ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHSPTSPPBS-null + &college=CHL>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply coaching strategies to maximize efficiency and performance of individuals and reduce the risk of injury under high stress during performance training.
- Understand the scientific foundations that govern adaptation and movement optimization identified as foundational competencies for the Certified Strength and Conditioning Specialist examination and necessary to properly construct advanced performance programs.
- Create evidence-based sports performance programs designed to improve individual and/or team performance and reduce the risk of injury potential during their participation in their activities.

Global Opportunities:

Global Experience: Students studying sports science and performance programming work to push the limits of peak sports performance. When participating in a Global Education program (<https://goglobal.asu.edu/>), they gain valuable skills in leadership, communication and critical thinking, which they can use to push the limits of their personal knowledge and experience as well. Study abroad experience allows students to stand out in a competitive field and leads to cultural enrichment and competency.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs>) for students majoring in sports science and performance programming.

Career Opportunities: Degree coursework prepares students to sit for certification testing through the National Strength and Conditioning Association for certified strength and conditioning specialist or tactical strength and conditioning facilitator credentials.

Graduates are also prepared to work in the sports performance field or pursue graduate study in sports science, athletic training or other exercise science-related disciplines.

Career options for graduates who hold this degree include opportunities in sports performance training in high school, collegiate, professional and private sector environments. In addition, students are prepared for careers in tactical performance training with local, state and national government agencies, including work with police officers, firefighters and military personnel.

Potential career options include:

- athletic trainer

- fitness center director
- gait analyst
- performance center director
- sports data technician
- sports engineer
- sports scientist
- strength and conditioning coach
- tactical performance coach

Some of these positions may require additional education.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Sports Science and Performance Programming (Strength and Conditioning), BS (NHSSPPSCBS)

Campus: Downtown Phoenix

Program Description: The BS program in sports science and performance programming with a concentration in strength and conditioning has been carefully developed to align with the competencies necessary for strength and conditioning coaches to be eligible to sit for certification with the National Strength and Conditioning Association as a Certified Strength and Conditioning Specialist®. Beginning in 2030, only graduates from accredited strength and conditioning programs will be eligible to sit for certification, which is required for many careers in the sports performance industry.

Students in the program learn to properly monitor and assess athletes and work in cooperation with their coaches and sports medicine team to develop physical activity routines promoting the health and success of participants. Students in this concentration receive more in-depth and specific knowledge regarding technologies and advancements in the sports performance field, allowing graduates to be well-qualified for positions in the strength and conditioning field as well as be eligible for certification.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra or MAT 170 Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NHSSPPSCBS~null + &college=CHL>) to outline a list of

recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students studying sports science and performance programming work to push the limits of peak sports performance. When participating in a Global Education program (<https://goglobal.asu.edu/>), they gain valuable skills in leadership, communication and critical thinking, which they can use to push the limits of their personal knowledge and experience as well. Study abroad experience allows students to stand out in a competitive field and leads to cultural enrichment and competency.

The College of Health Solutions recommends these programs (<https://goglobal.asu.edu/students/major/chs>) for students majoring in sports science and performance programming.

Career Opportunities: Graduates are prepared to sit for certification testing through the National Strength and Conditioning Association for certified strength and conditioning specialist or tactical strength and conditioning facilitator credentials. They are also prepared to work in the sports performance field or pursue graduate study in sports science, athletic training or other exercise science-related disciplines.

Career options for this degree include opportunities in sports performance training in high school, collegiate, professional and private sector markets. In addition, graduates are prepared for careers in tactical performance training with local, state and national governmental agencies, including work with police, firefighters and military personnel. They are also prepared to work in the emerging sports science field or to consult on athlete talent or potential.

A few potential career options from this degree or with some additional education include:

- athletic trainer
- fitness center director
- gait analyst
- performance center director
- sports data technician
- sports engineer
- sports performance coach
- sports scientist
- tactical performance coach

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. Honors - Barrett, The Honors College

Honors College, (9HOHONALL)

Campus: Downtown Phoenix, Polytechnic, Tempe, West, Online

Program Description: Barrett, The Honors College creates a foundational educational experience that encourages learners of high potential to respond to the challenges of principled leadership through independent and collaborative scholarly and creative activities; community and civic engagement; and transformative travel, study and research opportunities.

At Barrett, curious, motivated students learn from one another in an inclusive, supportive environment that rewards exploration and encourages responsibility and care for self and others. Barrett values courage and curiosity, belonging and community, and agency and leadership, and it provides meaningful academic and cocurricular opportunities to support these principles for students.

Barrett students enjoy the opportunities afforded to them through Arizona State University, a premier Research I university

(<https://www.asu.edu/rankings>) with considerable resources in the sheer number and variety of degree programs. These students take part in the nation's top honors college (<https://barretthonors.asu.edu/rankings>) with benefits more typical of a small, private college. Students leverage their status in honors to dive deeper into their interests through faculty mentorship, access to unique research and internship opportunities, specialized projects in classes, domestic and international travel programs, cocurricular opportunities, and student-led engagement activities.

While pursuing the same 120 college credit degree plan required for ASU students, Barrett students earn a portion of their undergraduate credits as honors credits. There are a variety of ways to earn honors credits, including major-specific classes and honors special topics courses, honors internships, research, and travel programs. All students in Barrett complete an undergraduate thesis project. The honors thesis is the culmination of Barrett students' honors experience and their entire undergraduate education.

The residential and academic community of Barrett allows students to feel at home at ASU. Through the comprehensive Barrett residential communities at each campus, honors students enjoy community spaces, special events and student organizations right where they live. Barrett Online students are also included in community events and special virtual engagement opportunities. All Barrett students are supported by more than 55 full-time honors professors, 70 full-time staff members, the dean and vice dean of the college and associate deans at Barrett Downtown, Polytechnic and West Valley campuses.

With a focus on excellence beyond their college experience, Barrett students have the opportunity to take advantage of the Lorraine Frank Office of National Scholarship and Advisement (<https://onsa.asu.edu/>), which serves all of ASU and is located in the Barrett Complex on the ASU Tempe campus. There, Barrett faculty and staff mentor students as they apply for national and international fellowships. Each year, ASU students are selected for prestigious recognitions, awards and programs, including the Rhodes Scholarship, Gates Cambridge Scholarship, Thomas R. Pickering Foreign Affairs Fellowship, Goldwater Scholarship, Boren Awards for International Study and the Killam Fellowships Program. ASU students also have been recipients of the Benjamin A. Gilman International Scholarship and the National Science Foundation Graduate Research Fellowship Program, and they have received fellowship awards from the Fulbright U.S. Student Program, placing ASU among the nation's top producers of fellowship winners.

Additional Program Fee: Y

Second Language Requirement: N

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students must complete an application to Arizona State University before submitting a separate application to Barrett, The Honors College (<https://barretthonors.asu.edu>).

Students who have demonstrated high levels of academic achievement in high school or college may apply for admission to Barrett. Each candidate must file an application to the college separate from the ASU application, in accordance with the appropriate Barrett deadlines.

Applicants are evaluated on the basis of their academic records and their ranking within the graduating class. For fall 2024, ACT and SAT scores are not required. The college also values students who have special talents and aptitudes, exhibit exceptional leadership qualities, have had unusual life experiences or display significant community involvement.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=9HOHONALL-null + &college=CHO>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer

experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Barrett, The Honors College highly encourages its students to enhance their educational experience by traveling. With over 300 programs in more than 65 countries (programs vary in length, from one week to one year), students are able to tailor their experience to their unique interests and skill sets. Students earn ASU credit for completed courses while staying on track for graduation, and they may apply financial aid and scholarships toward program costs. Students can find more information on the Global Barrett (<https://students.barrethonors.asu.edu/enhance-your-experience/global-initiatives-overview>) website.

Career Opportunities: Participation in Barrett sets graduates apart when they apply for jobs; apply to graduate programs, including medical school and law school; or pursue any other next step after undergraduate graduation. Barrett graduates showcase an ability to go beyond the minimum requirements to earn a bachelor's degree, and a willingness to embrace intellectual curiosity and exploration. Students can explore the alumni page (<https://barrethonors.asu.edu/alumni-success>) to see what Barrett graduates are doing now.

Integrative Sciences and Arts, College of

Applied Biological Sciences (Applied Biological Sciences), BS (TSABSABS)

Campus: Polytechnic

Program Description: The BS program in applied biological sciences offers students solid foundations in biology and related sciences while allowing them to focus on an area of special interest.

Students learn about fundamental principles such as movement of energy and matter, exchange of genetic information, as well as the structure and function of relationships that govern life processes. They also learn about ethical and policy challenges that can arise when applying biological principles to social issues.

In this program, students contextualize knowledge through experience-based learning activities, including:

- case studies
- faculty-guided research and service-learning projects
- field trips
- hands-on laboratories and field experience
- internships

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Applied Biological Sciences, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSABSABS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 programs available in more than 65 countries, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Those in applied biological sciences are able to expand their knowledge of how science impacts society in a variety of cultures, and they can acquire a global perspective, preparing them to lead in a future-focused career. Students earn ASU credit for completed courses while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

Career Opportunities: Graduates may pursue entry-level careers in wildlife and restoration ecology, urban horticulture and secondary education.

The general program in applied biological sciences prepares graduates to succeed in graduate and professional schools in disciplines such as:

- biological research
- dentistry
- environmental biotechnology
- human health
- medicine
- physical therapy
- secondary education

Applied Biological Sciences (Applied Ecology and Preveterinary Medicine), BS (TSABSRBS)

Campus: Polytechnic

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program Description: The applied ecology and preveterinary medicine concentration in the BS program in applied biological sciences is designed

for students who want a strong scientific foundation in animal biology and health.

It is especially appropriate for students who plan to enter graduate or professional programs or careers in veterinary medicine, animal health, wildlife biology, ecology, restoration and rangeland management.

Public and private career options are diverse and include:

- small- and large-animal veterinary medicine
- wildlife veterinary medicine
- domestic and wild animal care
- animal biology
- habitat research
- secondary education

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Applied Biological Sciences, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Applied Biological Sciences (Natural Resource Ecology), BS (LSABSNRBS)

Campus: Polytechnic

Program Description: The concentration in natural resource ecology in the BS program in applied biological sciences provides students with a comprehensive understanding of how to effectively and sustainably manage natural resources in various ecosystems.

Students gain knowledge about essential elements of natural systems, including soils, water, and the associated plant and wildlife communities. Students also learn to measure and assess plant and animal populations through a variety of field techniques and computer tools, including geographic information systems and remote sensing. Skills and techniques are applied to case studies in the classroom and laboratory projects.

Students in this program contextualize knowledge through experience-based learning activities, including:

- faculty-guided research and service-learning projects
- field trips
- internships
- laboratories and field experiences

STEM-OPT for International Students on F-1 Visas:

Applied Biological Sciences (Pre-Dental), BS (LSABSPDBS)

Campus: Polytechnic, Online

Program Description: The purpose of the concentration in pre-dental medicine in the BS program in applied biological sciences is to prepare undergraduate students to successfully complete the admission requirements for the pursuit of an advanced degree in dental medicine.

The concentration curriculum emphasizes a solid foundation in biology, chemistry, physics and mathematics while offering specialized courses related to dental medicine as well as opportunities for placement in internships in the field.

Students in this program contextualize knowledge through experience-based learning activities, including:

- case studies
- faculty-guided research and service-learning projects
- field trips
- laboratory activities

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/biological-sciences-pre-dental/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSABSPDBS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, pre-dental students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Career opportunities for graduates of this program may include entry into professional programs in dental medicine. In addition, this program can lead to dental-focused careers outside of dental medicine.

The pre-dental program in applied biological sciences prepares graduates to succeed in graduate and professional schools in disciplines such as:

- biological research
- dental school
- environmental biotechnology
- human health
- medicine
- physical therapy
- secondary education

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Applied Biological Sciences, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/pre-veterinary-medicine/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSABSPMBS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, preveterinary medicine students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Career opportunities for graduates of this program may include entry into professional programs in veterinary medicine and animal health, including:

- animal biology research
- domestic and wild animal care
- education
- small- and large-animal veterinary medicine
- wildlife veterinary medicine

This program can also lead to animal-focused careers outside of veterinary medicine at state game and fish departments, zoos, animal shelters and animal nonprofit organizations.

Applied Biological Sciences (Secondary Education in Biology), BS (TSABSSBS)

Campus: Polytechnic

Program Description: The secondary education in biology concentration in the BS program in applied biological sciences is designed for students who want to teach biology at the middle school and high school levels.

In addition to the standard curriculum, students receive hands-on experience in laboratory instruction. The goal of the program is to prepare students to become teachers who excel in biology and related sciences.

Students in this program contextualize knowledge through experience-based learning activities, including:

- case studies
- faculty-guided research
- service-learning projects
- secondary education clinical experience

Students enrolling in this concentration should also contact the Mary Lou Fulton Teachers College for information on teacher preparation coursework.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSABSSBS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Those who wish to pursue a future in education must understand how classrooms are shaped by students' diverse experiences, backgrounds and cultures. Global Education programs (<https://goglobal.asu.edu/>) offer firsthand experience in a wide range of cultures and communities, which can enhance a degree program. Students earn ASU credit for completed courses while staying on track for graduation, and they may apply financial aid and scholarships toward program costs. Programs can be found in a variety of countries around the world.

Career Opportunities: Graduates of this concentration program are prepared to teach biology in high schools or pursue numerous entry-level careers in biology. Employment opportunities exist in private and public sectors. Graduates of the general program in applied biological sciences are also prepared to succeed in graduate or professional schools in disciplines such as:

- animal health
- dentistry
- medicine
- nonprofit education
- physical therapy
- teaching

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Applied Biological Sciences (Sustainable Horticulture), BS (TSABSUBS)

Campus: Polytechnic

Program Description: The sustainable horticulture concentration within the BS program in applied biological sciences is designed for students who want theoretical and practical experiences in distinct aspects of plant culture in an urban desert environment.

Students acquire the skills to produce, design and care for ornamental and edible plantscapes. Students interested in sustainable practices have the opportunity to specialize in vertical farming and other plant-related technologies. Students in this program contextualize knowledge through experience-based learning activities, including:

- case studies
- faculty-guided research and service-learning projects
- field trips
- greenhouse experiences
- internships

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TSABSUBS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students can explore habitats and ecosystems around the world in one of several Global Education programs (<https://goglobal.asu.edu/>); opportunities include working with scientists and conducting independent research. Students can stay on track for graduation by earning ASU credit while becoming immersed in other cultures. Studying abroad builds professional skills that employers demand, such as collaboration and critical thinking.

Career Opportunities: Horticulture is a multibillion-dollar national and international enterprise that offers a diverse and exciting choice of professional careers. Graduates can pursue numerous entry-level careers in horticulture. Employment opportunities exist in private and public sectors. The general program in sustainable horticulture also prepares graduates to succeed in roles such as:

- arboretum or botanical garden manager
- city horticulturist
- horticultural consultant, plant researcher or educator
- horticulture supply sales representative
- integrated pest management specialist
- interior plant specialist or plant propagator
- landscape designer or contractor
- nursery plant broker or cultivator and plant salesperson
- organic urban farmer or permaculturist
- urban plant ecologist, forester, tree specialist or arborist

Career opportunities for urban horticulture graduates are not limited to any one geographic location; graduates can embark on careers throughout the United States, Canada, Mexico and overseas.

Applied Mathematics, BS (LSMATBS)

Campus: Polytechnic

Program Description: The BS in applied mathematics offered by the College of Integrative Sciences and Arts is a transdisciplinary program focused on developing flexible problem-solvers who can apply mathematical techniques and skills to a wide range of problems in the sciences, such as biology, social sciences, chemistry, physics and engineering.

The coursework builds a foundation in mathematical modeling, data analysis and the interpretation of mathematical results in applicable settings. Students choose electives in the sciences, technology, engineering or other areas of interest to complement and provide context for their mathematical training.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I or MAT 265 Calculus for Engineers

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSMATBS~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students gain valuable experience when studying abroad, which will enhance their resumes. Students often cite participating in Global Education programs (<https://goglobal.asu.edu/>) as the highlight of their academic career and a crucial moment in helping them gain a clearer view of the world, its peoples and the complex challenges facing us all.

The Global Education Office offers a suite of faculty-directed global experience programs designed to connect students with modern issues that impact local communities yet transect borders. Through any of the more than 300 programs available, students can see the world as they never have before and come away with memories to last a lifetime. Graduates who possess the heightened cultural competency and leadership and critical thinking skills acquired through studying abroad may stand out in a competitive field.

The College of Integrative Sciences and Arts recommends these programs (<https://goglobal.asu.edu/students/major/applied-mathematics>) for students majoring in applied mathematics.

Career Opportunities: Graduates are prepared to apply their analytical skills and technical knowledge to problems in a range of careers in industry, government, education or nonprofit organizations. They also pursue advanced degrees in the mathematical sciences (e.g., mathematics, statistics and applied mathematics such as mathematical biology).

Applied Military and Veterans Studies, BA (LSAMVSBA)

Campus: Polytechnic, Online

Program Description: In the interdisciplinary BA program in applied military and veterans studies, students gain a comprehensive understanding of U.S. military history, the national security ecosystem, international relations and the political system. Students also learn about public policy, organizational leadership and themes related to counseling psychology and health care for military and veteran communities.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their

academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/applied-military-veterans-studies>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSAMVSBA~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: The study of military and veterans studies transcends a city, state, province, country and even a continent. Global education programs (<https://goglobal.asu.edu/>) help students dive deeper into their studies by providing the opportunity to experience many cultures firsthand and to explore places where history and military action have intermingled. Students are able to use these encounters to discover the interconnections of ideas and places at primary source sites.

Career Opportunities: Graduates are ready to enter roles supporting public policy development and political activism, roles in the military, and leadership roles in military- and veteran-serving organizations.

Graduates are well-prepared for employment in:

- federal agencies across the U.S. and worldwide, such as with the Department of Defense and the Bureau of Veterans Affairs
- the government sector in Arizona and other states
- health care-related organizations serving veteran populations
- nonprofit organizations around the U.S. dedicated to supporting military-connected individuals and veterans

Applied Physics, BS (LSAPHYBS)

Campus: Polytechnic

Program Description: By pairing fundamental physics with practical applications, the BS program in applied physics serves students who have a wide range of interests, from engineering applications to research in fundamental physics. The degree program combines physics, computer science and applied mathematics to tackle complex problems in physics, material sciences, engineering, chemistry and related fields.

This degree program is delivered by dedicated faculty with expertise in modeling of physical systems, materials science, modern numerical techniques and fundamental physics. Given the importance of hands-on experience, the degree program offers rigorous courses and elements of project-based research.

The growing presence of high-tech companies in the metro Phoenix area, including the East Valley, presents a unique opportunity for students to establish connections with industry.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website.

The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSAPHYBS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: By studying abroad, students majoring in applied physics gain valuable hands-on experience tailored to their unique interests and skill sets, personal enrichment, heightened cultural competency, and leadership and critical thinking skills that will be an advantage in their careers.

With more than 300 Global Education programs (<https://goglobal.asu.edu/>) available, whether in a foreign country, in the U.S. or online, students build communication skills, are challenged to adapt and persevere, are exposed to differences across the world, and increase their ability to work with diverse groups of people.

Career Opportunities: Graduates apply their knowledge in high-performance and scientific computing, biophysics, condensed matter physics, chemistry, material science, electrodynamics and radar physics. This knowledge is vital for employment in chemical and pharmaceutical companies, environmental management agencies and firms specializing in scientific software. Graduates are also prepared to continue their studies in graduate programs in physics and chemistry.

Applied Quantitative Science, BS (LSAQSBS)

Campus: Polytechnic

Program Description: Students in the BS program in applied quantitative science learn to integrate and apply STEM-supported skills that are increasingly in demand for future-focused careers. Students develop six habits of mind, which are mental practices that become more ingrained as they advance through the curriculum and continue into their professional careers.

Students learn to:

- apply and project quantitative reasoning to unfamiliar contexts
- communicate well within and without the expert domain
- critically and adaptably think about complex problems
- effectively search through and evaluate information
- experiment creatively and in an informed manner in search of new insights
- use sophisticated insight involving statistical inference and quantitative reasoning

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Applied Science (Animal Biology), BAS (LSANBIOBAS)

Campus: Polytechnic

Program Description: The BAS program with a concentration in animal biology provides a direct pathway from an AAS degree to a Bachelor of Applied Science degree for students who want to prepare for careers in management, scientific and medical fields relevant to animals.

Students learn the underlying principles of animal health --- grounded in knowledge of cells, biological systems and behavior --- in order to solve problems in animal health and care. The curriculum emphasizes a solid foundation in biology, animal science and mathematics while offering specialized courses and opportunities for placement in internships in the field.

Students have access to a variety of career resources and opportunities to explore professions and engage with established professionals in a variety of fields.

Additional Program Fee: N

Second Language Requirement: N

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Admission Requirements: Transfer students must complete BIO 181 General Biology I and BIO 182 General Biology II (or equivalent) and CHM 101 Introductory Chemistry or CHM 113 General Chemistry I (or equivalent).

Change of Major Requirements: Only students who have completed an Associate of Applied Science degree are eligible to declare Bachelor of Applied Science majors at ASU.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSANBIOBAS~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 programs available in more than 65 countries, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Students are able to expand their knowledge of animal biology and how it impacts society in a variety of cultures, and they can acquire a global perspective which will prepare them to lead in their career.

Students earn ASU credit for completed courses while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

Career Opportunities: Graduates have numerous entry-level careers in animal health and nutrition, and they are also prepared to succeed in graduate or professional schools in disciplines such as:

- animal biology
- animal health
- biological research
- veterinary medicine

Applied Science (Applied Leadership), BAS (LSALSBAS)

Campus: Polytechnic, Tempe, ASU at Cochise, ASU at Pima, ASU at Pinal, ASU at The Gila Valley, ASU at Yavapai, Online

Program Description: The BAS program with a concentration in applied leadership focuses on the practice of innovative and effective management. Students develop the skills and knowledge leaders need to solve problems, communicate effectively, resolve conflicts, assess program effectiveness and manage resources. It provides a valuable pathway for students with AAS degrees in fields such as environmental technology and machine shop technology.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students applying to this program must have completed an AAS degree from a regionally accredited institution. For students with an Associate of Applied Science from an Arizona community college, the AGEC is recommended but not required. This program is not available to first-year students.

Change of Major Requirements: Only students who have completed an Associate of Applied Science degree are eligible to declare Bachelor of Applied Science majors at ASU.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/applied-leadership-bas/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSALSBAS~null + &college=CLS>) to outline a list of

recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students studying applied leadership can become influential and innovative leaders in the world. Through unique study abroad experiences across the globe, students gain valuable leadership and communication skills. Whether in a foreign country, in the U.S. or online, by participating in one of the more than 300 available Global Education programs (<https://goglobal.asu.edu/>), students expand their scope of learning beyond the classroom and gain hands-on experience in different and exciting cultures. Many of the School of Applied Professional Studies programs (<https://cisa.asu.edu/study-abroad>) allow students to earn credit toward their major for their experiences studying abroad.

Career Opportunities: Graduates possess the skills and knowledge needed for leadership positions in a wide range of organizations, including business, government, nonprofit agencies and the service industry. They are prepared become effective leaders in diverse positions, including team leaders, floor managers and shift captains.

Applied Science (Project Management), BAS (LSAPSPMBAS)

Campus: Polytechnic, Tempe, Online

Program Description: The BAS program in project management offers a skills-driven curriculum that prepares students to be excellent project managers.

Students acquire the skills they need to ensure the progress and successful completion of complex projects: project leadership, project quality management, project risk management, project schedule management, project cost management and project resource management.

Students also explore the skills and knowledge leaders employ when they organize diverse teams, evaluate ethical situations, innovate, solve problems, communicate effectively, assess leadership and organizational effectiveness, manage resources and use emerging technologies.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Applied Science (Technical Communication), BAS (LSTECBAS)

Campus: Polytechnic

Program Description: The BAS in applied science with a concentration in technical communication is a flexible program designed specifically for students who have earned an AAS degree from a regionally accredited institution. This major combines the technical experience gained from an associate degree program with a broader education of skills in management, leadership, critical thinking and communication.

Technical communication is applied workplace communication that makes technical information understandable and available to many audiences. In the technical communication concentration, students learn how to produce, design and manage information using both traditional and developing technologies.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students applying to this program must have completed an AAS degree from a regionally accredited institution. This program is not available to first-year students.

Change of Major Requirements: Only students who have completed an Associate of Applied Science degree are eligible to declare Bachelor of Applied Science majors at ASU.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSTECBAS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Technology is connecting the world, and future technical communication professionals must be proficient in cross-cultural communication --- a skill well-developed through study abroad. Through unique study abroad experiences across the globe, students gain valuable skills. Whether in a foreign country, in the U.S. or online, by participating in one of the more than 300 available Global Education programs (<https://goglobal.asu.edu/>), students expand their scope of learning beyond the classroom and gain hands-on experience in different and exciting cultures.

Many of the School of Applied Professional Studies programs (<https://cisa.asu.edu/study-abroad>) allow students to earn credit toward their major for their experiences studying abroad.

Career Opportunities: The Bureau of Labor Statistics estimates the need for writers and editors will increase by 4% during the next 10 years. Software and electronics companies, media corporations, financial institutions, government agencies, nonprofits and other areas will see an increased demand for writers.

Students in the program prepare for careers as:

- advertising and promotions managers
- communications professors
- copy writers
- correspondence clerks
- court clerks
- desktop publishers
- editors
- media and communication workers
- proofreaders and copy markers
- public relations specialists
- technical writers

SANCA 233

Communication, BA (LSCOMBA)

Campus: Downtown Phoenix, Polytechnic

Program Description: The BA program in communication in the College of Integrative Sciences and Arts explores how communication processes create, maintain and transform identities, relationships, workplaces and communities.

Through the exploration, analysis and application of human communication, students gain the knowledge, creativity and skills they need to facilitate healthy relationships and workplaces, civil and sustainable communities, and constructive intercultural interactions. With an integrative and applied emphasis on culture and communication, community advocacy and communication technologies, the program allows for a concerted focus on the rapidly changing modalities of communication occurring today. Students learn to speak effectively, communicate across cultures and critically analyze public controversy.

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Communication Studies, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSCOMBA~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students may engage in a unique and exciting opportunity to gain intercultural experience through tailored, international programs of study. Study abroad can help students improve language and cross-cultural skills for effective communication. They can also develop critical teamwork and problem-solving skills and expand their knowledge of the liberal arts through lenses of different cultures.

Participation in one of the more than 300 Global Education (<https://goglobal.asu.edu/>) programs available, whether in a foreign country, in the U.S. or online, provides students personal enrichment and an opportunity to develop valuable skill sets that can give them an advantage in their career. Students build communication skills, are challenged to adapt and persevere, are exposed to differences across the world, and they increase their

ability to work with diverse groups of people.

Career Opportunities: Communication graduates are prepared for many different career fields, including public relations, marketing, community organizing and human resources.

Graduates often attend other top-tier graduate schools, law schools and business schools, or find gainful employment as:

- advertising and promotion managers
- community organizers
- content creators
- human resource specialists
- labor relations specialists
- lawyers
- public officials
- public relations and fundraising managers
- social media managers
- training and development managers

Counseling and Applied Psychological Science, BS (LSCAPSBS)

Campus: Polytechnic, Online

Program Description: Counseling and applied psychological science is a specialty in promoting psychological well-being. Counselors and applied psychologists provide the tools and resources necessary for individuals, families and organizations to cope with everyday problems.

The BS program in counseling and applied psychological science provides foundational training in counseling theories, addictions, trauma, life span development, group counseling and professional ethics. A unique aspect of the program is its attention to cultural diversity, focusing on age, gender, race, ethnicity, sexual orientation, religion and socioeconomic status. As part of the program, students also participate in a hands-on internship in which they shadow a licensed therapist and apply counseling theory.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 119 - Finite Mathematics or MAT 170 Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/counseling-psychological-science/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSCAPSBS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: To make a positive impact in the lives of others, students must understand the diverse set of experiences, backgrounds and cultures that shape the people with whom they wish to work. When studying abroad, students gain firsthand experience of a wide range of cultures and communities. Global Education programs (<https://goglobal.asu.edu/>) provide students with a unique global perspective, enabling them to impact the world.

Career Opportunities: Graduates with a degree in counseling and applied psychological sciences are prepared for careers in various settings:

- community centers
- government (sales and marketing, human resources management)
- mental health professions (youth counselor, substance abuse counselor, behavioral health technician)
- schools and colleges (school psychologists, educators, professors)
- social services (high school psychology teacher, occupational analyst)
- substance abuse treatment clinics

Graduates may qualify for employment in behavioral health care delivery settings such as community agencies, hospitals and rehabilitation centers to support counselors and other mental health professionals, and they are prepared for a variety of positions, such as vocational rehabilitation assistant, human service worker and life-skills instructor. The Bureau of Labor Statistics shows a projected job growth of 25% (2019 to 2029) for substance abuse, behavioral disorder and mental health counselors --- much faster than average.

Graduates of this program are not license-eligible as professional counselors but are well prepared with an excellent foundation for entering graduate degree programs in disciplines such as counselor education, counseling psychology, clinical psychology, social work and family studies, counseling and related fields.

Counseling and Applied Psychological Science (Counseling Military Members and Veterans), BS (LSCAPSMVBS)

Campus: Polytechnic, Tempe, Online

Program Description: The BS program in counseling and applied psychology science focuses on the promotion of psychological well-being. Students learn basic counseling skills and techniques to complement a variety of social science and health majors, including psychology, public health, interdisciplinary studies, social work and the humanities.

The concentration in counseling military members and veterans provides students with foundational skills and knowledge that are critical in their work with veterans, military populations and military families. Students take interdisciplinary courses to better understand the U.S. military with a focus on the unique psychosocial experience of service members and the mental health needs of this population.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 119 - Finite Mathematics or MAT 170 Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/counseling-military-members-veterans/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSCAPSMVBS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: In order to make a positive impact in the lives of others, students must understand the diverse set of experiences, backgrounds and cultures that shape the people with whom they wish to work. When studying abroad, students gain firsthand experience of a wide range of cultures and communities. Global Education programs (<https://goglobal.asu.edu/>) provide students with a unique global perspective with which they can impact the world.

Career Opportunities: Graduates of this program will benefit from the demand for employees from federal agencies. The Department of Veterans Affairs workforce consists of nearly 400,000 civilians. Across all government agencies, nearly 4,000,000 government jobs are posted per month with well over 100,000 in Arizona alone; these postings in Arizona are expected to increase by nearly 6% over the next five years where employees earn an average salary of \$84,000 (EMSI, 2022).

Although graduate education and licensure are needed to engage in clinical practice across all states, the Bureau of Labor Statistics (2022) reported that those with a bachelor's degree in psychology (such as counseling and applied psychology science) are employed in a variety of occupations, including as human resource specialists, educators, social service providers and health and allied-health technicians --- all of which are projected to grow over the next decade and with a median wage of \$50,000. These areas are reflected in the current Department of Defense job postings, where they have over 7,600 vacancies in areas such as education, military community and family support, health and wellness, and mental health and social services. The Bureau of Labor Statistics shows the outlook for job growth (2019--2029) for substance abuse, behavioral disorder and mental health counselors is 25%, which is much faster than average.

Graduates with a degree in counseling and applied psychological science are prepared for careers in various settings:

- community centers
- government (sales and marketing specialist, human resources manager)
- mental health services (youth counselor, substance abuse counselor, behavioral health technician)

- rehabilitation centers (vocational rehabilitation assistant, human service worker, life-skills instructor)
- social services (high school psychology teacher, occupational analyst)
- schools and colleges (school psychologist, educator, professor)
- substance abuse treatment clinics

Graduates of this program are not license-eligible as professional counselors but are well prepared with an excellent foundation for entering graduate degree programs in disciplines such as counselor education, counseling psychology, clinical psychology, social work and family studies, counseling and related fields.

When studying abroad, students gain firsthand experience of a wide range of cultures and communities. Global Education programs (<https://goglobal.asu.edu/>) provide students with a unique global perspective that enables them to impact the world.

Career Opportunities: Graduates are able to assist licensed mental health counselors and psychologists in providing services that focus on mental health and optimal performance.

Such employment is found in a variety of settings, including community centers, the corporate world, educational institutions, independent consulting, social service agencies, and sports, and in behavioral health care delivery settings such as community agencies, hospitals and rehabilitation centers.

Career examples include:

- athletic coach
- behavioral health technician
- educator
- human services worker
- life skills instructor
- mental health professional
- mental performance coach or consultant for athletes, first responders and military personnel
- performance consultant for the arts, industry and the services sector
- trainer for human resources, sales and marketing, and career transition
- youth counselor

According to the U.S. Bureau of Labor Statistics, mental health counselor is one of the fastest growing occupations with 18% employment growth projected from 2022 to 2032.

Counseling and Applied Psychological Science (Substance Abuse and Addictions), BS (LSCAPSAABS)

Campus: Polytechnic, Online

Program Description: Counseling and applied psychological science is a specialty promoting psychological well-being.

The substance abuse and addictions concentration of the BS program in counseling and applied psychological science provides coursework in counseling skills and techniques as they relate to substance abuse and addictions. Students acquire the necessary skills in screening, assessing, diagnosing and planning treatment of patients afflicted with substance abuse, addictions and related disorders.

While this program does not make students license-eligible counselors, the coursework meets the requirements for the Licensed Substance Abuse Technician credential through the Arizona Board of Behavioral Health Examiners (<https://www.azbbhe.us/node/553>) (<https://www.azbbhe.us/node/553>)).

*Schulenberg, J. E., Patrick, M. E., Johnston, L. D., O'Malley, P. M., Bachman, J. G., and Miech, R. A. (2021). Monitoring the Future national survey results on drug use, 1975-2020: Volume II, College students and adults ages 19-60. Institute for Social Research, University of Michigan.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 119 - Finite Mathematics or MAT 170 Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/counseling-psychological-sciences/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSCAPSAABS~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: To make a positive impact in the lives of others, students must understand the diverse set of experiences, backgrounds and cultures that shape the people with whom they wish to work. Through Global Education programs (<https://goglobal.asu.edu/>), students gain firsthand understanding of a wide range of cultures and communities, and they acquire a unique global perspective, enabling them to impact the world.

Career Opportunities: The projected job growth for substance abuse and behavioral disorder counselors is estimated to increase by 23% between 2023 and 2033. A licensed substance abuse technician is at the entry level of serving clients who struggle with substance use and addictions. The LSAT assists substance abuse counselors in prevention and intervention efforts with individuals, groups and organizations. The LSAT credential prepares students for careers in substance abuse treatment clinics, community centers, social services and education settings under the supervision of licensed mental health professionals.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

English, BA (LSENGBA)

Campus: Polytechnic

Program Description: The BA program in English is focused on literature, writing, film and culture.

Courses address a wide variety of genres, traditions and time periods. Students engage in close reading and critical thinking as they work with powerful, multilayered texts. They build communication skills as they compose for multiple purposes and audiences. The program ends with a degree capstone that allows students to use their skills and knowledge in a personalized academic or creative project.

Students are encouraged to pursue internship opportunities such as working in online publishing with Superstition Review (<https://superstitionreview.asu.edu/>) or mentoring youth writers in Young Authors' Studio.

Students must complete a minimum of 12 upper-division credit hours of ENG courses offered by the College of Integrative Sciences and Arts.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics OR any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Liberal Studies, MLSt
- Organizational Leadership, MS
- Project Management, MPM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSENGBA~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: English students can explore the hometowns of famous authors and visit locations that have inspired masterpieces of both fiction and nonfiction. Study abroad programs (<https://goglobal.asu.edu/>) offer students the chance to build a global perspective and knowledge in unique environments as preparation for leadership in a future-focused career. Students earn ASU credit for completed courses, while staying on

track for graduation, and may apply financial aid and scholarships toward program costs.

The College of Integrative Sciences and Arts recommends these study abroad programs (<https://goglobal.asu.edu/students/major/english>) for students majoring in English.

Career Opportunities: The bachelor's degree program in English prepares scholars and teachers for graduate or professional study and for careers in education, writing and other related fields. Career prospects for secondary language-arts teachers in Arizona are particularly strong.

Additionally, students in the program develop skills that employers value, such as analyzing ideas and problems, finding and evaluating information, communicating effectively, and presenting clear and logical arguments. With these skills, graduates of the program can find jobs such as:

- advertising and promotions managers
- copy writers
- editors
- lawyers
- media and communication workers
- paralegals and legal assistants
- public relations specialists
- teachers and instructors
- technical writers
- writers and authors

General Studies, BA (LSGNSBGS)

Campus: Downtown Phoenix, Polytechnic, ASU at Lake Havasu

Program Description: The BA program in general studies offers students a flexible, innovative path to degree completion. Graduates of the program are informed and effective members of society who are well prepared for a changing global marketplace with its diverse cultures.

The themes of this degree are professional preparedness and integration of the needs of society and the individual. Students explore the tensions between individualism and collectivism, the public and private selves, service and community, domestic and global issues, and the interplay of culture and identity constructions.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, general studies students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Those who have majored in general studies have the option of working in almost any field that requires effective interaction with others, including sales, social services, organizational management and government administration. Graduates are equipped with transferable skills highly desired by many employers. The bachelor's degree creates great flexibility in career choice because of the versatility within the program.

Graduates are prepared for many occupations, including:

- administrative services manager
- curator
- medical and health service
- military and veteran's services
- property, real estate and community association managers
- public relations specialist
- purchasing manager
- real estate sales agent
- sales manager
- writer and author

History, BA (LSHISBA)

Campus: Polytechnic

Program Description: The BA program in history focuses on American history, with coursework in European, Latin American and global historical perspectives. Faculty expertise includes the history of technology and science, biography, war and its effect on society, public history, aviation, environmental history and related fields.

Students are trained in methods of historical research and study the development of human society from social, cultural and political perspectives. The capstone course and other research courses allow students to apply research and writing skills as practitioners of history and creators of analytical narratives.

Students must complete a minimum of 12 upper-division credit hours of HST courses offered by the College of Integrative Sciences and Arts.

Students who would like to combine this degree with teaching certification should contact the Mary Lou Fulton Teachers College.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Liberal Studies, MLSt
- Organizational Leadership, MS
- Project Management, MPM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. History (Veterans, Society and Service), BA (LSHISVSSBA)

Campus: Polytechnic

Program Description: Students in the veterans, society and service concentration of the BA program in history explore war, military service and veterans as a means to investigate how violence, conflict, military service and other trauma-bearing experiences have shaped political, social and cultural formations in the past and present.

Along with military history, students take courses that place veterans as their subject for critical interdisciplinary investigation, which focuses on exploring scholarship and other narratives about military service, war-making and social change (e.g., changes in territorial integrity, sovereignty, national belonging, citizenship, gender and race); the impact of armed conflict and military service on individuals, communities, culture, politics and governments; and how societies remember and think about these things.

The curriculum situates the veteran and military subject from a historical perspective, while examining and explaining veteran identities and cultures as a sequence of sociocultural events influenced by a multitude of factors. In addition, a robust variety of elective coursework provides a systematic examination of veterans and military institutions as they evolve over time.

This bachelor's degree in history with a concentration in veterans, society and service also provides students with critical thinking and analysis skills needed throughout their career. Students in the program develop skills in:

- analyzing and assessing ideas and problems
- communicating effectively orally and in prose
- finding and evaluating information
- presenting clear and logical arguments

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

Integrative Social Science, BS (LSISSBS)

Campus: Polytechnic

Program Description: The BS program in integrative social science uses cross-education to prepare students in the disciplines of the social sciences to meet the complex issues that confront today's society. Modern social problems require a combination of policies, sociological interventions and economic infrastructure planning.

Theories from multiple social science disciplines provide the basis for effective decision-making and problem-solving. The emphasis of the program is the integration of theories and methodologies. In order to sharpen their skills for practical problem-solving, students need to understand how different disciplines develop solutions.

Graduates of the program are prepared with theory and research skill sets that allow them to draw from the best of multiple disciplines in the social sciences as they confront a technically sophisticated world.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Integrative Social Science, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use

MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSISSBS~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students are able to enhance their understanding of societal structure and human interaction through unique cultural experiences found by studying abroad (<https://goglobal.asu.edu/>). They gain heightened cultural competency, communication and critical thinking skills while exploring a new and exciting part of the world.

Career Opportunities: Because of their mastery of the multiple methodologies of the social sciences, graduates of the program have many more professional opportunities available to them than their peers with single-discipline training.

Professionals with expertise in analyzing complex social and global issues are in high demand across sectors and industries, including business, public administration, politics and community organizations. Those who possess skills in the analysis of social phenomena and complex social problems are valuable to businesses and institutions relying on data-driven strategies for engagement and growth.

Career examples include:

- administrator
- government agent
- public relation specialist
- social and community service manager
- social science research analyst
- social scientist
- solutions resource specialist

Interdisciplinary Studies, BA (LSBISBIS)

Campus: Downtown Phoenix, Polytechnic, Tempe, Online

Program Description: Arizona State University's BA program in interdisciplinary studies, one of the top ranked in the country, offers students the freedom to select two areas of study, referred to as concentration areas, from a rich menu of almost 200 options (<https://cisa.asu.edu/ids/concentrations/all>).

The core curriculum provides students with the intellectual tools to integrate their concentration areas, engage in transdisciplinary problem-solving, and prepare for careers and graduate programs that increasingly cross disciplinary boundaries. An interdisciplinary studies student could choose to integrate concentrations like business and project management, psychology and social welfare, communication and justice studies, public administration and ethics, digital culture and computer gaming, or many other distinct combinations.

Interdisciplinary studies is an approach to answering questions, solving problems and addressing contemporary social issues from multiple perspectives. Interdisciplinary studies students take an active role in designing their educational plans and defining their career goals. The degree program emphasizes written communication, versatility, self-assessment and critical thinking --- essential skills for today's dynamic world.

Those interested in the online program for interdisciplinary studies may visit the ASU Online website for more information.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Liberal Studies, MLSt
- Organizational Leadership, MS
- Project Management, MPM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: There are no additional requirements for current ASU students to change majors into this program; however, students interested in the interdisciplinary studies major are highly encouraged to meet with an advisor. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-interdisciplinary-studies/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSBISBIS~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Studying and interning abroad can be one of the most valuable tools for interdisciplinary studies students. Study abroad programs (<https://goglobal.asu.edu/>) provide students the opportunity to develop a valuable intercultural communication skill set that can give them an advantage in a future-focused workforce.

The College of Integrative Sciences and Arts recommends these study abroad programs (<https://goglobal.asu.edu/students/major/interdisciplinary-studies>) for students majoring in interdisciplinary studies.

Career Opportunities: The flexibility of the interdisciplinary studies program allows graduates to take many exciting career paths after leaving ASU. While some complete graduate or professional degrees, others immediately enter the job market. For example, one graduate combined business and communication and now owns a small business; another integrated sociology and family studies to further a career in law

enforcement; another studied philosophy and economics to prepare for law school; another combined biology and chemistry in preparation to pursue a master of pharmacy degree; and yet another studied Spanish and religious studies and now works as an employee trainer for a major company.

Possible career opportunities include:

- archivist or curator
- climate change analyst
- compliance manager
- computer network support specialist
- editor or web developer
- environmental restoration planner
- general and operations manager
- regulatory affairs manager
- higher education professional
- wholesale and retail buyer (except farm products)

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Interdisciplinary Studies (Organizational Studies), BA (LSORGBIS)

Campus: Online

Program Description: Interdisciplinary studies is an approach to answering questions, solving problems and addressing contemporary social issues from multiple perspectives. Interdisciplinary students develop the intellectual tools needed to make connections between academic disciplines and apply their skills, ideas and knowledge in various academic and practical settings.

The BA program in interdisciplinary studies with a concentration in organizational studies is intended for students who desire to learn about the dynamics of contemporary organizations from an interdisciplinary approach.

All coursework for organizational studies is offered online, which gives students freedom and flexibility in completing their requirements.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Liberal Studies, MLSt
Organizational Leadership, MS
Project Management, MPM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-interdisciplinary-studies-organizational-studies/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSORGBIS~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Studying and interning abroad can be one of the most valuable options available for interdisciplinary studies students. Global Education programs (<https://goglobal.asu.edu/>) provide students in the organizational studies concentration with the opportunity to develop a valuable intercultural communication skill set that can give them an advantage in a future-focused workforce.

The College of Integrative Sciences and Arts recommends these programs (<https://goglobal.asu.edu/students/major/interdisciplinary-studies>) for students majoring in interdisciplinary studies.

Career Opportunities: By engaging in a breadth of knowledge and experience, and by acquiring the skills to integrate various domains of knowledge, students prepare themselves for a range of professions, including:

- human resources specialists
- industrial organizational psychologists
- investment fund managers
- loss prevention managers
- management analysts
- regulatory affairs managers
- supply chain managers
- urban and regional planners

Many students majoring in interdisciplinary studies with a concentration in organizational studies already have a chosen career field yet desire a degree that is versatile, flexible, meaningful and useful for continued career development and advancement. Because of the flexibility of the program, graduates take many different career paths after finishing their degree. Recent graduates have found opportunities in many exciting fields, such as:

- business
- education
- health care administration
- nonprofit administration
- tourism

Liberal Studies, BA (LABLSBLS)

Campus: Polytechnic, Online

Program Description: For students whose interests are too big for any one major, or degree-completion students looking for the best way to finish a bachelor's degree with earned credits, the BA program in liberal studies opens up the academic world for exploration.

The liberal studies major offers a course of study emphasizing the humanities and social sciences and gives students great flexibility in constructing their own educational path. Courses engage students in diverse ideas and perspectives, and students develop habits of mind beneficial in all areas of life. A liberal studies degree prepares students to meet the challenges of a complex world. It offers a path that enables students to prepare for a career or to change careers, to increase self-understanding, and to develop thoughtful engagement with other people and diverse cultures.

Liberal studies are the oldest form of higher education in the Western tradition, with roots going back to ancient Greece. It was realized early on that democracy depends on a population of educated people who can make and follow arguments, who can communicate clearly in a public forum, and who can learn how to learn about the important subjects affecting people's lives.

A liberal education is not the same thing as being politically liberal in the modern sense; throughout history, people from all political perspectives have made significant contributions to and drawn from the knowledge and skills that define a liberal education.

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, liberal studies students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

The College of Integrative Sciences and Arts recommends these programs (<https://goglobal.asu.edu/students/major/liberal-studies>) for students majoring in liberal studies.

Career Opportunities: Liberal studies graduates are prepared to enter the workforce or pursue graduate or professional studies. Graduates are prepared for a variety of careers, including:

- creative writer
- grant writer
- higher education professional
- public relations personnel
- research analyst
- training specialist

Some career options may require additional training or schooling.

Military Studies, AA (LSMILSTAA)

Campus: Online

Program Description: The AA in military studies is designed for a partnership with the U.S. Naval Community College to provide training to enlisted personnel sailors, marines and coast guards. The degree is a rigorous program that provides a comprehensive foundation of study in the history of war and warfare, the history of regions identified in the National Defense Strategy, the U.S. foreign policymaking process, international relations theories, and U.S. political and military systems. The interdisciplinary curriculum helps students gain the tools to use historical analysis, demonstrate critical thinking, and develop strong written and verbal communication skills. The program includes capstone research or an applied project in which students explore the role of the U.S. Navy in advancing the goals of the nation in the past, present or future.

Additional Program Fee: N

Organizational Leadership, AA (LSORGLAA)

Campus: Online

Program Description: This AA program is designed to provide leadership training to active duty Navy, Marine Corps and Coast Guard enlisted personnel. This program uses transdisciplinary methods to prepare students to build a leadership foundation. Students learn skills applicable to any

work environment, regardless of assigned role, in organizations across all sectors: private, nonprofit, government and military. Students develop the skills leaders need to solve problems, communicate effectively, assess programs, manage resources and evaluate emerging technologies.

Students who complete the program can continue in an established transfer path to the BA program in organizational leadership and other ASU degree programs. The flexible Associate of Arts degree allows students to complete general education coursework and concentrated coursework in a second disciplinary field to prepare for leadership in a specific industry or sector.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Organizational Leadership, BA (LSORGLBA)

Campus: Polytechnic, ASU at Cochise, ASU at Lake Havasu, ASU at Pima, ASU at Pinal, ASU at The Gila Valley, ASU at Yuma, ASU at Yavapai, Online

Program Description: The BA program in organizational leadership prepares students for executive roles in a variety of environments. Students develop the skills and knowledge that leaders need in order to solve problems, communicate effectively, assess programs, manage resources, and use emerging technologies in organizations.

Students who complete the program at ASU at Lake Havasu choose from three focus areas: organizational behavior, organizational leadership and project management.

