Career Opportunities: Professionals with expertise in computational life sciences are in high demand in biotech and biomedical industries. Skills in data science are critical for the analysis and interpretation of life sciences data. These skills are valuable to businesses and institutions relying on data-driven life sciences research including hospitals, biotechnology companies, and for-profit and nonprofit research institutions.

Career examples include:

- bioinformatics scientist
- computational lab technician
- core facilities researcher
- ecologist
- educator
- microbiologist
- natural sciences manager
- software developer

Computer-Assisted Language Learning (Certificate), Certificate (LACALLGRCT)

Online Degree Search Title: Computer-Assisted Language Learning (Graduate Certificate)

Campus: Tempe

Program Description: The graduate certificate program in computer-assisted language learning focuses on the application of technology in foreign language teaching and research.

The program teaches the practical, hands-on skills needed to create and evaluate learning and teaching materials with new computer-based technologies. Students learn how to use technology effectively to facilitate instructed second language acquisition. The program also provides students with a solid theoretical and pedagogical framework for the integration of technology into the foreign language curriculum, and it provides them with the tools necessary to teach language courses in either a hybrid or distance learning environment.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

APL/ENG/SLC 557 Computer-Assisted Language Learning (3)

APL 558/SLC 510 Computer-Assisted Language Learning Praxis (3)

Restricted Electives (3 credit hours)

Electives (6 credit hours)

Additional Curriculum Information

For restricted electives, students select a second language acquisition course with department approval.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree with a major or minor in foreign language study, English or English education from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) (regardless of their current residency) and has not graduated from an institution of higher learning in the United States must provide proof of English proficiency. Applications will not be processed without valid proof of English proficiency. Applicants should note that official scores must be sent to ASU in order for the application to be processed.

Applicants must submit a one- to two-page (double-spaced), well-considered personal statement in which they explain how their experience and training have prepared them for the certificate program, and their aims and purpose in pursuing the computer-assisted language learning certificate.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Critically evaluate current theoretical and pedagogical issues in the area of computer-assisted language learning.
- Construct a testable theoretical or pedagogical hypothesis related to CALL.

Career Opportunities: Professionals with this certificate can confidently move into academic, business and international fields. Skills developed through this program are valued for teaching and research positions, or for work in the public or private sectors.

Career examples include:

- distance learning coordinators
- educational technology teachers and professors
- foreign language or Teaching English for Speakers of Other Languages teachers and professors
- instructional coordinators
- instructional designers and technologists
- technology for language learning consultants
- training and development specialists

Creative Writing, MFA (LACWRITMFA)

Online Degree Search Title: Creative Writing, MFA

Campus: Tempe

Program Description: The MFA in creative writing at ASU has always been an unswervingly student-first program. Through small classes, intimate workshops and one-to-one mentoring, the centuries-old apprenticeship model thrives within the New American University. Poets and fiction writers work with outstanding faculty who have published more than 80 books and garnered national and international attention through awards and honors that include:

- Guggenheim, Howard Foundation, Lannan Foundation, MacArthur Foundation, National Endowment for the Arts, and United Artists fellowships
- international Griffin Poetry Prize and Whiting Award
- multiple Pulitzer Prizes
- two medals of achievement from the National Society of Arts and Letters
- two Chancellors of the Academy of American Poets
- Walt Whitman Award from the Academy of American Poets

Additionally, in concert with the Master of Fine Arts program, several campus entities contribute to the MFA experience: the Virginia G. Piper Center for Creative Writing offers students a wide range of fellowships, support for professional development, and other teaching and leadership opportunities including a Community Outreach Graduate Assistantship. The Center for Imagination in the Borderlands brings writers and other artists for intensive workshops, classes and public events, and offers an artistic development and teaching assistant fellowship and two research assistantships. The Master of Fine Arts program also hosts a newly inaugurated series of craft lectures and an alumni reading series.

Furthermore, students have access to a variety of additional professional development opportunities, including serving on the editorial board of an international literary journal Hayden's Ferry Review, translation experience through the Thousand Languages Project and internships with award-winning independent literary press Four Way Books.

Degree Requirements:

48 credit hours including a written comprehensive exam and the required applied project course (ENG 593).

Coursework (39 credit hours)

Other Requirement (6 credit hours)

ENG 592 Research (6)

Culminating Experience (3 credit hours)

ENG 593 Applied Project (3)

Additional Curriculum Information

The creative writing program requires 48 credit hours of study evenly divided between writing courses and literature courses designed to inform that writing.

While students are expected to satisfy these requirements in the genre in which they were accepted, the program encourages cross-genre study, and electives can include courses taken outside of the creative writing program or even outside of the English department.

A written comprehensive exam and an applied project are required.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants should have an undergraduate major in English or creative writing; however, exceptional students who do not have either of these undergraduate majors may be admitted on the basis of writing excellence.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- creative manuscript
- statement of teaching philosophy
- academic writing sample
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) and has not graduated from an institution of higher learning in the United States must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>). Applications will not be processed without valid proof of English proficiency. Please note that official scores must be sent to ASU in order for the application to be processed.

The personal statement should include the applicant's writing background, intended area of specialization and a brief self-evaluation of recent work (double-spaced, up to three pages or 750 words). The creative manuscript should be up to 20 pages of poetry or up to 30 pages of prose (prose should be double-spaced). Students applying for a teaching assistantship must submit a statement of teaching philosophy and an academic writing sample.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Create original fiction or poetry that incorporates theoretical and foundational literary knowledge.
- Explicate their creative works articulately.
- Analyze and critique the writing of other creative writers.

Career Opportunities: A Master of Fine Arts in creative writing graduate is prepared primarily for the professional creation of new art, including fiction, poetry and other written forms. In addition to working as novelists, poets and short story writers, graduates go on to careers in education, arts administration, media and entertainment, and in political and community organizations. Career examples include:

- book designer or marketer
- book or magazine editor
- creative writing professor
- essayist or journalist
- grant writer and developer
- literary or events coordinator
- nonprofit administrator
- novelist
- poet
- public relations and communications manager
- screenwriter
- secondary education teacher

Critical Theory (certificate), Certificate (LACRTGRCT)

Online Degree Search Title: Critical Theory (Graduate Certificate)

Campus: Tempe, West

Program Description: The graduate certificate program in critical theory provides students advanced study in critical and contemporary theory. It promotes the skills required to use and interpret concepts from continental philosophy and theoretical trends from the last two centuries. The program also offers tools for creating a critical engagement with society and for producing new cultural texts and ideas.

Critical theory encompasses a broad range of disciplines, including the arts, humanities, social sciences, and technical and physical sciences. Students have access to a wide variety of courses that apply toward the certificate.

Degree Requirements:

15 credit hours and a portfolio.

Required Core (3 credit hours)

ENG 502 Contemporary Critical Theories (3)

Electives (12 credit hours)

Culminating Experience (0 credit hours)

portfolio (0)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English and has not graduated from an institution of higher learning in the United States regardless of their current residency must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>).

Applicants should note that official scores must be sent to ASU in order for the application to be processed.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The graduate certificate in critical theory is available to all ASU graduate students irrespective of their major, as well as to nondegree graduate students and working professionals provided they meet eligibility criteria. Sample majors include English; women and gender studies; art history; and arts, media and engineering. Eligible applicants must have taken two courses in critical theory or a related field at the upper-division undergraduate level (such as ENG 401 Topics in Critical Theory) or at the graduate level (such as ENG 502 Contemporary Critical Theories).

The statement of purpose should be approximately 300 to 600 words and address the following:

- The applicant's background in theory
- The areas of theory the applicant is interested in pursuing and which authors the applicant is reading and thinking about
- What concepts in critical theory interest the applicant most and why
- What the applicant hopes to accomplish by pursuing this certificate

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will be able to recognize and apply the affordances and limitations in the applications of foundational concepts of critical theory.
- Students will be able to apply the paradigms of critical theory to develop original research projects.
- Students will be able to build on, qualify or challenge claims in critical theory.

Career Opportunities: Writers and other content professionals are in demand today, not only in traditional print media, but also on digital platforms. Critical theory provides valuable skills in logical argument and conceptual analysis that are useful across the media spectrum, from scholarly writing to popular magazines and websites with social, cultural and political themes. Students of critical theory also are increasingly involved in multimedia work and technologies, such as AI, in both academic and commercial innovative institutional ventures, such as tech startups.

Career examples include:

- analyst for cultural tech company
- content provider for social media
- freelance cultural critic (on- and offline)

- grassroots activist
- instructor in critical theory, cultural studies or media studies
- political strategist or campaign worker
- writer in marketing and advertising

Digital Humanities (Certificate), Certificate (LACDHGRCT)

Online Degree Search Title: Digital Humanities (Graduate Certificate)

Campus: Tempe

Program Description: The graduate certificate program in digital humanities provides students with methods and skills central to conducting humanities research that employs both qualitative and quantitative approaches.

The program is designed to promote cross-disciplinary study in humanities and social and computational sciences, and is open to students in all disciplines. The program features training in transdisciplinary collaboration, project-based communication skills, critical theory and the simultaneous application of quantitative and qualitative problem-solving skills.

This certificate highlights an area of excellence within ASU that has emerged across its colleges, schools and departments and is integral to the effort of transforming the humanities at ASU into new transdisciplinary configurations.

Degree Requirements:

15 credit hours including the required applied project course (CDH 593).

Required Core (3 credit hours)

CDH 501 Digital Humanities: Critical Theory and Methods (3)

Electives (6 credit hours)

Other Requirement (3 credit hours)

CDH 580 Practicum (3)

Culminating Experience (3 credit hours)

CDH 593 Applied Project (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Admission is open to all ASU graduate students enrolled in an existing master's or doctoral program and in good standing. Students who are interested in transdisciplinary work are particularly well-suited for this certificate program.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Students are asked to outline a desired transdisciplinary area of inquiry. For example, a student who works on digital rhetoric and literacy may want to understand how to create and manage social media datasets or how to create a social media application. Alternatively, a student in the School of International Letters and Cultures may want to study digital archives of Slavic literature and may need to understand how digital archives are enmeshed in national and capitalist networks.

Career Opportunities: Professionals with this certificate can confidently move into academic, business and international fields. Skills developed through this program are valued for teaching positions, translation work or work in a larger sector such as governmental, diplomatic and

international business career opportunities.

Career examples include:

- computer and information research scientist
- cultural designer
- data scientist
- digital curator
- digital humanities instructor
- humanities digital content editor
- information architect
- metadata analyst
- social science research assistant

Disability Studies (Certificate), Certificate (LADISGRCT)

Online Degree Search Title: Disability Studies (Graduate Certificate)

Campus: Tempe

Program Description: The graduate certificate program in disability studies focuses on the creation of new knowledge and consequent practical implications in the area of disability. It coordinates courses into an individualized systematic plan of study that trains students to conduct disability research.

Students examine disability from diverse perspectives, including disability law and justice, cultural politics of disability, and family perspectives, as well as various research methods in disability studies. The program emphasizes examining and creating new theoretical perspectives and methodological approaches at different levels of analysis while analyzing topics of crucial importance locally and globally.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

JUS 530 Social Policy, Critical Advocacy and Disability (3) or

JUS 565 Critical and Comparative Issues in Disability (3)

Electives (12 credit hours)

Additional Curriculum Information

Students should see the academic unit for the pre-approved list of elective coursework. Other coursework may be used with approval of the academic unit.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in social sciences, education, social work, law, health care and health care policy or any related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered

for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Critically examine and apply appropriate methodological approaches to the study of disability culture locally and globally.
- Explain key theoretical perspectives contributing to the development of disability studies.

Career Opportunities: A disability studies certificate can benefit individuals working within a variety of fields such as health care, human services, education, rehabilitation sciences and social work. Additionally, individuals with a disability certificate can work within a number of diverse settings, including:

- advocacy associations
- community and family support agencies
- foster care agencies
- gerontology institutes
- hospitals
- jails and prisons
- nonprofit agencies
- preK-12 schools
- research centers and institutes
- state and local disabilities agencies

East Asian Languages and Civilizations (Chinese), PHD (LAEALCPHD)

Online Degree Search Title: East Asian Languages and Civilization, PhD

Campus: Tempe

Program Description: The PhD program in East Asian languages and civilizations is a research-intensive, transdisciplinary, area-based degree in the study of traditional and modern languages and cultures of China. Students may focus on:

- comparative cultural studies
- cultural history
- linguistics
- literary criticism
- literary thought

In every case, students are expected to acquire a solid grounding in the classical and modern versions of Chinese.

Degree Requirements:

84 credit hours, two foreign language exams, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

CHI 501 Proseminar: East Asian Humanities (3)

Concentration (6 credit hours)

CHI 514 Advanced Classical Chinese (6)

Other Requirements (39 credit hours)

CHI 502 Academic Writing (3)

CHI 598 Topic: Proseminar: Chinese Literary History (3)

CHI 598 Topic: History of the Chinese Language (3)

CHI 598 Special Topics (15)

CHI 691 Seminar (15)

Electives (24 credit hours)

Culminating Experience (12 credit hours)

CHI 799 Dissertation (12)

Additional Curriculum Information

15 credit hours of CHI 598 Special Topics must be comprised of five courses, and 15 credit hours of CHI 691 must be comprised of five seminar courses. Other requirements and elective coursework for the degree are to be chosen in consultation with the program chair.

Courses for the other requirements may be substituted with the approval of the academic unit.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution. Applicants specializing in Chinese should have completed at least three years of modern Chinese and one year of classical Chinese.

Applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- speech sample in Chinese or Japanese
- resume or curriculum vitae
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

ASU does not accept the GRE® General Test at home edition.

The writing sample, which should be no more than 15 pages, should represent the applicant's skills in thinking and writing, and it should be on a topic connected with Chinese, Japanese or East Asian culture.

The speech sample is required if the applicant is applying for teaching assistantship funding. The speech sample should be a recorded message approximately four minutes in length, in Chinese or Japanese, on a topic of the applicant's choosing. (Applicants are asked to not read the message. This is to help the committee evaluate the level of proficiency, and the message should realistically reflect the applicant's spoken Chinese or Japanese). Recordings should be emailed to SILC@asu.edu (<mailto:SILC@asu.edu>).

Applicants should see the department website for more information.

Career Opportunities: Professionals with this degree can confidently move into academic, business and international fields. The skills they possess are valued for teaching positions, translation work and career opportunities in larger sectors such as government, diplomacy and international business.

Career examples include:

- historians
- interpreters and translators
- lawyers
- reporters and correspondents
- social and community service managers
- teachers or professors of area, ethnic and cultural studies
- teachers or professors of foreign language and literature

English, MA (LAENGLMA)

Online Degree Search Title: English, MA

Campus: Tempe, Online

Program Description: The MA program in English allows for a variety of studies within four distinct tracks:

Comparative literature --- Students interpret cultural productions in English and at least one other language, utilizing approaches including textual criticism, critical theory, and translation and cultural studies.

English studies --- Students in this online track learn how to interpret complex cultural, historical, literary and language-related materials, as well as articulate and mobilize this knowledge for general audiences through a series of courses from across disciplinary areas of study.

Literature --- Students develop skills in literary and cultural analysis, explore social and historical contexts, address theoretical issues and pursue interdisciplinary modes of inquiry.

Writing, rhetorics and literacies --- Students engage with various approaches to the history, theory and practices of rhetoric and pedagogies of writing and composition.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

English (Creative Writing), BA

English (Literature), BA

English (Writing, Rhetorics and Literacies), BA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours and a thesis - Comparative Literature Track, or 30 credit hours and a thesis - Literature Track, or 30 credit hours and a thesis - Writing, Rhetorics and Literacies Track, or 30 credit hours including the required applied project course (ENG 593) - Comparative Literature Track, or 30 credit hours including the required applied project course (ENG 593) - Literature Track, or 30 credit hours including the required applied project course (ENG 593) - Writing, Rhetorics and Literacies Track, or 30 credits hours including the required capstone course (ENG 597) - English Studies Track.

Required Core (3 credit hours)

ENG 501 Approaches to Research (3)

Track Coursework (12-18 credit hours)

Comparative Literature Track (15 credit hours)

one course in concept and methods (3)

four courses in a language other than English (12)

English Studies Track (18 credit hours)

one course in linguistics (3)

one course in literature (3)

one course in writing, rhetorics and literacies (3)

one course in English education (3)

two additional courses (6)

Literature Track (18 credit hours)

ENG 502 Contemporary Critical Theories (3)

one course in early literatures and cultures (3)

one course in modern and contemporary literatures and cultures (3)

one course in global, ethnic, and transnational literatures and cultures (3)

one course in methods and approaches (3)

one course in language and linguistics (3)

Writing, Rhetorics and Literacies Track (12 credit hours)

one course in composition theory (3)

one course in rhetoric theory (3)
two 600-level courses (6)

Electives (3-12 credit hours)

Culminating Experience (3 or 6 credit hours)
ENG 593 Applied Project (3) or
ENG 597 Graduate Capstone Seminar (3) or
ENG 599 Thesis (6)

Additional Curriculum Information

Students should see the academic unit for the approved lists of track coursework.

Students must choose one of the following tracks: comparative literature, English studies, literature or writing, rhetorics and literacies. Students complete 12 to 18 credit hours of track coursework and 3 to 12 credit hours of Electives depending on their track and culminating experience.

The capstone culminating experience option is available to students in the English studies track only. Students in this track must take the capstone. Students in one of the other tracks must select an applied project or thesis for the culminating experience.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- letters of recommendation
- academic writing sample relevant to the field
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency. Students should see the Department of English website for specific details about English proficiency requirements. Your application will not be processed without valid proof of English proficiency. More information about English proficiency requirements can be found here (<https://english.asu.edu/admission/graduate-admission/information-international-students>). Please note that official scores must be sent to ASU in order for your application to be processed.

Applicants to the comparative literature track must prove fluency in a foreign language at a level sufficient for graduate study.

The two-page, single-spaced statement of purpose should detail the applicant's background, reasons for wanting to do graduate work in the track to which the applicant is applying and plans for the future.

Three letters of recommendation are required for applicants to the comparative literature, literature, and writing rhetorics and literacies tracks. Applicants to the English studies track are required to submit two academic or professional letters of recommendation; a third recommendation letter is optional.

An academic writing sample is required for applicants to the comparative literature, literature and writing rhetorics and literacies tracks. Applicants to the English studies track are not required to submit a writing sample, as the statement of purpose serves as the writing sample.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-english/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Graduates from the MA program in English at ASU will be able to use concepts from a discipline in English studies to analyze (break into

constituent parts) a relevant creative, literary, rhetorical or linguistic artifact or other cultural phenomenon according to standards of rigor in the field.

- Graduates from the MA program in English at ASU will be able to compose a compelling case, argument or creative work relevant to English studies that meets or exceeds standards of rigor in the field.

- Graduates of the MA program will be able to use theories, concepts and methods from a discipline in English studies to sustain an evidence-based line of reasoning that makes a grounded, situated and qualified contribution according to standards of rigor in the field.

Career Opportunities: Professionals with expertise in all areas of English studies are able to articulate and translate complex ideas for a general audience and are prepared for career opportunities in public humanities, business, digital media, teaching, museums, nonprofits and arts organizations. In addition, their advanced skills in writing, oral presentation and critical thinking are valuable assets for any career.

Career examples include:

- communications director
- copywriter
- editor or author
- human resources specialist
- instructor
- library or museum administrator
- market research analyst
- publisher
- social media manager
- technical writer
- web content writer or specialist

English (English Education), PHD (LAENEDPHD)

Online Degree Search Title: English (English Education), PhD

Campus: Tempe

Program Description: The PhD program in English with a concentration in English education prepares students to examine the writing and reading practices of secondary students. Students also learn about the instructional practices of secondary English language arts teachers through emphasis of the relationship between pedagogy and research methodologies used to study the teaching of secondary English.

The curriculum comprises dynamic coursework, mentoring, interdisciplinary learning opportunities and community outreach.

Possible areas for research focus within this program include young adult literature, secondary reading and writing practices, new literacies, English language learning, critical literacy, and secondary English language arts curriculum and instruction development. The program encourages students to pursue coursework in other subdisciplines within the Department of English, such as rhetoric and composition, applied linguistics and literature, and coursework in the ASU Mary Lou Fulton Teachers College, such as literacy and educational research methodology.

Students benefit from the program's links to the Central Arizona Writing Project, which offers opportunities for related coursework, research, community outreach and teacher in-service programs.

The doctorate in English education prepares students to become professors of English education or to pursue other relevant opportunities in research and administration.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

ENG 501 Approaches to Research (3)

Foundational Distribution (12 credit hours)

Advanced Studies Distribution (12 credit hours)

Internships (6 credit hours)

ENG 784 Internship (6)

Specialization (9 credit hours)

Electives and Research (30 credit hours)

Culminating Experience (12 credit hours)

ENG 799 Dissertation (12)

Additional Curriculum Information

Students must take 12 credit hours at the 500 level, selected from a list of approved courses in education, English, linguistics and applied linguistics for the foundational distribution.

Students must take at least three courses in the area of specialization.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If not approved, the 30 credit hours of coursework will be made up of electives and research.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree from a regionally accredited institution. Applicants with master's degrees in English education and related fields, such as English literature, applied linguistics, education, and rhetoric and composition will be considered. A minimum of three years of full-time teaching or volunteer work in secondary English language arts classrooms or in literate-rich settings is required.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- academic writing sample
- statement of teaching philosophy (teaching assistantship only)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English and has not graduated from an institution of higher learning in the United States must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency. Applications will not be processed without valid proof of English proficiency; official scores must be sent to ASU in order for the application to be processed.

The one- to two-page statement should explain the applicant's interest in the program and how the applicant's background and preparation led to the specific career and research goals. Although applicants will not be expected to have a definite research topic, the statement should articulate the specific domain or research area the applicant hopes to pursue and possible research questions. Letters of recommendation should be from individuals familiar with the applicant's promise in English education, including one letter from a school principal and two letters from university professors. Applicants applying for funding must also submit a statement of teaching philosophy.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Design and conduct original research in the field of English Education.
- Produce written article-length work of publishable quality.
- Write a comprehensive book-length research study with theory, literature review, methods, analysis, and findings based on one's own research.

Career Opportunities: Careers for English education graduates include professions related to the field of language arts and literacy education in secondary schools.

Career examples include:

- curriculum developer

- department chair
- district level research specialist
- dual enrollment teacher
- faculty member (college, university)
- instructional leader
- literacy coach
- middle or high school English teacher
- state level curriculum specialist

English (Literature), PHD (LAENLITPHD)

Online Degree Search Title: English (Literature), PhD

Campus: Tempe

Program Description: The PhD program in English with a concentration in literature trains students in various methodologies, pedagogies and areas of inquiry that constitute literary and cultural studies.

With a diverse and distinguished faculty, the program offers opportunities for specialization in traditional areas of literary criticism, cultural analysis and theory, as well as various fields of interdisciplinary study.

A doctorate in literature equips students with a range of highly sought-after skills and competencies: research and analysis of complex material, communication in written and oral modes, collaboration, independence and self-motivation, creativity and adaptability.

Degree Requirements:

84 credit hours, a foreign language exam, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation. A student with an appropriate master's degree must complete a minimum of 54 credit hours of approved graduate work, which includes 12 credit hours of dissertation, provided the student's master's degree is accepted by the supervisory committee and the academic unit. Research hours may be used toward coursework in consultation with the advisor.

A student without an appropriate master's degree must complete 84 credit hours of work at ASU. At the advisor's discretion, students may include up to 12 credit hours of appropriate, graduate-level coursework undertaken at another university and not previously counted toward any other degree.

Specifically required are six credit hours in theory courses and ENG 501 Approaches to Research. Students must complete eight graduate courses in any of the following categories:

- cultural studies
- ethnic studies
- gender studies
- genre
- history and structure of the English language
- literature 1500--1660
- literature 1660--1900
- literature since 1900
- literature to 1500
- postcolonial or anglophone literatures

Students must take at least five graduate seminars at the 600 level en route to the doctorate, at least three of which must be taken in the doctoral program. Up to 12 credit hours taken outside the department may be counted toward the degree. Students should consult with their supervisory committees when choosing electives.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- academic writing sample relevant to the field
- statement of teaching philosophy (teaching assistantship only)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English and has not graduated from an institution of higher learning in the United States must provide proof of English proficiency, regardless of current residency. Applicants can find more information about English proficiency requirements on the school website (<https://english.clas.asu.edu/admission/graduate-admission/information-international-students>). Please note that official scores must be sent to ASU in order for the application to be processed.

The well-considered, one- to two-page, single-spaced statement of purpose should explain the applicant's scholarly background and training, career goals, proposed research specialization, any secondary field of interest and why the applicant wishes to pursue a PhD in English (Literature) at Arizona State University. Applicants applying for funding must also submit a statement of teaching philosophy.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate research skills necessary to bring a project of literary or cultural analysis to fruition, including the ability to evaluate disciplinary debates and developments; and the ability to produce research on historical and cultural meanings of texts and related cultural productions.
- Demonstrate the ability to produce written work of publishable quality.
- Identify and evaluate various disciplinary arguments, trends, traditions and debates within the knowledge community of literary and cultural studies scholars.

Career Opportunities: Graduates are prepared for careers in higher education and other fields that value this expertise. Sectors employing high numbers of arts and humanities graduates include information and communication, financial and insurance, public administration and defense, arts and entertainment, and education.

Career examples include:

- archivist
- art director
- copywriter
- criminal investigator or special agent
- editor
- educator
- intelligence analyst
- librarian
- market research analyst
- museum curator, educator or exhibit designer
- political analyst
- public relations specialist or manager
- technical writer

English (Writing, Rhetorics, and Literacies), PHD (LAENRHTPHD)

Online Degree Search Title: English (Writing, Rhetorics and Literacies), PhD

Campus: Tempe

Program Description: The PhD program in English with a concentration in writing, rhetorics and literacies promotes the study of rhetorical

strategies, production, distribution and interpretation of oral, written, digital, visual, discursive, material and symbolic texts.

Students study the history, theories and methods of inquiry as well as pragmatic and social actions of writing, rhetoric and literacies. With theories and methods from both historical and contemporary contexts, students learn strategies for inquiry; the ways in which communication creates knowledge and action; and how communication is constructed, circulated, reacted to and repurposed over time and across space. Program requirements are designed to encourage a full understanding of theoretical and applied aspects of writing studies, rhetorical studies and literacy studies. Students also are provided many opportunities to explore the intersections and tensions that exist within and between the three different areas of inquiry.

The program encourages transdisciplinary study, and its flexible requirements enable students to pursue those aspects of the disciplines that interest them the most.

Degree Requirements:

84 credit hours, a foreign language exam, a written comprehensive exam, a prospectus and a dissertation, or 84 credit hours, a foreign language exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

ENG 501 Approaches to Research (3)

Concentration (9 credit hours)

ENG 551 Rhetorical Traditions (3)

ENG 552 Composition Studies (3)

ENG 556 Theories of Literacy (3)

Focus Area (9 credit hours)

Electives or Research (48 credit hours)

Other Requirements (3 credit hours)

writing for publication/scholarly writing coursework (3)

Culminating Experience (12 credit hours)

ENG 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. Students who do not hold a master's degree are required to take additional elective and research credit hours to reach the 84 credit hours required for this program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Applicants with bachelor's or master's degrees in fields such as anthropology, applied linguistics, cognitive science, communication, comparative languages and literatures, English literature, education, history, law, linguistics, modern languages, philosophy, political science, psychology, religion, rhetoric, composition, sociology, and speech and hearing science will be considered.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- academic writing sample relevant to the field
- statement of teaching philosophy (teaching assistantship only)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English and has not graduated from an institution of higher learning in the United States must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency. Applications will not be processed without valid proof of English proficiency; official scores must be sent to ASU in order for the application to be processed.

The well-considered, one- to two-page statement of purpose should explain the applicant's scholarly background and training, career goals, proposed research specialization, any secondary field of interest, and why the applicant wishes to pursue a PhD in English with a concentration in writing, rhetorics and literacies at Arizona State University. Applicants applying for funding must also submit a statement of teaching philosophy.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Evaluate competing knowledge claims within rhetorical studies and draw relevant interdisciplinary connections between those claims and one's own research topics.
- Evaluate and draw from relevant disciplinary histories, theories and methods to support rhetorical inquiry into their research topics.
- Design and carry out an original research study that produces data, findings and applied strategies for publication in professional, scholarly venues.

Career Opportunities: Professionals with expertise in written communication, research and knowledge management are in high demand across sectors and industries, including business, media, law, entertainment, politics, nonprofits and community organizations. Skills in the measurement and analysis of data for the development of multimodal content (digital, print, oral, visual) are valuable to businesses, organizations and institutions relying on data-driven strategies to address and communicate complex, knowledge-rich issues to broad professional audiences.

Graduates are prepared for work as teachers, scholars and communications professionals. Career examples include:

- editor and content manager
- English or communications professor
- human resources specialist
- market research analyst
- public relations specialist
- publishing copyeditor or proofreader
- social media manager
- technical writer

English Education, MA (LAENEDMA)

Online Degree Search Title: English Education, MA

Campus: Tempe

Program Description: The MA in English education is a one-year, intensive program designed to prepare practicing and transitioning teachers for careers as exemplary educators, teacher-researchers and leaders in English language arts instruction.

Students in the program develop a deep understanding of the English language arts by learning how to access, analyze and apply research and best practices for teaching secondary students (grades 7-12). This program balances the refining of disciplinary knowledge with pedagogical application of that knowledge in classrooms. Students take a variety of dynamic, contemporary methods courses, including advanced methods courses in research in English education, methods of teaching writing and text, teaching postcolonial young adult literature and teaching writing in an era of standardization.

This innovative course of study culminates with an inquiry project related to English language arts instruction in secondary classrooms. The program empowers students to employ teacher research and inquiry to address questions they have about their own students' learning and their own teaching practice.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

English (Secondary Education), BA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required applied project course (ENG 593).

Required Core (12 credit hours)

ENG 501 Approaches to Research (3)

ENG 506 Methods and Issues in Teaching Language (3)

ENG 507 Methods and Issues in Teaching Composition (3)

ENG 606 Advanced Studies in English Education (3)

Electives or Research (12 credit hours)

Other Requirements (3 credit hours)

ENG 594 Conference and Workshop (3)

Culminating Experience (3 credit hours)

ENG 593 Applied Project (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in English, creative writing, English education, secondary education or secondary curriculum and instruction, or a master's degree in education or a closely related field from a regionally accredited institution. Current certification in secondary English language arts (grades 6-12), or equivalent certification, or a minimum of two years teaching English language arts in a school setting is required.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English and has not graduated from an institution of higher learning in the United States must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Applications will not be processed without valid proof of English proficiency; official scores must be sent to ASU in order for the application to be processed.

Applicants must submit a well-considered, one- to two-page statement of purpose in which they explain how their experience and training have prepared them for the English education program, their goals in pursuing the MA in English education and plans for the future.

Two letters of recommendation are required; a third is optional. The letters should provide a clear picture of the applicant's potential for successfully completing a master's degree, so at least one of the letters should be from a university professor who is familiar with the applicant's academic work and with master's-level academic programs.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will demonstrate the ability to recognize various qualitative and quantitative research methods as appropriate and effective means for pursuing specific lines of classroom-based teacher inquiry and explain the pros and cons of a given methodological approach in terms of their classroom research.
- Students will be able to locate, analyze and synthesize qualitative or quantitative teacher research studies specific to important issues in their own English language arts classrooms or schools.
- Students will demonstrate the use of appropriate, effective qualitative or quantitative research methods as they design and implement studies for the purpose of improving curriculum and instruction in their own school districts and sharing their findings in a public forum.
- Students will be able to identify important educational issues they face in teaching English language arts, survey a variety of resources (i.e., research literature, expert opinion and educational policy), and synthesize their learning into plans for best practice.
- Students will be able to interrogate their own pedagogical practices (i.e., curriculum and instruction, differentiation, English language learners, cultural responsiveness, assessment, digital and new literacies) in the teaching of English language arts (reading, writing, speaking, listening, use of language, technology) and make appropriate adaptations to best meet all students' needs.

Career Opportunities: Careers for English education graduates include professions related to the field of secondary language arts and literacy education in secondary schools.

Career examples include:

- curriculum development
- dual enrollment teachers
- faculty positions at colleges and universities
- instructional leaders
- literacy coaches
- middle and high school English teachers
- teacher leadership and research

Students who complete the Master of Arts in English education may have the appropriate degree to be qualified to teach dual-credit English education courses.

Environmental Communication and Leadership (Certificate), Certificate (LAECLGRCT)

Online Degree Search Title: Environmental Communication and Leadership (Graduate Certificate)

Campus: Tempe

Program Description: Scientists must go beyond publishing in journals if they want their research to be relevant to society. However, academic training rarely covers how to communicate with the press, the public, policymakers and other relevant stakeholders.

This certificate program in environmental communication and leadership gives graduate students in environmental disciplines the important skills they need in order to increase their influence and reach above and beyond academia.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

BIO 578 Environmental Leadership and Communication (3)

Electives (12 credit hours)

policy and management (3)

communication (3)

leadership (3)

open elective (3)

Additional Curriculum Information

Students must choose three credit hours from each of the policy and management, communication, and leadership categories with approval of the School of Life Sciences. If a student takes a course for fewer than three credit hours, the student must take more than one course in that category to meet the three-credit-hour requirement. Students should contact the School of Life Sciences for a complete list of courses.

For the open elective category, students choose one three-credit-hour elective course from any of the other three categories above. Students should note that only three credit hours of approved 400-level coursework can appear on the plan of study.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee

- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Sample related fields include business, education, biology, geosciences, political science and English.

Applicants must have completed 12 undergraduate credit hours of natural science or social science coursework related to the environment at the time of application to the graduate certificate program. They must meet all other graduate admissions requirements. Courses are reviewed by the School of Life Sciences graduate committee to ensure they fulfill this requirement.

Career Opportunities: Professionals skilled in communication as well as analytical and critical thinking are highly sought-after in public and private industry. Experience with conservation science, policy, management and leadership prepares graduates for careers in research, policy development, law and business management, among many others.

Career examples include:

- attorney
- ecologist
- professor
- research scientist
- science journalist or communicator

Environmental Life Sciences, PHD (LAELSPHD)

Online Degree Search Title: Environmental Life Sciences, PhD

Campus: Tempe

Program Description: The PhD in environmental life sciences is an integrative graduate degree program that provides doctorate-level training in several fields focused on the interactions between organisms (e.g., plant, microbe, humans and other animals) and the environment (locally and globally).

This distinct program integrates training across many fields of study. Dissertations may include any of the following, plus related fields:

- biochemistry and chemistry
- biology (ecology, physiology, evolution)
- conservation science
- environmental engineering
- geosciences
- mathematics and statistics
- social sciences
- spatial sciences
- sustainability

Graduate students are trained by means of a core class taught by environmental life science faculty members, through hands-on experiences in the lab and field, with guidance from committee members across multiple disciplines, and in research seminars.

The program focus is on collaborative, interdisciplinary and integrative study of the causes and consequences of environmental variation across scales ranging from the organism to the globe. The overall goal is to provide a valuable interdisciplinary doctoral program that encourages students to explore and solve complex problems in the context of natural and anthropogenic environmental change.

Administered by ASU's School of Life Sciences, eight additional schools participate in this interdisciplinary program to promote broad, collaborative training.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

ELS 501 Environmental Life Sciences: Grand Challenge: Global Climate Change (3)

Electives (69 credit hours)

Culminating Experience (12 credit hours)

ELS 799 Dissertation (12)

Additional Curriculum Information

ELS 501 is required for students to take during their first semester at ASU.

For electives, students should see the academic unit for approved coursework. Students also may take ELS omnibus courses to fulfill some of the elective requirements.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework are made up of electives and research.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related discipline from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Able to execute a research plan of their own design that addresses a significant scientific question about environmental life sciences.
- Able to effectively communicate environmental biology concepts in oral and written formats.

Career Opportunities: Environmental life scientists address ecological and environmental questions in social-ecological-technological systems, thus students often have a social science or related component in their dissertation. Graduates are prepared for a range of careers related to global environmental change, conservation and resource management, and sustainable industries among others.

Career examples include:

- climate change analyst
- consultant
- environmental compliance inspector
- environmental engineer
- environmental safety and health coordinator
- insect ecologist and exhibits specialist
- oceans and climate manager

- professor
- public health scientist
- research director
- scientist

Scientist, professor, consultant and research director roles may involve specialization areas, including:

- atmosphere and space
- ecology (community, ecosystem, microbe, population, wildlife)
- ecosystem restoration
- forestry and conservation

Environmental Social Science, PHD (LAESSPHD)

Online Degree Search Title: Environmental Social Science, PhD

Campus: Tempe

Program Description: The PhD program in environmental social science is one of the few doctoral degree programs in the U.S. that draw on the premise that reducing human impacts and developing more sustainable environmental practices are difficult, if not impossible, to achieve without a focus on the social dynamics of environmental issues using critical social science perspectives.

The program is organized around theoretically based conceptual domains:

- culture and the environment
- environmental hazards and vulnerability
- environmental justice
- human environment impacts
- political ecology
- science and technology studies

These are the bases for addressing various topical foci, including urban environments, technologies and their consequences, landscapes, institutions, and health and the environment.

Students work with faculty who have expertise in a broad range of fields, including:

- archaeology
- community resources
- cultural and medical anthropology
- demography
- environmental history
- geographic information systems
- human and physical geography
- planning
- public affairs
- science and technology studies
- sociology

Coursework for the degree is focused on developing practical skills and a solid grasp of complex social science approaches to environmental issues. Students work closely with their committee to develop a curriculum appropriate to their chosen interests and career goals.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.
 2024-25 Academic Catalog Archive

Students who enter the program with a master's degree in a related field may be granted up to 30 credit hours toward the 84 credit hour total required for the doctorate degree program. This leaves 30 credit hours of coursework, 12 credit hours of research credit and 12 hours of dissertation credit (54 credit hours total) to be earned after admission.

Students who enter the program without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio that is formally evaluated by a faculty committee, and present that research in a public forum before continuing to the later stage of the doctorate degree program.

All students must maintain an average GPA of 3.20 (scale is 4.00 = "A") in their courses and complete degree requirements per the program's satisfactory progress policy.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Undergraduate coursework in the social sciences (e.g., geography, political science, sociology, anthropology, planning or history) is not a prerequisite for admission but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of the social sciences in a manner to be specified at the time of admission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Applicants may include in the application materials an optional scholarly writing sample, not to exceed 30 double-spaced pages.

Career Opportunities: The program trains students to move into teaching and research positions or to assume leadership roles in government, industry or nongovernmental organizations.

There is a demand in the job market for people with keen thinking skills who can manage, evaluate and interpret large amounts of data. As the many spheres of human interaction expand globally, people trained in this degree program are increasingly sought-after for their broad, holistic knowledge and perspectives. Some career opportunities include:

- acting as legal advocates in international cases
- analyzing and proposing policies
- conducting postgraduate academic research
- consulting for private and public organizations
- curating cultural resources
- directing nonprofit organizations
- directing programs in the private or public sector
- managing culture or heritage resources in the private or public sector
- planning communities
- teaching

Environmental Social Science (Complex Adaptive Systems Science), PHD (LAESSCPHD)

Online Degree Search Title: Environmental Social Science (Complex Adaptive Systems Science), PhD

Campus: Tempe

Program Description: The PhD program in environmental social science is one of the few doctoral degree programs in the U.S. that draws on the premise that reducing human impacts and developing more sustainable environmental practices is difficult, if not impossible, to achieve without a focus on the social dynamics of environmental issues using critical social science perspectives.

The program is organized around theoretically based conceptual domains:

- culture and the environment
- environmental hazards and vulnerability
- environmental justice
- human environment impacts
- political ecology
- science and technology studies

These are the bases for addressing various topical foci, including urban environments, technologies and their consequences, landscapes, institutions, and health and the environment.

Students work with faculty who have expertise in a broad range of fields, including:

- archaeology
- community resources
- cultural and medical anthropology
- demography
- environmental history
- geographic information systems
- human and physical geography
- planning
- public affairs
- science and technology studies
- sociology

Coursework for the degree is focused on developing practical skills and a solid grasp of complex social science approaches to environmental issues. Students work closely with their committee to develop a curriculum appropriate to their chosen interests and career goals.

The complex adaptive systems science doctoral concentration trains the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences. The program is tightly integrated with diverse, ongoing, university-wide research on complex adaptive systems science at Arizona State University, and it emphasizes the value of a complex adaptive systems perspective to give students better insight and a more active role in seeking solutions to a broad array of critical issues facing society today. Students become fluent in the common language of complexity while also receiving a solid foundation in the domain knowledge of existing academic disciplines.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (9 credit hours)

Concentration (12 credit hours)

Electives or Research (51 credit hours)

Culminating Experience (12 credit hours)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework will be made up of electives or research.

Students entering the program without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio that is formally evaluated by a faculty committee, and present that research in a public forum before continuing in the later stage of the doctoral program.

All students must maintain an average GPA of 3.20 (scale is 4.00 = "A") in their courses and complete degree requirements per the program's

satisfactory progress policy.

Student doctoral dissertations should include the application of complex adaptive systems concepts and methods in their field of study, and students typically have a member of the complex adaptive systems science graduate faculty as a member of their doctoral supervisory committee.

Students should see the academic unit for a complete list of approved electives and concentration courses.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Undergraduate coursework in the social sciences (e.g., geography, political science, sociology, anthropology, planning or history) is not a prerequisite for admission but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of the social sciences in a manner to be specified at the time of admission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Applicants may include in their application materials an optional scholarly writing sample, not to exceed 30 double-spaced pages.

Career Opportunities: The program trains students to move into teaching and research positions or to assume leadership roles in government, industry and nongovernmental organizations.

There is a demand in the job market for people with keen thinking skills who can manage, evaluate and interpret large amounts of data. As the many spheres of human interaction expand globally, people trained in this degree are increasingly sought for their broad, holistic knowledge and perspectives. Some career opportunities include:

- analyzing and proposing policies
- conducting postgraduate academic research
- consulting for private and public organizations
- curating cultural resources
- directing nonprofit organizations
- directing programs in the private or public sector
- managing culture or heritage resources in private or public sectors
- planning communities
- teaching

Environmental Social Science (Urbanism), PHD (LAESSURPHD)

Online Degree Search Title: Environmental Social Science (Urbanism), PhD

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description: The PhD in environmental social science is one of the few doctoral degree programs in the U.S. that draws on the premise that reducing human impacts and developing more sustainable environmental practices will be difficult to achieve, if not impossible, without a focus on the social dynamics of environmental issues using critical social science perspectives.

The program is organized around theoretically based conceptual domains:

- culture and the environment
- environmental hazards and vulnerability
- environmental justice
- human environment impacts
- political ecology
- science and technology studies

These are the bases for addressing various topical foci, including urban environments, technologies and their consequences, landscapes, institutions, and health and the environment.

Students work with faculty who have expertise in a broad range of fields including:

- archaeology
- community resources
- cultural and medical anthropology
- demography
- environmental history
- geographic information systems
- human and physical geography
- planning
- public affairs
- science and technology studies
- sociology

The program trains students to move into teaching and research positions or to assume leadership roles in government, industry or in nongovernmental organizations.

Coursework for the degree is focused on developing real-world skills and a solid grasp of complex social science approaches to environmental issues. Students work closely with their committee to develop a curriculum appropriate to their chosen interests and career goals.

The concentration in urbanism leverages the varied interests in urbanism and helps emerging scholars as they attempt to compare, contrast and take stock of urbanism. Working with faculty from across a range of departments and programs at ASU, doctoral students are able to capture the creative tensions that scholarship on urbanism has inspired in order to stimulate a provocative, constructive kind of inquiry.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students entering with a master's degree in a related field may be granted up to 30 credit hours toward the 84 credit hour total required for the doctorate. This leaves 30 credit hours of coursework, 12 credit hours of research and 12 credit hours of dissertation (54 credit hours total) to be earned post admission.

Students entering without a master's degree must earn an additional 30 credit hours of graduate coursework, produce a research portfolio which is formally evaluated by a faculty committee, and present that research in a public forum before continuing on in the later stage of the doctorate degree program.

All students must maintain an average GPA of 3.20 in their courses and complete degree requirements per the program's satisfactory progress policy.

All students entering the program complete 18 credit hours of core classes in conceptual domains and topical foci. For the concentration in urbanism, 15 credit hours are to be selected from an approved list of applicable courses related to urbanism. Some of the environmental social science core courses also count toward the concentration in urbanism. These courses include the core urbanism course GCU 516 as well as one course from each of the four urbanism clusters: built form, culture and society, institutions and governance, and natural environment.

Additional credit hours come from courses in research design, technical expertise and electives. Students may select from a substantial range of courses to satisfy noncore requirements.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Undergraduate coursework in the social sciences (e.g., geography, political science, sociology, anthropology, planning or history) is not a prerequisite for admission but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of the social sciences in a manner to be specified at the time of admission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Applicants may submit with their application materials an optional scholarly writing sample, not to exceed 30 double-spaced pages.

Career Opportunities: The demand in the job market is for people with keen thinking skills who can manage, evaluate and interpret large amounts of data. As the many spheres of human interaction expand globally, people with the training of this degree are increasingly sought-after for their broad, holistic knowledge and perspectives. Some career opportunities include:

- acting as legal advocates in international cases
- analyzing and proposing policies
- conducting postgraduate academic research
- consulting for private and public organizations
- curating cultural resources
- directing nonprofit organizations
- directing programs in the private or public sector
- managing culture or heritage resources in private or public sectors
- planning communities
- teaching

Evolutionary Biology, PHD (LAEVOPHD)

Online Degree Search Title: Evolutionary Biology, PhD

Campus: Tempe

Program Description: The evolutionary biology PhD is a transdisciplinary graduate degree program that provides doctorate-level training in the historical, conceptual, empirical and quantitative aspects of biological evolution.

Evolution is a fundamental scientific concept underlying all aspects of modern biological, environmental and health-related research. It cuts across biological sciences in ways that few other foci do and informs the theoretical foundations of subfields like population genetics and ecosystem ecology. It allows integration of information and patterns across levels of organization, informs the theoretical foundations of subfields ranging from population genetics to systematics to ecosystem ecology, and provides bridges between temporal and spatial scales.

Forgoing emphases on particular taxa or methods, the program focuses on understanding the patterns and processes that have shaped life on Earth and continue to do so, training the next generation of scientists to use this knowledge to meet present and future challenges to the biosphere and human health in the face of increasing environmental perturbation.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website.

The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (9 credit hours)

BIO 514 Statistical Models for Biology (4)

EVO 601 Principles of Evolution (3)

EVO 610 Research Areas of Evolution (2)

Electives (9 credit hours)

The program advisor as well as the student's advisor will determine these courses in conjunction with the student.

Other Requirements (54 credit hours)

research, coursework or 30 credit hours from a previously awarded master's degree

Dissertation (12 credit hours)

EVO 799 Dissertation (12)

Additional Curriculum Information

Students take EVO 610 twice for one credit hour.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related discipline from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Able to review the literature relevant to the research question in evolutionary biology that they address in their dissertation.
- Able to execute a research plan of their own design that addresses a significant scientific question about evolutionary biology.
- Able to communicate the rationale and results of their research, both orally and in writing.

Career Opportunities: Those who have earned a doctorate in evolutionary biology are prepared for academic careers at every level, from community colleges to research universities, and their skills and knowledge are also valuable for government careers in federal and state agencies, and for careers in industry and nongovernmental organizations.

Career examples include:

- health care scientists in academic, private and industrial labs
- principal investigators in government labs and nonprofit organizations
- professors or instructors in universities and colleges
- science teachers in elementary and high schools
- wildlife, animal and conservation scientists

Evolutionary Medicine (Certificate), Certificate (LAEVMDGRCT)

Online Degree Search Title: Evolutionary Medicine (Graduate Certificate)

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description: With rising need for health science-related skills and an aging population in the United States, innovations in health and medicine are in demand.

Evolutionary medicine is a new and burgeoning field situated between the life and social sciences that integrates the fields of genetics, medicine, global health, evolutionary biology and public health to transform understanding of disease and improve human health. Students who complete this certificate program learn how to integrate perspectives from across fields to answer questions about health and disease in the context of human life history.

Students are introduced to integrated approaches within the biological and social sciences that are capable of addressing an emerging, anticipated public need such as reemerging infectious disease, challenges with vaccines, the expansion of chronic disease and other growing public health crises.

Degree Requirements:

15 credit hours including the required capstone course (BIO 571).

Required Core (3 credit hours)

ASB 507/BIO 507 Advanced Evolutionary Medicine (3) or

ASM 503/BIO 510 Evolutionary Medicine and Global Health (3)

Restricted Electives in Anthropology (3 credit hours)

ASB 503 Medical Anthropology (3)

ASB 510 Health: Social and Biocultural Theories (3)

Restricted Electives in Biology (3 credit hours)

ASM 546/BIO 546 Principles of Human Genetics (3)

BIO 545 Populations: Evolutionary Genetics (3)

EVO 601 Principles of Evolution (3)

Electives or Research (3 credit hours)

Culminating Experience (3 credit hours)

BIO 571 Evolutionary Medicine Capstone (3)

Additional Curriculum Information

Students choose one course from an approved list of electives or research courses and cannot choose courses already taken for required core or restricted electives in anthropology and biology. For restricted electives in anthropology and biology, students must choose one course from the list indicated for each subject.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the life or social sciences or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- professional resume
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The professional resume should demonstrate the applicant's skills and previous training.

The written statement should address future career goals to better assist the student with selection of the most applicable set of courses in

evolutionary medicine.

International students who need an F1 or 1 J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Career Opportunities: With an aging population in the U.S. and a pivot toward global health concerns, there is an increase in demand for health care services.

Health care professional programs have competitive admissions processes, and students with a certificate in evolutionary medicine set themselves apart from their peers with skills in problem-solving to address the integration of basic medical and public health science and practice. They also have a working knowledge of how evolutionary thinking influences medical and public health intervention and have the ability to apply an integrated conceptual framework to the problems of public health and medicine in order to produce more holistic outcomes for the improvement of human health.

Career examples include:

- anthropologists and sociologists
- biologists
- educators
- physicians, nurses, psychologists and psychiatrists
- public health professionals

Exploration Systems Design, MS (LAESDMS)

Online Degree Search Title: Exploration Systems Design, MS

Campus: Tempe

Program Description: The MS program in exploration systems design promotes the development and growth of engineering-literate scientists and science-literate engineers. Its distinct curriculum combines science applications with engineering knowledge and skills through engineering and science courses focused on Earth science, space science and astrophysics.

Three concentrations are also offered for those who wish for more specific training in instrumentation, systems engineering and sensor networks.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Aerospace Engineering (Aeronautics), BSE
- Aerospace Engineering (Astronautics), BSE
- Aerospace Engineering (Autonomous Vehicle Systems), BSE
- Earth and Space Exploration, BS
- Earth and Space Exploration (Astrobiology and Biogeosciences), BS
- Earth and Space Exploration (Astrophysics), BS
- Earth and Space Exploration (Exploration Systems Design), BS
- Earth and Space Exploration (Geological and Planetary Sciences), BS
- Electrical Engineering, BSE
- Electrical Engineering (Electric Power and Energy Systems), BSE
- Mechanical Engineering, BSE

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply

(<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required capstone course (SES 511).

Required Core (5 credit hours)

SES 501 SESE Colloquium (1)

SES 502 Exploring SESE Research (1)

SES 510 Graduate Exploration Project I (3)

Electives or Research (22 credit hours)

Culminating Experience (3 credit hours)

SES 511 Graduate Exploration Project II (3)

Additional Curriculum Information

For elective coursework, students select from the AST, GLG, SES or engineering courses in consultation with their faculty advisor. Six credit hours must be science coursework approved by the faculty advisor. Other courses can be used with academic unit approval.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering, physical science or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- written statement
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Career Opportunities: The U.S. Department of Labor predicts the economy will add an additional 63,000 jobs in engineering fields related to systems engineering and exploration systems design (involving electrical and electronics, aerospace and mechanical engineering). This is in addition to the 900,000 jobs already existing in the economy in these fields. <https://www.bls.gov/ooh/architecture-and-engineering/home.htm> (<https://www.bls.gov/ooh/architecture-and-engineering/home.htm>)

The state of Arizona has a considerable presence of aerospace and other technology companies with high demand for skilled labor. In particular, local aerospace companies have a need for students with direct experience and training in the space sector. This degree program is particularly positioned to provide such training.

Exploration Systems Design, PHD (LAESDPHD)

Online Degree Search Title: Exploration Systems Design, PhD

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description: The PhD program in exploration systems design offers students an advanced systems approach for developing scientific exploration technologies in a wide variety of demanding environments on the Earth, planets, moons and in space.

This transdisciplinary degree program provides a valuable platform for training systems engineers targeting technological development for exploration science. This collaborative program between the School of Earth and Space Exploration and the Ira A. Fulton Schools of Engineering allows students to specialize in topics related to planetary exploration, astronomical instrumentation, robotics, sensors and sensor networks.

The curriculum integrates the School of Earth and Space Exploration's science, instrumentation and systems engineering core courses with related coursework from the Ira A. Fulton Schools of Engineering. Students must select a concentration as part of this degree program. Concentrations are available in instrumentation, systems engineering and sensor networks.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (1 credit hour)

SES 502 Exploring SESE Research (1)

Electives or Research (70 credit hours)

Other Requirements (1 credit hour)

SES 501 SESE Colloquium (1)

Culminating Experience (12 credit hours)

SES 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree in a related field to be used for this degree. Related fields include, but are not limited to, engineering, computer science, geological sciences or physics.

As part of the electives or research, students take two science courses selected from the SESE graduate catalog (GLG, SES, or AST prefixes). Substitutions may be made per academic unit approval.

Substitutions for Other Requirements may be made per department approval.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admissions application and application fee
- official transcripts
- statement of purpose
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Students should see the program website for application deadlines.

Instrumentation concentration

An undergraduate degree in electrical engineering, aerospace engineering or mechanical engineering is preferred.

Systems engineering concentration

Successful completion of a senior capstone or design project is an admission requirement for this concentration. Students who have not had a design course are required to take SES 405 Exploration Systems Engineering as a deficiency course.

Sensor networks concentration

An undergraduate degree in electrical engineering or computer science is preferred.

Career Opportunities: Professionals with expertise in exploration systems design are in high demand across sectors and industries, including remote sensing, systems engineering, data science, environmental consulting, Earth and planetary science, and engineering. Coding and numerical modeling skills translate across many domains, even beyond exploration systems design. Skills in the design, manufacture and deployment of engineered solutions to science problems are valuable to businesses and institutions relying on data-driven strategies to manage large teams and complex problems. The doctoral degree in exploration systems design is generally required for careers in post-secondary education and research.

Career examples include:

- data scientist
- engineering professor
- project manager
- research engineer

Electives or Research (13 credit hours)

Culminating Experience (3 credit hours)
SES 511 Graduate Exploration Project II (3)

Additional Curriculum Information

Students select three courses from the available concentration coursework.

For elective coursework, students select from the AST, GLG, SES or engineering courses in consultation with their faculty advisor. Six credit hours must be science coursework approved by the faculty advisor. Other courses can be used with academic unit approval.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering, physical science or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- written statement
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Career Opportunities: The U.S. Department of Labor predicts the economy will add an additional 63,000 jobs in engineering fields related to instrumentation and exploration systems design (involving electrical and electronics, aerospace and mechanical engineering). This is in addition to the 900,000 jobs already existing in the economy in these fields. <https://www.bls.gov/ooh/architecture-and-engineering/home.htm> (<https://www.bls.gov/ooh/architecture-and-engineering/home.htm>)

The state of Arizona has a considerable presence of aerospace and other technology companies with high demand for skilled labor. In particular, local aerospace companies have a need for students with direct experience and training in the space sector. The concentration in instrumentation is particularly positioned to provide this training.

Exploration Systems Design (Instrumentation), PHD (LAESDIPHD)

Online Degree Search Title: Exploration Systems Design (Instrumentation), PhD

Campus: Tempe

Program Description: The PhD program in exploration systems design offers an advanced systems approach for developing scientific exploration technologies in a range of demanding environments on Earth and in space.

This transdisciplinary degree program provides a distinct platform to train systems engineers targeting technological development for exploration science. This collaborative program between the School of Earth and Space Exploration and the Ira A. Fulton Schools of Engineering enables students to specialize in topics related to planetary exploration, astronomical instrumentation, robotics, sensors and sensor networks.

The curriculum integrates the School of Earth and Space Exploration's science, instrumentation and systems engineering core courses with related coursework from the Ira A. Fulton Schools of Engineering. The instrumentation concentration prepares students in the development of state-of-the-art sensors and systems for remote and in situ sensing related to planetary science, Earth science and astronomy.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (1 credit hour)

SES 502 Exploring SESE Research (1)

Concentration (9 credit hours)

Other Requirements (1 credit hour)

SES 501 SESE Colloquium (1)

Electives or Research (61 credit hours)

Culminating Experience (12 credit hours)

SES 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree in a related field to be used for this degree. Related fields include, but are not limited to, engineering, computer science, geological sciences and physics.

As part of the electives or research, students take two science courses selected from the SESE graduate catalog (GLG, SES or AST prefixes). Substitutions may be made per academic unit approval.

Substitutions for Other Requirements may be made per department approval.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution. An undergraduate degree in electrical engineering, aerospace engineering or mechanical engineering is preferred.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admissions application and application fee
- official transcripts
- statement of purpose
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Students should see the program website for application deadlines.

Career Opportunities: Professionals with expertise in exploration systems design are in high demand across sectors and industries, including remote sensing, systems engineering, data science, technical consulting, Earth and planetary science and engineering. Coding and numerical modeling skills translate across many domains, even beyond exploration systems design. Skills in the design, manufacture and deployment of engineered solutions to science problems are valuable to businesses and institutions that rely on data-driven strategies to manage large teams and complex problems. The doctoral degree in exploration systems design is generally required for careers in postsecondary education and research.

Career examples include:

- data scientist
- engineering professor
- instrument builder
- machining specialist

- project manager
- research engineer

Exploration Systems Design (Sensor Networks), MS (LAESDSNMS)

Online Degree Search Title: Exploration Systems Design (Sensor Networks), MS

Campus: Tempe

Program Description: The MS program in exploration systems design with a concentration in sensor networks promotes the development and growth of engineering-literate scientists and science-literate engineers interested in the use of robotics, data science and other computational tools applied to science problems in Earth and space sciences.

Its distinct curriculum combines science applications with engineering knowledge and skills through engineering and science courses focused on Earth science, space science and astrophysics. The concentration program trains students to use modern computational tools to solve some of the most complex science problems humanity faces.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Aerospace Engineering (Aeronautics), BSE
- Aerospace Engineering (Astronautics), BSE
- Aerospace Engineering (Autonomous Vehicle Systems), BSE
- Earth and Space Exploration, BS
- Earth and Space Exploration (Astrobiology and Biogeosciences), BS
- Earth and Space Exploration (Astrophysics), BS
- Earth and Space Exploration (Exploration Systems Design), BS
- Earth and Space Exploration (Geological and Planetary Sciences), BS
- Electrical Engineering, BSE
- Electrical Engineering (Electric Power and Energy Systems), BSE
- Mechanical Engineering, BSE

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required capstone course (SES 511).

Required Core (5 credit hours)

SES 501 SESE Colloquium (1)

SES 502 Exploring SESE Research (1)

SES 510 Graduate Exploration Project I (3)

Concentration (9 credit hours)

CEN 571 Hardware Acceleration and FPGA Computing (3)

EEE 507 Multidimensional Signal Processing (3)

EEE 511 Artificial Neural Computation (3)

EEE 515 Machine Vision and Pattern Recognition (3)

EEE 551 Information Theory (3)

MAE 547 Modeling and Control of Robots (3)

Electives or Research (13 credit hours)

Culminating Experience (3 credit hours)
SES 511 Graduate Exploration Project II (3)

Additional Curriculum Information

Students select three courses from the available concentration coursework.

For elective coursework, students select from the AST, GLG, SES or engineering courses in consultation with their faculty advisor. Six credit hours must be science coursework approved by the faculty advisor. Other courses can be used with academic unit approval.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering, physical science or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- written statement
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Career Opportunities: The U.S. Department of Labor predicts the economy will add an additional 63,000 jobs in engineering fields related to systems engineering and exploration systems design (involving electrical and electronics, aerospace and mechanical engineering). Family and Human Development, MS (LAFAMHDMS)

Online Degree Search Title: Family and Human Development, MS

Campus: Online

Program Description: The MS program in family and human development provides practitioner-oriented professionals with an understanding of relationships and developmental dynamics.

Students learn how to effectively evaluate and consume research, translate research into best practices, and apply these principles at work. They gain knowledge and skills necessary for promoting healthy development of individuals and families as they study the factors that promote successful relationships and positive outcomes for individuals, families and communities across the lifespan.

The online format provides easy access to rigorous and valuable information that informs best practices in improving the lives of families and family members. The program also includes a customizable culminating experience that allows students to focus their training in their areas of interest and work.

Degree Requirements:

30 credit hours including the required capstone course (FAS 588).

Required Core (6 credit hours)

CDE 531 Theoretical Issues in Child Development (3)

FAS 586 or SOC 586 Masters Professional Development (3)

Electives (15 credit hours)

diversity course (3)

other elective coursework (12)

Other Requirements (6 credit hours)

FAS 500 Research Methods (3)

CDE 501 Social Statistics (3)

Culminating Experience (3 credit hours)

FAS 588 Capstone Culminating Experience (3)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives. The diversity course and other elective coursework are chosen with approval by the academic advisor. FAS 500 and CDE 501 may be replaced by equivalent courses with approval by the academic advisor.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate coursework
- current resume or curriculum vitae
- personal statement of goals relevant to the master's degree program
- two letters of recommendation from professional or academic backgrounds
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The personal statement must be two to three pages, double-spaced, and must address the applicant's professional goals, the strengths that will

enable them to succeed in the program, and relevant professional experience or responsibilities to the program.

Letters of recommendation must be from at least two academic or professional sources. Family members and friends do not meet this criterion. Applicants should see the program website for full application deadlines and admission terms and details.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-family-and-human-development/>) for program descriptions and to request more information.

Career Opportunities: Graduates often pursue careers in human, social and government agencies working with children, youth and adults in positions such as:

- caseworker
- children, youth and family services worker
- community engagement specialist
- community support program official
- family support specialist
- human service specialist
- manager
- nonprofit organization administrator
- outreach coordinator

While the information students learn in this program could be beneficial to therapists and counselors, this degree does not enable students to seek licensure as a professional counselor or marriage and family therapist; that requires the completion of an additional program or degree.

Family and Human Development, PHD (LAFAMSCPHD)

Online Degree Search Title: Family and Human Development, PhD

Campus: Tempe

Program Description: The PhD program in family and human development is devoted to the study of families, children and youth. The program's research, teaching and service have direct meaning in the lives of children and adults and for their families and communities.

The faculty share a common commitment to high-quality research that both increases the basic understanding of human and family development and has the potential to contribute to the improvement of the lives of children and families.

Degree Requirements:

85 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (1 credit hour)

FAS 503 Academic Professional Development (1)

Other Requirements (26 credit hours)

CDE 531 Theoretical Issues in Child Development (3)

FAS 500 Research Methods (3)

FAS 513 Introduction to Regression and Linear Models (4)

FAS 514 Advanced Regression and Nonlinear Models (4)

FAS 531 Theoretical Issues in Family Sciences (3)

two graduate-level courses in advanced methods or statistics (6)

one graduate-level diversity course (3)

Research (6 credit hours)

FAS or CDE 592 Research (6)

Electives (40 credit hours)

Culminating Experience (12 credit hours)

FAS or CDE 799 Dissertation (12)

Additional Curriculum Information

Postbaccalaureate (students entering after the bachelor's degree): Of the 85 credit hours for a postbaccalaureate program, six credit hours are dedicated to an empirical project, and 12 credit hours are for the dissertation.

Post-master's (students entering after the master's degree): When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this credential. Of the 55 credit hours of the post-master's degree program, 12 credit hours are for the dissertation.

Electives should be chosen in consultation with and approval of the advisor. Electives may be selected within or outside the Sanford School. All elective courses must be 500 level or higher.

Substitutions for all courses listed under other requirements may be made per department approval.

For the diversity course requirement, students should refer to the department for a list of approved courses.

For the advanced methods or statistics requirement, students take two courses with content that advances beyond Quantitative Methods I and II.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a resume or curriculum vitae
- statement of goals relevant to the doctoral program
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The personal statement must be four to six pages, double-spaced, and address the applicant's professional goals, the applicant's strengths that will enable them to succeed in the program, a detailed description of past research experience, relevant professional experiences or responsibilities, and specific personal research interests. The applicant also must identify two or three faculty members whose research interests match their own and explain why they are good matches.

Three letters of recommendation are required. These must include at least one from an instructor at the institution where the applicant completed their undergraduate or graduate work. The letters should be from people who know the applicant in a professional or academic capacity; letters from family members or friends do not meet this criterion.

Students should see the program website for full application deadlines.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply their understanding of theoretical perspectives to the field of child and family development in their final project and/or final exam.
- Apply research methods, including study design, measurement, and analyses in their final exam and dissertation.
- Able to implement a major independent research project that makes a unique contribution to the field of family and human development.

Career Opportunities: Graduates possess knowledge and skills necessary for promoting healthy individual and family development as they study the factors that promote successful relationships and positive outcomes for individuals, families and communities across the life span. Graduates often pursue careers working with children, youth and adults in human, social and government agencies or take on leadership roles as researchers in a university, in a public or privately funded agency, in an industry or in government.

Career examples include:

- community support program officials
- government agency administrators and professionals
- instructors
- nonprofit organization administrators
- research professionals

Film and Media Studies, MAS (LAAMPCMAS)

Online Degree Search Title: Film and Media Studies, MAS

Campus: Online

Program Description: Providing a comprehensive overview of film, television, video games and other digital media across a range of texts and platforms, the MAS program in film and media studies helps students develop into more critically informed writers, teachers, storytellers and consumers of popular culture and media.

Delivered exclusively online, the Master of Advanced Study program explores the aesthetic, industrial, social and cultural dimensions of U.S. media production within a dynamic, interactive and flexible learning environment.

Degree Requirements:

30 credit hours and a written comprehensive exam.

Required Core (9 credit hours)

FMS 504 Film Analysis (3)

FMS 510 Digital Media Studies (3)

FMS 520 Cultural History of US Television: Theory and Method (3)

Electives (21 credit hours)

Culminating Experience (0 credit hours)

written comprehensive exam (0)

Additional Curriculum Information

The program consists of nine credit hours of core courses, 21 credit hours of electives and a written comprehensive exam. Students should review the webpage and then consult the director.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- letters of recommendation (optional)
- application essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English and has not graduated from an institution of higher learning in the United States must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency. Applications will not be processed without valid proof of English proficiency; official scores must be sent to ASU in order for the application to be processed.

In a one-page, double-spaced statement of purpose, the applicant should explain how their goals and interests align with the focus of the program.

Applicants are asked to write and submit a three-page essay that assesses their knowledge of media theory and critical analysis skills. The subject of the essay is given in the online application. Applicants should demonstrate the ability to write well and construct a persuasive critical argument. Appropriate secondary sources should be used in this essay.

While letters of recommendation are optional, applicants may include two or three letters in their application. Recommenders should be former teachers or supervisors who address the applicant's academic performance, motivation and character.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-advanced-study-american-media-and-popular-culture/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Graduates of this program will be able to engage theory and apply key concepts in film and media studies.
- Students will be able to identify, evaluate and integrate appropriate primary and secondary sources in relation to the study of media.

- Graduates will be able to analyze the cultural, economic, political and technological factors that influence media production, reception and analysis.

Career Opportunities: Media industries are sources of ever-increasing opportunities for graduates. The Master of Advanced Study degree in film and media studies provides students with a set of valuable skills that lead to numerous employment opportunities in fields including education, academia, journalism, communications, research and media consulting. There is also more need for media studies experts in every major industry, with media presence being a requirement in today's society. Every industry and company has media departments with specialists in media policy, strategy, research, marketing, social media and branding.

Career examples include:

- archivist
- branding strategist
- educator
- media buyer
- media critic
- media industry journalist
- media researcher
- political media strategist
- producer
- public relations expert
- social media strategist
- teacher

French (Comparative Literature), MA (LAFRECLMA)

Online Degree Search Title: French Comparative Literature, MA

Campus: Tempe

This program is not currently accepting applications.

Program Description: The MA in French comparative literature provides students with an opportunity to develop an advanced knowledge of French and of Francophone and other world literatures, histories and major works. Students also develop a sound knowledge of the traditions, aims and methods of scholarly research in the field.

Degree Requirements:

30 credit hours including the required applied project course (FRE 593) and a written comprehensive exam.

Graduate students may take only 500-level courses for graduate credit. At least nine credit hours must be selected from those courses listed

exclusively for graduate students. The program must include:

- FRE 500 Research Methods (3)
- one course in linguistics and one course in linguistics, civilization or translation
- one course in critical or cultural theory

It is recommended that the candidate enroll in FRE 500 as early as possible.

A minimum of four core courses offered by the French section must be selected from any combination of the following categories:

- Francophone studies courses
- genre courses
- period courses

When approved by the graduate committee, up to six credit hours of related coursework may be taken outside of French.

A student must achieve a grade of "B" (scale is 4.00 = "A") or higher in all work specifically included in the plan of study. Grades below a "C" (2.00) cannot be used to meet the requirements of a graduate degree. No student may accumulate more than one incomplete at any one time.

Independent study courses are given only under exceptional circumstances and do not duplicate courses that are available. The French graduate committee is responsible for authorizing such work in cooperation with the individual professor. A maximum of three credit hours of independent study is permitted.

Students must complete an applied project.

The written examination for the concentration in comparative literature is administered by the interdepartmental committee for comparative literature and consists of two essay-based components: general concepts of comparative literature and problems of comparative literature.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in French from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The writing sample should represent the applicant's thinking as well as writing skills, and it should be written in French on a topic connected with the language or French culture. The writing sample should be approximately 5--10 pages in length.

Those who lack the appropriate background but who show strong potential and meet the Graduate College admission requirements may be admitted to a graduate program on a provisional basis, pending removal of specified deficiencies. These deficiencies must be addressed in addition to completion of the regular program of study for the master's degree.

Career Opportunities: Professionals with this degree can confidently move into academic, business and international fields. Skills developed through this program are valued for teaching positions, translation work or career opportunities in a larger sector, such as government, diplomacy and international business.

Career examples include positions as:

- area, ethnic and cultural studies teachers and professors
- editors
- foreign language and literature teachers and professors
- historians
- interpreters and translators

- lawyers
- reporters and correspondents
- social and community service managers

French (Linguistics), MA (LAFRELINMA)

Online Degree Search Title: French Linguistics, MA

Campus: Tempe

This program is not currently accepting applications.

Program Description: The MA in French linguistics provides students with the opportunity to develop an advanced knowledge of current linguistic theory as it applies to French as well as a sound grounding in the tools necessary to carry out linguistic research.

Degree Requirements:

30 credit hours including the required applied project course (FRE 593) and a written comprehensive exam.

The plan of study for the master's degree includes:

- an applied project
- a minimum of 30 credit hours of graduate-level work as approved by the candidate's supervisory committee
- a 500-level bibliography and research methods course offered by the department
- in some programs, six credit hours in another language or in closely related courses (when approved by the candidate's supervisory committee)

All candidates are required to pass a comprehensive written examination designed to evaluate the candidate's knowledge in the area of specialization. A reading list as agreed upon serves as a guide to prepare for this examination.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in French from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- three letters of recommendation
- proof of English proficiency

Gender Studies, PHD (LAGSTPHD)

Online Degree Search Title: Gender Studies, PhD

Campus: Tempe

The Gender Studies doctoral program accepts applications for incoming cohorts in odd years only. The next admit term is Fall 2025 (applications due in December 2024). Please contact sstgraduate@asu.edu (<mailto:sstgraduate@asu.edu>) with questions.

Program Description: The PhD program in gender studies is housed in the nation's first School of Social Transformation. The inclusive gender studies doctoral program empowers tomorrow's scholars and community leaders by immersing students in:

- creative and critical knowledge production
- deep fluency in feminist theory, methodology and praxis
- publicly engaged academic research

Courses in the gender studies program examine key topics related to gender. These include gendered dimensions of social structures, institutions and organizations; the ways in which policies and laws affect gender relations; the intersections of race, gender, sexualities and citizenship in a transnational world; historical and contemporary representations of gender across genres (e.g., popular culture; social media; scientific, medical, historical and legal discourse); and processes of social change, social movements and community development.

Students can choose to specialize in a wide variety of topic areas:

- activism and social movements
- BIPOC feminisms
- critical globalization and development studies
- critical refugee studies
- feminist social reproduction theory
- immigration and migration
- popular culture studies
- queer of color critique
- reproductive justice
- transnational feminisms

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (12 credit hours)

WST 601 Critical Concepts of Gender (3)

WST 602 Mapping the Intersections of Gender (3)

WST 603 Engendering Methodology (3)

WST 701 Research Design and Proposal Development in Gender Studies (3)

Elective Coursework in Methodology (6 credit hours)

Elective Coursework in Specialization (12 credit hours)

General Electives (30 credit hours)

Research (12 credit hours)

Dissertation (12 credit hours)

WST 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, they select 30 hours of elective coursework with academic unit approval to reach the required 84 credit hours.

Students should see the academic unit for a complete list of approved electives.

Students must maintain an average GPA of 3.50 (scale is 4.00 = "A") in their courses.

The gender studies doctoral program is designed to provide students with the transdisciplinary training in theory and methods needed to conduct original research and scholarship about gender. Thus, students also take two research methods courses relevant to their dissertation, chosen in consultation with their faculty advisor.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

The gender studies program welcomes applications from qualified students without regard to race, creed, color, religion, sex or national origin. Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official copies of all undergraduate and graduate transcripts
- resume or curriculum vitae
- statement of purpose
- three letters of reference, preferably from faculty or other researchers
- writing sample (10 to 15 pages)
- proof of English language proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Students should see the ASU Admission Services website for mailing addresses and further admission information.

For additional financial information, students should consult the tuition and aid (<https://tuition.asu.edu/>) website.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Integrate and apply the core theories of gender in the field of Women and Gender Studies.
- Examine and apply intersectionality as a foundational framework in the field of Women and Gender Studies.
- Evaluate and apply core methodologies in the field of Women and Gender Studies.

Career Opportunities: Graduates of the program have gone on to careers at universities, research and policy institutes, government organizations and nonprofit organizations.

Online Degree Search Title: Gender Studies (Graduate Certificate)

Campus: Tempe

Program Description: The graduate certificate program in gender studies offers graduate students the opportunity to enhance their advanced degrees with demonstrated proficiency in and knowledge about gender research and theories that they may apply in their own fields.

The certificate is pursued in tandem with any graduate degree program at ASU.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

WST 601 Critical Concepts of Gender (3)

WST 602 Mapping the Intersections of Gender (3)

Electives (9 credit hours)

Additional Curriculum Information

Elective courses may be chosen from other WST graduate courses or from more than 30 approved courses from other departments throughout the university. Other courses may also be used with the graduate director's approval.

Up to six credit hours not used for another ASU degree or certificate can be transferred from another university, with the graduate director's approval. Courses should be recorded on the transfer section of the student's interactive program of study.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The certificate is not offered as a stand-alone, certificate-only program. It is open only to degree-seeking students. However, up to nine credit hours of ASU nondegree credit can be transferred into the program for those who eventually gain admission into an ASU graduate degree program.

Students should see the program website for more information about the certificate and to design coursework.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Will gain an understanding of the key concepts, theoretical frameworks, interdisciplinary approaches and critical debates that have shaped the field of gender studies
- Will gain an understanding of theoretical concepts, metaphors and frameworks employed by feminist scholars to understand the way gender articulates with other categories of difference

Career Opportunities: Graduates of the program have gone on to careers at universities, research and policy institutes, government organizations and nonprofit organizations.

Gender, Women and Sexuality Studies, MA (LAWSTMA)

Online Degree Search Title: Gender, Women and Sexuality Studies, MA

Campus: Tempe, Online

Program Description: The MA program in gender, women and sexuality studies is designed for students who wish to gain research skills and knowledge about gender analysis and to apply those tools to real-world problems and solutions.

This flexible, 30 credit hour master's degree program provides advanced training in feminist research, theory and methodologies. All students must complete an applied project in which students conduct research that addresses practical, often site-specific problems linked to gender. Final projects may take a variety of forms, including program assessments, grant proposals, tests of new interventions or curricula, and so on. These projects may help lead students to careers in human services, public policy, education, nonprofits and other fields.

Full-time students can complete the degree program within two years, while part-time students take longer but can combine work with study.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Gender, Women and Sexuality Studies, BA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required applied project course (WST 593).

Required Core (6 credit hours)

WST 501 Foundations of Feminist Thought (3)

WST 502 Interdisciplinary Gender Research Methodologies (3)

Electives (18 credit hours)

Culminating Experience (6 credit hours)

WST 593 Applied Project (6)

Additional Curriculum Information

Students must successfully provide an oral defense of the applied project.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution. Students may be admitted with a BA or BS in any field as long as they have completed two courses in women and gender studies or have equivalent experience. Appropriate majors may include women, gender and sexuality studies; history; English; sociology; religious studies; social work; psychology; communication; or ethnic studies. Students who have previously majored in a science, technology, engineering or mathematics field and have interests in gender and education or gender and science may also apply for this program.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts from all colleges and universities where the applicant earned a bachelor's or master's degree
- personal statement
- resume or curriculum vitae
- writing sample
- two or three letters of recommendation
- relevant coursework
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The personal statement should be approximately 1,000 words and describe any prior research experience and training, professional goals and research interests, and the fit between interests and the program's emphases. The statement should be uploaded.

The writing sample should be 7-10 pages. This can include a research brief or report, a white paper, a policy paper or a paper for a recent academic course. The writing sample should reflect the applicant's writing ability and critical thinking skills.

The letters of recommendation should be from individuals who can describe the applicant's strengths and weaknesses as they relate to graduate study, and speak to the applicant's critical thinking, writing, speaking and presentation skills, intellectual ability, leadership potential, interpersonal skills and ability to work with others, or other relevant accomplishments that best highlight their ability to complete a graduate degree in gender, women and sexuality studies.

The list of relevant coursework should include at least two courses, undergraduate or graduate, the applicant has taken that focus on gender or women. In addition, the applicant should list any research methods or social justice courses.

Further details about application requirements and application deadlines are available on the School of Social Transformation's webpage.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-women-gender-sexuality-studies/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Will gain an understanding of and be able to apply the key concepts, theoretical frameworks, interdisciplinary approaches and critical debates that have shaped the field of gender studies
- Will gain an understanding of and learn to develop and conduct research through a feminist perspective
- Will demonstrate the ability to perform intersectional feminist analysis

Geographic Education, MAS (LAGEOEDMAS)

Online Degree Search Title: Geographic Education, MAS

Campus: Tempe, Online

ASU is not currently accepting applications for this program.

Program Description: The MAS program in geographic education provides teachers with the opportunity to obtain specialized experience in geographic pedagogy. The degree program is intended for K-12 teachers and is appropriate for both elementary and secondary school teachers.

Degree Requirements:

30 credit hours and an applied project.

Required Core (3 credit hours)

COE 501 Introduction to Research and Evaluation in Education (3)

Geography Coursework (24 credit hours)

Culminating Experience (3 credit hours)

DCI 593 Applied Project (3) or

SED 593 Applied Project (3)

Students should see the academic unit for an approved course list.

Students are required to have access to a computer with an Internet connection and the capability to view video and animated files with sound, access to email, and access to a word processing program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in education, geography or related area from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Letters of recommendation must be from three people who can attest to the applicant's academic and professional achievements. One letter must be from a former instructor.

Geographic Information Science, PHD (LAGISPHD)

Online Degree Search Title: Geographic Information Science, PhD

Campus: Tempe

Program Description: The PhD program in geographic information science fosters training of next generation scientists and engineers who will excel at theoretical, computational, analytical and technical knowledge in transdisciplinary geospatial sciences.

Students in this doctoral program have the opportunity to conduct research at the Spatial Analysis Research Center alongside world-renowned faculty specializing in remote sensing and earth observation, GIS, geoinformatics, spatial statistics and spatial-temporal analysis. Researchers are investigating a variety of issues, including voting habits, health crises, altering landscapes and more --- all in an attempt to better understand this complex and changing world.

The program has sufficient flexibility to allow for individual needs and interests, allowing students to create a plan of study that fits their personal, academic and professional goals.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (12 credit hours)

GCU 585 Geographic Research Design and Proposal Writing (3)

GIS 520 GIScience Issues and Debates (3)

GIS 521 Geographic Information Science Programming (3)

GIS 571 Spatial Statistics for Geography and Planning (3)

Electives or Research (55 credit hours)

Remote Sensing (3 credit hours)

Other Requirements (2 credit hours)

GCU 591 or GPH 591 Seminar: Geography Colloquium (2)

Culminating Experience (12 credit hours)

GIS 799 Dissertation (12)

Additional Curriculum Information

Students select electives, remote sensing and other requirements seminar coursework in consultation with their academic advisor.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in geography, geology, earth science, computer programming, GIS, environmental science, geomatics or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- written statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Letters of recommendation should be from academic professionals or professional colleagues capable of evaluating the applicant's abilities, accomplishments and professional potential.

The written statement must address the following questions:

- What area of specialization within GIS do you wish to pursue, and why?
- Describe the aspects of your education that will enable you to pursue this area of specialization.
- What additional training do you feel you can obtain at Arizona State University to realize your education and career goals?

Also in the written statement, applicants should provide any other information (for example: research experience or information which might be drawn from a resume) that they feel the committee should consider in the application for admission. The written statement should be no longer than two pages. A generic statement, often sent to multiple universities, does not substitute for a statement that addresses the applicant's reasons for applying to this doctoral program in geographic information science.

Career Opportunities: Professionals with expertise in geospatial information science research, theory and practice are in high demand across sectors and industries, including in institutions of higher education, consulting firms and government agencies. Skills in geographical data science, mapping and data analysis are valuable to businesses and institutions that rely on data-driven approaches to solve complex real-world problems.

Career examples include:

- computer scientist
- conservation scientist
- geoscientist
- geospatial information scientist or technologist
- geospatial intelligence analyst
- remote sensing scientist or technologist

Geographic Information Science (certificate), Certificate (LAGEOGISCE)

Online Degree Search Title: Geographic Information Science (Graduate Certificate)

Campus: Tempe

Program Description: Geographic information scientists have the ability to not only map out information but to provide a deeper understanding of the world and the human interactions in it. By combining the disciplines of computer science, statistics and geography, geographic information sciences, experts can help answer the questions of what, where, why and how in many areas of interest in many industries.

The geographic information sciences certificate program teaches students the theoretical aspects of GIS, the technical side of the discipline, and applications of the science. Students learn how to analyze policy problems and research questions from a spatial lens, acquire and analyze remotely sensed data, and model spatial phenomena.

Skills in geographic information science and geospatial data analytics offer students market-ready tools for turning novel sources of spatial data into informed practice and prepare students to address issues such as climate change, population growth and aging, and active transportation. The certificate program enables ASU graduate students from all disciplines and GIS professionals to learn the valuable skill of how to apply GIS concepts and technology to solve complex problems.

The certificate is intended as either a specialization within an existing master's degree or a stand-alone nondegree program for practicing professionals who previously earned a graduate degree.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

PAF 571 Geographic Information Systems (GIS) and Analysis (3) or

PUP 576 GIS Workshop (3)

Electives (6 credit hours)

Other Requirements (6 credit hours)

ABS 485 GIS in Natural Resources (3)

GIS 521 Geographic Information Science Programming (3)

GIS 561 Fundamentals of Spatial Optimization (3)

GIS 562 Location Analysis and Modeling (3)

GIS 563 Local Statistical Modeling (3)

GIS 571 Spatial Statistics for Geography and Planning (3)

GIS 591 Seminar: Data Mining and Data Driven Geography (3)

Additional Curriculum Information

Students select one of the required core courses for a total of three credit hours.

Two of the other requirement courses are selected from the list above for a total of six credit hours; other courses may be substituted with approval from the program director. The program recognizes that other graduate-level courses on GIS are offered at ASU. Advanced courses are often taught in omnibus courses, courses that have rotating content and whose content is not reflected in their titles. Students may include these courses in their certificate curriculum with approval of the program director.

Students select two three-credit hour elective courses for a total of six credit hours in consultation with the program director.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they are currently pursuing a master's degree at ASU or have earned a master's degree and are currently practicing professionals.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The personal statement must be a one-page letter describing the applicant's overall objective for the GIS certificate program. It should clearly state the applicant's interest in GIS and provide evidence that the certificate will enhance the applicant's education or current employment.

Currently practicing professionals must submit a final transcript from the institution granting their master's degree.

Career Opportunities: Professionals with expertise in geospatial information science are in high demand across sectors and industries, including consulting firms, government agencies and community organizations. Skills in geographical data science, mapping and geospatial analysis are valuable to businesses and institutions relying on data-driven approaches to solve complex real-world problems.

Geographic Information Systems, MAS (LAGISMAS)

Online Degree Search Title: Geographic Information Systems, MAS

Campus: Tempe

Program Description: The MAS in geographic information systems is a compact, one-year degree program fostering advanced study in the management and use of GIS technology in public and corporate environments. The degree program meets important educational needs of working professionals and recent college graduates seeking to improve their career standing. The program provides a comprehensive professional program that balances work in the theoretical and technical aspects of GIS with the applications domain. Students are exposed to innovative technology with a focus on building invaluable problem-solving skills, and the opportunity to work on real-world GIS projects.

The program places the focus on location --- the heart of geography and GIS. From that foundation, students learn advanced modeling solutions in GIS and Earth observing as well as how to integrate computer science, statistics and geography to address a multitude of questions.

Small class sizes ensure quality attention from the faculty, and classes are held in the evening during the week, allowing flexibility for the working professional.

The degree is achievable in one year. A new cohort begins the program each August, with students attending evening classes during the fall and spring semesters. Upon completion of the spring semester, students select a project to complete during a summer eight-week session. Final presentations take place in mid-July, and in fewer than 11 months the degree program is complete.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

30 credit hours including the required applied project course (GPH 693 or GIS 693).

Required Core (24 credit hours)

GIS 601 Introduction to Geographic Information Systems (2)

GIS 602 Intermediate GIS (2)
GIS 603 Spatial Statistics and Modeling (2)
GIS 604 Implementation in the Corporate and Public Sectors (2)
GIS 605 GIS Project Planning and Implementation (2)
GIS 606 GIS Project Presentation (2)
GIS 610 Programming the GIS Environment (3)
GIS 630 GIS Technologies (3)
GIS 640 GIS for Business (3)
GIS 650 GIS for the Internet (3)

Other Requirement (3 credit hours)
GIS 684 Internship (3)

Culminating Experience (3 credit hours)
GIS 693 Applied Project (3) or
GPH 693 Applied Project (3)

Additional Curriculum Information

Other requirement coursework may be substituted with approval of the academic unit.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in a related field from a regionally accredited institution or if they demonstrate a minimum of three years related professional experience with a bachelor's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Applicants must prepare a formal, written personal statement regarding relevant academic experience, professional experience and overall interest in GIS.

Letters of recommendation must be from two people who can attest to the applicant's academic and professional achievements. Letters can be from any combination of current or former instructors, supervisors or professionals currently employed within the GIS or related discipline.

Career Opportunities: Professionals with expertise in geospatial information science are in high demand across sectors and industries, including consulting firms, government agencies and community organizations. Skills in geographical data science, mapping and data analysis are valuable to businesses and institutions relying on data-driven approaches to solve complex real-world problems.

Graduates are prepared for careers in private and public industry, in which employees with these skill sets are needed for a wide range of positions, such as software developers, GIS analysts, mapping engineers, real estate researchers and more. Additional career examples include:

- cartographer or photogrammetrist
- geospatial information scientist or technologist
- geospatial intelligence analyst
- mapping technician
- remote sensing scientist or technologist
- software developer

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Geography, MA (LAGEOGMA)

Online Degree Search Title: Geography, MA

Campus: Tempe, Online

Program Description: The MA program in geography is designed to offer specialized academic and professional training in geography so students may secure a sound graduate background for further specialization or for immediate employment. The program has sufficient flexibility to allow for individual needs and interests, allowing students to create a plan of study that fits their personal and professional goals.

In addition to innovative coursework, the state-of-the-art research centers, Spatial Analysis Research Center and Urban Climate Research Center, offer students the opportunity to work with exceptional faculty on diverse research projects. Students have the opportunity to work alongside some of the brightest minds in geography, including four members of the National Academy of Sciences and rising talent in the fields of urban heat island research, GIS and more.

Students earning the Master of Arts in geography have the ability to build a path of knowledge that reflects their personal interests within the realms of geography. Students benefit from a wide variety of coursework and research opportunities in four broad interdisciplinary themes that span the expertise of the faculty within the School of Geographical Sciences and Urban Planning:

- computational spatial science
- earth systems and climate science
- place, identities and culture
- sustainability science and studies

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Geography, BA
Geography, BS
Geography (Meteorology-Climatology), BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required capstone course (GPH 597).

Required Core (3 credit hours)

GCU 585 Geographic Research Design and Proposal Writing (3) or

GCU 596 Geographic Research Methods (3)

Other Requirement (8 credit hours)

GCU 528 Geographic Problems and Context (3) or GCU 529 Contemporary Geographic Thought (3)

GCU 591 or GPH 591 Seminar: Geography Colloquium (1)

GCU 591 or GPH 591 Seminar: Geography Colloquium (1)

methods and statistics course (3)

Electives (13 or 16 credit hours)

Culminating Experience (3 or 6 credit hours)

GCU 599 Thesis (6) or GPH 599 Thesis (6)

GPH 597 Geography Capstone (3)

Additional Curriculum Information

Coursework and research hours are selected by the student in consultation with an advisory committee. The program recognizes that other graduate-level courses are offered at ASU. Advanced topics are often taught in omnibus courses, which have rotating content that is not reflected in their titles. Students may include these courses in their curriculum with approval of the program directors.

The other requirement course, Seminar: Geography Colloquium, is taken twice, once in each of the first two semesters of the program, for one credit hour each time. Other courses may be used with approval of academic unit. For the methods and statistics course requirement, students should consult with the academic unit for eligible courses.

Students take 13 credit hours of electives for the thesis culminating experience option and take 16 credit hours of electives for the non-thesis option.

Up to six credit hours of 400-level coursework may be applied toward the plan of study.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The personal statement must address three items:*

- What specialty in geography does the applicant wish to pursue, and why?
- What aspects of the applicant's education (a description is needed) will enable the student to pursue this specialty?
- What additional training does the applicant believe can be obtained at Arizona State University to realize the applicant's educational and career goals?

*Applicants also should provide any other information they feel should be considered in their application for admission, e.g., research experience or information which might be drawn from the applicant's resume.

Letters of recommendation must be from three faculty members who can attest to the applicant's academic achievements.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/geography-masters/>) for program descriptions and to request more information.

Career Opportunities: Professionals with expertise in geographical sciences research, theory and practice are in high demand across sectors and industries, including consulting firms, government agencies, community organizations and public and private research facilities. Skills in geographical data analysis, mapping and climate science are valuable to businesses and institutions relying on research-based approaches to solve complex real-world problems.

Some graduates of the program continue on to pursue doctoral degrees.

Career examples include:

- environmental scientist or specialist
- geographic information systems technician
- geological materials technician
- geophysical data technician
- geoscientist
- geospatial information scientist or technologist

- computational spatial science
- earth systems and climate science
- place, identities and culture
- sustainability science and studies

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

GCU 585 Geographic Research Design and Proposal Writing (3)

Electives or Research (43 credit hours)

Methods or Statistics Electives (6 credit hours)

Skills Electives (6 credit hours)

Specialization Electives (9 credit hours)

Other Requirement (5 credit hours)

GCU 529 Contemporary Geographic Thought (3)

GCU 591 or GPH 591 Seminar: Geography Colloquium (1)

GCU 591 or GPH 591 Seminar: Geography Colloquium (1)

Culminating Experience (12 credit hours)

GCU or GPH 799 Dissertation (12)

Additional Curriculum Information

Doctoral students entering with a bachelor's degree must complete 84 credit hours. These hours include 72 credit hours of coursework and research at ASU and 12 dissertation credit hours.

Doctoral students entering with a master's degree must complete 54 credit hours. These include 42 credit hours of combined coursework and research hours at ASU and 12 dissertation credit hours.

Coursework and research hours are selected by the student in consultation with an advisory committee. The program recognizes that other graduate-level courses are offered at ASU. Advanced courses are often taught in omnibus courses, courses that have rotating content and whose content is not reflected in their titles. Students may include these courses in their curriculum with approval of the program directors.

The other requirement course, Seminar: Geography Colloquium, is taken twice, once in each of the first two semesters of the program, for one credit hour each. Other courses may be used with approval of academic unit.

Up to six credit hours of 400-level coursework may be applied toward the plan of study.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Incoming students must demonstrate or attain competence in cartography and quantitative methods and complete other basic coursework that will enable them to pursue graduate studies in their area of specialization.

The personal statement must address four items:

- What specialty in geography does the applicant wish to pursue, and why?
- What aspects of the applicant's education (a description is needed) will enable the student to pursue this specialty?
- What additional training does the applicant believe can be obtained at Arizona State University to realize the applicant's educational and career goals?
- Applicants should provide any other information they feel should be considered in their application for admission, e.g., research experience or information which might be drawn from the applicant's resume.

Letters of recommendation must be from three faculty members who can attest to the applicant's academic achievements.

Geological Sciences, MS (LAGEOSCMS)

Online Degree Search Title: Geological Sciences, MS

Campus: Tempe

Program Description: The MS program in geological sciences is designed to provide fundamental graduate training in geology. Students are encouraged to cross subject boundaries and pursue new understandings of Earth and the solar system.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the
2024-25 Academic Catalog Archive

STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

30 credit hours and a thesis.

Required Core (1 credit hour)

SES 502 Exploring SESE Research (1)

Electives or Research (22 credit hours)

Other Requirements (1 credit hour)

SES 501 SESE Colloquium (1)

Culminating Experience (6 credit hours)

SES 599 Thesis (6)

Additional Curriculum Information

Substitutions for courses listed as Other Requirements may be made per department approval.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admissions application and application fee
- official transcripts
- statement of purpose
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Applicants should see the program website for application deadlines.

Career Opportunities: Graduates of the program are prepared for further graduate study or for careers in geochemistry, field geology, geomorphology, structure and tectonics, mineralogy and petrology, geophysics, planetary geology, hydrology, volcanology, Earth observation and remote sensing, and related areas, including geoscience education.

Professionals with expertise in geological sciences are in high demand across sectors and industries, including remote sensing, natural resource management, data science, economic geology (oil and mining industries), environmental consulting, hazard and risk assessment, geophysics and planetary science. Coding and numerical modeling skills translate across many domains, even beyond geosciences. Skills in the measurement and analysis of data related to the physics, chemistry and structures of the Earth and of planetary systems are valuable to businesses and institutions relying on data-driven strategies to interact with the planet and explore beyond the Earth.

Career examples include:

- data scientist
- environmental consultant
- GIS or mapping specialist
- materials analyst
- planetary scientist
- research geologist

Some students go on to doctoral programs in the field of geological sciences.

German, MA (LAGERMMA)

Online Degree Search Title: German, MA

Campus: Tempe

This program is not currently accepting applications.

Program Description: The MA program in German offers students professional training in German linguistic, literary and cultural studies through courses and supervision of research that culminate in an applied project or thesis.

In consultation with their advisor, students arrange their coursework around one of three focus areas: literature, comparative literature, or language and culture. The program is designed to equip students to become independent and creative professionals as they broaden their knowledge of Germany as one of the world's leading economies, cultural contributors and human rights advocates.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (GER 593).

The plan of study for the master's degree includes a minimum of 30 credit hours of graduate-level work and a thesis or an applied project, as approved by the candidate's supervisory committee. The program must include a 500-level bibliography and research methods course offered by the school. When approved by the candidate's supervisory committee, nine credit hours in another language or in closely related courses may be included in the program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in German from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume or curriculum vitae
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Those who lack a degree in a related field but who show strong potential and meet the Graduate College admission requirements may be admitted to a graduate program on a provisional basis, pending removal of specified deficiencies. These deficiencies must be completed in addition to the regular program of study for the master's degree.

The writing sample should represent the applicant's thinking as well as their writing skills, and it should be written in German on a topic pertaining to the German language or culture.

Career Opportunities: Professionals with the valued skills they developed in this degree program can confidently move into academic, business, diplomatic, government and international fields.

Career examples include:

- area, ethnic and cultural studies teachers and professors
- foreign language and literature teachers and professors
- historians
- interpreters and translators
- lawyers
- reporters and correspondents
- social and community service managers

Global Health, MA (LASSHMA)

Online Degree Search Title: Global Health, MA

Campus: Tempe

Program Description: In this MA program, global health is considered to be much more than, and very different from, international public health. It emphasizes that major health challenges stem from many factors well beyond disease itself --- factors that are cultural, ecological, evolutionary, historical, institutional, social and technological.

Any effective, sustainable solutions to the most pressing global health challenges need to take all these factors into account, including the complex ways in which they relate to each other. In this manner, this degree program teaches students to understand health challenges not simply as a product of disease, but as emerging in the contexts of complex and interrelated ecology, politics, history, culture, social institutions and evolutionary biology. It also places primacy on how to address the broader bases of ill health (i.e., structural, cultural) in complicated, ever-changing health challenges in low-resource community settings and a globalizing world. To do this, the program combines social and life science theories with on-the-ground research and its application. There is a strong emphasis on collaborative action as key to identifying and addressing global health problems in a sustainable and meaningful way.

Students accepted to the program are tied to ongoing transdisciplinary global health projects that address complicated, multifaceted health challenges that defy easy fixes, such as climate change-related diseases, emerging infectious diseases and obesity.

By applying a collaborative, problem-solving format, the master's degree program in global health is intended to provide those planning to enter health or related fields (i.e., environmental, social) with the transdisciplinary orientation, team skills and social and cultural acuity that the Pew Health Professions Commission, among others, has identified as critical but lacking in current health workforce training. The program also emphasizes experiential learning as a way to gain mastery and requires participation in a global internship program based in one of the international partnering communities.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Health, BA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required applied project course (SSH 593).

Required Core (3 credit hours)

ASB 510 Health: Social and Biocultural Theories (3)

Open Electives (6 credit hours)

Restricted Electives (6 credit hours)

ASB 580 Practicum (1-6)

ASB 583 Fieldwork (1-6)

ASB 584 Internship (1-6)

Other Requirements (9 credit hours)

ASB 500 Ethnographic Research Methods (3)

ASB 503 Medical Anthropology (3)

SSH 591 Seminar: Principles of Epidemiology for Global Health (3)

Culminating Experience (6 credit hours)

SSH 593 Applied Project (6)

Additional Curriculum Information

For restricted electives, students complete at least six credit hours from the list above.

Substitutions may be permitted by the graduate director for other requirement and restricted elective coursework. Additional methods-focused courses or graduate-level epidemiology courses can count toward these requirements.

Applied projects are completed in consultation with a faculty advisor. Students may use the fieldwork, internship or practicum experience as part of the research for the applied project.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned, from a regionally accredited institution, a bachelor's or master's degree in the social or life sciences (i.e., anthropology, sociology, gender studies, geography, political science, or public health or related fields, such as nutrition or human biology).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Applicants may submit with their application materials an optional scholarly writing sample, not to exceed 30 double-spaced pages.

Admission is competitive and based on student academic excellence, additional relevant experience, and fit with available faculty. Value is placed on foreign language skills; practical, cross-cultural and international experiences; and prior social science and life science research.

Career Opportunities: Nationally and internationally, the health field provides enormous and varied career opportunities, and demand is high and growing for graduates with specific skills. The program supports the goals of those pursuing careers in academic research teaching and health services. Sample employment venues include:

- government agencies
- health departments
- international agencies (World Health Organization, Centers for Disease Control and Prevention, Global Health Council, World Bank, Inter-American Development Bank)
- nongovernmental organizations
- private sector entities
- universities

The degree program also provides a broad intellectual base for those who plan advanced specialist health training in fields such as:

- dentistry
- medicine
- nursing

- pharmacy

In Arizona and elsewhere, there is a pressing need for appropriately skilled professionals to work in cross-cultural settings or with underserved populations such as migrants, minorities and those living in poverty, and many of these jobs are directly or indirectly related to health.

Global Health, MS (LASSHMS)

Online Degree Search Title: Global Health, MS

Campus: Online

Program Description: The MS program in global health in the School of Human Evolution and Social Change exposes students to a comprehensive understanding of the factors that lead to morbidity around the world, including ecological, political, cultural, institutional, historical, evolutionary, social and technological factors. This program equips students with the necessary skills to create effective, sustainable and culturally appropriate approaches to prevent, assess and mitigate disease as well as to critically assess the work of others in their professional environments.

The program helps learners to cultivate professional practice through focus on application of technical knowledge into professional settings by integrating recognized global health competencies.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Anthropology, BA
- Anthropology, BS
- Global Health, BA
- Global Health, BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours and a portfolio.

Required Core (6 credit hours)

ASB 504 Global Health Policy (3)

ASM 503 Evolutionary Medicine and Global Health (3)

Restricted Electives (9 credit hours)

ASB 455 Practicum for Social Sciences (3)

ASB 462 Medical Anthropology: Culture and Health (3)

ASB 526 Survey Topics in Global Nutrition (3)

ASB 548 Maternal and Child Health (3)

ASB 598 Topic: Reproductive Ecology (3)

Electives or Research (12 credit hours)

Other Requirement (3 credit hours)

ASB 584 Internship (3)

Culminating Experience (0 credit hours)

portfolio (0)

Additional Curriculum Information

For restricted electives, students complete at least nine credit hours from the list above.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- written statement
- three letters of recommendation
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Students who have graduated from programs in anthropology, biology, public health, applied mathematics, statistics, or in a related social science degree may be particularly well positioned for this program. Applicants with previous degrees in other fields should address in the written statement how their previous studies have prepared them for this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/masters-global-health-ms/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Articulate strategies to address the social, economic, and environmental determinants of health.
- Appraise the strength of evidence for shaping policy and programmatic decisions.
- Apply the standards of professional practice and ethics to their collaboration with partners and stakeholders during their applied global health internship in a domestic or international setting.

Career Opportunities: Nationally and internationally, the health field provides varied career opportunities, and demand is growing for graduates with specific skills. The program supports the goals of those pursuing careers in academic research, programming, teaching and policy. Sample employment venues include:

- data analyst
- learning specialist
- program manager
- research associate
- technical advisor

Global Health, PHD (LASSHPHD)

Online Degree Search Title: Global Health, PhD

Campus: Tempe

Program Description: The PhD in global health draws on the premise that sustainable and satisfying solutions to the most pressing global health challenges require a sophisticated understanding of how cultural context, social and ecological processes and disease are really related.

This transdisciplinary graduate program trains students broadly in cutting-edge health social science research theory and methods. The program leverages the strength of ASU's medical anthropology programming and 15 medical anthropologists, and it has the advantage of accessing an exceptionally wide set of skills offered by those in such fields as medical sociology, demography, human geography and epidemiology.

Some particular thematic foci of the program are biocultural approaches to human coping, computer-based complexity modeling, culture and health, health in the Americas, and Indigenous and minority health, as well as mathematical epidemiology, nutritional anthropology, social justice and vulnerable populations, social networks, and urban and environmental health.

The program draws some 80 faculty members from throughout the university to consider how cutting-edge social science can be applied to understand and substantively improve the health of populations. The program favors community-based research in communities of all sizes and types, from hunter-gatherer communities to large U.S. cities, and runs collaborative projects in which students are encouraged to gain experience and conduct research.

Students generally enter the program with a master's degree in a relevant field.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

ASB 510 Health: Social and Biocultural Theories (3)

Electives (39 credit hours)

Other Requirements (18 credit hours)

ASB 500 Research Methods (3)

ASB 501 Professionalism (3)

ASM 579 Proposal Writing (3)

SSH 591 Topic: Principles of Epidemiology for Global Health (3)

systematic methods courses (6)

Research (12 credit hours)

ASB 792 Research (12)

Culminating Experience (12 credit hours)

ASB 799 Dissertation (12)

Additional Curriculum Information

For electives, students should see the academic unit for a course list approved by the chair.

Other requirement coursework may be substituted with the approval of the academic unit. At least two systematic methods courses in an area other than epidemiology or biostatistics and ethnography should be selected, such as nutrition, survey, archival analysis, demography or geographic information systems.

When approved by the student's supervisory committee and the Graduate College, this program may allow up to 30 credit hours from a previously awarded master's degree to be used for this program. If students do not have a previously awarded master's degree, the remaining coursework is made up of electives.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Suitable backgrounds for admission include a master's degree in the social sciences (e.g., anthropology or sociology), public health, human biology or related fields. Students who enter directly from a bachelor's degree program should have completed at least 15 credit hours of social science and six credit hours of human biology or equivalent at the senior level and should have some background in statistics or epidemiology.

Applicants may submit with their application materials an optional scholarly writing sample, not to exceed 30 double-spaced pages.

Career Opportunities: Nationally and internationally, the health field provides enormous and varied career opportunities, and demand is high and growing for graduates with specific skills. The program supports the goals of those pursuing careers in academic research teaching and health services. Sample employment venues include:

- health departments
- government agencies
- international agencies (World Health Organization, Centers for Disease Control and Prevention, Global Health Council, World Bank, Inter-American Development Bank)
- nongovernmental organizations
- private sector
- universities

The degree program also provides a broad intellectual base for those who plan advanced specialist health training in fields such as:

- dentistry
- medicine
- nursing
- pharmacy

In Arizona and elsewhere, there is a pressing need for professionals with appropriate skills to work in cross-cultural settings or with underserved populations, such as migrants, minorities and those living in poverty, and many of these jobs are directly or indirectly related to health.

Global Security, MA (LAGSCMA)

Online Degree Search Title: Global Security, MA

Campus: Online

Program Description: The MA in global security is an interdisciplinary, fully online program designed to aid professional advancement in government, military, nonprofit and private sector careers. Students are trained to critically engage international security issues in a comprehensive manner.

The Master of Arts program in global security is based on four key pillars: enabling innovative strategic thinking, developing analytic tools, supporting critical interdisciplinary engagement, and encouraging flexible and resilient approaches to the inherently complex challenges of current and future global security.

Students may pursue the master's degree from anywhere in the world, study while working full time or part time and may advance at their own pace.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Global Studies, BA
- Political Science, BS
- Political Science, BA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required capstone course (GSC 550).
Required Core (3 credit hours)
GSC 501 War, Conflict and Security (3)

Electives or Research (24 credit hours)

Culminating Experience (3 credit hours)

GSC 550 Capstone (3)

Additional Curriculum Information

For electives, students take eight courses from a restricted list for a total of 24 credit hours. Students should contact the academic unit for the approved course list. Other coursework may be used with approval of the academic unit.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- letters of recommendation
- resume or curriculum vitae
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Applicants must submit at least one letter of recommendation for admission. Applicants may submit additional letters.

The application requires a two- to three-page personal statement.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-global-security/>) for program descriptions and to request more information.

Global Opportunities:

PLuS Alliance: The PLuS Alliance partnership combines the strengths of three leading research universities from three continents --- Arizona State University, King's College London and UNSW Sydney --- to create and share knowledge that will solve pressing educational and societal challenges.

Students have the opportunity to collaborate with peers and specialists across the globe through PLuS-partner courses offered online. Through this PLuS Alliance collaboration degree program, students develop transferable global competencies and gain exposure to international teaching and academic content. <https://www.plusalliance.org/global-learning-network-programmes> (<https://www.plusalliance.org/global-learning-network-programmes>)

Career Opportunities: Graduates possess a grounded and relevant understanding of major global trends and critical analytic skills, improving their capacity to succeed in multiple career paths related to domestic and international security.

Career area examples include:

- conflict zone and post-war reconstruction
- consulting
- global security intelligence (public and private sector)
- humanitarian and human rights
- policy analysis
- regional affairs
- risk assessment (public and private sector)
- U.S. military advancement

Global Security (Cybersecurity), MA (LAGSCSECMA)

Online Degree Search Title: Global Security (Cybersecurity), MA

Campus: Online

Program Description: The cybersecurity concentration is a unique element within the MA program in global security, engaging cyber issues from an interdisciplinary perspective with a focus on global security.

This nontechnical program provides students with relevant and continually updated understanding of the complex risks, threats and modes of protection and response associated with cybersecurity. This program is more theoretical in nature and uses practical, relevant examples. Students may progress at a variety of paces and can pursue the degree while working full time or part time.

The Master of Arts program in global security with a concentration in cybersecurity prepares students for a rapidly expanding field, with a focus on the complex relationship between cybersecurity and global politics. Students learn from top faculty, including global thought leaders, seasoned scholars and skilled practitioners. Classes integrate case studies, policy exercises and critical thinking to prepare students for career advancement.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Global Studies, BA
Political Science, BA
Political Science, BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required capstone course (GSC 550).

Required Core (3 credit hours)

GSC 501 War, Conflict and Security (3)

Concentration (12 credit hours)

GSC 560 Overview of Cybersecurity (3)

GSC 561 Cybersecurity Threats and Trends (3)

GSC 562 Cybersecurity, Global Politics and Resiliency (3)

GSC 563 Cybersecurity Planning and Strategy (3)

Electives or Research (12 credit hours)

Culminating Experience (3 credit hours)

GSC 550 Capstone (3)

Additional Curriculum Information

For electives, students take coursework from a restricted list, for a total of 12 credit hours. Students should contact the academic unit for the approved course list. Other coursework may be used with approval of the academic unit.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee

- official transcripts
- personal statement
- curriculum vitae or resume
- one letter of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Global Security (Irregular Warfare), MA (LAGSCIWMA)

Online Degree Search Title: Global Security (Irregular Warfare), MA

Campus: Online

Program Description: The irregular warfare concentration allows students in the MA program in global security to focus their studies on components of irregular warfare, including proxy wars, counterinsurgency, narrative warfare and other features of modern conflict. Students learn from top faculty, including international leaders in the field, seasoned scholars and skilled practitioners.

The courses in this program provide students with a relevant and continually updated understanding of the increasingly important role played by irregular warfare in the complex and competitive global security environment. This program balances the theoretical and practical aspects of irregular warfare through rigorous scholarly work with historical and contemporary case studies, and classes integrate case studies, policy exercises and critical thinking to prepare students for career advancement.

Students progress at their own pace; the program can be completed in one year or a six-year period. Students may pursue the degree while working full-time or part-time.

Global Security and Competitive Statecraft (Certificate), Certificate (LAGSCSGRCT)

Online Degree Search Title: Global Security and Competitive Statecraft (Graduate Certificate)

Campus: Online

Program Description: The certificate in global security and competitive statecraft is an interdisciplinary program where students are trained to critically engage contemporary international security issues in a comprehensive manner.

The program is based on four key pillars: enabling innovative strategic thinking, developing analytic tools, supporting critical interdisciplinary engagement, and encouraging flexible and resilient approaches to the inherently complex challenges of current and future global security.

Program faculty have extensive experience as practitioners in the field of security and foreign policy. They bring their deep understanding of the issues to rigorous and interesting coursework that allows students to develop a sophisticated understanding of the complex global, political environment in which political actors compete.

Students may pursue the certificate from anywhere in the world, study while working full time or part time, and they may advance at their own pace.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

GSC 512 Global Trends (3)

Restricted Electives (12 credit hours)

GSC 503 Future of War (3)

GSC 509 Emerging Technologies and Global Security (3)

GSC 561 Cybersecurity Threats and Trends (3)

GSC 598 Special Topics (3)

IAL 504 U.S. Diplomacy in Action: The Embassy Country Team (3)

IAL 505 Key Issues in Today's Global Economy (3)

Additional Curriculum Information

For restricted electives, students take four courses from the restricted list for a total of 12 credit hours. Students should contact the academic unit for eligible GSC 598 topics. Other GSC and IAL courses may be used with approval of the academic unit.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- one letter of recommendation
- personal statement
- professional resume

- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Applicants must submit at least one letter of recommendation for admission. Applicants may submit additional letters.

The application requires a one- to three-page personal statement.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/graduate-global-security-certificate/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Formulate a position on a contemporary global security issue that acknowledges the complexity and diversity of security challenges, highlighting the need for flexible and resilient strategies.
- Critically analyze contemporary trends and how they impact the global security environment.

Career Opportunities: This certificate is designed to aid professional advancement in government, military, nonprofit and private sector careers.

Graduates have achieved timely and authoritative practitioner insights into the complexity of the contemporary global security environment. They also have developed critical analytic skills, improving their capacity to succeed in multiple career paths related to domestic and international security.

Career area examples include:

- global security strategist (public and private sector)
- intelligence and risk assessment analyst (public and private sector)
- policy analyst
- security consultant

History, MA (LAHISTMA)

Online Degree Search Title: History, MA

Campus: Tempe, Online

Program Description: ASU's MA program in history combines classes taught by ASU's distinguished faculty in an online or in-person environment with an emphasis on the development of analytical and communication skills. It offers dynamic content that deepens students' knowledge of history while developing their core competencies, which are applicable in a variety of settings. Students graduate from the program with an enhanced ability in finding and analyzing information, planning and organizing projects, and writing and speaking effectively.

The Master of Arts program in history offers studies in North American, European, public and global comparative history, and it provides students with opportunities for professional development through colloquia, internship experiences and conference attendance.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

History, BA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply

(<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (HST 593), or 30 credit hours including the required capstone course (HST 597).

Required Core (6 credit hours)

HST 640 Historical Methods (3)

Pick one from the following:

HST 502 Public History Methodology (3)

HST 641 North American History (3)

HST 643 Global History (3)

Electives (12 credit hours)

Other Requirements (6 or 9 credit hours)

HST 500 Research Methods (3) and

HST 598 Special Topics (3) or

HST 500 Research Methods (3) and

HST 591 Seminar (3) and

HST 598 Special Topics (3)

Culminating Experience (3 or 6 credit hours)

HST 593 Applied Project (3) or

HST 597 Capstone (3) or

HST 599 Thesis (6)

Additional Curriculum Information

There are two options for the master's degree program in history: the thesis option (for in-person students only) and the nonthesis option. The thesis option requires 30 total credit hours of coursework, including six credit hours of HST 599 Thesis, three credit hours of HST 500 Research Methods, three credit hours of HST 598 Special Topics and 18 credit hours of coursework. The nonthesis option requires 30 total credit hours, including three credit hours of HST 593 Applied Project or HST 597 Capstone, three credit hours of HST 500 Research Methods, three credit hours of HST 591 Seminar, three credit hours of HST 598 Special Topics and an additional 18 credit hours of coursework.

For elective coursework, students should refer to the unit for a list of approved courses.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program. The most competitive applicants have a GPA of 3.30 or higher.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- writing sample
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency. The history program requires a TOEFL iBT score of at least 90.

All applications are reviewed by multiple ASU faculty members and assessed holistically to determine if they demonstrate the capacity to succeed in a rigorous and writing-intensive graduate program. This decision is made on the basis of prior coursework in history and other social sciences, the quality of the writing sample, the statement of purpose and the letters of recommendation. Prior coursework in history is not a requirement, but in such cases, applicants should have a strong writing sample that demonstrates their ability to engage in historical analysis. In cases where applicants do not have a suitable writing sample or demonstration of past success in historical coursework, they are encouraged to take one or two

classes as a nondegree-seeking student and then apply.

Applicants are required to provide a minimum of two professional letters of recommendation, but a maximum of three letters of recommendation may be included. Recommenders should be faculty members familiar with the applicant's academic abilities but may also be work supervisors who are able to speak to the applicant's ability to succeed in a graduate program.

The statement of purpose, about 500 words in length, should be addressed to the history admission committee and should explain the applicant's scholarly background and training, career goals, the primary field the applicant wishes to pursue, and why the applicant wants to pursue graduate study at ASU. It is not necessary to specify a research topic, but if an applicant has one in mind, they should include it in the statement of purpose.

The writing sample may be an article (published or unpublished), a research paper or any other extended sample of expository writing no longer than 35 pages in length. Longer writing samples should not be submitted without first consulting the graduate director. Documents and files should not be password protected. Acceptable file types are .rtf, .pdf and .doc.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-history/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will gain proficiency in historical methods and demonstrate nuanced understanding of different historical lenses and interpretive frameworks.
- Students will be able to conduct and defend original historical research.
- Students will demonstrate successful attainment of program goals in research and historiography.

Career Opportunities: Graduates will have acquired advanced historical thinking skills as well as other skills employers consistently identify as highly valuable, including effective oral and written communication, critical thinking and problem-solving.

Graduates possess the fundamental training needed for careers in research, teaching, public history, government service and a host of other positions in the public, private and nonprofit sectors. They serve as first-rate historians, highly qualified teachers at the elementary and secondary levels and community colleges, researchers and consultants, archivists, foreign service officers, management professionals, community organizers and public servants.

Other career examples include:

- business executive
- college instructor
- diplomat
- editorial and publishing professional
- museum director and staff
- nonprofit director
- research professional
- teacher

History, PHD (LAHISTPHD)

Online Degree Search Title: History, PhD

Campus: Tempe

Program Description: The PhD program in history offers outstanding opportunities for graduate study in North American, European, public and global-comparative history.

The School of Historical, Philosophical and Religious Studies' world-class faculty members deliver courses and individualized mentoring in a wide range of historical topics, such as urban history, environment and sustainability studies, politics and policy, immigration, gender, race and ethnicity,

and comparative history. In addition, doctoral history students are strongly encouraged to take advantage of the numerous collaborative opportunities that exist throughout the university in ASU's many innovative schools and centers.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (16 credit hours)

HST 502 Public History Methodology (3)

HST 640 Historical Methods (3)

HST 641 North American History (3)

HST 643 Global History (3)

HST 644 Area Studies in History (3)

HST 682 Advanced Research Skill (1)

Electives and Research (44 credit hours)

Other Requirement (12 credit hours)

HST 591 Seminar (6)

HST 792 Research (6)

Culminating Experience (12 credit hours)

HST 799 Dissertation (12)

Additional Curriculum Information

In general, all credit hours must be at the 500 level or above. Graduate credit may be awarded for 400-level courses; it must be approved in advance and documented in the student's file.

The doctoral program requires a minimum of 84 credit hours and may be completed in four to five years. Students with a master's degree may apply 30 credit hours toward the 84 required credit hours with approval of the academic unit and the Graduate College. If the student does not already have a master's degree in a related field, then the remaining 30 credit hours are made up of electives and research to reach the 84 credit hours required for the doctoral program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program. The most competitive applicants have a GPA of 3.30 or higher.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency. The history program requires a TOEFL iBT score of at least 90. A student whose native language is not English also must submit a copy of an article or research paper in the student's native or principal research language in addition to the English writing sample required of all students.

Students are required to submit a minimum of three email addresses of faculty or others qualified to speak to the student's suitability for graduate study in history. Letters of reference should be submitted by the recommenders in addition to the electronic reference form they are asked to complete.

The statement of purpose is to be addressed to the history admission committee and should explain the applicant's scholarly background and training, career goals, the primary field the applicant wishes to pursue, the proposed research specialization, and why the applicant wants to pursue graduate study at ASU; it should be about 500 words in length.

The writing sample, either published or unpublished, may be an article, a research paper, or any other extended sample of expository skill, and it

must be no longer than 35 pages in length. Longer writing samples should not be submitted without first consulting the graduate director. Documents and files should not be password protected. Acceptable file types are .rtf, .pdf and .doc.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate mastery of three domains of historical knowledge as well as display expertise in their proposed topic of study
- Accomplish meaningful contributions to the profession through accepted publications and presentations
- Identify and complete applications for funding opportunities that can support their research

Career Opportunities: Graduates possess the foundational skills in research, writing, and communication and fundamental training needed for careers in research, archival work, higher education, teaching, public history, government service, and a host of other areas in the public, private and nonprofit sectors.

