Students in the program begin as accomplished teachers, teacher leaders, principals and superintendents, and edupreneurs or higher education professionals. Through their learning, they deepen their abilities to lead and innovate in educational organizations. The program is not designed to prepare students for academic tenure-track positions.

The cohort-based program begins in summer with an introduction to doctoral studies and the formation of a professional learning community that draws on the strengths of all group members.

Required courses are team-taught by faculty and require students to conduct research in their workplace, laying the foundation for the culminating project: the action research study documented in the dissertation.

Leader-Scholar Communities, formed at the end of the first year and consisting of five to seven students and two faculty members, meet regularly for the second and third years of the program. Students register for required research and dissertation hours as part of the LSC requirement.

Through these LSCs, students support each other, under faculty guidance, in the conceptualization, implementation and study of change initiatives. Students share their research at the end of each semester through roundtables, posters and symposia in a public Research Day.

Successful graduates have made a commitment to continuing systematic study of their professional practice and make a positive difference in their local workplaces putting their research in action. The program aims to enable more thoughtful, intentional and informed leaders, willing and able to implement and study change.

The program will make a difference in the way a student thinks and works as a leader in education, for the immediate and local benefit of school children, adult learners, the student's school or organization, the community and the world.

Degree Requirements: 90 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation (including a Master's degree and 60 credit hours post-Masters).

Professional Core (15)
Research Core (9)
Advanced Professional Studies (15)
Directed Field-based Study (3)
Participation in Leader Scholar Communities (6)
Dissertation (12)

Admission Requirements:

The concentration in leadership of teaching innovation under the EdD in leadership and innovation is no longer accepting applications. Applicants should apply to the EdD in leadership and innovation rather than a specific concentration.

Learning, Literacies and Technologies, PHD (EDCIPHD)

Online Degree Search Title: Learning, Literacies and Technologies (PhD)

Campus: TEMPE

Program Description:

The PhD in learning, literacies and technologies is a scholarly enterprise dedicated to high quality, influential research that transforms education in Arizona, nationally and internationally.

Students will begin researching during their first semester and continue throughout the four-year program. A transdisciplinary team of scholars led by distinguished faculty members will collaborate with doctoral students, individually and in teams, to design powerful studies, implement them in authentic settings, collect and analyze data, write research reports, and present and publish the results.

Academic study and research in the learning, literacies and technologies program focuses on the nature of human learning and literacies across diverse learners and contexts, the use of technologies to support learning, the design of learning environments, and the conditions under which learning occurs.

The program draws from a rich array of theoretical perspectives, research traditions and content disciplines to enable graduates to address the complex nature of research in schools and other educational spaces, and to advance their scholarly contributions to education.

Examples of research arenas to pursue within the program include, but are not limited to, curricula, instruction and software design to enhance learning; examination of formal and informal learning environments to inform the design of learning ecologies for learners of diverse social, cultural and linguistic backgrounds and ability levels; use of technologies and gaming to promote learning; educational interventions and research methodologies; the design and implementation of innovations in how we assess and improve learning opportunities in various subjects; and teacher quality and professional development.

As a future scholar, teacher educator, or researcher, the student will develop areas of emphasis with their major professor and doctoral committee members to work at the cutting edges of educational science, leading the way to innovation and exploration of new technologies and literacies for learning.

Students are expected to engage in the doctoral program on a full-time basis. Funding packages that include a competitive stipend, tuition remission, and health insurance are available. A limited number of additional awards will be available for outstanding candidates. These funding

packages can be renewed each year, if students make satisfactory progress, for a total of four years.

Plan pending final approval.

Degree Requirements: 85 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

core courses (13)
specialization courses (12)
elective or research courses (12)
dissertation (12)
research (3)
internship (3)

Admission Requirements:

Applicants to this program are required to meet Graduate College admission standards and submit the following:

- Graduate College online admissions application
- GRE scores (there is not a minimum requirement)
- application fee
- official transcripts showing a bachelor's and master's degree conferred from a regionally accredited institution
- three email addresses for professional letters of recommendations
- personal statement describing the applicant's interests and reason for seeking this degree
- an academic writing sample
- curriculum vitae

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency. Students must fulfill both the requirements of the Graduate College and the Mary Lou Fulton Teachers College.

Online Teaching for Grades K-12 (certificate), CERT (TEEDTGRCT)

Online Degree Search Title: Online Teaching for Grades K-12 (Grad Certificate)

Campus: ONLNE

Program Description:

The online teaching for grades K-12 graduate certificate program prepares students to teach in an online environment and become leaders in the development, implementation and evaluation of online programs.

The program consists of online courses that prepare K-12 educators for online teaching in technological, pedagogical and content-related areas.

Graduates will be better able to help students understand how various topics within a subject area are effectively represented using technology and pedagogical strategies required to teach these concepts online.

This is accomplished through offering course work that addresses all three domains along with field experience opportunities. Through these experiences, students would be prepared to teach in online and blended educational environments. Students with a bachelor's degree in any field may apply.

Students can concurrently pursue the graduate certificate while enrolled in other graduate programs at ASU.

Degree Requirements: 15 credit hours including the required capstone course (EDT 580).

The certificate requires five courses, each consisting of three credit hours. The culminating experience for this certificate program is an electronic portfolio that will be completed in EDT 580.

Admission Requirements:

Applicants to this program are required to meet Graduate College admission standards and submit the following:

- Graduate College online admissions application
- application fee
- official transcripts showing a bachelor's degree conferred from a regionally accredited institution
- provide three email addresses for professional letters of recommendations
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- Test of English as a Foreign Language (TOEFL) is required for applicants whose native language is not English. Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

GRE scores are not required for admission.

Applicants should have at least one year of K-12 classroom teaching experience and should be able to function successfully in an online environment.

Students must fulfill both the requirements of the Graduate College and those of the Mary Lou Fulton Teachers College.

Physical Education, MPE (ECPHYEDMPE)

Online Degree Search Title: Physical Education - Polytechnic Campus (MPE)

Campus: POLY

Program Description:

The MPE program produces graduates who have current knowledge of curriculum, instructional practices, and administrative procedures in physical education and sport. Emphasis is placed on improving instructional effectiveness and developing quality sport and physical education programs in school settings. The program has routes for those with a teaching certificate in physical education who wish to advance their skills and knowledge, as well as for those with a teaching certificate in a different subject matter who are interested in a K-12 physical education endorsement.

Degree Requirements: 33 credit hours including the required applied project course (PPE 593) and a written comprehensive exam, or 33 credit hours including the required applied project course (PPE 593) and a written comprehensive exam (MIP).

The degree has three tracks.

Physical Education K-12 teaching track:

- core studies (24)
- electives (6)
- applied project (3)

Physical Education pedagogy research track:

- core studies (24)
- electives (6)
- applied project (3)

Physical Education Initial Teacher Certification track:

- core studies (24)
- electives (6)
- applied project (3)
- additional courses for certification

Admission Requirements:

Applicants to this program are required to meet Graduate College admission standards and submit the following:

- Graduate College online admissions application
- application fee
- official transcripts showing a bachelor's degree conferred from a regionally accredited institution
- three email addresses for professional letters of recommendations
- personal statement describing the applicant's interests and reason for seeking this degree

- resume

GRE scores are not required for admission.

NOTE: Additional application materials are required for those applying for the initial teaching certificate track; please see program office for details.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency. Students must fulfill both the requirements of the Graduate College and the Mary Lou Fulton Teachers College.

Secondary Education (Teacher Certification), MEd (TESCERTMED)

Online Degree Search Title: Secondary Education (Teacher Certification) (MEd)

Campus: DTPHX, POLY, TEMPE, WEST

Program Description:

The MEd in secondary education with teacher certification is a specialization designed for those individuals with a bachelor's who want to earn a master's along with Arizona secondary education certification in grades seven to 12, in a specific subject area. Students also receive a Structured English Immersion endorsement. Students may choose one the following delivery modes for which they qualify:

- Intern, Masters and Arizona Certification available to only those students who hold a state intern teacher certificate and are employed as teacher of record in a district, charter or private school (alternative pathways to certification).
- Masters and Arizona Certification consisting of campus-based courses delivered in two academic semesters (evening) along with day time field experience, one summer and one additional academic semester of student teaching.
- TEAMS, an intensive accelerated program for math or science certification with year-long field experience/student teaching requirement.

Degree Requirements: 33 credit hours including the required applied project course (SED 593).

The MEd in secondary education requires an applied project, which is included in the student's plan of study and must be completed during student teaching or apprentice teaching.

Admission Requirements:

Applicants to this program are required to meet Graduate College admission standards and submit the following:

- Graduate College online admissions application
- application fee
- official transcripts showing a bachelor's degree conferred from a regionally accredited institution
- three email addresses for professional letters of recommendations
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- demonstrate mastery of content area the student plans to teach

Students whose native language is not English (regardless of where they may now reside), must provide proof of English proficiency. Acceptable proof is as follows:

- Test of English as a Foreign Language (TOEFL) score of 90 + (Internet-based test) with scores on the speaking and writing portions be in the high "Fair" - "Good" range (22-30)
- TOEFL paper-based test is not accepted
- IELTS overall band score of at least 6.5 with speaking and writing portions needing to be at least 6.5 (6 = Competent User, 7 = Good User)

Students must fulfill both the requirements of the Graduate College and the Mary Lou Fulton Teachers College.

Special Education (Teacher Certification), MEd (TESECRTMED)

Online Degree Search Title: Special Education (Teacher Certification) (MEd)

Campus: DTPHX, POLY, TEMPE, WEST

Program Description:

The MEd in special education with Arizona teacher certification is a specialization designed for those individuals with a bachelor's who want to earn a master's along with dual Arizona certifications in K-12 special education (mild cross-categorical) and grades one to eight elementary education. Students also receive a Structured English Immersion endorsement. Students may choose one the following delivery modes for which they qualify:

- Induction, Masters and Arizona Certification available to only those students who hold a state intern teacher certificate and are employed as

teacher of record in a district, charter or private school (alternative pathways to certification).

- Masters and Arizona Certification consisting of campus-based courses delivered in two academic semesters (evening) along with day time field experience, one summer and one additional academic semester of student teaching.

Degree Requirements: 33 credit hours including the required applied project course (SPE 593).

Students must complete 33 credit hours and an applied project. The applied project is completed during the student teaching or apprentice teaching experience.

Admission Requirements:

Applicants to this program are required to meet Graduate College admission standards and submit the following:

- Graduate College online admissions application
- application fee
- official transcripts showing a bachelor's degree conferred from a regionally accredited institution
- three email addresses for professional letters of recommendations
- personal statement describing the applicant's interests and reason for seeking this degree
- resume

Students whose native language is not English (regardless of where they may now reside), must provide proof of English proficiency. Acceptable proof is as follows:

Technology for Teaching and Learning (certificate), CERT (EDEDTTGRCT)

Online Degree Search Title: Technology for Teaching and Learning (Grad Certificate)

Campus: TEMPE

Program Description:

The graduate certificate in technology for teaching and learning is geared toward classroom teachers who want to become skilled at integrating technology in the curriculum. Students will acquire the knowledge and skills needed to meet the National Education Technology Standards for Teachers, developed by the International Society for Technology in Education and being adopted by the National Council for Accreditation for Teacher Education. All courses will be offered online and face to face. The certificate program can be completed within a two-year period.

The program is not accepting applications at this time. Please see the website for more information: <http://education.asu.edu/programs/graduate-programs> (<http://education.asu.edu/programs/graduate-programs>).

Degree Requirements: 15 credit hours including the required capstone course (EDT 591).

Students must successfully complete four out of a possible six educational technology courses before completing a three-credit required capstone course.

Admission Requirements:

Applications are currently closed.

Technology & Innovation, College of

Agribusiness, MS (AGAGRIBMS)

Online Degree Search Title: Agribusiness (Polytechnic Campus) (MS)

Campus: POLY

Program Description:

The Morrison School of Agribusiness and Resource Management in the College of Technology and Innovation at the Polytechnic campus offers the MS in agribusiness. This degree is designed to prepare students from a variety of backgrounds with a set of critical and analytical business skills, while recognizing the unique demands of the agribusiness and resource management sectors. Graduates are well prepared for successful administrative or managerial careers with either government or private-sector organizations in either field.

Students are able to select either a research-oriented program, which leads to the completion of a supervised thesis, or a program consisting of course work only (nonthesis option). The nonthesis option allows students to develop an area of specialization and apply these skills to a real-world agribusiness problem through an integrative, capstone course experience. Both the thesis and nonthesis options require the completion of a common set of core courses.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required capstone course (AGB 589), or 30 credit hours, a written comprehensive exam and including the required capstone course (AGB 589) (MIP).

Core requirements for this program include 18 credit hours of course work. Thesis students fulfill the remaining 12 credit hours by taking three research credits, six thesis credits and three hours of electives. Nonthesis students fulfill the remaining hours by taking 12 hours of electives.

It is suggested that students take a coherent sequence of courses such as those indicated below, but considerable flexibility is possible based on individual backgrounds and interests.

Thesis and Nonthesis MS in Agribusiness

Semester I

AGB 528 Advanced Agribusiness Marketing (3)

AGB 561 Applied Econometrics (3)

Semester II

AGB 511 Advanced Agribusiness Management (3)

AGB 532 Advanced Agribusiness Finance (3)

AGB 570 Managerial Economics for Agribusiness (3)

Semester III

500-level AGB emphasis electives (6)

AGB 589 Agribusiness Capstone (3)

Semester IV

500-level AGB emphasis or other electives (9)

Thesis Option

AGB 592 Research (3)

AGB 599 Thesis (6)

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate College application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English
- official GRE general exam, Miller Analogies Test or GMAT scores
- statement of purpose*

- current curriculum vitae

(optional) three letters of recommendation

*Note: An explanation of the applicant's basic skills in economics, accounting, statistics, computer use and some experience or knowledge in an area related to agribusiness should be addressed in the statement of purpose.

International applicants can find complete information on the English proficiency exams and other required documents on the Graduate College's website: <http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>).

For best consideration, the deadline is Feb. 1 for fall applications; Oct. 1 for spring applications. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

The Morrison School of Agribusiness and Resource Management awards assistantships to selected candidates. These support ongoing research and teaching activities. The awards are made on the basis of availability and according to the needs of the faculty and interests of the students. Scholarships are also available on a competitive basis for qualified candidates.

Applied Psychology, MS (ECAPSYCHMS)

Online Degree Search Title: Applied Psychology (Polytechnic Campus) (MS)

Campus: POLY

Program Description:

The MS in applied psychology in the College of Technology and Innovation is a two-year program that provides students with opportunities for practical experience in diverse laboratories as well as internships in a variety of settings. The program is hands-on and challenging, and the field is growing quickly, creating opportunities for further study and employment. The areas of application include the following:

- consumer psychology
- human factors
- industrial and organizational psychology
- learning design

Recent graduates are working at places like Intel, Boeing, GoDaddy.com and the Air Force Research Lab. Recipients of our master's degree have also gone on to pursue a doctorate at ASU and other prestigious institutions.

The program offers specialized training to complement the BS in applied psychology in the College of Technology and Innovation.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required applied project course (PSY 593).

This master's requires the completion of 30 credit hours with a grade point average of 3.00 ("B" grades) or higher. Students have the option of doing a thesis or an applied project to develop and demonstrate professional knowledge and skills. Students who plan to go on to a doctoral program are encouraged to complete a thesis.

Students selecting the thesis option will, under faculty supervision, work on the thesis for at least one calendar year. The first three credits will be devoted to developing an idea and preparing a proposal for approval by a faculty committee. The next three credits will allow for preparing the details of research design and data collection for the thesis (materials, computer programs, experimental text beds, questionnaires, etc.). The final six credits will be devoted to collecting and analyzing data and writing and revising the thesis under the direction of the student's committee chair. Students will defend the thesis in an oral examination.

Students selecting the applied project option will, under faculty supervision, allocate the 12 credit hours to a combination of research, practicum, project activities and report writing appropriate to the goals of the student and the program and the availability of practicum or internship opportunities. In all cases, the project will culminate in a substantial written report followed by a comprehensive oral examination covering the project and other materials from required courses.

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate College application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English
- official GRE general exam scores
- statement of purpose describing professional and academic aspirations
- three letters of recommendation from college professors, employers (in a human factors related field) or a combination of both academic and professional references

Note: A bachelor's in psychology or a related field (including engineering, computer science or business) is required.

International applicants can find complete information on the English proficiency exams and other required documents on the Graduate College's website: <http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>). Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

For best consideration, the deadline is Feb. 1 for fall applications; Oct. 1 for spring applications. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Applicants to this program generally have completed an undergraduate course in statistics.

Students must fulfill both the requirements of the Graduate College and those of the College of Technology and Innovation.

Computing Studies, MCSt (TSCOMPMCST)

Online Degree Search Title: Computing Studies - Polytechnic Campus (MCST)

Campus: POLY

Program Description:

The computing faculty of the Department of Engineering offers the MCSt graduate program. The computing studies program is designed for students with the equivalent of a bachelor's in computing and requires 33 credit hours of graduate instruction, including a two-semester culminating experience. The program prepares students with the technical and professional knowledge necessary for career advancement and positions of leadership in computing.

As a discipline, computing is evolving rapidly; the body of knowledge in computer science and software engineering is constantly changing, and the impact computing has on society is growing at an astonishing pace. The program uses project-based, laboratory-rich curriculum to prepare graduates for careers that contribute to computing's disciplinary context.

Master's of computing studies students learn essential skills and obtain experience necessary for success after graduation, including:

- a strong technical foundation
- familiarity with the tools, languages and methods of the profession
- understanding of the concepts and practices underlying software design and construction
- practiced communication and teaming skills
- significant background in at least one computing application area
- practiced communication and teaming skills

Graduates of the program may pursue advanced research degrees in computing, employment or leadership in computing, or pursue careers in computing application areas. The computing faculty are especially strong in enterprise systems, software engineering, visual analytics, computer gaming, embedded systems and mobile computing. In addition to academic credentials, departmental faculty have extensive industry experience.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (CST 593), or 33 credit hours including the required capstone course (CST 517 or CST 518).

The plan of study must contain approved graduate-level course work. The program offers a set of courses that comprise the foundations of

advanced study in computing: software development, communications and teaming, computing research methods, data structures, algorithms and computing language concepts. A student's program of study must include the following core courses that provide the graduate computing foundation:

- CST 500 Research Methods (3)
- CST 501 Advanced Data Structures and Algorithm Analysis (3)
- CST 502 Emerging Language and Programming Paradigms (3)
- CST 515 Software Enterprise: Inception and Elaboration (3)
- CST 516 Software Enterprise: Project and Process Management (3)

CST 500, CST 501 and CST 515 should be taken in the first semester or as early in the student's program as possible.

Students are encouraged to identify four graduate CST computing courses (12 credit hours) of specialization course work that contributes to their individual educational objectives. Of the four, two courses (6 credit hours) may be entry-level graduate courses. Entry-level courses are typically offered as CST 598. Program faculty offer graduate-level courses (5xx-level, formal courses excluding 598) that provide specialized treatment in areas representing faculty research interests.

Students also select one of three culminating experiences (6 credit hours): thesis, applied project or software capstone.

Thesis

Students who select the thesis option develop a project and thesis paper that reflects innovation in a specialization area. The thesis is developed over two successive semesters by registering for three credits of CST 599 Thesis each semester. Before registering for CST 599, the student identifies a faculty committee consisting of a chair in the specialization area and two other members. The committee directs the development of the thesis and gauges its merit at completion.

Applied Project

Students who select the applied project option develop a project and paper that reflects advanced application knowledge in a specialization area. The project is developed over two successive semesters by registering for three credits of CST 593 Project in the first semester and registering for another three credits of CST 593 Project in the second semester. Before registering for the project in the first semester, the student identifies a faculty committee consisting of a chair in the specialization area and two other members. The committee directs the development of the applied project and gauges its merit at completion.

Software Factory (Capstone)

Students who select software capstone formulate an advanced analysis of the software enterprise and participate in a team-based, two-semester software factory experience. Students develop a portfolio demonstrating achievement of learning outcomes. A committee of three faculty provide mentorship and assess student achievement of outcomes. Students take the software capstone in two successive semesters by registering for CST 517 in one semester and registering for CST 518 in the following semester.

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate College application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English
- official GRE general exam scores

(optional) statement of purpose

(optional) two letters of recommendation

International applicants can find complete information on the English proficiency exams and other required documents on the Graduate College's website: <http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>).

For best consideration, the deadline is Feb. 1 for fall applications; Oct. 1 for spring applications. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Admission to the graduate degree program presupposes an adequate technical preparation in a selected technology at the undergraduate level. It is recommended that applicants have completed a bachelor's in computing. Excellent applicants with a partial computing background may be admitted with undergraduate computing deficiencies.

Undergraduate deficiency courses must be completed within the first year of the graduate program while concurrently enrolled in graduate-level course work.

Engineering, MS (TSEGRMS)

Online Degree Search Title: Engineering MS

Campus: POLY

Program Description:

The MS in engineering program consists of a core set of courses designed to develop applied analytical expertise across disciplinary boundaries, with direct applications of advanced design principles to system design, management and control. The expertise developed in the core curriculum is reinforced through focus areas that provide flexibility for the student, including alternative energy, mechanical, electrical and manufacturing engineering. The program incorporates a relevant project, required of all students in this degree program, within the focus area courses. The degree will offer options for students culminating in a master's thesis, an applied project or a capstone project course. Each of these options is designed to engage students with real-world applications of engineering and to develop problem-solving skills.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required Applied Project course (EGR 593) and an Oral Comprehensive Exam, or 30 credit hours including the required Capstone course (EGR 570).

Culminating Experience: EGR 593 Applied Project (3)

core course credit hours (12)
focus area course credit hours (12)
elective course credit hours (3)
as applicable, other requirements: N/A
overall required credit hours (30)

Culminating Experience: EGR 570 Capstone Course (3)

core course credit hours (12)
focus area course credit hours (12)
elective course credit hours (3)
as applicable, other requirements: N/A
overall required credit hours (30)

Culminating Experience: EGR 599 Thesis (6)

core course credit hours (12)
focus area course credit hours (12)
elective course credit hours: N/A
as applicable, other requirements: N/A
overall required credit hours (30)

Admission Requirements:

Program admission requirements include:

minimum of an earned U.S. bachelor's degree or higher from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution that is officially recognized by that country in engineering, physical sciences, mathematics or a similar field
minimum of a 3.00 cumulative GPA (scale is 4.0=A) in the last 60 hours of a student's first bachelor's degree program. Minimum of 3.00 cumulative GPA (scale is 4.0 = A) in the applicable master's degree.

The applicant must have maintained a "B" (3.00 on a 4.00 scale) grade point average in the last 60 semester hours or 90-quarter hours of undergraduate course work. If the applicant does not meet the minimum GPA requirements, the application may still be considered. In certain cases, demonstrated aptitude through professional experience or additional postbaccalaureate education will be considered.

Information Technology, MS (TSIFTMS)

Online Degree Search Title: Information Technology MS

Campus: POLY

Program Description:

Students who select the Master of Science in information technology obtain advanced technology skills that prepare them for careers in industry, education or government. Through the curriculum, graduates design and implement information technology solutions, develop and implement enterprise databases, perform technical analysis of systems and networks, design and create technical graphic and geographic technology solutions, and serve as information technology and communications security experts. The program focuses on developing the ability to conceptualize, organize and realize information technology projects that meet the needs of users within an organizational or societal context. Program course work encompasses core technologies and a specialization area with a culminating project experience.

Degree Requirements: 33 credit hours including the required applied project course (IFT 593).

overall required credit hours (30)

core course credit hours (15)

elective course credit hours (12)

culminating experience: IFT 593 Applied Project (3)

Admission Requirements:

Program admission requirements include:

Minimum of a bachelor's or master's degree in information technology, computer science, applied computing, engineering or a closely-related field, from a regionally accredited college or university

Minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's first bachelor's degree program. Minimum of 3.00 cumulative GPA (scale is 4.00 = A) in the applicable master's degree.

Simulation, Modeling, and Applied Cognitive Science, PHD (TSSMACSPHD)

Online Degree Search Title: Simulation, Modeling, and Applied Cognitive Science (PhD)

Campus: POLY

Program Description:

Simulation, modeling and applied cognitive science describes a growing transdisciplinary field (including the disciplines of psychology, engineering and computer science) that explores how people interact with technological and social systems in contexts that include transportation, medicine, military, computing and other complex systems. Cognitive science provides the foundation necessary for integrating human capabilities and limitations into complex sociotechnical systems (i.e., the practice of cognitive engineering), and the application of cognitive science relies heavily on simulation and modeling methods.

A large domain exists in which coupling applied cognitive science with simulation and modeling is imperative. Examples include the following:

- development of intelligent agents
- driving simulators for research on driver distraction
- dynamical systems models of team interaction
- gaming simulators for studying business decision-making
- human-in-the-loop simulation studies of cybersecurity analysis
- models of cognitive states and processes or sociocultural systems
- medical simulation for health care research
- nuclear control room simulation for improved human system integration
- pilot training research using aircraft simulators
- tests of future airspace control concepts using air traffic control simulators

This PhD is designed to produce individuals who are well-grounded in simulation, modeling and cognitive science and skilled in its methods. Employers (e.g., Department of Defense, Federal Aviation Administration, Nuclear Regulatory Commission, hospitals, etc.) have an ever-increasing demand for personnel who can bridge the gap between rigorous science and solutions to real-world problems. The doctorate will provide transdisciplinary, research-driven training in the computing, engineering, technology, applied cognitive science and human systems integration.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students will work with a committee of at least three faculty members to design a program of study tailored to the student's interests and background. There will be considerable flexibility in setting the plan of study, but it must include a minimum number of credit hours in the areas of foundations, tools and methods, applications, research and scholarship. The program should also aim for an interdisciplinary education by including work in various disciplines. The degree requires 84 credit hours, with up to 30 credit hours accepted from a previously awarded master's. Electives can be chosen to provide additional breadth or depth, depending on the student.

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate College application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English
- official GRE general exam scores
- statement of research interests
- three letters of recommendation

Note: A master's in psychology, engineering, cognitive science, computer science or closely related field is required.

International applicants can find complete information on the English proficiency exams and other required documents on the Graduate College's website: <http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>).

For best consideration, the deadline is Feb. 1 for fall applications. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Admission to the graduate degree program presupposes an adequate technical preparation in statistics, cognitive science and software programming. Applicants who lack some of the required preparation still may be admitted but assigned deficiency courses, which must be completed within the first semester of starting the graduate program while concurrently enrolled in graduate-level course work. Deficiencies courses are assigned after admission is granted but before the start of the student's first semester. A faculty member will notify students with deficiencies and the specific course requirements via email.

Software Engineering, MS (TSSERMS)

Online Degree Search Title: Software Engineering MS

Campus: POLY

Program Description:

The MS in software engineering degree program focuses on developing advanced knowledge and abilities in the design and application of software.

Students will learn to apply engineering principles to software development, including design methodologies, operation principles and maintenance and testing approaches. The program is aimed at developing professional skills in this discipline as well as providing opportunities for students to engage in research and develop research abilities.

Degree Requirements: 33 credit hours including the required applied project course (CST 517 and CST 518), or 33 credit hours including the required applied project course (CST 593 and CST 517), or 33 credit hours including the required applied project course (OMT 593).

overall required credit hours (33)

core course credit hours (15)

elective course credit hours (12)

culminating experience (three options; each combination totals 6 credit hours):

capstone course requirements: Capstone I - CST 517 (3) and Capstone II - CST 518 (3)

applied project course requirements: CST 517 (3) and CST 593 (3)

thesis course requirement: CST 599 (6)

Admission Requirements:

Program admission requirements include:

minimum of a bachelor's or master's degree in information technology, computer science, applied computing, engineering or a closely related field, from a regionally accredited college or university (or international equivalent)

minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's first bachelor's degree program. Minimum of 3.00

cumulative GPA (scale is 4.00 = A) in the applicable master's degree, if appropriate

Technology (Alternative Energy Technologies), MSTech (TSATMSTECH)

Online Degree Search Title: Alternative Energy Technologies (MSTech)

Campus: POLY

Program Description:

The MSTech concentration in alternative energy technologies provides students with graduate level expertise in alternative energy technologies that will provide energy resources in the global economy. The program is flexible and permits students to develop a program of study, with faculty approval, to meet their individual career goals.

The program provides a hands-on research experience in the alternative energy technologies field. Topics for master's theses and applied projects include: the use of energy sources such as solar, wind, ocean, geothermal and biomass; the solar-hydrogen cycle, a renewable energy scenario that relies on production of hydrogen from solar energy; and energy conversion and distribution in a "smart electrical grid." The required research provides students with an opportunity to develop special research and application skills directly related to individual needs and objectives in the field of alternative energy technologies.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (EST 593).

Thesis Option

Concentration (15-16)

Supporting Area (8-9)

Research methods courses:

EST 500 Research/Writing (2)

EST 591 Graduate Seminar (1)

EST 599 Thesis (6)

At least nine hours of 500-level course work must be included in the technical concentration. Students may take up to six credit hours of 400-level course work to broaden their technical knowledge within the concentration or supporting area. Students are required to complete six hours of EST 599 Thesis, write a thesis and make an oral defense. All course work applied toward the minimum 33-credit-hour total must be at the 400 and 500

levels.

Nonthesis Option

Concentration (15-18)

Supporting Area (9-12)

Research Methods Courses:

EST 500 Research/Writing (2)

EST 591 Graduate Seminar (1)

EST 593 Project (3)

At least nine hours of 500-level course work must be included in the technical concentration. A maximum of three credit hours of EST 593 Applied Project may be applied toward the 20-credit-hour, 500-level minimum. Additional background deficiency hours may be required. All course work outside the Department of Engineering Technology must be preapproved by the department chair.

A final oral defense of the applied project is required. A copy of the applied project report or thesis must be submitted before the candidate is eligible for this examination.

Plan of Study

Course work: The student selects a concentration and supporting area, as well as a subset of courses from each area. Specifically, five to six courses are selected from the concentration area and three or four are selected from the supporting area. Early in the program, the student identifies an advisor for the major who is a faculty member of the department interested in the selected area of concentration. The student works with the advisor and committee to develop the program of study and, subsequently, to carry out the research component of the program.

Research: Each student is required to complete an applied project or thesis within the student's area of emphasis as a part of the degree program. The applied project includes a written report.

Research Activity: Research activities in the Department of Engineering Technology include systems, circuit applications and digital design. MSTech candidates will find a broad range of research that can lead to an applied project or thesis.

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate College application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English
- official GRE general exam scores
- statement of purpose*
- current resume

(optional) three letters of recommendation

*Note: A bachelor's that includes a minimum of 30 credit hours or equivalent in a technology area including course work applicable to the concentration being sought and a minimum of 16 credit hours of mathematics and science is required.

International applicants can find complete information on the English proficiency exams and other required documents on the Graduate College's website: <http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>).

For best consideration, the deadline is Feb. 1 for fall applications; Oct. 1 for spring applications. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Undergraduate deficiency courses must be completed within the first year of the graduate program while concurrently enrolled in graduate-level course work.

Technology (Aviation Management and Human Factors), MSTech (TSHFMSTECH)

Online Degree Search Title: Aviation Mgmt/Human Factors (MSTech)

Campus: POLY

Program Description:

The MSTech program offers a concentration in aviation management and human factors in the Department of Technological Entrepreneurship and Innovation Management within the College of Technology and Innovation. The program focus is on preparing graduates for a career in the aviation industry and can serve as the foundation for further advanced study. Courses are offered at the Polytechnic campus, with some courses offered online. Graduates of this program are provided with technical and professional skills for use in leadership positions in the aviation industry.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (AMT 593).

The following are the core requirements for meeting the department's goal to provide an in-depth research and statistics background early in the program, as a foundation for the student's thesis or applied project. The comprehensive elective curriculum design will offer courses that reflect current and applied topics.

Core Requirements

Course selection must include the following core courses:

- OMT 504 Law and Ethics for Technical Professionals (3)
- OMT 549 Research Methods or equivalent (3)
- PSY 530 Intermediate Statistics (3)

Students have a choice of selecting a thesis option (nine credit hours of core courses plus 18 credit hours of selected course work) or an applied project option (nine credit hours of core courses plus 21 credit hours of selected course work). The detailed design of the graduate student's total program requirements (33 credit hours) with the selection of the required courses will be the responsibility of the student along with the supervisory committee chair and committee members. The defining guideline for the department will be to match the student's specific career goals and objectives to a balanced curriculum that can be achieved in a reasonable time and in accordance with a known course-offering schedule.

Additional Requirements

Eighteen credit hours are required for the thesis option and 21 credit hours for the applied project option.

- AMT 522 Aviation Law (3) (spring offering)
- AMT 523 Intermodal Transportation Management (3) (summer offering)
- AMT 525 Airport Planning and Design (3) (spring offering)
- AMT 526 Aviation Labor Relations (3) (fall offering)
- AMT 527 Airline Management Strategies (3) (fall offering)
- AMT 541 Aviation Physiology (3) (fall offering)
- AMT 546 Crew Resource Management/LOFT (3) (spring offering)

All master's courses will be 500-level courses. A single course exception (400-level course) may be authorized with the consensus of the supervisory committee. Students in this graduate program also have the opportunity to enroll in Operations Management Technology and Cognitive Science and Engineering graduate courses. Aviation students must take at least five AMT graduate courses.

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate College application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English
- official GRE general exam scores
- statement of purpose
- current resume
- three letters of recommendation

International applicants can find complete information on the English proficiency exams and other required documents on the Graduate College's website: <http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>).

For best consideration, the deadline is Feb. 1 for fall applications; Oct. 1 for spring applications. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Admission to the graduate degree program presupposes an adequate technical preparation in a selected technology at the undergraduate level. The applicant's past work and professional experience are also evaluated and taken into consideration. Undergraduate course work of admitted applicants to this program generally include calculus and statistics.

Technology (Electronic Systems Engineering Technology), MSTech (TSSYMSTECH)

Online Degree Search Title: Electronics Engineering Technology (MSTech)

Campus: POLY

Program Description:

The MSTech with a concentration in electronic systems provides students with graduate level expertise in the technology of electronics and its application at a system level. The program is flexible and permits students to develop a program of study, with faculty approval, to meet their individual career goals. The student selects a combination of courses in a technical concentration and supporting area. The program provides students with an opportunity to conduct research either as a master's thesis or as an applied project. This research experience will develop special research and application skills directly related to individual needs and objectives.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (EST 593 or EET 593).

The degree requirements for the master's with a concentration in electronic systems engineering technology offered by the Department of Engineering Technology include:

Thesis Option

Concentration (15-16)
Supporting Area (8-9)
Research Methods Courses:

EST 500 Research/Writing (2)
EST 591 Graduate Seminar (1)
EST 599 Thesis (6)

At least nine hours of 500-level course work must be included in the technical concentration. Students may take up to six credit hours of 400-level course work to broaden their technical knowledge within the concentration or supporting area. Students are required to complete six hours of EST 599 Thesis, write a thesis and make an oral defense. All course work applied toward the minimum 33 credit hours total must be at the 400 and 500 levels.

Nonthesis Option

Concentration (15-18)
Supporting Area (9-12)
Research Methods Courses:

EST 500 Research/Writing (2)
EST 591 Graduate Seminar (1)
EST 593 Applied Project (3)

At least nine hours of 500-level course work must be included in the technical concentration. A maximum of three credit hours of EST 593 Applied Project may be applied toward the 20-credit-hour, 500-level minimum. Additional background deficiency hours may be required. All course work outside the Department of Engineering Technology must be preapproved by the department chair.

A final oral defense of the applied project is required. A copy of the applied project report or thesis must be submitted before the candidate is eligible for this examination.

Plan of Study

Course work: The student selects a concentration and supporting area, as well as a subset of courses from each area. Specifically, five to six courses are selected from the concentration area, and three or four are selected from the supporting area. Early in the program, the student identifies a major advisor, who is a faculty member of the department interested in the selected area of concentration, and a committee. The student works with the major advisor and committee to develop the program of study and subsequently to carry out the research component of the program.

Research: Each student, as a part of the degree program, is required to complete an applied project or thesis within the student's area of emphasis. The applied project includes a written report.

Research Activity: Research activities in the Department of Engineering Technology include systems, circuit applications and digital design. Candidates will find a broad range of research that can lead to an applied project or thesis.

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate College application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English
- official GRE general exam scores
- statement of purpose

Technology (Environmental Technology Management), MSTech (TSMGMSTECH)

Online Degree Search Title: Environmental Tech Mgmt (Polytechnic Campus) (MSTech)

Campus: POLY

Program Description:

The MSTech with a concentration in environmental technology management provides three areas of study:

- emergency management
- environmental management
- international environmental management

Face-to-face classes are scheduled to accommodate working professionals and minimize disruption of work schedules by meeting six times a semester on alternating Friday and Saturday evenings, and Web-based classes are offered as well. A completely Web-based distance learning program is also available. Although all classes can be done at a distance, the program is categorized as campus-based.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (ETM 593).

Concentration area course work includes 12 credit hours of core classes and 15 credit hours of approved electives in addition to six credit hours of

thesis (ETM 599) or applied project (ETM 593) and research (ETM 592).

Applied Project Option

Core Courses (12)
Approved Electives (15)
Research (3)
Applied Project (3)

Thesis Option

Core Courses (12)
Approved Electives (15)
Thesis (6)

Supporting course work includes the following areas of study:

- air pollution
- comprehensive emergency management
- environmental chemistry
- environmental risk assessment
- homeland security
- international environmental law
- international environmental management
- principles of hazardous materials and waste
- soils and groundwater contamination
- sustainability and sustainable development
- sustainable solid waste management
- terrorism, weapons of mass destruction and current issues
- water and wastewater treatment technologies

Accelerated Degrees:

This degree is also offered as an accelerated degree with Environmental and Resource Management, BS
Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate College application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English
- official GRE general exam scores
- statement of purpose (maximum of 600 words)
- current resume

(optional) three letters of recommendation

International applicants can find complete information on the English proficiency exams and other required documents on the Graduate College's website: <http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>). Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

For best consideration, the deadline is Feb. 1 for fall applications; Oct. 1 for spring applications; April 15 for summer applications. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Admission to the graduate degree program presupposes an adequate preparation in a selected technology at the undergraduate level. The applicant's past work and professional experience are also evaluated and taken into consideration.

Undergraduate course work of admitted applicants to this program generally includes chemistry, precalculus and statistics. Deficiencies for admission to the graduate degree program, if any, are specified at the time of admission.

Undergraduate deficiency courses must be completed within the first year of the graduate program while concurrently enrolled in graduate-level course work.

Students must fulfill both the requirements of the Graduate College and those of the College of Technology and Innovation.

Technology (Global Technology and Entrepreneurship), MSTech (TSGEMSTECH)

Online Degree Search Title: Technology (Global Technology and Entrepreneurship) MSTech

Campus: ONLNE, POLY

Program Description:

The MSTech in technology with a concentration in global technology and entrepreneurship prepares graduates for entrepreneurial and intrapreneurial roles in global technology-driven organizations. The global technology and entrepreneurship program encompasses technology management and use of technology within a process by which identification and evaluation of opportunities and business systems advances knowledge via entrepreneurship to create value. Global technology and entrepreneurship graduates can serve as enablers in the implementation of their organization's strategy. Graduates of the program will be able to critically assess and solve problems while they contribute to and utilize their knowledge and applied learning experience towards strategic management of technology; entrepreneurship and innovation; strategic adoption and use of technology; analysis and modeling of systems; identification, testing and acceleration of adoption of new business and manufacturing processes; evaluation and adoption of global best practices and utilization of knowledge management techniques. Project-based experiential learning is used in all face to face, hybrid and online courses.

Degree Requirements: 33 credit hours including the required applied project course (OMT 593).

core course credit hours (9)

elective course credit hours (6)

additional concentration course (restricted electives) credit hours (15)

culminating experience: OMT 593 Applied Project (3)

overall required credit hours (33)

Admission Requirements:

In addition to the university requirements, the program admission requirements include:

an appropriate technical, science or business baccalaureate degree from an accredited college or university a minimum of 30 credit hours in technology, science and mathematics or their equivalents, with a grade "C" or better in each course completion of an undergraduate college-level statistics and probability course with a grade of "B" or better completion of an undergraduate college-level technical writing and communications course with a grade "B" or better a minimum undergraduate grade point average of 3.0 on a 4.0 point scale for the last 60 credit hours of undergraduate study GRE test a letter of application a current resume three letters of recommendation, either academic or professional Industrial or business experience beyond completion of a baccalaureate degree is strongly recommended. Graduate work presupposes an adequate technical preparation in a selected technology at the undergraduate level. Undergraduate deficiencies for admission to the graduate program, if any, will be specified at the time of admission and tracked by the academic unit. The applicant's past work and professional experience will also be evaluated and taken into consideration in the admission decision.

Technology (Graphic Information Technology), MSTech (TSGIMSTECH)

Online Degree Search Title: Graphic Information Technology (MSTech)

Campus: ONLNE, POLY

Program Description:

The MSTech with a concentration in graphic information technology provides students with the opportunity to study in the various areas of the

graphics industry. These areas include the following:

- 3-D modeling
- animation
- commercial photography and technical imaging
- multimedia
- variable data digital printing and publishing
- Internet and Web development

The courses offered in this degree program provide students with a working knowledge of the technology and management required of the global cross media graphics industry. This program focuses on cross media publishing and graphic imaging and is not a traditional information technology, computer science, computer information systems or information systems management program. The addition of e-media channels such as the searchable Web, tablet, smart mobile cell, social media, digital print, etc., has created new opportunities in the global industry. Changes and developments in communications technology affect everyone in the value chain to include the following: publishers, designers, premedia houses, printers and Web and multimedia developers.

The degree program has two campus options: ASU Online or Polytechnic campus. Either campus program can be done completely at a distance. It is recommended that applicants inquire about differences in the two campus options before applying. The applicant chooses the campus when completing the online Graduate College application. The campus cannot be changed once selected.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (TMC 593 or GIT 593).

Students are required to complete a minimum of 33 credit hours of graduate course work. Of the total 33 hours, a minimum of 27 credit hours must be 500-level courses and part of the approved program. Additional courses may be assigned by the faculty supervisory committee, depending on the background of the candidate. The minimum degree requirements are as follows:

Applied Project Option

- technical area of emphasis (18)
- supporting area (9)
- research methods course (3)
- applied research project (3)

Thesis Option

- technical area of emphasis (18)
- supporting area (9)
- thesis (6)

Most graduate degree students in this program elect to do an applied project rather than a thesis. The applied project generally allows the student to thoroughly explore a graphics related problem and demonstrate knowledge of the problem, solutions for the problem and suggestions for further explanation of the problem. Students in the ASU Online campus program must select the applied project option.

Courses within the various graphics areas are taught on a rotating basis. The most frequently offered courses are listed below. (598 designates university omnibus classes)

- GIT 500 Research Methods (3)
- GIT 537 Current Issues in Quality Assurance (3)
- GIT 538 Personnel Development for the Graphics Industry (3)
- GIT 540 Cross-Media Design Solutions (3)
- GIT 542 Information Design and Usability (3)
- GIT 584 Internship (3)
- GIT 590 Reading and Conference (3)
- GIT 598 Advanced Internet Programming (3)
- GIT 598 Color Reproduction Systems (3)
- GIT 598 Current Trends in Cross Media Research (3)
- GIT 598 Digital Workflow in Graphic Industries (3)
- GIT 598 Graphic Industry Business Practices (3)
- GIT 598 Multimedia Authoring, Scripting and Production (3)
- GIT 598 Web Management and E-Commerce (3)
- GIT 598 Website Design and Internet/Web Technologies (3)

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Applied Science (Graphic Information Technology), BAS

Applied Science (Internet & Web Development), BAS

Graphic Information Technology, BS

Graphic Information Technology (Gaming), BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate College application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English (regardless of where they may now reside)
- official GRE general exam scores
- statement of purpose (letter of application)
- current resume

(optional) two letters of recommendation

International applicants can find complete information on the English proficiency exams and other required documents on the Graduate College's website: <http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>).

For best consideration, the deadline is Feb. 1 for fall applications; Oct. 1 for spring applications; April 15 for summer applications. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Admission to the graduate degree program presupposes an adequate technical preparation in a selected technology at the undergraduate level. The applicant's past work and professional experience are also evaluated and taken into consideration.

Undergraduate course work of admitted applicants to this program generally include precalculus and statistics. Deficiencies for admission to the graduate degree program, if any, are specified at the time of admission and must be completed within the first year of the graduate program while concurrently enrolled in graduate-level course work.

Students must fulfill both the requirements of the Graduate College and those of the College of Technology and Innovation.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Technology (Integrated Electronic Systems), MSTEch (TSESMSTECH)

Online Degree Search Title: Integrated Electronic Systems (MSTECH)

Campus: POLY

Program Description:

The MSTEch with a concentration in integrated electronic systems provides students with graduate-level expertise in the processes and technology used to develop, design, manufacture and exploit integrated electronic functions on silicon, in packages and on boards. The program is flexible and permits students to develop a program of study, with faculty approval, to meet their individual career goals.

The program provides hands-on laboratory experience in integrated circuit device fabrication and manufacturing in a setting that emulates the real industry. The program provides students with an opportunity to conduct research either as a master's thesis or as an applied project. Students can develop special research and application skills directly related to individual needs and objectives in the field of microelectronics. Topics for thesis and project work include circuit applications; digital design; microelectronics and integrated electronic systems, including design and device processing and fabrication; silicon device packaging; board-level design; and application of integrated electronics functions.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (EST 593).

Thesis Option

concentration (15-16)

supporting area (8-9)

research methods courses:

EST 500 Research/Writing (2)

EST 591 Graduate Seminar (1)

EST 599 Thesis (6)

A minimum of 20 credit hours must be 500-level courses. At least nine hours of 500-level course work must be included in the technical concentration. Students may take up to six credit hours of 400-level course work to broaden their technical knowledge within the concentration or supporting area. Students are required to complete six hours of EST 599 Thesis, write a thesis and hold an oral defense. All course work applied toward the minimum 33 credit hour total must be at the 400 and 500 levels.

Nonthesis Option

concentration (15-18)

supporting area (9-12)

research methods courses:

EST 500 Research/Writing (2)

EST 591 Graduate Seminar (1)

EST 593 Project (3)

At least nine hours of 500-level course work must be included in the technical concentration. A maximum of three credit hours of EST 593 Applied Project may be applied toward the 20-credit-hour, 500-level minimum. Additional background deficiency hours may be required. All course work outside the Department of Engineering Technology must be preapproved by the department chair.

A final oral defense of the applied project is required. A copy of the applied project report or thesis must be submitted before the candidate is eligible for this examination.

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate College application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English
- official GRE general exam scores
- statement of purpose
- current resume

(optional) three letters of recommendation

Note: A bachelor's that includes a minimum of 30 credit hours or equivalent in a technology area including course work applicable to the concentration being sought, and a minimum of 16 credit hours of mathematics and science is required.

International applicants can find complete information on the English proficiency exams and other required documents on the Graduate College's website: <http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>).

For best consideration, the deadline is Feb. 1 for fall applications; Oct. 1 for spring applications. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Undergraduate deficiency courses must be completed within the first year of the graduate program while concurrently enrolled in graduate-level course work.

Technology (Management of Technology), MSTech (TSMRMSTECH)

Online Degree Search Title: Management of Technology (MSTech)

Campus: POLY

Program Description:

The MSTech with a concentration in management of technology prepares students for leadership roles as technically proficient professionals in technology-driven organizations, whether private or public. Students are prepared to successfully transition into leadership positions in their field of expertise and to move into a general leadership role outside their area of technical expertise as their careers grow.

This degree program is open to individuals with a technical undergraduate degree who wish to develop their leadership and management skills to complement their technical expertise. The curriculum is tailored to the needs of the student, ensuring each student obtains basic leadership and management skills.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (TMC 593).

It is expected that graduates of the program possess skills in research and the ability to apply these research skills in practice. To achieve this goal, each student is required to complete OMT 549 Research Techniques and either TMC 593 Applied Project or TMC 599 Thesis.

Additionally, each student is required to select four courses (12 credit hours) from the following list:

OMT 503 Marketing Management
OMT 504 Law and Ethics for Technical Professionals
OMT 540 International Management
OMT 548 Statistical Methods for Research
OMT 550 Industrial Training and Development
OMT 552 Global Management Philosophies
OMT 592 Research (1-3)
OMT 598 ST: Advanced Operations Topics
OMT 598 ST: Advanced Quality Topics
OMT 598 ST: Forecasting and Evolution of Technology
OMT 598 ST: Simulation of Operations
TMC 584 Internship (1-3)

Graduate courses from other majors may be selected with approval from the student's graduate advisory committee. These additional courses are selected to support the student's individual career goals and perceived needs. If selecting the thesis option, courses are chosen to support the student's research topic and research methods. To ensure that all courses taken will fit into the plan of study, all students are expected to discuss their tentative plan with their program advisor prior to registering for their first class, and must have an approved plan of study on file by the completion of nine credit hours toward the degree.

Students without a statistics course at the undergraduate level will be required to complete an appropriate course during the first semester in the program. This course will be in addition to the other requirements for the degree. Additional courses may be required to fulfill deficiencies, based on a review of the applicant's transcripts. Please contact the department for more information.

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate College application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English
- official GRE general exam scores
- statement of purpose
- current resume
- three letters of recommendation

International applicants can find complete information on the English proficiency exams and other required documents on the Graduate College's website: <http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>). Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

For best consideration, the deadline is April 1 for fall applications; Oct. 1 for spring applications. Late applications may still be considered for the
Academic Catalog Archive 2013-2014 638

same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Admission to the graduate degree program presupposes an adequate technical preparation in a selected technology at the undergraduate level. The applicant's past work and professional experience are also evaluated and taken into consideration. Industrial experience beyond completion of a bachelor's is strongly recommended.

Undergraduate course work of admitted applicants to this program generally include calculus, technical writing and statistics. Students without a statistics course at the undergraduate level will be assigned a statistics deficiency course. This course will be in addition to the other requirements for the degree. Additional courses may be required to fulfill deficiencies, based on a review of the applicant's transcripts. Deficiency courses must be completed within the first year of the graduate program while concurrently enrolled in graduate-level course work.

Students must fulfill both the requirements of the Graduate College and those of the College of Technology and Innovation.

Technology (Manufacturing Engineering Technology), MSTech (TSMFMSTECH)

Online Degree Search Title: Manufacturing Engineering Technology (MSTech)

Campus: POLY

Program Description:

Manufacturing is in a period of dramatic transformation. Future manufacturing will involve a global supply network to enable innovation, design, and integration of products and services. At its core, manufacturing engineering is about creating and delivering products and services that have value to customers and society.

The MSTech with a concentration in manufacturing engineering technology provides students with graduate level expertise in the technologies and processes integral to this transformation. The program is flexible and permits students to develop a program of study, with faculty approval, to meet their individual career goals. Students can select a technical focus in manufacturing processes, management or automation. The degree concentration is designed to provide graduates with technical and professional skills that will facilitate preparation for, and advancement in, leadership positions in industry, education, government and military. Laboratories and classrooms are well equipped, and the faculty members teaching the classes have relevant teaching, research, industry, and training experience and background.

Entry into the program requires that the student have a sound technical undergraduate degree, but not necessarily in manufacturing engineering.

Research Activity

The program provides students with an opportunity to conduct research either as a master's thesis or as an applied project. Program faculty are engaged in theoretical and applied research projects, involving undergraduate and graduate students in manufacturing related projects. Graduate students employed in local industry are encouraged to develop research topics that address problems of interest to their employers. Current research interests of the faculty include:

- machinability and manufacturing processes
- manufacturing
- manufacturing cost economics
- modeling and simulation

Theses and applied projects are supported by a number of well-equipped laboratories and facilities:

- automation laboratory
- composite materials laboratory
- computer numerical control machining center laboratory
- computer-aided design and computer-aided manufacturing laboratory
- energy conversion and combustion laboratory
- welding and casting laboratory

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (MET 593).

All course work applied toward the minimum 33-credit-hour total must be at the 400 level or higher with a grade of "B" (3.00) or higher. A maximum of six credit hours of 400-level course work may be included in the student's plan of study. An oral defense of the written applied or research project (thesis) is required as the final examination in either option. This defense is typically done during the last semester of study. All course work outside the Department of Engineering Technology must be preapproved and on the plan of study.

Thesis Option

In the thesis option, a minimum of 27 credit hours must be 500-level courses, allowing students to take up to six credit hours of 400-level course work to broaden their technical knowledge within the technical concentration or a supporting area. The course work may be a combination of manufacturing, mechanical or aeronautical engineering technology courses, or a limited number from outside the department. Students are required to complete six credit hours of MET 599 Thesis, write a thesis and present an oral defense.

Thesis Option

technical concentration area (18)

supporting area (6)

research methods courses:

EST 500 Research Writing (2)

EST 591 Research Seminar (1)

MET 599 Thesis (6)

Applied Project Option

In the applied project option, a minimum of 27 credit hours must be 500-level courses, allowing students to take up to six credit hours of 400-level course work to broaden their technical knowledge within the technical concentration or a supporting area. The course work may be a combination of manufacturing, mechanical or aeronautical engineering technology courses or a limited number from outside the department. The applied project requires a supporting report; the project and report are defended in a final oral examination.

Applied Project Option

technical concentration area (18)

supporting area (9)

research methods courses:

EST 500 Research Writing (2)

EST 591 Research Seminar (1)

MET 593 Applied Project (3)

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

Technology (Mechanical Engineering Technology), MSTech (TSMHMSTECH)

Online Degree Search Title: Mechanical Engineering Technology (MSTech)

Campus: POLY

Program Description:

The MSTech with a concentration in mechanical engineering technology provides students with graduate level expertise in the technologies and processes integral to the design and implementation of mechanical systems, in both high-tech engineering settings such as automotive and aeronautics, as well as in settings that address problems in the developing world. The program is flexible and permits students to develop a program of study, with faculty approval, to meet their individual career goals. Students can select from the following focus areas: aeronautical, engineering for the developing world, automotive and automation.

The degree concentration is designed to provide graduates with technical and professional skills that will facilitate preparation for, and advancement in, leadership positions in industry, education, government and military. Laboratories and classrooms are well equipped, and the faculty members teaching the classes have relevant teaching, research, industry, and training experience and background.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (MET 593).

All course work applied toward the minimum 33-credit-hour total must be at the 400 level or higher with a grade of "B" (3.00) or higher. Undergraduate Programs

Minors (Program Descriptions and Requirements)

African and African American Studies Minor (LAAFRMIN)

Campus: TEMPE

Description:

The African and African-American studies program offers an interdisciplinary examination of the many ways in which African and African-descended peoples have created robust lives for themselves and, in turn, contributed to the creation of the modern world.

The program's mission is advanced by its core undergraduate curriculum and certificate and minor programs that examine the culture, arts, history, politics, economics and current status of African Americans, Africans and the African Diaspora, especially in the Caribbean, Central America and South America.

The curriculum combines a research-based understanding of the humanities, social and behavioral sciences and the arts with practical applications (internships, community or civic engagement, and research projects), to prepare students for lifelong learning, advanced study in a variety of fields and successful careers and productive public service in an increasingly diverse society, especially in Arizona.

Program Requirements:

Students will be required to complete 18 credit hours. Six credits will be prescribed core and the remaining 12 elective credit hours will be selected from any of the program prefixes: AFH, AFR, AFS.

Required Core Course:

AFS 200 Introduction to African and African Diaspora Studies (3)

Elective Core Course (3):

students must select one of the following courses:

AFH 300 Precolonial Africa (3)

AFH 305 The Global History of the Trans-Atlantic Slave Trade (3)

AFS 301 Race and Racism in Africa/African Diaspora (3)

AFS 302 History of Black Women in America (3)

Elective Courses:

The remaining 12 hours will be completed by selecting courses not taken to fulfill the six required hours and will be selected from any of the program prefixes: AFH, AFR, AFS.

At least 12 of the 18 credit hours must be upper-division courses (300 or higher). All courses must have a "C" (2.00) grade or higher. No course may be used to satisfy more than one requirement in the minor.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

American Indian Studies Minor (LAAISMIN)

Campus: TEMPE

Description:

The minor in American Indian studies is designed for students interested in developing an understanding of American Indian issues and analyzing issues through critical inquiry.

Program Requirements:

Eighteen credit hours are required, including AIS 180, 285 and 380 and three additional upper-division courses. No pass/fail or credit/noncredit course work may be applied to the minor. A minimum of nine hours must be in-resident credit from the College of Liberal Arts and Sciences. Students must receive a minimum grade of "C" (2.00 on a scale of 4.00) for all courses in the minor and meet all course eligibility requirements.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

American Studies Minor (ASAMSMIN)

Campus: WEST

Description:

The American studies minor offers students the opportunity to pursue an interest in the interdisciplinary study of American culture. This interdisciplinary minor is particularly appropriate for students majoring in one of the humanities or social sciences disciplines.

Program Requirements:

The American studies minor consists of 18 credit hours, 12 of which must be upper division (300 or 400 level).

The following courses are required:

AMS 201 American Style, L (3)
AMS 330 Documenting American Lives, HU, C (3)
ETH 310 Critical Research Methods, SB (3)

choose one from the following:

HST 109 United States to 1865, HU or SB, H (3) OR
HST 110 United States Since 1865, SB, H (3)

Supporting Courses:

Two courses with substantial American content that must be approved by the American studies advisor. (6)

Enrollment Requirements:

Students wishing to pursue the American studies minor should consult an academic advisor in the unit offering that minor to ensure the appropriate set of courses is taken. The student should also consult an academic advisor in the college, division or department of his or her major to ensure the minor is recognized and to have the minor added to the program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Please

contact the division for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Anthropology Minor (LAASBMIN)

Campus: TEMPE

Description:

The minor in anthropology provides students with a great deal of flexibility in selecting courses. The program has been designed to allow students to focus on areas within the discipline that articulate well with their major. All students interested in the anthropology minor are encouraged to discuss the options available with a School of Human Evolution and Social Change undergraduate advisor.

Program Requirements:

The anthropology minor requires a minimum of 18 credit hours.

Two of the introductory courses from ASB 102, ASM 104 and ASB 222 (or 223) are required. However, the particular introductory courses selected may limit the anthropology courses available in the upper division.

Twelve credit hours must be upper division and represent at least two of the three subfields of anthropology.

The three subfields are:

- archaeology
- physical anthropology
- sociocultural anthropology (with linguistics)

The courses chosen to represent two of the three subfields must be drawn from the distribution requirements of those two subfields.

A minimum grade of "C" (2.00 on a scale of 4.00) is required for all courses taken for the minor in anthropology.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Applied Biological Sciences Minor (TSABSMIN)

Campus: POLY

Description:

Applied biological sciences offers rigorous and practical programs in applications of the biological sciences. Consistent with a polytechnic vision, this minor involves extensive student interaction with faculty through experience-based learning activities, including:

- faculty-guided research and service-learning projects
- field trips
- internships
- laboratories

Mastery of fundamental biological principles is emphasized through quality learning in the classroom and hands-on activities in laboratories and in outdoor settings that include the Sonoran Desert, surrounding ecosystems and the landscape of the greater Phoenix area.

Program Requirements:

The applied biological sciences minor consists of 23 credit hours, including:

BIO 181 General Biology I (4)

BIO 182 General Biology II (4)

At least 15 hours must be selected with the approval of an advisor.

At least nine hours must be in upper-division courses offered by the applied biological sciences program.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Applied Psychology Minor (ECPSYMIN)

Campus: POLY

Description:

Applied psychology offers a traditional psychology core curriculum with emphasis on human factors, human-computer interaction, aviation or manufacturing.

Program Requirements:

This minor in applied psychology consists of 22 credit hours, including at least 12 upper-division courses. The following are required courses that must be completed with a grade of "C" (2.00) or higher:

Required Courses:

PSY 101 Introduction to Psychology, SB (3)

PSY 230 Introduction to Statistics, CS (3)

PSY 290 Research Methods, L/SG (4)

PSY 437 Human Factors, L (3) or PSY 438 Human-Computer Interaction (3) or PSY 440 Industrial/Organizational Psychology (3)

Electives:

Additional hours of upper-division PSY or PGS courses (9)

A maximum of three credit hours from PSY 399, PSY 499 or PSY 492 may be used toward the minor requirements.

A minimum of three classes, including two at the upper-division level, must be taken in residence at ASU.

Enrollment Requirements:

Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Arabic Studies Minor (LAARBMIN)

Campus: TEMPE

Description:

The minor in Arabic studies provides students with instruction in Modern Standard Arabic, as well as Arabic culture and literature. Students who successfully complete the prescribed course work of the Arabic minor are expected to be able to communicate effectively in Arabic and interact with native speakers of Arabic.

Students will be able to communicate in Arabic in the other two areas of language acquisition: reading and writing through reading authentic material in Arabic and writing paragraphs in Modern Standard Arabic.

Literature courses expand students' knowledge in Arabic, Middle East and Islamic culture and civilization. Students of all academic disciplines doing research or seeking employment in areas related to the Middle East or parts of the Arab world will find the minor in Arabic highly beneficial.

Program Requirements:

The minor in Arabic studies requires 26 credit hours of courses detailed below. A minimum grade of "C" (2.00) or better is required in each course.

Required Courses:

ARB 201 and ARB 202 Intermediate Arabic I and II (8)
ARB 311 Advanced Arabic Skills I (3)
ARB 331 Arabic/Islamic Culture and Literature (3)
ARB 341 Quran Text and Women (3)
ARB 351 Classical Arabic Literature (3)
ARB 411 Advanced Arabic Skills II (3)

choose one upper-division course from the following:

ARB 321 Arabic Conversation I (3)
ARB 335 Arabic Culture and Islam (3)
ARB 421 Arabic Conversation II (3)
HST 372 Modern Middle East (3)
REL 365 Islamic Civilization (3)
REL 366 Islam in the Modern World (3)

Students must complete the sequence of elementary Arabic, ARB 101 and ARB 102, as prerequisite courses.

Enrollment Requirements:

Students who wish to add a minor in Arabic studies to the bachelor's degree program they are pursuing may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Architectural Studies Minor (ARSTDMIN)

Campus: TEMPE

Description:

The architectural studies minor is available to nonarchitecture majors interested in this field who wish to pursue another major. The courses are designed to provide an overview of architecture throughout history while focusing on architectural design, with the intention to explore the process of design thinking.

Program Requirements:

A minimum of 18 credit hours (to include 12 credit hours of upper-division course work) are required for the minor.

Required Courses:

ALA 100 Introduction to Environmental Design, HU, G, H (3)
ALA 102 Landscapes and Sustainability, HU, G (3)
APH 313 History of Architecture I, L/HU, G, H (3)
APH 314 History of Architecture II, L/HU, G, H (3)

Six additional upper-division credit hours of electives in the architectural history and theory concentration must be selected from the following list:

ANP 494 Special Topics (1-3)
APH 305 Contemporary Architecture, HU, H (3)
APH 336 20th-Century Architecture I, HU (3)
APH 337 20th-Century Architecture II, HU (3)
APH 394 Special Topics (3)
APH 414 History of the City, L/HU, H (3)
APH 441 Ancient Architecture (3)
APH 494 Culture of Place, C (3)
APH 494 Special Topics (3)
APH 499 Individualized Instruction* (3)
ARP 451 Architectural Field Studies (6)

* This course requires a petition to The Design School.

A minimum GPA of 2.50 in minor courses is required to earn the minor in architectural studies. In addition, students may not use a core course to count toward the minor. Students pursuing the BS in landscape architecture must petition the school to request a substitution for any core courses that are also included in the architectural studies minor.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Art History Minor (FAARTHMIN)

Campus: ONLNE, TEMPE

Description:

The art history minor is designed for those students who are interested in a broad introduction to the study of the history of art. In giving a broad chronological exposure to the history of art from diverse cultures, the minor strengthens academic preparation and provides students with many options to select courses based on their individual interests.

Program Requirements:

The School of Art offers a minor in art history consisting of 18 credit hours of course work, including 12 upper-division electives. A minimum grade of "C" (2.00) is required in all classes in the minor. For those pursuing a minor, a minimum overall GPA of "C" (2.00) is required. Courses may not be double counted in a major and the minor, and a minimum of 12 credit hours of resident credit at the Tempe campus are required.

ARS 100 or 300 may be used toward a minor. ARS 100 and 300 may not be used toward an art history minor if the student is an art major or has credit in ARS 101 and 102.

Required Courses

Select two of the following courses:

ARS 101 Art from Prehistory Through Middle Ages, HU, H (3)

ARS 102 Art from Renaissance to Present, HU, H (3)

or

ARS 201 Art of Asia, HU, G, H (3)

ARS 202 Art of Africa, Oceania and the Americas, HU, G, H (3)

Elective Courses

Students pursuing an art history minor select four three-credit-hour, upper-division courses. A seminar is strongly recommended for those considering graduate study.

Students need to be aware of lower-division prerequisites for all upper-division courses. Interested students should contact the School of Art for specific requirements and admission procedures.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor. Please contact the department for more information.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Asian Languages (Chinese) Minor (LACHIMIN)

Campus: TEMPE

Description:

Students pursuing a minor in Asian languages (Chinese) gain an understanding of the language, literature and cultures of China. There are opportunities to partake in study abroad programs, which can serve to enhance a student's minor experience and education.

Program Requirements:

The minor in Asian languages (Chinese) consists of 18 credit hours, of which 12 credit hours must be at the upper division.

Required Courses:

200-level Chinese (up to 6 credit hours)

CHI 301 Third-Year Chinese I (5)

CHI 302 Third-Year Chinese II (5)

CHI course work chosen in consultation with a School of International Letters and Cultures advisor (2)

Course substitutions are allowed for heritage and advanced speakers of the language.

Enrollment Requirements:

Students who wish to add a minor in Asian Languages (Chinese) to the bachelor's degree program they are pursuing may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

Asian Languages (Japanese) Minor (LAJPNMIN)

Campus: TEMPE

Description:

Students pursuing a minor in Asian languages (Japanese) gain an understanding of the language, literature and cultures of Japan. There are opportunities to partake in study abroad programs, which can serve to enhance a student's minor experience and education.

Program Requirements:

The minor in Asian languages (Japanese) consists of 18 credit hours, of which 12 credit hours must be at the upper division.

Required Courses:

200-level JPN courses (up to 6 credit hours)

JPN 301 Third-Year Japanese I, G (3)

JPN 302 Third-Year Japanese II, G (3)

additional upper-division JPN courses chosen in consultation with a School of International Letters and Cultures advisor (6)

Course substitutions are allowed for heritage and advanced speakers of the language.

Enrollment Requirements:

Students who wish to add a minor in Asian Languages (Japanese) to the bachelor's degree program they are pursuing may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Asian Pacific American Studies Minor (LAAPAMIN)

Campus: TEMPE

Description:

The Asian Pacific American studies minor is an interdisciplinary undergraduate program option that will allow students interested in complementing a degree with the study of demographic, cultural, social, economic and policy issues that have shaped and continue to affect Asian-American and Pacific Islander communities in Arizona, the Southwest, nationally and internationally. This minor will target students interested in careers serving and relating to the complex and rapidly changing Asian-American and Pacific Islander population and more broadly with culturally diverse populations.

For example, the minor could be paired with majors involving business, law, immigration, community organizing, journalism, health or creative arts. Students interested in issues of diversity, multicultural relations, race, gender, class and global and local engagement with diverse, migrant and diasporic populations and peoples will benefit from earning the minor. In addition, one option for students enrolled in the program is to enroll in a community-based internship; this provides a chance to learn more about local Asian Pacific American organizations and communities and to apply what they have learned in course work to specific community contexts.

Program Requirements:

Students will be required to complete 18 credit hours for the minor. Six hours will be a prescribed core and the remaining 12 elective hours will be selected from any of the courses with an APAS prefix.

Required Core Course (6):

APA 200 Introduction to Asian Pacific American Studies (3)
APA 360 Asian Pacific American Experience (3)

Elective Courses (12):

The remaining 12 credit hours will be completed by selecting courses not taken to fulfill the 6 required hours and will be selected from any APA course.

Examples of APA electives include but are not limited to:

APA 210 Introduction to Ethnic Studies in the U.S. (3)
APA 310 Asian Pacific American Arts and Cultures (3)
APA 315 Asian Pacific American Literature (3)
APA 330 Asian Pacific American Genders and Sexualities (3)
APA 340 Asian Pacific Americans and Media (3)
APA 345 Asian Pacific Americans and Film (3)
APA 360 Asian Pacific American Experience* (3)

*Note: One APA 360 course is required for the core; other sections may be repeated for credit with different topics.

- Asian Pacific American Psychology
- the Chinese American experience
- the Filipina/o American experience
- the Japanese American experience

- the Korean American experience
- the Multiracial experience
- the Pacific Islander experience
- the South Asian experience
- the Southeast Asian experience

APA 394 Special Topics (may be repeated for credit with a different topic) (3)

APA 450 Asian Pacific American Contemporary Issues (3)

APA 484 Asian Pacific American Community Internship (3)

APA 494 Special Topics (may be repeated for credit with a different topic) (3)

APA 499 Individualized Instruction (1-3 credits, may be repeated for credit) (3)

Other Requirements and Restrictions

- At least 12 of the 18 credit hours must be upper-division courses (300 or higher).
- All courses for the minor must have a "C" (2.00) grade or higher.
- A minimum of 9 credit hours must be taken in residency at ASU.
- No course may be used to satisfy more than one requirement in the minor.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Astronomy Minor (LAASTMIN)

Campus: TEMPE

Description:

The astronomy minor is designed for students interested in developing a basic understanding of astronomy and astrophysics and analyzing issues through a scientific viewpoint.

Program Requirements:

The minor in astronomy consists of a minimum of 24 credit hours. At least 12 credit hours must be upper-division courses. Required courses:

AST 113 Astronomy Laboratory I, SQ (1)*

AST 114 Astronomy Laboratory II, SQ (1)**

AST 321 Introduction to Planetary and Stellar Astrophysics, SQ (3)*

AST 322 Introduction to Galactic and Extragalactic Astrophysics, SQ (3)**

Choose between the course combinations below:

PHY 150 Physics I, SQ (4) or

PHY 121 University Physics I: Mechanics, SQ (3)*** and PHY 122 University Physics Laboratory I SQ (1)***

and

PHY 151 Physics II, SQ (4) or

PHY 131 University Physics II: Electricity and Magnetism, SQ (3)**** and PHY 132 University Physics Laboratory II SQ (1)****

or

PHY 252 Physics III, SQ (4)

Eight credit hours of electives are chosen with approval of an astronomy advisor from upper division courses in physics and astronomy.

*Both AST 113 and 321 must be taken to secure SQ credit.

**Both AST 114 and 322 must be taken to secure SQ credit.

***Both PHY 121 and 122 must be taken to secure SQ credit.

****Both PHY 131 and 132 must be taken to secure SQ credit.

Courses required for the astronomy minor may have additional prerequisites.

Enrollment Requirements:

All students will be required to meet with an academic advisor in the School of Earth and Space Exploration to declare the minor and confirm that the requirements are being met. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor. The Degree Audit Reporting System will be used for tracking student progress and verifying completion of the minor.

Minimum Residency Requirement

Students must take at least 12 of the 24 units required for the minor at ASU and at least six of the upper-division hours must be taken from courses offered by the College of Liberal Arts and Sciences. Transfer course work must be evaluated by an advisor in the School of Earth and Space Exploration before it can be applied toward the minor requirements.

The College of Liberal Arts and Sciences and the School of Earth and Space Exploration must officially certify, through established verification procedures, that all requirements for the minor have been met. The college of the student's major allows recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

Astrophysics Minor (LAASTPHMIN)

Campus: TEMPE

Description:

The astrophysics minor is designed for students interested in developing a background in the theoretical modeling and observational techniques of galactic and stellar astronomy, extragalactic astronomy and cosmology. Students completing the minor will acquire the ability to think critically about scientific problems, to reduce complex problems to their most important attributes, and to design experiments, observations and theoretical models to address those attributes. Students pursuing an astrophysics minor are expected to have a strong background in physics and mathematics.

Program Requirements:

The minor in astrophysics consists of a minimum of 20 credit hours.

The following courses are required for the minor, adding up to 12 credit hours.

AST 321 Introduction to Planetary and Stellar Astrophysics (3)

AST 322 Introduction to Galactic and Extragalactic Astrophysics (3)

AST 421 Astrophysics I (3)

AST 422 Astrophysics II (3)

Students must also choose one of the following options for the additional eight credit hours:

Option 1:

- SES 121 Earth, Solar System and Universe I (3)
- SES 122 Earth, Solar System and Universe II (3)
- SES 123 Earth, Solar System and Universe Laboratory I (1)
- SES 124 Earth, Solar System and Universe Laboratory II (1)

Option 2:

- AST 111 Introduction to Solar Systems Astronomy (3)
- AST 113 Astronomy Laboratory I (1)
- AST 112 Introduction to Stars, Galaxies and Cosmology (3)
- AST 114 Astronomy Laboratory II (1)

Option 3:

At least eight credit hours of SES or AST upper-division electives; these may include (but are not limited to):

- AST 494 Astrophysics Seminar (1)
- SES 311 Essentials of Astrobiology: Exploration for Life in the Universe (3)
- AST 494 Observing Instrumentation and Data Analysis (3)

Courses required for the astrophysics minor may have additional prerequisites.

Enrollment Requirements:

All students will be required to meet with an academic advisor in the School of Earth and Space Exploration to declare the minor and confirm that the requirements are being met. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor. The Degree Audit Reporting System system will be used for tracking student progress and verifying completion of the minor.

Minimum Residency Requirement

Students must take at least 12 of the 20 units required for the minor at ASU and at least six of the upper division hours must be taken from courses offered by the College of Liberal Arts and Sciences. Transfer course work must be evaluated by an advisor in the School of Earth and Space Exploration before it can be applied toward the minor requirements.

The College of Liberal Arts and Sciences and the School of Earth and Space Exploration must officially certify, through established verification procedures, that all requirements for the minor have been met. The college of the student's major allows recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Biochemistry Minor (LABCHMIN)

Campus: TEMPE

Description:

The biochemistry minor is designed to give students majoring in other disciplines a solid grounding in the basics of biochemistry in order to complement their major degree. It is especially appropriate for students whose majors are in the various disciplines of life sciences, physics, engineering and geology and for students planning careers in medical disciplines.