Students interested in completing the program in Gila Valley, Pinal County, Cochise County, Pima County, Yavapai County or Yuma are encouraged to complete a MyPath2ASU® program. Students should see admission requirements below.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Liberal Studies, MLSt
- Organizational Leadership, MS
- Project Management, MPM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSORGLVSBA-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: The organizational leadership program uses transdisciplinary methods that prepare students to become world-class leaders in the contemporary and fast-paced global workplace. Through study abroad experiences (<https://goglobal.asu.edu/>), students develop the skills and knowledge that leaders need to solve problems, communicate effectively, assess programs, manage resources and use emerging technologies in their organizations.

Career Opportunities: Graduates possess skills and knowledge needed for organizational leadership and veteran service positions in a wide range of organizations, such as business, government, nonprofit agencies and the service industry.

Career examples also include positions as community health workers; social and community service managers; managers in veteran disaster

preparedness and recovery organizations; and national, state and municipal leaders.

Political Science, BS (LSPOLBS)

Campus: Polytechnic

Program Description: The BS program in political science emphasizes broad capabilities valued in a highly skilled workforce, such as data analysis and effective communication as they apply to governance, policy and political theory, as well as the ability to critically review and analyze policy.

The curriculum allows students to develop research skills and explore how political science concepts can be applied within government and society. Students also enjoy individual and group opportunities to work with experienced faculty on concrete intellectual and policy issues.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Integrative Social Science, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSPOLBS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Studying abroad while earning a political science degree adds a global component to students' education, increasing their ability to analyze complex sociopolitical issues and affording them skills and knowledge that prepare them to lead in their chosen career.

Students earn ASU credit for completed courses while staying on track for graduation, and they may apply financial aid and scholarships toward program costs. More information is available on the Global Education website (<https://goglobal.asu.edu/>).

Career Opportunities: The program serves as good preparation for staff, manager or policy analyst positions in local, state and federal government. This degree is recognized by employers as qualification for many careers in business (for-profit and nonprofit) and industry. Opportunities may include positions that involve binational, cross-border positions linking U.S. and Mexican businesses, Arizona-Sonora local government or local community groups on both sides of the border.

Many students use the degree as a gateway to law school or as a basis for further study in such applied fields as:

- community development
- political science
- public administration
- public policy
- social science
- urban affairs
- urban and regional planning

Project Management, BS (LSPMGBS)

Campus: Polytechnic, Tempe, Online

Program Description: The curriculum of the BS program in project management is grounded in the latest project management theories and practices. The program provides opportunities for students to apply these practices in professional situations through simulations and other forms of career-connected learning. Students learn the foundations of project leadership and how to manage project costs, schedules, resources, risks and people.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/project-management-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree

programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSPMGBS~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Studying and interning abroad can be one of the most valuable tools for project management students. Global education programs (<https://goglobal.asu.edu/>) provide students the opportunity to develop a valuable intercultural communication skill set and project management aptitude that can give them an advantage in the workforce.

Career Opportunities: Graduates possess the skills and knowledge needed for project management positions in a wide range of organizations, including business, government, nonprofit agencies and the service industry. Project managers can be housed within many specific industries, such as health care, information technology and construction management.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

The Project Management Institute has two options for certification:

- The Certified Associate Project Manager credential requires 23 hours of project management education and a secondary degree (high school diploma, associate degree or the global equivalent) for students to test.
- The Project Management Professional credential requires either a 4-year degree and 36 months of experience leading projects within the last eight years or a secondary education diploma (high school diploma, associate degree or the global equivalent) with 60 months of experience leading projects within the past eight years. In addition, students must have 35 hours of project management training to sit for the PMP designation test.

Psychology, BA (LSPGSBA)

Campus: Polytechnic

Program Description: Psychology is the scientific study of mind and behavior.

The BA program in psychology emphasizes critical thinking, empirical research methods and writing, and adds practical experience through internships, service-learning and faculty-supervised research. The Bachelor of Arts program provides a broad foundation in psychology and affords students the flexibility to choose from a variety of courses outside the major.

Students have the opportunity to participate in faculty-led research labs on a wide range of topics, including:

- PLENA Research Lab. <https://www.plenaresearch.org/> (<https://www.plenaresearch.org/>)
- Couples Coping with Stress Lab. <https://ashleykrandall.wixsite.com/asucouplescoping> (<https://ashleykrandall.wixsite.com/asucouplescoping>)
- Tran Ethnic and Minority Psychology and Experiences (TEMPE) Lab. <https://sites.google.com/site/tempelab/about> (<https://sites.google.com/site/tempelab/about>)

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 119 - Finite Mathematics or MAT 170 Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap

in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSPGSBA~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Study abroad students are exposed to unique differences in the human condition worldwide, are able to improve language and cross-cultural skills for effective communication, and are challenged to adapt under new social and cultural circumstances. Participating in one of the more than 300 Global Education programs (<https://goglobal.asu.edu/>) provides an opportunity for students to develop a valuable skill set that can give them an advantage in their career and provide personal enrichment. Whether in a foreign country, in the U.S. or online, Global Education programs encourage students to build communication skills, challenge them to adapt and persevere, expose them to differences across the world and increase their ability to work with diverse groups of people.

The College of Integrative Sciences and Arts recommends these programs (<https://goglobal.asu.edu/psychology>) for students majoring in psychology.

Career Opportunities: The Bureau of Labor Statistics shows that projected job growth (2022 to 2032) for psychologists is 6%, which is faster than average.

A degree in psychology prepares students for a career in a variety of settings:

- consulting firms
- government (sales and marketing, human resources, research, administration, management)
- hospitals
- industries and organizations
- mental health agencies
- social services (high school psychology teacher, occupational analyst)

The degree also provides an excellent foundation for graduate study in fields such as public administration, law, family studies, communication and the various graduate program fields in psychology:

- clinical and counseling
- cognitive neuroscience
- developmental
- environmental
- health
- physiological
- social

Science, Technology and Society, BS (ECSTSBS)

Campus: Polytechnic

Program Description: The BS program in science, technology and society considers the impacts of science and technology on global and social issues. Information and communication technologies have changed the world in ways no one could have imagined 50 years ago. Everything --- from the way humans are born to how they die --- is driven by rapidly changing technologies. As these changes occur, it is important for organization managers and policymakers to understand the implications and respond accordingly.

The questions concerning how science and technology change society are highly transdisciplinary and cultural. Students learn to understand the intricate interrelationships of science, technology and society and become prepared with technical skills and knowledge to promote change. This extremely flexible program encourages students to focus on social problems with current and engaging topics such as:

- health and economic disparities
- housing and food insecurities
- identity politics
- social change
- social and political unrest
- technological divide

Problems of the world are complex and multidisciplinary and require a multifaceted approach. Addressing modern social problems often requires a combination of policies, sociological interventions and economic infrastructure planning. Theories from social science disciplines provide the basis for effective decision-making and problem-solving. Graduates of the program are prepared with theory and research skill sets that allow them to draw from the best of the multiple disciplines in the social sciences as they confront a technically sophisticated world.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics OR any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Technical Communication, BS (LSTECBS)

Campus: Polytechnic, Online

Program Description: Technical communication is applied workplace communication that makes technical or specialized information understandable and available to many different users. It involves using a range of technologies to craft an ever-expanding array of print and digital information products: websites, social media sites, help files, training materials, grants and proposals, and data visualizations, to name just a few.

Technical communicators work in many professional roles, such as information developers, grant writers, web interface designers or user experience specialists. What all of these roles have in common is the focus on creating accessible and appealing communication that has a practical purpose and is intended for a particular audience.

Students in the technical communication program learn how to analyze, write, design, produce and manage print and digital information using traditional and developing technologies.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-technical-communication/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSTECBS-null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students who learn technical communication while studying abroad will have an advantage in many workplaces. Having a global view of applied workplace communication, they become well-rounded communicators, able to use various print and digital information products to relate technical and specialized information. Through participation in one of the more than 300 available Global Education programs (<https://goglobal.asu.edu/>), students expand their scope of learning beyond the classroom and gain hands-on experience in different and exciting cultures.

Many of the School of Applied Professional Studies programs (<https://cisa.asu.edu/study-abroad>) allow students to earn credit toward their major for their experiences studying abroad.

Career Opportunities: The Bureau of Labor Statistics estimates that job growth in technical writing will grow higher than average during the next 10 years, at a rate of 7%. Software and electronics companies, media corporations, financial institutions, government agencies, nonprofits and other areas will see an increased demand for writers.

Students in the program prepare for careers such as:

- communication manager
- content strategist
- data visualization specialist
- engineering support specialist
- information architect
- new media or social media specialist
- public relations specialist
- technical writer
- user experience specialist
- web content creator

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Technical Communication (Data Visualization), BS (LSTECDVBS)

Campus: Polytechnic, Online

Program Description: The data visualization concentration in the BS program in technical communication prepares students for the innovative work of collecting, processing and visualizing data in clear, accurate and dynamic ways to a range of audiences.

Students learn how to structure, model, clean and correlate data. They learn myriad types of data visualizations, as well as how to develop and refine visualizations using a range of software, read and develop analytics dashboards, and communicate data-driven recommendations and findings. Students gain experience visualizing proportions, patterns over time, complex relationships and spatial data through graphics. They also learn about data visualization ethics, including how to spot misleading graphs and how to ensure the production of responsible and accurate visualizations.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/technical-communication-data-visualization-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree

programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Studying abroad while learning about data visualization in the world of technical communication gives students an advantage in many workplaces. Understanding the global view of applied workplace communication, students become well-rounded communicators, able to utilize various print and digital information products to relate technical and specialized information. When they participate in one of the more than 300 available Global Education programs (<https://goglobal.asu.edu/>), students expand their scope of learning beyond the classroom and gain hands-on experience in different and exciting cultures.

Many of the School of Applied Professional Studies programs (<https://cisa.asu.edu/study-abroad>) allow students to earn credit toward their major for their experiences studying abroad.

Career Opportunities: The field of data visualization continues to grow at a rapid pace. According to Market Watch, the global data visualization industry was valued at \$8.8 billion dollars in 2019, and is expected to reach \$19.2 billion by 2027. Forty three percent of the market share is held in North America. Students in the program prepare for careers such as:

- communication manager
- computer and information systems manager
- data specialist or analyst
- data visualization developer
- digital designer
- big data engineer
- information architect
- market research analyst

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. Technical Communication (Social Media Management), BS (LSTECMMBS)

Campus: Polytechnic, Online

Program Description: Technical communication entails communicating with, about and on technology. Social media is a rapidly developing aspect of the technology landscape. This social media management concentration in the BA program in technical communication focuses on the management, history, theory, culture, practice and ethics of social media.

While the technical communication major gives students a wide look at how professional technical communicators do many types of work inside and outside organizations, this concentration hones in on social media creation as a specific type of technical communication work. Students learn the practical aspects of social media creation alongside the history, legal concepts, ethical ideas and current concerns that shape and inform that practice. Students also learn about existing and emerging social media in ways that allow them to adapt and thrive in the constantly changing social media environment.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/technical-communication-social-media-management/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSTECMMBS~null + &college=CLS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Those who study abroad while learning technical communication will have an advantage in many workplaces. Understanding the global view of applied workplace communication, students become well-rounded communicators, able to use various print and digital information products to relate technical and specialized information. Students may participate in one of the more than 300 available Global Education programs (<https://goglobal.asu.edu/>), expanding their scope of learning beyond the classroom and gaining hands-on experience in different and exciting cultures.

Many of the School of Applied Professional Studies programs (<https://cisa.asu.edu/study-abroad>) allow students to earn credit toward their major for their experiences studying abroad.

Career Opportunities: The Bureau of Labor Statistics estimates that job growth in technical communication and related areas will continue to be significantly higher than average during the next five years. Software and electronics companies, media corporations, financial institutions, government agencies, nonprofits and other areas will see an increased demand for technical communicators.

Graduates of the program are prepared for careers such as:

- communication manager
- content strategist
- data visualization specialist
- public relations specialist
- social media manager
- social media specialist
- technical writer
- user experience specialist
- web content creator

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Technical Communication (User Experience), BS (LSTECUBS)

Campus: Polytechnic, Online

Program Description: The user experience concentration of the BS degree in technical communication provides technical communication majors with an interdisciplinary foundation in communication, research and design that is central to the rapidly growing area of user experience.

The program provides students with a conceptual understanding of and applied skills in methods of gathering user information, analyzing data and communicating research findings to stakeholders. Although its disciplinary home and primary focus is technical communication, the concentration includes courses from human systems engineering and graphic information technology to provide students with the multiple perspectives and complementary skills needed for user experience work.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

User Experience, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/technical-communication-user-experience-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LSTECUBS-null + &college=CLS>) to outline a list of

recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students who have studied abroad while learning technical communication have an advantage in many workplaces. Understanding the global view of applied workplace communication, students become well-rounded communicators, able to use various print and digital information products to relate technical and specialized information. Students also gain an understanding of who users may be and of cultural differences that may affect user needs. They may participate in one of the more than 300 available Global Education programs (<https://goglobal.asu.edu/>), and students expand their scope of learning beyond the classroom and gain hands-on experience in different and exciting cultures.

Many of the School of Applied Professional Studies programs (<https://cisa.asu.edu/study-abroad>) allow students to earn credit toward their major for their experiences studying abroad.

Career Opportunities: Technical communicators with expertise in user experience have numerous career opportunities in growth areas such as user experience research, user-centered design, information design, interaction design, information architecture, content strategy and usability analysis.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

User Experience, BS (LSUSEXBS)

Campus: Polytechnic, Online

Program Description: The BS program in user experience addresses a user's interaction with a company or organization, including its products and services. The UX elements of psychology, research, design and communication determine user needs and wants when using a product. Research drives design; design drives content; and content drives communication. All result in a user experience.

Students in this program learn the UX research, design, content development, communication and tone of voice elements and skills needed to successfully evaluate all components and products with which end users interact. This includes hardware and software user interfaces, informational products, help systems, user support, identification of user needs, tasks, procedures, capabilities and limitations of using technology and interacting with print, digital and aural information.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Interdisciplinary Arts and Sciences, New College of

Aging, BS (ASALDBS)

Campus: West

Program Description: The world's population is rapidly aging, and older adults now compose the largest-ever demographic segment. While longer life spans are an enormous gain for human welfare, this rapid shift presents tremendous challenges, including health care costs, labor-force shortages and long-term care demands.

The BS program in aging offers students the opportunity to develop skills in identifying challenges and developing solutions that are critical to managing these profound demographic trends. Completing courses such as Communication and Aging, Aging and the Life Course, and Supporting the Health of Older Adults gives students the skills and mindset to contribute solutions as the proportion of retired adults increases faster than that of persons in the workforce. Completion of the degree includes a culminating experience, such as a capstone project or internship experience for learning opportunities beyond the classroom.

This program prepares students to be leaders in this burgeoning field. Students learn to develop solutions in areas of personal finance, transportation, increased demands for health care, assisted-living options and recreation needs for an aging population.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASALDBS-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, students in the aging program are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Career opportunities for graduates of the degree program in aging include advising organizations to better serve older adults, researching service delivery modalities, developing policies for public and private organizations, and providing services directly to older populations. Employment in associated career fields is expected to increase commensurately with the needs of a growing and diverse population. People working with aging populations are employed in public and private agencies that deal with a wide variety of social issues, including:

- access to primary and specialized health care
- assisted-living facility management

- disabilities
- discrimination
- elder abuse and family support
- health, mental health and end-of-life decisions
- housing
- recreational opportunities
- transportation

Applied Computing, BS (ASACOBS)

Campus: West

Program Description: Students in the BS program in applied computing learn a computer science foundation and then explore the established knowledge and emerging developments in the high-demand areas of database systems, computer networks and cybersecurity. The program also provides the opportunity to investigate interdisciplinary connections, including the combination of computing with its practical application in other disciplines, through concurrent degrees and minors.

Hands-on class projects, internships, industry partnerships, and authentic and impactful research conducted with faculty provide numerous opportunities for students to apply their knowledge before they graduate. Students use their programming expertise, systems knowledge and critical thinking skills to effectively problem-solve and articulate their experience through presentations, scientific posters and professional papers.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 251 Calculus for Life Sciences

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Biological Data Science, MS
- Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.
 2024-25 Academic Catalog Archive

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASACOBBS~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students learn to thrive in a global environment through the rich educational and interpersonal experiences inherent in study abroad. A resume enhanced by the valuable study abroad experience will impress prospective employers and help the student stand out should they decide to pursue advanced study.

With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates are prepared to integrate technology with human activities, respond to global changes, solve problems, and create and manage the technological production of information and creative products.

Core information technology industries are among the fastest growing sectors in the U.S. economy. Graduates find employment opportunities with corporations and businesses, nonprofit and government agencies, and digital arts media industries, and in the academic world.

With a depth of knowledge and experience in information technology best practices, graduates have a strong foundation in systems with established interconnections among these fields, which prepares them for graduate study and careers that include cybersecurity analysts, database architects and network engineers.

Applied Computing (Cybersecurity), BS (ASACOCBS)

Campus: West

Program Description: The innovative cybersecurity concentration builds upon the BS degree program in applied computing.

Students acquire the technical knowledge of how to secure networks and applications; an understanding of cybersecurity governance models and risk management fundamentals; methods of communicating complex risk issues; and solutions for the challenges of implementing cybersecurity controls within various organizational models. Leadership, critical thinking and effective communication are also emphasized.

Students gain experience with authentic cybersecurity organizations, protecting digital assets against compromise or theft.

The cybersecurity concentration prepares students for a continuing and progressive career in cybersecurity.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students gain valuable experience when studying abroad, experience which enhances their resumes. With more than 300 programs available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their experience to their unique interests and skill sets. Students focusing on cybersecurity are able to gain hands-on experience in programs in a variety of countries around the world. In a competitive field, graduates stand out with the heightened cultural competency, leadership and critical thinking skills they acquired when studying abroad.

Career Opportunities: This is an ideal degree for students interested in careers in cybersecurity. Opportunities are available both in the private sector and within governmental agencies (e.g., the FBI, U.S. Department of Homeland Security, the National Security Agency and the Department of Defense).

Graduates of the applied computing program with a concentration in cybersecurity are well prepared for graduate study as well as entry-level employment with businesses, nonprofits, government agencies and academic institutions. Cybersecurity-focused positions include:

- chief information security officer
- cyber risk analyst
- information security engineer
- network security engineer
- security operations center analyst

Applied Science, BAS (ASBASBAS)

Campus: West

Program Description: The BAS program in applied science is for students who have already earned a community college AAS degree. The program allows students to apply the technical knowledge they gained from their associate degree, significantly broaden their education through completion of a concentration of their design, and expand on their previous coursework or create a new concentration in a different area of study.

This program includes a distinct, personalized area of concentration tailored to the student's specific interests and career goals. The possibilities include applied computing, applied ethics, biology, biomedical research, business, conflict resolution, communication, creative writing, cybersecurity, English, environmental science, film and video studies, forensic psychology, forensic science, interdisciplinary arts and performance, risk communication, peace studies, political science, psychology, Spanish and statistics.

The program also includes a culminating project, which can be a capstone or internship experience.

Students who have earned an Associate of Applied Science degree from a regionally accredited Arizona community college may be eligible to transfer up to 75 credits toward the Bachelor of Applied Science degree. Students who have earned an Associate of Applied Science from an accredited institution may transfer 60 credit hours toward the Bachelor of Applied Science degree.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Communication Studies, MA
- English, MA
- Interdisciplinary Studies, MA
- Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students applying to this program must have completed an AAS degree. This program is not available to first-year students.

Change of Major Requirements: A current ASU student must hold an Associate of Applied Science degree in order to change the major to this program.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASBASBAS-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, applied science students are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Because the program allows students to tailor their concentration, graduates are prepared for a wide range of career opportunities as well as graduate programs in fields such as law, business, social sciences and education.

Biology, BA (ASLSCBA)

Campus: West

Program Description: The BA program in biology with an emphasis in the natural sciences examines the interdisciplinary nature of the life and physical sciences, focusing on the ways in which these disciplines intersect. The program's organization and flexibility allows students to simultaneously study another subject outside their major. Students are encouraged to add a minor or concurrent degree in another subject area.

Students gain hands-on experience as they work both in small groups and one-on-one with individual faculty members. Students may participate in pioneering scientific research by assisting in faculty research laboratories and even publish in top journals and present their results at regional and national scientific meetings.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website.

The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus

master's degree with::

Biological Data Science, MS
Communication Studies, MA
Social Data Science, MA
Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASLSCBA-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: In a competitive field, distinct experiences and community engagement help students stand out. With opportunities to intern, research and learn internationally, study abroad provides cultural immersion that can challenge students and enable them to improve their language skills.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their specific interests and skill sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

Career Opportunities: Graduates are prepared for entry-level jobs in research, nonprofit, education and outreach organizations and for other roles in the life sciences.

Graduates have a wide variety of options, including pursuing graduate studies or seeking careers in areas that include:

- environmental management and conservation
- health professions
- laboratory research
- primary and secondary school teaching
- science advisement to businesses and government
- science writing

Biology, BS (ASLSCBS)

Campus: West, ASU at Lake Havasu

Program Description: The BS program in biology with an emphasis in the natural sciences examines these disciplines through experiential learning. By learning in an integrative environment that emphasizes the connectedness of the life sciences, students gain a better understanding of larger scientific concepts from multiple perspectives.

All the program's core courses include laboratories.

Students are encouraged to conduct independent research under the mentorship of faculty members or during internships. Some even publish in top journals and present their results at scientific meetings.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website.

The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASLSCBS-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students studying biology have a wide range of opportunities they can pursue. With more than 300 programs available, study abroad allows students to tailor their educational experience to their specific interests and skill sets. Students can expand their knowledge of how science impacts society through a variety of cultures and can develop global skills and knowledge to prepare them to lead in their career.

More information can be found on the Global Education Office (<https://goglobal.asu.edu/>) website.

Career Opportunities: This program prepares graduates for a wide range of careers by offering course and laboratory work and quantitative research opportunities that develop fundamental problem-solving, critical thinking, writing and communication skills. Graduates may enter careers in:

- business
- laboratory or field research
- medicine
- publishing
- scientific journalism
- teaching

Undergraduate laboratory experience, both on and off campus, enhances employability as a laboratory technician or research associate in university and government research laboratories; in hospital and diagnostic laboratories; and in pharmaceutical, biotechnology, agricultural and food processing companies.

Students engaged in field studies are prepared for entry-level positions in private companies and state and federal agencies, such as wildlife biologist, environmental consultant or conservation officer. They are also prepared for graduate or doctoral programs in human or veterinary medicine, pharmacy, dentistry or scientific research.

Biology (Environmental Justice), BA (ASLSCEJBA)

Campus: West

Program Description: The BA program in biology with a concentration in environmental justice examines the interdisciplinary nature of the life and physical sciences, social sciences and moral theories as they are applied to environmental systems and health. Students in this program focus on the ways in which these disciplines intersect.

Students gain a foundation in the key principles of biology, including cell theory, ecosystem dynamics and energy exchange, and genetics. The program's organization and flexibility allows students to simultaneously study another subject outside their major.

Students gain hands-on experience with advocacy for marginalized communities that often experience disproportionate impacts from inequitable environmental policies. They work both in small groups and one-on-one with individual faculty members to practice communication and advocacy skills. Students may participate in advanced scientific research by assisting in faculty research laboratories and even publish in top journals and present their results at regional and national scientific meetings.

Biology (Environmental Justice), BS (ASLSCEJBS)

Campus: West

Program Description: The BS program in biology with a concentration in environmental justice examines living systems through experiential learning and scientific inquiry. By learning in an integrative environment that emphasizes the connectedness of the life sciences and social sciences through the lens of justice and equity, students gain a better understanding of larger scientific concepts and how science can be applied to social policies to effect positive outcomes for communities and ecosystems.

All the program's core courses include laboratories to provide students with ample practice in science inquiry, including the development of scientific questions, designing experiments and collecting data, and data analysis.

Students are encouraged to conduct independent research under the mentorship of faculty members or during internships. Some even publish in top journals and present their results at scientific meetings. Students in this concentration will apply their research to social policies to improve outcomes for marginalized communities and natural ecosystems.

Biology (Pharmacology/Toxicology), BS (ASLSCPBS)

Campus: West

Program Description: The pharmacology and toxicology concentration of the BS program in biology provides an emphasis in the biochemical, molecular and physiological components of chemical and body interactions.

The degree program emphasizes experiential learning, and all required core courses have laboratories. By learning in an integrative environment that emphasizes the connectedness of the disciplines, students gain a better understanding of larger scientific concepts, and they can view these concepts from multiple perspectives. To have a thorough understanding of the interactions of chemicals in the biological system, students study both biology and chemistry and become familiar with chemical interactions at physiological, molecular and cellular levels.

Undergraduates have the opportunity to conduct independent research under the mentorship of faculty members or in internships outside the school.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students gain valuable, resume-building experience by studying abroad. With more than 300 programs available, study abroad (<https://goglobal.asu.edu/>) allows students to tailor their educational experience to their unique interests and skill sets. Students pursuing the pharmacology and toxicology concentration can expand their knowledge of how science impacts society in a variety of cultures and gain the global skills they need in order to lead in their career.

Career Opportunities: Graduates are prepared for occupations such as:

- laboratory researcher
- pharmacist
- physician
- physician assistant
- risk assessor
- veterinarian

They may work in governmental agencies or private companies in areas such as:

- clinical trials
- product safety evaluation
- regulatory affairs
- teaching

Graduates are also prepared for entry-level employment in the growing field of environmental toxicology as well as for graduate and professional

programs in pharmacology and toxicology.

Biotechnology and Bioenterprise, BS (ASBITEBS)

Campus: West

Program Description: The BS program in biotechnology and bioenterprise provides students with essential transdisciplinary and practical experience in biotechnology research. Students acquire the associated business and entrepreneurship skills needed for developing and marketing biotechnological innovations and solutions to problems that face the biotechnology and health sciences communities in Arizona, the nation and beyond.

The program emphasizes coursework in the biological, biomolecular and biotechnological sciences, which are key components that underpin biotechnology. Students may tailor the degree to their specific interests and aspirations through focus areas in biotechnology, bioentrepreneurship and biostatistics.

The program is distinct due to its focus on blending biotechnology and entrepreneurship.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.
2024-25 Academic Catalog Archive

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASBITEBS~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: When studying abroad (<https://goglobal.asu.edu/>), students gain valuable experience in diverse settings. Students deepen their understanding of biotechnology and bioenterprise by enhancing their knowledge of research methods across the globe and through exposure to global startups and how countries approach entrepreneurship. Those who study abroad gain heightened skills in communication, critical thinking and leadership that enhance their resumes and give them a competitive edge in their chosen career field.

Career Opportunities: Graduates of this program are prepared for such careers as:

- bioentrepreneur
- cell biologist
- clinical trials manager
- educator
- laboratory researcher
- microbiologist
- patent agent
- portfolio manager
- project manager
- regulatory affairs manager

Communication, BA (ASCOMMBA)

Campus: West, ASU at Lake Havasu

Program Description: The BA program in communication is a dynamic degree program, and students are able to tailor it to their personal and career goals.

Working closely with award-winning faculty, students gain experience connecting people in local and global spheres to build strong communities by exploring intercultural, relational and professional communication. Students learn to communicate creatively by studying media, culture and narrative to influence and inspire various audiences. Students also learn to advocate for themselves and others by researching ethics, social issues and persuasion to promote positive change.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Communication Studies, MA
English, MA
Global Management, MGM
Interdisciplinary Studies, MA
Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASCOMMBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Communication students gain intercultural experience through tailored study abroad programs. Students improve language and cross-cultural skills for effective communication, develop critical teamwork and problem-solving skills, and expand their knowledge of the liberal arts through lenses of different cultures.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their specific interests and skill sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

Career Opportunities: Graduates of the Bachelor of Arts program in communication are prepared for careers in social media and technology, global communication, public relations and strategic communications, risk and crisis communication, communication training and mentoring, sport communication and communication philosophy. Graduates pursue careers in a variety of communication-driven fields such as digital content creation, law practice, sales and marketing, customer experience management and nonprofit advocacy. Because communication skills are crucial to many professions, graduates work in a variety of fields, including:

- customer service and customer relations
- health and human services
- human resources
- lobbying
- management
- marketing
- media and public relations
- mediation
- social media design and implementation
- training and development

Communication, BS (ASCOMMBS)

Campus: West, ASU at Lake Havasu

Program Description: The BS program in communication is a dynamic degree program. Students are able to tailor this flexible program to their personal and career goals.

Working closely with award-winning faculty, students gain experience connecting people in local and global spheres to build strong communities by exploring intercultural, relational and professional communication. Students learn to communicate creatively by studying media, culture and narrative to influence and inspire various audiences. Students also learn to advocate for themselves and others by researching ethics, social issues and persuasion to promote positive change.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Communication Studies, MA

English, MA

Interdisciplinary Studies, MA

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASCOMMBS~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Communication students gain intercultural experience through tailored study abroad programs. Students improve language and cross-cultural skills for effective communication, develop critical teamwork and problem-solving skills, and expand their knowledge of the liberal arts through lenses of different cultures.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

Career Opportunities: Graduates have been trained in effective communication skills; are able to speak and write well; can convey complex ideas effectively; and are able to perform various forms of data analysis, communication assessment and technical reporting. They are prepared for employment in communication-intensive fields in business, media, government, nonprofit and educational sectors, and for further graduate study in the social sciences, law, humanities and management.

Graduates pursue careers in a variety of fields such as digital content creation, public relations, law practice, sales and marketing, customer experience management, strategic communication and nonprofit advocacy. They can work in communications-intensive fields such as:

- advertising
- community education
- corporate communications
- crisis management
- customer service and customer relations
- health communication
- human resources management
- media and public relations
- new media
- social media
- training and development

Computational Forensics, BS (ASCPFBS)

Campus: West

Program Description: The BS degree program in computational forensics is a multidisciplinary degree program that encompasses areas of physical, biological and social sciences with an additional focus on statistics and computation.

In this program, students develop the quantitative and computational methods that assist basic and applied research efforts in forensic science, establish or prove scientific basis in investigative procedures, and support forensic examiner casework. Through modeling, computer simulations and computer-based analysis and recognition, students gain an in-depth understanding of the forensic science discipline, the scientific method and the systematic approach to forensic science.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASCPFBS~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Computational forensic students can study abroad and gain skills employers demand, like leadership, communication and critical thinking skills. When immersed in another culture, students can earn credits in their major while broadening their horizons.

With over 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

Career Opportunities: The demand for forensic scientists is increasing according to the U.S. Bureau of Labor Statistics. With computation and statistics driving many technological advances, this interdisciplinary degree program prepares students for employment in a range of jobs or to continue on to advanced study of quantitative programs in graduate school.

Computer Science, BA (ESCSEBA)

Campus: West

Program Description: The BA program in computer science is anchored with core courses that provide a solid foundation in the practical aspects of computer science, and it ensures that students have the requisite critical thinking, effective programming and problem-solving skills for a future in industry. The program provides opportunities for students to customize their degree with other areas of interest with a robust offering of computing electives covering various disciplines such as:

- app development
- cybersecurity
- databases
- data science
- networking
- software development

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ESCSEBA~null>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students learn to thrive in a global environment through the rich educational and interpersonal experiences inherent in study abroad. A resume enhanced by the valuable study abroad experience will impress prospective employers, and it will also help the student stand out should they decide to pursue advanced study.

With over 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates are well-prepared for pursuing careers in a wide variety of computing-related fields or to embark on further graduate studies. They secure employment in a variety of capacities, such as in computer and software design or the development of information technologies. Computer science graduates can excel in system and software development. Some computer science-related jobs include:

- creating computer games and graphics systems
- developing mobile computing applications
- developing security applications
- discovering data management and mining solutions

602-543-3000

Disability Studies, BA (ASDISASBA)

Campus: SYNC, Online

Program Description: Disability is a basic feature of human diversity. In fact, people with disabilities form the largest minority group in the United States, making up approximately a quarter of the population. Disability studies has become an increasingly prominent academic field, providing students with a multifaceted understanding of the social, cultural, political and economic dimensions of disability.

The BA program in disability studies prepares students to make a positive impact on society. Students learn to confront the marginalization of people with disabilities and to acquire skills in research, advocacy and policymaking that are increasingly important in a range of professions.

Format options

The disability studies Bachelor of Arts program is offered in two formats: ASU Online or ASU Sync.

ASU Online: The online Bachelor of Arts in disability studies program offers all coursework 100% virtually (<https://asuonline.asu.edu/students/courses/>). Courses are typically offered in a 6--7.5 week format, and they are taught asynchronously (so there is not set time to attend class each week). Students access course content on their own schedule and complete assignments by preset deadlines.

ASU Sync: The disability studies Sync program (<https://provost.asu.edu/sync>) is a flexible degree option that allows students to attend classes virtually or in person. Courses in the major (i.e., DST courses) are offered virtually, either as iCourses or live virtual lectures with faculty and peers (Sync classes). Courses required outside of the major, such as general studies or electives, are offered in person or virtually as iCourses. Students should review the Class Search (<https://catalog.apps.asu.edu/catalog/classes>) to determine course format options offered each semester to ensure they can attend courses in the modalities available. The Sync program option is open to Arizona residents and nonresidents. Nonresidents should consider time zone differences as most Sync classes will be offered in local Arizona time.

Due to immigration requirements, international students on F-1 or J-1 visas are not eligible for the Bachelor of Arts in disability studies Sync program.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center. GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available on the official U.S. government website at <https://www.benefits.va.gov/gibill> (<https://www.benefits.va.gov/gibill>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

English, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-disability-studies/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASDISASBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students deepen their understanding of the diversity and complexity of the world when studying abroad. Study abroad programs provide a valuable opportunity for students to add cultural knowledge to their studies on disability. When studying abroad, students expand their scope of learning and gain personal and professional experience beyond the comfort zone of their home country.

With more than 300 programs in more than 65 countries, opportunities exist nearly anywhere students want to go. More information on available programs can be found on the Global Education Office (<https://goglobal.asu.edu/>) website.

Career Opportunities: Graduates from this program find career opportunities in many fields, such as the arts, business, civil service, counseling, education, government, health care, law and social work, as well as with community and nonprofit organizations.

English, BA (ASENGBA)

Campus: West

Program Description: The BA in English program offers students tools to think critically and reflectively about language, literature and culture. Students develop advanced critical thinking abilities; advanced skills for clear and effective verbal communication; expertise in constructing well-supported and persuasive arguments; experience performing complex textual analysis; knowledge of historical trends in written discourse; an awareness of the role of literary discourse in broader social and historical contexts; and an ability to engage in big-picture thinking.

Students have the opportunity to gain practical publishing experience with the literary magazine Canyon Voices (<https://newcollege.asu.edu/canyonvoices>).

The English major helps students strengthen their analytical skills, shape their own ideas, and flexibly develop their own interests. English courses are regularly offered in fiction, poetry and creative writing; periods and authors in British, American and global literatures; women's and ethnic literatures; and creative and expository writing.

World-class faculty have strong reputations in various fields of research and are ready to enhance skill sets, deepen knowledge bases, and help students put the Bachelor of Arts in English degree to work in a variety of professions.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASENGBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Study abroad programs (<https://goglobal.asu.edu>) broaden students' perspectives by exposing them to new and distinct cultures, communities and people. Students can explore the English language at a deeper level through an expanded lens of dialects, literature and terminology in one of more than 300 Global Education programs. Students who study abroad gain heightened cultural competency and communication and critical thinking skills, which enhance their educational experience and their resumes.

Career Opportunities: Graduates are prepared for graduate study programs in education, creative writing, literary history, rhetoric, composition and public policy; for professional training in law, business, teaching and public policy; and for careers in marketing, public relations, government, diplomacy and community work, among others. Graduates prepare for the many professions in which problem-solving, creativity, research, writing, interpersonal and digital skills are necessary and valued.

English (Secondary Education), BA (ASENGSEBA)

Campus: West

Program Description: The BA program in English with a concentration in secondary education provides rigorous content in literature, composition, linguistics and secondary teaching, extensively preparing students to meet the needs of all student populations, including attention to levels of student academic performance and cultural and linguistic diversity.

The demand for teachers in Arizona is high. Students complete their teaching internship in school districts in the greater Phoenix area or for one of the 22 Native American nations in Arizona.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASENGSEBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students wishing to pursue a future in education must understand the diverse set of experiences, backgrounds and cultures that shape the students in their classrooms. Secondary education concentration students can enhance their English degree with a study abroad program, in which they can gain firsthand experience within a wide range of cultures and communities.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

Career Opportunities: Graduates of the program earn Arizona Department of Education certification for middle and high school English language arts and are prepared for careers as secondary school teachers.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Environmental Science, BA (ASENVBA)

Campus: West, ASU at Lake Havasu

Program Description: The study of human impact on the earth's ecosystems and resources has become increasingly important over the past 20 years. The BA degree program in environmental science is dedicated to preparing students to become graduates who will be able to find solutions to today's critical environmental challenges posed by pollution and climate change.

This degree program is founded on established environmental basics, ensuring that students are well versed in biological study, including molecular, organismal and ecosystem biology. Students gain competency in chemistry, statistics and geographic information systems.

The world-renowned faculty conduct research across the globe, and they engage students in the process of creating new scientific knowledge that, in turn, impacts a rapidly changing world.

Rounding out student preparation, the program includes a focus on the management and communication skills necessary in various environmentally specific careers.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Biological Data Science, MS
- Communication Studies, MA
- Environmental and Resource Management (Water Management), MS
- Environmental and Resource Management, MS
- Social Data Science, MA
- Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASENVBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: The natural world is complex and diverse, changing quickly from one biome to the next. Not only is the physical environment varied across the globe, so is the human treatment of it. Students who study abroad gain a deeper understanding of the global environment, how culture affects the environment and how to best communicate environmental research to a diverse audience.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their specific interests and skill sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

Career Opportunities: Career opportunities for graduates of this program include employment in environmental policy, or management or leadership positions in federal and state agencies, local municipality planning offices, private consulting firms, and nongovernmental and nonprofit organizations. Graduates of the program are also well qualified to pursue graduate studies in relevant areas of the natural sciences.

Environmental Science (Environmental Justice), BA (ASENVEJBA)

Campus: West

Program Description: The study of human impact on the earth's ecosystems and resources and how these impacts are distributed across communities and ecosystems has become increasingly important over the past 20 years. The BA program in environmental science with a concentration in environmental justice is dedicated to preparing students to find solutions to today's critical environmental challenges posed by pollution, resource access and climate change. Further, this concentration program provides students with a foundation in moral theories and social policies and with communication skills that prepare them to be advocates for marginalized communities, who may be disproportionately impacted by environmental issues and policies.

This degree program is founded on established scientific research in the areas of organismal and ecosystem biology, chemistry, hydrology and water resources, and geographic information systems. The world-renowned faculty from the natural sciences, social sciences and philosophical fields of study conduct research across the globe, and they engage students in the process of creating new scientific policies that will positively impact a rapidly changing world.

Rounding out student preparation, the program includes a focus on the management and communication skills necessary in various environmentally specific careers.

Exploratory Applied Computing, Mathematics and Technology, (ASACMTEXPL)

Campus: West

Program Description: Many students are not ready to choose a specific academic program of study when first entering the university. Exploratory programs provide students the opportunity to discover the options available at ASU, and they are provided the time, resources and guidance needed to assess their skills, interests and aptitudes.

Declaring exploratory status permits students to begin meeting General Studies requirements that all ASU graduates must fulfill. The exploratory applied computing, mathematics and technology program also allows students to take some time to explore a variety of academic courses that may lead to a potential major interest in these fields.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra or MAT 170 Precalculus or MAT 210 Brief Calculus or MAT 251 Calculus for Life Sciences or MAT 270 Calculus with Analytic Geometry 1

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: Students with fewer than 45 credit hours may declare this exploratory program. Students may not accrue more than 45 hours while they are an exploratory student.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASACMTEXPL-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Exploring applied computing, mathematics and technology on the global scale can be beneficial to students when narrowing their focus of study. While taking various general education courses through study abroad programs, students are able learn more about themselves and what career path they want to pursue.

Students earn ASU credit for completed courses while staying on track for graduation, and they may apply financial aid and scholarships toward program costs. More information is available on the Global Education website (<https://goglobal.asu.edu/>).

Career Opportunities: Career opportunities are specific to the ultimate major of choice.

Forensic Science, BS (ASFOREBS)

Campus: West, Online

Program Description: Forensic science is the study and application of scientific methods to matters of law.

The BS degree program in forensic science at ASU is built on a solid foundation in both biology and chemistry, which develop students' basic and upper-level laboratory skills. Students complete holistic, rigorous coursework in the natural and mathematical sciences to adequately prepare for entering a competitive workforce. The interdisciplinary nature of the program is uniquely positioned to train students in forensic techniques ranging from crime scene collection, evidence analysis and mock courtroom testimony.

Along with completing coursework and gaining the necessary scientific skills to succeed in this field, students have the opportunity to gain practical experience in a laboratory setting by being involved in research or an internship. Students can conduct research under experts of varying forensic fields, including biology, entomology and anthropology. Students also may seek to apply for and participate in forensic science internships sponsored by crime labs around the country. Internships are highly competitive.

Job applicants and students seeking a volunteer or internship position within a crime lab are required to undergo an extensive background check that includes a polygraph exam, fingerprinting and drug testing. Actions that can disqualify an applicant include recent or past illicit drug use (including marijuana), felony convictions and drunk driving convictions.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 251 Calculus for Life Sciences

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/forensic-science-degree/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASFOREBS~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students can learn about science and law enforcement in other countries through study abroad. Being immersed in another culture broadens horizons and develops professional skills such as cross-cultural communication and critical thinking.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

Career Opportunities: Scientific and technological advances in the field of forensic science as well as continually increasing caseloads in law enforcement are projected to increase the number of forensic science technicians needed over the next decade. The U.S. Bureau of Labor Statistics estimates that between 2016 and 2026 employment of forensic science technicians will increase 17%, an average increase much greater than in most occupations.

Graduates of the forensic science program are prepared to enter the workforce in crime labs and private forensic science labs at the local, state and federal levels. Graduates also are prepared for graduate programs in forensic science, law school, medical school and related fields.

Forensic Science (Death Investigations), BS (ASFOREDIBS)

Campus: West, Online

Program Description: Forensic science is the application of science to the law or legal procedures. The medicolegal death investigation system is responsible for conducting investigations certifying the cause and manner of death in unnatural or unexplained circumstances --- those associated with forensic investigations.

The BS degree program in forensic science with a concentration in death investigations is built on a solid foundation in anatomy, biology and chemistry, which develop students' basic and upper-level laboratory skills. Students complete holistic, rigorous coursework in the natural and mathematical sciences to adequately prepare for entering a competitive workforce. The interdisciplinary nature of the program is uniquely positioned to train students in forensic techniques such as advanced mapping, scene photography, biological evidence analysis and mock courtroom testimony.

Along with completing coursework and gaining the necessary scientific skills to succeed in this field, students have the opportunity to gain practical experience in a laboratory setting by being involved in research or an internship. Students can conduct research under experts of varying forensic fields, including anthropology, biology, entomology, investigations and data science. Students also may seek to apply for and participate in forensic science internships sponsored by crime labs or medicolegal offices around the country. Students seeking a volunteer or internship position within a crime lab or medicolegal office (as well as job applicants) often are required to undergo an extensive background check that includes a polygraph exam, fingerprinting and drug testing. Actions that can disqualify an applicant include recent or past illicit drug use (including marijuana), felony convictions and drunk driving convictions.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Global Experience: Students can learn about science and law enforcement in other countries through study abroad. Being immersed in another culture broadens horizons and develops professional skills such as cross-cultural communication and critical thinking.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

Career Opportunities: The U.S. Bureau of Labor Statistics assigns most categories of death investigators to the "forensic science technician" category. According to the bureau, the median annual salary for these professionals in 2021 was \$61,930. The profession is projected to grow 17% by 2026 --- much faster than the annual average. About 2,500 openings for forensic science technicians are projected each year, on average, over the decade.

Competition for positions is strong, and this concentration gives graduates an advantage in applying for these positions. Graduates from the program are uniquely positioned with advanced education and training that prepares them to be very competitive job candidates and applicants for graduate and medical school, in areas such as medicolegal death investigation, biology, pre-dental forensic odontology, wildlife forensics, cultural resource management and preservation, international relief, forensic work, law and psychology, forensic nursing and related fields. Those who go into the job market take on roles such as autopsy technician, pathologist's assistant and coroner.

FAB N101

Gender, Women and Sexuality Studies, BS (ASWSTBS)

Campus: West

Program Description: The BS degree program in gender, women and sexuality studies is an interdisciplinary academic program. Students examine the cultural and social construction of gender; explore the history, experiences and contributions of women to society; and study the influences of gender at a micro and macro level.

Consistent with the university's design imperatives of social embeddedness and use-inspired research, the program's course offerings, research initiatives and cocurricular programs further the understanding of women and gender and promote social justice. Students gain a solid knowledge base and educational foundation as well as the critical thinking skills necessary for dealing with changing gender roles in society.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Communication Studies, MA

English, MA

Interdisciplinary Studies, MA

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

History, BA (ASHISBA)

Campus: West

Program Description: The BA program in history introduces students to a broad span of history that covers the ancient world through the modern period and extends from Europe to Latin America and the United States.

In addition to learning about the origins and development of various peoples, ideas and institutions of the past, students engage in the practice of history by learning to conduct research, analyze historical evidence and formulate arguments using historiographical perspectives and methodological approaches.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

History (Secondary Education), BA (ASHISSEBA)

Campus: West

Program Description: The flexible BA degree program in history with a concentration in secondary education prepares students who are considering a career in education for teaching and certification while providing the disciplinary knowledge of a traditional history degree. Students understand history in all its depth while developing strong critical reading, writing and research skills as well as skills in oral presentation.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASHISSEBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Study abroad programs (<https://goglobal.asu.edu/>) are a great opportunity for students studying history who wish to become educators of the subject. Students can gain a better understanding of the past by studying the history of a place while living there. History students can hear narratives from locals in different regions of the world and experience a different perspective of the past, both of which can be present when educating their own students in their future classrooms.

Career Opportunities: Graduates possess the strong, practical teaching tools necessary to successfully teach middle or high school students. With the ability to find and evaluate evidence, form arguments and present analysis, graduates are also well suited for careers in a wide range of industries and fields of work, and they have a solid foundation for graduate study in teaching, law, business and many other fields.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Interdisciplinary Arts and Performance, BA (ASIAPBA)

Campus: West, Online

Accelerated options for this program are not currently available to ASU Online students.

Program Description: The BA program in interdisciplinary arts and performance is leading the way in interdisciplinary arts nationally, breaking traditional boundaries and allowing students to take their talents to new heights. Throughout the curriculum, the emphasis on interdisciplinary arts is continually inclusive, expanding, evolving and innovative, allowing students the ability to shape their own unique creative pathways.

Students in both the online and immersion programs engage with nationally and internationally known faculty in collaborative investigation of many artistic disciplines in preparation for the complex and changing world through current approaches to aesthetic innovation.

Students in this major engage in practical and theoretical studies of visual, sonic, performance, game and interactive arts to become versatile artists.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Performance and art transcend the boundaries of language and culture. Through unique study abroad experiences, interdisciplinary arts and performance students are able to deepen their understanding of their field and acquire a global lens on the influence of culture on their art.

Students can achieve heightened cultural competency and communication and critical thinking skills in any of the more than 300 study abroad programs available. More information is available on the Global Education Office website (<https://goglobal.asu.edu/>).

Career Opportunities: Graduates of the interdisciplinary arts and performance program have received extensive preparation for advanced education or careers as artists, performers and creative professionals. They have a solid foundation on which to pursue their dream in their chosen creative field. With skill sets that prepare them for professional and entrepreneurial opportunities, graduates tap into evolving professions and the expanding field of art practice.

Since 1992, graduates of the Bachelor of Arts program in interdisciplinary arts and performance have gone on to many different occupations, such as:

- art administrator
- arts writer, scholar and critic
- composer and sound artist
- digital designer
- film and video editor
- recording artist
- theatre artist
- video and board game designer
- videographer
- visual artist in multiple mediums

Interdisciplinary Arts and Sciences, BA (ASIASBA)

Campus: West

Program Description: The BA program in interdisciplinary arts and sciences allows students to build a flexible, customized degree that is personalized to their specific career goals.

Students tailor their programs to emphasize interdisciplinary study combined with a specific area of concentration (e.g., business, communication studies, English, gerontology, history, psychology or preprofessional studies). For example, a business degree with an emphasis in communications can lead to employment opportunities that aren't as easily accessed by a traditional business degree alone. By providing the opportunity to combine disciplines, New College equips students with the specialized education they need to reach their individual career goals.

This degree program culminates in a capstone experience that provides practical perspective, skills and connections, creating versatile graduates ready for graduate school or the corporate world.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASIASBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Studying abroad (<https://goglobal.asu.edu/>) allows students to gain valuable, unforgettable experiences that will enhance their resumes. With more than 300 study abroad programs, students are able to tailor their experience to their personal goals and skill sets. Students in the interdisciplinary arts and sciences program gain heightened cultural competency, communication and critical thinking skills when studying abroad --- skills that prepare them to lead in a future-focused career.