They serve as first-rate historians, highly qualified instructors at two-year schools and universities, researchers and consultants for business and government, archivists, foreign service officers, management professionals, community organizers and public servants. Other career examples include:

- archivist
- diplomat
- editorial and publishing professional
- K-12 school teacher
- museum director and staff
- nonprofit director
- university professor

History and Philosophy of Science, PHD (LAHPSCIPHD)

Online Degree Search Title: History and Philosophy of Science, PhD

Campus: Tempe

Program Description: The history and philosophy of science is an interdisciplinary field that traces its origin to foundational works such as Thomas Kuhn's "Structure of Scientific Revolutions." The field is based on the idea that the best way to understand science is to study how it changes over time, along with careful analysis of its concepts and fundamental principles.

The PhD program in history and philosophy of science combines training in the core areas of history and philosophy of science with an emphasis on interdisciplinary studies of the sciences, including:

- computational history and philosophy of science
- foundations of evolutionary theory
- general philosophy of science and epistemology
- history and philosophy of applied ethics and science policy
- history of 19th and 20th century biology

The program is especially appropriate for students with an undergraduate or master's degree in philosophy, history, or the sciences and for those who seek to broaden their disciplinary studies. Science students who have not taken relevant undergraduate humanistic core courses can make up these courses during their first years in the program.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

HPS 615 Biology and Society Lab (3)

HPS 620 Research Prospectus Writing (3)

Restricted Program Electives (30 credit hours)

Program Electives (24 credit hours)

Research (12 credit hours)

HPS 792 Research (12)

Dissertation (12 credit hours)

HPS 799 Dissertation (12)

Additional Curriculum Information

An individual student program is developed in consultation with the student's advisor and committee.

HPS 615 Biology and Society Lab is a one-credit-hour course focused on student presentations of works in progress. Students must register for it three times during their graduate study.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution of recognized standing in a related field such as history, philosophy, or history and philosophy of science, as well as a demonstrated background and interest in one or more sciences.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Able to articulate an understanding of current literature on scientific developments and their relevance to society in scholarly writing.
- Able to contribute to original history and philosophy of science research in scholarly writing.
- Able to communicate history and philosophy of science research results in presentations.

Career Opportunities: A doctorate in history and philosophy of science provides strong preparation for academic careers at every level from community colleges to research universities, including research, teaching and administration, and science communication. The skills and knowledge obtained in this program are also valuable for government careers in federal and state agencies responsible for management and conservation, and for careers in industry and nongovernmental organizations.

Career examples include:

- food, agriculture and health care scientists in academic, private and industrial labs
- principal investigators and policymakers in government labs and nonprofit organizations
- professors or instructors in universities and colleges
- science teachers in elementary and high schools
- wildlife, animal and conservation scientists

LSA 181

sols.grad@asu.edu

Holocaust and Genocide Studies (Certificate), Certificate (LAHGSGRCT)

Online Degree Search Title: Holocaust and Genocide Studies (Graduate Certificate)

Campus: Online

Program Description: The graduate certificate in Holocaust and genocide studies recognizes the importance of studying the Holocaust and other acts of genocide in order to give students the necessary contextualization to educate others while offering ideas about representation, memorialization and commemoration. The certificate provides graduate students with the theoretical and historiographical grounding for understanding the Holocaust as a watershed event and using it as a lens to examine other genocides in world history. Students analyze these acts in research seminars and engage in interdisciplinary explorations of genocides and their representations in society, examining oral histories and material culture.

The program also allows students to engage in experiential opportunities at public-facing organizations dedicated to Holocaust and genocide awareness and education.

Degree Requirements:

18 credit hours.

Required Core (3 credit hours)

HST 570 Readings in Holocaust and Genocide Studies (3)

Other Requirements (3 credit hours)

HST 571 Holocaust: Collaboration and Resistance (3) or

HST 454 History of Genocide (3) or

HST 598 Topic: Holocaust, War and German Memory (3)

Electives (12 credit hours)

Additional Curriculum Information

Courses in other requirements can be replaced with advisor approval. Students should see the unit for an approved list of elective topics.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admissions application and application fee
- official transcripts
- personal statement
- professional resume
- written statement
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of current residency.

The personal statement should be about 500 words in length, be addressed to the admission committee, and explain the applicant's educational background and training, career goals, familiarity with the study of the Holocaust and other genocides, and detail why the applicant is pursuing the certificate.

For the written statement, applicants will be prompted to write a short response (500--800 words) to a question related to the study of genocide. This response will serve to demonstrate to the committee a student's writing ability and potential for thoughtful participation in graduate coursework.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/holocaust-genocide-studies/>) for program descriptions and to request more information.

Global Opportunities:

Global Experience: Study abroad (<https://goglobal.asu.edu/students/graduate-students>) is an option for graduate students. There are more than 50

program opportunities, with programs on every continent. Faculty-directed programs tend to be the best fit for graduate students; taking courses with ASU professors over the summer or during academic breaks offers students close mentorship and professional network growth in many fields of study while they earn ASU credit. Exchange program participation is also possible with careful planning. These study abroad courses will be elective options for students.

The Holocaust and genocide studies certificate program offers a professional experience elective that takes place abroad. Students need to consult with the academic unit directly for more information about this professional experience option.

Career Opportunities: Graduates are prepared with the training needed for careers in education, research, teaching, government service, public history and a host of other positions in the public, private and nonprofit sectors. They serve as first-rate historians, researchers and consultants, foreign service officers, management professionals, community organizers and public servants.

Other career examples include:

- archivist
- collections manager
- college instructor
- editor
- museum coordinator
- national parks historian and park ranger
- nonprofit director
- teacher

Immigration Studies (certificate), Certificate (LAIMMSTUCE)

Online Degree Search Title: Immigration Studies (Graduate Certificate)

Campus: Tempe

Program Description: The graduate certificate program in immigration studies provides students with a holistic understanding of the historical, current and long-term causes and consequences of international migration as well as relevant professional and research training opportunities.

The objective of the certificate program is to offer traditional academic training through coursework, research and the practical experience of working with local immigrant and refugee communities.

Degree Requirements:

15 credit hours.

All students are required to take one core course, three approved elective courses on immigration, and three credit hours of a culminating experience (either an internship or a research project). Students are to contact the school for a list of approved courses.

Students may do an internship with Phoenix-based, nongovernmental organizations or government agencies that provide services to immigrants and refugees. Such internships give students professional training and actual experience working with immigrant and refugee communities. Students are required to write a report describing the organization and their experience as interns.

Students may enroll in three credit hours of research with a faculty member in order to do an independent research project. They must write a substantial research paper based on field research in a local immigrant community, on library and archival research or on readings on an immigration topic.

Certificate students may choose to specialize in humanities, Mexican and Latino immigrants in the U.S., or social sciences.

Given the nature of the immigration courses offered at ASU and the preponderance of Latino immigrant communities in the Phoenix area, the program emphasizes Latino immigration. However, students have the opportunity to take broader courses focusing on global migration and other immigrant groups as well as work with local Asian or Southeast Asian immigrants and refugee communities.

For students currently enrolled in an ASU graduate degree program, applicable certificate courses may count toward their degree program with the approval and consent of the degree granting program. For certificate students who are later admitted to an ASU graduate degree program, up to 12 credit hours from the certificate program may count toward their doctoral degree or up to 12 credit hours may count toward their master's degree, with the approval and consent of the degree-granting program.

All requirements for the certificate program should be completed within a three year time limit with a minimum cumulative GPA of 3.00 (scale is 4.00 = "A"). Students who require more time to finish the program, because of their part-time status or lack of desirable or available courses, must obtain approval from the executive committee.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- one letter of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants may submit an optional scholarly writing sample with their application materials; the sample is not to exceed 30 double-spaced pages.

Career Opportunities: The demand in the job market is high for researchers and analysts with keen thinking skills who can manage, evaluate and interpret large amounts of data on human thought and human behavior.

Graduates are prepared for future study in graduate and professional schools or for careers as immigration practitioners and advocates in local and federal government agencies and private and public institutions serving immigrant and refugee communities.

Some career opportunities include:

- acting as legal advocates in international cases
- analyzing and proposing policies
- conducting postgraduate academic research
- consulting for private and public organizations
- directing nonprofit organizations
- directing programs in the private or public sector

Indigenous Education, MA (LAIEDMA)

Online Degree Search Title: Indigenous Education, MA

Campus: Online

Program Description: The online MA program in Indigenous education provides students with advanced training in research, theory and practice related to Indigenous education and policy, as well as the process of schooling. The program includes Native American- and Native Hawaiian-focused tracks. The main audiences for this degree are those working with Indigenous students and those working for Native American and Native Hawaiian education programs, and those interested in advancing community-driven goals related to Indigenous education.

This fully online program allows students to broaden their career opportunities and their impact while continuing to work in the field. Courses are designed to promote student engagement, enable students to develop educational alliances, and build relationships that improve and sustain a

collaborative learning environment. The program culminates with a capstone project that gives students the opportunity to synthesize, integrate and apply the skills and competencies acquired in the program. They design a use-inspired project that identifies and advances programs, policies or activities that elevate and center Indigenous perspectives and community needs in education and schooling.

Degree Requirements:

30 credit hours including the required capstone course (IED 585).

Required Core (12 credit hours)

IED 502 Indigenous Knowledges in Education (3)

IED 503 Current Issues in Indigenous Education (3)

IED 510 History of Indigenous Education (3)

IED 530 Language/Literacy-Indig People (3)

Other Requirements (3 credit hours)

IED 501 Critical Indigenous Research Methodologies (3) or

IED 535 Community-based Participatory Action Research (3)

Electives (9 credit hours)

Research (3 credit hours)

IED 592 Research (3)

Culminating Experience (3 credit hours)

IED 585 Capstone (3)

Additional Curriculum Information

Students should see the academic unit for a complete list of electives.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field such as history, education, anthropology, sociology, ethnic studies, justice studies or political science from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- letter of intent or written statement
- example of writing
- professional resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

A selection committee comprising faculty members selects candidates based on application materials and the applicant's ability to succeed.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/indigenous-education-ma/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Appraise and compose the parallels of historical Indigenous education and current schooling for American Indian students; using an evidence based approach to support their case.
- Articulate the contradictions and complexities between Western schooling and Indigenous educational processes for Native nations.
- Analyze research methods and methodologies through an Indigenous framework and compose their own research methodologies.
- Design and articulate Indigenous knowledge system(s), as it relates to education and schooling in Indian country

Career Opportunities: Graduates of the master's program can pursue careers in education, government or nonprofit organizations. Graduates can also work as researchers or policy analysts at educational policy centers, at K-12 schools and universities, and within community-based organizations.

Infant Family Practice, MAS (LACDEMAS)

Online Degree Search Title: Infant - Family Practice, MAS

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description: This self-contained, accelerated MAS program in infant-family practice provides high-quality coursework and supervised internship experiences designed to train professionals to work in prevention and intervention programs serving families with infants, toddlers and preschool-age children.

Coursework prepares students for professional endorsement of the Infant/Toddler Mental Health Coalition of Arizona for culturally sensitive, relationship-based practice promoting infant mental health.

Degree Requirements:

30 credit hours and a portfolio.

Required Core (12 credit hours)

Practicum (9 credit hours)

Other Requirements (6 credit hours)

Research (3 credit hours)

Additional Curriculum Information

The Master of Applied Science in infant-family practice requires successful completion of a minimum of 30 credit hours and an applied project, including required coursework and an internship in a community placement approved by the faculty of the master's degree program in infant-family practice. Internships are expected to last approximately 12 months.

Students must meet the expectations of the agency supervising their internship.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in a related field such as counseling, psychology, and family and human development.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a personal statement
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letters of recommendation should be from individuals familiar with the applicant's academic background.

GRE scores are not required for this program.

Career Opportunities: Many career paths are available to graduates with this degree. A few examples are:

- child abuse prevention
- child welfare
- early childhood education and child care administration
- early intervention
- family support
- home visiting
- infant and early childhood mental health

International Affairs and Leadership, MA (LAIALMA)

Online Degree Search Title: International Affairs and Leadership, MA

Campus: Online

Program Description: The MA program in international affairs and leadership prepares students for international leadership roles in a dynamic learning environment led by senior international affairs professionals from the public and private sectors.

The program offers a unique blend of leadership capacity development --- both theory and practice --- as well as substantive training focused on U.S. foreign policy decision-making, national security, international trade, human rights issues and other key global issues. Courses are taught by experienced experts, including former U.S. ambassadors and three-star generals, with the goal of readying students to become leaders in the international affairs realm. Students have regular interactions with world-class professors and practitioners who help students learn how to shape the world in a meaningful and positive way.

The program is designed and led by the ASU Leadership, Diplomacy and National Security Lab and offered through the School of Politics and Global Studies.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Studies, BA
- Political Science, BA
- Political Science, BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required capstone course (IAL 560).

Required Core (9 credit hours)

IAL 501 Principles of Character-Driven Leadership (3)

IAL 502 The Making of U.S. National Security Policy (3)

IAL 503 Applied International Leadership: Case Studies (3)

Electives (18 credit hours)

Culminating Experience (3 credit hours)

IAL 560 Capstone (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- letter of intent
- professional resume
- writing sample
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

GRE or GMAT results are not required but can be submitted as an additional application material. ASU does not accept the GRE® General Test at home edition.

Applicants should have a deep-rooted interest in international issues of the future and a desire to influence them through character-driven leadership within the context of an increasingly complicated, globalized world. Ideal candidates have previous leadership experience and plan to devote their careers to working with other cultures and nations across a variety of sectors. While an ideal candidate has previous experience traveling or living overseas or has studied a language other than English, candidates with no prior experience in these areas are also welcome to apply. Both international and domestic students are encouraged to apply.

Using the letter of intent, applicants should narrate their own leadership journeys and their motivations for further studies in the areas of international affairs and leadership. The letter of intent should describe applicants' academic and professional interests to date, their reasons for pursuing a master's degree in international affairs and leadership, and how this advanced degree relates to their specific future goals.

The application review panel also reviews the applicant's writing skills. The writing sample could be an original essay or previously written research paper, essay, policy memo, or other document that demonstrates the applicant's writing and analytical skills.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/international-affairs-master-degree/>) for program descriptions and to request more information.

Career Opportunities: Graduates are prepared to succeed in a wide variety of international affairs professions. Opportunities include foreign policy positions at the U.S. State Department, the U.S. Department of Commerce, the U.S. Department of the Treasury, and the U.S. Department of Defense, and leadership positions in international organizations such as the United Nations, the World Bank and the Organization for Security and Co-operation in Europe.

Career opportunities include:

- Capitol Hill staff member
- foreign service officer
- human rights expert (nongovernmental organization, think tank, USG, etc.)
- international development expert (USAID, World Bank, etc.)
- military officer or noncommissioned officer in strategic, special or tactical operations

Justice Studies, MS (LAJUSSTMS)

Online Degree Search Title: Justice Studies, MS

Campus: Tempe

Program Description: The MS in justice studies program is an innovative, interdisciplinary program that prepares students to work, research and advocate on behalf of social justice. Students study a wide variety of topics at the local, national and international levels, gaining the training needed for analyzing social, economic, cultural, political and legal inequalities and promoting pathways to more just societies.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Justice Studies, BS
Justice Studies, BA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (JUS 593).

Required Core (12 credit hours)

JUS 500 Research Methods (3)

JUS 501 Justice Theory (3)

JUS 509 Statistical Problems in Justice Research (3)

JUS 521 Qualitative Data Analysis and Evaluation (3)

Electives (12 credit hours)

Research (0 or 3 credit hours)

JUS 592 Research (3)

Culminating Experience (3 or 6 credit hours)

JUS 593 Applied Project (3) or

JUS 599 Thesis (6)

Additional Curriculum Information

Each student's program is developed in concert with the advisory committee. The required foundation courses provide students with a fundamental understanding of the theories, methods and analytic techniques associated with the study of justice.

To satisfy the thesis requirement for the degree, candidates must write a thesis and defend it in an oral examination conducted by the student's advisory committee. Students in this option are not required to take JUS 592 Research.

Students who elect the applied project option must enroll in three credit hours of JUS 592 Research before enrolling in JUS 593 Applied Project. Candidates pursuing this option must present their applied project and defend it in an oral examination conducted by the faculty member who supervises the project, and the graduate programs director or designated representative. The applied project typically includes a brief literature review to identify the nature of the issue or problem, and a description of the methodology used and, if relevant, of the program studied, followed by an analysis.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- resume or curriculum vitae
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Applicants should visit the School of Social Transformation's Master of Science in justice studies webpage for further details on the listed
2024-25 Academic Catalog Archive

application requirements and application deadlines.

Mailing addresses and further admission information are available on the ASU Graduate Admission Services website.

Application requirements vary for the accelerated justice studies program. Undergraduate students majoring in justice studies who are interested and eligible for this accelerated graduate program should contact the academic unit to schedule an appointment with a graduate advisor before submitting an application. Further details about the accelerated justice studies program can be found on the School of Social Transformation webpage.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Graduates of the MS program in justice studies will demonstrate the ability to interpret and conduct quantitative research.
- Graduates of the MS program in justice studies will be able to interpret and conduct qualitative research.
- Graduates of the MS program in justice studies will demonstrate knowledge of various theoretical perspectives of justice in both their written and oral work.
- Graduates will be able to demonstrate intersectional knowledge of justice and use an interdisciplinary and multidisciplinary approach to address societal problems and generate solutions in their projects.

Career Opportunities: Graduates of the justice studies program are prepared to work in justice-related organizations, teach in community colleges, and pursue doctoral programs and research in the justice field.

Justice Studies, PHD (LAJUSSTPHD)

Online Degree Search Title: Justice Studies, PhD

Campus: Tempe

Program Description: The PhD program in justice studies at the nation's first School of Social Transformation invites all qualified applicants.

The diverse community of scholars unites students and faculty across academic boundaries to strategically create social change that is democratic, inclusive and just. The interdisciplinary doctoral program in justice studies prepares future scholars and change agents to address complex social problems and become tomorrow's leaders.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as a concurrent program with the following: Juris Doctor, JD

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

JUS 620 Justice Research Methodology (3)

JUS 640 Theoretical Perspectives on Justice (3)

Other Requirement (3 credit hours)

JUS 630 Data Analysis for Justice Research (3) or

JUS 650 Advanced Qualitative Data Analysis (3) or

SST 691 Topic: Qualitative Methods for Qualitative Researchers (3)

Electives and Research (63 credit hours)

Culminating Experience (12 credit hours)

JUS 799 Dissertation (12)

Additional Curriculum Information

For the other requirement course, students may take JUS 630, JUS 650, SST 691 or other methods course at ASU approved by the justice studies graduate director.

Students entering the doctoral program with a master's or JD degree may complete a minimum of 54 credit hours for the program. In addition to the requirements listed above, coursework includes 15 credit hours of elective classroom hours (nine of which must have a JUS prefix) and 18 credit hours comprising any combination of additional elective courses, reading and conference courses, or research courses.

Students entering the doctoral program without a master's or Juris Doctor degree are required to complete 84 credit hours. In addition to the requirements listed above, the coursework includes 12 credit hours of 500-level foundation courses, 24 credit hours of elective classroom hours (15 of which must have a JUS prefix) and 27 credit hours comprising any combination of additional electives courses, reading and conference courses, or research courses.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- three letters of recommendation (academic references are preferred)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The personal statement should be 1 1/2 to 2 pages, double spaced, and outline the applicant's areas of interest, educational and career goals. The writing sample should be 10 to 15 pages and discuss the research that best represents the applicant's academic thinking and writing skills.

The PhD/JD option allows qualified students to earn a Juris Doctor from ASU's Sandra Day O'Connor College of Law while simultaneously earning a transdisciplinary doctoral degree in justice studies. Students must apply separately to both programs. Applicants should contact the Sandra Day O'Connor College of Law for its requirements.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Graduates of the PhD program in justice studies will demonstrate knowledge of both qualitative and quantitative research methodologies.
- Graduates of the doctoral program in justice studies will demonstrate the ability to differentiate various theoretical perspectives of justice in their written work.
- Graduates will be able to demonstrate intersectional knowledge of justice and use an interdisciplinary and multidisciplinary approach to address societal problems and generate solutions in their dissertations.

Career Opportunities: Graduates of the doctoral program in justice studies are prepared to work in justice-related organizations, teach in community colleges and universities, and conduct research in the justice field.

Language Teaching, MA (LALANTCHMA)

Online Degree Search Title: Language Teaching, MA

Campus: Tempe

Program Description: The MA program in language teaching prepares both current and aspiring language teachers with the tools they need to effectively teach languages in secondary schools and in higher education. This program provides professional development to practicing language teachers in K-12, community colleges and at the university level.

Teachers in Arizona who are interested in continuing their professional development in both language pedagogy and language proficiency can pursue this degree. Teachers receive training in teaching methodologies, second language acquisition, heritage language pedagogy, computer-assisted language teaching, applied linguistics, and the teaching of literature and culture. This program may also interest individuals who wish to become highly proficient bilinguals.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

French, BA
German, BA
Spanish, BA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required applied project course (SLC 593).

Required Core (3 credit hours)

SLC 596 Second Language Methodologies (3)

Track (9 credit hours)

Other Requirements (12 credit hours)

Electives (3 credit hours)

Culminating Experience (3 credit hours)

SLC 593 Applied Project (3)

Additional Curriculum Information

Students choose from three available tracks: French, German or Spanish. Students should see their academic unit for approved track coursework. Students select coursework in consultation with their committee chair.

Other requirement coursework may be substituted with approval of the academic unit.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a foreign language, applied linguistics, linguistics, literature, education or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- letter of intent or written statement
- two letters of recommendation
- proof of target language proficiency
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The written statement should be no more than two pages, single-spaced, and should discuss how the educational background and experiences have prepared the applicant for this graduate program. The applicant should also describe why they are interested in pursuing this master's degree

and how it fits their career goals.

Proof of target language proficiency is accepted by an audio or video submission of a two-minute self-introduction.

Career Opportunities: Professionals with this degree can confidently move into academic and business fields. Language skills developed through this program are valued for teaching positions, translation work or work in a larger sector such as business, government and public administration.

Career examples include:

- adult, basic and secondary education teachers
- foreign language and literature teachers and professors
- instructional coordinators
- instructional designers and technologists
- interpreters and translators
- literacy teachers
- middle school and high school teachers
- reporters and correspondents

Linguistics (certificate), Certificate (LALINGUICE)

Online Degree Search Title: Linguistics (Graduate Certificate)

Campus: Tempe

Program Description: This interdisciplinary graduate certificate program in linguistics trains students to understand the ways that languages are structured; how they are acquired; and how they vary over time, space, modality and context.

The skills students acquire through the completion of the core courses for this certificate include analytical abilities, critical thinking, effective communication and problem-solving. In addition, the expertise students develop through the study of discourse analysis and pragmatics prepares them to be critical consumers and better communicators of both spoken and written language.

Degree Requirements:

18 credit hours.

Required Core Areas (9 credit hours)

discourse analysis and pragmatics (3)

phonology (3)

syntax (3)

Electives (9 credit hours)

Additional Curriculum Information

The electives may be chosen from fields such as applied linguistics, educational linguistics, natural language processing, second language acquisition and sociolinguistics. The electives are determined by the student in consultation with a faculty advisor.

Students must have completed an introductory course in linguistics taken at the upper-division or graduate level. They should consult the certificate program director for advice.

All certificate coursework must be completed with an average grade of "B" or higher (3.00 on a 4.00 scale).

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee

- official transcripts
- statement of purpose
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency. Students should visit the Department of English website for specific details about English proficiency requirements.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The one- to two-page, well-considered statement of purpose should detail the applicant's background and reasons for pursuing the linguistics certificate.

To be considered for admission, an applicant must have taken an introductory course in linguistics at the upper-division or graduate level. Applicants must also show proof of a formal knowledge of a foreign language equivalent to two years of study at the university level, or plans to fulfill the language requirement concurrently with certificate courses. The language requirement may be met by completion of courses through the second-year level (four semesters) at ASU or elsewhere, or by completion of an upper-division language course with an average of "B" or better (scale is 4.00 = "A") for all such coursework (200- or 300-level), or through an examination that indicates placement above the 200 level. Language placement tests (<https://silc.asu.edu/student-life/academic-advising/language-testing>) are available on the School of International Letters and Cultures website. If this requirement is not already fulfilled at the time of application, candidates must demonstrate completion of this requirement at the end of their certificate coursework in order for their certificate to be granted.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Graduates of the graduate certificate program in linguistics will be able to solve language-related problems.
- Graduates of the graduate certificate program in linguistics will be able to explain major subfields of linguistics.
- Graduates of this program will be able to apply logical argumentation to critique key concepts in linguistics, thereby demonstrating their knowledge of theories.

Career Opportunities: A graduate certificate in linguistics can serve as an important stepping stone for individuals interested in gaining a better understanding of linguistics, perhaps as a way to get an edge in their careers or to explore the field before applying to a master's or doctoral degree program.

The linguistics certificate offers an important dimension to various careers including:

- computer programmer
- data analyst
- foreign service worker
- language consultant or language documentation expert
- language program director or coordinator
- language teacher
- lexicographer
- materials designer and developer
- program and curriculum developer
- teacher trainer
- writer or editor

Linguistics and Applied Linguistics, MA (LALINMA)

Online Degree Search Title: Linguistics and Applied Linguistics, MA

Campus: Tempe

Program Description: The MA program in linguistics and applied linguistics focuses on the scientific study of human language and the application of that study to the human condition.

At the master's degree level, the program provides foundational training and professional development in several interdisciplinary subfields, including discourse analysis, Indigenous American linguistics, language contact and change, language revitalization, language planning, phonetics, phonology, pragmatics, second-language acquisition, second-language learning and teaching, semantics, sociolinguistics, syntax, Teaching English to Speakers of Other Languages, global Englishes and computer-assisted language learning.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

English (Linguistics), BA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including a foreign language exam and a thesis, or 30 credit hours including a foreign language exam and the required applied project course (LIN 593 or APL 593).

Required Core (3 credit hours)

LIN 515 American English (3) or

LIN 516 Pragmatics and Discourse Analysis (3)

General Linguistics Track (6 credit hours)

LIN 511 Phonetics and Phonology (3)

LIN 514 Syntax (3)

Applied Linguistics Track (6 credit hours)

LIN 511 Phonetics and Phonology (3) or LIN 514 Syntax (3)

LIN 520 Second-Language Acquisition Theories (3) or APL 601 Introduction to Applied Linguistics (3)

Electives (12 or 15 credit hours)

Research (3 credit hours)

LIN 501 Approaches to Research (3)

Culminating Experience (3 or 6 credit hours)

LIN 593 or APL 593 Applied Project (3)

LIN 599 or APL 599 Thesis (6)

Additional Curriculum Information

Students choose one of the two tracks in either general linguistics or applied linguistics.

Electives are restricted based on the student's chosen track. For the general linguistics track, one of the electives must be a 600-level course from the approved course list.

Students who select the thesis option take 12 credit hours of electives. Applied project students select 15 credit hours of electives.

Students must demonstrate evidence of a competent knowledge of a natural language other than modern English, to be selected by the student, subject to the approval of the chair of the thesis committee or the director of the applied project. This requirement may be met by:

- earning a "B" or better (3.00 on a 4.00 scale) in a 400- or 500-level course in an appropriate (approved) language course
- demonstrating comparable proficiency by taking a language examination, administered by the School of International Letters and Cultures, in a language approved by the student's supervisory committee
- demonstrating native-speaker proficiency, as determined by the School of International Letters and Cultures, in a language approved by the student's supervisory committee
- earning a "B" or better (3.00 on a 4.00 scale) in both ENG 530 Old English and ENG 531 Old English Literature or their equivalents
- holding a bachelor's degree in an approved foreign language
- completing two years (four semesters) of college-level coursework (completed no more than six years prior to admission to the degree program) at least at the 100 and 200 levels with a "C" or better (2.00 on a 4.00 scale) for languages which the School of International Letters and Cultures does not offer or does not offer above the 200 level

Any course in which all class meetings are conducted in the approved language satisfies the requirement for a "B" or better in a 400- or 500-level course in an appropriate language; courses conducted in English do not satisfy the requirement. Also satisfying the requirement are GER 550 German for Reading Knowledge, FRE 550 French for Reading Knowledge, SPA 550 Spanish for Reading Knowledge, and ITA 550 Italian for Reading Knowledge. The Department of English does not require its graduate students to write papers in the approved language.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in such related fields as anthropology, applied linguistics, communication, cognitive science, comparative languages and literatures, literature, education, history, law, linguistics, modern languages, philosophy, political science, psychology, religious studies, rhetoric, composition, sociology, or speech and hearing science from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) and has not graduated from an institution of higher learning in the United States must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>). Applications will not be processed without valid proof of English proficiency. Please note that official scores must be sent to ASU in order for the application to be processed.

Successful completion of at least one upper-division course in linguistics, language study or a related topic is required.

Applicants must submit a one- to two-page, well-considered statement of purpose in which they explain how their experience and training in language study have prepared them for the master's degree, their aims and purposes in pursuing the degree and plans for the future.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate the ability to explain, synthesize, and critique existing scholarship in their research area.
- Design and carry out an original research study in their discipline and subdisciplines.
- Demonstrate the ability to produce written scholarly work at a level expected by the profession and consistent with the degree program.

Career Opportunities: Graduates with research expertise in linguistics and applied linguistics work in a variety of professional contexts around the globe, including academia, government, business, health care, legal settings, the private sector, nongovernmental organizations, advertising, marketing, publishing and teaching. Many graduates also go on to pursue doctorates in linguistics, applied linguistics, and many other fields and disciplines such as education, speech and hearing sciences, law, information technology, computer science, communication and anthropology.

Career examples include:

- computer programmer
- data analyst
- foreign service worker
- language consultant or language documentation expert
- language program director or coordinator
- language teacher
- lexicographer
- materials designer and developer
- program and curriculum developer
- teacher trainer
- translator or interpreter
- writer or editor

Linguistics and Applied Linguistics, PHD (LALINPHD)

Online Degree Search Title: Linguistics and Applied Linguistics, PhD

Campus: Tempe

Program Description: The PhD program in linguistics and applied linguistics focuses on the scientific study of human language and the application of that study to the human condition.

Students in this program select a research specialization in formal linguistics, applied linguistics or some combination within these fields of study.

The curriculum provides professional training in linguistics and applied linguistics with focused research in several linguistic subfields, including syntax, semantics, phonetics, phonology, pragmatics, discourse analysis, sociolinguistics, language contact and change, language planning, Indigenous American linguistics, language documentation and revitalization, second language acquisition, second language teaching and learning, teaching English to speakers of other languages, global Englishes and computer-assisted language learning.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a foreign language exam, a prospectus and a dissertation.

Required Core (18 credit hours)

APL 555 Disciplinary Discourses (3)

APL 601 Introduction to Applied Linguistics (3)

LIN 511 Phonetics and Phonology (3)

LIN 514 Syntax (3)

LIN 515 American English (3) or LIN 516 Pragmatics and Discourse Analysis (3)

LIN 655 Advanced Disciplinary Discourses in Linguistics and Applied Linguistics (3)

Electives and Research (33 credit hours)

LIN 501 Approaches to Research (3)

Specialization (21 credit hours)

Culminating Experience (12 credit hours)

LIN 799 or APL 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, then 30 credit hours is made up of additional electives and research coursework which must include LIN 510, if they have not previously taken it or its equivalent.

Students must demonstrate evidence of competent knowledge of a natural language other than modern English, to be selected by the student and subject to the approval of the chair of the dissertation committee. The language requirement must be completed before the student is eligible to take the doctoral examinations. This requirement may be met by any of the following:

- earning a "B" or higher (3.00 on a 4.00 scale) in a 400- or 500-level course in an appropriate (approved) language
- demonstrating comparable proficiency by taking a language examination, administered by the School of International Letters and Cultures, in a language approved by the student's supervisory committee
- demonstrating native-speaker proficiency, as determined by the School of International Letters and Cultures, in a language approved by the student's supervisory committee
- earning a "B" or higher (3.00 on a 4.00 scale) in both ENG 530 Old English and ENG 531 Old English Literature or the equivalent of each
- holding a bachelor's degree in an approved foreign language
- having fulfilled a foreign language requirement toward a previously awarded master's degree that was completed within five years of the semester for which the student was admitted to the doctoral program
- two years (four semesters) of successfully completed college-level coursework (no more than six years prior to admission to the degree program) at least at the 100 and 200 levels with a "C" or better for languages which the School of International Letters and Cultures does not offer or does not offer above the 200 level

The foreign language requirement must be in a language approved by the student's doctoral supervisory committee.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.
2024-25 Academic Catalog Archive

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- academic writing sample relevant to the field
- statement of teaching philosophy (teaching assistantship only)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) and has not graduated from an institution of higher learning in the United States must provide proof of English proficiency. Applications will not be processed without valid proof of English proficiency. More information about English proficiency requirements can be found on the school website (<https://english.asu.edu/admission/graduate-admission/information-international-students>). Please note that official scores must be sent to ASU in order for the application to be processed.

The well-considered one- to two-page statement of purpose should explain the applicant's scholarly background and training, career goals, proposed research specialization, any secondary field of interest and why the applicant wishes to pursue a PhD in linguistics and applied linguistics at Arizona State University. Applicants applying for funding must also submit a statement of teaching philosophy.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Critical analysis expertise: Students will demonstrate the ability to explain, synthesize and critique existing scholarship in their research area.
- Independent research expertise: Students will be able to design and carry out an original research study in their discipline and subdisciplines.
- Scholarly writing expertise: Students will demonstrate the ability to produce written scholarly work at a level expected by the profession and consistent with the degree program.

Career Opportunities: Graduates with research expertise in linguistics and applied linguistics work in a variety of professional contexts, such as academia, government, business, health care, legal settings, publishing, the private sector and nongovernmental organizations.

Career examples include:

- computer-assisted language learning expert
- data analyst
- forensic linguist
- language policy or documentation expert
- language program director or coordinator
- language researcher
- linguistic consultant
- program and curriculum developer
- publisher
- teacher trainer
- university professor

Marriage and Family Therapy, MAS (LAMFTMAS)

Online Degree Search Title: Marriage and Family Therapy, MAS

Campus: Tempe

Program Description: This self-contained accelerated MAS program in marriage and family therapy provides high-quality coursework and supervised internship experiences designed to train practitioners who wish to practice marriage and family therapy.

The curriculum and degree requirements have been specified and approved by the Arizona Board of Behavioral Health Examiners and are devised to meet the degree requirements for licensure in the state of Arizona for the practice of marriage and family therapy.

Degree Requirements:

39 credit hours and a master's research paper.

The master's degree program in marriage and family therapy requires the successful completion of a minimum of 39 credit hours and a project, including required coursework and completion of 300 client-contact hours in a community internship placement approved by the master's degree in marriage and family therapy faculty. Internships are expected to last approximately 12 months. Students must maintain a GPA of 3.00 (scale is 4.00 = "A") in all coursework and satisfactorily meet the expectations of the agency supervising their internship.

Students are required to have a vehicle and a valid Arizona driver's license for internship placement.

An internship entrance examination is held at the end of the first 7.5-week semester to determine student readiness for internship placement.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in a related field, such as counseling, psychology, and family and human development, among others.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a personal statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Letters of recommendation must be from three people who know the applicant in a professional or academic capacity. Family members and friends do not meet this criterion.

Students should refer to the program's website for detailed information on admission requirements.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Develop a comprehensive understanding of system-based Marriage and Family Therapy theories and employ the clinical application of these theories to pursue licensure as an MFT.
- Showcase their clinical competence in the ability to differentiate appropriate Marriage and Family Therapy interventions.
- Construct a solid foundation grounded in system-based theoretical models to meet Marriage and Family Therapy Professional ethics and standards.

Career Opportunities: There are many career paths available to students pursuing this degree. A few examples are:

- genetic counselor
- psychologist
- rehabilitation counselor
- school and career counselor
- social and community service manager
- social and human service assistant
- social worker
- substance abuse, behavioral disorder and mental health counselor

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential
2024-25 Academic Catalog Archive 1327

licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Mathematics, MA (LAMATHMA)

Online Degree Search Title: Mathematics, MA

Campus: Tempe

Spring admission is limited to students in the Accelerated Master's program.

Program Description: The MA program in mathematics is designed to increase students' mathematical knowledge beyond the traditional level of a bachelor's degree to prepare them for careers that require sophisticated mathematical skills.

Students may choose to specialize in applied mathematics, core mathematics, mathematics education or statistics through their course selections.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Computational Mathematical Sciences, BS
Mathematics, BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours and 2 written comprehensive exams, or 30 credit hours and a portfolio, or 30 credit hours, a thesis and a written comprehensive exam.

Required Core (3 credit hours)

APM 505 Applied Linear Algebra (3) or APM 506 Computational Methods (3) or MAT 543 Abstract Algebra I (3) or MAT 570 Real Analysis I (3)

Electives (21 or 27 credit hours)

Culminating Experience (0 or 6 credit hours)

MAT 599 Thesis (6)

portfolio (0)

two written comprehensive exams

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics or a closely related field from a regionally accredited institution and have completed coursework in linear algebra (equivalent to ASU course MAT 342 or MAT 343) and advanced calculus (equivalent to ASU course MAT 371).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of education and career goals
- resume
- three letters of recommendation

- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Career Opportunities: Graduates of the Master of Arts program in mathematics possess sophisticated mathematical skills required for careers in many different sectors, including education, industry and government.

Potential career opportunities include:

- finance and investment analyst
- mathematician
- mathematics professor or instructor
- operations research analyst
- statistician

Students also may pursue further graduate study in mathematics or statistics in preparation for an academic career.

480-965-3951

Mathematics, PHD (LAMATHPHD)

Online Degree Search Title: Mathematics, PhD

Campus: Tempe

Program Description: The PhD program in mathematics is intended for students with exceptional mathematical ability. The program emphasizes a solid mathematical foundation and promotes innovative scholarship in mathematics and its many related disciplines.

The School of Mathematical and Statistical Sciences has very active research groups in analysis, number theory, geometry and discrete mathematics.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

MAT 501 Geometry and Topology of Manifolds I (3) or

MAT 516 Graph Theory I (3) or

MAT 543 Abstract Algebra I (3) or

MAT 570 Real Analysis I (3)

Other Requirements (3 credit hours)

MAT 591 Seminar (3)

Electives (24-39 credit hours)

Research (27-42 credit hours)

MAT 792 Research

Culminating Experience (12 credit hours)

MAT 799 Dissertation (12)

Additional Curriculum Information

Electives are to be chosen from math or related area courses approved by the student's supervisory committee.

Students must pass:

- two qualifying examinations
- a written comprehensive examination
- an oral dissertation prospectus defense

Students should see the department website for examination information.

Each student must write a dissertation and defend it orally in front of five dissertation committee members.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics or a closely related area from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of education and career goals
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Additional eligibility requirements include competitiveness in an applicant pool as evidenced by coursework in linear algebra (equivalent to ASU course MAT 342 or MAT 343) and advanced calculus (equivalent to ASU course MAT 371), and it is desirable that applicants have scientific programming skills.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply advanced mathematical skills in coursework and research.
- Address an original research question in mathematics.
- Able to complete original research in theoretical mathematics.

Career Opportunities: Graduates of the doctoral program in mathematics possess sophisticated mathematical skills required for careers in many different sectors, including education, industry and government. Potential career opportunities include:

- faculty-track academic
- finance and investment analyst
- mathematician
- mathematics professor, instructor or researcher
- operations research analyst
- statistician

Mathematics Education, PHD (LAMTEPHD)

Online Degree Search Title: Mathematics Education (Mathematics and Statistics Dept - Grades 9-20), PhD

Campus: Tempe

Program Description: This transdisciplinary PhD program in mathematics education accommodates students from a variety of academic backgrounds. It provides students with a solid foundation in graduate-level mathematics as well as research skills and perspectives that enable them to incorporate mathematics into such core educational areas as:

- curriculum
- learning
- teaching
- technology

Conducting individual and collaborative research in the learning and teaching of mathematics is an integral part of the program.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (12 credit hours)

MTE 501 Research in Undergraduate Mathematics Education I (3)

MTE 502 Research in Undergraduate Mathematics Education II (3)

MTE 503 Research in Undergraduate Mathematics Education III (3)

MTE 504 Research in Undergraduate Mathematics Education IV (3)

Electives (42 credit hours)

Area Courses (12 credit hours)

Research (6 credit hours)

MTE 792 Research (6)

Culminating Experience (12 credit hours)

MTE 799 Dissertation (12)

Additional Curriculum Information

Four to five graduate-level (500 and above) elective courses from mathematics, cognitive science, psychology, educational technology, philosophy or research should be taken as approved by the advisor.

For the area courses, students are required to take four graduate-level courses from the following areas of interest: mathematics, applied mathematics or statistics. Students should see the academic unit for the approved course list.

Students should see the school's website for information about qualifier and comprehensive examinations based on math coursework.

The doctoral dissertation culminating experience consists of a dissertation prospectus, oral dissertation defense and the submission of a final revised, formatted dissertation document to the Graduate College. Dissertations are composed under chair- and committee-supervised research, including literature review, research, data collection and analysis, and writing.

When approved by the student's supervisory committee and the Graduate College, up to 30 credit hours from a previously awarded master's degree may be used for this program. If students do not have a previously awarded master's degree, the remaining coursework is made up of electives and research.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics or a closely related area, with exceptionally high grades in advanced coursework in mathematics, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of education and career goals
- writing sample

- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

At least two of the letters of recommendation must be from faculty.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Able to incorporate mathematical concepts into novel teaching methods.
- Address an original research question in mathematics education.
- Able to complete original research in applied mathematics.

Career Opportunities: Graduates of the doctoral program in mathematics education have opportunities in Arizona, the U.S. and internationally. Opportunities are typically at research universities and liberal arts colleges, community colleges, and education consulting firms and in roles such as:

- faculty-track academic
- education consultant or analyst
- mathematics professor, instructor or researcher

480-965-3951

Medieval Studies (certificate), Certificate (LAMEDSTCE)

Online Degree Search Title: Medieval Studies (Graduate Certificate)

Campus: Tempe

Program Description: The graduate certificate in medieval studies is a transdisciplinary program that provides intensive engagement for graduate students with the global period between circa 500 and 1500 CE; investigation of cultural activities and cultural interactions seen in this period in art history, history, languages, literature, music and religion; and studies in the variety of theoretical approaches to understanding these activities and interactions in the Middle Ages. This program builds on the strengths of ASU by taking advantage of the breadth of interdisciplinary offerings in the study of the Middle Ages here.

These areas of emphasis enable students to gain expertise in practical and theoretical knowledge of the field of medieval studies and to engage in developing new models for the continued study of this time period. Students also hone an understanding of intercultural intersections and transdisciplinary approaches to medieval studies, as well as receive advanced training and mentorship in disciplines relevant to medieval studies.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

One of the following courses:

ARS 514 Monasteries, Madonnas and Manuscripts (3)

ENG 530 Old English (3)

ENG 531 Old English Literature (3)

ENG 532 Middle English Dialects (3)

ENG 632 Advanced Studies in Medieval and Renaissance Literature and Culture (3)

FRE 521 History of the French Language (3)

Electives (12 credit hours)

Additional Curriculum Information

No more than three credit hours may be transferred from another university. No more than six credit hours may be completed prior to admission to the certificate program. At least 10 credit hours must be at the 500-level or above.

Courses must be drawn from at least two different academic units.

To be approved as an elective, a course must spend at least 50% of the class meetings on the subject of the Middle Ages. Students should contact the department for a list of approved electives.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- writing sample
- statement of purpose
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) and has not graduated from an institution of higher learning in the United States must provide proof of English proficiency. Applications will not be processed without valid proof of English proficiency. More information about English proficiency requirements can be found on the Department of English website (<https://english.asu.edu/admission/graduate-admission/information-international-students>). Official scores must be sent to ASU in order for the application to be processed.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The statement of purpose should be no more than two pages, double-spaced. The statement should summarize the applicant's past educational experiences and current goals in pursuing a graduate certificate in medieval studies. The writing sample gives the committee a sense of the applicant's writing style and analytical abilities. An academic paper submitted for a graduate or undergraduate course is appropriate. A writing sample dealing with a topic in medieval studies is preferred but not required.

Global Opportunities:

Global Experience: Studying abroad is possible for graduate students. There are more than 50 program opportunities, with programs on every continent.

Faculty-directed programs tend to be the best fit for graduate students; taking courses with ASU professors over the summer or during academic breaks offers students close mentorship and professional network growth in many fields of study while they earn ASU credit. Exchange program participation is also possible with careful planning. More information on available programs can be found on the Global Education Office website (<https://goglobal.asu.edu/students/graduate-students>).

Career Opportunities: The graduate certificate in medieval studies is designed to equip students for jobs in academia, but also in a variety of other fields in which a humanities degree and interdisciplinary work are valued. Career examples include:

- digital humanities
- library and archival work
- museum work
- professorship in the humanities and social sciences
- public humanities
- public service
- publishing

Online Degree Search Title: Microbiology, MS

Campus: Tempe

Program Description: The MS in microbiology is designed to prepare students for careers in bacteriology, virology, mycology, immunology and oncology in academic institutions, government agencies or commercial entities.

Students train broadly in microbiology, including microbial ecology and evolution, geomicrobiology, bacterial physiology and genetics, bacterial pathogenesis, metabolic engineering, immunology and vaccine development, and cancer biology. They receive advanced training in the study of microbes and their impact on humankind, disease and the environment. The tools they use range from nanotechnologies and genomics to mathematical models and satellite-based imaging.

Students receive training in teaching as well as in basic, translational and use-inspired research with world-class faculty and collaborative research partners. Faculty members are associated with the School of Life Sciences, The Biodesign Institute, The Translational Genomics Institute, Barrow Neurological Institute, and other area hospitals and research centers.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Biological Sciences, BS
- Biological Sciences (Biology and Society), BS
- Biological Sciences (Biomedical Sciences), BS
- Biological Sciences (Conservation Biology and Ecology), BS
- Biological Sciences (Genetics, Cell and Developmental Biology), BS
- Biological Sciences (Neurobiology, Physiology and Behavior), BS
- Microbiology, BS
- Microbiology (Medical Microbiology), BS
- Molecular Biosciences and Biotechnology, BS
- Neuroscience, BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours and a thesis.

Required Core (3 credit hours)

MIC 501 Foundations in Microbiology (3)

Electives and Research (21 credit hours)

Culminating Experience (6 credit hours)

MIC 599 Thesis (6)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the biological sciences, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- academic record form

- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Prior research experience is a desired qualification for admission.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Able to review the scholarly literature associated with research questions in microbiology.
- Able to carry out a research plan in an area of Microbiology under advisement of their mentors.
- Able to communicate science effectively, both orally and in writing.

Career Opportunities: Professionals with tailored research training in specific directions, including microbial physiology, environmental microbiology, evolution and ecology, immunology, virology and various aspects of modern molecular genetics are in demand in diverse sectors.

Career examples include:

- environmental scientists and specialists (including health)
- lab managers in academic and industrial labs
- medical and clinical laboratory technologists
- microbiologists in diverse sectors including food service and health care industry
- natural sciences managers
- research technicians in academic and industrial labs

Microbiology, PHD (LAMICROPHD)

Online Degree Search Title: Microbiology, PhD

Campus: Tempe

Program Description: The PhD program in microbiology offers a dynamic research environment; a broad range of basic, translational and use-inspired research areas; advanced transdisciplinary training; and opportunities to work with world-class faculty and collaborative research partners committed to training scientific leaders with skills necessary for addressing significant global microbiological problems and challenges.

This program focuses on the smallest of living things and immunology. Students can tailor the program around their interests and gain skills in contemporary approaches used in microbiology, biomedicine and biotechnology. They train in a broad array of fields, including microbial ecology and evolution, geomicrobiology, bacterial physiology and genetics, bacterial pathogenesis, metabolic engineering, immunology and vaccine development, and cancer biology.

Faculty members are associated with the School of Life Sciences, The Biodesign Institute, The Translational Genomics Institute, Barrow Neurological Institute, and other area hospitals and research centers.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (4 credit hours)

BIO 610 Introduction to Responsible Conduct of Research in Life Sciences (1)

MIC 501 Foundations in Microbiology (3)

Electives or Research (68 credit hours)

Culminating Experience (12 credit hours)

MIC 799 Dissertation (12)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the biological sciences, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Prior research experience is a desired qualification for admission.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Able to review the scholarly literature associated with research questions in microbiology.
- Able to design and execute a research plan in an area of microbiology under advisement of their mentors.
- Able to communicate science effectively, both orally and in writing.

Career Opportunities: Graduates of this program's intense and interactive educational and research training are prepared for advanced careers in research and education, specifically in bacteriology, virology, mycology, immunology and oncology.

Career possibilities are diverse, with opportunities in academic organizations, research and development industries, government service and other professional organizations. Examples include:

- instructors in universities and colleges
- principal investigators in government labs and nonprofit organizations
- professors in universities and colleges
- research associates in universities
- research scientists in industry

Molecular and Cellular Biology, MS (LACELLMS)

Online Degree Search Title: Molecular and Cellular Biology, MS

Campus: Tempe

Program Description: The MS program in molecular and cellular biology encourages interdisciplinary, innovative research, allowing students to choose from a diverse range of research and training opportunities. Students gain skills in contemporary approaches used in molecular and cellular

biology.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Biological Sciences, BS
Biological Sciences (Biology and Society), BS
Biological Sciences (Biomedical Sciences), BS
Biological Sciences (Conservation Biology and Ecology), BS
Biological Sciences (Genetics, Cell and Developmental Biology), BS
Biological Sciences (Neurobiology, Physiology and Behavior), BS
Microbiology, BS
Molecular Biosciences and Biotechnology, BS
Neuroscience, BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours and a thesis.

Required Core (6 credit hours)

MCB 555 Advanced Molecular and Cellular Sciences (3)

MCB 556 Advanced Molecular and Cellular Biology II (3)

Electives or Research (10 credit hours)

Other Requirements (8 credit hours)

BIO 543 Molecular Genetics and Genomics (3)

BIO 610 Introduction to Responsible Conduct of Research in Life Sciences (1)

MCB 501 Seminar: Molecular and Cellular Biology Colloquium (4)

Culminating Experience (6 credit hours)

MCB 599 Thesis (6)

Additional Curriculum Information

Students are required to take MCB 501 each semester they are registered. If a student is registered for more or fewer than four semesters, the research hours and MCB 501 hours may be adjusted accordingly to reach 30 credit hours.

Students should see the academic unit for a complete list of approved electives.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the biological sciences, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Research experience is a desired qualification.

Career Opportunities: Those who have earned a master's degree in molecular and cellular biology are prepared for academic careers at every level, from community colleges to research universities. Their skills and knowledge are also valuable for careers in federal and state agencies, in industry and in nongovernmental organizations.

Career examples include:

- instructors at community colleges
- researchers and technicians in government labs and nonprofit organizations
- science teachers in elementary and high schools
- scientists and bioinformaticians in academic, private and industrial labs

Molecular and Cellular Biology, PHD (LACELLPHD)

Online Degree Search Title: Molecular/Cellular Biology, PhD

Campus: Tempe

Program Description: The PhD program in molecular and cellular biology emphasizes interdisciplinary approaches in fundamental and highly applied molecular and cellular biology to answer basic and translational research questions. Students can tailor the program around their interests while gaining skills in the most innovative approaches and techniques.

Faculty have a diverse range of research interests and training opportunities for doctoral students interested in pursuing a degree that extends beyond the traditional boundaries of biological research. Participating faculty members and researchers are drawn from multiple departments, colleges, centers and institutes across the university including:

- New College of Interdisciplinary Arts and Sciences
- School for Engineering of Matter, Transport and Energy
- School of Biological and Health Systems Engineering
- School of Human Evolution and Social Change
- School of Life Sciences
- School of Mathematical and Statistical Sciences
- School of Molecular Sciences

Participating faculty members are also based at partner institutions in the greater Phoenix area, including:

- Caris Life Sciences
- Mayo Clinic Arizona
- Phoenix Children's Hospital
- Translational Genomics Research Institute
- University of Arizona College of Medicine -- Phoenix

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

MCB 555 Advanced Molecular and Cellular Sciences (3)

MCB 556 Advanced Molecular and Cellular Biology II (3)

Electives or Research (54 credit hours)

Other Requirements (12 credit hours)

BIO 543 Molecular Genetics and Genomics (3)

BIO 610 Introduction to Responsible Conduct of Research (RCR) in Life Sciences (1)

MCB 501 Seminar: Molecular and Cellular Biology Colloquium (8)

Culminating Experience (12 credit hours)

MCB 799 Dissertation (12)

Additional Curriculum Information

Students take MCB 501 eight times for one credit hour. Courses listed as other requirements may be substituted with approval of the academic unit.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the biological sciences, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Research experience is a desired qualification.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Able to review the literature relevant to the research question in molecular and cellular biology that they address in their dissertation.
- Able to execute a research plan of their own design that addresses a significant scientific question about molecular and cellular biology.
- Able to communicate the rationale and results of their research, both orally and in writing.

Career Opportunities: Graduates hold positions as researchers and leaders in nongovernmental organizations, biotech and pharma, and in federal and state agencies.

Career examples include:

- faculty in universities and colleges
- leaders of nonprofit organizations
- principal investigators and leaders in private, government and industrial labs

Museum Studies, MA (LAMUSSTMA)

Online Degree Search Title: Museum Studies, MA

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description: The MA program in museum studies examines how museums produce and reflect culture, and the role that museums play worldwide.

Students develop theoretical questions and applied skills that engage the functions, practices and critical analyses of museums. They also gain practical experience while being encouraged to challenge preconceived notions about museums and the way museums affect and are affected by societies and cultures.

Designed to be use-inspired, socially embedded and transcultural, the program ensures that students understand the meaning and significance of museums in contemporary society and prepares them for diverse museum careers.

Degree Requirements:

30 credit hours including the required applied project course (ASB 593).

Required Core (3 credit hours)

ASB 573 Museum Administration (3)

Other Requirements (9 or 10 credit hours)

ASB 584 Internship (6)

ASB 579 Critical Issues Museum Studies (3) or ASB 591 Topic: Cultural Resource Compliance and Consultation (3) or ASM 555 Advanced Human Osteology (4)

Electives (14 or 15 credit hours)

Culminating Experience (3 credit hours)

ASB 593 Applied Project (3)

Additional Curriculum Information

For a complete list of approved elective and research courses, students should contact the school.

Internship (ASB 584) and Practicum (ASB 580) must be approved by the faculty advisor.

Credits for other requirements (nine or 10 credits) and electives (14 or 15 credits) vary and depend on whether ASB 555 (four credits) is completed as an option under other requirements.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Suitable backgrounds for admission include disciplines related to museum studies, anthropology, history or art (fine art or art history).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Career Opportunities: People who are able to analyze a broad range of data on human thought and human behavior are in demand in the job market. There is a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret large amounts of data.

Career opportunities include:

- acting as legal advocates in international cases
- analyzing and proposing policies
- conducting postgraduate academic research
- consulting for private and public organizations

- directing nonprofit organizations
- directing programs in the private or public sector

Museum Studies (certificate), Certificate (LAMUSEUMCE)

Online Degree Search Title: Museum Studies (Graduate Certificate)

Campus: Tempe

Program Description: In the museum studies certificate program, students examine how museums produce and reflect culture and they examine the role museums play worldwide.

Students develop theoretical questions and applied skills that engage the functions, practices and critical analyses of museums. They gain practical experience while being encouraged to challenge preconceived notions about museums and the way they affect and are affected by societies and cultures.

Designed to be use-inspired, socially embedded and transcultural, the program ensures that students understand the meaning and significance of museums in contemporary society and prepares them for diverse museum careers.

Degree Requirements:

18 credit hours.

Required Core (3 credit hours)

ASB 579 Critical Issues in Museum Studies (3)

Electives (9 credit hours)

Other Requirements (6 credit hours)

ASB 580 Practicum (3) and ASB 584 Internship (3) OR

ASB 584 Internship (6)

Additional Curriculum Information

Certificate students may choose to specialize in areas such as anthropology, art history and public history.

For a complete list of approved elective and research courses, students should contact the school.

Internship (ASB 584) and Practicum (ASB 580) must be approved by their supervisory committees, usually in a museum setting or museum-quality collection or archive related to their chosen area of study: anthropology, art history, theory and criticism or public history.

For students currently enrolled in an ASU graduate degree program, applicable certificate courses may count toward their degree program, with the approval and consent of the degree granting program. For certificate students who are later admitted to an ASU graduate degree program, up to 12 credit hours from the certificate program may count toward their doctoral degree or up to 12 credit hours may count toward their master's degree, with the approval and consent of the degree-granting program.

All requirements for the certificate program should be completed within a three-year time limit with a minimum cumulative GPA of 3.00 (scale is 4.00 = "A"). Students who require more time to finish the program, because of their part-time status or lack of desirable or available courses, must obtain approval from the executive committee.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Suitable backgrounds for admission include disciplines related to museum studies, anthropology, history or art (fine art or art history).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts

- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

ASU does not accept the GRE® General Test at home edition.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

For information on spring admission, students should contact the School of Human Evolution and Social Change.

Career Opportunities: The demand in the job market is high for people able to analyze a broad range of data on human thought and human behavior. There is a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret large amounts of data.

Some career opportunities include:

- acting as legal advocates in international cases
- analyzing and proposing policies
- conducting postgraduate academic research
- consulting for private and public organizations
- directing nonprofit organizations
- directing programs in the private or public sector

Nanoscience, PSM (LANANPSM)

Online Degree Search Title: Nanoscience, PSM

Campus: Tempe

This program is not currently accepting applications.

Program Description: The PSM in nanoscience is a cohesive program of transdisciplinary courses that provide the knowledge base required for research and innovation in nanoscience. The program incorporates courses in:

- chemistry and biochemistry
- electrical engineering
- materials science
- physics

Commercial innovation is a particular target goal of the degree, including applications in:

- biochemistry and sensing technology
- biophysics and biomedical technology
- nanomaterials and nanoscale devices

The Professional Science Master's degree program in nanoscience is suitable for working professionals and for students who have obtained a traditional bachelor's degree or master's degree in related fields.

Degree Requirements:

32 credit hours including the required applied project course (NAN 593).

Required Core (5 credit hours)

NAN 505 Nanoscience and Society (2) or NAN 506 Innovation and IP Management (2)

NAN 571 Quantum Physics (3) or NAN 544 Introduction to Nanoscience (3)

Electives or Research (15 credit hours)

Other Requirements (6 credit hours)

NAN 591 Seminar (6)

Culminating Experience (6 credit hours)

NAN 593 Applied Project (6)

Additional Curriculum Information

Students must take either NAN 505 or NAN 506. Students may also take the other course as an elective.

Students with a physical science or engineering background should take NAN 571 Quantum Physics, and students with a biochemistry or life sciences background should take NAN 544 Introduction to Nanoscience.

The program includes a two-semester, student-centered professional seminar in which the central role of the program as a vehicle for innovation emerges. During the spring semester and summer session, students conduct an individual applied project in association with a research group. Throughout the program, students interact with research faculty and other students in a variety of disciplines related to nanoscience. Students also meet with visiting speakers and industrialists in the professional seminar and in other seminars.

If taken full time, the PSM in nanoscience program can be completed in 12 months (fall semester, spring semester and two eight-week summer sessions). Another option is the two-year part-time program, which allows prospective students and their employers flexibility in scheduling the program of study.

Students should see the academic unit for a complete list of approved electives. Many of the requisite elective courses are currently offered within the Department of Physics and the Department of Chemistry and Biochemistry. Most are cross-listed with other units.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in physics, chemistry or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency. TOEFL scores or equivalent are required for applicants whose native language is not English.

The personal statement should outline the applicant's research interests and why the applicant wants to enroll in the Professional Science Master's degree program.

Letters of recommendation should be from individuals familiar with the applicant's work or studies relevant to the program.

Career Opportunities: Nanoscale science and engineering are having an increasing impact on many aspects of daily life, and the opportunities for careers are rapidly expanding. In areas as diverse as designing medical diagnostic devices, building better batteries, creating cosmetics, enhancing energy efficient windows, auto and plane manufacturing, and researching the nature of matter itself, knowledge of nanoscale science and engineering will be increasingly important in the upcoming years and decades.

The highly technical field of nanotechnology and nanoscience is always looking for scientists, engineers and technicians. Career examples include:

- applications engineer
- biotechnologist
- forensic scientist

- instrument development engineer
- manufacturing engineer
- market development manager
- materials scientist
- mechanical or electrical engineer
- medical engineer
- microscopist
- optical engineer
- research scientist
- technical program manager

Natural Science (Earth and Space Sciences), MNS (LANATSCIMN)

Online Degree Search Title: Natural Science (Earth and Space Sciences), MNS

Campus: Tempe

Program Description: The MNS in natural science with a concentration in Earth and space sciences is designed to meet the needs of professionals seeking a graduate-level degree and is especially suited for individuals who desire professional training rather than research training.

The program must be transdisciplinary; students are expected to emphasize coursework in two or more areas of specialization. The program offers the opportunity for graduate training in the natural sciences (i.e., biological sciences, mathematics and physical sciences) and cognate areas. Because it is flexible by design, the program also offers the opportunity for individualized professional graduate programs depending upon the backgrounds and goals of the students.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

30 credit hours including the required applied project course (SES 593).

Required Core (1 credit hour)

SES 502 Exploring SESE Research (1)

Other Requirements (19 credit hours)

SES 501 SESE Colloquium (1)

GLG or SES courses (18)

Electives or Research (4 credit hours)

Culminating Experience (6 credit hours)

SES 593 Applied Project (6)

Additional Curriculum Information

Other Requirements coursework includes SES 501 and 18 credit hours of GLG or SES graduate-level courses. Exceptions and substitutions may be allowed with approval of the academic unit.

The supervisory committee is chosen by the student in conjunction with the advisor. The composition of the supervisory committee must reflect the transdisciplinary nature of the program. The student develops a suitable applied project with the approval of the supervisory committee.

Students must submit a plan of study after conferring with the supervisory committee. While a minimum of 30 credit hours is required for the degree, more credit hours may be required by the supervisory committee, depending upon the background of the student and the nature of the proposed program.

In some cases, undergraduate courses may be required to remove deficiencies.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Career Opportunities: Professionals with expertise in Earth and space sciences are in high demand across sectors and industries, including remote sensing, natural resource management, data science, environmental consulting, hazard and risk assessment, geophysics and planetary science. Skills in the measurement and analysis of data related to the physics, chemistry and structures of earthly and planetary systems are valuable to businesses and institutions relying on data-driven strategies to interact with the planet and explore beyond the Earth.

Career examples include:

- geologist
- high school teacher
- science communication expert
- science writer and science journalist

Natural Science (Physics), MNS (LAPHYSMNS)

Online Degree Search Title: Physics, MNS

Campus: Tempe

Program Description: The MNS program in physics offers transdisciplinary graduate training in physics, physical science or physics education. The program is especially suited for in-service high school science teachers who desire professional training rather than pursuit of a research-based degree.

Designed for flexibility, the curriculum also features individualized professional graduate programs. These programs are well suited to the backgrounds and goals of students. Students are expected to emphasize coursework in two or more areas of concentration. The program must be transdisciplinary.

Degree Requirements:

30 credit hours including the required applied project course (PHS 593).

The graduate advisor and the student suggest three faculty members who reflect the transdisciplinary nature of the program to serve on the supervisory committee. With the recommendation of the chair of the Department of Physics, the committee is appointed by the vice provost for the Graduate College soon after the student has been admitted to the degree program.

After conferring with the student, the supervisory committee recommends the plan of study. The committee may require additional coursework to ensure proficiency, depending on the student's background and the nature of the proposed program. In some cases, undergraduate courses may be required to overcome deficiencies.

Teachers may enroll in these courses to earn credit toward recertification or to pursue a Master of Natural Science degree. These courses are held during the summer. Depending on teacher interest, they may be offered at other times. For some courses, the prerequisites are two semesters of trigonometry-based college physics and an introductory calculus course.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree from a regionally accredited institution. The program is open to in-service high school teachers who have completed two semesters of college physics and an introductory calculus course. Underprepared teachers can make up deficiencies in regularly scheduled courses. Students must be able to attend classes in person at the Tempe campus.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate coursework
- two letters of recommendation
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letters of recommendation should be from individuals familiar with the applicant's work or studies that are relevant to the natural science program.

Conditions for admission are the availability of resources for the proposed program and having a Department of Physics faculty member designated to serve as a graduate advisor.

Career Opportunities: Graduates possess deeper understanding of physics and related subjects, both conceptually and pedagogically. They are better prepared for teaching physics and other related subjects, and they may be qualified to teach dual enrollment courses in physics or related subjects, such as chemistry.

Neuroscience, MS (LABMENMS)

Online Degree Search Title: Neuroscience, MS

Campus: Tempe

Program Description: The MS program in neuroscience provides advanced knowledge on fundamental neuroscientific concepts, the neurobiological substrates of behavior, and cutting-edge experimental techniques for studying brain function. An important underlying theme of the program is to understand the genetic, molecular, cellular and circuit-level changes associated with neurodegenerative diseases, altered brain development, and neuropsychiatric disorders.

In addition to mentored research opportunities with internationally recognized experts, students also have opportunities to explore recent primary literature and hone communication, presentation and professional skills.

GI Bill® benefits

The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

30 credit hours and a thesis.

Required Core (5 or 6 credit hours)

BIO 610 Introduction to Responsible Conduct of Research in Life Sciences (1)

NEU 556 Human Systems Neuroscience (4) or NEU 576 Advanced Cellular and Molecular Neuroscience (3)
NEU 558 Neuroscience Journal Club (1)

Other Requirement (1 credit hour)
NEU 591 Seminar (1)

Research (9 credit hours)
NEU 592 Research (9)

Electives (8 or 9 credit hours)

Culminating Experience (6 credit hours)
NEU 599 Thesis

Additional Curriculum Information

Students choose either NEU 556 or NEU 576 as part of their core course requirements. Students who choose NEU 576 complete an additional credit hour of elective coursework in order to achieve the 30 credit hours required for the program. Students should contact the program advisor for a list of approved electives.

Students take NEU 599 in their last semester.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the life sciences, psychology, engineering or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admissions application and application fee
- official transcripts
- personal statement
- professional resume
- three letters of recommendation
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of current residency.

Applicants will need to provide three letters of recommendation from people who can speak to their academic experiences, qualifications and potential. Recommenders will receive an email with instructions but are able to submit their recommendation entirely online. Submission of a traditional hard-copy letter is not necessary.

In one- to two- single-spaced pages using Arial font, applicants should discuss their research interests and experience. Applicants should indicate what their goals are in obtaining a graduate degree; why the School of Life Sciences at Arizona State University is suited to the pursuit of their degree; and list any publications, honors, awards or society memberships they have.

Career Opportunities: The Master of Science program in neuroscience prepares graduates for entry into advanced research or clinical training programs; technical positions in academia, industry and health care-related fields; or employment in sectors focused on education, consulting, law, pharmaceuticals and artificial intelligence.

Career examples include:

- clinical research assistant
- data analyst in neuroscience or artificial intelligence
- laboratory technician
- medical writer
- pharmaceutical sales representative
- public health position related to neurological disorders
- technologist in medical imaging or genetic counseling

Neuroscience, PHD (GCBMENPHD)

Online Degree Search Title: Neuroscience, PhD

Campus: Tempe

Program Description: Neuroscience is the scientific study of the nervous system. Studies in neuroscience can be multifaceted and combine physiology, anatomy, molecular biology, developmental biology, cytology, computer science and mathematical modeling to understand the fundamental and emergent properties of the many different cells in the brain and how they interact and coregulate each other.

Students integrate several levels of analysis --- molecular, cellular, systems, behavioral and cognitive --- to investigate basic, translational and clinical questions about the relationship between the brain and behavior.

The PhD program in neuroscience includes aspects of graduate-level training from many different units on campus as well as from the program's partner institutions distributed across the greater Phoenix area. Partner institutions include Barrow Neurological Institute, Translational Genomics Research Institute, University of Arizona College of Medicine and Sun Health Research Institute.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (8 credit hours)

BIO 610 Introduction to Responsible Conduct of Research in Life Sciences (1)

NEU 556 Human Systems Neuroscience (4)

NEU 576 Advanced Cellular and Molecular Neuroscience (3)

Electives or Research (58 credit hours)

Other Requirements (6 credit hours)

NEU 558 Neuroscience Journal Club (3)

NEU 591 Seminar (3)

Culminating Experience (12 credit hours)

NEU 799 Dissertation (12)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Regular admission may be granted to applicants who have achieved the minimum cumulative GPA requirement or better in the last two years of work leading to a bachelor's degree and who are competitive in the applicant pool as evidenced by letters of recommendation. Particular attention is paid to research experience and overall preparation in problem-solving abilities as evidenced by previous coursework and research experiences.

There are no specific undergraduate course requirements other than those implied by the degree requirements described above. Most students are expected to have had coursework in biology, chemistry and math.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation

- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Research experience is a desired qualification.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply core neuroscientific concepts to address fundamental questions regarding nervous system function and associated pathologies.
- Execute an independent research plan of their own design that tests hypotheses related to neuroscience.
- Effectively communicate neuroscientific concepts, both orally and in writing.

Career Opportunities: A doctorate in neuroscience provides strong preparation for academic careers at every level, from community colleges to research universities. Graduates also apply the skills and knowledge obtained in this program in government careers in federal and state agencies, in industry (biotech, medical or pharmaceutical), as well as in nongovernmental organizations.

Career examples include:

- health care scientists in academic, private and industrial labs
- principal investigators in government labs and nonprofit organizations
- professors or instructors in universities and colleges
- science teachers in elementary and high schools

Philosophy, MA (LAPHILMA)

Online Degree Search Title: Philosophy, MA

Campus: Tempe

Program Description: The School of Historical, Philosophical and Religious Studies offers an MA degree program in traditional and contemporary philosophy. General areas of research include ethics, political philosophy, metaphysics, epistemology, philosophy of law, philosophy of science, feminist philosophy, philosophy of language, experimental philosophy and the history of philosophy.

Members of the faculty are involved in interdisciplinary work in a variety of fields and enjoy close ties with the Lincoln Center for Applied Ethics, the Sandra Day O'Connor College of Law and a number of other graduate programs at ASU. The philosophy program sponsors an active colloquium series and regular philosophical conferences on diverse topics. The Lincoln Center for Applied Ethics also sponsors a wide range of activities, including large-scale conferences, distinguished visitors and support for graduate study.

The program seeks to maintain a balance between course offerings in the traditional areas of philosophy and opportunities for study of current philosophical developments.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis.

Required Core Areas (9 credit hours)

epistemology (3)

metaphysics (3)

value theory (3)

Electives and Research (15 or 21 credit hours)

Culminating Experience (0 or 6 credit hours)

PHI 599 Thesis (6) or

portfolio (0)

Additional Curriculum Information

There are two culminating experience options for the master's degree program in philosophy: the thesis option and the nonthesis portfolio option.

Thesis students take 15 credit hours of electives. Portfolio students take 21 credit hours of electives, which must include PHI 592 Research for three credit hours.

Students should see the academic unit for the list of courses approved for each core area in epistemology, metaphysics and value theory.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- curriculum vitae
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>), a copy of an article or research paper in their native or principal research language, as well as the English writing sample required of all students regardless of their current residency. The philosophy program requires a TOEFL iBT score of at least 100, or a score of 7.0 on the IELTS.

The statement of purpose should explain the applicant's specific intent and be no more than 600 words in length.

The writing sample must be a piece of philosophical writing, preferably a seminar paper or published article of no more than 20 pages and not a thesis or dissertation.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will be able to identify and articulate a philosophical problem or question in one of the core areas in philosophy --- that is, metaphysics, epistemology and value theory.
- Students will be able to construct a reasoned defense of a clear, creative, and original solution to a philosophical problem in one of the core areas of philosophy --- that is, metaphysics, epistemology and value theory.
- Students will be able to evaluate a solution or answer to a philosophical problem or question (such as one of those explicated in the course readings).
- Students will be able to explain a philosophical argument or point verbally.

Career Opportunities: Both the Master of Arts and doctoral programs in philosophy help students develop and hone skills that are highly marketable and easily transferable.

Philosophy teaches its students to think critically, creatively and imaginatively. Though routine jobs are increasingly being lost to advances in automation and artificial intelligence, these skills are irreplaceable by technology, highly sought-after by employers and transferrable from one occupation to another. Graduates have the ability to read closely and with a critical eye; to analyze complex problems and identify all the possible solutions, including some creative solutions; to assess the merits of each possible solution; and to articulate and argue for or against various possible solutions in clear, precise and unambiguous language.

As philosophy focuses on honing certain skills rather than acquiring a particular body of knowledge, philosophy prepares its students for a wide variety of careers rather than for just one particular occupation. Indeed, philosophy prepares its students for any career requiring problem-solving; clear, critical and creative thinking; and excellent reading, writing and communication skills.

The master's degree program in philosophy is designed to prepare students to enter doctoral programs; teach philosophy at the community college level; or work in any area that requires critical, analytical thinking, such as medicine, law, government or publishing.

Career examples include:

- businessperson
- computer programmer
- counselor
- educator
- journalist
- lawyer
- politician
- public policy analyst
- publisher
- writer

Philosophy, PHD (LAPHILPHD)

Online Degree Search Title: Philosophy, PhD

Campus: Tempe

Program Description: General areas of research include ethics, political philosophy, metaphysics, epistemology, philosophy of law, philosophy of science, philosophy of language, philosophy of religion and the history of philosophy. The program features a focus on practical and applied philosophy and an interdisciplinary coursework component related to the student's research topic.

Practical philosophy includes the fields of ethics, philosophy of law, social and political philosophy, feminist ethics and political philosophy.

Applied philosophy includes the application of theories developed within any of the subdisciplines of philosophy to everyday problems or phenomena, such as the application of the philosophy of language in relation to hate speech, or the philosophy of mind in relation to computing and artificial intelligence. Applied philosophy also includes the application of research produced by methods used in other disciplines in order for the student to understand and address philosophical questions, like the application of data-gathering instruments used in psychology to answer questions in experimental philosophy.

Students may design dissertation projects in any of the major subfields of philosophy. For their interdisciplinary coursework supporting the dissertation project, students might, for example, pursue a certificate in social transformation, gender studies, responsible innovation in sciences, or engineering and society.

Members of the faculty are involved in interdisciplinary work in a variety of fields and enjoy close ties with the Lincoln Center for Applied Ethics, the College of Law and a number of other graduate programs at the university. The ASU philosophy faculty group sponsors an active colloquium series and regular philosophical conferences on diverse topics. The Lincoln Center for Applied Ethics also sponsors a wide range of activities, including large-scale conferences, distinguished visitors and support for graduate study.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core Areas (15 credit hours)

applied philosophy (3)

epistemology (3)

formal methods (3)

metaphysics (3)

value theory (3)

Electives (39 credit hours)

Research (18 credit hours)

PHI 792 Research (12)

Culminating Experience (12 credit hours)

PHI 799 Dissertation (12)

Additional Curriculum Information

Students should see the academic unit for the list of courses approved for each required core area.

In completing the electives requirements, at least nine credit hours and no more than 18 credit hours must be from other disciplines supporting the student's proposed dissertation area; 30 credit hours from a previously awarded master's degree may apply toward this requirement with approval by the student's supervisory committee and the Graduate College.

To ensure breadth in the traditional areas of philosophy, students must pass with a grade of "B" or better (3.00 on a 4.00 scale).

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- curriculum vitae
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>), a copy of an article or research paper in their native or principal research language, as well as the English writing sample required of all students regardless of their current residency. The philosophy program requires a TOEFL iBT score of at least 100, or a score of 7.0 on the IELTS.

The statement of purpose should explain the applicant's scholarly background and training, career goals, the primary field the applicant wishes to pursue and the proposed research specialization (no more than 600 words in length).

The writing sample must be a piece of philosophical writing, preferably a seminar paper or published article of no more than 20 pages.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Achieve competence with philosophical literature and writing
- Achieve professional-level skills in mastering literature and philosophical writing
- Able to identify and articulate a philosophical problem or question in one of the core areas in philosophy --- that is, metaphysics, epistemology and value theory

Career Opportunities: Both the MA and doctoral programs in philosophy help students develop and hone skills that are highly marketable and easily transferable.

Philosophy teaches its students to think critically, creatively and imaginatively. Though routine jobs are increasingly being lost to advances in automation and artificial intelligence, the skills taught by philosophy are irreplaceable by technology, highly sought-after by employers and transferrable from one occupation to another. Graduates have the ability to read closely and with a critical eye; to analyze complex problems and identify all the possible solutions, including some creative solutions; to assess the merits of each possible solution; and to articulate and argue for or against various possible solutions in clear, precise and unambiguous language.

As philosophy focuses on honing certain skills rather than acquiring a particular body of knowledge, philosophy prepares its students for a wide variety of careers rather than for just one particular occupation. Indeed, philosophy prepares its students for any career requiring problem-solving; clear, critical and creative thinking; and excellent reading, writing and communication skills.

The program is designed to prepare students for careers as philosophers, as teachers of philosophy and in areas in which they may benefit from advanced training in philosophy, such as law, civil service and publishing.

Career examples include:

- businessperson

- computer programmer
- counselor
- educator
- journalist
- lawyer
- politician
- public policy analyst
- publisher
- writer

Physics, MS (LAPHYSIMS)

Online Degree Search Title: Physics, MS

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description: The MS program in physics provides graduate instruction and research experience appropriate to many physics-related careers. The structure of the program is flexible enough to allow a wide range of programs of study and a wide range of student backgrounds. It is also suitable for part-time study.

Completion of the program requires a minimum of two years, with students typically taking courses for the first three semesters and completing a research project in their final semester. Each student defends a master's degree thesis at the end of the program.

Degree Requirements:

30 credit hours and a thesis.

The master's degree in physics can emphasize either physics or physics in combination with other fields.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in physics or a closely related field from a regionally accredited institution. To be admitted to the master's degree program in physics without deficiencies, applicants should have adequate undergraduate preparation equivalent to an undergraduate major of 30 credit hours in physics and 20 credit hours in mathematics. Courses in analytic mechanics, electromagnetism and modern physics, including quantum mechanics, are particularly important.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) in the form of a TOEFL or equivalent score regardless of their current residency.

Financial support in the form of teaching or research assistantships is contingent upon satisfactory performance in coursework, timely completion of the final examination for the master's degree, and need and availability of such support.

Students on probation are offered financial support only under exceptional circumstances.

Career Opportunities: As professional physicists, graduates can advance the frontiers of physics by generating new knowledge in their subfield while working on the most challenging scientific problems at the forefront of human understanding. Physicists are valued for their analytical, technical and mathematical skills and find employment in a vast majority of employment sectors, including:

- academia
- engineering

- finance
- technology

Physics, PHD (LAPHYSIPHD)

Online Degree Search Title: Physics, PhD

Campus: Tempe

Program Description: The PhD program in physics is intended for highly capable students who have the interest and ability to follow a career in independent research.

The recent advent of the graduate faculty initiative at ASU extends the spectrum of potential physics doctoral topics and advisors to include highly transdisciplinary projects that draw upon:

- biochemistry
- biology
- chemistry
- electrical engineering
- materials science
- other related fields

Consequently, students and doctoral advisors can craft novel doctoral projects that transcend the classical palette of physics subjects. Transdisciplinary expertise of this nature is increasingly vital to modern science and technology.

Current areas of particular emphasis within the department include:

- biological physics
- cosmology
- electron diffraction and imaging
- nanoscale and materials physics
- particle physics and astrophysics

The department has more than 90 doctoral students and more than 40 faculty members.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (18 credit hours)

PHY 500 Research Methods (6)

PHY 521 Classical and Continuum Mechanics (3)

PHY 531 Electrodynamics (3)

PHY 541 Statistical Physics (3)

PHY 576 Quantum Theory (3)

Electives or Research (54 credit hours)

Culminating Experience (12 credit hours)

PHY 799 Dissertation (12)

Additional Curriculum Information

Of particular note within the core courses are the PHY 500 Research Methods rotations, which are specifically designed to engage doctoral students in genuine, faculty-guided research starting in their first semester. Students complete three credit hours of PHY 500 in both their fall and spring semesters of their first year, for a total of six credit hours.

Coursework beyond the core courses is established by the student's doctoral advisor and supervisory committee, working in partnership with the student. The intent is to tailor the doctoral training to the specific research interests and aptitudes of the student while ensuring that each graduating student emerges with the expertise, core knowledge and problem-solving skills that define having a successful doctoral degree in physics.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 credit hours of coursework are made up of electives to reach the required 84 credit hours.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in physics or a closely related area from a regionally accredited institution. Applicants must have had adequate undergraduate preparation equivalent to an undergraduate major of 30 credit hours in physics and 20 credit hours in mathematics. Courses in analytic mechanics, electromagnetism and modern physics, including quantum mechanics, are particularly important.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Applicants requesting credit for prior graduate courses, taken either at ASU or elsewhere, must demonstrate mastery of the relevant course material to the graduate-level standards of the Department of Physics.

Career Opportunities: As professional physicists, graduates can advance the frontiers of physics by generating new knowledge in their subfields while working on the most challenging scientific problems at the forefront of human understanding. Graduates find positions in a variety of settings, such as administration, government labs, industrial labs and management, and as academic faculty.

Physicists are valued for their analytical, technical and mathematical skills and find employment in a vast array of employment sectors, including:

- academia
- engineering
- finance
- technology

Plant Biology and Conservation, MS (LAPLBIOMS)

Online Degree Search Title: Plant Biology and Conservation, MS

Campus: Tempe

Program Description: The MS program in plant biology and conservation provides students with advanced training in plant molecular and cellular biology, biotechnology, functional genomics, paleobotany, ecology, evolution and floristics, as well as in theory and practice of conservation biology.

Students have the opportunity to work with faculty and researchers from ASU and the Desert Botanical Garden, located in Phoenix near ASU's Tempe campus.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help

international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

30 credit hours and a thesis.

Required Core (3 credit hours)

PLB 502 Perspectives in Plant Biology (3)

Research (3 credit hours)

PLB 592 Research (3)

Electives (17 credit hours)

Other Requirements (1 credit hour)

BIO 591 Seminar (1)

Culminating Experience (6 credit hours)

PLB 599 Thesis (6)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in biology, botany or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Able to review the literature relevant to a research question in plant biology and conservation.
- Able to execute a research plan of their own design to address a scientific question about plant biology and conservation.
- Able to communicate research findings clearly and accurately in oral presentations and in writing to the scientific community and to the public.

Career Opportunities: The conservation field demonstrates a growing need for botanists and conservation biologists in academic institutions; agricultural, biotechnological and landscape companies; government agencies; and nongovernmental organizations.

A master's degree in plant biology and conservation provides strong preparation for academic careers. The skills and knowledge obtained in this program are also valuable for government careers in federal and state agencies responsible for management and conservation, and for careers in industry and nongovernmental organizations.

Career examples include:

- conservation scientists at parks and natural resource centers, museums and national forests
- food and agriculture scientists in academic, private and industrial labs
- instructors at community colleges

- researchers and technicians in government labs and nonprofit organizations
- science teachers in elementary and high schools

Contact Information:

Liberal Arts and Sciences, The College of

Political Psychology, MA (LAPPSMA)

Online Degree Search Title: Political Psychology, MA

Campus: Online

Program Description: Developed as an interdisciplinary program crossing political science and psychology, the MA in political psychology was created to aid in the professional advancement of electoral and issue advocacy campaign professionals, government and private sector careers, and careers in nonprofit organizations. Students learn the skills they need to mobilize voters and social movements; advance governmental programs; design successful political communication strategies; and effectively market political candidates for local, state and federal offices.

The program's mission is to educate students in the most recent insights from evidence-based research, prepare students with innovative tools and with knowledge that gives them an advantage over their peers, and to encourage hands-on training that ensures they can apply their classroom learning. Students have regular interactions with world-class teachers and researchers who help students learn how to shape the world in a meaningful and positive way.

The School of Politics and Global Studies is host to the Future Security Initiative, the Center for Latina/os and American Politics Research, and the SPGS Experimental Laboratory. The Department of Psychology hosts 10 doctoral, master's degree and graduate certificate programs that investigate issues such as social influence and persuasion, prejudices and discrimination, and neuroscience and clinical pathology. Faculty members are active in collaborative interdisciplinary research at ASU and with scholars at other universities, and have won many major grants and awards.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Political Science, BS
- Political Science, BA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required capstone course (PPS 550).

Required Core (3 credit hours)

PPS 501 Fundamentals of Political Psychology (3)

Other Requirement (6 credit hours)

PPS 504 Attitudes and Persuasion (3)

PPS 506 Experimental Design (3)

Electives (18 credit hours)

Culminating Experience (3 credit hours)

PPS 550 Capstone (3)

Additional Curriculum Information

Students should see the academic unit for a list of approved elective courses.

Other requirement coursework may be substituted with approval from the program director. Substitutions are based on student interest in narrowing their specialization with guidance. This program does not seek to replicate existing communications or marketing degrees, but rather harness the political psychology perspective as applied to a variety of potential student interests and careers.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- letter of intent or written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

A letter of recommendation is strongly encouraged but not required. The preferred type of letter of recommendation is an academic recommendation, but a letter from an employer or other supervisor is also permitted. The letter should address topics such as the applicant's analytical skills, ability to integrate information, level of motivation, ability to meet deadlines and work ethic. Once the application has been submitted, the listed recommender will receive an email with instructions for providing their recommendation.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/political-psychology-ma/>) for program descriptions and to request more information.

Career Opportunities: The Master of Arts program in political psychology prepares students for a variety of careers in politics and related fields. An understanding of how voters make decisions and behave is crucial for jobs in political campaigns, grassroots organizations and political party organizations. The communication skills developed in this program could lead to careers in political marketing or political advertising. Graduates are also prepared for a variety of jobs in local, state or federal government.

Career examples include:

- campaign manager
- campaign strategist
- community organizer
- fundraising consultant
- issue advocacy consultant
- legislative aide
- lobbyist
- media strategist
- political analyst
- political marketing manager

Political Science, MA (LAPOLSCMA)

Online Degree Search Title: Political Science, MA

Campus: Tempe

Program Description: The MA program in political science offers a variety of areas of specialization within and between the four main subfields of political science --- American politics, comparative politics, international relations and political theory --- with particular strengths in ethnoreligious dynamics, women and politics, political violence, human rights, political psychology, political economy and Latino politics.*

Faculty are also active in collaborative interdisciplinary research at ASU and with scholars at other universities; many have won major grants and awards. The school is host to the Future Security Initiative, the Center for Latina/os and American Politics Research and an experimental lab.

Faculty are also affiliated with other centers at ASU, such as the Leadership, Diplomacy and National Security Lab, the Center for the Study of

Religion and Conflict, the Melikian Center for Russian, Eurasian and East European Studies, as well as the Center for the Study of Economic Liberty.

This Master of Arts program may be taken as a terminal program or as a step toward eventual fulfillment of the requirements for the doctorate. Students who plan to obtain the doctorate at ASU should apply directly to the doctoral program.

*Students interested in a political theory specialization should consult with the academic unit prior to application.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Global Studies, BA
- Political Science, BA
- Political Science, BS
- Politics and the Economy, BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis.

Required Core Course (3 credit hours)

POS 503 Empirical Political Inquiry (3)

Other Requirements (6 credit hours)

focus area course (3)

POS 603 Polimetrics I or second focus area course for political theory (3)

Electives (15 or 21 credit hours)

Culminating Experience (0 or 6 credit hours)

POS 599 Thesis (6) or

portfolio (0)

Additional Curriculum Information

Students who select the thesis option must submit a written thesis and hold an oral defense. Students who select the portfolio option must submit a written paper and hold an oral defense.

The course POS 603 Polimetrics I may be substituted with permission of both the director of Graduate studies and the faculty advisor. Students in the political theory focus area take a second focus area course instead of POS 603.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- three letters of recommendation
- list of political science courses taken
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The personal statement should be one to three pages and should describe the areas of political science the applicant wishes to study, post-graduation goals and why the School of Politics and Global Studies is the best fit for the applicant. Applicants may also mention any faculty members with whom they are interested in working and why, as well as provide context for any discrepancies in their educational background.

The writing sample is typically a research paper or other similar paper that demonstrates the applicant's critical thinking and writing skills in political science or a related field. There is no length requirement for the writing sample, but it should be a sufficient length for the admissions committee to evaluate the applicant's knowledge and skills.

To assist in evaluating all candidates, the applicant should list titles and related information for all previous undergraduate and graduate courses or coursework in political science or related fields. The file must be saved in a .pdf, .doc, .rtf or .txt format and uploaded with the online graduate admission application. The information should be in a table with the following column headings: Course Title, Undergrad Credit Hours, Graduate Credit Hours, Grade, Institution, Year.

Undergraduate coursework in political science is not a prerequisite for admission. However, master's degree students should have a basic understanding of elementary statistics and the undergraduate content of the political science fields of concentration that they wish to study. Students should allow sufficient time to acquire such a background.

Career Opportunities: Graduates are prepared for research or applied careers in political science in government, nonprofits and the private sector. Career examples include:

- campaign consultant
- campaign strategist
- data analyst
- lobbyist
- research specialist

Political Science, PHD (LAPOLSCPHD)

Online Degree Search Title: Political Science, PhD

Campus: Tempe

Program Description: The PhD program in political science is intended to develop scholars who demonstrate a high level of excellence in teaching and research as professional political scientists. It offers a variety of areas of specialization within and between the four main subfields of political science: American politics, comparative politics, international relations and political theory. Students interested in a political theory specialization should consult with the academic unit prior to application.

Program faculty have particular strengths in Latino and Latina politics, women and politics, ethnoreligious dynamics, political violence, human rights, political psychology and political economy.

The school is host to the Center for Latina/os and American Politics Research, the Future Security Initiative and an experimental lab. Faculty are also affiliated with other centers at ASU, such as the Leadership, Diplomacy and National Security Lab; the Center for the Study of Religion and Conflict; the Melikian Center for Russian, Eurasian and East European Studies; as well as the Center for the Study of Economic Liberty. Many faculty members are active in collaborative interdisciplinary research at ASU and with scholars at other universities, and they have won major grants and awards, as have the school's doctoral students.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

POS 503 Empirical Political Inquiry (3)

Electives and Research (69 credit hours)

Culminating Experience (12 credit hours)

POS 799 Dissertation (12)

Additional Curriculum Information

A maximum of 12 credit hours of approved coursework outside the department but within ASU may count toward the required 84 credit hours.

Coursework beyond the 12-credit-hour maximum may be taken outside the department with permission of both the director of Graduate Studies and the faculty advisor.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework is made up of electives and research to reach the required 84 credit hours.

Also required is a formal oral defense of the dissertation and a written comprehensive examination in the major field.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- GRE scores
- three letters of recommendation
- list of political science courses taken
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

ASU does not accept the GRE® General Test at home edition.

To assist in evaluating all candidates, the applicant should list titles and related information for all previous undergraduate and graduate courses or coursework in political science or related fields. The file must be saved in a .pdf, .doc, .rtf or .txt format and uploaded with the online graduate admission application. The information should be in a table with the following column headings: Course Title, Undergrad Credit Hours, Graduate Credit Hours, Grade, Institution, Year.

Undergraduate coursework in political science is not a prerequisite for admission. However, applicants to the doctoral program should have a basic understanding of elementary statistics and the undergraduate content of the political science fields of specialization that they wish to study. Students without this background should allow sufficient time to acquire it.

The personal statement (one to three pages) should describe the areas of political science the applicant wishes to study, post-graduation goals, and why the School of Politics and Global Studies is the best fit for the applicant. Applicants may also mention any particular faculty members with whom they are interested in working and why, as well as provide context for any discrepancies in their educational background.

The writing sample is typically a previously written research or other similar paper that best demonstrates the applicants critical thinking and writing skills in political science or a related field. There is not a length requirement for the writing sample, but it should be of sufficient level to allow the admissions committee to evaluate the applicant's knowledge and skills.

Career Opportunities: Program graduates have a strong track record of obtaining positions in academic, public and private sectors. The program works closely with students so they have the opportunity and tools needed to achieve their career goals. The doctoral program provides advanced education for students preparing for teaching, research or applied careers in political science in government, nonprofits and the private sector.

Career examples include:

- campaign consultant
- campaign strategist
- data analyst
- lobbyist
- research specialist
- tenure-track or instructional faculty in political science

Psychology, PHD (LAPSYCHPHD)

Online Degree Search Title: Psychology, PhD

Campus: Tempe

Program Description: The PhD program in psychology offers comprehensive training in innovative research methods and the application of psychological principles across various human conditions. This program stands out with six highly ranked areas of study:

- behavioral neuroscience and comparative psychology
- clinical psychology
- cognitive psychology
- developmental psychology
- quantitative research methods (formal degree concentration (<https://degrees.apps.asu.edu/masters-phd/major/ASU00/LAPSYQUPHD/psychology-quantitative-research-methods-phd>))
- social psychology

Each specialization shapes the core curriculum for its students, encouraging interdisciplinary learning opportunities across the university.

Faculty engage students in groundbreaking research, fostering theoretical exploration in areas such as evolution and behavior; cognitive processes such as attention and memory; personality studies; and societal issues such as stigma and prejudices. Students investigate diverse topics, including individual resilience, cultural influences, neurobiological and psychosocial factors impacting behavior and health, child mental health prevention and life span developmental aspects of emotion and cognition.

A unique strength of this doctoral psychology program is the wealth of outstanding faculty who excel in quantitative methods. No matter their specialized area of focus, students gain access to a wide variety of courses and hands-on experiences, seamlessly integrating quantitative methodologies into their work.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 or 4 credit hours)

PSY 502 Professional Issues in Psychology (3) or

PSY 531 Multiple Regression in Psychological Research (4)

Electives and Research (68 or 69 credit hours)

Culminating Experience (12 credit hours)

PSY 799 Dissertation (12)

Additional Curriculum Information

In addition to required coursework pertaining to the training area, students take courses related to their area of interest, as determined in consultation with their supervisory committees. Requirements vary across training areas.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in psychology or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee

- official transcripts
- SlideRoom application and fee
- statement of purpose form
- curriculum vitae or resume
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

ASU does not accept the GRE® General Test at home edition.

To apply to the doctoral programs, applicants must follow the instructions on the doctoral program admission instructions and checklist. It is strongly recommended that applicants download and print this form to ensure completion of the application process and include all of the required supplemental forms.

The Department of Psychology application process is completed online through ASU's graduate admission services, which includes the application form and official transcripts. Application to Department of Psychology doctoral programs is also completed via SlideRoom, for processing of supplemental application materials. The SlideRoom account requires an additional fee.

Applicants must submit three academic letters of recommendation from faculty members who know the student well. Three letters are required, but four letters of recommendation may be submitted.

Career Opportunities: The doctorate in psychology opens up diverse career opportunities across academia, education, health care, industry, government and community organizations. This program equips students with a versatile skill set in research design, data analysis, measurement, mental health assessment, treatment and program evaluation.

Graduates are prepared for impactful roles such as consultants, data scientists-biostatisticians, program evaluation specialists, licensed clinical psychologists, psychology professors, research associates, research professors, senior analysts, staff psychologists and teaching faculty.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Psychology (Quantitative Research Methods), PHD (LAPSYQUPHD)

Online Degree Search Title: Psychology (Quantitative Research Methods), PhD

Campus: Tempe

Program Description: The PhD program in psychology with a concentration in quantitative research methods offers an immersive education in advanced statistical techniques and research methodologies that are employed in the conduct of both basic and applied psychological research.

A collaborative, interdisciplinary approach to research empowers students to deepen their understanding and tackle key issues, such as exploring the limits of existing methods, pushing the methodological frontiers forward, evaluating the effectiveness of established and emerging methodologies, and improving the robustness of psychological research through innovative measurements and analytical methods.

What sets this program apart is its distinguished, award-winning faculty, known for their expertise and dedication to training the next generation of psychological methodologists. Alongside the faculty, students gain practical experience and master techniques in the areas of measurement, study design, data analysis, statistical modeling, and evaluation of the utility of new and existing methods.

Graduates of this program emerge as experts in quantitative research who are prepared to make meaningful contributions to the field by developing and applying sophisticated statistical and methodological solutions to address pressing research issues.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the

STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

PSY 201

psychgrad@asu.edu

480-727-4561

Public History (Certificate), Certificate (LAPHGRCT)

Online Degree Search Title: Public History (Graduate Certificate)

Campus: Tempe, Online

Program Description: The graduate certificate in public history offers students the opportunity to explore local and community history, digital humanities, historic preservation, oral history, cultural resources management, historical administration, museum studies, archival training and scholarly publishing. Students work with faculty conducting research in a variety of historical and applied fields, all of which emphasize the intersection of theory and practice in public history.

By its nature, public history training must move beyond the classroom, and with a professional experience built in conjunction with community partners, students can develop their professional networks and be introduced to the process and settings in which they will build careers.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

HST 502 Public History Methodology (3)

HST/WWS 585 Professional Experience (3)

Other Requirements (3 credit hours)

HST 580 Practicum (3) or

HST/WWS 585 Professional Experience (3) or

WWS 563 The Lived Experience of World War II (3)

Electives (6 credit hours)

Additional Curriculum Information

HST 585 Professional Experience is crosslisted with WWS 585 Professional Experience, and students can take either section to fulfill certificate requirements. For Other Requirements coursework, students complete either an additional 3 credit hours of HST/WWS 585, WWS 563 The Lived Experience in World War II or take an HST 580 course from an approved list. Students should see the unit for an approved list of other requirements and elective topics.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admissions application and application fee
- official transcripts
- personal statement
- professional resume
- written statement
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of current residency. The history program requires a TOEFL iBT® score of at least 90, taken in a testing center.

The personal statement, about 500 words in length, should be addressed to the history admission committee and should explain the applicant's scholarly background and training, career goals, and why the applicant wants to pursue graduate study at ASU in public history.

The written statement should respond to the following prompt: Public history is most simply defined as history put to work in the world. In a brief statement (about 500 words), tell us your experiences in, or thoughts about, how you have (or would like to) put history to work in the world and how ASU's public history program might help you accomplish your career and/or intellectual goals as a historian.

All applications are reviewed by multiple ASU faculty members and assessed holistically to determine if they demonstrate the capacity to succeed in a rigorous and writing-intensive graduate program. This decision is made on the basis of prior coursework (particularly in history and other social sciences), the quality of the written statement and the personal statement. Prior coursework in history is not a requirement, but in such cases, applicants will want to have a strong written statement.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/public-history/>) for program descriptions and to request more information.

Global Opportunities:

Global Experience: Study abroad (<https://goglobal.asu.edu/students/graduate-students>) is possible for graduate students. There are more than 50 program opportunities, with programs on every continent. Faculty-directed programs tend to be the best fit for graduate students; taking courses with ASU professors over the summer or during academic breaks offers students close mentorship and professional network growth in many fields of study while they earn ASU credit. Exchange program participation is also possible with careful planning.

Within the public history certificate program, students also have the option to organize a professional experience opportunity that can take place abroad. Students need to consult with the academic unit directly for more information about these professional experience options.

Career Opportunities: Graduates possess the theoretical knowledge and practical, hands-on training experience needed for careers in research, teaching, government service, public history and a host of other positions in the public, private and nonprofit sectors.

Graduates serve as first-rate historians, researchers and consultants, foreign service officers, management professionals, community organizers and public servants.

Other career examples include:

- archivist
- collections manager
- editor
- museum director
- national parks historian and park ranger
- nonprofit director

Religious Studies, MA (LARELIGMA)

Online Degree Search Title: Religious Studies, MA

Campus: Tempe

Program Description: The faculty in religious studies offer a graduate program leading to the MA in religious studies.

Candidates are offered an opportunity to develop knowledge of various religious traditions in their historical and cultural contexts and to learn research methods. Although students often concentrate upon a single religious tradition for their thesis work, the program provides a broadly comparative understanding of religions, not simply a specialist's training in a single tradition.

Degree Requirements:

30 credit hours including the required applied project course (REL 593) and a foreign language exam, or 30 credit hours, a thesis and a foreign language exam.

Required Core (6 credit hours)

REL 501 The Study of Religion I: Genealogies, Disciplines and Power (3)

REL 502 The Study of Religion II: Epistemology, Practice and Mediation(3)

Electives or Research (18 or 21 credit hours)

Culminating Experience (3 or 6 credit hours)

REL 593 Applied Project (3) or

REL 599 Thesis (6)

Additional Curriculum Information

There are two options for the culminating experience: a thesis or an applied project. An oral defense of the final written work is required for both options.

The thesis option is recommended for students intending to seek admission to a doctoral program upon completion of the master's degree or for students who plan to teach in the discipline at community colleges. Thesis students must have reading knowledge of all languages relevant to the proposed thesis topic and take 18 credit hours of electives or research coursework.

The applied project option is recommended for students intending to augment their primary area of expertise and professional training in fields such as counseling, journalism, K-12 education, law, social work and the ministry. The applied project requires submission of three publishable papers: one on theory and method, one on the student's minor area of study, and one on the major area of study. The student's chosen areas of study determine the coursework taken as electives, with applied project students taking 21 credit hours of electives coursework, four courses being in a major area of study and two courses being in a minor area. Reading knowledge of a foreign language relevant to the proposed area of study is required.

The student's plan of study may include up to six credit hours of 400-level coursework or one REL 690: Reading and Conference course with department approval.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Transcripts must show evidence of having completed the equivalent of 15 credit hours of undergraduate work in the study of religions, including advanced courses in both western and Asian or other nonwestern religions. Applicants who have not met this requirement may be required to take additional coursework beyond program requirements to remedy this deficiency.

Applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program. The most competitive applicants have a GPA of 3.50 or higher.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- curriculum vitae
- writing sample
- contact information for three references
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency
2024-25 Academic Catalog Archive

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Students are required to submit contact information for three academic references who are qualified to provide detailed, accurate evaluations of the applicant's potential as a graduate student in religious studies. Professors are preferred, particularly faculty advisors. Recommenders are contacted by the Graduate College with a request to complete a reference questionnaire.

The statement of purpose should be approximately 1,000 words and should outline the applicant's academic background, career goals and specific areas of interest in religious studies.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will be able to critique and evaluate classical and contemporary theoretical approaches through the examination and evaluation of supporting literature and data in the academic study of religion.
- Students will be able to develop important research questions through critical analysis of primary and secondary sources.
- Students will engage in original research leading to understanding and explaining developments in religion and their broader impact and to present their findings in a clearly written prospectus proposal and defense.

Career Opportunities: The Master of Arts program in religious studies provides students with training and knowledge relevant to careers in government, nongovernmental organizations, nonprofit organizations, global relationships, intercultural understanding, foreign service, researchers, professional writing, journalism and publishing.

Career examples include:

- book editor
- community college instructor
- foreign service employee
- global affairs writer
- nongovernmental organization professional
- nonprofit management

Religious Studies, PHD (LARELIGPHD)

Online Degree Search Title: Religious Studies, PhD

Campus: Tempe

Program Description: The academic study of religion is a central component of the humanities and has become increasingly recognized as a critical tool in understanding society and politics in a globalized world.

The PhD program in religious studies helps graduate students develop greater expertise regarding the nature and role of religion around the world. The program provides supplementary training that includes history, anthropology, political science, journalism, secondary education and justice studies.

Doctoral focus areas in the study of religion approach the study in a variety of contexts. Specifically offered are areas in:

- anthropology of religion
- global Christianity
- Islam in global contexts
- religion in Asia
- religion in the Americas

Degree Requirements:

84 credit hours, foreign language exams, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

REL 501 The Study of Religion I: Genealogies, Disciplines and Power (3)

REL 502 The Study of Religion II: Epistemology, Practice and Mediation (3)

Other Requirement (3 credit hours)

REL 700 Research Methods (3)

Electives (51 credit hours)

Research (12 credit hours)

REL 792 Research (12)

Culminating Experience (12 credit hours)

REL 799 Dissertation (12)

Additional Curriculum Information

Students must choose one of the five focus areas that are listed in the program description, and they select courses for the focus area as part of their electives in consultation with their supervisory committee.

As part of electives, students may include up to three credit hours of REL 690 Reading and Conference. Additionally, students may select up to six credit hours of graduate-level courses from a related discipline that support the student's research.

Other requirement course REL 700 may be substituted with approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program may allow up to 30 credit hours from a previously awarded master's degree to be used for this program. If students do not have a previously awarded master's degree, the remaining coursework will be made up of electives and research.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution. Transcripts must show evidence of having completed the equivalent of 15 credit hours of undergraduate work in the study of religions, including advanced courses in both western and Asian or other nonwestern religions. Applicants who have not met this requirement may be required to take additional coursework beyond program requirements to remedy this deficiency.

Applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in an applicable master's degree program. The most competitive applicants have a GPA of 3.50 or higher.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- curriculum vitae
- writing sample
- contact information for three references
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The statement of purpose should be approximately 1,000 words describing the applicant's academic background, the reasons for wishing to pursue a doctorate in religious studies, the proposed area of specialization, and specific research topics the student plans to engage in at Arizona State University.

The writing sample should be a work of original scholarly writing, approximately 15 to 30 pages in length. It should represent the student's best academic writing.

Students are required to submit contact information for three academic references who are qualified to provide detailed, accurate evaluations of the applicant's potential as a graduate student in religious studies. Professors, particularly faculty advisors, are preferred. Recommenders are contacted by the Graduate College with a request to complete a reference questionnaire. Letters of recommendation can be submitted in addition to answering these questions online.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will analyze and present theories and methods in the study of religion through in-class discussion, oral presentation and submission of an original written seminar paper.
- Students will critically analyze religions by formulating research questions, examining various kinds of qualitative data, and drawing connections to relevant secondary literatures.
- Students will conduct original research through a doctoral study drawing connections to relevant secondary literature, collect and analyze primary data, communicate, and defend responses to research questions.

Career Opportunities: Graduates possess training and knowledge relevant to careers in a variety of different roles and in a range of employment sectors. Some typical employers include government agencies, especially the U.S. Department of Health and Human Services; nongovernmental organizations; schools, colleges and universities; charities and nonprofit organizations; social services; and churches and other religious organizations.

Career examples include:

- book editor
- case management director
- church administrator
- foreign service employee
- global affairs writer
- nongovernmental organization professional
- nonprofit manager
- professional researcher and writer
- university instructor

Scientific Teaching in Higher Education (certificate), Certificate (LASTHEGRCT)

Online Degree Search Title: Scientific Teaching in Higher Education Certificate (Graduate Certificate)

Campus: Tempe

Program Description: The graduate certificate program in scientific teaching in higher education provides graduate students with the skills and knowledge needed for implementing and evaluating evidence-based teaching at the college level.

As part of the program, students gain experience teaching science in a higher education setting, take teaching-related coursework and complete a culminating experience under the guidance of a scientific teaching faculty mentor. This culminating experience can be either a significant teaching experience, including the use of evidence-based teaching, or discipline-based education research focused on undergraduate science education.

Degree Requirements:

15 credit hours including the required applied project course (BIO 593).

Required Core (2 credit hours)

BIO 530 Scientific Teaching (2)

Electives (10 credit hours)

Culminating Experience (3 credit hours)

BIO 593 Applied Project (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admissions application and application fee
- official transcripts

- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Career Opportunities: Professionals with expertise in scientific teaching are in high demand in academia and educational institutions, and the skills and knowledge they obtain in this program are also valuable for careers in federal and state agencies that are responsible for educational policy, in industry and in nongovernmental organizations.

Career examples include:

- educators in nonprofit organizations and government agencies
- professors or instructors in universities and colleges
- science teachers in elementary and high schools

LSA 181

sols.grad@asu.edu

480-965-1768

Sexuality Studies (Certificate), Certificate (LASXSGRCT)

Online Degree Search Title: Sexuality Studies (Graduate Certificate)

Campus: Tempe

Program Description: The graduate certificate program in sexuality studies addresses the social construction, political economy and cultures of sexualities and genders. This program interrogates heterosexuality and institutionalized heteronormativity and cisgenderism, and addresses lesbian, gay, bisexual, transgender, queer and two-spirit identities and expressions as well as nonnormative sexual and gender identities that are not captured by LGBTQ+ categories.

This program allows students the flexibility to work with courses in sexuality and gender studies defined broadly, which are offered across disciplines and units at ASU. Students gain theoretical and analytic tools to examine gendered and racialized sexual structural inequities and how social issues, economic inequalities and state institutions impact and are impacted by sexuality as a social norm. In addition, coursework enables students to further investigate sexualities in relation to sexual stratification, reproductive rights and justice, sexual health and justice, carceral genders and sexualities, sex work, the state and legal system, and transnational and diasporic formations of sexualities and genders. The program integrates disciplinary, multidisciplinary and interdisciplinary perspectives.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

SST 604 Sexuality Studies (3)

Electives (12 credit hours)

Additional Curriculum Information

For elective coursework, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a statement of purpose for pursuing the certificate
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The certificate is open only to current ASU degree-seeking students. However, with academic unit and Graduate College approval, up to nine credit hours of ASU nondegree credit may be transferred to the certificate program for those who eventually gain admission to an ASU graduate degree program. This is administered by the graduate certificate committee. Students should refer to the Graduate College policy on certificate programs.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students in the sexuality studies certificate will be able to analyze how sexuality has been conceptualized and understood as an interdisciplinary category of analysis across the humanities, social sciences and behavioral sciences.
- Students completing the certificate will be able to articulate key theories that have contributed to the development of sexuality studies and their significance.

Career Opportunities: Graduates of the program have gone on to careers at universities, research and policy institutes, government organizations and nonprofit organizations.

Social and Cultural Pedagogy, MA (LASCPMA)

Online Degree Search Title: Social and Cultural Pedagogy, MA

Campus: Tempe

Program Description: The MA in social and cultural pedagogy is a two-year program designed for educators with professional experience who seek to develop real-world skills and practical knowledge to help them accomplish specific career goals.

After they are equipped with philosophical, theoretical and practical knowledge on social pedagogy, students are able to analyze social structures and cultural dynamics and work with communities to address complex societal problems through the design, implementation and evaluation of socio-educational strategies.

Students have the opportunity to create an individualized path of study that accommodates their personal interests and career goals. Students can also join a vibrant university club (Social and Cultural Pedagogy Graduate Organization), a national organization of scholars and practitioners (Social Pedagogy Association) and an international organization (Global Alliance for Social Pedagogy and Social Education).

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Asian Pacific American Studies, BA
- Justice Studies, BS
- Justice Studies, BA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (SST 593).

Required Core (9 credit hours)

JUS 500 Research Methods (3)

SST 501 Foundations of Social Transformation (3)

SST 510 Social and Cultural Pedagogy: Theoretical and Practical Issues (3)

Electives (15 or 18 credit hours)

Culminating Experience (3 or 6 credit hours)

SST 593 Applied Project (3) or

SST 599 Thesis (6)

Additional Curriculum Information

Students who elect to complete the applied project option must take 18 credit hours of elective coursework to reach the required 30 credit hours for the program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution recognized by ASU.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency. TOEFL scores are required for applicants whose native language is not English.

Applicants should supply a two- to three-page application letter (writing sample) in which they explain why they want to study in this program and why they feel well prepared to succeed in this graduate program.

The resume should describe prior educational history, related work or volunteer experiences.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Graduates will demonstrate an understanding of key theories and concepts in the field of social and cultural pedagogy in both their written and oral presentation work.
- Graduates of the program will demonstrate the ability to interpret and conduct quantitative and qualitative research.
- At the completion of the program, students will demonstrate knowledge of social transformation and social change through an interdisciplinary lens and use an interdisciplinary or multidisciplinary approach to address social and cultural pedagogy issues and solutions in their projects.

Career Opportunities: This master's degree enables graduates to contribute to a better future via traditional, nontraditional and nonformal educational settings; these include early childhood education programs, schools, youth programs, local governments, nongovernmental organizations, museums, nonprofits, intercultural programs, cooperatives, citizenship education, human rights programs, antipoverty programs, community development programs, literacy programs, community centers and social movements.

Social Science Research Methods (Certificate), Certificate (LASSRMGRCT)

Online Degree Search Title: Social Science Research Methods (Graduate Certificate)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description: Many of the biggest problems today --- from tracking the outbreak of diseases to managing scarce water resources to understanding the impact of new technologies --- require collaboration across the medical sciences, the physical and biological sciences, the social sciences and engineering. ASU's emphasis on collaborative work across disciplines is crucial for understanding these complex problems and to develop solutions.

The interdisciplinary graduate certificate program in social science research methods prepares students to acquire, manage and analyze a broad range of data on human thought and human behavior. Data can be qualitative (e.g., text, images or sound) or quantitative (e.g., direct observation, surveys or geospatial). Data acquisition skills may include the downloading and managing of information from online sources or the primary collection of data in surveys or in direct observation. A key feature of this program is a focus on data analysis, so students and professionals will be able to analyze and interpret any data that they can collect. All students in this program demonstrate skills in statistical analysis as well as a selection of methods related to their interests.

This program is designed for applicants who hold a minimum of a bachelor's degree from regional, national or internationally accredited institutions, and in any field or discipline (e.g., anthropology, sociology, human development, sustainability, geography, political science or other fields with approval of the academic unit).

Degree Requirements:

18 credit hours including the required applied project course (GCU 593).

Required Core (3 or 4 credit hours)

FAS 508 Structural Equation Analysis for the Social Sciences (3) or

SOC 508 Structural Equation Analysis for the Social Sciences (3) or

STP 530 Applied Regression Analysis (3) or

STP 531 Applied Analysis of Variance (3) or

STP 533 Applied Multivariate Analysis (3) or

PSY 531 Multiple Regression in Psychological Research (4)

Electives or Research (11 or 12 credit hours)

Culminating Experience (3 credit hours)

GCU 593 Applied Project (3)

Additional Curriculum Information

Students select one of the multivariate data analysis core courses for a total of three or four credit hours.

Students select four elective and research methods courses for a total of 11 or 12 credit hours in consultation with the program directors. The program recognizes that other graduate-level courses on research methods are offered at ASU. Advanced courses on methods are often taught in omnibus courses, courses that have rotating content and whose content is not reflected in their titles. Students may include these courses in their certificate curriculum with approval of the program directors.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in a field such as human development, sustainability, geography or political science. Other subject areas may be accepted with approval from the academic unit.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must have completed an introductory statistics course before admission to the program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of interest
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Examples of introductory statistics courses include:

CRJ 504 Statistical Tools for Criminology and Criminal Justice

NUR 617 Foundational Concepts in Science and Statistics

POS 603 Polimetrics I

STP 530 Applied Regression Analysis

or equivalent with approval of the academic unit

A statement of interest should include how the certificate program will enhance the applicant's graduate studies or professional work.

Career Opportunities: Professionals with expertise in social science research are in high demand across sectors and industries, including consulting firms, government agencies and community organizations. Skills in data acquisition, management and analysis are valuable to businesses and institutions relying on data-driven strategies in an interdisciplinary and collaborative marketplace.

Career examples include:

- data analyst
- economist
- field researcher
- human behavior researcher
- social science research assistant
- statistician

Social Transformation Certificate, Certificate (LASOTGRCT)

Online Degree Search Title: Social Transformation (Graduate Certificate)

Campus: Tempe

Program Description: The graduate certificate program in social transformation is designed for graduate and postbaccalaureate students interested in how change is catalyzed by social movements, protest, law, social entrepreneurship, activism and community organizing. Through the exploration of theories and research related to social change, students augment their disciplinary degrees and are prepared to contribute as leaders and changemakers in their communities.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

SST 501 Foundations of Social Transformation (3)

Electives (12 credit hours)

Additional Curriculum Information

The electives taken are selected with the faculty advisor, who helps ensure they have a common theme and that students' experiences in the courses align with the learning goals outlined for the certificate.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F-1 or J-1 visa need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Students must submit a statement of purpose, no longer than 250 words, to the School of Social Transformation. The statement should indicate a demonstrated interest in the study of social transformation (e.g., previous coursework, professional experience, internships, career plans).

Applicants must meet the above criteria and have strong academic credentials, including their undergraduate or graduate GPA, and demonstrated interest in the area of social transformation, as judged by the School of Social Transformation graduate committee. The committee reviews applications for the certificate program in the fall and spring semesters of each year and makes its admission recommendations to Graduate Admission Services.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate knowledge of social theory, concepts and research methods to understand social change issues and analyze solutions to social problems.
- Apply the foundations and principles of social change theory and research to specific domestic or international issues through advanced research.

Career Opportunities: Certificate graduates may go on to law school, graduate school or other professional degree programs. Potential career options include working as community organizers, youth and community advocates, community-based researchers and social justice consultants.

Socio-Economic Justice (certificate), Certificate (LAECJUGRCT)

Online Degree Search Title: Socio-Economic Justice (Graduate Certificate)

Campus: Tempe

Program Description: This transdisciplinary graduate certificate in socioeconomic justice enables students to develop expertise in ideas and policies about the social and political phenomena that impact the material condition of injustices.

Students investigate the local and global conditions that give rise to economic and ecological precarities and social inequalities, as well as the practices that enable alternative economic approaches to wealth and labor, including wealth sharing, land and food sovereignty, and solidarity economy. The program fuses interests in political economy, structural inequalities and economic justice, allowing students to develop specialization and expertise in research and policy design in broad areas such as wealth sharing, income and land distribution, housing, food justice, employment and education.

This program complements the current graduate curriculum at ASU. It is structured to allow students to draw upon a combination of core courses in justice and social inquiry and coursework from units in the School of Social Transformation and throughout the university. The approach is transdisciplinary (i.e., inclusive of courses in a variety of disciplines but transcending disciplinary boundaries through an integrative core curriculum), intersectional (i.e., considering gender, race, class, disability, nation and sexual relations) and transnational (courses that examine global and local concerns). It is designed to enable students to deepen their knowledge about and develop research familiarity with the many facets of the global economy and its adverse effects on social and planetary justice.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

Students must select one course from each of the following two areas of study:

Economic Justice (3 credit hours)

JUS 550 Gender, Race and Economic Justice (3) or

JUS 660 Globalization and Economic Justice (3)

Conducting Research in Communities (3 credit hours)

JHR 525 Critical Methodologies in Social Justice and Human Rights (3) or

JUS 633 Community Research (3)

Electives (9 credit hours)

Additional Curriculum Information

Students must select three elective courses on socioeconomic justice from a restricted list; they should see the academic unit for the full list of possible courses.

Only one 400-level course may be listed on the plan of study. Students must have prior approval from the director of the certificate program to use any 400-level course.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- at least one letter of recommendation
- statement of purpose for pursuing the certificate
- writing sample demonstrating excellent writing and analytical skills
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F-1 or J-1 visa need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the United States on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The letter of recommendation, statement of purpose and writing sample should be submitted to the justice and social inquiry program office.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students completing the graduate certificate in socioeconomic justice will demonstrate the ability to conduct systematic analyses (quantitative and qualitative) of the social and political dimensions of global and local economics and their implications for social justice.
- Students completing the graduate certificate in socioeconomic justice will demonstrate knowledge of socio-economic and intersectional dimensions of justice, in relation to public policies at the local, national and global level.

Career Opportunities: Graduates of this program are prepared to work in government, law, justice-related organizations, and research think tanks, teach at community colleges, and pursue further graduate studies in justice-related fields.

Sociology, MA (LASOCMA)

Online Degree Search Title: Sociology, MA

Campus: Online

Program Description: The MA program in sociology provides advanced training for those preparing for applied careers in sociology.

Students gain knowledge and skills that can be used to promote healthy individuals and families. They develop an understanding of how social context influences well-being and an understanding of the factors that promote successful relationships and positive outcomes.

The online format provides easy access to rigorous and valuable information that informs best practices in improving the lives of individuals, families and communities. The program also includes a customizable culminating experience that allows students to focus their training in their areas of interest and work.

