ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/undergraduate-certificate-applied-business-data-analytics/>) for program descriptions and to request more information.

Career Opportunities: Students can advance their career options with an undergraduate certificate. By adding this specialization as a complement to their major program of study, students become more attractive to future employers.

Graduates with this certificate often decide to pursue employment in management, business analysis or marketing. Advanced degrees or certifications may be required for academic or clinical positions.

Applied Cybersecurity Certificate (ASACSCERT)

Campus: Polytechnic, Tempe, West

Description: The applied cybersecurity certificate program is designed to build competencies in security operations, risk assessment, network security, and governmental and regulatory compliance in an interdisciplinary learning setting. Building upon core skills that students bring with them from their majors, students practice dealing with cyber-threats and resolving issues from multiple perspectives.

The program is offered through a collaboration between the New College of Interdisciplinary Arts and Science, the Ira A. Fulton Schools of Engineering and the W. P. Carey School of Business.

Program Requirements:

The certificate in applied cybersecurity consists of 15 credit hours of coursework, of which a minimum of 12 hours must be upper division. Six credit hours must be unique and not count towards a student's undergraduate degree. All courses used to satisfy requirements for the certificate must be passed with a "C" (2.00) or better. Students must select courses from more than one subject to fulfill certificate requirements.

Students must take CSE 365 or IFT 202 and one course each from groups A, B or C, and D; then one course from Group E for a total of five courses or 15 credit hours. It is recommended that the Group A course be taken concurrently with CSE 365 or IFT 202. The Group B or C and D courses must be taken after successful completion of CSE 365 or IFT 202. Group A through D courses must be completed successfully before enrolling in the Group E required course.

Required Course -- 3 credit hours

CSE 365: Information Assurance or IFT 202: Foundations of Information and Computer System Security (3)

Group A - Security Operations and Risk Management -- 3 credit hours

ACO 401 / CIS 401: Managing Cyber Risks in Enterprise Business Processes (3)

ACO 461: Security Operations (3)

IFT 381: Information System Security (3)

Group B - Systems and Network Security OR Group C - Forensics/Cyber Crime -- 3 credit hours

Group B - Systems and Network Security:

ACO 431: Network Security (3)

CSE 466: Computer Systems Security (3)

CSE 468: Computer Network Security (3)

IFT 458: Middleware Programming and Database Security (3)

IFT 475: Security Analysis (3)

Group C - Forensics/Cyber Crime:

ACO 331: Network Forensics Analysis (3)

CSE 469: Computer and Network Forensics (3)

FOR 350: Computer Forensics (3)

IFT 482: Network Forensics (3)

Group D - Policy -- 3 credit hours

ACO 351: Governance, Risk and Compliance (3)

ACO 402 / CIS 402: Privacy, Ethics and Compliance Issues (3)

CSE 467: Data and Information Security (3)

IFT 483: Security Compliance for Information Technology (3)

Group E - Project -- 3 credit hours

Students may take more than one semester of the Applied Project but only three credit hours will count towards the certificate.

ACO 484: Internship or ACO 499: Individualized Instruction (3)

CIS 440: Capstone in Information Systems (L) (3)

CSE 485: Computer Science Capstone Project I (L) or CSE 486: Computer Science Capstone Project II (L) (3)

IFT 401: Information Technology Capstone (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: To enroll in this certificate program, students should have completed at least 45 credit hours in their declared majors and have a cumulative GPA of 2.00 or better.

Students should pay attention to the prerequisite courses needed for required certificate courses and to make sure to complete them before enrolling in the certificate program.

The prerequisites for CSE 365 Information Assurance are: ACO 240, CIS 235, CIS 236, CSE 220 or CSE 240; and a pre- or corequisite of CSE 310.

The prerequisites for ACO 240 Introduction to Programming Languages are: ACO 102 or CSE 205, or GIS major with GIS 222, or software engineering graduate student.

The prerequisites for CIS 235 Introduction to Information Systems are: CIS 105, 200 or 220; MAT 210, 211, 270 or 271.

The prerequisite for CSE 220 Programming for Computer Engineering is: CSE 205.

The prerequisites for CSE 240 Introduction to Programming Languages are: ACO 102 or CSE 205, or GIS major with GIS 222, or software engineering graduate student.

The prerequisites for IFT 202 Foundations of Information and Computer System Security are: IFT 101, IFT 103 and IFT 166.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: This program is an ideal supplement for students interested in careers in cybersecurity either in the private sector or within government agencies, such as the FBI, U.S. Department of Homeland Security, the National Security Agency and the U.S. Department of Defense. The certificate in applied cybersecurity provides a solid background for students interested in the following careers:

- chief information security officer
- cyber risk analyst
- information security engineer
- network security engineer
- security operations center analyst

Applied Social Sciences Certificate (ASAPSSCERT)

Campus: West

Description: The certificate program in applied social sciences prepares students to apply social science tools to practical problems. Through collaboration, students develop case studies, engage in fieldwork, and learn both how to apply expert knowledge and how to communicate

evidence. Working with stakeholders, students identify and solve problems, reform managerial structures and organizational systems, and drive social change.

Program Requirements:

The certificate in applied social sciences consists of 15 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Social and Behavioral Sciences. A maximum of six credit hours may be shared between the certificate and a New College major. All courses used to satisfy requirements for the certificate must be passed with a "C" (2.00) or better.

Electives are not limited to the certificate elective list; see academic advisor prior to enrollment. Students are encouraged to take courses that develop breadth rather than limiting their selection to courses in one particular discipline. A maximum of three credit hours of individualized instruction or internship may be applied toward the certificate.

Required Core Courses -- 6 credit hours

SBS 304: Social Statistics I (QTRS OR CS) or SBS 404: Social Statistics II: Multivariate Analysis (CS) (3)

SOC 331: Environmental Sociology (SUST OR SB & G) (3)

Electives (minimum three upper-division credit hours) -- 6 credit hours

ASB 339 / SBS 339 / POS 339 / SOC 339: Grassroots Social Movements (SB) (3)

ASB 340 / SOC 328: Migration and Culture (GCSI OR SB & G) (3)

ASB 394 / JHR 394 / POS 394 / SBS 394 / SOC 394: Special Topics (3)

ASB 484 / JHR 484 / POS 484: Internship or SBS 484: Internship or SOC 484: Internship (3)

ASB 492 / JHR 492 / POS 492 / SBS 492 / SOC 492: Honors Directed Study (3)

ASB 493: Honors Thesis (L) or JHR 493: Honors Thesis or POS 493 / SBS 493 / SOC 493: Honors Thesis (L) (3)

ASB 494 / JHR 494 / POS 494 / SBS 494 / SOC 494: Special Topics (3)

ASB 499 / JHR 499 / POS 499 / SBS 499 / SOC 499: Individualized Instruction (3)

JHR 305: Theory and Practice of Social Justice and Human Rights (CIVI OR SB & G) (3)

POS 150: Comparative Government (GCSI OR SB & G) (3)

POS 350: Comparative Politics (GCSI OR SB & G) (3)

SOC 241: Modern Social Problems (SOBE OR SB) (3)

SOS 111: Sustainable Cities (SUST OR (HU or SB) & G) (3)

Upper-Division Applied Project -- 3 credit hours

ASB 484 / JHR 484 / POS 484: Internship or SBS 484: Internship or SOC 484: Internship (3)

ASB 493: Honors Thesis (L) or JHR 493: Honors Thesis or POS 493 / SBS 493 / SOC 493: Honors Thesis (L) (3)

ASB 499 / JHR 499 / POS 499 / SBS 499 / SOC 499: Individualized Instruction (3)

ENG 484 / ETH 484 / JHR 484: Pen Project Prison Teaching (3)

Other applied project/experiential learning courses may apply with prior advisor approval.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: The certificate program is recommended for students with academic or career interests in human resources, administration, journalism, social work, business, and community and civic work, as well as politics, organizing and advocacy, public policy, education and sustainability. Graduates may find employment in positions such as:

- educator
- human resources manager or assistant
- recruiter
- research project manager
- research specialist
- social worker

Arabic Studies Certificate (LAARBCERT)

Campus: Tempe

Description: The certificate program in Arabic studies provides students with skills that enable them to communicate effectively in Arabic in the four areas of language acquisition: listening, reading, speaking and writing.

Simultaneously, students gain broad knowledge and understanding of the culture, literature and traditions of the vast Arabic-speaking world. The program provides critically needed educational and cultural diversity that enriches students' undergraduate experiences and prepares them for life as employees and employers.

Graduate students in the humanities, natural sciences and social sciences who are seeking academic or professional careers also benefit from the program, given the demonstrably high need for graduates with knowledge of the Arabic language.

Program Requirements:

The Arabic studies certificate requires students to complete 18 credit hours of upper-division coursework. A grade of "C" (2.00 on a 4.00 scale) or better is required for each course.

Arabic Core (choose three) -- 9 credit hours

ARB 311: Advanced Arabic Skills I or ARB 411: Advanced Arabic Skills II (G) (3)

ARB 321: Arabic Conversation I or ARB 421: Arabic Conversation II (3)

ARB 331: Arabic/Islamic Culture and Literature (GCSI OR HU & H & G) (3)

ARB 335: Arabic Culture and Islam (GCSI OR G) (3)

ARB 341: Quran Text and Women (GCSI OR HU & H) or ARB 351: Classical Arabic Literature (HU & G) (3)

ARB 352: Modern Arabic Literature in Translation (HU & G) or ARB 422: Advanced Arabic Media (G) (3)

Elective Courses (choose three) -- 9 credit hours

Some courses can be used either as a core course or as an elective, but no course can be counted more than once toward certificate requirements.

ARB 321: Arabic Conversation I (3)

ARB 335: Arabic Culture and Islam (GCSI OR G) (3)

ARB 336: Introduction to the Qur'an (GCSI OR G) (3)

ARB 337: Hadith and Prophetic Tradition (HU & H & G) (3)

ARB 340: Arabic Translation (3)

ARB 341: Quran Text and Women (GCSI OR HU & H) (3)

ARB 351: Classical Arabic Literature (HU & G) (3)

ARB 352: Modern Arabic Literature in Translation (HU & G) (3)

ARB 360: Islamic Philosophical Literature (3)

ARB 421: Arabic Conversation II (3)

ARB 422: Advanced Arabic Media (G) (3)

ARB 427: Arabic Prose: Reading the Arabian Nights (3)

ARB 428: Gender and Sexuality Discourse in the Middle East (HU & G) (3)

GCU 328: Geography of Middle East and North Africa (GCSI OR SB & G) (3)

HST 307: Studies in African History (3)

HST 372: Modern Middle East (GCSI OR SB & G & H) (3)

REL 365: Islamic Civilization (HU & H) (3)

REL 366: Islam in the Modern World (GCSI OR HU & G) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Any student accepted into an appropriate degree program at ASU can declare the certificate in Arabic studies.

Requests to declare this certificate are reviewed by the academic advisor in the academic unit offering the certificate. The student may be contacted to discuss the certificate before it is added to their record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Graduates who combine the certificate in Arabic studies with their major program of study may be more marketable to employers. Many decide to pursue employment in education, political analysis, the military, tourism and hospitality, or marketing.

Artificial Intelligence and Digital Media Certificate (HIAIDMCERT)

Campus: Tempe

Description: The artificial intelligence and digital media certificate program focuses on the creative exploration of how new media, built on advances in AI and machine learning, influences the way people live, learn, create and communicate.

Pursuing the certificate allows students to enhance their program of study with integrated, transdisciplinary training in the use of AI in new media and its sociocultural implications. Students learn how to design and create new media as well as analyze existing media products in the world from a transdisciplinary perspective.

The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application and implications. The School of Arts, Media and Engineering prepares students to be socially aware, critically thinking global citizens who strive to bring about positive change in a society that is increasingly shaped by new technologies.

Program Requirements:

Required Courses -- 9 credit hours

AME 130: Prototyping Dreams (L) or AME 230: Programming for the Media Arts (QTRS OR CS) (3)

AME 400: Minds and Machines (3)

AME 404: Reading the Algorithm (3)

Media Processing Electives -- 6 credit hours

Please see a Herberger advisor for a current, up-to-date list of available courses to fulfill this requirement.

AME 430: Mac Development for Media Arts (3)

AME 434: Machine Learning for Media Arts (3)

AME 435: Mobile Development (3)

AME 436: Animating Virtual Worlds (3)

AME 470: Programming for Social and Interactive Media (3)

CPI 321: Fundamentals of Game Art (3)

CPI 411: Graphics for Games (3)

CPI 421: 3-D Modeling and Texturing (3)

CPI 462: Design for Learning in Virtual Worlds (3)

SER 332: Introduction to Graphics and Game Development (3)

SER 431: Advanced Graphics (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: There are several companies who hire in the space of augmented and virtual reality, image and video multimedia including Adobe, Dreamscape, NVIDIA, Disney and Intel.

According to the U.S. Bureau of Labor Statistics, employment of media and communication occupations is projected to grow 4% from 2018 to 2028, about as fast as the average for all occupations, which will result in about 27,600 new jobs. Demand for media and communication occupations is expected to arise from the need to create, edit, translate and disseminate information through a variety of different platforms. The median annual wage for media and communication occupations was \$57,530 in May 2018, which was higher than the median annual wage of \$38,640 for all occupations. Media and communication equipment workers had a median annual wage of \$46,270 in May 2018, also higher than the median annual wage for all occupations in the economy. For the employment of computer and information technology occupations, jobs are projected grow 12% from 2018 to 2028, much faster than the average for all occupations. These occupations are projected to add about 546,200 new jobs. All these numbers portend a promising future for students who develop the skills taught in this intelligent media certificate program.

Example careers:

- augmented and virtual reality software developer

- computer animator
- data scientist
- graphics software developer
- machine learning engineer
- media and communications designer
- user experience and user interface designer

Arts Entrepreneurship Certificate (HITHAECERT)

Campus: Tempe

ASU is not currently accepting applications for this program.

Description: Arts entrepreneurship is an emerging transdisciplinary field that harnesses the skills and mindset of the entrepreneur to empower artists to create work that is meaningful, sustainable and oriented to community and market need. Students across the disciplines of art, dance, design, film, music and theatre benefit from the business, marketing and organizational skills offered by certificate courses as applied specifically to and within the arts.

Program Requirements:

The undergraduate certificate in arts entrepreneurship consists of 15 credits. A grade of "B" or better is required in HDA 252 and a grade of "C" or better is required in all other courses.

Core -- 3 credit hours

HDA 252: Foundations Arts and Design Entrepreneurship (3)

Arts Business Course (select two) -- 6 credit hours

ARA 396: Professional Practices for Design and the Arts (3)

ARA 460: Gallery Exhibitions (3)

DSC 394: Design Entrepreneurship & Society (3)

ENT 305: Principles of Entrepreneurship (3)

FMP 417: Business and Legal Practices in Entertainment (3)

HDA 420: Design and the Arts Business Administration (3)

MUP 438: The Enterprising Artist (3)

NLM 451: Grant Writing (3)

THP 351: Arts Management (3)

THP 450: Theatre Organization and Management (3)

Arts Policy, Community or Social Engaged Arts Course (select two) -- 6 credit hours

ARS 441: Public Art (3)

ART 442: Art and Community (3)

DCE 494 / HDA 494 / THP 494: The Atlas of Creative Tools (3)

DSC 494: Indigenous Architecture, Planning and Construction (3)

DSC 494: Indigenous Project Delivery (3)

EDS 301: Sustainable Community Design and Practices (SUST OR HU) (3)

HDA 310: Socially Engaged Practice (3)

HDA 394: Disrupt, Create, Sustain (3)

HDA 494: Civic Body: Art and Public Health (3)

HDA 494: Civ Prac: Artists&Designers Collaborating/Comm (3)

HDA 494: Civic Practice:Arts/Design & Public Partnerships (3)

HDA 494: Creative Facilitation: Collaboration, Imagination (3)

HDA 494: Creative Project Management (3)

MUP 439: Performing Arts Product Creation and Development (3)

NLM 410: Social Entrepreneurship (3)

THP 482: Theatre for Social Change (CIVI OR C) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: The certificate in arts entrepreneurship, meant to extend the study of an individual arts discipline, is available only to current students with a major within the Herberger Institute for Design and the Arts.

Students must have an overall GPA of 3.00 or higher. Students must submit an application to the Herberger Institute Office of Student Success. Institute students who meet the course and GPA requirements may enroll in the certificate program, and a school advisor will add the certificate plan code to the student's record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Design a business model appropriate to a specific arts discipline.
- Design effective artistic products.

Career Opportunities: The certificate program in arts entrepreneurship provides an excellent foundation for those who want to work in arts management and provides each student the unique opportunity to explore their own creative process and enhance their ability to collaborate with others. Additionally, the program's liberal arts emphasis prepares them for a variety of careers.

Arts and Humanities in Games Certificate (ASAHGCERT)

Campus: West

Description: The certificate program in arts and humanities in games trains students to design, create and analyze games from holistic and interdisciplinary perspectives and to understand the utilization, consumption and impact of games in a diverse culture and society.

The goal is to make students' minds more supple, critical in thinking and expansive through an interdisciplinary approach that encompasses the design, development, and qualitative study of toys and games. The interdisciplinary approach helps students understand the impact of play on human mental, emotional and social growth.

This program, through foregrounding arts and humanities in the study of games, provides a complementary approach to the technically based study of games offered by the Ira A. Fulton Schools of Engineering.

Program Requirements:

The certificate in arts and humanities in games consists of 18 credit hours; a minimum of 12 credit hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Humanities, Arts, and Cultural Studies. All courses used to fulfill the requirements for the certificate must be passed with a "C" (2.00) or better.

The certificate consists of three credit hours of required foundational courses, and nine credit hours from one of the following game emphasis areas: Toys and Games as Works of Art (Art Game Practitioner); Toys and Game Culture (Research Scholar); Game Writing (Game Design Practitioner); or Game Sound (Game Design Practitioner); and six credit hours of playworks portfolio.

Required Foundational Courses -- 3 credit hours

IAP 220: Games, Culture and Aesthetics (GCSI OR HU & G) (3)

Game Emphasis Area -- 9 credit hours

Students must take two required courses and one elective from their selected emphasis area below. (9)

Toys and Games as Works of Art (Art Game Practitioner) Emphasis Area

Required:

IAP 362: Games and Narratology (3)

IAP 462: Games and Play (3)

Electives:

IAP 352: Seeing and Drawing (3)

IAP 354: Visual Representation (3)

IAP 361: Digital Editing and Media Literacy (CS) (3)

IAP 366: 3D Modeling and Media Literacy (3)

Toys and Game Culture (Research Scholar) Emphasis Area

Required:

IAP 222: Games and Ethics (HUAD OR HU) (3)

IAP 462: Games and Play (3)

Electives:

COM 312: Communication, Conflict, and Negotiation (CIVI) (3)

COM 324: Rhetoric and Media Criticism (3)

COM 416: Gender and Race in the Media (3)

COM 429: Visual Communication and Semiotics (3)

ENG 449: Masculinities, Femininities and Literacies (3)

IAP 464: Media and Diversity (HUAD OR HU & G) (3)

IAP 494: Cyberfeminist Cultural Production (3)

Game Writing (Game Design Practitioner) Emphasis Area

Required:

IAP 362: Games and Narratology (3)

IAP 494: Scriptwriting for Games (3)

Electives:

ENG 379: Travel Writing (3)

ENG 388: Intermediate Creative Writing Workshop in Fiction: Form, Theory, and Practice (3)

IAP 222: Games and Ethics (HUAD OR HU) (3)

IAP 462: Games and Play (3)

Game Sound (Game Design Practitioner) Emphasis Area

Required:

IAP 362: Games and Narratology (3)

IAP 421: Composition: Process, Technique and Style or IAP 469: Advanced Audio Production (3)

Electives:

IAP 322: Multitrack Digital Recording (3)

IAP 325: Sound Performance: Exploring Alternative Performance Groups (3)

Portfolio -- 6 credit hours

IAP 495: Playworks Capstone I (3)

IAP 496: Playworks Capstone II (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: The certificate in art and humanities in games is appropriate for students seeking employment as:

- artists
- board game designers
- game archivists and librarians
- game curators
- game sound designers
- game writers
- multimedia artists
- narrative designers
- video game designers

Arts in Education Certificate (HIAEDCERT)

Campus: Tempe

Description: The certificate program on arts in education and recreation is specifically designed for prospective preK-8 educators and recreation specialists who wish to enhance their facilitation practices by developing the skills they need to use the arts throughout their programming and curriculum.

This certificate program does not lead to any official teaching certificate or endorsement through Arizona Department of Education. Instead, it is designed to help educators use the arts in their regular teaching practice.

By weaving the principles and practices of the arts and other disciplinary curricula together, teachers can create rich and engaging environments that enhance student learning by capitalizing on the critical thinking, communication, collaboration and creativity inherent in the arts and arts experiences.

Program Requirements:

The certificate in arts in education requires 18 credit hours (including 12 credit hours of upper-division courses). All upper-division courses must be completed with a minimum grade of "C" (2.00).

Arts in Education Core -- 6 credit hours

At least three credit hours must be upper division.

Other courses which may engage in the teaching or learning of creative disciplines may be petitioned to apply.

ARA 311: Art Appreciation and Human Development (HU) (3)

ARE 301: Learning Through Artistic Practice: Curiosity and Creativity in the Everyday (3)

ARE Elective (1-6)

DCE 350: Dance in the Classroom: Learning Through Movement (HU) (3)

DCE 354: Creative Approaches to Teaching Dance I (3)

MUE 310: Music in Early Childhood (HUAD OR HU) (3)

MUE 311: Music in the Lives of Children and Youth (HUAD OR HU) (3)

MUE Elective (1-6)

MUS 211: Dance, Music and Meaning (HU) (3)

MUS 212: Music, Meaning and Imagination (HUAD OR HU) (3)

MUS 215: Children, Creativity, Arts (HUAD OR HU) (3)

THP 311: Drama and Education: Performance Methods for Teaching (L) (3)

THP 411: Methods of Teaching Drama (4)

Track Option 1: Educators / Education Majors -- 12 credit hours

This track is intended for educators or education majors seeking to gain more exposure to creative arts disciplines and/or teaching in the creative arts disciplines.

At least nine credit hours must be upper division.

Some courses are fewer than three hours and may be repeated for credit.

AME 111: Introduction to Digital Culture (QTRS OR CS) (3)

ARA 195: Art in My World (HUAD OR HU) (3)

THP 411: Methods of Teaching Drama (4)
THP 482: Theatre for Social Change (CIVI OR C) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: This program can add richness and depth to a student's program of study and is applicable to multiple careers, including:

- community engagement
- dementia care
- education and teaching
- nursing
- recreation

Asian Pacific American Studies Certificate (LAAPACERT)

Campus: Tempe

Description: Asian Pacific American studies educates students in social justice; the global causes and impacts of Asian and Pacific Islander migration; relational and comparative racial formations; and ethnic studies movements that have made, and continue to make, a difference in society for all people.

Topics include diaspora, globalization, U.S imperialism and settler colonialism, social networks, immigration, interracial and interethnic relations, and the health and well-being of Asian Pacific American families and communities. The certificate program provides students with the opportunity to work with a dedicated faculty committed to community-engaged research and student-centered learning.

The Asian Pacific American studies program is housed in ASU's interdisciplinary School of Social Transformation, the only school of its kind in the United States.

Program Requirements:

The certificate consists of 18 credit hours, of which at least 12 must be completed at the upper-division level. Nine credit hours of core coursework are required and the remaining nine credit hours are selected from any course with an APA subject. At least nine credit hours must be taken in residency at ASU. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Required Core Courses -- 9 credit hours

APA 200: Introduction to Asian Pacific American Studies (SOBE OR (HU or SB) & C) (3)

APA 360: Asian Pacific American Experience (3)

APA 484 / SST 484: Internship (3)

*One APA 360 course is required for the core. The course may be repeated for credit with these different topics: Chinese Americans; Filipinx Americans; Japanese Americans; Multiracial; Pacific Islander.

Electives -- 9 credit hours

APA Elective (3)

APA Upper Division Elective (6)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will perform critical analysis of a historical or contemporary issue affecting the Asian Pacific American population drawing upon key concepts in the field of Asian Pacific American studies.
- Students will be able to summarize a range of Asian American and Pacific Islander experiences and communities within local, national and global contexts.

Career Opportunities: Graduates who have combined the certificate in Asian Pacific American studies with their major program of study may be more marketable to employers. They often decide to pursue employment in law, education, public service, and human welfare and social work.

Advanced degrees or certifications may be required for academic or clinical positions.

Asian Studies Certificate (LAASNCERT)

Campus: Tempe

Description: The Asian studies certificate program supplements a bachelor's degree, providing students with knowledge of a language relevant to the study of Asia as well as general knowledge of Asian history, art, culture and society.

Graduates possess official transcript recognition of specialization in Asian studies.

Program Requirements:

The certificate requires 24 credit hours of approved coursework, in addition to proficiency in a language relevant to the study of Asia. Fifteen credit hours of upper-division area studies coursework must be chosen from at least four different disciplines, e.g., language and cultures, history, religious studies, anthropology, geography, political science, global studies, art and music. Courses from other disciplines may be used by approval. The remaining nine credit hours may be chosen in any combination.

At least six upper-division hours in the certificate must be in courses offered by The College of Liberal Arts and Sciences. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course that is used to fulfill the certificate requirements.

Language Requirement

Students must demonstrate proficiency in a language relevant to the study of Asia by completing the 201 and 202 course sequence, one year of study abroad at the intermediate level or satisfactory performance on a proficiency exam. Acceptable languages include Arabic, Chinese, French, Hindi, Indonesian, Japanese, Korean, Portuguese, Spanish, Thai and Vietnamese. Students who are already proficient in one of these languages, or in another language relevant to the study of Asia that is not offered by ASU, such as Dutch, Tagalog or Urdu, may fulfill the requirement by passing a proficiency exam.

Disciplinary Electives -- 24 credit hours

Upper Division Disciplinary Electives (15)

At least four different disciplines must be represented within the upper-division disciplinary electives (e.g., history, religious studies, global studies, anthropology). Crosslisted courses will only apply to the certificate under one discipline; students may choose the discipline that is most advantageous.

Disciplinary Electives (9)

Students select the remaining disciplinary electives from the lists below in any combination.

African and African-American Studies

AFR 373: Islam and World Affairs (3)

Anthropology

ASB 325: Peoples of Southeast Asia (3)

Art History

ARS 201: Art of Asia (GCSI OR HU & H & G) (3)

ARS 394: Anime (3)

ARS 394: Modern and Contemporary Chinese Art (3)

ARS 444: Films of India (3)

ARS 472: Art of China (HUAD OR HU) (3)

ARS 473: Art of Japan (HUAD OR HU) (3)

ARS 475: Chinese Painting (HU) (3)

Civic and Economic Thought and Leadership

CEL 494: Political Thought: Islam, Hinduism, Confucianism (3)

Cultural Geography

GCU 240: Introduction to Southeast Asia ((HU or SB) & G) (3)

GCU 326: Geography of Asia (SB & G) (3)

GCU 432: Geography of China (3)

GCU 433: Geography of Southeast Asia (3)

Dance

DCE 114: Dances of India I (2)

DCE 116: T'ai Chi Chuan I (2)

DCE 194: Intro to Chinese Classical Dance (2)

DCE 216: T'ai Chi Ch'uan II (2)

English

ENG 466: Studio Ghibli Films (3)

Film and Media Studies

FMS 426: Films of India (3)

Global Studies

SGS 240: Introduction to Southeast Asia ((HU or SB) & G) (3)

SGS 245: Introduction to India and South Asia (HU & H & G) (3)

SGS 381: Modern Southeast Asia (SB & G & H) (3)

History

HST 108: Introduction to Japan (SB & G & H) (3)

HST 111: Introduction to Asia (GCSI OR HU & H & G) (3)

HST 240: Introduction to Southeast Asia ((HU or SB) & G) (3)

HST 245: Introduction to India and South Asia (HU & H & G) (3)

HST 302: Envisioning Peace (3)

REL 394: Art & Religion in Jain Culture (3)
REL 396: Islam and Politics (HU & G) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in Asia studies (East Asia); BA in Asia studies (South Asia); BA in Asia studies (Southeast Asia); BA in global Asia studies

Other Admission Requirements: There are no specific admission requirements other than a student's desire to learn about Asia.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Graduates who have combined the certificate in Asian studies with their major program of study often decide to pursue employment in teaching, journalism, global finance and banking, international law and global public health. Advanced degrees or certifications may be required for academic or clinical positions.

Atmospheric Sciences Certificate (LAATMSCERT)

Campus: Tempe

Description: Students in the atmospheric sciences certificate program gain a focused understanding of weather, climate and the various related methods of measurement and instrumentation. The coursework is designed to give students the knowledge and skill set necessary for approaching meteorology-related programs through the lens of their primary field of study.

The certificate program's curriculum is also associated with the requirements for certification as a meteorologist by the National Weather Service. By completing the atmospheric sciences certificate and the BS program in geography with a concentration in meteorology-climatology, students acquire geographic information systems expertise and meteorological instrumentation skills required for national-level certification with the National Weather Service.

Program Requirements:

The certificate requires 19 credit hours with a "C" (2.00 on a 4.00 scale) or higher. At least 12 of the 19 credit hours must be upper-division coursework.

Required Courses -- 16 credit hours

GPH 213: Climate and Weather (SCIT OR SG) (3)
GPH 215: Climate and Weather Laboratory (SCIT OR SG) (1)
GPH 412: Physical Meteorology (3)
GPH 413: Meteorological Instruments and Measurement (3)
GPH 414: Climate Change (SUST OR G) (3)
MAT 275: Modern Differential Equations (MATH OR MA) (3)

Upper-Division Elective (choose one) -- 3 credit hours

GIS 311: Geographic Information Science III (QTRS OR CS) (4)
GIS 341: Cartography and Georepresentation (QTRS OR CS) (3)
GIS 351: Air Photo Interpretation (3)
GPH 314: Global Change (SUST OR HU & G) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Applicants must have completed GPH 111 Introduction to Physical Geography, MAT 271 Calculus with Analytic Geometry II, and PHY 121 University Physics I: Mechanics with a grade of "C" or better (scale is 4.00 = "A").

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: A certificate in atmospheric sciences is a valuable addition to a degree for students looking for a career in which understanding weather systems could be beneficial, including career fields related to sustainability, resource management and more.

When combined with a BS in geography with a concentration in meteorology-climatology, students earning the certificate in atmospheric sciences are prepared for careers as meteorologists, such as broadcast meteorologists with the National Weather Service. They are also prepared to continue their studies for an advanced degree.

Bilingual Education and English as a Second Language Certificate (TEESLCERT)

Campus: Tempe, SYNC

Description: The certificate program in bilingual education and English as a second language prepares students to work with a growing population of culturally and linguistically diverse learners.

This certificate program allows graduates to meet requirements for endorsements in Bilingual Education and English as a Second Language through the Arizona Department of Education. This certificate program can be added to the following degree programs at Mary Lou Fulton Teachers College:

- BAE in early childhood education
- BAE in elementary education
- BAE in physical education
- BAE in secondary education
- BAE in special education

In this program, students learn and apply knowledge and skills in areas related to second language acquisition, biliteracy and bilingualism, culturally relevant and sustaining pedagogies and evidence-based instructional practices that value language diversity as an asset. Additionally, the certificate program helps students develop critical perspectives that allow them to advocate for equitable support systems that meet the needs of linguistically diverse children and families.

This program does not lead to teacher certification.

Format option

This program is also offered via ASU Sync (<https://education.asu.edu/degree-programs/undergraduate-programs/asu-sync-statewide>). ASU Sync enables students to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers. ASU Sync students need to reside in Arizona throughout the duration of the program. Students on I-20 visas are not permitted to complete courses via Sync and should speak with an advisor about other options to complete this program.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill (<https://www.benefits.va.gov/gibill>).

Program Requirements:

To be eligible to apply for an English as a Second Language Endorsement or a Bilingual Education Endorsement, students must complete this certificate, complete their teacher preparation program, and provide verification of second language experience. The ESL endorsement requires second language learning experience which can be satisfied through the completion of two undergraduate foreign language classes. The BLE endorsement requires verification of proficiency in a spoken language other than English or sign language which can be satisfied through an external test. Students majoring in Special Education who want to obtain the BLE endorsement will be required to take one additional course in teaching students with exceptionalities from non-English language backgrounds.

This certificate requires 18 credit hours. A "C" or better is required in all coursework.

Required Courses -- 18 credit hours

BLE 220: Foundations of Structured English Immersion (HUAD OR L) or BLE 408: Structured English Immersion (SEI) Methods (L) (3)

BLE 336: Culturally Sustaining and Transformative Pedagogies (3)

BLE 338: Foundations of Second Language Acquisition and Development (L) (3)

BLE 400: Principles of Language Minority Education (3)

BLE 481: Elementary Multilingual Education Practicum (3)

TEL 340: Families, Communities and Cultures: Cultivating Networks of Culturally Responsive Relationships (SOBE OR SB) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: This certificate program is open only to students majoring in the early childhood education, elementary education, special education, secondary education and physical education undergraduate teacher preparation programs in Mary Lou Fulton Teachers College.

Students should have a valid Arizona DPS Identity Verified Print fingerprint clearance card.

A GPA of 2.25 is required for continued good standing. Students should contact Mary Lou Fulton Teachers College for more information.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student but may not be eligible for an institutional recommendation for Arizona teaching licensure without additional preparation beyond the certificate.

Career Opportunities: Graduates of Mary Lou Fulton Teachers College are highly sought-after teachers in public, charter and private education institutions, including the increasing number of dual-language programs.

Biomedical Research Certificate (ASBMRCERT)

Campus: West

Description: The biomedical research certificate program combines authentic research experience conducted in laboratories of practicing academic scientists with upper-division coursework, including laboratory courses, that allows for specialization in given subject areas, giving students competency in addressing scientific questions in the laboratory.

The program is offered by the School of Mathematical and Natural Sciences.

Program Requirements:

The certificate in biomedical research consists of 15 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Mathematical and Natural Sciences. Nine credit hours must be counted toward the certificate alone and may not be shared with a student's major requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Core Requirement -- 3 credit hours

STP 280: Probability and Statistics for Researchers (QTRS OR CS) (3)

Upper-Division Elective Requirements -- 8 credit hours

Complete at least two of the lecture/lab combinations below.

BCH 371: Modern Concepts in Biochemistry AND BCH 372: Modern Concepts in Biochemistry Laboratory (4)

BIO 353: Cell Biology AND BIO 354: Cell Biology Laboratory (4)

BIO 360: Animal Physiology AND LSC 359: Animal Physiology Laboratory (4)

BIO 443: Applied Molecular Genetics and Genomics AND LSC 447: Molecular Genetics Laboratory (4)

MIC 443: The Microbial Universe AND MIC 444: The Microbial Universe Laboratory (4)

Research Experience -- 4 credit hours

ACO 399: Supervised Research (1-3)

ACO 492 / BIO 492 / ENV 492 / FOR 492 / LSC 492 / MAT 492 / PTX 492 / STP 492: Honors Directed Study (1-3)

ACO 493 / BIO 493 / ENV 493 / FOR 493 / LSC 493 / MAT 493 / PTX 493 / STP 493: Honors Thesis (L) (1-3)

BIO 495: Undergraduate Research (1-3)

ENV 388 / FOR 388 / LSC 388 / PLB 388 / PTX 388: STEM Research Fundamentals (3)

ACO 499: Individualized Instruction or BIO 499 / ENV 499: Individualized Instruction or FOR 499 / LSC 499: Individualized Instruction or MAT 499:

Individualized Instruction or PLB 499 / PTX 499 / STP 499: Individualized Instruction (1-3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: This program requires a cumulative GPA of 3.00 in ASU coursework and upper-division standing or graduate student status.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: This certificate prepares students to be highly competitive for careers in the research sector or to pursue graduate and professional schools, such as medical school. Those who complete the biomedical research certificate are prepared for such positions as laboratory researchers or technicians, pharmacists, medical scientists, and molecular and cellular biologists.

Biomimicry Certificate (SUBMYCERT)

Campus: Tempe

Description: The undergraduate biomimicry certificate is an 18-credit-hour interdisciplinary opportunity for students from a variety of backgrounds and any major. The certificate program is designed to address the growing interest in biomimicry knowledge and training.

The knowledge, competencies and skills students have upon completion of this program include the ability to:

- apply Life's Principles to specific needs within one's discipline
- facilitate the integration of biology into design within one's discipline using biomimicry thinking
- guide processes in one's discipline toward sustainability from a biomimetic perspective
- integrate biomimicry thinking into a discipline-specific opportunity resulting in biomimetic outcomes
- interpret observations in nature with a functional lens for design applications

The biomimicry certificate consists of four core classes, one elective course within the student's discipline, and a practicum capstone course offered through either the student's discipline or BMY 430 Biomimicry Practicum.

Program Requirements:

The certificate in biomimicry consists of 18 credit hours, 12 of which are upper division. It takes a minimum of four semesters to complete, due to course sequencing.

A grade of "B" or better is required in all biomimicry certificate courses. Students who earn a "B-" or lower in a certificate course must repeat the course to earn a "B" or better.

Students should complete SOS 110 prior to enrolling in the certificate or in the first semester of enrollment.

Core Courses -- 12 credit hours

BMY 230 / BIO 230: How Nature Works (3)

BMY 302: Principles of Life (3)

Notes: BMY 302 is typically only offered in spring semester.

BMY 304: The Practice of Biomimicry (3)

Notes: BMY 304 is typically only offered in fall semester.

SOS 110: Sustainable World (SUST OR SB) (3)

Upper Division Elective -- 3 credit hours

Upper Division Elective (3)

Notes: Students must complete BMY 230, BMY 302 and BMY 304 prior to the upper division elective. The elective must be biomimicry related and ideally makes a connection between the student's major and the certificate. Students are responsible for identifying elective options and submitting a proposal prior to taking the course. Students must be prepared to present a course syllabus and explain how they will apply biomimicry directly to course assignments. After completing the course, students must complete and submit a one-page form that guides them to reflect on their goals for applying biomimicry to the course, whether and how they succeeded, and what they learned in the process. The course will not be moved in the DARS audit to show completion of the requirement until after the student has completed and submitted the form, which will be provided to them upon approval of the elective. Email cgfadvising@asu.edu with questions about the upper division elective.

Capstone -- 3 credit hours

Upper Division Capstone (3)

Notes: Students must select either BMY 430, or a biomimicry-focused capstone in their corresponding major, or BMY 499 Independent Study (if options 1 and 2 are unavailable). Students must complete BMY 230, BMY 302, and BMY 304 prior to the capstone. With the exception of BMY 430, students are responsible for identifying capstone options and submitting a proposal prior to taking the course. Students must be prepared to provide a course syllabus and explain how they will apply biomimicry directly to course assignments. After completing the course, students must complete and submit a one-page form that guides them to reflect on their goals for applying biomimicry to the course, whether and how they succeeded, and what they learned in the process. The course will not be moved in the DARS audit to show completion of the requirement until after the student has completed and submitted the form, which will be provided to them upon approval of the capstone. Email cgfadvising@asu.edu with questions about the capstone.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Students must have a GPA of 3.00 in order to add the undergraduate certificate in biomimicry.

Before adding the certificate, students must make an appointment (<https://collegeofglobalfutures.asu.edu/student-life/advising/undergraduate-advising>) with a College of Global Futures advisor to review additional details about the requirements. Due to prerequisites and timing of course offerings, the certificate must be initiated no later than the beginning of one's junior year.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue the graduate certificate in biomimicry.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities available to them, students of all majors, including programs in the College of Global Futures, are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Students can find programs specific to their interests on the College of Global Futures Study Abroad (<https://collegeofglobalfutures.asu.edu/student-life/study-abroad/>) webpage and additional opportunities and information on the ASU Global Education Office (<https://goglobal.asu.edu/>) website.

These sites also include additional information about applying for funding to support global travel.

Career Opportunities: Earning a certificate in biomimicry is a transformative step that amplifies the impact of a student's major degree program.

This transdisciplinary endeavor equips students with a specialized skill set rooted in applied, nature-inspired design and innovation. In a world where innovation, creativity and collaboration are highly sought after, this certificate becomes a powerful asset, setting students apart in competitive

job markets.

Biomimicry transcends career boundaries, seamlessly complementing paths in business, technology, science, education or government. It offers an avenue for contributing to meaningful work by emulating the wisdom of the natural world. As students delve into biomimetic principles, they gain the ability to understand and generate sustainable solutions, a skill set in high demand across industries. With a biomimicry certificate, students not only bring the natural world into their professional and personal lives but also bring about positive change, adding transdisciplinary and innovative value to their major degree program.

Brazilian Studies Certificate (LABZSCERT)

Campus: Tempe

Description: The certificate in Brazilian studies allows students to study important areas and specific issues in Brazilian culture, including popular and urban culture and foundational literature, and gain proficiency in the Portuguese language.

With specialization in either language or culture, the program's language training includes live interactions with native speakers through virtual meetings with Brazilian students or coaches.

All students in the program, regardless of concentration, take coursework on topics such as food and culture, democracy, the African diaspora and environmental issues. Students develop public-facing capstone projects, such as podcast series and opinion pieces, expanding their skill set to include teamwork, organizational skills and public speaking and writing.

Program Requirements:

The Brazilian studies certificate requires 18-20 credit hours of Portuguese language and elective culture content coursework, of which 12 credit hours must be upper division. A grade of "C" (2.00 on a 4.00 scale) or better is required in all coursework. Students choose one two-course language sequence for a total of 6-8 credit hours of Portuguese language.

Course substitutions may be permitted for heritage speakers of Portuguese based on their proficiency level as determined by a Portuguese placement test. The language course substitution for advanced speakers of Spanish language can be satisfied by the two-course POR 320 and POR 321 sequence.

Portuguese Language -- 6 credit hours

Choose one two-course sequence for 6-8 credit hours. The upper-division two-course language sequence is 6 credit hours total.

POR 101: Elementary Portuguese I (G) AND POR 102: Elementary Portuguese II (G) (8)

POR 201: Intermediate Portuguese I (G) AND POR 202: Intermediate Portuguese II (G) (8)

POR 301: Portuguese for Spanish Speakers I AND POR 302: Portuguese for Spanish Speakers II (6)

POR 313: Portuguese Conversation and Culture (G) AND POR 314: Portuguese Composition and Culture (G) (6)

Notes: POR 313 and POR 314 may be applied to either Portuguese Language or to Upper-Division Electives but may not be applied and counted in both categories for this certificate.

Upper-Division Electives -- 12 credit hours

GCU 323: Geography of Latin America (GCSI OR SB & G) (3)

GCU 485 / PUP 485: International Field Studies (G) (3)

POR 313: Portuguese Conversation and Culture (G) (3)

POR 314: Portuguese Composition and Culture (G) (3)

POR 394: Special Topics (3)

POR 460: Brazilian Society Through Music (HU & G) (3)

POR 472: Transatlantic Encounters: Brazil and Portugal (HU & G) (3)

POR 484: Internship (3)

POR 490: Consumer Culture in Latin America (3)

POR 493: Honors Thesis (L) (3)

POR 494: Special Topics (3)

POR 499: Individualized Instruction (3)

*Other courses may be used with approval from the faculty coordinator and academic advisor in the School of International Letters and Cultures.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Graduates can become more marketable to employers and advance their career options when they have earned an undergraduate certificate that complements their major program of study.

Those who have completed this certificate in Brazilian studies along with their major often decide to pursue employment in education, political analysis, the military, tourism and hospitality, or marketing.

Civic Education Certificate (LACVECERT)

Campus: Tempe

Description: The civic education certificate program is geared toward students who seek to actively engage in or teach others about political issues and reforms.

Coursework in the certificate provides a strong foundation in the theories and ideologies that provide the motivation and reasoning for much political activity. In addition, a civics in action component of the program enables students to investigate how contemporary American political institutions grapple with competing interests, values and civic ideas.

Program Requirements:

The certificate in civic education is comprised of 15 credit hours in political science. At least 12 credit hours must be upper division. A minimum of six upper-division credit hours must be taken in courses offered by The College of Liberal Arts and Sciences. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Theoretical Foundations -- 6 credit hours

POS 210: Political Ideologies (CIVI OR SB) (3)

POS 442: American Political Thought (HUAD OR HU) (3)

Moral Foundations of Politics (choose one course) -- 3 credit hours

POS 340: History of Political Philosophy I (HU) (3)

POS 341: History of Political Philosophy II (HU) (3)

POS 346: Problems of Democracy (HUAD OR HU) (3)

POS 443: Topics in Contemporary Political Theory (HU) (3)

POS 475: Morality and Politics (3)

Civics in Action (choose two courses) -- 6 credit hours

POS 313: The Congress (AMIT OR SB) (3)

POS 314: The American Presidency (AMIT OR SB) (3)

POS 315: The Supreme Court (SB) (3)

POS 325: Public Policy Development (CIVI OR SB) (3)

POS 332: American Political Parties (SB) (3)

POS 333: Interest Groups (SB) (3)

POS 348: Do You Want to Build a Nation? (CIVI OR L) (3)

POS 370: Law and Society (CIVI OR SB) (3)

POS 410: Governing American Cities (SB) (3)

POS 417: Arizona Politics (SB) (3)

POS 435: Women and Politics (SOBE OR SB & C) (3)

POS 439: Minority Group Politics in America (SB & C) (3)

POS 470: Law and the Political Order (SB) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Requests to declare this certificate are reviewed by the academic advisor in the academic unit offering the certificate. Students may be contacted to discuss the certificate prior to the addition of the certificate to the student record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Graduates who have combined the certificate in civic education with their major program of study may become more marketable to employers. The program helps prepare students for fields in which an understanding of citizenship, leadership, community, democracy, public responsibility and ethics is crucial, such as:

- business
- civic and social movements
- education (social studies)
- history
- journalism
- law
- politics
- public administration
- public service
- social work

Civil Communication Certificate (LACCOMCERT)

Campus: Tempe

Description: The certificate program in civil communication provides students with specific training in dialogue-based methods of civility, the application of critical civil communication skills in public spheres, and civil and productive modes of argumentation.

This specialization enables students to recognize and competently practice and facilitate civil discourse --- for which there is an ever-increasing demand --- in society and in workplace organizations. The foundational courses offer the opportunity for transdisciplinary collaboration and community engagement.

Program Requirements:

The certificate requires 18 credit hours. Nine of the 18 credit hours must be ASU resident-credit courses, including six upper-division credit hours offered by The College of Liberal Arts and Sciences. Twelve credit hours must be completed at the upper-division level. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Required Courses -- 9 credit hours

- COM 222: Argumentation (CIVI OR L) (3)
- COM 225: Public Speaking (CIVI OR L) (3)
- COM 327: Civil Communication (3)

Electives (select three) -- 9 credit hours

- COM 312: Communication, Conflict, and Negotiation (CIVI) (3)
- COM 319: Persuasion and Social Influence (CIVI OR SB) (3)
- COM 321: Rhetorical Theory and Research ((L or HU) & H) (3)
- COM 325: Advanced Public Speaking and Presentations (CIVI OR L) (3)
- COM 341: Social Contexts for Performance (3)
- COM 421: Rhetoric of Social Issues (HU) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Requests to declare this certificate are reviewed by the academic advisor in the academic unit offering the certificate. Students may be contacted to discuss the certificate prior to the addition of the certificate to the student record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Graduates who have combined the certificate in civil communication with their major program of study may be more marketable to employers. They often decide to pursue employment in social services, public policy or workplace organization.

Advanced degrees or certifications may be required for academic or clinical positions.

Classical Studies Certificate (LACLG CERT)

Campus: Tempe

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Description: The classical studies program offers students a wide variety of opportunities to study the language, literature and culture of the ancient Greeks and Romans. It is ideal for students interested in pursuing a classical education in conjunction with another major or as part of their General Studies requirements.

Program Requirements:

Enrollment Requirements: Requests to declare this certificate are reviewed by the academic advisor in the academic unit offering the certificate. Students may be contacted to discuss the certificate prior to the addition of the certificate to the student record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Graduates who have combined the certificate in classical studies with their major program of study may become more marketable to employers. They often decide to pursue employment in education, arts and humanities, tourism and hospitality, or marketing.

Communication Sciences and Disorders Certificate (NHCSDCERT)

Campus: Tempe

Description: The postbaccalaureate certificate in communication sciences and disorders is for students who have already received a bachelor's degree in another discipline and wish to pursue a master's degree in speech-language pathology or communication disorders.

The coursework provides students with the prerequisite background and knowledge necessary to perform at the master's degree level in the field. In most cases, students will be able to complete the certificate within one calendar year.

Completion of the postbaccalaureate certificate does not guarantee admission to ASU's graduate program, but it enables students to meet the requirements of the American Speech-Language-Hearing Association to enter master's degree programs in speech-language pathology or communication disorders.

Program Requirements:

The certificate requires 27 credit hours. A "C" minimum is required for all courses in the certificate, although students must maintain a 3.00 GPA in the certificate program.

Required Courses -- 27 credit hours

SHS 250: Introduction to Phonetics (3)

SHS 310: Anatomical and Physiological Bases of Speech (3)

SHS 311: Hearing Science (3)

SHS 367: Language Science (SOBE OR SB) (3)

SHS 375: Speech Science (3)

SHS 401: Principles of Audiology (3)

SHS 402: Clinical Methods and Treatment of Communication Disorders (3)

SHS 496: Aural Rehabilitation (3)

SHS 565: Speech and Language Acquisition (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Prospective students must have earned a bachelor's degree in a field outside of speech and hearing science with a minimum GPA of 3.00 (scale is 4.00 = "A").

Individuals interested in this certificate must apply for university admission as nondegree-seeking graduate students and submit a supplemental application (https://asuhealthpromotion.co1.qualtrics.com/jfe/form/SV_5j2kHhIrtHGfApM) to the program. The certificate may be started in a fall or spring term. See the supplemental application for more information regarding the application process and deadlines.

Career Opportunities: This certificate program provides postbaccalaureate students with the academic preparation they need to apply to graduate programs in communication sciences and disorders.

The program serves to prepare those who wish to transition to the speech-language pathology assistant certificate, with the eventual goal of becoming a speech-language pathology assistant.

Communication Training and Assessment Certificate (ASCTACERT)

Campus: West

Description: The certificate program in communication training and assessment prepares students to assess communication skills in business, professional and community settings and to develop training efforts that help others improve their communication skills.

Access to the award-winning, state-of-the-art CommLabASU facilitates skill development in communication training, presentation skills, professional development and assessment practices.

The combination of relevant coursework and hands-on experience developed through CommLabASU provides students with the knowledge and expertise necessary to train others in a variety of professional and community settings.

Program Requirements:

The certificate in communication training and assessment consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of nine upper-division credit hours must be completed through courses offered by the School of Social and Behavioral Sciences. A maximum of six credit hours may be shared between the certificate and a major. All courses used to satisfy requirements for the certificate must be passed with a "C" (2.00) or better.

Core Requirements -- 12 credit hours

COM 225: Public Speaking (CIVI OR L) or COM 325: Advanced Public Speaking and Presentations (CIVI OR L) or COM 342: Oral History and Storytelling (3)

COM 383: Communication and Mentoring or COM 483: Advanced Communication and Mentoring (3)

COM 453: Communication Training and Development (3)

COM 482: Communication, Instruction and Training (3)

Electives -- 6 credit hours

COM 230: Small Group Communication (SOBE OR SB) (3)

COM 259: Communication in Business and the Professions (CIVI) (3)

COM 312: Communication, Conflict, and Negotiation (CIVI) (3)
COM 319: Persuasion and Social Influence (CIVI OR SB) (3)
COM 353: Professional Communication (3)
COM 415: Risk Communication (3)
COM 430: Leadership in Group Communication (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: The certificate in communication training and assessment provides a solid background for opportunities in government, private industry and nonprofit organizations. Potential positions include:

- advertising and promotions manager
- human relations manager
- marketing associate
- marketing manager
- mediator
- public relations and fundraising manager
- public relations specialist
- sales manager
- training and development manager

Community-Engaged Practices in Design and the Arts Certificate (HISEPCERT)

Campus: Tempe

Description: This hands-on program places designers, artists, scholars and educators in public life and enables them to use their creative capacities to advance culture, strengthen democracy and imaginatively address today's most pressing challenges.

This integrated community-engaged design and arts certificate program serves all Herberger Institute students as well as the larger ASU community. Participants engage in direct and ethical partnership and collaboration with communities and with civic and industry partners, enabling them to learn and practice programming that activates partner goals and facilitates experiential learning and creation.

Program Requirements:

This certificate requires 15 credit hours; including 12 hours of upper-division coursework. All courses must be completed with a minimum grade of "C" (2.00) or better. An overall 3.00 GPA is required for this certificate.

Core -- 3 credit hours

HDA 210: Creativity and Innovation in Design and the Arts (3)

Community Engagement -- 3 credit hours

ARS 441: Public Art (3)

ART 442: Art and Community (3)

DCE 494 / HDA 494 / THP 494: The Atlas of Creative Tools (3)

DSC 494: Indigenous Architecture, Planning and Construction (3)

DSC 494: Indigenous Project Delivery (3)

EDS 301: Sustainable Community Design and Practices (SUST OR HU) (3)

HDA 310: Socially Engaged Practice (3)

HDA 394: Design & Arts Corps (1-3)

HDA 394: Disrupt, Create, Sustain (3)

HDA 494: Civic Body: Art and Public Health (3)

HDA 494: Civ Prac: Artists&Designers Collaborating/Comm (3)

HDA 494: Civic Practice:Arts/Design & Public Partnerships (3)
HDA 494: Creative Facilitation: Collaboration, Imagination (3)
HDA 494: Creative Project Management (3)
HDA 494: Design & Arts Corps (1-3)
HUL 494: Special Topics (3)
Notes: Any topic offered through ASU's Humanities Lab (<https://humanities.lab.asu.edu/>)
NLM 410: Social Entrepreneurship (3)
THP 482: Theatre for Social Change (CIVI OR C) (3)

Fieldwork / Internship -- 3 credit hours

HDA 410: Design and the Arts Corps Seminar (3)

Notes: HDA 410 may be satisfied with other Capstone or Internship Experiences as approved by the program faculty coordinator.

Electives -- 6 credit hours

AME 310: Media Literacies and Composition (3)
AME 340: Compositional and Computational Principles for Media Arts (3)
AME 411: Advanced Interactive Sound (3)
AME 444: Media Installations (3)
AME 436: Animating Virtual Worlds (3)
ARS 441: Public Art (3)
ART 439: Studio Inquiry: Practice and Cultural Context (3)
ART 442: Art and Community (3)
ART 443: Performance Art: Actions, Gestures, Journeys (3)
DCE 303: The Body Condition(ed) (SOBE OR SB) (3)
DCE 333: Hip Hop III (3)
DCE 360: Creative Practices V (3)
DCE 404: Dance and Ethics (L) (3)
DCE 405: Writing the Creating Body (HUAD OR L or HU) (3)
MDC 311: Composing and Performing for Hybrid Ensembles (3)
MHL 342: Music History II (HU) (3)
MHL 344: Music in World Cultures (GCSI OR HU & G) (3)
MUP 489: Gamelan (3)
MUP 489: Latin Marimba (3)
MUS 362: Rap Music and Hip Hop Culture (HUAD OR HU & C) (3)
NLM 410: Social Entrepreneurship (3)
NLM 430: Managing Nonprofit Organizations (L) (3)
NLM 451: Grant Writing (3)
PAF 410: Building Leadership Skills (SOBE OR SB) (3)
PAF 420: Managing Across Boundaries (3)
TDM 448: Heritage and Cultural Tourism (3)
THP 451: Student Production Board II (3)
THP 482: Theatre for Social Change (CIVI OR C) (3)
THP 483: Acting: Viewpoints and Composition (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A minimum GPA of 3.00 is required to complete the certificate. The certificate is administered through the Office of Student Success in the Herberger Institute of Design and the Arts and through the Design and Arts Corps, and it is open to all undergraduate students admitted to ASU.

Students enrolled in the BA in the arts program in the institute must complete three additional credit hours of coursework unique to the certificate program that does not also count toward their major; this is due to the overlapping requirements of HDA 210 and HDA 310.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: This certificate program allows students to develop unique pathways that also earn micro-credentials across a broad range of competencies including ethical communication, group facilitation, project structuring and evaluation, project management, ethics and asset-based community cultural development. These competencies prepare graduates for excellence in a range of occupations.

Computational Life Sciences Certificate (LACLSICERT)

Campus: Tempe, Online

Description: In the computational life sciences certificate program, students discover a burgeoning new field where huge leaps in processing technologies have thrown open the doors for new research techniques and interdisciplinary collaborations.

Students engage with a suite of tools and approaches that enable them to uncover correlations, glean new understanding and help solve scientific problems.

Using their mastery of these new techniques, students examine data generated from a range of fields, including ecology, botany, evolutionary biology, neuroscience, molecular and cellular biology and animal behavior. Students investigate topics such as DNA, RNA, protein, imaging, conservation and historical data, and explore the ethical implications of collecting, storing, analyzing and sharing the results of computational life science data.

Program Requirements:

The certificate in computational life sciences requires a minimum of 15 credit hours, of which at least 12 credit hours must be upper division. The core consists of one computing course and one ethics course. A minimum of nine credit hours in elective courses complete the certificate. The computing course not used toward the core requirements may be used toward the elective credit hours. A grade of "C" (2.00 on a 4.00 scale) or higher is required for all courses used toward the certificate.

Required Courses -- 6 credit hours

BIO 312 / PHI 320: Bioethics (HUAD OR HU) or BIO 316 / HPS 330: History of Biology: Conflicts and Controversies (HUAD OR H) or BIO 317 / HPS 323: History of Science II (HUAD OR HU & H) or BIO 318 / HPS 331: History of Medicine (HUAD OR HU & H) or BIO 416 / HPS 410: Biomedical Research Ethics (L) (3)
BIO 439: Computing for Research or BIO 440 / MBB 440: Functional Genomics (3)

Electives -- 9 credit hours

BIO 355 / MAT 355 / MBB 355: Introduction to Computational Molecular Biology (CS) (3)
BIO 411: Quantitative Methods in Conservation and Ecology (4)
BIO 415: Statistical Models for Biology (QTRS OR CS) (4)
BIO 439: Computing for Research (3)
BIO 440 / MBB 440: Functional Genomics (3)
BIO 479: Data Analysis and Visualization in R (3)
BIO 494: Computational Genomic Analysis (3)
BIO 494: Data Analysis in Neuroscience (3)
BIO 498: Programming for biologists (3)
BME 494: Systems Biology of Disease (3)
BMI 311: Modeling Biomedical Knowledge (3)
BMI 312: Modeling Biomedical Data (3)
BMI 330: Topics in Translational Bioinformatics (3)
DAT 301: Exploring Data in R and Python (4)
GIS 469 / SOC 469: Multivariate Statistics for Social Sciences (3)
GIS 471: Spatial Statistics for Geography and Planning (3)
MAT 353: Mathematics and Cancer (3)
MAT 451: Mathematical Modeling (CS) (3)

If not used as the required computing course, students may include BIO 439 or BIO 440 as a certificate elective.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's
2024-25 Academic Catalog Archive

ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Able to summarize key computational concepts, such as algorithms and relational databases, and their applications in the life sciences, and apply statistical concepts used in computational life sciences.
- Use bioinformatics tools and command line bioinformatics tools, and write simple computer scripts to find, retrieve, and organize various types of biological data.
- Interpret the ethical, legal, medical, and social implications of biological data.

Career Opportunities: The computational life sciences certificate program provides students with data interpretation skills and experience using new computational approaches and programs. When combined with a major program of study, graduates will be in high demand for roles identifying and interpreting data in a variety of fields, including ecology, medicine, botany, evolutionary biology and animal behavior.

Advanced degrees or certifications may be required for academic or clinical positions.

Computer Gaming Certificate (ESSCICERT)

Campus: Tempe

Description: The computer gaming certificate program is designed to provide a game development skill set that the student can apply to domain-specific applications in their major. The skill set includes architecture of game engines, art design and computer graphics for gaming, and game software development.

In this certificate program, students learn to apply gaming technology to the rapidly growing video game industry and to business, medicine, geography, biotechnology and education. Examples of projects include:

- building a game that teaches linear algebra by incorporating trigonometric rules into the game design
- creating a game that teaches correct sentence construction to beginning learners of English
- creating a game to help patients with physical therapy
- creating an interactive virtual world for corporate training
- designing a game platform incorporating geographic information systems
- inventing a surgical simulation to educate medical students

Program Requirements:

Students will complete nine credit hours of core courses (including a final capstone project) and nine credit hours of elective courses. The certificate requires 12 credit hours of upper-division coursework. All courses must be passed with a "C" or better. Students need to allow at least three years to complete the certificate program due to the prerequisite structure.

Core Courses -- 9 credit hours

CPI 111: Game Development I (QTRS OR CS) (3)

CPI 211: Game Development II (3)

CPI 441: Gaming Capstone (3)

Notes: CPI 441 is only offered in Spring semesters

Electives -- 9 credit hours

CPI 311: Game Engine Development (3)

Notes: CPI 311 is only offered in Fall semesters

CPI 321: Fundamentals of Game Art (3)

Notes: CPI 321 is only offered in Spring semesters

CPI 394: Game Design Fundamentals (3)

CPI 411: Graphics for Games (3)

Notes: CPI 411 is only offered in Spring semesters

CPI 421: 3-D Modeling and Texturing (3)

Notes: CPI 421 is only offered in Fall semesters

CPI 462: Design for Learning in Virtual Worlds (3)

Notes: CPI 462 is offered infrequently

CPI 484: Internship (3)

FMS 365: Video Games and Narrative (3)

SER 431: Advanced Graphics (3)

Notes: SER 431 is offered infrequently

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: The computer gaming certificate is open to any student admitted to an undergraduate degree program at ASU who is in good academic standing. This certificate can also be used by interdisciplinary studies BA students as part of their degree program.

All students are eligible to take CPI courses alongside their major, but they must follow the course prerequisite structure. Students must also note that some courses are offered only in fall or in spring; as a result, the courses may take two years to complete.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate the ability to apply game development techniques in solving real-world problems in different application domains.
- Demonstrate the ability to create a portfolio of hands-on games and prototypes using state-of-the-art technology.

Career Opportunities: Students can advance their career options with an undergraduate certificate. Those who have added this computer gaming specialization as a complement to their major program of study may be more marketable to employers in the gaming industry.

Convention Sales and Meeting Planning Certificate (PPTDMCERT)

Campus: Downtown Phoenix

Description: The certificate program in convention sales and meeting planning provides students a solid foundation in convention sales and management by incorporating the scope of convention properties, budgeting, contracting and risk management. Students can explore this exciting growth industry, learn marketing and sales strategies to attract convention and meeting markets, and master the techniques required for accommodating the needs of meeting and convention services.

The U.S. meetings, conventions and exhibitions industry generates more than \$120 billion a year, supporting nearly two million jobs.

Phoenix alone is a major convention and meeting destination. There is a need for qualified professionals to service conventions and meetings, due in large part to the \$600 million investment in the Phoenix Convention Center expansion, development of new hotels and other visitor-related products, and the steady influx of corporate headquarters relocating to the greater Phoenix area.

The certificate, which has been endorsed by the Greater Phoenix Convention and Visitors Bureau and the Arizona Sunbelt Chapter of Meeting Professionals International, enhances a graduate's career opportunities as a tourism professional.

Program Requirements:

The certificate requires 15 credit hours: three required core courses (nine credits) and two elective courses (six credits). Courses taken as part of a university major may count toward that degree and the certificate. Requirements can be met online. All core classes and some elective classes are taught online at least once a year. To earn the certificate, students must complete a minimum of 12 upper-division credit hours. An application to the program is required.

Required Core Courses -- 9 credit hours

CRD 350: Tourism, Recreation and Sports Marketing (3)

TDM 345: Meeting and Convention Planning (3)
TDM 386: Convention Sales and Management (3)

Electives (choose two, one must be upper division) -- 6 credit hours

NLM 310: Volunteer Management (CIVI) (3)
PRM 145: Special Events Management (3)
TDM 205: Introduction to Travel and Tourism (GCSI OR G) (3)
TDM 225: Introduction to Hotel, Resort and Lodging Management (3)
TDM 458: International Tourism (GCSI OR G) (3)

Standards

1. Fifteen credit hours of graded classroom coursework are required (no internship, no independent study).
2. A minimum "C" (2.00 on a 4.00 scale) grade is required for all classes in the certificate.
3. A minimum GPA of 2.00 is required for those pursuing the certificate.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Other Enrollment Requirements: None

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply programmatic principles relevant to the convention industry to a variety of scenarios.
- Plan an event using current practices and concepts.

Career Opportunities: The field of convention sales and meeting planning comprises a multitude of areas, including fundraising, recruitment, coordination, supervision and a variety of management responsibilities. The demand for professionals is high, and this program provides an excellent foundation for enhancing career opportunities nationally, regionally and locally.

Correctional Studies Certificate (PPCRTSCERT)

Campus: Downtown Phoenix

Description: The certificate program in correctional studies educates students about a variety of components that make up the corrections system.

It is designed to provide students with understanding and knowledge of the histories, philosophies and contemporary practices of both institutional and community corrections. The program emphasizes evidence-based best practices concerning the rehabilitation of correctional clients to reduce recidivism.

Program Requirements:

Required Courses -- 15 credit hours
CRJ 100: Introduction to Criminal Justice (SOBE OR SB) (3)
CRJ 240: Introduction to Corrections (3)
CRJ 443: Community Corrections (3)
CRJ 444: Institutional Corrections (3)
CRJ 445: Tools for Engaging Correctional Populations (3)

Electives (choose one) -- 3 credit hours

CRJ 317: Inside-Out Prison Exchange Program (3)
CRJ 394: Special Topics (3)

Notes: Only approved corrections-related topics

CRJ 406: Sex Crimes (3)

CRJ 411: Legal Issues in Corrections (3)

CRJ 434: Drugs of Abuse (3)

CRJ 435: Crime and Forensic Mental Health (SOBE OR SB) (3)

CRJ 484: Internship (3)

CRJ 494: Special Topics (3)

Notes: Only approved corrections-related topics

Special Topics courses (CRJ 394 and CRJ 494) will be designated and approved by departments and schools. Students will need to work with an advisor in order to select appropriate special topics courses that are approved for credit in the correctional studies certificate program.

At least 15 credit hours must be taken in residence at ASU.

Lower-division courses such as CRJ 100 (Introduction to Criminal Justice) and CRJ 240 (Introduction to Corrections) may be used to satisfy the requirements of any major or a minor at ASU, as well as requirements for the certificate program in correctional studies. No upper-division courses in criminology and criminal justice, however, may be used to satisfy the requirements of the certificate program in correctional studies and either the major or minor in criminology and criminal justice. For example, students majoring or minoring in criminology and criminal justice may not use CRJ 394, CRJ 406, CRJ 411, CRJ 434, CRJ 435, CRJ 443, CRJ 444, CRJ 445, CRJ 484, or CRJ 494 to satisfy the requirements of the certificate in correctional studies and either the major or minor in criminology and criminal justice.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: CRJ 100 Introduction to Criminal Justice is a requirement for the bachelor's degree program and the minor in criminology and criminal justice, and its completion satisfies the requirements of the major or minor as well as the requirement for the certificate program in correctional studies.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze the historical and contemporary trends and operations of community and institutional corrections.
- Apply knowledge of effective strategies for engaging and implementing rehabilitative programming to a variety of correctional populations.

Career Opportunities: Graduates of the correctional studies certificate program find a strong job market in the public and private sectors. Employment opportunities exist in supervisory and management positions in criminal justice agencies, including the National Institute of Corrections, the Federal Bureau of Prisons, and local and state-level corrections departments.

Advanced degrees or certifications may be required for academic or clinical positions.

Contact Information:

Public Service and Community Solutions, Watts College of

School of Criminology and Criminal Justice

UCENT 600

SCCJAdvising@asu.edu

602-496-1658

Criminal Investigations Certificate (PPCRICERT)

Campus: Downtown Phoenix, West

Description: The certificate in criminal investigations educates students about a variety of aspects of criminal investigations and criminalistics. The program is designed to provide students of the social sciences, natural sciences, humanities and public services with an understanding of the nature of criminal evidence; the language of forensic science; the scope, probative value and limitations of a variety of investigative specializations and their techniques; and an appreciation of how forensic investigative methods are used in the quest for justice.

Program Requirements:

Required Courses -- 12 credit hours

CRJ 100: Introduction to Criminal Justice (SOBE OR SB) (3)

CRJ 210: Introduction to Criminal Investigations (3)

CRJ 211: Documenting the Crime Scene (3)
CRJ 410: Criminal Procedure I: The Law of Investigations (3)

Electives (choose three) -- 9 credit hours

CRJ 321: Evidence: Imperatives of Proof (3)
CRJ 433: Death Investigations: Principles of Forensic Medicine (3)
CRJ 434: Drugs of Abuse (3)
CRJ 435: Crime and Forensic Mental Health (SOBE OR SB) (3)
CRJ 450: Crime Analysis (QTRS OR CS) (3)
CRJ 484: Internship (1-6)
CRJ 494: Special Topics (3)

Notes: only in approved investigations-related topics

FOR 350: Computer Forensics (3)
FOR 394: Special Topics (3)

Notes: only in approved investigations-related topics

FOR 410: Testimony and Ethics in the Forensic Sciences (L) (3)
FOR 484: Internship (1-6)

1. Special Topics courses (FOR 394 and CRJ 494) will be designated and approved by departments and schools. Students will need to work with an advisor in order to select appropriate special topics courses that are approved for credit in the criminal investigations certificate program.
2. At least 12 credit hours must be taken in residence at ASU.
3. A "C" (2.00 on a 4.00 scale) or better is required in all course work required for the certificate.
4. Upper-division coursework may not be used to satisfy the requirements of both a major and the certificate. Thus, if any elective courses in the certificate program are being used to satisfy the requirements of a major, different elective courses must be taken to satisfy the requirements of the certificate program. For example, students majoring in criminology and criminal justice may not use CRJ 321, CRJ 410, CRJ 433, CRJ 434, CRJ 435, CRJ 450, CRJ 484 or CRJ 494 to satisfy the requirements of the major and the certificate in criminal investigations. Similarly, students majoring in forensic science may not use FOR 350, FOR 410 or FOR 484 to satisfy the requirements of the major and the certificate in criminal investigations.

Prerequisite Information

Prerequisite courses may be needed in order to complete the requirements of this certificate.

CRJ 100 Introduction to Criminal Justice is a prerequisite requirement to enroll in CRJ 210, CRJ 211, CRJ 433, CRJ 434, CRJ 435, and CRJ 494.

ACO 100 All About Data: Design, Query, and Visualization is a prerequisite requirement to enroll in FOR 350 Computer Forensics.

Either FOR 286 Principles of Forensic Science or the two semester sequence in FOR 105 and FOR 106 is a prerequisite requirement to enroll in FOR 410 Professional Practices in Forensic Science. ENG 102 or 105 or 108 are also prerequisites for FOR 410.

The completion of at least 45 credit hours is a prerequisite requirement to enroll in FOR 484 Internship.

Enrollment Requirements: Students must complete the following prerequisite courses with a grade of "C" or higher (scale is 4.00 = "A") to be admitted to the certificate program. These courses may be taken in residence at ASU or may be transferred from other institutions, including community colleges.

The following prerequisite courses are required for admission to the certificate program:

For students majoring in the social sciences, humanities or the arts*:

FOR 105 Physical Evidence and the Crime Scene, SQ (4) and
FOR 106 Biology Behind the Crime Scene, SQ (4)

For students majoring in the natural sciences*:

FOR 286 Principles of Forensic Science (4)

*The FOR 105, FOR 106 sequence does not have prerequisites. These courses are designed for students majoring in the social sciences, humanities or arts to meet the natural science requirement of ASU's General Studies program. Thus, students not majoring in the natural sciences who wish to declare the certificate program in criminal investigations must complete the FOR 105, FOR 106 two-course sequence. In contrast, students majoring in the natural sciences, including forensic science, should not take FOR 105 and FOR 106; they need only complete FOR 286: Principles of Forensic Science, which has prerequisite requirements of BIO 181, BIO 182, CHM 113 and CHM 116.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following

program outcomes:

- Apply investigative techniques to patterns of modus operandi, interviewing and interrogation strategies, and surveillance.
- Demonstrate an understanding of the processes involved in collecting evidence from a crime scene as well as the steps involved to present it in court.

Career Opportunities: Graduates of the criminal investigations certificate program find a strong job market in the public and private sectors. In their roles, they can work to stop bank fraud and domestic terrorism. Employment opportunities exist in:

- courts
- federal agencies
- forensics
- homeland security
- law enforcement
- legal offices

Graduates also may pursue advanced degrees in law, criminology and criminal justice, and other social science disciplines. Advanced degrees or certifications may be required for academic or clinical positions.

This program is not designed to prepare students for work in a crime laboratory.

Cross-Sector Leadership Certificate (PPCSLDCERT)

Campus: Downtown Phoenix

Description: The certificate program in cross-sector leadership provides a comprehensive overview of leading solutions to complex social challenges by integrating the public, private, nonprofit and military sectors.

Students engage in a systems-thinking approach to challenges faced by local and global communities, explore the diverse characteristics and motives of each sector in engaging in cross-sector collaborations, and master processes to formalize such partnerships. Students study values-based leadership and how individual, organizational and sector values can drive a leader's ability to act. Students gain leadership skills, such as leading change within and between organizations across multiple sectors, and they learn to use human-centered design, social entrepreneurship and other approaches when tackling community challenges.

Students end the program with a thesis or applied project that integrates the theories, procedures and concepts learned in the certificate courses with experiences from their internships in each sector.

Program Requirements:

The certificate in cross-sector leadership is a requirement for, and is limited to, participants in the Public Service Academy's Next Generation Service Corps, a four-year leadership development track that engages future civilian leaders in the public, private and nonprofit sectors to engage in collaboration and change in the context of social challenges in which they hold interest. Students are required to maintain a 3.00 ASU GPA, a 3.00 GPA across certificate courses and demonstrate forward academic progress to maintain enrollment in the certificate as well as the Next Generation Service Corps. ROTC students also may pursue the certificate, but must maintain a 3.00 GPA in certificate courses.

Required Courses -- 12 credit hours

- PAF 215: NGSC Community Impact Lab (3)
- PAF 311: Leadership and Change (SOBE OR SB) (3)
- PAF 315: Cross-Sector Collaboration (3)
- PAF 415: Social Entrepreneurship (3)

Elective (choose one) -- 3 credit hours

- PAF 394: NGSC Leadership Instruction (3)
- PAF 421: Leadership Capstone (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Enrollment in the certificate program in cross-sector leadership is offered only to students participating in ASU's Next Generation Service Corps or in the Reserve Officers Training Corps. Enrollment requirements for the certificate are the same as admission requirements for the Next Generation Service Corps or Reserve Officer Training Corps (by request). Public Service Academy staff and the Watts College of Public Service and Community Solutions Dean's Office enroll the students.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Identify and design cross-sector collaborations by understanding the nuances of the public, private, and nonprofit sectors.
- Compare innovative methods for finding solutions to address complex social issues, including social entrepreneurship and problem-solving processes of human-centered design.

Career Opportunities: Students can advance their career options with an undergraduate certificate.

Graduates of the certificate in cross-sector leadership have acquired a beneficial knowledge of cross-sector collaboration, advanced leadership skills, and an understanding of how to use these. This complement to students' major program of study may make them more marketable to employers.

Cryptology Certificate (LACRYCERT)

Campus: Tempe

Description: Cryptology is the art and science of making and breaking codes and ciphers. The certificate program in cryptology is designed to provide a strong foundation in the mathematical topics that are most applicable to modern cryptosystems. It also provides specialized knowledge required for understanding and working in the field of mathematical cryptology.

Program Requirements:

This certificate requires 18 credit hours. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses.

Required Courses -- 12 credit hours

MAT 440: Group Theory or MAT 444: Intermediate Abstract Algebra (3)

MAT 445: Theory of Numbers (3)

MAT 447: Cryptography I (3)

MAT 448: Cryptography II (3)

Electives (select two) -- 6 credit hours

MAT 415: Introduction to Combinatorics (3)

MAT 416: Graph Theory (3)

MAT 441: Ring Theory (3)

STP 421: Probability (3)

STP 427: Mathematical Statistics (3)

Students may substitute an approved cryptography-related internship for 3 credit hours of elective coursework.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: This program has additional admission requirements; students should see a college advisor for details. Applicants should be in good academic standing with a "B" or better (scale is 4.00 = "A") in MAT 300 Mathematical Structures or equivalent.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a

nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze security of contemporary cryptosystems, using results from theoretical mathematics.
- Apply appropriate concepts from their elective courses in the certificate to cryptology.

Career Opportunities: A certificate in cryptology offers a wide variety of career possibilities. Some students pursuing this certificate are interested in areas such as government, business, financial, medical and educational industries. These industries require skill sets to secure data, and this program assists students in developing these skills.

Data Science Certificate (ASDTSCERT)

Campus: West

Description: The data science certificate program combines the strengths of database skills with interdisciplinary computational statistics.

The program provides students with an understanding of the computational and statistical methods used to extract insights from complex datasets and provides hands-on experience with them. In particular, it includes courses that cover key techniques for the different stages of the data science process: data collection, data processing for small and big data, data cleaning, exploratory data analysis, data visualization, predictive modeling with machine learning techniques, and statistical modeling.

Program Requirements:

The certificate in data science consists of 15 upper division credit hours of coursework. A minimum of six upper-division credit hours must be completed through courses offered by the School of Mathematical and Natural Sciences. A maximum of six credit hours may be shared between the certificate and major coursework. All courses used to satisfy requirements for the certificate must be passed with a "C" (2.00) or better.

Required Courses -- 9 credit hours

ACO 320: Database Systems (3)

ACO 423: Data Science (3)

STP 315: Statistical Computing (3)

Electives (choose two) -- 6 credit hours

ACO 321: Database Development & Applications (3)

ACO 420: Big Data Systems (3)

BMI 311: Modeling Biomedical Knowledge (3)

BMI 312: Modeling Biomedical Data (3)

MAT 422: Mathematical Methods in Data Science (3)

STP 310: Design and Analysis of Experiments (3)

STP 311: Regression and Time Series Analyses (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Prerequisites for this certificate are:

ACO 201 Data Structures and Algorithms

MAT 243 Discrete Mathematical Structures or MAT 300 Mathematical Structures

STP 226 Elements of Statistics

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: A certificate in data science helps prepare students who have an interest in databases and statistics. Possible careers include data scientist, machine learning scientist or engineer, applications architect, data architect and data engineer.

Desert Food Production Certificate (LSDFPRCERT)

Campus: Polytechnic

Description: The certificate program in desert food production equips students interested in producing foods locally with the knowledge and skills they need in order to grow edible plants and navigate the challenges unique to desert climates.

Coursework in the program emphasizes organic food production, sustainable horticultural technologies, green waste reduction, water conservation, maintaining biodiversity and biological cycles, and enhancing soil quality.

Students gain marketable skills that enable them to participate in the growing trend of producing and supporting the consumption of local foods.

Program Requirements:

The desert food production certificate requires 18 credit hours. A grade of "C" (2.00 on a 4.00 scale) or better is required in all courses.

Required Courses -- 12 credit hours

ABS 260: Fundamentals of Sustainable Horticulture (SG) (4)
ABS 368: Plant Propagation (3)
ABS 460: Organic Gardening (2)
ABS 464: Desert Horticulture (3)

Elective Courses -- 6 credit hours

At least four credit hours of certificate electives must be from upper-division courses.

ABS 225: Soils (SQ) AND ABS 226: Soils Laboratory (SQ) (4)
ABS 360: Southwest Home Gardening (2)
ABS 414: Plant Pathology (L) (3)
ABS 365: Future of Agriculture: Vertical Farming (3)
ABS 462: Greenhouse/Nursery Management (4)
ABS 484: Internship (2)

Notes: No more than two credit hours of ABS 484 Internship may be counted toward the certificate requirements.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: None

Other Enrollment Requirements: None

This certificate is open to students in any major.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Students can advance their career options with an undergraduate certificate.

Graduates who combine the certificate in desert food production with their major program of study may be more marketable to employers. Those who complete this undergraduate certificate along with their major often decide to pursue employment in nursery and greenhouse management, food science, or farm and ranch management.

Advanced degrees or certifications may be required for academic or clinical positions.

Digital Business Innovation Certificate (BADBICERT)

Campus: Tempe

Description: This certificate program in digital business innovation provides students with a broad overview of today's digital information systems. It gives exposure to modern tools for transforming business processes, maintaining digital presence and developing analytical insights.

Students who complete the program are well suited for the business landscape, phenomenally transformed in recent years by digital innovations.

Program Requirements:

The digital business innovation certificate is available to all majors. To earn the certificate, students must complete all courses with a grade of "C" (2.00 on a scale of 4.00) or better. No more than six credit hours may be shared between the certificate and other degree programs, minors, and/or other certificates.

Required Courses -- 18 credit hours

CIS 105: Computer Applications and Information Technology (QTRS OR CS) (3)

CIS 235: Introduction to Information Systems, Analytics and AI in Business (3)

CIS 300: Web Design and Development (3)

CIS 308: Advanced Excel in Business (3)

CIS 311: Business Agile Project Management (3)

CIS 312: Business Mobile Commerce and Monetization (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: The certificate in digital business innovation is open to all majors.

No more than six credit hours may be shared between the certificate and other degree programs, minors or other certificates.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Graduates who have combined the certificate in digital innovation with their major program of study may become more marketable to employers. They often decide to pursue employment in management, marketing, sales or communication.

Advanced degrees or certifications may be required for academic or clinical positions.

Disability Studies Certificate (LADISCERT)

Campus: Tempe

Description: As a vibrant and diverse area of academic study, disability studies utilizes a cross-disability, intersectional and interdisciplinary approach that views disability as a social construct and people with disabilities as a minority group. In the program in disability studies, students draw upon diverse disciplines such as history, sociology, law, policy studies, economics, anthropology, geography, philosophy, theology, gender studies, media studies, architecture and the arts in order to understand the social, cultural and political situation of disabled cultures, or people with disabilities.

Students are critically challenged to reject simplistic definitions of disability as a restrictive, functional impairment that requires fixing or curing. Rather, students learn to identify disability as a construct that finds its meaning within cultural contexts, is central to individual and social identity, and is crucial to changing political processes and public attitudes.

This program prioritizes development of theoretical, methodological, educational and advocacy models that redefine legal, physical, policy and attitudinal barriers that exclude disabled communities from society.

Program Requirements:

Students must complete 15 credit hours with at least 12 hours completed at the upper-division level. A minimum grade of "C" (2.00 on a 4.00 scale) is required for a course to count toward the certificate.

Students should contact the School of Social Transformation advising center for more information.

Required Courses -- 6 credit hours

JUS 235: Disability, Justice and Advocacy (CIVI OR C) (3)

JUS 437: The Social Construction of Disability and Justice (3)

Elective Courses -- 9 credit hours

AFR 317: Genes, Race and Society (SOBE OR SB & H & C) (3)

AFR 375: Race, Gender and Sport (SOBE OR SB & C) (3)

APA 330: Asian Pacific American Genders and Sexualities (SOBE OR (L or SB) & C) (3)

APA 350: Inequality and Diversity in Education (CIVI OR L & C) (3)

APA 355: Asian American Psychology (SOBE OR SB & C) (3)

CRD 302: Inclusive Community Development (SOBE OR SB & C) (3)

DST 322: Social and Cultural Implications of the Many Forms of Disability (3)

DST 458: Disability and Communication Advocacy (3)

EDS 301: Sustainable Community Design and Practices (SUST OR HU) (3)

ENG 484: Internship (1-12)

GER 494: Posthumanism and the Ends of Man (3)

JUS 303: Justice Theory (CIVI OR L) (3)

JUS 305: Principles of Justice Studies (SB) (3)

JUS 365: Inequality and Diversity in Education (CIVI OR L & C) (3)

JUS 370: Cultural Diversity and Justice (CIVI OR (L or HU) & C) (3)

JUS 375: Justice and the Mass Media (SOBE OR SB) (3)

JUS 432: Racial Justice (CIVI OR L) (3)

JUS 438: Human Differences: Dilemmas of Justice (CIVI OR (L or HU) & C) (3)

JUS 440: Prisons, Power and the Punishments of the Past (3)

JUS 469: Political Deviance and the Law ((L or SB) & C) (3)

MHL 447: Music and Healing (HUAD OR HU & H & G) (3)

MUE 441: Psychology of Music (3)

PRM 453: Inclusive Community Sport (3)

RTH 364: Foundations in Recreational Therapy (SOBE OR SB) (3)

RTH 440: Advocacy in Therapeutic Recreation (GCSI OR G) (3)

RTH 450: Therapeutic Recreation and Community Health (3)

RTH 455: Recreational Therapy and Play with Children, Youth and Families (3)

SHS 367: Language Science (SOBE OR SB) (3)

WST 313: Women and Sexuality (SOBE OR SB & C) (3)

WST 371: Sex and the City: Women, Sexuality, and Popular Culture (HU & C) (3)

WST 380: Race, Gender, and Class (SOBE OR SB & C) (3)

WST 477: Gender and Violence (SB & C) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Students enrolled in the BA or minor in disability studies offered by the New College of Interdisciplinary Arts and Sciences are not prohibited from adding this certificate.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Employ and critically assess core theories, models and perspectives that have contributed to the development of disability studies.
- Understand and identify representations of disability as historically specific and culturally contingent.
- Apply disability studies perspectives in the construction of social policy, engagement, and advocacy.

Career Opportunities: Graduates who have combined the certificate in disability studies with their major program of study may become more marketable to employers. They often decide to pursue employment in law, education, public service, and human welfare and social work.

Advanced degrees or certifications may be required for academic or clinical positions.

Diversity and Equity Studies Certificate (ASDESCERT)

Campus: West

Description: This certificate program in diversity and equity studies develops students' intercultural competence through knowledge gained related to the histories, practices and perspectives of diverse groups, both local and global.

Reflecting on this knowledge permits students to develop strategies to work with and through differences of gender, race, ethnicity, sexuality, age, religion and class. Integrative social sciences perspectives enable bridge-building within and across differences to redress inequalities.

Program Requirements:

The certificate in diversity and equity studies consists of 15 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Social and Behavioral Sciences. A maximum of six credit hours may be shared between the certificate and a major. All courses used to satisfy requirements for the certificate must be passed with a "C" (2.00) or better.

Electives are not limited to the certificate elective list; see academic advisor prior to enrollment. Students are encouraged to take courses that develop breadth rather than limiting their selection to courses in one particular discipline. A maximum of three credit hours of individualized instruction or internship may be applied toward the certificate.

Required Core Course -- 3 credit hours

SBS 301: Cultural Diversity ((L or SB) & C) (3)

Electives (minimum 9 upper-division) -- 12 credit hours

Selected courses must come from at least two of the following subjects: ASB, JHR, POS, SBS or SOC.

ASB 211: Women in Other Cultures ((HU or SB) & G) (3)

ASB 311: Principles of Social Anthropology (GCSI OR SB & G & H) (3)

ASB 339 / POS 339 / SBS 339 / SOC 339: Grassroots Social Movements (SB) (3)

ASB 340 / SOC 328: Migration and Culture (GCSI OR SB & G) (3)

ASB 346: Marriage and Family Diversity (SOBE OR SB & C) (3)

ASB 394: Special Topics or JHR 394: Special Topics or POS 394 / SBS 394 / SOC 394: Special Topics (1)

ASB 447 / POS 447 / SBS 447: Citizenship, Nationalism and Identity (CIVI OR SB & C & G) (3)

ASB 484 / JHR 484 / POS 484: Internship or SBS 484: Internship or SOC 484: Internship (3)

ASB 494 / JHR 494 / POS 494 / SBS 494 / SOC 494: Special Topics (3)

ASB 499 / JHR 499 / POS 499 / SBS 499 / SOC 499: Individualized Instruction (3)

JHR 100: Introduction to Social Justice and Human Rights (CIVI OR SB & G) (3)

POS 357: South Asia Politics (SB & G) (3)

POS 436: Gender, Sexuality, Nation-States (3)

POS 437 / SOC 437: Women, Power, and Politics (G) (3)

SOC 241: Modern Social Problems (SOBE OR SB) (3)

SOC 264: Sociology of Gender (CIVI OR SB & C) (3)

SOC 270: Sociology of Race and Ethnicity (CIVI OR SB & C) (3)

SOC 400: Perspectives on Aging (SB) (3)

SOC 426: Social Inequalities (CIVI OR SB) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.
2024-25 Academic Catalog Archive

Enrollment Requirements: Students should contact an advisor in the New College of Interdisciplinary Arts and Sciences for more information.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Domestic Violence and Evidence-based Practice Certificate (PPDVEPCERT)

Campus: Downtown Phoenix, Online

Description: The certificate program in domestic violence and evidence-based practice provides students with the experience and knowledge they need to intervene safely and effectively on behalf of the survivors of gender-based violence, a vulnerable group that helping professionals are likely to encounter in all areas of practice. Those knowledgeable about the dynamics of intimate partner violence are better equipped to assist those suffering its negative physical and mental health consequences.