Program Requirements:

A minor in biochemistry is awarded to students who complete 28 credit hours in the following required courses:

- BCH 461 General Biochemistry (3)
- BCH 462 General Biochemistry (3)
- BCH 467 Analytical Biochemistry Laboratory, L (3)
- CHM 113 General Chemistry I, SQ (4)

CHM 116 General Chemistry II, SQ (4)
CHM 233 General Organic Chemistry I (3)
CHM 234 General Organic Chemistry II (3)
CHM 237 General Organic Chemistry Laboratory I (1)
CHM 238 General Organic Chemistry Laboratory II (1)
CHM 341 Elementary Physical Chemistry (3)

A minimum grade of "C" (2.00 on a scale of 4.00) is required for each of the courses.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Biological Sciences Minor (LABIOMIN)

Campus: TEMPE

Description:

Biological sciences encompasses the study of all living things and includes the study of basic organization and function, how organisms evolve, their roles in the natural environment, how hereditary information is transferred and the development of biotechnology. The biological sciences minor is designed to provide students interested in the biological sciences with a flexible curriculum that can be tailored to their interests.

Program Requirements:

The minor consists of 24 credit hours, which can be taken in one of two options.

Option 1

BIO 181 General Biology I (4)
BIO 182 General Biology II (4)
BIO 340 General Genetics (4)
BIO 345 Organic Evolution (3)

Option 2

BIO 181 General Biology I (4)
MBB 247 Principles of Molecular and Cellular Biology II (4)
MIC 220 Biology of Microorganisms and MIC 206 Microbiology Laboratory (4)
BIO 340 General Genetics (4)

The remaining hours are selected by the student with the approval of a School of Life Sciences advisor.

Notes:

- At least 12 hours must be upper-division courses in the life sciences and at least six upper-division hours taken at the Tempe campus.
- Courses which are not available for credit in the life sciences majors cannot be used for the minor (e.g., BIO 100 The Living World, BIO 201 Human Anatomy and Physiology I, and BIO 202 Human Anatomy and Physiology II).
- Internship courses are not accepted as fulfilling the 24-credit-hour requirement.

Enrollment Requirements:

This minor is not available to students majoring in the life sciences. Students in most majors may pursue one or more minors and upon successful completion of the prescribed course work have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Business Minor (BABUSMIN)

Campus: TEMPE

Description:

A minor in business is available to students across the university who are interested in business courses but wish to pursue majors in other colleges. The courses available for the minor are designed to appeal to and inform the non-business student while covering a broad range of topics that are important to managers, such as:

- accounting
- computer information systems
- economics
- finance
- management
- marketing
- real estate
- supply chain management

Program Requirements:

Students must complete 18 credit hours (12 of which must be upper division) of the specified business courses with a grade of "C" (2.00) or higher in each course. At least 12 credit hours must be taken at ASU.

Students may not double count any courses with other business certificates.

The upper-division courses specified for the minor will be restricted to students with 56 earned credit hours and a minimum 2.00 ASU cumulative GPA.

Business students are not eligible to apply for the minor.

Required Courses:

ACC 382 Accounting and Financial Analysis (3) (see business advisor if taken ACC 230/231)
ECN 212 Microeconomic Principles (3)
FIN 380 Personal Financial Management (3)
MGT 380 Management and Strategy for Nonmajors (3)
MKT 390 Essentials of Marketing (3)

Electives (select one):

CIS 300 Web Design and Development (3)
CIS 394 Special Topics (3)
ECN 211 Macroeconomic Principles (3)
FIN 331 Financial Markets and Institutions (3)
MKT 391 Essentials of Selling (3)
MKT 394 Special Topics (3)

MKT 395 Essentials of Advertising and Marketing Communication (3)
REA 380 Real Estate Fundamentals (3)
SCM 301 Introduction to Modern Global Supply Chain Management (3)
SCM 394 Special Topics (3)

Note: If a student has taken one of the approved courses, above, and it is not showing in the DARS audit, they are asked to call 480-965-4227 or go to BA 109 for assistance.

Enrollment Requirements:

Application:

A student seeking the business minor must see an advisor in the student's major in order to add the minor to the student's degree audit (DARS).

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Chemistry Minor (ASCHMMIN)

Campus: WEST

Description:

The minor in chemistry gives students expanded proficiency in the area of chemistry. Many of the growing career fields, such as forensics, medicine and environmental quality, are requiring a greater degree of chemistry than in the past. Therefore, students with a greater chemistry background will have a competitive advantage in these fields. The chemistry minor gives students more experience in the advanced and integrative fields of chemistry through additional biochemistry and analytical chemistry courses. The awarding of the chemistry minor highlights the students' expanded chemistry knowledge to future schools and employers.

Program Requirements:

The minor in chemistry consists of a minimum of 25 credit hours, of which nine credit hours must be taken in the life sciences department.

Required Courses:

BCH 361 Advanced Principles of Biochemistry (3)
CHM 113 General Chemistry I (4)
CHM 116 General Chemistry II (4)
CHM 233 General Organic Chemistry I (3)
CHM 234 General Organic Chemistry II (3)
CHM 237 General Organic Chemistry Laboratory I (1)
CHM 238 General Organic Chemistry Laboratory II (1)
CHM 327 Instrumental Analysis (3)
CHM 328 Instrumental Analysis Laboratory (2)
LSC 366 Elementary Biochemistry Laboratory (1)

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Please contact the division for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Chemistry Minor (LACHMMIN)

Campus: TEMPE

Description:

The chemistry minor is designed to give students majoring in other disciplines a solid grounding in the basics of chemistry in order to complement their major degree. It is especially appropriate for student whose majors are in the various disciplines of physics, materials science, geology, engineering and life sciences.

Program Requirements:

A minor in chemistry is awarded to students who complete a minimum 28 credit hours. The following courses are required:

CHM 113 General Chemistry I, SQ (4)
CHM 116 General Chemistry II, SQ (4)
CHM 233 General Organic Chemistry I (3)
CHM 234 General Organic Chemistry II (3)
CHM 237 General Organic Chemistry Laboratory I (1)
CHM 238 General Organic Chemistry Laboratory II (1)
CHM 325 Analytical Chemistry (3)
CHM 326 Analytical Chemistry Laboratory (1)

choose between the course combinations (8 credit hours):

BCH 361 Advanced Principles of Biochemistry (3)
BCH 367 Elementary Biochemistry Laboratory (1)
CHM 341 Elementary Physical Chemistry (3)
CHM 343 Elementary Physical Chemistry Laboratory (1)

--- or ---

CHM 345 Physical Chemistry I (3)
CHM 346 Physical Chemistry II (3)
CHM 348 Physical Chemistry Laboratory I (1)
CHM 349 Physical Chemistry Laboratory II (1)

A minimum grade of "C" (2.00 on a scale of 4.00) is required for each of the courses in the minor.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Communication Minor (HSCMNMIN)

Campus: WEST

Description:

The communication minor offers students the opportunity to understand the role and function of communication in cultural, public, organizational and relational contexts. The program offers a flexible set of courses and is designed for students majoring in another field. A maximum of six credit hours are allowed from lower-division course work.

Program Requirements:

The minor consists of 18 credit hours of communication courses. Students wishing to pursue a minor must meet with a communication advisor to construct a minor that reflects a particular area of specialty and interest. At least 12 credit hours must come from upper-division courses. To graduate with the minor, students must earn a minimum cumulative GPA of 2.00 in communication courses. All courses must be passed with a minimum grade of "C" (2.00).

Enrollment Requirements:

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor. Please contact the division or visit the website for more information.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Communication Minor (LACOMMIN)

Campus: TEMPE

Description:

The minor in communication focuses on teaching students how communication processes create, maintain and transform identities, relationships, workplaces and communities.

Our mission statement is, "Through the study and critique of human communication, we generate knowledge, creativity and understanding to facilitate healthy relationships and workplaces, civil and secure communities and constructive intercultural interaction."

Program Requirements:

The minor in communication consists of 18 credit hours of courses:

COM 100 Introduction to Human Communication (3)
COM 225 Public Speaking (3) or COM 259 Communication in Business and the Professions (3)

Two of the following courses:

COM 310 Relational Communication (3)
COM 312 Communication, Conflict, and Negotiation (3)
COM 316 Gender and Communication (3)
COM 323 Communication Approaches to Popular Culture (3)

Two upper-division-related courses in Global Studies, Asian Pacific American Studies, African and African American Studies, Transborder Chicana/o Latina/o Studies or American Indian Studies (6)

Nine of the 18 credit hours must be in courses offered by the College of Liberal Arts and Sciences. No pass/fail, "Y" credit or credit/no-credit courses are allowed. Communication courses required for one's major may not also count for the minor. All prerequisite and GPA requirements must be met. The "C" (2.00) minimum grade requirement must be met for each class.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Computational Mathematical Sciences Minor (LACMSMIN)

Campus: TEMPE

Description:

The computational mathematical sciences curriculum strives to provide students with a background in computer science and the natural or physical sciences in addition to a core of course work in mathematics.

Program Requirements:

The minor in computational mathematical sciences consists of a minimum of 18 credit hours. Required courses are the following, for a total of 18-20 credit hours:

MAT 271 Calculus with Analytic Geometry II, MA (4) or MAT 266 Calculus for Engineers II, MA (3)
MAT 272 Calculus with Analytic Geometry III, MA (4) or MAT 267 Calculus for Engineers III, MA (3)
MAT 342 Linear Algebra (3) or MAT 343 Applied Linear Algebra (3)
MAT 420 Scientific Computing (3)
MAT 421 Applied Computational Methods, CS (3)
MAT 423 Numerical Analysis I, CS (3) or MAT 425 Numerical Analysis II, CS (3)

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information and see <http://math.asu.edu/degree-programs/programs/undergraduate> (<http://math.asu.edu/degree-programs/programs/undergraduate>).

Criminology and Criminal Justice Minor (PPCRJMIN)

Campus: DTPHX, ONLNE

Description:

The minor in criminology and criminal justice allows students in other undergraduate programs at ASU to explore issues of crime, law and the criminal justice system. The minor provides students with the tools to analyze complex issues and policies within the criminal justice system, enhancing students' ability to understand the nature of crime and the system response to law breaking. In addition to the three required courses, which provide a solid understanding of the field, each student will be able to select electives to meet his or her specific interests. Criminal justice majors cannot earn a minor in criminal justice.

Program Requirements:

Students are required to:

- at minimum, be in junior standing to take upper-division courses
- complete CRJ 100 as the prerequisite for all upper-division CRJ courses
- complete a minimum of 18 credit hours of graded classroom/online course work (internship or independent study not applicable)
- complete a minimum of 12 credit hours of CRJ resident credit at ASU
- earn a grade of "C" (2.00) or higher for all classes in the minor
- meet with a criminal justice advisor prior to registration
- take a minimum of 12 credit hours of upper-division CRJ course work from the approved list

Required Core Courses:

CRJ 100 Introduction to Criminal Justice, SB (3)

choose one of the following:

CRJ 201 Criminal Justice Crime Control Policies and Practice (3)

CRJ 203 Courts and Sentencing (3)

CRJ 204 Juvenile Justice (3)

CRJ 225 Introduction to Criminology, SB (3)

CRJ 230 Introduction to Policing (3)

CRJ 240 Introduction to Corrections (3)

choose one of the following:

CRJ 305 Gender, Crime and Criminal Justice, C (3)

CRJ 306 Race, Ethnicity, Crime and Criminal Justice, C (3)

CRJ 350 Law and Social Control, SB (3)

CRJ 410 Procedural Criminal Law (3)

Electives (9)

Choose any three additional upper-division CRJ courses. They must be selected from 300- and 400-level courses.

Enrollment Requirements:

Please meet with a criminal justice advisor prior to registration.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Dance Minor (FADANMIN)

Campus: TEMPE

Description:

The School of Film, Dance and Theatre provides a dynamic and culturally diverse learning environment in which students develop their creativity as artists, scholars and educators. The interdisciplinary curriculum promotes creative collaboration and a holistic approach to acquiring skills for successful career transitions. Movement practices, performance and creativity practice define the core of the program. The rich educational experience is further enhanced by studies in:

- criticism
- dance cultures
- dance history
- digital media
- movement science
- music
- pedagogy and leadership
- philosophy
- production
- somatics

Program Requirements:

The minor in dance consists of 18 semester hours of course work, including 12 upper-division semester hours.

A minimum grade of "C" (2.00) or higher is required in all courses that fulfill the dance minor.

Dance Minor Requirements:

Choose one from the following courses, for a total of three credit hours:

- DCE 100 Introduction to Dance (HU, G)
- DCE 201 Dance, Culture and Global Context (HU, G)

Choose one from the following courses, for a total of three credit hours:

- DCE 300 Moving Histories (HU)
- DCE 301 Meaning in Motion(L or HU)
- DCE 340 Media for Dance (CS)
- DCE 350 Dance in the Classroom: Learning Through Movement (HU)
- DCE 394/494 Special Topics (see academic advisor for approved special topics courses.)
- DCE 402 Ethnography of Dance Practices (L or HU, G)

Choose two from the following courses, for a total of four credit hours:

- DCE 110 Argentine Tango I
- DCE 111 Raqs Sharqi I
- DCE 112 Capoeira I
- DCE 113 Dances of Africa 1
- DCE 114 Dances of India I
- DCE 115 Yoga I
- DCE 116 T'ai Chi Ch'uan I
- DCE 117 Feldenkrais I
- DCE 118 Yoga/Pilates
- DCE 120 Modern Dance 1
- DCE 121 Ballet 1
- DCE 122 Jazz I
- DCE 123 Hip Hop I
- DCE 124 Latin/Swing/Ballroom I
- DCE 125 Latin/Salsa I
- DCE 126 Country-Western
- DCE 194/294 Special Topics (see academic advisor for approved special topics courses)
- DCE 210 Argentine Tango II
- DCE 211 Raqs Sharqi II
- DCE 216 T'ai Chi Ch'uan II
- DCE 220 Modern Dance 2
- DCE 221 Ballet 2
- DCE 222 Jazz II
- DCE 223 Hip Hop II
- DCE 224 Latin/Swing/Ballroom II

DCE 225 Latin/Salsa II
DCE 324 Latin/Swing/Ballroom III

Choose eight hours of dance electives (to complete 18 hours overall); must include 12 upper division hours.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Design Studies Minor (ARDSNMIN)

Campus: TEMPE

Description:

Students interested in design can earn a minor in design studies. This minor is a nonstudio-based program of study in design that focuses on the design disciplines offered in the ASU Herberger Institute:

- architectural studies
- graphic design
- industrial design
- interior design
- landscape architecture

The courses may also appeal to students who wish to pursue the study of design within the BIS.

Program Requirements:

Courses selected must satisfy the minimum requirement of 18 credit hours for the minor. Twelve of the credit hours must be in 300-level or 400-level course work. To enhance understanding of the subject matter, some of the designated courses are sequential in nature and require certain prerequisites. Consequently, students should carefully note the semester in which these particular courses are offered. All designated courses for the minor in design studies are lecture courses. To pursue the minor in design studies, students must have a minimum cumulative GPA of 2.50.

Designated Courses for the Minor:

Architecture and Landscape Architecture

- ALA 100 Introduction to Environmental Design, HU, G, H (3)
- ALA 102 Landscapes and Sustainability, HU, G (3)
- APH 313 History of Architecture I, L/HU, G, H (3)
- APH 314 History of Architecture II, L/HU, G, H (3)
- APH 421 First Concepts:What is...The Writing, Philosophy, and Culture of Architecture, L/HU (3)
- APH 494 Culture of Place (3)
- LPH 310 History of Landscape Architecture, HU, H, G (3)
- LPH 311 20th-Century Landscape Architecture, HU (3)

Design

- DSC 101 Design Awareness, HU, G (3)
- DSC 194 Design Thinking, HU (3)

DSC 394 Design Entrepreneurship & Society (3)

Graphic Design

GRA 101 Designing Life (3)
GRA 111 Graphic Design History I, HU (3)
GRA 112 Graphic Design History II (3)
GRA 225 Communication/Interaction Design Theory (3)
GRA 345 Design Rhetoric, L (3)
GRA 401 Creative Environment (3)
GRA 440 Finding Purpose (3)

Industrial Design

IND 242 Materials and Design (3)
IND 243 Design for Ecology and Social Equity (3)
IND 316 20th-Century Design I, HU, H (3)
IND 317 20th-Century Design II, HU, H (3)
IND 344 Human Factors in Design (3)
IND 354 Principles of Product Design (3)
IND 470 Professional Practice for Industrial Design, L (3)

Interior Design

INT 111 Interior Design Issues and Theories, HU (3)
INT 121 Introduction to Computer Modeling for Interior Design, CS (3)
INT 123 Introduction to Computer-Aided Design of Built Environments (3)
INT 131 Design and Human Behavior, SB (3)
INT 310 History of Interior Design I, HU, H (3)
INT 311 History of Interior Design II, HU, H (3)
INT 412 History of Decorative Arts in Interiors, HU (3)
INT 413 History of Textiles in Interior Design (3)
INT 415 Latin American Design (3)

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Digital Culture Minor (HIDGCMIN)

Campus: TEMPE

Description:

The digital culture minor in the Herberger Institute for Design and the Arts focuses on the creative exploration of how new media is influencing our culture or, rather, the way we live, learn, create and communicate. The digital culture minor allows students to enhance their program of study with integrated, interdisciplinary training in creative processes and technical skills in new media with cultural applications.

The curriculum is outcomes-based rather than course sequence-based. The curriculum uses an innovative proficiency-based network to connect courses across academic disciplines, instead of traditional methods such as course prerequisites. Proficiencies in the curriculum identify common generalized learning outcomes across disciplines participating in the initiative.

Program Requirements:

The digital culture minor requires 21 credit hours (12 upper division) in four areas:

- capstone culminating project (3)
- digital culture studies (9)
- media arts and design (3)
- media engineering (3)
- historical/theoretical studies in digital culture or related digital culture (3)

For a list of digital culture courses, please visit: <http://digitalculture.asu.edu/education/courses> (<http://digitalculture.asu.edu/education/courses>)

A student must have a minimum GPA of 2.50 to be eligible to pursue the minor. A minimum grade of a "C" (2.00) and an overall GPA of 3.00 is required in all classes in the minor. Courses in the minor may not be used as part of a major. A minimum of 12 upper-division semester hours of credit at ASU is required.

Enrollment Requirements:

There is no special application process for the digital culture minor.

Students add the minor by meeting with the academic advisor for their major. Students are also required to meet with the digital culture academic success coordinator to develop the digital culture pathway that best meets the proficiencies for the work they are interested in pursuing.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Early Childhood Education Minor (TECEDMIN)

Campus: DTPHX, POLY, TEMPE, WEST

Description:

A minor in early childhood education will allow students to combine their knowledge of their major discipline while coming to understand educational practices and issues. The ultimate goal of this minor is to produce graduates who are educated in their major field of study and who understand and appreciate education which will positively impact the community. The service learning experience embedded in this minor will enable students to apply their knowledge and skills to meaningful service experience in the community.

Program Requirements:

Courses that will be required for minor:

- ECD 211 The Developing Child: Theory into Practice, Prenatal to Grade 3 (3)
- ECD 220 Introduction to Nutrition, Health and Safety (2)
- ECS 315 Classroom Organization and Guidance of Young Children (3)
- ECS 312 Social and Emotional Development of the Young Child (3)
- EDP 310 Four one hour electives in Educational Psychology for Non-Teachers(4)
- USL 210/410 Service Learning (3)

Enrollment Requirements:

Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Economics Minor (LAECNMIN)

Campus: TEMPE

Description:

The program of study is designed for students with an interest in studying the fundamentals of economics and applications.

Program Requirements:

This minor (and BIS area of concentration) requires 18 credit hours of course work, which includes ECN 211 (3) and ECN 212 (3), and 12 hours of economics courses at the 300 level or above for which all prerequisites have been met. Only courses in which a student receives a grade of "C" (2.00) or higher may be used to meet these requirements. Six credit hours of upper-division course work must be completed in courses offered by the W.P. Carey School of Business.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information:

Educational Studies Minor (TEEDSTMIN)

Campus: DTPHX, POLY, TEMPE, WEST

Description:

A minor in educational studies is designed for students who want to work with children, youth and adults outside of a formal classroom setting. This minor provides a foundation in the field of education by studying current issues and educational practices for the community setting. This minor is very versatile and applies to a wide variety of programs and opportunities.

Program Requirements:

Courses that will be required for minor:

EDP 310 Educational Psychology for Non-Teachers (3)

EDT 494 Special Topics Computer Courses (3)

SPE 222 Orientation to Education of Exceptional Children (3)

SPF 301 Culture and Schooling (3)

TEL 111 Exploration of Education (3)

USL 210/410 Service Learning (3)

Enrollment Requirements:

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Engineering Management Minor (ESENMMIN)

Campus: TEMPE

Description:

The minor in engineering management is designed to provide the student with skills for effective management and leadership of engineering-driven enterprises. The minor curriculum supplements the student's major by adding to the breadth of engineering science and design, and equips the student with additional management and design skills. This knowledge is augmented with an understanding of business practices, organizational behavior and management skills to enable the graduate to succeed in the management of a scientific or engineering enterprise. Topics such as project and resource management, financial engineering, risk management, configuration management, service plans, product liability, entrepreneurship and operations management are covered, in addition to product design and process development.

Program Requirements:

The program of study for a minor in engineering management requires a minimum of 18 credit hours. Note that industrial engineering or engineering management majors will NOT be eligible for the minor.

The minor requires completion of four core courses (12 credit hours) and two elective courses (6 credit hours) for a total of 18 credit hours. All courses must be passed with a "C" or better. At least 12 credit hours must be completed in residency at ASU or through ASU Online. The required core courses include:

IEE 220 Business/Industrial Engineering
IEE 300 Economic Analysis for Engineers
IEE 431 Engineering Administration
IEE 458 Project Management OR CEE 481* Civil Engineering Project Management

*CEE 481 may not be used for both the Civil Engineering degree (major) and the Engineering Management minor.

The two elective courses must be selected from the following list:

IEE 369 Work Analysis and Design
IEE 376 Operations Research Deterministic Techniques/Applications
IEE 381 Lean Six Sigma Methodology
IEE 454 Risk Management
IEE 456 Introduction to Systems Engineering
IEE 474 Quality Control
IEE 498 Analysis of Decision Processes
IEE 498 Introduction to Financial Engineering

*Please note that there may be additional prerequisites for the courses in the elective list above.

Enrollment Requirements:

Prior to enrolling in the minor, students must have completed MAT 265 and MAT 266 (or an equivalent calculus sequence) with a grade of "C" or better in each.

Interested students should consult with a CIDSE advisor to verify eligibility and to review all courses required for the minor. To schedule a CIDSE advising appointment, go to <https://fultonapps.asu.edu/advising> (<https://fultonapps.asu.edu/advising>).

Students interested in the engineering management minor should also consult with the advisor of the major to ensure recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

English Minor (ASENGMIN)

Campus: WEST

Description:

A minor in English represents an ideal choice for students who enjoy English, but who are committed to another major. The requirements ground the student in the basics of literary and cultural study and then allow for a range of course offerings in creative writing, linguistics, rhetoric, literature and technical and professional communication. The minor will help the student to become a better writer, reader and thinker, making the English minor the perfect complement to any major.

Program Requirements:

The minor in English requires a minimum of 24 credit hours, of which 18 must be upper division (300 or 400 level). Students must complete a minimum of six upper-division credit hours in courses offered by the New College of Interdisciplinary Arts & Sciences.

Required Core Course:

ENG 200 Critical Reading and Writing about Literature, L/HU (3)

Distribution Cluster Requirement:

Select one course from each distribution cluster (see advisor for specific course offerings). Fifteen credits are required, and at least two courses, for six upper-division credits, must be at the 400 level. Students may, once only, use one course to satisfy two distribution requirements:

- critical theories
- ethnicity, gender and post-coloniality
- literature and culture before 1860
- literature and culture after 1860
- writing and linguistics

Additional hours, to complete 24 credit hours, are electives chosen from program offerings. Eighteen credit hours overall must be upper division.

Enrollment Requirements:

Students wishing to pursue the English minor should consult an academic advisor in the unit offering that minor to ensure the appropriate set of courses is taken. The student should also consult an academic advisor in the college, division or department of his or her major to make sure the minor is recognized and to have the minor added to the program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Please contact the division for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

English Minor (LAENGMIN)

Campus: ONLNE

Description:

A minor in English will provide students with preparation for any profession requiring strong analytical and communication skills, including in careers in: publishing, journalism, public relations, nonprofit organizations, professional and technical writing, education, business, banking, grassroots activism, law, medicine, as well as numerous others throughout industry and government. The minor in English is delivered entirely online and serves as a complement to the chosen major of undergraduate students who are pursuing an ASU major online.

Program Requirements:

The online minor in English consists of 24 credit hours, including ENG 200 Critical Reading and Writing About Literature, L/HU (3). The program also requires:

a minimum of six credits in ENG courses at the 300 level

a minimum of six credits in ENG courses at the 400 level

To complete the 24 credit hours, students choose electives from among the department's offerings. At least four courses (12 of the 24 hours) must be taken at the 300 or 400 level with the remaining nine credit hours to be completed with ENG 200-499 courses. A grade of "C" (2.00) or higher is required in all courses taken for the minor.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through

established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

English Minor (LSENGMIN)

Campus: POLY

Description:

The minor in English focuses on effective writing, critical thinking and sophisticated reading of literary and non-literary texts.

Program Requirements:

This minor requires 24 credit hours of ENG courses, to include ENG 200, and a minimum of 12 upper-division hours, of which six credit hours must be taken through the School of Letters and Sciences. All course work for the minor must be completed with a grade of "C" (2.00) or higher.

Enrollment Requirements:

Please contact the school for details.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

English with a Concentration in Linguistics Minor (LAENGMINN)

Campus: TEMPE

Description:

Students pursuing a minor in English with a concentration in linguistics study the nature, variation and structure of language.

Program Requirements:

The minor in English with a concentration in linguistics consists of 24 credit hours. A minimum of 12 upper-division credits is required, with at least six of these credits from courses offered by the College of Liberal Arts and Sciences. Required courses are as follows:

ENG 200 Critical Reading and Writing About Literature, L or HU (3)
ENG 213 Introduction to the Study of Language (3)
ENG 221 Survey of English Literature, HU (3) or
ENG 222 Survey of English Literature, HU, H (3) or
ENG 241 Literatures of the United States to 1860, HU (3) or
ENG 242 Literatures of the United States, 1860 to Present, HU (3)
ENG 312 English in its Social Setting, L or HU or SB (3)
ENG 314 Modern Grammar (3)

ENG 413 History of English Language, HU (3)

The six additional hours are electives chosen from the department's offerings, with at least one course (three credit hours) required at the 300 or 400 level. A grade of "C" (2.00) or higher is required in all courses for the minor.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

English with a Concentration in Literature Minor (LAENGMINT)

Campus: TEMPE

Description:

Students pursuing a minor in English with a concentration in literature study British, American and global literatures in English from the earliest writings to the present.

Program Requirements:

The minor in English with a concentration in literature consists of 24 credit hours, including ENG 200 Critical Reading and Writing About Literature, L or HU (3) and one course from three of the following distribution areas:

- literature and culture before 1800
- literature and culture after 1800
- literary theory and interdisciplinary studies
- transnational, postcolonial and global literatures

At least one of these three distribution area courses must be a 400-level course. To complete the 24 credit hours, students choose electives from among the department's offerings. At least 12 hours must be upper division, with a minimum of six upper-division credits from courses offered by the Department of English in the College of Liberal Arts and Sciences. A grade of "C" (2.00) or higher is required in all courses taken for the minor.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. Ethnic Studies Minor (ASETHMIN)

Campus: WEST

Description:

Students take courses that introduce a general conceptual framework regarding race and ethnicity and how these intersect in the construction of social formations. Students seeking the minor in ethnic studies complete an internship that is designed to give a hands-on experience working in community-based settings. With an emphasis on service learning, which combines the acquisition of analytical skills from classroom instruction and work experience gained through internships, students are placed at a significant advantage to pursue their goals.

Program Requirements:

The minor consists of 18 credit hours, 12 of which must be at the upper-division level. Students are encouraged to take courses that develop breadth rather than limiting their selection to courses in one particular discipline. Up to three credit hours of individualized instruction may be applied toward the minor. All courses must be passed with a minimum grade of "C" (2.00).

Required Courses (6 credit hours):

ETH 310 Critical Research Methods, SB (3)
HRC 498 Capstone: Practices and Approaches (3)

choose one (3 credit hours):

ETH 100 Introduction to Ethnic Studies, SB, C (3)
ETH 300 Principles of Ethnic Studies, C (3)

Electives (9 credit hours, of which 6 must be upper division):

These courses must be chosen from the approved ethnic studies course list in consultation with the ethnic studies advisor.

Enrollment Requirements:

Students wishing to pursue the minor in ethnic studies should consult an academic advisor in the unit offering that minor to ensure the appropriate set of courses is taken. The student should also consult an academic advisor in the college, division or department of his or her major to make sure the minor is recognized and to have the minor added to the program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Please contact the division for more information. Family and Human Development Minor (LAFASMIN)

Campus: ONLNE, TEMPE

Description:

A minor in family and human development, from the School of Social and Family Dynamics, exposes students to the basic course work and issues within the discipline. This program provides an exceptional balance to studies in psychology, communication, education, business or nursing.

Program Requirements:

The minor in family and human development consists of 18 credit hours in which students specialize in family studies or child development. At least 12 of the 18 credit hours must be in upper-division courses.

Students take the following courses:

CDE 232 Human Development, SB (3)
FAS 101 Personal Growth in Human Relationships, SB (3)
FAS 370 Family, Ethnic and Cultural Diversity, SB, C (3)

Three courses (or nine credit hours) must be selected from the following and at least one course must be a CDE course:

- CDE 312 Adolescence, SB (3)
- CDE 337 Early Childhood Intervention (3)
- CDE 430 Infant/Toddler Development in the Family, SB (3)
- SOC 418 Aging and the Life Course, SB, H (3)
- CDE 498 Pro-Seminar (3) or FAS 498 Pro-Seminar (3)
- FAS 301 Introduction to Parenting (3)
- FAS 331 Marriage and Family Relationships, SB (3)
- FAS 332 Human Sexuality, SB (3)

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Film and Media Production Minor (FAFMPMIN)

Campus: TEMPE

Description:

Students pursuing the film minor will study the basic production processes of film while exploring its history and contemporary social issues.

Program Requirements:

The school offers a minor in film and media production, consisting of 18 credit hours of course work. A grade of "C" (2.00) or higher is required for all courses in the minor. All prerequisites for the minor courses must be met. Transfer students may transfer up to six credit hours toward the minor.

The following courses are required, for a total of 12 credit hours:

- FMP 201 Film: The Creative Process I, HU (3)*
- FMP 250 Sex and Violence in Film and TV: Ethics Survey (3)
- FMP 300 Focus on Film: Film Production for Nonmajors (3)
- THE 403 Independent Film, HU(3)

*Students considering a minor in theatre concurrently must complete an additional course in theatre or film to make up for the overlapping FMP 201 course.

Also required are six credit hours of upper-division electives related to film and media production. Choose from courses with the FMP, THP or THE prefix. Contact the school for options and course requirements.

Courses ordinarily limited to majors only are available to minors on a second-priority basis; that is, minors may not register for these courses early, but are allowed to register after all major students' needs have been met.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that

accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Film and Media Studies Minor (LAFMSMIN)

Campus: ONLNE, TEMPE

Description:

The film and media studies minor is useful for students who want to explore the critical and creative study of film and media. Students can select to study a range of courses that emphasize media and society, media industries, styles and genres and screenwriting.

Program Requirements:

The film and media studies minor consists of 18 credit hours. Of the 18 credit hours, 12 credit hours are upper-division courses.

Required courses include:

FMS 100 Introduction to Film, HU
FMS 200 Film History, L or HU, H
FMS 300 Television and Cultural Studies, L or HU
three upper-division courses from the areas of emphasis course list

For more information contact the film and media studies advisor.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have the accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering the minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allow the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Food and Nutrition Management Minor (ECFNTRMIN)

Campus: DTPHX

Description:

This minor is available to any ASU student interested in learning about food and nutrition. The student will develop a greater understanding of nutrition, the food industry and food service operations.

Program Requirements:

The minor requires students to take the following courses, for a total of 18 credit hours:

NTR 100 Introductory Nutrition (3) or NTR 241 Human Nutrition (3)

NTR 142 Applied Food Principles (3)

NTR 300 Computer Applications in Nutrition, CS (3)

NTR 343 Food Service Purchasing (3)

NTR 344 Nutrition Services Management, L (3)

NTR 445 Management of Food Service Systems (3)

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

French Minor (LAFREMIN)

Campus: TEMPE

Description:

Students pursuing a minor in French gain an understanding of the language, literature and cultures of French-speaking peoples and regions. There are opportunities to partake in study abroad programs, which can serve to enhance a student's minor experience and education.

Program Requirements:

The French minor requires 18 upper-division credit hours. Course substitutions are allowed for heritage and advanced speakers of the language.

Required courses include:

FRE 311 Oral and Written Expression, G (3)

FRE 312 Oral and Written Expression II, G (3)

FRE 321 French Literature, L/HU, H (3) or FRE 322 French Literature, L/HU (3)

Nine credit hours of upper-division French courses with at least three credit hours from the 400 level are also required.

Enrollment Requirements:

Students who wish to add a minor in French to the bachelor's degree program they are pursuing may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or

department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Geography Minor (LAGCUMIN)

Campus: TEMPE

Description:

The minor in geography enables students to be as broad or as specific in their geographic education as they wish. Beyond the two required lower-division courses, at least four upper-division courses in geography must be completed.

Program Requirements:

A minor in geography is awarded to students who complete a minimum of 18 hours in geography (at least 12 hours must be upper division). A grade of "C" (2.00) or higher is required for all courses in the minor. The following lower-division courses are required:

GCU 102 Introduction to Human Geography, SB and G (3)
GPH 111 Introduction to Physical Geography, SQ (4) or GPH 211 Landform Processes, SQ (4)

The remaining upper-division courses (12 hours) must be taken from the GCU or GPH prefixes.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Geological Sciences Minor (LAGLGMIN)

Campus: TEMPE

Description:

The geological sciences minor is designed for students interested in developing a basic understanding of earth science and analyzing issues through a scientific viewpoint.

Program Requirements:

The minor in geological sciences consists of a minimum of 21 credit hours.

There following courses are required for the minor, adding up to 15 credit hours:

GLG 101 Introduction to Geology I (Physical), SQ, G (3)*

GLG 102 Introduction to Geology II (Historical), SG, H (3)**
GLG 103 Introduction to Geology I-Laboratory, SQ (1)*
GLG 104 Introduction to Geology II-Laboratory, SG (1)**
GLG 310 Structural Geology (3)
GLG 321 Mineralogy (3)
GLG 400 Earth and Space Colloquium (1)

*Both GLG 101 and 103 must be taken to secure SQ credit.

**Both GLG 102 and 104 must be taken to secure SG credit.

Six credit hours of electives are chosen with the approval of a geology advisor from upper-division courses with geological sciences topics. GLG 300 and GLG 400 are not permitted.

Courses required for the geological sciences minor may have additional prerequisites.

Enrollment Requirements:

All students will be required to meet with an academic advisor in the School of Earth and Space Exploration to declare the minor and confirm that the requirements are being met. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor. The Degree Audit Reporting System will be used for tracking student progress and verifying completion of the minor.

Minimum Residency Requirement

Students must take at least 12 of the 21 units required for the minor at ASU and at least six of the upper-division hours must be taken from courses offered by the College of Liberal Arts and Sciences. Transfer course work must be evaluated by an advisor in the School of Earth and Space Exploration before it can be applied toward the minor requirements.

The College of Liberal Arts and Sciences and the School of Earth and Space Exploration must officially certify, through established verification procedures, that all requirements for the minor have been met. The college of the student's major allows recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

German Minor (LAGERMIN)

Campus: TEMPE

Description:

Students pursuing a minor in German gain an understanding of the language, literature and cultures of German-speaking peoples and regions. There are opportunities to partake in study abroad programs, which can serve to enhance a student's minor experience and education.

Program Requirements:

Course substitutions are allowed for heritage and advanced speakers of the language. Students may use six credit hours from the 200 level toward the minor. A minimum of 12 hours must be upper division.

Required courses include:

two GER 200-level courses (6)
GER 311 German Conversation, G (3) or GER 312 German Conversation, G (3)
GER 313 German Composition, G (3)
one 400-level GER course (3)

one upper-division GER course (3)

Enrollment Requirements:

Students who wish to add a minor in German to the bachelor's degree program they are pursuing may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Global Health Minor (LASSHMIN)

Campus: TEMPE

Description:

The minor in global health is an interdisciplinary program designed for students who seek a broad and flexible set of skills for understanding contemporary health challenges and thinking about how they might best be solved. "Global" is understood in the anthropological sense, meaning ways of understanding and addressing disease, health and well-being that can incorporate all cultures, places and time and that can integrate knowledge of health's social, historical, biological and ecological dimensions.

Program Requirements:

The minor is comprised of 18 credit hours, with a minimum of 12 credit hours upper division. Students must complete the following:

- an approved global health study abroad (summer session, 6 credits minimum)
- culture society and health course
- poverty, justice and global health course
- SSH/ASB 100 Introduction to Global Health
- time depth course

Enrollment Requirements:

Students must speak with an advisor in the School of Human Evolution and Social Change to declare a minor.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Global Studies Minor (LASGSMIN)

Campus: TEMPE

Description:

The minor in global studies offers students, from a transdisciplinary perspective, exposure to global processes and institutions. The minor aims to provide students with an introduction to the tools and skills necessary to make connections linking theory with challenging global issues.

Program Requirements:

The minor in global studies consists of 18 credit hours in global studies courses, 12 credit hours of which must be upper-division courses. Students who minor in global studies must complete two required courses:

SGS 101 Thinking Globally: Individual and Authority, SB (3) or SGS 301 Principles of Global Studies (3) (but not both courses)
SGS 303 Global Trends, SB (3)

The remaining 12 credit hours must be chosen among global studies electives. Courses that count toward the minor must have a grade of "C" (2.00) or higher. No more than three credit hours of SGS 484: International Internship may be applied to the minor. A minimum of six upper-division credit hours must be taken in courses offered by the College of Liberal Arts and Sciences.

Enrollment Requirements:

Students who wish to pursue a minor in global studies may do so with the permission of the department, school or college of their major as well as the advisor in the School of Politics and Global Studies. An ASU student who is pursuing a degree at any ASU campus may elect to add a minor offered at any other ASU campus.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

History Minor (ASHISMIN)

Campus: WEST

Description:

The minor in history, within the New College of Interdisciplinary Arts and Sciences, trains students in the use of basic tools and methods of the historical discipline. Students are exposed to a broad span of modern history, a wide range of historiographical perspectives and approaches and such fundamental categories of historical analysis as race, class, gender and ethnicity.

Program Requirements:

The minor in history consists of 18 credit hours of history course work with a grade of "C" (2.00) or higher, of which 12 credit hours must be upper division (300 or 400 level).

Choose one of the following combinations (6 credit hours):

HST 109 United States to 1865, HU/SB, H and
HST 110 United States since 1865, SB, H

or

HST 100 Global History to 1500, HU, H, G and

HST 101 Global History since 1500, HU, G, H

or

HST 313 American Cultural History to 1865, SB, H and

HST 314 American Cultural History Since 1865, HU/SB, H

or choose two of three offered:

HST 102 Western Civilization, SB, H

HST 103 Western Civilization, HU/SB, H

HST 104 Western Civilization, HU/SB, G, H

Upper-division requirement (3 credit hours):

HST 495 Methods of Historical Inquiry

History electives (9 credit hours)

Enrollment Requirements:

Students wishing to pursue the history minor should consult an academic advisor in the unit offering that minor to ensure the appropriate set of courses is taken, to sign the minor check sheet and to have the minor added to their program of study. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major recognizes the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Please contact the division for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

History Minor (LAHISMIN)

Campus: ONLNE, TEMPE

Description:

Students who pursue the minor in history study the growth and development of human society from all aspects political, social, economic and cultural. The school covers the history of Europe, the U.S., Asia, Latin America and Africa, and courses are designed to give students both breadth and depth in understanding today's complex world.

Program Requirements:

The history minor consists of 18 credit hours of course work, at least 12 credit hours of which must be in upper-division course work. On-ground students earning a minor in history must complete one 12 credit hour HST geographic concentration (United States, Europe, Asia or Latin America). ASU Online students earning a history minor must complete a minimum of 12 credit hours in U.S. history courses. The School of Historical, Philosophical and Religious Studies requires a grade of at least "C" (2.00) in all courses in the minor. A minimum of six upper-division hours in the minor must be taken from courses offered by the College of Liberal Arts and Sciences.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation providing the college (and, in certain colleges, the academic unit) of their major allows the official recognition of the minor and the academic unit of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met.

Students wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. Students should also consult with an academic advisor in the college or department of their majors to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken
Academic Catalog Archive 2013-2014 679

as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

History Minor (LSHISMIN)

Campus: POLY

Description:

The minor in history focuses on American history, European history, Southwest history, environmental history and related fields.

Program Requirements:

This minor requires 18 credit hours of HST courses to include a minimum of 12 upper-division hours, of which six credit hours must be taken through the School of Letters and Sciences. All course work for the minor must be completed with a grade of "C" (2.00) or higher.

Enrollment Requirements:

Please contact the school for details.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Human Nutrition Minor (ECNTRMIN)

Campus: DTPHX, POLY

Description:

This minor program is available to any ASU student interested in learning about human nutrition. The student will develop a greater understanding of how nutrition contributes to healthy lifestyles and disease prevention.

Program Requirements:

The minor requires students to take the following courses, for a total 18 credit hours:

- NTR 241 Human Nutrition (3)
- NTR 340 Applications in Human Nutrition (3)
- NTR 341 Introduction to Planning Therapeutic Diets (3)
- NTR 440 Advanced Human Nutrition I (3)
- NTR 441 Advanced Human Nutrition II (3)
- NTR 444 Medical Nutrition Therapy (3)

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

Interdisciplinary Organizational Studies Minor (ASIOSMIN)

Campus: WEST

Description:

The minor in interdisciplinary organizational studies is designed to increase students' understanding of the behavior and the dynamics of individual, group and organizational processes in the workplace. It incorporates perspectives from the behavioral and social sciences, communication studies and management. The minor is learner-centered and allows students to select course work that matches their career and educational goals.

Program Requirements:

The minor consists of 21 credit hours, of which 18 must be upper-division course work.

Required Courses

ASB 440 Women in the Global Factory, SB, G (3) or POS 437 Women, Power and Politics, G (3)
PSY 430 Industrial Psychology (3) or SBS 461 Program Evaluation and Policy Research (3)
PSY 453 Organizational Behavior, SB (3)
Research methods course (3)*

Cluster 1: Courses Focused on Organizations

Choose two from the following courses, for a total of six credit hours:

COM 450 Theory and Research in Organizational Communication, SB (3)**
COM 451 Communication and Work Relationships (3)**
COM 453 Communication Training and Development (3)**
GLB 303 Relationship Management (3)
MGT 301 Principles of Management (3)
MGT 412 Managing Human Resources (3)
PSY 430 Industrial Psychology (3)***
PSY 482 Social Influence and Consumer Behavior, SB (3)
PHI 360 Business and Professional Ethics, HU (3)
PRM 311 Leadership in Recreation and Tourism (3)
SBS 461 Program Evaluation and Policy Research (3)**
SOC 324 Work and the Workplace, SB, H (3)
SOC 419 Organizations and Technological Change, G (3)
PSY 484, COM 484, or SOC 484 (or others) Internship (3)

The internship site must be approved by the SBS advisor.

Cluster 2: Courses Focused on Diversity Within Organizations

Choose one from the following courses for a total of three credit hours:

COM 463 Intercultural Communication Theory and Research, SB, G (3)
PSY 480 Cross-Cultural Social Psychology, SB, G (3)
POS 437 Women, Power and Politics, G (3)
SOC 270 Racial and Ethnic Relations, SB, C (3)
SOC 400 Perspectives on Aging, SB (3)
SOC 426 Social Inequality, SB (3)
WST 380 Race, Gender and Class, SB, C (3)

* SBS advisor's approval is required.

** Course may be selected if not used to fulfill core requirements.

Enrollment Requirements:

The minor in interdisciplinary organizational studies is open to all undergraduate majors. A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor. Please contact the division and visit the website for more information.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Interior Design History Minor (ARINTMIN)

Campus: TEMPE

Description:

The minor in interior design history is available to students interested in design and culture. The courses designated for the minor are part of the professional studies in interior design within the program of interior design. Moreover, the courses serve to inform the students about the importance of the global community, especially sociocultural groups, and the impact of the global community on the design of the interior environment.

Program Requirements:

A minimum of 18 credit hours (12 credit hours of which must be from the 300 or 400 level) are required for the minor. To enhance the understanding of the subject matter, the selected courses are sequential in nature and require certain prerequisites. Consequently, students should carefully note the semester in which any of these courses are offered.

Required Courses:

DSC 101 Design Awareness, HU, G (3)
INT 111 Interior Design Issues and Theories, HU (3)
INT 310 History of Interior Design I, HU, H (3)*
INT 311 History of Interior Design II, HU, H (3)

choose two courses from:

INT 412 History of Decorative Arts in Interiors, HU (3)
INT 413 History of Textiles in Interior Design (3)
INT 415 Latin American Design (3)
INT 494 Design and Context/Contemporary Design Issues in Europe** (3)

*Pre-requisite: ARS 102 with C or better

**Summer study abroad course, offered in summer term only.

Students must have an overall GPA of 2.50 or higher and achieve a minimum 2.50 GPA in minor classes to be awarded the minor.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Italian Minor (LAITAMIN)

Campus: TEMPE

Description:

Students pursuing a minor in Italian gain an understanding of the language, literature and cultures of Italian-speaking peoples and regions. There are opportunities to partake in study abroad programs, which can serve to enhance a student's minor experience and education.

Program Requirements:

The Italian minor requires 18 credit hours. A minimum of 12 credit hours must be upper division.

Required courses include:

ITA 311 Italian Conversation, G (3) or ITA 312 Italian Composition, G (3) or ITA 315 Italian for Business (3)
ITA 321 Introduction to Italian Literature I (3) or ITA 322 Introduction to Italian Literature II, HU (3)
One 400-level ITA course (3)

Elective courses:

Students may use a maximum of 6 credits from the 200 level. All remaining electives must be upper division.

Course substitutions are allowed for heritage and advanced speakers of the language.

Enrollment Requirements:

Students who wish to add a minor in Italian to the bachelor's degree program they are pursuing may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Justice Studies Minor (LAJUSMIN)

Campus: ONLNE, TEMPE

Description:

The minor in justice studies is designed for students interested in developing an understanding of meanings of justice and injustice and analyzing often controversial issues through critical inquiry and social science investigation.

Program Requirements:

The minor is 18 total credit hours. Students will be required to take two specific classes and will then have the option to select four JUS classes as their minor electives.

required courses (6)

JUS 105 Introduction to Justice Studies or JUS 305: Principles of Justice Studies (3)

JUS 303 Justice Theory (3)

elective courses (12)

Student can select any JUS course except JUS 301 and JUS 302.

- 12 credit hours must be upper division.
- A minimum of nine credit hours must courses offered by the School of Social Transformation.
- No pass/fail or noncredit course work may be applied to the minor.
- Students must receive a minimum grade of "C" (2.00) for all courses in the minor.
- Student must meet all course eligibility requirements, including prerequisites.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Landscape Studies Minor (ARLNDMIN)

Campus: TEMPE

Description:

The minor in landscape studies is designed for students who have an interest in landscape architecture but are pursuing a major in another field. The course selection is intended to provide greater understanding of landscape architecture issues that may be relevant in related professional disciplines and to broaden knowledge about the landscape in which we live.

Program Requirements:

A minimum of 18 credit hours (to include 12 credit hours of upper-division course work) are required for the minor.

Required Courses:

ALA 100 Introduction to Environmental Design, HU, G, H (3)

ALA 102 Landscape and Sustainability HU, G (3)

LPH 310 History of Landscape Architecture, HU, H, G (3)

LPH 311 20th-Century Landscape Architecture, HU (3)

Six additional upper-division credit hours of electives in the landscape architecture history and theory concentration must be selected from the following list:

ANP 494 Special Topics (1-3)

APH 494 Culture of Place, (3)

LDE 494 Applied Landscape Architecture (3)

LPH 394 Special Topics (3)

LPH 411 Landscape Architecture Theory and Criticism, L (3)

LPH 494 Special Topics (3)

LPH 499 Individualized Instruction* (3)
LTC 494 Plant Materials (3)

* These courses require a petition to The Design School.

A minimum GPA of 2.50 in minor courses is required to earn the minor in landscape architecture studies. In addition, students may not use a core course to count toward the minor. Students pursuing the BSD in architecture must petition the school to request a substitution for any core courses that are also included in the landscape architecture minor.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Life Sciences Minor (ASLSCMIN)

Campus: WEST

Description:

A minor in life sciences can be a valuable asset particularly when paired with an appropriate major. For instance, a biology minor paired with a political science major would provide a good background for someone who wanted to practice environmental law.

Program Requirements:

Required Courses:

BIO 181 General Biology I, SQ (4)
BIO 182 General Biology II, SG (4)
BIO 320 Fundamentals of Ecology (3)
BIO 322 Fundamentals of Ecology Laboratory (1)
BIO 353 Cell Biology (3)
BIO 354 Cell Biology Laboratory (1)
CHM 113 General Chemistry I, SQ (4)
CHM 116 General Chemistry II, SQ (4)
LSC 347 Fundamentals of Genetics (3)
LSC 348 Fundamentals of Genetics Laboratory (1)

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Please contact the division for more information. Materials Science and Engineering Minor (ESMSEMIN)

Campus: TEMPE

Description:

The materials science and engineering minor is designed to give other science and engineering majors an in-depth understanding of materials, including their structure, processing, properties and performance.

Program Requirements:

Students are required to take seven courses (minimum of 20 credits), listed below:

Required Courses:

CHM 114 (4), or CHM 113 (4) and CHM 116 (4)
MSE 250 Structure and Properties of Materials (3)
MSE 355 Structure and Defects (3)
MSE 356 Structure, Properties and Defects Lab (1)
two MSE courses at the 300 level or higher

one materials-related course from the following list:

any MSE course at the 300 level or higher
CEE 353 Civil Engineering Materials (3)
CHE 458 Semiconductor Material Processing (3)
CHM 471 Solid-State Chemistry (3)
EEE 352 Properties of Electronic Materials (4)
EEE 436 Fundamentals of Solid-State Devices (3)
MAE 351 Manufacturing Processes (3)
PHY 481 Materials Physics I (3)

Enrollment Requirements:

Students need sophomore status and a minimum 3.00 GPA to enroll in the minor in materials science and engineering, and a 2.50 GPA in all courses in the minor to receive the minor.

Interested students should consult with a SEMTE advisor to verify eligibility and to review all courses required for the minor. To schedule an advising appointment, please contact the SEMTE advising office at <http://engineering.asu.edu/semte/Advising.html> (<http://engineering.asu.edu/semte/Advising.html>).

Students interested in the materials minor should also consult with their major advisor to ensure recognition of the minor and to have their minor added to their DARS.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Mathematics Minor (ASMATHMIN)

Campus: WEST

Description:

The minor in mathematics explores the study of higher mathematics. It is designed to enable the student to understand the mathematics most

commonly used in business, economics and science. It is expected that students in the minor will be able to reason and to find creative solutions to problems that were either presented to them or meaningfully formulated by them. The minor is recommended for students who plan to major in integrative studies, life sciences and business and for those who are preparing for further graduate study.

Program Requirements:

The minor in mathematics consists of a minimum of 27 credit hours, of which nine credit hours must be taken in the mathematical sciences and applied computing department.

Required Courses:

- MAT 270 Calculus with Analytic Geometry I, MA (4)
- MAT 271 Calculus with Analytic Geometry II, MA (4)
- MAT 272 Calculus with Analytic Geometry III, MA (4)
- MAT 300 Mathematical Structures, L (3)
- MAT 342 Linear Algebra (3)

Choose three electives from the following courses, or other approved courses, in consultation with a departmental advisor, for a total of nine credits:

- MAT 310 Introduction to Geometry (3)
- MAT 371 Advanced Calculus I (3)
- MAT 411 History and Philosophy of Mathematics, HU, H (3)
- MAT 443 Introduction to Abstract Algebra (3)
- MAT 445 Theory of Numbers (3)
- STP 420 Introductory Applied Statistics, CS (3)

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Please contact the division for more information. Mathematics Minor (LAMATMIN)

Campus: TEMPE

Description:

The minor in mathematics is designed for students who want to further their knowledge of mathematics and is recommended for students who are majoring in such disciplines as physics, engineering, business, economics and the life and social sciences where the need for quantification in the analysis of phenomena is strong.

Program Requirements:

The minor in mathematics consists of a minimum of 18 credit hours. Required courses are as follows, for a total of nine to eleven hours:

- MAT 271 Calculus with Analytic Geometry II, MA (4) or MAT 266 Calculus for Engineers II, MA (3)
- MAT 272 Calculus with Analytic Geometry III, MA (4) or MAT 267 Calculus for Engineers III, MA (3)
- MAT 342 Linear Algebra (3) or MAT 343 Applied Linear Algebra (3)

Electives must be upper-division courses in mathematics (MAT) or statistics and probability (STP). Students may not apply MAT 411 or 485 or a course not offered at ASU to the minor, unless otherwise approved by a department advisor.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Media Analysis Minor (CSCMOMINA)

Campus: DTPHX, ONLNE

Description:

The mass media, more than ever before, plays a vital role in how information is disseminated and how societies are shaped and function. As traditional forms of media and information dissemination change rapidly in an increasingly technological world, it is more important than ever for students to understand the way that media work, as well as learn to evaluate the messages that are sent. All students can benefit from the study of mass communications institutions, functions and techniques. In this minor, students will learn to understand the roles that media play, how they are changing and their impact. They will be given the tools they need to critically evaluate, analyze and interpret media messages in order to become wise consumers of media themselves.

Program Requirements:

The minor of media analysis consists of 18 credit hours of course work. This is a requirement consistent with many other minor programs at Arizona State University and at other colleges and universities. The focus of the program is on media analysis. Students in the minor will concentrate on evaluating the impact of information dissemination rather than on topics that focus on the practice of gathering and distributing messages. Students in the minor may not register for courses in the professional journalism curriculum.

To take upper-division courses, the student must be at least a sophomore (25 credit hours). To pursue the minor in media analysis, the student must maintain a minimum 2.00 overall GPA, obtain a minimum grade of "C" (2.00) in each course in the minor and have a major other than journalism and mass communication.

Three specific classes will be required (nine hours). The required classes are:

- MCO 120 Media and Society, SB (3)
- MCO 240 Media Issues in American Pop Culture (3)
- MCO 418 History of Mass Communication, SB, H (3)

In addition, students select three additional courses (nine hours) from the list of electives offered by the journalism school. The common element of these courses is that they focus on understanding specific aspects of the mass media and how those aspects impact individuals and societies in terms of function, effects, and enculturation. Electives offered include:

- MCO 200 Introduction to the Electronic Media (3)
- MCO 240 Media Issues in American Pop Culture (3)
- MCO 430 International Mass Communication, G (3)
- MCO 435 Social Media (3)
- MCO 450 Visual Communication, HU (3)
- MCO 455 War and the Mass Media (3)
- MCO 456 Political Communication, SB (3)
- MCO 460 Race, Gender and Media, C (3)
- MCO 465 Sports and Media (3)
- MCO 473 Sex, Love and Romance in the Mass Media, SB (3)
- MCO 494 Special Topic courses (3)

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information: http://cronkite.asu.edu/undergrad/minor_media_analysis.php (http://cronkite.asu.edu/undergrad/minor_media_analysis.php).

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Military Leadership Minor (LAMISMIN)

Campus: TEMPE

Description:

The minor in military leadership is designed to enhance the student's learning experience by providing tools to prepare them for leadership roles in various organizations including business, government and education. Students complete courses that will cover academic and practical skills in many areas, including:

- effective communication
- leadership ethos
- leading, motivating and empowering others
- negotiating
- problem-solving
- team building

Program Requirements:

The minor in military leadership consists of 18 credit hours, of which 12 must be at the 300 or 400 level. Required courses are as follows:

MIS 301 Advanced Military Science I (3)
MIS 302 Advanced Military Science II (3)
MIS 401 Advanced Military Science III (3)
MIS 402 Advanced Military Science IV (3)

At least 12 credits must be in residence on an ASU campus.

The six additional hours are electives chosen from the following course offerings:

MIS 410 American Defense Policy I (3)
MIS 412 American Defense Policy II (3)
MIS 294 Special Topics (3)
MIS 499 Individualized Leadership Instruction (3)
HST 456 The Vietnam War (3)
HST 408 Civil War and Reconstruction (3)

Enrollment Requirements:

Students wishing to earn a minor in military leadership must first qualify to be enrolled in MIS 301. In order to be eligible for this, students must have completed one of the following:

- leader's training course in Ft. Knox, KY
- prior honorable military service

- three years of introductory leadership training in high school JROTC
- twelve hours in MIS 100 and MIS 200-level courses

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Music Minor (FAMUSMIN)

Campus: TEMPE

Description:

The music minor is designed for those students who are interested in a broad introduction to the study of music. The program allows for a diverse exposure to traditional through contemporary music practices, with numerous options to select courses based on students' interests.

Program Requirements:

The School of Music offers a minor in music consisting of 24 credit hours of course work, including a minimum 12 credit hours upper division. A minimum grade of "C" (2.00) is required in all courses.

Required Courses (12):

- MHL 201 Mac Literacy for Musicians (3)*
- MUS 100 Fundamentals of Music Notation (3)*
 - MUS 131 Bach to Bebop (3)
- MUS 340 Music for the Concert Hall, Stage and Screen (3)

Music history (select two of the following five courses) (6):

- MUS 347 Jazz in America (3)
- MUS 355 American Music (3)
- MUS 356 Broadway and the American Musical (3)
- MUS 410 History of Women in Music (3)

Electives (choose two of the following five courses) (6):

- MUS 354 Elvis (3)
- MUS 354 Classic Rock: 1960-1975 (3)
- MUS 354 Rock and Roll since 1975 (3)
- MUS 354 Beatles (3)
 - MUS 362 Rap Music and Hip-Hop Culture (3)

* The online version of this course is required.

Notes: MHL, MTC, MUP courses may be accepted as electives if the appropriate prerequisites are met and with instructor approval. Music reading and notation skills are a prerequisite for the music minor.

Courses only offered during the fall semester: MHL 201 and MUS 194: Bach to Bebop.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Music Performance Minor (HIMUSPMIN)

Campus: TEMPE

Description:

The minor or BIS concentration in music performance allows students who have a background playing an instrument or singing to continue their studies in music. The course work develops these skills through individual instrumental or vocal instruction and performance opportunities through various ensemble experiences. The program also includes the study of theoretical and historical elements of music. Students interested in pursuing the minor in music performance should contact the School of Music's Office of Academic Affairs for audition information and to schedule the audition.

Program Requirements:

The minor or BIS concentration requires 21 hours (12 upper division) in performance, history, theory and electives.

Core:

MUP 121 Secondary or minor instrument instruction (1)
MUP 121 Secondary or minor instrument instruction (1)
MUP 131 Bach to Bebop (3)
MUP 321 Secondary or minor instrument instruction (1)
MUP 494 Ensembles (3 semesters) (3)

choose one of the following:

a fourth semester of MUP 494 ensembles; one semester of MUS 494 "Urban Dance Music Ensemble" or one semester of MUS 294 "Rock Band Performance"

History:*

choose two of the following (upper division only):

MUS 340 Music for the Concert Hall, Stage, and Screen (3)
MUS 347 Jazz in America (3)
MUS 354 Classic Rock: 1950-1975(3)
MUS 355 American Music (3)
MUS 356 Broadway and the American Musical (3)
MUS 362 Rap Music and Hip Hop Culture (3)
MUS 410 History of Women in Music (3)

Theory:

MUS 100 Fundamentals of Music Notation (3) or
MTC 125 Basic Music Theory (3)

Electives (2)

MUP/MUS/MUE/MTC/MHL (upper division only) (2)

TOTAL 21 (12 upper division)

*MHL courses may be accepted if the appropriate prerequisites are met and/or with instructor approval

Admission requirement: An audition is required for entrance into the minor or BIS concentration and MUP 121 study. Audition criteria are determined by area faculty and will be similar to the MUP 111/311 criteria found in the Audition Requirements section on this webpage: <http://music.asu.edu/admissions/auditions/> (<http://music.asu.edu/admissions/auditions/>).

Enrollment Requirements:

Prospective students must successfully complete an audition for the faculty in the applicable instrument area. Audition criteria are determined by area faculty and will be similar to the MUP 111/311 criteria found in the Audition Requirements section on this webpage: <http://music.asu.edu/admissions/auditions/> (<http://music.asu.edu/admissions/auditions/>).

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Nonprofit Administration Minor (PPNLMMIN)

Campus: DTPHX

Description:

The minor in nonprofit management empowers students to positively impact the community in which they work. Course work introduces students to knowledge and skills for successful professional careers with nonprofit, social sector organizations that exist to improve the quality of life of communities. The nonprofit sector in the U.S. is unique in form and function, with more than 1.6 million organizations in the U.S. The minor is ideal for students enrolled in other degrees or majors at ASU who wish to earn a minor that concentrates on the management of nonprofit organizations. Students from such various disciplines as business, communication, education, global studies, museum studies, nursing, public affairs, religious studies, social work, sustainability and others find this program a beneficial supplement to their existing program as many find their career pathways from their degree occur within nonprofit organization forms. This program affords students the opportunity to start their pursuit of the certified nonprofit professional credential awarded through the Nonprofit Leadership Alliance (formerly American Humanics, Inc.) For more information about completing the CNP credential and requirements, please see the school website.

Program Requirements:

The minor requires 18 credit hours, 12 credit hours of required courses and six credit hours of elective courses.

Required Core Courses:

- NLM 220 Introduction to Nonprofit Organizations (3)
- NLM 300 Fundraising and Resource Development (3)
- NLM 310 Volunteer Management (3)
- NLM 430 Managing Nonprofit Organizations (3)

Electives (choose six elective credit hours from one of two blocks):

block A: choose this block if interested in the CNP credential:

- NLM 320 Professional Development Seminar (1 credit hour for 4 semesters)
- NLM 420 Nonprofit Leadership Alliance Institute (2)

block B: choose two courses if interested in minor only, without CNP credential:

- NLM 160 Voluntary Action and Community Leadership (3)
- NLM 380 Financial Management for Nonprofit Organizations (3)
- NLM 435 Service Learning for Community Development (3)
- PRM 486 Special Events Management (3)

Standards

- minimum "C" (2.00) grade required for all classes in the minor
- minimum GPA of 2.00 for those pursuing the minor; a major or premajor, other than BS in nonprofit leadership and management
- If also pursuing the CNP credential, student must meet the curricular and cocurricular requirements.
- 15 hours of graded classroom course work (no internship, no independent study)
- should be a junior to take 400-level classes

- no double counting of courses for both a major and the minor

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

Students wishing to pursue the nonprofit administration minor should consult an academic advisor in the college or department of their majors to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a university minor may not count toward both the major degree and the minor. Students pursuing a bachelor's in nonprofit leadership and management are not eligible to complete this minor. Students pursuing the nonprofit leadership and management bachelor's degree, however, may earn the certified nonprofit professional credential along with their major upon successfully completing both curricular and cocurricular requirements (see advisor for details).

Nutrition and Healthy Living Minor (NUNHLMIN)

Campus: DTPHX

Description:

The nutrition and healthy living minor will provide a strong knowledge base in nutrition and healthy diet planning to complement many majors.

Program Requirements:

The minor requires completion of a minimum of 18 nutrition credit hours.

Required Classes (12):

NTR 241 Human Nutrition (3)

NTR 340 Applications in Human Nutrition (3)

NTR 341 Introduction to Planning Therapeutic Diets (3) OR NTR 345 Development of Healthy Cuisines (3)

NTR 450 Nutrition in the Lifecycle (3)

Upper-Division Electives (6):

select two courses from the following list:

NTR 320 History of Nutrition (3)

NTR 346 Sports Nutrition (3)

NTR 348 Cultural Aspects of Food (3)

NTR 350 Nutrition Counseling (3)

NTR 351 Nutrition and Health Communications (3)

NTR 444 Medical Nutrition Therapy (3)

NTR 453 (494) Nutrition in the Media (3)

Additional prerequisites required for the above classes: CHM 101 (or 113) and BIO 201.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Parks and Protected Area Management Minor (PPPRMMINT)

Campus: DTPHX

Description:

As the Southwest continues to develop and urbanize, the demands and pressures on public lands and natural resources continues to grow. The interplay between society and natural resources is key to understanding modernity and continues to be at the center of policy issues and quality of life debates in the West. The minor in parks and protected area management introduces students to the role of parks and protected areas, with a focus on the unique issues faced by urban-proximate natural area managers. The minor allows students enrolled in other undergraduate programs at ASU to broaden their educational experiences. Students from such various disciplines as business, education, nursing, public affairs, social work and many others might find this program a beneficial supplement to their existing program. Students interested in the parks and protected area management minor may also be interested in therapeutic recreation, available through the parks and recreation management program.

Program Requirements:

Completion of a parks and protected area management minor in the School of Community Resources and Development requires the following:

Required Core Courses (12):

- PRM 120 Leisure and the Quality of Life (3)
- PRM 370 Natural Resource Recreation Planning and Management (3)
- PRM 380 Wilderness and Parks in America (3)
- TDM 480 Sustainable Tourism (3)

Elective (choose one course from the following list):

- PRM 301 Sustainable Communities (3)
- PRM 340 Outdoor Survival (3)
- PRM 470 Environmental Interpretation and Education (3)
- TDM 494 Special Topics, as approved by a SCR D advisor (3)
- TDM 448 Heritage and Cultural Tourism (3)

Standards

- 15 hours of graded classroom course work (no internship, no independent study)
- 12 hours of course work at the upper-division level, from the approved list
- minimum grade of "C" (2.00) required for all classes in the minor
- no double counting of courses for a major and the minor
- minimum GPA of 2.00 for those pursuing the minor, a major or premajor, other than a bachelor's in parks and recreation management.
- should be a junior to take 400-level courses

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

Students wishing to pursue the parks and protected area management minor should consult an academic advisor in the college or department of their major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a university minor may not count toward both the major degree and the minor. Students pursuing the bachelor's in parks and recreation management major are not eligible to complete this minor.

Philosophy Minor (ASPHIMIN)

Campus: WEST

Description:

The philosophy minor is designed to provide students with an understanding of central philosophical issues. The minor provides students with:

- a capacity for critical thinking and analytical reasoning
- a knowledge of the most important problems and ideas in the philosophical areas studied
- the ability to present one's positions effectively through oral and written communication

Program Requirements:

The minor in philosophy consists of 18 credit hours of philosophy course work, of which 12 must be upper-division hours (300 or 400 level). Only courses in which the student earns a grade of "C" (2.00 on a scale of 4.00) or higher will fulfill requirements for the minor.

Courses are to be selected from the following list, in consultation with an advisor, to create a coherent and complete program of study:

IAS 410 Evolution of Ideas, L/HU (3)
IAS 430 Science and Religion, L/HU (3)
PHI 101 Introduction to Philosophy, HU (3)
PHI 103 Principles of Sound Reasoning, L/HU (3)
PHI 304 Existentialism, HU (3)
PHI 306 Applied Ethics, HU (3)
PHI 318 Philosophy of Religion, HU (3)
PHI 340 Bioethics, HU (3) or IAS 340 Bioethics, HU (3)
PHI 360 Business and Professional Ethics, HU (3)
PHI 391 Historical Perspectives on Philosophy and Religion (3)
PHI 406 Moral Dilemmas, L/HU (3) or IAS 406 Moral Dilemmas, L/HU (3)
PHI 407 Environmental Philosophy and Policy, L/HU (3) or IAS 407 Environmental Philosophy and Policy, L/HU (3)
PHI 408 Feminist Ethics, HU (3) or IAS 408 Feminist Ethics, HU (3)
PHI 494 Special Topics (3)
PHI 499 Individualized Instruction (3)

Enrollment Requirements:

Students wishing to pursue the philosophy minor should consult an academic advisor in the unit offering that minor to ensure the appropriate set of courses is taken. The student should also consult an academic advisor in the college, division or department of his or her major to make sure the minor is recognized and to have the minor added to the program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Please contact the division for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Philosophy Minor (LAPHIMIN)

Campus: ONLNE, TEMPE

Description:

The minor in philosophy provides students with an understanding of philosophical inquiry and method. The minor offers an introduction to central themes both in the history of philosophy and in the current literature. Minor students have the opportunity to sharpen their critical reasoning skills

while addressing profound questions regarding the nature of:

- existence
- knowledge
- law
- morality
- politics
- science

Program Requirements:

A minor in philosophy consists of 18 credit hours, of which at least 12 must be upper division and approved by an advisor in the School of Historical, Philosophical and Religious Studies. All courses must be passed with a minimum grade of "C" (2.00). No more than two courses may be taken in any one of the following philosophical subdisciplines:

- metaphysics
- epistemology
- logic
- history of philosophy
- ethics/political philosophy

Students should consult with an academic advisor in the School of Historical, Philosophical and Religious Studies about a proposed selection of courses before registering.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation providing the college (and, in certain colleges, the academic unit) of their major allows the official recognition of the minor and the academic unit of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met.

Students wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. Students should also consult with an academic advisor in the college or department of their majors to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the School of Historical, Philosophical and Religious Studies for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Physics Minor (LAPHYMIN)

Campus: TEMPE

Description:

Physics is concerned with the nature, structure and interactions of matter and radiation. Adding a physics minor to another major program of study provides a student with the fundamental scientific basis to address the most challenging opportunities faced in a student's career.

Program Requirements:

Required Courses (24)

Choose between the following course combinations:

PHY 150 Physics I, SQ (4) or

PHY 121 University Physics I: Mechanics, SQ (3) and PHY 122 University Physics Laboratory I, SQ (1)*

and

PHY 151 Physics II, SQ (4) or

PHY 131 University Physics II: Electricity and Magnetism, SQ (3) and PHY 132 University Physics Laboratory II, SQ (1)**

Also required:

PHY 252 Physics III, SQ (4)

PHY 361 Introductory Modern Physics (3)

two upper-division electives (to be selected with the approval of the physics advisor) (6)

one lab course: PHY 333 (3) or PHY 334 (3)

*Both PHY 121 and PHY 122 must be taken to secure SQ credit.

**Both PHY 131 and PHY 132 must be taken to secure SQ credit.

A minimum of 12 upper-division credit hours are required to complete this minor.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Political Science Minor (ASPOLMIN)

Campus: WEST

Description:

The political science minor program is designed to help students gain an understanding of theory, practice and policy underlying political processes locally, nationally and internationally and to train students in research skills necessary for the analysis of complex sociopolitical issues locally and globally.

The program strives to meet these goals by offering students learner-centered course work in political theory, American political institutions and international relations and world affairs. These goals are accomplished by offering a flexible program of course work focusing on international urban, race or ethnic sociopolitical areas, internships and service-learning or action research opportunities. Under the direction of faculty, students focus on intellectual and concrete policy issues in the greater Phoenix metropolitan area, Arizona, the Arizona-Mexico borderlands, the Americas and the world.

Program Requirements:

The minor in political science consists of 18 credit hours in POS courses, 12 of which must be in upper-division courses.

Required Courses:

Select two from among the following:

POS 110 Government and Politics, SB (3) or POS 310 American National Government, SB (3)

POS 150 Comparative Government, SB, G (3)

POS 160 Global Politics, SB, G (3)
POS 210 Political Ideologies, SB (3)

Political science electives (12)*

* A maximum of three credit hours of internship and three credit hours of individualized instruction may be used to fulfill requirements.

Enrollment Requirements:

The minor in political science is open to all undergraduate majors. A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor. Please contact the division and visit the website for more information.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor.

The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minor.

Political Science Minor (LAPOSMIN)

Campus: ONLNE, TEMPE

Description:

The minor in political science offers students exposure to skills and knowledge that help them participate effectively as citizens in a democratic political system and flourish in the rapidly developing globalization of the world's political institutions, cultures and economies. The minor aims to provide students with an introduction to the tools and skills necessary to make connections linking theory with real world problems and issues.

Program Requirements:

The minor in political science consists of 18 credit hours in political science courses, 12 credit hours of which must be upper-division courses. Students who minor in political science must have two courses from among the following in addition to four political science electives:

POS 110 Government and Politics, SB (3) or POS 310 American National Government, SB (3) (but not both courses)
POS 150 Comparative Government, SB, G (3)
POS 160 Global Politics, SB, G (3)
POS 210 Political Ideologies, SB (3)

Students who minor in political science must have a minimum GPA of 2.00 for all courses that count toward the minor. Courses that count toward the minor must have a grade of "C" (2.00) or higher. No more than three credit hours of POS 484 Internship and three credit hours of POS 499 Individualized Instruction may be applied to the minor. A minimum of six upper-division credit hours must be taken in courses offered by the College of Liberal Arts and Sciences.

Enrollment Requirements:

Students who wish to pursue a minor in political science may do so with the permission of the department, school or college of their major as well as the advisor in the School of Politics and Global Studies. An ASU student who is pursuing a degree at any ASU campus may elect to add a minor offered at any other ASU campus.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken
Academic Catalog Archive 2013-2014 698

as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Psychology Minor (ASPGSMIN)

Campus: ONLNE, WEST

Description:

Psychology is the scientific study of the behavior and mental processes of individuals and groups. The study of psychology includes basic and applied courses in the subfields of clinical, developmental, organizational, cross-cultural and social psychology, cognitive systems and behavioral neuroscience. The psychology minor prepares students for more advanced study in psychology at the graduate level, in either graduate or professional schools. The program emphasizes the development of wide-ranging skills in critical thinking and reasoning, quantitative and qualitative research methods, working collaboratively on teams and presentation of information in oral and written form.