Degree Requirements:

30 credit hours including the required capstone course (SOC 588).

Required Core (6 credit hours)

SOC 585 Sociological Theory (3)

SOC 586 or FAS 586 Masters Professional Development (3)

Electives (15 credit hours)

diversity course (3)

other elective coursework (12)

Other Requirements (6 credit hours)

SOC 500 Research Methods (3)

SOC 501 Social Statistics (3)

Culminating Experience (3 credit hours)

SOC 588 Capstone Culminating Experience (3) OR FAS 588 Capstone Culminating Experience (3)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives. The diversity course and other elective coursework are chosen with approval by the academic advisor. SOC 500 and SOC 501 may be replaced by equivalent courses with approval by the academic advisor.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate coursework
- current resume or curriculum vitae
- a personal statement of goals relevant to the master's degree program
- two letters of recommendation from academic or professional backgrounds
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The personal statement must be two to three pages long, double-spaced, and it should address the applicant's professional goals, their strengths for success in the program, and any relevant professional experience or responsibilities they have completed.

Letters of recommendation must be from at least two individuals with a professional or academic background and connection to the applicant. Family members and friends do not meet this criterion. Letters of recommendation are to be received electronically.

Applicants should see the program website for application deadlines and admission terms.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's

ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-sociology/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze a topic related to sociology, both individually and collaboratively.
- Articulate research on a topic related to sociology.
- Apply empirically-based information to approved hands-on field experience.

Career Opportunities: Professionals with expertise in research methodologies and data analysis coupled with an understanding of social and cultural issues and social change are sought-after in areas like human services, human resources, education, public policy and community service in the social service, business and nonprofit sectors.

Career examples include:

- case managers
- mediators
- outreach coordinators
- probation officers
- social and community service managers
- sociologists
- sociology instructors
- social workers
- volunteer program managers

Sociology, PHD (LASOCPHD)

Online Degree Search Title: Sociology, PhD

Campus: Tempe

Admission standards for this program are changing for Fall 2024 applicants. Interested students should contact the department (<https://degrees.apps.asu.edu/masters-phd/major/ASU00/LASOCPHD/sociology-phd#contact>) for more information.

Program Description: The PhD program in sociology provides advanced training in theory, research methodology and substantive fields to prepare sociologists for teaching and research with special emphasis on inequality and power; law and society; race and ethnicity; Latino sociology; health; and children, youth and families.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

SOC 603 Perspectives in Sociological Inquiry (3)

SOC 685 Applied Social Theory (3)

Theory (3 credit hours)

SOC 585 Sociological Theory (3)

Methods (3 credit hours)

SOC 591 Qualitative Research Methods (3)

Statistics (3 credit hours)

Other Requirements (3 credit hours)

SOC 791 Topic: Integrative Research (3)

Elective and Research (54 credit hours)

Culminating Experience (12 credit hours)

SOC 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's department and the Graduate College, 30 credit hours from a previously awarded master's degree are allowed to be used toward this degree.

A minimum of 30 credit hours of the approved doctoral program, exclusive of dissertation and research hours, must be completed after admission to the program.

A qualifying exam, a written comprehensive exam, a prospectus and a dissertation are required.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in sociology or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable bachelor's or master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- current resume or curriculum vitae
- personal statement detailing professional goals and research experiences
- writing sample
- three letters of recommendation from persons familiar with the applicant's academic background
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

A personal statement is required. It must be three pages or less, double-spaced, and it must address the applicant's professional goals and reasons for desiring to enroll in the program; describe strengths that will help the student succeed in the program and reach professional goals; describe research experience (a description of the master's thesis should be included, if applicable) and relevant responsibilities held; indicate personal research interests as specifically as possible; and include any additional information that will help the committee evaluate the application.

Three letters of recommendation are required, including at least two from instructors at the applicant's institution where undergraduate or graduate work was completed. These letters should be from people who know the applicant as a student or in a professional capacity. Letters from family members or friends do not meet this criterion.

Students should see the program website for application deadlines.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Evaluate contemporary sociological perspectives in original written work.
- Apply sociological research methods to the analysis of data to create an original empirical research paper.
- Conduct research resulting in empirical papers that have an impact on relevant communities that are determined by the subjects of the research.

Career Opportunities: Professionals with expertise in research methodologies and data analysis as well as an understanding of cultural and social change, various social issues and phenomena are sought-after in many areas, including human services, business, education, public policy, and community service and nonprofit sectors.

Career examples include:

- demographers
- mediators
- research professionals
- social and community service managers
- sociologists
- sociology instructors
- urban and regional planners

Spanish, MA (LASPANMA)

Online Degree Search Title: Spanish, MA

Campus: Tempe

Program Description: The MA program in Spanish includes tracks in literature and culture and in linguistics. While the former includes Spanish, Spanish American and Mexican American literature and culture, the latter includes sociolinguistics or second language acquisition and applied linguistics.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Spanish, BA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours and a portfolio.

Required Core (3 credit hours)

SPA 540 History of the Spanish Language (3)

Culminating Experience
portfolio

Additional Curriculum Information

This program includes a total of thirty credit hours of coursework. Students seeking a master's degree in Spanish should consult with the respective graduate representative.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in Spanish from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume or curriculum vitae
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Applicants should provide an academic writing sample such as an academic term paper, critical paper or research paper approximately 10 to 25 pages, prepared in an upper-division or graduate Spanish course.

Applicants should provide a personal statement that is no more than two pages, summarizing past educational experiences and goals in pursuing a graduate degree.

Career Opportunities: Professionals with this degree can confidently move into further academic, business and international fields. Skills developed through this program are valued for teaching positions, including in museums and libraries; translation work; work in a larger sector such as governmental, diplomatic and international business; and for careers in publishing, media, nonprofits and international relations.

Career examples include:

- area, ethnic and cultural studies teachers and professors
- foreign language and literature teachers and professors
- historians
- interpreters and translators
- lawyers
- reporters and correspondents
- social and community service managers

Spanish Language Pedagogy (certificate), Certificate (LASPAPGRCT)

Online Degree Search Title: Spanish Language Pedagogy (Graduate Certificate)

Campus: Tempe

Program Description: Through graduate coursework, the certificate program in Spanish language pedagogy enables practicing teachers and graduate students to understand the process of Spanish language acquisition and learn advanced teaching methodologies in order to make sound pedagogical decisions that lead to effective teaching and learning.

Students gain competence in designing effective and engaging Spanish language lessons for their students and learn to be sensitive to the needs of students with diverse linguistic and cultural backgrounds, such as heritage learners. Students learn to design accurate assessment measurements, writing assignments and culture-based lessons as well as utilize modern technologies to enhance Spanish language education.

Degree Requirements:

18 credit hours and a portfolio.

Required Core (3 credit hours)

SPA 596 Second Language Methodologies (3)

Other Requirements (9 credit hours)

SPA 543 Structure of Spanish (3)

SPA 546 Heritage Language Pedagogy (3)

SPA 598 Special Topic: Spanish Second Language Acquisition (3)

Electives (6 credit hours)

Culminating Experience (0 credit hours)

portfolio (0)

Additional Curriculum Information

For courses listed as other requirements, alternative courses may be used with approval of the certificate codirectors.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in Spanish, Spanish literature and culture, Spanish linguistics, applied linguistics, second language acquisition and teaching, or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts

- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Career Opportunities: Professionals with this certificate can confidently move into academic, business and international fields. Skills developed through this program are valued for teaching positions, translation work or work in a larger sector such as governmental, diplomatic and international business.

Career examples include:

- area, ethnic and cultural studies teachers and professors
- editors
- foreign language and literature teachers and professors
- historians
- instructional coordinators
- interpreters and translators
- lawyers
- reporters and correspondents
- social and community service managers

Spanish Linguistics, PHD (LASPALIPHD)

Online Degree Search Title: Spanish Linguistics, PhD

Campus: Tempe

Program Description: The PhD program in Spanish linguistics offers advanced interdisciplinary graduate training that combines key areas in second language acquisition and teaching, applied linguistics, heritage language research and pedagogy, sociolinguistics and bilingualism. With the supportive guidance from their advisor, students are well prepared for a productive career in the discipline of Hispanic studies.

Degree Requirements:

84 credit hours, a foreign language exam, a written comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

SPA 543 Structure of Spanish (3)

Track (9 credit hours)

Electives or Research (41 credit hours)

Other Requirements (19 credit hours)

COE 502 Introduction to Data Analysis (3)

GRD 791 Seminar: Preparing Future Faculty and Scholars (PFx) (1)

SPA 544 Spanish Phonology (3)

SPA 546 Heritage Language Pedagogy (3)

SPA 598 Topic: Research Methods for Linguists (3)

SPA 598 Topic: Sociolinguistics (3)

SPA 598 Topic: Spanish Second Language Acquisition (3)

Culminating Experience (12 credit hours)

SPA 799 Dissertation (12)

Additional Curriculum Information

Students choose from two available tracks: Spanish heritage studies and sociolinguistics, or second language acquisition and teaching. Students should see the academic unit for the approved course list for each track.

Each candidate is expected to demonstrate a reading knowledge of one language other than English and Spanish. This language requirement must be satisfied before the candidate is eligible to take the comprehensive examination.

Other requirement courses may be substituted with approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used toward this degree. If students do not have a previously awarded master's degree, the 30 credit hours of coursework is made up of electives or research to reach the required 84 credit hours.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in Spanish or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.75 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.75 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- written statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Career Opportunities: The doctoral program in Spanish linguistics prepares students for entrance into an academic profession (teacher, scholar) as well as for a profession outside of academia. Professionals with the valued skills developed through this degree program can confidently move into business, diplomatic, government and international fields.

Career examples include:

- editors
- foreign language and linguistics teachers and professors
- instructional design coordinators
- interpreters and translators
- lawyers
- reporters and correspondents
- social and community service managers
- teachers and professors of area, ethnic and cultural studies

Spanish Literature and Culture, PHD (LASPANPHD)

Online Degree Search Title: Spanish Literature and Culture, PhD

Campus: Tempe

Program Description: The PhD program in Spanish literature and culture is intended to be as flexible as possible, establish broad areas of competence through an individualized program of study set with the supportive guidance of the student's advisor.

visual (e.g., photographs, films, visual narratives), and their linguistic, rhetorical and literary structure and functions, with an emphasis on literary theories and aesthetics. Many literature courses explore issues relating to gender, class, race, ethnicity, globalization, environmental humanities, disability theories, posthuman theories and digital humanities.

Degree Requirements:

84 credit hours, a foreign language exam, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

SPA 545 Concepts of Literary Criticism (3)

Literature and Culture Electives (51 credit hours)

Electives (6 credit hours)

Research (12 credit hours)

SPA 792 Research (12)

Culminating Experience (12 credit hours)

SPA 799 Dissertation (12)

Additional Curriculum Information

Coursework for the literature and culture electives must be SPA literature or culture content courses and approved by the student's supervisory committee. Students may not put SPA 596 Second Language Methodologies toward this requirement.

Each candidate is expected to demonstrate a reading knowledge of one language other than English and Spanish. This language requirement must be satisfied before the candidate is eligible to take the comprehensive examination.

The written and oral comprehensive examination, designed to ascertain the candidate's knowledge and orientation in the field of study and competency to proceed with the dissertation, is required at or near the end of coursework.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in Spanish or equivalent from a regionally accredited institution. Applicants from other academic backgrounds with relevant coursework in Spanish language and cultural studies also may be evaluated by the admissions committee.

Applicants must have a minimum cumulative GPA of 3.75 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.75 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- writing sample
- personal statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

It is recommended but not required that students applying for admission to the program submit GRE scores; this is especially advisable for applicants for the Spanish Graduate Fellowship Award. ASU does not accept the GRE® General Test at home edition.

Candidates for the program are required to demonstrate a near-native oral proficiency in Spanish and to show that they have developed a high order of expository prose in English and Spanish by presenting a term paper or a chapter of their master's degree thesis as their writing sample.

Career Opportunities: Professionals with this degree can confidently move into the academic profession, careers in education, including in museums and libraries, and professions outside academia, such as in the publishing industry, media, nonprofits and international relations. Skills developed through this program are valued for teaching positions, translation work or career opportunities in larger sectors, such as government, diplomacy and international business.

Career examples include positions as:

- area, ethnic and cultural studies teachers and professors
- editors
- foreign language and literature teachers and professors
- instructional design coordinators
- interpreters and translators
- lawyers
- reporters and correspondents
- social and community service managers

Statistics, MS (GCSTATMS)

Online Degree Search Title: Statistics, MS

Campus: Tempe

Spring semester admission is limited to students in the accelerated master's program.

Program Description: The MS program in statistics draws upon a wide spectrum of faculty research and teaching interests, including from faculty outside the school. As a result, plans of study can be transdisciplinary and tailored to reflect students' individual needs and goals.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Mathematics (Statistics), BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours and a portfolio - Professional Track, or 30 credit hours including a thesis - Academic Track, or 30 credit hours including the required applied project course (STP 593) - Academic Track, or 30 credit hours, a written comprehensive exam and an oral comprehensive exam - Academic Track.

Required Core (3 credit hours)

ECN 525 Applied Regression Models (3) or

IEE 578 Regression Analysis (3) or

STP 530 Applied Regression Analysis (3)

Track Coursework (9 or 12 credit hours)

Electives (9-18 credit hours)

Culminating Experience (0-6 credit hours)

ECN 599 or IEE 599 or STP 599 Thesis (6)

STP 593 Applied Project (3)

oral and written comprehensive exam (0)

portfolio (0)

Additional Curriculum Information

Students in the Master of Science program in statistics are required to select one of the two available tracks: the academic track or the professional track. Students should speak with their advisor regarding the selection of a track and elective coursework based on the target career.

Students in the professional track complete the portfolio culminating experience, and students in the academic track choose from an applied project, thesis or comprehensive exams.

Prerequisites may not be used to complete the 30 credit hours required for the degree.

Students who select the thesis or applied project option must defend it through an oral examination. The thesis must conform to the Graduate College format requirements.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics, statistics or a closely related area from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of education and career goals
- three letters of recommendation
- proof of English proficiency

Additional Curriculum Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Applicants should have completed the following courses (equivalents at ASU are given in parentheses), and applicants who lack any of these prerequisite courses must complete them before being considered for admission:

- advanced calculus (MAT 371)
- calculus (MAT 270, MAT 271 and MAT 272)
- computer programming (CSE 100)
- introductory statistics (STP 420)
- linear algebra (MAT 342)

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Evaluate statistical approaches to problem solving using the underlying theory of advanced statistical methods.
- Apply advanced statistical methods to analyze data.
- Apply advanced statistical skills to real world problems.

Career Opportunities: Statistical analysis and data mining have been identified as two of the most desirable skills in today's job market.

Graduates with a master's degree in statistics can pursue a broad variety of careers in fields as diverse as business, finance, engineering, technology, education, marketing, government and other areas of the economy. These are just a few of the top career opportunities:

- actuary
- business consultant or analyst
- data scientist
- financial analyst
- market research analyst
- software engineer
- statistician

This program also provides preparation for students interested in doctoral study and a faculty-track academic career.

Contact Information:

Statistics, PHD (LASTPPHD)

Online Degree Search Title: Statistics, PhD

Campus: Tempe

Program Description: As a science, statistics focuses on data collection and data analysis by using theoretical, applied and computational tools. The PhD program in statistics reflects this breadth in tools and considerations while allowing students sufficient flexibility to tailor their program of study to reflect individual interests and goals. Research can be of a disciplinary or transdisciplinary nature.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

STP 526 Theory of Statistical Linear Models (3)

Other Requirements (15 credit hours)

IEE 572 Design Engineering Experiments (3) or STP 531 Applied Analysis of Variance (3)

IEE 578 Regression Analysis (3) or STP 530 Applied Regression Analysis (3)

STP 501 Theory of Statistics I: Distribution Theory 3 (3)

STP 502 Theory of Statistics II: Inference (3)

STP 527 Statistical Large Sample Theory (3)

Electives (42 credit hours)

Research (12 credit hours)

STP 792 Research (12)

Culminating Experience (12 credit hours)

STP 799 Dissertation (12)

Additional Curriculum Information

Electives are chosen from statistics or related area courses approved by the student's supervisory committee.

Other requirements courses may be substituted with department approval.

Students must pass:

- one qualifying examination and coursework in analysis
- a written comprehensive examination
- a dissertation prospectus defense

Students should see the department website for examination information.

Each student must write a dissertation and defend it orally in front of five dissertation committee members.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics, statistics or a closely related area from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of education and career goals

- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Completion of the following courses (equivalents at ASU are given in parentheses) is required. Applicants who lack any of these prerequisite courses must complete them before being considered for admission.

- calculus (MAT 270, 271 and 272)
- advanced calculus (MAT 371)
- linear algebra (MAT 342)
- computer programming (CSE 100)
- introductory applied statistics (STP 420)

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Proficient in applying advanced statistical methods in coursework and research.
- Address an original research question in statistics.
- Able to complete original research in statistics.

Career Opportunities: Statistical analysis and data mining have been identified as two of the most desirable skills in today's job market. Data, and the analysis of data, is big business, and the Department of Labor projects that overall employment of mathematicians and statisticians will grow 33% between 2020 and 2030, much faster than the average for all occupations.

For graduates of the doctoral program in statistics, that means a broad variety of career opportunities in fields as diverse as business, finance, engineering, technology, education, marketing, government and other areas of the economy.

These are just a few of the top career opportunities available for a graduate with a doctoral degree in statistics:

- actuary
- business consultant or analyst
- data science professor, instructor or researcher
- data scientist
- faculty-track academic
- financial analyst
- market research analyst
- software engineer
- statistician

Statistics and Data Science (Graduate Certificate) (Certificate), Certificate (GCSTATCE)

Online Degree Search Title: Statistics and Data Science (Graduate Certificate)

Campus: Tempe

Program Description: The statistics certificate program provides statistical training for graduate students at ASU and working professionals in the Phoenix metropolitan area.

The program draws upon a variety of faculty research and teaching interests from various academic units, so programs of study can be tailored to reflect individual needs and goals.

This certificate program is part of the shift in the School of Mathematical and Statistical Sciences' statistics curriculum to include data science coursework. In particular, several new machine learning classes are available to certificate students.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

STP 530 Applied Regression Analysis (3) (or ECN 525 or IEE 578)

STP 531 Applied Analysis of Variance (3) (or IEE 572)

Electives (9 credit hours)

Additional Curriculum Information

The nine elective credits are taken from a set of courses approved by the School of Mathematical and Statistical Sciences.

Students must have a GPA of at least 3.00 (scale is 4.00 = "A") in the courses that apply to the certificate.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F-1 or J-1 visa need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the United States on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants should have completed the following courses (equivalents at ASU are given in parentheses):

- introductory applied statistics (ECN 221, STP 226 or STP 420)
- one semester of calculus (MAT 210, MAT 265 or MAT 270)

Applicants are also required to have some computer literacy, with knowledge of a programming language, a spreadsheet program or a statistical software program.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply regression analysis and analysis of variance to analyze and solve real world statistical problems.
- Apply regression analysis and analysis of variance concepts, and evaluate when these methods are appropriate.

Career Opportunities: Statistical analysis and data mining have been identified as two of the most desirable skills in today's job market.

Graduates have knowledge that may be applied in a broad variety of career opportunities in fields as diverse as business, finance, engineering, technology, education, marketing, government and other areas of the economy. These are just a few of the top career opportunities supported by the statistics certificate program:

- business consultant or analyst
- data analyst
- financial analyst
- market research analyst
- statistician

Teaching English to Speakers of Other Languages, MTESOL (LAENGMTESL)

Online Degree Search Title: Teaching English to Speakers of Other Languages, MTESOL

Campus: Tempe, Online

Program Description: The MTESOL program is for individuals who desire to build a career in the international field of teaching English as a second or additional language. Students develop scholarly and professional knowledge and skills in four central areas: language, learning, teaching and research.

Students have opportunities to study a variety of key topics, including second language acquisition, computer-assisted language learning, critical pedagogy, curriculum design, global Englishes, teaching English as an international language, English for specific purposes, English grammar, intercultural rhetoric, discourse analysis, interlanguage pragmatics, language and identity, language testing and assessment, learning transfer, materials development, non-native English speakers in TESOL, second language phonology and second language writing.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

English (Linguistics), BA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required capstone course (LIN 597) and a foreign language exam.

Required Core (12 credit hours)

LIN 501 Approaches to Research (3)

LIN 510 Linguistics (3)

LIN 520 Second-Language Acquisition Theories (3)

LIN 521 Methods of Teaching English as a Second Language (3)

Other Requirement (3 credit hours)

LIN 584 Internship (3)

Electives or Research (12 credit hours)

Culminating Experience (3 credit hours)

LIN 597 Capstone (3)

Additional Curriculum Information

The foreign language requirement must be completed during the program prior to the master's degree being awarded.

The capstone is overseen by a director chosen from the Department of English linguistics and TESOL faculty.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Applicants may have undergraduate majors in the following fields, but are not limited to these: anthropology, applied linguistics, cognitive science, communication, comparative languages and literatures, education, English literature, history and law.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English and has not graduated from an institution of higher learning in the United States must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency. Applications will not be processed without valid proof of English proficiency; official scores must be sent to ASU in order for the application to be processed.

Applicants must submit a one-page, single-spaced, well-considered statement of purpose in which they explain how their experience and training have prepared them for the program, their aims and purposes in pursuing the MTESOL degree, and their plans for the future.

Two letters of recommendation are required. A third letter is optional. The letters should provide a clear picture of the applicant's potential for successfully completing a master's degree, so at least one of the letters should be from a university professor who is familiar with the applicant's academic work and with master's level academic programs.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-teaching-english-speakers-other-languages/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply theories and pedagogical knowledge to evaluate and create real-world teaching, materials development, or related professional practices in TESOL.
- Synthesize and apply theories, research and key concepts in second language learning and development.
- Evaluate and apply theories, key concepts, methods and materials in second language teaching.

Career Opportunities: Language professionals with training and expertise in TESOL remain in high demand in the U.S. and abroad. TESOL-related skills are valuable in businesses and institutions, as well as to individuals of a wide range of linguistic and cultural contexts who rely on the ability to learn, teach and communicate effectively in a globally connected world.

Career examples include:

- adult education teacher
- consultant
- English language or foreign language teacher
- international aid worker
- materials designer or developer
- program and curriculum developer
- refugee English coordinator
- teacher trainer

Transborder Studies, MAS (LATCLMAS)

Online Degree Search Title: Transborder Studies, MAS

Campus: Tempe

Program Description: The MAS program in transborder studies is designed for students interested in border issues and communities. Students learn from interdisciplinary scholars in both the social sciences and humanities to develop their individualized plan of study and focus area.

Students have the opportunity to engage in innovative research or applied experiences, or they may focus their plan of study on a more professional and applied track.

The program has historically been grounded in and inspired by the geographical specificity of the U.S.-Mexico border. Given the massive scale of globalization in the 21st century and its influence on local, regional, national, subnational and international environments, the program examines transborder regions and populations around the world, including metaphorical, linguistic and cultural borders, as well as patterns and implications of immigration and migration.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Transborder Chicana/o and Latina/o Studies, BA

Transborder Chicana/o and Latina/o Studies (Media and Expressive Culture), BA

Transborder Chicana/o and Latina/o Studies (US and Mexican Regional Immigration Policy and Economy), BA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (TSS 593), or 30 credit hours including the required capstone course (TSS 596).

Required Core (6 credit hours)

TSS 502 Foundations of Transborder Studies (3)

TSS 504 Theories and Methods for Transborder Research (3)

Electives (18 or 21 credit hours)

Culminating Experience (3 or 6 credit hours)

TSS 593 Applied Project (3) or

TSS 596 Transborder Studies Capstone (3) or

TSS 599 Thesis (6)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the social sciences, the humanities, the sciences, health, education, business or a professional field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- resume or curriculum vitae
- three letter of recommendation (colleagues or professors)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. For more information, students should visit the admission services website (<https://admission.asu.edu/apply/international/graduate/english-proficiency>).

Career Opportunities: Graduates are well suited for positions in local, state, national, and nongovernmental organizations and international agencies. They are also prepared for research opportunities or a doctoral degree program.

Transborder Studies, PHD (LATCLPHD)

Online Degree Search Title: Transborder Studies, PhD

Campus: Tempe

Program Description: The PhD program in transborder studies develops the next generation of superior research, scholarship and application in

transborder and transnational contexts.

Students gain foundational knowledge in transborder, transnational and border issues from interdisciplinary scholars in anthropology, history, literature, political science, public policy, sociology, urban planning, and women and gender studies.

Faculty in the program approach transborder studies in a way that has been historically grounded in and inspired by the geographical specificity of the U.S.-Mexico border and the Chicano, Chicana, Latino and Latina populations. Arizona State University's proximity to the U.S.-Mexico border and the faculty's expertise make the university the ideal place of study. Given the massive scale of globalization in the 21st century and its influence on local, regional, national and transnational environments, the program is expanding to examine other transborder regions and populations.

Degree Requirements:

84 credit hours, a foreign language exam, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

TSS 502 Foundations of Transborder Studies (3)

TSS 503 Epistemologies and Transborder Thought (3) or TSS 504 Theories and Methods for Transborder Research (3)

Electives and Research (66 credit hours)

Dissertation (12 credit hours)

TSS 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not already have a master's degree in a related field, the remaining 30 credit hours are made up of electives and research that equal the 84 credit hours required for the doctoral program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a master's degree in a related field such as anthropology, economics, education, sociology, literature or psychology from a regionally accredited institution. Applicants who have earned a master's degree in another discipline must align their scholarly interests with the program's mission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- resume or curriculum vitae
- three letters of recommendation (from academicians)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The personal statement should include an explanation of past experiences and current scholarly interests but concentrate on potential areas of research that draw upon the specific resources of the department and faculty.

Career Opportunities: Depending on the plan of study, students may focus on a trajectory in academia with career options as faculty or in research positions. Students who wish to pursue career options outside of academia may focus the plan of study on a more professional and applied track, with potential interest in local, state, national or international agencies.

Online Degree Search Title: Transdisciplinary Transportation Studies (Graduate Certificate)

Campus: Tempe

Program Description: Transportation has emerged as one of the highest priority issues for policymakers, planners, employers and citizens.

To respond to this challenge, the transdisciplinary transportation studies certificate program builds upon existing ASU programs in a variety of disciplines offered in five colleges and two campuses, giving ASU graduate students and current and future transportation professionals the opportunity to pursue a wide range of transportation-related issues from a multimodal, interdisciplinary perspective.

Students collaborate with researchers and professionals across academic disciplines (these include policy, planning, economics, technology, behavior, location, land use, equity and sustainability) who employ different research methods and are focused on transport modes that range from walking to air travel.

The program is intended to be either a specialization within an existing master's degree or a stand-alone nondegree program.

ASU is a transdisciplinary hub for innovative and integrative transportation research and education. This work contributes to the development of smart, sustainable and socially equitable transportation systems. These systems leverage technology to foster resilient communities and high quality of life, locally and globally.

Degree Requirements:

16 credit hours including the required applied project course (PUP 593).

Required Core (3 credit hours)

PUP 564 Transportation Systems Professional Seminar (3)

Transportation Electives (9 credit hours)

Other Requirement (1 credit hour)

CEE 591 Interdisciplinary Transportation Seminar (1)

Culminating Experience (3 credit hours)

PUP 593 Applied Project (3)

Additional Curriculum Information

Students take three credit hours from each category for a total of nine credit hours to fulfill the transportation elective requirement.

- from any school in The College of Liberal Arts and Sciences
- from a college outside of The College of Liberal Arts and Sciences
- from subject prefixes CEE, GIS, GPH, PAF, PUP, SOS

Elective coursework is taken in consultation with the academic advisor.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- letter of interest
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants who wish to seek a graduate degree in any of the cooperating departments and who are not currently enrolled at ASU must complete the full graduate school application process as specified by the department of interest in addition to the online application for the transdisciplinary transportation studies certificate. The applications are evaluated independent of each other.

Applicants are asked to explain in their letter of interest what they expect to gain from the transportation studies certificate program and the types of courses in the program that would be the most helpful in meeting their objective.

Career Opportunities: Professionals with expertise in transportation systems are in high demand across sectors and industries, including consulting firms, government agencies and community organizations. Skills in the analysis of transportation alternatives and interrelationships with other disciplines are valuable to businesses and institutions relying on an integrated systems approach to solving complex real-world problems.

Career examples include:

- airfield operations specialist
- logistics analyst
- supply chain manager
- transportation analyst
- transportation engineer
- transportation planner

Translation Studies (Certificate), Certificate (LALTSGRCT)

Online Degree Search Title: Translation Studies (Graduate Certificate)

Campus: Tempe

Program Description: The graduate certificate in translation studies is a transdisciplinary program offering coursework that intensively engages with translation practice, issues related to the cultural role of the translator and translation, studies of the variety of theoretical approaches to translation, and studies of transhistorical and cross-cultural theories of translation. These areas of emphasis enable students to gain expertise in practical and theoretical knowledge of the field of literary and practical (commercial) translation and to engage in developing new models for the practice of translation today.

The program offers interested students the opportunity to develop an understanding of intercultural intersections and transdisciplinary approaches to the practice of translation and advanced training and mentorship.

Degree Requirements:

15 credit hours including the required applied project course (ENG 593 or SLC 593).

Required Core (6 credit hours)

ENG 550 Translation (3)

SLC 551 Global Approaches to Translation (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)

ENG 593 Applied Project (3) or SLC 593 Applied Project (3)

Additional Curriculum Information

For electives, students should see the academic unit for the approved course list.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- writing sample
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The personal statement should be no more than two pages and should summarize past educational experiences and goals in pursuing a graduate certificate.

Applicants should have knowledge of a language other than English, a minimum of six semesters of a second language, or the equivalent (for example, advanced placement in high school). Applicants who have passed a language proficiency exam achieving an advanced level in the target language may also apply.

Career Opportunities: Professionals with this certificate can confidently move into academic, business and international fields. Skills developed through this program are valued for teaching positions, translation work or work in a larger sector such as governmental, diplomatic and international business.

Career examples include:

- archivists
- editors
- foreign language and literature teachers and professors
- historians
- interpreters and translators
- lawyers
- reporters and correspondents
- social and community service managers

Urban and Environmental Planning, MUEP (ARURBMUEP)

Online Degree Search Title: Urban and Environmental Planning, MUEP

Campus: Tempe, Online

Program Description: The MUEP program prepares students to help solve complex social, economic and environmental issues and create healthier, safer and more vibrant communities. It emphasizes theories of planning, methods of analysis, effective public engagement, planning processes and creative implementation of planning tools, strategies and approaches. The program is accredited by the Planning Accreditation Board. Students who join the program are eligible for certification by the American Institute of Certified Planners after two years of professional practice.

The Master of Urban and Environmental Planning program offers a valuable opportunity to integrate urban and environmental aspects of planning in a rapidly developing metropolitan area. Small classes, one-on-one advising and a common core of courses that translate knowledge into practice provide students opportunities to build technical skills and grow their professional network.

As a part of the School of Geographical Sciences and Urban Planning, the program is enriched by school faculty whose research and teaching are grounded in geography, geographic information systems, and meteorology and climatology. Students have access to a wide selection of electives within the school, electives that explore issues such as population and migration, environmental and landscape dynamics, and urban climate systems. The program is also complemented by the participation of faculty from other disciplines within the university and collaboration with leading planning practitioners in the Phoenix area.

Faculty research and teaching interests focus especially on the following broad interdisciplinary themes:

- city building and urban structure
- environmental and resiliency planning
- housing, neighborhoods and community development
- spatial analytics and smart cities
- transportation planning and policy

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as concurrent degree program with:

- Public Administration, MPA
- Public Policy, MPP
- Sustainability Solutions, MSUS

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Geographic Information Science, BS
- Geography, BA
- Geography, BS
- Geography (Meteorology-Climatology), BS
- Urban Planning, BSP

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

47 credit hours and a thesis, or 47 credit hours including the required applied project course (PUP 593), or 47 credit hours including the required capstone course (PUP 580).

Required Core (21 credit hours)

- PUP 501 Planning, History and Theory (3)
- PUP 520 Planning Practice, Ethics and Processes (3)
- PUP 531 Planning and Development Control Law (3)
- PUP 544 Urban Land Use Planning (3)
- PUP 571 Quantitative Methods for Planners (3)
- PUP 579 Qualitative Methods for Planners (3)
- PUP 642 Urban and Regional Economic Analysis (3)

Electives (14 or 15 credit hours)

Other Requirements (6 credit hours)

- PUP 542 Environmental Planning (3)
- PUP 576 GIS Workshop (3)

Culminating Experience (5 or 6 credit hours)

- PUP 580 Practicum: Planning Workshop (5) or
- PUP 593 Applied Project (5) or
- PUP 599 Thesis (6)

Additional Curriculum Information

Students take either 14 credit hours of electives for the thesis option or 15 credit hours of electives for the non-thesis option.

Students take PUP 576 or another methods course approved by the department.

Students take PUP 542 or another environmental planning course approved by the department.

Online students must take PUP 580 as their culminating experience.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The personal statement should be no longer than 600 words and must address the applicant's academic and professional background and, if appropriate, preparation for the selected area of specialty; written samples or a portfolio may be included, though these are not required.

Letters of recommendation must be from three people who can attest to the applicant's academic and professional achievements.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/urban-environmental-planning/>) for program descriptions and to request more information.

Career Opportunities: Professionals with expertise in planning theory and practice are in high demand across sectors and industries, including planning consulting firms, local governments and community organizations. Skills in environmental impact assessment, geographical data analysis and community resiliency planning are valuable to businesses and institutions that rely on practical, research-based approaches to solve complex problems.

Alumni of the Master of Urban and Environmental Planning program work as professional planners in a variety of public, private and nonprofit settings. Career examples include:

- city and regional planning aide
- geospatial information technologist
- social services director
- sustainability specialist
- transportation planner
- urban and regional planner

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Urban Planning, PHD (ARPUPPHD)

Online Degree Search Title: Urban Planning, PhD

Campus: Tempe

Program Description: The PhD program in urban planning educates scholars for positions in leading universities; research institutions; nongovernmental organizations; international multilateral institutions; national, state and local governments; and high-level consulting firms. The program provides a strong foundation for undertaking research in planning, urbanism, urban design and urban sustainability.

The School of Geographical Sciences and Urban Planning maintains close relationships with many of the communities in the Phoenix metropolitan area that are leading the way on issues like urban climate change, sustainability and transportation planning. Students have opportunities to interact with planning leaders, mentors and community organizations. Students conduct research alongside faculty; take classes focused on current issues in the field; conduct research and reports for local clients; and start building their professional network across the public, private and nonprofit sectors.

Students benefit from a wide variety of coursework and research opportunities in five broad interdisciplinary themes that span the expertise of the faculty within the School of Geographical Sciences and Urban Planning:

- city building and urban structure
- environmental and resiliency planning
- housing, neighborhoods and community development
- spatial analytics and smart cities
- transportation planning and policy

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

PUP 710 Current Planning Theory and Practice (3)

PUP 724 Planning Methods for Doctoral Students (3)

Electives and Research (64 credit hours)

Other Requirement (2 credit hours)

PUP 701 Urban Planning Colloquium (1)

Culminating Experience (12 credit hours)

PUP 799 Dissertation (12)

Additional Curriculum Information

Students take two semesters of PUP 701 for a total of two credit hours.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree.

Up to six credit hours of 400-level courses may be applied to the plan of study.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a master's degree in a related field such as urban studies, geography, environmental studies, sustainability, architecture, public policy or public administration from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program and a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The personal statement must be 600 words or fewer and explain the applicant's interest in planning at the doctoral level; academic and professional background and, if appropriate, preparation for the selected area of specialty, which may include written samples or a portfolio; and educational and professional objectives.

Letters of recommendation should be from three faculty members who can attest to the applicant's academic achievements.

Career Opportunities: Professionals with expertise in planning research, theory and practice are in high demand across sectors and industries, including institutions of higher education, planning consulting firms and community organizations. Skills in environmental impact assessment, geographical data analysis and community resiliency planning are valuable to organizations and institutions that rely on research-based approaches to solve complex real-world problems.

Career examples include:

- chief sustainability officer
- city and regional planning aide
- environmental restoration planner
- transportation planner
- urban and regional planner
- urban planning teacher, postsecondary

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. World War II Studies, MA (LAWWSMA)

Online Degree Search Title: World War II Studies, MA

Campus: Online

Program Description: Through advanced interdisciplinary study, students in the MA program in World War II studies explore the causes and effects of World War II; the global nature of the conflict; the evolution of governance and political systems; and human responses to conflict, violence and genocide. Program coursework also helps students contextualize current events through study of the war's historical, political and cultural legacies.

Degree Requirements:

30 credit hours including the required capstone course (WWS 597).

Required Core (12 credit hours)

WWS 561 Decision Points I (3)

WWS 562 Decision Points II (3)

WWS 563 The Lived Experience of World War II (3)

WWS 566 World War II Today (3)

Electives or Research (9 credit hours)

Other Requirements (6 credit hours)

HST 454 History of Genocide (3) or WWS 564 The Global War (3)

WWS 460 World War II (3) or HST 460 World War II (3)

Culminating Experience (3 credit hours)

WWS 597 Capstone (3)

Additional Curriculum Information

Students should refer to the academic unit for the approved electives and research course list.

For the other requirements section, students must take either HST 454 or WWS 564. If a student chooses to take HST 454 to fulfill the requirement, they may take WWS 564 as an elective. Likewise, if a student chooses to take WWS 564 to fulfill a requirement, they may take HST 454 as an elective. Other coursework may be used with approval of the academic unit.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree (or equivalent) or master's degree from a regionally accredited college or university. Students from any field who demonstrate potential are considered for admission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- letter of intent or written statement
- written responses to unit-developed prompts
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

An applicant's potential for success is determined by the quality of writing and clarity of thought demonstrated in the letter of intent and responses to the application questions. During the application process, applicants are prompted to write short written responses to World War II-related questions. These responses serve to demonstrate to the committee a student's writing ability and potential for thoughtful participation in degree coursework.

Letters of recommendation that point to a student's ability to deliver high-quality academic work and persist to an academic goal receive priority.

An applicant's GPA and academic performance, particularly in humanities coursework, also indicate potential.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/world-war-ii-studies-ma/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Able to analyze the decision-making process within the larger context of the Second World War.
- Able to evaluate the global, social, cultural, economic and political legacy of World War II since 1945, with particular attention to differing narratives.
- Analyzing the causes, course and memory of the genocidal nature of World War II, will be able to compose evidence-based arguments grounded in the analysis of sources.

Career Opportunities: The Master of Arts program in World War II studies provides students the fundamental training needed for careers in research, teaching, public history, government service and a host of other positions in the public, private and nonprofit sectors.

Graduates serve as first-rate historians; highly qualified teachers at the elementary and secondary levels and community colleges; researchers and consultants; archivists; foreign service officers; management professionals; community organizers and public servants.

Other career examples include:

- archivist
- college instructor
- editorial and publishing professional
- museum director and staff
- nonprofit director
- research professional

Nursing and Health Innovation, Edson College of

Acute Care Pediatric Nurse Practitioner (certificate), Certificate (NUACPNGRCT)

Online Degree Search Title: Acute Care Pediatric Nurse Practitioner (Graduate Certificate)

Campus: Downtown Phoenix

Program Description: The certificate program for the acute care pediatric nurse practitioner specialty is an advanced nursing practice program. It is designed for board-certified nurses seeking additional certification as an acute care pediatric nurse practitioner, or for doctorate-level nurses seeking an acute care pediatric nurse practitioner position. This certificate program prepares graduates to provide holistic, client-centered care to meet the physical, psychological and social needs of infants, children, adolescents and young adults.

This is a hybrid program, a blend of in-person and online learning. Students are required to travel to campus for orientation once and for immersions two or three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment. Specialty courses focus on assessment and management of a supportive, family-centered, culturally appropriate plan of care for pediatric patients with chronic, complex acute, and life-threatening illnesses. Any deficiency courses determined by the student's unique gap analysis must have been completed within the past five years to be eligible for credit.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete their assigned clinical placement.

Students residing outside of Maricopa County are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before students start any clinical experience; the doctoral program office does not guarantee a clinical placement site for any student outside Maricopa County. If, during the program, faculty determine that the student needs additional supervision for clinical progress in the program, the student must complete clinical experiences in the Phoenix area.

The program offers practicum experiences (clinical rotations) in health profession shortage areas throughout the state, in both urban underserved and rural areas, providing students with multicultural experiences to enhance professional development.

As a participating National Council for State Authorization reciprocity agreements member, Arizona State University is authorized to offer distance education to persons located in individual state authorization reciprocity agreement member states in accordance with the council's established policies and standards. California is not a state authorization reciprocity agreement member, and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions for education offered online and in Arizona. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College of Nursing and Health Innovation; these are noted on the ASU state authorizations (<https://admission.asu.edu/academics/authorizations>) website.

Degree Requirements:

20 credit hours.

Required Core (20 credit hours)

DNP 606 Principles of Pediatric Acute Care I (3)

DNP 607 Advanced Pediatric Acute Care Practicum I (7)

DNP 619 Principles of Pediatric Acute Care II (3)

DNP 620 Advanced Pediatric Acute Care Practicum II (7)

Additional Curriculum Information

Every certificate student must complete 600 hours of direct patient care with a nurse practitioner or physician preceptor in the clinical setting. Documented clinical experiences are required by the Pediatric Nursing Certification Board for the graduate to be eligible to take the national pediatric nurse practitioner acute care certification examination. Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt is made to arrange this in the student's geographical area. In the event that clinical sites are unavailable in that area or if the faculty determine that the student needs additional faculty supervision of skills, the student is required to complete the clinical experience in the Phoenix area. Experiences with disadvantaged and multicultural populations are encouraged, as are experiences in rural areas, and sites are available for these experiences.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a

minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three professional letters of recommendation
- professional resume
- goal statement
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F-1 or J-1 visa need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

The applicant must be nationally certified as a primary care pediatric nurse practitioner. Nationally certified family nurse practitioners working as a nurse practitioner in a pediatric setting will be considered.

The goal statement should indicate the applicant's understanding of the role of the advanced practice nurse with the population of interest and any experience the applicant may have working with the patient population of interest.

The admission essay should briefly describe how meeting "The Essentials of Doctoral Education for Advanced Nursing Practice" (2006) will further their career goals.

An interview with program faculty is required.

One year of clinical experience working in the pediatric acute care setting is preferred.

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

No admission examination is required.

Career Opportunities: The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. The acute care pediatric nurse practitioner role has grown exponentially in the past decade, and the demand for board-certified advanced practice acute care providers has never been higher. Graduates of the certificate program in advanced practice nursing are prepared to provide health care for newborns, children, adolescents and young adults. Careers include:

- acute care home services
- critical care
- education and training of future health care providers
- emergency care
- inpatient hospitalist service
- specialty service provision
- transport teams

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Adult Gerontology Nurse Practitioner (Certificate), Certificate (NUAGNPGRCT)

Online Degree Search Title: Adult Gerontology Nurse Practitioner (Graduate Certificate)

Campus: Downtown Phoenix

Program Description: The certificate program for the adult gerontology nurse practitioner specialty is an advanced nursing practice program. It is designed for board-certified nurses in a different advanced practice registered nursing specialty who seek additional certification as an adult-gerontology primary care nurse practitioner, and for doctorate-level nurses who seek an adult-gerontology nurse practitioner position. This program prepares graduates to provide holistic, client-centered primary care to adolescents, adults and geriatric patients in a variety of settings.

This is a hybrid program, a blend of in-person and online learning. Students are required to travel to campus for orientation once and for immersions two or three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment across the life span. Specialty courses focus on assessment, screening, diagnosis and evidence-based management of common, chronic and complex health conditions in adolescents, adults and geriatric patients. Content including epidemiology, differential diagnosis, sociocultural variations in evidence-based treatments, health promotion and case management is emphasized. Adult gerontology-focused theory and clinical courses include theories, principles and clinical skills in the care of adolescents and adults across the life span in a variety of settings, including private practice, ambulatory clinics, long-term care facilities and patients' homes. Practicing faculty with clinical experience teach the specialty coursework and clinical experiences. Any deficiency courses determined by the student's unique gap analysis must have been completed within the past five years to be eligible for credit.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete their assigned clinical placement.

Students residing outside of Maricopa County are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before students start any clinical experience; the doctorate program office does not guarantee a clinical placement site for any student outside Maricopa County. If, during the program, faculty determine that the student needs additional supervision for clinical progress in the program, the student must complete clinical experiences in the Phoenix area.

The program offers practicum experiences (clinical rotations) in health profession shortage areas throughout the state, in both urban underserved and rural areas, providing students multicultural experiences to enhance professional development.

As a participating National Council for State Authorization reciprocity agreements member, Arizona State University is authorized to offer distance education to persons located in individual state authorization reciprocity agreement member states in accordance with the council's established policies and standards. California is not a state authorization reciprocity agreement member; the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions offering online education to students in California, or in-person education in Arizona to students from California. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College of Nursing and Health Innovation; these are noted on the ASU state authorizations (<https://admission.asu.edu/academics/authorizations>) website.

Degree Requirements:

22 credit hours.

Required Core (22 credit hours)

DNP 623 Adult-Gerontology Health Promotion (3)

DNP 624 Adult-Gerontology Health Promotion Practicum (3)

DNP 625 Management of Common Health Problems in Adult-Gerontology: Theory (3)

DNP 626 Management of Common Health Problems in Adult-Gerontology: Practicum (5)

DNP 627 Management of Complex Health Problems in Adult-Gerontology: Theory (3)

DNP 628 Management of Common Health Problems in Adult-Gerontology: Practicum (5)

Additional Curriculum Information

Nurses who complete this certificate meet the eligibility requirements for taking the Adult-Gerontology Primary Care Nurse Practitioner exam. In addition to completing didactic courses, students complete 13 credit hours (585 clock hours) of practicum experiences in a community setting.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree in nursing from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- documentation of a current unencumbered RN license in the state in which the student plans to do clinical practicums
- three professional letters of recommendation
- resume
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency, per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

International students who need an F-1 or J-1 visa need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

All students are required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

Applicants are required to have an in-person interview with the program faculty.

Applicants are asked to submit an admission essay and:

- describe career goals for the next five to 10 years and discuss how obtaining an NP certificate from Arizona State University will help meet these goals
- read "The Essentials of Doctoral Education for Advanced Nursing Practice" (2006) from the American Association of Colleges of Nursing, then focus on one of the first seven essentials and describe how meeting this essential will further their stated career goals

All Edson College of Nursing and Health Innovation students are required to complete health and safety requirements, and they must have a passing disposition on a background clearance and satisfactory completion of a substance screen with the program's identified agency.

One year of clinical experience working within the student's specialty population is preferred.

Career Opportunities: The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. Graduates of the adult gerontology nurse practitioner certificate program have the knowledge and training to provide health care for patients in a wide variety of settings. This broad base of comprehension and clinical expertise enables them to effectively participate and lead within clinical, community and academic arenas.

Career examples:

- business owner
- community advocate
- nurse practitioner
- professor

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. Advanced Nursing Practice, DNP (NUANPDNP)

Online Degree Search Title: Advanced Nursing Practice, DNP

Campus: Downtown Phoenix

Program Description: The DNP in advanced nursing practice prepares graduates to apply research to and integrate research into clinical practice, using innovative approaches to improve health care outcomes of populations and individuals across multiple settings.

This is a hybrid program, a blend of in-person and online learning. Students are required to travel to campus for orientation once and for immersions two or three times per semester.

Courses are designed for clinical experts and emphasize systems thinking in complex health environments, evidence-based practice, implementation science, and dissemination of outcomes to advance health care practices and policies. The program emphasizes innovation, leadership in professional relationships, and impacting organizational culture. Practicing faculty with systems-based experience teach much of the coursework and residency experiences, enriching student learning.

The Doctor of Nursing Practice program engages students to meet doctoral-level competencies in systems-level thinking, complexity science, quality and safety, evidence-based practice, and the development of a doctoral project within a partner organization to improve outcomes at the patient, provider or health care system level. Students of the doctoral program are educated as leaders at the highest level of nursing practice to translate research into practice, lead in multidisciplinary teams, and engage in health care policy and advocacy to improve patient outcomes.

Degree Requirements:

84 credit hours including the required applied project course (DNP 707).

Required Core (13 credit hours)

DNP 704 Principles of Evidence-Based Care in Advanced Practice (4)

DNP 705 Health Care Outcomes Management (3)

DNP 708 Systems Thinking in a Complex Healthcare Environment (3)

DNP 709 Individual and Innovation Leadership in Healthcare Practice (3)

Other Requirement (23 credit hours)

DNP 679 Biostatistics: Principals of Statistical Inference (3)

DNP 703 Innovation in Communication: Scholarly and Professional Writing (2)

DNP 711 Healthcare Policy and Innovation (3)

DNP 712 Clinical Residency and Management (12)

DNP 715 Dynamics and Principles of Information in Health Care (3)

Electives and Research (45 credit hours)

Culminating Experience (3 credit hours)

DNP 707 Disseminating Evidence to Advance Best Practice in Health Care and Health Policy (3)

Additional Curriculum Information

Students complete 540 hours of clinical practice residency and the program courses. Completion of an evidence-based doctoral applied project is required. Each project is developed individually with each student. The student has a primary mentor working with them on the project. Clinical practice residency hours are used to complete the project in a practice setting; work settings may be included, but specific objectives are developed individually with each student and may be different from the student's job. Experiences with disadvantaged and multicultural populations are encouraged, as are experiences in rural areas, and sites are available for these experiences.

For electives or research, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, up to 30 credit hours from a previously awarded master's degree can be used for this program.

Other requirement coursework may be substituted with approval of the academic unit if the student is in an approved concurrent program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in nursing from a nationally recognized, regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three professional letters of recommendation
- resume
- goal statement

- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency, per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

Applicants must be certified as an advanced practice nurse. A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

Applicants to the post-master's program should identify a relevant clinical issue related to advanced practice nursing that they would like to pursue during their doctoral program.

An interview with program faculty is required.

One year of clinical experience working within the student's specialty population is preferred.

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

An admission examination is not required.

Applications are reviewed on a space-available basis after the priority deadline.

Career Opportunities: Graduates of the Doctor of Nursing Practice program have the knowledge and training to provide health care for patients across the life span in a wide variety of settings. This broad base of comprehension and clinical expertise enables them to effectively participate and lead within clinical, community and academic arenas.

Career examples:

- business owner
- community advocate
- nurse practitioner
- professor

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Advanced Nursing Practice (Acute Care Pediatric Nurse Practitioner), DNP (NUANPACDNP)

Online Degree Search Title: Advanced Nursing Practice (Acute Care Pediatric Nurse Practitioner), DNP

Campus: Downtown Phoenix

Program Description: The acute care pediatric nurse practitioner concentration of the DNP program is an advanced nursing practice degree. This program prepares graduates to provide holistic, client-centered care to meet the physical, psychological and social needs of infants, children, adolescents and young adults.

This is a hybrid program, a blend of in-person and online learning. Students are required to travel to campus for orientation once and for immersions two or three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment. Specialty courses focus on assessment and management of a supportive, family-centered, culturally appropriate plan of care for pediatric patients with chronic, complex acute, and life-threatening illnesses. Any deficiency courses determined by the student's unique gap analysis must have been completed within the past five years to be eligible for credit.

In addition to advanced nursing specialty-focused outcomes, the Doctor of Nursing Practice program engages students to meet doctoral-level competencies in systems-level thinking, complexity science, quality and safety, evidence-based practice, and the development of a doctoral project within a partner organization to improve outcomes at the patient, provider or health care system level. Students are educated as leaders at the highest level of nursing practice to translate research into practice, lead in multidisciplinary teams, and engage in health care policy and advocacy to improve patient outcomes.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete their assigned clinical placement.

Students residing outside of Maricopa County are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before students start any clinical experience; the Doctor of Nursing Practice program office does not guarantee a clinical placement site for any student outside Maricopa County. If, during the program, faculty determine that the student needs additional supervision for clinical progress in the program, the student must complete clinical experiences in the Phoenix area.

The program offers clinical rotations in health profession shortage areas throughout the state, in both urban underserved and rural areas, which provide students with multicultural experiences to enhance professional development.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual State Authorization Reciprocity Agreement member states in accordance with the council's established policies and standards. California is not a State Authorization Reciprocity Agreement member, and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions offering online and in-person education from Arizona. ASU may offer educational activities in California. Electives (3 credit hours)

Culminating Experience (3 credit hours)

DNP 707 Disseminating Evidence to Advance Best Practice in Health Care and Health Policy (3)

Additional Curriculum Information

Nurse practitioner students complete 585 hours of clinical practicum work in the first two years of their degree program. They complete an additional 540 hours in their clinical residency course (DNP 712), for a total of 1,125 clinical and residency hours.

Every student must complete 600 hours of direct patient care with a nurse practitioner or physician preceptor in the clinical setting. Documented clinical experiences are required by the Pediatric Nursing Certification Board for the graduate to be eligible to take the national Pediatric Nurse Practitioner Acute Care certification examination. Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt is made to arrange this in the student's geographical area. In the event that clinical sites are unavailable in that area or if the faculty determine that the student needs additional faculty supervision of skills, the student is required to complete the clinical experience in the Phoenix area.

When approved by the student's supervisory committee and the Graduate College, up to 30 credit hours from a previously awarded master's degree can be used for this program.

Other requirement coursework may be substituted with approval of the academic unit if the student is in an approved concurrent program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three professional letters of recommendation
- professional resume
- goal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license, as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

An interview with program faculty is required.

One year of clinical experience working in the student's specialty population is preferred.

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

An admission examination is not required.

Career Opportunities: Graduates are prepared to excel upon entering the workplace and to practice at the most advanced level of nursing.

The acute care pediatric nurse practitioner role has grown exponentially in the past decade, and the demand for board-certified advanced practice acute care providers has never been higher. Graduates are prepared to provide health care for newborns and children up to young adulthood in careers that include:

- acute care home services
- critical care provision
- education and training of future health care providers
- emergency care provision
- inpatient hospitalist services
- specialty service provision
- transport teams

Advanced Nursing Practice (Adult-Gerontology Nurse Practitioner), DNP (NUANPAGDNP)

Online Degree Search Title: Advanced Nursing Practice (Adult-Gerontology Nurse Practitioner), DNP

Campus: Downtown Phoenix

Program Description: The adult-gerontology nurse practitioner concentration of the DNP program is an advanced nursing practice degree. This program prepares graduates to provide holistic, client-centered primary care to adolescents, adults and geriatric patients in a variety of settings.

This is a hybrid program, a blend of in-person and online learning. Students are required to travel to campus for orientation once and for immersions two or three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment across the lifespan. Specialty courses focus on the assessment, screening, diagnosis and evidence-based management of common, chronic and complex health conditions in adolescents, adults and geriatric patients. Content including epidemiology, differential diagnosis, sociocultural variations in evidence-based treatments, health promotion and case management is emphasized. Adult gerontology-focused theory and clinical courses include theories, principles and clinical skills in the care of adolescents and adults across the lifespan in a variety of settings, including private practice, ambulatory clinics, long-term care facilities and the patient's home. Practicing faculty with clinical experience teach the specialty coursework and clinical experiences.

In addition to advanced nursing specialty-focused outcomes, the program engages students to meet doctoral-level competencies in systems-level thinking, complexity science, quality and safety, evidence-based practice, and the development of a doctoral project within a partner organization to improve outcomes at the patient, provider or health care system level. Students are educated as leaders at the highest level of nursing practice to translate research into practice, lead in multidisciplinary teams, and engage in health care policy and advocacy to improve patient outcomes.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete their assigned clinical placement.

Students residing outside of Maricopa County, Arizona, are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations, and Edson College of Nursing and Health Innovation must approve these sites before starting any clinical experience; the program office does not guarantee a clinical placement site for any student outside Maricopa County. If, during the program, faculty determine the student needs additional supervision for clinical progress in the program, the student must complete clinical experiences in the Phoenix area.

The program offers clinical rotations in health profession shortage areas throughout the state, both in urban underserved and rural areas, that provide students multicultural experiences to enhance professional development.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual state authorization reciprocity agreement member states in accordance with the council's established policies and standards. California is not a state authorization reciprocity agreement member and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College of Nursing and Health Innovation. These exceptions are noted on the ASU state authorization (<https://admission.asu.edu/academics/authorizations>) website.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as a concurrent program with the following: Nursing and Healthcare Innovation, PhD

Degree Requirements:

84 credit hours including the required applied project course (DNP 707).

Required Core (13 credit hours)

DNP 704 Principles of Evidence-Based Care in Advanced Practice (4)

DNP 705 Health Care Outcomes Management (3)

DNP 708 Systems Thinking in a Complex Healthcare Environment (3)

DNP 709 Individual and Innovation Leadership in Healthcare Practice (3)

Concentration (22 credit hours)

DNP 623 Adult-Gerontology Health Promotion (3)
DNP 624 Adult-Gerontology Health Promotion Practicum (3)
DNP 625 Management of Common Health Problems in Adult-Gerontology: Theory (3)
DNP 626 Management of Common Health Problems in Adult-Gerontology: Practicum (5)
DNP 627 Management of Complex Health Problems in Adult-Gerontology: Theory (3)
DNP 628 Management of Complex Health Problems in Adult-Gerontology: Practicum (5)

Other Requirements (40 credit hours)

DNP 601 Theoretical Foundations for Advance Practice Nursing (3)
DNP 602 Evaluating Research for Practice (3)
DNP 604 Advanced Human Pathophysiology Across Lifespan (4)
DNP 605 Advanced Health Assessment Across Lifespan (3)
DNP 608 Applied Pharmacotherapeutics Across Lifespan (3)
DNP 609 Advanced Practice Nursing Role (1)
DNP 679 Biostatistics: Principals of Statistical Inference (3)
DNP 703 Innovation in Communication-Scholarly and Professional Writing (2)
DNP 711 Healthcare Policy and Innovation (3)
DNP 712 Clinical Residency and Management (12)
DNP 715 Dynamics and Principles of Information in Health Care (3)

Electives and Research (6 credit hours)

Culminating Experience (3 credit hours)

DNP 707 Disseminating Evidence to Advance Best Practice in Health Care and Health Policy (3)

Additional Curriculum Information

Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.

The American Nurses Credentialing Center has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students completing the Doctor of Nursing Practice. The program includes 1,125 practicum hours, exceeding the ANCC requirement.

For electives or research, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program allows up to 30 credit hours from a previously awarded master's degree to be used for this program.

Other requirement coursework may be substituted with approval of the academic unit if the student is in an approved concurrent program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in nursing from a nationally recognized, regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or they must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three professional letters of recommendation
- resume
- goal statement
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing.

The RN license must remain unencumbered throughout enrollment in any nursing program.

An interview with program faculty is required.

One year of clinical experience working within the student's specialty population is preferred.

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

An admission examination is not required.

Any deficiency courses determined by the student's unique gap analysis must have been completed in the past five years to be eligible for credit.

Applications are reviewed on a space-available basis after the priority deadline; application deadlines are posted on the program website.

Career Opportunities: The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. Doctor of Nursing Practice graduates are prepared to practice at the most advanced level of nursing.

Graduates of the adult gerontology nurse practitioner program have the knowledge and training to provide health care for patients in a wide variety of settings. The broad base of comprehension and clinical expertise enable graduates to participate effectively and lead within clinical, community and academic arenas.

Career examples:

- business owner
- community advocate
- nurse practitioner
- professor

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Advanced Nursing Practice (Family Nurse Practitioner), DNP (NUANPFNDNP)

Online Degree Search Title: Advanced Nursing Practice (Family Nurse Practitioner), DNP

Campus: Downtown Phoenix

Program Description: The family nurse practitioner concentration of the DNP program is an advanced nursing practice degree. This program prepares graduates to provide holistic, client-centered primary care to patients and families across the life span in a variety of settings.

This is a hybrid program, a blend of in-person and online learning. Students travel to campus for orientation once and for immersions two or three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment across the life span. Specialty courses focus on assessment, screening, diagnosis and management of acute and chronic conditions, emphasizing preventive care and promotion of healthy lifestyle choices. Content includes epidemiology, differential diagnosis and sociocultural variations in evidence-based treatments, including health promotion and health education. The program emphasizes theories, principles and clinical skills for holistic, client-centered, culturally appropriate primary care of infants, children, adolescents, adults and older adults within traditional, nontraditional and culturally diverse families. Practicing faculty with clinical experience teach the specialty coursework and clinical experiences, enriching learning. Any deficiency courses determined by the student's unique gap analysis must have been completed in the past five years to be eligible for credit.

In addition to advanced nursing specialty-focused outcomes, the program engages students to meet doctoral-level competencies in systems-level thinking, complexity science, quality and safety, evidence-based practice and the development of a doctoral project within a partner organization to improve outcomes at the patient, provider or health care system level. Students are educated as leaders at the highest level of nursing practice to translate research into practice, lead in multidisciplinary teams, and engage in health care policy and advocacy to improve patient outcomes.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout the

county and, in some cases, surrounding counties to complete their assigned clinical placement.

Students residing outside of Maricopa County are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before students start any clinical experience; the Doctor of Nursing Practice program office does not guarantee a clinical placement site for any student outside Maricopa County. If, during the program, faculty determine that the student needs additional supervision for clinical progress in the program, the student must complete clinical experiences in the Phoenix area.

The program offers clinical rotations in health profession shortage areas throughout the state, in both urban underserved and rural areas, which provide students with multicultural experiences to enhance professional development.

Advanced Nursing Practice (Family Psychiatric and Mental Health Nurse Practitioner), DNP (NUANPCFDNP)

Online Degree Search Title: Advanced Nursing Practice (Family Psychiatric and Mental Health Nurse Practitioner), DNP

Campus: Downtown Phoenix

Program Description: The family psychiatric and mental health nurse practitioner concentration of the DNP program is an advanced nursing practice degree. This program prepares students to provide holistic, client-centered mental health care to individuals of all ages within traditional, nontraditional and culturally diverse families.

This is a hybrid program, a blend of in-person and online learning. Students are required to travel to campus for orientation once and for immersions two or three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment. Specialty courses focus on assessment, screening, diagnosis and evidence-based management of common, chronic and complex mental health conditions across the lifespan. The program highlights valid and reliable tools for screening and identification of mental health disorders as well as early interventions for these problems. Content for each disorder include epidemiology, early signs and symptoms, differential diagnosis, and sociocultural variations in evidence-based management and treatment. Management includes psychopharmacologic and therapeutic skills building that are based in motivational interviewing, mindfulness, cognitive behavioral therapy and dialectical behavior therapy. The program emphasizes individual, group and family therapy techniques. Practicing faculty with clinical experience teach the specialty coursework and clinical experiences, which enrich learning.

In addition to advanced nursing specialty-focused outcomes, the program engages students to meet doctoral-level competencies in systems-level thinking, complexity science, quality and safety, evidence-based practice, and the development of a doctoral project within a partner organization to improve outcomes at the patient, provider or health care system level. Advanced Nursing Practice (Innovation Leadership), DNP (NUANPILDNP)

Online Degree Search Title: Advanced Nursing Practice (Innovation Leadership), DNP

Campus: Downtown Phoenix

Program Description: The DNP in advanced nursing practice with a concentration in innovation leadership is an advanced nursing practice degree. This program is designed to take the student's thinking and career to the next level by leveraging innovation theory, complexity science and the application of the latest evidence to advanced health system outcomes.

This is a hybrid program, a blend of in-person and online learning. Students are required to travel to campus for orientation once and for immersions two or three times per semester.

Courses are designed for all clinical leaders, including educators, executives and informaticists, who want to create sustainable health care in the communities they serve. Students learn how to optimize human and social capital, create measurable impact on their organizations, and foster environments of excellence through innovation. The program develops graduates who leverage resources, build effective organizational cultures, and develop professional relationships for high impact. Practicing faculty with systems-based experience teach the coursework and residency experiences, enriching learning.

The Doctor of Nursing Practice program engages students to meet doctoral-level competencies in systems-level thinking, complexity science, quality and safety, evidence-based practice, and the development of a doctoral project within a partner organization to improve outcomes at the patient, provider or health care system level. Students are educated as leaders at the highest level of nursing practice to translate research into practice, lead in multidisciplinary teams, and engage in health care policy and advocacy to improve patient outcomes. Acknowledged by graduates as a life-changing experience, this program is one of deep personal discovery and diverse professional enrichment. Students are part of a rich social fabric of highly engaged, intellectually astute and practically sound nursing leaders who are changing health care for the nation.

Los Angeles location

Select courses are offered through in-person instruction at the ASU California Center -- Broadway. Students should consult their advisor and schedule of classes for additional information before selecting this campus.

Degree Requirements:

84 credit hours including the required applied project course (DNP 716).

Required Core (13 credit hours)

Advanced Nursing Practice (Neonatal Nurse Practitioner), DNP (NUANPNDNP)

Online Degree Search Title: Advanced Nursing Practice (Neonatal Nurse Practitioner), DNP

Campus: Downtown Phoenix

ASU is not currently accepting applications for this program.

Program Description: The neonatal nurse practitioner concentration of the DNP program is an advanced nursing practice degree. This program prepares graduates to provide holistic, client-centered care to neonates, infants and children within traditional, nontraditional and culturally diverse families.

Core courses focus on theory to advanced practice, application of evidence to advanced practice, advanced pathophysiology, advanced pharmacology and advanced health assessment. Advanced neonatal nursing theory and clinical courses focus on the development of a framework for developmentally supportive, family-centered, culturally appropriate advanced nursing practice with infants, children and families. Practicing faculty with clinical experience teach the specialty coursework and clinical experiences, enriching learning.

In addition to advanced nursing specialty-focused outcomes, the Doctor of Nursing Practice program engages students to meet doctoral-level competencies in systems-level thinking, complexity science, quality and safety, evidence-based practice, and the development of a doctoral project within a partner organization to improve outcomes at the patient, provider or health care system level. Students are educated as leaders at the highest level of nursing practice to translate research into practice, lead in multidisciplinary teams, and engage in health care policy and advocacy to improve patient outcomes.

This is a hybrid program, a blend of in-person and online learning. Students are required to travel to campus for orientation once and for immersions two or three times per semester.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete their assigned clinical placement.

Students residing outside of Maricopa County are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before students start any clinical experience; the Doctor of Nursing Practice program office does not guarantee a clinical placement site for any student outside Maricopa County. If, during the program, faculty determine that the student needs additional supervision for clinical progress in the program, the student must complete clinical experiences in the Phoenix area.

The Doctor of Nursing Practice program offers clinical rotations in health profession shortage areas throughout the state, in both urban underserved and rural areas, providing students with multicultural experiences to enhance professional development.

As a participating National Council for State Authorization Reciprocity Agreements member, ASU is authorized to offer distance education to persons located in individual state authorization reciprocity agreement member states in accordance with the council's established policies and standards. California is not a state authorization reciprocity agreement member, and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College of Nursing and Health Innovation; these are noted on the ASU state authorization (<https://admission.asu.edu/academics/authorizations>) website.

Arizona State University Doctor of Nursing Practice programs are accredited by the Commission on Collegiate Nursing Education.

Degree Requirements:

84 credit hours including the required applied project course (DNP 707).

Required Core (21 credit hours)

DNP 604 Advanced Human Pathophysiology Across Lifespan (4)

DNP 605 Advanced Health Assessment Across Lifespan (3)

DNP 608 Applied Pharmacotherapeutics Across Lifespan (3)

DNP 609 Advanced Practice Nursing Role (1)

DNP 704 Principles of Evidenced-Based Care in Advanced Practice (4)

DNP 705 Healthcare Outcomes Management (3)

DNP 708 Systems Thinking in a Complex Healthcare Environment (3)

Concentration (34 credit hours)

DNP 653 Advanced Development and Family Health Promotion: Neonatal Theory I (3)

DNP 654 Neonatal Practicum I (3)

DNP 655 Management of Common Neonatal Problems (3)

DNP 656 Neonatal Practicum II (5)

DNP 657 Management of Complex Problems in Neonates (3)

DNP 658 Neonatal Practicum III: Management of Complex Problems in Neonates (5)

DNP 712 Clinical Residency and Management (12)

Other Requirement (20 credit hours)

DNP 601 Theoretical Foundations for Advance Practice Nursing (3)

DNP 602 Evaluating Research for Practice (3)

DNP 679 Biostatistics: Principals of Statistical Inference (3)

DNP 703 Innovation in Communication: Scholarly and Professional Writing (2)

DNP 709 Individual and Innovation Leadership in Healthcare Practice (3)

DNP 711 Healthcare Policy and Innovation (3)

DNP 715 Dynamics and Principles of Information in Health Care (3)

Electives and Research (6 credit hours)

Culminating Experience (3 credit hours)

DNP 707 Disseminating Evidence to Advance Best Practice in Health Care and Health Policy (3)

Additional Curriculum Information

Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.

The American Nurses Credentialing Center has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students who complete a nurse practitioner doctoral program. This program includes 1,125 practicum hours, exceeding the ANCC requirement.

For electives or research, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program allows up to 30 credit hours from a previously awarded master's degree to be used for this program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in nursing from a nationally recognized, regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three online recommendations and one self-evaluation
- satisfactory completion of the analytical writing section of the GRE
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency, per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

The three online recommendations should be from individuals knowledgeable about the applicant's academic and nursing leadership potential; the self-evaluation is completed by the applicant.

A current unencumbered license is required. If clinical practice will occur outside Arizona, the student must have a current unencumbered license in the state where clinical practice will be conducted. If clinical practice will occur within Arizona, the student must have a current unencumbered Arizona license to practice as a registered nurse.

An interview with a representative of the specialty area is required.

Students should see the program website for application deadlines.

Career Opportunities: Doctor of Nursing Practice graduates are prepared to practice at the most advanced level of nursing.

Graduates of the neonatal nurse practitioner concentration of the Doctor of Nursing Practice in advanced nursing practice have the knowledge and training to provide health care for patients in an acute care setting. This broad base of clinical expertise enables them to participate effectively and lead within clinical, community and academic arenas.

Career examples:

- business owner
- community advocate
- nurse practitioner
- professor

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Advanced Nursing Practice (Pediatric Nurse Practitioner), DNP (NUANPPDNP)

Online Degree Search Title: Advanced Nursing Practice (Pediatric Nurse Practitioner), DNP

Campus: Downtown Phoenix

Program Description: The pediatric nurse practitioner concentration of the DNP program is an advanced nursing practice degree. This program prepares graduates to provide holistic, client-centered primary care of infants, children, adolescents and young adults.

This is a hybrid program, which is a blend of in-person and online learning. Students are required to travel to campus for orientation once and for immersions two or three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment. Specialty courses focus on assessment; screening; diagnosis; health promotion; disease prevention; and management of minor, acute and stable complex-chronic health disorders in the pediatric population. Using best evidence, primary care specialty pediatric courses focus on health promotion and disease management with an emphasis on preventive care and the development of a framework for supportive, family-centered, culturally appropriate advanced nursing practice for infants, children, adolescents and young adults. Practicing faculty with clinical experience teach the specialty coursework and clinical experiences, which will enrich learning. Any deficiency courses determined by the student's specific gap analysis must have been completed within the past five years to be eligible for credit.

In addition to advanced nursing specialty-focused outcomes, the Doctor of Nursing Practice program engages students to meet doctoral level competencies in systems-level thinking, complexity science, quality and safety, evidence-based practice, and the development of a doctoral project within a partner organization to improve outcomes at the patient, provider or health care system level. Students are educated as leaders at the highest level of nursing practice to translate research into practice, lead in multidisciplinary teams, and engage in health care policy and advocacy to improve patient outcomes.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete their assigned clinical placement.

Students residing outside of Maricopa County, Arizona, are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations, and Edson College of Nursing and Health Innovation must approve these sites before starting any clinical experience; the Doctor of Nursing Practice program office does not guarantee a clinical placement site for any student outside Maricopa County. If, during the program, faculty determine the student needs additional supervision for clinical progress in the program, the student must complete clinical experiences in the Phoenix area.

The Doctor of Nursing Practice program offers clinical rotations in health profession shortage areas throughout the state, both in urban underserved and rural areas, that provide students multicultural experiences to enhance professional development.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual state authorization reciprocity agreement member states in accordance with the council's established policies and standards. California is not a state authorization reciprocity agreement member and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College of Nursing and Health Innovation. These exceptions are noted on the ASU state authorization website.

Degree Requirements:

84 credit hours including the required applied project course (DNP 707).

Required Core (13 credit hours)

DNP 704 Principles of Evidence-Based Care in Advanced Practice (4)

DNP 705 Health Care Outcomes Management (3)

DNP 708 Systems Thinking in a Complex Healthcare Environment (3)

DNP 709 Individual and Innovation Leadership in Healthcare Practice (3)

Concentration (22 credit hours)

DNP 643 Developmentally Based Care of the Well Child (3)

DNP 644 Well Child Advanced Practicum (3)

DNP 645 Management of Common Problems in Pediatric Primary Care (3)

DNP 646 Management of Common Problems in Pediatric Primary Care Practicum (5)

DNP 647 Management of Complex and Chronic Health Problems in Pediatric Primary Care (3)

DNP 648 Management of Complex and Chronic Health Problems in Pediatric Primary Care Practicum (5)

Other Requirements (40 credit hours)

DNP 601 Theoretical Foundations for Advance Practice Nursing (3)

When approved by the student's supervisory committee and the Graduate College, this program allows up to 30 credit hours from a previously awarded master's degree to be used for this program.

Other requirement coursework may be substituted with approval of the academic unit if the student is in an approved concurrent program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in nursing from a nationally recognized, regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three professional letters of recommendation
- resume
- goal statement
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

An interview with program faculty is required.

One year of clinical experience working within the student's specialty population is preferred.

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

An admission examination is not required.

Career Opportunities: The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. Doctor of Nursing Practice graduates are prepared to practice at the most advanced level of nursing.

The pediatric nurse practitioner role is well established in all urban and most rural areas of Arizona. Advanced practice nursing graduates are prepared to provide comprehensive health care for newborns and youths. Possible careers include:

- community health centers
- nurse practitioner
- outpatient primary and secondary health care clinics
- professor
- specialty health care

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. Advanced Nursing Practice (Women's Health Nurse Practitioner), DNP (NUANPWHDNP)

Online Degree Search Title: Advanced Nursing Practice (Women's Health Nurse Practitioner), DNP

Campus: Downtown Phoenix

Program Description: The women's health nurse practitioner concentration of the DNP program is an advanced nursing practice degree. The program prepares graduates to provide holistic, client-centered primary care to women of any age from adolescence through older adulthood.

This is a hybrid program, which is a blend of in-person and online learning. Students are required to travel to campus for orientation once and for immersions two or three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment across the lifespan. Specialty courses focus on the assessment, screening, diagnosis and evidence-based management of common and complex gynecologic, sexual, reproductive, menopause-transition and post-menopause health care; uncomplicated and high-risk antepartum and postpartum care; as well as sexual and reproductive health care for men. Courses emphasize research and theories to provide the context essential to advanced nursing practice. These courses will

focus on health promotion, risk assessment and disease prevention for women across the lifespan, taking into account factors that influence health care and health outcomes. Any deficiency courses determined by the student's specific gap analysis must have been completed within the past five years to be eligible for credit.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete their assigned clinical placement.

Aging, MS (LAALDMS)

Online Degree Search Title: Aging, MS

Campus: Downtown Phoenix, Online

Program Description: Aligned with the Arizona State University charter and design aspirations, the MS program in aging assumes responsibility for the overall health of communities by educating students to become experts in the field of aging.

By fusing intellectual disciplines and socially embedding with partners in the network of aging health, wellness and social services, as well as entrepreneurs developing senior-related business ventures, this program is uniquely positioned to address the varied needs of this rapidly growing population. The program provides students with advanced interdisciplinary knowledge that focuses on improving the well-being of diverse older adults within the context of their families and communities.

The curriculum of the Master of Science in aging is competency-based and designed in accordance with the Academy for Gerontology in Higher Education competencies for graduate education. It addresses the multidimensional aging process and the needs of aging populations and their potential contributions to society; reflects national health initiatives; and encourages community collaborations that are reciprocal, beneficial and sustainable to improve health outcomes of older adults.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Applied Science (Health Entrepreneurship and Innovation), BAS
- Community Health, BS
- Health Care Coordination, BS
- Health Entrepreneurship and Innovation, BS
- Integrative Health, BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required applied project course (HCA 593).

Required Core (15 credit hours)

HCA 501 Perspectives on Aging and the Life Course (3)

HCA 502 Research and Program Evaluation Issues in Aging (3)

HCA 503 Diversity in Aging (3)

HCA 505 Interdisciplinary and Community Collaboration in Aging (3)

HCA 508 Mental Health Assessment and Intervention (3)

Restricted Electives (6 credit hours)

HCA 504 Caregiving Issues for Families and Professionals (3)

HCA 507 Care Coordination Across the Continuum of Care (3)

HCA 510 Innovations in Program Development and Policy (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)

HCA 593 Applied Project (3)

Additional Curriculum Information

The program requires six credit hours of electives to support academic and professional interests. Students should consult with their advisor for the current approved elective list. Other courses may be used with approval of the academic unit.

For restricted electives, students select two courses from the list.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a

minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/aging-ms/>) for program descriptions and to request more information.

Career Opportunities: Graduates have the knowledge, training and insight to provide relevant information for the aging population in a wide variety of settings. The broad base of comprehension and expertise enables graduates to effectively participate and lead within the aging community.

Career examples include:

- advocate
- consultant
- entrepreneur
- expert witness
- facilities director
- lecturer
- program manager
- research coordinator

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. Clinical Research Management, MS (NUCRMMS)

Online Degree Search Title: Clinical Research Management, MS

Campus: Online

Program Description: Clinical research management is a growing field of medical, health and research professionals who direct and conduct clinical trials for new medical products.

With clinical research rapidly expanding, the MS program in clinical research management takes a transdisciplinary approach in providing an education strong in commercial and fiscal practices of conducting clinical research to prepare students for clinical trial management. This program explores the ethical and regulatory aspects of research and overall management of clinical drug, biological and medical device trials, management of clinical studies, data management, drug discovery and medical devices. Students are encouraged to innovate and develop entrepreneurial skills to lead clinical research endeavors.

The Master of Science program in clinical research management is designed to be flexible and convenient for the adult learner and working professional. Part-time study is available. Completion of the program requires a project applicable to the clinical research management field.

This degree is the first clinical research graduate degree to receive accreditation from the Commission on Accreditation of Allied Health Education Programs. The CAAHEP is the largest programmatic accreditor in the health sciences field and is recognized by the Council for Higher Education Accreditation in the U.S. and internationally.

Degree Requirements:

33 credit hours including the required capstone course (HCR 566).

Required Core (18 credit hours)

HCR 551 Clinical Research Monitoring (3)

HCR 561 Responsible Conduct of Clinical Research (3)

HCR 562 Clinical Research Data Management and Technology Implementation (3)

HCR 563 Fundamentals of Regulatory Affairs (3)

HCR 565 Clinical Research Operations (3)

HCR 574 Scientific and Research Review Boards (3)

Restricted Electives (12 credit hours)

HCR 552 Medical Device Development and Regulation (3)

HCR 553 Quality Assurance and Clinical Research (3)

HCR 555 Pharmaceutical Safety and Risk Management (3)

HCR 557 Clinical Research Design and Methods (3)

HCR 564 Global Regulatory Affairs Leadership (3)

HCR 567 Research Management and Contemporary Research Topics (3)

HCR 568 Health Care Project Management (3)

HCR 575 Management and Negotiation of Clinical Trial Budgets and Contracts (3)

HCR 576 Drug Discovery, Development and Regulations (3)

Culminating Experience (3 credit hours)

HCR 566 Clinical Research Management Capstone (3)

Additional Curriculum Information

Students select four courses from the restricted electives list.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree that includes courses with content in anatomy and physiology and medical terminology, or if they have earned a bachelor's degree. Education or experience in anatomy, physiology and medical terminology is recommended.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours or 90 quarter hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume or curriculum vitae
- two online references
- personal statement
- response to application questions
- proof of English language proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The applicant must have six months of full-time, related clinical research work or internship experience, as described in a resume or curriculum vitae. Applicants who do not have six months of experience are required to complete a course in clinical research foundations, provided by the program, before enrolling in courses.

The online references should be from colleagues, supervisors or other professional contacts and should attest to the applicant's academic and leadership experiences.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-clinical-research-management/>) for program descriptions and to request more information.

Career Opportunities: The Master of Science degree program in clinical research management prepares students for careers in governmental and regulatory agencies, pharmaceutical and medical device companies, health care institutions, academic institutions, and national or international research organizations.

Graduates have career opportunities in many areas. Career examples include:

- clinical research associate
- clinical research coordinator
- clinical trial data manager
- clinical trial director
- clinical trial program manager

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Clinical Research Management (certificate), Certificate (NUHCRGRCC)

Online Degree Search Title: Clinical Research Management (Graduate Certificate)

Campus: Online

Program Description: The clinical research management certificate gives research professionals an opportunity to advance their careers in clinical research. The program is designed to help them build a solid foundation in clinical trial management.

Students learn about ethical and responsible conduct in clinical research, as well as clinical research regulations, ethics, operations and data management. These topics include management of day-to-day operations, recruitment, retention, staffing, data management and clinical trial management.

Degree Requirements:

15 credit hours.

Required Core (12 credit hours)

HCR 561 Responsible Conduct of Clinical Research (3)

HCR 562 Clinical Research Data Management and Technology Implementation (3)

HCR 563 Fundamentals of Regulatory Affairs (3)

HCR 565 Clinical Research Operations (3)

Restricted Elective (3 credit hours)

Additional Curriculum Information

Students should see the academic unit for the list of restricted electives.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume or curriculum vitae
- two online references
- personal statement
- response to application questions
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants must have six months of full-time, related clinical research work or internship experience as described on the applicant's resume or curriculum vitae. Applicants may be required to submit a job description or internship transcript from their employer.

The online references should be professionals, such as colleagues, supervisors, professors or other professional contacts, who can attest to the applicant's academic and leadership experiences.

Knowledge of anatomy, physiology and medical terminology is recommended.

Applications are due 30 days before the start of the session.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-clinical-research-management/>) for program descriptions and to request more information.

Career Opportunities: Certificate graduates can prepare for research positions that involve evaluating the safety and effectiveness of new medical products. There are many different therapeutic focus areas that graduates can pursue. Specific careers include:

- clinical research assistant
- clinical research coordinator
- clinical research supervisor

Clinical Research Management (Regulatory Science), MS (NUCRMRSMS)

Online Degree Search Title: Clinical Research Management (Regulatory Science), MS

Campus: Online

Program Description: Regulatory affairs ensure that new products meet the requirements and standards set by regulatory authorities, and regulatory science addresses the safety, efficacy, quality and regulation of new medical products, diagnostics and treatments. This master's program aligns regulations and national competencies throughout the life cycle of medical products. With a master's degree in clinical research management and a focus on regulatory science, graduates can advance medical care and treatment while ensuring that new discoveries adhere to rules and regulations that keep patients safe.

The regulatory science concentration of this program provides students with a balance of skills in clinical research management and regulatory affairs and sciences. Coursework in this rigorous program includes regulatory writing techniques, quality assurance, medical devices and drugs, and pharmaceutical safety and risk management, ethical standards and regulation, in addition to clinical trial management.

This program meets the needs of professional adult learners and provides the flexibility of online courses, allowing for enrollment five times per year. Students can complete the program on a part-time basis, enabling them to continue to work while earning their degree. The program has the distinction of being the first clinical research graduate degree to receive accreditation from the Commission on Accreditation of Allied Health Education Programs. The CAAHEP is the largest programmatic accreditor in the health sciences field and is recognized by the Council for Higher Education Accreditation in the U.S. and internationally.

Degree Requirements:

33 credit hours including the required capstone course (HCR 566).

Required Core (18 credit hours)

HCR 551 Clinical Research Monitoring (3)

HCR 561 Responsible Conduct of Clinical Research (3)

HCR 562 Clinical Research Data Management and Technology Implementation (3)

HCR 563 Fundamentals of Regulatory Affairs (3)

HCR 565 Clinical Research Operations (3)

HCR 574 Scientific and Research Review Boards (3)

Concentration (12 credit hours)

HCR 553 Quality Assurance and Clinical Research (3)

HCR 555 Pharmaceutical Safety and Risk Management (3)

HCR 557 Clinical Research Design and Methods (3)
HCR 564 Global Regulatory Affairs Leadership (3)
HCR 567 Research Management and Contemporary Research Topics (3)
HCR 578 Legal Aspects of Clinical Research (3)
HCR 579 Translational Research in Drug Discovery and Development (3)

Culminating Experience (3 credit hours)
HCR 566 Clinical Research Management Capstone (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours or 90 quarter hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume or curriculum vitae
- three online references
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The applicant must have six months of full-time, related clinical research work or internship experience as described in a resume or curriculum vitae. Applicants without six months of experience are required to complete the research foundation courses provided through the program prior to enrollment in any courses.

The online references should be from colleagues, supervisors or other professional contacts and should attest to the applicant's academic and leadership experiences.

Courses or a background in anatomy, physiology and medical terminology are recommended.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-clinical-research-management-regulatory-science/>) for program descriptions and to request more information.

Career Opportunities: Graduates with an MS in clinical research management with a focus on regulatory science have a variety of career opportunities to explore. Career examples include:

- clinical research associate
- project manager
- quality control specialist
- regulatory affairs manager
- regulatory affairs specialist

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Emergency Nurse Practitioner (Certificate), Certificate (NUEMNPGRCT)

Online Degree Search Title: Emergency Nurse Practitioner (Graduate Certificate)
2024-25 Academic Catalog Archive

Campus: Downtown Phoenix

Program Description: The certificate program for the emergency nurse practitioner specialty is an advanced nursing practice program. It prepares graduates to provide holistic, client-centered care to patients across the life span in ambulatory, urgent and emergent settings. The program is designed for board-certified family practitioner nurses who seek additional certification as an emergency nurse practitioner and for students currently enrolled in their third year in the DNP program in the family nurse practitioner track at Arizona State University who seek to become an emergency nurse practitioner.

This is a hybrid program, a blend of in-person and online learning. Students are required to travel to campus for orientation and immersions two or three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment. Any deficiency courses determined by the student's unique gap analysis must have been completed in the past five years to be eligible for credit.

Specialty courses focus on care for patients with cardiovascular, thoracic-respiratory, dermatologic, abdominal, musculoskeletal, psychiatric, traumatic, renal, genitourinary, endocrine, nervous, head, ear, nose and throat system diseases and disorders in ambulatory, urgent and emergent settings.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete their assigned clinical placement.

Students who reside outside of Maricopa County are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before students start any clinical experience; the doctoral program office does not guarantee a clinical placement site for any student outside Maricopa County. If, during the program, faculty determine that the student needs additional supervision for clinical progress in the program, the student must complete clinical experiences in the Phoenix area.

The program offers practicum experiences (clinical rotations) in health profession shortage areas throughout the state, in both urban underserved and rural areas, that provide students with multicultural experiences to enhance professional development.

As a participating National Council for State Authorization Reciprocity Agreements member, ASU is authorized to offer distance education to persons located in individual state authorization reciprocity agreement member states in accordance with the council's established policies and standards. California is not a state authorization reciprocity agreement member, and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College of Nursing and Health Innovation; these are noted on the ASU state authorization (<https://admission.asu.edu/academics/authorizations>) website.

ASU nursing practice programs are accredited by the Commission on Collegiate Nursing Education and are validated by the American Academy of Emergency Nurse Practitioners.

Degree Requirements:

15 credit hours.

Required Core (15 credit hours)

DNP 610 Principles of Advanced Emergency Nursing I (3)

DNP 611 ENP Practicum I: Advanced Emergency Nursing Practice (3)

DNP 630 Principles of Advanced Emergency Nursing II (3)

DNP 631 ENP Practicum II: Advanced Emergency Nursing Practice (3)

DNP 649 Advanced Physiology (3)

Additional Curriculum Information

Every certificate student must complete 270 hours of direct patient care with a nurse practitioner or physician preceptor in the clinical setting.

Documented clinical experiences are required by the certification organization (AANP) for the graduate to be eligible to take the national Emergency Nurse Practitioner certification examination.

Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt is made to arrange this in the student's geographical area. In the event that clinical sites are unavailable in that area or if the faculty determine that the student needs additional faculty supervision of skills, the student is required to complete the clinical experience in the Phoenix area. Experiences with disadvantaged and multicultural populations are encouraged, as are experiences in rural areas, and sites are available for these experiences.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three professional letters of recommendation
- professional resume
- goal statement
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa need to apply to and be accepted to a graduate degree program prior to being considered for the certificate program. International students residing in the United States on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

The goal statement should indicate the applicant's understanding of the role of the advanced practice nurse with the population of interest and any experience the applicant may have working with the patient population of interest.

The admission essay should briefly describe how meeting "The Essentials of Doctoral Education for Advanced Nursing Practice" (2006) will further their career goals.

Applicants must be a licensed family nurse practitioner currently or enrolled in the family nurse practitioner program at ASU.

An interview with program faculty is required.

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

An admission examination is not required.

Career Opportunities: The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. Graduates of the emergency nurse practitioner certificate program have the knowledge and training to provide health care for patients across the life span in a wide variety of settings, and their broad base of comprehension and clinical expertise enables them to effectively participate and lead within clinical, community and academic arenas.

Career examples include:

- business owner
- community advocate
- nurse practitioner
- professor

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Family Nurse Practitioner (certificate), Certificate (NUFMPGRCE)

Online Degree Search Title: Family Nurse Practitioner (Graduate Certificate)
2024-25 Academic Catalog Archive

Campus: Downtown Phoenix

Program Description: The certificate program for the family nurse practitioner specialty is an advanced nursing practice program. It prepares graduates to provide holistic, client-centered primary care to individuals of all ages within traditional, nontraditional and culturally diverse families. The program is designed for board-certified nurses in a different advanced practice registered nurse specialty area who seek additional certification as a family nurse practitioner and for doctorate-level nurses who seek to become a family health nurse practitioner. It prepares nurses to meet the physical, psychological and social needs of individuals and families across the life span.

This is a hybrid program, a blend of in-person and online learning. Students are required to travel to campus for orientation once and for immersions two or three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment. Any deficiency courses determined by the student's unique gap analysis must have been completed in the past five years to be eligible for credit.

Specialty courses focus on assessment, diagnosis and evidence-based management of common, chronic and complex health conditions in individuals, from infants to geriatrics, within traditional, nontraditional and culturally diverse families. Content that includes epidemiology, differential diagnosis, and sociocultural variations in evidence-based treatments, including health promotion, is emphasized.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete their assigned clinical placement.

Students residing outside of Maricopa County are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before students start any clinical experience; the doctoral program office does not guarantee a clinical placement site for any student outside Maricopa County. Family Psychiatric and Mental Health Nurse Practitioner (certificate), Certificate (NUPMNUPRCE)

Online Degree Search Title: Family Psychiatric and Mental Health Nurse Practitioner (Graduate Certificate)

Campus: Downtown Phoenix

Program Description: The certificate program for the family psychiatric and mental health nurse practitioner specialty is an advanced nursing practice program. It prepares graduates to provide holistic, client-centered mental health care to individuals of all ages within traditional, nontraditional and culturally diverse families. It is designed for board-certified nurses in a different advanced practice registered nurse specialty area who seek additional certification as a family psychiatric and mental health nurse practitioner, and for doctorate-level nurses who seek to become a family psychiatric mental health nurse practitioner. It emphasizes the assessment, diagnosis and evidence-based management of common and complex mental health disorders across the life span.

This is a hybrid program, a blend of in-person and online learning. Students are required to travel to campus for orientation once and for immersions two or three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment. Any deficiency courses determined by the student's unique gap analysis must have been completed in the past five years to be eligible for credit.

The program highlights valid and reliable tools for screening and identification of mental health disorders, as well as early interventions for these problems. Content for each disorder includes epidemiology, incidence, early signs and symptoms, differential diagnosis, and sociocultural variations in evidence-based management and treatment. Management includes psychopharmacologic and therapeutic skills building that are based in motivational interviewing, mindfulness, cognitive behavioral therapy and dialectical behavior therapy. Individual, group and family therapy techniques are emphasized.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete their assigned clinical placement.

Students residing outside of Maricopa County are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before students start any clinical experience; the doctoral program office does not guarantee a clinical placement site for any student outside Maricopa County. If, during the program, faculty determine that the student needs additional supervision for clinical progress in the program, the student must complete clinical experiences in the Phoenix area.

The program offers practicum experiences (clinical rotations) in health profession shortage areas throughout the state, in both urban underserved and rural areas, which provide students with multicultural experiences to enhance professional development.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual state authorization reciprocity agreement member states in accordance with the council's established policies and standards. California is not a state authorization reciprocity agreement member, and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College of Nursing and Health Innovation; these are noted on the ASU state authorization (<https://admission.asu.edu/academics/authorizations>) website.

ASU nursing practice programs are accredited by the Commission on Collegiate Nursing Education.

Degree Requirements:

28 credit hours.

This graduate certificate program (including 585 clinical hours) prepares nurses with a master's degree to become family psychiatric mental health nurse practitioners.

Required prerequisites (or equivalent courses taken while in master's degree program):

DNP 604 Advanced Human Pathophysiology Across Lifespan (4)

DNP 605 Advanced Health Assessment Across Lifespan (3)

DNP 608 Applied Pharmacotherapeutics Across Lifespan (3)

DNP 609 Advanced Practice Nursing Role (1)

Students have an individual review of their transcripts and an individualized plan of study designed to meet certification requirements. Depending on how many prerequisite courses are completed in the master's degree program, up to one year of additional study may be needed complete this specialty.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree in nursing from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of a current unencumbered RN license in the state in which the student plans to do clinical practicums
- three professional letters of recommendation
- resume
- goal statement
- admission essay
- health and safety requirements: proof of passing disposition on a background clearance and satisfactory completion of a substance screen
- proof of English proficiency

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency, per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

International students who need an F-1 or J-1 visa need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

Applicants must be board certified in a different APRN specialty.

All applicants must have an interview with program faculty prior to admission to the program.

It is preferred that applicants have at least one year of clinical experience working within the student's specialty population.

Admission examinations are not required.

Career Opportunities: The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. Graduates of the family psychiatric nurse practitioner certificate program have the knowledge and training to provide health care for patients across the life span in a wide variety of settings.

Career examples include:

- business owner

Food Safety and Protection (certificate), Certificate (NUFDSPGRCT)

Online Degree Search Title: Food Safety and Protection (Graduate Certificate)

Campus: Online

Program Description: The online food safety graduate certificate is designed for working professionals and graduate students interested in food policy as it relates to the safety and quality of foods.

The curriculum is aligned with local, state and national health and safety initiatives and also integrates the regulatory focus of the Food and Drug Administration. The program focuses on the downstream evaluation of the production, processing and preparation of food and food products. Students learn to assess food safety hazards, such as waterborne and food pathogen outbreaks. They also learn about food manufacturing and processing, quality systems, foodborne illnesses, and policies and regulations.

Edson College of Nursing and Health Innovation recommends that students have a course in chemistry and biology completed before enrolling in the certificate.

The program aligns with the content on the Certified Professional Food Manager certification exam from the National Environmental Health Association and helps prepare students to take the NEHA exam. To successfully acquire professional certifications and credentials, and even to be eligible to test for these, students may need prior work experience, additional coursework, fieldwork and background checks. Students should refer to the NEHA website for general information. www.neha.org (www.neha.org)

Degree Requirements:

15 credit hours.

Required Core (12 credit hours)

HCR 543 Food Safety and Protection (3)

HCR 544 Assessing Food Safety and Developing Policy Procedures and Training (3)

HCR 558 Technical Writing for the Regulatory Professional (3)

SFS 560 Tools and Tactics for Food Policy Change (3) or HCR 550 Quality Assurance and Safety in Food and Dietary Supplements (3)

Other Requirements (3 credit hours)

HCR 563 Fundamentals of Regulatory Affairs (3) or

HCR 584 Internship (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a science-based or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- professional resume
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/food-safety-grad-certificate/>) for program descriptions and to request more information.

Career Opportunities: Graduates with a food safety certificate bring strong analytical, writing and inspection skills to the job market. Many find work within the manufacturing and agricultural industries as food safety, quality control or plant managers; product and public health inspectors; or compliance officers in food manufacturing and processing.

Career examples include:

- border control public health inspector
- facility manager
- federal consumer safety inspector
- food and safety sanitation product inspector
- food manufacturing, process and preparation specialist
- food inspector
- health inspector
- production control food safety inspector

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Health Care Innovation, Certificate (NUHCINGRCT)

Online Degree Search Title: Health Care Innovation (Graduate Certificate)
2024-25 Academic Catalog Archive

Campus: Downtown Phoenix, Online

Program Description: The emerging field of health care innovation requires individuals who can lead and facilitate change.

In the health care innovation graduate certificate program, students learn through reflection, personality assessment, exercises in interdisciplinary team-case study analyses, system intervention, idea pitching and change-readiness assessment. Related entrepreneurial and intrapreneurial concepts, such as prototyping, business plan or project plan design, budgeting and presentation skills, are also covered.

Emphasizing complexity leadership and vulnerability along with emotional competence, this certificate prepares students to work in this interdisciplinary and highly sought-after area.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

HCI 538 Innovation and the Individual (3)

Electives (12 credit hours)

Additional Curriculum Information

Students work closely with an advisor to select electives tailored to their individual goals and interests. Elective coursework includes 12 credit hours at the 500 level or above focused on entrepreneurship and innovation. A minimum of six credit hours must be completed from HCI courses.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any health-related business, social science, hard science, health care practice or technology field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Admission examinations are not required.

Health Care Simulation, MS (NUHCSMS)

Online Degree Search Title: Health Care Simulation, MS

2024-25 Academic Catalog Archive

1440

Campus: Downtown Phoenix, Online

Program Description: In the MS program in health care simulation, students acquire the skills to shape the design, operations and evaluation of educational health care simulations in academic or practice settings.

Students develop evidence-based scenario design, use technology-enhanced environments that replicate real patient experiences with lifelike high-fidelity computer manikins or simulated participants, and employ operations techniques. Through learning and working with their peers, faculty and leaders from multiple disciplines such as health care, sociology, technology, the arts and public policy, students gain experience in creating transdisciplinary solutions.

Simulation in health care education aims to improve competencies in communication, teamwork, critical thinking, professional identity and safety. The simulated learning environment provides a psychologically safe space where students can make mistakes without risk to real patients.

Degree Requirements:

30 credit hours including the required applied project course (HCS 593).

Required Core (3 credit hours)

HCS 501 Foundations in Health Care Simulation (3)

Other Requirements (18 credit hours)

HCI 540 Understanding and Applying Principles of Evidence-based Practice (3)

HCS 502 Health Care Simulation Educational Assessment and Debriefing Methods (3)

HCS 503 Principles of Operations Management in Health Care (3)

NUR 521 Health Care Evidence, Informatics and Analysis (3)

NUR 548 Patient Safety, Health Care Quality and Informatics (3)

NUR 671 Teaching in Academic and Practice Settings (3)

Restricted Electives (6 credit hours)

BMI 601 Fundamentals of Health Informatics (3)

HCI 538 Innovation and the Individual (3)

HCI 544 Information Technology (IT) for Health Care Innovation (3)

NUR 670 Curriculum Development in Academic and Practice Settings (3)

Culminating Experience (3 credit hours)

HCS 593 Applied Project (3)

Additional Curriculum Information

Coursework for other requirements or restricted electives may be substituted with approval of the academic unit.

For restricted electives, students choose two courses from the above list, for a total of six credit hours.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in health care or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- professional resume
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/health-care-simulation-masters/>) for program descriptions and to

request more information.

Career Opportunities: Professionals with expertise in health care simulation are qualified to work in either academic or clinical simulation environments. Career examples include:

- director or assistant director of a simulation center
- education technician simulation specialist
- operations specialist
- simulation education specialist
- simulation manager
- simulation nurse

Healthcare Innovation, MHI (NUHCINNMHI)

Online Degree Search Title: Healthcare Innovation, MHI

Campus: Online

Program Description: Students in the MHI in health care innovation program learn how to create and sustain cultures of innovation in health care from multiple perspectives: personal competence for innovation, use of evidence in decision-making, remodeling system infrastructures, financing, communication and policymaking. Students study change theory, leadership, entrepreneurship, technology and system design, and they develop competence in the design, application and testing of innovative processes and products. A primary focus of the Master of Healthcare Innovation is to prepare students to lead processes of innovation and transformation.

Innovative thinking, planning, implementing and evaluation are emphasized throughout the program. The curriculum incorporates the latest trends in health care and is built upon collaboration with other professionals and faculty across diverse disciplines.

Graduates of the program possess the leadership skills and behaviors to influence the future of health care as well as transform and improve health care outcomes for individuals and communities.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Applied Science (Health Entrepreneurship and Innovation), BAS
- Community Health, BS
- Health Care Coordination, BS
- Health Entrepreneurship and Innovation, BS
- Integrative Health, BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

34 credit hours including the required capstone course (HCI 563).

Required Core (5 credit hours)

HCI 538 Innovation and the Individual (3)

HCI 561 Innovation Methods (2)

Electives (6 credit hours)

Other Requirements (18 credit hours)

HCI 540 Understanding and Applying Principles of Evidence-Based Practice (3)

HCI 542 Systems Thinking in a Complex Environment (3)

HCI 544 Information Technology (IT) for Health Care Innovation (3)

HCI 548 Advanced Principles and Concepts of Innovation (3)

HCI 550 Health Care Policy and Innovation (3)

HCI 552 Financing for Innovation (3)

Culminating Experience (5 credit hours)

HCI 563 Capstone: Final Innovation Project (5)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit

- graduate admission application and application fee
- official transcripts
- three professional recommendations
- personal statement and essays
- current resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The professional recommendations should be from individuals knowledgeable about the applicant's academic and leadership potential.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-healthcare-innovation/>) for program descriptions and to request more information.

Career Opportunities: Graduates take a multidisciplinary approach to health care and are prepared to take on important roles in a rapidly changing industry.

Career examples include:

- health administration
- health care consultants
- health information technicians
- health technologists
- medical and health service managers

Innovation Leadership, Certificate (NUINLSGRCT)

Online Degree Search Title: Innovation Leadership (Graduate Certificate)

Campus: Online

ASU is not currently accepting applications for this program.

Program Description: This graduate certificate program in innovation leadership provides students with the cognitive and affective competencies necessary to lead and facilitate innovation in the contexts of health care products, processes and systems. The emerging field of innovation leadership in health care requires individuals who can lead and facilitate change.

Students learn through reflection, personality assessment, public speaking, leadership network identification, entrepreneurship, idea pitching and change-readiness assessment.

This certificate program prepares students to work in this transdisciplinary and highly sought-after area of leadership.
2024-25 Academic Catalog Archive

Degree Requirements:

15 credit hours including the required capstone course (HCI 571).

Required Courses (12 credit hours)

HCI 538 Innovation and the Individual (3)

HCI 543 Approaches to Health Care Innovation (3)

HCI 545 Public Speaking for Innovation: Building Your Presence and Making the Case for Change (3)

NLM 562 Social Entrepreneurship (3)

Culminating Experience (3 credit hours)

HCI 571 Health Care Innovation Leadership Portfolio: Culminating Experience (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any health-related business, social science, hard science, health care practice or technology field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

International Health for Healthcare Professionals (certificate), Certificate (NUHCRGRCI)

Online Degree Search Title: International Health for Healthcare Professionals (Graduate Certificate)

Campus: Downtown Phoenix

ASU is not currently accepting applications for this program.

Program Description: The international health for healthcare professionals graduate certificate program prepares health care personnel to meet the global health challenges of the future. Students receive comprehensive education in the promotion of holistic, culturally responsive, evidence-based care within and outside the U.S.

Course content includes the provision of care in the presence and absence of natural (e.g., earthquakes) and human-made disasters (e.g., war), the spread of chronic and infectious diseases, economic and political issues, and other factors that pose substantial challenges to world health promotion and disease prevention.

This graduate certificate is offered as a part-time or full-time hybrid online distance program that includes two daylong visits to the ASU Downtown
2024-25 Academic Catalog Archive 1444

Phoenix campus and a capstone immersion experience.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they are undergraduate-prepared nurse or health-related professional (e.g., social worker, physician, psychologist, dentist) with a baccalaureate or graduate degree from a nationally or internationally recognized and regionally accredited academic institution, or equivalent.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- professional license in the state where the individual capstone project will be conducted, if required (e.g., RN, NP, MSW, PA or MD)
- resume or curriculum vitae
- email addresses of three professional references (not friends or relatives), who will be contacted to complete online recommendations
- fingerprint clearance or proof of application for U.S. citizens and applicants with permanent U.S. resident status
- photocopy of current, valid passport
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

References are contacted by the Graduate College, with a request to complete a reference questionnaire.

Interprofessional Healthy Aging (certificate), Certificate (NUGNCERT)

Online Degree Search Title: Interprofessional Healthy Aging (Graduate Certificate)

Campus: Downtown Phoenix, Online

Program Description: This certificate program prepares professionals to address healthy aging with a focus on prevention and early intervention to optimize the health, behavioral health and quality of life of older adults and their family caregivers. The program provides students with interdisciplinary knowledge that focuses on improving the well-being of diverse older persons, in the context of their families and communities.

The curriculum is based on the Association for Gerontology in Higher Education's Competencies for Graduate Education and addresses the multidimensional aging process, the needs of aging populations, and their potential contributions; reflects national health initiatives; and encourages interprofessional and community collaborations that are reciprocal, beneficial and sustainable to improve health outcomes.

Those who complete the program can apply for recognition as a gerontological coordinator by the National Association for Professional Gerontologists, an independent international professional organization.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

HCA 501 Perspectives on Aging and the Life Course (3)

Restricted Electives (12 credit hours)

HCA 502 Research and Program Evaluation Issues in Aging (3)

HCA 503 Diversity in Aging (3)

HCA 504 Caregiving Issues for Families and Professionals (3)

HCA 505 Interdisciplinary and Community Collaboration in Aging (3)

HCA 507 Care Coordination across the Continuum of Care (3)
HCA 508 Mental Health Assessment and Intervention (3)
HCA 510 Innovations in Program Development and Policy (3)
NUR 628 Research, Theory and Principles for Palliative Care in the Older Adult (3)
SWG 571 Mental Health Aspects of Aging (3)
SWG 573 Policies to Promote Healthy Aging (3)
SWG 623 Program Evaluation (3)
SWG 632 Policy Practice (3)

Additional Curriculum Information

Other courses may be substituted for restricted electives if approved by the academic unit.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

Nurse Education in Academic and Practice Settings (certificate), Certificate (NUNURSEDCE)

Online Degree Search Title: Nurse Education in Academic and Practice Settings (Graduate Certificate)

Campus: Downtown Phoenix, Online

Program Description: This certificate program in nurse education in academic and practice settings prepares registered nurses and other health professionals who have earned a master's degree to teach in academic or practice settings.

Courses include curriculum development, teaching methods, design and delivery of mediated instruction, producing and evaluating educational programs and a teaching practicum.

Degree Requirements:

15 credit hours.

Required Core (15 credit hours)

NUR 670 Curriculum Development in Academic and Practice Settings (3)

NUR 671 Teaching in Academic and Practice Settings (3)

NUR 672 Design and Delivery of Mediated Instruction (3)

NUR 673 Producing and Evaluating Programs for Academic and Practice Settings (3)

NUR 579 Role-Focused Practicum: Nurse Educator (3) or

NUR 677 Scholarly Citizenship: Teaching Intensive (3)

Additional Curriculum Information

A teaching practicum (comprising 135 clock hours) is required.

As part of the required core, MS and DNP students take NUR 579, and PhD students take NUR 677.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a minimum of a master's degree in any field from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three professional letters of recommendation
- resume
- goal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F-1 or J-1 visa need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for this certificate program.

Licensure Requirements: RN licensure is not required for admission to the nurse education in academic and practice settings certificate program. However, to remain in the program, admitted students who are registered nurses must hold a current unencumbered RN license in the state in which they plan to do clinical practicums.

Health and Safety Requirements: Students recommended for admission must meet health and safety requirements by established deadlines, including a passing disposition on a background clearance, satisfactory completion of a substance screen, and other requirements.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/nurse-education-academic-and-practice-settings-graduate/>) for program descriptions and to request more information.

Career Opportunities: The nurse educator certificate prepares students for a variety of careers, helping to educate the future nursing workforce. Possible careers include:

- academic faculty
- charge nurse
- chief nursing officer
- nurse educator
- nursing supervisor

Nursing, MS (NUNURDTMS)

Online Degree Search Title: Nursing, MS

Campus: Downtown Phoenix, Online

The accelerated master's BSN/MS option is currently only available to ASU Online students.

Program Description: The MS program in nursing is ideal for nurses looking to gain advanced education and skills in the translation of concepts, practices and principles of leadership. The degree is designed for nurses who think about the future and are ready to take the next step in their career. This Commission of Collegiate Nursing Education-accredited program focuses on four key areas: evidence-based practice, patient safety and health care quality, informatics and leadership.

Coursework is delivered completely online, providing students with the flexibility to focus on both their education and career goals. Throughout the program, students learn about leadership, innovative thinking and interprofessional team collaboration, and they advance their skills in leadership, research, evidence-based practice, evaluation, critical thinking, health care quality and patient safety.

Students complete direct care clinical hours and a role-focused practicum that allows them to work with a preceptor in an area or role best suited to their career goals.

RN to MS in nursing option

Students who have an associate degree in nursing can consider pursuing ASU's online RN to MS in nursing bridge (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-nursing-bridge/>) option.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Nursing, BSN

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required applied project course (NUR 593), or 36 credit hours including the required applied project course (NUR 593) - RN to MS Bridge Program.

Required Core (3 credit hours)

NUR 501 Individual and Innovation Leadership in Health Care (3) or HCI 538 Innovation and the Individual (3)

Other Requirements (24 credit hours)

DNP 602 Evaluating Research for Practice (3)

NUR 502 Advanced Health Assessment and Health Promotion (2)

NUR 503 Advanced Health Assessment, Pathophysiology and Pharmacotherapeutics for Health Promotion II (3)

NUR 509 Clinical Prevention and Population Health Practicum (1)

NUR 521 Health Care Evidence, Informatics and Analysis (3)

NUR 529 Role-Focused Practicum: Patient Safety and Health Care Quality for the Nurse Leader (3)

NUR 544 Theoretical Foundations for Nursing (3)

NUR 547 Community, Global and Population Health (3)

NUR 548 Patient Safety, Health Care Quality and Informatics (3)

Culminating Experience (3 credit hours)

NUR 593 Applied Project (3)

Additional Curriculum Information

Students in the RN to MS in nursing bridge program complete 36 credit hours for this degree. In addition to fulfilling the requirements listed above, these students must complete NUR 552 Dynamics of Professional Nursing I (3) and NUR 553 Dynamics of Professional Nursing II (3) before starting the Master of Science curriculum. Proof of statistics completion with a C or better is required (applicants may be admitted to the program with a deficiency in statistics).

Statistics is a required prerequisite for all Master of Science in nursing programs.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned an associate or bachelor's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in their associate degree nursing program or the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must be licensed as Registered Nurses and fulfill the admission requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- professional resume
- written statement
- proof of English proficiency
- proof of statistics completion with a C or better (applicants may be admitted to the program with a deficiency in statistics)

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Those applying only with an associate degree completed will need to provide a transcript that shows at least 72 earned undergraduate credit hours from a regionally accredited institution or equivalent, and students who are admitted with an associate degree will be required to complete additional coursework in their plan of study.

All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

Students residing in the following states are not eligible for enrollment in this program due to state authorizations (<https://admission.asu.edu/academics/authorizations>): Louisiana, New York, Oregon, Rhode Island, Tennessee and Washington.

An interview with faculty may be required for applicants who have a minimum of a bachelor's degree or higher. Applicants who do not have a bachelor's degree are required to interview with faculty.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/masters-nursing/>) for program descriptions and to request more information.

Career Opportunities: With a master's in nursing, graduates are prepared for an advanced position or a leadership role in the field. Possible job titles after earning this degree include:

- charge nurse
- chief nursing officer
- clinical educator
- clinical nurse
- director of nursing
- lead nurse
- nurse manager
- nurse supervisor
- nursing faculty

Nursing (Entry to Nursing Practice), MS (NUNRENPRMS)

Online Degree Search Title: Nursing (Entry to Nursing Practice), MS

Campus: Downtown Phoenix

Program Description: The MS program in nursing with a concentration in entry to nursing practice provides a pathway for students holding a baccalaureate degree in another discipline who want to become registered nurses. It is widely known as a master's entry program in nursing, or MEPN.

This pathway is designed to build on a student's previous education experience. This is a full-time program with lectures, experiential learning (simulation labs) and clinical experiences, so students should expect a time commitment of at least 40 hours a week. Program highlights include:

- streamlined program designed for individuals with nonnursing bachelor's degrees
- gaining nursing fundamentals and advanced nursing knowledge
- developing hands-on skills through simulation and clinical experiences
- completing a graduate degree in nursing with preparation for diverse nursing roles

Through this program, an entry pathway to the profession of nursing, graduates are eligible to take the National Council Licensure Examination and apply for RN licensure through a state board of nursing.

Degree Requirements:

53 credit hours including the required applied project course (NUR 593).

Required Core (3 credit hours)

HCI 538 Innovation and the Individual (3) or NUR 501 Individual and Innovation Leadership in Health Care (3)

Concentration (40 credit hours)

DNP 602 Evaluating Research for Practice (3)

NUR 514 Nursing Theory: Nursing Fundamentals (5)

NUR 515 Nursing Concepts for Psychiatric Mental Health (2)

NUR 516 Nursing Practice: Psychiatric Mental Health (2)

NUR 517 Nursing Practice: Pediatrics (2)

NUR 518 Nursing Practice: Adults (4)

NUR 519 Role-Focused Practicum: Care Coordination for the Nurse Leader (2)

NUR 524 Nursing Practice: Childbearing Family (2)

NUR 533 Nursing Concepts: Childbearing Family (2)

NUR 542 Readiness to Practice (2)

NUR 544 Theoretical Foundations for Nursing (3)

NUR 545 Advanced Pharmacology (3)

NUR 547 Community, Global and Population Health (3)

NUR 548 Patient Safety, Health Care Quality and Informatics (3)

NUR 550 Health Assessment (2)

Other Requirements (7 credit hours)

NUR 417 Nursing Concepts: Pediatric Clients (2)

NUR 478 Nursing Practice: Complex Care (2)

NUR 546 Nursing Concepts for Complex Care (3)

Culminating Experience (3 credit hours)

NUR 593 Applied Project (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution. Applicants who hold a BSN degree are not eligible and should apply to Nursing and Health Innovation.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- letter of intent or written statement

- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants may be admitted to the program with deficiencies. If a student is assigned any deficiency coursework by the academic unit upon admission, those courses must be completed with a grade of "B" (scale is 4.00 = "A") or higher before completing the graduate program's required coursework. Deficiency courses may include:

BIO 201 Human Anatomy and Physiology I and BIO 202 Human Anatomy and Physiology II
 CDE 232 Human Development
 CHM 101 Introductory Chemistry
 HCR 240 Human Pathophysiology
 MIC 205 Microbiology and MIC 206 Microbiology Laboratory
 NTR 241 Human Nutrition
 statistics (100-level or higher three credit hour course)

Health and safety requirements include a passing disposition on a background clearance and satisfactory completion of a substance screen.

Career Opportunities: The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. Graduates of this program have the knowledge and training that enable them to provide health care for patients in a wide variety of settings. Career examples include positions as intensive care nurses and registered nurses.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Nursing (Nursing Education), MS (NUNURSEDMS)

Online Degree Search Title: Nursing (Nursing Education), MS

Campus: Downtown Phoenix, Online

Program Description: The country is experiencing a shortage of nursing faculty. This degree program, with a concentration in nursing education, prepares students to advance their career and achieve their goal of becoming a nurse educator in an academic or practice setting. During this program, students prepare to teach future nurses and nursing leaders. Program highlights include:

- academic and clinical assessment
- curricular design and evaluation
- curriculum and course development and delivery
- educational theory and research
- testing and evaluation, including evaluation methods

Coursework in the MS program in nursing is delivered completely online, providing flexibility for students to balance their education and their career.

Courses in this program are led by experienced nursing faculty and designed with active learning strategies. Throughout the program, students learn the key competencies of a master's degree-prepared nurse while they gain additional nursing education skills. Students complete direct care clinical hours and a role-focused practicum that allows students to work with a preceptor in an area or role best suited to their career goals (students can choose to work with a clinical educator or an academic educator during the practicum).

The curriculum meets the competencies outlined by the American Association of Colleges of Nursing Essentials.

RN to MS in nursing (nursing education) option

Students who have an associate degree in nursing can consider pursuing ASU's online RN to MS in nursing with a concentration in nursing education pathway (<https://asuonline.asu.edu/online-degree-programs/graduate/rn-msn-nursing-education/>) option.

Degree Requirements:

33 credit hours including the required applied project course (NUR 593), or 39 credit hours including the required applied project course - RN to MS Bridge Program (NUR 593).

Required Core (3 credit hours)

NUR 501 Individual and Innovation Leadership in Health Care (3) or HCI 538 Innovation and the Individual (3)

Bridge Coursework (6 credit hours)

NUR 552 Dynamics of Professional Nursing I (3)

NUR 553 Dynamics of Professional Nursing II (3)

Concentration (12 credit hours)

NUR 670 Curriculum Development in Academic and Practice Settings (3)

NUR 671 Teaching in Academic and Practice Settings (3)

NUR 672 Design and Delivery of Mediated Instruction (3)

NUR 673 Producing and Evaluating Programs for Academic and Practice Settings (3)

Other Requirements (15 credit hours)

NUR 502 Advanced Health Assessment and Health Promotion (2)

NUR 503 Advanced Health Assessment, Pathophysiology and Pharmacotherapeutics for Health Promotion II (3)

NUR 509 Clinical Prevention and Population Health Practicum (1)

NUR 544 Theoretical Foundations for Nursing (3)

NUR 579 Role-focused Practicum: Nurse Educator (3)

DNP 602 Evaluating Research for Practice (3)

Culminating Experience (3 credit hours)

NUR 593 Applied Project (3)

Additional Curriculum Information

Students in the RN to MS in nursing (nursing education) bridge program complete 39 credit hours for this degree. In addition to fulfilling the requirements listed above, these students must complete NUR 552 Dynamics of Professional Nursing I and NUR 553 Dynamics of Professional Nursing II before starting the MS curriculum.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned an associate, bachelor's or master's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in their associate degree nursing program or the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must be licensed as Registered Nurses.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- resume
- proof of completion of a statistics course with a "C" or better
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Completion of a statistics course with a "C" or better (scale is 4.00 = "A") should be evident on the applicant's transcripts, although applicants may still be admitted to the program with a deficiency in statistics. Statistics is a required prerequisite for all Master of Science in nursing programs.

Applicants applying to the RN to MS bridge option (those who will not have a bachelor's degree in nursing conferred prior to enrolling in the MS in nursing program) need to provide a transcript that shows at least 72 earned undergraduate credit hours from a regionally accredited institution or equivalent in order to apply to the master's degree program.

An interview with faculty may be required for applicants who have a bachelor's degree in nursing or higher. Applicants to the RN to MS bridge option are required to interview with faculty.

Students who are admitted with an associate degree will be required to complete additional coursework in their plan of study.

Applicants must be able to verify U.S. citizenship or lawful immigration status. Applicants must live in or be able to come to an authorized state (<https://admission.asu.edu/academics/authorizations>) in the U.S. for any required clinical or practicum experiences.