Evidence-based care is crucial in domestic violence settings. Certificate program students engage in service-based and classroom learning to understand the role of evidence-based interventions in promoting survivor safety and client empowerment.

Upon completion of the program, certificate holders become Arizona state-certified advocates for victims of domestic violence.

Program Requirements:

During their first semester in the certificate, students enroll in SWU 416, Domestic Violence and National AmeriCorps Service.

A grade of B or better is required in each course to satisfy the certificate.

Required Courses -- 3 credit hours

SWU 416: Domestic Violence and National AmeriCorps Service (3)

Electives -- 12 credit hours

SWU 417: Technology, Interpersonal Relationships and Abuse (3)

SWU 418: Global Violence Against Women (3)

SWU 420: Domestic Violence Fatality Review (3)

SWU 484: Internship or SWU 412: Social Work Practicum I (3)

Notes: Other internship credit may be substituted with department approval.

SWU 484: Internship or SWU 414: Social Work Practicum II (3)

Notes: Other internship credit may be substituted with department approval.
SWU 494: Intersecting Domestic Violence Child Maltreatment (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: All students seeking the certificate must have 56 credit hours of coursework completed with a minimum GPA of 2.50. To enroll in SWU 416, students must have a current Arizona fingerprint clearance card, which will be verified through the state of Arizona system.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Implement evidence-based interventions, safety planning and the utilize of an evidence-based safety decision aid (myPlan, a tool to enhance risk assessment).
- Apply knowledge of human behavior in the social environment when working with individuals, families and groups.

Career Opportunities: Graduates are prepared to work with domestic violence survivors. Prospective administrators, helping professionals and community activists possess the practical knowledge to implement interventions backed by evidence and develop the tools and networks that create change for survivors, families and communities.

Career examples include:

- domestic violence or lay legal advocate
- domestic violence support group facilitator
- shelter case manager

Early Childhood Education Certificate (TEECD CERT)

Campus: Tempe, SYNC

Description: The certificate program in early childhood education prepares students to support the cognitive and social-emotional development of young children.

This program allows students to be eligible for dual teaching certificates upon completion of an undergraduate degree, or to meet requirements for an Early Childhood endorsement. This certificate can be added to the following degree programs:

- BAE in elementary education
- BAE in elementary multilingual education
- BAE in special education

Students develop skills in understanding and applying evidence-based practices in early childhood education. The innovative coursework is centered on child development theory, development of young children, assessment practices and instructional pedagogy. Students explore techniques and approaches to engage children's family members in the growth and development of young children.

Graduates earn an institutional recommendation for teacher certification in Early Childhood Education, Birth-Age 8 or Grade 3, or an endorsement in Early Childhood Education, Birth-Age 8 or Grade 3, through the Arizona Department of Education. Those desiring to teach in public schools must pass the appropriate Arizona educator exams (National Evaluation Series or Arizona Educator Proficiency Assessments) to be certified to teach in

the state of Arizona.

Format option

This program is also offered via ASU Sync (<https://education.asu.edu/degree-programs/undergraduate-programs/asu-sync-statewide>). ASU Sync enables students to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers. ASU Sync students need to reside in Arizona throughout the duration of the program. Students on I-20 visas are not permitted to complete courses via Sync and should speak with an advisor about other options to complete this program.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill (<https://www.benefits.va.gov/gibill>).

Program Requirements:

In addition to completing this certificate and a teacher certification program major, students will be required to earn a passing score on the professional knowledge portion of the AEP/NES exam and a passing score on the subject knowledge portion of the AEP/NES exam in each area an Arizona teaching credential is sought. Subject knowledge exam waivers may apply. Students should contact the Mary Lou Fulton Teachers College for more information.

This certificate requires 19 credit hours. A "C" or better is required in all coursework.

Required Courses -- 19 credit hours

ECD 321: Foundations in Language, Literacy and Culture in Early Childhood (SOBE OR L) (3)

ECD 417: Arts Integration for Young Children (3)

ECS 310: Foundations in Typical / Atypical Child Development (3)

ECS 312: Social and Emotional Development of the Young Child (SOBE OR SB) (3)

ECS 411: Instructional Methodologies for Young Children: STEM (3)

ECS 412: Mathematics Curriculum, Instruction and Assessment (4)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: This certificate is open only to students majoring in elementary education, special education and elementary multilingual education undergraduate teacher preparation programs in the Mary Lou Fulton Teachers College.

Students should have a valid Arizona DPS Identity Verified Print fingerprint clearance card.

A GPA of 2.25 is required for continued good standing. Students should contact the Mary Lou Fulton Teachers College for more information.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student but may not be eligible for an institutional recommendation for Arizona teaching licensure without additional preparation beyond the certificate.

Career Opportunities: There is a strong demand for early childhood educators in Arizona and nationwide. Many graduates with early childhood education credentials hold leadership positions in Head Start, private nonprofit and private for-profit center-based programs, and public school early childhood environments.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Early Childhood Special Education Certificate (TEECSCERT)

Campus: Tempe, SYNC

Description: The certificate in early childhood special education prepares students to work with young children who have a disability or who are at

risk of developing one.

Students develop foundational knowledge of child development, including child development theories and best practices. They learn how to:

- assess, monitor and report the progress of young children
- build effective practices for engaging families
- create enriched, inclusive learning environments
- design coherent instruction
- plan and facilitate learning

Graduates are eligible to earn an institutional recommendation from ASU for Arizona teacher certification in Early Childhood Special Education, birth through grade 3, from the Arizona Department of Education. To teach in an Arizona public school, graduates must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Format option

This program is also offered via ASU Sync (<https://education.asu.edu/degree-programs/undergraduate-programs/asu-sync-statewide>). ASU Sync enables students to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers. ASU Sync students need to reside in Arizona throughout the duration of the program. Program Requirements:

In addition to completing this certificate and a teacher certification program major, students will be required to earn a passing score on the professional knowledge portion of the AEP/NES exam and a passing score on the subject knowledge portion of the AEP/NES exam in each area an Arizona teaching credential is sought. Subject knowledge exam waivers may apply. Students should contact the Mary Lou Fulton Teachers College for more information.

This certificate requires 18 credit hours. A "C" or better is required in all coursework.

Required Courses -- 18 credit hours

ECD 321: Foundations in Language, Literacy and Culture in Early Childhood (SOBE OR L) (3)

ECS 310: Foundations in Typical / Atypical Child Development (3)

ECS 312: Social and Emotional Development of the Young Child (SOBE OR SB) (3)

ECS 411: Instructional Methodologies for Young Children: STEM (3)

ECS 420: Evaluation and Intervention Strategies for Infants, Toddlers and Preschoolers with Disabilities (3)

ECS 430: Systems, Policy, and Advocacy in Early Childhood/Special Education (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: This certificate program can be added to the following programs at Mary Lou Fulton Teachers College to allow students eligibility for dual teaching certificates at the completion of their undergraduate degree:

- BAE in early childhood education
- BAE in elementary education
- BAE in elementary multilingual education
- BAE in special education

Students should have a valid Arizona DPS Identity Verified Print fingerprint clearance card.

A GPA of 2.25 is required for continued good standing. Students should contact the Mary Lou Fulton Teachers College for more information.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student but may not be eligible for an institutional recommendation for Arizona teaching licensure without additional preparation beyond the certificate.

Career Opportunities: There is a strong demand for both early childhood educators and special educators in Arizona and nationwide. Earning a credential that prepares graduates for both early childhood and special education can lead to many opportunities. Many graduates with early childhood education credentials hold leadership positions in Head Start, private nonprofit and private for-profit center-based programs, and public

school early childhood environments.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. Economic Justice Certificate (LAECNJCERT)

Campus: Tempe

Description: Through the certificate program in economic justice, students gain knowledge of economic justice that promotes the growth of sustainable local, national and global communities.

Students complete coursework in the theories and philosophies of economic justice and economic justice praxis to prepare them for transdisciplinary exploration of areas of personal interest. They develop the capacity to design, control, manage and evaluate initiatives that can economically revitalize communities, and they increase their research abilities.

Students who complete the program are prepared to support and create change by analyzing and developing policies designed to build local skills and lay groundwork for new approaches to economic justice.

Program Requirements:

The certificate in economic justice requires 15 credit hours, of which at least 12 must be completed at the upper-division level. All courses must be completed with a grade or "C" (2.00 on a 4.00 scale) or better.

Work and Democracy Seminar -- 3 credit hours

SST 310 / JUS 310: Exploitation, Oppression and Resistance in Capitalist Societies (3)

Economic Justice Internship -- 3 credit hours

SST 484 / JUS 484: Internship (3)

Economic Justice Electives -- 9 credit hours

Six of the nine credit hours used to fulfill this requirement must be upper division.

AFR 294: Race Geographies in the United States (3)

AFR 428: Critical Race Theory (3)

AMS 201: Introduction to American Studies (HUAD OR (L or HU) & C) (3)

APA 210: Introduction to Ethnic Studies in the U.S. (SOBE OR C) (3)

HST 325: Immigration and Ethnicity in the United States (HUAD OR SB & H & C) (3)

JUS 105: Introduction to Justice Studies (CIVI OR SB) (3)

JUS 303: Justice Theory (CIVI OR L) (3)

JUS 305: Principles of Justice Studies (SB) (3)

JUS 321: Wealth Distribution and Poverty (SOBE OR SB & C) (3)

JUS 325: Globalization and Socio-Economic Justice (SB & G) (3)

JUS 425: Race, Gender, and Justice (CIVI OR SB) (3)

JUS 430: Social Protest, Conflict, and Change (CIVI OR (L or SB) & C) (3)

JUS 456: Human Rights and Sustainability ((L or SB) & G) (3)

PHI 336: Social and Political Philosophy (HU) (3)

POS 394: Politics and Inequality in the U.S. (3)

POS 485: Political Economy (SOBE OR SB) (3)

SOC 241: Modern Social Problems (SOBE OR SB) (3)

SOC 324: Sociology of Work and Organizations (GCSI OR SB & H) (3)

SOC 332: The Modern City (3)

SOC 352: Social Change (CIVI OR SB & G & H) (3)

SOC 426: Social Inequalities (CIVI OR SB) (3)

SST 220 / JUS 220: Introduction to Social Transformation (3)

SST 494: Special Topics (3)

WST 100: Women, Gender, and Society (SOBE OR SB & C) (3)

WST 300: Women and Gender in Contemporary Society (SOBE OR SB & C) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: To declare this certificate, a student must first have a minimum of 30 earned credit hours.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Critically assess core theory, concepts, and methods for the study of economic justice issues.
- Apply the fundamental principles of economic justice to the specific domestic or international issues through community engagement and research.

Career Opportunities: Graduates who combine the certificate in economic justice with their major program of study may become more marketable to employers. They often decide to pursue employment in law, education, public service, and human welfare and social work.

Advanced degrees or certifications may be required for academic or clinical positions.

Elementary Education Certificate (TEEDCERT)

Campus: Tempe, West, SYNC

Description: The certificate program in elementary education prepares students to work with children in grades K-8 in an educational setting.

This certificate program can be added only to the following majors in Mary Lou Fulton Teachers College, granting students eligibility for dual teaching certificates at the completion of their undergraduate degree program:

- BAE in early childhood education
- BAE in secondary education
- BAE in special education

Students engage in innovative coursework grounded in theory-based strategies and evidence-based practices for teaching. Coursework is designed to support the development of instructional competencies, professional skills, content knowledge and pedagogical content knowledge in mathematics, science, English language arts and social studies.

This program has a strong focus on teaching and learning practices that foster equitable access and outcomes for culturally and linguistically diverse students and learners with special needs and exceptionalities.

Graduates are eligible to earn an institutional recommendation from ASU for Arizona teacher certification in Elementary Education, K-8, as recognized by the Arizona Department of Education. To teach in an Arizona public school, graduates must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Format option

This program is also offered via ASU Sync (<https://education.asu.edu/degree-programs/undergraduate-programs/asu-sync-statewide>). ASU Sync enables students to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers. ASU Sync students need to reside in Arizona throughout the duration of the program. Students on I-20 visas are not permitted to complete courses via Sync and should speak with an advisor about other options to complete this program.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations.

Program Requirements:

In addition to completing this certificate and a teacher certification program major, students will be required to earn a passing score on the professional knowledge portion of the AEP/NES exam and a passing score on the subject knowledge portion of the AEP/NES exam in each area an Arizona teaching credential is sought. Subject knowledge exam waivers may apply. Students should contact the Mary Lou Fulton Teachers College for more information.

This certificate requires 20 credit hours. A "C" or better is required in all coursework.

Required Courses -- 20 credit hours

EED 324: Social Studies for Equity and Social Justice (3)

EED 411: Science in Elementary Schools (3)

EED 412: Mathematics in Elementary Schools (4)

EED 433: Writing in the 21st Century (L) (3)

RDG 413: Elementary Methods for Literacy Instruction and Assessment (4)

TEL 331: Foundations of Literacy: The Science of Reading (3)

RDG 413 will replace TEL 332 for students adding this certificate to a secondary education degree program.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: This certificate is open only to students majoring in early childhood education, special education or secondary education undergraduate teacher preparation programs in the Mary Lou Fulton Teachers College.

Students should have a valid Arizona DPS Identity Verified Print fingerprint clearance card.

A GPA of 2.25 is required for continued good standing. Students should contact the Mary Lou Fulton Teachers College for more information.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student but may not be eligible for an institutional recommendation for Arizona teaching licensure without additional preparation beyond the certificate.

Career Opportunities: Graduates of Mary Lou Fulton Teachers College are highly sought-out teachers in public, charter and private education institutions. Many graduates with degrees in elementary education also work at community organizations that serve children and youth.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Energy and Sustainability Certificate (SUESUCERT)

Campus: Downtown Phoenix, Polytechnic, Tempe

Description: The transdisciplinary certificate program in energy and sustainability examines current energy systems and explores what will be required to transition to a sustainable energy future.

In a world increasingly focused on climate change, renewable resources and sustainable practices, this certificate equips students to tackle pressing environmental challenges. They gain expertise in areas such as solar and wind energy, urban sustainability and resource management. With the ability to analyze complex energy systems and policies, certificate holders become invaluable assets in driving sustainability initiatives forward. This combination of skills and knowledge makes graduates of the energy and sustainability program indispensable in shaping a greener and more sustainable future.

Students begin with an overview of how energy affects people's lives, the basic science and methods of energy production, and a full overview of energy policy options. Students may tailor the certificate around their specific interests in energy with a variety of electives representing a broad

array of academic disciplines. The breadth of their energy knowledge is enriched by taking courses outside their primary area of study.

This program helps students enhance their understanding of the technology and infrastructure for generating, distributing and using energy; the associated sustainability issues; and the social and policy dimensions of energy systems.

Program Requirements:

The certificate in energy and sustainability consists of 15 credit hours, at least 12 of which must be upper division.

Students must earn a grade of "C" or better in all courses. A minimum GPA of 2.50 is required for all courses completed in the certificate.

Required Core Courses -- 9 credit hours

SOS 171 / GCU 171: The Thread of Energy (SUST OR G) (3)

SOS 314: Basic Energy Science or SOS 324: Sustainable Energy Technology and Systems (3)

SOS 315: Energy Policy (3)

Energy Elective Courses -- 6 credit hours

BME 494: Bioenergy and Microbial Biotechnology (3)

CEE 361: Introduction to Environmental Engineering (4)

CHE 469: Air Quality Engineering (3)

CHE 473: Fuel Cells and Biofuel Cells (3)

CHE 478: Biomass Energy Conversion Technology (3)

CHM 494: Solar Energy Conversion (3)

CON 448: Sustainable Construction (3)

EEE 465: Photovoltaic Energy Conversion (3)

EEE 471: Power System Analysis (3)

EEE 498: Lithium-Ion Battery Technlgy Automtve Electrifiactn (3)

EGR 476: Microgrid Design and Operation (3)

EVE 354: Materials in the Environment (4)

GCU 364: Energy in the Global Arena (3)

GCU 442: Geographical Analysis of Transportation (SB) (3)

GLG 304: Minerals, Energy, and Society (3)

JUS 332: Politics of Energy Policy and Justice (3)

JUS 444: Environment and Justice (L & C) (3)

MAE 494: Energy Efficiency (3)

PHY 498: The Science of Sustainable Energy (3)

PUP 430: Transportation Planning and the Environment (3)

SOS 323: Sustainable Urban Dynamics (3)

SOS 373: Minerals, Energy, and Society (3)

STS 317: Science, Technology, and Global Engagement (SB & G) (3)

STS 332: Global Issues in Science and Technology (SB) (3)

394, 494 and 498 courses must be taken with the specific course title/topic indicated above.

Energy elective courses are not limited to courses from this list only. Other courses on energy may be offered (special topics, etc.). Students may request to have those approved as an elective for this certificate by submitting a College of Global Futures undergraduate standards petition: https://students.asu.edu/College_Standards_Petitions. Completed petitions may be submitted directly to cgfadvicing@asu.edu.

Some energy elective courses are more technical in nature, which may require additional math and science knowledge or prerequisites.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Advising is not required, but students are encouraged to speak with an advisor by scheduling an appointment through the College of Global Futures advising website (<https://collegeofglobalfutures.asu.edu/student-life/advising/undergraduate-advising>).

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, energy and sustainability students are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Students also may participate in a School of Sustainability study abroad program. More information is available on the College of Global Futures study abroad website (<https://collegeofglobalfutures.asu.edu/student-life/study-abroad/>).

Career Opportunities: An understanding of energy is increasingly important for jobs related to climate change, environmental quality, urban sustainability and sustainable development. A certificate in energy and sustainability serves as a strategic career enhancement to any major degree program. This certificate provides a distinct advantage, positioning students competitively for an array of energy-related job opportunities across sectors. Government agencies, utilities, non-profit organizations and private businesses all require professionals with the specialized knowledge and transdisciplinary skills acquired through this program.

Entrepreneurship and Innovation Certificate (BAKEICERT)

Campus: Tempe

Description: The certificate in entrepreneurship and innovation engages students, challenging them to discover new ways of thinking while approaching business in a new way. Students benefit from an entrepreneurship curriculum focused on principles that involve the startup of a new organization, as well as its management into a fully established firm.

Beyond those related specifically to entrepreneurial business practices, courses in the certificate in entrepreneurship and innovation include such topics as social entrepreneurship, arts entrepreneurship, idea generation and storytelling as additional perspectives for the student entrepreneur.

Program Requirements:

The entrepreneurship and innovation certificate requires 15 credit hours and is available to all majors. At least 12 credit hours must be upper division. To earn the certificate, students must complete all courses with a grade of "C" (2.00 on a scale of 4.00) or better.

No more than six credit hours may be shared between the certificate and other degree programs, minors, and/or other certificates.

Required Core Courses -- 9 credit hours

ENT 305: Principles of Entrepreneurship (3)

ENT 340: Creativity and Innovation (L or HU) or TEM 230: Creativity and Business Innovation (3)

ENT 360: Entrepreneurship and Value Creation or TEM 400: Technology Entrepreneurship (3)

Focus Area Electives -- 6 credit hours

Focus Area Electives: Students will select two courses within the same focus area below. (6)

It is the student's responsibility to check the prerequisites required by courses in their discipline.

Focus area electives will be designated and approved by individual disciplinary colleges.

American Indian Studies Focus Area

AIS 375: Innovation for American Indian Sustainability (3)

AIS 385: Entrepreneurship for American Indian Sustainability (3)

Anticipating Futures Focus Area

FIS 305: Ways of Knowing (L) (3)

FIS 307: Navigating Futures (SOBE OR SB) (3)

FIS 308: Politics, Markets and Innovation (CIVI OR SB) (3)

Aviation Management Focus Area

AMT 491 is required in the aviation management concentration. Students will choose one other AMT course.

AMT 308: Air Transportation (GCSI OR G) (3)

AMT 489: Airline Administration (3)

AMT 491: Aviation Management Capstone (3)

Biomedical Engineering Focus Area

BME 300: Bioengineering Product Design (3)

BME 417: Biomedical Engineering Capstone Design I (L) (4)

Business/Start-up Focus Area

AGB 456: Food Product Innovation and Development (3)

ENT 445: Business Model Development (3)

ENT 446: Venture Capital Experience (3)
ENT 447: Lean Launch (3)
ENT 464: Collaborative Design Development I (L) (5)
ENT 465: Collaborative Design Development II (L) (5)
FIN 455: Entrepreneurial Finance (3)
MKT 442: Services Marketing Strategy (3)

Design and Arts Focus Area

ARA 396: Professional Practices for Design and the Arts (3)
ARA 460: Gallery Exhibitions (3)
DSC 394: Design Entrepreneurship & Society (3)
HDA 252: Foundations Arts and Design Entrepreneurship (3)
FMP 417: Business and Legal Practices in Entertainment (3)
MUP 438: The Enterprising Artist (3)
MUP 439: Performing Arts Product Creation and Development (3)
THP 351: Arts Management (3)
THP 450: Theatre Organization and Management (3)

Digital Media Entrepreneurship: Web Focus Area

AME 435: Mobile Development (3)
GIT 402: New Media Internet Technologies (3)
GIT 414: Web Site Design and Internet/Web Technologies (3)
GIT 417: Advanced Web Markup and Scripting (3)
GIT 435: Website and E-Commerce Strategies (3)
GIT 480: Senior Project (3)

Herberger, FSE, WPC: Innovation Space Focus Area

New product development. Students enroll in the courses associated with their major.

ENT 464: Collaborative Design Development I (L) AND ENT 465: Collaborative Design Development II (L) (10)
GRA 464: Collaborative Design Development I (L) AND GRA 465: Collaborative Design Development II (L) (10)
IND 464: Collaborative Design Development I (L) AND IND 465: Collaborative Design Development II (L) (10)

Ira A. Fulton Schools of Engineering: Alternative Energy Entrepreneurship Focus Area

ALT 420: Electrochemical Energy Technologies (3)
ALT 435: Applied Photovoltaics (3)
ALT 445: Automotive and Stationary Fuel Cell Systems (3)

Ira A. Fulton Schools of Engineering: Process Innovation Focus Area

TMC 331: Quality Assurance (3)
TMC 430: Enterprise Strategy and Innovation (3)

Ira A. Fulton Schools of Engineering: New Product Development Focus Area

CSE 335: Principles of Mobile Application Development (3)
TEM 330: Systems Innovation (3)
TEM 400: Technology Entrepreneurship (3)

Ira A. Fulton Schools of Engineering: Social Entrepreneurship Focus Area

TEM 450: Design for the Developing World (3)
TEM 455: Global Impact Entrepreneurship (3)
TEM 482: Startup Workshop (3)

Small Business Focus Area

ENT 441: Entrepreneurial Management (3)
ENT 445: Business Model Development (3)
ENT 448: Corporate Entrepreneurship (3)
MKT 435: Entrepreneurial Marketing (3)
MKT 440: Creating Digital Experiences (3)

The College of Liberal Arts and Sciences: Science Focus Area

BIO 312: Bioethics (HUAD OR HU) (3)
BIO 416: Biomedical Research Ethics (L) (3)
NTR 344: Nutrition Management and Leadership (L) (3)
PHI 320: Bioethics (HUAD OR HU) (3)

Walter Cronkite School of Journalism and Mass Communication Focus Area

JMC 455: Digital Media Entrepreneurship (3)

JMC 473: The Business and Future of Journalism (3)

JMC 477: New Media Innovation and Entrepreneurship Lab (3)

MCO 335: Social Media Foundations (3)

MCO 425: Digital Media Literacy I (3)

Watts College of Public Service and Community Solutions Focus Area

NLM 410: Social Entrepreneurship (3)

NLM 430: Managing Nonprofit Organizations (L) (3)

NLM 435: Service Learning for Community Development (3)

PRM 402: Assessment and Evaluation of Community Services (3)

PRM 427: Where's the Money: Special Event Revenue Generation (3)

PRM 475: Entrepreneurial Recreation and Tourism (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: The certificate in entrepreneurship and innovation is available to all ASU students in good standing except those majoring in business entrepreneurship, management with a concentration in entrepreneurship, and technology entrepreneurship and management.

No more than six credit hours may be shared between the certificate and other degree programs, minors or other certificates.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Students advance their career options through this undergraduate certificate program, developing additional competencies that complement the marketable knowledge and skills they acquire in their majors. Those who complete this program often decide to pursue employment in management, sales and marketing.

Advanced degrees or certifications may be required for academic or clinical positions.

Environmental Education Certificate (TEEVEDCERT)

Campus: Tempe, West, Online

Description: The certificate in environmental education is for students in all majors and for nontraditional educators. The program is designed to establish standards for professional excellence in environmental education as outlined by the North American Association for Environmental Education.

Environmental education is taught in traditional classrooms and in community-serving organizations such as nature centers, museums, parks and zoos. The coursework required in the certificate increases the environmental literacy of future educators, fosters community leadership strategies and provides opportunities to practice environmental education teaching methods.

Students who complete the certificate are eligible to apply for the environmental education certificate recognized by the North American Association for Environmental Education.

Program Requirements:

This certificate requires a minimum of 15 credit hours, 12 of which must be upper division. A "C" or better is required in all coursework.

Required Core Courses (select three) -- 9 credit hours

SCN 201: Discovering the Deserts of the Southwest or SCN 301: Ecology and Natural History of the Sonoran Desert (SCIT OR SG) (4)

SCN 207: Introduction to Biomimicry or SCN 307: Biomimicry: Nature's Sustainable Solutions (SUST OR G) (3-4)

SCN 208: Nature and Society: An Introduction to Environmental Studies (SUST OR SG & G) or SCN 308: Urban Environmental Education (3-4)

SCN 300: Foundations of Environmental Education (3)
SCN 302: Environmental Education: A Global Perspective (SUST OR L & G) (3)
SCN 310: Biodiversity Conservation: An Educational Inquiry (4)

Elective Options -- 6 credit hours

Any core course not taken above may be used to satisfy electives.

SCN 209: Introduction to Environmental Education Project or SCN 309: Environmental Education Project (1)
SCN 303: Environmental Education Internship (1-3)
SCN 304: Sonoran Desert Flora (3)
SCN 305: Tropical Ecology and Sustainability (3)
SCN 311: Nature Mindfully (3)
SCN 400: Sustainability Science for Teachers or SCN 401: Sustainability Science, Technology, and Society (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

A GPA of 2.25 is required for continued good standing. Students should contact the Mary Lou Fulton Teachers College for more information.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply knowledge of planetary systems' relation to environmental issues.
- Apply the Three Pillars of Sustainability in the devising and application of effective solutions to environmental problems activities.
- Apply knowledge of environmental issues to create new patterns of environmental stewardship within individuals, groups, and society.

Career Opportunities: Graduates who combine the certificate in environmental education with their major program of study may become more marketable to employers. They often decide to pursue employment in educational settings such as nonprofit organizations, nature centers, museums, parks and zoos.

The environmental education certificate does not lead to teacher certification.

Environmental Humanities Certificate (LAENHCERT)

Campus: Tempe

Description: The environmental humanities certificate is for students who are interested in humanities-based approaches to the current global environmental crisis, a vital area of study.

Courses are focused on the human relationship to the environment and the relationship between nature and culture. To gain practical experience, students also complete an internship in environmental activism, policy development, education or another pertinent area.

Program Requirements:

The environmental humanities certificate consists of 15 hours. At least 12 credit hours must be completed at the upper-division level, with a minimum of six upper-division credit hours from courses offered by the Department of English in The College of Liberal Arts and Sciences. A grade of "C" (2.00 on a 4.00 scale) or higher is required in all courses taken for the minor.

Required Course (choose one) -- 3 credit hours

ENG 367: Environmental Issues in Literature and Film (3)
ENG 371: Rhetoric of the Environmental Movement (3)
ENG 378: Environmental Creative Nonfiction (HUAD OR HU) (3)

Internship or Independent Study -- 3 credit hours

ENG 484: Environmental Humanities Certificate or ENG 499: Individualized Instruction or EVE 452: Environmental Investigation and Remediation Design (3)

Notes: Students majoring in environmental engineering are encouraged to take EVE 452 to fulfill this requirement.

Electives (choose three) -- 9 credit hours

ASB 326: Human Impacts on Ancient Environments (SUST OR SB & H) (3)
ASB 370 / SOS 370: Ethics of Eating (SUST OR L or SB) (3)
BIO 324 / PHI 310: Environmental Ethics (SUST OR HU) (3)
CEE 181: Technological, Social, and Sustainable Systems (SUST OR HU) (3)
ENG 334: The American Southwest in Literature and Film (HUAD OR HU & C) (3)
ENG 363: Transborder Mexican and Chicano/a Literature of Southwest North America (HUAD OR (L or HU) & C) (3)
ENG 367: Environmental Issues in Literature and Film (3)
ENG 371: Rhetoric of the Environmental Movement (3)
ENG 378: Environmental Creative Nonfiction (HUAD OR HU) (3)
ENG 468: Environmental Literary Criticism (HUAD OR L or HU) (3)
HST 342: U.S. West 20th Century (SB & H) (3)
HST 345: Environmental History (SUST OR L) (3)
JUS 332: Politics of Energy Policy and Justice (3)
JUS 444: Environment and Justice (L & C) (3)
PSY 306: Environmental Psychology (SB) (3)
REL 349 / JST 349 / SOS 349: Nature, Sustainability and Religion (SUST) (3)
SGS 330: Globalization and the Environment: Problems and Solutions (SUST) (3)
SOC 331: Environmental Sociology (SUST OR SB & G) (3)
SOS 110: Sustainable World (SUST OR SB) (3)
SOS 320: Society and Sustainability (SOBE OR L or SB) (3)

Other courses may be used by approval of an academic advisor in the Department of English.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Requests to declare this certificate are reviewed by the academic advisor in the academic unit offering the certificate. Students may be contacted to discuss the certificate before the addition of the certificate to the student record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Produce analytic writing about environmental issues that meets or exceeds standards in the field.
- Engage critically, with writing and group oral discussion assignments, with up-to-date scholarly or creative Environmental Humanities texts.
- Present team-prepared oral presentations on the cultural elements of an environmental challenge they are studying in order to prepare to learn team work and how to present pressing issues accessibly to the public.

Career Opportunities: The certificate provides students with a multidisciplinary knowledge base and practical skill set that enable them to enact social and environmental change. Students who complete this certificate are well prepared for careers in sustainability, environmental science and public policy, and they are better equipped to implement environmentally responsible practices in their own lives.

Environmental Humanities Certificate (LSEHCERT)

Campus: Polytechnic

Description: The environmental humanities certificate program offers students who are interested in humanities-based approaches to environmental or place-based questions an option to focus on this vital area of study. Students take courses and electives from selected programs focused on the human relationship to the environment and the relationship between nature and culture.

Program Requirements:

This certificate is comprised of 15 credit hours, including at least 9 upper-division credit hours. Six credit hours must be taken from courses offered by the College of Integrative Sciences and Arts (CISA). A grade of "C" (2.00 on a 4.00 scale) or better is required in all courses.

Core Courses -- 9 credit hours

Pick three courses from the list below:*

ENG 367: Environmental Issues in Literature and Film (3)

ENG 371: Rhetoric of the Environmental Movement (3)

HST 345: Environmental History (SUST OR L) (3)

IDS 316: Park Futures (3)

*Note: Other ENG courses may be approved by CISA advisors depending on special- or variable-topics courses available in given semesters.

Elective Courses -- 6 credit hours

Complete at least two additional courses for a maximum of 6 credit hours.

Students must work with an academic advisor in the College of Integrative Sciences and Arts to select electives. Some courses are limited to students majoring in the discipline, have prerequisites or cannot be taken in combination with another course on the list.

Additional courses may be approved by the College of Integrative Sciences and Arts advisor depending on special- or variable-topics courses available in given semesters.

ASB 326: Human Impacts on Ancient Environments (SUST OR SB & H) (3)

ENG 334: The American Southwest in Literature and Film (HUAD OR HU & C) (3)

ENG 359: Indigenous American Literature ((L or HU) & C) (3)

ENG 378: Environmental Creative Nonfiction (HUAD OR HU) (3)

ENG 468: Environmental Literary Criticism (HUAD OR L or HU) (3)

GPH 210: Society and Environment (3)

HST 280: History of Science, Technology and Innovation (GCSI OR SB & G & H) (3)

HST 344: Arizona (SB & H) (3)

IAS 409: Eco-Community Ethics (HU) (3)

IDS 312: Predators, Pets, and Pests (3)

JUS 444: Environment and Justice (L & C) (3)

LSC 362: The Human Environment (3)

PRM 380: Wilderness and Parks in America (SUST OR SB & H) (3)

SOS 100: Introduction to Sustainability (SUST OR G) (3)

TDM 480: Sustainable Tourism (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: The environmental humanities certificate is available to all ASU undergraduate students.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: An undergraduate certificate can help in career advancement. Students who add this specialization in environmental humanities as a complement to their major program of study may become more marketable to employers.

Students who complete this undergraduate certificate often decide to pursue employment in environmental restoration planning, environmental protection or environmental communication.

SANCA 233

Ethics Certificate (LAETHCERT)

Campus: Tempe

Description: The ethics certificate program is designed to give students a richer understanding of systematic philosophical thinking about ethics. Students with majors in business, nursing, journalism and public administration, as well as those who plan to pursue legal careers, among others, may find that training in ethics is beneficial to their career goals.

The certificate program permits some flexibility regarding course selection, thereby facilitating particular student interests.

Program Requirements:

The certificate in ethics consists of 18 credit hours. All courses must be passed with a minimum grade of "C" (2.00 on a 4.00 scale). At least 12 credit hours must be upper-division. At least six upper-division hours must be in courses offered by The College of Liberal Arts and Sciences.

Core Course (choose one) -- 3 credit hours

PHI 335: History of Ethics (GCSI OR HU) (3)

PHI 337: Ethical Theory (HU) (3)

PHI 338: Metaethics (3)

Electives (choose five) -- 15 credit hours

PHI 105: Intro to Ethics (HUAD OR HU) (3)

PHI 107: Introduction to Philosophy of Sex and Love (HU) (3)

PHI 120: Introduction to Medical and Bioethics (HUAD OR HU) (3)

PHI 304: Existentialism (HUAD OR HU) (3)

PHI 306: Applied Ethics (CIVI OR HU) (3)

PHI 307: Philosophy of Law (AMIT OR HU) (3)

PHI 310: Environmental Ethics (SUST OR HU) (3)

PHI 320: Bioethics (HUAD OR HU) (3)

PHI 324: Existential Ethics (HU) (3)

PHI 326: Philosophy of Happiness (HUAD OR HU) (3)

PHI 335: History of Ethics (GCSI OR HU) (3)

PHI 336: Social and Political Philosophy (HU) (3)

PHI 337: Ethical Theory (HU) (3)

PHI 338: Metaethics (3)

PHI 347: Philosophical Theories of Constitutional Law (3)

PHI 360: Business and Professional Ethics (HUAD OR HU) (3)

PHI 370: Sports Ethics (HUAD OR HU) (3)

PHI 394: Game Theory Market & Justice: Intro Phil Politics, Econ (3)

PHI 405: Moral Psychology (3)

PHI 406: Moral Dilemmas (L or HU) (3)

PHI 408: Feminist Ethics (HUAD OR HU) (3)

PHI 409: Eco-Community Ethics (HU) (3)

PHI 420: Blame (3)

PHI 420: Disaster Ethics (3)

PHI 420: Ethics, Big Data and AI (3)

PHI 420: Ethics in Plato & Aristotle (3)

PHI 420: Ethics of Sustainability (3)

PHI 420: Feminist Philosophical Literature (3)

PHI 420: Foundations of Bioethics (3)

PHI 420: Justice (3)

PHI 420: Medical Ethics (3)

PHI 420: Normative Ethics (3)

PHI 420: The Philosophy of Dehumanization (3)

PHI 420: Political Philosophy and Pandemic Ethics (3)

PHI 420: Positive Moral Philosophy (3)

PHI 420: Topics: Race, Gender & Disability (3)

PHI 420: Stoicism (3)

PHI 420: Well-Being: Philosophy of Happiness (3)

PHI 420 is a variable topics course that may be taken more than once, so long as the topics are different. Only topics related to ethics will apply to the certificate.

undergraduate studies.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Incompatible Majors: BA in philosophy (morality, politics and law)

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will be able to evaluate how well different normative ethical theories such as consequentialism, deontology and virtue theory provide moral standards that dictate which (if any) actions are right and wrong or how well different metaethical theories such as realism, expressivism, relativism, nihilism, compatibilism or incompatibilism account for the meaning and truth of moral claims.
- Students will be able to apply leading ethical theories to practical ethical questions that arise in life.

Career Opportunities: An undergraduate certificate can advance students' career options.

Students become more marketable to employers when they complement their major program of study with this specialization in ethics. The certificate is evidence of analytical, reasoning and writing skills and competence in areas of increasing concern to employers, such as ethics, public policy and justice.

Students who complete the ethics certificate often decide to pursue careers in business, law, policy or politics. Advanced degrees or certifications may be required for academic or clinical positions.

Ethnic Studies Certificate (ASETHCERT)

Campus: West

Description: The certificate program in ethnic studies explores the changing political, social, economic and cultural realities of racial, ethnic and indigenous communities in the United States and the Americas.

The coursework combines topics in the humanities, arts and social sciences, and instruction is given on methods to critically analyze racial, ethnic, gender and sexual identities; transnational movements; and diverse forms of cultural, literary and political expression.

The certificate in ethnic studies is recommended for graduate students, nondegree-seeking students and students majoring in professional programs. It is offered by the School of Humanities, Arts and Cultural Studies.

Program Requirements:

The certificate in ethnic studies consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Humanities, Arts and Cultural Studies. A maximum of six credit hours may be shared between the certificate and a major. Up to three credit hours of individualized instruction may be applied toward the certificate. All courses used to satisfy requirements for the certificate must be passed with a "C" (2.00) or better.

Electives are not limited to the certificate elective list; see academic advisor prior to enrollment. Students are encouraged to take courses that develop breadth rather than limiting their selection to courses in one particular discipline. Up to three credit hours of individualized instruction may be applied toward the minor.

Required Courses -- 6 credit hours

ETH 100: Ethnic and Indigenous Lives (GCSI OR SB & C) (3)

HRC 200: Introduction to Social and Cultural Analysis (CIVI OR SB & C) (3)

Upper-Division Electives -- 12 credit hours

AMS 332: Studies in Race and Ethnicity (3)

ASB 342 / SBS 342 / SOC 342: Mexico-U.S. Borderlands (SB & C) (3)
ASB 447 / POS 447 / SBS 447: Citizenship, Nationalism and Identity (CIVI OR SB & C & G) (3)
ENG 338: Protest Literature (3)
ENG 359: Indigenous American Literature ((L or HU) & C) (3)
ENG 420 / IAS 420: Multicultural Autobiographies ((L or HU) & C) (3)
ENG 462: Africana Literature (HU & G) (3)
ENG 463: African American Literature (3)
ENG 476: Studies in Folklore (3)
ETH 353 / ENG 353: African American Literature: Beginnings through the Harlem Renaissance ((L or HU) & C) (3)
ETH 354 / ENG 354: African American Literature: Harlem Renaissance to the Present (HUAD OR (L or HU) & C) (3)
ETH 380 / WST 380: Race, Gender, and Class (SOBE OR SB & C) (3)
ETH 428 / AMS 428: Peoples and Cultures of the American West, to 1848 (SB & H) (3)
ETH 430 / WST 430: Gender on the Borderlands (HUAD OR SB) (3)
ETH 433 / WST 433: Race and Sexualities in Social Justice Movements (3)
ETH 450: Latina/os, Schooling and Social Inequality (C) (3)
ETH 473 / WST 473: Indigenous and Latina/Chicana Representation (SB & C) (3)
ETH 484 / ENG 484: Pen Project Prison Teaching (3)
ETH 499: Individualized Instruction (3)
HST 419: 20th Century Chicano/a History (C) (3)
IAP 302: Cross-Cultural Perspectives on the Arts (L or HU) (3)
IAP 464: Media and Diversity (HUAD OR HU & G) (3)
LAS 340 / WST 341: Latin American Women Writers (HU & G) (3)
SBS 301: Cultural Diversity ((L or SB) & C) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Students who wish to pursue this certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure the appropriate set of courses is taken and the certificate is added to the student's program of study.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: This program prepares students for graduate study or for careers in a variety of fields, including business, health care, criminal justice, social services, education, public relations, community development, public policy and government. Potential careers include community health worker, social and community service manager, secondary and high school teacher, and journalist.

European Studies Certificate (LAESCERT)

Campus: Tempe

Description: The European studies certificate program provides a broad overview of European countries, including their natural environment and their cultural, demographic, economic and political characteristics.

The program focuses on the interconnectedness of European politics, religious diversity, ethnicities, socioeconomic justice and sustainable solutions. It also develops students' ability to analyze the historical development of the region and its exchanges with other world cultures.

Students analyze what it has meant to be European in the past, how the concept has shifted in a globalized world and how that knowledge can be applied to contemporary political and cultural debates as well as to professional opportunities in the region.

Program Requirements:

The certificate requires 15 credit hours of upper-division coursework. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Required Core Course -- 6 credit hours

GCU 325: Geography of Europe (GCSI OR SB & G) or POS 352: European Democracies (3)
SLC 429 / ENG 429 / CEL 429 / THE 429: What is Europe? (3)

Electives (choose two) -- 6 credit hours

CEL 375: Politics and Leadership in the Age of Revolutions, 1776-1826 (3)
CEL 394: Faith and Reason: The Trial of Galileo (3)
CEL 394: Justice and Virtue (3)
CEL 394: Russian Political Thought from Peter I to Putin (3)
CEL 394: War&Culture Cntrl Europe: Empire or Lib Democracy (3)
CEL 481: Debating Globalism and Nationalism, Past and Present (G) (3)
CEL 494: Classical Mythology and the Western Tradition (3)
FRE 321: French Cultural Masterpieces I ((L or HU) & H) (3)
FRE 322: French Cultural Masterpieces II (L or HU) (3)
FRE 414 / ITA 414 / SLC 414: French and Italian Popular Culture (GCSI OR (L or HU) & G) (3)
FRE 415: French Civilization I (HU) (3)
FRE 416: French Civilization II (HU & G) (3)
FRE 494 / ITA 494: Paris & Florence in the Middle Ages (1100-1500) or SLC 494: Paris and Florence in the Middle Ages (1100-1500) (3)
GCU 325: Geography of Europe (GCSI OR SB & G) (3)
GCU 426: Geography of Russia and Surroundings (SB & G) (3)
GER 416: German Civilization (HU & H & G) (3)
GER 422: German Literature Survey, 1800-Today (L or HU) (3)
GER 445 / FMS 445: Holocaust, War and German Memory (HU) (3)
GER 446: Weimar-Era German Film (HUAD OR HU) (3)
GER 447 / SLC 447: German Modernism (3)
GRK 344 / LAT 344 / SLC 344: Classics and Comics (HU) (3)
GRK 347 / HST 347 / SLC 345: Ancient Greece I: Bronze Age through the Peloponnesian War (CIVI OR SB & H) (3)
GRK 360 / LAT 360 / SLC 360 / HST 397: Greece and Rome at War (3)
GRK 362 / SLC 362 / REL 360: Ancient Greek Religion (HU) (3)
HST 304 / JST 304: Studies in European History (3)
HST 351: Renaissance Europe ((L or HU or SB) & H) (3)
HST 352: Europe's Reformations ((L or HU or SB) & H) (3)
HST 354: Revolutionary Europe (GCSI OR SB & H) (3)
HST 355: Total War and the Crisis of Modernity (SB & G & H) (3)
HST 356: Europe since 1945 (SB & G & H) (3)
HST 359: Jewish History from 1492 to 1948 (SB & G & H) (3)
HST 361 / REL 374: Witchcraft and Heresy in Europe (HUAD OR (L or HU) & H) (3)
HST 364: Sex and Society in Europe ((L or SB) & H) (3)
HST 368: Culture and Imagination in European History (3)
HST 370: Eastern Europe in Transition (SB & G & H) (3)
HST 373 / LAT 373 / SLC 373: Roman History I: Foundations and Republic (3)
HST 374 / LAT 374 / SLC 374: Roman History II: The Roman Empire (GCSI OR HU & H) (3)
HST 427: French Revolution/Napoleonic Era (SB & H) (3)
HST 429: Modern Germany (SB & G & H) (3)
HST 465: Women in Europe, 1750 to Present ((HU or SB) & H) (3)
ITA 315: Italian Culture: The Good, The Bad and The Ugly (GCSI OR G) (3)
ITA 321: Italian Renaissance Culture: Politicians, Merchants, Artists and Courtesans (H) (3)
ITA 322: Modern Italian Culture: Explorers, Scientists, Musicians and Revolutionaries (HUAD OR HU) (3)
ITA 350 / SLC 350: Food and Culture: The Mediterranean Lifestyle in Italy (3)
ITA 423 / SLC 423: Italian Organized Crime in Films and History (HUAD OR (L or HU) & G) (3)
POS 352: European Democracies (3)
POS 356: European Union (GCSI OR SB & G) (3)
REL 312: History and Memory of the Holocaust (3)
REL 377: Religion in Russia (HU & H) (3)
REL 382: Magick, Religion and Science (L or HU) (3)
RUS 323: Russian Literature and Revolution: The Twentieth Century ((L or HU) & G) (3)
RUS 430: Russian Short Story (HUAD OR L or HU) (3)
RUS 440: Russian Mass Media (G) (3)
SLC 442 / ROM 442: Dracula and Vampire Lore (HUAD OR (L or HU) & G & H) (3)
SPA 425: Understanding Spain: Literature and Culture Before 1700 (HU) (3)
SPA 426: Literature and Society in Modern Spain (HU) (3)
SPA 473: Old and New Spaniards: Culture and Civilization of Spain (HUAD OR (HU or SB) & G) (3)

Capstone Experience (choose one) -- 3 credit hours

Upper Division Capstone Experience (3)

Students select Capstone Experience from list below in consultation with the European studies certificate faculty coordinator and academic advisor.

Students may use credit earned on a study abroad program in a European country. Placement of the credit must be reviewed and approved by the European studies certificate faculty coordinator and the academic advisor.

Evolutionary Medicine Certificate (LAEVMDCERT)

Campus: Tempe, Online

Description: In the evolutionary medicine certification program, students discover a burgeoning new field that is improving human health and transforming our understanding of disease by merging the fields of evolutionary biology, genetics, medicine, global health and public health.

Students will integrate perspectives from across these fields to investigate questions about health and disease in the context of human history. Using their mastery of these new approaches within the biological and social sciences, they will address emerging and anticipated public needs such as reemerging infectious disease, challenges facing vaccination, expanding chronic disease and other growing public health crises.

Program Requirements:

The certificate in evolutionary medicine consists of 15 credit hours, at least 12 of which must be upper division. All 15 credit hours must be completed at ASU. A grade of "C" (2.00 on a 4.00 scale) or higher is required for all courses used toward the certificate.

Required Courses -- 6 credit hours

ASM 403 / BIO 403: Evolutionary Medicine and Global Health (3)

BIO 408 / ASB 408: Advanced Evolutionary Medicine (3)

Electives (choose three) -- 9 credit hours

A minimum of six credit hours of electives must be upper division.

ASB 250 / BIO 250: Introduction to Evolution and Medicine (SOBE OR SB & G) (3)

ASB 448 / BIO 448: Maternal and Child Health (3)

ASB 462: Medical Anthropology: Culture and Health (SOBE OR SB & C) (3)

ASM 246: Human Origins (SOBE OR SB) (3)

ASM 342 / BIO 327: Evolution of Human Behavior (3)

ASM 345: Disease and Human Evolution (3)

ASM 394 / BIO 394: Ecology and Evolution of Infectious Diseases (3)

ASM 401: Health and Human Biology (3)

ASM 446 / BIO 446: Principles of Human Genetics (L) (3)

ASM 456: Infectious Disease and Human Evolution (3)

ASM 494 / BIO 494: Evolution and Mental Disorders (3)

BIO 302: Cancer--Mother of All Diseases (L) (3)

BIO 318 / HPS 331: History of Medicine (HUAD OR HU & H) (3)

BIO 345: Evolution (3)

BIO 394 / PSY 394: Introduction to Evolutionary Psychology (3)

BIO 440 / MBB 440: Functional Genomics (3)

BIO 462: Endocrine Physiology (3)

MBB 445 / MIC 445: Techniques in Molecular Biology/Genetics (3)

MIC 205: Microbiology (SCIT OR SG) or MIC 220: Biology of Microorganisms (3)

MIC 314: HIV/AIDS: Science, Behavior, and Society (3)

MIC 425: Advanced Immunology (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate mastery of key evolutionary concepts related to human health and disease.
- Able to appropriately analyze data relevant to evolutionary medicine.

Career Opportunities: The evolutionary medicine certificate program provides students with integrated and individualized skills in high demand to address a growing need for innovation in medicine and public health care. When combined with a major program of study, graduates will be well prepared for roles in a variety of fields, including biology, medicine, law and ethics.

Advanced degrees or certifications may be required for academic or clinical positions.

Family Communication Certificate (ASFAMCCERT)

Campus: West

Description: The certificate program in family communication focuses on issues that affect communication within the family. It complements the current communication program by bringing together an array of courses that have implications for the family unit, such as courses in new media and health. Students are encouraged to also take courses in other disciplines that complement family-related communication courses.

This program is offered by the School of Social and Behavioral Sciences.

Program Requirements:

The certificate in family communication consists of 19 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Social and Behavioral Sciences. A maximum of six credit hours may be shared between the certificate and a major. All courses used to satisfy requirements for the certificate must be passed with a "C" (2.00) or better.

The courses listed are suggested and actual courses should be selected in conjunction with an academic advisor. Four courses must be selected from at least two content areas listed. A one credit hour exit portfolio is required and may be taken after a minimum of 12 hours toward the certificate has been completed.

Required Courses -- 6 credit hours

COM 312: Communication, Conflict, and Negotiation (CIVI) or COM 410: Advanced Interpersonal Communication (SOBE OR SB) or COM 417: Communication and Aging (3)

COM 411: Communication in the Family (SOBE OR SB) (3)

Content Area Courses -- 12 credit hours

Content Area Course (6)

Upper Division Content Area Course (6)

Select four courses from at least two content areas. At least six hours must be upper division. Listed courses are suggestions; courses for the certificate should be selected in conjunction with the certificate advisor.

Social and Cultural Elements of the Family

AFR 370: Family Ethnic and Cultural Diversity (CIVI OR SB & C) (3)

ASB 346: Marriage and Family Diversity (SOBE OR SB & C) (3)

ASB 353 / SOC 353: Death and Dying in Cross-Cultural Perspective (GCSI OR (HU or SB) & G) (3)

COM 310: Communication in Interpersonal Relationships (SOBE OR SB) (3)

COM 316: Gender and Communication (SOBE OR SB & C) (3)

COM 410: Advanced Interpersonal Communication (SOBE OR SB) (3)

COM 432: Forgiveness and Reconciliation (3)

FAS 301: Introduction to Parenting (3)

FAS 331: Modern Family Relationships (SOBE OR SB) (3)

FAS 370: Family Ethnic and Cultural Diversity (CIVI OR SB & C) (3)

FAS 435: Advanced Topics in Modern Family Relationships (SOBE OR L or SB) (3)

PSY 385: Psychology of Gender (SOBE OR SB) (3)

SOC 315: Sociology of Dating, Relationships and Marriage (SOBE OR SB) (3)

SOC 415: Families and Social Policy (SB) (3)

Health and Family Development

CDE 430: Infant and Toddler Development in the Family (SOBE OR SB) (3)

COM 417: Communication and Aging (3)

CRJ 204: Juvenile Justice (3)

FAS 332: Human Sexuality (SOBE OR SB) (3)

FAS 436: Sexuality in Mid-Life and Beyond (3)

PSY 341: Developmental Psychology (SOBE OR SB) (3)

PSY 443: Child and Adolescent Psychological Disorders (SOBE OR L or SB) (3)

PSY 444: Adolescent Psychology and Psychopathology (3)

PSY 447: Psychology of Aging (SB) (3)

SOC 312: Adolescence (SOBE OR SB) (3)

Technology, Media and the Family

COM 416: Gender and Race in the Media (3)

COM 424: Television Studies and Criticism (3)

COM 457: New Media (3)

COM 471: Global Media and Cultural Identity (GCSI OR G) (3)

ENG 244: Introduction to Researching Family History (3)

MCO 473: Sex, Love, and Romance in the Mass Media (SB) (3)

Community Application

COM 314: Inner-City Families: The Cycle of Poverty (3)

COM 484: Internship (3)

Family Communication Portfolio -- 1 credit hours

COM 485: Communication Portfolio (1)

Notes: The communication portfolio is a synthesis of the student's family communication academic experience. The portfolio itself integrates each student's experience with theory and concepts from coursework. The portfolio may take a variety of forms, to be negotiated by each student and the instructor. This course is to be taken after a minimum of 12 credit hours toward the certificate have been completed.

Listed courses are suggestions; courses for the certificate should be selected in conjunction with the certificate advisor.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: The certificate in family communication is open to all ASU undergraduate majors. Students who wish to pursue this certificate should consult an academic advisor in the School of Social and Behavioral Sciences to ensure that the appropriate set of courses is taken.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: This is a valuable certificate for students who plan to enter careers or graduate study in fields such as psychology, counseling, family studies, social work, medicine or nursing, law, aging, pastoral care, human services, media or communication technology.

Field Geology Certificate (LAFDGCERT)

Campus: Tempe

Description: The certificate program in field geology prepares undergraduate students with the core knowledge base and field experience to identify, describe, collect and interpret a variety of types of geological field data.

Program Requirements:

The certificate requires a minimum of 15 credit hours. At least 12 credit hours must be completed in upper-division coursework and at least nine credit hours must be completed at ASU. At least six upper-division hours in the certificate must be completed in courses offered by The College of Liberal Arts and Sciences. A grade of "C" (2.00 on a 4.00 scale) or higher is required for each course used to fulfill a certificate requirement.

Required Courses -- 9 credit hours

GLG 310: Structural Geology (3)

GLG 452: Field Geology II (L) (3)

GLG 455: Advanced Field Geology (3)

Electives (choose two) -- 6 credit hours

GLG 362: Geomorphology (3)

GLG 420: Volcanology (3)

GLG 424: Petrology (3)

GLG 435: Sedimentology and Stratigraphy (3)

GLG 489: Field Geochemistry (L) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Courses not completed at ASU must be approved for use in this certificate.

Enrollment Requirements: Students must complete the following prerequisite courses or their equivalencies with a "C" or better (scale is 4.00 = "A") to pursue the field geology certificate:

GLG 101 Introduction to Geology I (Physical) and GLG 103 Introduction to Geology I Lab, or
SES 121 Earth, Solar System and Universe and SES 123 Earth, Solar System and Universe Lab, and
GLG 321 Mineralogy and GLG 451 Field Geology I

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Students who complete this undergraduate certificate possess a strong field-based background, which is required for many entry-level jobs with resource mining, geotechnical and environmental consulting companies. It is also a strong asset for acceptance into many graduate research programs in the earth sciences.

Career opportunities include:

- geologic materials technician
- geologic sample test technician
- geoscientist
- geotechnician
- mining and geological engineer

Sample career settings include:

- environmental industry
- geotechnical industry
- mining and petroleum industries

Film and Video Studies Certificate (ASVIDCERT)

Campus: West

Description: In this interdisciplinary film and video studies certificate program, students explore film theory and the practice of the moving image and have an opportunity to develop their interests, skills and understanding of the forms, channels, technologies and histories of the media arts.

Coursework helps students become more astute critics of film and media arts. They learn about the history of film, television and video arts as well as their place in social, cultural and political expression. Students also strengthen their critical thinking skills through an analysis of the ongoing philosophical, aesthetic, political and technological debates about film, media and video.

Program Requirements:

The certificate in film and video studies consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Humanities, Arts and Cultural Studies. A maximum of six credit hours may be shared between the certificate and a major. All courses used to satisfy requirements for the certificate must be passed with a "C" (2.00) or better.

Students choose a focus in either film studies, or media and video studies. The film studies emphasis focuses on the impact of film and video. The media and video studies emphasis is concerned with the rendering of film and video.

Core Requirement -- 3 credit hours

IAP 201: Introduction to Interdisciplinary Arts (HUAD OR HU) (3)

Foundation Requirement -- 3 credit hours

IAP 111: Foundations of Sound, Digital Arts, and Games (3)

Emphasis Tracks

Film Studies Emphasis - students will choose six credit hours from the Applied/Practical course list and three credit hours from the Theoretical, Conceptual and Historical course list.

Media and Video Studies Emphasis - students will choose nine credit hours from the Theoretical, Critical, Performance and/or Production course list.

Film Studies Emphasis: Applied/Practical Courses (choose two) -- 6 credit hours

COM 335 / IAP 335: Acting for the Camera (3)

COM 429: Visual Communication and Semiotics (3)

IAP 322: Multitrack Digital Recording (3)

IAP 361: Digital Editing and Media Literacy (CS) (3)

IAP 364: Documentaries (3)

IAP 366: 3D Modeling and Media Literacy (3)

IAP 467: Acoustic Ecology (3)

IAP 474: Art and Film (L or HU) (3)

Film Studies Emphasis: Theoretical, Conceptual and Historical Courses (choose one) -- 3 credit hours

ENG 365: History of Film (HUAD) (3)

IAP 364: Documentaries (3)

IAP 465: Media Technologies and the Arts (3)

IAP 473: Aesthetic Research (L or HU) (3)

Media and Video Studies Emphasis: Theoretical, Critical, Performance and/or Production Courses (choose three) -- 9 credit hours

COM 335 / IAP 335: Acting for the Camera (3)

COM 429: Visual Communication and Semiotics (3)

ENG 365: History of Film (HUAD) (3)

IAP 325: Sound Performance: Exploring Alternative Performance Groups (3)

IAP 334: Conceptual Development in the Arts (3)

IAP 361: Digital Editing and Media Literacy (CS) (3)

IAP 364: Documentaries (3)

IAP 366: 3D Modeling and Media Literacy (3)

IAP 465: Media Technologies and the Arts (3)

IAP 467: Acoustic Ecology (3)

IAP 469: Advanced Audio Production (3)

IAP 473: Aesthetic Research (L or HU) (3)

IAP 474: Art and Film (L or HU) (3)

IAP 494: Advanced Video Production (3)

Capstone -- 3 credit hours

IAP 480: Art as Praxis: From Conceptualization to Production (3)

The project should reflect the integration of coursework with creative initiative to generate a product that stands alone as a piece of original work.

*For the Film Studies Emphasis, the project will focus on an intellectual analysis of some dimension of film products, reception, institutions, economics, and so forth.

*For the Media and Video Studies Emphasis, the project may be intellectual or creative (performance or production) in nature. Projects will be examined and evaluated by at least one faculty member involved in the film and video studies certificate.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: The certificate in film and video studies is open to all ASU undergraduate majors. Students wishing to pursue this certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure the appropriate set of courses is taken.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: The certificate in film and video studies helps students prepare for such careers as editors, art directors, video producers and directors, video and interdisciplinary project directors, and digital media specialists in areas such as video and film production, film studies, media studies or digital design. The valuable skills students gain through the program also prepare them for graduate study.

Campus: Polytechnic

Description: The certificate program in food industry management and marketing allows business and nonbusiness students to acquire specialized

business skills, providing them with a competitive advantage for employment with firms and agencies that operate within the global food industry.

The certificate program explores the roles that consumer food choices and purchases play in the allocation of resources throughout the food chain, from farm to retail.

Upon completion of the program, students have a deep understanding of the business, economic and market environments of the global food industry, with particular emphasis on food marketing and distribution.

Program Requirements:

The food industry management and marketing certificate requires 15 credit hours and is available to all majors. To earn the certificate, students must complete all courses with a grade of "C" (2.00 on a scale of 4.00) or better.

No more than six credit hours may be shared between the certificate and other degree programs, minors, and/or other certificates.

Required Course -- 3 credit hours

AGB 250: Economics of Resource Allocation: Food and Agriculture or AGB 302: International Management and Agribusiness (GCSI OR G) (3)

Required Marketing Course (choose one) -- 3 credit hours

MKT 300: Marketing and Business Performance (3)

MKT 302: Strategic Marketing Management (L) (3)

MKT 303: Honors Marketing Theory and Practice (3)

MKT 390: Essentials of Marketing (3)

Electives (choose three) -- 9 credit hours

AGB 100: Introduction to Agribusiness (3)

AGB 370: Food Retailing Strategy Development and Case Competition (3)

AGB 414: Food and Agribusiness Policy Issues (L) (3)

AGB 420: Food Advertising and Promotion (3)

AGB 425: Food Supply Networks (3)

AGB 435: Commodity Futures and Options Markets (3)

AGB 445: Food Retailing (3)

AGB 452: Global Food and Agricultural Trade (3)

AGB 456: Food Product Innovation and Development (3)

AGB 481: Strategic Pricing in Food Markets (3)

AGB 494: NAMA Marketing Plan (3)

BUS 424: Sales and Negotiations (3)

BUS 434: Business Risk Management (3)

TGM 460: Global Risk Assessment and Management (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

The program is offered at ASU's Polytechnic campus, but students may choose to take the entire certificate in iCourse format.

Enrollment Requirements: Students majoring in food industry management are not eligible to pursue this certificate.

No more than six credit hours may be shared between the certificate and other degree programs, minors or other certificates.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Students can advance their career options with an undergraduate certificate. The certificate in food industry management and marketing helps students develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Students who complete this undergraduate certificate often decide to pursue employment in management, marketing and sales. Advanced degrees or certifications may be required for academic or clinical positions.

Gender, Women and Sexuality Studies Certificate (ASWSTCERT)

Campus: West

Description: This certificate combines interdisciplinary topics and methods to critically analyze, unpack and address how relations of gender are embedded in and connected to social, political and cultural transformations. The intellectual core draws from theories, methods and teachings in women and gender studies while engaging complementary fields of social justice, cultural studies, sexuality studies, queer studies, literature, history, sociology, psychology, oral history, ethnicity, race and indigenous studies, and transnational studies.

Program Requirements:

The certificate in gender, women and sexuality studies consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Humanities, Arts and Cultural Studies. A maximum of six credit hours may be shared between the certificate and a major. All courses used to satisfy requirements for the certificate must be passed with a "C" (2.00) or better.

Core Requirements -- 6 credit hours

HRC 200: Introduction to Social and Cultural Analysis (CIVI OR SB & C) (3)

WST 100: Women, Gender, and Society (SOBE OR SB & C) or WST 300: Women and Gender in Contemporary Society (SOBE OR SB & C) (3)

Electives -- 12 credit hours

Courses used for Core Requirements cannot also be used to satisfy the Elective Requirements.

AMS 334 / ETH 333 / WST 334: Class in America (SB) (3)

ENG 220 / WST 220: Gender, Media and Culture (HUAD OR HU & C) (3)

ENG 336 / WST 330: Women, Film and Culture (SB & C) (3)

ENG 364: Women and Literature (HUAD OR HU) (3)

ENG 443 / WST 415: Gender, Culture and Literacy (3)

ENG 454 / WST 454: Gender and Literature (L or HU) (3)

ETH 433 / WST 433: Race and Sexualities in Social Justice Movements (3)

HST 328: Women in U.S. History, 1880-1980 (HUAD OR (HU or SB) & C & H) (3)

LAS 340 / WST 341: Latin American Women Writers (HU & G) (3)

WST 333: Critical Perspectives on Sexuality (SOBE OR SB) (3)

WST 370: Chronicling Women's Lives (HU & C) (3)

WST 376: Feminist Theory (HUAD OR H & C) (3)

WST 380: Race, Gender, and Class (SOBE OR SB & C) (3)

WST 390 / REL 390: Women, Gender and Religion (GCSI OR HU & G) (3)

WST 428: Gender, Madness and Justice (SB) (3)

WST 430: Gender on the Borderlands (HUAD OR SB) (3)

WST 444: Gender, Health, and Bodies (SB) (3)

WST 449: Hate Speech, Manifestos, and Radical Writings (CIVI OR SB & C) (3)

WST 457: Women, Cultures, and Societies (SB & G) (3)

WST 469: Abject Bodies and the Politics of Trash (SB & C) (3)

WST 473: Indigenous and Latina/Chicana Representation (SB & C) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Students who wish to pursue this certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure the appropriate set of courses is taken and the required paperwork is submitted.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: This program prepares students for graduate study or a variety of fields including business, health care, criminal justice, social services, education, public relations, nonprofits, community development, public policy and government. Possible careers include community health workers, secondary school teachers, human resource managers, probation officers, social and community service managers, writers and professors.

FAB N101

Gender, Women and Sexuality Studies Certificate (LAWSTCERT)

Campus: Tempe

Description: The gender, women and sexuality studies certificate program provides students with an intersectional approach to the study of gender, race, class, ethnicity and sexuality in national and transnational contexts. This program enables students to write well, think critically and analyze problems effectively.

Program Requirements:

The gender, women and sexuality studies certificate requires a minimum of 18 credit hours, of which at least 12 must be completed at the upper-division level. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Course -- 3 credit hours

WST 100: Women, Gender, and Society (SOBE OR SB & C) or WST 300: Women and Gender in Contemporary Society (SOBE OR SB & C) (3)

Elective Core Course -- 3 credit hours

WST 377: History of American Feminist Thought (HUAD OR H & C) or WST 378: Global Feminist Theory (GCSI OR L & G) (3)

Electives -- 12 credit hours

WST Elective (3)

WST Upper Division Elective (9)

WST 100 and WST 300 cannot be used to fulfill the elective requirement.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze the ways in which gender intersects with other social locations in shaping ideology, as well as social, political and cultural institutions.
- Demonstrate an understanding of key concepts, critical debates and interdisciplinary approaches and methodologies that have shaped the field of women and gender studies.

Career Opportunities: Graduates who have combined the certificate in gender, women and sexuality studies with their major program of study may increase their marketability to employers.

Graduates often decide to pursue employment in law, education, public service, and human welfare and social work. Advanced degrees or certifications may be required for academic or clinical positions.

Geographic Information Science Certificate (LAGISCERT)

Campus: Tempe, Online

Description: The geographic information science undergraduate certificate program pairs the practical skill of geographic information science with the conceptual knowledge of geographical problem-solving and spatial thinking.

Program Requirements:

The certificate requires 20 credit hours with a grade of "C" (2.00 on a 4.00 scale) or higher. At least 12 of the 20 credit hours must be upper division.

Geographic Information Science Core -- 11 credit hours
GIS 205: Geographic Information Science I (QTRS OR CS) (3)
GIS 211: Geographic Information Science II (QTRS OR CS) (4)
GIS 311: Geographic Information Science III (QTRS OR CS) (4)

Upper Division GIS Electives -- 6 credit hours
GIS Upper Division Elective (6)

Upper Division Related Coursework -- 3 credit hours
GCU OR GIS OR GPH OR PUP OR CEE OR CSE OR EEE OR EGR OR FSE OR IEE Upper Division Elective (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: ASU degree-seeking students

The BS in geographic information science is incompatible with this certificate program.

Nondegree-seeking students

This certificate is available through the Pathways for the Future program (<https://pff.asu.edu/>). Applicants without a bachelor's degree are eligible to apply for, and receive, this certificate through the Pathways for the Futures program. Applicants who already hold a bachelor's degree should apply to ASU and this certificate program as a nondegree-seeking graduate student.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/geographic-information-science-undergraduate-certificate/>) for program descriptions and to request more information.

Career Opportunities: Geographic information science is one of the fastest-growing segments of the economy, and employment possibilities can be found across the private sector as well as in many government agencies at the local, state and national levels.

Students who pair this geographic information science certificate with their degree program will have added knowledge and abilities in the following highly desirable skills:

- analysis
- computer programming
- problem solving
- statistics

These skills are applicable to many fields, including:

- health care
- nonprofit organizations
- real estate
- retail
- utilities

Global Management Certificate (TBTGMCERT)

Campus: Downtown Phoenix, West

Description: Research from McKinsey and Company, a highly respected consulting firm, indicates that in the near future, almost 40% of growth globally will result from just 400 cities in emerging markets around the world.

This undergraduate certificate program in global management provides broad-based training in global business and global studies, helping to prepare students for a global management career. It offers unique courses that integrate an in-depth understanding of the political, economic and

cultural aspects of doing business in specific regions with tools to assess business trends in specific countries.

Thunderbird School of Global Management has produced unique leaders for more than 70 years. Home to the BGM and BS in international trade, the school's innovative and practical curriculum complements a strong core of global business management skills, international political economy and cross-cultural training, with a transdisciplinary approach. The alumni network has over 45,000 graduates across 170 chapters around the globe.

Program Requirements:

The global management certificate requires 18 credit hours as outlined below, with a minimum of 12 upper-division credits. Students are encouraged to take courses that develop breadth within their sector rather than limiting their selection to courses in one particular subject area.

Required Course -- 3 credit hours

TGM 101: Principles of Global Management (GCSI OR G) (3)

It is recommended that students take TGM 101 prior to or concurrently with other TGM courses.

Electives -- 15 credit hours

TGM 204: Principles of Marketing for Global Organizations (3)

TGM 300: Principles of Finance for Global Organizations (3)

TGM 310: Supply Chain Operations for Global Organizations (3)

TGM 312: Big Data in the Global Economy (3)

TGM 353: Regional Management Environment (GCSI OR G) (3)

TGM 468: States and Markets in a Global Economy (GCSI OR SB & G) (3)

TGM 478: Cross-Cultural Communication and Negotiation (3)

TGM 487: Global Entrepreneurship (3)

TGM 489: Multinational Organizational Leadership (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Study abroad or international experience is encouraged but not required. Consider ASU Global Education Office opportunities.

Enrollment Requirements: Incompatible Majors: BGM in global management; BS in international trade.

No more than six credit hours may be shared between certificate and other degree programs, minors or other certificates.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate enhanced ability to think analytically in a global context.
- Demonstrate in-depth knowledge of at least one region of the world.
- Demonstrate enhanced ability in Global Entrepreneurship.

Career Opportunities: Graduates who have combined the certificate in global management with their major program of study may become more marketable to employers. Many decide to pursue employment in corporations, governments or nonprofits in positions such as business analyst, global entrepreneur or marketing manager.

Advanced degrees or certifications may be required for academic or clinical positions.

Globalization and Culture Certificate (LAGLCCERT)

Campus: Tempe

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Description: The globalization and culture certificate program offers students the opportunity to increase their understanding of the cultural

dimensions of globalization, in the context of economic, political and social changes in the world today.

This certificate program provides an interdisciplinary approach to understanding the phenomenon of globalization, including the historical, political, cultural and social forces that shape contemporary globalized society. It draws on courses from several colleges and academic units and emphasizes studies related to the history and culture of globalization, conflict and contact between regions of the world and questions related to language and identity.

Program Requirements:

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Graduates who have combined the certificate in globalization and culture with their major program of study may be more marketable to employers. They often decide to pursue employment in education, political analysis, the military, tourism and hospitality or marketing.

Hazardous Materials and Waste Management Certificate (TSETMCERT)

Campus: Polytechnic

Description: The certificate program in hazardous materials and waste management is designed to provide current and prospective employees of industry and government with a comprehensive and practical curriculum of study in hazardous materials management. The certificate program features instruction by faculty, attorneys and professionals who work in the specific area in which they teach.

Students enrolled in this certificate program are offered several industry-required courses by the Environmental and Resources Management professional development program targeted at environmental professionals who engage in management and transportation of hazardous materials and waste: the Occupational Safety and Health Administration-mandated 40-hour Hazardous Waste Operations and Emergency Response course; the 16-hour initial Hazardous Materials Transportation Certification course; and their corresponding eight-hour refresher courses. These training courses are provided to certificate students at less than 15% of the actual cost to support their professional development.

Program Requirements:

The certificate in hazardous materials and waste management requires 18 credit hours. Students must complete six selected courses (four required and two electives) and earn a grade of "C" (2.00 on a scale of 4.00) or higher to receive the certificate.

Core Courses -- 12 credit hours

ERM 203: Environmental Regulations (3)
ERM 401: Hazardous Waste Management (3)
ERM 406: Environmental Chemistry (3)
ERM 407: Occupational Hygiene (3)

Elective Courses -- 6 credit hours

ERM 3** Elective or ERM 4** Elective (ERM 402 OR ERM 432 recommended) (6)
Please note - ERM 402 has a prerequisite of ERM 302.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: The certificate in hazardous materials and waste management is available to all ASU students in good standing, except those pursuing any program in environmental and resource management.

To add the certificate in hazardous materials and waste management, a student must hold, at minimum, junior status and have a minimum cumulative GPA of 2.00.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a

nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Evaluate environmental policies and regulations that apply to environmental and resource management.
- Apply management, scientific, and technical solutions to natural and anthropogenic environmental problems.

Career Opportunities: Graduates with the skills gained in this certificate program are in high demand and can find work in industry, governmental management and regulatory agencies or in policymaking organizations.

Graduates are firmly grounded in the scientific, technical and legal problems facing hazardous waste managers in today's business climate. They are prepared to be waste, health and safety professionals in industrial settings such as manufacturing, mining, oil and gas, or environmental engineering consulting firms. They also ensure compliance with OSHA and U.S. Environmental Protection Agency requirements in manufacturing operations, water and wastewater treatment facilities, or local governments. On the regulatory side, graduates work for agencies such as the EPA or state and county departments of environmental quality.

Health Care Policy and Delivery Certificate (NHHCPDCERT)

Campus: Downtown Phoenix

Description: The certificate program in health care policy and delivery provides students an overview of principles related to health systems, management and program oversight in health care settings.

The curriculum focuses on the business of medicine, administration, leadership and policy. Students have the option of selecting an internship course to enhance their application of core concepts.

Those who complete the program and earn the certificate broaden and expand their competitiveness for employment and postgraduate degree programs.

Program Requirements:

The certificate requires a total of 18 credit hours. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.

In order to enroll in HCD 402 and complete the certificate, students must first complete either ECN 212 or HCD 201.

Required Courses -- 15 credit hours

- HCD 302: Health Care Management (3)
- HCD 330: Health Care Systems in the U.S. (CIVI) (3)
- HCD 332: Population Health Policy and Legislation (3)
- HCD 402: Health Economics (SOBE OR SB) (3)
- HCD 403: Process Engineering (3)

Elective -- 3 credit hours

- HCD 304: Health Care Finance (3)
- HCD 404: Advanced Concepts in Health Care Administration and Policy (3)
- HCD 484: Internship (3)
- MED 450: Leadership and Professionalism (3)
- PAF 311: Leadership and Change (SOBE OR SB) (3)
- PAF 460: Public Service Ethics (3)
- PBH 422: Health Disparities and Access to Health (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in health care administration and policy; BS in health sciences

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Graduates who have combined the certificate in health care policy and delivery with their major program of study may be more marketable to employers. The certificate is particularly relevant for future medical practitioners who intend to serve in a private practice because it broadens their understanding of the business side of U.S. health care systems. Entry-level opportunities in the field include program or clinical administration, advocacy and quality improvement.

Health Education Specialist Certificate (NHEDSCERT)

Campus: Downtown Phoenix

Description: Health education and health promotion professionals fill a critical role as they teach individuals how to stay well by living healthy lifestyles. They also help mobilize communities to advocate for and create healthy environments, and they champion health equity through policy, advocacy and environmental change.

In this certificate program, students learn how to plan, implement, manage and evaluate health promotion programs that improve health outcomes and prevent chronic and infectious disease.

This certificate enables students to sit for the certified health education specialist exam through the National Commission for Health Education Credentialing (<https://www.nchec.org/> (<https://www.nchec.org/>)). CHES is a globally recognized credential for health professionals. Having CHES certification provides graduates with a competitive edge in the job market, and individuals who have earned the CHES credential can identify themselves as a certified health education specialist.

Program Requirements:

The certificate requires a total of 25 credit hours. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.

In order to receive the certificate, students must complete their bachelor's degree at ASU along with all certificate requirements.

Required Courses -- 25 credit hours

CHS 340: Health Theory (3)

HEP 102: Foundations of Health Education and Health Promotion (3)

HEP 241: Health Education Methods for Injury Prevention and Preparedness (3)

HEP 251: Preventing HIV and Substance Misuse (3)

HEP 361: Digital Health Communication and Education (3)

HEP 452: Health Advocacy in Health Education (3)

HEP 454: Health Promotion Program Planning and Implementation (L) (3)

HEP 466: Health Promotion Program Management and Administration (3)

HEP 490: CHES Exam Preparation (1)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: GPA Requirement: 2.00

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Employment of health educators is expected to grow much faster than the average for all professions, with the U.S. Department of Labor predicting a 17% increase in the field between 2020 and 2030. The need for quality health education specialists has never been more critical than it is today.

Health education specialists, also known as health educators, can work with:

- businesses
- government
- health departments
- hospitals and clinics
- nonprofit organizations
- schools
- tribal nations

Health education specialists work at organizations such as the Centers for Disease Control and Prevention, the American Heart Association, Army Wellness Centers and the American Red Cross, and some join the Peace Corps.

Graduates of this program have varied opportunities, including the following positions:

- cancer information specialist
- community health educator
- community outreach coordinator
- diabetes educator
- grant writer
- lactation consultant
- prevention specialist
- wellness coordinator

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Health and Wellness Coach Certificate (NHHWCERT)

Campus: Downtown Phoenix, West

Description: The health and wellness coach certificate program brings together coursework from the disciplines of exercise and wellness, nutrition, behavioral health and coaching psychology to give students a strong background, perspective and practical experience in the techniques and methods used to decrease and prevent chronic disease risks.

Students in this program will learn and practice:

- coaching communication skills
- evidence-based behavior change methodologies
- guiding individuals through meaningful lifestyle changes
- health coaching techniques
- strategies to influence sustainable healthy lifestyles

Faculty monitor the coaching sessions to provide feedback on how students may improve their coaching skills, and a final practical skills evaluation is completed to assess a student's health and wellness coaching ability.

Students who successfully complete this certificate program meet the eligibility requirements for the National Board Certified Health and Wellness Coaches examination offered by the National Board for Health and Wellness Coaching (<https://nbhwc.org> (<https://nbhwc.org>)).

Program Requirements:

The certificate requires a total of 24 credit hours. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.

Required Courses -- 21 credit hours

CHS 340: Health Theory or NTR 350: Nutrition Counseling (3)

EXW 335: Physical Activity and Physiological Concepts (3)

EXW 344: Impact of Physical Activity on Health and Disease (L) (3)

HSC 355: Eating for Lifelong Health (SOBE OR SB) (3)

HSC 440: Health Coaching Concepts and Skills (3)

HSC 441: Applied Health Coaching Techniques (3)
NTR 241: Human Nutrition (3)

Elective Course -- 3 credit hours

EXW 400: Stress Management for Wellness (3)
EXW 446: Worksite Wellness (3)
HCR 303: Assessing Needs, Assets and Capacity for Health Education (3)
HCR 342: Mind-Body and Energy Therapies and Modalities (3)
HEP 241: Health Education Methods for Injury Prevention and Preparedness (3)
HEP 251: Preventing HIV and Substance Misuse (3)
HEP 303: Human Sexuality for Health Education (3)
HEP 350: Substance Use and Addictive Behaviors (3)
HEP 361: Digital Health Communication and Education (3)
HEP 371: Conflict Management and Mediation and Violence Prevention (3)
HEP 380: Body Image and Wellness (3)
HEP 410: Obesity Perspectives and Prescriptions (3)
HEP 443: Emotional Health and Interpersonal Relationships (3)
HSC 300: Complementary Health Care (3)
NTR 345: Development of Healthy Cuisines (3)
NTR 348: Cultural Aspects of Food (GCSI OR SB & C & G) (3)
NTR 360: Nutrition Entrepreneurship (3)
PSY 304: Effective Thinking (L) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: GPA Requirement: 2.00

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply evidence-based health and wellness coaching competencies to build a coaching relationship, and guide clients through enriched support for self-awareness and self-discovery.
- Implement health and wellness evidence-based interventions and strategies to elicit positive changes in individuals within the general population.

Career Opportunities: Students can become more marketable and advance their career options with this undergraduate certificate in health and wellness coaching, which complements their major program of study.

Career options include:

- coach or scout
- community health worker
- fitness and wellness coordinator
- health care support worker

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

602-496-3300

Campus: Tempe

Description: In the history and philosophy of science undergraduate certificate program, students will explore central questions about the nature of science and how it develops and changes.

Students will examine how scientific claims are justified and investigate the social and moral implications of the changing scientific landscape as well as major landmarks in the development of science. They will develop the skills to recognize and articulate scientific reasoning and gain a deeper awareness that the science of any time is importantly shaped by previous events.

Program Requirements:

The certificate requires 18 credit hours from the HPS and PHI subjects. At least 12 credit hours must be completed at the upper-division level and all courses counting toward the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Course -- 3 credit hours

PHI 314 / HPS 314: Philosophy of Science (HUAD OR HU) (3)

Electives (choose five) -- 15 credit hours

At least nine credit hours must be taken in upper-division HPS courses. Any upper-division HPS course may be used toward the certificate.

HPS Upper Division Elective (9)

PHI 103: Principles of Sound Reasoning (QTRS OR L or HU) (3)

PHI 310: Environmental Ethics (SUST OR HU) (3)

PHI 319: Philosophy, Computing and Artificial Intelligence (QTRS OR CS) (3)

PHI 320: Bioethics (HUAD OR HU) (3)

PHI 325: Philosophy of Social Science (HU or SB) (3)

PHI 328: History of Ancient Philosophy (GCSI OR HU & H) (3)

PHI 329: History of Modern Philosophy (GCSI OR HU & H) (3)

PHI 330: Theory of Knowledge (HUAD OR HU) (3)

PHI 331: Philosophy of Language (HU) (3)

PHI 332: Metaphysics (HUAD OR HU) (3)

PHI 333: Symbolic Logic (3)

PHI 334: Philosophy of Mind (HUAD OR HU) (3)

PHI 401: Rationalism (3)

PHI 402: Empiricism (3)

PHI 403: Contemporary Analytic Philosophy (HU) (3)

PHI 413: Advanced Symbolic Logic (3)

PHI 420: Topics in Philosophy (3)

Other elective options may be applied with the approval of an academic advisor in the School of Life Sciences.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Requests to declare this certificate are reviewed by the academic advisor in the academic unit offering the certificate. Students may be contacted to discuss the certificate prior to the addition of the certificate to the student record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Able to present historical and philosophical perspectives on science.
- Able to critically communicate research at the intersections of history and philosophy in science.

Career Opportunities: The history and philosophy of science undergraduate certificate program provides students with critical thinking skills and problem-solving abilities in high demand to address a growing need for innovation in public health and scientific advancement. When combined with a major program of study, graduates will be well prepared for roles in a variety of fields, including biology, medicine, law and ethics.

Advanced degrees or certifications may be required for academic, governmental or clinical positions.

Homeland Security Certificate (PPHSLCERT)

Campus: Downtown Phoenix, Online

Description: The 21 credit hour homeland security certificate program provides students with the skills and credentials they need to enter fields specializing in homeland security.

Students receive extended education in topics such as domestic and international terrorism, cyberterrorism and advanced crime.

Program Requirements:

Required Courses -- 15 credit hours

CRJ 100: Introduction to Criminal Justice (SOBE OR SB) (3)

CRJ 201: Criminal Justice Crime Control Policies and Practices (3)

CRJ 412: International Terrorism (3)

CRJ 417: Cyber Terrorism (3)

CRJ 419: Domestic Terrorism (3)

Electives (choose two) -- 6 credit hours

CRJ 422: Violence in America (3)

CRJ 455: Police and International Terrorism (3)

CRJ 456: Etiology of Martyrdom (3)

CRJ 462: Gangs (3)

CRJ 463: White Collar Crime (3)

CRJ 464: Organized Crime (3)

A grade of "C" (2.00 on a 4.00 scale) or better is required for all coursework.

Bachelor of Science in criminology and criminal justice majors who are also pursuing the Homeland Security certificate may not use CRJ 412:

International Terrorism, CRJ 417: Cyber Terrorism, CRJ 419: Domestic Terrorism, CRJ 422: Violence in America, CRJ 455: Police and International Terrorism, CRJ 456: Etiology of Martyrdom, CRJ 462: Gangs, CRJ 463: White Collar Crime, and CRJ 464: Organized Crime toward both their major and the certificate. These courses will only be used toward the certificate requirements.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: There are no additional admission requirements other than those required for admission to ASU.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/undergraduate-certificate-homeland-security/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Identify major domestic terror organizations and international terror threats.
- Analyze patterns of cyberterrorism to deter cyberterrorist activity.

Career Opportunities: Graduates of the homeland security certificate program find a strong job market in the public and private sectors.

Employment opportunities include supervisory and management positions in criminal justice agencies (federal, state and local), such as the Department of Homeland Security, U.S. Customs and Border Protection, and local and state-level law enforcement departments. Advanced degrees or certifications may be required for academic or clinical positions.

Hospice and Palliative Care Certificate (NHHAPCCERT)

Campus: Downtown Phoenix

Description: The certificate in hospice and palliative care provides future health and health care workers with the skills they need to lead and manage chronic and end-of-life care in a variety of settings, including home health care.

Learn from interprofessional instructors who are involved in hospice and palliative care as physicians, social workers, nurses and bereavement counselors --- professionals who work with children and adults, as well as palliative care and hospice patients.

Through this certificate, students will:

- complete an internship at Hospice of the Valley, where they have the opportunity to help address the nonclinical care needs of patients and their families
- have the opportunity to shadow health professionals and learn about their roles through field experience
- learn how contemporary issues are burdening the healthcare system under its current structure
- receive specialized instruction on dementia and Alzheimer's disease

Program Requirements:

The certificate requires a total of 18 credit hours. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course, with the exception of the MED 484 internship which is pass/fail.

Required Courses -- 12 credit hours

MED 325: Elements of Hospice and Palliative Care (3)

MED 375: Alzheimer's and Other Dementias (SB) (3)

MED 475: Palliative Care: Managing Complex Serious Illness (3)

MED 484: Internship (3)

Notes: Directed by Dr. Gillian Hamilton at Hospice of the Valley. A minimum ASU cumulative GPA of 3.00 is required to enroll.

Electives -- 6 credit hours

HSC 410: Supporting the Health of Older Adults (3)

HSC 412: Health Issues in Later Life (3)

MED 445: Prevention and Management of Chronic Disease (3)

PSY 447: Psychology of Aging (SB) (3)

SOC 400: Perspectives on Aging (SB) (3)

SOC 418: Aging and the Life Course (SOBE OR SB & H) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: GPA Requirement: 2.00

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: This undergraduate certificate provides students with in-depth experience in health care settings and specialized training in hospice and palliative care.

Students who wish to continue on to medical school or professional school, such as dental, pharmacy or optometry school, may leverage this certificate as an additional credential to support their application process.

Human Rights Certificate (LAHRTSCERT)

Campus: Tempe

Description: The certificate program in human rights provides students with interdisciplinary tools and perspectives from history, law, political science, sociology and philosophy that can serve as a framework for thinking broadly and critically about human rights issues. Coursework and experiential learning opportunities prepare students for work protecting human rights, including:

- children's rights
- environmental human rights
- immigrants' rights
- personal integrity rights
- the right to education
- the right to health care
- the right to housing
- the right to water and energy justice
- sexuality rights
- women's rights
- workers' rights

Program Requirements:

Students must complete 18 credit hours of qualifying coursework, of which at least 12 credit hours must be upper division. At least 12 credit hours must be completed at ASU. Each course must be completed with a minimum grade of "C" (2.00 on a 4.00 scale) or better.

Global Politics of Human Rights (select one) -- 3 credit hours

JUS 352: The Global Politics of Human Rights (CIVI OR SB & G) (3)

POS 368: Ethics and Human Rights (3)

POS 480: Global Justice (GCSI OR G) (3)

Human Rights Institutions and Organizations (select one) -- 3 credit hours

JUS 355: Human Rights Organizations and Institutions (G) (3)

POS 465: International Organization and Law (GCSI OR SB & G) (3)

SGS 321: International Institutions and Global Governance (3)

Interdisciplinary Component -- 9 credit hours

Upper Division Human Rights Electives (9)

Students select three electives on current issues in human rights. Courses must be taken from at least two of the substantive areas listed below and from two or more subjects. Other course options may be approved by an academic advisor in the School of Social Transformation.