Career Opportunities: Graduates are prepared to make the transition smoothly to graduate school or postbaccalaureate employment in:

- business settings
- community settings
- cultural settings
- educational settings
- social sciences and human service settings

Those who plan to pursue graduate or professional degrees in law, business, helping professions or in traditional disciplines benefit from the flexibility of this program that prepares them for a broad range of future academic and career pursuits.

Latin American Studies, BA (ASLASBA)

Campus: West

Program Description: The BA program in Latin American studies offers a learner-driven model in which the student's specific interests are deepened through the study of Latin American cultures, histories, politics and linguistic expressions. It is interdisciplinary and allows for flexibility in course selection while also instilling a breadth and depth of knowledge about issues surrounding Latin America.

This degree program encourages cross-cultural exploration, preparing students for a global-minded career path.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Communication Studies, MA
English, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASLASBA-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Studying abroad (<https://goglobal.asu.edu/>) is a great way for Latin American studies students to learn firsthand about the culture, language and food of their area of study. When studying in a Latin American country, students are able to immerse themselves in the culture and gain a greater understanding of that country and its people. They also acquire heightened cultural competency, communication and critical thinking skills that will be valuable assets for their future careers.

Career Opportunities: Graduates are prepared for further study in graduate or professional schools and in multicultural environments, including:

- arts and arts administration
- business and finance
- counseling
- diplomacy
- education
- journalism
- ministry
- nonprofit organizations and advocacy
- public policy
- technology

Pharmacology and Toxicology, BS (ASPTXBS)

Campus: West, Online

Program Description: Students in the BS degree program in pharmacology and toxicology study how foreign materials react with human bodies. To have a thorough understanding of the interactions of chemicals in the biological system, students in the program study both biology and chemistry, and they become familiar with chemical interactions at physiological, molecular and cellular levels.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the

STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 251 Calculus for Life Sciences

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Biological Data Science, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/pharmacology-toxicology-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASPTXBS-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students gain valuable experience when they study abroad (<https://goglobal.asu.edu/>) --- experience that enhances their resume. With more than 300 programs available, students can tailor their educational experience to their specific interests and skill sets.

Pharmacology and toxicology students are able to expand their knowledge of how science impacts society in a variety of cultures.

Career Opportunities: With a heavy focus on experiential learning within the laboratory, graduates of the pharmacology and toxicology degree

program are better prepared for careers in diverse areas such as government, industry, health care and business and for a number of career paths, including:

- environmental risk assessor or consultant
- laboratory researcher
- pharmacist
- physician
- physician's assistant
- toxicologist
- veterinarian

Graduates also may work at governmental agencies or at private companies in areas such as:

- Arizona Department of Environmental Quality
- city government
- clinical trials
- Environmental Protection Agency
- product safety evaluation
- regulatory affairs
- teaching

Political Science, BA (ASPOLBA)

Campus: West, ASU at Lake Havasu

Program Description: Political science is the study of governmental practices, politics and theories. Coursework in the BA program in political science covers American institutions, international relations, political theory and world affairs.

The program helps students gain a basic understanding of the assumptions underlying political science, conduct meaningful research and formulate arguments. Students learn through internships, service-learning and research opportunities, in addition to coursework.

The BS program requires a quantitative methods course, and the Bachelor of Arts program requires a qualitative methods course.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Communication Studies, MA
Global Management, MGM
Interdisciplinary Studies, MA
Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASPOLBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Through study abroad, students can experience firsthand the diverse political and social powers affecting communities around the globe. Students in political science can enhance their learning by gaining a global perspective on political theory and world affairs.

With more than 300 programs available to them, students can tailor their experience to their unique interests and skill sets. Programs exist in diverse countries, such as those ruled by communist or monarchical regimes. More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

Career Opportunities: The political science program serves as a good precursor to staff, manager or policy analyst positions in local, state and federal government. This degree is recognized as qualification for many careers in business (for-profit and nonprofit) and industry. Work may include binational, cross-border positions linking U.S. and Mexican businesses, Arizona-Sonora local government or local community groups on both sides of the border.

Many students use the degree as a gateway to law school or other professional schools or as a basis for further study in such fields as:

- community development
- political science
- public administration
- public policy
- social sciences
- urban affairs and urban and regional planning

Psychology, BA (ASPGSBA)

Campus: West, ASU at Lake Havasu, Online

Available accelerated bachelor's/master's degree program options may vary by modality (online vs. on-campus). Students should contact their academic advisor for more information.

Program Description: Psychology is the scientific study of human behavior. This diverse field includes mental health and counseling, as well as child development, neuroscience and brain function, memory and decision-making, behavior analysis, statistics and more. It also crosses over into other disciplines, including medicine, law, business and economics.

All New College psychology programs have a quantitative research focus, equipping students with skills in critical thinking, statistical analysis and academic writing. Students have the opportunity to go beyond the classroom, adding practical experiences through internships, service-learning and faculty-supervised research. The BS degree differs from the BA degree in that it requires additional lab science coursework and advanced statistical training, both of which are increasingly important for destinations in research or clinical practice. The Bachelor of Arts degree allows for exposure to a wider breadth of psychological and related topics through additional elective coursework. Both pathways provide a strong foundation for future graduate studies.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 119 - Finite Mathematics or MAT 170 Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option.

Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Communication Studies, MA
- Global Management, MGM
- Interdisciplinary Studies, MA
- Psychology (Industrial and Organizational Psychology), MS
- Psychology (Positive Psychology), MS
- Psychology (Sport Psychology), MS
- Psychology, MS
- Social Data Science, MA
- Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-psychology/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASPGSBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Study abroad allows students in the psychology program to acquire enhanced knowledge and experience that will enable them to stand out in many career fields. Students are exposed to unique differences in the human condition worldwide, are able to improve language and cross-cultural skills for effective communication, and are challenged to adapt under new social and cultural circumstances.

With more than 300 options available, whether in a foreign country, in the U.S. or online, Global Education programs (<https://goglobal.asu.edu/>) give students a global perspective and knowledge in preparation for their career. Students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

Career Opportunities: A degree in psychology prepares graduates for a career in:

- government (sales and marketing, human resources management)
- industry
- mental health professions (youth counselor, substance abuse counselor)

- social services (high school psychology teacher, occupational analyst)

The degree also provides an excellent foundation for graduate study in fields such as public administration, law, family studies, communication and the various graduate program fields in psychology:

- clinical and counseling
- cognitive neuroscience
- developmental
- environmental
- experimental
- health
- legal
- physiological
- social

Global Opportunities:

Global Experience: Study abroad allows students in the psychology program to acquire enhanced knowledge and experience that will enable them to stand out in many career fields. Students are exposed to unique differences in the human condition worldwide, are able to improve language and cross-cultural skills for effective communication, and are challenged to adapt under new social and cultural circumstances.

With more than 300 options available, whether in a foreign country, in the U.S. or online, Global Education programs (<https://goglobal.asu.edu/>) give students a global perspective and knowledge in preparation for their career. Students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

Career Opportunities: Graduates are prepared for careers in:

- government (sales and marketing specialist, human resources management professional)
- mental health professions (youth counselor, substance abuse counselor)
- social services (high school psychology teacher, occupational analyst)

The degree also provides an excellent foundation for graduate study in fields such as public administration, law, family studies, communication and the various graduate program fields in psychology:

- clinical and counseling
- cognitive neuroscience
- developmental
- environmental
- experimental
- physiological
- social

Psychology (Forensic Psychology), BA (ASPGSFPBA)

Campus: West, Online

Accelerated options for this program are not currently available to ASU Online students.

Program Description: Forensic psychology is the application of psychology to the law. The concentration in forensic psychology within the BA program in psychology combines general training in psychology with specialized coursework in criminal law, criminal behavior, the diagnosis and treatment of mental disorders, and legal decision-making.

When courts are faced with cases in which a psychology-related question arises, they may turn to psychologists for help. For example, psychologists might assist the court in understanding a criminal's mental state at the time of a crime or in determining whether a particular jury might have been biased against a defendant based on his or her race. This is the realm of forensic psychology.

This program teaches students about the various roles for psychologists in the legal system and helps them discover which roles they might like to pursue through careers in mental health or criminal justice, or through graduate training.

The BS degree differs from the Bachelor of Arts degree in that it requires additional lab science coursework and advanced statistical training, both of which are increasingly important for destinations in research or clinical practice. The Bachelor of Arts degree allows for exposure to a wider breadth of psychological and related topics through additional elective coursework. Both pathways provide a strong foundation for future graduate studies.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 119 - Finite Mathematics or MAT 170 Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-psychology-forensic-psychology/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASPGSFPBA-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Study abroad allows students in the psychology program to acquire enhanced knowledge and experience that will enable them to stand out in many career fields. Students are exposed to unique differences in the human condition worldwide, are able to improve language and cross-cultural skills for effective communication, and are challenged to adapt under new social and cultural circumstances.

With more than 300 options available, whether in a foreign country, in the U.S. or online, Global Education programs (<https://goglobal.asu.edu/>) give students a global perspective and knowledge in preparation for their career. Students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

Career Opportunities: Graduates of the Bachelor of Arts program in psychology with a concentration in forensic psychology are prepared for careers in the criminal justice and mental health fields. Many careers in psychology require graduate training, and the program's graduates are prepared for master's degree and doctoral programs in legal, clinical and forensic psychology.

Psychology (Industrial and Organizational Psychology), BA (ASPGSIOPBA)

Campus: Online

Program Description: The BA program in psychology with a concentration in industrial and organizational psychology, offered by the New College of Interdisciplinary Arts and Sciences, prepares students to be well-versed in workplace empowerment strategies and interventions. The ultimate goal of this work is to increase the productivity and well-being of employees and the organizations that employ them.

Students gain the foundational knowledge and skills of a traditional psychology program, while focusing their studies on topics central to the field of industrial and organizational psychology. These topics include behavior and communication in organizations, testing and assessment, emotional intelligence and decision making. Graduates of this program are prepared to apply evidence-based approaches to transform the organizations of which they are a part.

All New College psychology programs, including this industrial and organizational psychology program, have a quantitative research focus, equipping students with skills in critical thinking, statistical analysis and academic writing. While both pathways provide a strong foundation for future graduate studies, the Bachelor of Science degree differs from the Bachelor of Arts degree in that it requires additional lab science coursework and advanced statistical training, which are increasingly important for students who desire to go into research or clinical practice. The Bachelor of Arts degree allows for exposure to a wider breadth of psychological and related topics through additional elective coursework.

Global Experience: Study abroad allows students in the psychology program to acquire enhanced knowledge and experience that will enable them to stand out in many career fields. Students are exposed to unique differences in the human condition worldwide, are able to improve language and cross-cultural skills for effective communication, and are challenged to adapt under new social and cultural circumstances.

With more than 300 options available, whether in a foreign country, in the U.S. or online, Global Education programs (<https://goglobal.asu.edu/>) give students a global perspective and knowledge in preparation for their career. Students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

Career Opportunities: Individuals with psychology degrees can go on to secure jobs across a wide range of fields, including human resources, research, business and economics, law, health and mental health, and education.

Graduates are prepared for careers in:

- consumer relations and research
- employee training
- family support
- individual life coaching
- occupational analysis
- positive coaching in sports or organizations
- prevention education
- public or mental health program coordination
- youth development

The degree also provides an excellent foundation for graduate study in fields such as public administration, law, family studies, communication, social work and the various graduate program fields in psychology:

- clinical and counseling
- cognitive neuroscience
- developmental
- environmental
- experimental

- physiological
- social

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASPGSPPBS~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Study abroad allows students in the psychology program to acquire enhanced knowledge and experience that will enable them to stand out in many career fields. Students are exposed to unique differences in the human condition worldwide, are able to improve language and cross-cultural skills for effective communication, and are challenged to adapt under new social and cultural circumstances.

With more than 300 options available, whether in a foreign country, in the U.S. or online, Global Education programs (<https://goglobal.asu.edu/>) give students a global perspective and knowledge in preparation for their career. Students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

Career Opportunities: Individuals with psychology degrees can go on to secure jobs across a wide range of fields, including human resources, research, business and economics, law, health and mental health, and education.

Graduates are prepared for careers in:

- consumer relations and research
- employee training
- family support
- individual life coaching
- occupational analysis
- positive coaching in sports or organizations
- prevention education
- public or mental health program coordination
- youth development

The degree also provides an excellent foundation for graduate study in fields such as public administration, law, family studies, communication, social work, and the various graduate program fields in psychology:

- clinical and counseling
- cognitive neuroscience
- developmental
- environmental
- experimental
- physiological
- social

Social Justice and Human Rights, BA (ASJHRBA)

Campus: West, Online

Program Description: The BA program in social justice and human rights at ASU's New College of Interdisciplinary Arts and Sciences spans both the social sciences and the humanities to prepare students to meet the challenges of social justice and protection of human rights in local, national, international and global contexts.

Coursework prepares students to serve as advocates for alleviating political, economic and social inequality. The program introduces students to principles and practices of everyday humanitarianism, multimedia advocacy, and theories and practices of social justice and human rights.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Communication Studies, MA

Global Management, MGM

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/social-justice-and-human-rights-ba/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASJHRBA-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer

experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students are able to deepen their understanding of global human rights through study abroad. With more than 300 programs available to them, students can tailor their educational experience to their unique interests and skill sets. Students can explore the influence of culture, law, race and religion on a global scale as they prepare to make an impact for social justice and human rights.

More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

Career Opportunities: Graduates with this degree are employable in a variety of settings, including refugee resettlement agencies; agencies and shelters that support survivors of domestic abuse; shelters for migrants, especially for unaccompanied minors; disaster relief agencies; organizations that assist survivors of sex trafficking and human labor trafficking; and agencies that assist veterans. Career opportunities include:

- charitable fundraiser (e.g., Nina Mason Pulliam Charitable Trust staff)
- grant writer
- humanitarian aid worker (e.g., U.N. High Commissioner for Human Rights aid worker, Oxfam aid worker)
- human rights lawyer
- international governmental organization professional (e.g., United Nations staff)
- investigative journalist
- lobbyist for human rights and social justice causes
- nongovernmental organization professional (e.g., Amnesty International professional)
- nonprofit agency manager (e.g., Special Olympics Arizona, international manager)
- public policy researcher

Social and Behavioral Sciences, BA (ASSBSBA)

Campus: West, Online

Program Description: The BA degree program in social and behavioral sciences provides students with an understanding of assumptions underlying the social and behavioral sciences, enabling them to develop the research skills necessary for the analysis of complex social issues. This program can be tailored to the career goals of the individual student, and it offers individual and group experiences working with faculty on concrete intellectual and policy issues.

The core courses provide students with the requisite background that enables them to better understand psychological and social principles related to the behavior of individuals across multiple social contexts and institutions.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College MathematicsAny math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management, MGM
Interdisciplinary Studies, MA
Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/social-behavioral-sciences-ba/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASSBSBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Exploring social and behavioral sciences on a global scale can be beneficial to students in providing understanding of assumptions made about individuals and society. Students who study abroad can develop research skills from firsthand experiences inside and outside the classroom, and use these skills to analyze complex social issues that affect them and those around them, domestically and internationally.

More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

Career Opportunities: This interdisciplinary degree is an excellent option, meshing with the individual's interests and fulfilling many employers' expectations of a bachelor's degree by exposing the student to a variety of outlooks and challenges. Such a degree is competitive in most situations in which the disciplinary social and behavioral degrees are accepted, and it is advantageous when seeking entry to broad professional programs such as regional planning or urban studies.

Graduates of this program have a solid background in social sciences and methodologies that prepares them for graduate work in community development, counseling, criminal justice, professional schools (e.g., law, public administration, social work), public policy, social science disciplines, and urban studies or planning.

Careers include:

- advocate (e.g., immigration, children's, victim's)
- community developer
- human relations officer
- lawyer
- lobbyist
- mediator
- nonprofit manager

- social services case worker
- statistical analyst
- urban planner

Social and Behavioral Sciences, BS (ASSBSBS)

Campus: West, Online

Program Description: The curriculum of the BS degree program in social and behavioral sciences provides students with an understanding of assumptions underlying the social and behavioral sciences, enabling them to develop the research skills necessary for analysis of complex social issues. This flexible program can be tailored to the career goals of each student and offers individual and group experiences working with faculty on concrete intellectual and policy issues. Students are exposed to a variety of outlooks and challenges.

The core courses provide students with the requisite background that enables them to better understand psychological and social principles related to the behavior of individuals across multiple social contexts and institutions (e.g., community, culture, family and society).

The Bachelor of Science degree differs from the BA degree in that it has a stronger focus on the use of statistics.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Social and Cultural Analysis (American Studies), BA (ASSCAASBA)

Campus: West

Program Description: The BA program in social and cultural analysis with a concentration in American studies engages in the transdisciplinary and comparative study of the United States as a cultural and political site of ongoing change and conflict.

Students learn diverse methods of analyzing nationalist politics, public and private cultural practices, transnationalism and the nation-making processes of migration. The curriculum also brings attention to identity formations around gender, sexuality, race and ethnicity.

As a transdisciplinary field, American studies unites the social sciences, the humanities and the arts to stimulate students into engaging in rigorous and adventurous conversations about American culture, politics and history. Students explore knowledge beyond disciplinary boundaries by bringing differing perspectives and understandings into dialogue with one another and generating a beneficial level of intellectual rigor and excitement.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students can learn to put the United States in a global context through a faculty-directed study abroad program (<https://goglobal.asu.edu/>) that explores culture, borders and politics. Executing cross-cultural communication develops career skills that are in demand by employers. Students can stay on track academically by earning ASU credit for completed courses in one of more than 300 programs available.

Career Opportunities: Due to the emphasis on culture and identity, students develop respect for and sensitivity to diverse populations. Graduates of this program are prepared for graduate study as well as for careers in government, education, business and nonprofit organizations, with skills and knowledge that enable them to flourish in areas as varied as:

- civil rights organizations
- colleges and universities
- corporations
- government agencies
- law firms
- libraries
- museums

- political action groups
- public relation firms
- social service agencies

Social and Cultural Analysis (Ethnicity, Race and Indigenous Studies), BA (ASSCAERBA)

Campus: West

Program Description: The BA program in social and cultural analysis with a concentration in ethnicity, race and Indigenous studies combines transdisciplinary topics and methods for critical analysis of relationships among individuals, groups, institutions, governments, economies and environments.

The program enriches the study of individual racialized and Indigenous groups by drawing upon theories, methods and pedagogies in ethnicity, race and Indigenous studies while engaging complementary fields of literature, history, sociology, oral history, sexuality, queer studies, social justice, and transnational and cultural studies. Coursework grounds the students in a deep understanding of the particular historical, social, economic, cultural and political experiences of individual racialized groups as well as in an analysis of the relationships among them.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

602-543-3000

Campus: West

Program Description: The BA degree program in social and cultural analysis with a concentration in peace studies is a unique, transdisciplinary offering that fosters a critical investigation of peace. It does so primarily through a humanities lens, but not exclusively, and it provides an analysis of peace in connection with issues such as gender, ethnicity, race and religion.

Students learn many perspectives on peace and approaches to it, including theories and practices of peace building, nonviolence, and conflict avoidance and resolution. The program builds on the expertise of faculty in the humanities and social sciences in fields such as history, linguistics, literature, ethics, philosophy, sociology, ethnic studies, and women and gender studies.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. English, MA

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASSCAPSBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students can observe the impacts of peace and war on cultures and communities across the globe. Study abroad, with more than 300 unique experiences, allows students of peace studies to deepen their understanding of global peace through exploration of the impact of culture, race, religion and law on peace-building. More information is available on the Global Education website (<https://goglobal.asu.edu/>).

Career Opportunities: There is a growing concern for peace building within social and political institutions. As a consequence, numerous jobs now exist in peace-related sectors. The program's emphasis on the social aspects of peace, diversity and identity provides graduates with an awareness

of the needs of diverse populations and the discourses that help create a culture of peace.

Graduates possess the skills and knowledge necessary for graduate work as well as for professional and personal advancement in education, writing, policy, law, cross-cultural communication and ethics. Their knowledge can be applied in careers in government, education, business and nonprofit organizations and in areas as diverse as the following:

- civil rights organizations
- colleges and universities
- government agencies
- libraries
- museums
- nonprofit organizations
- the Peace Corps
- political action groups
- research organizations
- social service agencies

Social and Cultural Analysis (Queer and Sexuality Studies), BA (ASSCAQSBA)

Campus: West

Program Description: The BA degree program in social and cultural analysis with a concentration in queer and sexuality studies combines transdisciplinary topics and methods to critically analyze the function of ideologies of sexuality, the history and present conditions of sexual identity formation, structural inequalities and queer resistance to those same inequalities, and the diversity of LGBTQ+ communities.

Drawing from the premise that sex, gender and sexual orientation are both private experiences as well as profoundly political and public issues with important legal, social and cultural implications, the intellectual core of this program draws from theories, methods and pedagogies in queer theory and sexuality studies while engaging complementary fields of social justice, cultural studies, women's studies, gender studies, literature, history, sociology, psychology and transnational studies. Areas of emphasis include sexuality in culture, transnational queer studies, queer social movements and resistance, sexual fluidity, trans studies and critical heterosexualities.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

English, MA

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASSCAQSBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Stigmas against sexualities are being broken down and challenged in societies across the globe, and study abroad allows students to deepen their understanding of LGBTQ+ treatment through firsthand experience.

Students can explore the impact of culture, race, religion and law on equality all over the world. With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their educational experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore their varied fields and interests in different settings around the world.

Career Opportunities: Due to the emphasis on culture and identity, the program cultivates respect for and sensitivity to diverse populations, and its graduates are prepared with the skills and knowledge necessary for graduate work as well as for careers in areas as varied as:

- civil rights organizations
- colleges and universities
- government agencies
- libraries
- museums
- nonprofit organizations
- Peace Corps

Social and Cultural Analysis (Women and Gender Studies), BA (ASSCAWSBA)

Campus: West

Program Description: The BA degree program in social and cultural analysis with a concentration in women and gender studies offers students a transdisciplinary curriculum that focuses on the diverse experiences of women in both national and international contexts. The program also examines the meaning of gender as a socially constructed category that shapes personal identities, beliefs, opportunities and behaviors.

The wide range of classes explores the intersections of gender, race, class and sexuality; the institutional structures that have an impact on women's and men's lives; and the broad range of feminist theories that seek to explain and influence women's status in society. Areas of emphasis include gender and sexuality, critical race feminism, gender and the borderlands, transnational feminism, social activism and social movements, histories of feminism and critical embodiment studies.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Sociology, BA (ASSOCBA)

Campus: West, ASU at Lake Havasu

Program Description: Sociology is the study of the organization and development of societies and the institutions within them. The sociology program helps students better understand the development, structure, interaction and collective behavior of organized groups.

The program explores the theories, practices and policies underlying the issues of social change, inequality and diversity. This BA degree program in sociology provides students with training in important research skills used to describe, interpret and evaluate evidence across diverse settings important in the economy.

This flexible program provides opportunities for students to work collaboratively with faculty on intellectual and policy issues and helps them develop the research skills necessary for the analysis of complex social issues.

The Bachelor of Arts program requires a qualitative methods course, and the BS program requires a quantitative methods course.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Communication Studies, MA

Global Management, MGM

Interdisciplinary Studies, MA

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASSOCBA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students are able to enhance their understanding of societal structure and human interaction through a global lens by studying abroad (<https://goglobal.asu.edu/>), and programs with unique cultural experiences can be found around the world. Students can gain heightened cultural competency and acquire communication and critical thinking skills while exploring a new and exciting part of the world.

Career Opportunities: Graduates are prepared for employment in corporate or governmental organizations or to continue their studies in graduate programs in sociology or social science, or in professional schools. They are able to apply the sociological perspective to a wide variety of jobs in:

- business and management
- the criminal justice system
- government
- health professions
- social services

Coursework in sociology provides graduates with valuable preparation for careers in:

- journalism
- law
- nonprofit sector
- politics
- public administration
- public relations

These are all fields that involve investigative skills and an ability to work with diverse groups.

Graduates with an advanced degree in sociology may become:

- community activists
- community developers
- criminologists
- demographers
- gerontologists
- organizational advocates
- research analysts
- statisticians
- survey researchers
- urban planners

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASSPABA~null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Studying abroad enhances students' understanding of the diversity of the world and the way in which knowledge of such diversity makes each person a better human being and citizen. Students are able to study in programs that provide immersion into Spanish-speaking cultures with a diverse array of individual and group experiences.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu>) allow students to tailor their educational experience to their unique interests and skills sets. Whether in a foreign country, in the U.S. or online, students in the New College of Interdisciplinary Arts and Sciences can explore their varied fields and interests in different settings.

Career Opportunities: The Spanish program offers excellent preparation for graduate school or for employment as a teacher in the elementary or secondary school system, especially in those districts where bilingual programs are integral to the curricula. Outside the education system, students majoring in Spanish find employment as translators and interpreters in:

- diplomatic corps
- federal and state courts
- law enforcement agencies
- law firms
- social agencies

The business world also provides employment for those fluent in Spanish. This is especially true in the American Southwest and through outlets opened by multinational trade agreements.

Statistics, BS (ASSTABS)

Campus: West, Online

Program Description: Almost every industry in the modern economy relies on the collection and analysis of data. The BS program in statistics prepares students to meet the demands of the ever-growing data analysis field and is a launching pad for a statistics-driven career.

Through innovative research, internships and other hands-on opportunities, students build a solid foundation of mathematics and computing, which helps them gain a thorough understanding of both theoretical and practical statistics.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry IOR MAT 265 Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Biological Data Science, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/statistics-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ASSTABS-null + &college=CAS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer

experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students gain valuable experience when studying abroad. With more than 300 programs available, study abroad allows students to tailor their experience to their unique interests and skill sets. Statistics majors are able to gain hands-on experience in programs in a variety of countries around the world.

Graduates with the heightened cultural competency and the leadership and critical thinking skills achieved through study abroad may stand out in any competitive field.

More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

Career Opportunities: In the era of big data, there is great demand for individuals with all levels of statistical training. Graduates of this program have an understanding of the transdisciplinary nature of statistics and are prepared for graduate study in statistics and related areas or for entry-level positions in a variety of fields, including business, government, the natural and social sciences, engineering, health care and more.

Statisticians are in high demand in many areas of industry, government and academia. Some areas with particularly high demand include:

- finance
- government policy
- manufacturing
- marketing
- media
- medical
- pharmaceutical
- research

Journalism and Mass Communication, Walter Cronkite School of

Digital Audiences, BS (CSDIGABS)

Campus: Downtown Phoenix, Online

Program Description: Virtually all companies and organizations are looking for professionals who know how to grow and engage audiences online. The BS program in digital audiences prepares students to reach audiences strategically with digital content and demonstrate measurable growth.

The program features distinct, high-value courses in which students develop strategies and tactics to grow audiences through search engine optimization, search engine marketing, paid and organic social media campaigns, and digital content creation. Through elective courses, students develop additional expertise in areas such as management, audience data and media creation. Students may also pursue internships for credit.

Students graduate from the program ready to drive audience growth, execute digital marketing and advance businesses in the digital age.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/digital-audiences-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=CSDIGABS~null + &college=CCS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Create an audience growth strategy using digital platforms.
- Use professional tools, technology, and techniques to measure audiences, content and behavior, and be prepared for analytics tasks in media careers.
- Use professional tools, technology, and techniques to evaluate effective, strategic social media campaigns and be prepared for paid and organic social media work in media careers.
- Use professional tools, technology, and techniques to evaluate effective, optimized content and campaigns for search engines, and be prepared for paid and organic search engine work in media careers.

Global Opportunities:

Global Experience: Study abroad programs expose students to valuable perspectives, opinions and audiences that consume digital content. Students should consider programs that utilize experiential learning with organizations like social media agencies or PR firms in countries like Japan and the UK, where millions consume digital content every day. More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

Career Opportunities: Professionals with expertise in digital content strategy are in high demand across sectors and industries. Among the many career opportunities available are positions such as digital strategists, social media managers, public relations specialists, engagement managers, digital news editors, political campaign strategists, digital marketers, community organizers and corporate branding specialists.

Digital Media Literacy, BA (CSDMLBA)

Campus: Online

Program Description: Organizations of all sizes, public and private, are learning to cope with unprecedented changes in how people interact with and use information. The BA program in digital media literacy prepares students to be at the forefront of the important strategic and ethical issues related to digital media, including automation, verification, security and privacy.

Graduates of the program are able to use advanced tools and tactics to analyze the context of the media people consume. They verify and interpret information to make decisions that improve their own lives and benefit the larger society.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/digital-media-literacy/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=CSDMLBA~null + &college=CCS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Evaluate the accuracy and credibility of digital media sources and information.

- Participate in digital media networks actively, safely, and ethically.
- Evaluate the potential global impacts of future developments within information ecosystems.
- Evaluate the role of communication in a free society.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, digital media literacy students are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates of this program pursue a variety of professional and educational opportunities. The program's liberal arts foundation --- including critical thinking, communication, research and problem-solving --- gives students the intellectual agility to thrive in many fields. Specialization in the technical, ethical, legal, social and economic aspects of digital media is especially valuable, as employers of all sizes try to leverage digital media in serving consumers.

As organizations try to keep up with digital transformation and plan for the future, having a deep understanding of how digital ecosystems work is critical. Demand for graduates of digital media literacy in fields such as health care communication, public service and sustainability is anticipated to rise, and the U.S. Department of Labor categorizes many jobs in these areas as having a bright outlook in the job market.

Given increasing emphasis on teaching media literacy at every age level, graduates can expect to find employment opportunities in a variety of educational settings, and some students may pursue graduate school in disciplines such as education, library science, law, public policy, business, public relations, digital strategy and journalism.

Journalism and Mass Communication, BA (CSJMCBA)

Campus: Downtown Phoenix

Program Description: The BA program in journalism and mass communication at ASU's Walter Cronkite School of Journalism and Mass Communication, widely regarded as one of the nation's premier media schools, is a highly professional, hands-on degree program that prepares students for careers in mass communications.

Through access to a world-class faculty of journalists, communicators and scholars, and with prestigious internships and immersive learning opportunities, undergraduate students learn the values and principles at the core of media professions, and they master the highly specialized, practical skills needed for success in today's digital world.

Areas of study can include digital media, broadcast news, innovation and entrepreneurship, audience engagement, social media, investigative reporting, public relations and Spanish-language media. The Cronkite School's full-immersion capstone programs afford students the opportunity to gain experience in activities like reporting the evening news on Arizona PBS and creating digital advertising campaigns.

High-performing students can apply to the school's accelerated master's degree program (<https://cronkite.asu.edu/accelerated-masters-degrees/>), which allows for the completion of both a bachelor and master degree in as few as four years. They also can become part of ASU's Barrett, The Honors College (<https://barretthonors.asu.edu/>).

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: Any MAT course that satisfies the math requirement

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Digital Audience Strategy, MS
Investigative Journalism, MA
Mass Communication, MMC
Sports Journalism, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: English proficiency requirements (<https://admission.asu.edu/apply/international/undergrad/english-proficiency>) for international student admission:

- TOEFL iBT: minimum score of 100 (internet-based test, taken in a testing center) or
- IELTS: minimum score of 7.0 or
- Pearson Test of English: minimum score of 73 or
- Duolingo English test: minimum score of 120 or
- Cambridge English exam: minimum score of 185

Transfer Admission Requirements: Transfer students (classified as those with 12 or more transfer credit hours after high school graduation) are required to have a cumulative transfer GPA of 3.00 or higher and no English competency deficiencies.

Transfer students with 24 or more transferable credit hours after high school graduation are required to have a cumulative transfer GPA of 3.00 or higher.

Transfer students should contact the school for additional steps after admission to ASU.

Change of Major Requirements: ASU students who would like to change their major to journalism and mass communication must have a minimum cumulative GPA of 3.00 in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's non-elective General Studies requirements. The course MCO 120 Media and Society, an introductory course for non-majors, may count in place of JMC 110 Principles and History of Journalism.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=CSJMCBA~null + &college=CCS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply the principles of journalism, such as accuracy, fairness, timeliness, diversity and privacy, to their course requirements.
- Use the tools, technology, and techniques for content creation that adheres to accepted journalistic standards and practices, and prepares them for careers in media and communication.
- Create portfolios, which measure their integration of knowledge through tangible products in digital, social, audio, and video stories to demonstrate to potential employers their professional readiness.
- Understand and apply ethical, diversity, and legal standards relevant to the journalism industry and create culturally proficient communication.

Global Opportunities:

Global Experience: As the world grows more connected, an understanding of other cultures and places is imperative. Study abroad programs (<https://goglobal.asu.edu/>) expose students to diverse opinions, new and challenging situations, and opportunities to explore a new country.

Journalism students are offered highly specialized programs that provide the classes and experiences they need, whether covering the Olympics or spending an entire semester abroad. An international experience on a resume can help a candidate stand out in a competitive field.

Career Opportunities: Graduates are prepared for a wide assortment of careers with the hands-on training they received in the program as well as in real, professional newsroom experiences.

Popular industries include:

- brand storytelling
- corporate and business communication
- digital marketing
- digital media content creation
- local, national or international news reporting
- public relations
- radio and podcasting
- social media
- videography and photography

Graduates are competitive candidates for many roles, including these:

- audience engagement specialist
- copy editor
- director
- magazine writer
- news anchor
- news reporter
- producer
- radio and podcast host
- videographer

Mass Communication and Media Studies, BA (CSMCMSTBA)

Campus: Downtown Phoenix, Online

Program Description: The BA in mass communication and media studies gives students a deep and nuanced understanding of the growing importance, power and influence of media around the world.

The program explores global mass communication issues from all dimensions: societal, cultural, historical, political, economic, technological and legal. Students learn how to critically analyze media, from news to sports to pop culture, and apply that understanding to the world around them.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics OR any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-mass-communication-and-media-studies/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=CSMCMSTBA~null + &college=CCS>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Evaluate the changing nature of media in the world from societal, cultural, historical, political, economic, technological, and legal dimensions.
- Evaluate the accuracy and credibility of media sources and information and media's impact on society.
- Evaluate media products, tools, digital platforms, and social networks and the digital audiences that comprise these platforms and networks.

Global Opportunities:

Global Experience: As the world grows more connected, an understanding of other cultures and places is imperative. Studying abroad (<https://goglobal.asu.edu/>) helps students grasp how different cultures and the media actors that originate from those cultures interact and influence. Practical experience in programs that observe and analyze international media, news culture and journalism prepare students for careers in which they will need to articulate well and utilize knowledge of multicultural communication styles.

Career Opportunities: A sophisticated understanding of mass communication is a critical asset for careers in business, government, community and the nonprofit sectors. Graduates have varied career opportunities, such as with:

- communications firms
- education institutions
- government entities
- political parties
- professional organizations
- publishing companies

Graduates also are prepared to pursue graduate studies in fields such as law, medicine, the arts, education and journalism.

Sports Journalism, BA (CSSPJBA)

Campus: Downtown Phoenix

Program Description: Sports media is one of the fastest-growing sectors of the media industry, with continued growth across multimedia outlets; broadcast and cable channels and networks; radio and podcasting; and team, league and conference websites and social media platforms.

The Walter Cronkite School of Journalism and Mass Communication's BA program in sports journalism gives students unparalleled preparation for careers in sports media and communications through courses such as sports writing, sports photography, sports strategic communications, broadcast sports reporting, live sports production, play-by-play, and sports marketing and campaigns.

During the sports journalism degree program, students complete a variety of professional experiences. Internship partners include professional sports teams from the Diamondbacks to the Suns; Arizona State University athletics; local, regional and national sports media outlets like ESPN and Fox Sports; and more. Sports journalism students also participate in the school's semester-long immersive learning experiences, working with sports clients in the Cronkite Agency, or reporting from sports bureaus in Phoenix and Los Angeles, where they cover teams and events in the NFL, MLB, NBA, WNBA, NHL, NASCAR, PGA, LPGA and Division I athletics.

High-performing students can apply to the school's accelerated bachelor's degree and master's degree program (<https://cronkite.asu.edu/accelerated-masters-degrees/>), which allows for the completion of both degrees in as few as four years. They also can become part of ASU's Barrett, The Honors College (<https://barretthonors.asu.edu/>).

Additional Program Fee: Y

Second Language Requirement: Yes

- Understand and apply ethical, diversity, and legal standards relevant to the journalism industry and create culturally proficient communication.
- Use the tools, technology, and techniques for content creation that adheres to accepted journalistic standards and practices, and prepares them for careers in sports media and communication.

Global Opportunities:

Global Experience: Sports and sports fans create one of the most globalized industries that unite cultures through passion for a favorite team, athlete or game. Study abroad programs (<https://goglobal.asu.edu/>) shed light on how amazing stories of sport, triumph and defeat connect us all. Students apply practical skills and learn about international sports firsthand by covering regional teams or large-scale sporting events like the Olympics.

Career Opportunities: Graduates of the sports journalism degree program are prepared for careers across media (including digital, print, video and audio) and athletics (teams, leagues, agencies and sports news organizations). They go on to pursue positions including sports writers, reporters, team content creators, producers, marketers, television anchors, multimedia specialists, social media managers, and strategic communications and public relations project coordinators.

Liberal Arts and Sciences, The College of

Actuarial Science, BS (LAACTBS)

Campus: Tempe

Program Description: Students in the BS degree program in actuarial science combine tools from mathematics, statistics and finance to measure the impact of risk, resulting in improved forecasting and decision-making.

The degree's core classes prepare students for the required professional actuarial credentialing exams offered by the Society of Actuaries and the

Casualty Actuarial Society. The school also offers reimbursements upon completion for the cost of taking these exams. The actuarial science program has a strong partnership with the local insurance industry, leading to many internship and scholarship opportunities for students.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Actuarial Science, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: Current ASU students who wish to change their major to actuarial science should have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A"), have completed at least MAT 265 Calculus for Engineers I or MAT 270 Calculus with Analytic Geometry I and CIS 105 Computer Applications and Information Technology (or CSE 100 or CSE 110), and have earned a "B" grade or better in all critical classes they have already completed.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAACBBS-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Identify the proper mathematical and statistical theories that may be applied to analyze actuarial data and draw analytical conclusions in a professional environment.
- Use mathematical theories to demonstrate mastery of analytical decision making based on both qualitative and quantitative data.
- Use statistical theories to demonstrate mastery of analytical decision making based on both qualitative and quantitative data.

Global Opportunities:

Global Experience: Study abroad students are able to enhance their resumes with the heightened cultural competency, and leadership and critical thinking skills they acquire through this valuable experience.

Each of the more than 300 Global Education program options (<https://goglobal.asu.edu/>), whether in a foreign country, in the U.S. or online, provides an opportunity for students to develop a valuable skill set that can give them an advantage in their career as well as personal enrichment. Global Education programs encourage students to build communication skills, challenge them to adapt and persevere, expose them to differences around the world and enhance their ability to work with diverse groups of people.

Career Opportunities: Actuary is consistently ranked as one of the best jobs in America. It offers a high income in a low-stress environment, with excellent job security, growth opportunities and work-life balance.

Risk is a part of daily life, and wherever there is risk, there are opportunities for actuarial intervention. Many actuaries work with insurance companies to calculate premiums, determine reserves needed to ensure an organization's financial health, and ensure that organizations conform to stringent, complex legal mandates. Others help companies to establish retirement plans or are employed as consultants.

Graduates with a Bachelor of Science in actuarial science possess skills that are transferable to any industry and any organization that requires risk modeling and management, including:

- colleges and universities
- consulting firms
- energy and environmental companies
- financial services
- government agencies
- insurance companies
- retirement and pension companies
- transportation companies

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

African and African American Studies, BA (LAAFRBA)

Campus: Tempe, Online

Program Description: The African and African American studies program at ASU has assembled a dynamic faculty engaged in investigating the riveting complexities of Africa.

Trained in a variety of disciplines that include anthropology, health, history, journalism, literature, sociology, political science and women's studies, the faculty guide students as they examine a wide array of critical issues facing African-descended peoples across the stages of life at various times and places in history.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Science and Technology Policy, MSTP

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/african-studies/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAAFRBA-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Conduct independent research exploring critical issues in and to the African diaspora.
- Apply digital literacy skills to present their research in the field.
- Analyze the ways in which race intersects with other social locations in shaping ideology, as well as social, political and cultural institutions.

Global Opportunities:

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) enable students to experience a very different cultural environment. Learning to adapt can be challenging at first, but rewarding by the end of the adventure. Students learn to grow outside of their comfort zone as they learn more about the world, and they may even change the way they think about and perceive others.

The College of Liberal Arts and Sciences recommends specific study abroad programs (<https://goglobal.asu.edu/students/major/sst/african-african-american-studies>) for students majoring in African and African American studies.

Career Opportunities: Through its emphasis on various social aspects and groups, the African and African American studies program provides students with practical applications useful for various workplaces. This program helps students develop cultural sensitivity and prepares them for careers in:

- administration
- advertising
- business

- counseling
- education
- health care
- human resources
- international relations
- journalism
- justice
- law

Graduates are prepared for work in many arenas, including:

- business --- corporations, hotel chains, public relations firms, sales departments, the insurance industry, travel agencies
- civic --- civil rights organizations, nonprofit organizations, social service agencies, the Peace Corps
- education --- colleges and universities, museums, research organizations
- government --- law firms, political action groups

American Indian Studies, BS (LAAISBS)

Campus: Tempe

Program Description: The BS program in American Indian studies emphasizes the latest research impacting Indigenous communities. Grounded in traditional knowledge and perspectives, the program is committed to highlighting the histories, languages, cultures, arts and contemporary challenges facing American Indian and Indigenous nations and peoples.

Students learn how to project and strengthen Indigenous communities across the U.S. and explore law and policy, colonization and decolonization, nation-building and more, developing career-readiness skills such as critical and creative thinking and reasoning.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- American Indian Studies (Indigenous Rights and Social Justice), MS
- American Indian Studies (Tribal Leadership and Governance), MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAAISBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Through study abroad, students can connect with Indigenous cultures around the world and expand the lens through which they view North American Indigenous populations. They can learn alongside peers from other countries and develop professional skills that include teamwork and cross-cultural communication. Students can stay on track academically by completing courses while they are in one of more than 300 Global Education programs (<https://goglobal.asu.edu/>).

Career Opportunities: Graduates of the American Indian studies program are qualified to fill positions at the tribal, state and federal government levels and in the private sector. They can pursue professional careers in fields such as government service or public service. For example, federally and tribally operated schools located in remote areas within Indian Country have high turnover rates for both teachers and staff. American Indian studies graduates should be available to help fill these positions. Furthermore, the federal government, a major employer on many reservations across the country, is in need of qualified people who are knowledgeable about Indian cultures, laws and policies. Additionally, many American Indian nations' economies and infrastructures are developing at a rapid pace, and they have a continuous need to fill mid-management and management-level positions.

Graduates find positions in many areas, such as:

- the arts
- community action work
- public administration (tribal or state relations, nonprofit management, education administration, planning)
- public health
- tribal employment (political office, tribal management, cultural resource programming, grant writing, cultural specializations, youth services)

This program also provides suitable preparation for advancing to graduate study or law school.

American Studies, BA (LAAMRSTBA)

Campus: Tempe

Program Description: The BA program in American studies bridges multiple disciplinary approaches to explore the diverse cultures, global impact, social systems, gendered experiences, socioeconomic realities and political thought of the United States. The field of American studies centers an understanding of diversity in U.S. society; understanding of how the U.S. national community represents and imagines itself; understanding of how this resonates globally; and understanding the role of social movements seeking to achieve political, legal and economic change.

The program trains students in the history and trajectory of the field of American studies; explorations of racial literacy, gender, sexuality and socioeconomic experiences grounded in historical contexts that help in understanding contemporary U.S. populations; critical methodologies, including how alternative voices are key in research, politics and policy, and social justice work; applied research methods, particularly those that involve community involvement and engagement; and the use of storytelling and narratives to represent diverse communities and facilitate broader understanding across groups.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website

(<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, American studies students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates are prepared for careers in policy, education and teaching, urban planning, sustainability, sociopolitical movements, environmental impacts, advocacy, nonprofit organizations, government, journalism, law and justice, public safety and health. This degree program is also well suited for pairing with other professional degrees that prepare students for these careers.

Anthropology, BA (LAASBBA)

Campus: Tempe, Online

Program Description: Anthropology is the study of what it means to be human, in the broadest possible terms.

The BA program in anthropology helps students recognize and solve problems facing the contemporary world through a broad understanding of humanity. Working alongside leading faculty, students gain experience as apprentices on research projects. Students also have opportunities for hands-on learning through study abroad programs and field schools.

This interdisciplinary program offers training in the main areas of anthropology, including archaeology, bioarchaeology, sociocultural anthropology and evolutionary anthropology.

Students enrolled in this program may not pursue a concurrent BS in anthropology or Bachelor of Arts in global health, but they may add a minor in

global health to complement the core curriculum. The Bachelor of Arts in anthropology is primarily for those whose interests lie in society, culture and archaeology, while the Bachelor of Science is primarily taken by students interested in science and mathematics-based courses.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Health, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-anthropology/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAASBBA-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Study abroad students often cite participation in Global Education programs (<https://goglobal.asu.edu/>) as the highlight of their academic career and a crucial moment in helping them gain a clearer view of the world, its peoples and the complex challenges facing everyone.

The School of Human Evolution and Social Change offers a suite of faculty-directed Global Education programs designed to connect students with real-life issues that impact local communities yet transect borders. Through any of the more than 300 programs available, students can see the world as they never have before and come away with memories to last a lifetime.

The College of Liberal Arts and Sciences recommends these programs (<https://goglobal.asu.edu/students/major/anthropology>) for students majoring in anthropology.

Career Opportunities: Graduates have the knowledge and skills they need to find jobs in fields where understanding complex human behavior is important.

As the many spheres of human interaction expand globally, people trained in anthropology are increasingly in demand for their broad, holistic knowledge and perspectives and their ability to evaluate and interpret complex problems and work effectively across cultures and languages.

Career opportunities include positions as:

- cultural consultants
- curators
- emergency responders
- health care administrators
- nonprofit leaders
- policy analysts
- program directors
- refugee legal advocates
- researchers and professors

Anthropology, BS (LAASBBS)

Campus: Tempe, Online

Program Description: This BS program in anthropology provides data collection, analysis and research design training within the scientific approaches to anthropology.

Students learn how to use the scientific method to formulate and test hypotheses and how to gather data through such methods as field surveys, excavation and measurement. They also learn to employ statistics to analyze and extract meaning from data. Through broad anthropological coursework, students learn to ask essential questions about the human species and gain the tools to answer them.

This interdisciplinary program offers training in the main areas of anthropology, including archaeology, bioarchaeology, sociocultural anthropology and evolutionary anthropology.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Health, MS

the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Asia Studies (Southeast Asia), BA (LAHSTSEABA)

Campus: Tempe

ASU is no longer accepting new students to this program. Students interested in this program should apply to the Global Asia Studies BA (<https://degrees.apps.asu.edu/bachelors/major/ASU00/LAASIABA/global-asia-studies>) program.

Program Description: The BA program in Asia studies offers students the opportunity for in-depth study of East Asia, South Asia or Southeast Asia through a coherent curriculum of academic study across a number of disciplines. The transdisciplinary approach provides students with a variety of intellectual tools to address contemporary political, social and cultural issues in Asia and to apply their knowledge in various academic and practical settings.

The Asia studies degree program with a concentration in Southeast Asia includes coursework that covers:

- Brunei
- Burma/Myanmar
- Cambodia
- East Timor
- Indonesia
- Laos
- Malaysia
- the Philippines
- Singapore
- Thailand
- Vietnam

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM

Global Management (Public Policy), MGM
Global Management (Sustainability Solutions), MGM
Global Management (Sustainable Tourism), MGM
Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAHSTSEABA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students have the opportunity to immerse themselves in the very cultures they are studying through Global Education programs (<https://goglobal.asu.edu/>) available throughout Southeast Asia. They can deepen their understanding of Southeast Asian history, philosophy and culture, and the heightened cultural competency, adaptability, critical thinking and communication skills they acquire through study abroad will enhance their resumes.

The College of Liberal Arts and Sciences recommends these study abroad programs (<https://goglobal.asu.edu/asia-studies-ba>) for students majoring in Asia studies with a concentration in Southeast Asia.

Career Opportunities: People knowledgeable about Asia are required in virtually every arena in which the U.S. interacts with the rest of the world, including:

- communication and journalism
- diplomacy, trade and international organizations
- food security
- higher education
- humanitarian service and philanthropy
- intelligence
- law and law enforcement
- military studies
- technology transfer
- transportation and tourism

Asian Languages (Chinese), BA (LACHIBA)

Campus: Tempe

Program Description: The BA program in Asian languages with a concentration in Chinese emphasizes proficiency in reading, writing and speaking modern Mandarin, as well as in reading classical Chinese.

Students gain an in-depth understanding of the fundamentals of the rich Chinese cultural tradition centered on primary Chinese texts from the literary, intellectual and religious cultures of Chinese-speaking societies.