Licensure requirements: Applicants for the Master of Science in nursing and Master Science program in nursing with a concentration in nursing education must meet one of the following criteria:

- Applicants must hold a current unencumbered RN license in an authorized state (<https://admission.asu.edu/academics/authorizations>) in which they plan to do clinical practicums.
- Applicants who have recently graduated from a BSN program must provide proof of a valid U.S. RN license before beginning any courses in the second semester of the master's degree program.

Health and Safety Requirements: Students recommended for admission must meet health and safety requirements by established deadlines, including a passing disposition on a background clearance, satisfactory completion of a substance screen, and other requirements as a condition of admission.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/masters-nursing-education/>) for program descriptions and to request more information.

Career Opportunities: The master's degree program in nursing education prepares students for a variety of careers in which they can help educate the future nursing workforce. Job titles include:

- charge nurse
- chief nursing officer
- clinical professor
- director of nursing
- faculty member
- lead nurse
- nurse educator
- nursing supervisor

Graduates also are prepared for career advancement.

Nursing and Healthcare Innovation, PHD (NUNHIPHD)

Online Degree Search Title: Nursing and Healthcare Innovation, PhD

Campus: Downtown Phoenix

Program Description: The Edson College of Nursing and Health Innovation PhD program in nursing and healthcare innovation provides an enriching academic environment that strongly fosters scholarship, critical thinking and interprofessional collaboration. This research-focused interdisciplinary doctoral degree is designed for individuals who wish to pursue and engage in careers as leaders in health science, health education and policy, and health innovation.

The program prepares scholars with the research skills they need to generate, apply and disseminate scientific knowledge while demonstrating the leadership skills necessary for influencing health processes, outcomes, policy and innovation.

Edson College of Nursing and Health Innovation offers this degree program in a traditional on-site delivery format and through an innovative, synchronous online delivery format that is coupled with occasional travel to campus. Doctoral faculty mentors who represent and value a diversity of backgrounds and intellectual perspectives are committed to providing a learner-centered, research-focused doctoral education.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as a concurrent program with the following: Advanced Nursing Practice (Adult-Gerontology Nurse Practitioner), DNP

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

NUR 602 State of the Science in Nursing and Healthcare Innovation (3)

Electives or Research (39 credit hours)

Other Requirements (30 credit hours)

NUR 601 Scientific Role Development I: Engaging and Committing (1)

NUR 603 Social and Contextual Issues in Nursing and Healthcare (3) or NUR 610 Genomics and Population Health (3)

NUR 604 Philosophy of Science Perspectives in Nursing and Healthcare Innovation (3)

NUR 605 Theory Analysis (3)

NUR 606 Scientific Role Development II: Validating and Demonstrating (1)

NUR 607 Scientific Role Development III: Bridging (1)

NUR 608 Qualitative Research Design and Methods (3)

NUR 609 Quantitative Research Design and Methods (3)

NUR 617 Foundational Concepts in Science and Statistics (3) or DNP 679 Biostatistics: Principals of Statistical Inference (3)

NUR 618 Advancing Research-Based Health Policy Through Leadership and Innovation Science (3) or DNP 711 Healthcare Policy and Innovation (3)

NUR 671 Teaching in Academic and Practice Settings (3)

NUR 680 Research Practicum in Nursing and Health Innovation (3)

Culminating Experience (12 credit hours)

NUR 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework are made up of electives and research. From those elective and research hours, 12 credit hours are required in a substantive area of specialization and may be taken in any semester, based on availability and student interest. A total of 24 credit hours of coursework with a research focus are required, including 12 hours of dissertation credit.

Students are required to enroll in a minimum of nine credit hours per semester for years one and two of their plan of study. The plan of study can be as broad or as narrow as the student and the supervisory program committee deem necessary for the student's career goals. Students may choose from the following five substantive areas of study: aging, education, health care innovation leadership, healthy families or world health.

The program may incorporate courses from other disciplines to further refine substantive areas of study.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in nursing or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- current resume
- goal statement essay
- writing sample
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants must show completion of a current inferential statistics prerequisite course.

GRE scores are recommended but not required. ASU does not accept the GRE® General Test at home edition.

Students are admitted once a year, to start in the fall semester.

Career Opportunities: Graduates are prepared to assume key positions in research, education and administration, with the goal of optimizing quality of life and health across diverse populations and settings.

Career examples include:

- academic faculty (e.g., professor)
- health care executive
- health educator
- health-focused scientist

Pediatric Nurse Practitioner (Certificate), Certificate (NUPDNPGRCT)

Online Degree Search Title: Pediatric Nurse Practitioner (Graduate Certificate)

Campus: Downtown Phoenix

Program Description: The certificate program for the pediatric nurse practitioner specialty is an advanced nursing practice program. It prepares graduates to provide holistic, client-centered primary care of infants, children, adolescents and young adults. The program is designed for board-certified nurses in a different advanced practice registered nurse specialty area who seek additional certification as a primary care pediatric nurse practitioner, and for doctorate-level nurses who seek to become a primary care pediatric nurse practitioner.

This is a hybrid program, a blend of in-person and online learning. Students are required to travel to campus for orientation once and for immersions two or three times per semester.

Core courses include advanced pharmacology, advanced pathophysiology and advanced health assessment. Any deficiency courses determined by the student's unique gap analysis must have been completed within the previous five years to be eligible for credit.

Using best evidence, specialty courses focus on health promotion and the assessment and management of culturally appropriate plans of health care for well infants, children, adolescents and young adults, as well as those with minor, acute and stable complex and chronic health disorders.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete their assigned clinical placement.

Students residing outside of Maricopa County are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before students start any clinical experience; the doctoral program office does not guarantee a clinical placement site for any student outside Maricopa County. If, during the program, faculty determine that a student needs additional supervision for clinical progress in the program, the student must complete clinical experiences in the Phoenix area.

The program offers practicum experiences (clinical rotations) in health profession shortage areas throughout the state, in both urban underserved and rural areas, which provide students with multicultural experiences to enhance professional development.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual State Authorization Reciprocity Agreement member states, in accordance with the council's established policies and standards. California is not a State Authorization Reciprocity Agreement member, and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College of Nursing and Health Innovation; these are noted on the ASU state authorization (<https://admission.asu.edu/academics/authorizations>) website.

ASU nursing practice programs are accredited by the Commission on Collegiate Nursing Education.

Degree Requirements:

32 credit hours.

Required Core (32 credit hours)

DNP 640 Advanced Human Pathophysiology Pediatrics (4)

DNP 641 Advanced Health Assessment Pediatrics (3)
DNP 642 Applied Pharmacotherapeutics for Pediatrics (3)
DNP 643 Developmentally Based Care of the Well Child (3)
DNP 644 Well Child Advanced Practicum (3)
DNP 645 Management of Common Problems in Pediatric Primary Care (3)
DNP 646 Management of Common Problems in Pediatric Primary Care Practicum (5)
DNP 647 Management of Complex and Chronic Health Problems in Pediatric Primary Care (3)
DNP 648 Management of Complex and Chronic Problems Pediatric Primary Care Practicum (5)

Additional Curriculum Information

Nurses who complete this certificate program meet the eligibility requirements to take a national pediatric nurse practitioner certification examination. In addition to completing didactic courses, students complete 13 credit hours (585 clock hours) of pediatric practicum experiences in a community setting.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree in nursing from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- documentation of a current unencumbered RN license in the state in which the student plans to do clinical practicums
- three professional letters of recommendation
- resume
- goal statement
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

International students who need an F-1 or J-1 visa need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

All students are required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

Applicants are required to have an in-person interview with the program faculty.

Applicants are asked to read "The Essentials of Doctoral Education for Advanced Nursing Practice" (2006) and then submit an admission essay. It should contain the following:

- description of career goals for the next five to 10 years and discussion about how an NP certificate from ASU will help them meet these goals
- description of how meeting one of the first seven essentials (from the prescribed reading noted above) will further their career goals

All Edson College of Nursing and Health Innovation students are required to complete health and safety requirements, and they must have a passing disposition on a background clearance and satisfactory completion of a substance screen with the program's identified agency.

One year of clinical experience working within the student's specialty population is preferred.

Career Opportunities: The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. The pediatric nurse practitioner role is well established in all urban and most rural areas of Arizona. Graduates are prepared to provide comprehensive health care for infants, children, adolescents and young adults. Careers include positions in:

- clinical education and training of future health care providers
- community health centers
- fast-track emergency departments

- outpatient primary and secondary health care clinics
- specialty health care

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Regulatory and Clinical Research Management, DPP (NURCRMDPP)

Online Degree Search Title: Regulatory and Clinical Research Management, DPP

Campus: Online

Program Description: The DPP program in regulatory and clinical research management prepares global leaders to influence the medical and health care industry through the development of new medical products such as drugs, biologics, vaccines and devices to address the health needs of consumers.

An interdisciplinary curriculum weaves innovation, technology, bioinformatics, policy, leadership methods and strategies with regulatory and clinical research management to ensure students meet industry workforce needs and are capable, high-functioning, innovative leaders. Core courses provide a strong foundation in leadership and communication; the regulations and development of medical products through the lifecycle; quality control; application of ethics to animal and human research; pharmacology, drugs and society; biologics; and small molecules. Other topics include the principles and concepts of innovation, systems thinking in a complex environment, artificial intelligence and business. These core courses are balanced with offerings from other ASU colleges and departments, providing students with the knowledge base, skills and abilities to tackle practical health concerns and ethical dilemmas; navigate the global regulatory landscape; and contribute to the discovery medical products, procedures and diagnostics to advance health care.

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

Degree Requirements:

60 credit hours including the required applied project course (RCR 793).

Required Core (24 credit hours)

RCR 710 Leadership Communication in the Regulatory and Clinical Research Industry (3)

RCR 712 Leadership for Change in Regulatory and Clinical Research (3)

RCR 713 Quality Control and Assurance Through the Medical Product Cycle (3)

RCR 714 Ethical and Regulatory Aspects of Clinical Research (3)

RCR 715 Drugs and Society: Milestones in Drug Development (3)

RCR 716 Development and Manufacturing of Small Molecules (3)

RCR 717 Development and Regulation of Biologics (3)

RCR 718 Planning and Execution of Clinical Research (3)

Restricted Electives (18 credit hours)

BMD 502 Foundations of Biomedical Informatics Methods I (3)

BMD 667 Regulation of Medical Diagnostics (3)

BMI 601 Fundamentals of Health Informatics (3)

HCI 542 Systems Thinking in a Complex Environment (3)

HCI 548 Advanced Principles and Concepts of Innovation (3)

HCI 550 Health Care Policy and Innovation (3)

NUR 617 Foundational Concepts in Science and Statistics (3)

Electives (6 credit hours)

CIS 565 Artificial Intelligence in Business (3)

NUR 608 Qualitative Research Design and Methods (3)

NUR 609 Quantitative Research Design and Methods (3)

Culminating Experience (12 credit hours)

RCR 793 Applied Project (12)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a master's degree in regulatory science, clinical research management or a similar degree in a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admissions application and application fee
- official transcripts
- personal statement
- professional resume
- two letters of recommendation
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Interested students must have a master's degree.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/doctor-regulatory-clinical-research-management/>) for program descriptions and to request more information.

Career Opportunities: The pharmaceutical industry provides an array of career opportunities for professionals with doctorate degrees. Technological advances such as artificial intelligence and machine learning may advance the development and approval of new products to market. Both regulatory and clinical research management personnel are an integral part of this process. Directors and managers in regulatory affairs manage the regulatory aspects of the product through all phases of development, approval and post approval. Clinical trial management positions are responsible for the planning, oversight and execution of study and program-level deliverables, managing high performing teams in a fast-paced environment.

Career opportunities include:

- clinical data manager
- clinical operations director or manager
- compliance officer or manager
- director or manager of quality control
- director or manager of quality management
- director or manager of post-market quality
- program or project director manager

Regulatory Science, MS (NURSHSMS)

Online Degree Search Title: Regulatory Science, MS

Campus: Downtown Phoenix, Online

Program Description: The MS program in regulatory science is designed for students interested in protecting public health through the discovery, development and marketing of medical products to the consumer. In particular, this program focuses on drugs and devices, preparing students for careers in the pharmaceutical, medical research and medical device industries.

While earning the Master of Science in regulatory science, students delve into all aspects of regulatory affairs, including:

- clinical research
- drug and medical device development
- ethical and legal aspects
- global regulatory practices
- manufacturing
- regulatory submissions

The field of regulatory science focuses on the application of regulations throughout the life cycle of medical products and compliance with regulations in the development, approval and marketing of medical products. This advanced degree incorporates a transdisciplinary approach to meet the unique needs of regulating bodies and the industry.

Degree Requirements:

33 credit hours including the required applied project course (HCR 593).

Required Core (18 credit hours)

HCR 553 Quality Assurance and Clinical Research (3)

HCR 561 Responsible Conduct of Clinical Research (3)

HCR 563 Fundamentals of Regulatory Affairs (3)

HCR 576 Drug Discovery, Development and Regulations (3)

HCR 577 Global Regulatory Affairs (3)

HCR 578 Legal Aspects of Clinical Research (3)

Restricted Electives (12 credit hours)

HCR 552 Medical Device Development and Regulation (3)

HCR 555 Pharmaceutical Safety and Risk Management (3)

HCR 557 Clinical Research Design and Methods (3)

HCR 558 Technical Writing for the Regulatory Professional (3)

HCR 564 Global Regulatory Affairs Leadership (3)

HCR 568 Health Care Project Management (3)

HCR 575 Management and Negotiation of Clinical Trial Budgets and Contracts (3)

HCR 579 Translational Research in Drug Discovery and Development (3)

Culminating Experience (3 credit hours)

HCR 593 Applied Project (3)

Additional Curriculum Information

For electives coursework, students choose four courses for 12 credit hours from the restricted electives list. Other coursework may be substituted with approval from the academic unit.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume or curriculum vitae
- two online recommendations
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The online references should be from professional colleagues, supervisors, professors or other professional contacts and should attest to the applicant's academic and leadership experiences.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/regulatory-science-ms/>) for program descriptions and to request more information.

Career Opportunities: The field of regulatory affairs continues to grow as pharmaceutical and medical development advances. Companies are eager to hire regulatory science professionals into jobs such as:

- compliance officer
- FDA inspector
- quality assurance specialist
- quality control specialist
- regulatory affairs professional
- regulatory coordinator
- regulatory manager
- regulatory scientist

Regulatory Science (Food Safety), MS (NURGSCFSMS)

Online Degree Search Title: Regulatory Science (Food Safety), MS

Campus: Online

Program Description: The MS program in regulatory science with a concentration in food safety is an online program that covers contamination concerns and regulations throughout the food supply chain, from growing to distributing to selling. Courses analyze food safety regulations from local, state and federal agencies, including the U.S. Food and Drug Administration. Students also gain an understanding of the ethical and legal challenges of food safety and regulation.

Food safety regulation is a science focused on the safe handling, distribution, selling and preparation of food. Various aspects of food safety are covered, including inspections, hazard analysis, safe food practices and the handling of food emergencies. Students learn how to identify food safety issues through the use of videos and simulations and to write reports on their findings. Applied learning experiences directly relate to the type of food safety problems that most frequently occur in the preparation, storage and processing of food.

Edson College of Nursing and Health Innovation highly recommends, but does not require, introductory chemistry (3 credits + 1 credit lab) and introductory biology (3 credits).

Degree Requirements:

33 credit hours including the required applied project course (HCR 593).

Required Core (18 credit hours)

HCR 553 Quality Assurance and Clinical Research (3)

HCR 561 Responsible Conduct of Clinical Research (3)

HCR 563 Fundamentals of Regulatory Affairs (3)

HCR 576 Drug Discovery, Development and Regulations (3)

HCR 577 Global Regulatory Affairs (3)

HCR 578 Legal Aspects of Clinical Research (3)

Concentration (12 credit hours)

HCR 543 Food Safety and Protection (3)

HCR 544 Assessing Food Safety and Developing Policy Procedures and Training (3)

HCR 550 Quality Assurance and Safety in Food and Dietary Supplements (3)

HCR 558 Technical Writing for the Regulatory Professional (3)

Culminating Experience (3 credit hours)

HCR 593 Applied Project (3)

Additional Curriculum Information

The culminating experience is an applied project course that includes a project based on a food topic studied during the degree program. Students

choose a scientific, technical or regulatory project that includes a research protocol or professional presentation to industry professionals.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in science or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- professional resume
- written statement
- proof of English proficiency

Additional Application information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/masters-food-science/>) for program descriptions and to request more information.

Career Opportunities: Graduates from the program are in high demand for a variety of jobs in food safety and regulatory science. In particular, they are prepared for local, state and federal regulatory careers in agencies such as the FDA, the U.S. Department of Agriculture, and state and county health departments, as well as food manufacturers.

Professionals in the food safety industry conduct site inspections, assess food safety hazards, develop preventive food safety procedures, create food safety policies and more, depending on the position. No matter the job, the goal in food safety and regulation positions is always to protect the consumer.

Regulatory science and food safety careers include:

- environmental health specialist
- facility manager
- food inspector
- food-safe chemical supplier
- quality assurance manager
- quality control manager
- registered sanitarian
- regulatory investigator

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

The program aligns with the content on the Certified Professional Food Manager certification exam from the National Environmental Health Association and helps prepare students to take the NEHA exam. To successfully acquire professional certifications and credentials, and to even be eligible to test for these, students may need prior work experience, additional coursework, fieldwork and background checks. Students should refer to the National Environmental Health Association (www.neha.org) for information.

Online Degree Search Title: Women's Health Nurse Practitioner (Graduate Certificate)

Campus: Downtown Phoenix

Program Description: The certificate program for the women's health nurse practitioner specialty is an advanced nursing practice program. The program prepares graduates to provide holistic, client-centered primary care for women from adolescence through older adulthood. It is designed for board-certified nurses in a different advanced practice registered nurse specialty area seeking additional certification as a women's health nurse practitioner, or for doctorate-level nurses seeking to become a women's health nurse practitioner.

This is hybrid program, a blend of in-person and online learning. Students are required to travel to campus for orientation once and for immersions two or three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment. Any deficiency courses determined by the student's unique gap analysis must have been completed in the past five years to be eligible for credit.

Specialty courses focus on the assessment, diagnosis and evidence-based management of common and complex gynecologic, sexual, reproductive, menopause-transition and postmenopause health care; uncomplicated and high-risk antepartum and postpartum care; as well as sexual and reproductive health care for men.

Courses emphasize research and theories to provide the context essential to advanced nursing practice focusing on health promotion, risk assessment and disease prevention for women across the life span, taking into account factors that influence health care and health outcomes.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete their assigned clinical placement.

Students residing outside of Maricopa County are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before students start any clinical experience; the doctoral program office does not guarantee a clinical placement site for any student outside Maricopa County. If, during the program, faculty determine that the student needs additional supervision for clinical progress in the program, the student must complete clinical experiences in the Phoenix area.

The program offers practicum experiences (clinical rotations) in health profession shortage areas throughout the state, in both urban underserved and rural areas, which provide students with multicultural experiences to enhance professional development.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual State Authorization Reciprocity Agreement member states in accordance with the council's established policies and standards. California is not a State Authorization Reciprocity Agreement member, and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College of Nursing and Health Innovation; these are noted on the ASU state authorization (<https://admission.asu.edu/academics/authorizations>) website.

ASU nursing practice programs are accredited by the Commission on Collegiate Nursing Education.

Degree Requirements:

23 credit hours.

Required Core (23 credit hours)

DNP 613 Women's Health Promotion I (3)

DNP 614 Women's Health Practicum I (3)

DNP 615 Management of Common Problems in Women's Health (3)

DNP 616 Advanced Women's Health Practicum II (5)

DNP 617 Management of Complex and Chronic Disease in Women (3)

DNP 618 Advanced Women's Health Practicum III (6)

Additional Curriculum Information

Nurses who complete this certificate meet the eligibility requirements to take the national women's health nurse practitioner certification examination. In addition to completing didactic courses, students complete 14 credit hours (630 clock hours) of practicum experiences in a community setting.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree in nursing from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a

minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- documentation of a current unencumbered RN license in the state in which the student plans to do clinical practicums
- three professional letters of recommendation
- resume
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency, per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

International students who need an F-1 or J-1 visa need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

Applicants must be board certified in a different APRN specialty.

Applicants are required to have an in-person interview with the program faculty.

Applicants are asked to submit an admission essay addressing their career goals for the next five to 10 years and describing how obtaining an NP certificate from ASU will help them meet these goals and how meeting one of the first seven essentials from "The Essentials of Doctoral Education for Advanced Nursing Practice" (2006) will further their career goals.

All Edson College of Nursing and Health Innovation students are required to complete health and safety requirements, and they must have a passing disposition on a background clearance and satisfactory completion of a substance screen with the program's identified agency.

One year of clinical experience working within the student's specialty population is preferred.

Career Opportunities: The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. Graduates of the women's health nurse practitioner certificate program have the knowledge and training to provide health care for patients across the life span in a wide variety of settings. The broad base of comprehension and clinical expertise enables graduates to effectively participate and lead within clinical, community and academic arenas.

Career examples include:

- business owner
- community advocate
- nurse practitioner
- professor

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Public Service and Community Solutions, Watts College of

Assessment of Integrative Health Modalities (certificate), Certificate (PPSWGGRCH)

Online Degree Search Title: Assessment of Integrative Health Modalities (Graduate Certificate)

Campus: Downtown Phoenix

Program Description: The graduate certificate program in assessment of integrative health modalities provides students with extensive knowledge of integrative health practices and with an experiential and didactic experience in which cutting-edge research is explored, advanced skills are developed and a mindfulness practice is nurtured.

To satisfy the culminating project requirement, students may more deeply explore a topic of interest by completing an individual research paper or by performing a community activity that demonstrates mastery and application of the advanced skills acquired while enrolled in the certificate program.

Degree Requirements:

15 credit hours.

Required Core (9 credit hours)

SWG 655 Quality of Life, Mastering Mindfulness (3)

SWG 656 Treating the Whole Person (3)

SWG 657 Holistic Therapies for Modern Times (3)

Transdisciplinary Electives (6 credit hours)

Additional Curriculum Information

After the completion of the three approved courses and prior to completing the last course of the program, students are required to complete a signature project highlighting their certificate experience.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in health or human services or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

In addition, applicants are required to submit to the School of Social Work:

- a resume
- a one- to two-page statement
- the School of Social Work application to the assessment of integrative health modalities certificate program

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F-1 or J-1 visa must apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

This certificate is open to professionals in social work, nursing or related health and human service professions from the community as well as to students currently admitted to a health and human services degree program at the master's or doctoral level.

No more than two certificate courses may be completed before applying for admission to the certificate program.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Integrate mindfulness into personal and professional lives
- Apply knowledge of human behavior in the social environment when working with individuals, families and groups

Career Opportunities: Professionals with expertise in health, behavioral health and medical settings are in high demand across many disciplines

and organizations, including:

- education
- medicine
- nonprofit and for-profit agencies
- social services

Community Resources and Development, MS (PPRECDTMS)

Online Degree Search Title: Community Resources and Development, MS

Campus: Downtown Phoenix

Program Description: The master's degree program in community resources and development prepares students to analyze and understand critical topics and issues pertinent to the fields of tourism, parks and recreation management, nonprofits and nongovernmental organizations, and sustainable communities.

Students choose between two academic options: the thesis or the practicum professional option.

On average, completion of the master's degree requires two years of study.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Community Sports Management, BS
- Community Sports Management (Events), BS
- Nonprofit Leadership and Management, BS
- Nonprofit Leadership and Management (American Indian Studies), BS
- Parks and Recreation Management (Therapeutic Recreation), BS
- Parks, Recreation and Sport Management, BS
- Tourism Development and Management, BS
- Tourism Development and Management (Meetings and Events), BS
- Tourism Development and Management (Resort and Hotel Leadership), BS
- Tourism Development and Management (Sustainable Tourism), BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours and a thesis, or 36 credit hours including the required applied project course (CRD 593).

Required Core (15 credit hours)

CRD 500 Research Methods (3)

CRD 502 Statistical and Data Analysis (3)

CRD 530 Community Services Management (3) or advanced inquiry course (3)

CRD 552 Critical Issues (3)

CRD 555 Theoretical Perspectives in Community Development (3)

Electives (9 or 15 credit hours)

Culminating Experience (6 credit hours)

CRD 593 Applied Project (6) or

CRD 599 Thesis (6)

Additional Curriculum Information

Students may select a thesis or applied project. The thesis option is a research-oriented program recommended for students planning to continue graduate studies beyond the master's degree. The applied project option is intended for students seeking additional knowledge and expertise

relevant to professional career development. Advising and direction in both options are under the direct supervision of an assigned faculty member.

Students in the applied project option take CRD 530 as part of their core coursework and 15 credit hours of electives.

Students in the thesis option take an advanced inquiry course as part of their core coursework and nine credit hours of electives. The thesis must be defended in an oral examination before a supervisory committee of at least three faculty members, one of whom resides in another department.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or they must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of professional and academic goals
- three letters of recommendation
- current resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International applicants are required to submit TOEFL or IELTS scores and a financial guarantee statement.

Only complete application files are reviewed or considered for admission. Applicants without undergraduate academic work in related disciplines are required to take six credit hours of deficiency coursework in addition to the master's degree requirements. Deficiency coursework may be taken in conjunction with master's degree classes.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Conduct research in tourism while analyzing critical topics and issues pertinent to tourism development and management.
- Relate their individual strengths to demonstrate knowledge of research methods and data analysis within the context of tourism sectors.
- Apply the principles and practices of community development to address the social, economic, environmental and cultural challenges of diverse communities.

Career Opportunities: Career opportunities after graduation include:

- community services officer
- nonprofit and nongovernmental organization officer
- parks and recreation officer
- tourism officer

Community Resources and Development, PHD (PPCRDPHD)

Online Degree Search Title: Community Resources and Development, PhD

Campus: Downtown Phoenix

Program Description: The PhD in community resources and development is a research-intensive doctoral degree program grounded in theory and designed to prepare graduates for research-oriented careers in many areas. The program is based on the concept of building sustainable and

healthy communities as the unifying principle in the established focus areas of community studies; nonprofit leadership and management; parks, recreation and leisure; and tourism development and management.

The theoretical and methodological approaches embedded in this program serve to integrate scholarship in these areas so students can gain a more meaningful understanding of the impact on community life and dynamics.

The program is transdisciplinary in nature. The core faculty engaged in this program are housed in the School of Community Resources and Development. In addition, the program builds on current collaborations with faculty with related research interests from many ASU departments, schools and centers.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (24 credit hours)

CRD 502 Statistical and Data Analysis (3)

CRD 555 Theoretical Perspectives in Community Development (3)

CRD 610 Sustainable Communities (3)

CRD 620 Community Research Methods (3)

CRD 640 Research Seminar in Community Resources and Development I (3)

CRD 650 Research Seminar II (3)

CRD 683 Fieldwork (3)

advanced statistics or methods (3)

Electives or Research (48 credit hours)

Culminating Experience (12 credit hours)

CRD 799 Dissertation (12)

Additional Curricular Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree.

All students are advised as a cohort initially by the doctoral program director. Students are required to take 24 credit hours of core coursework, 15 hours of which are with the cohort during the first year and six hours of which are with the cohort during the second year. Students are assigned an individual advisor or mentor at the end of the first year of study. A supervisory committee is also formed at the end of the first year which reflects the interests of the student and faculty.

This is a four year program. Each student develops a plan of study in consultation with the doctoral program coordinator, advisor and supervisory committee. Students complete elective coursework, including courses from contributing disciplines, selected in consultation with their advisor to foster the transdisciplinary nature of the degree program. Students also complete at least six credit hours of CRD 792 Research and 12 credit hours of CRD 799 Dissertation. When the majority of coursework has been completed and before dissertation research is started, students must complete a written examination followed by an oral examination. These examinations must be completed within five years of admission.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or they must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- current and professional resume
- statement of academic and professional goals
- GRE test scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International applicants are also required to submit TOEFL or IELTS scores and a financial guarantee statement. The minimum TOEFL iBT

requirement is 80. The minimum IELTS requirement is an overall band score of 6.5 (no individual band below a 6.0). The TOEFL or IELTS must have been taken within the last two years.

GRE must be taken within the past five years. Applicants are expected to meet the GRE minimum requirements of combined score of at least 300, verbal minimum of 146, quantitative minimum of 140 and writing of 3.5. ASU does not accept the GRE® General Test at home edition.

The statement of academic and professional goals should be in sufficient detail to indicate compatibility with the educational objectives and capabilities of the doctoral program (approximately three pages, single spaced). Applicants need to explain their research interests and indicate the faculty member with whom they would like to work. Students should review faculty profiles (https://scrd.asu.edu/content/school-directory?sort-by=last_name_asc) to learn their research expertise. Applicants are encouraged to contact the PhD program director prior to application submission to discuss interests and fit with the program and faculty. They are also encouraged to contact faculty with similar interests to discuss their fit with the program. Successful statements should make it clear why the applicants have chosen to do a doctorate in community resources and development and how this program will fulfill their career goals.

The recommendation letters may be a mix of academic and professional references, but each must address the applicant's capacity to successfully complete the doctoral program.

Students applying to the program are expected to have a master's degree from an accredited institution, which included a master's degree-level research methods and statistics class or classes. If deficiencies exist in community resource and development-related coursework at the master's degree level, appropriate classes are suggested.

The doctorate in community resources and development is designed as a full-time, research-intensive program. Students are admitted once a year as a cohort and are generally expected to complete the degree in three to four years. A small number of part-time students on a longer completion time frame may be admitted when space is available. The school does not provide funding for part-time students.

Applications are reviewed by the admission committee and recommendations for admission are then made by the graduate program director to the dean of the Graduate College.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Conduct research that contributes to community development with regard to parks, recreation, tourism, nonprofit management and community studies.
- Develop proficiency in integrating knowledge in their primary area of study related to community resources and development.
- Execute a comprehensive and original research project, resulting in a high-quality dissertation that demonstrates their ability to contribute significantly to their own fields such as tourism, parks and recreation, sustainable communities, or nonprofit organizations and NGOs.

Career Opportunities: Graduates are prepared for research-oriented careers in higher education, governmental agencies, nonprofit organizations and private-sector businesses. Career opportunities include university professor, think tank researcher, independent scholar, consultant, foundation officer, government officer and corporate social responsibility officer.

NLM 562 Social Entrepreneurship (3)

Elective or Research (3 or 9 credit hours)

Culminating Experience (6 credit hours)

CRD 593 Applied Project (6) or

CRD 599 Thesis (6)

Additional Curriculum Information

Students may select a thesis or applied project. Advising and direction in both options are under the direct supervision of an assigned faculty member.

The thesis option is a research-oriented program and is recommended for students planning to continue graduate studies beyond the master's degree. Students in the thesis option take an advanced inquiry course, and they take three credit hours of elective coursework. The thesis option must be defended in an oral examination before a supervisory committee of at least three faculty members, one of whom will reside in another department.

The applied project is intended for students seeking additional knowledge and expertise relevant to professional career development. Students in the applied project option take CRD 530 as part of their core coursework and take nine credit hours of electives.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or they must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of professional and academic goals
- three letters of recommendation
- current resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Only complete application files are reviewed or considered for admission. Students without undergraduate academic work in related disciplines are required to take six credit hours of deficiency coursework in addition to the master's degree requirements. Deficiency coursework may be taken in conjunction with master's degree-level classes.

Applicants interested in financial aid need to submit their applications by February 1 for fall semester admission and October 1 for spring semester admission.

admission. Applications are accepted on a rolling basis.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze critical topics and issues pertinent to nonprofit leadership and management, such as creative problem-solving, strategic planning and volunteer management.
- Relate their individual strengths to demonstrate knowledge of research methods and data analysis within the context of nonprofit organizations.
- Apply the principles and practices of community development to address the social, economic, environmental and cultural challenges of diverse communities.

Career Opportunities: This degree program builds expertise in nonprofit leadership and management and prepares graduates for careers in:

- Tourism Development and Management (Sustainable Tourism), BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours and a thesis, or 36 credit hours including the required applied project course (CRD 593).

- Required Core (15 credit hours)
- CRD 500 Research Methods (3)
- CRD 502 Statistical and Data Analysis (3)
- CRD 530 Community Services Management (3) or advanced inquiry course (3)
- CRD 552 Critical Issues (3)
- CRD 555 Theoretical Perspectives in Community Development (3)

- Concentration (6 credit hours)
- CRD 610 Sustainable Communities (3)
- NLM 562 Social Entrepreneurship (3) or
- NLM 572 Community and Social Innovations (3)

Electives (3 or 9 credit hours)

- Culminating Experience (6 credit hours)
- CRD 593 Applied Project (6) or
- CRD 599 Thesis (6)

Additional Curriculum Information

Students may select a thesis or applied project. Advising and direction in both options are under the direct supervision of an assigned faculty

member.

The thesis option is a research-oriented program and is recommended for students planning to continue graduate studies beyond the master's degree. Students in the thesis option take an advanced inquiry course, and they take three credit hours of elective coursework. The thesis option must be defended in an oral examination before a supervisory committee of at least three faculty members, one of whom resides in another department.

The applied project is intended for students seeking additional knowledge and expertise relevant to professional career development. Students in the applied project option take CRD 530 as part of their core coursework and take nine credit hours of electives.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related discipline from a regionally accredited institution.

Applicants must have a minimum GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or they must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of professional and academic goals
- three letters of recommendation
- current resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Only complete application files are reviewed or considered for admission. Applicants without undergraduate academic work in related disciplines are required to take six credit hours of deficiency coursework in addition to the master's degree requirements. Deficiency coursework may be taken in conjunction with master's degree classes.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze critical topics and issues pertinent to sustainable communities, such as creative problem-solving, strategic planning and volunteer management.
- Relate their individual strengths to demonstrate knowledge of research methods and data analysis within the context of sustainable communities.
- Apply the principles and practices of community development to address the social, economic, environmental and cultural challenges of diverse communities.

Career Opportunities: This degree program prepares graduates for careers in governmental agencies, nonprofit organizations and private-sector businesses. Career opportunities include:

- community services officers
- nonprofit and nongovernmental organization officers
- parks and recreation officers
- tourism officers

Community Resources and Development (Tourism), MS (PPCRDTMMS)

Online Degree Search Title: Community Resources and Development (Tourism), MS

Campus: Downtown Phoenix, ASU at Hainan

Program Description: The MS in community resources and development with a concentration in tourism is a research-oriented master's degree program designed to prepare graduates for careers in many areas. Completion of the master's degree program requires two years of study on average.

Students learn to analyze and understand critical topics and issues pertinent to the fields of tourism, parks and recreation management, nonprofits and nongovernmental organizations, and sustainable communities. Students also learn how to reinvent aspects of tourism through community solutions analysis; while working with a faculty mentor, they consider all regulatory, policy and relational factors in order to make informed and innovative decisions.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Community Sports Management, BS
- Community Sports Management (Events), BS
- Tourism Development and Management, BS
- Tourism Development and Management (Meetings and Events), BS
- Tourism Development and Management (Resort and Hotel Leadership), BS
- Tourism Development and Management (Sustainable Tourism), BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours and a thesis, or 36 credit hours including the required applied project course (CRD 593).

Corrections Leadership and Management (Certificate), Certificate (PPCMGGRCT)

Online Degree Search Title: Corrections Leadership and Management (Graduate Certificate)

Campus: Downtown Phoenix, Online

Program Description: The graduate certificate in corrections management gives students already holding a bachelor's degree a solid foundational understanding of correctional administration, leadership and policy analysis.

The curriculum provides coursework in criminal justice organizations, corrections and community supervision, and institutional management, and in cross-disciplines such as public administration.

Degree Requirements:

15 credit hours.

Required Core (9 credit hours)

CRJ 514 Seminar in Corrections (3)

CRJ 529 Community Corrections (3)

PAF 520 Public Management (3)

Electives (6 credit hours)

Additional Curricular Information

For electives, students should see the academic unit for the approved course list. A culminating experience is not required for this program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or they must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application
- official transcripts
- written statement of career and educational goals
- proof of English proficiency

Students not admitted to a graduate degree-granting program at ASU (nondegree-seeking students) also must submit two letters of recommendation and a current resume.

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Students from related fields, such as public policy, political science, psychology and sociology, as well as students with other social science degrees, might be interested in this program; however, all eligible students are considered. Most students come from the aforementioned degree fields, although no specific undergraduate degree major is required for admission, and the school accepts applicants from all educational backgrounds.

Admission examinations are not required.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-corrections-management/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply management and organizational theories to issues in contemporary correctional practice.
- Assess the effectiveness of community corrections programs and interventions and their role in promoting evidence-based supervision strategies.

Career Opportunities: Graduates of the corrections leadership and management graduate certificate program find a strong job market in the public and private sectors. Employment opportunities include supervisory and management positions in criminal justice agencies (federal, state and local) such as the National Institute of Corrections, the Federal Bureau of Prisons and corrections departments.

Crime Analysis, MS (PPCRIMANMS)

Online Degree Search Title: Crime Analysis, MS

Campus: Online

Program Description: The MS program in crime analysis is focused on crime analysis as a field, applicable to all levels of government --- federal, state and local --- and to positions in private sector organizations with functional and operational activities related to crime analysis.

Students study topics relating to the current principles of crime analysis, crime mapping and advanced statistical tools in crime analysis.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Criminology and Criminal Justice, BS
Criminology and Criminal Justice (Policing), BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required applied project course (CRJ 593).

Required Core (24 credit hours)

CRJ 506 Seminar in Crime Analysis (3)

CRJ 507 Social Network Analysis (3)

CRJ 508 Advanced Seminar in Crime Analysis (3)

CRJ 509 Data Management (3)

CRJ 510 Criminal Justice Planning and Program Evaluation (3)

CRJ 511 Applied Data Analysis in Criminal Justice (3)

CRJ 512 Seminar in Policing (3)

CRJ 531 Crime Mapping (3)

Culminating Experience (6 credit hours)

CRJ 593 Applied Project (6)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology and criminal justice or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or they must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Students with an undergraduate GPA under 3.00 may be permitted to enroll in up to 12 credit hours on a probationary basis. Those who maintain a GPA of 3.00 or higher are considered for regular admission.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/masters-crime-analysis/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate the essential qualifications for employment in crime analysis and related occupations by critically applying theories of crime and place in relation to the whole of criminological theory.
- Use the fundamental methods and technologies required to produce valid and reliable crime analysis information of utility to policymakers and practitioners.
- Communicate the results of crime analysis orally and in writing.

Career Opportunities: Graduates of this program should expect to find employment within government agencies, such as local law enforcement; the Department of Homeland Security, which comprises several agencies, including the Secret Service, Coast Guard, and Customs and Border Protection; adult and juvenile probation; the courts; corrections agencies; and prosecutor's offices. Personnel in this field work at the local, state or federal level to implement and maintain public and national safety. Some crime analysts also work for private organizations that deal with emergency response, law enforcement and information technology. There is also a growing demand for crime analysts in Latin America and the

Caribbean in particular, with nations seeking platforms for educating and training future and current crime analysts.

Job titles for this career path include:

- crime data analyst
- criminal information analyst
- head of crime analysis
- intelligence analyst
- investigative analyst
- police crime analyst
- strategic data analyst

33 credit hours including the required capstone course (CRJ 505).

Required Core (12 credit hours)

CRJ 501 Seminar in Criminal Justice (3)

CRJ 502 Seminar in Criminology (3)

CRJ 510 Criminal Justice Planning and Program Evaluation (3)

CRJ 511 Applied Data Analysis in Criminal Justice (3)

Electives (18 credit hours)

Culminating Experience (3 credit hours)
CRJ 505 Theory and Practice in Criminal Justice (3)

Additional Curriculum Information

Students can develop specializations in areas such as policing, corrections and management by combining required and elective coursework.

Students should see the academic unit for an approved elective course list. Electives must be at the 500 level.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology or criminal justice or another closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- a written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The written statement should be at least one page and describe the applicant's educational and career goals and long-term professional development strategy.

Students should see the academic unit website for application deadlines.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-criminal-justice/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Utilize appropriate methodological and statistical techniques to generate research products useful for addressing criminal justice problems.
- Demonstrate the essential qualifications for employment in criminal justice agencies and related fields by applying their foundational knowledge of criminology theory and criminal justice policy to a final written project.
- Critically appraise theoretical perspectives on causes of crime, policy responses to crime problems, and the operation of the criminal justice system.

Career Opportunities: The Master of Arts program in criminology and criminal justice is designed to help graduates advance their career in criminal justice.

Graduates find a strong job market in the public and private sectors. Employment opportunities include supervisory and management positions in criminal justice agencies at federal, state and local levels, such as:

- city, county and state government liaison to criminal justice agencies
- communications supervisor (911 and dispatch)
- court administrator
- evidence and crime scene supervisor (CSI activities)
- intelligence analyzer
- law enforcement professional
- police crime analysis supervisor
- pretrial release specialist
- probation, parole or community supervisor
- property management and evidence retention supervisor

- risk manager
- veterans services specialist

Opportunities also include supervisory and management positions in social service agencies, such as:

- child and family services (e.g., Head Start, child support enforcement, foster care, elder care)
- Department of Economic Security
- homeless outreach

Graduates also have the opportunity to work in supervisory and management positions in the private sector, including online security, as well as in the cybersecurity sector.

Criminal Sentencing and Sentencing Advocacy (Certificate), Certificate (PPCSAGRCT)

Online Degree Search Title: Criminal Sentencing and Sentencing Advocacy (Graduate Certificate)

Campus: Online

Program Description: The certificate program in criminal sentencing and sentencing advocacy assumes that for any professional to function effectively, they must have a fundamental knowledge of the respective roles that sentencing professionals play during various phases of the criminal justice process.

In keeping with this viewpoint, all students are required to take courses for practice as both a presentence investigator and a sentencing advocate. Those courses are seminars in courts and sentencing, in presentence investigations and in alternatives to penal sanctions. After taking these required courses, students select an area of specialization to further their expertise as a probation professional, mitigation specialist or victim advocate. They take these courses from a range of electives available in the School of Criminology and Criminal Justice and in the School of Social Work.

This interprofessional certificate program also provides participants with content on the relationship between mental disorder and crime, and the way in which differential sentencing frameworks affect the sentencing of offenders suffering from mental disorders.

This program is highly recommended for social workers who desire to practice as mitigation specialists and for criminal justice professionals responsible for making recommendations about the appropriateness of sentencing alternatives for persons with known mental disorders.

Degree Requirements:

15 credit hours.

Required Core (9 credit hours)

CRJ 513 Seminar in Courts and Sentencing (3)

SWG 528 Presentence Investigations (3)

SWG 529 Alternatives Penal Sanctions (3)

Electives (6 credit hours)

Additional Curriculum Information

For electives, students should see the academic unit for the approved course list.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in social work, criminology, criminal justice or a related field, or if they are currently enrolled in the master of criminal justice program.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts

- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

This program does not require admission examinations.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-criminal-sentencing-and-sentencing-advocacy/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply professional evidence-based interventions when working with offenders in the criminal justice system.
- Demonstrate ability to write a Presentence Report from information provided, including police reports, victim statements and interested parties.

Career Opportunities: Social workers, criminal justice professionals and recent graduates of psychology and other social and behavioral sciences programs perform a number of roles in the disposition and sentencing of public offenders. They also provide support for victims of crime during the criminal justice process.

Career examples include:

- mitigation specialist
- presentence investigator
- probation professional
- sentencing advocate
- victim advocate

Criminology and Criminal Justice, MS (PPCRJMS)

Online Degree Search Title: Criminology and Criminal Justice, MS

Campus: Downtown Phoenix

Program Description: The MS in criminology and criminal justice is a research degree program designed to provide students with a high level of theoretical and empirical knowledge about crime and criminal justice.

The program provides students with advanced research skills and training in program planning and management and in policy and statistical analysis.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as concurrent degree program with:

Public Administration, MPA

Public Policy, MPP

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Criminology and Criminal Justice, BS

Criminology and Criminal Justice (Policing), BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

33 credit hours and a thesis, or 33 credit hours including the required capstone course (CRJ 505).

Required Core (12 credit hours)

CRJ 501 Seminar in Criminal Justice (3)

CRJ 502 Seminar in Criminology (3)

CRJ 503 Research Methods (3)

CRJ 504 Statistical Tools for Criminology and Criminal Justice (3)

Systems Courses (6 credit hours)

CRJ 512 Seminar in Policing (3)

CRJ 513 Seminar in Courts and Sentencing (3)

CRJ 514 Seminar in Corrections (3)

Electives (6 or 12 credits hours)

Other Requirement (0 or 3 credit hours)

CRJ 604 Regression Models (3)

Culminating Experience: (3 or 6 credit hours)

CRJ 505 Theory and Practice in Criminal Justice (3) or

CRJ 599 Thesis (6)

Additional Curriculum Information

Students select two of the three systems courses listed above.

For the culminating experience, students choose either the thesis option or the capstone course. CRJ 604 Regression Models is only required for the thesis option. To satisfy the thesis requirements for the degree, candidates must write a thesis and defend it in an oral examination conducted by the student's thesis committee. Students in the capstone option are not required to take CRJ 604.

Each student's program is designed in consultation with the faculty advisor.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology or criminal justice or another closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The personal statement should address the applicant's prior education and professional experience, discuss their career goals, and explain how the degree can help them achieve these goals.

Applicants should see the program website for application deadlines.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following

program outcomes:

- Apply theory and empirical knowledge about crime and the criminal justice system.
- Use the fundamental methodological and statistical techniques required to produce valid and reliable information of utility to policymakers and practitioners.
- Demonstrate the essential qualifications for employment in criminal justice agencies and related occupations by applying their research skills and foundational knowledge of criminology and criminal justice to a final written project.

Career Opportunities: Graduates of the Master of Science program in criminology and criminal justice find a strong job market in the public and private sectors. They are prepared for careers as criminal justice researchers, for leadership roles in criminal justice and related agencies and organizations, and for continued study in doctoral programs in criminology and criminal justice. Employment opportunities include supervisory and management positions in criminal justice agencies at federal, state and local levels, such as:

- city, county, and state government liaison to criminal justice agencies
- communications supervisor (911 and dispatch)
- court administrator
- evidence and crime scene supervisor (CSI activities)
- law enforcement professional
- police crime analysis supervisor
- pretrial release specialist
- probation, parole or community supervisor
- property management and evidence retention supervisor
- risk manager

Opportunities also include supervisory and management positions in social service agencies, such as:

- child and family services (e.g., Head Start, child support enforcement, foster care, elder care)
- Department of Economic Security
- homeless outreach
- victim advocacy

Criminology and Criminal Justice, PHD (PPCRJPHD)

Online Degree Search Title: Criminology and Criminal Justice, PhD

Campus: Downtown Phoenix

Program Description: The School of Criminology and Criminal Justice at Arizona State University offers an on-campus program of coursework and research leading to the PhD in criminology and criminal justice.

This program emphasizes criminal justice theory, research and policy, and is designed to produce highly skilled criminology and criminal justice faculty and agency researchers and administrators.

The doctoral program is organized around a core of required courses in research methods, analytic techniques, criminological theory, and policies and practices in the criminal justice system. The program offers distinctive elective courses in criminology, criminal justice and related fields. To complete the program, students complete both a comprehensive examination and a doctoral dissertation.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (12 credit hours)

CRJ 601 Seminar on Criminological Theory (3)

CRJ 602 Seminar on Criminal Justice Policies and Practices (3)

CRJ 604 Regression Models (3)

CRJ 605 Topics in Quantitative Methods (3)

Theory Coursework (6 credit hours)

CRJ 521 Topics in Psychological Criminology (3)

CRJ 523 Seminar in Network Criminology (3)

CRJ 524 Theories of Punishment (3)
CRJ 525 Seminar on Life-course Criminology (3)

Criminal Justice Systems Coursework (9 credit hours)
CRJ 512 Seminar in Policing (3)
CRJ 513 Seminar in Courts and Sentencing (3)
CRJ 514 Seminar in Corrections (3)
CRJ 517 Seminar on Juvenile Delinquency and Juvenile Justice (3)

Criminal Procedures Coursework (3 credit hours)
CRJ 537 Criminal Procedure of Investigations for Social and Forensic Scientists (3)
CRJ 538 Criminal Law and Social Control (3)
CRJ 539 Topics in Law, Crime and Justice (3)

Research Methods (6 credit hours)
CRJ 510 Criminal Justice Planning and Program Evaluation (3)
CRJ 531 Crime Mapping (3)
CRJ 540 Qualitative Methods (3)
CRJ 560 Topics in Research Methods (3)

Electives (36 credit hours)

Culminating Experience (12 credit hours)
CRJ 799 Dissertation (12)

Additional Curriculum Information

A maximum of 30 credit hours of coursework from a previously awarded master's degree or JD may, with approval of the supervisory committee and the Graduate College, be applied toward the doctoral plan of study.

For the theory, criminal justice systems, criminal procedures and research methods courses, students select the number of required credit hours from the list provided. Other courses may be substituted with approval of the academic unit.

The following professional development workshop courses are recommended but not required:

CRJ 614 Professional Development Workshop I: Professionalization
CRJ 615 Professional Development Workshop II: Preparing to Teach Effectively
CRJ 616 Professional Development Workshop III: Navigating the Academic Job Market in CCJ

All students must demonstrate proficiency in research design as well as quantitative and qualitative methods.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants will often hold a master's degree from an accredited institution; it may be in criminal justice, criminology or another field (e.g., sociology, political science, history, social work, public administration, psychology or philosophy). Our program also allows for direct admission into our doctoral program for highly qualified students with only a bachelor's degree; these students will earn their master's degree along the way to completing their doctoral degree.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- current curriculum vitae or resume
- personal statement
- sample of the applicant's written work
- proof of English proficiency.

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. Requirements can be found on the admission services website (<https://admission.asu.edu/apply/international/graduate/english-proficiency>).

Official transcripts must be submitted from every university or institution from which a degree was awarded.

The letters of recommendation must be from faculty members or others qualified to evaluate the applicant's academic potential for doctoral study.

The personal statement should not exceed five pages, and it should describe the applicant's prior education, relevant professional experience and career goals. The statement must explain how the doctorate in criminology and criminal justice will help the applicant attain their goals. The statement should explicitly explain how the student's plans are consistent with the role and mission of the School of Criminology and Criminal Justice at ASU.

The applicant's sample of written work should be submitted electronically. The writing sample may be an article (published or unpublished), a research paper or any other extended sample of expository skill, and the sample must be no longer than 35 pages. Longer writing samples should not be submitted without first consulting the graduate director. Documents should not be password protected. Acceptable file types are .rtf, .pdf, and .doc.

Students should see the unit website for application deadlines.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply appropriate theoretical principles and procedures to issues and problems at the frontiers of criminology and the criminal justice system.
- Select appropriate data collection and data analysis techniques for conducting criminology and criminal justice research.
- Able to conduct dissertation research resulting in an original contribution to knowledge in criminology and criminal justice.

Career Opportunities: Graduates of the criminology and criminal justice doctorate program find a strong job market in the public and private sectors. Employment opportunities include supervisory and management positions in criminal justice agencies (federal, state and local), policymaking, and teaching and research, such as:

- city, county and state government liaison to criminal justice agencies
- court administrator
- detective or investigator
- evidence and crime scene supervisor (CSI activities)
- forensic scientist
- intelligence analyst
- law enforcement or police crime analysis supervisor
- policy analyst
- probation, parole or community supervisor
- professor of criminal justice

Opportunities also include supervisory and management positions in social service agencies, such as:

- child and family services (e.g., Head Start, child support enforcement, foster care, elder care)
- Department of Economic Security
- homeless outreach
- victim advocacy

Graduates also have the opportunity to work in supervisory and management positions in the private sector, including online security, as well as in the cybersecurity sector.

Domestic Violence and Evidence-Based Practice (Certificate), Certificate (PPDVEPGRCT)

Online Degree Search Title: Domestic Violence and Evidence-based Practice (Graduate Certificate)

Campus: Downtown Phoenix, Online

Program Description: The certificate program in domestic violence and evidence-based practice provides students with the experience and knowledge to intervene safely and effectively on behalf of survivors of gender-based violence, a vulnerable group that helping professionals are likely to encounter in all areas of practice. Graduates who have learned the dynamics of domestic violence and other forms of gender-based violence are better equipped to assist those suffering its negative physical and mental health consequences.

Evidence-based care is crucial in domestic violence settings. Students in the certificate program engage in service-based and classroom learning to understand the role of evidence-based interventions in promoting survivor safety and client empowerment. Upon completion of the program, certificate holders become verified advocates for victims of domestic violence in the state of Arizona.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

SWG 545 Domestic Violence and National AmeriCorps Service (3)

Restricted Electives (6 credit hours)

SWG 546 Approaches to Teen Dating Violence Prevention (3)

SWG 618 Advanced Practice in Domestic Violence (3)

SWG 647 The Domestic Violence Movement: An Intersectional Framework (3)

SWG 648 Intimate Partner Violence Risk Assessment (3)

Other Requirement (6 credit hours)

SWG 541 Field Practicum I (3) or SWG 641 Advanced Practicum: Direct Practice I (3) or SWG 643 Advanced Practicum: Planning, Social Work Administration and Community Practice I (3)

SWG 542 Field Practicum II (3) or SWG 642 Advanced Practicum: Direct Practice II (3) or SWG 644 Advanced Practicum: Planning, Social Work Administration and Community Practice II (3)

Additional Curriculum Information

For restricted electives, students select two courses from the approved course list. Other coursework may be used with the approval of the academic unit.

For the Other Requirement section, students must select one course from SWG 541, SWG 641 or SWG 643 and one course from SWG 542, SWG 642 or SWG 643. Other coursework may be used with approval of the academic unit.

The student's department-specific field experience practicum credits may be substituted for those listed in the Other Requirement section with department approval.

All students are required to complete 300 hours (minimum) of domestic violence service through a field experience practicum. Students should work with the academic unit in coordinating the field experience practicum. Concurrent with the beginning of their field experience practicum, students take the Domestic Violence and National AmeriCorps Service core course (SWG 545) to learn about the foundations for working with domestic violence victims. The coursework and field experience practicum maximize experiential learning opportunities.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution and are degree-seeking graduate students. Experience in social work, social services or a related field is required.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants interested in the domestic violence and evidence-based practice certificate are asked to attend an interview. The interview is a chance to help the student find an appropriate field experience or practicum to match the certificate requirements.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/domestic-violence-evidence-based-practice/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Implement evidence-based interventions when working with clients that are experiencing domestic violence.
- Apply advocacy skills when working with clients that are experiencing domestic violence.

Career Opportunities: Prospective administrators, helping professionals and community activists gain practical knowledge, implement interventions backed by evidence, and develop the tools and networks to create change for survivors, families and communities.

Career examples include:

- clinician or therapist
- domestic violence or lay legal advocate
- domestic violence support group facilitator
- shelter case manager

Emergency Management (Certificate), Certificate (PPEMEGRCT)

Online Degree Search Title: Emergency Management (Graduate Certificate)

Campus: Downtown Phoenix, Online

Program Description: The graduate certificate program in emergency management provides students with the skills and knowledge to manage and assume positions of leadership in government, private, nonprofit and civic roles within the field of emergency management. An orientation on all-hazards and all-threats paired with a focus on community resilience and communication provides students with a generalist perspective, which is critically important for the disaster managers of today and tomorrow.

This certificate program may be of interest to students in disciplines such as public policy, planning, political science, nonprofit management, social work, criminology and other related fields.

Degree Requirements:

15 credit hours.

Required Core (9 credit hours)

PAF 520 Public Management (3)

PAF 552 Integrated Emergency Management (3)

PAF 555 Information Technology in Emergency Management (3)

Electives (6 credit hours)

Additional Curriculum Information

For electives, students should see the academic unit for an approved course list. Other coursework may be used with the approval of the academic unit.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a statement of career and educational goals

- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students who reside in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The program is ideal for students from related fields, including political science, planning, urban and metropolitan studies, sociology and other social science degrees; however, applicants from all educational backgrounds may be accepted provided they meet the minimum requirements. Current ASU graduate students are eligible for the certificate as a supplement to their existing degree program. In addition, students not enrolled in a graduate program at ASU are eligible to apply as nondegree-seeking students provided they meet the admission criteria stated above. However, MPA students in the emergency management concentration are not eligible for admission.

Students should see the program website for application deadlines.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/emergency-management-graduate-certificate/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate expertise in comprehensive hazards governance.

- Demonstrate expertise in community resilience capacity-building practices.

Career Opportunities: Students who complete this certificate are prepared to pursue a career in a field related to public administration or public policy, particularly in the areas of participatory governance and public engagement. This may include opportunities as either a manager or policy analyst in local, state or federal agencies; nonprofit organizations; and private organizations that interface with the public sector.

Emergency Management and Homeland Security, MA (PPEMHSMA)

Online Degree Search Title: Emergency Management and Homeland Security, MA

Campus: Downtown Phoenix, Online

Program Description: The MA program in emergency management and homeland security is designed to assist in the professional development of current and future practitioners as the next generation of leaders in these fields.

The program emphasizes a blended approach of practical knowledge and broader integrative thinking about the complex societal challenges of today's world. Its core values of collaboration between practitioners, faculty and students; public service; commitment to diversity; and critical thinking and evidence-based assessment are all central to promoting informed and effective leadership.

One of the distinct features of this program is its breadth of content coverage. The program offers the following five distinct concentration areas: emergency management, homeland security, community resilience, biosecurity and threat management, and cybersecurity policy and management. These subject area specializations underscore the program's commitment to strategic thinking about current and future challenges. Likewise, the program has a number of learning opportunities from an international perspective.

When students enroll in this program, they are encouraged to choose one of these area specializations. Students can enroll in the degree program without declaring a concentration; however, selecting a concentration is advisable because doing so assists in developing the knowledge, skills and abilities pertinent to an intended career path.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Emergency Management and Homeland Security, BS
- Public Service and Public Policy, BS
- Public Service and Public Policy (Business), BS
- Public Service and Public Policy (Criminology), BS
- Public Service and Public Policy (Emergency Management and Homeland Security), BS
- Public Service and Public Policy (Law and Policy), BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

33 credit hours including the required applied project course (PAF 593).

Required Core (18 credit hours)

CRJ 511 Applied Data Analysis in Criminal Justice (3)

CRJ 554 Homeland Security (3)

PAF 551 Hazards Governance (3)

PAF 552 Integrated Emergency Management (3)

PAF 558 Program Evaluation for Emergency Management and Homeland Security (3)

PAF 559 GIS for Hazards Analysis (3)

Electives (12 credit hours)

Culminating Experience (3 credit hours)

PAF 593 Applied Project (3)

Additional Curriculum Information

For electives, students should see the academic unit for the approved course list.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology or criminal justice, public administration or public service, sociology or social work, public safety or fire service management, parks and recreation management, applied sciences, environmental sciences or geography, public health or another closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate application and application fee
- official transcripts
- evidence of current employment in an organization in this field, or at least two years prior professional experience in this or a related field or a bachelor's degree in a related area
- two letters of recommendation
- a written statement
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The written statement should be at least one page in length and describe the applicant's educational and career goals and long-term professional development strategy.

Emergency Management and Homeland Security (Biosecurity and Threat Management), MA (PPEMHSBTMA)

Online Degree Search Title: Emergency Management and Homeland Security (Biosecurity and Threat Management), MA

Campus: Downtown Phoenix, Online

Program Description: Biosecurity and threat management is an important and emerging area related to the intersection of homeland security, public health and risk management. It addresses a distinct set of hazard and threat management issues related to bioterrorism, agroterrorism and communicable disease threats associated with disaster incidents, as well as biodefense overall.

The biosecurity and threat management concentration within the MA program in emergency management and homeland security is designed to assist professional development aimed at meeting these types of current and emerging challenges. Some of the coursework in this concentration area is offered through the University of New South Wales in Australia as part of the PLuS alliance program.

The students serve and promote stronger and more resilient communities across public, private or nonprofit sector organizations. The program emphasizes a blended approach of practical knowledge and broader integrative thinking about the complex societal challenges of today's world. Its core values of collaboration between practitioners, faculty and students; public service; commitment to diversity; and critical thinking and evidence-based assessment are all central to promoting informed and effective leadership.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Emergency Management and Homeland Security (Community Resilience), MA (PPEMHSCRMA)

Online Degree Search Title: Emergency Management and Homeland Security (Community Resilience), MA

Campus: Downtown Phoenix, Online

Program Description: Community resilience refers to the efforts of government and nongovernment actors to develop policies and practices aimed at reducing short- and long-term hazard risks in order to enhance safety, sustainability and resiliency through adaptive capacities.

This concentration within the MA program in emergency management and homeland security is focused on understanding how community resilience is developed and promoted in coordination with government agencies (local, state and federal) as well as private and nonprofit sector organizations in which functional and operational responsibilities relate to planning, hazards mitigation, disaster recovery or sustainability. Furthermore, this program leverages international partners in Australia and the United Kingdom through the PLuS Alliance for additional course offerings.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Emergency Management and Homeland Security (Cybersecurity Policy and Management), MA (PPEHSCPMMA)

Online Degree Search Title: Emergency Management and Homeland Security (Cybersecurity Policy and Management), MA

Campus: Downtown Phoenix, Online

Program Description: Cybersecurity is an important tool for addressing threat and vulnerability issues that cut across multiple domains.

The cybersecurity policy and management concentration within the MA program in emergency management and homeland security provides motivated students with knowledge, skills and abilities that will enable them to assume leadership, key management, and other key operational positions in public sector agencies or related private sector organizations. These organizations have responsibilities related to managing cybersecurity hazards in the area of homeland security, emergency management, critical infrastructure protection, risk management and other related fields.

This concentration is particularly geared toward professionals in emergency management, homeland security, critical infrastructure protection, hazard mitigation, and planning and emergency preparedness who do not seek nor require highly technical training in cybersecurity (beyond a basic competency level) but do have major operational responsibilities that pertain to cyber-related vulnerabilities. This program is a distinct contribution: It provides education and training on cyber policy and management issues for general administrators. Furthermore, it leverages the PLuS Alliance for course offerings.

Students serve and promote stronger and more resilient communities across public, private or nonprofit sector organizations. The program emphasizes a blended approach of practical knowledge and broader integrative thinking about the complex societal challenges of today's world. Its core values of collaboration between practitioners, faculty and students; public service; commitment to diversity; critical thinking; and evidence-based assessment are all central to promoting informed and effective leadership.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Emergency Management and Homeland Security, BS

Public Service and Public Policy, BS

Public Service and Public Policy (Business), BS

Public Service and Public Policy (Criminology), BS

Public Service and Public Policy (Emergency Management and Homeland Security), BS

Public Service and Public Policy (Law and Policy), BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

33 credit hours including the required applied project course (PAF 593).

Required Core (18 credit hours)

CRJ 511 Applied Data Analysis in Criminal Justice (3)

CRJ 554 Homeland Security (3)

PAF 551 Hazards Governance (3)

PAF 552 Integrated Emergency Management (3)

PAF 558 Program Evaluation for Emergency Management and Homeland Security (3)

PAF 559 GIS for Hazards Analysis (3)

Concentration (6 credit hours)

PAF 563 U.S. Cyber and Information Security Policy (3)

PAF 576 Information Assurance Principles (3)

Electives or Research (6 credit hours)

Culminating Experience (3 credit hours)

PAF 593 Applied Project (3)

Additional Curriculum Information

Students take up to three courses as part of the PLuS Alliance program with the University of New South Wales.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology or criminal justice, public administration or public service, sociology or social work, public safety or fire service management, parks and recreation management, applied sciences or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- professional resume
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The resume should show current employment in an organization in this field or at least two years prior professional experience in emergency management or a related field, or a bachelor's degree in a related area.

The written statement must be at least one page in length and must describe the applicant's educational and career goals and long-term professional development strategy.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/cybersecurity-policy-and-management-ma/>) for program descriptions and to request more information.

Global Opportunities:

PLuS Alliance: The PLuS Alliance partnership combines the strengths of three leading research universities from three continents --- Arizona State University, King's College London and UNSW Sydney --- to create and share knowledge that will solve pressing educational and societal challenges.

Career Opportunities: Graduates with a Master of Arts in emergency management and homeland security with the cybersecurity policy and management concentration have a wide range of career opportunities, and the management of cyber-related hazards cuts across a broad set of professional areas.

Career examples include:

- corporate operations crisis manager
- corporate operations security manager
- emergency management director
- emergency preparedness coordinator or specialist
- information security analyst
- logistics coordinator or manager
- security operations center manager

Advanced degrees or certifications may be required for academic or clinical positions.

Emergency Management and Homeland Security (Emergency Management), MA (PPEMHSEMMA)

Online Degree Search Title: Emergency Management and Homeland Security (Emergency Management), MA

Campus: Downtown Phoenix, Online

Program Description: The emergency management concentration within the MA program in emergency management and homeland security is designed for individuals who intend to assume greater management responsibility in helping communities reduce vulnerability to hazards and cope with disasters in both private and public settings.

Students gain an essential understanding of the entire vision, mission and principles of emergency management with an emphasis on policy analysis and program evaluation, leadership, management, use of technology, phases of the disaster life cycle, and interagency and cross-sector collaboration. Core concepts and analytic approaches to disaster risk reduction and the promotion of community resilience capacity are addressed in concentration courses.

Program students serve and promote stronger and more resilient communities across public, private or nonprofit sector organizations. The program emphasizes a blended approach of practical knowledge and broader integrative thinking about the complex societal challenges of today's world. Its core values of collaboration between practitioners, faculty and students; public service; commitment to diversity; and critical thinking and evidence-based assessment are all central to promoting informed and effective leadership. Furthermore, this program leverages international partners in Australia and the United Kingdom through the PLS Alliance for additional course offerings.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Emergency Management and Homeland Security, BS
- Public Service and Public Policy, BS
- Public Service and Public Policy (Business), BS
- Public Service and Public Policy (Criminology), BS
- Public Service and Public Policy (Emergency Management and Homeland Security), BS
- Public Service and Public Policy (Law and Policy), BS

Homeland Security (certificate), Certificate (PPHLSGRCT)

Online Degree Search Title: Homeland Security (Graduate Certificate)

Campus: Online

Program Description: The graduate certificate program in homeland security is focused on homeland security as a field related to organizational security.

Students can study topics related to current international and domestic terrorism issues, global security, intelligence analysis, cybersecurity issues, crime prevention and law enforcement.

Degree Requirements:

18 credit hours.

Required Core (12 credit hours)

CRJ 553 Terrorism and Weapons of Mass Destruction (3)

CRJ 554 Homeland Security (3)

CRJ 557 Seminar in Domestic Terrorism (3)

CRJ 558 Seminar in International Terrorism (3)

Electives or Research (6 credit hours)

Students should see the academic unit for available elective and research coursework.

Students may choose to participate in a study abroad experience in counterterrorism in Israel during the summer term that may be used to fulfill elective coursework. Students who choose this option enroll in CRJ 555 Police and International Terrorism and CRJ 556 Etiology of Martyrdom.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology, criminal justice, homeland security, counterterrorism or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- letter of intent
- professional resume
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letter of intent, resume and letters of recommendation are not needed if the applicant is already matriculated in an ASU master's degree program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/homeland-security-grad-cert/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze United States homeland security issues and challenges from both national and international perspectives.
- Evaluate a range of factors contributing to domestic terrorism and international terrorism and possible responses to such threats.

Career Opportunities: Graduates of the homeland security graduate certificate program find a strong job market in the public and private sectors. Employment opportunities include supervisory and management positions in criminal justice agencies (federal, state and local), such as the Cybersecurity and Infrastructure Security Agency, U.S. Customs and Border Protection, the U.S. Secret Service and local law enforcement agencies.

Latino Cultural Competency in Social Work (certificate), Certificate (PPSWGGRCL)

Online Degree Search Title: Latino Cultural Competency in Social Work (Graduate Certificate)

Campus: Downtown Phoenix

Program Description: The Latino cultural competency in social work certificate is intended for graduate social work students and current professional social workers who want specific expertise in order to expand their employment potential. This program enhances students' capacity for engaging in culturally grounded practice with Latino clients and their communities.

The program provides social work students the opportunity to learn the critical, cross-cultural factors that influence a worker's competency in forming professional helping relationships with Latinos; understand the social and cultural context and theoretical principles of social work practice

with Latinos; and learn the social service delivery issues involved in providing services for bilingual and limited- or non-English-speaking Latino populations.

The School of Social Work offers Latino-oriented courses with an emphasis on Spanish language development for professional social workers.

Degree Requirements:

15 credit hours.

The following is required for students enrolled in the Master of Social Work program:

- completion of 480 hours of field practicum with Latino clients and communities (60% of caseload to be Spanish-speaking)
- field practice consisting of six credit hours of field practicum
- six credit hours of Latino-oriented coursework
- SWG 533 Diversity and Oppression in a Social Work Context (3)

At least three credit hours must be taken from within the School of Social Work.

Those already working in the community as a professional social worker have the following requirements:

- six credit hours of independent study field practice consisting of the completion of 480 hours with Latino clients and communities (60% of client caseload to be Spanish-speaking)
- six credit hours of Latino-oriented coursework
- SWG 533 Diversity and Oppression in a Social Work Context (3)

Additional Curriculum Information

At least three credit hours of the Latino-oriented coursework must be taken from within the School of Social Work.

Students already working in the field of social work may petition to use their place of employment for the six credit hours of independent study field practice.

Students with a Master of Social Work or BSW degree who have completed SWG 533 in the past five years may substitute another Latino-oriented course.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- the School of Social Work Latino cultural competency application form and the required \$50 application fee
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F-1 or J-1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

No more than two certificate courses may be completed before applying for admission to the certificate program.

Social work graduate students must have graduate status in the Watts College of Public Service and Community Solutions' School of Social Work and must demonstrate proficiency in the Spanish language.

Community professional social workers must possess a Master of Social Work, Bachelor of Social Work or related master's degree and must demonstrate proficiency in the Spanish language.

Community workers must have the equivalency of two years of work experience in the social service field and an undergraduate degree, and demonstrate proficiency in the Spanish language.

Career Opportunities: Graduates with this certificate can:

- demonstrate the ability to communicate with the growing monolingual Spanish-speaking population
- demonstrate an understanding of issues affecting Latino populations
- increase their cultural competency as social workers regarding Latino populations

Law Enforcement Administration (Certificate), Certificate (PPLEAGRCT)

Online Degree Search Title: Law Enforcement Administration (Graduate Certificate)

Campus: Downtown Phoenix, Online

Program Description: The graduate certificate program in law enforcement administration prepares law enforcement professionals for career advancement.

The curriculum provides a comprehensive analysis of criminal justice organizations, policing, and program analysis and includes cross-disciplinary topics such as public administration. The program is designed to give students a solid foundational understanding of law enforcement agency administration, leadership and policy analysis.

Degree Requirements:

15 credit hours.

Required Courses (9 credit hours)

CRJ 512 Seminar in Policing (3)

CRJ 527 Police Accountability (3)

PAF 520 Public Management (3)

Restricted Electives (6 credit hours)

Culminating Experience: none required

Additional Curriculum Information

Students should see the academic unit for the approved restricted elective course list. Restricted electives may be substituted with approval of the academic unit.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants who are nondegree-seeking students (not admitted to a graduate degree program at ASU) are required to submit:

- graduate admission application and application fee
- official transcripts of undergraduate and, if applicable, graduate coursework
- a written statement of career and educational goals
- two letters of recommendation
- current resume
- proof of English proficiency

Applicants who are graduate degree-seeking students (admitted to an ASU graduate program) are required to submit:

- graduate admission application
- a written statement of career and educational goals

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Students from related fields such as public policy, political science, psychology, sociology and other social science degrees might be interested in this program; however, all eligible students are considered. Although most students would likely come from the aforementioned degree fields, there is no specific undergraduate degree major required for admission; the school accepts applicants with undergraduate degrees from all educational backgrounds.

Admission examinations are not required for admission to the certificate program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-law-enforcement-administration/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Critically apply management and organizational theories to issues in contemporary law enforcement practice.
- Demonstrate competence in explaining the role of proactive accountability measures in creating fairer and more effective law enforcement agencies.

Career Opportunities: Graduates of the law enforcement administration graduate certificate program find a strong job market in the public and private sectors. Employment opportunities include supervisory and management positions in criminal justice agencies at federal, state and local levels, such as city police departments, county sheriff's offices, state bureaus of investigation and federal law enforcement agencies.

Nonprofit Leadership and Management, MNLM (PPNPSMNS)

Online Degree Search Title: Nonprofit Leadership and Management, MNLM

Campus: Downtown Phoenix, Online

Program Description: Offered through the School of Community Resources and Development, the MNLM program is intended for midlevel professionals who desire to work in the nonprofit sector at senior leadership and management levels. The program provides an opportunity to obtain an advanced degree that addresses the distinct character of nonprofit organizations and the social sector.

Students explore both theory and the practice of leadership and management in the nonprofit sector. The degree allows graduates enhanced recognition and credentials similar to those who have graduate degrees in administration or management.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Nonprofit Leadership and Management, BS
- Nonprofit Leadership and Management (American Indian Studies), BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

33 credit hours including the required capstone course (NLM 620).

Required Core (15 credit hours)

NLM 510 The Nonprofit Sector (3)

NLM 520 Financial and Resource Management (3)

NLM 530 Program Evaluation and Information Management (3)

NLM 540 Strategic Human Resources Management (3) or NLM 545 Volunteer Resource Management (3)

NLM 550 Philanthropy (3)

Electives (15 credit hours)

NLM 515 Nonprofit Organizational Behavior and Principles of Management (3)
NLM 525 Fundraising and Resource Development (3)
NLM 540 Strategic Human Resources Management (3) or NLM 545 Volunteer Resource Management (3)
NLM 560 Leadership and Ethics in the Nonprofit Sector (3)
NLM 562 Social Entrepreneurship (3)
NLM 565 Grant Writing Nonprofit Organizations (3)
NLM 570 International Non-Governmental Organizations (3)
NLM 572 Community and Social Innovations (3)
NLM 580 Practicum (3-6)
NLM 585 Social Marketing (3)
NLM 605 Nonprofits, Law and Society (3)
NLM 610 Executive Leadership and Governance (3)

Culminating Experience (3 credit hours)
NLM 620 Capstone: Integrative Seminar (3)

Additional Curriculum Information

Students are required to take 15 credit hours of core coursework and three credit hours of a capstone course that is completed in the final semester of the program. The capstone course is integrative of all concepts learned in the program, allowing students to synthesize material from prior coursework. Successful completion of this course is required in place of a thesis or applied project.

Students complete 15 credit hours of related elective coursework. Electives must include NLM 580 Practicum for three to six credit hours. The purpose of the practicum is to provide managerial experience in a nonprofit organization. Applicants with specific nonprofit managerial experience on their resume will be reviewed by the program director at the time of admission for a possible exception to the practicum requirement.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- curriculum vitae or resume
- statement of educational and career goals
- three reference letters
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International applicants are also required to submit TOEFL or IELTS scores and a financial guarantee statement.

The statement of educational and career goals should be written in sufficient detail to indicate compatibility with the educational objectives and capabilities of the school.

Reference letters should be from a combination of academic and professional references. References from friends and family members are not accepted.

Students currently pursuing the nonprofit leadership and management certificate who are interested in applying for the master's program must apply to the degree program before the completion of nine credit hours in their certificate program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/masters-certification-master-nonprofit-leadership-and-management/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following

program outcomes:

- Evaluate the programmatic work of nonprofit organizations based on an integration of material learned throughout the degree program.
- Evaluate the financial health of nonprofit organizations.
- Demonstrate an understanding of critical dimensions of the nonprofit sector through discussion, readings, individual research and writing.

Career Opportunities: Graduates of this program have built expertise in nonprofit leadership and management. Career opportunities include:

- chief administrative officers
- chief executive officers
- chief financial officers
- foundation officers

Nonprofit Leadership and Management (certificate), Certificate (PPNONPROCE)

Online Degree Search Title: Nonprofit Leadership and Management (Graduate Certificate)

Campus: Downtown Phoenix, Online

Program Description: The graduate certificate program in nonprofit leadership and management provides students with an understanding of the nonprofit sector's role in society, as well as the skills necessary to lead and make a positive impact in nonprofit work.

Students with diverse academic backgrounds are exposed to knowledge needed by leaders in the nonprofit sector, including understanding of the historical and philosophical context for nonprofit organizations in society, the theory and practice of philanthropy, financial management practices and other topical content areas.

The certificate is ideal when combined with graduate degree programs in other areas and when used to provide a core focus in nonprofit leadership and management.

Degree Requirements:

15 credit hours.

Required Core (9 credit hours)

NLM 510 The Nonprofit Sector (3)

NLM 520 Financial and Resource Management (3)

NLM 540 Strategic Human Resources Management (3) or NLM 545 Volunteer Resource Management (3)

Electives (6 credit hours)

Additional Curriculum Information

Students select either NLM 540 or NLM 545 as part of the required core coursework.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International applicants are also required to submit TOEFL or IELTS scores and a financial guarantee statement.

The program is available to students who are pursuing their graduate degree in a chosen field of study and who have expressed interest in pursuing careers in the nonprofit sector. In addition, the program is well-suited for working professionals who may be pursuing a graduate degree but who wish to strengthen their skills and connections in the nonprofit community and who have one to three years of nonprofit professional experience.

Applicants should see the Watts College of Public Service and Community Solutions website for more information.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu>) for program descriptions and to request more information.

Program Learning Outcomes:

Participatory Governance (certificate), Certificate (PPPGORCT)

Online Degree Search Title: Participatory Governance (Graduate Certificate)

Campus: Downtown Phoenix, Tempe

Program Description: This transdisciplinary certificate program combines academic rigor with practical skills. Students examine the main theories and research findings on participatory governance and public engagement, and familiarize themselves with past and current democratic innovations in the U.S. and around the world. Students also develop the capacity to design, carry out and examine processes of participatory governance and public engagement.

Students may pursue the certificate program as a specialization within an existing ASU graduate program or as a stand-alone certificate.

Degree Requirements:

15 credit hours.

Required Core (9 credit hours)

Choose three of the following courses:

PAF 530 Management of Urban Government (3)

PAF 531 Community Conflict Resolution (3)

PAF 565 Theories and Practices of Democracy (3)

PAF 566 Participatory Governance and Civic Engagement (3)

Electives (6 credit hours)

Additional Curriculum Information

Electives are chosen from a list of preapproved courses and are selected with the faculty advisor. The faculty advisor directs the selection of the electives to ensure that they focus on a common theme and to see that the student's experiences in the courses align with the learning goals

outlined for the certificate.

Students are required to maintain a minimum GPA of 3.00 (scale is 4.00 = "A") and to have no more than one grade below a "B-" in courses taken to complete the certificate program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of career and educational goals
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Students from related fields such as political science, planning, urban and metropolitan studies, sociology and other social science degrees might be interested in this program. However, all eligible students are considered.

Students should see the program website for application deadlines.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate knowledge of democratic theory and its connection to participatory governance.
- Understand advantages and disadvantages of different models of participatory governance.

Career Opportunities: Students who receive this certificate are prepared to pursue a career in a field related to public administration or public policy, particularly in the areas of participatory governance and public engagement. This may include opportunities as either a manager or policy analyst whose work in a local, state or federal agency; nonprofit organization; or private organization that interfaces with the public sector.

Policy Informatics (Certificate), Certificate (PPPOIGRCT)

Online Degree Search Title: Policy Informatics (Graduate Certificate)

Campus: Downtown Phoenix

Program Description: The policy informatics certificate program provides knowledge and skills to students seeking careers in which they can use informatics tools, models and simulations to help individuals and groups deliberate and evaluate policy decisions. The program places emphasis on theories and research concerning decision-making, complexity theory and visualization of quantitative and qualitative information, collective intelligence, behavioral economics and persuasive technologies.

Degree Requirements:

15 credit hours.

Five courses are required for the certificate. Students should review the certificate requirements and required courses on the School of Public Affairs website. Students are required to maintain a minimum GPA of 3.00 (scale is 4.00 = "A") and to have no more than one grade below a "B-" in courses taken to complete the certificate program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a statement of career and educational goals
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

All materials are submitted online through the graduate admission application.

Students should see the program website for application deadlines.

Career Opportunities: Graduates are prepared to pursue a career in a field related to public administration or public policy, particularly in the areas of participatory governance and public engagement. This may include opportunities as either a manager or policy analyst in a local, state or federal agency, nonprofit organization, or private organization that interfaces with the public sector.

Program Evaluation (Certificate), Certificate (PPGGEVGRCT)

Online Degree Search Title: Program Evaluation (Graduate Certificate)

Campus: Downtown Phoenix, Online

Program Description: Professionals in the government, nonprofit and private sectors are increasingly required to demonstrate effectiveness of programs and activities. This graduate certificate in program evaluation provides students with a solid grounding in the applied and conceptual tools for conducting evaluation research and implementing assessments.

Degree Requirements:

15 credit hours.

Required Core (15 credit hours)

PAF 510 Foundations of Program Evaluation I: Multiple Regression (3)

PAF 511 Foundations of Program Evaluation II: Research Design (3)

PAF 512 Foundations of Program Evaluation III: Advanced Regression Tools (3)

PAF 513 Foundations of Data Science I: Introduction to Data Programming in R (3)

PAF 541 Program Evaluation (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology and criminal justice, social work, public service, nonprofit management, parks and recreation management, tourism management, business, education, family studies, public health, education, psychology or a related social and applied sciences field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Admission examinations are not required for this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/program-evaluation-graduate-certificate/>) for program descriptions and to request more information.

Career Opportunities: Program evaluation is valued in many fields and industries. These include educational institutions, nonprofit organizations, health care facilities, government programs and more. Once students deepen their program evaluation capacity, options for employment are diverse. Career titles with program evaluation as a central component of their role include:

- city government program manager
- compliance officer
- education curriculum or program specialist
- evaluation specialist in a public or nonprofit organization
- foundation officer
- government grant manager
- health care administrator
- monitoring and evaluation analyst
- nonprofit manager or executive director
- research analyst

Program Evaluation and Data Analytics, MS (PPPGEMS)

Online Degree Search Title: Program Evaluation and Data Analytics, MS

Campus: Downtown Phoenix, Online

Program Description: The MS in program evaluation and data analytics is a professional degree program that emphasizes skills needed to leverage data to improve organizational performance in the public, nonprofit and private sectors. It combines courses in program evaluation and data science, which empower students to utilize a diverse array of tools to generate insights on social impact and leverage data in organizations.

Students receive training in data programming, visualization, dashboard design, open data, project management and impact analysis. Through this, students build the technical skills necessary to implement evidence-based approaches to policy and management.

Unlike other data scientist degrees, this program is built using public sector and nonprofit examples. Students do not need a background in computer programming before starting the program. Through a project-based curriculum and individualized attention, students develop expertise in

performance and evaluation frameworks.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Emergency Management and Homeland Security, BS
- Public Service and Public Policy, BS
- Public Service and Public Policy (Business), BS
- Public Service and Public Policy (Criminology), BS
- Public Service and Public Policy (Emergency Management and Homeland Security), BS
- Public Service and Public Policy (Health Policy), BS
- Public Service and Public Policy (Law and Policy), BS
- Public Service and Public Policy (Sustainability), BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

33 credit hours including the required applied project course (PAF 593).

Required Core (21 credit hours)

- PAF 510 Foundations of Program Evaluation I: Multiple Regression (3)
- PAF 511 Foundations of Program Evaluation II: Research Design (3)
- PAF 512 Foundations of Program Evaluation III: Advanced Regression Tools (3)
- PAF 513 Foundations of Data Science I: Introduction to Data Programming in R (3)
- PAF 514 Foundations of Data Science II: Data Wrangling (3)
- PAF 515 Foundations of Data Science III: Project Management (3)
- PAF 516 Community Analytics (3)

Electives (9 credit hours)

Culminating Experience (3 credit hours)

PAF 593 Applied Project (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a minimum of a bachelor's or master's degree in criminology and criminal justice, social work, public service, nonprofit management, parks and recreation management, tourism management, business, education, family studies, public health, psychology, or a related social and applied sciences field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Public Administration, EMPA (PPPUAEMPA)

Online Degree Search Title: Public Administration - Executive, EMPA

Campus: Online

ASU is not currently accepting applications for this program.

Program Description: The EMPA program is designed for public sector leaders throughout the world who already have achieved considerable professional success prior to being admitted into the program.

It is a 19-month online graduate degree program which also features three-day face-to-face executive sessions in both Phoenix and Washington, D.C. Students participate in the program as part of a learning cohort, and the one-course-at-a-time online structure enables them to maintain a work-life balance as they immerse themselves in each topic.

The learning experience begins with an orientation and executive session in Phoenix. Approximately one year later, the class reconvenes in Washington, D.C., for a second executive session. The executive master's degree program ends in Phoenix, where students present their applied projects.

The program enables students to expand the breadth and depth of their professional network. The online curriculum attracts a more geographically diverse pool of applicants from around the world. The executive sessions in Phoenix and Washington, D.C., further enable students to develop deeper relationships with their classmates.

Executive Master of Public Administration students are selected based on their ability to demonstrate the value they would add to the learning experience of the entire class, and a new cohort begins each year.

Degree Requirements:

30 credit hours including the required applied project course (PAF 593).

Required Core (27 credit hours)

PAF 504 Microeconomics of Public Policy I (3) or TGM 581 Negotiating in a Global Context (3)

PAF 508 Organization Behavior (3)

PAF 574 Diversity, Ethics and Leading Public Change (3)

PAF 582 E-Public Administration (3)

PAF 585 Strategic Planning for Public Sector Leaders (3)

PAF 586 Data Analytics for the Public Good (3)

PAF 587 Federal Budgeting and Tax Policy (3)

PAF 588 Global Public Policy (3)

PAF 589 Leadership in Public Organizations (3)

Culminating Experience (3 credit hours)

PAF 593 Applied Project (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Exceptions to the GPA requirements may be considered based on the professional achievements demonstrated by the applicant as determined by applicant's resume and other application materials. In addition to the GPA requirement, applicants are expected to have five to seven years of progressive leadership experience.

The personal statement must be 300 words or fewer and should include what experiences and qualities the student will bring to the program. The student must also discuss their career objectives and how they plan to leverage the degree to help achieve those objectives. In addition, applicants may provide any supplementary information that would strengthen the personal statement.

Career Opportunities: Students in the Executive Master of Public Administration program are seeking to further advance or switch to careers in local, state, tribal and federal governments or nonprofit and private organizations that regularly interface with the public sector.

Public Administration, MPA (PPPADTMPA)

Online Degree Search Title: Public Administration, MPA

Campus: Downtown Phoenix, ASU at Hainan, Online

Program Description: The MPA is a professional degree program designed to prepare students for public service at all levels of government as well as the nonprofit and private sectors.

The program consists of a core curriculum emphasizing managerial and analytic skills needed in a large range of careers that serve the public good. Students may also elect to specialize in one of four approved concentrations:

- emergency management
- nonprofit administration
- public finance
- urban management

This program can be completed full time or part time.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as concurrent degree program with:

- American Indian Studies (Tribal Leadership and Governance), MS
- Criminology and Criminal Justice, MS
- Social Work - Standard Program, MSW
- Sustainability Solutions, MSUS
- Urban and Environmental Planning, MUEP

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Construction Management and Technology, BS
Emergency Management and Homeland Security, BS
Political Science, BA
Political Science, BS
Public Service and Public Policy, BS
Public Service and Public Policy (American Indian Studies), BS
Public Service and Public Policy (Business), BS
Public Service and Public Policy (Criminology), BS
Public Service and Public Policy (Emergency Management and Homeland Security), BS
Public Service and Public Policy (Health Policy), BS
Public Service and Public Policy (Law and Policy), BS
Public Service and Public Policy (Nonprofit Leadership and Management), BS
Public Service and Public Policy (Parks and Recreation Management), BS
Public Service and Public Policy (Social Services Delivery), BS
Public Service and Public Policy (Sustainability), BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

42 credit hours including the required capstone course (PAF 509).

Required Core (27 credit hours)

PAF 501 Public Service Research I (3)

PAF 502 Public Service Research II (3)

PAF 503 Public Affairs (3)

PAF 504 Microeconomics of Public Policy I (3)

PAF 505 Public Policy Analysis (3)

PAF 506 Public Budgeting and Finance (3)

PAF 507 Public Human Resource Management (3)

PAF 508 Organization Behavior (3)

PAF 574 Diversity, Ethics and Leading Public Change (3)

Electives or Research (12 credit hours)

Culminating Experience (3 credit hours)

PAF 509 Public Affairs Capstone (3)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives. Approved elective credit hours may include courses offered by the school or other academic units in the university.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in a related field. Related fields include social science degrees, although the department may accept applicants with degrees from all educational backgrounds provided the minimum requirements for the degree program are met.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency
2024-25 Academic Catalog Archive

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency. Additional requirements for international students are available on the ASU Admission Services website (<https://admission.asu.edu/apply/international/graduate/english-proficiency>).

The letters of recommendation should be from faculty members or other academic staff who can evaluate the applicant's academic performance.

The written statement should be one to two pages in length and describe the applicant's educational and career goals. This statement is also used as a sample of the applicant's writing abilities.

Applicants also may submit a resume or other documents.

Fees increase after the deadline.

Students enrolling in Master of Public Administration core courses must demonstrate minimum competency in statistics and American government, typically through the completion of an undergraduate social statistics course, such as PAF 301 Applied Statistics and undergraduate coursework in American national government, such as POS 310 American National Government. Completion of prerequisite courses is not a requirement for admission but must be completed within one semester after starting the program. Students also may satisfy the American national government competency by successfully completing a noncredit online course offered by the School of Public Affairs to incoming students.

Applicants should email spa@asu.edu (<mailto:spa@asu.edu>) if they have questions about the application process.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/mpa-public-administration>) for program descriptions and to request more information.

Career Opportunities: Graduates are prepared to pursue a career in a field related to public administration or public policy. This may include opportunities as a manager or policy analyst in local, state or federal agencies; nonprofit organizations; and private organizations that interface with the public sector.

Public Administration (Certificate), Certificate (PPUAGRCT)

Online Degree Search Title: Public Administration (Graduate Certificate)

Campus: Downtown Phoenix

Program Description: Through comprehensive coverage of topics in public administration, management and policy, students in the graduate certificate program in public administration discover the challenges of management, learn how to lead a public organization and understand the process of policy development.

The program is designed to give students a solid foundational understanding of administration, leadership and policy analysis in service to the public good.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

PAF 503 Public Affairs (3)

PAF 505 Public Policy Analysis (3)

Electives (9 credit hours)

Additional Curriculum Information

Electives are chosen from a list of preapproved courses and are selected with the faculty advisor. The faculty advisor directs the selection of the electives to ensure they focus on a common theme and to see that the student's experiences in the courses align with the learning goals outlined for the certificate. For the electives, the student must select any three 3-credit PAF courses at the 500 level.

Students are required to maintain a minimum GPA of 3.00 (scale is 4.00 = "A") and to have no more than one grade below a "B-" in courses taken to complete the certificate program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of career and educational goals
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Students from related fields such as public policy, political science, planning, urban and metropolitan studies, sociology, as well as other social science degrees might be interested in this program. However, all eligible students are considered.

Students should see the program website for application deadlines and admission terms.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Interact productively with a diverse and changing workforce and citizenry.

- Employ analytic frameworks for supporting decision-making in public organizations and contributing to the policy process.

Career Opportunities: Graduates are prepared to pursue a career in a field related to public administration or public policy, particularly in the areas of participatory governance and public engagement. This may include opportunities as either a manager or policy analyst in local, state or federal agencies; nonprofit organizations; and private organizations that interface with the public sector.

Public Administration (Emergency Management), MPA (PPPAFEMPA)

Online Degree Search Title: Public Administration (Emergency Management), MPA

Campus: Downtown Phoenix, ASU at Hainan

Program Description: The MPA is a professional degree program designed to prepare students for public service at all levels of government as well as the nonprofit and private sectors.

The program consists of a core curriculum emphasizing managerial and analytic skills needed in a large range of careers that serve the public good. Through a focused set of electives, the concentration in emergency management provides students with the skills and knowledge they need in order to manage and assume positions of leadership in the field of emergency management within government, private, nonprofit and civic organizations. An all-hazards and all-threats orientation paired with a focus on community resilience and communication provides the student with a generalist perspective, which is critically important for the disaster managers of today and tomorrow.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Emergency Management and Homeland Security, BS
Public Service and Public Policy, BS
Public Service and Public Policy (American Indian Studies), BS
Public Service and Public Policy (Business), BS
Public Service and Public Policy (Criminology), BS
Public Service and Public Policy (Emergency Management and Homeland Security), BS
Public Service and Public Policy (Health Policy), BS
Public Service and Public Policy (Law and Policy), BS
Public Service and Public Policy (Nonprofit Leadership and Management), BS
Public Service and Public Policy (Parks and Recreation Management), BS
Public Service and Public Policy (Social Services Delivery), BS
Public Service and Public Policy (Sustainability), BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

42 credit hours including the required capstone course (PAF 509).

Required Core (27 credit hours)

PAF 501 Public Service Research I (3)

PAF 502 Public Service Research II (3)

PAF 503 Public Affairs (3)

PAF 504 Microeconomics of Public Policy I (3)

PAF 505 Public Policy Analysis (3)

PAF 506 Public Budgeting and Finance (3)

PAF 507 Public Human Resource Management (3)

PAF 508 Organization Behavior (3)

PAF 574 Diversity, Ethics and Leading Public Change (3)

Required Concentration (9 credit hours)

PAF 520 Public Management (3)

PAF 552 Integrated Emergency Management (3)

PAF 555 Information Technology in Emergency Management (3)

Electives or Research (3 credit hours)

Culminating Experience (3 credit hours)

PAF 509 Public Affairs Capstone (3)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in a related field. Related fields include political science, criminology, planning, business, urban and metropolitan studies, and other social science fields. Although most students for the graduate concentration would likely come from the aforementioned degree fields, the department may accept applicants with undergraduate degrees from all educational backgrounds provided the minimum requirements for the degree program are met.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of career and educational goals
- two letters of recommendation (both of which should be academic recommendations)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Students who enroll in Master of Public Administration core courses must demonstrate minimum competency in statistics and American government, typically through the completion of an undergraduate social statistics course such as PAF 301 Applied Statistics and undergraduate coursework in American national government such as POS 310 American National Government. Completion of prerequisite courses is not a requirement for admission but must be completed within one semester after starting the program. Students may also satisfy the American national government competency by successfully completing a noncredit online course offered by the School of Public Affairs to incoming students.

Applicants should email spa@asu.edu (<mailto:spa@asu.edu>) if they have questions about the application process.

Career Opportunities: Graduates are prepared to pursue a career in a field related to public administration or public policy. This may include opportunities as a manager or policy analyst in local, state or federal agencies; in nonprofit organizations; and in private organizations that interface with the public sector.

Public Administration (Nonprofit Administration), MPA (PPNONPRMPA)

Online Degree Search Title: Public Administration (Nonprofit Administration), MPA

Campus: Downtown Phoenix

Program Description: The MPA is a professional degree program designed to prepare students for public service at all levels of government as well as in the nonprofit and private sectors. The program consists of a core curriculum emphasizing managerial and analytic skills required for work in a large range of careers that serve the public good.

The nonprofit administration concentration builds on the core program through the application of administrative and leadership principles to train students as professionals who choose careers in the nonprofit sector. Students focus on the managerial aspects of running nonprofit organizations that solve specific challenges in communities around the world and that provide necessary services not available through traditional markets or government providers. Students gain important skills they need in order to succeed, including financial management, volunteer management, fundraising, strategic planning and experience working with boards of directors.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Electives or Research (3 credit hours)

Culminating Experience (3 credit hours)

PAF 509 Public Affairs Capstone (3)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives as well as the list of courses that may fulfill the concentration requirement. Approved elective credit hours may include courses offered by the school or other academic units in the university.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in a related field. Related fields include social science disciplines, although the department may accept applicants with degrees from all educational backgrounds provided the minimum requirements for the degree program are met.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. Additional requirements for international students are available at the Admission Services website (<https://admission.asu.edu/apply/international/graduate/english-proficiency>).

The letters of recommendation should be from faculty or other academic staff who can evaluate the applicant's academic performance.

The written statement should be one to two pages in length and describe the applicant's educational and career goals. This statement is also used as a sample of the applicant's writing abilities.

Applicants may also submit a resume or other documents.

Fees increase after the deadline.

Students enrolling in Master of Public Administration core courses must demonstrate minimum competency in statistics and American government, typically through the completion of an undergraduate social statistics course such as PAF 301 Applied Statistics and undergraduate coursework in American national government such as POS 310 American National Government. Public Administration (Public Finance), MPA (PPPAFPMPA)

Online Degree Search Title: Public Administration (Public Finance), MPA

Campus: Downtown Phoenix

Program Description: The MPA is a professional degree program designed to prepare students for public service at all levels of government as well as in the nonprofit and private sectors.

The program consists of a core curriculum emphasizing managerial and analytic skills needed in a large range of careers that serve the public good. Through a focused set of electives, the concentration in public finance provides knowledge and skills for students to excel in areas in which financial management plays an integral role in governance. The concentration deepens knowledge of urban economics, managing money in the public sector, public budgeting, and capital budgeting and financing.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Emergency Management and Homeland Security, BS
- Public Service and Public Policy, BS

Public Administration and Policy, PHD (PPPUBADPHD)

Online Degree Search Title: Public Administration and Policy, PhD

Campus: Downtown Phoenix

Program Description: The PhD in public administration and policy is a theoretically grounded research degree program designed to prepare students for a research-based career. This is a four-year, full-time degree program.

This program is designed to develop well-rounded, independent scholars who are grounded in the classic and current literatures of public administration and public policy, skilled in research methods, and ready to contribute to the field through research and teaching. As a result, graduates are poised for success as productive and active scholars, researchers and teachers.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (24 credit hours)

PAF 601 Advanced Public Policy Seminar (3)

PAF 602 Advanced Research Design for Public Policy and Management (3)

PAF 603 Advanced Economics for Public Administration and Public Policy (3)

PAF 604 Intellectual Foundations of Public Administration (3)

PAF 605 Organization Theory and Behavior Seminar (3)

PAF 609 Advanced Quantitative Methods Seminar (3)

PAF 610 Advanced Qualitative Methods for Public Affairs Research (3)

PAF 620 Public Administration Professional Development Workshop (3)

Electives (42 credit hours)

Research (6 credit hours)

PAF 792 Research (6)

Culminating Experience (12 credit hours)

PAF 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a master's degree from a regionally accredited institution.

ASU's School of Public Affairs expects applicants for the doctorate to have demonstrated competency in the following subject areas at the time of application: organizational theory, public policy analysis, economics and quantitative analysis.

Applicants who have obtained a master's degree accredited by the Network of Schools of Public Policy, Affairs and Administration in public affairs, public administration or public policy are not required to complete prerequisites for admission to ASU's School of Public Affairs. In some cases, applicants from allied fields (i.e., political science, economics, sociology, business) are not required to complete prerequisites, depending upon the extent to which previous training aligns with the competencies described above.

As is the case with all applicants, the doctoral program director or advisors may require or recommend completion of courses when there is a perceived deficit, especially if the deficit relates to graduate-level quantitative analysis and economics (PAF 502 and PAF 504, respectively, or equivalent courses). However, these requirements or recommendations, if any, are not a barrier to admission.

In cases where the doctoral student applicant has graduated from a public affairs, public administration or public policy program from another nation, or from a program not accredited by NASPAA, the applicant may be admitted and required to meet prerequisites after a review by the doctoral committee and doctoral program director.

Students applying with master's degrees from programs not closely related to public affairs (e.g., engineering, modern languages, chemistry) are required to meet prerequisites equivalent to the courses required for either ASU's Master of Public Administration or Master of Public Policy.

Prior to enrolling in any of the school's core classes, all students are expected to be familiar with the foundational competency readings related to organizational theory, public policy analysis, economics and quantitative analysis.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program and have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate coursework
- completed checklist
- written statement
- current resume or curriculum vitae
- three letters of recommendation
- samples of research reports or papers
- GRE scores (verbal, quantitative, analytical)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must submit TOEFL scores to be considered for admission, regardless of their current residency; applicants should use institution code 4007. This is true even for those who have a master's degree from a United States university. To be considered for admission to the doctoral program in public administration and policy, the minimum score on a TOEFL iBT is 100. Applicants with scores below the minimum are not considered. More on the English proficiency requirement is available at the Admission Services website (<https://admission.asu.edu/apply/international/graduate/english-proficiency>).

The written statement of educational and career goals must include a discussion of research interests.

The letters of recommendation should be primarily from faculty members. All letters should address the candidate's capacity to successfully complete the doctoral program. They should assess the student's capacity for critical and analytic thought, their ability to communicate effectively, both orally and in writing, and their commitment to completion of the program.

Only GRE test scores from within the past five years are accepted, and analytical scores are considered in admission decisions. ASU does not accept the GRE® General Test at home edition.

Admission is competitive; a limited number of well-qualified applicants are admitted each year.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Able to design curriculum for public service students
- Carry out an independent research project.
- Synthesize core theories, concepts and ideas as used and applied in public administration and policy.

Career Opportunities: Graduates of this degree program are prepared to conduct high-level research and policy development in academic careers, public and nonprofit agencies, foundations and research institutes. This may include opportunities as a college or university professor, research scientist, research associate or researcher for another organization.

Public Policy, MPP (PPPUBPMPP)

Online Degree Search Title: Public Policy, MPP

Campus: Downtown Phoenix

Program Description: The MPP program equips students with the analytical tools they need in order to understand and address public policy issues. Students also develop skills in managing the process of policy development, approval, implementation and evaluation, as well as gain policy-specific knowledge on issues such as poverty, education, the environment and public safety.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as concurrent degree program with:

- Criminology and Criminal Justice, MS
- Sustainability Solutions, MSUS
- Urban and Environmental Planning, MUEP

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Emergency Management and Homeland Security, BS
- Political Science, BA
- Political Science, BS
- Public Service and Public Policy, BS
- Public Service and Public Policy (American Indian Studies), BS
- Public Service and Public Policy (Business), BS
- Public Service and Public Policy (Criminology), BS
- Public Service and Public Policy (Emergency Management and Homeland Security), BS
- Public Service and Public Policy (Health Policy), BS
- Public Service and Public Policy (Law and Policy), BS
- Public Service and Public Policy (Nonprofit Leadership and Management), BS
- Public Service and Public Policy (Parks and Recreation Management), BS
- Public Service and Public Policy (Social Services Delivery), BS
- Public Service and Public Policy (Sustainability), BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

42 credit hours including the required capstone course (PAF 509).

Required Core (27 credit hours)

PAF 501 Public Service Research I (3)
PAF 502 Public Service Research II (3)
PAF 504 Microeconomics of Public Policy I (3)
PAF 505 Public Policy Analysis (3)
PAF 540 Advanced Policy Analysis (3)
PAF 541 Program Evaluation (3)
PAF 570 Microeconomics of Public Policy II (3)
PAF 573 Applied Econometrics (3)
PAF 574 Diversity, Ethics and Leading Public Change (3)

Electives (12 credit hours)

Culminating Experience (3 credit hours)
PAF 509 Public Policy Capstone (3)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate coursework
- two letters of recommendation
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency. Additional requirements for international students are available on the Admission Services website (<https://admission.asu.edu/apply/international/graduate>).

The letters of recommendation must be from faculty or other academic staff who can evaluate applicant's academic performance.

The one- to two-page written statement should state the applicant's educational and career goals; it also is used as a sample of the applicant's writing abilities.

Applicants may also submit a resume or other documents.

Fees increase after the deadline.

Students enrolling in Master of Public Policy core courses must demonstrate minimum competency in statistics and American government, typically through the completion of an undergraduate social statistics course such as PAF 301 Applied Statistics and undergraduate coursework in American national government such as POS 310 American National Government. Completion of prerequisite courses is not a requirement for admission but they must be completed within one semester after starting the program. Students may also satisfy the American national government competency by successfully completing a noncredit online course offered to incoming students by the School of Public Affairs.

Applicants should email spa@asu.edu (<mailto:spa@asu.edu>) if they have questions about the application process.

Career Opportunities: Graduates of this degree program are prepared for professional careers as policy analysts and leaders in public service involved in the creation and management of public policy at all levels of government and in the private and nonprofit sectors. This may include opportunities as either a manager or policy analyst in local, state or federal agencies; in nonprofit organizations; and in private organizations that interface with public sectors.

The program can also serve as a platform for preparation for doctoral studies in public policy, public administration, urban studies and other related programs.

Public Policy (Certificate), Certificate (PPPUPGRCT)

Online Degree Search Title: Public Policy (Graduate Certificate)

Campus: Downtown Phoenix

Program Description: This certificate program in public policy is designed to give students analytical techniques and conceptual frameworks for understanding policy issues as well as for identifying potential solutions and applying these skills to relevant issues.

Degree Requirements:

15 credit hours.

Required Core (9 credit hours)

PAF 505 Public Policy Analysis (3)

PAF 540 Adv Policy Analysis (3)

PAF 541 Program Evaluation (3)

Electives (6 credit hours)

Additional Curriculum Information

The electives are chosen from a list of preapproved courses and are selected with the faculty advisor. The faculty advisor directs the selection of the electives to ensure that they focus on a common theme and to see that the students' experiences in the courses align with the learning goals outlined for the certificate. For the electives, students select any two three-credit PAF courses that are 500-level.

Students are required to maintain a minimum GPA of 3.00 (scale is 4.00 = "A") and to have no more than one grade below a "B" in courses taken to complete the certificate program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of career and educational goals
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Students from related fields (e.g., public administration, political science, planning, urban and metropolitan studies, sociology and other social science fields) might be interested in this program. However, all eligible students are considered.

Students should see the program website for application deadlines and admission terms.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Lead evidence-based efforts to solve public challenges within diverse and changing organizations and societies.
- Apply analytic techniques for developing, comparing and improving public policy solutions.

Career Opportunities: Students who receive this certificate are prepared to pursue a career in a field related to public administration or public policy, particularly in the areas of participatory governance and public engagement. This may include opportunities as either a manager or policy analyst in local, state or federal agencies; nonprofit organizations; and private organizations that interface with the public sector.

Public Policy (Environmental Policy), MPP (PPUPEPMPP)

Online Degree Search Title: Public Policy (Environmental Policy), MPP

Campus: Downtown Phoenix

Program Description: The MPP program equips students with the analytical tools needed to understand and address public policy issues. Students also develop skills in managing the process of policy development, approval, implementation and evaluation.

Through a focused set of electives, the Master of Public Policy concentration in environmental policy deepens student expertise in specific areas and issues, such as the implementation of sustainable practices in local governments, and builds the knowledge base and skills that will enable them to bring sustainability solutions to the government, corporate and nonprofit sectors.

At the conclusion of the master's degree program, students are prepared to apply sustainability principles and approaches to careers in a variety of fields that address environmental and, inevitably, human challenges.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Emergency Management and Homeland Security, BS
- Public Service and Public Policy, BS
- Public Service and Public Policy (American Indian Studies), BS
- Public Service and Public Policy (Business), BS
- Public Service and Public Policy (Criminology), BS
- Public Service and Public Policy (Emergency Management and Homeland Security), BS
- Public Service and Public Policy (Health Policy), BS
- Public Service and Public Policy (Law and Policy), BS
- Public Service and Public Policy (Nonprofit Leadership and Management), BS
- Public Service and Public Policy (Parks and Recreation Management), BS
- Public Service and Public Policy (Social Services Delivery), BS
- Public Service and Public Policy (Sustainability), BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

42 credit hours including the required capstone course (PAF 509).

Required Core (27 credit hours)

PAF 501 Public Service Research I (3)

PAF 502 Public Service Research II (3)

PAF 504 Microeconomics of Public Policy I (3)

PAF 505 Public Policy Analysis (3)

PAF 540 Advanced Policy Analysis (3)

PAF 541 Program Evaluation (3)

PAF 570 Microeconomics of Public Policy II (3)

PAF 573 Applied Econometrics (3)

PAF 574 Diversity, Ethics and Leading Public Change (3)

Concentration (6 credit hours)

PAF/SOS 545 Creating Sustainable Organizations (3)

PAF 546 Environmental Policy and Management (3)

Restricted Electives (6 credit hours)

Culminating Experience (3 credit hours)

PAF 509 Public Affairs Capstone (3)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution. Related fields include political science, sustainability, planning, business, urban and metropolitan studies, and other social science disciplines, although the department may accept applicants with undergraduate degrees from all educational backgrounds provided the minimum requirements for the degree program are met.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Public Policy (Science and Technology Policy), MPP (PPPUPSTMPP)

Online Degree Search Title: Public Policy (Science and Technology Policy), MPP

Campus: Downtown Phoenix, Tempe

Program Description: The MPP program allows students to approach the study of public policy with a focus on public policy in the urban setting.

The program trains people to lead by making positive policy decisions; addressing the difficult questions associated with public policy; and managing the process of policy creation, approval, implementation and evaluation. Students also gain an understanding of policies addressing issues such as poverty, education, the environment and public safety. At the conclusion of the master's degree program, students are able to identify, analyze and interpret the challenges and dilemmas of public policies, especially those of urban areas. Students also are able to approach policy analysis with a variety of quantitative and qualitative methods, and they're prepared to develop innovative processes and tools to deal with changing realities of public policy and address issues on a global, regional and local scale.

The Master of Public Policy program with a concentration in science and technology policy provides knowledge and skills for students seeking or

advancing careers in areas in which science and technology are either guided by public policy or play an integral role in the policy process. This concentration emphasizes theories and research concerning the role of science in decision-making, complexity theory, institutional design of knowledge production organizations, national innovation systems, innovation and industrial policy, technology transfer and research evaluation.

Public Safety Leadership & Administration (Emergency Medical Services-Mobile Integrated Healthcare), MP SLA (PPPSEMMPSL)

Online Degree Search Title: Public Safety Leadership and Administration (EMS - Mobile Integrated Health Care), MP SLA

Campus: Online

Program Description: The MP SLA degree program is designed primarily for public safety professionals. An advanced degree is an important key to career progression within public safety administration. Those with an advanced degree have a significant advantage --- a practical understanding of public safety organization administration --- when they seek to progress in their profession.

The emergency medical services mobile integrated healthcare concentration provides the foundation for leadership and administration of EMS organizations. This program takes a multiprofessional approach to administration of EMS organizations and encompasses public policy and administration, organizational management and leadership, finance and data analysis. Students develop a solid foundation of knowledge and skills on which to build success within the field of EMS administration.

Degree Requirements:

33 credit hours including the required applied project course (CRJ 593).

Required Core (15 credit hours)

PAF 506 Public Budgeting and Finance (3)

CRJ 510 Criminal Justice Planning and Program Evaluation (3)

CRJ 574 Executive Leadership Principles in Public Service (3)

PAF 507 Public Human Resource Management (3)

PAF 508 Organization Behavior (3)

Concentration (9 credit hours)

CRJ 571 Foundations of Emergency Medical Services (3)

CRJ 572 Community Paramedicine: Mobile Integrated Health Care (3)

HCD 502 Foundations of U.S. Health Systems and Design (3)

Electives or Research (6 credit hours)

Culminating Experience (3 credit hours)

CRJ 593 Applied Project (3)

Additional Curriculum Information

Students choose two courses from a restricted list or any graduate-level CPP or PAF course, with program approval, for the electives or research credits.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology or criminal justice, public administration or public service, sociology or social work, public safety or fire service management, parks and recreation management, applied sciences or another closely related field from a regionally accredited college or university.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- written statement
- evidence of current employment in an organization in the field of the degree program or concentration, or at least two years of professional experience in the field of the chosen degree program or concentration
- resume/curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The written statement should be one or two pages and describe prior education, relevant professional experience and career goals, and explain how the criminal justice program will help them attain their career goals. The statement should explicitly explain how their plans are consistent with the role and mission of the School of Criminology and Criminal Justice at ASU. It is recommended that applicants who feel they are weak in a particular area or admission requirement address their plan to remedy any shortcomings if they are granted provisional admission to the program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/masters-public-safety-leadership-and-administration-emergency/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Critically integrate theoretical perspectives on leadership into the planning and evaluation of public safety programs.
- Demonstrate the essential qualifications for employment in public safety leadership roles by applying their foundational knowledge of organizational leadership and administration to a final written project.
- Able to effectively manage employees, multi-agency partnerships and organizational change efforts in emergency medical service agencies.

Career Opportunities: With the Master of Public Safety Leadership and Administration degree from ASU, graduates are in a position to lead and improve EMS teams in mobile integrated health care. They have knowledge and skills that uniquely qualify them for leadership positions in different types of EMS agencies, such as hospitals, public health departments and managed care organizations. Graduates should expect to find employment and advancement in all levels of government agencies and in the private sector.

Specific career opportunities include:

- ambulance dispatcher
- emergency medical technician
- firefighter
- medical assistant

- paramedic

Electives or Research (6 credit hours)

Culminating Experience (3 credit hours)
CRJ 593 Applied Project (3)

Additional Curriculum Information

Students choose two courses from a restricted list or any graduate-level CPP or PAF course, with program approval, for the electives or research credits.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology or criminal justice, public administration or public service, sociology or social work, public safety or fire service management, parks and recreation management, applied sciences or another closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- written personal statement
- evidence of current employment in an organization in the field of the degree program and concentration or at least two years of professional experience in the field of the chosen degree program and concentration
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The written statement should be one or two pages and describe the applicant's prior education, relevant professional experience and career goals, and explain how the criminal justice program will help them attain their career goals. The statement should explicitly explain how their plans are consistent with the role and mission of the School of Criminology and Criminal Justice at ASU.

It is recommended that applicants who feel that they are weak in a particular area or admission requirement address their plan to remedy any shortcomings if they are granted provisional admission to the degree program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/masters-public-safety-leadership-and-administration-executive-fire/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Critically integrate theoretical perspectives on leadership into the planning and evaluation of public safety programs.
- Demonstrate the essential qualifications for employment in public safety leadership roles by applying their foundational knowledge of organizational leadership and administration to a final written project.
- Able to effectively manage organizational operations and change efforts in fire services.

Career Opportunities: Graduates with a concentration in fire administration are well-equipped to drive innovation from the upper levels of fire service in federal, state and local fire departments and emergency management agencies. They should expect to find employment and advancement in all levels of government agencies as well as in the private sector.

Career examples include:

- firefighter supervisor
- fire inspector
- fire investigator
- fire prevention and protection engineer
- municipal firefighter

Public Safety Leadership and Administration (Executive Police Administration), MPSLA (PPPSEPMPSL)

Online Degree Search Title: Public Safety Leadership and Administration (Executive Police Administration), MPSLA

Campus: Online

Program Description: The MPSLA degree program is designed primarily for public safety professionals. This advanced degree offers those who wish to progress in their career within public safety administration an important advantage: a practical understanding of public safety organization administration.

This graduate program, through its accomplished faculty and intricately connected curriculum, endeavors to advance students' leadership, policy and administrative acumen.

The executive police administration concentration program provides law enforcement professionals with the highly specialized knowledge and practical skills required to rise to leadership positions in a law enforcement organization. This program enhances the leadership, management and administrative skills and the knowledge and ability of present and future senior and midlevel managers, and it addresses the critical areas in the management of a contemporary law enforcement agency.

Degree Requirements:

33 credit hours including the required applied project course (CRJ 593).

Required Core (15 credit hours)

PAF 506 Public Budgeting and Finance (3)

CRJ 510 Criminal Justice Planning and Program Evaluation (3)

CRJ 574 Executive Leadership Principles in Public Safety (3)

PAF 507 Public Human Resource Management (3)

PAF 508 Organization Behavior (3)

Concentration (9 credit hours)

CRJ 501 Seminar in Criminal Justice (3)

CRJ 516 Seminar in Criminal Justice Organization and Management (3)

CRJ 518 Seminar on Race/Ethnicity, Crime and Justice (3)

Electives or Research (6 credit hours)

Culminating Experience (3 credit hours)

CRJ 593 Applied Project (3)

Additional Curriculum Information

Students choose one course from a restricted list or any graduate-level CPP, CRJ or PAF course, with program approval, for the electives or research credit.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply if they have earned a bachelor's or master's degree in criminology or criminal justice, public administration or public service, sociology or social work, public safety or fire service management, parks and recreation management, applied sciences or another closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- written statement

- evidence of current employment in an organization in the field of the degree program or concentration, or at least two years of professional experience in the field of the chosen degree program or concentration
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The written statement should be one to two pages and describe the applicant's prior education, relevant professional experience and career goals, and it should explain how the criminal justice program will help them attain their career goals. The statement should explicitly explain how the applicant's plans are consistent with the role and mission of the School of Criminology and Criminal Justice at ASU. It is recommended that applicants who feel they are weak in a particular area or in an admission requirement address their plan to remedy any shortcomings if they are granted provisional admission to the degree program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/masters-public-safety-leadership-and-administration-executive-police/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Critically integrate theoretical perspectives on leadership into the planning and evaluation of public safety programs.
- Demonstrate the essential qualifications for employment in public safety leadership roles by applying their foundational knowledge of organizational leadership and administration to a final written project.
- Able to effectively manage employees and change efforts in police organizations.

Career Opportunities: Graduates are equipped to perform managerial duties in federal, state, local, territorial and tribal law enforcement agencies. They also are prepared for roles in probation and parole, child support services, homeland security and allied security professions. Graduates should expect to find employment and advancement in all levels of government agencies and in the private sector.

Career examples include:

- chief of police
- first-line police supervisor
- police detective
- police dispatcher
- special agent

Social Entrepreneurship and Community Development (certificate), Certificate (PPSECDGRCT)

Online Degree Search Title: Social Entrepreneurship and Community Development (Graduate Certificate)

Campus: Downtown Phoenix, Online

Program Description: The social entrepreneurship and community development graduate certificate program provides a framework for harnessing entrepreneurial and enterprise opportunities and creating transformative responses to societal challenges. The program combines social entrepreneurship with community and social innovation, providing a basis for exploring capacity-building and fostering positive change for organizations, communities and societies.

The certificate is designed for students studying nonprofit leadership and management, social entrepreneurship, public policy, innovation and related fields across disciplines, and it can be added to an ASU master's degree program.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

NLM 562 Social Entrepreneurship (3)

NLM 572 Community and Social Innovations (3)

Electives (9 credit hours)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International applicants are also required to submit TOEFL or IELTS scores and a financial guarantee statement.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-social-entrepreneurship-community-development/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Articulate their understanding of the concepts of social entrepreneurship and social innovation through discussion, readings, individual research and writing.
- Apply class concepts through written analyses of organizations practicing community development, social entrepreneurship and social enterprise.

Career Opportunities: Social entrepreneurship is at the leading edge of public, private and nonprofit innovation. Career options include executive officers, administrative officers, financial officers and foundation officers.

Social Work, MSW (PPSWDMSW)

Online Degree Search Title: Social Work - Standard Program, MSW

Campus: Downtown Phoenix, SYNC, ASU at Tucson, Online

Program Description: The first year of the standard program focuses on curriculum and gaining skills that build a foundational knowledge in social work. The second year of the program allows students to build specialized practice knowledge in advanced direct practice; policy, administration and community; and advanced generalist social work practice. Across all specializations, there is an emphasis on preparation for working with populations of the Southwest.

The Master of Social Work program is accredited by the Council on Social Work Education.

Students on I-20 visas are not permitted to complete courses via ASU Sync and should speak with an advisor about other options to complete this program.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as concurrent degree program with:

- American Indian Studies (Indigenous Rights and Social Justice), MS
- Juris Doctor, JD
- Public Administration, MPA

Degree Requirements:

51 credit hours and a portfolio, or 51 credit hours and a thesis, or 51 credit hours including the required applied project course (SWG 593 or SWG 693), or 51 credit hours including the required capstone course (SWG 621), or 54 credit hours and a portfolio, or 54 credit hours and a thesis, or 54 credit hours including the required applied project course (SWG 593 or SWG 693), or 54 credit hours including the required capstone course (SWG 621), or 57 credit hours and a portfolio, or 57 credit hours and a thesis, or 57 credit hours including the required applied project course (SWG 593 or SWG 693), or 57 credit hours including the required capstone course (SWG 621), or 60 credit hours and a portfolio (MSW/MPA concurrent degree), or 60 credit hours and a thesis (MSW/MPA concurrent degree), or 60 credit hours including the required applied project course (SWG 593 or SWG 693) - Advanced Generalist Track, or 60 credit hours including the required capstone course (SWG 621) (MSW/MPA concurrent degree).