Marginalization and Human Rights

AFR 301 / JUS 300: Race and Racism in Africa/African Diaspora (SB & G) (3)

AFR 420 / JUS 421: Race Ethnicity and Politics in the African Diaspora (SB & G) (3)

AIS 455: Human Rights and Cultural Resource Laws (3)

APA 330 / WST 331: Asian Pacific American Genders and Sexualities (SOBE OR (L or SB) & C) (3)

HST 369 / JST 369: History and Memory of the Holocaust (3)

JUS 430: Social Protest, Conflict, and Change (CIVI OR (L or SB) & C) (3)

JUS 435: Cinema and Justice (3)

JUS 438: Human Differences: Dilemmas of Justice (CIVI OR (L or HU) & C) (3)

JUS 456: Human Rights and Sustainability ((L or SB) & G) (3)

JUS 468: Protest, Justice, Law and the Media (SB) (3)

POS 472: Constitutional Law II (SB) (3)

SGS 343 / REL 379: Religion, Nationalism, and Ethnic Conflict (GCSI OR HU & G) (3)

SPA 494 / SLC 494: Latin American Photography and Human Rights (3)

WST 313: Women and Sexuality (SOBE OR SB & C) (3)

WST 345: Gender, Religion, and Global Violence (SB & G) (3)

WST 378: Global Feminist Theory (GCSI OR L & G) (3)

WST 477: Gender and Violence (SB & C) (3)

Social Stratification and Human Rights

AFR 304: Islands of Globalization: Caribbean Politics and Political Economy (SB & G & H) (3)

AFR 305: The Global History of the Trans-Atlantic Slave Trade (GCSI OR SB & H) (3)

AFR 470: Women's International Human Rights (3)

APA 350 / JUS 365: Inequality and Diversity in Education (CIVI OR L & C) (3)

JUS 321: Wealth Distribution and Poverty (SOBE OR SB & C) (3)
JUS 325: Globalization and Socio-Economic Justice (SB & G) (3)
JUS 405: Inequality, Economy and Justice (L or SB) (3)
JUS 477: Youth and Justice (SOBE OR L or SB) (3)
POS 471: Constitutional Law I (AMIT OR SB) (3)
WST 365: Women and International Health (G) (3)

States and Conflict

AIS 494: American Indian Rights (3)
HST 370: Eastern Europe in Transition (SB & G & H) (3)
HST 436: Rise & Fall of Soviet Communism (SB & G & H) (3)
JUS 374: The Holocaust, Genocide, and Human Rights (3)
JUS 430: Social Protest, Conflict, and Change (CIVI OR (L or SB) & C) (3)
JUS 467: Terrorism, War, and Justice (CIVI OR SB) (3)
JUS 469: Political Deviance and the Law ((L or SB) & C) (3)
JUS 494: Torture, War and Human Rights (3)
LAS 481: Dictatorships and Dirty Wars: Latin American Cinema from Resistance to Reconciliation (HU & G) (3)
PHI 448: Justice and Reparations (3)
POS 305: Politics and Film (HUAD OR SB) (3)
POS 394: The Future of War (3)
REL 388: Religion, Ethics, and International Politics (CIVI) (3)
SGS 340: Violence, Conflict and Human Rights (GCSI) (3)
SGS 341: Humanitarian Crisis and International Intervention (3)
SPA 472: Latin American Society: Five Case Studies (HU & H & G) (3)

Experiential Learning Component -- 3 credit hours

To better connect classroom learning with practical experience, students will be required to participate in either a for-credit internship with a human rights organization in the U.S. or abroad, or a Research Experience for Undergraduates (REU) under faculty supervision (honors thesis may substitute). A written component to the internship or REU is required.

JUS 484: Internship or JUS 498: Research Apprenticeship (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: To declare a certificate in human rights, students must first have a minimum of 30 earned credit hours.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Employ the core concepts and methods used in studying human rights in their written work.
- Apply fundamental principles of human rights to research or community engagement.

Career Opportunities: Human rights training can lead to a rewarding and meaningful career path as well as a professional degree. The following list of career options is not exhaustive; each offers unique opportunities, requirements, strategies and tools for social change:

- human rights activism coordinator
- human rights advocacy officer
- human rights campaigner
- human rights educator
- human rights fundraising specialist
- human rights grant writer
- human rights lawyer or legal officer
- human rights policy analyst
- human rights program officer
- human rights researcher or research assistant

Indoor Farming Certificate (LSIFRMCERT)

Campus: Polytechnic

Description: The future of farming may be vertical and urban. The novel indoor farming certificate program trains students and working professionals interested in cultivating indoor crops with technology enhancements, including precise environmental control of temperature and lighting, sustainable energy management and optimal nutrient amendment to achieve significant improvements in crop productivity, resource consumption and environmental impact.

This certificate program provides specific training in indoor crop production and management, including production of clean fruits, vegetables and ornamental plants. Through classroom instruction and hands-on laboratories, students gain knowledge and skills related to plant physiology, indoor crop production systems and facility management, which are necessary for the emerging indoor farming industry.

Program Requirements:

This certificate requires a minimum of 15 credit hours, including at least nine upper-division credit hours. Six credit hours must be taken from courses offered by the College of Integrative Sciences and Arts. A grade of "C" (2.00 on a 4.00 scale) or better is required in all courses.

Required Courses -- 6 credit hours

ABS 365: Future of Agriculture: Vertical Farming (3)

ABS 369: Hydroponic Food Crop Production (3)

Elective Courses -- 9 credit hours

At least three credit hours of certificate electives must be from upper-division courses.

ABS 260: Fundamentals of Sustainable Horticulture (SG) (4)

ABS 314: Applied Plant Physiology (3)

ABS 319: Food, Health and Human Biology (3)

ABS 368: Plant Propagation (3)

ABS 414: Plant Pathology (L) (3)

ABS 462: Greenhouse/Nursery Management (4)

ABS 464: Desert Horticulture (3)

AGB 100: Introduction to Agribusiness (3)

AGB 250: Economics of Resource Allocation: Food and Agriculture (3)

AGB 333: Agribusiness Finance (3)

AGB 425: Food Supply Networks (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Prior to adding the certificate, current ASU students are required to complete BIO 100 The Living World or BIO 181 General Biology I or BIO 182 General Biology II.

Nondegree-seeking students are required to have a BS degree.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Students can advance their career options with an undergraduate certificate. The certificate in indoor farming helps students become more marketable to employers when they have complemented their major program of study with this specialization.

Students who complete this undergraduate certificate along with their major often pursue employment in nursery and greenhouse management, plant science, or farm and ranch management. Advanced degrees or certifications may be required for academic or clinical positions.

SANCA 233

Informatics Certificate (ESCPICERT)

Campus: Tempe

Description: The certificate program in informatics teaches students to use computer technology to gather, synthesize, store, visualize and interpret information. These skills are critical to a broad range of disciplines.

This program provides students with an understanding of the capabilities and technologies of informatics as applied to domain-specific problems in their field of study.

Students who complete the certificate are able to understand and use methods for the basic computational principles behind the operation of communication, networking and interaction; decision-making and problem-solving; modeling, inference and visualization; representing, creating and running routine activities; and storing, indexing and retrieving information.

Program Requirements:

This certificate requires 21 credit hours of coursework, of which at least 12 must be upper division. Students complete 15 credit hours of required courses and select six credit hours of elective coursework. All courses must be passed with a "C" or better. At least 12 credit hours must be completed in residency at ASU.

Required Courses -- 15 credit hours

CPI 101: Introduction to Informatics (QTRS OR CS) (3)

CPI 200: Mathematical Foundations of Informatics (MATH OR MA) (3)

CPI 220: Applied Data Structures and Algorithms or CSE 310: Data Structures and Algorithms (3)

Notes: CPI 220 is only offered in Fall semesters

CPI 350: Evaluation of Informatics Systems (3)

IEE 380: Probability and Statistics for Engineering Problem Solving (QTRS OR CS) or STP 420: Introductory Applied Statistics (QTRS OR CS) (3)

Elective Courses -- 6 credit hours

AME 394: Philosophies of Technology (3)

ART 345: Visualization and Prototyping (3)

ART 346: 3D Computer Imaging and Animation (QTRS OR CS) (3)

ART 435: Foundry Research Methods (3)

BIO 355: Introduction to Computational Molecular Biology (CS) (3)

BIO 411: Quantitative Methods in Conservation and Ecology (4)

BMI 102: Introduction to Population Health Informatics (3)

BMI 201: Introduction to Clinical Informatics (3)

CIS 300: Web Design and Development (3)

CIS 308: Advanced Excel in Business (3)

CIS 310: Business Data Visualization (3)

CIS 405: Business Intelligence (3)

CIS 407: Business Database Systems Development (3)

CPI 310: Web-Based Information Management Systems (3)

CPI 360: Decision Making and Problem Solving (3)

CPI 394: Game Design Fundamentals (3)

CPI 394: Special Topics (3)

CPI 441: Gaming Capstone (3)

CPI 460: Intelligent Interactive Instructional Systems (3)

CPI 484: Internship (3)

Notes: with advisor approval

CPI 494: Special Topics (3)

Notes: with advisor approval

CSE 220: Programming for Computer Engineering (3)

CSE 240: Introduction to Programming Languages (3)

CSE 259: Logic in Computer Science (3)

CSE 294: Algorithmic Problem Solving (3)

CSE 310: Data Structures and Algorithms (3)

CSE 335: Principles of Mobile Application Development (3)

CSE 340: Principles of Programming Languages (3)

MAT 300: Mathematical Structures (L) (3)
MAT 421: Applied Computational Methods (MATH OR CS) (3)
SER 216: Software Enterprise: Personal Process and Quality (3)
SER 334: Operating Systems and System Programming (3)
SOC 334: Technology and Society (SOBE OR L or SB) (3)
SOS 424: Dynamic Modeling in Social and Ecological Systems (4)
STS 304: Science, Technology and Society (SOBE OR SB) (3)
STS 306: Social Effects of Science and Technology (SB) (3)
TEL 313: Technology in an Educational Setting (3)
TWC 414: Visualizing Data and Information (3)
TWC 444: User Experience (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: ASU degree-seeking students

The undergraduate certificate in informatics is available to all students who are in good standing at ASU who have completed CSE 205, MAT 242 and MAT 243 with a "C" grade or better. This certificate also may be used by interdisciplinary studies BA students as part of their degree program.

Nondegree-seeking students

This certificate is also available through the Pathways for the Future program (<https://pff.asu.edu/>). Applicants with or without a bachelor's degree are eligible to apply for and receive this certificate through the Pathways for the Futures program. Applicants must have completed CSE 205, MAT 242 and MAT 243, or their equivalents, with a "C" grade or higher (scale is 4.00 = "A"). Applicants who have taken these courses at another institution should use the Transfer Guide course search (<https://transferguide.apps.asu.edu/app/home>) to determine if a transfer course can fulfill the prerequisite course requirements. Applicants who already hold a bachelor's degree should apply to ASU and this certificate program as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Use computational principles for information-based decision-making and problem solving.
- Apply computational principles to the operation of storing, indexing and retrieving information in informatics applications.

Career Opportunities: Students who complete this certificate should be in high demand within the software industry and in government, education, science, medicine and other fields that make use of computer technology. The certificate's applied and user-oriented focus makes graduates attractive to such employers.

Innovation for Impact Certificate (FIIFICERT)

Campus: Tempe

Description: The innovation for impact certificate program enables students to cultivate the knowledge, skills and critical dispositions necessary to leverage the power of innovation and achieve personally meaningful and socially significant impact. The program is grounded in the belief that each person can do great things.

Students learn tools and concepts for synthesizing research from courses across disciplines in social sciences, humanities, natural sciences and engineering. They identify a problematic condition or aspirational future and work with peers, mentors and the community to produce innovations that cultivate a better future for society.

Program Requirements:

Required Courses -- 15 credit hours

- FIS 201: Innovation in Society (HUAD OR H) (3)
- FIS 305: Ways of Knowing (L) (3)
- FIS 307: Navigating Futures (SOBE OR SB) (3)
- FIS 371: Innovation for Impact: Impact Journey (1)
- FIS 372: Innovation for Impact: Inquiry Journey (1)
- FIS 373: Innovation for Impact: Innovation Journey (1)
- FIS 481: Innovation for Impact: Application Journey (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Advising is not required, but students are encouraged to speak with an advisor by scheduling an appointment through the College of Global Futures advising website (<https://collegeofglobalfutures.asu.edu/student-life/advising/undergraduate-advising/>).

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Think critically about innovation and the relationship between changes in technology and society, as well as demonstrate knowledge of the influences, origins, histories, values and risks across innovation systems.
- Apply foresight methods to analyze emerging trends and plausible futures, as well as demonstrate the ability to participate as a team member on an inquiry project and manage stakeholder alignment and ecosystem integration.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities available to them, students of all majors, including programs in the College of Global Futures, are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Students can find programs specific to their interests on the College of Global Futures Study Abroad webpage (<https://collegeofglobalfutures.asu.edu/student-life/study-abroad/>) and additional opportunities and information on the ASU Global Education Office website (<https://goglobal.asu.edu/>). These sites also include additional information about applying for funding to support global travel.

Career Opportunities: Earning a certificate in innovation for impact offers students a dynamic advantage in their chosen major degree program. This transdisciplinary program empowers students with valuable knowledge and skills that transcend traditional boundaries, preparing them to lead the charge in creating positive change and innovation across diverse environments.

In today's rapidly evolving world, where technology, society and solutions intersect, this certificate equips students to navigate complex challenges. It opens doors to careers in various sectors including business, technology, science, education or government. Graduates become catalysts for change, driving global futures through their interdisciplinary approach.

Interdisciplinary Health Humanities Certificate (LAIHHUCERT)

Campus: Tempe, West

Description: The interdisciplinary health humanities certificate program brings humanities methodologies to analyses of health and medicine to address challenges in health policy and health care practice and to advance understandings of the cultural formations of health, illness and the body.

The curriculum includes courses in history of medicine, bioethics, disability studies, sociocultural aspects of health and narrative medicine. It includes critical analyses of representations of health and illness in literature and other media, as well as training in narrative and structural competency for health care professionals. A capstone course, internship or applied project offers experiential or project-based learning in this field.

Program Requirements:

The interdisciplinary health humanities certificate requires a total of 15 credit hours. A minimum of 12 upper-division credit hours are required, with at least nine of those credit hours taken in courses offered by The College of Liberal Arts and Sciences for students on the Tempe campus, or by the School of Humanities, Arts and Cultural Studies in the New College of Interdisciplinary Arts and Sciences on the West Valley campus. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Interdisciplinary Health Humanities Core -- 6 credit hours

ENG 203: Introduction to Health Humanities (HU) (3)

Notes: available on the Tempe and West Valley campuses

ENG 484: Internship or ENG 498: Pro-Seminar (L) or ENG 499: Individualized Instruction (3)

Electives (select three) -- 9 credit hours

AFR 383: Blacks in Science, Medicine and Public Health (3)

ASB 301: Global History of Health (HUAD OR SB & G & H) (3)

ASB 305: Poverty and Global Health (CIVI OR (L or SB) & C) (3)

ASB 353 / SOC 353: Death and Dying in Cross-Cultural Perspective (GCSI OR (HU or SB) & G) (3)

ASB 355: Traditional Medicine and Healing (HU or SB) (3)

BIO 312 / IAS 340 / PHI 320: Bioethics (HUAD OR HU) (3)

BIO 315 / ENG 370: Science, Values, and the Public (3)

ENG 469: Science and Literature (3)

FIS 498: Stem Cell Policy Research (3)

FOR 406 / IAS 406 / PHI 406: Moral Dilemmas (L or HU) (3)

HCI 313: Philosophy of Science in Health Care: Understanding Paradigms of Health and Healing (3)

HPS 314 / PHI 314: Philosophy of Science (HUAD OR HU) (3)

HPS 331 / BIO 318: History of Medicine (HUAD OR HU & H) (3)

LSC 363: Genes, Race, Gender, and Society (3)

MED 300: Historical and Contemporary Issues in Health (L) (3)

PHI 306: Applied Ethics (CIVI OR HU) (3)

REL 381: Religion and Moral Issues (HUAD OR L or HU) (3)

SOC 400: Perspectives on Aging (SB) (3)

SOC 448: Epidemics and Society (GCSI OR SB & G) (3)

TCL 323: Latina/o Health Issues (SOBE OR SB & C) (3)

TCL 410: Race, Medicine, and the Body (3)
WST 444: Gender, Health, and Bodies (SB) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.
Some elective courses may be available only on the Tempe campus or the West Valley campus.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Students become more marketable and can advance their career options when they have complemented their major with this methodological specialization in interdisciplinary health humanities.

Students who complete this undergraduate certificate often decide to pursue employment in the health professions. Advanced degrees or certifications may be required for academic or clinical positions.

International Business Studies Certificate (BAIBSCERT)

Campus: Tempe

Description: The certificate program in international business studies is designed to help students develop competence in a foreign language and a sensitivity to foreign cultures. It provides students with an awareness of global social processes and an understanding of international business environments, principles and operations.

The W. P. Carey School of Business has partnerships with universities all over the world, so students can experience new cultures, visit new places and build intercultural and language skills. International internships also are offered in conjunction with the ASU Global Education Office.

Program Requirements:

This certificate program requires a minimum of 18 credit hours (at least 12 credit hours must be upper division). All business coursework must be completed through the W. P. Carey School of Business or through an approved ASU international study program.

Only courses in which a student receives a grade of "C" (2.00 on a 4.00 scale) or better may be used to meet the certificate requirements, and an overall certificate GPA of at least 2.50 must be earned.

Students must meet all course prerequisites and requirements as listed in the ASU catalog. Requirements must be met within one year after degree conferral date.

No more than six credit hours may be shared between the certificate and other degree programs, minors, and/or other certificates.

International Business Core Course -- 3 credit hours

MGT 302: Principles of International Business (GCSI OR G) or ECN 306: Survey of International Economics (GCSI OR SB & G) (3)

A. International Business Electives -- 6 credit hours

AGB 302: International Management and Agribusiness (GCSI OR G) (3)

ECN 306: Survey of International Economics (GCSI OR SB & G) (3)

ECN 331: Economics of the European Economic Union (GCSI OR SB & G) (3)

ECN 335: South Asia and the World Economy (SB & G) (3)

ECN 360: Economic Development (GCSI OR SB & G) (3)

ECN 365: Economics of Russia and Eastern Europe (3)

ECN 436: International Trade Theory (SB & G) (3)

ECN 438: International Monetary Economics (SB & G) (3)

FIN 456: International Financial Management (G) (3)

MGT 302: Principles of International Business (GCSI OR G) (3)

MGT 400: Cross-Cultural Management (GCSI OR C & G) (3)

MGT 425: Global Human Resources (3)

MGT 459: International Management (GCSI OR G) (3)

MKT 425: Global Marketing Management (GCSI OR G) (3)

SCM 463: Global Supply Chain Management (GCSI OR G) (3)

*300+ level WPC subject courses earned on a sponsored ASU study abroad program may be applied toward the elective area, per approval of the international programs coordinator. Courses applied toward the W. P. Carey business core cannot be used toward the elective area.

B. Nonbusiness Global Communities, Societies and Individuals Coursework -- 9 credit hours

Nonbusiness Global Communities, Societies and Individuals Coursework (9)

Notes: These hours may be satisfied by any combination of the following:

1. Students can choose any of the university-designated nonbusiness Global Communities, Societies and Individuals (GCSI) courses.
2. One course must be upper division to meet the 12 upper-division hours requirement.
3. It is recommended to choose courses related to the area of study abroad experience. Additional courses may be approved by the international program coordinator.
4. Nonbusiness Global Communities, Societies and Individuals (GCSI) hours may also be satisfied by:
 - * An ASU or W. P. Carey School of Business education abroad program earning six credit hours or more fulfills six of the credit hours of nonbusiness Global Communities, Societies and Individuals requirements.
 - * An ASU or W. P. Carey School of Business education abroad program earning three credit hours fulfills three of the credit hours of nonbusiness Global Communities, Societies and Individuals requirements.

C. Foreign Language Proficiency

The certificate program requires students to meet a foreign language proficiency by meeting one of the the following:

- Completion of one year (two semesters) of the same foreign language at the college level.
- Completion of one semester of the equivalent of 101- and 102-level coursework.
- Completion of two years of the same foreign language in high school with a minimum grade of "C" (2.00 on a 4.00 scale).
- Documentation of a proficiency or placement test confirming preparedness to start at least the second year of a foreign language (201 level or above).
- A student whose native language is not English may have this requirement waived.

D. International Study Experience

The certificate program requires students to participate in an ASU Global Education Office sponsored program. Students cannot use independent non-sponsored programs to fulfill this requirement. Sponsored programs can be found on the Global Education Office website.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: No more than six credit hours may be shared between the certificate and other degree programs, minors or other certificates.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Students can advance their career options with an undergraduate certificate. The certificate in international business enables students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Students who complete this undergraduate certificate often decide to pursue employment in management, sales, marketing and communication. Advanced degrees or certifications may be required for academic or clinical positions.

International Cinema Certificate (LAICINCERT)

Campus: Tempe

Description: The certificate program in international cinema provides undergraduates with the means to explore and understand the role that international film plays in highlighting cultural diversity; reflecting the sociocultural, political and economic currents of the period and cultural setting depicted; and calling into question an accepted idea of the dominance of Hollywood film.

Following an integrated pathway through the variety of international film courses, the program explores facets of international film history and production not often covered by American programs in film studies. Students majoring in a second language can explore a particular culture's filmic

heritage and traverse avenues for comparative analysis between the filmic heritage of two or more cultures. Students majoring in other areas can encounter visual narratives different from their own and connect international cinema to their own respective experiences.

Program Requirements:

The certificate requires 18 credit hours of upper-division coursework. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Required Core Course -- 3 credit hours

SLC 340: Approaches to International Cinema (GCSI OR HU & G) (3)

Electives (choose five) -- 15 credit hours

CHI 345: Chinese Film and Civilization (3)

FMP 404: World Cinema (G) (3)

FMS 426: Films of India (3)

FMS 427: Identity and World Film (C) (3)

FMS 430: Artists in Film: Artists' Biopics (3)

FMS 441: Global Cinema (3)

GER 445 / FMS 445 / SLC 445: Holocaust, War and German Memory (HU) (3)

GER 446 / FMS 446 / SLC 446: Weimar-Era German Film (HUAD OR HU) (3)

HEB 349: Israeli Wars in Israeli Movies (HU & G) (3)

ITA 420: Italian Cinema (G) (3)

KOR 347: Korean Film and Literature (HUAD OR HU) (3)

SLC 423: Italian Organized Crime in Films and History (HUAD OR (L or HU) & G) (3)

SLC 440 / FMS 461: Approaches to Film Theory (3)

SLC 450: Experimental Narrative (HU) (3)

SLC 494: Narrative and Embodiment in Cinema (3)

SPA 433: Film and Culture of Mexico (3)

SPA 385 / SLC 385: Cinema and Culture of Spain (HU & G) (3)

SPA 475: Latin American Film ((L or HU) & G) (3)

THE 422: Latinx Theatre and Film (HUAD OR HU & C) (3)

Additional upper-division elective courses may be approved by the coordinator of the certificate program.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: ASU students in sophomore standing or above with a GPA of at least 2.50 in any degree program are eligible for the international cinema certificate program. Admission to the certificate program is approved by the certificate coordinator in consultation with advisors.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Graduates who have combined the certificate in international cinema with their major program of study may be more marketable to employers. They often decide to pursue employment in education, tourism, the arts or the humanities.

International Studies Certificate (LAINSCERT)

Campus: Tempe

Description: Students completing the international studies certificate develop a sophisticated understanding of some of the major issues and trends facing the world today. Courses examine relations among nations, including America's role in the world; key international concerns such as human rights; and the internal politics of specific nations or regions.

The certificate is not a substitute for degree requirements in any subject, including political science. Rather, the required courses add an international and comparative dimension to the student's chosen major.

Program Requirements:

The certificate in international studies is comprised of 15 credit hours in political science and global studies. At least 12 credit hours must be in upper-division coursework and at least six of those credit hours must be from courses offered by The College of Liberal Arts and Sciences. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses used toward the certificate.

Foundations for International Studies (choose one course) -- 3 credit hours

POS 150: Comparative Government (GCSI OR SB & G) (3)

POS 160: Global Politics (GCSI OR SB & G) (3)

POS 350: Comparative Politics (GCSI OR SB & G) (3)

POS 360: World Politics (GCSI OR SB & G) (3)

The U.S. in the World (choose one course) -- 3 credit hours

POS 361: American Foreign Policy (3)

POS 364: National Security, Intelligence, and Terrorism (SOBE OR SB) (3)

Contemporary Issues in International Studies (choose two courses) -- 6 credit hours

POS 300: Contemporary Global Controversies (GCSI OR SB & G) (3)

POS 368: Ethics and Human Rights (3)

POS 465: International Organization and Law (GCSI OR SB & G) (3)

POS 467: International Security (GCSI OR SB & G) (3)

POS 486: International Political Economy (GCSI OR SB & G) (3)

SGS 301: Principles of Global Studies (GCSI OR G) (3)

SGS 303: Global Trends (GCSI OR SB & G) (3)

SGS 324: Global Trade in Real Time (3)

SGS 350: Economic Development and Globalization (3)

SGS 361: World Society: Imagining the World (3)

SGS 370: Geopolitics (GCSI) (3)

Regional or Topical Exploration (choose one course) -- 3 credit hours

POS 351: Democratization (GCSI OR SB & G) (3)

POS 352: European Democracies (3)

POS 353: Comparative Politics of the Middle East (3)

POS 356: European Union (GCSI OR SB & G) (3)

POS 357: South Asia Politics (SB & G) (3)

POS 358: Southeast Asia (SB & G) (3)

POS 359: African Politics and Society (SB & G) (3)

POS 365: Terrorism and Insurgency (3)

POS 379: The Resource Curse (3)

POS 452: China (SB & G) (3)

POS 453: Latin America (3)

POS 454: Mexico (SB & G) (3)

POS 468: Comparative Asian Foreign Policies (SB & G) (3)

SGS 360: Cultural Aspects of Globalization (3)

Only one of POS 160 Global Politics and POS 360 World Politics courses may apply to the certificate.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Requests to declare this certificate are reviewed by the academic advisor in the academic unit offering the certificate. Students may be contacted to discuss the certificate prior to the addition of the certificate to the student record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Graduates who have combined the certificate in international studies with their major program of study may become more marketable to employers. They often decide to pursue employment in diplomacy and international relations, national security or international business.

The international studies certificate program prepares students for careers in government agencies, international governmental and nongovernmental organizations, multinational firms and banks and for graduate studies in international relations and political science.

International Trade Certificate (TBINTRCERT)

Campus: West

Description: International trade is increasingly important in this globalized economy, but also increasingly challenging. The International Monetary Fund predicts that most of the world's economic growth in the next decade will take place in the largest emerging markets, which are not always easy for companies and nonprofit organizations to penetrate. Most of the world's consumers are outside the United States. Given these trends, organizations across sectors that operate in multiple countries are increasingly in need of managers who understand the complexities of the global economy.

The undergraduate certificate program in international trade provides students with an understanding of foreign markets and the intricacies of international trade, laying the foundation for a career that can take them anywhere in the world.

Thunderbird School of Global Management has produced unique leaders for more than 70 years --- leaders in every sector capable of tackling the world's greatest challenges. Home to the BGM and BS in international trade, the school's innovative and practical curriculum complements a strong core of global business management skills, international political economy study and cross-cultural training with a transdisciplinary approach. The alumni network has over 45,000 graduates across 170 chapters around the globe.

Program Requirements:

The certificate in international trade requires 18 credit hours as outlined below, with a minimum of 12 upper-division credits. Students are encouraged to take courses that develop breadth within their sector rather than limiting their selection to courses in one particular subject area.

Required Courses -- 6 credit hours

TGM 101: Principles of Global Management (GCSI OR G) (3)

TGM 430: International Trade and Regional Economic Agreements (3)

It is recommended that students take TGM 101 prior to or concurrently with other TGM courses.

Electives -- 12 credit hours

TGM 204: Principles of Marketing for Global Organizations (3)

TGM 300: Principles of Finance for Global Organizations (3)

TGM 310: Supply Chain Operations for Global Organizations (3)

TGM 312: Big Data in the Global Economy (3)

TGM 353: Regional Management Environment (GCSI OR G) (3)

TGM 460: Global Risk Assessment and Management (3)

TGM 468: States and Markets in a Global Economy (GCSI OR SB & G) (3)

TGM 478: Cross-Cultural Communication and Negotiation (3)

TGM 489: Multinational Organizational Leadership (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Study abroad or international experience is encouraged but not required. Consider ASU Global Education Office opportunities.

Enrollment Requirements: Incompatible Majors: BGM in global management and BS in international trade

No more than six credit hours may be shared between certificate and other degree programs, minors or other certificates.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate enhanced ability to think analytically in a global context.
- Demonstrate in-depth knowledge of at least one region of the world.
- Demonstrate enhanced knowledge of International Trade.

Career Opportunities: Graduates who combined the certificate in international trade with their major program of study may be more marketable to employers. Many decide to pursue employment in corporations, governments and nonprofits in positions such as global logistics manager, import and export agent, or international compliance manager.

Advanced degrees or certifications may be required for academic or clinical positions.

Islamic Studies Certificate (LAISLCERT)

Campus: Tempe

Description: Islam, the fastest growing religion in the world, plays an increasingly significant role in shaping international politics, culture, law and business. The certificate in Islamic studies and its required coursework in two different regions allow students to gain an appreciation of Islam's multiculturalism and contemporary relevance in multiple disciplines and geographic settings.

Program Requirements:

The certificate in Islamic studies requires a minimum of 21 credit hours. At least 12 upper-division hours are required. At least six upper-division hours must be in courses offered by The College of Liberal Arts and Sciences. A minimum grade of "C" (2.00 on a 4.00 scale) is required in each course used toward the certificate.

Core -- 9 credit hours

HST 260 / REL 260: Introduction to Islam (HU & G) (3)
HST 336 / REL 365: Islamic Civilization (HU & H) (3)
HST 339 / REL 366: Islam in the Modern World (GCSI OR HU & G) (3)

Language Requirement -- 3 credit hours

The number of credit hours for the language requirement will vary from 3-6 hours, depending on the specific language and course chosen. Students must complete a minimum of three credit hours in a language relevant to the study of Islam, chosen from Arabic, Bosnian/Croatian/Serbian, French, Indonesian or Russian (typically offered in Fall and Spring semesters) or Farsi, Kazakh, Tatar, Turkish or Uzbek (these courses are offered by the Critical Languages Institute and are typically only available in summer terms under the SLC prefix; availability may vary). Students who are native speakers of these languages or other Islamic languages, or who have other equivalent knowledge may substitute three credit hours of additional coursework selected from the list of approved electives. See program coordinator.

REL 480 / SGS 441: Religion and Global Politics (L & G) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: There are no specific admission requirements other than a student's desire to learn about Islam and Islamic societies and culture.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Will be able to analyze an academic issue in Islamic studies.

- Will be able to compose a critical argument about an academic issue related to Islamic studies.
- Identify and summarize important features of the major periods of Islamic civilization from the seventh century to the present.

Career Opportunities: Students who complete the certificate in Islamic studies become more marketable to employers. Graduates have successfully pursued employment in education, law, tourism, international law, business, journalism, international relations, humanitarian service, diplomacy, the military, public advocacy, politics, medicine and the intelligence service.

The program is also designed to prepare students for graduate programs in history, religious studies, Islamic studies and area studies, and cultural anthropology, and for any academic discipline or career that focuses on the global Muslim society.

Advanced degrees or certifications may be required for academic or clinical positions.

Jewish Studies Certificate (LAJUDCERT)

Campus: Tempe

Description: The Jewish studies certificate program examines the history and culture of the Jews, generates and facilitates research on Judaica and provides a model for transdisciplinary teaching and research.

Program Requirements:

The certificate in Jewish studies requires a minimum of 21 credit hours in approved coursework. At least 12 upper-division hours are required. At least six upper-division hours must be in courses offered by The College of Liberal Arts and Sciences. A minimum grade of "C" (2.00 on a 4.00 scale) is required in each course used toward the certificate.

Language Requirement -- 6 credit hours

Students must complete two semesters of the same language (6-10 credit hours).

ARB 101: Elementary Arabic I (G) AND ARB 102: Elementary Arabic II (G) (10)

GER 101: Elementary German I (G) AND GER 102: Elementary German II (G) (8)

HEB 101: Elementary Modern Hebrew I (G) AND HEB 102: Elementary Modern Hebrew II (G) (8)

HEB 133 / JST 133 / REL 133: Elementary Biblical Hebrew (G) AND HEB 233 / JST 233 / REL 233: Intermediate Biblical Hebrew (G) (6)

PLC 101 AND PLC 102: Elementary Polish (8)

RUS 101: Elementary Russian I AND RUS 102: Elementary Russian II (10)

SPA 101: Elementary Spanish I (G) AND SPA 102: Elementary Spanish II (G) (8)

Jewish Studies Electives (choose five courses) -- 15 credit hours

Upper Division Electives (12)

Electives (3)

Students choose five courses from the list below. At least 12 credit hours must be upper division.

ENG 333: American Jewish Literature during the Cold War (3)

ENG 356: The Bible as Literature (3)

HEB 333 / JST 333 / REL 333: Biblical Hebrew Literature I (G) (3)

HEB 334 / JST 334 / REL 334: Biblical Hebrew Literature II (G) (3)

HEB 375: Contemporary Culture of Israel (HU & G) (3)

JST 460 / HST 460: World War II (HUAD OR HU & H & G) (3)
JST 491: History of Antisemitism (3)
JST 495: Judaism, Science and World Religions (3)
JST 496: Biblical Narratives: Literary Approaches (3)
JUS 374: The Holocaust, Genocide, and Human Rights (3)
REL 207: Ritual, Symbol, and Myth (HUAD OR L or HU) (3)
REL 310: Western Religious Traditions (HU & H) (3)
REL 385: Contemporary Western Religious Thought (HU) (3)
REL 410: Judaism in Modern Times (HU & H) (3)
SLC 320: Compassion: A Dialogue Between the Humanities, the Sciences and the Arts (HU) (3)
STS 364: Science, Technology, and National Security (SB) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Incompatible Majors: BA in Jewish studies

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Students become more marketable to employers when they complement their major program of study with an undergraduate certificate.

Through a certificate in Jewish studies, students gain a familiarity with Jewish culture, which gives them a competitive edge when they pursue a career with one of the hundreds of U.S. companies that do business in Israel.

These students are also prepared to:

- attend rabbinic seminary in preparation for becoming a rabbi or chaplain
- engage in world political and economic issues
- pursue advanced education in Jewish professional service fields

The certificate also provides a foundation for students who wish to pursue advanced degrees or careers related to their area of interest in fields that may include archeology, history, justice studies, journalism, law and international relations. Advanced degrees or certifications may be required for academic or clinical positions.

Juvenile Justice Certificate (PPJVJUCERT)

Campus: Downtown Phoenix, Online

Description: The curriculum of the juvenile justice certificate program covers key topics focused on justice-involved youth, including theoretical perspectives on why youth engage in delinquent acts; life-course criminology and how key turning points in life impact trajectories of youth; the

number of youth who engage in delinquency who have a prior history of victimization; and juvenile justice and how the criminal justice system, including police, courts and correctional agencies, responds to youth.

Program Requirements:

Required Core -- 9 credit hours

CRJ 204: Juvenile Justice (3)

CRJ 404: Juvenile Delinquency (3)

CRJ 425: Life-Course Criminology (3)

Electives (choose two) -- 6 credit hours

CDE 312 / SOC 312: Adolescence (SOBE OR SB) (3)

CDE 450: Childhood Disorders and Family Functioning (L) (3)

CRJ 462: Gangs (3)

CRJ 494: Children and The Law (3)

Notes: Other juvenile justice-related topics may be substituted.

JUS 477: Youth and Justice (SOBE OR L or SB) (3)

PSY 341: Developmental Psychology (SOBE OR SB) (3)

TEL 315: Child and Adolescent Development (3)

At least 12 credit hours must be taken in residence at ASU.

A "C" (2.00 on a 4.00 scale) or better is required in all coursework required for the certificate.

Bachelor of Science in Criminology and Criminal Justice majors who are also pursuing the Juvenile Justice certificate may not use CRJ 404, CRJ 425, and their chosen electives (CRJ 462 and/or, CRJ 494) towards both their degree and certificate.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Completion of the following prerequisite courses with grades of "C" or higher are required for enrollment in the certificate program:

- CRJ 100 Introduction to Criminal Justice
- completion of PSY 230 or one of the following two-course sequences in research methods and statistics with a grade of "C" or higher: CRJ 302/CRJ 303 or JUS 301/JUS 302 or PSY 290/PSY 230 or SOC 391/SOC 390 or SWU 320/SWU 321 or FAS 361/SOC 390

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student. Bachelor of Science in criminology and criminal justice majors who are also pursuing the juvenile justice certificate may not use CRJ 404, CRJ 425, or their chosen electives (CRJ 462 or, CRJ 494) toward both their degree and certificate.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate an understanding of how the criminal justice system, including police, courts, and correctional agencies, can best respond to juvenile delinquent acts through a comprehension of risk and protective factors.
- Apply knowledge about the nature of delinquency into the analysis of appropriate responses to delinquent acts.
- Illustrate competency in life-course theories of social control.

Career Opportunities: Those who complete this certificate have developed expertise in understanding youth crime and responses to it. This expertise prepares them for employment opportunities in juvenile courts, juvenile probation and corrections, and social service agencies.

Korean Studies Certificate (LAKORCERT)

Campus: Tempe

Description: The certificate in Korean studies offers an in-depth and practical knowledge of dynamic Korea in the modern and contemporary world, with a particular focus on Korea's economic, cultural and technological innovation.

The program consists of two major components: Korean language skills in the areas of speaking, listening, reading and writing; and Korean society, culture, history, literature and religion.

Certificate coursework enriches students' critical thinking skills and their ability to investigate and address issues surrounding Korea and independent sociocultural, geopolitical and environmental challenges in the world.

Program Requirements:

The certificate in Korean studies requires 22 credit hours, of which at least 12 must be completed at the upper-division level. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Korean Language -- 10 credit hours

Students must choose one two-course sequence from KOR 101, KOR 102, KOR 201, KOR 202, for a total of 10 credit hours. Course substitutions may be permitted for heritage speakers and other advanced speakers of the Korean language based on their proficiency level as determined by the Korean Placement Test.

KOR 101: First-Year Korean I (G) (5)

KOR 102: First-Year Korean II (G) (5)

KOR 201: Second-Year Korean I (G) (5)

KOR 202: Second-Year Korean II (G) (5)

Upper-Division Electives -- 12 credit hours

HST 303: Modern Korean History through Film (3)

KOR 321: Modern Korean Literature (HU) (3)

KOR 347: Korean Film and Literature (HUAD OR HU) (3)

KOR 350: Women of Korea (H) (3)

Additional courses may be approved in consultation with an academic advisor in the School of International Letters and Cultures or the coordinator of the certificate. The completion of the requirements will be reviewed both by students' designated advisors and the coordinator of the program. Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: ASU students admitted to a degree program in any field of study are eligible for the Korean studies certificate program. Requests to declare this certificate are reviewed by the academic advisor in the academic unit offering the certificate. Students may be contacted to discuss the certificate prior to the addition of the certificate to the student record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Graduates who combine a certificate in Korean studies with their major program of study are now more marketable to employers than ever. Benefiting from their practical knowledge and enriched perspective of Korea in addition to their training in their own majors, graduates have a competitive advantage in various professions, including academia, government, politics, tourism and hospitality, marketing, military and other various types of work that involve translations of culture and language. Graduates often pursue employment in education and Korean companies such as Samsung, LG and Hyundai.

480-965-6281

Latin American Studies Certificate (LALASCERT)

Campus: Tempe

Description: The Latin American studies certificate is designed to give students an understanding of the cultures, economies, politics and history of Latin American nations, while supporting the development of language proficiency in Spanish or Portuguese.

The program is designed to cross disciplinary boundaries and provide a diverse and global perspective of Latin American experiences. Students may take courses in history, culture, transborder studies, geography, colonization, literature, film, theater, the arts and more.

Program Requirements:

The certificate requires 18 credit hours of Latin American studies content, of which at least 15 credit hours must be upper division. In addition, at least 12 credit hours must be completed from courses offered by The College of Liberal Arts and Sciences. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Language Requirement

Students must demonstrate Spanish or Portuguese proficiency through the 313 level of conversation and composition. The language proficiency requirement may be waived for native speakers or those with in-field experience equivalent to SPA 313 or POR 313.

Language instruction courses dealing with Spanish and Portuguese conversation and composition cannot be used to satisfy the content course requirement. While students are encouraged to enroll in language instruction courses (i.e., conversation and composition) above the 313 level, they cannot apply such coursework to the Latin American studies certificate course requirements.

Latin American Content Course Requirements -- 18 credit hours

Students will take 18 credit hours (six courses) from this list of Latin American content courses, of which at least 15 credit hours must be upper division. Students enrolled in a degree program with similar course enrollment options are recommended to select nine credit hours (three courses) from within their major and nine credit hours (three courses) outside their major. All students are encouraged to select courses in consultation with a Latin American Studies advisor.

- ARS 202: Art of Africa, Oceania, and the Americas (GCSI OR HU & H & G) (3)
- ARS 362: Survey of Aztec, Maya and Inka Art (HU) (3)

Latino Politics and Policy Certificate (LALPPCERT)

Campus: Tempe

Description: This certificate program in Latino politics and policy advances students' understanding of past and present Latino political experiences and the policy issues surrounding this community, including immigration, voting, grassroots organizing and more. Students will also learn strategies to mobilize change in the Latino community, both locally and nationally.

Program Requirements:

The certificate requires 18 credit hours of coursework. At least 15 credit hours must be ASU credit and at least 12 credit hours must be completed at the upper-division level. A minimum of nine credit hours must be taken from courses offered by The College of Liberal Arts and Sciences. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses used toward the certificate.

Core Requirements -- 9 credit hours

POS 110: American Government and Politics (AMIT OR SB) or POS 310: American National Government (AMIT OR SB) or TCL 101: Latinas/os in the U.S. (HUAD OR HU & C) (3)
POS 301: Empirical Political Inquiry (SOBE OR SB) or TCL 304: Transborder Research Methods (SB & C) (3)
POS 438: Latino Politics (SB & C) or TCL 340: Chicana/o and Latina/o Politics and Policy (L & C) (3)

Electives -- 3 credit hours

POS 394: Politics of U.S. Immigration (3)
POS 410: Governing American Cities (SB) (3)
POS 439: Minority Group Politics in America (SB & C) (3)
TCL 314 / SOC 314: Transborder Latin American Migration to the U.S. (SOBE OR (L or SB) & H & C) (3)
TCL 341: Latinas/os and the City (C) (3)
TCL 342 / SOC 343: Social Demographics of Latino Populations (SB & C) (3)
TCL 377 / JUS 377 / POS 377 / SGS 377: Arizona, Immigration, Latinos and Politics (3)
TCL 443 / ASB 463 / SOS 463: Political Ecology of the Border (3)

Related Electives -- 3 credit hours

JUS 320: Community and Social Justice (SB & C) (3)
JUS 347: Immigration, Education and the Family (L) (3)
JUS 350: Immigration and Justice (SOBE OR SB & C) (3)
JUS 370: Cultural Diversity and Justice (CIVI OR (L or HU) & C) (3)
PAF 405: Citizen Engagement and Community Building (3)
TCL 332 / HST 332: Mexican American History Since 1900 (GCSI OR SB & H & C) (3)

Internship -- 3 credit hours

POS 484: Internship (3)

TCL 484: Internship (3)

Students in the program must have a minimum 2.50 GPA in order to enroll and complete the internship requirement.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Students must have a minimum GPA of 2.00 to add this certificate program.

Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will be able to explain the impact of the increasing Latino population on the U.S. political system.
- Students will analyze and interpret issues and policies that affect the Latino community utilizing appropriate methodologies.

Career Opportunities: Graduates of this certificate program have the knowledge and hands-on experience to work in the fields of government, law and public policy. Additionally, graduates are more marketable to employers in:

- business
- education (administration and teaching)
- film, media and the arts
- nonprofit organizations
- public affairs
- public health
- social work

Law Enforcement in Parks and Protected Areas Certificate (PPLEPPCERT)

Campus: Downtown Phoenix

Description: As the Southwest continues to develop and urbanize, the demands and pressures on public lands and natural resources continue to grow. The interplay between society and natural resources is key to understanding modernity and continues to be at the center of policy issues and societal debates. The certificate program in law enforcement in parks and protected areas introduces students to issues of crime and criminal justice as related to parks and protected areas, with a focus on the distinct issues faced by managers of urban-proximate natural areas.

This certificate includes classes from a nationally accredited parks and recreation program and from a highly ranked criminology and criminal justice program. Students pursuing parks and recreation majors can attain basic knowledge of law enforcement while students pursuing criminology and criminal justice majors can be oriented to issues related to parks and protected areas.

Program Requirements:

The certificate requires 15 credit hours: 12 credit hours of required core courses and three credit hours of electives. Courses taken as part of a university major may count toward that degree and the certificate.

Required Core Courses -- 12 credit hours

CRJ 230: Introduction to Policing (3)

CRJ 410: Criminal Procedure I: The Law of Investigations (3)

PRM 370: Public Lands Management (3)

PRM 380: Wilderness and Parks in America (SUST OR SB & H) (3)

Elective (select one) -- 3 credit hours

CRJ 315: Police Organization and Management (3)

PRM 340: Outdoor Survival (3)

PRM 360: Environmental and Cultural Interpretation (3)

Standards

1. 15 hours of graded classroom coursework (no internship, no independent study)
2. minimum of a "C" (2.00 on a 4.00 scale) grade required for all courses in the certificate
3. should be a junior to take 300- and 400-level courses

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A GPA of 2.00 is required to add this certificate.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate an understanding of the ethical standards implicit in law enforcement in parks and protected areas.
- Apply critical thinking skills by taking into account the complexities of an issue and acknowledging other viewpoints.

Career Opportunities: Graduates of the certificate in law enforcement in parks and protected areas can find opportunities in diverse settings involving a wide range of organizations, including recreation, environmental and federal agencies, and private security.

Law and Human Behavior Certificate (PPLWHBCERT)

Campus: Downtown Phoenix, Tempe, West

Description: Law and human behavior is an umbrella term that encompasses various aspects of the rapidly emerging field of forensic psychology, law and justice.

This 18 credit hour certificate program focuses on the criminal justice aspects of forensic psychology, emphasizing victimology, offender treatment, criminal incapacity, mental health law, juvenile justice and delinquency, and the dynamics of how the criminal justice system intersects with behavioral science.

The program is designed to provide students of social services and social sciences with an understanding of important but understudied areas where justice policy is in desperate need of empirical, psychological research.

Program Requirements:

Required Core -- 12 credit hours

CRJ 260: Criminal Law I: Introduction to Substantive Criminal Law (3)

CRJ 410: Criminal Procedure I: The Law of Investigations (3)

PSY 366: Psychological Disorders (SOBE OR SB) (3)

PSY 468: Psychology and Law (3)

Electives (choose two from outside of one's major) -- 6 credit hours

CRJ 309: Criminology (SOBE OR SB) (3)

CRJ 403: Victims and the Criminal Justice System (3)

CRJ 406: Sex Crimes (3)

CRJ 434: Drugs of Abuse (3)

CRJ 435: Crime and Forensic Mental Health (SOBE OR SB) (3)

CRJ 484: Internship (1-6)

Notes: Only those relevant to law and human behavior

CRJ 494: Special Topics (3)

Notes: Only those relevant to law and human behavior

PSY 341: Developmental Psychology (SOBE OR SB) (3)

PSY 368: Forensic Psychology (3)

PSY 443: Child and Adolescent Psychological Disorders (SOBE OR L or SB) (3)

PSY 472: Clinical Psychology (3)

PSY 474: Correctional Psychology (3)

PSY 494: Special Topics (3)

Notes: Only those relevant to law and human behavior

1. Special Topics courses (CRJ 494 and PSY 494) will be designated and approved by departments and schools. Students will need to work with an advisor in order to select appropriate special topics courses that are approved for credit in the law and human behavior certificate program.
 2. At least 12 credit hours must be taken in residence at ASU.
 3. A "C" (2.00 on a 4.00 scale) or better is required in all coursework required for the certificate.
 4. Bachelor of Science in criminology and criminal justice majors who are also pursuing the Law and Human Behavior certificate may not use CRJ 309, CRJ 403, CRJ 406, CRJ 410, CRJ 434, CRJ 435, CRJ 484, and CRJ 494 towards both their degree and certificate.
- Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Students must complete the following prerequisite courses with a grade of "C" or higher (scale is 4.00 = "A") to enroll in the certificate program. These courses may be taken in-residence at ASU or transferred from other institutions, including community colleges. Because these courses are requirements for the bachelor's degree program in psychology or criminology and criminal justice, their completion satisfies not only requirements of these two majors but also the prerequisite requirements for enrollment in the certificate program in law and human behavior.

Completion of the following prerequisite courses with grades of "C" or higher is required for enrollment in the certificate program:

- CRJ 100 Introduction to Criminal Justice
- PSY 101 Introduction to Psychology
- first-year composition (ENG 102, 105 or 107)
- a course that meets the General Studies MA requirement (MAT 117, 119, 142, 170, 210 or 270)

one of these two-course sequences in statistics and research methods:

- CRJ 302 and 303, or
- PSY 230 and 290

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply psychological theory and research to explain the behavior of individuals in the criminal justice system.
- Demonstrate competency in explaining how the criminal court systems of the United States apply the law.

Career Opportunities: Graduates of the law and human behavior certificate program find a strong job market in the public and private sectors. Employment opportunities include supervisory and management positions in criminal justice agencies (federal, state and local), such as:

- evidence and crime scene supervisor (crime scene investigation activities)
- forensic psychologist
- intelligence analyst
- law enforcement officer

Advanced degrees or certifications may be required for academic or clinical positions.

Leadership and Ethics Certificate (PPLDECERT)

Campus: Downtown Phoenix

Description: The certificate program in leadership and ethics focuses on understanding the broad transdisciplinary field of leadership and its application to various elements of society and community. It prepares individuals for positions of leadership and responsibility in the university, in student organizations, in their communities, and throughout their careers in business and government.

Program Requirements:

The certificate in leadership and ethics requires three core courses (nine credit hours), plus two elective discipline-based courses in leadership or ethics (six credit hours). Elective coursework may be selected from an approved list of elective courses or upon the recommendation of the department.

All courses applied to the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Core Courses -- 9 credit hours

PAF 311: Leadership and Change (SOBE OR SB) (3)

PAF 410: Building Leadership Skills (SOBE OR SB) (3)

PAF 460: Public Service Ethics (3)

All core courses and the leadership capstone must be taken at Arizona State University. Any course substitutions for the certificate are at the discretion of the School of Public Affairs.

Electives (choose two) -- 6 credit hours

COM 430: Leadership in Group Communication (3)

HON 497: Honors Colloquium (3)

MGT 300: Principles of Management and Leadership (3)

NLM 430: Managing Nonprofit Organizations (L) (3)

PAF 420: Managing Across Boundaries (3)

POS 314: The American Presidency (AMIT OR SB) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply core competencies of leadership as they relate to the identification, assessment, and resolution of problems of public relevance in organizations.
- Apply knowledge of leadership and ethics in real-world circumstances, whether at work or in civic engagement.

Career Opportunities: Students who receive this certificate are prepared to pursue a career in a field related to public administration or public policy, particularly in the areas of participatory governance and public engagement. This may include opportunities as a manager or policy analyst in local, state or federal agencies, in nonprofit organizations, and in private organizations whose work interfaces with the public sector.

Leadership in Business Certificate (BALIBCERT)

Campus: Polytechnic, Tempe, West

Description: The leadership in business certificate program is designed to help students understand the concept of leadership. Students in this program cultivate their leadership identity and understand how the development of their leadership skills impacts their professional development.

Students develop a strong set of skills necessary for success in a dynamic workplace, including communication, teamwork and collaboration, and

problem-solving.

Program Requirements:

The leadership in business certificate requires 15 credit hours, of which at least 12 credit hours must be upper division. To earn the certificate, students must complete all courses with a grade of "C" (2.00 on a scale of 4.00) or better.

No more than six credit hours may be shared between the certificate and other degree programs, minors, and/or other certificates.

Required Courses (choose two) -- 6 credit hours

MGT 300: Principles of Management and Leadership or MGT 303: Honors Organizational Strategies, Leadership, and Behavior (3)

MGT 310: Collaborative Team Skills (3)

MGT 411: Leading Organizations (3)

Leadership Development Electives (choose two courses, at least one must be upper division) -- 6 credit hours

COM 225: Public Speaking (CIVI OR L) (3)

COM 259: Communication in Business and the Professions (CIVI) (3)

COM 312: Communication, Conflict, and Negotiation (CIVI) (3)

COM 319: Persuasion and Social Influence (CIVI OR SB) (3)

COM 400: Organizational Communication (3)

JUS 325: Globalization and Socio-Economic Justice (SB & G) (3)

MGT 310: Collaborative Team Skills (3)

MGT 400: Cross-Cultural Management (GCSI OR C & G) (3)

MGT 430: Negotiations (3)

MKT 302: Strategic Marketing Management (L) (3)

PAF 311: Leadership and Change (SOBE OR SB) (3)

PAF 410: Building Leadership Skills (SOBE OR SB) (3)

PAF 420: Managing Across Boundaries (3)

USL 210: Service Learning: Intro to Diverse Community Issues (L & C) (3)

Cultural Competency Elective (choose one) -- 3 credit hours

JUS 438: Human Differences: Dilemmas of Justice (CIVI OR (L or HU) & C) (3)

LES 380: Consumer Perspective of Business Law (3)

MCO 460: Race, Gender, and Media (SOBE OR C) (3)

PHI 336: Social and Political Philosophy (HU) (3)

PHI 360: Business and Professional Ethics (HUAD OR HU) (3)

PHI 406: Moral Dilemmas (L or HU) (3)

REL 366: Islam in the Modern World (GCSI OR HU & G) (3)

REL 381: Religion and Moral Issues (HUAD OR L or HU) (3)

REL 480: Religion and Global Politics (L & G) (3)

SBS 301: Cultural Diversity ((L or SB) & C) (3)

SOC 334: Technology and Society (SOBE OR L or SB) (3)

SOC 339: Grassroots Social Movements (SB) (3)

SOC 342: Mexico-U.S. Borderlands (SB & C) (3)

SOC 352: Social Change (CIVI OR SB & G & H) (3)

SOC 363: Men and Masculinity (SOBE OR SB) (3)

TCL 314: Transborder Latin American Migration to the U.S. (SOBE OR (L or SB) & H & C) (3)

TCL 328: Hispanic Religion, Culture and Healing (HU & C) (3)

WST 300: Women and Gender in Contemporary Society (SOBE OR SB & C) (3)

WST 331: Asian Pacific American Genders and Sexualities (SOBE OR (L or SB) & C) (3)

WST 365: Women and International Health (G) (3)

WST 467: Ethnic Women Writers (HU & C) (3)

WST 471: Women's International Human Rights (3)

WST 485: Women, Gender, and Leadership (SB & C) (3)

Complete two co-curricular experiences (all pending approval of the certificate coordinator):

1. Complete an approved internship. This requirement must be completed after approval to add the certificate.
2. Approved leadership position on an executive board with a registered ASU club or organization.
3. Approved leadership role in support of the W. P. Carey School of Business or ASU community: (WPC 101 Facilitator, WPC Peer Advisor, Camp Carey Director, Leadership Through Action (Tillman Program), USG Position, Community Assistant, Residential Engagement Leader, A.P.P.L.E., other petition-approved activity).
4. ASU-affiliated study abroad program OR 75 hours of service learning or community service.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: This certificate is only open to undergraduate students in the W. P. Carey School of Business.

No more than six credit hours may be shared between the certificate and other degree programs, minors or other certificates.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Graduates who have combined the certificate in leadership in business with their major program of study may become more marketable to employers. Many decide to pursue employment in management, sales and marketing.

Advanced degrees or certifications may be required for academic or clinical positions.

Leadership, Ethics and Service Certificate (PPLETSCERT)

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Interested students should consider the Leadership and Ethics (<https://degrees.apps.asu.edu/minors/major/ASU00/PPLDECERT/leadership-and-ethics>) certificate.

Description: The leadership, ethics and service certificate program includes coursework with an emphasis on values, ethics, leadership and public service. In addition to in-class instruction, the program includes a service-learning component during the summer, as well as out-of-classroom activities.

Program Requirements:

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Articulate the importance of public service to communities and individuals.
- Develop basic leadership skills.
- Articulate their own personal values and the role of ethics in the professional workplace.

Career Opportunities: Certificate programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Legal Issues in Criminal Justice Certificate (PPLCRJCERT)

Campus: Downtown Phoenix, West, Online

Description: The legal issues in criminal justice certificate program focuses on the intersection of policy and its effects on the criminal justice system. Topics include a focus on law and theoretical perspectives regarding the ramifications of certain policies in the field of criminal justice.

Students seeking more specialized knowledge about legal consequences of policy on the criminal justice system or those interested in careers in

the public sector, law or the criminal justice system should consider this certificate program.

Program Requirements:

Required Core -- 15 credit hours

CRJ 203: Courts and Sentencing (3)

CRJ 260: Criminal Law I: Introduction to Substantive Criminal Law (3)

CRJ 410: Criminal Procedure I: The Law of Investigations (3)

CRJ 416: Criminal Procedure II: Adjudication (3)

CRJ 460: Criminal Law II: Advanced Substantive Criminal Law (3)

Electives -- 3 credit hours

CRJ 321: Evidence: Imperatives of Proof (3)

CRJ 350: Law and Social Control (CIVI OR SB) (3)

CRJ 411: Legal Issues in Corrections (3)

At least 12 credit hours must be taken in residence at ASU.

A "C" (2.00 on a 4.00 scale) or better is required in all coursework required for the certificate.

Bachelor of Science in Criminology and Criminal Justice majors who are also pursuing the Legal Issues in Criminal Justice certificate may not use CRJ 410, CRJ 416, CRJ 460, and their chosen elective (CRJ 321, CRJ 350, or CRJ 411) towards both their degree and certificate.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Students must complete CRJ 100 Introduction to Criminal Justice with a grade of "C" or better (scale is 4.00 = "A") to be admitted to the certificate program. This course may be taken at ASU or transferred from another institution, including a community college.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Bachelor of Science in criminology and criminal justice majors who are also pursuing the legal issues in criminal justice certificate may not use CRJ 410, CRJ 416, CRJ 460, or their chosen elective (CRJ 321, CRJ 350, or CRJ 411) toward both their degree and certificate.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate competency in explaining how the criminal court systems of the United States apply the law to pretrial, adjudication, and sentencing processes.
- Demonstrate competency in explaining the criminal process and Constitutional rights.
- Demonstrate competency in the historical development of criminal law, and the public policy implications of it.

Career Opportunities: Students are prepared for employment opportunities in public policy, law enforcement and corrections, law firms and social service agencies.

Lesbian, Gay, Bisexual and Transgender Studies Certificate (PPLGBTCERT)

Campus: Tempe

Description: The certificate program in lesbian, gay, bisexual and transgender studies offers students a multifaceted understanding of society.

Lesbians, gay men, bisexuals and transgender people play important roles as colleagues, clients, parents, children, siblings, neighbors, employees, employers, religious leaders and friends. Given the increasing visibility of and changing political climate for LGBTQ+ people in the United States, all

students, not only those who identify themselves as gay, lesbian, bisexual or transgender, are served well by learning about contemporary social issues regarding people from LGBTQ+ backgrounds and about their histories and communities.

The educational experience is enhanced when students are introduced to complex intersections between and among sexual, racial, ethnic, religious, geographic and national identities. This program's philosophy is to promote intellectual and pedagogical diversity as one of the university's greatest assets, and this is done in part by instilling in students a sensitivity to cultures different from their own and through careful analysis of the self in historical, artistic and sociocultural contexts.

The goals of the program are to give students knowledge about the history of, evolution of and current issues facing the LGBTQ+ community; practical experience utilizing coursework knowledge in the community through an internship or community service project; and theoretical perspectives on heterosexuality as a presumptive sexual identity. Students gain an understanding of lesbian, gay, bisexual and transgender studies as an academic area of inquiry and an understanding of community politics, dynamics and conflicts, and they engage in a use-inspired education that culminates in a public presentation.

Program Requirements:

The certificate requires 15 credit hours, of which a minimum of 12 must be upper division. Each course must be completed with a minimum grade of "C" (2.00 on a 4.00 scale) or better.

Required Course (choose one) -- 3 credit hours

SST 294: Introduction to LGBTQ History and Culture (3)

SWU 180: Introduction to Lesbian, Gay, Bisexual and Transgender (LGBT) Studies (CIVI OR SB & C) (3)

WST 294: Sex, Gender, and Sexuality (3)

Electives -- 9 credit hours

AFR 351 / JUS 351 / WST 351: Gender and Hip Hop (3)

AFR 375: Race, Gender and Sport (SOBE OR SB & C) (3)

APA 330: Asian Pacific American Genders and Sexualities (SOBE OR (L or SB) & C) (3)

APA 345: Asian Pacific Americans and Film (HU & C & H) (3)

ARS 485: Women in the Visual Arts (L) (3)

ASB 210: Human Sexuality: Anthropological Perspectives (GCSI OR SB & G) (3)

Notes: Only Interdisciplinary Studies major may use additional lower-division courses

ASB 346: Marriage and Family Diversity (SOBE OR SB & C) (3)

BIS 350: Diversity and Organizations (GCSI OR L & C) (3)

Notes: Student must pick LGBT focus for course project and receive approval from certificate advisor.

COM 316: Gender and Communication (SOBE OR SB & C) (3)

COM 421: Rhetoric of Social Issues (HU) (3)

COM 442: Identity, Performance, and Human Communication (3)

COM 494: Gender in the Media (3)

ENG 345: Transgender and Intersex Literature and Film (3)

ENG 440: Sexuality (3)

ENG 443: Gender, Culture and Literacy (3)

ENG 449: Masculinities, Femininities and Literacies (3)

ENG 454: Gender and Literature (L or HU) (3)

FAS 264: Sociology of Gender (CIVI OR SB & C) (3)

Notes: Only Interdisciplinary Studies majors may use additional lower-division courses.

FAS 332: Human Sexuality (SOBE OR SB) (3)

FAS 498: Transgender Youth and Families (3)

HST 364: Sex and Society in Europe ((L or SB) & H) (3)

JUS 371: Sexuality and Social Justice (3)

JUS 427: Identity and Justice (L) (3)

JUS 435: Cinema and Justice (3)

MIC 314: HIV/AIDS: Science, Behavior, and Society (3)

SST 494: Transformational Leadership and Embodied Activism (3)

SWU 291: Social Service Delivery Systems (3)

Notes: Only Interdisciplinary Studies majors may use additional lower-division courses

SWU 374: Diversity and Oppression in a Social Work Context (CIVI OR C) (3)

SWU 461: Lesbian, Gay, Bisexual, Transgender, and Queer Issues (CIVI OR C) (3)

THE 494: Queer Plays and Films (3)

WST 100: Women, Gender, and Society (SOBE OR SB & C) (3)

Notes: Only Interdisciplinary Studies majors may use additional lower-division courses. Credit is only allowed for WST 100 or 300

WST 300: Women and Gender in Contemporary Society (SOBE OR SB & C) (3)

Notes: Credit is only allowed for WST 100 or 300

WST 313: Women and Sexuality (SOBE OR SB & C) (3)

WST 335: Lost in Space: Gender, Race, and Sexuality in Science Fiction (3)

WST 380: Race, Gender, and Class (SOBE OR SB & C) (3)
WST 413: Queer Studies (HU & C) (3)
WST 433: Race and Sexualities in Social Justice Movements (3)
WST 460: Women and the Body (SB & C) (3)
WST 470: Gender and Popular Culture (HU & C) (3)
WST 477: Gender and Violence (SB & C) (3)

Capstone -- 3 credit hours

All students will complete a three credit hour capstone experience after completing a minimum of nine credit hours in the certificate program. The capstone experience will be supervised by any member of the faculty approved by the Lesbian, Gay, Bisexual and Transgender Studies Committee.

Capstone Course (3)

Notes: Select capstone course with consultation of LGBT advisor.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will demonstrate knowledge about lesbian, gay, bisexual and transgendered communities.
- Students will apply knowledge about LGBT communities through directed research, an internship or community-based project under the supervision of an ASU faculty member.

Career Opportunities: Graduates who have combined the certificate in lesbian, gay, bisexual and transgender studies with their major program of study may become more marketable to employers. They often decide to pursue employment in law, education, public service, and human welfare and social work. Advanced degrees or certifications may be required for academic or clinical positions.

Maritime Logistics Certificate (BALGMACERT)

Campus: Online

Description: Designed through a partnership between ASU and the U.S. Naval Community College, the certificate in maritime logistics allows enlisted personnel (Navy, Marines and Coast Guard) access to ASU's robust learning technology, student support and quality curriculum, designed by ASU experts and military personnel.

Students examine the theories, concepts and components of logistics, with particular attention to serving and supporting maritime and military logistics operations. In addition, students gain an understanding of logistics and supply chain management, financial management and accounting, and they obtain the analytics skills necessary to be successful in maritime and military logistics, as well as supply chain management and logistics understanding required by private industry.

Program Requirements:

Required Courses -- 21 credit hours

CIS 105: Computer Applications and Information Technology (QTRS OR CS) (3)

ECN 211: Macroeconomic Principles (SOBE OR SB) (3)

ECN 212: Microeconomic Principles (SOBE OR SB) (3)

ECN 221: Business Statistics (QTRS OR CS) (3)

SCM 200: Society, Supply Chains and You (SUST) (3)

SCM 245: Logistics for the Maritime Environment (3)

SCM 279: Maritime Logistics Application Capstone (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.
2024-25 Academic Catalog Archive

Enrollment Requirements: Students must be accepted to the U.S. Naval Community College to be admitted to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu>) for program descriptions and to request more information.

Career Opportunities: Graduates of this program are prepared to further advance in careers in military service and to succeed in further undergraduate study. They are well-prepared for positions in the fields of transportation, distribution and warehousing, and purchasing across all sectors --- private, nonprofit, government and military.

Mathematical Concepts of Engineering Certificate (LAMACECERT)

Campus: Tempe, Online

Description: The certificate program in mathematical concepts of engineering is designed for students who seek a strong foundation in mathematics to support their studies in engineering. Combining a core foundation in the quantitative and analytical skills found in mathematics with related skills in engineering, the program provides students with a solid mathematical background well-suited for multiple career paths.

Program Requirements:

The mathematical concepts of engineering certificate requires a minimum of 21 credit hours. At least 12 credit hours must be completed in upper-division coursework and at least nine credit hours must be completed at ASU. MAT 343 and STP 420 must be completed in courses offered by The College of Liberal Arts and Sciences. A grade of "C" (2.00 on a 4.00 scale) or higher is required for each course used to fulfill a certificate requirement.

Required Courses -- 18 credit hours

IEE 380: Probability and Statistics for Engineering Problem Solving (QTRS OR CS) (3)
MAT 266: Calculus for Engineers II (MATH OR MA) (3)
MAT 267: Calculus for Engineers III (MATH OR MA) (3)
MAT 275: Modern Differential Equations (MATH OR MA) (3)
MAT 343: Applied Linear Algebra (3)
STP 420: Introductory Applied Statistics (QTRS OR CS) (3)

Electives (choose one) -- 3 credit hours

DAT 301: Exploring Data in R and Python (4)
IEE 381: Lean Six Sigma Methodology (3)
IEE 385: Engineering Statistics: Probability (3)
IEE 470: Stochastic Operations Research (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: ASU degree-seeking students

Students must have completed MAT 265 or MAT 270 with a "C" or higher before enrolling in the certificate program. Students also must be in good academic standing, with a minimum cumulative grade point average of 2.00.

Nondegree-seeking students

Applicants with or without a bachelor's degree are eligible to apply for, and receive, this certificate through the Pathways for the Future program (<https://pff.asu.edu/>). Applicants must have completed MAT 265 or MAT 270 with a "C" grade or higher (scale is 4.00 = "A"). Applicants who have taken these courses at another institution should use the Transfer Guide course search (<https://transferguide.apps.asu.edu/app/home>) to determine if a transfer course can fulfill the prerequisite course requirements. Applicants who already hold a bachelor's degree should apply to ASU and this certificate program as a nondegree-seeking graduate student.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/mathematical-concepts-engineering-undergraduate-certificate/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Implement simulation algorithms in differential equations and linear algebra with engineering and physics applications.
- Develop teamwork and communication skills, which they will apply to real world problems involving concepts from probability and statistics.

Career Opportunities: The certificate in mathematical concepts of engineering is a specialization that complements a major program of study. Students with this enhanced math background can become more marketable to employers.

Media Arts and Sciences Certificate (HIDGCCERT)

Campus: Tempe

Description: The media arts and sciences certificate program in the Herberger Institute for Design and the Arts focuses on the creative exploration of how new media is influencing culture, or rather the way people live, learn, create and communicate.

Pursuing the media arts and sciences certificate allows students to enhance their program of study with integrated, transdisciplinary training in creative processes and technical skills in new media with cultural applications.

The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application and implications. The school prepares students to be socially aware, critically thinking global citizens who strive to bring about positive change in a society that is increasingly shaped by new technologies.

Program Requirements:

The media arts and sciences certificate requires 18 credit hours, of which 12 are upper division. A minimum grade of a "C" (2.00) and an overall GPA of 3.00 is required in all courses in the certificate program. Courses in the certificate program may not be used as part of a major. All upper-division certificate coursework must be taken at ASU.

Required Courses -- 6 credit hours

AME 111: Introduction to Digital Culture (QTRS OR CS) (3)

AME 112: Computational Thinking for Media Arts (CS) or AME 230: Programming for the Media Arts (QTRS OR CS) (3)

Media Arts and Sciences Electives -- 12 credit hours

AME Upper Division Elective or MDC Upper Division Elective (12)

Students who earn a media arts and sciences certificate cannot earn a minor in media arts and sciences. Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Students can advance their career options with a undergraduate certificate. The certificate in media arts and sciences helps students become more marketable to employers by adding this specialization to complement their major program of study. Media arts and sciences graduates go on to work in a variety of fields, including mobile app design, audio production and autonomous systems.

Mild/Moderate Special Education Certificate (TEMSPECERT)

Campus: Tempe, SYNC

Description: The certificate program in mild/moderate special education prepares students to make connections and provide equitable learning environments to meet the diverse learning needs of students in kindergarten through grade 12.

This certificate program can only be added to the following programs at Mary Lou Fulton Teachers College in order to allow students eligibility for dual-teaching certificates at the completion of their undergraduate degree:

- BAE in early childhood education
- BAE in elementary education
- BAE in elementary multilingual education
- BAE in secondary education
- BAE in special education (visual impairment)

Students learn how to work and partner with communities and schools to co-construct and negotiate roles and responsibilities in order to deliver effective special education programming. Coursework is grounded in data; theoretical foundations; federal, state and local policies; and a sense of responsibility to student and community needs.

Graduates are eligible to earn an institutional recommendation from ASU for Arizona teacher certification in Mild/Moderate Disabilities, K-12, from the Arizona Department of Education. In order to teach in an Arizona public school, graduates must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Format option

This program is also offered via ASU Sync (<https://education.asu.edu/degree-programs/undergraduate-programs/asu-sync-statewide>). ASU Sync enables students to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real-time with faculty and peers. ASU Sync students need to reside in Arizona throughout the duration of the program. Students on I-20 visas are not permitted to complete courses via Sync and should speak with an advisor about other options to complete this program.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available on the official U.S. government website at <https://www.benefits.va.gov/gibill> (<https://www.benefits.va.gov/gibill>).

Program Requirements:

In addition to completing this certificate and a teacher certification program major, students will be required to earn a passing score on the professional knowledge portion of the AEP/NES exam and a passing score on the subject knowledge portion of the AEP/NES exam in each area an Arizona teaching credential is sought. Subject knowledge exam waivers may apply. Students should contact the Mary Lou Fulton Teachers College for more information.

This certificate requires 19 credit hours. A "C" or better is required in all coursework.

Required Courses -- 19 credit hours

RDG 413: Elementary Methods for Literacy Instruction and Assessment (4)

SPE 321: Classroom and SPE Assessment (3)

SPE 323: Effective Practices and Behavior Interventions: Supports for Exceptional Students (3)

SPE 411: Special Education History and Law (3)

SPE 423: Evidence-Based Practices for Students with Exceptional Needs (3)

TEL 331: Foundations of Literacy: The Science of Reading (3)

*RDG 413 will replace TEL 332 for students adding this certificate to a secondary education degree program.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: This certificate is only open to students majoring in early childhood education, elementary education, elementary multilingual education, secondary education and physical education undergraduate teacher preparation programs in the Mary Lou Fulton Teachers College.

Students should have a valid Arizona DPS Identity Verified Print fingerprint clearance card.

A GPA of 2.25 is required for continued good standing. Students should contact the Mary Lou Fulton Teachers College for more information.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a non degree-seeking graduate student but may not be eligible for an institutional recommendation for Arizona teaching licensure without additional preparation beyond the certificate.

Career Opportunities: Graduates of Mary Lou Fulton Teachers College are highly sought-out teachers in public, charter and private education institutions. Graduates with degrees in special education may also work in roles such as education resource specialists, interventionists or curriculum developers.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Military Studies Certificate (LSMILSCERT)

Campus: Online

Description: The military studies certificate program is designed in partnership with the U.S. Naval Community College to provide enlisted personnel, veterans and nonmilitary students with an interdisciplinary focus on national security, history and political science. Coursework includes global perspectives on war and conflict, an understanding of contemporary U.S. foreign policy, and regional focus of the student's choice on history, religion and politics.

The program includes capstone research or an applied project in which students explore the role of the U.S. military in advancing the goals of the nation in the past, present or future.

Program Requirements:

Required Courses -- 12 credit hours

HST 101: Global History Since 1500 (GCSI OR HU & H & G) (3)

IDS 150: Introduction to Military Studies (3)

IDS 350: Military Studies Interdisciplinary Capstone (L) (3)

POS 361: American Foreign Policy (3)

Military Studies Electives (choose two) -- 6 credit hours

HST 303: China, Japan & East Asia in World History (3)

HST 304: Stalin to Putin (3)

HST 372: Modern Middle East (GCSI OR SB & G & H) (3)

JUS 374: The Holocaust, Genocide, and Human Rights (3)

PAF 469: Terrorism Defense (3)

POS 300: Contemporary Global Controversies (GCSI OR SB & G) (3)

POS 364: National Security, Intelligence, and Terrorism (SOBE OR SB) (3)

POS 368: Ethics and Human Rights (3)

POS 465: International Organization and Law (GCSI OR SB & G) (3)

REL 366: Islam in the Modern World (GCSI OR HU & G) (3)

REL 379: Religion, Nationalism, and Ethnic Conflict (GCSI OR HU & G) (3)

SGS 303: Global Trends (GCSI OR SB & G) (3)

SGS 350: Economic Development and Globalization (3)

SGS 370: Geopolitics (GCSI) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu>) for program descriptions and to request more information.

Career Opportunities: Graduates of this program are prepared to further advance in careers in military service or in undergraduate study.

Modern Hebrew Certificate (LAHEBCERT)

Campus: Tempe

Description: The certificate program in modern Hebrew provides students with a firm foundation in modern Hebrew language and a broad knowledge of Israeli culture, leading to advanced skills in reading, writing and conversing in the language. The program includes the study of literature, politics and history, enriching students' knowledge of the Middle East and offering them deeper understanding of current affairs.

Program Requirements:

The certificate requires 20 credit hours. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher. A minimum of 12 credit hours must be completed at the upper-division level and a minimum of 12 credit hours must be earned at ASU or in an ASU-approved study abroad program.

Language -- 14 credit hours

HEB 201: Intermediate Modern Hebrew I (G) (4)

HEB 202: Intermediate Modern Hebrew II (G) (4)

HEB 313: Advanced Modern Hebrew I (G) (3)

HEB 314: Advanced Modern Hebrew II (G) (3)

Electives (choose two) -- 6 credit hours

HEB 333: Biblical Hebrew Literature I (G) or HEB 334: Biblical Hebrew Literature II (G) (3)

HEB 347 / JST 347 / SLC 347 / ENG 347: Modern Israeli Literature in Translation (HU & G) (3)

HEB 348 / JST 348 / SLC 348: Israeli Society and Culture (HU & G) (3)

HEB 349: Israeli Wars in Israeli Movies (HU & G) (3)

HEB 375: Contemporary Culture of Israel (HU & G) (3)

HST 372: Modern Middle East (GCSI OR SB & G & H) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: ASU students admitted to a degree program in any field of study are eligible to enroll in the modern Hebrew certificate program. In order to be admitted to the certificate program, students must complete HEB 101 and 102 Elementary Modern Hebrew to satisfy the requirements to enroll in HEB 201 Intermediate Modern Hebrew.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Graduates who have combined the certificate in modern Hebrew with their major program of study may become more marketable to employers, and they often decide to pursue employment in political analysis, tourism and hospitality, foreign policy, international business, media, translation, education or marketing.

Music Entrepreneurship Certificate (HIMERTCERT)

Campus: Tempe

Description: Music entrepreneurship is a discipline that intersects the traditional music disciplines. Music entrepreneurship harnesses the skills and mindset of the entrepreneur to empower musicians to create work that is meaningful, sustainable and oriented to community and market need.

Students in a music degree program and students with a background in music benefit from the business, marketing and organizational skills they develop through the certificate courses, as applied specifically to and within the arts.

Program Requirements:

The undergraduate certificate in music entrepreneurship consists of 15 credit hours, of which at least 12 credit hours must be upper division. There are six credit hours of required coursework and the remaining nine credit hours are selected from the electives section. A grade of "C" or better is required in all courses.

Required Courses -- 6 credit hours

MSC 484: Music Entrepreneurship Fieldwork or MUP 494: Entrepreneurship Capstone (3)

MUP 438: The Enterprising Artist (3)

Electives -- 9 credit hours

FIN 380: Personal Financial Management (3)

HDA 494: City/Narrative Space: Placemaking/Public Media Art (1)

MCO 431: Media Entrepreneurship (3)

MHL 368: U.S. Popular Music: Industry, Technology and Culture (3)

MSC 451: Popular Music Industry Studies I (2)

MSC 474: Contracts and Negotiations (1)

MSC 475: Album Release Strategies (3)

MSC 475: DIY Music Video Production (3)

MUP 319: Advanced Audio Engineering in the Arts (2)

MUP 439: Performing Arts Product Creation and Development (3)

NLM 220: Introduction to Nonprofit Organizations (3)

PAF 410: Building Leadership Skills (SOBE OR SB) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: The certificate in music entrepreneurship is meant to supplement study for music majors, and nonmajors in any discipline with a music background. Students may be admitted to the certificate by submitting a statement of interest outlining their music background and personal goals through the School of Music, Dance and Theatre application. For further application details, students should visit the program website (<https://musicdancetheatre.asu.edu/undergraduate-certificates/majorinfo/HIMERTCERT/undergrad/true/20>).

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply key concepts of entrepreneurship to critical evaluation of music career paths.
- Synthesize knowledge of music entrepreneurship within the Phoenix area and surrounding communities through music entrepreneurship fieldwork.

Career Opportunities: Graduates who have combined the certificate in music entrepreneurship with their major program of study may become more marketable to employers. They often decide to pursue employment in such industries as arts entertainment, music business, arts administration or performance. Career examples include arts administrator, business owner, community arts advocate, performing musician and public or community school teacher.

MUSIC E167

Nonprofit Professional Certificate (PPNPYCERT)

Campus: Downtown Phoenix

Description: This nationally recognized certificate program awards qualified students from diverse academic fields with the national Certified Nonprofit Professional credential. The CNP credential is awarded through the Nonprofit Leadership Alliance (formerly American Humanics, Inc.), a consortium of universities, nonprofits and funders that are committed to preparing students for management careers in the nonprofit sector. More information is available on the NLA website. <https://nla1.org/> (<https://nla1.org/>)

The NLA and ASU joint program provides curricular and cocurricular programs that prepare students through its competency-based, experiential educational framework, which includes curriculum instruction in management of nonprofit elements (fundraising, volunteers, organizational management) and field experience.

The program is ideal for students wishing to complement their majors with a strong core of nonprofit management knowledge and skills through professional affiliation with and certification by the Nonprofit Leadership Alliance, the nation's leader in education for nonprofit careers. NLA collaborates with a number of national nonprofit organizations as well as locally based grassroots organizations that actively seek NLA and ASU program interns and job candidates.

Program Requirements:

The program includes active participation by nonprofit professionals who offer workshops, seminars, mentoring and field trips. The certified nonprofit professional credential can be earned in conjunction with any bachelor's degree and requires successful participation in co-curricular, experiential activities in addition to required academic coursework. For more information on the credential, please visit <https://nla1.org/cnp/>.

Required Courses -- 11 credit hours

NLM 220: Introduction to Nonprofit Organizations (3)

NLM 320: Professional Development Seminar (4)

Notes: (Taken twice over two semesters)

NLM 420: Nonprofit Leadership Alliance Institute (3)

Notes: Offered fall semester only

NLM 440: Nonprofit Professional Certification (1)

Electives (choose two courses from list below) -- 6 credit hours

NLM 160: Voluntary Action and Community Leadership (CIVI OR SB) (3)

NLM 300: Fund Raising and Resource Development (3)

NLM 310: Volunteer Management (CIVI) (3)

NLM 380: Financial Management for Nonprofit Organizations (3)

NLM 430: Managing Nonprofit Organizations (L) (3)

NLM 451: Grant Writing (3)

NLM 484: Internship (3)

Standards

1. 17 hours of graded coursework.
2. minimum "C" (2.00 on a 4.00 scale) grade required for all courses in the certificate.
3. minimum GPA of 2.00 for those pursuing the certificate.
4. should be a junior to take 400-level courses.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Utilize self-evaluation and self-critique when proposing creative solutions to complex social issues.
- Prescribe their individual strengths and knowledge effectively within the social sector and related fields by creating well-structured career position plans.

Career Opportunities: The nonprofit professional credential opens up career opportunities across a range of diverse nonprofit areas, such as arts and culture; environmental, health and human services; and youth development.

Oral History and Storytelling Certificate (ASOHCCERT)

Campus: West

Description: Through the oral history and storytelling program, students gain an understanding of and appreciation for diverse cultures --- past and present --- and engage in oral history research and interviewing. Students may build on existing projects or develop new community relationships at local, national and international levels.

With the knowledge and skills to abide by the professional standards involved in oral history documentation, research and presentation, students leave the program better prepared for graduate programs or careers that integrate oral history.

The program is offered by the School of Humanities, Arts and Cultural Studies.

Program Requirements:

The certificate in oral history and storytelling consists of 15 upper division credit hours of coursework. A minimum of six upper-division credit hours must be completed through courses offered by the School of Humanities, Arts and Cultural Studies. A maximum of six credit hours may be shared between the certificate and a major. All courses used to satisfy requirements for the certificate must be passed with a "C" (2.00) or better. Electives are not limited to the certificate elective list; see academic advisor prior to enrollment. Students are encouraged to take courses that develop breadth rather than limiting their selection to courses in one particular discipline.

Core Requirements -- 6 credit hours

HRC 310: Social and Cultural Analysis: Method and Theory (SOBE OR C) (3)

HRC 480: Capstone: Practices and Approaches (L) (3)

Electives -- 9 credit hours

COM 335 / IAP 335: Acting for the Camera (3)

COM 339 / ENG 339 / IAP 339: Creating Dramatic Works: Page to Stage to Screen (3)

COM 342: Oral History and Storytelling (3)

COM 394: Storytelling in the Professions (3)

ENG 317: Cross-Cultural Writing ((L or HU) & G) (3)

ENG 361: Scriptwriting (3)

ENG 394: Cross-Cultural Narratives (3)

ENG 394: Oral History & Storytelling in Humanities & Arts (3)

ENG 476: Folklore & Oral Traditions (3)

ENG 476: Folklore in Everyday Life (3)

ETH 473 / WST 473: Indigenous and Latina/Chicana Representation (SB & C) (3)

ENG 484 / ETH 484: Pen Project Prison Teaching (3)

HST 419 / LAS 419: 20th Century Chicano/a History (C) (3)

IAP 364: Documentaries (3)

WST 370: Chronicling Women's Lives (HU & C) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: The certificate program in oral history and storytelling is open to all ASU undergraduate majors. This certificate is also available to graduate students and students majoring in professional programs. Students who wish to pursue this certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure the appropriate set of courses is taken.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: The certificate program in oral history and storytelling prepares students for careers such as ethnographers, culture and

history directors, videographers, editors, copy writers or journalists.

Organizational Leadership Certificate (LSORGLCERT)

Campus: Online

Description: In the certificate program in organizational leadership, students develop the skills leaders need to solve problems, communicate effectively, assess programs, manage resources and evaluate emerging technologies. This knowledge is applicable to any work environment, regardless of assigned role, in organizations across all sectors: private, nonprofit, government and military.

This certificate program is part of the AA degree in organizational leadership.

Program Requirements:

The certificate in organizational leadership requires 21 hours, of which 12 must be upper division. A minimum grade of "C" is required in each course.

Required Courses -- 21 credit hours

OGL 200: Introduction to Organizational Leadership (CIVI OR SB) (3)

OGL 220: Behavioral Dynamics in Organizations (SOBE OR SB) (3)

OGL 260: Resource Allocation in Organizations (SUST) (3)

OGL 300: Theory and Practice of Leadership (3)

OGL 345: Organizational Ethics (HUAD OR HU) (3)

OGL 355: Leading Organizational Innovation and Change (3)

OGL 381: Organizational Leadership Capstone (L) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Students must be accepted to the U.S. Naval Community College to add this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu>) for program descriptions and to request more information.

Career Opportunities: Graduates possess the skills and knowledge needed for leadership positions in a wide range of organizations, such as business, government, health care administration, nonprofit agencies and the service industry.

Peace Corps Prep Certificate (LSPCPCERT)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Description: The Peace Corps prep certificate program is designed to foster intellectual curiosity while building the competitiveness of Peace Corps applicants.

Six sectors (education, youth development, health, environment, community and economic development, and agriculture) comprise the program, unified by the mandatory course IDS 355 Peace Corps Seminar. To enhance the three core competencies of sector-specific skills, intercultural competence and leadership, students are encouraged to participate in service learning, internship opportunities and study abroad experiences.

Program Requirements:

The Peace Corps prep certificate requires a minimum of 21 credit hours as outlined below. However, students are able to double count credits from their current major, minor, general studies requirements, or other certificates where applicable. Students are encouraged to take courses that develop breadth within their sector rather than limiting their selection to courses in one particular subject area.

Applicants should contact an academic advisor in the College of Integrative Sciences and Arts, or the Peace Corps liaison at ASU by emailing pcprepcoordinator@asu.edu.

Required Courses -- 6 credit hours

OGL 358: Peace Corps Seminar (GCSI OR G) (3)

any 484 Internship course or IDS 401: Integration: Experiential Learning or OGL 484: Internship (3)

Internship hours may be completed locally, out of state or through an international study abroad program. The internship must be completed in the same program sector as the affiliated program sector electives completed for a minimum of 3 credit hours.

Global Communities, Societies and Individuals (GCSI) courses -- 6 credit hours

Global Communities, Societies and Individuals (GCSI) (6)

Students complete two additional "GCSI" (Global Communities, Societies and Individuals) courses, excluding OGL 358 and the nine credit hours of sector related electives. Sector electives in excess of nine credit hours may count toward this GCSI requirement. Courses can be either lower or upper division.

Electives (Choose one of the six sectors below) -- 9 credit hours

Program Sector Electives (9)

Students will select nine upper-division credit hours from one of the six program sectors of agriculture, community and economic development, education, environment, health, or youth development.

Students should see their academic advisor for a complete list of sector specific courses.