Program Requirements:

The minor consists of 22 credit hours in psychology, including the following:

Foundations of Psychological Science

- PSY 101 Introduction to Psychology, SB (3)
- PSY 230 Introduction to Statistics, CS (3)
- PSY 290 Research Methods, L/SG (4)

Social and Developmental Core

Choose one course from the following list:

- PSY 315 Personality Theory and Research, SB (3)
- PSY 341 Developmental Psychology, SB (3)
- PSY 350 Social Psychology, SB (3)

Neuroscience Core

Choose two courses from the following list:*

- PSY 320 Learning and Motivation (3)
- PSY 323 Sensation and Perception (3)
- PSY 324 Memory and Cognition (3)
- PSY 325 Physiological Psychology (3)
- PSY 330 Statistical Methods, CS (3)
- PSY 369 Biology of Human Sexuality (3)
- PSY 470 Psychopharmacology (3)

Psychology elective

- PSY upper-division elective (3)

* At least one choice must be PSY 320, 323, 324 or 325. A maximum of three credit hours of research (PSY 399 Supervised Research and PSY 499 Individualized Instruction) may be used to meet the minor requirements. PSY 484 Internship may be taken for elective credit only. All courses must be passed with a minimum grade of "C"(2.00 on a scale of 4.00) or higher.

Enrollment Requirements:

The minor in psychology is open to all undergraduate majors. A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the college or

department of his or her major to make sure the college or department of the major allows the recognition of the minor. Please contact the division and see the website for more information.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Psychology Minor (LAPGSMIN)

Campus: TEMPE

Description:

The minor in psychology focuses on appreciating and understanding the human condition from a scientific, psychological point of view. Students completing the minor in psychology should possess breadth of knowledge pertaining to the major principles, theoretical approaches and findings in psychology.

They should also understand and be able to use basic research and quantitative methods in psychology and be able to gather and synthesize psychological findings.

Finally, they should be able to understand the relevance and applicability of psychological principles, approaches and findings to individual, group and social issues. In so doing, they will be prepared as educated citizens to pursue productive careers and engage on a daily basis their increasingly complex, information-rich world.

Program Requirements:

The minor in psychology consists of completing the 22 credit hours of course work in the foundations of psychology and the breadth within psychology categories described below. Six credit hours of upper-division (300-499 level) psychology course work must be completed through courses offered by the College of Liberal Arts and Sciences, Department of Psychology.

Required Foundation Courses:

PSY 101 Introduction to Psychology - formerly PGS 101 (3)
PSY 230 Introduction to Statistics (3)
PSY 290 Research Methods (4)

Take one course each from four of the following five clusters:

Biological

PSY 325 Physiological Psychology (3)

Personality/Mental Health

PSY 315 Personality Theory and Research - formerly PGS 315 (3)
PSY 366 Abnormal Psychology - formerly PGS 466 (3)

Cognitive/Learning

PSY 320 Learning and Motivation (3)
PSY 323 Sensation and Perception (3)
PSY 324 Memory and Cognition (3)

Developmental

PSY 341 Developmental Psychology - formerly PGS 341 (3)

Social

PSY 350 Social Psychology - formerly PGS 350 (3)
PSY 351 Honors Social Psychology - formerly PGS 351 (3)

Note: If a non-psychology statistics course is approved by the psychology department to substitute for PSY 230 Introduction to Statistics, an additional psychology course must be taken to complete the 22 credit hours of required psychology course work. Internship credit and teaching assistant credit may not be used to satisfy this requirement. For more information, please contact a psychology advisor.

Enrollment Requirements:

Students who wish to pursue a minor in psychology may do so with the permission of the department, school or college of the major as well as the advisor in the Department of Psychology. An ASU student who is pursuing a degree at any ASU campus may elect to add a minor offered at any other ASU campus.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Public Relations and Strategic Communications Minor (HSPRSMIN)

Campus: WEST

Description:

The minor in public relations and strategic communication uses a number of academic program options to prepare students to become professionals with highly effective communication skills in speaking, writing, cultural sensitivity, critical thinking, problem-solving, media literacy, audience analysis and conflict management.

Program Requirements:

The public relations and strategic communications minor will provide students with professional and academic expertise in persuasion and campaign communication, public relations, crisis communication, special events planning, marketing, professional writing and editing (among other areas). Additionally, students will refine the presentation skills needed for public and community relations. The minor consists of 18 credit hours of upper-division course work, including nine credit hours of required course work and nine credit hours of electives.

Required Core Courses (choose three):

COM 319 Persuasion and Social Influence, SB (3)
COM 320 Communication and Consumerism, SB (3)
COM 353 Professional Communication (3)
COM 454 Rhetorical and Critical Approaches to Public Relations (3)

Electives (9)

Enrollment Requirements:

The minor in public relations and strategic communications is open to all undergraduate majors. Students should consult the advisors in the department of their major to determine if the minor is consistent with their educational goals. A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor. Please contact the division and see the website for more information.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Public Service and Public Policy Minor (PPPAFMIN)

Campus: DTPHX

Description:

The minor in public service and public policy is designed for students from across the university who have an interest in public service and public policy issues, students such as those studying journalism, sociology, criminology, the arts, engineering, the sciences and business. Course work provides basic knowledge of the field and enriches the major with an applied policy focus. The minor has a strong professional and applied focus, intended to enhance students' education and ability to seek jobs in the public sector.

The public service sector offers sustainable, exciting and fulfilling career options. With a minor in public service and public policy, students use their knowledge of the public sector as a catalyst to change the world. By understanding the challenges that government faces and being well-versed in the development of multiple, useful and realistic solutions, they can contribute to the development of local, national and global communities.

Program Requirements:

The minor in public service and public policy requires 18 credit hours.

Required Courses:

PAF 200 Public Service and Policy in the 21st Century (3)

PAF 300 Public Management and Administration (3)

PAF 340 Contemporary Policy Challenges (3)

PAF 400 Senior Capstone Project (3)

Electives (select two courses from the following list):

PAF 201 Economics and Public Policy (3)

PAF 410 Building Leadership skills (3)

PAF 420 Public Leadership (3)

PAF 470 Topics in Public Economics and Financial Management (3)

PAF 471 Public Policy Analysis (3)

URB 300 Urban and Metropolitan Studies (3)

URB 305 Urban Governance (3)

Other related electives may be selected with advisor approval.

Enrollment Requirements:

A total of 12 credit hours must be taken in the School of Public Affairs at ASU. These include three of the required courses (PAF 300, 340, and 400) and one of the upper-division electives.

To earn the minor, students must complete all course work in the minor with a minimum grade of "C" (2.00) or higher.

Students wishing to pursue a minor should consult an academic advisor in the unit offering the minor to ensure the appropriate courses are taken. Students should also consult an academic advisor in the college or department of the major to ensure the college or department of the major recognizes the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Real Estate Minor (BAREAMIN)

Campus: TEMPE

Description:

A minor in real estate is designed to provide an understanding of the real estate industry and to complement the major area of study. The minor consists of a strong foundation that includes real estate fundamentals, law, appraisal and land development. Students may choose from a variety of courses, such as investing, economics and urban issues, to complement the foundation. Students who complete the minor will have established a competitive knowledge base for careers in the real estate industry.

Program Requirements:

Students must complete a minimum of 18 credit hours, including 12 hours of required courses and six credit hours of electives.

Students must complete a minimum of 12 hours of resident credit for the minor. All courses must be completed with a grade of "C" (2.00) or higher.

The upper-division business courses required or elected for this minor will be restricted to students with 56 earned credit hours, a minimum 2.50 ASU GPA and completed course prerequisites.

Upper-Division Courses:

- LES 411 Real Estate Law (3)
- REA 380 Real Estate Fundamentals (3)
- REA 401 Real Estate Appraisal (3)
- REA 441 Real Estate Land Development (3)

Elective Courses:

- ALA 100 Intro to Environmental Design (3)
- CON 472 Development Feasibility Reports (3)
- GCU 361 Urban Geography (3)
- PUP 434 Urban Land Economics (3)
- REA 456 Real Estate Investments (3)
- SGS 310 Global Urban Systems (3)
- SOS 325 The Economics of Sustainability (3)
- URB 300 Urban and Metropolitan Studies (3)

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Recreation Management Minor (PPRECMIN)

Campus: DTPHX

Description:

The minor in recreation management introduces students to community recreation programming and planning for a variety of populations. The minor allows students enrolled in other undergraduate programs at ASU to broaden their educational experiences. Students from such various disciplines as business, education, nursing, public affairs, social work and many others might find this program a beneficial supplement to their existing program. Students interested in the recreation management minor may also be interested in the school's therapeutic recreation program.

Program Requirements:

The recreation management minor requires completion of 15 credit hours, six credit hours of required courses and nine credit hours of elective courses.

Required core courses:

- PRM 120 Leisure and the Quality of Life, SB (3)

PRM 303 Program Planning, L (3)

Electives (choose three courses from the following list):

- PRM 302 Inclusive Community Development, C (3)
- PRM 304 Recreation Planning and Facility Development, L (3)
- PRM 315 Community Recreation Systems (3)
- PRM 364 Foundations of Therapeutic Recreation, SB (3)
- PRM 368 Sports Management (3)
- PRM 475 Entrepreneurial Recreation and Tourism (3)
- PRM 486 Special Events Management (3)
- PRM 494 Special Topics (3)

Standards

- 15 hours of graded classroom course work (no internship, no independent study)
- minimum "C" (2.00) grade required for all classes in the minor
- minimum GPA of 2.00 for those pursuing the minor, a major or premajor, other than parks and recreation management
- should be a junior to take 400-level courses
- no double counting of courses for a major and the minor

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

Students wishing to pursue the recreation management minor should consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a university minor may not count toward both the major degree and the minor. Students pursuing a bachelor's in parks and recreation management are not eligible to complete this minor.

Religious Studies Minor (ASRELMIN)

Campus: WEST

Description:

The minor in religious studies introduces students to the world's religious traditions and how these are used by humans to interpret experiences and find meaning. Students learn to think critically about religious world views and presuppositions and to explore the relation to contemporary challenges in the world.

Program Requirements:

The minor in religious studies consists of 18 credit hours of religious studies course work, of which 12 must be upper-division hours (300 or 400 level). Only courses in which the student earns a minimum grade of "C" (2.00) can be counted toward the minor. Courses are to be selected in consultation with a program advisor to create a coherent and complete program of study for the minor.

Courses are to be selected from the following list, in consultation with an advisor, to create a coherent and complete program of study:

- REL 200 The Study of Religious Traditions, L/HU, G (3)
- REL 201 Religion and the Modern World, L/HU (3)
- REL 202 Religion and Popular Culture, HU, C (3)
- REL 203 Saints and Sinners: Explorations in Sacred Biography, HU, H (3)
- REL 205 Life, Sex, and Death, HU (3)
- REL 207 Ritual, Symbol and Myth, L/HU (3)
- REL 300 The Future of Religions, L/HU (3)

REL 310 Western Religious Traditions, HU, H (3)
REL 320 American Religious Traditions, HU, C, H (3)
REL 321 Religion in America, L/HU, C, H (3)
REL 345 Asian Religious Traditions, HU, G (3)
REL 381 Religion and Moral Issues, L/HU (3)
REL 390 Women and Religion, HU, G (3)
REL 391 Historical Perspectives on Philosophy and Religion (3)
REL 401 Sacred Scriptures and Social Choices, HU, G (3)

Enrollment Requirements:

The minor in religious studies is open to all undergraduate majors. However, students should consult with the advisors in the department of their major to determine if the minor is consistent with their educational goals. Students are encouraged to take courses outside their major and college. Please contact the department for more information.

Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Please contact the division for more information. Religious Studies Minor (LARELMIN)

Campus: ONLNE, TEMPE

Description:

A minor in religious studies encourages students to engage in a comparative, cross-cultural exploration of religions and cultures that complements a variety of undergraduate majors while promoting a deeper understanding of human nature and interaction. Students may pursue the minor in religious studies with regional, national, hemispheric, global and a variety of thematic emphases.

Program Requirements:

The minor in religious studies consists of 18 credit hours, at least 12 of which must be in the upper division. REL 207 (3) is required. For minor verification and assistance in course selection, students must consult an academic advisor in the School of Historical, Philosophical and Religious Studies.

Enrollment Requirements:

Students who wish to pursue a minor in religious studies may do so with the permission of the department, school or college of their major as well as an advisor in the School of Historical, Philosophical and Religious Studies.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college (and, in certain colleges, the academic unit) of the student's major allows the official recognition of the minor and the college and academic unit of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the School of Historical, Philosophical and Religious Studies for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Romanian Minor (LAROMMIN)

Campus: TEMPE

Description:

The minor in Romanian provides students with the means to develop their interests in social cultural and political matters that are marked by a strong language dimension.

Program Requirements:

The Romanian minor consists of 18 credit hours of ROM courses beyond ROM 201. This minor is structured so that it requires all ROM courses to be at the upper-division (300 and above) level.

- A grade of "C" (2.00) or better is required in all courses to be counted toward the minor.
- A minimum of six upper-division hours in the minor must be taken in residence at ASU.
- Pass/Fail courses cannot be used for the minor.
- ROM 101 through 201 are not applicable to the minor.
- Course substitutions are permitted for heritage speakers and other advanced speakers of Romanian.

Required courses include:

ROM 313 Romanian Composition and Conversation (3)
ROM 314 Romanian Composition and Conversation (3)
ROM 411 Advanced Spoken and Written Romanian I (3)
ROM 412 Advanced Spoken and Written Romanian II (3)
ROM 494 Advanced Romanian Grammar (3)
ROM 499 Individualized Instruction (3)

Enrollment Requirements:

Students who wish to add a minor in Romanian to the bachelor's degree program they are pursuing may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Russian Minor (LARUSMIN)

Campus: TEMPE

Description:

Students pursuing a minor in Russian gain an understanding of the language, literature and cultures of Russian-speaking peoples and regions. There are opportunities to partake in study abroad programs, which can serve to enhance a student's minor experience and education.

Program Requirements:

The Russian minor consists of 18 credit hours of Russian courses above RUS 202.

Required:

RUS 311 Russian Composition and Conversation (3)

RUS 312 Russian Composition and Conversation (3)

Electives above 202 level (12)

SLV 304 Computational Linguistics of Slavic Languages (3)

may be counted as a Russian course for purposes of the minor

Enrollment Requirements:

Students who wish to add a minor in Russian to the bachelor's they are pursuing may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Science, Technology and Society Minor (ECSTSMIN)

Campus: POLY

Description:

The science, technology and society program offers a minor to students outside the science, technology and society major, regardless of their major field of specialization. Living in a 21st-century world is characterized by rapid technological change and uncertainty. Mastering the intricacies of the interrelationships between technology and human systems will enhance a degree in any area, and arm graduates with the insights and skills required for success in any endeavor.

Program Requirements:

The minor in science, technology and society (STS) requires:

- A minimum of six upper-division hours in the minor must be School of Letters and Sciences courses.
- Courses that count toward the minor must have a grade of "C" (2.00) or higher.
- 18 credit hours of course work, 12 hours of which must be STS upper-division courses.
- Students who minor in STS must have a minimum GPA of 2.00 for all courses that count toward the minor.

One course in general STS and one in internationalization are required to complete the minor as follows:

General:

STS 101 Introduction to Science, Technology and Society (3) OR STS 304 Science, Technology and Society (3)

Internationalization:

STS 110 Global Technology and Development (3) or STS 317 Science, Technology and Global Engagement (3)

The following are examples of courses available to complete the minor:

STS 301 Research in Science and Technology Studies (3)

STS 302 Philosophy of Science and Technology (3)

STS 303 History of Science and Technology (3)
STS 305 Science and Social Theory (3)
STS 306 Social Effects of Science and Technology (3)
STS 318 Science, Technology and Government (3)
STS 325 Science, Technology and Public Policy (3)
STS 328 Science, Technology and Culture (3)
STS 329 Cultivating Technology in Newly Industrializing Countries (3)
STS 330 Information Technology and Globalization (3)
STS 331 Ethical Issues in Science and Technology (3)
STS 332 Seminar: Global Issues in Science and Technology (3)
STS 364 Science, Technology and National Security (3)
STS 425 Law, Values, Science and Technology (3)

Enrollment Requirements:

A GPA of 2.00 or higher is required for all resident applicants and 2.50 for nonresident applicants.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Slavic Studies Minor (LASLVMIN)

Campus: TEMPE

Description:

This minor focuses on Slavic languages and cultures with a concentration in either Bosnian/Croatian/Serbian (BCS) or Polish. It is intended primarily for the students of other departments (e.g., history, cultural anthropology, music, political science, economics) whose professional interests lie in Poland or the countries of South-Eastern Europe. The program places equal emphases on languages, culture and regional studies. The minor develops limited professional linguistic proficiency in either BCS or Polish along with adequate cultural sensitivity.

Program Requirements:

The minor in Slavic Studies requires 18 credit hours, including a minimum of 12 upper-division hours.

Required Courses:

any 300- or 400-level RUS, SLV, PLC, or BCS literature or culture course (3)
BCS 311 and 312 Bosnian/Croatian/Serbian Composition and Conversation (6) or
PLC 311 and 312 Advanced Polish (6)
SLV 304 Computational Linguistics of Slavic Languages, CS (3)
SLV 440 History of Slavic Languages, SB (3)
SLV 498 Senior Capstone Seminar, G (3)

Notes for Minor

- A grade of "C" (2.00) or better must be achieved in all courses to be counted toward the minor.
- A minimum of six upper-division hours in the minor must be taken in residence at ASU.
- Course substitutions are permitted for heritage speakers and other advanced speakers of Slavic languages. Please contact the School of International Letters and Cultures for more information.
- Pass/fail courses cannot be used for the minor.
- No 201 and 202 language courses are applicable to the minor.

Enrollment Requirements:

Students who wish to add the minor in Slavic Studies to the degree they are currently pursuing may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through
Academic Catalog Archive 2013-2014 708

established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Social Welfare Minor (LASSWMIN)

Campus: DTPHX

Description:

The social welfare minor prepares students for work in human service settings where a fundamental knowledge of human relations is required. It complements careers in journalism, communications, public administration, nursing and related fields and provides a foundation for students who seek to pursue an MSW. The minor enhances and broadens the ability of students to analyze complex family, individual and societal problems in the context of societal values, cultural diversity and other social and economic variables. The minor also contributes to students' understanding of society and social behavior, encourages critical thinking and helps develop communication skills.

Program Requirements:

Students should:

- Be at sophomore standing to take 300- or 400-level courses.
- Complete 18 credit hours of graded course work (internship or independent study not applicable).
- Complete a minimum of 12 credit hours of resident credit at ASU.
- Complete SWU 171 as the prerequisite for all upper-division SWU courses.
- Earn a grade of "C" (2.00) or higher for all classes in the minor.
- Maintain a cumulative GPA of 2.00 (4.00 scale) or higher.
- Meet with a social welfare advisor prior to registration.
- Take a minimum of 12 credit hours of upper-division course work from the approved list.

Required Courses:

SWU 171 Introduction to Social Work (3)
SWU 291 Social Service Delivery Systems (3)
SWU 432 Social Policy and Services (3)

Select three credit hours from the list below:

SWU 374 Diversity and Oppression in a Social Work Context (3)
SWU 394 LGBT Health Disparities (3)
SWU 498 Border Family and Community Asset Building Policies (3)
SWU 457 Southwest Borderland Immigration Issues (3)
SWU 498 Immigrants and Refugees (3)
SWU 494 Spanish for Human Services (3)
SWU 455 Social Work Practice Skills with Latinos (3)
SWU 498 Lesbian/Gay Issues (3)
SWU 498 Spirituality and Helping Profession (3)

Select six credit hours from the following list*:

SWU 303 Micro Human Behavior and the Social Environment (3)
SWU 340 Macro Human Behavior and the Social Environment (3)
SWU 498 Pro-Seminar (3)

*Note: Student may select one additional course from the cultural diversity options above.

Lower-division credit hours required: 6

Upper-division credit hours required: 12

Total credit hours required: 18

Enrollment Requirements:

Please meet with a social welfare advisor prior to registration.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Social and Behavioral Sciences Minor (ASSBSMIN)

Campus: WEST

Description:

The minor offers students an interdisciplinary focus across several fields of the social and behavioral sciences, including communication, sociocultural anthropology, geography, political science, psychology and sociology.

Program Requirements:

The minor consists of 18 credit hours, at least 12 credit hours of which must be in upper-division courses and at least 6 credit hours taken from the New College of Interdisciplinary Arts and Sciences.

All courses must be completed with a minimum grade of "C" (2.00 on a scale of 4.00). Students wishing to pursue a minor must meet with an academic advisor in the School of Social and Behavioral Sciences to construct a minor that reflects a particular area of specialty and interest.

Required Courses:

SBS 200 Introduction to Social and Behavioral Sciences, SB (3)

select one additional course from the following list:

COM 308 Advanced Research Methods, L (3)

COM 309 Rhetorical, Interpretive and Critical Methods in Communication (3)

PSY 290 Research Methods, L/SG (4)

SBS 302 Qualitative Methods (3)

SBS 303 Quantitative Methods (3)

SOC 391 Research Methods, L/SB (3)

Electives (12)

A maximum of three semester hours of internship and three semester hours of individualized instruction may be used to fulfill requirements.

Courses approved for the 12 credit hours in the minor would come from one of the approved themes from the major.

Enrollment Requirements:

The minor in social and behavioral sciences is open to all undergraduate majors. Students should consult the advisors in the department of their major to determine if the minor is consistent with their educational goals. A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major allows recognition of the minor. Please contact the division and see the website for more information.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Sociocultural Anthropology Minor (ASASBMIN)

Campus: WEST

Description:

The minor is designed to provide students with a substantive understanding of the theoretical assumptions and methodological techniques underlying the field of sociocultural anthropology. Courses provide students with knowledge about and theoretical approaches to cross-cultural studies and transnational research, emphasizing culture and political economy in historical context. Specifically, students minoring in sociocultural anthropology will be expected to demonstrate knowledge and skill in the following areas:

- anthropological approaches to and explanatory frameworks for the study of social issues in culture and political economy
- application of theoretical knowledge to understanding sociocultural practices across local and global contexts
- awareness of cultural, ethnic, gender, sexual, class and age differences and commonalities across world social formations
- critical thinking and analytical reasoning
- development of their own anthropological perspective for use in their everyday lives and future studies or employment
- effective oral presentation and written communication
- interpretation of cultural practices, social theory and social texts
- qualitative research methods in anthropology and other social sciences and interpretive humanities, including ethnographic field research and library research

Program Requirements:

The minor requires 18 credit hours, at least 12 of which must be in upper-division courses. Two courses, ASB 311 and SBS 302, are required. The remaining 12 credit hours may be drawn from ASB courses and from several key SBS courses. All courses must be passed with a minimum grade of "C" (2.00) or higher. Up to six credit hours of lower-division courses and three credit hours of ASB 499 Individualized Instruction may also be applied toward the minor.

Required Courses:

ASB 311 Principles of Social Anthropology, SB, G, H (3)
SBS 302 Qualitative Methods (3)

Choose four from the following, for a total of 12 credits:

ASB 102 Introduction to Cultural and Social Anthropology, SB, G (3)
ASB 211 Women in Other Cultures, HU/SB, G (3)
ASB 319 The North American Indian (3)
ASB 339 Grassroots Social Movements, SB (3)
ASB 340 Migration and Culture, SB, G (3)
ASB 342 Mexico-U.S. Borderlands, SB, C (3)
ASB 346 Marriage and Family Diversity, SB, C (3)
ASB 350 Anthropology and Art, HU (3)
ASB 353 Death and Dying in Cross-Cultural Perspective, HU/SB, G (3)
ASB 356 Central American Studies, SB, G (3)
ASB 374 Cultures and Politics of the Internet, SB (3)
ASB 389 Ethnographic Field Lab (1-6)
ASB 394 Special Topics (1-4)
ASB 440 Women in the Global Factory, SB, G (3)
ASB 442 Urban Anthropology, SB (3)
ASB 445 Globalization, Development and Resistance, SB, G (3)
ASB 447 Citizenship, Nationalism and Identity, SB, C (3)
ASB Electives (3)
SBS 301 Cultural Diversity, L/SB, C (3)
SBS 450 Topics in Local/Global, SB, G (3)
SBS 460 Urban Studies, SB (3)
SBS 480 Global Justice, G (3)

Enrollment Requirements:

The minor in sociocultural anthropology is open to all undergraduate majors. Students should consult the advisors in the department of their major to determine if the minor is consistent with their educational goals. A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. Sociology Minor (ASSOCMIN)

Campus: WEST

Description:

The sociology program provides students with an understanding of the theory, practice and policy underlying issues of social change, inequality and diversity. These issues are approached from multiple perspectives, including race or ethnicity, gender, economic position, age, geographic location and position in the global political economy.

The student minoring in sociology will learn how it enhances one's understanding of social realities and institutions at local, national and international levels and how sociology contributes to the other social sciences and to the humanities.

Students gain a basic understanding of the assumptions underlying the discipline of sociology and develop the research skills necessary for analysis of complex social issues. These objectives are met by offering a flexible program and by providing the student with individual and group experiences in working with faculty members on concrete intellectual and policy issues.

Program Requirements:

The minor in sociology requires 18 credit hours in sociology, of which 12 hours must be upper-division courses.

Required Courses:

SOC 101 Introductory Sociology, SB (3)

select one course from the following list:

SBS 303 Quantitative Methods (3)

SBS 304 Social Statistics I, CS (3)

SOC 390 Social Statistics I, CS (3)

SOC 391 Research Methods, SB (3)

SOC 483 History of Social Thought, SB (3)

SOC 486 Contemporary Theory, SB (3)

Additional Sociology Electives (12)

Enrollment Requirements:

The minor in sociology is open to all undergraduate majors. Students should consult the advisors in the department of their major to determine if the minor is consistent with their educational goals. A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor. Please contact the division and see the website for more information.

Sociology Minor (LASOCMIN)

Campus: ONLINE, TEMPE

Description:

A minor in sociology from the School of Social and Family Dynamics exposes students to the basic course work and issues within the discipline. This program provides an exceptional balance to studies in psychology, communication, education, business and nursing.

Program Requirements:

The minor in sociology requires 18 hours, of which 12 hours must be upper-division courses. A minimum of six upper-division SOC courses must be completed from offerings of the Tempe campus. Required courses are:

SOC 101 Introductory Sociology, SB (3)

SOC 391 Research Methods, SB (3) or SOC 483 History of Social Thought, SB (3) or SOC 486 Contemporary Theory, SB (3)

12 credit hours of sociology (SOC) electives, of which a minimum 9 credit hours must be upper division.

Enrollment Requirements:

Students who wish to pursue a minor in sociology may do so with the permission of the department, school or college of their major as well as the advisor in the School of Social and Family Dynamics. An ASU student who is pursuing a degree at any ASU campus may elect to add a minor offered at any other ASU campus.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Spanish Minor (ASSPAMIN)

Campus: WEST

Description:

The Spanish minor consists of three emphases: language, literature and cultures. These emphases are integrated within the discipline and with other disciplines within the New College of Interdisciplinary Arts and Sciences.

The program also allows credit for internships in social and business agencies. This school-to-work experience, in addition to offering the student possible entry-level job opportunities, provides stimulating linguistic and cultural rewards outside the campus environment.

Program Requirements:

The minor in Spanish consists of 18 upper-division credit hours (300 or 400 level).

The following courses cannot be used to fulfill requirements for the minor:

SPA 311
SPA 312
SPA 313
SPA 314

SPA 315
SPA 316
SPA 319
SPA 394
SPA 494

Preparatory course work may not be used to satisfy minor requirements. Preparatory course work includes:

SPA 111
SPA 201
SPA 202 (or test equivalent to placement in Spanish composition)
SPA 313
SPA 314 or SPA 316
SPA 315

Students must complete all course work in the minor with a grade of "C" (2.00) or better. No pass/fail credit may be used for minor requirements.

No course may be used to satisfy more than one of these requirements. Other courses must be approved by an advisor.

Enrollment Requirements:

Students wishing to pursue the Spanish minor should consult an academic advisor in the unit offering that minor to ensure the appropriate set of courses is taken. The student should also consult an academic advisor in the college, division or department of his or her major to make sure the minor is recognized and to have the minor added to the program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Please contact the division for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Spanish Minor (LASPAMIN)

Campus: ONLNE, TEMPE

Description:

Students pursuing a minor in Spanish gain an understanding of the language, literature and cultures of Spanish-speaking peoples and regions. There are opportunities to partake in study abroad programs, which can serve to enhance a student's minor experience and education.

Program Requirements:

The minor in Spanish requires a minimum of 18 upper-division credit hours. Course substitutions are allowed for heritage and advanced speakers of the language.

Required Courses:

SPA 325 Introduction to Hispanic Literature, HU (3)
SPA 412 Advanced Conversation and Composition, G (3)

Choose two of the following courses:

SPA 425 Spanish Literature (to 1700), HU (3)
SPA 426 Spanish Literature (from 1700), HU (3)
SPA 427 Spanish American Literature (to 1880), L/HU (3)
SPA 428 Spanish American Literature (from 1880), L, G (3)
SPA 464 Mexican American Literature, HU/SB, C (3)

Choose one of the following courses:

SPA 471 Civilization of the Spanish Southwest, L/HU, C (3)
SPA 472 Spanish American Civilization, HU, H, G (3)
SPA 473 Spanish Civilization, HU/SB, G (3)

Choose one from the following courses:

- SPA 319 Business Correspondence and Communication, G (3)
- SPA 413 Advanced Spanish Grammar, G (3)
- SPA 429 Mexican Literature, L/HU, G (3)
- SPA 434 Drama of the Golden Age (3)
- SPA 435 Cervantes-Don Quijote, L/HU (3)

Enrollment Requirements:

Students who wish to add the minor in Spanish to the degree they are currently pursuing may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Spanish Minor (LSSPAMIN)

Campus: DTPHX

Description:

The series of courses in this 18-credit-hour minor will help students hone Spanish communication skills and cultural knowledge, to serve the needs of the U.S. Latino community in professional settings (i.e., education, social work, health care, criminology, journalism). This program is only offered on the ASU Downtown Phoenix campus and is focused on serving the needs of the students in the College of Public Programs, the College of Nursing and Health Innovation, the Mary Lou Fulton Teachers College and the Walter Cronkite School of Journalism and Mass Communication. The combination of professionally focused courses and practical experience in this minor will enhance students' professional preparation for employment in positions that require advanced proficiency in Spanish and an in-depth understanding of U.S.-Latino culture.

Program Requirements:

Prerequisite: SPA 314/316 or permission of instructor.

- SPA 401 Spanish Oral Communication for the Professions (3)
- SPA 402 Written Communication for the Professions (3)
- SPA 403 Spanish Grammar and Stylistics for the Professions (3)
- SPA 404 Spanish in U.S. Professional Communities (3)
- SPA 405 Latino Cultural Perspectives for the Professions (3)
- SPA 484/SPA 499 Internship or Individualized Instruction* (3)

*Prerequisite: A minimum of 12 credit hours completed in this minor and permission of the instructor.

All courses for this minor will require a minimum grade of "C" (2.00) or better to receive credit toward fulfilling minor requirements.

Enrollment Requirements:

For additional admission and registration requirements, please visit the school website.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Special Events Management Minor (HSEVNMIN)

Campus: DTPHX

Description:

The minor in special events management is designed to offer students a solid understanding of special event programming and management. In addition to the two-tiered special event course, which provides basic and advanced instruction as well as experiential learning opportunities through event production, students will be able to select electives to meet their interests.

The minor allows students enrolled in other undergraduate programs at ASU to broaden their educational experiences. Students from such various disciplines as business, communication and many others find this program a beneficial supplement to their existing program. For more information, access the school's website.

Program Requirements:

The minor requires 15 credit hours, six credit hours of required courses and nine credit hours of elective courses.

Required Core Courses:

- PRM 486 Special Events Management (3)
- PRM 487 Advanced Special Events Management (3)

Electives (choose three elective courses from the following list):

- NLM 300 Fundraising and Resource Development (3)
- PRM 303 Program Planning (3)
- PRM 304 Recreation Planning and Facility Development (3)
- PRM 475 Entrepreneurial Recreation and Tourism (3)
- PRM 484 Internship (3)
- TDM 205 Introduction to Travel and Tourism, G (3)
- TDM 345 Meeting and Convention Planning (3)
- TDM 350 Tourism Marketing (3)
- TDM 458 International Tourism, G (3)

Standards

- 15 hours of graded course work (no independent study).
- minimum "C" (2.00) grade required for all classes in the minor
- minimum GPA of 2.00 for those pursuing the minor, a major or premajor, other than parks and recreation management or tourism development and management
- should be a junior to take 400-level courses
- no double counting of courses for a major and the minor

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

Students wishing to pursue the special events management minor should consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a university minor may not count toward the major degree and the minor. Students pursuing a BS in either parks and recreation management or tourism development and management are not eligible to complete this minor.

Speech and Hearing Science Minor (LASHSMIN)

Campus: TEMPE

Description:

The Department of Speech and Hearing Science offers an undergraduate minor in speech and hearing science. This is an academic program with emphasis on normal aspects of speech, language and hearing.

Program Requirements:

For your information, the required courses are listed below, but students are strongly encouraged to visit an advisor from the Department of Speech and Hearing Science at ASU. The minor in speech and hearing science consists of 24 credit hours with the following classes required:

SHS 105 Introduction to Human Communication Disorders (3)
SHS 250 Introduction to Phonetics (3)
SHS 310 Anatomical and Physiological Bases of Speech (3)
SHS 311 Hearing Science (3)

Choose one from the following:

SHS 367 Language Science, SB (3)
SHS 375 Speech Science (3)

The remainder of the credits must come from the following courses:

SHS 401 Introduction to Audiology (3)
SHS 402 Clinical Methods and Treatment of Communication Disorders (3)
SHS 465 Speech and Language Acquisition, SB (3)
SHS 470 Developmental Speech and Language Disorders (3)
SHS 485 Acquired Speech and Language Disorders (3)
SHS 496 Aural Rehabilitation (3)

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Statistics Minor (LASTAMIN)

Campus: TEMPE

Description:

The minor in statistics is recommended for students majoring in a variety of disciplines such as physics, engineering applications, business, economics and in the life and social sciences where the need for quantification in the analysis of phenomena is strong.

Program Requirements:

The minor in statistics consists of 18-20 credit hours.

Required courses:

MAT 271 Calculus with Analytic Geometry II, MA (4) or MAT 266 Calculus for Engineers II, MA (3)
MAT 272 Calculus with Analytic Geometry III, MA (4) or MAT 267 Calculus for Engineers III, MA (3)
MAT 300 Mathematical Structures, L (3)
STP 420 Introductory Applied Statistics, CS (3)
STP 421 Probability (3)
STP 427 Mathematical Statistics (3) or STP 429 Experimental Statistics, CS (3)

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Studio Art Minor (HISTARTMIN)

Campus: TEMPE

Description:

The art minor or BIS concentration in studio art is designed for students who have an interest in studio arts but are pursuing another major. The program includes foundation art courses that address formal issues in art and upper-division courses that develop a conceptual basis for the student while increasing technical proficiency in one or more studio areas. Course work in art history, both lower and upper division, helps foster critical understanding of aesthetics and the production of art. The designated course work is flexible enough for students to concentrate in a single area of the studio arts or explore several mediums.

Program Requirements:

The minor requires 21 credit hours (12 upper division) in studio art and art history, art education or a related area of study.

CORE STUDIO (6)

Required:

ART 110 Drawing as Seeing and Thinking

complete one of the following: (3)

ART 112 2-D Design

ART 113 Color

ART 115 3-D Design

ART 116 Introduction to Digital Media

STUDIO COURSES * (9)

choose three from the following courses:

ART 311 Drawing III

ART 314 Life Drawing II

ART 323 Painting II

ART 327 Watercolor II

ART 331 Sculpture II

ART 333 Foundry Casting Methods
ART 346 3-D Computer Imaging and Animation
ART 351 Intaglio I
ART 354 Screen Printing 1
ART 360 Ceramic Throwing
ART 364 Ceramic Handbuilding I
ART 365 Ceramic Handbuilding II
ART 376 Woven Structures I
ART 377 Surface Design
ART 394 ST: Beginning Relief
ART 394 ST: Ceramic Vessels
ART 394 ST: Fantasy Figure Foam Carving
ART 394 ST: Figurative Sculpture
ART 394 ST: Maker Workshop
ART 394 ST: Mixed Media: Collage
ART 394 ST: Printmaking in Greece
ART 394 ST: Slipcasting
ART 427 Art on Paper
ART 432 Neon Sculpture
ART 439 Intermedia Studio
ART 442 Art and Community
ART 443 Intermedia Performance
ART 445 Digital Processes for Printmaking
ART 453 Experimental Printmaking: Expanding the Matrix
ART 456 Fine Printing and Bookmaking I
ART 458 Papermaking
ART 459 Monoprinting
ART 461 Polymer Plate Prints
ART 494 ST: Artists' Books
ART 494 ST: Blacksmithing
ART 494 ST: Digital Compositing
ART 494 ST: Drawing in Florence
ART 494 ST: Enameling
ART 494 ST: Foundry
ART 494 ST: Illumination Systems
ART 494 ST: Metalworking
ART 494 ST: Summer Foundry Workshop

*Other ART 3XX/4XX courses may be taken if appropriate prerequisites are met or with instructor approval.

ART HISTORY (3)

choose one of the following:

ARS 101 Art from Prehistory Through Middle Ages
ARS 102 Art from Renaissance to Present

ART HISTORY, ART EDUCATION OR RELATED DEPARTMENTAL COURSES (3)

choose one of the following*:

ARA 311 Art Appreciation and Human Development
ARE 301 Studio Art and Human Development
ARE 370 Teaching Visual Culture
ARE 440 Interdisciplinary Art Education
ARE 494 ST: Child Art Development
ARE 494 ST: Multicultural Issues in Art Education
ARS 310 The Renaissance in Tuscany
ARS 340 Art in America
ARS 394 ST: Art and Myth of the Classical World
ARS 394 ST: Ancient Art and Culture
ARS 394 ST: Egyptian Art and Culture
ARS 394 ST: Italian Baroque Art
ARS 394 ST: Italian Renaissance Art
ARS 394 ST: Medieval Art
ARS 402 Art of Ancient Egypt

ARS 404 Greek Art

ARS 440 Identity and World Film
ARS 465 Native Art of North America
ARS 466 Native American Art of the Southwest
ARS 468 Art of the Arctic and Northwest Coast
ARS 472 Art of China
ARS 473 Art of Japan
ARS 475 Chinese Painting
ARS 484 Internship
ARS 494 ST: Contemporary Mexican Photography
ARS 494 ST: History of Mexican Photography
ARS 494 ST: Latinas in the Visual Arts
ARS 494 ST: Mestizaje/Guadalupe in Art

*Other ARA/ARE/ARS 3XX/4XX may be taken if appropriate prerequisites are met or with instructor approval.

TOTAL 21 Credit Hours (12 Upper Division)

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor. Please contact the department for more information.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Sustainability Minor (SUSUSMIN)

Campus: ONLNE, TEMPE

Description:

Arizona State University offers a minor in sustainability that introduces students to the problems of sustainability and enables them to understand what it is that determines the sustainability of human institutions, organizations, cultures and technologies in different environments at the local, national and international levels.

Program Requirements:

The minor requires 18 credit hours of course work:

- SOS 100 Introduction to Sustainability, G (3)
- SOS 300 Advanced Concepts and Integrated Approaches in Sustainability (3)
- two courses at the 100 or 200 level from two of the following different sustainability theme areas (6)

- coupled human-environment systems
- earth systems
- human transformation of the earth
- social, political and economic treatment of natural resources and environment

sustainability electives at the 300 or 400 level commensurate with student's major (6)

Students should consult with their academic advisor in the major for course selection.

Enrollment Requirements:

The sustainability minor is available to students pursuing a major outside of the School of Sustainability. However, this minor is not available to business students pursuing the sustainability concentration. Students who wish to add the minor in sustainability to the degree they are currently pursuing may do so if approved by the department, school or college of their major.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Students should contact their academic advisor for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Sustainable Tourism Minor (PPTDMSMIN)

Campus: DTPHX

Description:

As sustainability expands in popularity as a discipline, students are looking to find ways to better understand how they can apply the principles of sustainability to specific areas of interest. A minor in sustainable tourism development will allow students from any major to learn the basic concepts and theories of tourism development and management and help them identify ways in which tourism can contribute to sustainable development, locally and globally.

The minor allows students enrolled in other undergraduate programs at ASU to broaden their educational experiences. Students from such various disciplines as sustainability, business, and many others will find this program a beneficial supplement to their existing program. Students may also choose to complete a study abroad program.

Program Requirements:

The minor requires a total of 15 credit hours, 12 credit hours of required courses and three credit hours of elective.

Required Core Courses:

- TDM 205 Introduction to Travel and Tourism (3)
- TDM 372 Tourism Planning (3)
- TDM 458 International Tourism (3)
- TDM 480 Sustainable Tourism (3)

Electives Courses (choose one from the following list):

- PRM 475 Entrepreneurial Recreation and Tourism (3)
- TDM 394/494 Special Topics (3)
- TDM 448 Heritage and Cultural Tourism (3)
- TDM 481 Sustainable Food Management in Tourism (3)

Standards:

- 15 hours of graded classroom course work (no internship, no independent study)
- minimum "C" (2.00) grade required for all classes in the minor
- minimum GPA of 2.00 for those pursuing the minor; a major other than tourism development and management
- should be a junior or higher to take 400-level courses

- no double counting of courses for a major and the minor

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

Students wishing to pursue the sustainable tourism minor should consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a university minor may not count toward both the major degree and the minor. Students pursuing a BS in tourism development and management are not eligible to complete this minor.

Theatre Minor (FATHEMIN)

Campus: TEMPE

Description:

Students pursuing the theatre minor will study the literatures, histories and basic production practices of theatre while having opportunities to concentrate in an area such as:

- design and production
- directing and performance
- new work development
- theatre and performance studies
- theatre for youth

Program Requirements:

The school offers a minor in theatre consisting of 22 credit hours of course work (nine credit hours must be upper division). A grade of "C" (2.00) or higher is required for all courses in the minor. All prerequisites for the minor courses must be met (see course listings). Transfer students may transfer up to nine credit hours toward the minor.

The following courses are required, for a total of 13 credit hours:

FMP 201 Film: The Creative Process I, HU (3)*
THE 100 Introduction to Theatre, HU (3)
THE 322 Theatre History and Culture, HU, H (3)
THF 101 Acting Introduction (3)
THP 201 Theatre Production Crew (1)

Also required are nine credit hours of upper-division course work related to theatre. Choose from courses with the FMP, THE, THF or THP prefix. Contact the school for options and course requirements.

*Students considering a minor in film concurrently must complete an additional course in theatre or film to make up for the overlapping FMP 201 course (and THF 101, if taken for the filmmaking practices concentration).

Courses ordinarily limited to majors only are available to minors on a second-priority basis; that is, minors may not register for these courses early but are allowed to register after all majors' needs have been met.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Tourism Development and Management Minor (PPTDMMIN)

Campus: DTPHX

Description:

The minor in tourism development and management provides students with the planning and development skills needed to enter the largest industry in the world. Exposure to the businesses of sustainable tourism, heritage tourism and meeting and convention planning will begin to prepare students for successful careers in the fast-growing travel and tourism industry. According to the World Tourism Organization and the World Travel and Tourism Council, the travel and tourism industry is the largest industry and employer in the world. It is the third largest industry in the United States and ranks as the second largest industry in Arizona.

The minor allows students enrolled in other undergraduate programs at ASU to broaden their educational experiences. Students from such various disciplines as business, communication and many others find this program a beneficial supplement to their existing program. Having completed the minor in tourism development and management, a student may also complete a certificate in convention sales and meeting planning. For more information, access the school's website. Students may also choose to participate in a study abroad program.

Program Requirements:

The tourism development and management minor requires 15 credit hours, six credit hours of required courses and nine credit hours of elective courses.

Required Core Courses:

TDM 205 Introduction to Travel and Tourism, G (3)
TDM 480 Sustainable Tourism (3)

Elective Courses (choose three from the following list):

PRM 486 Special Events Management (3)
TDM 225 Introduction to Resort and Hotel Management (3)
TDM 345 Meeting and Convention Planning (3)
TDM 350 Tourism Marketing (3)
TDM 386 Convention Sales and Planning
TDM 394/494 Special Topics (3)
TDM 415 Tourism Transportation Systems (3)
TDM 448 Heritage and Cultural Tourism (3)
TDM 458 International Tourism, G (3)

Standards

- 15 hours of graded classroom coursework (no internship, no independent study).
- minimum "C" (2.00) grade required for all classes in the minor
- minimum GPA of 2.00 for those pursuing the minor, a major or premajor, other than tourism development and management
- should be a junior to take 400-level courses
- no double counting of courses for a major and the minor

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor. Students wishing to pursue the tourism development and management minor should consult an

academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a university minor may not count toward both the major degree and the minor. Students pursuing a BS in tourism development and management are not eligible to complete this minor.

Transborder Chicana/o and Latina/o Studies Minor (LATCLMIN)

Campus: TEMPE

Description:

The School of Transborder Studies offers an interdisciplinary degree program with a central mission of providing a value-added environment that increases the direct participation of Chicana/o and Latina/o populations in the formation of human and capital development.

The program offers students a fundamental understanding of the many dimensions of transnational and transborder processes. These include giving students the knowledge necessary to understand the manner in which Chicana/o, Mexican and Latina/o populations are influenced by, and also negotiate in, political, social, cultural and linguistic borders of multiple sorts.

An equally important dimension is the preparation of students to effectively function in transnational and transborder contexts and processes. Graduates will be able to traverse political borders because capital expansion is practically unlimited in time and space. Students gain skill at developing literary, policy and applied projects that benefit their communities and regions.

Program Requirements:

The transborder Chicana/o and Latina/o studies minor requires 18 credit hours of TCL course work.

Core Requirements:

TCL 201 Transborder Society and Culture I: Interdisciplinary Approaches (3) or
TCL 202 Transborder Society and Culture II: Contemporary Issues (3) and
TCL 332 Mexican American History Since 1900 (3)

Students must take the remaining 12 credit hours in upper-division TCL courses in concentrations of their choice.

Enrollment Requirements:

Students who wish to pursue a minor in Transborder Chicana/o and Latina/o studies may do so with the School of Transborder Studies. An ASU student who is pursuing a degree at any ASU campus may elect to add a minor offered at any other ASU campus.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Urban Planning Minor (ARPUPMIN)

Campus: TEMPE

Description:

The planning minor introduces students to the field of urban planning. Students can select courses that include:

- administration
- comprehensive planning
- planning law
- public policy formulation
- site planning
- socioeconomic and environmental analysis
- urban design

Many students continue to specialize in planning at the graduate level. Students in planning are exposed to the theories, methods and practices of the profession.

Program Requirements:

A minimum of 18 credit hours are required for the minor, at least 12 of which must be upper-division.

Required Course:

PUP 301 Introduction to Urban Planning, L (3)

The remaining 15 credit hours (at least nine of which must be upper-division) must be chosen from among the following courses:

- PUP 190 Sustainable Cities, HU/SB, G (3)
- PUP 200 Cities in Cinema, HU, H, G (3)
- PUP 363 History of Planning (3)
- PUP 410 Public Participation in Planning (3)
- PUP 412 History of the City, L/HU and H (3)
- PUP 420 Theory of Urban Design, HU (3)
- PUP 425 Urban Housing Analysis (3)
- PUP 430 Transportation Planning and the Environment (3)
- PUP 432 Planning and Development Control Law (3)
- PUP 433 Zoning Ordinances, Subdivision Regulations and Building Codes (3)
- PUP 436 City Structure and Planning (3)
- PUP 442 Environmental Planning (3)
- PUP 444 Preservation Planning (3)
- PUP 445 Women and Environments, C (3)
- PUP 452 Ethics and Theory in Planning, L (3)
- PUP 465 Sustainable Urbanism (3)
- PUP 484 Internship (1-12)
- PUP 485 International Field Studies, G (1-12)
- PUP 494 Special Topics (1-4)

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Urban and Metropolitan Studies Minor (PPURBMIN)

Campus: DTPHX

Description:

The minor in urban and metropolitan studies offers students interested in the urban environment the opportunity to explore the wide variety of issues that influence the quality of life in urban communities. Students are encouraged to learn about cities as historical, social, cultural, economic and political phenomena in order to gain a strong understanding of the complex relationships that contribute to the problems and opportunities of urban living. As the population in the state's urban areas continues to grow, so will the demand for leaders who are skilled in new and innovative ways with which to address the challenges such growth generates. The program allows students enrolled in other undergraduate programs at ASU to broaden their educational experiences. Students from such various disciplines as planning, business, political science, nonprofit management and leadership, communication, social work, geography and many others might find this program a beneficial supplement to their existing program.

Program Requirements:

- 12 hours of residence credit at ASU
- 15 hours of course work with a "C" (2.00 on a scale of 4.00) or better in each course
- nine hours of upper-division course work from the approved list

Eligibility to pursue the minor requires a major or pre-major other than urban and metropolitan studies.

Required Courses:

URB 300 Urban and Metropolitan Studies (3)

URB 305 Urban Governance (3)

core courses (choose two of the following):

URB 220 Introduction to Urban America (3)

URB 240 Urban Policy (3)

URB 301 Urban Research (3) or PAF 302 Public Service Research Methods (3)

URB 302 Urban Theory (3)

URB 410 Building Leadership Skills (3) or PAF 410 Building Leadership Skills (3)

Urban Electives (select a combination of courses from the following prefixes)

URB, PAF, POS, PUP, GPH, GCU, MGT, HST, SBS, SOS, ASB, SOC, WST, TWC, COM, CRJ, SWU, NLM, TDM, PRM

Related Urban Topics and other approved courses (see below) (3)

Students will be able to choose from a variety of related urban topics classes offered by the School of Public Affairs. Possible topics include:

- community-building and development
- comparative urbanism
- computer applications
- leadership and change
- leadership and communication
- policy analysis and evaluation
- political economy
- poverty and social welfare policy
- regionalism
- urban economics

In addition, students can choose related courses offered by the School of Public Affairs or other departments.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

Students wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. Students should also consult an academic advisor in the college or department of the major to make sure the college or

department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Wellness Foundations Minor (EEXWMIN)

Campus: DTPHX

Description:

The exercise and wellness program offers this minor program to any ASU student interested in learning about health and wellness. Students will develop a greater understanding of wellness behaviors, healthy lifestyles and disease prevention.

Program Requirements:

The minor in wellness foundations consists of 18 credit hours. The minor requires that students complete the following courses with a grade of "C" (2.00 on a scale of 4.00) or higher:

- EXW 100 Introduction to Health and Wellness (3)
- EXW 300 Foundations of Health Promotion and Wellness (3)
- EXW 325 Fitness for Life (3)
- EXW 342 Health Behavior Change (3)
- EXW 450 Social Determinants of Health and Health Behavior (3)

EXW Elective:

three credit hours must be selected from the following approved list of electives:

- EXW 320 Management and Leadership in Exercise and Wellness (3)
- EXW 344 Physical Activity in Health and Disease(3)
- EXW 350 Substance Abuse and Addictive Behavior (3)
- EXW 380 Body Image and Wellness (3)
- EXW 400 Stress Management for Wellness(3)
- HSC 210 Cultural Aspects of Health(3)
- HSC 300 Complementary Healthcare(3)
- NTR 241 Human Nutrition(3)
- NTR 346 Sports Nutrition(3)
- NTR 351 Nutrition and Health Communications (3)

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Women and Gender Studies Minor (ASWSTMIN)

Campus: WEST

Description:

The minor in women and gender studies, within the New College of Interdisciplinary Arts and Sciences, is an interdisciplinary program emphasizing intersectional approaches to the study of gender, race, class, ethnicity and sexuality in national and transnational contexts.

Program Requirements:

The women and gender studies minor consists of 18 credit hours of course work, of which 12 credit hours must be upper division (300 or 400 level).

Core Requirements (12 credit hours):

ETH 310 Critical Research Methods, SB (3)

HRC 498 Capstone: Practices and Approaches (3)

WST 100 Women, Gender and Society, SB, C (3) or WST 300 Women and Gender in Contemporary Society, SB, C (3)

WST 276 Wave on Wave: Survey of U.S. Women's Movements, H (3)

WST elective course work (6 credit hours)

Enrollment Requirements:

Students wishing to pursue the women and gender studies minor should consult an academic advisor in the unit offering that minor to ensure the appropriate set of courses is taken. The student should also consult an academic advisor in the college, division or department of his or her major to make sure the minor is recognized and to have the minor added to the program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Please contact the division for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors

Women and Gender Studies Minor (LAWSTMIN)

Campus: ONLNE, TEMPE

Description:

The minor in women and gender studies provides students with an intensive interdisciplinary liberal arts education that enables them to write well, think critically and analyze problems effectively. Students take a variety of courses, including a capstone seminar requiring original research and writing plus an internship that helps them prepare for life after college. Original undergraduate research is encouraged, and some courses involve students studying community problems and formulating policy solutions.

Program Requirements:

The women and gender studies minor consists of 18 credit hours, 12 of which must be upper division.

Students take one of the following courses (3 credit hours):

WST 100 Women, Gender and Society, SB, C (3) or WST 300 Women and Gender in Contemporary Society, SB, C (3)

Students choose one from the following courses (3 credit hours):

WST 377 History of American Feminist Thought, H, C (3)

WST 378 Global Feminist Theory, L, C, G (3)

WST 380 Race, Gender and Class, SB, C (3)

Twelve additional credit hours of women and gender studies electives must be taken and can be selected from any WST-prefix course.

- A minimum "C" grade or higher is required.
- At least 12 of the 18 hours must be upper division.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Youth Services Leadership Minor (HSYSLMIN)

Campus: DTPHX

Description:

The minor in youth services leadership is designed to explore the area of youth leadership from the perspective of those who work face-to-face with youth in a variety of settings. The minor allows students enrolled in a variety of undergraduate programs at ASU to broaden their knowledge of youth services. Students from programs such as education, nursing, social work, criminal justice and others may find this program a beneficial supplement to their existing program.

Program Requirements:

The minor requires 15 credit hours, three credit hours of required courses and 12 credit hours of elective courses.

Required Core Course:

PRM 303 Program Planning (3)

Elective Courses (choose four from the following list):

CRJ 204 Juvenile Justice (3)

CRJ 462 Gangs (3)

NLM 220 Introduction to Nonprofit Organizations (3)

NLM 310 Volunteer Management (3)

PRM 302 Inclusive Community Development (3)

PRM/NLM 451 Grant Writing (3)

PRM 364 Foundations of Therapeutic Recreation (3)

PRM 394 Special Topics (3)

PRM 494 Special Topics (3)

PRM 486 Special Events Management (3)

Standards

- 15 hours of graded classroom course work (no internship, no independent study)
- minimum "C" (2.00) grade required for all classes in the minor
- minimum GPA of 2.00 for those pursuing the minor, a major or pre-major, other than tourism development and management
- should be a junior to take 400-level courses
- no double counting of courses for a major and the minor

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

Students wishing to pursue the youth services leadership minor should consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a university minor may not count toward both the major degree and the minor.

Undergraduate Programs

Undergraduate Certificates (Program Descriptions and Requirements)

African and African American Studies Certificate (LAAFRCERT)

Campus: TEMPE

Description:

The African and African American studies program offers an interdisciplinary examination of the many ways in which African and African-descended peoples have created robust lives for themselves and, in turn, contributed to the creation of the modern world.

The program's mission is advanced by its core undergraduate curriculum that examines the culture, arts, history, politics, economics and current status of African Americans, Africans and the African diaspora everywhere, especially in the Caribbean, Central America and South America.

The curriculum combines a research-based understanding of the humanities, social and behavioral sciences and the arts with practical applications (internships, community or civic engagement and research projects) to prepare students for lifelong learning, advanced study in a variety of fields, and successful careers and productive public service in an increasingly diverse society, especially in Arizona.

Program Requirements:

Students will be required to complete 24 credit hours. Six credits will be a prescribed core and the remaining 18 elective hours will be selected from any of the program prefixes (AFH, AFR, AFS).

Required Certificate Core Course:

AFS 200 Introduction to African and African Diaspora Studies (3)

Elective Core Course:

choose one of the following four courses:

AFH 300 Precolonial Africa (3)

AFH 305 The Global History of the Trans-Atlantic Slave Trade (3)

AFS 301 Race and Racism in Africa/African Diaspora (3)

AFS 302 History of Black Women in America (3)

Elective Courses:

The remaining 18 credit hours will be completed by selecting courses not taken to fulfill the six core credit hours and will be selected from any of the program prefixes (AFH, AFR, AFS). At least 18 of the 24 credit hours must be upper-division courses (300 or higher). All courses must have a "C" (2.00) grade or higher. No course may be used to satisfy more than one requirement in the undergraduate certificate.

Enrollment Requirements:

Students admitted to study at Arizona State University are eligible to pursue the requirements of a certificate. In order to be admitted to the university, complete the Office of Admission online application. Please contact the unit for additional information.

Arabic Studies Certificate (LAARBCERT)

Campus: TEMPE

Description:

The certificate in Arabic studies provides students with skills that will enable and qualify them to communicate effectively in Arabic in the four areas of language acquisition:

- listening
- reading
- speaking

- writing

Simultaneously, students gain a broad knowledge and understanding of the culture, literature and traditions of the vast Arabic-speaking world.

The certificate provides critically needed educational and cultural diversity that will enrich students' undergraduate experience and prepare them for life as employees and employers.

Graduate students in the liberal arts, social sciences and humanities seeking academic or professional careers in any of the three disciplines or thematic concentrations are also expected to be attracted to this certificate because of the added advantage the program gives them in the job market given the demonstrably high need for graduates with Arabic knowledge.

Program Requirements:

ASU students admitted to a degree program in any field of study would be eligible for the Arabic studies certificate program. In addition to the course work and examinations required in the major field of interest, students are responsible for fulfilling the minimum requirement of 18 hours (at least 12 upper-division) to earn the Arabic studies certificate. These hours can be chosen in consultation with the certificate coordinator. A minimum grade of "C" (2.00) or higher is required in each course.

Enrollment Requirements:

Students must first be accepted into an appropriate degree program at ASU and will then apply directly to the director of the Arabic studies certificate in the School of International Letters and Cultures for admission into the certificate program.

The application will consist of:

- name
- address
- phone number
- email address
- student ID number
- major
- year in college
- anticipated graduation date
- name of their major academic advisor

Please contact the department for more information.

Arts Entrepreneurship Certificate (HITHAECERT)

Campus: TEMPE

Description:

Arts entrepreneurship is a nascent transdisciplinary field that harnesses the skills and mindset of the entrepreneur to empower artists to create work that is meaningful, sustainable, and oriented to community and market need. Students across art, dance, design, film, music and theatre disciplines will benefit from the business, marketing, and organizational skills offered by certificate courses as applied specifically to and within the arts.

Program Requirements:

The undergraduate certificate in arts entrepreneurship consists of 15 credits. Three credits must be taken from each category of electives shown below: art business; and arts policy, community, and socially engaged arts. A grade of C or better is required in all courses.

Required Courses:

- THP 352 Foundations of Arts Entrepreneurship (3)
- HDA 420 Design and the Arts Business Administration (3)
- THP 452 Arts Entrepreneurship Seminar (3) as a culminating experience to the certificate program.

Electives:

Arts Business

ARA 396 Professional Practices for Artists (3)

ARA 460 Gallery Exhibitions (3)

DSC 394 Design Entrepreneurship & Society (3)

FMP 417 Business Ethics in Entertainment (3)

FMP 494 Business of Media Industries (3)

MUE 494 Collaborative Entrepreneurship in the Arts (3)

MUP 319 Advanced Audio Engineering in the Arts (3)

MUS 494 The Enterprising Musician (3)

THP 394 Management and the Arts (3)

THP 450 Theatre Organization and Management (3)

or another course approved by the certificate program coordinator.

Arts Policy, Community or Social Engaged Arts

ARS 494 Art and Politics (3)

ARS 494 Arts and Public Policy (3)

ARS 498 Public Art (3)

HDA 310 Socially Engaged Practice (3)

MHL 494 Music and Movement in Urban Culture (3)

MUS 494 Music Product Creation and Development (3)

THP 482 Theatre for Social Change (3)

Plan of study:

The plan includes a significant final project in the eighth semester seminar that serves as a capstone for the certificate:

Semester 4: THP 352 Foundations of Arts Entrepreneurship (3), followed by application to the certificate program

Semester 5: HDA 420 Design and the Arts Business Administration (3);

Semester 6: Arts Business course from the list above (3)

Semester 7: Arts Policy, Community or Socially Engaged Arts course from list above (3)

Semester 8: THP 452 Arts Entrepreneurship Seminar (3)

Enrollment Requirements:

The certificate in arts entrepreneurship, meant to extend the study of an individual arts discipline, will be available only to current students with a major within the Herberger Institute for Design and the Arts. Students will be admitted to the certificate program upon completion of THP 352 Foundations of Arts Entrepreneurship with a grade of B or better and an overall GPA of 3.00 or higher. Students will submit an application to the Herberger Institute Office of Student Success. Herberger Institute students meeting the course and GPA requirements may enroll in the certificate, and a Herberger Institute advisor will add the certificate plan code to the student's record.

Asian Pacific American Studies Certificate (LAAPACERT)

Campus: TEMPE

Description:

Asian Pacific American studies is an interdisciplinary undergraduate curriculum in the School of Social Transformation that addresses the historical and contemporary experiences of Asian Americans and Pacific Islanders, what they have contributed to our society, and the complexity of racial formations in the U.S.

The curriculum is designed to help students of all ethnicities:

- develop clear written arguments and present their perspectives effectively
- to learn about Asian American and Pacific Islander experiences and communities in Arizona, nationally, and within a larger global context

- to prepare students to participate in an increasingly diverse and global U.S. society
- to think critically

The certificate program provides students with opportunities to think critically about interethnic cooperation and conflict in the formation of social institutions and communities. The certificate program also encourages students to learn about local Asian American and Pacific Islander communities and organizations through research, courses and community internships.

Program Requirements:

Students will be required to complete 18 credit hours for the certificate. Nine hours will be a prescribed core and the remaining nine elective hours will be selected from any of the courses with an APA prefix.

Required Core Courses:

- APA 200 Introduction to Asian Pacific American Studies, HU/SB, C (3)
- APA 360 Asian Pacific American Experience, HU/SB, C (3)
- APA 484 Internship (3)

Elective Courses

The remaining nine credit hours will be completed by selecting courses not taken to fulfill the nine required hours and will be selected from any APA course. Examples of APA course options include but are not limited to:

- APA 210 Introduction to Ethnic Studies in the U.S. (3)
 - APA 310 Asian Pacific American Arts and Culture (3)
 - APA 315 Asian Pacific American Literature (3)
 - APA 330 Asian Pacific American Genders and Sexualities (3)
 - APA 340 Asian Pacific Americans and Media (3)
 - APA 345 Asian Pacific Americans and Film (3)
 - APA 360 Asian Pacific American Experience (3)*
- APA 394 Special Topics (may be repeated for credit with a different topic) (3)
 - APA 450 Asian Pacific American Contemporary Issues (3)
 - APA 484 Asian Pacific American Community Internship (3)
 - APA 494 Special Topics (may be repeated for credit with a different topic) (3)
 - APA 499 Individualized Instruction (1-3 credits; may be repeated for credit)

*Note: One APA 360 course is required for the core; the other sections may be repeated for credit with different topics:

- Asian American psychology
- the Chinese American experience
- the Filipina/o American experience
- the Japanese American experience
- the Korean American experience

- the Multiracial experience
- the Pacific Islander experience
- the South Asian experience
- the Southeast Asian experience

Other Requirements and Restrictions

- At least 12 of the 18 credit hours must be upper-division courses (300 or higher).
- All courses for the certificate must have a "C" (2.00) grade or higher.
- A minimum of nine credit hours must be taken in residency at ASU.
- No course may be used to satisfy more than one requirement in the certificate.

Enrollment Requirements:

Students admitted to study at Arizona State University are eligible to pursue the requirements of a certificate. In order to be admitted to the university, complete the Office of Admission online application. Please contact the unit for additional information.

Asian Studies Certificate (LAASNCERT)

Campus: TEMPE

Description:

The Asian studies certificate is offered through the Center for Asian Research. It supplements a bachelor's degree, demonstrating knowledge of an Asian language as well as general knowledge of Asian history, art, culture and society. The certificate provides students with official transcript recognition of specialization in Asian Studies related to their major area of study. An earned certificate will appear on student transcripts as an Asian study emphasis.

Program Requirements:

The certificate curriculum includes 24 credit hours of course work, including:

- Fifteen credit hours of upper-division area studies course work in at least three disciplines outside of languages and literature courses (such as anthropology, art, geography, history, political science and religious studies)
- Nine additional credit hours may be some combination of lower- and upper-division courses
- Six hours may be satisfied with language and literature courses limited to courses numbered 321 and above

In addition, certificate students must demonstrate proficiency in an Asian language at the intermediate level. The language requirement can be satisfied by completing the 201 and 202 sequence, one year of study abroad at the intermediate level, or satisfactory placement on a proficiency exam. Asian languages include:

- Chinese
- Hindu/Urdu
- Indonesian
- Japanese
- Korean
- Thai
- Vietnamese

Students pursuing an Asian studies certificate may apply courses in East, South and Southeast Asia to meet the certificate requirements. A minimum grade of "C" (2.00) is required for each course that is used to fulfill the certificate requirements.

Enrollment Requirements:

There are no specific admission requirements other than a student's desire to learn about Asia. Please contact the School of Historical, Philosophical and Religious Studies for more information and see <http://car.clas.asu.edu/> (<http://car.clas.asu.edu/>). All advising for this certificate is done through the School of Historical, Philosophical and Religious Studies. Please use your MyASU or the SHPRS academic advising webpage at <https://shprs.clas.asu.edu/advising> (<https://shprs.clas.asu.edu/advising>) to schedule an appointment with an advisor.

Brazilian Studies Certificate (LABZSCERT)

Campus: TEMPE

Description:

The Brazilian studies program consists of five essential components:

course in basic linguistic competence on the first and second year level
advanced skills development in third and fourth year language courses

grounding in major texts of Brazilian literature
examination of major themes in Brazilian popular and urban culture, with particular emphasis on Afro-Brazilian society
complementary courses in specific issues in Brazilian culture as offered by collateral departments

Program Requirements:

ASU students admitted to a degree program in any field of study would be eligible for the Brazilian studies certificate program.

Once enrolled in the certificate, students must demonstrate proficiency in the Portuguese language at the intermediate level. In addition, the student must take POR 313, 314, and other courses in Portuguese language or Brazilian culture, for a total of 18 credit hours.

Enrollment Requirements:

Any undergraduate admitted to study at Arizona State University may elect to pursue this certificate.

Child Life Certificate (LACHLFCERT)

Campus: DTPHX, TEMPE

Description:

Child life specialists are experts in child development who promote effective coping among children who face challenges related to health care and hospitalization. This cross-disciplinary program offered through the School of Community Resources and Development and the School of Social and Family Dynamics is designed to assist students to prepare for the national qualifying child life exam.

A portion of the national certification exam eligibility requirements, as outlined by the Child Life Council, are met by obtaining this certificate.

Program Requirements:

The certificate requires 21 credit hours. Courses taken as part of a university major may count toward that degree and the certificate. To earn the certificate, students must complete all course work in the certificate with a minimum grade of "B" (3.00) or better.

An application to the program is required.

Required Courses:

- CDE 337 Early Childhood Intervention (3)
- CDE 450 Child Dysfunction in the Family (3)
- PRM 364 Foundations of Therapeutic Recreation (3)
- PRM 384 Child Life Practicum (3)
- PRM 406 Program Design and Evaluation in Therapeutic Recreation (3)
- PRM 455 Play in Child Life (3)
- PRM 460 Assessment and Documentation in Therapeutic Recreation (3)

Standards:

- a minimum "B" (3.00) grade required for all classes in the certificate
- a minimum GPA of 3.00 for those pursuing the certificate
- 18 hours of graded classroom course work (no internship, no independent study)
- must be a junior to take 400-level courses

Enrollment Requirements:

- A minimum cumulative GPA of 3.00 is required to enroll in the certificate.
- Students wishing to pursue the child life certificate must complete two prerequisites before applying for the program: CDE 232 Human Development (3) with a grade of "B" (3.00) or higher; CDE 338 Child Development Practicum (or comparable experience working with children, as determined by certificate directors of admission).
- For additional information and application, students should consult with an academic advisor in either the School of Community Resources and Development or the School of Social and Family Dynamics.

Child Nutrition Certificate (ECNTRCERC)

Campus: DTPHX, POLY

Description:

This certificate program is directed toward current degree-seeking students, postbaccalaureate students and nondegree-seeking students who are interested in eligibility for the school nutrition specialist credential offered by the School Nutrition Association.

Program Requirements:

The certificate requires that students take the following courses, for a total of 31 credit hours:

BUA 381 Small Business Accounting and Finance (3)
EXW 100 Introduction to Health and Wellness or EXW 325 Fitness for Life (3)
NTR 142 Applied Food Principles (3)
NTR 343 Food Service Purchasing (3)
NTR 344 Nutrition Services Management (3)
NTR 345 Development of Healthy Cuisines (3)
NTR 401 Field Experience in Food and Nutrition (3)
NTR 445 Management of Food Service Systems (3)
NTR 448 Community Nutrition (3)
NTR 450 Nutrition in the Life Cycle I (3)
NTR 498 Child Nutrition Seminar (1)

Enrollment Requirements:

To enroll in the certificate program, the applicant must be admitted to ASU as a degree-seeking or nondegree-seeking student in the nutrition program. The curriculum committee of the nutrition program will approve applications to the certificate program.

Civic Education Certificate (LACVECERT)

Campus: TEMPE

Description:

The civic education certificate is designed to contribute to the preparation of undergraduate students for:

- careers in primary and secondary education (where the teaching of government and civics may be involved)
- careers or voluntary participation in politics, public service, civic and social movements
- further education in law, journalism, business, history, sociology, political science and other fields where an understanding of questions of citizenship, leadership, community, democracy, public responsibility and ethics is crucial

Program Requirements:

The certificate does not substitute for degree requirements in any subject, including political science; rather, it is a complement to the student's chosen major. The certificate program is intended to guide students to a variety of courses whose successful completion indicates their special accomplishment in the area of civic education. Students majoring in any subject at the university may be awarded the civic education certificate upon completion of the following 15 credit hours of political science courses:

POS 210 Political Ideologies, SB (3)
POS 346 Problems of Democracy, HU (3)

POS 442 American Political Thought, HU (3)

Choose one from the courses below:

POS 340 History of Political Philosophy I, HU, H (3)

POS 341 History of Political Philosophy II, HU, H (3)

POS 443 Topics in Contemporary Political Theory, HU (3)

Choose one from the courses below:

POS 110 Government and Politics, SB (3)

POS 150 Comparative Government, SB, G (3)

POS 160 Global Politics, SB, G (3)

POS 270 American Legal System, SB (3)

POS 300 Contemporary Global Controversies, SB, G (3)

POS 313 The Congress, SB (3)

POS 314 The American Presidency, SB (3)

POS 315 The Supreme Court, SB (3)

POS 330 Contemporary Controversies in Domestic Politics, SB (3)

POS 332 American Political Parties, SB (3)

POS 333 Interest Groups, SB (3)

POS 370 Law and Society, SB (3)

POS 417 Arizona Political System, SB (3)

POS 435 Women and Politics, SB, C (3)

POS 439 Minority Group Politics in America, SB, C (3)

Certificate students must have a minimum GPA of "C" (2.00); only courses in which students have a grade of "C" (2.00) or higher count toward the certificate. A minimum of six upper division credit hours must be taken in courses offered by the College of Liberal Arts and Sciences.

Enrollment Requirements:

Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the Office of Admissions online application. Please contact the School Politics and Global Studies for more information about completing the civic education certificate.

Classical Studies Certificate (LACLG CERT)

Campus: TEMPE

Description:

The classical studies program offers students a wide variety of opportunities to study the language, literature and culture of the ancient Greeks and Romans. The School of International Letters and Cultures offers a certificate in classical studies for those students interested in pursuing a classical education in conjunction with another major or as part of their general studies.

Program Requirements:

Students admitted to undergraduate degree programs in any field are eligible for the classical studies certificate program. In addition to the course work and examinations required in the student's major, the student is responsible for fulfilling the following minimum requirements:

- five semesters of ancient Greek (17 credit hours; GRK 301 and 302 may be repeated for credit) or Latin language and literature instruction (19 credit hours)
- four semesters in courses related to classical studies, to be approved by coordinator of the certificate (12 credit hours)
- two of these courses must be above the 300 level (6 credit hours)

A minimum grade of "C" (2.00) is required in each course leading to the certificate. A minimum of 12 credit hours must be upper division. A minimum of six credit hours must be taken at ASU.

Enrollment Requirements:

Students interested in the classical studies certificate program need to contact the coordinator of the certificate before being accepted into the program. Please contact the department for more information.

Computer Gaming Certificate (ESSCICERT)

Campus: TEMPE

Description:

The computer gaming certificate is designed to provide a game development skill set that the student can apply to domain specific applications in the student's major. The skill set includes:

- architecture of game engines
- art design and computer graphics for gaming
- game software development

In this certificate program, students will learn to apply gaming technology to the rapidly growing video game industry and to business, medicine, geography, biotechnology and education. Examples of projects include:

- building a game that teaches linear algebra by incorporating trigonometric rules into the game design
- creating a game that teaches correct sentence construction to early English learners
- creating an interactive virtual world for corporate training
- designing a game platform incorporating geographic information systems
- inventing a surgical simulation to educate medical students
- creating a game to help patients with physical therapy

Program Requirements:

Students will complete nine credit hours of core courses, including a final capstone project and nine credit hours of track courses.