STANDARD PROGRAM (ground immersion):

Required Core (3 credit hours)

SWG 510 Foundation Practice I (3)

Foundation Coursework (18 to 27 credit hours)

SWG 501 Human Behavior and the Social Environment I (3)

SWG 502 Human Behavior and the Social Environment II (3)

SWG 511 Foundation Practice II (3)

SWG 519 Research Methods in Social Work (3)

SWG 531 Social Policy and Services (3)

SWG 533 Diversity, Oppression and Social Justice in Social Work (3)

SWG 541 Generalist Practicum I (3)

SWG 542 Generalist Practicum II (3)

SWG 585 Macro Social Work Practice (3)

Restricted Electives (21 to 27 credit hours)

Other Requirements (3 credit hours)

SWG 610 Advanced Social Work Practice III (3) or

SWG 619 Practice-Oriented Research (3) or

SWG 623 Program Evaluation (3)

Culminating Experience Options (0 to 6 credit hours)

portfolio (0) or

SWG 593 Applied Project (3) or

SWG 599 Thesis (6) or

SWG 621 Integrative Seminar (3) or

SWG 693 Applied Project (3)

ADVANCED GENERALIST TRACK (digital immersion):

Required Core (3 credit hours)

SWG 510 Foundation Practice I (3)

Advanced Generalist Track Coursework (54 credit hours)

Culminating Experience Options (3 credit hours)

SWG 593 Applied Project (3) or
SWG 693 Applied Project (3)

Additional Curriculum Information

Students on the 51, 54 and 57 credit hour paths have an undergraduate Council on Social Work Education-accredited BSW in social work degree or BA degree in community advocacy and social policy. Path selection depends on the student's educational background. Students are to consult an academic advisor in the unit.

The 60 credit hour advanced generalist track is the digital immersion option. These students have a bachelor's or master's degree from a regionally accredited institution. Students in the 60 hour path must take foundation year coursework in restricted electives per CSWE accreditation standards.

All credit hour path criteria must be approved by the academic unit prior to selection in the iPOS. A student interested in moving to a concentration should notify the academic advisor prior to submitting their iPOS. The academic unit advises and monitors students to ensure they choose the appropriate coursework.

The number of credit hours required for restricted electives depends on the credit hour path chosen and the culminating experience. Students should see the academic unit for a complete list of approved electives.

The foundation year includes basic courses in direct practice, organizational and community change, social policy, human behavior and research. Foundation coursework is selected in consultation with the academic advisor. Students are required to complete two practicums: a foundation field placement (480 hours) and a specialization field placement (480 hours) in a different setting.

Other requirement coursework may be substituted with approval of the academic unit.

The program may be completed within four semesters (two years) or six semesters (three years).

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a closely related field from a regionally accredited institution.

The School of Social Work requires one of the following:

- Bachelor of Social Work from a Council on Social Work Education-accredited school of social work
- liberal arts undergraduate degree
- undergraduate degree with 30 credit hours in liberal arts courses at the undergraduate or graduate level

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate work
- three letters of reference
- professional resume that includes volunteer and paid work experience
- statement of educational and career goals
- signed standards of ethical and professional behavior form
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

A combination of academic and professional references is desirable. References from friends, family members or personal therapists are not accepted. At least one of the three required references must be from the applicant's Bachelor of Social Work field instructor or, if employed in a social work-related job for two or more years, from the applicant's supervisor.

The applicant's professional resume should include both work and volunteer experience in social service organizations. In order to be considered for possible admission, applicants who do not have work experience in social service organizations are required to have a minimum of 240 hours of volunteer experience in the social services over a six-month period in the five years immediately preceding application.

Guidelines for writing the statement of educational and career goals can be found at the program website (<https://socialwork.asu.edu/content/msw-application-proceduresmaterials>).

Test scores from either the GRE or the Miller Analogies Test are required only if the applicant's junior and senior GPA was below a 3.20 (scale is 4.00 = "A"). ASU does not accept the GRE® General Test at home edition.

Students should see the program website for application deadlines.

Three-year program

Students interested in this option must specifically apply to the part-time program and complete it in accordance with the plan developed to finish the degree in three years.

Transfer credit

Any transfer work is reviewed and approved in accordance with Graduate College policy. Transfer work must have been completed within three years of the semester and year of admission to the Master of Social Work degree program at ASU with a grade of "B" (3.00 on a 4.00 scale) or better.

Exemptions

Courses must have been completed within three years of the admit term of the Master of Social Work degree. Grades received must be an "A-" or better. A letter of good standing is required from the institution where students have taken the coursework. Course equivalencies from outside of ASU are reviewed by the MSW program coordinator. Courses identified as required core and culminating experiences in the breakdown of requirements cannot be substituted.

Concurrent degrees are currently unavailable for the online Master of Social Work degree program.

Students should contact the School of Social Work with any questions about the application process.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-social-work-social-work/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Plan, implement and evaluate evidence-based interventions
- Apply professional social work theories to working with diverse, oppressed and marginalized populations in both micro and macro practice
- Apply professional values and ethics during the advanced generalist internship

Career Opportunities: There are many paths within social work that graduates can pursue. Career examples include:

- adult and juvenile correction social worker
- behavioral health hospital social worker
- community organizer
- gerontology services patient coordinator
- group and individual clinician
- homeless services outreach coordinator or shelter director
- policy analyst
- program director and grant writer
- school social worker
- social services or nonprofit administrator

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Online Degree Search Title: Social Work, PhD

Campus: Downtown Phoenix

Program Description: The purpose of the PhD program in social work is to train future social work scholars --- social work professionals engaged in research, teaching and service.

Supplementary to the coursework, this doctoral program offers students opportunities to be actively involved in both research and teaching. Students benefit from the close mentorship of the committed faculty and regular partnerships with many internal research centers and offices. Students also have valuable opportunities to develop a teaching portfolio, positioning them to succeed in academic careers.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Social Work Courses (12 credit hours)

Research Methods and Statistics (12 credit hours)

Directed Electives (33 credit hours)

Theory (3 credit hours)

Research (12 credit hours)

SWG 792 Research (12)

Culminating Experience (12 credit hours)

SWG 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. The number of credit hours required for directed electives depends on approval of the number of blanket hours from a previously awarded master's degree. The doctoral program requires students to take a minimum of 36 course credit hours beyond the MSW, in addition to the required 24 credit hours of research and dissertation; 84 credit hours are required beyond the bachelor's degree. Students may need to take additional coursework to achieve the competency requirements set by the program or by their graduate supervisory committees.

Students develop their plan of study in consultation with the graduate supervisory committee. Required social work courses must be 700 level and approved by the doctoral program committee. Students should see the academic unit for approved course lists and other requirements for research methods and statistics courses, electives and theory coursework.

Once the student has completed the 36 minimum course credit hours, they are required to register for 12 hours of SWG 792 Research before the defense of the prospectus, and 12 hours of SWG 799 Dissertation after the prospectus defense. The student must be registered for at least one credit hour during the semester, including summer, when they do their dissertation proposal defense. At least one of the dissertation hours must be taken in the semester during which the student expects to defend the dissertation.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in social work or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate work
- curriculum vitae or resume
- personal statement
- three letters of reference
- required writing sample: social problem essay
- optional writing sample
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency
2024-25 Academic Catalog Archive

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Admission to the doctoral program in the School of Social Work is based on the following criteria:

- a Master of Social Work degree from an accredited school of social work, preferably with two or more years of postdegree employment in human services
- experience in social work teaching or research and other scholarly activities
- experience with diverse populations
- goodness-of-fit with program goals
- good professional standing
- undergraduate and graduate GPA
- quality and extensiveness of social work experience
- research potential and creativity as demonstrated in requested essays and references

Though a Master of Social Work degree is preferred, exceptions may be made for students with a BSW from an accredited school of social work and a master's degree in a related field and for students from countries without accreditation.

Applicants have the option of submitting a sample of their written work. Examples include a refereed journal article, a class paper and a professional report (such as one might write in an agency setting). The writing sample should illustrate the applicant's ability to succeed in the doctoral program. Guidelines for writing the statement can be found at the program website (<https://socialwork.asu.edu/content/application-and-admission>).

All required admission materials are submitted directly to graduate admission services (<https://admission.asu.edu/apply/graduate>). Students should contact the School of Social Work at 602-496-0800 with any questions about the application process.

Students should see the program website for application deadlines.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will develop an individual teaching philosophy for social work education.
- Students will apply knowledge of research methods to an area of social work scholarship.
- Students will develop a research proposal in an original area of social work scholarship.

Career Opportunities: Graduates are prepared to enter careers in applied research that enhance human well-being, particularly among oppressed and vulnerable populations, and to educate the next generation of social workers.

Social Work (Advanced Direct Practice), MSW (PPAPDTMSW)

Online Degree Search Title: Social Work - Advanced Standing - Direct Practice, MSW

Campus: Downtown Phoenix, ASU at Tucson

Program Description: The advanced direct practice specialization offers students four areas of practice including children, youth and families; health; behavioral health and child welfare.

Across all areas, the curriculum is guided by social work values that emphasize evidence-based practice, client strengths, social justice and client empowerment. The primary curriculum goal of the MSW program is to educate advanced social work practitioners who demonstrate the knowledge, skills, values and ethics of the profession and who are competent for specialized practice.

Students learn how to diagnose and assess mental health conditions, create treatment plans, and provide appropriate interventions in a variety of clinical and community settings.

This program is accredited by the Council on Social Work Education.

Degree Requirements:

39 credit hours including the required capstone course (SWG 621), or 51 credit hours including the required capstone course (SWG 621), or 60 credit hours including the required capstone course (SWG 621), or 60 credit hours including the required capstone course (SWG 621) (MSW/MPA)

concurrent degree) .

Required Core (3 credit hours)

SWG 510 Foundation Practice I (3) or

SWG 514 Bridge Seminar I (3)

Advanced Direct Practice Concentration (12 credit hours)

SWG 606 Assessment of Mental Disorders (3)

SWG 619 Practice-Oriented Research (3)

SWG 641 Advanced Practicum: Direct Practice I (3)

SWG 642 Advanced Practicum: Direct Practice II (3)

Specialization (6 credit hours)

Restricted Electives (15--36 credit hours)

Culminating Experience (3 credit hours)

SWG 621 Integrative Seminar (3)

Additional Curriculum Information

Students on the 39 credit hour path have an undergraduate Council on Social Work Education-accredited BSW in social work with a GPA of 3.20 in their junior and senior year within the last 6 years.

Students on the 51 credit hour path have an undergraduate CSWE-accredited BSW in social work degree.

The students on the 60 credit hour path have an undergraduate degree that is not directly in social work or community advocacy. Students in this path may need to take foundation coursework as part of their elective coursework to satisfy CSWE requirements. Students should see the academic advisor when selecting courses.

All credit hour path criteria must be approved by the academic unit prior to selection in the iPOS. The academic unit advises and monitors students to ensure they choose the appropriate coursework. Core course selection depends on the student's background.

Students select from specializations in:

- children, youth and families
- health, behavioral health
- public child welfare

The amount of restricted elective coursework depends on the credit hour path selected based on the student's background. Students should see the academic unit for a complete list of approved specialization and elective coursework.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants must have a BSW from a Council on Social Work Education-accredited program with a minimum GPA of 3.20 (scale is 4.00 = "A") in the last two years of work leading to the Bachelor of Social Work (junior and senior GPA). Applicants must have received their Bachelor of Social Work degree no more than six years prior to the date of admission to the MSW program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate work
- three letters of reference
- professional resume that includes volunteer and paid work experience
- statement of educational and career goals
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

A combination of academic and professional references is desirable. References from friends, family members or personal therapists are not accepted. At least one of the three required references must be from the applicant's Bachelor of Social Work field instructor or, if employed in a social work-related job for two or more years, from the applicant's supervisor.

Guidelines for writing the statement can be found at the program website (<https://socialwork.asu.edu/content/msw-application-proceduresmaterials>).

For questions about the application process, students should contact the School of Social Work.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply professional values and ethics during the advanced direct practice internship
- Plan, implement and evaluate evidence-based interventions
- Apply knowledge of human behavior in the social environment when working with individuals, families and groups

Career Opportunities: Graduates have the preparation they need to work with individuals, families and small groups. They work in areas such as adult and juvenile corrections, behavioral health, homeless services and gerontology services.

Career examples include:

- counselor
- group therapy clinician
- hospital or school social worker
- individual counselor
- mental health service professional
- outreach coordinator or shelter director
- wellness programmer

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Social Work (Policy, Administration and Community Practice), MSW (PPCPDTMSW)

Online Degree Search Title: Social Work - Advanced Standing - (Policy, Administration and Community Practice), MSW

Campus: Downtown Phoenix

Program Description: Students in the policy, administration and community practice specialization of the MSW learn skills to intervene across the macro level of society: in systems, institutions, agencies, organizations, laws, policies, programs and communities. Students complete a practicum in government, nonprofit, social service, advocacy and policy, or research agencies.

The Master of Social Work degree is accredited by the Council on Social Work Education and certified by the Network for Social Work Management.

Degree Requirements:

39 credit hours and a portfolio, or 39 credit hours and a thesis, or 51 credit hours and a portfolio, or 51 credit hours and a thesis, or 60 credit hours and a portfolio, or 60 credit hours and a portfolio (MSW/MPA concurrent degree), or 60 credit hours and a thesis, or 60 credit hours and a thesis (MSW/MPA concurrent degree).

Required Core (3 credit hours)

SWG 510 Foundation Practice I (3) or

SWG 514 Bridge Seminar I (3)

Policy, Administration and Community Practice Concentration (21 credit hours)

SWG 623 Program Evaluation (3)

SWG 632 Policy Practice (3)

SWG 643 Advanced Practicum: Planning, Social Work Administration and Community Practice I (3)

SWG 644 Advanced Practicum: Planning, Social Work Administration and Community Practice II (3)

SWG 681 Leadership and Administration (3)

SWG 682 Community Participation Strategies (3)

SWG 685 Program Planning in Social Services (3)

Electives (9 to 36 credit hours)

Culminating Experience (0 or 6 credit hours)

SWG 599 Thesis (6) or
portfolio (0)

Additional Curriculum Information

Students on the 39 credit hour path have an undergraduate Council on Social Work Education-accredited BSW in social work or equivalent degree with a GPA of 3.20 in their junior and senior year within the last 6 years.

Students on the 51 credit hour path have an undergraduate CSWE-accredited Bachelor of Social Work degree.

Students on the 60 credit hour path have an undergraduate degree that is not directly in social work or community advocacy. Students in this path may need to take foundation coursework as part of their elective coursework to satisfy CSWE requirements. Students should see the academic advisor when selecting courses.

All credit hour path criteria must be approved by the academic unit prior to selection in the iPOS. The academic unit advises and monitors students to ensure they choose the appropriate coursework. Core course selection depends on the student's background.

Students complete a practicum and choose one of the culminating experiences above. The amount of elective coursework allowed depends on the credit hour path chosen and the culminating experience selected. Electives may be selected from offerings at the School of Social Work or from courses offered through other departments with the approval of the Master of Social Work program coordinator.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants must have a BSW from a Council on Social Work Education-accredited program with a minimum GPA of 3.20 (scale is 4.00 = "A") in the last two years of work leading to the Bachelor of Social Work (junior and senior GPA). Applicants must have received their Bachelor of Social Work degree no more than six years prior to the date of admission to the Master of Social Work program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate work
- three letters of reference
- professional resume that includes volunteer and paid work experience
- statement of educational and career goals
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

A combination of academic and professional references is desirable. References from friends, family members or personal therapists are not accepted. At least one of the three required references must be from the applicant's Bachelor of Social Work field instructor or, if employed in a social work-related job for two or more years, from the applicant's supervisor.

Guidelines for writing the statement can be found on the program website (<https://socialwork.asu.edu/content/msw-application-proceduresmaterials>).

Applicants should see the program website for application deadlines.

Students should contact the School of Social Work with any questions about the application process.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Plan, implement and evaluate evidence-based interventions
- Applying theoretical concepts related to policy, administration and community in the field practicum setting
- Apply professional values and ethics during the advanced policy, administration and community field practicum

Career Opportunities: The program prepares professional social workers for leadership in social change.

Graduates work for social justice and human rights through building sustainable systems that support peoples' social well-being, often by

addressing the root causes of social problems and by reforming unjust policies. Policy, administration and community practice roles include program planning and evaluation; policy development and analysis; political advocacy and lobbying; organizational leadership, management and supervision; grant writing; community development, organizing and social movement building.

Career examples include:

- community advocate
- community organizer
- grant and fund developers
- nonprofit leadership and management
- policy analyst
- social services administration

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Social Work - Advanced Standing - Advanced Generalist, MSW (PPASWMSW)

Online Degree Search Title: Social Work - Advanced Standing - Advanced Generalist, MSW

Campus: West, ASU at Yuma, Online

Program Description: The advanced standing advanced generalist specialization of the MSW builds on mastery of the generalist foundation to increase the depth and breadth of practice.

Students learn both the micro skills of direct practice and macro skills of community development. Advanced generalist faculty emphasize the distinct characteristics of social work services helpful in both nonprofit settings and the small and rural community context.

The Master of Social Work program is consistent with the purpose of the social work profession to alleviate human suffering, enhance well-being and promote social justice with an emphasis on southwest populations.

The program is accredited by the Council on Social Work Education.

Degree Requirements:

39 credit hours including the required applied project course (SWG 693).

Required Core (3 credit hours)

SWG 510 Foundation Practice I (3) or

SWG 514 Bridge Seminar I (3)

Advanced Generalist Coursework (30 credit hours)

SWG 515 Bridge Seminar II (3)

SWG 516 Social Work Skills Seminar (3)

SWG 606 Assessment of Mental Disorders (3)

SWG 610 Advanced Social Work Practice III (3)

SWG 614 Advanced Generalist Social Work Practice IV (3)

SWG 623 Program Evaluation (3)

SWG 632 Policy Practice (3)

SWG 640 Professional Seminar II: Applying Theory to Advanced Generalist Social Work Practice (3)

SWG 645 Advanced Generalist Practicum I (3)

SWG 646 Advanced Generalist Practicum II (3)

Restricted Electives (3 credit hours)

Culminating Experience (3 credit hours)

SWG 693 Applied Project (3)

Additional Curriculum Information

Students in this program hold an undergraduate Council on Social Work Education-accredited BSW in social work or equivalent degree.

The academic unit advises and monitors students to ensure they choose the appropriate coursework. Core course selection depends on the student's background.

Students complete a practicum and an applied project.

Advanced generalist and other requirement coursework may be substituted with approval of the academic unit.

The number of credit hours required for restricted electives depends on the credit hour path chosen. Students should see the academic unit for a complete list of approved electives.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants must have a BSW from a Council on Social Work Education-accredited program with a minimum GPA of 3.20 (scale is 4.00 = "A") in the last two years of work leading to the Bachelor of Social Work (junior and senior GPA). Applicants must have received their Bachelor of Social Work degree no more than six years prior to the date of admission to the MSW program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate work
- three letters of reference
- professional resume that includes volunteer and paid work experience
- statement of educational and career goals
- proof of English proficiency

Additional Application Information

Applicants should see the program website for application deadlines, and they should contact the School of Social Work with any questions about the application process.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/msw-advanced-standing-advanced-generalist/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Plan, implement and evaluate evidence-based interventions
- Apply professional social work theories to working with diverse, oppressed and marginalized populations in both micro and macro practice
- Apply professional values and ethics during the advanced generalist internship

Career Opportunities: Graduates are prepared to be practitioners who deliver culturally competent, ethical interventions that range from complex case management and practice with individuals (micro); families and groups (mezzo); to affecting social change by developing skills in organization, administration, policy development and community practice (macro).

Career examples include:

- community outreach coordinator
- hospital or school social worker
- mental health advocate
- program specialist

- social services manager or director

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Sustainable Tourism, MST (PPSUSTMST)

Online Degree Search Title: Sustainable Tourism, MST

Campus: Online

Program Description: Students in the MST program receive a comprehensive education with a focus on the environmental, economic and social aspects of tourism, equipping them with the skills necessary for pioneering sustainable development solutions to the challenges facing tourism today.

This holistic curriculum focuses on integrating all three pillars of sustainability into existing tourism theories and concepts. Students learn numerous strategies and tools for identifying and building innovative tourism products and experiences and minimizing adverse impacts of tourism so that resources and opportunities remain viable and sustainable for their host communities.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Tourism Development and Management, BS

Tourism Development and Management (Meetings and Events), BS

Tourism Development and Management (Resort and Hotel Leadership), BS

Tourism Development and Management (Sustainable Tourism), BS

Tourism and Recreation Management, BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

31 credit hours including the required applied project course (TDM 593).

Required Core (24 credit hours)

CRD 569 Advanced Tourism and Recreation Studies (3)

TDM 520 Sustainable Thinking in Tourism I (3)

TDM 521 Sustainable Thinking in Tourism II (3)

TDM 530 Sustainable Tourism Destination Planning and Management I (3)

TDM 531 Sustainable Tourism Destination Planning and Management II (3)

TDM 540 Sustainable Food Management in Tourism (3)

TDM 550 Managing the Sustainable Tourism Business (3)

TDM 570 Sustainable Tourism (3)

Electives or Research (3 credit hours)

Culminating Experience (4 credit hours)

TDM 593 Applied Project (4)

Additional Curriculum Information

One elective or research course is selected from an approved list for three credit hours. Students should contact the academic unit for a list of possible courses. Other courses may be used with approval from the academic unit.

Students complete an applied project that may consist of a sustainable tourism development plan for a community, a thorough sustainability audit of a tourism business, or other project as approved by the faculty advisor.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field such as tourism, recreation, hospitality, business, geography or planning from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- professional statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International applicants are also required to submit TOEFL or IELTS scores and a financial guarantee statement.

Letters of recommendation should be from current or former employers, current or former faculty members, or others who are familiar with the applicant's scholarly and professional abilities and characteristics. The names, email addresses, titles and organizations from whom the student is requesting recommendations are also required.

A written professional statement describing the applicant's purpose in pursuing the master's degree is to be submitted online. In addition, a current resume that outlines previous professional activities is required.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-advanced-study-sustainable-tourism/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate strong critical thinking skills to be able to take into account the complexities of sustainable tourism issues.
- Analyze existing examples of sustainable tourism by offering suggestions and solutions through research-backed support.
- Develop the ability to engage with diverse stakeholders for positive impact in sustainable tourism.

Career Opportunities: The sustainable tourism degree is useful to industry professionals who are interested in advancing their profiles, as well as those who are interested in changing their careers. This program prepares students to meet the increasing demand for people trained in sustainability practices and the application of those practices in tourism.

Career examples include:

- destination planners and managers
- recreation managers
- sustainable food managers
- tourism planners

Sustainable Tourism (certificate), Certificate (PPSTGRCT)

Online Degree Search Title: Sustainable Tourism (Graduate Certificate)
2024-25 Academic Catalog Archive

Campus: Online

Program Description: The graduate certificate in sustainable tourism is intended for professionals who work in or desire to work in the tourism industry.

Students in this program explore the practices of managing and developing sustainable tourism businesses and destinations. They learn numerous strategies and tools for identifying and building innovative tourism products and experiences, as well as minimizing adverse impacts so that these attractions remain viable and sustainable for their host communities.

Students who complete the certificate have acquired knowledge in topics such as the integration of economic, social and environmental aspects of sustainability as it relates to tourism; conducting sustainability audits for destinations and businesses; community impacts of tourism; and sustainable destination and business planning and management.

Degree Requirements:

18 credit hours.

Required Core (15 credit hours)

TDM 520 Sustainable Thinking in Tourism I (3)

TDM 521 Sustainable Thinking in Tourism II (3)

TDM 530 Sustainable Tourism Destination Planning and Management I (3)

TDM 531 Sustainable Tourism Destination Planning and Management II (3)

TDM 570 Sustainable Tourism (3)

Electives (3 credit hours)

TDM 540 Sustainable Food Management in Tourism (3) or

TDM 550 Managing the Sustainable Tourism Business (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International applicants are also required to submit TOEFL or IELTS scores and a financial guarantee statement.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-sustainable-tourism/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate knowledge of the dominant concepts and practices in sustainable tourism.
- Analyze existing examples of sustainable tourism by offering suggestions and solutions through research-backed support.

Career Opportunities: This certificate is beneficial to students or professionals who are interested in advancing their profiles in the tourism field and to those who are seeking a career change.

The certificate allows graduates enhanced recognition and credentials in an area experiencing a great deal of interest and growth. They can further their careers even more by obtaining an advanced degree specific to sustainability practices in tourism.

Trauma and Bereavement (certificate), Certificate (HSCTBGRCT)

Online Degree Search Title: Trauma and Bereavement (Graduate Certificate)

Campus: Downtown Phoenix

Program Description: There is a growing need in society for health care workers and clinicians to be better prepared to help clients and patients experiencing trauma.

The School of Social Work graduate certificate program in trauma and bereavement provides students with enhanced knowledge about grief responses and the effects of trauma. Students have opportunities to research an often under-explored topic while helping transform the sociopolitical management of grief, traumatic losses and end-of-life issues in contemporary society.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

SWG 576 War and Disaster (3)

SWG 577 Traumatic Death: Theory, Counseling and Practice (3)

Restricted Electives (3 credit hours)

SWG 559 Spirituality and the Helping Professions (3)

SWG 655 Quality of Life, Mastering Mindfulness (3)

SWG 690 Reading and Conference (3)

Other Requirements (6 credit hours)

SWG 541 Field Practicum I (3) and SWG 542 Field Practicum II (3) or

SWG 584 Internship (6) or

SWG 641 Advanced Practicum: Direct Practice I (3) and SWG 642 Advanced Practicum: Direct Practice II (3)

Additional Curriculum Information

For restricted electives, students choose one of the three course options listed above for three credit hours.

Students must complete one of the practicums and internship options from the Other Requirements list. Courses are selected in consultation with an advisor. Field practicums and internships must be preapproved with the academic unit. If selected, enrollment in SWG 584 Internship is for three credit hours and taken twice.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in fields such as psychology, sociology and social work.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- School of Social Work certificate application
- three references
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F-1 or J-1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The personal statement, resume, School of Social Work certificate application (available on the department website), and three references (forms available on the department webpage) should be submitted to the School of Social Work.

The personal statement must be two to four pages, double-spaced; additional guidelines are listed on the application.

No more than two certificate courses may be completed before applying for admission to the certificate program.

Students should see the program website for application deadlines.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Plan, implement and evaluate evidence-based interventions.
- Apply professional values and ethics during the advanced direct practice internship.

Career Opportunities: This graduate certificate program in trauma and bereavement prepares individuals to work in the field of death and dying, as well as with patients experiencing trauma and bereavement, in clinical, organizational and administrative settings.

Career examples include:

- crisis response team member or leader
- hospice or chaplaincy worker
- medical or premed professional
- therapist or counselor

Teachers College, Mary Lou Fulton

Applied Behavior Analysis (Certificate), Certificate (TEABAGRCT)

Online Degree Search Title: Applied Behavior Analysis (Graduate Certificate)

Campus: Online

Program Description: The graduate certificate program in applied behavior analysis pairs research and experience to prepare professionals to work with individuals with diverse learning and behavioral needs using the principles of applied behavior analysis.

Applied projects and assignments allow students to focus on the population with which they plan to work while gaining the knowledge and skills they need in order to use applied behavior analysis across various populations and settings.

Mary Lou Fulton Teachers College offers university coursework verified by the Association for Behavior Analysis International as meeting academic requirements for eligibility to sit for the Behavior Analyst Certification Board®; Board Certified Behavior Analyst®; examination. Once certified, these professionals are equipped to meet diverse behavior needs and make a lasting difference in the community. The course sequence meets the Behavior Analyst Certification Board-required 315 classroom hours of graduate-level instruction aligned with the BCBA/BCaBA task list (fifth edition). BCBA-supervised independent fieldwork supervision hours, required for certification, are arranged and completed by the student separately from their ASU coursework. An optional remote BCBA supervised independent fieldwork practicum (SPE 580 Applied Behavior Analysis Practicum) is available.

Students seeking the master's degree as well as the verified university coursework to qualify to sit for the BCBA®; exam should apply to the MA program in special education with a concentration in applied behavior analysis.

Degree Requirements:

21 credit hours.

Required Core (21 credit hours)

SPE 525 Measurement, Data Display, Interpretation and Experimental Design (3)

SPE 526 Concepts and Principles of Applied Behavior Analysis (3)

SPE 527 Behavior Analytic Assessment (3)

SPE 560 Behavior Change Procedures: Implementing Interventions in Behavior Analysis (3)

SPE 562 Personnel Supervision and Organizational Behavior Management in Educational Settings (3)

SPE 563 Philosophical Foundations of Applied Behavior Analysis in Educational Settings (3)

SPE 567 Ethics of Applied Behavior Analysis (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

GRE scores are not required for admission.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-applied-behavior-analysis/>) for program descriptions and to request more information.

Career Opportunities: Professionals with expertise in evidence-based practices in applied behavior analysis are in high demand across sectors and industries, including education, business and health care.

Career examples include:

- applied behavior analysis therapist
- behavior consultant
- behavior specialist
- Board Certified Behavior Analyst®
- early interventionist
- educator
- organizational behavior management specialist

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. Curriculum and Instruction (Early Childhood Education), MEd (TEECDMED)

Online Degree Search Title: Curriculum and Instruction (Early Childhood Education), MEd

Campus: Online

ASU is no longer accepting new students to this program. Students interested in this program should apply to the Early Childhood Education MEd (<https://degrees.apps.asu.edu/masters-phd/major/ASU00/TEECDMED/early-childhood-education-med>) or the Early Childhood Education (Teacher Certification) MEd (<https://degrees.apps.asu.edu/masters-phd/major/ASU00/TEECDTCMED/early-childhood-education-teacher-certification-med>).

Program Description: The MEd in curriculum and instruction with a concentration in early childhood education prepares individuals to meet the educational, social and emotional needs of children from birth through age 8 or grade 3.

This master's degree program is appropriate for students interested in learning about early childhood education research and working with infants and children, and can help advance the professional development of students who already have a teaching certificate and are interested in deepening their knowledge, strengthening their skills or pursuing doctoral studies.

Through online coursework and applied activities, the program equips students with specialized skills and advanced knowledge in early childhood pedagogy, community collaboration, technology, administration, policy analysis and advocacy.

Students can also choose to add in-person professional experiences to their degree program that prepare them to enter the teaching profession after graduation. Students pursuing teacher certification complete internships and full-time teaching residencies to gain experience in two levels: preK and grades K-3. Faculty members and highly qualified certified mentor teachers provide guidance and support along the way.

Graduates earn an institutional recommendation from ASU that is recognized by the Arizona Department of Education for teacher certification as Early Childhood, Birth-Age 8 or Grade 3 teachers. To teach in an Arizona public school, graduates must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Degree Requirements:

30 credit hours including the required applied project course (ECD 593).

Students in this program complete an applied project within their plan of study as a culminating experience.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letters of recommendation should come from individuals who can speak to the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

GRE scores are not required for admission.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-education-curriculum-and-instruction-early-childhood-education/>) for program descriptions and to request more information.

Career Opportunities: Students gain skills in teaching, conducting research, using technology and analyzing policy --- all of which prepare graduates to expand or pursue educational careers working with young children and their families.

Career examples include:

- child care worker
- education administrator
- family social worker
- preschool teacher or director

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Curriculum and Instruction (Gifted Education), MEd (TEGEDMED)

Online Degree Search Title: Curriculum and Instruction (Gifted Education), MEd

Campus: Online

Program Description: The MEd program in curriculum and instruction with a concentration in gifted education prepares teachers, school administrators, school psychologists, early interventionists and family members to work effectively with gifted children. Students gain the theory and pedagogy needed to identify and serve this population of learners.

Students learn how to identify learning potential and address specific needs of gifted and talented students. They gain an understanding of gifted students' affective and academic needs, and they learn how to design and provide appropriately challenging, differentiated curriculum and instruction.

Students also learn how to develop a continuum of gifted programs and services; work with school administrators, teachers, school boards and parents; and advocate for gifted students at local and national levels.

The program is designed for public and private school teachers in regular classrooms, honors classrooms and gifted programs, and for school administrators and gifted program coordinators.

The program also provides the twelve credit hours of coursework in gifted education required for the Gifted Education (K-12) endorsement from the Arizona Department of Education. Students should refer to the Arizona Department of Education website for additional requirements.

This program does not lead to teacher certification. Students should contact an advisor for information on other programs that lead to teacher certification in the state of Arizona.

Degree Requirements:

30 credit hours including the required capstone course (SPE 597).

Required Core (3 credit hours)

TEL 504 Learning and Instruction (3)

Concentration (24 credit hours)

COE 501 Introduction to Research and Evaluation in Education (3)

SPE 572 Testing and Measurement in Gifted Education: Methods (3)

SPE 573 Differentiating Instruction for Gifted Learners: Teaching Methods (3)

SPE 585 Creativity: Foundations of Research and Development in Gifted Education (3)

SPE 586 Advising the Gifted Learner: Social and Emotional Needs (3)

SPE 587 Special Populations in Gifted Education (3)

SPE 588 The Gifted Learner: Foundations of Identification, Education and Development (3)

SPE 589 Gifted Education Programming: Models, Methods and Services (3)

Culminating Experience (3 credit hours)
SPE 597 Special Populations in Gifted Education (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English language proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-education-curriculum-and-instruction-teaching-and-learning-gifted-elementary/>) for program descriptions and to request more information.

Career Opportunities: Graduates possess skills in creating and strengthening gifted programs, developing instructional methods, advocating for learners and working with school districts and families. This prepares them to expand or pursue education careers working with gifted learners.

Career examples include:

- educator in gifted or honors classrooms
- gifted coordinator
- school administrator

Early Childhood Special Education, MEd (TEECSMED)

Online Degree Search Title: Early Childhood Special Education, MEd

Campus: Online

Program Description: The MEd program in early childhood special education is designed for students who hold a bachelor's degree in a non-education field. The program prepares students to work with young children who have a disability or who are at risk of developing one.

Students develop foundational knowledge of child development, including child development theories and best practices, such as how to:

- assess, monitor and report the progress of young children
- build effective practices for engaging families
- create enriched, inclusive learning environments
- design coherent instruction
- plan and facilitate learning

The master's degree program does not lead to teacher certification. Students interested in certification should enroll in the Master of Education in early childhood special education with a concentration in teacher certification or in the teacher certification graduate certificate program.

Degree Requirements:

32 credit hours including the required applied project course (ECS 593).

Required Core (9 credit hours)

EED 532 Literacy Methods of Instruction and Assessment for Diverse Learners (3)

TEL 517 Creating Equitable Learning Environment: Decision Making and Action (3)

TEL 531 Foundations of Literacy: The Science of Reading (3)

Other Requirements (17 credit hours)

ECD 527 Mathematics in Early Childhood Education (3)

ECD 565 Appropriate Instructional Methodologies for Young Children (3)

ECS 420 Evaluation and Intervention Strategies for Infants, Toddlers and Preschoolers with Disabilities (3)

ECS 549 Foundations of Typical and Atypical Growth and Development (3)

SPE 502 Language and Communication Methods and Assessment (2)

SPE 558 Special Education Foundations: Law, IEPs, Assessment and Ethical Practice (3)

Electives (3 credit hours)

Culminating Experience (3 credit hours)

ECS 593 Applied Project (3 credit hours)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admissions application and application fee
- official transcripts
- personal statement
- professional resume
- three letters of recommendation
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of current residency.

The three letters of recommendation can be from either professional or academic sources.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/masters-early-childhood-special-education>) for program descriptions and to request more information.

Career Opportunities: Program graduates are prepared to work in early childhood education centers and nonprofit organizations. Careers in these settings include:

- childcare workers
- child, family and school social workers
- educational guidance counselors and advisors
- education and childcare administrators
- noncertified teachers for children birth through grade 3
- social and human service assistants
- social and community service managers

Culminating Experience (3 credit hours)

ECS 593 Applied Project (3)

Additional Curriculum Information

All certification students must complete at least three professional experience courses and an experience in each special education setting (birth through preschool and preschool through grade three). Students can select the traditional or alternative pathway for certification. This will determine what professional experience courses they take for the concentration.

Students on the traditional path must take at least one internship course (ECS 556 or ECS 567) prior to student teaching (ECS 596). For their third professional experience course, students must complete a professional experience in a new setting. For example, if they selected ECS 556 and then took ECS 596, they must take ECS 567 or ECS 574 for their third course. This way they have at least two experiences in different settings.

Students on the alternative path for certification must complete at least two apprentice teaching courses. Like the traditional path, students must have at least two experiences in different settings. For example, students can take ECS 574 and ECS 596 and then take ECS 556 or ECS 571 for their third experience because it is in a new professional experience setting.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admissions application and application fee
- official transcripts
- personal statement
- professional resume
- three letters of recommendation
- proof of English proficiency

Additional Curriculum Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency. The following are accepted to meet this requirement:

- TOEFL: Applicants must have a score of at least 90 on the internet-based test taken in a testing center, with scores of 22-30 on the speaking and written portions. ASU's institutional code is 4007. Only electronic copies of scores are accepted.
- IELTS: Applicants must have an overall band score of at least 6.5 with speaking and writing portions needing to be at least 6.5 (6 = Competent User, 7 = Good User). No institutional code is needed.

Both professional and academic references are acceptable.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/early-childhood-special-education-certification>) for program descriptions and to request more information.

Career Opportunities: Graduates are prepared to work in schools, nonprofit organizations, early intervention programs, government agencies, health care organizations and private practices. Career opportunities include:

- kindergarten through grade three teacher
- preschool teacher
- program coordinator

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Educating Multilingual Learners (Certificate), Certificate (TEESLGRCT)

Online Degree Search Title: Educating Multilingual Learners (Graduate Certificate)

Campus: Online

Program Description: The graduate certificate in educating multilingual learners prepares students to educate multilingual learners in a variety of settings, including preK-12 schools, colleges, universities and organizations serving and advocating for linguistically diverse populations.

While the program is an excellent choice for teachers seeking to improve their preparation for multilingual learners, it does not lead to teacher certification. There is no requirement for students entering the program to hold a teaching certificate or seek to obtain one.

This certificate program is not designed to address specific requirements of any single state endorsement but may address many components for state endorsements, depending on state requirements.

Individuals who wish to build a career in the field of English language teaching should consider the Master of Teaching English to Speakers of Other Languages (<https://degrees.apps.asu.edu/masters-phd/major/ASU00/LAENGMTESL/teaching-english-to-speakers-of-other-languages-mtesol>) offered through The College of Liberal Arts and Sciences.

Degree Requirements:

15 credit hours.

Required Core (9 credit hours)

BLE 534 Language, Policy and Power: Past and Present (3)

BLE 536 Education for Social Transformation (3)

BLE 537 Linguistics for Educators (3)

Electives (6 credit hours)

Additional Curriculum Information

Students should see the academic unit for approved list of elective courses.

There is no culminating experience required for the certificate program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, preferably in education or related field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-english-second-language/>) for program descriptions and to request more information.

Career Opportunities: As populations continue to diversify, there is high demand for professionals with expertise in supporting multilingual learners. Program graduates are well suited for positions within education or organizations serving international or immigrant populations.

Career examples include:

- educational consultant
- education manager
- instructor
- multilingual or bilingual education specialist
- professional development manager
- school administrator

Education, MA (TEEDUMA)

Online Degree Search Title: Education, MA

Campus: Online

Program Description: The MA program in education is designed for professionals who want to advance their career in the field of education.

Students who graduate with this degree will have the ability to support their educational endeavors which will, in turn, shape society.

Students in this program can customize their coursework in the following ways. They can choose two of the following Mary Lou Fulton Teachers College focal areas:

- applied behavior analysis
- autism spectrum disorders
- early childhood education
- educating multilingual learners
- education for planetary futures
- environmental education
- gifted education
- global education
- higher and postsecondary education
- learning design and technologies
- literacy education
- physical activity and physical education
- special education endorsement*
- teaching pedagogy

Alternatively, they can choose one of the focal areas shown above and one of the focal areas from a partner college at ASU, shown below:

- data and society (New College of Interdisciplinary Studies and Arts)
- digital audience strategies (Cronkite School of Journalism and Mass Communication)
- social justice and human rights (New College of Interdisciplinary Sciences and Arts)
- technical writing and communication (College of Integrative Sciences and Arts)

*Students interested in the special education endorsement should speak to an advisor before selecting this focal area. It includes additional requirements.

The program culminates with an applied project in which students design and develop an inquiry study that addresses one or more problems related to their areas of focus.

Note: Students who are part of specialized cohorts or initiatives that include a focal area in Master of Arts in education should consult with an advisor.

Degree Requirements:

30 credit hours including the required applied project course (EDU 593), or 30 credit hours including the required applied project course (EDU 593) - Mandarin Pathway.

Required Core (3 credit hours)

COE 501 Introduction to Research and Evaluation in Education (3)

Electives (24 credit hours)

Culminating Experience (3 credit hours)

EDU 593 Applied Project (3)

Additional Curriculum Information

The program is designed to be flexible and personalized to meet the interests of the learner. Students should see the academic unit for a list of electives to choose from as they explore focal areas of greatest interest.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- written statement

- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program.

GRE scores are not required for admission.

Applicants must provide a written statement of approximately 500 words that describes their personal interest in the field of education, the goals they wish to achieve while in the program, and their short- and long-term career aspirations. The admission committee pays particular attention to the quality of writing, the ideas expressed, and the relative match between the applicant and program goals.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/masters-in-education/>) for program descriptions and to request more information.

Career Opportunities: Students gain skills in effective communication, collaboration, leadership, advocacy and innovation, all of which are essential to education professionals in a variety of careers.

Career examples include:

- behavior specialist
- curriculum designer
- education program manager
- education subject matter expert
- instructional designer
- team lead (K-12 schools)

Education (Accomplished Teaching), MA (EDACCTCMA)

Online Degree Search Title: Education (Accomplished Teaching), MA

Campus: Tempe

ASU is not currently accepting applications for this program. Prospective students interested in master's degree programs that do not lead to teacher certification might consider the MA in Education (<https://degrees.apps.asu.edu/masters-phd/major/ASU00/TEEDUMA/education-ma>), MEd in Global Education MEd (<https://degrees.apps.asu.edu/masters-phd/major/ASU00/TEGLOEDMED/global-education-med>), MEd in Learning Design and Technologies (<https://degrees.apps.asu.edu/masters-phd/major/ASU00/EDTECHMED/learning-design-and-technologies-med>), and the MA in Learning Sciences (<https://degrees.apps.asu.edu/masters-phd/major/ASU00/EDPSYCHMA/learning-sciences-ma>).

Program Description: The MA program in education with a concentration in accomplished teaching is designed for practicing educators who want to advance their expertise, innovate in the classroom, and help their schools or other work settings redesign education from a deep understanding of educational theory and practice. Students improve their understanding of student learning and assessment, and they develop skills in conducting action research.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (DCI 593).

Required Core (15 credit hours)

Electives (12 credit hours)

Culminating Experience (3 credit hours)

DCI 593 Applied Project (3)

Additional Curriculum Information

Students should see the academic unit for an approved course list.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letters of recommendation should be from individuals who can comment on the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

GRE scores are not required for admission.

Education (Educating Multilingual Learners), MA (EEDSLMA)

Online Degree Search Title: Education (Educating Multilingual Learners), MA

Campus: Online

Program Description: The MA in education with a concentration in educating multilingual learners prepares students to educate multilingual learners in a variety of settings, including preK-12 schools, colleges, universities and organizations that serve and advocate for linguistically diverse populations.

The program advances a contextualized view of multilingualism, highlights language learning processes and related pedagogies, and promotes educators' self-reflection about their potential as advocates for their students.

Students take both a practicum and a capstone course. The practicum provides students an opportunity to apply theoretical and practical information presented through coursework in schools and other learning environments that serve multilingual learners. This is a structured practical experience supervised by a faculty member with whom the student works closely. For the capstone, students identify a specific topic or problem of practice and lead a research-driven project or in-depth review of the literature.

While the program is an excellent choice for teachers seeking to improve their preparation for multilingual learners, it does not lead to teacher certification. There is no requirement that students entering the program hold a teaching certificate or seek to obtain one.

This program is not designed to address specific requirements of any single state endorsement but may address many components for state endorsements, depending on the state's requirements.

Note: Individuals who wish to build a career in the field of English language teaching should consider the Master of Teaching English to Speakers of Other Languages (<https://degrees.apps.asu.edu/masters-phd/major/ASU00/LAENGMTESL/teaching-english-to-speakers-of-other-languages-mtesol>) offered through The College of Liberal Arts and Sciences.

Degree Requirements:

30 credit hours including the required capstone course (BLE 597).

Required Core (3 credit hours)

COE 501 Introduction to Research and Evaluation in Education (3)

Concentration (21 credit hours)

BLE 522 Bi/Multilingual Acquisition and Development (3)

BLE 531 Linguistically and Culturally Sustaining Pedagogy (3)

BLE 534 Language, Policy and Power: Past and Present (3)

BLE 535 Sociolinguistic Issues in Bilingual Education (3)

BLE 536 Education for Social Transformation (3)

BLE 537 Linguistics for Educators (3)

BLE 538 Methods for Educating Multilingual Learners (3)

Other Requirements (3 credit hours)

BLE 580 Practicum (3)

Culminating Experience (3 credit hours)

BLE 597 Capstone (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letters of recommendation should be from individuals who can comment on the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

GRE scores are not required for admission.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/education-educating-multilingual-learners-ma/>) for program descriptions and to request more information.

Career Opportunities: As populations continue to diversify, there is high demand for professionals with expertise in supporting multilingual learners. Graduates are well suited for positions within education or organizations serving international or immigrant populations.

Career examples include:

- educational consultant
- education manager
- instructor
- multilingual or bilingual education specialist
- professional development manager
- school administrator

Education (Literacy Education), MA (EDLANGMA)

Online Degree Search Title: Education (Literacy Education), MA

Campus: Online

Program Description: The MA program in education with a concentration in literacy education prepares students to understand the sociocultural, historical and political settings in which reading, writing, oral language and the visual arts are created and utilized.

Fully online courses include digital technologies, multimodal literature, language and literacy for diverse learners, as well as literacy assessment and instruction for children, adolescents and adults. Students learn how to evaluate literacy theories and pedagogies through both a solid theoretical foundation of literacy and a foundational knowledge base of pedagogy. The program also teaches how to use technology to encourage critical thinking for learners, as well as how to use it as a resource for teaching, assessment and inquiry.

Graduates are literacy leaders who inquire into their own instructional approaches, analyze resources available for literacy instruction, and critically examine the environments and learning experiences constructed in their context.

Degree Requirements:

30 credit hours including the required capstone course (RDG 597).

Required Core (3 credit hours)

COE 501 Introduction to Research and Evaluation in Education (3)

Concentration (18 credit hours)

RDG 505 Language and Literacy Across the Lifespan (3)

RDG 510 Literacies, Digital Technologies and Learning (3)

RDG 512 Theoretical Foundations in Language and Literacy (3)

RDG 515 Multimodal Literature for Children and Adolescents (3)

RDG 518 Supporting Language and Literacy for Diverse Learners (3)

RDG 519 Writing Throughout the Lifespan (3)

Other Requirements (6 credit hours)

RDG 530 Literacy Methods, Assessment and Reflection for Children (Pre-K to Grade 5) (6) or

RDG 540 Literacy Methods, Assessment and Reflection for Adolescents and Adults (Grade 6-Adult) (6)

Culminating Experience (3 credit hours)

RDG 597 Capstone (3)

Additional Curriculum Information

Students put their coursework into action through an interactive capstone project, where they design, implement, analyze and reflect on a professional development project for literacy educators.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program, and the personal statement should describe the applicant's interests and reason for seeking this degree.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/literacy-education/>) for program descriptions and to request more information.

Career Opportunities: Graduates possess skills in leadership, literacy assessment and instruction; conduct research and utilize technology; and are prepared to pursue or expand an educational career working with learners of all ages.

Career examples include:

- curriculum writer
- instructional coach
- instructor
- literacy coordinator
- literacy media specialist
- reading specialist

Education for Planetary Futures, MA (TEPFMA)

Online Degree Search Title: Education for Planetary Futures, MA

Campus: Online

Program Description: The MA program in education for planetary futures develops students' passion for ecological and social justice into impactful education careers that promote sustainable futures where both people and the planet can thrive. It fuses disciplines and creative practices to radically reimagine education, drawing on diverse knowledge traditions to transform how we prepare future generations. Through transdisciplinary coursework, inquiry and community-based work, students build skills to lead change through innovative pedagogies and policies prioritizing intergenerational justice, enact meaningful environmental action, and leverage diverse media for shifting narratives about ecological futures.

The program welcomes educators and education leaders from all settings seeking to harness education's transformative power for social and ecological change.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

Degree Requirements:

30 credit hours including the required capstone course (EPF 681).

Required Core (18 credit hours)

EPF 508 Education for Ecological and Social Justice (3)

EPF 512 Education, Imagination and Futures Thinking (3)

EPF 517 Inquiry for Transformation (3)

EPF 529 Systems Change for Planetary Futures: Pathways for Collective Action (3)

EPF 614 Capstone Proposal Development (3)

EPF 675 Inquiry and Action (3)

Electives (9 credit hours)

Culminating Experience (3 credit hours)

EPF 681 Capstone: Knowledge Mobilization (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or

applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admissions application and application fee
- official transcripts
- personal statement
- professional resume
- three letters of recommendation
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The personal statement should be no longer than three double-spaced pages in length. Applicants will submit a "Personal Vision for Planetary Futures through Education" in which they are asked to respond to the following prompts:

- Reflect on your personal and professional experiences and how they have shaped your views on education's role in creating a better future for our planet. How do you see yourself contributing to a new way of thinking about education that supports a healthy planet and society? Consider the following in your response: How have your life experiences led you to recognize the importance of changing how we think about education in relation to environmental sustainability and social justice?
- Which parts of the MA in Education for Planetary Futures program excite you the most, and how do you plan to apply what you learn to make a positive impact in the field of education and beyond?

Letters of recommendation can come from academic or professional sources who can speak to the applicant's academic abilities and potential for graduate-level study or who can attest to the applicant's practical skills, work ethic and potential impact in the field of education for planetary futures.

For the professional resume, a traditional resume format is not required. However, it is important the resume includes information that illustrates the experiences, interests and the distinct qualities the applicant brings to the program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/education-planetary-futures/>) for program descriptions and to request more information.

Global Opportunities:

Global Experience: Global perspectives are integrated in all coursework, while global experiences are available in the form of electives to all interested students. Students in the program are encouraged to explore study abroad opportunities (<https://goglobal.asu.edu/>) offered by other programs at ASU, including study abroad opportunities offered by the school. Elective credit is also offered for internships in nonprofits, nongovernmental organizations, community organizations and international agencies working on sustainability-related programs (e.g., UNESCO, UNICEF, Save the Children, Regional Centers of Expertise on Education for Sustainable Development).

Career Opportunities: Graduates of this program can pursue careers as:

- community education directors
- curriculum developers
- directors of nonprofit organizations
- directors of environmental conservation local and national governments
- education policymakers
- environmental consultants and advisors
- informal educators (e.g., museum curator) for K-12 education
- media and communications experts
- sustainability coordinators in K-12, informal or higher education institutions
- sustainability directors in K-12, informal or higher education institutions
- think tank or education startup advisors

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Education Sciences, MS (TEEDUSCIMS)

Online Degree Search Title: Education Sciences, MS

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description: The MS program in education sciences prepares educational research professionals to address contemporary problems in many educational settings. Students learn to use quantitative analysis and optimized research design to address important issues in education policy and practice.

Coursework in the program focuses on scientifically valid research designs, data management, data mining and quantitative data analysis --- all at intermediate to advanced levels. The accompanying research apprenticeship allows students to integrate coursework into their professional experiences, enriching their ability to understand and solve complex education challenges.

The supervised research project and internship places students in a research institute, business or agency. This combined project and internship model provides graduates with integrated, relevant experiences designed to open opportunities for career advancement. Working students may be able to arrange for an existing job to serve as their internship site.

This program is ideal for individuals currently working in or interested in social science research centers, school districts, state or federal agencies, university research centers, foundations, educational testing companies and any industry that focuses on employee education and outcomes.

Degree Requirements:

33 credit hours including the required applied project course (EDU 593).

Required Core (18 credit hours)

EDU 501 Education Sciences I: Quantitative Research and Design Inquiry (6)

EDU 502 Education Sciences II: Intermediate Quantitative Inquiry and Measurement (6)

EDU 503 Education Sciences III: Advanced Quantitative Analysis and Modeling (6)

Other Requirements (9 credit hours)

EDU 592 Research (3)

EDU 598 Special Topics (6)

Culminating Experience (6 credit hours)

EDU 593 Applied Project (6)

Additional Curriculum Information

Coursework listed as other requirements may be substituted with approval of the academic unit.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit:

- graduate admission application and application fee
- official transcripts
- written statement
- professional resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program.

Applicants must provide a written statement of approximately 500 words that describes their personal interest in the field of education, the goals

they wish to achieve while in the program, and their short- and long-term career aspirations. The admission committee pays particular attention to the quality of writing, the ideas expressed and the relative match between the applicant and program goals.

Career Opportunities: This program meets a growing market need for individuals with practical quantitative research, analysis and data management skills (e.g., data mining, extracting subsets of data from large databases, data visualization) focused on preK-16 and adult education. Students gain skills in research design, statistical analysis and interpretation.

Career examples include:

- data scientist
- education leader and administrator working in research centers or agencies, school districts, state or federal agencies, university research centers, foundations, educational testing companies and more
- learning and development manager
- research and data analyst

Educational Leadership, MEd (EDSUPVMED)

Online Degree Search Title: Educational Leadership, MEd

Campus: Polytechnic, West

ASU is not currently accepting applications for the core degree. Students interested in the principal preparation program leading to Arizona principal certification should see the Educational Leadership (Principalship), MEd (<https://degrees.apps.asu.edu/masters-phd/major/ASU00/TEPRINMED/educational-leadership-principalship-med>).

Program Description: The MEd program in educational leadership is designed for individuals who believe in the power of education to transform children's lives and who aspire to school leadership positions as administrators or in other leadership roles in K-12 settings. This rigorous, standards-based leadership preparation program provides students with the knowledge and expertise to become transformative administrators or teacher leaders with deep and unwavering commitment to providing excellent and equitable educational opportunities for all students.

This program equips students with the skills to facilitate school-level and systemic change; create and sustain a culture of innovation and collaboration; successfully lead curriculum development; interpret and use data to support student success; provide effective feedback, support and evaluation for teachers; build a community network of support for students and schools; and ensure equitable and excellent educational opportunities and support for all students.

The master's degree program in educational leadership is designed to prepare teachers to meet Arizona requirements for principal certification. Students seeking certification in a state other than Arizona should contact their state department of education to determine the principal certification requirements prior to applying.

Degree Requirements:

36 credit hours and a portfolio, or 36 credit hours and a written comprehensive exam, or 36 credit hours including the required applied project (EDA 593), or 36 credit hours including the required capstone course (EDA 691).

Required Core (27 credit hours)

EDA 501 Foundations of Educational Leadership (3)

EDA 505 American Education System (3)

EDA 511 School Law (3)

EDA 514 Leadership in Curriculum and Assessment (3)

EDA 526 Instructional Supervision (3)

EDA 548 School, Family and Community Connections (3)

EDA 572 School Finance and Human Resources (3)

EDA 578 Critical Issues in Educational Leadership (3)

EDA 634 Instructional Leadership (3)

Other Requirement (6 credit hours)

EDA 584 Internship (3)

EDA 684 Internship (3)

Culminating Experience (3 credit hours)

EDA 593 Applied Project (3)

Additional Curriculum Information

The 15-month, standards-based leadership development program begins with a three-week summer intensive that immerses the cohort in a simulated school experience during which students engage in required coursework in a hybrid format. Learning continues during the school year with a blend of web-based and face-to-face courses taken at an ASU campus, including set meetings each semester wherein students visit schools and participate in instructional rounds. All students participate in a two-semester, school-based internship that provides the opportunity to apply new learning and research in a K-12 setting. The program concludes with a two-week summer intensive during which the cohort meets together and engages with coursework in a hybrid format.

Students must be employed in a school-based position or have access to an ASU- and district-approved school placement that serves as the laboratory of practice for applying the concepts, principles and leadership approaches learned through the coursework.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution and have at least two years of preK-12 teaching experience as a teacher of record.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

GRE scores are not required for admission.

Educational Leadership (Principalship), MEd (TEPRINMED)

Online Degree Search Title: Educational Leadership (Principalship), MEd

Campus: West, SYNC, Online

Program Description: The MEd program in educational leadership with a concentration in principalship is designed for educators who believe in the power of education to transform children's lives and who aspire to school leadership positions as administrators or in other leadership roles in K-12 settings.

All courses are offered remotely, and students select one of two modalities:

- ASU Sync --- This is an accelerated, 14-month program. ASU Sync offers regularly scheduled evening classes via synchronous learning over Zoom. Instructors and students are not in the same physical space but do meet at the same time, offering a live learning experience with peers and faculty. ASU Sync students need to reside in Arizona throughout the duration of the program. Students on I-20 visas are not permitted to complete courses via Sync and should speak with an advisor about other options to complete this program.
- ASU Online --- ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-education-educational-leadership-principalship/>) for program descriptions.

Both options prepare students to meet Arizona requirements for principal certification and national standards for educational leadership. Students

interested in certification in a state other than Arizona should contact their state department of education to determine the principal certification requirements prior to applying to the program.

Students in this program gain the skills to facilitate school-level and systemic change; create and sustain a culture of innovation, collaboration and collective excellence; successfully interpret and research school-based data to support student success; provide effective feedback in the interest of students; effectively support teachers; build a community network for all students and families; and lead schools in the pursuit of equitable and excellent educational opportunities.

Students must be employed in a school-based position or have access to an approved school placement that serves as their laboratory of practice. During the school year, students complete a two-semester, school-based internship with a certified principal who serves as a mentor for all field experiences. As part of the internship, students plan, research, implement and evaluate an action research project designed to solve a problem of practice in their placement school.

ASU Sync

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

Online Degree Search Title: Educational Policy, MA

Campus: Tempe

Program Description: The MA program in educational policy is suited for individuals who want to deepen their understanding of how to translate research to policy and practice, communicate and engage with stakeholders, and propose effective research-based policies. Students also develop fundamental skills in analyzing and interpreting educational data.

This program is designed as a cohort model. It provides a supportive environment for students to take a sequence of core courses with their peers and to learn from professors who are experts in their fields. The program also provides students with the flexibility to select elective courses and individualize their experience to suit their specific interests and aspirations.

In the culminating experience in the final semester, students design and execute an individual or group project that utilizes their new knowledge and applied research skills.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Educational Studies, BAE

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required applied project course (EPA 593).

Required Core (15 credit hours)

EPA 532 Becoming an Informed Consumer of Education Research (3)

EPA 555 Translating Research for Educational Change (3)

EPA 556 Data Analysis for Education Decision Makers (3)

EPA 559 Systematic Inquiry for Problem Solving (3)
EPA 565 Critical Topics in Education Policy (3)

Restricted Elective or Research (12 credit hours)

Culminating Experience (3 credit hours)
EPA 593 Applied Project (3)

Additional Curriculum Information

For electives or research, students should see the academic unit for the approved course list.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program, and the personal statement should describe the applicant's interests and reason for seeking this degree.

GRE scores are not required for admission.

Career Opportunities: Graduates are prepared to expand or pursue careers that involve the use and interpretation of data. This program is also suited for students who want to pursue doctoral degrees in education after graduation.

Examples of possible positions graduates might pursue include:

- grants administrator
- policy analyst
- program and project manager
- research and data analyst

Educational Policy and Evaluation, PHD (EDLDRSHPHD)

Online Degree Search Title: Educational Policy and Evaluation, PhD

Campus: Tempe

Program Description: The PhD program in educational policy and evaluation prepares scholars to conduct rigorous, high-impact and transdisciplinary research on education policies that affect conditions in preK-20 and other educational environments.

Doctoral students in the educational policy and evaluation program engage in systematic analyses of education policies and practices in a variety of settings, including schools, universities, research centers, government agencies and nongovernmental organizations.

The program emphasizes intensive training in the theory, methods and implementation of education policy with a focus on research and evaluation.

Students pursue an area of specialization supported by faculty expertise.

Educational policy and evaluation students work closely with nationally and internationally recognized faculty members on collaborative and independent research projects that advance education, including scholarly articles, policy briefs, reports and engagement in education policy. The program also provides opportunities for internships in applied settings and experiences in scholarly publishing to influence the field.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (21 credit hours)

COE 502 Introduction to Data Analysis (3)

COE 503 Introduction to Qualitative Research (3)

EPA 701 Proseminar in Education Policy I (3)

EPA 702 Proseminar in Education Policy II (3)

EPA 704 Proseminar in Evaluation and Evaluation Research (6)

EPA 752 Research Design (3)

Electives (45 credit hours)

Research (6 credit hours)

Advanced research methods (6)

Culminating Experience (12 credit hours)

EPA 799 Dissertation (12) or

DCI 799 Dissertation (12) or

SPE 799 Dissertation (12)

Additional Curriculum Information

Of the 84 credit hours required for the degree, 54 must be earned at ASU and 24 of the ASU credit hours must be earned in research and dissertation courses. The coursework includes classes in evaluation, policy analysis, research methods and an area of specialization.

Students entering the doctoral program with a master's degree in a related discipline may count up to 30 credit hours from the master's degree toward the 84 credit hours. In addition, with program and Graduate College approval, a student may use up to 12 additional credit hours toward the doctorate if documentation is provided showing that those credit hours were not part of the master's degree.

Of the 45 credit hours for electives, 15 credit hours should be earned in the areas of specialization.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a master's degree from a regionally accredited institution or an international equivalent as determined by Graduate Admissions.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- academic writing sample
- curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

Career Opportunities: Students gain the knowledge and skills to pursue careers as education researchers who advance the collective understanding of education policy for preK-20 and other education environments.

Career examples include:

- policy analyst
- professor
- program evaluator
- researcher

Educational Technology, PHD (EDTECHPHD)

Online Degree Search Title: Educational Technology, PhD

Campus: Tempe

ASU is not currently accepting applications for this program. Prospective students might consider the Learning Design and Technologies, MEd (<https://degrees.apps.asu.edu/masters-phd/major/ASU00/EDTECHMED/learning-design-and-technologies-med>).

Program Description: The focus of the PhD program in educational technology is on the design, development and evaluation of instructional systems and on educational technology applications that support learning. The doctoral program emphasizes research using educational technology in applied settings.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Courses (24 credit hours)

EDP 540 Learning Theories and Instructional Strategies (3)

EDP 552 Multiple Regression and Correlation Methods (3)

EDP 554 Analysis-of-Variance Methods (3)

LDT 501 Foundations of Learning Design and Technologies (3)

LDT 502 Design and Development of Instruction (3)

LDT 503 Design of Effective Communications (3)

LDT 504 Modalities of Learning (3)

LDT 506 Evaluation of Learning Systems (3)

EDT 701 Research in Educational Technology (3)

Elective Courses (30 credit hours)

Students select a minimum of 30 credit hours of elective coursework in consultation with a faculty advisor or doctoral committee chair.

Practicum Hours (6 credit hours and research)

Students must earn at least 18 credit hours for practicum courses. Students complete three different practica while in the program: instructional design (typically EDT 780 Practicum for three credit hours), teaching (typically EDT 680 Practicum for three credit hours), and a research practicum.

Research (12 credit hours)

Culminating Experience (12 credit hours)

EDT 799 Dissertation (12)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.20 (scale is 4.00 = "A") in their first bachelor's degree program, or a minimum cumulative GPA of 3.20 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three email addresses for professional recommendations
- personal statement
- resume
- GRE scores

- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency. The Mary Lou Fulton Teachers College requires a minimum score of 100 on the TOEFL iBT.

Scores of 500 or above on the verbal reasoning and quantitative reasoning sections of the GRE are required, as well as a score of four or greater on the analytical writing section of the GRE. ASU does not accept the GRE® General Test at home edition.

Career Opportunities: The program prepares students for a variety of professional positions. Graduates are employed as faculty, educational technologists or instructional designers in universities, community colleges and schools, or as training managers in corporate settings.

Elementary Education, MEd (TEELEMED)

Online Degree Search Title: Elementary Education, MEd

Campus: Online

Program Description: The MEd program in elementary education prepares students to start a career in working with students in grades K-8. It is designed for individuals who do not need to obtain teacher certification. The program builds on connections between educational design and decision-making and is designed to foster strong professional growth and leadership development.

Mary Lou Fulton Teachers College faculty actively engage in the educational research community, bringing new and relevant knowledge into the program. Students engage in their own research through applied project coursework, deepening their knowledge and improving their practice through research, critical evaluation and application of education concepts. The program culminates in an action research project in which students apply what they have learned to address a challenge in education.

The master's degree program does not lead to teacher certification. Students interested in certification should enroll in the Master of Education program in elementary education with a concentration in teacher certification or in the teacher certification graduate certificate program.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

- Applied Science (Early Childhood Studies), BAS
- Educational Studies, BAE
- Educational Studies (Early Childhood Studies), BAE

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required applied project course (EED 593).

Required Core (5 credit hours)

TEL 510 Instructional Design, Planning and Assessment (2)

TEL 517 Creating Equitable Learning Environment: Decision Making and Action (3)

Electives (6 credit hours)

Other Requirements (16 credit hours)

EED 529 Science Teaching Methods for Elementary School (2)

EED 532 Literacy Methods of Instruction and Assessment for Diverse Learners (3)

EED 534 Social Studies Methods and Assessments (2)

EED 537 K-8 Mathematics Methods and Assessment (3)

TEL 502 Exploration of Education: Child/Adolescent Development and Foundations of Special Education (3)

TEL 531 Foundations of Literacy: The Science of Reading (3)

Culminating Experience (3 credit hours)
EED 593 Applied Project (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any content area or education-related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- professional resume
- personal statement
- three professional references
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. The following are accepted to meet this requirement:

- TOEFL: Applicants must have a score of at least 90 on the iBT, with scores of 22-30 on the speaking and written portions. ASU's institutional code is 4007. Only electronic copies of scores are accepted.
- IELTS: Applicants must have an overall band score of at least 6.5, and speaking and writing portions must be at least 6.5 (6 = Competent User, 7 = Good User). No institutional code is needed.

The personal statement should describe the personal and professional goals that motivated the applicant to apply to the program, and explain what led the applicant to this career path and how they will excel as an educator. The admission committee pays particular attention to the quality of writing and ideas expressed in the personal statement.

The professional resume should be one to two pages and include relevant personal, professional, educational and community activities.

The personal statement and professional resume should be prepared in one of the following file formats: MS Word (.doc), rich text (.rtf), Portable Document Format (.pdf), or text (.txt).

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/elementary-education-masters/>) for program descriptions and to request more information.

Career Opportunities: Graduates are prepared to start or advance in educational careers working with children in grades K-8 in roles that do not require certification. Students gain skills in instruction, assessment, educational research and collaborating in teams --- all of which prepare them to work successfully in schools and other community-serving organizations. Roles may include noncertified educator in a charter or private school, or educator in nonschool settings.

This program may also be suitable for certified teachers who do not have an undergraduate or graduate degree in education.

Elementary Education (Teacher Certification), MEd (TEEEACLME)

Online Degree Search Title: Elementary Education (Teacher Certification), MEd

Campus: Online

Program Description: The MEd program in elementary education with a concentration in teacher certification is for those who already hold a bachelor's degree in any field and want to become licensed to teach grades K-8. The program builds on connections between educational design

and decision-making and is designed to foster strong professional growth and leadership development.

The program of study is flexible, and students can complete it within five semesters with the appropriate internship or residency placements. Students can also enroll part-time over additional semesters.

Mary Lou Fulton Teachers College faculty actively engage in the educational research community, bringing new and relevant knowledge into the program. Students engage in their own research through an applied project capstone experience, deepening their knowledge and improving their practice through research, critical evaluation and application of education concepts.

A series of professional experiences assist students in developing a thorough understanding of teaching and learning as they apply knowledge from their coursework in varied school settings. Individualized guidance through the clinical framework provides students with the support they need to become effective educators.

This program offers two routes leading to Arizona teacher certification:

- In the traditional certification route, students complete three professional experiences; at least one is an internship, and one is a residency. The first professional experience must be an internship, and students can then progress to a full-time teaching residency. For their third professional experience, students can select another internship or residency.
- The alternative certification route provides an alternative pathway to teacher certification for individuals who are currently employed full-time by a school as a teacher of record. To qualify, individuals must secure a full-time teaching position in an approved K-8 placement.

The coursework is the same in both certification routes and culminates in a research project in which students apply what they have learned to address a problem of practice or a topic related to education.

Graduates earn an institutional recommendation from ASU that is recognized by the Arizona Department of Education for teacher certification in Elementary Education, K-8. To teach in an Arizona public school, graduates must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Applied Science (Early Childhood Studies), BAS
- Educational Studies, BAE
- Educational Studies (Early Childhood Studies), BAE

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

33 credit hours including the required applied project course (EED 593) - Alternative Certification, or 33 credit hours including the required applied project course (EED 593) - Traditional Certification.

Required Core (5 credit hours)

TEL 510 Instructional Design, Planning and Assessment (2)

TEL 517 Creating Equitable Learning Environment: Decision Making and Action (3)

Concentration (16 credit hours)

EED 529 Science Teaching Methods for Elementary School (2)

EED 532 Literacy Methods of Instruction and Assessment for Diverse Learners (3)

EED 534 Social Studies Methods and Assessments (2)

EED 537 K-8 Mathematics Methods and Assessment (3)

TEL 502 Exploration of Education: Child/Adolescent Development and Foundations of Special Education (3)

TEL 531 Foundations of Literacy: The Science of Reading (3)

SEI Endorsement (3 credit hours)

ELL 515 Structured English Immersion Methods (3)

Other Requirements (6 credit hours)

6 credit hours of Alternative Certification Pathway courses, or

6 credit hours of Traditional Certification Pathway courses

Culminating Experience (3 credit hours)

EED 593 Applied Project (3)

Additional Curriculum Information

Students select one of the alternative certification or traditional certification pathways.

Alternative pathway students choose six credit hours of apprentice teaching and internship as their other required coursework from a pre-approved list. At least four credits must be apprentice teaching. Students switching routes from traditional certification may substitute Student Teaching for two credits of Apprentice Teaching with permission from the program.

Traditional pathway students choose six credit hours from internship and student teaching as their other required coursework from a pre-approved list. At least two credits must be internship and at least two credits must be student teaching. Students switching routes from alternative certification may substitute Apprentice Teaching for Student Teaching with permission from the program.

Students should see the academic unit for the appropriate other requirements and elective coursework. If a student plans to switch pathways mid-program, the student must reach out to the academic unit for appropriate advisement.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- IVP fingerprint clearance card issued by the state of Arizona
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/masters-elementary-education-teacher-certification/>) for program descriptions and to request more information.

Career Opportunities: Graduates of Mary Lou Fulton Teachers College are highly sought-after teachers in public, charter and private education institutions. They possess skills in teaching, conducting research, utilizing technology and collaborating in teams --- all of which prepare them to succeed in educational careers working with learners in grades K-8.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Environmental Education (Certificate), Certificate (TEEVEDGRCT)

Online Degree Search Title: Environmental Education (Graduate Certificate)

Campus: Online

This program has a fee pending ABOR approval.

Program Description: The environmental education certificate program prepares individuals who are passionate about safeguarding and managing our environment with the requisite knowledge and skills needed to respond as an informed citizen. The program develops a suite of tools and enhances environmental attitudes, values and knowledge and builds skills that prepare individuals and communities to collaboratively undertake positive environmental action. The environmental education certificate program also facilitates connections between actionable research findings and on-the-ground practices, creating synergistic spaces where stakeholders collaborate to address dynamic environmental issues over time. Because of this commitment to application and iteration, the suite of environmental education tools can result in direct benefits to the environment and address conservation issues concretely.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

Degree Requirements:

15 credit hours.

Required Core (10 credit hours)

SCN 502 Environmental Education: Investigating Global Issues (3)

SCN 507 Biomimicry for Sustainable Innovations (3)

SCN 510 Conservation of Biological Diversity (4)

Other Requirements (5 credit hours)

SCN 504 Sonoran Desert Flora (3)

SCN 505 Tropical Ecology and Sustainable Development (3)

SCN 506 A Natural History of the Sonoran Desert (4)

SCN 508 Exploring Urban Environmental Education (3)

SCN 509 Environmental Education Project (1)

SCN 513 Nature-based Mindfulness (3)

SCN 598 Special Topics (1)

Additional Curriculum Information

Students complete five credit hours of other requirements. Students may take SCN 509 and SCN 598 multiple times for one credit hour each. Each course covers multiple topics. Courses should be selected in consultation with the program advisor.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admissions application and application fee
- official transcripts
- personal statement
- professional resume
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of current residency.

The personal statement should include candidates' academic qualifications, interests, motivations and other important factors relating to their academic pursuits.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/environmental-education>) for program descriptions and to request more information.

Global Opportunities:

Global Experience: Study abroad (<https://goglobal.asu.edu/>) is available through a twelve-day tropical ecology experience in Costa Rica. This

Global Immersion Experience post-spring program allows students to apply what they have learned about the tropical biome, its flora and fauna, and its cultural and global value.

Other opportunities include a twelve-day biodiversity experience in Ecuador and the Galapagos. This Global Immersion Experience post-spring program provides students with the opportunity to apply what they have learned about biodiversity conservation, preservation and restoration of biodiversity and its impact on cultural and global populations.

The environmental education certificate program supports international internships. The environmental education certificate supports international internships. For example, several students have used the contacts and resources within the program to complete international internships in Costa Rica.

Career Opportunities: Graduates of this program can pursue careers as:

- Department of Environmental Conservation coordinator
- education program leader in local, state and national parks
- electric vehicle manufacturing worker
- environmental education coordinator in schools
- Environmental Protection Agency coordinator
- museum environmental education coordinator
- outdoor education and camps director
- solar power engineer and installer
- summer camps director
- summer programming coordinator

Gifted Education (Certificate), Certificate (TEGEDGRCT)

Online Degree Search Title: Gifted Education (Graduate Certificate)

Campus: Online

Program Description: The graduate certificate program in gifted education provides the theory and pedagogy needed to identify and serve gifted children. This program is for teachers, school administrators, school psychologists, early interventionists and family members who want to strengthen their ability to work with this population of learners.

Students of the program learn how to identify learning potential and address specific needs of gifted and talented students. They have an understanding of gifted students' affective and academic needs and know how to design and provide appropriately challenging, differentiated curriculum and instruction.

Students learn how to develop a continuum of gifted programs and services; work with school administrators, teachers, school boards and parents; and advocate for gifted students at local and national levels.

The program also provides coursework in gifted education required for the Gifted Education (K-12) endorsement from the Arizona Department of Education. Students should refer to the Arizona Department of Education website for additional requirements.

This program does not lead to any type of teacher certification in Arizona. This program does not include the field experience and student teaching components or meet other requirements needed to become certified to teach.

Degree Requirements:

15 credit hours.

Required Core (12 credit hours)

SPE 585 Creativity: Foundations of Research and Development in Gifted Education (3)

SPE 586 Advising the Gifted Learner: Social and Emotional Needs (3)

SPE 587 Special Populations in Gifted Education (3)

SPE 588 The Gifted Learner: Foundations of Identification, Education and Development (3)

Electives (3 credit hours)

SPE 572 Testing and Measurement in Gifted Education: Methods (3)

SPE 573 Differentiating Instruction for Gifted Learners: Teaching Methods (3)

SPE 589 Gifted Education Programming: Models, Methods and Services (3)

Additional Curriculum Information

Students choose one course from SPE 572, SPE 573 or SPE 589 to complete the elective requirement.

There is no culminating experience required for this certificate program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, preferably in education or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The personal statement should describe the applicant's interests and reason for seeking this degree.

- three letters of recommendation
- personal statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Applicants must complete a personal statement that describes their background, including the personal, educational and professional experiences that led them to apply to this program. Applicants should follow the specific prompt found in the application.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/global-education-med/>) for program descriptions and to request more information.

Career Opportunities: Students in this program gain the skills needed for leading and continuously improving the education sector. They are equipped with the research and analysis skills to gather evidence to inform, design and improve practices to strengthen systems that provide quality education for diverse populations. This prepares them to expand or pursue a variety of careers in international education.

Career examples include:

- global education subject matter expert
- policy analyst
- program and project manager
- school administrator

Higher and Postsecondary Education, MEd (EDPOSTMED)

Online Degree Search Title: Higher and Postsecondary Education, MEd

Campus: Tempe, Online

Program Description: The MEd program in higher and postsecondary education is designed to facilitate the professional development of those who work in colleges and universities in administrative roles, as well as academic and student support positions.

The program develops leaders who have a strong understanding of the theory and practice of higher education administration, possess the ability to analyze issues confronting contemporary colleges and universities, and can exercise innovative and effective decision-making.

Coursework addresses a range of practice-focused topics in the field, including the following: the evolution of higher education in the United States

and globally; organizational characteristics of colleges and universities; how students grow, change and develop within higher and postsecondary education institutions; important laws and policies pertaining to administrative practice in higher education; how colleges and universities are funded; how to work successfully with multiple stakeholders in contemporary higher education; and how to collect and use data to improve decision-making.

Students in this program can customize their coursework in the following focal areas:

- leadership and organizational dynamic in higher education
- student recruitment, retention and success
- globally-connected futures: place, responsibility and partnerships

This 30-credit-hour, 10-course program is offered on a 7.5-week calendar in fall and spring semesters (six weeks in summer). Students may enroll part time or full time.

Most courses are offered in a hybrid format with half of the content delivered face-to-face (weekday evenings) and half delivered through independent or technology-supported learning experiences and fieldwork.

This program culminates with the creation and presentation of an applied project in which students demonstrate their understanding of critical issues in higher education and how to collect and use data to improve their professional practice. The project is also designed to promote graduates' career advancement in higher and postsecondary education settings.

Degree Requirements:

30 credit hours including the required capstone course (HED 597).

Required Core (9 credit hours)

HED 510 Introduction to Higher Education (3)

HED 572 Program Assessment and Evaluation in Higher Education (3)

HED 620 Love, Justice, Equity and Inclusion in Higher Education (3)

Other Requirements (3 credit hours)

HED 580 Practicum in Higher Education (3)

Electives (15 credit hours)

Culminating Experience (3 credit hours)

HED 597 Capstone in Higher and Postsecondary Education (3)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives. Students choose a focal area from the list of electives and take nine credit hours from that focal area. Students then select six additional elective credit hours from any focal area.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English language proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letters of recommendation should be from individuals who can comment on the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/higher-postsecondary-education/>) for program descriptions and to request more information.

Career Opportunities: Graduates of the program have acquired skills in analyzing issues in higher education, working with diverse stakeholders, conducting research and making data-driven decisions, all of which prepare them to expand or pursue administrative roles at colleges and universities.

Career examples include:

- college program director
- student affairs leader
- student life leader
- student services staff

Institutional Research and Policy Analysis (certificate), Certificate (EDINSRESCE)

Online Degree Search Title: Institutional Research and Policy Analysis (Graduate Certificate)

Campus: Tempe

Program Description: The graduate certificate in institutional research and policy analysis provides participants with the training needed to critically assess education programs and policies, and engage in data-driven decision-making. Students analyze data from applied settings, including their own schools or organizations.

This certificate program allows students to glean insights from data that help them make effective decisions in classrooms, schools, districts and other organizations; present reliable and pertinent data to their colleagues and administrators; and develop analyses that can help them identify instructional changes aimed at improving student achievement.

Degree Requirements:

15 credit hours.

Required Courses (15 credit hours)

EPA 532 Becoming an Informed Consumer of Educational Research (3)

EPA 555 Translating Research for Educational Change (3)

EPA 556 Data Analysis for Education Decision Makers (3)

EPA 559 Systematic Inquiry for Problem Solving (3)

EPA 565 Critical Topics in Education Policy (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The personal statement should describe the applicant's interests and reason for seeking this degree

GRE scores are not required for admission.

Career Opportunities: Graduates develop skills in assessing education programs and policies, synthesizing research literature and conducting applied research. They are prepared to expand or pursue careers that involve the use and interpretation of data. Possible career examples include:

- curriculum leader
- policy analyst
- program and project manager
- research and data analyst
- teacher administrator

Interdisciplinary Education on Community Health and Wellbeing, MA (TEIECHWMA)

Online Degree Search Title: Interdisciplinary Education on Community Health and Wellbeing, MA

Campus: Online

Program Description: The MA program in interdisciplinary education on community health and well-being is designed to equip graduate students for roles in diverse educational settings, such as schools, community centers and adult educational programs, with a primary focus on health and well-being. The degree places a significant emphasis on the various dimensions of wellness, illustrating how these dimensions can be leveraged to design, implement and assess educational and health promotion initiatives aimed at enhancing overall health and quality of life.

The program furnishes individuals with comprehensive knowledge and fundamental skills across a variety of areas, fostering a heightened understanding and appreciation for all individuals. It cultivates creative and innovative, systems-level thinking, encouraging a reimagining of health and disease management and facilitating the development of physical activity and health programming.

This program is a partnership with two colleges: Mary Lou Fulton Teachers College and Watts College of Public Service and Community Solutions. Students have the opportunity to select courses from disciplines such as physical education, social work, recreational therapy and nonprofit leadership and development.

In terms of design aspirations, the program stands out for its integration of intellectual disciplines, incorporating courses with theoretical perspectives from education and public service. Furthermore, it impacts societal transformation by promoting health across various community settings. The program is intentionally socially embedded, fostering connections between communities through numerous beneficial partnerships.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

Degree Requirements:

30 credit hours including the required applied project course (EDU 593).

Required Core (3 credit hours)

COE 591 Introduction to Research and Evaluation in Education (3)

Leadership and Innovation (6 credit hours)

NLM 560 Leadership and Ethics in the Nonprofit Sector (3)

NLM 562 Social Entrepreneurship (3)

NLM 572 Community and Social Innovation (3)

PPE 585 Reading and Understanding Research: Physical Education and Beyond (3)

PPE 586 Physical Activity Leadership in Schools (3)

Other Requirements (18 credit hours)

CRD 551 Recreational Therapy and Play with Children, Youth and Families (3)

CRD 563 Advocacy in Therapeutic Recreation (3)

PPE 531 Analysis of Skill and Game Performance (3)

PPE 532 Principles of Sport Coaching (3)

PPE 550 Physical Education for the Elementary School (3)

PPE 555 Physical Education in the Secondary School (3)

PPE 598 Special Topics (1-4)

SWG 501 Human Behavior and Social Experiment I (3)

Culminating Experience (3 credit hours)

EDU 593 Applied Project (3)

Additional Curriculum Information

Students complete two courses from the Leadership and Innovation coursework list for a total of six credit hours. All topics of PPE 598 are approved, and the course can be taken for one to four credit hours, as long as the total Other Requirements coursework is equal to 18 credit hours. Courses should be selected in consultation with the program advisor. Substitutions may be made for other requirements coursework, including CRD 551, with department approval.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admissions application and application fee
- official transcripts
- personal statement
- professional resume
- three letters of recommendation
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of current residency.

Applicants must provide a written statement of approximately 500 words that describes their personal interest in working in diverse, interdisciplinary educational and health promotion settings with a focus on health and well-being, the goals they wish to achieve while in the program and their short- and long-term career aspirations. The admission committee pays particular attention to the quality of writing, the ideas expressed and the relative match between the applicant and program goals.

Three professional or academic references should be provided.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/community-health-wellbeing/>) for program descriptions and to request more information.

Career Opportunities: Graduates of this program can pursue careers as:

- adult education directors
- behavioral health technicians
- corporate or employee wellness coordinators, managers or specialists
- health communications developers
- health and wellness coaches, managers or specialists
- health promotions managers or specialists
- life skills or lifestyle coaches
- nonprofit organization or government office directors
- professional mentors
- recreational programmers

- wellness operations specialists
- wellness program managers or directors

Leadership and Innovation, EdD (TELINEDD)

Online Degree Search Title: Leadership and Innovation, EdD

Campus: West, Online

Program Description: The EdD program in leadership and innovation prepares scholarly practitioners and is designed for practicing educator-leaders who work in a range of settings and who want to transform and improve their practice to create better learning opportunities for students of all ages.

This three-year, cohort-based program is offered in two modalities: hybrid (a combination of classes delivered at West Valley campus and online) and 100% online, with similar coursework and structure and taught by the same faculty.

Students begin as accomplished teachers, teacher leaders, principals, superintendents, higher education professionals or leaders in other educational contexts. Through coursework, students deepen their abilities to lead change and implement innovation in their local educational organizations.

The program focuses on action research and includes required coursework, strengthening students' abilities to reflectively and critically think about problems of practice in one of the following contexts: preK-12 change leadership; higher education change leadership; or systems, professional and reimagined change leadership.

Differentiation among these contexts and students' interests occurs within the required coursework and program-related activities as students apply their learning to their specific work contexts.

Students conduct multiple cycles of inquiry throughout the program and learn research within their own workplace. They have multiple opportunities to virtually share their ongoing research throughout each academic year.

Leader-Scholar Communities, formed at the end of the first year and consisting of six to seven students and one faculty member, meet regularly for the second and third years of the program to supply academic and personal support. Through these communities, students support each other, under faculty guidance, in the conceptualization, implementation and study of change initiatives. Each student's community leader serves as the dissertation chair, along with two additional committee members who ultimately make up the doctoral committee.

Successful graduates make a commitment to continuing systematic study of their professional practice and sustaining innovation and leadership by making a positive difference in their local settings. The program aims to enable more thoughtful, intentional and informed leaders who are willing and able to implement and study continuous improvement.

The program makes a difference in the way a student thinks and works as a leader in education for the immediate and local benefit of school children, adult learners, schools or other organizations, and local communities.

The program is not designed to prepare students for academic research-oriented tenure-track positions.

Degree Requirements:

90 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (24 credit hours)

Research (9 credit hours)

Advanced Professional Studies (6 credit hours)

Directed Field-Based Study (3 credit hours)

Participation in Leader-Scholar Communities (6 credit hours)

Electives (30 credit hours)

Dissertation (12 credit hours)

Additional Curriculum Information

Students should see the academic unit for an approved course list.

Students register for required research and dissertation hours as part of the Leader-Scholar Communities requirement.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework is made up of electives to reach the required 90 credit hours.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- guided writing sample
- curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Recommenders should be individuals who can speak to the applicant's potential for success in a graduate program. The personal statement should describe the applicant's interests and reasons for seeking this degree, along with potential problems of practice to serve as a guide for applied research in the program.

GRE scores are not required for admission.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/edd-leadership-and-innovation/>) for program descriptions and to request more information.

Career Opportunities: Graduates possess skills in thinking critically about problems of practice, designing and conducting action research, collaborating with teams in leader-scholar communities and leading change in an educational organization. They are prepared to expand or pursue leadership positions in preK-12 schools and higher education institutions.

Career examples include:

- community college leader
- educational consultant
- educational professional developer
- principal
- superintendent
- teacher leader
- university administrator

Online Degree Search Title: Educational Leadership and Innovation (Policy/Admin), EdD

Campus: West

ASU is not currently accepting applications for this program. Interested students should consider the Leadership and Innovation, EdD (<https://degrees.apps.asu.edu/masters-phd/major/ASU00/TELINEDD/leadership-and-innovation-edd>) or the Educational Policy and Evaluation, PhD (<https://degrees.apps.asu.edu/masters-phd/major/ASU00/EDLDRSHPHD/educational-policy-and-evaluation-phd>).

Program Description: The EdD program in leadership and innovation is designed for practicing educator-leaders who want to participate in creating better learning opportunities for students of all ages in a range of settings with the ultimate goal of transforming the practice of education.

The focus of the program is research in action. Students conduct multiple studies throughout the program to learn by doing and to influence change based on scholarship applied in their workplace.

Students in the program begin as accomplished teachers, teacher leaders, principals and superintendents, and edupreneurs or higher education professionals. Through their learning, they deepen their abilities to lead and innovate in educational organizations. The program is not designed to prepare students for academic tenure-track positions.

The cohort-based program begins in summer with an introduction to doctoral studies and the formation of a professional learning community that draws on the strengths of all group members.

Required courses are team-taught by faculty and require students to conduct research in their workplace, laying the foundation for the culminating project: the action research study documented in the dissertation.

Leader-scholar communities, formed at the end of the first year and consisting of five to seven students and two faculty members, meet regularly for the second and third years of the program. Students register for required research and dissertation hours as part of the LSC requirement.

Through these LSCs, students support each other, under faculty guidance, in the conceptualization, implementation and study of change initiatives. Students share their research at the end of each semester through roundtables, posters and symposia in a public research day.

Successful graduates have made a commitment to continuing systematic study of their professional practice and making a positive difference in their local workplaces by putting their research in action. The program aims to enable more thoughtful, intentional and informed leaders who are willing and able to implement and study change.

The program can make a difference in the way a student thinks and works as a leader in education for the immediate and local benefit of school children, adult learners, the student's school or organization, the community and the world.

Degree Requirements:

90 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation (including a Master's degree and 60 credit hours post-Masters).

Required Core (15 credit hours)

Research Core (9 credit hours)

Advanced Professional Studies (15 credit hours)

Directed Field-Based Study (3 credit hours)

Participation in Leader-Scholar Communities (6 credit hours)

Dissertation (12 credit hours)

Admission Requirements: The concentration in policy and administration under the doctoral program in leadership and innovation is no longer accepting applications. Applicants should apply to the EdD in leadership and innovation rather than a specific concentration.

Learning Design and Technologies, MEd (EDTECHMED)

Online Degree Search Title: Learning Design and Technologies, MEd

Campus: Online

Program Description: The MEd program in learning design and technologies prepares students to build critical competencies related to designing quality online learning. It prepares students to use technology effectively to meet the needs of learners.

This program centers on the development and review of educational structures and emphasizes the design of learning environments, systems,

applications and instructional materials. Students gain skills in planning, designing, implementing and evaluating instruction for multiple learning contexts.

Students take on education challenges and apply knowledge gained through coursework to a variety of projects, with a key area of focus formed around advanced educational technology.

All courses are taught online and combine a range of resources and technologies to facilitate direct interaction between students, program faculty and classmates.

Degree Requirements:

30 credit hours including the required applied project course (LDT 593).

Required Core (24 credit hours)

EDP 540 Learning Theories and Instructional Strategies (3)

LDT 501 Foundations of Learning Design and Technologies (3)

LDT 502 Design and Development of Instruction (3)

LDT 503 Design of Effective Communications (3)

LDT 504 Modalities of Learning (3)

LDT 506 Evaluation of Learning Systems (3)

LDT 508 Design of Accessible and Inclusive Digital Learning (3)

LDT 523 Design Principles of Online and Blended Learning (3)

Elective (3 credit hours)

Culminating Experience (3 credit hours)

LDT 593 Applied Project (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-education-learning-design-technologies/>) for program descriptions and to request more information.

Career Opportunities: As digital education grows increasingly important in both academic and business settings, there is increasing demand for skilled educators who can thoughtfully and effectively integrate technology with pedagogy and instruction.

Graduates are professionals in learning design and technology who are prepared for careers in instructional design in a variety of business settings (corporate, industry, museum, nonprofit, public and government) as well as for technology leadership positions in traditional educational settings (K-12 schools, colleges and universities).

Career examples include:

- curriculum designer or developer
- distance learning director
- e-learning developer
- instructional designer
- online teacher, mentor or trainer
- technology integration specialist
- training specialist, coordinator, manager or director

Learning Design and Technologies (certificate), Certificate (EDEDTGRCT)

Online Degree Search Title: Learning Design and Technologies (Graduate Certificate)

Campus: Online

This program's name has changed effective Fall 2024. The previous name was Instructional Design and Performance Improvement.

Program Description: The graduate certificate in learning design and technologies prepares students to design and develop digital learning experiences and advance them in a variety of settings. Students explore the principles and practices of designing instructional interventions and learning materials that combine theories in education, psychology, communication and technology to create effective learning experiences for adult learners.

Students learn how to identify instructional needs, training problems and performance gaps, and then design and develop instruction to mitigate those problems to improve organization performance and efficiency. Hands-on, scenario-based projects provide students with applied practice and help them develop effective communication strategies to enable them to effectively work on cross-functional teams.

The information covered in this program does not prepare graduates to teach in a K-12 classroom, although it may be helpful in a secondary role in their district --- such as creating or conducting professional development experiences, or in technology coordination or training. Students can pursue this graduate certificate while enrolled in other graduate programs at ASU.

Degree Requirements:

15 credit hours.

Required Core (12 credit hours)

LDT 501 Foundations of Learning Design and Technologies (3)

LDT 502 Design and Development of Instruction (3)

LDT 503 Design of Effective Communications (3)

LDT 523 Design Principles of Online and Blended Learning (3)

Other Requirement (3 credit hours)

LDT 504 Modalities of Learning (3) or

LDT 508 Design of Accessible and Inclusive Digital Learning (3) or

LDT 511 Emerging Trends and Technologies for Learning Design (3) or

LDT 598: Special Topics (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency
 2024-25 Academic Catalog Archive

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

GRE scores are not required for admission.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/instructional-design/>) for program descriptions and to request more information.

Career Opportunities: The field of instructional and learning design is continuing to expand as organizations seek to develop more of their training in online and blended formats. Preparation in instructional design positions graduates to work in a variety of settings, including K-12 schools or institutions of higher education, nonprofit organizations and corporations.

Graduates of this certificate program have broadened their instructional and learning design expertise for advancement in their fields in positions including:

- content developer
- corporate trainer
- curriculum designer
- distance or blended learning professional
- eLearning developer
- instructional designer
- instructional technologist
- learning designer
- learning management system administrator
- online learning specialist
- online training manager
- technology integration specialist
- training consultant

Learning Sciences, MA (EDPSYCHMA)

Online Degree Search Title: Learning Sciences, MA

Campus: Tempe

Program Description: The MA program in learning sciences emphasizes an understanding that learning happens in many places outside of traditional school settings, and doing so focuses on the power of design thinking to improve educational systems.

The curriculum's systems-level approach includes cognitive, social and contextual factors as well as the interactions among them.

Individualized guidance provides students with the support they need to succeed in today's rapidly evolving educational environment. Students work with faculty to determine whether they'll conduct an applied project or complete a research thesis study. Applied projects provide evidence of mastery of the skills and knowledge obtained through the program, while a thesis project requires students to complete a research study within an area of inquiry in the learning sciences and also has the potential for scholarly recognition.

This program does not lead to teacher certification but can prepare graduate students for doctoral credentials in education after graduation.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Educational Studies, BAE

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required applied project course (LSE 593), or 30 credit hours, a thesis and a written comprehensive exam.

Required Core (12 credit hours)

LSE 540 Theoretical Views of Learning in the Learning Sciences (3)

LSE 542 Research Methods in the Learning Sciences (3)

LSE 570 Case Exemplars of Learning Systems (3)

LSE 571 History of the Learning Sciences (3)

Other Requirements (6 credit hours)

LSE 591 Seminar (6)

Electives (6 or 9 credit hours)

Culminating Experience (3 or 6 credit hours)

LSE 593 Applied Project (3) or

LSE 599 Thesis (6)

Additional Curriculum Information

Students completing an applied project will complete nine credit hours of electives. Students completing a thesis will complete six credit hours of electives. Electives must be taken at the graduate level and selected in conjunction with your advisor. LSE 591 should be taken for three credit hours twice for a total of six credit hours.

With advisor approval, EDP 540 may be taken in place of LSE 540 for the core requirement.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program, and the personal statement should describe the applicant's interests and reason for seeking this degree.

Career Opportunities: Students gain skills in facilitating learning using an interdisciplinary approach, drawing upon cognitive science, educational psychology, computer science, anthropology, sociology, information sciences, neurosciences, instructional design and more. This prepares students to expand or pursue a variety of educational careers tailored to their professional goals.

Graduates of the program are equipped to design effective learning and teaching systems in a broad range of settings such as museums, libraries, workplaces and schools. The program prepares graduates to become leaders in the development, integration and improvement of these systems.

Career examples include:

- educational and interactional designer
- educator in community organization
- educator in educational institution
- training specialist, coordinator, manager or director

Learning, Literacies and Technologies, PHD (EDCIPHD)

Online Degree Search Title: Learning, Literacies and Technologies, PhD

Campus: Tempe

Program Description: The PhD program in learning, literacies and technologies is designed to prepare scholars who address socially significant educational programs and transform preK-20 educational programs through rigorous research, transdisciplinary engagements and educational interventions. Students rely on multiple theoretical and methodological perspectives to explore, influence and transform educational institutions and their practices.

Students begin engaging in research studies during their first semester and continue throughout the four-year program. Faculty with diverse disciplinary backgrounds collaborate with doctoral students, individually and in teams, to design powerful studies, implement them in authentic settings, collect and analyze data, write research reports, and present and publish research primarily in academic journals. Students prepare to enter the academy and to conduct theoretical, conceptual and humanities based educational research. Students in these areas are encouraged to apply to the program.

Academic study and research in the learning, literacies and technologies program focuses on the nature of curriculum learning and literacies for diverse learners in various educational contexts. Furthermore, students in this program examine how the use of technologies can support learning, design learning environments and understand the conditions under which learning occurs.

Students develop areas of specialization with faculty advisors and doctoral committee members, work at the cutting edges of educational research, and thus lead the way to innovate and explore how new technologies can assist literacies for various learning contexts. Past examples of student specializations include mathematics education, gender and equity studies, science education and curriculum studies. Students are encouraged to craft their own programs of specialization and to work with faculty from across the university.

Degree Requirements:

85 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (9 credit hours)

DCI 701 Transdisciplinary Seminar I (3)

DCI 702 Transdisciplinary Seminar II (3)

DCI 706 Academic Writing (3)

Specialization (15 credit hours)

Research (12 credit hours)

COE 503 Introduction to Qualitative Research (3)

DCI 752 Quantitative Research Design (3)

advanced research methods course (6)

Electives (37 credit hours)

Culminating Experience (12 credit hours)

DCI 799 Dissertation (12) or

PPE 799 Dissertation (12) or

SPE 799 Dissertation (12)

Additional Curriculum Information

Students entering the doctoral program with a master's degree in a related discipline may count up to 30 credit hours from the master's degree toward the 85 credit hours. In addition, with program and Graduate College approval, a student may use up to 12 additional credit hours toward the doctorate if documentation is provided showing that those credit hours were not part of the master's degree.

As part of electives, students complete seven credit hours of inquiry courses selected in consultation with the program advisor.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree in any field from a regionally accredited

institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- guided writing sample
- curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program, and one must be from an academic who can speak to the applicant's potential for graduate study.

The personal statement should describe the applicant's interests and their reason for seeking this degree.

Career Opportunities: Graduates are educational researchers who serve as scholars, leaders and teacher educators engaged in the design, development and use of literacies and technologies that promote learning. They are stewards of their educational field, working across disciplinary boundaries to address the learning challenges of the new millennium.

Career examples include:

- college program director
- educator
- instructional designer
- instructional specialist
- professor
- researcher
- teacher educator

Online Teaching for Grades K-12 (certificate), Certificate (TEEDTGRCT)

Online Degree Search Title: Online Teaching for Grades K-12 (Graduate Certificate)

Campus: Tempe, Online

ASU is not currently accepting applications for this program. Prospective students should consider the instructional design and performance improvement graduate certificate (<https://education.asu.edu/masters-degrees-phds/majorinfo/EEDTGRCT/graduate/false/24>).

Program Description: This certificate program prepares educators to design systems for learning within a broad range of organizations. The curriculum includes practical application of research on learning, design methods and organizational dynamics.

Students who complete the certificate program are prepared to be effective members and leaders of teams who redesign education in preK-20 and other settings.

Degree Requirements:

15 credit hours including the required capstone course (EDT 580).

The certificate requires five courses, each consisting of three credit hours. The culminating experience is an electronic portfolio that is completed in EDT 580.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited
2024-25 Academic Catalog Archive

institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants should have at least one year of professional education experience.

Secondary Education, MEd (TESECEMED)

Online Degree Search Title: Secondary Education, MEd

Campus: Online

This program is no longer accepting applications for the Secondary Theatre Education Track.

Program Description: The MEd program in secondary education prepares students to start a career working with students in grades 6-12. It is designed for individuals who do not need to obtain teacher certification. The program builds on connections between educational design and decision-making and is designed to foster strong professional growth and leadership development.

Mary Lou Fulton Teachers College faculty actively engage in the educational research community, bringing new and relevant knowledge into the program. Students engage in their own research through applied project coursework, deepening their knowledge and improving their practice through research, critical evaluation and application of education concepts.

The program culminates in an applied action research project in which students apply what they have learned to address a challenge in education.

The master's degree does not lead to teacher certification. Students interested in certification should enroll in the Master of Education program in secondary education with a concentration in teacher certification, or in the teacher certification graduate certificate program.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Educational Studies, BAE

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required applied project course (SED 593), or 30 credit hours including the required applied project course (SED 593) - Secondary Physical Education Track, or 31 credit hours including the required applied project course (SED 593) - Secondary Theatre Education Track.

Required Core (11 credit hours)

TEL 502 Exploration of Education: Child/Adolescent Development and Foundations of Special Education (3)

TEL 510 Instructional Design, Planning and Assessment (2)

TEL 517 Creating Equitable Learning Environment: Decision Making and Action (3)

TEL 532 Literacy Across the Disciplines (3)

Track (7 or 8 credit hours depending on Track)

SED 510 General Methods and Assessment (3)

SED 511 ELA Methods and Assessment (4)

SED 512 Secondary Mathematics Methods and Assessment (4)

SED 513 Science Teaching Methods for Secondary School (4)

SED 514 Methods of Teaching Secondary Social Studies (4)

THE 581 Methods of Teaching Theater (4)

THP 511 Methods of Teaching Drama (4)

PPE 550 Physical Education for the Elementary School (3)

PPE 555 Physical Education in the Secondary School (3) and PPE 598 Special Topics: Conceptual Physical Education (1)

Electives (9 credit hours)

Culminating Experience (3 credit hours)

SED 593 Applied Project (3)

Additional Curricular Information

Students select one of the following tracks: secondary education, secondary physical education and secondary theatre education. Students choosing the secondary physical education track must take PPE 550, PPE 555 and PPE 598. Students choosing the theatre education track must take THE 581 and THP 511. All other tracks must take SED 510 and one of the following courses, SED 511, SED 512, SED, 513 or SED 514

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any content area or education-related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- professional resume
- personal statement
- proof of English proficiency
- three professional references

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement should describe the personal and professional goals that motivated the applicant to apply to the graduate degree and explain what led them to this career path and how they will excel as an educator. The admission committee pays particular attention to the quality of writing and ideas expressed in the personal statement.

The professional resume should be one to two pages and include relevant personal, professional, educational and community activities.

The personal statement and professional resume should be prepared in one of the following file formats: MS Word (.doc), rich text (.rtf), Portable Document Format (.pdf) or text (.txt).

The names, email addresses and institutions or companies of professional references who will submit electronic letters of recommendation are required. References should be individuals who have worked with the applicant in professional or academic capacities and who can attest to their aptitude in this field and their ability to complete graduate-level coursework.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/masters-secondary-education/>) for program descriptions and to request more information.

Career Opportunities: Graduates are prepared to start or advance in educational careers working with children in grades 6-12 in roles that do not require certification. They have gained skills in instruction, assessment, educational research and collaborating in teams --- all of which prepare them to successfully work in schools and other community-serving organizations. Roles may include noncertified educator in a charter or private

school, or educator in nonschool settings.

This program also may be suitable for certified teachers who do not have an undergraduate or graduate degree in education.

Secondary Education (Teacher Certification), MEd (TESCERTMED)

Online Degree Search Title: Secondary Education (Teacher Certification), MEd

Campus: Online

This program is no longer accepting applications for the Secondary Theatre Education Track.

Program Description: The MEd program in secondary education with a concentration in teacher certification is for those who already have a bachelor's degree in any field and want to become licensed to teach grades 6-12. The program is designed to foster strong professional growth and leadership development.

The program of study is flexible, and students can complete it within five semesters with the appropriate internship and residency placements. Students can also enroll part-time over additional semesters.

Mary Lou Fulton Teachers College faculty actively engage in the educational research community, bringing new and relevant knowledge into the program. Students engage in their own research through applied project coursework, deepening their knowledge and improving their practice through research, critical evaluation and application of education concepts.

A series of professional experiences assist students in developing a thorough understanding of teaching and learning as they apply knowledge from their coursework in varied school settings.

This program offers two routes leading to Arizona teacher certification:

- In the traditional certification pathway, students complete three professional experiences. The first professional experience must be an internship, and then students can progress to a full-time teaching residency. For their third professional experience, students can select another internship or residency.
- The alternative certification pathway provides an alternative pathway to teacher certification for individuals who are currently employed full time by a school as a teacher of record. To qualify, individuals must secure a full-time teaching position in an approved content area and grade level.

The coursework is the same in both certification pathways and culminates in an action research project in which students apply what they've learned to address a problem of practice or topic related to education.

Graduates earn an institutional recommendation from ASU that is recognized by the Arizona Department of Education for teacher certification in Secondary Education, 6-12.

Physical education content area students earn an institutional recommendation from ASU for Arizona teacher certification in Secondary Education, 6-12, along with the Physical Education, PreK-12 endorsement. This program does not lead to teacher certification in any other elementary content area.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Educational Studies, BAE

Engineering (Automotive Systems), BSE

Engineering (Electrical Systems), BSE

Engineering (Mechanical Engineering Systems), BSE

Engineering (Robotics), BSE

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required applied project course (SED 593) - Alternative Certification Pathway, or 30 credit hours including the required

applied project course (SED 593) - Physical Education Track Alternative Certification Pathway, or 30 credit hours including the required applied project course (SED 593) - Physical Education Track Traditional Certification Pathway, or 30 credit hours including the required applied project course (SED 593) - Traditional Certification Pathway, or 31 credit hours including the required applied project course (SED 593) - Theatre Education Track Alternative Certification, or 31 credit hours including the required applied project course (SED 593) - Theatre Education Track Traditional Certification.

Required Core (11 credit hours)

TEL 502 Exploration of Education: Child/Adolescent Development and Foundations of Special Education (3)

TEL 510 Instructional Design, Planning and Assessment (2)

TEL 517 Creating Equitable Learning Environment: Decision Making and Action (3)

TEL 532 Literacy Across the Disciplines (2)

Concentration (6 credit hours)

SED 557 Internship I (2)

SED 567 Internship II (2)

SED 571 Apprentice Teaching I (2)

SED 574 Apprentice Teaching II (2)

SED 576 Internship III (2)

SED 578 Student Teaching in Secondary Education (2)

SED 579 Apprentice Teaching III (2)

SED 596 Residency/Student Teaching (2)

SEI Endorsement (3 credit hours)

ELL 515 Structured English Immersion Methods (3)

Track (7 or 8 credit hours depending on track)

Culminating Experience (3 credit hours)

SED 593 Applied Project (3)

Additional Curriculum Information

Students select one of the alternative certification or traditional certification options and one of the tracks in secondary education, secondary physical education or secondary theatre education.

Alternative pathway students choose six credit hours of apprentice teaching and internship from the concentration coursework. At least four credit hours must be apprentice teaching. Traditional pathway students choose six credit hours of internship and student teaching from the concentration coursework. At least two credit hours must be internship, and at least two credit hours must be student teaching. If a student plans to switch options mid-program, the student must reach out to the academic unit for appropriate advisement.

Students in the physical education track must take PPE 550, PPE 555 and PPE 598. The approved topic for PPE 598 is Conceptual Physical Education. Students choosing the theatre education track must take THE 581 and THP 511. All other tracks must take SED 510 and one additional track requirement, SED 511, SED 512, SED 513 or SED 514.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/secondary-education-teacher-certification/>) for program descriptions and to request more information.

Career Opportunities: Graduates of Mary Lou Fulton Teachers College are highly sought teachers in public, charter and private education institutions. Students gain skills in teaching, conducting research, utilizing technology and collaborating in teams --- all of which prepare them to succeed in educational careers working with learners in grades 6-12.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

To be eligible for secondary certification in Arizona, students must:

pass the appropriate Arizona educator subject knowledge exam, as well as the professional knowledge exam offered through the National Evaluation Series or Arizona Educator Proficiency Assessments
or • hold a conferred bachelor's or master's degree with the content area listed in the degree title, and receive a passing score on the professional knowledge exam offered through the National Evaluation Series or Arizona Educator Proficiency Assessments

Special Education, MA (EDSPEDMA)

Online Degree Search Title: Special Education, MA

Campus: Tempe

This program is not accepting applications at this time. Applicants interested in the MA in Special Education should apply directly to the MA in Special Education (Applied Behavior Analysis), the MA in Special Education (Autism Spectrum Disorders), the MEd in Special Education or the MEd in Special Education (Teacher Certification).

Program Description: The MA program in special education is a noncertification degree program meant to advance the capacity of professionals, communities of practice and school, and other service systems to provide education and related services in inclusive and least-restrictive settings.

Graduates are able to design and deliver education and related services for populations with diverse needs. The skills developed through this degree program include systematic planning for all individuals, support of positive behavior and advocacy for new, research-based approaches to education and related services.

Degree Requirements:

36 credit hours and a thesis, or 36 credit hours and an applied project, or 36 credit hours, a written comprehensive exam and an oral comprehensive exam.

Required Core (3 credit hours)

SPE 525 Measurement, Data Display, Interpretation and Experimental Design (3)

Electives (24 credit hours)

Culminating Experience (3 credit hours)

SPE 593 Applied Project (3) or

SPE 597 Capstone (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in education or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- letter of intent or written statement
- professional resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

Special Education (Applied Behavior Analysis), MA (TESPEABAMA)

Online Degree Search Title: Special Education (Applied Behavior Analysis), MA

Campus: Online

Program Description: Courses for the MA program in special education with a concentration in applied behavior analysis are online and combine an assortment of resources and technologies to provide students with the opportunity to interact directly with program faculty and classmates. Applied projects and assignments allow students to focus on the population with which they plan to work while gaining the knowledge and skills they need in order to use applied behavior analysis across various populations and settings. Program graduates are well prepared to provide applied behavior analysis and evidence-based consultative services and support to clients, organizations, community and family members.

Mary Lou Fulton Teachers College offers university coursework verified by the Association for Behavior Analysis International®; as meeting the coursework requirements for eligibility to sit for the Behavior Analyst Certification Board®; Board Certified Behavior Analyst®; examination. Once certified, these professionals are equipped to meet diverse behavior needs and make a lasting difference in the community. The course sequence meets the Behavior Analyst Certification Board-required 315 classroom hours of graduate-level instruction aligned with the BCBA/BCaBA task list (fifth edition). BCBA-supervised independent fieldwork supervision hours, required for certification, are arranged and completed by the student separately from their ASU coursework. An optional remote BCBA supervised independent fieldwork practicum (SPE 580 Applied Behavior Analysis Practicum) is available.

Degree Requirements:

30 credit hours including the required applied project course (SPE 593), or 30 credit hours including the required capstone course (SPE 597).

Required Core (3 credit hours)

SPE 525 Measurement, Data Display, Interpretation and Experimental Design (3)

Concentration (18 credit hours)

SPE 526 Concepts and Principles of Applied Behavior Analysis (3)

SPE 527 Behavior Analytic Assessment (3)

SPE 560 Behavior Change Procedures: Implementing Interventions in Behavior Analysis (3)

SPE 562 Personnel Supervision and Organizational Behavior Management in Educational Settings (3)

SPE 563 Philosophical Foundations of Applied Behavior Analysis in Educational Settings (3)

SPE 567 Ethics of Applied Behavior Analysis (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)

SPE 593 Applied Project (3) or

SPE 597 Capstone (3)

Additional Curriculum Information

Students may choose to complete a remote supervised independent fieldwork practicum (SPE 580).

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- three letters of recommendation
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The personal statement should demonstrate the applicant's goals with respect to the program outcomes and success in a graduate and online program. The statement should also demonstrate high-quality writing and awareness that the student understands the demands of graduate school.

Three letters of recommendation from individuals who can speak to the applicant's potential for success in a graduate program are required for admission.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-special-education-applied-behavior-analysis/>) for program descriptions and to request more information.

Career Opportunities: Professionals with expertise in evidence-based practices in applied behavior analysis are in high demand across sectors and industries, including education, business and health care.

Career examples include:

- applied behavior analysis therapist
- behavior consultant
- behavior specialist
- board certified behavior analyst
- early interventionist
- educator
- organizational behavior management specialist

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another

state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Special Education (Autism Spectrum Disorder), MA (TESPEASDMA)

Online Degree Search Title: Special Education (Autism Spectrum Disorders), MA

Campus: Online

Program Description: The MA program in special education with a concentration in autism spectrum disorders prepares graduates to provide important services for children and adults with autism spectrum disorders.

Coursework in this program teaches about evidence-based interventions to support individuals with autism spectrum disorders, as well as collaboration and consultation skills that empower educators to most effectively work with families and other professionals. In addition, students learn how to dispel common misconceptions about autism spectrum disorders and how to determine the credibility of sources.

The practicum component of this curriculum enables students to apply the topics covered in theoretical courses to practical scenarios. Candidates build experience supporting individuals with autism spectrum disorders by delivering 45 direct contact hours of approved activities under the direction of a supervisor and instructor.

The master's program requirements align with the autism specialist standards of the Council for Exceptional Children.

Degree Requirements:

30 credit hours including the required applied project course (SPE 593), or 30 credit hours including the required capstone course (SPE 597).

Required Core (3 credit hours)

SPE 525 Measurement, Data Display, Interpretation and Experimental Design (3)

Concentration (12 credit hours)

SPE 521 Foundations of Autism Spectrum Disorders (3)

SPE 540 Family-Centered Practices (3)

SPE 541 Consultation Frameworks and Issues (3)

SPE 566 Applied Behavior Analysis in Inclusive Settings (3)

Electives or Research (9 credit hours)

Other Requirement (3 credit hours)

SPE 680 Practicum (3)

Culminating Experience (3 credit hours)

SPE 593 Applied Project (3) or

SPE 597 Capstone (3)

Additional Curriculum Information

Each student completes a practicum customized to individual interests and abilities. For the culminating experience, students may elect to complete a capstone experience or applied project, based on personal and professional interest and need.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in education, psychology or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts*
- written statement
- professional resume

- three letters of recommendation
- proof of English proficiency

*A transcript must show the bachelor's degree already conferred; in-progress bachelor's degrees are not accepted.

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu>) for program descriptions and to request more information.

Career Opportunities: There is increasing demand for the specialized skills and knowledge needed to properly support children and adults, including family members, impacted by autism. Program graduates are well prepared to provide important services within a variety of roles, including as paraprofessionals, psychologists, speech pathologists, therapists and family members.

Career examples include:

- community support professional
- educator
- interventionist

Special Education (Teacher Certification), MEd (TESECRTMED)

Online Degree Search Title: Special Education (Teacher Certification), MEd

Campus: Online

The Intensive Support Needs - Moderate/Severe traditional and alternative certification pathways are currently not accepting applications.

Program Description: The MEd program in special education with a concentration in teacher certification is for those who already have a bachelor's degree in any field and want to become licensed to teach special education or those who want to pursue dual certification in special education and elementary education. The program builds on connections between educational design and decision-making and is designed to foster strong professional growth and leadership development.

The special education single certification program of study is flexible, and students can complete it within five semesters with the appropriate internship and residency placements. The special education dual certification program can be completed in four or five semesters, depending on the semester start. Students can also enroll part-time over additional semesters.

Two routes are offered that lead to Arizona teacher certification:

- Traditional certification route: Students can pursue single certification in special education for mild/moderate disabilities, or dual certification in special education for mild/moderate levels and elementary education. Students complete an elementary and special education internship during the first two semesters. They then complete two eight-week teaching residencies, one in a special education setting and one in an elementary school setting. Single special education certification graduates earn an institutional recommendation from ASU that is recognized by the Arizona Department of Education for teacher certification in Mild/Moderate Disabilities. Dual certification graduates earn an institutional recommendation from ASU that is recognized by the Arizona Department of Education for teacher certification in Mild/Moderate Disabilities, K-12, and Elementary Education, K-8.
- Alternative certification route: Individuals who are currently employed full time by a school as a teacher of record can pursue an alternative certification route. To qualify, individuals must secure a full-time teaching position in an approved special education setting. This route leads to single certification in special education for mild/moderate disabilities; students are not able to pursue dual certification.

Graduates earn an institutional recommendation from ASU that is recognized by ADE for teacher certification in Mild/Moderate Disabilities, K-12.

The coursework is the same for both certification routes and culminates in an action research project in which students apply what they have learned to address a problem of practice or topic related to education.

Degree Requirements:

34 credit hours including the required applied project course (SPE 593) - Mild-Moderate Alternative Certification Pathway, or 34 credit hours

including the required applied project course (SPE 593) - Mild-Moderate Traditional Certification Pathway, or 40 credit hours including the required applied project course (SPE 593) - Mild-Moderate Traditional Certification Pathway - Dual Elementary Education, or 44 credit hours including the required applied project course (SPE 593) Intensive Support Needs - Moderate/Severe Alternative Certification Pathway, or 44 credit hours including the required applied project course (SPE 593) Intensive Support Needs - Moderate/Severe Traditional Certification Pathway.

Required Core (5 credit hours)

TEL 510 Instructional Design, Planning and Assessment (2)

TEL 517 Creating Equitable Learning Environment: Decision Making and Action (3)

Concentration (6 or 8 credit hours)

Selected from the following according to certification option:

EED 557 Internship I (2)

EED 567 Internship II (2)

EED 582 Residency in Elementary Education for Dual Certification Semester Three Professional Experiences (2)

SPE 556 Internship I (2)

SPE 570 Internship II (2)

SPE 571 Apprentice Teaching I (2)

SPE 574 Apprentice Teaching II (2)

SPE 576 Internship III (2)

SPE 578 Residency/Student Teaching in Special Education (2)

SPE 579 Apprentice Teaching III (2)

SPE 581 Dual Certification Residency (2)

SPE 596 Residency/Student Teaching (2)

SEI Endorsement (3 credit hours)

Track (17, 21 or 27 credit hours)

Mild-Moderate Track (17 credit hours)

Mild-Moderate Traditional Certification Pathway - Dual Elementary Education (21 credit hours)

Intensive Support Needs - Moderate/Severe Track (27 credit hours)

Culminating Experience (3 credit hours)

SPE 593 Applied Project (3)

Additional Curriculum Information

For the single certification concentration requirements, students complete six credit hours of professional experiences. For traditional certification in special education, at least two credit hours must be SPE Internship, and at least two credit hours must be SPE student teaching. For alternative certification in special education, at least four credit hours must be in Apprentice Teaching. Students who switch from Alternative Certification may substitute Apprentice Teaching for Student Teaching with permission from the program. Students who wish to their switch certification option midprogram should reach out to the academic unit for appropriate advisement.

Students who are seeking dual certification in elementary and special education must complete two internships --- one in elementary and one in special education --- and both an EED and SPE student teaching placement; this extends the teaching certification requirement by two credit hours, for a total of eight credit hours. Students who switch from Alternative Certification may substitute Apprentice Teaching for Student Teaching with permission from the program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/special-education-teacher-certification/>) for program descriptions and to request more information.