Agriculture Sector

Examples of electives include, but are not limited to:

AGB 302: International Management and Agribusiness (GCSI OR G) (3)

AGB 425: Food Supply Networks (3)

AGB 452: Global Food and Agricultural Trade (3)

ASB 300: Food and Culture (SOBE OR (L or SB) & C) (3)

Community and Economic Development Sector

Examples of electives include, but are not limited to:

ABS 364: Urban Forestry (3)

BIO 324: Environmental Ethics (SUST OR HU) (3)

BIO 434: People and Nature: Ecosystem Services (3)

ECN 360: Economic Development (GCSI OR SB & G) (3)

GCU 364: Energy in the Global Arena (3)

SOS 327: Sustainable Food and Farms (3)

Education Sector

Examples of electives include, but are not limited to:

AFR 350: Inequality and Diversity in Education (CIVI OR L & C) (3)

ECD 321: Foundations in Language, Literacy and Culture in Early Childhood (SOBE OR L) (3)

ECS 315: Classroom Organization and Child Guidance (3)

HCR 402: Advocacy for Health and Health Education (3)

SOC 421: Education and Society (SOBE OR SB) (3)

SPF 301: Culture and Schooling (L) (3)

Environment Sector

Examples of electives include, but are not limited to:

ASB 375: Humans and the Environment: What's the Connection? ((L or SB) & G) (3)

BIO 320: Fundamentals of Ecology (3)

BIO 322: Conservation of Biodiversity (3)

GPH 314: Global Change (SUST OR HU & G) (3)

SOS 326: Sustainable Ecosystems (3)

Health Sector

Examples of electives include, but are not limited to:

ASB 301: Global History of Health (HUAD OR SB & G & H) (3)

ASB 305: Poverty and Global Health (CIVI OR (L or SB) & C) (3)

ASM 345: Disease and Human Evolution (3)

EXW 450: Social Determinants of Health and Health Behavior (CIVI OR (L or SB) & C) (3)

HSC 310: Health Communication (3)

Youth Development Sector

Examples of electives include, but are not limited to:

ASB 346: Marriage and Family Diversity (SOBE OR SB & C) (3)

NLM 300: Fund Raising and Resource Development (3)

NLM 310: Volunteer Management (CIVI) (3)

PRM 315: Creating Community Through Park and Recreation Systems (3)

SWU 456: Immigrants and Refugees (CIVI OR C) (3)

Students will complete a three-credit hour internship and can do so by taking any internship course so long as their internship relates to their chosen sector. *** 484 or IDS 401 or OGL 484 (or approved 3-credit internship or applied learning experience).

Students from any major have permission to register for OGL 484 in order to complete an internship related to their sector. Students may also meet the internship requirement by completing an internship experience through a study abroad program.

Study abroad or international experience is encouraged but not required. Consider participating in a study abroad program during spring break as a substitute for any required certificate course.

Foreign language study to at least the 200-level is encouraged but not required.

For Peace Corps placements in Spanish or French-speaking countries, foreign language proficiency at the 200-level is often required.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: None

Other Enrollment Requirements: None

Applicants should contact an advisor in the College of Integrative Sciences and Arts for more information.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a non degree-seeking graduate student.

Career Opportunities: Students can advance their career options with an undergraduate certificate. Those who have complemented their major program of study with this specialization in Peace Corps prep may be more marketable to employers.

Students who complete this undergraduate certificate along with their major often decide to pursue employment in the foreign services, nongovernmental agencies, relief organizations, community-based organizations and government positions. Advanced degrees or certifications may be required for academic or clinical positions.

Personal Fitness Training Certificate (NHPFITCERT)

Campus: Downtown Phoenix

Description: The personal fitness training certificate program provides students with the foundational knowledge and basic competencies they will need to develop evidence-based physical activity programs that the general population can use to achieve positive health changes.

After they complete the program, students have a deeper understanding of exercise program development and human physiology, allowing them to pursue personal training certification through most accredited associations. Students in this program obtain a well-rounded education on personal fitness through courses such as:

- cardiorespiratory and flexibility training
- exercise prescription for health and wellness
- resistant training and recovery techniques

This program does not prepare students to work with clients with special needs or existing health conditions.

Program Requirements:

The certificate consists of 18 credit hours, at least 12 of which must be upper division. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.

Required Courses -- 15 credit hours

EXW 215: Resistance Training and Recovery Techniques (3)

EXW 217: Cardiorespiratory and Flexibility Training (3)

EXW 335: Physical Activity and Physiological Concepts (3)

EXW 425: Exercise Prescription for Health and Wellness (3)

SSP 320: Coaching Leadership, Performance Team and Facility Management (3)

Elective (choose one) -- 3 credit hours

EXW 302: Fundamentals of Wellness (3)

EXW 400: Stress Management for Wellness (3)

HSC 355: Eating for Lifelong Health (SOBE OR SB) (3)

NTR 345: Development of Healthy Cuisines (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: GPA Requirement: 2.00

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply concepts of muscular and cardio-vascular physiological systems to make appropriate choices of movements for their clients.
- Teach exercises that promote better overall health for clients.
- Apply exercise science concepts to create safe and effective exercise training programs.

Career Opportunities: Students can improve their career options with an undergraduate certificate.

The certificate program in personal fitness training helps students become more marketable in the general health fields by providing them with specific content knowledge about exercise techniques, exercise program design, the positive impact that physical activity can have on overall health, and reductions in the risk for developing chronic disease.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Philosophy, Politics and Economics Certificate (LAPHPECERT)

Campus: Tempe

Description: The philosophy, politics and economics certificate program provides students with a foundation in each of these three fields, as well as the opportunity to consider how to integrate the three disciplinary perspectives through both the introductory and capstone courses.

The program offers core concepts, tools and content in the fundamental disciplines of ethics, politics and economics, providing students the means to address social and political challenges.

Program Requirements:

The certificate in philosophy, politics and economics requires 15 credit hours, of which at least 12 must be upper division. All courses for the certificate must be completed with a minimum grade of "C" (2.00 on a 4.00 scale). Students should contact the School of Civic and Economic Thought and Leadership for more information.

Required Courses -- 6 credit hours

CEL 350: Philosophy, Politics and Economics (SOBE OR SB) (3)

CEL 485: Capstone Seminar in Civic and Economic Thought and Leadership (3)

Economic Electives -- 3 credit hours

CEL 304 / ECN 304: Classical to Modern Economic Thought (3)

Philosophy Electives (choose one) -- 3 credit hours

PHI 306: Applied Ethics (CIVI OR HU) (3)

PHI 307: Philosophy of Law (AMIT OR HU) (3)

PHI 325: Philosophy of Social Science (HU or SB) (3)

PHI 336: Social and Political Philosophy (HU) (3)

PHI 337: Ethical Theory (HU) (3)

PHI 360: Business and Professional Ethics (HUAD OR HU) (3)

Political Science Electives (choose one) -- 3 credit hours

POS 340: History of Political Philosophy I (HU) (3)

POS 341: History of Political Philosophy II (HU) (3)

POS 346: Problems of Democracy (HUAD OR HU) (3)

POS 442: American Political Thought (HUAD OR HU) (3)

POS 443: Topics in Contemporary Political Theory (HU) (3)

POS 475: Morality and Politics (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: The certificate emphasizes the transferability of the knowledge and skills gained in philosophy and economics to practical problems of political and societal governance.

The certificate prepares students for a range of important career opportunities --- and, more generally, to be leading citizens and contributors across many sectors of life, public or private, political affairs or civil society. Graduates of the program in Europe, the U.S. and around the globe have had successful careers in business administration, consulting, finance, government and political affairs, health care, industry, international affairs, international development, investment banking, journalism, law, management, marketing, public policy, the tech sector and various nonprofit organizations.

Philosophy, Rhetoric and Literature Certificate (ASPRLCERT)

Campus: West

Description: The certificate in philosophy, rhetoric and literature is an interdisciplinary humanities program that integrates continental philosophy, literature, art, communication and social critique.

Students explore existential crises and the production of cultural values. They examine the anxieties and expectations surrounding cultural identity, including the expectation to adhere to gendered, racial, ethnic, social and religious norms. Special attention is given to the roles that art, literature, thought, intercultural interaction and communication play in repairing fractured histories and in the creation of better social worlds.

Program Requirements:

The certificate in philosophy, rhetoric and literature consists of 15 upper division credit hours of coursework. A minimum of six upper-division credit

hours must be completed through courses offered by the School of Humanities, Arts and Cultural Studies. A maximum of six credit hours may be shared between the certificate and a major. All courses used to satisfy requirements for the certificate must be passed with a "C" (2.00) or better. Courses used for Core Requirements cannot be used to fulfill requirements in Pool A or Pool B.

Core I Rhetorical Perspectives -- 3 credit hours

ENG 400: History of Literary Criticism (L or HU) (3)

ENG 440: Studies in American Literature and Culture (3)

ENG 472: Rhetorical Studies (3)

Core II Continental Philosophical Perspectives -- 3 credit hours

PHI 304: Existentialism (HUAD OR HU) (3)

PHI 411: Continental Philosophy (HU) (3)

PHI 412: Philosophy and Literary Criticism (HUAD OR HU) (3)

Pool A -- 3 credit hours

COM 363: Latinxs and the Media (SOBE OR C) (3)

COM 464: Communicative Sexualities (SOBE OR SB) (3)

ENG 353: African American Literature: Beginnings through the Harlem Renaissance ((L or HU) & C) (3)

ENG 400: History of Literary Criticism (L or HU) (3)

ENG 401: Topics in Critical Theory (3)

ENG 440: Studies in American Literature and Culture (3)

ENG 454 / WST 454: Gender and Literature (L or HU) (3)

ENG 461: Studies in Women and Literature (3)

ENG 472: Rhetorical Studies (3)

ENG 478: Studies in Modernism (3)

ENG 479: Studies in Postmodernism (HU & G) (3)

ETH 473 / LAS 473 / WST 473: Indigenous and Latina/Chicana Representation (SB & C) (3)

IAP 471: Language, Culture, and Performance (L or HU) (3)

IAP 473: Aesthetic Research (L or HU) (3)

LAS 340 / WST 341: Latin American Women Writers (HU & G) (3)

PHI 412: Philosophy and Literary Criticism (HUAD OR HU) (3)

PHI 421: Philosophical Topics (3)

Pool B -- 6 credit hours

AIS 320: American Indian Philosophies and World Views (HUAD OR HU & C) (3)

COM 321: Rhetorical Theory and Research ((L or HU) & H) (3)

COM 429: Visual Communication and Semiotics (3)

ENG 401: Topics in Critical Theory (3)

IAS 450 / PHI 450 / REL 450: Philosophical and Spiritual Issues in Death and Dying (3)

PHI 303 / REL 300: The Future of Religions (HUAD OR L or HU) (3)

PHI 304: Existentialism (HUAD OR HU) (3)

PHI 339: Philosophy of Art (HU) (3)

PHI 390 / REL 314: Jewish Philosophy (3)

PHI 411: Continental Philosophy (HU) (3)

PHI 412: Philosophy and Literary Criticism (HUAD OR HU) (3)

PHI 415: Philosophy and Film (HUAD OR HU) (3)

PHI 421: Philosophical Topics (3)

POS 494: Everyday Forms of Political Resistance (3)

REL 345: Asian Religious Traditions (HU & G) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: The certificate in philosophy, rhetoric and literature is open to all ASU undergraduate majors. Students who wish to pursue this certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure the appropriate set of courses is taken and the required paperwork is submitted.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: This program prepares students for advanced study in the humanities, social and behavioral sciences, and the arts, as well as lifelong learning in a variety of fields.

Planetary Science Certificate (LAPLSCERT)

Campus: Tempe

Description: The certificate program in planetary science prepares undergraduate students in topics related to the formation and evolution of planetary bodies and associated remote sensing technologies employed in these studies. The program includes specific training in the origins of planetary systems, tectonics, volcanism, geomorphology and remote mapping of surficial geology using spacecraft and land-based observational data. Additional skills may include understanding of planetary atmospheres, astrobiology, geodynamics and cosmochemistry.

This interdisciplinary program prepares students for technical career paths and helps prepare them to best engage with exciting opportunities at the frontier of planetary exploration.

Program Requirements:

The certificate requires a minimum of 18 credit hours. At least 12 credit hours must be completed in upper-division coursework and at least nine credit hours must be completed at ASU. At least six upper-division hours in the certificate must be completed in courses offered by The College of Liberal Arts and Sciences. A grade of "C" (2.00 on a 4.00 scale) or higher is required for each course used to fulfill a certificate requirement.

Required Courses (9-10 credit hours) -- 9 credit hours

AST 111: Introduction to Solar Systems Astronomy (SCIT OR SQ) or GLG 101: Introduction to Geology I (Physical) (SCIT OR SQ) or SES 100: Introduction to Exploration (QTRS OR CS) or SES 106: Habitable Worlds (SCIT OR SQ) or SES 107: A Solar System Journey (SCIT OR SG) or SES 121: Earth, Solar System and Universe (SCIT OR SQ) (3-4)
GLG 404: Fundamentals of Planetary Geology (3)
SES 421: Foundations of Planetary Science (3)

Electives (choose three) -- 9 credit hours

AST 494: Exoplanets (3)
GLG 321: Mineralogy or GLG 424: Petrology (3)
GLG 362: Geomorphology (3)
GLG 406: Geology of Mars (3)
GLG 418: Geophysics or GLG 419: Geodynamics (3)
GLG 420: Volcanology or GLG 422: Planetary Volcanology (3)
GLG 485: Meteorites and Cosmochemistry (3)
GLG 490: Remote Sensing (3)
SES 294: Introduction to Space Weather (3)
SES 311: Essentials of Astrobiology: Exploration for Life in the Universe or GLG 460: Astrobiology (3)
SES 494: Geology of Venus (3)
SES 494: Planetary Interiors (3)

Students may also use other courses as electives, especially special topics courses (SES/AST/GLG 494 and/or GLG 490), chosen in consultation with an academic advisor in the School of Earth and Space Exploration.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Certificate courses may have prerequisites, and the most common are listed below. Additional enrollment requirements may include completion of these courses or their equivalents with a "C" or better:

- GLG 101/103 Introduction to Geology I (Physical), and Laboratory or SES 121/123 Earth, Solar System and Universe, and Laboratory
- a math course at the level of MAT 266 Calculus 2 or higher
- a chemistry course at the level of CHM 113 or higher
- a physics course at the level of PHY 121/122 or higher

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: The employment prospects of graduates who complete the planetary science certificate are enhanced by the potential for employment at the intersection of these fields. Opportunities include:

- community college and university educators teaching earth science or astronomy classes
- docents at science museums and planetariums
- faculty and researchers at universities working on federally funded planetary science research, instruments or missions
- K-12 educators for programs with Earth science or astronomy curriculum
- researchers in aerospace companies contracted to build subsystems, instruments or missions for federally funded planetary science research

In Arizona, such opportunities are offered at institutions that include the public universities, Mesa Community College, the United States Geological Survey, Lowell Observatory and the Planetary Science Institute. Arizona companies that employ people in these fields include World View, Paragon, FreeFall, General Dynamics, Qwaltec and KinetX. National companies include Lockheed Martin, Honeywell, Ball, SpaceX, Blue Origin, Virgin Galactic, Intuitive Machines, Firefly, Northrop Gumman, Axiom, Planet Labs, Blue Canyon Technologies, Astrobotic and ispace.

Graduates may also find employment in federal labs or as congressional staff.

Political Economy Certificate (LAPLECERT)

Campus: Tempe

Description: The political economy certificate program engages students in studying the intersection of politics and the economy. Students learn foundational concepts from both economics and political science, and they explore how domestic and international policymakers wrestle with political-economic issues.

Program Requirements:

The certificate includes courses in political science, economics and other academic areas that relate to politics and the economy. Students majoring in any subject at the university may be awarded the certificate upon completion of the following: a total of 15 credit hours, of which at least 12 credit hours must be upper division. Nine credit hours must be from The College of Liberal Arts and Sciences. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Part One: Economics Foundation (choose one course) -- 3 credit hours

ECN 211: Macroeconomic Principles (SOBE OR SB) (3)

ECN 212: Microeconomic Principles (SOBE OR SB) (3)

Part Two: Politics Foundation (choose one course) -- 3 credit hours

POS 300: Contemporary Global Controversies (GCSI OR SB & G) (3)

POS 310: American National Government (AMIT OR SB) (3)

POS 350: Comparative Politics (GCSI OR SB & G) (3)

Part Three: Political Economics and the World (choose two courses) -- 6 credit hours

ECN 306: Survey of International Economics (GCSI OR SB & G) (3)

ECN 360: Economic Development (GCSI OR SB & G) (3)

POS 379: The Resource Curse (3)

POS 465: International Organization and Law (GCSI OR SB & G) (3)

POS 485: Political Economy (SOBE OR SB) (3)

POS 486: International Political Economy (GCSI OR SB & G) (3)

Part Four: Related Elective (choose one course) -- 3 credit hours

GCU 350: The Geography of World Crises (GCSI OR SB & G) (3)

PAF 340: Contemporary Policy Challenges (3)

PAF 351: Urban and Metropolitan Studies (3)

PAF 352: Urban Theory (3)

POS 325: Public Policy Development (CIVI OR SB) (3)

POS 356: European Union (GCSI OR SB & G) (3)

POS 367: World Politics and Global Inequalities (GCSI OR G) (3)

SGS 350: Economic Development and Globalization (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: The certificate program helps prepare students for careers in a variety of global and domestic environments.

Graduates who have combined the certificate in political economy with their major program of study may become more marketable to employers. They often decide to pursue employment in government, public policy, lobbying, nonprofit agencies or international business.

Political History and Leadership Certificate (LAPTLCERT)

Campus: Tempe

Description: The certificate program in political history and leadership provides students with a strong foundation in the history of politics and political thought, with a special emphasis on the role of leadership and citizenship. Students come to understand the complexities of real decision-making beyond the abstractions. The program prepares students for leadership in their careers.

Required courses combine academic study and mentoring contact with political, media and business leaders from the wider Phoenix area and Arizona communities, while electives drawn from a variety of disciplines are used to broaden the scope of emphasis.

The program offers scholarship and internship or job placement opportunities.

Program Requirements:

The certificate requires 15 credit hours, of which at least 12 must be upper-division. At least six upper-division hours must be completed in courses offered by The College of Liberal Arts and Sciences. All courses must be completed in residence at ASU and with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 6 credit hours

HST 112 / POS 112: Foundations of Democracy (CIVI OR HU) (3)

HST 414 / POS 414: Political History and Leadership (3)

Elective Courses (choose three) -- 9 credit hours

Choose 9 hours of upper-division electives from the list below.

AFR 330 / JUS 330: Survey of African American Politics (SB & H) (3)

CEL 304 / ECN 304: Classical to Modern Economic Thought (3)

CEL 305: Classical Political Statecraft (3)

CEL 320: Modern Political Thought: Origins and Debates about Modern Liberty (CIVI OR HU) (3)

CEL 345: Modern Economic Classics (3)

CEL 350: Philosophy, Politics and Economics (SOBE OR SB) (3)

POS 485: Political Economy (SOBE OR SB) (3)
REL 388 / POS 388: Religion, Ethics, and International Politics (CIVI) (3)
WST 440: Politics of Women's Health (CIVI OR SB & C) (3)

Additional upper-division courses with relevant content may be used with the approval of the certificate co-directors.
Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will analyze ideas and questions raised by major political thinkers writing about democracy.
- Students will analyze major themes and ideas found in an array of primary sources on a topic related to political leadership in history.
- Students will demonstrate the practical skills necessary in policy-making, administration and organization, informed all the while by fundamental principles of democracy and republicanism.

Career Opportunities: Students become more marketable to employers and advance their career options when they have complemented their major program of study with this specialization in political history and leadership.

Students who complete this certificate often pursue employment as military officers, governor's office staff, members of congress, city council officials, county prosecutors, financial advisors and campaign strategists. Advanced degrees or certifications may be required for academic or clinical positions.

Power and Society Certificate (ASPWSOCERT)

Campus: West

Description: The certificate program in power and society prepares students to think critically and practically about the relationship between power and society.

Courses in the program use multiple perspectives to explore the sources, exercise and consequences of power across a variety of social and

historical settings. A special focus on gender is available across the spectrum of courses listed.

Program Requirements:

The certificate in power and society consists of 15 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Social and Behavioral Sciences. A maximum of six credit hours may be shared between the certificate and a major. All courses used to satisfy requirements for the certificate must be passed with a "C" (2.00) or better.

Electives are not limited to the certificate elective list; see academic advisor prior to enrollment. Students are encouraged to take courses that develop breadth rather than limiting their selection to courses in one particular discipline. A maximum of three credit hours of individualized instruction or internship may be applied toward the certificate.

Required Core Course -- 3 credit hours

POS 437 / SOC 437: Women, Power, and Politics (G) (3)

Electives (minimum 9 upper-division credit hours) -- 12 credit hours

Students will select 12 credit hours from relevant courses on power and society. Selected courses must come from at least two of the following subject areas to develop breadth across disciplines: ASB, JHR, POS, SBS or SOC.

ASB 211: Women in Other Cultures ((HU or SB) & G) (3)

ASB 339 / POS 339 / SBS 339 / SOC 339: Grassroots Social Movements (SB) (3)

ASB 394 / JHR 394 / POS 394 / SBS 394 / SOC 394: Special Topics (1)

ASB 447 / POS 447 / SBS 447: Citizenship, Nationalism and Identity (CIVI OR SB & C & G) (3)

ASB 484 / JHR 484 / POS 484: Internship or SBS 484: Internship or SOC 484: Internship (3)

ASB 494 / JHR 494 / POS 494 / SBS 494 / SOC 494: Special Topics (3)

ASB 499 / JHR 499 / POS 499 / SBS 499 / SOC 499: Individualized Instruction (3)

JHR 100: Introduction to Social Justice and Human Rights (CIVI OR SB & G) (3)

JHR 305: Theory and Practice of Social Justice and Human Rights (CIVI OR SB & G) (3)

POS 150: Comparative Government (GCSI OR SB & G) (3)

POS 160: Global Politics (GCSI OR SB & G) or POS 360: World Politics (GCSI OR SB & G) (3)

POS 350: Comparative Politics (GCSI OR SB & G) (3)

POS 357: South Asia Politics (SB & G) (3)

POS 361: American Foreign Policy (3)

POS 470: Law and the Political Order (SB) (3)

POS 480 / SBS 480: Global Justice (GCSI OR G) (3)

POS 486: International Political Economy (GCSI OR SB & G) (3)

SOC 264: Sociology of Gender (CIVI OR SB & C) (3)

SOC 371: Inequality and Sustainability (3)

SOC 426: Social Inequalities (CIVI OR SB) (3)

SOS 111: Sustainable Cities (SUST OR (HU or SB) & G) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: This certificate is open to students in any major. Students should contact an advisor in the New College of Interdisciplinary Arts and Sciences for more information.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: The certificate program is recommended for students with academic or career interests in politics, government, economics, organizing and advocacy, public affairs and public policy, journalism, social work, human rights, social justice, education and sustainability. Career paths include social work, public administration, public policy and criminal justice.

Professional Sales Certificate (BAPRSCERT)

Campus: Tempe

Description: Designed for the nonmarketing business major, the certificate in professional sales was created for business students who are interested in pursuing the many opportunities in professional sales.

With the inclusion of courses in professional sales as well as sales management, this program prepares students to be successful account managers or sales team leaders in both business-to-business and business-to-consumer settings.

An optional internship in sales is strongly encouraged as part of the professional sales certificate.

Program Requirements:

To receive the certificate, students must complete the specified business courses with a grade of "C" or better (2.00 on a 4.00 scale). No more than six credit hours may be shared between the certificate and other degree programs, minors, and/or other certificates.

First Required Course -- 3 credit hours

MKT 300: Marketing and Business Performance or MKT 303: Honors Marketing Theory and Practice (3)

Required Courses -- 6 credit hours

MKT 370: Professional Sales and Relationship Management (3)

MKT 410: Sales Management (3)

Electives (choose two) -- 6 credit hours

MGT 430: Negotiations (3)

MKT 435: Entrepreneurial Marketing (3)

MKT 438: Advanced Selling Using Data and Technology (3)

MKT 441: Sports Revenue Generation (3)

MKT 484: Internship (3)

Notes: Internship in sales.

MKT 493: Honors Thesis (L) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: This certificate program is open to current students in the W. P. Carey School of Business who are not in the marketing major.

No more than six credit hours may be shared between the certificate and other degree programs, minors or other certificates.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Graduates who have combined the certificate in professional sales with their major program of study may become more marketable to employers. They often decide to pursue employment in sales, marketing or procurement.

Advanced degrees or certifications may be required for academic or clinical positions.

Public Administration and Public Management Certificate (PPPAFCERT)

Campus: Downtown Phoenix

Description: The certificate in public administration and public management is designed for students interested in public service; for undergraduate students who are interested in developing leadership skills or who wish to enhance their degree in an existing major at ASU; for working adults who may wish to further their education yet may not be looking for a degree program; and for students of the BA in interdisciplinary studies who seek to combine certificates with their degree.

Students learn skills that enable them to analyze critical issues, build and bridge communities, deliver and manage public programs, improve the

quality of life, lead change in public policy, preserve natural resources, provide public safety, reform welfare and strengthen democratic governance.

Program Requirements:

The certificate in public administration and public management consists of 15 credit hours of coursework; students take 9 credit hours of core classes and six credit hours of elective courses.

Core Courses -- 9 credit hours

PAF 300: Public Management and Administration (3)

PAF 420: Managing Across Boundaries (3)

PAF 460: Public Service Ethics (3)

Elective -- 6 credit hours

PAF Upper Division Elective (6)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply management principles within the context of public administration issues.
- Apply ethical reasoning to the context of public administration and policy issues.

Career Opportunities: Students who receive this certificate are prepared to pursue a career in a field related to public administration or public policy, particularly in the areas of participatory governance and public engagement. This may include opportunities as either a manager or policy analyst in local, state or federal agencies; in nonprofit organizations; and in private organizations whose work interfaces with the public sector.

Recreational Therapy Certificate (PPRECTCERT)

Campus: Downtown Phoenix

Description: Students enrolled in the therapeutic recreation certificate program gain knowledge and requisite competencies to lead recreation-based therapeutic programs as a strategy to improve individual and community health. Through curriculum foundational to the field, students learn the systematic process of conducting assessments, developing service plans, implementing therapeutic interventions, evaluating, and documenting outcomes of care. Through the academic certificate program, students examine the holistic benefits of recreational therapy through exposure to creative and expressive arts, adapted exercise and sport, aquatic therapy, therapeutic riding, horticulture therapy, community integration, leisure education and structured play.

The certificate program is an ideal choice for individuals who value the importance of a healthy leisure lifestyle for all, want to advocate for accessible recreation opportunities, and are dedicated to the use of recreation-based interventions to improve well-being.

The certificate is a valuable supplement to degrees in related fields as it helps students develop a unique set of competencies and also serves as a pathway to credentialing as a qualified provider of recreational therapy.

Students seeking professional certification in recreational therapy have the option to select specific recreational therapy content courses to contribute a portion of the requirements necessary for eligibility with the National Council for Therapeutic Recreation Certification; further information is available on their website. <https://nctrc.org/about-certification/ctrs-the-qualified-provider> (<https://www.nctrc.org/about-certification/ctrs-the-qualified-provider/>).

Program Requirements:

The recreational therapy certificate requires completion of 18 credit hours: six credit hours of required courses and 12 credit hours of electives.

Students seeking the national credential in therapeutic recreation should select electives from that list.

Core Courses -- 6 credit hours

RTH 364: Foundations in Recreational Therapy (SOBE OR SB) (3)

RTH 413: Leadership and Professional Development in Recreational Therapy (3)

Electives (choose 12 credits) -- 12 credit hours

Choose four courses from Blocks A and B if interested in the ASU certificate, but not seeking the National Council for Therapeutic Recreation (NCTRC) credential. Choose four courses from only Block B if interested in taking support courses for NCTRC credential. (12)

Block A - Choose 4 courses from Block A and B if interested in only ASU certificate

Please note that these courses do not meet NCTRC credential requirements.

CDE 244: Children Facing Health Care Challenges (3)

CDE 312: Adolescence (SOBE OR SB) (3)

CDE 414: The School-Aged Child: Development in the Elementary Years (3)

CDE 418: Aging and the Life Course (SOBE OR SB & H) (3)

CDE 430: Infant and Toddler Development in the Family (SOBE OR SB) (3)

CDE 450: Childhood Disorders and Family Functioning (L) (3)

DST 101: Introduction to Disability Studies (CIVI OR C) (3)

PRM 120: Leisure and the Quality of Life (SOBE OR SB) (3)

RTH 453: Inclusive Community Sport (3)

Block B - Choose 4 courses from only this list if interested in NCTRC credential

Students seeking the national credentialing through the National Council for Therapeutic Recreation (NCTRC) should select four courses from this list.

RTH 400: Intervention Techniques in Recreational Therapy (3)

Notes: Offered only in spring semester

RTH 440: Advocacy in Therapeutic Recreation (GCSI OR G) (3)

RTH 450: Therapeutic Recreation and Community Health (3)

Notes: Offered only in spring semester

RTH 455: Recreational Therapy and Play with Children, Youth and Families (3)

RTH 460: Assessment and Documentation in Recreational Therapy (3)

Notes: Offered only in fall semester

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Recreational therapists practice in settings such as inpatient and outpatient physical rehabilitation, inpatient and outpatient mental health, and skilled nursing facilities as well as in assisted living and adult day programs, park and recreation and adapted sports programs, acute care hospitals, pediatric hospitals, and programs and school systems.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should review requirements for licensure on the National Council for Therapeutic Recreation Certification website: <https://www.nctrc.org/> (<https://www.nctrc.org/>).

Religion, Conflict and Peace Certificate (LARELCERT)

Campus: Tempe

Description: The religion, conflict and peace certificate has three core components: regional, political and cultural.

The regional component provides students with specific regional knowledge of how religion has been implicated in human conflict. Required coursework in at least two different regions fosters a comparative understanding of the dynamics of religion and conflict in historical and global contexts.

The political component explores how religion influences or is influenced by matters of state, law, government or other dimensions of political life.

The cultural component provides students with an understanding of how religion operates as a powerful force that impacts and intersects with expressions of human identity, thought and culture.

Program Requirements:

The certificate requires a minimum of 18 credit hours. At least 12 credit hours must be completed in upper-division coursework and at least 12 credit hours must be completed at ASU. At least six upper-division hours in the certificate must be completed in courses offered by The College of Liberal Arts and Sciences. A grade of "C" (2.00 on a 4.00 scale) or higher is required for each course used to fulfill a certificate requirement.

Humanities and Social Sciences Requirement

At least six of the 18 credit hours must be fulfilled with courses from the humanities and at least three credit hours from the social sciences.

When choosing courses from the lists below, complete six credit hours from the following subject areas to fulfill the humanities requirement: ARB, CEL, CHI, FMS, GER, HEB, HST, IAS, JST, PAX, PHI, REL, or SLC.

When choosing courses from the lists below, complete three credit hours from the following subject areas to fulfill the social sciences requirement: AFR, ASB, COM, GCU, JUS, NEW, POS, SGS, SOC, or WST.

Regional Component Courses -- 6 credit hours

Select two Regional Component Courses from two different geographic regions. Available regions are Africa, Asia, Europe, Middle East and United States. (6)

Regional Component: Africa

AFR 480 / REL 461 / SGS 442: Different Voices Within Contemporary Islamic Discourse (3)

WST 345: Gender, Religion, and Global Violence (SB & G) (3)

Electives (two courses) -- 6 credit hours

Certificate Electives (6)

Students select electives from any of the course lists above, keeping in mind that at least 12 credit hours within the certificate must be upper-division.

In some cases, the same course can be used to fulfill more than one requirement. For more information, please contact the certificate director in the Center for the Study of Religion and Conflict.

If a course is used to meet more than one component requirement above, additional electives may be required to meet the 18 credit hour minimum. Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Students can become more marketable and advance their career options with an undergraduate certificate. The certificate

in religion, conflict and peace complements their major program of study with specialized knowledge and enables them to demonstrate broad intellectual curiosity and skills.

Students who complete this certificate often decide to pursue employment in journalism, law, policy work, diplomacy, the military, public advocacy, publishing, education, ministry and other fields in which an enhanced understanding of religion and conflict is increasingly vital. Advanced degrees or certifications may be required for academic or clinical positions.

Risk Communication Certificate (ASRCMCERT)

Campus: West

Description: The rising importance of the field of risk communication stems from the need to name, understand and manage physical and social risks as society is faced with increasingly challenging decisions concerning stressed social and environmental infrastructures.

Proficiency in risk communication requires understanding the complex interfaces of physical, biological, psychological and social systems. In response, the certificate program in risk communication combines the strengths of three schools within the New College of Interdisciplinary Arts and Sciences: the School of Social and Behavioral Sciences; the School of Mathematical and Natural Sciences; and the School of Humanities, Arts and Cultural Studies.

Program Requirements:

The certificate in risk communication consists of 15 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the New College of Interdisciplinary Arts and Sciences. A maximum of seven credit hours may be shared between the certificate and a major. All courses used to satisfy requirements for the certificate must be passed with a "C" (2.00) or better.

Core Requirements -- 6 credit hours

BIO 130: Introduction to Environmental Science (SCIT OR SQ) or ENV 201: Fundamentals of Environmental Science (SUST) (3-4)

Notes: ENV 201 is required for Environmental Science or Biology majors only.

COM 415: Risk Communication (3)

Electives (choose three) -- 9 credit hours

COM 319: Persuasion and Social Influence (CIVI OR SB) (3)

COM 414: Crisis Communication (3)

COM 450: Organizational Communication (SOBE OR SB) (3)

COM 454: Rhetorical and Critical Approaches to Public Relations (3)

COM 463: Intercultural Communication in a Global Context (GCSI OR SB & G) (3)

IAS 340 / PHI 320: Bioethics (HUAD OR HU) (3)

IAS 407 / PHI 407: Environmental Philosophy and Policy (L or HU) (3)

IAS 409 / PHI 409: Eco-Community Ethics (HU) (3)

LSC 362: The Human Environment (3)

PTX 301: Basics of Pharmacology and Toxicology (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Students who wish to pursue this certificate should consult an academic advisor in the School of Mathematical and Natural Sciences or the School of Social and Behavioral Sciences to ensure that the appropriate set of courses is taken and the required paperwork is submitted.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Graduates are prepared for a range of diverse careers in risk management, crisis communications and environmental public affairs. Specifically, graduates are suited to work as risk management specialists and environmental advocates, and they are prepared to translate complex scientific ideas and analyses into information that can be evaluated meaningfully by all members of society.

Graduates of this program work in local government agencies and law enforcement, public relations organizations, advertising, marketing and insurance.

Risk Management Certificate (BARMGTCERT)

Campus: Polytechnic

Description: The certificate program in risk management gives students a solid foundation in the theory and practice of modern risk management.

The concept of enterprise risk management is highlighted at the onset of the curriculum, emphasizing that risks and risk management strategies must be considered holistically at the firm level, not in isolation. Emphasis is placed on identifying, measuring, communicating and managing a variety of risks.

Upon completion of the certificate, students are able to identify and measure a variety of business and financial risks, and design and articulate strategies for managing and communicating risks.

Program Requirements:

This certificate requires 18 credit hours. A grade of "C" or better is required for all coursework.

No more than six credit hours may be shared between the certificate and other degree programs, minors, and/or other certificates.

Required Courses -- 9 credit hours

BUS 434: Business Risk Management (3)

BUS 436: Frontiers in Risk Management (3)

FIN 300: Fundamentals of Finance or FIN 302: Managerial Finance or FIN 303: Honors Finance (3)

Electives (select three) -- 9 credit hours

AGB 435: Commodity Futures and Options Markets (3)

BUS 384: Business Operations and Planning or SCM 432: Planning and Control Systems for Supply Chain Management (3)

COM 414: Crisis Communication (3)

FIN 421: Security Analysis and Portfolio Management (3)

FIN 427: Derivative Financial Securities (3)

IEE 454: Risk Management (3)

PMG 421: Project Risk Management (3)

SCM 314: Analytics for Logistics or SCM 315: Business Decision Models (3)

TGM 460: Global Risk Assessment and Management (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: The certificate in risk management is open to all students.

No more than six credit hours may be shared between the certificate and other degree programs, minors or other certificates.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Students can advance their career options with an undergraduate certificate. The certificate in risk management allows students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Students who complete this undergraduate certificate often decide to pursue employment in compliance and management. Advanced degrees or certifications may be required for academic or clinical positions.

Russian and East European Studies Certificate (LAREECERT)

Campus: Tempe

Description: The certificate in Russian and East European studies encourages students to develop competency in Russian or another East European or Eurasian language as well as the culture and politics of the region.

Coursework leading to the certificate is offered by outstanding faculty in diverse fields of study including architecture, economics, film studies, geography, history, international business, literature, music, political science and religious studies.

A one-credit, student-led capstone course is completed in the student's junior or senior year; with the support of an advisor, students can write a research paper on the Russian and East European studies topic of their choice, prepare a writing sample or a graduate school application, or work on a creative project.

A student with a major in any school or department may pursue this certificate and develop a personalized plan of study in cooperation with an advisor at the Melikian Center.

Program Requirements:

The certificate in Russian and East European studies requires a minimum of 20 credit hours, of which at least four must be a language course and at least 12 must be upper division. A grade of "C" (2.00 on a 4.00 scale) or higher is required in all courses used toward the certificate.

Language Requirement -- 4 credit hours

Students may complete one 4-credit hour language course from BCS, PLC, ROM, or RUS, or they may complete the Albanian, Armenian, BCS, Kazakh, Macedonian, Polish, Russian, Tatar, Turkish, Ukrainian, and Uzbek courses offered by the Critical Languages Institute to fulfill the language requirement.

NOTE: Native speakers of a language must complete four credit hours in a different language to fulfill this requirement.

 SLC 494: Society and Culture in Modern Europe (3)
 SLV 440: History of Slavic Languages (SB) (3)

Students complete the minimum 12 credit upper-division requirement with at least six credit hours of electives selected from the above list. Arranged honors theses and upper-division colloquia with Melikian Center faculty affiliates may also be used toward this requirement. An additional required or area-related elective OR an additional language course must be used toward the fulfillment of the 20 credit-hour requirement.

Capstone Project -- 1 credit hours

LIA 485: REES Certificate Capstone (1)

In their junior or senior year, students will complete the 1-credit REES Certificate Capstone. This can be in the form of a reading course offered by the Melikian Center OR a project chosen in cooperation with a Melikian Center faculty affiliate. The project should represent an extended, research-based focus on some dimension of the region's languages, cultures, religions, histories, and/or politics. It may take the form of an extended research paper, honors thesis, translation project, research assistantship, or internship.

Other courses may be used with the approval of the certificate advisor.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze or examine a current or historical issue in Russia, Eastern Europe or Eurasia; utilize and evaluate sources of information on the issue; and construct an argument or produce a creative project about the issue.
- Demonstrate a high degree of competency, defined as the ability to use language in real world situations in a manner deemed appropriate by native speakers and instructors of the language, in a REES language.

Global Opportunities:

Global Experience: The Critical Languages Institute (<https://melikian.asu.edu/cli>) at Arizona State University's Melikian Center is a national training institute for less commonly taught languages. It offers summer intensive courses and study abroad programs around the world. Languages taught

include Albanian, Armenian, Bosnian/Serbian/Croatian, Hebrew, Indonesian, Kazakh, Macedonian, Persian/Farsi, Polish, Russian, Tatar, Turkish, Ukrainian and Uzbek.

Specially designed summer intensive programs on ASU campus prepare students --- even beginners --- to function competently in the language they are learning when they go abroad. Once overseas, students live the language as they participate in family life, join sports and gaming clubs, sing in choirs, participate in neighborhood projects and otherwise actively immerse themselves in the culture.

Career Opportunities: Students who complete the Russian and East European studies certificate enhance their prospects for highly competitive study abroad scholarships, including Fulbright, Boren and Critical Language Scholarship Program, and for selective graduate programs. Certificate holders may also qualify for distinct internships and entry-level government employment opportunities at agencies such as the State Department and the National Security Agency.

Sales and Marketing Essentials Certificate (BASMECERT)

Campus: Tempe

Description: Designed for undergraduate nonbusiness majors, the certificate program in sales and marketing essentials offers a set of courses that cover indispensable marketing knowledge in a wide variety of marketing application domains.

Students are required to enroll in two fundamental courses in marketing and also choose three additional courses from a larger set (services marketing, business marketing, global marketing, sports business and advertising) to tailor the certificate to their particular interests.

While some courses are offered in a face-to-face setting, the entire certificate is offered via iCourse for flexibility and convenience.

Program Requirements:

The certificate in sales and marketing essentials requires 15 credit hours. The entire certificate may be completed online. To receive the certificate, students must complete all courses with a grade of "C" (2.00 on a scale of 4.00) or better. No more than six credit hours may be shared between the certificate and other degree programs, minors, and/or other certificates.

Required Courses -- 6 credit hours

MKT 390: Essentials of Marketing (3)

MKT 391: Essentials of Selling (3)

Electives (choose three) -- 9 credit hours

MKT 392: Essentials of Business Marketing (3)

MKT 395: Essentials of Advertising and Marketing Communication (3)

MKT 396: Essentials of Services Marketing (3)

MKT 397: Essentials of Global Marketing (3)

MKT 398: Essentials of Sports Business (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: This certificate program is for nonbusiness majors only.

No more than six credit hours may be shared between the certificate and other degree programs, minors or other certificates.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Graduates who have combined the certificate in sales and marketing essentials with their major program of study may become more marketable to employers, and they often decide to pursue employment in sales or marketing.

Advanced degrees or certifications may be required for academic or clinical positions.

School Nutrition Certificate (ECNTRCERC)

Campus: Downtown Phoenix

Description: The certificate in school nutrition provides students with a strong foundation in topics such as:

- development of healthy cuisines
- eating for lifelong health
- food service purchasing
- nutrition management and leadership

This certificate is designed for individuals who are interested in qualifying to sit for the school nutrition specialist credential offered by the School Nutrition Association.

This certificate program provides detailed information on the requirements to run a school food service operation and offers students insight into the rules and regulations of the National School Lunch Program. More information can be found on the SNA website at <https://schoolnutrition.org/careers-training/certificate-credentialing/certificate-program> (<https://schoolnutrition.org/careers-training/certificate-credentialing/certificate-program/>).

Individuals must complete 900 working hours in a school nutrition or food service environment before they are eligible to sit for the national school nutrition specialist exam. More information on this credential can be found on the SNA website at <https://schoolnutrition.org/careers-training/certificate-credentialing/credentialing/> (<https://schoolnutrition.org/careers-training/certificate-credentialing/credentialing/>).

Program Requirements:

The certificate requires a total of 30 credit hours. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.

Required Courses -- 30 credit hours

ACC 382: Accounting and Financial Analysis (3)

HEP 100: Introduction to Health and Wellness (SOBE OR SB) or EXW 302: Fundamentals of Wellness or EXW 325: Fitness for Life (3)

HSC 355: Eating for Lifelong Health (SOBE OR SB) or NTR 450: Nutrition in the Life Cycle (SOBE OR SB) (3)

NTR 142: Applied Food Principles (3)

NTR 343: Food Service Purchasing (3)

NTR 344: Nutrition Management and Leadership (L) (3)

NTR 345: Development of Healthy Cuisines or NTR 341: Medical Nutrition Therapy I (3)

NTR 400: Preprofessional Preparation in Dietetics or NTR 402: Preprofessional Prep in Nutrition Careers (1)

NTR 445: Management of Food Service Systems (4)

NTR 448: Community Nutrition (L) (3)

NTR 498: Child Nutrition Seminar (1)

Notes: Child Nutrition Seminar is only offered in the spring semester.

NTR 400 should be taken by Dietetics (DPD) students only.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: GPA Requirement: 2.00

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will utilize the knowledge of nutrition, food science and communication skills to convey food and nutrition information.
- Students will apply food safety and sanitation protocols and practices to food service environments.

•Students will demonstrate application of principles of food management and systems in the provision of food and nutrition services to individuals and organizations.

Career Opportunities: Students can advance their career options with an undergraduate certificate. The certificate in school nutrition can help students gain entry-level school food service positions such as:

- child nutrition coordinator
- child nutrition manager
- food service manager
- food service worker
- school food menu planner

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Secondary Education Certificate (TESEDCERT)

Campus: Tempe, West, SYNC

Description: The secondary education certificate program prepares students who wish to teach students enrolled in grades 6-12. While students develop a strong content background, the secondary education certificate program focuses on developing the requisite teaching knowledge and abilities for successfully teaching middle or high school students. To integrate teacher preparation with the academic specialization, Mary Lou Fulton Teachers College collaborates and communicates with academic departments throughout the university. Professional experiences and residency are required components of this certificate.

Students who complete this certificate program are issued an institutional recommendation for certification in Arizona. Students who desire to teach in a public school must also pass the Arizona Educator Professional Knowledge exam (either the National Evaluation Series or the Arizona Educator Proficiency Assessments) to be certified to teach in the state of Arizona.

The secondary education undergraduate certificate is also available for students who have earned a bachelor's degree; this is considered a nondegree graduate pathway.

Format option

This program is also offered via ASU Sync (<https://education.asu.edu/degree-programs/undergraduate-programs/asu-sync-statewide>). ASU Sync enables students to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers. ASU Sync students need to reside in Arizona throughout the duration of the program. Students on I-20 visas are not permitted to complete courses via Sync and should speak with an advisor about other options to complete this program.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill (<https://www.benefits.va.gov/gibill>).

Program Requirements:

The certificate requires completion of 32 credit hours.

Required Courses -- 18 credit hours

SPE 222: Orientation to Education of Exceptional Children (CIVI OR SB & C) (3)

TEL 310: Instructional Design and Planning: Instructional Thought and Action (4)

TEL 317: Instructional Thought and Action: Learning Environment and Management (3)

TEL 318: Instructional Thought and Action: Assessment for Learning (3)

TEL 332: Disciplinary Literacy Methods (4)

TEL 471: Professional Educator Series: The Principled Educator (1)

Methods Course (choose one) -- 3 credit hours

Please consult with MLFTC academic advisor to select appropriate subject methods course.

BIO 480: Methods of Teaching Biology (3)

CHM 480: Methods of Teaching Chemistry (3)

ENG 480: Methods of Teaching English: Composition (L) (3)

ENG 482: Methods of Teaching English: Language (L) (3)

HST 480: Methods of Teaching History: Classroom Resources (3)

HST 481: Methods of Teaching History: Community Resources (3)

MTE 485: Methods of Teaching Standards-Based Middle Grades and Early Secondary Mathematics (3)

MTE 494: Advanced Methods of Teaching Mathematics in Secondary Schools (3)

PHY 480: Methods of Teaching Physics (3)

SED 403: Secondary Principles, Curriculum and Methods (3)

SED 480: Special Methods of Teaching Social Studies (3)

SED 482: Science Teaching Methods for Secondary Schools I (3)

SED 483: Science Teaching Methods for Secondary Schools II (3)

SES 480: Teaching Earth and Space Sciences (3)

SED 494: Special Topics (3)

Notes: Secondary English Language Arts Methods - Composition and Digital Literacies

SED 485: Special Methods of Teaching Social Studies: Community Resources (3)

Required Clinical Experiences -- 11 credit hours

TEL 488: Student Teaching (11)

Recommended Course -- 3 credit hours

BLE 220: Foundations of Structured English Immersion (HUAD OR L) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Students interested in pursuing the secondary education certificate should be enrolled as a degree-seeking undergraduate student. This program is also available to students in the Phoenix area or Gila Valley area (Morenci) who have already completed a bachelor's degree and want to be certified to teach. Students interested in this option apply to ASU as a nondegree-seeking graduate student.

Students interested in this program should have content knowledge in one of the following areas, demonstrated by having a minimum of 24 credit hours in coursework for the major or a passing score on the appropriate teacher certification exam: biology, business, chemistry, Chinese (Mandarin), earth and space science, economics, English, French, general science, geography, German, history, mathematics, physics, political science or Spanish.

Students should have a valid Arizona DPS Identity Verified Print fingerprint clearance card.

A GPA of 2.25 is required for progression into the final semester of student teaching. Students should contact the Mary Lou Fulton Teachers College for more information.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: The secondary education certificate prepares students for the high-demand, secure field of education.

Graduates who have combined the certificate in secondary education with their major program of study may become more marketable to employers. They often decide to pursue employment as a middle school teacher, a high school teacher, or an educator at a community-serving organization.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Security Studies Certificate (PPSCSCERT)

Campus: Downtown Phoenix

Description: The security studies certificate program provides students with the skills and credentials necessary for expanding their employment opportunities in corporate and public security.

Through the 24 credit hour curriculum, students receive extended education in transdisciplinary topics such as accounting, computer studies, information systems and crime analysis; part of the curriculum consists of advanced crime and law courses.

Upon completion of this certificate, students are well-equipped to have fluid conversations with professionals from different backgrounds about security, whether corporate or private.

Program Requirements:

Required Core Courses -- 12 credit hours

ACC 382: Accounting and Financial Analysis (3)

CIS 105: Computer Applications and Information Technology (QTRS OR CS) (3)

CRJ 201: Criminal Justice Crime Control Policies and Practices (3)

CRJ 419: Domestic Terrorism (3)

Select two courses from the following

-- 6 credit hours

CRJ 410: Criminal Procedure I: The Law of Investigations (3)

CRJ 412: International Terrorism (3)

CRJ 450: Crime Analysis (3)

CRJ 463: White Collar Crime (3)

CRJ 464: Organized Crime (3)

Select one course from the following -- 3 credit hours

CIS 235: Introduction to Information Systems, Analytics and AI in Business (3)

CPI 101: Introduction to Informatics (QTRS OR CS) (3)

CSE 100: Principles of Programming with C++ (QTRS OR CS) (3)

CSE 110: Principles of Programming (QTRS OR CS) (3)

CSE 180: Computer Literacy (QTRS OR CS) (3)

Select one course from the following -- 3 credit hours

CRJ 484: Internship (3)

LAW 480: Business Law (3)

LES 305: Business Law and Ethics for Managers (3)

A grade of "C" (2.00 on a 4.00 scale) or better is required for all coursework.

Bachelor of Science in criminology and criminal justice majors who are also pursuing the security studies certificate may not use CRJ 410, CRJ 412, CRJ 450, CRJ 463, CRJ 464, and CRJ 494 towards both their degree and certificate.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply knowledge from computer information systems and accounting to private sector security concerns.
- Demonstrate competency in how the criminal justice system, including the police, courts, correctional agencies, and the private sector respond to crime and security issues, including domestic terrorist threats.

Career Opportunities: Graduates of the security studies certificate program find a strong job market in the public and private sectors. Employment opportunities include supervisory and management positions in corporate and public security as well as in criminal justice agencies at federal, state and local levels.

Advanced degrees or certifications may be required for academic or clinical positions.

Small Business and Entrepreneurship Certificate (BASMBCERT)

Campus: Tempe

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Description: In the certificate program for small business and entrepreneurship, students learn how to launch their own business or work with small or startup operations. Course topics include small business, entrepreneurship and business plan development. Classroom work is complemented by frequent interaction with successful founders and leaders of entrepreneurial ventures.

Program Requirements:

Enrollment Requirements: The certificate in small business and entrepreneurship is available only to business majors at ASU. Students majoring in business entrepreneurship or management with an entrepreneurship focus are not eligible to pursue this certificate.

No more than six credit hours may be shared between the certificate and other degree programs, minors or other certificates.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Students can advance their career options with an undergraduate certificate. The certificate in small business and entrepreneurship enables students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Students who complete this undergraduate certificate often decide to pursue employment in management or sales. Advanced degrees or certifications may be required for academic or clinical positions.

Social Science Research Methods Certificate (LASSRMCERT)

Campus: Tempe

Description: The certificate program in social science research methods prepares students to acquire, manage and analyze a broad range of human thought and behavior data. Data can be qualitative (e.g., text, images, sound) or quantitative (e.g., direct observation, surveys, geographic information systems).

Data acquisition skills may include downloading and managing information from online sources, collecting data in surveys or making direct observations. A key feature of this program is a focus on data analysis, so students can analyze any data they collect.

All students in this program demonstrate skills in statistical analysis and selecting methods related to their interests.

Program Requirements:

The certificate requires 18 credit hours, 12 of which must be upper division. A minimum of a "C" grade (2.00 on a 4.00 scale) in each course is required.

Required Course -- 3 credit hours

GIS 469 / SOC 469: Multivariate Statistics for Social Sciences or STP 452: Multivariate Statistics (3)

Electives (choose at least four) -- 12 credit hours

Choose at least four courses for a minimum of 12 credit hours. At least six credit hours must be upper division.

ACO 100: All About Data: Design, Query, and Visualization (QTRS OR CS) (3)
ACT 435: Statistics for Risk Modeling (3)

STP 460: Categorical Data Analysis (3)
TWC 301: Fundamentals of Writing for Digital Media (L) (3)
TWC 411: Principles of Visual Communication (L) (3)

Required Capstone Course -- 3 credit hours

ASB 499: Individualized Instruction or an equivalent capstone course approved by academic advisor (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: People with the skill set needed to solve complex problems are in demand in the job market. There is a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret large amounts of data to address these challenges.

Some career opportunities include:

- acting as legal advocates in international cases
- analyzing and proposing policies
- conducting postgraduate academic research
- consulting for private and public organizations
- directing nonprofit organizations
- directing programs in the private or public sector

Social Transformation Certificate (LASOTCERT)

Campus: Tempe

Description: Students enrolled in the certificate program examine how varied communities have faced and addressed the needs of social change. They consider how to apply what they have learned in identifying just solutions to the social problems currently faced by society. The areas of focus include a variety of themes, such as:

- civil rights movements
- democracy movements
- gender equality
- gender justice
- immigration
- labor movements

Program Requirements:

The certificate requires a minimum of 15 credit hours, of which at least 12 credit hours must be completed at the upper-division level. A minimum of 12 credit hours must be completed at ASU. Courses for the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 6 credit hours

APA 220 / JUS 220 / SST 220: Introduction to Social Transformation (3)
SST 484: Internship or SST 499: Individualized Instruction (3)

Electives (choose three) -- 9 credit hours

AFR 325 / JUS 326: Music as Political Discourse: Reggae, Calypso, and Hip Hop (HU & H & G) (3)
AFR 365 / WST 364: Unruly Voices: Black Women and Cultural Narratives (HUAD OR HU & C) (3)
AFR 420: Race Ethnicity and Politics in the African Diaspora (SB & G) (3)
AFR 470: Women's International Human Rights (3)
APA 350: Inequality and Diversity in Education (CIVI OR L & C) (3)
COM 312: Communication, Conflict, and Negotiation (CIVI) (3)
COM 341: Social Contexts for Performance (3)
ENG 333: American Ethnic Literature (3)
ENG 367: Environmental Issues in Literature and Film (3)
ENG 371: Rhetoric of the Environmental Movement (3)
HST 306: Studies in United States History (3)

HST 354: Revolutionary Europe (GCSI OR SB & H) (3)
JUS 320: Community and Social Justice (SB & C) (3)
JUS 321: Wealth Distribution and Poverty (SOBE OR SB & C) (3)
JUS 350: Immigration and Justice (SOBE OR SB & C) (3)
JUS 375: Justice and the Mass Media (SOBE OR SB) (3)
JUS 430: Social Protest, Conflict, and Change (CIVI OR (L or SB) & C) (3)
JUS 444: Environment and Justice (L & C) (3)
JUS 460: Feminism and Justice (C) (3)
JUS 497: Digital Activism (3)
NLM 410: Social Entrepreneurship (3)
PAF 305: Urban Governance (3)
REL 379: Religion, Nationalism, and Ethnic Conflict (GCSI OR HU & G) (3)
SOC 352: Social Change (CIVI OR SB & G & H) (3)
TCL 340: Chicana/o and Latina/o Politics and Policy (L & C) (3)
TCL 341: Latinas/os and the City (C) (3)

WST 377: History of American Feminist Thought (HUAD OR H & C) (3)
WST 378: Global Feminist Theory (GCSI OR L & G) (3)
WST 380: Race, Gender, and Class (SOBE OR SB & C) (3)

Courses in addition to those in the list above may be used with the approval of an academic advisor in the School of Social Transformation. Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Employ and critically assess core theory, concepts, and methods for the study of social change issues and examining solutions to social problems.
- Apply the foundations and principles of social change to the specific domestic or international issues through community engagement and research.

Career Opportunities: Graduates who have combined the certificate in social transformation with their major program of study may become more marketable to employers. They often decide to pursue employment in law, education, public service, and human welfare and social work.

Advanced degrees or certifications may be required for academic or clinical positions.

Socio-Legal Studies Certificate (LASLSTCERT)

Campus: Tempe

Description: The distinction between law on the books and law in action, which refers to how people experience law in their everyday lives, is a cornerstone of the certificate program.

The undergraduate certificate program in socio-legal studies offers a model for educating and training students in the study of legal ideas, institutions and practices from the perspectives of the social sciences, law and the humanities.

Program Requirements:

Students must complete 15 credit hours with at least 12 credit hours completed at the upper-division level. A minimum grade of "C" (2.00 on a 4.00 scale) is required for a course to count toward the certificate.

Core Theory and Foundation Courses (choose two) -- 6 credit hours

JUS 303: Justice Theory (CIVI OR L) (3)

JUS 308: Courts and Society (3)

JUS 360: Law and Social Control (SOBE OR SB) or CRJ 350: Law and Social Control (CIVI OR SB) (3)

JUS 410: Punishment: Logic and Approach (3)

JUS 463: Discretionary Justice (SB) or CRJ 470: Discretionary Justice (SOBE OR L or SB) (3)

JUS 465: Death Penalty in the United States (L) (3)

PHI 307: Philosophy of Law (AMIT OR HU) (3)

PHI 336: Social and Political Philosophy (HU) (3)

PHI 408: Feminist Ethics (HUAD OR HU) (3)

POS 315: The Supreme Court (SB) (3)

POS 465: International Organization and Law (GCSI OR SB & G) (3)

POS 471: Constitutional Law I (AMIT OR SB) (3)

POS 472: Constitutional Law II (SB) (3)

Interdisciplinary Elective Component (choose three) -- 9 credit hours

Interdisciplinary electives must be taken from at least two different academic disciplines. Any course listed below may count towards this requirement. Other courses can be approved by the certificate program director.

AFR 215: Bob Marley and Reggae: Lyrics of Resistance (GCSI OR G) (3)

AFR 301 / JUS 300: Race and Racism in Africa/African Diaspora (SB & G) (3)

AFR 304 / JUS 304: Islands of Globalization: Caribbean Politics and Political Economy (SB & G & H) (3)

AFR 420 / JUS 421: Race Ethnicity and Politics in the African Diaspora (SB & G) (3)

AFR 428 / JUS 428 / APA 428 / SST 428: Critical Race Theory (3)

CRJ 305: Gender, Crime, and Criminal Justice (SOBE OR C) (3)

CRJ 306: Race, Ethnicity, Crime, and Criminal Justice (CIVI OR C) (3)

JUS 329: Domestic Violence (SOBE OR SB) (3)

JUS 350: Immigration and Justice (SOBE OR SB & C) (3)

JUS 374: The Holocaust, Genocide, and Human Rights (3)

JUS 422 / WST 422: Women, Law, and Social Control (3)

JUS 425: Race, Gender, and Justice (CIVI OR SB) (3)

JUS 430: Social Protest, Conflict, and Change (CIVI OR (L or SB) & C) (3)

JUS 432: Racial Justice (CIVI OR L) (3)

JUS 467: Terrorism, War, and Justice (CIVI OR SB) (3)

JUS 469: Political Deviance and the Law ((L or SB) & C) (3)

JUS 470: Alternative Dispute Resolution (L & C) (3)

JUS 484: Internship (3)

JUS 498: Pro-Seminar (3)

POS 370: Law and Society (CIVI OR SB) (3)

POS 470: Law and the Political Order (SB) (3)

PSY 468: Psychology and Law (3)

SOC 340: Social Deviance (SB) (3)

SOC 445: Globalization, Development, and Resistance (SB & G) (3)

TCL 335 / HST 323 / AFR 335: Historical Studies in Race, Crime, and the Law (3)

TCL 340: Chicana/o and Latina/o Politics and Policy (L & C) (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Students who have attained sophomore standing (30 credit hours) in any undergraduate degree program at ASU are eligible for admission to the certificate program for socio-legal studies.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Critically assess core socio-legal theory, concepts and methods.
- Demonstrate the ability to apply the fundamental principles of socio-legal studies to specific domestic or international issues through direct community engagement or research.

Career Opportunities: Graduates who have combined the certificate in socio-legal studies with their major program of study may be more marketable to employers. They often decide to pursue employment in law, education, public service, and human welfare and social work. Advanced degrees or certifications may be required for academic or clinical positions.

Spanish for the Professions Certificate (LSSPPRFCER)

Campus: Downtown Phoenix

Description: This 18-credit-hour certificate program helps students hone Spanish communication skills and gain the cultural knowledge that can help them serve the needs of the growing U.S. Latino community.

The combination of professionally focused courses and practical experience in this program enhances students' professional preparation for employment in positions that require advanced proficiency in Spanish and an in-depth understanding of U.S. Latino culture.

Program Requirements:

The Spanish for the professions certificate requires a total of 18 credit hours. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses. Pass/Fail courses cannot be used.

Required Courses -- 6 credit hours

SPA 404: Spanish in U. S. Professional Communities ((L or HU) & C) (3)

SPA 405: Latino Cultural Perspectives for the Professions (HUAD OR (L or HU) & C & G) (3)

Electives (choose one Focus Areas below) -- 12 credit hours

Upper Division Focus Area (12)

Students will select twelve upper-division credit hours from one of the three Focus Areas: Spanish for the Professions, Professional Spanish and Latinx Cultures for Social Care and Public Work, or Professional Spanish and Latinx Cultures for Heritage Speakers.

Spanish for the Professions

Required:

SPA 317: Spanish for the Professions (G) (3)

SPA 402: Written Communication for the Professions (C) or SPA 484: Internship (3)

Notes: Before enrolling in SPA 484, students should complete a minimum of 12 credit hours in the certificate program and seek instructor approval by emailing CISA@asu.edu.

Choose two more courses:

COM 362: Urban Communication: Reinventing the Latinx City (3)

COM 363: Latinxs and the Media (SOBE OR C) (3)

SPA 318: Advanced Spanish for Health Care Professionals (3)

SPA 401: Spanish Oral Communication for the Professions (3)

SPA 402: Written Communication for the Professions (C) (3)

SPA 403: Spanish Grammar and Stylistics for the Professions (3)

SPA 406: Introduction to Spanish/English Medical Interpretation (3)

SPA 484: Internship (3)

Notes: Before enrolling in SPA 484, students should complete a minimum of 12 credit hours in the certificate program and seek instructor approval by emailing CISA@asu.edu.

SPA 494: Introduction to Spanish Translation for the Profes (3)

Professional Spanish and Latinx Cultures for Social Care and Public Work

Required:

SPA 401: Spanish Oral Communication for the Professions (3)

SPA 494: Spanish for Social Care: Latinx Ameri Pop Cultures (3)

Choose two more courses:

COM 362: Urban Communication: Reinventing the Latinx City (3)

COM 363: Latinxs and the Media (SOBE OR C) (3)

SPA 318: Advanced Spanish for Health Care Professionals (3)

SPA 402: Written Communication for the Professions (C) (3)

SPA 403: Spanish Grammar and Stylistics for the Professions (3)

SPA 406: Introduction to Spanish/English Medical Interpretation (3)
SPA 484: Internship (3)
SPA 494: Community Interpretation (3)
SPA 494: Introduction to Spanish Translation for the Profes (3)
SPA 494: Spanish for Mental Health Practiti and Ally fields (3)

Professional Spanish and Latinx Cultures for Heritage Speakers

Required:

SPA 401: Spanish Oral Communication for the Professions (3)
SPA 402: Written Communication for the Professions (C) (3)

Choose two more courses:

COM 362: Urban Communication: Reinventing the Latinx City (3)
COM 363: Latinxs and the Media (SOBE OR C) (3)
SPA 318: Advanced Spanish for Health Care Professionals (3)
SPA 403: Spanish Grammar and Stylistics for the Professions (3)
SPA 406: Introduction to Spanish/English Medical Interpretation (3)
SPA 484: Internship (3)
SPA 494: Community Interpretation (3)
SPA 494: Introduction to Spanish Translation for the Profes (3)
SPA 494: Spanish for Mental Health Practiti and Ally fields (3)
SPA 494: Spanish for Social Care: Latinx Ameri Pop Cultures (3)

For additional upper-division electives, students should consult their academic advisor.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: The prerequisites for this certificate are completion of SPA 314 Spanish Conversation and Composition, or SPA 316 Advanced Spanish II for Bilinguals, or permission of instructor following the successful completion of the Spanish for the Professions Placement Exam given by the College of Integrative Sciences and Arts. Students should contact the college to schedule.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Students can advance their career options with an undergraduate certificate. The certificate in Spanish for the professions helps students become more marketable to employers by adding this specialization to complement their major program of study.

Graduates can serve in professional settings such as health and legal services, journalism, business, social work and criminology, among other fields.

Students who complete this undergraduate certificate often decide to pursue employment in a variety of fields (<https://cisa.asu.edu/spanish-and-spanish-professions>) including:

- business
- community interpretation
- education
- engineering and urban planning
- government
- health care services
- legal and justice systems
- social work
- tourism

Special Events Management Certificate (HSRTMUERT)

Campus: Downtown Phoenix

Description: The special events management certificate is a career enhancement program offered to students currently pursuing a bachelor's degree in any major at ASU or nondegree-seeking students who already have a degree from an accredited university in any major.

This program is designed to give students hands-on event planning experience, behind-the-scenes understanding of how modern-day events are managed, and confidence in planning various components of events, including food and beverage, operations, safety and security, production, technology, protocol, revenue generation and more.

Program Requirements:

The certificate requires 18 credit hours. Courses taken as part of a university major may count toward that degree and the certificate. To earn the certificate, students must complete all coursework in the certificate with a minimum grade of "C" (2.00 on a 4.00 scale) or better. An application to the program is required.

Required Core Courses -- 18 credit hours

PRM 145: Special Events Management (3)

Notes: Must take this course first, as prerequisite for the remaining required courses.

PRM 350: Tourism, Recreation and Sports Marketing (3)

PRM 422: Special Event Technology and Production (3)

Notes: Offered spring semester only

PRM 423: Special Event Operations (3)

Notes: Offered fall semester only

PRM 427: Where's the Money: Special Event Revenue Generation (3)

Notes: PRM 427 offered fall semester only.

PRM 487: Advanced Special Events Management (3)

Notes: Offered spring semester only

Standards

1. 18 hours of graded classroom coursework (no internship, no independent study)
2. minimum of a "C" (2.00 on a 4.00 scale) grade required for all courses in the certificate
3. minimum GPA of 2.00 for those pursuing the certificate
4. should be a junior to take 400-level courses

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply programmatic principles relevant to the special event industry to a variety of event-related scenarios.
- Plan an event using current practices & concepts.

Career Opportunities: This certificate offers countless career opportunities such as organizing and managing festivals, trade shows, meetings, concerts and sporting events. Students can work in the area of operations, marketing, sales, risk management, accessibility, sustainability and more.

Speech-Language Pathology Assistant Certificate (LASLPACERT)

Campus: Tempe

Description: This certificate program prepares students with the educational experience needed to become speech-language pathology assistants with a curriculum focused on:

- clinical methods and treatment
- developmental speech and language disorders
- implementation of treatment plans
- professional issues and ethical considerations

This program is a great option for students who are majoring or minoring in speech and hearing science, individuals who have already completed a bachelor's degree in speech and hearing, and those who are pursuing the postbaccalaureate communication sciences and disorders certificate.

This certificate program meets the American Speech-Language-Hearing Association's requirements for speech-language pathology assistant certification and Arizona's requirements for speech-language pathology assistant licensure.

Program Requirements:

The certificate program includes 15 credit hours of coursework and a clinical internship completed in conjunction with the bachelor's degree in speech and hearing science.

Twelve of the 15 credit hours for the certificate must be completed at ASU. A minimum grade of "B-" (2.70 on a 4.00 scale) is required for each course.

Required Courses -- 15 credit hours

SHS 402: Clinical Methods and Treatment of Communication Disorders (3)

SHS 470: Developmental Speech and Language Disorders or SHS 485: Acquired Speech and Language Disorders or SHS 565: Speech and Language Acquisition (3)

SHS 473: Implementation of Treatment Plans for Individuals with Communication Disorders (3)

Notes: SHS 473 only offered in fall.

SHS 483: Professional Issues and Ethical Considerations for the SLPA (3)

Notes: SHS 483 only offered in spring.

SHS 484: SLPA Certificate (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

SHS 402 should be completed prior to the SHS 484: SLPA Certificate internship course.

SHS 484: SLPA Certificate internship course should be completed in the final semester.

Enrollment Requirements: Current undergraduate students who have completed at least nine credit hours in speech and hearing science coursework with an overall minimum GPA of 2.75 in the major and "B-" grade or higher in those courses are eligible to apply. Applications are also accepted from students who have completed a bachelor's degree in speech and hearing science or communication disorders from a program accredited by the American Speech-Language-Hearing Association with a major GPA of at least 2.75 (scale is 4.00 = "A").

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Students interested in this certificate must submit a supplemental application (<https://chs.asu.edu/slpa-application>).

Application deadlines:

Fall - April 1

Spring - October 1

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will implement treatment strategies appropriate to client age and disorder in speech-language therapy sessions.
- Students will apply professional and ethical principles in the practice of speech-language pathology for treatment of individuals with communication disorders.
- Students will understand clinical activities by observing and interviewing speech-language pathologists or audiologists.

Career Opportunities: Graduates with this certificate are prepared to work with people with communication disorders under the direction and supervision of a speech-language pathologist in schools, clinics and rehabilitation agencies that provide speech and language services.

Coursework and clinical training completed as part of the program also enhance preparation for graduate programs in speech and communication

disorders.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Sports Business Certificate (BASPBCERT)

Campus: Tempe

Description: The certificate in sports business has an innovative curriculum designed for students seeking a BS degree in the W. P. Carey School of Business who are interested in deepening their knowledge in the sports business domain.

Particular attention is given to providing a foundation in marketing and sales as it is applied to the sports business discipline. The certificate program prepares students for success by complementing coursework from a degree program with specialized business knowledge in the sports business area of interest.

Program Requirements:

The sports business certificate requires 15 credit hours to complete. To earn the certificate, students must complete all courses with a grade of "C" (2.00 on a scale of 4.00) or better.

No more than six credit hours may be shared between the certificate and other degree programs, minors, and/or other certificates.

Required Course -- 3 credit hours

MKT 311: Sports Business (3)

Choose at least two of the following courses: -- 6 credit hours

MKT 441: Sports Revenue Generation (3)

MKT 451: Sports Business Analytics (3)

MKT 484: Internship or MKT 493: Honors Thesis (L) (3)

Choose no more than two of the following courses: -- 6 credit hours

MKT 370: Professional Sales and Relationship Management (3)

MKT 410: Sales Management (3)

MKT 431: Sports Experiences (3)

MKT 435: Entrepreneurial Marketing (3)

MKT 442: Services Marketing Strategy (3)

MKT 465: Projects in Sports Business (3)

MKT 484: Internship or MKT 493: Honors Thesis (L) (3)

MKT 494: Special Topics (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Prerequisites: This program is available to W. P. Carey Bachelor of Science degree program students with a 2.50 cumulative ASU GPA and 56 earned credit hours. Students must have completed MKT 300, MKT 302 or MKT 303 with a grade of "C" (2.00 on a 4.00 scale) or better.

No more than six credit hours may be shared between the certificate and other degree programs, minors or other certificates.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Students who combine the certificate in sports business with their major program of study may become more marketable to employers.

Students who complete this undergraduate certificate often decide to pursue employment in marketing, sales or management. Advanced degrees or certifications may be required for academic or clinical positions.

Sports, Cultures and Ethics Certificate (LASPCECERT)

Campus: Tempe

Description: The certificate program in sports, cultures and ethics is a cross-disciplinary inquiry into the social, ethical and cultural influence of sports in society.

Courses explore the significance of sports in modern history, including relationships between sports and identity, community, politics, media, business and education. Students analyze the ethical and philosophical issues of participating in and watching sports. Students also explore how playing fields become places of connection and conflict, expanding opportunities or reinforcing inequalities based on race, gender, sexuality, religion and socioeconomic class.

Students who complete the program have knowledge and understanding of the multifaceted nature of sports and its wide-ranging impact on cultures and lives.

Program Requirements:

The certificate in sports, cultures and ethics requires a minimum of 18 credit hours, of which at least 12 must be upper division. At least six upper-division hours must be in courses offered by The College of Liberal Arts and Sciences. All courses for the certificate must be passed with a minimum grade of "C" (2.00 on a 4.00 scale).

Required Courses -- 6 credit hours

AFR 375: Race, Gender and Sport (SOBE OR SB & C) or HST 377: Sports in United States History (HUAD OR (HU or SB) & H) (3)
PHI 370: Sports Ethics (HUAD OR HU) (3)

Electives (choose four) -- 12 credit hours

At least six credit hours must be upper division. AFR 375 or HST 377 may be used as an elective if not used as a required sports culture course.

AFR 375: Race, Gender and Sport (SOBE OR SB & C) (3)
ASB 252: Sports and Culture (GCSI OR SB & G) (3)
CEL 394: Sports and Leadership (3)
COM 394 / SBS 394 / SOC 394: Soccer: The Global Game (3)
COM 477: Sport, Culture, and Discourses (3)
CSM 335 / PRM 335: Sports and Recreation for Youth Development (3)
FMS 360: Sports Media (3)
HST 214 / SLC 214: The World's Game: History and Culture of Soccer (G) (3)
HST 302: History of the Olympic Movement (3)
HST 302: The Mexico City 1968 Olympics in Global Context (3)
HST 306: History of Baseball (3)
HST 377: Sports in United States History (HUAD OR (HU or SB) & H) (3)
HST 379: History of College Sports (3)
HST 494 / MCO 494 / TGM 494: Sport and Globalization (3)
NEW 300: International Cities Barcelona (3)
PHI 371: Philosophy of Sport (HU) (3)
PHI 394: The Olympics and Philosophy (3)
POS 294: Sports, Politics, & the Law (3)
REL 383 / ASB 383: Religion and Sports (HUAD OR HU) (3)
SGS 394: The Geopolitics of Sport (3)

Additional courses related to sports, cultures and ethics that are not on the elective list may be used with the approval of the certificate directors. Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an

undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Evaluate the social, cultural, political, and economic contexts relevant to ethical and justice issues in sports
- Interpretation of how playing fields become places of connection and conflict, expanding opportunities or reinforcing inequalities based on race, gender, sexuality, religion and socioeconomic class

Career Opportunities: Students who combine the certificate in sports, cultures and ethics with their major program of study will become more marketable to employers.

Students who complete this undergraduate certificate often decide to pursue employment in sports business, sports journalism, sports law, education, sports governance and administration, coaching or the sports sciences. Advanced degrees or certifications may be required for academic or clinical positions.

Sustainable Food Systems Certificate (SUFSUCERT)

Campus: Tempe

Description: Food systems are particularly important for human societies to sustain; however, these systems are particularly vulnerable to multiple threats. Many students from a wide variety of disciplines are interested in food systems, especially as food and sustainability become increasingly relevant issues to employers in fields across the public and private sectors.

This certificate program in sustainable food systems allows students to take advantage of the diversity of courses offered that address challenges to food system sustainability. It encourages students to cover a breadth of topics and perspectives related to food system issues while providing the opportunity to focus on particular skills and approaches suitable for their career paths, which can range from agriculture to marketing and retail to policy or ethics. This program offers an innovative and exciting approach to the challenges of food system sustainability.

Due to the transdisciplinary nature of the certificate program, many courses may be found across ASU's campuses, allowing students to choose both the focus area and location of study that best fit their needs.

The knowledge, competencies and skills students possess upon completion of this certificate include the ability to identify food system drivers, activities, actors and outcomes at different spatial scales and the capacity to assess the primary social, economic and environmental drivers and outcomes associated with food system sustainability challenges.

Students also acquire the ability to apply the following analytical skills or approaches to the development of food system sustainability solutions: cultural and social analysis, alternative agricultural design and practice, analysis of biophysical processes and environmental services, urban planning and policy, marketing and entrepreneurial development, sustainability assessment, and consumer preference and behavior.

Program Requirements:

The certificate in sustainable food systems consists of 15 credit hours, at least 12 of which must be upper division. All courses must be completed with a minimum grade of "C" (2.00 on a 4.00 scale), and an overall average GPA of 2.50 or higher is required for courses completed for the certificate.

Required Course -- 3 credit hours

SFS 215: Fundamentals of Sustainable Food Systems (SUST OR L) or SFS 216: The Sustainable Plate (SUST) (3)

Elective Courses -- 12 credit hours

Students must choose four tier electives. A minimum of two courses must be selected from Tier 1 Core Electives, and no more than two courses from the same subject code across both Tiers 1 and 2 should be selected. (12)

ENG 367 and PUP 498 must be taken with topics directly related to sustainable food systems.

Tier 1 - Core Electives (choose at least two)

ABS 319: Food, Health and Human Biology (3)

ABS 369: Hydroponic Food Crop Production (3)

AGB 302: International Management and Agribusiness (GCSI OR G) (3)
AGB 414: Food and Agribusiness Policy Issues (L) (3)
AGB 456: Food Product Innovation and Development (3)
ASB 300: Food and Culture (SOBE OR (L or SB) & C) (3)
BIO 429: Human Impacts on Ecosystem Functioning (3)
ITA 350: Food and Culture: The Mediterranean Lifestyle in Italy (3)
NTR 353: The Western Diet (3)
PLB 302: Plants and Civilization (3)
PUP 498: Urban Food Systems (3)
SOS 327: Sustainable Food and Farms (3)

Tier 2 - Electives

ABS 319: Food, Health and Human Biology (3)
ABS 368: Plant Propagation (3)
ABS 369: Hydroponic Food Crop Production (3)
ABS 464: Desert Horticulture (3)
AGB 302: International Management and Agribusiness (GCSI OR G) (3)
AGB 321: Agribusiness Sales and Marketing (3)
AGB 414: Food and Agribusiness Policy Issues (L) (3)
AGB 420: Food Advertising and Promotion (3)
AGB 452: Global Food and Agricultural Trade (3)
AGB 456: Food Product Innovation and Development (3)
ASB 300: Food and Culture (SOBE OR (L or SB) & C) (3)
ASB 305: Poverty and Global Health (CIVI OR (L or SB) & C) (3)
ASB 463 / TCL 443: Political Ecology of the Border (3)
BIO 311: Biology and Society (3)
BIO 324: Environmental Ethics (SUST OR HU) (3)
BIO 418: Soil Ecology (3)
BIO 434: People and Nature: Ecosystem Services (3)
ENG 367: Environmental Issues in Literature and Film (3)
GPH 314: Global Change (SUST OR HU & G) (3)
ITA 350: Food and Culture: The Mediterranean Lifestyle in Italy (3)
NTR 348: Cultural Aspects of Food (GCSI OR SB & C & G) (3)
NTR 353: The Western Diet (3)
NTR 448: Community Nutrition (L) (3)
PLB 302: Plants and Civilization (3)
PUP 498: Urban Food Systems (3)
SOS 322: International Development and Sustainability (3)
SOS 327: Sustainable Food and Farms (3)
SOS 370 / ASB 370: Ethics of Eating (SUST OR L or SB) (3)
SOS 374 / GLG 327: Earth's Critical Zone (3)

Electives are not limited to courses from this list only. Other courses on food systems may be offered (special topics, etc.). Students may request to have those approved as an elective for this certificate by submitting a College of Global Futures Standards Petition.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Advising is not required, but students are encouraged to speak with an advisor by scheduling an appointment through the College of Global Futures advising website (<https://collegeofglobalfutures.asu.edu/student-life/advising/undergraduate-advising/>).

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, sustainable food systems students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Students also may participate in a School of Sustainability study abroad program. More information is available on the College of Global Futures study abroad website (<https://collegeofglobalfutures.asu.edu/student-life/study-abroad/>).

Career Opportunities: A certificate in sustainable food systems provides a distinct and valuable skill set that transcends traditional career boundaries. Whether pursuing paths in business, technology, science, education or government, the knowledge of sustainable food systems enriches students' ability to drive positive change.

This certificate brings a fresh perspective to various sectors, including agriculture, consumer goods, public health and education. It equips individuals to address pressing issues like environmental sustainability, farm-to-table practices, nutrition and urban agriculture. Graduates stand out in a competitive job market, offering versatile skills that can be applied across diverse career landscapes.

By integrating sustainable food systems principles into their education and future endeavors, students become catalysts for transformative change, shaping a healthier, more sustainable future for all. This certificate not only broadens their career horizons but also empowers them to make a lasting impact in their chosen fields.

Symbolic, Cognitive and Linguistic Systems Certificate (LAPHICERT)

Campus: Tempe

Description: The certificate program in symbolic, cognitive and linguistic systems takes a transdisciplinary approach to the symbolic representation and processing of information in human cognition; natural languages; and formal mathematical, logical and computing systems.

Coursework covers three areas: human cognition and theories of mind, philosophy of language and linguistics, and computing and logic.

Program Requirements:

The certificate requires 18 credit hours, of which at least 12 must be upper-division. At least six upper-division credit hours must be taken through The College of Liberal Arts and Sciences. A grade of "C" (2.00 on a 4.00 scale) or higher is required for all courses used toward the certificate.

Required Course (choose one) -- 3 credit hours

- CSE 110: Principles of Programming (QTRS OR CS) (3)
- CSE 205: Object-Oriented Programming and Data Structures (QTRS OR CS) (3)
- CSE 240: Introduction to Programming Languages (3)

Upper Division Philosophy Course (choose one) -- 3 credit hours

- PHI 313: Probability, Evidence, and Decision (3)
- PHI 319: Philosophy, Computing and Artificial Intelligence (QTRS OR CS) (3)
- PHI 330: Theory of Knowledge (HUAD OR HU) (3)
- PHI 331: Philosophy of Language (HU) (3)
- PHI 333: Symbolic Logic (3)
- PHI 334: Philosophy of Mind (HUAD OR HU) (3)
- PHI 401: Rationalism (3)
- PHI 402: Empiricism (3)
- PHI 413: Advanced Symbolic Logic (3)

Electives -- 12 credit hours

- Elective (3)
- Upper Division Electives (9)

Students must complete at least one course each from the cognitive, linguistic and symbolic systems course lists below to earn the certificate. The required CSE course above also satisfies the requirement for a symbolic systems course, but students must cover the other two categories within the electives and upper division PHI course requirement. Once all three categories are satisfied, students may choose any courses from the cognitive, linguistic and symbolic systems lists for the remaining electives.

Cognitive Systems

- PHI 313: Probability, Evidence, and Decision (3)
- PHI 330: Theory of Knowledge (HUAD OR HU) (3)
- PHI 334: Philosophy of Mind (HUAD OR HU) (3)
- PHI 401: Rationalism (3)
- PHI 402: Empiricism (3)
- PSY 323: Sensation and Perception (3)

PSY 324: Memory and Cognition (3)
PSY 434: Cognitive Psychology (L) (3)
PSY 437: Human Factors (L) (3)

Linguistic Systems

ENG 213: Introduction to the Study of Language (SOBE OR SB) (3)
ENG 312: English in its Social Setting (SOBE OR L or HU or SB) (3)
ENG 313: Phonology and Morphology (3)
ENG 314: Modern Grammar (3)
ENG 413: History of English Language (HU) (3)
PHI 331: Philosophy of Language (HU) (3)

Symbolic Systems

CSE 110: Principles of Programming (QTRS OR CS) (3)
CSE 205: Object-Oriented Programming and Data Structures (QTRS OR CS) (3)
CSE 240: Introduction to Programming Languages (3)
CSE 471: Introduction to Artificial Intelligence (3)
MAT 243: Discrete Mathematical Structures (3)
MAT 300: Mathematical Structures (L) (3)
MAT 420: Scientific Computing (3)
PHI 319: Philosophy, Computing and Artificial Intelligence (QTRS OR CS) (3)
PHI 333: Symbolic Logic (3)
PHI 413: Advanced Symbolic Logic (3)

With the approval of the director of undergraduate studies, students may substitute one course not on the approved course lists. Please obtain approval prior to enrolling in any course not on the approved list.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Evaluate arguments for formal validity and construct formal proofs. Students will be able to capture the logical form of English sentences.
- Explain and apply key philosophical concepts or theories in the study of human cognition, including techniques and challenges for modeling human cognition using formal or programming languages.

Career Opportunities: Students become more marketable to employers and advance their career options when they have complemented their major with this specialization in symbolic, cognitive and linguistic systems, which develops their analytical and reasoning skills, particularly reasoning with computer programming languages and other symbolic systems.

Students who complete this undergraduate certificate often pursue employment in business, engineering, information systems or psychology. Advanced degrees or certifications may be required for academic or clinical positions.

Teaching English to Speakers of Other Languages (TESOL) Certificate (LATESLCERT)

Campus: Tempe

Description: The teaching English to speakers of other languages certificate program consists of key courses that provide students with the practical skills and confidence necessary to teach English as a second or foreign language anywhere in the world. This certificate can be added to any degree program and includes a supervised internship to gain valuable hands-on experience before graduation.

This certificate does not certify students to teach in Arizona public schools (K-12).

Program Requirements:

The certificate program in teaching English as a second language requires 18 credit hours, of which 12 must be completed at the upper-division level. At least six credit hours must be completed from courses offered by The College of Liberal Arts and Sciences. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Core -- 6 credit hours

ENG 213: Introduction to the Study of Language (SOBE OR SB) (3)

ENG 484: TESOL Internship (3)

Theory/Methods -- 6 credit hours

ENG 404: Studies in Second Language Acquisition (6)

Notes: ENG 404 is repeatable for credit and must be completed twice.

Linguistics Electives -- 6 credit hours

Choose one course from each group below.

Group 1:

ENG 403: Semantics (3)

ENG 404: Studies in Second Language Acquisition (3)

ENG 414: Studies in Linguistics (3)

Group 2:

ENG 214: English Grammar and Usage (3)

ENG 312: English in its Social Setting (SOBE OR L or HU or SB) (3)

ENG 313: Phonology and Morphology (3)

ENG 314: Modern Grammar (3)

ENG 413: History of English Language (HU) (3)

Course substitutions may be used with approval of an academic advisor in the Department of English before enrollment.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Requests to declare this certificate are reviewed by the academic advisor in the academic unit offering the certificate. Students may be contacted to discuss the certificate prior to the addition of the certificate to the student record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Language expertise (linguistic knowledge): Graduates of the undergraduate certificate program in TESOL will be able to recall and explain structural and functional features of human language.
- Language learning and use expertise (L2-specific knowledge): Graduates of the undergraduate certificate program in TESOL will be able to recall and explain theories, research and key concepts in first and second language use and learning.
- Teaching expertise (pedagogical knowledge): Graduates of the undergraduate certificate program in TESOL will be able to recall and explain key concepts, theories and methods in second language (L2) teaching and will be able to develop teaching and learning materials.
- Real world expertise (context-specific knowledge and application): Graduates of the undergraduate certificate program in TESOL will be able to apply theories and key concepts in (a) language studies, (b) L2 use and learning, and (c) L2 teaching to real-world contexts (e.g., language teaching, materials development, or related professional practices).

Career Opportunities: The TESOL certificate is useful for students interested in careers in this increasingly important field. It also serves as excellent preparation for students wishing to pursue graduate studies in the Master of Teaching English to Speakers of Other Languages program at ASU or in a similar program at another institution.

Students who combine this TESOL certificate with their major program of study may become more marketable to employers.

Students who complete this undergraduate certificate often decide to pursue employment in teaching abroad. Advanced degrees or certifications may be required for academic or clinical positions.

Transformation and Change Certificate (ASTNCHCERT)

Campus: West

Description: The certificate program in transformation and change provides students with a broad but integrated intellectual experience that gives tangible meaning to the concept of transformation.

Coursework is focused on a thematic approach, and students work through the lenses of several disciplinary and interdisciplinary orientations to understand the dynamics of transformation. This gives an elevated measure of depth and breadth to their overall educational experience.

Program Requirements:

The certificate in transformation and change consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the New College of Interdisciplinary Arts and Sciences. All courses used to satisfy requirements for the certificate must be passed with a "C" (2.00) or better.

Frameworks (choose one) -- 3 credit hours

BIO 100: The Living World (SCIT OR SQ) (4)

BIO 113: Dinosaurs (SCIT OR SG) (4)

DST 101: Introduction to Disability Studies (CIVI OR C) (3)

PHI 103: Principles of Sound Reasoning (QTRS OR L or HU) (3)

PSY 101: Introduction to Psychology (SOBE OR SB) (3)

Focus Area Electives

Complete one course from each of the focus areas (Inquiry, Collaboration, Innovation, Engagement). The course selected to complete the framework requirement does not also apply to the Focus Area Electives.