Core Courses:

CPI 111 Game Development I
CPI 211 Game Development II
CPI 441 Gaming Capstone

Track Courses (choose three):

CIS 394 Project Management - Information Systems
CPI 311 Game Engine Development
CPI 321 Fundamentals of Game Art
CPI 411 Graphics for Games
CPI 412 Cognitive Systems and Intelligent Agents
CPI 421 3-D Modeling and Texturing
CPI 422 3-D Animation and Rigging for Video Games
DCI 451 Design Research and Educational Gaming Practicum
EDT 329 Games, Simulations and Virtual Environments
RDG 440 Computer Gaming, Learning and Literacy

Programming courses focus on how game engines work and how to write software. Art courses teach the visual aspects of game design. In education courses, students will apply game design skills to achieve educational goals.

Enrollment Requirements:

The computer gaming certificate is open to any student admitted to an undergraduate degree program at ASU and in good academic standing. This certificate can also be used by BIS students as part of their degree program.

All students are eligible to take CPI 111. Students who want to continue in the certificate classes must be approved to enroll in the computer gaming certificate by completing the Undergraduate Certificate form from the registrar's website and submitting it to the School of Computing, Informatics and Decision Systems Engineering (CIDSE) Academic Advising Center located in BYENG, room 208. BIS students need to contact their BIS advisor to add the computer gaming concentration to their degree program.

Convention Sales and Meeting Planning Certificate (PPTDMCERT)

Campus: DTPHX

Description:

The U.S. meetings, conventions and exhibitions industry generates more than \$120 billion a year, supporting nearly two million jobs. Students can explore this exciting growth industry with the convention sales and meeting planning certificate. The demand for professionals is strong, and we provide an excellent foundation for enhancing career opportunities nationally and regionally. Phoenix is a major convention and meeting destination.

The \$600 million investment in the Phoenix Convention Center expansion, new hotel and other visitor-related product development, as well as corporate headquarters that continue to relocate to the greater Phoenix area have created the need for qualified professionals to service conventions and meetings. The certificate, which has been endorsed by the Greater Phoenix Convention and Visitors Bureau and the Arizona Sunbelt Chapter of Meeting Professionals International, will enhance a graduate's career opportunities as a tourism professional.

Program Requirements:

The certificate requires 15 credit hours: four required core courses (12 credits) and one elective course (3 credits). Courses taken as part of a university major may count toward that degree and the certificate. Requirements can be met online. All core classes and some elective classes are taught online at least once a year. To earn the certificate, students must complete all course work in the certificate with a minimum grade of "C" or better. An application to the program is required.

Required Core Courses:

TDM 205 Introduction to Travel and Tourism, G (3)
TDM 345 Meeting and Convention Planning (3) (prerequisite: TDM 205, grade of "C" or better)
TDM 350 Tourism Marketing (3) (prerequisite: TDM 205, grade of "C" or better)
TDM 386 Convention Sales and Management (3)

Elective (choose one):

PRM 486 Special Events Management (3)
TDM 225 Introduction to Resort and Hotel Management (3)
TDM 458 International Tourism, G (3)

Standards

- 15 hours of graded classroom course work (no internship, no independent study)
- minimum "C" (2.00) grade required for all classes in the certificate
- minimum GPA of 2.00 for those pursuing the certificate
- should be a junior to take 400-level courses

Enrollment Requirements:

Students wishing to pursue the convention sales and meeting planning certificate should consult an academic advisor in the School of Community Resources and Development. For additional information, please visit the college website.

Campus: DTPHX

Description:

The creative city certificate prepares students to engage effectively in revitalizing cities and communities by tapping their inherent potential for

cultural innovation, place-making and social and economic entrepreneurship. Exploring best practices globally, students develop asset-based proposals for specific locales including implementation plans. The creative city certificate adds value to other majors as well as work and life experience for students aspiring to assume leadership roles in improving quality of life, specifically by enhancing quality of place.

Cities are centers of human creativity and cultural innovation. They both attract and breed these. Such creativity and innovation are apparent in the vitality of the arts, as well as that of businesses (large and small), research (basic and applied) and the everyday life unique to any given locale. These are the ingredients that make our places sustainable, economically, socially and environmentally, by endowing a "sense of place" along with a "sense of community."

This certificate also serves professionals in the community working in the areas of:

- community development
- land-use law
- parks and recreation
- philanthropy
- planning
- public art
- urban governance and others

Flexible class times and locations make the certificate a viable option for those unable to attend classes during the day.

Program Requirements:

The five-course sequence comprising the certificate will enable students to build upon their own strengths in order to help cities and communities creatively build upon their capacities. The creative city certificate consists of a maximum of 15 credit hours of course work. All courses must be taken at ASU. Required courses and electives are shown below.

Required Core Courses:

URB 405 Citizen Engagement and Community Building (3)

URB 406 Public Administration and Community Development (3)

Elective Courses:

GRA 401 Creative Environment (3)

NLM 160 Voluntary Action and Community Leadership (3)

NLM 220 Introduction to Nonprofit Organizations (3)

NLM 300 Fund Raising and Resource Development (3)

NLM 402/TDM 402 Assessment and Evaluation of Community Services (3)

PAF 420 Public Leadership (3)

PRM 120 Leisure and the Quality of Life (3)

PRM 210/NLM 210/TDM 210 Community Services and Professions (3)

PRM 301/NLM 301/TDM 301 Sustainable Communities (3)

PRM 302/NLM 302/TDM 302 Inclusive Community Development (3) [CRD majors only]

TDM 448 Heritage and Cultural Tourism (3)

URB 220 Introduction to Urban America (3)

Enrollment Requirements:

The creative city certificate is available to all admitted undergraduate students (regular or nondegree) at ASU. Nondegree students are required to apply to ASU (as a nondegree student) and once admitted, contact the School of Public Affairs to be admitted into the certificate program. Students may begin taking courses before they formally apply for the certificate; however, they should apply for admission as soon as possible.

Digital Culture Certificate (HIDGCCERT)

Campus: TEMPE

Description:

The digital culture certificate program in the Herberger Institute for Design and the Arts focuses on the creative exploration of how new media is influencing our culture or, rather, the way we live, learn, create and communicate. The digital culture certificate will allow students to enhance their

program of study with integrated, interdisciplinary training in creative processes and technical skills in new media with cultural applications.

The digital culture curriculum is outcomes-based rather than course sequence-based. The curriculum uses an innovative proficiency-based network to connect courses across academic disciplines, instead of traditional methods such as course prerequisites. Proficiencies in the curriculum identify common generalized learning outcomes across disciplines participating in the initiative.

Program Requirements:

The digital culture certificate requires 18 credit hours (12 upper division) in four areas:

- digital culture studies (9)
- media arts and design (3)
- media engineering (3)
- capstone culminating project (3)

For a list of digital culture courses, please visit: <https://digitalculture.asu.edu/education/courses> (<https://digitalculture.asu.edu/education/courses>)

A minimum grade of a "C" (2.00) and an overall GPA of 3.00 is required in all classes in the certificate. Courses in the certificate may not be used as part of a major. All upper-division certificate course work must be taken at ASU.

Generous substitution rules allow for course flexibility. Students receiving the digital culture certificate can petition to substitute up to six credit hours. Three credit hours can come from any course related to digital culture through courses offered by any unit of ASU including the Polytechnic, Downtown, West (Interdisciplinary Arts & Performance) and the Film and Media Studies program on the Tempe campus. Courses may include any on the list of related subjects and substitutions (below) or courses with comparable content.

The other three substitution hours can be achieved through one of the following two paths:

- The three-hour media arts and design course requirement may be substituted with a three-hour course in the digital culture related category.
- The three-hour media engineering requirement may be substituted with a three-hour course in the digital culture related category or by a related upper-level engineering course offered by one of the collaborating units.

Enrollment Requirements:

For current ASU students, there is no special application process for the digital culture certificate. Students add the certificate by meeting with the academic advisor for their major and the digital culture education coordinator to develop the digital culture pathway that best meets the proficiencies for the work they are interested in pursuing. This pathway will be contingent upon the student's academic performance in 100-level course work.

For students not currently enrolled at ASU, students must apply and be admitted to ASU in a degree or nondegree program. Students must meet with the digital culture academic success coordinator before enrolling in the certificate program. The coordinator and student will develop a pathway that best meets the proficiencies for the work he or she is interested in pursuing. The coordinator will review the student's previous academic work to determine which proficiencies the student has completed.

Digital culture certificate students will work with the digital culture academic success coordinator and successfully complete the required sequence of courses and proficiencies for a digital culture certificate. The digital culture academic success coordinator and the digital culture faculty committee in the Herberger Institute for Design and the Arts will help to craft the best path for the student.

East Asian Studies Certificate (LAEASCERT)

Campus: TEMPE

Description:

The certificate in East Asian studies can supplement a bachelor's, demonstrating knowledge of an Asian language as well as knowledge of Asian history, art, culture or society. This certificate helps prepares students for admission to graduate programs in Asian area studies or in an academic discipline with an Asian focus, or for professional programs in international law or business. Recent Asian studies graduates have gone on to enter medical school, law school, MBA programs or PhD programs. An earned certificate will appear on student transcripts as an East Asian studies emphasis.

Program Requirements:

The certificate curriculum includes 24 credit hours of course work, including:

- 15 credit hours of upper-division area studies course work in at least three disciplines outside of languages and literature courses (such as anthropology, art, geography, history, political science and religious studies)
- nine credit hours in some combination of lower- and upper-division courses (six hours may be satisfied with language and literature courses limited to 321 and above)
- demonstrated proficiency in an East Asian language at the intermediate level

The language requirement can be satisfied by one of the following:

- completing the 201 and 202 sequence
- one year of study abroad at the intermediate level
- satisfactory placement on a proficiency exam

East Asian languages include:

- Chinese
- Japanese
- Korean

Students pursuing an East Asian studies certificate must fulfill the language requirement in either Chinese, Japanese or Korean, and the 15 hours of upper-division course work must be courses with significant focus on East Asia chosen in consultation with an advisor in the School of Historical, Philosophical and Religious Studies.

A minimum grade of "C" (2.00) is required for each course that is used to fulfill the certificate requirements.

Enrollment Requirements:

There are no specific admission requirements other than a student's desire to learn about East Asia. Please contact the School of Historical, Philosophical and Religious Studies for more information and see <http://car.clas.asu.edu/> (<http://car.clas.asu.edu/>). All advising for this certificate is done through the School of Historical, Philosophical and Religious Studies. Please use your MyASU or the SHPRS academic advising webpage (<https://shprs.clas.asu.edu/advising>) to schedule an appointment with an advisor.

Economic Justice Certificate (LAECJNCERT)

Campus: TEMPE

Description:

This certificate focuses on the application of justice principles to different fields of economics, including microeconomics, macroeconomics, labor economics, public finance, development and international trade and investment.

Students will gain transdisciplinary knowledge of economic justice that will promote the growth of sustainable communities, locally, nationally and globally. Areas of focus include different approaches to economic justice, wealth and poverty, labor movements and unionization, social innovation, legal constructions of labor justice and forms of work discrimination, employment and welfare advocacy and activism.

The course work in this certificate will prepare students to:

- analyze and develop policies to build local skills
- develop the capacity to design, control, manage and evaluate initiatives aimed at economically revitalizing communities
- increase research abilities
- lay the groundwork for new approaches to economic justice

Program Requirements:

- 18 total credit hours required for the certificate.

"C" (2.00) grade or greater required for each course.

Theories and Foundation in Economic Justice (3)

To provide students with a background in theories and philosophies of economic justice, students will select one of the following courses:

- ASB 416 Economic Anthropology (3)
- COM 450 Theory and Research in Organizational Communication (3)
- ECN 360 Economic Development (3)
- JUS 321 Wealth Distribution and Poverty (3)
- JUS 323 Justice and Development of the Welfare State (3)
- JUS 325 Globalization and Socio-Economic Justice (3)

Economic Justice Praxis (3)

To better understand community, nongovernmental organizations, government policies and other collective efforts aimed at improving economic conditions through various strategies, including asset building to low-income communities, community-based microfinance, economic development, advocacy and training efforts. Students will select one of the following courses:

- ASB 328 Rules, Games and Society (3)
- ECN 331 Economics of the European Economic Union (3)
- JUS 320 Community and Social Justice (3)
- JUS 405 Economic Justice (3)
- PUP 434 Economic Development Planning (3)
- SGS 350 Economic Development and Globalization (3)
- SGS 394 Policies for Economic Development (3)
- SWU 432 Social Policy and Services (3)
- SWU 498 Border Families/Community Asset Building Policies (3)

Interdisciplinary Component (9)

To provide students an opportunity to focus on a particular racial group, nation or region or specific historical event while also providing a broad interdisciplinary framework, students will select three electives. Courses must be taken from both of the substantive areas listed below and from two or more academic units. Any course listed below may count toward this requirement, as well as other courses as approved by the certificate program director.

Race, Gender, Class, Citizenship and Economic Justice:

- AIS 380 Contemporary Issues of American Indian Nations (3)
- APA 394 Asian Pacific Americans and Immigration (3)
- APA 350 Inequality and Diversity in Education (3)
- ASB/POS/SBS 447 Citizenship, Nationalism, and Identity (3)
- CRJ 305 Gender, Crime and Criminal Justice (3)
- CRJ 306 Race, Ethnicity, Crime and Criminal Justice (3)
- ETH 300 Principles of Ethnic Studies (3)
- FAS/AFS 370 Family, Ethnic and Cultural Diversity (3)
- HST 325 Immigration and Ethnicity in the United States (3)
- HST 333 African American History to 1865 (3)
- IAS 305 Work and Identity (3)
- JUS 420 Women, Work and Justice (3)
- JUS 415 Gender and International Development (3)
- JUS 425 Race, Gender and Justice (3)
- JUS 438 Human Differences: Dilemmas of Justice (3)
- JUS 479 Law and Disputing (3)
- SOC/FAS 324 Work and the Workplace (3)
- SWU 374 Diversity and Oppression in a Social Work Context (3)
- TCL 314 Transborder Regional Immigration and Economy (3)
- WST 394 Women, Work and Poverty (3)

National and Global:

- AFS 304 Islands of Globalization: Caribbean Politics and Political Economy (3)

ASB/SOC/SBS 342 Mexico-U.S. Borderlands (3)
JUS 408 Comparative Development of the Welfare State (3)
JUS 469 Political Deviance and the Law (3)
PHI 336 Social and Political Philosophy (3)
POS 480 Global Justice (3)
POS 486 International Political Economy (3)
SGS 394 Global Markets (or SGS 350 Economic Development and Globalization) (3)
SOS 430 Sustainable Economic Development and Social Transformation (3)
TCL 444 The Ethnography of Mexico and the Borderlands (3)

Experiential Learning Component (3)

A central element of this certificate program will be the linkage of learning and doing; connection theoretical and substantive learning about economic justice with practical knowledge about the workings of organizations and institutions seeking to address poverty and the wealth gap. To better connect classroom learning with practical experience, students will be required to participate in either a for-credit internship or a Research Experience with Undergraduates (REU) under faculty supervision (honors thesis may substitute). A written component to the internship or REU is required.

Enrollment Requirements:

In order to declare this certificate, students must have a minimum of 56 earned credit hours and must first meet with an academic advisor.

Entertainment and Technology Certificate (LAFMSUERE)

Campus: TEMPE

Description:

The entertainment and technology certificate is for students who have completed a course of study that includes 18 credit hours of entertainment and technology history, theory and convergence. It certifies the student has had the training to analyze industry changes through time, to identify current industry trends and to develop likely entertainment and technology models and scenarios for the future.

Program Requirements:

ASU students admitted to a degree program in any field of study are eligible for the entertainment and technology certificate. In addition to the course work and examinations required in the major field of interest, students are responsible for fulfilling the requirement of 18 credit hours to earn the certificate. The upper-division courses are a three-course sequence and are taken upon completion of three lower-division film and media studies courses. A minimum grade of "C" (2.00) or better is required in each course. Required certificate core courses (18 credit hours) are:

FMS 100 Introduction to Film, HU (3)
FMS 110 Introduction to New Media, L or HU (3)
FMS 200 Film History, L or HU, H (3)
FMS 302 U.S. Media Now (3)
FMS 481 Entertainment Technologies (3)
FMS 483 Techno-Entertainment Convergences (3)

Enrollment Requirements:

Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the Office of Admissions online application. Please contact the department for more information and see <http://english.clas.asu.edu/film-entertech> (<http://english.clas.asu.edu/film-entertech>).

Environmental Humanities Certificate (LAENHCERT)

Campus: TEMPE

Description:

The environmental humanities certificate offers students who are interested in humanities-based approaches to the current global environmental crisis an option to focus in this vital area of study. Students take three ENG courses and four electives from selected programs that are focused wholly or in large part on the human relationship to the environment and the relationship between nature and culture. To gain practical experience, certificate students also complete a required English internship in environmental activism, policy development, education or other pertinent areas.

Program Requirements:

The environmental humanities certificate consists of 24 hours, of which at least six must be upper-division courses offered by the Department of English in the College of Liberal Arts and Sciences.

Core Required Courses (9)

complete three English courses from the list below:

- ENG 359 Indigenous American Literature, L or HU, C (3)
- ENG 363 Transborder Mexican and Chicano/a Literature of Southwest North America, L or HU, C (3)
- ENG 370 Science, Values, and the Public (3)
- ENG 371 Rhetoric of the Environmental Movement (3)
- ENG 452 Studies in the Novel (Indigenous), HU (3)
- ENG 457 Studies in American Poetry (Indigenous), HU (3)
- ENG 465 Studies in Film (Indigenous) (3)
- ENG 468 Environmental Literary Criticism, L or HU (3)
- ENG 469 Science and Literature, L or HU (3)

Internship:

- ENG 484 Internship: Environmental Humanities Certificate (3)

Electives (12)

Complete four additional courses (see advisor for approved list). Other courses may be approved by English advisor depending on special- or variable-topics courses available in given semesters.

Enrollment Requirements:

For more information about the environmental humanities certificate, contact an advisor in the Department of English.

Environmental Humanities Certificate (LSENH CERT)

Campus: POLY

Description:

The environmental humanities certificate offers students who are interested in humanities-based approaches to the current global environmental crisis an option to focus on this vital area of study. Students take courses and electives from selected programs that are focused on the human relationship to the environment and the relationship between nature and culture. To gain practical experience, certificate students also complete a required internship in environmental activism, policy development, education or other pertinent areas.

Program Requirements:

This certificate is comprised of 24 credit hours.

Core:

pick three ENG courses from the list below:*

- ENG 334 The American Southwest in Literature and Film, L/HU, C (3)
- ENG 359 Indigenous American Literature, L/HU, C (3)
- ENG 367 Environmental Issues in Literature and Film, L/HU (3)
- ENG 371 Rhetoric of the Environmental Movement (3)

ENG 378 Environmental Creative Nonfiction, L/HU (3)
ENG 468 Environmental Literary Criticism, L/HU (3)
ENG 469 Science and Literature (variable-topics course), L/HU (3)

Internship:

ENG 484 Internship: Environmental Humanities Certificate (3)
Work with SLS internship coordinator to develop an appropriate internship.

Electives (12):

Complete four additional courses (see advisor for approved list). Some courses are limited to students majoring in the discipline, have prerequisites, or cannot be taken in combination with another course on the list. Additional courses may be approved by the SLS English advisor depending on special- or variable-topics courses available in given semesters.

*Note: Other ENG courses may be approved by SLS advisor depending on special- or variable-topics courses available in given semesters.

Requirements:

- a minimum of 12 upper-division hours is required
- six hours must be taken from the School of Letters and Sciences at ASU
- a grade of "C" or higher is required in all courses taken for the certificate

Ethics Certificate (LAETHCERT)

Campus: TEMPE

Description:

The ethics certificate is designed to give students a richer understanding of systematic philosophical thinking about ethics. Students with majors in business, nursing, journalism and public administration, and students planning to pursue legal careers, among others, may well find that training in ethics is beneficial to their career goals. The certificate program permits some flexibility regarding course selection, thereby facilitating particular student interests. Students must consult with an academic advisor in the School of Historical, Philosophical and Religious Studies to declare the certificate.

Program Requirements:

The certificate in ethics consists of 18 credit hours approved by an undergraduate advisor in the School of Historical, Philosophical and Religious Studies. The student must take PHI 305 or PHI 335. At least 15 credit hours must be chosen from PHI 105, 304, 306, 307, 310, 320, 335, 336, 337, 338, 360 and (when its topic is within ethics) PHI 420. One course outside this list, and perhaps outside the school, may be used with written approval from the director of undergraduate studies. All courses must be passed with a minimum grade of "C" or better.

Enrollment Requirements:

Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the Office of Admissions online application. Please contact the School of Historical, Philosophical and Religious Studies for more information.

Ethnic Studies Certificate (ASETHCERT)

Campus: WEST

Description:

The certificate in ethnic studies is designed for students who plan to work and live in ethnically diverse communities and seek to acquire the skills for understanding the complexities of race, class and gender at local or national levels. It is expected students in the certificate program will be able to think analytically and creatively about ethnicity in the U.S. The certificate is strongly recommended for students who plan to enter a wide variety of jobs in business, health professions, the criminal justice system, social services, education, public relations, community development, public policy or government. It is also valuable for students preparing for further graduate study.

Program Requirements:

A certificate in ethnic studies is recommended for graduate students, nondegree students and students majoring in professional programs.

The certificate consists of 18 credit hours, 12 of which must be at the upper-division level. Students are encouraged to take courses that develop breadth rather than limiting their selection to courses in one particular discipline. Up to three credit hours of individualized instruction may be applied toward the certificate. All courses must be passed with a minimum grade of "C" (2.00).

Required Courses:

ETH 310 Critical Research Methods SB (3)

HRC 498 Capstone: Practices and Approaches (3)

choose one course from the following list:

ETH 100 Introduction to Ethnic Studies SB, C (3)

ETH 300 Principles of Ethnic Studies C (3)

Electives:

Students must take nine credit hours, of which six must be upper division. These courses must be chosen from the approved ethnic studies course list in consultation with the ethnic studies advisor.

Enrollment Requirements:

Students wishing to pursue the ethnic studies certificate should consult an academic advisor in the unit offering that certificate to ensure that the appropriate set of courses is taken and required paperwork submitted.

European Union Studies Certificate (LAEUSCERT)

Campus: TEMPE

Description:

The European Union, or EU, is the biggest economic bloc in the world and also one of the most important economic and political partners of the United States. This certificate enables students to develop expertise in the cultures, governments and economies of the EU, making them valuable to potential employers doing business in the EU. It may serve as a beneficial complement to a bachelor's degree or as a nondegree program for training business professionals and others who wish to enhance their knowledge of European cultures, politics, economics and societies.

Program Requirements:

Required core course (3 credit hours):

ECN 331 Economics of the European Economic Union (3) or

POS 356 European Union (3)

Five elective courses (15 credit hours).

Of these 15 credits, at least three must be in history (HST) or geography (GCU), at least three must be from a School of International Letters and Cultures civilization course, and at least three must be taken in a non-English EU language.

Approved elective courses include:

ENG 429 Studies in European Literature and Culture (3)

FRE 322 French Literature (3)

FRE 325 Introduction to French Film (3)

FRE 416 French Civilization II (3)

GCU 325 Geography of Europe (3)

GER 416 German Civilization (3)

GER 422 German Literature (3)

GER 453 German Literary Masterpieces on Film (3)

HST 304 Studies in European History (3)
HST 351 Renaissance Europe (3)
HST 356 Europe since 1945 (3)
HST 364 Sex and Society in Modern Europe (3)
HST 367 Modern Britain (3)
HST 368 Culture and Imagination in European History (3)
HST 370 Eastern Europe in Transition (3)
HST 427 French Revolution/Napoleonic Era (3)
HST 428 Modern France (3)
HST 429 Modern Germany (3)
HST 432 Eastern Europe the Balkans, 20th Century (3)
HST 438 Modern Spain (3)
HST 465 Women in Europe, 1750 to Present (3)
ITA 315 Italian Civilization (3)
ITA 322 Introduction to Italian Literature II (3)
ITA 420 Italian Cinema (3)
SLC 494 Society and Culture in Modern Europe (3)
SLV 394 Societies and New Eastern Europe (3)
SPA 426 Spanish Literature (3)
SPA 473 Spanish Civilization (3)

Additional courses may be approved by the coordinator of the certificate program.

Enrollment Requirements:

Degree-seeking students: ASU students with a minimum 2.00 cumulative GPA and sophomore standing or above in any degree program will be eligible for the European Union certificate program.

Nondegree-seeking students: Must have completed two years or more of college.

Family Communication Certificate (ASFAMCCERT)

Campus: WEST

Description:

The family communication certificate offers students an opportunity to specialize their studies on issues regarding communication in the family. The certificate complements the current communication program by bringing together a broad array of courses that have family implications, such as courses in new media and health. In addition, students are encouraged to take courses in other disciplines that complement family-related communication courses.

Program Requirements:

The certificate consists of 19 credit hours: 12 credits must be upper division, six must be non-communication credits, and a one-credit exit portfolio course is to be taken after a minimum of 12 credits have been completed. Twelve of the 19 credits must be ASU credit. Six credits may be double counted with one's ASU major. Each class must be passed with a "C" (2.00) or better.

Required Core Courses (6):

COM 411 Communication in the Family, SB

select one:

COM 312 Communication, Conflict and Negotiation

COM 410 Interpersonal Communication Theory and Research, SB

COM 417 Communication and Aging

Four courses must be selected from at least two content areas listed below (12):

Social and Cultural Elements of the Family

AFS 370 Family, Ethnic and Cultural Diversity, SB, C

ASB 346 Marriage and Family Diversity, SB, C

COM 316 Gender and Communication, SB, C
COM 410 Interpersonal Communication Theory and Research, SB
FAS 301 Introduction to Parenting
FAS 331 Marriage and Family Relationships, SB
FAS 370 Family, Ethnic and Cultural Diversity, SB, C
FAS 435 Advanced Marriage and Family Relationships, L or SB
SBS 440 Family Studies
SOC 415 The Family, SB

Technology, Media and the Family

COM 424 Television Studies and Criticism
COM 457 New Media
ENG 244 Introduction to Researching Family History
MCO 473 Sex, Love, and Romance in the Mass Media, SB

Health and Family Development

ALD 403 Aging, Lifespan Development, and the Family
ALD 420 Health Issues and Older Adults, SB
ALD 431 Caregiving for Older Adults
CDE 430 Infant/Toddler Development in the Family, SB
CDE 437 Infant Family Assessment and Observation, L or SB
COM 417 Communication and Aging
CRJ 204 Juvenile Justice
FAS 332 Human Sexuality, SB
FAS 431 Parent-Adolescent Relationships, SB
FAS 436 Sexuality in Mid-Life and Beyond
PSY 341 Developmental Psychology, SB
PSY 443 Abnormal Child Psychology, L or SB
PSY 444 Adolescent Psychology and Psychopathology
SOC 312 Adolescence, SB

Community Application

COM 314 Inner-City Families I: The Cycle of Poverty
COM 484 Internship (in consultation with FCC advisor)

Portfolio

COM 498 Pro-Seminar: Family Communication Portfolio (1)*

This course is a synthesis of students' family communication academic experience. The portfolio itself integrates each student's family communication experience with theory and concepts from family communication courses. The portfolio may take a variety of forms, to be negotiated by each student with the instructor. This course is to be taken after a minimum of 12 credits toward the certificate have been completed.

*Substitutions allowed with faculty advisor approval.

Film and Video Studies Certificate (ASVIDCERT)

Campus: WEST

Description:

The certificate in film and video studies explores theory and practice in the general field of the moving image. This interdisciplinary program provides students an opportunity to develop interests, skills and knowledge of the forms, channels, technologies and histories of the media arts. Students may pursue focused interests in film studies or adopt a more generalized approach to visual media through television, film and video.

The program is useful to students who may pursue careers in broadcasting, writing and public relations and degrees in production, film studies, media studies, performance studies and communication studies. Courses in the film and video studies certificate are designed to:

- develop astute and discriminating critics and analysts of film and media arts
- develop knowledge of the history of film, television and the video arts as dynamic forces of social, cultural and political expression
- develop practical skills that enable students to be competitive in film, video, television and media-related production industries
- strengthen critical thinking through an awareness of the philosophical, aesthetic, political and technological debates in film, media and video studies

Program Requirements:

A certificate in film and video studies is awarded for the successful completion of 21 credit hours, 15 of which must be upper division (300 and 400 level). Students choose a focus in media and video studies or film studies.

Enrollment Requirements:

The certificate in film and video studies is open to all undergraduate majors.

Students wishing to pursue the certificate should consult an academic advisor in the unit offering that certificate to ensure the appropriate set of courses is taken and required paperwork submitted.

Games and Impact Certificate (TEGIMCERT)

Campus: TEMPE

Description:

The certificate in games and impact is intended for undergraduates with a desire to become change agents in their current and future areas of interest, study and training. The certificate provides a solid grounding in the theory, design and use of games as tools for effecting change in education, health, and social justice, among other fields. For this reason, it is appropriate for students in a wide range of majors, including interested students in design and programming. Students will study the ethics of design and its consequences, both intended and unintended, how games can lead to social change by improving understanding of complex global systems, transforming conflict and building skills in problem recognition and creative solution design. Certificate students will work on real games, alongside real experts and real clients, and learn how to design, test and evaluate their impact in real-world environments.

Program Requirements:

All students must complete the following courses:

- EDT 210 Games, Technology & Society (3)
- EDT 220 Understanding Games and Impact (3)
- EDT 310 Games and Impact: The Full Life Cycle (3)
- EDT 340 Designing Games and Impact OR an equivalent course on game design (3)

Capstone Project (3-6 credits): Students will take EDT 494 Capstone, in consultation with the certificate coordinator.

Requirements:

A minimum of 15 credit hours is required.

A grade of "C" or higher is required in all courses taken for the certificate.

Geographic Information Science Certificate (LAGISCERT)

Campus: TEMPE

Description:

The undergraduate geographic information science (GIS) certificate program is open to students of all majors at ASU and is built on GIS course work currently being taught at the university. Students who earn the certificate exit the program with standardized skills--skills which are based on the learning outcomes of each required course.

Program Requirements:

The certificate is awarded to students completing at least 20 credit hours with a grade of "C" (2.00) or higher.

Required courses:

CSE 100 Principles of Programming with C++, CS (3) or CSE 110 Principles of Programming with Java, CS (3) or CST 100 Object-Oriented Software Development (3)

GCU 495 Quantitative Methods in Geography & Planning, CS (3)

GPH 370 Geographic Information Technologies, CS (3)

GPH 373 Geographic Information Science I, CS (4)

GPH 473 Geographic Information Science II, CS (4)

Electives (choose one of the following):

ABS 485 GIS in Natural Resources (3)

GCU 361 Urban Geography, SB (3)

GCU 441 Economic Geography, SB (3)

GCU 442 Geographical Analysis of Transportation, SB (3)

GCU 474 Public Land Policy, SB (3)

GCU 484 Internship (1-12)

GPH 371 Introduction to Cartography and Georepresentation, CS (3)

GPH 372 Air Photo Interpretation (3)

GPH 471 Geographics: Interactive and Animated Cartography and Geovisualization, CS (3)

GPH 483 Geographic Information Analysis (3)

GPH 484 Internship (1-12)

PUP 484 Internship (1-12)

Enrollment Requirements:

Any student admitted to study at ASU may complete this certificate. To apply to the university, please complete the Office of Admissions online application. Please contact the school for more information.

Hazardous Materials and Waste Management Certificate (TSETMCERT)

Campus: POLY

Description:

The certificate program in hazardous materials and waste management is designed to provide current and prospective employees of industry and government with a comprehensive and practical curriculum of study in hazardous materials management. The certificate program features instruction by faculty, attorneys and professionals who work in the specific area in which they teach.

The certificate program is available for nondegree and degree seeking students.

Program Requirements:

21 hours are required for the certificate. Students must complete seven selected courses (four required and three electives) and earn a grade of "C" (2.00 on a scale of 4.00) or higher to receive the certificate.

Required Courses:

ETM 401 Hazardous Waste Management (3) or ETM 501 Principles of Hazardous Materials and Waste Management (3)

ETM 407 Occupational Hygiene (3) or ETM 507 Industrial Hygiene (3)
ETM 502 Regulatory Framework for Toxic and Hazardous Substances (3) or ETM 527 Environmental/Resources Regulations Concepts (3)
ETM 506 Chemistry of Hazardous Materials (3)

Electives:

ETM courses at the 400 or 500 level (9)

Enrollment Requirements:

For U.S. Department of Education Gainful Employment Program Disclosure information, see https://catalog.asu.edu/files/shared/GE_Disclosure_TSETMCERT.pdf (https://catalog.asu.edu/files/shared/GE_Disclosure_TSETMCERT.pdf).

History and Philosophy of Science Certificate (LAHPSCERT)

Campus: TEMPE

Description:

The School of Life Sciences offers an undergraduate certificate in the history and philosophy of science. This program is designed to give students an understanding of both traditional philosophic issues surrounding science and the historical development of concrete scientific theories and ideas.

The philosophic questions about how we understand nature through science and how scientific claims gain authority are enriched when they are considered in an historical context. Such philosophic and historical study will also often include the examination of contemporary sciences and their place within the larger society, including the study of bioethics, policy and law.

This certificate is a valuable addition for students in the sciences or the humanities. It crosses disciplines to help students engage in unfamiliar and familiar paths of inquiry in new and interesting ways.

Program Requirements:

- The certificate requires 18 credit hours bearing a PHI or HPS prefix, of which 12 credit hours must be upper division.
- Within the 18 credit hours, at least nine must bear the HPS prefix.
- PHI 314 Philosophy of Science (3) is required.
- All courses counting toward the certificate must be approved by an undergraduate advisor in the School of Life Sciences and passed with a grade of "C" (2.00) or higher.

Enrollment Requirements:

Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the Office of Admissions online application. Please contact the School of Life Sciences for more information and see <https://sols.asu.edu/undergraduate-studies/degree-programs> (<https://sols.asu.edu/undergraduate-studies/degree-programs>).

Honors Business Consulting Certificate (BAECNUERT)

Campus: TEMPE

Description:

This certificate is designed to enhance your knowledge in a major while also adding to your understanding of business strategy in a global market. The required curriculum strengthens skills in:

- business judgment
- conceptualization of strategic solutions

- critical thinking and problem solving

Program Requirements:

The program consists of 15 credit hours of course work. Students must meet all prerequisites and course requirements as listed in the catalog. All 15 credit hours must be ASU credit.

Honors Business Core, with grade of "B" or higher in each course (6):

- ECN 303 Honors Managerial Economics (3)
- FIN 303 Honors Finance (3)
- MGT 303 Honors Organizational Strategies, Leadership and Behavior (3)
- MKT 303 Honors Marketing Theory and Practice (3)
- SCM 303 Honors Global Supply Operations (3)

Business Modeling and Analysis, with grade point average of 3.00 or higher; only courses in which a student earns a grade of "C" (2.00) or higher may be used (9):

- WPC 494a Consulting in Business (3)
- WPC 494b Modeling Tools in Consulting (3)
- WPC 494c Consulting Projects (capstone) (3) - OR - WPC 493 Honors Thesis/Creative Project (3)

Enrollment Requirements:

The certificate is limited to honors students in the W. P. Carey School of Business. Students must submit an application for admission during the spring semester of their sophomore year.

Please contact the department for more information.

Human Rights Certificate (LAHRTSCERT)

Campus: TEMPE

Description:

The undergraduate certificate in human rights offers a model for educating and training students through socially embedded, transdisciplinary dialogue, research and practice. Course work in the social sciences, law and the humanities will prepare students to critically examine societal problems and to design culturally congruent and contextually specific solutions to human rights dilemmas in such areas as:

- child welfare
- economic development
- education
- environment
- health
- indigenous rights
- labor rights
- violence against women
- water and energy resources

The certificate provides students with historical, legal and philosophical perspectives from which to think broadly and critically about human rights issues. It introduces them to social science and policy research on rights, conflict and governance; to human rights conventions, laws and treaties; and to the institutions that seek to uphold these agreements (i.e., international tribunals, nongovernment organizations). Students gain background and skills needed to work within those professions most closely aligned with human rights, including some aspects of law, nongovernment organizations and other nonprofits and policy development.

Program Requirements:

Students must complete 18 hours of qualifying course work, at least 12 hours of which must be from ASU. A minimum grade of "C" (2.00) is required for a course to count toward the certificate.

Required Certificate Core Courses:

Global Politics of Human Rights (students must select one of the following courses):

- JUS 352 The Global Politics of Human Rights (3)
- POS 480 Global Justice (3)

Human Rights Institutions and Organizations (students must select one from the following options):

- POS 465 International Organization and Law (3)
- SGS 321 International Institutions and Global Governance (3)
- Interdisciplinary Component (9)

Students must select three electives on current issues in human rights. Courses must be taken from at least two of the substantive areas listed below and from two or more academic units. Any course listed below may count toward this requirement, as well as other courses as approved by the certificate program director.

States and Conflict

- HST 370 Eastern Europe in Transition (3)
- HST 436 The Soviet Experiment (3)
- JUS 374 Holocaust, Genocide and Human Rights (3)
- JUS 469 Political Deviance and the Law (3)
- JUS 479 Law and Disputing (3)
- JUS 467 Terrorism, War and Justice (3)
- JUS 494 Justice in Times of Transition (3)
- JUS 452 Justice Issues in Israel and Palestine: The Political is Personal (3)
- POS 465 International Organizations and Law (3)
- POS 368 Ethics and Human Rights (3)
- REL 388 Religion, Ethics and International Politics (3)
- REL 486 Holocaust on Film (3)

Social Stratification and Human Rights

- AFH 305 The Global History of the Trans-Atlantic Slave Trade (3)
- AFS 470 Women's International Human Rights (3)
- APA 350 Inequality and Diversity in Education (3)
- JUS 321 Wealth Distribution and Poverty (3)
- JUS 325 Globalization and Socio-Economic Justice (3)
- JUS 405 Economic Justice (3)
- JUS 415 Gender and International Development (3)
- JUS 477 Youth and Justice (3)
- PHI 336 Social and Political Philosophy (3)
- WST 365 Women and International Health (3)

Marginalization and Human Rights

- AFS 301 Race and Racism in the Africa/African Diaspora (3)
- AFS 304 Islands of Globalization: Caribbean Politics and Political Economy (3)
- AFR 420 Race, Ethnicity and Politics in the African Diaspora (3)
- APA 330 Asian Pacific American Genders and Sexualities (3)
- APA 360 Asian Pacific American Experience (3)
- JUS 430 Social Protest, Conflict and Change (3)
- JUS 469 Political Deviance and the Law (3)
- JUS 473/REL 482 Religion, Violence and Conflict Resolution (3)
- POS 480 Global Justice (3)
- SGS 343 Religion, Nationalism and Ethnic Conflict (3)
- SOC 445 Globalization, Development and Resistance (3)
- Experiential Learning Component (3)

students will choose one of the following, in consultation with the advisor:

- JUS 484 Internship (3)
- JUS 498 Pro-Seminar: Research Apprenticeship (3)

Enrollment Requirements:

Students who have attained junior standing (56 credit hours) in any undergraduate degree program in any field at ASU are eligible for admission to

the certificate in human rights. There are no formal admissions procedures to begin certificate course work, but students should contact the certificate in human rights program director or an advisor as soon as they decide to begin pursuing the certificate.

Informatics Certificate (ESCPICERT)

Campus: TEMPE

Description:

The certificate in informatics trains students to use computer technology to gather, synthesize, store, visualize and interpret information. These skills are critical to a broad range of disciplines. This certificate provides students with an understanding of the capabilities and technologies of informatics as it applies to domain specific problems in their field of study.

Students completing this certificate are able to use methods for and understand the basic computational principles behind the operation of:

- communication, networking and interaction
- decision-making and problem solving
- modeling, inference and visualization
- representing, creating and running routine activities
- storing, indexing and retrieving information

Graduates should be in high demand within the software industry, but also in government, education, science, medicine and other fields that make use of computer technology. Students with the applied and user-oriented focus of the certificate will be attractive to such employers.

Program Requirements:

This program requires 21 credit hours of course work. Students will take 15 credit hours of required courses and will choose six credit hours of elective course work. Note: some of the required courses have additional prerequisites.

Core Courses:

CPI 101 Introduction to Informatics (3), CS
CPI 200 Mathematical Foundations of Informatics (3), MA
CPI 310 Web-Based Information Management Systems (3)
CPI 360 Decision Making and Problem Solving (3)
STP 226 Elements of Statistics (3), CS *

*Please consult an advisor about alternate statistics courses.

Electives* (select two):

ART 345 Visualization and Prototyping (3)
BIO 355 Introduction to Computational Molecular Biology (3), CS
CIS 300 Web Design and Development (3)
CPI 350 Evaluation of Informatics Systems (3)
CPI 400 Scientific Computing and Visualization (3)
CPI 430 Social Simulation (3), CS
ENG 374 Technical Editing (3)
GPH 370 Geographic Information Technologies, CS (3)
SOS 334 Technology and Society (3)
STS 306 Social Effects of Science and Technology (3), SB

*Certain departments may offer additional courses which could satisfy this elective requirement. Please consult with an advisor for approvals.

Enrollment Requirements:

The undergraduate certificate in informatics is available to students in non-computing majors who are in good standing at ASU, and may be used by BIS students as part of their degree program. Students need to submit an Undergraduate Certificate form to the School of Computing, Informatics and Decision Systems Engineering Advising Center. This form is available on the registrar's website. BIS students need to contact their BIS advisor to add the informatics concentration to their degree program.

International Business Certificate (BAIBSCERT)

Campus: TEMPE

Description:

Students can expand their horizons and opportunities by learning about the global economy. The certificate is designed to:

- develop competence in a foreign language
- develop sensitivity to foreign cultures
- provide an awareness of global social processes
- provide an understanding of international business environments, principles and operations

The W. P. Carey School of Business has partnerships with universities in Europe, Asia and Latin America, so students can experience new cultures, visit new places and build intercultural and language skills. International internships also are offered in conjunction with the ASU Study Abroad Office.

Program Requirements:

This certificate program requires a minimum of 18 credit hours, which are outlined below. All business course work must be completed through the W. P. Carey School of Business or through an approved ASU international study program. Only courses in which a student receives a grade of "C" (2.00) or higher may be used to meet the certificate requirements, and an overall certificate GPA of at least 2.50 must be earned. Students must meet all course prerequisites and requirements as listed in the ASU catalog. Certificate requirements must be completed within one year of graduation date.

The four required areas of completion for the certificate are:

- international business course work (9 credit hours)
- non-business global awareness course work (9 credit hours)
- language proficiency
- international study experience

A. International Business Course Work (9 credit hours)

Three international business courses must be taken. Students must choose one foundation course and two electives.

Foundation course:

MGT 302 Principles of International Business (3) or ECN 306 Survey of International Economics (3)

Elective courses (6)

B. Non-Business Global Awareness Course Work (9 credit hours)

These hours may be satisfied by any combination of the following:

Recommended: It is recommended to choose courses related to the area of study abroad experience. Additional courses may be approved by the international program coordinator.

- any university designated non-business global awareness ("G") courses
- non-business global awareness hours may also be satisfied by:
 - an ASU or W. P. Carey School of Business education abroad program for one semester fulfills all nine hours of non-business global requirements
 - an ASU or W. P. Carey School of Business program earning six credit hours fulfills six of the hours of non-business global requirements
 - an ASU or W. P. Carey School of Business program earning three credit hours fulfills three of the hours of non-business global requirements

C. Foreign Language Proficiency

The certificate program requires the equivalent of one year of college-level study of a foreign language. Foreign language proficiency is met in one of the following ways:

- completion of one year (two semesters) of the same foreign language at the college level
- completion of one semester of the equivalent of 101 and 102 level course work
- completion of two years of the same foreign language in high school with a minimum grade of "C" (2.00)
- documentation of a proficiency test confirming preparedness to start at least the second year of a foreign language (201 level or above).
- a student whose first language is not English may have this requirement waived

D. International Study Experience

Participation in an ASU-approved international study program is required.

Enrollment Requirements:

Students need to complete an application, which is available online or in BA 160. Please contact the department for more information and see <https://my.wpcarey.asu.edu/undergrad/academics/ibc.cfm> (<https://my.wpcarey.asu.edu/undergrad/academics/ibc.cfm>).

International Studies Certificate (LAINSCERT)

Campus: TEMPE

Description:

The international studies certificate is designed to prepare students for careers in government agencies, international governmental and nongovernmental organizations, multinational firms and banks and for graduate studies in international relations or political science. The certificate is not a substitute for degree requirements in any subject, including political science; rather, the required courses add an international and comparative dimension to the student's chosen major.

Program Requirements:

Requirements for the certificate are intended to provide an understanding of international relations and comparative government, an awareness of global, social and political-economic processes and sensitivity to foreign political systems and cultures. These objectives are met by a sequence of political science courses in the areas of international relations, comparative politics and area studies. Students majoring in any subject at the university may be awarded the international studies certificate upon completion of the following 15 credit hours of political science courses.

Choose one from the courses below:

- POS 150 Comparative Government, SB, G (3)
- POS 160 Global Politics, SB, G (3)

Choose one from the courses below:

- POS 361 American Foreign Policy, SB, G (3)
- POS 364 National Security, Intelligence and Terrorism, SB (3)

Choose two from the courses below:

- POS 300 Contemporary Controversies, SB, G (3)
- POS 368 Ethics and Human Rights (3)
- POS 465 International Organization and Law, SB, G (3)
- POS 467 International Security, SB, G (3)
- POS 486 International Political Economy, SB, G (3)

Choose one from the courses below:

- POS 350 Comparative Politics, SB, G (3)
- POS 356 European Union, SB, G (3)

POS 357 South Asia Politics, SB, G (3)
POS 358 Southeast Asia, SB, G (3)
POS 359 African Politics and Society, SB, G (3)
POS 360 World Politics, SB, G (3)
POS 451 China, Japan and the Koreas, SB, G (3)
POS 452 China, SB, G (3)
POS 453 South America, SB, G (3)
POS 454 Mexico, SB, G (3)
POS 459 South and Southern Africa, SB, G (3)
POS 468 Comparative Asian Foreign Policies, SB, G (3)

Certificate students must have a minimum GPA of "C" (2.00); only courses in which students have a grade of "C" (2.00) or higher count toward the certificate. A minimum of six upper-division credit hours must be taken in courses offered by the College of Liberal Arts and Sciences.

Enrollment Requirements:

Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the Office of Admissions online application. Please contact the School of Politics and Global Studies for more information about completing the international studies certificate.

Islamic Studies Certificate (LAISLCERT)

Campus: TEMPE

Description:

Any student admitted to study at ASU is eligible for the Islamic studies certificate program. Students who complete all the requirements of their undergraduate major, their college and the certificate program receive the certificate plus transcript recognition of its completion. The certificate program is designed to prepare students for graduate programs in religious studies, Islamic studies and area studies or for any academic discipline (such as professional programs in international law and business) that focuses on global Muslim society. Students wishing to add the certificate in Islamic studies to their plan of study must consult with an academic advisor in the School of Historical, Philosophical and Religious Studies.

Program Requirements:

Students complete a minimum of 26 credit hours, chosen in consultation with the Islamic studies program coordinator. A minimum grade of "C" (2.00) is required in each course. A minimum of 12 upper-division credit hours are required. To earn the certificate, students must complete these requirements:

- eight credit hours of Arabic, Indonesian, Farsi or other Islamic language approved by the program coordinator (Students who are native speakers of these languages or who otherwise have equivalent knowledge substitute two additional courses approved by the program coordinator.)
- nine credit hours of required core courses including REL 260 Introduction to Islam (3), REL 365 Islamic Civilization (3) and REL 366 Islam in the Modern World (3)
- nine elective credit hours in courses from a variety of disciplines that deal with Islam or Islamic studies, including courses from at least two of three geographic regions (Africa and the Middle East, American and Europe, Asia)

Enrollment Requirements:

There are no specific admission requirements other than a student's desire to learn about Islam and Islamic societies and culture. Please contact the School of Historical, Philosophical and Religious Studies for more information and see the Islamic studies website: <https://shprs.clas.asu.edu/islamic>. (<https://shprs.clas.asu.edu/islamic>) All advising for the certificate is done through the advising office in the School of Historical, Philosophical and Religious Studies. Jewish Studies Certificate (LAJUDCERT)

Campus: TEMPE

Description:

The Jewish studies program is designed with the following goals in mind:

- to examine the history and culture of the Jews
- to generate and facilitate research on Judaica
- to provide the community with programs, courses and research, furthering the understanding of Judaica
- to provide a model for interdisciplinary teaching and research
- to stand as an example of the university's commitment to a program of meaningful ethnic studies on a firm academic base

Program Requirements:

To complete the certificate in Jewish studies, a student must successfully complete seven approved courses (including a minimum of 12 upper-division credit hours) in Jewish studies with a grade no lower than a "C" (2.00) in any course. Students should declare themselves as Jewish studies certificate candidates as early as possible in their program of study and accomplish the following prior to graduation:

- formal declaration of intent through the submission of the Certificate in Jewish Studies Application to the School of Historical, Philosophical and Religious Studies advising center
- completion of at least two semesters of Hebrew language or equivalent approved courses

one Jewish studies course in three of the following five areas:

- history
 - humanities
 - literature
 - religious studies
 - social studies
- two courses of the student's choice in any Jewish studies-related subject.

Students petition for receipt of the certificate by notifying the School of Historical, Philosophical and Religious Studies advising center upon completion of courses.

Enrollment Requirements:

Any student admitted to study at ASU may complete a certificate.

Knowledge Entrepreneurship and Innovation Certificate (BAKEICERT)

Campus: TEMPE

Description:

The certificate program is comprised of three university-wide core courses followed by two courses within a student's disciplinary college. Individual colleges will be encouraged to offer a capstone course as part of the program. Beyond topics related specifically to entrepreneurial business practices, courses include such topics as social entrepreneurship, arts entrepreneurship, idea generation and storytelling as additional perspectives for the student entrepreneur.

Students completing the certificate in knowledge entrepreneurship and innovation have their achievements recognized on their transcripts. Career services markets the certificate to potential employers, highlighting the innovative skills that students with this designation can offer.

Program Requirements:

Required Core

- CORE 1: MGT 290 My Life Venture (3) OR TEM 200 My Technology Venture (3)
- CORE 2: MGT 340 Creativity and Innovation (3) OR TEM 230 Creativity and Business Innovation (3)
- CORE 3: MGT 360 Entrepreneurship and Value Creation (3) OR TEM 400 Technology Entrepreneurship (3)

Capstone Experience (at least 6 credit hours)

- It is the student's responsibility to check the prerequisites required by courses in their discipline.
- Capstone courses will be designated and approved by individual disciplinary colleges.
- Capstone courses will consist of existing courses or new courses created by departments.

Prerequisite Information

• MGT 360 Entrepreneurship and Value Creation has a prerequisite requirement of W. P. Carey BS or BA student with ACC 240, 241 or 242 with a grade of "C" (2.00) or better, OR non-business student with 2.5 ASU Cumulative GPA, 56 earned hours, and MGT 290 My Life Venture.

Prerequisite or corequisite requirement of MGT 340 Creativity and Innovation with a grade of "C" (2.00) or better.

• MGT 340 Creativity and Innovation has a prerequisite requirement of W. P. Carey School of Business BS or BA student, OR non-business student with 2.5 ASU Cumulative GPA, 56 earned hours, and prerequisite or corequisite of MGT 290 My Life Venture.

Enrollment Requirements:

480-965-1184

Korean Studies Certificate (LAKORCERT)

Campus: TEMPE

Description:

The certificate in Korean studies aims to train and produce students who are linguistically able and culturally informed. The program consists of two major components. The first is to build students' Korean language proficiency in the areas of speaking, listening, reading and writing. The second is to offer students a broad range of knowledge of the culture, literature, history, art and religions of Korea. The certificate allows students to focus on Korean studies, which cannot be attained through the existing degree or nondegree programs in East Asian studies at ASU.

The program will enrich students' perspectives on different cultures and societies at the intellectual level and also equip students with practical knowledge of Korea that will benefit careers in various professions, including academe, government work, international trade, nongovernmental organizations and translations.

Program Requirements:

Language Requirement

Students must demonstrate proficiency in the Korean language at the intermediate level. The language requirement can be satisfied by completing the 201-202 sequence, one year of study abroad at the intermediate level, or achieving a satisfactory score on a proficiency exam. Visit <http://silc.asu.edu/testing> (<http://silc.asu.edu/testing>) for more information on the proficiency exam schedule.

Core Courses (12 credit hours):

Students must complete at least 12 credit hours at or above the 300-level of core courses from the following:

KOR 313 Third-Year Korean I (3)

KOR 314 Third-Year Korean II (3)

KOR 347 Korean Film and Literature (3)

KOR 350 Women of Korea (3)

REL 354 Religious Tradition of Korea (3)

Elective Courses (6 credit hours):

In addition to the above core courses, students are required to complete six credit hours from an approved list of electives. These courses must be from two different disciplines.

The following are examples of appropriate electives:

HST 303 Studies in Asian History (3)
HST 388 Japan (3)
REL 345 Asian Religious Traditions (3)
HST 451 Chinese Cultural History I (3)
HST 452 Chinese Cultural History II (3)
CHI 494 Print Culture and Book in East Asia (3)

Additional courses may be approved by the coordinator of the certificate program.

These credit hours will be chosen in consultation with the certificate coordinator. The completion of the requirements will be reviewed both by the students' designated advisors and the coordinator of the program. A minimum grade of "C" or better is required in each course. In the end, the coordinator will sign off on the certificates.

Enrollment Requirements:

ASU students admitted to a degree program in any field of study would be eligible for the Korean studies certificate program. Other than the course work and examinations required in the major field of interest, students would be responsible for fulfilling the minimum requirements of 18 credit hours (at least 12 credit hours for core courses) in addition to the basic language requirement to earn the Korean studies certificate.

Latin American Studies Certificate (LALASCERT)

Campus: TEMPE

Description:

The Latin American studies certificate program is designed to give students an understanding of culture, economies, political structures and the history of Latin American nations. The departments of economics, geographical sciences, history and political science, the School of Human Evolution and Social Change, the School of International Letters and Cultures (Spanish and Portuguese) and the School of Transborder Studies offer courses that combine in the interdisciplinary certificate.

Program Requirements:

- Students must complete 30 credit hours of upper-division courses with a "C" (2.00) or better from the departments and schools listed above with a concentration in Latin America (15 credit hours in the major subject and 15 credit hours in other disciplines).
- The certificate requires Spanish or Portuguese proficiency through the 313 level of conversation and composition.
- Only language courses above 313 in literature and civilization count toward a major or interdisciplinary areas of preparation.
- Spanish and Portuguese courses above 313 in grammar and phonology do not count toward the requirements.
- Students should meet with the certificate advisor regarding course questions.

Enrollment Requirements:

Any student admitted to study at ASU may complete a certificate. For more information, contact the School of International Letters and Cultures and see the school's website for more information.

Leadership and Ethics Certificate (PPLDECERT)

Campus: DTPHX

Description:

The certificate in leadership and ethics is designed for undergraduate students who are interested in developing leadership skills or wish to enhance

their degree in an existing major at ASU, working adults who may wish to further their education yet may not be looking for a degree program, or BIS students who seek to combine certificates with their degree.

The certificate program provides a catalyst for students to become ethical leaders of organizational and community change. This certificate is designed to:

- explore the relationship between leadership and the capacity for individuals to assume responsibility for their actions and to act with a sense of ethics and integrity
- focus on understanding the broad interdisciplinary field of leadership and its application to various elements of society and community
- prepare individuals for positions of leadership and responsibility in the university, student organizations, in their communities and throughout their careers in business, government and society

Program Requirements:

The certificate in leadership and ethics requires four core courses (12 credit hours), including a leadership capstone experience, and one elective discipline-based course in leadership or ethics (3 credit hours). The three hours of elective course work may be selected from an approved list of elective classes or upon the recommendation of the department.

All courses applied to the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Core Courses:

- PAF 311 or 411 Leadership and Change (3)
- PAF 410 Building Leadership Skills (3)
- PAF 460 Public Service Ethics (3)
- PAF 494 Leadership Capstone (3)

All core courses and the leadership capstone must be taken at Arizona State University. Any course substitutions for the certificate are at the discretion of the School of Public Affairs.

Enrollment Requirements:

There are different application requirements, depending on the student's enrollment status with ASU. Students are also encouraged to schedule an appointment with the undergraduate academic adviser in the School of Public Affairs.

Undergraduate Students Currently Enrolled at ASU

Current students interested in earning the certificate must complete a request to add an undergraduate certificate and return it to the undergraduate academic advisor in the School of Public Affairs at the University Center on the Downtown Phoenix campus. Students may begin taking courses before they formally register for the certificate; however, they are encouraged to complete the paperwork as soon as possible.

Download the request to add an undergraduate certificate at <http://students.asu.edu/node/1993> (<http://students.asu.edu/node/1993>).

Individuals Not Currently Enrolled at ASU

Individuals who are not currently enrolled as students at Arizona State University must complete an application to enroll as a nondegree-seeking student before they may begin taking courses. For information on admission and to complete an application, visit the university's nondegree student admission page at <https://students.asu.edu/admission/nondegree> (<https://students.asu.edu/admission/nondegree>).

Once students have been admitted, they are eligible to enroll in courses to complete the certificate program.

Lesbian, Gay, Bisexual and Transgender Certificate (PPLGBTCERT)

Campus: DTPHX

Description:

The undergraduate certificate in lesbian, gay, bisexual and transgender studies is offered by the Committee on Lesbian, Gay, Bisexual, and Transgender Studies, administered through the College of Public Programs. Advising is provided through University College. Lesbians, gay men, bisexuals and transgendered people play important roles as colleagues, clients, parents, children, siblings, neighbors, employees, employers,

religious leaders and friends. Given the increasing visibility and changing political climate for LGBTQ people in the United States, all students, not only those who identify themselves as gay, lesbian, bisexual or transgender, are served well by learning about the histories, communities and contemporary social issues regarding people from LGBTQ backgrounds.

The educational experience is enhanced when students are introduced to complex intersections between and among sexual, racial, ethnic, religious, geographic and national identities. The philosophy of this certificate program is to promote intellectual and pedagogical diversity as one of the university's greatest assets, in part by instilling in students sensitivity to cultures different from their own, but also through careful analysis of the self in historical, artistic and sociocultural contexts. The goals of the certificate program are to give students:

- knowledge about the history, evolution of and current issues facing the LGBTQ community
- practical experience in utilizing course work knowledge in the community through an internship or community service project
- theoretical perspectives on heterosexuality as a presumptive sexual identity
- an understanding of lesbian, gay, bisexual and transgender studies as an academic area of inquiry
- an understanding of community politics, dynamics and conflicts
- use-inspired education that culminates in a public presentation

Program Requirements:

The certificate requires 15 credit hours; a minimum of 12 must be upper division.

Required Courses:

SWU 180 Introduction to Lesbian, Gay, Bisexual, and Transgender (LGBT) Studies (3)

Electives (9):

electives are selected from an approved list.

Capstone (3)

Medieval and Renaissance Studies Certificate (LAMRSCERT)

Campus: TEMPE

Description:

In order to reflect the interdisciplinary nature of the field, the Arizona Center for Medieval and Renaissance Studies has established a certificate program for undergraduate students in medieval and Renaissance studies.

The program provides students the opportunity to take classes from several disciplines and to receive training in both Latin, the international language of the periods, and early vernacular languages. Obtaining the certificate prepares undergraduate students for advanced study in their fields.

Program Requirements:

In addition to the course work and examinations required in a student's major field of study, the following minimum requirements must be fulfilled to earn the certificate:

classical Latin (6)

Latin (classical or medieval) or a vernacular language of the period (e.g., Old English, Old Norse, Old French, Renaissance Italian) (6)

course work in medieval and Renaissance studies outside the major discipline (6)

thesis (3)*

*Students must write within their major on a topic concerning the Middle Ages or Renaissance. Students may earn three credit hours of independent study for the thesis. The thesis may be used to fulfill the Honors College thesis requirement for students enrolled in Barrett, the Honors College.

Enrollment Requirements:

Any student admitted to a degree program at ASU may complete a certificate. Please contact the Arizona Center for Medieval and Renaissance

Nonprofit Leadership and Management: American Humanics Certificate (PPNPYCERT)

Campus: DTPHX

Description:

This nationally recognized certificate program awards qualified students from diverse academic fields with the certified nonprofit professional credential. The CNP is awarded through the Nonprofit Leadership Alliance (formerly American Humanics, Inc.), a consortium of universities, nonprofits and funders, that are committed to preparing students for management careers in the nonprofit sector. The NLA/ASU program provides curricular and co-curricular programs that prepare students through its competency-based, experiential (out-of-classroom) educational framework. The program is ideal for students wishing to complement their majors with a strong core of nonprofit management knowledge and skills through professional affiliation with and certification by the Nonprofit Leadership Alliance, the nation's leader in education for nonprofit careers. NLM collaborates with a number of national nonprofit organizations as well as locally based grass-roots organizations that actively seek NLA/ASU program interns and job candidates.

Program Requirements:

The program includes active participation by nonprofit professionals who offer workshops, seminars, mentoring and field trips. The certified nonprofit professional credential can be earned in conjunction with any bachelor's degree and requires successful participation in cocurricular, experiential activities in addition to required academic course work.

Required Courses:

- NLM 220 Introduction to Nonprofit Organizations (3)
- NLM 300 Fund Raising and Resource Development (3)
- NLM 310 Volunteer Management (3)
- NLM 320 Professional Development Seminar (4) (one credit each, over four semesters)
- NLM 420 Nonprofit Leadership Alliance Institute (2)
- NLM 430 Managing Nonprofit Organizations (3)
- NLM 463 Senior internship (12)

Enrollment Requirements:

Applications for the Certified Nonprofit Professional certificate are available through the School of Community Resources and Development academic advisors and the Nonprofit Leadership Alliance senior program coordinator.

- 30 hours of graded course work
- minimum "C" (2.00) grade required for all classes in the certificate
- minimum GPA of 2.00 for those pursuing the certificate
- should be a junior to take 400-level courses

For U.S. Department of Education Gainful Employment Program Disclosure information, see https://catalog.asu.edu/files/shared/GE_Disclosure_PPNPYCERT.pdf (https://catalog.asu.edu/files/shared/GE_Disclosure_PPNPYCERT.pdf).

Oral History Certificate (ASOHCCERT)

Campus: WEST

Description:

The oral history certificate in the New College of Interdisciplinary Arts and Sciences introduces students to the interdisciplinary theories and methods of oral history that enable scholars, students and practitioners to collect, document and preserve the stories and memories of people's lives. The certificate will train students to acquire critical knowledge and applied skills and to abide by the professional standards involved in oral history documentation, research and presentation. Students in the program may build on existing projects or develop new community relationships at local, national and international levels. Consistent with ASU's mission and New College goals, the certificate fosters an understanding and appreciation of diverse cultures, past and present, and engages students in socially embedded and ethical practices in oral history research and interviewing.

Program Requirements:

Students must meet with the program academic advisor to review the requirements and sign the certificate check sheet. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department recognizes the certificate. All course work in the program must be completed with a grade of "C" (2.00) or higher. A total of 18 credit hours is required.

Residency Requirement

Of the 18 upper-division credit hours required for the certificate, 12 credit hours must be completed at ASU.

Core Requirements:

AMS 498 Pro-Seminar (3)
ETH 310 Critical Research Methods (3)

Additional Requirements (12):

The course bank includes upper-division courses offered across the university. Students may choose from the following prefixes, upon approval by appropriate faculty or advisor:

- American Studies (AMS)
- English (ENG)
- Ethnic Studies (ETH)
- History (HST)
- Interdisciplinary Arts and Performance (IAP)
- Integrative Studies (IAS)
- Philosophy (PHI)
- Religious Studies (REL)
- Sociology (SOC)
- Spanish (SPA)
- Women's Studies (WST)

Recommended Courses:

COM 342 Oral History and Storytelling (3)
ENG 317 Cross-Cultural Writing (3)
ENG 376 Writing a Personal History (3)
ENG 377 Editing Family History for Public Audiences (3)
ENG 394 Scriptwriting
ENG 412 Creative Nonfiction (3)
ENG 476 Studies in Folklore (3)
IAP 331 Performance, Acting and the Individual (3)
IAP 364 Documentaries
SOC 389 Ethnographic Field Lab (3)
WST 370 Chronicling Women's Lives (3)
WST 473 Latina/Chicana Representation (3)

Enrollment Requirements:

The certificate in oral history is open to any student admitted to study at Arizona State University. The certificate program is also available for graduate students, non-degree students and students majoring in professional programs. Contact advisors in the Division of Humanities, Arts and Cultural Studies for admission to the certificate program.

Philosophy, Rhetoric and Literature Certificate (ASPRLCERT)

Campus: WEST

Description:

The certificate in philosophy, rhetoric and literature, within the New College of Interdisciplinary Arts and Sciences, is an interdisciplinary program that works across the humanities by examining philosophical approaches to literary studies, disputes between rhetoric and philosophy, and rhetorical elements of literature and theory. The certificate will enable students to explore where and how the boundaries among philosophy, rhetoric and literature are constructed, maintained and changed. This certificate is transdisciplinary and aimed at integrating Continental philosophy (including philosophy of religion), critical theory (both in its broader origins within literary cultural studies and its historically specific genealogy from the Frankfurt School), rhetoric, literary criticism, aesthetics and communication. This certificate will prepare students in the humanities, social and behavioral sciences and the arts for lifelong learning, advanced study in a variety of fields and successful careers in an increasingly diverse society.

Program Requirements:

The program is open to any student admitted to study at Arizona State University. A certificate in philosophy, rhetoric and literature is awarded for successful completion of 18 upper-division credit hours of course work:

- one course in rhetoric (3)
- one course in Continental philosophy (see core requirements) (3)
- twelve elective credit hours from the approved course list in philosophy, rhetoric and literature (6 credit hours from pool A and 6 credit hours from pool B)

All elective course offerings from the course bank will be regularly updated and overseen by the facilitators of the certificate program. Students must meet with the program academic advisor to review the requirements and sign the certificate check sheet. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major recognizes the certificate. All course work in the program must be completed with a grade of B (3.00) or higher.

Of the 18 upper-division credit hours required for the certificate, 12 credit hours must be completed at ASU.

Core Requirements (6 credit hours):

Rhetorical Perspectives (3 credit hours from the approved course list in philosophy, rhetoric and literature):

COM 321 Rhetorical Theory and Research, L/HU, H (3)

ENG 394/494 Special Topics (3)*

ENG 472 Rhetorical Studies, L (3)

ENG 494 Rhetoric, Literature and Poetics (3)

Philosophical Perspectives (3 credit hours from the approved course list in philosophy, rhetoric and literature):

PHI 394/REL 394 Studies in Contemporary Continental Philosophy (3)

PHI 494/REL 494 Continental Philosophy and Religion (3)

PHI 494/REL 494 Philosophy and Literature (3)

PHI 494/REL 494 Studies in Critical Theory (3)

Electives (12 credit hours, 6 credit hours each from pools A and B):

Electives come from the course bank of approved courses for philosophy, rhetoric and literature.

Pool A (6 credit hours):

ENG 394/494 Special Topics (3)*

ENG 400 History of Literary Criticism, L/HU, H (3)

ENG 401 Topics in Critical Theory (3)

ENG 421 Studies in Shakespeare, HU (3)

ENG 431 Whitman and Dickinson, HU (3)

ENG 440 Studies in American Literature and Culture, HU (3)

ENG 450 The British Novel, HU (3)

ENG 454 Gender and Literature, L/HU (3)

ENG 461 Studies in Women and Literature, HU (3)

ENG 472 Rhetorical Studies, L (3)

ENG 478 Studies in Modernism, L/HU (3)

ENG 479 Studies in Postmodernism, HU, G (3)

ENG 494 Rhetoric, Literature and Poetics (3)

ENG 494 Special Topics: The Postcolonial Novel (3)

HON 394/494 Special Topics (3)*

IAP 310/IAS 310 Women in Art (3)

IAP 371 Verbal Art (3)

IAP 471 Language, Culture and Performance, L/HU (3)
IAP 472 Theories of Arts and Performance (3)
IAP 473 Aesthetic Research, L/HU (3)

Pool B (6 credit hours):

COM 321 Rhetorical Theory and Research, L/HU, H (3)
COM 324 Rhetoric and Media Criticism (3)
COM 394/494 Special Topics (taught by current faculty in PRL or from the approved course topics in philosophy, rhetoric and literature) (3)
COM 421 Rhetoric of Social Issues, HU (3)
COM 429 Semiotics and Visual Communications (3)
PHI 324/IAS 324 Existential Ethics, HU (3)
PHI 391 Historical Perspectives on Philosophy and Religion (3)
PHI 394/REL 394 Love in Philosophy (3)
REL 300 Thinking, Writing and Research in Religion and Applied Ethics, L/HU (3)
REL 301 Comparative Mysticism, HU (3)
PHI 304 Existentialism, HU (3)
PHI 339 Philosophy of Art, HU (3)
REL 314 Jewish Philosophy (3)
REL 345 Asian Religious Traditions, HU, G (3)

Enrollment Requirements:

The certificate in philosophy, rhetoric and literature is open to all undergraduate majors.

Students wishing to pursue the certificate should consult an academic advisor in the unit offering the certificate to ensure the appropriate set of courses is taken and required paperwork submitted.

Political Thought and Leadership Certificate (LAPTLCERT)

Campus: TEMPE

Description:

The certificate in political thought and leadership provides students with a strong foundation in the history of politics and political thought with a special emphasis on the role of leadership in that history. The certificate will prepare students for leadership in their own careers, political or otherwise. Required courses combine academic study and mentoring contact with political, media, and business leaders from the wider Phoenix area and Arizona communities, while electives drawn from a variety of disciplines are used to broaden the scope of emphasis.

Program Requirements:

This certificate requires 15 credit hours.

Required Courses:

HST 112 Foundations of Democracy (3)
HST 414 Political Thought & Leadership (3)

Elective Courses:

HST 315 Political History of the U.S.(3)
HST 317 History of Postwar U.S. Conservatism (3)
PHI 336 Social and Political Philosophy (3)
POS 341 History of Political Philosophy II (3)

Public Administration and Public Management Certificate (PPPAFCERT)

Campus: DTPHX

Description:

The certificate in public administration and public management prepares students for citizenship, leadership and careers in governmental and nonprofit agencies. Students will learn the context and principles of public administration and how to apply these in a practitioner setting; the role of the public administrator in the design, implementation and evaluation of public policy; and how to lead change and address ethical issues in public service. It is designed for undergraduate students who are interested in developing leadership skills or wish to enhance their degree in an existing major at ASU, working adults who may wish to further their education yet may not be looking for a degree program, or BIS students who seek to combine certificates with their degree.

The program is designed for students interested in public service who want to learn skills to:

- analyze critical issues
- build and bridge communities
- deliver and manage public programs
- improve the quality of life
- lead change in public policy
- provide public safety
- preserve natural resources
- reform welfare
- strengthen democratic governance

Program Requirements:

The certificate in public administration and public management consists of 15 credit hours of course work; students take 12 hours of core classes and three hours of elective courses. The three hours of elective course work may be selected from an approved list of elective classes, taken upon the recommendation of the department.

Core Courses:

- PAF 300 Public Management and Administration (3)
- PAF 340 Contemporary Policy Challenges (3)
- PAF 420 Public Leadership (3)
- PAF 460 Public Service Ethics (3)

Enrollment Requirements:

There are different application requirements, depending on the student's enrollment status with ASU. Students are also encouraged to schedule an appointment with the undergraduate academic advisor in the School of Public Affairs.

Undergraduate Students Currently Enrolled at ASU

Current students interested in earning the certificate must complete a request to add an undergraduate certificate and return it to the undergraduate academic advisor in the School of Public Affairs at the University Center on the Downtown Phoenix campus. Students may begin taking courses before they formally register for the certificate; however, they are encouraged to complete the paperwork as soon as possible. Download application from <http://students.asu.edu/node/1993> (<http://students.asu.edu/node/1993>).

Individuals Not Currently Enrolled at ASU

Individuals who are not currently enrolled as students at Arizona State University must complete an application to enroll as a nondegree-seeking student before they may begin taking courses. For information on admissions and to complete an application, visit the university's nondegree student admission page at <http://students.asu.edu/non-degree-student-admission> (<http://students.asu.edu/non-degree-student-admission>).

Once students have been admitted, they are eligible to enroll in courses to complete the certificate program.

Religion and Conflict Certificate (LARELCERT)

Campus: TEMPE

Description:

The certificate may be of particular interest for students pursuing careers in journalism, law, policy work, diplomacy, the military, public advocacy, publishing, education, ministry or other fields in which an enhanced understanding of religion and conflict is increasingly vital.

Program Requirements:

Students complete 18 credit hours of qualifying course work (at least 12 credit hours from ASU and at least 12 upper-division credit hours), consisting of regional, political and cultural components. To ensure that students are exposed to a wide variety of approaches to the study of religion and conflict, an interdisciplinary component requires that at least six of the 18 credit hours be fulfilled with courses from the humanities and at least three credit hours from the social sciences. In many cases, the same course can be used to fulfill several component requirements simultaneously.

- Regional component (six credit hours): Courses in this category provide students specific regional knowledge of how religion has been implicated in human conflict. Required course work in at least two different regions fosters a comparative understanding of the dynamics of religion and conflict in historical and global contexts.
- Political component (three hours): Courses in this category explore how religion influences, or is influenced by, matters of state, law, government or other dimensions of political life.
- Cultural component (three credit hours): Courses in this category provide students with an understanding of how religion operates as a powerful force that impacts and intersects with expressions of human identity, thought and culture.
- Electives (six credit hours): Any approved or qualifying course (either from the above categories or other approved classes) may be used as an elective to fulfill remaining requirements toward the total number of credit hours and to meet the interdisciplinary requirement.
- Of the total 18 credit hours taken to fulfill the certificate, at least three must be from the social sciences (SOC, POS, SGS or WST) and six from the humanities (ARB, HST, POR or REL).

Religion and Conflict Course Offerings

A minimum grade of "C" (2.00) is required for a course to fulfill a certificate requirement. For a current list of approved courses, see the Center for the Study of Religion and Conflict website.

Enrollment Requirements:

Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the Office of Admissions online application. Students wishing to pursue the certificate must complete enrollment documents located in the student portal on the Center for the Study of Religion and Conflict website, and formally declare the certificate with the assistant director of academic services in the School of Historical, Philosophical and Religious Studies advising center. For questions about the program, contact the certificate director in the Center for the Study of Religion and Conflict.