Career Opportunities: Graduates of Mary Lou Fulton Teachers College are highly sought-out teachers in public, charter and private education institutions. Students gain skills in teaching, conducting research, utilizing technology and collaborating in teams --- all of which prepare them to successfully work with diverse learners in grades K-12.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

To teach in an Arizona public school, graduates must pass the appropriate Arizona educator subject knowledge exam, as well as the professional knowledge exam offered through the National Evaluation Series or Arizona Educator Proficiency Assessments.

Teacher Certification (Certificate), Certificate (TETEACGRCT)

Online Degree Search Title: Teacher Certification (Graduate Certificate)

Campus: Online

Program Description: The graduate certificate in teacher certification is a flexible certification program designed for students who want to obtain teaching licensure in a compressed time frame while working in a classroom or taking the traditional route for certification.

Through online courses, video-based teaching observations and supportive coaching, the certificate qualifies as a pathway to Arizona teacher certification in elementary education, secondary education or special education. Coursework may be completed over the span of two or three semesters, depending on the start date.

There are two pathways for this program:

The alternative pathway requires students to be employed as a full-time teacher of record aligned with their certification area (elementary, secondary or special education) before enrolling in the program.

The traditional pathway allows students to complete an internship and either a residency or student teaching placement in their certification area (elementary, secondary or special education).

Students in this program can choose to transfer credits to a Master of Education in elementary education, Master of Education in secondary education, or Master of Education in special education within three years of starting the graduate certificate program.

Graduates earn an institutional recommendation for Elementary Education, K-8; Secondary Education, 6-12; or Special Education, K-12 Mild/Moderate Disabilities through the Arizona Department of Education.

To be eligible for an elementary, secondary or special education certification in Arizona, students must:

pass the appropriate Arizona educator subject knowledge exam and the professional knowledge exam offered through the National Evaluation Series or Arizona Educator Proficiency Assessments

or • hold a conferred bachelor's or master's degree with the content area listed in the degree title and receive a passing score on the professional knowledge exam offered through the National Evaluation Series or Arizona Educator Proficiency Assessments

Degree Requirements:

25 credit hours - Secondary Education Track - Physical Education, Alternative Certification, or 25 credit hours - Secondary Education Track - Physical Education, Traditional Certification, or 25 credit hours - Secondary Education Track, Alternative Certification, or 25 credit hours -

Secondary Education Track, Traditional Certification, or 28 credit hours - Elementary Education Track, Alternative Certification, or 28 credit hours - Elementary Education Track, Traditional Certification, or 29 credit hours - Special Education Mild/Moderate Track, Alternative Certification, or 29 credit hours - Special Education Mild/Moderate Track, Traditional Certification.

Required Core (5 credit hours)

TEL 510 Instructional Design, Planning and Assessment (2)

TEL 517 Creating Equitable Learning Environment: Decision Making and Action (3)

Tracks (13, 16, or 17 credit hours depending on track to certification)

Elementary Education Track (16)

Secondary Education Track, Traditional or Alternative Certification (13)

Secondary Education Track - Physical Education Traditional or Alternative Certification (13)

Special Education Mild/Moderate Track, Traditional or Alternative Certification (17)

SEI Endorsement (3 credits)

ELL 515 Structured English Immersion Methods (3)

Other Requirements (4 credit hours)

EED 557 Internship I (2)

EED 571 Apprentice Teaching I (2)

EED 574 Apprentice Teaching II (2)

EED 578 Residency/Student Teaching in Elementary Education (2)

SED 557 Internship I (2)

SED 571 Apprentice Teaching I (2)

SED 574 Apprentice Teaching II (2)

SED 578 Residency/Student Teaching in Secondary Education (2)

SPE 556 Internship I (2)

SPE 571 Apprentice Teaching I (2)

SPE 574 Apprentice Teaching II (2)

SPE 578 Residency/Student Teaching in Special Education (2)

Additional Curriculum Information

The courses for the track and other requirements depend on the student's track and route to certification (traditional or alternative).

If a student is on the alternative path for certification and moves over to a traditional path, they can substitute student teaching or residency for apprentice teaching.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- professional resume
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency. The following are accepted to meet this requirement:

- TOEFL: Applicants must have a score of at least 90 on the internet based test (iBT), with scores of 22-30 on the speaking and written portions. ASU's institutional code is 4007. Only electronic copies of scores are accepted.
- IELTS: Applicants must have an overall band score of at least 6.5, and speaking and writing portions need to be at least 6.5 (6 = Competent User, 7 = Good User). No institutional code is needed.

The personal statement should describe the personal and professional goals that motivated applicant to apply to the graduate certificate, and explain what led them to this career path and how they will excel as an educator. The admission committee pays particular attention to the quality of writing and ideas expressed in the personal statement.

The professional resume should be one to two pages and include relevant personal, professional, educational and community activities.

The personal statement and professional resume should be prepared in an MS Word (.doc), Rich Text (.rtf), Portable Document Format (.pdf), or Text (.txt) file format.

Fingerprint clearance is required for enrollment in the first term of placement. A copy of the applicant's IVP fingerprint clearance card (front and back) should be included or a copy of the Arizona DPS fingerprint card application if the IVP card has not yet been acquired at the time of program application. Students should visit the DPS site for information on applying for and receiving an IVP fingerprint clearance card. For out-of-state students, confirmation of fingerprint clearance or a background check in the host state is equivalent to IVP fingerprint clearance.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/certificates/graduate-teacher-certification/>) for program descriptions and to request more information.

Career Opportunities: Graduates of Mary Lou Fulton Teachers College are highly sought-after teachers in public, charter and private education institutions. Students gain skills in teaching, using technology and collaborating in teams, all of which prepare them to succeed in a career educating learners in elementary education (grades K-8) or secondary education (grades 6-12).

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. Technology for Teaching and Learning (certificate), Certificate (EDEDTTGRCT)

Online Degree Search Title: Technology for Teaching and Learning (Graduate Certificate)

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description: The graduate certificate in technology for teaching and learning is geared toward classroom teachers who want to become skilled in integrating technology in the curriculum.

Students acquire the knowledge and skills needed for meeting the National Education Technology Standards for Teachers, developed by the International Society for Technology in Education and being adopted by the National Council for Accreditation for Teacher Education.

The certificate program can be completed within two years.

Degree Requirements:

15 credit hours including the required capstone course (EDT 591).

Students must successfully complete four out of a possible six educational technology courses before completing a three credit hour required capstone course.

Admission Requirements: Applications are currently closed.

Undergraduate Programs

Minors (Program Descriptions and Requirements)

African and African American Studies Minor (LAAFRMIN)

Campus: Tempe, Online

Description: The minor program in African and African American studies examines the culture, arts, history, politics, economics and current status of African Americans, Africans and the African Diaspora, especially in the Caribbean, Central America and South America.

The goal is to prepare students for lifelong learning, advanced study in a variety of fields, and successful careers and productive public service in an increasingly diverse society.

Program Requirements:

The minor requires completion of 18 credit hours. At least 12 credit hours must be completed at the upper-division level and a grade of "C" (2.00 on a 4.00 scale) or better is required for all courses.

Required Core Course -- 3 credit hours

AFR 200: Introduction to Africana Studies (GCSI OR SB & G & H) (3)

Elective Core Course (choose one) -- 3 credit hours

AFR 300: Precolonial Africa (GCSI OR SB & G & H) (3)

AFR 301: Race and Racism in Africa/African Diaspora (SB & G) (3)

AFR 302: History of Black Women in America (SB & H) (3)

AFR 305: The Global History of the Trans-Atlantic Slave Trade (GCSI OR SB & H) (3)

Electives -- 12 credit hours

AFR Upper Division Elective (12)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in African and African American studies

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in African and African American studies can provide knowledge and skills that enable graduates to bring social justice concerns to a variety of professional careers, including law, education, public service, and human welfare and social work.

Aging Minor (ASALDMIN)

Campus: West

Description: People are living longer. While this represents one of the crowning achievements of the last century, it is also a significant challenge. Longer lives must be planned for.

ASU's minor program in aging offers students the opportunity to create positive differences in the lives of older adults. This program helps students develop the tools and mindset that enable them to anticipate challenges in existing social structures at every level as the proportion of retired adults increases faster than that of persons in the workforce. Students learn to develop solutions for an aging population's needs in areas of personal finance, transportation, increased demands for health care, assisted-living options and recreation.

Program Requirements:

The minor in aging consists of 15 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Social and Behavioral Sciences. Credit hours may not be shared between major and minor requirements. All courses used to fulfill the requirements of this minor must be passed with a "C" (2.00) or better.

Introductory Coursework (choose one) -- 3 credit hours

ASB 102: Introduction to Cultural Anthropology (GCSI OR SB & G) (3)

PSY 101: Introduction to Psychology (SOBE OR SB) (3)

SOC 101: Introductory Sociology (SOBE OR SB) (3)

Aging Core (choose two) -- 6 credit hours

Classes selected for the Aging Core may not also apply to the Aging Electives.

COM 417: Communication and Aging (3)

FAS 436: Sexuality in Mid-Life and Beyond (3)

IAS 450: Philosophical and Spiritual Issues in Death and Dying (3)

PSY 447: Psychology of Aging (SB) (3)

SOC 400: Perspectives on Aging (SB) (3)

SOC 418: Aging and the Life Course (SOBE OR SB & H) (3)

Upper Division Aging Electives (complete two courses) -- 6 credit hours

Classes not selected for the Aging Core may be chosen and applied towards the Aging Electives.

COM 417: Communication and Aging (3)

FAS 436: Sexuality in Mid-Life and Beyond (3)

HSC 410: Supporting the Health of Older Adults (3)

HSC 412: Health Issues in Later Life (3)

IAS 450: Philosophical and Spiritual Issues in Death and Dying (3)

PSY 447: Psychology of Aging (SB) (3)

SOC 400: Perspectives on Aging (SB) (3)

SOC 418: Aging and the Life Course (SOBE OR SB & H) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BS in aging

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: The minor in aging is a pathway to a career researching, developing policies for, or providing services to older populations. Employment in associated career fields is expected to increase commensurately with the needs of a growing and diverse population. People who work with aging populations are employed in public and private agencies that deal with a wide variety of social issues, including:

- access to health care
- assisted-living facilities and management
- education
- disabilities

- discrimination
- elder abuse and family support
- health, mental health and end-of-life decisions
- housing
- recreational opportunities
- transportation

American Indian Studies Minor (LAAISMIN)

Campus: Tempe

Description: The minor in American Indian studies teaches students about Indigenous sovereignty, culture, government relations and current events. In addition to these core topics, the minor offers students a breadth of options to gain deeper insights into their areas of interest, including human rights, Indigenous literature and philosophies, tribal governance and more.

Program Requirements:

The minor in American Indian studies requires 18 credit hours. At least 12 hours must be upper-division coursework, and all courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 9 credit hours

AIS 180: Introduction to American Indian Studies (SOBE OR C) (3)

AIS 285: Federal Indian Policy (CIVI OR H & C) (3)

AIS 380: Contemporary Issues of American Indian Nations (C) (3)

Electives (select three) -- 9 credit hours

AIS 320: American Indian Philosophies and World Views (HUAD OR HU & C) (3)

AIS 360: Issues in Urban Indian Country (C) (3)

AIS 381: American Indian Women (C) (3)

AIS 385: Entrepreneurship for American Indian Sustainability (3)

AIS 440: Cultural Professionalism (C) (3)

AIS 455: Human Rights and Cultural Resource Laws (3)

AIS 470: Tribal Governance (3)

AIS 480: Actualizing Decolonization (HU & C & G) (3)

AIS 484: Internship (3)

AIS 499: Individualized Instruction (3)

ENG 359: Indigenous American Literature ((L or HU) & C) (3)

HST 337: American Indian History to 1900 (HUAD OR (HU or SB) & C & H) (3)

HST 338: American Indian History since 1900 (HUAD OR (HU or SB) & C & H) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BS in American Indian studies

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Many industries, including American Indian economies, infrastructures and school systems, are in need of qualified people who are knowledgeable about Indigenous cultures, laws and policies. Graduates who combine the American Indian studies minor with their major are better prepared to serve in roles that protect, serve and advocate for American Indian communities.

American Studies Minor (ASAMSMIN)

Campus: West

Description: The American studies minor program gives students the opportunity to pursue an interest in the interdisciplinary examination of American culture. This minor is particularly appropriate for students majoring in humanities or social sciences disciplines.

Program Requirements:

The minor in American Studies consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Humanities, Arts, and Cultural Studies. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Core Requirements -- 6 credit hours

AMS 201: Introduction to American Studies (HUAD OR (L or HU) & C) (3)

HRC 200: Introduction to Social and Cultural Analysis (CIVI OR SB & C) (3)

Upper Division Electives -- 12 credit hours

AMS 326: Popular Culture (3)

AMS 330: American Lives (HUAD OR HU & C) (3)

AMS 332: Studies in Race and Ethnicity (3)

AMS 334 / ETH 333 / WST 334: Class in America (SB) (3)

AMS 336 / ENG 334 / ETH 334: The American Southwest in Literature and Film (HUAD OR HU & C) (3)

AMS 353 / ENG 353 / ETH 353: African American Literature: Beginnings through the Harlem Renaissance ((L or HU) & C) (3)

AMS 354 / ENG 354 / ETH 354: African American Literature: Harlem Renaissance to the Present (HUAD OR (L or HU) & C) (3)

AMS 380 / ETH 380 / WST 380: Race, Gender, and Class (SOBE OR SB & C) (3)

AMS 412: Studies in American Politics and Law (3)

AMS 428 / ETH 428 / LAS 428: Peoples and Cultures of the American West, to 1848 (SB & H) (3)

AMS 449 / ETH 449 / WST 449: Hate Speech, Manifestos, and Radical Writings (CIVI OR SB & C) (3)

AMS 450 / ETH 450 / LAS 450: Latina/os, Schooling and Social Inequality (C) (3)

AMS 469 / ETH 469 / WST 469: Abject Bodies and the Politics of Trash (SB & C) (3)

ENG 337: Major American Novels (L or HU) (3)

FOR 454 / HST 454 / REL 454: History of Genocide (GCSI OR G & H) (3)

HST 320: U.S. Urban History since 1850 (SB & H) (3)

HST 337: American Indian History to 1900 (HUAD OR (HU or SB) & C & H) (3)

HST 413: Contemporary America (HUAD OR (L or SB) & H) (3)

HST 419 / LAS 419: 20th Century Chicano/a History (C) (3)

REL 321: Religion in America (HUAD OR (L or HU) & C & H) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in social and cultural analysis (American studies); BA in American studies

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: This minor is ideal preparation for students seeking employment in the following careers:

- archivist
- copy writer

- editor
- high school teacher
- historian
- history professor
- journalist
- lawyer
- middle school teacher
- museum curator
- political analyst

Animation Minor (HIANIMMIN)

Campus: Tempe, Online

Description: The animation minor program is an opportunity for students across ASU to pursue their interest in art and expand any career path with critical thinking and creative problem-solving skills. Across six courses, students learn animation techniques and concepts. Students can pursue multiple courses in 2D, 3D or stop-motion animation, or they can concentrate within just one of those areas.

This minor is ideal for students interested in using moving art to help communicate ideas, persuade others or help people understand concepts within their field. Many areas of study will find this program beneficial to help bring their knowledge and ideas into life, including communication, health sciences, psychology and urban planning.

Program Requirements:

The minor in animation requires 18 credit hours, of which nine credit hours must be upper division. All courses must be completed with a minimum grade of "C" (2.00).

Required Core Courses -- 6 credit hours

ARS 445: History of Animation or ARS 394: Anime (3)

ART 116: Introduction to Digital Media (3)

Lower-division Course (choose one) -- 3 credit hours

ART 212: Figure Drawing for Animation (3)

ART 217: Introduction to Computer Animation (3)

ART 294: Basics of Stop Motion (3)

ART 294: Introduction to Storyboarding (3)

Upper-division Studio Courses (choose three) -- 9 credit hours

ART 308: 2D Digital Animation I (3)

ART 309: 2D Digital Animation II (3)

ART 346: 3D Computer Imaging and Animation (QTRS OR CS) (3)

ART 348: Animation Motion Studies (3)

ART 394: 3-D Digital Modeling (3)

ART 394: 3D Visual Effects (3)

ART 417: Storyboarding and Narrative Sequencing (3)

ART 424: Stop Motion Animation (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BFA in Art (Animation)

Other Enrollment Requirements: None

on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. When combining this minor with their major program of study, students can find employment in:

- animation
- communications
- content creation
- data analytics
- marketing
- medical animation
- planning
- policy advocacy
- public relations
- sales
- urban planning

Anthropology Minor (LAASBMIN)

Campus: Tempe, Online

Description: A minor in anthropology completes the academic experience with a focus on the lessons and people that make human societies interesting and challenging to understand, both in the past and in modern times.

An evolutionary anthropology focus is perfect for a premedical track in which a broad evolutionary perspective is important for understanding disease processes. A focus on sociocultural anthropology provides an understanding of human interaction and how social groups function.

Coursework and anthropological training complement many majors. Students enhance their critical thinking skills, learn how to problem-solve creatively and better understand themselves and others.

Program Requirements:

The anthropology minor requires a minimum of 18 credit hours, at least 12 of which must be upper division. Only courses completed with a grade of "C" (2.00 on a 4.00 scale) can be used to fulfill minor requirements.

The minor in anthropology is also available in an online format to complement the studies of ASU Online students.

Required Introductory Courses (choose two) -- 6 credit hours

ASB 102: Introduction to Cultural Anthropology (GCSI OR SB & G) (3)

ASB 222: Buried Cities and Lost Tribes (HUAD OR (HU or SB) & G & H) or ASB 223: Aztecs, Incas and Mayas (SOBE OR (HU or SB) & G & H) (3)

ASM 104: Bones, Stones, and Human Evolution (SCIT OR SG) (4)

Upper-Division Subfield Courses -- 12 credit hours

Students choose 12 upper-division credit hours from the subfields of archaeology, evolutionary anthropology and sociocultural anthropology (including linguistics). The particular required introductory courses selected may limit the courses available for use as subfield courses. At least two of the three subfields must be represented. (12)

Archaeology Subfield

ASB 301 / HST 301: Global History of Health (HUAD OR SB & G & H) (3)

ASB 326: Human Impacts on Ancient Environments (SUST OR SB & H) (3)

ASB 330: Understanding Archaeology (SOBE OR SB & G & H) (3)

ASB 333: Frauds, Myths and Mysteries (HUAD OR (HU or SB) & G) (3)

ASB 335: Ancient Ruins of the Southwest (SOBE OR SB & H & C) (3)

ASB 337: Pyramids and Hieroglyphs: Life in Ancient Mesoamerica (GCSI OR (HU or SB) & G & H) (3)

ASB 338: Archaeology of North America (SOBE OR SB) (3)
 ASB 361: Human Cultural Beginnings (SOBE OR H) (3)
 ASB 362: People and Plants (3)
 ASB 366 / AFR 366: African Archaeology: Precolonial Urban Culture (SB & H) (3)
 ASB 368: Hunter-Gatherers (SOBE OR SB) (3)
 ASB 490: Earliest Cities (SB & H) (3)
 ASM 338: Bioarchaeology and the Human Skeleton (9)
 ASM 338: Field Archaeology & Geophysical Testing (9)
 ASM 350: Geoarchaeology (3)
 ASM 365: Doing Archaeology (3)
 ASM 450: Bioarchaeology (GCSI OR G) (3)
 ASM 494: Archaeoinformatic Methods for Fieldwork (3)

Physical Subfield

ASB 301 / HST 301: Global History of Health (HUAD OR SB & G & H) (3)
 ASB 368: Hunter-Gatherers (SOBE OR SB) (3)
 ASB 394: Modeling Simulation Neglected Tropical Diseases (3)
 ASB 408: Advanced Evolutionary Medicine (3)
 ASB 448: Maternal and Child Health (3)
 ASB 494: Applied Epidemiology (3)
 ASB 494: Reproductive Ecology (3)
 ASM 301: Peopling of the World (SOBE OR SB) (3)
 ASM 313: Great Adaptations (3)
 ASM 332: Life and Death in Ancient Egypt (3)
 ASM 338: Bioarchaeology and the Human Skeleton (9)
 ASM 341: Human Osteology (4)
 ASM 342 / BIO 327: Evolution of Human Behavior (3)
 ASM 344: Fossil Hominins (4)
 ASM 345: Disease and Human Evolution (3)
 ASM 394: Evolution and Medicine Visiting Speaker Recitation (1)
 ASM 401: Health and Human Biology (3)
 ASM 403: Evolutionary Medicine and Global Health (3)
 ASM 443: Primatology (3)
 ASM 446 / BIO 446: Principles of Human Genetics (L) (3)
 ASM 450: Bioarchaeology (GCSI OR G) (3)
 ASM 452: Dental Anthropology (SG) (4)
 ASM 456: Infectious Disease and Human Evolution (3)
 ASM 459: Forensic Anthropology (3)
 ASM 460: Human Growth and Development: An Evolutionary Perspective (3)
 ASM 463: A Practical Guide to Bayesian Data Analysis (QTRS OR CS) (3)
 ASM 465: Quantification and Analysis for Anthropologists (3)
 ASM 466: The Evolution of Preindustrial Technology (3)
 ASM 494: Evolution and Mental Disorders (3)
 ASM 494: Models in Social Evolution (3)
 ASM 494: Social Complexity (3)

Sociocultural Subfield

ASB 300: Food and Culture (SOBE OR (L or SB) & C) (3)
 ASB 302: Ethnographic Field Study (GCSI OR SB & G) (3)
 ASB 305: Poverty and Global Health (CIVI OR (L or SB) & C) (3)
 ASB 310 / AFR 300: Precolonial Africa (GCSI OR SB & G & H) (3)
 ASB 311: Principles of Social Anthropology (GCSI OR SB & G & H) (3)
 ASB 316: Money and Culture (L or SB) (3)
 ASB 319: The North American Indian (3)
 ASB 322: Peoples of Latin America (GCSI OR (L or SB) & G) (3)
 ASB 325: Peoples of Southeast Asia (3)
 ASB 327: Disaster! (SUST OR (L or SB) & C) (3)
 ASB 336 / AFR 336: African Art (HU & G) (3)
 ASB 339 / POS 339 / SBS 339 / SOC 339: Grassroots Social Movements (SB) (3)
 ASB 340 / SOC 328: Migration and Culture (GCSI OR SB & G) (3)
 ASB 342 / SBS 342 / SOC 342: Mexico-U.S. Borderlands (SB & C) (3)
 ASB 343 / PUP 343 / SOS 343 / TCL 343: Latinas/os and the Environment (3)
 ASB 344 / SOC 334: Technology and Society (SOBE OR L or SB) (3)
 ASB 345: Culture and Society Transformation (GCSI OR SB & G) (3)

ASB 346: Marriage and Family Diversity (SOBE OR SB & C) (3)
ASB 348: The Borders of Language (L) (3)
ASB 350: Anthropology and Art (HUAD OR HU) (3)
ASB 353 / SOC 353: Death and Dying in Cross-Cultural Perspective (GCSI OR (HU or SB) & G) (3)
ASB 355: Traditional Medicine and Healing (HU or SB) (3)
ASB 356 / GCU 356 / POS 354 / SBS 356 / SOC 356: Central American Studies (3)
ASB 357: Society, Drugs and Health (SOBE OR SB & G) (3)
ASB 358 / AFR 358: The Yoruba and the Atlantic World (3)
ASB 370 / SOS 370: Ethics of Eating (SUST OR L or SB) (3)
ASB 371 / HST 371 / SLC 371 / SPA 371 / TCL 371: Language Hegemony and Culture (3)
ASB 374 / POS 374 / SBS 374 / SOC 374: Cultures and Politics of the Internet (SB) (3)

ASB 443 / SSH 403: Cross-Cultural Studies in Global Health (GCSI OR (L or SB) & G) (3)
ASB 447 / POS 447 / SBS 447: Citizenship, Nationalism and Identity (CIVI OR SB & C & G) (3)
ASB 452: Community Partnerships for Global Health (GCSI OR SB) (3)
ASB 455: Practicum for Social Sciences (3)
ASB 457: Global Mental Health (GCSI OR (L or SB) & G) (3)
ASB 462: Medical Anthropology: Culture and Health (SOBE OR SB & C) (3)
ASB 463 / SOS 463 / TCL 443: Political Ecology of the Border (3)
ASB 464 / TCL 444: The Ethnography of Mexico and the Borderlands (3)
ASB 466 / AFR 466: Peoples and Cultures of Africa (SB & G) (3)
ASB 494: Ethnic Disparities and Health (3)
ASB 494: Ethnography of Schooling in the Borderlands (3)
ASB 494: Facing Immigration (3)
ASB 494: Health: Social and Biocultural Theories (3)
ASB 494: Monitoring, Evaluation, and Learning (3)
ASB 494 / BIO 494: One Health (3)
ASB 494: Qualitative Data Analysis (3)
ASB 494: Research Design for Global Health (3)
ASM 414: Urban, Environmental and Health Challenges (SUST OR SB) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in anthropology; BS in anthropology

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: As the many spheres of human interaction expand globally, people trained in anthropology are increasingly sought-after for their broad, holistic knowledge and perspectives --- which are the hallmarks of anthropology --- giving them a competitive edge in the workforce.

An anthropology minor provides graduates with skills beneficial in any career field that requires understanding human behavior and its motivations,
2024-25 Academic Catalog Archive 1625

including medicine, marketing, business, consulting and human resources.

Career opportunities include positions as:

- cultural consultants
- curators
- forensic scientists
- health care administrators
- laboratory technicians
- nonprofit leaders
- policy analysts
- program directors
- public health professionals
- researchers and professors

Applied Biological Sciences Minor (TSABSMIN)

Campus: Polytechnic

Description: The applied biological sciences minor is a rigorous and practical program that can help students understand the interrelationships among evolution, natural history, and the conservation of plants and animals.

Consistent with a polytechnic vision, this minor involves extensive student interaction with faculty through experience-based learning activities, including:

- faculty-guided research
- field trips
- internships
- laboratories
- service-learning projects

Mastery of fundamental biological principles is emphasized through quality learning in the classroom, as well as hands-on activities in laboratories and outdoor settings that include the Sonoran Desert, surrounding ecosystems and the landscape of the greater Phoenix area.

Program Requirements:

The applied biological sciences minor consists of 23 credit hours. Students must complete 15 credit hours in courses offered by the College of Integrative Sciences and Arts.

Required Courses -- 11 credit hours

ABS 270: Sustainable Biological Systems (3)
BIO 181: General Biology I (SCIT OR SQ) (4)
BIO 182: General Biology II (SCIT OR SG) (4)

Electives -- 12 credit hours

ABS Elective (3)
ABS Upper Division Elective (9)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: All applied biological sciences, biological sciences or biology majors at ASU

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in applied biological sciences can help students as they pursue graduate study in professional programs like medicine, health or veterinary studies.

Applied Computing Minor (ASACOMIN)

Campus: West

Description: The minor program in applied computing combines technical computing skills with an understanding of the impact of computer science in applicable contexts.

Coursework in the minor provides students with a depth of knowledge in databases, networks and systems, and it adds a computational component to their major field of study.

The program is offered by the School of Mathematical and Natural Sciences.

Program Requirements:

The minor in applied computing consists of 15 credit hours of coursework, of which a minimum of nine hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Mathematical and Natural Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Core Requirements -- 15 credit hours

ACO 201: Data Structures and Algorithms (QTRS OR CS) (3)

ACO 240: Introduction to Programming Languages (3)

ACO 320: Database Systems (3)

ACO 330: Computer Networks (3)

ACO 350: Systems Programming (QTRS OR CS) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BS in applied computing; BS in applied computing (cybersecurity); BS in computational forensics

Other Enrollment Requirements: Students must complete ACO 102 Object-oriented Programming, MAT 210 Brief Calculus, and MAT 243 Discrete Mathematical Structures/300 Mathematical Structures with a "C" or better as prerequisites to coursework in the minor.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Computational and problem-solving skills are in demand in a multitude of career fields, including cybersecurity, web administration, business, government, education, science, medicine and telecommunications.

The applied computing curriculum provides a solid background for employment as:

- computer network administrators
- computer network technicians

- computer programmers
- computer systems analysts
- database administrators
- information security analysts
- information technology managers
- software developers
- software engineers
- web developers

Applied Ethics Minor (ASAPETHMIN)

Campus: West, Online

Description: Students who pursue the applied ethics minor have the opportunity to develop their critical thinking, reading and writing capacities while exploring philosophy and ethical theory. They do so in a manner that explicitly complements their major: by focusing their minor coursework on ethical concepts that are discipline-specific. This program provides students an opportunity to gain a humanistic perspective on a nonhumanities field of study such as health sciences, business and computer science, thereby adding nuance and depth to their educational experience.

Program Requirements:

The minor in applied ethics consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Humanities, Arts and Cultural Studies. All courses must be completed with a minimum grade of "C" (2.00 on a 4.00 scale) or better.

Program requirements include three credit hours of required courses and fifteen credit hours of electives. Students may complete their fifteen credit hours of electives from within one of the recommended tracks or from multiple areas.

Required -- 3 credit hours

IAS 406 / PHI 406 / FOR 406: Moral Dilemmas (L or HU) (3)

Applied Ethics Electives -- 15 credit hours

Complete five courses (15 credit hours) from within one track area or from multiple areas to meet the requirement. (15)

Bioethics Track

DST 322: Social and Cultural Implications of the Many Forms of Disability (3)

DST 458: Disability and Communication Advocacy (3)

IAS 340 / PHI 320 / BIO 312: Bioethics (HUAD OR HU) (3)

IAS 450 / PHI 450: Philosophical and Spiritual Issues in Death and Dying (3)

LSC 362: The Human Environment (3)

LSC 363: Genes, Race, Gender, and Society (3)

PHI 306: Applied Ethics (CIVI OR HU) (3)

PSY 447: Psychology of Aging (SB) (3)

SOC 400: Perspectives on Aging (SB) (3)

Environmental Ethics Track

IAS 407 / PHI 407: Environmental Philosophy and Policy (L or HU) (3)

IAS 409 / PHI 409: Eco-Community Ethics (HU) (3)

LSC 362: The Human Environment (3)

LSC 394: Environmental Disasters (3)

PHI 306: Applied Ethics (CIVI OR HU) (3)

PHI 310 / BIO 324: Environmental Ethics (SUST OR HU) (3)

Business Ethics Track

ACO 402 / CIS 402: Privacy, Ethics and Compliance Issues (3)

IAS 407 / PHI 407: Environmental Philosophy and Policy (L or HU) (3)

IAS 409 / PHI 409: Eco-Community Ethics (HU) (3)

LES 305: Business Law and Ethics for Managers (3)

PHI 306: Applied Ethics (CIVI OR HU) (3)

PHI 360: Business and Professional Ethics (HUAD OR HU) (3)
POS 300: Contemporary Global Controversies (GCSI OR SB & G) (3)

Social Sciences and Ethics Track

DST 322: Social and Cultural Implications of the Many Forms of Disability (3)
DST 458: Disability and Communication Advocacy (3)
ENG 401: Topics in Critical Theory (3)
IAP 222: Games and Ethics (HUAD OR HU) (3)
IAS 417 / PHI 417: Philosophy of Censorship (L or HU) (3)
IAS 450 / PHI 450: Philosophical and Spiritual Issues in Death and Dying (3)
PAX 230: Introduction to Peace Studies (G) (3)
PHI 304: Existentialism (HUAD OR HU) (3)
PHI 306: Applied Ethics (CIVI OR HU) (3)
PHI 307: Philosophy of Law (AMIT OR HU) (3)
PHI 439: Philosophy of Love and Sex (HU) (3)
PSY 447: Psychology of Aging (SB) (3)
SOC 400: Perspectives on Aging (SB) (3)

Religion and Ethics Track

CRJ 423 / FOR 413 / REL 413: Sacred Crimes: Religion and Violence (GCSI OR G & H) (3)
IAS 430: Science and Religion (HUAD OR HU) (3)
IAS 450 / PHI 450: Philosophical and Spiritual Issues in Death and Dying (3)
PHI 303 / REL 300: The Future of Religions (HUAD OR L or HU) (3)
PHI 304: Existentialism (HUAD OR HU) (3)
PHI 306: Applied Ethics (CIVI OR HU) (3)
PHI 421: The Ethics of Belief (3)
REL 321: Religion in America (HUAD OR (L or HU) & C & H) (3)
REL 381: Religion and Moral Issues (HUAD OR L or HU) (3)
REL 390 / WST 390: Women, Gender and Religion (GCSI OR HU & G) (3)
REL 413: Sacred Crimes: Religion and Violence (GCSI OR G & H) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in philosophy, religion and society

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: A minor in applied ethics can help students toward their career goals in the health sciences, law, business, technology, ministry, journalism, counseling, politics or education.

Applied Mathematics Minor (ASAPMMIN)

Campus: West

Description: Mathematical modeling is a fundamental tool of modern science and engineering in which a firm grasp of the underlying processes in

a system is synthesized into quantitative predictions. A minor in applied mathematics provides students the mathematical language required to analyze existing models and produce new models for new questions.

The foundational tools in this minor are calculus, differential equations and linear algebra. When combined, these concepts provide a powerful new lexicon that unlocks the majority of models throughout science and engineering.

Upper-level electives grant students in the applied mathematics minor the opportunity to focus in specialty areas such as the study of chaos, mathematical biology, partial differential equations or optimization. Expertise in these areas is becoming increasingly important for students who expect to participate in careers requiring analysis or modeling of applicable situations.

Program Requirements:

The minor in applied mathematics consists of 20 credit hours of coursework, of which a minimum of nine hours must be upper division. A minimum of nine upper-division credit hours must be completed through courses offered by the School of Mathematical and Natural Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Required -- 14 credit hours

MAT 271: Calculus with Analytic Geometry II (MATH OR MA) (4)

MAT 272: Calculus with Analytic Geometry III (MATH OR MA) (4)

MAT 275: Modern Differential Equations (MATH OR MA) (3)

MAT 343: Applied Linear Algebra (3)

Electives -- 6 credit hours

MAT 300: Mathematical Structures (L) (3)

MAT 350: Techniques and Applications of Applied Mathematics (3)

MAT 371: Advanced Calculus I (3)

MAT 421: Applied Computational Methods (MATH OR CS) (3)

MAT 422: Mathematical Methods in Data Science (3)

MAT 451: Mathematical Modeling (CS) (3)

MAT 494: Special Topics (1-4)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BS in applied mathematics; BA or BS in mathematics; BS in applied mathematics for the life and social sciences

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Career opportunities for a student with a minor in applied mathematics include:

- bioinformatics scientist
- business intelligence analyst

Applied Mathematics Minor (LSAPMMIN)

Campus: Polytechnic

Description: The minor program in applied mathematics in the College of Integrative Sciences and Arts enables students to understand and apply mathematics most commonly used in the fields of business, economics, engineering, physics, computer sciences, life sciences, social sciences and sustainability. This minor is recommended for students who plan to major in these diverse fields, who are preparing for further graduate study, or who seek increased employment options.

The coursework explores the study of advanced applied mathematical topics with an emphasis on applied sciences. Students with a minor in applied mathematics learn to use theories and techniques, such as mathematical modeling, computational methods and statistics to resolve practical problems.

Program Requirements:

The applied mathematics minor consists of 21 credit hours, of which 12 must be upper division. At least 12 credit hours of MAT courses must be offered by the College of Integrative Sciences and Arts, of which at least six credit hours must be upper division.

A minimum of 15 credit hours of the minor must be earned at ASU.

Required Courses -- 12 credit hours

MAT 266: Calculus for Engineers II (MATH OR MA) or MAT 271: Calculus with Analytic Geometry II (MATH OR MA) (3-4)

MAT 267: Calculus for Engineers III (MATH OR MA) or MAT 272: Calculus with Analytic Geometry III (MATH OR MA) (3-4)

MAT 275: Modern Differential Equations (MATH OR MA) (3)

MAT 343: Applied Linear Algebra (3)

Electives (choose three courses) -- 9 credit hours

ABS 350: Applied Statistics (QTRS OR CS) or STP 420: Introductory Applied Statistics (QTRS OR CS) (3)

ASC 310: Elements of Scientific Computing (3)

MAT 300: Mathematical Structures (L) (3)

MAT 310: Introduction to Geometry (3)

MAT 350: Techniques and Applications of Applied Mathematics (3)

MAT 494: Fish Population Dynamics (3)

MAT 495: Undergraduate Research or MAT 499: Individualized Instruction (3-4)

PHY 302: Mathematical Methods in Physics II (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BA in applied mathematics

Other Enrollment Requirements: MAT 265 or 270 with a "C" or better.

The minor in applied mathematics is open to all ASU undergraduate majors. Students should consult an advisor in the department of their major to determine if the minor is consistent with their educational goals and to be recognized in their particular major.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in applied math can help students use mathematical modeling and computational methods as they pursue careers in biology, natural science management or pathology.

Arabic Studies Minor (LAARBMIN)

Campus: Tempe

Description: The minor program in Arabic studies provides students with instruction in Modern Standard Arabic as well as Arabic, Middle Eastern and Islamic literature, culture and civilization. Students completing the prescribed coursework are expected to be able to communicate effectively in Arabic, interact with native speakers, read authentic material in Arabic and write in Modern Standard Arabic.

Students of all academic disciplines doing research or seeking employment in areas related to the Middle East or other parts of the Arab world can find this minor program highly beneficial. Participants of this program are encouraged to participate in a study abroad program (<https://silc.asu.edu/silc-studyabroad>) to gain an immersive educational experience.

Program Requirements:

The minor in Arabic studies requires 28 credit hours of courses detailed below. A minimum grade of "C" (2.00 on a 4.00 scale) or better is required in each course. Course substitutions are allowed for heritage and advanced speakers of the language.

Required Courses -- 25 credit hours

ARB 201: Intermediate Arabic I (G) (5)

ARB 202: Intermediate Arabic II (G) (5)

ARB 311: Advanced Arabic Skills I or ARB 315: Advanced Arabic for Heritage Speakers (3)

ARB 331: Arabic/Islamic Culture and Literature (GCSI OR HU & H & G) (3)

ARB 341: Quran Text and Women (GCSI OR HU & H) or ARB 351: Classical Arabic Literature (HU & G) (3)

ARB 352: Modern Arabic Literature in Translation (HU & G) or ARB 422: Advanced Arabic Media (G) (3)

ARB 411: Advanced Arabic Skills II (G) (3)

Related Area (choose one) -- 3 credit hours

AFR 372: Islam and Islamic Societies in Africa: Social and Political History (3)

AFR 373: Islam and World Affairs (3)

AFR 480: Different Voices Within Contemporary Islamic Discourse (3)

ARB 321: Arabic Conversation I (3)

ARB 335: Arabic Culture and Islam (GCSI OR G) (3)

ARB 336: Introduction to the Qur'an (GCSI OR G) (3)

ARB 337: Hadith and Prophetic Tradition (HU & H & G) (3)

ARB 340: Arabic Translation (3)

ARB 341: Quran Text and Women (GCSI OR HU & H) (3)

ARB 351: Classical Arabic Literature (HU & G) (3)

ARB 352: Modern Arabic Literature in Translation (HU & G) (3)

ARB 360: Islamic Philosophical Literature (3)

ARB 394: Colloquial Arabic: Levantine (3)

ARB 421: Arabic Conversation II (3)

ARB 422: Advanced Arabic Media (G) (3)

ARB 427: Arabic Prose: Reading the Arabian Nights (3)

ARB 428: Gender and Sexuality Discourse in the Middle East (HU & G) (3)

HST 372: Modern Middle East (GCSI OR SB & G & H) (3)

REL 365: Islamic Civilization (HU & H) (3)

REL 366: Islam in the Modern World (GCSI OR HU & G) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BA in international letters and cultures (Arabic studies)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Architectural Studies Minor (ARSTDMIN)

Campus: Tempe

Description: The minor program in architectural studies at The Design School provides an overview of architecture throughout history while focusing on architectural design, enabling students to explore and apply architectural thinking.

Program Requirements:

A minimum of 18 credit hours (including nine credit hours of upper-division coursework) are required for the minor. A minimum grade of "C" (2.00) is required in all classes for the minor.

A minimum GPA of 2.50 in minor courses is required to earn the minor in architectural studies.

Architecture Project (choose one) -- 3 credit hours

ARC 101: Architecture Project I (3)

ARC 102: Architecture Project II (3)

Architecture of Architecture (choose one) -- 3 credit hours

ARC 111: Architecture of Architecture I (3)

ARC 112: Architecture of Architecture II (3)

Upper Division Architecture Electives -- 9 credit hours

APH 494: Frank Lloyd Wright (3)

APH 494: Peter Zumthor (3)

APH 494: The Image of Rome (3)

ARC 301: Architecture Project V (3)

ARC 302: Architecture Project VI (3)

Art History Minor (FAARTHMIN)

Campus: Tempe, Online

Description: The art history minor enables students to pursue their passion for art while also strengthening their academic preparation and development of skills that can assist them in their job search and career. The curriculum is designed for students who are interested in enhancing their major with a broad introduction to the study of the history of art, which includes substantial chronological exposure to the history of art from diverse cultures.

Program Requirements:

The School of Art offers a minor in art history consisting of 18 credit hours of coursework, including 12 credit hours of upper-division electives. A minimum grade of "C" (2.00) is required in all courses for the minor. For those pursuing a minor, a minimum overall GPA of "C" (2.00) is required. Courses may not be double counted in a major and the minor, and a minimum of 12 credit hours of resident credit at ASU are required. ARS 100 and ARS 300 may not be used toward an art history minor if the student has credit in ARS 101 and ARS 102. If a student has completed ARS 100 or ARS 300, then they must complete ARS 201 and ARS 202 instead of ARS 101 and 102.

Core Courses -- 6 credit hours

ARS 101: Art from Prehistory Through Middle Ages (HUAD OR HU & H) (3)
ARS 102: Art from Renaissance to Modernism (HUAD OR HU & H) (3)

Art History Upper Division Courses -- 12 credit hours

ARS Upper Division Elective (12)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: N/A

Incompatible Majors: BA in art (art history)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Global Opportunities:

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to explore their creative side through an intercultural lens, deepen their understanding of the world and gain valuable career-building experiences. Study abroad can prove to be a vital accompaniment to any art program, allowing for broad historical and archaeological explorations. Students develop insight into the cultures and minds of some of the world's most notable artists when they experience the places that gave rise to specific artistic styles.

With more than 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Study abroad encourages students to develop and broaden their intercultural sensitivity, communication skills and leadership ability, and challenges them to think differently. Whether in a foreign country, in the U.S. or online, students learn to adapt and persevere, and they are provided with a chance to look inside themselves in a way they haven't done before, growing their personal and professional self-confidence along the way.

Career Opportunities: Graduates of the art history minor are positioned to expand any career path and enhance opportunities for future graduate study. Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor within the arts and humanities offers a different perspective that is useful before and after graduation, and a minor in art history can help students as they pursue careers in the arts and humanities, including design fields, anthropology, archaeology, cultural criticism and the curatorial practices of museums.

Asian Languages - Chinese Minor (LACHIMIN)

Campus: Tempe

Description: Students pursuing the minor in Asian languages with a focus in Chinese gain an understanding of the language, literature and cultures of China. Students are encouraged to participate in a study abroad program to enhance their education and overall minor experience.

Highly motivated students interested in learning Chinese to professional-level proficiency while simultaneously pursuing the Asian languages minor with a focus in Chinese and undergraduate major of their choice are encouraged to apply to the Chinese Language Flagship Program (<https://silc.asu.edu/chineseflagship>).

Program Requirements:

The minor in Asian languages (Chinese) consists of 18 credit hours, of which 12 credit hours must be upper division. All courses used toward the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Course substitutions are allowed for heritage and advanced speakers of the language.

Required Courses -- 10 credit hours

CHI 301: Third-Year Chinese I (G) (5)

CHI 302: Third-Year Chinese II (G) (5)

CHI Electives -- 8 credit hours

CHI 201: Intermediate Chinese I (G) AND CHI 202: Intermediate Chinese II (G) or CHI 210: Intensive Chinese II (5)

Notes: CHI 201 and CHI 202 grant 5 credit hours each. The extra 4 credits earned will be applied to the minimum 120 credit hours needed for graduation. Students may opt to take CHI 210 Intensive Chinese II, an 8 credit hour course equivalent to CHI 201 and CHI 202. The extra 2 credits earned will be applied to the minimum 120 credit hours for graduation.

CHI 307: Introduction to Literary Chinese I (3)

CHI 308: Introduction to Literary Chinese II (3)

CHI 321: Power and Poetry: Classical Chinese Literature in Translation (HUAD OR HU) (3)

CHI 322: Self, Society and the Drive for Modernity: Classical Chinese Literature in Translation (3)

CHI 333: China (SB & H) (3)
CHI 336: Interpreting China's Classics ((L or HU) & H) (3)
CHI 338: Daode Jing: Way to the West (L or HU) (3)
CHI 343: Daoism (HUAD OR (L or HU) & G & H) (3)
CHI 345: Chinese Film and Civilization (3)
CHI 348: Pathways into Chinese Culture (3)
CHI 380: The Chinese Language (3)
CHI 401: Fourth-Year Chinese I (G) (3)
CHI 402: Fourth-Year Chinese II (G) (3)
CHI 407: Chinese for Academic and Professional Purposes I (G) (3)
CHI 408: Chinese for Academic and Professional Purposes II (G) (3)
CHI 451: Chinese Cultural History I ((HU or SB) & H) (3)
CHI 452: Chinese Cultural History II (SB & G & H) (3)
CHI 470: Modern Chinese Literature and Culture (3)
CHI 482: History of the Chinese Language (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BA in Asian languages (Chinese); BA in Asian languages (Chinese) --- Chinese flagship; BA in business (language and culture --- Chinese or Chinese native speaker track)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in Chinese studies helps students with communication and cultural competency skills as they pursue careers in political analysis, education, tourism and hospitality, the military, sociology, marketing and other various fields.

Asian Languages - Japanese Minor (LAJPNMIN)

Campus: Tempe

Description: Students pursuing a minor in Asian languages with a focus on Japanese study the language, literature and culture of Japan while developing advanced abilities in speaking, listening, reading and writing.

A wide range of electives allows students to pursue their interests in topics such as translation, business, popular culture, technology and classical language. In addition, ASU offers summer and yearlong programs to study abroad (<https://goglobal.asu.edu>) in Japan.

Program Requirements:

The minor in Asian languages (Japanese) consists of 18 credit hours, of which 12 credit hours must be upper division. All courses used toward the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Course substitutions are allowed for heritage and advanced speakers of the language.

Required Courses -- 9 credit hours

JPN 301: Third-Year Japanese I (3)

JPN 302: Third-Year Japanese II (3)

JPN 333: Japanese Civilization from the Ice Age to Last Thursday (3)

Elective Courses -- 9 credit hours

JPN 2** Elective (6)

Notes: JPN 201 (5 credit hours) and JPN 202 (5 credit hours) or JPN 210 (8 credit hours) are prerequisites to JPN 300-level language courses. A maximum of six credit hours of the JPN 200-level electives or prerequisite courses may be applied to the Japanese minor. Any remaining credit hours from the JPN 200-level courses will be applied to the 120 credit hours minimum for graduation.

JPN 309: Japanese Oral Communication I (3)

JPN 310: Japanese Oral Communication II (3)

JPN 311: Japanese Composition I (3)

JPN 354: Zen and Japanese Culture (HU & G) (3)

JPN 355: Religious Practice of People in Modern Japan (GCSI OR HU & G) (3)

JPN 367: Religion, Philosophy and Culture in Japan (GCSI OR HU & G) (3)

JPN 394: Special Topics (3)

JPN 401: Reading Modern Japanese Texts (GCSI OR G) (3)

JPN 414: Introduction to Classical Japanese (3)

JPN 415: Advanced Classical Japanese (3)

JPN 430: Buddhist Meditation in East Asia (HU & G) (3)

JPN 445: Readings in Modern Japanese Letters and Culture (3)

JPN 485: Japanese Literature and the Art of Translation (3)

JPN 492: Honors Directed Study or JPN 493: Honors Thesis (L) (3)

JPN 494: Special Topics (3)

JPN 499: Individualized Instruction (3)

SLC 421: Japanese Literature in Translation (3)

Notes: A maximum of 3 credit hours of SLC 421 may be applied to the Japanese minor.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BA in Asian languages (Japanese)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in Japanese studies helps students with communication and cultural competency skills as they pursue careers fields such as:

- diplomacy
- education
- entertainment
- foreign service
- international business
- marketing
- political analysis
- science and technology
- teaching
- tourism and hospitality

Asian Pacific American Studies Minor (LAAPAMIN)

Campus: Tempe

Description: The Asian Pacific American studies minor program prepares students to address issues of justice, equity and access at the intersections of citizenship, race and ethnicity, gender and sexuality, class and culture, and to identify actions and solutions based in community experiences and community-based research across multiple disciplines. Students have the opportunity to work with a dedicated faculty committed to community-engaged research and student-centered learning.

The program educates students in social justice; the global causes and impacts of Asian and Pacific Islander migration; relational and comparative racial formations; and ethnic studies movements that have made, and continue to make, a difference in society for all people. The interdisciplinary faculty comprises expertise in critical ethnic studies, diaspora and globalization, U.S imperialism and settler colonialism, social networks, immigration, interracial and interethnic relations, and the health and well-being of Asian Pacific American families and communities. The faculty listing is on the Asian Pacific American studies (<https://sst.asu.edu/apas-faculty>) website.

The Asian Pacific American studies program is housed in ASU's interdisciplinary School of Social Transformation, the only school of its kind in the United States.

Program Requirements:

The minor requires completion of 18 credit hours. At least 12 credit hours must be completed at the upper-division level and a grade of "C" (2.00 on a 4.00 scale) or better is required for all courses.

Required Core Courses -- 6 credit hours

APA 200: Introduction to Asian Pacific American Studies (SOBE OR (HU or SB) & C) (3)

APA 360: Asian Pacific American Experience (3)

Electives (choose four) -- 12 credit hours

APA 210: Introduction to Ethnic Studies in the U.S. (SOBE OR C) (3)

APA 310: Asian Pacific American Arts and Cultures (HU & C) (3)

APA 315: Asian Pacific American Literature (HU & C) (3)

APA 330: Asian Pacific American Genders and Sexualities (SOBE OR (L or SB) & C) (3)

APA 340: Asian Pacific Americans and Media (HU & C) (3)

APA 345: Asian Pacific Americans and Film (HU & C & H) (3)

APA 350: Inequality and Diversity in Education (CIVI OR L & C) (3)

APA 355: Asian American Psychology (SOBE OR SB & C) (3)

APA 360: Asian Pacific American Experience (3)

APA 450: Asian Pacific American Contemporary Issues (SB & C) (3)

APA 484: Internship (3)

APA 499: Individualized Instruction (3)

APA 360 Asian Pacific American Experience is required for the core. The course may be repeated for APA elective credit if taken with different topic titles.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in Asian Pacific American studies

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Those with a minor in Asian Pacific American studies are able to bring specialized knowledge and skills pertaining to social justice concerns to a variety of professional careers, including law, education, public service, and human welfare and social work.

Astronomy Minor (LAASTMIN)

Campus: Tempe, Online

Description: The astronomy minor is designed for students interested in developing a basic understanding of astronomy and astrophysics, and analyzing issues from a scientific viewpoint.

Program Requirements:

The minor in astronomy consists of a minimum of 23 credit hours, of which at least 12 credit hours must be upper division. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Required Courses -- 14 credit hours

AST 111: Introduction to Solar Systems Astronomy (SCIT OR SQ) (4)

AST 112: Introduction to Stars, Galaxies, and Cosmology (SCIT OR SQ) (4)

AST 321: Stellar and Planetary Astrophysics (3)

AST 322: Introduction to Galactic and Extragalactic Astrophysics (3)

Electives -- 9 credit hours

AST OR MAT OR PHY OR SES Upper Division Elective (9)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BS in earth and space exploration (astrophysics); BS in astronomical and planetary sciences

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

The astronomy minor supplements other degrees with problem-solving techniques and skills that are used in modern astronomy research and applicable to a wide variety of engineering and science careers.

Astrophysics Minor (LAASTPHMIN)

Campus: Tempe

Description: The astrophysics minor is designed for students interested in developing a background in the theoretical modeling and observational techniques of galactic and stellar astronomy, extragalactic astronomy and cosmology.

Students completing the minor are able to think critically about scientific problems by reducing complex problems to their most important attributes and are able to design experiments, observations and theoretical models that address those attributes.

Students pursuing an astrophysics minor are expected to have a strong background in physics and mathematics.

Program Requirements:

The minor in astrophysics consists of a minimum of 20 credit hours. At least 12 credit hours must be upper division. Students complete 12 credit hours of required coursework and select one of three eight-credit hour options to complete the minor. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 12 credit hours

- AST 321: Stellar and Planetary Astrophysics (3)
- AST 322: Introduction to Galactic and Extragalactic Astrophysics (3)
- AST 421: Astrophysics I (3)
- AST 422: Astrophysics II (3)

Electives Options -- 8 credit hours

Choose one of the following options for the additional eight credit hours. (8)

Option 1

- SES 121: Earth, Solar System and Universe (SCIT OR SQ) (3)
- SES 123: Earth, Solar System and Universe Laboratory (SCIT OR SQ) (1)
- SES 126: Exploration of the Universe (3)
- SES 128: Exploration of the Universe Lab (1)

Option 2

- AST 111: Introduction to Solar Systems Astronomy (SCIT OR SQ) (4)
- AST 112: Introduction to Stars, Galaxies, and Cosmology (SCIT OR SQ) (4)

Option 3

- AST OR MAT OR PHY OR SES Upper Division Elective (8)

In order to satisfy Scientific Thinking in Natural Sciences (SCIT) General Studies requirements, both a lecture and its corresponding laboratory section must be completed.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BS in earth and space exploration (astrophysics); other BS in earth and space exploration concentrations are compatible with the astrophysics minor as long as option 2 or option 3 of the minor is pursued.

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

The astrophysics minor supplements other technical degrees with advanced problem-solving techniques and skills used in modern astrophysics research, which are applicable to a wide variety of engineering and science careers.

Behavior Analysis Minor (TEBEHANMIN)

Campus: Downtown Phoenix, Polytechnic, Tempe, West, Online

Description: The minor in behavior analysis pairs research and experience to prepare professionals to address behavior across a range of settings

including schools, industry, clinics and community using the principles of applied behavior analysis.

All courses are online, and coursework for students who choose the campus-based options will also be remote and asynchronous. Coursework combines a number of resources and technologies to provide students the opportunity to interact with program faculty and classmates.

Mary Lou Fulton Teachers College coursework for this minor is verified by the Association for Behavior Analysis International as aligned with the Behavior Analyst Certification Board, with knowledge and skills that serve as the foundation for the Board Certified Assistant Behavior Analyst® examination. Once certified, these professionals are equipped to meet varied behavior needs and make a lasting difference in the community. Board Certified Assistant Behavior Analysts are also qualified to supervise the work of Registered Behavior Technicians® and others who implement behavior-analytic interventions.

This coursework also meets the academic content requirements for students to obtain the BACB® Registered Behavior Technician® credential, a paraprofessional certification in behavior analysis.

Program Requirements:

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: None

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: A minor can help students enhance the marketable skills they acquire in their major program and earn additional certifications and industry credentials.

Program graduates are well prepared to work across various populations and settings, including home, school and community environments, where they provide applied behavior analysis and evidence-based consultative services and support for children, youth and adults.

Professionals with expertise in evidence-based practices in behavior analysis are in high demand. Career examples include:

- Board Certified Assistant Behavior Analyst®
- early interventionist
- Registered Behavior Technician®
- special education teacher

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Biochemistry Minor (LABCHMIN)

Campus: Tempe, Online

Description: The biochemistry minor program is designed to give students majoring in other disciplines a solid grounding in the basics of biochemistry to complement their major degree program. It is especially appropriate for students whose majors are in the various disciplines of life sciences, physics, engineering and geology, and for students planning careers in the fields of medicine and health.

Program Requirements:

The minor in biochemistry comprises 28 credit hours of required courses, of which 12 credit hours are at the upper-division level. Six of the 12 upper-division credit hours must be from courses offered by The College of Liberal Arts and Sciences. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 28 credit hours

CHM 113: General Chemistry I (SCIT OR SQ) or CHM 117: General Chemistry for Majors I (SCIT OR SQ) AND CHM 111: General Chemistry Laboratory for Majors I (SCIT OR SQ) (4)

CHM 116: General Chemistry II (SCIT OR SQ) or CHM 118: General Chemistry for Majors II (SCIT OR SQ) AND CHM 112: General Chemistry Laboratory for Majors II (SCIT OR SQ) (4)

CHM 233: General Organic Chemistry I (3)

CHM 234: General Organic Chemistry II (3)

CHM 237: General Organic Chemistry Laboratory I (1)

Notes: ASU Online students will complete CHM 237 and 238 in person in a compressed summer format.

CHM 238: General Organic Chemistry Laboratory II (1)

BCH 341: Physical Chemistry with a Biological Focus (3)

BCH 461: General Biochemistry (3)

BCH 462: General Biochemistry (3)

BCH 467: Analytical Biochemistry Laboratory (L) (3)

Notes: ASU Online students will complete BCH 467 in person in a compressed summer format.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in applied biological sciences (all concentrations); BA in biochemistry; BS in biochemistry; BS in biochemistry (medicinal chemistry); BS in biological sciences (genetics, cell and developmental biology); BS in biological sciences (neurobiology, physiology and behavior); BA in chemistry; BS in chemistry; BS in chemistry (environmental chemistry); BS in forensic science; BS in health sciences (preprofessional); BS in medical studies; BS in neuroscience

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors

A minor in biochemistry can help students as they pursue careers in medicine and health, chemical and biotechnology industries, research, government laboratories, environmental and food science, teaching and many other technical areas.

Biological Sciences Minor (LABIOMIN)

Campus: Tempe, Online

Description: The minor program in biological sciences provides students with a flexible curriculum that can be tailored to their interests.

Students will explore the study of all living things and examine basic organization of life, how organisms evolve, the role of organisms in the natural environment, how hereditary information is transferred and the development of biotechnology.

Program Requirements:

The minor in biological sciences requires a minimum of 24 credit hours, of which at least 12 credit hours must be upper division. At least six of the upper-division credit hours must be from courses offered by The College of Liberal Arts and Sciences.

The remaining elective credit hours may be chosen from those courses in the life sciences that can be used toward the majors offered by the school. Three credits of undergraduate research or internship (BIO 390 OR BIO 484 or MBB 484 or MIC 484 OR BIO 495 or MBB 495 or MIC 495) may be allowed in the minor.

Core Minor Requirement (15-16 credits) -- 15 credit hours

BIO 181: General Biology I (SCIT OR SQ) (4)

BIO 182: General Biology II (SCIT OR SG) (4)

BIO 340: General Genetics or MBB 347: Molecular Genetics: From Genes to Proteins (4)

BIO 345: Evolution or MIC 206: Microbiology Laboratory (SCIT OR SG) AND MIC 220: Biology of Microorganisms (3-4)

Electives (8-9 credits) -- 9 credit hours

BIO OR MBB OR MIC Upper Division Elective (8-9)

Students must complete 8-9 credit hours in electives selected from the BIO, MBB or MIC subject codes, all of which must be upper-division courses.

Lower-division biology courses, including but not limited to BIO 100, BIO 201, BIO 202 and MIC 205, may not be used in the biological sciences minor.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BS in biological sciences (all concentrations); BS in microbiology (all concentrations); BS in molecular biosciences and biotechnology; BS in medical studies; BS in neuroscience; BS in nutrition; BS in public health

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: A minor in biological sciences allows students to develop additional competencies that complement the knowledge and skills they acquire in their majors. Students will be prepared with critical thinking and valuable problem-solving skills, as well as an introduction to the processes of research and scientific discovery as they pursue a variety of careers, such as biologists, biological technicians, medical and clinical laboratory technologists, zoologists, geneticists and educators.

Biology Minor (ASLSCMIN)

Campus: West

Description: A minor in biology can be a valuable asset, particularly when paired with an appropriate major. For instance, a minor in biology paired with a major in political science provides a good background for someone who intends to practice environmental law.

Program Requirements:

The minor in biology consists of 19 credit hours of coursework, of which a minimum of 11 hours must be upper division. A minimum of eight upper-division credit hours must be completed through courses offered by the School of Mathematical and Natural Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Core Requirements -- 8 credit hours

BIO 182: General Biology II (SCIT OR SG) (4)

CHM 116: General Chemistry II (SCIT OR SQ) (4)

Ecology, Cell Biology, or Genetics Requirement (select one combination) -- 4 credit hours

BIO 320: Fundamentals of Ecology AND LSC 322: Fundamentals of Ecology Laboratory (4)

BIO 353: Cell Biology AND BIO 354: Cell Biology Laboratory (4)

LSC 347: Fundamentals of Genetics AND LSC 348: Fundamentals of Genetics Laboratory (4)

Upper-Division Biology Electives -- 7 credit hours

BCH 371: Modern Concepts in Biochemistry (3)

BCH 372: Modern Concepts in Biochemistry Laboratory (1)

BIO 306: Modes of Biological Thought (L) (3)

BIO 320: Fundamentals of Ecology (3)

BIO 340: General Genetics (4)

BIO 345: Evolution (3)

BIO 353: Cell Biology (3)

BIO 354: Cell Biology Laboratory (1)

BIO 360: Animal Physiology (3)

BIO 370: Vertebrate Zoology (4)

BIO 385: Comparative Invertebrate Zoology (4)

BIO 410: Techniques in Conservation Biology and Ecology (3)

BIO 422: Ecosystem Ecology (3)

BIO 423: Population and Community Ecology (3)

BIO 426: Limnology (L) (3)

BIO 431: Genes, Development, and Evolution (L) (3)

BIO 443: Applied Molecular Genetics and Genomics (3)

BIO 471: Ornithology (3)

BIO 474: Herpetology (4)

ENV 300 / PLB 300: Plant Diversity and Evolution (L or SG) (4)

ENV 302 / PLB 302: Plants and Civilization (3)

ENV 345: Spatial Analysis in the Environmental Sciences (3)

ENV 388 / FOR 388 / LSC 388 / PLB 388 / PTX 388: STEM Research Fundamentals (3)

ENV 394 / LSC 394: Animal Behavior in a Changing Environment (3)

ENV 410: Soil Science (4)

ENV 485: Environmental Impact Assessment (CIVI OR L) (3)

FOR 370: Fundamentals of Forensic Analysis (4)

FOR 377: Forensic Analytical Chemistry Laboratory (2)

FOR 380 / LSC 380: Analysis of Nonhuman Forensic DNA Evidence (3)

FOR 400: Comparative Forensics (3)

FOR 401 / PTX 401: Forensic Toxicology (3)

FOR 402: Forensic Biology (3)

FOR 414: Fundamentals of Forensic Entomology (4)

FOR 425: Analytical Chemistry for Life Sciences (3)

FOR 426: Analytical Chemistry for Life Sciences Lab (2)

FOR 447 / LSC 447: Molecular Genetics Laboratory (1)

FOR 480 / LSC 480: Advanced Topics in Human Forensic DNA Typing (3)

LSC 322: Fundamentals of Ecology Laboratory (1)

LSC 347: Fundamentals of Genetics (3)

LSC 348: Fundamentals of Genetics Laboratory (1)

LSC 359: Animal Physiology Laboratory (1)

LSC 362: The Human Environment (3)

LSC 363: Genes, Race, Gender, and Society (3)

LSC 430: Environmental and Human Toxicology (4)

LSC 432 / PTX 432: Fundamentals of Pharmacology (3)

LSC 434: Marine Ecology (3)

LSC 475 / PTX 475: Principles of Toxicology (3)

LSC 494: Molecular Biology (3)

MIC 443: The Microbial Universe (3)

MIC 444: The Microbial Universe Laboratory (1)

PLB 308: Plant Physiology (4)

PLB 310: The Flora of Arizona (4)

PTX 301: Basics of Pharmacology and Toxicology (3)

PTX 450: Pharmacology and Toxicology Laboratory (1)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA and BS in biology; BA and BS in environmental science; BS in biology (pharmacology/toxicology); BS in biotechnology and bioenterprise; BS in forensic science; BS in pharmacology and toxicology

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Graduates who have included this minor with their major have a wide variety of options. They are prepared to pursue graduate studies or seek careers in such diverse areas as environmental management and conservation, health professions, laboratory research, primary and secondary school teaching, science advisement to businesses and government, and science writing.

Business Minor (BABUSMIN)

Campus: Tempe, Online

Description: A minor in business is an option for students who are interested in business courses but wish to pursue majors in other colleges. The courses available for the minor are designed to appeal to and inform the nonbusiness student while covering a broad range of topics that are important to managers, such as:

- accounting
- computer information systems
- economics
- finance
- management
- marketing
- supply chain management

Program Requirements:

Students must complete 18 credit hours (12 of which must be upper division) of the specified business courses with a grade of "C" (2.00) or better in each course. At least 12 credit hours must be taken at ASU.

Required Courses -- 15 credit hours

ACC 382: Accounting and Financial Analysis (3)

ECN 211: Macroeconomic Principles (SOBE OR SB) or ECN 212: Microeconomic Principles (SOBE OR SB) (3)

FIN 380: Personal Financial Management (3)

MGT 380: Management and Strategy (3)

MKT 390: Essentials of Marketing (3)

Elective (select one) -- 3 credit hours

AGB 420: Food Advertising and Promotion (3)

AGB 445: Food Retailing (3)

AGB 456: Food Product Innovation and Development (3)

CIS 300: Web Design and Development (3)

CIS 308: Advanced Excel in Business (3)

ECN 211: Macroeconomic Principles (SOBE OR SB) or ECN 212: Microeconomic Principles (SOBE OR SB) (3)

FIN 331: Financial Markets and Institutions (3)

LES 380: Consumer Perspective of Business Law (3)

MKT 391: Essentials of Selling (3)

MKT 395: Essentials of Advertising and Marketing Communication (3)

MKT 398: Essentials of Sports Business (3)

REA 380: Real Estate Fundamentals (3)
SCM 380: Supply Chain Management Foundations (SUST) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.
The College of Liberal Arts and Sciences Economics majors must use ECN 211 and ECN 212 in their degree and will take an additional elective to replace that requirement in the minor.
ACC 231 may substitute for ACC 382, if previously taken.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: all W. P. Carey School of Business undergraduate degree programs

Other Enrollment Requirements: None

This minor is open to nonbusiness majors.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs enable students to develop additional competencies to complement the marketable knowledge and skills they acquire in their majors.

A minor in business can equip students with an understanding of the foundations of business as they pursue careers in management or sales within their industry.

Chemistry Minor (ASCHMMIN)

Campus: West

Description: The minor program in chemistry offered by the School of Mathematical and Natural Sciences gives students expanded proficiency in the area of chemistry. The program's additional biochemistry and analytical chemistry courses give students more experience in the advanced and integrative fields of chemistry.

Program Requirements:

The minor in chemistry consists of 18 credit hours of coursework, of which a minimum of nine hours must be upper division. A minimum of nine upper-division credit hours must be completed through courses offered by the School of Mathematical and Natural Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Course List -- 18 credit hours

BCH 341: Physical Chemistry with a Biological Focus (3)
BCH 371: Modern Concepts in Biochemistry (3)
BCH 372: Modern Concepts in Biochemistry Laboratory (1)
CHM 113: General Chemistry I (SCIT OR SQ) (4)
CHM 116: General Chemistry II (SCIT OR SQ) (4)
CHM 233: General Organic Chemistry I (3)
CHM 237: General Organic Chemistry Laboratory I (1)
CHM 234: General Organic Chemistry II (3)
CHM 238: General Organic Chemistry Laboratory II (1)
CHM 302: Environmental Chemistry (3)
ENV 499: Individualized Instruction or FOR 499 / LSC 499 / PTX 499: Individualized Instruction (1-3)
Notes: Maximum 3 hours may apply toward the minor, and the project must be focused on chemistry.
FOR 401: Forensic Toxicology (3)
FOR 423: Forensic Chemistry (3)
FOR 425: Analytical Chemistry for Life Sciences (3)

FOR 426: Analytical Chemistry for Life Sciences Lab (2)

FOR 494: Forensic Chemistry Lab (1)

PTX 301: Basics of Pharmacology and Toxicology (3)

PTX 475: Principles of Toxicology (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA and BS in environmental science; BS in biology (pharmacology/toxicology); BS in forensic science; BS in pharmacology and toxicology

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Graduates who hold a minor in chemistry are employed in a variety of fields and are well-suited to positions such as laboratory technician, research assistant, environmental scientist, technical advisor, science communication professional, hazard communication, chemical education and consultancy.

Many of the growing career fields, such as forensic sciences, medicine and environmental quality, require a greater amount of chemistry than in the past. Therefore, graduates with a stronger chemistry background have a competitive advantage in these fields, and this minor highlights that expanded chemistry knowledge for students' future schools and employers.

602-543-3000

Chemistry Minor (LACHMMIN)

Campus: Tempe

Description: The chemistry minor program is designed to give students majoring in other disciplines a solid grounding in the basics of chemistry in order to complement their major. It is especially appropriate for students whose majors are in the various disciplines of physics, materials science, geology, engineering and life sciences.

Program Requirements:

The minor in chemistry comprises 28 credit hours of required courses, of which at least 12 credit hours must be completed at the upper-division level. Six of the 12 upper-division credit hours must be taken from courses offered by The College of Liberal Arts and Sciences. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 20 credit hours

CHM 113: General Chemistry I (SCIT OR SQ) or CHM 117: General Chemistry for Majors I (SCIT OR SQ) AND CHM 111: General Chemistry Laboratory for Majors I (SCIT OR SQ) (4)

CHM 116: General Chemistry II (SCIT OR SQ) or CHM 118: General Chemistry for Majors II (SCIT OR SQ) AND CHM 112: General Chemistry Laboratory for Majors II (SCIT OR SQ) (4)

CHM 233: General Organic Chemistry I (3)

CHM 237: General Organic Chemistry Laboratory I (1)

CHM 234: General Organic Chemistry II (3)

CHM 238: General Organic Chemistry Laboratory II (1)

CHM 325: Analytical Chemistry (3)

CHM 326: Advanced Analytical Chemistry Laboratory (1)

Notes: CHM 325 and CHM 326 should be completed at the Tempe campus for this minor.

Options -- 8 credit hours

Choose one of the following options for the additional 8 credit hours. (8)

Option 1

BCH 361: Advanced Principles of Biochemistry (3)

BCH 367: Elementary Biochemistry Laboratory (1)

CHM 341: Elementary Physical Chemistry (3)

Notes: BCH 341 may not be used to substitute CHM 341.

CHM 343: Elementary Physical Chemistry Laboratory (1)

Option 2

CHM 345: Physical Chemistry I (3)

Notes: CHM 345 and CHM 348 are only offered in the Fall semester.

CHM 348: Physical Chemistry Laboratory I (L) (1)

CHM 346: Physical Chemistry II (3)

Notes: CHM 346 and CHM 349 are only offered in the Spring semester.

CHM 349: Physical Chemistry Laboratory II (L) (1)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in applied biological sciences (all concentrations); BS and BA in biochemistry; BS in biochemistry (medicinal chemistry); BS and BA in chemistry; BS in chemistry (environmental chemistry); BS in forensic science; BS in health sciences (preprofessional); BS in nutrition; BS in nutrition (human nutrition); BS in medical studies; BS in neuroscience

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A chemistry minor can benefit those who pursue careers in chemical and electronics industries, manufacturing and environmental industries, and in national research labs and forensic labs.

Civic and Economic Thought and Leadership Minor (LACELMIN)

Campus: Tempe

Description: In the minor program in civic and economic thought and leadership, students are trained to read and understand influential ideas in philosophy, economics and politics in order to become leaders in their field of study. Through faculty use of the Socratic method teaching style, students are challenged in the classroom and forced to think critically about the problems that impact society today.

Students in the minor participate in a high-impact curriculum and are eligible for a global intensive experience, leadership seminars, an internship program and special access to prominent scholars and visiting fellows.

Program Requirements:

The minor in civic and economic thought and leadership requires 18 credit hours, of which 12 credit hours must be upper division. At least 12 credit hours must be taken from ASU. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 12 credit hours

CEL 100: Great Ideas of Politics and Ethics (CIVI OR HU) (3)

CEL 200: Great Debates in American Politics (AMIT OR HU) (3)

CEL 300: Debating Capitalism (3)

CEL 475: Statesmanship and American Grand Strategy (HUAD OR HU) (3)

Upper-Division Electives -- 6 credit hours

CEL 3** Elective (3)

CEL 4** Elective (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in civic and economic thought and leadership; BS in civic and economic thought and leadership

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: A minor from the School of Civic and Economic Thought and Leadership can support a student's major and may be considered a benefit when a student is interviewing for a job or applying to graduate school. Completing a minor program shows employers or schools that the student is focused on educational goals and can handle the additional workload.

Students interested in careers as lawyers, doctors, journalists, educators, law enforcement officials and political scientists benefit from this liberal arts education that provides the academic foundation they need to ask informed questions, make sound decisions for the common good and solve the difficult problems that leaders confront in any discipline.

Classical Civilizations Minor (LACLCVMIN)

Campus: Tempe

Description: The minor program in classical civilization provides a solid grounding in ancient civilization and mythology, along with an interdisciplinary introduction to the ancient world as a whole. To this base, students may add courses selected from a wide variety, covering language, literature, art, philosophy, history and religion.

Students who study abroad with the Dorrance Scholarship program will be able to apply their experience to this minor.

Program Requirements:

The minor requires 18 credit hours of courses detailed below. At least 12 credit hours must be upper division. A minimum of six credit hours must be completed in residence at ASU. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Mythology and Classics (choose one) -- 3 credit hours

GRK 142 / SLC 142: Ancient Greek Civilization (HUAD OR HU & H) (3)

GRK 223 / LAT 223 / SLC 223: Introduction to Greek and Roman Mythology (HUAD OR HU) (3)

Culture Core (choose two) -- 6 credit hours

GRK 351 / SLC 351: Tales of Troy (HU & H) (3)

GRK 352 / SLC 352: The Rise and Fall of Ancient Athens (HU & H) (3)

GRK 353 / SLC 353: Alexander and His Empires (HU & H) (3)

LAT 356 / SLC 356: Rome from Village to Empire (3)

LAT 357 / SLC 357: Rome's First Emperor (HU & H) (3)

LAT 358 / SLC 358: Saving the Roman Empire ((L or HU) & H) (3)

Classical Civilizations Electives (choose three courses, minimum of six hours upper division) -- 9 credit hours

ARS 402: Art of Ancient Egypt (GCSI OR HU & H) (3)

ARS 404: Greek Art (HU & H) (3)

ARS 406: Roman Art (HU & H) (3)

ASB 330: Understanding Archaeology (SOBE OR SB & G & H) (3)
ENG 303: Classical Backgrounds of English Literature (HUAD OR HU) (3)
GRK 346 / HST 346: Ancient Greece II: Late Classical and Hellenistic Period (SB & H) (3)
GRK 347 / HST 347: Ancient Greece I: Bronze Age through the Peloponnesian War (CIVI OR SB & H) (3)
GRK 444 / LAT 444 / SLC 444: Heroes, Ancient and Modern (L or HU) (3)
GRK Elective (3)

Notes: GRK electives cannot fulfill a requirement in more than one area.

HST 349: Early Middle Ages ((HU or SB) & H) (3)
HST 373: Roman History I: Foundations and Republic (3)
HST 374: Roman History II: The Roman Empire (GCSI OR HU & H) (3)
HST 397: Greece and Rome at War (3)
LAT Elective (3)

Notes: LAT electives cannot fulfill a requirement in more than one area.

PHI 328: History of Ancient Philosophy (GCSI OR HU & H) (3)
POS 340: History of Political Philosophy I (HU) (3)
REL 315: Hebrew Bible (Old Testament) (HUAD OR (L or HU) & H) (3)
REL 316: Literary Readings of the Hebrew Bible (L or HU) (3)
REL 371: New Testament (GCSI OR HU) (3)
REL 375: Lost Scriptures, Forgotten Gospels (HU) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BA in international letters and cultures (classical civilization) and BA in international letters and cultures (classics)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Some of the most popular career fields among classics students are education, law, the nonprofit sector, medicine and business, according to a survey of over 600 classics students published in *The Classical Journal*. Adding the study of classical civilizations to a program of study distinguishes students as having a deeper understanding of the roots of Western civilization, culture and history that will serve them in just about any major or career they pursue.

Classics Minor (LACLAMIN)

Campus: Tempe

Description: The minor program in classics provides a solid grounding in the language and literature of Greek and Roman antiquity, along with an interdisciplinary introduction to the ancient world as a whole. To this base, students may add courses selected from a wide variety, covering language, literature, art, philosophy, history, mythology and religion.

Students who complete study abroad with the Dorrance Scholarship program will be able to apply their experience to this minor.

Program Requirements:

The minor in classics requires 18-20 credit hours of courses detailed below. At least 12 credit hours must be upper division. A minimum of six credit hours must be completed in residence at ASU. All courses must be completed with a grade of 'C' (2.00 on a 4.00 scale) or higher.

Required Language - Greek or Latin -- 6 credit hours

The six credits should be from a single language. Any six or more credits of the following will count:

GRK 201, 301, 302, or independent study taught in Greek.

LAT 201, 202, 421, or independent study taught in Latin.

GRK 201: Intermediate Ancient Greek (G) (4)
GRK 301: Ancient Greek Literature I (HU & G) (3)
Notes: Repeatable for credit
GRK 302: Ancient Greek Literature II (HU & G) (3)
Notes: Repeatable for credit
LAT 201: Intermediate Latin I (4)
LAT 202: Intermediate Latin II (4)
LAT 421: Roman Literature (HU) (3)
Notes: Repeatable for credit

Culture (choose two) -- 6 credit hours

GRK 351 / SLC 351: Tales of Troy (HU & H) (3)
GRK 352 / SLC 352: The Rise and Fall of Ancient Athens (HU & H) (3)
GRK 353 / SLC 353: Alexander and His Empires (HU & H) (3)
LAT 356 / SLC 356: Rome from Village to Empire (3)
LAT 357 / SLC 357: Rome's First Emperor (HU & H) (3)
LAT 358 / SLC 358: Saving the Roman Empire ((L or HU) & H) (3)

Classics Electives (choose two) -- 6 credit hours

ARS 402: Art of Ancient Egypt (GCSI OR HU & H) (3)
ARS 404: Greek Art (HU & H) (3)
ARS 406: Roman Art (HU & H) (3)
ASB 330: Understanding Archaeology (SOBE OR SB & G & H) (3)
ENG 303: Classical Backgrounds of English Literature (HUAD OR HU) (3)
GRK 444 / LAT 444 / SLC 444: Heroes, Ancient and Modern (L or HU) (3)
HST 346: Ancient Greece II: Late Classical and Hellenistic Period (SB & H) (3)
HST 347: Ancient Greece I: Bronze Age through the Peloponnesian War (CIVI OR SB & H) (3)
HST 349: Early Middle Ages ((HU or SB) & H) (3)
HST 373: Roman History I: Foundations and Republic (3)
HST 374: Roman History II: The Roman Empire (GCSI OR HU & H) (3)
HST 397: Greece and Rome at War (3)
PHI 328: History of Ancient Philosophy (GCSI OR HU & H) (3)
POS 340: History of Political Philosophy I (HU) (3)

Communication Minor (HSCMNMIN)

Campus: West

Description: The minor program in communication provides students the opportunity to understand the role and function of communication in cultural, public, organizational and relational contexts.

The program offers a flexible set of courses and is designed for students majoring in another field.

Program Requirements:

The minor in communication consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Social and Behavioral Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Required Courses -- 6 credit hours

COM 100: Introduction to Human Communication (SOBE OR SB) (3)

COM 225: Public Speaking (CIVI OR L) (3)

Upper Division COM Electives -- 12 credit hours

COM Upper Division Elective (12)

Notes: Up to three credit hours of COM 382, 383, 483, 484, 498 or 499 may be applied toward the minor.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA and BS in communication

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: The minor in communication is a strong addition to any major. The minor enhances student preparation for employment in such diverse areas as:

- advertising
- corporate communications
- crisis management
- health communications
- human resource management
- media and public relations
- social media
- training and development

Communication Minor (LACOMMIN)

Campus: Tempe, Online

Description: The minor program in communication focuses on teaching students how communication processes create, maintain and transform identities, relationships, workplaces and communities.

Program Requirements:

The minor in communication consists of 18 credit hours, of which 12 credit hours must be upper division. Nine of the 18 credit hours must be ASU resident-credit courses, including six upper-division credit hours offered by The College of Liberal Arts and Sciences. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 6 credit hours

COM 100: Introduction to Human Communication (SOBE OR SB) (3)

COM 225: Public Speaking (CIVI OR L) or COM 259: Communication in Business and the Professions (CIVI) (3)

Minor Electives (choose four) -- 12 credit hours

COM 310: Communication in Interpersonal Relationships (SOBE OR SB) (3)

COM 312: Communication, Conflict, and Negotiation (CIVI) (3)

COM 316: Gender and Communication (SOBE OR SB & C) (3)

COM 317: Nonverbal Communication (SOBE OR SB) (3)

COM 319: Persuasion and Social Influence (CIVI OR SB) (3)

COM 320: Communication and Consumerism (SB) (3)

COM 323: Communication Approaches to Popular Culture (SOBE OR C) (3)

COM 403: Intercultural Business Communication (CIVI) (3)

COM 411: Communication in the Family (SOBE OR SB) (3)

COM 452: Communication and the Art of Happiness (3)

COM 453: Communication Training and Development (3)

No pass/fail, "Y" credit or credit/no-credit courses are allowed.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BA and BS in communication

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor in communication can help students as they pursue careers in marketing, education or public relations.

Communication Minor (LSCOMMIN)

Campus: Downtown Phoenix, Polytechnic

Description: The minor program in communication provides exposure to practical and theoretical aspects of communication, focusing on message-based processes that create, maintain and transform identities, relationships, organizations and cultures.

Program Requirements:

This minor requires 18 credit hours of communication courses.

Six credit hours must be taken from COM courses offered by the College of Integrative Sciences and Arts.

Required Courses -- 6 credit hours

COM 100: Introduction to Human Communication (SOBE OR SB) (3)

COM 430: Leadership in Group Communication (3)

Elective Courses -- 12 credit hours

COM Elective (3)

COM Upper Division Elective (9)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BA or BS in communication; BA in business (communication)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Community Health Minor (NUCHLTMIN)

Campus: Downtown Phoenix, West

Description: The minor in community health is designed for those who want to create healthy, sustainable communities.

Community health focuses on the actions and conditions needed for the health and well-being of individuals, families and communities. Students acquire skills for working with teams in diverse settings to formulate research-based strategies that assist individuals in making healthy and sustainable lifestyle choices.

Program Requirements:

A "C" (2.00 on a 4.00 scale) or better is required in all courses.

Required Courses -- 6 credit hours

HCR 220: Introduction to Health Professions and the U.S. Health Care System (CIVI OR H) (3)

HCR 231: Fundamentals of Community Health (3)

Electives (select three) -- 9 credit hours

HCR 303: Assessing Needs, Assets and Capacity for Health Education (3)

HCR 331: Communication within Communities (3)

HCR 335: Program Development and Management for Community Health (3)

HCR 336: Environmental Community Health (3)

HCR 435: Leaders in Community Health (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in community health

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: The courses in a minor complement and enhance the skill sets and knowledge that students acquire while pursuing a major program.

Although most career areas require more training than a minor can provide, students pursuing the community health minor learn about health care and, specifically, the impact that communities have on health care. Graduates often pursue employment in an organization focused on health care.

Community Sports Management Minor (PPCSMMIN)

Campus: Downtown Phoenix

Description: The community sports management minor focuses on developing skills that support recreational amateur sport programs within the community.

This minor provides the basics of community sport management and supplements a degree in a community-oriented profession.

Program Requirements:

Core Courses -- 9 credit hours

CSM 201: Introduction to Parks, Recreation and Sport Management (3)

Notes: Offered fall semester only

PRM 203: Program Planning (3)

PRM 304: Recreation and Sport Planning and Facilities (L) (3)

Notes: Offered fall semester only

Electives (choose three) -- 9 credit hours

CRD 402: Assessment and Evaluation of Community Services (3)

CSM 335: Sports and Recreation for Youth Development (3)

Notes: Offered spring semester only

CSM 483: Sports Tourism (3)

Notes: Offered spring semester only

CSM 485: Sports Events (3)

Notes: Offered spring semester only

NLM 220: Introduction to Nonprofit Organizations (3)

NLM 310: Volunteer Management (CIVI) (3)

PRM 306: Advanced Programming and Facilitation (3)

Notes: Offered spring semester only

RTH 364: Foundations in Recreational Therapy (SOBE OR SB) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: None

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Sport programs exist in a number of settings, including nonprofit organizations, public agencies and corporate programs. For students interested in a career in one of these settings, or for those who are simply interested in sport, this minor can provide additional relevant skills.

A minor in community sport management can help graduates as they pursue careers such as coaches and sports marketing managers.

Computational Mathematical Sciences Minor (LACMSMIN)

Campus: Tempe

Description: The computational mathematical sciences minor offers a structured curriculum that includes a foundation in calculus with a focus on applied math. Students develop a framework of scientific computing and numerical analysis skills.

Program Requirements:

The minor in computational mathematical sciences consists of a minimum of 18 credit hours. At least 12 credit hours must be completed at the upper-division level and all courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Required Courses -- 18 credit hours

MAT 271: Calculus with Analytic Geometry II (MATH OR MA) or MAT 266: Calculus for Engineers II (MATH OR MA) (3-4)

MAT 272: Calculus with Analytic Geometry III (MATH OR MA) or MAT 267: Calculus for Engineers III (MATH OR MA) (3-4)

MAT 342: Linear Algebra or MAT 343: Applied Linear Algebra (3)

MAT 420: Scientific Computing (3)

MAT 421: Applied Computational Methods (MATH OR CS) (3)

MAT 423: Numerical Analysis I (MATH OR CS) or MAT 425: Numerical Analysis II (CS) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in actuarial science; BS in applied mathematics; BS in computational mathematical science; BS in statistics; BS in data science; BA and BS in mathematics (including all concentrations); BAE in secondary education (mathematics)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: A minor in computational mathematical sciences is one of the most versatile minors, offering students many potential career options. This minor assists in positioning students for careers in computer technology, business, medical research, teaching and education, engineering and more. Diverse areas of study, such as cancer modeling, weather forecasting and financial modeling, all involve computational mathematical sciences.

Conflict Resolution Minor (ASCNRMIN)

Campus: West

Description: The minor program in conflict resolution introduces students to theories and practices that enable them to understand, address and transform conflict while dealing with challenges at both the micro and the macro levels in professional and cross-cultural contexts and in individual and collective interactions.

Program Requirements:

The minor in conflict resolution consists of 15 credit hours of coursework, of which a minimum of nine hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Social and Behavioral Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Required Courses -- 15 credit hours

COM 100: Introduction to Human Communication (SOBE OR SB) (3)

Notes: If COM 100 is being applied toward a major requirement, a COM upper division elective may be completed as a substitution.

COM 312: Communication, Conflict, and Negotiation (CIVI) (3)

COM 371: Language, Culture, and Communication (GCSI OR SB & C & G) or COM 463: Intercultural Communication in a Global Context (GCSI OR SB & G) (3)

COM 400: Dissent in Organizations or COM 423: Facilitating Collaboration and Dialogue or COM 430: Leadership in Group Communication or COM 432: Forgiveness and Reconciliation or COM 451: Communication and Work Relationships (3)

PAX 230: Introduction to Peace Studies (G) or JHR 100: Introduction to Social Justice and Human Rights (CIVI OR SB & G) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: COM 312, a required course in the minor, has a minimum GPA of 2.00.

Incompatible Majors: BA in conflict resolution

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Students who complete the minor take an interdisciplinary approach to conflict resolution while being grounded in communication. With this solid background, they are ready to pursue further education or careers in diverse areas and in relevant professions.

Potential job titles include:

- arbitrator, mediator or conciliator
- educator
- guidance counselor
- human resource manager or specialist
- marriage and family therapist
- patient representative
- residential advisor
- social and community service manager

Construction Management Minor (ESCMGMIN)

Campus: Tempe

Description: The minor program in construction management comprises coursework in construction management processes that incorporates the technology and industry practices required to ensure a quality-built environment.

Given industry demands for increased numbers of skilled personnel, this minor provides much-needed supplementary knowledge for architecture, engineering and business majors as well as for students majoring in sustainability.

Program Requirements:

The minor in construction management requires 21 credit hours. A minimum cumulative 2.00 ASU GPA is needed to complete the minor.

Core Required Courses -- 21 credit hours

CON 244: Working Drawing Analysis (3)

CON 251: Microcomputer Applications for Construction (3)

CON 252: Building Construction Methods, Materials, and Equipment (3)

CON 383: Construction Estimating (3)

CON 453: Construction Technology (3)

CON 495: Construction Planning and Scheduling (CS) (3)

CON 496: Construction Contract Administration (L) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in construction management; BSE in construction engineering

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Construction management graduates can be employed as:

- building services engineers
- building surveyors
- facilities managers
- site engineers
- sustainability consultants

Counseling and Applied Psychological Science Minor (LSCAPSMIN)

Campus: Polytechnic, Online

Description: Counseling and applied psychology coursework focuses on the promotion of psychological well-being. Students learn basic counseling skills and techniques to complement a variety of social science and health majors, including psychology, public health, interdisciplinary studies, social work and the humanities, among many others.

Program Requirements:

Required Courses -- 9 credit hours

CAP 120: Introduction to Counseling (SOBE OR SB) (3)

CAP 220: Self in a Multicultural Society (SOBE OR C) (3)

CAP 240: Counseling Skills (3)

Electives (choose four courses) -- 12 credit hours

CAP 310: Addictions I: Foundations and Basic Principles (3)

CAP 315: Trauma and Crisis Intervention (3)

CAP 320: Theories of Counseling and Psychotherapy (3)

CAP 323: Psychology of Coaching (3)

CAP 325: Professional Practice and Ethics in Counseling (3)

CAP 330: Group Counseling (3)

CAP 335: Addiction Group Counseling (3)

CAP 340: Multicultural Counseling Theory and Practice (3)

CAP 342: Community Outreach, Prevention and Intervention (3)

CAP 345: Social Issues in Counseling and Psychology (3)
CAP 351: Issues in Assessment, Diagnosis and Treatment (3)
CAP 400: Advanced Counseling Research Methods (3)
CAP 420: School Counseling (3)
CAP 440: Addictions II: Treatment, Recovery and Relapse Prevention (3)
CAP 316: Combat Trauma (3)
CAP 336: Counseling Military Veterans (3)
FAS 331: Modern Family Relationships (SOBE OR SB) (3)
FAS 370: Family Ethnic and Cultural Diversity (CIVI OR SB & C) (3)
JUS 305: Principles of Justice Studies (SB) (3)
PSY 315: Personality Theory and Research (SOBE OR SB) (3)
PSY 320: Learning and Motivation (3)
PSY 341: Developmental Psychology (SOBE OR SB) (3)
PSY 366: Psychological Disorders (SOBE OR SB) (3)
PSY 369: Biology of Human Sexuality (3)
PSY 385: Psychology of Gender (SOBE OR SB) (3)
PSY 444: Adolescent Psychology and Psychopathology (3)
PSY 472: Clinical Psychology (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in counseling and applied psychological science (all concentrations)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: A minor can help students enhance the marketable skills they acquire in their major, diversify their skills with training in another discipline, and improve their future job outlook. Although most careers require more training than a minor alone can provide, a minor in counseling and applied psychological science can add value for students who pursue careers in education, social work or health care.

Criminology and Criminal Justice Minor (PPCRJMIN)

Campus: Downtown Phoenix, Online

Description: The minor program in criminology and criminal justice allows students in other undergraduate programs at ASU to explore issues of crime, law and the criminal justice system. The program provides students with the tools to analyze complex issues and policies within the criminal justice system, enhancing their ability to understand the nature of crime and the system response to lawbreaking.

In addition to the three required courses, which provide a solid understanding of the field, each student selects electives to meet specific interests.

Program Requirements:

For this minor, students will:

1. at minimum, be in junior standing to take upper-division courses.

2. complete CRJ 100 as the prerequisite for all upper-division CRJ courses.

3. complete a minimum of 18 credit hours of graded classroom and online coursework (internship or independent study not applicable).
4. complete a minimum of 12 credit hours of CRJ resident credit at ASU.
5. earn a grade of "C" (2.00 on a 4.00 scale) or better for all courses in the minor.
6. consider meeting with a criminal justice advisor prior to registration.

Required Courses -- 6 credit hours

CRJ 100: Introduction to Criminal Justice (SOBE OR SB) (3)

CRJ 309: Criminology (SOBE OR SB) (3)

Choose one of the following: -- 3 credit hours

CRJ 203: Courts and Sentencing (3)

CRJ 230: Introduction to Policing (3)

CRJ 240: Introduction to Corrections (3)

Choose one of the following: -- 3 credit hours

CRJ 305: Gender, Crime, and Criminal Justice (SOBE OR C) (3)

CRJ 306: Race, Ethnicity, Crime, and Criminal Justice (CIVI OR C) (3)

CRJ Electives -- 6 credit hours

CRJ Upper Division Elective (6)

Notes: Choose any two CRJ courses at the 300- or higher level.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in criminology and criminal justice; BS in public service and public policy with the following concentrations: criminology, law and policy, or emergency management and homeland security

Other Enrollment Requirements: None

Applicants are asked to meet with a criminal justice advisor prior to registration.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Graduates of the criminology and criminal justice minor find a strong job market in the public and private sectors.

Employment opportunities exist in:

- bank fraud investigation
- corrections
- the court system
- domestic terrorism investigation
- federal agencies
- homeland security
- law enforcement
- legal offices
- parole offices
- private security
- probation offices
- victim advocate agencies

Graduates also may pursue advanced degrees in law, criminology and criminal justice, and other social science disciplines. Advanced degrees or certifications may be required for academic or clinical positions.

Dance Minor (FADANMIN)

Campus: Tempe

Description: The minor program in dance provides an inclusive, dynamic and culturally diverse learning environment where students can develop their creativity and artistry. The innovative curriculum provides flexibility, promotes creative collaboration and encourages a holistic approach to acquiring dance skills. Movement practices, performance and creativity define the core of the program. Students have the opportunity to engage in a variety of dance styles and develop their understanding of dance and how it connects to community and culture.

Program Requirements:

The minor in dance consists of 19 credit hours of coursework, including nine upper-division credit hours. A minimum grade of "C" (2.00) or higher is required in all classes for the minor.

A minimum GPA of 3.00 in minor courses is required to earn the minor in dance.

Creative Practices or Somatics (choose one course) -- 2 credit hours

DCE 136: Introduction to Somatic Movement (2)

DCE 160: Creative Practices I (3)

DCE 236: Somatic Movement Applications: A Closer Look (2)

Courses offered in Fall only: DCE 136, DCE 160, DCE 236

Major Level Movement Courses (choose one) -- 2 credit hours

DCE 133: Hip Hop I (2)

DCE 134: Contemporary Modern I (2)

DCE 135: Contemporary Ballet I (2)

DCE 139: Afro-Latin I (2)

Additional Movement Courses or Context Courses -- 6 credit hours

DCE 110: Argentine Tango I (2)

DCE 115: Yoga I (2)

DCE 116: T'ai Chi Chuan I (2)

DCE 118: Yoga/Pilates (2)

DCE 120: Nonmajors Contemporary Modern I (2)

DCE 121: Ballet I (2)

DCE 122: Jazz I (2)

DCE 123: Nonmajors Hip Hop I (2)

DCE 124: Latin/Swing/Ballroom I (2)

DCE 125: Afro-Latin Salsa I (2)

DCE 126: Country-Western (2)

DCE 133: Hip Hop I (2)

DCE 134: Contemporary Modern I (2)

DCE 135: Contemporary Ballet I (2)

DCE 136: Introduction to Somatic Movement (2)

DCE 137: African and Diaspora Movement Practices I (2)

DCE 139: Afro-Latin I (2)

DCE 161: Creative Practices II (3)

DCE 194: Meditation (1)

DCE 201: Dance, Culture, and Global Contexts (GCSI OR HU) (3)

DCE 202: Dance in U.S. Popular Culture (HUAD OR HU & C) (3)

DCE 203: The Walking Body (HUAD OR HU) (3)

DCE 204: Dance, Health and Wellness (HUAD OR L) (3)

DCE 205: How Dance Matters: A Sociocultural Framing (HUAD OR HU & C) (3)

DCE 224: Latin/Swing/Ballroom II (2)

DCE 225: Afro-Latin/Salsa II (2)

DCE 226: Musical and Kinesthetic Communication in Dance (2)

DCE 233: Hip Hop II (2)

DCE 234: Contemporary Modern II (2)

DCE 235: Contemporary Ballet II (2)

DCE 236: Somatic Movement Applications: A Closer Look (2)

DCE 238: Hip Hop Ensemble (1)

DCE 239: Afro-Latin II (2)
DCE 240: Media for Dance (QTRS OR CS) (3)
DCE 294: Authentic Jazz Dance (1)

Upper Division Dance Options -- 9 credit hours

DCE 300: Dancing Histories (HUAD OR HU) (3)
DCE 301: Dance Analysis and Theory (L or HU) (3)
DCE 302: History of American Hip Hop Dance (HUAD OR HU & C) (3)
DCE 303: The Body Condition(ed) (SOBE OR SB) (3)
DCE 306: History of Salsa: Afro-Latin Social and Global Contexts (HUAD OR HU & C) (3)
DCE 324: Latin/Swing/Ballroom III (2)
DCE 325: Afro-Latin/Salsa III (2)
DCE 333: Hip Hop III (3)
DCE 334: Contemporary Modern III (3)
DCE 335: Contemporary Ballet III (3)
DCE 336: Somatic Movement Development and Facilitation (3)
DCE 339: Afro-Latin III (3)
DCE 394: Choreography & Performance (1)
DCE 304: Dance at the Movies (HUAD OR HU & C & H) (3)
DCE 402: Ethnography of Dance Practices (HUAD OR L or HU) (3)
DCE 403: Making. Living. Thriving Through the Arts (HU) (3)
DCE 404: Dance and Ethics (L) (3)
DCE 405: Writing the Creating Body (HUAD OR L or HU) (3)
DCE 438: Dance Theatre Performance/Production (2)
DCE 484: Internship (1-3)
DCE 494: Advanced Studies in Media for Dance (1)
DCE 494: Generative Critique:The Critical Response Process (1)
DCE 494: Latin Performance Ensemble (1)
DCE 494: The Atlas of Creative Tools (1)
DCE 499: Individualized Instruction (1-3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: All dance majors

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor in dance can help students as they pursue careers in fields such as arts administration, teaching, acting and fitness.

Data Science Minor (LADATSCMIN)

Campus: Tempe, Online

Description: A minor in data science provides students with skills in statistics, probability and coding in the context of large data sets. Students in this minor become proficient at understanding and manipulating data sets to draw conclusions and make recommendations that impact real-world settings.

Program Requirements:

The minor in data science consists of a minimum of 25 credit hours, at least 12 of which must be at the upper division level. A grade of "C" (2.00 on a 4.00 scale) or better is required for courses used in the minor.

Required Courses -- 25 credit hours

DAT 250: Data Science and Society (3)

DAT 300: Mathematical Tools for Data Science (3)

DAT 301: Exploring Data in R and Python (4)

DAT 401: Statistical Modeling and Inference for Data Science (3)

DAT 402: Machine Learning for Data Science (3)

MAT 265: Calculus for Engineers I (MATH OR MA) or MAT 270: Calculus with Analytic Geometry I (MATH OR MA) (3-4)

MAT 266: Calculus for Engineers II (MATH OR MA) or MAT 271: Calculus with Analytic Geometry II (MATH OR MA) (3-4)

MAT 343: Applied Linear Algebra (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: N/A

Incompatible Majors: All majors in the School of Mathematical and Statistical Sciences

Other Enrollment Requirements: N/A

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: A minor in data science can make students more valuable to employers by enhancing their critical-thinking skills and improving their decision-making in careers as diverse as business, engineering, science, industry and government.

Design Studies Minor (ARDSNMIN)

Campus: Tempe

Description: Students interested in design can earn a minor in design studies through this non-studio-based program of study that focuses on the design disciplines offered in The Design School:

- architectural studies
- graphic design
- industrial design
- interior design
- landscape architecture

Program Requirements:

Courses selected must satisfy the minimum requirement of 18 credit hours for the minor. Twelve of the credit hours must be in 300-level or 400-level coursework.

To enhance understanding of the subject matter, some of the designated courses are sequential in nature and require certain prerequisites. Consequently, students should carefully note the semester in which these particular courses are offered. All designated courses for the minor in design studies are lecture courses.

Lower-Division Design Studies -- 6 credit hours

ALA 100: Introduction to Environmental Design (HUAD OR HU & H & G) (3)
ALA 102: Landscapes and Sustainability (SUST OR HU & G) (3)
ARC 101: Architecture Project I (3)
ARC 102: Architecture Project II (3)
ARC 111: Architecture of Architecture I (3)
ARC 112: Architecture of Architecture II (3)
DSC 101: Design Awareness (GCSI OR HU & G) (3)
EDS 223: Design Thinking (3)
GRA 101: Designing Life (3)
GRA 111: Graphic Design History I (HUAD) (3)
GRA 112: Graphic Design History II (3)
GRA 225: Communication/Interaction Design Theory (3)
GRA 294: Illustrator (3)
GRA 294: InDesign (3)
GRA 294: Photoshop (3)
IND 242: Materials and Design (3)
IND 243: Design for Ecology and Social Equity (3)
INT 111: Interior Design Issues and Theories (HUAD OR HU) (3)
INT 121: Introduction to Computer Modeling for Interior Design (QTRS OR CS) (3)
INT 123: Introduction to Computer-Aided Design and Building Information Modeling (3)
INT 131: Design and Human Behavior (SOBE OR SB) (3)
LAP 231: Introduction to Digital Applications for Designers (QTRS OR CS) (3)
LAP 251: Plant Materials for Sustainable Landscapes (3)

Upper-Division Design Studies -- 12 credit hours

APH 494: Frank Lloyd Wright (3)
APH 494: Peter Zumthor (3)
APH 494: The Image of Rome (3)
ARC 330: World and Western Architecture for Nonmajors (HU & H & G) or ARC 331: World and Western Architecture I ((L or HU) & G & H) (3)
ARC 332: World and Western Architecture II ((L or HU) & G & H) (3)
ARC 394: Special Topics (3)
ARC 431: Contemporary Architecture and Urbanism 1970 to the Present (HUAD OR HU & H) (3)
ARC 434: Great Cities (HUAD OR (L or HU) & H) (3)
ARC 436: Charles and Ray Eames (HU) (3)
ARC 494: Special Topics (3)
DSC 394: Design Entrepreneurship & Society (3)
DSC 494: Special Topics (3)
EDS 301: Sustainable Community Design and Practices (SUST OR HU) (3)
GRA 345: Design Rhetoric (3)
GRA 401: Creative Environment (3)
GRA 440: Finding Purpose (3)
IND 316: 20th-Century Design I (HUAD OR HU & H) (3)
IND 317: 20th-Century Design II (HUAD OR HU & H) (3)
IND 344: Human Factors in Design (3)
IND 354: Principles of Product Design (3)
INT 310: History of Interior Design I (HUAD OR HU & H) (3)
INT 311: History of Interior Design II (HUAD OR HU & H) (3)
INT 415: Latin American Design or INT 494: Design and Culture in Latin America (3)
INT 494: Contemporary Design Issues in Europe (3)
INT 494: Design and Context (3)
LAP 311: History of Landscape Architecture (HUAD OR HU & H) (3)
LAP 312: 20th-Century Landscape Architecture (HU) (3)
LAP 485: International Field Studies (G) (3)
LAP 494: Special Topics (3)
LPH 494: Special Topics (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.50

Incompatible Majors: All majors in The Design School; BA in design studies; BA in design studies with a concentration in design management

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in design studies is intended to provide an overview of design processes and design thinking that can benefit any major within the ASU system. Many industries, including business and engineering, seek candidates who have experience with and an understanding of design thinking; those who possess this skill have a unique method of approaching ongoing problems with new insights that lead to solutions.

Digital Audiences Minor (CSDAUMIN)

Campus: Downtown Phoenix, Online

Description: Who are digital consumers? How can they be measured? And how can data-driven strategy better engage and grow audiences?

By exploring the users of websites, social networks, and apps and applying techniques across digital analytics, social media, network analysis, search engine optimization and search engine marketing, students who pursue the digital audiences minor gain a rich understanding of how to acquire and engage audiences with digital content and campaigns.

The program uses real cases from real brands and organizations to explore tools like Google Analytics and Meta Ads, and tactics like conversation analysis, competitive keyword research and digital advertising. Upon completion, students have a portfolio of real client work and the skills to strategically grow digital audiences and harness analytics to drive organizational change.

Program Requirements:

Students must complete MCO 307 first. In order to enroll in the course, students must have a 2.00 cumulative GPA. To be awarded the minor, students must earn a "C" or better in all courses.

Required Courses -- 15 credit hours

- MCO 307: The Digital Audience (3)
- MCO 433: Social Media Campaigns, Engagement and Research (3)
- MCO 434: Search Engine Research and Strategy (3)
- MCO 438: Digital Audience Analysis (3)
- MCO 439: Digital Audience Growth (3)

Students interested in pursuing graduate programs in digital audiences should consult their academic adviser. Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in digital audiences

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor or the Cronkite School advising department (<https://cronkite.asu.edu/students/advising/undergraduate/>) for more information.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Global Opportunities:

Global Experience: Study abroad programs expose students to valuable perspectives, opinions and audiences that consume digital content. Students should consider programs that utilize experiential learning with organizations like social media companies or communication agencies in countries like Japan and the UK, where millions consume digital content every day. More information on available programs can be found on the Global Education website (<https://goglobal.asu.edu/>).

Career Opportunities: The digital audiences minor can help students as they pursue careers in digital advertising, SEO, social media strategy and email marketing, or roles in communication, marketing, engagement and strategy at organizations in their major fields.

Digital Media Literacy Minor (CSDMLMIN)

Campus: Online

Description: The minor program in digital media literacy prepares students to be at the forefront of strategic and ethical issues related to digital media, including mis- and disinformation, automation, verification, security and privacy. Students explore how media is created, consumed and researched, and how better information creates better communities.

Graduates of the program are able to use advanced tools and tactics to analyze media; verify and interpret information; exercise their freedom of expression; and use content to improve their own lives and society.

Program Requirements:

Students must maintain a minimum 2.00 cumulative GPA to pursue a minor in digital media literacy, and obtain a minimum grade of "C" (2.00 on a 4.00 scale) in each course in the minor.

Required Courses -- 15 credit hours

MCO 302: Media Research Methods (3)

MCO 425: Digital Media Literacy I (3)

MCO 426: Digital Media Literacy II (3)

MCO 427: Misinformation and Society (3)

MCO 428: Digital Media and Freedom of Expression in the 21st Century (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BA in digital media literacy

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Graduates of this program pursue a variety of professional and educational opportunities. The program's liberal arts foundation --- including critical thinking, communication, research and problem-solving --- gives graduates the intellectual agility to thrive in many fields. Specialization in the technical, ethical, legal, social and economic aspects of digital media is especially valuable, as employers of all sizes try to leverage digital media to serve consumers.

As organizations try to keep up with digital transformation and plan for the future, having a deep understanding of how digital ecosystems work is critical. Demand for graduates of digital media literacy in fields such as health care communication, public service and sustainability is anticipated to

rise, and the U.S. Department of Labor categorizes many jobs in these areas as having a bright outlook in the job market.

Given increasing emphasis on teaching media literacy at every age level, graduates can expect to find employment opportunities in a variety of educational settings, and some students may pursue graduate school in disciplines such as education, library science, law, public policy, business, public relations, digital strategy and journalism.

Disability Studies Minor (ASDISASMIN)

Campus: SYNC, Online

Description: The minor in disability studies explores historical, linguistic, social, artistic and legal dimensions of disability with the goal of improving society in ways that benefit those with disabilities.

Through curriculum that combines theory and practice, students are prepared to address injustices, exclusions and misapprehensions regarding disabilities through advocacy and self-advocacy, education, knowledge of the law and historical awareness. The coursework, designed to complement any undergraduate major, utilizes an electronic portfolio tailored to students' professional interests.

The disability studies minor is offered by ASU's New College of Interdisciplinary Arts and Sciences.

Format options

The disability studies minor is offered in two formats: ASU Online or ASU Sync.

ASU Online: The online disability studies minor program offers all coursework virtually (<https://asuonline.asu.edu/students/courses/>). Courses are typically offered in a 6--7.5 week format, and they are taught asynchronously (so there is not set time to attend class each week). Students access course content on their own schedule and complete assignments by preset deadlines.

ASU Sync: The disability studies Sync program (<https://provost.asu.edu/sync>) is a flexible minor option that allows students to attend classes virtually or in person. Courses in the minor (i.e. DST courses) are offered virtually, either as iCourses or live virtual lectures with faculty and peers (Sync classes). Courses required outside of the minor, such as general studies or electives, are offered in person or virtually as iCourses. Students should review the Class Search (<https://catalog.apps.asu.edu/catalog/classes>) to determine course format options offered each semester to ensure they can attend courses in the modalities available. The Sync program option is open to Arizona residents and nonresidents. Nonresidents should consider time zone differences as most Sync classes will be offered in local Arizona time.

International students on F-1 or J-1 visas should consult the International Students and Scholar Center (<https://issc.asu.edu/>) regarding eligibility and restrictions for Sync or other virtual courses.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center. GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available on the official U.S. government website at <https://www.benefits.va.gov/gibill> (<https://www.benefits.va.gov/gibill>).

Program Requirements:

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in disability studies

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Students with a minor in disability studies find career opportunities in many fields, such as social justice, civil service, law, health care advocacy, social work, education, rehabilitative health care, counseling, business, policy and advocacy, and government, and with community and nongovernmental organizations.

Early Childhood Education Minor (TEECEDMIN)

Campus: Downtown Phoenix, Tempe, West

Description: A minor in early childhood education allows students to combine their knowledge of their major discipline with an understanding of educational practices for young children and their families.

Students complete specialized coursework in topics such as childhood development, advocacy in early childhood, educational psychology and adolescent development.

The ultimate goal of this minor is to produce graduates who understand child development and apply that knowledge when collaborating with other educators in schools and other learning environments such as preschools and community centers.

Program Requirements:

Required Courses -- 18 credit hours

CDE 350: Inequality and Diversity in Education (CIVI OR L & C) or FAS 370: Family Ethnic and Cultural Diversity (CIVI OR SB & C) or HEP 443: Emotional Health and Interpersonal Relationships or JUS 235: Disability, Justice and Advocacy (CIVI OR C) (3)

ECS 312: Social and Emotional Development of the Young Child (SOBE OR SB) (3)

ECS 430: Systems, Policy, and Advocacy in Early Childhood/Special Education (3)

EDP 310: Educational Psychology for Non-Teachers (3)

Notes: Complete three one-hour courses in EDP 310

SPE 222: Orientation to Education of Exceptional Children (CIVI OR SB & C) (3)

TEL 215: Introduction to Child and Adolescent Development (SOBE OR SB) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: All education majors

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with a minor in early childhood education acquire knowledge and skills related to child development and educational support, which is a benefit as they pursue careers that require working with young children and their families in a variety of educational settings.

Economics Minor (LAECNMIN)

Campus: Tempe, Online

Description: Economics is a social science that examines how societies, businesses and individuals deal with scarcity. The minor in economics offers instruction by world-renowned researchers and award-winning professors, helping students build a foundation of micro- and macroeconomics that supports their investigation of the forces shaping national and global economies.

Students create a personalized program of study that covers economic theory and applications, and upper-division offerings suit individual interests and goals.

Program Requirements:

The minor in economics consists of 18 credit hours in economics courses, of which 12 credit hours must be upper division. A minimum of six upper-division credit hours must be taken in courses offered by the W. P. Carey School of Business. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.

Required Courses -- 6 credit hours

ECN 211: Macroeconomic Principles (SOBE OR SB) (3)

ECN 212: Microeconomic Principles (SOBE OR SB) (3)

Electives -- 12 credit hours

ECN Upper Division Elective (12)

No more than three credit hours of ECN 484 Internship may be applied to the minor.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BS in economics; BS in economics (politics and the economy); BS in politics and the economy

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor in economics may help students as they pursue careers in business, finance, government and law.

Educational Studies Minor (TEEDSTMIN)

Campus: Downtown Phoenix, Tempe, West, Online

Description: The educational studies minor prepares students to work with children, youth and adults in a variety of learning contexts.

Students broaden their skill set by completing specialized coursework in topics such as pedagogy, educational technology and problem-solving.

Students learn how to apply educational techniques in many professional settings. The minor provides a foundation for students to make an impact as educators in a society in which the importance of lifelong learning and learning outside traditional school-based environments is likely to grow.

Program Requirements:

The minor in educational studies requires 15 credit hours, including six lower-division credits and nine upper-division credits. A "C" grade or better is

required in all coursework.

Required Courses (choose two) -- 6 credit hours

EDT 180: Technology Literacy: Problem Solving using Digital Technology Applications (QTRS OR CS) (3)

SPE 223: Intersection of Society, Disabilities and Inclusion (CIVI) (3)

TEL 111: Exploration of Education (HUAD OR SB) (3)

TEL 208: Education in a Changing World (HUAD OR HU) (3)

TEL 215: Introduction to Child and Adolescent Development (SOBE OR SB) (3)

Overview of Education (choose three) -- 9 credit hours

EDU 301: Why Education? (3)

EDU 302: Diversity in Learning Contexts (3)

EDU 402: Partnering to Advance Educational Initiatives (L) (3)

LSE 303: Human Development: Addressing Learner Capabilities (SOBE OR SB) (3)

LSE 305: Conceptualizing Learning: Theories in Practice (3)

LSE 401: Designing Learning Environments for Inclusion (SOBE OR SB) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: All education majors

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in educational studies equips students with skills in leadership, collaboration and innovation, all of which are valuable benefits when pursuing educational careers in a variety of settings such as nonprofits, community institutions, civic organizations, businesses and more.

Engineering Management Minor (ESENMMIN)

Campus: Tempe, Online

Description: The curriculum of the minor in engineering management supplements students' majors by adding to the breadth of engineering science and design, and equipping the student with additional management and design skills. This knowledge is augmented with an understanding of business practices, organizational behavior and management skills to enable the student to succeed in the management of a scientific or engineering enterprise.

Topics covered include project and resource management, financial engineering, risk management, configuration management, service plans, product liability, entrepreneurship and operations management, in addition to product design and process development.

Program Requirements:

The minor in engineering management requires completion of 18 credit hours: three core courses (nine credit hours) and three elective courses (nine credit hours). All courses must be passed with a "C" or better. At least 12 credit hours must be completed in residency at ASU or through ASU Online.

Core Courses -- 9 credit hours

IEE 300: Economic Analysis for Engineers (3)

IEE 380: Probability and Statistics for Engineering Problem Solving (QTRS OR CS) (3)

IEE 458: Project Management or CEE 481: Civil Engineering Project Management (3)

Notes: CEE 481 may not be used for both the BSE in civil engineering and the minor in engineering management.

Electives (choose 3) -- 9 credit hours

IEE 369: Work Analysis and Design (L) (3)

IEE 376: Operations Research Deterministic Techniques/Applications (4)

IEE 381: Lean Six Sigma Methodology (3)

IEE 412: Introduction to Financial Engineering (3)

IEE 431: Engineering Administration (L) (3)

IEE 437: Human Factors Engineering (3)

IEE 454: Risk Management (3)

IEE 456: Introduction to Systems Engineering (3)

IEE 474: Quality Control (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BSE in engineering management; BSE in industrial engineering

Other Enrollment Requirements: Prior to enrolling in the minor, students must have completed MAT 265 Calculus for Engineers I and MAT 266 Calculus for Engineers II (or an equivalent calculus sequence) with a grade of "C" or better in each.

IEE 380 is a required course. If a student is required to take IEE 380 for their degree, they will need to take another elective to replace the requirement for the minor.

Interested students should consult with a School of Computing and Augmented Intelligence advisor (<https://fultonapps.asu.edu/advising/>) to verify eligibility and to review all courses required for the minor.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. The minor in engineering management can help students pursuing careers in engineering and business fields gain valuable skills in management for engineering-related professions, potentially fast-tracking them into a managerial role down the line in their profession.

Career examples include production supervisor, project management team member or project management team leader.

English Minor (ASENGMIN)

Campus: West

Description: The English minor helps students strengthen their analytical skills, shape their own ideas, and flexibly develop their own interests. English courses are regularly offered in fiction, poetry, creative writing; periods and authors in British, American, and global literatures; women's and ethnic literatures; and creative and expository writing.

Students have the opportunity to gain practical publishing experience with the literary magazine Canyon Voices.

Program Requirements:

The minor in English consists of 18 credit hours of coursework, of which a minimum of nine hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Humanities, Arts and Cultural Studies. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better. At least three credit hours of Distribution coursework must be at the 400-level.

Required Core Course -- 3 credit hours

ENG 200: Critical Reading and Writing About Literature (HUAD OR L or HU) (3)

Distribution Cluster Requirement -- 12 credit hours

Select one course from each distribution cluster. A minimum of two courses (six credits) must be upper division, and at least one course must be at the 400-level.