Inquiry (choose one course) -- 3 credit hours

BIO 113: Dinosaurs (SCIT OR SG) (4)

BIO 181: General Biology I (SCIT OR SQ) (4)

COM 225: Public Speaking (CIVI OR L) (3)

CRJ 100: Introduction to Criminal Justice (SOBE OR SB) (3)

ENG 413: History of English Language (HU) (3)

HST 439: Athenian Democracy (CIVI OR H) (3)

PHI 439: Philosophy of Love and Sex (HU) (3)

POS 160: Global Politics (GCSI OR SB & G) (3)

POS 314: The American Presidency (AMIT OR SB) (3)

PSY 101: Introduction to Psychology (SOBE OR SB) (3)

WST 333: Critical Perspectives on Sexuality (SOBE OR SB) (3)

Collaboration (choose one course) -- 3 credit hours

AMS 276 / WST 276: U.S. Women's Movements (CIVI OR H & C) (3)

ASB 339 / POS 339 / SBS 339 / SOC 339: Grassroots Social Movements (SB) (3)

COM 230: Small Group Communication (SOBE OR SB) (3)

COM 263: Elements of Intercultural Communication (GCSI OR SB & C & G) (3)

IAP 222: Games and Ethics (HUAD OR HU) (3)

IAP 301: Energetic Systems of Art: Collaboration in the Arts (HUAD OR HU) (3)

IAP 394: Print and the Protest (3)

JHR 100: Introduction to Social Justice and Human Rights (CIVI OR SB & G) (3)

JHR 305: Theory and Practice of Social Justice and Human Rights (CIVI OR SB & G) (3)

PAF 311: Leadership and Change (SOBE OR SB) (3)

REL 390 / WST 390: Women, Gender and Religion (GCSI OR HU & G) (3)

TEL 203: Collaborating, Planning and Implementing Instruction in Diverse Contexts (3)

Innovation (choose one course) -- 3 credit hours

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Students can advance or broaden their career options with a certificate in transformation and change. They leave the program possessing attributes employers seek: creativity, versatility, a well-rounded knowledge base, robust critical thinking skills, strong oral and written communication skills, and the ability to devise creative approaches to problem-solving. All are considered major assets in the modern workplace. With this academic and intellectual foundation and their transferrable skills, they have the tools that will enable them to pursue graduate education or advance in a wide array of careers in fields like education, human services, government, marketing, consulting, social work and publishing.

Translation Certificate (LASPACERT)

Campus: Tempe

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Description: The translation certificate program focuses on Spanish and English.

The curriculum provides competence in translation, awareness of the different approaches, an introduction into the main professional areas, and an overview of the requirements for further certification in the desired area or areas of translation expertise: legal, medical, business and technical.

Program Requirements:

Enrollment Requirements: Since entry into the field of professional translation is gained through work, cultural experience and examination, the entrance requirements to this certificate program include a written proficiency examination in both the source and receptor languages at the level of completion of an advanced composition course in Spanish (SPA 412) and English (ENG 301).

Extensive work experience using Spanish and English or demonstrated bilingual writing competence in English and Spanish is also required.

Requests to declare this certificate are reviewed by the academic advisor in the academic unit offering the certificate. Students may be contacted to discuss the certificate prior to the addition of the certificate to the student record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Students who combine the certificate in translation with their major program of study may become more marketable to employers.

Students who complete this undergraduate certificate along with their major often decide to pursue employment in education, law, medicine, tourism and hospitality, or marketing.

Veterans, Society and Service Certificate (LAVSSCERT)

Campus: Tempe, Online

Description: This certificate program in veterans, society and service explores the history, representations, experiences and culture of military service and veterans.

Students study the veteran community with an interdisciplinary approach that combines history, politics, business, journalism, psychology, law, sociology and the arts through the intersectional lenses of gender, race, ethnicity and national identity. This program trains students to listen to, learn from, serve, research and advocate for veterans and their families.

Future professionals and current employees at government agencies, health provider organizations, nonprofit organizations and media industries can benefit from this multifaceted certificate program.

Program Requirements:

The certificate requires 18 credit hours, of which at least nine must be completed at the upper-division level and nine must be completed at ASU. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 9 credit hours

MVS 100: Introduction to Military Studies (3)

MVS 301: Experience of America's Modern Wars (H) (3)

MVS 302: Representations and Self-Representations of Veterans in the Media and the Arts (HUAD OR H & C) (3)

Other courses that complement the student's individual course of study may be completed with prior approval of the academic advisor.

Internship -- 3 credit hours

MVS 484: Internship (3)

All students must complete an internship. They should review their internship options, including virtual, with the CISA internship coordinator.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/veteran-service/>) for program descriptions and to request more information.

Career Opportunities: Students can advance their career options with an undergraduate certificate.

Those who have combined the certificate in veterans, society and service with their major program of study may become more marketable to employers.

Students who complete this undergraduate certificate often decide to pursue employment as health care social workers, social and community service managers, or community health workers. Advanced degrees or certifications may be required for academic or clinical positions.

Vocal Pedagogy Certificate (HIVCLPCERT)

Campus: Tempe

Description: The vocal pedagogy certificate program provides opportunities for upper-level undergraduates or nondegree-seeking graduate students who are current or future singing teachers and choral directors who wish to cultivate and further the development of their teaching skills and knowledge of the field of vocal pedagogy. This is a fifteen credit hour certificate program, including a set of core courses in pedagogy and applied voice, elective course offerings in related disciplines and a teaching practicum.

Program Requirements:

The undergraduate certificate in vocal pedagogy consists of 15 credit hours, of which at least nine credit hours must be upper division. There are eight credit hours of required coursework and the remaining seven credit hours are selected from electives. A grade of "C" or better is required in all courses.

Required courses -- 8 credit hours

MUP 321 / MUP 311 / MUP 327: Voice (2)

Notes: If enrolling in MUP 321, course must be taken twice for one credit hour each time.

MUP 402: Anatomy and Physiology of Singing (2)

MUP 403: Literature for Teaching Voice (1)

MUP 404: Voice Teaching Practicum (1)

MUP 481: Performance Pedagogy and Materials (2)

Electives -- 7 credit hours

MSC 221: Pop Vocal Techniques (1)

MUE 110: Introduction to Music Education (2)

MUE 413: The Art of Teaching Children Music (4)

MUE 480: Art of Teaching Advanced Vocalists (4)

MUP 250: Diction for Singers (1)

Notes: French, German and Italian are offered.

MUP 438: The Enterprising Artist (3)

MUP 439: Performing Arts Product Creation and Development (3)

MUP 453: Art Song Repertoire (2)

SHS 310: Anatomical and Physiological Bases of Speech (3)

THP 277: Voice and Speech I (3)

THP 351: Arts Management (3)

THP 377: Voice and Speech II (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A minimum of an associate degree in music or a related field, or status as a third-year or higher undergraduate music major in a BM or BA program is required.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Students who earn this certificate can develop a private teaching studio or a vocal coaching studio, conduct choirs, teach

future voice teachers how to teach effectively, teach vocal diction and projection, or teach healthy singing methods across a variety of styles and age groups.

Water Resources Certificate (LAWATRCERT)

Campus: Tempe

Description: The certificate program in water resources covers topics related to hydrologic science and their application to water resources management. The sequence of classes offered through the certificate program builds from a foundation in geological sciences up to water policy and design aspects of hydrology, as selected by the student.

Program Requirements:

The certificate requires 16 credit hours. At least 12 credit hours must be completed in upper-division coursework and at least nine credit hours must be completed at ASU. At least six upper-division hours in the certificate must be completed in courses offered by The College of Liberal Arts and Sciences. A grade of "C" (2.00 on a 4.00 scale) or higher is required for each course used to fulfill a certificate requirement.

Required Courses -- 10 credit hours

GLG 108 / SOS 182: Water Planet (SCIT OR SQ) (4)

GLG 327 / SOS 374: Earth's Critical Zone (3)

GLG 470: Hydrogeology (3)

Electives -- 6 credit hours

CEE 441: Water Resources Engineering (3)

GLG 325 / BIO 325 / CHM 385: Oceanography (3)

GLG 362: Geomorphology (3)

GLG 471: Hydrology (3)

GLG 481: Geochemistry (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: With water resources jobs increasing at a rate faster than other job outlooks (up to 6% growth between 2022 and 2032, well above the national average of 2.8%, U.S. Bureau of Labor Statistics), the demand for individuals with industry-specific skills is clear.

Students who earn a certificate in water resources can advance their career and become more marketable to employers. Exciting career opportunities in this field exist within government agencies, private sector consulting, engineering firms and nonprofit organizations, though most career areas do require more training than a certificate alone can provide.

Career opportunities include:

- hydrologist
- soil and water conservationist
- water or wastewater engineer
- water resources technician

Sample career settings include:

- environmental industry
- governmental agencies
- nonprofit organizations
- private voluntary organizations
- regulatory agencies

- utilities

Wildlife Management Certificate (LSWLMCERT)

Campus: Polytechnic

Description: The undergraduate wildlife management certificate is for students interested in biology, conservation, sustainability and management of wildlife resources. Students gain application-based and hands-on experience in the field and engage with wildlife professionals.

Program Requirements:

This certificate requires 22 credit hours. A grade of "C" (2.00 on a 4.00 scale) or better is required in each course.

Required Courses -- 13 credit hours

ABS 274: Introduction to Wildlife Management (4)

ABS 376: Wildlife Ecology (3)

ABS 377: International Wildlife Conservation (3)

ABS 470: Life History of Mammals (3)

Electives (choose three) -- 9 credit hours

ABS 380: Restoration and Wildlife Plants (3)

ABS 384: Natural Resources Measurements (3)

ABS 472: Applied Herpetology (3)

ABS 473: Applied Ornithology (3)

ABS 475: Habitat Management for Small Wildlife (3)

ABS 476: Large Mammal Habitat Ecology (3)

ABS 485: GIS in Natural Resources (3)

ABS 486: Introduction to Remote Sensing (4)

ABS 489: Undergraduate Research (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Students can advance their career options with an undergraduate certificate. This certificate can give a hiring edge to students who want to pursue employment in the growing number of environmental careers offered by state and federal agencies such as the Arizona Game and Fish Department, U.S. Forest Service, U.S. Geological Survey and U.S. Bureau of Land Management. Students also have strong career prospects with nongovernmental organizations in areas of fish and wildlife management and range management or as biological technicians.

Advanced degrees or certifications may be required for academic or clinical positions.

Working with Military Families Certificate (LAWWMFCERT)

Campus: Tempe

Description: Students enrolled in the working with military families certificate program combine academic coursework and military leadership training to gain skills in human development, marital and familial relationships, and family dynamics in the context of military culture.

The program teaches students to understand the complex challenges that military personnel, military families and veterans face, such as dealing with multiple deployments, war, combat, trauma and death. They study normative family processes, stress and coping with military culture and leadership.

Program Requirements:

The certificate requires 18 credit hours. At least 12 credit hours must be completed at the upper-division level and a grade of "C" (2.00 on a 4.00 scale) or higher is required in all courses.

Required Courses -- 15 credit hours

CDE 232: Human Development (SOBE OR SB) (3)

FAS 101: Personal Growth and Relationships (SOBE OR SB) (3)

FAS 331: Modern Family Relationships (SOBE OR SB) (3)

FAS 410: Military Family Systems in a Democracy (3)

OGL 300: Theory and Practice of Leadership or PAF 311: Leadership and Change (SOBE OR SB) or MIS 301: Training Management and the Warfighting Functions (L) or AES 301: Leading People and Effective Communication I (L) (3)

Internship Requirement -- 3 credit hours

FAS 484: Internship (3)

Students are required to complete a capstone internship project that includes a field work experience, a written integrative paper and an oral presentation.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: There are no admission requirements beyond those for admission to ASU.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze the contextual influences on individual and family relationships specific to military families
- Understand the contextual influences on individual and family relationships specific to military families
- Analyze family relationship patterns, including communication, conflict, roles.

Career Opportunities: Students can become more marketable to employers and advance their career options when they complement their major with this undergraduate certificate specialization in working with military families.

Understanding and appreciating the similarities and differences between civilian and military culture helps students become more inclusive coworkers, managers and community members with regard to those in the military community and their families. Students who complete this undergraduate certificate often decide to pursue employment in health care, counseling or social work, sociology or education.

Advanced degrees or certifications may be required for academic or clinical positions.

Writing Certificate (ASWRTCERT)

Campus: West

Description: The certificate program in writing offers five track options (creative writing, generalist, nonfiction writing, professional and technical writing, and publishing and editing) which can be tailored to students' individual interests and career goals.

The program comprises intensive coursework that culminates in an exit portfolio, which is a collection of work that demonstrates writing skills mastery.

This program is offered by the School of Humanities, Arts and Cultural Studies.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

Program Requirements:

The certificate in writing consists of 16 credit hours of coursework, of which a minimum of 13 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Humanities, Arts and Cultural Studies. A maximum of six to nine credit hours may be shared between the certificate and a major. All courses used to satisfy requirements for the certificate must be passed with a "B" (3.00) or better.

Track Requirements -- 15 credit hours

Select and complete 15 credit hours from within one track. Coursework must be chosen in consultation with the faculty certificate coordinator. A minimum of 12 out of the 15 credit hours must be upper division. (15)

Writing Portfolio -- 1 credit hours

AMS 490: Writing Certificate Portfolio (1)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Any ASU student in good academic standing (2.00 cumulative GPA or better) who has successfully completed the First-Year Composition requirement (ENG 101/102, ENG 105, or ENG 107/108 with a "C" or better) is eligible to add the New College writing certificate. No more than nine credit hours may be shared between the certificate and other degree programs, minors or other certificates. This certificate program is not available to ASU Online students.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Certification of advanced writing skills opens the way to a vast array of career opportunities in journalism and publishing, public advocacy, military and government, elementary and secondary education, industry and management, economic development and law. Graduates are prepared for jobs as technical writers, copy editors, teachers, publishers, writers, reporters and correspondents, and script writers.

Writing Certificate (LSWRTCERT)

Campus: Polytechnic

Description: In the writing certificate program offered by the College of Integrative Sciences and Arts, students write for specific purposes and consider how writing is used in careers.

In the core course, students cultivate visual and multimodal literacies so they are prepared to respond to new writing situations with flexibility, creativity and resourcefulness. Students complete two electives in a focus area such as food and travel, science and the environment, mentoring writers, online publishing, or another area of writing in support of their professional or personal interests. An internship provides opportunities for students to gain practical, hands-on skills; for example, they might serve as writing mentors in the Writers' Studio or be involved with publishing and promoting Superstition Review, an online literary magazine established in 2008. Finally, in the capstone course for this program, students assemble a portfolio of their best work, design and carry out a new applied project, and connect what they have learned in the program to potential careers.

Program Requirements:

This certificate requires 15 credit hours. Students complete four upper-division writing courses (12 credit hours). At least three of the courses must be offered by the College of Integrative Sciences and Arts. In addition, students must complete a capstone course (three credit hours) at the end of their program. A grade of "C" (2.00 on a 4.00 scale) or better is required in all courses.

Core Requirements -- 6 credit hours

ENG 446: Visual Narratives (HUAD OR HU) (3)

ENG 484: Internship (3)

Writing Focus Electives (select two courses) -- 6 credit hours

Suggested pairings are below.

Students may work in consultation with their advisor to develop a two-course focus area in support of their professional or personal interests in writing.

Writing about Science and the Environment:

ENG 378: Environmental Creative Nonfiction (HUAD OR HU) (3)

HST 482: Writing and the History of Science, Ideas and Technology (3)

Food and Travel Writing:

ENG 379: Travel Writing (3)

ENG 394: Writing About Food (3)

Mentoring Writers:

ENG 480: Methods of Teaching English: Composition (L) (3)

ENG 482: Methods of Teaching English: Language (L) (3)

Online Publishing:

ENG 301: Writing for the Professions (L) (3)

ENG 394: Superstition Review Training (3)

Other elective courses may be considered in consultation with an academic advisor.

Capstone -- 3 credit hours

ENG 498: Pro-Seminar (L) (3)

Notes: Students must complete at least three hours of ENG 498 Pro-Seminar at the end of their program. Students will work closely with faculty on their writing portfolio and applied project.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Students and professionals can advance their career options with an undergraduate writing certificate. Graduates who have combined the certificate in writing with their major program of study may be more marketable to employers.

Undergraduate Programs

Undergraduate Degrees (Program Descriptions)

Business, W. P. Carey School of

Accountancy, BS (BAACCBS)

Campus: Tempe, West, Online

Program Description: The W. P. Carey School of Accountancy works closely with its Professional Advisory Board to create a learning environment that emulates the real world by exploring applied processes and strategies. The BS program in accountancy prepares students by equipping them with critical thinking, team-building, communication and information technology skills, along with knowledge of accounting theories and procedures.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Accountancy and Data Analytics, MACC

Taxation and Data Analytics, MTax

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements: 1230 SAT Reasoning or 25 ACT score, or graduated in the top 8% of high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

First-year applicants should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice will be placed in a business Bachelor of Arts program in the W. P. Carey School of Business.

Readmission requirements: Students must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer admission requirements (30 or more credit hours after high school): transfer GPA of 3.00 and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) or 25 ACT score, or graduated in the top 8% of high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer students should select an additional major when applying for admission. Additional choices may include any of the school's BA programs or any other business or other degree program outside the W. P. Carey School of Business.

Students who are admissible to the university but do not meet admission requirements for this program and who did not select a second major or are not admissible to their second major choice are placed in a Bachelor of Arts program in the W. P. Carey School of Business. Students not interested in the program or campus location may reach out to wpcareyug@asu.edu (<mailto:wpcareyug@asu.edu>) for assistance in selecting another degree program.

Change of Major Requirements: Students should visit the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students who are ready to change their major should submit their request through the school's advising website (<https://students.wpcarey.asu.edu/advising-sos>).

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/accounting-degree/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BAACCBS~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to accountancy students. Through international study and internships, students can gain valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide. Understanding international accounting methods helps students become more well-rounded and competitive in the accounting field. Accountancy students in particular benefit from thinking about participating in a Global Education program (<https://goglobal.asu.edu/>) early in their program. Students can leverage global opportunities and learning, which are great assets as they prepare for internships; these programs also provide unique experiences that students can share with recruiters.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wp-carey/accountancy>) for students majoring in accountancy.

Career Opportunities: Accounting is a dynamic field, with diverse career opportunities in the private sector and in government agencies worldwide.

Graduates have the essential academic preparation and competitive edge they need for:

- a position in consulting
- a position in personal financial planning and portfolio analysis
- a professional career in public, corporate and governmental accounting
- operating a business

Graduates are also well-positioned to pursue a graduate degree or attend law school.

Applied Business and Technology Solutions, BA (BAAPBTSBA)

Campus: Polytechnic, West, Online

Program Description: The BA program in applied business and technology solutions is designed to meet the needs of workforce learners who wish to complete an undergraduate degree in business. In this degree program, students can quickly access accounting, business analytics, computer information systems, economics, finance, management, marketing, process management and business ethics courses, and directly connect what is taught in the classroom to their working environment. Applied internship courses in the program enable students to put what they are learning into practice, and emphasis areas allow students to further customize the degree to their working environments.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors. Students ready to change their major should submit their request through the advising website (<https://students.wpcarey.asu.edu/advising-sos>).

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/applied-business-technology-solutions/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Artificial Intelligence in Business, BS (BAAIBBS)

Campus: Tempe

Program Description: The BS program in artificial intelligence in business equips students with the necessary technical AI and business skills required to succeed in the constantly evolving landscape of technology and information systems. It prepares business students to leverage AI mindfully, toward meaningful value creation within an organization.

Students will learn how AI technologies work, how to deploy it successfully within a business, and are given opportunities to practice these skills in an organizational setting under the guidance of world-class business faculty and leaders.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: N

Second Language Requirement: N

Business, BA (BABUSBA)

Campus: Polytechnic, Tempe, West

Program Description: The BA program in business provides an innovative, transdisciplinary approach to learning that broadens career options upon graduation. Not only do students acquire a strong grounding in the principles of business, but they also immerse themselves in coursework outside the business school as a supplement to their degree.

Students in the program learn how to apply core business knowledge in one of the following disciplines:

- agribusiness (global agribusiness)
- business administration
- communication
- corporate accounting
- food industry management
- global leadership
- global logistics management
- global politics
- health care
- human resources
- information security
- law
- language and cultures
- public service and public policy

- retail management
- sports business
- statistics
- sustainability
- technology
- tourism

Additional Program Fee: Y

BA 160

Business (Agribusiness Innovation and Technology), BA (BABUSGAGBA)

Campus: Polytechnic

This program's name has changed effective Fall 2024. The previous name was Business (Global Agribusiness).

Program Description: The agribusiness industry is increasingly competitive, sophisticated and global, driving demand for innovative leaders who understand the industry's distinct challenges and practices. The BA program in business with a concentration in agribusiness innovation and technology teaches students the business of agricultural production, finance, marketing and distribution.

Through a technology-rich, applied, industry-oriented curriculum that focuses on practical projects, students explore global agribusiness issues such as international trade, food safety and sustainability. It is specifically designed to meet the needs of students interested in studying the business aspects of agriculture in the domestic and global economy. Students learn to analyze and manage issues involved in food manufacturing, input and output supply activities, commodity trading and food distribution.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 117 College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Environmental and Resource Management, MS
- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Data Science), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSGAGBA~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to success in every field of business. Through international study and internships, students can gain valuable skills employers are looking for: communication and interpersonal skills, flexibility, motivation and a contemporary perspective on business applications worldwide. Participating in a Global Education program (<https://goglobal.asu.edu/>) contributes to this by allowing students to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/w-p-carey-global-agribusiness>) for students majoring in agribusiness innovation and technology.

Career Opportunities: Accounting for more than 50% of the global economy and employing 25% of Americans, agribusiness brings food from the farm to the global table. Possible career paths include positions with private agribusiness firms and governmental agencies in these fields:

- finance
- management
- marketing
- technology

Business (Business Administration), BA (BABUSBABA)

Campus: Polytechnic, West, ASU at Lake Havasu, ASU at The Gila Valley, Online

Program Description: In the BA program in business with a concentration in business administration, students gain a breadth of knowledge and the skills needed for managing business operations.

The program provides the full business core plus 18 credit hours of concentration coursework focused on skills such as forecasting demand; planning inventory; purchasing services; conducting skillful negotiations; building strategies for the future; and managing people, finances and risk.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 117 College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their

academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice are placed in the BA program in applied business and technology solutions in W. P. Carey School of Business, which is offered via ASU Online as well as at the Polytechnic and West Valley campus locations. Students not interested in that program or campus location may reach out to wpcareyug@asu.edu (<mailto:wpcareyug@asu.edu>) for assistance in selecting another degree program.

Change of Major Requirements: Students should visit the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major should submit their request through the advising website (<https://students.wpcarey.asu.edu/advising-sos>).

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-business-concentration-business/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use

MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSBABA-null + &college=CBA>) to outline a list of

recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to success in business administration. Through international study and internships, students can gain valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide. Immersion in a foreign culture helps students gain a new perspective on how to effectively manage people, finances and risk for organizations of all sizes. A Global Education program (<https://goglobal.asu.edu/>) enables participating students to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/w-p-carey-business-administration>) for students majoring in business administration.

Career Opportunities: Graduates are prepared to manage processes and people in a wide range of industries. Career opportunities include these positions:

- administrative services manager
- business manager
- general and operations manager
- sales manager
- training and development manager

Business (Communication), BA (BABUSCBA)

Campus: Polytechnic, Tempe, West, ASU at Lake Havasu, Online

Program Description: The BA in business with a concentration in communication is an innovative, transdisciplinary program that prepares students for positions in a variety of professions in which business and communication play an important role in ensuring success.

Students complete rigorous courses within the communication concentration, in addition to the skill and core courses required of all W. P. Carey School of Business majors.

Graduates have specific knowledge of business practices and the capacity to effectively communicate complex business information.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 117 College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Global Management (Creative Industries and Design Thinking), MGM
Global Management (Digital Audience Strategy), MGM
Global Management (Global Affairs), MGM
Global Management (Global Business), MGM
Global Management (Global Development and Innovation), MGM
Global Management (Global Digital Transformation), MGM
Global Management (Global Entrepreneurship), MGM
Global Management (Global Health Care Delivery), MGM
Global Management (Global Legal Studies), MGM

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice will be placed in the BA program in applied business and technology solutions in W. P. Carey School of Business, which is offered via ASU Online as well as at the Polytechnic and West Valley campus locations. Students not interested in that program or campus location may reach out to wpcareyug@asu.edu (<mailto:wpcareyug@asu.edu>) for assistance in selecting another degree program.

Change of Major Requirements: Students should visit the following W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students who are ready to change their major should submit their request through the advising website (<https://students.wpcarey.asu.edu/advising-sos>).

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-business-concentration-communication/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSCBA~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to business communication majors. Through international study and internships, students can gain valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide. Understanding how to collaborate with diverse peers, persuade and negotiate, manage and work in a variety of teams, and connect with real-life customers helps students influence business success through effective communication. A Global Education program (<https://goglobal.asu.edu/>) contributes to students' success by enabling them to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/w-p-carey-business-communication>) for students majoring in business communication.

Career Opportunities: Business communication has exploded as a distinct professional field as companies require rapid and considered responses, conveying ordinary information as well as disseminating crisis communications. Historically, these positions have been staffed with people who are trained in communication, English, journalism or other fields but lack specific business knowledge. Graduates of this program are qualified to enter these positions with knowledge that is useful immediately to potential employers and can quickly advance graduates' careers.

Business (Corporate Accounting), BA (BABUSCABA)

Campus: Tempe, Online

Program Description: The BA program in business with a concentration in corporate accounting addresses the educational needs of many students who have an interest in accounting but do not plan to enter public accounting.

The emphasis of this program is managerial accounting. The six major courses in the concentration prepare students for corporate accounting positions by helping them develop skills in strategic financial planning, control, corporate compliance and decision-making.

Upon completion of the program, students may take the Certified Management Accountant exam.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 117 College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

This program is not available to students with BA, BS or MS degrees in accountancy.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice are placed in the BA program in applied business and technology solutions in W. P. Carey School of Business, which is offered via ASU Online as well as at the Polytechnic and West Valley campus locations. Students not interested in that program

or campus location may reach out to wpcareyug@asu.edu (<mailto:wpcareyug@asu.edu>) for assistance in selecting another degree program.

Change of Major Requirements: Students should visit the W. P. Carey School of Business website (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) to determine if they meet change of major requirements. Students who are ready to change their major should submit their request through the advising website (<https://students.wpcarey.asu.edu/advising-sos>). This program is not available to students who already hold a BA, BS or MS degree in accountancy.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-business-corporate-accounting/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSCABA~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to success in corporate accounting. Through international study and internships, students can gain valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide. International experiences help students understand international accounting methods and grow their portfolio of marketable business skills that make them a competitive candidate in the corporate accounting industry. A Global Education program (<https://goglobal.asu.edu/>) contributes to students' success by enabling them to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/w-p-carey-corporate-accounting>) for students majoring in corporate accounting.

Career Opportunities: Career opportunities are generally substantive, and graduates are in high demand. Senior management roles for corporate accountants include chief financial officer. Currently, more than half of CFOs at larger corporations have formal accounting training. The longer term projected trend is for CFOs to have extensive corporate accounting training, particularly given that CFOs at public U.S. corporations personally sign financial statements.

Typical early- to mid-career positions held by corporate accountants include controller, treasurer and vice president in areas such as financial planning, divisional controlling, cost accounting directing, senior financial analysis and senior accounting. Individuals in these positions typically report to the CFO.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Business (Financial Planning), BA (BABUSFPBA)

Campus: Tempe, Online

Program Description: The BA program in business with a concentration in financial planning provides students with knowledge and experience in personal financial planning.

Students learn the necessary skills in finance, taxes, portfolio management, insurance and estate planning from leading faculty.

This program delivers to the next generation of financial planning professionals the knowledge and skills needed to develop solutions that meet clients' personal financial needs.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 117 College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable; scale is 4.00 = "A") and a cumulative ASU GPA of 3.00 (scale is 4.00 = "A").

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 (scale is 4.00 = "A") for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice will be placed in the BA program in applied business and technology solutions in W. P. Carey School of Business, which is offered via ASU Online as well as at the Polytechnic and West Valley campus locations. Students not interested in that program or campus location may reach out to wpcareyug@asu.edu (<mailto:wpcareyug@asu.edu>) for assistance in selecting another degree program.

Change of Major Requirements: Students should refer to the following W. P. Carey School of Business

(<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students who are ready to change their major should submit their request through the W. P. Carey School of Business advising website (<https://students.wpcarey.asu.edu/advising-sos>).

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/financial-planning-business/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, financial planning students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional

network.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/w-p-carey-financial-planning>) for students majoring in financial planning.

Career Opportunities: Financial planners are in high demand in the dynamic field of financial services and planning. Aging populations are paying closer attention to their finances as they approach retirement, and the rising need for financial planning services and advisors translates into huge opportunities for careers in this growing market. Employment of personal financial advisors is projected to grow 15% between 2016 and 2026, much faster than the average for all occupations.

Graduates of the Bachelor of Arts program in business with a concentration in financial planning can secure employment in the growing field of financial services and planning.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSFIMBA~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: As globalization and growing populations continue to impact the way the world lives and works, international experiences have become vital to success in food industry management. Through international study and internships, students can gain valuable skills employers are looking for: communication and interpersonal skills, flexibility, motivation and a contemporary perspective on business applications worldwide. Understanding global trends as consumer tastes and needs change will help students be more prepared and competitive leaders in a variety of food industry firms and organizations. Participation in a Global Education program (<https://goglobal.asu.edu/>) contributes to this by allowing students to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs for students majoring in food industry management (<https://goglobal.asu.edu/students/major/wp-carey/food-industry-management>).

Career Opportunities: This concentration in food industry management prepares students for business careers in the food industry, which is defined as the group of firms and organizations involved with manufacturing, marketing and distributing food beyond the farm to retail stores, restaurants and to institutions such as schools and hospitals. The industry is becoming increasingly competitive, sophisticated and global, and it shows a growing demand for professional management as one in six people are employed in the food industry nationwide, with 100,000 in Arizona.

Business (Global Leadership), BA (BABUSGBA)

Campus: Online

Program Description: The BA program in business with a concentration in global leadership prepares students for careers in the global business environment.

Students develop strong business skills through global studies courses covering a variety of world regions. They also may choose to participate in an international study experience in countries around the globe.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 117 College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable; scale is 4.00 = "A") and a cumulative ASU GPA of 3.00 (scale is 4.00 = "A").

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 (scale is 4.00 = "A") for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice will be placed in the BA program in applied business and technology solutions in W. P. Carey School of Business, which is offered via ASU Online as well as at the Polytechnic and West Valley campus locations. Students not interested in that program or campus location may reach out to wpcareyug@asu.edu (mailto:wpcareyug@asu.edu) for assistance in selecting another degree program.

Change of Major Requirements: Students should refer to this W. P. Carey School of Business webpage (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) to determine if they meet change of major requirements. Students who are ready to change their major should submit their request through the advising website (<https://students.wpcarey.asu.edu/advising-sos>).

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-business-global-leadership/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSGBA~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: As globalization continues to impact the way people live and work, international experiences have become vital to success, especially in global leadership. Through international study and internships, students can gain valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide. Through their courses, students become versed in cultural sensitivity and awareness, understanding and bridging cultural divides, and leveraging diversity for business gains. In applying these lessons through international experiences, students become more competitive and prepared global leaders. A Global Education program (<https://goglobal.asu.edu/>) contributes to students' success by enabling them to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/w-p-carey-global-leadership>) for students majoring in global leadership.

Career Opportunities: A degree that incorporates solid business skills and global studies helps prepare students for employment in the global business world. Qualified students have opportunities to work either domestically or internationally in an international organization. This degree program augments the business and leadership skills necessary in most corporations.

Business (Global Logistics Management), BA (BABUSGLBA)

Campus: West, Online

Program Description: Logistics management focuses on the integration and partnerships necessary for meeting customer needs on a timely basis, with relevant and high-quality products produced and delivered in a service-effective manner.

This BA program in business with a concentration in global logistics management trains students to be strategic thinkers, excellent analysts, effective communicators and team leaders who are focused on efficiency, effectiveness and increasing revenue.

An efficient logistics management system is critical to the success of global corporations, ensuring that the supply of goods and services flowing through the system closely matches the demand. Logistics management professionals manage, coordinate and transport products from raw materials to the finished goods that sit on a local store shelf or are offered by an online retailer. Efficient logistics is a key reason consumers can buy an ever-increasing variety of goods and services at remarkably low prices. Not surprisingly, logistics also plays a major role in the health care industry, where efficient, effective delivery systems are gaining significant traction.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 117 College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management (Creative Industries and Design Thinking), MGM

Global Management (Digital Audience Strategy), MGM

Global Management (Global Affairs), MGM
Global Management (Global Business), MGM
Global Management (Global Development and Innovation), MGM
Global Management (Global Digital Transformation), MGM
Global Management (Global Entrepreneurship), MGM
Global Management (Global Health Care Delivery), MGM
Global Management (Global Legal Studies), MGM
Global Management (Nonprofit Leadership and Management), MGM
Global Management (Public Administration), MGM
Global Management (Public Policy), MGM
Global Management (Sustainability Solutions), MGM
Global Management (Sustainable Tourism), MGM
Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable; scale is 4.00 = "A") and a cumulative ASU GPA of 3.00 (scale is 4.00 = "A").

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: As globalization continues to impact the way business functions, study abroad programs (<https://goglobal.asu.edu/>) provide vital experiences, providing business students with opportunities to practice cultural competency-building for global business success.

Students gain valuable skills that employers are looking for, including communication skills, flexibility, motivation and a global perspective on business applications worldwide.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/w-p-carey-global-politics>) for students majoring in business with a concentration in global politics.

Career Opportunities: Graduates of the global politics concentration think critically about global problems and integrate inquiry and action to become responsible leaders. Successful graduates have a firm understanding of how the relationship between a local marketplace and politics can impact global decisions. They are prepared to successfully launch careers in many fields, including:

- campaign and issue management
- information analysis
- public relations

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and must meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice will be placed in the BA program in applied business and technology solutions in W. P. Carey School of Business, which is offered via ASU Online as well as at the Polytechnic and West Valley campus locations. Students not interested in that program or campus location may reach out to wpcareyug@asu.edu (<mailto:wpcareyug@asu.edu>) for assistance in selecting another degree program.

Change of Major Requirements: Students should refer to the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students who are ready to change their major should submit their request through the advising website (<https://students.wpcarey.asu.edu/advising-sos>).

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/information-security-business-degree/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSISBA~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital for businesses that rely on information technology and security. Through international study and internships, students can gain valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide. Immersion in a foreign culture helps students gain a new perspective on how to manage digital business across borders with various organizations. A Global Education program (<https://goglobal.asu.edu/>) contributes to students' success by enabling them to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/w-p-carey-business-information-security>) for students majoring in information security.

Career Opportunities: This is an ideal degree for those interested in opportunities in environments as diverse as small-business startups and large cybersecurity companies. Graduates are prepared to manage digital business, work in organizations that predominantly conduct business online, and develop basic information security technical competency relevant for most organizations.

Business (Language and Culture), BA (BABSLACUBA)

Campus: Tempe, West

Program Description: The BA in business with a concentration in language and culture is an innovative, transdisciplinary program that prepares students for positions in a variety of professions in which business and communication play an important role in ensuring success.

Students complete rigorous language courses in Chinese, French, Italian or Spanish --- in addition to the skill and core courses required of all W. P. Carey School of Business students --- enabling them to become business professionals who can function well culturally and linguistically in the business environments of both international and domestic markets.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 210 - Brief Calculus or MAT 117 College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Data Science), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice will be placed in the BA program in applied business and technology solutions in W. P. Carey School of Business, which is offered via ASU Online as well as at the Polytechnic and West Valley campus locations. Students not interested in that program or campus location may reach out to wpcareyug@asu.edu (<mailto:wpcareyug@asu.edu>) for assistance in selecting another degree program.

Change of Major Requirements: Students should refer to the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students who are ready to change their major should submit their request through the advising website (<https://students.wpcarey.asu.edu/advising-sos>).

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABSLACUBA~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become essential to language and culture majors and provide vital experiences to students, enabling them to build critical skills in navigating cultural customs and understanding the nuances of conducting international business. Through international study and internships, students can gain valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide.

Nearly 90% of surveyed executive recruiters believe that bilingualism is critical to global business success, according to the Korn/Ferry International Executive Recruiter Index. A Global Education program (<https://goglobal.asu.edu/>) contributes to students' success by enabling them to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends the language and culture administration global education program (<https://goglobal.asu.edu/w-p-carey-language-and-culture>), the Chinese language and culture administration global education program (<https://goglobal.asu.edu/w-p-carey-chinese-language-and-culture>) and the Spanish language and culture administration global education program (<https://goglobal.asu.edu/w-p-carey-spanish-language-and-culture>) for students majoring in language and culture.

Career Opportunities: Graduates of this program are equipped to play a key role in companies and organizations that are seeking new markets or dealing with international interests domestically. The demand for multilingual business professionals is strong in the hotel and tourism industry and in consulting, banking and finance, international trade, sports management and media companies.

Business (Sports Business), BA (BABUSMSBA)

Campus: Tempe, West, Online

Program Description: The BA program in business with a concentration in sports business is attractive to students with an interest in the sports industry.

Students acquire the skills necessary to build knowledge and understanding of the development of the strategic business process in sports organizations and its relationship to media. The program offers a strong focus on applied elements of the sports industry, especially as it relates to media and its impact on the industry.

The proliferation of mass communication, including television, game systems and social networks, has transformed sports into a highly commercialized industry and, in turn, sports continue to generate revenues for these businesses. The interaction between sports and media has led to a multitude of applications of business knowledge to these fields.

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), study abroad is possible for all ASU students who wish to acquire a global perspective and knowledge in preparation for their career. Through global experiences provided by the Global Education Office (<https://goglobal.asu.edu>), students gain valuable skills employers seek, such as communication skills, flexibility, motivation and a global perspective on business applications worldwide.

Business students can study abroad nearly anywhere in the world, including in global business hubs. The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/w-p-carey-sports-business>) for students with a concentration in sports business.

Career Opportunities: Graduates of this concentration find opportunities in mass communication, including television, game systems and social networks. Career opportunities for graduates could include jobs with titles such as:

- administrative service manager
- advertising and sponsorship salesperson
- agent
- business manager
- event planner
- management analyst
- operations specialist
- purchasing or buying manager
- wholesale and manufacturing representative

Business (Statistics), BA (BABUSTABA)

Campus: West

Program Description: The BA program in business with a concentration in statistics is designed for students interested in a curriculum that helps them develop solid business skills with an emphasis in mathematics and statistics. The program involves theoretical and applied statistics with a focus on practical and applied aspects of statistics.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 117 College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Global Management (Creative Industries and Design Thinking), MGM

Global Management (Data Science), MGM

Global Management (Digital Audience Strategy), MGM

Global Management (Global Affairs), MGM

Global Management (Global Business), MGM

Global Management (Global Development and Innovation), MGM

Global Management (Global Digital Transformation), MGM

Global Management (Global Entrepreneurship), MGM

Global Management (Global Health Care Delivery), MGM

Global Management (Global Legal Studies), MGM

Global Management (Nonprofit Leadership and Management), MGM

Global Management (Public Administration), MGM

Global Management (Public Policy), MGM

Global Management (Sustainability Solutions), MGM

Global Management (Sustainable Tourism), MGM

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice will be placed in the BA program in applied business and technology solutions in W. P. Carey School of Business, which is offered via ASU Online as well as at the Polytechnic and West Valley campus locations. Students not interested in that program or campus location may reach out to wpcareyug@asu.edu (<mailto:wpcareyug@asu.edu>) for assistance in selecting another degree program.

Change of Major Requirements: Students should refer to the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students who are ready to change their major should submit their request through the advising website (<https://students.wpcarey.asu.edu/advising-sos>).

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSTABA-null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to success in every field of business. Through a Global Education program (<https://goglobal.asu.edu/>), students can gain valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide.

Understanding statistical methods used internationally helps students become more well-rounded and competitive in their chosen field. A Global Education program contributes to students' success by enabling them to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/w-p-carey-statistics>) for students majoring in statistics.

Career Opportunities: Graduates of this program are prepared for business or governmental positions in which they use statistics to help make decisions and solve problems. Potential opportunities include these positions:

- financial analyst
- market and survey researcher
- personal financial advisor
- statistician

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-business-sustainability/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSSBA~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer

experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to business sustainability majors. Through a Global Education program (<https://goglobal.asu.edu/>), students gain valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide. Understanding global sustainability perspectives helps students rethink the nature of business and allows them to gain the knowledge necessary to influence growth, improve returns on capital and improve risk management through sustainability. Participating in a Global Education program contributes to this knowledge by enabling students to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/w-p-carey-business-sustainability>) for students majoring in sustainability.

Career Opportunities: Graduates are prepared for positions in a variety of professions in which both business and sustainability play important roles. Finding ways to grow and prosper while reducing the stress on the global environment is a critical issue facing society. Interest in sustainability issues is growing and very likely will be increasingly important to business in the next few years.

People around the world are asking serious questions about how they can understand, evaluate and act on issues related to sustainability while making sensible business decisions for the present and the future. Qualified individuals are needed who understand that ensuring success involves the societal, scientific and business aspects of the issues, and graduates of this program address this need.

Business Data Analytics, BS (BABDABS)

Campus: Tempe, Online

Program Description: The BS program in business data analytics prepares business students with the requisite knowledge, skills and experience to create and manage big data initiatives and associated business processes in order to facilitate large-scale business data analytics in organizations.

Students learn organizational and technical competencies to implement data gathering, cleansing, integration and modeling tasks as well as data asset analysis for business applications. The program covers data warehousing, dimensional modeling, big data analytics methods and visualization tools and techniques, and it introduces topics such as data mining and predictive analytics.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Business Analytics, MS
- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Data Science), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM

- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements: 1230 SAT Reasoning or 25 ACT score, or graduated in the top 8% of high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

First-year applicants should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice will be placed in a business Bachelor of Arts program in the W. P. Carey School of Business.

Readmission requirements: Students must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer admission requirements (30 or more credit hours after high school): transfer GPA of 3.00 and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) or 25 ACT score, or graduated in the top 8% of high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer students should select an additional major when applying for admission. Additional choices may include any of the school's Bachelor of Arts programs or any other business or other degree program outside the W. P. Carey School of Business.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice will be placed in a Bachelor of Arts program in the W. P. Carey School of Business. Students not interested in the degree or campus location may reach out to wpcareyug@asu.edu (<mailto:wpcareyug@asu.edu>) for assistance selecting another degree program.

Change of Major Requirements: Students should review W. P. Carey School of Business minimum requirements (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) to determine if they meet change of major requirements. Students ready to change their major should submit their request through the school's advising website (<https://students.wpcarey.asu.edu/advising-sos>).

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to business data analytics students. Through international study and internships, students can gain valuable skills employers are looking for: communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide. International experiences can help students understand new perspectives in the usage of data at an international scale. Business data analytics students in particular benefit from thinking about participating in a Global Education program (<https://goglobal.asu.edu/>) early in their program. Students can leverage global opportunities and learning, which are great assets as students prepare for internships; students also can share these unique experiences with recruiters.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/w-p-carey-business-data-analytics>) for students majoring in business data analytics.

Career Opportunities: The demand for employees with business analytics skills is strong, with close to 89% of employers indicating their needs for new recruits skilled in business data analytics will increase in the future source: Occupational Information Network.

Graduates can become data analysts, data architects, data visualization developers, data change agents and data operators. Many graduates serve as architects, change agents and analytics tool suite operators for business and government.

Business Entrepreneurship, BS (BABUENTBS)

Campus: Tempe

Program Description: The BS program in business entrepreneurship prepares students to identify, evaluate and develop entrepreneurial opportunities in existing companies or through new ventures.

The program emphasizes collaboration, leadership, communication and team-building as well as development of refined analytical, managerial and leadership skills appropriate for people who want to change the world through innovation. Students in the program frequently collaborate with

students from across the university, for a breadth of understanding in all business disciplines and a depth of understanding in opportunity recognition, feasibility, management of resources and strategy.

Students completing the program understand the unique requirements of an entrepreneur and have learned how to effectively identify market opportunities, innovative solutions and execution strategies.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Entrepreneurship and Innovation, MS
- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Data Science), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements: 1230 SAT Reasoning or 25 ACT score, or graduated in the top 8% of high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

First-year applicants should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside of the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice are placed in a business Bachelor of Arts program in the W. P. Carey School of Business.

Readmission requirements: Students must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer admission requirements (30 or more credit hours after high school): transfer GPA of 3.00 and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) or 25 ACT score, or graduated in the top 8% of high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer students should select an additional major when applying for admission. Additional choices may include any of the school's Bachelor of Arts programs or any other business or other degree program outside the W. P. Carey School of Business.

Students who are admissible to the university but do not meet admission requirements for this degree and did not select a second major or are not admissible to their second major choice will be placed in a Bachelor of Arts program in the W. P. Carey School of Business. Students not interested in the degree or campus location may reach out to wpcareyug@asu.edu (<mailto:wpcareyug@asu.edu>) for assistance selecting another degree program.

Change of Major Requirements: Students should refer to the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major should submit their request through the school's advising website (<https://students.wpcarey.asu.edu/advising-sos>). Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® ([https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUENTBS-null + &college=CBA](https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUENTBS-null+%26college=CBA)) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to success in every field of business, especially business entrepreneurship.

Global Education programs (<https://goglobal.asu.edu/>) can provide exposure to global startups and how different countries approach entrepreneurship. Through international study and internships, students can gain valuable skills employers are looking for: communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide. International experience will help students learn to identify global market trends and opportunities and strategically execute innovative entrepreneurial solutions that will ignite change and make an impact. Participation in a Global Education program contributes to this by enabling students to improve their interpersonal and language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/w-p-carey-business-entrepreneurship>) for students majoring in business entrepreneurship.

Career Opportunities: Graduates may follow multiple self-directed paths such as starting a new venture or nonprofit organization, working for a new venture or a small business, or working as an innovative leader within an existing organization.

Business Exploratory, (BABUSEXP)

Campus: Tempe

Program Description: Virtually every profession and organization uses business in some way. Business exploratory program students have an opportunity to explore a variety of areas in business before selecting one of these nine majors:

- accountancy
- business data analytics
- business entrepreneurship
- computer information systems
- economics
- finance
- management

- marketing
- supply chain management

Students have an opportunity to work with world-class faculty in an environment that values high-quality teaching. Majors in the W. P. Carey School of Business provide students with the skills and knowledge needed in today's companies --- whether they are starting their own businesses or working in large multinational corporations. Additionally, many graduates attend some of the other top-tier graduate schools in the country in a variety of disciplines.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The first-year admission standards for this major are higher than the university's first-year admission standards. First-year admission requirements: 1230 SAT Reasoning or 25 ACT score, or graduated in the top 8% of high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer Admission Requirements: For students who hold 30 or more transfer credit hours after high school: Students must have a transfer GPA of 3.00 and a score of 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score, OR the student must have graduated in the top 8% of their high school class OR have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Change of Major Requirements: Students are not permitted to change their major to this degree program. Students admitted to this exploratory program who are ready to declare their major should submit their request through the advising website (<https://students.wpcarey.asu.edu/advising-sos>).

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Computer Information Systems, BS (BACISBS)

Campus: Tempe, Online

Program Description: Computer information systems are part of every business and organization. In this degree program, students learn about the exciting and innovative ways that information technology is used to help organizations succeed.

Dedicated faculty members teach students how to design, build and maintain information systems that support business operations and managerial decision-making. In particular, students learn about business intelligence for competitive advantage, business process for workflow redesign, data management for decision-making, distributed systems for collaboration and globalization, enterprise integration for synergy, project management and solution development for value creation.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/computer-information-systems-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BACISBS~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: As globalization continues to impact the way people live and work, international experiences have become vital to success in every field of business. Through international study and internships (<https://goglobal.asu.edu/>), students gain valuable skills employers are looking for, including communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/w-p-carey-computer-information-systems>) for students majoring in computer information systems.

Career Opportunities: Currently, there is a shortage of information systems professionals, with many more jobs than qualified applicants. With a degree in computer information systems, career choices are limitless. A computer information systems degree offers job opportunities in a variety of industries, including:

- education
- entertainment
- finance
- health care
- national defense
- transportation

Information systems are key components in the success of other functional business areas such as accounting, supply chain management, finance and marketing. Entry-level information systems positions include:

- computer forensics analyst
- database administrator
- information systems consultant
- information technology security manager
- network administrator
- project manager
- software or systems developer
- systems administrator
- systems analyst

Long-term career aspirations for a graduate with a computer information systems degree could include:

- chief executive officer

- chief information officer
- chief knowledge officer
- chief security officer
- chief technology officer

Economics, BS (BAECNBS)

Campus: Tempe, Online

Program Description: Students in this W. P. Carey School of Business BS program in economics choose from a variety of electives offered by the Department of Economics and many other ASU departments. All students are encouraged to develop programs of study tailored to individual needs and interests.

The undergraduate program provides students with the critical thinking and communication skills needed to succeed in business or graduate school. The program of study can also be tailored to prepare students for graduate programs in economics, business or law. Students interested in pursuing a doctorate in economics are strongly encouraged to minor or major in mathematics as well.

The department's mission is to provide the highest quality instruction to students, conduct advanced research in economics, and provide leadership and service to professional communities.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 270 Calculus with Analytic Geometry I

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Data Science), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements: 1230 SAT Reasoning or 25 ACT score, or graduated in the top 8% of high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

First-year applicants should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside of the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice are placed in a business Bachelor of Arts program in the W. P. Carey School of Business.

Readmission requirements: Students must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer admission requirements (30 or more credit hours after high school): transfer GPA of 3.00 and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) or 25 ACT score, or graduated in the top 8% of high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer students should select an additional major when applying for admission. Additional choices may include any of the school's Bachelor of Arts programs or any other business or other degree program outside the W. P. Carey School of Business.

Students who are admissible to the university but do not meet admission requirements for this degree and did not select a second major or are not admissible to their second major choice will be placed in a Bachelor of Arts program in the W. P. Carey School of Business. Students not interested in the degree or campus location may reach out to wpcareyug@asu.edu (<mailto:wpcareyug@asu.edu>) for assistance selecting another degree program.

Change of Major Requirements: Students should visit the W. P. Carey School of Business website (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) to determine if they meet change of major requirements. Students ready to change their major should submit their request through the school's advising website (<https://students.wpcarey.asu.edu/advising-sos>).

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/economics-bs-wpc/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BAECNBS~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: As globalization continues to impact the way people live and work, international experiences have become vital to success in every field of business. Through international study and internships, students can see different economic systems play out in real time and gain valuable skills employers seek, including communication and interpersonal skills, flexibility, motivation and a global perspective on business

applications worldwide.

The W. P. Carey School of Business recommends these programs for students majoring in economics (<https://goglobal.asu.edu/w-p-carey-economics>).

Career Opportunities: A major in economics provides students with the analytical and quantitative skills needed in careers in business, government and public policy.

Graduates have taken positions such as:

- consultants who serve as advisors to state and federal governments and private corporations
- corporate economists who collect data and make forecasts relevant to the firm's business
- employees in banking and financial services firms

Each year, many graduates pursue additional studies at other prestigious universities.

Entrepreneurial Leadership, BA (BAENTLBA)

Campus: West

Program Description: The BA program in entrepreneurial leadership prepares students to start, lead and manage entrepreneurial organizations for long-term success.

This program develops entrepreneurial-minded leaders who can effectively manage the value-creation process of existing small and medium-sized businesses, as well as manage new ventures. Students, through their coursework and internship opportunities, become leaders by developing a broad entrepreneurial mindset and leadership style that enables them to seize entrepreneurial opportunities. They can also develop and nurture those entrepreneurial opportunities within their organizations through the effective communication, team building, critical thinking and problem-solving skills learned in this program.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Entrepreneurship and Innovation, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors. Students ready to change their major should submit their request through the school's advising website (<https://students.wpcarey.asu.edu/advising-sos>). Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BAENTLBA-null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: As globalization continues to impact the way business functions, study abroad programs (<https://goglobal.asu.edu/>) provide students with valuable skills that employers are looking for, including communication and interpersonal skills, as well as flexibility, motivation and a global perspective on business applications worldwide.

Business students can participate in Global Education programs nearly anywhere in the world and gain valuable internship experience in many global business hubs, such as Australia, Germany, England, Singapore, China and the United Arab Emirates.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/w-p-carey-marketing/>) for students majoring in entrepreneurial leadership

Career Opportunities: Graduates possess a broad foundation in business and a focus on starting, leading and managing entrepreneurial organizations. This indicates multiple career paths, including working in entrepreneurial-minded roles in existing organizations as well as starting or joining new ventures and small businesses of all types.

Finance, BS (BAFINBS)

Campus: Tempe

Program Description: The finance department has a rich tradition of educating leaders who excel in all aspects of the discipline of finance. Whether ascending to the top ranks of the venture capital industry, executing multimillion dollar real estate deals or becoming successful entrepreneurs with their own ideas and drive, graduates of the BS program in finance from the W. P. Carey School of Business are equipped to succeed.

In particular, the Investment Banking Industry Scholars program mentors students interested in going to Wall Street. The student investment management fund provides undergraduates with the opportunity to manage a real-world investment portfolio worth hundreds of thousands of dollars.

Finance department faculty members are considered among the top in the world. The professional advisory board, comprised of leading professionals from the financial services, manufacturing, energy, investment banking and real estate sectors, provides a sounding board for new ideas and is a resource of jobs for top graduates.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Finance, MS
- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements: 1230 SAT Reasoning or 25 ACT score, or graduated in the top 8% of high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

First-year applicants should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside of the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice are placed in a business Bachelor of Arts program in the W. P. Carey School of Business.

Readmission requirements: Students must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer admission requirements (30 or more credit hours after high school): transfer GPA of 3.00 and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) or 25 ACT score, or graduated in the top 8% of high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer students should select an additional major when applying for admission. Additional choices may include any of the school's Bachelor of Arts programs or any other business or other degree program outside of the W. P. Carey School of Business.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice will be placed in a Bachelor of Arts program in the W. P. Carey School of Business. Students not interested in the program or campus location may reach out to wpcareyug@asu.edu (<mailto:wpcareyug@asu.edu>) for assistance selecting another degree program.

Change of Major Requirements: Students should visit the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major should submit their request through the school's advising website (<https://students.wpcarey.asu.edu/advising-sos>).

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BAFINBS~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: As globalization continues to impact the way people live and work, international experiences have become vital to success in every field of business. Through international study and internships, students gain valuable skills employers are looking for, including communication and interpersonal skills, flexibility, motivation and a global perspective on business applications worldwide.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/w-p-carey-finance>) for students majoring in finance.

Career Opportunities: Graduates are prepared for careers in:

- consulting
- corporate financial management
- depository institutions
- financial services
- investment banking
- investment management
- portfolio analysis

Financial Technology, BS (BAFINTBS)

Campus: Polytechnic

Program Description: Financial technology, commonly referred to as fintech, is a rapidly growing field that has revolutionized financial services. The permeation of technology into traditional banks and financial services firms and the use of technology to improve financial services has led to more efficient, convenient and accessible financial products for consumers and businesses alike, and it has opened opportunities for innovation across the financial sector.

In the BS program in financial technology, students develop an understanding of key concepts, technologies and trends shaping the industry, and they learn to analyze and evaluate the opportunities and challenges presented by financial technology innovations. Students develop critical thinking and problem-solving skills to help them effectively apply solutions to practical challenges.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

Global Experience: As globalization continues to impact the way people live and work, international experiences have become vital to success in every field of business. Through international study and internships, students gain valuable skills employers are looking for, including communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide. Business students can participate in Global Education programs (<https://goglobal.asu.edu/>) nearly anywhere in the world and gain valuable internship experience in many global business hubs.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/students/major/wpcarey>) for students majoring in financial technology.

Career Opportunities: Graduates are equipped to contribute to the financial services landscape through work in a variety of areas, including developing new payment systems, improving security in financial institutions, and using data analysis to make investment decisions, often using cutting-edge technologies like machine learning and blockchain. With this versatile degree, graduates are well-positioned to pursue a broad range of roles such as:

- financial analysts: leveraging data to drive investment recommendations and decisions
- financial examiners: ensuring compliance with laws and regulations governing financial and securities institutions and transactions
- financial quantitative analysts: developing analytical tools to construct optimal portfolios, measuring performance and attribution, or modeling prices
- financial risk specialists: quantifying risk to assets, the earning capacity and success of an organization
- software developers: writing, updating and maintaining computer programs or software packages for new financial products and solutions

Logistics (Maritime), AS (BALGMARAS)

Campus: Online

Program Description: The AS program in logistics with a concentration in maritime applications uses interdisciplinary methods to prepare students to become maritime logistics professionals across all sectors: private, nonprofit, government and military. Designed for a partnership with the U.S. Naval Community College, the program provides training to enlisted personnel (Navy, Marines and Coast Guard).

Students in this program examine the theories, concepts and components of logistics, with particular attention to serving and supporting maritime and military logistics operations. Students also gain an understanding of logistics and supply chain management, and they develop the communication, financial management and accounting, analytics and managerial skills necessary to be successful in maritime and military logistics, as well as in private industry.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students must be accepted to the U.S. Naval Community College to be admitted to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BALGMARAS~null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

Management, BS (BAMGTBS)

Campus: Polytechnic, Tempe, West, Online

Program Description: The W. P. Carey School of Business BS program in management prepares students to become effective managers and team leaders. Students gain theoretical and conceptual knowledge and build critical skills such as:

- analytical research and problem-solving
- communication
- critical thinking
- global awareness
- leadership
- personal ethics and integrity
- teamwork

The curriculum includes the fundamentals of the global economy, the world of e-business, ethics, human resources, strategic management and collaborative team skills. Throughout the program, theories and concepts of management and ethical leadership are enhanced by experiencing and testing them in skill-based exercises, case discussions and real-world, team-based project work.

The management major prepares students to face:

- corporate accountability
- cross-functional management
- demands for continuous process improvements to enhance the value chain
- ethical decision-making
- the fast pace of e-business
- growing technological sophistication
- the need for skills in communicating and working with people, directing projects and managing change
- racial, cultural and gender diversity in the workforce

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to a successful career for marketing majors. Through any of the more than 300 available Global Education programs (<https://goglobal.asu.edu/>), students can gain valuable skills employers are looking for: communication and interpersonal skills, flexibility, motivation and a real-life perspective

on business applications worldwide. Understanding how cultural norms and values impact the marketing of goods and services in an international context will make the graduate a valuable contributor to many marketing careers.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/w-p-carey-marketing>) for students majoring in marketing.

Career Opportunities: The degree program provides fundamentals, flexibility and specialization opportunities, and through the proper selection of coursework and other educational experiences, a marketing student may prepare for a variety of careers in areas such as:

- business development
- business-to-business marketing
- customer relationship management
- international marketing
- market research and information management
- marketing communications
- professional sales and relationship management
- retail management
- sales management
- services marketing

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Data Science), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission requirements: 1230 SAT Reasoning or 25 ACT score, or graduated in the top 8% of high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

First-year applicants should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside of the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice are placed in a business Bachelor of Arts program in the W. P. Carey School of Business.

Readmission requirements: Students must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements: Transfer admission requirements (30 or more credit hours after high school): transfer GPA of 3.00 and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) or 25 ACT score, or graduated in the top 8% of high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer students should select an additional major when applying for admission. Additional choices may include any of the school's Bachelor of Arts programs or any other business or other degree program outside of the W. P. Carey School of Business.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice will be placed in a Bachelor of Arts program in the W. P. Carey School of Business. Students not interested in the program or campus location may reach out to wpcareyug@asu.edu (<mailto:wpcareyug@asu.edu>) for assistance selecting another degree program.

Change of Major Requirements: Students should refer to the W. P. Carey School of Business (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) website to determine if they meet change of major requirements. Students ready to change their major should submit their request through the school's advising website (<https://students.wpcarey.asu.edu/advising-sos>).

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BAMKDIMCBS-null + &college=CBA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to a successful career for marketing majors. Through any of the more than 300 available Global Education programs (<https://goglobal.asu.edu/>), students can gain valuable skills employers are looking for: communication and interpersonal skills, as well as flexibility, motivation and a real-life perspective on business applications worldwide. Understanding how cultural norms and values impact the marketing of goods and services in an international context makes the graduate a valuable contributor in many marketing environments.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/w-p-carey-marketing>) for students majoring in marketing.

Career Opportunities: The digital and integrated marketing communications concentration within the BS program in marketing is designed to equip students with cutting-edge knowledge in the marketing communications area. Graduates are well prepared to assume jobs in the areas of advertising, brand management and digital marketing. While the number and quality of job opportunities in advertising and brand management are

relatively small, the number of entry-level positions in digital marketing has exploded. A sampling of career opportunities includes:

- digital account manager
- digital marketing analyst
- digital marketing coordinator
- digital marketing specialist
- electronic marketing specialist

Supply Chain Management, BS (BASCMBBS)

Campus: Tempe, Online

Program Description: Supply chain managers play a crucial role in coordinating the seamless flow of goods and services, from raw material procurement to the delivery of final products to consumers. In today's globalized marketplace, where supply chains span across multiple vendors and geographical regions, effective supply chain management is essential for ensuring timely delivery, cost efficiency and customer satisfaction.

The BS program in supply chain management offers students a comprehensive understanding of integrated supply chain management principles and practices. Rooted in theoretical frameworks and practical applications, the curriculum encompasses a diverse range of topics, including:

- execution systems
- logistics
- negotiations
- operations management
- planning
- procurement
- strategy development

By integrating these topics with quantitative methodologies such as statistical modeling, data warehousing, data mining, programming, forecasting, operations research techniques, optimization, stochastic modeling, operations analysis, and design and prototyping, students gain a comprehensive understanding of how to leverage data-driven insights and also gain advanced analytical tools to optimize supply chain performance and drive strategic decision-making.

Classes are kept small to foster a collaborative learning environment, allowing students to engage actively with faculty and peers. Through hands-on projects and practical case studies, students have the opportunity to apply theoretical concepts to practical scenarios, bringing the material to life and gaining valuable insights into industry best practices.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Business Analytics, MS
Global Management (Creative Industries and Design Thinking), MGM
Global Management (Digital Audience Strategy), MGM
Global Management (Global Affairs), MGM
Global Management (Global Business), MGM
Global Management (Global Development and Innovation), MGM

Global Opportunities:

Global Experience: As globalization continues to impact the way people live and work, international experience has become vital to success in every field of business. Through international study and internships (<https://goglobal.asu.edu/>), students gain valuable skills that employers are looking for, including communication and interpersonal skills, flexibility, motivation and a global perspective on business applications worldwide.

The W. P. Carey School of Business recommends these programs (<https://goglobal.asu.edu/w-p-carey-supply-chain-management>) for students majoring in supply chain management.

Career Opportunities: Career track progression could lead to the vice president level in supply chain-related areas. ASU supply chain management graduates are recruited by firms from around the world and in all sectors of the economy, including:

- health care
- manufacturing
- public and private
- retail
- service

Graduates of the supply chain management program are highly sought-after and have excellent placements. Positions that supply chain management graduates have obtained include:

- buyer or planner
- distribution manager
- internet marketing analyst
- inventory specialist
- logistics planner
- materials manager
- operations planner or analyst
- planner or analyst
- production coordinator
- supply management analyst

Design and the Arts, Herberger Institute for

Apparel Technical Design, AA (HIATDAA)

Campus: ASU at Los Angeles

Program Description: The AA program in apparel technical design is a distinctly professional, hands-on degree program that prepares students for a dynamic career in the fashion industry. Students gain key skills sought across this global industry, such as flat and digital patternmaking and development, technical design, garment construction, technology for design, tech pack making and fit analysis.

Studio and lecture courses guides students in developing a strong foundation of industry acumen, design aesthetics, and garment and pattern construction valuable for technical design career paths. All courses are embedded within the principles of sustainability, producing the next generation of environmentally conscious industry leaders.

Los Angeles location

Students interested in using GI Bill® benefits should consider another ASU program.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

The Los Angeles location is not available for international students seeking an F-1 or J-1 visa. Visa-eligible students should consider another ASU program.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Architectural Studies, BSD (ARSTDBSD)

Campus: Tempe, Online

Program Description: The preprofessional BSD program in architectural studies offered by The Design School helps students understand architecture as both a cultural expression and technical achievement, and it offers an interdisciplinary approach to architecture.

Students are prepared for alternative practices with architecture firms and in related fields such as landscape architecture, engineering, art, construction, urban planning, urban design and historic preservation, or for graduate studies in the professional Master of Architecture program, in business fields or in law.

This program offers two possible paths: cross-disciplinary focus and professional focus. For the first three years, all students take two project-topic courses yearly, together with other classes, to develop their skills. In the third year, students intending to pursue professional licensure as a registered architect must declare to their advisor their interest in pursuing the professional focus.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap

in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: An ASU student who would like to change majors into this program and would be new to this major must have a minimum cumulative GPA of 2.75 and understand their GPA must be brought up to a 3.00 or above within one semester to remain in good standing. An ASU student who is returning to this major (having previously studied this major in a prior semester) must have a minimum cumulative GPA of 3.00.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/architecture-bachelors/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ARSTDBSD~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Develop design fundamentals in the context of diverse visual settings, demonstrating familiarity with their understanding of their core principles.
- Critically evaluate their designs and methodology to develop visual works that convey messages to broad audiences.
- Develop skills to creatively address ecological, cultural and social issues.

Global Opportunities:

Global Experience: International experiences supplement a major in architectural studies while also introducing students to new cultures, skills and perspectives. Whether in a foreign country, in the U.S. or online, students in architectural studies can learn about the complex differences between societies, which fosters a sense of empathy and understanding of the many ways people live in this world.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) enable students to tailor their experience to their unique interests and skill sets. The Herberger Institute for Design and the Arts recommends these programs (<https://goglobal.asu.edu/students/major/architectural-studies>) for students majoring in architectural studies.

Career Opportunities: Graduates of the bachelor's degree program are prepared for graduate school as well as a range of design-related careers.

Those who wish to become licensed can complete their professional studies by attending an accredited professional master's degree program. The Design School offers a two-year professional MArch degree for graduates of the undergraduate program.

Art (Animation), BFA (HIARTANBFA)

Campus: Tempe

Program Description: The BFA program in art with a concentration in animation offers students a comprehensive education that preserves tradition while fostering independent innovation. The curriculum embraces new visualization methodologies and tools with the potential to drive discoveries and insights across various disciplines.

In the first year, students engage in coursework that builds a foundation for them to situate animation within the realm of fine art practice. In the second year, students acquire fundamental artistic and technical skills for 2D and 3D animation production using industry-standard software. During the third year, students receive extended assistance by enrolling in upper-division courses specialized in various areas of animation production. In the fourth year, senior students, equipped with an advanced understanding of animation techniques and aesthetics, embark on the creation of a short animation film, either individually or collaboratively, throughout a one-year Animation Capstone course. Students can view examples of class projects and senior capstone projects completed by students in the ASU Animation Spring 2023 Showcase (<https://www.youtube.com/watch?v=CgmrdeBNfI0>) (<https://www.youtube.com/watch?v=CgmrdeBNfI0>). Upon completing the program, graduates can demonstrate both technical and artistic abilities, enabling them to create animations for exhibitions in arts venues such as galleries and museums; screen them at film and animation festivals; and use them in presentations for careers in the animation, game and film entertainment industries.

The program features a faculty of active professional artists who work at the forefront of computer-generated imagery; emerging technology (machine learning, virtual reality and extended reality); and independent animation filmmaking. Students enrolled in the program collaborate closely with faculty members, who not only impart essential knowledge but also emphasize critical concepts in their teaching, fostering interdisciplinary engagement. Moreover, students enjoy the opportunity to explore animation as an ever-expanding and evolving medium. This exploration is made possible through interactions with the state-of-the-art facilities and resources at the Media and Immersive eXperience Center (<https://herbergerinstitute.asu.edu/about/venues-facilities/mix-center>) in Mesa, Arizona. Designed to accommodate programs in film, media arts, design and emerging technology, the MIX Center hosts a vibrant community of hundreds of students who engage in a wide array of creative endeavors, including filmmaking, the design of new virtual worlds, video game development, and the creation of immersive media experiences across various domains.

The animation curriculum is augmented by internships (<https://students.herbergerinstitute.asu.edu/creative-career-services/internships>) offered by a wide range of arts organizations, and public exhibitions and visiting artist and scholar lectures supported by the School of Art galleries (<https://art.asu.edu/galleries>), the Ceramics Research Center and Archive (<https://asuartmuseum.org/research-learning/ceramics-research-center-archive/>) and the ASU Art Museum (<https://asuartmuseum.org/>). These events (<https://art.asu.edu/events>) offer students the opportunity to develop their knowledge and appreciation of contemporary art and culture while building a professional network.

Students can visit the animation area of study page (<https://art.asu.edu/degree-programs/animation>) to learn more about the program and the faculty.

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIARTANBFA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Create artwork for exhibitions in galleries, museums and other commercial venues demonstrating technical artistic abilities and conceptual development.
- Demonstrate professional preparedness by developing a comprehensive toolkit for self-promotion that will position them for success in the field of art and design.
- Create a cohesive body of artwork organized and shared in a professional digital portfolio.

Global Opportunities:

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to explore their creative side through an intercultural lens, deepen their understanding of the world and gain valuable career-building experiences. Study abroad can prove to be a vital accompaniment to any art concentration, allowing for broad historical and archaeological explorations. Students develop insight into the cultures and minds of some of the world's most notable artists when they experience the places that gave rise to specific artistic styles.

With more than 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Study abroad encourages students to develop and broaden their intercultural sensitivity, communication skills and leadership ability, and challenges them to think differently. Whether in a foreign country, in the U.S. or online, students learn to adapt and persevere, and they are provided with a chance to look inside themselves in a way they haven't done before, growing their personal and professional self-confidence along the way.

Career Opportunities: A degree in the arts offers students a pathway to a rich and varied choice of careers.

Studio art graduates find employment opportunities as artists in the field, selling their works through commercial galleries and commissions and to private collectors; as museum or gallery professionals, art dealers and directors; as private school art teachers and college professors; and as community-based artists (venues might include health care settings, nonprofit agencies, and local and national public arts). Animation graduates work within the realms of:

- augmented and virtual reality
- cinema and television
- design
- film
- fine arts
- games and game development
- illustration
- robotics
- scientific and data visualization

ASU alumni are animators, creative directors, graphic artists, multimedia designers and art directors, among others. For the last several years, jobs for multimedia artists, animators, and film and video editors have continued to trend upward nationally.

Graduates of this program also have gone on to start their own galleries or small businesses, exhibit at notable institutions, and receive prestigious grant and residency opportunities. Graduates are also prepared to pursue advanced research in graduate animation programs, equipped with a portfolio of completed works showcasing their unique artistic vision and collaborative spirit.

Art (Art Education), BFA (FAARTEBFA)

Campus: Tempe

Program Description: The BFA program in art with a concentration in art education provides students with creative teaching and learning processes and strategies, firsthand experience teaching art for a range of ages, an understanding of the study of art history and global cultures, and

practice in a variety of studio areas. Students learn about K-12 education in public, community and museum settings, and engage art education from multiple perspectives, including creative and critical thinking, ecological connections, inquiry-based learning, interdisciplinary curriculum development, multicultural contexts, and studio and conceptual art practices. In addition to their art education coursework, students are required to take coursework in the various studio areas offered in the School of Art. Faculty encourage students to be self-disciplined and self-directed, to understand complex ideas around how images function, and to develop a strong sense of themselves and their place in the world. Faculty emphasize critical concepts in their teaching and encourage research (<https://art.asu.edu/research>), interdisciplinary engagement and coursework from disciplines across the university.

The School of Art galleries (<https://art.asu.edu/galleries>), the Ceramics Research Center and Archive (<https://asuartmuseum.org/research-learning/ceramics-research-center-archive/>) and the ASU Art Museum (<https://asuartmuseum.org/>) support a robust schedule of public exhibitions and visiting artist and scholar lectures. These events (<https://art.asu.edu/events>) offer students the opportunity to develop their knowledge and appreciation of contemporary art and culture while building a professional network. Further augmenting the curriculum are numerous internships (<https://students.herbergerinstitute.asu.edu/creative-career-services/internships>) offered by a wide range of arts organizations.

Students can visit the art education area of study page (<https://art.asu.edu/degree-programs/art-education>) to learn more about the program and the faculty.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students are admitted directly to the art education concentration upon admittance to the BFA program in art.

Transfer Admission Requirements: Transfer students who have completed the foundational core and pre-art requirements are admitted directly to the art education concentration upon admittance to the Bachelor of Fine Arts program in art. To complete an undergraduate degree in four years, it is recommended that community college transfer students who are completing a two-year degree and have completed the foundational core and pre-art requirements apply and submit a declaration form in the semester in which they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts is subject to the existence of parallel and equal courses in the college's curriculum and to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Understand historical and contemporary practices within the field of art education through the development of curriculum incorporating fine arts

techniques for a range of settings and populations.

- Demonstrate professional preparedness, including writing an articulate statement of their teaching philosophy and assembling a documented cohesive body of pedagogical materials and creative work.
- Demonstrate effective teaching dispositions in the classroom through successful firsthand engagements with learners that meet established pedagogical standards with culturally responsive techniques and methods.

Global Opportunities:

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to explore their creative side through an intercultural lens, deepen their understanding of the world and gain valuable career-building experiences. Study abroad can prove to be a vital accompaniment to any art concentration, allowing for broad historical and archaeological explorations. Students develop insight into the cultures and minds of some of the world's most notable artists when they experience the places that gave rise to specific artistic styles. With more than 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Study abroad encourages students to develop and broaden their intercultural sensitivity, communication skills and leadership ability, and challenges them to think differently. Whether in a foreign country, in the U.S. or online, students learn to adapt and persevere, and they are provided with a chance to look inside themselves in a way they haven't done before, growing their personal and professional self-confidence along the way.

Career Opportunities: A degree in the arts offers students a pathway to a rich and varied choice of careers. The School of Art programs prepare students to initiate creative careers as artists, scholars and educators in the public and private sphere.

Art graduates find employment opportunities as artists in the field, selling their works through commercial galleries and commissions and to private collectors; as museum or gallery professionals, art dealers and directors; as private school art teachers and college professors; and as community-based artists (venues might include health care settings, nonprofit agencies, and local and national public arts). Art education graduates find employment opportunities with charter schools, art museums, nonprofit art spaces, and recreational or community-oriented service groups that offer art instruction. Those who also complete the state certification requirements for an art specialist certificate may teach in public and private elementary schools, middle schools and high schools. Other options include working at arts agencies and public art programs or gaining admission to prestigious graduate programs across the nation.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Art (Art History), BA (FAARTHBA)

Campus: Tempe, Online

Program Description: The BA program in art history is a dynamic program that investigates visual culture and engages students in a rich and diverse curriculum, including the close study of artists, objects and technologies within economic, social and political contexts. Inherently interdisciplinary, art history intersects with a variety of fields and disciplines such as literature, science, anthropology, media and performance studies. Faculty members emphasize critical concepts in their teaching and encourage interdisciplinary coursework from disciplines across the university and internships (<https://students.herbergerinstitute.asu.edu/creative-career-services/internships>) from a wide range of arts organizations. The art history program is further enriched by partnerships with the ASU Art Museum (<https://asuartmuseum.org>) and museums throughout the Phoenix metropolitan area and beyond, including an affiliation with the Los Angeles County Museum of Art (<https://www.lacma.org>) (<https://www.lacma.org>).

Students can visit the art history area of study page (<https://art.asu.edu/degree-programs/art-history>) to learn more about the program and faculty.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College MathematicsAny math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Creative Enterprise and Cultural Leadership, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students meeting the university requirements for admission may matriculate in the Herberger Institute for Design and the Arts. Separate admission procedures and approvals are required for some programs within the college. Students must contact specific departments or schools for details.

First-year students applying to the Herberger Institute School of Art enter ASU as art exploratory majors in the School of Art. There is no portfolio review process for first-year-students at the time of admission to ASU.

Typically, students in their second year who are interested in studio art and art education submit a portfolio for review once they have completed their core requirements and are completing the last of the 12 hours of 200-level art requirements; students who are interested in art history or museum studies submit a declaration form in the semester in which they complete 30 hours.

Transfer Admission Requirements: Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts is subject to the existence of parallel and equal courses in the college's curriculum and to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-art-history/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAARTHBA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Distinguish significant works of art from different periods and cultures of Western and non-western art history.
- Demonstrate research skills in the field of art history.
- Synthesize art history research into written and oral communication.

Global Opportunities:

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to explore their creative side through an intercultural lens, deepen their understanding of the world and gain valuable career-building experiences. Study abroad can prove to be a vital accompaniment to any art concentration, allowing for broad historical and archaeological explorations. Students develop insight into the cultures and minds of some of the world's most notable artists when they experience the places that gave rise to specific artistic styles. With more than 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. ART 102

herbergeradvising@asu.edu

480-965-8521

Art (Art Studies), BA (FAARTSTDBA)

Campus: Tempe, Online

Program Description: The BA program in art with a concentration in art studies is a comprehensive, innovative and multidisciplinary program. Students in art studies explore a broad range of visual arts practices, work with their hands to create art and gain critical skills that support a creative lifestyle. The curriculum offers students the opportunity to develop a broad educational foundation in the arts. Students have a great deal of flexibility when designing their course of study, enabling them to focus on their individual creative aspirations. This uniquely open degree program features art history and contemporary arts practices and techniques from a variety of studio disciplines: animation, drawing, ceramics, illustration, printmaking, painting, photography and sculpture, among others. Additionally, the School of Art galleries (<https://art.asu.edu/galleries>), the Ceramics Research Center and Archive (<https://asuartmuseum.org/research-learning/ceramics-research-center-archive/>) and the ASU Art Museum (<https://asuartmuseum.org/>) support a robust schedule of virtual and in-person visiting artist and scholar lectures. These events (<https://art.asu.edu/events>) offer students the opportunity to develop their knowledge and appreciation of contemporary art and culture. Further augmenting the curriculum are numerous internships (<https://students.herbergerinstitute.asu.edu/creative-career-services/internships>) offered by a wide range of arts organizations.

Students can visit the art studies area of study page (<https://art.asu.edu/degree-programs/art-studies>) and art studies at ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/art-studies-bachelors/>) to learn more about the program and the faculty.

ART 102

herbergeradvising@asu.edu

480-965-8521

Art (Ceramics), BFA (FAARTCBFA)

Campus: Tempe

Program Description: The BFA program in art with a concentration in ceramics provides students a solid foundation of skills and knowledge, striking a balance between the acquisition of traditional skills and the promotion of independence and innovation. Students learn about the history of art and contemporary practices within a global cultural context and study a range of materials and techniques in specialized facilities, enabling the highest level of learning and production. Faculty emphasize critical concepts in their teaching and encourage research (<https://art.asu.edu/research>), interdisciplinary engagement and coursework from disciplines across the university.

The School of Art (<https://art.asu.edu/events/visiting-artist-and-scholar-series>), the Ceramics Research Center and Archive (<https://asuartmuseum.org/research-learning/ceramics-research-center-archive/>) and the ASU Art Museum (<https://asuartmuseum.org/>) support a robust schedule of public exhibitions and visiting artist and scholar lectures. These events (<https://art.asu.edu/events>) offer students the opportunity to develop their knowledge and appreciation of contemporary art and culture while building a professional network. Further augmenting the curriculum are numerous internships (<https://students.herbergerinstitute.asu.edu/creative-career-services/internships>) offered by a wide range of arts organizations. Capstone and research studio courses engage students intellectually and critically as they gain the practical experience of developing a distinctive body of work and presenting that work (<https://art.asu.edu/research/student-work>) in one of the School of Art galleries (<https://art.asu.edu/galleries>), meaning graduates of this program are prepared for the future with a portfolio of completed works that showcases their unique artistic vision.

Students can visit the ceramics area of study page (<https://art.asu.edu/degree-programs/ceramics>) to learn more about the program and faculty, and they can sign up for the School of Art newsletter (<https://art.asu.edu/events/email-list>) to learn more about its creative community.

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAARTCBFA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in

their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will learn studio fine art techniques and contemporary practices within ceramics and gain the skills for critical writing and verbal analysis. Upon completion of the program, students will be able to demonstrate the technical artistic abilities and conceptual development necessary to create artworks for exhibitions in galleries, museums, festivals, etc. and to pursue advanced research in graduate ceramics programs.

- Students will learn to think critically and practically about their professional practice and develop a comprehensive toolkit for self-promotion positioning them for success in the field of art and design. This program prepares students to apply to selected graduate programs and pursue professional art opportunities, including exhibitions, residencies and grants. Graduates demonstrate academic awareness and professional preparedness.

- Upon completion of the program, students of the BFA program in art will be able to articulate how their work fits within the context of the art world holistically and within the ceramics program. Students will participate in a group BFA capstone exhibition with a professionally installed body of cohesive artwork, along with an artist statement that supports their work, and assemble a professional digital portfolio.

Global Opportunities:

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to explore their creative side through an intercultural lens, deepen their understanding of the world and gain valuable career-building experiences. Study abroad can prove to be a vital accompaniment to any art concentration, allowing for broad historical and archaeological explorations. Students develop insight into the cultures and minds of some of the world's most notable artists when they experience the places that gave rise to specific artistic styles.

With more than 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Study abroad encourages students to develop and broaden their intercultural sensitivity, communication skills and leadership ability, and challenges them to think differently. Whether in a foreign country, in the U.S. or online, students learn to adapt and persevere, and they are provided with a chance to look inside themselves in a way they haven't done before, growing their personal and professional self-confidence along the way.

Career Opportunities: A degree in the arts offers students a pathway to a rich and varied choice of careers. The School of Art programs prepare students to initiate creative careers as artists, scholars and educators in the public and private sphere.

Art graduates find employment opportunities as artists in the field, selling their works through commercial galleries and commissions and to private collectors; as museum or gallery professionals, art dealers and directors; as private school art teachers and college professors; and as community-based artists (venues might include health care settings, nonprofit agencies, and local and national public arts). Ceramics graduates may also work as designers and consultants to the commercial ceramic industry, while others set up their own businesses, producing handcrafted functional ware, architectural tiles and one-of-a-kind works. Other options include working at arts agencies and public art programs or gaining admission to prestigious graduate programs across the nation.

ART 102

herbergeradvising@asu.edu

480-965-8521

Art (Digital Photography), BFA (HIARTDPBFA)

Campus: Online

Program Description: The BFA program in art with a concentration in digital photography is an online photography program that educates students about photography and creativity through looking at, making and analyzing photographs.

Students develop an understanding of contemporary issues and of the history and theories of photography; learn about the relationships between technique, concept and aesthetics; and develop a critical vocabulary that is essential for creators, viewers and users of photography. Students are encouraged to discover their unique interests and passions as they develop their own creative process and potential. Students in the Bachelor of Fine Arts program in art graduate prepared for the future with a portfolio of completed works that showcases their unique artistic vision.

Capstone and research studio courses engage students intellectually and critically as they gain the practical experience of developing a distinctive body of work (<https://art.asu.edu/research/student-work>).

Augmenting the curriculum are a wide range of internships (<https://students.herbergerinstitute.asu.edu/creative-career-services/internships>) offered by arts organizations. Additionally, the School of Art galleries (<https://art.asu.edu/galleries>), the Ceramics Research Center and Archive (<https://asuartmuseum.org/research-learning/ceramics-research-center-archive/>) and the ASU Art Museum (<https://asuartmuseum.org/>) ensure that

students have access to an ongoing schedule of public exhibitions, visiting artist and scholar lectures and specialized collections. Professional events (<https://art.asu.edu/events>) offer students the opportunity to develop their knowledge and appreciation of contemporary art and culture while building a professional network. The Northlight Gallery (<https://art.asu.edu/about/galleries-and-facilities/northlight-gallery>) is a dedicated photographic gallery directed by Cecilia Fajardo-Hill, a curator in modern and contemporary art, focusing on Latin American and Latino art. The gallery houses two important historical photographic collections: the Northlight Gallery permanent collection and the Solari Foundation collection. These collections offer an invaluable resource for researching historical methods, including analog photographic methods and printing techniques, and for examining the ways that historical photography has shaped contemporary ways of seeing.

Students can visit the digital photography area of study page (<https://art.asu.edu/bachelors-degrees/majorinfo/HIARTDPBFA/undergrad/false/11>) to learn more about the program and faculty.

Curriculum examples

Professor Betsy Schneider, founder of the program, and Professor Granville Carroll discuss their courses and the student experience in these videos.

Betsy Schneider --- <https://www.youtube.com/watch?v=OVEPXM9snhs> (<https://www.youtube.com/watch?v=OVEPXM9snhs>)

Granville Carroll --- <https://www.youtube.com/watch?v=erOtkCSecm4> (<https://www.youtube.com/watch?v=erOtkCSecm4>)

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/art-digital-photography-bfa/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIARTDPBFA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Create artwork for exhibitions in galleries, museums and other venues demonstrating technical artistic abilities and conceptual development.

- Demonstrate professional preparedness by developing a comprehensive toolkit for self-promotion that will position them for success in the field of art and design.

- Create a cohesive body of artwork organized and shared in a professional digital portfolio.

Global Opportunities:

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to explore their creative side through an intercultural lens, deepen their understanding of the world and gain valuable career-building experiences. Study abroad can prove to be a vital accompaniment to any art concentration, allowing for broad historical and archaeological explorations. Students develop insight into the cultures and minds of some of the world's most notable artists when they experience the places that gave rise to specific artistic styles.

With more than 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Study abroad encourages students to develop and broaden their intercultural sensitivity, communication skills and leadership ability, and challenges them to think differently. Whether in a foreign country, in the U.S. or online, students learn to adapt and persevere, and they are provided with a chance to look inside themselves in a way they haven't done before, growing their personal and professional self-confidence along the way.

Career Opportunities: A degree in the arts offers students a pathway to a rich and varied choice of careers. The School of Art programs prepare students to initiate creative careers as artists, scholars and educators in the public and private sphere.

Art graduates find employment opportunities as artists in the field, selling their works through commercial galleries and commissions and to private collectors; as museum or gallery professionals, art dealers and directors; as private school art teachers and college professors; and as community-based artists (venues might include health care settings, nonprofit agencies, and local and national public arts).

Digital photography graduates embark on a lifetime exploration of the many aspects of photography, including as a client-based photographer (advertising, marketing and editorial), documentary photographer, photobook designer, publisher, critic, photojournalist, art handler, framer, photo retoucher and lab manager. Other options include working at arts agencies and public art programs or gaining admission to prestigious graduate programs across the nation.

Art (Drawing), BFA (FAARTDBFA)

Campus: Tempe

ASU is no longer accepting new students to this program. Students interested in drawing should apply to the painting and drawing concentration (<https://degrees.apps.asu.edu/bachelors/major/ASU00/HiARTPDBFA/art-painting-and-drawing>).

Program Description: The BFA program in art with a concentration in drawing offers a dynamic environment for creative and conceptual growth that promotes an active studio practice. The program's curriculum encourages a wide spectrum of approaches to painting and drawing techniques. Students develop proficiency through working from a variety of sources and subjects, and a range of materials and processes. Faculty encourage students to develop their own unique artistic vision and critically assess imagery in context to the history of art and contemporary practices. Faculty emphasize critical concepts in their teaching and encourage research (<https://art.asu.edu/research>), interdisciplinary engagement and coursework from disciplines across the university.

Faculty provide students with professional mentorship regarding opportunities such as assistantships, internships, scholarships, residencies and exhibitions. Additionally, the School of Art galleries (<https://art.asu.edu/galleries>), the Ceramics Research Center and Archive (<https://asuartmuseum.org/research-learning/ceramics-research-center-archive/>) and the ASU Art Museum (<https://asuartmuseum.org/>) support a robust schedule of public exhibitions and visiting artist and scholar lectures. These events (<https://art.asu.edu/events>) offer students the opportunity to develop their knowledge and appreciation of contemporary art and culture while building a professional network. Further augmenting the curriculum are numerous internships (<https://students.herbergerinstitute.asu.edu/creative-career-services/internships>) offered by a wide range of arts organizations. Graduates from the Bachelor of Fine Arts in art program are prepared for the future with a portfolio of completed works that showcases their unique artistic vision. Capstone and research studio courses engage students intellectually and critically as they gain the practical experience of developing a distinctive body of work and presenting that work (<https://art.asu.edu/research/student-work>) in one of the School of Art galleries.

Students can visit the painting and drawing area of study page (<https://art.asu.edu/degree-programs/drawing-painting>) to learn more about the program and faculty.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or MAT 119 Finite Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Currently, all art students are admitted to ASU into the BA (art studies) program. They must complete a series of requirements that include foundational coursework to be eligible for study in one of the school's BFA degree programs, which include upper-division coursework in the studio. There is no portfolio review process for admission to the School of Art.