Russian and East European Studies Certificate (LAREECERT)

Campus: TEMPE

Description:

The certificate in Russian and East European studies encourages students to develop special competency in Russian or East European languages and area studies. Course work leading to the certificate is offered in agribusiness, architecture, biology, economics, Eurasian languages (Armenian, Tajik, Tatar, and Uzbek), geography, history, international business, music, political science, religious studies, Slavic and East European languages (Albanian, Bosnian/Croatian/Serbian, Macedonian, Polish, Romanian, and Russian) and sociology and women's studies, but the certificate program is open to all students, regardless of major.

Certificate holders enhance their prospects for study abroad fellowships, graduate admissions and also qualify for unique entry-level government employment opportunities. Past certificate awardees have moved into positions of leadership in government, academia and the private sector.

Program Requirements:

The requirements for the Russian and East European studies certificate comprise 22 credit hours of Russian or another Eurasian or East European language and 30 credit hours in Russian, East European and Eurasian area-related course work, of which at least 24 credit hours are upper-division.

At least three disciplines must be represented in the area-related course work, and at least 12 credit hours must be outside the School of International Letters and Cultures (i.e., non-RUS, SLC, and SLV courses). Fulfillment of these requirements is certified by the Melikian Center for Russian, Eurasian and East European Studies and is recognized on the transcript as a certificate in Russian and East European studies. The purpose of this undergraduate certificate program is to encourage students majoring in a chosen discipline to develop special competency in Russian, Eurasian or East European languages and area studies. A student with a major in any school or department may pursue this certificate.

Enrollment Requirements:

Any student admitted to study at ASU may pursue a certificate program. In order to apply to study at ASU, complete the Office of Admission online application. Please contact the Melikian Center for more information.

Sales and Marketing Essentials Certificate (BASMECERT)

Campus: TEMPE

Description:

Designed for undergraduate non-business majors, the certificate in sales and marketing essentials offers a set of courses that cover essential marketing knowledge in a wide variety of marketing application domains. While students are required to enroll in two fundamental courses in marketing (Essentials of Marketing and Essentials of Selling), students can then choose three other courses from a larger set (services marketing, business marketing, global marketing, sports business and advertising) to tailor their certificate to their particular interests. While some courses are offered in a face-to-face setting, the entire certificate is offered online for flexibility and convenience.

Program Requirements:

The certificate in sales and marketing essentials requires 15 credit hours to complete and is available to undergraduate non-business majors or nondegree seeking students at ASU. The entire certificate may be taken online.

Required:

MKT 390 Essentials of Marketing (3)

MKT 391 Essentials of Selling (3)

choose any three of the following set:

MKT 392 Essentials of Business Marketing (3)

MKT 397 Essentials of Global Marketing (3)

MKT 396 Essentials of Services Marketing (3)

MKT 398 Essentials of Sports Business (3)

MKT 395 Essentials of Advertising and Marketing Communication (3)

To receive the certificate, students must complete the specified business courses with a grade of "C" (2.00 on a scale of 4.00) or higher.

Enrollment Requirements: Students need to complete an application, which is available online or in BA 160. Please contact the department for more information and see <https://my.wpcarey.asu.edu/undergrad/academics/sales-and-mkt-certificate.cfm> (<https://my.wpcarey.asu.edu/undergrad/academics/sales-and-mkt-certificate.cfm>).

Secondary Education Certificate (TESEDCERT)

Campus: POLY, TEMPE, WEST

Description:

The secondary education certificate program prepares students who wish to teach students enrolled in grades seven to 12. While students develop a strong content background, the secondary education certification focuses on developing the requisite teaching knowledge and abilities to successfully teach middle or high school students. In order to integrate teacher preparation with the academic specialization, the Teachers College maintains connections with academic departments across the university. Clinical experience and student teaching are required components of this certificate. Students who complete this certificate program will be issued an Institutional Recommendation for certification in Arizona. Appropriate state exams must also be passed to receive certification.

Program Requirements:

Students are required to have a Department of Public Safety fingerprint clearance card prior to enrolling in course work required for certificate. Students will need to have all additional course work completed and a GPA of 2.5 prior to enrolling in SED 478 Student Teaching. Students can take up to two evening or online courses in addition to this student teaching semester.

Enrollment Requirements:

Students will need a 2.5 GPA to enroll in course work, a valid Arizona DPS fingerprint clearance card, appropriate content area course work and Teachers College advisor approval. This certificate is not available to Mary Lou Fulton Teachers College students.

Small Business and Entrepreneurship Certificate (BASMBCERT)

Campus: TEMPE

Description:

Students learn how to launch their own business or work with small or startup operations. Courses include small business, entrepreneurship and business plan development. Classroom work is complemented by frequent interaction with successful founders and leaders of entrepreneurial ventures.

Program Requirements:

This certificate in small business and entrepreneurship is available only to business majors at ASU. The certificate requires 15 credit hours of courses, including the following six credit hours:

MGT 440 Entrepreneurship (3)
MGT 445 Business Plan Development (3)

The remaining nine credit hours consist of three additional upper-division courses relevant to small business. A copy of the approved electives for business majors pursuing the certificate in small business and entrepreneurship is available in the undergraduate programs office, BA 109. To receive the certificate, students must complete the specified business courses with a grade of "C" (2.00 on a scale of 4.00) or higher.

Enrollment Requirements:

Students need to complete an application, which is available online or in BA 160. Please contact the department for more information and also see <https://my.wpcarey.asu.edu/undergrad/academics/small-business-certificate.cfm> (<https://my.wpcarey.asu.edu/undergrad/academics/small-business-certificate.cfm>), then click on the embedded link "course requirements for the Small Business and Entrepreneurship Certificate."

Social Transformation Certificate (LASOTCERT)

Campus: TEMPE

Description:

The undergraduate certificate in social transformation introduces students to the ways in which social change is catalyzed by social movements, social entrepreneurship, social innovation, protest, law, activism and organizing. Students enrolled in the certificate learn how diverse communities locally and globally have achieved social change, understand theories of social transformation, and consider how to apply what they have learned

about social transformation and transformational knowledge to the social problems facing communities today. The course work provides comparative, transdisciplinary and socially engaged frameworks within which to understand local and global mobilization, including, but not limited to, civil rights movements, labor movements, democracy movements, movements for global justice and movements for gender equality. Students learn how communities that have traditionally been institutionally marginalized have successfully mobilized to achieve institutional, political, cultural and economic change.

Program Requirements:

Certificate Requirements

Students pursuing the certificate must complete 15 hours of course work, at least 12 hours of which must be from ASU.

A minimum grade of "C"(2.00) is required for a course to count toward the certificate. The same course may be used to satisfy multiple graduation requirements.

There are no language requirements.

Required Certificate Courses

There will be two required courses:

- a lower division course: SST 220 Introduction to Social Transformation (3)
- an upper division capstone internship or independent study: SST 484 Internship (3) or SST 499 Individualized Instruction (3)

Certificate Elective Courses

In addition to the two required courses, certificate students must take three upper-division courses, or nine credit hours, related to social transformation and transformational knowledge. These courses may be chosen from the following course list. Additional related courses can be applied to the certificate with advisor approval.

- AFS 355 Democracy and Civil Society in Africa (3)
- AFH/WST 364 Unruly Voices: Black Women and Cultural Narratives, C, HU (3)
- AFR 394 Race, Ethnicity/Politics (3)
- AFS 415 Black Political Thought and the Limits of Liberal Democracy, SB, G, H (3)
- AFS 494 Effective Methods for Social Transformation (3)
- AFS 470/WST 471 Women's International Human Rights (3)
- AFS 325 Music as Political Discourse: Reggae, Calypso and Hip Hop (3)
- AIS 394 Innovation for American Indian Sustainability (3)
- APA 350 Inequality and Diversity in Education (3)
- APA/AFS 394 Race, Space and the Production of Inequality (3)
- APA/AFS 394 Social Movements and Intercultural Coalitions (3)

- COM 312 Communication, Conflict and Negotiation (3)
- COM 341 Social Contexts for Performance (3)
- ENG 371 Rhetoric of the Environmental Movement (3)
- ENG 333 American Ethnic Literature, L or HU, C (3)
- ENG 367 Environmental Issues in Literature and Film, L or HU (3)
- HST 306 The Civil Rights Movement, HU or SB, H (3)
- HST 354 Revolutionary Europe, SB, H (3)
- HST 498 Pro-Seminar: Segregation and Desegregation in U.S. History and Law, L (3)
- JUS 320 Community and Social Justice, SB, C (3)
- JUS 321 Wealth Distribution and Poverty, SB, C (3)
- JUS 350 Immigration and Justice, SB, C (3)
- JUS 375 Justice and Mass Media, SB (3)
- JUS 394 Black Political Movement (3)
- JUS 394 Cyberpolitics (3)
- JUS 394 Prison Social Movement (3)
- JUS 430 Social Protest, Conflict and Change, L or SB, C (3)
- JUS 444 Environment and Justice, L, C (3)
- JUS 460 Feminism and Justice, C (3)
- JUS 474 Legislation of Morality, L or SB, C(3)
- JUS 497 Honors Colloquium: Social Enterprise: Innovation and Justice (3)
- MHL 494 Music and Movement in Hip Hop Culture (3)
- NLM 410 Social Entrepreneurship (3)

REL 379 Religion, Nationalism and Ethnic Conflict, HU, G (3)
REL 482 Religion, Violence and Conflict Resolution (3)
REL 494 Inquiry into Religion and Conflict (3)
SOC 352 Social Change, SB, G, H (3)
TCL 340 Chicana/o and Latina/o Politics and Policy, L, C (3)
TCL 341 Policy Issues in Chicana/o and Latina/o Urban Settings, C (3)
THP 482 Theatre for Social Change, C (3)
URB 405 Citizen Engagement and Community Building (3)
WST 375 Women and Social Change, SB, C (3)
WST 377 History of Feminist Thought, H, C (3)
WST 378 Global Feminist Thought, L, C, G (3)
WST 380 Race, Gender and Class, SB, C (3)
WST 394 Women, Power and Leadership (3)

Enrollment Requirements:

Students who have attained junior standing (56 credit hours) in any undergraduate degree program in any field at ASU are eligible for admission to the certificate in human rights. There are no formal admissions procedures to begin certificate course work, but students should contact the certificate in human rights program director or an advisor as soon as they decide to begin pursuing the certificate.

Socially Engaged Practice in Design and the Arts (Certificate) Certificate (HISEPCERT)

Campus: TEMPE

Description:

Socially engaged practice in design and the arts is an evolving area of the arts and design that uses community participation, reciprocal organizational relationships and collaboration in public contexts to promote civic dialogue and investigate pressing issues of our time. This certificate program provides rigorous training and field experience in arts and design in civic and applied settings.

Program Requirements:

The certificate in socially engaged practice in design and the arts requires 18 credit hours.

Required Courses:

HDA 210 Creativity and Innovation in Design and the Arts (3)
HDA 310 Socially Engaged Practice (3)
HDA 410 Seminar in Socially Engaged Practice (3)

Electives (6)

two upper division electives*

Fieldwork (3)

*Electives are to be selected from the master list of courses flagged as socially engaged practice shown on the Herberger Institute website, http://herbergerinstitute.asu.edu/institute/sociallyengagedpractice/curricular_impact.php ([http://herbergerinstitute.asu.edu/institute/sociallyengagedpractice/curricular_impact.php" target="blank"](http://herbergerinstitute.asu.edu/institute/sociallyengagedpractice/curricular_impact.php)).

Students will complete a fieldwork assignment through an internship (HDA 484, or a 484 course in a specific Herberger Institute arts or design discipline) or an individualized study (a 499 course in a Herberger Institute arts or design discipline) or other capstone course approved by petition through the Herberger Institute Office of Student Success.

Enrollment Requirements:

A minimum GPA of 3.00 is required to complete the certificate. The certificate is administered through the Office of Student Success in the Herberger Institute and is open to all undergraduate students admitted to ASU or nondegree undergraduate students wishing to complete the certificate only.

Students enrolled in the BA in the arts in the Herberger Institute must complete three additional hours of course work unique to the certificate program that does not also count towards their major (due to the overlapping requirements of HDA 210 and 310).

Socio-Legal Studies Certificate (LASLSTCERT)

Campus: TEMPE

Description:

The undergraduate certificate in socio-legal studies offers a model for educating and training students in the study of legal ideas, institutions and practices from the perspectives of the social sciences, law, and the humanities. The distinction between law "on the books" and law "in action," which refers to how people experience law in their everyday lives, is a cornerstone of the certificate program. Course work provides students with multiple and intersecting theoretical and methodological approaches that reveal law as a socially embedded system of loosely connected institutions, practices, presumptions and rules. Students participating in the certificate program will learn how to apply these socio-legal tools of analysis to their study of law in action.

Program Requirements:

Students must complete 18 hours of qualifying course work from ASU. A minimum grade of "C" (2.00) is required for a course to count toward the certificate.

Required Certificate Core Courses:

Ethics, Morality, and Theories of Justice (select one):

HON 494 Great Traditions of Jurisprudence (3)
JUS 303 Justice Theory (3)
PHI 307 Philosophy of Law, HU (3)
 PHI 336 Social and Political Philosophy (3)
PHI 408 Feminist Ethics, HU (3)

Legal Institutions and Structures (select one):

JUS 308 Courts and Society (3)
JUS 360/CRJ 350 Law and Social Control, SB (3)
JUS 410 Punishment: Logic and Approach (3)
JUS 463/CRJ 470 Discretionary Justice, SB (3)
JUS 465 Death Penalty in the United States, L (3)
JUS 479 Law and Disputing, L or SB (3)
POS 315 The Supreme Court, SB (3)
POS 465 International Organization and Law, SB, G (3)
POS 471 Constitutional Law I, SB (3)
POS 472 Constitutional Law II, SB (3)

Interdisciplinary Component (9)

To provide students an opportunity to focus on specific issues and social problems while also providing a broad interdisciplinary framework, students will select three electives. These courses must be taken from at least two different academic units from a set of approved courses, providing flexibility so that they may pursue an individualized course of study. Additional courses beyond those listed on this proposal may be added with approval of the certificate director.

Experiential Learning (3)

A central element of this certificate program will be the linkage of learning and doing; connecting theoretical and substantive learning about socio-legal studies with practical knowledge in order to provide policy makers and practitioners with insights of academic socio-legal research and also to bring practical experience back to academic discussions. Students will connect classroom learning with practical experience through either a for-credit internship (with a relevant organization in U.S. or abroad) or a Research Experience with Undergraduates (REU) under faculty supervision (honors thesis may substitute). A written component will be required for both the internship and the REU.

Enrollment Requirements:

Students who have attained junior standing (56 credit hours) in any undergraduate degree program at ASU are eligible for admission to the certificate in socio-legal studies. There are no formal admissions procedures, but students should contact the certificate in socio-legal studies program director or advisor as soon as they decide to pursue the certificate.

Southeast Asian Studies Certificate (LASALCERT)

Campus: TEMPE

Description:

The certificate in Southeast Asian studies can supplement a bachelor's, demonstrating knowledge of a Southeast Asian language and knowledge of Southeast Asian history, art, culture and society.

This certificate prepares students for admission to graduate programs in Southeast Asian area studies or in an academic discipline with a focus on Southeast Asia, or for advanced programs in international law, journalism, business or other professional fields.

Recent graduates have gone on to enter medical school, MBA and doctoral programs. An earned certificate will appear on student transcripts as a Southeast Asian studies emphasis.

Program Requirements:

The certificate requires a simultaneous two-year sequence in a Southeast Asian language (Indonesian, Thai or Vietnamese) and 18 credit hours, of which a minimum of 12 credit hours must be upper division, including the three courses listed below plus two electives (selected from an approved list) and a three-credit capstone project.

ASB 325 Peoples of Southeast Asia, G (3)

ASB 240 Introduction to Southeast Asia, HU or SB, G (3)

(also offered as GCU 240, HST 240, POS 240, REL 240 and SGS 240)

HST 391 Modern Southeast Asia, SB, G, H (3)

Enrollment Requirements:

A certificate in Southeast Asian studies is available to any undergraduate student. There are no specific admission requirements other than a student's desire to learn about Southeast Asia. A minimum grade of "C" (2.00) is required for each course that is used to fulfill the certificate requirements. Please contact the School of Historical, Philosophical and Religious Studies advising center for more information.

Spanish for the Professions Certificate (LSSPPRFCER)

Campus: DTPHX

Description:

The series of courses in this 18-credit-hour certificate will help students hone Spanish communication skills and cultural knowledge, to serve the needs of the U.S.-Latino community in professional settings (i.e., education, social work, health care, criminology, journalism). This program is only offered on the ASU Downtown Phoenix campus and is open to current ASU students as well as members of the community. The combination of professionally focused courses and practical experience in this certificate will enhance students' professional skills in positions that require advanced proficiency in Spanish and in-depth understanding of U.S.-Latino culture.

Program Requirements:

Prerequisite: SPA 394 Introduction to Spanish for the Professions OR instructor permission.

SPA 402 Spanish Written Communication for the Professions (3)

SPA 403 Spanish Grammar and Stylistics for the Professions (3)

SPA 404 Spanish in the U.S. Professional Communities, C (3)

SPA 405 Latino Cultural Perspectives for the Professions, C (3)

SPA 484/SPA 499 Internship or Individualized Instruction* (3)

SPA 494/401 Spanish Oral Communication for the Professions (3)

*Prerequisite: A minimum of 12 credit hours completed in this certificate and permission of the instructor.

All courses for this certificate will require a minimum grade of "C" (2.00) or better to get credit toward fulfilling minor requirements.

Enrollment Requirements:

For additional admission and registration requirements, please visit the school's website.

Special Events Management Certificate (HSRTMUERT)

Campus: DTPHX

Description:

The special events management certificate is a career enhancement program offered to nondegree-seeking students or those who already have a degree from an accredited university in any major or to students currently pursuing a bachelor's in any major.

Program Requirements:

The certificate requires 18 credit hours: 15 credit hours of required core courses and three credits of electives. Courses taken as part of a university major may count toward that degree and the certificate. To earn the certificate, students must complete all course work in the certificate with a minimum grade of "C" or better. An application to the program is required.

Required Core Courses:

PRM 486 Special Events Management (3) (Must take this first as prerequisite for PRM 422)
PRM 422 Entertainment, Protocol and Programming for Special Events (3)
PRM 423 Special Event On-Site Operations (3)
PRM 427 Revenue Generation for Special Events Management (3)
PRM 488 Event Marketing and Promotion (3)

Elective courses (select one course from the following):

NLM 220 Introduction to Nonprofit Organizations (3)
NLM 310 Volunteer Management (3)
PRM 368 Sports Management (3)
PRM 470 Environmental Interpretation and Education (3)
PRM 475 Entrepreneurial Recreation and Tourism (3)
PRM 487 Advanced Special Events Management (3)
PRM/TDM/NLM 301 Sustainable Communities (3)
TDM 205 Introduction to Travel and Tourism, G (3)
TDM 350 Tourism Marketing (3)
TDM 345 Meeting and Convention Planning (3)
TDM 448 Heritage and Cultural Tourism (3)

Standards

- 18 hours of graded classroom course work (no internship, no independent study)
- minimum "C" (2.00) grade required for all classes in the certificate
- minimum GPA of 2.00 for those pursuing the certificate
- should be a junior to take 400-level courses

Enrollment Requirements:

Student wishing to pursue the special events management certificate should consult with an academic advisor in the School of Community Resources and Development. For additional information, please visit the official website.

Speech-Language Pathology Assistant Certificate (LASLPACERT)

Campus: TEMPE

Description:

The speech-language pathology assistant certificate prepares students to work with individuals with communication disorders under the direction of a speech language pathologist. Students majoring in speech and hearing science or persons already holding a bachelor's in speech and hearing science receive additional course work and clinical training to be eligible for the speech-language pathology assistant licensure and for positions working under the direction of an speech-language pathologist in schools, clinics and rehabilitation agencies that provide speech and language services.

Program Requirements:

The speech-language pathology assistant certificate includes 15 credit hours of course work and clinical internships completed in conjunction with the bachelor's in speech and hearing science. The student must take SHS 402 (3), SHS 473 (3) and SHS 483 (3) and complete two internships (6 credits) of clinical practice (SHS 484). Twelve of the 15 credit hours for the speech-language pathology assistant certificate must be completed at ASU. A minimum grade of "B-" is required for a course to count toward the certificate.

Enrollment Requirements:

Students who have completed 15 credit hours in speech and hearing science course work with at least a 2.75 grade point average in those courses are eligible to apply. Applications will also be accepted from students who have completed a bachelor's in speech and hearing science or communication disorders from a program accredited by the American Speech-Language-Hearing Association, providing their grade point average in the major was at least 2.75. Please contact the Department of Speech and Hearing Science for more information.

Sports Business Certificate (BASPBCERT)

Campus: TEMPE

Description:

The certificate in sports business is an innovative curriculum designed for BS undergraduate students in the W. P. Carey School of Business who are interested in deepening their knowledge in the sports business domain. Particular attention is given to providing a foundation in marketing and sales as it is applied to the sports business discipline. The certificate prepares students for success by complementing course work from a degree program with specialized business knowledge in the sports business area of interest.

Program Requirements:

The certificate in sports business is available to BS undergraduate business majors in the W. P. Carey School of Business. The certificate requires 15 credit hours of classes.

Required:

MKT 430 Sports Business (3)

Choose at least two of the following three courses:

MKT 465 ST: Projects in Sports Business (3)

MKT 460 ST: Sports Revenue Generation (3)

MKT 484 Internship or MKT 493 Honors Thesis (3)

Choose up to two of the following courses:

MKT 370 Professional Sales and Relationship Management (3)

MKT 410 Sales and Sales Management (3)

MKT 435 Entrepreneurial Marketing (3)

MKT 442 Services Marketing Strategy (3)

MKT 484 Internship or MKT 493 Honors Thesis (3)

Enrollment Requirements:

Prerequisites: This program is available to W. P. Carey BS students with a 2.5 ASU cumulative GPA and 56 earned hours. Students must have completed MKT 300, MKT 302, or MKT 303 with a grade of C or better.

Students complete the certificate application, which is available online or in BA 160. Please contact the Department of Marketing for more information and also see <https://my.wpcarey.asu.edu/undergrad/academics/sports-business-certificate.cfm> (<https://my.wpcarey.asu.edu/undergrad/academics/sports-business-certificate.cfm>).

Symbolic Systems Certificate (LAPHICERT)

Campus: TEMPE

Description:

The symbolic systems certificate takes an interdisciplinary approach to the symbolic representation and processing of information. Course work covers three areas:

- human cognition and theories of mind
- philosophy of language and linguistics
- computing and logic

Certificate course work exposes students to the subject matter from conceptual, empirical and practical points of view. The certificate may interest students who wish to add breadth to their degree through work in a variety of majors, including:

- computer science
- linguistics
- mathematics
- philosophy
- psychology

The certificate takes an interdisciplinary approach to cognition, computation and meaning. Course work is focused around three thematic areas in order to expose students to the subject matter from a conceptual, empirical and practical point of view:

- cognitive systems
- linguistic systems
- symbolic systems

Although some suggested courses have prerequisites, the breadth of disciplinary course options make it likely that many students will find they have already completed necessary prerequisites in the course of completing their chosen major or minor.

Program Requirements:

The certificate in symbolic systems consists of 18 credit hours approved by an academic advisor in the School of Historical, Philosophical and Religious Studies. Students must complete at least one computer science and engineering (CSE) course and at least one philosophy course, preferably PHI 333 (3). Fifteen credit hours are chosen from the following, with at least one course required from each area:

- cognitive systems
- linguistic systems
- symbolic systems

Since some of the approved courses in each area have special prerequisites, students should plan their certificate course work carefully. With written approval from the director of undergraduate studies, one substitution of a course from outside the approved list may be made. At least 12 of the 18 credit hours must be upper division and all courses must be passed with a minimum grade of "C" (2.00).

Enrollment Requirements:

Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the Office of Admissions online
Academic Catalog Archive 2013-2014 779

application. Please contact the School of Historical, Philosophical and Religious Studies advising center for more information.

Teaching English to Speakers of Other Languages (TESOL) Certificate (LATESLCERT)

Campus: TEMPE

Description:

The Teaching English to Speakers of Other Languages undergraduate certificate consists of a coherent set of courses that are related to teaching English to speakers of other languages. This certificate is designed for students who are interested in teaching English as a foreign language. It will also be a good preparation for students who want to later pursue graduate studies in the Master's of Teaching English as a Second Language program at ASU or in a similar program at another institution. Note that this certificate does not certify students to teach in Arizona public schools (K-12).

Program Requirements:

Any student admitted to ASU can elect to pursue the certificate program. To complete the certificate, students must complete 18 credit hours with a minimum grade of "C". Twelve of these credits will come from upper-division undergraduate classes and six of those credits must be from courses offered by the College of Liberal Arts and Sciences.

Required classes:

- ENG 213 Introduction to the Study of language (3)
- ENG 404 Studies in Second Language Acquisition (3)
- ENG 404 Studies in Second Language Acquisition (3)
- ENG 484 Internship (3)

Electives (6 credit hours):

one ENG 404 course with a different topic; and one course such as ENG 214, ENG 313, ENG 314, ENG 312, ENG 413 or others approved by the advisor.

Enrollment Requirements:

For more information about the TESOL certificate, contact an advisor in the Department of English.

Technical Communication Certificate (LSTECCERT)

Campus: POLY

Description:

Through the technical communication program, students learn how to produce, design and manage information using traditional and developing technologies.

Program Requirements:

The undergraduate certificate requires 18 hours.

Required Courses:

- TWC 301 General Principles of Multimedia Writing (3)
- TWC 401 Principles of Technical Communication (3)

choose one of the following courses:

TWC 411 Principles of Visual Communication (3)
TWC 421 Principles of Writing with Technology (3)
TWC 431 Principles of Technical Editing (3)

Electives (9):

Choose three other 400-level TWC courses, of which at least two must be genre or information courses, such as TWC 443 Proposal Writing (3) or TWC 452 Information in the Digital Age (3).

Enrollment Requirements:

The certificate is available to all admitted undergraduate students (regular or nondegree) at ASU. Once students have been admitted, they are eligible to enroll in courses to complete the certificate program. Applications are accepted throughout the year.

Please contact the school for more information.

Technology Entrepreneurship Certificate (ESTNECERT)

Campus: TEMPE

Description:

Engineers and scientists around the globe launch high-tech companies to move their ideas to the market. Studies show that the majority of innovative products and services in the economy evolve from entrepreneurial ventures. By providing knowledge and skills important to the creation and leadership of such startups, the certificate program in technology entrepreneurship aims to train the founders and leaders of tomorrow's high-tech ventures. The certificate program is designed specifically for engineers. Courses are approached from the perspective of the student whose primary interest is in technological innovation, whose primary concentration is engineering and who has little or no prior business education.

Program Requirements:

This 15-credit-hour certificate program is limited to students in the Ira A. Fulton Schools of Engineering and is designed to help technically oriented students analyze, launch and operate an entrepreneurial venture. The certificate program in technology entrepreneurship requires that students enroll in and complete five courses. Admission to the cohort portion of the certificate program can only occur after successful completion of the introduction course, FSE 301 Entrepreneurship for Engineers (prerequisite: junior standing in a bachelor's program in the Ira A. Fulton School of Engineering). Once admitted to the certificate program, students must also successfully complete the remaining certificate courses:

FSE 400 Creating and Launching a Technology Venture
FSE 401 Intellectual Property for Technology Ventures
FSE 402 Operating a Technology Venture
FSE 403 Entrepreneurship Practicum

Enrollment Requirements:

The qualifications for admission to the certificate in technology entrepreneurship program are having junior standing in a bachelor's program in the Ira A. Fulton Schools of Engineering and successful completion of the selection interview process.

The selection interview process consists of two parts: a letter of intent written by the student to the selection committee, and a live interview with the selection committee, which consists of at least one faculty member, one entrepreneurship program advisory board member and one member of the regular engineering faculty.

Each selection interview is conducted according to a fixed format, with each certificate program candidate having the opportunity to respond to the same set of questions. Please contact the department for more information.

Translation Certificate (LASPACERT)

Campus: TEMPE

Description:

The translation certificate program is designed to provide:

- advanced training required for professional translation in both public and private sectors
- preparation for the rigorous examinations required by national and international agencies
- training as an ancillary skill for professional fields, such as international business, public health, medicine and law, in accordance with guidelines recommended by the American Translators Association

Program Requirements:

The certificate program consists of the following requirements:

Prerequisites:

SLC 400 Linguistics, SB (3) or SPA 400 Introduction to Spanish Linguistics (3) or equivalent
SPA 412 Advanced Conversation and Composition, G (3)

Required:

SLC 401 Translation Theory and Practice (3)
SLC 484 Internship: Translation Certificate (2)

Also required are nine hours of applied translation electives in specialized areas chosen from the following courses:

SLC 481 Technical and Scientific Translation (3)
SLC 482 Business and Financial Translation (3)
SLC 483 Medical and Legal Translation (3)

Enrollment Requirements:

Since entry into the field of professional translation is gained through work, cultural experience and examination, the entrance requirements to this certificate program include:

- a written proficiency examination in both the source and receptor languages at the level of completion of an advanced composition course in Spanish (SPA 412) and English (ENG 301)
- extensive work experience using Spanish and English or demonstrated bilingual writing competence in English and Spanish

Women and Gender Studies Certificate (ASWSTCERT)

Campus: WEST

Description:

The certificate in women and gender studies, within the New College of Interdisciplinary Arts and Sciences, is an interdisciplinary program emphasizing intersectional approaches to the study of gender, race, class, ethnicity and sexuality in national and transnational contexts.

Program Requirements:

The women and gender studies certificate consists of 18 credit hours of course work, of which 12 credit hours must be upper division (300 or 400 level).

Core Requirements (12 credit hours):

WST 100 Women, Gender and Society, SB, C (3) or WST 300 Women and Gender in Contemporary Society, SB, C (3)

WST 276 Wave on Wave: Survey of U.S. Women's Movements, H (3)

ETH 310 Critical Research Methods, SB (3)

HRC 498 Capstone: Practices and Approaches (3)

WST elective course work (6 credit hours)

Enrollment Requirements:

The women and gender studies certificate is recommended for graduate students, nondegree students and students majoring in professional programs.

Students wishing to pursue the certificate should consult an academic advisor in the unit offering that certificate to ensure the appropriate set of courses is taken and required paperwork submitted.

Women and Gender Studies Certificate (LAWSTCERT)

Campus: TEMPE

Description:

Women and gender studies, in the School of Social Transformation provides students with an intensive interdisciplinary liberal arts education that enables them to write well, think critically and analyze problems effectively. The certificate program is equivalent to an interdisciplinary minor.

Program Requirements:

The certificate program consists of 18 credit hours, 12 of which must be upper-division courses. Students pursuing a certificate in women and gender studies must consult with the women and gender studies advisor to select appropriate courses and fulfill requirements. A certificate of concentration in women and gender studies is awarded for the successful completion of WST 100 (or WST 300) and WST 377, or WST 378 and an additional 12 credit hours from the list of approved women and gender studies courses.

Enrollment Requirements:

Students admitted to study at Arizona State University are eligible to pursue the requirements of a certificate. In order to be admitted to the university, complete the Office of Admission online application. Please contact the unit for additional information.

Writing (Liberal Arts & Sciences) Certificate (LAENGCERT)

Campus: TEMPE

Description:

The writing certificate provides advanced writing instruction for students in any major. Students pursuing the writing certificate gain practical skill in effective communication and enhance their ability to create, structure and present information in a variety of professional settings.

Program Requirements:

The writing certificate consists of 19 credit hours. Required courses are as follows:

ENG 216 Persuasive Writing on Public Issues, L (3), or ENG 412 Creative Nonfiction (3)

ENG 301 Writing for the Professions, L (3)

ENG 372 Document Production, L (3)

ENG 472 Rhetorical Studies, L (3)

ENG 484 Internship: Writing Certificate Internship (3)

ENG 498 Pro-Seminar: Writing Certificate Portfolio (1)

Also required is an additional writing course in English (3) or a writing or design course (3) selected from an approved list of courses from across campus. All students are required to submit a portfolio before receiving the certificate.

Enrollment Requirements:

Application to the program requires a minimum GPA of 3.00 in ENG 101 and 102, ENG 105, or ENG 107 and 108. Students must also have completed at least 30 hours of course work and must have a minimum cumulative GPA of 3.00. A minimum of six upper division hours must be courses offered by the Department of English in the College of Liberal Arts and Sciences. Please contact the department for more information.

Writing (New College) Certificate (ASWRTCERT)

Campus: WEST

Description:

Comprised of a minimum of 19 credit hours, the writing certificate combines intensive course work (of which at least 12 credit hours must be upper division) and an exit portfolio. Students will choose one of five track options:

- creative writing
- generalist
- nonfiction writing
- professional and technical writing
- publishing and editing

Exit portfolio: Students will assemble a portfolio of writing that demonstrates their grasp of the skills presented during their course of studies.

Program Requirements:

To gain admission to the program, students must demonstrate fundamental writing skills through the completion of English composition. Students are required to submit an application, which includes at least three samples of writing from lower-division courses or independent writing projects. Applications must be submitted at least two months before the start of the semester they anticipate being admitted.

Enrollment Requirements:

The School of Humanities, Arts and Cultural Studies offers this program to students enrolled in any unit of any college at ASU. Certification of advanced writing skills opens the way to a vast array of opportunities, from journalism and publishing to public advocacy, military and government careers, elementary and secondary education, business management, economic development, the law and high-tech industry. Ability to communicate clearly and directly is a key to career advancement in all aspects of business, government and community service.

Undergraduate Programs

Undergraduate Degrees (Program Descriptions)

Business, W. P. Carey School of

Accountancy, BS (BAACCBS)

Campus: TEMPE, WEST

Program Description:

The School of Accountancy's undergraduate program offers two tracks during the senior year. The accounting track is followed by most students and is designed to provide a rich educational experience. The accounting master's internship is the track designed for our most highly qualified students who wish to commit to (and are accepted into) the MAcc program or the MTax program during the second semester of the junior year. The internship provides a particularly rich and individualized educational experience during the senior year. It includes a number of distinct advantages for students:

- a full-time paid internship for credit
- waiver of the GMAT requirement for admission to the MACC or MTAX program
- early consideration for scholarships and graduate assistantships

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Accountancy (MACC)

Taxation (MTax)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Freshmen admission requirements: 1160 SAT Reasoning OR 25 ACT score, OR graduated in the top eight percent of high school class, OR an overall high school GPA of 3.60 in ASU competency courses (A=4.00).

Readmission requirements: must meet Freshman admission requirements by way of high school GPA, test score or class rank and must have a 3.0 transfer GPA (if applicable) and a 3.0 cumulative ASU GPA.

Freshmen should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey's Business BA programs or any other business or other degree program outside W. P. Carey School of Business. Students who are not admissible to a W. P. Carey Business BS major and who did not select a second major or are not admissible to their second major choice will be placed in a Business BA program in W. P. Carey School of Business.

Transfer admission requirements (30 or more semester hours of credit after high school): 3.00 transfer GPA AND 1,160 SAT score OR 25 ACT score OR graduated in the top 8th percent of high school class.

Transfer students should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey's Business BA programs or any other business or other degree program outside W. P. Carey School of Business.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second

major or are not admissible to their second major choice will be placed in Exploratory Social and Behavioral Sciences in the School of Letters and Sciences.

Students with more than 45 transfer hours who are not admissible to the School of Letters and Sciences will be contacted to select an appropriate major.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)
Central Arizona College (<http://transfer.asu.edu/central-az>)
Coconino Community College (<http://transfer.asu.edu/coconino>)
Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)
Pima Community College (<http://transfer.asu.edu/pima>)
Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

The major in accountancy includes the essential academic preparation for students who are:

- planning to pursue a graduate degree or attend law school
- pursuing professional careers in public, corporate and governmental accounting
- seeking positions in consulting, or planning to operate a business
- seeking positions in personal financial planning and portfolio analysis

The U.S. Bureau of Labor Statistics' Occupational Outlook Handbook (2010-2011) states, "Employment of accountants and auditors is expected to grow by 22 percent between 2008 and 2018, which is much faster than the average for all occupations. Job opportunities should be favorable; accountants and auditors who have a professional certification, especially CPAs, should have the best prospects."

Agribusiness (Global Agribusiness), BS (AGAGBGABS)

Campus: POLY

Program Description:

The agribusiness industry is increasingly competitive, sophisticated and global, driving demand for innovative leaders who understand the industry's unique challenges and practices. The programs offered through the highly respected Morrison School of Agribusiness and Resource Management prepares graduates for success in graduate school or a wide range of careers.

The BS in agribusiness teaches students the business of agricultural production, finance, marketing and distribution. Through a technology-rich curriculum that focuses on real-world projects, students explore global agribusiness issues such as international trade, food safety and sustainability.

The concentration in global agribusiness is an applied, industry-oriented curriculum. This concentration is specifically designed to meet the needs of the students interested in studying the business aspects of agriculture in the domestic and global economy. Students learn to analyze and manage issues involved in food manufacturing, input and output supply activities, commodity trading and food distribution.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Freshman and transfer students must submit either an SAT Reasoning test score or an ACT test score by the end of the first semester in the program (we do not require the writing portion of these tests). There is no minimum score requirement.

Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Transfer applicants must have a 3.00 GPA for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in Exploratory Social and Behavioral Sciences in the School of Letters and Sciences.

Students with more than 45 transfer hours who are not admissible to the School of Letters and Sciences will be contacted to select an appropriate major.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Accounting for more than 50 percent of the global economy and employing 25 percent of Americans, agribusiness brings food from the farm to the global table. Possible career paths include

- finance and technical positions with private agribusiness firms and governmental agencies
- management
- marketing
- veterinary medicine

Business, BA (BABUSBA)

Campus: POLY, TEMPE, WEST

Program Description:

The BA in business provides an innovative, interdisciplinary approach to learning, which broadens career options upon graduation. Not only will students acquire a strong grounding in the principles of business, they will also immerse themselves in course work outside the business school, supplementing the business degree.

Students in this program will learn how to apply core business knowledge in one of the following disciplines:

- communication
- global leadership
- global politics
- human resources
- legal studies
- public service and public policy
- sports and media studies
- statistics
- sustainability
- technology
- tourism management
- urban policy

Business (Public Service and Public Policy), BA (BABUSPBA)

Campus: TEMPE

Program Description:

The BA in business with a concentration in public service and public policy prepares students for work in public, nonprofit and private sectors, through comprehensive coverage of topics in public policy and public administration. Students will become familiar with leading a public organization and the process of policy development. Students will examine the public sector through multiple lenses and address its challenges in a practical way. Graduates are prepared for professional careers in public service.

The program also offers preparation for students who wish to pursue graduate degrees in:

- law
- nonprofit administration or other public service
- policy-oriented areas
- public administration
- public policy

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Transfer applicants must have a 3.00 GPA for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with less than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in Exploratory Social and Behavioral Sciences in the School of Letters and Sciences.

Students with more than 45 transfer hours who are not admissible to the School of Letters and Sciences will be contacted to select an appropriate major.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Business (Sports and Media Studies), BA (BABUSMSBA)

Campus: POLY

Program Description:

The W. P. Carey BA in business with a concentration in sports and media studies is attractive to a number of students with an interest in the sports industry. This concentration has been planned to provide students the necessary skills to build knowledge and understanding of the development of the strategic business process in sports organizations and its relationship to media. The proliferation of mass communication, including television, game systems, and social networks, has transformed sports into a highly commercialized industry and sports, in turn, continue to generate revenues for these businesses. The interaction between sports and media has led to a multitude of applications of business knowledge to these fields. The sports and media studies program will offer a strong focus on applied elements of the sports industry, especially as it relates to media and its impact on the industry.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

New freshmen admitted to this program must meet university entrance requirements. Transfer students from within campus or other institutions must meet university requirements and have a 3.0 ASU and 3.0 Transfer GPA.

Career Opportunities:

A degree that incorporates solid business skills and sports and media studies will attract a number of students to Arizona State University. Career opportunities for students could include jobs with titles such as:

- administrative service manager
- advertising and sponsorship sales
- agent
- business manager
- event planner
- management analyst
- operations specialist
- purchasing or buying manager
- wholesale and manufacturing representative

Students in this concentration will find opportunities in mass communication, including television, game systems, and social networks. The interaction between sports and media has led to a multitude of applications of business knowledge to these fields.

Business Entrepreneurship, BS (BABUENTBS)

Campus: POLY, TEMPE

Program Description:

The degree prepares students to identify, evaluate and develop entrepreneurial opportunities in existing companies or through new ventures. Students earning the degree may choose to start a new venture, work for a startup or a small business, or work as an innovator within an existing organization. The degree has an emphasis on collaboration, leadership, communication and team building, as well as development in refined analytical, managerial and leadership skills appropriate for people who want to change the world through innovation. Students in the degree will frequently collaborate with students from across the university. The program gives students a breadth of understanding in all business disciplines and a depth of understanding in opportunity recognition, feasibility, management of resources, and strategy. Students completing the program will have an understanding of the unique requirements of an entrepreneur and will learn how to operate effectively to identify market opportunities, innovative solutions and execution strategies.

A major in economics provides students with the analytical and quantitative skills needed to prepare them for careers in business, government or public policy. The program of study can also be tailored to prepare students for graduate programs in economics, business or law. Students interested in pursuing a PhD in economics are strongly encouraged to minor or major in mathematics as well.

Graduates have taken positions such as:

- consultants who serve as advisers to state and federal governments, as well as private corporations
- corporate economists who collect data and make forecasts relevant to the firm's business
- employment in banking and financial services firms

Each year, many graduates pursue studies at other prestigious universities.

Finance, BS (BAFINBS)

Campus: TEMPE

Program Description:

The finance department has a rich tradition of educating leaders that excel in all aspects of the discipline of finance. Whether ascending to the top ranks of the venture capital industry, executing multimillion-dollar real estate deals or becoming successful entrepreneurs with ideas and drive that are all their own, our graduates are equipped to succeed.

In particular, our Investment Banking Industry Scholars program mentors students interested in going to Wall Street. Our student investment management fund provides undergraduates the opportunity to manage a real-world investment portfolio worth hundreds of thousands of dollars.

The faculty is considered among the top finance departments in the world. Our professional advisory board, comprised of leading professionals from the financial services, manufacturing, energy, investment banking and real estate sectors, provides a sounding board for new ideas and a source of jobs for our top graduates.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)
Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)
International (<https://students.asu.edu/international/future>)
Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Freshmen admission requirements: 1160 SAT Reasoning OR 25 ACT score, OR graduated in the top eight percent of high school class, OR an overall high school GPA of 3.60 in ASU competency courses (A=4.00).

Freshmen should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey's Business BA programs or any other business or other degree program outside W. P. Carey School of Business. Students who are not admissible to a W. P. Carey Business BS major and who did not select a second major or are not admissible to their second major choice will be placed in a Business BA program in W. P. Carey School of Business.

Transfer admission requirements (30 or more semester hours of credit after high school): 3.00 transfer GPA AND 1160 SAT score OR 25 ACT score OR graduated in the top eight percent of high school class.

Transfer students should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey's Business BA programs or any other business or other degree program outside W. P. Carey School of Business.

Students with less than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in Exploratory Social and Behavioral Sciences in the School of Letters and Sciences.

Students with more than 45 transfer hours who are not admissible to the School of Letters and Sciences will be contacted to select an appropriate major.

Food Industry Management, BS (BAFIMBS)

Campus: ONLNE, POLY

Program Description:

This food industry management program is unique and has been developed in close coordination with partners in the food industry to help ensure graduates have the knowledge and skills needed to become immediate leaders in the industry. Students will combine core courses in business disciplines (finance, marketing, management, accounting, supply chain management and economics) with courses specific to the food industry.

Students will select from courses in:

- environmental management and sustainability
- food industry sales and management
- food marketing strategy
- food supply networks
- food retailing
- futures and options markets
- innovation and food product development
- insurance
- pricing and promotion strategy in food markets
- retail information analysis
- risk management

Each of these courses addresses a different issue in which fundamental concepts, theoretical approaches, analytical methods and industry practice are unique to the food industry.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Freshman and transfer students must submit either an SAT Reasoning test score or an ACT test score by the end of the first semester in the program (we do not require the writing portion of these tests). There is no minimum score requirement.

Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Transfer applicants must have a 3.00 GPA for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in Exploratory Social and Behavioral Sciences in the School of Letters and Sciences.

Students with more than 45 transfer hours who are not admissible to the School of Letters and Sciences will be contacted to select an appropriate major.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The BS in food industry management prepares students for business careers in the food industry, which is defined as the group of firms and organizations involved with manufacturing, marketing and distributing food beyond the farm to retail stores, restaurants and institutions such as schools and hospitals. Employing one in six people nationwide, there is a growing demand for professional management in an industry that is becoming increasingly competitive, sophisticated and global.

Potential careers for graduates include, but are not limited to:

- brand manager for a food manufacturing firm
- commodities trader for an investment bank or hedge fund
- district manager for a food retailer

- loan officer for a bank with a food-industry portfolio

Management, BS (BAMGTBS)

Campus: POLY, TEMPE, WEST

Program Description:

The BS in management prepares students to become effective managers and team leaders by providing theoretical and conceptual knowledge and building critical skills such as:

- analytical research and problem solving
- communication
- critical thinking
- global applications
- leadership
- personal ethics and integrity
- teamwork

The curriculum includes the fundamentals of the global economy, the world of e-business, ethics, human resource and strategic management and collaborative team skills. Throughout the program, theories and concepts of management and ethical leadership are enhanced by experiencing and testing these concepts in skill-based exercises, case discussions and team-based project work, including community-based team projects in nonprofit and for-profit business settings.

Marketing (Digital and Integrated Marketing Communications), BS (BAMKDIMCBS)

Campus: TEMPE

Program Description:

Designed specifically for the marketing major, this concentration builds on the knowledge provided in the major and prepares marketing students with specialized knowledge and training in the areas of advertising, brand management, and digital marketing. The purpose of this concentration is to equip the marketing student with cutting-edge knowledge in the marketing communications area so that they are well-prepared to assume jobs in the areas of advertising, brand management and digital marketing. This concentration will enhance the marketing degree by providing specialized expertise to our graduates in an area that is growing in importance in the marketplace.

Supply Chain Management, BS (BASCMBBS)

Campus: TEMPE, WEST**Program Description:**

Supply chain managers coordinate the purchase of raw materials, manufacturing and transportation of materials across multiple vendors and multiple countries to provide the services and finished goods sitting on your local store shelf or online retailer. It is a key reason that people can buy an ever-increasing variety of goods and services at remarkably low prices.

The supply chain management program provides W. P. Carey School of Business students with an in-depth knowledge of integrated supply chain management. The curriculum focuses on:

- execution systems
- logistics
- negotiations
- operations
- planning
- procurement
- strategy development

Classes are small and use projects and case studies to bring the material to life.

Our program is consistently ranked as one of the top supply chain programs in the world, providing our students an opportunity to be recruited by many leading international companies in many different industries.

Design & the Arts, Herberger Institute for

Architectural Studies, BSD (ARSTDBSD)

Campus: TEMPE

Program Description:

Architects design buildings and environments that are useful, sustainable and aesthetically pleasing. This implies an understanding of people's needs; the science and technology of building; and the concepts of aesthetics. The faculty in The Design School offer a BSD in architectural studies. In addition to developing knowledge and skills in architectural design, building technology, landscape architecture and professional practice, students are encouraged to select electives from a broad range of approved courses within the institute and across the university. These electives may be selected to devise a minor, to further professional study or in some other fashion enrich the student's academic experience.

All students who are admitted to the major must pass a degree milestone to continue in the major at the end of the first year. For more information on the milestone process, visit: <http://herbergerinstitute.asu.edu/degrees/milestone.php> (<http://herbergerinstitute.asu.edu/degrees/milestone.php>).

This is an eight-semester program requiring sequential completion of studio course work (or approved equivalent) at any point of entry.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates of the bachelor's program who wish to become licensed can complete their professional studies by attending graduate school and earning the accredited professional master's. In Arizona, other graduates work for registered architects for several years before taking their licensing examination. Some begin their careers working for small offices of 10 to 20 people; others work for very large firms, industries, corporations or governmental agencies.

Art (Art Education), BFA (FAARTEBFA)

Campus: TEMPE

Program Description:

The BFA in art with a concentration in art education involves:

- how instructors and administrators can best facilitate the teaching of art
- how people learn about art
- policymaking in art
- the study of art

The program focuses on public and private K-12 instruction, art in higher education and educational programs in art museums. Students investigate issues in art teaching and learning from multiple perspectives, including:

- art inquiry
- context
- development
- studio
- visual culture

In addition to their art education course work, students are required to take course work in the various studio programs offered in the School of Art.

All students who are admitted to the major must pass a portfolio review to continue in the major after successful completion of the art foundational course work. For more information on the portfolio review process, visit: <http://art.asu.edu/admissions/undergrad/applying/> (<http://art.asu.edu/admissions/undergrad/applying/>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

All art students will be admitted to ASU into the Bachelor of Arts (art studies) program. They must complete a series of requirements including foundational course work and successfully passing a portfolio review to be eligible for study in one of the school's Bachelor of Fine Arts degree programs, which include upper-division course work in the studio. There is no portfolio review process at the time of admission to ASU for freshmen.

Typically, students in their second year who are interested in studio art and art education will submit a portfolio for review after completing the core requirements and during completion of the last of the 12 hours of 200-level art requirements. Students interested in art history or museum studies will submit a declaration form in the semester in which they complete 30 hours. The student's major will be changed upon successful completion of the portfolio. Students may choose to remain in and complete the Bachelor of Arts (art studies) in which case no portfolio is required.

Transfer students who have completed the foundational core and pre-art requirements may submit a portfolio for review before they have been admitted to ASU. To complete an undergraduate degree in four years, it is recommended that community college transfer students, who are completing a two year degree and have completed the foundational core and pre-art requirements, apply and submit a portfolio in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to 1) the existence of parallel and equal courses in the college's curriculum, and 2) departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Career Opportunities:

Graduates who also complete the state certification requirements for an art specialist certificate can teach in public and private elementary schools, middle schools and high schools. Graduates who do not seek state certification may find opportunities for jobs with art museums and recreational or community service groups that offer art instruction.

Art (Art History), BA (FAARTHBA)

Campus: ONLNE, TEMPE

Program Description:

The BA in art history is a comprehensive degree designed to train students to engage with visuality in multiple ways. It offers a diverse curriculum intended to foster critical understanding of the aesthetics, production, patronage and consumption of art. Internationally recognized faculty offer classes across many cultures and time periods, geographies and multiple approaches and methodologies.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students meeting the university requirements for admission may matriculate in the Herberger Institute for Design and the Arts. Separate admission procedures and approvals are required for some programs within the college. Students must contact specific departments or schools for details.

Freshmen students applying to the Herberger Institute School of Art enter ASU as art exploratory majors in the School of Art. There is no portfolio review process at the time of admission to ASU for freshmen.

Typically students in their second year interested in studio art and art education will submit a portfolio for review once they have completed their core requirements and are completing the last of the 12 hours of 200-level art requirements; or if they are interested in art history or museum studies, they will submit a declaration form in the semester in which they complete 30 hours.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to:

the existence of parallel and equal courses in the college's curriculum, and
departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 semester hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 semester hours of resident credit in the major as approved by the faculty.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Graduates in art history at the bachelor's level find employment opportunities in commercial art galleries, entry-level jobs with art publications and in museums. A graduate degree is essential for professional jobs; a master's degree prepares individuals to teach at the community college level or to gain entry into museums, auction houses and publishing companies. The PhD is a necessity for employment as a university or college teacher, and for responsible administrative posts in the museum and publishing world.

Art (Art Studies), BA (FAARTSTDBA)

Campus: TEMPE

Program Description:

The art studies curriculum offers students a broad educational foundation in the arts and general studies. The BA in art with a concentration in art studies is an interdisciplinary program featuring course work in art history, studio art, performing arts and a range of arts-related courses throughout the university. This concentration offers students a great deal of flexibility in planning course work. The scope of offerings in art and elsewhere on campus is unparalleled at smaller institutions. An art studies student can assemble an art-related curriculum focused on individual student needs, in consultation with a faculty advisor.

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students meeting the university requirements for admission may matriculate in the Herberger Institute for Design and the Arts. Separate admission procedures and approvals are required for some programs within the college. Students must contact specific departments or schools for details.

Freshmen may apply directly to the Art Studies program; there is no portfolio review for this major.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to:

the existence of parallel and equal courses in the college's curriculum, and
departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 semester hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 semester hours of resident credit in the major as approved by the faculty.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Graduates work in arts-related fields such as:

- arts administration
- galleries

- service-related art fields

Career opportunities are also available with employers who seek graduates with a well-rounded humanities education.

Art (Ceramics), BFA (FAARTCBFA)

Campus: TEMPE

Program Description:

The BFA ceramics program provides a stimulating and challenging environment for artistic and intellectual growth. With the realization that discipline, familiarity with historical precedents and freedom go hand in hand with creative activities, the area strives to strike a balance between the acquisition of traditional skills and the promotion of independence and innovation. Responsibility is placed on the individual student to find personally meaningful content and an effective means to express that content within the ceramic arts. The ceramics program features a complete and varied line of kilns, wheels and other equipment. World-renowned faculty ensure that graduates of the program learn the techniques and concepts that will enable their work to take any direction they wish. A strong guest artist schedule enhances the program and the Ceramics Research Center at the ASU Art Museum, with its collection of more than 3,000 pieces, provides unparalleled opportunities to study and research ceramics.

All students who are admitted to the major must pass a portfolio review to continue in the major after successful completion of the art foundational course work. For more information on the portfolio review process, visit: <http://art.asu.edu/admissions/undergrad/applying/> (<http://art.asu.edu/admissions/undergrad/applying/>).

Additional Program Fee: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

All art students will be admitted to ASU into the Bachelor of Arts (art studies) program. They must complete a series of requirements including foundational course work and successfully passing a portfolio review to be eligible for study in one of the school's Bachelor of Fine Arts degree programs, which include upper-division course work in the studio. There is no portfolio review process at the time of admission to ASU for freshmen.

Typically, students in their second year who are interested in studio art and art education will submit a portfolio for review after completing the core requirements and during completion of the last of the 12 hours of 200-level art requirements. Students interested in art history or museum studies will submit a declaration form in the semester in which they complete 30 hours. The student's major will be changed upon successful completion of the portfolio. Students may choose to remain in and complete the Bachelor of Arts (art studies) in which case no portfolio is required.

Transfer students who have completed the foundational core and pre-art requirements may submit a portfolio for review before they have been admitted to ASU. To complete an undergraduate degree in four years, it is recommended that community college transfer students, who are completing a two year degree and have completed the foundational core and pre-art requirements, apply and submit a portfolio in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to 1) the existence of parallel and equal courses in the college's curriculum, and 2) departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the
Academic Catalog Archive 2013-2014 816

college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Career Opportunities:

Graduates of the undergraduate and graduate programs work as artists in the field, selling their works through commercial galleries, commissions and to private collectors. Some artists work as designers and consultants to the commercial ceramic industry; others set up their own businesses, producing handcrafted functional ware, architectural tiles and one-of-a-kind works.

Art (Drawing), BFA (FAARTDBFA)

Campus: TEMPE

Program Description:

The BFA drawing program offers a learning environment for creative, intellectual and technical growth that leads to quality art practice and professionalism. The program encourages a wide spectrum of approaches to contemporary drawing as visual expression, ranging from traditional to innovative. Students work under the guidance of a large full-time faculty of active professionals who are nationally and internationally recognized. Visiting artists of national stature enhance the program with lectures and individual undergraduate critiques.

All students who are admitted to the major must pass a portfolio review to continue in the major after successful completion of the art foundational course work. Art (Fibers), BFA (FAARTFBFA)

Campus: TEMPE

Program Description:

The BFA fibers program cultivates an environment that stimulates creative and intellectual growth. Students are encouraged to discover their distinctive expression informed by knowledge and skills related to surface design, woven structures and 3-D structures. Course work covers processes from basic carding, spinning, dyeing and felting to the use of the loom. Throughout, students are challenged to utilize and interpret textile traditions while considering innovative and interdisciplinary approaches to contemporary art.

All students who are admitted to the major must pass a portfolio review to continue in the major after successful completion of the art foundational course work. Art (Intermedia), BFA (FAARTIBFA)

Campus: TEMPE

Program Description:

The BFA intermedia program is a conceptually driven program with an interdisciplinary approach to art-making. Students work with experimental studio practices, performance and digital media to explore new avenues for self-expression, collaborative practice and community action. The program covers a wide range of conceptual and media orientations reflecting the professional practices of a growing team of faculty members. Currently, emphasis in performance, installation, mixed media, digital video, digital sculpture, animation and Web art are offered. Interaction and collaboration across other areas in the School of Art, including sculpture and photography, are encouraged and supported.

All students who are admitted to the major must pass a portfolio review to continue in the major after successful completion of the art foundational course work. Art (Metals), BFA (FAARTMBFA)

Campus: TEMPE

Program Description:

The BFA metals program offers a wide range of traditional and nontraditional approaches to:

- attention to detail
- creativity
- critical thinking
- emphasizing craft skills
- metalworking

A well-equipped studio with a wide variety of metal-smithing tools is offered. Students explore the close relationship with the School of Art's sculpture and foundry programs, learn important entrepreneurial skills and receive a strong foundation in technical vocabulary and methods for working with metal while being encouraged to experiment with alternative materials and techniques.

Students have the opportunity to gain knowledge and skills through additional educational opportunities that include:

- conferences and symposia
- internship possibilities
- lectures
- visiting artists
- visits to artist studios, museums and exhibitions
- workshops

ASU is located in proximity to numerous galleries and museums as well as local organizations such as:

- The Arizona Artist-Blacksmith Association
- The Arizona Designer Craftsmen
- Metalink

All students who are admitted to the major must pass a portfolio review to continue in the major after successful completion of the art foundational course work. For more information on the portfolio review process, visit: <http://art.asu.edu/admissions/undergrad/applying/> (<http://art.asu.edu/admissions/undergrad/applying/>).

Art (Museum Studies), BA (FAARTMSBA)

Campus: TEMPE

Program Description:

Museum studies students explore:

- art galleries
- art history
- art museums
- public art programs
- visual arts organizations

The BA in art with a concentration in museum studies undergraduate program at ASU is one of the most rigorous in the U.S. The program develops students knowledgeable in:

- art history
- critical writing skills
- foreign languages
- museums, galleries and visual arts organizations

The curriculum includes art history courses taught by faculty with diverse specialties. Museum professionals and arts administrator teach specialized classes in their areas of expertise. Internships enable students to work directly with working arts professional in their field of interest.

Students must take courses in:

- art history
- galleries and museums
- research
- small business

Course work may also include classes in small business, nonprofit management and arts policy.

Students must also demonstrate an ability to read at least one foreign language.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

Art (Printmaking), BFA (FAARTPMBFA)

Campus: TEMPE

Program Description:

The BFA program in printmaking provides a complete studio experience with regular courses in:

- book arts
- intaglio
- lithography
- monotype
- other graphic applications
- papermaking
- relief
- screenprint

Accomplished faculty teach in spacious, well-equipped studios, offering a complete range of print media. While individual students are encouraged to pursue a personal direction, the faculty encourages students to become well-rounded printmakers by experiencing and understanding many media and processes, including experimentation and interdisciplinary approaches to making art. No style, technique or aesthetic approach is stressed over another, so that the individual quality of each student's work is the essential measure of achievement. Collaboration is encouraged and students often work with other areas in the School of Art, particularly photography and intermedia.

All students who are admitted to the major must pass a portfolio review to continue in the major after successful completion of the art foundational course work. For more information on the portfolio review process, visit: <http://art.asu.edu/admissions/undergrad/applying/> (<http://art.asu.edu/admissions/undergrad/applying/>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

All art students will be admitted to ASU into the Bachelor of Arts (art studies) program. They must complete a series of requirements including foundational course work and successfully passing a portfolio review to be eligible for study in one of the school's Bachelor of Fine Arts degree programs, which include upper-division course work in the studio. There is no portfolio review process at the time of admission to ASU for freshmen.

Typically, students in their second year who are interested in studio art and art education will submit a portfolio for review after completing the core requirements and during completion of the last of the 12 hours of 200-level art requirements. Students interested in art history or museum studies will submit a declaration form in the semester in which they complete 30 hours. The student's major will be changed upon successful completion of the portfolio. Students may choose to remain in and complete the Bachelor of Arts (art studies) in which case no portfolio is required.

Transfer students who have completed the foundational core and pre-art requirements may submit a portfolio for review before they have been admitted to ASU. To complete an undergraduate degree in four years, it is recommended that community college transfer students, who are completing a two year degree and have completed the foundational core and pre-art requirements, apply and submit a portfolio in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to 1) the existence of parallel and equal courses in the college's curriculum, and 2) departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Career Opportunities:

Trained printmakers are working artists, practicing the expression of a personal understanding of their place in the world. They may find employment as artists or printmakers in schools of all levels teaching the execution and appreciation of visual art. They also work in fine art print studios, executing original prints for other artists. Printmaking skills such as screenprinting or photomechanical, and digital techniques, acquired for the production of art, also have commercial, nonart applications that may afford skilled employment. Artists with printmaking skills may also work with graphic designs, illustrations and signage or may work in museums, conservation, publishing, galleries and in other art-related activities. Additionally, their art may sell successfully in the open marketplace.

Art (Sculpture), BFA (FAARTSBFA)

Campus: TEMPE

Program Description:

The BFA program in sculpture recognizes the broad, interdisciplinary nature of sculpture today. A wide range of media now falls within an expanded definition of sculpture. Course work includes:

- architectural sculpture
- foundry
- interactive and kinetic sculpture
- more traditional forms of 3-D expression, including metal and wood
- neon
- video installation

While classes run the gamut of the contemporary sculpture environment, there also is an emphasis on helping students put today's creations in the contexts of the history of sculpture and the larger field of contemporary art. Critical inquiry is augmented by courses in the art history program. Visiting artists, curators and critics connect students to the contemporary context.

All students who are admitted to the major must pass a portfolio review to continue in the major after successful completion of the art foundational course work. For more information on the portfolio review process, visit: <http://art.asu.edu/admissions/undergrad/applying/> (<http://art.asu.edu/admissions/undergrad/applying/>).

Career Opportunities:

Graduates are prepared to embark on a lifetime exploration of the many aspects of 3-D art. Positions are available in:

- 3-D design
- the fabrication and design of exhibitions
- the motion picture industry
- set design
- teaching
- welding

Academic posts and positions with museums generally require advanced degrees. Many students also prefer to establish their own studios after graduation.

Arts (BA in the Arts), BA (FAATSBA)

Campus: TEMPE

Program Description:

The BA in the arts is a broad-based liberal arts degree program designed for students who are passionate about the arts but wish to explore alternatives to the institute's discipline-specific degree programs. Students will gain an increased understanding of the theoretical, historical and cultural forces that shape the arts, through an open-ended path for exploration and development of a range of skills that will be valuable for advanced study in multiple disciplines.

The major includes a common core for all students, and students choose a focus from:

- an individualized focus designed by the student and subject to approval by the institute's standards committee and the dean's office
- arts administration
- historical and theoretical studies in the arts

Additional Program Fee: N

Second Language Requirement: Students pursuing the historical and theoretical studies focus area must demonstrate foreign language proficiency. Remaining focus areas do not have a second language requirement.

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

As the population in the state of Arizona grows, numerous arts organizations are developing to provide cultural and artistic experiences for our residents. These organizations will need and demand individuals with the necessary critical thinking skills who understand the impact the arts have on society and who will be passionate employees committed to the arts. This program will provide the skill set necessary for careers as:

- arts administrators
- arts critics
- media arts authors and publishers
- museum curators and directors
- public art specialists

Dance, BFA (FADANBFA)

Campus: TEMPE

Program Description:

The School of Film, Dance and Theatre provides a dynamic and culturally diverse learning environment in which students develop as creative artists, scholars and educators. The BFA in dance provides an interdisciplinary curriculum promoting innovative collaborations and a holistic approach to acquiring skills for successful career transitions. The core program values of creativity and research are embedded in a broad range of academic experiences that emphasize:

- artistic process
- leadership
- movement and creative practices
- pedagogy

Through classes, internships and apprenticeships, as well as careful advisement and guidance from the faculty, students discover individual strengths, the power of community engagement and establish unique goals in the dance field.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Admission to the BFA in Dance is selective and based on an interview process. Students are admitted to ASU as dance interview students and must successfully complete an interview and audition before enrolling in the dance major. If you pass your interview, the School of Film, Dance and Theatre will change your major to the BFA in Dance. In the event that you are admitted to ASU, but not selected as a dance major or you miss the interview application deadline, you will enter ASU as a dance interview student and will need to successfully pass the dance interview and audition milestone in the first semester in order to gain admission into the program.

Interview days take place in November and February of each year. To ensure a smooth curricular progression, we strongly encourage all prospective dance students, including transfer students, to participate in the interview day during the semester prior to their intended date of enrollment. More information on the interview process and deadlines can be found at <http://dance.asu.edu/students/undergrad/prospective/applying.php> (<http://dance.asu.edu/students/undergrad/prospective/applying.php>).

The deadline for applying to interview for the dance program for spring 2014 is November 8, 2013.

The deadline for applying to interview for the dance program for fall 2014 is February 7, 2014.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to:

The existence of parallel and equal courses in the college's curriculum.

- Departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

Career Opportunities:

The comprehensive academic foundation of the Bachelor of Fine Arts degree in dance prepares students to be leading dance professionals of the 21st century. Graduates of the bachelor's program have the expertise and broad experience to initiate and lead artistic projects in diverse contexts, perform in a broad range of work, choreograph and collaborate. In addition, graduates:

- conduct research
- direct or manage performing arts companies, studios or dance-related organizations
- facilitate community partnerships and projects
- produce dance media for performance or instruction
- teach and design curriculum
- work in technical theatre and dance production
- work in the field of arts management
- write scholarly publications

Dance (Dance Education), BFA (FADANEBFA)

Campus: TEMPE

Program Description:

The BFA in dance education prepares students for certification to teach dance in K-12 schools in the state of Arizona. Students in this degree program are required to complete additional state certification requirements. The School of Film, Dance and Theatre provides a dynamic and culturally diverse learning environment where students develop as creative artists, scholars and educators. Studies in dance cultures, music, digital media, dance history, philosophy and criticism, movement science, somatics, and stage and screen production enhance the rich educational setting. Creativity and research, the core program values, are embedded in a broad range of academic experiences emphasizing movement and creative practices, artistic process, leadership and pedagogy.

Design Studies, BA (ARDSNBA)

Campus: TEMPE

Program Description:

The BA in design studies is a four-year, nonstudio program of study in design that focuses on the design disciplines offered in the ASU Herberger Institute:

- architectural studies
- graphic design
- industrial design
- interior design
- landscape architecture

It is a highly flexible program of study, much like a liberal arts degree, in which students select design and design-related courses offered in the institute and throughout the university. Students acquire a breadth of design knowledge via courses taken from three categories:

- communication for design
- design history

- general design

It provides a design education, general and specific, to students who seek opportunities in the broader design sector or in graduate education.

Students may undertake the program in one of two specific concentrations: design studies, which allows students to discover the myriad possibilities of design as a subject area as well as the flexibility that it provides for further exploration; or design management, which offers a selection of courses in management and human communication that complement design.

Additional Program Fee: N

Digital Culture (Art), BA (HIDGCABA)

Campus: TEMPE

Program Description:

The BA in digital culture is designed for students who are interested in new media-based cultural practice. Recognizing the transformative role of digital technology in our day-to-day lives, the degree emphasizes the strongest emerging trend in cultural media: systems and processes that integrate digital technology with the everyday physical human experience. This dynamic student-customizable curriculum not only prepares students with tangible skills in new media, but also with skills to continuously adapt and maintain a leadership role in cultural practice over the next 40 years.

Graduates interested in continuing their education are well prepared to apply for the top interdisciplinary new media programs in the nation.

Digital Culture - Art Concentration

The program is for students wishing to specialize in visual composition aspects of new media. Students complement their knowledge of new media with an understanding of the historical and theoretical aspects of visual arts, foundational visual arts skills and hands on knowledge of visual composition through digital means.

For more information on the art concentration, visit: https://digitalculture.asu.edu/education/art_concentration
(https://digitalculture.asu.edu/education/art_concentration).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Upon graduation, digital culture students have a wide array of career opportunities in new media involving the fields of:

- communications (CISCO, Google, Facebook)
- computing (Apple, Microsoft)
- gaming and entertainment (Industrial Light and Magic, Electronic Arts, Pixar)
- media arts (engineering multi-media shows, video and sound production)

The digital culture curriculum also prepares students for roles in the development of modern media systems that address complex socio-technical problems, such as:

- diagnostic, monitoring assistive cyber-physical tools and systems that can be used by health care providers
- new systems for collaborative, participatory content creation and sharing
- social networking and reflection tools for promoting sustainability
- systems for interactive, adaptive learning and computational assessment in educational organizations

Graduates of the digital culture program who are interested in continuing their higher education will be well prepared to apply for admission to the top interdisciplinary new media programs in the nation, including the graduate programs through the School of Arts, Media and Engineering at ASU.

Digital Culture (Arts and Design Studies), BA (HIDCADSBA)

Campus: TEMPE

Program Description:

The BA in digital culture is a broad-based liberal arts degree program designed for students who are interested in new media-based cultural practice. The digital culture initiative is recognizing the transformative role of digital technology in cultural practice and our day-to-day lives. The degree emphasizes the strongest emerging trend in cultural media: systems and processes that integrate digital technology with the everyday physical human experience. We refer to these systems as new media. Through a collaboration with more than 15 partnering ASU units, the Herberger Institute for Design and the Arts has created a dynamic, cross-campus, student-customizable curricula that not only prepares students with tangible skills in new media, but also with skills to continuously adapt and maintain a leadership role in cultural practice over the next 40 years.

Students complement their knowledge of new media with broad-based cross-disciplinary studies in design and the arts.

Digital Culture - The Arts and Design Studies Concentration

The program is for students wishing to integrate cross-disciplinary studies in design and the arts into new media applications.

Students complement their knowledge of new media with broad-based cross-disciplinary studies in design and the arts.

Digital Culture (Interdisciplinary Arts and Performance), BA (HIDCIAPBA)

Campus: TEMPE

Program Description:

The BA in digital culture is designed for students who are interested in new media-based cultural practice. Recognizing the transformative role of digital technology in our day-to-day lives, the degree emphasizes the strongest emerging trend in cultural media: systems and processes that integrate digital technology with the everyday physical human experience. This dynamic student-customizable curriculum not only prepares students with tangible skills in new media, but also with skills to continuously adapt and maintain a leadership role in cultural practice over the next 40 years.

Graduates interested in continuing their education are well prepared to apply for top interdisciplinary new media programs.

Digital Culture - Interdisciplinary Arts and Performance Concentration

This concentration, offered in partnership with New College, focuses on an interdisciplinary and collaborative approach to the arts, technology and performance. The program emphasizes the traditions of interdisciplinary, avant-garde and experimental arts and contemporary art and performance. Courses include digital media arts, music and electronic sound art, performance studies, theatre and performance practice, and digital graphics.

For more information on this concentration, visit: https://digitalculture.asu.edu/education/iap_concentration
(https://digitalculture.asu.edu/education/iap_concentration).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Upon graduation, digital culture students have a wide array of career opportunities in new media involving the fields of:

- communications (CISCO, Google, Facebook)
- computing (Apple, Microsoft)
- gaming and entertainment (Industrial Light and Magic, Electronic Arts, Pixar)
- media arts (engineering multimedia shows, video and sound production)

The digital culture curriculum also prepares students for roles in the development of modern media systems that address complex socio-technical problems, such as:

- diagnostic, monitoring assistive cyber-physical tools and systems that can be used by health care providers
- new systems for collaborative, participatory content creation and sharing
- social networking and reflection tools for promoting sustainability
- systems for interactive, adaptive learning and computational assessment in educational organizations

Graduates who are interested in continuing their higher education will be well prepared to apply for admission to the top interdisciplinary new media programs in the nation, including the graduate programs through the School of Arts, Media and Engineering at ASU.

Digital Culture (Media Processing), BA (HIDGCMPPBA)

Campus: TEMPE

Program Description:

The BA in digital culture is designed for students who are interested in new media-based cultural practice. Recognizing the transformative role of digital technology in our day-to-day lives, the degree emphasizes the strongest emerging trend in cultural media: systems and processes that integrate digital technology with the everyday physical human experience. This dynamic student-customizable curriculum not only prepares students with tangible skills in new media, but also with skills to continuously adapt and maintain a leadership role in cultural practice over the next 40 years.

Graduates interested in continuing their education are well prepared to apply for the top interdisciplinary new media programs in the nation.

Digital Culture - Media Processing Concentration

This concentration is offered in partnership with the Ira A. Fulton Schools of Engineering.

The program is for students wishing to specialize in media processing aspects of new media. Students complement their knowledge with a more advanced understanding of programming, data structures, signals processing and system architecture aspects of new media.

For more information on this concentration, visit: https://digitalculture.asu.edu/education/media_processing_concentration
(https://digitalculture.asu.edu/education/media_processing_concentration).

Film (Film & Media Production), BA (FAFLMBA)

Campus: TEMPE

Program Description:

The School of Film, Dance and Theatre offers a BA in film with a concentration in film and media production. The concentration provides students with a comprehensive practical knowledge of production, awareness of the impact of media and entertainment on the audience, and an understanding of the role of the artist in society. The program teaches students to thoughtfully consider not only how to look through a lens, but why they should, and this is accomplished through a unique emphasis in ethical decision-making in both content creation and business practices. Students in the film and media production concentration have access to digital cameras, lighting and sound equipment in a teaching studio. Postproduction facilities include multiple computer editing stations.