Writing, Power, Change -- 3 credit hours

ENG 205: Introduction to Writing, Rhetorics and Literacies (CIVI OR L) (3)

ENG 213: Introduction to the Study of Language (SOBE OR SB) (3)

ENG 217: Writing Reflective Essays (HUAD OR L) (3)

ENG 241: Literatures of the United States to 1860 (HUAD OR (L or HU) & C) (3)

ENG 288: Beginning Creative Writing Workshop in Fiction (3)

ENG 311: Persuasive Writing (CIVI OR L) (3)

ENG 317: Cross-Cultural Writing ((L or HU) & G) (3)

ENG 323: Rhetoric and Grammar (L) (3)

ENG 339: Creating Dramatic Works: Page to Stage to Screen (3)

ENG 352: Short Story (HUAD OR L or HU) (3)

ENG 353: African American Literature: Beginnings through the Harlem Renaissance ((L or HU) & C) (3)

ENG 354: African American Literature: Harlem Renaissance to the Present (HUAD OR (L or HU) & C) (3)

ENG 361: Scriptwriting (3)

ENG 379: Travel Writing (3)

ENG 394 / IAP 394: Print and the Protest (3)

ENG 410: Writing for Publication (3)

ENG 416: Chaucer in Middle English (HUAD OR HU) (3)

ENG 425: Studies in Romanticism (HUAD OR HU) (3)

ENG 433: Literary Magazine Publishing: Canyon Voices (3)

ENG 437: The American Novel, 1900 - 1960 (L or HU) (3)

ENG 440: Studies in American Literature and Culture (3)

ENG 472: Rhetorical Studies (3)

ENG 484: Pen Project Prison Teaching (3)

Climate, Energy, Infrastructure -- 3 credit hours

ENG 245: Popular Culture Issues (3)

ENG 324: Horror: Film and Short Stories (3)

ENG 342: 20th-Century British and Irish Literature (HU) (3)

ENG 367: Environmental Issues in Literature and Film (3)

ENG 369: Science Fiction Studies (3)

ENG 378: Environmental Creative Nonfiction (HUAD OR HU) (3)

ENG 415: Studies in Medieval Literature and Culture (HUAD OR HU) (3)

ENG 416: Chaucer in Middle English (HUAD OR HU) (3)

ENG 471: Literature for Young Adults (HUAD OR HU) (3)

ENG 498: Reading Englands Literary Landscapes (L) (3)

Borders, Boundaries, Citizenship -- 3 credit hours

ENG 221: Survey of English Literature (HUAD OR HU) (3)

ENG 222: Survey of English Literature (HUAD OR HU & H) (3)

ENG 241: Literatures of the United States to 1860 (HUAD OR (L or HU) & C) (3)

ENG 242: Literatures of the United States, 1860 to Present (HUAD OR HU) (3)

ENG 328: The Novel to Jane Austen (HUAD OR HU & H) (3)

ENG 333: American Ethnic Literature (3)

ENG 334: The American Southwest in Literature and Film (HUAD OR HU & C) (3)

ENG 342: 20th-Century British and Irish Literature (HU) (3)

ENG 353: African American Literature: Beginnings through the Harlem Renaissance ((L or HU) & C) (3)

ENG 354: African American Literature: Harlem Renaissance to the Present (HUAD OR (L or HU) & C) (3)

ENG 363: Transborder Mexican and Chicano/a Literature of Southwest North America (HUAD OR (L or HU) & C) (3)
ENG 379: Travel Writing (3)
ENG 386: American Gothic (3)
ENG 394: Oral History & Storytelling in Humanities & Arts (3)
ENG 420: Multicultural Autobiographies ((L or HU) & C) (3)
ENG 432: The American Renaissance (HU) (3)
ENG 457: Studies in American Poetry (HUAD OR HU) (3)
ENG 462: Africana Literature (HU & G) (3)
ENG 498: Reading Englands Literary Landscapes (L) (1)

Bodies, Intersections, Transitions -- 3 credit hours

ENG 203: Introduction to Health Humanities (HU) (3)
ENG 323: Rhetoric and Grammar (L) (3)
ENG 324: Horror: Film and Short Stories (3)
ENG 333: American Ethnic Literature (3)
ENG 364: Women and Literature (HUAD OR HU) (3)
ENG 369: Science Fiction Studies (3)
ENG 421: Studies in Shakespeare (HUAD OR L or HU) (3)
ENG 431: Whitman and Dickinson (L or HU) (3)
ENG 443: Gender, Culture and Literacy (3)
ENG 454 / WST 454: Gender and Literature (L or HU) (3)
ENG 461: Studies in Women and Literature (3)
ENG 472: Rhetorical Studies (3)
ENG 476: Studies in Folklore (3)
ENG 478: Studies in Modernism (3)
ENG 494: Disrupting Dis/Ability Discourses (3)
ENG 494: Weird Fiction: Films and Short Stories (3)

Upper Division ENG Elective -- 3 credit hours

ENG Upper Division Elective (3)

Notes: ENG 499 Individualized Instruction may only be used once, and only with permission of the English program lead.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in English

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Students who complete a minor in English are better prepared for professional training in law, business, teaching and public policy; for careers in marketing, public relations, government, diplomacy and community work; and for other professions in which problem-solving, creativity, research strengths, writing, interpersonal and digital skills are necessary and valued.

English Minor (LAENGMIN)

Campus: Online

Description: The minor program in English provides students with the knowledge and skills that enable them to improve their writing and that enhance their ability to read and think analytically and become critical consumers of media.

This program is delivered entirely online and serves as a complement to the chosen major of undergraduate students who are pursuing an ASU major online.

Program Requirements:

The online minor in English consists of 18 credit hours, of which at least 12 credit hours must be upper division. The remaining six credit hours may be completed with ENG 200-499 courses. At least six of the upper-division credit hours must be earned from The College of Liberal Arts and Sciences. A grade of "C" (2.00 on a 4.00 scale) or higher is required in all courses taken for the minor.

Core Courses (choose three) -- 9 credit hours

ENG 211: Introduction to English Studies (HUAD OR HU) (3)

ENG 305: Interpretive Theory (HUAD OR HU) (3)

ENG 308: Form and History/Culture (HUAD OR HU) (3)

ENG 309: Rhetoric for Writers (CIVI OR L) (3)

ENG 327: English Studies Research (3)

ENG 489: Scholarly Products (3)

English Electives -- 9 credit hours

ENG 2** Elective or ENG 3** Elective or ENG 4** Elective (3)

ENG Upper Division Elective (6)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in English

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: A minor in English provides students with the strong analytical and communications skills required by many professions, such as those in publishing, journalism, public relations, nonprofit organizations, professional and technical writing, education, business, banking, grassroots activism, law and medicine.

English Minor (LSENGMIN)

Campus: Polytechnic

Description: The minor program in English focuses on effective writing, critical thinking, and reading sophisticated literary and nonliterary texts.

Program Requirements:

The English minor consists of 18 credit hours. A minimum of nine upper-division credit hours is required, of which at least six credit hours must be taken through the College of Integrative Sciences and Arts. A grade of "C" (2.00 on a 4.00 scale) or better is required in all courses.

Required Course -- 3 credit hours

ENG 200: Critical Reading and Writing About Literature (HUAD OR L or HU) (3)

Electives -- 15 credit hours

ENG Elective (6)

ENG Upper Division Elective (9)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00 cumulative GPA

Incompatible Majors: BA in English

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in English can help students as they pursue careers in any field where effective written communication and textual interpretation are important, including careers in publishing, marketing, law, journalism, management, education and numerous other fields.

English - Linguistics Minor (LAENGMINN)

Campus: Tempe

Description: The minor in English with a focus in linguistics examines the origins, structures and functions of language. The program provides students with knowledge and skills that enable them to improve their writing and that enhance their ability to read and think analytically and become critical consumers of media.

Program Requirements:

The minor in English with a focus in linguistics consists of 18 credit hours. A minimum of 12 upper-division credit hours are required, with at least six credit hours from courses offered by The College of Liberal Arts and Sciences. Courses must be completed with a grade of "C" (2.00 on a scale of 4.00) or better to satisfy minor requirements.

Required Courses -- 12 credit hours

ENG 213: Introduction to the Study of Language (SOBE OR SB) (3)
ENG 312: English in its Social Setting (SOBE OR L or HU or SB) (3)
ENG 314: Modern Grammar (3)
ENG 413: History of English Language (HU) (3)

Directed Electives (choose two) -- 6 credit hours

ENG 214: English Grammar and Usage (3)
ENG 313: Phonology and Morphology (3)
ENG 403: Semantics (3)
ENG 404: Studies in Second Language Acquisition (3)
ENG 414: Studies in Linguistics (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

ENG 404 and ENG 414 are variable topics courses and may be repeated with a different topic title for a total of 6 credit hours.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in English (all concentrations)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

English - Literature Minor (LAENGMINT)

Campus: Tempe

Description: The minor program in English with a focus on literature emphasizes global literatures in English, from the earliest writings to the present. Students can choose from a broad array of courses to further explore subjects such as race and ethnicity, gender and sexuality, and literary histories and traditions.

Program Requirements:

The minor in English with a focus in literature consists of 18 credit hours. At least 12 credit hours must be completed at the upper-division level, with a minimum of six upper-division credit hours from courses offered by the Department of English in The College of Liberal Arts and Sciences. A grade of "C" (2.00 on a 4.00 scale) or higher is required in all courses taken for the minor.

Required Courses (choose three) -- 9 credit hours

ENG 206: Introduction to Literary Studies (3)

ENG 304: Critical Theories and Methods (3)

ENG 332: Studies in Race and Ethnicity in Literature and Culture (3)

ENG 349: Global Literary Studies (3)

ENG 350: Studies in Literary Histories and Traditions (3)

ENG 384: Studies in Gender and Sexuality in Literature and Culture (3)

ENG 444: Topics for Interdisciplinary Study of Literature and Culture (3)

ENG 491: Topics for Advanced Research (3)

Electives -- 9 credit hours

ENG 2** Elective or ENG 3** Elective or ENG 4** Elective (3)

ENG Upper Division Elective (6)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in English (including all concentrations); BAE in secondary education (English)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Environmental Science Minor (ASENVMIN)

Campus: West, ASU at Lake Havasu

Description: The environmental science minor program provides students with a fundamental understanding of how the natural world functions as a system, how changes in this system influence organisms and humans, and how this system is impacted by humans.

An understanding of human-environment interactions gained through this minor will augment students' major field of study. To accommodate broad interests for students from a variety of majors, the curriculum is designed to allow students to explore their interests by choosing from categories of scientific coursework and skill-based curricula to provide applied experiences.

Program Requirements:

The minor in environmental science consists of 15 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Mathematical and Natural Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Core Requirements -- 6 credit hours

ENV 201: Fundamentals of Environmental Science (SUST) (3)

IAS 407 / PHI 407: Environmental Philosophy and Policy (L or HU) or IAS 409 / PHI 409: Eco-Community Ethics (HU) or PHI 310: Environmental Ethics (SUST OR HU) (3)

Upper-Division Electives -- 9 credit hours

Choose a minimum of nine credit hours from the following categories. Students may choose freely from among the categories; it is not necessary to take one from each or all from one category.

Global/Ecosystem Focus:

BIO 422: Ecosystem Ecology (3)

CHM 302: Environmental Chemistry (3)

ENV 410: Soil Science (4)

LSC 434: Marine Ecology (3)

MIC 443: The Microbial Universe AND MIC 444: The Microbial Universe Laboratory (4)

Organismal Focus:

BIO 370: Vertebrate Zoology (4)

BIO 385: Comparative Invertebrate Zoology (4)

BIO 410: Techniques in Conservation Biology and Ecology (3)

BIO 412: Conservation in Practice (3)

BIO 474: Herpetology (4)

PLB Upper Division Elective (3-4)

Skills in Environmental Science:

ENV 345: Spatial Analysis in the Environmental Sciences (3)

ENV 388: STEM Research Fundamentals (3)

ENV 485: Environmental Impact Assessment (CIVI OR L) (3)

ENV 499: Individualized Instruction (1-3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BS and BA environmental science

Other Enrollment Requirements: This first course in this minor (ENV 201) has prerequisites of BIO 181, BIO 182 and CHM 116.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Students who complete this major have the foundational knowledge they need to apply environmental concepts and awareness to their future careers.

Many career fields have environmental applications, including:

- academic research
- business
- economics
- entrepreneurship
- health

Career opportunities are many, including positions in:

- environmental policy agencies
- management or leadership in federal and state agencies
- municipality planning offices
- nongovernmental and nonprofit organizations
- private consulting firms

Environmental and Resource Management Minor (ESERMMIN)

Campus: Polytechnic

Description: The minor program in environmental and resource management provides students with a thorough introduction to environmental regulations and key environmental management issues, such as the provision of clean, potable water; wastewater treatment; and solid and hazardous waste management; as well as remediation technologies for polluted soils, groundwater and air. Students learn to apply basic science and engineering principles to solving problems that significantly impact human health and ecosystems.

The environmental and resource management minor program provides a valuable option to other majors that focus on environmental issues, whether from a technical or a policy perspective. The courses form a coherent whole and demonstrate the connection between science, engineering, public policy, management and the law.

Program Requirements:

The minor requires completion of four core courses (12 credit hours) and two elective courses (six credit hours) for a total of 18 credit hours. At least 12 credit hours must be completed in residency at ASU. Courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Core Courses -- 12 credit hours

ERM 201: Environmental Management (3)

ERM 203: Environmental Regulations (3)

ERM 302: Water and Wastewater Treatment Technology (3)

ERM 401: Hazardous Waste Management (3)

Electives (choose two) -- 6 credit hours

ERM 402: Unit Treatment Technologies (3)

ERM 406: Environmental Chemistry (3)

ERM 407: Occupational Hygiene (3)

ERM 426: Environmental Issues (3)

ERM 428: International Environmental Management (G) (3)

ERM 432: Sustainable Solid Waste Management (3)

ERM 494: Algal Bioprocess and Biosystems Engineering (3)

ERM 494: Environmental Health (3)

ERM 494: Environmental Management Leadership (3)

ERM 494: Water and Food Security (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in environmental and resource management

Other Enrollment Requirements: Interested students must have at least sophomore status.

Students should consult with an advisor in The Polytechnic School to verify eligibility and to review all courses required for the minor. To schedule an advising appointment, students should go to the advising website (<https://fultonapps.asu.edu/advising>).

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Graduates with the skills gained in this minor are in high demand and can find work in industry, governmental management and regulatory agencies, and in policymaking organizations.

Ethnic Studies Minor (ASETHMIN)

Campus: West

Description: The minor in ethnic studies explores the changing political, social, economic and cultural realities of racial, ethnic and indigenous communities in the United States and the Americas.

The coursework combines topics in the humanities, arts and social sciences, and instruction is given on methods to critically analyze racial, ethnic, gender and sexual identities; transnational movements; and diverse forms of cultural, literary and political expression.

Program Requirements:

The minor in ethnic studies consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Humanities, Arts and Cultural Studies. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Electives are not limited to the certificate elective list; see academic advisor prior to enrollment. Students are encouraged to take courses that develop breadth rather than limiting their selection to courses in one particular discipline. Up to three credit hours of individualized instruction may be applied toward the minor.

Required Courses -- 6 credit hours

ETH 100: Ethnic and Indigenous Lives (GCSI OR SB & C) (3)

HRC 200: Introduction to Social and Cultural Analysis (CIVI OR SB & C) (3)

Upper-Division Electives -- 12 credit hours

AMS 332: Studies in Race and Ethnicity (3)

ASB 342 / SBS 342 / SOC 342: Mexico-U.S. Borderlands (SB & C) (3)

ASB 447 / POS 447 / SBS 447: Citizenship, Nationalism and Identity (CIVI OR SB & C & G) (3)

ENG 338: Protest Literature (3)

ENG 359: Indigenous American Literature ((L or HU) & C) (3)

ENG 420 / IAS 420: Multicultural Autobiographies ((L or HU) & C) (3)

ENG 462: Africana Literature (HU & G) (3)

ENG 463: African American Literature (3)

ENG 476: Studies in Folklore (3)

ETH 353 / ENG 353: African American Literature: Beginnings through the Harlem Renaissance ((L or HU) & C) (3)

ETH 354 / ENG 354: African American Literature: Harlem Renaissance to the Present (HUAD OR (L or HU) & C) (3)

ETH 380 / WST 380: Race, Gender, and Class (SOBE OR SB & C) (3)

ETH 428 / AMS 428: Peoples and Cultures of the American West, to 1848 (SB & H) (3)

ETH 430 / WST 430: Gender on the Borderlands (HUAD OR SB) (3)

ETH 433 / WST 433: Race and Sexualities in Social Justice Movements (3)

ETH 450: Latina/os, Schooling and Social Inequality (C) (3)
ETH 473 / WST 473: Indigenous and Latina/Chicana Representation (SB & C) (3)
ETH 484 / ENG 484: Pen Project Prison Teaching (3)
ETH 499: Individualized Instruction (3)
HST 419: 20th Century Chicano/a History (C) (3)
IAP 302: Cross-Cultural Perspectives on the Arts (L or HU) (3)
IAP 464: Media and Diversity (HUAD OR HU & G) (3)
LAS 340 / WST 341: Latin American Women Writers (HU & G) (3)
SBS 301: Cultural Diversity ((L or SB) & C) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in social and cultural analysis (ethnicity, race and Indigenous studies)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: This program helps prepare students for careers or graduate school in a variety of fields, including:

- business
- community development
- criminal justice
- education
- governance
- health care
- public relations
- public policy
- social services

Potential careers include:

- community health worker
- journalist
- secondary and high school teacher
- social and community service manager

Family and Human Development Minor (LAFASMIN)

Campus: Tempe, Online

Description: In the minor program in family and human development, students learn about the stages of development, from birth to late adulthood, and the important influences of family and society on how we change and grow.

This program provides an exceptional complement to studies in psychology, communication, education, business and nursing.

Program Requirements:

The minor in family and human development consists of 18 credit hours in family studies and child development. At least 12 of the 18 credit hours must be in upper-division courses. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Required Courses -- 9 credit hours

CDE 232: Human Development (SOBE OR SB) (3)
FAS 101: Personal Growth and Relationships (SOBE OR SB) (3)
FAS 370: Family Ethnic and Cultural Diversity (CIVI OR SB & C) (3)

Upper-Division Electives -- 9 credit hours
CDE Upper Division Elective (3)
CDE OR FAS Upper Division Elective (6)
A maximum of 3 credits of CDE 484, CDE 493, CDE 499,
FAS 390, FAS 484, FAS 492, FAS 493 and FAS 499 may apply.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BS in family and human development

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in family and human development can help students as they pursue careers in health care, counseling and social work, sociology or education.

Fashion Minor (HIFSHMIN)

Campus: Downtown Phoenix, Online

Description: The minor program in fashion offers grounding in the history, social context and economics of the contemporary fashion industry. Students also have the option of pursuing more focused classes designed to introduce them to a variety of roles in this important industry: fashion history, fashion industry business practices and fashion production.

Degree programs can be complemented by this minor through subjects such as marketing and merchandising, costuming, wearable technology, sustainability, management and leadership, and fashion and culture, as well as through international experience. Because of the relationship of these subjects to a wide variety of disciplines taught at ASU, many students throughout the university may supplement their major with closely related fashion minor classes, creating a strong foundation for a variety of careers. Opportunities for study abroad could further advance students' professional goals.

Taught by well-known fashion industry professionals, students enrolled in the minor in fashion at ASU develop connections to leaders in the field.

Program Requirements:

The minor in fashion requires 19 credit hours, of which nine credit hours must be upper-division (300 or 400-level) coursework. The program includes four credits of required core courses and 15 credits of theme area courses. All courses must be completed with a minimum grade of "C" (2.00).

Required Introductory Courses -- 4 credit hours

FSH 200: Textiles Science Lab (1)
FSH 201: Textiles Science (3)

Fashion Theme Area Courses -- 15 credit hours

Students complete 15 credit hours (nine must be upper division) selecting courses across the theme areas below. Students may wish to determine which upper-division (300/400-level) courses they are interested in to ensure needed lower-division (100/200-level) prerequisite courses are taken.

Theme Area (6)

Upper Division Theme Area (9)

Apparel Technical Design Theme

FSH 158: Fundamentals of Technical Flat Sketching (3)

FSH 258: Technical Design I (3)

FSH 358: Technical Design II (3)

Fashion Apparel Design Theme

FSH 122: Apparel Construction I (3)

FSH 203: Fashion Illustration I (3)

FSH 205: Fundamentals of Fashion Design or FSH 206: Fashion Design I (3)

FSH 208: Fashion Technology I (3)

FSH 222: Apparel Construction II (3)

FSH 224: Accessories Design (3)

FSH 303: Fashion Illustration II (3)

FSH 306: Fashion Design II (3)

FSH 308: Fashion Technology II (3)

FSH 342: Materials and Techniques (3)

FSH 344: Fashion Design and Wearable Technology (3)

FSH 394: Draping for Fashion Design I (3)

FSH 394: Sustainable Design Studio (3)

FSH 412: Power Play (3)

FSH 494: Paris Fashion and Culture Experience (3)

Fashion Business and Merchandising Theme

FSH 175: Merchandising Essentials (3)

FSH 275: Merchandising Applications (3)

FSH 280 / MKT 280: Fashion Merchandising (3)

FSH 300: Global Fashion Industry (GCSI OR G) (3)

FSH 325: Personal Style and Wardrobe (HUAD OR HU) (3)

FSH 326: Fashion Styling (3)

FSH 375: Fashion Branding Strategies (3)

FSH 380: Fashion Forecasting (3)

FSH 385: Fashion Visual Merchandising (3)

FSH 394: Merchandising Practice (3)

FSH 475: Communication Strategies for Fashion (3)

FSH 480: Fashion Retail Development (3)

Fashion Culture, Criticism and Curation Theme

ARS 394: 20th Century American & European Jewelry Design (3)

FSH 204: Social Aspects of Fashion (SOBE OR L or HU or SB) (3)

FSH 304: Equity and Inclusion in Fashion (3)

FSH 331 / ARS 331: 18th- and 19th-Century European Jewelry Design (3)

FSH 360: Sustainable Systems in Fashion (3)

FSH 435: Contemporary Fashion (HUAD OR L or HU) (3)

FSH 494: Paris Fashion and Culture Experience (3)

THE 430: History of Fashion I (HUAD OR HU) (3)

THE 431: History of Fashion II: 20th-Century Fashion (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in fashion

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Film and Media Production Minor (FAFMPMIN)

Campus: Tempe

Description: A minor in film and media production equips students with skills in basic film production and narrative techniques while teaching them about the history, theory and ethics of filmmaking, television and digital media. The program meaningfully supplements a wide variety of degrees.

Program Requirements:

The school offers a minor in film and media production, consisting of 18 credit hours of coursework, including a minimum of 6 upper division credits. A grade of "C" (2.00) or higher is required for all courses in the minor. All prerequisites for the minor courses must be met. Transfer students may transfer up to six credit hours toward the minor.

Required Courses -- 12 credit hours

- FMP 180: Principles of Production Technology (3)
- FMP 280: Introduction to Film and Media Production (3)
- FMP 288: Understanding Ethics in Filmmaking (3)
- FMP 360: The Filmmaker's Voice (3)

Film Electives (3 credits must be upper division) -- 6 credit hours

- FMP 201: Film: The Creative Process I (HUAD OR HU) (3)
- FMP 205: Introduction to Post-Production (2)
- FMP 245: Concepts of Cinematography (2)
- FMP 261: Principles of Screenwriting (3)
- FMP 300: Short Film Production (3)
- FMP 355: Transborder Digital Media Making (3)
- FMP 403: Independent Film (HUAD OR HU) (3)
- FMP 405: Film and Television: Pioneers, Practices and Innovations (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in film (filmmaking practices); BA in film (film and media production); BFA in film (film and media production)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills

they acquire in their majors. A minor in film and media production equips students with marketable skills in narrative techniques and media production that help them stand out in competitive industries.

Film and Media Studies Minor (LAFMSMIN)

Campus: Tempe, Online

Description: The minor in film and media studies explores the critical and creative study of film and media. Students can choose to study a range of courses that include digital media analysis, film styles and genres, film and media franchises, video games and screenwriting.

ASU's Department of English has an extensive internship program, offering placements in publishing, media and marketing, government, nonprofits and film festivals. The department also boasts top online programs, rigorous undergraduate research opportunities and options for cultural and community involvement.

Program Requirements:

The film and media studies minor consists of 18 credit hours. At least 12 credit hours must be upper division, with a minimum of six upper-division credit hours from courses offered by the Department of English in The College of Liberal Arts and Sciences. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Required Courses -- 9 credit hours

FMS 100: Introduction to Film and Media Studies (HUAD OR HU) (3)

FMS 200: Film and Media History (HU & H) (3)

FMS 300: Television Studies (HUAD OR L or HU) (3)

Electives -- 9 credit hours

FMS Upper Division Elective (9)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in film (film and media studies); BA in film (film and media production)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Food and Nutrition Entrepreneurship Minor (ECFNTRMIN)

Campus: Downtown Phoenix

Description: The food and nutrition entrepreneurship minor is available to any ASU student interested in developing a greater understanding of nutrition, the food industry and food service operations.

Students gain basic knowledge and skills that can be used toward starting and managing their own business in the food industry. Some areas of study include:

- food service purchasing and management
- nutrition communication
- nutrition management and leadership
- nutrition science

Program Requirements:

The minor requires a total of 19 credit hours. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.

Required Courses -- 19 credit hours

NTR 100: Introduction to Nutrition Science or NTR 241: Human Nutrition (3)

NTR 142: Applied Food Principles (3)

NTR 343: Food Service Purchasing (3)

NTR 344: Nutrition Management and Leadership (L) or NTR 360: Nutrition Entrepreneurship (3)

NTR 351: Nutrition Communication (L) or NTR 448: Community Nutrition (L) (3)

NTR 445: Management of Food Service Systems (4)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in dietetics, BS in food and nutrition entrepreneurship, BAS in food and nutrition entrepreneurship, BS in nutritional science

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with a minor in food and nutrition entrepreneurship have additional knowledge in nutrition basics and leadership, which is beneficial for a career in restaurant management or food marketing.

Forensic Science Minor (ASFOREMIN)

Campus: West, Online

Description: Forensic science encompasses the application of a diverse range of specialties to the legal system.

A minor in forensic science from the School of Interdisciplinary Forensics equips students with a fundamental understanding of the basic principles of forensic science, modern laboratory practices, evidence-based critical thinking, and comprehensive knowledge of the ethical and practical considerations involved in case reports and testimony in this field. Additionally, electives within the minor offer the opportunity to explore the specific forensic applications associated with any particular major or chosen career path. As such, this minor prepares students for a wide variety of

potential applications of their degree in a suite of diverse employment opportunities that are in high demand.

Program Requirements:

The minor in forensic science consists of 15 credit hours of coursework, of which a minimum of nine hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Interdisciplinary Forensics. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Core Requirements -- 11 credit hours

FOR 286: Principles of Forensic Science (4)

FOR 370: Fundamentals of Forensic Analysis (4)

FOR 410: Testimony and Ethics in the Forensic Sciences (L) (3)

Upper Division Electives -- 4 credit hours

Choose 1-3 courses to complete at least four credit hours of upper-division electives.

FOR 350: Computer Forensics (3)

FOR 375: Forensic Botany (4)

FOR 377: Forensic Analytical Chemistry Laboratory (2)

FOR 380: Analysis of Nonhuman Forensic DNA Evidence (3)

FOR 394: Introduction to Forensic Anthropology (3)

FOR 394: Wildlife Forensics (3)

FOR 400: Comparative Forensics (3)

FOR 401: Forensic Toxicology (3)

FOR 402: Forensic Biology (3)

FOR 403: Comparative Forensics Laboratory (1)

FOR 404: Forensic Toxicology Laboratory (1)

FOR 405: Techniques in Forensic Biology Laboratory (1)

FOR 414: Fundamentals of Forensic Entomology (4)

FOR 423: Forensic Chemistry (3)

FOR 447: Molecular Genetics Laboratory (1)

FOR 480: Advanced Topics in Human Forensic DNA Typing (3)

FOR 494: Advance Scene Mapping and Recovery (1)

FOR 494: Forensic Chemistry Lab (1)

FOR 494: Human Osteology and Forensic Techniques (4)

FOR 494: Molecular Biology (3)

LSC 475: Principles of Toxicology (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BS in forensic science

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors>) for program descriptions and to request more information.

Global Opportunities:

Global Experience: Students can learn about science and law enforcement in other countries through study abroad (<https://goglobal.asu.edu/>).

Being immersed in another culture broadens horizons and develops professional skills such as cross-cultural communication and critical thinking.

Career Opportunities: Scientific and technological advances in the field of forensic science as well as continually increasing caseloads in law enforcement are projected to increase the number of forensic science technicians needed over the next decade. The U.S. Bureau of Labor Statistics estimates that between 2016 and 2026, employment of forensic science technicians will increase 17%, an average increase much greater than in most occupations.

French Minor (LAFREMIN)

Campus: Tempe

Description: Students pursuing a minor in French gain an understanding of the language, literature and cultures of French-speaking peoples and regions.

Students are encouraged to participate in a study abroad program (<https://silc.asu.edu/silc-studyabroad>) to enhance their education and overall minor experience.

Program Requirements:

The French minor requires 18 credit hours, of which 15 must be upper division. Three credit hours of FRE 200-level coursework may be applied to the French minor. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or better. Course substitutions are allowed for heritage and advanced speakers of the language with approval from an academic advisor in the School of International Letters and Cultures.

Required Courses -- 18 credit hours

FRE 202: Intermediate French II (G) or FRE 210: Intensive French II (G) (3)

FRE 305: Readings in French Literature (G) (3)

FRE 311: Oral and Written Expression I (G) (3)

FRE 312: Oral and Written Expression II (G) (3)

FRE 321: French Cultural Masterpieces I ((L or HU) & H) or FRE 322: French Cultural Masterpieces II (L or HU) (3)

FRE Upper Division Elective (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in French

Other Enrollment Requirements: None

Students who wish to add a minor in French to the bachelor's degree program they are pursuing may do so by contacting the School of International Letters and Cultures advising office.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in French studies can help students with communication and cultural competency skills as they pursue careers, including in political analysis, sociology and marketing.

Gender, Women and Sexuality Studies Minor (LAWSTMIN)

Campus: Tempe, Online

Description: The minor in gender, women and sexuality studies is an interdisciplinary program emphasizing intersectional approaches to the study of gender, race, class, ethnicity and sexuality in national and transnational contexts. The curriculum leads students to explore ideas about gender and understand how these ideas have been transformed by feminist theory.

Program Requirements:

The gender, women and sexuality studies minor consists of 18 credit hours, of which at least 12 must be upper division. A minimum grade of "C" (2.00 on a 4.00 scale) is required for all courses in the minor.

Required Core Course -- 3 credit hours

WST 100: Women, Gender, and Society (SOBE OR SB & C) or WST 300: Women and Gender in Contemporary Society (SOBE OR SB & C) (3)

Elective Core Courses (choose one) -- 3 credit hours

WST 377: History of American Feminist Thought (HUAD OR H & C) (3)

WST 378: Global Feminist Theory (GCSI OR L & G) (3)

WST 380: Race, Gender, and Class (SOBE OR SB & C) (3)

Electives -- 12 credit hours

WST Elective (3)

WST Upper Division Elective (9)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in social and cultural analysis (women and gender studies); BS and BA in women and gender studies

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with the knowledge and skills acquired through the minor in gender, women and sexuality studies can bring social justice concerns to a variety of professional careers, including law, education, public service, and human welfare and social work.

Geography Minor (LAGCUMIN)

Campus: Tempe, Online

Description: The geography minor, rooted in a foundation of cultural and physical geography, encourages students to explore intersections of place and space. Students learn about the modern world from both the local and global perspectives and gain a deeper understanding of how

humans impact landscapes. Students can select classes based on their specific interests in this customizable program.

Program Requirements:

The minor in geography requires a minimum of 19 credit hours, of which at least 12 credit hours must be upper division. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Cultural Geography (choose one) -- 3 credit hours

GCU 102: Introduction to Human Geography (GCSI OR SB & G) (3)

GCU 121: World Geography (GCSI OR SB & G) (3)

GCU 241: The Global Economy in Transition (SB & G) (3)

Physical Geography -- 4 credit hours

GPH 111: Introduction to Physical Geography (SCIT OR SQ) (3)

GPH 112: Introduction to Physical Geography Lab (SCIT OR SQ) (1)

Upper-Division Electives -- 12 credit hours

GPH OR GCU OR GIS Upper Division Elective (12)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA and BS in geography; BS in geography (urban studies); BS in geography (meteorology-climatology)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: A minor in geography makes students stronger candidates for positions that require an understanding of landforms, water, plants, weather and people --- and the interactions that take place among them. This understanding can be valuable in a variety of careers and fields, including:

- business
- city and urban planning
- community outreach
- government agencies
- marketing
- nonprofit organizations
- sustainability
- tourism

Geological Sciences Minor (LAGLGMIN)

Campus: Tempe

Description: The geological sciences minor is designed for students interested in developing a basic understanding of earth science and analyzing issues through a scientific viewpoint.

Program Requirements:

The minor in geological sciences consists of 21 credit hours, of which at least 13 credit hours must be completed at the upper-division level. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Required Courses -- 15 credit hours

GLG 101: Introduction to Geology I (Physical) (SCIT OR SQ) (3)
GLG 102: Introduction to Geology II (Historical) (SCIT OR SG) (3)
GLG 103: Introduction to Geology I: Laboratory (SCIT OR SQ) (1)
GLG 104: Introduction to Geology II: Laboratory (SCIT OR SG) (1)
GLG 310: Structural Geology (3)
GLG 321: Mineralogy (3)
SES 401: Earth and Space Exploration Colloquium (1)

GLG Upper Division Electives -- 6 credit hours

GLG Upper Division Elective (6)

Courses in other related subjects may be approved by an academic advisor in the School of Earth and Space Exploration. Students should receive approval for substitutions prior to registration.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in earth and environmental studies; BS in earth and space exploration (astrobiology and biogeosciences); BS in earth and space exploration (geological sciences)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: The geological sciences minor provides a solid background in earth materials and processes that are fundamental to careers in environmental engineering and planning, science education, hydrogeology, water resources, and scientific publishing, and in many other government and nongovernmental agencies.

German Minor (LAGERMIN)

Campus: Tempe

Description: A minor in German gives students insights into the largest European economy and a key player in global politics. Studying German language, culture and history will not only complement degrees across a wide range of fields --- it also helps students gain an understanding of centuries of philosophy, music and art.

Program Requirements:

The German minor requires 18 credit hours, of which 15 must be upper division. Three credit hours of GER 200-level coursework may be applied to the German minor. Course substitutions are allowed for heritage and advanced speakers of the language. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

GER 200-Level Coursework (choose one) -- 3 credit hours

GER 201: Intermediate German I (G) (4)
GER 202: Intermediate German II (G) (4)
GER 210: Intensive German II (G) (6)

Three credit hours of 200-level coursework will be applied to the minor and any additional credit hours earned will be applied toward university elective hours.

Required Courses -- 6 credit hours

GER 312: Explore German Culture (G) (3)

GER 420: Discover - Discuss - Design: German Language and Culture (L or HU) (3)

Choose two courses -- 6 credit hours

GER 310: Making Sense of German Grammar (G) (3)

GER 311: Express Yourself in German (G) (3)

GER 313: Create in German: Writing, Speaking, Performing (G) (3)

GER 319: Work with German (G) (3)

Upper Division GER Electives -- 3 credit hours

GER Upper Division Elective (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BA in German

Other Enrollment Requirements: None

Students who wish to add a minor in German to the bachelor's degree program they are pursuing may do so by contacting the School of International Letters and Cultures advising office.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in German studies helps students with communication and cultural competency skills as they pursue careers in political analysis, education, tourism and hospitality, the military, sociology, marketing and other various fields.

Global Health Minor (LASSHMIN)

Campus: Tempe, Online

Description: The minor in global health is a transdisciplinary program designed for students who seek a broad and flexible set of skills for understanding contemporary health challenges and thinking about how they might best be solved.

Global health is understood in the anthropological sense, that is, ways of understanding and addressing disease, health and well-being that can incorporate all cultures, places and times, and integrate the knowledge of health's social, historical, biological and ecological dimensions.

Program Requirements:

The minor in global health is comprised of 18 credit hours, at least 12 of which must be upper division. A minimum grade of "C" (2.00 on a scale of 4.00) is required for courses used toward the minor. This minor is also available in an online format to complement the studies of ASU Online students.

Required Core Course -- 3 credit hours

ASB 100: Introduction to Global Health (GCSI OR SB & G) (3)

Upper-Division Core Electives (choose three) -- 9 credit hours

AFR 383: Blacks in Science, Medicine and Public Health (3)

ASB 300 / SSH 300: Food and Culture (SOBE OR (L or SB) & C) (3)

ASB 301 / HST 301 / SSH 301: Global History of Health (HUAD OR SB & G & H) (3)

ASB 305: Poverty and Global Health (CIVI OR (L or SB) & C) (3)
 ASB 316: Money and Culture (L or SB) (3)
 ASB 327: Disaster! (SUST OR (L or SB) & C) (3)
 ASB 355: Traditional Medicine and Healing (HU or SB) (3)
 ASB 357: Society, Drugs and Health (SOBE OR SB & G) (3)
 ASB 370 / SOS 370: Ethics of Eating (SUST OR L or SB) (3)
 ASB 376: Global Health Policy (3)
 ASB 378 / TCL 378: Globalization: Migration, Mass Media, McDonald's (GCSI OR (L or SB) & C) (3)
 ASB 457: Global Mental Health (GCSI OR (L or SB) & G) (3)
 ASB 462: Medical Anthropology: Culture and Health (SOBE OR SB & C) (3)
 ASB 494: Ethnic Disparities and Health (3)
 ASB 494: Health: Social and Biocultural Theories (3)
 ASB 494 / BIO 494: One Health (3)
 ASM 345: Disease and Human Evolution (3)
 ASM 401: Health and Human Biology (3)
 ASM 403 / BIO 403: Evolutionary Medicine and Global Health (3)
 ASM 414: Urban, Environmental and Health Challenges (SUST OR SB) (3)
 ASM 456: Infectious Disease and Human Evolution (3)
 HPS 331 / BIO 318: History of Medicine (HUAD OR HU & H) (3)
 HST 304: Black Death: Pandemic Disease in the Medieval World (3)
 MIC 314 / SSH 314: HIV/AIDS: Science, Behavior, and Society (3)
 NTR 348: Cultural Aspects of Food (GCSI OR SB & C & G) (3)
 NTR 450: Nutrition in the Life Cycle (SOBE OR SB) (3)
 SGS 340: Violence, Conflict and Human Rights (GCSI) (3)
 SGS 350: Economic Development and Globalization (3)
 SOC 424: Women and Health (SOBE OR SB) (3)
 SOC 427: Sociology of Health and Illness (SOBE OR SB) (3)
 TCL 323: Latina/o Health Issues (SOBE OR SB & C) (3)
 TCL 326: Health of Chicanas and Latinas (SB & C) (3)
 TCL 327: Health and Migration (SOBE OR SB) (3)
 TCL 410 / SOC 410: Race, Medicine, and the Body (3)
 TCL 447 / SGS 454 / SOS 447 / WST 447: Gender, Culture, and Development (GCSI OR (L or SB) & G) (3)
 WST 360: Women as Healers (SOBE OR SB) (3)
 WST 365: Women and International Health (G) (3)
 WST 380 / AMS 380 / ETH 380: Race, Gender, and Class (SOBE OR SB & C) (3)
 WST 440: Politics of Women's Health (CIVI OR SB & C) (3)
 WST 444: Gender, Health, and Bodies (SB) (3)

Study Abroad Experience -- 6 credit hours

SSH 403: Cross-Cultural Studies in Global Health (GCSI OR (L or SB) & G) or students choose another approved global health study abroad experience (summer session, six credits minimum) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in global health

Other Enrollment Requirements:

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Nationally and internationally, the health field provides enormous and varied career opportunities, and demand is high and growing for graduates with specific skills. The minor supports the goals of those pursuing careers in academic research, teaching and health services. The program also provides a broad intellectual base for those who plan advanced specialist health training in fields such as:

- dentistry
- medicine
- nursing
- pharmacy

In Arizona and elsewhere, there is a pressing need for professionals with appropriate skills to work in cross-cultural settings or with underserved populations, such as migrants, minorities and those living in poverty; many of these jobs are directly or indirectly related to health.

Global Studies Minor (LASGSMIN)

Campus: Tempe, Online

Description: The minor program in global studies offers students exposure to global processes and institutions from a transdisciplinary perspective. The program aims to provide students with an introduction to the tools and skills necessary to make connections linking theory with challenging global issues.

Program Requirements:

The minor in global studies consists of 18 credit hours, of which 12 credit hours must be upper division. A minimum of six upper-division credit hours must be taken in courses offered by The College of Liberal Arts and Sciences. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.

Required Courses -- 6 credit hours

SGS 101: Thinking Globally (GCSI OR SB & G) or SGS 301: Principles of Global Studies (GCSI OR G) (3)

SGS 303: Global Trends (GCSI OR SB & G) (3)

Electives -- 12 credit hours

SGS Elective (3)

SGS Upper Division Elective (9)

A maximum of three credit hours of SGS 484 International Experience or three credit hours of SGS 499 Individualized Instruction may be applied to the minor.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in global studies

Other Enrollment Requirements: None

An ASU student who is pursuing a degree at any ASU campus may elect to add a minor offered at any other ASU campus.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in global studies can help students as they pursue careers in diplomacy and international relations, international sales or marketing, or international trade.

Health Care Compliance and Regulations Minor (NUHCCRMIN)

Campus: Downtown Phoenix, West

Description: The minor program in health care compliance and regulations integrates best practices from the business, regulatory, ethics and medical fields. Students acquire the foundational and advanced knowledge required to support regulatory compliance in a health care environment, and the minor's focus on regulatory and ethical compliance enhances a student's major discipline.

Program Requirements:

A "C" (2.00 on a 4.00 scale) or better is required in all courses.

Required Courses -- 16 credit hours

HCR 259: Compliance and the Health Care Industry (4)

HCR 264: Regulatory Essentials of Compliance Program Design (3)

HCR 360: Data Security and Privacy in Health Care Compliance (3)

HCR 362: Monitoring and Auditing for Health Care Compliance (3)

HCR 460: Investigations and Disclosures in Health Care Compliance (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in health care compliance and regulations

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: The courses in a minor complement and enhance the skill sets and knowledge that students acquire while pursuing their major program. Although most career areas require more training than a minor can provide, students pursuing the health care compliance and regulations minor often pursue careers on the administrative side of health care organizations.

Health Care Coordination Minor (NUHCCOMIN)

Campus: Downtown Phoenix, West

Description: A minor in health care coordination allows students to combine the knowledge of their major discipline with the foundational and advanced concepts of health care coordination.

Students who complete this innovative minor program have the knowledge that enables them to navigate the health care system and assist in the coordination of health care for individuals and families and to optimize outcomes.

Program Requirements:

A "C" (2.00 on a 4.00 scale) or better is required in all courses.

Required Courses -- 6 credit hours

HCR 220: Introduction to Health Professions and the U.S. Health Care System (CIVI OR H) (3)

HCR 221: Foundational Concepts for Health Care Coordination (3)

Electives (select three) -- 9 credit hours

HCR 302: Social Determinants of Health (3)

HCR 321: Advanced Concepts for Health Care Coordination (3)

HCR 420: Professional Role Development: Health Care Coordination (3)

HCR 422: Policy and Financial Principles in Health Care Coordination (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in health care coordination

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: The courses in a minor complement and enhance the skill sets and knowledge that students acquire in pursuing their major program. Although most career areas require more training than a minor can provide, students who complete the health care coordination minor program often pursue employment in an organization focused on health care.

Health Innovation Minor (NUHCIMIN)

Campus: Downtown Phoenix, West

Description: The health innovation minor provides students with the foundational concepts necessary for them to contribute to transformational change in current health situations. This program gives students an understanding of entrepreneurial thinking and of initiating, implementing and sustaining innovation in health settings.

Program Requirements:

A "C" (2.00 on a 4.00 scale) or better is required in all courses.

Required Course -- 3 credit hours

HCI 311: Health Innovation: Foundational Concepts (3)

Electives (select four) -- 12 credit hours

HCI 150: Introduction to Health Innovation (3)

HCI 250: Health Entrepreneurship and Value Creation (3)

HCI 313: Philosophy of Science in Health Care: Understanding Paradigms of Health and Healing (3)

HCI 344: Management and Leadership in Health Organizations (3)

HCI 412: Transforming Health Care: A Systems Perspective for Innovation (3)

HCI 421: Health Care Policy: The Innovator's View (CIVI) (3)

HCI 425: Facilitating Innovation to Achieve Outcomes (3)

HCI 428: Technology: A Tool to Advance Innovation in Health Care (3)

HCI 494: Special Topics (3)

Notes: Any 3 credit hour topic will count towards the minor.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in health innovation

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. History Minor (ASHISMIN)

Campus: West

Description: Students in the history minor are exposed to a broad span of history, both temporally and geographically, ranging from the ancient world through the modern period.

The program is offered by the School of Humanities, Arts and Cultural Studies.

Program Requirements:

The minor in history consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Humanities, Arts and Cultural Studies. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

History Survey Requirements -- 6 credit hours

Choose one of the following survey sets. If choosing to complete the European History/Western Civilization survey, complete two of three courses.

HST 100: Global History to 1500 (GCSI OR HU & H & G) AND HST 101: Global History Since 1500 (GCSI OR HU & H & G) (6)

HST 102: Europe and the Mediterranean: Ancient and Medieval (HUAD OR SB & H) or HST 103: Early Modern Europe: Renaissance to

Enlightenment (GCSI OR (HU or SB) & H) or HST 104: Modern Europe: French Revolution to European Union (GCSI OR (HU or SB) & G & H) (6)

HST 109: United States to 1865 (AMIT OR (HU or SB) & H) AND HST 110: United States Since 1865 (AMIT OR SB & H) (6)

Upper-Division History Electives -- 9 credit hours

HST Upper Division Elective (9)

History Capstone Course -- 3 credit hours

HST 495: Methods of Historical Inquiry (L) (3)

Students must complete a minimum of six upper-division credit hours in History before enrolling in HST 495.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in history

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of

either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Graduates of this minor are prepared for graduate study, for professional degree programs and for careers in which critical thinking, research and writing skills are highly valued, such as journalism, editing, law and civil service.

History Minor (LAHISMIN)

Campus: Tempe, Online

Description: Students who pursue the minor in history study the growth and development of human society from all aspects: political, social, economic and cultural. The program covers the history of the United States, Europe, Asia, Latin America and Africa. By providing an understanding of how the various regions of the world developed, the minor in history enables students to understand today's complex world.

Program Requirements:

The history minor consists of 18 credit hours of coursework, at least 12 of which must be upper division. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses in the minor. A minimum of six upper-division credit hours must be in courses offered by The College of Liberal Arts and Sciences.

The minor in history is also available to complement the studies of ASU Online students. Certain course selections below are offered as oCourses to accommodate ASU Online students.

Lower-Division Core Survey Courses (choose two) -- 6 credit hours

HST 100: Global History to 1500 (GCSI OR HU & H & G) (3)

HST 101: Global History Since 1500 (GCSI OR HU & H & G) (3)

HST 102: Europe and the Mediterranean: Ancient and Medieval (HUAD OR SB & H) (3)

HST 103: Early Modern Europe: Renaissance to Enlightenment (GCSI OR (HU or SB) & H) (3)

HST 104: Modern Europe: French Revolution to European Union (GCSI OR (HU or SB) & G & H) (3)

HST 109: United States to 1865 (AMIT OR (HU or SB) & H) (3)

HST 110: United States Since 1865 (AMIT OR SB & H) (3)

HST 111: Introduction to Asia (GCSI OR HU & H & G) (3)

HST 230: Introduction to Jewish Civilization (GCSI OR HU & H & G) (3)

Geographic Focus Courses (choose one course from each geographic area) -- 9 credit hours

HST Elective (9)

To complete the nine credit hours of HST electives for the minor, choose one course from each geographic area listed below.

Upper-Division Courses in African, Asian or Latin American History (choose one)

HST 302: Gender and Sexuality in Islam (3)

HST 302: Slavery Systems in Africa (3)

HST 303: Studies in Asian History (3)

HST 305: Studies in Latin American History (3)

HST 307: Studies in African History (3)

HST 324: Food in Latin America (GCSI OR SB & G & H) (3)

HST 336: Islamic Civilization (HU & H) (3)

HST 339: Islam in the Modern World (GCSI OR HU & G) (3)

HST 372: Modern Middle East (GCSI OR SB & G & H) (3)

HST 376: Modern Latin America (SB & G & H) (3)

HST 378: Poverty, Inequality and Social Justice in Latin America (CIVI OR G) (3)

HST 383: China (SB & H) (3)

HST 384: Modern China: 1700 to the Present (SB & G & H) (3)

HST 391: Modern Southeast Asia (SB & G & H) (3)

HST 392: Modern India (3)

HST 396: Islam and Politics (HU & G) (3)

HST 404: Conquest and Encounters in Colonial Latin America (GCSI OR L & G) (3)

HST 435: Russian Empire: From Ivan the Terrible to 1917 (SB & H) (3)

HST 436: Rise & Fall of Soviet Communism (SB & G & H) (3)

HST 447: Modern Mexico (SB & H) (3)

HST 452: Chinese Cultural History II (SB & G & H) (3)

HST 456: The Vietnam War (HUAD OR SB & H) (3)

Upper-Division Courses in European History (choose one)

- HST 304: Studies in European History (3)
- HST 309: Exploration and Empire (GCSI OR (L or HU) & H) (3)
- HST 346: Ancient Greece II: Late Classical and Hellenistic Period (SB & H) (3)
- HST 347: Ancient Greece I: Bronze Age through the Peloponnesian War (CIVI OR SB & H) (3)
- HST 348: Rome (GCSI OR SB & H) (3)
- HST 349: Early Middle Ages ((HU or SB) & H) (3)
- HST 350: Later Middle Ages (GCSI OR (HU or SB) & H) (3)
- HST 351: Renaissance Europe ((L or HU or SB) & H) (3)

Elective -- 3 credit hours

HST Upper Division Elective (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in history; BA in history (secondary education); BAE in secondary education (history)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor in history can help students as they pursue careers in many fields, including education, law, public administration, social services, foreign service and communications.

History Minor (LSHISMIN)

Campus: Polytechnic

Description: The minor in history focuses on American history (including Southwest history), European history, environmental history, the history of technology, the history of engineering and related fields.

Program Requirements:

The history minor consists of 18 credit hours. All coursework for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 18 credit hours

HST Elective (6)

HST Upper Division Elective (12)

Notes: A minimum of six credit hours must be taken in courses offered by the College of Integrative Sciences and Arts.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BA in history; BA in history of science, ideas and innovation

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in history can help students as they pursue careers in education; historical interpretation and conservation; legal professions; as archivists and curators; or in any position requiring critical thinking, research and writing skills.

History of Science, Technology and Innovation Minor (LSHSIIMIN)

Campus: Polytechnic

Description: Science and technology shape every facet of modern human life, but all too frequently the underlying histories and ideas go unexamined. The minor program in the history of science, technology and innovation helps students understand how society reached its present state. The program also prompts students to reflect on what the future might hold by providing a foundation in the social and intellectual issues central to the intertwined histories of science, technology and ideas.

Program Requirements:

The history of science, technology and innovation minor requires 15 credit hours, including a minimum of 12 upper-division credit hours. A minimum of six upper-division credit hours must be taken in courses offered by the College of Integrative Sciences and Arts. A grade of "C" (2.00 on a 4.00 scale) or better is required in all courses.

Required Course -- 3 credit hours

HST 280: History of Science, Technology and Innovation (GCSI OR SB & G & H) (3)

Electives (choose four) -- 12 credit hours

HST 309: Exploration and Empire (GCSI OR (L or HU) & H) (3)

HST 318: History of Engineering (HUAD OR (L or SB) & G) (3)

HST 319: History of Aviation (HUAD OR SB & H) (3)

HST 345: Environmental History (SUST OR L) (3)

HST 380: Studies in the History of Science (3)

HST 381: Studies in the History of Ideas (3)

HST 382: Studies in the History of Innovation and Technology (3)

HST 482: Writing and the History of Science, Ideas and Technology (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00 cumulative GPA

Incompatible Majors: BA in history; BA in history of science, ideas and innovation

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in the history of science, technology and innovation can help students as they pursue careers in education, historical interpretation and conservation, law, compliance and regulation of technology, or any position requiring critical thinking, research and writing skills.

Human Nutrition Minor (ECNTRMIN)

Campus: Downtown Phoenix

Description: The minor program in human nutrition focuses on the science behind nutrition. This includes how:

- human bodies process nutrients for energy
- nutrients play important roles in health and disease
- nutritional needs change across the life span

This program also includes the medical nutrition therapy sequence, which provides students with a clear understanding of how nutrition can be used in a medical setting to prevent and treat diseases.

Program Requirements:

The minor requires a total of 18-19 credit hours. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.

Required Courses -- 18 credit hours

NTR 241: Human Nutrition (3)

NTR 341: Medical Nutrition Therapy I (3)

NTR 440: Advanced Human Nutrition I (3)

NTR 441: Advanced Human Nutrition II (3)

NTR 444: Medical Nutrition Therapy II (3)

NTR 446: Medical Nutrition Therapy III or NTR 450: Nutrition in the Life Cycle (SOBE OR SB) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BAS in food and nutrition entrepreneurship, BS in dietetics, BS in food and nutrition entrepreneurship, BS in nutritional science

Other Enrollment Requirements: To enroll in the courses required for the minor, students must complete the following courses:

BCH 361 Advanced Principles of Biochemistry

BIO 201 Human Anatomy and Physiology I

BIO 202 Human Anatomy and Physiology II

CHM 101 Introductory Chemistry

CHS 260 Health Professions Terminology

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Knowledge obtained from this minor is useful for careers in the life sciences, biology, medicine, public health and health policy. Graduates with a minor in human nutrition have enhanced knowledge of how food is digested and metabolized in the body. This information is valuable for those pursuing careers in the health and medical field.

Human Systems Engineering Minor (ESHSEMIN)

Campus: Polytechnic, Online

Description: The minor in human systems engineering in the Ira A. Fulton Schools of Engineering provides students with an understanding of the science of human performance and with experience using methods and tools that will enable them to apply their understanding to design and problem-solving. These skills can be used in a wide variety of domains, such as product usability, learning design, sports performance, and workplace and hospital safety.

Program Requirements:

The minor requires 21 credit hours. All required minor courses must be passed with a "C" (2.00 on a 4.00 scale) or better.

Required Courses -- 18 credit hours

HSE 101: Introduction to Human Systems Engineering (SOBE OR SB) (3)
HSE 225: Human Systems Integration (3)
HSE 230: Statistics for Human Systems Research I (QTRS OR CS) (3)
HSE 290: Experimental Methods for Human Systems Research (QTRS OR L) (3)
HSE 323: Perceptual Systems (SOBE OR SB) or HSE 324: Applied Cognitive Science (SOBE OR SB) (3)
HSE 325: Human-Computer Interaction (3)

Elective Course (choose one) -- 3 credit hours

HSE 422: Human Factors in Sport (3)
HSE 423: Human Factors in Transportation (3)
HSE 424: Human Automation Interaction (3)
HSE 425: Human Factors in Medical Systems (3)
HSE 426: Training and Expertise (3)
HSE 427: Designing for Learning (3)
HSE 428: Judgment and Decision Making (3)
HSE 429: Product Design and Evaluation (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in human systems engineering

Other Enrollment Requirements: None

Students should consult with an advisor in The Polytechnic School to verify eligibility and to review all courses required for the minor. To schedule an advising appointment, students should go to the advising website (<https://fultonapps.asu.edu/advising>).

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult with their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: A broad range of professions need experts in human factors. They work on problems whose solutions involve an understanding of human performance in areas that include user experience, aviation human factors, cognitive performance, consumer psychology, transportation human factors, patient safety, effective teamwork, health psychology, learning optimization, social cognition, threat detection and sports psychology.

The human systems engineering minor prepares students for industry and government careers. Graduates may work as a member of a design

team for a product or system in a position such as:

- game designer
- human factors engineer
- human systems integrator
- interface designer
- usability engineer
- user experience designer

Innovation in Society Minor (FIFISMIN)

Campus: Tempe, Online

Description: Innovation is fundamentally about empowering people and unlocking their potential to create positive change. That requires a human touch and knowledge of how to put people and communities first, not technology. A minor in innovation in society can be a great addition to prepare students to be leaders in this exciting and fast-growing field.

The program's small classes, one-on-one opportunities to work with faculty, and extensive community partnerships create a distinct experience in which students can learn how to grow and strengthen community leadership, capabilities and collaboration for innovation by using tools such as narrative, storytelling, visual art, participatory design and community-centered inquiry.

Program Requirements:

Required Courses -- 15 credit hours

FIS 111: Welcome to the Future (CIV) (3)

FIS 201: Innovation in Society (HUAD OR H) (3)

FIS 305: Ways of Knowing (L) (3)

FIS Upper Division Elective (3)

FIS Upper Division Elective (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BA innovation in society, BS innovation in society

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu>) for program descriptions and to request more information.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities available to them, students of all majors, including programs in the College of Global Futures, are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Students can find programs specific to their interests on the College of Global Futures Study Abroad webpage (<https://collegeofglobalfutures.asu.edu/student-life/study-abroad/>) and additional opportunities and information on the ASU Global Education Office website (<https://goglobal.asu.edu/>). These sites also include additional information about applying for funding to support global travel.

Career Opportunities: As the landscape of science and technology rapidly transforms, the demand for graduates with a nuanced grasp of these changes becomes paramount. Across industries, there's a growing need for expertise in interpreting and guiding advancement in science and technology.

A minor in innovation in society centers on building a foundational knowledge in innovation while honing skills like scenario planning, policy analysis, the responsible design of innovations, and public engagement. This minor will equip students to better understand the intricacies of modern-day challenges and anticipate and navigate future trends.

Innovation in society graduates have highly sought-after jobs at NASA, the Department of Energy, Intel, OpenAI and beyond. Preparation in both theoretical and practical facets of innovation makes graduates invaluable assets in tech startups, corporations, nonprofits and governments. Pursuing this minor paves the way to careers that align with the frontiers of contemporary challenges and solutions.

Instructional Design Minor (TELDTMIN)

Campus: Online

Description: The curriculum of the minor in instructional design is grounded in modern learning theory and design. Coursework addresses a variety of components within the field of learning design including foundations of instructional design, theory and design of digital learning, and digital learning evaluation.

All courses are taught online and combine a range of resources and technologies to facilitate direct interaction between students, program faculty and classmates.

This program culminates with an internship in which students create and present a project that demonstrates their knowledge of instructional design by applying it in a professional context. Students work with an organization to identify an instructional need, problem or performance gap, and then they develop and deploy a solution to be delivered in an online or blended format.

This minor does not lead to teacher certification. Students seeking teacher certification should enroll in one of the other Mary Lou Fulton Teachers College undergraduate programs.

Program Requirements:

Required Courses -- 12 credit hours

LDT 301: Foundations of Instructional Design (3)

LDT 320: Digital Learning Theories (3)

LDT 330: Design of Digital Learning (3)

LDT 410: Assessment and Evaluation for Digital Learning (3)

Required Internship -- 3 credit hours

LDT 484: Internship (3)

The required internship LDT 484 is a Session C 15-week course. Students must secure an approved ASU work or volunteer placement for the internship. It is recommended that this be secured three months before the start of your internship.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: None

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: There is growing demand for online educators, including at companies that develop the materials for online students and any organization focused on digital learning. Graduates are prepared for instructional design roles in K-12, higher education, nonprofits and corporate settings. Career examples include:

- curriculum coordinator
- curriculum designer or developer
- distance learning manager
- instructional designer
- media center specialists
- technology coordinator
- training specialist, coordinator or manager

Integrative Health Minor (NUIHLTMIN)

Campus: Downtown Phoenix, West

Description: The integrative health minor program provides students with the foundational knowledge they need to approach health from a holistic perspective that focuses on the mind, body and spirit. This program provides an overview of holistic approaches and emphasizes research, evidence-based approaches and the legal, ethical, historical and cultural foundations of integrative health care.

Program Requirements:

This minor requires 18 credit hours. A "C" (2.00 on a 4.00 scale) or better is required in all courses.

Required Courses -- 15 credit hours

- HCR 241: Foundations of Integrative Health (3)
- HCR 341: Biological, Manipulative, and Body-Based Therapies (3)
- HCR 342: Mind-Body and Energy Therapies and Modalities (3)
- HCR 343: Historical and Cultural Foundations of Integrative Health Care (3)
- HCR 440: Interprofessional Approaches to Integrative Health Care (3)

Elective -- 3 credit hours

BIO OR CHM Elective (3-4)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in integrative health

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Although most career areas require more training than a minor can provide, students who complete the integrative health minor often pursue employment in an organization focused on health care.

Integrative Social Science Minor (LSISSMIN)

Campus: Polytechnic

Description: The minor program in integrative social science is designed to provide general education in the social sciences to individuals who desire exposure to the variety of theories and methods of social scientists. Individuals seeking to expand their analytical, problem-solving and strategic planning skill sets benefit from this minor.

This minor is useful to engineers, technologists and other professionals whose specialized education may not have provided access to crucial social science research theories and methodologies.

Program Requirements:

The minor requires 15 credit hours, including 12 credit hours of required courses and three credit hours of electives.

Required Courses -- 12 credit hours

ISS 301: Integrated Social Science Research Methods (SB) or POS 301: Empirical Political Inquiry (SOBE OR SB) or STS 301: Research in Science and Technology Studies (SB) (3)

ISS 304: Integrated Theories of Social Science (SB) (3)

ISS 401: Statistics for Integrated Social Science (QTRS OR CS) or POS 401: Political Statistics (QTRS OR CS) or STS 401: Statistics in Science and Technology Studies (QTRS OR CS) (3)

STS 304: Science, Technology and Society (SOBE OR SB) (3)

Elective (choose one) -- 3 credit hours

ISS Upper Division Elective (3)

POS 316: American Political Institutions (AMIT) (3)

POS 325: Public Policy Development (CIVI OR SB) (3)

POS 485: Political Economy (SOBE OR SB) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in integrative social science

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in integrative social science can help students expand skills in the analysis of social phenomena and complex social problems as they pursue careers in strategic analysis, economics and politics.

Interdisciplinary Organizational Studies Minor (ASIOSMIN)

Campus: West

Description: The minor program in interdisciplinary organizational studies incorporates perspectives from the behavioral and social sciences, communication studies and management, and is learner centered --- allowing students to select coursework that matches their career and educational goals.

The program is offered by the School of Social and Behavioral Studies.

Program Requirements:

The minor in interdisciplinary organizational studies consists of 21 credit hours of coursework, of which a minimum of 18 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Social and Behavioral Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Core Requirements -- 6 credit hours

PSY 453: Organizational Behavior (SOBE OR SB) (3)

A research methods course must be chosen in consultation with an academic advisor in the School of Social and Behavioral Sciences from the following:

COM 308: Advanced Research Methods in Communication (L) (3)

PSY 230: Introduction to Statistics (QTRS OR CS) (3)

SBS 304: Social Statistics I (QTRS OR CS) (3)

Cluster 1 - Courses Focused on Organizations -- 12 credit hours

Choose four courses from the following list:

COM 320: Communication and Consumerism (SB) (3)

COM 400: Dissent in Organizations (3)

COM 450: Organizational Communication (SOBE OR SB) (3)

COM 451: Communication and Work Relationships (3)

COM 453: Communication Training and Development (3)

PHI 360: Business and Professional Ethics (HUAD OR HU) (3)

PSY 482: Social Influence and Consumer Behavior (SB) (3)

PSY 484 / COM 484: Internship or SOC 484: Internship (3)

SOC 443: Sociology of Corporations (SB & G) (3)

Cluster 2 - Courses Focused on Diversity Within Organizations -- 3 credit hours

Choose one course from the following list:

COM 463: Intercultural Communication in a Global Context (GCSI OR SB & G) (3)

POS 437: Women, Power, and Politics (G) (3)

SOC 270: Sociology of Race and Ethnicity (CIVI OR SB & C) (3)

SOC 400: Perspectives on Aging (SB) (3)

SOC 426: Social Inequalities (CIVI OR SB) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: None

Other Enrollment Requirements: None

The minor in interdisciplinary organizational studies is open to all ASU undergraduate majors.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Career Opportunities: Students with a minor in interdisciplinary organizational studies are well suited for employment as a human relations analyst, employee training and development manager, corporate communications specialist, customer service and customer relations manager, EEO representative, labor organizer or mediator.

Interior Design History Minor (ARINTMIN)

Campus: Tempe

Description: The minor in interior design history at The Design School is available to students interested in studying design and culture across many time periods.

The courses designated for the minor are part of the professional studies in interior design environments. The coursework introduces theories that inform the professions of architecture, decorative arts and interior design, while also examining cultures and history from around the globe.

Program Requirements:

Eighteen credit hours (of which 12 credit hours must be from the 300- or 400-level) are required for the minor. A minimum grade of "C" (2.00) is required in all courses for the minor. To enhance the understanding of the subject matter, the selected courses are sequential in nature and require certain prerequisites. Consequently, students should carefully note the semester in which any of these courses are offered. A minimum GPA of 2.50 in minor courses is required to earn the minor in interior design history.

Required Courses -- 12 credit hours

DSC 101: Design Awareness (GCSI OR HU & G) (3)
INT 111: Interior Design Issues and Theories (HUAD OR HU) (3)
INT 310: History of Interior Design I (HUAD OR HU & H) (3)
INT 311: History of Interior Design II (HUAD OR HU & H) (3)

Interior Design History Courses -- 6 credit hours

ARC 330: World and Western Architecture for Nonmajors (HU & H & G) (3)
ARC 436: Charles and Ray Eames (HU) (3)
APH 494: Peter Zumthor (3)
INT 415: Latin American Design or INT 494: Design and Culture in Latin America (3)
INT 494: Contemporary Design Issues in Europe (3)
INT 494: Design and Context (3)
INT 494 "Contemporary Design Issues in Europe" and INT 494 "Design and Context" are offered as part of a summer study abroad program only.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.50

Incompatible Majors: BSD in interior design

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

The minor in interior design history can complement professional studies in architecture, interior design, environmental design, art, education and history. Degrees within these disciplines can lead to professional positions within studio design firms, design administration and design education.

Italian Minor (LAITAMIN)

Campus: Tempe, Online

Description: An Italian minor provides students with the skills to speak, write, read and comprehend Italian through courses and professional opportunities. Students gain experience with a variety of research methods that foster their respect and curiosity about the historical and contemporary cultures of the Italian peninsula and their relationships to global traditions.

Students have a choice of four study abroad programs in Italy in which they can focus on developing their linguistic skills and learning more about Italy's contemporary responses to global challenges such as natural disasters and the industrialized food systems. In addition, students are given opportunities to collaborate on research projects and participate in internships abroad.

Program Requirements:

The Italian minor requires 18 credit hours. A minimum of 12 credit hours must be upper division. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 6 credit hours

ITA 311: Speak Italy: Language, People, Culture (G) or ITA 312: Write Italy: Language, People, Culture (L & G) (3)

ITA 321: Italian Renaissance Culture: Politicians, Merchants, Artists and Courtesans (H) or ITA 322: Modern Italian Culture: Explorers, Scientists, Musicians and Revolutionaries (HUAD OR HU) (3)

Electives -- 12 credit hours

Students may apply a maximum of six credit hours of 200-level ITA courses toward the minor. If both ITA 201 and ITA 202 are completed, the remaining two credit hours will be counted toward university elective credit. All remaining electives must be upper-division ITA courses, of which at least three credit hours must be completed at the 400-level.

ITA 201: Intermediate Italian I (G) (4)

ITA 202: Intermediate Italian II (G) (4)

ITA 210: Intensive Italian II (G) (6)

ITA 311: Speak Italy: Language, People, Culture (G) (3)

ITA 312: Write Italy: Language, People, Culture (L & G) (3)

ITA 315: Italian Culture: The Good, The Bad and The Ugly (GCSI OR G) (3)

ITA 319: Italian for Professions (3)

ITA 321: Italian Renaissance Culture: Politicians, Merchants, Artists and Courtesans (H) (3)

ITA 322: Modern Italian Culture: Explorers, Scientists, Musicians and Revolutionaries (HUAD OR HU) (3)

ITA 350: Food and Culture: The Mediterranean Lifestyle in Italy (3)

ITA 380: Natural Disasters: Environmental and Cultural Resilience in Italy (3)

ITA 394: Special Topics (3)

ITA 413: Advanced Italian (G) (3)

ITA 414: French and Italian Popular Culture (GCSI OR (L or HU) & G) (3)

ITA 420: Italian Cinema (G) (3)

ITA 423: Italian Organized Crime in Films and History (HUAD OR (L or HU) & G) (3)

ITA 484: Internship (3)

ITA 494: Special Topics (3)

ITA 499: Individualized Instruction (1-3)

Additional courses can be used toward minor electives with permission of an academic advisor in the School of International Letters and Cultures.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BA in Italian

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: A minor in Italian studies enables students to enhance the marketable skills and knowledge they acquire in their major program with additional communication and cultural competencies.

Students with the minor often pursue careers in political analysis, education, tourism and hospitality, the military, sociology or marketing.

Justice Studies Minor (LAJUSMIN)

Campus: Tempe, Online

Description: The minor program in justice studies is designed for students interested in developing an understanding of the meaning of justice and injustice and in analyzing controversial issues. In addition to the two required core courses, students are able to select electives that align with their specific interests.

Program Requirements:

The minor requires a minimum of 18 credit hours. At least 12 credit hours must be at the upper-division level. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 6 credit hours

JUS 105: Introduction to Justice Studies (CIVI OR SB) or JUS 305: Principles of Justice Studies (SB) (3)

JUS 303: Justice Theory (CIVI OR L) (3)

Electives -- 12 credit hours

JUS Elective (3)

JUS Upper Division Elective (9)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA and BS in justice studies

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. Those with a minor in justice studies are able to bring specialized knowledge and skills pertaining to social justice concerns to a variety of professional careers, including law, education, public service, and human welfare and social work.

Kinesiology Minor (NHKINMIN)

Campus: Downtown Phoenix, ASU at Lake Havasu

Description: The minor in kinesiology introduces students to the concepts, theories, research and careers related to the four major subdisciplines of kinesiology:

- biomechanics
- exercise and health psychology
- exercise physiology
- motor behavior

Students in the minor select one of these four subdisciplines as the area of emphasis for the minor's upper-division requirements.

Program Requirements:

The minor requires a total of 18 credit hours. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.

Students begin by taking KIN 101 Introduction to Kinesiology and KIN 290 Introduction to Evidence-Based Practice. After this, students will select a track in one of the four subdisciplines.

*All track courses must come from a single track.

Required Core Courses for all Tracks -- 6 credit hours

KIN 101: Introduction to Kinesiology (3)

KIN 290: Introduction to Evidence-Based Practice (L) (3)

Biomechanics Track:

Biomechanics Required Course -- 3 credit hours

KIN 335: Biomechanics (3)

Biomechanics Track Electives (choose three) -- 9 credit hours

KIN 334: Functional Anatomy and Kinesiology (3)

KIN 412: Biomechanics of the Skeletal System (3)

KIN 415: Theory of Corrective Exercise (3)

KIN 416: Low Back Pain: Muscles and Movement (3)

KIN 418: Experimental Neuromechanics (L) (3)

Exercise Physiology Track:

Exercise Physiology Track Required Course -- 3 credit hours

KIN 340: Physiology of Exercise (3)

Exercise Physiology Track Electives (choose three) -- 9 credit hours

KIN 334: Functional Anatomy and Kinesiology (3)

KIN 440: Exercise Biochemistry (3)

KIN 441: Physiology of Women in Sport (L) (3)

KIN 442: Fuel Metabolism (3)

KIN 443: Exercise Endocrinology (L) (3)

KIN 444: Metabolic Adaptations to Exercise Training (3)

KIN 447: ECG Interpretation (3)

KIN 460: Theory of Strength Training (L) (3)

KIN 465: Muscle Physiology (3)

KIN 466: Cardiovascular Exercise Physiology (3)

Exercise/Health Psychology Track:

Exercise/Health Psychology Track Required Course -- 3 credit hours

KIN 352: Psychosocial Aspects of Physical Activity (SOBE OR SB & C) (3)

Exercise/Health Psychology Track Electives (choose three) -- 9 credit hours

KIN 334: Functional Anatomy and Kinesiology (3)

KIN 348: Psychological Skills for Optimal Performance (SOBE OR SB) (3)

KIN 450: Biopsychosocial Perspectives on Physical Activity and Health (3)

KIN 452: Exercise Psychology (SOBE OR SB) (3)

KIN 454: Motivational Theory in Exercise and Health (3)

Motor Behavior Track:

Motor Behavior Track Required Course -- 3 credit hours

KIN 345: Motor Behavior (3)

Motor Behavior Track Electives (choose three) -- 9 credit hours

KIN 334: Functional Anatomy and Kinesiology (3)

KIN 422: Motor Control in Special Populations (L) (3)

KIN 424: Neural Aspects of Movement and Rehabilitation (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in kinesiology; BS in clinical exercise science; BS in sports science and performance programming

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A kinesiology minor can enhance a student's knowledge of human movement, which is valuable for individuals pursuing careers in the health and medical field.

Korean Minor (LAKORMIN)

Campus: Tempe

Description: The Korean minor program is designed to enrich and deepen students' understanding of Korea by placing special emphasis on obtaining a high level of language proficiency in Korean as well as gaining extensive knowledge of Korean literature, culture, film and linguistics, which are necessary for professional or academic endeavors in areas related to Korea or East Asia.

Program Requirements:

The minor in Korean consists of 18 upper-division credit hours in the field. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher. At least 12 credit hours must be taken in courses taught by ASU or completed through a study abroad program administered by ASU and officially recognized by the Korean program.

Required Courses -- 6 credit hours

KOR 313: Third-Year Korean I (G) (3)

KOR 314: Third-Year Korean II (G) (3)

Korean Electives (select four) -- 12 credit hours

KOR 347: Korean Film and Literature (HUAD OR HU) (3)

KOR 350: Women of Korea (H) (3)

KOR 375 / SLC 375: Intercultural Communication in Korea (SB & G) (3)

KOR 401: Advanced Korean I (3)

KOR 402: Advanced Korean II (3)

KOR 415 / SLC 415: Korean Popular Culture (HU & G) (3)

KOR 457 / SLC 457: Premodern Korea in a Global Context (HU) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: None

Other Enrollment Requirements: Students must have completed KOR 202 Second-Year Korean II with a minimum course grade of a "C" (2.00 on a 4.00 scale) or better or have an equivalent level of Korean language proficiency.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in Korean studies equips students with communication and cultural competency skills as they pursue careers in various fields including translation, education, global marketing, communication, technology, military relations, tourism, hospitality and political analysis.

Landscape Studies Minor (ARLNDMIN)

Campus: Tempe

Description: The landscape studies minor at The Design School is for students who have an interest in landscape architecture but are pursuing a major in another field.

This minor provides an overview of the topic of landscape architecture and a foundational framework for understanding how shaping the exterior environment can impact life and the environment. The course selection provides greater understanding of landscape architecture concerns that are particularly relevant in related professional disciplines.

Program Requirements:

Eighteen credit hours (to include 12 credit hours of upper-division coursework) are required for the minor. A minimum grade of "C" (2.00) is required in all courses for the minor.

A minimum GPA of 2.50 in minor courses is required to earn the minor in landscape studies.

Required Courses -- 12 credit hours

ALA 102: Landscapes and Sustainability (SUST OR HU & G) (3)
LAP 251: Plant Materials for Sustainable Landscapes or LAP 352: Ecosystems and Sustainable Design (3)
LAP 311: History of Landscape Architecture (HUAD OR HU & H) (3)
LAP 312: 20th-Century Landscape Architecture (HU) (3)

Landscape Architectural History and Theory -- 6 credit hours

EDS 301: Sustainable Community Design and Practices (SUST OR HU) (3)
LAP 332: GIS Applications in Environmental Design (CS) (3)
LAP 352: Ecosystems and Sustainable Design (3)
LAP 413: Landscape Architecture Theory and Criticism (L) (3)
LAP 485: International Field Studies (G) (1-6)
LAP 494: Special Topics (3)
LAP 499: Individualized Instruction (1-3)
Notes: LAP 499 requires a petition to The Design School.
LDE 494: Special Topics (3)
LPH 494: Special Topics (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.50

Incompatible Majors: BSLA in landscape architecture

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

The minor in landscape architecture is intended to augment a degree and expand career possibilities in any of the environmental design disciplines, including architecture, interior design and planning.

Latin American Studies Minor (ASLASMIN)

Campus: West

Description: The minor program in Latin American studies offers a learner-driven model in which the student's specific interests are deepened through the study of Latin America. It is interdisciplinary and allows for flexibility in course selection while also instilling a breadth and depth of knowledge about issues surrounding Latin America.

Program Requirements:

The minor in Latin American studies consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Humanities, Arts and Cultural Studies. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Core Requirements -- 6 credit hours

LAS 205: Deep Roots: Latin America (GCSI OR HU & G) (3)

LAS 206: Locating Latin America: Interdisciplinary Methods (3)

Upper-Division Latin American Studies Electives -- 12 credit hours

AMS 428 / ETH 428 / LAS 428: Peoples and Cultures of the American West, to 1848 (SB & H) (3)

AMS 450 / ETH 450 / LAS 450: Latina/os, Schooling and Social Inequality (C) (3)

ASB 342 / SBS 342 / SOC 342: Mexico-U.S. Borderlands (SB & C) (3)

ENG 363 / TCL 363: Transborder Mexican and Chicano/a Literature of Southwest North America (HUAD OR (L or HU) & C) (3)

ETH 430 / LAS 430 / WST 430: Gender on the Borderlands (HUAD OR SB) (3)

ETH 473 / LAS 473 / WST 473: Indigenous and Latina/Chicana Representation (SB & C) (3)

FMS 475: Latin American Film ((L or HU) & G) (3)

FOR 449 / LAS 449 / SPA 449: Latin American Cinema: The Dead and the Disappeared (G & H) (3)

GCU 323: Geography of Latin America (GCSI OR SB & G) (3)

HST 305: Studies in Latin American History (3)

HST 324 / LAS 324: Food in Latin America (GCSI OR SB & G & H) (3)

HST 375 / LAS 375: Colonial Latin America (SB & H) (3)

HST 376 / LAS 376: Modern Latin America (SB & G & H) (3)

HST 378 / LAS 378 / JHR 378: Poverty, Inequality and Social Justice in Latin America (CIVI OR G) (3)

HST 404 / LAS 404: Conquest and Encounters in Colonial Latin America (GCSI OR L & G) (3)

HST 419 / LAS 419: 20th Century Chicano/a History (C) (3)

HST 441 / LAS 441: Latin America and the World Economy (L & G & H) (3)

HST 444: Latin American Independence ((L or HU) & G) (3)

HST 447: Modern Mexico (SB & H) (3)

JHR 394: Human Rights in the Global South (3)

JHR 494: Political Representation in Latin America (3)

JUS 475 / SPA 470: Law, Societies and Justice in Latino-America (SB & G) (3)

LAS 330: From the Inside: The Latin American Journey (HU) (3)
LAS 340 / WST 341: Latin American Women Writers (HU & G) (3)
LAS 350: The Construction of a Nation: Chile in the 20th/21st Century (3)
LAS 351: Cityscapes: Urban Mexican Literature and Culture (3)
LAS 355: Contemporary Mexican Cinema: Changing Cartographies (3)
LAS 394 / POR 394 / SLC 394 / SPA 394: Special Topics (3)
LAS 471: Treaties and Cultural Production in Spain and the Americas (3)
LAS 480: Current Trends in Theatre and New Media in Latin America and Spain (HU) (3)
LAS 481 / SPA 481: Dictatorships and Dirty Wars: Latin American Cinema from Resistance to Reconciliation (HU & G) (3)
LAS 494 / POR 494 / SLC 494 / SPA 494: Special Topics (3)
NEW 300: International Cities (3)
Notes: NEW 300 International Cities can be used as an Upper-Division Latin American Studies Elective for Latin American cities only.
POS 453: Latin America (3)
POS 454: Mexico (SB & G) (3)
POS 456: Latin American Cities (SB & G) (3)
POR 460: Brazilian Society Through Music (HU & G) (3)
SPA 325: Introduction to Hispanic Literature (HUAD OR HU) (3)
SPA 427: Colonial and Postcolonial Latin American Literature (HUAD OR L or HU) (3)
SPA 428: Foundational Texts of Latin American Literature Since Modernismo ((L or HU) & G) (3)
SPA 429: Writing Mexico: Major Texts ((L or HU) & G) (3)
SPA 456: 20th-Century Spanish American Fiction (3)
SPA 472: Latin American Society: Five Case Studies (HU & H & G) (3)
SPA 474: Revolutionary Mexico and Postmodern Revisions (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in Latin American studies; BA in social and cultural analysis (Latin American studies)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: This minor encourages cross-cultural exploration, and students who pursue it are prepared for a global-minded career path in such diverse fields as business and finance, arts and arts administration, education, nonprofit organizations, health care, the sciences, psychology, social sciences, sports, journalism, diplomacy, law enforcement and forensic science, ministry, technology, architecture and library science.

Materials Science and Engineering Minor (ESMSEMIN)

Campus: Tempe

Description: The materials science and engineering minor program gives science and engineering majors an in-depth understanding of materials, including their structure, processing, properties and performance.

Program Requirements:

Students are required to take five courses and one lab (minimum of 16 credits), listed below:

Required Courses -- 12 credit hours
MSE 250: Structure and Properties of Materials (3)
MSE 355: Structure and Defects (3)
MSE 3** Elective or MSE 4** Elective (6)

Materials-related Lab Course (choose one) -- 1 credit hours

MSE 212: Microstructure and Properties Lab (1)

Notes: MSE 212 is the recommended lab course to fulfill this requirement.

MSE 356: Thin Film and Microelectronic Devices Lab (1)

MSE 451: Nanomaterials and Electronics Characterization Lab (1)

Materials-related Course -- 3 credit hours

BME 318: Biomaterials (4)

CEE 353: Civil Engineering Materials (4)

CHE 468: Polymer Principles and Processing (3)

CHM 471: Solid-State Chemistry (3)

EEE 352: Properties of Electronic Materials (4)

EEE 436: Fundamentals of Solid-State Devices (3)

MSE 3** Elective (3)

MSE 4** Elective (3)

PHY 481: Materials Physics I (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Maintain 2.50 GPA in Minor Courses.

Enrollment Requirements: GPA Requirement: 2.75

Incompatible Majors: BA in interdisciplinary studies with a concentration in materials science and engineering

Other Enrollment Requirements: Students must hold sophomore status to enroll in the materials science and engineering minor. To earn the minor, students must receive a minimum GPA of 2.50 (scale is 4.00 = "A") in all minor courses. Students adding the minor also need to complete MAT 265 (MAT 270), MAT 266 (MAT 271), MAT 267 (MAT 272), MAT 242 (MAT 342 or 343), and CHM 114 or CHM 113 and 116.

Interested students should consult with a School for Engineering of Matter, Transport and Energy advisor to verify eligibility and to review all courses required for the minor. To schedule an advising appointment, students should contact the SEMTE advising office at 480-965-2335 or semte@asu.edu (<mailto:semte@asu.edu>).

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult with their major academic advisor to declare the minor after they have met with an advisor in the school to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: For engineering majors, a minor in materials science and engineering could open up career opportunities in nanotechnology, electronics, health care, sustainability and energy. For nonengineering majors, a minor in materials science and engineering can provide a foundation in sustainability, nanotechnology and materials physics.

480-965-2335

Mathematics Minor (ASMATHMIN)

Campus: West

Description: In the minor program in mathematics, students explore the study of higher mathematics. It is designed to enable the student to understand the mathematics most commonly used in business, economics and science. It is expected that students in the minor will be able to reason and to find creative solutions to problems that are either presented to them or meaningfully formulated by them.

The program is offered by the School of Mathematical and Natural Sciences.

Program Requirements:

The minor in mathematics consists of 20 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six

upper-division credit hours must be completed through courses offered by the School of Mathematical and Natural Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Core Requirements -- 14 credit hours

MAT 271: Calculus with Analytic Geometry II (MATH OR MA) (4)

MAT 272: Calculus with Analytic Geometry III (MATH OR MA) (4)

MAT 300: Mathematical Structures (L) (3)

MAT 342: Linear Algebra or MAT 343: Applied Linear Algebra (3)

Upper-Division Electives -- 6 credit hours

MAT 310: Introduction to Geometry (3)

MAT 371: Advanced Calculus I (3)

MAT 411: History and Philosophy of Mathematics (HU & H) (3)

MAT 421: Applied Computational Methods (MATH OR CS) (3)

MAT 422: Mathematical Methods in Data Science (3)

MAT 443: Introduction to Abstract Algebra (3)

MAT 445: Theory of Numbers (3)

MAT 452: Introduction to Chaos and Nonlinear Dynamics (3)

MAT 461: Applied Complex Analysis (3)

MAT 462: Applied Partial Differential Equations (3)

MAT 472: Intermediate Real Analysis I (3)

MAT 494: Special Topics (1-4)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BS in applied mathematics; BA or BS in mathematics; BS in applied mathematics for the life and social sciences

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Mathematics is foundational and can be applied to many different types of careers. Math is a crucial part of engineering, life sciences, business, physics, economics and social sciences. These are just a few of the top careers possible with a minor in mathematics:

- cryptographer
- engineer
- financial analyst
- mathematician
- operations research analyst
- statistician
- teacher

Mathematics Minor (LAMATMIN)

Campus: Tempe

Description: The minor in mathematics is designed for students who want to further their knowledge of mathematics by developing more organized and logical thinking. It is beneficial for students majoring in any field where there is a need for quantification in the analysis of information.

Program Requirements:

The minor in mathematics consists of a minimum of 18 credit hours, of which at least 12 must be upper division. A grade of "C" (2.00 on a 4.00

scale) or better is required for courses used in the minor.

Required Courses -- 9 credit hours

A minimum of 9 credit hours is required. Students completing MAT 271 and MAT 272 will complete a total of 11 credit hours.

MAT 271: Calculus with Analytic Geometry II (MATH OR MA) or MAT 266: Calculus for Engineers II (MATH OR MA) (3-4)

MAT 272: Calculus with Analytic Geometry III (MATH OR MA) or MAT 267: Calculus for Engineers III (MATH OR MA) (3-4)

MAT 342: Linear Algebra or MAT 343: Applied Linear Algebra (3)

Upper Division Electives -- 9 credit hours

In consultation with an academic advisor in the School of Mathematical and Statistical Sciences, students will choose nine credit hours of upper-division coursework in any combination from ACT, DAT, MAT and STP subjects. Students must complete at least three courses from these subjects.

ACT OR DAT OR MAT OR STP Upper Division Elective (9)

Students may not apply ACT 491, MAT 411, or MAT 485, or any course not offered by The College of Liberal Arts and Sciences to the minor, unless approved by an academic advisor in the School of Mathematical and Statistical Sciences prior to registration.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BS in actuarial science; BS in applied mathematics; BS in computational mathematical science; BS in statistics; BS in data science; BA and BS in mathematics (including all concentrations); BAE in secondary education (mathematics)

Other Enrollment Requirements: None

Students should confer with an academic advisor in the School of Mathematical and Statistical Sciences before declaring the minor.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Mathematics is foundational and can be applied to many different types of careers. Math is a crucial part of engineering, life sciences, business, physics, economics and social sciences. A mathematics minor can be tailored to enhance a variety of top careers, including:

- cryptographer
- engineer
- financial analyst
- operations research analyst
- statistician
- teacher

A minor in mathematics can help students who are considering law school or medical school to prepare for entrance exams.

Media Analysis Minor (CSCMOMINA)

Campus: Downtown Phoenix, Online

Description: The mass media play vital roles in how information is created and disseminated, and in how societies and cultures evolve. In the media analysis minor, students learn to understand the roles media play, how they're changing and what impact they make. Students learn the tools they need to critically evaluate, analyze and interpret media messages in order to become wise consumers of media and stronger communicators in their major fields.

Program Requirements:

The minor in media analysis consists of 18 credit hours of coursework: nine credits of MCO core courses and nine credits of electives. To pursue the minor in media analysis, students must maintain a minimum 2.00 cumulative GPA, and obtain a minimum grade of "C" (2.00 on a 4.00 scale) in

each course in the minor.

Required Courses -- 9 credit hours

- MCO 120: Media and Society (HUAD OR SB) (3)
- MCO 240: Media Issues in American Pop Culture (3)
- MCO 418: History of Mass Communication (SOBE OR SB & H) (3)

Elective Courses -- 9 credit hours

- COM 324: Rhetoric and Media Criticism (3)
- COM 424: Television Studies and Criticism (3)
- COM 427: Crime and Media (3)
- COM 457: New Media (3)
- MCO 302: Media Research Methods (3)
- MCO 307: The Digital Audience (3)
- MCO 335: Social Media Foundations (3)
- MCO 366: Mass Communication Ethics (3)
- MCO 375: Podcasting (3)
- MCO 394: Special Topics (3)
- MCO 403: Media Law (3)
- MCO 425: Digital Media Literacy I (3)
- MCO 426: Digital Media Literacy II (3)
- MCO 427: Misinformation and Society (3)
- MCO 428: Digital Media and Freedom of Expression in the 21st Century (3)
- MCO 430: International Mass Communication (GCSI OR G) (3)
- MCO 431: Media Entrepreneurship (3)
- MCO 433: Social Media Campaigns, Engagement and Research (3)
- MCO 434: Search Engine Research and Strategy (3)
- MCO 438: Digital Audience Analysis (3)
- MCO 450: Visual Communication (HUAD OR HU) (3)
- MCO 456: Political Communication (CIVI OR SB) (3)
- MCO 460: Race, Gender, and Media (SOBE OR C) (3)
- MCO 465: Sports and Media (3)
- MCO 470: Exploring the Business of Journalism (3)
- MCO 473: Sex, Love, and Romance in the Mass Media (SB) (3)
- MCO 494: Special Topics (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BA in journalism and mass communication; BA in sports journalism and mass communication; BA in mass communications and media studies

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor or the Cronkite advising department (<https://cronkite.asu.edu/students/advising/undergraduate/>) for more information.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: A minor can help students develop marketable communication skills, boosting their career options across their major field and advancing their understanding of how mass media functions. Students with a media analysis minor may pursue communications, engagement and strategy roles in their chosen fields; media-facing roles in journalism and fact-checking; and other career opportunities in economics, finance and political organizations.

Media Arts and Sciences Minor (HIDGCMIN)

Campus: Tempe

Description: With the media arts and sciences minor, students enhance their program of study with integrated, interdisciplinary training in creative processes and technical skills in new media with cultural applications.

Students develop both the technical skills to create computational media and the cultural skills to know when or why to apply them. Students learn to create computational media (computation combined with objects, sound, video, time, space, culture and bodies); breathe behavior into media, objects or systems by programming; and think critically about how computation impacts lives and how culture makes a difference in how people experience computational media, a critical skill in this dynamic century.

The School of Arts, Media and Engineering educates the next generation of learners and empowers them with technofluency --- its development, application and implications. The school prepares students to be socially aware, critically thinking global citizens who strive to bring about positive change in a society that is increasingly shaped by new technologies.

Program Requirements:

The media arts and sciences minor requires 21 credit hours, of which 12 are upper division. Courses for the minor may not be used as part of a major. A minimum of 12 upper-division credit hours taken at ASU is required.

Required Media Arts and Sciences Courses -- 6 credit hours

AME 111: Introduction to Digital Culture (QTRS OR CS) (3)

AME 112: Computational Thinking for Media Arts (CS) or AME 230: Programming for the Media Arts (QTRS OR CS) (3)

Restricted Electives -- 15 credit hours

AME OR MDC Elective (3)

AME OR MDC Upper Division Elective (12)

Students who earn a minor in media arts and sciences cannot earn a media arts and sciences certificate.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: All media arts and sciences majors

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Media arts and sciences students learn techniques that can transform society, and they communicate using contemporary computational media, a vital power in the world. These skills, along with specialized knowledge and judgment, complement their major program of study and help them become more marketable to employers.

Graduates work in cultural communication, marketing, design, social media, health, education, entertainment and creative arts. They can also find opportunities in all areas in which culture is shaped by technology and computational media, including mobile app design, audio production, autonomous systems and more.

Media Content Creation Minor (CSMCCMIN)

Campus: Downtown Phoenix, Online

Description: Engaging media content captures audiences' attention, connects communities to important information, and converts users into brand enthusiasts and loyal customers. The minor program in media content creation develops students' ability to create high-quality content that gets seen and shared, connecting any idea to mass audiences.

Students in this minor pursue coursework across a variety of media skills and techniques, including:

- immersive media
- media project management
- podcasting and audio production
- static and motion graphic design
- studio production
- videography and photography
- writing and editing

Program Requirements:

Students must complete 15 credit hours (of which at least nine must be upper division) from the list below with a grade of "C" (2.00) or better in each course.

Media Content Creation Electives -- 15 credit hours

AME 210: Media Editing (3)

AME 434: Machine Learning for Media Arts (3)

FMP 255: Media Authorship (QTRS OR CS) (3)

JMC 120: Studio Production (1)

JMC 305: Multimedia Journalism or JMC 306: Sports Multimedia Journalism (3)

JMC 414: Digital Graphic Design (3)

JMC 448: Non-Narrative Video Storytelling (3)

JMC 494: Immersive Media Storytelling (3)

JMC 494: Innovation & Entrepreneurship Individual Projects (3)

JMC 498: Los Angeles Content Studio (3)

MCO 101: Everyday Grammar (1)

MCO 102: Fundamentals of Coding (1)

MCO 120: Media and Society (HUAD OR SB) (3)

MCO 294: Vocal Delivery and Presence (1)

MCO 307: The Digital Audience (3)

MCO 375: Podcasting (3)

MCO 394: Interview and Inquiry (3)

MCO 394: Photography for Mass Media (3)

MCO 394: Videography for Mass Media (3)

MCO 425: Digital Media Literacy I (3)

MCO 426: Digital Media Literacy II (3)

MCO 431: Media Entrepreneurship (3)

MCO 494: Advanced Media Entrepreneurship (3)

MCO 494: Foundations of Storytelling (1)

MCO 494: Media Project Management (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.50

Incompatible Majors: BA in journalism and mass communication; BA in sports journalism

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Global Opportunities:

Global Experience: Students may participate in media project-based study abroad experiences and minor courses delivered globally. Cronkite media creation courses have been taught in England, Rwanda, Costa Rica, Brazil and beyond. With more than 300 Global Education program opportunities (<https://goglobal.asu.edu/>) available, media content creation students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career Opportunities: Through this minor, students complement their major plan of study by expanding their capacity to create compelling content for clients, agencies, teams, businesses and their personal brands.

Graduates with media content creation skills pursue a variety of professional roles including:

- brand ambassador
- content creator
- content strategist
- podcaster
- subject matter expert
- thought leader
- videographer

Medical Studies Minor (NHMESTMIN)

Campus: Downtown Phoenix, Polytechnic, West

Description: The minor in medical studies focuses on preparing students for employment in health care and clinical medicine, including in both direct and indirect patient care.

Students take coursework in:

- applied medical and health care ethics
- historical aspects of medicine
- leadership and professionalism

Students have the option of enhancing the application of core concepts through completion of an internship. This minor does not take the place of pre-med academic preparation for those who plan to apply to medical school.

Program Requirements:

The minor requires a total of 18 credit hours. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.

Required Courses -- 15 credit hours

- HCD 303: Global Health Care Systems (GCSI OR G) (3)
- HCD 330: Health Care Systems in the U.S. (CIVI) (3)
- MED 300: Historical and Contemporary Issues in Health (L) (3)
- MED 320: Applied Medical/Health Care Ethics (HUAD OR HU) (3)
- MED 450: Leadership and Professionalism (3)

Elective (choose one) -- 3 credit hours

- HCD 420: Population Health Management (3)
- MED 484: Internship (3)
- PBH 422: Health Disparities and Access to Health (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BAS in applied science (health sciences); BS in health care administration and policy; BS in health sciences; BS in health sciences (healthy lifestyles and fitness science); BS in medical studies; BS in population health; BS in public health

Other Enrollment Requirements: Students must complete a minimum of 30 credit hours before adding the minor.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Students who complete this minor acquire valuable skills in health care that, along with those developed in their major, can be implemented in a variety of career settings. Some career opportunities include project coordination, marketing, sales and research.

Military Leadership Minor (LAMISMIN)

Campus: Tempe

Description: The minor in military leadership is a program designed to enhance students' learning experience by providing tools that prepare them for leadership roles in various organizations. Students complete courses that cover academic and practical skills, including:

- effective communication
- leadership ethos
- negotiation
- problem-solving
- staff motivation and empowerment
- team-building

Program Requirements:

The minor in military leadership requires a minimum of 18 credit hours, 12 of which must be at the 300- or 400-level. Twelve credit hours must be taken in residence on an ASU campus. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Students choose the option befitting their chosen branch of the military. An option is also provided for non-ROTC students wishing to benefit from the skills and knowledge developed in the minor.

Branch Specific Options -- 18 credit hours

The branch-specific options for Army, Air Force and Navy require a minimum of 12 credit hours specific to the option, and six credit hours chosen from a list of approved electives. Students choosing the Marine option complete nine credit hours within the branch option courses and nine credit hours from the list of approved electives.

Army Option

MIS 301: Training Management and the Warfighting Functions (L) (4)

MIS 302: Applied Leadership in Small-Unit Operations (L) (4)

MIS 401: The Army Officer (4)

MIS 402: Company Grade Leadership (4)

Choose two additional courses from the list of Approved Electives below. Army option students are advised to select one elective from subject codes: ACO, CEL or SSP.

Air Force Option

AES 301: Leading People and Effective Communication I (L) AND AES 302: Leadership Laboratory (3)

AES 303: Leading People and Effective Communication II (L) AND AES 304: Leadership Laboratory (3)

AES 401: National Security, Leadership Responsibilities and Commissioning Preparation I (L) AND AES 402: Leadership Laboratory (3)

AES 403: National Security, Leadership Responsibilities and Commissioning Preparation II AND AES 404: Leadership Lab (3)

Choose two additional courses from the list of Approved Electives below.

Navy Option

NAV 301: Naval Ship Systems I (3)

NAV 302: Naval Ship Systems: Weapons (3)

NAV 401: Naval Operations and Seamanship (3)

NAV 402: Leadership and Ethics (3)

NAV 499: Individualized Instruction (3)

Choose two additional courses from the list of Approved Electives below.

Marine Option

NAV 303: Evolution of Warfare (3)

NAV 402: Leadership and Ethics (3)

NAV 403: Fundamentals of Maneuver Warfare (3)

NAV 499: Individualized Instruction (3)

Choose three additional courses from the list of Approved Electives below, INCLUDING one upper division (300 or 400 level) course.

Non-ROTC Option -- 18 credit hours

The minor also offers an option designed for non-ROTC students desiring the training provided by the minor. Student in the non-ROTC option complete three courses from this list of approved core courses and three courses selected from the list of Approved Electives.

Choose three courses from the following:

AES 301: Leading People and Effective Communication I (L) (3)

AES 303: Leading People and Effective Communication II (L) (3)

AES 401: National Security, Leadership Responsibilities and Commissioning Preparation I (L) (3)

AES 403: National Security, Leadership Responsibilities and Commissioning Preparation II (3)

MIS 301: Training Management and the Warfighting Functions (L) (4)

MIS 302: Applied Leadership in Small-Unit Operations (L) (4)

MIS 401: The Army Officer (4)

MIS 402: Company Grade Leadership (4)

NAV 301: Naval Ship Systems I (3)

NAV 302: Naval Ship Systems: Weapons (3)

NAV 303: Evolution of Warfare (3)

NAV 401: Naval Operations and Seamanship (3)

NAV 402: Leadership and Ethics (3)

NAV 403: Fundamentals of Maneuver Warfare (3)

Choose three additional courses from the list of Approved Electives below.

Approved Electives

Courses can only satisfy one requirement. No course used toward the branch-specific courses or the core courses for the non-ROTC option can be repeated as an elective.

ACO 401: Managing Cyber Risks in Enterprise Business Processes (3)

ACO 482: Design Thinking for National Security (3)

AES 101: Heritage and Values I (2)

AES 103: Heritage and Values II (2)

AES 201: Team and Leadership Fundamentals I (2)

AES 203: Team and Leadership Fundamentals II (2)

CEL 394: Civil-Military Relations in America (3)

CEL 394: U.S. Natl Security Challenges in the 21st Century (3)

CEL 475: Statesmanship and American Grand Strategy (HUAD OR HU) (3)

CEL 494: Just War (3)

CEL 494: The American Founding (3)

FAS 101: Personal Growth and Relationships (SOBE OR SB) (3)

FAS 331: Modern Family Relationships (SOBE OR SB) (3)

HST 372: Modern Middle East (GCSI OR SB & G & H) (3)

HST 408: Civil War and Reconstruction (HUAD OR H) (3)

HST 456: The Vietnam War (HUAD OR SB & H) (3)

MIS 101: Introduction to the United States Army (4)

MIS 102: Foundation of Agile and Adaptive Leadership (4)

MIS 201: Army Leadership and Decision Making (4)

MIS 202: Army Doctrine and Team Development (4)

MIS 499: Individualized Instruction (3)

NAV 101: Introduction to Naval Science (3)

NAV 102: Sea Power and Maritime Affairs (3)

NAV 202: Navigation (3)

NAV 294: Naval Leadership and Management (3)

NAV 499: Individualized Instruction (3)

REL 100: Religions of the World (GCSI OR HU & G) (3)

REL 366: Islam in the Modern World (GCSI OR HU & G) (3)

SSP 494: Strength & Conditioning for the Tactical Performer (3)

Additional electives may be used with the prior approval of the department chair.
Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Other Enrollment Requirements: None

Students in the history or religious studies BA programs may not use HST or REL courses to meet the elective requirement for this minor.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: The minor in military leadership provides students with the knowledge of the military as a profession and its purpose and capabilities in support of national defense. Students who complete the minor improve their problem-solving abilities and enhance their critical and creative thinking skills. This certificate assists students pursuing careers in support of the Department of Defense.

Music Minor (FAMUSMIN)

Campus: Tempe, Online

Description: The music minor is designed for students who are interested in a broad introduction to the study of music. The program allows for a diverse exposure to music practices --- traditional through contemporary --- with numerous course options based on students' interests.

Program Requirements:

The School of Music offers a minor in music consisting of 24 credit hours of coursework, including a minimum of 12 upper-division credit hours. A minimum grade of "C" (2.00) is required in all courses.

Required Courses -- 12 credit hours

- MHL 201: Media Literacy for Musicians (QTRS OR CS) (3)
 - MUS 100: Fundamentals of Music Notation (3)
 - MUS 131: Bach to Bebop (HUAD OR HU) or MUS 355: American Music (HUAD OR HU & C & H) (3)
- Notes: Bach to Bebop is only offered in fall semesters.
- MUS 340: Music for the Concert Hall, Stage, and Screen (HUAD OR HU & H) (3)

Music History -- 6 credit hours

- MUS 131: Bach to Bebop (HUAD OR HU) or MUS 355: American Music (HUAD OR HU & C & H) (3)
- Notes: Bach to Bebop is only offered in fall semesters.
- MUS 347: Jazz in America (HUAD OR HU & C) (3)
 - MUS 356: Broadway and the American Musical (HUAD OR HU) (3)
 - MUS 410: History of Women in Music (HUAD OR HU & C & H) (3)

Music Electives -- 6 credit hours

- MUS 354: Beatles (3)
- MUS 354: Classic Rock: 1950-1975 (3)
- MUS 354: Country Music (3)
- MUS 354: Elvis (3)
- MUS 354: Jazz Giants (3)
- MUS 354: Rock Since 1975 (3)
- MUS 362: Rap Music and Hip Hop Culture (HUAD OR HU & C) (3)
- MUS Upper Division Elective (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: All music majors

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: A minor can help students enhance the marketable skills they acquire in their major program and enable them to develop new skills apart from it, though most career areas do require more training than a minor alone can provide.

Graduates with a minor in music have additional knowledge that can help them as they pursue careers in arts administration, teaching, fundraising management or marketing.

Music Performance Minor (HIMUSPMIN)

Campus: Tempe

Description: The minor program in music performance enables students with a background in playing an instrument or singing to continue to develop their musicianship while pursuing their major studies.

The coursework includes individualized instruction and ensemble experience to develop students' performance skills.

Program Requirements:

The minor requires 21 credit hours, of which 12 are upper division, in performance, history, theory and electives. Students may transfer up to nine credit hours toward the minor.

Required Courses -- 6 credit hours

MUP 121: Studio Instruction (2)

Notes: Two semesters of MUP 121 are required.

MUP 321: Studio Instruction (1)

MUS 131: Bach to Bebop (HUAD OR HU) or MUS 355: American Music (HUAD OR HU & C & H) (3)

Ensembles - Three semesters of ensembles related to the primary instrument studied in the minor -- 3 credit hours

MUP 442: Orchestra Strings (1)

MUP 442: Philharmonia (1)

MUP 442: Wind Ensemble (1)

MUP 443: Concert Choir (1)

MUP 444: Maroon and Gold Concert Band (1)

MUP 450: Choral Union (1)

MUP 455: Canticum Bassum (1)

MUP 457: Sol Singers (1)

MUP 458: ASU Gospel Choir (1)

MUP 459: Barrett Choir (1)

MUP 486: Concert Jazz Band (1)

MUP 486: Jazz Repertory Band (1)

MUP 486: Latin Jazz Ensemble (1)

Ensemble - Fourth semester of ensemble (may be unrelated to the primary instrument studied in the minor) -- 1 credit hours

MUP 441: Popular Music Ensemble (1)

MUP 485: Contemporary (1)
MUP 485: Jazz (1)
MUP 485: Percussion Ensemble (1)
MUP 485: African Diasporic Ensemble (1)
MUP 489: Ethnomusicology Ensembles (1)
MUP 489: Gamelan (1)
MUP 489: Hip Hop Ensemble (1)
MUP 489: Latin Marimba (1)
MUP 489: Mariachi (1)
MUP 489: World Percussion Ensemble (1)
MUS 294: Rock Band (1)

Music History -- 6 credit hours

MUS 340: Music for the Concert Hall, Stage, and Screen (HUAD OR HU & H) (3)
MUS 347: Jazz in America (HUAD OR HU & C) (3)
MUS 354: Classic Rock: 1950-1975 (3)
MUS 355: American Music (HUAD OR HU & C & H) (3)
MUS 356: Broadway and the American Musical (HUAD OR HU) (3)
MUS 362: Rap Music and Hip Hop Culture (HUAD OR HU & C) (3)
MUS 410: History of Women in Music (HUAD OR HU & C & H) (3)

MHL courses may be accepted if the appropriate prerequisites are met or with instructor approval.

Music Theory -- 3 credit hours

Students will take a theory diagnostic exam to determine placement in either MUS 100 or MTC 125.

MUS 100: Fundamentals of Music Notation or MTC 125: Music Theory I (3)

Music Electives -- 2 credit hours

MHL OR MUE OR MUP OR MUS OR MTC OR MSC Upper Division Elective (2)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: All music majors

Other Enrollment Requirements: Students must successfully complete an audition before the faculty in the applicable instrument area for entrance into the program. Audition criteria and specific audition requirements are determined by area faculty and are similar to the MUP 111 and MUP 311 enrollment criteria for each instrument. This information is posted on the school's auditions page (<https://musicdancetheatre.asu.edu/admission/apply-music-major/audition-interview>). Students interested in pursuing the performance minor should submit an application at the program page (<https://musicdancetheatre.asu.edu/undergraduate-certificates/majorinfo/HIMUSPMIN/undergrad/true/20>).

Advisors should not add the minor until the student presents a letter from the School of Music, Dance and Theatre Office of Academic Affairs to confirm that the student has successfully passed the audition.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with a minor in music performance have additional experience that can help them as they pursue careers in art administration, teaching and business.

Music Theatre Minor (HIMUTHRMIN)

Campus: Tempe

Description: The minor program in music theatre allows students with a background, interest or passion in music theatre to continue their studies and further explore the craft.

Students develop skills through performance-based small-group classes and private instruction, and coursework also includes the study of theoretical and historical elements of music and theatre.

Program Requirements:

The minor requires 24 hours (12 upper division) in performance, history, theory and electives.

Students may transfer up to nine credit hours toward the minor.

Required Performance Courses -- 12 credit hours

MUP 121: Voice (2)

Notes: Two semesters of MUP 121 are required

MUP 170: Music Theatre I (2)

MUP 172: Music Theatre II (2)

MUP 374: Technical Production I (Foundations) (1)

MUP 374: Technical Production II (Practicum) (1)

MUP 451: Music Theatre Repertoire (2)

MUP 467: Music Theatre Dance Technique (2)

Notes: Two semesters of MUP 467 are required and must be taken in fall-spring sequence

Music History -- 3 credit hours

MUS 340: Music for the Concert Hall, Stage, and Screen (HUAD OR HU & H) (3)

MUS 347: Jazz in America (HUAD OR HU & C) (3)

MUS 354: Classic Rock: 1950-1975 (3)

MUS 355: American Music (HUAD OR HU & C & H) (3)

MUS 356: Broadway and the American Musical (HUAD OR HU) (3)

MUS 362: Rap Music and Hip Hop Culture (HUAD OR HU & C) (3)

MUS 410: History of Women in Music (HUAD OR HU & C & H) (3)

MHL courses may be accepted if the appropriate prerequisites are met or with instructor approval.

Music Theory -- 3 credit hours

Students must take the music theory diagnostic exam before enrolling in MTC 125.

MTC 125: Music Theory I (3)

Upper Division Music Elective -- 3 credit hours

MUP 321: Studio Instruction (1)

MUP 360: Musicianship for Singers (1)

MUP 373: Music Theatre Performance and Production (1)

MUP 471: Audition Training (Musical Theatre) (1)

MUS 355: American Music (HUAD OR HU & C & H) (3)

MUS 356: Broadway and the American Musical (HUAD OR HU) (3)

THE 322: Theatre History and Culture (HUAD OR HU & H) (3)

Music Electives -- 3 credit hours

MUP 270: Music Theatre III (2)

MUP 272: Music Theatre IV (2)

MUP 321: Voice (1)

MUP 373: Music Theatre Performance and Production (1)

MUP 471: Audition Training (Musical Theatre) (1)

MUS 131: Bach to Bebop (HUAD OR HU) (3)

MUS 340: Music for the Concert Hall, Stage, and Screen (HUAD OR HU & H) (3)

MUS 347: Jazz in America (HUAD OR HU & C) (3)

MUS 354: Classic Rock: 1950-1975 (3)

MUS 355: American Music (HUAD OR HU & C & H) (3)

MUS 356: Broadway and the American Musical (HUAD OR HU) (3)

MUS 362: Rap Music and Hip Hop Culture (HUAD OR HU & C) (3)

MUS 410: History of Women in Music (HUAD OR HU & C & H) (3)

THE 322: Theatre History and Culture (HUAD OR HU & H) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BMus in performance with a concentration in music theatre

Other Enrollment Requirements: An audition for music theatre is required for entrance into the minor or BIS concentration and MUP 121 and MUP 170 study. Audition criteria are determined by area faculty.

Audition repertoires can be found on this School of Music, Dance and Theatre website (<https://musicdancetheatre.asu.edu/admission/apply-music-major/audition-interview>). Students interested in pursuing the music theatre minor should submit an application at the program page (<https://musicdancetheatre.asu.edu/undergraduate-certificates/majorinfo/HIMUTHRMIN/undergrad/true/20>).

Advisors should not add the minor until the student presents an acceptance letter from the School of Music, Dance and Theatre academic affairs office confirming that the student has successfully passed the audition.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with a minor in music theatre have additional expertise that can help them as they pursue careers in arts administration, acting, performance or teaching.

Nonprofit Leadership and Management Minor (PPNLMMIN)

Campus: Downtown Phoenix

Description: The minor program in nonprofit leadership and management empowers students to positively impact the community in which they work. The nonprofit sector in the U.S. is unique in form and function, with more than 1.6 million organizations.

This program introduces students to the knowledge and skills required for successful professional careers with nonprofit social sector organizations that exist to improve the quality of life of communities.

Students from various disciplines such as business, communication, education, global studies, museum studies, nursing, public affairs, religious studies, social work and sustainability find this program a beneficial supplement to their existing program as many find that the career pathways from their degree occur within nonprofit organization forms.

This program affords students the opportunity to earn the national Certified Nonprofit Professional credential awarded through the Nonprofit Leadership Alliance. <https://nla1.org/cnp-professionals/> (<https://nla1.org/cnp-professionals/>)

Program Requirements:

The minor requires 18 credit hours: three credit hours of required core courses and 15 credit hours of elective courses.

Required Core Course -- 3 credit hours

NLM 220: Introduction to Nonprofit Organizations (3)

Electives -- 15 credit hours

NLM 160: Voluntary Action and Community Leadership (CIVI OR SB) (3)

NLM 300: Fund Raising and Resource Development (3)

NLM 310: Volunteer Management (CIVI) (3)

NLM 380: Financial Management for Nonprofit Organizations (3)

NLM 430: Managing Nonprofit Organizations (L) (3)

NLM 435: Service Learning for Community Development (3)

NLM 451: Grant Writing (3)

NLM 484: Internship (3)

PRM 145: Special Events Management (3)

Standards

1. minimum grade of "C" (2.00 on a 4.00 scale) required for all courses in the minor.
2. 15 credit hours of graded classroom coursework (no internship, no independent study).
3. students should be a junior to take 400-level classes.
4. no double counting of courses for both a major and the minor.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in nonprofit leadership and management, including the American Indian studies concentration

Students pursuing the nonprofit leadership and management bachelor's degree may earn the Certified Nonprofit Professional credential along with their major upon successfully completing both curricular and cocurricular requirements. (Students should see an advisor for details.)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Graduates with a nonprofit leadership and management minor find opportunities in diverse settings involving a wide range of missions, including arts and culture, environmental, health, youth development and more. Some graduates find employment with local grassroots direct-service nonprofits while others find work with grant-making foundations.

Nutrition and Healthy Living Minor (NUNHLMIN)

Campus: Downtown Phoenix

Description: The nutrition and healthy living minor provides students with a greater understanding of how nutrition contributes to healthy lifestyles and disease prevention.

Students have the opportunity to mix and match classes in areas such as:

- body image and wellness
- counseling and communication in different mediums
- eating for lifelong health
- the history and cultural aspects of food
- nutrition in the community
- sports nutrition

Program Requirements:

The minor requires a total of 18 credit hours. A grade of "C" (2.00 on a 4.00 scale) or better is required for each course in the minor.

Some courses in this minor require CHM 101 (or CHM 113) as a prerequisite. Please ensure all prerequisites are met when planning this minor.

Required Courses -- 9 credit hours

NTR 100: Introduction to Nutrition Science or NTR 241: Human Nutrition (3)

NTR 345: Development of Healthy Cuisines (3)

NTR 450: Nutrition in the Life Cycle (SOBE OR SB) or HSC 355: Eating for Lifelong Health (SOBE OR SB) (3)

Upper-Division Electives (select three) -- 9 credit hours
HEP 380: Body Image and Wellness (3)
NTR 320: History of Human Nutrition (HUAD OR H) (3)
NTR 348: Cultural Aspects of Food (GCSI OR SB & C & G) (3)
NTR 350: Nutrition Counseling (3)
NTR 351: Nutrition Communication (L) (3)
NTR 353: The Western Diet (3)
NTR 390: Current Nutrition Research (3)
NTR 448: Community Nutrition (L) (3)
NTR 453: Nutrition and the Media (3)
NTR 457: Sports Nutrition (3)
NTR 480: Integrative and Functional Nutrition (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in dietetics; BS in food and nutrition entrepreneurship; BS in health sciences (healthy lifestyles and fitness science); BAS in food and nutrition entrepreneurship; BS in nutritional science

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates of the minor in nutrition and healthy living have a basic understanding of nutrition needs through the life cycle and how to put that knowledge to use in the community, which is of particular benefit to those pursuing careers in public health, the medical field or workplace wellness.

Many graduates participate in activities such as:

- conducting academic research
- developing and preparing recipes that meet nutritional guidelines
- informing the community about food through social media and web platforms
- providing people of all ages with general nutrition information

Organizational Leadership Minor (LSORGLMIN)

Campus: Polytechnic, Online

Description: The minor program in organizational leadership prepares students for executive roles in a variety of environments. Students develop skills and knowledge that leaders need in order to solve problems, communicate effectively, assess programs, manage resources and use emerging technologies.

Program Requirements:

The minor in organizational leadership requires 18 credit hours, including a minimum of 12 upper-division credit hours.

Required Courses -- 9 credit hours

OGL 200: Introduction to Organizational Leadership (CIVI OR SB) (3)

OGL 340: Special Topics (6)

Notes: This course is taken two times with two separate topics.

Electives -- 9 credit hours

Choose three courses, including a minimum of six upper-division credit hours.

OGL 220: Behavioral Dynamics in Organizations (SOBE OR SB) (3)

OGL 260: Resource Allocation in Organizations (SUST) (3)

OGL 300: Theory and Practice of Leadership (3)

OGL 340: Special Topics (3)

OGL 343: Social Processes in Organizations (SOBE OR SB) (3)

OGL 345: Organizational Ethics (HUAD OR HU) (3)

OGL 350: Diversity and Organizations (GCSI OR L & C) (3)

OGL 355: Leading Organizational Innovation and Change (3)

OGL 357: Assessment in Organizations (3)

OGL 360: Assessment of Leadership Effectiveness (3)

OGL 365: Special Topics (3)

OGL 484: Internship (3)

Notes: No more than 3 credit hours of internship may be applied to this minor.

PMG 240: Introduction to Project Management (3)

PMG 321: Project Leadership, Strategy and Scope (3)

Any topic can be utilized within the OGL 340 and OGL 365 courses. Students may enroll in up to 15 credit hours of OGL 340 or OGL 365 topics courses to meet the requirements of the minor. Topics cannot be repeated.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BAS in applied science (applied leadership); BA in organizational leadership; BA in organizational leadership (project management); BAS in project management.

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in organizational leadership can help students with communication and cultural competency skills as they pursue careers in organizational behavior, organizational leadership, management and others.

Graduates of the program are prepared for a range of positions in government, health care administration, nonprofit agencies and the service industry.

Parks and Protected Area Management Minor (PPPRMMINT)

Campus: Downtown Phoenix

Description: As the world continues to develop and urbanize, the demands and pressures on public lands and natural resources continue to grow. The minor program in parks and protected area management introduces students to the role of these community resources with a focus on the unique issues faced by urban-proximate natural areas.

Understanding how to balance growing societies with natural resources is key to a sustainable future.

Program Requirements:

Completion of the parks and protected area management minor in the School of Community Resources and Development requires the following:

Required Core Courses -- 12 credit hours

PRM 120: Leisure and the Quality of Life (SOBE OR SB) (3)

PRM 370: Public Lands Management (3)

PRM 380: Wilderness and Parks in America (SUST OR SB & H) (3)

TDM 480: Sustainable Tourism (3)

Elective (choose one) -- 3 credit hours

CRD 301: Sustainable Communities (3)

ENV 415: Field Techniques in Natural Resource Management (4)

PRM 340: Outdoor Survival (3)

PRM 360: Environmental and Cultural Interpretation (3)

TDM 448: Heritage and Cultural Tourism (3)

TDM 494: Special Topics (3)

Standards

1. 15 hours of graded classroom coursework (no internship, no independent study)
2. 12 hours of coursework at the upper-division level, from the approved list
3. minimum grade of "C" (2.00 on a 4.00 scale) required for all courses in the minor
4. no double counting of courses for a major and the minor
5. should be a junior to take 400-level courses

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in parks and recreation management (all concentrations); BS in recreation therapy

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. Personal Health Minor (NPHLMIN)

Campus: Downtown Phoenix, Online

Description: The personal health minor allows students pursuing non-health majors or anyone interested in improving their health to explore and learn the latest information related to healthy lifestyles, including the attainment and retention of high-quality personal health.

The program reflects the transdisciplinary nature of personal health by including courses from the fields of nutrition, exercise science, and health sciences and health promotion.

Students gain the knowledge and skills necessary to optimize their personal health and assume increased responsibility to move toward improved overall wellness.

Program Requirements:

A total of 18 credit hours are required for the minor. A minimum grade of "C" (2.00 on a 4.00 scale) is required for all courses.

Required Courses -- 12 credit hours

EXW 325: Fitness for Life (3)

HEP 380: Body Image and Wellness (3)

HSC 355: Eating for Lifelong Health (SOBE OR SB) or NTR 450: Nutrition in the Life Cycle (SOBE OR SB) (3)

NTR 100: Introduction to Nutrition Science or NTR 241: Human Nutrition (3)

Electives -- 6 credit hours

EXW 302: Fundamentals of Wellness (3)

EXW 335: Physical Activity and Physiological Concepts (3)

EXW 400: Stress Management for Wellness (3)

HEP 350: Substance Use and Addictive Behaviors (3)

HEP 361: Digital Health Communication and Education (3)

HEP 443: Emotional Health and Interpersonal Relationships (3)

NTR 345: Development of Healthy Cuisines (3)

NTR 348: Cultural Aspects of Food (GCSI OR SB & C & G) (3)

NTR 453: Nutrition and the Media (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in exercise and wellness; BS in health education and health promotion; BS in health sciences (healthy lifestyles and fitness science); BAS in food and nutrition entrepreneurship

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: A minor in personal health provides students with skills in many areas of exercise, nutrition and emotional health, enhancing the marketable skills they acquire in their major program. Graduates can pursue careers in workplace wellness, the medical field or public health, among many other career options, though most career areas do require more training than a minor alone can provide.

Pharmacology and Toxicology Minor (ASPTXMIN)

Campus: West, Online

Description: A minor in pharmacology and toxicology provides students with biology and chemistry courses to help prepare them to explore how chemicals (drugs and environmental toxicants) affect living organisms.

