D., Arizona State University

Ramsey, R. Eric (1994), Associate Professor of Communication Studies; B.A., Rutgers, The State University; M.A., Ph.D., Purdue University

Reese, Ruth (1988), Senior Lecturer of Educational Psychology; B.S., University of Wisconsin, Madison; M.S., Ph.D., University of Wisconsin, Milwaukee

Revenaugh, D. Lance (1999), Visiting Assistant Professor of Operations Production Management; B.B.A., M.B.A., Baylor University; Ph.D., Arizona State University

Ridley, Dale Scott (1990), Associate Professor of Educational Psychology; B.S., New Mexico State University; M.A., Ph.D., University of Texas, Austin

Rillero, Peter (1994), Assistant Professor of Science Education; B.A., State University of New York, Buffalo; M.A., Columbia University; Ph.D., Ohio State University

Rodriguez, Christina (1997), Assistant Professor of Clinical Psychology; B.S., University of Miami; Ph.D., University of Florida

Rodriguez, Nancy (1998), Assistant Professor of Administration of Justice; B.S., University of Miami; M.S., Ph.D., University of Florida

Ryan, Joseph M. (1995), Professor of Education and Collaborative Programs; Director, Research Consulting Center; A.B., M.Ed., Boston College; Ph.D., University of Chicago

S

Sabatini, Arthur J. (1991), Assistant Professor of Performance Studies; B.A., M.A., Ohio University; Ph.D., New York University

Saffo, Mary Beth (1994), Professor of Physiology; B.A., University of California, Santa Cruz; Ph.D., Stanford University

Scheiner, Samuel M. (1994), Associate Professor of Biometry; B.A., M.S., Ph.D., University of Chicago

Schmidtke, Paul C. (1998), Senior Lecturer of Integrative Studies; B.S., Rose-Hulman Institute of Technology; Ph.D., Ohio State University

Schuett, Gordon W. (1995), Assistant Professor of Integrative Biology; B.A., University of Toledo; M.S., Central Michigan University; Ph.D., University of Wyoming

Searle, Mark S. (1995), Professor of Recreation and Tourism Management; Dean, College of Human Services; B.A., University of Winnipeg (Canada); M.S., University of North Dakota; Ph.D., University of Maryland

Sen, Nilanjan (1992), Associate Professor of Finance; B.A., Jadavpur University (India); M.A., Ph.D., Virginia Polytechnic Institute

Shirreffs, Janet H. (1977), Professor of Recreation and Tourism Management; Director, Gerontology Program; B.S., Ithaca College; M.S., Syracuse University; Ph.D., Texas Woman’s University

Shome, Raka (1999), Assistant Professor of Communication Studies; B.A., University of Calcutta (India); Ph.D., University of Georgia, Athens

Siegel, Donald (1994), Professor of Economics; B.A., Columbia College; M.Phil., Ph.D., Columbia University
Silberman, Jonathan (1992), Professor of Economics; Dean, School of Management; B.S., Bowling Green State University; M.S., Ph.D., Florida State University
Sim, Khim Ling (1996), Assistant Professor of Accountancy; B.S., Southeast Missouri State University; M.Acc., Virginia Polytechnic Institute and State University
Slotnick, Susan A. (1998), Assistant Professor of Operations Production Management; A.B., Brandeis University; M.S., Carnegie Mellon University; M.A., Ph.D., Columbia University
Solovey, Mark (1996), Assistant Professor of History and Philosophy of Science; B.A., Rollins College; M.A., University of Wisconsin, Madison
Sowell, Evelyn J. (1990), Assistant Professor of Sociology; B.A., Roanoke College; M.A., University of New Mexico; Ph.D., University of Iowa;
St. Clair, Charles E. (1991), Fine Arts Specialist; B.F.A. Fairmount Center for Creative and Performing Arts
Stage, Sarah J. (1994), Professor of Women’s Studies; B.A., University of Iowa; M.A., University of Massachusetts; M.Phil., Ph.D., Yale University
Stanton, Daniel J. (1999), Assistant Librarian; B.A., Trinity College; M.A., University of Arizona
Stryker, Linda L. (1987), Associate Professor of Astronomy; Chair, Department of Integrative Studies; B.A., Whittier College; B.A., M.S., San Diego State University; M.A., California State University, Los Angeles; Ph.D., Yale University
Sullivan, Brian K. (1989), Associate Professor of Evolutionary Biology; B.A., University of California, Berkeley; Ph.D., Arizona State University
Svoboda, William S. (1969), Professor of Education; B.S., M.S., Ed.D., University of Kansas

T
Taylor, Robert D. (1996), Associate Professor of Theatre Performance; B.A., Crewe and Alsager College, Manchester Metropolitan University (United Kingdom); M.A., University of Essex (United Kingdom); Ph.D., University of Kansas
Thording, Lars (1998), Lecturer of Marketing; B.Ed., Royal Danish School of Educational Studies (Denmark); M.A., Odense University (Denmark)

V
Van Fleet, David D. (1989), Professor of Management; B.S., Ph.D., University of Tennessee, Knoxville
Vaughan, Suzanne (1987), Associate Professor of Sociology; B.A., Roanoke College; M.A., University of New Mexico; Ph.D., Ohio State University
Vicedo, Marga (1992), Associate Professor of Philosophy; B.A., M.A., Ph.D., University of Valencia (Spain)
Vickrey, Don W. (1992), Professor of Accountancy; B.B.A., University of Houston; M.B.A., Ph.D., University of Texas, Austin

W
Waldman, David A. (1995), Professor of Management; B.A., University of Kentucky; M.S., Ph.D., Colorado State University
Waldron, Vincent R. (1992) Associate Professor of Communication Studies; B.A., M.A., University of Arizona; Ph.D., Ohio State University
Webb, Vincent J. (1996), Professor of Administration of Justice; Chair, Department of Administration of Justice; B.A., University of Omaha; M.A., University of Nebraska, Omaha; Ph.D., Iowa State University
Werheimer, Eric H. R. (1995), Assistant Professor of American Literature; B.A., Haverford College; M.A., Ph.D., University of Pennsylvania
Weston, Kath (1990), Associate Professor of Anthropology; A.B., A.M., University of Chicago; A.M., Ph.D., Stanford University
Wetzel, Keith (1991), Associate Professor of Educational Technology; B.A., Greenville College; M.A., Goddard College; M.A., Ph.D., University of Oregon
Whitlock, Monica (1999), Instructor of Administration of Justice; B.A., Point Loma Nazarene College; M.A., M.M.F.T., University of Southern California
Williams, Jane (1997), Assistant Professor of Special Education; B.A., Wittenberg University; M.A., University of Iowa; Ph.D., University of Maryland
Wilson, Denward J. (1989), Lecturer of Philosophy; B.A., Arizona State University
Wise, John Macgregor (1999), Assistant Professor of Communication Studies; B.A., Trinity University; M.A., Ph.D., University of Illinois, Urbana-Champaign
Wosinska, Wilhelmina (1994), Senior Lecturer of Social Psychology; B.A., University of Warsaw (Poland); M.A., Ph.D., Jagiellonian University (Poland)
Wu, Jianguo (1995), Associate Professor of Ecosystem Ecology; B.S., University of Inner Mongolia (China); M.S., Ph.D., Miami University

Y
Yost, Jeffrey A. (1996), Assistant Professor of Accountancy; B.S., Miami University; M.B.A., University of Akron; Ph.D., Ohio State University

Z
Zambo, Ronald W. (1991), Associate Professor of Mathematics Education; B.S., Indiana University, Bloomington; M.A., Ph.D., University of South Florida
Zorita, Paz Méndez-Bonito (1993), Associate Professor of Social Work; A.S., School of Social Work of Gijon (Spain); M.S.S.A., Ph.D., Case Western Reserve University
### Administration
- Vice President and Provost: Elaine P. Maimon
- Vice Provost for Academic Affairs: Glenn W. Irvin
- Associate Vice Provost: Mildred Garcia
- Associate Vice Provost, Academic Programs and Graduate Studies: S. Vianne McLean
- Director, Curriculum and Academic Articulation: Julia R. Ramsden
- Interim Dean of Students; Associate Vice Provost, Student Affairs: Emily F. Cutrer
- Vice Provost for Academic Personnel: E. Allan Brawley
- Vice Provost for Planning and Budget: Barry R. Bruns
- Vice Provost for Administrative Affairs: Gebeyehu Ejigu
- Vice Provost for Institutional Advancement: John E. Collins
- Dean, ASU West Library: Helen L. Gater

### University Offices
- Vice Provost for Research: Jonathan Fink
- Dean, College of Extended Education: Bette F. DeGraw
- Dean, Craig and Barbara Barrett Honors College: Ted Humphrey

### College of Arts and Sciences
- Dean, College of Arts and Sciences: Thomas J. Keil
- Chair, American Studies: Dorothy C. Broaddus
- Chair, Integrative Studies: Linda L. Stryker
- Chair, Interdisciplinary Arts and Performance: Richard Lerman
- Chair, Life Sciences: Harvey F. Pough
- Chair, Social and Behavioral Sciences: Paul A. Miller
- Chair, Women's Studies: Astair G. M. Mengesha

### College of Education
- Dean, College of Education: Michael A. Awender
- Assistant Dean, College of Education: Ray R. Buss

### College of Human Services
- Dean, College of Human Services: Mark S. Searle
- Chair, Administration of Justice: Vincent J. Webb
- Chair, Communication Studies: Lesley Di Mare
- Director, Gerontology Program: Janet Shirreffs
- Director, Partnership for Community Development: John T. Hultsman
- Chair, Recreation and Tourism Management: Richard Gitelson
- Liaison, Nursing (ASU Main Program): Lasca Beck
- Chair, Social Work: Melissa R. Lavitt

### Division of Collaborative Programs
- Dean, Division of Collaborative Programs: Emily F. Cutrer
- Coordinator, Bachelor of Applied Science Program: Cynthia Rasmussen
- Coordinator, University College Center: Christina Hahn
- Director, Research Consulting Center: Joseph M. Ryan
- Director, Center for Writing Across the Curriculum Program: Robert W. Jones

### School of Management
- Dean, School of Management: Jonathan Silberman
- Director, Accountancy Program: Ronald Davidson
- Director, Faculty Development: Leanne E. Atwater
- Director, Institute for International Business: Gary Anders
- Director, Master of Business Administration Program: Abagail McWilliams
- Director, Undergraduate Global Business Programs: Roger W. Hutt
