

# Course Prefixes

ASU course prefixes are preceded by a campus code to indicate the campus of the college or school that controls the course content: Downtown Phoenix (D), Polytechnic (E), Tempe (M), and West (W).

See the *Schedule of Classes*, available on the Web at [www.asu.edu/registrar/schedule](http://www.asu.edu/registrar/schedule), to determine locations where classes are scheduled. A class may be scheduled on a campus that does not control the course.

See the “Course Prefixes” tables below for the campus of the college or school responsible for the course and for the

page in this catalog where the courses are listed. Courses numbered below 500 are listed in the *General Catalog*. Courses numbered 500 or higher are listed in the *Graduate Catalog*. For more information, see “Classification of Courses,” page 62.

Information about all courses is available on the Web at [www.asu.edu/aad/catalogs/courses](http://www.asu.edu/aad/catalogs/courses); information on the Web is more current than in the printed catalogs.