Students in their second year who are interested in studio art and art education obtain a signed BFA declaration form after completing the core requirements and during completion of the last of the 12 hours of 200-level art requirements. Students interested in art history or museum studies submit a major declaration form in the semester in which they complete 30 credit hours. The student's major is changed upon successful completion of the major declaration form. Students may choose to remain in and complete the Bachelor of Arts (art studies).

Beginning fall 2019, students are admitted directly to the drawing concentration upon admittance to the BFA program in art.

Transfer Admission Requirements: Transfer students who have completed the foundational core and pre-art requirements may submit a major declaration form before they have been admitted to ASU. To complete an undergraduate degree in four years, it is recommended that community college transfer students who are completing a two-year degree and have completed the foundational core and pre-art requirements apply and submit a declaration form in the semester in which they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts is subject to the existence of parallel and equal courses in the college's curriculum and to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Beginning fall 2019, transfer students are admitted directly to the drawing concentration upon admittance to the Bachelor of Fine Arts program in art.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAARTDBFA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Art (Expanded Arts), BFA (FAARTIBFA)

Campus: Tempe

Program Description: The BFA program in art with a concentration in expanded arts educates students in traditional and emerging art forms, including performance, installation, 3D fabrication, digital sculpture, public and place-based art, and experimental and documentary video. The curriculum emphasizes interdisciplinary practice and critical theory in the context of cultural diversity, global awareness and community engagement, and the history, traditions and innovations within art.

Faculty provide students professional mentorship regarding opportunities such as assistantships, internships, scholarships, residencies and exhibitions. The School of Art (<https://art.asu.edu/events/visiting-artist-and-scholar-series>), the Ceramics Research Center and Archive (<https://asuartmuseum.org/research-learning/ceramics-research-center-archive/>) and the ASU Art Museum (<https://asuartmuseum.org/>) support a robust schedule of public exhibitions and visiting artist and scholar lectures. These events (<https://art.asu.edu/events>) offer students the opportunity to develop their knowledge and appreciation of contemporary art and culture while building a professional network. Further augmenting the curriculum are numerous internships (<https://students.herbergerinstitute.asu.edu/creative-career-services/internships>) offered by a wide range of arts organizations. Career Opportunities: A degree in the arts offers students a pathway to a rich and varied choice of careers. The School of Art prepares students to initiate creative careers as artists, scholars and educators in the public and private sphere.

Expanded arts graduates work within the realms of:

- augmented reality and virtual reality
- cinema and television
- communication
- education
- the film, music or entertainment industries
- fine arts and design
- illustration
- robotics
- scientific and data visualization
- video production and postproduction
- web-based entertainment

They can become:

- art directors
- audio and video equipment technicians
- commercial and industrial designers
- set designers

For the last several years, jobs for multimedia artists, animators, film and video editors have continued to trend upward nationally.

Graduates of this program also have gone on to start their own galleries or small businesses, exhibit at notable institutions, and receive prestigious grants and residency opportunities.

Art (Museum Studies), BA (FAARTMSBA)

Campus: Tempe, Online

Program Description: The BA program in art with a concentration in museum studies focuses on the most prescient themes and issues at the forefront of the contemporary museum. These include various ethical and institutional issues, such as decolonization, activist curating, gender and race equity, accessibility, social justice and cultural diversity, and the role that institutions can play in fostering an imaginative museum practice that is inclusive and relevant to the future of society. To reflect the breadth of the sector, students pursuing museum studies select from a large pool of approved subjects and, in consultation with their advisor, their own focus areas, such as art history, liberal studies, education, global studies, justice studies, anthropology and other areas. These courses offer a range of learning opportunities led by scholars and museum practitioners from across the ASU campus and around the globe.

Augmenting the curriculum are a wide range of internships (<https://students.herbergerinstitute.asu.edu/creative-career-services/internships>) offered by arts organizations, enabling students to work directly with arts professionals in their field of interest. Additionally, the School of Art galleries (<https://art.asu.edu/galleries>), the Ceramics Research Center and Archive (<https://asuartmuseum.org/research-learning/ceramics-research-center-archive/>) and the ASU Art Museum (<https://asuartmuseum.org/>) ensure that students have access to an ongoing schedule of public exhibitions, visiting artist and scholar lectures and specialized collections. Professional events (<https://art.asu.edu/events>) offer students the opportunity to develop their knowledge and appreciation of contemporary art and culture while building a professional network. The Northlight Gallery (<https://art.asu.edu/about/galleries-and-facilities/northlight-gallery>) is a dedicated photographic gallery directed by Cecilia Fajardo-Hill, a curator in modern and contemporary art, that focuses on Latin American and Latino art. The gallery houses two important historical photographic collections: the Northlight Gallery permanent collection and the Solari Foundation collection. These collections offer an invaluable resource for researching historical methods, including analog photographic methods and printing techniques, and for examining the ways historical photography has shaped contemporary ways of seeing.

Student can visit the museum studies area of study page (<https://art.asu.edu/bachelors-degrees/majorinfo/FAARTMSBA/undergrad/false/11>) to learn more about the program and the faculty.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College MathematicsAny math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Creative Enterprise and Cultural Leadership, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students meeting the university requirements for admission may matriculate in the Herberger Institute for Design and the Arts. Separate admission procedures and approvals are required for some programs within the college. Students must contact specific departments or schools for details.

Transfer Admission Requirements: Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts is subject to the existence of parallel and equal courses in the college's curriculum and to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Students develop insight into the cultures and minds of some of the world's most notable artists when they experience the places that gave rise to specific artistic styles.

With more than 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Study abroad encourages students to develop and broaden their intercultural sensitivity, communication skills and leadership ability, and challenges them to think differently. Whether in a foreign country, in the U.S. or online, students learn to adapt and persevere, and they are provided with a chance to look inside themselves in a way they haven't done before, growing their personal and professional self-confidence along the way.

Career Opportunities: A degree in the arts offers students a pathway to a rich and varied choice of careers. The School of Art programs prepare students to initiate creative careers as artists, scholars and educators in the public and private sphere.

Art graduates find employment opportunities as artists in the field, selling their works through commercial galleries and commissions and to private collectors; as museum or gallery professionals, art dealers and directors; as private school art teachers and college professors; and as community-based artists (venues might include health care settings, nonprofit agencies, and local and national public arts). Other options include working at arts agencies and public art programs or gaining admission to prestigious graduate programs across the nation.

Art (Painting), BFA (FAARTPABFA)

Campus: Tempe

ASU is no longer accepting new students to this program. Students interested in painting should apply to the painting and drawing concentration (<https://degrees.apps.asu.edu/bachelors/major/ASU00/HIARTPDBFA/art-painting-and-drawing>).

Program Description: The BFA program in art with a concentration in painting offers a dynamic environment for creative and conceptual growth that promotes an active studio practice. The program's curriculum encourages a wide spectrum of approaches to painting and drawing techniques. Students develop proficiency through working from a variety of sources and subjects, and a range of materials and processes. Faculty encourage students to develop their own unique artistic vision and critically assess imagery in context to the history of art and contemporary practices. Faculty emphasize critical concepts in their teaching and encourage research (<https://art.asu.edu/research>), interdisciplinary engagement and coursework from disciplines across the university.

Faculty provide students professional mentorship regarding opportunities such as assistantships, internships, scholarships, residencies and exhibitions. Additionally, the School of Art galleries (<https://art.asu.edu/galleries>), the Ceramics Research Center and Archive (<https://asuartmuseum.org/research-learning/ceramics-research-center-archive/>) and the ASU Art Museum (<https://asuartmuseum.org/>) support a robust schedule of public exhibitions and visiting artist and scholar lectures. These events (<https://art.asu.edu/events>) offer students the opportunity to develop their knowledge and appreciation of contemporary art and culture while building a professional network. Further augmenting the curriculum are numerous internships (<https://students.herbergerinstitute.asu.edu/creative-career-services/internships>) offered by a wide range of arts organizations. Capstone and research studio courses engage students intellectually and critically as they gain the practical experience of developing a distinctive body of work and presenting that work (<https://art.asu.edu/research/student-work>) in one of the School of Art galleries, meaning students in the program graduate prepared for the future with a portfolio of completed works that showcases their unique artistic vision.

Students can visit the painting and drawing area of study page (<https://art.asu.edu/degree-programs/drawing-painting>) to learn more about the program and the faculty.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or MAT 117 College Algebra or MAT 119 Finite Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Currently, all art students are admitted to ASU into the BA (art studies) program. They must complete a series of requirements, including foundational coursework, to be eligible for study in one of the school's BFA degree programs, which include upper-division coursework in the studio. There is no portfolio review process for admission to the School of Art.

Students in their second year who are interested in studio art and art education obtain a signed BFA declaration form after completing the core

requirements and during completion of the last of the 12 hours of 200-level art requirements. Students interested in art history or museum studies submit a major declaration form in the semester in which they complete 30 credit hours. The student's major is changed upon successful completion of the major declaration form. Students may choose to remain in and complete the Bachelor of Arts (art studies).

Beginning fall 2019, students are admitted directly to the painting concentration upon admittance to the Bachelor of Fine Arts program in art. Transfer Admission Requirements: Transfer students who have completed the foundational core and pre-art requirements may submit a major declaration form before they have been admitted to ASU. To complete an undergraduate degree in four years, it is recommended that community college transfer students who are completing a two-year degree and have completed the foundational core and pre-art requirements apply and submit a declaration form in the semester in which they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts is subject to the existence of parallel and equal courses in the college's curriculum and to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Beginning fall 2019, transfer students are admitted directly to the painting concentration upon admittance to the Bachelor of Fine Arts program in art.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAARTPABFA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to explore their creative side through an intercultural lens, deepen their understanding of the world and gain valuable career-building experiences. Study abroad can prove to be a vital accompaniment to any art concentration, allowing for broad historical and archaeological explorations. Students develop insight into the cultures and minds of some of the world's most notable artists when they experience the places that gave rise to specific artistic styles.

With more than 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Study abroad encourages students to develop and broaden their intercultural sensitivity, communication skills and leadership ability, and challenges them to think differently. Whether in a foreign country, in the U.S. or online, students learn to adapt and persevere, and they are provided with a chance to look inside themselves in a way they haven't done before, growing their personal and professional self-confidence along the way.

Career Opportunities: A degree in the arts offers students a pathway to a rich and varied choice of careers. School of Art programs prepare students to initiate creative careers as artists, scholars and educators in the public and private sphere.

Art graduates find employment opportunities as artists in the field, selling their works through commercial galleries and commissions and to private collectors; as museum or gallery professionals, art dealers and directors; as private school art teachers and college professors; and as community-based artists (venues might include health care settings, nonprofit agencies, and local and national public arts). ART 102

herbergeradvising@asu.edu

480-965-8521

Art (Photography), BFA (FAARTPHBFA)

Campus: Tempe

Program Description: The BFA in art with a concentration in photography offers students an education in the production and analysis of photographs. Students explore a variety of approaches to the production of photo-based art and work in a wide range of photographic media, including state-of-the-art digital output, analog and 19th-century processes. Faculty encourage students to be self-disciplined and self-directed, to understand complex ideas around how images function in their work, and to develop a strong sense of themselves and their place in the world.

Critical concepts, research (<https://art.asu.edu/research>), interdisciplinary engagement and coursework from disciplines across the university are emphasized.

The School of Art (<https://art.asu.edu/events/visiting-artist-and-scholar-series>), the Ceramics Research Center and Archive (<https://asuartmuseum.org/research-learning/ceramics-research-center-archive/>) and the ASU Art Museum (<https://asuartmuseum.org/>) support a robust schedule of public exhibitions and visiting artist and scholar lectures. These events (<https://art.asu.edu/events>) offer students the opportunity to develop their knowledge and appreciation of contemporary art and culture while building a professional network. Further augmenting the curriculum are numerous internships (<https://students.herbergerinstitute.asu.edu/creative-career-services/internships>) offered by a wide range of arts organizations. Capstone and research studio courses engage students intellectually and critically as they gain the practical experience of developing a distinctive body of work and presenting that work (<https://art.asu.edu/research/student-work>) in one of the School of Art galleries (<https://art.asu.edu/galleries>), meaning that graduates of this program are prepared for the future with a portfolio of completed works that showcases their unique artistic vision.

Students have access to specialized facilities and equipment, and the Northlight Gallery (<https://art.asu.edu/about/galleries-and-facilities/northlight-gallery>), a dedicated photographic gallery that houses two important historical photographic collections: the Northlight Gallery permanent collection and the Solari Foundation collection. These collections offer an invaluable resource for researching historical methods, including analog photographic methods and printing techniques, and for examining the ways historical photography has shaped contemporary ways of seeing.

Students can visit the photography area of study page (<https://art.asu.edu/degree-programs/photography>) to learn more about the program and faculty, and they can sign up for the School of Art newsletter (<https://art.asu.edu/events/email-list>) to learn more about its creative community.

Additional Program Fee: Y

Additional Requirements: There is no portfolio review process for admission to the School of Art.

Transfer Admission Requirements: To complete an undergraduate degree in four years, it is recommended that community college transfer students complete the foundational core and pre-art requirements.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts is subject to the existence of parallel and equal courses in the college's curriculum and to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAARTPHBFA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Create artwork for exhibitions in galleries, museums and other venues demonstrating technical artistic abilities and conceptual development.
- Demonstrate professional preparedness by developing a comprehensive toolkit for self-promotion that will position them for success in the field of art and design.
- Create a cohesive body of artwork organized and shared in a professional digital portfolio.

Global Opportunities:

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to explore their creative side through an intercultural lens, deepen their understanding of the world and gain valuable career-building experiences. ART 102

herbergeradvising@asu.edu

480-965-8521

Art (Printmaking), BFA (FAARTPMBFA)

Campus: Tempe

Program Description: The BFA program in art with a concentration in printmaking educates students in technical processes, conceptual development and problem-solving to address the important questions in creative, social and community practices. The program's curriculum encourages students to develop proficiency through working from a variety of sources and subjects, and a range of materials and processes. Specialized studios facilitate the teaching of intaglio, lithography, relief, screen printing, book arts and letterpress, papermaking and the digital print process.

Interdisciplinary engagement is emphasized; students often work with other areas, such as photography, intermedia, social arts practice, textiles, painting and drawing, and sculpture and on projects within the larger university and community (<https://art.asu.edu/research>).

Students also have access to the Pyracantha Press (<https://art.asu.edu/degree-programs/printmaking/pyracantha-press>), an independent publishing imprint with publications in 105 national and international public collections. The press includes 3,000 cases of type and several ornate printing presses, including an 1834 Columbian, firmly establishing Pyracantha Press as home to the largest collection of type at any institution of higher education in North America.

Faculty encourage students to develop their own unique artistic vision and critically assess imagery in context to the history of art and contemporary practices. Augmenting the curriculum are a wide range of internships (<https://students.herbergerinstitute.asu.edu/creative-career-services/internships>) offered by arts organizations. Additionally, the School of Art galleries (<https://art.asu.edu/galleries>), the Ceramics Research Center and Archive (<https://asuartmuseum.org/research-learning/ceramics-research-center-archive/>) and the ASU Art Museum (<https://asuartmuseum.org/>) ensure that students have access to an ongoing schedule of public exhibitions and visiting artist and scholar lectures. These events (<https://art.asu.edu/events>) offer students the opportunity to develop their knowledge and appreciation of contemporary art and culture while building a professional network. Capstone and research studio courses engage students intellectually and critically as they gain the practical experience of developing a distinctive body of work and presenting that work (<https://art.asu.edu/research/student-work>) in one of the school's four galleries, meaning students in the program graduate prepared for the future with a portfolio of completed works that showcases their unique artistic vision.

Students can visit the printmaking area of study page (<https://art.asu.edu/degree-programs/printmaking>) to learn more about the program and the faculty, and sign up for the School of Art newsletter (<https://art.asu.edu/events/email-list>) to learn more about its creative community.

480-965-8521

Art (Sculpture), BFA (FAARTSBFA)

Campus: Tempe

Program Description: The BFA program in art with a concentration in sculpture recognizes an expanded definition of sculpture today. The curriculum emphasizes material investigations and conceptual development. Sculpture students study a range of materials and techniques in specialized facilities, enabling the highest level of learning and production. Coursework covers public and site-specific sculpture, foundry, interactive and electronic sculpture, neon, small metals, wood, textile, and video and sound installation. Along with developing technical skills, students learn to put today's creations in the context of the history of sculpture and the larger field of contemporary art. Students learn about the history of art and contemporary practices within a global cultural context. Faculty emphasize critical concepts in their teaching and encourage interdisciplinary engagement and coursework from disciplines across the university. Students can visit the school's website (<https://art.asu.edu/research>) to learn more.

Graduates from the Bachelor of Fine Arts in art program are prepared for the future with a portfolio of completed works that showcases their unique artistic vision. Capstone and research studio courses engage students intellectually and critically as they gain the practical experience of developing a distinctive body of work and presenting that work (<https://art.asu.edu/research/student-work>) in one of the School of Art galleries. Students receive faculty mentorship regarding opportunities such as assistantships, internships, scholarships, residencies and exhibitions. Additionally, the School of Art galleries (<https://art.asu.edu/galleries>), the Ceramics Research Center and Archive (<https://asuartmuseum.org/research-learning/ceramics-research-center-archive/>) and the ASU Art Museum (<https://asuartmuseum.org/>) provide a robust schedule of public exhibitions and visiting artist and scholar lectures. Art (Textiles), BFA (FAARTFBFA)

Campus: Tempe

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program Description: The BFA program in art with a concentration in textiles mentors and educates students in challenging technical and creative methods of studio art practice; critical thinking in the context of cultural diversity, global awareness and community engagement; and the history, 2024-25 Academic Catalog Archive 2068

traditions and innovations within art. Working from fundamental techniques, students gain mastery of skill, along with an immersion in related critical theory. An emphasis is placed on how investigations into the material and the political and social histories of textiles can inform contemporary art practice. Students develop proficiency through working from a variety of sources and subjects, and a range of materials and processes. Faculty encourage students to develop their own unique artistic vision and critically assess imagery in context to the history of art and contemporary practices. Faculty emphasize critical concepts in their teaching and encourage research (<https://art.asu.edu/research>), interdisciplinary engagement and coursework from disciplines across the university. Faculty also provide students professional mentorship regarding opportunities such as assistantships, internships, scholarships, residencies and exhibitions.

The School of Art (<https://art.asu.edu/events/visiting-artist-and-scholar-series>), the Ceramics Research Center and Archive (<https://asuartmuseum.org/research-learning/ceramics-research-center-archive/>), and the ASU Art Museum (<https://asuartmuseum.org/>) support a robust schedule of public exhibitions and visiting artist and scholar lectures. These events (<https://art.asu.edu/events>) offer students the opportunity to develop their knowledge and appreciation of contemporary art and culture while building a professional network. Further augmenting the curriculum are numerous internships (<https://students.herbergerinstitute.asu.edu/creative-career-services/internships>) offered by a wide variety of arts organizations. Capstone and research studio courses engage students intellectually and critically as they develop a distinctive body of work and present that work (<https://art.asu.edu/research/student-work>) in one of the School of Art galleries (<https://art.asu.edu/galleries>), meaning that graduates of this program are prepared for the future with a portfolio of completed works that showcases their unique artistic vision.

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year students are admitted directly to the textiles concentration upon admittance to the BFA program in art.

Transfer Admission Requirements: Transfer students must have completed the foundational core and pre-art requirements before admittance to the textiles concentration. To complete an undergraduate degree in four years, it is recommended that community college transfer students who are completing a two-year degree and have completed the foundational core and pre-art requirements apply and submit a declaration form in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts is subject to the existence of parallel and equal courses in the college's curriculum and to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAARTFBFA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Create artwork for exhibitions in galleries, museums and other venues demonstrating technical artistic abilities and conceptual development.
- Demonstrate professional preparedness by developing a comprehensive toolkit for self-promotion that will position them for success in the field of

art and design.

- Create a cohesive body of artwork organized and shared in a professional digital portfolio.

Global Opportunities:

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to explore their creative side through an intercultural lens, deepen their understanding of the world and gain valuable career-building experiences. Study abroad can prove to be a vital accompaniment to any art concentration, allowing for broad historical and archaeological explorations. Students develop insight into the cultures and minds of some of the world's most notable artists when they experience the places that gave rise to specific artistic styles.

With more than 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Study abroad encourages students to develop and broaden their intercultural sensitivity, communication skills and leadership ability, and challenges them to think differently. Whether in a foreign country, in the U.S. or online, students learn to adapt and persevere, and they are provided with a chance to look inside themselves in a way they haven't done before, growing their personal and professional self-confidence along the way.

Career Opportunities: A degree in the arts offers graduates a pathway to a rich and varied choice of careers. The Bachelor of Fine Arts program prepares students to initiate creative careers as visual artists and as professionals in the public and private sphere. Career opportunities depend on focused concentrations within the area of art and additional education or training per industry standards. School of Art programs prepare students to initiate creative careers as artists, scholars and educators in the public and private sphere.

Art graduates find employment opportunities as artists in the field, selling their works through commercial galleries and commissions and to private collectors; as museum or gallery professionals, art dealers and directors; as private school art teachers and college professors; and as community-based artists (venues might include health care settings, nonprofit agencies, and local and national public arts). Some textile artists have established careers in design, in settings as varied as working in industry creating commercial items, and setting up boutique studios for the creation of one-of-a-kind fabrics for garments and interiors. Other options include working for arts agencies and public art programs; gaining admission to prestigious graduate programs across the nation in art or design; or finding employment in fields adjacent to textiles, such as business or technology.

Arts (BA in the Arts), BA (FAATSBA)

Campus: Tempe, ASU at Los Angeles

Program Description: The BA in the arts is an interdisciplinary degree program designed for students who are passionate about the arts and design and interested in exploring multiple arts disciplines rather than specializing in one.

Students gain an increased understanding of the theoretical, historical and cultural forces that shape the cultural expression of arts and design. Students pursue open-ended paths to explore and develop a range of skills suitable for advanced study in multiple areas.

The major includes a common core for all students, and students may choose a focus from arts administration or entertainment design or they may design an individualized focus that is subject to approval by the institute's standards committee and the dean's office.

Los Angeles location

In Los Angeles, this program is not currently eligible for federal financial aid. Students seeking federal financial aid assistance or veterans interested in using GI Bill® benefits should consider another ASU campus.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

This Los Angeles location is not available for international students seeking an F-1 or J-1 visa. Visa-eligible students should consider another ASU campus.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics OR any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Creative Enterprise and Cultural Leadership, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAATSBA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students whose program of study is in the arts have the ability to further their studies around the world (<https://goglobal.asu.edu/>). Equipped with the knowledge obtained in classes, students can explore cultural aesthetic practices while studying abroad, furthering their understanding and enhancing their portfolios.

Career Opportunities: As the population in the state of Arizona grows, numerous arts organizations are being developed to provide cultural and artistic experiences for the state's residents. These organizations need and demand individuals who understand the impact the arts have on society and who can be passionate employees committed to the arts. This program provides the necessary skill sets, including critical thinking, for such careers as:

- arts administrators
- arts critics
- entertainment designers
- media arts authors and publishers
- museum curators and directors
- public art specialists

Dance, BFA (FADANBFA)

Campus: Tempe

Program Description: The School of Music, Dance and Theatre provides an inclusive, dynamic and culturally diverse environment where students can grow as creative artists, scholars and educators. The BFA program in dance emphasizes collaboration and a holistic approach to movement and education where students develop versatile skills that lead to success in the arts and other related fields.

The core values of the program are creativity, inquiry and humanity. These values are interwoven into a wide range of academic experiences and exploratory processes, allowing students to gain a deep understanding of dance as inquiry and to bridge knowledge and community. The dance program includes technique instruction in a range of forms, including Afro-Latin, contemporary ballet, hip hop, contemporary modern and somatic practices. Students also study creative practices (the study of the creative process and dance-making using improvisation, choreography and interdisciplinary approaches); dance and digital arts; dance history, ethnography and philosophy; and movement practices (the study of the theory, history and technique of a range of dance forms and mind--body practices).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students are strongly encouraged to attend the dance festival days held in the fall or spring semester to learn about the dance program at ASU. Dance scholarships are available to all applicants. Details on how to register for a dance festival day and dance scholarships are found on the School of Music, Dance and Theatre (<https://musicdancetheatre.asu.edu/admission/apply-dance-major>) website

Transfer Admission Requirements: Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts is subject to the existence of parallel and equal courses in the college's curriculum and to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

Students should review the School of Music, Dance and Theatre (<https://musicdancetheatre.asu.edu/admission/apply-dance-major>) website for more details.

Change of Major Requirements: An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FADANBFA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply creative perspectives and skills in their art-making that reflect broad understandings of current dance and digital media practices.
- Implement culturally sensitive, moral, and socially grounded teaching, facilitation and community building practices.
- Apply knowledge of the diversity and significance of past and current dance practices, traditions and trends as they are situated within human cultures to the creation and assessment of new work.

Global Opportunities:

Global Experience: Dance transcends language, so students can explore their art in various countries, no matter the language. When studying abroad (<https://goglobal.asu.edu/>), students expand their view of dance through an international lens while exploring various dance forms at their origins.

Career Opportunities: The comprehensive academic foundation of the Bachelor of Fine Arts program in dance prepares students to be leading dance professionals. Graduates of the program have the expertise to pursue professions as choreographers, performers, educators, community artists, scholars and much more. After leaving ASU, many graduates participate in activities such as:

- conducting academic research
- curating or producing dance festivals and events
- directing or managing performing art companies, studios or dance-related organizations
- facilitating community partnerships and projects
- producing dance media for performance or instruction
- pursuing certification in somatic practices (Laban movement analysis, Feldenkrais Method, Alexander Technique, body--mind centering, etc.)
- teaching and designing curriculum
- working as a dance critic
- working in technical theatre and dance production
- working in the areas of health and wellness (fitness, yoga, massage therapy, etc.)
- working in the field of arts management and administration
- writing for scholarly publications

Dance (Dance Education), BFA (FADANEBFA)

Campus: Tempe

Program Description: The BFA in dance with a concentration in dance education prepares students for certification to teach dance in K-12 schools in the state of Arizona as well as for certification in other states through a multistate reciprocity agreement.

The School of Music, Dance and Theatre provides a dynamic and culturally diverse learning environment where students develop as creative artists, scholars and educators. The student experience is enriched by a diverse range of studies, including dance cultures, music, digital media, dance history, philosophy and criticism, movement science, somatics, and stage and screen production. The curriculum emphasizes creativity and research while striving to build bridges between knowledge and community through a wide range of academic experiences, including student teaching internships. The dance program also includes coursework in technique of a range of dance forms and mind-body practices, including Afro-Latin, contemporary ballet, hip hop, contemporary modern and somatic movement practice.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply creative perspectives and skills in their art-making that reflect broad understandings of current dance and digital media practices.
- Develop pedagogical approaches and curricular content for PreK-12 and community dance education settings.
- Apply knowledge of past and current dance practices, traditions and trends in one or more global or historical dance forms.

Global Opportunities:

Global Experience: Dance transcends language, so students can explore their art in various countries, no matter the language. When studying abroad (<https://goglobal.asu.edu/>), students expand their view of dance through an international lens while exploring various dance forms at their origins, gaining knowledge that will help them become educators of the art.

Career Opportunities: The concentration in dance education lays the foundation for a career in teaching in public and private settings, as a dance educator in K-12 settings, as a teacher in private studio or community environments, or as a dance artist and performer in independent work. Students earn an Arizona teaching certification while pursuing the dance education degree, and they can expect to find employment in one of many thriving middle school and high school dance programs throughout the state, community settings or dance studios.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Design Studies, BA (ARDSNBA)

Campus: Tempe

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program Description: The BA program in design studies is a four-year, nonstudio program of study in design that focuses on the design disciplines offered in the ASU Herberger Institute:

- architectural studies
- graphic design
- industrial design
- interior design

- landscape architecture

This is a highly flexible program of study, much like a liberal arts degree, in which students select design and design-related courses offered in the institute and throughout the university. Students acquire a breadth of design knowledge via courses taken from three categories: communication for design, design history and general design.

The program provides a design education, general and specific, for students who seek opportunities in the broader design sector or in graduate education.

Students may undertake the program in one of two specific concentrations: design studies, which allows students to discover myriad possibilities of design as a subject area as well as the flexibility that it provides for further exploration; or design management, which offers a selection of courses in management and human communication that complement design.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

Digital Culture (Media Processing), BA (HIDGCMPBA)

Campus: Tempe

ASU is no longer accepting new students to this program. Students interested in a media processing concentration should apply to the BS in media arts and sciences (media processing) (<https://degrees.apps.asu.edu/bachelors/major/ASU00/HIDGCMPPBS/digital-culture-media-processing>).

Program Description: The BA program in digital culture equips students with the technical skills to create computational media, and the cultural skills to know when or why to apply them.

Students learn to create computational media, which is computation combined with objects, sound, video, time, space, culture and bodies, and to breathe behavior into media, objects or systems by programming; they also learn to think critically about how computation impacts lives and how culture makes a difference in how people experience computational media --- a critical skill in this dynamic age.

All students gain techniques to change the world and communicate using contemporary computational media, a vital power in today's world. Some go on to invent fresh techniques. Armed with skills and sound judgment, graduates work in cultural communication, marketing, design, social media, health, education, entertainment and creative arts, and all areas in which culture is shaped by technology and computational media.

This digital culture program with a concentration in media processing is offered in partnership with the Ira A. Fulton Schools of Engineering. The program is designed for students who desire to specialize in media processing aspects of new media. Students complement their knowledge with a more advanced understanding of programming, data structures, signals processing and system architecture aspects of new media.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIDGCMPPBA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, digital culture students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates of the digital culture program have a wide array of career opportunities in new media involving the fields of:

- communications (Cisco, Google, Facebook)
- computing (Apple, Microsoft)
- gaming and entertainment (Industrial Light & Magic, Electronic Arts, Pixar)
- media arts (engineering multimedia shows, video and sound production)

The digital culture curriculum also prepares students for roles in the development of modern media systems that address complex sociotechnical problems, such as:

- diagnostic, monitoring and assistive cyber-physical tools and systems that can be used by healthcare providers
- new systems for collaborative, participatory content creation and sharing
- social networking and reflection tools for promoting sustainability

- systems for interactive, adaptive learning and computational assessment in educational organizations

Graduates who are interested in continuing their higher education are well prepared to apply for admission to the top interdisciplinary new media programs in the nation, including the graduate programs through the School of Arts, Media and Engineering at ASU.

Digital culture alumni have received job opportunities in:

- audio and video
- engineering
- graphic design
- illustration
- iOS development
- journalism
- programming
- software engineering
- special effects
- 3D modeling and fabrication
- visual media

Environmental Design, BS (HIEDSBS)

Campus: Tempe, ASU at Los Angeles

Program Description: The BS program in environmental design at The Design School has an integrated curriculum designed to create a deep awareness and knowledge of issues that influence the design of built environments.

The program of study emphasizes general knowledge and design research, and offers focus areas that include innovation, technology and design strategies; and sustainability in environmental design. The curriculum provides special understanding of theories, technologies, social issues and management aspects related to the student's chosen focus area.

This program provides students with a broad base of skills and knowledge drawn from natural science, social science, arts, and engineering and integrated into environmental design.

Los Angeles location

Students interested in using GI Bill® benefits should consider the program on the ASU Tempe campus.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill (<https://www.benefits.va.gov/gibill/>).

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIEDSBS~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Examine design creative processes through theory and research articles as measured through the final assignment.
- Apply key skills in the field related to the analysis of existing landscape conditions and the design of new proposals
- Synthesize iterative ideas and design concepts into plans for built works that meet professional standards.

Global Opportunities:

Global Experience: Students can complement their ASU coursework with study abroad programs. Programs that focus on topics such as sustainability, design and ecotourism increase a student's multicultural engagement and expose them to the design of built environments in other parts of the world. More information on available programs can be found on the Global Education Office website (<https://goglobal.asu.edu/>).

Career Opportunities: Graduates of this program may take on roles in offices, businesses, public institutions and industries that require an awareness of issues that affect environmental design. Additionally, graduates may apply to graduate programs in related disciplines to pursue professional or other graduate degrees.

Fashion, BA (HIFSHBA)

Campus: Downtown Phoenix, ASU at Los Angeles

Program Description: The BA program in fashion takes a transdisciplinary approach to provide students with a foundation that enables them to work across many segments in the fashion industry.

The fashion program combines history, business practices and hands-on studio experience to prepare students for a variety of roles in this global industry. Gaining proficiency in illustration and fluency with materials, traditional techniques and digital technologies, students are prepared for interdisciplinary collaborations through coursework across marketing and merchandising, wearable technology, sustainability, management and leadership, international experience, and fashion and culture. In the capstone experience, students develop a substantial project within an area of focus. Opportunities for internships and study abroad further advance students' professional goals.

Through the leadership of well-known industry professionals, students with this degree are connected globally to leaders in the industry.

Los Angeles location

Students interested in using GI Bill® benefits should consider the program on the ASU Downtown Phoenix campus.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill/ (<https://www.benefits.va.gov/gibill/>).

The Los Angeles location is not available to international students seeking an F-1 or J-1 visa. Visa-eligible students should consider the program on the ASU Downtown Phoenix campus.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIFSHBA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Learn design and commercial production techniques.
- Demonstrate ability to successfully utilize industry-based information.
- Produce projects relevant to fashion industry practices.

Global Opportunities:

Global Experience: Fashion varies from country to country, city to city and culture to culture. Studying abroad (<https://goglobal.asu.edu>) exposes students to unique cultural environments and enables students to expand their fashion knowledge in diverse settings. Students are challenged to adapt and persevere under unfamiliar social and cultural circumstances, which allows them to grow and prosper in their professional and personal lives. Students have the opportunity to enhance their resume and portfolio with a global perspective gained by studying abroad.

The Herberger Institute for Design and the Arts recommends these programs (<https://goglobal.asu.edu/students/major/fashion>) for students majoring in fashion.

Career Opportunities: Graduates are prepared to enter the fashion industry in any of a number of roles. Some examples are:

- curator
- fabric designer
- fashion business analyst
- fashion designer

- marketing researcher
- merchandise display and window designer
- supply chain manager
- textile and apparel production manager

Fashion (Apparel Technical Design), BA (HIFSHATDBA)

Campus: Downtown Phoenix, ASU at Los Angeles

Program Description: The BA program in fashion with a concentration in apparel technical design is a distinctly professional, hands-on degree program that prepares students for a dynamic career in apparel technical design. Students gain key skills sought across the fashion industry such as flat and digital patternmaking and development, technical design, garment construction, technology for design, tech pack making and fit analysis.

Studio and lecture courses guide students in developing a strong foundation of industry acumen, design aesthetics, and garment and pattern construction valuable for technical design career paths in the fashion industry. Students also create digital capsule collections as part of their capstone experience, giving them even more training in the technical design world. All courses are embedded within the principles of sustainability, producing the next generation of environmentally conscious industry leaders.

Additional Program Fee: N

Film (Film and Media Production), BA (FAFLMBA)

Campus: Tempe

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options, such as the BFA in Film and Media Production.

Program Description: Students pursuing the BA in film with a concentration in film and media production develop a comprehensive and practical knowledge of digital media production, an awareness of the impact of media and entertainment on audiences and culture, and an understanding of the role of the artist in society.

Students in this program have access to digital cameras, lighting and sound equipment, postproduction software and facilities, and other resources --- including talented and dedicated peer and faculty colleagues who will give them multiple opportunities to produce projects of exceptional quality.

Students choose one of three upper-division tracks of study: directing; producing and screenwriting; or media technology, including cinematography, postproduction and sound. Each course of study is supported by the degree-wide emphasis on ethical filmmaking practices, innovative creative expression, and preparation for a career as an industry professional.

The program is offered by The Sidney Poitier New American Film School.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: Any math course that meets the MATH designation.

Program Math Intensity: General**Concurrent Program Options:**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Creative Enterprise and Cultural Leadership, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: All film students are admitted to ASU into the BA program in film, filmmaking practices concentration. Students who wish to pursue the highly selective studio-based Bachelor of Arts in film with a concentration in film and media production must complete the 15-hour film core and successfully pass an interview and review of their creative work to enter the concentration. This interview and creative work review generally take place in the third or fourth term at ASU.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAFLMBA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Study abroad provides students a once-in-a-lifetime opportunity to explore the globe while developing unique skills that can make them stand out in the competitive field of film and media. Students can observe international media culture firsthand. Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to explore their creative side through an intercultural lens. Not only do the programs encourage students to build communication skills, but they challenge them, as artists, to think differently. In addition to acquiring intercultural, communication and leadership skills, students have the chance to learn languages and expand their international network.

With more than 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Whether in a foreign country, in the U.S. or online, students are challenged to adapt and persevere and to look inside themselves in a way they haven't done before, growing their self-confidence along the way.

Career Opportunities: Graduates possess the knowledge and experience they need to enter the media and entertainment field in careers as:

- cinematographers and camera operators
- directors for motion pictures, television and documentaries
- editors and postproduction specialists
- producers and production executives
- screenwriters for motion pictures and television
- videographers and digital media content creators

The bachelor's degree program is an excellent broad-based foundation for work in the profession, and it prepares students for further training at graduate schools or conservatories.

Film (Filmmaking Practices), BA (FAFPRBA)

Campus: Tempe, ASU at Los Angeles, Online

Program Description: A BA degree at The Sidney Poitier New American Film School empowers students with critical thinking skills to navigate new, complex and changing environments in the film industry. With a foundation in ethical and collaborative practices and project-based learning using state-of-the-art technology, the school offers the most inclusive, affordable and innovative film programs in the country. Programs nurture the next generation of creatives, emphasizing the interdisciplinarity of filmmaking, the evolving landscape of the screen and the journey of a story from idea to intended audience.

This degree program builds on storytelling and equips students with the resilience and insight necessary not just to survive in the industry, but to excel in their craft.

The bachelor's in film is a holistic degree that provides students with a comprehensive understanding of the art, craft and business of filmmaking. It equips them with a broad tool set, production skills and knowledge base to pursue diverse career paths in the entertainment industry.

Los Angeles location

The Los Angeles location for The Sidney Poitier New American Film School's Bachelor of Arts degree program in film is accepting transfer students with an associate degree in film or media production (or applicable credits) from Arizona and California community colleges.

Students interested in using GI Bill® benefits should consider the program on the ASU Tempe campus.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill/ (<https://www.benefits.va.gov/gibill/>).

The Los Angeles location is not available to international students seeking an F-1 or J-1 visa. Visa-eligible students should consider the program on the ASU Tempe campus.

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAFPRBA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply technical, creative, and project management skills when undertaking the collaborative process of filmmaking.
- Produce a comprehensive, coherent literature review by synthesizing relevant professional and scholarly literature regarding the artistic value and cultural impact of film, television, and digital media making.
- Generate a media-based project following all of the stages required for successful completion.

Global Opportunities:

Global Experience: The Sidney Poitier New American Film School's Semester in Los Angeles program is an opportunity for upperclassmen to live and study in Los Angeles, California, for one semester. The program offers the opportunity for an internship with a film industry company, as well as networking events, screenings and site visits to Panavision, Universal Studios, the Academy Museum and more. This is a chance for students to take LA exclusive in-person courses at the ASU California Center locations while staying on their path to graduation.

Study abroad provides students a once-in-a-lifetime opportunity to explore the globe while developing unique skills that can help them stand out in the competitive field of film.

With more than 300 Global Education programs (<https://goglobal.asu.edu>) available to them, students have an opportunity to explore their creative side through an intercultural lens and acquire a breadth of knowledge in arts and culture uniquely different from their own. Not only do the programs encourage students to build communication skills, but they also challenge them, as artists, to think differently. Besides acquiring intercultural, communication and leadership skills, students have the chance to learn languages and expand their international network.

Whether in a foreign country, in the U.S. or online, Global Education programs challenge students to adapt and persevere and provide them with a chance to look inside themselves in a way they haven't done before, growing their self-confidence along the way.

Career Opportunities: The concentration in filmmaking practices prepares students for the film production and entertainment industry, including in public relations and marketing, management and legal careers. Some graduates find entry-level positions in media and entertainment production, and others continue to advanced graduate-level education.

Film and Media Production, BFA (HIFMPBFA)

Campus: Tempe, ASU at Los Angeles

Program Description: A BFA program at The Sidney Poitier New American Film School empowers students with the critical thinking skills to navigate new, complex and changing environments in the film industry. Programs nurture the next generation of creatives, emphasizing the interconnectivity of filmmaking, the evolving landscape of the screen and the journey of a story from idea to intended audience. With a foundation in ethical and collaborative practices and project-based learning using state-of-the-art technology, the school offers the most inclusive, affordable and innovative film programs in the country.

This degree program takes aspiring filmmakers beyond theory and teaches them how to communicate a vision and manage resources to take a story from page to screen.

The Bachelor of Fine Arts program in film and media production provides a deep dive into film production, highly encouraging students to choose two areas of focus within production or postproduction. Students can choose to complete the general degree or pursue focus areas in screenwriting, directing, cinematography, postproduction and sound.

Los Angeles location

Students interested in using GI Bill® benefits should consider the program at the Tempe campus.

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Present a digital portfolio that represents and reflects the student's unique creative voice, advanced technical skills, successful production experience, and professional vision.
- Apply technical, creative, and project management skills when undertaking the collaborative process of filmmaking.
- Demonstrate understanding of cultural institutions through a synthesis of research, critical thinking, and communication skills from multiple disciplines, drawn from American cultural institutions and storytelling traditions, as applied to the making, viewing, and study of film/media

Global Opportunities:

Global Experience: The Sidney Poitier New American Film School's Semester in Los Angeles program is an opportunity for upperclassmen to live and study in Los Angeles, California, for one semester. The program includes an internship with a film industry company as well as networking

events, screenings and site visits to Panavision, Universal Studios, the Academy Museum and more. This is a chance for students to take LA exclusive in-person courses at the ASU California Centers while staying on their path to graduation.

Study abroad provides students a once-in-a-lifetime opportunity to explore the globe while developing unique skills that can help them stand out in the competitive field of film.

With more than 300 Global Education programs (<https://goglobal.asu.edu>) available to them, students have an opportunity to explore their creative side through an intercultural lens and acquire a breadth of knowledge in arts and culture uniquely different from their own. Not only do the programs encourage students to build communication skills, but they also challenge them, as artists, to think differently. Besides acquiring intercultural, communication and leadership skills, students have the chance to learn languages and expand their international network.

Whether in a foreign country, in the U.S. or online, Global Education programs challenge students to adapt and persevere, providing them with a chance to look inside themselves in a way they haven't done before, growing their self-confidence along the way.

Career Opportunities: Graduates are equipped with the technical know-how and critical thinking skills to thrive in a quickly changing media industry and to pioneer new media careers that require advanced production skills and a strong creative voice.

Graduates who earn this degree are prepared to pursue a wide array of skilled professions, including:

- cinematographer or director of photography
- editor
- film, television and documentary writer or director
- producer
- sound designer or sound recording engineer
- visual effects artist

Graphic Design, BSD (ARGRABSD)

Campus: Tempe, Online

Program Description: The graphic design program in The Design School is committed to excellence in traditional and contemporary graphic design education, professionalism, research and service for the community at large. Faculty, alumni, students and visiting designers and educators constantly reinforce the link between society and nature, and they vigorously advocate quality in developing communication strategies.

The BSD curriculum acknowledges the need for creative environments that address ecological concerns, and students are encouraged to develop sustainable, transdisciplinary work sensitive to cultural aesthetic. Students develop a strong foundation of design principles through lower-division studio and lecture courses, using this to build an overall understanding of how design can shape perception and meaning using visual media. Upper-division studio courses provide opportunities for students to work in collaborative teams addressing professional projects in information design, interaction design, exhibition design, animation, motion graphics, branding, publication design, web design, interface design and the multiple contemporary facets of sensorial design.

Graphic designers are responsible for designing how information is communicated. Forms of communication include print, video, film and electronic (web). Graphic designers are concerned with appearance, choosing the appropriate mechanism for communication, clarity of information and its effectiveness, and how communication is transferred and received.

The Bachelor of Science in Design program in graphic design places an emphasis on strategic communication developed through a design process that includes research, analysis, conceptualization, planning and realization. The process leads to innovative visual communication design solutions for contemporary design problems that are local to global in scope.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap

in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: An ASU student who would like to change majors into this program and would be new to this major must have a minimum cumulative GPA of 2.75 and understand their GPA must be brought up to a 3.00 or above within one semester to remain in good standing. An ASU student who is returning to this major (having previously studied this major in a prior semester) must have a minimum cumulative GPA of 3.00.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/graphic-design-major/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ARGRABSD~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Develop design fundamentals in the context of diverse visual settings, demonstrating familiarity with their understanding of their core principles.
- Critically adapt their designs and methodology to convey clear messages to broad audiences.
- Address creative environments that respond to ecological concerns, sensitive to cultural aesthetics, sustainability, and social issues through skills for reading, analyzing, and discussing interactions between designers and society.

Global Opportunities:

Global Experience: Study abroad provides graphic design students with a chance to explore their creative side through an intercultural lens, challenging them to think differently as an artist and to explore different ways of communicating information visually across cultures as they build communication skills.

With more than 300 options available, whether in a foreign country, in the U.S. or online, Global Education programs (<https://goglobal.asu.edu>) give students a breadth of knowledge in arts and culture. Students can gain a global perspective and knowledge while earning ASU credit. Students learn to adapt and persevere and to look inside themselves in a way they haven't done before, growing their self-confidence along the way.

Career Opportunities: Based on a diversified portfolio upon graduation, those who opt for the graphic design profession gain employment in:

- advertising and marketing design
- brand and corporate identity design
- broadcast design (TV graphics)
- information design
- interaction and interface design
- museum or exhibition design
- publication design
- visual communication design
- web design

Specific examples of graphic designers' work include:

- annual reports
- books
- environmental graphics
- motion graphics
- multimedia presentations
- publications
- websites

Graduates also may pursue graduate studies that lead to careers in design education and other fields of professional endeavor in design.

Industrial Design, BSD (ARINDBSD)

Campus: Tempe, Online

Program Description: The BSD program in industrial design at The Design School prepares students to envision the future by following the process of ideating, iterating, developing, testing and prototyping new products, services and strategies. Students use interdisciplinary learning to turn creative ideas into successful projects for society.

The program's students have a strong commitment to the environment and the human being; they center their approaches on delivering solutions that are beneficial for society, with a strong sense of humanity, empowered by the latest trends and technologies, always looking to get a positive impact on every scale.

The curriculum of lower-division studio and lecture courses helps students develop a strong foundation of design skills. Upper-division studio courses allow students to collaborate as they address design challenges and work on professional projects and case scenarios. Industrial design students also follow an internship program to balance classroom theory with periods of practical, hands-on experience before graduation.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Data Science), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: An ASU student who would like to change majors into this program and would be new to this major must have a minimum cumulative GPA of 2.75 and understand their GPA must be brought up to a 3.00 or above within one semester to remain in good standing. An ASU student who is returning to this major (having previously studied this major in a prior semester) must have a minimum cumulative GPA of 3.00.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/industrial-design-bsd/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ARINDBSD-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Transform an original product design concept into a deliverable that demonstrates creative, technical, & communication skills
- Employ visual and graphic language effectively to envision and create products, systems, services, and experiences that are socially beneficial, ecologically sound, and foster positive impact on society at every scale.
- Develop a product suitable for production that enhances the human experience while implementing sustainability principles, promoting social benefits, and driving technological advancements.

Global Opportunities:

Global Experience: Through study abroad programs (<https://goglobal.asu.edu/>), industrial design students learn flexible ways of thinking that contribute to their ability to meet the program goal of creating products and service systems that benefit society. They gain a global perspective and knowledge in preparation for a future-focused career, all while in an international setting. Students earn ASU credit for completed courses while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

Career Opportunities: After completing the program successfully, graduates can work as designers in several capacities or develop startup ventures.

Career examples include:

- accessory designer
- automotive designer
- consumer goods designer

- design strategist
- furniture and homeware designer
- industrial or product designer
- toy designer
- trade show exhibit designer
- user experience designer
- user interface designer

Graduates obtain employment with consulting firms that design products, services and experiences for various clients, such as corporate industries, nonprofit institutions and nongovernmental organizations. They keep an entrepreneurial conscience, addressing specific social or environmental problems and providing successful market innovations.

Some graduates pursue teaching courses in art and design schools, colleges or universities. Others have established successful design and manufacturing ventures or led product development teams and innovations at renowned organizations.

Interior Design, BSD (ARINTBSD)

Campus: Tempe

Program Description: The BSD program in interior design at The Design School explores how people inhabit, interact with, and transform interior environments. Interior designers create environments within buildings that meet the physical and psychological needs of individuals and institutions, providing a useful, rich and rewarding environment for users. Interior design involves the design of space, equipment and furniture, and requires substantial technical and organizational understanding; sensibility to form, lighting, color and texture; and an awareness of design history and theory.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: An ASU student who would like to change majors into this program and would be new to this major must have a minimum cumulative GPA of 2.75 and understand their GPA must be brought up to a 3.00 or above within one semester to remain in good standing. An ASU student who is returning to this major (having previously studied this major in a prior semester) must have a minimum cumulative GPA of 3.00.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ARINTBSD~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in

their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Transform an original interior design concept into a project that demonstrates creative, technical, & communication skills.
- Perform professional-level tasks during their internship, including drafting, collaboration, and technical proficiency appropriate for design practice, as identified by the Council for Interior Design Accreditation.
- Distinguish the basic context and framework of history as it relates to 1) interior design and 2) furniture, decorative arts, and material culture, 3) architecture, and 4) art.

Global Opportunities:

Global Experience: Interior design students have the chance to see many different design styles across cultures when studying abroad. With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, interior design students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates find employment opportunities with interior design firms, architecture firms or corporations, and governmental entities of any size. Firms may specialize in interior design for residential, commercial, retail, hospitality, institutional and health care spaces. Career specialties include historic restoration, branding, sustainability, new product innovation and incorporation of new technology.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Landscape Architecture, BSLA (ARPLABSLA)

Campus: Tempe

Program Description: The BSLA program at The Design School is an accredited undergraduate professional degree (<https://design.asu.edu/about/accreditation>) that provides students with the knowledge and skills necessary to become a professional landscape architect. The program leverages the Phoenix metro area as a learning laboratory and offers students the opportunity to engage with the community in applied projects that focus on designing socially and environmentally sustainable outdoor environments in order to improve the ecological and social health of the urban environment.

Undergraduate landscape architecture projects can range from large-scale work encompassing urban design, landscape restoration, open space preservation planning, community planning and landscape ecological design to projects at the more intimate scale of a neighborhood park or residential backyard. Emerging areas of focus include creative placemaking; environmental equity, green roofs and living walls; restorative environments; sustainable design; and urban climate design.

Graduates have the qualifications to sit for the Landscape Architect in Training examination, which leads to registration as a professional landscape architect.

The Bachelor of Science in Landscape Architecture is accredited by the Landscape Architectural Accreditation Board.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: An ASU student who would like to change majors into this program and would be new to this major must have a minimum cumulative GPA of 2.75 and understand their GPA must be brought up to a 3.00 or above within one semester to remain in good standing. An ASU student who is returning to this major (having previously studied this major in a prior semester) must have a minimum cumulative GPA of 3.00.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ARPLABSLA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Examine design creative process through theory and research articles measured through the final assignment.
- Apply professional skills including drafting, collaboration, and technical proficiencies appropriate for existing landscape analysis and new design proposals.
- Transform an original landscape design concept into a project that demonstrates creative, technical, & communication skills.

Global Opportunities:

Global Experience: Study abroad provides students the opportunity to view marvels of landscape architecture up close and in person. With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) enable students to tailor their experience to their unique interests and skill sets. Whether the program is in a foreign country, in the U.S. or online, students in landscape architecture are exposed to unique and diverse cultural environments and expand their knowledge and skills in design and related disciplines. Students gain a global perspective and knowledge in preparation for a future-focused career while earning ASU credit for completed courses and staying on track for graduation.

The Herberger Institute for Design and the Arts recommends these programs (<https://goglobal.asu.edu/students/major/herberger/landscape-architecture>) for students majoring in landscape architecture.

Career Opportunities: The bachelor's degree program is designed to prepare students for landscape architecture professional practice and advanced study at the graduate level. Graduates have found employment in nationally recognized firms working with notable landscape architects in large multinational firms or in public agencies. Alumni have also gone on to pursue advanced study at universities with distinguished graduate programs in landscape architecture and allied design fields.

The U.S. Bureau of Labor Statistics projects employment for landscape architects to grow 4% between 2018 and 2028 --- about as fast as the average for all occupations. The bureau also notes that employers prefer hiring entry-level landscape architects with internship experience to significantly reduce the amount of on-the-job training. The bachelor's degree program has an internship requirement meant to address this preference and better prepare graduates for employment.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Graduates of this program have the qualifications to sit for the Landscape Architect in Training examination, which leads to registration as a professional landscape architect. For detailed information on licensure requirements, students review the Council of Landscape Architectural Registration Boards requirements at <https://www.clarb.org/> (<https://www.clarb.org/>).

Media Arts and Sciences, BA (HIDGCBA)

Campus: Tempe, Online

Program Description: The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application and implications.

The BA program in media arts and sciences offers students technical skills to develop computational media, and cultural skills to apply them meaningfully. Students immerse themselves in hands-on projects, explore the intertwined evolution of culture, society and tech, and create computational media systems with sound, video, objects, space and immersive media. This fusion of arts, humanities and engineering foundations allows students not only to craft innovative digital media but also to think critically about how technology and society are coproductive. The program's overarching goal is to develop socially conscious global citizens, ready to navigate and shape a more connected and creative digital world.

This program is also offered as an accelerated degree with the MA in creative enterprise and cultural leadership. More information can be found on the Creative Enterprise and Cultural Leadership website (<https://herbergerinstitute.asu.edu/degree-programs/creative-enterprise-and-cultural-leadership>).

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Creative Enterprise and Cultural Leadership, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Exploring programs around the globe furthers students' ability to apply their studies to a global spectrum. With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, media arts and sciences students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

The Herberger Institute for Design and the Arts recommends these programs (<https://goglobal.asu.edu/students/major/herberger/digital-culture>) for students majoring in media arts and sciences.

Career Opportunities: Armed with skills and sound judgment, graduates work in cultural communication, marketing, design, social media, health, education, entertainment and creative arts, and all areas in which culture is shaped by technology and computational media. They know techniques to change the world through communication using contemporary computational media, a vital power in today's world. Some graduates go on to invent fresh techniques.

Career opportunities include the following fields:

- audio
- comparative literature
- computing
- creative writing
- technical writing
- technology
- visual media

Media arts and sciences alumni have obtained careers as:

- designers
- engineers
- graphic designers
- programmers
- software specialists
- special effects artists
- 3D modelers
- visual media artists

The program's overarching goal is to develop socially conscious global citizens who are ready to navigate and shape a more connected and creative digital world.

Media Arts and Sciences -- Art concentration

This concentration program is offered in partnership with the School of Art in the Herberger Institute for Design and the Arts. In the concentration in art, students specialize in visual composition aspects of new media and focus on the historical and theoretical aspects of visual arts, learn foundational visual arts skills, and practice hands-on knowledge of visual composition through digital means.

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: An ASU student who would like to change majors into this program and would be new to this major must have a minimum cumulative GPA of 2.25 and understand their GPA must be brought up to a 2.50 or above within one semester to remain in good standing. An ASU student who is returning to this major (having previously studied this major in a prior semester) must have a minimum cumulative GPA of 2.50.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIDGCABA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Exploring programs around the globe furthers students' ability to apply their studies to a global spectrum. With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, media arts and sciences students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

The Herberger Institute for Design and the Arts recommends these programs (<https://goglobal.asu.edu/students/major/herberger/digital-culture>) for students majoring in media arts and sciences.

Career Opportunities: Armed with skills and sound judgment, graduates work in cultural communication, marketing, design, social media, health, education, entertainment and creative arts, and all areas in which culture is shaped by technology and computational media. All graduates know techniques to change the world and communicate using contemporary computational media, a vital power in today's world. Some go on to invent fresh techniques.

Graduates of the media arts and sciences program have a wide array of career opportunities in new media involving the fields of:

- communications (Cisco, Google, Facebook)
- computing (Apple, Microsoft)
- gaming and entertainment (Industrial Light & Magic, Electronic Arts, Pixar)
- media arts (engineering multimedia shows, video and sound production)

The media arts and sciences curriculum also prepares students for roles in the development of modern media systems that address complex socio-technical problems, such as:

- diagnostic, monitoring and assistive cyber-physical tools and systems that can be used by healthcare providers
- new systems for collaborative, participatory content creation and sharing
- social networking and reflection tools for promoting sustainability
- systems for interactive, adaptive learning and computational assessment in educational organizations

Graduates of the media arts and sciences program who are interested in continuing their higher education are well prepared to apply for admission to graduate programs in the School of Arts, Media and Engineering at ASU and other top interdisciplinary new media programs in the nation.

Media arts and sciences alumni have received job opportunities in:

- audio and video
- engineering
- graphic design
- illustration
- iOS development
- journalism
- programming
- software engineering
- special effects
- 3D modeling and fabrication
- visual media

Media Arts and Sciences (Design), BA (HIDGCDBA)

Campus: Tempe

Program Description: The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application and implications.

The BA program in media arts and sciences offers students technical skills to develop computational media, and cultural skills to apply them meaningfully. Students immerse themselves in hands-on projects, explore the intertwined evolution of culture, society and tech, and create computational media systems with sound, video, objects, space and immersive media. This fusion of arts, humanities and engineering foundations allows students not only to craft innovative digital media but also to think critically about how technology and society are coproductive. The program's overarching goal is to develop socially conscious global citizens who are ready to navigate and shape a more connected and creative digital world.

Media Arts and Sciences -- Design concentration

This concentration program is offered in partnership with The Design School in the Herberger Institute for Design and The Arts. The concentration in design allows students to specialize in hybrid (physical and digital) product and space design. Students complement their knowledge of media arts and sciences with courses focused on understanding the core principles of design, with options offered from many design disciplines: graphic design, architecture and landscape architecture, interiors design and industrial design.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: An ASU student who would like to change majors into this program and would be new to this major must have a minimum cumulative GPA of 2.25 and understand their GPA must be brought up to a 2.50 or above within one semester to remain in good standing. An ASU student who is returning to this major (having previously studied this major in a prior semester) must have a minimum cumulative GPA of 2.50.

Media Arts and Sciences (Education), BA (HIMASEDBA)

Campus: Tempe, Online

Program Description: The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application and implications.

The BA program in media arts and sciences offers students technical skills to develop computational media and cultural skills to apply them meaningfully. Students immerse themselves in hands-on projects; explore the intertwined evolution of culture, society and tech; and create computational media systems with sound, video, objects, space and immersive media. This fusion of arts, humanities and engineering foundations allows students to not only craft innovative digital media but also to think critically about how technology and society are co-productive. The program's overarching goal is to develop socially conscious global citizens, ready to navigate and shape a more connected and creative digital world.

Media Arts and Sciences -- Educational Studies concentration

Learning happens everywhere. Through concentration coursework in educational studies, provided by Mary Lou Fulton Teachers College, students learn the role of education in society and how humans learn. They also develop effective communication skills and learn to facilitate learning experiences across a variety of spaces. Students learn to effectively share their passion for media arts and technology and inspire a new generation of technofluent creators: kids, teens, adults and learners of all ages, empowering them to craft their own stories.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: An ASU student who would like to change majors into this program and would be new to this major must have a minimum cumulative GPA of 2.25 and understand their GPA must be brought up to a 2.50 or above within one semester to remain in good standing. An ASU student who is returning to this major (having previously studied this major in a prior semester) must have a minimum cumulative GPA of 2.50.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/media-arts-sciences-education/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIMASEDBA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Study abroad programs allow students to think critically about how computation impacts lives and how culture makes a difference in how people experience computational media --- critical skills in this dynamic age. With more than 300 Global Education program opportunities (<https://goglobal.asu.edu>) available, media arts and sciences students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates of this program are prepared to thrive in an increasingly digital world, whether teaching STEAM workshops, creating new technology-infused learning experiences, or embedded in the local community at art hackerspaces, science centers and digital fabrication labs. They can develop and facilitate learning experiences and become advocates for technology, media arts and education.

Graduates work in a variety of settings related to media arts and education, including schools and classrooms, libraries, museums and science centers, nonprofit organizations, and technology and educational companies.

Media Arts and Sciences (English), BA (HIDGCENBA)

Campus: Tempe

ASU is no longer accepting new students to this program. Students interested in this program should apply to the Media Arts and Sciences, BA (<https://degrees.apps.asu.edu/bachelors/major/ASU00/HIDGCBA/media-arts-and-sciences>) program.

Program Description: The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application and implications. The school prepares students to be socially aware, critically thinking global citizens who strive to bring about positive change in a society that will be increasingly shaped by new technologies.

The BA program in media arts and sciences equips students with the knowledge, abilities and technical skills they need for creating computational media.

Students learn to create computational media, which is computation combined with objects, sound, video, time, space, culture and bodies, and to breathe behavior into media, objects or systems by programming; they also learn to think critically about how computation impacts lives and how culture makes a difference in how people experience computational media --- a critical skill in this dynamic age.

Media Arts and Sciences -- English concentration

The media arts and sciences program with a concentration in English is designed for students who wish to explore the historical, scientific and theoretical intersections of art, media and technology. The sharing of stories and media through electronic communities, participatory art-making and creativity forums on the web, gaming, digital movies and effects, mediated public spaces and electronic design are only a few of the new activities that are defining and evolving culture. Students in the concentration assist in the establishment, evolution and proliferation of such culture at the state, national and international levels. Students use tools of inquiry to examine, analyze and create works of art through a hands-on approach to communication, writing, rhetoric and literacies, in collaboration with the English department.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Media Arts and Sciences (Games and Interactive Media), BS (HIMASGIMBS)

Campus: Tempe

Program Description: The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application and implications. The School of Arts, Media and Engineering prepares students to be socially aware, critically thinking global citizens who strive to bring about positive change in a society that will be increasingly shaped by new technologies.

Students learn to create computational media, which is computation combined with objects, sound, video, time, space, culture and bodies; breathe behavior into media, objects or systems by programming; and think critically about how computation impacts lives and how culture makes a difference in how people experience computational media, a critical skill in this dynamic age.

Media Arts and Sciences -- Games and Interactive Media concentration

This concentration program pairs a maker approach with a rich historical and conceptual understanding of games, augmented and virtual reality, esports, location-based and themed environments and experiences. Working within this interdisciplinary program, students create, envision and critique digital and hybrid spaces impacting work, education, communication, interpersonal relationships, entertainment, physical and mental health care, and lifelong learning.

As an added incentive, students interested in the entirety of game infrastructure may also pursue a certificate in computer gaming, (<https://degrees.apps.asu.edu/minors/major/ASU00/ESSCICERT/computer-gaming>) focusing on game development and offered by the Ira A. Fulton Schools of Engineering at the Tempe campus, or a certificate in arts and humanities in games (<https://degrees.apps.asu.edu/minors/major/ASU00/ASAHCERT/arts-and-humanities-in-games>), offered by the New College of Interdisciplinary Arts and Sciences at the West Valley campus.

GI Bill® benefits

Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIMASGIMBS~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu>) available, media arts and sciences students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Working within this field of games and interactive media are artists, programmers, designers, storytellers, engineers, policy advocates and countless other positions. Games and interactive media arts industries are growing at a rapid pace; for example, job opportunities for special effects artists and animators are expected to grow by 16% by 2030, double that of the national outlook. The large scale of the video gaming industry, valued at \$159.3 billion globally in 2020 according to the U.S. International Trade Administration, and which goes beyond video game design, also includes fields of specialized marketing, monetization and other ancillary industries.

Media Arts and Sciences (Graphic Information Technology), BA (HIDGCTEBA)

Campus: Tempe

Program Description: The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application and implications.

The BA program in media arts and sciences offers students technical skills to develop computational media, and cultural skills to apply them meaningfully. Students immerse themselves in hands-on projects, explore the intertwined evolution of culture, society and tech, and create computational media systems with sound, video, objects, space and immersive media. This fusion of arts, humanities and engineering foundations allows students not only to craft innovative digital media but also to think critically about how technology and society are coproductive. The program's overarching goal is to develop socially conscious global citizens who are ready to navigate and shape a more connected and creative digital world.

Media Arts and Sciences -- Graphic Information Technology concentration

This concentration is offered in partnership with the Ira A. Fulton Schools of Engineering. Students complement their knowledge of media arts and sciences with discipline-specific courses in the graphic information technology program, covering entrepreneurship, knowledge of legal and ethical issues for technology, and skills in graphic communication, digital illustration and design methodology.

Students should be advised that while most requirements can be completed at the Tempe campus, courses specific to this concentration take place on the Polytechnic campus.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: An ASU student who would like to change majors into this program and would be new to this major must have a minimum cumulative GPA of 2.25 and understand their GPA must be brought up to a 2.50 or above within one semester to remain in good standing. An ASU student who is returning to this major (having previously studied this major in a prior semester) must have a minimum cumulative GPA of 2.50.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIDGCTEBA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Exploring programs around the globe furthers students' ability to apply their studies to a global spectrum. With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, media arts and sciences students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

The Herberger Institute for Design and the Arts recommends these programs (<https://goglobal.asu.edu/students/major/herberger/digital-culture>) for students majoring in media arts and sciences.

Career Opportunities: Armed with skills and sound judgment, graduates work in cultural communication, marketing, design, social media, health, education, entertainment and creative arts, and all areas in which culture is shaped by technology and computational media. All students gain techniques to change the world and communicate using contemporary computational media --- a vital power in today's world. Some go on to invent fresh techniques.

Graduates of the media arts and sciences program have a wide array of career opportunities in new media involving the fields of:

- communications (Cisco, Google, Facebook)
- computing (Apple, Microsoft)
- gaming and entertainment (Industrial Light & Magic, Electronic Arts, Pixar)
- media arts (engineering multimedia shows, video and sound production)

The media arts and sciences curriculum also prepares students for roles in the development of modern media systems that address complex sociotechnical problems, such as:

- diagnostic, monitoring and assistive cyber-physical tools and systems that can be used by healthcare providers
- new systems for collaborative, participatory content creation and sharing
- social networking and reflection tools for promoting sustainability
- systems for interactive, adaptive learning and computational assessment in educational organizations

Graduates who are interested in continuing their higher education are well prepared to apply for admission to the top transdisciplinary new media programs in the nation, including the graduate programs through the School of Arts, Media and Engineering at ASU.

Media arts and sciences alumni have received job opportunities in:

- audio and video
- engineering
- graphic design
- illustration
- iOS development
- journalism
- programming
- software engineering
- special effects
- 3D modeling and fabrication
- visual media

Media Arts and Sciences (Interdisciplinary Arts and Performance), BA (HIDCIAPBA)

Campus: Tempe

Program Description: The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application and implications. Students are prepared to be socially aware, critically thinking global citizens who strive to bring about positive change in a society that will be increasingly shaped by new technologies.

The BA program in media arts and sciences equips students with the knowledge, abilities and technical skills they need for creating computational media.

Students learn to create computational media, which is computation combined with objects, sound, video, time, space, culture and bodies; breathe behavior into media, objects or systems by programming; and think critically about how computation impacts lives and how culture makes a difference in how people experience computational media, a critical skill in this dynamic era.

Media Arts and Sciences -- Interdisciplinary Arts and Performance concentration

This concentration in interdisciplinary arts and performance is offered in partnership with the New College of Interdisciplinary Arts and Sciences. The program focuses on a transdisciplinary and collaborative approach to the arts, technology and performance. It emphasizes the traditions of transdisciplinary, avant-garde and experimental arts and on contemporary art and performance. Courses include digital media arts, music and electronic sound art, performance studies, theatre and performance practice and digital graphics.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. Media Arts and Sciences (Media Processing), BS (HIDGCMPBS)

Campus: Tempe

Program Description: The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application and implications.

The BS program in media arts and sciences offers students technical skills to develop computational media, and cultural skills to apply them meaningfully. Students immerse themselves in hands-on projects; explore the intertwined evolution of culture, society and tech; and create computational media systems with sound, video, objects, space and immersive media. This fusion of arts, humanities and engineering foundations allows students not only to craft innovative digital media but also to think critically about how technology and society are coproductive. The program's overarching goal is to develop socially conscious global citizens who are ready to navigate and shape a more connected and creative digital world.

Media Arts and Sciences -- Media Processing concentration

This concentration program is offered in partnership with the Ira A. Fulton Schools of Engineering. Students complement their knowledge of media

arts and sciences with computer science coursework, which offers them a more advanced understanding of programming, data structures, signal processing and system architecture.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: An ASU student who would like to change majors into this program and would be new to this major must have a minimum cumulative GPA of 2.25 and understand their GPA must be brought up to a 2.50 or above within one semester to remain in good standing. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) allow digital culture students to think critically about how computation impacts lives and how culture makes a difference in how people experience computational media --- critical skills in this dynamic age. With over 300 options available, Global Education programs enable students to tailor their experience to their unique interests and skill sets. Whether it's in a foreign country, in the U.S. or online, students in media arts and sciences can be exposed to diverse cultural environments and differences worldwide and take in the broad uses of technology and its uses on a global scale.

Herberger Institute for Design and the Arts recommends these programs (<https://goglobal.asu.edu/students/major/herberger/digital-culture>) for students majoring in media arts and sciences.

Career Opportunities: Career opportunities include positions in the following fields: graphic design, design, audio, visual media, computer science, technology, technical writing, creative writing and comparative literature.

Media arts and sciences alumni have obtained careers as graphic designers, 3D modelers, special effects artists, visual media artists, programmers, engineers and software specialists with Apple, Microsoft, Cisco, Industrial Light & Sound, Pixar and other techno-centric companies.

Media Arts and Sciences (Theatre), BA (HIDGCTBA)

Campus: Tempe

ASU is no longer accepting new students to this program. Students interested in this program should apply to the Media Arts and Sciences BA (<https://degrees.apps.asu.edu/bachelors/major/ASU00/HIDGCTBA/media-arts-and-sciences>) program.

Program Description: The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application and implications. The school prepares students to be socially aware, critically thinking global citizens who strive to bring about positive change in a society that will be increasingly shaped by new technologies.

The BA program in media arts and sciences equips students with the knowledge, abilities and technical skills they need for creating computational media.

Students learn to create computational media and computation combined with objects, sound, video, time, space, culture and bodies, and to breathe behavior into media, objects or systems by programming; they also learn to think critically about how computation impacts lives and how culture makes a difference in how people experience computational media --- a critical skill in this dynamic age.

Media Arts and Sciences -- Theatre concentration

The concentration in theatre is for students who desire to integrate principles of design and production with digital culture. Students complement their knowledge of media arts and sciences with discipline-specific courses in the School of Music, Dance and Theatre; these courses focus on the fundamentals and principles of theatre design, including scene, lighting, sound, costume and multimedia design, while enabling students to develop art and technical direction and digital design skills.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Merchandising, AA (HIMERCHAA)

Campus: ASU at Los Angeles

Program Description: The AA program in merchandising at Arizona State University is a distinctly professional, hands-on degree program that teaches students the fundamentals of fashion merchandising.

Course offerings emphasize key skills sought across the fashion retail industry such as merchandising, trend forecasting, consumer behavior analysis, retail management and branding. All courses are embedded within the principles of sustainability, producing the next generation of environmentally conscious industry leaders.

Los Angeles location

Students interested in using GI Bill® benefits should consider another ASU program.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

The Los Angeles location is not available for international students seeking an F-1 or J-1 visa. Visa-eligible students should consider another ASU program.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors to another associate degree program.

Students wishing to change majors to a bachelor's degree program should talk to their academic advisor. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIMERCHAA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. Music, BA (FAMUSBA)

Campus: Tempe

Program Description: The BA in music provides students with a broadly based liberal arts degree.

Students receive a strong foundation in music theory and music history while completing lessons on their major instrument. The curricular core provides students with the opportunity to explore music as human history, cultural artifact and social behavior.

Students may combine the degree with another major or minor within ASU.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College MathematicsAny math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Creative Enterprise and Cultural Leadership, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music, Dance and Theatre application (<https://musicdancetheatre.asu.edu/admission>). Admission to the School of Music, Dance and Theatre is based on an audition (<https://musicdancetheatre.asu.edu/admission/apply-music-major/audition-interview>). Auditions take place in November (spring admission) and in January and February (fall admission) of each year.

Admission to the music program is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, Dance and Theatre, the applicant's major is changed to music. If a student is admitted to ASU but not to the School of Music, Dance and Theatre or misses the audition deadline, the student will remain a music audition major and must successfully pass the music audition milestone in the first semester to gain admission into the program.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admission/apply-music-major>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

Transfer Admission Requirements: Transfer applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum and to departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admission/apply-music-major>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

Change of Major Requirements: Students who want to change their major to this one should reference the audition requirements listed in the Admission Requirements section above.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAMUSBA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze key creative and artistic processes from at least two musical styles and historical periods.
- Analyze specific musical products within the context of a specific historic or cultural tradition.
- Write research papers applying the conventions of scholarly discourse in music.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, music students are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates are prepared to work in various professional or entrepreneurial capacities, including:

- music criticism and research, ethnomusicology and musicology
- music entrepreneurship, concert management and promotion
- music publishing

- performing in community and professional ensembles in a variety of styles and traditions
- teaching in a private studio or community program

Many graduates pursue a master's degree or a doctorate in music or another professional field.

MUSIC E167

MDTAdmissions@asu.edu

480-965-5069

Music (Music and Culture), BA (HIMUSMCBA)

Campus: Tempe

Program Description: The BA in music with a concentration in music and culture is a broadly based liberal arts degree program offering the most elective flexibility of any ASU music major.

Students develop mainstream competencies such as performing or writing about music of all genres including classical, popular and other forms such as Western European, Middle Eastern, Asian and Latin American.

Students may also focus on concepts across diverse cultures and styles, such as acoustics, advocacy of wellness through music, ecomusicology, dance as musical embodiment and teaching about music. They explore music as a cultural artifact, through the lenses of human history and social behaviors, and engage in interdisciplinary thinking and academic research and writing. Students may tailor both the General Studies courses and the music electives to suit their career goals.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 117 - College Algebra Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music, Dance and Theatre application (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-steps-to-apply>). Admission to the School of Music, Dance and Theatre is based on an audition. Auditions (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-auditions>) take place in November (spring admission) and in January and February (fall admission) of each year.

Admission to the music program is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, Dance and Theatre, the applicant's major will be changed to music. If a student is admitted to ASU but not to the School of Music, Dance and Theatre or misses the audition deadline, the student will remain a music audition major and must successfully pass the music audition milestone in the first semester to gain admission into the program.

The audition process for admittance to the music and culture concentration comprises the following:

- Students must submit a writing sample, which is evaluated by all musicology faculty members.
- Students must submit evidence of musicianship broadly defined (basic notational literacy plus live audition on, for example, didgeridoo, or gospel-style composition, or documented transdisciplinary installation including music), which is evaluated by all musicology faculty.
- Students must attend an interview with at least three musicology faculty members.
- Each student is matched with a musicology advisor at the time of acceptance. The advisor assists them in the choice of ensembles (as qualified) and electives to support their programs of study. Students must audition and be accepted into large ensembles following established procedures.
- Students who wish to take studio lessons as part of the degree must audition for the appropriate performance faculty members. Students should

follow the audition requirements for the BA in music.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-deadlines-fees>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

Transfer Admission Requirements: Transfer applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum and to departmental or school evaluation of studio and class piano courses with respect to performance standards. Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admissions/music/undergraduate-deadlines-fees>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

Change of Major Requirements: Students who want to change their major to this one should reference the audition requirements listed in the Admission Requirements section above.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIMUSMCBA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze key creative and artistic processes from at least two musical styles and historical periods.
- Analyze specific musical products within the context of new musical fields, cultures, or practices.
- Write research papers applying the conventions of scholarly discourse in music.

Global Opportunities:

Global Experience: With more than 300 study abroad programs (<https://goglobal.asu.edu/>) in more than 65 countries (programs vary in length, from one week to one year), music and culture students have the opportunity to experience music of their area of focus in the music capitals of the world. Students gain a global perspective and knowledge in preparation for their career while earning ASU credit for completed courses and staying on track for graduation.

Career Opportunities: Students acquire skills applicable to careers in music and many other fields (e.g., librarianship, arts festival management or production, criticism, audience education, recruitment, artist representation, publishing and development, and creative writing). The program prepares students for potential careers in fields that require skilled written communication, the ability to conduct research both in electronic and print media, critical and logical thinking, the dissection of an argument and careful time management.

In addition to the careers listed below, graduates may pursue jobs in music and medical humanities or copyright and entertainment law. Graduates are prepared to work in various professional capacities, including:

- community and professional ensemble performance in a variety of styles and traditions
- music criticism and research, ethnomusicology and musicology
- music entrepreneurship, concert management and promotion
- music in culture, music blogging
- music librarianship
- music publishing, program annotation
- private studio or community program teaching

MUSIC E167
mdtadmissions@asu.edu
480-965-5069

Music (Popular Music), BA (HIMUSPMBA)

Campus: Downtown Phoenix

Program Description: The BA program in music offers a popular music concentration, accommodating musicians who are interested in various popular music genres, such as singers, songwriters, laptop performers, producers, composers, instrumentalists and vocalists. Students can choose between performer and non-performer tracks, following a flexible major map.

The program equips all students with foundational skills in musicianship, preparing them for specialized areas such as songwriting, production, composition, performance and more. Students engage in group and individual applied study, with opportunities that involve visiting artists and include industry exposure and professional development. Internships offer real-world experience, while a capstone senior year deepens their craft. Students need a personal laptop with digital audio workstation capability, which may require purchasing music software applications. Classes are held at the Downtown Phoenix campus.

The program fosters excellent musicianship, a strong understanding of the music industry, and business and entrepreneurial skills to ensure that students are well-prepared for careers in popular music.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Audition Process for admittance to BA in Music (Popular Music) concentration:

Artist Statement:

All auditioning students must submit an artist statement explaining both their current work and vision of their future work in popular music. A minimum of 250 words is required.

Audition:

Live auditions or recorded auditions are required for admission to the BA program in popular music and for placement in MUP 111 Studio Instruction in popular music. A live audition consists of a 15-minute performance or presentation consisting of three to five selections of live or digital music performance. The selections may be original works or selections from popular music repertoire. The audition also includes scales, improvisation and aural skills. Students may also provide a recorded sample of their creative popular music work if they so choose.

For students seeking to pursue popular music performance, a live or recorded performance video is required for at least part of the audition. For other disciplines in which a video is not possible (studio recording, music creation and composition), students are required to submit a digital audio sound recording of three to five selections.

The audition also includes a live or remote interview. A live audition is preferred. Applicants who are unable to visit the campus for a live audition may upload a recorded audition to the School of Music, Dance and Theatre application. These students will be contacted by faculty to arrange a remote interview.

Students interested in pursuing classical music lessons are required to follow the classical repertoire audition requirements for MUP 111 Studio Instruction in addition to auditioning for MUP 111 Studio Instruction in popular music.

Transfer Admission Requirements: Students transferring from community colleges, other universities or other ASU programs engage in the same

audition process as first-year students.

Transfer students are encouraged to audition during the semester before they wish to enroll at ASU. They will also take piano and music theory diagnostic exams at that time to ensure placement in appropriate coursework.

Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Change of Major Requirements: Students who want to change their major to this one should reference the audition requirements listed in the Admission Requirements section above.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIMUSPMBA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze key creative and artistic processes from a range of musical styles and historical periods.
- Apply music industry studies as it pertains to popular and contemporary music industry starting from the late 19th century to modern day.
- Execute professional level techniques in their chosen specializations.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, music students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates are prepared for careers in the popular music industry that involve creativity and creating new work, being a flexible musician, collaborating with others in the community, and having knowledge of music business and music marketing. Possible jobs include:

- contemporary composer for film, TV and games
- concert or artist manager and promoter
- entrepreneur and music marketer
- live event production and experience designer
- label or music executive
- musical director, arranger and publisher
- music performer in the popular music sector
- nonprofit arts-related professional
- sound designer or studio engineer
- songwriter, producer or teacher in a private studio

MUSIC E167

mdtadmissions@asu.edu

480-965-5069

Music Learning and Teaching, BMUS (FAMUSEBM)

Campus: Tempe

Program Description: In the BMus program in music learning and teaching, students develop strong pedagogical and musical abilities to deepen and broaden music-making in varied styles and contexts, including contemporary digital music-making, through coursework and lab participation.

Students also learn how to design and facilitate supportive, generative and equitable music programs that support all music students, helping them grow and thrive.

Upon completion, students can earn a K-12 teaching certification in Arizona with reciprocity in multiple states.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer

experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply skills needed for teaching music in K-12 classrooms, such as organized instructional plans, clear delivery, effective pacing and assessment techniques.
- Develop a repertoire of teaching strategies appropriate to the developmental characteristics and learning styles of children and adolescents through observation and teaching experience.
- Write research papers applying the conventions of scholarly discourse in music.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, music learning and teaching students are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates can become music educators in a variety of K-12 school and community settings. They are prepared to teach in public and private school music programs that offer a variety of music classes and ensembles, including general music, choir, band, orchestra, strings, guitar, jazz, music production, music technology and popular music.

Graduates may also work in various professional or entrepreneurial capacities, including:

- performing as a freelance musician in venues, such as art galleries, churches, clubs, cruise ships, resorts, restaurants and theme parks
- performing in community and professional ensembles in a variety of styles and traditions
- presenting school and community programs as artist-in-residence
- teaching and directing in a private studio or community program
- working in music-related fields such as media production, music business, publishing, marketing and education

Many graduates pursue a master's degree or a doctorate in music learning and teaching, in music or the arts, or in another professional field.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

MUSIC E167

MDTAdmissions@asu.edu

480-965-5069

Music Therapy, BMUS (FAMUSTHBM)

Campus: Tempe

Program Description: The BMus program in music therapy prepares students for a career in health care, community-based and special education settings. Music therapy majors learn to use carefully planned music interventions to achieve desired changes in a client's individualized behavior and functioning.

Music therapy is a profession in which engagement and receptive or active music-making help a client achieve individual therapeutic goals. Music therapy students develop a wide range of musical, verbal and nonverbal skills through the program's many opportunities to work in clinical settings. Students also study:

- human anatomy
- musical improvisation
- popular music styles
- psychology
- songwriting
- special education
- world music

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics Any math course that meets the MATH designation.

Transfer Admission Requirements: Transfer applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum and to departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admission/apply-music-major>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

Change of Major Requirements: Students who want to change their major to this one should reference the audition requirements listed in the Admission Requirements section above.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAMUSTHBM~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following

program outcomes:

- Apply competent music foundation skills across their secondary instruments of voice, piano, and guitar.
- Apply basic knowledge of the causes, symptoms of, and basic terminology used in medical, mental health, and educational settings to the implementation of therapeutic interventions.
- Write research papers applying the conventions of scholarly discourse in music.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, music therapy students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates are eligible to sit for the music therapy certification examination given by the Certification Board for Music Therapists.

Positions are available regionally and nationally in hospitals, schools, rehabilitation centers, nursing homes and other health care facilities. Graduates are prepared to work in the fields of community music therapy and wellness, geriatric care, mental health, physical rehabilitation, and special education, or within veteran and military populations.

A music therapy career may also provide an opportunity for private practice with flexible hours.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Performance (Collaborative Piano), BMUS (FAMUSPPBM)

Campus: Tempe

Program Description: The BMus program in performance with a concentration in collaborative piano offers private instruction in solo and collaborative piano; coaching with faculty on chamber music, song, operatic and musical theatre repertoire; and opportunities with large ensemble and choral programs. This diverse training leads directly to vibrant collaborative performance experiences in all areas, including collaboration with colleagues in dance and theatre.

Collaborative piano students regularly perform with their vocal and instrumental colleagues in concerts at ASU and throughout the valley, including at Scottsdale Center for the Performing Arts, the Kerr Cultural Center, Tempe Center for the Arts, and the renowned Musical Instrument Museum.

The program focuses on the core repertoire of song, piano chamber music, opera and musical theater. Collaboration within the School of Music, Dance and Theatre involves all performance areas, including classes and opportunities with the music theatre and opera programs, concerts with large ensembles and choirs, duo recitals with instrumental and voice colleagues, and performances of chamber music literature as part of the Visiting Quartet Residency program.

Fall admission: The deadline to apply for admission to this program is January 5.

Transfer Admission Requirements: Transfer applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum and to departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Application deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admission/apply-music-major>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

Change of Major Requirements: Students who want to change their major to this one should reference the audition requirements listed in the Admission Requirements section above.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAMUSPPBM~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Develop performance practices in the context of diverse musical settings and genres, demonstrating familiarity with the literature of one's instrument, as well as an overview of vocal and instrumental literature.
- Evaluate piano and related repertoire and pedagogy to develop a unique musical style.
- Produce a research study focusing on musical elements, social uses of music, and interplay among performers, composers, and institutions.

Global Opportunities:

Global Experience: Students who experience music in different countries expand their understanding of musical performance. Many ASU faculty are involved in summer music festivals throughout the world and often bring their ASU students to experience this global environment of collaboration.

With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, piano students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to

adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates are prepared to work in various professional or entrepreneurial capacities, including:

- performing as a collaborative pianist with singers and instrumentalists
- performing as a pianist with large instrumental ensembles
- performing as a pianist for music recording and studio work
- rehearsing and performing as a pianist with choral ensembles
- rehearsing and performing as a pianist for musical theatre or opera productions
- teaching in a private studio or community music program
- working as a vocal coach
- working collaboratively in music-related fields such as media production, music business, publishing and marketing

Many graduates pursue a master's degree or a doctorate in music or in another professional field.

Performance (Guitar), BMUS (FAMUSPGBM)

Campus: Tempe

Program Description: Guitarists pursuing an undergraduate degree in performance with a concentration in guitar will participate in an active guitar studio and interact with world-renowned faculty, teaching assistants and guest artists to achieve their career objectives. They participate in weekly technique workshops and guitar ensemble and studio classes. All guitar students work together each week to achieve the shared goal of students being able to express themselves musically while emphasizing the skills they will need in order to pursue careers as professional musicians.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music, Dance and Theatre application (<https://musicdancetheatre.asu.edu/admission>). Admission to the School of Music, Dance and Theatre is based on an audition. Auditions (<https://musicdancetheatre.asu.edu/admission/apply-music-major/audition-interview>) take place in November (spring admission) and in January and February (fall admission) of each year.

Admission to the music program is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, Dance and Theatre, the applicant's major will be changed to music. If a student is admitted to ASU but not to the School of Music, Dance and Theatre or misses the audition deadline, the student will remain a music audition major and must successfully pass the music audition milestone in the first semester to gain admission into the program.

Application deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admission/apply-music-major>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

Transfer Admission Requirements: Transfer applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum and to departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Application deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admission/apply-music-major>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

Change of Major Requirements: Students who want to change their major to this one should reference the audition requirements listed in the Admission Requirements section above.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAMUSPGBM~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

Performance (Jazz), BMUS (FAMUSPJBM)

Campus: Tempe

Program Description: The BMus in performance with a concentration in jazz prepares students for professional careers and leadership roles in jazz and related fields of contemporary music by promoting flexible musicianship and an understanding of the jazz tradition.

The curriculum includes course offerings in jazz performance, composition, arranging, history, theory, aural skills and pedagogy and is designed to incentivize artistic expression, innovation, and the exploration of blues-based improvisation, bebop, Latin jazz, swing and soul music.

Students in the jazz studies program find an abundance of performance opportunities in the many university ensembles and professional groups that perform in the greater Phoenix metropolitan area.

Performance (Music Theatre), BMUS (FAMUSPMBM)

Campus: Tempe

Program Description: The BMus in performance with a concentration in music theatre is an intensive, performance-oriented program.

Training includes private voice lessons every semester of study, as well as specialized instruction in acting, dance, audition techniques, technical production, repertoire classes, scene study and performance.

A unique feature of this program is an innovative sequence of musical theatre performance courses designed to synthesize all the abilities necessary to succeed as a professional musical theatre performer.

ASU is unique in that students may receive professional training in both opera and musical theatre in a broad variety of musical theatre styles, from traditional to contemporary. Two musicals and two operas are produced each year, plus new works and student-led productions. The annual showcase in New York City and Phoenix, as well as formal collaborations with Arizona Opera and The Phoenix Theatre Company, provides additional performance opportunities and valuable career immersion experiences for all students.

Performance (Orchestral Instrument), BMUS (FAMUSPOBM)

Campus: Tempe

Program Description: The BMus program in performance with a concentration in an orchestral instrument focuses on the study of music literature and techniques on a specific orchestral instrument.