All successful applicants to the Herberger Institute for Design and the Arts bachelor's in film begin their studies at ASU in the filmmaking practices concentration. All students complete the same 15-hour core requirements in their first two years of study.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

All film students will be admitted to ASU into the Bachelor of Arts in Film (Filmmaking Practices) concentration. Students who wish to pursue the highly-selective, studio-based Bachelor of Arts in Film (Film and Media Production) concentration must complete the 15-hour film core and successfully pass an interview and review of their creative work to enter the concentration. This interview and creative work review generally takes place in the second or third term at ASU.

Career Opportunities:

The film and media production concentration provides students with the knowledge and experience to prepare them to enter careers in media and entertainment as:

- cinematographers
- directors
- editors
- producers
- screenwriters

The bachelor's program is an excellent broad-based foundation for work in the profession or to prepare students for further training at graduate schools or conservatories.

Film (Filmmaking Practices), BA (FAFPRBA)

Campus: TEMPE

Program Description:

A BA in film with a concentration in filmmaking practices provides students with a comprehensive film education within the context of the liberal arts.

Students pursuing the filmmaking practices concentration of the bachelor's in film receive grounding in production practice, independent film producing, entertainment ethics and an understanding of the role of the artist in society. Students are encouraged to participate in the production-oriented environment of the Herberger Institute for Design and the Arts. The curriculum's course work in ethics in entertainment and dramatic analysis are two unique components of the program.

Bachelor's students in film begin their studies at ASU in the filmmaking practices concentration. All students complete the same 15-hour core requirements in their first two years of study.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students interested in pursuing the highly-selective, studio-based film and media production concentration must achieve an ABOR GPA at or above 3.0, or an SAT score of 1040, or an ACT score of 22, or top 25% of the high school class. The applicant cannot have a deficiency in English, and each applicant must complete an essay regarding his or her interest in filmmaking practices.

Students are required to write a 500-word essay answering one of the below questions. The essay will be evaluated based on the following: ideas and content, originality, clarity of expression, voice, sentence fluency, word choice, and format. As this essay is used to determine admissibility to the BA in Film (Filmmaking Practices) program, it is essential that work is proofed.

In 500 words (approximately 2 pages, double-spaced) and with an emphasis on creativity as well as composition, please respond to ONE of the following topics:

Talk about a film or filmmaker that inspired you to make a career in film.

How does the entertainment industry affect the world? What would you do to change it?

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The filmmaking practices concentration provides students with the knowledge and experience to prepare them to enter entry-level positions in media and entertainment production, producing and film management or to enter advanced graduate-level education.

Graphic Design, BSD (ARGRABSD)

Campus: TEMPE

Program Description:

Graphic designers are responsible for designing how information is communicated. Forms of communication include print, video, film and electronic (Web). The faculty in The Design School offers the BSD in graphic design.

Graphic designers are concerned with:

- appearance
- choosing the appropriate mechanism for distinctness
- clarity of information
- how communication is transferred and received

This program places an emphasis on strategic communication, developed through a design process that includes research, analysis, conceptualization, planning and realization. The process leads to innovative visual communication design solutions for contemporary design problems that are local to global in scope.

All students who are admitted to the major must pass a degree milestone to continue in the major at the end of the first year. For more information on the milestone process, visit: <http://herbergerinstitute.asu.edu/degrees/milestone.php> (<http://herbergerinstitute.asu.edu/degrees/milestone.php>).

This is an eight-semester program requiring sequential completion of studio course work (or approved equivalent) at any point of entry.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Based on a very diversified portfolio upon graduation, students opting for the graphic design profession gain employment in:

- advertising
- brand and corporate identity
- broadcast (TV graphics)
- interaction and interface design
- museum or exhibitions
- publication

Specific examples of graphic designers' work include:

- annual reports
- books
- environmental graphics
- information design
- motion graphics
- multimedia presentations
- publications
- web design

Students may also pursue graduate studies leading to careers in design education and other fields of professional endeavor in design.

Industrial Design, BSD (ARINDBSD)

Campus: TEMPE

Program Description:

Industrial designers are responsible for the design of product and service systems that people use in their everyday lives. The industrial design program at ASU focuses on a new model of interdisciplinary product development called integrated innovation.

Using this model of innovation, students systematically work through a matrix of four questions:

- What is valuable to users?
- What is possible through engineering?
- What is desirable to business?
- What is good for society and the environment?

The goal of the program is to help students learn how to create product and service systems that:

- satisfy people's needs
- can be realized through appropriate technology and engineering
- create measurable value for business
- benefit society while minimizing impacts on the environment

All students who are admitted to the major must pass a degree milestone to continue in the major at the end of the first year. For more information on the milestone process, visit: <http://herbergerinstitute.asu.edu/degrees/milestone.php> (<http://herbergerinstitute.asu.edu/degrees/milestone.php>).

This is an eight-semester program requiring sequential completion of studio course work (or approved equivalent) at any point of entry.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

- General University Admission Requirements:
All students are required to meet general university admission requirements.
- Freshman (<https://students.asu.edu/freshman/requirements>)
- Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)
- International (<https://students.asu.edu/international/future>)
- Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

After completing the program successfully, graduates have the option of working as designers in several capacities:

They can work as members of in-house design teams incorporations in a variety of industries including, but not limited to:

- consumer goods
- furniture
- health care and medical products
- sports and outdoor goods
- toys
- transportation and mobility
- packaging design
- trade show and exhibit design
- user interface design

- They can get jobs with consulting firms that design products and services for a variety of different clients.
- A third option includes entrepreneurship, as some graduates have established their own design and manufacturing ventures.
- Designers can also get employment with nonprofit institutions or nongovernmental organizations and use their skills to address specific social or environmental problems.
- Designers are also in a position to teach a variety of courses in art and design schools, colleges or universities as part-time or full-time employment.

Interior Design, BSD (ARINTBSD)

Campus: TEMPE

Program Description:

Course work in the BSD in interior design examines the context in which individuals and groups live and work. Interior designers create environments within buildings that meet the physical and psychological needs of individuals and institutions, providing a useful, rich and rewarding context for their lives. Interior design involves the design of space, equipment and furniture. It requires substantial technical and organizational understanding as well as sensibility to color, shape and form.

All students who are admitted to the major must pass a degree milestone to continue in the major at the end of the first year. For more information on the milestone process, visit: <http://herbergerinstitute.asu.edu/degrees/milestone.php> (<http://herbergerinstitute.asu.edu/degrees/milestone.php>)

This is an eight-semester program requiring sequential completion of studio course work (or approved equivalent) at any point of entry.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

Landscape Architecture, BSLA (ARPLABSLA)

Campus: TEMPE

Program Description:

The Bachelor of Science in Landscape Architecture program offers students the opportunity to engage with the community in applied projects that focus on designing sustainable outdoor environments and improving the ecological and social health of the urban environment.

Undergraduate landscape architecture program projects can range from large-scale work encompassing urban design, landscape reclamation, open space preservation planning, and landscape ecological design, to projects at a more intimate scale of the neighborhood park or residential back yard. Emerging areas of focus include biotechnical design, urban agriculture, construction of greenways, green roofs and living walls, and the design of healing environments. Students complement their design learning with electives from a broad range of approved courses.

All students must pass a degree milestone at the end of the first year to continue in the major. For more information, visit: <http://herbergerinstitute.asu.edu/degrees/milestone.php> (<http://herbergerinstitute.asu.edu/degrees/milestone.php>). This is an eight-semester program requiring sequential completion of studio course work (or approved equivalent).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

The bachelor's program is designed to prepare students for landscape architecture professional practice and advanced study at the graduate level. Our students have found employment in nationally recognized firms working with notable landscape architects in large multinational firms or in public agencies. Students also have gone on to pursue graduate study at universities with distinguished graduate programs in landscape architecture and allied design fields.

The U.S. Bureau of Labor Statistics projects employment for landscape architects will grow 16 percent from 2010 to 2020, about as fast as the average for all occupations. The Bureau also notes that "employers prefer to hire entry-level landscape architects who have internship experience, which significantly reduces the amount of on-the-job training required." The bachelor's program has an internship requirement meant to address this preference and better prepare our graduates for employment.

Music, BA (FAMUSBA)

Campus: TEMPE

Program Description:

The BA in music provides students with a broadly-based liberal arts degree applicable to careers in music and many other fields. The music curricular core, together with more elective flexibility than in the Bachelor of Music degree, leads students to develop mainstream and alternative

musical competencies, to explore musics as human history, cultural artifact, and social behavior and to pursue other areas of interest.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Important: Applicants must submit an ASU Application for Undergraduate Admission in addition to a separate School of Music Application. Visit <http://music.asu.edu/admissions/undergrad/applying> (<http://music.asu.edu/admissions/undergrad/applying>) for details. Admission to the School of Music is based on an audition. Live auditions take place on-campus in November (spring admission) and January/February (fall admission) of each year. Review audition information at <http://music.asu.edu/admissions/auditions>.

Admission to the School of Music is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, the applicant's major will be changed to Music. In the event you are admitted to ASU but not to the School of Music, you will remain as a music audition major and will need to successfully pass the music audition milestone in the first semester in order to gain admission into the program.

Application Deadlines: Visit <http://music.asu.edu/admissions/deadlines> for complete Music deadlines. Prescreening is required for all voice applicants (<http://music.asu.edu/admissions/voice>).

Spring 2014: The deadline to apply for admission to the Bachelor of Arts in Music is October 1, 2013 for voice applicants, and October 15, 2013 for instrumental and keyboard applicants. An uploaded prescreening video is required for all applicants who wish to audition in voice: <http://music.asu.edu/admissions/voice> (<http://music.asu.edu/admissions/voice>).

Fall 2014: The deadline to apply for admission to the Bachelor of Arts in Music is December 1, 2013 for voice applicants, and January 6, 2014 for instrumental and keyboard applicants. An uploaded prescreening video is required for all applicants who wish to audition in voice: <http://music.asu.edu/admissions/voice> (<http://music.asu.edu/admissions/voice>).

Transfer Applicants: Transfer of courses from other accredited institutions is subject to:

The existence of parallel and equal courses in the college's curriculum.

Departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

A few of the career opportunities include:

- concert management
- criticism
- music research
- publishing

Many graduates pursue a master's or a doctorate in music or in another professional field.

Music Education, BMUS (FAMUSEBM)

Campus: TEMPE

Program Description:

The BMus in music education is designed for students interested in pursuing careers as music teachers in the public schools. The degree program also prepares students for K-12 teaching certification.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Important: Applicants must submit an ASU Application for Undergraduate Admission in addition to a separate School of Music Application. Visit <http://music.asu.edu/admissions/undergrad/applying> (<http://music.asu.edu/admissions/undergrad/applying>) for details. Admission to the School of Music is based on an audition. Live auditions take place on-campus in November (spring admission) and January/February (fall admission) of each year. Review audition information at <http://music.asu.edu/admissions/auditions>.

Admission to the School of Music is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, the applicant's major will be changed to Music. In the event you are admitted to ASU but not to the School of Music or you miss the audition deadline, you will remain as a music audition major and will need to successfully pass the music audition milestone in the first semester in order to gain admission into the program.

Application Deadlines: Visit <http://music.asu.edu/admissions/deadlines> for complete Music deadlines. Prescreening is required for all voice applicants (<http://music.asu.edu/admissions/voice>).

Spring 2014: The deadline to apply for admission to the Bachelor of Music in Music Education is October 1, 2013 for voice applicants, and October 15, 2013 for instrumental and keyboard applicants. An uploaded prescreening video is required for all applicants who wish to audition in voice: <http://music.asu.edu/admissions/voice> (<http://music.asu.edu/admissions/voice>).

Fall 2014: The deadline to apply for admission to the Bachelor of Music in Music Education is December 1, 2013 for voice applicants, and January 6, 2014 for instrumental and keyboard applicants. An uploaded prescreening video is required for all applicants who wish to audition in voice: <http://music.asu.edu/admissions/voice> (<http://music.asu.edu/admissions/voice>).

Transfer Applicants: Transfer of courses from other accredited institutions is subject to:

The existence of parallel and equal courses in the college's curriculum.

Departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Career Opportunities:

Graduates teach in public and private school music programs that offer general music, choir, band, orchestra, strings or some combination of musical activities. Graduates also:

- perform in community and professional ensembles
- teach privately
- work in music-related industries

Music Therapy, BMUS (FAMUSTHBM)

Campus: TEMPE

Program Description:

The BMus in music therapy prepares students for a career in the mental health or special education professions. Music therapists use carefully planned music activities to achieve desired changes in client behavior and functioning. Music therapy is a profession in which engagement in active music-making helps a client achieve nonmusical, therapeutic goals. Educating the potential music therapist requires both a wide range of musical skills and the ability to work with people in a therapeutic manner. Music therapy students have many opportunities to develop their clinical skills. Students also study:

- human anatomy
- musical improvisation
- popular music styles
- psychology
- songwriting
- special education
- world music

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Career Opportunities:

Graduates are eligible to register as professional music therapists and can sit for the music therapy certification examination given by the Certification Board of the American Music Therapy Association. Positions are available regionally and nationally in hospitals, schools, rehabilitation centers, nursing homes and other health care facilities. Career opportunities also include work in:

- geriatric care
- mental health
- physical rehabilitation
- special education

A music therapy career may also provide an opportunity for private practice with flexible hours.

Theatre, BA (FATHEBA)

Campus: TEMPE

Program Description:

A BA in theatre provides students with a comprehensive theatre education within the context of the liberal arts while offering specialty course work in the following areas:

- design and production
- new work development
- performance
- theatre and performance studies
- theatre for youth

ASU offers well-equipped theatrical facilities including:

- extensive and professionally staffed production shops
- The Galvin Playhouse
- The Lyceum Theatre
- The Prism Theatre for student-production work
- uniquely equipped rehearsal and instructional spaces

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students, both freshmen and transfers, are admitted to ASU as theatre exploratory majors. They successfully complete an interview and audition or portfolio review before enrolling as a BA Theatre major. Students may interview before enrolling at ASU or participate in the interview during their first semester of study. Students who enter before interviewing take course work in the first semester to better prepare them for the interview.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to:

the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 semester hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 semester hours of resident credit in the major as approved by the faculty.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Career Opportunities:

The bachelor's in theatre program provides an excellent broad-based foundation for work in the arts or entertainment professions or readies students for further training at graduate schools or conservatories. The program's liberal arts emphasis prepares graduates for a variety of occupations in both theatre and non-theatre fields. Opportunities may include work with:

- arts entrepreneurship
- schools
- production companies in theatre, television or film
- themed entertainment

Theatre (Acting), BA (FATHEABA)

Campus: TEMPE

Program Description:

The BA in theatre with a concentration in acting involves comprehensive academic and hands-on theatre study with an emphasis on performance. Student artists and scholars gain a general appreciation of the principal fields of human knowledge while acquiring training in such areas as:

- film
- new work development
- performance and directing, design and production
- theatre and performance studies
- theatre for youth

ASU offers well-equipped theatre facilities including:

- extensive shops
- The Galvin Playhouse
- The Lyceum Theatre
- The Prism Theatre for student-produced work
- uniquely equipped rehearsal and instructional spaces

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students are admitted to ASU as theatre exploratory majors. They successfully complete an interview and audition or portfolio review before enrolling as a B.A. Theatre major. Students may interview before enrolling at ASU or participate in the interview during their first semester of study. Students who enter before interviewing take course work in the first semester to better prepare for the interview. After students are admitted to the B.A. Theatre major, they may interview for admission into the acting concentration; these interviews are conducted in the spring semester. Sophomore standing is required for admission to the acting concentration.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to:

the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 semester hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 semester hours of resident credit in the major as approved by the faculty.

Career Opportunities:

The bachelor's in theatre program with a concentration in acting provides an excellent broad-based foundation for work in the profession and readies students for both advanced graduate study in the field and independent career pursuits in performance. The concentration in acting offers students advanced study that can lead to careers in theatre, film or media, ranging from regional or seasonal theatrical production opportunities for work in television and film, as well as careers in education and other related arts disciplines.

Theory & Composition (Composition), BMUS (FAMUSTCBM)

Campus: TEMPE

Program Description:

The BMus in theory and composition with a concentration in composition focuses on developing techniques for writing music. The School of Music offers students the opportunity to study with theorists and composers who have established national and international reputations. This program may be used as the first step toward a master's or doctorate in music theory and composition.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Important: Applicants must submit an ASU Application for Undergraduate Admission in addition to a separate School of Music Application. Visit <http://music.asu.edu/admissions/undergrad/applying> (<http://music.asu.edu/admissions/undergrad/applying>) for details. Admission to the School of Music is based on an audition. Live auditions take place on-campus in November (spring admission) and January/February (fall admission) of each year. Review audition information at <http://music.asu.edu/admissions/auditions>.

Applicants are required to select a second choice major in addition to Music. Upon admission to both ASU and the School of Music, the applicant's major will be changed to Music. If admitted to ASU but not to the School of Music, the applicant will be placed in her/his second choice major. Students admitted to ASU in a non-music major may apply and audition to change to their major to Music during their first semester at ASU. After the deadlines below, applicants should not select Music as a major on the Application for Undergraduate Admission.

Application Deadlines: Visit <http://music.asu.edu/admissions/deadlines> for complete Music deadlines. Submission of a prescreening portfolio is required for this program; an additional prescreening is required for all voice applicants: See <http://music.asu.edu/admissions/prescreening>.

Fall 2013: The deadline to apply for admission to the Bachelor of Music in Composition is December 1, 2012. An uploaded prescreening video is required for this program; an additional uploaded prescreening video is required for all applicants who wish to audition in voice: <http://music.asu.edu/admissions/voice> (<http://music.asu.edu/admissions/voice>).

Spring 2014: The deadline to apply for admission to the Bachelor of Music in Composition is October 1, 2013. An uploaded prescreening video is required for this program; an additional uploaded prescreening video is required for all applicants who wish to audition in voice: <http://music.asu.edu/admissions/voice> (<http://music.asu.edu/admissions/voice>).

Fall 2014: The deadline to apply for admission to the Bachelor of Music in Composition is December 1, 2013. An uploaded prescreening video is required for this program; an additional uploaded prescreening video is required for all applicants who wish to audition in voice: <http://music.asu.edu/admissions/voice> (<http://music.asu.edu/admissions/voice>).

Transfer Applicants: Transfer of courses from other accredited institutions is subject to:
Academic Catalog Archive 2013-2014 861

The existence of parallel and equal courses in the college's curriculum.
Departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

A degree in the arts offers students a pathway to a rich and varied choice of careers. This particular program is designed for a student who plans a career as a professional:

- arranger
- college-level teacher of theory and composition
- composer

College-level teaching does require a graduate degree.

Engineering, Ira A. Fulton Schools of

Aerospace Engineering (Aeronautics), BSE (ESAEROBSE)

Campus: TEMPE

Program Description:

The aerospace engineering curriculum provides students with an education in technological areas critical to the design and development of aerospace vehicles and systems. The aeronautics concentration, under the BSE in aerospace engineering, emphasizes engineering and the design of aircraft, helicopters, missiles and other vehicles that fly through the atmosphere. Topics in required courses cover:

- aerodynamics
- aerospace materials
- aircraft structures
- flight mechanics
- propulsion
- stability and control

Required aeronautics topics include:

- attitude control
- orbital mechanics
- rocket propulsion

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Aerospace Engineering (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and

No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

Minimum transfer GPA of 3.00 for less than 24 transfer hours, and

No high school math or science competency deficiencies, and

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer students with 24 or more transferable college credit hours:

Minimum transfer GPA of 3.00 for 24 or more transfer hours, and

No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

A majority of students entering the field of aerospace engineering desire to work on the design and analysis of aerospace vehicles. Most graduates are employed in the aerospace industry or in government positions related to aerospace. Specific careers in aerospace engineering include:

- aeronautical and space systems integration
- configuration development
- material and structural design
- propulsion engineering

- space mission design and analysis
- vehicle and component analysis using computer-aided tools
- vehicle design and performance
- wind-tunnel and flight testing

The objectives of the aerospace engineering program are for graduates to be employed in aerospace engineering or a related field or accepted to graduate school. Our graduates will:

- be employed as engineers or will be enrolled in (or have graduated from) engineering or professional graduate school
- contribute to the design of solutions to complex problems
- demonstrate professionalism and will hold positions of increasing responsibility within their organizations

Aerospace Engineering (Astronautics), BSE (ESAEASBSE)

Campus: TEMPE

Program Description:

The aerospace engineering curriculum provides students with an education in technological areas critical to the design and development of aerospace vehicles and systems.

The astronautics curriculum covers:

- attitude determination and control
- elective topics in aeronautics
- gas dynamics
- orbital mechanics
- rocket propulsion
- space environment
- space structures
- telecommunications

Students in the astronautics concentration culminate their major study with a capstone design project that incorporates the multiple disciplines involved in the creation of a space-going vehicle.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

Biomedical Engineering, BSE (ESBMEBSE)

Campus: TEMPE

Program Description:

Biomedical engineering applies principles of engineering to study and solve problems in biology and medicine.

Our goal is to produce high-quality graduates with broad-based education in biomedical engineering who are well prepared for careers in industry and further study in graduate, medical or other health professional schools.

Our graduates are trained to apply their skills in an ethical, sustainable and environmentally responsible manner to make contributions that address societal and individual needs.

Our objective is to prepare students:

- for productive employment, graduate study or professional programs, especially in human and animal medicine, biotechnology and related biology-based engineering fields
- who continue to develop technical knowledge, awareness and leadership abilities to address domestic or global issues in human health
- who will ethically and responsibly contribute to society, drawing from an integrated, multidisciplinary biomedical engineering education, focusing on sustainability and environmentalism

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Biomedical Engineering (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and

No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

Minimum transfer GPA of 3.00 for less than 24 transfer hours, and

No high school math or science competency deficiencies, and

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

Minimum transfer GPA of 3.00 for 24 or more transfer hours, and

No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

Minimum transfer GPA of 2.75 for 24 or more transfer hours, and

Minimum GPA of 3.00 in all critical courses for Terms 1 and 2 (see major map for critical courses), and

- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Biomedical engineers are primarily employed in:

- governmental regulatory agencies
- hospital and research facilities
- medical and educational institutions
- the medical device, biotechnology and pharmaceutical industries

In industry, they may work in all aspects of product development including:

- business development
- manufacturing
- marketing
- quality
- regulatory
- research and design
- sales

Because of their background in both the engineering and medical fields, they often serve a coordinating or interfacing function and provide a key role for interdisciplinary teams. Government positions may involve:

- evaluating new technologies
- product testing and safety
- setting standards

In the hospital, biomedical engineers serving in a clinical engineering function may provide advice on the selection and use of medical equipment and supervise performance testing and maintenance. Biomedical engineers may also build customized devices for special health care, rehabilitation or research needs.

Chemical Engineering, BSE (ESCHEBSE)

Campus: TEMPE

Program Description:

Chemical engineering deals with the application of chemistry, physics and mathematics to the process of converting raw materials or chemicals into more useful or valuable forms. Chemical engineering also involves the design of valuable new materials and chemical products.

The BSE offered in the chemical engineering program builds on a broad base of knowledge within the basic and mathematical sciences and engineering, and offers excellent career opportunities. Chemical engineers are engaged in the development and production of a diverse range of products, including high performance materials needed for aerospace, automotive, biomedical, electronic, environmental and military applications.

The modern discipline of chemical engineering is intertwined with biology and biomedical engineering.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and

No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

Minimum transfer GPA of 3.00 for less than 24 transfer hours, and

No high school math or science competency deficiencies, and

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer students with 24 or more transferable college credit hours:

Minimum transfer GPA of 3.00 for 24 or more transfer hours, and

No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Chemical engineers have traditionally played a key role in industries as varied as:

- artificial fibers
- ceramics
- food
- glass
- petrochemicals
- petroleum
- plastics
- primary metals

- specialty chemicals

Newer areas, such as semiconductors, biotechnology, biomedical engineering, modern materials (composites, superconductors) and the solution of environmental problems, have also generated more opportunities for chemical engineers. These factors, along with the recent recovery and reported record earnings of the chemical and petroleum industries, have created a great demand for chemical engineering graduates.

Civil Engineering, BSE (ESCEEBS)

Campus: TEMPE

Program Description:

Civil engineering majors in the Ira A. Fulton Schools of Engineering have three choices within the accredited BSE program:

- civil engineering
- civil engineering with environmental engineering concentration
- civil engineering with sustainable engineering concentration

The first choice allows students to choose among design and technical elective courses in their senior year. The other choices specify design and technical courses to students with minimal choices. Regardless of choice, the Bachelor of Science Education in civil engineering is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Civil engineering involves the analysis, planning, design, construction, maintenance and application of sustainable practices in all areas of urban infrastructure for government, commerce, industry and the public domain. These include:

- airports
- bridges
- canals
- dams
- factories
- office towers
- roadway systems
- schools
- tunnels and subway systems
- water purification facilities

Civil engineers are concerned with the impact their projects have on the public and the environment; they coordinate the needs of society with technical and economic feasibility.

The curriculum exposes students to the following areas of civil engineering, with a strong emphasis on sustainability:

- construction engineering
- environmental engineering
- geotechnical engineering
- hydrosystems engineering
- structures
- transportation

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Civil, Environmental and Sustainable Engineering (MSE)

Civil, Environmental, and Sustainable Engineering (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and

No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

Minimum transfer GPA of 3.00 for less than 24 transfer hours, and

No high school math or science competency deficiencies, and

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

Minimum transfer GPA of 3.00 for 24 or more transfer hours, and

No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

Minimum transfer GPA of 2.75 for 24 or more transfer hours, and

Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and

• No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

ASU graduates with a bachelor's in civil engineering readily find employment. Civil engineers work in many different types of companies, from large corporations to small, private consulting firms or governmental agencies. A civil engineering background is an excellent foundation for jobs in management and public service. Civil engineering is one of the best engineering professions from the viewpoint of international travel opportunities or for eventually establishing one's own consulting business. The bachelor's prepares graduates for the fundamentals of engineering examination, the professional engineering examination and graduate degrees.

Civil Engineering (Environmental Engineering), BSE (ESCEEEBSE)

Campus: TEMPE

Program Description:

Civil engineering majors have three choices within the accredited BSE program:

- civil engineering
- civil engineering with environmental engineering concentration
- civil engineering with sustainable engineering concentration

The first choice allows students to choose among design and technical elective courses in their senior year. The other choices specify design and technical courses to students with minimal choices. Regardless of choice, the Bachelor of Science Education in civil engineering is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

The bachelor's in civil engineering, with a concentration in environmental engineering, is a multidisciplinary field based on traditional civil engineering principles, chemistry, biology and geology. Environmental engineers are involved with:

- air pollution technology
- analysis of the fate and transport of pollutants
- application of sustainable practices in all areas of urban infrastructure
- construction of hazardous waste containment systems
- design and operation of water and wastewater treatment systems
- remediation of contaminated soils and waters
- surface water quality management
- water conservation and reuse

The curriculum also exposes students to other traditional civil engineering areas.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and

No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

Minimum transfer GPA of 3.00 for less than 24 transfer hours, and

No high school math or science competency deficiencies, and

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

Minimum transfer GPA of 3.00 for 24 or more transfer hours, and

No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

Minimum transfer GPA of 2.75 for 24 or more transfer hours, and

Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and

• No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities:

ASU graduates with a bachelor's in civil engineering with a concentration in environmental engineering find employment in:

- consulting firms
- industry
- municipalities
- regulatory agencies

The growth of environmental engineering positions has been balanced by the growing number of students entering the field, resulting in a stable job market.

A civil engineering background is an excellent foundation for jobs in management and public service. International opportunities are abundant and are likely to expand. The bachelor's in civil engineering prepares graduates for the fundamentals of engineering examination, the professional engineering examination and graduate degrees.

Computer Science, BS (ESCSEBS)

Campus: TEMPE

Program Description:

Computer science professionals design, analyze and improve the quality of computer software and systems for a variety of applications, including:

- artificial intelligence
- computer vision
- graphics
- information management
- multimedia
- networking
- security

Examples of projects a computer scientist might work on include:

- computer networking
- database and information systems
- distribution processing systems
- gaming systems
- next-generation computing systems
- search engines
- software engineering
- web services

The program focuses on the design of computers, computational processes for problem solving, and information transfer and transformation with an emphasis in improving software and system quality, security, performance and usability. The program supports the evolution of the computing and informatics disciplines, and the integration of computer and information sciences with engineering, science and other disciplines.

Accredited by the Computing Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Computer science graduates secure employment in a variety of capacities ranging from computer and software design to development of information technologies. Their jobs are often distinguished by the high level of theoretical expertise applied to solving complex problems and to the creation and application of new computing technologies. Some computer science-related jobs may include:

- creating computer games and graphics systems
- designing artificial intelligence systems
- developing network security applications
- discovering data management and mining solutions for large scale data analytics
- inventing and implementing more efficient computing systems for managing data and information, including information retrieval and search on the Internet

With the theoretical foundation built in the program, computer science graduates can excel in system and software development, as well as in designing effective computing solutions for emerging and challenging problems in modern society. Skills in system development and research can lead to entrepreneurial activity that produces innovative computing products and services.

Computer Science (Information Assurance), BS (ESCSEIBS)

Campus: TEMPE

Program Description:

The BS in computer science with a concentration in information assurance provides students with the knowledge, skills and advanced development capability for building dependable and secure information systems and networks, ensuring the integrity and quality of the information being stored, processed and transmitted by information systems and networks. The curriculum of the concentration spans broad areas of information assurance, including:

- computer and network forensics

- computer network security
- computer systems security
- data and information security
- information assurance

ASU has been certified as a National Center of Academic Excellence in Information Assurance Education and a National Center of Academic Excellence in Information Assurance - Research by the National Security Agency and the Department of Homeland Security. Information assurance courseware at ASU has been certified by the Information Assurance Courseware Evaluation Program to satisfy the standards for Information Systems Security Professionals (NSTISSI 4011) and Senior Systems Managers (CNSSI 4012). For more information on information assurance courseware at ASU, see <http://ia.asu.edu/education.php> (<http://ia.asu.edu/education.php>).

Computer Science (Software Engineering), BS (ESCSESBS)

Campus: TEMPE

Program Description:

The software engineering concentration is appropriate for computer science students seeking careers as software engineers. Software engineering concentration students will learn advanced processes, methodologies and tools for developing and testing large and small software applications in emerging areas such as:

- enterprise systems
- service-orientated computing
- systems of systems

They will also learn information assurance concepts and techniques, or principles of human computer interaction and methods, for developing these applications. The curriculum prepares students to assume leadership roles in software development organizations and to practice professional standards and emerging software technology to the software engineering life-cycle activities.

Accredited by the Computing Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Career Opportunities:

Career opportunities are strong and numerous for software engineering concentration graduates. Graduates possess the knowledge and skills to work across the spectrum of software development process activities including:

- architecture
- coding
- project management
- quality assurance
- requirements engineering
- testing

Career paths include:

- software analyst
- software architect
- software engineer
- software task leader
- software tester

Software engineering concentration graduates find employment in large and small organizations that develop, deploy and manage software systems. They work on all types of projects, from large, complex engineering systems, distributed banking, financial and government software to gaming.

Computer Systems Engineering, BSE (ESCSEBSE)

Campus: TEMPE

Program Description:

The computer systems engineering program focuses on the analysis, design, testing, integration and evaluation of hardware and software systems.

The curriculum is grounded in an array of engineering disciplines, including the applications of science and technology to the design of:

- computer architecture
- computer security
- digital circuits
- distributed and embedded systems
- networking
- operating systems

Students engage in the design of integrated hardware and software solutions for computing, communication and control applications. They practice many aspects of engineering activities, such as the development of:

- computer networks
- embedded and ubiquitous systems
- high performance computer systems
- individual digital components

Students become skilled at interfacing different pieces of hardware and software components, and integrating systems and products with new capabilities and improved quality and performance.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Computer systems engineers are employed in industry, government, education and consulting firms where they engage in the design, development and operation of hardware and software systems of computer and networking equipment.

Computer systems engineers often find themselves focusing on engineering problems or challenges of emerging computer systems, from chips to device controllers, embedded systems and high performance computing servers. Their jobs usually involve the research, design and development of computer hardware and software for practical applications. Their work can result in innovative, state-of-the-art products that integrate computing and communication capabilities, such as those in:

- avionics and space vehicles
- digital television and photography
- intelligent highways and control systems for vehicles
- mobile devices and smart applications
- new apparatuses for health care and for the sight-impaired or others with physical disabilities
- security and defense systems

Computer Systems Engineering (Information Assurance), BSE (ESCSEIBSE)

Campus: TEMPE

Program Description:

The information assurance concentration in the computer systems engineering BSE degree program provides students with the knowledge, skills and the advanced development capability in engineering, for building dependable and secure information systems and networks and ensuring the integrity and quality of the information being stored, processed and transmitted by information systems and networks. The curriculum of the concentration spans broad areas of information assurance including:

- computer and network forensics
- computer network security
- computer systems security
- data and information security
- information assurance

ASU has been certified as a National Center of Academic Excellence in Information Assurance Education (CAEIAE) and a National Center of Academic Excellence in Information Assurance - Research (CAE-R) by the National Security Agency and the Department of Homeland Security. Information assurance courseware at ASU has been certified by the Information Assurance Courseware Evaluation (IACE) Program to satisfy the standards for Information Systems Security (INFOSEC) Professionals (NSTISSI 4011) and Senior Systems Managers (CNSSI 4012). For more information on information assurance courseware at ASU, see <http://ia.asu.edu/education.php> (<http://ia.asu.edu/education.php>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and

No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

Minimum transfer GPA of 3.00 for less than 24 transfer hours, and

No high school math or science competency deficiencies, and

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

Minimum transfer GPA of 3.00 for 24 or more transfer hours, and

No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

Minimum transfer GPA of 2.75 for 24 or more transfer hours, and

Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and

• No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities:

Students enrolled in the information assurance concentration are eligible for federal fellowships such as the Department of Defense Information Assurance Scholarship Program (IASP) and the Federal Cyber Service Scholarship for Service Program (SFS). For more information on the scholarship programs, see <http://ia.asu.edu/scholarship.php> (<http://ia.asu.edu/scholarship.php>).

Graduates with a degree in computer systems engineering with an information assurance concentration find employment in a variety of capacities ranging from computer system and software development to research on information assurance technologies. Some related jobs may include:

- analyzing computer forensic data
- designing secure information systems and networks
- information security consulting
- information systems security engineering
- network security engineering

Construction Engineering, BSE (ESCONBSE)

Campus: TEMPE

Program Description:

The BSE in construction engineering focuses on a combination of design and management topics, preparing the student for a career in the engineering and construction industry. The degree prepares students who wish to gain a professional engineering license while working at the interface of design and construction; it is desirable to those students who are interested in a career emphasizing construction of infrastructure. The degree makeup includes engineering design and construction management courses with a focus on sustainability and building information modeling topics. Construction management content includes:

- construction methods
- contract management
- cost and schedule control
- people management
- project estimating

The curriculum's design content includes structures, geotechnical engineering and transportation. Students are further prepared with the computer, management, technical and people skills needed to succeed. This degree is the third in the Southwestern U.S. and one of about 20 worldwide.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Construction Engineering (MSE)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and

No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

Minimum transfer GPA of 3.00 for less than 24 transfer hours, and

No high school math or science competency deficiencies, and

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

Minimum transfer GPA of 3.00 for 24 or more transfer hours, and

No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

Minimum transfer GPA of 2.75 for 24 or more transfer hours, and

Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and

• No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities:

The construction engineering graduate will be prepared to begin as a field engineer, project engineer or project designer working for:

- construction companies
- design firms
- facility owners
- material suppliers
- specialty subcontractors

The graduate will have unique skills which will allow them to take on the role of integrator in the delivery of design build projects or development activities. As the graduate's career progresses, each should be able to take on leadership roles in the delivery of sustainable facilities in the built environment and then progress through successively higher levels of management responsibility. The graduate should be particularly attuned to design and construction of heavy civil and industrial facilities meeting the infrastructure needs of society.

Construction Management, BS (ESCONMGTB)

Campus: TEMPE

Program Description:

The BS in construction management allows students to specialize in heavy construction, residential, commercial, specialty construction and facility management. Students learn to organize, lead and manage the building construction business processes related to real estate, facility and infrastructure projects. Construction management is the most vital function on a job site. Construction managers represent the interests of the building owner or the contractor and interact with architects, engineers, subcontractors, vendors and suppliers to ensure the success of the construction projects in the built environment.

Students learn: the basics of design the construction methods specific to each type of construction (heavy, residential, commercial, specialty) how to estimate and control the costs of a project what it takes to manage the people involved and the various types of contracts the process of sustainable or green construction

Students are prepared with the computer, management, technical and people skills needed to succeed. This is one of two construction programs in the state of Arizona and one of approximately 60 accredited programs in the nation.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Accelerated Degrees:

This degree is also offered as an accelerated degree with Construction Management (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and

No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

Minimum transfer GPA of 3.00 for less than 24 transfer hours, and

No high school math or science competency deficiencies, and

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

Minimum transfer GPA of 3.00 for 24 or more transfer hours, and

No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

Minimum transfer GPA of 2.75 for 24 or more transfer hours, and

Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses),and

• No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities:

The construction management program provides a foundation for students who wish to pursue careers as estimators, project managers, project engineers or schedulers and eventually become principals of firms engaged in the construction of industrial, commercial and institutional structures and infrastructure systems.

The heavy construction emphasis area prepares students for careers related to public works such as highways, airports, bridges, utility systems and water or waste treatment facilities.

The commercial and residential emphasis areas prepare students for careers in real estate development, home production systems, commercial construction, health care and special industrial building projects. Students are also prepared to enter the sustainable or green construction market.

The specialty construction emphasis prepares students to organize, lead and manage the building process at the subcontractor level and prepares students for careers as contractors working with mechanical and electrical systems. It also prepares the students for careers in management at specialty contracting firms, such as control systems, electrical distribution or heating, ventilation and air conditioning systems for large and complex facilities such as data centers, health care organizations and semiconductor manufacturing plants as well as commercial facilities.

Construction Management (Concrete Industry Management), BS (ESCONIMBS)

Campus: TEMPE

Program Description:

The Del E. Webb School of Construction offers the BS in construction with a concentration in concrete industry management. Concrete industry management graduates are broadly educated, articulate managers grounded in basic construction management, who are knowledgeable about concrete technology and techniques, and are able to manage people and systems and to promote products or services in the concrete industry.

• No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities:

The concrete industry management concentration provides a foundation for students who wish to pursue careers as project managers, estimators, schedulers or a combination of all three at an executive level. Concrete industry management career opportunities include:

- advanced mixing technology or equipment manufacturing
- cement
- concrete or general contracting
- concrete production
- development
- field sales
- operations
- project and production management
- technical service

Electrical Engineering, BSE (ESEEEBSE)

Campus: ONLNE, TEMPE

Program Description:

The goal of the electrical engineering undergraduate program is to prepare graduates for positions as electrical engineers. Faculty in the Ira A. Fulton Schools of Engineering offer a BSE in electrical engineering. Following initial course work in mathematics and sciences, the foundation classes build a solid base of engineering knowledge. The electrical engineering curriculum includes a number of required upper division electrical engineering and technical elective courses; areas include:

- circuits
- communication, signal processing and control systems
- computer engineering
- electromagnetics
- power
- solid-state devices

Approved technical elective courses provide students with an opportunity either to broaden their background in electrical engineering or to study, in greater depth, technical subjects in which they have special interest.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Electrical Engineering (MSE)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
No high school math or science competency deficiencies, and
Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses),and
• No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Graduates with the bachelor's in electrical engineering find many exciting opportunities in industry. These include:

- communication equipment and network providers
- computer and peripheral device manufacturers and defense organizations
- consulting companies
- electric power utilities
- semiconductor chip designers and manufacturers

The program also prepares graduates for continued learning experiences, either in a formal graduate program or in continuing education applications.

Electrical Engineering (Electric Power and Energy Systems), BSE (ESEEEPBSE)

Campus: TEMPE

Program Description:

The goal of the electric power and energy systems concentration is to prepare graduates for positions in industries dealing with generation, transmission and utilization of electric power. Generation includes conventional power generation (fossil fuel and nuclear) and alternative energy systems, including solar, wind and fuel cells.

Students in this concentration will complete the foundation courses in math, science and engineering. They are then required to take the pathway course in electric power and complete nine of the 15 technical elective credit hours with power classes. In addition, the senior design capstone project should be in the area of electric power and energy systems.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Career opportunities for graduates with a concentration in electric power and energy systems include:

- consulting engineering firms
- employment in utility companies
- entrepreneurial opportunities
- power equipment manufacturers
- research and design organizations
- state, federal and municipal agencies

This concentration will also prepare students to pursue graduate degrees in the areas of:

- power generation
- power systems
- power transmission and distribution
- renewable and sustainable energy sources

The program also prepares graduates for continued learning experiences, either in a formal graduate program or in continuing education applications.

Engineering Management, BSE (ESEMGBSE)

Campus: ONLNE, TEMPE

Program Description:

The program in engineering management is designed to provide the graduate with skills for effective management and leadership of engineering-driven enterprises. The curriculum provides a breadth of engineering science and design with depth in one specific area suitable for practice. This knowledge is augmented with an understanding of business practices, organizational behavior and management skills to enable the graduate to succeed in the management of a scientific or engineering enterprise. Topics such as project and resource management, financial engineering, risk management, configuration management, service plans, product liability, entrepreneurship and operations management are covered, in addition to product design and process development.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Degrees:

This degree is also offered as concurrent degree with Economics, BS

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Industrial Engineering, BSE (ESIEEBSE)

Campus: TEMPE

Program Description:

Industrial Engineering is concerned with the design, improvement, installation and operation of integrated systems of people, materials, information, equipment and energy. Industrial engineers determine the most effective ways to use the basic factors of production - people, machines, materials, information and energy - to make a product or provide a service. Industrial engineering draws upon specialized knowledge and skill in the mathematical, physical and social sciences together with the principles and methods of engineering analysis and design to specify, predict and evaluate the results to be obtained from such systems.

The underlying concepts of industrial engineering include certain business principles, but industrial engineering emphasizes the use of mathematics and information technology to build models to describe, understand and optimize system performance. Depending on the subspecialties involved and intended application, industrial engineering may also be known as operations management, management science, operations research,

systems engineering or manufacturing engineering. For example, in health care industrial engineers are more commonly known as health management engineers or health systems engineers.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

Minimum transfer GPA of 2.75 for 24 or more transfer hours, and

Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and

• No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Graduates in industrial engineering are prepared to design and manage systems for a wide range of organizations. They find exciting career opportunities in all types of manufacturing and service industries, including:

- aerospace

- automotive
- banking
- defense
- finance
- government
- healthcare
- management consulting
- semiconductor manufacturing
- telecommunications
- transportation

Informatics, BS (ESCPIBS)

Campus: TEMPE

Program Description:

The BS informatics program is an interdisciplinary degree that combines mastery of general techniques for processing information with specialization in an application area and its information processing problems. The design of the degree responds to the rapidly growing need for skilled workers who can take a problem-driven, system-level, user-oriented perspective toward information and computing, who can apply current informatics methods to address society's needs, and who can contribute to the next generation of such systems.

The program begins with the fundamentals of informatics in a general setting and in the context of disciplinary applications. The student selects a focal area such as enterprise informatics, geo-informatics, gaming, etc.; takes prescribed courses; and completes a two-course capstone project in the focal area. Thus, an informatics graduate remains highly interdisciplinary, yet has a specialization that provides a head start on one possible career in informatics.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission requirements for a Bachelor of Science in informatics are higher than minimum university admission requirements. Students should select a second major choice when applying for admission to a degree program in the Ira A. Fulton Schools of Engineering.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://students.asu.edu/international-admission>) and admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and

A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed.

Transfer students with fewer than 24 transferable college credit hours:

Minimum transfer GPA of 3.00 for less than 24 transfer hours, and

A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed, and Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer students with more than 24 transferable college credit hours:

Primary Criteria

Minimum transfer GPA of 3.00 for 24 or more transfer hours, and

A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

Minimum transfer GPA of 2.75 for 24 or more transfer hours, and

Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and

• A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities:

An ASU informatics graduate has the ability to develop future information technology solutions that place a strong emphasis on user needs and provide the ability to adapt and change dynamically with society's needs. This makes the informatician a strong candidate for jobs in:

- graduate programs offering emphasis in emerging technologies
- management consulting firms
- technology research centers
- technology start-ups

Materials Science & Engineering, BSE (ESMSEBSE)

Campus: TEMPE

Program Description:

Materials engineers are responsible for designing and developing new and improved materials for a wide variety of engineering applications. The faculty in the Ira A. Fulton Schools of Engineering offer a BSE in materials science and engineering. Courses in materials teach students about the structure of materials and how to process them to improve their structure, properties and performance.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Materials Science and Engineering (MS)

Nanoscience (PSM)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and

No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

Minimum transfer GPA of 3.00 for less than 24 transfer hours, and

No high school math or science competency deficiencies, and

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

Minimum transfer GPA of 3.00 for 24 or more transfer hours, and

No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

Minimum transfer GPA of 2.75 for 24 or more transfer hours, and

Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and

• No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Materials engineers are in demand in a wide range of industries and professions, including:

- aerospace
- automotive
- computer
- electronics
- energy
- health care
- semiconductor

The career paths in these industries offer opportunities to impact technological advances through working in a team environment with engineers from the chemical, electrical, mechanical, aerospace and other engineering disciplines.

Mechanical Engineering, BSE (ESMAEMBSE)

Campus: TEMPE

Program Description:

Mechanical engineering is a creative, diverse discipline. Mechanical engineers design, build and control the devices, machines, processes and systems that are the mainstay of modern industrialized society.

Students are prepared for a career in mechanical engineering through a curriculum that includes study of the principles governing energy transfer, mechanical design, sensors and control devices and the application of these principles to the creative solution of practical modern problems.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Mechanical Engineering (MS)

Solar Energy Engineering and Commercialization (PSM)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and

No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

Minimum transfer GPA of 3.00 for less than 24 transfer hours, and

No high school math or science competency deficiencies, and

Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer students with 24 or more transferable college credit hours:

Minimum transfer GPA of 3.00 for 24 or more transfer hours, and

No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

A major strength of a mechanical engineering education is the flexibility it provides in future employment opportunities for its graduates. Mechanical engineers are employed in virtually every kind of industry. They are involved in seeking new knowledge through research, in generating creative design and development, and in the production, control, management and sales of the devices and systems needed by society.

The objectives of the mechanical engineering program are for graduates to be employed in mechanical engineering or a related field or accepted to graduate school:

- Our graduates will be employed as engineers or will be enrolled in (or have graduated from) engineering or professional graduate school.
- Our graduates will be sought out to contribute to the design of solutions to complex problems.
- Our graduates will demonstrate professionalism and will hold positions of increasing responsibility within their organizations.

Mechanical Engineering (Computational Mechanics), BSE (ESMAECBSE)

Campus: TEMPE

Program Description:

As mathematical and numerical modeling takes on a much larger role in product development, graduates who are highly skilled in computational and mathematical engineering will be in high demand. The concentration in computational mechanics, under the BSE in mechanical engineering, is designed to teach students the modern computational tools available for solving large-scale and complex technical problems. The curriculum focuses on high-performance computing and the accurate modeling of large and small-scale systems.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

Mechanical Engineering (Energy & Environment), BSE (ESMAEEBSE)

Campus: TEMPE

Program Description:

The concentration in energy and environment, within the BSE in mechanical engineering, seeks to prepare students to analyze technical problems in:

- air pollution
- climate change
- energy efficiency
- environmental sustainability
- renewable energy
- timely issues facing the global community

Although the primary focus of this program is technical, the general education courses in the areas of the humanities and social and behavioral sciences introduce students to the global, political and societal issues relating to energy and the environment. By focusing on issues such as air pollution, water scarcity and the lack of alternative transportation, this program becomes even more attractive for employers in the greater Phoenix area, as well as nationwide.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

Health Solutions, College of

Applied Science (Food Service Management), BAS (ECNTRBAS)

Campus: DTPHX

Program Description:

The BAS with a concentration in food service management is designed to complement and enhance the educational preparation of students holding an AAS from a regionally accredited institution. It is a flexible, 60-credit-hour degree particularly designed for students holding an associate degree in culinary or hospitality science.

Additional Program Fee: N

Second Language Requirement: N

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science (A.A.S.) degree. Not available for freshmen.

Career Opportunities:

This degree prepares students for careers in food production, service, management and marketing. With additional education or professional training, students may also become credentialed as:

- certified dietary managers
- school food service and nutrition specialists
- registered sanitarians

Contact Information:

Health Solutions, College of
School of Nutrition and Health Promotion

602-496-0888

Applied Science (Health Sciences), BAS (NUHSCBAS)

Campus: DTPHX, ONLNE

Program Description:

The BAS program is designed specifically for students who have earned an AAS from a regionally accredited institution. In completing the bachelor's, students complete all ASU graduation requirements.

The concentration in health sciences is designed to provide the academic knowledge and skills to allow students with an associate degree from a previously-approved health related program to advance their employment opportunities within the health field and/or continue into a graduate program of study.

Additional Program Fee: N

Second Language Requirement: N

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science (A.A.S.) degree. Not available for freshmen.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(<http://asuonline.asu.edu/degree-programs/undergraduate/bachelor-applied-science-health-sciences>)

Career Opportunities:

Graduates will be able to return to their original area of expertise in allied health (i.e., radiology, nuclear imaging) and qualify for a managerial position, to be an educator or instructor within their field of expertise or qualify for a higher position grade within their current place of employment.

Other career options include positions such as:

- elder services program coordinator
- health maintenance organization or insurance company client coach
- health and patient educator
- Healthy Start coordinator
- home health care coordinator
- long-term care health and wellness coordinator
- school health and program specialist
- women, infants, children and community nutrition aide

Applied Science (Medical Laboratory Science), BAS (NUMLSBAS)

Campus: DTPHX

Program Description:

The BAS in medical laboratory sciences is designed to provide the academic knowledge and professional skills to allow students to advance their employment opportunities within the field of medical technology, cytology, clinical laboratory science, and related areas. Medical laboratory scientists, also known as clinical laboratory scientists, are highly skilled professionals who perform analytical tests on blood, tissue, and body fluids to provide laboratory information for the detection, diagnosis, and treatment of human diseases. They work independently and have skills and knowledge that are greater in depth and breadth compared to medical laboratory technicians, who typically are graduates of a 2-year or community college program. There also is a growing trend for medical laboratory scientists to perform wellness laboratory testing aimed at preventing disease.

For more information on the requirements of this program, please click here

(<https://catalog.asu.edu/sites/default/files/imports/MDL%20Course%20Sequence%2012-13.pdf>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Only students who have been admitted through Phoenix College and been approved by the program director are accepted for admission to this program. For acceptance into the medical laboratory science (MDL) program, please complete the following process:

gain admission to Phoenix College

complete MDL Program application, which should include:

student information

coursework

immunizations

basic life support/CPR

Fingerprint Clearance Card

health declaration

experience in medical laboratory sciences

employment observation verification

references

review checklist and sign

submit to:

School of Nutrition and Health Promotion

Student Services Office, MERCC

Mail Code 8220; ATTN: Medical Laboratory Science Program

Arizona State University

502 E Monroe St Ste C 250

Phoenix AZ 85004-4431

apply to Arizona State University

Career Opportunities:

The Bureau of Labor Statistics reports that 13,000 new laboratory professionals will be needed in the United States each year; however, current training programs graduate only 5,000 students each year. The majority of medical laboratory scientists/technologists work in hospital laboratories. Others work in independent laboratories, reference laboratories, clinics, health maintenance organizations (HMO), public health agencies, pharmaceutical firms, research institutions, scientific equipment companies, physicians' offices, and as teachers in college clinical laboratory science programs. The working environment is as varied as the types of practice in which medical laboratory scientists are engaged.

Exercise & Wellness (Exercise & Wellness), BS (ECEXWBS)

Campus: DTPHX

Program Description:

Employment of fitness and wellness professionals is expected to grow by up to 24 percent through 2020, much faster than other occupations, driven by efforts to reduce health care costs by teaching people about healthy behaviors. The need for fitness and health promotion programming and facilities will increase the need for workers in these areas.

The BS in exercise and wellness (concentration in exercise and wellness) provides students with the knowledge, skills, and expertise to assist individuals across the lifespan in adopting exercise, physical activity and other healthy behaviors.

This concentration emphasizes:

- sciences of cardiovascular and muscular fitness, nutrition, and stress management
- methods for helping people make behavioral changes and teaching people about health risks
- knowledge and skills for teaching, evaluating, prescribing, and promoting fitness and wellness behaviors
- competencies required to pursue national certifications such as ones from American College of Sports Medicine, National Strength and Conditioning Association, or the National Academy of Sports Medicine
- an outstanding capstone internship that provides preprofessional experience

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra/MAT 170

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Students who complete a bachelor's degree in the exercise and wellness concentration will have enhanced opportunities in fitness and wellness employment settings because clients and employers prefer to work with people who are more highly prepared and qualified.

Example Careers: Undergraduates in this concentration often pursue careers in such fields as:

- active adult-planned community fitness and health promotion
- cardiac rehabilitation
- country club fitness
- hospital based fitness centers or spa fitness
- personal trainers
- sports medicine clinics
- strength and conditioning coach
- wellness centers
- worksite fitness and health promotion

Students may also pursue further graduate study in such fields as:

- exercise science
- medical school
- physical therapy
- physician assistant

Advanced degrees or certifications may be required for academic or clinical positions.

Exercise & Wellness (Health Promotion), BS (ESEXWHBS)

Campus: DTPHX

Program Description:

The BS in exercise and wellness with a concentration in health promotion provides students a pathway to become a certified health education specialist. Students will gain the knowledge, skills and expertise to develop and deliver programs that enhance awareness about healthy lifestyle behavior, increase health-enhancing behaviors, decrease health risk behaviors and create environments supportive of healthy lifestyles.

Students are prepared with:

- foundational knowledge in nutrition, physical activity and stress for chronic disease prevention
- methods for helping people make health behavior changes and teaching people about health risks and behaviors
- knowledge, skills and ethics for assessing and understanding group and community health needs
- skills in designing, implementing, administering and evaluating effective health promotion programs in worksite, community, health care and agency settings
- competencies required to pursue the Certified Health Education Specialist certification

A distinctive aspect of the health promotion concentration is an outstanding capstone internship that provides preprofessional experience in health promotion settings.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra/170

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The rising cost of health care has increased the need for individuals with the skills and abilities to provide health education and health promotion programs. As health care costs continue to rise, insurance companies, employers and governments are attempting to find ways to curb costs. One of the more cost effective ways is to employ health promotion professionals to teach people how to live healthy lives and avoid costly treatments for illnesses. Health promotion professionals work in various environments based on the industry in which they are employed. In public health, nonprofit organizations, corporations and businesses, colleges and universities and medical care settings, they primarily work in offices. However, they may spend a lot of time away from the office implementing and attending programs, meeting with community organizers, speaking with patients or teaching classes.

Example Careers: Undergraduates in this concentration often pursue careers in such fields as:

- college and university wellness and health promotion
- government health departments and agencies
- health and wellness coaching
- nonprofit disease prevention agencies
- private health care organizations
- wellness centers
- worksite wellness and health promotion

Students may also pursue further graduate study in such fields as:

- dentistry
- health education
- health promotion
- health psychology
- medicine
- occupational therapy
- physician assistant
- public health

Health Sciences (Health Policy), BS (NUHSCHPBS)

Campus: DTPHX

Program Description:

The BS in health sciences is designed to provide the academic knowledge and skills to allow students to move directly into a range of employment opportunities within the health field or continue their education in discipline-specific programs. Students will complete a complement of core courses that emphasize ethics, communication skills, critical thinking and cultural awareness.

The health policy program is designed for students interested in the community policy aspects of disease prevention and health promotion. The continuum of health care now spans a diverse array of health providers ranging from private practitioner offices and outpatient care centers to residential care facilities and acute care hospitals. Key to the enhancement of health care within the U.S. is the development and implementation of innovative, cost effective and universally accessible programs. Students in this concentration will be required to complete a supervised practicum, providing hands-on experience within their field of interest. Students may also wish to consider using their electives to complete a minor in nonprofit administration, which requires 15 credits.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Career opportunities are available in city, county and state departments of health, with additional employment opportunities in the health insurance industry, nonprofit sector and within various corporate entities providing health care.

Health Sciences (Healthy Lifestyles Coaching), BS (NUHSCHLCBS)

Campus: DTPHX, ONLNE

Program Description:

The BS in health sciences is designed to provide the academic knowledge and skills to allow students to move directly into a range of employment opportunities within the health field or continue their education in discipline-specific programs. Students will complete a complement of core courses that emphasize ethics, communication skills, critical thinking and cultural awareness. The healthy lifestyles coaching emphasis brings together course work from exercise and wellness, nutrition and health sciences, to give students a strong background in preventative health care. It also is designed to meet the prerequisites for students planning to pursue a bachelor of science in nursing.

The program allows students to explore a range of interests in health education and is designed for students who are seeking immediate employment in the community health education or health promotion fields.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Health Sciences (Pre-professional), BS (NUHSCPRES)

Campus: DTPHX

Program Description:

The BS in health sciences is designed to provide the academic knowledge and skills to allow students to move directly into a range of employment opportunities within the health field or continue their education in discipline-specific programs. The preprofessional program is designed for students planning to enter medical, dental, osteopathic, physical therapy, veterinary, pharmacy and similar professional schools. In addition to a comprehensive core of basic science courses, the concentration is unique in that it will provide a solid base in ethics; communication; the evaluation of research (the cornerstone of evidence-based practice); and healthy lifestyles (the foundation of health promotion and chronic disease risk reduction avenues of health care), including the role of complementary and alternative care within the U.S. health care system. Students will also have the ability to incorporate electives that contribute to their knowledge of and sensitivity to the needs of populations impacted by health disparities.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Substantial

Kinesiology, BS (NUKINBS)

Campus: DTPHX

Program Description:

Kinesiology is a discipline emphasizing the study of movement as it relates to physical activity, health and disease prevention, exercise and sport. Using both human and animal models and reflecting research ranging from basic to applied, it draws from an interdisciplinary body of knowledge grounded in the biological, psychological, physical and social sciences.

Undergraduate students in the program gain a disciplinary knowledge of the anatomical, biomechanical, developmental, neural, physiological and psychological mechanisms underlying human movement.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Substantial

Admission Requirements:

Nutrition (Dietetics), BS (ECNTRDBS)

Campus: DTPHX

Program Description:

The dietetics concentration, under the BS in nutrition, provides all the academic course work a student needs to qualify to become a registered dietitian. A registered dietitian is a food and nutrition expert who has met the minimum academic and professional requirements to qualify for the credential. In addition to a core of professional nutrition courses, students must complete a broad range of science, management and communication classes. The program emphasizes the application of nutrition within clinical, community, food production and wellness areas. Graduates can apply to complete a dietetic internship, which will further prepare them to take the exam to become a registered dietitian.

ASU's program in dietetics is accredited as a Didactic Program in Dietetics by the Accreditation Council for Education in Nutrition and Dietetics, 120 S. Riverside Plz., Ste. 2000, Chicago, IL 60606-6995.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: Moderate

Admission Requirements:

Nutrition (Food & Nutrition Management), BS (ECNTRMBS)

Campus: DTPHX

Program Description:

The food and nutrition management concentration is designed to provide students with an understanding of the food industry and the ability to apply nutrition principles to food production. Students will learn to manage and market food and develop a food or menu that meets a specific nutrition guideline.

Course work focuses on a strong foundation in food purchasing, production and planning. Additional course work in management, marketing and nutrition prepares students for a variety of food service positions. Graduates can also pursue the credentials of certified dietary manager, school nutrition specialist or registered sanitarian.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

According to the National Restaurant Association, the number of food service managers is projected to increase by 15 percent in the next 10 years. This degree prepares students to become food service directors at schools, health care facilities and corporate food service operations. Our graduates aspire to own restaurants or nutrition-related businesses, work in supplement or pharmaceutical sales, or work in food marketing and distribution.

Nutrition (Human Nutrition), BS (ECNTRHBS)

Campus: DTPHX

Program Description:

The human nutrition concentration, under the BS in nutrition, provides students with a strong foundation in nutrition and science. Students in this concentration usually intend to apply to medical school or another health profession. In addition to providing a strong foundation in medical nutrition therapy, the course work includes anatomy, physiology, chemistry and microbiology. Students gain knowledge of nutritional concepts that health care professionals sometimes lack.

Students from this program have gone on to study:

- medicine
- dentistry
- naturopathic medicine
- optometry and podiatry
- osteopathic medicine
- pharmacy
- physician assistant

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Central Arizona College (<http://transfer.asu.edu/central-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The nutrition field provides employment opportunities in:

- education
- food and nutrition marketing and sales
- food service
- health care
- nutrition and health promotion and consulting
- public health

Graduates of the human nutrition program often go on to apply to other health education or master's programs. The area of nutrition research is also a good fit for human nutrition majors. Several outstanding scientists have received their bachelor's from this program; add a master's or a doctorate and the opportunities within the research field are unlimited.

Nutrition (Nutrition Communication), BS (ECNTRCBS)

Campus: DTPHX, ONLNE

Program Description:

The nutrition communication concentration, under the BS in nutrition, was originally developed in collaboration with the Walter Cronkite School of Journalism and Mass Communication. While focusing on basic human nutrition, students take classes designed to build a foundation toward becoming expert communicators on issues related to food, health and nutrition.

Nutrition courses provide the content for articles students write in their communication classes. This degree program provides students with a strong understanding of the scientific method, statistics, nutrition, health care, fitness and wellness that many traditional journalists lack. Faculty members teach students how to avoid sensationalism or sacrificing reality to get a better story.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Speech & Hearing Science, BS (LASHSBS)

Campus: TEMPE

Program Description:

Students in the BS in speech and hearing science program study the normal aspects of the communication process. Emphasis is placed on:

- anatomy and physiology of the hearing mechanism
- speech, language and hearing science
- the human communication system, including normal development of speech and language

Graduates attain broad-based knowledge in the basic aspects of speech, language and hearing sciences, which prepares them for graduate studies in audiology or speech language pathology.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Employment opportunities for those with a bachelor's may include positions as:

- management trainees
- research assistants or associates in behavioral disciplines
- speech-language pathology assistants

Primarily, a degree in this field prepares the student for entrance into a graduate program in speech-language pathology or audiology. In both fields, a graduate degree is required for employment.

The undergraduate degree in speech and hearing science is also excellent preparation for those who wish to enter professional or graduate programs, such as in:

- education
- law
- medicine
- rehabilitation
- special education
- teaching for the deaf

Graduates in speech-language pathology and audiology can work in a variety of settings, including:

- clinics
- hospitals
- schools

Honors - Barrett, The Honors College

Honors College, (9HOHONALL)

Campus: DTPHX, POLY, TEMPE, WEST

Program Description:

ABOUT THE COLLEGE

Barrett, The Honors College at ASU is a selective, residential college that recruits academically outstanding undergraduates. Named "Best Honors College," this honors community is known nationally for the number of National Merit Scholars and recipients of prestigious fellowships such as the Rhodes, Truman, Fulbright, Marshall, Goldwater, NSEP and Udall. Barrett students benefit from a \$10 million endowment used exclusively to support honors students and their projects. The Barrett honors experience is unique, with the advantage of students experiencing a small, intellectually and socially vibrant environment while having access to the vast resources of the major research university that is ASU. Barrett students are members of a small community of scholars who benefit from personalized attention, dedication and access to Barrett deans; 22 Faculty Fellows within the college; more than 1,400 faculty members who teach honors students university-wide; and 38 staff members on all four campuses. Barrett students may major in any field offered at any of the university's four campuses, which also offer a vibrant honors residential component, academic and cocurricular experiences, and faculty and staff support. In the fall of 2009, Barrett opened the nation's first comprehensive four-year residential honors college within a top-tier Research I university. The \$130 million nine-acre honors campus community includes 12 classrooms; 1,700 beds; a community center (with student lounges, activity rooms, computer labs and a fitness center); a dining center with signature refectory and cafe and all the Barrett Faculty Fellows and administration offices. Barrett students on the Polytechnic, West and Downtown campuses also enjoy the benefits of living in expanding honors communities with new residence halls, student life amenities and honors community facilities on these campuses.

PROGRAM REQUIREMENTS

Barrett welcomes applications from highly-motivated, high-achieving, academically strong high school seniors and transfer students, as well as students currently enrolled at ASU. Prospective students may apply to Barrett after they have submitted an application to ASU. Admission information and the online application are available on the Barrett website. Barrett students complete a challenging honors curriculum through a

combination of honors-only seminars, honors contracts, internships, research, honors study abroad and a culminating honors thesis or creative project. Generally, students complete 36 hours of honors credits within the 120 credit hours required to earn a bachelor's degree. Details regarding the academic requirements can be viewed using the major map. Current ASU and transfer students can apply for the second semester of the freshmen year and the first semester of the junior year.

STUDENT OPPORTUNITIES

Barrett students take advantage of an array of opportunities that enrich the honors experience. They participate in study abroad programs that enable them to enjoy small classes taught by Barrett faculty and experience different cultures while earning honors credits. Barrett students receive national and international graduate scholarships such as Rhodes, Fulbright, Truman and Marshall scholarships. They secure unique undergraduate research and internship opportunities; attend social and cultural events; work in the governor's office; and publish poetry in the honors literary publication, LUX. They work with doctors at the Mayo clinic as a result of strong community partnerships and work with faculty in the Biodesign Institute on the latest developments in nanotechnology. The students also develop many of their own initiatives in this student-driven environment and organized and acquired a TED license to facilitate and support intellectual engagement on multiple subjects. They also benefit from spending significant time with individuals whose achievements are extraordinary in a given field. Whether listening to the experiences of U.S. Supreme Court Justice Sandra Day O'Connor, sharing ideas with Nobel laureate and former Costa Rica President Dr. Oscar Arias, or attending a seminar with Centennial lecturer, Edward James Olmos, Barrett students are provided exceptional opportunities to engage with experts in multiple disciplines while learning from other students with many talents both within the classroom and beyond.

Additional Program Fee: Y

Second Language Requirement: N

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students who have demonstrated high levels of academic achievement in high school or college may apply for admission to Barrett. Each candidate must file an application to the college separate from the ASU application, in accordance with the appropriate Barrett deadlines.

Applicants are evaluated on the basis of their academic records, high school class ranks and performances on the SAT or ACT. The college also values students who have special talents and aptitudes, exhibit exceptional leadership qualities, have had unusual life experiences and/or display significant community involvement.

The Barrett admissions application and additional information about the college and its activities are available at <http://barretthonors.asu.edu> (<http://barretthonors.asu.edu>).

Interdisciplinary Arts & Sciences, New College of

American Studies, BA (ASAMSBA)

Campus: WEST

Program Description:

The BA in American studies is one of the oldest interdisciplinary programs of study within the New College of Interdisciplinary Arts and Sciences and the only American studies degree in the entire state. This is a place for rigorous and adventurous conversations of American culture, politics and history, exploring knowledge beyond disciplinary boundaries, bringing differing perspectives and understandings into dialogue with one another, and generating a unique level of intellectual rigor and excitement.

To this end, our goals in American studies are to:

- help students synthesize and critically evaluate knowledge from diverse fields about American history and culture
- create a community of learning through classroom instruction, internship and study abroad experiences, program field trips, activities and lectures

- encourage knowledge and innovation in course work as well as the capstone thesis project

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with Interdisciplinary Studies (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Graduates are well equipped to embark on a wide variety of careers in government, education, business, museum and foundation work; journalism and other forms of professional writing, and in other areas where these capabilities are highly valued and sought. The program also serves as excellent preparation for law school and for graduate programs in fields such as:

- American studies
- art history
- English
- history
- journalism

Applied Computing, BS (ASACOBS)

Campus: WEST

Program Description:

The BS in applied computing, within the New College of Interdisciplinary Arts and Sciences, prepares students to:

- allow for efficient, effective and ethical user interaction with computer systems
- apply skills to lead the development of technology systems
- collect and analyze data
- develop and assure quality and value of information
- engage in creative efforts

component, concerned with understanding how people seek, obtain, evaluate, use and categorize information. The lower-division course requirements provide students with a solid foundation in computer science. At the upper division, students have a depth of choices in courses covering database systems and computer networks.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Applied Mathematics, BS (ASMATBS)

Campus: WEST

Program Description:

The BS in applied mathematics is an interdisciplinary program that provides students with a broad and rigorous foundation in applied mathematics. The program emphasizes an education in quantitative problem-solving and critical thinking, through a survey of courses exposing students to a wide variety of mathematical theories, techniques and applications currently used by analysts and researchers in government, industry and nonprofit organizations. Students will complete a capstone project involving real-world problems, under the supervision of an advisor and in close consultation with an external project sponsor.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

Applied Science, BAS (ASBASBAS)

Campus: WEST

Program Description:

The BAS in applied science combines the technical concentration knowledge earned in the student's completed associate of applied science degree with a broader education gained at the bachelor's level of education. Included in the program of study is an area of concentration (using an approved ASU minor or creating a concentration that is completely individualized) unique to the student's own interests and career pursuits. For example, the area of concentration can include, but is not limited to:

- business
- communication
- criminal justice and preprofessional studies
- education and teaching
- environmental issues and physical sciences
- languages and cultures
- social sciences and policy issues

The program includes a capstone project.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science (A.A.S.) degree. Not available for freshmen.

Career Opportunities:

Emphasizing professional study combined with a specific area of concentration (e.g., business, communication studies, English, gerontology, history, psychology or preprofessional studies), students tailor their programs to meet individualized career goals. The capstone internship program prepares students to make the transition smoothly to postbaccalaureate employment in business, cultural, educational, community and human service settings, as well as to graduate school. Students planning graduate or professional degrees in law, business, social sciences, helping professions or in traditional disciplines benefit from the flexibility of this program for a broad range of future academic and career pursuits.

Communication, BA (ASCOMMBA)

Campus: CALHC, WEST

Program Description:

Communication is an extensive field involving the exploration of messages and their various meanings. Such exploration occurs in countless ways, including the study of messages between:

- employees in organizations
- individuals in relationships
- media and their respective audiences
- members of different cultures
- social institutions and their constituents

The BA in communication prepares students to work in communications-intensive careers, such as:

- corporate communications
- crisis management
- customer relations
- health communication
- human resources management
- media relations
- new media
- public relations
- training

It readies graduates to perform various forms of data analysis, communication assessment and technical reporting. It also prepares students for graduate study in the social sciences, law, humanities and management.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with Communication Studies (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Communication is a broadly based discipline that trains individuals to speak and write competently; manage relationships well; effectively problem-solve; and understand the role and function of communication in public forums, organizational settings, relational exchanges and intercultural situations. Because these skills are crucial to many professions, communication graduates work in a variety of fields, including:

- advertising
- customer service and customer relations
- education
- fundraising
- health and human services
- human resources
- international service
- legal professions
- lobbying
- management
 - marketing
- media and public relations
- mediation
- ministry
- personnel
- public administration
- public advocacy
- public office
- public relations
- research
- sales
 - social media design and implementation
- speech writing
- training and development

English, BA (ASENGBA)

Campus: WEST

Program Description:

The primary mission of the English program is undergraduate education. Graduates should be able to write clearly and effectively, to think critically and to construct well-supported rational arguments. They should gain an awareness of genre, should be able to take a critical approach to texts and should learn to shape their discourse to suit their intended audience.

The program provides students with a balanced overview of major literature in the English language and an awareness of the role of literary discourse in broader social and historical contexts.

The program stresses the formal aesthetic qualities of texts and the issues of class, gender, race and ethnicity relating to literary representation. It provides students a familiarity with standard literary critical terminology and an awareness of a variety of theoretical approaches to literary study. It relates works of literature to historical events, cultural patterns, philosophical and theological concepts, and technological innovations.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Ethnicity, Race, and First Nations Studies, BA (ASETHBA)

Campus: WEST

Program Description:

The BA in ethnicity, race and First Nations studies is the first such program in Arizona. It provides an integrated, comparative and comprehensive approach to the study of diversity among ethnic and racial groups and First Nations. A highlight of the program is the internship, which fosters direct links between the university and community-based settings. Both theoretical and applied perspectives are embedded in a curriculum addressing how ethnicity, race and First Nations shape identities, literacies, public policies and communities in local and transnational U.S. contexts. Students identify a career area enabling them to integrate their knowledge with specific course work tied to their career and advanced educational goals.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Forensics, BS (ASFOREBS)

Campus: WEST

Program Description:

The program prepares students to pursue careers in forensics laboratories and in the research and development of new technologies in forensics. The degree places emphasis on chemistry and biology laboratory course work as both provide experience with essential techniques commonly used in crime labs. The degree also places focus on oral communication skills that will prepare graduates for the multifaceted, interdisciplinary aspects of their careers in forensics (e.g., providing articulate and compelling expert testimony in criminal trials).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

History, BA (ASHISBA)

Campus: WEST

Program Description:

The BA in history, within the New College of Interdisciplinary Arts and Sciences, trains students in the use of basic tools and methods of the historical discipline. Students are exposed to a broad span of modern history, a wide range of historiographical perspectives and approaches and such fundamental categories of historical analysis as race, class, gender and ethnicity. Students develop habits of mind associated with history as a discipline. The program consists of several specific core courses and a range of electives and distributional requirements, providing students with a solid foundation in historical methods.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Integrative Studies, BA (ASIASBA)

Campus: WEST

Program Description:

The BA in integrative studies, within the New College of Interdisciplinary Arts and Sciences, prepares students for broad employment alternatives or to pursue graduate studies. As a variation of the classic liberal arts degree, students combine a solid foundation of lower-division courses, followed by upper-division liberal arts courses in which students design an area of concentration (using an approved ASU minor or creating a concentration that is completely individualized) unique to their own interests and career pursuits. For example, the concentration can include, but is not limited to:

- business
- communication
- criminal justice and preprofessional studies
- education and teaching
- environmental issues and physical sciences
- languages and cultures
- social sciences and policy issues

Flexible and diverse, the program is capped with an internship experience.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Interdisciplinary Arts & Performance, BA (ASIAPBA)

Campus: WEST

Program Description:

The BA in interdisciplinary arts and performance is the only program of its kind in the Southwest, offering students the opportunity to focus on an interdisciplinary and collaborative approach to the arts, technology and performance. Core and elective courses are offered in digital media arts, sound and recording arts, theatre and performance practice, visual art and more.