Students interested in learning Chinese are encouraged to inquire about the Chinese Language Flagship Program (<https://silc.asu.edu/chineseflagship>). All students with higher levels of linguistic competency may enroll in targeted courses offered as part of the Chinese flagship track.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent degrees or a second baccalaureate in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LACHIBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Studying abroad (<https://goglobal.asu.edu/>) is vital when learning the Chinese language. Immersing oneself in the second most spoken language in the world adds value to the degree, and having a thorough understanding of Chinese cultural elements prepares graduates to take off in an exciting, multicultural career with valuable skills employers seek, like heightened cultural competency, adaptability, critical thinking and communication skills.

Career Opportunities: Knowledge of multiple languages and intercultural competencies enhances any occupation and offers graduates many career opportunities. Language-intensive professions include:

- foreign correspondent
- foreign media professional
- foreign service officer

- international banking and finance professional
- language, literature or culture teacher
- law and immigration professional
- multilingual administrative professional
- translator or interpreter
- travel professional

Asian Languages (Japanese), BA (LAJPNBA)

Campus: Tempe

Program Description: Students in the BA program in Asian languages with a concentration in Japanese study the language, literature and culture of Japan and gain a respectable measure of competence in reading, writing and oral and aural skills in the Japanese language. Students also gain linguistic and cultural competence through the required study of classical Japanese.

In addition, ASU offers summer or yearlong programs to study abroad (<https://goglobal.asu.edu/>) in Japan.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Asian Pacific American Studies, BA (LAAPABA)

Campus: Tempe

Program Description: The BA program in Asian Pacific American studies prepares students to engage and transform their communities.

Asian American, Native Hawaiian and Pacific Islander communities include multiracial and multiethnic coalition-building and resistance, colonization and military occupation, exploited labor, Indigenous sovereignty, environmental justice, migration, multiracial identities, activism, creative resistance, and diverse genders and sexualities. These diverse AAPI experiences provide key insights about global processes that inform current issues and how AAPI communities have responded within local contexts.

Students may apply the interdisciplinary knowledge and skills they learn in this program to an optional internship working with local communities in culturally relevant ways that are productive and empowering.

Asian Pacific American studies emphasizes community-engaged research methods, local community collaboration and independent research for the development of transferable skills applicable to professional careers, civic engagement and world-making. The program applies a pedagogy of care and creative options that promote student learning and success.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

American Studies, MA

Social and Cultural Pedagogy, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAAPABA-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze a historical or contemporary issue affecting the AAPI community.
- Ability to critically discuss and analyze Asian American and Pacific Islander experiences and communities within local, national and global contexts.
- Demonstrate an understanding of the history of Asian American and Pacific Islander communities in the U.S. through an internship or a research project under the supervision of an ASU faculty member.

Global Opportunities:

Global Experience: Students in the Asian Pacific American studies program are able to enhance their education by studying abroad.

With more than 300 Global Education programs (<https://goglobal.asu.edu/>) available to them in more than 65 countries, including many countries in Asia, students can improve their language skills, gain firsthand experience in their field of study, and experience new and unique cultures. Students gain a new perspective on international affairs, dispel stereotypes and improve their cultural competency.

The College of Liberal Arts and Sciences recommends these programs (<https://goglobal.asu.edu/students/major/sst/asian-pacific-american-studies>) for students majoring in Asian Pacific American studies.

Career Opportunities: Graduates who complete the bachelor's degree program in Asian Pacific American studies possess skills relevant for any

career, professional degree or graduate school. Training from this program also complements work in positions involving:

- business
- community organizations
- creative arts
- education
- health
- immigration
- journalism
- law
- social work

Astronomical and Planetary Sciences, BS (LAASPLSBS)

Campus: Online

Program Description: The online BS program in astronomical and planetary sciences provides broad training in the scientific foundations required to understand and communicate the fundamentals of space exploration and ongoing advances in the field.

The degree program includes groundwork in mathematics and physical sciences, topical courses focused on diverse fields within astronomy and planetary science, and exposure to the engineering and computational tools and techniques used to carry out research.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or higher

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/astronomy-bachelors/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAASSTPLSBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, astronomical and planetary sciences students are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates pursue careers in fields that value the quantitative and technical skills taught as part of an astronomy education. These include K-12 STEM teaching positions, science and technology journalism and writing careers, technical careers involving statistical data analysis or computer programming, or technical positions supporting space and research industry and policy.

Career opportunities include:

- analytical lab technician
- astronomer
- data analyst
- instrumentation specialist
- museum director
- planetary scientist
- research scientist
- science teacher
- science writer
- telescope operator

Career settings include:

- aerospace industry organizations
- educational institutions
- federal, state and local government agencies
- manufacturing centers
- museums or planetariums
- NASA facilities
- national laboratories
- NSF facilities
- observatories
- space industry organizations

For more information, students can visit the career opportunities page on the School of Earth and Space Exploration website (<https://sese.asu.edu/student-life/career-opportunities>).

Biochemistry, BA (LABCHBA)

Campus: Tempe, Online

Program Description: The BA program in biochemistry imparts a foundational understanding of basic chemistry, biomolecular chemistry, cellular function, and liberal arts and languages. The program encourages students to explore biochemistry-related questions and challenges, honing their analytical thinking and problem-solving skills. By integrating liberal arts and language courses with physical sciences, students develop a holistic perspective.

The curriculum encompasses traditional coursework, featuring lectures and laboratory sessions that equip students with both theoretical knowledge and practical laboratory skills. Students are encouraged to join faculty research groups, enabling hands-on participation in ongoing scientific investigations. Flexibility in the program structure accommodates individual goals, including the pursuit of dual degrees or specific interests.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 251 - Calculus for Life Sciences. Students may complete MAT 270 Calculus with Analytic Geometry I or MAT 265 Calculus for Engineers I in lieu of MAT 251 Calculus for Life Sciences.

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/biochemistry-ba/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LABCHBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: When studying abroad (<https://goglobal.asu.edu/>), students gain valuable experience in a diverse set of programs. Students earn ASU credit for completed courses, while staying on track for graduation.

With their resumes enhanced by the heightened skills in communication, critical thinking and leadership they acquired through the study abroad experiences, graduates stand out competitively in their chosen fields.

Career Opportunities: Graduates of this program are prepared for careers in a variety of fields, such as medicine and health, chemical and biotechnology industry, pharmaceuticals, environmental and food science, food production, environmental protection, scientific sales and marketing, and other forms of public service such as policymaking and teaching, patent law and many other technical areas.

Those with a Bachelor of Arts in biochemistry also are well prepared for application to graduate schools, such as medical, dental and pharmacy.

Biochemistry, BS (LABCHBS)

Campus: Tempe, Online

Program Description: The BS program in biochemistry equips students with a solid foundation in basic chemistry, biomolecule properties and functions, and cellular mechanisms. The program encourages critical inquiry and problem-solving, preparing students to address complex biochemistry-related challenges.

Through laboratory work, students gain hands-on experience and hone experimental techniques and data analysis skills. Students are encouraged to engage with faculty research groups and labs, providing valuable exposure to ongoing scientific investigation.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Biochemistry (Medicinal Chemistry), BS (LABCHMBS)

Campus: Tempe, Online

Program Description: Students in the BS program in biochemistry with a concentration in medicinal chemistry gain in-depth understanding of basic chemistry, biomolecular properties and function, and mechanisms governing cellular function. They develop the knowledge required to apply chemical and biochemical principles to drug design and functionality, with a specific focus on medicinal chemistry.

The curriculum comprises traditional coursework with a concentration in medicinal chemistry, combining lectures and laboratory sessions to provide a strong foundation in chemistry and biology. The program emphasizes the application of chemical and biochemical thinking to the design and mechanisms of medicines.

Students are encouraged to participate in faculty research groups and labs, offering hands-on research experiences in the field of medicinal chemistry.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate

degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I or MAT 265 Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Biochemistry (Medicinal Chemistry), MS
Computational Life Sciences, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/medicinal-chemistry/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LABCHMBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Each of the more than 300 Global Education program (<https://goglobal.asu.edu/>) options provides an opportunity for students to develop a valuable skill set that can give them an advantage in career and personal enrichment. Studying abroad helps students build cultural competency skills as well as heightened skills in communication, critical thinking and leadership that allow them to stand out on their graduate school applications.

Whether in a foreign country, in the U.S. or online, Global Education programs encourage students to build communication skills, challenge them to adapt and persevere, expose them to differences across the world and increase their ability to work with diverse groups of people. Students earn ASU credit for completed courses while staying on track for graduation.

Career Opportunities: A solid undergraduate education in biochemistry with an emphasis in medicinal chemistry provides the necessary background for career paths in chemical, medical, pharmaceutical and biotechnology industries and for careers in governmental regulation, health care, research and other areas.

Many students who intend to apply to medical school take biochemistry with a medicinal chemistry emphasis in order to make their applications more competitive, and this degree program is ideal for such students. The program provides excellent preparation for advanced graduate study in biochemistry, pharmaceuticals, pharmacology and toxicology, as well as for careers in drug design and pharmaceuticals, medicine and health, research, food production, environmental protection and several other technical fields.

Students planning careers in medicine, dentistry, pharmacy, veterinary medicine or research in these or related fields also often pursue the medicinal chemistry concentration with supporting work in biology and chemistry as the route for pre-professional training.

Biological Sciences, BS (LABSCBS)

Campus: Tempe, Online

Program Description: In the BS program in biological sciences, students discover the basic organization and processes of life, from molecules to ecosystems. They investigate how hereditary information is transferred, how organisms evolve and the interplay of organisms and their environment.

Students can opt for the Bachelor of Science in biological sciences with no concentration, or they can choose one of five:

- biology and society
- biomedical sciences
- conservation biology and ecology
- genetics, cell and developmental biology
- neurobiology, physiology and behavior

The general degree allows students to take core courses in multiple disciplines and have flexibility to focus their study on their areas of interest.

This program is available as an accelerated degree program (<https://sols.asu.edu/degree-programs/accelerated-bachelors-masters-science>).

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Biology (Biology and Society), MS
Biology, MS
Computational Life Sciences, MS
Global Management (Creative Industries and Design Thinking), MGM
Global Management (Digital Audience Strategy), MGM
Global Management (Global Affairs), MGM
Global Management (Global Business), MGM
Global Management (Global Development and Innovation), MGM
Global Management (Global Digital Transformation), MGM
Global Management (Global Entrepreneurship), MGM
Global Management (Global Health Care Delivery), MGM
Global Management (Global Legal Studies), MGM
Global Management (Nonprofit Leadership and Management), MGM
Global Management (Public Administration), MGM
Global Management (Public Policy), MGM
Global Management (Sustainability Solutions), MGM
Global Management (Sustainable Tourism), MGM
Global Management, MGM
Microbiology, MS
Molecular and Cellular Biology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/biological-sciences-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LABSCBS-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate capacity for scientific thinking by applying relevant background knowledge to analyze and/or develop scientific explanations.
- Effectively communicate complex scientific concepts, ideas, and reasoning with appropriate use of relevant sources and evidence.
- Demonstrate preparedness for graduate/professional degree programs and/or employment.

Global Opportunities:

Global Experience: Professional health education is competitive. Less than 50% of students who apply to medical schools are admitted; the numbers vary for other health-related fields. Medical and professional school admission officers increasingly focus on students with dedication to community service, so engaging in community activities and research abroad will help any student who intends to pursue a health career to create a diverse, accomplished portfolio that can give them an advantage over the competition.

Study abroad students experience distinct biological environments and gain an understanding of worldwide differences in the human condition. Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to develop a valuable skill set by exposing them to different health environments and expanding their knowledge of culturally specific health approaches.

The College of Liberal Arts and Sciences recommends these programs for students majoring in biological sciences. (<https://goglobal.asu.edu/students/major/biological-sciences>)

Career Opportunities: The biological science major provides an excellent foundation for advanced research and graduate study in biological sciences, health sciences, law and other graduate-level and professional programs, including dentistry, medicine, pharmacy and veterinary medicine.

The Bachelor of Science degree program also prepares graduates with the strong foundation they need for direct entry into their choice of career in many field options, including biotechnology, education, government and industry.

Biological Sciences (Biology and Society), BS (LABSCSBS)

Campus: Tempe, Online

Program Description: In the BS program in biological sciences with a concentration in biology and society, students explore the social, philosophical, historical, ethical and policy dimensions of science, technology and medicine.

They investigate the motivation behind research, learn to ask probing questions about how and why biological problems are studied in the past and present, and examine how these factors interact with policy decisions.

In this highly individualized program, students can engage in independent study and research projects. They gain hands-on experience with world-renowned faculty in bioscience ethics, history and philosophy of science, science communication, science education and science policy.

This program is available as an accelerated degree program (<https://sols.asu.edu/degree-programs/accelerated-bachelors-masters-science>).

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. - Demonstrate capacity for scientific thinking by applying relevant background knowledge to analyze and/or develop scientific explanations.
- Effectively communicate complex scientific concepts, ideas, and reasoning with appropriate use of relevant sources and evidence.
- Demonstrate preparedness for graduate/professional degree programs and/or employment.

Global Opportunities:

Global Experience: Through study abroad programs, whether in a foreign country, in the U.S. or online, students studying biological sciences experience distinct biological environments and gain an understanding of worldwide differences in the human condition. They are exposed to a variety of laws, policies and practices in biology-centric environments worldwide and expand their knowledge of how science impacts society. Students can engage in community service and outreach all around the world, which can help their graduate and professional program applications stand out.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their experience to their specific interests and skill sets. The College of Liberal Arts and Sciences recommends these programs for students majoring in biological sciences with a concentration in biological and society. (<https://goglobal.asu.edu/students/major/sls/biological-sciences-biology-society>)

Career Opportunities: The biology and society concentration within the biological sciences major provides students with an individualized and skill-based foundation in life sciences and complex human issues. This foundation will enable them to pursue advanced research and graduate study in biology, ethics, education and history and philosophy of science.

The Bachelor of Science degree program also prepares graduates with the historical, philosophical, political and ethical perspectives they need for direct entry into their choice of career in any of many field options, including medicine, law, public health, public policy and academia.

Biological Sciences (Biomedical Sciences), BS (LABSCMBS)

Campus: Tempe, Online

Program Description: The BS program in biological sciences with a concentration in biomedical sciences is tailored for students who wish to pursue careers in medicine, other health professions or biomedical research.

Curriculum aligns with the broad scientific competencies recommended for premedical students. Students will be well prepared for the MCAT and medical school admission and well versed in the core concepts, competencies and critical intellectual skills necessary for success in medical school or biomedical research.

In addition to coursework, students gain hands-on experience with world-renowned faculty with opportunities to engage in independent research projects or internships to jump-start their professional careers.

This program is available as an accelerated degree program (<https://sols.asu.edu/degree-programs/accelerated-bachelors-masters-science>).

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their experience to their specific interests and skill sets. The College of Liberal Arts and Sciences recommends these programs for students majoring in biological sciences with a concentration in biomedical sciences (<https://goglobal.asu.edu/students/major/sls/biological-sciences-biomedical-sciences>).

Career Opportunities: The biomedical sciences concentration within the biological sciences major provides students with a mastery of the competencies and prerequisite requirements valued by graduate programs in medical, dental and optometry fields as well as other programs that

prepare students to become physician assistants or physical therapists.

The Bachelor of Science degree program also prepares students with an understanding of the process of science, knowledge of foundational concepts in biological sciences, chemistry, physics and statistics, and the ability to understand and apply core biomedical concepts. This groundwork prepares students for direct entry into biology research careers in a vast number of areas, including genetics, genomics, evolution, physiology and immunology.

Biological Sciences (Genetics, Cell and Developmental Biology), BS (LABSCGBS)

Campus: Tempe, Online

Program Description: In the BS program in biological sciences with a concentration in genetics, cell and developmental biology, students gain an understanding of the intricacies of life. They investigate:

- developmental changes organisms undergo throughout life
- DNA sequence and gene expression
- how genes and the environment interact
- the machinery of life enclosed within the boundaries of cells
- the relationship between cell life and diseases

In addition to coursework, students gain hands-on experience by working with world-renowned faculty with opportunities to engage in independent research projects and internships.

This program is available as an accelerated degree program (<https://sols.asu.edu/degree-programs/accelerated-bachelors-masters-science>).

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Biology (Biology and Society), MS
Biology, MS
Computational Life Sciences, MS
Global Management (Creative Industries and Design Thinking), MGM
Global Management (Digital Audience Strategy), MGM
Global Management (Global Affairs), MGM
Global Management (Global Business), MGM
Global Management (Global Development and Innovation), MGM
Global Management (Global Digital Transformation), MGM
Global Management (Global Entrepreneurship), MGM
Global Management (Global Health Care Delivery), MGM
Global Management (Global Legal Studies), MGM
Global Management (Nonprofit Leadership and Management), MGM
Global Management (Public Administration), MGM
Global Management (Public Policy), MGM
Global Management (Sustainability Solutions), MGM
Global Management (Sustainable Tourism), MGM
Global Management, MGM
Microbiology, MS
Molecular and Cellular Biology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bs-genetics-cell-and-developmental-biology/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LABSCGBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate capacity for scientific thinking by applying relevant background knowledge to analyze and/or develop scientific explanations.
- Effectively communicate complex scientific concepts, ideas, and reasoning with appropriate use of relevant sources and evidence.
- Demonstrate preparedness for graduate/professional degree programs and/or employment.

Global Opportunities:

Global Experience: Through study abroad programs, students studying biological sciences experience distinct biological environments and gain an understanding of worldwide differences in the human condition. They are exposed to a variety of laws, policies and practices in biology-centric environments worldwide and expand their knowledge of how science impacts society. Students also are able to engage in community service and outreach all around the world, which can help them stand out in graduate study or a professional career.

With more than 300 programs available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their experience to their specific interests and skill sets. The College of Liberal Arts and Sciences recommends these programs for students majoring in biological sciences with a concentration in genetics, cell and developmental biology (<http://goglobal.asu.edu/students/major/sls/biological-sciences-genetics-cell-developmental-biology>).

Career Opportunities: The genetics, cell and developmental biology concentration within the biological sciences major provides students with critical thinking skills and fundamental coursework that will enable them to pursue advanced research and graduate study in biological sciences, health sciences, law, and other graduate level and professional programs, including dentistry, medicine, pharmacy and veterinary medicine.

The Bachelor of Science degree program also prepares graduates with skills that can be applied to many scientific problems as well as to the challenges of daily life, and the strong foundation they need for direct entry into their choice of career in a variety of fields, including research, bioinformatics, medicine and healthcare, forensics and veterinary care.

Biological Sciences (Neurobiology, Physiology and Behavior), BS (LABSCABS)

Campus: Tempe, Online

Program Description: In the BS program in biological sciences with a concentration in neurobiology, physiology and behavior, students discover how animals --- including humans --- function, think and behave.

Students investigate molecular and cellular processes and the function of organismal systems, including neural, muscular, cardiovascular, respiratory, renal and digestive. They explore ecological and evolutionary influences and biomedical implications in order to develop a holistic understanding of animal function.

In addition to coursework, students gain hands-on experience with world-renowned faculty, with opportunities to engage in independent research projects and internships.

This program is available as an accelerated degree program (<https://sols.asu.edu/degree-programs/accelerated-bachelors-masters-science>).

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

- Demonstrate preparedness for graduate/professional degree programs and/or employment.

Global Opportunities:

Global Experience: Through study abroad programs, whether in a foreign country, in the U.S. or online, students studying biological sciences experience distinct biological environments and gain an understanding of worldwide differences in the human condition. They are able to be exposed to a variety of laws, policies and practices in biology-centric environments worldwide and expand their knowledge of how science impacts society.

With more than 300 options available, Global Education programs (<https://goglobal.asu.edu/>) allow students to tailor their experience to their specific interests and skill sets, and they are able to engage in community service and outreach, which can help their graduate and professional program applications stand out.

The College of Liberal Arts and Sciences recommends these programs for students majoring in neurobiology, physiology and behavior. (<http://goglobal.asu.edu/students/major/sls/neurobiology-physiology-behavior>)

Career Opportunities: The neurobiology, physiology and behavior concentration within the biological sciences major provides students with critical thinking skills and a solid platform for advanced research, graduate study and other professional programs, including endocrinology, environmental or behavioral physiology, human physiology, metabolism, neurobiology and social behavior.

The Bachelor of Science degree program also prepares students with an understanding of the process of science, knowledge of foundational concepts in biological sciences, chemistry, physics and statistics, and the ability to understand and apply core biomedical concepts. This groundwork prepares students for direct entry into technical positions in hospitals; government laboratories and agencies; research institutes; and food, dairy, chemical, pharmaceutical and biotech industries.

Biophysics, BS (LABIPHBS)

Campus: Tempe, Online

Program Description: The BS program in biophysics uses the methods and theories of physics to study biological systems. This includes gaining a working understanding of principles that govern all scales of biological organization, from molecular processes of life to organisms and ecosystems.

Students are exposed to novel learning methods and laboratory experiences, with additional opportunities to conduct independent research and work directly with faculty in the field. This strong foundation prepares students to seek roles within academia, medicine, renewable energy, research and technology.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: Current ASU students who wish to change their major to biophysics should have a minimum cumulative GPA of 2.50 for all critical classes they have completed.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/biophysics-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in

their college journey.

Global Opportunities:

Global Experience: Study abroad affords students the opportunity to gain valuable experience in a diverse set of programs available in a variety of countries around the world. Students are able to study biophysics abroad through a wide set of opportunities related to physics, chemistry and biology.

Graduates who possess the heightened skills in communication, critical thinking and leadership they acquired through study abroad may stand out in a competitive field. More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

Career Opportunities: The wide variety of applicability of the principles of biophysics allows for great flexibility in the choice of career or further education.

This program provides students with the necessary background for career paths in biotechnology, chemical and medical industries.

The program also provides excellent preparation for medical school or advanced graduate study in biochemistry, biophysics, neurobiology, pharmacology, physics or radiology.

Chemistry, BA (LACHMBA)

Campus: Tempe, Online

Program Description: Students in the BA program in chemistry develop a well-rounded understanding of atomic and molecular-level science, with applications spanning energy and sustainability, new materials, medicine, nanoscience, environmental science, forensics, cosmetics, food chemistry, patent law, sales and marketing. They gain a solid foundation in physical science within a liberal arts context.

The curriculum encompasses a diverse range of coursework, including lectures and laboratory sessions, enabling students to apply atomic and molecular-level thinking to applicable problems. The program fosters critical thinking skills, problem-solving abilities and interdisciplinary competence.

While research is not the primary focus of this program, students may have opportunities to engage in laboratory research or projects. The program offers flexibility for students to explore various interests, including laboratory science, regulation or law in the public sector.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website.

The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I or MAT 265 Calculus for Engineers

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu>) for program descriptions and to request more information.

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: When studying abroad (<https://goglobal.asu.edu/>), chemistry students can gain valuable experience in a diverse set of programs. Students earn ASU credit for completed courses, while staying on track for graduation. Students who study abroad acquire heightened skills in communication, critical thinking and leadership.

Career Opportunities: A degree in chemistry provides the background for careers in chemical and electronics industries, in national research labs, environmental labs and forensic labs. Chemistry can be combined with law for patent work, with economics for sales and marketing careers, and with computer science for careers in information technology. Students with a strong liberal arts background are also prepared for careers in scientific sales, marketing, human development and training. Students often take chemistry degree programs to be competitive applicants for admission to medical, dental or pharmacy schools.

Chemistry, BS (LACHMBS)

Campus: Tempe

Program Description: Students in the BS program in chemistry acquire the profound understanding and practical skills needed to address complex scientific challenges at the atomic and molecular levels. The expertise they gain spans diverse fields, including energy, sustainability, technology materials, medicine, nanoscience, environmental science, forensics, cosmetics and food chemistry. Graduates emerge well prepared for advanced studies in chemistry and material science, positioning them competitively for graduate degree programs.

The curriculum encompasses a rigorous set of courses, integrating lectures and laboratory sessions. This approach equips students with a deep understanding of atomic and molecular principles and hones their problem-solving abilities. The program encourages critical inquiry, fostering the development of scientific thinking and analytical skills.

Students are strongly encouraged to join laboratory research groups, providing hands-on experience in scientific investigation and the opportunity to delve into advanced research. Given the nature of faculty research in the School of Molecular Sciences, Bachelor of Science in chemistry students generally have the widest selection of faculty to choose from and hence the greatest number of possible research opportunities.

Accreditation by the American Chemical Society (<https://www.acs.org>) underscores the program's quality and aligns students with industry standards. With a solid foundation in chemistry, hands-on laboratory experience and critical thinking skills, students are poised to make significant contributions to scientific advancement and address complex problems in their chosen disciplines.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate

degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. Chemistry (Environmental Chemistry), BS (LACHMEBS)

Campus: Tempe

Program Description: The BS program in chemistry with a concentration in environmental chemistry equips students with interdisciplinary knowledge, combining chemistry with environmental sciences, geology, mathematics and physics. Graduates gain a molecular perspective of the world, focusing on pollution control, energy and climate change. Students develop the expertise to address environmental challenges, making them well prepared for careers in environmental science, policy, regulation and advanced studies in chemical and environmental sciences at the graduate level.

The curriculum merges chemistry and environmental sciences courses, fostering a holistic understanding of environmental issues. It includes traditional coursework with lectures and hands-on laboratory sessions. The program emphasizes problem-solving, critical thinking and interdisciplinary competence. Students are encouraged to join laboratory research groups and faculty research projects, allowing them to engage in hands-on research and contribute to environmental solutions.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LACHMEBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students who participate in Global Education programs (<https://goglobal.asu.edu/>) can strengthen their understanding of environmental chemistry through hands-on experience in new and exciting environments. Programs provide students with a global perspective and

knowledge in preparation for a forward-thinking career.

Career Opportunities: A solid undergraduate program of education in chemistry that is obtained with this degree provides the necessary background for many career paths in chemical industries, government and other areas. This degree can be combined with law for patent work or government work, economics for sales and marketing careers, and computer science for careers in information storage and retrieval related to our planet.

Students planning to work in areas related to the environment will find the environmental chemistry concentration especially appropriate; they are also prepared for careers in environmental science, environmental monitoring, policy and regulation.

Civic and Economic Thought and Leadership, BA (LACELBA)

Campus: Tempe

Program Description: The BA program in civic and economic thought and leadership incorporates the study of political philosophy, economic thought, history and American politics.

Faculty teach using the Socratic method, which challenges students to analyze the complex topics impacting lives today. Students refine their ability to read closely, think analytically, write carefully and speak effectively.

Students have internship opportunities (<https://scetl.asu.edu/internships>) on Capitol Hill, in congressional offices in their district, with nonprofit organizations or in an area of their academic interest, enabling them to build their resume with professional experience and network with potential employers for after graduation. Global intensive experiences allow students to study in places such as Israel and the West Bank, India and South Africa. They also engage with world-renowned scholars who visit ASU through the school's public programs.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Classical Liberal Education and Leadership, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LACELBA-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students in the School of Civic and Economic Thought and Leadership have a variety of global and domestic experiential courses (<https://goglobal.asu.edu/students/major/civic-and-economic-thought-and-leadership-ba-bs-1>) available to them. Whether they involve practicing leadership skills in a rural Indian village, visiting new democracies in Israel, or studying Aristotle in the Arizona mountains, all of these courses ask students to cultivate curiosity, excellence and leadership.

Career Opportunities: Graduates are inspired and prepared to lead and serve in civil society, public affairs or government.

Career paths that graduates might pursue include business, education, foreign service, government, law, politics, national security affairs and public office.

Civic and Economic Thought and Leadership, BS (LACETLBS)

Campus: Tempe

Program Description: The BS program in civic and economic thought and leadership incorporates the study of political philosophy, economic thought, history and American politics and provides a foundation in social and political research and statistics.

Faculty teach using the Socratic method, which challenges students to analyze the complex topics impacting lives today. Students refine their ability to read closely, think analytically, write carefully and speak effectively.

Students have internship opportunities (<https://scetl.asu.edu/internships>) on Capitol Hill, in congressional offices in their district, and with nonprofit organizations that will build their resume with professional experience and enable them to network with potential employers for after graduation. Global intensive experiences allow students to study in places such as Israel and the West Bank, India and South Africa. They also engage with world-renowned scholars through the school's public programs.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Communication, BA (LACOMBA)

Campus: Tempe, Online

Program Description: The BA program in communication focuses on how message processes create, maintain and transform identities, relationships, workplaces and communities through a humanistic approach to the art of communication.

Students explore many fascinating concepts, such as how messages can optimally advocate for a cause, sports team or organization; how people can communicate creatively in various settings and styles; how valid messages differ from invalid messages; how and why cultural differences make communication difficult; and why some topics are difficult to discuss and consistently lead to conflict.

Through rigorous coursework and rewarding applied experiences, students gain effective communication skills that prepare them for employment in communication-intensive fields or for graduate study.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Communication Studies, MA

Communication, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Students who have attended previously ASU and are returning to the university with transfer credit must have a minimum ASU cumulative GPA of 2.00 in order to be admitted into the Hugh Downs School of Human Communication.

Transfer Admission Requirements: Students who are transferring into ASU must meet current university admission requirements.

Change of Major Requirements: Current ASU students who would like to change their major to the Bachelor of Arts in communication must have a minimum cumulative GPA of 2.00.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/communication-degree-ba/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LACOMBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program options (<https://goglobal.asu.edu/>) available to them, students may engage in a unique and exciting opportunity to gain intercultural experience through international programs of study, which they can tailor according to their experience and unique interests and skills.

Whether in a foreign country, in the U.S. or online, students in communication develop critical teamwork and problem-solving skills, expand their knowledge of the liberal arts through lenses of different cultures, and improve their language and cross-cultural skills for effective communication across populations.

The College of Liberal Arts and Sciences recommends these study abroad programs (<https://goglobal.asu.edu/students/major/communication>) for
2024-25 Academic Catalog Archive 2507

students majoring in communication.

Career Opportunities: Graduates often attend leading graduate schools in communication, law or business or find gainful employment in the areas of:

- campaign management
- community leadership
- diplomacy
- event planning
- health care management
- human resource management
- intercultural relations
- nonprofit management
- public relations
- sales
- training and development

Communication, BS (LACOMBS)

Campus: Tempe, Online

Program Description: How can someone create messages that are appropriate across different cultures? How can messaging convince people to change behaviors? How can someone measure the impact of social media? In the BS program in communication, students explore these questions and many more as they come to understand how messages create, maintain and improve relationships, workplaces and communities.

This degree program provides a social science and data-analytic focus, providing students with an understanding of quantitative research methods. Students learn to write and speak effectively and to convey complex ideas simply, preparing them for employment in a variety of career fields and for graduate study.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Communication Studies, MA
Communication, MA
Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply

(<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

Computational Mathematical Sciences, BS (LACMSBS)

Campus: Tempe

Program Description: This BS program in computational mathematical sciences is a fusion of mathematics, science and computing. Students in this program learn how to translate science and engineering problems into mathematical problems and solve them using computing algorithms.

Students develop strong problem-solving, analytical and programming skills as they work across diverse areas of science and mathematics. They have the opportunity to work with applied scientists in associated fields such as cancer modeling, seismic data interpretation, environmental modeling and weather forecasting, all of which involve computational mathematical sciences.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Mathematics, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LACMSBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Employ appropriate mathematical models to analyze and simulate various real world phenomena and processes.
- Apply computational tools for effective implementation of modeling of real world phenomena and processes.
- Analyze quantitative problems and draw conclusions by applying proper mathematical theories.

Global Opportunities:

Global Experience: Students gain valuable experience through study abroad programs. They can tailor their program to their unique interests and skill sets, and gain hands-on experience. Whether in a foreign country, in the U.S. or online, students are able to build communication skills, are challenged to adapt and persevere, and are exposed to differences, enhancing their ability to work with diverse groups of people.

Each of the more than 300 Global Education program (<https://goglobal.asu.edu/>) options available around the world provides students with the opportunity to develop a valuable skill set that can give them an advantage in their career, as well as personal enrichment.

Career Opportunities: According to Research.com (<https://research.com/degrees/best-college-majors-to-pursue>), mathematics and computer science rank among the top 25 college majors in terms of salary and job growth. The computational mathematical sciences program brings these disciplines together.

A bachelor's degree in computational mathematical sciences offers graduates many career options, including in:

- business
- computer technology
- engineering
- medical research
- teaching and education

Some pursue graduate education in areas such as biophysics, economics, medicine, statistics and data science.

Culture, Technology and Environment, BA (LACTEBA)

Campus: Tempe, Online

Program Description: The BA in culture, technology and environment is a collaborative program offered by the humanities division in The College of Liberal Arts and Sciences. Students take a humanistic approach to address issues surrounding:

- culture: approaching equitable and diverse global citizenship through the study of culture and language
- environment: addressing climate change, biodiversity loss, pollution and environmental justice through the arts and humanities
- technology: bringing humanities thinking to the human and ethical challenges of a world shaped by technology

Courses include studies in English, film and media studies, history, philosophy, religious studies, languages and cultures. Students also complete a core of classes that provide context and grounding, as well as hands-on experience in identifying challenges and developing solutions.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: N

Second Language Requirement: Yes

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Study abroad expands students' perspectives by exposing them to new and unique cultures, communities and people. Students can explore the English language at a deeper level through an extended lens of literature, dialects and rhetoric in one of more than 300 Global Education programs (<https://goglobal.asu.edu/>). Students who study abroad gain heightened cultural competency as well as communication and critical thinking skills, which enhance their educational experience and their resumes.

Career Opportunities: This multidisciplinary degree combines the best of humanities training with a focus on practical skills, preparing students for a variety of careers. Potential career fields include:

- climate change or policy analysis
- documentary writing or producing
- environmental activism
- environmental law
- journalism
- nature or science writing
- nonprofit leadership and management
- technical writing

Data Science, BS (LADATSCIBS)

Campus: Tempe, Online

Program Description: Data science uses sophisticated mathematical, statistical and computational tools to extract patterns from large, complex and often unordered data sets. The BS program in data science prepares students to be critical analysts in a variety of areas, such as business, research and government.

With a mathematical core consisting of linear algebra, statistical inference and classification, data mining, machine learning and associated computer methods, students leave the program with a strong background in data-related skills that are useful in understanding and solving practical issues.

This transdisciplinary program allows students to choose a focus area in:

- behavioral sciences
- biosciences
- business analytics
- computer science
- mathematics
- social sciences
- spatial sciences

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I or MAT 265 Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Computational Life Sciences, MS

Data Science, Analytics and Engineering (Bayesian Machine Learning), MS

Data Science, Analytics and Engineering (Computational Models and Data), MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/data-science-online-degree/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree

programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Employ analysis of data sets in order to make action oriented, ethical recommendations for societal change.
- Engage critically with real world data problems involving chosen areas such as healthcare, education, and government.
- Develop team oriented skills related to civil discourse while utilizing diverse programming languages and statistical processes to interpret results of their own data collection.
- Write a critique of data interpretations provided by real world sources in which they make critical inferences regarding the validity of provided data.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, data science students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Glassdoor.com ranks data scientist at No. 2 on its list of the 50 Best Jobs in America. The McKinsey Global Institute projects a shortage of qualified workers with deep analytical skills.

Graduates of the data science program possess skills related to data analysis, data prediction models and ethical uses of research data, helping them to meet the expressed needs of society. Graduates work in a variety of fields, including governmental research, education, health services, consumer behavior and business.

Earth and Environmental Sciences, BA (LAEESBA)

Campus: Tempe, Online

This program's name has changed effective Fall 2024. The previous name was Earth and Environmental Studies.

Program Description: The BA in Earth and environmental sciences helps students understand the function and evolution of the world and the vulnerabilities of the environment. The degree provides broad training in physical science and geoscience, with emphasis on understanding Earth's life-sustaining surface environment.

The program explores climate change, energy resources, natural hazards, ocean environments and implications for sustainable human civilizations, empowering graduates to help Arizona and the global community address many critical environmental challenges facing society.

Elective tracks allow students to focus their studies on climate and environmental change, environmental policy, sustainability, Earth resources, environmental management or environmental education.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 117 - College Algebra or higher

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/earth-environmental-sciences-major-ba/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAEESBA-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Not only is the physical environment varied across the globe, so is the human treatment of it. Global education programs (<https://goglobal.asu.edu/>) allow students to gain a deeper understanding of the global environment, how culture affects the environment and how to best communicate environmental research to a diverse audience. Programs are offered in a variety of countries around the world.

Career Opportunities: The Bureau of Labor Statistics and the American Geosciences Institute project strong job growth in environmental science and geoscience. Graduates will be well prepared for "green" professional careers in fields such as environmental education, environmental reporting, public planning, environmental consulting and natural resource management, or for graduate school in related disciplines such as natural and environmental sciences or education, environmental public policy and environmental management.

Career opportunities include:

- conservation scientist or natural resource manager
- data analyst
- environmental monitoring and exposure assessor
- environmental or sustainability consultant or planner
- environmental protection or remediation scientist, consultant or manager
- environmental specialist, analyst or technician
- natural hazards assessment and mitigation specialist
- public policy and planning specialist
- science teacher
- water resources specialist

Career settings include:

- educational institutions
- environmental consulting firms
- environmental engineering firms
- federal, state and local government agencies
- museums
- nongovernmental organizations
- nonprofit organizations
- publishing companies
- regulatory agencies
- utility companies

For more information, please see the career opportunities page on the School of Earth and Space Exploration website (<https://sese.asu.edu/student-life/career-opportunities>).

Earth and Environmental Sciences, BS (LAEESBS)

Campus: Tempe, Online

Program Description: The BS program in Earth and environmental sciences, both in-person and online, provides broad training in the physical sciences, especially process-oriented geosciences that focus on Earth's life-sustaining surface environment. This training establishes a foundational understanding of the evolution of the Earth system with an emphasis on the surface environment, oceans and climate, and implications for sustainable human societies, empowering graduates to help Arizona and the global community address some of the most pressing challenges of the day in environmental health, climate change and natural resources.

Elective tracks allow students to focus their studies on climate and environmental change, environmental policy, sustainability, Earth resources, environmental management or environmental education.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu>) available, Earth and environmental sciences students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates are prepared to attend graduate school in the natural and environmental sciences, education, environmental journalism, environmental law, public policy and environmental management.

They are also well prepared for *green* professional careers in fields such as education, environmental reporting, public planning, environmental consulting, natural resource management, and more technical positions as environmental scientists in a variety of sub-disciplines. According to the U.S. Bureau of Labor Statistics and corroborated by data reported by the Occupational Information Network, the many career opportunities in growth areas available to graduates of this program include:

- conservation scientist or natural resource manager (7% growth, \$64k)
- environmental science educator (secondary education: 8% growth, \$63k median salary).
- environmental science technician (11% growth, \$47k)
- environmental scientist (8% growth, \$73k median salary)
- geological and hydrologic technician (8% growth, \$73k)
- geoscientist (7% growth, \$93k)
- hydrologist (6% growth, \$84k)
- natural science manager (9% growth, \$51k)

Earth and Space Exploration, BS (LASESBS)

Campus: Tempe

Program Description: The BS program in Earth and space exploration offers students an integrated education across Earth sciences, planetary sciences, astrophysics and engineering. The degree program incorporates a learning community that includes science and engineering students, a yearlong collaborative capstone senior exploration project and strong quantitative preparation.

This foundation in geosciences, astrophysics and exploration engineering prepares students for key roles in Earth resources and exploration, environmental and geologic engineering, space research and industry, and water and environmental use policy.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Astrophysics and Astronomy, MS
- Exploration Systems Design (Instrumentation), MS
- Exploration Systems Design (Sensor Networks), MS
- Exploration Systems Design (Systems Engineering), MS
- Exploration Systems Design, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LASESBS-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Space exploration is an international endeavor, and an international experience provides students opportunities for cross-cultural engagement and improvement of language and communication skills. Global Education (<https://goglobal.asu.edu/>) allows students to take relevant classes while living in another country. Each of the more than 300 Global Education program options provide an opportunity for students to develop a valuable skill set that can give them an advantage in their career and personal enrichment. Whether in a foreign country, in the U.S. or online, Global Education programs encourage students to build communication skills, challenge them to adapt and persevere, expose them to differences across the world and increase their ability to work with diverse groups of people.

Career Opportunities: The Earth and space exploration major addresses critical future shortfalls in the national and regional training of the next generation of geoscientists and aerospace engineers.

Arizona has an expanding space industry with major new investments and is prepared to engage new technologies to monitor and understand environmental issues in the state, the Southwest and throughout the world.

Graduates with a Bachelor of Science in Earth and space exploration have the tools, knowledge and understanding to address key problems of a global nature, whether they are working in the private or public sector.

Career opportunities include:

- analytical lab technician
- astronomer
- data analyst
- geoscientist
- instrumentation specialist
- museum director
- planetary scientist
- research scientist
- science teacher
- science writer

Career settings include:

- aerospace industry organizations
- educational institutions
- federal, state and local government agencies
- manufacturing centers
- museums or planetariums
- NASA facilities
- national laboratories
- NSF facilities
- observatories
- space industry organizations

Earth and Space Exploration (Astrobiology and Biogeosciences), BS (LASESABBS)

Campus: Tempe

Program Description: Astrobiology and biogeosciences are closely related: biogeosciences inform the exploration for life on other worlds, while astrobiology motivates exploration of life's limits on Earth.

The astrobiology and biogeosciences concentration in the BS program in Earth and space exploration teaches students a strong and rigorous foundation in geology, biology, chemistry and astronomy. Participants develop the systems-thinking perspective needed to:

- contribute to the search for life on other planets
- study how the integrated Earth-life system evolves and responds to global environmental challenges
- understand the complex and evolving diversity and distribution of life on Earth

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

Career Opportunities: Graduates of the astrobiology and biogeosciences program are well prepared for graduate studies in two rapidly advancing fields. They are also well suited for careers in earth sciences, environmental sciences and space sciences. More broadly, the program provides training across a range of sciences and a "systems thinking" perspective, giving students a strong background for careers in biomedical or sustainability areas, as well as science education, writing or policy.

Career opportunities include:

- astronomer
- data analyst or scientist
- ecologist or natural resource manager
- environmental monitoring and exposure assessor
- environmental or sustainability consultant

- environmental protection or remediation scientist, consultant or manager
- geoscientist
- hydrogeologist
- science policy consultant
- science teacher

Earth and Space Exploration (Astrophysics), BS (LASESABS)

Campus: Tempe

Program Description: The BS program in Earth and space exploration with a concentration in astrophysics offers students a fundamental grounding in astronomy and astrophysics, with exposure to the related fields of geology, planetary science and engineering.

Students develop a background in theoretical modeling and observational techniques of galactic and stellar astronomy, extragalactic astronomy and cosmology. They are exposed to rigorous coursework in engineering and computer programming, and they learn to think critically about scientific problems. Through a capstone project, students gain valuable experience in translating science drivers into engineering solutions.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. Whether in a foreign country, in the U.S. or online, Global Education programs encourage students to build communication skills, challenge them to adapt and persevere, expose them to differences across the world and increase their ability to work with diverse groups of people.

Career Opportunities: Graduates possess the skills required for a career in astrophysics, physics and related fields, opening up diverse opportunities for employment in industry, government, education and other organizations. They also are prepared to pursue graduate school in astrophysics, or to perform laboratory research or data-intensive analyses that enable scientific progress or inform public policy.

Career opportunities include:

- analytical lab technician
- astronomer
- data analyst
- instrumentation specialist
- museum director
- planetary scientist
- research scientist
- science teacher
- science writer
- telescope operator

Career settings include:

- aerospace industry organizations
- educational institutions
- federal, state and local government agencies
- manufacturing centers
- museums or planetariums
- NASA facilities
- national laboratories

- NSF facilities
- observatories
- space industry organizations

The rigor of this degree enables future graduate study in the field of astrophysics, especially when combined with a physics minor. Earth and Space Exploration (Exploration Systems Design), BS (LASESESDBS)

Campus: Tempe

Program Description: The BS program in Earth and space exploration with a concentration in exploration systems design offers students a fundamental curriculum in geology, physics and astrophysics while providing tools that enable them to design and build hardware and software to explore Earth and the universe beyond.

The program has a rigorous and quantitative grounding in the fundamentals of physics, mathematics and chemistry. Coursework focuses on conceiving the requirements needed for a mission or project destined for space or extreme environments on Earth. All students are expected to complete a senior project that takes a desired scientific measurement and realizes the technological solution to achieve the observation.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Each of the more than 300 Global Education program options provide an opportunity for students to develop a valuable skill set that can give them an advantage in their career and personal enrichment. Whether in a foreign country, in the U.S. or online, Global Education programs encourage students to build communication skills, challenge them to adapt and persevere, expose them to differences across the world and increase their ability to work with diverse groups of people.

Career Opportunities: Graduates possess the skills required for a career in systems engineering, space systems engineering, scientific instrument engineering and engineering-focused careers in astronomy, geoscience and planetary science, opening up diverse opportunities for employment in industry, government, education and other organizations. They also are prepared to pursue graduate school in astrophysics, physics and engineering, or to perform laboratory research or data-intensive analyses that enable scientific progress or inform public policy.

Career opportunities include:

- astronomer
- computer software quality engineer
- computer systems architect
- engineering or technical services manager
- planetary scientist
- research scientist or instrumentation specialist
- science policy consultant
- science teacher (K-12)
- space systems engineer
- systems engineer

Career settings include:

- aerospace industry organizations
- educational institutions
- federal, state and local government agencies
- manufacturing centers
- NASA centers
- NSF facilities
- museums or planetariums
- national laboratories
- observatories
- space industry organizations

For more information, students can see the career opportunities page on the School of Earth and Space Exploration website (<https://sese.asu.edu/student-life/career-opportunities>).

Contact Information:

Earth and Space Exploration (Geological and Planetary Sciences), BS (LASESGSBS)

Campus: Tempe

This program's name has changed effective Fall 2024. The previous name was Earth and Space Exploration (Geological Sciences).

Program Description: The BS program in Earth and space exploration with an emphasis in geological and planetary sciences uncovers the processes that have shaped the Earth and other planets since the origin of the solar system. Students explore the coevolution of Earth's life, oceans, atmosphere and climate system and how their evolution is recorded in rocks, soil, ice and isotopes.

Students learn traditional and modern field methods, data analysis and more to effectively study the natural environment. This knowledge empowers graduates to work for the benefit of local, national and global communities. They also have the opportunity to study the potential for extraterrestrial life and the possibilities for the colonization of space.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I or higher

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Astrophysics and Astronomy, MS
- Exploration Systems Design (Instrumentation), MS
- Exploration Systems Design (Sensor Networks), MS
- Exploration Systems Design (Systems Engineering), MS
- Exploration Systems Design, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LASESGSBS-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 programs available, Global Education (<https://goglobal.asu.edu/>) allows students in the geological and planetary sciences concentration to gain hands-on experience in a variety of programs all over the world.

Graduates with heightened cultural competency, leadership and critical thinking skills acquired through study abroad may stand out in a competitive field.

Career Opportunities: Graduates will be well prepared for a wide range of careers in growing fields such as environmental geology, hydrogeology, geographical information systems analysis, critical mineral exploration, environmental consulting and natural resource management.

Sample career opportunities include:

- environmental monitoring and exposure assessor
- environmental or sustainability consultant
- geologist
- geophysicist
- hydrogeologist
- mineral exploration geologist or project manager
- natural hazards assessment, mitigation and recovery specialist
- natural resource manager
- science teacher (K-12)
- water resources scientist

Sample career settings include:

- educational institutions
- environmental consulting firms
- environmental engineering firms
- environmental industry organizations
- federal, state and local government agencies
- geotechnical industry organizations
- museums
- nonprofit organizations
- petroleum industry companies
- small exploration companies and large mining companies

The program also prepares students for graduate school in numerous disciplines within geoscience, planetary science, biogeoscience, science education or science communication.

For more information, students should see the career opportunities page on the School of Earth and Space Exploration website (<https://sese.asu.edu/student-life/career-opportunities>).

Economics, BS (LAECNBS)

Campus: Tempe, Online

Program Description: The Department of Economics at ASU provides the highest quality instruction to students, conducts cutting-edge research and provides leadership and service to its professional communities. ASU is ranked No. 26 among global universities for economics and business (U.S. News & World Report, 2022-2023).

The BS degree is built on a strong core of micro- and macroeconomic theory supplemented by mathematics, statistics and data analysis. The flexibility of the Bachelor of Science degree offered by The College of Liberal Arts and Sciences allows students to supplement their study of

economics with elective coursework offered by The College to broaden their knowledge and customize their program to suit individual goals and interests.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus Any math course that meets the MATH designation, except MAT 142 College Mathematics.

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/economics-bs-college-liberal-arts-and-sciences/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAECNBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: The world is increasingly interconnected, and study abroad allows students to explore economics in other countries while developing in-demand professional skills, such as cross-cultural communication and problem-solving. Summer programs can provide students with experience at international financial institutions, helping them increase their understanding of economics on a global scale. Students can learn more on the Global Education (<https://goglobal.asu.edu/>) website.

Career Opportunities: Graduates possess the analytical tools and critical thinking skills that have led some to placements with top private companies and consulting firms and within government. Others have landed research assistantships with the Federal Reserve and other nonprofit research institutions.

Those choosing to continue their studies have earned admission to top master's degree and doctoral programs in the U.S. and abroad. Economics is considered one of the best majors as preparation for law school, and some graduates have gone on to the best law schools in the country.

Economics (Politics and the Economy), BS (LAECNPECBS)

Campus: Tempe

Program Description: The BS program in economics with a concentration in politics and the economy serves students who wish to pursue careers in business, economic and political consulting, political science, law and government.

In addition to economics coursework, the concentration also requires courses that highlight the impact of government policies on the economy and the conditions under which government interventions may be warranted. Students take political science courses that provide a deep understanding of political processes and institutions as well as methodologies for understanding that behavior.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

English, BA (LAENGBA)

Campus: Online

Program Description: The BA program in English is offered completely online.

Students supplement a core focus on critical studies and analysis with courses on literature, linguistics, film and media, and creative and nonfiction writing to complete a robust program of study.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<http://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-english/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAENGBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Define and utilize key terms and conventions of literary, linguistics, and rhetorical scholarship.
- Analyze the formal construction of texts from diverse rhetorical and literary traditions to explain how they function.
- Compose original texts that situate their interpretations in conversation with multiple perspectives.

Global Opportunities:

Global Experience: Studying abroad (<https://goglobal.asu.edu/>) expands students' perspectives by exposing them to new and distinct cultures, communities and people. Students can explore the English language at a deeper level through an extended lens of dialects, literature and terminology in one of more than 300 study abroad programs.

Students can enhance their resumes and educational experience with the heightened cultural competency, communication and critical thinking skills they acquire through study abroad.

The College of Liberal Arts and Sciences recommends these study abroad programs for students majoring in English. (<https://goglobal.asu.edu/students/major/english>)

Career Opportunities: Degree programs in English prepare students for a variety of careers in diverse fields. Employers seek those with strong writing, communication and critical thinking skills. Some of the most common professions for English majors are in the fields of:

- business
- law
- journalism
- nonprofit service
- publishing

Graduates often find roles where they spend time:

- developing web content
- editing
- managing public relations
- writing professional and technical content
- teaching

This undergraduate program in English studies prepares students to continue their studies in graduate and professional programs.

English (Creative Writing), BA (LAENGCBA)

Campus: Tempe

Program Description: The BA in English with a concentration in creative writing focuses on the study and practice of the literary arts, with courses in poetry, fiction and creative nonfiction.

Students gain practical experience through writing workshops and internship opportunities.

The undergraduate program features an outstanding faculty whose many books have received major national and international recognition.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<http://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Production of a portfolio of creative writing: original poetry or fiction, with attention to content and form, via significant revision process informed by craft lessons.

- Students will evaluate a work-in-progress in poetry or fiction and provide constructive feedback.

- Students will be able to produce literary works (poems and stories) held to have merit by class peers and professor.

Global Opportunities:

Global Experience: Studying abroad (<https://goglobal.asu.edu/>) expands students' perspectives by exposing them to new and distinct cultures, communities and people. Students can explore the English language at a deeper level through an extended lens of dialects, literature and terminology in one of more than 300 study abroad programs.

English (Linguistics), BA (LAENGNBA)

Campus: Tempe

Program Description: The BA in English with a concentration in linguistics examines the history and structure of language. Students have the opportunity to study with distinguished faculty actively engaged in scholarly research, and to gain practical experience through internships that prepare them for an ever-expanding variety of careers. The program also prepares students to continue their studies in graduate and professional programs, including ASU's accelerated English linguistics program: BA/MTESOL or BA/MA in linguistics or applied linguistics.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<http://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

English (Literature), BA (LAENGTBA)

Campus: Tempe

Program Description: The BA program in English with a concentration in literature guides students from the earliest texts and cultures in English to contemporary expressions on paper, online and in the world. In learning to read critically, analyze narratives and understand how stories work to define the human experience, students can consider problems and find solutions while developing written and oral communication skills.

Students have the opportunity to engage with internationally renowned faculty in exploring literature, critical theories and methods from around the world. Students choose from a broad array of courses to further explore subjects such as race and ethnicity, gender and sexuality, and literary histories and traditions.

Students gain practical experience through research, writing and internships that prepare them for an ever-expanding variety of careers as well as for continuing their studies in graduate and professional programs.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<http://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAENGTBA-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze literary and cultural texts from a variety of critical and methodological perspectives.
- Produce effective and well-supported arguments about literary and cultural texts written in the English language.
- Produce critical arguments in response to other members of a discourse community about literature or other media.

Global Opportunities:

Global Experience: Studying abroad (<https://goglobal.asu.edu/>) expands students' perspectives by exposing them to new and distinct cultures, communities and people. Students can explore English literature at a deeper level through the birthplaces of great written works written in one of ASU's more than 300 study abroad programs.

Students' resumes are enhanced with the educational experience and heightened cultural competency, communication and critical thinking skills they acquire through study abroad.

The College of Liberal Arts and Sciences recommends these study abroad programs for students majoring in English with a concentration in literature (<https://goglobal.asu.edu/students/major/english>).

Career Opportunities: Degree programs in English prepare students for graduate studies in a number of programs, including English, creative writing, education, law and business. They also lead to a variety of careers in diverse fields. Employers seek those with strong writing, communication and critical thinking skills. Some of the most common professions for English majors are in the fields of:

- business
- journalism
- law
- nonprofit service
- publishing

Graduates often find roles where they spend time:

- developing web content
- editing
- managing public relations
- teaching
- writing professional and technical content

English (Narrative Studies), BA (LAENGNSBA)

Campus: Tempe

Program Description: The BA program in English with a concentration in narrative studies explores the varied forms, contexts and cultures of narrative. Drawing from a variety of perspectives and disciplines, students learn methods to critically interrogate the social, historical, aesthetic and ethical dimensions of story and storytelling.

Students gain an understanding of key narrative concepts and their uses across modalities. They become familiar with the diverse applications of narrative studies, including the principles of narrative generation and interpretation across a range of traditional and emerging media, the uses of narrative in various spheres of social and political life, as well as creative and communicative practices.

Graduates are prepared to translate facts, events and stories into compelling narratives relevant for creative, professional and socially-embedded purposes. Graduates of narrative studies are empowered to engage globally with pressing concerns, such as climate change, justice movements and the frontier of computational developments in AI-generated narratives.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAENGNSBA-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Study abroad expands students' perspectives by exposing them to new and unique cultures, communities and people. Students can explore the English language at a deeper level through an extended lens of literature, dialects and rhetoric in one of more than 300 Global Education programs (<https://goglobal.asu.edu/>). Students who study abroad gain heightened cultural competency and communication and critical thinking skills, which enhance their educational experience and their resumes.

Career Opportunities: Degree programs in English prepare students for graduate studies in a number of programs, including English, creative writing, education, law and business. They also lead to a variety of careers in diverse fields. Educated professionals with expertise in narrative are in high demand because of the increasing importance of recognizing, critiquing, shaping, transforming and realizing the qualities of effective storytelling in an attention economy. Some of the most common professions for English majors are in the fields of:

- business
- journalism
- law
- nonprofit service
- publishing

Graduates often find roles where they spend time:

- developing web content
- editing
- managing public relations
- teaching
- writing professional and technical content

English (Secondary Education), BA (LAENGSEBA)

Campus: Tempe

Program Description: The BA program in English with a concentration in secondary education includes rigorous content in literature, composition, linguistics and secondary teaching pedagogy. This program provides extensive preparation for meeting the needs of all student populations, including attention to levels of academic performance and cultural and linguistic diversity.

Students finish the program with Arizona Department of Education certification for middle and high school English language arts. Both a fingerprint clearance and a background check are required in the second year of the program.

In addition to the reviewing guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

English Education, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAENGSEBA-null + &college=CLA>) to outline a list of

recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze current and historic issues in connection to teaching English language arts in secondary schools.
- Develop curriculum using English language arts content and pedagogical practices.
- Develop lesson plans for English language integrating best practices for limiting common learning problems

Global Opportunities:

Global Experience: Students wishing to pursue a future in education must understand the diverse sets of experiences, backgrounds and cultures that can shape the students in their classrooms. Students can gain firsthand experience of a wide range of cultures and communities when they enhance their English degree with a Global Education program (<https://goglobal.asu.edu/>). With a diverse set of students and interests, the Department of English seeks to work with all students to create an international experience that meets their individual needs and goals.

In addition to providing a once-in-a-lifetime opportunity for students to build their skills in a unique environment, Global Education programs also help them stand out in the job market long after graduation.

The College of Liberal Arts and Sciences recommends these study abroad programs (<https://goglobal.asu.edu/students/major/english>) for students majoring in English with a concentration in secondary education.

Career Opportunities: Students graduating with a bachelor's degree in English with a concentration in secondary education have tremendous opportunities for employment. Certified teachers continue to be in high demand in Arizona, and Arizona State University provides more of these teachers than any other institution of higher education.

After student teaching in school districts in the greater Phoenix area or within one of the 22 Native American nations in the state, graduates are often hired to teach in the same school where they completed their internship.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

English (Writing, Rhetorics and Literacies), BA (LAENGWBA)

Campus: Tempe

Program Description: The BA program in English with a concentration in writing, rhetorics and literacies teaches students strategies for inquiry and action.

Students explore the ways that communication creates knowledge and action and study how communication is constructed, circulated, reacted to and repurposed through time and place. Through differing tools of inquiry, students investigate the history, theories and methods of inquiry as well as pragmatic and social actions of rhetoric, writing and literacies.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<http://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAENGWBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply available theories and/or methods given the demands of the rhetorical situation at hand or the problem to be investigated.
- Identify and analyze the historic, cultural, and political contexts of rhetorical situations.
- Compose arguments that respond to context and can be circulated, reacted to, and repurposed by audiences for sharing in and across various professional, social, and personal contexts.

Global Opportunities:

Global Experience: Study abroad (<https://goglobal.asu.edu/>) expands students' perspectives by exposing them to new and unique cultures, communities and people. Students can explore the English language at a deeper level through an extended lens of literature, dialects and rhetoric.

Students who study abroad gain heightened cultural competency as well as communication and critical thinking skills, which enhance their educational experience and their resumes.

More than 300 study abroad programs are available. The College of Liberal Arts and Sciences recommends these programs (<https://goglobal.asu.edu/students/major/english>) to students majoring in English.

Career Opportunities: Degree programs in English prepare students for graduate studies in a number of programs, including English, creative writing, education, law and business. They also lead to a variety of careers in diverse fields. Employers seek those with strong writing and communication skills and the ability to think critically. Some of the most common professions for English majors are in these fields:

- business
- editing
- journalism
- law
- nonprofit organizations

- professional and technical writing
- public relations
- publishing
- teaching
- web content development

Family and Human Development, BS (LAFASBS)

Campus: Tempe, Online

Program Description: The BS degree program in family and human development focuses on helping children and families thrive in the modern world by encouraging healthy relationships and tackling contemporary societal issues.

Students study the stages of human development throughout the life span and gain a deep understanding of the complex dynamics of human relationships in families, workplaces and communities. They also become proficient in written communication, research methodology and data analysis.

Elective courses provide a specialized skill set in areas such as infancy, adolescence and aging. Students may also participate in learning experiences outside the classroom, such as working in the Child Development Lab, working as a research assistant and completing an internship.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-family-and-human-development/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use

MyPath2ASU® (<https://webapp4.asu.edu/transferecreditguide/app/transfermap?major=LAFASBS-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply developmental theory to the stages and domains of human development over the lifespan.
- Describe theory and research on relational and family processes and the contexts in which they occur.
- Analyze variations in family communication and relational patterns across different contexts.
- Analyze social science research to determine the quality of the findings.

Global Opportunities:

Global Experience: Through study abroad, students can explore different cultures and social dynamics while developing in-demand professional skills, including teamwork and problem-solving. Opportunities available include homestays, which enable students to make connections with families in other countries. Students can stay on track academically while earning ASU credit over winter or spring break trips. More information is available on the Global Education website (<https://goglobal.asu.edu>).

The College of Liberal Arts and Sciences recommends these programs (<https://goglobal.asu.edu/students/major/ssfd/family-human-development>) to students majoring in family and human development.

Career Opportunities: A bachelor's degree in family and human development prepares students for a rewarding career in:

- business
- child and family advocacy
- education
- government
- social services

This program also provides excellent preparation for future graduate work in:

- counseling
- health-related professions
- law
- social work

Film (Film and Media Studies), BA (LAFMSBA)

Campus: Tempe, Online

Program Description: The BA in film and media studies in ASU's Department of English provides a comprehensive analysis of film, television, digital media and screenwriting. It develops students into critically informed writers, storytellers, critics and consumers of film and media.

The program teaches students skill sets such as project research, critical thinking and effective crafting of media messages, which can lead to employment opportunities in a wide range of fields.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<http://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-film-and-media-studies/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAFMSBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will be able to analyze the aesthetics of film, television and digital media texts.
- Students will be able to analyze the cultural significance of representations of class, gender, nation, race and sexuality in film, television and digital media.
- Students will be able to assess and analyze the business of film, television and digital media practices.

Global Opportunities:

Global Experience: Students gain valuable experience through study abroad, experience that enhances their resumes. More than 300 Global Education programs (<http://goglobal.asu.edu>) allow students to tailor their experience to their distinctive interests and skill sets. In addition to providing students a once-in-a-lifetime opportunity, these programs enable students to hone their creative and communication skills in a unique environment.

The College of Liberal Arts and Sciences recommends these study abroad programs (<https://goglobal.asu.edu/students/major/film-media-studies>) for students majoring in film with a concentration in film and media studies.

Career Opportunities: Graduates with a degree in film and media studies possess skills that can be applied in a number of professional fields, including:

- creative management
- film
- marketing and communications
- social media
- streaming
- television

- video games

Some graduates have gone on to pursue graduate studies at prestigious universities, while others elect to begin their careers. They are prepared for employment as:

- analysts
- bloggers
- executives
- marketers
- producers
- reviewers
- screenwriters
- teachers

French, BA (LAFREBA)

Campus: Tempe

Program Description: The BA program in French offers the opportunity to study the language, literature and culture of France and other French-speaking countries.

Students gain competence in reading, writing, speaking and listening to French and take a number of related courses on topics such as:

- art
- cinema
- colonization
- government and political science
- history and civilization
- international business
- literature and theater
- popular culture
- religion

Students are encouraged to join the French Club to help them gain proficiency in the language. In addition, the School of International Letters and Cultures offers faculty-directed summer study abroad programs (<https://silc.asu.edu/silc-studyabroad>) in Lyon, France, and Quebec, Canada, and it endorses partnership and exchange programs in French-speaking Africa, Canada and Europe.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Global Management, MGM
Language Teaching, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAFREBA-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: There is no better way to learn a language than to be immersed in it. Being surrounded by French language speakers offers a learning experience that cannot be acquired in a classroom. By studying abroad (<https://goglobal.asu.edu/>), students have the opportunity to strengthen their language skills not only by living in a Francophone country, potentially with a local host family, but also by earning ASU credit toward their degree.

The College of Liberal Arts and Sciences recommends these programs (<https://goglobal.asu.edu/students/major/SILC/french>) for students majoring in French.

Career Opportunities: Knowledge of multiple languages and intercultural competencies enhance any occupation and offer graduates many career opportunities.

Career fields using French include:

- advertising, marketing and communications
- diplomatic and foreign service
- domestic and international business
- fashion
- film, television and multimedia
- foreign correspondence and journalism
- international student services and study abroad
- interpreting and translation
- teaching and research
- travel and tourism

Gender, Women and Sexuality Studies, BA (LAWSTBA)

Campus: Tempe, Online

Program Description: Through this program grounded in intersectional feminism, students will gain valuable insight into how the systems of inequality intermingle with race, gender, sexuality, immigration, class, globalization and other frameworks. Undergraduates gain necessary expertise in applying this knowledge to today's society.

Students are offered the opportunity to challenge conventional wisdom about gender and explore new ways of viewing the world through the study of:

- culture
- economics
- film
- history
- literature
- politics
- science

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAWSTBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze the ways in which gender intersects with other social locations in shaping ideology, as well as social, political and cultural institutions.
- Apply digital literacy skills to present their research in the field.
- Demonstrate an understanding of key concepts and methodologies in the field.

Global Opportunities:

Global Experience: Study abroad allows students to immerse themselves in a different culture. Through study and internships, they discover how other cultures view women and gender, and they learn to analyze issues related to gender.

The Global Education office (<https://goglobal.asu.edu/>) offers programs in more than 65 countries across the globe. The College of Liberal Arts and Sciences recommends specific study abroad programs (<https://goglobal.asu.edu/students/major/sst/women-gender-studies>) for students majoring in women and gender studies.

Career Opportunities: Graduates are prepared for many different career opportunities and have obtained careers in a wide array of fields, including:

- consulting
- counseling
- education
- government
- health care
- law
- nonprofits
- women's advocacy

They are also well prepared for graduate and law school and have been admitted to prestigious programs.

Geographic Information Science, BS (LAGISBS)

Campus: Tempe, Online

Program Description: Students in the BS program in geographic information science begin their study by gaining a strong foundational understanding of geographic information systems, statistical analysis and computer programming. Students expand on this foundation through upper-division coursework in the major that enables a pursuit of deeper and more focused understanding of the application of geographic information science technologies to complex environmental and societal issues.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus or MAT 117 College Algebra

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Urban and Environmental Planning, MUEP

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/geographic-information-science-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAGISBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students have the opportunity to apply their knowledge of geographic information science in a new and different setting through study abroad (<https://goglobal.asu.edu/>). Students can gain a deeper understanding of the complex societal and environmental issues that influence the uses of GIS.

Students' resumes are enhanced with the heightened skills in cultural competency, communication and critical thinking acquired through study abroad.

Career Opportunities: Graduates of geographic information science pursue opportunities in both the private and public sectors. Careers include:

- cartographers and photogrammetrists
- geographic information system technicians
- geospatial information scientists and technologists
- location analysts
- mapping technicians
- remote sensing scientists and technologists

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Geography, BA (LAGCUBA)

Campus: Tempe, Online

Program Description: Combining the physical environment with human interaction, the BA program in geography emphasizes humanistic and cultural traditions.

Students pursuing undergraduate studies in geography typically concentrate on knowledge-building in understanding various cultural phenomena or in studying regions such as Africa, Asia, Australia and Oceania, Europe, Latin America and North America.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Geography, MA
Urban and Environmental Planning, MUEP

Geography, BS (LAGCUBS)

Campus: Tempe, Online

Program Description: Geographers have a distinct spatial perspective in understanding the world, from global to local, through the twin lenses of space and place.

Students in the BS program in geography learn about natural features of the world, including landforms, plants, water and weather, as well as the impact humans have on the world. This degree program also emphasizes social science or environmental science dynamics involving economic patterns, human populations and transportation.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Global Opportunities:

Global Experience: Students deepen their understanding of cultural traditions in the human experience of place when studying abroad. With more than 300 programs available, students who participate in a Global Education program (<https://goglobal.asu.edu/>) tailor their experience to their specific interests and skill sets. Studying abroad grants students the ability to explore the world and gain hands-on experience in diverse cultures and traditions. Students enhance their resumes with the heightened skills in cultural competency, communication and critical thinking they acquire through study abroad.

Career Opportunities: Having gained skills in geospatial techniques, geographers with a Bachelor of Science degree go on to careers such as:

- computer cartographers
- environmental impact assessment analysts
- geographic information science specialists and analysts
- geomorphologists
- hydrology and water resource specialists
- location analysts for businesses
- photogrammetry specialists
- remote sensing analysts

Graduates also are presented with a host of other geospatial career options in the burgeoning fields of geographic information science, mapping and navigation systems.

Geography (Meteorology-Climatology), BS (LAGCUMBS)

Campus: Tempe

Program Description: The meteorology-climatology concentration under the BS program in geography is designed to meet the requirements for certification as a meteorologist by the National Weather Service. It covers dynamic as well as synoptic meteorology.

Students gain a focused understanding of weather, climate and the various related methods of measurement and instrumentation. Required courses include atmospheric physics, operational weather forecasting, three semesters of calculus and two semesters of calculus-based physics.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Geography, MA

Urban and Environmental Planning, MUEP

German, BA (LAGERBA)

Campus: Tempe

Program Description: Students in the BA program in German study the language, literature and culture of German-speaking people and gain competence in reading, writing, listening and speaking skills.

German classes provide opportunities for exploring how people in German-speaking Europe:

- engage with politics, economics, social justice and humanitarianism
- have become global leaders in the fields of business, engineering and the natural sciences
- think deeply about philosophy, the influence of history and the environment
- understand the world through literature, film, the performing arts and other cultural practices

Students are encouraged to participate in the School of International Letters and Cultures faculty-directed summer abroad program in Regensburg or in a semester or academic-year exchange program available at several German universities.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Global Management, MGM
 Language Teaching, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Studying abroad (<https://goglobal.asu.edu/>) is vital when learning German language and culture as there is no better way to learn a language than to be immersed in it. Students can choose from two-week to full-year programs in German-speaking countries.

Studying abroad adds value to students' degrees by preparing them with the useful skills employers seek --- skills that are needed for leadership in a multicultural career.

The College of Liberal Arts and Sciences recommends these programs for students majoring in German (<https://goglobal.asu.edu/students/major/SILC/german>).

Career Opportunities: Knowledge of multiple languages and intercultural competencies enhances any occupation and offers graduates many career opportunities. Language-intensive careers include:

- foreign correspondent
- foreign media professional
- foreign service officer
- international banking and finance professional
- language, literature or culture teacher
- law and immigration professional
- multilingual administrative professional
- translator or interpreter
- travel professional

Global Asia Studies, BA (LAASIABA)

Campus: Tempe

This program's name has changed effective Fall 2024. The previous name was Asia Studies.

Program Description: The BA program in global Asia studies offers students an in-depth and comprehensive study of Asia --- China, Japan, Korea, Indonesia, India and other countries --- through a number of different disciplines combined into a coherent plan of academic study. The program provides students with a variety of intellectual tools that enable them to address languages, religions and cultures, artistic traditions, political and social issues, and global networks of Asia as well as diasporic experiences of Asians, and to apply that knowledge in many academic and professional settings.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAASIABA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students have the opportunity to immerse themselves in the cultures they are studying through study abroad programs (<https://goglobal.asu.edu/>) available throughout Asia. Students can deepen their understanding of Asian history and culture, and the heightened cultural competency, critical thinking and communication skills they acquire will enhance their resumes.

The College of Liberal Arts and Sciences recommends these study abroad programs for students majoring in global Asia studies (<https://goglobal.asu.edu/asia-studies-ba>).

Career Opportunities: People knowledgeable about Asia are required in virtually every arena in which the U.S. interacts with the rest of the world, including:

- communication and journalism
- environmental studies
- government services and diplomacy
- higher education
- international business
- natural resource management
- popular art and culture
- supply chain management
- translation and editing
- transportation and tourism

Global Health, BA (LASSHBA)

Campus: Tempe, Online

Program Description: The BA in global health is a transdisciplinary degree that provides students with the skills and perspectives they need to understand and solve health challenges across the globe, while accounting for cultural, historical, biological and ecological factors.

Program faculty are recognized internationally for their work on pressing global health problems, such as health inequalities, chronic disease, family health, water and food insecurity, obesity and stigma, emergent infectious disease, resource management and evolutionary medicine.

Students have the opportunity to participate in a global health study abroad program and choose from a variety of destinations and topics.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-global-health/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LASSHBA-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Studying abroad (<https://goglobal.asu.edu/>) allows global health students to deepen their understanding of the impact of culture on public health, expand the lens through which they view people, and gain firsthand experience in their field. Students who study abroad can make an impact on communities across the globe, all while enhancing their resume with communication and cultural competency skills needed for a career.

The College of Liberal Arts and Sciences recommends these programs (<https://goglobal.asu.edu/students/major/global-health>) for students majoring in global health.

Career Opportunities: Training in global health provides enormous and varied career opportunities, both national and international, and demand is high and growing for graduates with these skills. The major program supports the goals of those pursuing careers in health services, academic and applied research, and teaching. Potential employers include:

- health departments
- government agencies
- international agencies (World Health Organization, Centers for Disease Control and Prevention, Global Health Council, World Bank, Inter-American Development Bank)
- nongovernmental organizations
- private sector
- universities

The degree program also provides a broad intellectual base for those who plan advanced specialist health training in fields such as:

- dentistry
- medicine
- nursing
- pharmacy

In Arizona and elsewhere, there is a pressing need for professionals with appropriate skills to work in cross-cultural settings or with underserved populations such as migrants, minorities and those living in poverty; many of these jobs are directly or indirectly related to health.

Global Health, BS (LASSHBS)

Campus: Tempe, Online

Program Description: The BS program in global health, offered by the School of Human Evolution and Social Change, exposes students to a comprehensive understanding of the factors that lead to morbidity around the world, including ecological, political, cultural, institutional, historical, evolutionary, social and technological factors. This program seeks to equip students with the necessary skills to create effective, sustainable and culturally-appropriate approaches to prevent, assess and mitigate disease, as well as to assess critically the work of others in their professional environments. The program helps learners to cultivate professional practice through a focus on application of technical knowledge into professional settings by integrating recognized global health competencies.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Global Health, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-global-health/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LASSHBS-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Studying abroad (<https://goglobal.asu.edu/>) allows global health students to deepen their understanding of the impact of culture on public health, expand the lens through which they view people, and gain firsthand experience in their field. Students who study abroad can make an impact on communities across the globe, all while enhancing their resume with communication and cultural competency skills needed for their career.

The College of Liberal Arts and Sciences recommends these study abroad programs (<https://goglobal.asu.edu/students/major/global-health>) for students majoring in global health.

Career Opportunities: Nationally and internationally, the health field provides varied career opportunities, and demand is growing for graduates that exhibit the recognized interprofessional global health competencies. The program supports the goals of those pursuing careers in academic research, programming, teaching and policy. Sample employment categories include:

- data analyst
- learning specialist
- program manager
- research associate
- technical advisor

Global Studies, BA (LASGSBA)

Campus: Tempe, Online

Program Description: The BA program in global studies examines the causes and consequences of problems that cross national boundaries, and the governance of these problems in social, cultural and economic contexts.

The program's internationally recognized faculty have extensive global experience from a wide variety of disciplines in the social sciences and humanities. Courses use teaching, research and public policy activities to address current problems and their solutions in various fields, including:

- economic and social development
- global cities and urbanization
- global governance of health and climate change
- justice and human rights
- religious identities, rights and conflicts
- world culture

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Security (Cybersecurity), MA
- Global Security (Irregular Warfare), MA
- Global Security, MA
- International Affairs and Leadership, MA
- Political Science, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-global-studies/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students

take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LASGSBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Study abroad (<https://goglobal.asu.edu/>) not only satisfies degree requirements within the global studies major but also helps students develop a portfolio of experience, with research and internship opportunities available in an international setting. Students have the chance to challenge themselves to adapt and persevere under potentially difficult social and cultural circumstances. When studying abroad, students encounter many opportunities to improve their language and cultural competency skills, helping them to effectively communicate across populations.

The College of Liberal Arts and Sciences recommends specific study abroad programs (<https://goglobal.asu.edu/global-studies-ba>) for students majoring in global studies.

Career Opportunities: Graduates have skills useful for success in political or government careers, law school, graduate study, business or the nonprofit sector. Many program graduates have found positions in:

- the courts and judicial administration
- foreign service organizations
- legislative staff organizations
- lobbying and advocacy groups
- local and national media organizations
- local, national and global nonprofit organizations
- multinational corporations
- national, state, and local government agencies
- political consulting
- research institutions

In addition, some graduates have gone on to other top-tier graduate and professional schools. These students have found a variety of employment opportunities in the fields of:

- communication
- education
- foreign service
- journalism
- law
- political science
- public service

History, BA (LAHISBA)

Campus: Tempe, Online

Only the stand-alone BA or the accelerated History BA/MA combination are available to ASU Online students at this time.

Program Description: Students pursuing the BA in history study the growth and development of human society from political, social, economic and cultural perspectives. Students learn to craft stories from materials other people have left behind --- constitutions, land deeds, diaries, guns and bones. They learn to make decisions about what to investigate, whom to believe, what happened first, and why things fell apart or came together.

History is a discipline that constantly adopts new techniques of analysis and new ways of gathering and presenting information. Students of history learn to use and create digital media, work on public history projects, conduct oral history interviews, perform qualitative analysis and present their

findings in compelling ways to all kinds of audiences.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM
- History, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-history/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use

MyPath2ASU® (<https://webapp4.asu.edu/transferecreditguide/app/transfermap?major=LAHISBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Discern and articulate matters of historical cause and effect and construct a well-reasoned argument accounting for the necessary and sufficient causes of historical events.
- Analyze and discuss historical change and continuity in American institutions and cultures.
- Explore historical evidence in order to understand and compare competing perspectives on events.
- Analyze continuity and change in global contexts, and understand the reasons for and consequences of dividing history into eras.
- Acquire information about one or more societies outside of the United States and be able to analyze the culture and institutions of that society.

Global Opportunities:

Global Experience: Understanding the events that have led humanity to this point is a large aspect of being a history major. There is no better way to understand historical events than through study abroad (<https://goglobal.asu.edu/>), living in the nations where the events happened, among the people and surrounded by the language and culture. Students gain not only memories that last a lifetime, but also skills that can help them succeed in every aspect of their professional and personal lives.

The College of Liberal Arts and Sciences recommends the following study abroad programs (<https://goglobal.asu.edu/history-ba>) for students majoring in history.

Career Opportunities: History majors are in demand. They know how to find and evaluate evidence, form arguments and present analysis --- skills essential to most careers, including law, business, education, medicine and government.

Three out of four employers surveyed by the Association of American Colleges and Universities say they want colleges to place more emphasis on helping students develop five key learning outcomes: critical thinking, complex problem-solving, written communication, oral communication and applied knowledge in real-world settings. These learning outcomes are integral elements of an undergraduate degree in history.

History majors seek jobs in:

- business and industry
- communications
- education
- foreign service
- law enforcement
- museums
- public administration
- social services

History is an excellent foundation for graduate and professional studies in:

- business
- history
- justice studies
- law
- medicine
- public administration
- public history
- theology

History (Secondary Education), BA (LAHISSEBA)

Campus: Tempe

Program Description: The secondary education concentration within the BA program in history offers a flexible degree for students who are considering a career in education. The concentration program fully prepares students for teaching and certification. At the same time, all the disciplinary knowledge of a traditional history degree provided by the program prepares students for a variety of noneducation careers.

History is a discipline that constantly adopts new techniques of analysis and new ways of gathering and presenting information. Students of history learn to use and create digital media, work on public history projects, conduct oral history interviews, perform qualitative analysis and present their findings in compelling ways to all kinds of audiences.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAHISSEBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will explore historical evidence in order to understand and compare competing perspectives on events.
- Students will discern and articulate matters of historical cause and effect and construct a well-reasoned argument accounting for the necessary and sufficient causes of historical events.
- Students will analyze continuity and change in global contexts and will understand the reasons for and consequences of dividing history into eras.
- Graduates of the history program, secondary education concentration, will be able to develop lessons, unit plans and assessments for secondary school history courses.

Global Opportunities:

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) help students gain a global perspective and an increased appreciation for the history, philosophy and religion of different cultures.

The experience and understandings gained across borders can aid students in their future careers. Overcoming challenges through intuition and resourcefulness shows future employers that the graduate can tackle a variety of problems that may come up in the workplace.

The College of Liberal Arts and Sciences recommends these study abroad programs (<https://goglobal.asu.edu/history-ba>) for students majoring in history.

Career Opportunities: The combination of courses within the secondary education concentration offers a broad education that enables its graduates to be well-prepared for careers in a variety of fields, including:

- archival research
- business and industry
- education
- law and law enforcement
- public history
- publishing
- social work

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Integrated Studies, BA (LAISTBA)

Campus: Tempe

Program Description: The BA program in integrated studies was developed for the academically superior student whose interests lie beyond established departmental emphases and boundaries. Students who are approved for the major have the opportunity to work one-on-one with faculty mentors to create a personalized, focused and coherent course of study that draws its curriculum from more than one academic department or college.

The integrated studies degree program shares with all other liberal arts and sciences programs the goal of developing students' analytical abilities and communication skills. The program combines breadth of learning across multiple disciplinary contexts with an appropriate depth in a focused area of inquiry.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: This program is not available to first-year students. There is an additional application for this degree program. Admission consists of completion of 32 credit hours at ASU with a GPA of at least 3.25, and three letters of recommendation from ASU faculty members. For more information, students should contact the senior director for advising and retention, Office of Student and Academic Programs, Futures Center, Armstrong Hall, Suite 112.

Change of Major Requirements: This degree program is only for students who have earned at least 32 graded credit hours at ASU, who have a minimum cumulative GPA of 3.25, and whose study interests are not met by an existing major offered by ASU. Students who meet these qualifications and who have faculty mentors in their areas of interest are invited to meet with the Office of Student and Academic Programs in The

College of Liberal Arts and Sciences to discuss the possibility of being allowed to pursue this opportunity. Appointments may be scheduled by calling 480-965-6506.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAISTBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students pursuing integrated studies are unique, innovative and passionate, and they have a wide variety of interests. With more than 300 Global Education programs (<https://goglobal.asu.edu/>) available to them, students can tailor their experience to their unique interests and skill sets. Students gain hands-on experience and heightened cultural competency, as well as leadership and critical thinking skills in programs across the globe.

Career Opportunities: The professional and vocational opportunities provided by the integrated studies degree depend on the area of concentration and the particular focus of study. Graduates are prepared to enter the workforce and to pursue graduate and professional studies.

International Letters and Cultures, BA (LASLCBA)

Campus: Tempe

Program Description: The BA in international letters and cultures is a degree program grounded in the advanced study of at least one foreign language.

The program is more transcultural and transdisciplinary than a traditional languages and literatures degree program and is designed to encourage students to explore and challenge the traditional boundaries of cultures, texts and disciplines. Students work closely with faculty and advisors to choose a program that combines study and research in a minimum of two cultures or disciplines, or in both.

Students must meet with an advisor in the School of International Letters and Cultures to discuss this degree option. It is not recommended for first-year students.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LASLCBA-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Studying abroad (<https://goglobal.asu.edu/>) is the perfect transition from the classroom to real life. As students become scholars in language and multiple cultures and how they intertwine, study abroad programs immerse them in the language of their choice while taking courses on literature, history, sociology and more. Students can gain a deeper insight on how common languages and cultures develop in particular areas of the world by studying abroad.

Career Opportunities: Knowledge of multiple languages and intercultural competencies enhance any occupation and offers graduates many career opportunities. Language-intensive careers include:

- foreign correspondent
- foreign media professional
- foreign service officer
- international banking and finance professional
- language, literature or culture teacher
- law and immigration professional
- multilingual administrative professional
- translator and interpreter
- travel professional

Career fields and occupations using languages include:

- advertising, marketing and communications
- airline industry
- film, television and multimedia
- hospitality industry
- hotel and resort management
- international education and study abroad administration
- international law
- military
- publishing
- technology industries

Additional education and certification may be required for some career paths.

International Letters and Cultures (Arabic Studies), BA (LASLCASBA)

Campus: Tempe

Program Description: The BA program in international letters and cultures with a concentration in Arabic studies provides critical and cultural diversity in advanced Arabic language and literature.

This concentration complements existing degree programs in the School of International Letters and Cultures and enhances studies in social science disciplines such as political science and global studies, as well as many humanities fields, including anthropology, history, philosophy and religious studies. The program provides a broad knowledge and understanding of the culture, literature and traditions of the vast Arabic-speaking world.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LASLCASBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: As students become scholars in the language, cultures and history of the Arabic-speaking world, studying abroad is the perfect transition from the classroom to real life. Students can become culturally and linguistically immersed while gaining a deeper insight on a particular part of the world. Each of the more than 300 Global Education program (<https://goglobal.asu.edu/>) options provide an opportunity for students to develop a valuable skill set that can give them an advantage in their career as well as personal enrichment.

Whether in a foreign country, in the U.S. or online, Global Education programs encourage students to build communication skills, challenge them to adapt and persevere, expose them to differences across the world and increase their ability to work with diverse groups of people. When studying abroad, students gain the global perspective and knowledge that prepares them for a future-focused career.

Career Opportunities: The bachelor's degree in international letters and cultures with a concentration in Arabic studies provides greater insight into the vast Arab world of 22 countries and can lead to career opportunities in areas such as journalism, translation, international consultations, government (e.g., United Nations, CIA), social work, law and health.

Graduates are prepared for a thriving job market. The degree also benefits those interested in academic research and careers in public and diplomatic service as well as in national security.

International Letters and Cultures (Classical Civilization), BA (LASLCVBA)

Campus: Tempe

Program Description: The BA program in international letters and cultures with a concentration in classical civilization provides a thorough grounding in the literature, culture and history of the ancient Greeks and Romans, which have provided a lasting foundation for innovative leaders and societies in the past and the present.

Students can build a program to meet their needs and interests in fields including:

- ancient art and architecture
- ancient history, war, politics and economics
- archaeology of the ancient Mediterranean world
- mythology and religious practices
- renowned philosophers and writers such as Plato, Aristotle and Lucretius
- use of the classics in film, books and other media

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® ([https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LASLVCVBA-null + &college=CLA](https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LASLVCVBA-null+&college=CLA)) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students can walk the same steps as some of the most famous thinkers, historians and poets in history. Studying classical civilizations helps renew many of the ideas, languages and societies that have shaped the modern day. Ancient civilizations are brought to life when students see the connections between the past and present.

Each of the more than 300 Global Education program (<https://goglobal.asu.edu/>) options available, whether in a foreign country, in the U.S. or online, provides an opportunity for students to develop a valuable skill set that can give them an advantage in their career and personal enrichment. Students build communication skills, are challenged to adapt and persevere, are exposed to differences across the world, and they increase their ability to work with diverse groups of people.

Career Opportunities: College graduates with a degree in classical civilization gain a new perspective that serves them well in a variety of disciplines. Classical civilization graduates may consider careers in:

- business
- film, television or multimedia
- K-12 education
- law
- public service
- writing and editing (fiction, journalism, technical writing)

Additional education may be required for some career fields.

International Letters and Cultures (Classics), BA (LASLCCBA)

Campus: Tempe

Program Description: The BA program in international letters and cultures with a concentration in classics begins with two cores: language skills in ancient Greek or Latin (or, if the student chooses, both) and knowledge of ancient history.

Among the variety of topics students pursue are:

- ancient art and architecture
- ancient history, war, politics and economics
- archaeology of the ancient Mediterranean world
- literary classics such as Homer, Sophocles, Virgil and Ovid
- mythology and religious practices
- renowned philosophers and writers such as Plato, Aristotle and Lucretius
- use of the classics in film, books and other media

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Global Opportunities:

Global Experience: Students can walk the same steps as some of the most famous thinkers, historians and poets in history. Studying classical civilizations helps renew many of the ideas, languages and societies that have shaped the modern day. Ancient civilizations are brought to life when students see the connections between the past and present.

Each of the more than 300 Global Education program (<https://goglobal.asu.edu/>) options available, whether in a foreign country, in the U.S. or online, provides an opportunity for students to develop a valuable skill set that can give them an advantage in their career and personal enrichment. Students build communication skills, are challenged to adapt and persevere, are exposed to differences across the world, and they increase their ability to work with diverse groups of people.

Career Opportunities: Graduates with a degree in the classics possess skills in research and the precise use and analysis of language. The transdisciplinary study of a culture that is very different from the modern world yet lies at the root of it also fosters the ability to view issues from many angles and to think critically about them.

As many employers are well aware, a classics graduate has the training to solve difficult puzzles, see through obscure language and conduct rigorous research on often ill-defined problems. These skills are prized in any field of endeavor. Classics graduates often find careers in:

- business
- Christian ministry
- education
- film, television and multimedia
- law
- politics
- writing and editing (fiction, journalism, technical writing)

International Relations, BA (LAINRBA)

Campus: Tempe, Online

Program Description: In a globalized world with increasing political, economic, demographic and climatic challenges, studies in international relations are all the more prized by the public and private sectors.

Students in the BA program in international relations develop analytic skill sets and mastery of forward-thinking content areas through rigorous curriculum, unique internships and research opportunities. Students learn about national security, cybersecurity, AI-intelligence strategies, conflict processes, diplomacy, international trade, and both international organizations and countries across the globe, gaining valuable practical knowledge about these subjects that will be beneficial in their future careers.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/international-relations-ba/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAINRBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Faculty expertise and international networks of public, private and nonprofit partnerships provide international relations students with unique and impactful internships and research opportunities at home, in Washington, D.C. and abroad. With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, international relations students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates have cross-sector analytic skills useful for successful careers in many areas. They are prepared for a variety of employment opportunities in the fields of:

- foreign service
- journalism
- judicial administration
- law
- political analysis
- political consulting
- politics
- public relations

Program graduates are prepared for positions in the following types of establishments:

- the courts
- foreign service organizations
- international agencies and organizations
- legislative staff organizations
- lobbying and advocacy groups
- local, national and global nonprofit organizations
- local and national media organizations
- multinational corporations
- national, state and local government agencies
- research institutions

International relations graduates can leverage their critical thinking and communication skills and cross-cultural competencies to pursue careers as foreign service officers, security and policy analysts, and other data-driven positions.

In addition, graduates are well positioned to attend top-tier graduate, law and professional schools in public policy, diplomacy and leadership, political science, data analytics, and global trade.

Italian, BA (LAITABA)

Campus: Tempe

Program Description: The BA program in Italian gives students the necessary skills to speak, write, read and comprehend Italian. Participants develop the ability to think critically, understand and appreciate the historical and contemporary cultures of the Italian peninsula and their relationship to other global traditions, and develop empathy as globally informed leaders.

Students complete several courses on topics such as:

- art
- culture
- film
- government
- history
- literature
- religion

Students have a choice of four different faculty-directed programs in Italy in which they can focus on developing their linguistic skills and learn more about Italy's contemporary responses to global challenges such as natural disasters and the industrialized food system.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students can be immersed in the Italian culture and language through a Global Education program (<https://goglobal.asu.edu/>). Study abroad is vital when learning the Italian language and culture. Being immersed in Italy itself adds value to the degree, and the experience prepares students to take off in an exciting, multicultural career with valuable skills employers seek, like communication and problem-solving.

Students majoring or minoring in Italian have the opportunity to participate in a Global Education program in Italy while taking courses in a variety of areas. The College of Liberal Arts and Sciences recommends these programs for students majoring in Italian.

(<https://goglobal.asu.edu/students/major/SILC/italian>)

Career Opportunities: Knowledge of multiple languages and intercultural competencies enhance any occupation and offer graduates many career opportunities. Language-intensive careers include:

- foreign correspondent
- foreign media professional
- foreign service officer
- international banking and finance professional
- language, literature or culture teacher
- law and immigration professional
- multilingual administrative professional
- nongovernmental organization professional
- translator and interpreter
- travel professional

Jewish Studies, BA (LAJSTBA)

Campus: Tempe

Program Description: The BA in Jewish studies offers a transdisciplinary, cross-cultural and temporally expansive program of study. It focuses both on the study of Judaism as a religion and on Jewishness as a distinct set of cultural values, peoplehood and historical legacy.

As with other degree programs in the humanities or social sciences, a Bachelor of Arts in Jewish studies provides an intellectual balance and complement to the study of science and technology. By engaging the Jewish experience as both a historical and contemporary reality, the program facilitates enhanced cultural, historical and global awareness.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management (Creative Industries and Design Thinking), MGM
- Global Management (Digital Audience Strategy), MGM
- Global Management (Global Affairs), MGM
- Global Management (Global Business), MGM
- Global Management (Global Development and Innovation), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management (Global Entrepreneurship), MGM
- Global Management (Global Health Care Delivery), MGM
- Global Management (Global Legal Studies), MGM
- Global Management (Nonprofit Leadership and Management), MGM
- Global Management (Public Administration), MGM
- Global Management (Public Policy), MGM
- Global Management (Sustainability Solutions), MGM
- Global Management (Sustainable Tourism), MGM
- Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAJSTBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Study abroad programs can help students connect the past to the present. Judaism dates back to ancient times, and people of this heritage can be found all over the world. Students can immerse themselves in places that hold much significance for Jewish peoples, whether in Israel or elsewhere in the diaspora.

Participation in one of the more than 300 available Global Education programs (<https://goglobal.asu.edu/>) can provide real-world experience that complements skills and lessons learned in the classroom. Study abroad helps students gain a global perspective and an increased appreciation for the history, philosophy and religion of different cultures. In addition, the experience and understandings gained across borders can aid in a competitive job search.

The College of Liberal Arts and Sciences recommends these programs (<https://goglobal.asu.edu/jewish-studies-ba>) for students majoring in Jewish studies.

Career Opportunities: Graduates who receive a bachelor's degree in Jewish studies and pursue a career with one of the hundreds of U.S. companies that do business in Israel have a competitive edge because of their familiarity with Jewish culture.

Jewish studies graduates are also prepared to:

- attend rabbinical seminary in preparation for becoming a community rabbi or chaplain
- engage in world political and economic issues
- pursue advanced education in Jewish professional service fields

The degree also provides a firm foundation for those who wish to pursue advanced degrees related to their area of interest in fields that may include:

- archaeology
- creative writing
- ethics
- film and media
- history
- journalism
- justice studies
- law
- philosophy
- political science
- religious studies

Justice Studies, BA (LAJUSBA)

Campus: Tempe, Online

Program Description: The BA program in justice studies is an innovative social science and liberal arts program that examines contemporary and historical social justice and inequality in a variety of contexts, including race, gender, sexuality, citizenship, indigeneity and other significant areas.

This program provides a broad approach to understanding justice, both in the legal system and in wider social contexts, including the many social justice issues that occur across countries and cultures. The Bachelor of Arts program provides students the kind of broader perspective required in today's workforce, through a liberal arts focus and the requirement to enroll in language courses.

This program equips students with a dynamic knowledge of the world's justice systems and gives them the skills to create meaningful, real-world change.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Justice Studies, MS
Science and Technology Policy, MSTP
Social and Cultural Pedagogy, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/justice-studies/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAJUSBA-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Able to analyze a current justice issue.
- Explore and analyze key concepts and methodologies in the field.
- Apply principles in justice studies to research activities or community engagement.

Global Opportunities:

Global Experience: Human rights, violence, resource conflict and immigration are some of the issues that every country currently faces in some form or another. One of the best ways students can investigate potential solutions is by observing patterns from one culture to another when studying abroad (<https://goglobal.asu.edu/>). Students who study issues of justice in another culture can bring a new lens to their own experience and become positive changemakers in the world.

The College of Liberal Arts and Sciences recommends specific study abroad programs (<https://goglobal.asu.edu/students/major/sst/justice-studies>) for students majoring in justice studies.

Career Opportunities: Students emerge from this program with knowledge and skills designed to advance social justice in a variety of careers.

Program graduates work in many fields, including:

- administration
- education
- human welfare and social work

- law
- local, state and federal government
- nongovernmental organizations
- philanthropy
- public service fields
- social advocacy
- unions

Many graduates go on to law school, graduate school or other professional degree programs.

Justice Studies, BS (LAJUSBS)

Campus: Tempe, Online

Program Description: The BS program in justice studies is an innovative social science and liberal arts program that examines current and historical social justice issues. Students explore social justice in the context of inequality, race, gender, citizenship, indigeneity or other major contemporary issues.

This program provides a broad approach to understanding justice within the legal system and in wider social contexts. To provide students with the analytical skills required of today's workforce, the Bachelor of Science degree program offers a social science focus and requires students to enroll in a quantitative data analysis course.

In this program, students use multiple research methodologies to understand social justice issues in diverse settings, working with a variety of people and cultures. The skills gained allow students to create real-world change.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Mathematics, BA (LAMATBA)

Campus: Tempe

Program Description: Math is the science of problem-solving. Students in the BA degree program in mathematics apply the critical thinking and problem-solving skills they learn to many endeavors. Students complete courses that provide a strong mathematics background, and liberal arts requirements, including a foreign language.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAMATBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Able to draw conclusions about quantitative problems by analyzing their structure and applying valid logical reasoning.
- Able to complete the process of synthesizing definitions and previous theoretical results to draw new conclusions and prove them.
- Apply concepts from advanced mathematics to real-world problems in STEM fields

Global Opportunities:

Global Experience: Each of the more than 300 Global Education program (<https://goglobal.asu.edu/>) options provides an opportunity for students to develop a valuable skill set that can give them an advantage in their career, as well as personal enrichment.

Whether in a foreign country, in the U.S. or online, students are encouraged to build communication skills, challenged to adapt and persevere, and exposed to differences across the world, and they enhance their ability to work with diverse groups of people. Graduates who possess heightened cultural competency and leadership and critical thinking skills acquired through study abroad may stand out in a competitive job market.

Career Opportunities: The Bachelor of Arts program in mathematics is a fantastic option for students interested in where and how math fits on the broad spectrum of human endeavor.

A Bachelor of Arts degree in mathematics can be the springboard for many different careers in fields such as business management, computer engineering, education, financial analysis, health care, law, medical science, teaching and technology.

Mathematics, BS (LAMATBS)

Campus: Tempe

Program Description: The BS degree program in mathematics offers a deep grounding in both theoretical and applied mathematical concepts. Classes cover a broad spectrum of advanced mathematical topics, including differential equations, modeling, numerical analysis, number theory, cryptography and real analysis. This degree focuses on the highest levels of math offered in undergraduate courses and is recommended for those who are considering a graduate degree in mathematics.

This degree pairs well with several other areas of study in a variety of fields, including computer science, physics, astrophysics and engineering, as well as economics, business, music and art.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Mathematics (Secondary Education), BS (LAMATSBS)

Campus: Tempe

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program Description: The BS program in mathematics with a concentration in secondary education provides an excellent pathway for students interested in teaching. This degree program offers a mastery of mathematics, an understanding of teaching best practices and the ability to handle the challenges of a high school classroom.

Students who wish to teach at the secondary level take courses that prepare them to earn certification in the state of Arizona through this program. Graduates emerge equipped to provide mathematics communication that is coherent, meaningful and challenging.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAMATSBS-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Able to complete the process of synthesizing definitions and previous theoretical results to draw new conclusions and prove them.
- Able to apply the proper cognitive, curricular, and pedagogical theories appropriate to the design and evaluation of mathematics instruction and instructional materials.
- Able to analyze quantitative problems and draw conclusions by applying proper mathematical theories.

Global Opportunities:

Global Experience: Students who wish to pursue a future in education must understand the diverse set of experiences, backgrounds and cultures that can shape the students in their classrooms. Students can enhance their mathematics degree with a global education program (<https://goglobal.asu.edu>), in which they can boost their communication skills and gain firsthand experience in a wide variety of cultures and communities.

Career Opportunities: The mathematics degree with a secondary education concentration provides fantastic preparation for careers in teaching and education. In addition to the option of teaching high school mathematics, options for jobs in diverse fields include business, finance, industry and technology. Graduates can also choose to pursue graduate studies in mathematics or mathematics education.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Mathematics (Statistics), BS (LAMATTBS)

Campus: Tempe

Program Description: Statistics involves identifying relevant details of data and how to best collect that data to make reliable conclusions. The BS program in mathematics with a concentration in statistics provides a strong math background with a focus on statistics. Flexibility is built into this program so that students have the freedom to explore other mathematical areas of interest.

Using statistical methods, students discover how to generate insights that inform fact-based decision-making and research through statistical inference and controlled experimentation. They use cutting-edge techniques to study and explore strategies for dealing with uncertainty.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help

international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Devise strategies that leverage the proper mathematical and statistical tools for application to the analysis of data.
- Perform statistical analysis of data, in order to draw valid conclusions.
- Perform the process of analyzing quantitative problems and drawing conclusions by applying proper mathematical theories.

Global Opportunities:

Global Experience: Whether in a foreign country, in the U.S. or online, Global Education programs encourage students to build communication skills, challenge them to adapt and persevere, expose them to differences across the world and increase their ability to work with diverse groups of people.

Each of the more than 300 Global Education program (<https://goglobal.asu.edu/>) options provides an opportunity for students to develop a valuable skill set that can give them an advantage in their career as well as personal enrichment. Graduates who possess the heightened cultural competency, and leadership and critical thinking skills acquired through study abroad may stand out in a competitive field.

Career Opportunities: Based on factors such as pay, growth and job satisfaction, statistics has been named in separate job reports as one of the best careers, and statistical analysis and data mining have been identified as two of the most desirable skills in today's job market.

The U.S. Bureau of Labor Statistics projects 32% employment growth for statisticians by 2031. The role of statistical thinking is exploding in many important areas, such as biostatistics, business analytics and the social sciences. For students pursuing a bachelor's degree in mathematics with a concentration in statistics, that means an exciting future of career opportunities in fields including:

- biostatistics
- business
- economics
- engineering
- finance
- government
- marketing
- sports
- technology

Microbiology, BS (LAMICBS)

Campus: Tempe

Program Description: In the BS degree program in microbiology students will develop an understanding of microorganisms, their interrelationships with other organisms and their influence in biomedicine and biotechnology.

They investigate the fundamental nature of microbes, explore the role of microbes as model experimental subjects and examine the significant portion of medical research that employs microbiological and immunological methods in order to understand basic genetic and biological phenomena.

In addition to coursework, students gain hands-on laboratory and field experience by working with world-renowned faculty with opportunities to engage in independent research projects and internships.

This program is available as an accelerated degree program (<https://sols.asu.edu/degree-programs/accelerated-bachelors-masters-science>).

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Biology, MS

Computational Life Sciences, MS

Global Management (Creative Industries and Design Thinking), MGM

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate capacity for scientific thinking by applying relevant background knowledge to analyze and/or develop scientific explanations.
- Effectively communicate complex scientific concepts, ideas, and reasoning, with appropriate use of relevant sources and evidence.
- Demonstrate mastery in performing and interpreting results of microbiology lab tests.

Global Opportunities:

Global Experience: Students gain valuable, resume-enhancing experience when studying abroad (<https://goglobal.asu.edu/>). Students studying microbiology are able to expand their knowledge of how microbes impact people and society in a variety of cultures, and challenge themselves to adapt and persevere in a new and exciting culture.

With more than 300 programs available, study abroad allows students to tailor their experience to their distinct interests and skill sets. The College of Liberal Arts and Sciences recommends these study abroad programs for students majoring in microbiology. (<https://goglobal.asu.edu/students/major/sls/microbiology>)

Career Opportunities: The microbiology major provides students with critical thinking skills in a diverse discipline, giving them a solid platform for advanced research, graduate study and other professional programs, including dentistry, medicine, veterinary medicine and pharmacy.

The Bachelor of Science degree program also prepares students for direct entry into a variety of careers and positions, including government, hospitals, and research or industrial laboratories pursuing projects in food, dairy, chemicals, pharmaceuticals, environment, biotechnology and public health.

Microbiology (Medical Microbiology), BS (LAMICMBS)

Campus: Tempe

Program Description: The BS program in microbiology with a concentration in medical microbiology is tailored for students who wish to pursue careers in medicine, other health professions, medical microbiology or biomedical research.

Curriculum aligns with the broad scientific competencies recommended for premedical students. Program participants will delve into microbiology, chemistry, biochemistry, math and physics, cell biology, animal physiology, and human biology and society, making them well versed in the core concepts, competencies and critical intellectual skills necessary for the MCAT and medical school admission.

Students gain hands-on experience with world-renowned faculty, with opportunities to engage in independent research projects or internships.

This program is available as an accelerated degree program (<https://sols.asu.edu/degree-programs/accelerated-bachelors-masters-science>).

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Biology, MS
- Computational Life Sciences, MS
- Global Management, MGM
- Microbiology, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAMICMBS-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate capacity for scientific thinking by applying relevant background knowledge to analyze and/or develop scientific explanations.
- Effectively communicate complex scientific concepts, ideas, and reasoning with appropriate use of relevant sources and evidence.
- Demonstrate mastery in performing and interpreting results of microbiology lab tests.

Global Opportunities:

Global Experience: Students gain valuable experience when studying abroad (<https://goglobal.asu.edu/>). Those pursuing a medical microbiology concentration are able to expand their knowledge of how human biology is impacted by a variety of societies and cultures, and they challenge themselves to adapt and persevere in a new and exciting culture.

With more than 300 programs available, study abroad allows students to tailor their experience to their unique interests and skill sets, and gain experience that enhances their resumes. The College of Liberal Arts and Sciences recommends these study abroad programs for students majoring in medical microbiology (<https://goglobal.asu.edu/students/major/sls/microbiology-medical-microbiology>).

Career Opportunities: The medical microbiology concentration within the microbiology major provides students with a mastery of the competencies and prerequisite requirements valued by graduate programs in medical, dental and optometry fields, as well as other programs that prepare students to become physician assistants or physical therapists.

The Bachelor of Science degree program also prepares students with an understanding of the process of science and knowledge of foundational concepts in biological sciences, chemistry, physics and statistics, and the ability to understand and apply core microbiology concepts. This groundwork prepares students for direct entry into biology research careers in a vast number of areas, including cellular biology, immunology, bacteriology and virology.

Molecular Biosciences and Biotechnology, BS (LAMBBBS)

Campus: Tempe

Program Description: In the BS degree program in molecular biosciences and biotechnology, students discover advanced disciplines in life sciences research and explore the exciting and rapidly growing field of biotechnology.

They examine the interface between molecular biology and biotechnology that drives major advancements in knowledge and applied research and development.

In addition to coursework, students gain hands-on research and business experience through a capstone course with world-renowned faculty. Students also have access to a dedicated mentoring program that provides them with the opportunity to engage in independent and collaborative research projects and receive feedback and advice on career choices, internships and more.

This program is available as an accelerated degree program (<https://sols.asu.edu/degree-programs/accelerated-bachelors-masters-science>).

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Neuroscience, BS (LABMENBS)

Campus: Tempe, Online

Program Description: Neuroscientists seek to understand how the brain and nervous system operate to control bodily function, behavior and our mental states. Students in this program receive comprehensive interdisciplinary training at the crossroads of biology, chemistry and psychology, along with specialized focus in key neuroscience domains:

- Behavioral neuroscience: How does the brain work to control behavior?
- Cellular and molecular neuroscience: How do the cells of the nervous system work?
- Cognitive neuroscience: How does brain activity underlie our thoughts and emotions?
- Systems neuroscience: How do the billions of neurons work together?

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students can gain valuable experience when studying abroad, experience that enhances their resumes. Students majoring concurrently in neuroscience are able to expand their communication and research skills and challenge themselves to adapt and persevere in a new and exciting culture.

With over 300 programs available (<https://goglobal.asu.edu/>) in a variety of cultures, study abroad allows students to tailor their experience to their unique interests and skill sets. The College of Liberal Arts and Sciences recommends specific study abroad programs (<https://goglobal.asu.edu/students/major/sls/neuroscience>) for students majoring in neuroscience.

Career Opportunities: The neuroscience degree equips students for diverse career trajectories in health and research, as well as a variety of STEM fields. Graduates are well prepared for professional opportunities in academic research, bioengineering, biotechnology, data science, law, medicine, medical research, psychology, pharmaceutical research and development, and physical and speech rehabilitation.

This program's rigorous curriculum imparts skills that are applicable across the health sciences, offering graduates the flexibility they need to help take their first steps toward their chosen profession. Furthermore, students gain the foundational knowledge necessary to excel in competitive graduate-level programs within biomedical fields such as medicine, nursing, clinical professions, technology and veterinary medicine.

Philosophy, BA (LAPHIBA)

Campus: Tempe, Online

Accelerated options for this program are not currently available to ASU Online students.

Program Description: The BA in philosophy teaches students how to think well, which in turn lays the foundation for personal and professional success.

Philosophy students learn how to structure arguments, write precisely and clearly, and communicate their ideas in an orderly, persuasive and unambiguous way. Many philosophical texts are complicated, and philosophy courses teach students how to read, comprehend and summarize

conceptually difficult material. In short, studying philosophy trains one to be a better, clearer thinker.

Coursework includes the major subfields of philosophy, such as metaphysics, epistemology and ethics, and electives that connect philosophy to other areas of inquiry, emphasizing the social relevance of philosophy.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Present and defend a philosophical view using concepts, technical terminology, and methods acquired in an advanced topical seminar as well as skills in logical analysis and civil and respectful argumentation.
- Present and explain central philosophical positions from key figures in the historical development of philosophical thought, especially their metaphysical and epistemological positions.
- Evaluate how well different normative ethical theories such as consequentialism, deontology, virtue theory provide moral standards that dictate which (if any) actions are right and wrong or how well different metaethical theories such as realism, expressivism, relativism, and nihilism account for the meaning and truth of moral claims.
- Evaluate arguments for formal validity and construct formal proofs. Students will be able to capture the logical form of prose arguments.

Global Opportunities:

Global Experience: Students can explore a diverse range of cultures and philosophies through study abroad. Study abroad programs help students gain valuable skills, such as problem-solving, communication, adaptability and cultural competency, that enhance their resumes. With over 300 unique programs around the globe available to them, students can tailor their study abroad experience to their interests and skill sets.

More information on available programs can be found on the Global Education Office website (<https://goglobal.asu.edu/>). The College of Liberal Arts and Sciences recommends these study abroad programs (<https://goglobal.asu.edu/philosophy-ba>) for students majoring in philosophy.

Career Opportunities: Philosophy alumni are well prepared for leadership roles whatever path they take, whether in business, law, politics, medicine or education.

The analytical, rhetorical and writing skills developed through the study of philosophy provide ideal preparation for careers in a wide range of fields, including:

- business
- education
- journalism
- law
- medicine
- public service

Philosophy (Morality, Politics and Law), BA (LAPHIMPBA)

Campus: Tempe, Online

Accelerated options for this program are not currently available to ASU Online students.

Program Description: The BA in philosophy with a concentration in morality, politics and law combines the basic analytical approaches of philosophy with an emphasis on the moral questions that arise in political theory and law. The foundations of political and legal systems are moral values, such as individual liberty, equality and justice. These are contested values, open to different understandings of their nature and implications.

Students explore the nature of morality, political theory, legal theory and the interconnections between them. Students complete philosophy courses as well as courses from disciplines related to philosophy to enrich and enliven their understanding of the intersections of morality, politics and law. This degree program is of special interest to students planning to pursue postgraduate work in law, policy or politics.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website
2024-25 Academic Catalog Archive

Philosophy (Science, Nature and Mind), BA (LAPHISNMBA)

Campus: Tempe

Program Description: The BA program in philosophy with a concentration in science, nature and mind combines training in philosophy with an emphasis on questions raised by the natural, social and cognitive sciences.

Scientific investigation of the physical world and the mind inevitably makes assumptions about what sorts of things are real, the relationship of physical systems to conscious thought, and the nature of scientific explanation. The natural and social sciences are thus connected with philosophical views in metaphysics and epistemology. In addition, more applied areas of science, such as those concerned with sustainability and new technologies, raise ethical and policy questions as well as questions about humans' moral relationship to the natural world.

Students enrich their understanding of the natural and social sciences through courses in philosophy as well as courses from related disciplines. This program is a great fit for students who want to complement a science major with a second major in the humanities and for students who wish to do postgraduate work in medicine, sustainability or technology.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAPHISNMBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Present and defend a philosophical view about a specific sub-topic in philosophy using concepts, technical terminology, and methods acquired in an advanced topical seminar as well as skills in logical analysis and civil and respectful argumentation.
- Evaluate how well such different theories of mind as dualism, behaviorism, identity theory, functionalism and eliminativist materialism solve the mind-body problem and the problem of explaining phenomenal consciousness.
- Evaluate different approaches to understanding the nature of scientific justification, the aims of science and how they can be achieved, and what makes some theories preferable to others.
- Apply the concept of formal validity and the rules of deductive inference to evaluate the deductive validity of prose arguments and to construct formalized proofs in symbolic logic.

Global Opportunities:

Global Experience: Students can explore the diverse range of cultures and philosophies around the globe. With over 300 unique study abroad programs available to them, students can tailor their experience to their interests and skill sets. Study abroad programs help students gain valuable skills such as problem solving, communication, adaptability and cultural competency --- skills that enhance their resumes.

More information on available programs can be found on the Global Education Office website (<https://goglobal.asu.edu/>). The College of Liberal Arts and Sciences recommends these study abroad programs (<https://goglobal.asu.edu/philosophy-ba>) for students majoring in philosophy with a concentration in science, nature and mind.

Career Opportunities: The analytical, writing and problem-solving skills gained through a philosophy major are highly transferable to a wide range of jobs, and students with a degree in philosophy have the highest median income of all humanities graduates.

Graduates of the science, nature and mind concentration are prepared for career opportunities in medical and mental health fields, climate change and sustainability, information and policy analysis, and scientific and nature education and writing. For example, graduates may find employment with the U.S. Environmental Protection Agency.

This program also provides excellent preparation for students interested in medical school.

Physics, BA (LAPHYBA)

Campus: Tempe, Online

Program Description: Physics is concerned with the nature, structure and interactions of matter and radiation. The BA program in physics

provides a flexible and efficient option for students who are interested in a liberal arts degree that provides them a broad knowledge of physics. This degree program also is ideal for students seeking to complete two degrees, with physics as the second degree.

The program combines innovative learning methods with time-tested classroom and laboratory experiences for an education that is thorough in physics training and flexible enough to encourage interdisciplinary opportunities in areas such as chemistry, biology and materials science.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I or MAT 265 Calculus for Engineers

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: Current ASU students wishing to change their major to physics should have a minimum cumulative GPA of 2.00 for all critical classes they have completed.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAPHYBA-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students majoring in physics can study abroad (<https://goglobal.asu.edu/>) in one of over 300 available programs. A study abroad experience offers a way to supplement the ASU experience as well as the chance to build helpful, resume-boosting skills that employers seek. Students who study abroad improve their communication skills, can learn to adapt to unforeseen challenges and expand their worldview through international experiences that open them to different points of view.

Career Opportunities: Graduates with a Bachelor of Arts degree in physics may pursue such careers as:

- data analyst

- K-12 STEM teacher
- lab assistant
- patent scientist
- science writer
- technology support analyst

Physics, BS (LAPHYBS)

Campus: Tempe, Online

Program Description: Physics is concerned with the nature, structure and interactions of matter and radiation. In the BS program in physics, students develop general problem-solving skills that enable them to interpret and solve new problems covering virtually any phenomenon in the physical universe, including classical or quantum systems, electric or magnetic behavior, and thermal or statistical physics.

The BS program in physics provides a solid foundation in physical science and mathematics, and prepares students for further graduate study in physics, other sciences or engineering programs.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry IOR MAT 265 Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Materials Science and Engineering, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: Current ASU students who wish to change their major to physics should have a minimum cumulative GPA of 2.50 for all critical classes they have completed.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/physics-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAPHYBS-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students gain valuable experience through study abroad (<https://goglobal.asu.edu/>), experience that enhances their resumes. With more than 300 programs available in a variety of countries around the world, study abroad allows students majoring in physics to tailor their experience to their unique interests and skill sets.

Graduates who possess the heightened cultural competency, leadership and critical thinking skills they acquired when studying abroad may stand out in a competitive field.

Career Opportunities: The wide variety in applicability of the principles of physics allows for great flexibility in a choice of career or further education.

Graduates with a Bachelor of Science in physics possess analytical and technical skills suitable for employment in areas such as data analytics, education, engineering, finance, information technology, materials science, science communication and more.

Graduates are also prepared for admission to graduate school or advanced study in astronomy, engineering, mathematics, medicine and physics.

Political Science, BA (LAPOSBA)

Campus: Tempe, Online

Program Description: The BA program in political science uncovers politics and policy at the local, national and global levels. The program aims to provide students with the tools and skills they need to link theory with real-world problems and to produce well-rounded learners with strong research and writing skills.

Students study how citizens interact with their governments and how governments at all levels formulate policies to serve, or not serve, their citizens. They explore innovative approaches to today's emerging political challenges, such as those seen in elections and lobbying, and the international issues of terrorism, diplomacy and empowerment.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Security (Cybersecurity), MA
- Global Security (Irregular Warfare), MA
- Global Security, MA
- International Affairs and Leadership, MA
- Political Psychology, MA
- Political Science, MA
- Public Administration, MPA
- Public Policy, MPP

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-political-science/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAPOSBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students can experience firsthand the diverse political and social powers governing communities around the globe. With over 300 Global Education programs (<https://goglobal.asu.edu/>) available, study abroad allows students to tailor their experience to their unique interests and skill sets. Students majoring in political science can enhance their learning by gaining a global perspective on political theory and world affairs in countries with communist regimes or monarchies, for example.

The College of Liberal Arts and Sciences recommends these study abroad programs (<https://goglobal.asu.edu/political-science-ba-bs>) for students majoring in political science.

Career Opportunities: Graduates have skills that enable them to be successful in political or governmental careers, law school, graduate study, business or the nonprofit sector. Many program graduates have found positions in:

- the courts and judicial administration
- foreign service organizations
- legislative staff organizations
- lobbying and advocacy groups
- local and national media organizations
- local, national and global nonprofit organizations
- multinational corporations
- national, state and local government agencies
- political consulting
- research institutions

In addition, some graduates have gone on to other top-tier graduate and professional schools. These students have found a range of employment opportunities in:

- communication
- education
- foreign service
- journalism
- law
- political science
- public service

Politics and the Economy, BS (LAPECBS)

Campus: Tempe

Program Description: The BS program in politics and the economy prepares students for careers that require a sophisticated understanding of the relationship between politics and the economy.

This degree is a response to the growing recognition that many of the world's most pressing problems (e.g., growth and development, tax reforms and climate change) are fundamentally political and economic problems. The program combines core courses in economics and political science. Utilizing the strengths of both the ASU Department of Economics and the School of Politics and Global Studies, students graduate with strong quantitative and modeling skills and a rich understanding of political context.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief CalculusAny math course that meets the MATH designation, except MAT 142 College Mathematics.

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Political Science, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: All students are required to meet general university admission requirements.

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.
 2024-25 Academic Catalog Archive

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAPECBS-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students can study both politics and economics from others' standpoints while studying abroad. With over 300 programs available (<https://goglobal.asu.edu/>), study abroad allows students to tailor their experience to their unique interests and skill sets. It can help them explore how other countries and cultures approach their most pressing problems, giving students insights they can then apply in their future careers.

Career Opportunities: According to external forecasters of employment growth (U.S. Department of Labor and U.S. News & World Report), job opportunities for graduates of the politics and the economy degree program are expected to grow as fast as or faster than the average growth of the labor force. These forecasters note that the demand for graduates grounded in economics and political science is driven by the growing complexity of the global economy, the increased implementation of financial regulations in wealthier nations and the growing competitiveness of the business environment.

In terms of specific sectors, graduates are well prepared for entry positions in government at all levels (local, state and federal) and in business, economic and political consulting, and law. They are also prepared to pursue advanced degrees in law, business, economics or political science.

Psychology, BA (LAPGSBA)

Campus: Tempe

Program Description: The BA in psychology program offers a deep understanding of human and animal behavior. Alongside distinguished faculty, students explore topics such as stress, emotions, conflict and the pivotal role of body image in shaping identity.

What sets this program apart is its robust support network that connects students to an engaged community of alumni. Internships complement classroom learning and provide practical experience that bridges psychology education with careers in business, health care and the various helping professions.

A foundation in psychology empowers graduates for personal and professional growth, paving the way for success in work, relationships and family roles. The program also positions students to excel in professional graduate degree programs, particularly in law, business, social work and counseling.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 119 - Finite Mathematics or MAT 170 Pre-Calculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus

master's degree with::

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Transfer Admission Requirements: Transfer applicants must meet university transfer admission requirements.

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAPGSBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Study abroad allows students in the psychology program to acquire additional skills and knowledge. They are exposed to unique differences in human behavior, are able to improve language and cross-cultural skills for effective communication, and are challenged to adapt to new social and cultural circumstances.

The expanded education that students acquire through a Global Education program (<https://goglobal.asu.edu/>) will be a valuable enhancement to their resume, helping them stand out when applying for graduate school or when pursuing their choice of careers.

The College of Liberal Arts and Sciences recommends these programs (<https://goglobal.asu.edu/psychology>) for students majoring in psychology.

Career Opportunities: The Bachelor of Arts in psychology empowers students with a versatile skill set encompassing analytical thinking, effective communication, teamwork and leadership. Graduates are well-prepared for a wide array of career paths, including roles in law, business, health care and the helping professions.

This program's rigorous curriculum not only hones students' practical skills in writing and public speaking but also lays a strong foundation for success in competitive graduate-level programs, enabling students to apply psychological concepts and principles across various fields.

Psychology, BS (LAPGSBS)

Campus: Tempe

Program Description: The BS in psychology emphasizes the scientific study of human behavior, cognition and more. The program combines innovative learning methods with classroom and laboratory experiences for an education that encourages interdisciplinary opportunities.

Students gain a strong foundation in psychological theory and practice, honing research analysis and critical thinking skills. They engage with esteemed faculty, exploring human and animal behavior, and they learn to effectively interact with diverse groups across scientific interests and

disciplines.

This program connects students to a robust support network, internships and engaged alumni. Graduates possess foundational psychology knowledge that enhances their work, relationships and family roles.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 119 - Finite Mathematics or MAT 170 Pre-Calculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Transfer Admission Requirements: Transfer applicants must meet university transfer admission requirements.

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAPGSBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Through study abroad programs, students are exposed to unique differences in human behavior and the human condition, are able to improve language and cross-cultural skills for effective communication, and are challenged to adapt to new social and cultural circumstances.

The expanded education that students acquire through a Global Education program (<https://goglobal.asu.edu/>) will be a valuable enhancement to their resume, helping them stand out when applying for graduate school or when pursuing their choice of careers

The College of Liberal Arts and Sciences recommends these programs (<https://goglobal.asu.edu/psychology>) for students majoring in psychology.

Career Opportunities: With a Bachelor of Science in psychology, students gain diverse career options. This program establishes a strong foundation for immediate entry into science-based career fields, such as health care or research and development in an academic or business

environment.

It also positions students for a pathway into medical school. Graduates are well-prepared for rewarding careers in pre-med and health fields as well as research and graduate study in psychology, health sciences, law and other graduate-level degree programs.

Psychology (Psychological Science), BS (LAPGSPSBS)

Campus: Tempe

Program Description: A BS in psychology that specializes in psychological science immerses students in research-focused learning. They collaborate with renowned faculty at the forefront of innovation and discovery, and explore human and animal behavior, stress, emotions and more from the perspective of a research scientist.

Tailored for those aspiring to pursue a PhD or related scientific graduate studies, this program blends intensive coursework with hands-on learning. The program provides practical experience through internships and connects current students to a robust mentorship network, where alumni guide current scholars throughout their academic journey. Graduates emerge collaborative and are prepared for impactful careers doing research that makes a difference in people's lives.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 119 - Finite Mathematics or MAT 170 Pre-Calculus

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The BS in psychology with a concentration in psychological science is open to students who have:

- completed the critical courses for a BS in psychology (ENG 101, ENG 102, MAT 119 or MAT 170, PSY 101, PSY 230, PSY 290) with a "C" or better
- earned at least 45 credit hours
- earned at least an ASU cumulative GPA of 3.00

Students must maintain a minimum cumulative GPA of 3.00 from admittance through graduation.

Change of Major Requirements: Students wishing to change their ASU major to this program must have completed all critical courses for the BS in psychology (ENG 101, ENG 102, MAT 119 or MAT 170, PSY 101, PSY 230, PSY 290) with a "C" or better, and have at least 45 earned credit hours.

Students must maintain a minimum cumulative GPA of 3.00 from admittance through graduation.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LAPGSPSBS-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: When studying abroad, students are able to enhance their understanding of human interaction, culture and behavior through the unique cultural experiences afforded by the opportunities inherent in their program.

Global Education programs (<https://goglobal.asu.edu/>) expose students to unique differences in the human condition elsewhere in the world and expand their knowledge. Students gain heightened cultural competency, and communication and critical thinking skills while exploring a new and exciting part of the world. This valuable skill set can set them apart from other applicants when they apply for graduate school or pursue a job after graduation.

The College of Liberal Arts and Sciences recommends these programs (<https://goglobal.asu.edu/psychology>) for students majoring in psychology.

Career Opportunities: Earning a degree in psychology with a concentration in psychological science opens doors to versatile career paths. Graduates are well-prepared for diverse roles in health and research teaching.

The program's strong foundation also readies students for competitive graduate-level programs in all areas of psychology, law and medicine.

Religious Studies (Religion, Culture and Public Life), BA (LARELCPBA)

Campus: Tempe, Online

Accelerated options for this program are not currently available to ASU Online students.

Program Description: The BA in religious studies with a concentration in religion, culture and public life approaches religion as a mode of human culture, as constituted in intellect, language, emotion, practice, art and everyday life.

The program focuses on the role religions play in the formation of cultural identities, traditions, norms and memories, and it examines in particular the impact religions have on culturally specified ways that people reason, communicate, socialize, work, entertain, dress, eat, live and die. Special consideration is given to the influence of religion on gender roles and sexual norms; the formation of images of the body and the moral assessment of medical practices; and the reflection and reproduction of religion in film, popular culture and conventional, digital and social media.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management (Creative Industries and Design Thinking), MGM
Global Management (Digital Audience Strategy), MGM
Global Management (Global Affairs), MGM

Global Management (Global Business), MGM
Global Management (Global Development and Innovation), MGM
Global Management (Global Digital Transformation), MGM
Global Management (Global Entrepreneurship), MGM

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/religious-studies-religion-culture-and-public-life-ba/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LARELCPBA~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Formulate a thesis about a significant issue in religious studies relating to culture and public life.
- Address and analyze a scholarly issue in religious studies relating to culture and public life.
- Develop a sustained, evidence-based argument about a significant issue in religious studies relating to culture and public life.

Global Opportunities:

Global Experience: Religion plays a major role in cultural and societal norms, identities and traditions all over the world. Through one of more than 300 unique Global Education programs (<https://goglobal.asu.edu/>), students witness firsthand diverse religions and cultures, and gain a heightened understanding of the impact of religion on human culture. Students also enrich their cultural competency, communication and critical thinking skills, which can enhance their resumes.

The College of Liberal Arts and Sciences recommends these study abroad programs (<https://goglobal.asu.edu/religious-studies-ba>) for students majoring in religious studies with a concentration in religion, culture and public life.

Career Opportunities: Religious studies majors seek jobs in many professional areas, including:

- chaplaincy
- diversity management
- education
- foreign service
- health care, including mental health and counseling
- journalism
- law
- nonprofit and nongovernmental organizations
- public service and public policy
- publishing

Religious studies is an excellent foundation for graduate and professional studies in:

- anthropology
- gender studies
- health care
- history
- law
- justice studies
- philosophy
- political science
- sociology
- theology

The concentration addresses present-day interests and prepares students for jobs in a variety of professions. In addition to the fields listed above, students also pursue employment in media studies, migration and international studies.

Religious Studies (Religion, Politics and Global Affairs), BA (LARELPGBA)

Campus: Tempe, Online

Accelerated options for this program are not currently available to ASU Online students.

Program Description: The BA program in religious studies with a concentration in religion, politics and global affairs considers how the study of religion expands the understanding of political culture, communal formation, governance, nationalism, statehood and citizenship in both domestic and global contexts.

Students explore the role religion has in shaping political values, social movements, civic organizations and communal norms, with particular attention to how religion impacts issues of health, the environment, migration, peace, conflict, violence and various issues of social justice. Special consideration is given to the religious intersections of nationality, ethnicity, race, gender and other vital facets of human community and identity.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Russian, BA (LARUSBA)

Campus: Tempe

Program Description: The BA program in Russian explores Russia's language, literature, history and more. As part of a small community of program participants with the resources of a large university, students gain intermediate to advanced reading, writing and speaking skills in Russian. They also study Russian civilization, pop culture, protest and propaganda, and classical Russian works.

The program partners with the Melikian Center for Russian, Eurasian and East European Studies to offer a certificate in agribusiness, anthropology, architecture, economics, geography, history, political science, religious studies, Russian, sociology or women's studies.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Studying abroad (<https://goglobal.asu.edu/>) is vital when learning Russian language and culture. To be immersed among native language speakers adds value to the degree, and the experience prepares students to take off in an exciting, multicultural career with valuable skills employers seek. Students can choose from programs in many Russian-speaking countries. Programs vary in length, from summer programs to full-year programs.

The College of Liberal Arts and Sciences recommends specific study abroad programs (<https://goglobal.asu.edu/students/major/SILC/russian>) for students majoring in Russian.

Career Opportunities: Students in the Russian program develop intermediate to advanced language and cultural proficiency. Faculty members mentor students throughout the program to win prestigious paid internships in places like Washington, D.C., and scholarships from government entities such as the Defense, Education, Justice and State Departments.

These experiences open doors to a variety of fulfilling career opportunities. Graduates will be prepared to study advanced degrees and pursue careers in:

- business
- diplomacy
- education
- global security
- international law
- journalism
- military
- public policy
- translation
- travel

Sociology, BS (LASOCBS)

Campus: Tempe, Online

Program Description: Sociology is the study of social life, social change and the social causes and consequences of human behavior.

The BS program in sociology offers courses on contemporary social phenomena such as crime, population trends and technology, as well as on the exploration of social institutions such as family, health, sports, law and the workplace. Students develop proficiency in written communication, statistical analysis and research methodology, and gain computer skills.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Identify and apply key sociological concepts and theoretical frameworks critical to understanding social institutions and structural inequality
- Identify global and cross-cultural variations in social phenomena and points of intersectionality in social institutions and processes.
- Demonstrate the ability to be a capable consumer and critical evaluator of quantitative/qualitative research and information

Global Opportunities:

Global Experience: Students explore different cultures and social dynamics when studying abroad (<https://goglobal.asu.edu/>) and develop in-demand professional skills such as teamwork and problem-solving. Students can stay on track academically while earning ASU credit over winter or spring break trips. Among the opportunities available are homestays, which enable students to make connections with families in other countries.

The College of Liberal Arts and Sciences recommends these programs (<https://goglobal.asu.edu/students/major/ssfd/sociology>) for students

majoring in sociology.

Career Opportunities: An undergraduate degree in sociology prepares students for direct entry into positions in:

- business
- government
- social service

The degree also provides excellent preparation for future graduate and postbaccalaureate studies in:

- health care
- law
- social work and counseling
- sociological research

Spanish, BA (LASPABA)

Campus: Tempe, Online

Program Description: The BA program in Spanish allows students to gain reading, speaking and writing proficiency through either a Spanish linguistics track or the Spanish literature and culture track. The linguistics track provides an in-depth understanding of the Spanish language. In contrast, the literature and culture track addresses issues throughout the Spanish-speaking world as seen through the lenses of the Spanish language, culture and literature.

Throughout the year, through study abroad and exchange programs (<https://goglobal.asu.edu/>), ASU offers opportunities to study in Spanish-speaking countries.

The Bachelor of Arts is also available for online students as a combination of courses from both tracks. Students are encouraged to contact a school advisor to discuss the best option.

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Language Teaching, MA
Spanish, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-spanish/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LASPABA-null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Spanish is one of the most spoken languages in the world. Culture teaches people about themselves and how to prepare for the challenges of life, and foreign cultures broaden that perspective to include other peoples whose lives may be both notably different from and remarkable similarly to their own.

Global Education programs (<https://goglobal.asu.edu/>) provide immersion in the societies in which Spanish is spoken as well as a diverse array of individual and group experiences that effectively open those societies up to enriching personal experiences. Global Education programs enhance students' experience of the diversity of the world, and the knowledge of such diversity makes every person a better human being and citizen.

The College of Liberal Arts and Sciences recommends these programs for students majoring in Spanish. (<https://goglobal.asu.edu/students/major/SILC/spanish>)

Career Opportunities: Knowledge of multiple languages and intercultural competencies enhance any occupation and offer graduates many career opportunities. Language-intensive professions include:

- foreign correspondent
- foreign media professional
- foreign service officer
- international banking and finance professional
- language, literature or culture teacher
- law and immigration professional
- multilingual administrative professional
- translator or interpreter
- travel professional

Technological Leadership, BS (LATECLDRBS)

Campus: Tempe, Online

Program Description: In the BS degree program in technological leadership, students learn complex problem-solving, technical design thinking and leadership skills. Coursework focuses on individual and team-based research, technology design, intensive internships and fundamental skills in writing, math and coding.

Offered by the Interplanetary Initiative, this major consists of an interdisciplinary blend of student-driven classroom learning and hands-on projects. In inquiry classes, students use an innovative inquiry cycle to explore big questions associated with human society and space exploration. Examples of these questions include, "What will the moon look like after human settlement?" and "How can we create and sustain a human biosystem in space?" In hands-on classes, students use technical design thinking processes with software and lab tools to create physical products, digital solutions, or service designs that address complex challenges in the world of science and technology.

In addition, immersive internships provide students with an opportunity to apply knowledge from academic courses in order to address research opportunities or practical challenges, and to gain valuable experience in the workplace before graduation.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences or MAT 265 Calculus for Engineers I or MAT 270 Calculus with Analytic Geometry I

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Global Management, MGM
- Global Technology and Development, MS
- Human Systems Engineering (Intelligent Systems), MS
- Human Systems Engineering (User Experience Research), MS
- Human Systems Engineering, MS
- Public Interest Technology, MS
- Technology (Management of Technology), MSTech

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/inquiry-based-learning-degree/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students

take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LATECLDRBS~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, technological leadership students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Graduates with this degree are prepared for a wide variety of exciting career opportunities in diverse industries, such as software and technology, energy, aerospace, finance, law and education. They are prepared to succeed in many areas, such as:

- academic research
- business strategy
- data analytics
- engineering management
- entrepreneurship
- management consulting
- product management
- project management
- systems engineering
- technology transfer

Transborder Chicana/o and Latina/o Studies, BA (LATCLBA)

Campus: Tempe

Program Description: The BA program in transborder Chicana/o and Latina/o studies challenges students to understand the intersections of identity, culture and community for Mexican-origin, Chicano and Latino populations in the United States and the U.S.-Mexico transborder region, with implications for other border communities around the world.

More specifically, students learn about the diversity of cultural, social, political, economic, historical, health-related and artistic experiences in these communities and develop tools for understanding borders and border communities worldwide. The curriculum focuses on growing the next generation of critical thinkers and changemakers who work toward improving the lives of Latinos, strengthening Latino and transborder communities, and honoring transborder knowledge.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap

in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Transborder Studies, MAS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, transborder studies students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Latinos are the country's second largest ethnic group behind white non-Hispanics. This program equips students to address the changing needs of Latinos in the U.S. by preparing graduates to become immigration lawyers, nonprofit leaders, teachers, entrepreneurs, government employees, political activists, community organizers, advocates and artists. Career paths enhanced by this degree include:

- the arts
- education (administration and teaching)
- film and media
- law
- local, state and national government agencies
- local, state and national public and private health services
- public policy and administration
- social work and nonprofit organizations

Transborder Chicana/o and Latina/o Studies (Media and Expressive Culture), BA (LATCLMBA)

Campus: Tempe

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program Description: The BA program in transborder Chicana/o and Latina/o studies focuses on the cultural, social, political, economic, historical, health-related and artistic experiences of Mexican-origin, Chicano and Latino populations in the United States and the U.S.--Mexico transborder region.

In the media and expressive culture concentration, students focus their study on the cultures of Latino communities. Students learn about the cultural diversity of Chicano, Mexican, Puerto Rican, Cuban, Dominican, Central American and other Latino populations in the United States and their contributions to the arts by analyzing:

- film and the media
- history
- literature (novels, short stories, poetry)
- performance
- visual art

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

their college journey.

Global Opportunities:

Global Experience: Students have the opportunity to immerse themselves in the homelands of the Chicano and Latino cultures they are studying. Students can deepen their understanding of transborder influences and gain a deeper appreciation of transborder media and expression while enhancing their resumes with heightened cultural competency, critical thinking and communication skills. Each of the more than 300 Global Education program (<https://goglobal.asu.edu/>) options provides an opportunity for students to develop a valuable skill set that can give them an advantage in their career and personal enrichment. Whether in a foreign country, in the U.S. or online, Global Education programs encourage students to build communication skills, challenge them to adapt and persevere, expose them to differences across the world and increase their ability to work with diverse groups of people.

Career Opportunities: The media and expressive culture concentration equips students with analytical and communication skills vital to the pursuit of graduate work and various career paths, including:

- the arts
- education (administration and teaching)
- film and media
- law
- local, state and national government agencies
- nonprofit organizations
- public policy and administration
- social work

Transborder Chicana/o and Latina/o Studies (US and Mexican Regional Immigration Policy and Economy), BA (LATCLUBA)

Campus: Tempe

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program Description: The BA program in transborder Chicana/o and Latina/o studies focuses on the cultural, social, political, economic, historical, health-related and artistic experiences of Mexican-origin, Chicano and Latino populations in the United States and the U.S.--Mexico transborder region.

In the U.S. and Mexican regional immigration policy and economy concentration, students focus their studies on the growing political and economic influence of Latinos in the U.S. and the U.S.--Mexico region, considering relevant present-day topics such as:

- border enforcement
- demographic change
- economic integration
- globalization
- immigration policy
- international migration
- regional development

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Global Opportunities:

Global Experience: Students have the opportunity to immerse themselves in the homelands of the Chicano and Latino cultures they are studying, with study abroad programs across Central America, Mexico and other Latin American countries, deepening their understanding of transborder influences and gaining a new perspective on international migration. The heightened cultural competency and critical thinking and communication skills that students acquire through study abroad are valued enhancements to students' resumes. More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

Career Opportunities: The U.S. and Mexican regional immigration policy and economy concentration prepares students for careers in several fields, such as:

- education (administration and teaching)
- local, state and national government agencies
- nonprofit organizations
- public affairs
- public policy and administration
- social work

The program also equips students with the theoretical and practical knowledge necessary for graduate work in law and other fields.

Urban Planning, BSP (ARPUPBSP)

Campus: Tempe, Online

Program Description: Urban planners guide communities in making wise decisions about their use of land and resources. The urban planning program introduces students to issues faced by urban areas and the tools necessary to address them.

Students in the BSP program gain expertise in the analysis and synthesis of the physical, social, political and economic issues that shape urban and regional development. Courses cover comprehensive planning, computer and analytical methods, public policy formulation and administration, socioeconomic and environmental analyses, urban design and many other fields that urban planning encompasses, such as:

- geographic information systems
- housing
- landscape architecture
- planning and zoning law
- transportation
- urban and development economics
- utilities

In addition to the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (<https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees>) for more information and requirements.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Urban and Environmental Planning, MUEP

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-urban-planning/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ARPUBSP~null + &college=CLA>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Through study abroad (<https://goglobal.asu.edu>) programs, students of urban planning can gain an understanding of how communities around the world have developed urban areas, and look at urban issues from a global perspective. The valuable experience students obtain through study abroad enhances their resumes, and they will be ready to use their acquired insights to help communities at home and around the world.

Study abroad programs are available in more than 300 programs in more than 65 countries.

Career Opportunities: Graduates of the urban planning program pursue career opportunities with private planning firms and governmental planning agencies, mainly at the city level, but also with county, state and federal entities. Some planners elect to pursue graduate degrees to develop specialty skills and enhance their opportunities for career advancement.

The urban planning degree, especially when combined with a focus on geographic information science, gives graduates an advantage in careers that combine urban planning with GIS and in other jobs dealing with urban issues, including:

- comprehensive and long-range planning
- economic development planning
- housing issues
- planning law
- public participation in the planning process
- socioeconomic and environmental analyses
- sustainable planning
- transportation

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Nursing and Health Innovation, Edson College of

Applied Science (Health Entrepreneurship and Innovation), BAS (NUHCIBAS)

Campus: Downtown Phoenix, West, Online

Program Description: The BAS program with a concentration in health entrepreneurship and innovation is designed for students with an AAS degree who want to lead transformative change in health through the creation of new products, processes and systems.

Students have the opportunity to examine current evidence-based practice and health care policy through a lens of innovation using an integrated systems perspective, enabling them to hone the skills necessary to be a leader of innovation in a health care context.

Students with an Associate of Applied Science degree in any field can pursue this pathway.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: Any math course with the MATH general studies designation will satisfy the math requirement.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students learn to thrive in a global environment through the rich educational and interpersonal experiences inherent in study abroad. A resume enhanced by the valuable study abroad experience will impress prospective employers and help the student stand out should they decide to pursue advanced study.

With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, health entrepreneurship and innovation students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Primary career opportunities include health care administrators and health care managers, as well as:

- entrepreneurs
- health architects
- health care administrators
- health care strategists, advisors, project managers and administrators
- health innovation consultants
- health product and service managers
- health system designers
- intrapreneurs (managers who promote innovative product development and marketing)
- public relations experts in health

Community Health, BS (NUCHLTBS)

Campus: Downtown Phoenix, West, ASU at Lake Havasu, Online

Program Description: Modern health care extends beyond the hospital and into local neighborhoods. Whether it means ensuring everyone has access to nutritious and fresh foods or providing vulnerable populations with preventive checkups, health care is now a community matter.

The BS in community health develops leaders who are dedicated to addressing health challenges at their source and creating partnerships with both public and private organizations to leverage resources. By creating a communitywide response to these challenges, graduates can better advocate for patients and provide education opportunities for people of all backgrounds.

Students with an interest in community change find that this degree prepares them to be informed health activists, organizers, planners and well-rounded members of the local, regional and national community.

Key program areas of emphasis:

- advocacy for diverse individuals, families and communities
- providing health education, health promotion and care coordination
- providing understanding of environmental concerns and their impact on health
- understanding components of a healthy, sustainable community

Graduates of this program provide health education, health promotion, care coordination, disease management, health care navigation and advocacy services for individuals, families and communities.

This degree program has the same prerequisites as the nursing major; therefore, students may transition seamlessly to this program and obtain a bachelor's degree in a health-related field.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-community-health/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NUCHLTBS~null + &college=CNU>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Study abroad allows community health students to learn how to address the health needs of diverse populations. By immersing themselves in a culture outside the United States, students can learn about global health trends and how people in another country have advocated for positive change in the health care systems of their communities. Students can find more information on the Global Education website (<https://goglobal.asu.edu/>).

Career Opportunities: Graduates may obtain employment as:

- community health managers
- community health outreach specialists
- health care navigators
- health promotion evaluators
- health services administrators

Health Care Compliance and Regulations, BS (NUHCCRBS)

Campus: Downtown Phoenix, Online

Program Description: The BS in health care compliance and regulations is an undergraduate degree program dedicated to the training of compliance professionals. It is the first undergraduate degree program to be accredited by the Compliance Certification Board®. <https://www.corporatecompliance.org/certification> (<https://www.corporatecompliance.org/certification>)

Students are offered the opportunity to learn best practices from a broad array of industry experts (providers, regulatory agencies, government payers and others) within the health care industry, giving graduates options to pursue various careers in health care compliance.

This program is ideal for anyone interested in the ethical, regulatory and business sides of the health care industry. Program highlights include:

- data privacy and security
- industry standards for accreditation and auditing
- monitoring and auditing
- revenue cycles, including current billing and coding procedures
- risk assessment
- seven elements of an effective compliance program
- state and federal compliance laws and regulations

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra or any math course that meets the MATH designation

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/health-care-compliance-and-regulations-bs/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NUHCCRBS~null + &college=CNU>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students gain valuable experience when studying abroad, experience that will enhance their resumes. With more than 300 Global Education programs (<https://goglobal.asu.edu/>) available to them, students can tailor their experience to their unique interests and skill sets. Students majoring in health care compliance and regulation can learn about other global health care systems and how they are regulated.

Graduates who possess the heightened cultural competency, leadership and critical thinking skills they acquired when studying abroad may stand out in a competitive field.

Career Opportunities: Graduates may be employed as:

- compliance analysts or specialists
- compliance leads or trainers for health care operations (revenue, clinical care, research, education)
- health care regulatory affairs analysts or specialists

- HIPAA privacy compliance analysts or specialists
- internal auditors, claims auditors or audit response leads
- Medicare and Medicaid compliance analysts or specialists
- special investigation unit analysts or specialists
- patient safety survey specialists
- regulatory compliance specialists

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Health Care Coordination, BS (NUHCCOBS)

Campus: Downtown Phoenix, West, Online

Program Description: The BS program in health care coordination prepares students to effectively coordinate resources to optimize individual health outcomes.

Through coursework, students build a thorough understanding of health care systems, community and public health, community resources, health education and health advocacy.

The program emphasizes patient advocacy and education, the resources available from community and public health services, and the role of health policy and financing in modern health care.

Graduates of the program are prepared to work with an interdisciplinary team to use resources, provide health education and advocate for the patient when it is needed the most.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or MAT 117 College Algebra or any math course that meets the MATH designation

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Aging, MS
 Healthcare Innovation, MHI

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

Health Entrepreneurship and Innovation, BS (NUHCIBS)

Campus: Downtown Phoenix, West, Online

Program Description: The BS program in health entrepreneurship and innovation provides a broad background in the principles of innovation, leadership, complexity science, change theory, collaboration and evidence-based decision-making to ensure that its graduates are prepared to manage implementation of innovation in the health care arena.

Through the use of evidence-based decision-making and leadership skills in interprofessional teams, students learn to tackle health care challenges using modern technology, public policy and communication. This unique program situates students at the intersection of innovation and entrepreneurship, enabling them to develop their own solutions to health challenges.

Program areas of emphasis:

- develop competence in the design, application and testing of innovative processes and products
- incorporate current trends with interprofessional teams
- lead processes of innovation and transformation

The Bachelor of Science in health entrepreneurship and innovation is an attractive degree completion pathway for transfer students and students seeking to change their major, as well as incoming first-year students. Students should consult with an advisor to review the applicability of completed coursework and to review a degree completion plan.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics Any math course that meets the MATH designation.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Integrative Health, BS (NUIHLTBS)

Campus: Downtown Phoenix, West, Online

Program Description: Patients come in all shapes and sizes, and so should the care they receive. There are many aspects of health and wellness, including the mind, body and spirit. One is not separate from another, but pieces of what make up the whole person. Integrative health focuses on a patient's well-being from a holistic perspective, applying both conventional and natural healing approaches as a collaborative model of care. A variety of health practices --- such as traditional Chinese medicine, herbal supplementation, physical medicine and acupuncture --- are explored to create a comprehensive, patient-centered approach for health and wellness.

Through innovative and interprofessional approaches in supporting diverse populations, students learn to differentiate the ethical, legal and practice standards of integrative health practitioners. Coursework and experiences include an emphasis on evidence-based practices and gaining an understanding of the historical and cultural foundations of the integrative health field.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: First math varies depending on the track chosen.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Aging, MS
Healthcare Innovation, MHI

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Nursing, BSN (NUNURDBSN)

Campus: Downtown Phoenix, Polytechnic, West, ASU at Lake Havasu, ASU at The Gila Valley, Online

The accelerated BSN/MS option is currently only available to ASU Online students.

Program Description: Through a curriculum focused on evidence-based practice, clinical reasoning, innovation, interprofessional communication and information technology, the BSN program in nursing readies students to deliver top-notch professional nursing care. Achieving a Bachelor of Science in Nursing is possible through various distinctive pathways.

Traditional prelicensure BSN nursing program

The traditional prelicensure clinical nursing program is a full-time, upper-division nursing program for students who wish to become a registered nurse by completing a BSN. The program has three start dates per year: spring, summer and fall. It may be completed in a 16-month year-round schedule or a 24-month academic year schedule. Graduates are eligible to sit for the National Council Licensure Examination to obtain licensure as a registered nurse.

Students advance into the program in one of two ways: direct admission or the competitive advancement process. Direct admission is offered to incoming first-time freshmen who meet specific admission criteria. Students admitted directly must meet continuing eligibility criteria while attending ASU to advance into the upper-division nursing program. Directly admitted nursing students who do not meet continuing eligibility criteria, transfer students or ASU students who are changing majors may apply for advancement to the upper-division nursing program by competing for any remaining spaces.

Accelerated BSN clinical nursing program

The accelerated BSN clinical nursing program is a full-time, 12-month upper-division clinical nursing program for students who wish to become a registered nurse by completing a BSN. Selection is competitive. Students pursuing advancement to the accelerated BSN clinical nursing program complete prerequisite coursework and apply for advancement to the program. Graduates are eligible to sit for the National Council Licensure Examination to gain licensure as a registered nurse.

Online RN to BSN program

The online RN to BSN program is available to students who have earned an associate degree in nursing and have a current RN license in good standing with the state board of nursing. RN to BSN program courses are offered online in 7.5-week sessions and can be completed in 14 to 24 months. There are five starts per year: two in the fall, two in the spring and one in the summer. Assignments may include readings, discussions, papers, presentations and clinical practice experiences completed in a hospital or community setting in the location where the student resides.

Transfer pathway agreements are in place with all community college nursing programs in Arizona, which provide additional benefits to students. The RN to BSN program is not available to students residing in Tennessee, Rhode Island or Washington.

Concurrent Enrollment Program

The concurrent enrollment program pathway is available to students enrolling in or already enrolled in any regionally accredited associate degree program in nursing that leads to NCLEX-RN licensure. This program is for qualified nursing students who are interested in earning their BSN while simultaneously pursuing their associate degree in nursing. Selected students enroll in the community college program and ASU CEP courses at the same time (concurrently). CEP courses taken at ASU are delivered in an online format and are offered in 15-week sessions. ASU CEP is not available to students residing in Tennessee, Rhode Island or Washington.

Eastern Arizona College Partnership

This program offers a concurrent enrollment program pathway for qualified students pursuing an AAS in nursing from any of the three EAC campuses while simultaneously earning a BSN from ASU. Courses in this program are delivered in a hybrid format on the Thatcher campus.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Nursing, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The admission standards for majors in the Edson College of Nursing and Health Innovation are higher than minimum university standards. Effective fall 2022, first-year admission requirements are:

- top 10% of high school graduating class, OR
- an overall high school cumulative GPA of 3.80 in ASU competency courses (scale is 4.00 = "A"), OR
- an overall high school cumulative GPA of 3.50 in ASU competency courses AND either a 25 ACT or 1230 SAT combined evidence-based reading and writing plus math score

Priority application date: November 1

First-year applicants should select an additional major when applying for admission.

English language proficiency requirements (<https://admission.asu.edu/apply/international/undergrad/english-proficiency>) for applicants whose native language is not English:

- minimum TOEFL iBT score of 76 (internet-based test, taken in a testing center), OR
- minimum IELTS score of 6.5, OR
- minimum Duolingo English test score of 100, OR
- minimum Cambridge English exam score of 176

First-year admission applications to the Bachelor of Science in Nursing program that are received after the November 1 application priority date are considered on a space-available basis. Students not offered admission directly to the nursing program are placed in the BS program in community health (<https://degrees.apps.asu.edu/bachelors/major/ASU00/NUCHLTBS/community-health>).

Change of Major Requirements: Current ASU students interested in changing to this program need to apply for the upper-division clinical nursing program through an advancement application process. Space is limited, and selection is based upon GPA and score earned on the TEAS. Students should speak with an advisor in the Edson College of Nursing and Health Innovation for more information on how to change a major to this program.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-nursing-rn-bsn/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NUNURDBSN~null + &college=CNU>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Through study abroad, students majoring in nursing are able to expand their knowledge of how nursing is practiced across the globe.

With more than 300 programs available (<https://goglobal.asu.edu/>), students can tailor their experience to their unique interests and skill sets. The heightened cultural competency, leadership, and critical thinking skills they achieve will enhance their resumes and be applicable in any career choice.

Career Opportunities: The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. Graduates deliver nursing care to individuals, families and communities. Completion of this degree program also prepares individuals for entrance into graduate study in nursing at the master's or doctoral degree levels, which is essential for teaching, administration, clinical specialization and research.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another

state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Public Service and Community Solutions, Watts College of

Applied Science (Emergency Management), BAS (PPEMGBAS)

Campus: Downtown Phoenix

Program Description: The BAS program with a concentration in emergency management is a flexible, 60 credit hour degree program.

The curriculum is designed specifically for students who have completed an AAS from a regionally accredited institution.

The required capstone class provides experience to students through coordinated internships.

This program is not available to first-year students.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Conduct analysis applying foundational principles of emergency policy and management in the context of complex systems.
- Demonstrate understanding of the complex organizational and governance structures operating in emergency management and homeland security.
- Synthesize their understanding of risk, organizations, and governance to create basic mitigation strategies to manage disruption.

Global Opportunities:

Global Experience: Understanding how different regions around the world react to disasters can lead to insight on how to bring solutions to students' own communities. When studying abroad (<https://goglobal.asu.edu/>), students can make meaningful connections through exchange of ideas and perspectives. Study abroad programs that focus on issues like counterterrorism, resource management and urban infrastructure can help students develop a more informed and well-rounded view of emergency management.

Career Opportunities: The degree in emergency management opens the door to a challenging career as a professional emergency manager. The advancement of technology has created the potential for more devastating disasters than ever before. As a result, there is an increasing demand for emergency managers who have a solid foundation in scientific and technical disciplines as well as management skills.

Community Advocacy and Social Policy, BA (PPCASPBA)

Campus: Downtown Phoenix, West, Online

Program Description: The BA program in community advocacy and social policy focuses on advocacy strategies through an in-depth exploration, analysis and comparison of social service systems and policies from an empowerment perspective.

The program emphasizes examining the needs of historically underserved individuals, families and communities. Policy analysis and social change are critical themes in developing an advocacy knowledge base, as are the equally important themes of prevention and social well-being. Students complete courses in two core areas: diversity and oppressed populations, and social issues and interventions.

While the Bachelor of Arts program in community advocacy and social policy is fully accredited regionally under the Higher Learning Commission, it is not accredited through the Council of Social Work Education because it does not lead to a BSW degree. Therefore, this degree does not fulfill a professional licensing requirement: a Bachelor of Social Work degree from a CSWE-accredited Bachelor of Social Work program.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A minimum cumulative GPA of 2.00 is required to enter this program.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-community-advocacy-and-social-policy/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPCASPBA~null + &college=CPP>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply social justice techniques to advance human rights, social and economic justice
- Apply professional theories to working with diverse, oppressed and marginalized populations in both micro and macro practice
- Identify and apply advocacy concepts and methods that support and advance social, economic and environmental justice

Global Opportunities:

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) give students the chance to witness how policy, advocacy and social service systems function internationally, providing an opportunity for them to develop a valuable skill set that can give them an advantage in their career, as well as personal enrichment. Enhancing global awareness, communication competency and leadership skills through study abroad can better prepare a student for a career in social services.

Whether in a foreign country, in the U.S. or online, participation in one of the more than 300 Global Education programs encourages students to build communication skills that span intercultural boundaries, challenges them to adapt and persevere, exposes them to differences across the world that they can't experience from textbooks, and increases their ability to work with diverse groups of people.

Career Opportunities: Graduates are prepared for employment in the social services arena, such as performing basic case management tasks, staffing hotlines and warmlines, making referrals to needed services, recruiting volunteers, and developing and providing training.

In addition, advocate positions are part of many organizations and areas, such as hospitals and the behavioral health system.

This degree program also prepares students to pursue graduate education.

Community Sports Management, BS (PPCSMBS)

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Students interested in this program should apply directly to the BS in Parks, Recreation and Sport Management (<https://degrees.apps.asu.edu/bachelors/major/ASU00/PPPRMBS/parks-recreation-and-sport-management>).

Program Description: The BS program in community sports management focuses on preparing individuals with an interest in managing sport programs and activities for children, youth, adults and seniors in nonprofit, municipal and for-profit organizations.

The program emphasizes the many roles community sports play in the community, including as a way to improve the overall quality of life, youth development, sport tourism and community development. Both program delivery and managerial functions are targeted. Specific areas of

opportunity include work with youth sports, adaptive sports, sports tourism, sport events and adult recreational sports.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Community Resources and Development (Parks and Recreation Management), MS

Community Resources and Development (Sustainable Communities), MS

Community Resources and Development (Tourism), MS

Community Resources and Development, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPCSMBS~null + &college=CPP>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Sports can bring communities together, at home and abroad, despite language and cultural differences. Studying abroad (<https://goglobal.asu.edu/>) gives students an opportunity to immerse themselves in a different culture and see firsthand the role of sport at the community level while building skills to help them in their future careers. Students who study abroad can achieve heightened cultural competency and leadership and critical thinking skills.

Career Opportunities: Numerous career opportunities exist within community sports. Sport programs for youth and adults are offered by city parks and recreation departments, nonprofit organizations such as the Boys and Girls Club or the YMCA, and local nonprofit and for-profit sport clubs. In addition, many communities have sport tourism organizations and sport programs offered through adaptive or therapeutic sports programs such as Special Olympics, Wounded Warriors Project and Ability 360.

Possible positions for graduates of this major include sport supervisors, programmers and managers in local park and recreation departments and nonprofit organizations, as well as community relations and programming positions with professional and local sport organizations.

Community Sports Management (Events), BS (PPCSMEBS)

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Students interested in this program should apply directly to the BS in Parks, Recreation and Sport Management (<https://degrees.apps.asu.edu/bachelors/major/ASU00/PPPRMBS/parks-recreation-and-sport-management>).

Program Description: The goal of the events concentration within the BS program in community sports management is to introduce students to the events field and create experts in the coordination, facilitation and planning of events in the community sports sector.

This concentration allows community sports management majors to focus their electives within the area of meetings and event planning. Students gain a solid foundation for developing and producing events that contribute to the economic development and social capital stemming from sports.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Criminology and Criminal Justice, BS (PPCRIMJBS)

Campus: Downtown Phoenix, West, ASU at Lake Havasu, Online

Program Description: The BS program in criminology and criminal justice is for students who want to understand the causes of crime, the role of criminal justice agencies in the control of crime, and the consequences of crime.

Students learn sociological, psychological, biological and economic explanations for individual crime as well as differences in crime across neighborhoods, states, countries and over time. They also learn about the history, legal issues and current practices of crime control via police agencies, the court system, prisons, probation and parole.

These topics are delivered by top-ranking research faculty who offer students hands-on research opportunities and by experienced criminal justice professionals with intimate knowledge of the daily realities of crime and criminals. Students are encouraged to take advantage of internship opportunities in more than 200 agencies, study abroad programs and flexible course scheduling offered in-person, online and across multiple campuses.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or MAT 117 College Algebra

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Crime Analysis, MS
- Criminal Justice, MA
- Criminology and Criminal Justice, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Admission Requirements: The MyPath2ASU® pathway allows Arizona transfer students to complete a prescribed sequence of courses that meet the requirements for the community college's AA degree along with the lower-division requirements for the ASU major.

Students completing their ASU BA degree at Yuma: Once the MyPath2ASU® pathway requirements are complete, students complete the remaining requirements for the ASU bachelor's degree at the community college.

Students should visit Admission Services (<https://admission.asu.edu/transfer>) for more information about ASU degrees offered at local community colleges.

Change of Major Requirements: A minimum cumulative GPA of 2.00 is required to change into this program.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-criminology-and-criminal-justice/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze theories of crime and how the criminal justice system responds to crime.
- Examine fundamental methodological and statistical techniques used in criminology and criminal justice research.
- Leverage an understanding of the systemic inequalities of crime for working in 21st century agencies and organizations related to criminal justice.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available to them, criminology and criminal justice students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

The Watts College of Public Service and Community Solutions recommends these programs (<https://goglobal.asu.edu/students/major/criminology-criminal-justice>) for students majoring in criminology and criminal justice.

Career Opportunities: Graduates of the criminology and criminal justice program find a strong job market in the public and private sectors.

Employment opportunities exist in:

- bank fraud
- corrections
- courts
- domestic terrorism
- federal agencies
- homeland security
- law enforcement
- legal offices

- parole offices
- private security
- probation offices
- victim advocate agencies

Graduates also may pursue advanced degrees in law, criminology and criminal justice, and other social science disciplines.

Criminology and Criminal Justice (Policing), BS (PPCRJPOLBS)

Campus: Downtown Phoenix, West, Online

Program Description: The concentration in policing in the BS program in criminology and criminal justice provides students with knowledge on policing strategies, police management, police accountability, crime analysis and procedural criminal law.

Students who complete the concentration have a better understanding of how police organizations operate and are led; effective strategies for reducing crime, building trust and increasing accountability; improving police-citizen community relations (especially in communities of color); how the Constitution protects the rights of individuals in interactions with law enforcement; and techniques for analysis and mapping of crime and other police data.

After finishing the concentration in policing, students are better prepared for future employment in law enforcement and to contribute to the future of policing in the United States.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or MAT 117 College Algebra

Emergency Management and Homeland Security, BS (PPEMHSBS)

Campus: Downtown Phoenix, Online

Program Description: The School of Public Affairs offers the BS program in emergency management and homeland security. The program provides students with an understanding of the political and social implications of disasters, terrorism and national security. Students gain the skills and knowledge to understand and manage natural and human-made threats and execute complex projects in response. Coursework covering risk assessment, cross-boundary collaboration and rapid resource mobilization paired with practical skills such as operations continuity management, oversight of emergency operations centers, and techniques and best practices for developing prevention programs provide students with the tools to analyze complex situations and provide decision-making tools important for emerging leaders in the field.

Additional Program Fee: N

Second Language Requirement: N**First Required Math Course:** MAT 142 - College Mathematics**Program Math Intensity:** General**Concurrent Program Options:**

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Understanding how different governments around the world manage disasters can provide insight for bringing solutions to students' own communities. Global Education programs (<https://goglobal.asu.edu/>) can help students gain practical knowledge and experience in how governments function at varying levels in a community. Students increase their knowledge and experiential base through study abroad programs to bring about positive change in their own communities. The heightened cultural competency and the leadership and critical thinking skills students acquire through study abroad programs also enhance their resumes.

Career Opportunities: Graduates possess the knowledge and skills required for entry- and midlevel supervisory and managerial positions in the public sector at the local, state and federal levels, as well as other opportunities in the commercial and nonprofit sectors. Graduates will have a significant advantage in the coming hiring boom within the field in response to the upcoming wave of retirees in the public sector and increasing demand for public services, especially at the federal level.

For those who already possess relevant knowledge and experience, the program provides complementary knowledge valuable for promotion in the field.

Graduates also may choose to further their education in graduate programs in emergency management, public policy, law or public administration.

- Nonprofit Leadership and Management, MNLN

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A minimum cumulative GPA of 2.00 is required to change into this program.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPNLMBS~null + &college=CPP>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Incorporate multiple perspectives when proposing creative solutions to complex NLM issues.
- Demonstrate proficiency in written communications with diverse audiences (e.g. clients, interdisciplinary team members, donors, community members).
- Integrate knowledge from diverse disciplines to develop comprehensive strategies that address the complex challenges faced by nonprofit organizations.

Global Opportunities:

Global Experience: Studying abroad (<https://goglobal.asu.edu/>) can provide students with hands-on experience in nonprofit leadership through a global lens. Students gain skills to be used in their future careers through internships in nonprofits around the world. Students have the opportunity to intern abroad during summer break or during a semester while taking courses in locations such as South America and Asia.

Career Opportunities: Prominent nonprofits value this program's tradition of excellence and actively seek to hire its graduates.

The nonprofit sector in the United States is unique in form and function. This sector includes institutions and individuals situated between government, public, business and commerce sectors. With more than 1.6 million organizations in the U.S., the sector employs more people than the finance, insurance and real estate industries combined.

Depending on their interests, graduates seek work in diverse settings that include a wide variety of missions, including arts and culture, environmental, health and youth development. Some graduates find employment with local, grassroots and direct-service nonprofits while others find work with grant-making foundations. Many work in affiliates of well-known national organizations such as:

- American Red Cross
- America's Second Harvest
- Humane Society of the United States
- March of Dimes
- National Urban League
- United Way
- youth-serving entities such as Big Brothers Big Sisters, Boys and Girls Clubs, Boy Scouts of America, Girl Scouts of the USA, Camp Fire USA and the YMCA of the USA

Increasing opportunities in the nonprofit sector include careers across the spectrum of community issues such as the arts, environment, health care and others. Typical positions include roles as:

- field executives
- fund development directors
- program directors
- program officers for grant-making organizations
- volunteer program managers

Nonprofit Leadership and Management (American Indian Studies), BS (PPNLMAIBS)

Campus: Downtown Phoenix

Program Description: Complementary to the nation's first BS degree in nonprofit leadership and management, the American Indian studies concentration empowers purpose-driven students to be culturally aware, competent and ready for key roles that enable them to advance nonprofits that serve tribal lands, including those organized by tribal governments.

The nonprofit sector in the United States is unique in form and function. This sector includes institutions and individuals situated between government, public, business and commerce sectors. Students learn about the nonprofit sector through curriculum instruction and field experience. The concentration in American Indian studies familiarizes students with American Indian worldviews, current issues and tribal governance. Many students in the nonprofit sector work with American Indian populations.

The required internship component of the program leads students to professional opportunities within the nonprofit sector. Students may also choose to pursue the National Certified Nonprofit Professional credential through ASU's affiliation with the Nonprofit Leadership Alliance. <https://www.nonprofitleadershipalliance.org/credential/> (<https://www.nonprofitleadershipalliance.org/credential>)

This program is accredited by the Nonprofit Academic Centers Council.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Community Resources and Development (Nonprofits and NGOs), MS
Community Resources and Development, MS
Nonprofit Leadership and Management, MNLN

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A minimum cumulative GPA of 2.00 (scale is 4.00 = "A") is required to change into this program.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPNLMAIBS~null + &college=CPP>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Incorporate multiple perspectives when proposing creative solutions to complex NLM issues.
- Demonstrate proficiency in written communications with diverse audiences (e.g. clients, interdisciplinary team members, donors, community members).
- Integrate knowledge from diverse disciplines to develop comprehensive strategies that address the complex challenges faced by nonprofit organizations.

Global Opportunities:

Global Experience: Studying abroad (<https://goglobal.asu.edu/>) can provide students with hands-on experience in nonprofit leadership with a global perspective. Students gain skills to be used in their future careers through internships in nonprofits. Students have the opportunity to intern during summer break or during a semester while taking courses in locations such as South America and Asia, adding a global lens for issues that Indigenous communities face around the world.

Career Opportunities: Most of the major nonprofit organizations in Arizona and other states work with American Indian populations by providing services and expertise. Thus, career options are extensive and include many of the nonprofit organizations in the state and beyond. Careers fields may include fundraising, social services provision, volunteer management and youth programming.

Parks and Recreation Management (Therapeutic Recreation), BS (PPPRMTRBS)

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Students interested in this program should apply directly to the BS in Parks, Recreation and Sport Management (<https://degrees.apps.asu.edu/bachelors/major/ASU00/PPPRMBS/parks-recreation-and-sport-management>).

Program Description: The BS program in parks and recreation management with a concentration in therapeutic recreation prepares students to apply for eligibility to take the national professional certification through the National Council for Therapeutic Recreation Certification.

<https://www.nctrc.org> (<https://www.nctrc.org>)

The degree program prepares competent entry-level recreational therapists with the requisite knowledge, skills and abilities to improve functional outcomes and increase participation in life activities with individuals experiencing health conditions. It is designed for students who want to learn to conduct assessments, develop service plans, implement therapeutic interventions, and evaluate and document outcomes of care. They gain skills to effectively provide comprehensive therapeutic recreation services that include program design and evaluation, individual and group service provision, and advocacy. The required fieldwork component of the program facilitates the development of competencies needed to provide quality recreational therapy services.

Students who choose this degree program are truly committed to improving people's lives and contributing to their communities. It is one of two such programs in Arizona, both offered by the School of Community Resources and Development. This program prepares students to provide recreational therapy services in community settings such as youth programs, adaptive sports, or parks and recreation while the Bachelor of Science in recreational therapy has a heavier emphasis on health care settings such as hospitals and human service agencies.

The Council on Accreditation of Parks, Recreation, Tourism and Related Professions accredits this degree program.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 programs in more than 65 countries (programs vary in length, from one week to one year), studying abroad (<https://goglobal.asu.edu/>) is possible for all ASU students who wish to acquire global skills and knowledge in preparation for a future-focused career. Students earn ASU credit for completed courses while staying on track for graduation, and they may apply financial aid and scholarships toward program costs.

Career Opportunities: There is a wide range of job opportunities for therapeutic recreation professionals, including in clinical settings such as hospitals and nursing homes, adventure programming for youth-at-risk and people with disabilities, and community programs offered through parks and recreation departments.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Parks, Recreation and Sport Management, BS (PPPRMBS)

Campus: Downtown Phoenix

Program Description: The BS program in parks, recreation and sport management provides a transdisciplinary education in the management of parks, protected areas, community-based recreation services, and sport and special event management. The parks and recreation field emerged from the youth development, recreation and park movements of the late 19th century.

Students in the program learn about wilderness, environmental communication, parks and recreation management and policy, assessment and evaluation, and sport and recreation planning and programming. Students learn through classroom instruction and field experiences to integrate the natural, social and managerial sciences to make informed decisions for recreation services, both natural resource-based and community-based.

The required internship component of the program allows students to gain practical experience in the parks and recreation professions.

The Council on Accreditation of Parks, Recreation, Tourism and Related Professions accredits this degree program.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Incorporate multiple perspectives when proposing solutions to complex PRSM issues.

- Integrate knowledge from diverse disciplines to develop comprehensive strategies that address the complex challenges faced by park, recreation and sport organizations.

- Demonstrate proficiency in written communications with diverse audiences (e.g., clients, interdisciplinary team members, families, community members).

Global Opportunities:

Global Experience: Study abroad programs that include travel to some of the world's most renowned and pristine parks, wildlife reserves and other recreational facilities, as well as to forests, reefs and deserts, provide students with invaluable professional development and insight that they can use in their future career.

With more than 300 programs available, study abroad (<https://goglobal.asu.edu/>) allows students to tailor their experience to their unique interests and skill sets.

Career Opportunities: Graduates are prepared for professional positions in which they design, develop and manage services that address the recreational needs of a particular clientele. They are employed in a variety of public, private and nonprofit organizations in Arizona, nationally and abroad, and they find employment in such diverse settings as:

- armed forces recreation
- city park and recreation departments
- county and state park agencies
- federal natural resource agencies
- hospitals and care facilities
- nonprofit recreation programs
- private and commercial recreation facilities
- special event management
- sport venues and theme parks
- youth agencies

Public Service and Public Policy, BS (PPPAFBS)

Campus: Downtown Phoenix, Online

Program Description: The BS program in public service and public policy provides comprehensive coverage of topics in public policy, leadership and management.

Students learn how to lead and influence change via public organizations and the policy process. They also gain foundational knowledge about democracy, economics and the role of government in society. The program is distinct because it balances theoretical knowledge and a professional focus.

Students can select one of the following concentration areas to supplement their core courses. Concentrations must be applied to separately: American Indian studies, business, criminology, emergency management and homeland security, health policy, law and policy, nonprofit leadership and management, parks and recreation management, science and technology policy, social services delivery or sustainability.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Change of Major Requirements: A minimum cumulative GPA of 2.00 is required to change into this program.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-public-service-and-public-policy/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPPAFBS-null + &college=CPP>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students in the public service and public policy program work to create policies that advance the public interest. When studying abroad, students gain a better understanding of how government functions at various levels around the world and an understanding of which public policies are beneficial to society and which policies need to be improved upon. Students increase their knowledge and experiential base through study abroad programs to bring about positive change in their own communities.

More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

Career Opportunities: Graduates possess the knowledge and skills to transform government and policy in positions at all levels in city, county, state and federal agencies --- entry, midlevel supervisory and managerial. They are prepared for work in nonprofit organizations and in the private sector at the interface of public affairs and private enterprise. For those who already have work experience, the degree provides further opportunity for promotion.

The public service sector offers sustainable, exciting and fulfilling career options. Graduates are empowered to use knowledge of the public sector as a catalyst to change the world. By understanding the challenges facing government and being well-versed in the development of multiple useful and realistic solutions, graduates contribute to the development of local, national and global communities.

Public Service and Public Policy (American Indian Studies), BS (PPPAFAISBS)

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Interested students should apply to the Public Service and Public Policy BS (<https://degrees.apps.asu.edu/bachelors/major/ASU00/PPPAFBS/public-service-and-public-policy>) program.

Program Description: The American Indian studies concentration within the BS program in public service and public policy provides students with specialized knowledge about the policy implications of American Indian-related decisions and actions. This concentration focuses on the latest policy implications and research impacting Indigenous communities in the United States.

The Bachelor of Science program in public service and public policy includes comprehensive coverage of topics in public policy, public leadership and management. Applications and examples encompass a wide variety of policy topics and management approaches.

This program examines the public sector and addresses the challenges facing the public in a practical way. It is distinct because it enables students to study public service, policy and administration with a focus on professional preparation for a career. The major is also well-suited to students interested in pursuing further education in law, public administration, public policy and other graduate pursuits focused on public affairs and the common good.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management, MGM
- Public Administration (Emergency Management), MPA
- Public Administration (Nonprofit Administration), MPA
- Public Administration (Public Finance), MPA
- Public Administration (Urban Management), MPA
- Public Administration, MPA
- Public Policy (Environmental Policy), MPP
- Public Policy (Policy Informatics), MPP
- Public Policy (Science and Technology Policy), MPP
- Public Policy, MPP

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPPAFAISBS~null + &college=CPP>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students can apply a global lens to their studies by learning how American Indians view the world and by learning about current issues and tribal governance of Indigenous peoples around the world.

Participation in study abroad programs increases students' ability to work with diverse groups of people. Whether in a foreign country, in the U.S. or online, any of the more than 300 available Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to develop a valuable skill set that can give them an advantage in their career and personal enrichment. Students are encouraged to build communication skills that span intercultural boundaries, are challenged to adapt and persevere, and are exposed to differences they can't always read about in textbooks.

Career Opportunities: The program is primarily focused on providing individuals with the knowledge and skills required for entry- and midlevel supervisory and managerial positions in the public sector, such as city, county, state and federal agencies, though they would function successfully in many other types of organizations as well. Graduates are prepared for work in nonprofit organizations and in the private sector at the interface of public affairs and private enterprise. For those who already have work experience, the degree provides further opportunity for promotion.

Public Service and Public Policy (Business), BS (PPPAFBUBS)

Campus: Downtown Phoenix

Program Description: The School of Public Affairs offers a concentration in business as part of the BS in public service and public policy.

This concentration establishes the links among the corporate world and the public sector by blending public policy and business strategy. Students are empowered with a robust skill set essential for leadership roles in today's global landscape. They master economic principles, strategic decision-making and advanced policy analysis by engaging in practical applications while navigating policy formulation, implementation and evaluation in governmental agencies.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPPAFBUBS-null + &college=CPP>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students seeking in-depth knowledge of the public sector related to agencies that conduct business in various capacities can benefit from studying abroad (<https://goglobal.asu.edu/>). Many programs focus on topics such as urban sustainability, challenges to a country's economy and governmental issues so students can see the concepts they have learned through a distinct cultural lens.

Career Opportunities: This bachelor's degree program in public service and public policy is preparation for entry- and midlevel supervisory and managerial positions in city, county, state and federal agencies. Graduates are prepared for work in nonprofit organizations and in the private sector at the interface of public affairs and private enterprise. They have the skills to be entrepreneurs in any sector, with career opportunities ranging from small towns to Fortune 500 companies. For those who already have work experience, the degree provides further opportunity for promotion.

This business concentration prepares those with an interest in policy to focus on business issues and their policy implications.

Public Service and Public Policy (Criminology), BS (PPAFCBS)

Campus: Downtown Phoenix

Program Description: The School of Public Affairs offers a concentration in criminology as part of the BS in public service and public policy, providing students with more specialized knowledge about the policy implications of criminology-related decisions and actions.

This program introduces students to the foundations of criminal justice and criminology and enhances it with training on how to lead, manage and influence change in the public sector.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Emergency Management and Homeland Security (Biosecurity and Threat Management), MA
- Emergency Management and Homeland Security (Community Resilience), MA
- Emergency Management and Homeland Security (Cybersecurity Policy and Management), MA
- Emergency Management and Homeland Security (Emergency Management), MA
- Emergency Management and Homeland Security (Homeland Security), MA
- Emergency Management and Homeland Security, MA
- Global Management, MGM
- Program Evaluation and Data Analytics, MS
- Public Administration (Emergency Management), MPA
- Public Administration (Nonprofit Administration), MPA
- Public Administration (Public Finance), MPA
- Public Administration (Urban Management), MPA
- Public Administration, MPA
- Public Policy (Environmental Policy), MPP
- Public Policy (Policy Informatics), MPP
- Public Policy (Science and Technology Policy), MPP
- Public Policy, MPP

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A minimum cumulative GPA of 2.00 is required to change into this program.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPPAFCBS-null + &college=CPP>) to outline a list of recommended courses to take prior to transfer.

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Students seeking in-depth knowledge of the public sector related to agencies that work with criminal justice systems in various capacities can benefit from studying abroad (<https://goglobal.asu.edu/>). Students can observe how public policies in other countries directly impact policing and criminality, thus showing the concepts they have learned through a distinct cultural lens.

Career Opportunities: Criminology continues to be a highly sought-after area, but many of the career pathways involve working in or around government. The program is primarily focused on individuals interested in or working in the public sector. The skills and knowledge graduates possess will allow them to successfully function in many types of organizations, though the primary focus is on public organizations.

A bachelor's degree in public service and public policy is preparation for entry- and midlevel supervisory and managerial positions in city, county, state and federal agencies. Graduates are prepared for work in nonprofit organizations and in the private sector at the interface of public affairs and private enterprise. For those who already have work experience, the degree provides further opportunity for promotion.

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A minimum cumulative GPA of 2.00 is required to change into this program.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-public-service-and-public-policy-emergency/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPPAFEHBS-null + &college=CPP>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Understanding how different governments around the world manage disasters can provide insight for bringing solutions to students' own communities. Study abroad programs (<https://goglobal.asu.edu/>) can help students gain practical knowledge and experience in how governments function at varying levels in a community. The heightened cultural competency and the leadership and critical thinking skills students acquire through study abroad programs also enhance their resumes.

Career Opportunities: Graduates possess the knowledge and skills required for entry- and midlevel supervisory and managerial positions in the public sector, such as city, county, state and federal agencies, though they would successfully function in many other types of organizations as well. For those who already have work experience, the degree provides further opportunity for promotion. In addition, the program prepares students for future graduate study in law, public policy and public administration.

The number of people retiring paired with the increasing demand for public services has resulted in an increase in job opportunities for graduates in the public sector. The federal government is the nation's largest employer with nearly two million people employed across the country, and nearly 85% of those jobs exist outside the Washington, D.C., area. The federal government is anticipated to hire tens of thousands of new employees for mission-critical positions in the next few years. Those with preparation in academic areas related to public service will have an advantage in that market.

Public Service and Public Policy (Health Policy), BS (PPPAFHPBS)

Campus: Downtown Phoenix

Program Description: The School of Public Affairs offers a concentration in health policy as part of the BS program in public service and public policy. This program allows students to build a course of study that focuses on the health care industry. This sector continues to be a major part of the U.S. and world economy. The concentration in health policy provides students who have an interest in policy an opportunity to focus on health-related issues and their policy implications. The courses in the concentration are offered by the College of Health Solutions and the School of Human Evolution and Social Change.

The Bachelor of Science program in public service and public policy includes comprehensive coverage of topics in public policy, public leadership and management. Applications and examples encompass a wide variety of policy topics and management approaches.

This program examines the public sector and addresses the challenges facing the public in a practical way. It is distinct because it enables students to study public service, policy and administration with a focus on professional preparation for a career. The major is also well-suited to students interested in pursuing graduate education in law, public administration, public policy and other areas focused on public affairs and the common good.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Public Service and Public Policy (Nonprofit Leadership and Management), BS (PPPANLMBS)

Campus: Downtown Phoenix

Program Description: The School of Public Affairs offers a BS in public service and public policy with a concentration in nonprofit leadership and management.

The role of the nonprofit organization continues to grow and presents broad policy implications for future public sector professionals. This program empowers students to understand the social, political, economic and philanthropic factors related to the nonprofit sector.

The BS program in public service and public policy includes comprehensive coverage of topics in public policy, public leadership and management. Applications and examples encompass a wide variety of policy topics and management approaches.

This program examines the public sector and addresses the challenges facing the public in a practical way. It particularly enables students to study public service, policy and administration with a focus on professional preparation for a career. The major is also well suited to students interested in pursuing graduate education in law, public administration, public policy, and other areas focused on public affairs and the common good.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Public Administration (Emergency Management), MPA
- Public Administration (Nonprofit Administration), MPA
- Public Administration (Public Finance), MPA
- Public Administration (Urban Management), MPA
- Public Administration, MPA
- Public Policy (Environmental Policy), MPP
- Public Policy (Policy Informatics), MPP
- Public Policy (Science and Technology Policy), MPP
- Public Policy, MPP

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A minimum cumulative GPA of 2.00 is required for current ASU students to change into this major.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use

MyPath2ASU® (<https://webapp4.asu.edu/transferecreditguide/app/transfermap?major=PPPAFSSBS-null + &college=CPP>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, public service and public policy students are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: The degree in public service and public policy is focused primarily on providing graduates with the knowledge and skills required for entry- and midlevel supervisory and managerial positions in the public sector, such as city, county, state and federal agencies, though they would successfully function in many other types of organizations as well. Graduates are prepared for work in nonprofit organizations and in the private sector at the interface of public affairs and private enterprise.

For those who already have work experience, the degree provides further opportunity for promotion. In addition, this program acts as preparation for future graduate study in law, public policy and public administration.

The number of people retiring paired with the increasing demand for public services has resulted in an increase in job opportunities for graduates in the public sector. The federal government is the nation's largest employer, with nearly two million people employed across the country, and nearly 85% of those jobs exist outside the Washington, D.C., area. The federal government is anticipated to hire tens of thousands of new employees for mission-critical positions in the next few years. Students with preparation in academic areas related to public service and social services delivery will have an advantage in that market.

Public Service and Public Policy (Sustainability), BS (PPPAFSSBS)

Campus: Downtown Phoenix

Program Description: Sustainability continues to be a highly sought-after area, and it presents broad policy implications. Through this concentration, students explore the challenges of sustainability and the development of solutions to pressing issues at local and global levels.

The BS program in public service and public policy includes comprehensive coverage of topics in public policy, public leadership and management. Applications and examples encompass a wide variety of policy topics and management approaches.

This program examines the public sector and addresses the challenges facing the public in a practical way. It distinctly enables students to study public service, policy and administration with a focus on professional preparation for a career. The major is also well suited to students interested in pursuing graduate education in law, public administration, public policy and other areas focused on public affairs and the common good.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Management, MGM
- Program Evaluation and Data Analytics, MS
- Public Administration (Emergency Management), MPA
- Public Administration (Nonprofit Administration), MPA
- Public Administration (Public Finance), MPA
- Public Administration (Urban Management), MPA
- Public Administration, MPA
- Public Policy (Environmental Policy), MPP
- Public Policy (Policy Informatics), MPP
- Public Policy (Science and Technology Policy), MPP
- Public Policy, MPP

Recreation Therapy, BS (PPRECTBS)

Campus: Downtown Phoenix

Program Description: The BS program in recreational therapy prepares students to apply for the national professional certification through the National Council for Therapeutic Recreation Certification: <https://nctrc.org/about-certification/ctrs-the-qualified-provider> (<https://nctrc.org/about-certification/ctrs-the-qualified-provider>).

The program prepares competent, entry-level recreational therapists with the requisite knowledge, skills and abilities needed to improve functional outcomes and increase participation in life activities for individuals experiencing health conditions. It is designed for students who want to learn to conduct assessments, develop service plans, implement therapeutic interventions, and evaluate and document outcomes of care. They gain skills to effectively provide comprehensive therapeutic recreation services that include program design and evaluation, individual and group service provision, and advocacy. The required fieldwork component of the program facilitates the development of competencies to provide quality recreational therapy services.

Students who choose this degree program are committed to improving people's lives and contributing to their communities. This degree program is one of two such programs in Arizona, both offered by the School of Community Resources and Development. This program has a heavier emphasis on health care settings such as hospitals and human service agencies, while the Bachelor of Science in parks and recreation with a concentration in therapeutic recreation prepares students to provide recreational therapy services in community settings such as youth programs, adaptive sports, or parks and recreation.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Change of Major Requirements: A minimum cumulative GPA of 2.00 is required to change into this program.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPRECTBS~null + &college=CPP>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Illustrate collaborative solutions to complex community health issues (e.g., access to healthcare and recreation, health disparity, mental health, obesity, physical activity, substance abuse).
- Employ effective communication skills including adapting use of nonverbal messaging when communicating with diverse audiences
- Demonstrate elements of a qualified provider facilitating recreational therapy services.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, recreation therapy students are able to tailor their experience to their individual interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Recreational therapy is a rapidly growing field, given the rising number of returning veterans and an aging population. Graduates are prepared for work in a wide variety of clinical settings, including hospitals, rehabilitation centers and extended care facilities. Graduates also are qualified to work in community settings such as parks and recreation departments.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Social Work, BSW (PPSWUSWU)

Campus: Downtown Phoenix, West, SYNC, ASU at Tucson, Online

Program Description: The curriculum for this undergraduate program leads to a BSW degree.

Students focus on social work courses in social policy and services, human behavior in the social environment, social work practice, research and field instruction in community agencies. In addition, majors take elective courses in related areas.

Students interested in completing the Bachelor of Social Work program in Tucson are encouraged to complete a MyPath2ASU® program (<https://admission.asu.edu/apply/transfer/MyPath2ASU>). The Tucson location option is only available to transfer students.

Format option

This program is also offered via ASU Sync, specifically for students with transfer credit or those who already hold an associate degree. ASU Sync enables students to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers.

The program features ASU Sync courses at the upper-division level --- courses numbered from 300 to 499 that are designed primarily for juniors and seniors. It is ideal for transfer students who wish to complete their Bachelor of Social Work degree with live interactions without coming to campus. Prerequisites and other restrictions should be noted before class registration.

Students on I-20 visas are not permitted to complete courses via Sync and should speak with an advisor about other options to complete this program.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available on the official U.S. government website at www.benefits.va.gov/gibill (<https://www.benefits.va.gov/gibill>).

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

This major is eligible for the Western Undergraduate Exchange program (<https://admission.asu.edu/cost-aid/wue>) at the following location: ASU at Tucson.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The ASU Sync option is available only to transfer students or those with an associate degree. Students on I-20 visas are not allowed to complete courses via Sync.

Transfer Admission Requirements: The MyPath2ASU pathway allows Arizona transfer students to complete a prescribed sequence of courses that meet the requirements for the community college's AA degree along with the lower-division requirements for the ASU major.

Students should visit Admission Services (<https://admission.asu.edu/apply/transfer>) for more information about ASU degrees offered at local community colleges.

Change of Major Requirements: A minimum cumulative GPA of 2.00 is required to enter this program.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-social-work-bsw/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPSWUSWU~null + &college=CPP>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Plan, implement and evaluate evidence-based interventions
- Advocate for advanced human rights, social and economic justice
- Apply professional case management intervention skills when working with individuals, families, groups and communities

Global Opportunities:

Global Experience: When participating in a study abroad program, students examine social work through an international lens as it relates to community-building, service organizations, support for disenfranchised people and human rights advocacy.

Cross-cultural understanding is one of the main learning outcomes of study abroad programs and is also one of the most important skills of those moving into social work careers. Students are able to use the knowledge and skills learned in the program and the unique intercultural focus gained from study abroad to enhance their career.

Information on available programs can be found on the Global Education Office (<https://goglobal.asu.edu/>) website.

Career Opportunities: Graduates are prepared to be generalist social work practitioners who focus on advocacy, referrals, case management and problem-solving functions with individuals, groups, families, organizations and the community.

Employment in social work is expected to increase commensurately with the needs of a growing and diverse population. Social workers are employed in public and private agencies and deal with a wide variety of social issues, including:

- adoption and teen pregnancy
- aging
- child abuse and foster care
- corrections and delinquency
- disability
- discrimination
- domestic violence and family dysfunction
- health and mental health
- homelessness and poverty
- substance abuse

Social work skills such as problem-solving, resource utilization, counseling, group work and community organization are also useful for employee relations and mediation positions in industry.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Tourism Development and Management, BS (PPTDMBS)

Campus: Downtown Phoenix

Program Description: Through the BS program in tourism development and management, students acquire the planning, management and leadership skills related to the growth and development of tourism throughout the world.

The curriculum takes full advantage of its strong connections with the professional tourism community in Phoenix. The required internship component of the program allows students to gain practical experiences leading to professional positions in travel, tourism and related fields. Students are exposed to the practices of heritage tourism, sustainable tourism, resort management, and meeting and convention planning.

While pursuing the bachelor's degree in tourism development and management, a student also may choose to complete a certificate in convention sales and meeting planning. Additionally, students have the opportunity to participate in a study abroad program.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Able to incorporate multiple perspectives when proposing creative solutions to complex tourism issues.
- Integrate knowledge from diverse disciplines to develop comprehensive strategies that address the complex challenges faced by tourism organizations.
- Able to demonstrate proficiency in written communications with diverse audiences (e.g., clients, interdisciplinary team members, community members).

Global Opportunities:

Global Experience: Future tourism professionals need to develop an understanding of how and why people travel to destinations around the world and need to know how to share the local environment with visitors. Through study abroad programs (<https://goglobal.asu.edu/>), students gain valuable immersive experience in the various subsets of tourism development and management around the world, including in Europe, Latin America, Oceania, Asia and Africa.

Career Opportunities: Graduates are ready for successful careers in the rapidly expanding travel and tourism industry --- the largest industry in the world and the second largest in Arizona. Graduates can seek work across a wide variety of occupations in the public, nonprofit, or private and commercial sectors in such diverse settings as resorts, meeting planning, convention and visitor bureaus, tour operations and commercial recreation businesses. In such settings, graduates design, develop and manage services that address the needs of a particular clientele.

The metropolitan Phoenix area is a major hub of tourism in the southwestern U.S. and has experienced rapid growth in:

- air transportation
- business and corporate travel
- gaming and casinos
- meetings and conventions
- resorts and hotels
- sports tourism
- state and national parks

Tourism Development and Management (Resort and Hotel Leadership), BS (PPTDMRBS)

Campus: Downtown Phoenix

Program Description: The BS program in tourism development and management with a concentration in resort and hotel leadership attracts students and professionals who have interests in the diverse areas of knowledge needed within the accommodations sector. These include the ecological, social, economic and cultural sustainability practices in the industry; hospitality management and leadership; and the interrelated functions within departments of the lodging, food and beverage industries and other stakeholders such as recreation organizations and heritage institutions.

The program provides students an academic option to study the resort and accommodations system in depth and gain knowledge of the importance of the business relationships between suppliers, intermediaries and vendors, guests, and the public and private sectors.

The comprehensive coursework, which integrates resilient and sustainable practices, career exposure opportunities, study abroad options and internship experiences, prepares students for a management and leadership position in the world's largest service industry. It also prepares them to serve their communities with the skills, knowledge, techniques and capabilities needed for addressing major issues related to resorts and other tourism accommodations.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A minimum cumulative GPA of 2.00 is required to change into this program.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPTDMRBS~null + &college=CPP>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Incorporate multiple perspectives when proposing creative solutions to complex tourism issues.
- Integrate knowledge from diverse disciplines to develop comprehensive strategies that address the complex challenges faced by tourism organizations.
- Able to demonstrate proficiency in written communications with diverse audiences (e.g., clients, interdisciplinary team members, community members).

Global Opportunities:

Global Experience: Future tourism professionals need to develop an understanding of how and why people travel to destinations around the world, and they need to know how to share the local environment with visitors. When studying abroad (<https://goglobal.asu.edu/>), students gain valuable field experience and immersion in various destinations around the world. Internships for credit in resort and hotel leadership are available in countries in Europe, Oceania, Latin America and elsewhere.

Career Opportunities: A variety of job opportunities are available for resort or hotel professionals, including entry-level management trainee, assistant manager or manager in various departments, such as:

- catering and banquet
- convention sales
- front desk
- guest services
- rooms division
- sales and marketing

Tourism Development and Management (Sustainable Tourism), BS (PPTDMSBS)

Campus: Downtown Phoenix

Program Description: The BS program in tourism development and management provides students with the theoretical understanding they need in order to maneuver the complexities of one of the world's largest industries. A concentration in sustainable tourism allows students to hone their understanding of the key concepts of resilience and sustainability, as well as how these concepts can be applied to tourism destinations and development.

Students learn the dominant theories and language that make up sustainability science and the skills necessary to measure, create and implement sustainability policies in tourism destinations, from the planning to management stages of development.

Students take courses offered by the School of Sustainability in addition to courses in the School of Community Resources and Development, guaranteeing a strong foundation in the basic theories of the growing field of sustainability while applying these newfound skills to tourism development and management.

The comprehensive coursework in tourism and sustainability science, career exposure opportunities, study abroad options and culminating internship experiences of this program prepare students for management and leadership.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Community Resources and Development (Sustainable Communities), MS
- Community Resources and Development (Tourism), MS
- Community Resources and Development, MS
- Sustainable Tourism, MST

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A minimum cumulative GPA of 2.00 is required to change into this program.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPTDMSBS~null + &college=CPP>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Incorporate multiple perspectives when proposing creative solutions to complex tourism issues.
- Integrate knowledge from diverse disciplines to develop comprehensive strategies that address the complex challenges faced by tourism organizations.
- Able to demonstrate proficiency in written communications with diverse audiences (e.g., clients, interdisciplinary team members, community members).

Global Opportunities:

Global Experience: Future tourism professionals need to develop an understanding of how and why people travel to destinations around the world and of how to share the local environment with visitors. Through study abroad programs (<https://goglobal.asu.edu/>), students gain valuable experience in the global travel context by learning sustainable tourism policies in destinations all around the world, including in Europe, Latin America, Asia and Africa.

Career Opportunities: Sustainable tourism is becoming increasingly important, and many tourism businesses are hiring sustainability coordinators. These businesses include hotels, airlines, museums, convention and visitor bureaus, and large attractions. Travel agencies and tour companies, such as those that implement ecotourism and volunteer tourism experiences, are especially interested in employees with a strong sustainable tourism background. Numerous sustainable tourism nonprofit organizations have emerged in recent years, and many government-related tourism organizations also hire those with a strong sustainability focus. Consulting opportunities are available to assist tourism businesses in developing sustainable practices as well.

Tourism and Recreation Management, BS (PPTRMBS)

Campus: Online

Program Description: Through the BS program in tourism and recreation management, students acquire the planning and management skills required for careers in the growing tourism, recreation, sport and event industries throughout the world.

Selecting one of four emphasis areas --- tourism, recreation, events or sport --- lets students hone in on what most interests them. The curriculum offers broad understandings of each sector as well as the skills specific to a chosen field. Students are prepared to contribute to economic and social development and make a positive impact on quality of life both domestically and abroad.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students gain valuable experience in the global travel context by learning sustainable tourism policies in destinations all around the world, including in Europe, Latin America, Asia and Africa. More information is available on the Global Education website (<https://goglobal.asu.edu/>).

Career Opportunities: Industries in the leisure sector offer a wide variety of career options. Graduates are equipped to plan, design, develop and manage services to address the needs of a particular clientele. Graduates can seek work in the public, nonprofit, or private and commercial sectors based on their interests. Employment opportunities are available in diverse organizations including resorts, hotels, and convention and visitor bureaus, as well as in business and corporate travel, transportation, tour operations, event and meeting planning and management, and attractions management. City and state parks and recreation departments and national parks and protected areas are also potential career paths. Other career options include youth, recreation and sports-oriented nonprofits; sports and recreation program planning and management; sports events and many others.

Urban and Metropolitan Studies, BS (PPURBBS)

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program Description: Located in the heart of downtown Phoenix, the BS program in urban and metropolitan studies is for students who yearn to study and understand urban theory in order to effectively address the challenges of rapid growth along with other contemporary urban issues.

Students in this program discover what makes the city tick --- and the city is their classroom. They examine challenges and solutions by researching history, society, culture, economy and politics in order to understand urban theory, and they use that knowledge to get involved in their communities. This gives them an outlet through which they can experience practical ways of solving complex problems faced by metropolitan regions. The students are invested in their neighborhoods. Many of them live and work downtown, and they learn how to improve urban health and well-being, often training themselves to be the future leaders of urban environments. Others focus on making a wide variety of other contributions to society, studying the role of arts and culture, business and property development, and revitalization and community-building in the life of the region.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (<https://admission.asu.edu/cost-aid/wue>).

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPURBBS~null + &college=CPP>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze the basic factors affecting the development of urban policies.
- Use management principles to work effectively in complex urban organizations.
- Apply research and analytic tools to urban public problems.

Global Opportunities:

Global Experience: As populations grow and lead to urban sprawl, countries around the world grapple with how to best serve society. Study abroad programs (<https://goglobal.asu.edu/>) expose students to challenges large urban and metropolitan cities face in Europe, South America, Africa and Asia. Students experience cultural immersion and research ways to improve and solve complex issues faced by urban and metropolitan cities.

Career Opportunities: The transdisciplinary approach of the urban and metropolitan studies program ensures its graduates are prepared for work in a wide range of fields. Graduates successfully enter fields as diverse as urban management, revitalization, community development, urban sustainability and urban planning.

Some careers require additional graduate-level studies and professional experience. Students in the program are advised to explore their options with academic and career advisors to prepare an appropriate program of study and a plan to participate in an internship that complements their long-term professional goals.

Teachers College, Mary Lou Fulton

Applied Science (Early Childhood Studies), BAS (TEAPSECBAS)

Campus: Online

Program Description: The BAS with a concentration in early childhood studies is a two-year program for students who already have an AAS in early childhood education or a similar field.

Students gain skills in communication, critical thinking and leadership so they can positively affect school readiness for children from birth to age 5 (not yet in kindergarten). Through online coursework, students deepen their understanding of the social, emotional, cognitive and physical development of young children. Students learn to set developmentally appropriate learning goals, create and support effective instructional strategies, and develop highly individualized instruction for young learners.

This program integrates experiential learning opportunities into the curriculum, allowing students to put coursework into practice. Students must be able to work or volunteer with learners in an early childhood setting (birth to age 5, not yet in kindergarten) for at least 15 hours per month throughout their junior and senior year.

Individuals who don't have an Associate of Applied Science degree may consider the BAE program in educational studies with a concentration in early childhood studies (<https://degrees.apps.asu.edu/bachelors/major/ASU00/TEESECEBAE/educational-studies-early-childhood-studies>), which has a parallel curriculum.

This program does not lead to teacher certification. Students seeking teacher certification should enroll in one of Mary Lou Fulton Teachers College undergraduate programs that lead to institutional recommendation for teacher certification.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Elementary Education (Teacher Certification), MEd
Elementary Education, MEd

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: This program is not available to first-year students.

Transfer Admission Requirements: Students applying to this program must have completed an AAS degree from a regionally accredited institution and be employed or volunteer in an early childhood setting (e.g., Head Start, child development center, early care and education center, private or

public preschools, home-based child care) to successfully participate and complete coursework.

Students with an Associate of Applied Science degree, which consists of courses in specialized occupational areas built upon a general education core, will receive 60 hours of credit through a block transfer to the university. The block transfer applies only to the BAS degree program. Students may receive up to 15 more credit hours for additional coursework completed at the community college or university that, through transcript evaluation, is determined to match a course in the degree program major map.

Change of Major Requirements: A current ASU student must have completed an Associate of Applied Science in early childhood education or a closely related field from a regionally accredited institution to change to this major.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/early-childhood-applied-science/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TEAPSECBAS-null + &college=CTE>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Because of climate change, geopolitical instability or economic factors, the United Nations and other institutions predict that, for the foreseeable future, migration is expected to increase globally. Learners will be migrating to new communities, and in response, educators will be asked to meet the needs of students who speak languages other than English and who bring a range of cultures into classrooms and learning environments.

Education students can prepare for this reality by engaging in Global Education programs (<https://goglobal.asu.edu/>), in which they can expand their notion of normal schooling and deepen their understanding of how to foster inclusive and inspiring learning environments.

Career Opportunities: This program is a great option for those who are already working in the field of early childhood education.

Graduates may become early childhood educators in various settings, such as Head Start programs, early care and education centers, private preschools, nonprofit centers and home-based service providers. Other career opportunities include center-based administrators or directors; topic specialists who provide resources, training and technical assistance to early childhood educators and programs; program managers; family support specialists and consultants.

Early Childhood Education, BAE (TEECDEDBAE)

Campus: Tempe, SYNC

Program Description: The BAE program in early childhood education prepares students to meet the educational, behavioral and social-emotional needs of children, ages birth to age 8 or grade 3. This program focuses on child development and best practices in early childhood education, including the skills to create inclusive learning environments; conduct instructional design, planning and facilitation; and assess, monitor and report the progress of young children.

Mary Lou Fulton Teachers College has developed a team-based approach to teacher preparation, allowing students to participate in professional experiences (internships and student-teaching residency) with a team of peers while receiving guidance and support from ASU faculty members and highly qualified certified teachers. Team-based professional experiences are designed to prepare students to work with mutually supportive

colleagues to address the academic and social-emotional needs of learners. The primary goal of professional experiences is to provide students with multiple opportunities to apply knowledge learned in coursework to practice in the classroom.

Students complete a series of internships prior to a semester-long full-time teaching residency. With the support of a certified mentor teacher and ASU faculty, students are able to practice what is learned during coursework in learning environments.

Graduates are eligible to earn an institutional recommendation from ASU for Arizona teacher certification in Early Childhood, birth-grade 3 or age 8, as well as a Structured English Immersion, P-12, endorsement from the Arizona Department of Education. In order to teach in an Arizona public school, graduates must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Format option

This program is also offered via ASU Sync (<https://education.asu.edu/degree-programs/undergraduate-programs/asu-sync-statewide>). ASU Sync enables students to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real-time with faculty and peers. ASU Sync students need to reside in Arizona throughout the duration of the program. Students on I-20 visas are not permitted to complete courses via Sync and should speak with an advisor about other options to complete this program.

The ASU Sync option is only available to transfer students residing in Arizona due to state regulations and student teaching placement requirements. Students should have completed an associate degree by the time they enroll at ASU.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available on the official U.S. government website at <https://www.benefits.va.gov/gibill> (<https://www.benefits.va.gov/gibill/>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra or MAT 142

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The ASU Sync option is available only to transfer students residing in Arizona because of state regulations and student teaching placement requirements. Students should have completed an associate degree by the time they are enrolled at ASU. Students on I-20 visas are not allowed to complete courses via Sync.

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TEECDEDBAE-null + &college=CTE>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. Early Childhood and Early Childhood Special Education, BAE (TEECSEBAE)

Campus: Tempe, ASU at The Gila Valley

ASU is no longer accepting new students to this program. Students interested in this program should apply to the BAE in Early Childhood Education (<https://degrees.apps.asu.edu/bachelors/major/ASU00/TEECDEDBAE/early-childhood-education>) or the BAE in Special Education (<https://degrees.apps.asu.edu/bachelors/major/ASU00/TESPCEDBAE/special-education>).

Program Description: The BAE program for early childhood education and early childhood special education prepares students to be eligible for dual certification in both early childhood education and early childhood special education (birth to age 8).

This program focuses on child development; research-based instructional and assessment practices in early childhood education; and the skills to assess, monitor and report the progress of children with and without disabilities. It prepares students to collaborate effectively with family members of young children to support the growth and development of those children.

Extensive professional experiences are built into this program to prepare students to enter the teaching profession after graduation. Graduates will complete internships prior to a full-time teaching residency. Mary Lou Fulton Teachers College has developed a distinctive approach to teacher-preparation, which includes student participation in internships and residencies while receiving guidance and support from faculty members and highly qualified certified teachers. Professional experiences are designed to prepare graduates to work with mutually supportive colleagues to address the academic and social-emotional needs of learners.

Graduates are eligible to earn an institutional recommendation from ASU for Arizona teacher certification in Early Childhood and Early Childhood Special Education, and an endorsement in Structured English Immersion, preK-12, from the Arizona Department of Education. In order to teach in an Arizona public school, graduates must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Format option: Transfer students who live in Arizona and outside of Maricopa County may be eligible to take regularly scheduled classes remotely via ASU Sync. More information is available on the program website (<https://education.asu.edu/degree-programs/undergraduate-programs/asu-sync-statewide>).

Education Exploratory, (TEEDUEXPL)

Campus: Tempe, West

Program Description: The education exploratory program provides first-year students with the ability to explore various areas in education before they select a major at Mary Lou Fulton Teachers College.

During the program's first year of coursework, which includes four foundational education courses, and through specific cocurricular events scheduled throughout the first and second terms, students on this track are exposed to all programs and certification areas. Students are able to make an informed decision about the grade level or area of specialization they are interested in while staying on track to graduate from a bachelor's degree program.

Education exploratory is an introductory program offered prior to declaring a major. It does not lead to a degree, and students need to declare a major after they complete 30 credit hours.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or MAT 117 College Algebra

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A first-year student with fewer than 24 credit hours is eligible to change their major to this program. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TEEDUEXPL~null + &college=CTE>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Because of climate change, geopolitical instability or economic factors, the United Nations and other institutions predict that migration will increase globally for the foreseeable future. Learners will migrate to new communities. Increasingly, educators will be asked to meet the needs of students who speak languages other than English and who bring a variety of cultures into classrooms and learning environments. Education students participating in study abroad programs can prepare for this reality. By engaging in Global Education programs (<https://goglobal.asu.edu/>), students can expand their notion of normal schooling and deepen their understanding of how to foster inclusive and inspiring learning environments.

Career Opportunities: All students in the education exploratory program are poised to graduate from one of the majors within Mary Lou Fulton Teachers College. Information for those career opportunities can be found under each major.

Educational Studies, BAE (EDSLSTBAE)

Campus: Tempe, West, Online

Program Description: The BAE program in educational studies prepares students to work with children, youth and adults within nonprofit settings, community institutions, civic organizations and businesses. Students develop cultural competence for social justice, including self-awareness, understanding and valuing others, and knowledge of societal inequities. Students develop skills for facilitating learning experiences with and for diverse people in different contexts; for fostering equity and inclusion; and for effective communication, collaboration, leadership, advocacy and innovation, all of which are essential to education professionals.

Students focus on one of 13 core tracks, pursuing additional coursework and expertise in:

- business
- community health
- counseling
- entrepreneurship
- environmental education
- family and human development
- global studies
- health innovations
- nonprofit administration
- organizational leadership
- personal health
- political science
- recreation management

Educational studies students complete a two-semester internship. Students can choose to intern with a nonprofit, business or government organization. Through their internship experiences, students use concepts of diversity, equity and social justice to guide their identification of an education challenge within their organization. By using the human-centered design approach, which involves placing people at the center of the problem-solving process, they examine the challenge, ideate and ultimately implement a solution.

An educational studies minor is also available to ASU students in other degree programs.

This program does not lead to teacher certification. Students seeking teacher certification should enroll in one of the other Mary Lou Fulton

Teachers College undergraduate programs.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or MAT 117 College Algebra

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Educational Policy, MA
- Elementary Education (Teacher Certification), MEd
- Elementary Education, MEd
- Learning Sciences, MA
- Secondary Education (Teacher Certification), MEd
- Secondary Education, MEd

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-education-educational-studies/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=EDSLSTBAE~null + &college=CTE>) to outline a list of recommended courses to take prior to transfer.

Educational Studies (Early Childhood Studies), BAE (TEESECEBAE)

Campus: Online

Program Description: The BAE program in educational studies with a concentration in early childhood studies prepares students for careers working with and advocating for children from birth to age 5 (not yet in kindergarten).

Students gain skills in communication, critical thinking and leadership so they can positively affect school readiness for young children. Through online coursework, students deepen their understanding of the social, emotional, cognitive and physical development of young children. They learn to set developmentally appropriate learning goals for this age group, and create and support effective instructional strategies and develop highly individualized instruction.

This program integrates experiential learning opportunities into the curriculum, allowing students to put coursework into practice. Students must be able to work or volunteer with learners in an early childhood setting (birth to age 5, not yet in kindergarten) for at least 15 hours per month throughout their junior and senior years.

Transfer students who already have an AAS degree in early childhood education or a closely related field should consider the BAS in applied science (early childhood studies) program, which has a parallel curriculum.

This program does not lead to teacher certification. Students seeking teacher certification should enroll in one of the other Mary Lou Fulton Teachers College undergraduate programs.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Educational Studies (Instructional Design), BAE (TEEDUSTBAE)

Campus: Online

Program Description: The BAE program in educational studies with a concentration in instructional design helps students build critical competencies related to designing effective online learning to meet the needs of learners.

The curriculum is grounded in modern learning theory and design. Coursework addresses a variety of components within the field of education including foundations of instructional design, theory and design of digital learning, and digital learning evaluation. All courses are taught online and combine a range of resources and technologies to facilitate direct interaction between and among students and program faculty.

This program culminates with an internship where students create and present a project that demonstrates their knowledge of instructional design by applying it in a professional context. Students work with an organization to identify an instructional need, problem or performance gap, and then they develop and deploy a solution to be delivered in an online or blended format.

An instructional design minor is also available to ASU students in other degree programs.

This program does not lead to teacher certification. Students seeking teacher certification should enroll in one of the other Mary Lou Fulton Teachers College undergraduate programs.

Additional Program Fee: Y

Career Opportunities: There is growing demand for online educators, including in companies that develop the materials for online students and any organization focused on digital learning. Graduates are prepared for instructional design roles in K-12 and higher education, nonprofits and corporate settings.

Career examples include:

- curriculum coordinator
- curriculum designer or developer
- distance learning manager
- instructional designer
- media center specialists
- technology coordinator
- training specialist, coordinator or manager

Elementary Education, BAE (TEEDBAE)

Campus: Tempe, West, SYNC

Program Description: The BA program in education with a concentration in elementary education prepares prospective educators to work with children of grades K-8 in an educational setting. This program leads to a K-8 elementary education credential in the state of Arizona.

Students receive a firm grounding in academic content with current research and best practices from nationally recognized faculty in their fields of expertise, accompanied by professional experiences. This program also provides experience in integrating technology into teaching practices.

The teacher certification program for elementary education is clinically embedded during both the junior and senior years. Mary Lou Fulton Teachers College has developed a team-based approach to teacher preparation, allowing students to participate in professional experiences (internships and teaching residencies) with a team of peers while receiving guidance and support from ASU faculty members and highly qualified certified teachers. Team-based professional experiences are designed to prepare students to work with mutually supportive colleagues to address the academic and social-emotional needs of learners. The primary goal of professional experiences is to provide students with multiple opportunities to apply knowledge learned in coursework to practice in the classroom.

Students complete a series of internships prior to a semester-long full-time teaching residency. With the support of a certified mentor teacher and ASU faculty, students are able to practice what is learned during coursework in learning environments.

Graduates are recommended for grades K-8 elementary teacher certification. Those desiring to teach in a public school must pass the appropriate Arizona educator exams (National Evaluation Series or Arizona Educator Proficiency Assessments) to be credentialed to teach in the state of Arizona.

Format option

This program is also offered via ASU Sync. (<https://education.asu.edu/degree-programs/undergraduate-programs/asu-sync-statewide>) ASU Sync enables students to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real-time with faculty and peers. ASU Sync students need to reside in Arizona throughout the duration of the program. Students on I-20 visas are not permitted to complete courses via Sync and should speak with an advisor about other options to complete this program.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available on the official U.S. government website at <https://www.benefits.va.gov/gibill> (<https://www.benefits.va.gov/gibill>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The ASU Sync option is available only to transfer students residing in Arizona because of state regulations and student teaching placement requirements. Students should have completed an associate degree by the time they are enrolled at ASU. Students on I-20 visas are not allowed to complete courses via Sync.

Transfer Admission Requirements: The MyPath2ASU® pathway allows Arizona transfer students to complete a prescribed sequence of courses that meet the requirements for the community college's AA degree, along with the lower-division requirements for the ASU major.

Students should visit Admission Services (<https://admission.asu.edu/transfer>) for more information about ASU degrees offered at local community colleges.

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TEEEDBAE-null + &college=CTE>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Because of climate change, geopolitical instability or economic factors, the United Nations and other institutions predict that migration is expected to increase globally for the foreseeable future. Learners will be migrating to new communities. Increasingly, educators will be asked to meet the needs of students who speak languages other than English and who bring a range of cultures into classrooms and learning environments. Education students participating in study abroad programs can prepare for this reality by engaging in Global Education programs (<https://goglobal.asu.edu/>), in which they can expand their notion of normal schooling and deepen their understanding of how to foster inclusive and inspiring learning environments.

Career Opportunities: There is a demand for highly qualified elementary teachers in Arizona. A high percentage of students from this program receive job offers during their residencies. Many graduates with a degree in elementary education work in:

- charter schools
- nontraditional settings
- private school settings
- public elementary schools

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Elementary Education (Educating Multilingual Learners), BAE (TEDLLBAE)

Campus: Tempe

ASU is no longer accepting new students to the program. Prospective students interested in this program should consider the Elementary Multilingual Education, BAE (<https://degrees.apps.asu.edu/bachelors/major/ASU00/TEEMLEBAE/elementary-multilingual-education>).

Program Description: The BAE program for elementary education with a concentration in educating multilingual learners prepares students for certification in grades K-8 as well as a preK-12 bilingual education or English as a second language endorsement in the state of Arizona.

This program offers students a firm grounding in current research and critical pedagogy for English language learners. Candidates take several courses that focus on language diversity, dialectal variation, funds of knowledge and practices that value cultural and community engagements. Students learn processes for developing and supporting the needs of students with individual language learning plans. Students also receive preparation in elementary academic content areas, including math, language arts, social studies and science with a specific focus on meeting the academic and linguistic needs of emergent bilinguals.

Students will learn about the foundations of second language acquisition, biliteracy, culturally relevant pedagogy and effective language instruction. Knowledge of these subjects prepares prospective educators to develop critical perspectives that will help them to advocate for bilingual children and families.

Mary Lou Fulton Teachers College has developed a team-based approach to teacher preparation, allowing students to participate in professional experiences (internships and teaching residencies) with a team of peers while receiving guidance and support from ASU faculty members and highly qualified certified teachers. Team-based professional experiences are designed to prepare students to work with mutually supportive

colleagues to address the academic and social-emotional needs of learners. The primary goal of professional experiences is to provide students with multiple opportunities to apply knowledge learned in coursework to practice in the classroom.

Students complete a series of internships prior to a semester-long full-time teaching residency. With the support of a certified mentor teacher and ASU faculty, students are able to practice what is learned during coursework in learning environments.

Graduates earn an institutional recommendation from ASU for Arizona teacher certification in Elementary Education, K-8, as well as an endorsement in either bilingual education or English as a second language from the Arizona Department of Education. In order to teach in an Arizona public school, graduates must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments. In addition, students must complete six credit hours of a foreign language or equivalent and pass an appropriate language proficiency test to be eligible for the bilingual education or English as a second language endorsement.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or MAT 117 College Algebra

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Elementary Education (Science, Technology, Engineering and Mathematics), BAE (TEESTEMBAE)

Campus: Polytechnic

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program Description: The BAE program in elementary education with a concentration in science, technology, engineering and mathematics, collectively referred to as STEM, prepares students for certification in grades K-8 in the state of Arizona. This program includes coursework designed for students looking to advance their skills in STEM disciplines and wishing to learn techniques to effectively engage learners.

The program equips prospective educators with the specialized STEM knowledge they need to solve challenging problems and apply critical thinking skills. The elementary education STEM program offers students a firm grounding in the language, current research and best practices in STEM education.

Extensive professional experiences are built into this program to prepare students to enter the teaching profession after graduation. Graduates will complete internships prior to a full-time teaching residency. Mary Lou Fulton Teachers College has developed a distinctive approach to teacher-preparation, which includes student participation in internships and residencies while receiving guidance and support from faculty members and highly qualified certified teachers. Professional experiences are designed to prepare graduates to work with mutually supportive colleagues to address the academic and social-emotional needs of learners.

Graduates earn an institutional recommendation from ASU for Arizona teacher certification in Elementary Education, K-8, and an endorsement in Structured English Immersion, preK-12, from the Arizona Department of Education. In order to teach in an Arizona public school, graduates must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or MAT 117 College Algebra or MAT 170 Precalculus

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TEESTEMBAE-null + &college=CTE>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Future educators must learn to create inclusive and inspiring learning environments and they can do this by expanding their horizons. Through study abroad, they can explore how schooling works in countries that are leaders in education, and they can conduct comparative research. Students can make a difference in a community by volunteering at schools and engaging in local educational programs through service-learning opportunities. Students may explore over 300 program options on the Global Education Office website (<https://goglobal.asu.edu/>).

Career Opportunities: Graduates of Mary Lou Fulton Teachers College are highly sought teachers in public, charter and private education institutions. Many graduates with degrees in elementary education also work at community organizations serving children and youth.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. Elementary Multilingual Education, BAE (TEEMLEBAE)

Campus: Tempe

Program Description: This BAE program in elementary multilingual education prepares students to become educators for linguistically and culturally diverse learners in grades K-8. Students have opportunities to specialize in several areas, including transborder and cultural studies, Indigenous education and Spanish.

Course topics include language diversity, dialectal variation, funds of knowledge (i.e., collections of knowledge-based cultural practices), and practices that value cultural and community engagement. Students learn processes for identifying English language learners as well as how to develop, and support the needs of students with, individual language learning plans. Students also receive preparation in teaching elementary content areas, including math, language arts, social studies and science, with a specific focus on meeting the academic and linguistic needs of English language learners.

Mary Lou Fulton Teachers College has developed a team-based approach to teacher preparation, allowing students to participate in professional experiences (internships and teaching residencies) with a team of peers while receiving guidance and support from ASU faculty members and highly qualified certified teachers. Students complete a series of internships prior to a semester-long full-time teaching residency. Team-based professional experiences are designed to prepare students to work with mutually supportive colleagues to address the academic and social-emotional needs of learners. The primary goal of professional experiences is to provide students with multiple opportunities to apply knowledge learned in coursework to practice in the classroom.

Graduates are eligible to earn an institutional recommendation from ASU for Arizona teacher certification in Elementary Education, K-8, as well as an endorsement in either bilingual education or English as a second language from the Arizona Department of Education. To teach in an Arizona public school, graduates must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments. In addition, students must complete six credit hours of a foreign language or equivalent and pass an appropriate language proficiency test to be eligible for the bilingual education or English as a second language endorsement.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra or MAT 142 College Mathematics

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use

MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TEEMLEBAE-null + &college=CTE>) to outline a list of

recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Because of climate change, geopolitical instability or economic factors, the United Nations and other institutions predict that migration will increase globally for the foreseeable future. Learners will migrate to new communities. Increasingly, educators will be asked to meet the needs of students who speak languages other than English and who bring a range of cultures into classrooms and learning environments. Education students participating in study abroad programs can prepare for this reality. By engaging in Global Education programs (<https://goglobal.asu.edu/>), students can expand their notion of normal schooling and deepen their understanding of how to foster inclusive and inspiring learning environments.

Career Opportunities: Graduates of Mary Lou Fulton Teachers College are highly sought-after teachers in public, charter and private education institutions, including the increasing number of dual-language programs.

Possible careers include:

- bilingual-dual language K-8 classroom teacher
- K-8 classroom teacher
- language coach
- structured English immersion classroom teacher

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Middle Grades Education, BAE (TEMGEBAE)

Campus: Tempe

Program Description: The BAE program in middle grades education prepares students for certification in teaching grades 5-9 in the state of Arizona. Students learn the essential knowledge and skills they need to become highly impactful middle-grades teachers, and they learn to plan and implement evidence-based practices that support the unique needs of adolescents. In addition to general education and foundational courses, students select one content area of focus: middle grades English language arts, middle grades general science, middle grades mathematics or middle grades social studies.

The middle grades education coursework emphasizes developmentally responsive curriculum, instruction and assessment practices that are grounded in research, empower teachers and students, and prioritize equity. Extensive professional experiences are built into this program to prepare students to enter the teaching profession after graduation. Mary Lou Fulton Teachers College has developed a distinctive approach to teacher-preparation, which includes student participation in internships and residencies while receiving guidance and support from faculty members and highly qualified certified teachers. Students complete internships prior to a full-time teaching residency. Professional experiences are designed to prepare graduates to work with mutually supportive colleagues to address the academic and social-emotional needs of learners.

Graduates earn an institutional recommendation from ASU for Arizona teacher certification in Middle Grades Education, and an endorsement in Structured English Immersion, PreK-12, from the Arizona Department of Education. In order to teach in an Arizona public school, graduates must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra or MAT 142 College Mathematics

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TEMGEBAE~null + &college=CTE>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Future educators must learn to create inclusive and inspiring learning environments, and they can do this by expanding their horizons through Global Education programs (<https://goglobal.asu.edu/>).

Students can learn how schooling works in countries that are leaders in education, and they can conduct comparative research, make a difference in a community by volunteering at schools, and engage in local educational programs through service-learning opportunities.

Career Opportunities: Graduates of Mary Lou Fulton Teachers College are highly sought-out teachers in public, charter and private education institutions. Advanced degrees or certifications may be required for academic or clinical positions. Career examples include:

- instructional coach
- instructional specialist
- middle grades English language arts teacher
- middle grades math teacher
- middle grades science teacher
- middle grades social studies teacher

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

To be eligible for a middle grades education credential in Arizona, students must meet all requirements specified by the Arizona Department of Education, including passing the appropriate Arizona educator subject knowledge exam, as well as the professional knowledge exam offered through the National Evaluation Series or Arizona Educator Proficiency Assessments. Individuals who have previously earned a bachelor's or master's degree in the content area may be eligible to waive the subject knowledge exam and should contact MLFTCCCompliance@asu.edu (mailto:MLFTCCCompliance@asu.edu) to learn more.

Physical Education, BAE (TEPPEBAE)

Campus: Tempe

Program Description: The BAE program in physical education prepares students to successfully teach quality physical education programs to learners in preschool through grade 12.

The curriculum directly aligns with national beginning teacher standards of The Society of Health and Physical Education Teachers of America. Students take foundational coursework in the areas of growth and motor development, movement activities and lifelong physical fitness. The coursework covers elementary, secondary and adaptive physical education methods, including topics such as instructional design, lesson planning and modifications, and accommodations for P-12 learners. Students build skills in cultivating a positive and productive learning environment, assessing, monitoring and reporting progress, as well as conducting themselves as responsible and ethical professionals.

Mary Lou Fulton Teachers College has developed a team-based approach to teacher preparation, allowing students to participate in professional experiences (internships and teaching residencies) with a team of peers while receiving guidance and support from ASU faculty members and highly qualified certified teachers. Team-based professional experiences are designed to prepare students to work with mutually supportive colleagues to address the academic and social-emotional needs of learners. The primary goal of professional experiences is to provide students with multiple opportunities to apply knowledge learned in coursework to practice in the classroom.

Students complete a series of internships prior to a semester-long full-time teaching residency. With the support of a certified mentor teacher and ASU faculty, students are able to practice what is learned during coursework in learning environments.

Graduates earn an institutional recommendation for teacher certification in Physical Education, P-12, as well as a Structured English Immersion, P-12, endorsement through the Arizona Department of Education. In order to teach in a public school, graduates must pass the appropriate Arizona educator exams (National Evaluation Series or Arizona Educator Proficiency Assessments) to be certified to teach in the state of Arizona.

Secondary Education, BAE (TESEDBAE)

Campus: Tempe, West, SYNC

Program Description: The BAE program in secondary education prepares students to educate learners in grades 6-12 in the content area of the student's choice.

Students develop strong content knowledge, instructional competency and professional skills needed to lead successful classrooms in middle and high schools. This program provides students with extensive experience in integrating educational technology and has a strong focus on teaching and learning practices that foster equitable access and outcomes for diverse secondary populations. Students select one content area as their subject emphasis, in which they will take at least 24 credit hours. Content areas, which may vary depending on location, include biology, business, chemistry, earth and space sciences, economics, English, general science, geography, health, history, mathematics, physics, physical education, political science and American government, and some foreign languages.

Mary Lou Fulton Teachers College has developed a team-based approach to teacher preparation, allowing students to participate in professional experiences (internships and teaching residencies) with a team of peers while receiving guidance and support from ASU faculty members and highly qualified certified teachers. Students complete a series of internships before a semester-long full-time teaching residency. Team-based professional experiences are designed to prepare students to work with mutually supportive colleagues to address the academic and social-emotional needs of learners. The primary goal of professional experiences is to provide students with multiple opportunities to apply knowledge learned in coursework to practice in the classroom.

Graduates can earn an institutional recommendation from ASU for the Arizona teaching credential in Secondary Education, 6-12, from the Arizona Department of Education.

Format option

This program is also offered via ASU Sync (<https://education.asu.edu/degree-programs/undergraduate-programs/asu-sync-statewide>). ASU Sync enables students to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers. ASU Sync students must reside in Arizona throughout the duration of the program. Students on I-20 visas are not permitted to complete courses via Sync and should speak with an advisor about other options to complete this program.

The Bachelor of Arts in Education program in secondary education via ASU Sync is available for transfer students who reside in Arizona.

Students should speak to an advisor about the content areas and modalities offered at our campuses in and outside Maricopa County.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations. GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill (<https://www.benefits.va.gov/gibill>).

Concurrent degree

With a concurrent degree option, undergraduate students can pair the Bachelor of Arts in Education in secondary education with either the BS in biological sciences or the BA in chemistry. This choice allows students to graduate with two degrees, a greater understanding of the field of education, and a credential to teach.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The ASU Sync option is available only to transfer students residing in Arizona because of state regulations and student teaching placement requirements. Students should have completed an associate degree by the time they are enrolled at ASU. Students on I-20 visas are not allowed to complete courses via Sync.

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TESEDBAE-null + &college=CTE>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Because of climate change, geopolitical instability or economic factors, the United Nations and other institutions predict that migration will increase globally for the foreseeable future. Education students participating in study abroad can prepare for this reality. By engaging in Global Education programs (<https://goglobal.asu.edu>), they can expand their notion of normal schooling and deepen their understanding of how to foster inclusive and inspiring learning environments.

Career Opportunities: Graduates from the secondary education program are recommended for certification in an approved area for grades 6-12. The demand for well-prepared secondary teachers is strong, particularly in the areas of math and science. Job opportunities in a fast-growing state such as Arizona are numerous. Graduates with a degree in secondary education work in:

- charter schools
- private school settings
- public schools
- online schools

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

To be eligible for a secondary education credential in Arizona, students must meet all requirements specified by the Arizona Department of Education, including passing the appropriate Arizona educator subject knowledge exam, as well as the professional knowledge exam offered through the National Evaluation Series or Arizona Educator Proficiency Assessments. Individuals who have previously earned a bachelor's or master's degree in the content area may be eligible to waive the subject knowledge exam and should contact MLFTCCompliance@asu.edu (mailto:MLFTCCompliance@asu.edu) to learn more.

Secondary Education (Chemistry), BAE (TECHMBAE)

Campus: Polytechnic, Tempe, West

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program Description: BAE programs in secondary education prepare educators to teach youth enrolled in grades 6-12. While teacher candidates develop a strong theoretical background in their specific content areas, education program courses focus on developing the skills and teaching abilities required to be successful in the classroom. This program offers the Structured English Immersion instruction that qualifies them to receive the endorsement that enables them to work with English language learners, and also provides extensive experiences throughout the program in integrating technology into teaching.

Secondary education professional pathway programs are clinically embedded during the junior and senior years. The primary goal of all professional experiences is to provide students with multiple opportunities to apply knowledge learned in ASU coursework to classroom practice in grades 6-12. Mary Lou Fulton Teachers College students complete internships one day a week during the junior year and first semester of the senior year. In the final semester, students complete a full-time teaching residency. Mary Lou Fulton Teachers College faculty and highly qualified lead teachers from partner school districts and charter schools collaboratively coach interns and residents during required professional experiences. The professional experience provided by the program provides students an opportunity to work directly with youth and make an immediate impact on classroom achievement. Students are also given the opportunity to work collaboratively with fellow interns in content area and interdisciplinary teams. This intensive, hands-on model of teacher preparation creates highly sought-after graduates.

Graduates of the program desiring to teach in a public school must pass the appropriate Arizona educator exam to be certified to teach in the state of Arizona.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Secondary Education (Earth and Space Sciences), BAE (EDESSBAE)

Campus: Polytechnic, Tempe, West

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options. Prospective students should consider the Secondary Education, BAE (<https://degrees.apps.asu.edu/bachelors/major/ASU00/TESEDBAE/secondary-education>), which allows students to focus on a content area of their choice.

Program Description: The BAE program in secondary education with a concentration in earth and space sciences prepares students to educate learners in grades 6-12. Aligned with strong content knowledge of earth and space sciences, this program also focuses on integrating technology into teaching and provides the professional experience needed to develop teaching skills that lead to success in the classroom.

Mary Lou Fulton Teachers College has developed a team-based approach to teacher preparation, allowing students to participate in professional experiences (internships and teaching residencies) with a team of peers while receiving guidance and support from ASU faculty members and highly qualified certified teachers. Team-based professional experiences are designed to prepare students to work with mutually supportive colleagues to address the academic and social-emotional needs of learners. The primary goal of professional experiences is to provide students with multiple opportunities to apply knowledge learned in coursework to practice in the classroom.

Students complete a series of internships prior to a semester-long-full-time teaching residency. With the support of a certified mentor teacher and ASU faculty, students are able to practice what is learned during coursework in learning environments.

Graduates from this program earn a bachelor's degree in their content area and will receive an institutional recommendation from ASU that is recognized by the Arizona Department of Education for teacher certification in Secondary Education, 6-12. To be eligible for secondary certification in Arizona, students must also earn a passing score on the professional knowledge exam offered through the National Evaluation Series or Arizona Educator Proficiency Assessments.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 270 Calculus w/Analytic Geometry I

Program Math Intensity: Moderate

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use

MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=EDESSBAE~null + &college=CTE>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. Global Opportunities:

Global Experience: Because of climate change, geopolitical instability or economic factors, the United Nations and other institutions predict that migration is expected to increase globally for the foreseeable future. Learners will be migrating to new communities. Increasingly, educators will be asked to meet the needs of students who speak languages other than English and who bring a range of cultures into classrooms and learning environments. Education students participating in study abroad programs can prepare for this reality by engaging in Global Education programs (<https://goglobal.asu.edu/>) in which they can expand their notion of "normal" schooling and deepen their understanding of how to foster inclusive and inspiring learning environments.

Career Opportunities: Graduates of Mary Lou Fulton Teachers College are highly sought out teachers in public, charter and private education institutions. The demand for well prepared secondary teachers is strong, particularly in the areas of math and science. Job opportunities in a fast growing state such as Arizona are numerous.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Secondary Education (English), BAE (TEENGBAE)

Campus: Tempe, West

Program Description: Aligned with strong content knowledge of English language arts, the BAE in secondary education with a concentration in English focuses on integrating technology into teaching and provides the professional experience necessary for developing the teaching skills that lead to success in the classroom.

Mary Lou Fulton Teachers College has developed a team-based approach to teacher preparation, allowing students to participate in professional experiences (internships and teaching residencies) with a team of peers while receiving guidance and support from ASU faculty members and highly qualified certified teachers. Team-based professional experiences are designed to prepare students to work with mutually supportive colleagues to address the academic and social-emotional needs of learners. The primary goal of professional experiences is to provide students with multiple opportunities to apply knowledge learned in coursework to practice in the classroom.

Students complete a series of internships before a semester-long full-time teaching residency. With the support of a certified mentor teacher and ASU faculty, students are able to practice in learning environments what is learned during coursework.

Graduates from this program earn a bachelor's degree in their content area and receive an institutional recommendation from ASU that is recognized by the Arizona Department of Education for teacher certification in Secondary Education, 6-12. To be eligible for secondary certification in Arizona, students must also earn a passing score on the professional knowledge exam offered through the National Evaluation Series or Arizona Educator Proficiency Assessments.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 College Algebra

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TEENGBAE~null + &college=CTE>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Because of climate change, geopolitical instability or economic factors, the United Nations and other institutions predict that migration will increase globally for the foreseeable future. Learners will migrate to new communities. Increasingly, educators will be asked to meet the needs of students who speak languages other than English and who bring a variety of cultures into classrooms and learning environments. Education students participating in study abroad programs can prepare for this reality. By engaging in Global Education programs (<https://goglobal.asu.edu/>), students can expand their notion of normal schooling and deepen their understanding of how to foster inclusive and inspiring learning environments.

Career Opportunities: Graduates of Mary Lou Fulton Teachers College are highly sought-after teachers in public, charter and private education institutions. The demand for well-prepared secondary teachers is strong. Job opportunities in a fast-growing state such as Arizona are numerous.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. Special Education, BAE (TESPCEDBAE)

Campus: Tempe, SYNC

Program Description: Special educators make a difference in the lives of children and families. They are curious about how people learn and develop throughout their life span. A special education degree prepares students to understand human diversity, communicate effectively and develop problem-solving skills that support their success and that of others.

The BAE program in special education prepares graduates to work students with disabilities in inclusive settings. Teacher candidates learn to use evidence-based practices that promote students' success with general education content, including high-leverage practices in literacy, math, sciences and social studies. They develop adaptive techniques for students with disabilities and learn to use instructional and assistive technologies to facilitate success.

Students participate in professional experiences designed to expose them to numerous ways of teaching and learning. These internships and residencies are embedded during the junior and senior years to provide teacher candidates with multiple opportunities to work directly with children and youth. With the support of a certified lead teacher and an ASU faculty member called a site lead, students in learning environments are able to practice what is learned during coursework.

Program graduates are eligible for the Standard Professional Mild/Moderate Disabilities Special Education Certificate - Grades K-12. Those who desire to teach in a public school in Arizona must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Format option

This program is also offered via ASU Sync (<https://education.asu.edu/degree-programs/undergraduate-programs/asu-sync-statewide>). ASU Sync enables students to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers. ASU Sync students must reside in Arizona throughout the duration of the program. Students on I-20 visas are not permitted to complete courses via ASU Sync and should speak with an advisor about other options for completing this program.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill (<https://www.benefits.va.gov/gibill/>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Additional Requirements: The ASU Sync option is available only to transfer students residing in Arizona because of state regulations and student teaching placement requirements. Students should have completed an associate degree by the time they are enrolled at ASU. Students on I-20 visas are not allowed to complete courses via Sync.

Change of Major Requirements: A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use

MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TESPCEDBAE-null + &college=CTE>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Because of climate change, geopolitical instability or economic factors, the United Nations and other institutions predict that migration will increase globally for the foreseeable future. Learners will migrate to new communities. Increasingly, educators will be asked to meet the needs of students who speak languages other than English and who bring a variety of cultures into classrooms and learning environments. Education students participating in study abroad programs can prepare for this reality. By engaging in Global Education programs (<https://goglobal.asu.edu/>), students can expand their notion of normal schooling and deepen their understanding of how to foster inclusive and inspiring learning environments.

Career Opportunities: The Bachelor of Arts in Education program in special education leads to teacher certification to support a critical market demand for special education teachers in Arizona and beyond. Graduates are poised to find employment in any career that supports learners with disabilities. This includes careers with community- and youth-serving organizations, higher education institutions and health-related organizations.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Special Education (Visual Impairment), BAE (TESPEVIBAE)

Campus: Tempe

ASU is not currently accepting new students to this program. Individuals interested in earning a teacher certification in special education, grades K-12 from the Arizona Department of Education should consider the Special Education, BAE (<https://degrees.apps.asu.edu/bachelors/major/ASU00/TESPCEDBAE/special-education>).

Program Description: The BAE program in special education with a concentration in visual impairment provides a strong foundation in evidence-based, high-leverage practices in special education. The visual impairment concentration focuses on diagnostic assessment, orientation and communication skills, and specific teaching methodologies for students with visual impairments. It includes a strong focus on assistive technology to advance learning in the classroom and in daily life.

Students are taught to collaborate with parents, classroom teachers and related service personnel to meet the needs of learners with visual impairments. The curriculum is aligned with Arizona and national standards consistent with the Council for Exceptional Children.

Starting in the fifth term, the program is delivered in partnership with the Foundation for Blind Children in Phoenix, Arizona. Courses are taught by Foundation for Blind Children faculty associates and full-time ASU faculty to provide candidates with theoretical and practical perspectives on teaching and learning for individuals with visual impairments.

Some professional experiences take place at the Foundation for Blind Children and within a local school district, providing experiences that prepare students to teach in both self-contained and inclusive settings.

Graduates earn an institutional recommendation from ASU for Arizona teacher certification in Visually Impaired Special Education, birth-grade 12 and an endorsement in Structured English Immersion, preK-12. Certifications and endorsements are issued by the Arizona Department of Education. To teach in an Arizona public school, graduates must pass the appropriate professional knowledge or subject knowledge educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 College Algebra

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap

in curriculum.

Special Education and Elementary Education, BAE (TESPEBAE)

Campus: Polytechnic, Tempe, West, ASU at Northeastern Arizona, ASU at The Gila Valley, ASU at Yuma

ASU is no longer accepting new students to this program. Individuals interested in a degree in special education should apply to the Special Education, BAE (<https://degrees.apps.asu.edu/bachelors/major/ASU00/TESPCEDBAE/special-education>) or the Mild/Moderate Special Education certificate (<https://degrees.apps.asu.edu/minors/major/ASU00/TEMSPECERT/mild-moderate-special-education>). Individuals interested in a degree in elementary education should apply to the Elementary Education, BAE (<https://degrees.apps.asu.edu/bachelors/major/ASU00/TEEEDBAE/elementary-education>) or the Elementary Education certificate (<https://degrees.apps.asu.edu/minors/major/ASU00/TEEEDCERT/elementary-education>).

Program Description: The BAE program in special education and elementary education prepares students to work with all learners in inclusive settings.

Since the general education classroom is a viable placement option for many students with mild and moderate learning and behavioral disabilities, students in this program learn to use evidence-based practices that promote success with general education content, including high leverage practices in literacy, math, sciences and social studies. They develop adaptive techniques for learners with disabilities and use instructional and assistive technologies to facilitate success in the general education curriculum.

Extensive professional experiences are built into this program to prepare students to enter the teaching profession after graduation. Graduates will

complete internships prior to a full-time teaching residency. Mary Lou Fulton Teachers College has developed a distinctive approach to teacher-preparation, which includes student participation in internships and residencies while receiving guidance and support from faculty members and highly qualified certified teachers. Professional experiences are designed to prepare graduates to work with mutually supportive colleagues to address the academic and social-emotional needs of learners.

Graduates earn an institutional recommendation from ASU for Arizona teacher certification in Mild/Moderate Disabilities Special Education, K-12, Elementary Education, K-8, and an endorsement in Structured English Immersion, preK-12, through the Arizona Department of Education. In order to teach in an Arizona public school, graduates must pass the appropriate professional knowledge or subject knowledge educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Format option: Transfer students who live in Arizona and outside of Maricopa County may be eligible to take regularly scheduled classes remotely via ASU Sync. Students can learn more on the college's website (<https://education.asu.edu/degree-programs/undergraduate-programs/asu-sync-statewide>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 College Algebra

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TESPEBAE-null + &college=CTE>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Future educators must learn to create inclusive and inspiring learning environments, and they can do this by expanding their horizons through study abroad. They can explore how schooling works in countries that are leaders in education, conduct comparative research, and make a difference in a community by volunteering at schools and engaging in local educational programs through service-learning opportunities. Students may visit ASU's study abroad website (<https://goglobal.asu.edu/>) to explore programs.

Career Opportunities: Graduates of the program are eligible to teach in elementary education grades K-8 and K-12 for the following high-incidence disabilities:

- emotional disorders
- intellectual disabilities (mild or moderate)
- other health impairments
- orthopedic impairments
- specific learning disabilities

They can teach in a variety of inclusive educational settings, including public, charter and private schools as well as nontraditional settings (juvenile system, children's hospital and more).

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

University College

Exploratory Health and Life Sciences, (UCHSCIEXPL)

Campus: Downtown Phoenix, Polytechnic, Tempe, ASU at Lake Havasu, Online

Program Description: The exploratory health and life sciences track allows students to explore majors and career pathways related to understanding the health and well-being of living organisms.

ASU recognizes that many students seek the opportunity to explore possible academic programs of study when they first enter the university. By declaring exploratory status, students can meet General Studies requirements that all ASU graduates must fulfill while taking some time to explore a variety of academic courses that may lead to a potential major interest.

The exploratory health and life sciences program is a student-centered experience designed to allow students to explore who they are and what matters to them as they engage in deep self-exploration and design possible pathways for the future. Guided by design thinking principles, students explore their interests, values and skills while engaging in experiential learning opportunities. Students immerse themselves in diverse disciplines, which fosters the discovery of potential major and career interests and pathways.

The exploratory program offers four tracks: health and life sciences; humanities, fine arts and design (<https://degrees.apps.asu.edu/bachelors/major/ASU00/UCHUFAEXPL/exploratory-humanities-fine-arts-and-design>); math, physical sciences, engineering and technology (<https://degrees.apps.asu.edu/bachelors/major/ASU00/UCENTPEXPL/exploratory-math-physical-sciences-engineering-and-technology>); and social and behavioral sciences (<https://degrees.apps.asu.edu/bachelors/major/ASU00/UCSBSEXPL/exploratory-social-and-behavioral-sciences>).

All students in the exploratory major are required to enroll in the following major and career exploration courses:

- ASU 230: Life by Design --- This course empowers students to proactively shape their academic and personal journeys, assisting them in identifying their interests, strengths and values.
- UNI 250: ASU by Design - Choosing a Major --- This course helps students navigate the process of selecting a major by providing comprehensive guidance on academic pathways and potential career opportunities.
- UNI 270: Work by Design - Preparing for a Career --- This course equips students with essential skills and strategies to prepare for their future careers, ensuring that they succeed in their chosen fields.

Through these courses and the exploratory health and life sciences track, ASU encourages students to explore and develop academic interests and make informed decisions about their educational and career paths.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: Math courses needed are determined by potential major choice.

Program Math Intensity: General

Concurrent Program Options:

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://admission.asu.edu/freshman/apply>)

Transfer (<https://admission.asu.edu/transfer/apply>)

International (<https://admission.asu.edu/international/undergrad-apply>)

Readmission (<https://admission.asu.edu/undergrad/readmission>)

Change of Major Requirements: Students who have completed fewer than 45 college credit hours may change to exploratory status. Students should visit the Change of Major form (<https://changemajor.apps.asu.edu>) for information about how to change a major to this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/undergraduate/exploratory-health-life-sciences/>) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (<https://asulocal.asu.edu>), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer Options:

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (<https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=UCHSCIEXPL~null + &college=CUC>) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (<https://admission.asu.edu/transfer/MyPath2ASU>) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global Opportunities:

Global Experience: Exploring health and life sciences on a global scale can be beneficial to students as they narrow their focus of study. While taking courses abroad, students learn more about themselves and what career path they want to pursue.

Students earn ASU credit for completed courses, while staying on track for graduation. They may apply financial aid and scholarships toward program costs. More information is available on the Global Education Office (<https://goglobal.asu.edu/>) website.

Career Opportunities: Career opportunities are specific to the ultimate major of choice.