Students receive coaching from world-renowned faculty and visiting guest artists, attend master classes and receive extensive performance experience in large ensembles as a chamber musician and as a soloist. Students study a specific orchestral instrument intensively with a faculty member for eight semesters including major repertoire, solo literature and chamber music.

Additionally, students learn skills that are required of highly successful working musicians, including audition preparation, networking, learning organizational strategies, opportunity creation and developing an entrepreneurial mindset.

With more than 300 Global Education options available, whether in a foreign country, in the U.S. or online, students are able to tailor their experience to their unique interests and skill sets. Students earn ASU credit for completed courses, while staying on track for graduation, and may apply financial aid and scholarships toward program costs.

The Herberger Institute for Design and the Arts recommends these programs for students majoring in performance.

(<https://goglobal.asu.edu/students/major/herberger/music>)

Career Opportunities: Graduates are prepared to work in various professional or entrepreneurial capacities, including:

- performing as a concert soloist; as a freelance musician in venues such as art galleries, churches, clubs, cruise ships, resorts, restaurants and theme parks; or performing in orchestras, chamber music ensembles, music theatre and opera pit ensembles
- presenting school and community programs
- recording and studio work
- teaching privately or as part of a college or university program
- working in music-related fields such as media production, music business, publishing and marketing

Many graduates pursue a master's degree or a doctorate in music or in another professional field.

Performance (Voice), BMUS (FAMUSPVBM)

Campus: Tempe

Program Description: The BMus program in performance with a concentration in voice focuses on the study of vocal technique, repertoire and performance while emphasizing the skills necessary for a career as a classical singer. The program provides extensive performance experience and an inclusive and supportive environment with opportunities to explore many different singing styles.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music, Dance and Theatre application (<https://musicdancetheatre.asu.edu/admission>). Admission to the School of Music, Dance and Theatre is based on an audition. Auditions (<https://musicdancetheatre.asu.edu/admission/apply-music-major/audition-interview>) take place on campus in November (spring admission) and in January and February (fall admission) of each year.

Admission to the music program is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, Dance and Theatre, the applicant's major will be changed to music. If an applicant is admitted to ASU but not to the School of Music, Dance and Theatre or misses the audition deadline, the student will remain a music audition major and must successfully pass the music audition milestone in the first semester to gain admission into the program.

Application deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admission/apply-music-major>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

Transfer Admission Requirements: Transfer applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum and to departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Application deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admission/apply-music-major>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

Change of Major Requirements: Students who want to change their major to this one should reference the audition requirements listed in the Admission Requirements section above.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use

MyPath2ASU® (<https://webapp4.asu.edu/transferecreditguide/app/transfermap?major=FAMUSPVBM~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will develop vocal performance practices and techniques in the context of diverse musical settings and genres, demonstrating familiarity with voice-specific literature and different singing styles.
- Students will be able to critically evaluate vocal repertoire and pedagogy to develop a unique musical style.
- Graduates of the voice concentration of the BMus in performance will be able to produce a research study focusing on musical elements, social uses of music, and interplay among performers, composers and institutions.

Global Opportunities:

Global Experience: Students who experience music in different countries can expand their understanding of musical performance. With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, performance students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates are prepared to work in various professional and entrepreneurial capacities, including:

- performing as a soloist, stage performer, choral singer or freelance musician in venues such as opera houses, theatres, concert halls, churches, clubs, cruise ships, resorts, restaurants and theme parks
- recording and studio work
- teaching in a private studio or community program
- working in music-related fields such as media production; music business, publishing or marketing; or arts administration

Many graduates pursue a master's degree or a doctorate in music or another professional field.

Performance and Movement, BA (HIPERMVBA)

Campus: Tempe

Program Description: The BA program in performance and movement is an inclusive, transdisciplinary degree program that encourages students to develop collaborative approaches to learning and professional industry skills in the performing arts.

The bachelor's degree program enables students to create a flexible degree program that engages their areas of interest. This degree program offers three focus areas:

- **Dance and theatre:** This focus area is designed for dancers who seek experience working with theatrical performance and acting, actors and performers who seek to balance text and voice work with movement exploration, and writers and directors who want to explore a wide range of approaches to live performance.
- **Social and partnership dance:** This dance focus area seeks to prepare future Afro-Latin social and ballroom dance leaders with pedagogical, performance and community-building strategies to help meet the need for local and national community engagement in social dance as a means to create social transformation and change.
- **Hip Hop arts:** The Hip Hop focus area spans various forms of Hip Hop artistry and expression through in-studio courses and hands-on application. It also connects students with scholars and practitioners to embrace the community of Hip Hop culture: dance, music, visual and voice.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=HIPERMVBA~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students graduating with a BA in performance and movement will be able to apply creative processes in their art-making that reflect contemporary understandings of dance and theatre practices.
- Graduates will be able to execute the stages of long-range creative projects.
- Students graduating from the BA in performance and movement will be able to implement culturally sensitive, ethical and socially grounded teaching, facilitation, and community-building practices.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, performance and movement students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: The bachelor's degree in performance and movement provides an excellent broad-based foundation for work in the arts or entertainment professions and readies students for further training at graduate schools or conservatories. The program's liberal arts emphasis, combined with a focus on physical presence, prepares graduates for a variety of occupations in both performance and nonperformance fields.

Opportunities may include work with:

- arts entrepreneurship
- professional performing
- studio ownership and management
- themed entertainment

Theatre, BA (FATHEBA)

Campus: Tempe

Program Description: The BA program in theatre provides students with a hands-on theatre education within a broad range of academic

opportunities. Every student is encouraged to develop their own creative skills through collaboration and to pursue a variety of theatre and performance areas.

The program offers specialty coursework in the following areas:

- acting and directing
- community engagement
- design and production
- dramatic literature and dramaturgy
- educational certification and teaching artistry
- intimacy coordination
- new work development and playwriting
- theatre history
- theatre for youth
- voice and movement

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Creative Enterprise and Cultural Leadership, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Admission Requirements: Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts is subject to the existence of parallel and equal courses in the college's curriculum and to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FATHEBA-null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Execute the stages of long-range creative projects.
- Explain how theatre shapes the cultural and political landscapes of societies.
- Apply key creative and artistic processes relevant to their area of focus in theatre (design processes, historical research for production, development of performer skills with an eye toward production, etc.).

Global Opportunities:

Global Experience: Students studying theatre can find inspiration and deepen their understanding of theater through a study abroad program. Study abroad provides an opportunity for students to explore their creative side through an intercultural lens. Not only do the programs encourage students to build communication skills, but they also challenge them, as artists, to think differently.

With over 300 options available, Global Education (<https://goglobal.asu.edu>) programs give students a breadth of knowledge in arts and culture uniquely different from their own. Whether in a foreign country, in the U.S. or online, students are challenged to adapt and persevere and to look inside themselves in a way they haven't done before, growing their self-confidence along the way.

Vital qualities in the field of theater, such as leadership, teamwork and communication, can be developed and honed abroad. Students earn ASU credit for completed courses while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

Career Opportunities: The bachelor's degree program in theatre provides an excellent foundation for work in the arts and entertainment and prepares students for further training at graduate schools or conservatories.

The program's broad range of academic opportunities prepares graduates for a variety of occupations in the entertainment industry. Opportunities may include work with:

- arts entrepreneurship
- concert venues
- corporate events
- literary agencies
- schools and training programs
- theatre and arts festivals
- theme parks

Theatre (Design and Production), BA (FADSNPRBA)

Campus: Tempe

Program Description: This BA program in theatre with a concentration in design and production provides students with opportunities to hone their craft while creating exciting work on stage as undergraduates. The concentration provides each student with the unique opportunity to explore their own creative process, while enhancing their ability to collaborate with others.

The program offers specialty coursework in the following areas:

- costume construction, design and technology
- digital fabrication
- lighting design and stage electrics
- media design and technology
- properties construction
- scenic design, art and construction
- sound design and technology
- sound and media systems design
- stage management
- technical direction

In addition to building knowledge and skills, concentration students are mentored by professional designers and technicians to successfully transition from college to their future careers in entertainment design and production, or to graduate programs for additional training.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. MUSIC E167

MDTAdmissions@asu.edu

480-965-5069

Theory and Composition (Composition), BMUS (FAMUSTCBM)

Campus: Tempe

Program Description: Students pursuing the BMus in theory and composition must choose a concentration in either theory or composition.

Composition students focus on developing varied techniques for writing music for assorted genres and media, including chamber, orchestra, and electronic music, and film and video scoring. Students have multiple performance opportunities each year, including readings by the ASU Symphony Orchestra and visiting ensembles, year-long residencies with the ASU Wind Bands and the Philharmonia Orchestra, commissions for the PRISMS contemporary music festival, and collaborations with student performers and student animators, filmmakers and dancers.

This degree program provides extensive faculty interaction and professional development. Students have opportunities to broaden their skills in compositional techniques from a wide variety of styles and traditions, with emphasis on fostering their personal approach to composition. The opportunity to collaborate with music scholars, theorists, performers, educators and other composers provides students with a broad and well-rounded foundation for careers in music.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation.

Fall admission: The deadline to apply for admission to this program is December 1.

Change of Major Requirements: An ASU student who would like to change majors to this program should reference the interview requirements listed in the Admission Requirements section above.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAMUSTCBM~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze key creative and artistic processes from at least two musical styles and historical periods.
- Critique specific musical products within the context of a specific historic or cultural tradition.
- Apply theoretical understanding of musical techniques to composing music in varied styles.

Global Opportunities:

Global Experience: Music transcends language and cultural boundaries, and students deepen their understanding of composition through unique study abroad (<https://goglobal.asu.edu/>) experiences. Students gain an enhanced understanding of how music affects culture and how they can communicate globally through their compositions.

With more than 300 programs around the world available to them, students can build the experience most suited to their personal goals and skill sets. More information on available programs can be found on the Global Education website.

Career Opportunities: Graduates are prepared to work in various professional or entrepreneurial capacities, including:

- arranging
- composing
- performing in community and professional ensembles in a variety of styles and traditions
- serving as an artist-in-residence in school programs
- teaching in a private studio and community program
- teaching theory and composition
- working in music-related fields such as media production, music business, publishing and marketing

Many graduates pursue a master's degree or a doctorate in music or another professional field.

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music, Dance and Theatre application (<https://musicdancetheatre.asu.edu/admission>). Admission to the School of Music, Dance and Theatre is based on an audition. Auditions (<https://musicdancetheatre.asu.edu/admission/apply-music-major/audition-interview>) take place in November (spring admission) and in January and February (fall admission) of each year.

Admission to the music program is highly selective and based on the audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, Dance and Theatre, the applicant's major will be changed to music. If a student is admitted to ASU but not to the School of Music, Dance and Theatre or misses the audition deadline, the student will remain a music audition major and must successfully pass the music audition milestone in the first semester to gain admission into the program.

Application Deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admission/apply-music-major>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

Transfer Admission Requirements: Transfer applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum and to departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Application deadlines: Students should review the complete music deadline (<https://musicdancetheatre.asu.edu/admission/apply-music-major>) information.

Spring admission: The deadline to apply for admission to this program is October 15.

Fall admission: The deadline to apply for admission to this program is January 5.

Change of Major Requirements: An ASU student who would like to change majors to this program should reference the audition requirements listed in the Admission Requirements section above.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FAMUSTTBM~null + &college=CHI>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze key creative and artistic processes from at least two musical styles and historical periods.
- Critique specific musical products within the context of a specific historic or cultural tradition.
- Conduct scholarly research on topics in music theory resulting in scholarly papers and/or presentations.

Global Opportunities:

Global Experience: Music transcends language and cultural boundaries; students deepen their understanding of music theory through unique study abroad experiences (<https://goglobal.asu.edu/>). They gain an enhanced understanding of how music affects culture and how they can communicate globally through music.

With more than 300 programs around the world available to them, students can build the experience most suited to their personal goals and skill sets.

Career Opportunities: Graduates are prepared to work in various professional capacities, including:

- arranging
- arts administration
- composing
- performing in community and professional ensembles in a variety of styles and traditions
- teaching in a private studio or community program
- teaching theory and composition
- working in music-related fields such as media production, music business, publishing and marketing

Many graduates pursue a master's degree or a doctorate in music or in another professional field.

MUSIC E167

MDTAdmissions@asu.edu

Engineering, Ira A. Fulton Schools of

Aeronautical Management Technology (Air Traffic Management), BS (ESAMTATBS)

Campus: Polytechnic

Program Description: The BS program in aeronautical management technology with a concentration in air traffic management provides a technical foundation in the air traffic control procedures used by air traffic controllers in control towers and radar facilities.

Students gain a strong background in aircraft operations and business principles, and gain management skills through coursework specific to air traffic control and aviation. As part of the degree program, students are required to take courses that will qualify them to earn their airline dispatcher certificate.

This is an intensive program of classroom study and laboratory practice using state-of-the-art air traffic control simulators to enhance and reinforce classroom study. Students receive training in the methodologies and technologies that are currently being developed for the next generation of air traffic control systems. Students develop the skills of analytical thinking, clear and concise communication, problem-solving and teamwork.

ASU is a partner in the FAA Air Traffic Collegiate Training Initiative and is accredited by the Aviation Accreditation Board International.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Technology (Aviation Management and Human Factors), MSTech

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The Federal Aviation Administration has minimum requirements for employment in civil aviation. Students should see https://www.faa.gov/jobs/career_fields/aviation_careers (https://www.faa.gov/jobs/career_fields/aviation_careers/) for more information. Graduates of the program are not guaranteed employment by the FAA. Students who do not have U.S. citizenship may be admitted to the program but are not eligible for employment by the FAA.

Change of Major Requirements: A current ASU student must have a minimum cumulative ASU GPA of a 2.00 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESAMTATBS-null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, aeronautical management technology students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: The Federal Aviation Administration's 2020 Controller Workforce Plan projects that the agency plans to hire more than 8,500 new controllers by 2029 to keep pace with the expected attrition rate and traffic growth. A total of 9,596 new controllers are expected to be hired in the period 2019 to 2029. The increase in the volume of air traffic requires more controllers to handle the additional work. New computerized systems assist controllers by automatically making many of the routine decisions, allowing controllers to handle more traffic and thus increasing their productivity.

Despite the obvious demand for new controllers in the immediate future, competition to get into the FAA-approved training programs is expected to remain intense because there are generally many more applicants than openings. Graduates who have met all the FAA requirements are eligible for consideration for employment.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

Aeronautical Management Technology (Air Transportation Management), BS (TSAMTMBS)

Campus: Polytechnic

Program Description: The air transportation management concentration of the BS program in aeronautical management technology provides students with a strong foundation in aviation concepts, including airline administration, airport planning, aviation law and policy, and human factors, as well as technical knowledge focusing on power plants, structures and aerodynamics. Students progress into courses on the business and management and operational aspects of aviation, such as airline administration and airport planning. All students finish the program by participating in an internship within industry and completing a capstone project.

This program prepares students for leadership positions within airlines, at airports, and in government, consulting and entrepreneurial enterprises.

The Aviation Accreditation Board International accredits this program.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Technology (Aviation Management and Human Factors), MSTech

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student must have a minimum cumulative ASU GPA of 2.00 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSAMTMSB~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: The aviation industry is a global one, and understanding intercultural communication is vital to succeeding in it. Through the rich educational and interpersonal experiences inherent in study abroad, students learn to thrive in a global environment.

With over 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

A resume enhanced by valuable study abroad experiences will impress prospective employers and help the student stand out should they decide to pursue advanced study.

Career Opportunities: Graduates with a degree in air transportation management are prepared for careers in:

- airline management
- airline operations management
- airport management
- aviation consulting
- fixed-base operations management
- general aviation operations management

Graduates are also prepared to enter into entrepreneurial ventures and for government positions with organizations such as the Federal Aviation Administration, the Department of Transportation and the National Transportation Safety Board.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Aeronautical Management Technology (Professional Flight), BS (TSAMTFBS)

Campus: Polytechnic

Program Description: Students in the professional flight concentration of the BS program in aeronautical management technology learn to fly in an academic environment that prepares graduates for careers as professional pilots.

Flight training is offered by an ASU-approved flight provider in late-model aircraft equipped with state-of-the-art avionics.

Students may take advantage of pathway agreements for guaranteed interviews with regional air carriers.

This program is for students who are seriously interested in becoming professional airline pilots. Graduates are prepared to assume responsibilities in a wide variety of technically related areas within professional aviation flight operations.

The Aviation Accreditation Board International accredits this program and the Federal Aviation Administration certifies flight and ground instruction.

Additional course-related fees apply; students should see the program website (<https://poly.engineering.asu.edu/aviation/professional-flight-bs/>) for more information.

GI Bill® benefits

This program is not approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)
International (<https://admission.asu.edu/international/undergrad-apply>)
Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: This major has additional admission requirements (<https://poly.engineering.asu.edu/aviation/professional-flight-bs/secondary-application-process>), including Federal Aviation Administration requirements. Students are admitted with preprofessional status and must complete additional requirements for admission to the professional program.

Change of Major Requirements: Current ASU students wishing to change their major to professional flight must have a minimum cumulative ASU GPA of 2.00.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSAMTFBS-null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Aviation is a global industry, and understanding intercultural communication is vital to succeeding in it. Study abroad programs (<https://goglobal.asu.edu/>) offered around the globe give insight toward the study of professional flight. Students can further their skills in communication and administration and gain commercial experience while in an international setting.

Career Opportunities: The professional flight concentration offers students private pilot, commercial pilot and flight instructor certificates as well as instrument pilot, instrument instructor and multiengine pilot ratings. With these flight qualifications and the technically based bachelor's degree, the graduate has a wide variety of career opportunities, including flight crew service on commercial and business aircraft as an airline or corporate pilot.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. Aeronautical Management Technology (Unmanned Aerial Systems), BS (TSAMTUASBS)

Campus: Polytechnic

Program Description: The unmanned aerial systems concentration of the BS program in aeronautical management technology prepares students for careers in the rapidly growing area of unmanned aerial systems, including operations, remote sensing, data collection and analysis.

The concentration incorporates all aviation management technology core courses and unmanned aerial systems concentration courses. This provides an overview of unmanned aerial systems operations followed by detailed knowledge of relevant systems, technology (ground control stations; data links; flight planning and operations; search, detect and avoid technologies; and payloads), and sensor operations. A critical aspect of this academic area of study is the data capture and transfer of the sensor information collected from the unmanned aerial vehicle.

This innovative concentration brings together the most up-to-date and relevant aspects facing multiple industries today by addressing flight system planning and operations and the employment of the systems in the congested National Airspace System.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student must have a minimum cumulative ASU GPA of 2.00 to change majors to this program. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSAMTUASBS-null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Use of unmanned aerial systems is happening all across the globe. Students participating in a study abroad experience learn a great deal about global practices, laws and emerging technologies within the aviation field.

Study abroad programs (<https://goglobal.asu.edu/>), offered by ASU in more than 65 countries, further students' global thinking and increase their communication and problem-solving skills, preparing them for their careers. Students earn ASU credit for completed courses, while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

Career Opportunities: Students graduating from this program are ready to find various employment opportunities as unmanned aerial vehicle pilots and sensor operators in the U.S. and throughout the world. This concentration prepares students to operate small to midrange platforms that are used by emergency responders and in industries including forestry, agriculture, energy and oil. Entry-level pay is competitive for this highly specialized field.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Ira A. Fulton Schools of Engineering lead to professional licensure.

SUTON 240

Aerospace Engineering (Aeronautics), BSE (ESAEROBSE)

Campus: Tempe

Program Description: The aerospace engineering curriculum provides students with an education in technological areas critical to the design and development of aerospace vehicles and systems. The aeronautics concentration under the BSE program in aerospace engineering emphasizes engineering and the design of aircraft, helicopters, missiles and other vehicles that fly through the atmosphere.

Topics in required courses cover aerodynamics, aerospace materials, aircraft structures, flight mechanics, propulsion, and stability and control. Required astronautics topics include altitude control and orbital mechanics.

Students in the aerospace engineering program are expected to attain the following outcomes:

- an ability to identify, formulate and solve complex engineering problems by applying principles of engineering, science and mathematics
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety and welfare, as well as global, cultural, social, environmental and economic factors
- an ability to communicate effectively with a range of audiences
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks and meet objectives
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org/>), under the General Criteria and the Aerospace Engineering Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Aerospace Engineering, MS
- Astrophysics and Astronomy, MS
- Exploration Systems Design (Instrumentation), MS
- Exploration Systems Design (Sensor Networks), MS
- Exploration Systems Design (Systems Engineering), MS
- Exploration Systems Design, MS
- Mechanical Engineering, MS
- Robotics and Autonomous Systems (Mechanical and Aerospace Engineering), MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering, shown below, are higher than minimum university admission standards. International students must meet the same admission requirements shown below, with the possible additional requirement of a minimum English language proficiency (<https://admission.asu.edu/apply/international/undergrad/english-proficiency>) test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, a minimum Duolingo English score of 105, or a minimum Cambridge English exams score of 176.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score, or minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for fewer than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet either the primary or the secondary criteria (not both):

Primary criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if ASU Admission Services requires submission of a high school transcript)

Secondary criteria

- minimum transfer GPA of 2.75 for 24 or more transfer credit hours, and
- minimum GPA of 2.75 in all critical courses: MAE 201 Mechanics of Particles and Rigid Bodies I: Statics, MAE 202 Mechanics of Particles and Rigid Bodies II: Dynamics, MAE 213 Mechanics of Materials, and MAE 242 Introduction to Fluid Mechanics

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESAEROBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply principles of mathematics and science to solve complex engineering problems (ABET Outcome).
- Apply engineering design to a student project with consideration of public welfare/other factors (ABET Outcome).
- Develop and conduct engineering experiments, and analyze and interpret data (ABET Outcome).

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, aerospace engineering students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

The Ira A. Fulton Schools of Engineering recommends these programs (<https://goglobal.asu.edu/aerospace-engineering-bse>) for students majoring in aerospace engineering.

Career Opportunities: The majority of students entering the field of aerospace engineering desire to work on the design and analysis of aerospace vehicles. Most graduates are employed in the aerospace industry or in government positions related to aerospace. Specific careers in aerospace

engineering include:

- aeronautical and space systems integration
- configuration development
- material and structural design
- propulsion engineering
- space mission design and analysis
- vehicle and component analysis using computer-aided tools
- vehicle design and performance
- wind tunnel and flight testing

The aerospace engineering program has the following educational objectives:

Through activities such as volunteering, entrepreneurial endeavors, community service, and their employment, graduates of the aerospace engineering program demonstrate commitment to the Sun Devil ideals of global engagement, social embeddedness, social transformation and sustainability.

Graduates of the aerospace engineering program should attain one or more of the following objectives within a few years after earning their degree:

- employment in aerospace or other field in a position that capitalizes on the skills and abilities gained through the degree in aerospace engineering, leading to positions of increasing responsibility and leadership within the organization
- admission to a graduate degree program in aerospace engineering or other technical field
- admission to a professional degree program, such as law or business, in accordance with the specific interests and abilities of the graduate

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Ira A. Fulton Schools of Engineering lead to professional licensure.

Aerospace Engineering (Astronautics), BSE (ESAEASBSE)

Campus: Tempe

Program Description: The BSE program in aerospace engineering provides students with an education in technological areas critical to the design and development of aerospace vehicles and systems.

The astronautics concentration curriculum covers:

- attitude determination and control
- elective topics in aeronautics
- gas dynamics
- orbital mechanics
- rocket propulsion
- space environment
- space structures
- telecommunications

Students in the astronautics concentration culminate their major study with a capstone design project that incorporates the multiple disciplines involved in the creation of a space-going vehicle.

Students in the aerospace engineering program are expected to attain the following outcomes:

- an ability to identify, formulate and solve complex engineering problems by applying principles of engineering, science and mathematics
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety and welfare, as well as global, cultural, social, environmental and economic factors
- an ability to communicate effectively with a range of audiences
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the

impact of engineering solutions in global, economic, environmental and societal contexts

- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks and meet objectives
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org>), under the General Criteria and the Aerospace Engineering Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website.

The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Aerospace Engineering, MS
- Astrophysics and Astronomy, MS
- Exploration Systems Design (Instrumentation), MS
- Exploration Systems Design (Sensor Networks), MS
- Exploration Systems Design (Systems Engineering), MS
- Exploration Systems Design, MS
- Mechanical Engineering, MS
- Robotics and Autonomous Systems (Mechanical and Aerospace Engineering), MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering, shown below, are higher than minimum university admission standards. International students must meet the same admission standards, with the possible additional requirement of a minimum English language proficiency (<https://admission.asu.edu/apply/international/undergrad/english-proficiency>) test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, a minimum Duolingo English score of 105, or a minimum Cambridge English exam score of 176.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for fewer than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT

combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet either the primary or the secondary criteria (not both):

Primary criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if ASU Admission Services requires submission of a high school transcript)

Secondary criteria

- minimum transfer GPA of 2.75 for 24 or more transfer credit hours, and
- minimum GPA of 2.75 in all critical courses: MAE 201 Mechanics of Particles and Rigid Bodies I: Statics, MAE 202 Mechanics of Particles and Rigid Bodies II: Dynamics, MAE 213 Mechanics of Materials, and MAE 242 Introduction to Fluid Mechanics

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESAEASBSE-null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply principles of mathematics and science to solve complex engineering problems (ABET Outcome)
- Apply engineering design to a student project with consideration of public welfare/other factors (ABET Outcome)
- Develop and conduct engineering experiments, and analyze and interpret data (ABET Outcome).

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, aerospace engineering students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

The Ira A. Fulton Schools of Engineering recommends these programs (<https://goglobal.asu.edu/aerospace-engineering-bse>) for students majoring in aerospace engineering.

Career Opportunities: The majority of students entering the field of aerospace engineering desire to work on the design and analysis of aerospace vehicles. Most graduates are employed in the aerospace industry or in government positions related to aerospace. Specific careers in aerospace engineering include:

- aeronautical and space systems integration
- configuration development
- material and structural design
- propulsion engineering
- space mission design and analysis
- vehicle and component analysis using computer-aided tools
- vehicle design and performance
- wind tunnel and flight testing

The aerospace engineering program has the following educational objectives:

Through volunteering, entrepreneurial endeavors, community service, their employment, etc., graduates of the aerospace engineering program demonstrate commitment to the Sun Devil ideals of global engagement, social embeddedness, social transformation and sustainability.

Graduates of the aerospace engineering program should attain one or more of the following objectives within a few years after completing their degrees:

- employment in aerospace or other field in a position that capitalizes on the skills and abilities gained through the degree in aerospace engineering, leading to positions of increasing responsibility and leadership within their organization
- admission to a graduate degree program in aerospace engineering or other technical field
- admission to a professional degree program, such as law or business, in accordance with the specific interests and abilities of the graduate

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Aerospace Engineering (Autonomous Vehicle Systems), BSE (ESAEAVSBSE)

Campus: Tempe

Program Description: Emerging emphasis on autonomous aircraft technology and operations in military and civilian sectors signals a new era within the aeronautical community that is focused on autonomous vehicles and systems.

The BSE program in aerospace engineering with a concentration in autonomous vehicle systems provides graduates with knowledge and skills required for any career in aerospace engineering, plus those specific to unmanned aerial vehicles and systems.

The curriculum is structured to give students general exposure to the engineering of autonomous aircrafts.

Students in the aerospace engineering program are expected to attain the following outcomes:

- an ability to identify, formulate and solve complex engineering problems by applying principles of engineering, science and mathematics
- an ability to apply engineering design to produce solutions that meet specified needs, with consideration of public health, safety and welfare, as well as global, cultural, social, environmental and economic factors
- an ability to communicate effectively with a variety of audiences
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks and meet objectives
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

All paths through this concentration satisfy accreditation criteria for aerospace engineering.

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org>), under the General Criteria and the Aerospace Engineering Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Applied Science (Aviation), BAS (TSAMTABAS)

Campus: Polytechnic

Program Description: The concentration in aviation within the BAS is for students who have received training and education in some aspect of the air transportation industry, such as air transportation management, flight or aviation maintenance, as part of their associate degree. Students receive an orientation in management practices.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: Any math course with the MATH general studies designation will satisfy the math requirement.

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students applying to this program must have completed an AAS degree from a regionally accredited institution. This program is not available to first-year students.

Transfer Admission Requirements: This BAS program allows students who have an applicable Associate of Applied Science degree from an accredited institution to transfer 60 credit hours toward a Bachelor of Applied Science degree at ASU. Following transfer to ASU, students pursuing this degree may have more than 60 credit hours to complete in order to obtain their Bachelor of Applied Science. Students who have earned an Associate of Applied Science degree from a regionally accredited Arizona community college may be eligible to transfer up to 75 credits toward the Bachelor of Applied Science degree. Students should work with their academic advisor to ensure their courses meet degree requirements.

Change of Major Requirements: Students interested in changing to this Bachelor of Applied Science program must have completed a related Associate of Applied Science degree at a regionally accredited college.

A current ASU student must have a minimum cumulative ASU GPA of 2.00 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSAMTABAS-null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Aviation is a global industry, and understanding intercultural communication is vital to succeeding in it. Study abroad programs (<https://goglobal.asu.edu/>), offered around the globe, give students insight into the study of aviation. Students can further their skills in communication and administration, and gain commercial experience while in an international setting. Students earn ASU credit for completed courses while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

Career Opportunities: Graduates are prepared for advanced positions in the aviation management field, including:

- airline manager
- airline operations manager
- airport manager
- aviation consulting
- entrepreneurial ventures
- fixed base operations
- general aviation operations manager
- government positions with the Federal Aviation Administration, the Department of Transportation or the National Transportation Safety Board

Applied Science (Graphic Information Technology), BAS (TSGITBAS)

Campus: Polytechnic, Online

Program Description: The cross-media nature of the graphics industry requires tomorrow's graduates to understand the full spectrum of visual design and production as well as current business practices.

The BAS program with a concentration in graphic information technology prepares students to become visual design technologists with skills in front-end web design and development, printing and digital publishing, commercial photography and video production, and motion graphics and visual effects. This is an intensive program of study emphasizing theory and hands-on laboratory practice.

The graphic information technology program allows students who have an applicable AAS from an accredited institution to transfer 60 credit hours toward a Bachelor of Applied Science degree at ASU. Students pursuing this degree may have more than 60 credit hours to complete in order to obtain their Bachelor of Applied Science upon transfer to ASU. Students who have earned an Associate of Applied Science degree from a regionally accredited Arizona community college may be eligible to transfer up to 75 credits toward the Bachelor of Applied Science degree. Students should work with their academic advisor to ensure their courses will meet degree requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Graphic Information Technology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students applying to this program must have completed an AAS degree in a similar field, such as animation, desktop publishing, digital arts, digital photography, e-learning design, game technology, graphic design, video production technology or web design.

Change of Major Requirements: Students interested in changing to this Bachelor of Applied Science degree must have completed a related Associate of Applied Science degree at a regionally accredited university in a similar program, such as graphic design, animation, visual communication, web design and development, commercial photography and video.

A current ASU student must have a minimum cumulative ASU GPA of 2.00.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's

ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/graphic-information-technology-bas/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSGITBAS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Synthesize technical information into written and visual documentation for cross-media projects.
- Sketch solutions to cross-media problems utilizing industry-standard workflows.
- Implement appropriate industry-standard tools and techniques for managing complex cross-media projects.

Global Opportunities:

Global Experience: Students learn intercultural applications of design and technology skills through hands-on learning and cultural engagement opportunities in an international setting. Through the rich educational and interpersonal experiences inherent in study abroad, students learn to thrive in a global environment.

With over 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Students earn ASU credit for completed courses, while staying on track for graduation, and may apply financial aid and scholarships toward program costs.

A resume enhanced by the valuable study abroad experience will impress prospective employers, and it will also help the student stand out should they decide to pursue advanced study.

Career Opportunities: The graphic information technology program prepares graduates for technical and management positions in visual design in such diverse areas as:

- art direction
- commercial photography and video production
- front-end web design and development
- graphic design
- motion graphics, animation and game art
- premedia, digital printing and publishing
- production management
- quality assurance of graphic and visual design products
- technical and digital media production
- user experience and user interface design
- video editing
- visual design

Campus: Polytechnic, Online

Program Description: The BAS program with a concentration in internet and web development is an intensive program of study emphasizing hands-on laboratory practice. Students develop skills in front-end web design and development, including advanced web markup and scripting, user experience design, usability, multimedia design and emerging web technologies.

Students who have an applicable AAS from an accredited institution may transfer 60 credit hours toward a bachelor's degree at ASU, and students who have earned an Associate of Applied Science degree from a regionally accredited Arizona community college may be eligible to transfer up to 75 credits toward this program. Upon transfer to ASU in pursuit of this Bachelor of Applied Science, students may have more than 60 credit hours to complete. Students should work with their academic advisor to ensure their courses will meet degree requirements.

All courses for this program are available on campus and through ASU Online.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Graphic Information Technology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students applying to this program must have completed an AAS degree in digital animation, graphic design, media arts, web design or web development.

Change of Major Requirements: Students interested in changing to this Bachelor of Applied Science degree must have completed a related Associate of Applied Science degree at a regionally accredited university.

A current ASU student must have a minimum cumulative ASU GPA of 2.00.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-applied-science-internet-and-web-development/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students

take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSIWDBAS-null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply industry-level knowledge of web design and development key concepts and best practices to provide web-based solutions
- Propose solutions to complex web design and development projects utilizing industry-standard tools and techniques
- Construct effective user interactions and system functionalities in web-based systems

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, internet and web development students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates are prepared for careers in front-end website design and development, usability and user experience design, user interface design and visual design.

Applied Science (Operations Management), BAS (TSIMCOBAS)

Campus: Polytechnic, Online

Program Description: Graduates of the BAS program with a concentration in operations management are able to provide strategic focus and meet organizational objectives by implementing best practices, managing people and creating value.

Students who have an applicable AAS from an accredited institution may transfer 60 credit hours toward a bachelor's degree at ASU, and students who have earned an Associate of Applied Science degree from a regionally accredited Arizona community college may be eligible to transfer up to 75 credits toward this program. Upon transfer to ASU in pursuit of this Bachelor of Applied Science, students may have more than 60 credit hours to complete. Students should work with their academic advisor to ensure their courses will meet degree requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: Any math course with the MATH general studies designation will satisfy the math requirement.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students applying to this program must have completed an AAS degree from a regionally accredited institution. This program is not available to first-year students.

Change of Major Requirements: Students interested in changing to this Bachelor of Applied Science degree must have completed a related Associate of Applied Science degree at a regionally accredited institution and have a minimum cumulative ASU GPA of 2.00. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-applied-science-operations-management-technology/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSIMCOBAS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Implement industrial management of technology, management of processes, and management of human capital.
- Demonstrate proficiency in collaborating with diverse team members through a professional team presentation that conveys innovation improvements for businesses or organizations.
- Apply systems thinking, data-driven decision making, and research to optimize decisions to solve complex problems for a variety of industries and organizations.
- Demonstrate proficiency in critical thinking by developing a strategic management plan that includes analysis of issues, assumptions, evidence and implications.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, operations management students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: The bachelor's degree program in operations management technology prepares undergraduate students for supervisory and management functions in industry, manufacturing, public service and other service organizations.

Biomedical Engineering, BSE (ESBMEBSE)

Campus: Tempe, Online

Program Description: The BSE program in biomedical engineering provides students with in-depth knowledge to translate an idea for a health solution into a viable prototype of a biomedical device.

With knowledge gained from courses that cover engineering and life sciences, and that tie the two together, graduates are able to apply their skills in an ethical and a sustainable manner to make contributions that address societal and individual needs.

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org/> (<https://www.abet.org/>), under the General Criteria and the Bioengineering and Biomedical Engineering Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Biomedical Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering, shown below, are higher than minimum university admission standards. International students must meet the same admission standards, with the possible additional requirement of a minimum English language proficiency (<https://admission.asu.edu/apply/international/undergrad/english-proficiency>) test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, a minimum Duolingo English score of 105, or a minimum Cambridge English exam score of 176.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for fewer than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet either the primary or the secondary criteria (not both):

Primary criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if ASU Admission Services requires submission of a high school transcript)

Secondary criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 3.00 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/biomedical-engineering/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESBMEBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students studying biomedical engineering gain valuable hands-on experience when studying abroad, experience that enhances their resumes. With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, biomedical engineering students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Biomedical engineers are primarily employed in:

- governmental regulatory agencies
- hospital and research facilities
- medical and educational institutions
- medical device, biotechnology and pharmaceutical industries

In industry, they may work in all aspects of product development, including:

- business development
- manufacturing
- marketing
- quality
- regulatory compliance
- research and design
- sales

Because of their background in both the engineering and medical fields, they often serve a coordinating or interfacing function and have a key role in transdisciplinary teams. Government positions may involve evaluating new technologies, testing product quality and safety, and setting standards.

In the hospital, biomedical engineers serving in a clinical engineering function may provide advice on the selection and use of medical equipment, and supervise performance testing and maintenance. Biomedical engineers may also build customized devices for special health care, rehabilitation or research needs.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Ira A. Fulton Schools of Engineering lead to professional licensure.

Biomedical Engineering (Biological Devices), BSE (ESBMEBDBSE)

Campus: Tempe

Program Description: The BSE program in biomedical engineering with a concentration in biological devices provides in-depth knowledge of cell biology and helps students learn to apply that knowledge to solve engineering problems pertinent to medicine and other fields, including synthetic biology.

The biomedical industry has many branches that require depth of understanding of cell biology and its techniques, including immunohistochemical diagnostics, blood-contacting materials, controlled-release therapeutics and local delivery of therapeutics.

With courses that cover engineering and life sciences and that tie the two together, graduates are able to apply their skills in an ethical and a sustainable manner to make contributions that address societal and individual needs.

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org/> (<http://www.abet.org/>), under the General Criteria and the Bioengineering and Biomedical Engineering Program Criteria.

Chemical Engineering, BSE (ESCHEBSE)

Campus: Tempe

Program Description: Chemical engineering deals with the application of chemistry, physics and mathematics to the process of converting raw materials or chemicals into more useful or valuable forms. Chemical engineering also involves the design of valuable new materials and chemical products. The modern discipline of chemical engineering is intertwined with biology and biomedical engineering.

The BSE program offered in chemical engineering builds on a broad base of knowledge within the basic and mathematical sciences and engineering.

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org/> (<https://www.abet.org/>), under the General Criteria and the Chemical, Biochemical, Biomolecular Engineering Program Criteria.

STEM-OPT for International Students on F-1 Visas:

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Chemical Engineering, MS
Materials Science and Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply

(<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering, shown below, are higher than minimum university admission standards. International students must meet the same admission standards, with the possible additional requirement of a minimum English language proficiency (<https://admission.asu.edu/apply/international/undergrad/english-proficiency>) test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, a minimum Duolingo English score of 105, or a minimum Cambridge English exam score of 176.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for fewer than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet either the primary or the secondary criteria (not both):

Primary criteria

- minimum transfer GPA of 3.00 for 24 or more transfer credit hours, and
- no high school math or science competency deficiencies (if ASU Admission Services requires submission of a high school transcript)

Secondary criteria

- minimum transfer GPA of 2.75 for 24 or more transfer credit hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (students should refer to the major map for critical courses)

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESCHEBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply key principles in engineering and applied chemistry through chemical process design.
- Demonstrate the ability to effectively communicate in written and oral methods in student assignments including an oral project defense and lab report.
- Apply fundamental knowledge of mathematics, science, and engineering to complex chemical engineering problems.

Global Opportunities:

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) provide students an important opportunity to develop valuable skills and have experiences that help to grow their self-confidence and enable them to develop their communication skills, giving them an advantage.

Students learn intercultural applications of design and technology skills through hands-on learning and cultural engagement opportunities in an

international setting. Participation in a Global Education program exposes students to unique environments and cultures, challenges them to adapt and persevere, helps them increase their professional and educational networks, and enhances their portfolio of experience through the kinds of hands-on research and community-based opportunities they will need to compete and succeed in today's challenging and quickly changing STEM fields.

The Ira A. Fulton Schools of Engineering recommends these programs (<https://goglobal.asu.edu/chemical-engineering-bse>) for students majoring in chemical engineering.

Career Opportunities: Graduates are prepared for excellent career opportunities. Chemical engineers are engaged in the development and production of a diverse range of products, including high-performance materials needed for aerospace, automotive, biomedical, electronic and environmental applications. They have traditionally played a key role in industries as varied as:

- artificial fibers
- biotechnology
- ceramics
- food
- glass
- petrochemicals
- petroleum
- plastics
- primary metals
- semiconductors
- specialty chemicals

Chemical engineering graduates are also in great demand in many newer fields, such as biomedical engineering, modern materials science (composites, superconductors) and the solution of environmental problems.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Ira A. Fulton Schools of Engineering lead to professional licensure.

Civil Engineering, BSE (ESCEEBS)

Campus: Tempe

Program Description: Civil engineering majors in the Ira A. Fulton Schools of Engineering have two choices within the accredited BSE program: civil engineering and civil engineering with the sustainable engineering concentration. Regardless of choice, the Bachelor of Science in Engineering in civil engineering is accredited by ABET.

Civil engineering involves the analysis, planning, design, construction, maintenance and application of sustainable practices in all areas of urban infrastructure for government, commerce, industry and the public domain. These include airports, bridges, canals, dams, factories, office towers, roadway systems, schools, tunnels and subway systems, and water purification facilities. Civil engineers are concerned with the impact their projects have on the public and the environment; they coordinate the needs of society with technical and economic feasibility.

The curriculum exposes students to the following areas of civil engineering, with a strong emphasis on sustainability:

- construction engineering
- environmental engineering
- geotechnical engineering
- hydrosystems engineering
- structures
- transportation

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org>), under the General Criteria and the Civil Engineering Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Civil, Environmental and Sustainable Engineering, MS
- Construction Engineering, MSE
- Environmental Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering, shown below, are higher than minimum university admission standards. International students must meet the same admission standards, with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, a minimum Duolingo English score of 105, or a minimum Cambridge English exam score of 176.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum ACT composite score of 24, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for fewer than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum ACT composite score of 24, or minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet either the primary or the secondary criteria (not both):

- no high school math or science competency deficiencies if Admission Services requires submission of a high school transcript

Secondary criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 3.00 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A.

Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESCEEBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Studying abroad enables students in civil engineering to learn intercultural applications of design and technology skills through hands-on learning and cultural engagement in an international setting.

Whether in a foreign country, in the U.S. or online, students build communication skills and learn to adapt and persevere, and they are exposed to research and internships across the world, which increases their professional network. Students earn ASU credit for completed courses while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

The expanded education that students acquire while participating in a Global Education program (<https://goglobal.asu.edu/>) demonstrates to employers their ability to thrive in a global environment, helping them to stand out when pursuing their choice of careers in a competitive industry.

Career Opportunities: ASU graduates with a bachelor's degree in civil engineering readily find employment. Civil engineers work in many different types of companies, including large corporations and small, private consulting firms, as well as government agencies. A civil engineering background is an excellent foundation for jobs in management and public service.

Civil engineering is one of the best engineering professions from the viewpoint of international travel opportunities or eventually establishing one's own consulting business.

The bachelor's degree program prepares graduates for the Fundamentals of Engineering examination, the Principles and Practice of Engineering exam, and graduate degree programs.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Ira A. Fulton Schools of Engineering lead to professional licensure.

Civil Engineering (Sustainable Engineering), BSE (ESCEESUBSE)

Campus: Tempe

Program Description: Civil engineering majors have two options within the accredited BSE program: civil engineering and civil engineering with sustainable engineering concentration. Regardless of choice, the Bachelor of Science in Engineering in civil engineering is accredited by ABET.

The bachelor's degree in civil engineering with a concentration in sustainable engineering incorporates systems modeling and life cycle approaches to assessing the resiliency and material selection across all areas of urban infrastructure or built environment currently addressed within the civil engineering degree. The program is designed to provide students with exposure to material from several disciplines that comply with the principles of economic, social and ecological sustainability and apply these principles to traditional civil engineering areas.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>), under the General Criteria and the Civil Engineering Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. Computer Science, BA (ESCSEBA)

Campus: West

Program Description: The BA program in computer science is anchored with core courses that provide a solid foundation in the practical aspects of computer science, and it ensures that students have the requisite critical thinking, effective programming and problem-solving skills for a future in industry. The program provides opportunities for students to customize their degree with other areas of interest with a robust offering of computing electives covering various disciplines such as:

- app development
- cybersecurity
- databases
- data science
- networking
- software development

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESCSEBA~null>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students learn to thrive in a global environment through the rich educational and interpersonal experiences inherent in study abroad. A resume enhanced by the valuable study abroad experience will impress prospective employers, and it will also help the student stand out should they decide to pursue advanced study.

With over 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates are well-prepared for pursuing careers in a wide variety of computing-related fields or to embark on further graduate studies. They secure employment in a variety of capacities, such as in computer and software design or the development of information technologies. Computer science graduates can excel in system and software development. Some computer science-related jobs include:

- creating computer games and graphics systems
- developing mobile computing applications
- developing security applications
- discovering data management and mining solutions

Computer Science, BS (ESCSEBS)

Campus: Tempe, Online

Program Description: The BS program in computer science aims to produce graduates who are well prepared to pursue careers in a wide variety of computing-related fields or to embark on further studies in graduate degree programs.

The program is anchored with core courses that provide a solid foundation in theoretical and practical aspects of computer science and ensure that

students have the requisite critical thinking, effective programming and problem-solving skills in a variety of modern programming languages, with an emphasis on understanding security and systems issues.

The program caters to a variety of interests in subfields of computer science and related disciplines through a flexible set of electives that allow students to develop, as part of their programs of study, in-depth knowledge and skills in artificial intelligence, machine learning, robotics, database systems, informatics, or other engineering and science disciplines. Students can also pursue concentrations in software engineering or cybersecurity as part of their degree program.

Computer science professionals design, analyze and improve the quality of computer software and systems for a variety of applications, including:

- artificial intelligence
- computer vision
- cybersecurity
- graphics
- information management
- multimedia
- networking

Accredited by the Computing Accreditation Commission of ABET. <https://www.abet.org/> (<https://www.abet.org/>), under the General Criteria and the Computer Science Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Computer Science (Big Data Systems), MCS
- Computer Science (Big Data Systems), MS
- Computer Science (Biomedical Informatics), MS
- Computer Science (Cybersecurity), MCS
- Computer Science (Cybersecurity), MS
- Computer Science (Media Arts and Sciences), MS
- Computer Science, MCS
- Computer Science, MS
- Robotics and Autonomous Systems (Artificial Intelligence), MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering, shown below, are higher than minimum university admission standards. International students must meet the same admission standards, with the possible additional requirement of a

minimum English language proficiency (<https://admission.asu.edu/apply/international/undergrad/english-proficiency>) test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, a minimum Duolingo English score of 105, or a minimum Cambridge English exam score of 176.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for fewer than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet either the primary or the secondary criteria (not both):

Primary criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if ASU Admission Services requires submission of a high school transcript)

Secondary criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in CSE 110 Principles of Programming, CSE 205 Object-oriented Programming and Data Structures, MAT 265 Calculus for Engineers I, and MAT 266 Calculus for Engineers II

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-computer-science/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESCSEBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students learn to thrive in a global environment through the rich educational and interpersonal experiences inherent in study abroad. A resume enhanced by the valuable study abroad experience will impress prospective employers, and it will also help the student stand out should they decide to pursue advanced study.

With over 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Computer science graduates secure employment in a variety of capacities, such as computer and software design or development of information technologies. Their jobs are often distinguished by the high level of theoretical expertise applied to solving complex problems and to the creation and application of new computing technologies. Computer science-related jobs may include:

- creating computer games and graphics systems
- designing artificial intelligence systems
- developing mobile computing applications

- developing network security applications
- discovering data management and mining solutions for large-scale data analytics
- inventing and implementing more efficient computing systems for managing data and information, including information retrieval and search on the Internet

With the theoretical foundation built into the program, computer science graduates can excel in system and software development, as well as in designing effective computing solutions for emerging and challenging problems in modern society. Skills in system development and research can lead to entrepreneurial activity that produces innovative computing products and services.

Computer Science (Cybersecurity), BS (ESCSEIBS)

Campus: Tempe

Program Description: The BS program in computer science with a concentration in cybersecurity provides students with the knowledge and skills they need to build dependable and secure information systems and networks and to ensure the integrity and quality of information being stored, processed and transmitted.

ASU has been certified as a National Center of Academic Excellence in Information Assurance Education and a National Center of Academic Excellence in Information Assurance - Research by the National Security Agency and the Department of Homeland Security. Information assurance courseware at ASU has been certified by the Information Assurance Courseware Evaluation Program to satisfy the standards for Information Systems Security Professionals (NSTISSI 4011) and Senior Systems Managers (CNSSI 4012).

Domestic students enrolled in the cybersecurity concentration are eligible for federal fellowships, such as the Department of Defense Information Assurance Scholarship Program and the Federal Cyber Service Scholarship for Service Program. For more information, students can visit the Cybersecurity and Trusted Foundations (<https://ctf.asu.edu/>) website.

Accredited by the Computing Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org/>), under the General Criteria and the Computer Science Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Computer Science (Big Data Systems), MCS
- Computer Science (Big Data Systems), MS
- Computer Science (Biomedical Informatics), MS
- Computer Science (Cybersecurity), MCS
- Computer Science (Cybersecurity), MS
- Computer Science (Media Arts and Sciences), MS
- Computer Science, MCS
- Computer Science, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering, shown below, are higher than minimum university admission standards. International students must meet the same admission standards, with the possible additional requirement of a minimum English language proficiency (<https://admission.asu.edu/apply/international/undergrad/english-proficiency>) test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, a minimum Duolingo English score of 105, or a minimum Cambridge English exam score of 176.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for fewer than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet either the primary or the secondary criteria (not both):

Primary criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if ASU Admission Services requires submission of a high school transcript)

Secondary criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in CSE 110 Principles of Programming, CSE 205 Object-oriented Programming and Data Structures, MAT 265 Calculus for Engineers I, and 266 Calculus for Engineers II

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESCSEIBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students learn to thrive in a global environment through the rich educational and interpersonal experiences inherent in study abroad. A resume enhanced by the valuable study abroad experience will impress prospective employers and will also help the student stand out should they decide to pursue advanced study.

With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Computer scientists are highly sought-after in multiple areas of industry, including education, logistics, tech, government and security.

Graduates of the Bachelor of Science program in cybersecurity find employment in a variety of capacities, including computer system and software development, and research on information assurance technologies. Related jobs include:

- analyzing computer forensic data
- designing secure information systems and databases
- developing secure software
- information security consulting
- secure computer and network applications

Computer Science (Software Engineering), BS (ESCSESBS)

Campus: Tempe

Program Description: The software engineering concentration of the BS program in computer science is appropriate for computer science students seeking careers as software engineers. Students learn advanced processes, methodologies and tools for developing and testing large and small software applications in emerging areas such as:

- databases
- enterprise systems
- interoperable systems
- mobile computing
- service-orientated computing

They also learn cybersecurity concepts and techniques, principles of human--computer interaction, and methods for developing these applications. The curriculum prepares students to assume leadership roles in software development organizations while practicing professional standards. Additionally, students are prepared to work on emerging software technology within the context of software engineering life-cycle activities.

Accredited by the Computing Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org/>), under the General Criteria and the Computer Science Program Criteria.

Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Career opportunities are plentiful for software engineers.

Graduates of the software engineering concentration possess the knowledge and skills to work across the spectrum of software development process activities, including:

- architecture
- coding
- project management
- quality assurance
- requirements engineering
- testing

Careers include:

- software analyst
- software architect
- software engineer
- software task leader
- software tester

Graduates find employment in large and small organizations that develop, deploy and manage software systems. They work on all types of projects that include large, complex engineering systems, distributed banking, financial and government software, and gaming.

Computer Systems Engineering, BSE (ESCSEBSE)

Campus: Tempe

Program Description: The BSE program in computer systems engineering focuses on the analysis, design, testing, integration and evaluation of hardware and software systems. The curriculum is grounded in many engineering disciplines, including the applications of science and technology to the design of:

- computer architecture
- cybersecurity
- digital circuits
- distributed and embedded systems
- networking
- operating systems

Students engage in the design of integrated hardware and software solutions for computing, communication and control applications, and they practice many aspects of engineering activities, such as the development of:

- computer networks
- embedded and ubiquitous systems
- high-performance computer systems
- individual digital components

Students become skilled in interfacing different pieces of hardware and software components, and systems with products to create new capabilities and improved quality and performance.

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org/>), under the General Criteria and the Computer Engineering Program Criteria.

Global Opportunities:

Global Experience: Students learn to thrive in a global environment through the rich educational and interpersonal experiences inherent in study abroad. A resume enhanced by the valuable study abroad experience will impress prospective employers and help the student stand out should they decide to pursue advanced study.

With over 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Computer systems engineers are employed in industry, government, education and consulting firms, where they engage in the design, development and operation of hardware and software systems of computer and networking equipment.

Computer systems engineers often focus on engineering problems or challenges of emerging computer systems, including chips, device controllers, embedded systems and high-performance computing servers. Their jobs usually involve the research, design and development of computer hardware and software for practical applications. Their work can result in innovative, state-of-the-art products that integrate computing and communication capabilities, such as those in:

- avionics and space vehicles
- digital television and photography
- intelligent highways and control systems for vehicles
- mobile devices and smart applications
- new apparatuses for health care and for the sight-impaired or others with physical disabilities
- security and defense systems

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Construction Engineering, BSE (ESCONBSE)

Campus: Tempe

Program Description: The BSE program in construction engineering is designed for students who wish to gain a professional engineering license while working at the interface of design and construction, and it is attractive to students interested in a career that emphasizes the construction of infrastructure.

The degree program includes engineering design and construction management courses with a focus on sustainability and building information

modeling topics. Construction management content includes construction methods, contract management, cost and schedule control, people management and project estimating.

The curriculum's design content includes structures, geotechnical engineering and transportation. Students are further prepared with the computer, management, technical and people skills they need to succeed.

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org/> (<https://www.abet.org/>), under the General Criteria and the Construction Engineering Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Civil, Environmental and Sustainable Engineering, MS
Construction Engineering, MSE

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering, shown below, are higher than minimum university admission standards. International students must meet the same admission standards, with the possible additional requirement of a minimum English language proficiency (<https://admission.asu.edu/apply/international/undergrad/english-proficiency>) test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, a minimum Duolingo English score of 105, or a minimum Cambridge English exam score of 176.

First-year admission:

- minimum SAT score of 1210 for evidence-based reading and writing plus math or minimum ACT composite score of 24, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for fewer than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum ACT composite score of 24, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet either the primary or secondary criteria (not both):

Primary criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if ASU Admission Services requires submission of a high school transcript)

Secondary criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESCONBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students gain valuable experiences through study abroad (<https://goglobal.asu.edu/>) that enhance their resumes. With over 300 programs available, study abroad allows students to tailor their experience to their unique interests and skill sets. Students in construction engineering are able to gain hands-on experience in a variety of countries. In a competitive field, students stand out with the heightened cultural competency, and leadership and critical thinking skills they have acquired studying abroad.

Career Opportunities: The construction engineering graduate, with this strong background in design and management, is prepared to enter a career in the engineering and construction industry as a field engineer, project engineer or project designer. Potential employers include:

- construction companies
- design firms
- facility owners
- material suppliers
- specialty subcontractors

Graduates have the unique skills needed to take on the role of integrator in the delivery of design-build projects or development activities. As their careers progress, graduates should be able to take on leadership roles in the delivery of sustainable facilities in the built environment, advancing to successively higher levels of management responsibility. The graduate should be particularly attuned to the design and construction of heavy civil and industrial facilities, meeting the infrastructure needs of society.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

Construction Management and Technology, BS (ESCONMGTB)

Campus: Tempe

Program Description: The BS program in construction management and technology allows students to specialize in construction and facility management. Students learn to organize, lead and manage the building construction business processes related to real estate, facility and infrastructure projects.

Construction management is the most vital function on a job site. Construction managers represent the interests of the building owner or the contractor and interact with architects, engineers, subcontractors, vendors and suppliers to ensure the success of construction projects in the built environment.

This program focuses on the business of construction and technology, such as building information modeling.

Students learn the basics of design; the construction methods specific to each type of construction (heavy, residential, commercial, specialty); and the process of sustainable or green construction. They learn how to estimate, schedule and control the costs of a project and what it takes to manage the people involved and the various types of contracts. Graduates possess the computer, management, technical and people skills they need to succeed.

This is one of two construction programs in the state of Arizona and one of approximately 80 accredited programs in the nation.

This program is accredited by the American Council for Construction Education: <https://www.acce-hq.org/> (<https://www.acce-hq.org/>)

Accredited by the Applied and Natural Science Commission of ABET, <https://www.abet.org> (<https://www.abet.org>), under the General Criteria and the Construction Management Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Construction Management and Technology, MS
Public Administration, MPA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering, shown below, are higher than minimum university admission standards. International students must meet the same admission standards, with the possible additional requirement of a minimum English language proficiency (<https://admission.asu.edu/apply/international/undergrad/english-proficiency>) test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, a minimum Duolingo English score of 105, or a minimum Cambridge English exam score of 176.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for fewer than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT

combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet either the primary or the secondary criteria (not both):

Primary criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if ASU Admission Services requires submission of a high school transcript)

Secondary criteria

- minimum transfer GPA of 2.50 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESCONMGTBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students enhance their resumes with the valuable experience they gain through study abroad (<https://goglobal.asu.edu/>). With over 300 programs available, study abroad allows students to tailor their experience to their unique interests and skill sets. Students in construction management and technology are able to gain hands-on experience, heightened cultural competency, and leadership and critical thinking skills while studying abroad. They earn ASU credit for completed courses while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

Career Opportunities: The construction management and technology program provides a foundation for those who wish to pursue careers as project managers, project engineers, estimators or schedulers and eventually become principals of firms engaged in the construction of industrial, commercial or residential projects.

Graduates of the heavy construction emphasis area are prepared for careers related to public works such as highways, airports, bridges, utility systems and water or waste treatment facilities.

Graduates of the commercial and residential emphasis areas are prepared for careers in real estate development, home production systems, commercial construction, health care and special industrial building projects. They are also prepared to enter the sustainable or green construction market.

Graduates of the specialty construction emphasis are prepared to organize, lead and manage the building process at the subcontractor level and for careers as contractors working with mechanical and electrical systems. They are also prepared for careers in management at specialty contracting firms, such as those with expertise in control systems, electrical distribution or heating, and ventilation and air conditioning systems for large and complex facilities such as data centers, health care organizations, semiconductor manufacturing plants and commercial facilities.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

Electrical Engineering, BSE (ESEEEBSE)

Campus: Tempe, Online

Program Description: The BSE program in electrical engineering prepares students for positions as electrical engineers.

Following initial coursework in mathematics and sciences, the foundation courses build a solid base of engineering knowledge. The electrical engineering curriculum includes a number of required upper-division electrical engineering and technical elective courses in such areas as circuits, communication, signal processing, control systems, computer engineering, electromagnetics, electric power, energy systems, physical electronics, photonics, photovoltaics and quantum engineering.

Approved technical elective courses provide students with an opportunity either to broaden their background in electrical engineering or to study in greater depth the technical subjects in which they have special interest.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>), under the General Criteria and the Electrical and Electronics Engineering Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Astrophysics and Astronomy, MS
- Computer Engineering (Electrical Engineering), MS
- Data Science, Analytics and Engineering (Electrical Engineering), MS
- Electrical Engineering, MS
- Electrical Engineering, MSE
- Exploration Systems Design (Instrumentation), MS
- Exploration Systems Design (Sensor Networks), MS
- Exploration Systems Design (Systems Engineering), MS
- Exploration Systems Design, MS
- Robotics and Autonomous Systems (Electrical Engineering), MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Secondary criteria

- minimum transfer GPA of 2.50 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (MAT 265)

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-engineering-electrical-engineering/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESEEBSE-null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts; ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives

Global Opportunities:

Global Experience: Students gain valuable experience when studying abroad (<https://goglobal.asu.edu/>), experience that enhances their resumes. With over 300 programs available, study abroad allows students to tailor their experience to their unique interests and skill sets. Students in electrical engineering are able to gain hands-on experience in a variety of international locations. In a competitive field, students stand out with the heightened cultural competency, and leadership and critical thinking skills they achieved when studying abroad. More information on available programs can be found on the Global Education website.

Career Opportunities: Graduates with the bachelor's degree in electrical engineering find many exciting opportunities in industry. These include:

- communication equipment and network providers
- computer and peripheral device manufacturers and defense organizations
- consulting companies
- electric power utilities
- semiconductor chip designers and manufacturers

Graduates are also prepared for continued learning experiences, either in a formal graduate program or in continuing education applications.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Ira A. Fulton Schools of Engineering lead to professional licensure.

Electrical Engineering (Electric Power and Energy Systems), BSE (ESEEEPBSE)

Campus: Tempe, Online

Program Description: The electric power and energy systems concentration in the BSE program in electrical engineering prepares students for positions after graduation in industries dealing with the generation, transmission and utilization of electric power. Generation includes conventional power generation (fossil fuel and nuclear) and alternative energy systems, including solar, wind and fuel cells.

Students in this program complete the foundation courses in math, science and engineering and then are required to take the pathway course in energy systems and power electronics and complete nine of the 15 technical elective credit hours with electrical power and energy systems courses. The senior design capstone project focuses on the area of electric power and energy systems.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org/>), under the General Criteria and the Electrical and Electronics Engineering Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Secondary criteria

- minimum transfer GPA of 2.50 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (MAT 265 Calculus for Engineers I, MAT 266 Calculus for Engineers II, PHY 121 University Physics I: Mechanics, and PHY 122 University Physics Laboratory I)

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/electrical-engineering-electric-power-and-energy-systems-bse/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESEEEPBSE-null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- Apply knowledge of mathematics, science, and engineering, with focus on electrical power systems.

Global Opportunities:

Global Experience: Students gain valuable experience when studying abroad, experience that enhances their resumes. With over 300 programs available, study abroad (<https://goglobal.asu.edu/>) enables students to tailor their experience to their unique interests and skill sets. Students in electrical engineering are able to gain hands-on experience in a variety of international locations. In a competitive field, students stand out with the heightened cultural competency as well as leadership and critical thinking skills they achieved when studying abroad. More information on available programs can be found on the Global Education website.

Career Opportunities: Career opportunities for graduates with a concentration in electric power and energy systems include:

- engineering consulting firms
- entrepreneurial startups
- power equipment manufacturers
- research and design organizations
- state, federal and municipal agencies
- utility companies

This concentration also prepares students to pursue graduate degrees in the areas of:

- power generation
- power systems
- power transmission and distribution
- renewable and sustainable energy sources

The program also prepares graduates for continued learning experiences, either in a formal graduate program or in continuing education applications.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Ira A. Fulton Schools of Engineering lead to professional licensure.

Engineering, BSE (TSEGRBSE)

Campus: Polytechnic

Program Description: The BSE program in engineering prepares graduates to collaborate across disciplines in order to design and build solutions to real-world problems.

In the Bachelor of Science in Engineering program, students apply engineering fundamental knowledge and design thinking to real projects every semester. They choose a disciplinary concentration that enables them to develop in-depth knowledge in a specific area, and they choose a secondary focus area. This flexibility allows students to tailor their degree in a way that will help them to achieve their individual career and life goals. The program enables students to develop sophisticated technical skills in tandem with the professional skills of communication, teamwork, collaboration, self-motivation and adaptability, and the program's emphasis on open-ended design and project-based learning supports the development of entrepreneurial skills and attitudes.

Students can choose from the following concentrations: automotive systems, electrical systems, mechanical engineering systems and robotics.

Accredited by the Engineering Accreditation Commission of ABET; <https://www.abet.org> (<https://www.abet.org>), under the General Criteria and the Engineering, General Engineering, Engineering Physics, and Engineering Science Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student must have a minimum cumulative ASU GPA of 2.00 (scale is 4.00 = "A").

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSEGRBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Design engineering systems including components, and processes to meet needs within realistic constraints including social, political, economic, ethical, health and safety, manufacturing and/or sustainability.
- Communicate engineering findings to colleagues, clients, other stakeholders and the public in written, oral and graphical form.
- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics. (ABET)

Global Opportunities:

Global Experience: Study abroad enables students to gain valuable, resume-building experience. Participation in a Global Education program (<https://goglobal.asu.edu/>) provides students with the heightened cultural competency, and leadership and critical thinking skills that will help them stand out in a competitive industry.

Whether in a foreign country, in the U.S. or online, students build communication skills, are challenged to adapt and persevere, are exposed to research and internships across the world, and increase their professional network.

Career Opportunities: Engineers on transdisciplinary teams collaborate to design, manufacture and deliver innovative technological products and

services.

Graduates are prepared to work in large corporations, government agencies and small businesses, and to go on to graduate school to pursue advanced degrees. Some graduates start companies of their own.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Ira A. Fulton Schools of Engineering lead to professional licensure.

Engineering (Automotive Systems), BSE (TSEGRASBSE)

Campus: Polytechnic

Program Description: The BSE program in engineering prepares graduates who are able to collaborate across disciplines to design and build solutions to real-world problems.

In the program, students apply fundamental engineering knowledge and design thinking to real projects every semester. Students in the automotive systems concentration first build a broad engineering foundation, on which they add the skills and knowledge necessary for vehicle design and testing. The curriculum focuses on automotive engineering fundamentals, including powertrain engineering and chassis system design, as well as hands-on projects that involve designing, analyzing and building actual automotive systems.

Graduates of this concentration of the Bachelor of Science in Engineering are able to provide leadership in automotive engineering settings, especially in automotive testing and hybrid propulsion systems, which are intrinsically transdisciplinary.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>), under the General Criteria and the Engineering, General Engineering, Engineering Physics, and Engineering Science Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Clean Energy Systems, MS
- Engineering, MS
- Global Management, MGM
- Manufacturing Engineering, MS

Robotics and Autonomous Systems (Systems Engineering), MS
Secondary Education (Teacher Certification), MEd
Technology (Management of Technology), MSTech

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student must have a minimum cumulative ASU GPA of 2.00.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSEGRASBSE-null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Design engineering systems including components, and processes to meet needs within realistic constraints including social, political, economic, ethical, health and safety, manufacturing and/or sustainability.
- Communicate engineering findings to colleagues, clients, other stakeholders and the public in written, oral and graphical form.
- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics. (ABET)

Global Opportunities:

Global Experience: Students learn to thrive in a global environment through the rich educational and interpersonal experiences inherent in study abroad. A resume enhanced by the valuable study abroad experience will impress prospective employers and will help students stand out when they pursue advanced study.

With over 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Engineers collaborate on transdisciplinary teams to design, manufacture and deliver innovative technological products and services. The program enables students to develop sophisticated technical skills in tandem with the professional skills of communication, teamwork, collaboration, self-motivation and adaptability that many employers seek.

Graduates of the automotive concentration are prepared for employment in companies related to the automotive industry, from large original equipment manufacturing companies and their testing grounds, to smaller specialty or aftermarket companies. The program's emphasis on open-ended design and project-based learning supports the development of entrepreneurial skills and attitudes, and some students start companies of their own.

Because of the transdisciplinary nature of the Bachelor of Science in Engineering, graduates also have opportunities to perform functions traditionally associated with mechanical, manufacturing, automation and development engineers.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Ira A. Fulton Schools of Engineering lead to professional licensure.

Engineering (Electrical Systems), BSE (TSEGRESBSE)

Campus: Polytechnic

Program Description: The BSE program in engineering prepares graduates to collaborate across disciplines to design and build solutions to real-world problems.

Bachelor of Science in Engineering students apply fundamental engineering knowledge and design thinking to real projects every semester. Students in the electrical systems concentration of the program build a broad engineering foundation to which they add the skills and knowledge they will need to contribute electrical subject matter expertise on transdisciplinary engineering teams. This expertise includes theory and application of sensors, actuators, microcontrollers and microprocessors, as well as the integration of these components into electrical and mechatronic systems. The electrical systems curriculum also provides significant hands-on experience designing and implementing electrical and mechatronic systems to meet the needs of users.

The program enables students to develop sophisticated technical skills in tandem with the professional skills of communication, teamwork, collaboration, self-motivation and adaptability, and the program's emphasis on open-ended design and project-based learning supports the development of entrepreneurial skills and attitudes.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>), under the General Criteria and the Engineering, General Engineering, Engineering Physics, and Engineering Science Program Criteria.

Engineering Management, BSE (ESEMGBSE)

Campus: Tempe, Online

Some accelerated combinations are not available to ASU Online students. Interested students should contact their academic advisor for more information.

Program Description: The BSE program in engineering management is designed to provide students with skills required for effective management and leadership of engineering-driven enterprises.

The curriculum provides a breadth of engineering science and design with depth in one specific area suitable for practice. This knowledge is augmented with an understanding of business practices and organizational behavior and with the development of management skills, enabling the graduate to succeed in the management of a scientific or engineering enterprise. Topics covered include project and resource management, financial engineering, risk management, configuration management, service plans, product liability, entrepreneurship and operations management, in addition to product design and process development.

Graduates have a deep understanding of at least one industry sector based on the focus area courses.

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org/>), under the General Criteria and the Engineering Management Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Data Science), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM
- Industrial Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering, shown below, are higher than minimum university admission standards. International students must meet the same admission standards, with the possible additional requirement of a minimum English language proficiency (<https://admission.asu.edu/apply/international/undergrad/english-proficiency>) test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, a minimum Duolingo English score of 105, or a minimum Cambridge English exam score of 176.

First-year admission:

- Minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class, and
- Admission may be granted with one deficiency in no more than two competency areas (<https://admission.asu.edu/apply/first-year/competency>)

requirements). Deficiencies in both math and laboratory science are not acceptable.

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 2.75 for fewer than 24 transfer hours, and
- meet first-year admission requirements

Transfer students with more than 24 transferable college credit hours:

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- If ASU Admission Services requires submission of a high school transcript, admission may be granted with one deficiency in no more than two competency areas (<https://admission.asu.edu/first-year/competency-requirements>). Deficiencies in both math and laboratory science are not acceptable.

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/engineering-engineering-management-bse/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESEMGBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will have an ability to function effectively as a member or leader of a team. Graduates will successfully perform work related tasks including establishing goals, work plans, tasks, meets deadlines in order to create a collaborative and inclusive environment that establishes goals, plans, tasks, meets deadlines, and creates a collaborative and inclusive environment. (ABET)
- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics. (ABET)
- Communicate effectively with a range of audiences. (ABET)

Global Opportunities:

Global Experience: Students gain valuable experience through study abroad, and with more than 300 Global Education programs (<https://goglobal.asu.edu/>) available, they can tailor their experience to their unique interests and skills.

As students learn to thrive in a global environment, they build communications skills, are challenged to adapt and persevere, and are exposed to research and internships across the world, in addition to increasing their professional networks.

Participation in a Global Education program, whether in a foreign country, in the U.S. or online, provides students with heightened cultural competency, which will enhance their resumes and help them stand out in a competitive field.

Career Opportunities: An engineering management graduate is prepared to begin a career as a:

- production supervisor
- project management team member or lead
- supply logistics engineer
- system specification and customer relationship management specialist or similar role

Graduates are ready to progress through successively higher levels of management responsibility.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another

state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Ira A. Fulton Schools of Engineering lead to professional licensure.

Engineering Science (Business), BS (EESCBUSBS)

Campus: West

Program Description: The BS program in engineering science with a concentration in business in the School of Integrated Engineering prepares students to solve the most demanding problems facing society. The program connects students with the core values of ASU through an innovation-focused interdisciplinary education inclusive of students with a wide range of prior science and math backgrounds.

Coursework emphasizes basic engineering and business principles including engineering design, science, mathematics, artificial intelligence, business intelligence, accounting, supply chain management and ground theory in hands-on, project-based courses taught in makerspaces. Electives provide students with the choice to customize their degrees toward their preferred career pathways. The faculty in the program bring rich interdisciplinary perspectives to courses that foster creativity, critical thinking, communication, context and community by having students solve practical problems in partnership with local industry.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=EESCBUSBS-null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, engineering science students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates of a Bachelor of Science in engineering science are well-prepared for a diverse and rewarding career landscape in areas such as:

- academia and education
- data analysis and modeling
- energy and environmental engineering
- engineering consulting
- manufacturing and quality control
- product design and development
- project management
- research and development
- technical sales and marketing

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Engineering Science (Microelectronics), BS (EESCMEBS)

Campus: West

Program Description: The BS program in engineering science with a concentration in microelectronics prepares students to excel in the microelectronics industry.

Students in this program master fundamental mathematics, coding, digital design and physics in their first year, while simultaneously learning how engineers solve problems, approach the design process, and consider societal and business aspects of their work. In their second and third years, students learn the engineering and computing tools used in the microelectronics industry and how they are used to design and fabricate complex microelectronic circuits. The final year focuses on methods of testing, developing and manufacturing semiconductors. Students also complete a year-long capstone project with their peers and a faculty mentor.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

Environmental Engineering, BSE (ESEVEBSE)

Campus: Tempe

Program Description: The BSE program in environmental engineering educates students to become tomorrow's engineers who solve complex environmental problems and design systems at the human, urban and planetary scales.

Environmental engineers are actively involved with the following topics and activities: air quality monitoring and air pollution control technology; analysis of the fate and transport of pollutants; application of sustainable design principles; design and operation of water and wastewater treatment systems; design of hazardous waste containment systems; design of solid waste management systems; remediation of contaminated soil, sediment

and water; and water quality, water conservation and water reuse.

In recognition of the interdisciplinary nature of environmental engineering challenges, the degree program incorporates courses from humanities, social sciences, natural sciences, mathematics and engineering. Environmental engineering courses build on strong foundations in chemistry, microbiology, geology, physics and mathematics. Courses cover fundamental engineering concepts applied to environmental processes and environmental engineering design. Applied learning experiences, including a required internship or research experience and a capstone design course, are also part of the program.

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org/>), under the General Criteria and the Environmental Engineering Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Civil, Environmental and Sustainable Engineering, MS
Environmental Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score, or minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for fewer than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with more than 24 transferable college credit hours:

Primary criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if ASU Admission Services requires submission of a high school transcript)

Secondary criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESEVEBSE-null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) allow students with an open mind to further their understanding of the impact that the industrial world has on the environment around the globe. With more than 300 programs available to them, students can tailor their experience to their unique interests and skill sets.

Whether in a foreign country, in the U.S., or online, students broaden their educational experience, build communication skills, are challenged to adapt and persevere, and are exposed to research and internships around the world, increasing their professional network. Students' participation in study abroad demonstrates to employers that they can thrive in a global environment, helping them to stand out in a competitive industry.

Students earn ASU credit for completed courses while staying on track for graduation, and they may apply financial aid and scholarships to program costs.

Career Opportunities: Graduates from the environmental engineering program have career opportunities in both the private and public sectors.

Opportunities exist in the private sector in both the consulting and manufacturing industries. The consulting industry is growing as greater environmental awareness and emerging novel pollutants require continual refinement of regulations and environmental system design standards, and the manufacturing industry employs environmental engineers to aid in environmental compliance and eco-efficiency.

In the public sector, municipalities and regulatory agencies require a knowledgeable workforce that understands how public policy can improve human health and ecosystem services through environmental engineering processes.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Environmental and Resource Management, BS (TSETMBS)

Campus: Polytechnic

Program Description: The BS program in environmental and resource management provides critical scientific, engineering, regulatory and management skills for students who plan to pursue careers in industry, government or nongovernmental organizations. The program focuses on ensuring the health of engineered and natural ecosystems and mitigating the environmental impact of the industrial world.

The curriculum combines a strong foundation in chemistry, physics, biology and mathematics with a solid grounding in environmental law and policy, engineering and management principles. Students learn to apply environmental technologies to manage engineered environmental operations such as drinking water and wastewater treatment, management of hazardous and solid wastes, and the control of industrial and mobile sources of air pollution. They study Occupational Safety and Health Administration, U.S. Environmental Protection Agency and U.S. Department of Transportation regulations on health and safety, as well as strategies to protect workers in hazardous environments. International environmental issues and legal frameworks are included, along with U.S. environmental laws.

An accelerated BS/MS degree option is available, in which up to 12 credit hours of the bachelor's degree may be applied toward the 30 credit hours required for the master's degree in environmental and resource management. A special application is required for this option.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Environmental and Resource Management (Water Management), MS

Environmental and Resource Management, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student must have a minimum cumulative ASU GPA of 2.00.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSETMBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Evaluate environmental policies and regulations that apply to environmental and resource management.
- Apply management, scientific, and technical solutions to natural and anthropogenic environmental problems.
- Apply sustainable development practices and trends to environmental systems.

Global Opportunities:

Global Experience: Study abroad allows students of environmental resource management to further their understanding of the impact that the industrial world has on the environment. With an open mind, students further their studies and understanding of the various environmental conditions around the globe.

Students learn to thrive in a global environment through the rich educational and interpersonal experiences inherent in study abroad, and with over 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

A resume enhanced by the valuable study abroad experience will impress prospective employers and will help the student stand out should they decide to pursue advanced study.

Career Opportunities: Graduates with the skills gained in this program are in high demand and can find work in industry, governmental management and regulatory agencies or in policymaking organizations.

Graduates are firmly grounded in the scientific, technical and legal problems facing environmental managers in today's business climate. They are prepared to be environmental, health and safety professionals in industrial settings such as manufacturing, mining, oil and gas, and environmental engineering consulting firms. They also ensure compliance with OSHA and EPA requirements in laboratories at pharmaceutical companies, water and wastewater treatment facilities or academic labs. On the regulatory side, graduates work for agencies such as the EPA or state and county departments of environmental quality.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Ira A. Fulton Schools of Engineering lead to professional licensure.

Graphic Information Technology, BS (TSGITBS)

Campus: Polytechnic, Online

Program Description: The cross-media nature of the graphics industry requires tomorrow's graduates to understand the full spectrum of visual design and production as well as current business practices.

The BS program in graphic information technology prepares students to become visual design technologists with skills in front-end web design and development, print and digital publishing, commercial photography and video production, and motion graphics and visual effects.

This is an intensive program of study emphasizing theory and hands-on laboratory practice.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Graphic Information Technology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student must have a minimum cumulative ASU GPA of 2.00.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-graphic-information-technology-concentration/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSGITBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Sketch solutions to graphic communications problems utilizing industry-standard workflows.
- Apply individual and collaborative skills to engineer solutions to cross-media challenges.
- Compose written and visual documentation for complex cross-media processes.
- Synthesize content into digital collateral for cross-media output.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, graphic information technology students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graphic information technology prepares graduates for technical and management positions in visual design in such diverse areas as:

- art direction
- commercial photography and video production
- front-end web design and development
- graphic design
- motion graphics and visual effects
- premedia, digital printing and publishing
- print technology

- production management
- quality assurance of graphic and visual design products
- technical and digital media production
- user experience design
- user interface design
- visual design

Graphic Information Technology (Full-Stack Web Development), BS (ESGITFSWBS)

Campus: Polytechnic, Online

Program Description: The BS program in graphic information technology with a concentration in full-stack web development focuses on front-end and back-end website and application development. This cross-disciplinary program has a foundation in user-centered design and client-side scripting (HTML, CSS, JS) and extends to server-side programming (PHP, Python, SQL, etc.).

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze accepted coding and design techniques to apply the most appropriate to web design and development solutions.
- Demonstrate ability to guide a project through a development cycle using industry-standard tools and techniques.
- Implement individually- and collaboratively-built components into cohesive solutions for web design and development challenges.
- Display ability to build and evaluate effective user interactions in web-based systems.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, graphic information technology students are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Chosen by Indeed as the best job of 2023, and showing a 56% increase in job postings between 2020 and 2023 (<https://www.indeed.com/career-advice/news/best-jobs-of-2023> (<https://www.indeed.com/career-advice/news/best-jobs-of-2023>)), full-stack web developer positions seek those who possess skills that allow them to create web applications from the ground up.

The Bureau of Labor Statistics (<https://www.bls.gov/ooh/computer-and-information-technology/web-developers.htm> (<https://www.bls.gov/ooh/computer-and-information-technology/web-developers.htm>)) also shows that these positions offer salaries that can be two to three times more than the national average, and that growth of the field from 2022 to 2032 is expected to far out pace that of the average for all careers (16% compared to 3%).

Full-stack web developers possess knowledge of programming languages and concepts that allows them to shift and grow with the ever-evolving field of web development while also allowing them to work across teams to complete projects. In an article from MongoDB (<https://www.mongodb.com/languages/full-stack-development> (<https://www.mongodb.com/languages/full-stack-development>)), the top languages listed for these positions include HTML, CSS, JavaScript, Python, Java, Node and PHP, all of which are either used in program courses or electives.

Top industries where graduates land include computer software, IT, financial services and higher education. Google, Apple, Fidelity Investments, IBM and Capital One are among the top companies hiring full-stack developers. Graphic Information Technology (User Experience), BS (ESGITUEBS)

Campus: Polytechnic, Online

Program Description: The BS program in graphic information technology with a concentration in user experience provides students with an interdisciplinary foundation in design, research and communication to prepare them for the rapidly growing area of user experience.

The concentration provides students with a conceptual understanding of methods for gathering user information, analyzing data and communicating through visual design technologies, as well as applied skills in those methods

Although its disciplinary home and primary focus is graphic information technology, the concentration includes courses from the fields of human systems engineering and technical communication to provide students with the multiple perspectives and complementary skills needed for user experience work.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. Human Systems Engineering, BS (ESHSEBS)

Campus: Polytechnic, Online

Program Description: The BS program in human systems engineering provides students with an understanding of the science of human performance. Students gain experience using methods and tools to apply this understanding to design and problem-solving in a wide variety of domains, such as product usability, learning design, sports performance, and workplace and hospital safety.

A large array of professions need experts in human factors to work on problems that involve an understanding of human performance; these areas include user experience, aviation human factors, cognitive performance, consumer psychology, transportation human factors, patient safety, effective teamwork, health psychology, learning optimization, social cognition, threat detection and sports psychology.

The program is offered by the Ira A. Fulton Schools of Engineering.

STEM-OPT for International Students on F-1 Visas:

Human Systems Engineering (User Experience), BS (ESHSEUEBS)

Campus: Polytechnic, Online

Program Description: The user experience skills increasingly valued by industry are not typically covered in traditional psychology or engineering programs. The BS degree program in human systems engineering with a concentration in user experience combines topics in psychology, the web, human factors, visual displays and technical communications to make products and services useful, usable and desirable.

User experience focuses on the design, development and evaluation of products and services. The user experience program addresses UX research, design, content development, communication, tone of voice and evaluation of all components and products that end users interact with.

Students learn how to research customer needs, identify criteria for successful products and services, prototype those products and services, and refine them through usability testing and other user-centered methods.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. polyadvising@asu.edu

Industrial Engineering, BSE (ESIEEBSE)

Campus: Tempe

Program Description: Industrial engineering pertains to the design, improvement, installation and operation of integrated systems of people, materials, information, equipment and energy, with the purpose of determining efficient ways to make a product or provide a service. Industrial engineering draws on specialized knowledge and skills in the mathematical, physical and social sciences and the principles and methods of engineering analysis and design.

The underlying concepts for the BSE program in industrial engineering include certain business principles but emphasize the use of mathematics and information technology to build models to describe, understand and optimize system performance. Depending on the subspecialties involved and the intended application, industrial engineering may also be known as operations management, management science, operations research, systems engineering or manufacturing engineering.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org/>), under the General Criteria and the Industrial Engineering Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Data Science), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM
- Industrial Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering, shown below, are higher than minimum university admission standards. International students must meet the same admission standards, with the possible additional requirement of a minimum English language proficiency (<https://admission.asu.edu/apply/international/undergrad/english-proficiency>) test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, a minimum Duolingo English score of 105, or a minimum Cambridge English exam score of 176.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for fewer than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if ASU Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in CSE 110 Principles of Programming, MAT 265 Calculus for Engineers I and MAT 266 Calculus for Engineers II

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESIEEBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- ABET 1: Will demonstrate the ability to identify, formulate and solve complex engineering problems by applying principles of engineering, science and mathematics
- ABET 6: Will demonstrate an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- ABET 7: Will demonstrate the ability to acquire and apply new knowledge as needed, using appropriate learning strategies

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, industrial engineering students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates in industrial engineering are prepared to design and manage systems for a wide range of organizations. They find exciting career opportunities in all types of manufacturing and service industries, including:

- banking and finance
- defense and government

- health care
- hospitality, sports and entertainment
- management consulting
- manufacturing (e.g., aerospace, automotive, semiconductor)
- software
- telecommunication
- transportation and logistics

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage (<https://admission.asu.edu/academics/licensure>).

Students should note that not all programs within the Ira A. Fulton Schools of Engineering lead to professional licensure.

Informatics, BS (ESCPIBS)

Campus: Tempe

Program Description: Informatics is about discovering, developing and understanding computer applications that improve people's lives. The BS program in informatics prepares students to become skilled professionals who take a transdisciplinary, user-oriented perspective toward information and computing systems, apply current informatics methods to address society's needs and contribute to the next generation of such systems.

The informatics bachelor's degree program provides an option for students interested in a flexible program in applied information and computing technologies. The program provides skills in design and implementation of computer systems while offering opportunities for building applications used by people in many fields. Students learn to develop software for devices of all sizes, from supercomputers to cell phones and even smaller. The challenges of informatics include designing, developing and applying tools that model, aid or automate activities within science, engineering, business, geography, education and entertainment.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 265 Calculus for Engineers I

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Data Science), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM

Global Management (Nonprofit Leadership and Management), MGM
Global Management (Public Administration), MGM
Global Management (Public Policy), MGM
Global Management (Sustainability Solutions), MGM
Global Management (Sustainable Tourism), MGM
Global Management, MGM
Robotics and Autonomous Systems (Artificial Intelligence), MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering, shown below, are higher than minimum university admission standards. International students must meet the same admission standards, with the possible additional requirement of a minimum English language proficiency (<https://admission.asu.edu/apply/international/undergrad/english-proficiency>) test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, a minimum Duolingo English score of 105, or a minimum Cambridge English exam score of 176.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for fewer than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary or the secondary criteria (not both):

Primary criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if ASU Admission Services requires submission of a high school transcript)

Secondary criteria

- minimum transfer GPA of 2.75 for 24 or more transfer credit hours, and
- minimum GPA of 2.75 in all critical courses: MAE 201 Mechanics of Particles and Rigid Bodies I: Statics, MAE 202 Mechanics of Particles and Rigid Bodies II: Dynamics, MAE 213 Mechanics of Materials, and MAE 241 Introduction to Thermodynamics.

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESCPIBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Master the principles for the usage, design, construction, and evaluation of Informatics systems (ABET target)
- Demonstrate an in-depth understanding and development skill of the Informatics knowledge of the chosen focal area.
- Apply principles of computing and other relevant disciplines to analysis of practical problems and development of solutions.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, informatics students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Informatics careers center on solving problems through the design and creation of information systems, user interfaces, mobile technologies and social media.

Graduates have the ability to develop future information technology solutions that place a strong emphasis on user needs and provide the ability to adapt and change dynamically with society's needs. This makes the informatician a strong candidate for jobs in:

- data analytics
- management consulting firms
- technology research centers
- technology startups

Additionally, they are prepared for graduate programs that offer an emphasis in emerging technologies.

Information Technology, BS (TSIFTBS)

Campus: Polytechnic, Online

Program Description: Technology continues to evolve each day. Every organization needs information technology professionals to protect their networks, troubleshoot computer systems, develop applications and manage IT projects.

The BS program in information technology covers key disciplines that incorporate emerging technologies, including agile software development, data management and analytics, network administration, cloud computing and cybersecurity.

Students have the opportunity to select technical electives in different interdisciplinary areas. Students learn in a project-driven curriculum with a learn-by-doing approach that prepares them for careers in IT.

Accredited by the Computing Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org/>), under the General Criteria and the Information Technology Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Human Systems Engineering (Intelligent Systems), MS
Information Technology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student must have a minimum cumulative ASU GPA of 2.00 (scale is 4.00 = "A"). Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-information-technology/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSIFTBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Ability to analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions (ABET)
- Ability to design, implement and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline (ABET)
- Ability to communicate effectively in a variety of professional contexts (ABET)
- Ability to recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles (ABET)
- Ability to function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline (ABET)
- Ability to use systemic approaches to select, develop, apply, integrate and administer secure computing technologies to accomplish user goals (ABET)
- Ability to use the principles and practices of Information Technology project management (ABET)

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, information technology students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: IT careers are growing fast, according to the Bureau of Labor Statistics: <https://www.bls.gov/ooh/computer-and-information-technology/home.htm> (<https://www.bls.gov/ooh/computer-and-information-technology/home.htm>). The exciting career path of an IT professional can place graduates in positions around the world, in any industry. Such industries include:

- biomedical
- construction
- defense
- education
- entertainment
- geospatial
- informatics
- sports
- sustainable environments

Manufacturing Engineering, BS (TSMEGRBS)

Campus: Polytechnic

Program Description: Successful manufacturing enterprises prosper in the global marketplace through a balance of design, sustainability, quality and production. Manufacturing engineering combines manufacturing processes (e.g., how materials are altered in either shape or properties) and the processes of manufacturing (e.g., design and management of manufacturing systems).

The BS program in manufacturing engineering prepares students to analyze, synthesize and control manufacturing operations using statistical methods; to collaborate across disciplines to design and build automated manufacturing systems for factory operation; to design innovative products and the equipment, tooling and environments necessary for their manufacture; to model, simulate and analyze manufacturing production processes for both small- and large-scale environments; and to provide technological leadership.

The curriculum is project-based, hands-on, teamwork-oriented and delivered in outstanding fabrication facilities. Graduates of this program become key team members who create and implement processes for making such varied products as airplanes, surgical instruments, toys and foodstuffs.

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org>), under the General Criteria and the Manufacturing Engineering Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Engineering, MS
Manufacturing Engineering, MS
Robotics and Autonomous Systems (Systems Engineering), MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSMEGRBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students learn to thrive in a global environment through the rich educational and interpersonal experiences inherent in study abroad. A resume enhanced by the valuable study abroad experience impresses prospective employers and also helps students stand out should they decide to pursue advanced study.

With over 300 Global Education program opportunities (<https://goglobal.asu.edu>) available to them, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Engineers collaborate on transdisciplinary teams to design, manufacture and deliver innovative technological products and services.

Graduates possess the technical skills in tandem with the professional skills of communication, teamwork and collaboration and the self-motivation and adaptability that many employers seek. Graduates are prepared to work in large corporations, government agencies and small businesses, and to pursue advanced degrees in graduate school. The program's emphasis on open-ended design and project-based learning supports the development of entrepreneurial skills and attitudes, and some students start companies of their own.

Graduates typically work as manufacturing engineers in a variety of companies, large and small. They are often members of design and development teams, cooperating with people within and outside their companies. Career employment opportunities include direct manufacturing support, manufacturing management, and quality control and assurance. Small and new startup companies value the strong, broad and practical engineering skill set of program graduates. Program graduates are well placed and command top salaries.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Ira A. Fulton Schools of Engineering lead to professional licensure.

Materials Science and Engineering, BSE (ESMSEBSE)

Campus: Tempe

Program Description: Novel materials are tailored to meet the needs of targeted applications and become the foundation for all engineering disciplines. Such materials enable many new technologies and are commonly used in bioengineering and medicine, pharmaceuticals, electronics, optics, architecture and transportation, aviation and aerospace, energy conversion, environmental engineering and numerous industrial systems.

Materials science and engineering is concerned with the discovery, synthesis, processing, manufacturing and characterization of substances within these general classes of materials: sustainable materials, polymers, metals, semiconductors, ceramics and composites. An understanding of the molecular structure and well-designed processing are the keys to engineering materials with outstanding properties for next-generation applications.

Courses in the undergraduate program in materials science and engineering prepare students to discover and design new and better materials that make an impact on and improve people's lives and keep America on the cutting edge of technology.

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org>), under the General Criteria and the Materials Engineering Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Materials Science and Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering, shown below, are higher than minimum university admission standards. International students must meet the same admission standards, with the possible additional requirement of a minimum English language proficiency (<https://admission.asu.edu/apply/international/undergrad/english-proficiency>) test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, a minimum Duolingo English score of 105, or a minimum Cambridge English exam score of 176.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for fewer than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if ASU Admission Services requires submission of a high school transcript)

Secondary criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESMSEBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate integration of relationships of structure-property-performance-processing and apply them to modern engineering problems involving electronic, sustainability, polymeric, ceramic, and other material systems using materials science characterization, computational and statistical methods.
- Solve complex engineering problems by identifying, formulating and applying principles of material science and engineering.
- Develop and conduct appropriate experimentation, by analyzing and interpreting materials characterization or computational datasets, and conduct appropriate experimentation and use engineering judgment to draw scientific and engineering conclusions applicable to modern engineering questions.

Global Opportunities:

Global Experience: A study abroad (<https://goglobal.asu.edu/>) experience can equip students with the skills they need to effectively and efficiently work with people anywhere in the world. It grants them the chance to gain an international viewpoint on not only engineering itself, but on being a human in this increasingly global world.

Participation in a Global Education program helps students broaden their own horizons and open up possibilities they may have not known existed. Students gain valuable, resume-enhancing experience when studying abroad, and students stand out in a competitive field with the heightened cultural competency and leadership and critical thinking skills they acquired when studying abroad.

The Ira A. Fulton Schools of Engineering recommends these programs (<https://goglobal.asu.edu/materials-science-and-engineering-bse>) for student majoring in materials science and engineering.

Career Opportunities: Since materials science and engineering has such wide-scale applications, graduates find jobs in virtually every field, such as aerospace, defense, auto industry, telecommunications, microelectronics, computers, bioengineering, sports, renewable energy, academia and national research labs. They are among the highest paid scientists and engineers.

Program education objectives

The materials science and engineering program has the following educational objectives:

- Graduates can solve real-world materials engineering challenges within their organizations by applying the required technical knowledge, skills and critical thinking.
- Graduates have made demonstrable progress toward a graduate degree or be considered for a technical promotion potentially within three to five years of graduation.

- Graduates can demonstrate professionalism, leadership, lifelong learning, professional development and ability to work in teams, and hold positions of increasing responsibility within their organizations.
- Graduates can demonstrate an ethical approach to their profession including consideration of economic, societal, cultural and environmental impact.

Student outcomes

Graduates of materials science and engineering program are expected to have attained:

- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety and welfare, as well as global, cultural, social, environmental and economic factors
- an ability to communicate effectively with a range of audiences
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks and meet objectives
- an ability to identify, formulate and solve complex engineering problems by applying principles of engineering, science and mathematics
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts

An additional outcome for ASU materials science and engineering graduates is to demonstrate integration of relationships of structure, properties, processing and performance related to material systems using experimental, computational and statistical methods.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

Mechanical Engineering, BSE (ESMAEMBSE)

Campus: Tempe, Online

Program Description: Mechanical engineering is a creative, diverse discipline. Mechanical engineers design, build and control the devices, machines, processes and systems that are the mainstay of modern industrialized society.

Students prepare for a career in mechanical engineering through a curriculum that includes the study of the principles governing energy transfer, mechanical design, sensors and control devices, and the application of these principles to the creative solutions of practical modern problems.

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org>), under the General Criteria and the Mechanical Engineering Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Aerospace Engineering, MS
- Astrophysics and Astronomy, MS
- Exploration Systems Design (Instrumentation), MS
- Exploration Systems Design (Sensor Networks), MS
- Exploration Systems Design (Systems Engineering), MS
- Exploration Systems Design, MS
- Materials Science and Engineering, MS
- Mechanical Engineering, MS
- Modern Energy Production and Sustainable Use, MS
- Robotics and Autonomous Systems (Mechanical and Aerospace Engineering), MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering, shown below, are higher than minimum university admission standards. International students must meet the same admission standards, with the possible additional requirement of a minimum English language proficiency (<https://admission.asu.edu/apply/international/undergrad/english-proficiency>) test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, a minimum Duolingo English score of 105, or a minimum Cambridge English exam score of 176.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for fewer than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary or the secondary criteria (not both):

Primary criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if ASU Admission Services requires submission of a high school transcript)

Secondary criteria

- minimum transfer GPA of 2.75 for 24 or more transfer credit hours, and
- minimum GPA of 2.75 in all critical courses: MAE 201 Mechanics of Particles and Rigid Bodies I: Statics, MAE 202 Mechanics of Particles and Rigid Bodies II: Dynamics, MAE 213 Mechanics of Materials, and MAE 241 Introduction to Thermodynamics

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-mechanical-engineering/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students

take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESMAEMBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply principles of mathematics and science to solve complex engineering problems.
- Apply engineering design to a student project with consideration of public welfare/other factors.
- Develop and conduct engineering experiments, and analyze and interpret data.

Global Opportunities:

Global Experience: Students gain valuable, resume-enhancing experience when studying abroad (<https://goglobal.asu.edu/>). With over 300 programs available, study abroad allows students to tailor their experience to their unique interests and skill sets. Students in mechanical engineering are able to gain hands-on experience in a variety of countries around the world. In a competitive field, students stand out with the heightened cultural competency, and leadership and critical thinking skills they acquired studying abroad.

The Ira A. Fulton Schools of Engineering recommends these programs (<https://goglobal.asu.edu/mechanical-engineering-bse>) for students majoring in mechanical engineering.

Career Opportunities: Mechanical engineers are employed in virtually every kind of industry. They are involved in seeking new knowledge through research; in generating creative design and development; and in the production, control, management and sales of the devices and systems needed by society. Therefore, a major strength of a mechanical engineering education is the flexibility it provides for its graduates in future employment opportunities.

The BSE program in mechanical engineering has the following program educational objectives:

Through activities such as volunteering, entrepreneurial endeavors, community service, and their employment, graduates of the mechanical engineering program demonstrate commitment to the Sun Devil ideals of global engagement, social embeddedness, social transformation and sustainability.

Graduates of the mechanical engineering program should have attained one or more of the following objectives within a few years after earning their degree:

- admission to a graduate degree program in mechanical engineering or other technical fields
- admission to a professional degree program, such as law, business or medicine, in accordance with the specific interests and abilities of the graduate
- employment in engineering or other fields in a position that capitalizes on the skills and abilities gained through the degree program in mechanical engineering (holding positions of increasing responsibility and leadership within their organizations)

Graduates of the mechanical engineering program are expected to attain:

- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies
- an ability to apply engineering design to produce solutions that meet specified needs, with consideration of public health, safety and welfare, as well as global, cultural, social, environmental and economic factors
- an ability to communicate effectively with a range of audiences
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks and meet objectives
- an ability to identify, formulate and solve complex engineering problems by applying principles of engineering, science and mathematics
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another

state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Ira A. Fulton Schools of Engineering lead to professional licensure.

Mechanical Engineering (Computational Mechanics), BSE (ESMAECBSE)

Campus: Tempe

Program Description: The concentration in computational mechanics under the BSE program in mechanical engineering teaches students the modern computational tools available for solving large-scale and complex technical problems. The curriculum focuses on high-performance computing and the accurate modeling of large- and small-scale systems.

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org>), under the General Criteria and the Mechanical Engineering Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Aerospace Engineering, MS
- Materials Science and Engineering, MS
- Mechanical Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering, shown below, are higher than minimum university admission standards. International students must meet the same admission standards, with the possible additional requirement of a minimum English language proficiency (<https://admission.asu.edu/apply/international/undergrad/english-proficiency>) test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, a minimum Duolingo English score of 105, or a minimum Cambridge English exam score of 176.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for fewer than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary or the secondary criteria (not both):

Primary criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if ASU Admission Services requires submission of a high school transcript)

Secondary criteria

- minimum transfer GPA of 2.75 for 24 or more transfer credit hours, and
- minimum GPA of 2.75 in all critical courses: MAE 201 Mechanics of Particles and Rigid Bodies I: Statics, MAE 202 Mechanics of Particles and Rigid Bodies II: Dynamics, MAE 213 Mechanics of Materials, and MAE 241 Introduction to Thermodynamics

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESMAECBSE~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply principles of mathematics and science to solve complex engineering problems.
- Apply engineering design to student project with consideration of public welfare/other factors.
- Develop and conduct engineering experiments, and analyze and interpret data.

Global Opportunities:

Global Experience: Students gain valuable, resume-enhancing experience when studying abroad (<https://goglobal.asu.edu/>). With over 300 programs available, study abroad allows students to tailor their experience to their unique interests and skill sets. Students focusing on computational mechanics are able to gain hands-on experience in a variety of countries around the world. In a competitive field, students stand out with the heightened cultural competency, and leadership and critical thinking skills acquired through study abroad.

Ira A. Fulton Schools of Engineering recommends these programs (<https://goglobal.asu.edu/mechanical-engineering-bse>) for students majoring in mechanical engineering with a concentration in computational mechanics.

Career Opportunities: As mathematical and numerical modeling takes on a much larger role in product development, graduates who are highly skilled in computational and mathematical engineering will be in high demand.

Mechanical engineers are employed in virtually every kind of industry. They are involved in seeking new knowledge through research; in generating creative design and development; and in the production, control, management and sales of the devices and systems needed by society. A major strength of a mechanical engineering education is the flexibility it provides for its graduates in future employment opportunities.

The mechanical engineering program has the following program educational objectives:

Through activities such as volunteering, entrepreneurial endeavors, community service, and their employment, graduates of the mechanical engineering program will demonstrate commitment to the Sun Devil ideals of global engagement, social embeddedness, social transformation and sustainability.

Graduates of the mechanical engineering program should attain one or more of the following objectives within a few years after earning their degree:

- admission to a graduate degree program in mechanical engineering or other technical field
- admission to a professional degree program, such as law, business or medicine, in accordance with the specific interests and abilities of the graduate
- employment in engineering or other fields in a position that capitalizes on the skills and abilities gained through the degree program in mechanical engineering (holding positions of increasing responsibility and leadership within their organizations)

Graduates of the mechanical engineering program are expected to attain the following outcomes:

- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors
- an ability to communicate effectively with a range of audiences
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks and meet objectives
- an ability to identify, formulate and solve complex engineering problems by applying principles of engineering, science and mathematics
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Ira A. Fulton Schools of Engineering lead to professional licensure.

Mechanical Engineering (Energy and Environment), BSE (ESMAEEBSE)

Campus: Tempe

Program Description: The concentration in energy and environment within the BSE program in mechanical engineering is designed to prepare students to analyze technical problems in:

- air pollution
- climate change
- energy efficiency
- environmental sustainability
- renewable energy
- timely issues facing the global community

Although the primary focus of this program is technical, the general education courses in the areas of the humanities and social and behavioral sciences introduce students to the global, political and societal issues relating to energy and the environment.

By focusing on issues such as air pollution, water scarcity and the lack of alternative transportation, graduates from the program are attractive to employers in the greater Phoenix area and nationwide.

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org>), under the General Criteria and the Mechanical Engineering Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Robotics and Autonomous Systems, BS (ESRASBS)

Campus: Polytechnic

Program Description: Autonomous systems are those that can work for an extended period without human control or intervention --- such as driverless cars or autonomous mobile robots.

The BS program in robotics and autonomous systems provides students with a well-rounded education in robotics, controls, autonomous systems and automation. It is intended primarily for those who desire to develop general expertise in robotics and autonomous systems, including both theory and application of robotics and autonomous systems technologies, systems integration and data fusion techniques, and modeling and simulation development.

Students learn to perform analysis, evaluation and synthesis for a wide variety of problems related to the design, implementation and efficient operation of robotics and autonomous systems.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than the minimum university admission standards. International students may have an additional English language proficiency (<https://admission.asu.edu/apply/international/undergrad/english-proficiency>) criterion. International students must meet the same admission requirements shown below with the possible additional requirement of a minimum English proficiency test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, a minimum Duolingo English score of 105, or a minimum Cambridge English exam score of 176.

First-year admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score or a minimum high school GPA of 3.00 in ASU competency courses or class ranking in top 25% of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or a minimum high school GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary or the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer credit hours, and
- minimum GPA of 2.75 in all critical courses: RAS 110 Principles of Programming for Engineers, RAS 205 Design and Analysis of Data Structures and Algorithms, and EGR 101 and 102 Foundations of Engineering Design Project I and II

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESRASBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, robotics and autonomous systems students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Professionals with a degree in robotics and autonomous systems have substantial opportunities at all levels in manufacturing engineering and in research and development at companies, research institutes and national laboratories (e.g., Department of Defense, Department of Energy, NASA). Relevant careers and related titles include:

- engineer
- manufacturing engineer
- mechanical engineer
- mechatronics engineer
- researcher and scientist

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students should note that not all programs within the Ira A. Fulton Schools of Engineering lead to professional licensure.

Software Engineering, BS (TSSERBS)

Campus: Polytechnic, Online

Some accelerated combinations are not available to ASU Online students. Interested students should contact their academic advisor for more

information.

Program Description: The BS program in software engineering blends engineering, computing, project leadership and software construction.

Students learn how to create innovative software solutions to today's problems. Software systems are complex, often including millions of lines of code. Graduates of the bachelor's degree program in software engineering possess the knowledge and skills of a defined engineering approach to complex systems analysis, planning, design and construction.

The program has a unique, project-driven curriculum, establishing a new model for software engineering education. The program is built around the concepts of engaged learning, discovery-based education, and learning-by-doing. Students learn by solving engaging projects, commonly as a member of a development team. In every semester of the program, students complete projects that emphasize communication, teamwork, critical thinking and professionalism. They have flexibility in designing their course of study, selecting technical electives from a pool of courses in different software engineering application areas; these include web and mobile applications, embedded systems and other interdisciplinary areas.

Accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org/>), under the General Criteria and the Software Engineering Program Criteria.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Computer Science (Big Data Systems), MCS
- Computer Science (Big Data Systems), MS
- Computer Science (Biomedical Informatics), MS
- Computer Science (Cybersecurity), MCS
- Computer Science (Cybersecurity), MS
- Computer Science (Media Arts and Sciences), MS
- Computer Science, MCS
- Computer Science, MS
- Robotics and Autonomous Systems (Artificial Intelligence), MS
- Software Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering, shown below, are higher than minimum
2024-25 Academic Catalog Archive

university admission standards. International students must meet the same admission standards, with the possible additional requirement of a minimum English language proficiency (<https://admission.asu.edu/apply/international/undergrad/english-proficiency>) test score. If the university requires an English proficiency test score from the applicant, then admission to engineering requires a minimum TOEFL iBT score of 79 (internet-based test, taken in a testing center), a minimum IELTS score of 6.5, a minimum PTE score of 58, a minimum Duolingo English score of 105, or a minimum Cambridge English exam score of 176.

First-year admission:

- Minimum 1210 SAT combined evidence-based reading and writing plus math score or minimum 24 ACT combined score, or a minimum high school cumulative GPA of 3.00 in ASU competency courses, or class ranking in top 25% of high school class, and
- Admission may be granted with one deficiency in no more than two competency areas (<https://admission.asu.edu/apply/first-year/competency-requirements>). Deficiencies in both math and laboratory science are not acceptable.

Transfer Admission Requirements: Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 2.75 for fewer than 24 transfer hours, and
- meet the first-year admission requirements

Transfer students with more than 24 transferable college credit hours:

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- If ASU Admission Services requires submission of a high school transcript, admission may be granted with one deficiency in no more than two competency areas (<https://admission.asu.edu/apply/first-year/competency-requirements>). Deficiencies in both math and laboratory science are not acceptable.

Change of Major Requirements: Admission requirements (<https://engineering.asu.edu/admission-requirements/>) for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-software-engineering/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSSERBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics (ABET 1)
- Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors. (ABET 2)
- Use the techniques, skills, and modern engineering tools and processes necessary for software engineering practice. (ABET-SER1)

Global Opportunities:

Global Experience: Students in software engineering gain valuable hands-on experience when studying abroad --- experience that enhances their resumes. With more than 300 programs available in a variety of countries around the world, study abroad allows students to tailor their experience to their unique interests and skill sets. In a competitive field, students stand out with the heightened cultural competency, and the leadership and critical thinking skills they gain when studying abroad. More information on available programs can be found on the Global Education Office website (<https://goglobal.asu.edu/>).

Career Opportunities: Software engineers solve a broad set of transdisciplinary problems and apply new technologies to improve quality of life.

Graduates are prepared for advanced study in computing or an allied field, or to enter the computing profession, most commonly as application software engineers. They design and engineer innovative systems that may include mechanical and electrical components that interact with software.

According to the Bureau of Labor Statistics, software engineers are highly paid, and there is significant growth in the number of employment opportunities. Software engineering jobs may include:

- creating applications for mobile devices
- creating web applications
- designing, creating and validating software for avionics, robotics and similar systems fields

Technological Entrepreneurship and Management, BS (TSTEMBS)

Campus: Polytechnic, Online

Program Description: The BS program in technological entrepreneurship and management brings a STEAM (science, technology, engineering, arts and mathematics) focus to coursework in order to prepare students to address social and corporate issues that can impact and change the world. Students learn to create, launch and improve technology-based products, services and ventures and to identify and solve open-ended problems using engineering and technological approaches.

After completing this program, students should be able to demonstrate the ability to identify, analyze and synthesize information to address and solve use-inspired, open-ended problems, assessing their impact on social, cultural and economic environments; formulate methodologies to advance the knowledge of entrepreneurship and innovation; launch technology-based products and services from idea generation through actualization; use quantitative and qualitative methods to demonstrate continuous improvement of products, services and processes; and utilize a systems approach for the effective design and improvement of entrepreneurial and innovation ventures.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Applied Leadership and Management, MALM
Global Management, MGM
Global Technology and Development, MS
Leadership and Management, MLM
Technology (Management of Technology), MSTech

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student must have a minimum cumulative ASU GPA of 2.00.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSTEMBS~null + &college=CES>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Implement venture management of technology, management of processes, and management of human capital.
- Demonstrate proficiency in collaborating with diverse team members through a professional team presentation that conveys innovation improvements for businesses or organizations.
- Apply systems thinking, data-driven decision making, and research to optimize decision(s) to solve complex problems for a variety of industries/organizations.
- Demonstrate proficiency in critical thinking by developing a strategic management plan that includes analysis of issues, assumptions, evidence, and implications.
- Demonstrate proficiency in navigating the intersection of technology management and engineering through management of a creative engineering solution to innovate a new product or process.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, technological entrepreneurship and management students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates of the technological entrepreneurship and management program possess a range of skills that are needed to develop and innovate products and services that meet corporate and social demands.

Graduates are prepared for a wide variety of career possibilities, including technology-based entrepreneurship, product development, consulting, venture capital analysis, business development, market analysis and technology marketing.

User Experience, BS (LSUSEXBS)

Campus: Polytechnic, Online

Program Description: The BS program in user experience addresses a user's interaction with a company or organization, including its products and services. The UX elements of psychology, research, design and communication determine user needs and wants when using a product.

Research drives design; design drives content; and content drives communication. All result in a user experience.

Students in this program learn the UX research, design, content development, communication and tone of voice elements and skills needed to successfully evaluate all components and products with which end users interact. This includes hardware and software user interfaces, informational products, help systems, user support, identification of user needs, tasks, procedures, capabilities and limitations of using technology and interacting with print, digital and aural information.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSUSEXBS-null>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Those who study abroad while learning user experience will have an advantage in many workplaces. Understanding the global view of applied workplace communication, students become well-rounded communicators, able to utilize various print and digital information products to relate technical and specialized information. Through participation in one of the over 300 available Global Education programs (<https://goglobal.asu.edu/>), students expand their scope of learning beyond the classroom and gain hands-on experience in different and exciting cultures.

Many of the School of Applied Professional Studies programs (<https://cisa.asu.edu/study-abroad>) allow students to earn credit toward their major

during their experiences studying abroad.

Career Opportunities: Graduates can typically expect to find jobs in the areas of:

- design research
- human-computer interaction
- interaction design
- interface design
- usability testing
- user experience
- user research

Global Futures, College of

Applied Mathematics for the Life and Social Sciences, BS (LAAMLBS)

Campus: Tempe

Program Description: The BS in applied mathematics for the life and social sciences is unlike any other math program. It offers a novel approach to investigating, integrating and solving problems in the physical, life and social sciences in such topics as mass violence, contagion, wildlife-human interactions and the transmission of behaviors through influence.

Degree-seekers in this program are immersed in the use of mathematical theory, modeling and computational methods while collaborating with and contributing to diverse fields such as anthropology, global health and environmental social science.

The insights and skills gained allow graduates to confidently create accurate, versatile and practical answers desperately needed in order to improve or remedy contemporary issues.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: ASU students who would like to change their major to applied mathematics for the life and social sciences are required to have a minimum cumulative ASU GPA of 3.00 based on at least 12 credit hours of ASU coursework.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAAMLBS-null + &college=CGF>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, applied mathematics for the life and social sciences students are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Students also may participate in a School of Sustainability study abroad program. More information is available on the College of Global Futures study abroad website (<https://collegeofglobalfutures.asu.edu/student-life/study-abroad/>).

Career Opportunities: Graduates of the program possess the quantitative, scientific and analytical skills that are critical for professionals working in the environmental, life, health, mathematical and social science fields. Nationally recognized experts ensure graduates are well equipped for prestigious career paths in government, medicine, technology, security or other fields requiring rigorous data analysis, with an insight into human behavior.

The need for scientists and professionals quantitatively trained in the life and social sciences is strong in Arizona and the nation. This program's applied use of mathematics, modeling, statistics and simulation methodologies are in high demand and provide excellent training for future academics and professionals in industries including:

- bioinformatics
- computational sciences
- ecology
- genomics
- data mining
- mathematical analysis
- mathematical epidemiology
- nonlinear dynamics
- population dynamics
- social science

Innovation in Society, BA (FIFISBA)

Campus: Tempe, Online

Program Description: Innovation is fundamentally about empowering people and unlocking their potential to create positive change. That requires a human touch and knowledge of how to put people and communities first, not technology. The BA in innovation in society is specifically designed to prepare students to be leaders in this exciting and fast-growing field.

The program centers on building a foundational knowledge in innovation while honing skills like scenario planning, policy analysis, the responsible design of innovations and public engagement. Graduates are not only equipped to understand the intricacies of modern-day challenges but also to anticipate and navigate future trends.

The program's small classes, one-on-one opportunities to work with faculty, and extensive community partnerships create a distinct experience in which students can learn how to grow and strengthen community leadership, capabilities and collaboration for innovation --- all while using tools such as narrative, storytelling, visual art, participatory design and community-centered inquiry.

In the program, students explore how to:

- champion humanity --- craft strategies, turning innovations into societal solutions
- reimagine health --- blend technology and empathy, advancing global well-being
- combat climate change --- use interdisciplinary knowledge for a sustainable tomorrow
- navigate digital dynamics --- decode social media and digital landscapes, ensuring ethical integration
- engage beyond theories --- explore the global challenges with other perspectives
- fuse creativity --- merge artistry with technology, tackling issues from social inequality to digital divides

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Global Technology and Development, MS
- Public Interest Technology, MS
- Science and Technology Policy, MSTP

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/innovation-in-society-bachelor-of-arts/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FIFISBA-null + &college=CGF>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze and deconstruct complex social, technological, legal, ethical and social justice issues using multiple strategies.
- Apply foresight methods to assess emerging trends and plausible futures.

- Design creative strategies to address current societal and technological challenges.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities available to them, students of all majors, including programs in the College of Global Futures, are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Students can find programs specific to their interests on the College of Global Futures Study Abroad webpage (<https://collegeofglobalfutures.asu.edu/student-life/study-abroad/>) and additional opportunities and information on the ASU Global Education Office website (<https://goglobal.asu.edu/>). These sites also include additional information about applying for funding to support global travel.

Career Opportunities: As the landscape of science and technology rapidly transforms, the demand for graduates with a nuanced grasp of these changes becomes paramount. Across industries, there's a growing need for expertise in interpreting and guiding advancement in science and technology that can improve people's lives.

Graduates are poised for success in a range of sectors including cities, aid agencies, charities and companies that are helping tackle difficult challenges. Alumni have highly sought-after jobs at NASA, Department of Energy, Intel, OpenAI and beyond. Preparation in both theoretical and practical facets of innovation makes graduates invaluable assets in tech startups, corporations, nonprofits and governments.

Students can explore alumni employment data for career insights on the College of Global Futures employment data page (<https://collegeofglobalfutures.asu.edu/careers/employment-data/>).

Innovation in Society, BS (FIFISBS)

Campus: Tempe, Online

Program Description: Innovation is fundamentally about empowering people and unlocking their potential to create positive change. That requires a human touch and knowledge of how to put people and communities first, not technology. The BS program in innovation in society is specifically designed to prepare students to be leaders in this exciting and fast-growing field.

The program centers on building a foundational knowledge in innovation while honing skills like scenario planning, policy analysis, the responsible design of innovations, and public engagement. Graduates are equipped to understand the intricacies of modern-day challenges and anticipate and navigate future trends.

The program's small classes, one-on-one opportunities to work with faculty, and extensive community partnerships create a valuable student experience in which students can learn how to develop the imagination, creativity, skills and expertise needed to help envision, plan and implement effective strategies for change. Students learn how to use approaches like policy analysis, foresight and scenario building, knowledge system creation and strategic plan development.

In the program, students explore:

- artificial intelligence --- diving into its potential and grappling with its integration into society
- biotech breakthroughs --- harnessing insights from biotechnologies reshaping the world
- eco-conscious strategy --- merging technology insights with environmental imperatives for sustainable solutions
- emerging technologies --- exploring new technologies like quantum computing and augmented reality and its global impact
- impact on society --- engaging with simulations and projects that reflect technology's societal interplay
- vantage point --- grasping how technology impacts different roles, such as policymaking, technology consulting and digital ethics

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their

academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Global Technology and Development, MS
Public Interest Technology, MS
Science and Technology Policy, MSTP

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/innovation-society-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=FIFISBS-null + &college=CGF>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze and deconstruct complex social, technological, legal, ethical and social justice issues using multiple strategies.
- Apply foresight methods to analyze emerging trends and plausible futures.
- Design creative strategies to address current societal and technological challenges.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities available to them, students of all majors, including programs in the College of Global Futures, are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Students can find programs specific to their interests on the College of Global Futures Study Abroad webpage (<https://collegeofglobalfutures.asu.edu/student-life/study-abroad/>) and additional opportunities and information on the ASU Global Education Office website (<https://goglobal.asu.edu/>). These sites also include additional information about applying for funding to support global travel.

Career Opportunities: As the landscape of science and technology rapidly transforms, the demand for graduates with a nuanced grasp of these

changes becomes paramount. Across industries, there's a growing need for expertise in interpreting and guiding advancement in science and technology that can improve people's lives.

Graduates are poised for success in a range of sectors including cities, aid agencies, charities and companies that are helping tackle difficult challenges. Alumni have highly sought-after jobs at NASA, Department of Energy, Intel, OpenAI and beyond. Preparation in both theoretical and practical facets of innovation makes graduates invaluable assets in tech startups, corporations, nonprofits and governments.

Students can explore alumni employment data for career insights on the College of Global Futures employment data page (<https://collegeofglobalfutures.asu.edu/careers/employment-data/>).

Ocean Futures, BS (GFSEABS)

Campus: Tempe

Program Description: In the BS program in ocean futures, students learn the processes governing global oceans, as well as threats to the ecosystems and human populations they support. It also provides a foundation in coastal and marine system science and focuses on the social, economic and equity aspects of ocean stewardship, including the integration of intergenerational and Indigenous values in developing blue economies, coastal and marine protection and management, land-sea interactions, community-based stewardship, the impact of fisheries on ocean health, and coral reef restoration. Students gain not only knowledge of integrated ocean science, but also cognitive skills in critical and futures thinking, information and digital literacy, and problem-solving. Students also develop interpersonal skills in civic and global responsibility and leadership, as well as the cultural sensitivity and empathy for diverse communities needed to become transformational leaders by working with communities, stakeholders and rights-holders to build skills in context-specific and solutions-oriented research, data analysis and communication.

Healthy human futures depend on healthy ocean futures, and vice versa. According to the United Nations, presently about 40% of the world's population lives within 100 kilometers of the coast. The flourishing of societies and the planet requires a holistic approach to support healthy ocean and coastal ecosystems in the face of a changing future. Addressing the growing challenges the ocean faces requires transdisciplinary study and use-inspired research that works towards culturally appropriate solutions for local to global stewardship of the future oceans. The Bachelor of Science program in ocean futures is designed to grow the next generation of ocean stewards, community leaders, innovators and researchers and build capacity for transformational changes in societal perspectives and practices related to the oceans.

One of the benefits of the program is the opportunity for students to gain additional experience through hands-on, aquatic field opportunities. These aquatic opportunities will be available in or near Arizona, as well as at ASU's Bermuda Institute of Ocean Sciences (<https://bios.asu.edu/>), the Center for Global Discovery and Conservation Science (<https://globalfutures.asu.edu/gdcs/>) in Hawai'i, and through study abroad in Antarctica. Additional costs may apply.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Sustainability, BA (SUSUSTBA)

Campus: Tempe, Online

Program Description: Students in ASU's School of Sustainability are reinventing the future of a world at risk. Students gain career preparation through experiential learning, study abroad programs, research with faculty, community engagement and leadership development. Their knowledge and innovations will shape the social and environmental quality of life for future generations.

The School of Sustainability offers a BA and a BS degree in sustainability. Students focus on developing practical solutions to some of the most pressing environmental, economic and social challenges of sustainability, honing their skills in resilience and systems thinking. They learn to manage trade-offs, engage with diverse stakeholders, utilize future-visioning tools, and assess the ethics and values associated with different solution pathways.

The Bachelor of Arts degree is geared toward students with interests in the social dimensions of sustainability, in local to global contexts, with an emphasis on governance, policy, urban systems and international development.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. Career Opportunities: The growing emphasis on sustainability extends beyond corporate and governmental sectors, offering diverse career opportunities in nonprofits, nongovernmental organizations, community development, justice equity and inclusion efforts. Opportunities encompass sustainability coordination, management, leadership and more. Students can explore alumni employment data for career insights on the College of Global Futures employment data page (<https://collegeofglobalfutures.asu.edu/careers/employment-data/>).

Individuals with a Bachelor of Arts degree in sustainability distinctly contribute to these fields. Their education equips them with a comprehensive approach to addressing sustainability challenges, making them valuable to employers and graduate programs. These graduates possess a deep understanding of complex systems drawn from diverse disciplines, and they excel in forward-thinking strategies and stakeholder engagement.

Their strong communication skills, honed through coursework and authentic experiences, enable them to effectively convey sustainability concepts. Additionally, their expertise in teamwork and relationship-building empowers seamless collaboration in diverse settings. Armed with these skills, graduates are well prepared to make a lasting impact on the environment, society and global sustainability efforts.

Sustainable Food Systems, BS (SUSFOSYSBS)

Campus: Downtown Phoenix, Polytechnic, Tempe, Online

Program Description: The BS program in sustainable food systems trains students to understand food-related challenges using a food systems lens, which encompasses the many aspects of food and agriculture within an integrated social and environmental context and empowers students to grapple with modern complexities. Students become effective agents of change.

Coursework covers a wide range of topics, such as nutrition science, agricultural production, economics and social justice. Students are encouraged to select electives that build upon core sustainable food systems coursework.

Students are engaged in an active community collectively working to achieve the 2030 United Nations Sustainable Development Goals. Beyond the core subject matter and skills courses, the degree requirements include an internship, a chosen focus area and a culminating project-based course, all of which provide students in-depth knowledge of a food-related subfield and ample preparation for exciting careers.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=SUSFOSYSBS-null + &college=CGF>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities available to them, students of all majors, including programs in the College of Global Futures, are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Students can find programs specific to their interests on the College of Global Futures Study Abroad webpage (<https://collegeofglobalfutures.asu.edu/student-life/study-abroad/>) and additional opportunities and information on the ASU Global Education Office website (<https://goglobal.asu.edu/>). These sites also include additional information about applying for funding to support global travel.

Career Opportunities: Graduates have a broad understanding of sustainable food systems and are prepared for pursuing careers in areas such as:

- agricultural development and poverty alleviation --- contributing to projects enhancing agricultural practices in underserved regions and fostering economic growth and food security
 - community food systems management --- leading initiatives promoting local and sustainable food systems, tackling diet-related health issues and advocating for healthier food choices
 - food entrepreneurship and marketing --- starting sustainable food ventures, innovating in product development, and engaging in marketing and agribusiness to promote eco-friendly food products
 - food literacy --- educating communities on sustainable food choices, cultivating awareness and responsible consumption habits
 - public policy and advocacy --- advocating for sustainable food policies, participating in governance and leading grassroots movements for change
- resource management for sustainable food production --- playing a vital role in sustainable resource management, safeguarding the environment during food production

Global Management, Thunderbird School of

Global Management, BGM (TBTGMBGM)

Campus: West, Online

Program Description: The BGM program offers two tracks: the international business, language and culture track, in which two years of foreign language is required, and the international business and culture track, with no foreign language requirement and more emphasis on management-related courses. Students who select the foreign language track may complete coursework in a variety of languages. The international business, language and culture track is offered to on-campus students only. Online students may pursue only the international business and culture track.

Thunderbird's elite faculty and strong relationships with global enterprises enable students to develop and hone the skills needed to thrive as leaders in today's globally interconnected economy. Everyone in the program has the opportunity to explore the politics, cultures and economics of different countries around the world while putting the skills they have learned into practice in real-world settings through a required international internship. Although students are strongly encouraged to pursue internships outside their home country, they may satisfy this requirement by doing a local internship with an international component.

Students often choose to apply their electives toward a minor or certificate offered by another department. This allows the student to specialize in a second area of interest that complements their major. Electives may include areas such as communications, cybersecurity, data analytics, digital media, languages, nonprofit leadership, political science, psychology, public relations, risk management, sales and marketing, and sustainability. The minor and certificate search can be found in Degree Search (<https://degrees.apps.asu.edu/minors>).

Students also complete a senior capstone project that draws on the unique skills they have developed throughout the program. In the capstone project, students work together in consulting teams to provide recommendations for a global organization on a challenge it faces internationally. The internship and the capstone project allow students to demonstrate their skills and work experience for potential employers as part of their professional development plan.

Thunderbird's Bachelor of Global Management is also offered in a flexible online format. Students should visit the ASU Online website (<https://asuonline.asu.edu/online-degree-programs/undergraduate/global-management-bgm/>) for more information.

About Thunderbird

Thunderbird School of Global Management has produced world-class leaders for more than 75 years. The ideal Thunderbird student is curious, globally minded, and eager to develop and advance their careers in leadership and management within the global and digital landscape of the Fourth Industrial Revolution. Upon completion of this degree, graduates will join a thriving global alumni network nearly 50,000 strong, managing some of the world's largest institutions, companies, nonprofits and NGOs.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their

academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Applied Leadership and Management, MALM
- Communication Studies, MA
- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM
- Leadership and Management, MLM
- Technology (Management of Technology), MSTech

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: Current students or those who have an established ASU GPA and would like to change their major to global management must have a minimum cumulative ASU GPA of 2.00.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/global-management-bgm/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TBTGMBGM-null + &college=CTB>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following

program outcomes:

- Demonstrate the ability to explain complex global issues concisely.
- Demonstrate in-depth knowledge of at least one region of the world.
- Demonstrate enhanced ability in Global Entrepreneurship.

Global Opportunities:

Global Experience: As globalization continues to impact the way people live and work, international experiences have become vital to success in every field of business, especially global management.

Through international study and internships, students gain skills employers value highly, including communication and interpersonal skills, flexibility, motivation and a global perspective on business applications worldwide. Completing their required Thunderbird internship abroad positions students to thrive in leadership roles globally upon graduation.

Interested students can find more information on available programs on the Global Education website (<https://goglobal.asu.edu/>).

Career Opportunities: The global economy continues to face volatility and disruption as it expands, contracts and interconnects. Partly because of this, demand for specialists with a global mindset is rapidly increasing.

The Bachelor of Global Management program prepares students to take on leadership roles in multinational corporations, government agencies or nongovernmental organizations. Students gain experience and develop skills that international companies, governments and nonprofit entities value highly in employees.

Graduates can thrive in leadership roles in the following fields:

- consulting
- entrepreneurship
- foreign service
- global marketing
- human resources

Career opportunities include:

- chief sustainability officer
- compliance manager
- country manager
- foreign service officer
- general manager
- global entrepreneur
- international marketing manager
- international sales manager
- manager of a nonprofit organization
- regulatory affairs manager

International Trade, BS (TBINTRABS)

Campus: West, Online

Program Description: Thunderbird's STEM-designated BS program in international trade provides rigorous training for a career in global commerce.

The Bachelor of Science in international trade provides talented, driven students with the exposure to the global business environment that will distinguish them in the workforce. Students learn the functional disciplines of international business while gaining an in-depth understanding of the political, cultural and economic aspects of doing business on a global scale and in international markets in which government regulations vary widely from country to country.

Supported by Thunderbird's training that builds a global mindset, students gain tools for managing supply chains, systematically assessing risk,
2024-25 Academic Catalog Archive 2265

exporting and importing goods and services, and using economic agreements to develop effective strategies for conducting international trade.

This program is unique in enabling students to learn new skills needed for a career in international trade through comprehensive hands-on training and then to apply these skills during a local, national or international internship. Along with real-world learning experiences that open up global career opportunities, students attend courses taught by outstanding Thunderbird graduate school faculty and enjoy unique opportunities to learn from fellow students from around the world.

Graduates of this program possess the intercultural skills and global mindset needed to do business or take on a leadership role in any part of the world. Employers hire Bachelor of Science in international trade graduates for their proven ability to develop effective strategies for international trade and exporting goods and services.

Thunderbird's Bachelor of Science in international trade is also offered in a flexible online format. Students should see the ASU Online website (<https://asuonline.asu.edu/online-degree-programs/undergraduate/international-trade-bs/>) for more information.

- Demonstrate enhanced knowledge of International Trade.

Global Opportunities:

Global Experience: As globalization continues to impact the way people live and work, international experiences have become vital to success in every field of business, especially international trade. Through international study and internships, students gain valuable skills that employers are looking for, including communication and interpersonal skills, flexibility, motivation and a global perspective on how international trade functions worldwide. More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

Career Opportunities: In the increasingly globalized economy, the dramatic expansion of international trade has created tremendous opportunities for global business, and Thunderbird's Bachelor of Science in international trade prepares students for a career in this growing field in which skilled managers are in demand all over the world. Trained negotiators with a strong grasp of economics and politics on an international level are more valuable than ever to employers operating across borders.

Thunderbird's rigorous curriculum and renowned faculty prepare students for a leadership position in a wide range of career fields. Students in this program master a repertoire of globally transferable skills that open doors to an abundance of opportunities, including these positions:

- commodities broker
- compliance manager
- financial risk specialist
- import and export agent
- international business development manager
- international market analyst
- international product or brand manager
- regional manager

Health Solutions, College of

Applied Nutrition and Health, BS (NHFNUENBS)

Campus: Downtown Phoenix, Online

This program's name has changed effective Fall 2024. The previous name was Food and Nutrition Entrepreneurship.

Program Description: The BS program in applied nutrition and health introduces students to nutrition principles, along with essential skills in communication, leadership and community engagement, to develop and apply innovative solutions to health concerns across populations.

Coursework includes fundamentals of nutrition, including macro- and micronutrients and developing nutrition care plans, while also delving into food sustainability, cultural aspects of food and health, food safety, and food and health policy --- all of which prepare graduates to apply nutrition expertise to a variety of careers. Students also engage in experiential learning with community partners specializing in food and nutrition to gain real-world experience, develop professional relationships and establish a foundation for their future goals.

Students complete 18 credit hours of focus area courses in community nutrition, food service operations or pre-dietetics to align with their interests and professional goals. In community nutrition, students delve into strategies for promoting health and wellness within communities and through evidence-based social media presence to address critical public health issues. Food service operations courses teach principles of management, strategy, supply chain management and entrepreneurship in food and nutrition. For students interested in becoming registered dietitians, the pre-dietetics focus offers the additional science and leadership courses required for dietetics-focused graduate programs.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or MAT 117 College Algebra

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/food-and-nutrition-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHFNUENBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in

their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Communicate evidence-based food and nutrition information and basic food science information in oral and written form.
- Identify and explain improvements in a culinary workplace using the tenets of food safety.
- Apply the principles of food management and systems in the provision of food and nutrition services to individuals and organizations.
- Develop a menu applying knowledge of food and nutrition and utilize leadership and communication skills working in the field.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, applied nutrition and health students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs>) for students majoring in applied nutrition and health.

Career Opportunities: Graduates are prepared for careers in:

- community nutrition and public health
- management of food service and sustainable food systems
- marketing and development of food products
- nutrition consulting
- nutrition and health communication and promotion

Graduates with the pre-dietetics focus are eligible to apply to a graduate program in dietetics that will prepare them to take the registered dietitian exam.

Graduates also have the capabilities to launch startups and businesses focused on individual practice, consulting, and new product and service development.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Applied Science (Applied Nutrition and Health), BAS (ECNTRBAS)

Campus: Downtown Phoenix, Online

This program's name has changed effective Fall 2024. The previous name was Applied Science (Food and Nutrition Entrepreneurship).

Program Description: The BAS program with a concentration in applied nutrition and health is specifically designed for students who have earned an AAS from a regionally accredited institution and who wish to further their education through a nutrition-focused bachelor's degree program.

Students gain practical knowledge and specialized skills necessary to promote health and wellness through nutrition within communities. Students aspiring to become registered dietitians may customize their experience to prepare for dietetics-focused graduate programs.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students applying to this program must have completed an AAS degree. This program is not available to first-year students.

Change of Major Requirements: Only students who have completed an Associate of Applied Science degree are eligible to declare Bachelor of Applied Science majors at ASU.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/applied-science-nutrition/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ECNTRBAS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

- Apply the principles of food management and systems in the provision of food and nutrition services to individuals and organizations.
- Identify and explain improvements in a culinary workplace using the tenets of food safety.

Global Opportunities:

Global Experience: Food is at the center of culture. Studying abroad (<https://goglobal.asu.edu/>) helps students gain a deeper understanding of how food and culture intertwine, and they learn how to communicate nutritional and sanitary standards to a diverse audience.

Students' resumes are enhanced with the heightened communication, cultural competency and critical thinking skills they acquire through study abroad.

The College of Health Solutions recommends these study abroad programs (<https://goglobal.asu.edu/students/major/chs/nutrition>) for students majoring in applied nutrition and health.

Career Opportunities: Graduates are prepared for careers in food service management and marketing, nutrition education, nutrition and health communication, community nutrition and public health, and nutrition consulting. With additional education or professional training, graduates may also become credentialed as:

- certified dietary managers
- registered sanitarians

- school food service and nutrition specialists

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 programs available, study abroad allows students to tailor their experience to their unique interests and skill sets. Students in health sciences are able to expand their knowledge of how health care impacts society in a variety of cultures, and experience new and unique health environments across the globe. The valuable experience that students acquire while studying abroad enhances their resume.

More information on available programs can be found on the Global Education Office website (<https://goglobal.asu.edu/>).

Career Opportunities: Graduates can return to their original area of expertise in allied health (e.g., radiology, nuclear imaging) and qualify for a managerial position, be an educator or instructor within their field of expertise, or attain a higher-grade position within their current place of employment.

Other career options include positions such as:

- elder services program coordinator
- health maintenance organization or insurance company client coach
- health and patient educator
- Healthy Start coordinator
- home health care coordinator
- long-term care health and wellness coordinator
- school health and program specialist
- Women, Infants, and Children (WIC) and community nutrition aide

Applied Science (Medical Laboratory Science), BAS (NUMLSBAS)

Campus: Downtown Phoenix

Program Description: The BAS degree program with a concentration in medical laboratory sciences enables students to perform analytical tests on blood, tissue and body fluids in order to provide laboratory information for the detection, diagnosis and treatment of human diseases.

Students learn to work independently using skills and knowledge that are greater in depth and breadth compared with those of medical laboratory technicians, who are typically graduates of a two-year or community college program.

This program is accredited by the National Accrediting Agency for Clinical Laboratory Science, <https://www.naacls.org> (<https://www.naacls.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Only students who have been admitted through Phoenix College and who have completed the prerequisite coursework, verified by the program director or program advisor, are eligible to apply to this program. The following requirements are a part of the application process and are included in the separate program application, which is released to those who are considered eligible during a specified application cycle:

- Gain admission to Phoenix College.

Complete the program application, which should include:

- student information
- coursework
- immunizations
- proof of basic life support or CPR certification
- background check
- health declaration
- experience in medical laboratory sciences
- employment observation verification
- references
- Review and sign the checklist.

Submit the materials to:

CHS Student Services

Mail Code 9020 ATTN: MDL Program

Arizona State University

500 N 3rd St

Phoenix AZ 85004

- Apply to Arizona State University.

Change of Major Requirements: Only students who have completed an Associate of Applied Science degree and who have completed the prerequisite coursework, verified by the program director or program advisor, are eligible to change their major to this program. Interested ASU students should contact a program advisor for more information.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NUMLSBAS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, applied science students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates are able to advance employment opportunities within the fields of medical technology, cytology, clinical laboratory science and related areas.

The Bureau of Labor Statistics reports that overall employment of medical laboratory scientists is projected to grow 11% between 2018 and 2028. This is much faster than the average for most occupations.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Contact Information:

Health Solutions, College of

College of Health Solutions

Biomedical Informatics, BS (ESBMIBS)

Campus: Downtown Phoenix

Program Description: Biomedical informatics is a multidisciplinary field that involves the generation, acquisition, management and analysis of biomedical and health data, and the translation of that data into information and knowledge that can be applied toward improving individual and population health.

Students learn approaches to:

- acquiring data
- data management
- knowledge representation
- modeling and machine learning

Students have the opportunity to conduct research alongside faculty who are experts in bioinformatics, imaging informatics, sensor informatics, artificial intelligence, clinical informatics and population health informatics.

Graduates of the program have a broad set of biomedical informatics knowledge and skills, enabling them to contribute to many areas of health and biomedicine in their future work.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Biomedical Informatics and Data Science, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use

MyPath2ASU® (<https://webapp4.asu.edu/transferecreditguide/app/transfermap?major=ESBMIBS--null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Articulate informatics solutions to improve patient care.
- Implement existing informatics solutions to improve patient care.
- Analyze large data sets to improve decisions for patient care or population health.
- Implement informatics solutions to represent and manage biomedical data

Global Opportunities:

Global Experience: Students gain valuable experience when studying abroad (<https://goglobal.asu.edu/>) --- experience that enhances their resumes. With more than 300 programs available, Global Education programs allow students to tailor their experience to their unique interests and skill sets. Students in biomedical informatics are able to expand their knowledge of how health care systems impact society in a variety of cultures, and they experience new and unique information science and technology environments across the globe.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs>) for students majoring in biomedical informatics.

Career Opportunities: Graduates with a degree in the rapidly expanding field of biomedical informatics are prepared for careers in a wide range of settings.

They are employed in positions such as:

- bioinformatics scientist
- data science analyst
- health care data engineer
- machine learning engineer
- public health informatics scientist

Those with interests in life sciences and technology may see this program as a unique way to combine the two. Others may use this degree as the first step toward medical school, advanced medical research, or graduate-level study in biomedical informatics.

Clinical Exercise Science, BS (ECXERBS)

Campus: Downtown Phoenix

Program Description: In the BS in clinical exercise science program, students develop an extensive understanding of how the human body responds to, changes with and benefits from exercise.

Hands-on laboratory courses with innovative exercise, metabolic and cardiopulmonary equipment provide students with the skills and experience they need to be hired as exercise physiologists in health care settings upon graduation.

Upper-division and special topics courses allow students to gain an even deeper understanding in an area of interest, such as exercise for chronic and neurological conditions or nutrition for health and performance.

Students gain the knowledge necessary to pass the exercise physiologist certification exam from the American College of Sports Medicine and for pursuing level 2 Exercise Is Medicine credentialing from the American College of Sports Medicine.

This program is accredited through the Commission on Accreditation of Allied Health Education Programs (<https://www.caahep.org>) (<https://www.caahep.org/>), endorsed by the American College of Sports Medicine.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra or MAT 170 Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Clinical Exercise Physiology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ECXERBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply mathematical skills related to bioenergetics and exercise intensities.
- Apply the principles guiding evidence-based practice learned through the appraisal of scientific literature.
- Create exercise prescriptions for healthy clients and clients with chronic conditions.
- Apply professional competencies (i.e., job-related skills) commonly required in the fitness industries.
- Apply concepts of basic human anatomy and physiology as they relate to exercise.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, clinical exercise science students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs>) for students majoring in clinical exercise science.

Career Opportunities: This degree program prepares students to become exercise physiologists, an occupation with a faster than average growth rate, according to the U.S. Bureau of Labor Statistics.

In addition to working as exercise physiologists, graduates may obtain positions as clinical exercise specialists, exercise scientists or weight management consultants, in locations such as:

- cardiac rehabilitation facilities
- corporate wellness firms
- health care agencies and medical centers
- hospitals
- lifestyle and weight management consulting firms
- medical fitness centers
- nonprofit disease prevention agencies (e.g., American Heart Association)
- outpatient fitness centers
- university fitness and wellness centers

Specialty areas may include:

- bariatric weight loss (counseling and pre- or postsurgery fitness training)
- cancer patient exercise specialist
- cardiac rehabilitation
- corporate fitness and worksite wellness
- exercise and weight counseling and management

Graduates are well prepared for admission to graduate programs in clinical exercise physiology, athletic training, obesity prevention and management, rehabilitative fields (e.g., physical therapy, occupational therapy) and medicine.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Dietetics, BS (NHDIETCSBS)

Campus: Downtown Phoenix

Program Description: The BS program in dietetics is a required initial step in the education and training of the dietetics professional. This program combines anatomy and physiology, food science, chemistry and nutrition to promote health and prevent disease through dietary choices.

Coursework prepares students to apply for a dietetic internship, which is required to sit for the registration exam to become a registered dietitian. In addition to nutrition courses, students complete a broad range of science, management and communication classes that can be applied in a variety of professional settings.

Beginning Jan. 1, 2024, before sitting for the registration exam, students are required to have a master's degree in addition to completing a dietetic internship. This is a change implemented by the credentialing body for registered dietitians, the Commission on Dietetic Registration, and is a nationwide requirement. More information can be found on the Academy of Nutrition and Dietetics website at <https://www.eatright.org/become-an-rdn> (<https://www.eatright.org/become-an-rdn>).

This program is accredited as a Didactic Program in Dietetics by the Accreditation Council for Education in Nutrition and Dietetics, 120 S. Riverside Plaza, Suite 2190, Chicago IL 60606-6995; phone: 800-877-1600, ext. 5400, <https://www.eatrightpro.org/acend> (<https://www.eatrightpro.org/acend>).

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Nutritional Science, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHDIETCSBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Locate, interpret, evaluate and use professional literature to make ethical, evidence-based practice decisions.
- Use the Nutrition Care Process to make decisions, identify nutrition-related problems and determine and evaluate nutrition interventions.
- Apply management theories to the development of programs or services.
- Demonstrate effective and professional oral and written communication and documentation.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, dietetics students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs>) for students majoring in dietetics.

Career Opportunities: The nutrition and dietetics field provides graduates with employment opportunities in a variety of areas:

- client consultation, including for diabetes management or weight loss education
- food and nutrition industry
- food and nutrition marketing and sales
- nutrition and health promotion
- pediatric and geriatric settings
- public health
- school food service

Graduates may find opportunities in hospitals and other health care facilities or public health agencies.

Most graduates of this program pursue further education and credentials such as:

- registered dietetic technician (DTR)
- registered dietitian or nutritionist (RD/RDN)
- school nutrition specialist (SNS)

These credentials provide further job opportunities in clinical, community and food service settings as listed above.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Exercise and Wellness (Fitness and Wellness Specialist), BS (ECEXWBS)

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Interested students should apply to the BS program in clinical exercise science (<https://degrees.apps.asu.edu/bachelors/major/ASU00/ECEXERBS/clinical-exercise-science>).

Program Description: The BS program in exercise and wellness provides students with the knowledge and practical skills necessary for assisting individuals in reaching optimal health.

The program consists of a carefully designed curriculum emphasizing:

- competency in the instruction of basic and advanced techniques related to flexibility, resistance training and cardiovascular exercise
- competencies required to attain advanced-level certifications from professional associations in the field
- foundational knowledge of exercise physiology and applied kinesiology
- methods to understand and help improve individuals with regard to their health behavior choices
- skills in assessing and interviewing clients in preparation for fitness and wellness programming
- skills in designing and manipulating program variables to work with apparently healthy or symptomatic individuals

Students in the exercise and wellness degree program also have the option to enroll in courses that will enhance their abilities to work with high performance athletes, obese individuals or those at risk for suffering from other hypokinetic diseases.

Those who complete the program are prepared for pursuing nationally recognized and credentialed certifications provided by professional organizations in fields of study related to physical activity, strength and conditioning, or exercise physiology. With the addition of the prerequisite courses, they also are well prepared for continuing into graduate programs that are required for careers in physical therapy, occupational therapy, athletic training or other medical fields.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra or MAT 170 Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ECExWBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, exercise and wellness students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Employment of fitness and wellness professionals is expected to grow by up to 39% from 2020 to 2030 --- much faster than other occupations --- driven by efforts to reduce health care costs by teaching people about healthy behaviors. The need for exercise and wellness programming and facilities increases the need for workers in these areas.

Those who have earned the exercise and wellness degree have enhanced opportunities in fitness and wellness employment settings because clients and employers prefer to work with people who are more highly prepared and qualified.

Graduates of this concentration often pursue careers in such fields as:

- clinical exercise
- corporate fitness
- fitness management
- personal training
- sports performance
- wellness center management

Graduates may also pursue further graduate study in such fields as:

- athletic training*
- cardiac rehabilitation*
- occupational therapy*
- physical therapy*
- physician assistant*

*Advanced degrees or certifications may be required for academic or clinical positions.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. Health Care Administration and Policy, BS (NHHCDBS)

Campus: Downtown Phoenix, Online

Program Description: Students in the BS program in health care administration and policy study the design of health care systems, processes, leadership and management. This knowledge can be used to optimize how health care is delivered to improve health for all.

Students will gain foundational knowledge of health care administration and health policy grounded in concepts of leadership, economics, finance, social determinants of health, informatics and systems engineering. Faculty are multidisciplinary tenure-track and clinically trained professionals who work together to create, teach and share knowledge.

Graduates of this program are academically prepared, well-rounded and adept in skills necessary for a number of exciting careers in health care administration, policymaking and management.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-health-care-admin-policy/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHHCDBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Studying health care administration and policy abroad (<https://goglobal.asu.edu/>) enables students to develop valuable skill sets. Being exposed to unique health environments, learning culturally specific health approaches, and improving intercultural communication skills help prepare students to lead, giving them an advantage in their professional careers.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs>) for students majoring in health care administration and policy.

Career Opportunities: Job opportunities may include entry-level positions in health care administration, hospital administration, program management, policy, advocacy, system design, quality improvement and health services research.

Graduates may pursue further education through graduate programs in areas such as health care delivery, population health, administration and management.

Health Education and Health Promotion, BS (NHHEHPBS)

Campus: Online

Students interested in completing this program at the Downtown Phoenix campus are encouraged to apply to the Health Sciences (Healthy Lifestyles and Fitness Science), BS (<https://degrees.apps.asu.edu/bachelors/major/ASU00/NUHSCHLCBS/health-sciences-healthy-lifestyles-and-fitness-science>), which has a health education and promotion track.

Program Description: In the BS in health education and health promotion program, students learn how to improve health outcomes and prevent chronic and infectious disease. They develop an understanding of how to help communities advocate for healthier environments and champion health equity. Students learn to plan, implement, manage and evaluate health promotion programs.

Students are able to specialize their knowledge in areas such as:

- body image and wellness
- climate and health
- diabetes prevention
- emergency preparedness
- HIV and substance abuse prevention
- school health
- sexual health
- social media and health
- violence prevention

Once students graduate, they are eligible to sit for the certified health education specialist exam through the National Commission for Health Education Credentialing (<https://www.nchec.org> (<https://www.nchec.org/>)). This is a globally recognized credential for health professionals. The health education and health promotion program rigorously prepares students for the CHES exam.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra or MAT 142 College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-health-education-and-health-promotion/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students

take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHHEHPBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, health education and health promotion students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs>) for students majoring in health education and health promotion.

Career Opportunities: Employment of health educators is expected to grow much faster than the average for all professions, with the U.S. Department of Labor predicting a 17% increase in the field between 2020 and 2030. The need for health education specialists, or health educators, has never been more critical than it is today.

Health education specialists can work with nonprofit organizations, tribal nations, schools, hospitals, clinics, businesses and government agencies. Graduates can hold an assortment of roles, such as lactation consultant, diabetes educator, cancer information specialist and grant writer.

Common job titles include:

- community health educator
- community outreach coordinator
- wellness coordinator
- prevention specialist

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Health Sciences, BS (NHHSCBS)

Campus: Downtown Phoenix, Polytechnic, West, Online

Program Description: In the BS program in health sciences, students learn about health care systems and how systems are financed and structured. Leadership and professionalism are highlighted, along with the role of providers in delivering evidence-based care, and students develop ethical and effective communication skills. Today's challenges are analyzed, leading graduates to develop innovative solutions.

Students choose focus areas in:

- community-based health outcomes
- health legislation and regulation
- health and media
- integrative care
- mental and behavioral health

A limited number of students each year may apply to pursue the echocardiography certificate through Mayo Clinic after taking prerequisite courses. Once the certificate is completed, students may transfer the credits to ASU and apply credits toward the bachelor's degree in health sciences.

Interested students should seek advising before starting coursework.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra or MAT 142 College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Study abroad (<https://goglobal.asu.edu/>) provides health sciences students with the opportunity to develop a valuable skill set, such as flexibility and communication skills, that can give them an advantage in their professional career. Students gain personal enrichment through exposure to unique health environments, where they learn culturally specific health approaches and much more.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs>) for students majoring in health science.

Career Opportunities: Graduates are prepared to continue their education in graduate or professional school or to enter the health field or health care workforce in a variety of capacities, including indirect patient, direct patient and community care roles.

Career opportunities includes:

- elder services program coordinator
- health maintenance organization or insurance company client coach
- health and patient educator
- Healthy Start coordinator
- home health care coordinator
- long-term care health and wellness coordinator
- school health and program specialist
- Women, Infants and Children (WIC) and community nutrition aide

Graduates also may choose to pursue advanced degree programs in various discipline-specific medical fields.

Health Sciences (Health Policy), BS (NUHSCHPBS)

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Interested students should apply to the BS in health care administration and policy (<https://degrees.apps.asu.edu/bachelors/major/ASU00/NHHCDBS/health-care-administration-and-policy>) or the BS in health sciences (<https://degrees.apps.asu.edu/bachelors/major/ASU00/NHHSCBS/health-sciences>).

Program Description: The BS program in health sciences is designed to provide the academic knowledge and skills that allow students to move directly into a range of employment opportunities within the health field or to continue their education in discipline-specific programs.

Students complete a complement of core courses that emphasize ethics, communication skills, critical thinking and cultural awareness.

The health policy program is designed for students interested in the community policy aspects of disease prevention and health promotion. The continuum of health care now spans a diverse array of health providers ranging from private practitioner offices and outpatient care centers to residential care facilities and acute care hospitals. Key to the enhancement of health care within the U.S. is the development and implementation of innovative, cost-effective and universally accessible programs.

Students in this concentration are required to complete a supervised practicum, providing hands-on experience within their field of interest. Students may also wish to consider using their electives to complete a minor in nonprofit administration, which requires 15 credit hours.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

Health Sciences (Healthy Lifestyles and Fitness Science), BS (NUHSCHLCBS)

Campus: Downtown Phoenix, Online

Program Description: The BS in health sciences with a concentration in healthy lifestyles and fitness science is a dynamic program that blends multidisciplinary coursework, hands-on training and a strong foundation in healthy lifestyles. Students gain expertise in areas such as nutrition, fitness, stress management, substance abuse prevention, behavior change, health coaching and health promotion program management.

Graduates are prepared to make a meaningful impact on the health and well-being of individuals and communities, addressing the challenges posed by social determinants of health.

The program curriculum offers three academic tracks that support successful preparation for nationally accredited certifications:

Fitness science: Students learn to assess clients and develop, teach and modify exercise plans and individualized programming to help maximize their health potential. Coursework includes physical activity planning, exercise prescription, body image and wellness, and injury risk assessment. Students who complete this track are prepared for certification in personal training offered by the American College of Sports Medicine (<https://www.acsm.org> (<https://www.acsm.org>)).

Health education and health promotion: Students learn to assess health needs and develop, lead and evaluate health promotion programs to address and advocate for individual and community needs. Specialized knowledge areas include diabetes prevention, sexual health, climate and health, emergency preparedness, social media and health, school health and violence prevention. Students who complete this track are prepared for the certified health education specialist exam through the National Commission for Health Education Credentialing (<https://www.nchec.org> (<https://www.nchec.org>)).

Health and wellness coaching: Students delve into the art and science of coaching for improved health and well-being. Coursework includes evidence-based behavior change methodologies, mastery of coaching communication skills such as motivational interviewing techniques, and strategies to influence sustainable healthy lifestyles. Students who complete this track are prepared for the certified health and wellness coach exam through the American Council of Exercise (<https://www.acefitness.org> (<https://www.acefitness.org>)). Moreover, students who complete this track and one additional course are eligible to become credentialed by the National Board for Health and Wellness Coaches (<https://nbhwc.org> (<https://nbhwc.org>)).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra or MAT 142 College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-health-sciences-healthy-lifestyles-coaching/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NUHSCHLCBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Develop a comprehensive health and wellness coaching plan.
- Apply evidence-based health and wellness coaching competencies to build a coaching relationship, and guide clients through enriched support for self-awareness and self-discovery.
- Implement health and wellness evidence-based interventions and strategies to elicit positive changes in individuals within the general population.
- Utilize their health coaching skills within the coaching scope of practice following ethical and legal requirements.
- Utilize evidence-based physical activity programs with appropriate volume and intensity of exercise to elicit positive health changes in individuals within the general population.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, nutritional science students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs>) for students majoring in health science with a concentration in healthy lifestyles and fitness science.

Career Opportunities: According to the U.S. Bureau of Labor Statistics, employment for health coaches and health educators is projected to grow 17% between 2020 and 2030, faster than the average for all occupations.

Health, wellness and fitness coaches work in a multitude of professional environments. Specialty areas may include bariatric weight loss clinic counseling and management, and corporate fitness and worksite wellness.

The globally recognized credentials available through this degree open doors to careers in health education, promotion and coaching worldwide and create a long-term pathway to becoming a certified diabetes care and education specialist (<https://www.cbdce.org> (<https://www.cbdce.org/>)) or a lifestyle medicine professional (<https://lifestylemedicine.org/certification> (<https://lifestylemedicine.org/certification/>)).

Career options include positions such as:

- community health educator
- community outreach coordinator
- corporate wellness coordinator
- fitness center director
- health education specialist (program developer)
- health and patient educator
- personal trainer
- prevention specialist
- school health and nutrition program specialist
- Women, Infants and Children program and community nutrition aide
- worksite wellness coach or coordinator

Graduates are also well prepared for admission to graduate programs in health promotion, population health, lifestyle management, integrative health, health administration, psychology and medicine.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Health Sciences (Pre-professional), BS (NUHSCPREBS)

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Interested students should apply to the BS in medical studies (<https://degrees.apps.asu.edu/bachelors/major/ASU00/NHMEDBS/medical-studies>).

Program Description: The BS program in health sciences is designed to provide students the academic knowledge and skills they need to move directly into a range of employment opportunities within the health field or to continue their education in discipline-specific programs.

The preprofessional program is designed for students planning to enter medical, dental, osteopathic, physical therapy, veterinary, pharmacy and similar professional schools. In addition to a comprehensive core of basic science courses, the concentration is unique in that it provides a solid base in ethics; communication; the evaluation of research (the cornerstone of evidence-based practice); and healthy lifestyles (the foundation of health promotion and chronic disease risk reduction avenues of health care), including the role of complementary and alternative care within the U.S. health care system. Students have the ability to incorporate electives that contribute to their knowledge of and sensitivity to the needs of populations impacted by health disparities.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. International Public Health, BIPH (NHIPHBIPH)

Campus: Online

Program Description: The BIPH program builds and strengthens the international public health workforce using coursework from two leading universities: Arizona State University and the University of New South Wales in Sydney, Australia.

Aligned with U.S. accreditation standards in public health, the Bachelor of International Public Health program teaches new approaches to:

- communicable disease prevention
- environmental health
- global health management
- health promotion
- public health issues
- public health surveillance

Students develop a holistic, equitable, ethical and sustainable approach to public health practice, collaborating with diverse stakeholders to develop and implement strategies to ensure health for all.

In their final year, students complete a research-based capstone experience in their area of interest, which prepares them for their career of choice. Students use this opportunity to develop and implement public health research and interventions with community-based organizations throughout the world.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra or MAT 142 College Mathematics

Program Math Intensity: Moderate

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

PLuS Alliance: The PLuS Alliance partnership combines the strengths of three leading research universities from three continents to create and share knowledge that will solve pressing educational and societal challenges.

Students have the opportunity to engage with peers and specialists across the globe through PLuS-partner courses offered online. Through this PLuS Alliance collaborative degree program, students develop transferable global competencies and gain exposure to international teaching and academic content. <https://www.plusalliance.org/> (<http://www.plusalliance.org/>)

Global Experience: International public health students have the opportunity to gain exposure to culturally specific health approaches and community-based opportunities and to learn about unique health environments and differences in the human condition worldwide through study abroad.

With more than 300 options available, whether in a foreign country, in the U.S. or online, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their experience to their unique interests and skill sets.

Career Opportunities: The most recent report of the United Nations High-Level Commission on Health Employment and Economic Growth described the importance of a global workforce that will support the creation of 40 million new jobs by 2030, particularly in low- and middle-income countries. Critical needs include global health policy, data and informatics, quality and process improvement, ethics, economics and community-based care.

Potential career titles include:

- education coordinator
- health coach
- program coordinator
- program manager
- program officer
- project analyst
- public health scientist
- research associate

Commonly cited hiring organizations include the Peace Corps, the United States Agency for International Development, the Centers for Disease Control and Prevention, the United Nations Children's Fund, other nongovernmental organizations, and state and federal agencies.

Kinesiology, BS (NUKINBS)

Campus: Downtown Phoenix, ASU at Lake Havasu

Program Description: The BS in kinesiology program provides students with a deep understanding of how the human body works.

The rigorous curriculum provides a scientifically inclusive approach to human movement, including the study of mechanical, anatomical, neural, developmental, physiological and psychological mechanisms. Students acquire a well-rounded understanding of all aspects of human function as it pertains to movement and exercise.

Students have opportunities to work one-on-one with faculty on research projects, in labs, as teaching assistants or on other independent study experiences.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Clinical Exercise Physiology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NUKINBS-null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply biomechanical principles to the understanding and explanation of human movement.
- Apply principles of motor behavior to the understanding and explanation of human movement.
- Demonstrate the ability to synthesize data to make evidence-based practice decisions.
- Apply psychological principles to the understanding and explanation of human movement.

- Apply physiological principles to the understanding and explanation of human movement.

Global Opportunities:

Global Experience: Professional health education is competitive. Fewer than 50% of the students who apply to medical schools are admitted, and there are four applicants for every seat in physician assistant programs. Medical and professional school admissions increasingly focus on students with dedication to community service, so engaging in community activities and research abroad will help any student who plans a career in a health field to create a diverse, accomplished portfolio.

With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, kinesiology students have the chance to experience unique health environments, practice alternative approaches to health care, and witness the human condition in a global context. Opportunities also exist for hands-on research and community-based service, which can prepare students to lead in a future-focused career. Kinesiology students gain cultural competency, language skills and vital leadership experience while studying abroad.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs>) for students majoring in kinesiology.

Career Opportunities: An undergraduate degree in kinesiology prepares students for graduate study that can lead to a variety of clinical and research occupations, including:

- allopathic, osteopathic or naturopathic physician
- athletic trainer
- biomechanist
- chiropractor
- clinical exercise physiologist
- occupational therapist
- orthopedic surgeon
- physical therapist
- physician assistant
- prosthetist or orthotist

The program prepares students for graduate study in physical or occupational therapy, physician assistant programs, medicine and other health-related professional programs.

Medical Studies, BS (NHMEDBS)

Campus: Downtown Phoenix, Polytechnic, West, Online

Program Description: The BS program in medical studies enables students to meet the prerequisites for medical and professional school. This program also prepares students for required postgraduate entrance exams, including the revised MCAT.

Students can customize the medical studies degree to meet the prerequisites of the health professions programs to which they intend to apply. In addition, students have the opportunity to learn directly from health care providers who are currently practicing in the field, and they can select clinically related internships or electives during their junior year.

This degree program integrates communication, ethics, critical thinking, teamwork and leadership --- all essential competencies for members of today's health care teams.

Because of the high volume of overlap in curriculum, students enrolled in this degree are not permitted to declare a concurrent degree combination with certain majors, such as the BS in biological sciences, including the following concentrations: biomedical sciences; genetics, cell and developmental biology; and neurobiology, physiology and behavior.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/medical-studies-bs-premed/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHMEDBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Professional health education is competitive. Fewer than half of students who apply to medical schools are admitted, and there are four applicants for every seat in physician assistant programs. Medical and professional school admissions increasingly focus on students who are dedicated to community service, so engaging in community activities and research abroad will help any student pursuing a health career to create a diverse, accomplished portfolio.

Students pursuing medical studies who study abroad can advance their cultural awareness, medical experience and global health understanding. Global Education programs (<https://goglobal.asu.edu/>) expand students' knowledge of culturally specific health approaches while helping them develop strategies to adapt to unique social circumstances. Study abroad is a chance to fine-tune communication, critical thinking and leadership capabilities while taking advantage of opportunities for research, internships and service.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs>) for students majoring in medical studies.

Career Opportunities: Graduates are academically prepared, well rounded and equipped with skills for a number of exciting careers in the allied health fields, education, government, health care industries and nonprofit organizations.

Opportunities include these positions:

- community health worker
- project coordinator
- research assistant
- sales or marketing representative (e.g., medical device or pharmaceutical industry)

They also are well prepared to pursue postgraduate health degrees in areas such as:

- dentistry
- medicine (MD, DO and naturopathic)
- occupational therapy

- optometry
- pharmacy
- physician assistant programs

Further study can result in a career as a:

- chiropractor
- dentist
- naturopathic physician
- optometrist
- pharmacist
- physician
- physician assistant
- podiatrist
- public health professional

Nutrition, BS (NHNTRBS)

Campus: Downtown Phoenix, Online

ASU is no longer accepting new students to this program. Students interested in nutrition should apply to the Food and Nutrition Entrepreneurship BS (<https://degrees.apps.asu.edu/bachelors/major/ASU00/NHFNUENBS/food-and-nutrition-entrepreneurship>) program.

Program Description: The BS in nutrition program includes exploration of important emerging topics, including developing an evidence-based online presence through social media, blogging and podcasting; creating stand-alone businesses in nutrition, such as individual practices and consulting programs; and entrepreneurship in the food industry through development of new products and services.

Experiential learning is integrated into the program's curriculum; students have opportunities to work with external stakeholders and community partners specializing in food and nutrition entrepreneurship to gain real-world experience, develop professional relationships, and establish a foundation and direction for their future careers.

This program prepares students to work in the expanding field of food and nutrition related entrepreneurial ventures and program initiatives. Graduates are poised to meet within food and nutrition industries the demand for the application of valid nutritional concepts.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: Any math course that meets the MA designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

- General University Admission Requirements:
 All students are required to meet general university admission requirements.
 Freshman (<https://admission.asu.edu/freshman/apply>)

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: In the field of nutrition, study abroad (<https://goglobal.asu.edu/>) can expose students to unique health environments and expand students' knowledge of culturally specific health approaches. Students gain a deeper understanding of how food and culture intertwine and how to communicate nutritional and sanitary standards to a diverse audience. Students' resumes are enhanced with the heightened communication, cultural competency and critical thinking skills they acquired through study abroad.

The College of Health Solutions recommends these study abroad programs (<https://goglobal.asu.edu/students/major/chs/nutrition>) for students majoring in nutrition.

Career Opportunities: Nutrition graduates are prepared for careers within companies looking to innovate, in the delivery of products and services, in research and development, in management of food service and sustainable food systems, and in nutrition and health communication and promotion. They have the capabilities to launch startups and businesses focused on individual practice, consulting, and new product and service development. There are a wide array of career opportunities available for graduates of this program.

Nutrition (Dietetics), BS (ECNTRDBS)

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Interested students should apply to the BS in dietetics (<https://degrees.apps.asu.edu/bachelors/major/ASU00/NHDIETCSBS/dietetics>).

Program Description: The BS in nutrition with a concentration in dietetics prepares students with the required coursework and skills they need in order to apply for a dietetic internship, which is required before they can sit for the registration exam to become a registered dietitian, which is a food and nutrition expert. In addition to a core of professional nutrition courses, students complete a broad range of science, management and communication classes. The program emphasizes the application of nutrition within clinical, community, food production and wellness areas.

More information about this credential and the requirements for this credential can be found at <https://www.eatrightpro.org/acend> (<https://www.eatrightpro.org/acend>).

ASU's bachelor's degree program in nutrition with a concentration in dietetics is accredited as a Didactic Program in Dietetics by the Accreditation Council for Education in Nutrition and Dietetics, 120 S. Riverside Plz., Ste. 2190, Chicago IL 60606-6995, phone: 800-877-1600, ext. 5400.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ECNTRDBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Study abroad (<https://goglobal.asu.edu/>) can expose students in the field of nutrition to unique health environments and expand their knowledge of culturally specific health approaches. Students gain a deeper understanding of how food and culture intertwine, and they learn how to communicate nutritional and sanitary standards to a diverse audience. Students enhance their resumes with the heightened communication, cultural competency and critical thinking skills they acquired through study abroad.

The College of Health Solutions recommends the following study abroad programs (<https://goglobal.asu.edu/students/major/chs/nutrition-dietetics>) for students majoring in nutrition with a concentration in dietetics.

Career Opportunities: The nutrition and dietetics field provides employment opportunities in fields such as:

- consulting
- education
- food and nutrition marketing and sales
- nutrition and health promotion
- school food service

Graduates may find opportunities in environments such as:

- hospitals and other health care facilities
- public health agencies

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Nutrition (Food and Nutrition Management), BS (ECNTRMBS)

Campus: Downtown Phoenix, Online

ASU is no longer accepting new students to this program. Students interested in this program should apply to the BS in food and nutrition entrepreneurship (<https://degrees.apps.asu.edu/bachelors/major/ASU00/NHFNUENBS/food-and-nutrition-entrepreneurship>).

Program Description: The BS program in nutrition with a concentration in food and nutrition management provides students with the ability to apply nutrition principles to food production. This concentration is designed to provide students with an understanding of the food industry and teach them how to manage and market food and develop a food or menu that meets a specific nutritional guideline.

Coursework focuses on a strong foundation in food purchasing, production and planning. Additional coursework in management, marketing and nutrition prepares students for a variety of food service positions. Graduates can also pursue the credentials of certified dietary manager, school nutrition specialist or registered sanitarian.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: Any math course that meets the MA designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ECNTRMBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, nutrition students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

The College of Health Solutions recommends these study abroad programs (<https://goglobal.asu.edu/students/major/chs/nutrition>) for students majoring in nutrition.

Career Opportunities: According to the Bureau of Labor Statistics, the number of food service managers is projected to increase by 15% between 2020 and 2030, faster than the average for all occupations.

Graduates are prepared to become food service directors at schools, health care facilities, and corporate food service operations and to own restaurants or nutrition-related businesses, work in supplement or pharmaceutical sales, or work in food marketing and distribution.

Nutrition (Human Nutrition), BS (ECNTRHBS)

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Students interested in this program should apply to the Nutritional Science, BS (<https://degrees.apps.asu.edu/bachelors/major/ASU00/NHNU SCIBS/nutritional-science>).

Program Description: The BS program in nutrition with a concentration in human nutrition provides students with a strong foundation in nutrition and science that prepares them for careers in public or community health programs and clinical or graduate research programs.

In addition to providing a strong foundation in medical nutrition therapy, the coursework includes anatomy, physiology, chemistry and microbiology. Students gain knowledge of nutritional concepts that health care professionals sometimes lack.

Students from this program have gone on to study:

- dentistry
- medicine
- naturopathic medicine
- optometry and podiatry
- osteopathic medicine
- pharmacy

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Nutrition (Nutrition Communication), BS (ECNTRCBS)

Campus: Downtown Phoenix, Online

ASU is no longer accepting new students to this program. Students interested in this program should apply to the BS in food and nutrition entrepreneurship (<https://degrees.apps.asu.edu/bachelors/major/ASU00/NHFNUENBS/food-and-nutrition-entrepreneurship>).

Program Description: The BS in nutrition with a concentration in nutrition communication is designed to help students become experts in

communicating health and nutrition content. This concentration was originally developed in collaboration with the Walter Cronkite School of Journalism and Mass Communication.

Nutrition courses provide the content for articles students write in their communication-related classes. This degree program provides students with a strong understanding of the scientific method, statistics, nutrition, health care and wellness that many traditional journalists lack. Faculty members teach students how to avoid sensationalism and how to avoid sacrificing reality to get a better story.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, nutrition communication students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

The College of Health Solutions recommends these study abroad programs (<https://goglobal.asu.edu/students/major/chs/nutrition>) for students majoring in nutrition.

Career Opportunities: The nutrition communication field offers employment opportunities with:

- community and health care agencies
- magazines
- newspapers
- private corporations (public relations firms)
- web-based companies

With this degree, graduates can pursue careers as:

- authors
- consultants in program or product development
- freelance writers for newspapers and magazines
- public relations representatives for food and beverage companies

HLTHN 401AA

Nutritional Science, BS (NHNUSCIBS)

Campus: Downtown Phoenix

Program Description: The BS in nutritional science provides students with a well-rounded foundation in nutrition, biological sciences, chemistry, anatomy and physiology, as well as the prevention and treatment of health conditions. Integrative and functional health courses also establish a strong foundation for individualizing health interventions across the life span.

Students can customize their coursework to meet the prerequisites of their preferred graduate or health profession program. In addition, students have the opportunity to learn through hands-on mentorship by nutrition faculty in a research capstone. The bachelor's degree in nutritional science enhances skills in leadership, teamwork, communication, critical thinking and ethics, all of which are essential for success in health careers.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 170 Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHNUSCIBS-null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will be able to interpret scientific literature to make evidence-based conclusions for the general public.
- Students will be able to assess clinical and scientific data to make individual and community intervention or research implementation decisions.
- Students will communicate food and nutrition information by reflecting on information and evaluating ethics of different approaches.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, nutritional science students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs>) for students majoring in nutritional science.

Career Opportunities: Students from this program can find job opportunities in medicine, clinical and life sciences research, molecular and cellular biology, industry research and development, dentistry and pharmacy.

This degree program enables students to meet the prerequisites for medical and professional school. Graduates can go on to study:

- dentistry
- medicine (MD, DO and naturopathic)
- nutrition and related fields
- optometry
- pharmacy
- in physician assistant programs

Population Health, BS (NHPOPHLBS)

Campus: Downtown Phoenix, West

ASU is not currently accepting applications for this program. Interested students should apply to the Public Health BS (<https://degrees.apps.asu.edu/bachelors/major/ASU00/NHPBHBS/public-health>) program.

Program Description: In the BS in population health program, students learn how social determinants of health, access to care, and infrastructure influence the health of defined groups. They also gain understanding of how community and professional stakeholders work across systems to improve health.

The multidisciplinary program features many modes of learning to enable and empower students. One is experiential learning, including student engagement as citizen scientists, to better understand population health. The program provides training in biomedical informatics, economics, social determinants of health, program and community assessment, program planning and health care delivery. This education leaves graduates well equipped to enter a growing field.

In the program, students can choose a track tailored to their professional interests. This allows them to customize their learning by focusing on health care compliance, health education, environmental systems, health systems design and improvement, or health informatics.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHPOPHLBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, population health students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Multiple career opportunities exist for graduates with a degree in population health, depending on the areas of expertise that they developed via core training in population health and the track that they pursued. Those who pursued the biomedical information track, for example, are most qualified for positions that require working with a variety of datasets, while those who chose the health education specialist track are trained to work at the interface of health care and public health.

Specific job titles that currently exist for those trained in population health include:

- community health worker
- health care data analyst
- program coordinator
- population health analyst, coordinator or specialist
- population health practice liaison for population outreach
- research assistant

Public Health, BS (NHPBHBS)

Campus: Downtown Phoenix

Program Description: Public health is the practice of preventing disease and promoting good health within groups of people in communities or countries. The BS in public health is a practical, hands-on program that prepares graduates to make an impact in health care on a local and global scale. Coursework is designed around five pillars of public health:

- environmental health
- epidemiology
- ethics
- global health
- rural and urban health

While in the program, students engage in an internship that gives them practical experience in the public health workforce.

The Bachelor of Science in public health pairs well with the health education specialist certificate, the health care policy and delivery certificate, and the hospice and palliative care certificate, each offered by the College of Health Solutions.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra or MAT 142 College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHPBHBS~null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Study abroad is important for future success in the public health field. Exposure to unique health environments expands students' cultural competencies and worldviews and eliminates bias, and students can enhance their portfolio of experience through hands-on research --- all of which give them an advantage in their field.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their experience to their unique interests and skill sets. Whether in a foreign country, the U.S. or online, students in public health are able to learn about unique health environments and differences in the human condition worldwide. The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs>) for students majoring in public health.

Career Opportunities: Graduates of this program qualify for entry-level positions in public health education, sanitation and environmental control, public health administration, health promotion and similar areas.

Employment opportunities are available within national, state and local health departments and in community clinics, community and private advocacy groups, health education programs and nonprofit organizations.

Popular positions include:

- community health worker --- liaise with officials to improve the quality and cultural competence of health care service delivery to the community or to vulnerable groups
- environmental specialist --- investigate environmental health and food risks, advise the community on risk reduction and implement public health projects
- occupational health and safety specialist --- inspect workplaces for adherence to regulations, and design programs for injury and illness prevention
- public health educator --- develop and implement strategies to improve the health of individuals and communities
- sanitarian --- observe facilities to ensure minimal disease spread, develop protocols for hygiene and monitor the handling of waste

The program also provides graduates with the knowledge and skills that enable them to continue their education in graduate programs in public health, population health or community health.

Speech and Hearing Science, BS (LASHSBS)

Campus: Tempe, Online

The BS/MS accelerated option for this program is not currently available to ASU Online students.

Program Description: The BS program in speech and hearing science engages students in study of the normal aspects of the communication process, with emphasis on:

- the human communication system, including the anatomy and physiology of the hearing and speech mechanisms
- normal development of speech and language production and perception
- speech, language and hearing science

The curriculum enables students to develop knowledge and skills to evaluate and determine speech and language deficits and disorders. Upper-division coursework introduces clinical methods and disorders of speech, language and hearing.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra or MAT 170 Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Auditory and Language Neuroscience, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/speech-and-hearing-science-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LASHSBS-null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply knowledge of typical adult speech and language profiles to evaluate speech and language deficits.
- Apply knowledge of typical speech and language development to evaluate developmental speech and language disorders.
- Evaluate the results of audiograms, applying knowledge of normal hearing to determine hearing loss and auditory pathologies.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, speech and hearing

science students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs/speech-hearing-science>) for students majoring in speech and hearing science.

Career Opportunities: Positions in speech-language pathology and audiology are in high demand, rated as careers with bright outlooks by the U.S. Department of Labor's Occupational Information Network. Employment opportunities for program graduates may include positions as:

- audiology assistants
- hearing aid or cochlear implant company representatives
- research assistants or associates in behavioral disciplines
- speech-language pathology assistants
- support personnel in rehabilitation or health facilities

Many graduates of speech and hearing sciences gain entrance to graduate-level programs in speech-language pathology or audiology. In both fields, a graduate degree is required for employment.

The undergraduate degree in speech and hearing science is also excellent preparation for those who wish to enter professional or graduate programs in fields such as:

- counseling
- education
- medicine
- rehabilitation
- social work
- special education
- teaching for the deaf

Graduates work with a variety of populations, including people on the autism spectrum; bilingual language learners; those with delayed or disordered speech and language or those experiencing hearing impairment or stuttering; patients recovering from strokes; or patients with degenerative or neurological disease. Graduates work with patients and clients across the life span, from infants to geriatrics, in a variety of settings.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Sports Science and Performance Programming, BS (NHSPTSPPBS)

Campus: Downtown Phoenix, West

Program Description: Supporting individuals to achieve their maximal potential requires specialized knowledge and skills. The BS program in sports science and performance programming prepares students to work with participants in sports, occupational and tactical environments, taking them to new physical heights.

Students learn the complexities of performance assessment and programming, which can be applied in sport science, sports medicine, strength and conditioning or tactical performance.

Graduates understand how to enhance performance potential, and recognize and respond to the stress the body undergoes during training, enabling them to plan successful exercise and recovery programs.

The National Strength and Conditioning Association has identified that advanced knowledge of human physiology, biomechanics, exercise prescription and assessment technologies is necessary for future success as a sports or tactical performance specialist. The bachelor's degree in sports science and performance programming has been designed with the competencies that enable graduates to be leaders in their future careers.