The program includes courses on the traditions of 20th- and 21st-century interdisciplinary, avant garde and experimental arts, and aims to provide students with an understanding of the genres and directions in contemporary art-making and performance. Teaching and course work encourages students to develop creatively and work collaboratively. A senior project allows students to finalize the degree with a substantial artistic venture or to engage in a practical arts-based internship. Graduates enter the art-making world or work in the areas of media, film and education.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Life Sciences, BS (ASLSCBS)

Campus: CALHC, WEST

Program Description:

The intricate connections among biology, chemistry and physics form the basis of the life sciences curriculum. The BS program emphasizes experiential learning, and all required core courses have laboratories. By learning in an integrative environment that emphasizes the connectedness of disciplines, students gain a better understanding of larger scientific concepts and can view these concepts from multiple perspectives. Undergraduates have the opportunity to conduct independent research under the mentorship of faculty members or in internships outside of the department.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Career Opportunities:

The bachelor's in life sciences prepares students for a wide range of careers by offering course and laboratory work and quantitative research opportunities that develop fundamental problem-solving, critical thinking, writing and communication skills. Graduates may enter careers in:

- business
- laboratory or field research
- medicine
- publishing
- scientific journalism
- teaching

Undergraduate laboratory experience, both on and off campus, enhances employability as a laboratory technician or research associate in university and government research laboratories and hospital and diagnostic laboratories; and in pharmaceutical, biotechnology, agricultural and food processing companies.

Students engaged in field studies are prepared for entry-level positions in private companies and state and federal agencies (e.g., wildlife biologist, environmental consultant or conservation officer).

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Career Opportunities:

According to the 2010-2011 Occupational Outlook Handbook (U.S. Bureau of Labor Statistics, 2010), employment of environmental scientists is expected to grow by 28 percent between 2008 and 2018. This is far more rapid growth than average rate of growth for all occupations. The handbook indicates most rapid growth will occur in the private sector (primarily, in private environmental consulting firms).

This concentration will allow students to tailor their courses of study to interests they possess in the science of the environment, to help prepare them for careers in the public and private sectors (e.g., in environmental consulting, environmental remediation, natural resource management, etc.) as well as entry into graduate programs in environmental science and related disciplines.

Life Sciences (Forensics), BS (ASLSCFBS)

Campus: WEST

Program Description:

This concentration allows students interested in the life sciences to focus their courses of study on the field of forensics. Students pursuing this concentration will take a different, more forensics-relevant set of distribution courses than those students pursuing the current BS in life sciences. The concentration will prepare students interested in criminal forensics for careers in forensic science, and success in graduate and professional degree programs. Much of the required course work will be completed in chemistry or biology lab science course, to ensure that graduates of the

program are competitive as they enter the workforce, pursue relevant careers (e.g., those in crime labs) and apply to graduate and professional degree programs.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates of this program will be able to pursue careers in forensics laboratories and in the research and development of new technologies in forensics. Graduates will be particularly competitive for positions in forensics laboratories because the concentration focuses heavily on chemistry and biology laboratory course work (areas that administrators and current employees in crime labs have reported are critically important). For example, as reliance upon DNA fingerprinting technologies increases, demand for forensic scientists trained in the requisite amounts of molecular biology will increase. The concentration also places focus on oral communication skills (e.g., through course work in argumentation, COM 222 or COM 422), which will prepare graduates for the multifaceted aspects of their careers in forensics (e.g., providing articulate and compelling expert testimony in criminal trials). Graduates of this program will also be well positioned to enter graduate programs in forensics.

The intricate connections among biology, chemistry and physics form the basis of the life sciences curriculum. The BA program emphasizes interdisciplinary learning of the life and physical sciences, emphasizing the connectedness among disciplines. The concentration in secondary education allows students to apply for teaching credentials in Arizona as a highly qualified teacher.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Political Science, BA (ASPOLBA)

Campus: CALHC, WEST

Program Description:

Students gain understanding of theory, practice and policy underlying political processes, locally, nationally and internationally, in the BA in political science program.

The degree trains students in research skills necessary for analysis of complex sociopolitical issues locally and globally.

Course work is learner-centered in:

- political theory
- American political institutions
- international relations
- world affairs

This is a flexible program focusing on international, urban, and race/ethnic sociopolitical areas, internships, and service-learning/action research opportunities, with emphasis on intellectual and concrete policy issues in the greater Phoenix metropolitan area, Arizona, the Arizona-Mexico borderlands, the Americas and the world.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

- General University Admission Requirements:
 All students are required to meet general university admission requirements.
 Freshman (<https://students.asu.edu/freshman/requirements>)
 Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)
 International (<https://students.asu.edu/international/future>)
 Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
 Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The political science curriculum provides a solid background for employment in a relevant profession and prepares students for graduate work in:

- political science

- professional schools
- social science disciplines
- urban planning

The program serves as a good precursor to staff, manager or policy analyst positions in local, state and federal government. This degree is recognized as qualification for many careers in business (for-profit and nonprofit) and industry.

Work may include binational, cross-border positions linking U.S. and Mexican businesses, Arizona-Sonora local government or local community groups on both sides of the border. Many students use the degree as a gateway to law school or basis for further study in such applied fields as:

- community development
- public administration
- public policy
- urban affairs and urban and regional planning

Political Science, BS (ASPOLBS)

Campus: WEST

Program Description:

Students gain understanding of theory, practice and policy underlying political processes, locally, nationally and internationally, in the BS in political science program. The degree trains students in research skills necessary for analysis of complex sociopolitical issues locally and globally.

Course work is learner-centered in:

- political theory
- American political institutions
- international relations
- world affairs

This is a flexible program focusing on international, urban, race/ethnic sociopolitical areas, internships and service-learning/action research opportunities, with emphasis on intellectual and concrete policy issues in the greater Phoenix metropolitan area, Arizona, the Arizona-Mexico borderlands, the Americas and the world.

The BS in political science requires six additional required credit hours than the BA in political science program.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Psychology, BA (ASPGSBA)

Campus: CALHC, ONLNE, WEST

Program Description:

Psychology is the scientific study of the behavior and mental processes of individuals and groups. The diverse BA curriculum in psychology, within the New College of Interdisciplinary Arts and Sciences, consists of basic and applied courses covering multiple perspectives within the field including:

- clinical
- cognitive systems, behavioral neuroscience
- cross-cultural
- developmental
- organizational
- social
- health
- legal

Courses are presented in the context of cultural, socio-historical and transnational issues, enabling the student to understand the relationship between psychology and other social and behavioral sciences.

This program adds practical experiences to enrich study through:

- faculty research opportunities
- service learning
- internships

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program

(<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 119 - Finite Mathematics

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Cochise College (<http://transfer.asu.edu/cochise>)

Northland Pioneer College (<http://transfer.asu.edu/northland-pioneer>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

A degree in psychology will prepare students for a career in:

- government (sales and marketing, human resources management)
- industry
- mental health professions (youth counselor, substance abuse counselor)
- social services (high school psychology teacher, occupational analyst)

The degree also provides an excellent foundation for graduate study in fields such as public administration, law, family studies, communication and the various graduate programs in psychology:

- clinical and counseling
- cognitive neuroscience
- developmental
- environmental
- experimental
- health
- legal
- physiological
- social

Religion & Applied Ethics Studies, BA (ASRELBA)

Campus: WEST

Program Description:

Many people make ethical decisions in the context of their religious beliefs or worldviews. By combining the disciplines of religion and applied ethics studies, students are able to analyze problems more realistically. Students in the BA in religion and applied ethics studies program, within the New College of Interdisciplinary Arts and Sciences, learn the applicable religious contexts for understanding why people choose to live or respond to ethical issues as they do. They learn to identify moral problems developing in society, to develop the tools needed to formulate and critically evaluate various responses and to make careful and informed decisions about ethical matters in contemporary life. The program requires a capstone experience.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Accelerated Degrees:

This degree is also offered as an accelerated degree with Interdisciplinary Studies (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Social and Behavioral Sciences, BA (ASSBSBA)

Campus: WEST

Program Description:

The social and behavioral sciences curriculum provides an understanding of assumptions underlying the social and behavioral sciences, develops research skills necessary for analysis of complex social issues, offers a flexible program tailored to the career goals of the individual student, and offers individual and group experiences in working with faculty on concrete intellectual and policy issues.

The core courses provide students a background suitable to helping them better understand psychological and social principles related to the behavior of individuals across multiple social contexts and institutions (e.g., family, community, society and culture).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra/142

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with Interdisciplinary Studies (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Sociology, BA (ASSOCBA)

Campus: CALHC, WEST

Program Description:

The BA in sociology, within the New College of Interdisciplinary Arts and Sciences, provides an understanding of theory, practice, and policy underlying the issues of social change, inequality, and diversity, studying multiple perspectives in a global economy including:

- age
- economic position
 - gender
 - geographic location

- position
 - race and ethnicity

The program enhances students' understanding of social realities and institutions at local, national and international levels and how sociology contributes to the other social sciences and to the humanities.

Students gain a basic understanding of assumptions underlying the discipline of sociology and develop the research skills necessary for analysis of complex social issues. This is a flexible program, with opportunities to work collaboratively with faculty on concrete intellectual and policy issues.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Statistics, BS (ASSTABS)

Campus: WEST

Program Description:

The BS in statistics prepares students for entry level positions as statisticians and for graduate training in statistics and related fields. Statistics is the science of collection, description, analysis and interpretation of data from experiments or surveys. Statisticians help to make decisions and solve problems in the face of uncertainty, using the limited data available from an experiment or survey. Because the use of statistical methods is common in all areas of business, government, natural and social sciences, the demand for individuals with all levels of statistical training is great.

The program encompasses theoretical and applied statistics, as well as the requisite foundations in mathematics and computing. The emphasis is on the more practical and applied aspects of statistics. Graduates of this program are equipped to utilize statistical techniques to explore interdisciplinary topics that span disciplines. These unique features emphasize the interdisciplinary nature of statistics and prepare graduates for employment as entry-level statisticians or for graduate school.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Women and Gender Studies, BA (ASWSTBA)

Campus: WEST

Program Description:

The BA in women and gender studies, within the New College of Interdisciplinary Arts and Sciences, is an interdisciplinary program emphasizing intersectional approaches to the study of gender, race, class, ethnicity and sexuality in national and transnational contexts. Consistent with the university's design imperatives of social embeddedness and use-inspired research, the program's course offerings, research initiatives and cocurricular programs further the understanding of women and gender and promote social justice.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N**Second Language Requirement:** N**First Required Math Course:** MAT 142 - College Mathematics**Program Math Intensity:** General**Accelerated Degrees:**

Women and Gender Studies, BS (ASWSTBS)

Campus: WEST**Program Description:**

The BS in women and gender studies, within the New College of Interdisciplinary Arts and Sciences, is an interdisciplinary program emphasizing intersectional approaches to the study of gender, race, class, ethnicity and sexuality in national and transnational contexts. Consistent with the university's design imperatives of social embeddedness and use-inspired research, the program's course offerings, research initiatives and cocurricular programs further the understanding of women and gender and promote social justice. The BS program is distinguished by its quantitative emphasis.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with Interdisciplinary Studies (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

The women and gender studies program builds a solid educational foundation, providing knowledge and critical thinking skills needed to deal with changing gender roles in society. The program also prepares students for opportunities in many settings:

- business and professional schools
- education and training
- graduate study in the humanities and social sciences
- health care services
- human resources development
- public and business administration
- social services

Journalism & Mass Communication, Walter Cronkite School of

Journalism & Mass Communication, BA (CSJMCBA)

Campus: DTPHX

Program Description:

The Walter Cronkite School of Journalism and Mass Communication, named in honor of legendary CBS news anchor Walter Cronkite, is one of the largest and most successful professional journalism schools in the country. Students study multimedia, broadcast and print journalism, strategic communication and public relations, leading to a BA in journalism and mass communication. The Cronkite school is located at the ASU at the Downtown Phoenix campus, in the heart of the 13th largest media market in the U.S. The school features state-of-the-art computer labs, editing suites, production studios and classrooms dedicated to journalism education.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with Master of Mass Communication (MMC)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The Bachelor of Arts in journalism and mass communication degree program has higher admission requirements and an application deadline of June 1 for fall. Students should select a second choice major on the application. All applicants will be reviewed by the school. Those who are not admitted to the Cronkite School will, if eligible, be admitted to their second choice major.

Freshman applicants must meet all of the following standards:

Have a 3.00 (4.00 = A) ABOR GPA.

Have no English competency deficiencies.

1040 SAT Reasoning or 22 ACT score.

Transfer students (with 12 or more transfer hours after high school graduation) are required to have a cumulative transfer GPA of 3.00 or higher and no English competency deficiencies. Transfer students should contact the school for additional steps after admission to ASU. For more information regarding transfer admission see http://cronkite.asu.edu/undergrad/xfer_major_change.php (http://cronkite.asu.edu/undergrad/xfer_major_change.php).

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Walter Cronkite School of Journalism and Mass Communication graduates work for:

- corporate and business communication divisions
- magazines
- newspapers, radio and television stations
- online services
- public relations firms

Positions include:

- editors
- media managers
- photojournalists
- reporters
- writers

Mass Communication and Media Studies, BA (CSMCMSTBA)

Campus: ONLINE

Program Description:

The online BA in mass communication and media studies degree gives students a deep and nuanced understanding of the growing importance, power, influence and changing nature of media in the world. The program explores global mass communication issues from all dimensions: societal, cultural, historical, political, economic, technological and legal. The degree is built upon courses that are part of the Cronkite School's existing minor in media analysis.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics MAT 142 OR MA

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Career Opportunities:

A sophisticated understanding of mass communication is a critical asset for careers in business, government, community and the nonprofit sectors. Graduates of the program will have career opportunities with professional organizations, educational institutions, writing firms, publishing companies, political parties and candidates, government officials and others. Graduates of the bachelor's in mass communication and media studies program also will be prepared to pursue graduate studies in fields such as law, medicine, the arts, education and journalism.

Letters & Sciences, School of

Agribusiness (Preveterinary Medicine), BS (AGAGBPBS)

Campus: POLY

Program Description:

The BS in agribusiness teaches students the business of agricultural production, finance, marketing and distribution. Through a technology-rich curriculum that focuses on real-world projects, students explore global agribusiness issues such as international trade, food safety and sustainability.

The agribusiness industry is increasingly competitive, sophisticated and global, driving demand for innovative leaders who understand the industry's unique challenges and practices. The programs offered through the highly respected School of Letters and Sciences prepare graduates for success in graduate school or a wide range of careers.

By adding a concentration in preveterinary medicine, students can build on course work in chemistry and biology, to open opportunities for further study, including veterinary medicine. Others may seek to apply their science knowledge in the human or veterinary pharmaceutical industries or in the food industry, focusing on processing, production and food safety.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Applied Biological Sciences (Applied Biological Sciences), BS (TSABSABS)

Campus: POLY

Program Description:

The applied biological sciences concentration provides students with an opportunity to prepare for applied professional studies in many health fields such as medicine, dentistry, veterinary or other related fields. This concentration is also well suited for those who have a non-specific interest in biology or plan on continuing to graduate school in the biological sciences. Students interact with faculty in classrooms, use state-of-the-art labs and, when appropriate, attend outdoor settings that may include the Sonoran Desert, surrounding ecosystems and the landscape of the greater Phoenix area.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Applied Biological Sciences (Urban Horticulture), BS (TSABSUBS)

Campus: POLY

Program Description:

The urban horticulture concentration, under the BS in applied biological sciences degree, focuses on the relationship of plants and people in urban and suburban environments, with major emphasis given to the sustainability of these environments. Set in a unique Southwestern desert location, students learn how to practice urban horticulture principles and develop skills to create aesthetically pleasing urban environments. This approach is coupled with an appreciation of environmental conservation and stewardship.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Applied Biological Sciences (Wildlife & Restoration Ecology), BS (TSABSRBS)

Campus: POLY

Program Description:

The wildlife and restoration ecology concentration focuses on the application of ecological principles to the management of wildlife and the restoration of ecosystems. The concentration examines the management of wildlife species and their habitat and emphasizes the reconstruction of degraded ecosystems, to improve ecological structure and function and meet societal needs for sustainable and functional ecosystems. Students interact with faculty in classrooms, use state-of-the-art labs and, when appropriate, attend outdoor settings that may include the Sonoran Desert, surrounding ecosystems and the landscape of the greater Phoenix area. Knowledge and skills learned prepare students for careers as biologists, resource managers, range managers, wildlife managers, environmental consultants, other professional areas or graduate studies.

Applied Science (Technical Communication), BAS (LSTECBAS)

Campus: POLY

Program Description:

The BAS is a flexible degree plan designed specifically for students who have earned an AAS from a regionally accredited institution. This major combines the technical experience gained in the student's associate degree program with a broader education of management, leadership, critical thinking and communication skills.

Technical communication is applied workplace communication that makes technical information understandable and available to many audiences. In the technical communication concentration, students learn how to produce, design and manage information using both traditional and developing technologies.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Exploratory Health & Life Sciences, (UCHSCIEXPL)

Campus: DTPHX, ONLNE, POLY, TEMPE, WEST

Program Description:

The exploratory health and life sciences track affords students an opportunity to explore a variety of majors related to the health and life science professions. ASU recognizes that many students are not ready to choose a specific academic program of study when first entering the university. Allowing students the option to declare "exploratory" status permits students to begin meeting General Studies requirements that all ASU graduates must fulfill, as well as taking some time to explore a variety of academic courses that may lead to a potential major interest.

All School of Letters and Sciences exploratory students are required to enroll in the following major and career exploration courses which must be taken sequentially:

- UNI 150 Major and Career Exploration (1)
- UNI 250 Choosing a Major (1)
- UNI 270 Career Direction for a Successful Future (1)

For a complete list of all majors associated with this exploratory track, reference <https://sls.asu.edu/node/489> (<https://sls.asu.edu/node/489>).

Additional Program Fee: N

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

All students with fewer than 45 college credit hours are admissible to this exploratory track. Once students complete more than 45 college credits, students are required to declare an ASU major. This is not a degree-granting track; therefore, students must declare an ASU major prior to completing 45 college credit hours.

ASU Online exploratory students who have completed more than 45 college credits are admissible to this exploratory track, but must declare an ASU online major by the completion of two ASU sessions.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Career opportunities are specific to the ultimate major of choice.

Exploratory Social & Behavioral Sciences, (UCSBSEXPL)

Campus: DTPHX, ONLNE, POLY, TEMPE, WEST

Program Description:

The exploratory social and behavioral sciences track affords students an opportunity to explore a variety of majors related to the social and behavioral sciences, such as psychology, history, education, journalism and business-related careers. ASU recognizes that many students are not ready to choose a specific academic program of study when first entering the university. Allowing students the option to declare "exploratory" status permits students to begin meeting General Studies requirements that all ASU graduates must fulfill, as well as taking some time to explore a variety of academic courses that may lead to a potential major interest.

All School of Letters and Sciences exploratory students are required to enroll in the following major and career exploration courses which must be taken sequentially:

UNI 150 Major and Career Exploration (1)
UNI 250 Choosing a Major (1)

For a complete list of all majors associated with this exploratory track, reference <https://sls.asu.edu/node/489> (<https://sls.asu.edu/node/489>).

General Studies, BGS (LSGNSBGS)

Campus: DTPHX, CALHC

Program Description:

The BGS offers students a flexible, innovative path to degree completion. Graduates of the program will be informed and effective members of society, who are well-prepared for a changing global marketplace with its diverse cultures. The theme of this degree is "Society and the Individual." Students will explore the tensions between individualism and collectivism, the public and private self, and the interplay of culture and identity.

Career Opportunities:

The bachelor's in history prepares scholars and teachers for graduate and professional student and careers in education, writing and other related

fields. Career prospects for secondary history and social studies teachers in Arizona are particularly strong. Students in the program develop skills in:

- analyzing ideas and problems
- communicating effectively
- finding and evaluating information
- presenting clear and logical arguments

With these skills, graduates of this program can find jobs as:

- archivists
- broadcast news analysts
- court reporters
- curators
- historians
- history teachers
- judicial law clerks
- lawyers
- legal support workers
- media and communication workers
- middle school teachers
- museum technicians and conservators
- paralegals and legal assistants
- postsecondary teachers
- reporters and correspondents
- secondary school teachers
- teachers and instructors
- writers and authors

The degree also prepares students to continue in graduate and professional programs.

Interdisciplinary Studies, BIS (LSBISBIS)

Campus: DTPHX, ONLNE, POLY, TEMPE, WEST

Program Description:

The BIS degree, one of the top five programs in the country, offers students the freedom to select two concentration areas from a rich menu of more than 140 possibilities (see concentration checksheets <https://sls.asu.edu/node/299> (<https://sls.asu.edu/node/299>)). The core curriculum provides students the intellectual tools to integrate their concentration areas, engage in interdisciplinary problem solving, and prepare for careers and graduate programs that increasingly cross disciplinary boundaries.

An interdisciplinary studies student could choose to integrate entertainment technology and business, applied psychology and social welfare, communication and justice studies, public administration and ethics, kinesiology and computer gaming, or many other unique combinations.

Interdisciplinary studies is an approach to answering questions, solving problems and addressing contemporary social issues from multiple perspectives. Interdisciplinary studies students take an active role in designing their educational plans and defining their career goals. The degree emphasizes written communication, versatility, self-assessment and critical thinking - essential skills for navigating today's dynamic world.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The BIS program is available to all students in good academic standing who have achieved sophomore, junior or senior standing. Students must complete the online B.I.S. cyber workshop (found in student resources at <https://sls.asu.edu/ils/> (<https://sls.asu.edu/ils/>)) prior to meeting with an advisor to declare their major as interdisciplinary studies.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. (<http://asuonline.asu.edu/degree-programs/undergraduate/bachelor-interdisciplinary-studies>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Coconino Community College (<http://transfer.asu.edu/coconino>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Career Opportunities:

Because of the flexibility of the interdisciplinary studies program, graduates take many exciting career paths after leaving ASU. While some students complete graduate or professional degrees, others immediately enter the job market. For example, one graduate combined business and communication and now owns a small business; another integrated sociology and family studies to further a career in law enforcement; another studied philosophy and economics to prepare for law school; another combined biology and chemistry in preparation to pursue a master of pharmacy degree; yet another studied Spanish and religious studies and now works as an employee trainer for a major company.

Possible career opportunities include:

- archivists
- chief executives
- climate change analysts
- compliance managers
- computer network support specialists
- curators
- editors
- environmental restoration planners
- general and operations managers
- regulatory affairs managers
- reporters and correspondents
- web developers
- wholesale and retail buyers (except farm products)

Interdisciplinary Studies (Organizational Studies), BIS (LSORGBIS)

Campus: EAC, ONLINE

Program Description:

Interdisciplinary studies is an approach to answering questions, solving problems and addressing contemporary social issues from multiple perspectives. Interdisciplinary students develop the intellectual tools needed to build bridges between academic disciplines and apply their skills, innovations and knowledge in various academic and practical settings. The BIS in organizational studies is intended for students seeking an interdisciplinary degree and possessing a desire to learn about the dynamics of contemporary organizations. Via the organizational studies

curriculum, students gain valuable knowledge of management styles, communication strategies, technologies, diversity, ethics and politics. All course work for organizational studies is offered online, giving students freedom and flexibility in completing their requirements. By engaging in a breadth of knowledge and experience, and by acquiring the skills to integrate various domains of knowledge, students prepare themselves for careers as:

- human resources specialists
- industrial organizational psychologists
- investment fund managers
- loss prevention managers
- management analysts
- regulatory affairs managers
- supply chain managers
- urban and regional planners

Many organizational studies students already have a chosen career field, yet desire a degree that is versatile, flexible, meaningful and that affords the opportunity for continued career development and advancement.

Arizona State University and Eastern Arizona College have established a partnership that will allow you to complete your associate degree at EAC and then pursue this bachelor's degree through classes delivered on the EAC Thatcher campus. Visit <https://transfer.asu.edu/eac> (<https://transfer.asu.edu/eac>) for more information about ASU degrees offered at Eastern Arizona College Thatcher campus. Liberal Studies, BLS (LABLSBLS)

Campus: EAC, ONLNE

Program Description:

The BLS program helps to address student interests in a broad array of disciplines and subject matter. The program aims to provide students with the grounding to use knowledge in a manner that will help them to become more successful thinkers, decision makers and leaders. The liberal studies core classes are designed to promote critical and creative thinking as students learn how to draw upon diverse disciplinary perspectives and modes of inquiry, help in the development of communication skills and support efforts toward professional career development.

Students majoring in liberal studies have become part of an international movement in higher education. This movement has proven empowering to people who are given the flexibility to explore multiple interests or approach a particular interest from various perspectives. Students are not alone in their chosen path. In fact, our program is just one of hundreds of similar programs offered in colleges and universities across the nation. Liberal studies courses prepare students for careers as:

- chief executives
- data warehousing specialists
- document management specialists
- elementary, middle, and high school principals
- emergency medical technicians and paramedics
- general and operations managers
- human resources specialists
- industrial ecologists
- lawyers
- paralegals and legal assistants
- police detectives
- postsecondary teachers
- technical writers
- web administrators

For more information on eligibility requirements, visit the school website.

Arizona State University and Eastern Arizona College have established a partnership that will allow you to complete your associate degree at EAC and then pursue this bachelor's degree through classes delivered on the EAC Thatcher campus. Organizational Leadership, BA (LSORGLBA)

Campus: CALHC, ONLNE

Program Description:

The BA in organizational leadership uses interdisciplinary methods that prepare students to become leaders in organizations. Students develop skills and knowledge that leaders need to solve problems, communicate effectively, assess programs, manage resources, and use emerging technologies in organizations. Students in the program will be prepared for a range of positions in government, health care administration, nonprofit agencies, and the service industry.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: Online: MAT 142 or MAT 117 or higher; Lake Havasu: MAT 117 or higher. Students simply need to fulfill the general studies "MA" requirement.

Admission Requirements:

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (<https://students.asu.edu/freshman/requirements>)
Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Science, Technology and Society, BS (ECSTSBS)

Campus: POLY

Program Description:

Questions surrounding the interaction of science, technology and human systems are highly interdisciplinary and cultural, requiring analytical techniques that transcend space and time. Thus, the science, technology and society program stresses the need to step outside both disciplinary and cultural boxes in pursuit of knowledge. Accordingly, the program is heavy on cultural and information literacy and critical thinking. The primary goal is to produce generalists who understand the intricate interrelationship of science, technology and society and are armed with the technical skills to change their environment. The following three tracks are available:

- general science, technology and society
- global technology and development
- science, technology and governance

Students can use the general STS track to design targeted programs of their choosing, including premed and prelaw.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

The bachelor's degree in science, technology and society prepares professionals and scholars for careers in the 21st-century world focusing primarily, but not exclusively, on the interaction of science and technology with human systems. The focus of the program is on developing the technical skills required to audit the social, political and policy impact of technological advancement and the competence required to navigate questions surrounding the future trajectory of science and technology. Graduates are prepared for graduate or professional study, or professional careers as:

- commercial and industrial designers
- compliance managers
- environmental restoration planners
- public relations specialists
- recycling coordinators
- regulatory affairs specialists
- sales representatives, wholesale and manufacturing, technical and scientific products
- sustainability specialists
- training and development specialists
- transportation planners
- urban and regional planners

Liberal Arts & Sciences, College of

African & African American Studies, BA (LAAFRBA)

Campus: TEMPE

Program Description:

African and African American studies is an interdisciplinary BA program that focuses on people of African descent throughout the world and the diversity of past and present experiences of those who live in:

- Africa
- Central America
- South America
- the Caribbean
- the United States

As an institutional program, African and African American studies is structured to:

- combine knowledge of the African diaspora with intellectual and practical training in specific areas to create more effective communities and global partnerships
- prepare students of all ethnicities to better understand, value and more effectively participate in our increasingly diverse society
- provide students with a foundation for advanced studies in such fields and professions as history, English, sociology, political science, communications, arts, public administration, law, psychology, social work, education and business

Because of its emphasis on various social aspects and groups, the African and African American studies program provides students with practical applications useful for various workplaces. The minor requirement of the program helps students develop cultural sensitivity and prepares them for careers in:

- administration
- advertising
- business
- counseling
- education
- human resources
- international relations
- journalism
- justice
- management
- travel

Our program prepares students for work in:

- civil rights organizations
- colleges and universities

- corporations
- government agencies
- hotel chains
- law firms
- libraries
- museums
- nonprofit organizations
- political action groups
- public relation firms
- research organizations
- sales departments
- social service agencies
- the insurance industry
- the Peace Corps
- travel agencies

American Indian Studies, BS (LAAISBS)

Campus: TEMPE

Program Description:

The BS in American Indian studies provides students with unique opportunities to evaluate issues of American Indian nations within a domestic and international context. The bachelor's in American Indian studies encompasses two areas of emphasis: legal, policy and community and economic development; and arts, languages and culture. The American Indian Studies Program is committed to broadening the knowledge of students interested in the histories, languages, cultures, arts and contemporary situations of American Indian nations and people. The program is designed to protect the integrity and identity of the indigenous populations of North America and to create a learning environment conducive to critical and creative thought.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

American Indian studies graduates will be qualified to fill positions at the tribal, state and federal government levels and in the private sector. Graduates can advance to graduate school or can pursue professional careers in such fields as government service or public service. For example, federally and tribally operated schools located in remote areas within Indian Country have high turnover rates for both teachers and staff. American Indian studies graduates should be available to help fill these positions. Furthermore, the federal government, a major employer on many reservations across the country, is in need of qualified people who are knowledgeable of Indian cultures, laws and policies. Additionally, many American Indian nations' economies and infrastructures are developing at a rapid pace, and they are in continuous need to fill mid-management and management-level positions.

Graduates find positions in many areas, such as:

- casino employment
- community action work
- public administration (tribal or state relations, nonprofit management, education administration, planner)
- public health
- the arts
- tribal employment (political office, tribal management, cultural resource programming, grant writer, cultural specialist, youth services)

This program also provides suitable preparation for graduate study or law school.

Anthropology, BA (LAASBBA)

Campus: TEMPE

Program Description:

The BA in anthropology gives students an opportunity to learn how and why humans evolved and how our evolutionary biological, social and cultural trajectories help us understand the meaning of being human in past, present and future environments. Anthropology helps students develop strong critical thinking and oral and written expression skills, important to success in many career areas.

Anthropology majors learn how to use the scientific method to formulate and test hypotheses and gather qualitative and quantitative data through participant observation, interviewing, ethnographic study, careful excavation and measurement. They also learn how to employ statistics to analyze and extract meaning from data.

A special feature of the ASU anthropology program is its relevance to other disciplines and many exciting hands-on learning opportunities through laboratories, study abroad and field-based courses.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The demand in the job market for people with an anthropology background is stimulated by a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret the large amounts of data. As the many spheres of human interaction expand globally, people trained in anthropology will increasingly be sought for their broad, holistic knowledge and perspective of understanding, which are the hallmarks of anthropology. Some career opportunities include:

- acting as legal advocates in international cases
- analyzing and proposing policies
- consulting for private and public organizations
- curating cultural resources
- directing nonprofit organizations
- directing programs in the private or public sector
- modeling infectious diseases
- planning communities

- postgraduate academic research and teaching
- professional employment in heritage (cultural resource) management in private or public sectors
- providing health care as nurses, doctors or public or global health professionals

Anthropology, BS (LAASBBS)

Campus: TEMPE

Program Description:

The BS in anthropology gives students an opportunity to master anthropological or anthropologically relevant knowledge and skills through applications of the scientific method and quantitative methodologies. Anthropology is the study of how and why humans evolved and how our evolutionary biological, social and cultural trajectories help us understand the meaning of being human in past, present and future environments. Through core and elective courses, the bachelor's in anthropology allows students to explore problems that may require the use of theories and methods from diverse disciplines, including biology, global health, applied mathematics, psychology, economics, sociology, medicine, law and engineering. Anthropology provides many exciting, hands-on learning opportunities through laboratories, study abroad and field-based courses.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Substantial

Admission Requirements:

Applied Mathematics for Life and Social Sciences, BS (LAAMLBS)

Campus: TEMPE

Program Description:

The BS in applied mathematics for the life and social sciences is a challenging and exciting curriculum that investigates and integrates complex areas of the physical, life and social sciences while preparing a new generation of students in mathematics. A primary objective of this program is for students to develop critical thinking skills and purposeful competencies in mathematics, as well as an appreciation for the contributions of mathematics to the fields of sciences, engineering, business, government and economics. Students learn how to use theories and techniques such as mathematical modeling and computational methods to resolve practical real-world problems. The course work is directed toward an understanding of mathematical theory and its relation to other fields of studies. Emphasis is placed on precision of definition, reasoning to accurate conclusions, and analyzing and developing solutions to problems using mathematical principles.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The bachelor's in applied mathematics for the life and social sciences provides students entering the environmental, life, health, mathematical and social science fields the quantitative, scientific and analytical skills that are critical for professionals working in these areas.

The need for quantitatively trained scientists and professionals in the life and social sciences is strong in Arizona and the nation. This degree's applied use of mathematics, modeling, statistics and simulation methodologies are in high demand and provide excellent training for future academics and professionals in industries including:

- astrophysics
- biostatistics
- chemical engineering
- communications
- computational biology
- computer animation
- data mining
- demography
- digital and medical imaging
- e-commerce
- education
- forensics
- genomics
- informatics and complex systems research
- materials science
- neuroscience
- pharmaceutical engineering
- political science
- public health
- risk management
- security and military
- social network analysis

Asia Studies (East Asia), BA (LAHSTEABA)

Campus: TEMPE

Program Description:

The BA in Asia studies offers students the opportunity to study East Asia, South Asia or Southeast Asia in depth through a coherent concentration of academic study across a number of disciplines. The interdisciplinary approach will prepare students to deploy a variety of intellectual tools to address contemporary political, social and cultural issues in Asia and to apply their knowledge in various academic and practical settings. Students will identify which concentration (East, South or Southeast Asia) they will pursue.

The concentration in East Asia includes:

- China
- Japan
- Korea
- Taiwan

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Asian Languages (Chinese), BA (LACHIBA)

Campus: TEMPE

Program Description:

The BA in Asian languages with a concentration in Chinese strives to instill proficiency in reading, writing, and speaking Mandarin and in reading classical Chinese. It provides an in-depth understanding of the fundamentals of the rich Chinese cultural tradition, centered on primary Chinese texts (in Chinese and in English translation) from the literary, intellectual and religious cultures of Chinese-speaking societies. These texts include visual and written materials on, among other things:

- linguistics
- literary theory and history
- media
- religions
- urban culture

Students in the program have a number of options available for studying abroad, and for students with higher levels of linguistic competency there are targeted courses (conducted in Chinese) offered as part of the Chinese flagship track.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Knowledge of multiple languages and intercultural competencies enhance any occupation and offer graduates many career opportunities.

Language-intensive careers include:

- area or regional specialist
- bilingual administrative professional
- elementary or secondary education teacher
- interpreter
- language and culture or English-as-a-second-language teacher
- language and literature professor
- language researcher
- linguist
- translator

Career fields and occupations using languages include:

- administration of nongovernmental organizations
- advertising or marketing
- airlines
- cultural advisement
- diplomatic and foreign service
- domestic or international business
- film, television or multimedia
- foreign correspondence or journalism
- government intelligence
- hotel and resort management
- international banking
- international education and study abroad
- international law
- medicine
- military
- ministry
- social work

Additional education and certification may be required for some career paths.

Asian Languages (Japanese), BA (LAJPNBA)

Campus: TEMPE

Program Description:

Students in the BA in Asian languages with a concentration in Japanese study the language, literature and culture of Japan and gain a respectable measure of competence in reading, writing, oral and aural skills in the Japanese language. Students also gain linguistic and cultural competence through the required study of classical Japanese. Throughout the program, students take courses in either Chinese or Korean and related courses in Japanese and East Asian culture on topics such as:

- art
- government
- Japanese history
- linguistics
- literary and cultural theory
- religion

In addition, ASU offers summer or yearlong programs to study abroad in Japan.

Asian Pacific American Studies, BA (LAAPABA)

Campus: TEMPE

Program Description:

The BA in Asian Pacific American studies is an interdisciplinary undergraduate degree focused on demographic, cultural, social, economic and policy issues that have shaped and continue to affect Asian American and Pacific Islander communities in Arizona, the American Southwest, the U.S. and in other countries. Students will study the historical and contemporary experiences of Asian Americans and Pacific Islanders and will gain knowledge about these groups' experiences and their communities in Arizona, the nation and within a larger global context.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Biochemistry, BA (LABCHBA)

Campus: TEMPE

Program Description:

The BA in biochemistry provides students with a course of study in the fundamental knowledge of the chemical substances and vital processes of living organisms. Discoveries of new drugs, the recognition and control of new pathogens, development of new catalysts for energy transformations and the production of new materials, and solutions to problems such as food production and environmental remediation depend upon a thorough grounding in this area of science.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

A solid undergraduate education in biochemistry provides the necessary background for career paths in areas such as:

- chemical industries
- government
- health care
- research
- teaching

Students often study biochemistry with supporting work in biology and chemistry as the route for preprofessional training for careers in these fields:

- dentistry
- medicine
- pharmacy
- veterinary

Biochemistry (Medicinal Chemistry), BS (LABCHMBS)

Campus: TEMPE

Program Description:

The science of biochemistry is about the discovery and dissemination of fundamental knowledge of the chemical substances and vital processes of

living organisms. Discoveries of new drugs, the recognition and control of new pathogens, development of new catalysts for energy transformations and the production of new materials, and solutions to problems such as food production and environmental remediation depend upon a thorough grounding in this area of science. The bachelor's in biochemistry with a concentration in medicinal chemistry emphasizes aspects of biochemistry that will be useful to those planning careers in medically related areas.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Biochemistry (Medicinal Chemistry) (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Biological Sciences, BS (LABSCBS)

Campus: TEMPE

Program Description:

The life sciences delve into the basic organization and processes of life (microbes, plants and animals) at scales ranging from molecules to ecosystems and in time from picoseconds to millennia. This includes investigations into how hereditary information is transferred and how organisms evolve, the interplay of organisms and their environments, and how these factors interact in health and disease. Students interested in a degree in life sciences can opt for a BS in biological sciences or choose one of four concentrations with biological sciences:

- animal physiology and behavior
- biology and society
- conservation biology and ecology
- genetics, cell and developmental biology

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Biology (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Cochise College (<http://transfer.asu.edu/cochise>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

The biological sciences major with no concentration is designed for students who are committed to studying and training in multiple disciplines in biology and students who want to get more exposure to the life sciences before deciding whether they want to concentrate as an undergraduate. Therefore, students in this major take core courses from several of our concentrations. Students in this major have more flexibility to customize their program of study so they can focus on their own area of interest that may not have a concentration, such as plant biology or genomics.

The biological science major provides an excellent foundation for graduate study as well as preparation for professional schools in:

- dentistry
- medicine
- pharmacy
- veterinary medicine

Graduates may also enter positions in:

- certain technical fields
- education
- government
- industry

Students exploring becoming a high school teacher can find more information about the concurrent degree program at:

http://catalog.asu.edu/concurrent_dual. (http://catalog.asu.edu/concurrent_dual)

Biological Sciences (Animal Physiology & Behavior), BS (LABSCABS)

Campus: TEMPE

Program Description:

Physiology is the study of how organisms regulate the flow of energy and maintain the conditions necessary for health, survival and reproduction. It might seem that physiology and behavior are quite separate fields, but physiology and behavior interact extensively to achieve common goals. In the animal physiology and behavior concentration, you will receive a rigorous and broad education by studying behavior and physiology from the perspectives of molecular and cellular biology, evolution, organ systems (neural, endocrine, cardiovascular, respiratory, immune, etc.), and the environment. Students in this concentration also learn to apply principles from mathematics, chemistry and physics. Discoveries are made at the

laboratory bench and in the field, and students in this concentration are encouraged to participate in research projects in the labs of our faculty members.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The broad education and critical thinking skills students receive in this concentration are well suited for a variety of rewarding careers. Premed, prevet and pre dental students get the background and courses needed for professional school application and beyond. Many students go on to graduate school for academic, teaching or research careers in areas such as:

- endocrinology
- environmental or behavioral physiology
- human physiology
- metabolism
- neurobiology
- social behavior

With a BS in this concentration, there are opportunities for technical positions in hospitals, research institutes, and industry (food, dairy, chemical, pharmaceutical, and biotechnology) as well as government laboratories and agencies. The most important skills students learn in the concentration are critical thinking and problem-solving skills that can be applied to many scientific problems and professions as well as the challenges of daily life.

Biological Sciences (Biology & Society), BS (LABSCSBS)

Campus: TEMPE

Program Description:

The biology and society major focuses on training biology students to understand the social context of their science; to ask how and why a biological problem has been and should be studied; to be able to explore the ways in which policy decisions shape and are shaped by biological research; and to investigate the meaning and significance of the life sciences in understanding our complex world. The biology and society curriculum is highly individualized, including an independent research project. Our program is privileged to be home to world-class researchers and teachers in several different fields, including bioscience ethics, history and philosophy of science, science communication, science education and science policy. What makes us unique is that we are all based in the School of Life Sciences, rather than being scattered in a variety of departments.

Additional Program Fee: Y

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Biology and society students gain the historical, philosophical, political and ethical perspectives needed to explore interactions between the life sciences and related complex human issues. As a result, the program contributes to better-informed and more effective teachers, writers, policymakers, clinicians and researchers in areas related to biology, medicine and society.

As a result of the individualized, skill-based curriculum, biology and society majors are eligible for a broad range of career options. Most majors have chosen to pursue professional degrees in medicine, law, public health or public policy, or graduate study in biology, ethics, education or history and philosophy of science. Our graduates enter the workforce, whether in academia, industry, government or clinical practice, with a deep sensitivity to the complexity of biology in society and the skill to navigate that complexity throughout their career.

Biological Sciences (Conservation Biology and Ecology), BS (LABSCCBS)

Campus: TEMPE

Program Description:

Ecology is the study of the distribution and abundance of organisms, the interactions among organisms, and the interactions between organisms and the physical environment. Conservation biology is an applied science based on ecological principles that focuses on conserving biological diversity and on restoring degraded ecosystems. Arizona State University has made a commitment toward a more sustainable world and knowledge of conservation biology and ecology is one critical component to help us meet this global challenge.

Conservation biologists at ASU investigate the impact of humans on Earth's biodiversity and develop practical approaches to prevent the extinction of species and promote the sustainable use of biological resources. Some investigate the causes of ecosystem degradation and use ecological principles to reestablish desired conditions within a range of ecosystems, including rivers, wetlands, grasslands, urban landscapes and forests.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The curriculum prepares students for employment and provides a solid platform for students who wish to attend graduate school. The skills and concepts are preparation for careers with:

- governmental agencies such as the Environmental Protection Agency and state Game and Fish Departments
- K-12 education, colleges and universities

- nongovernmental organizations such as The Nature Conservancy and Conservation International
- private companies focused on environmental resources, environmental law or environmental economics

The concentration can provide training in specific skills that might be needed in these areas:

- animal and plant physiology, identification and ecology
- behavioral ecology and population biology
- community, ecosystem and landscape ecology
- conservation of endangered species
- ecology of different habitats, including cities, lakes, rivers and grasslands
- restoration of degraded ecosystems

Biological Sciences (Genetics, Cell & Developmental Biology), BS (LABSCGBS)

Campus: TEMPE

Program Description:

Genetics, cell and developmental biology are exciting, closely related areas of life science research. Genetics examines the blueprints of life (i.e., DNA sequence and gene expression), while cell biology studies the machinery of life enclosed within the boundaries of cells. Developmental biology uses genetics and cell biology to understand how genes and the environment interact to produce a whole new individual from a single cell, in addition to developmental changes that organisms undergo throughout life. Many diseases are understood through the study of genetics, cell biology and development.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Students in this concentration have a variety of career options. This degree provides the fundamental course work necessary for admission into medical, dental, veterinarian, pharmacy or graduate schools, or any of the health professions. There also are many employment opportunities that can be pursued upon receipt of the BS in this concentration; for example:

- animal breeder technician
- bioinformaticist
- biotechnologist
- cell culture specialist
- cloning technician
- crime lab technician
- cytotechnologist
- drug design technician
- food and drug inspector
- genetic counselor

- histologist
- in vitro fertilization technician
- plant improvement specialist
- teacher
- technical writer
- vaccine development technician

Students in this concentration learn critical thinking skills that can be applied to many scientific problems and professions, as well as to the challenges of daily life. We encourage students to engage in independent research projects or internship opportunities in order to develop a better sense of how science is done.

Chemistry, BA (LACHMBA)

Campus: TEMPE

Program Description:

Chemistry is a central science that connects the hard sciences, including physics, with the soft sciences, such as biology and medicine, and provides the fundamental knowledge needed to deal with many needs of society. Discoveries of new materials, processes and solutions to problems such as pollution control depend upon a thorough grounding in this area of science. Students in the BA in chemistry program have opportunities to explore interests in analytical, inorganic, organic and physical chemistry as well as biochemistry, geochemistry, solid-state and materials chemistry.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Computational Mathematical Sciences, BS (LACMSBS)

Campus: TEMPE**Program Description:**

Mathematics is a crucial component in many disciplines such as physics, life sciences, engineering, business, economics and social sciences. The BS in computational mathematical sciences is an interdisciplinary degree with components in mathematics, science and computing. A focus is placed on computational and numerical aspects of techniques used to solve a wide range of applied problems arising in practically any field of study.

A large component of the program involves understanding why and how computer algorithms work, as well as their limitations in terms of applicability and efficiency. This program is designed for students interested in computing and simulation of applied problems. It promotes creative skills and develops problem-solving tools needed in today's technological world.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Mathematics (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Many careers require a command of quantitative methods, and persons qualified in mathematics hold a favorable edge in competition for these job opportunities. Employment for math majors can be found in virtually every area:

- academia (high school or college teacher, university professor)
- applied math (scientific computing)
- biotechnology
- business (actuary for banks or insurance companies, operations research)
- computer technology
- engineering
- government (consultant, federal and state organizations)
- medicine

A bachelor's in computational mathematical sciences is perhaps the most versatile of all math degrees. Career profiles for those majoring in mathematics are listed on the Mathematical Association of America website at <http://www.maa.org/careers> (<http://www.maa.org/careers>).

Earth and Environmental Studies, BA (LAEESBA)

Campus: TEMPE

Program Description:

The BA in earth and environmental studies will provide a foundational understanding of the evolution of the earth system with an emphasis on the planetary context for sustainable human societies. The degree includes broad training in the physical sciences, especially process-oriented geosciences that focus on Earth's life-sustaining surface environment. Advanced courses focus on topics including:

- climate change
- Earth's water, energy and material resources
- impacts of land-use change on human civilization
- physical, chemical and biological process interactions that define Earth's evolution

The degree is designed as a liberal arts program with an emphasis on basic scientific literacy, not as a preparatory degree for graduate study in natural science. However, successful graduates will be well prepared for "green" careers in fields such as:

- education
- environmental consulting
- environmental reporting

- natural resource management
- public planning

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 170 - Precalculus/MAT 210/MAT 251

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Coconino Community College (<http://transfer.asu.edu/coconino>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Earth and environmental studies graduates are prepared for positions in:

- consultancy
- education
- governmental agencies
- industry
- nongovernmental organizations
- nonprofit organizations
- regulatory agencies
- utilities

They are also well prepared for admission to strong professional schools. Recent environmental awareness in business and government has created new employment opportunities (e.g., environmental coordinators, directors and managers). By developing a breadth of knowledge and experience, and by acquiring the skills to integrate various domains of knowledge, earth and environmental studies students prepare themselves for a variety of careers to help find solutions to tomorrow's environmental and sustainability challenges.

Earth and Space Exploration, BS (LASESBS)

Campus: TEMPE

Program Description:

The BS in earth and space exploration offers students an integrated education across earth sciences, planetary sciences, astrophysics and engineering. The degree incorporates:

- a learning community that includes science and engineering students
- a yearlong collaborative capstone senior exploration project
- strong quantitative preparation

This strong foundation in geosciences, astrophysics and exploration engineering will prepare students for key roles in:

- Earth resources and exploration
- environmental and geologic engineering

- space research and industry
- water and environmental use policy

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I/MAT 270

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Earth and Space Exploration (Astrobiology and Biogeosciences), BS (LASESABBS)

Campus: TEMPE

Program Description:

Astrobiology is the study of the origins, evolution, distribution and future of life in the universe. Biogeosciences focuses on the interaction of biological and geological processes on Earth at present and in the geologic past. These topics are closely related because the concepts of biogeoscience inform the study of planetary habitability and the search for habitable worlds. Therefore, the astrobiology and biogeoscience concentration is designed to offer students a strong foundation for exploring the interaction of geological and biological processes, how such interactions sustain life on Earth, and how they might operate on other planets. This scientific background is needed to contribute to the search for life on other planets as well as the exploration of extreme environments here on Earth. It also provides training in the interplay of forces that impact global change.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I/MAT 270

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Students in the astrobiology program will be well prepared for graduate studies in this field. Because astrobiology is increasingly the motivation for

NASA exploration missions, they will also be well suited for entry-level careers at NASA research centers. The degree also provides broad training across a range of science fields, giving students a strong background for careers in biomedical, environmental or sustainability areas.

Earth and Space Exploration (Astrophysics), BS (LASESABS)

Campus: TEMPE

Program Description:

The BS in earth and space exploration with a concentration in astrophysics is designed to offer students a fundamental grounding in astronomy and astrophysics, with exposure to the related fields of geology, planetary science and engineering. Students will emerge from this program with the skills to pursue a career in astrophysics, physics or related fields.

The rigorous course work includes a combination of physics courses taught in the School of Earth and Space Exploration and the Department of Physics. Students should emerge from the program with the ability to compete at the national level on standardized physics exams. The tools of astronomical discovery are increasingly dependent on technological advances, and students will be exposed to engineering principles. Through the capstone project in the senior year, students will gain valuable experience in translating science drivers into engineering specifics.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I/MAT 270

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Career opportunities include but are not limited to:

- aerospace engineer
- astrobiologist
- astronomer
- computer programmer
- data analyst
- instrumentation specialist
- planetary scientist
- science policy intern
- science writer
- teacher
- telescope operator

Career settings include:

- federal government
- K-12 schools
- manufacturing
- museums
- NASA facilities

- national laboratories
- NSF facilities
- observatories
- planetariums
- publishing
- space industries
- universities and colleges

Some of the listed careers may require advanced degrees or additional certifications. This program also provides suitable preparation for graduate study.

Earth and Space Exploration (Exploration Systems Design), BS (LASESESDBS)

Campus: TEMPE

Program Description:

The exploration system design concentration is designed to offer students a fundamental grounding in geology, physics and astrophysics, while providing the tools to enable them to design and build hardware and software to achieve specified scientific goals.

At the heart of the program is a sound grounding in the fundamentals of physics, mathematics and chemistry. Upon that foundation students explicitly tackle issues concerning hardware design, instrument assembly and, ultimately, how to knit these components together when conceiving the requirements needed for a mission or project destined for space or another planet.

As part of this degree, each student will have the opportunity to learn how projects and missions are designed and planned, starting with the scientific drivers and then defining engineering specifications. Each student will be expected to complete a senior project that takes a desired scientific measurement and realizes the technological solution to achieve the observation.

Earth and Space Exploration (Geological Sciences), BS (LASESGSBS)

Campus: TEMPE

Program Description:

Geological science is the study of the Earth and other planets with an emphasis on the processes that have shaped them since the origin of the solar system, including the co-evolution of life, oceans, atmosphere and the Earth's climate system, and the record of that evolution encoded in rocks, soil, ice and isotopes. The BS in earth and space exploration with a concentration in geological sciences educates students in the fundamentals of the geological sciences, providing a solid background in chemistry, mathematics and physics, as well as interdisciplinary training in engineering, astronomy and planetary science.

Students will gain a strong understanding of field methods, as well as modern computing, remote sensing and instrumentation, in order to effectively study the natural environment and Earth's resources. Graduates of the program will learn to apply their knowledge for the benefit of Arizona, the nation and society in general.

Additional Program Fee: Y

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Central Arizona College (<http://transfer.asu.edu/central-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Sample careers include:

- environmental geologist
- geological engineer
- geologist
- mining geologist
- petroleum geologist
- science policy intern
- science writer

Sample career settings include:

- environmental industry
- geotechnical industry
- mining and petroleum
- museums
- publishers

Some of the listed careers may require advanced degrees or additional certifications. This program also provides suitable preparation for graduate study.

Economics, BS (LAECNBS)

Campus: TEMPE

Program Description:

The BS program requires a strong core of economic theory, supplemented by mathematics and data analysis. In addition, students in the program choose from a variety of courses within the department as well as from the College of Liberal Arts and Sciences and the university. All students are encouraged to develop programs of study tailored to their individual needs and interests. The department's undergraduate program aims to provide students with the critical thinking and communication skills needed to succeed in business, government or graduate school. The mission of the Department of Economics at ASU is to provide the highest quality instruction to students, conduct cutting-edge research in economics, and provide leadership and service to our professional communities.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

English (Creative Writing), BA (LAENGCBA)

Campus: TEMPE

Program Description:

The BA in English offers concentrations in creative writing, linguistics or literature. Students in the creative writing concentration study and practice the art of writing poetry and fiction. The faculty in the Department of English offer courses in:

- comparative literature
- creative writing
- English as a second language
- English education
- English linguistics, literature and language
- rhetoric and composition

Students engage in community outreach and in such diverse cross-disciplinary offerings as discourses of cultural encounters, borderlands, intercultural studies and technologies.

English (Secondary Education), BA (LAENGSEBA)

Campus: TEMPE

Program Description:

The BA in English with a concentration in secondary education provides rigorous content in literature, composition, linguistics and secondary teaching pedagogy. This program provides extensive preparation for meeting the needs of all student populations, including attention to levels of academic performance and cultural and linguistic diversity. Students finish the program with Arizona Department of Education certification for middle and high school English language arts. Fingerprint clearance and a background check is required in the second year of the program.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Students graduating with a bachelor's in English with a concentration in secondary education will have tremendous opportunities for employment. With over one million students in a state ranked seventh in the nation in population growth, the need for certified teachers in Arizona is self-evident. Arizona State University provides more of those teachers than any other institution of higher education. Over the last 15 years ASU grads have had their pick of teaching jobs around the valley and in the state. After student teaching in school districts in the greater Phoenix area or on one of the 22 Native American nations, students are often hired to teach in the same school where they completed their internship. New teachers will continue to be in demand, because the predicted rate of population growth in AZ is still strong, and the retirement rate of teachers is increasing.

Family & Human Development, BS (LAFASBS)

Campus: ONLINE, TEMPE

Program Description:

The BS in family and human development offers course work on the development of individuals and families as they relate to their social worlds. The required concentration in family studies and child development provides a focus on the development of children, adults and families. Students take a wide variety of courses on contemporary issues related to human development, from infancy through the end of the life span, and the development, formation and dissolution of families. Students develop proficiency in written communication, computer skills, statistics and research methods.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with Family and Human Development (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Film (Film & Media Studies), BA (LAFMSBA)

Campus: ONLNE, TEMPE

Program Description:

The BA in film and media studies is an innovative program in the study of film, television, computer games, the Internet and screenwriting.

This program provides students with the analytic, creative and communication skills needed to interpret and create media texts, and it prepares students for opportunities in the entertainment industry as executives, producers and writers. The bachelor's will empower students to be critical consumers of media, creative industry professionals, and rigorous scholars of media texts and culture.

The film and media industries are undergoing constant transformation as a result of industry reorganization, globalization, new technologies and increasingly sophisticated forms of artistic expression and storytelling. This curriculum aims to put students on the forward edge of that change.

Additional Program Fee: N

French, BA (LAFREBA)

Campus: TEMPE

Program Description:

Students of the BA in French study the language, literature and culture of France and francophone countries. They gain a respectable measure of competence in reading, writing, oral and aural skills in the French language and are required to take a number of related courses on topics such as:

- art
- cultural theory
- French history and civilization
- government
- international business
- linguistics
- literary theory
- religion

To help students gain proficiency in the language, the French section has an active French Club, conversation hours and film screenings. In addition, the School of International Letters and Cultures offers faculty-directed summer study abroad programs in France and Quebec, Canada, and endorses partnership and exchange programs in francophone Africa, Canada and Europe.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Knowledge of multiple languages and intercultural competencies enhance any occupation and offer graduates many career opportunities.

Language-intensive careers include:

- area or regional specialist
- bilingual administrative professional
- elementary or secondary education teacher
- interpreter
- language, culture or English-as-a-second-language teacher
- language and literature professor
- language researcher
- linguist
- translator

Career fields using languages include:

- administration of nongovernmental organizations
- advertising or marketing
- airlines
- cultural advisement
- diplomatic and foreign service
- domestic or international business
- film, television or multimedia
- foreign correspondence or journalism
- government intelligence

- hotel and resort management
- international banking
- international education and study abroad
- international law
- medicine
- military
- ministry
- social work

Global Health, BA (LASSHBA)

Campus: TEMPE

Program Description:

The BA in global health is an interdisciplinary degree designed for students who seek a broad and flexible set of skills for understanding contemporary health challenges and thinking about how they might best be solved. "Global" is understood in the anthropological sense, meaning ways of understanding and addressing disease, health and well-being that can incorporate all cultures, places and time, and that can integrate knowledge of health's social, historical, biological and ecological dimensions.

The curriculum emphasizes the development of core skills in critical thinking, problem-solving and the importance of direct experience (research, study abroad, service learning and advocacy). The degree cultivates capacities to deal with any complex problem with social components: how to identify the critical issues, ask the right questions and create solutions that are meaningful and effective.

Students are required to participate in an approved global health study abroad program.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with Global Health (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Nationally and internationally, the health field provides enormous and varied career opportunities, and demand is high, and growing, for graduates with skills. The major supports the goals of those pursuing careers in academic research, teaching and health services in the following:

- departments of health
- government agencies
- international agencies (World Health Organization, Center for Disease Control, Global Health Council, World Bank, Inter-American Development Bank)
- nongovernmental organizations
- private sector
- universities

The degree also provides a broad intellectual base for those who plan advanced specialist health training in fields such as:

- dentistry
- medicine
- nursing
- pharmacy

In Arizona and elsewhere, there is a pressing need for professionals with appropriate skills to work in cross-cultural settings or with underserved populations (such as migrants, minorities and those living in poverty), and many of these jobs are directly or indirectly related to health.

Campus: TEMPE

Program Description:

The global studies program uses teaching, research and public policy activities to address some of the most challenging issues that include:

- built environments
- economic and social development
- global cities and urbanization
- global governance of quality of life issues such as health and climate change
- justice and human rights
- religious identities, rights and conflicts
- world culture

Within the program's intellectual framework, students are required to take courses in at least two areas of emphasis, providing them with a broad understanding of global processes and institutions. Areas of emphasis include:

- cultural perspectives and place
- economic development
- global governance
- urban systems and environment
- violence, conflict and human rights

Global studies faculty members orient their work toward solving global problems by drawing on their training in diverse disciplines, including:

- anthropology
- economics
- geography
- history
- law
- planning
- political science
- sociology

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

A global studies degree prepares students for professional and graduate training (including law, business and public policy) and provides professional training to future decision-makers in government, business and policy entities.

History, BA (LAHISBA)

Campus: ONLNE, TEMPE

Program Description:

The BA in history studies the growth and development of human society from cultural, economic, political and social perspectives. Courses are

designed to give students a breadth and depth of understanding about today's complex world and cover a wide range of geographic regions, including:

- Africa
- Asia
- Europe
- Latin America
- Middle East
- United States

Students choose a primary geographic concentration from:

- Asia
- Europe
- Latin America
- United States

Students considering the online campus bachelor's in history choose a primary concentration in either United States or world history. More information on our online program is available at <http://asuonline.asu.edu/degree-programs/undergraduate/bachelor-arts-history> (<http://asuonline.asu.edu/degree-programs/undergraduate/bachelor-arts-history>).

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with History (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(<http://asuonline.asu.edu/degree-programs/undergraduate/bachelor-arts-history>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Cochise College (<http://transfer.asu.edu/cochise>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Northland Pioneer College (<http://transfer.asu.edu/northland-pioneer>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

History majors seek jobs in:

- archival research
- business and industry
- education

- foreign service
- law enforcement
- communications
- museums
- public administration
- social services

History is an excellent foundation for graduate and professional studies in:

- business
- history
- justice studies
- law
- medicine
- public administration
- public history
- theology

A high-quality record as a history major indicates to employers and admissions officers that the student has acquired a respectable degree of literacy. It also demonstrates the student has the ability to conduct research, assimilate material, read critically and evaluate conflicting interpretations of events.

History (Secondary Education), BA (LAHISSEBA)

Campus: TEMPE

Program Description:

The secondary education concentration within the history BA offers a flexible degree to students of history who are considering a career in education. The concentration fully prepares students for teaching and certification. At the same time, the concentration provides all the disciplinary knowledge of a traditional history degree and prepares students for a variety of non-education careers. By developing strong critical reading, writing and research skills as well as skills in oral presentation, the concentration creates a solid foundation for graduate work in history, law or business.

Integrated Studies, BA (LAISTBA)

Campus: TEMPE

Program Description:

The integrated studies program is not a general studies major, but a unique and highly focused plan of study for gifted students whose academic interests are not served by the more traditional disciplinary studies. Superior students whose interests lie beyond the traditional departmental emphases have the opportunity to work with various faculty members in creating an individualized BA plan.

Students who elect an integrated studies major pursue a coherent course of study involving more than one department or college. Students majoring in integrated studies transcend the traditional disciplinary structure of the college to concentrate on individually designed areas of study not covered by the traditional major and minor.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Not available to freshmen. There is an additional application for this degree. Admissions consist of completion of 32 credit hours at ASU with a GPA of at least 3.25 and three letters of recommendation from ASU faculty members. For more information contact the assistant dean for academic affairs, Office of Student and Academic Programs, Fulton Center, Suite 110.

Career Opportunities:

An integrated studies major may or may not be professionally or vocationally oriented, depending on the area of concentration. All integrated studies majors, however, share with all other liberal arts and sciences students the goal of developing analytical and communicative abilities. The program combines breadth of learning with an appropriate depth in some focused area of inquiry. Integrated studies graduates are prepared to enter the work force or pursue graduate or professional studies at the completion of their undergraduate program.

International Letters & Cultures (Classics), BA (LASLCCBA)

Campus: TEMPE

Program Description:

The BA in international letters and cultures with a concentration in classics allows students to pursue a traditional degree in classics in a nontraditional way. Students are expected to acquire the traditional skills in the core ancient languages and history (with an emphasis in either ancient Greek or Latin language) and are also asked to seek courses in several departments across the university and tailor their degree to whatever aspect of classical scholarship appeals to them. This classics degree, therefore, encourages academic enterprise and intellectual and cultural diversity among individual students.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

College graduates with a degree in the classics have developed skills in research and the precise use and analysis of language that will serve them well in a wide range of fields. The interdisciplinary study of a culture very different from, and yet lying at the root of, the modern world also fosters a student's ability to view issues from many angles and think critically about them.

Some graduates go on to apply their knowledge of antiquity directly by teaching Latin and Greek in K-12 schools or by pursuing advanced degrees in the classics, history or the study of European cultures. Others use their knowledge of antiquity and ancient Greek as a foundation for work in Christian ministry, but most graduates apply their training in less direct ways. Because of the rhetorical and analytical skills that a classics degree imparts, it has long been a favored route to law school and politics. Journalists and other writers have found that close study of classical texts has

enriched and enlivened their writing, and business leaders prize a classicist's ability to solve documentary puzzles and conduct rigorous research on often ill-defined problems.

International Letters and Cultures, BA (LASLCBA)

Campus: TEMPE

Program Description:

The BA in international letters and cultures is a degree grounded in the advanced study of at least one foreign language. It is a more transcultural and transdisciplinary degree than a traditional languages and literature degree and is designed to encourage students to explore and even challenge the traditional boundaries of cultures, texts and disciplines. Students work with faculty and advisors to choose a program that requires study and research in a minimum of two cultures or disciplines (or both).

Students must meet with an advisor in the School of International Letters and Cultures to discuss this degree option - it is not recommended for first year students.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

This degree program will provide essential skills that employers in government, education and various business sectors are looking for, including:

- knowledge of other cultures
- proficiency in a language or languages other than English
- strong written and oral communication skills
- valuable critical thinking and analytical skills

International Letters and Cultures (Classical Civilization), BA (LASLCVBA)

Campus: TEMPE

Program Description:

The BA in international letters and cultures with a concentration in classical civilization is similar to the classics concentration, but with less emphasis on classical languages and more on the history and culture of the ancient Mediterranean world. Students seek out courses in several departments across the university for a broad education in the ancient world, and then can apply their studies directly to inform their understanding of modern literature and culture. This classics degree, therefore, encourages academic enterprise and intellectual and cultural diversity among individual students.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

The classical civilization concentration offers good preparation for a career in business, public service, K-12 education, government, and journalism.

Italian, BA (LAITABA)

Campus: TEMPE

Program Description:

Students in the BA in Italian study the language, literature and culture of Italy and gain a respectable measure of competence in reading, writing, oral and aural skills in the Italian language. They are required to take a number of related courses on topics such as:

- art
- government
- Italian history
- religion

A summer program in Florence, Italy, is available for students who wish to study the language and culture while living in the country. There are also study abroad programs in various cities in Italy during the academic year.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Knowledge of multiple languages and intercultural competencies enhance any occupation and offer graduates many career opportunities.

Language-intensive careers include:

- area or regional specialist

- bilingual administrative professional
- elementary or secondary education teacher
- interpreter
- language, culture or English-as-a-second-language teacher
- language and literature professor
- language researcher
- linguist
- translator

Career fields and occupations using languages include:

- administration of nongovernmental organizations
- advertising or marketing
- airlines
- cultural advisor
- diplomatic and foreign service agent
- domestic or international business
- film, television or multimedia
- foreign correspondent or journalist
- government intelligence
- hotel and resort management
- international banking
- international education and study abroad
- international law
- medicine
- military
- ministry
- social work

Additional education and certification may be required for some career paths.

Jewish Studies, BA (LAJSTBA)

Campus: TEMPE

Program Description:

The BA in Jewish studies offers an interdisciplinary, cross-cultural program of study in the humanities that examines ethical, religious and spiritual values while exploring a range of philosophical and political viewpoints and providing a balance to the study of contemporary science and technology. The major focuses on the study of Judaism, defined as the civilization of the Jews. It considers Jewish history and modern life, enhances the student's understanding of Jewish contributions to Western civilization, and facilitates enhanced cultural awareness and global perspective.

Students are required to complete course work in one thematic concentration selected from:

- history and society
- literature and culture
- religion and thought

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Students who receive a bachelor's in Jewish studies and pursue a career with one of the hundreds of United States companies that do business in Israel will have a competitive edge because of their familiarity with the Hebrew language and Jewish culture. Jewish studies graduates are also prepared to:

- attend rabbinical seminary in preparation for becoming a community rabbi or chaplain
- engage in world political and economic issues
- pursue advanced education in Jewish professional service fields
- pursue advanced degrees related to their area of interest in fields that may include:

- archaeology
- creative writing
- ethics
- film and media
- history
- journalism
- justice studies
- law
- philosophy
- political science
- religious studies

Justice Studies, BA (LAJUSBA)

Campus: TEMPE

Program Description:

The BA in justice studies is intended for undergraduate students with an interest in an interdisciplinary examination of the philosophical, historical and cultural dimensions of contemporary justice issues. Like the justice studies BS, the BA emphasizes five core areas of study:

- citizenship, migration and human rights
- globalization, sustainability and economic justice
- law, policy and social change
- media, technology and culture
- social identities and communities

Scholarship in these areas are aligned with finding just solutions to complex social problems locally and globally. Whereas the BS program provides undergraduate students with training in social science research methods and statistics, the BA program will provide an option for students desiring a more humanities-oriented framework from which to approach issues of justice. Students will develop an appreciation for studying:

- historical events
- language, rhetoric and cultural context as they relate to justice
- philosophical systems
- symbolic meanings

Additional Program Fee: N
Second Language Requirement: Y
First Required Math Course: MAT 142 - College Mathematics
Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with Justice Studies (MS)
Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (<https://students.asu.edu/freshman/requirements>)

Justice Studies, BS (LAJUSBS)

Campus: ONLNE, TEMPE

Program Description:

Justice and social inquiry is an innovative social science program that places social justice at the center of its scholarship and teaching. The BS in justice studies is designed for students interested in studying the multiple meanings and manifestations of justice and social change, locally and globally. Students receive interdisciplinary training in research methods and theory and take courses that provide them with a comprehensive understanding of substantive issues within five primary research areas. These five core substantive areas are:

- citizenship, migration and human rights
- globalization, sustainability and economic justice
- law, policy and social change
 - media, technology and culture
- social identities and communities

The goal is to enable students, faculty and graduates to use their skills to find solutions to complex social problems.

Mathematics, BA (LAMATBA)

Campus: TEMPE

Program Description:

The BA in mathematics is a broad, skills-based degree with applications in many career fields. This program provides a general background in mathematics, which leads to improved critical thinking and problem-solving skills. Mathematics is a crucial component in many disciplines such as engineering, life sciences, business, economics and social sciences. The BA requires six fewer credit hours within the major than the BS. However, unlike the BS, the BA program has a foreign language requirement.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 243 - Discrete Math Structures

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Cochise College (<http://transfer.asu.edu/cochise>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Many careers require a command of quantitative methods, and persons qualified in mathematics hold a favorable edge in competition for these job opportunities. Employment for math majors can be found in virtually every area, including:

- academia (high school or college teacher, university professor)
- applied math (scientific computing)
- biotechnology
- business (actuary for banks or insurance companies, operations research)
- computer technology
- engineering
- government (consultant, federal and state organizations)
- medicine

Career profiles for those majoring in mathematics are listed on the Mathematical Association of America website at <http://www.maa.org/careers/> (<http://www.maa.org/careers/>).

Graduates with a bachelor's in mathematics often pursue a master's degree in more applied fields. Graduates can also become certified to teach mathematics in secondary education.

Mathematics, BS (LAMATBS)

Campus: TEMPE

Program Description:

The BS in mathematics provides students with breadth and depth in advanced mathematics. Students completing this program will learn both theoretical and applied mathematical concepts, which lead to enhanced critical thinking and problem-solving skills. Mathematics is a crucial component in many disciplines, including the natural sciences, engineering, humanities, business, and social sciences. The BS includes more analytical and advanced courses than the BA. Many BS majors are dual majors in a related applied field, such as physics, computer science, philosophy, economics, finance or psychology.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Mathematics (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Many careers require a command of quantitative methods, and persons qualified in mathematics hold a favorable edge in competition for these job opportunities. Employment for math majors can be found in virtually every area, including:

- academia (high school or college teacher, university professor)
- applied math (scientific computing)
- biotechnology
- business (actuary for banks or insurance companies, operations research)
- computer technology
- engineering
- government (consultant, federal and state organizations)

- medicine

Career profiles for those majoring in mathematics are listed on the Mathematical Association of America website at <http://www.maa.org/careers> (<http://www.maa.org/careers>). This bachelor's degree is especially advantageous for competitive high school teaching positions or for those who plan to pursue a master's or doctorate in mathematics or related fields.

Mathematics (Statistics), BS (LAMATTBS)

Campus: TEMPE

Program Description:

The BS in mathematics with a concentration in statistics focuses on course work related to the statistical analysis of data and the evaluation of probabilistic models based on these data. Such models are heavily used in the banking and insurance industries, but also increasingly in more engineering fields where the effects of noise sometimes play a critical role in the behavior of a model. Many students in the statistics concentration are dual business or economics majors.

Mathematics is a crucial component in many disciplines where the need for quantification in the analysis of phenomena is strong, such as:

- business and economics
- engineering applications
- life sciences
- physics
- social sciences

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Employment opportunities for math majors can be found in virtually all sectors of industry, including:

- academia (high-school or college teacher, university professor)
- applied math (scientific computing)
 - biotechnology
- business (actuary for banks or insurance companies, operations research)
 - computer technology
- engineering
 - government (consultant, federal and state organizations)
- medicine

A course of study in statistics is especially useful in technical positions in finance, insurance and business, as well as in fields where data analysis plays an important role, such as genomics.

Graduates also have the option of becoming certified to teach mathematics in public middle schools and high schools. Many careers require a

command of quantitative methods, and persons qualified in mathematics hold a favorable edge in competition for job opportunities. Graduates with a bachelor's in mathematics often pursue a master's degree in more applied fields.

Microbiology, BS (LAMICBS)

Campus: TEMPE

Program Description:

In microbiology, students study the branch of biology involving the smallest of living things (bacteria, fungi, algae, protozoa and viruses) and immunology, the study of all aspects of the immune system. Despite their small size, microbes are fundamental to life on Earth and compose the majority of all life forms on Earth. In addition to their essential contributions to the natural world, microbes have been model experimental subjects due to their impact on human health and ease of manipulation in the laboratory. A significant portion of medical research employs microbiological and immunological methods in order to examine basic genetic and biological phenomena.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The microbiology degree program places emphasis on understanding microorganisms and their interrelationships with other organisms in nature and on the influence of microorganisms in biomedicine and biotechnology. Students in the microbiology degree program will study not only the background and current findings in the field of microbiology, but also acquire the critical thinking skills and the hands-on laboratory and field skills required to succeed in science. The major provides excellent training for premed, pre dental, pre vet and pre pharmacy students, as well as advanced study in microbiology and immunology.

The discipline of microbiology is diverse, and the job opportunities for microbiologists are enormous. Graduates with a degree in microbiology have opportunities for employment in:

- government
- hospitals
- industrial laboratories (food, dairy, chemical, pharmaceutical, environmental and biotechnology companies)
- public health laboratories
- research laboratories

Many students are also suitably prepared for admission into graduate school and these advanced studies:

- dental
- medical
- pharmacy
- veterinary

Molecular Biosciences/Biotechnology, BS (LAMBBBS)

Campus: TEMPE

Program Description:

Molecular biosciences and biotechnology encompasses many of the cutting-edge disciplines in life sciences research. Biotechnology is an exciting, rapidly growing field with major applications in agriculture ("green" biotechnology leading to improved crops or production of vaccines in plants), health care ("red" biotechnology leading to better therapeutics, diagnostics and personalized medicine) and industry ("white" biotechnology leading to sustainable production of energy, enzymes and chemicals).

Our molecular biosciences and biotechnology degree program is differentiated from the other life sciences majors by its focus on the interface between molecular biology and biotechnology. This interface drives many of our major advancements in knowledge and in applied research and development, like the development of next-generation biomedical products or biofuels. Other hallmarks of this program are the focus on hands-on research and the capstone course with both science and business or entrepreneurial components.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

The molecular biosciences and biotechnology degree program provides excellent background and training for a growing number of careers that incorporate this innovative area of the molecular life sciences. Independent research and courses with classroom plus lab components result in a solid basis of knowledge and practical expertise in biotechnology and the molecular biosciences providing many options for further education or for entering the workforce. After graduation, many molecular biosciences and biotechnology students enter graduate programs in a molecular biosciences and biotechnology related area, but a number of students also enroll in medical school or other health-related professional programs or in other advanced programs. Students also have the knowledge and technical skills to enter the biotechnology workforce in an area matching their expertise and interest.

The molecular biosciences and biotechnology program has a faculty mentoring program, which provides students with the opportunity to speak with faculty regarding career choices, selection and timeline of major courses and of independent research projects, and much more.

Philosophy, BA (LAPHIBA)

Campus: ONLNE, TEMPE

Program Description:

Philosophy is an important component of a liberal arts education. Students study texts that are central to our intellectual history and to contemporary thought. Course work includes the major subfields of philosophy such as metaphysics, epistemology and ethics as well as electives that connect philosophy to other areas of inquiry and that emphasize the social relevance of philosophy. A BA in philosophy from ASU offers a unique course of study with its focus on practical philosophy, those areas of philosophy concerned with the study of values and normative questions

about how one should act, and applied philosophy involving the application of theories developed within any of the subdisciplines of philosophy to everyday problems or phenomena. Because philosophy is not just a matter of learning about philosophical views but learning how to do philosophy, philosophy courses are important resources for developing reasoning and communication skills.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. Physics, BA (LAPHYBA)

Campus: TEMPE

Program Description:

Physics is concerned with the nature, structure and interactions of matter and radiation. The BA in physics provides a flexible and efficient option for students who are interested in a liberal arts degree with broad knowledge of physics. This degree program is ideal for students seeking to complete two degrees, with physics as the second degree. Students wishing to pursue a graduate degree in physics are advised to consider the BS in physics.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Central Arizona College (<http://transfer.asu.edu/central-az>)

Career Opportunities:

Students graduating with a BA degree in physics may pursue such careers as:

- health physicist
- lawyer
- medical doctor (with additional premedical course work)
- patent attorney
- physical therapist
- radiation physicist
- research or lab assistant
- science policy analyst
- secondary science teacher
- technology support analyst

Physics, BS (LAPHYBS)

Campus: TEMPE

Program Description:

Physics is concerned with the nature, structure and interactions of matter and radiation. The BS degree in physics provides students a thorough background in physics appropriate for further graduate study in physics, other sciences or engineering programs.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Nanoscience (PSM)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

The broad range of applicability of the principles of physics gives the physicist great flexibility in a choice of career or further education. About half of the graduates with a bachelor's degree in physics go on to graduate school in:

- astronomy
- engineering
- medicine

- physics

The other half go directly into employment in areas such as:

- education and business
- engineering
- materials science

Physics (Secondary Education), BS (LAPHYSEBS)

Campus: TEMPE

Program Description:

Physics is the cornerstone of STEM (science, technology, engineering, and mathematics) disciplines. At ASU and nationally, the production of new physics teachers is far below the need. The shortage of highly qualified physics teachers in every state is an ongoing problem. This degree concentration is designed to produce more and better qualified physics teachers.

The BS in physics with a concentration in secondary education provides rigorous training in physics and in education. Students who graduate from this program will be recommended by the Mary Lou Fulton Teachers College for certification by the State of Arizona.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Students graduating with a bachelor's in physics with a concentration in secondary education will have tremendous opportunities for employment. With more than one million students in a state ranked seventh in the nation in population growth, the need for certified teachers in Arizona is self-evident. Physics is the core STEM (science, technology, engineering, and mathematics) subject, yet less than half of in-service physics teachers have degrees in physics. The need for qualified physics teachers is among the highest of all subject areas. Over the last 15 years ASU grads have had their pick of teaching jobs around the valley and in the state. After student teaching in school districts in the greater Phoenix area or on one of the 22 Native American nations, students are often hired to teach in the same school where they completed their internship. As the predicted rate of population growth climbs and the number of teachers retiring increases, new teachers will continue to be in demand.

Psychology, BA (LAPGSBA)

Campus: TEMPE

Program Description:

Psychology is the study of behavior, emotions and the mental processes of individuals and groups, approached through a scientific methodology.

The BA in psychology focuses on appreciating and understanding the human condition from a scientific, psychological point of view. All psychology majors learn about statistics and research methods and use psychology content courses to develop skill sets in diverse settings, including the department's child development facilities or internships.

Students in the bachelor's program are exposed to theories and research addressing such fascinating topics as:

- How can people use social influence to increase compliance?
- How do children develop?
- How do people remember information over long periods of time?
- How do the mind and body react to stress?
- Which types of treatments are most effective for individuals who are depressed?

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Transfer applicants must meet university transfer admission requirements and have successfully completed the following courses (or their equivalents) with a grade of "C" or better: PSY 101 Introduction to Psychology, ENG 101 First-Year Composition, MAT 170 Precalculus. Transfer students should select an additional major when applying for admission. Related disciplines include: Anthropology, biology, sociology, and philosophy.

Readmission applicants must meet university readmission requirements, ASU cumulative GPA of 2.00 or better and have completed the following courses (or their equivalents) with a grade of C or better: PSY 101 Introduction to Psychology, ENG 101 First-Year Composition, MAT 170 Precalculus. Readmission students should select an additional major when applying for readmission. Related disciplines include: Anthropology, biology, sociology, and philosophy (College of Liberal Arts and Sciences, Tempe campus), OR applied psychology (BS) - Polytechnic campus, psychology (BA/BS) - West campus.

Students with fewer than 45 hours who are not admissible to a Psychology Department psychology major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social/behavioral sciences program in the School of Letters and Sciences.

Students with more than 45 hours who are not admissible to a Psychology Department psychology major and who did not select a second major or are not admissible to their second major choice will be contacted to select an appropriate major. Related disciplines include: Anthropology, biology, sociology, and philosophy, (College of Liberal Arts and Sciences, Tempe campus), OR applied psychology (BS) - Polytechnic campus, psychology (BA/BS) - West campus.

Current ASU students who wish to change their current major to a Psychology Department psychology major must have an ASU cumulative GPA of 2.00 or better and have completed the following courses (or their equivalents) with a grade of "C" or better: PSY 101 Introduction to Psychology, ENG 101 First-Year Composition, MAT 170 Precalculus.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

The bachelor's in psychology is designed to prepare students to work in a variety of settings that provide opportunities to apply concepts and principles of psychology. This degree provides students the opportunity to develop a broad range of highly marketable skills, including analytical skills, writing and public speaking skills, as well as teamwork and leadership skills. These skills lead to many career opportunities or graduate degrees in academic or clinical psychology, or such fields as counseling, social work, family therapy and law.

Psychology (Psychological Science), BS (LAPGSPSBS)

Campus: TEMPE

Program Description:

The BS in psychology with a concentration in psychological science emphasizes critical thinking and analytic and quantitative skills involved in psychological research to prepare students for graduate study. Students take advanced course work in statistics and receive hands-on research experience by working with faculty members in the laboratory. Students are exposed to theories and research addressing such topics as:

- How can people use social influence to increase compliance?
- How do children develop?
- How do people remember information over long periods of time?
- How do the mind and body react to stress?
- Which types of treatments are most effective for individuals who are depressed?

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences Or MAT 270 Calculus with Analytical Geometry

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The BS in psychology with a concentration in psychological science is open to students who have:

- Completed B.S. in psychology critical courses (ENG 101, ENG 102, MAT 251 or MAT 270, PSY 101, PSY 230, PSY 290) with a "C" or better.
- Earned at least 45 credit hours.
Earned at least an ASU 3.00 cumulative GPA.

Students must maintain at least a 3.00 cumulative GPA from admittance through graduation.

Career Opportunities:

The bachelor's in psychology with a concentration in psychological science emphasizes critical thinking and analytic and quantitative skills involved in psychological research to prepare students for graduate study in psychology to be researchers, teachers or clinicians. The bachelor's in psychology with a concentration in psychological science also leads to professional postgraduate programs in the fields of law and medicine.

Religious Studies, BA (LARELBA)

Campus: ONLNE, TEMPE

Program Description:

Students in the BA in religious studies program engage in the comparative, cross-cultural study of religions and cultures. Employing various disciplinary approaches, including the historical, sociological, anthropological and theological, the academic study of religion seeks to interpret, analyze and evaluate the nature and role of religion in the lives of individuals and societies.

The faculty of religious studies enjoy an excellent national reputation, and the degree is distinctive at ASU because the relatively small number of majors fosters undergraduate interaction with individual faculty.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Career Opportunities:

A degree in religious studies provides a strong liberal arts background and excellent training in critical thinking and writing. Such a liberal education, which includes the development of basic intellectual skills, has become increasingly attractive to employers seeking to hire recent college graduates. Students with a degree in religious studies are also well positioned to pursue graduate studies and professional programs, including:

- business
- divinity
- foreign service
- journalism
- law
- nonprofit management
- social work

Russian, BA (LARUSBA)

Campus: TEMPE

Program Description:

Students in the BA in Russian program study the language, literature and culture of Russia. They gain a respectable measure of reading, writing, oral and aural skills in the Russian language, engaging in:

- art and architecture
- government and politics
- history and sociology
- international business
- linguistics
- literary and cultural theory
- literature
- music and dance
- religion

The Russian language program also cooperates with other related units within the university (e.g., the Melikian Center for Russian, Eurasian and East European Studies) to offer a Russian and East European Studies Certificate (REESC).

Students may also take summer intensive courses in Macedonian, Albanian, Armenian, Serbo-Croatian, Tatar, Polish and a number of other Central Asian languages through the Critical Language Institute at ASU.

A study abroad program is offered in Macedonia, and advanced Russian language students may study in Moscow and St. Petersburg during the summer.

Additional Program Fee: N

Sociology, BS (LASOCBS)

Campus: ONLINE, TEMPE

Program Description:

Sociology is the study of social life, social change and the social causes and consequences of human behavior. The BS in sociology trains students in written communication, computer skills, statistics and research methods. It offers a wide variety of substantive courses on contemporary social issues ranging from crime to population trends, and courses on social institutions such as the family, education and religion.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with Sociology (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Spanish, BA (LASPABA)

Campus: ONLNE, TEMPE

Program Description:

Students in the BA in Spanish program have the opportunity to gain oral, reading, speaking and written proficiency in the language. The program offers three study options: the Spanish linguistics track, or the Spanish literature and culture track (for on-campus students only); and the Spanish BA Online (for ASU Online students only).

- The linguistics track provides an in-depth understanding of the Spanish language (syntax, morphology) and may include courses in translation (English to Spanish).
- The literature and culture track provides an in-depth understanding of the themes of Spanish, Latin American and Mexican American culture and literature and the contemporary issues throughout the Spanish-speaking world.
- The Spanish BA Online combines courses from both the linguistics track and the literature and culture track requirements.

Students are encouraged to contact a school advisor to discuss which option is best for them. ASU offers opportunities throughout the year to study in Spain, Mexico and other Spanish-speaking countries through study abroad and exchange programs. Students majoring in Spanish may also work toward a professional certificate in Spanish-to-English translation.

Transborder Chicana/o & Latina/o Studies (Media and Expressive Culture), BA (LATCLMBA)

Campus: TEMPE

Program Description:

Students choosing this concentration study the expressive cultures of Latina/o communities. The objective is to equip students with the critical skills to understand how expressive culture produces and reproduces historical and cultural narratives about Latina/o communities in general and Mexican and Chicana/o communities specifically. Students engage in the study of these narratives in transdisciplinary, humanities-based contexts,

including:

- history
- literature
- media
- performance
- visual art

The concentration exposes students to the contributions that transborder communities have made to the arts and humanities. Student outcomes include becoming critical consumers of media and expressive culture, and becoming conversant in the meaning-making processes and practices that shape and impact Latina/o populations.

Additional Program Fee: N

Transborder Chicana/o & Latina/o Studies (Transborder Community Development and Health), BA (LATCLTBA)

Campus: TEMPE

Program Description:

The BA in transborder Chicana/o and Latina/o studies is an interdisciplinary degree program with the central mission of providing a value-added environment that increases the direct participation of Chicana/o and Latina/o populations in the formation of human and capital development.

By developing a program of social science research and teaching with an emphasis on community development and health, students will concentrate on patterns of physical, mental and social health disparities closely associated with:

- differential health care
- learning how to develop appropriate mitigating applied programs
- limited access to insurance
- poverty
- reliance on emergency measures and facilities

Other major orientations with an applied focus will include:

- environmental home health
- vulnerable populations

Transborder Chicana/o & Latina/o Studies (US and Mexican Regional Immigration Policy & Economy), BA (LATCLUBA)

Campus: TEMPE

Program Description:

The BA in transborder Chicana/o and Latina/o studies is an interdisciplinary degree with the central mission of providing a value-added environment that increases the direct participation of Chicana/o and Latina/o populations in the formation of human and capital development. This concentration has a strong applied orientation and focuses on the regional and transnational policies and practices that have led to enormous demographic changes in the borderlands of the immediate U.S.-Mexico border region and the entire country.

Focus is on the manner in which economic and political decisions between Mexico and the United States, as well as other transnational policies concerning other countries, strongly influence:

- demographic transitions
- ecological conditions
- economic policy toward trade
- the nexus of relations that are established across borders at local, regional and transborder levels
- the present state of human migration

Urban Planning, BSP (ARPUPBSP)

Campus: TEMPE

Program Description:

Urban planners guide communities in making wise decisions about their use of land and resources. The BSP in the urban planning program offers students expertise in both the analysis and the synthesis of the physical, social, political and economic issues that shape urban and regional development. Students take courses that include:

- comprehensive planning, socioeconomic and environmental analysis
- computer and analytical methods
- planning law
- public-policy formulation and administration
- site planning
- urban design

Planning includes:

- computer and research methods
- environmental impact assessment
- geographic information systems
- housing
- landscape architecture and urban design
- planning and zoning law
- public policy formulation and administration
- transportation
- urban and development economics
- utilities

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with Urban & Environmental Planning (MUEP)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Nursing & Health Innovation, College of

Nursing, BSN (NUNURBSN)

Campus: DTPHX, EAC, ONLNE

Program Description:

Through a curriculum centered upon evidence-based practice, clinical reasoning, innovation, interprofessional communication and information technology, the BSN program prepares students to provide high quality professional nursing care.

The BSN may be earned through four different programs.

In the traditional pre-licensure clinical nursing program, students take prerequisite course work and then advance to the upper-division clinical nursing program. The clinical program may be completed in a year-round program in 16 months or an academic year program in 24 months. Directly admitted students must meet continuing eligibility criteria. Students not directly admitted may compete for remaining seats in the program.

The RN to BSN program is available to students who have earned an associate degree in nursing or a nursing diploma. This online program may be completed in 18 to 24 months. The pathway program for students from Arizona community colleges provides additional benefits.

The postbaccalaureate BSN is available to students who have earned a bachelor's in a discipline other than nursing. Students take nursing prerequisites and a 12-month upper-division clinical nursing program which begins in spring semesters only.

In the concurrent enrollment program, students are selected from the pool of MaricopaNursing students. Selected students will be enrolled in the MaricopaNursing program and ASU BSN iCourse courses concurrently. This program takes four to six terms to complete and includes summer sessions.

Arizona State University and Eastern Arizona College have established a partnership that will allow you to complete your associate degree at EAC and then pursue this bachelor's degree through classes delivered on the EAC Thatcher campus. Visit <https://transfer.asu.edu/eac> (<https://transfer.asu.edu/eac>) for more information about ASU degrees offered at Eastern Arizona College Thatcher campus.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Traditional Pre-licensure Clinical Nursing Program Concentration

This program is only offered at the Downtown Phoenix campus.

Applicants who do not have an associate degree in nursing or a nursing diploma and do not have their R.N. license will apply to the Traditional Pre-licensure Clinical Nursing Program and will be reviewed by the Nursing Admissions Committee on an individual basis. Students must meet the following minimum criteria to be considered by the committee:

Freshman resident: 3.00 ABOR GPA or 500 GED or in the top 25 percent of high school graduating class and either a 1040 SAT or 22 ACT score.

Freshmen non-resident: 3.00 ABOR GPA or 500 GED or in the top 25 percent of high school graduating class and either an 1110 SAT or 24 ACT score.

Transfer resident and non-resident: cumulative transfer GPA of 3.50.

Admission is competitive so early application is recommended.

R.N.-B.S.N. Concentration

This program is only offered as an online option.

Applicants must meet university minimum admission requirements.

Students who have not signed an Arizona community college pathway agreement need 1) a 2.50 GPA, and 2) ENG 101, ENG 102, and a statistic course. For additional requirements, please contact the college.

Students who have signed the community college pathway agreement need 1) a 2.50 GPA in the following courses: BIO 201, BIO 202, CHM 101, ENG 101, ENG 102, MIC 205, PGS 101 or CDE 232, and 2) a statistic course. For additional requirements, please see contact the college.

Additional information available at <http://asuonline.asu.edu/nursingonline> (<http://asuonline.asu.edu/nursingonline>).

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. Public Programs, College of

Criminal Justice & Criminology, BS (PPCRIMJBS)

Campus: DTPHX, CALHC, ONLNE

Program Description:

The study of criminal justice and criminology involves analysis of the theories, laws, policies and practices associated with understanding criminal and delinquent behavior, the law and the response to violations of law. The program provides an interdisciplinary social science perspective to the study of crime and criminal justice. The focus is on:

- criminal justice policies and practices
- the nature of crime and criminological theory
- various components of the criminal justice system, including law enforcement, corrections and the courts

Students receive a solid foundation of course work that provides the content and analytical and communication skills required for working in complex criminal justice occupations.

The program is offered from the Downtown Phoenix campus, and while most criminal justice and criminology courses are offered on that campus, students may also take criminal justice and criminology courses at the Tempe campus and online.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Nonprofit Leadership & Management, BS (PPNLMBS)

Campus: DTPHX

Program Description:

Through the BS in nonprofit leadership and management program, students are empowered to become successful professionals who work to advance the quality of life in communities. The nonprofit sector in the United States is unique in form and function. This sector includes institutions and individuals situated between government, public, business and commerce sectors. It is this sector, with more than 1.6 million organizations in the U.S., that employs more people than the finance industry, including insurance and real estate, combined.

Philanthropy (voluntary action for the public good) is a hallmark of the nonprofit sector as individuals give their time, money and know-how to causes about which they care. Students in the nonprofit leadership and management program learn about the nonprofit sector through curriculum instruction and field experience. The required internship component of the program leads students to professional opportunities within the nonprofit sector. Within the undergraduate degree requirements, students may also choose to pursue the Certified Nonprofit Professional credential through ASU's affiliation with the Nonprofit Leadership Alliance (formerly American Humanics, Inc.). For more information, access the school's website.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Academic Catalog Archive 2013-2014 1044

Central Arizona College (<http://transfer.asu.edu/central-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Depending on their interests, graduates seek work in various areas of the nonprofit sector. They find employment in diverse settings that include a wide range of missions, including arts and culture, environmental, health, youth development, etc. Some graduates work for local, grassroots, direct service nonprofits, for grantmaking foundations, and many work in affiliates of well-known national organizations such as:

- American Red Cross
- America's Second Harvest
- Humane Society of the United States
- March of Dimes
- National Urban League
- United Way
- youth-serving entities such as Big Brothers Big Sisters, Boys and Girls Clubs, Boy Scouts of America, Girl Scouts of the USA, Camp Fire USA and the YMCA of the USA

Increasing opportunities in the nonprofit sector include careers across the spectrum of community issues such as the arts, environment, health care and others. Typical positions include roles as:

- field executives
- fund development directors
- program directors
- program officers for grantmaking organizations
- volunteer program managers

Parks & Recreation Management, BS (PPPRMBS)

Campus: DTPHX

Program Description:

The BS in parks and recreation management provides an interdisciplinary education in the management of parks, protected areas, community-based recreation services and special-event management. The parks and recreation field emerged from the youth development, recreation and park movements of the late 19th century. Students learn to integrate the managerial, natural and social sciences, to make informed decisions for recreation service delivery.

The curriculum of classroom instruction and field experiences covers:

- communication
- history
- inclusive services
- management
- parks and recreation policy
- planning
- programming

The required internship component of the program allows students to gain practical experience in the parks and recreation professions. The bachelor's in parks and recreation management prepares students for professional positions in a variety of public, private and nonprofit organizations. The National Recreation and Park Association accredits this degree program. There are three areas of emphasis:

- community recreation services management
- natural resource recreation management
- special event management

Students interested in the BS in parks and recreation management may also be interested in the school's therapeutic recreation program. See the school website for details.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with Recreation and Tourism Studies (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

This degree program prepares students for professional positions in a variety of public, private and nonprofit organizations. Graduates are employed in a variety of settings in Arizona, nationally and abroad. Graduates find employment in such diverse settings as:

- armed forces recreation
- city park and recreation departments
- county and state park agencies
- federal natural resource agencies
- hospitals and care facilities
- nonprofit recreation programs
- private and commercial recreation facilities
- special event management
- sport venues
- youth agencies

In such settings, graduates design, develop and manage services that address the recreational needs of a particular clientele.

Public Service & Public Policy, BS (PPPAFBS)

Campus: DTPHX

Program Description:

The BS in public service and public policy prepares students for work in government at all levels and nonprofit organizations, through comprehensive coverage of topics in public policy, public leadership and management, and urban studies.

Students discover the challenges of management and learn how to lead a public organization and understand the process of policy development. This program examines the public sector and addresses, in a practical way, the challenges facing the public. The program is unique, because it enables students to study public service, policy and administration with a professional focus.

Students select one of the following concentration areas to supplement their core courses:

- American Indian studies
- business
- criminology
 - nonprofit leadership and management
- parks and recreation management
- public leadership and management
 - public policy
- science and technology
- sustainability
- urban studies

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with Public Administration (MPA) - Downtown Phoenix

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

This degree provides students with the knowledge and skills to transform government and policy at all levels. The public service sector offers sustainable, exciting and fulfilling career options. Upon graduation, students will be empowered to use knowledge of the public sector as a catalyst to change the world. By understanding the challenges facing government and being well-versed in the development of multiple, useful and realistic solutions, students will contribute to the development of local, national and global communities.

A bachelor's in public service and public policy prepares students for entry- and mid-level supervisory and managerial positions in city, county, state and federal agencies. For those who already have work experience, the degree provides further opportunity for promotion.

Tourism Development & Management, BS (PPTDMBS)

Campus: DTPHX

Program Description:

Through the BS in tourism development and management, students acquire the planning and management skills related to the growth and development of tourism throughout the world. The curriculum prepares students for employment across a wide variety of occupations in the rapidly expanding travel and tourism industry, while taking full advantage of its strong connections with the professional tourism community in Phoenix.

The required internship component of the program allows students to gain practical experiences leading to professional positions in various travel, tourism and related fields. Exposure to the practices of heritage tourism, sustainable tourism, resort management and meeting and convention planning prepares students for successful careers in the travel and tourism industry. While pursuing the bachelor's in tourism development and management, a student may also choose to complete a certificate in convention sales and meeting planning. Additionally, students have the opportunity to participate in a study abroad program.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The travel and tourism industry is the largest employer in the world and the second largest in Arizona. Based upon interests, graduates can seek work in the public, nonprofit or private and commercial sectors. Graduates find employment in such diverse settings as resorts, meeting planning, convention and visitor bureaus, tour operations and commercial recreation businesses. In such settings, graduates design, develop and manage services that address the needs of a particular clientele. The metropolitan Phoenix area is a major hub of tourism in the southwestern U.S. and has experienced rapid growth in:

- business and corporate travel
- meetings and conventions
- resorts and hotels
- sports tourism
- state and national parks
- the air transportation sector
- the gaming and casino sectors

Tourism Development & Management (Resort and Accommodations Leadership), BS (PPTDMRBS)

Campus: DTPHX

Program Description:

The concentration in resort and accommodations leadership will attract students and professionals who have interests in the diverse areas of knowledge needed within the accommodations sector, such as:

- career opportunities
- ecological, social and economic sustainability practices in the industry
- the interrelated functions within departments of the lodging and food and beverage industries
- management and leadership specifically for the accommodations sector
- meeting the expectations of hotel and resort guests

A concentration in resort and accommodations leadership will provide students an academic option to study in-depth the resort and accommodations system and gain knowledge of the importance of the business relationships between suppliers, intermediaries and vendors, guests and the public and private sectors. The concentration will prepare students to serve our community by developing the skills, knowledge, techniques and capabilities needed for addressing major issues related to resorts and other tourism accommodations.

Tourism Development and Management (Sustainable Tourism), BS (PPTDMSBS)

Campus: DTPHX

Program Description:

The tourism development and management major provides students with the theoretical understanding necessary to maneuver the complexities of one of the world's largest industries. A concentration in sustainable tourism allows majors to hone their understanding of the key concepts of sustainability and how these can be applied to tourism destinations and development. Students will learn the dominant theories and language that make up sustainability science and the skills necessary to measure, create and implement sustainability policies in tourism destinations, from the planning to the management stage of development. Students will take courses offered by the School of Sustainability in addition to courses in the School of Community Resources and Development, guaranteeing a strong foundation in the basic theories of the growing field of sustainability while applying these newfound skills to tourism development and management.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

The area of sustainable tourism is becoming increasingly important. Many tourism businesses are hiring sustainability coordinators, including hotels, airlines, convention and visitor bureaus and large attractions. Tour companies, such as those that implement ecotourism and volunteer tourism experiences, are especially interested in employees with a strong sustainable tourism background. Numerous sustainable tourism nonprofit organizations have emerged in recent years, and many government-related tourism organizations also hire those with a strong sustainability focus. Consulting opportunities are available to assist tourism businesses in developing sustainable practices as well.

Urban & Metropolitan Studies, BA (PPURBBA)

Campus: DTPHX

Program Description:

Located in the heart of downtown Phoenix, the urban and metropolitan studies program is for students who have a yearning to study and understand urban theory, in order to effectively address the challenges of rapid growth, along with other contemporary urban issues.

Students discover what makes the city tick - and the city is their classroom. They examine challenges and solutions by researching history, society, culture, economy and politics in order to understand urban theory. They use that knowledge to get involved in their communities, giving them an outlet through which they can experience practical ways of solving complex problems faced by metropolitan regions. Our students are invested in their neighborhoods. Many of them live and work downtown. In the urban and metropolitan studies program, they learn how to improve urban health and well-being, often training themselves to be the future leaders of our urban environments. Our students don't stop there; others focus on making a wide variety of other contributions to society, studying the role of arts and culture, business and property development, revitalization and community-building in the life of the region.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

The urban and metropolitan studies program prepares students for work in a wide range of fields. The interdisciplinary approach of the program allows graduates to successfully enter fields as diverse as:

- architecture and finance
- city management and policy
- city planning and law
- nonprofit management
- real estate development

Graduates from this program work in public, private and not-for-profit fields dedicated to improving urban life. Many graduates also pursue advanced degrees in:

- arts administration
- business
- education
- historic preservation
- journalism
- law
- public administration
- public policy
- real estate development
- urban planning and other fields

Sustainability, School of

Sustainability, BA (SUSUSTBA)

Campus: TEMPE

Program Description:

The BA in sustainability introduces students to the concept of sustainability in the context of real-world problems, exploring the interaction of environmental, economic and social systems. Although the program is transdisciplinary, the bachelor's in sustainability is best suited to those inclined toward social sciences, planning or related fields.

Students pursuing a bachelor's in sustainability can pursue the following tracks:

- international development and sustainability
- policy and governance in sustainable systems
- society and sustainability
- sustainable urban dynamics

Students will gain a general understanding of sustainability issues at the local, regional and global levels. They will be adaptable, capable of learning and communicating across a number of disciplines, and have a strong orientation toward problem solving.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: SOS 101 - Intro Appl Math Life & Soc Sci

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The School of Sustainability has higher admission requirements. Applicants must select a second choice for their major on the application. Students who are not admitted to the School of Sustainability and who did not select a second major or are not admissible to the second major choice will be admitted to the exploratory social and behavioral sciences program within the School of Letters and Sciences. Students with more than 45 transfer hours who are not admissible to the School of Letters and Sciences will be contacted to select an appropriate major.

Freshman applicants must meet the following standards:

Have a minimum high school ABOR GPA of 3.30; AND

A high school class rank in the top 15 percent of class; OR

An SAT combined score of 1140 or higher; OR

An ACT combined score of 25 or higher.

No high school math competency deficiency.

Transfer students (with 12 or more transfer hours after high school graduation) are required to have a cumulative transfer GPA of 3.30 or higher.

ASU students who would like to change their major to sustainability are required to have a cumulative ASU GPA of 3.30 or higher (based on at least 12 credit hours).

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

School of Sustainability graduates are prepared for admission into other prestigious universities. They may also assume positions in:

- consultancy
- governmental agencies
- industry
- nongovernmental organizations
- nonprofits
- regulatory agencies
- utilities

Recent interest in sustainability within business and government has created new employment opportunities (e.g., sustainability coordinators, directors and managers). By engaging a breadth of knowledge and experience, and by acquiring the skills to integrate various domains of knowledge, sustainability students prepare themselves for a variety of careers, to help find solutions to sustainability challenges.

Teachers College, Mary Lou Fulton

Early Childhood and Early Childhood Special Education, BAE (TEECSEBAE)

Campus: POLY, TEMPE, WEST

Program Description:

The BAE for the early childhood and early childhood special education program is offered at the Tempe campus. This teacher preparation program prepares students for certification in early childhood education (birth to grade 3) and early childhood special education (birth to age 5). This dual certification program is the only undergraduate degree of its kind in the state.

This is a premier program taught by nationally renowned faculty members who emphasize community connectedness, technology integration, policy analysis and advocacy related to young children with or without disabilities or developmental delays.

The program teaches child development, best practices in early childhood education, and the skills to assess, monitor, and report the progress of children with and without disabilities. It provides techniques and approaches to involve family members in the growth and development of the young child.

Each semester during the iTeachAZ professional program, students engage in field experiences and student teaching that prepare them for work in early childhood and early childhood special education settings. Course work is aligned with field experiences, including a senior year residency collaborative student teaching experience that begins with an early childhood apprenticeship in a PreK-3 classroom, as well as an inclusive special education setting.

Additional Program Fee: N

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

There is a strong demand for early childhood special education teachers in Arizona. A high percentage of students from this program receive job offers during their senior year residency. Many graduates with a degree in early childhood special education hold leadership positions in Head Start, private nonprofit and private for-profit center-based programs and public school early childhood environments. Early childhood certification or endorsement is required to teach kindergarten in Arizona.

Education Exploratory, (TEEDUEXPL)

Campus: DTPHX, POLY, TEMPE, WEST

Program Description:

Students in the education exploratory track have the unique opportunity to explore different certification areas prior to selecting one of the 22 majors within the Teachers College. Students on this track will be exposed to all programs and certification areas during their TEL 101 The Teachers College Experience course and through specific events scheduled throughout freshman year. Students will be able to make a more informed decision about the grade level or subject they want to teach while the exploratory track keeps them on track to graduate from any of the BAE programs. This track will not lead to a degree and students will need to declare a major after completion of 30 credits.

Educational Studies, BAE (EDSLSTBAE)

Campus: DTPHX, POLY, TEMPE, WEST

Program Description:

The BAE for educational studies prepares students to work with children and youth outside of traditional classrooms.

Graduates will gain a versatile degree qualifying them for a variety of career paths working with children and youth in nonprofit or government organizations, private educational or recreational settings, or as entrepreneurs in children and youth oriented fields. This degree is also a good fit for students wanting to pursue graduate degrees in education or education-related fields. The educational studies program does not lead to teacher certification.

The program provides a strong foundation in education by examining current issues in education, educational psychology, child and adolescent development, and evidence-based practices. Students will choose an area of focus such as environmental science, special education or technology. The focus area will be augmented by service learning experiences in local agencies and programs. Students complete four semesters of service learning in areas of interest.

Elementary Education, BAE (TEEEDBAE)

Campus: DTPHX, POLY, TEMPE, WEST

Program Description:

The BAE in elementary education in the Mary Lou Fulton Teachers College is available at the Downtown, Polytechnic, Tempe and West campuses. This program leads to elementary education certification in the state of Arizona (grades 1-8).

This program offers students a firm grounding in academic content with current research and best practices, accompanied by real-world classroom experiences. Faculty members in the program are nationally recognized in their field of expertise.

During junior year, students begin the iTeachAZ professional program where course work is aligned with field experience in a local school. iTeachAZ is the only program of its kind in Arizona providing students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive hands-on student teaching model of teacher preparation creates highly sought after graduates.

Students graduate from the program with extensive experience in integrating technology into teaching, and a full Structured English Immersion endorsement.

Elementary Education (Bilingual Education/English as a Second Language), BAE (TEDLLBAE)

Campus: DTPHX, POLY, TEMPE, WEST**Program Description:**

The BAE for elementary education, English-as-a-second-language/bilingual education program, is offered at the Downtown campus. This program gives students a firm grounding in academic content with current research and best practices, accompanied by real-world classroom experiences.

Students can expect to learn principles of language, foundations of Structured English Immersion, global awareness and diversity in families and communities in multicultural settings as well as the traditional teacher subjects such as math, language arts, computer literacy and natural science for students who are English language learners.

Students will also engage in field experiences and internships that align with their ESL/BLE program. A senior-year student teaching residency provides the culminating experience for this program. Students are placed in partner schools' grades 1-8 classrooms that have high concentrations of English language learners.

The program requires six credit hours of a foreign language or its equivalent and enables students to work with second-language learners.

Graduates are recommended for grades 1-8 elementary teacher certification. Those desiring to teach in a public school must pass the Arizona Educator Proficiency Assessments in both content area and professional knowledge to be certified to teach in Arizona.

Secondary Education (Biological Sciences), BAE (TEBIOBAE)

Campus: POLY, TEMPE, WEST

Program Description:

The BAE in secondary education program at the Mary Lou Fulton Teachers College prepares educators to teach youth enrolled in seventh through 12th grades. While teacher candidates develop a strong theoretical background in their specific content area, the program focuses on developing the requisite teaching knowledge and abilities to successfully teach middle or high school students.

In order to integrate teacher preparation with the secondary education requirements for an academic specialization, the college collaborates with academic departments across the university. The program offers the following secondary education certification areas: art, biological sciences, business, chemistry, dance, earth and space sciences, economics, English, French, geography, German, history, Japanese, mathematics, natural sciences, physical education, physics, political science, social studies and Spanish.

Clinical experiences and student teaching are required in secondary schools with student teaching in a content area serving as a culminating experience. Teacher candidates are placed with experienced content area mentor teachers in partner schools for both clinical experiences and student teaching.

Graduates of the program must pass the Arizona Educator Proficiency Assessments in selected subject areas knowledge test and the National Evaluation Series Assessment for professional knowledge to be certified in the state of Arizona.

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates from secondary education are recommended for certification in an approved area for grades seven through 12. The demand for well-prepared secondary teachers is strong, particularly in the areas of math and science. Job opportunities in a fast growing state such as Arizona are numerous. Graduates with a degree in secondary education work in:

- charter schools
- private school settings
- public schools

Secondary Education (Business), BAE (EDBUSBAE)

Campus: POLY, TEMPE, WEST

Program Description:

The BAE in secondary education program at the Mary Lou Fulton Teachers College prepares educators to teach youth enrolled in seventh through 12th grades. While teacher candidates develop a strong theoretical background in their specific content areas, the program focuses on developing the requisite teaching knowledge and abilities to successfully teach middle or high school students.

In order to integrate teacher preparation with the secondary education requirements for an academic specialization, the college collaborates with academic departments across the university. The program offers the following secondary education certification areas: art, biological sciences, business, chemistry, dance, earth and space sciences, economics, English, French, geography, German, history, Japanese, mathematics, natural sciences, physical education, physics, political science, social studies and Spanish.

Clinical experiences and student teaching are required in secondary schools, with student teaching in a content area serving as a culminating experience. Teacher candidates are placed with experienced content area mentor teachers in partner schools for both clinical experiences and student teaching.

Graduates of the program must pass the Arizona Educator Proficiency Assessments in selected subject areas knowledge test and the National Evaluation Series Assessment for professional knowledge to be certified in the state of Arizona.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Secondary Education (Spanish), BAE (TESPABAE)

Campus: POLY, TEMPE, WEST

Program Description:

The BAE in secondary education program at the Mary Lou Fulton Teachers College prepares educators to teach youth enrolled in seventh through 12th grades. While teacher candidates develop a strong theoretical background in their specific content areas, the program focuses on developing the requisite teaching knowledge and abilities to successfully teach middle or high school students.

In order to integrate teacher preparation with the secondary education requirements for an academic specialization, the college collaborates with academic departments across the university. The program offers the following secondary education certification areas: art, biological sciences, business, chemistry, dance, earth and space sciences, economics, English, French, geography, German, history, Japanese, mathematics, natural sciences, physical education, physics, political science, social studies and Spanish.

Clinical experiences and student teaching are required in secondary schools, with student teaching in a content area serving as a culminating experience. Teacher candidates are placed with experienced content area mentor teachers in partner schools for both clinical experiences and student teaching.

Graduates of the program must pass the Arizona Educator Proficiency Assessments in selected subject areas knowledge test and the National Evaluation Series Assessment for professional knowledge to be certified in the state of Arizona.

Additional Program Fee: N

Special Education and Elementary Education, BAE (TESPEBAE)

Campus: DTPHX, POLY, TEMPE, WEST

Program Description:

The BAE in special education and elementary education dual program leads to teacher certificates in K-12 cross-categorical special education and 1-8 elementary education. The dual program prepares students to work with typical children and youth and those with mild to moderate disabilities in inclusive settings. Additionally, students receive a full structured English immersion endorsement to teach students that are learning English. The dual program is designed to give students grounding in academic content with current research and evidence-based practices in literacy, math, sciences, health and social studies; integration of technology into all areas; and experience in real-world classrooms through the iTeachAZ program. Students become engaged in clinical experiences and student teaching that align with their special education and elementary education academic program.

Graduates of the program must pass the National Evaluation Series assessment of professional knowledge for elementary education and the special education subject test to be certified to teach in Arizona.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

National and state studies report the projected need in the next five to 10 years will be high for special education teachers. Graduates of the program will be eligible to teach in elementary education grades 1-8 and K-12 for the spectrum of high incidence disabilities:

- emotional disorders
- intellectual disabilities (mental retardation)
- orthopedic impairments
- other health impairments
- specific learning disabilities

Graduates can teach in a variety of inclusive educational settings, including public, charter and private schools, as well as nontraditional settings (juvenile system, children's hospital, etc.).

Technology & Innovation, College of

Aeronautical Management Technology (Air Transportation Management), BS (TSAMTMBS)

Campus: POLY

Program Description:

The air transportation management concentration, under the BS in aeronautical management technology, prepares students for leadership positions in the on-ground areas of the aviation industry, including management of air carriers or airports, airport planning or general aviation operations.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Aeronautical Management Technology (Professional Flight), BS (TSAMTFBS)

Campus: POLY

Program Description:

Students in the professional flight concentration learn to fly in an academic environment that prepares graduates for careers as professional pilots. Flight training is offered by a flight provider in aircraft with state-of-the-art avionics using iPads as electronic flight bags. Students may take advantage of pathway agreements for guaranteed interviews with regional airline companies.

Arizona's clear skies offer the best flying environment in the country. Students have access to state-of-the-art simulators, including two full motion-based regional jet flight simulators and a regional jet flight simulation training device. Other facilities, like the high altitude simulation chamber, provide students with educational opportunities unique among collegiate aviation programs.

This program is for students who are seriously interested in becoming professional airline pilots. Graduates are prepared to assume responsibilities in a wide variety of technically related areas within professional aviation flight operations.

The Aviation Accreditation Board International accredits this program and the Federal Aviation Administration certifies flight instruction.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: This major has additional admission requirements including Federal Aviation Administration requirements. Students will be admitted to the pre-professional status and then complete additional requirements for admission to the professional program. See <http://eastair.poly.asu.edu/> (<http://eastair.poly.asu.edu/>) for more information.

Career Opportunities:

The professional flight concentration offers students private pilot, commercial pilot and flight instructor certificates, as well as instrument pilot, instrument instructor and multiengine pilot ratings. With these flight qualifications and the technically based bachelor's, the graduate has a wide variety of career opportunities, including flight crew service on commercial and business aircraft.

Air Traffic Management, BS (TSATMBS)

Campus: POLY

Program Description:

The BS in air traffic management provides a technical foundation in air traffic control procedures and operations for students interested in becoming air traffic controllers who ensure safe, orderly and expeditious flow of aircraft traffic on the ground and in the air. Students gain a strong background in aircraft operations, management skills and business principles through course work specific to air traffic control.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: This major has additional admission requirements including Federal Aviation Administration requirements. Students who do not have US citizenship status cannot be admitted to the program. Students will be admitted to the pre-professional status and then complete additional requirements for admission to the professional program. See www.poly.asu.edu/aviation (<https://technology.asu.edu/index.php?q=aviation>) for more information.

Career Opportunities:

The number of controllers projected to be hired by the Federal Aviation Administration through 2021 is 11,747. Increases in the volume of air traffic will require more controllers to handle the additional work. New computerized systems will assist controllers by automatically making many of the routine decisions. This will allow controllers to handle more traffic, thus increasing their productivity. To prepare for this challenge, students receive training in the methodologies and technologies that are currently being developed for the next generation air traffic control systems. Despite the

obvious demand for new controllers in the immediate future, competition to get into the FAA-approved training programs is expected to remain intense, as there generally are many more applicants than there are openings. Graduates who have met all of the FAA requirements will be considered for employment.

Applied Computer Science, BS (TSACSBBS)

Campus: POLY

Program Description:

The BS in applied computer science provides students with an education that targets the computing profession. Students will learn to use mathematics, science and economics, along with technological knowledge and skill in the application of programming languages and software processes, to design, analyze, implement and test software systems and applications. The program is problem and project based, utilizing the languages, tools and methods of computing best practices. Graduates gain significant exposure to team-based software development through industry-driven projects.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Applied Science, BAS (TSAPSBAS)

Campus: POLY

Program Description:

The BAS program is a flexible degree plan designed specifically for students who hold an AAS from an accredited community college. This major combines the technical experience gained in the student's associates degree program with a broader educational experience in management, leadership, critical thinking and communications. Students in the BAS program select one of eight offered concentrations:

- aviation management technology
- electronic and energy systems
- emergency management
- graphic information technology
- internet and web development
- manufacturing technology and management
- operations management technology

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

480-727-1874

Applied Science (Electronic Energy Systems), BAS (TSEESBAS)

Campus: POLY

Program Description:

The BAS program is a flexible degree designed specifically for students who have earned an AAS from a regionally accredited institution.

The electronic and energy systems concentration serves students with an electronics background via three paths or emphasis areas: alternative energy, electronic systems and integrated electronic systems (focused on the semiconductor industry).

The alternative energy technologies emphasis explores various alternative energy resources. This program provides hands-on laboratory experience on energy conversion and storage technologies, including photovoltaics, fuel cells, batteries, electrolyzers and supercapacitors.

The electronic systems emphasis allows students to continue to develop a knowledge of electrical and electronic fundamentals, with an applications perspective and a focus on the general topics of microcontrollers and advanced digital controllers and how these are used in industry.

The integrated electronic systems emphasis covers the processes and technology used to develop, design, manufacture and exploit integrated electronic functions on silicon, in packages and on boards.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science (A.A.S.) degree from a regionally accredited institution. Not available for freshmen.

Career Opportunities:

Graduates from the alternative energy emphasis are able to work in a number of different companies involved in alternative energy. These companies may be traditional energy production companies expanding into new production technologies or start-up companies involved in solar

energy or fuel cells.

Graduates from the electronic systems emphasis are able to work as members of engineering teams in applied design, product development, manufacturing, production or operations. They may also be employed in technical services capacities, including field engineering, marketing or sales.

Graduates from the integrated electronic systems emphasis work in integrated circuit processing, testing, field applications and as system integrators.

Applied Science (Operations Management), BAS (TSIMCOBAS)

Campus: EAC, ONLNE, POLY

Program Description:

The BAS program is a flexible, 60-credit-hour degree designed specifically for students who have earned an AAS from a regionally accredited institution.

The concentration in operations management technology provides the tools and strategies needed for success as a manager. An effective manager is someone who:

effectively uses available resources to create quality products or services and accomplishes unit goals

hires qualified workers who can do the job or can be trained or educated to perform the job

motivates and develops the workforce

organizes work

understands the work environment

creates a safe and healthful work environment

Arizona State University and Eastern Arizona College have established a partnership that will allow you to complete your associate degree at EAC and then pursue this bachelor's degree through classes delivered on the EAC Thatcher campus. Visit <https://transfer.asu.edu/eac> (<https://transfer.asu.edu/eac>) for more information about ASU degrees offered at Eastern Arizona College Thatcher campus.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Campus: POLY

Program Description:

The BAS program with a concentration in software and computing systems is a 60-credit-hour degree designed specifically for students who have earned an AAS from a regionally accredited institution in a computing area. Students are expected to have an AAS with course work in object-oriented programming, data structures, computer organization, and assembly language programming. to enroll in upper-division major courses. The program requires upper-division course work and laboratories, and culminates in a capstone senior project.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science (A.A.S.) degree from a regionally accredited institution. Not available for freshmen.

Career Opportunities:

The program exposes students to advanced concepts and critical thinking skills that prepare them for expanded career opportunities and professional advancement. Graduates from this concentration are prepared to work in systems administration and cybersecurity for internet and telecommunication companies, a wide variety of information technology providers, and information technology centers within most midsize to large corporations. Demand for graduates with these skills continues to rise even while the job market in many other areas is stagnant or declining.

Computer Systems (Computer Hardware Technology), BS (TSCSTHBS)

Campus: POLY

Program Description:

The computer hardware technology concentration, under the BS in computer systems, offers students the opportunity to develop knowledge and skills in the broad area of digital systems, computer hardware and computer network applications. Current computing industry needs drive the program's curriculum. The computer systems program uses mathematics, science and economics along with technological knowledge and skill in the application of programming languages, computer hardware, operating systems and networking to design, analyze, implement and test systems that integrate hardware and low-level software. The program is problem-based with exercises utilizing the languages, tools and methods of computing best practices.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates find employment opportunities as members of engineering teams working in computer hardware technology, systems development and system analysis. The current demand for highly trained software and computer hardware personnel is high, and the starting salaries for these employees are typically well above the average.

Electronics Engineering Technology (Alternative Energy Technologies), BS (TSEETABS)

Campus: POLY

Program Description:

The curriculum of the BS program in electronics engineering technology serves the needs of students interested in applied aspects of electronics technology. The electronics engineering technology program has a practice-based approach and uses laboratories to make electronics technology real to students. Major components of the program include:

- design
- electronics-related technical courses
- engineering science
- general education
- science and mathematics

The alternative energy technologies concentration explores the demands of energy resources in the new economy. This program strives to educate individuals in the use of energy sources such as solar, wind, ocean, geothermal and biomass. This program provides hands-on laboratory experience on several energy conversion and storage technologies including photovoltaics, fuel cells, batteries, electrolyzers and supercapacitors.

This program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates have an understanding of energy and power technology, the contribution of materials and components to the performance of electronic systems, and how to exploit the power of integrated electronics to enhance productivity and technology solutions. The alternative energy technologies concentration is aimed at preparing graduates for careers in alternative energy as related to electric power conditioning, control systems, electronics and instrumentation. The specific positions might include:

- application interface
- environmental and reliability analysis
- policy analysis
- process control
- system design
- technology analysis

Electronics Engineering Technology (Electronic Systems), BS (TSEETEBS)

Campus: POLY

Program Description:

The curriculum of the BS electronics engineering technology degree serves the needs of students interested in applied aspects of electronics technology. The electronics engineering technology program has a practice-based approach and uses laboratories to make electronics technology real to students. Major components of the program include:

- design
- electronics-related technical courses
- engineering science
- general education
- science and mathematics

The field of electronics engineering technology applies mathematics, science and economics, along with state-of-the-art electronics techniques, materials and devices to solve technological problems and to produce useful products. The concentration in electronic systems, under the BS in electronics engineering technology, allows students to develop a broad-based knowledge of electrical and electronic fundamentals with an applications perspective.

This program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates have an understanding of energy and power technology, the contribution of materials and components to the performance of electronic systems, and how to exploit the power of integrated electronics to enhance productivity and technology solutions. The electronic systems concentration prepares persons for careers in:

- control applications
- electronics applications
- instrumentation applications
- power systems applications

Engineering technologists typically work as members of engineering teams in:

- applied design
- manufacturing
- operations
- product development
- production

They may also be employed in technical services capacities, including:

- field engineering
- marketing
- sales

Electronics Engineering Technology (Integrated Electronic Systems), BS (TSEETINBS)

Campus: POLY

Program Description:

The curriculum of the BS electronics engineering technology degree serves the needs of students interested in applied aspects of electronics technology. The electronics engineering technology program has a practice-based approach and uses laboratories to make electronics technology real to students. Major components of the program include:

- design
- electronics-related technical courses
- engineering science
- general education
- science and mathematics

The integrated electronic systems concentration explores the processes and technology used to develop, design, manufacture and exploit integrated electronic functions on silicon, in packages and on boards. The program provides hands-on laboratory experience in integrated circuit device fabrication and manufacturing in a setting that emulates industry.

This program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Engineering, BSE (TSEGRBSE)

Campus: POLY

Program Description:

Engineers are creative problem-solvers who help shape the future. No profession unleashes the spirit of innovation like engineering, and the ABET-accredited BSE engineering program prepares graduates to:

- collaborate across disciplines to design and build solutions to real world problems
- design innovative products
- improve the quality of life for humankind
- provide technological leadership

In the BSE program, students apply engineering fundamental knowledge and design thinking to real projects every semester. Students choose a disciplinary focus where they develop in-depth knowledge in a specific area. This flexibility allows students to tailor their education to achieve their individual career and life goals.

Students can choose to focus in the following areas:

- aeronautical systems engineering
- automotive systems engineering
- electrical systems engineering
- environmental and energy systems
- manufacturing
- mechanical systems engineering
- robotics

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Pima Community College (<http://transfer.asu.edu/pima>)

Career Opportunities:

Engineers collaborate on interdisciplinary teams to design, manufacture and deliver innovative technological products and services. The bachelor's program enables students to develop not only sophisticated engineering technical skills but also the important professional skills of communication, teamwork and collaboration, and the adaptability that many employers seek. Graduates are prepared to work in large corporations, government agencies, small businesses, as well as to go on to graduate school to pursue advanced degrees. Due to the emphasis on design and project-based learning, the program supports an entrepreneurial spirit, and some students start companies of their own.

Engineering (Electrical Systems), BSE (TSEGRESBSE)

Campus: POLY

Program Description:

The Department of Engineering in the College of Technology & Innovation has a multidisciplinary engineering program with a concentration in electrical systems. The multidisciplinary engineering program allows students to learn in a problem-based curriculum with hands-on projects and the development of professional skills integrated into the program. In the junior and senior years, students take electrical engineering courses to complete a concentration in electrical systems. The graduate with an electrical systems concentration will be able to provide leadership in engineering settings, which are intrinsically multidisciplinary in nature, using electrical engineering knowledge to design and implement control systems. Students learn theory and application of sensors, actuators, microcontrollers and microprocessors, power sources and board level implementations of such systems.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from
Academic Catalog Archive 2013-2014 1097

Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Environmental and Resource Management, BS (TSETMBS)

Campus: POLY

Program Description:

Environmental and resource management is designed to provide graduates with the critical scientific, technical and management skills needed to solve the environmental challenges in today's highly regulated and competitive business climate. The curriculum includes courses in biology, chemistry, physics, advanced math, statistics and resource management. Building on this background, students take course work directly related to industry and environmental law including:

- capstone project
- environmental chemistry
- environmental management
- environmental regulations
- international environmental management
- occupational hygiene
- project management
- solid and hazardous waste management
- technical communication
- unit treatment technologies
- water and wastewater treatment

A joint BS/MS degree option is available in which up to nine hours of the bachelor's degree may be applied toward the 33 hours required for the master's in environmental technology management. A special application is required for this option.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 251

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Environmental Tech Mgmt (Polytechnic Campus) (MSTech)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Graphic Information Technology, BS (TSGITBS)

Campus: ONLNE, POLY

Program Description:

The cross-media nature of the graphic information industry requires tomorrow's graduates to understand the full spectrum of graphic technology, reproduction processes and current business practices. The BS program in graphic information technology prepares graduates for a seamless career as a graphic technologist encompassing web development and internet technologies, printing and digital publishing, and commercial and technical imaging. This is an intensive program of study emphasizing theory and hands-on laboratory practice. Students develop the following skills:

- commercial and technical photography
- computer drawing and illustration
- document design
- e-commerce practices
- gaming and simulation technologies
- higher-level graphic programming languages
- multimedia
- premedia, digital publishing and print technologies
- project management
- quality assurance
- web development and interactive technologies

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with Graphic Information Technology (MSTech)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Career Opportunities:

Graphic information technology prepares graduates for technical and management positions in the diverse graphic communication and information technology industries, such as:

- commercial and technical imaging

- internet and web development
- management of graphic information assets
- planning and evaluation of print, Internet, multimedia and computer-based communications
- premedia, digital printing and publishing
- quality assurance of graphic products
- technical and digital media production

Graphic Information Technology (Gaming), BS (TSGITGBS)

Campus: POLY

Program Description:

Graduates of the BS in graphic information technology with a concentration in gaming will be able to critically analyze, design and develop the various game appearance and art assets needed to create video games. In addition they will learn and apply the latest game visual development skills, tools and technologies that would make them industry ready.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Accelerated Degrees:

This degree is also offered as an accelerated degree with Graphic Information Technology (MSTech)
 Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:
 All students are required to meet general university admission requirements.
 Freshman (<https://students.asu.edu/freshman/requirements>)
 Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)
 International (<https://students.asu.edu/international/future>)
 Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates from the video game art focus may work on PC, mobile apps and console video games as a modeler, texture artist for characters and environments, as well as a character animator and rigger.

Graduates with a concentration in gaming will find employment in a variety of capacities ranging from computer and software design to graphic design and graphics arts. Jobs are often distinguished by high levels of theoretical expertise applied to solving complex problems and creation and application of new technologies. Students specializing in software engineering are skilled at creating video game engines, designing artificial intelligence systems, developing multiplayer networking systems and creating human centered interfaces. Students specializing in video game production are skilled at asset management, 3D rendering and animation including technically challenging tasks like skinning, rigging, and texturing for game asset production. Salaries can range from \$50,000 to \$125,000 a year depending on experience and market demand.

Campus: POLY

Program Description:

The BS in health systems management provides students with a unique opportunity to develop a marketable skill set via a multidisciplinary educational approach to the development of health care leaders, technologists, and entrepreneurs. The flexible program allows students to select one of two focus areas, information technology management or technology and entrepreneurship management. The degree develops graduates whose decisions are evidence-based, a critical skill as health systems evolve. Students will receive a strong foundation in health systems, technology, and business, consumer-behavior associated with health, with an emphasis on innovation and service development. Program graduates will have the skills to transform the current health care system or individual health care organizations to become more efficient and agile by improving processes, adopting best-practices, evaluating and adopting technologies. Graduates will lead such organizations and systems to become more competitive globally.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates of the program are well-qualified for careers in the management of health systems. This degree couples technical skills with the business skills needed to manage complex health systems. The focus area of information technology management allows the graduate to pursue a career in technical support administration for various health systems, which will address information assurance, securing computer applications, and security of communication and information. These skills are combined with knowledge of computer systems and networking design, configuration and administration. The technology and entrepreneurship management focus area provides students with the opportunity to generate and evaluate products and services for the health system enterprise. Students will be able to pursue careers in marketing and consumer behavior as it relates to health systems. Careers in health systems operations and social entrepreneurship will be available to these students.

Industrial and Organizational Psychology, BS (ECPSYBS)

Campus: POLY

Program Description:

Students in the industrial and organizational psychology program become experts in human performance. They apply the methods of experimental psychology and cognitive science to a wide variety of domains such as product usability, sports performance, and workplace and hospital safety.

A broad range of professions needs experts in human factors to work on problems that involve design, training and assessment. Students gain real-world experience by tackling projects that examine cutting-edge issues such as cell phones as a source of driver distraction, detection of improvised explosive devices, process optimization in health care, and even control of unmanned vehicles.

Interest areas include:

- aviation human factors

- cognitive performance
- consumer psychology
- effective teamwork
- health psychology
- learning optimization
- social cognition
- threat detection
- user-centered design

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Pima Community College (<http://transfer.asu.edu/pima>)

Career Opportunities:

Most careers in psychology require a master's or a doctorate, but an undergraduate degree with an emphasis in human factors can lead to many lucrative employment opportunities. We routinely place our top undergraduate students in internships in government laboratories or at leading companies in the fields of technology, training and transportation, and many of these opportunities turn into careers. Our emphasis on usability design and applied experimental and statistical methodologies provide students with a skill set that is highly sought by today's leading businesses.

Information Technology, BS (TSIFTBS)

Campus: ONLNE, POLY

Program Description:

Want to be the individual who is responsible for designing, selecting, implementing, and managing computer-based information solutions? The information technology graduate can design and create effective solutions to today's knowledge-based problems. Graduates design video games, create network architectures, configure and administer complex computer and database systems, create effective web sites, or design and process interactive media solutions. In the bachelor's in information technology program, you will create a project solution every semester and hone your team and presentation skills. In addition to selecting a primary focus area, (web, video games or security and administration) you'll be able to create your own secondary focus area that meets your specific career objectives.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Career Opportunities:

Graduates of the information technology bachelor's program are well-qualified for careers in the management of IT departments and functions. This degree couples technical skills with the business skills needed to manage technical functions. Some graduates may pursue careers as technical support staff based on the focus area and secondary skills they achieve.

Graduates will have the ability to manage technical professionals in these focus areas:

The focus area in video game design and construction explores the tools, frameworks, technologies and processes underlying the design, construction, deployment and support of video games. Students learn the graphic design processes, guidelines and tools for video games.

The focus area in computer and network systems: security and administration provides the graduate with the concepts underlying information assurance, securing computer applications, and secure communication of information. These skills are combined with knowledge in areas of computer systems and networking design, configuration and administration.

The focus area in web applications: design and construction explores the tools, languages and frameworks for designing and realizing complex web sites. Students have the options in the information technology program to delve into the back-end of complex web applications to augment their knowledge of the web in the context of principles of human-computer interface design.

Manufacturing Engineering, BS (TSMEGRBS)

Campus: POLY

Program Description:

The project-based, hands-on curriculum and the outstanding fabrication facilities that are the hallmark of the program equip graduates to excel as manufacturing engineers as the manufacturing industry makes a dramatic transformation into a future globalized supply network. The team-based learning environment teaches students to find innovative ways to integrate products and services in this ever-changing, fast-paced and complex field. Students will become key team members who will enable the design of new processes for making such varied products as airplanes, surgical instrument, toys and foodstuffs that meet customer needs, and doing so at the best price and in the most sustainable way while adhering to quality and functionality standards.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Manufacturing Engineering Technology (Mechanical), BS (TSMETMBS)

Campus: POLY

Program Description:

Manufacturing is in a period of dramatic transformation. Future manufacturing will involve a global supply network to enable innovation, design and integration of products and services. At its core, manufacturing engineering is about creating and delivering products and services that have value to customers and society.

Manufacturing engineers are key team members in the production of products such as automobiles, airplanes, electronic devices, surgical instruments, toys, building products and foodstuffs. Manufacturing engineers design the processes to make products with the required functionality, to desired quality standards, based on customers needs, at the best possible price and in environmentally-friendly ways. The manufacturing curriculum is project-based and provides students a hands-on, team-based learning environment. The manufacturing program has outstanding fabrication facilities that are a hallmark of the program.

The program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Mechanical Engineering Technology (Aeronautical Engineering Technology), BS (TSMECEBS)

Campus: POLY

Program Description:

Mechanical engineering technology programs offer students four years of applied engineering education in a hands-on, experiential, team-based learning environment. Our faculty members have real-world engineering experience, which they use to teach students how to apply engineering theory to practice in state-of-the-art labs stocked with up-to-date equipment used in industry today. Students learn how to produce practical and technically innovative solutions to real-world problems, thereby helping people and the environment.

The aeronautical engineering technology concentration provides a specialization in aircraft, with classes in aircraft systems, design and performance, structures and aerodynamics (including wind tunnel testing).

The mechanical engineering technology program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Software Engineering, BS (TSSERBS)

Campus: ONLNE, POLY

Program Description:

The program blends engineering, computing, project leadership and software construction. Students learn how to make creative software solutions to today's problems. Software systems are complex, often including in excess of a million lines of code. Graduates of the BS in software engineering possess knowledge and skills of a defined engineering approach to complex systems analysis, planning, design and construction. The program is a unique project-driven curriculum, establishing a new model for software engineering education. The program is built around the concepts of engaged learning, discovery-based education and learn-by-doing. Students complete projects in every semester of the program, to provide emphasis in communication, teamwork, critical thinking and professionalism. Students have flexibility in designing their course of study; they select a software engineering application area, such as Web applications, mobile systems, or graphics and game development, as their primary focus, and may obtain interdisciplinary knowledge through a secondary area of their design.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Career Opportunities:

Software engineers solve a broad set of interdisciplinary problems and apply new technologies to improve the quality of life. Graduates design and engineer innovative systems that may include mechanical and electrical components that interact with software. The bachelor's in software engineering is a unique program in which students learn by solving engaging projects, commonly as a member of a development team. The program prepares graduates for advanced study in computing, an allied field, or to enter the computing profession (most commonly as an application software engineer). According to the Bureau of Labor Statistics, software engineers are highly paid, and there is significant growth in the number of employment opportunities. Some software engineering jobs may include:

- creating video games
- creating Web applications
- designing embedded systems
- developing distributed applications
- working on data, network, security or computer system administration

Technological Entrepreneurship and Management, BS (TSTEMBS)

Campus: ONLNE, POLY

Program Description:

The BS in technological entrepreneurship and management bridges the gap between technology and business for students who want to launch their own technology-based ventures, profit or nonprofit, or prepare for a career in product or service design and development. The program provides tools to prepare students for launching innovative ventures that address consumer needs. The program structure is a collaborative effort, bringing together faculty from diverse programs focused on entrepreneurship and technological advances.

Students receive a foundation in technology and business fundamentals, with an emphasis on entrepreneurship and innovation in one of many focus areas:

- consumer behavior
- operations management and process innovation (including Six Sigma training)
- product development
- social entrepreneurship

Dedicated advisors help guide students in their course of study, choose the right courses, and stay on track for an on-time graduation.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Digital Culture Studies Course List: Select 7 courses; 21 credits

AME 194: Computational Thinking for Digital Culture

AME 294: Programming for Media Arts

AME/ART 294: Introduction to Interactive Environments

AME 394: Compositional & Computational Principles for Media

AME 394: How to Build a Digital-Physical System

AME 394: Media Literacies and Composition

AME 394: Motion Capture for Integrated Systems

AME 494: Animating Virtual Worlds

AME 494: Integrated System
Development

AME 494: Media Installations

AME 494: Programming for Social and
Interactive Media

ART 218: 3D Tools

DCE 294:
HybridAction:PhysicalIntelligenceinDigitalCulture

DSC 294: Media Editing

DSC 394: Digital Modeling

Digital Media - Media Arts and Design
Course List: Select 3 courses; 9 credits

ART 194: Digital Art and Culture

ART 294: The Still Image in Digital
Culture

IAP 103: Foundations I: Interdisciplinary
Digital Media

IAP 104: Foundations I: Fundamentals of
Sound Art

FMP 294: Introduction to Animation

FMP 294: Story Development for Game
Design

FMP 394: Non-Linear Editing for Film
and Media

MDC 211: Introduction to Digital Sound

MDC 311: Composing and Performing for
Hybrid Ensembles

ANP 494: Design by Algorithm

AME 494: Advanced Interactive Sound

ART 494: Visual Prototyping

AME 194: Digital Culture Studio

AME 294: Digital Culture Programming
Lab AND AME 294: Intro to Electronics
& Microprocessor Programming AND
AME 294: Introduction to Max/MSP
AND AME 294: Introduction to Rapid
Prototyping

Theory/History Course List: Select 2
courses; 6 credits (3 upper-division)

ALA 100: Introduction to Environmental
Design (HU & H & G)

ALA 102: Landscapes and Sustainability
(HU & G)

APH 313: History of Architecture I ((L or
HU) & G & H)

Term hours subtotal:		15	

Term 5 63 - 78 Credit Hours Necessary course signified by 	Hours	Minimum Grade	Notes
 AME 385: Collaborative Projects and Research I	3	C	
Upper Division Digital Media - Media Arts and Design	3	C	
Upper Division Interdisciplinary Arts and Performance Concentration	3	C	
Lower Division Related Digital Culture	3	C	
Natural Science - Quantitative (SQ) or Natural Science - General (SG)	4		
Maintain 3.00 GPA in Digital Culture coursework.			
Minimum 2.50 GPA ASU Cumulative.			
Term hours subtotal:		16	

Term 6 79 - 93 Credit Hours Necessary course signified by 	Hours	Minimum Grade	Notes
 AME 386: Collaborative Projects and Research II	3	C	
<i>Complete 2 courses:</i>			
Upper Division Interdisciplinary Arts and Performance Concentration	6	C	
Upper Division Theory/History	3	C	
ASB 344: Technology and Society (L or SB) OR ASB 328: Rules, Games, and Society (L) OR Upper Division Literacy and Critical Inquiry (L)	3		
Maintain 3.00 GPA in Digital Culture coursework.			

Minimum 2.50 GPA ASU Cumulative.

Term hours subtotal: 15

Term 7	94 - 108 Credit Hours Necessary course signified by ★	Hours	Minimum Grade	Notes
★	AME 485: Digital Culture Capstone I	3	C	
	Upper Division Digital Culture Studies	3	C	
	<i>Complete 2 courses:</i> Upper Division Interdisciplinary Arts and Performance Concentration	6	C	
	Upper Division Related Digital Culture	3	C	
	Maintain 3.00 GPA in Digital Culture coursework.			
	Minimum 2.50 GPA ASU Cumulative.			
	Term hours subtotal:	15		

Term 8	109 - 120 Credit Hours Necessary course signified by ★	Hours	Minimum Grade	Notes
★	AME 486: Digital Culture Capstone II	3	C	
	Upper Division Digital Culture Studies	3	C	
	Upper Division Digital Media - Media Engineering category	3	C	
	Upper Division Humanities, Fine Arts and Design (HU) or Upper Division Social and Behavioral Sciences (SB)	3		
	Maintain 3.00 GPA in Digital Culture coursework.			
	Minimum 2.50 GPA ASU Cumulative.			
	Term hours subtotal:	12		

Interdisciplinary Arts and Performance
Concentration Course List: Select 8
courses; 24 credits (15 upper-division)

IAP 301: Energetic Systems of Art:
Collaboration in the Arts

IAP 302: Cross-Cultural Perspectives on
the Arts (L or HU)

IAP 307: Art and War (HU & G)

IAP 321: Music Composition I

IAP 322: Multitrack Digital Recording

IAP 324: The Voice and Performance

IAP 325: Sound Performance: Exploring
Alternative Performance Groups

IAP 333: Directing for Performance

IAP 354: Visual Representation

IAP 361: Digital Editing and Media
Literacy (CS)

IAP 363: Sound, Image, and Media

IAP 364: Documentaries

IAP 365: Digital Interactivity

IAP 368: Digital Graphic Technologies

IAP 371: Verbal Art

IAP 375: Contemporary Performance:
Theories and Practice

IAP 421: Composition: Process,
Technique, and Style II

IAP 431: Perspectives on Performance
and Acting

IAP 434: Production Laboratory

IAP 441: Movement for Performance

IAP 464: Media and Diversity (HU & G)

IAP 465: Media Technologies and the
Arts

IAP 466: Digital Interactivity, Advanced

IAP 467: Acoustic Ecology

IAP 468: Digital Graphic Applications

IAP 469: Advanced Audio Production

IAP 471: Language, Culture, and
Performance (L or HU)

IAP 494: Advanced Audio Production

IAP 494: Advanced Video Production

IAP 294: Digital Installation

Digital Culture Studies Course List: Select
7 courses; 21 credits

AME 194: Computational Thinking for
Digital Culture

AME 294: Programming for Media Arts

AME/ART 294: Introduction to
Interactive Environments

AME 394: Compositional &
Computational Principles for Media

AME 394: How to Build a
Digital-Physical System

AME 394: Media Literacies and
Composition

AME 394: Motion Capture for Integrated
Systems

AME 494: Animating Virtual Worlds

AME 494: Integrated System
Development

AME 494: Media Installations

AME 494: Programming for Social and
Interactive Media

ART 218: 3D Tools

DCE 294:
HybridAction:PhysicalIntelligenceinDigitalCulture

DSC 294: Media Editing

DSC 394: Digital Modeling

Digital Media - Media Arts and Design
Course List: Select 2 courses; 6 credits

ART 194: Digital Art and Culture

ART 294: The Still Image in Digital Culture

IAP 103: Foundations I: Interdisciplinary Digital Media

IAP 104: Foundations I: Fundamentals of Sound Art

FMP 294: Introduction to Animation

FMP 294: Story Development for Game Design

FMP 394: Non-Linear Editing for Film and Media

MDC 211: Introduction to Digital Sound

MDC 311: Composing and Performing for Hybrid Ensembles

ANP 494: Design by Algorithm

AME 494: Advanced Interactive Sound

ART 494: Visual Prototyping

AME 194: Digital Culture Studio

AME 294: Digital Culture Programming Lab AND AME 294: Intro to Electronics & Microprocessor Programming AND AME 294: Introduction to Max/MSP AND AME 294: Introduction to Rapid Prototyping

Related Digital Culture Course List:
Select 2 courses; 6 credits (3 upper-division)

IAP 102: Foundations I: Performance Techniques and Composition

IAP 105: Foundations I: Fundamentals of Visual Art (CS)

ARE 494: Digital Ethnography in Virtual Worlds

AME 494: Experiential Media Methodology and Theory I

AME 494: Understanding Activity

ASB 328: Rules, Games, and Society (L)

ASB 344: Technology and Society (L or SB)

ASB 430: Social Simulation (CS)

EDT 329: Games, Simulations, and Virtual Environments

MCO 435: Social Media

OMT 394: Market Opportunity Analysis

OMT 402: Legal Issues for Technologists

RDG 440: Computer Gaming, Learning, and Literacy

THP 352: Foundations of Arts Entrepreneurship

Theory/History Course List: Select 2 courses; 6 credits (3 upper-division)

ALA 100: Introduction to Environmental Design (HU & H & G)

ALA 102: Landscapes and Sustainability (HU & G)

APH 313: History of Architecture I ((L or HU) & G & H)

APH 314: History of Architecture II ((L or HU) & G & H)

APH 300: World Architecture I/Western Cultures (HU & H & G)

APH 336: 20th-Century Architecture I (HU)

APH 337: 20th-Century Architecture II (HU)

ARA 202: Understanding Photographs

ARA 498: Photography and Language

ARS 102: Art from Renaissance to Present (HU & H)

ARS 345: Art and Television

ARS 438: Art of the 20th Century I (HU & H)

ARS 439: Art of the 20th Century II (HU & H)

ARS 460: Art Now

DCE 300: Moving Histories (HU)

DSC 101: Design Awareness (HU & G)

ENG 394: Video Game Theory

GRA 111: Graphic Design History I (HU)

GRA 112: Graphic Design History II

IAP 305: 20th and 21st Century Art, Performance, and Media (L or HU)

IND 316: 20th-Century Design I (HU & H)

IND 317: 20th-Century Design II (HU & H)

INT 111: Interior Design Issues and Theories (HU)

INT 310: History of Interior Design I (HU & H)

INT 311: History of Interior Design II (HU & H)

LPH 310: History of Landscape Architecture (HU & H & G)

LPH 311: 20th-Century Landscape Architecture (HU)

MHL 440: Music Since 1900 (L or HU)

MHL 494: Music and Movement in Urban Culture

THE 320: History of the Theatre I (HU & H)

THE 322: Theatre History and Culture
(HU & H)

THE 403: Independent Film (HU)

THE 404: World Cinema (G)

THE 405: Film: Great Performers and
Directors (HU)

THP 482: Theatre for Social Change (C)

Digital Media - Media Engineering
Course List: Select 1 course; 3 credits

CSE 394: Data Struct, Analysis & Ret for
Digital Culture

EEE 394: Signal Analysis for the Digital
Culture

EGR 494: Music and Engineering

GIT 335: Computer Systems Technology

GIT 441: Graphic Information Systems

Total Hours: 120

Upper Division Hours: 45 minimum

Major GPA: 3.00 minimum

Cumulative GPA: 2.00 minimum

Total hrs at ASU: 30 minimum

Hrs Resident Credit for

Academic Recognition: 56 minimum

Total Community College Hrs: 64
maximum

General University Requirements Legend

General Studies Core Requirements:

- Literacy and Critical Inquiry (L)
- Mathematical Studies (MA)
- Computer/Statistics/Quantitative Applications (CS)
- Humanities, Fine Arts and Design (HU)
- Social and Behavioral Sciences (SB)
- Natural Science - Quantitative (SQ)
- Natural Science - General (SG)

General Studies Awareness Requirements:

- Cultural Diversity in the U.S. (C)
- Global Awareness (G)
- Historical Awareness (H)

First-Year Composition

General Studies designations listed on the major map are current for the 2013 - 2014 academic year.

2013 - 2014 Major Map
Digital Culture (Media Processing), BA

Herberger Institute for Design and the Arts
 Tempe campus
 HIDGCMPPBA

Term 1	0 - 16 Credit Hours	Critical course signified by 	Hours	Minimum Grade	Notes