Students learn to identify chemical characteristics leading to beneficial and adverse effects, describe how chemicals are evaluated for regulatory purposes, and summarize holistically how drugs and toxicants elicit their effects.

Program Requirements:

The minor in pharmacology and toxicology consists of 15 credit hours. A minimum of 9 credit hours must be upper division. A minimum of six upper-division credit hours must be taken through the School of Mathematical and Natural Sciences. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Required -- 6 credit hours

PTX 301: Basics of Pharmacology and Toxicology (3)

PTX 432 / LSC 432: Fundamentals of Pharmacology OR PTX 475 / LSC 475: Principles of Toxicology (3)

Courses taken for this category cannot be used to fulfill any other requirement in the minor.

Upper-Division Electives (choose three) -- 9 credit hours

BCH 361: Advanced Principles of Biochemistry or BCH 371: Modern Concepts in Biochemistry (3)

CHM 233: General Organic Chemistry I (3)

CHM 234: General Organic Chemistry II (3)

COM 415: Risk Communication (3)

PTX 325 / PSY 325: Physiological Psychology (3)

PTX 388: STEM Research Fundamentals (3)

PTX 430: Environmental and Human Toxicology (3)

PTX 432 / LSC 432: Fundamentals of Pharmacology (3)

PTX 450: Pharmacology and Toxicology Laboratory (1)

PTX 475 / LSC 475: Principles of Toxicology (3)

PTX 499: Individualized Instruction (3)

Courses taken for this category cannot be used to fulfill any other requirement in the minor.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BS in pharmacology and toxicology, BS in biology (pharmacology/toxicology)

Other Enrollment Requirements: The following prerequisite courses do not count toward the minor, but may be needed in order to complete the requirements of the minor:

- BIO 181 General Biology I
- BIO 182 General Biology II
- BIO 340 General Genetics OR LSC 347 Fundamentals of Genetics
- BIO 353 Cell Biology
- CHM 113 General Chemistry I
- CHM 116 General Chemistry II

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Relevant career paths include the pharmaceutical industry; regulatory fields such as environmental risk assessment; and graduate programs in public health, pharmacology, toxicology or environmental health sciences.

Philosophy Minor (ASPHIMIN)

Campus: West

Description: The minor program in philosophy provides students with an understanding of central philosophical issues, problems and ideas; a capacity for critical thinking and analytic reasoning; and the ability to present one's positions effectively through oral and written communication.

The program is offered by the School of Humanities, Arts and Cultural Studies.

Program Requirements:

The minor in philosophy consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Humanities, Arts and Cultural Studies. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better. Six hours maximum of PHI/REL 484 and/or PHI/REL 499 may apply to the minor.

Course List (minimum 12 upper-division credit hours) -- 18 credit hours

ENG 401: Topics in Critical Theory (3)
IAS 340 / PHI 320: Bioethics (HUAD OR HU) (3)
IAS 406 / PHI 406: Moral Dilemmas (L or HU) (3)
IAS 407 / PHI 407: Environmental Philosophy and Policy (L or HU) (3)
IAS 409 / PHI 409: Eco-Community Ethics (HU) (3)
IAS 410: Evolution of Ideas (L or HU) (3)
IAS 417 / PHI 417: Philosophy of Censorship (L or HU) (3)
IAS 430: Science and Religion (HUAD OR HU) (3)
IAS 450 / PHI 450 / REL 450: Philosophical and Spiritual Issues in Death and Dying (3)
PHI 101: Introduction to Philosophy (HUAD OR HU) (3)
PHI 103: Principles of Sound Reasoning (QTRS OR L or HU) (3)
PHI 105: Intro to Ethics (HUAD OR HU) (3)
PHI 303 / REL 300: The Future of Religions (HUAD OR L or HU) (3)
PHI 304: Existentialism (HUAD OR HU) (3)
PHI 306: Applied Ethics (CIVI OR HU) (3)
PHI 311: Philosophy and Literature (HU) (3)
PHI 318: Philosophy of Religion (HUAD OR HU) (3)
PHI 339: Philosophy of Art (HU) (3)
PHI 360: Business and Professional Ethics (HUAD OR HU) (3)
PHI 391 / REL 391: Historical Perspectives on Philosophy and Religion (3)
PHI 408: Feminist Ethics (HUAD OR HU) (3)
PHI 411: Continental Philosophy (HU) (3)
PHI 412: Philosophy and Literary Criticism (HUAD OR HU) (3)
PHI 415: Philosophy and Film (HUAD OR HU) (3)
PHI 439: Philosophy of Love and Sex (HU) (3)
PHI 484 / REL 484: Internship (3)
PHI 494 / REL 494: Special Topics (3)
PHI 499: Individualized Instruction or REL 499: Individualized Instruction (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in philosophy

Other Enrollment Requirements: None

The minor in philosophy is open to all ASU undergraduate majors.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Graduates who have completed the minor in philosophy have critical thinking and strong communication skills essential to success in health care, law, public service, journalism, business and education. This minor program provides ideal preparation for a wide range of careers, including:

- entrepreneur
- intelligence analyst
- lawyer
- medicine
- minister
- paralegal
- politician
- real estate agent

- teacher or professor
- writer

Philosophy Minor (LAPHIMIN)

Campus: Tempe, Online

Description: The minor in philosophy provides students with an understanding of philosophical inquiry and method. The program offers an introduction to central themes both in the history of philosophy and in the current literature. Students in this minor have the opportunity to sharpen their critical reasoning skills while addressing profound questions regarding the nature of:

- existence
- knowledge
- law
- morality
- politics
- science

Program Requirements:

The minor in philosophy consists of 18 credit hours, of which at least 12 must be upper-division. At least six upper-division credit hours must be in courses offered by The College of Liberal Arts and Sciences. Each course must be completed with a minimum grade of "C" (2.00 on a 4.00 scale) or higher.

The minor in philosophy is also available to complement the studies of ASU Online students. Certain course selections below are offered as oCourses to accommodate ASU Online students.

Subdisciplinary Electives -- 18 credit hours

Subdisciplinary Elective (6)

Upper Division Subdisciplinary Elective (12)

Available subdisciplines are epistemology, ethics and political philosophy, history of philosophy, logic and metaphysics. Students choose courses from the philosophical subdiscipline lists, with no more than two courses from any single track. Courses in the "other" list cover multiple subdisciplines and students may apply these courses within the minor without limit. Students should consult with an academic advisor in the School of Historical, Philosophical and Religious Studies about a proposed selection of courses before enrolling.

Epistemology

PHI 313: Probability, Evidence, and Decision (3)

PHI 314: Philosophy of Science (HUAD OR HU) (3)

PHI 325: Philosophy of Social Science (HU or SB) (3)

PHI 330: Theory of Knowledge (HUAD OR HU) (3)

Ethics and Political Philosophy

PHI 105: Intro to Ethics (HUAD OR HU) (3)

PHI 107: Introduction to Philosophy of Sex and Love (HU) (3)

PHI 120: Introduction to Medical and Bioethics (HUAD OR HU) (3)

PHI 306: Applied Ethics (CIVI OR HU) (3)

PHI 307: Philosophy of Law (AMIT OR HU) (3)

PHI 310: Environmental Ethics (SUST OR HU) (3)

PHI 320: Bioethics (HUAD OR HU) (3)

PHI 324: Existential Ethics (HU) (3)

PHI 326: Philosophy of Happiness (HUAD OR HU) (3)

PHI 335: History of Ethics (GCSI OR HU) (3)

PHI 336: Social and Political Philosophy (HU) (3)

PHI 337: Ethical Theory (HU) (3)

PHI 338: Metaethics (3)

PHI 347: Philosophical Theories of Constitutional Law (3)

PHI 360: Business and Professional Ethics (HUAD OR HU) (3)

PHI 370: Sports Ethics (HUAD OR HU) (3)

PHI 405: Moral Psychology (3)

PHI 406: Moral Dilemmas (L or HU) (3)
PHI 408: Feminist Ethics (HUAD OR HU) (3)
PHI 409: Eco-Community Ethics (HU) (3)

History of Philosophy

PHI 304: Existentialism (HUAD OR HU) (3)
PHI 328: History of Ancient Philosophy (GCSI OR HU & H) (3)
PHI 329: History of Modern Philosophy (GCSI OR HU & H) (3)
PHI 401: Rationalism (3)
PHI 402: Empiricism (3)
PHI 403: Contemporary Analytic Philosophy (HU) (3)

Logic

PHI 103: Principles of Sound Reasoning (QTRS OR L or HU) (3)
PHI 333: Symbolic Logic (3)
PHI 413: Advanced Symbolic Logic (3)

Metaphysics

PHI 318: Philosophy of Religion (HUAD OR HU) (3)
PHI 331: Philosophy of Language (HU) (3)
PHI 332: Metaphysics (HUAD OR HU) (3)
PHI 334: Philosophy of Mind (HUAD OR HU) (3)

Other

PHI 101: Introduction to Philosophy (HUAD OR HU) (3)
PHI 311: Philosophy and Literature (HU) (3)
PHI 319: Philosophy, Computing and Artificial Intelligence (QTRS OR CS) (3)
PHI 322: History and Philosophy of Sustainability (3)
PHI 339: Philosophy of Art (HU) (3)
PHI 371: Philosophy of Sport (HU) (3)
PHI 390: Jewish Philosophy (3)
PHI 391: Historical Perspectives on Philosophy and Religion (3)
PHI 394: Game Theory Market & Justice: Intro Phil Politics, Econ (3)
PHI 394: The Olympics and Philosophy (3)
PHI 417: Philosophy of Censorship (L or HU) (3)
PHI 452: Philosophy of Biology and Medicine (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in philosophy; BA in philosophy (morality, politics and law); BA in philosophy (science, nature and mind)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor in philosophy is of benefit in a wide range of careers in fields that value analytical and reasoning skills and strong communication and writing skills. Students often pursue careers in fields such as business, law, politics, medicine and education.

Physics Minor (LAPHYMIN)

Campus: Tempe, Online

Description: The physics minor provides students with the fundamental concepts of physics beyond the introductory level. Through rigorous hands-on experience, students deepen their understanding of foundational concepts and develop their quantitative skills.

Through upper-division electives, students can tailor the minor to enhance their career or graduate school outlook.

Program Requirements:

The minor in physics requires a minimum of 24 credit hours, at least 12 of which must be completed at the upper-division level. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 12 credit hours

PHY 121: University Physics I: Mechanics (SCIT OR SQ) AND PHY 122: University Physics Laboratory I (SCIT OR SQ) or PHY 150: Physics I (SCIT OR SQ) (4)

PHY 131: University Physics II: Electricity and Magnetism (SCIT OR SQ) AND PHY 132: University Physics Laboratory II (SCIT OR SQ) or PHY 151: Physics II (SCIT OR SQ) (4)

PHY 252: Physics III (SCIT OR SQ) or PHY 241: University Physics III AND PHY 202: Programming for Physicists (4)

Electives -- 12 credit hours

Choose one of the following options for the remaining required coursework. (12-15)

Option 1

PHY 333: Electronic Circuits and Measurements or PHY 334: Advanced Laboratory I (L) (3)

PHY 361: Introductory Modern Physics (3)

PHY Upper Division Elective (6)

Option 2

PHY 201 and PHY 302 are required.

PHY 201: Mathematical Methods in Physics I (MATH OR CS) (3)

PHY 302: Mathematical Methods in Physics II (3)

Select nine additional credit hours (three courses) from the below list.

PHY 310: Classical Particles, Fields, and Matter I (3)

PHY 311: Classical Particles, Fields, and Matter II (3)

PHY 314: Quantum Physics I (3)

PHY 315: Quantum Physics II (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BS in applied physics; BS in biophysics; BA and BS in physics; BS in physics (secondary education)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with a minor in physics have additional analytical and problem-solving skills that are of benefit as they pursue careers in technical fields.

Physics Minor (LSPHYMIN)

Campus: Polytechnic

Description: By pairing fundamental physics with practical applications, the minor program in applied physics serves students with a wide range of interests, from engineering applications to research. The program combines physics, computer science and applied mathematics to tackle complex problems in material sciences, engineering, chemistry and related fields.

This program is delivered by dedicated faculty with expertise in modeling of physical systems, materials science, modern numerical techniques and fundamental physics. Given the importance of hands-on experience, the program offers rigorous courses and elements of project-based research.

The growing presence of high-tech companies in the metro Phoenix area, including the East Valley, presents a unique opportunity for students to establish connections with industry.

Program Requirements:

The minor in physics requires 23 credit hours, including a minimum of 12 upper-division credit hours. A minimum of nine upper-division credit hours must be taken in courses offered by the College of Integrative Sciences and Arts. A grade of "C" (2.00 on a 4.00 scale) or better is required in all courses.

Required Courses -- 17 credit hours

PHY 121: University Physics I: Mechanics (SCIT OR SQ) (3)
PHY 122: University Physics Laboratory I (SCIT OR SQ) (1)
PHY 131: University Physics II: Electricity and Magnetism (SCIT OR SQ) (3)
PHY 132: University Physics Laboratory II (SCIT OR SQ) (1)
PHY 314: Quantum Physics I (3)
PHY 321: Vector Mechanics and Vibration (3)
PHY 499: Individualized Instruction (3)

Electives (choose two) -- 6 credit hours

PHY 201: Mathematical Methods in Physics I (MATH OR CS) (3)
PHY 302: Mathematical Methods in Physics II (3)
PHY 331: Principles of Modern Electromagnetism (3)
PHY 361: Introductory Modern Physics (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00 or higher

Incompatible Majors: BA or BS in physics

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor in physics can help students expand analytical skills as they pursue careers in engineering, postsecondary education or mechanical design.

Political Science Minor (ASPOLMIN)

Campus: West

Description: The minor program in political science helps students gain an understanding of theory, practice and policy that underlie local, national and international political processes. Students learn the research skills necessary for the analysis of complex local and global sociopolitical issues.

Students engage in a flexible program of learner-centered coursework in political theory, American political institutions, and international relations and world affairs. The curriculum focuses on international urban, race or ethnic sociopolitical areas, and internships and service-learning or action research opportunities. Under the direction of faculty, students focus on intellectual and concrete policy issues in the greater Phoenix metropolitan area, Arizona, the Arizona-Mexico borderlands, the Americas and the world.

The program is offered by the School of Social and Behavioral Sciences.

Program Requirements:

The minor in political science consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Social and Behavioral Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Required Courses (choose two) -- 6 credit hours

POS 110: American Government and Politics (AMIT OR SB) (3)

POS 150: Comparative Government (GCSI OR SB & G) (3)

POS 160: Global Politics (GCSI OR SB & G) (3)

POS 210: Political Ideologies (CIVI OR SB) (3)

Research Methods (choose one) -- 3 credit hours

SBS 302: Qualitative Methods (SOBE OR SB) (3)

SBS 303: Quantitative Methods (QTRS) (3)

SBS 304: Social Statistics I (QTRS OR CS) (3)

Upper-Division Interdisciplinary Track -- 9 credit hours

Choose one course from each of three upper-division Interdisciplinary Tracks.

Upper-Division Social Justice and Inequality Interdisciplinary Track -- 3 credit hours

ASB 339 / POS 339 / SBS 339 / SOC 339: Grassroots Social Movements (SB) (3)

ETH 380 / WST 380: Race, Gender, and Class (SOBE OR SB & C) (3)

HST 441 / LAS 441: Latin America and the World Economy (L & G & H) (3)

JHR 305: Theory and Practice of Social Justice and Human Rights (CIVI OR SB & G) (3)

POS 342: Political Theory (HU or SB) (3)

POS 446: Democracy (CIVI OR HU) (3)

POS 480 / SBS 480: Global Justice (GCSI OR G) (3)

POS 494: Everyday Forms of Political Resistance (3)

SBS 301: Cultural Diversity ((L or SB) & C) (3)

SOC 331: Environmental Sociology (SUSTR OR SB & G) (3)

SOC 352: Social Change (CIVI OR SB & G & H) (3)

SOC 426: Social Inequalities (CIVI OR SB) (3)

Upper-Division Law, Citizenship, Borders Interdisciplinary Track -- 3 credit hours

ASB 340 / SOC 328: Migration and Culture (GCSI OR SB & G) (3)

ASB 447 / POS 447 / SBS 447: Citizenship, Nationalism and Identity (CIVI OR SB & C & G) (3)

POS 310: American National Government (AMIT OR SB) (3)

POS 360: World Politics (GCSI OR SB & G) (3)

POS 361: American Foreign Policy (3)

POS 446: Democracy (CIVI OR HU) (3)

POS 465: International Organization and Law (GCSI OR SB & G) (3)

POS 480 / SBS 480: Global Justice (GCSI OR G) (3)

Upper-Division Identity and Place Interdisciplinary Track -- 3 credit hours

ETH 430 / LAS 430 / WST 430: Gender on the Borderlands (HUAD OR SB) (3)

ETH 433 / WST 433: Race and Sexualities in Social Justice Movements (3)

ETH 473 / LAS 473 / WST 473: Indigenous and Latina/Chicana Representation (SB & C) (3)

HST 376 / LAS 376: Modern Latin America (SB & G & H) (3)

POS 350: Comparative Politics (GCSI OR SB & G) (3)

POS 357: South Asia Politics (SB & G) (3)
POS 361: American Foreign Policy (3)
POS 437 / SOC 437: Women, Power, and Politics (G) (3)
WST 428: Gender, Madness and Justice (SB) (3)

Credit is only granted for POS 110 or POS 310.
Credit is only granted for POS 150 or POS 350.
Credit is only granted for POS 160 or POS 360.
Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA or BS in political science

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: The program serves as a good precursor to staff, manager or policy analyst positions in local, state and federal government. This minor is recognized as a qualification for many careers in business (for-profit and nonprofit) and industry. Work may include binational, cross-border positions linking U.S. and Mexican businesses, Arizona-Sonora local government, or local community groups on both sides of the border.

Many use the program as a gateway to law school or as a basis for graduate work in professional schools or in applied fields such as:

- community development
- political science
- public administration
- public policy
- social science disciplines
- urban affairs and urban and regional planning

Political Science Minor (LAPOSMIN)

Campus: Tempe, Online

Description: The minor program in political science offers students exposure to the skills and knowledge that will help them participate effectively as citizens in a democratic political system and flourish in the rapidly developing globalization of the world's political institutions, cultures and economies.

The program provides students with an introduction to the tools and skills necessary to link theory with contemporary problems and issues.

Courses in constitutional law or covering the U.S. Supreme Court as part of the minor can benefit those interested in law school.

Program Requirements:

The minor in political science consists of 18 credit hours, of which 12 credit hours must be upper division. A minimum of six upper-division credit hours must be taken in courses offered by The College of Liberal Arts and Sciences. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.

Required Courses (choose two) -- 6 credit hours

POS 110: American Government and Politics (AMIT OR SB) or POS 310: American National Government (AMIT OR SB) (3)
POS 150: Comparative Government (GCSI OR SB & G) or POS 350: Comparative Politics (GCSI OR SB & G) (3)
POS 160: Global Politics (GCSI OR SB & G) or POS 360: World Politics (GCSI OR SB & G) (3)

POS 210: Political Ideologies (CIVI OR SB) (3)

Electives -- 12 credit hours

POS Upper Division Elective (12)

No more than three credit hours of POS 484 Internship and three credit hours of POS 499 Individualized Instruction may be applied to the minor. Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA and BS in political science, BS in politics and the economy, BA in business (global politics)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in political science can benefit graduates as they pursue careers in government, public policy, advocacy or international relations.

Popular Music Minor (HIMSCMIN)

Campus: Downtown Phoenix

Description: Students in the popular music minor program gain a working knowledge of music production and the music industry. Students are invited to use the state-of-the-art popular music facilities and participate in visiting artist and extra-curricular programs, including an annual career conference, industry partner activations, and performances at local venues.

Program Requirements:

The minor requires 18 credit hours (of which at least nine must be upper division) in popular music foundations, production, and specializations.

Required Courses -- 8 credit hours

MSC 115: Music Production Fundamentals (CS) (3)

MSC 451: Popular Music Industry Studies I (2)

MUS 100: Fundamentals of Music Notation (3)

If students test out of MSC 115 and/or MUS 100, then they should replace those credits with MSC 221 Popular Music Lab.

Popular Music Foundation Courses -- 4 credit hours

MSC 211: Songwriting Fundamentals (2)

MSC 212: Intermediate Music Production (2)

MSC 213: Sound Design Fundamentals (2)

MSC 314: Critical Listening (2)

MSC 441: Live Sound and Stage Technology I (1)

Popular Music Specialization Courses -- 6 credit hours

MSC 442: Live Sound and Stage Technology II (1)

MSC 452: Popular Music Industry Studies II (2)

MSC 470: Sound Designer/Producer (3)

MSC 471: Contemporary Composer/Producer Specialization (3)
MSC 472: Songwriter/Producer Specialization (3)
MSC 473: Engineer/Producer Specialization (3)
MSC 474: Music Business Specialization (3)
MSC 475: DIY Creative Careers (3)
MSC 477: Live Experience Design Specialization (3)
MUP 441: Popular Music Ensemble (1)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in Music (Popular Music)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Career opportunities for students completing the popular music minor program include professional opportunities in and around:

- composition
- engineering
- live event production and management
- music business
- music production
- music technology
- musical performance
- scoring
- songwriting
- sound design

They also pursue careers as an independent artists and in areas such as education and advocacy work.

Portuguese Minor (LAPORMIN)

Campus: Tempe

Description: Students pursuing the minor in Portuguese gain an understanding of the language, literature and cultures of Portuguese-speaking countries.

Portuguese is the official language of Portugal, Brazil, Mozambique, Angola, Guinea-Bissau, East Timor, Equatorial Guinea, Macau, Cape Verde, and São Tomé and Príncipe. It is also an official language of both the African Union and the European Union. It's the sixth most spoken language in the world, and the second most spoken Romance language (second to Spanish).

Program Requirements:

The Portuguese minor requires a minimum of 18 credit hours, at least 12 of which must be upper division. Only courses completed with a grade of "C" (2.00 on a 4.00 scale) or higher can be used to fulfill minor requirements.

Portuguese Language -- 6 credit hours
POR 313: Portuguese Conversation and Culture (G) (3)
POR 314: Portuguese Composition and Culture (G) (3)

Electives (choose four) -- 12 credit hours

At least two courses must be completed at the upper-division level.

GCU 323: Geography of Latin America (GCSI OR SB & G) (3)

POR 194: Desert Landscapes of Brazil: Soc&Culture of Sertão (3)

POR 194: Food, Culture, and Society in Latin America (3)

POR 460: Brazilian Society Through Music (HU & G) (3)

POR 472: Transatlantic Encounters: Brazil and Portugal (HU & G) (3)

POR 490: Consumer Culture in Latin America (3)

POR 494: Global Challenges in Cinema:Brazil,Africa,Portugal (3)

POR 494: Why is the Amazon Burning? (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: None

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Global Opportunities:

Global Experience: Students in the minor have the opportunity to attend the following summer study abroad program through the Global Education Office and approved by the School of International Letters and Cultures to give them a global experience studying the language and culture of Brazil.

UA: Arizona Summer in Brazil (<https://studyabroad.asu.edu/index.cfm?FuseAction=Programs.ViewProgramAngular&id=11518>)

- This is an ASU-authorized summer program.
- Students can advance their Portuguese language skills during this summer program to the vibrant coastal city of Fortaleza, in northeastern Brazil.
- In addition to courses taught by local Brazilian faculty, students will live with a host family to experience Brazilian culture firsthand and to further develop their Portuguese skills.
- Common excursions on this program include trips to Jericoacoara and Canoa Quebrada, two beautiful beach towns located in the state of Ceará.
- This program is open to students of any major; based on course offerings, it is ideal for students seeking courses in Portuguese language.
- POR 102 credit is a prerequisite to participate in this program.

Career Opportunities: A minor enables students to enhance marketable skills and knowledge they acquire in their major program and also to develop additional competencies. Because of the growing economies of many of the countries in which Portuguese is spoken, a minor in this language can prove a valuable addition to students' resumes.

More specifically, a minor in Portuguese can help students with communication and cultural competency skills as they pursue career fields such as these:

- diplomacy
- education
- entertainment
- international business
- interpretation and translation
- marketing
- political analysis
- sociology
- science and technology
- tourism and hospitality

DH 131

Project Management Minor (LSPROMAMIN)

Campus: Polytechnic, Tempe, Online

Description: The minor in project management prepares students to manage complex projects and lead project management teams in a variety of professional settings. The project management minor complements many majors at ASU; project management skills enhance and enrich the knowledge students acquire from a variety of majors.

Students learn the skills needed to manage complex projects in fields like engineering, business, health care, information technology, sustainability, computing, public and nonprofit sectors, and many more. Students learn skills in project leadership, project quality management, project risk management, project schedule management, project cost management and project resource management.

Program Requirements:

The minor in project management requires 18 credit hours, including a minimum of 12 upper-division credit hours.

Required Core Courses -- 6 credit hours

PMG 240: Introduction to Project Management (3)

PMG 321: Project Leadership, Strategy and Scope (3)

Electives (choose four) -- 12 credit hours

PMG 322: Project Schedule Management (3)

PMG 323: Project Cost Management (3)

PMG 324: Resources in Project Management (3)

PMG 326: Project Procurement Management (3)

PMG 421: Project Risk Management (3)

PMG 422: Project Quality Management (3)

PMG 484: Internship (3)

Notes: No more than 3 credit hours of internship may be used toward this minor.

PMG 240 is needed as a prerequisite for all 300-level minor courses and PMG 321 is required for all 400-level minor courses.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00 (university minimum)

Incompatible Majors: BA in organizational leadership (project management) and BS in project management

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in project management can help students with leadership skills, communication, problem-solving, assessment, effectiveness and cultural competency skills as they pursue careers in account management, facilities management, project management and senior leadership roles. Employers in many fields seek to hire and promote those who can skillfully manage complex projects and lead project management teams.

Psychology Minor (ASPGSMIN)

Campus: West, Online

Description: The minor program in psychology enables students to study the scientific nature of the behavior and mental processes of individuals and groups.

The study of psychology includes basic and applied courses in the subfields of clinical, developmental, organizational, cross-cultural and social psychology, cognitive systems and behavioral neuroscience. This program emphasizes the development of wide-ranging skills in critical thinking and reasoning, quantitative and qualitative research methods, working collaboratively on teams, and presentation of information in oral and written form.

The psychology minor prepares students for more advanced study in psychology at the graduate level, in either graduate or professional schools.

Program Requirements:

The minor in psychology consists of 22 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Social and Behavioral Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Foundations of Psychological Science -- 10 credit hours

PSY 101: Introduction to Psychology (SOBE OR SB) (3)

PSY 230: Introduction to Statistics (QTRS OR CS) (3)

PSY 290: Research Methods (SCIT OR L or SG) (4)

Upper-Division Cognitive Science Focus Area -- 6 credit hours

PSY 320: Learning and Motivation (3)

PSY 323: Sensation and Perception (3)

PSY 324: Memory and Cognition (3)

PSY 325: Physiological Psychology (3)

PSY 330: Statistical Methods (QTRS OR CS) (3)

PSY 360: Cognitive Science (3)

PSY 369: Biology of Human Sexuality (3)

PSY 434: Cognitive Psychology (L) (3)

PSY 470: Psychopharmacology (3)

Upper-Division Social/Developmental Focus Area -- 3 credit hours

PSY 315: Personality Theory and Research (SOBE OR SB) (3)

PSY 341: Developmental Psychology (SOBE OR SB) (3)

PSY 350: Social Psychology (SOBE OR SB) (3)

PSY 366: Psychological Disorders (SOBE OR SB) (3)

PSY 443: Child and Adolescent Psychological Disorders (SOBE OR L or SB) (3)

Upper-Division Psychology Elective Course -- 3 credit hours

PSY Upper Division Elective (3)

Notes: Experiential coursework (PSY 384, 399, 484, 493, or 499) may be used to fulfill the Upper Division Psychology Elective requirement. PSY 492 does not apply.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA and BS in psychology (including all concentrations)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: A minor in psychology is a strong addition to any major and prepares students for careers in diverse areas such as education, government, business and industry, health care and social services.

Psychology Minor (LAPGSMIN)

Campus: Tempe

Description: In a minor program in psychology, students explore life's most intriguing mysteries. They learn about memory, stress, child development and more from renowned faculty. Through engaging coursework and experiential learning opportunities, students investigate the human experience from a scientific perspective.

Graduates gain a nuanced grasp of psychological principles and methods, enhancing how they approach individual, collective and societal concerns. They're prepared for impactful careers and skilled in navigating our intricate, data-driven world.

Program Requirements:

The minor in psychology consists of completing 18 credit hours of coursework in psychology. Twelve credit hours must be completed at the upper-division level, of which at least six credit hours must be completed in courses offered by The College of Liberal Arts and Sciences Department of Psychology. All courses for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Required Course -- 3 credit hours

PSY 101: Introduction to Psychology (SOBE OR SB) (3)

Minor Electives (choose five) -- 15 credit hours

PSY 290: Research Methods (SCIT OR L or SG) (4)

PSY 302: The Psychology of Positive Leadership (3)

PSY 309: Sleep and Dreaming (3)

PSY 310: Consumer Psychology (3)

PSY 315: Personality Theory and Research (SOBE OR SB) (3)

PSY 320: Learning and Motivation (3)

PSY 323: Sensation and Perception (3)

PSY 324: Memory and Cognition (3)

PSY 325: Physiological Psychology (3)

PSY 330: Statistical Methods (QTRS OR CS) (3)

PSY 335: Positive Psychology (3)

PSY 341: Developmental Psychology (SOBE OR SB) (3)

PSY 350: Social Psychology (SOBE OR SB) (3)

PSY 366: Psychological Disorders (SOBE OR SB) (3)

PSY 370: Interpersonal Relationships (SOBE OR SB) (3)

PSY 390: Experimental Psychology (L) (3)

PSY 394: Dog Behavior (3)

PSY 394: Foundations of Human Sexual Behavior (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA and BS in psychology (including all concentrations)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in psychology supports students who are interested in pursuing careers in human resources, management, marketing and more by developing their interpersonal skills and knowledge of human behavior.

Psychology Minor (LSPGSMIN)

Campus: Polytechnic

Description: Psychology is the scientific study of mind and behavior. The psychology minor emphasizes the development of wide-ranging skills in critical thinking and reasoning, research methods, working collaboratively on teams, and presenting information in oral and written form. The psychology minor adds value to students' major degrees through knowledge of concepts, theories and empirical research in mental processes and behavior.

Program Requirements:

This minor requires 22 credit hours. At least six credit hours must be taken from courses offered by the College of Integrative Sciences and Arts.

Required Courses -- 10 credit hours

PSY 101: Introduction to Psychology (SOBE OR SB) (3)

PSY 230: Introduction to Statistics (QTRS OR CS) (3)

PSY 290: Research Methods (SCIT OR L or SG) (4)

Electives (choose four) -- 12 credit hours

PSY 304: Effective Thinking (L) (3)

PSY 306: Environmental Psychology (SB) (3)

PSY 315: Personality Theory and Research (SOBE OR SB) (3)

PSY 320: Learning and Motivation (3)

PSY 323: Sensation and Perception (3)

PSY 324: Memory and Cognition (3)

PSY 341: Developmental Psychology (SOBE OR SB) (3)

PSY 350: Social Psychology (SOBE OR SB) (3)

PSY 366: Psychological Disorders (SOBE OR SB) (3)

PSY 369: Biology of Human Sexuality (3)

PSY 385: Psychology of Gender (SOBE OR SB) (3)

PSY 425: Biological Bases of Behavior (L) (3)

PSY 430: Industrial Psychology (3)

PSY 444: Adolescent Psychology and Psychopathology (3)

PSY 447: Psychology of Aging (SB) (3)

PSY 453: Organizational Behavior (SOBE OR SB) (3)

PSY 470: Psychopharmacology (3)

PSY 472: Clinical Psychology (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BA or BS in psychology

Other Enrollment Requirements: None

The department does not offer any iCourse or oCourse sections for this minor.

The minor in psychology is open to all ASU undergraduate majors.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: A minor can help students enhance the marketable skills they acquire in their major, diversify their skills with training in another discipline, and improve their future job outlook. Although most careers require more training than a minor alone can provide, a minor in psychology can add value for students who pursue careers in business, education or health care.

Public Service and Public Policy Minor (PPPAFMIN)

Campus: Downtown Phoenix

Description: The minor program in public service and public policy prepares students for work in government at all levels and nonprofit organizations through comprehensive coverage of topics in public policy, public leadership and management, and urban studies.

Students discover the challenges of management, learn how to lead a public organization and understand the process of policy development.

This minor allows students enrolled in other undergraduate programs at ASU to broaden their educational experiences. The program has an applied and professional focus which can enhance many other majors, which can give students a more competitive edge when seeking a public sector job.

Program Requirements:

The minor in public service and public policy requires 18 credit hours.

A minimum of 12 credit hours must be taken in the School of Public Affairs at ASU.

Required Courses -- 12 credit hours

PAF 200: Public Service and Policy (CIVI) (3)

PAF 201: Economics and Public Policy (SOBE OR SB) (3)

PAF 300: Public Management and Administration (3)

PAF 340: Contemporary Policy Challenges (3)

Electives (select two courses) -- 6 credit hours

PAF Upper Division Elective (6)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in public service and public policy (all concentrations)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Students who complete this minor are prepared to pursue a career in a field related to public administration or public policy. This may include opportunities as a policy analyst, entry-level manager or program coordinator in local, state or federal agencies; in nonprofit organizations; and in private organizations that interface with the public sector.

Recreation Management Minor (PPRECMIN)

Campus: Downtown Phoenix

Description: The minor program in recreation management introduces students to community recreation programming and planning for a variety of populations.

The minor allows students enrolled in other undergraduate programs at ASU to broaden their educational experiences. Students from such various disciplines as social work, criminology and criminal justice, public affairs, kinesiology, psychology, sociology, education, nursing and many others might find this minor a beneficial supplement to their existing program.

Program Requirements:

The recreation management minor requires completion of 15 credit hours: six credit hours of required courses and nine credit hours of elective courses.

Required Core Courses -- 6 credit hours

PRM 120: Leisure and the Quality of Life (SOBE OR SB) (3)

PRM 203: Program Planning (3)

Electives (select three courses) -- 9 credit hours

CRD 302: Inclusive Community Development (SOBE OR SB & C) (3)

PRM 304: Recreation and Sport Planning and Facilities (L) (3)

Notes: Offered fall semester only

PRM 335: Sports and Recreation for Youth Development (3)

Notes: Offered spring semester only

PRM 360: Environmental and Cultural Interpretation (3)

PRM 453: Inclusive Community Sport (3)

PRM 475: Entrepreneurial Recreation and Tourism (3)

PRM 494: Special Topics (3)

RTH 364: Foundations in Recreational Therapy (SOBE OR SB) (3)

Standards

1. 15 hours of graded classroom coursework
2. minimum "C" (2.00 on a 4.00 scale) grade required for all courses in the minor
3. should be a junior to take 400-level courses
4. no double counting of courses for a major and the minor

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in parks and recreation management; BS in recreation therapy; BS in parks and recreation management (therapeutic recreation)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. Graduates with a minor in recreation management can find opportunities in diverse settings involving a wide range of organizations, including recreation, sports and youth development.

Recreation Therapy Minor (PPRECTMIN)

Campus: Downtown Phoenix

Description: A minor in recreational therapy exposes students to the field of therapeutic recreation. They develop the knowledge to assess individuals, develop service plans, implement therapeutic interventions, and evaluate and document outcomes of care, supporting the wellness of their communities through therapeutic recreation.

Completion of the minor provides students with a portion of the requirements needed for eligibility to take the national certification exam through the National Council for Therapeutic Recreation Certification: <https://nctrc.org/about-certification/ctrs-the-qualified-provider> (<https://www.nctrc.org/about-certification/ctrs-the-qualified-provider/>).

Program Requirements:

The recreational therapy minor requires completion of 18 credit hours: 6 credit hours of required courses and 12 credit hours of elective courses. Students seeking the national credential in therapeutic recreation should select electives from that list.

Core Courses -- 6 credit hours

RTH 364: Foundations in Recreational Therapy (SOBE OR SB) (3)

RTH 413: Leadership and Professional Development in Recreational Therapy (3)

Electives (choose 4 courses) -- 12 credit hours

Students interested in advancing knowledge in the field of therapeutic recreation and do not intend to seek eligibility for credentialing through the National Council for Therapeutic Recreation, pick 4 courses between elective classes and other elective classes. Students seeking the national credentialing through the National Council for Therapeutic Recreation (NCTRC), select four from Recreation Therapy elective list. (15)

Recreation Therapy Electives (students seeking national credentialing through the National Council for Therapeutic Recreation (NCTRC), select four courses from this list)

RTH 400: Intervention Techniques in Recreational Therapy (3)

Notes: Offered in spring semester only

RTH 406: Program Design and Administration in Recreational Therapy (L) (3)

Notes: Offered in spring semester only

RTH 440: Advocacy in Therapeutic Recreation (GCSI OR G) (3)

RTH 450: Therapeutic Recreation and Community Health (3)

Notes: Offered in spring semester only

RTH 455: Recreational Therapy and Play with Children, Youth and Families (3)

RTH 460: Assessment and Documentation in Recreational Therapy (3)

Notes: Offered in fall semester only

Other Recreation Electives (note that these courses do not meet certification requirements)

DST 101: Introduction to Disability Studies (CIVI OR C) (3)

NLM 310: Volunteer Management (CIVI) (3)

PRM 145: Special Events Management (3)

PRM 201: Introduction to Parks, Recreation and Sport Management (3)

RTH 394: Special Topics (3)

RTH 400: Intervention Techniques in Recreational Therapy (3)

RTH 406: Program Design and Administration in Recreational Therapy (L) (3)

RTH 440: Advocacy in Therapeutic Recreation (GCSI OR G) (3)

RTH 450: Therapeutic Recreation and Community Health (3)

RTH 455: Recreational Therapy and Play with Children, Youth and Families (3)

RTH 460: Assessment and Documentation in Recreational Therapy (3)

RTH 494: Special Topics (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.50

Incompatible Majors: BS in recreation therapy; BS in parks and recreation management (therapeutic recreation)

Other Enrollment Requirements: none

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with a minor in recreational therapy can find opportunities in diverse settings, including recreation, therapy and hospital settings.

Incompatible Majors: BA in religious studies (religion, culture and public life); BA in religious studies (religion, politics and global affairs)

Other Enrollment Requirements: None

The minor in religious studies is open to all ASU undergraduate majors.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Students with a minor in religious studies seek employment in a variety of professional areas, including:

- chaplaincy
- diversity management
- education
- foreign service
- health care
- journalism

- mental health and counseling
- nonprofit organizations
- nongovernmental organizations
- public service

Religious Studies Minor (LARELMIN)

Campus: Tempe, Online

Description: The minor in religious studies engages students in a comparative exploration of religions and cultures. This exploration leads to a deeper understanding of human nature, religious traditions and the roles that religion plays in a pluralistic and globalizing world.

Students may pursue the minor in religious studies with regional, national, hemispheric, global and a variety of thematic emphases.

Program Requirements:

The minor in religious studies consists of 18 credit hours, at least 12 of which must be completed at the upper-division level. At least six upper-division hours must be in courses offered by The College of Liberal Arts and Sciences. All courses must be passed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Course -- 3 credit hours

REL 101: Religion, Culture and Public Life (GCSI OR HU & G) (3)

Electives -- 15 credit hours

REL Elective (3)

REL Upper Division Elective (12)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in religious studies; BA in religious studies (religion, culture and public life); BA in religious studies (religion, politics and global affairs)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor in religious studies is of benefit to those who intend to pursue careers in fields such as education, law or journalism.

Slavic Studies Minor (LASLVMIN)

Campus: Tempe

Description: The Slavic studies minor places an equal focus on Slavic languages, cultures and regional studies. Students can pursue a concentration in either Bosnian, Croatian, Serbian or Polish to gain professional linguistic proficiency.

The program is designed to complement the studies of students whose professional interests intersect with Poland or the countries of southeastern Europe, regardless of their major discipline. Many students are majors in history, cultural anthropology, music, political science or economics.

Program Requirements:

The minor in Slavic studies requires 18 upper-division credit hours. A minimum of six upper-division credit hours must be taken in residence at ASU. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Slavic Language Courses -- 6 credit hours

Language sequence options for earning the required six credit hours are: complete BCS 311 and BCS 312, or BCS 495 taken twice; OR PLC 311 and PLC 312, or PLC 494 Polish for Heritage Speakers taken twice.

Course substitutions are permitted for heritage speakers and other advanced speakers of Slavic languages. Please contact the School of International Letters and Cultures for more information.

BCS 311: Bosnian/Croatian/Serbian Composition and Conversation I (3)

BCS 312: Bosnian/Croatian/Serbian Composition and Conversation II (3)

BCS 495: Serbo-Croatian for Heritage Speakers (3-6)

Notes: This course may be repeated for credit.

PLC 311: Advanced Polish I (3)

PLC 312: Advanced Polish II (3)

PLC 494: Polish for Heritage Speakers (3-6)

Notes: This topic may be repeated for credit.

Required Courses -- 9 credit hours

SLV 304: Digital Humanities for Language Majors (CS) (3)

SLV 440: History of Slavic Languages (SB) (3)

SLV 498: Pro-Seminar or SLV 498: Senior Capstone (3)

Slavic Upper-Division Elective (choose one) -- 3 credit hours

BCS 394: Special Topics (3)

RUS 322: Scandals and Scoundrels: The Nineteenth-Century Russian Novel (L or HU) (3)

RUS 323: Russian Literature and Revolution: The Twentieth Century ((L or HU) & G) (3)

RUS 394: Special Topics (3)

RUS 421: Pushkin (L or HU) (3)

Social Justice and Human Rights Minor (ASJHRMIN)

Campus: West, Online

Description: The minor in social justice and human rights at ASU's New College of Interdisciplinary Arts and Sciences encompasses both the social sciences and the humanities to prepare students to meet the challenges of today's issues of social justice and protection of human rights in local, national, international and global contexts.

Coursework prepares students to serve as advocates for alleviating political, economic and social inequality, and introduces students to principles and practices of everyday humanitarianism, multimedia advocacy, and theories and practices of social justice and human rights.

Program Requirements:

The minor in social justice and human rights consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Core Requirements -- 6 credit hours

JHR 100: Introduction to Social Justice and Human Rights (CIVI OR SB & G) (3)

JHR 305: Theory and Practice of Social Justice and Human Rights (CIVI OR SB & G) (3)

Research Methods (Select one course) -- 3 credit hours

SBS 302: Qualitative Methods (SOBE OR SB) (3)

SBS 303: Quantitative Methods (QTRS) (3)

SBS 304: Social Statistics I (QTRS OR CS) (3)

Interdisciplinary Tracks -- 9 credit hours

Social Justice and Inequality (Select one course) -- 3 credit hours

ASB 339 / POS 339 / SBS 339 / SOC 339: Grassroots Social Movements (SB) (3)

ETH 380 / WST 380: Race, Gender, and Class (SOBE OR SB & C) (3)

HST 441 / LAS 441: Latin America and the World Economy (L & G & H) (3)

602-543-3000

Social Welfare Minor (LASSWMIN)

Campus: Downtown Phoenix, West, Online

Description: The social welfare minor program prepares students for work in human service settings where a fundamental knowledge of human relations is required.

The minor enhances and broadens students' abilities to analyze complex family, individual and societal problems in the context of societal values, cultural humility and other social and economic variables. The program contributes to students' understanding of society and social behavior, encourages critical thinking and helps students develop their communication skills.

Program Requirements:

Students should:

1. be at sophomore standing to take 300- or 400-level courses
2. complete 18 credit hours of graded coursework (internship or independent study not applicable)
3. complete a minimum of 12 credit hours of resident credit at ASU
4. complete SWU 171 as the prerequisite for all upper-division SWU courses
5. earn a grade of "C" (2.00 on a 4.00 scale) or better for all courses in the minor
6. maintain a cumulative GPA of 2.00 (4.00 scale) or higher
7. consider meeting with a social welfare advisor prior to registration
8. take a minimum of 12 credit hours of upper-division coursework from the approved list

Required Courses -- 9 credit hours

SWU 171: Introduction to Social Work (SOBE OR SB) (3)

SWU 291: Social Service Delivery Systems (3)

SWU 332: Social Policy and Advocacy (CIVI) or SWU 432: Social Policy and Services (3)

Governance and Civic Engagement (select one) -- 3 credit hours

SWU 374: Diversity and Oppression in a Social Work Context (CIVI OR C) (3)

SWU 456: Immigrants and Refugees (CIVI OR C) (3)

SWU 457: Southwest Borderland Immigration Issues (CIVI OR C) (3)

SWU 461: Lesbian, Gay, Bisexual, Transgender, and Queer Issues (CIVI OR C) (3)

Elective Courses* (select two) -- 6 credit hours

SWU 303: Micro Human Behavior and the Social Environment (SOBE OR L or SB) (3)

SWU 340: Macro Human Behavior and the Social Environment (SOBE OR SB) (3)

SWU 454: Overview of Addictions (3)

SWU 456: Immigrants and Refugees (CIVI OR C) (3)

SWU 457: Southwest Borderland Immigration Issues (CIVI OR C) (3)

SWU 458: Behavioral Health Services (3)

SWU 460: Legal Issues in Social Work (3)

SWU 461: Lesbian, Gay, Bisexual, Transgender, and Queer Issues (CIVI OR C) (3)

SWU 462: Global Social Welfare (GCSI OR G) (3)

SWU 498: Pro-Seminar (L) (1-7)

*Note: Student may select one additional course from the Governance and Civic Engagement options above.

*Note: SWU 456, SWU 457, and SWU 461 cannot be used to meet both the Governance and Civic Engagement course requirement and an elective requirement.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BSW in social work; BA in public service and public policy (social services delivery); BA in community advocacy and social policy

Other Enrollment Requirements: None

Students should meet with a social welfare advisor prior to registration.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Graduates with a minor in social welfare are prepared for work in a variety of human service settings. This minor complements careers in journalism, communications, public administration, nursing and related fields, and it provides a foundation for students who seek to pursue an MSW degree.

Social and Behavioral Sciences Minor (ASSBSMIN)

Campus: West, Online

Description: The minor program in social and behavioral sciences provides students an interdisciplinary perspective across several fields of the social and behavioral sciences --- including communication, sociocultural anthropology, geography, political science, psychology and sociology --- enabling them to better understand and interact with people and society.

Program Requirements:

The minor in social and behavioral sciences consists of 18 credit hours, of which a minimum of 12 credit hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Social and Behavioral Sciences. A maximum of three credit hours of internship and three credit hours of individualized instruction may be used to fulfill requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Required Courses -- 6 credit hours

SBS 200: Introduction to Social and Behavioral Sciences (SOBE OR SB) (3)

SBS 302: Qualitative Methods (SOBE OR SB) or SBS 303: Quantitative Methods (QTRS) (3)

Electives -- 12 credit hours

Choose electives from at least three of the listed subject areas.

ASB OR COM OR JHR OR POS OR PSY OR SBS OR SOC Elective (3)

ASB OR COM OR JHR OR POS OR PSY OR SBS OR SOC Upper Division Elective (9)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA and BS in social and behavioral sciences

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors>) for program descriptions and to request more information.

Career Opportunities: A minor in social and behavioral sciences is appropriate for any discipline that requires a solid background in social sciences. Students with this minor are prepared to work in community development, counseling, criminal justice, professional schools (e.g., law, public administration, social work), public policy, social science disciplines, urban studies and planning.

Sociocultural Anthropology Minor (ASASBMIN)

Campus: West

Description: The minor in sociocultural anthropology, offered by the School of Social and Behavioral Sciences, is designed to provide students with a substantive understanding of the theoretical assumptions and methodological techniques underlying the field of sociocultural anthropology.

Courses provide students with knowledge about and theoretical approaches to cross-cultural studies and transnational research, emphasizing culture and political economy in historical context.

Program Requirements:

The minor in sociocultural anthropology consists of 18 credit hours of coursework, of which a minimum of six hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Social and Behavioral Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Up to six hours of lower-division ASB credit, three hours of ASB 499 Individualized Instruction, and three hours of ASB 484 Internship may be applied toward the minor. Up to three credit hours of any study abroad course, in any subject, may apply to this minor.

Required Courses -- 6 credit hours

ASB 102: Introduction to Cultural Anthropology (GCSI OR SB & G) or ASB 311: Principles of Social Anthropology (GCSI OR SB & G & H) (3)

SBS 302: Qualitative Methods (SOBE OR SB) (3)

Electives (minimum 6 upper-division credit hours) -- 12 credit hours

ASB 211: Women in Other Cultures ((HU or SB) & G) (3)

ASB 339 / POS 339 / SBS 339 / SOC 339: Grassroots Social Movements (SB) (3)

ASB 340 / SOC 328: Migration and Culture (GCSI OR SB & G) (3)

ASB 346: Marriage and Family Diversity (SOBE OR SB & C) (3)

ASB 353 / SOC 353: Death and Dying in Cross-Cultural Perspective (GCSI OR (HU or SB) & G) (3)

ASB 374 / POS 374 / SBS 374 / SOC 374: Cultures and Politics of the Internet (SB) (3)

ASB 394: Special Topics (3)

ASB 447 / POS 447 / SBS 447: Citizenship, Nationalism and Identity (CIVI OR SB & C & G) (3)

ASB 484: Internship (3)

ASB 494: Special Topics (3)

ASB 499: Individualized Instruction (3)

JHR 305: Theory and Practice of Social Justice and Human Rights (CIVI OR SB & G) (3)

SBS 301: Cultural Diversity ((L or SB) & C) (3)

SBS 480 / POS 480: Global Justice (GCSI OR G) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: None

Other Enrollment Requirements: None

The minor in sociocultural anthropology is open to all ASU undergraduate majors.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Career opportunities for graduates with a minor in sociocultural anthropology include:

- consultant
- cultural resource manager
- grant writer
- immigration officer
- nongovernmental organization staff member
- refugee counselor
- researcher
- United Nations staff member

Sociology Minor (ASSOCMIN)

Campus: West

Description: The minor program in sociology, offered by the School of Social and Behavioral Sciences, provides students with an understanding of the theory, practice and policy that underlie issues of social change, inequality and diversity. These issues are approached from multiple perspectives, including race or ethnicity, gender, economic position, age, geographic location and position in the global political economy.

The student minoring in sociology learns how sociology enhances one's understanding of social realities and institutions at local, national and international levels and how it contributes to the other social sciences and to the humanities.

Students gain a basic understanding of the assumptions underlying the discipline of sociology and develop the research skills necessary for analysis of complex social issues. These objectives are met by offering a flexible program and by providing the student with individual and group experiences working with faculty members on concrete intellectual and policy issues.

Program Requirements:

The minor in sociology consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Social and Behavioral Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better. A maximum of three credit hours of SOC 484 or SOC 499 may be used to fulfill the requirements of this minor.

Foundation Requirement -- 3 credit hours

SOC 101: Introductory Sociology (SOBE OR SB) (3)

Select one course -- 3 credit hours

SBS 302: Qualitative Methods (SOBE OR SB) (3)

SBS 303: Quantitative Methods (QTRS) (3)

SBS 304: Social Statistics I (QTRS OR CS) (3)

SOC 426: Social Inequalities (CIVI OR SB) (3)

SOC 483: Sociological Theories (SOBE OR L or SB) (3)

Electives -- 12 credit hours

SOC Upper Division Elective (9)

SOC Elective (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BS or BA in sociology

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Graduates are prepared for employment in corporate or governmental organizations and for continuation of their studies in graduate programs in sociology or social science, or in professional schools.

The sociological perspective is applicable to a wide variety of jobs in business, management, government, social services, the criminal justice system and the health professions. Coursework in sociology is valuable preparation for careers in journalism, law, the nonprofit sector, public administration and public relations. These are all fields that involve investigative skills and an ability to work with diverse groups.

Graduates with an advanced degree in sociology may become community activists, community developers, criminologists, demographers, gerontologists, organizational advocates, research analysts, statisticians, survey researchers or urban planners.

Sociology Minor (LASOCMIN)

Campus: Tempe, Online

Description: The minor program in sociology provides an exceptional balance to studies in psychology, communication, education, business and nursing through basic coursework that explores social institutions and issues related to social change and social behavior.

Program Requirements:

The minor in sociology requires 18 credit hours, of which 12 credit hours must be upper division. A minimum of six upper-division credit hours must be taken in courses offered by The College of Liberal Arts and Sciences. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 6 credit hours

SOC 101: Introductory Sociology (SOBE OR SB) (3)

SOC 2** Elective (3)

Upper Division SOC Electives -- 12 credit hours

SOC Upper Division Elective (12)

A maximum of 3 credits of SOC 399, SOC 484, SOC 492, SOC 493, and SOC 499 may apply.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA and BS in sociology

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Spanish Minor (ASSPAMIN)

Campus: West

Description: The minor program in Spanish adds to students' language fluency and also offers deep insight into the cultures of Spanish-speaking communities.

Learning a new language pushes the brain to get familiar with new grammar and vocabulary rules. It allows students to train their memory to remember new words, make connections between them, and use them in contextual situations.

Program Requirements:

The minor in Spanish consists of 18 credit hours of coursework, of which a minimum of 15 hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Humanities, Arts and Cultural Studies. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Core Requirements -- 12 credit hours

SPA 202: Intermediate Spanish (G) (4)

Three of the four credit hours from SPA 202 are counted toward the minor. The additional credit hour is applied toward university elective credit hours.

SPA 313 AND SPA 314: Spanish Conversation and Composition (G) or SPA 315: Advanced Spanish I for Bilinguals (C) AND SPA 316: Advanced Spanish II for Bilinguals (L & C) (6)

SPA 325: Introduction to Hispanic Literature (HUAD OR HU) (3)

Upper-Division Electives -- 6 credit hours

Students should consult with an academic advisor to select six credit hours from the Spanish elective list or other appropriate courses from the LAS or SPA subjects, with the understanding that their coursework will be carried out in Spanish.

LAS 340: Latin American Women Writers (HU & G) (3)

LAS 350: The Construction of a Nation: Chile in the 20th/21st Century (3)

LAS 351: Cityscapes: Urban Mexican Literature and Culture (3)

LAS 355: Contemporary Mexican Cinema: Changing Cartographies (3)

LAS 394 / SPA 394: Global Central America: Markets, Migrations, Media (3)

LAS 394 / SPA 394: Special Topics (3)

LAS 430: Gender on the Borderlands (HUAD OR SB) (3)

LAS 450: Latina/os, Schooling and Social Inequality (C) (3)

LAS 471: Treaties and Cultural Production in Spain and the Americas (3)

LAS 473: Indigenous and Latina/Chicana Representation (SB & C) (3)

LAS 480: Current Trends in Theatre and New Media in Latin America and Spain (HU) (3)

LAS 481 / SPA 481: Dictatorships and Dirty Wars: Latin American Cinema from Resistance to Reconciliation (HU & G) (3)

LAS 494 / SPA 494: Special Topics (3)

SPA 412: Advanced Conversation and Composition (G) (3)

SPA 413: Spanish Grammar in Context (G) (3)

SPA 449: Latin American Cinema: The Dead and the Disappeared (G & H) (3)

SPA 456: 20th-Century Spanish American Fiction (3)

SPA 471: Civilization of the Indohispanomexicano Southwest (HUAD OR C) (3)

SPA 474: Revolutionary Mexico and Postmodern Revisions (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in Spanish

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: The Spanish program offers excellent preparation for graduate school.

A minor in Spanish also is excellent preparation for employment as a teacher in the elementary or secondary school system, especially in those districts where bilingual programs are integral to the curricula.

Outside the education system, graduates with a minor in Spanish find employment as translators and interpreters in:

- diplomatic corps
- federal and state courts
- law enforcement agencies
- law firms
- social agencies

The business world also provides employment for those fluent in Spanish. This is especially true in the American Southwest, with its proximity to Mexico and through outlets opened by multinational trade agreements.

Spanish Minor (LASPAMIN)

Campus: Tempe, Online

Description: The minor in Spanish provides students an opportunity to gain proficiency in reading, speaking and writing the Spanish language while providing a better understanding of the diverse cultures and regions of Spanish-speaking communities.

Program Requirements:

The minor in Spanish requires a total of 21 credit hours, of which 18 credit hours must be upper division. A minimum of six upper-division credit hours must be taken from courses offered by The College of Liberal Arts and Sciences. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses.

Required Courses -- 12 credit hours

Of the 12 credit hours of required courses for the Spanish minor, students select the appropriate language track: Spanish Second Language or Spanish Heritage/Bilingual Language track.

SPA 202: Intermediate Spanish (G) or SPA 204: Intermediate Spanish II for Bilinguals (C & G) or SPA 210: Intensive Spanish II (G) (4)

Notes: Three credit hours from SPA 202, SPA 204, or SPA 210 are counted toward the minor. Additional credit hours earned are applied to the 120 hours minimum for graduation.

SPA 313: Spanish Conversation and Composition (G) or SPA 315: Advanced Spanish I for Bilinguals (C) (3)

SPA 314: Spanish Conversation and Composition (G) or SPA 316: Advanced Spanish II for Bilinguals (L & C) (3)

SPA 412: Advanced Conversation and Composition (G) or SPA 416: Advanced Spanish Conversation and Composition for Spanish Heritage Learners (L) (3)

Course substitutions are allowed for heritage and advanced speakers of the language.

Minor Tracks -- 9 credit hours

Students complete nine credit hours from one option track below that is beneficial to their personal or academic goals. Option tracks include Spanish Language Studies, Spanish Literary and Cultural Studies, or Spanish Linguistics. (9)

Option 1: Spanish Language Studies Track

Required Spanish Civilization and Culture Course (choose one):

SPA 471: Civilization of the Indohispanomexicano Southwest (HUAD OR C) (3)

SPA 472: Latin American Society: Five Case Studies (HU & H & G) (3)

SPA 473: Old and New Spaniards: Culture and Civilization of Spain (HUAD OR (HU or SB) & G) (3)

SPA 474: Revolutionary Mexico and Postmodern Revisions (3)
SPA Upper-Division Restricted Elective (choose one):
SPA 325: Introduction to Hispanic Literature (HUAD OR HU) (3)
SPA 400: Fundamentals of Spanish Linguistics (SOBE OR SB & G) (3)
SPA 413: Spanish Grammar in Context (G) (3)
SPA 471: Civilization of the Indohispanomexicano Southwest (HUAD OR C) (3)
SPA 472: Latin American Society: Five Case Studies (HU & H & G) (3)
SPA 473: Old and New Spaniards: Culture and Civilization of Spain (HUAD OR (HU or SB) & G) (3)
SPA 474: Revolutionary Mexico and Postmodern Revisions (3)
SPA Upper-Division Elective or SPA Upper-Division Study Abroad Course (choose one):
SPA 3** Elective (3)
SPA 484: Internship (3)
SPA 4** Elective (3)
Upper Division Spanish Study Abroad Course (3)

Option 2: Spanish Literary and Cultural Studies Track

SPA 325 is required for this track.

SPA 325: Introduction to Hispanic Literature (HUAD OR HU) (3)

Choose one course from the following:

SPA 425: Understanding Spain: Literature and Culture Before 1700 (HU) (3)

SPA 426: Literature and Society in Modern Spain (HU) (3)

SPA 427: Colonial and Postcolonial Latin American Literature (HUAD OR L or HU) (3)

SPA 428: Foundational Texts of Latin American Literature Since Modernismo ((L or HU) & G) (3)

SPA 429: Writing Mexico: Major Texts ((L or HU) & G) (3)

SPA 464: Jaitón Works in Chicano/a Literature ((HU or SB) & C) (3)

SPA 471: Civilization of the Indohispanomexicano Southwest (HUAD OR C) (3)

SPA 472: Latin American Society: Five Case Studies (HU & H & G) (3)

SPA 473: Old and New Spaniards: Culture and Civilization of Spain (HUAD OR (HU or SB) & G) (3)

SPA 474: Revolutionary Mexico and Postmodern Revisions (3)

Choose one course from the following:

SPA 319: Business Correspondence and Communication (G) (3)

SPA 3** Elective (3)

SPA 4** Elective (3)

Option 3: Spanish Linguistics

SPA 400 is required for this track.

SPA 400: Fundamentals of Spanish Linguistics (SOBE OR SB & G) (3)

Choose two courses from the following:

SPA 413: Spanish Grammar in Context (G) (3)

SPA 417: The Sounds of Spanish (SOBE OR CS or SB) (3)

SPA 418: Architecture of Spanish (3)

SPA 419: Spanish Around the World (CS & C) (3)

SPA 420: Applied Spanish Linguistics (L) (3)

SPA 421: Spanish in the Southwest (C) (3)

See information about Language Placement Testing or consult with an academic advisor in the School of International Letters and Cultures regarding placement into Spanish language classes. Students testing into higher Spanish language courses may need overrides to enroll. Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BA in Spanish; BAE in secondary education (Spanish)

Other Enrollment Requirements: None

Students who wish to add the minor in Spanish to the degree they are currently pursuing may do so by contacting the School of International Letters and Cultures advising office.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Global Opportunities:

Global Experience: Opportunities to participate in study abroad programs (<https://goglobal.asu.edu/>) can serve to enhance a student's minor experience and education.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in Spanish studies helps students with communication and cultural competency skills as they pursue careers in political analysis, education, tourism and hospitality, the military, sociology, marketing or various other fields.

Spanish Minor (LSSPAMIN)

Campus: Downtown Phoenix

Description: This 18-credit-hour minor helps students hone their Spanish communication skills and gain the cultural knowledge that can help them serve the needs of the growing U.S. Latino community.

The combination of professionally focused courses and practical experience in this program enhances students' professional preparation for employment in positions that require advanced proficiency in Spanish and an in-depth understanding of U.S. Latino culture.

This program is only offered on ASU's Downtown Phoenix campus.

Program Requirements:

The Spanish minor requires a total of 18 credit hours. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses. Pass/Fail courses cannot be used.

Required Courses -- 6 credit hours

SPA 404: Spanish in U. S. Professional Communities ((L or HU) & C) (3)

SPA 405: Latino Cultural Perspectives for the Professions (HUAD OR (L or HU) & C & G) (3)

Electives (choose one Focus Area below) -- 12 credit hours

Upper Division Focus Area (12)

Students will select twelve upper-division credit hours from one of the three Focus Areas: Spanish for the Professions, Professional Spanish and Latinx Cultures for Social Care and Public Work, or Professional Spanish and Latinx Cultures for Heritage Speakers.

Spanish for the Professions

Required:

SPA 317: Spanish for the Professions (G) (3)

SPA 402: Written Communication for the Professions (C) or SPA 484: Internship (3)

Notes: Before enrolling in SPA 484, students should complete a minimum of 12 credit hours in the minor program and seek instructor approval by emailing CISA@asu.edu.

Choose two more courses:

COM 362: Urban Communication: Reinventing the Latinx City (3)

COM 363: Latinxs and the Media (SOBE OR C) (3)

SPA 318: Advanced Spanish for Health Care Professionals (3)

SPA 401: Spanish Oral Communication for the Professions (3)

SPA 402: Written Communication for the Professions (C) (3)

SPA 403: Spanish Grammar and Stylistics for the Professions (3)

SPA 406: Introduction to Spanish/English Medical Interpretation (3)

SPA 484: Internship (3)

Notes: Before enrolling in SPA 484, students should complete a minimum of 12 credit hours in the minor and seek instructor approval by emailing CISA@asu.edu.

SPA 494: Introduction to Spanish Translation for the Profes (3)

Professional Spanish and Latinx Cultures for Social Care and Public Work

Required:

SPA 401: Spanish Oral Communication for the Professions (3)

SPA 494: Spanish for Social Care: Latinx Ameri Pop Cultures (3)
Choose two more courses:
COM 362: Urban Communication: Reinventing the Latinx City (3)
COM 363: Latinxs and the Media (SOBE OR C) (3)
SPA 318: Advanced Spanish for Health Care Professionals (3)
SPA 402: Written Communication for the Professions (C) (3)
SPA 403: Spanish Grammar and Stylistics for the Professions (3)
SPA 406: Introduction to Spanish/English Medical Interpretation (3)
SPA 484: Internship (3)
SPA 494: Community Interpretation (3)
SPA 494: Introduction to Spanish Translation for the Profes (3)
SPA 494: Spanish for Mental Health Practiti and Ally fields (3)

Professional Spanish and Latinx Cultures for Heritage Speakers

Required:

SPA 401: Spanish Oral Communication for the Professions (3)
SPA 402: Written Communication for the Professions (C) (3)

Choose two more courses:

COM 362: Urban Communication: Reinventing the Latinx City (3)
COM 363: Latinxs and the Media (SOBE OR C) (3)
SPA 318: Advanced Spanish for Health Care Professionals (3)
SPA 403: Spanish Grammar and Stylistics for the Professions (3)
SPA 406: Introduction to Spanish/English Medical Interpretation (3)
SPA 484: Internship (3)
SPA 494: Community Interpretation (3)
SPA 494: Introduction to Spanish Translation for the Profes (3)
SPA 494: Spanish for Mental Health Practiti and Ally fields (3)
SPA 494: Spanish for Social Care: Latinx Ameri Pop Cultures (3)

For additional upper-division electives, students should consult their academic advisor.
Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BA in Spanish

Other Enrollment Requirements: Completion of SPA 314 Spanish Conversation and Composition, or SPA 316 Advanced Spanish II for Bilinguals, or permission of instructor following the successful completion of the Spanish for the Professions Placement Exam given by the College of Integrative Sciences and Arts. Students should contact the college to schedule.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Graduates who have combined the minor in Spanish with their major program of study may be more marketable to employers.

Graduates can serve in professional settings such as health and legal services, journalism, business, social work and criminology, among others fields

Students who complete this undergraduate minor have many options for career opportunities in a variety of fields (<https://cisa.asu.edu/spanish-and-spanish-professions>), including:

- business
- community interpretation
- education
- engineering and urban planning
- government
- health care services
- legal and justice systems
- social work
- tourism

Special Events Management Minor (HSEVNMIN)

Campus: Downtown Phoenix

Description: The minor program in special events management is designed to offer students a solid understanding of planning and executing community events.

In addition to the two-tiered special events course, which provides basic and advanced instruction as well as experiential learning opportunities through event production, students are able to select electives to meet their interests.

This minor allows students enrolled in other undergraduate programs at ASU to broaden their educational experiences. Students from such various disciplines as business, communication, journalism, music, fashion and many others find this program a beneficial supplement to their existing program.

Program Requirements:

The minor requires 15 credit hours: six credit hours of required courses, and nine credit hours of elective courses.

Required Core Courses -- 6 credit hours

PRM 145: Special Events Management (3)

PRM 487: Advanced Special Events Management (3)

Notes: Offered spring semester only

Electives (choose three) -- 9 credit hours

CRD 350: Tourism, Recreation and Sports Marketing (3)

PRM 307: Arizona Cardinals Rotational Program (3)

PRM 310: Volunteer Management (CIVI) (3)

PRM 483: Sports Tourism (3)

PRM 484: Internship (3)

PRM 485: Sports Events (3)

TDM 345: Meeting and Convention Planning (3)

TDM 386: Convention Sales and Management (3)

Standards

1. 15 credit hours of graded coursework (no independent study)
2. minimum grade of "C" (2.00 on a 4.00 scale) required for all courses in the minor
3. should be a junior to take 400-level courses
4. no double counting of courses for a major and the minor

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in parks and recreation management; BS in tourism development and management (including all concentrations), BS in community sports management (including all concentrations)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with a minor in event management will have a competitive edge as they enter the workforce. They will be prepared for employment in numerous positions such as meeting coordinator, sales coordinator, event planner, conference coordinator and festival coordinator.

Speech and Hearing Science Minor (LASHSMIN)

Campus: Tempe

Description: The minor in speech and hearing science is an academic program with emphasis on normal aspects of speech, language and hearing. The focus is on how motor, cognitive and sensory systems interact with and influence hearing, speech and language in children and adults.

A few examples of courses that students can expect to take in this program are:

- aural rehabilitation
- anatomical and physiological bases of speech
- clinical methods and treatments of communication disorders
- introduction to phonetics

Program Requirements:

The minor consists of 24 total credit hours. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course. Students are strongly encouraged to meet with a Speech and Hearing Science academic advisor.

Required Courses -- 15 credit hours

- SHS 205: Exploring Communication Disorders in Children and Adults (3)
- SHS 250: Introduction to Phonetics (3)
- SHS 310: Anatomical and Physiological Bases of Speech (3)
- SHS 311: Hearing Science (3)
- SHS 367: Language Science (SOBE OR SB) or SHS 375: Speech Science (3)

Upper-Division Electives -- 9 credit hours

- SHS 401: Principles of Audiology (3)
- SHS 402: Clinical Methods and Treatment of Communication Disorders (3)
- SHS 465: Speech and Language Acquisition (SOBE OR SB) (3)
- SHS 470: Developmental Speech and Language Disorders (3)
- SHS 485: Acquired Speech and Language Disorders (3)
- SHS 496: Aural Rehabilitation (3)

Students interested in pursuing the Speech-Language Pathology Assistant certificate should take SHS 402, 465 and 470 as their upper-division electives.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in speech and hearing science

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: A minor in speech and hearing science can provide a broad background for related careers such as medicine, education and neuroscience.

Graduates with this minor as a complement to their major are prepared to apply to most graduate programs in speech-language pathology,

Statistics Minor (ASSTAMIN)

Campus: West, Online

Description: Data is the lifeblood of decision-making, and the discipline of statistics studies how to gain insights from data. The minor program in statistics is intended for students in STEM majors who wish to significantly increase their grasp of statistics and probability at the upper-division level.

The core courses provide foundational skills in probability, the analysis of distributions and the most common methods of inference. Later, more advanced coursework allows for specialization in nonparametric regression, statistical computing, multivariate analysis or other specialized topics.

The completion of this minor in statistics indicates to employers and graduate school admission committees that students have had significant training in the proper handling, analysis and interpretation of data.

Program Requirements:

The minor in statistics consists of 15 credit hours of coursework, of which a minimum of nine hours must be upper division. A minimum of six upper-division credit hours must be completed through courses offered by the School of Mathematical and Natural Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Required Courses -- 9 credit hours

STP 281: Statistical Analysis for Researchers or STP 420: Introductory Applied Statistics (QTRS OR CS) (3)

STP 310: Design and Analysis of Experiments (3)

STP 311: Regression and Time Series Analyses (3)

Upper Division Electives -- 6 credit hours

MAT 422: Mathematical Methods in Data Science (3)

STP 315: Statistical Computing (3)

STP 421: Probability (3)

STP 450: Nonparametric Statistics (3)

STP 451: Quality Improvement (3)

STP 452: Multivariate Statistics (3)

STP 460: Categorical Data Analysis (3)

STP 494: Special Topics (1-4)

STP 499: Individualized Instruction (3)

STP 494 is repeatable for different topics. STP 499 may be taken only once, up to three credit hours.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BS in statistics

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors>) for program descriptions and to request more information.

Career Opportunities: A minor in statistics is an excellent addition for students who are interested in data and data analytics. Graduates work in a

variety of fields, including government, business, health care and technology.

Statistics Minor (LASTAMIN)

Campus: Tempe

Description: The minor in statistics is beneficial for students majoring in a variety of disciplines, such as the sciences, business, economics, engineering or any field where there is a need for quantification in the analysis of information.

Program Requirements:

The minor in statistics requires a minimum of 18 credit hours, of which at least 12 hours must be completed at the upper-division level. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

STP 421 and STP 427 must be taken through The College of Liberal Arts and Sciences.

Required Courses -- 18 credit hours

MAT 271: Calculus with Analytic Geometry II (MATH OR MA) or MAT 266: Calculus for Engineers II (MATH OR MA) (3-4)

MAT 272: Calculus with Analytic Geometry III (MATH OR MA) or MAT 267: Calculus for Engineers III (MATH OR MA) (3-4)

STP 420: Introductory Applied Statistics (QTRS OR CS) (3)

STP 421: Probability (3)

STP 427: Mathematical Statistics (3)

STP 429: Applied Regression (QTRS OR CS) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BS in actuarial science; BS in applied mathematics; BS in computational mathematical science and statistics; BS in data science; BA and BS in mathematics (including all concentrations); BAE in secondary education (mathematics)

Other Enrollment Requirements: None

Students should confer with an academic advisor in the School of Mathematical and Statistical Sciences before declaring the minor.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Statistical analysis and data mining have been identified as two of the most desirable skills in today's job market. Based on factors like pay, growth and job satisfaction, statistics has been named in separate job reports as one of the best careers. Students who add a statistics minor strengthen their resume and gain skills that are in high demand.

Studio Art Minor (HISTARTMIN)

Campus: Tempe, Online

Description: The minor program in studio art enables students to pursue their passion for art while also strengthening academic preparation and developing skills that can assist them in their job search and career. Coursework delves into a wide range of techniques and concepts, including

printmaking, painting, drawing, photography and sculpture, among others. The flexible curriculum allows students to create a course of study based on their individual interests, concentrating on a select studio area or exploring several. Minors within the arts and humanities can offer different perspectives that are useful before and after graduation.

Program Requirements:

The minor in studio art requires 18 credit hours (nine upper division). All courses must be completed with a minimum grade of "C" (2.00).

Studio Core -- 9 credit hours

ARA 195: Art in My World (HUAD OR HU) (3)

ARA OR ART Elective (3)

ART 107: Photography as Experience or ART 108: Digital Literacy for the Arts (QTRS OR CS) or ART 109: Making as Seeing and Thinking or ART 110: Drawing as Seeing and Thinking (HUAD OR HU) (3)

Upper-Division Studio Courses -- 9 credit hours

ARA OR ART Upper Division Elective (9)

Notes: When selecting upper division (3XX/4XX) ART studio courses, check the prerequisites. In some cases, instructors will approve an override.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: All BFA in art majors

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Global Opportunities:

Global Experience: Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to explore their creative side through an intercultural lens, deepen their understanding of the world and gain valuable career-building experiences. Study abroad can prove to be a vital accompaniment to any art program, allowing for broad historical and archaeological explorations. Students develop insight into the cultures and minds of some of the world's most notable artists when they experience the places that gave rise to specific artistic styles.

With more than 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Study abroad encourages students to develop and broaden their intercultural sensitivity, communication skills and leadership ability, and challenges them to think differently. Whether in a foreign country, in the U.S. or online, students learn to adapt and persevere, and they are provided with a chance to look inside themselves in a way they haven't done before, growing their personal and professional self-confidence along the way.

Career Opportunities: Graduates of the studio art minor are positioned to expand into any career path and develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor in studio art can help students as they pursue careers in arts-related disciplines and industries.

Sustainability Minor (SUSUSMIN)

Campus: Downtown Phoenix, Polytechnic, Tempe, West, Online

Description: Students in the sustainability minor learn about the concept of sustainability and how it may be used to develop solutions to pressing

issues affecting society, organizations, the environment and the world.

The program introduces sustainability principles and contextualizes how sustainability can be applied to all academic disciplines and professional fields. Students explore the challenges of sustainability within human societies, economies, the environment, cultures and technology, all in local, national and international contexts.

The minor is intended to draw from and inform almost any major offered by the university.

Program Requirements:

The sustainability minor requires 18 credit hours of study, at least nine of which must be upper division. The program includes six credit hours of required core courses, six credit hours of required theme courses and six credit hours of upper-division sustainability-related electives that relate to the student's major.

All courses must be completed with a grade of "C" (2.00) or higher.

Required Core Courses -- 6 credit hours

SOS 110: Sustainable World (SUST OR SB) (3)

SOS 111: Sustainable Cities (SUST OR (HU or SB) & G) (3)

Required Theme Courses -- 6 credit hours

Theme Course: Complete a course from one of the four theme areas below. (3)

Upper Division Theme Course: Complete a second course from a second (different) theme area below. (3)

Coupled Human-Environment Systems

ASB 222: Buried Cities and Lost Tribes (HUAD OR (HU or SB) & G & H) (3)

CHM 107: Chemistry and Society (SCIT OR SQ) (3)

CRD 301: Sustainable Communities (3)

Upper-Division Sustainability-Related Electives -- 6 credit hours

Upper Division courses that are sustainability-related and ideally make a connection between the student's major and the minor. (6)

Students should consult with their major advisor for upper-division sustainability-related elective course selections and approvals. Possible courses for these electives can be explored at the School of Sustainability website, but still need to be approved by the student's major academic advisor.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Other Enrollment Requirements: Students interested in adding a minor in sustainability should work with their major academic advisor. A student's major advisor will approve the two upper-division electives required for the minor in sustainability.

Incompatible Majors: BA in business (sustainability); BA in interdisciplinary studies with a concentration in sustainability; BS in public service and public policy (sustainability); BA in sustainability; BS in sustainability; BS in sustainable food systems

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities available to them, students of all majors, including programs in the College of Global Futures, are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Students can find programs specific to their interests on the College of Global Futures Study Abroad webpage (<https://collegeofglobalfutures.asu.edu/student-life/study-abroad/>) and additional opportunities and information on the ASU Global Education Office website (<https://goglobal.asu.edu/>). These sites also include additional information about applying for funding to support global travel.

Career Opportunities: A minor in sustainability enhances a student's career prospects across various fields including business, technology, science, education, government or the nonprofit sector. The transdisciplinary nature of this program equips students with valuable knowledge and skills that complement their bachelor's degree, setting them apart in a competitive job market.

This minor allows students to integrate sustainability principles into their chosen career path, addressing critical global issues related to economics, environment, policy, social dynamics, urban development and community well-being. Whether working on sustainable business strategies, environmentally conscious technology solutions or policy initiatives, graduates are well prepared to contribute positively to their organizations and society as a whole. By embracing sustainability, students not only enhance their employability but also become agents of change, championing a more sustainable and equitable future.

Sustainable Food Systems Minor (GFSUSFSMIN)

Campus: Polytechnic, Tempe, Online

Description: Food and sustainability are becoming increasingly relevant issues to employers in fields across the public and private sectors. Food systems can be complex and particularly vulnerable to multiple threats. This minor in sustainable food systems allows students to gain a general understanding of these complex systems and lays the groundwork for them to create positive change.

In two required courses, students learn the fundamentals of sustainable food systems and what shapes a sustainable plate. Students also have the opportunity to take food systems electives from diverse academic units that are also addressing challenges to food system sustainability. It encourages students to cover a breadth of topics and perspectives related to food system issues such as sustainable agriculture, food justice and sovereignty, agriculture policy and governance, agribusiness, food systems leadership and food culture.

Students completing the minor will have a strong orientation toward problem-solving and systems thinking and will demonstrate proficiency in critical, analytical and creative thinking by developing, communicating and applying practical solutions to food sustainability challenges. Students also will be able to assess and analyze the role of culture and society in shaping food systems.

Program Requirements:

Students must complete 18 credit hours (12 of which must be upper division) of the specified courses with a grade of "C" (2.00) or better in each course. At least 12 credit hours must be taken at ASU.

Required Courses -- 6 credit hours

SFS 215: Fundamentals of Sustainable Food Systems (SUST OR L) (3)

SFS 216: The Sustainable Plate (SUST) (3)

Tier 1: Culture and Ethics (Choose two) -- 6 credit hours

ASB 300: Food and Culture (SOBE OR (L or SB) & C) (3)

BIO 324: Environmental Ethics (SUST OR HU) (3)

GPH 314: Global Change (SUST OR HU & G) (3)

HSC 355: Eating for Lifelong Health (SOBE OR SB) (3)

ITA 350: Food and Culture: The Mediterranean Lifestyle in Italy (3)

NTR 348: Cultural Aspects of Food (GCSI OR SB & C & G) (3)

NTR 353: The Western Diet (3)

NTR 448: Community Nutrition (L) (3)

PLB 302: Plants and Civilization (3)

PUP 498: Urban Food Systems (3)

SOS 327: Sustainable Food and Farms (3)

SOS 370 / ASB 370: Ethics of Eating (SUST OR L or SB) (3)

SOS 498: Indigenizing Food Systems (L) (3)

Tier 2: Science and Society (Choose two) -- 6 credit hours

ABS 434 / BIO 418: Soil Ecology (3)

AGB 302: International Management and Agribusiness (GCSI OR G) (3)

AGB 321: Agribusiness Sales and Marketing (3)
AGB 414: Food and Agribusiness Policy Issues (L) (3)
AGB 452: Global Food and Agricultural Trade (3)
AGB 456: Food Product Innovation and Development (3)
BIO 320: Fundamentals of Ecology (3)
NTR 344: Nutrition Management and Leadership (L) (3)
NTR 445: Management of Food Service Systems (4)
SOS 326: Sustainable Ecosystems (3)
SOS 328: Sustainability and Enterprise (3)
TDM 481: Sustainable Food Management in Tourism (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in sustainable food systems

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Global Opportunities:

Global Experience: With more than 300 Global Education program opportunities available to them, students of all majors, including programs in the College of Global Futures, are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network

Students can find programs specific to their interests on the College of Global Futures Study Abroad webpage (<https://collegeofglobalfutures.asu.edu/student-life/study-abroad/>) and additional opportunities and information on the ASU Global Education Office website (<https://goglobal.asu.edu/>). These sites also include additional information about applying for funding to support global travel.

Career Opportunities: A minor in sustainable food systems complements a variety of bachelor's degrees, expanding career opportunities related to food in sectors such as business, engineering, technology, science, nutrition, education and government.

Knowledge of sustainable food systems is applicable across diverse career paths, including agriculture, public health, community development and policy advocacy. Graduates with this minor become catalysts for positive change, fostering equity and sustainability in various fields. Whether it's promoting urban farming initiatives, enhancing consumer goods or shaping public health policies, their expertise stands out among job applicants.

By incorporating sustainable food systems into their education, students not only broaden their career horizons but also contribute to a more sustainable, equitable and healthier future. This minor equips graduates with invaluable skill sets that are relevant and impactful in many career contexts.

Sustainable Tourism Minor (PPTDMSMIN)

Campus: Downtown Phoenix

Description: Students can get innovative insights on finding practical solutions for a more ethical and eco-friendly approach to travel with a minor in sustainable tourism. The minor program teaches basic concepts and theories of tourism development and management and helps students identify the ways tourism can contribute to sustainable development locally and globally.

Students with majors in sustainability, business and many others find this minor a beneficial supplement to their existing program.

There may also be opportunities to complete a study abroad program.

Program Requirements:

The minor requires a total of 15 credit hours: 12 credit hours of required courses and one three-credit hour course from the list of electives.

Required Core Courses -- 12 credit hours

TDM 205: Introduction to Travel and Tourism (GCSI OR G) (3)

TDM 372: Tourism Planning (L) (3)

TDM 458: International Tourism (GCSI OR G) (3)

TDM 480: Sustainable Tourism (3)

Elective Course (choose one) -- 3 credit hours

TDM 448: Heritage and Cultural Tourism (3)

TDM 475: Entrepreneurial Recreation and Tourism (3)

TDM 481: Sustainable Food Management in Tourism (3)

Notes: Offered spring semester only

TDM 484: Internship (3)

TDM 494: Special Topics (3)

Standards

1. 15 hours of graded classroom coursework (no internship, no independent study)
2. minimum "C" (2.00 on a 4.00 scale) grade required for all courses in the minor
3. should be a junior or higher to take 400-level courses
4. no double counting of courses for a major and the minor

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in tourism development and management; BS in tourism development and management (sustainable tourism); BS in tourism development and management (resort and hotel leadership); BA in business (tourism); BS in tourism development and management (meeting and events)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. Graduates with a minor in sustainable tourism can find opportunities in diverse settings in a wide range of industries, including hotel management and environmental and travel agencies.

Technical Communication Minor (LSTWCMIN)

Campus: Polytechnic, Online

Description: The minor in technical communication provides a foundation in workplace-oriented communication skills that complement many majors, particularly those in engineering and other technical disciplines.

Students learn how to design, produce and manage professional texts, both print and digital, while they strengthen their technological skills.

Program Requirements:

The minor in technical communication requires 18 credit hours. A grade of "C" or better is required for all courses in the minor.

Required Courses -- 12 credit hours

TWC 301: Fundamentals of Writing for Digital Media (L) (3)

TWC 401: Fundamentals of Technical Communication (L) (3)

TWC 411: Principles of Visual Communication (L) or TWC 421: Principles of Web Authoring (L) (3)

TWC 431: Principles of Technical Editing (3)

Electives (choose two) -- 6 credit hours

TWC 214: Storytelling with Data (3)

TWC 312: Introduction to Visual Culture (3)

TWC 314: Data Visualization Tools and Techniques (3)

TWC 361: Writing for Health Care Management (L) (3)

TWC 362: Writing in Health Professions (L) (3)

TWC 394: Special Topics (3)

TWC 403: Writing for Professional Publication (3)

TWC 411: Principles of Visual Communication (L) (3)

TWC 413: Managing and Analyzing Data (3)

TWC 414: Visualizing Data and Information (3)

TWC 421: Principles of Web Authoring (L) (3)

TWC 422: Social Media in the Workplace (3)

TWC 435: Global Issues in Technical Communication (GCSI OR G) (3)

TWC 436: Project Management in Technical Communication (3)

TWC 443: Grant & Proposal Writing (3)

TWC 444: User Experience (3)

TWC 445: Content Strategy (3)

TWC 446: Technical and Scientific Reports (L) (3)

TWC 451: Copyright and Intellectual Property in the Electronic Age (3)

TWC 452: Information in the Digital Age (3)

TWC 453: Information and Communications Technology in American History (L & H) (3)

TWC 454: Information Technology and Culture (C) (3)

TWC 455: Digital Ethics in Internet Policy and Governance (3)

TWC 484: Internship (3)

Notes: No more than 3 credit hours of internship credit may be applied toward this minor.

TWC 494: Special Topics (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BAS in applied science (technical communication); BS in technical communication (all concentrations)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

The technical communication minor can benefit graduates of many degree programs when they pursue careers in web development, project management and instructional design, making them more competitive on their career path.

Technological Entrepreneurship and Management Minor (ESTEM2MIN)

Campus: Polytechnic, Online

Description: The minor in technological entrepreneurship and management is available to students who are interested in advancing ideas for new or improved products or services. Students learn the range of skills needed to develop new products, services and business models, and whole new industries.

The courses available for the minor are designed to advance entrepreneurial and systems thinking and cover a broad range of topics important to venture startups, such as creativity, entrepreneurship, innovation, global impact and systems thinking.

This minor is available as either an on-campus or a 100% online program.

Program Requirements:

Completion of the technological entrepreneurship and management minor requires 18 resident credit hours of the specified courses with a grade of "C" or better in each course. At least four of the six courses must be upper division. Students may not double count any courses with other entrepreneurship certificates.

Required Courses -- 12 credit hours

FSE 301: Entrepreneurship and Value Creation (3)

TEM 230: Creativity and Business Innovation or TEM 250: Design Methodology or FSE 181: Technological, Social, and Sustainable Systems (SUST OR HU) (3)

TEM 431: Innovation Management (3)

TMC 110: Understanding the Enterprise or TEM 200: My Technology Venture (3)

Electives -- 6 credit hours

ENT OR FSE OR OMT OR TEM OR TMC Upper Division Elective (6)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in technological entrepreneurship and management; BAS in applied science (operations management); BS in business entrepreneurship

Other Enrollment Requirements: The technological entrepreneurship and management minor is open to non-TEM undergraduate students. TEM students are not eligible to apply for this minor.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. The technological entrepreneurship and management minor prepares students for a wide variety of career possibilities. Some examples are technology-based entrepreneurship, product development, consulting, venture capital analysis, business development, market analysis and technology marketing.

Technological Leadership Minor (LATECLDMIN)

Campus: Tempe, Online

Description: A minor in technological leadership equips students with the skills needed to solve tomorrow's most pressing problems.

Through a series of engaging and hands-on courses, students learn how to recognize and describe unsolved problems in the fields of science and technology, and they practice implementing creative problem-solving techniques to design potential solutions to those problems.

Offered by the Interplanetary Initiative, this minor complements and enhances a student's major with key skills in interdisciplinary research, technology design and collaborative leadership.

Program Requirements:

The technological leadership minor consists of 18 credit hours, of which 12 credit hours must be upper division. A minimum grade of "C" (2.00 on a 4.00 scale) is required for all courses in the minor.

Inquiry Courses -- 6 credit hours

IPI 296: Inquiry (L) (3)

IPI 496: Advanced Inquiry (3)

Making Courses (choose two) -- 6 credit hours

A minimum of three credit hours must be upper division.

AME 240: Introduction to Physical Computing (3)

AME 330: Digital-Physical Systems (3)

HDA 296: Creative Futures: Studio (3)

HDA 496: Creative Futures: Advanced Studio (3)

IPI 241: Designing and Making (Electronics and Programming) (3)

IPI 341: Designing and Making (3D Printing and Fabrication) (3)

SES 307: Space Works I: Design, Build, Test (3)

SES 407: Space Works II: Model, Fabricate, Test (3)

Leadership Courses (choose two) -- 6 credit hours

FIS 432: Problem Solving Through Strategic Thinking (3)

LSE 305: Conceptualizing Learning: Theories in Practice (3)

MGT 380: Management and Strategy (3)

OGL 300: Theory and Practice of Leadership (3)

OGL 345: Organizational Ethics (HUAD OR HU) (3)

PMG 320: Project Approaches (3)

PSY 302: The Psychology of Positive Leadership (3)

SOC 334: Technology and Society (SOBE OR L or SB) (3)

WPC 300: Problem Solving and Actionable Analytics (QTRS) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: Technological Leadership, BS

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: A minor in technological leadership supports students who are interested in emerging fields and careers that span multiple disciplines, such as:

- academic research

- business strategy
- data analytics
- engineering management
- entrepreneurship
- management consulting
- product management
- project management
- systems engineering
- technology transfer

Theatre Minor (FATHEMIN)

Campus: Tempe

Description: Students pursuing the theatre minor study the literatures, histories and basic production practices of theatre while having opportunities to concentrate in an area such as:

- acting
- community engagement
- design and production
- directing
- dramatic literature
- dramaturgy
- new work development
- theatre history
- theatre for youth
- voice and movement

Program Requirements:

The minor in theatre consists of 22 credit hours of coursework (12 credit hours must be upper division). A grade of "C" (2.00) or higher is required for all courses in the minor. All prerequisites for the minor courses must be met (see course listings).

Transfer students may transfer up to nine credit hours toward the minor.

Theatre Core -- 10 credit hours

THF 101: Acting Introduction (3)

THF 160: Introduction to Storytelling (HUAD OR HU) (3)

THF 215: Design and Composition for Theatre and Film (HUAD OR HU) (3)

THP 201: Theatre Production Crew (1)

*Students who take Acting I (THF 101 or THP 102) for their major must complete an additional course in Theatre to complete the Theatre Minor.

Theatre History (choose one) -- 3 credit hours

THE 320: History of the Theatre I (HU & H) (3)

THE 321: History of the Theatre II (HUAD OR HU & H) (3)

THE 322: Theatre History and Culture (HUAD OR HU & H) (3)

Theatre-Related Upper Division Courses -- 9 credit hours

THE OR THF OR THP Upper Division Elective (9)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: All theatre majors

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor in theatre can help students as they pursue careers in arts administration, teaching, law, fundraising management or marketing.

Advanced degrees or certifications may be required for academic or clinical positions.

Theatre - Costume Design and Technology Minor (HITHCDTMIN)

Campus: Tempe

Description: This minor program in theatre with a focus in costume design and technology provides students with opportunities to hone their craft while creating exciting production work in the costume studio. The program provides each student with the unique opportunity to explore their own creative process and to collaborate with artisans and professionals in the field while gaining practical, hands-on experience producing costumes.

The program offers specialty coursework in:

- costume construction
- costume design and technology
- digital fabrication
- fashion history
- media design and technology
- millinery
- nontraditional fabrication

In addition to building knowledge and skills, students in the program are mentored by professional designers and technicians to successfully transition from college to their future careers in entertainment design and production, or to graduate programs for additional training.

Program Requirements:

This minor consists of 18 credit hours of coursework (nine credit hours must be upper division). A grade of "C" (2.00) or higher is required for all courses in the minor.

Transfer students may transfer up to nine credit hours toward the minor.

Required Courses -- 12 credit hours

THF 160: Introduction to Storytelling (HUAD OR HU) or THF 220: Principles of Dramatic Analysis (HUAD OR L or HU) (3)
THF 215: Design and Composition for Theatre and Film (HUAD OR HU) (3)
THP 214: Introduction to Costuming (3)
THP 330: Costume Design (3)

Electives -- 6 credit hours

THE 430: History of Fashion I (HUAD OR HU) (3)
THE 431: History of Fashion II: 20th-Century Fashion (3)
THP 301: Costume Construction (1)
THP 331: Costume Construction (3)
THP 333: Costume Crafts (3)
THP 394: Extravaganza: Liberace, A Life in Costume (3)
THP 401: Costume Construction (1)
THP 431: Advanced Costume Construction (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: Theatre (Design and Production), BA

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Global Opportunities:

Global Experience: Study abroad can prepare a future professional in the arts not only with cultural experiences but also with professional skills like collaboration and problem-solving. Global Education programs (<https://goglobal.asu.edu/>) provide an opportunity for students to explore their creative side with an intercultural lens, encouraging them to build communication skills and challenging them, as artists, to think differently.

With over 300 options available, Global Education programs give students a breadth of knowledge in arts and culture uniquely different from their own. Whether in a foreign country, in the U.S. or online, students learn to adapt and persevere through a program that provides them with a chance to look inside themselves in a way they haven't done before, growing their self-confidence along the way.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor in costume design and technology can help graduates as they pursue careers in teaching, pattern making, costume design, first hand, shop management, set dressing, entrepreneurship, and aging and dyeing costumes.

Tourism Development and Management Minor (PPTDMMIN)

Campus: Downtown Phoenix, Online

Description: The minor program in tourism development and management provides students with the planning and development skills needed to enter the largest industry in the world. Exposure to the businesses of sustainable tourism, heritage tourism, and meeting and convention planning prepares students for successful careers in the fast-growing travel and tourism industry.

The minor allows students enrolled in other undergraduate programs at ASU to broaden their educational experiences. Students from such various disciplines as business, communication and many others find this program a beneficial supplement to their existing program.

Students who have completed the minor program in tourism development and management may also complete a certificate in convention sales and meeting planning (<https://degrees.apps.asu.edu/minors/major/ASU00/PPTDMCERT/convention-sales-and-meeting-planning>).

Students also may choose to participate in a study abroad program.

Program Requirements:

The tourism development and management minor requires 15 credit hours: six credit hours of required core courses and nine credit hours of elective courses.

Required Core Courses -- 6 credit hours

TDM 205: Introduction to Travel and Tourism (GCSI OR G) (3)

TDM 480: Sustainable Tourism (3)

Elective Courses (choose three) -- 9 credit hours

CRD 350: Tourism, Recreation and Sports Marketing (3)
PRM 145: Special Events Management (3)
TDM 225: Introduction to Hotel, Resort and Lodging Management (3)
TDM 345: Meeting and Convention Planning (3)
TDM 386: Convention Sales and Management (3)
TDM 448: Heritage and Cultural Tourism (3)
TDM 458: International Tourism (GCSI OR G) (3)
TDM 483: Sports Tourism (3)
TDM 484: Internship (3)
TDM 494: Special Topics (3)

Standards

1. 15 hours of graded classroom coursework (no internship, no independent study)
2. minimum grade of "C" (2.00 on a 4.00 scale) required for all courses in the minor
3. students should be a junior to take 400-level courses
4. no double-counting of courses for a major and the minor

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in tourism development and management; BS in tourism development and management (sustainable tourism); BS in tourism development and management (resort and hotel leadership); BA in business (tourism); BS in tourism and recreation management

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: The minor program offers students opportunities to pursue a broad spectrum of careers in areas such as travel agencies and tour operations; front office, food and beverage, and room division departments; and recreation and leisure activity coordination. Students can find various opportunities to grow as hotel and spa managers; sales and marketing managers; and as organizers of festivals, sports, special events and conferences.

Transborder Chicana/o and Latina/o Studies Minor (LATCLMIN)

Campus: Tempe

Description: In the transborder Chicana/o and Latina/o studies minor, students gain general knowledge from a comparative perspective about the Chicano and Latino populations in the United States and on the U.S.--Mexico border.

The core requirements focus on these populations' cultural, economic, sociological, historical, psychological and artistic experiences. For the remaining credit hours, students may select from courses in a variety of topics, including:

- community development
- diversity in education
- film and the media
- health issues
- immigration and migration
- language and bilingualism

- literature and performance
- politics and policy

Program Requirements:

The minor requires 18 credit hours of coursework, of which at least 12 credit hours must be completed at the upper-division level. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses used toward the minor.

Core Requirements -- 6 credit hours

TCL 201: Transborder Society and Culture I: Interdisciplinary Approaches (HUAD OR HU & C) or TCL 202: Transborder Society and Culture II: Contemporary Issues (3)

TCL 331 / HST 331: Mexican American History to 1900 (SB & H) or TCL 332 / HST 332: Mexican American History Since 1900 (GCSI OR SB & H & C) (3)

Electives -- 12 credit hours

TCL Elective (3)

TCL Upper Division Elective (9)

Notes: Select any TCL course except TCL 331/HST 331 or TCL 332/HST 332.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in transborder Chicana/o and Latina/o studies (all concentrations)

Other Enrollment Requirements: None

An ASU student who is pursuing a degree at any ASU campus may elect to add a minor offered at any other ASU campus.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: The minor in transborder Chicana/o and Latina/o studies prepares students to work with Chicano and Latino populations in many industries, including:

- business
- education (administration and teaching)
- film, media and the arts
- law
- local, state and national government agencies
- nonprofit organizations
- public affairs
- public health
- public policy and administration
- social work

Urban Planning Minor (ARPUPMIN)

Campus: Tempe, Online

Description: Students who wish to gain a further understanding of their communities, from the neighborhood to the national level, can benefit from an urban planning minor. The program provides insights into how neighborhoods are created and the effects the planning of neighborhoods has on its residents

Program Requirements:

The minor requires completion of 18 credit hours, of which at least 12 must be upper division. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Course -- 3 credit hours

PUP 301: Introduction to Urban Planning (L) (3)

Urban Planning Electives -- 6 credit hours

PUP Elective (6)

Upper-Division Urban Planning Electives -- 9 credit hours

PUP Upper Division Elective (9)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BSP in urban planning

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: The urban planning minor introduces students to the fields of urban, regional and environmental planning. Students in the minor program can explore the theories, methods and practices of many urban planning topics, including:

- comprehensive planning
- planning law
- public policy formulation
- site planning
- socioeconomic and environmental analyses
- sustainable planning
- urban design

Urban and Metropolitan Studies Minor (PPURBMIN)

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Interested students should apply for the public service and public policy minor (<https://degrees.apps.asu.edu/minors/major/ASU00/PPPAFMIN/public-service-and-public-policy>).

Description: The minor program in urban and metropolitan studies offers students interested in the urban environment the opportunity to explore the wide variety of issues that influence the quality of life in urban communities.

Students are encouraged to learn about cities as historical, social, cultural, economic and political phenomena in order to gain a strong understanding of the complex relationships that contribute to the problems and opportunities pertaining to urban living.

This program allows students enrolled in other undergraduate programs at ASU to broaden their educational experiences. Students from various disciplines such as planning, business, political science, nonprofit management and leadership, communication, social work, geography and many others might find this program a beneficial supplement to their existing program.

Program Requirements:

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BA and BS in urban and metropolitan studies

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Students who complete this minor are prepared to pursue a career in a field related to management and policy areas associated with towns, cities and regions. This may include opportunities as a policy analyst, entry-level manager or program coordinator in local, state or federal agencies; nonprofit organizations; and private organizations that interface with the public sector.

Wellness Foundations Minor (ECXWMIN)

Campus: Downtown Phoenix

Description: The wellness foundations minor is offered to students interested in learning about optimizing personal health and wellness. Students develop a greater understanding of the behavioral, social, cultural and environmental factors that impact our health. Students also learn how to make better personal lifestyle choices that may enhance individual well-being.

This program emphasizes a holistic approach to health and wellness. This minor serves as a foundational step toward obtaining national certifications for professional practice in fields of study related to health, health coaching, fitness or wellness.

Program Requirements:

The minor in wellness foundations consists of 18 credit hours, of which at least 12 credits must be upper division. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.

Required Courses -- 15 credit hours

EXW 215: Resistance Training and Recovery Techniques or EXW 217: Cardiorespiratory and Flexibility Training (3)

EXW 302: Fundamentals of Wellness (3)

EXW 325: Fitness for Life (3)

EXW 400: Stress Management for Wellness or HEP 380: Body Image and Wellness (3)

NTR 100: Introduction to Nutrition Science or NTR 241: Human Nutrition (3)

Elective (choose one) -- 3 credit hours

EXW 335: Physical Activity and Physiological Concepts (3)

EXW 344: Impact of Physical Activity on Health and Disease (L) (3)

EXW 400: Stress Management for Wellness or HEP 380: Body Image and Wellness (3)

EXW 425: Exercise Prescription for Health and Wellness (3)

EXW 450: Social Determinants of Health and Health Behavior (CIVI OR (L or SB) & C) (3)

HSC 355: Eating for Lifelong Health (SOBE OR SB) (3)

NTR 345: Development of Healthy Cuisines (3)

NTR 348: Cultural Aspects of Food (GCSI OR SB & C & G) (3)

NTR 353: The Western Diet (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in clinical exercise science; BS in health sciences (healthy lifestyles and fitness science)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career Opportunities: This course of study allows students to have a greater understanding of and appreciation for how they can take control of their personal well-being and lead a healthier lifestyle.

Completion of this coursework provides practitioners who wish to take a more holistic approach to health and wellness with a background that enables them to promote greater health throughout the community.

Writing, Rhetorics and Literacies Minor (LAWRHLMIN)

Campus: Tempe

Description: The minor in writing, rhetorics and literacies teaches students to create new knowledge and reason, and to read, write and act in robust and significant ways to meet the new challenges of the present and the future.

Students study the ways communication creates knowledge and action and how that communication is constructed, circulated, reacted to and repurposed through time and place. They explore the history, theories and methods of inquiry as well as pragmatic and social actions of rhetoric, writing and literacies.

Program Requirements:

The minor in writing, rhetorics and literacies consists of 18 credit hours. At least 12 credit hours must be completed at the upper-division level, with a minimum of six upper-division credit hours from courses offered by The College of Liberal Arts and Sciences. Courses must be completed with a grade of "C" (2.00 on a scale of 4.00) or better to satisfy minor requirements.

Required Courses -- 6 credit hours

ENG 205: Introduction to Writing, Rhetorics and Literacies (CIVI OR L) (3)

ENG 390: Methods of Inquiry (L) (3)

Directed Electives (choose two) -- 6 credit hours

ENG 391: Writing in Context (L) (3)

ENG 392: History of Rhetorical Theory (CIVI OR HU) (3)

ENG 393: Theories of Literacy (3)

Elective Minor Courses -- 6 credit hours

ENG 301: Writing for the Professions (L) (3)

ENG 311: Persuasive Writing (CIVI OR L) (3)

ENG 317: Cross-Cultural Writing ((L or HU) & G) (3)

ENG 338: Protest Literature (3)

ENG 370: Science, Values, and the Public (3)

ENG 371: Rhetoric of the Environmental Movement (3)

ENG 409: Analyzing Rhetoric (3)

ENG 419: Writing for Podcasts (3)

ENG 472: Rhetorical Studies (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: None

Incompatible Majors: BA in English (all concentrations)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor in writing, rhetorics and literacies can benefit those who pursue careers in writing, editing or publishing.

Youth Services Leadership Minor (HSYSLMIN)

Campus: Downtown Phoenix

Description: This minor program explores the area of youth services leadership from the perspective of those who work face-to-face with youth in a variety of settings.

It can supplement an existing degree program and expand the student's knowledge of youth services from a variety of perspectives.

Program Requirements:

The minor requires 15 credit hours: three credit hours of required courses and 12 credit hours of elective courses. At least nine credit hours must be upper division.

Required Core Courses -- 3 credit hours

PRM 203: Program Planning (3)

Elective Courses (choose four) -- 12 credit hours

CDE 337: Early Childhood Intervention (3)

CDE 450: Childhood Disorders and Family Functioning (L) (3)

CRD 302: Inclusive Community Development (SOBE OR SB & C) (3)

CRJ 204: Juvenile Justice (3)

CRJ 462: Gangs (3)

ECD 310: Applied Early Child Development (3)

ECD 312: Social/Emotional Foundations of Learning (3)

ECD 417: Arts Integration for Young Children (3)

JUS 477: Youth and Justice (SOBE OR L or SB) (3)

MUE 311: Music in the Lives of Children and Youth (HUAD OR HU) (3)

MUS 215: Children, Creativity, Arts (HUAD OR HU) (3)

NLM 220: Introduction to Nonprofit Organizations (3)

NLM 310: Volunteer Management (CIVI) (3)

NLM 451: Grant Writing (3)

PRM 145: Special Events Management (3)

PRM 335: Sports and Recreation for Youth Development (3)

RTH 364: Foundations in Recreational Therapy (SOBE OR SB) (3)

RTH 455: Recreational Therapy and Play with Children, Youth and Families (3)

Standards

1. 15 hours of graded classroom coursework (no internship, no independent study)
2. minimum "C" (2.00 on a 4.00 scale) grade required for all courses in the minor
3. should be a junior to take 400-level courses
4. no double counting of courses for a major and the minor

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements: GPA Requirement: 2.00

Incompatible Majors: BS in parks and recreation management; BS in parks and recreation management (therapeutic recreation); BS in community

sports management; BS in recreation therapy

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career Opportunities: Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor in youth services leadership can help students as they pursue careers in youth services or as family resource coordinators.

Undergraduate Programs

Undergraduate Certificates (Program Descriptions and Requirements)

Accountancy Certificate (BAACCCERT)

Campus: Online

Description: This postbaccalaureate certificate program in accountancy gives college graduates who have no prior background in accounting the necessary foundation and skills to pursue a career in accounting or business. The curriculum covers financial reporting, cost accounting, tax, audit and information systems topics, and it prepares graduates for a variety of professional opportunities.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

Program Requirements:

To earn the certificate, students must complete all courses with a grade of "C" (2.00 on a scale of 4.00) or better.

Required Courses -- 24 credit hours

ACC 231: Uses of Accounting Information I (3)

ACC 241: Uses of Accounting Information II (3)

ACC 340: External Reporting I (3)

ACC 350: Internal Reporting (3)

ACC 430: Taxes and Business Decisions (3)

ACC 440: External Reporting II (3)

ACC 444: Enterprise Process Analysis and Design (3)

ACC 450: Principles of Auditing (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Applicants are eligible to apply to the program if they have earned a bachelor's degree in any field from a regionally accredited institution with a GPA of 3.00 (scale is 4.00 = "A"). Individuals interested in this certificate must apply for university admission as nondegree-seeking graduate students.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/minors/>) for program descriptions and to request more information.

Career Opportunities: Graduates of this postbaccalaureate program are prepared for professional opportunities in auditing, taxation, corporate accounting and consulting roles across a wide range of potential employers.

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Students who complete the certificate program satisfy the accounting education requirement to sit for the Certified Public Accountant exam in Arizona (and other states).

Students who have already earned an undergraduate degree in business satisfy Arizona's "other related courses" credit hour requirement, making them eligible to sit for the exam upon completion of the program. Students completing the program who do not already have an undergraduate degree in business will need to complete six 3-credit hour "other related courses" to be eligible to sit for the exam as additional hours in accounting and other related courses are required for certification. <https://www.azaccountancy.gov/Certification/FAQs.aspx> (<https://www.azaccountancy.gov/Certification/FAQs.aspx>)

Additionally, the program also satisfies the educational requirements for Certified Management Accountant and Certified Global Management Accountant certification exams.

Actuarial Science Certificate (LAACTCERT)

Campus: Tempe

Description: Actuarial science is an area of mathematical and statistical science that requires expertise in specializations of probability and interest theory, coupled with a strong foundation in accounting, finance and economics.

This certificate provides students with preparation for professional actuarial credentialing exams offered by the Society of Actuaries and the Casualty Actuarial Society.

Program Requirements:

The certificate requires a minimum of 18 credit hours, of which at least 12 credit hours must be upper division. Specific minimum course grades are required for each course, see notes below.

Required Courses -- 12 credit hours

ACT 201: Introduction to Elements and Techniques of Actuarial Science (3)

ACT 410: Mathematics of Finance (3)

ACT 415: Probability for Risk Management (3)

ACT 440: Single Life Mortality or ACT 450: Actuarial Models (3)

A grade of "B" (3.00 on a 4.00 scale) or better is required for ACT 201, ACT 410 and ACT 415. A grade of "C" (2.00 on a 4.00 scale) or better is required for ACT 440 or ACT 450.

Electives (choose two courses) -- 6 credit hours

ACT 420: Ratemaking and Reserving (3)

ACT 430: Mathematics of Financial Derivatives (3)

ACT 435: Statistics for Risk Modeling (3)

ACT 440: Single Life Mortality (3)

ACT 441: Long-Term Actuarial Mathematics (3)

ACT 450: Actuarial Models (3)

ACT 451: Short-Term Actuarial Mathematics (3)

A grade of "B" (3.00 on a 4.00 scale) or better is required in the following courses: ACT 420, ACT 430, ACT 435.

A grade of "C" (2.00 on a 4.00 scale) or better is required in the following courses: ACT 440, ACT 441, ACT 450, ACT 451.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Although no specific degree is required for admission to the actuarial science certificate program, a strong mathematical background is essential (found in majors such as mathematics, statistics, engineering and natural sciences). Students with a major or degree other than those listed require additional preparation beyond the certificate. Students are required to have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") and grades of "B" or better in courses of multivariate calculus, linear algebra and introductory statistics at ASU or an equivalent institution.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Identify the proper mathematical and statistical theories that may be applied to analyze actuarial data and draw analytical conclusions in a professional environment
- Use mathematical and statistical theories to demonstrate mastery of analytical decision making based on both qualitative and quantitative data.

Career Opportunities: Risk is a part of daily life, and wherever there is risk, there are opportunities for actuarial intervention. Many actuaries calculate premiums at insurance companies, determine reserves needed to ensure an organization's financial health, and ensure that organizations conform to stringent, complex legal mandates. Others help companies to establish retirement plans or are employed as consultants.

Graduates with a certificate in actuarial science possess skills that are transferable to any industry and any organization that requires risk modeling and management, including:

- colleges and universities
- consulting firms
- energy and environmental companies
- financial services
- government agencies
- insurance companies
- retirement and pension companies
- transportation companies

Graduates also can apply the advanced problem-solving skills learned in the actuarial science certificate program to a variety of other professional positions, including:

- analyst
- business operations specialist
- teacher

African and African American Studies Certificate (LAAFRCERT)

Campus: Tempe

Description: Students in the certificate program in African and African American studies examine the culture, arts, history, politics, economics and current status of Africans, African Americans and the larger African diaspora, especially in Central America, South America and the Caribbean.

The goal is to prepare students for lifelong learning, advanced study in a variety of fields, successful careers and productive public service in an increasingly diverse society.

Program Requirements:

The certificate consists of 15 credit hours, at least 12 of which must be completed at the upper-division level. All courses used toward the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Core Course (choose one) -- 3 credit hours

AFR 200: Introduction to Africana Studies (GCSI OR SB & G & H) (3)

AFR 210: Introduction to African American Studies (C) (3)

Elective Core Course (choose one) -- 3 credit hours

AFR 300: Precolonial Africa (GCSI OR SB & G & H) (3)

AFR 301: Race and Racism in Africa/African Diaspora (SB & G) (3)

AFR 370 / FAS 370: Family Ethnic and Cultural Diversity (CIVI OR SB & C) (3)

AFR 375: Race, Gender and Sport (SOBE OR SB & C) (3)

Content Courses (choose three) -- 9 credit hours

AFR 336 / ASB 336: African Art (HU & G) (3)

AFR 340: The Making of Modern Africa (SB & G & H) (3)

AFR 345 / JUS 345: Peoples and Cultures of the Caribbean (SB & G & H) (3)

AFR 350 / APA 350 / CDE 350 / SOC 350 / TCL 360 / JUS 365: Inequality and Diversity in Education (CIVI OR L & C) (3)

AFR 352 / APA 352 / JUS 353: Borders, Prisons and Suburbs (SB & C) (3)

AFR 353 / AMS 353 / ENG 353 / ETH 353: African American Literature: Beginnings through the Harlem Renaissance ((L or HU) & C) (3)

AFR 354 / AMS 354 / ENG 354 / ETH 354: African American Literature: Harlem Renaissance to the Present (HUAD OR (L or HU) & C) (3)

AFR 363 / HST 333: African American History to 1865 (SB & H & C) (3)

AFR 364 / HST 334: African American History Since 1865 (HUAD OR (HU or SB) & C & H) (3)

AFR 365 / WST 364: Unruly Voices: Black Women and Cultural Narratives (HUAD OR HU & C) (3)
AFR 366 / ASB 366: African Archaeology: Precolonial Urban Culture (SB & H) (3)
AFR 372 / REL 362 / SGS 366: Islam and Islamic Societies in Africa: Social and Political History (3)
AFR 373 / REL 363: Islam and World Affairs (3)
AFR 420 / JUS 421: Race Ethnicity and Politics in the African Diaspora (SB & G) (3)
AFR 428 / APA 428 / JUS 428: Critical Race Theory (3)
AFR 459 / ENG 459: Studies in African American/Caribbean Literatures ((L or HU) & G) (3)
AFR 466 / ASB 466: Peoples and Cultures of Africa (SB & G) (3)
AFR 470 / WST 471: Women's International Human Rights (3)
AFR 480 / REL 461 / SGS 442: Different Voices Within Contemporary Islamic Discourse (3)
Other courses may be used with approval from an academic advisor in the School of Social Transformation

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Conduct independent research exploring critical issues in and to the African diaspora.
- Analyze the ways in which race intersects with other social locations in shaping ideology, as well as social, political and cultural institutions.

Career Opportunities: Students can advance their career options with an undergraduate certificate. By adding this specialization in African and African American studies as a complement to their major program of study, students become more attractive to employers.

Graduates who have completed this undergraduate certificate often decide to pursue employment in education, public service, and human welfare and social work. Advanced degrees or certifications may be required for academic or clinical positions.

American Indian Nation Governance Certificate (LAAIGVCERT)

Campus: Tempe

Description: In the American Indian nation governance certificate program, students develop knowledge about and insight into government and governance in Native American communities. The curriculum covers themes such as the history, policies and sovereign status of American Indians, and the legal relationships between the Native American nations and state governments as well as the U.S. federal government.

Program Requirements:

The certificate in American Indian Nation governance requires completion of 15 credit hours (12 of which must be upper division and nine of which must be taken from The College of Liberal Arts and Sciences). Students complete six credit hours of American Indian studies and six credit hours of political science. An additional three credit hours are selected from the approved list of AIS and POS policy and applied courses, including an optional internship. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher for use in the certificate.

AIS Core Courses (choose two) -- 6 credit hours

- AIS 180: Introduction to American Indian Studies (SOBE OR C) (3)
- AIS 380: Contemporary Issues of American Indian Nations (C) (3)
- AIS 470: Tribal Governance (3)

POS Core Courses (choose two) -- 6 credit hours

- POS 310: American National Government (AMIT OR SB) (3)
- POS 325: Public Policy Development (CIVI OR SB) (3)
- POS 346: Problems of Democracy (HUAD OR HU) (3)
- POS 368: Ethics and Human Rights (3)

POS 370: Law and Society (CIVI OR SB) (3)
POS 439: Minority Group Politics in America (SB & C) (3)

AIS or POS Policy and Applied Course (choose one) -- 3 credit hours
AIS 394: Reservation Economic Development (3)
AIS 445: American Indian Leadership and Resistance (CIVI OR SB & C) (3)
AIS 455: Human Rights and Cultural Resource Laws (3)
AIS 484: Internship (3)
AIS 494: American Indian and Indigenous Rights (3)
AIS 494: American Indian Rights (3)
AIS 498: Pro-Seminar (L) (3)
POS 484: Internship (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities: Graduates who combine the certificate in American Indian nation governance with their major program of study may increase their marketability to employers.

Those completing this certificate program are better prepared to work with Indian nations, federal and state agencies, and nonprofit organizations, regardless of their academic major or final career path.

Analysis and Management of Insurance Risk Certificate (LAAMIRCERT)

Campus: Tempe

Description: Risk management is the identification, assessment and prioritization of risks and is followed by coordination and economic application of resources to minimize risk or maximize the realization of opportunity. The certificate program helps students become well-rounded assessors of risk who can monitor the probability and impact of unfortunate events.

Program Requirements:

The certificate requires 15 credit hours from the approved course list below, with the only required course being ACT 301. A grade of "C" (2.00 on a 4.00 scale) is required for all courses.

Required Course -- 3 credit hours
ACT 301: Risk Management and Insurance (SOBE OR SB) (3)

Electives (choose four) -- 12 credit hours
ACT 201: Introduction to Elements and Techniques of Actuarial Science (3)
ACT 302: Fundamentals of Enterprise Risk Management (3)
ACT 320: Property and Casualty Insurance (3)
ACT 330: Life and Health Insurance (3)
ACT 370: Software Tools for Business Analytics (3)
ACT 484: Internship (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: Students must hold a minimum GPA of 2.50 to pursue this certificate and must have completed the following prerequisite courses at ASU or an equivalent institution with a grade of "C" or better (scale is 4.00 = "A"):

CIS 105 Computer Applications and Information Technology or equivalent ECN 211 Macroeconomic Principles or ECN 212 Microeconomic Principles
MAT 210 Brief Calculus STP 226 Elements of Statistics or ECN 221 Business Statistics

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student. Applicants should contact the unit for additional information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze factors of risk to make informed assessments for insurance purposes.
- Use mathematical and statistical theories to demonstrate mastery of analytical decision making based on both qualitative and quantitative data.

Career Opportunities: Graduates with a certificate in analysis and management of insurance risk have skills that are transferable to any organization that requires risk modeling and management, including:

- colleges and universities
- consulting firms
- energy and environmental agencies
- financial services
- government agencies
- insurance companies
- retirement and pension companies
- transportation companies

Applied Business Data Analytics Certificate (BABDACERT)

Campus: Tempe, Online

Description: The certificate program in applied business data analytics is for students who are interested in practical uses for computer-based tool suites that are capable of managing vast amounts of data. Students learn sophisticated but easy-to-use means of managing and analyzing such data. They leverage the tools for making good decisions about projects, process designs and fundamental tasks.

Exposure to predictive analytics and modeling, big data techniques, and visualization provides significant insight into the advanced uses of the computer-based tools. Critical thinking is an important skill and mindset that is required for establishing and evaluating evidence-based benchmarks for making good data decisions leading to high-quality outcomes.

Program Requirements:

The certificate in applied business data analytics requires 18 credit hours. At least 12 credit hours must be upper division.

To earn the certificate, students must complete all courses with a grade of "C" (2.00 on a scale of 4.00) or higher.

No more than six credit hours may be shared between the certificate and other degree programs, minors, and/or other certificates.

Required Courses -- 18 credit hours

CIS 105: Computer Applications and Information Technology (QTRS OR CS) (3)

CIS 308: Advanced Excel in Business (3)

CIS 309: Business Process Management (3)

CIS 310: Business Data Visualization (3)

CIS 405: Business Intelligence (3)

Any Statistics Course or CIS 313: Location Analytics in Business (3)

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements: ASU degree-seeking students

The applied business data analytics certificate is open to all ASU students who are not pursuing the applied business and technology solutions or

entrepreneurial leadership degree programs.

No more than six credit hours may be shared between the certificate and other degree programs, minors or other certificates.

Nondegree-seeking students

This certificate is available through the Pathways for the Future program (<https://pff.asu.edu/>). Applicants without a bachelor's degree are eligible to apply for, and receive, this certificate, through the Pathways for the Futures program. Applicants who already hold a bachelor's degree should apply to ASU and this certificate program as a nondegree-seeking graduate student.

Attend Online:
